I am reducing this item by $15,000 to reflect deletion of the legislative augmentation to provide funding to support laboratory services for a migrant health services program. The laboratory services for these types of federally funded programs have historically been funded by local governments Given the present expenditure environment, it is unwise for the state to backfill for discretionary federal and local government program shortfalls

I am deleting Provision 3(g) to conform to this action

I am deleting Provision 3(h) which specifies the calculation methodology for the allocation of the $150 million reduction in the Medically Indigent Services Program because it appears that, due to the short time frame in which the language was developed, not all of the ramifications of the allocation methodology may have been deliberated. Therefore, I am directing the Department of Health Services to immediately commence the cooperative determination of the most appropriate allocation meth-

odology and to effectively pursue and implement the mechanisms necessary to achieve the reduction

Item 4260-111-890—For local assistance, Department of Health Services. I delete Provision 2(c).

I am deleting Provision 2(c) which would specify the priority order and amounts for expenditure of federal Maternal and Child Health (MCH) funds that may be available in 1990-91 from funds carried over from prior years This language, while generally reflective of departmental priorities for the use of these funds, could conflict with the department's ability to prioritize its funding needs due to the $3 million funding reduction to MCH programs in Item 4260-111-001 as part of the Legislative agreement.

Item 4260-112-036—For local assistance, Department of Health Services I delete this item.

I am deleting the $200,000 legislative augmentation for the Long Beach Stroke Center. While the project may be meritorious, it should be considered for funding in the context of statewide priorities and available funding. The Special Account for Capital Outlay should be made available for higher statewide priorities for which alternative funding sources are limited or are not available.

Item 4260-121-001—For local assistance, Department of Health Services I reduce this item from $6,564,000 to $3,564,000 and delete Provisions 1 and 2.

I am deleting the $1,720,000 legislative augmentation to expand the Alzheimer's Program Treatment Centers in rural and urban areas. I am also deleting the $1,280,000 legislative augmentation to fund new and existing treatment centers and related department administrative costs I am deleting the augmentations because they were made by the Legislature despite limited state resources and they are inconsistent with the need to protect current vital programs, hold spending growth to income growth and provide for a proven prudent reserve for economic uncertainties.

I am deleting Provisions 1 and 2 to conform to this action

Item 4300-001-496—For support of Department of Developmental Services. I reduce this item from $80,000 to $60,000

I am deleting the $20,000 legislative augmentation to develop contracts to establish and support self-advocacy organizations and provide conferences for primary consumers. Both the State Council on Developmental Disabilities and the Area Boards on Developmental Disabilities have been established to represent the needs of developmentally disabled consumers. The 1990-91 Governor's Budget proposed, and the Legislature approved, a funding increase for the Area Boards to enable them to facilitate the participation of an increased number of consumers as board members. In view of these facts, this augmentation represents an unnecessary expenditure of limited state funds.

Item 4300-003-001—For support of Developmental Services. I reduce this item from $19,186,911 to $16,686,911 by reducing.

(a) 20-Developmental Centers Program from $538,411,911 to $535,911,911.

I am deleting the $2,500,000 legislative augmentation which was intended to fund health benefits for contract janitorial staff at the Developmental Centers Contract janitorial staff have been employed at the Developmental Centers since January 1987 An initial three-year contract for these services was followed by a second 30-month contract which commenced in January 1990 During neither the initial contract nor the negotiations over the second did the contractor identify a need for additional funding of health benefits Rather, the contract was freely entered into by all parties with the understanding that the provision of benefits was a responsibility of the contractor Consequently, the state has no obligation to augment this contract for any purpose. Furthermore, the legal authority of the state to do so is questionable since other firms which bid or might have bid on the contract could raise a legal challenge to what would be an irregular and possibly unfair contracting procedure.

Item 4300-101-001—For local assistance, Department of Developmental Services. I reduce this item from $550,912,075 to $533,349,075 by reducing

(a) 10.10.010-Operations from $156,682,075 to $154,195,075, and

(b) 10.10.020-Purchase of Services from $424,850,000 to $409,774,000,

and by revising Provision 9.

I am reducing this Item by $17,563,000 to reflect the following actions:

I am reducing $1,600,000 which would have provided funds to continue to pay residential providers the artificial "red circle" rates during implementation of the Alternative Residential Model (ARM). While I am supportive of the ARM program, in light of the current budget deficit, the rates paid to residential providers must be held at the levels identified as correct in the department's rate studies.

I am reducing $5,354,000 which would have provided ARM rate increases equal to the rise in the projected 1990-91 Consumer Price Index. This augmentation would constitute a cost-of-living adjustment for one specific group of providers. I am unable to provide discretionary cost-of-living adjustments because doing so would create inequities among other important programs that are not being provided such adjustments due to budgetary constraints.

I am reducing $100,000 which would have provided high fair market value (HFMV) ARM rates in Santa Barbara county. In the department's rate study conducted by Price Waterhouse, 12 counties were identified as HFMV counties. Santa Barbara was not among those counties. Therefore, this augmentation is not justified. Furthermore, approval of this augmentation could encourage other counties not designated HFMV to seek special consideration to receive HFMV rates.

I am reducing $8,022,000 which would have provided ARM rate increases equal to the increase in the 1989-90 Consumer Price Index. I am unable to provide discretionary cost-of-living adjustments because doing so would create inequities among other important programs that are not being provided such adjustments due to budgetary constraints.

I am reducing $2,487,000 which would have provided a discretionary COLA for Regional Center employees. I am unable to provide discretionary cost-of-living adjustments because doing so would create inequities among other high priority programs that are not being provided such adjustments due to budgetary constraints

I am revising Provision 9 because it would create a contingent appropriation by authorizing the redirection of General Fund savings to the Program Development Fund and to Regional Resource Development Projects. While these proposed uses may have merit, I cannot approve discretionary General Fund expenditures at this time.

"9. Allocations for the operations costs associated with Targeted Case Management shall be made on a quarterly basis. At least 30 days prior to the second, third, and fourth quarters of the 1990-91 fiscal year, the department shall determine whether or not federal reimbursement for targeted case management remains reasonably likely to occur, and shall notify the Director of Finance of its determination. At the same time, if the department determines that reimbursement is no longer a reasonable possibility, it shall advise the regional centers to terminate TCM operations activities within 30 days and shall make no further quarterly allocations. No sooner than 30 days after notification in writing to the Chairperson of the Joint Legislative Budget Committee, the Director of Finance shall unallot the TCM operations funds for those quarterly allocations which have been determined to be unnecessary. ~~If this occurs, one-half of the funds unalloted shall be allocated to the Program Development Fund and one-half shall be used for the Regional Resource Development Projects.~~ "

Item 4300-101-172—For local assistance, Developmental Services. I delete Provision 2.

I am deleting Provision 2, which would require the department to report to the Legislature by October 1, 1990, if it intends to allocate more than 25 percent of the portion of the Program Development Fund which is derived from parental fees and contributions to any appropriation or combination of appropriations not exclusively dedicated to the start-up of new community programs. This language is unworkable because the specified reporting deadline occurs prior to the department's selection

of projects to be funded with Program Development Fund (PDF) monies. As such, the language would infringe on the constitutional authority of the Executive Branch to administer state programs efficiently and effectively. I have no objection to providing the Legislature information on PDF allocations, however, the Legislature may request information of this type without Budget Act language.

Item 4440-101-001—For local assistance, Department of Mental Health. I reduce this item from $518,352,000 to $447,276,000 by reducing:

(b) 10.25-Community Services—other treatment from $550,710,000 to $548,081,000,

(c) 10.40-Adult System of Care Pilots from $11,747,000 to $8,000,000,

and by deleting:

(d) 10.50-Mental Health services for Wards and Dependents ($3,700,000),

and by adding:

Unallocated Reduction —$61,000,000,

and by deleting Provision 12

I am reducing a total of $8,576,000 in new additional funding for three projects, including the Chapter 1361, Statutes of 1987 (AB 377) Children's Mental Health System ($2,629,000), the Chapter 982, Statutes of 1988 (AB 3777) Adult System of Care Pilots ($2,247,000), and the Chapter 1294, Statutes of 1989 (SB 370) Mental Health Services for Wards and Dependents ($3,700,000). I support each of these programs and included all of these projects in my 1990-91 Governor's Budget. However, due to fiscal constraints and to ensure funding for other high priority programs, I can no longer support these expenditures.

I am reducing $61,000,000 from this item by adding an unallocated reduction This reduction is essential to provide funding for other high priority programs and to ensure a prudent General Fund reserve By allowing for an unallocated reduction in this item, the Department of Mental Health will have the opportunity to consult with the Conference of Local Mental Health Directors to effect reductions in county programs in accordance with local needs and priorities

I am deleting the $1,500,000 legislative augmentation to expand the Adult System of Care Pilot Projects to additional counties I signed Chapter 982, Statutes of 1988, which authorized the Adult System of Care demonstration program because it is important for California's mental health system to develop new service delivery models which can improve mental health care in a cost-effective manner However, it would be inappropriate to expand this demonstration project to additional counties before it has been thoroughly evaluated

I am deleting Provision 12 to conform to this action

Item 4440-141-001—For local assistance, Department of Mental Health, for services provided in Institutions for Mental Diseases I reduce this item from $72,585,000 to $68,212,000 by reducing

(a) 10.95 Institutions for Mental Diseases from $85,617,000 to $81,244,000,

and by deleting Provision 13.

I am revising reimbursements to make a technical correction by revising

(b) Reimbursements from —$13,632,000 to —$13,032,000.

I am reducing this item by $4,373,000 to fund 226 additional beds in Institutions for Mental Diseases (IMDs). I support the IMD program and included this funding for new beds in my January Budget However, in order to maintain funding for other high priority programs, and to maintain a prudent General Fund reserve, I am unable to support this expenditure.

I am deleting Provision 13, which would establish priorities for the allocation of the newly funded beds in Institutions for Mental Diseases, because the language is unclear as to its requirements and could therefore infringe on the Executive Branch's authority to manage state programs efficiently. Specifically, the language indicates that the first priority for the new beds shall be to meet the requirements of federal Nursing Home Reform (NHR). However, the language does not specify how many of the new beds must be allocated for this purpose. Furthermore, the Department of Mental Health advises that no beds need to be allocated during 1991 in order to meet the requirements of NHR In view of these facts, and to enable the department to allocate the beds to the areas of highest need, I am deleting this provision.

Item 4440-490—Reappropriation, Department of Mental Health I revise this item by reducing.

(4) Item 4440-001-001, Budget Act of 1989, from $621,000 to $300,000,

and by deleting Provision 1.

I am reducing the legislative reappropriation of $621,000 from Item 4440-001-001, Budget Act of 1989, to $300,000 This augmentation was proposed for the purposes of adding 2.5 personnel years and contracting funds for a state hospital staffing standards study. I agree that the staffing standards in the State hospitals should be updated to reflect changes in operating practices and in the requirements of various licensing and accreditation agencies since the last study was performed in 1973. However, given the delays inherent in soliciting contract assistance, and considering existing fiscal constraints, the department estimates that $300,000, which includes funds for up to 1.2 personnel years, will be sufficient to cover expenditures for this study during 1990-91

I am deleting Provision 1 because it contains unrealistic target dates for the completion of the staffing study I am, however, directing the department to comply with sections (a) and (b) of Provision 1, which refer to the technical aspects of standard setting, to the extent that these do not conflict with the requirements of other licensing, certification and accreditation agencies

Item 5160-101-001—For local assistance, Department of Rehabilitation I reduce this item from $80,462,000 to $80,314,000 by reducing.

(a) 10-Vocational Rehabilitation Services from $655,000 to $507,000,

and by deleting Provision 4.

I am deleting the $148,000 legislative augmentation for the Center for the Partially Sighted The proposed augmentation would provide a discretionary augmentation not directly tied to a service expansion. While I am supportive of this program, I am unable to provide discretionary adjustments. Such an action would create inequities among other important programs that are not being provided cost-of-living adjustments due to budgetary constraints.

I am deleting Provision 4 to conform to this action.

Item 5180-121-001—For local assistance, Department of Social Services I reduce this item from $4,194,000 to $2,894,000 by reducing:

(a) 10.12-Special Adult Programs from $4,269,000 to $2,969,000

I am reducing the Special Adult Programs by $1,300,000 from this item and $700,000 in the corresponding local assistance Item 5180-141-001 I am taking this action because spending mandates and entitlement formulas are currently estimated to expand well beyond the rate of increase in our revenues It is necessary to recognize that such restrictions are forcing the budget to increase substantially without regard to the availability of revenues. Consequently, this reduction is necessary to ensure fiscal responsibility for the future. Under the authority provided in the Welfare and Institutions Code Section 12601, I am directing the Director of the Department of Social Services to institute the necessary controls to administer this program within the amounts provided in the Budget Act.

Item 5180-141-001—For local assistance, Department of Social Services I reduce this item from $180,734,000 to $180,034,000 by reducing

(a) 10.20-County Administration from $798,811,000 to $798,111,000

I am reducing $700,000 from this item for the administration of the Special Adult programs to correspond with my action on this issue in Item 5180-121-001

Item 5180-141-890—For local assistance, Department of Social Services. I reduce this item from $639,591,000 to $617,627,000

I am reducing this item by $21,964,000 to make a technical correction to accurately reflect the amount of federal funds necessary for the County Administration program and to conform to the scheduled federal fund payable in Item 5180-141-001.

Item 5180-151-001—For local assistance, Department of Social Services I reduce this item from $819,632,563 to $760,798,563 by reducing

(a) 20.30-Other County Social Services from $523,952,000 to $467,602,000

(1) 20 30.010-Child Welfare Services Grant from $449,420,000 to $394,570,000, and
(2) 20 30 030-County Services Block Grant from $74,532,000 to $73,032,000,
(b) 20 35-Specialized Adult Services from $646,723,000 to $646,473,000
(2) 20.35.240-Maternity Care from $2,154,000 to $1,904,000,
(c) 20 40-Employment Services from $194,253,126 to $180,453,126,
(f) 20 47-Child Abuse Prevention from $20,300,000 to $10,250,000, and
(h) Amount payable from the Federal Trust Fund (Item 5180-151-890) from −$632,358,563 to −$610,742,563,

and by deleting Provisions 9, 10, 11, 12 and 15.

I am deleting the $27,423,000 legislative augmentation from this item and $10,216,000 in the Federal Trust Fund Item (5180-151-890) which would fund program growth in the Family Maintenance, Family Reunification and Permanent Placement Components of the Child Welfare Services Program The Budget will provide $7 7 million to fully fund caseload growth in the Emergency Response Component While I am supportive of child welfare services in California, limited state resources necessitate limiting or reducing the growth of the non-education areas of the budget

I am deleting Provision 12 which specifies the provisions under which the In-Home Supportive Services program currently operates This Provision is duplicative and merely restates current law Furthermore, if it was intended that this Provision provide substantive law changes, the Budget Act is not an appropriate mechanism to address changes in substantive law

I am deleting Provision 12 to conform to this action

I am deleting the $1,500,000 legislative augmentation to reestablish funding for the five Adult Protective Services (APS) pilot projects The 1989 Budget Act which I signed proposed to fund the APS projects in five counties at a General Fund cost of $607,000 through January 1, 1990 The pilot projects were intended to test, on a time-limited basis, various types of adult protective services to determine the most effective and cost efficient approaches of providing such services The Department of Social Services has collected this data and has completed the evaluation Consequently, the intention of this pilot has been met.

I am deleting Provision 15 to conform to this action

I am reducing the Maternity Care program in the amount of $250,000 The 1989-90 expenditures in this program are expected to be approximately $1,900,000, or 13 4 percent less than the $2,154,000 budgeted for maternity home care contractors. This program has, for the last four fiscal years, consistently underexpended its General Fund appropriation by an annual average of $252,000 Consequently, it is appropriate to provide General Fund at a level that more accurately reflects historical expenditures.

I am deleting Provision 9 to conform to this action.

I am deleting the $2,400,000 legislative augmentation from this item and $2,400,000 from the Federal Trust Fund (Item 5180-151-890), which was augmented to disallow the state from realizing General Fund savings by claiming enhanced federal financial participation for case management services in the Greater Avenues for Independence (GAIN) program This reduction is necessary to maintain funding levels for other vital state programs, hold spending income to growth income and to provide a proven prudent reserve for economic uncertainties

I am deleting the $9,000,000 legislative augmentation in federal funds which match the reappropriation for the GAIN program in Item 5180-490. I am also reducing the amount payable from the Federal Trust Fund (Item 5180-151-890) by a corresponding amount to conform with my actions in Item 5180-490

I am deleting Provision 10 because it inhibits the ability of counties to choose the most cost-effective method for implementing the GAIN program. This provision would limit a county's ability to consider operational alternatives which may prove to be fiscally beneficial to the state Therefore, this provision interferes with the Administration's ability to manage its programs and would result in increased costs to the state

I am deleting the $10,050,000 legislative augmentation which restores the funding for the Child Abuse Prevention Training Act (CAPTA) program. Under CAPTA, the Office of Child Abuse Prevention 1) distributes funds to grantees for child abuse prevention training and education to children, parents and teachers in the public school system and 2) supports two training centers. While I am supportive of efforts to ensure the health and safety of California's children, limited state resources necessitate limiting or reducing the growth of the non-education areas of the budget. Consequently, I am eliminating the General Fund for the CAPTA program. However, I am maintaining sufficient funds to continue the Office of Child Abuse Prevention and more importantly funds for direct services through the Child Abuse Prevention, Intervention and Treatment (CAPIT) Program. The CAPIT Program provides prevention, intervention and treatment services to children at risk of abuse or neglect. Given the difficult choices that are required to balance the budget and live within available revenues, priority should be given to programs providing direct services to high risk children Furthermore, since the CAPTA program is provided in state funded preschools and public schools, it would appear more appropriate for local school districts to determine, on a priority basis, whether to provide resources for these activities under Proposition 98. Specifically, local school districts have general purpose and staff development funds available that could be directed to these activities.

I am deleting Provision 11 to conform to this action

I am deleting the $17,211,000 in this item to provide funding for the Child Welfare Services 1989-90 cost-of-living adjustment. This Administration has had a policy of funding salary increases, given by counties, on a one year in arrears basis. However, in order to protect vital programs, hold spending growth to income growth and provide for a proven prudent reserve for economic uncertainties, this action is necessary

Item 5180-151-890—For local assistance, Department of Social Services. I reduce this item from $632,358,563 to $610,742,563

I am deleting the $10,216,000 legislative augmentation to fund program growth in certain portions of the Child Welfare Services program to correspond with my action on this issue in Item 5180-151-001

I am deleting the $2,400,000 legislative augmentation for the Greater Avenues for Independence (GAIN) program to correspond with my action on this issue in Item 5180-151-001

I am deleting the $9,000,000 legislative augmentation to match the reappropriation of funds for the GAIN program to correspond with my action on this issue in Item 5180-490

Item 5180-158-001—For local assistance, Department of Social Services. I revise this item by deleting subcategories (1), (2) and (3) of category (a) and deleting Provisions 1 and 2

These subcategories and provisions limit the ability of Los Angeles County and the Administration to choose the most cost-effective means of implementing the Greater Avenues for Independence (GAIN) program Prohibiting new intakes into the Los Angeles County GAIN program would also limit Los Angeles County and the Administration's ability to adjust the caseload in the GAIN program to conform to the target groups specified in the Job Opportunities and Basic Skills program contained in the federal Family Support Act. Not serving sufficient numbers of these target groups would jeopardize the receipt of enhanced federal financial participation in the GAIN program. These subcategories and provisions prohibit the Administration from choosing operational alternatives that are fiscally beneficial to the state, jeopardize the receipt of federal funds, and would invariably result in increased costs to the state.

I am deleting Provisions 1 and 2 to conform to this action.

Item 5180-181-001—For local assistance, Department of Social Services. I delete this item

Consistent with my policy to suspend the statutory cost-of-living adjustments (COLAs) in Health and Welfare programs, I am deleting the $114,278,000 legislative augmentation to restore the 4.62 percent COLA in the Aid to Families with Dependent Children program, the $145,457,000 legislative augmentation to provide a 4.62

percent COLA in the Supplemental Security Income/State Supplementary Program and the $3,131,000 legislative augmentation to restore the COLA in the In-Home Supportive Services program. I am also deleting the corresponding federal funds to conform to this action This action is consistent with the action that the Legislature has taken to suspend the COLAs as authorized by AB 3573 and SB 2097.

Item 5180-181-890—For local assistance, Department of Social Services. I reduce this item from $143,894,000 to $19,077,000.

I am deleting the $123,296,000 legislative augmentation to provide a statutory 4 62 percent cost-of-living adjustment in the Aid to Families with Dependent Children program, to correspond to my action on this issue in Item 5180-181-001.

I am deleting the $93,000 legislative augmentation to provide a 4.62 percent statutory cost-of-living adjustment in the Supplemental Security Income/State Supplementary Program, to correspond to my action on this issue in Item 5180-181-001

I am deleting the $1,428,000 legislative augmentation to provide a 4.62 percent statutory cost-of-living adjustment in the Refugee Cash Assistance program, to correspond to my action on this issue in Item 5180-181-001.

Item 5180-490—Reappropriation, Department of Social Services I delete paragraph (2) from this item.

I am deleting paragraph (2) and the reappropriation of $9,000,000 to maintain allocations for fiscal year 1990-91 in the Greater Avenues for Independence (GAIN) program at their 1989-90 fiscal year levels This reappropriation would reduce the amount of funds available to maintain a prudent reserve. In addition, any reappropriation of funds for the GAIN program should contain funds from the Proposition 98 reserve to provide education services to participants This reduction conforms to my other actions in Item 5180-151-001 and 5180-151-890

Item 5240-001-001—For support of the Department of Corrections I reduce this item from $2,096,173,000 to $2,096,171,000 by reducing:

(a) 21-Institution Program from $2,006,314,000 to $2,003,472,000,

(b) 31-Community Correctional Program from $191,818,000 to $191,504,000,

(e) Reimbursements from −$19,119,000 to −$15,965,000,

and by deleting Provisions 7, 8, 9 and 10.

I am deleting Provision 7 which would require the Department of Corrections to pursue all available federal funds to support substance abuse programs for inmates and parolees. This language duplicates the existing requirements of Section 8.5 and is therefore unnecessary.

I am deleting Provision 8 and reducing this item by $1,000 because requiring the Department of Corrections to obtain advance approval from the Legislature for all permanent mission changes will unduly restrict the department's flexibility in managing the inmate housing facilities and programs for a rapidly increasing and changing inmate population. Furthermore, the department currently provides the Legislature with detailed information at least twice a year regarding all current and anticipated mission changes Although costs have not been budgeted in 1990-91 for such reporting, I am reducing $1,000 to reflect the costs of this reporting requirement.

I am deleting Provision 9 and the legislative augmentations totaling $3,000,000 of grant funds from the Office of Criminal Justice Planning to support the Department of Corrections' substance abuse treatment programs. The proposed 1990-91 Budget provides more than $12,000,000 for the department to provide for drug intervention pilot projects, individual program assessments for inmates and parolees and other substance abuse programs. Without prejudice to any need to augment these resources with grant funds, this reduction conforms to action I have taken on the budget for the Office of Criminal Justice Planning. At the same time, I am sustaining the $333,000 legislative augmentation of grant funds from the Department of Alcohol and Drug Abuse Programs for an additional project to provide inmates pre-release substance abuse treatment to complement the increased local project funding for similar programs for parolees.

I am deleting Provision 10 and reducing this item by $1,000 because requiring the Department of Corrections to perform zero base analyses of Folsom Prison and the

Deuel Vocational Institution would duplicate the continuous and thorough review the department's prison staffing proposals already receive and because preparing such analyses within the unreasonably short deadlines required by the Legislature would require staff resources well beyond those provided in the department's 1990-91 budget. Although the costs of such analyses have not been budgeted in 1990-91, I am reducing $1,000 to reflect the costs of these analyses.

I am deleting the $154,000 legislative augmentation of grant funds from the Office of Criminal Justice Planning which were added to offset the redirection of an equal amount from the Department of Corrections' pre-release substance abuse program funds to provide additional counseling staff for the department's eight Prisoner Mother programs. These new positions represent a program expansion beyond the level proposed in the budget which is not justified when compared to other priorities.

Item 5240-311-746—For capital outlay, Department of Corrections. I delete this item and Provisions 1 and 2.

Chapter 165, Statutes of 1987, provided funding for the siting of a reception center in East Los Angeles and a prison in Lancaster; therefore, funding for the identification of other potential sites is not necessary.

I am deleting Provisions 1 and 2 to conform to this action.

Item 5240-497—Reversion, Department of Corrections. I delete this item.

I am deleting this reversion appropriation to be consistent with law and because the reversion adversely impacts public peace, health, and safety by stopping the construction of facilities needed to house the significant increase in state prisoners

Item 5460-001-001—For support of the Department of the Youth Authority I revise this item by reducing.

(b) 20-Institutions and Camps from $273,951,000 to $273,451,000,

(f) Reimbursements from −$18,890,000 to −$18,390,000,

and by deleting·

(g) Amount payable from the 1986 Prison Construction Fund (Item 5460-001-746), (−$147,000),

and by deleting Provisions 3 and 4.

I am deleting Provision 3 which would require the Department of the Youth Authority to pursue all available federal funds to support substance abuse programs for wards and parolees. This language duplicates the existing requirements of Section 8.5 and is therefore unnecessary.

I am deleting Provision 4 and the $500,000 legislative augmentation from the Office of Criminal Justice Planning grant funds for the implementation of the Department of the Youth Authority's Drug and Alcohol Abuse Program plan. This augmentation is premature because the Department has not completed such a plan.

I am deleting Schedule (g) to make a technical correction to the bill to conform to the legislative action taken to delete Item 5460-001-746.

Item 5460-101-001—For local assistance, Department of the Youth Authority. I am reducing this item from $73,905,000 to $40,905,000 by reducing:

(a) 10-Prevention and Community Corrections from $70,105,000 to $37,105,000,

and by revising Provision 4.

I am reducing this item by $33,000,000 in funding provided to support the County Justice System Subvention Program. This action is among the numerous program reductions needed to balance the General Fund budget and to provide for a proven prudent reserve. This action retains $34,298,000 in local subvention funding for this program which is sufficient for the counties to maintain important programs, including the costs of juvenile court reforms mandated by Chapter 1071, Statutes of 1976.

I am revising Provision 4 to conform to this action

"4. Of the amount appropriated within Schedule (a), ~~$67,298,000~~ *$34,298,000* is provided to support the County Justice System Subvention Program in accordance with Article 7 (commencing with Section 1805) of Chapter 1 of Division 2.5 of the Welfare and Institutions Code. Notwithstanding any other provision of law, any county receiving funds from the County Justice System Subvention Program shall use those funds in the 1990-91 fiscal year for the

purposes specified in Section 1806 of the Welfare and Institutions Code."

Item 6110-001-001—For support of Department of Education. I reduce this item from $49,903,000 to $33,973,000 by reducing:

(b) 20-Instructional Support from $36,566,000 to $24,144,000, and by adding:

Unallocated Reduction —$3,508,000,

I am reducing this item by 28 positions and $12,422,000 to eliminate the California Assessment Program. This action is necessary to protect higher priority programs and to provide for a proven prudent reserve for economic uncertainties I am setting aside $12 million within the Proposition 98 guarantee to be appropriated in separate legislation for a new assessment system for California. I have retained $720,000 to allow for an orderly transition of staff into other positions of employment

I am further reducing this item by an unallocated $3,508,000. When the impact of Section 3.80 is added to this reduction, the total reduction in this item will result in a ten per cent unallocated reduction. This action is necessary to protect vital programs and provide for a prudent reserve for economic uncertainties. This reduction has been adjusted by $50,000 to retain that amount for additional legal services for the State Board of Education.

Item 6110-005-001—For support of State Department of Education I delete Provision 2.

I am deleting Provision 2 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction. Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act

Item 6110-006-001—For support of Department of Education (Proposition 98), as allocated by the Department of Education. I delete Provision 4

I am deleting Provision 4 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions. First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act.

Item 6110-015-001—For support of Department of Education. I reduce this item from $402,000 to $327,000.

I am deleting the $75,000 legislative augmentation to fund a clearinghouse to recycle used and obsolete textbooks. This action is necessary to keep state spending growth in line with income growth

Item 6110-101-001—For local assistance, Department of Education (Proposition 98) I reduce this item from $9,919,227,000 to $9,911,665,000 by reducing·

(a) Program 10.10 001 001—School Apportionments, District Revenue Limit, for the purposes of Section 42238 of the Education Code from $9,751,582,000 to $9,744,282,000,

(b) Program 10.10.001.002—School Apportionments, for Necessary Small Schools, in addition to the amount appropriated in category (a) of this item for the purpose of subdivision (f) of Section 42238 of the Education Code from $19,075,000 to $18,813,000,

and by deleting Provisions 20, 22, 24, 26 and 27.

I am deleting the $7,300,000 legislative augmentation to provide a general declining enrollment adjustment. I am retaining a declining enrollment adjustment for those high school districts for which the feeder elementary school districts have increasing enrollments This is in addition to the one year declining enrollment adjustment already provided in statute

I am deleting Provisions 22 and 27 to conform to these actions.

I am deleting the legislative augmentation of $262,000 to fund necessary small high school adults in independent study programs at a higher rate than other adults in

independent study programs. Special treatment of necessary small schools, in this instance, is not warranted.

I am deleting Provision 24 to conform to this action.

I am deleting Provision 26 because this provision would set a precedent for small school districts to establish a minimum revenue guarantee I realize that, small schools may have a disproportionate loss in revenue when dropping from one category of supplemental revenue limit funding to another. However, it is inappropriate to disregard established definitions for funding necessary small schools. Exceptions to these limits would result in future pressure to fund similar types of minimum funding guarantees.

I am deleting Provision 20 because this provision would allow those school districts that are not correctly reporting property tax redemptions monies under current law to continue this practice for another year. This practice results in an under reporting of local revenues which offset state aid and, therefore, provides an unfair advantage to those districts over districts that are reporting revenues correctly.

Item 6110-106-001—For local assistance, Department of Education, (Proposition 98). I delete Provision 12.

I am deleting Provision 12 because this provision would allow those county offices of education that are not correctly reporting property tax redemption monies under current law to continue this practice for another year. This practice results in an under reporting of local revenues which offset state aid and, therefore, provides an unfair advantage to those counties over county offices of education that are reporting these revenues correctly

Item 6110-111-001—For local assistance, Department of Education (Proposition 98), for transfer to Section A of the State School Fund, Program 10 10—School Apportionments. I reduce this item from $327,067,000 to $323,067,000 by reducing:

(a) Program 10.10.006—School Apportionments, for the purposes of Article 10 (commencing with Section 41850) of Chapter 5 of Part 24 of the Education Code from $323,770,000 to $319,770,000

I am deleting $4,000,000 of the $10,000,000 legislative augmentation for population growth for home-to-school transportation.

This reduction is necessary to ensure the total appropriations for Proposition 98 will not exceed the guarantee

Item 6110-114-001—For local assistance, Department of Education (Proposition 98). I reduce this item from $433,820,000 to $425,519,000 by reducing:

(2) 10.10.018.010-Los Angeles Unified School District from $319,613,000 to $314,613,000, and

(5) 10.10.018 025-San Francisco Unified School District from $30,884,000 to $27,583,000,

and by revising Provision 5.

I am deleting the $3,300,000 legislative augmentation for the San Francisco Unified School District court-ordered desegregation program that would continue 100 percent state reimbursement for program costs. The U.S Court of Appeals has ruled that the required state reimbursement rate is the 80 percent rate established in the Education Code. This deletion would fund the San Francisco program at the statutory level.

I am reducing $5,000,000 for the Los Angeles Unified School District, which was included in the district's budget for the purpose of financing its capital outlay loan I am also reducing $1,000 for the San Francisco Unified School District, which had not previously included capital outlay costs in its budget. I am revising Provision 5 of this item to delete language which would permit reimbursement of the capital outlay costs of the Los Angeles and San Francisco Unified School Districts as well as facilities remodeling claims of all school districts with court-ordered desegregation programs. The State School Building Lease- Purchase program is the appropriate source to fund school district capital outlay costs.

"5. Funds appropriated in this item shall not be used to reimburse local educational agency claims for school construction, reconstruction, replacement of facilities, purchase of existing facilities, purchase of land, or the performance

of deferred maintenance activities on facilities; ~~except for costs incurred pursuant to direct contractual commitments signed or court orders issued prior to June 30, 1990. Funds allocated to the San Francisco Unified School District for capital outlay costs from this item shall not exceed $15,000,000 in 1990-91.~~

~~This provision shall not be construed to exclude reimbursement for costs of remodeling existing facilities, provided that the remodeling is required in order to implement a desegregation-related educational program. Reimbursement for remodeling costs from this item shall be limited to 10 percent of the costs of replacing the facility being remodeled~~ "

Item 6110-115-001—For local assistance, Department of Education. I reduce this item from $78,824,000 to $76,218,000 by deleting:

(43) 10 10.019 043—*Instruction· School Apportionments—voluntary* desegregation-Grant Joint Union High School District ($2,606,000),

and by revising Provision 5

I am deleting this $2,606,000 legislative augmentation. The voluntary desegregation program at the Grant Joint Union High School District will not be implemented until September, 1990 Consistent with how such claims were treated in 1989-90, initial funding for new programs should be provided through the deficiency process following audit of actual claims by the State Controller.

I am also revising Provision 5 to delete language which would authorize reimbursement of capital outlay expenses of the Los Angeles and San Francisco Unified School Districts to conform with actions taken in Item 6110-114-001.

"5. Funds appropriated in this item shall not be used to reimburse local education agency claims for school construction, reconstruction, replacement of facilities, purchase of existing facilities, purchase of land, or the performance of deferred maintenance activities on facilities; ~~except for costs incurred pursuant to direct contractual commitments signed or court orders issued prior to June 30, 1990. Funds allocated to the San Francisco Unified School District for capital outlay costs from this item shall not exceed $15,000,000 in 1990-91.~~

~~This language is not intended to exclude reimbursement for costs of remodeling existing facilities, provided that the remodeling is required in order to implement a desegregation-related educational program. Reimbursement for remodeling costs from this item shall be limited to 10 percent of the costs of replacing the facility being remodeled~~ "

Item 6110-117-001—For local assistance, State Department of Education I delete Provision 1

I am deleting Provision 1 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction. Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act

Item 6110-118-001—For local assistance, Department of Education (Proposition 98). I delete Provision 1.

I am deleting Provision 1 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions. First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction. Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act

Item 6110-120-001—For local assistance, Department of Education (Proposition 98). I reduce this item from $13,150,000 to $11,737,000 and revise Provisions 2 and 4, and delete provision 7

I am deleting the $1,413,000 legislative augmentation for expansion of dropout

recovery programs and educational clinics. While I am supportive of efforts in this area, this program is not as high a priority as funding statutory growth, and class size reduction.

Consistent with this action I am revising Provisions 2 and 4 and deleting Provision 7

"2. Of the amount appropriated in this item, ~~$2,000,000~~ *$1,400,000* shall be available for the funding of outreach consultants by up to 50 school districts with dropout recovery program plans developed in accordance with Chapter 1431, Statutes of 1985."

"4. Of the amount appropriated in this item, ~~$1,900,000~~ *$1,600,000* shall be available for payments to certified educational clinics established in accordance with Chapter 3.5 (commencing with Section 58550) of Part 31 of the Education Code "

Item 6110-128-001—For local assistance, Department of Education (Proposition 98) I delete Provision 1.

I am deleting Provision 1 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions. First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act

Item 6110-129-001—For local assistance, State Department of Education I delete Provision 1

I am deleting Provision 1 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction. Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act.

Item 6110-151-001—For local assistance, Department of Education (Proposition 98) I delete this item and Provision 1.

I am deleting $2,372,000 for the Indian Education Centers due to the need to protect higher priority programs and to provide for a prudent reserve for economic uncertainties

I am deleting Provision 1 to conform to this action

Item 6110-161-001—For local assistance, Department of Education (Proposition 98) I delete Provision 14

I am deleting Provision 14 because this would allow those county offices of education which are not correctly reporting property tax redemption monies under current law to continue this practice for another year This practice results in an under reporting of local revenues which offset state aid and, therefore, provides an unfair advantage to those counties over county offices of education that are reporting these revenues correctly.

Item 6110-161-890—For local assistance, Department of Education. I delete Provision 10

I am deleting Provision 10 which would allocate $200,000 to the Timpany Center because the federal grant is fully allocated and would require a reduction in other programs to fund the Center. The Timpany Center is operated by a private foundation While I am supportive of the efforts of organizations like the Timpany Center, educational programs are a higher priority for the use of limited resources

Item 6110-171-178—For local assistance, Department of Education. I reduce this item from ($21,236,000) to ($1,000)

I am reducing funds available for the Driver Training Program from $21,236,000 to $1,000 due to the need to protect vital programs and provide for a proven prudent reserve for economic uncertainties

This program should be funded under the provisions of Proposition 98. Therefore I am setting aside $21,000,000 for the purpose of funding a driver education program.

Item 6110-190-001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the $293,000 legislative augmentation to establish a Global Studies Demonstration Project in the La Canada Unified School District. This project is not as high a priority as statutory growth and class-size reduction.

I am deleting Provision 1 to conform to this action.

Item 6110-192-001—For local assistance, State Department of Education. I delete this item and Provision 1.

I am deleting the $1,603,000 in funding for non-Proposition 98 K-12 staff development programs. This action is necessary to protect vital programs, hold spending growth to income growth and to provide for a prudent reserve for economic uncertainties

I am deleting Provision 1 to conform to this action.

I am also deleting funds in Item 6110-227-001 to conform to this action

Item 6110-196-001—For local assistance, Department of Education. I reduce this item from $352,105,000 to $348,105,000 by adding:

Unallocated Reduction —$4,000,000,

and by deleting Provisions 14 and 18.

The Legislature has included the entire Child Development appropriation within the Proposition 98 guarantee. Consistent with the Constitution and the court decision, only appropriations of funding to be allocated to school districts, community college districts, or state agencies that provide direct elementary and secondary level instruction are eligible for Proposition 98. Therefore, I am deleting the Proposition 98 designation in this item because it is inconsistent with the Constitution, and I am instructing the Director of Finance to designate $132,925,000 of the funds appropriated in this item and $4,108,000 of the funds appropriated for cost-of-living adjustments as non-Proposition 98 appropriations. These amounts were derived using the funding level of contracts for child development programs operated by private providers during the 1989-90 fiscal year The remainder of this item will continue to be designated as Proposition 98 appropriations and may only be allocated to school districts or county offices of education.

I am reducing this item by $4,000,000 to recognize the availability of carryover funds authorized by statute from prior year unearned contract funds in the child development program. These funds should be used in place of a direct appropriation for services, which are a higher priority than the purposes which the Child Development Advisory Committee has recommended This reduction has been reflected in the above total for private provider programs.

I am deleting Provision 14 to conform to this action

In addition, I am specifically deleting Provision 18 which requires the Department of Finance to create a new formula for estimating the 0-4 population. This estimate is used to determine child care growth funding, capital outlay projections and mental health allocations. Such a change would have an impact on all population estimates and create massive funding shifts in numerous programs. This language violates the separation of powers provision of the Constitution concerning Executive Branch authority. Additionally, because existing law does not define the formula to be used by the Department of Finance in making its demographic projections, the language represents a substantive law change which can only be included within a single subject bill, not the Budget Act.

I am revising Section 12.32 to conform with these actions

I am revising this item to conform with these actions as follows

"6110-196-001—For local assistance, Department of Education ~~(Proposition 98)~~, Program 30.10—Child Development.

Item 6110-201-001—For local assistance, Department of Education (Proposition 98). I delete Provision 4

I am deleting Provision 4 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two

constitutional provisions First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction. Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act

Item 6110-202-001—For local assistance, Department of Education I delete Provision 3.

I am deleting Provision 3 which would allow transfers between Proposition 98 and non-Proposition 98 appropriations because the provision is inconsistent with two constitutional provisions. First, the language violates the requirement that funds appropriated for Proposition 98 be allocated only to school districts, community college districts, or state agencies which provide direct instruction. Second, the language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act

Item 6110-224-001—For local assistance, Department of Education (Proposition 98). I reduce this item from $51,846,000 to $8,693,000 by reducing:

(a) 10.10.950—School Apportionments (year-round school incentive payments) from $51,546,000 to $8,453,000, and

(b) 10.10.020—Year-Round School Demonstration Program (Orchard Plan) from $300,000 to $240,000,

and by revising Provisions 1, 2, and 3,

and by deleting Provisions 4, 5, 6, 7, 8, 9, and 10.

Consistent with my proposal in January, I am deleting the $43,093,000 legislative augmentation to restore funding for the existing $125 year-round school incentive program, and setting aside $27,768,000 to be appropriated in separate legislation to reform this program so that it will achieve its original intent to permanently reduce the need for new school construction

I am also reducing the budgeted amount for the Orchard Plan Demonstration Program by $60,000 This program was intended to provide funds to five school districts. Since only four districts are currently participating, the funds for the fifth district are not necessary

I am revising Provisions 1, 2, 3, and deleting Provisions 4, 5, 6, 7, 8, 9, and 10 to conform to this action

"1 The funds appropriated in Schedule (a) of this item shall be the only funds allocated as incentive payments for year-round school operations pursuant to Sections 42250 ~~and 42250.3~~ of the Education Code

2. Applications for year-round incentive payments pursuant to Sections 42250 ~~and 42250.3~~ of the Education Code must annually be received by the Office of Local Assistance by no later than December 31 of the year in which the year-round operation occurred and for which payment is sought; applications received after that date shall not be processed The Office of Local Assistance shall certify all eligible and approved claims to the Superintendent of Public Instruction by no later than April 1 of the following year. In the event that the funds available for a fiscal year are insufficient to fully pay all claims for that year, the Superintendent of Public Instruction shall at that time provide all approved claims with a prorated share of the funds made available.

3. If a district receives state reimbursement specifically attributable to the cost of operating schools on a year-round basis pursuant to a court-ordered or voluntary desegregation program, the district shall be eligible for any portion of the allowances for incentive payments pursuant to Sections 42250 ~~and 42250.3~~ of the Education Code for the 1990-91 fiscal year but only to the extent that the district incurs costs in 1990-91 specifically attributed to operating schools on a year-round basis, as audited and approved by the State Controller, that exceed claims submitted for state reimbursement and deemed to be allowable costs by the State Controller for such year-round operation pursuant to Sections 42243.6 and 42249 of the Education Code for the 1990-91 fiscal year. Funds may be distributed during the 1990-91 fiscal year pursuant to this provision However, the State Controller shall audit and

may make adjustments to the funds distributed under this item in future years"

Item 6110-226-001—For local assistance, Department of Education (Proposition 98), for cost-of-living increases. I reduce this item from $831,996,000 to $586,396,000 by reducing

(a) 10.10—School Apportionments from $673,927,000 to $474,104,000 by reducing:
(1.5) 10.10.001.001-K-12 District Revenue Limit from $616,077,000 to $432,627,000,

(6) 10.10.005-K-12 County Offices of Education from $12,127,000 to $8,567,000,
(7) 10 10.011-Summer School Programs from $4,493,000 to $3,164,000,

(9) 10 10.019-Voluntary Desegregation from $3,247,000 to $2,287,000,

and by deleting:

and by reducing:

(b) 10 30-Other Compensatory Programs from $10,723,000 to $7,973,000 by deleting:

(2) 30 10 020.001-General child development programs from $9,307,000 to $6,554,000,
(3) 30 10 020.002-Campus children's centers from $285,000 to $201,000,
(4) 30 10.020 003-School age parenting and infant development from $310,000 to $218,000,

(6) 30.10.020 005-Special allowances for rent from $20,000 to $14,000,
(7) 30 10 020.006-Special allowances for handicapped from $33,000 to $23,000,

(11) 30.10 020 010-Protective services from $47,000 to $34,000,
(12) 30 10 020 015-Extended day care from $718,000 to $506,000,
(13) 30.10 020 018-Exceptional needs from $19,000 to $13,000,
(i) 30 20-Child Nutrition from $2,102,000 to $1,316,000 by reducing:
(1) 30 20 010-Child Nutrition from $2,095,000 to $1,311,000,
(2) 30 20.020-Child Nutrition, Pregnant/Lactating Minors from $7,000 to $5,000,

I am eliminating the COLA for Year Round Schools because increases are already included in Item 6110-224-001. The reduction for the desegregation program conforms with my action in Item 6110-114-001 The reduction for the Mentor Teacher Program is a technical correction I also am eliminating $24,000 for the Indian Education Centers to conform with my action in Item 6110-151-001

I am further reducing the remaining schedules to provide a 3 percent cost-of-living adjustment for education programs

I am also revising Provision 1 of this item to reflect the actual amount of funding owed to K-12 education for the Proposition 98 guarantee in 1988-89

1 Of the amount appropriated in this item, ~~$24,989,000~~ *$21,644,000* is in satisfaction of the Proposition 98 minimum funding requirements for the 1988-89 fiscal year.

Item 6110-227-001—For local assistance, Department of Education. I reduce this item from $249,000 to $201,000 by deleting

(b) (1) 20 60 120.000—Staff Development, International Studies ($29,000),
(b) (2) 20.60.125—Geog. Education Alliances ($3,000),
(b) (3) 20.60.155—Regional Resource Science Center ($16,000).

The elimination of the COLA for staff development programs conforms with my action in Item 6110-192-001.

Item 6110-490—Reappropriation, Department of Education.

I am revising this item as follows.

001—General Fund

(1) Item 6110-224-001 (a), Budget Act of 1989, 10.10.950—School Apportionments (year-round school incentive payments)
~~(2) Item 6110-224-001 (b), Budget Act of 1989, 10.10.020—Year-Round school Demonstration Project (Orchard Plan).~~
(3) Section 12.31, Budget Act of 1989 (K-12 education share) up to ~~$120,000,000.~~ *$10,090,000*
(4) ~~Item 6110-191-001 (b), Budget Act of 1989, 20 60.50.00'—Mentor Teacher Program.~~

This item would reappropriate $119,200,000 from the 1989-90 Proposition 98 Reserve to augment the 1990-91 COLA for local education agencies and $800,000 for SB 1274. However, $109,910,000 of these funds should be used for class size reduction in accordance with the agreements reached with the Legislature relating to Chapters 82, 83 and 92, Statutes of 1989. Therefore, I am setting aside that amount for appropriation in separate legislation and reducing both of the nonappropriations. With these reductions, there will remain ~~$37,763,000~~ *$10,090,000* to be used for cost-of-living adjustments.

I am also deleting the $60,000 reappropriation for the Orchard Plan Demonstration Program. This program was intended to be implemented in five school districts. However, only four had applied by the statutory deadline It is not reasonable for a fifth district to be added for the final two years of this program.

In addition, I am deleting the $6,000,000 reappropriated from the Mentor Teacher Program for SB 1274 I am setting aside this amount for appropriation in separate legislation to establish a demonstration program of restructuring education

I am revising Provision 6, and deleting Provisions 3, 7, and 8, to conform to this action.

6 Of the amount reappropriated by category (3) of this item, ~~$119,200,000~~ *$10,090,000* shall be available from Section 12 31 of the Budget Act of 1989 to augment Item 6110-226-001 of this act.

Item 6120-011-001—For support of Department of Education, California State Library I reduce this item from $11,337,000 to $11,334,000 by reducing:

(a) 50-Library Services from $13,020,000 to $13,017,000

I am deleting the $3,000 legislative augmentation to fund increased usage of the toll-free telephone line for the Braille and Talking Book Library This expense can be absorbed within the current budget

Item 6120-211-001—For local assistance, Department of Education, California State Library. I reduce this item from $14,244,000 to $12,979,000 by reducing:

(a) 50.20.010 - California Literacy Campaign from $4,328,000 to $3,063,000.

I am deleting the $265,000 legislative augmentation to expand the California Literacy Campaign program. While I am supportive of efforts in this area, this action is necessary to keep state spending growth in line with income growth This action is necessary to protect vital programs, hold spending growth to income growth and provide for a proven prudent reserve for economic uncertainties.

I am reducing $1,000,000 available for the California Literacy Campaign as part of the agreement with the Legislature on the 1990-91 budget. This action is necessary to protect vital programs, hold state spending growth to income growth and provide a proven prudent reserve for economic uncertainties

Item 6120-221-001—For local assistance, Department of Education. I reduce this item from $20,600,000 to $16,600,000.

I am reducing the Library Foundation Program by $4,000,000 This action is necessary to protect vital programs, hold state spending growth to income growth and provide a proven prudent reserve for economic uncertainties.

Item 6420-011-001—For support of the California Postsecondary Education Commission. I reduce this item from $90,000 to $15,000.

I am deleting the $75,000 legislative augmentation for the California Planning Commission for Educational Technology. Considering the many demands for limited state resources, the augmentation for the commission is not supportable at this time. In addition, the funding I proposed in the budget is consistent with the level of General Fund support estimated to be needed at the time the bill was enacted.

Item 6440-001-001—For support of University of California I reduce this item from $2,106,921,000 to $2,096,921,000 by reducing.

(a) Support from $2,040,817,000 to $2,030,817,000

I am reducing this item in the amount of $10,000,000 to reflect the ten percent increase in the University of California resident student fees included as part of the comprehensive agreement with the Legislature on the 1990-91 Budget. This reduction is necessary to achieve a balanced budget while maintaining a prudent reserve With this reduction, I have provided sufficient financial aid funding for students from low income families who would be unable to afford the fee increase.

It is my intent that the Board of Regents act on increasing student fees to reflect my action.

Item 6610-001-001—For support of the California State University. I reduce this item from $1,654,973,000 to $1,654,358,000 by reducing:

(c) 04-Academic Support from $216,365,150 to $216,294,000,

(d) 05-Student Service from $177,531,850 to $176,988,000,

and by deleting Provision 10

I am deleting the $71,150 legislative augmentation to fund facilities rental at the Stockton off-campus center of California State University (CSU), Stanislaus. This action is necessary to keep state spending growth in line with income growth.

I am deleting the $543,850 legislative augmentation and 25.8 personnel years to enhance services for disabled students. While I am supportive of efforts in this area, I am unable to support this augmentation due to limited state resources and the need to provide for a proven prudent reserve for economic uncertainties.

I am deleting Provision 10 which states legislative intent that there be no layoffs of full-time or part-time faculty or staff as a result of unallocated budget reductions. This language is unnecessarily restrictive in that it limits the CSU's management flexibility While I do not encourage layoffs, it is not appropriate to restrict management flexibility at CSU

Item 6860-001-001—For support of California Maritime Academy. I reduce this item from $6,988,500 to $6,968,500 by revising

(f) Reimbursements from —$2,248,500 to —$2,268,500.

I am reducing this item in the amount of $20,000 to reflect the 10 percent increase in the California Maritime Academy resident student fees included as part of the comprehensive agreement with the Legislature on the 1990-91 Budget. This reduction is necessary to achieve a balanced budget while maintaining a prudent reserve. With this reduction, I have provided sufficient financial aid funding for students from low income families who would be unable to afford the fee increase.

Item 6870-001-959—For support of Board of Governors of the California Community Colleges. I delete Provision 1.

I am deleting Provision 1 which would require that any federal Title IV(e) funds received as reimbursement for foster parent training activities be deposited into the Foster Children and Parent Training Fund. This provision would unnecessarily restrict use of these funds

Item 6870-101-001—For local assistance, Board of Governors of the California Community Colleges I reduce this item from $1,709,037,000 to $1,685,733,000 by reducing

(a) 10-Apportionments from $1,543,859,000 to $1,526,874,000,

(o) 20 40 020-Deferred Maintenance from $15,000,000 to $8,681,000,

and by deleting Provisions 3, 3 1 and 22,

and by revising Provision 6.

I am deleting the $1,201,000 legislative augmentation for growth in average daily attendance (ADA) above statutory attendance limits. I am also deleting $5,000,000 of the funds appropriated in Schedule (a) for growth in ADA over the statutory limits. My actions are necessary to ensure that there is no over-appropriation of funds needed to meet the funding requirements of Proposition 98 for the California Community Colleges. The budget provides $38,900,000 to fully fund statutory growth. In addition, $4,664,000 is provided in Item 6870-493 for growth in ADA above statutory attendance limits

I am deleting Provision 3 to conform to this action.

I am deleting the $2,366,000 legislative augmentation for growth funds for new centers at Mt San Jacinto and Riverside Community College Districts. This action is necessary to ensure that there is no over-appropriation of funds needed to meet the funding requirements of Proposition 98 for the California Community Colleges. To support ADA growth at these new centers, the Chancellor may allocate part of the $38,900,000 budgeted for statutory growth or part of the $4,664,000 reappropriated for growth above the statutory limit.

I am deleting Provision 3.1 to conform to this action.

I am reducing the funds allocated for Deferred Maintenance in Schedule (o) by $6,319,000. This is necessary to ensure that there will be sufficient Transitional Program Improvement Funds to implement Phase II of program reforms pursuant to Chapter 973, Statutes of 1988, and to ensure that there will not be an over-appropriation of funds necessary to meet the funding requirements of Proposition 98 for the California Community Colleges

I am deleting $8,418,000 of the funds appropriated in Schedule (a) to appropriately reflect the California Community Colleges share of the 1988-89 Proposition 98 funds I am revising Provision 6 to conform to this action.

"6. (a) Of the amount appropriated in Schedule (a), ~~$54,751,000~~ *$46,333,000* is for allocation by the chancellor for partial funding of the $70,000,000 in Transitional Program Improvement Funds needed for implementation of Phase II of program reforms pursuant to Chapter 973 of the Statutes of 1988 These funds are subject to the allocation and expenditure provisions of Section 84755 of the Education Code. In subsequent years, these funds will be considered as part of the $70,000,000 needed in the annual level of Transitional Program Improvement Funds necessary for implementation of Phase II.

(b) Of the amount in this Provision, ~~$10,918,000~~ *$2,500,000* is in satisfaction of the Proposition 98 minimum funding requirements for the 1988-89 fiscal year. This amount shall be allocated for funding of the $70,000,000 in Transitional Program Improvement Funds needed for implementation of Phase II of program reforms pursuant to Chapter 973 of the Statutes of 1988. These funds are subject to the allocation and expenditure provisions of Section 84755 of the Education Code. In subsequent years, these funds will be considered as part of the $70,000,000 needed in the annual level of Transitional Program Improvement Funds necessary for implementation of Phase II.

(c) It is the intent of the Legislature that in building the budget for 1991-92, the highest priority for base funding be given to sustaining the reforms pursuant to Chapter 973 of the Statutes of 1988, funded in 1990-91 "

As part of my actions above, I am setting aside $8,418,000 of 1990-91 Proposition 98 funds to be appropriated in separate legislation in order to complete the full funding of the $70,000,000 in Transitional Program Improvement Funds needed for implementation of Phase II reforms.

I am deleting Provision 22 because this provision would allow those community college districts that are not correctly reporting property tax redemptions monies under current law to continue this practice for another year. This practice results in an under reporting of local revenues which offset state aid and, therefore, provides an unfair advantage to those districts over districts that are reporting revenues correctly.

Item 6870-101-959—For local assistance, Board of Governors of the California Community Colleges. I delete Provision 1.

I am deleting Provision 1 which would require that any federal Title IV(e) funds received as reimbursement for foster parent training activities be deposited into the Foster Children and Parent Training Fund This provision would unnecessarily restrict use of these funds.

Item 6870-492—Reappropriation, Board of Governors of the California Community Colleges. I delete this item.

I am deleting the reappropriation made from the General Fund unencumbered in the current year for a study of the Education Employee Reform Act Due to limited General Fund resources in the budget year, and due to the fact that statute does not require the study to be completed until January, 1993, funding for the study in 1990-91 is not warranted.

Item 7980-101-001—For local assistance, Student Aid Commission. I reduce this item from $158,900,000 to $156,400,000 by reducing.

(a) 15-Financial Aid Grants Program from $172,914,000 to $170,414,000,

and by revising Provisions 2 and 3

I am deleting the $2,500,000 legislative augmentation to expand the number and amount of Cal Grants and to support the Willie Brown Community Services Scholarship Program. This expansion is not of sufficiently high priority to justify the use of limited state resources and is inconsistent with the need to protect vital programs, hold spending growth to income growth and provide for a proven prudent reserve for economic uncertainties.

I am revising Provisions 2 and 3 to conform to this action

"2 ~~In order to eliminate reversions of funds from direct financial aid programs, the number of new Cal Grant A awards shall be augmented by 115 grants, for a total of 17,515 grants in the 1990-91 fiscal year, and the number of new Cal Grant B awards shall be augmented by 480 grants, for a total of 12,730 grants in the 1990-91 fiscal year The Cal Grant B maximum subsistance award shall be increased by $20 to a maximum of $1,430 in the 1990-91 fiscal year, and the Cal Grant A and B maximum award shall be increased by $108 to a maximum $5,358 The Community Services Scholarship Program authorized pursuant to Chapter 1188, Statutes of 1989, shall be funded in the amount of $1,796,000~~ Notwithstanding any other provision of law, of the ~~17,515~~ *17,400* new grants funded in Schedule (a) for Cal Grant A for the 1990-91 fiscal year, 500 grants shall be awarded to community college students who transfer to a four-year college or university

3 Notwithstanding any other provisions of law, of the ~~12,730~~ *12,250* new grants funded in Schedule (a) for Cal Grant B for the 1990-91 fiscal year, 250 grants shall be awarded to community college students who transfer to a four-year college or university "

Item 8100-101-196—For local assistance, Office of Criminal Justice Planning I delete Provision 2

I am deleting Provision 2 which was added by the Legislature to require the Office of Criminal Justice Planning to distribute funds in the Asset Forfeiture Distribution Fund in accordance with the provisions of Chapter 1492, Statutes of 1988 Provision 2 restates existing statutory law and is therefore unnecessary

Item 8100-101-425—For local assistance, Office of Criminal Justice Planning I reduce this item from $15,520,000 to $15,519,000 by reducing

(a) 50 21 010-Victim/Witness Assistance Program from $10,872,500 to $10,871,500, and by deleting Provision 2

I am reducing this item by $1,000 and deleting Provision 2 which requires the Office of Criminal Justice Planning to obtain an independent audit of expenditures of Victim/Witness Assistance funds The Office of Criminal Justice Planning currently requires grantees of Victim/Witness Assistance grants to obtain an independent audit of grant expenditures to ensure that those funds are used only for purposes expressed in statutes Although funding was not provided for the costs associated with this provision, I am reducing $1,000 from this item to reflect savings that will be achieved based on vetoing language contained in Provision 2 of this item

Item 8100-101-890—For local assistance, Office of Criminal Justice Planning. I reduce this item from $50,141,000 to $48,389,000 by reducing

(f) 50 71 120-Federal Anti-Drug Abuse Program from $37,507,000 to $35,755,000

I am deleting $1,500,000 for the CrackDown Cocaine Task Force program in the Department of Justice to reflect the availability of $1,500,000 saved from the appropriation in legislation creating this program, Chapter 1453, Statutes of 1989 This action will provide the level of funding for this program I proposed in January. This action to reduce $1,500,000 conforms to the action I have taken to reduce reimbursement authority in Item 0820-001-001

I am deleting $252,000 for the Drug Enforcement Narcotics Team in the Department of Alcoholic Beverage Control to conform to legislative action which deleted funding for this program by reducing reimbursements in Item 2100-001-001

Item 8100-121-001—For local assistance, Office of Criminal Justice Planning I reduce this item from $26,700,000 to $26,470,000 by reducing:

(a) 50 41 020-Suppression of Drug Abuse in Schools Program from $26,700,000 to $26,470,000,

and by deleting Provision 1(a)

I am deleting the $230,000 legislative augmentation that would have provided funding to a school district or county office of education for the purpose of contracting with a nonprofit agency for field testing a substance abuse prevention model using athletes as role models (the Pros for Kids project) Requiring a school district or county office of education to use Proposition 98 funds to contract with a

nonprofit agency is not consistent with the intended use or spirit of the proposition and may raise legal concerns regarding such use of Proposition 98 funds.

I am deleting Provision 1(a) to conform with this action

Item 8180-101-001—For local assistance, Payment to Counties for Costs of Homicide Trials I reduce this item from $3,875,000 to $3,874,000, and delete Provision 3.

I am reducing this item by $1,000 and deleting Provision 3 because it is unnecessary The program relating to the local-match waiver procedures will sunset January 1, 1991 and I do not anticipate signing any legislation to extend that program However, even if the program were statutorily extended, it would not be appropriate to mandate the development of waiver standards when there is little likelihood that funds will be available to grant waivers.

Item 8380-001-001—For support of Department of Personnel Administration I reduce this item from $8,519,000 to $8,369,000 by reducing:

(f) 54-Benefits Administration from $3,634,000 to $3,484,000,

and by deleting Provision 1

I am deleting the $150,000 legislative augmentation to the Labor/Management Child Care Committee. The Committee was established through the collective bargaining process to oversee the allocation of funds to assist in the establishment of child care centers for state employees Any additional augmentation to the Child Care Committee should more appropriately be addressed through the collective bargaining process

Item 8550-001-191—For support of the California Horse Racing Board I reduce this item from $8,268,000 to $8,118,000 by reducing

(a) 1000000-Personal Services from $2,837,000 to $2,764,000, and

(b) 3000000-Operating Expenses and Equipment from $5,741,000 to $5,664,000,

and by deleting Provision 2.

I am deleting the $73,000 legislative augmentation which would have increased the salaries of executive staff The Department of Personnel Administration has not approved the proposed salary adjustments as is required under current law.

I am deleting the $77,000 legislative augmentation which would have provided funds for a contract to develop an outreach program to ensure adequate representation of women and minorities on the California Horse Racing Board's staff and among its personal services contractors The Board has the capability to meet its affirmative action goals within existing resources.

I am deleting Provision 2 to conform to this action

Item 8570-001-001—For support of Department of Food and Agriculture. I reduce this item from $72,260,000 to $71,260,000 by reducing

(b) 10-Pesticide Regulatory Program from $32,707,000 to $32,457,000, and

(m) Amount payable from the Agriculture Fund (Item 8570-001-111) from −$21,009,000 to −$20,759,000

I am correcting the total of the item by $1,000,000 to correspond to the Legislature's intended actions as reflected in this item's schedule

I am revising this item by $250,000 to conform to the action taken in Item 8570-001-111 on alternative pest management systems research

Item 8570-001-111—For support of Department of Food and Agriculture I reduce this item from $21,009,000 to $20,759,000

I am deleting the $250,000 legislative augmentation for research on alternative pest management systems I have been supportive of efforts to address the needs in this area; however, the Department of Food and Agriculture presently receives funding for similar research projects. In addition, most accounts within the Agriculture Fund are statutorily tied to specific programs The Legislature has increased expenditures from that account by $200,000 for the Food Safety Program, leaving the account with only a minimum reserve It is necessary to maintain a prudent reserve in this account for uncertainties which would be jeopardized by funding an additional $250,000 project from the account

I am revising the schedules in Item 8570-001-001 to conform to this action

Item 8570-101-001—For local assistance, Department of Food and Agriculture. I delete Provision 2.

I am deleting Provision 2 which was added by the Legislature to require up to $950,000 in state funds appropriated to local fairs to be used in part to employ a veterinarian at all rodeo-related activities on the fairgrounds for the purpose of treating injuries to participating animals. The Department of Food and Agriculture estimates the cost of implementing this new state mandate could be as high as $3 million annually. The identified state funding would not be sufficient to cover these costs. Additionally, the language represents a substantive change in law which can only be included in a single subject bill, not the Budget Act.

Item 8660-001-412—For support of Public Utilities Commission. I revise this item by reducing:

(a) 100000-Personal Services from $55,169,000 to $55,138,000,

(b) 300000-Operating Expenses and Equipment from $21,364,000 to $21,355,000, and

(g) Amount payable from the Public Utilities Commission Utilities Reimbursement Account, General Fund (Item 8660-001-462) from −$44,148,000 to −$44,108,000,

and by deleting Provisions 2 and 4.

I am deleting the $40,000 legislative augmentation to fund a temporary field office in San Diego for the second half of 1990-91 and the related language in Provision 4 which would restrict the availability of that augmentation. This request for funding is not needed since the main function of the San Diego office will end within the first half of 1990-91.

I am deleting Provision 2. Since existing law does not prohibit the Division of Ratepayer Advocates from challenging collective bargaining agreements, this language represents a substantive change of law which can only be included within a single subject bill, not the Budget Act In addition, the language of this provision would adversely impact the protection afforded to ratepayers by the Public Utilities Commission.

Item 8780-001-001—For support of Commission on California State Government Organization and Economy I reduce this item from $758,000 to $708,000 by reducing:

(a) 10-Commission on California State Government Organization and Economy from $760,000 to $710,000.

I am reducing the $150,000 legislative augmentation for a study on the impact of growth management on affordable housing to $100,000. The Commission has sufficient resources to provide any additional funding above that level that may be necessary to perform such a study. Therefore, no further augmentation is provided

Item 8885-101-001—For local assistance, Commission on State Mandates I am revising this item to make a technical correction to the Budget Bill by reducing·

(4) 02 50 088 981—Lis pendens from $47,000 to $0.

This program ("Lis pendens") is one of the nineteen mandates appropriately identified in Provision 5 of this item as having a $0 appropriation and are therefore made optional or suspended for the 1990-91 fiscal year. This revision merely reflects the action the Legislature intended.

Item 9210-102-001—For local assistance, Local Government Financing. I delete this item and Provisions 1 and 2.

I am deleting the $20,000,000 legislative augmentation relating to subventions to counties.

While it is recognized that some counties may be facing financial difficulties, the state is not in the position to provide additional assistance to local government at this time. This action is necessary to protect the state's ability to maintain a prudent reserve for economic uncertainties. Furthermore, I am not convinced that a $20 million infusion of funds to counties in the manner specified in this item is the best approach to the problem The problem is due to both structural and managerial causes and requires a well thought-out, long-term solution My Administration and the Legislature will continue to work cooperatively to identify the extent of the problem and develop a viable solution

I am deleting Provisions 1 and 2 to conform to this action

SEC. 3.80—Unallocated reduction to General Fund State Operations.

This section allows the Director of Finance to reduce each General Fund appropriation for support in 1990-91 by an amount not to exceed 3 per cent of that appropriation. This action will result in a reversion to the General Fund of approximately $222 million.

SEC. 9.10—Supplemental Report of the Committee on Conference the Budget Bill. I delete this Control Section.

I am deleting Budget Act language that requires the Legislative Analyst to transmit copies of the Supplemental Report of the Committee on Conference on the Budget Bill to all agencies. This report reflects both the intent and the actions of the Legislature in enacting the Budget Act of 1990. This language is an infringement on the Executive Branch's normal budget development process and implies Gubernatorial concurrence on all statements of legislative intent or requests for studies or other actions

SEC. 12.31—Education Contingency Expenditures (Proposition 98). I revise this Control Section.

I am revising Control Section 12.31 to delete paragraph (b), which specifies the priorities for spending the Proposition 98 Reserve. The determination of expenditures from the reserve is best made toward the end of the fiscal year when remaining K-12 funding needs can be re-assessed.

"SEC. 12.31. (Proposition 98). (a) There is hereby appropriated from the General Fund a contingency expenditure of one hundred million dollars ($100,000,000) reserved for subsequent appropriation by the Legislature for deficiencies and other educational purposes in program areas which are funded under the provisions of Proposition 98 Funds appropriated by this section shall not be further appropriated prior to June 15, 1991, unless appropriated by a statute chaptered on or before July 15, 1990. No amount shall be appropriated from this section that would cause the state to exceed the minimum funding level required by Proposition 98, the Classroom Instructional Improvement and Accountability Act.

~~(b) The funds appropriated by this section shall be available in accordance with, and in the order of, the following priorities.~~

~~(1) For purposes of deficiency allocation for kindergarten and grades 1 to 12, inclusive, pursuant to Section 27.00 of this act.~~

~~(1.5) Up to two million dollars ($2,000,000) for the purposes of vocational education incentive funding pursuant to Senate Bill 1947 of the 1989-90 Regular Session. This funding shall only be available if Senate Bill 1947 is chaptered and becomes operative on or before January 1, 1991.~~

~~(2) Up to one hundred ten million dollars ($110,000,000), including amounts appropriated in other items of this act, for purposes of the program to reduce class size pursuant to Senate Bill 666 of the 1989-90 Regular Session.~~

~~(3) Up to thirty eight million one hundred twelve thousand dollars ($38,112,000) for the purpose of funding growth in enrollment in special education for the 1991-92 fiscal year calculated pursuant to Section 56728.6 for the Education Code, in augmentation of the amount appropriated for that growth by Item 6110-161-001 of the Budget Act of 1991.~~

~~(4) In support of other legislative measures, where the funding of those measures would qualify under the definition set forth in subdivision (a) of Section 41202 of the Education Code.~~"

SEC. 12.32—Proposition 98 Funding Guarantee. I am revising this section to reflect the actual level of the Proposition 98 guarantee consistent with the Constitution and court decision.

I am also revising this section to delete subparagraph (a) to conform with my action in Item 6110-196-001

The amount of funds set apart for purposes of meeting the 1990-91 Proposition 98 guarantee is.

Budget Act Item Appropriations Labeled

Proposition 98 including Section 12.31	$16,436,341,000

Other State Agencies	411,000
Amount for Augmentation of Contingency Reserve	197,870,000
Total	$17,113,272,000

"SEC. 12.32. ~~(a) All appropriation items identified as "(Proposition 98)" are for the purposes of meeting the funding guarantee for education programs pursuant to Section 8 of Article XVI of the California Constitution.~~

(b) It is the intent of the Legislature that appropriations which are subject to Article XVI of the California Constitution be designated with the wording "Proposition 98." In the event these appropriations are not so designated, they may be designated as such by the Department of Finance where that designation is consistent with legislative intent

(c) Pursuant to the Proposition 98 funding requirements established in Chapter 2 (commencing with Section 41200) of Part 24 of the Education Code, the total appropriations for Proposition 98 for fiscal year 1990-91 are seventeen billion ~~two hundred eighty-three~~ *one hundred thirteen* million ~~four~~ *two* hundred ~~five~~ *seventy-two* thousand dollars (~~$17,283,405,000~~ *$17,113,272,000*), or ~~42.395~~ *41 977* percent of total General Fund revenues and transfers subject to the state appropriations limit. General Fund revenues set aside for the California Community Colleges, pursuant to the Proposition 98 funding requirements, are one billion seven hundred ~~twenty~~ *thirteen* million ~~three~~ *eight* hundred ~~fifty-six~~ *eighty-seven* thousand dollars (~~$1,720,356,000~~ *$1,713,887,000*), or ~~4.220~~ *4.204* percent of total General Fund revenues and transfers subject to the state appropriations limit."

SEC. 22 00—Set-aside Appropriation for Future GAIN Expenditures I am revising Control Section 22 00 by deleting paragraph (f)

This provision would restrict the Executive Branch's authority to manage its programs in ways that may prove fiscally beneficial to the state and would result in increased costs. This action conforms to my action in Item 5180-158-001

SEC 23 50—Immigration Reform and Control Act (IRCA) I am revising this Control Section by deleting Provision (zd).

I am deleting Provision (zd) which would appropriate up to $16,000,000 for the purposes of Adult Education in the event that additional revenue is provided by the Federal Government This provision constitutes an item of appropriation which I cannot approve If additional federal funds are allocated to the state, they should be appropriated to the various programs through a process which provides a balance among the competing priorities.

SEC. 27.50—Consumer Affairs Reporting Requirements. I delete this Control Section.

I am deleting Section 27.50 which requires specified agencies, primarily within the Department of Consumer Affairs, to provide written notification 30 days prior to the expenditure of funds to pursue or defend a lawsuit which is not directly related to consumer protection It would restrict the ability of affected agencies to seek the timely advice and representation of counsel to defend against lawsuits regarding

their administrative and business practices. In addition, the Control Section does not specify what would constitute approval of expenditures on litigation subsequent to the notification. This is a substantive change in law that is an infringement on the separation of powers in that it usurps Executive Branch authority to effectively administer state government.

SEC. 33.50—Contingency Funding for the Office of Child Abuse Prevention I delete this Control Section.

Control Section 33.50 would require the transfer of $10,300,000 from the Restitution Fund to Item 5180-151-001 (f) to fund the Office of Child Abuse Prevention in the event of any veto action in Item 5180-151-001 (f)

I am taking this action because funding the Child Abuse Prevention Training Act (CAPTA) Program is an inappropriate use of the Restitution Fund Further, I am concerned that this expenditure would jeopardize the solvency of the Restitution Fund, thereby negatively affecting my commitment to compensate victims of crime

With the above deletions, revisions and reductions, I hereby approve Senate Bill No. 899.

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1.00. This act shall be known and may be cited as the "Budget Act of 1990."

SEC. 1.50. (a) In accordance with Section 13338 of the Government Code, as added by Chapter 1284, Statutes of 1978 (AB 3322), and as amended by Chapter 1286, Statutes of 1984 (AB 3372), it is the intent of the Legislature that this act utilize a coding scheme compatible with the Governor's Budget and the records of the State Controller, and provide for the appropriation of federal funds received by the state and deposited in the State Treasury.

(b) Essentially, the format and style are as follows:

(1) Appropriation item numbers have a code which is common to all the state's fiscal systems. The meaning of this common coded item number is as follows:

2720—Organization Code (this code represents the California Highway Patrol)

001—Reference Code (first appropriation for a particular fund for support of each department)

044—Fund Code (Motor Vehicle Account, State Transportation Fund)

(2) Appropriation items are organized in organization code order as reflected in the Governor's Budget.

(3) All the appropriation items, reappropriation items, and reversion items, if any, for each department or entity are adjacent to one another.

(4) Federal funds received by the state and deposited in the State Treasury are appropriated in separate items.

(c) The Department of Finance may authorize revisions to the codes used in this act in order to provide compatibility between the codes used in this act and those used in the Governor's Budget and in the records of the State Controller.

(d) Notwithstanding any other provisions of this act, the Department of Finance may revise the schedule of any appropriation made in this act where the revision is of a technical nature and is consistent with legislative intent. These revisions may include, but shall not be limited to, the substitution of category for program or program for category limitations, the proper categorization of allocated administration costs and cost recoveries, the distribution of any unallocated amounts within an appropriation and the adjustment of schedules to facilitate departmental accounting operations including the elimination of categories providing for amounts payable from other items or other appropriations and the distribution of unscheduled amounts to programs or categories. These revisions shall include a certification that the revisions comply with the intent and limitation of expenditures as appropriated by the Legislature.

(e) Notwithstanding any other provision of this act, when the Department of Finance, pursuant to subdivision (d), approves the schedule or revision of any appropriation relating to the elimination of amounts payable, the language authorizing the transfer shall also be eliminated.

SEC. 2.00. (a) The following sums of money, or so much thereof as may be necessary unless otherwise provided herein, are hereby appropriated for the use and support of the State of California for the 1990–91 fiscal year beginning July 1, 1990, and ending June 30, 1991. All of these appropriations, unless otherwise provided herein, shall be paid out of the General Fund in the State Treasury.

(b) Appropriations and reappropriations for capital outlay, unless otherwise provided herein, shall be available for expenditure during the 1990–91, 1991–92 and 1992–93 fiscal years, except that appropriations and reappropriations for studies, planning, working drawings, or minor capital outlay, except as provided herein, shall be available for expenditure only during the 1990–91 fiscal year. In addition, the balance of every appropriation made in this act which contains funding for construction that has not been allocated, through fund transfer or approval to proceed to bid, by the Department of Finance on or before June 30, 1991, except as provided herein, shall revert as of that date to the fund from which the appropriation was made.

(c) Whenever by constitutional or statutory provision the revenues or receipts of any institution, department, board, bureau, commission, officer, employee, or other agency, or any moneys in any

special fund created by law therefor, are to be used for salaries, support or any proper purpose, expenditures shall be made therefrom for any such purposes, to the extent only of the amount herein appropriated, unless otherwise stated herein, or authorized pursuant to Section 11006 of the Government Code.

(d) Appropriations for purposes not otherwise provided for herein which have been heretofore made by any existing constitutional or statutory provision shall continue to be governed thereby.

1. No funds appropriated by this item shall be encumbered unless every rule or regulation adopted and every all-county letter issued by the Department of Social Services which adds to the cost of any welfare program is approved by the Department of Finance as to the availability of funds before it becomes effective. In making the determination as to availability of funds to meet the expenditures of a rule, regulation, or all-county letter which would increase the costs of a welfare program, the Director of Finance shall consider the amount of the proposed increase on an annualized basis, the effect such change would have on the expenditure limitations for such program set forth in this act, the extent to which the rule, regulation, or all-county letter constitutes a deviation from the

premises under which the expenditure limitations were prepared, or any additional factors relating to the fiscal integrity of such program or the state's fiscal situation.

Notwithstanding the provisions of Sections 27.00 and 28.00, the availability of funds contained in this item for welfare rules, regulations, or all-county letters which add to program costs funded from the General Fund in excess of $500,000 on an annual basis, including those that are the result of a federal regulation but excluding those that are (a) specifically required as a result of the enactment of a federal or state law, or (b) included in the appropriation made by this act, shall not be approved by the Director of Finance sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or such lesser time as the chairperson of the committee, or his or her designee, may in each instance determine.

Funds appropriated in this item are for welfare programs as they exist on July 1, 1990, consisting of state and federal statutory law, regulations, and court decisions, if funds necessary to carry out such decisions are specifically appropriated in this act.

For purposes of this provision "welfare" shall mean those program elements under "Welfare Program Operations," as found in the Governor's Budget and consistent with definitions used in the California Fiscal Information System (CFIS).

2. The Department of Social Services shall administer the public assistance programs so that the counties will bear no more than the amount of welfare costs that they would be obligated to bear under the applicable provisions of the Welfare and Institutions Code, without the expenditure limitations set forth herein, and so that the amount authorized to be expended in Program 10.04, Aid to Families with Dependent Children program shall fully cover the state share of aid payments and for services under such programs for the 1990–91 fiscal year.

3. There is hereby established for the next two quality control review periods, a dollar error rate standard of 4 percent, pursuant to Section 15200.4 of the Welfare and Institutions Code.

   For the purposes of state sanctions pursuant to Section 15200.4 of the Welfare and Institutions Code, the error rate estimate that shall be used to measure the quality performance of each county shall be the low point estimate of the confidence interval estimated by combining the results from the two quality review samples conducted during the two subsequent quality review periods.

   Amounts realized from the counties as the result of a state fiscal sanction shall first be applied as an offset to the state's share of Program 10.04, Payments for Children. To the extent that this application results in a surplus to the General Fund appropriation for that program, such surplus shall revert to the General Fund.
4. The Director of Finance is authorized to approve expenditures in those amounts made necessary by changes in either caseload or payments, or any rule or regulation adopted and any all-county letter issued in Program 10.04, Payments for Children, as a result of the enactment of a federal or state law, the adoption of a federal regulation, or the following of a court decision, during the 1990–91 fiscal year which are within or in excess of amounts appropriated in this act for that year.

   If the Director of Finance determines that the estimate of expenditures will exceed the expenditures authorized for Program 10.04, Payments for Children, the director shall so report to the Legislature. At such time as the report is made, the amount of the limitation shall be increased by the amount of such excess unless and until otherwise provided by law.
5. Notwithstanding Chapter 1 (commencing with Section 18000) of Part 6 of Division 9 of the Welfare and Institutions Code, a loan not to exceed $142,000,000 shall be made available from the General Fund from funds not otherwise appropriated, to cover the federal share of costs for the Aid to Families with Dependent Children program when the federal share has not been

received by this state prior to the usual time for transmitting such federal share to the counties of this state. Such loan from the General Fund shall be repaid when the federal share becomes available.

6. Pursuant to subdivision (b) of Section 903.7 of the Welfare and Institutions Code, the Department of Social Services shall authorize the quarterly transfer of the state share of collections attributable to Sections 903, 903.4, and 903.5 of the Welfare and Institutions Code to the Foster Children and Parent Training Fund. From these collections, and prior to any transfer of funds, there shall be a deduction for the appropriate amount of county child support collection incentives.
7. The Director of Finance may authorize the transfer of amounts, cumulatively not to exceed $1,300,000, from this item to Item 5180-151-001 (a) (1), Social Services Program—Child Welfare Services, in order to advance funds to pilot counties to conduct a program of family reunification and family maintenance services pursuant to Chapter 105, Statutes of 1988.

Provisions:

1. The amounts contained in this schedule are for Social Services Programs, for the cost of special social services programs for which federal grants in aid are made to the state; for grants or services to local agencies for the extension of child welfare services as provided by Chapter 5 (commencing with Section 16500) of Part 4 of Division 9 of the Welfare and Institutions Code; for the cost of the adoption programs and care of children, to be expended in accordance with the provisions of Chapter 2 (commencing with Section 16100) of Part 4 of Division 9 of the Welfare and Institutions Code; for the costs incurred by counties, including, but not limited to, the required county funds, for in-home supportive services as provided by Article 7 (commencing with Section 12300) of Chapter 3 of Part 3 of Division 9 of the Welfare and Institutions Code, and for prevention of child abuse and neglect as provided by Chapter 11 (commencing with Section 18950) of Part 6 of Division 9 of the Welfare and Institutions Code.
2. Provision 1 of Item 5180-101-001 is also applicable to this item.
3. Notwithstanding Chapter 1 (commencing with Section 18000) of Part 6 of Division 9 of the Welfare and Institutions Code, a loan not to exceed $22,800,000 may be made available from the General Fund from funds not otherwise appropriated upon the approval of the Director of Finance to cover the federal share of costs for the In-Home Supportive Services Program when the federal share has not been received by this state prior to the usual time for transmitting such federal share to the counties of this state. Such loan from the General Fund shall be repaid when the federal share becomes available.
4. The amount appropriated in Item 5180-151-001(b)(2), Program 20.35.240-Maternity Care, is appropriated in lieu of the amounts which would otherwise be appropriated pursuant to Sections 16148 and 16151 of the Welfare and Institutions Code.
5. Budgets for approved county plans shall clearly identify the amount necessary to meet the child care needs of GAIN participants. The Depart-

ment of Social Services shall not approve any county request to use child care funds for any other purpose without providing written notification to the Legislature of the request. Approval of such a request may not occur any earlier than after 30 days' written notification to the Joint Legislative Budget Committee and the Joint Committee on the Oversight on GAIN.

6. Recognizing that the availability of child care is essential to economic self-sufficiency, it is the intent of the Legislature to fund child care services as necessary to support the goal of full employment.

When a child care provider under contract with the State Department of Education (SDE) provides child care services to GAIN participants who are enrolled in a GAIN component or awaiting enrollment in a GAIN component, the county welfare department shall reimburse the provider for the cost of that child care.

Children receiving services under an SDE contract, whose parents subsequently become GAIN participants, shall continue to receive services paid by the SDE contract until such time as the parents are no longer income-eligible for the subsidy.

An SDE provider shall not be compensated by both SDE and a county welfare department for the same service to the same person for the same time period.

The Department of Social Services and SDE shall enter into a memorandum of understanding that specifies a maintenance-of-effort requirement by SDE programs for AFDC recipients. This memorandum of understanding shall use data collected by SDE and certified by the Auditor General.

7. The Director of Finance may authorize the transfer of amounts from this item to Item 5180-001-001, Program 20 Social Services programs, in order to allow the state to perform the adoption programs function in the event the counties fail to perform such functions.
8. Notwithstanding Chapter 1 (commencing with Section 18000) of Part 6 of Division 9 of the Welfare and Institutions Code, a loan not to exceed $50,000,000 shall be made available from the

General Fund from funds not otherwise appropriated, to cover Title IV-E eligible costs when the federal share has not been received by the state in a timely manner. The loan shall be made available prior to the usual time for transmitting this federal share to the counties. The loan from the General Fund shall be repaid when the federal share of costs becomes available.

9. Of the amount appropriated in this item, $250,000 shall be expended contingent upon passage of, and pursuant to the provisions of, Assembly Bill 3805 of the 1989–90 Regular Session.
10. No funds appropriated in this item shall be spent for contracts that do not satisfy all statutory requirements with respect to contract procurement and reprocurement. Counties shall satisfy the following requirements when procuring or reprocuring GAIN contracts that are to be made on a competitive basis and are to exceed an annual cost in excess of $3,000,000.
    (a) The county shall make the request for proposals (RFP) available to all interested potential bidders, including any governmental agency, on a timely basis and in no event later than five months before the projected date of implementation of the new contract. The county shall broadly advertise the availability of the RFP.
    (b) In cases of reprocurement, the county shall make available to all interested potential bidders (1) a copy of the current contract, including any statement of work, liquidated damages provisions, and budget, and (2) any existing written material pertinent to the contract, such as any program interpretation or operations manual in use by the current contractor. The RFP shall indicate that this information is available to interested potential bidders.
    (c) The RFP shall include detailed descriptions of the process that the county will use to determine whether bidders are qualified and to select the contractor.
    (d) The county shall invite the Department of Social Services to nominate state staff to sit on any committees or task forces that re-

Item		Amount
	view bids and bidders for the purposes of determining whether a bidder is qualified and for purposes of rating the bids. (e) The county shall give due consideration to cost effectiveness in the procurement and reprocurement process, consistent with existing statutory requirements. No contract shall be awarded if the Department of Social Services determines that the function or service provided in the contract could be more cost effectively provided by county staff. In making this determination, however, the department shall not find any contract to be more cost-effective than the county staff alternative if the sole reason for the contractor's competitive advantage is that the contractor provides a benefit package to its line staff that is substantially less than the benefit package that the county provides to its own line staff. (f) The rating system used to select the winning bidder from among all the qualified bidders shall, at a minimum, consider cost, quality, and the benefit package provided to line staff. Counties may disqualify bidders based on considerations of fiscal soundness and corporate capability, or for any other reason related to potential performance. In addition, counties shall include in the RFP a statement informing the potential contractor that any audit exceptions arising against a GAIN contractor shall be the financial responsibility of the county, not the state. 11. Two hundred fifty thousand dollars ($250,000) of the funds otherwise allocated to the two Prevention Training Centers under this item shall be utilized by the Department of Social Services to enter into an interagency agreement with the State Department of Education for the purpose of conducting an independent evaluation of the training of preschool through grade 12 students provided under the Maxine Waters Child Abuse Prevention Training Act (CAPTA). Based on the statutory description of the programs, the evaluation shall review

the age appropriateness of the education components of the funded projects and measure the degree to which the funded projects are meeting their performance objectives. To the extent possible, the evaluation shall also measure the knowledge gained by parents and pupils as a result of the program; and assess the extent to which training received results in child abuse disclosures, the degrees of substantiated versus unsubstantiated disclosures made as a result of exposure to this training, and the degree to which the training results in the delivery of Child Welfare or Victim-Witness Assistance Services. A preliminary report shall be delivered to the Departments of Education and Social Services involved, as well as to the Governor and the legislative policy and fiscal committees, no later than April 1, 1991, and a final report shall be submitted no later than April 1, 1992.

Notwithstanding provisions otherwise contained in Sections 18977 to 18979, inclusive, of the Welfare and Institutions Code, the Department of Social Services shall assess the advisability of continuing to fund two separate Prevention Training Centers and, if determined appropriate, shall act to competitively select and fund a single, statewide Prevention Training Center with the capacity to provide appropriate training and technical assistance to all California Primary Prevention Project grantees.

12. The Department of Social Services shall comply with the provisions of Sections 12300, 12300.1, 12301, 12301.1, 12301.2, 12301.5, 12302, 12302.1, 12302.2, 12302.4, 12303, 12303.4, 12303.5, 12303.7, 12304, 12304.1, 12304.2, 12304.3, 12304.5, 12305, 12305.5, 12306, 12306.1, 12306.5, 12306.6, 12307, 12308, 12309, 12310, 12311, 12312, 12314, 12350, and 12351 of the Welfare and Institutions Code in establishing and approving In-Home Supportive Services (IHSS) programs.

Any IHSS program which violates these sections shall not be funded.

The department shall not interfere with, or in any way encourage the termination or reduction of, IHSS contract programs established

13. In allocating funds for the Child Welfare Services Program, the department shall use the most accurate caseload data available, including data for Los Angeles County as revised based on the department's caseload study conducted in 1989–90. The director shall take no action that would result in diminished direct services to children in Los Angeles County. To the extent that the use of this data indicates that the county would need less than the amount included in this item, based on the data that was available at the time this act was enacted, the Director of Finance shall allocate the remaining funds in the following order:
    (a) First, up to $500,000 shall be transferred from this item to Item 5180-001-001, Program 30-Community Care Licensing, to cover any one-time and startup costs for the Department of Social Services to begin operation of the Community Care Licensing Program in Los Angeles County.
    (b) Second, additional funds, if determined to be necessary by the Director of Finance, shall be transferred from this item to Item 5180-001-001, to cover any costs relating to the continued efforts of the Department of Social Services regarding Child Welfare Services Program compliance in Los Angeles County.
    (c) Third, any remaining funds shall revert to the General Fund.
14. Within 10 days of the effective date of this act, the Director of Social Services shall report to the Legislature on whether the County of Los Angeles is substantially out of compliance with any of the provisions of state law or regulation regarding the operation of the county's Child Welfare Services Program. (e) Program 10.10.011—School Apportionments, for summer school programs, for the purposes of Section 42239 of the Education Code 105,486,000

Provisions:

1. Funds appropriated by this item are for transfer by the State Controller to Section A of the State School Fund, in lieu of the amount which would otherwise be appropriated for transfer from the General Fund in the State Treasury to Section A of the State School Fund for the 1990–91 fiscal year pursuant to Sections 14002, 14004, and 41301 of the Education Code, an amount as needed, in addition to sums accruing to Section A of the State School Fund from other sources for the purposes specified herein, for apportionment pursuant to Section 42238, Section 42239, and Sections 42240 and 42240.1 of the Education Code.
2. Notwithstanding Section 8154 of the Education Code, or any other provision of law, the funds specified in Schedule (d) of this item shall be the only funds available for and allocated by the Superintendent of Public Instruction for the apprentice programs operated by school districts and county offices of education.
3. 4. No school district or county office of education shall use funds available under Schedule (d) to offer any new or expanded apprentice program(s) unless that program(s) has been approved by the Superintendent of Public Instruction.

cal year, with information to be provided by school district, county office of education, program sponsor, and trade. Expenditure information shall distinguish between direct and indirect costs, including administrative costs funded for the Department of Education, school districts, and county offices of education. In addition, the report shall identify the hours of related and supplemental instruction proposed for the 1990–91 and 1991–92 fiscal years by school district, county office of education, program sponsor, and trade. As a condition of receiving funds for the apprenticeship program, K–12 school districts and county offices of education shall report to the Superintendent of Public Instruction the information necessary for the completion of this report.

6. Notwithstanding Article 8 (commencing with Section 8150) of Chapter 1 of Part 6 of the Education Code, or any other provision of law, the total number of hours eligible for reimbursement in apprentice programs operated by K–12 school districts and county offices of education shall be limited to an amount equal to the total appropriation specified in Schedule (d) of this item divided by the hourly rate specified in Provision 3. The Superintendent of Public Instruction shall have the authority to determine which apprentice programs, and which hours offered in such programs, are eligible for reimbursement.
7. Notwithstanding any other provision of law, the county superintendent shall reduce the total revenue limit computed pursuant to Section 42238 of the Education Code by the amount of the decreased employer contributions to the Public Employees' Retirement System resulting from the enactment of Chapter 330 of the Statutes of 1982, adjusted for any changes in those contributions resulting from subsequent changes in employer contribution rates, excluding rate changes due to the direct transfer of the state-mandated portion of the employer contributions to the Public Employees' Retirement System, through the 1990–91 fiscal year.

   The reduction shall be calculated as follows:

   (a) Determine the amount of employer contri-

Item Amount

butions which would have been made in the 1990–91 fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect immediately prior to the enactment of Chapter 330 of the Statutes of 1982 were in effect during the 1990–91 fiscal year.

For purposes of this calculation, no school district shall have a contribution rate higher than 13.020 percent.

(b) Subtract from the amount determined in subdivision (a) the actual amount of employer contributions made to the Public Employees' Retirement System in the 1990–91 fiscal year.

(c) For the purposes of this provision, employer contributions to the Public Employees' Retirement System for any of the following positions shall be excluded from the calculation specified above:

(1) Positions supported totally by federal funds which are subject to supplanting restrictions.

(2) Positions supported by funds received pursuant to Section 42243.6 of the Education Code.

(3) Positions supported, to the extent of employer contributions not exceeding $25,000 by any single educational agency, from a revenue source determined on the basis of equity to be properly excludable from this subdivision by the Superintendent of Public Instruction with the approval of the Director of Finance.

(d) For accounting purposes, the reduction made by this provision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent of Public Instruction.

It is the intent of the Legislature to make adjustments to school district revenue limits for the 1990–91 fiscal year to reflect savings that these districts will realize in the contributions to the Public Employees' Retirement System due to a reduced contribution rate for the 1990–91 fiscal year.

Item		Amount
8.	(a) Notwithstanding paragraph (2) of subdivision (d) of Section 42239 of the Education Code, or any other provision of the law, for the 1990–91 fiscal year a school district's maximum entitlement for pupil attendance in summer school programs offered pursuant to paragraph (2) of subdivision (d) of Section 42239 of the Education Code shall be an amount equal to 7 percent of the district's enrollment for the prior year, times 120 hours, times the hourly rate for the 1990–91 fiscal year determined pursuant to subdivision (c) of Section 42239 of the Education Code.	
	(b) Notwithstanding paragraph (2) of subdivision (d) of Section 42239 of the Education Code, or any other provision of the law, the Superintendent of Public Instruction shall reallocate to any school district any unexpended balance of the appropriations made for the 1990–91 fiscal year for reimbursement for actual pupil attendance in summer school programs authorized under paragraph (2) of subdivision (d) of Section 42239 of the Education Code. In no event shall any district receive reimbursement for pupil attendance in summer school programs in excess of 10 percent of the district's enrollment for the prior year, times 120 hours, times the hourly rate for the 1990–91 fiscal year determined pursuant to subdivision (c) of Section 42239 of the Education Code.	
	(c) Of the funds received pursuant to subdivisions (a) and (b) of this provision, priority shall be given to providing classes for students who have failed any core curriculum course, or who have accumulated fewer course credits toward graduation than the average student of equivalent age or grade level as determined by the local governing board. Funds also shall be provided to help students meet college entrance requirements.	
	(d) As a condition of receiving funds pursuant to subdivisions (a) and (b), the county superintendent shall report to the Superin-

tendent of Public Instruction on or before November 15, 1990, the number of students who attended each class and the number and type of classes conducted.

(e) Notwithstanding subdivision (e) of Section 42239 of the Education Code, for the 1990–91 fiscal year, the Superintendent of Public Instruction shall allocate a minimum of $5,974 for supplemental summer school programs in those districts whose prior year enrollment was less than 500 and that, in the 1990–91 fiscal year, offer at least 1,500 hours of supplemental summer school instruction. A small school district, as defined above, that offers less than 1,500 hours of supplemental summer school offerings shall receive a proportionate reduction in its allocation. For the purpose of this provision, supplemental summer school programs shall be defined as programs authorized under paragraph (2) of subdivision (d) of Section 42239 of the Education Code.

9. For federal audit actions which became final by entry of judgment or final administrative decision on or after July 1, 1987, and which required repayment of funds to the federal government by the State Department of Education for federal audit exceptions based on findings in any school district or any other agency receiving such federal funds through the State Department of Education, the amount of such repayments, with interest due the federal government, may be deducted from the apportionment made to those districts or agencies by the Superintendent of Public Instruction from the funds appropriated by this item. The amount which is repaid to the state under the provisions of Section 459 of the General Education Provisions Act (20 U.S.C. 1234h) shall be apportioned to the district in accordance with any grantback plan submitted by the district and the State Department of Education and approved by the United States Department of Education.

ant to subdivision (a) of Section 46200 of the Education Code and which offers less than 180 days of instruction in the 1990–91 fiscal year and has not met the waiver provisions pursuant to Chapter 782, Statutes of 1989, the Superintendent of Public Instruction shall reduce the base revenue limit per unit of average daily attendance for 1990–91 by an amount attributable to the increase received pursuant to subdivision (a) of Section 46200, as adjusted by subsequent inflation adjustments and increases in ADA.

11. Notwithstanding any other provision of law, for the purpose of calculating entitlements for revenue limit apportionments, the Superintendent of Public Instruction shall increase the number of units of average daily attendance (ADA) for the Victor Valley Union High School District by 300 units in the 1987–88 fiscal year only. In each of the fiscal years 1988–89 through 1992–93, the superintendent shall reduce the district's numbers of units of ADA by 60 units below the level that the district would otherwise be entitled to claim. It is the intent of the Legislature to assist the district in overcoming the severe impacts on its cash-flow of a reorganization election which reduced the district's ADA by 70 percent for the 1987–88 fiscal year. It is further the intent of the Legislature that such assistance be provided at no net cost to the state.

12. (a) At such time as the Superintendent of Public Instruction certifies principal apportionments for the year, the Controller shall transfer, from Schedule (a) of this item to Schedule (a) of Item 6110-111-001, an amount equal to transportation aid pursuant to Section 42240 for school districts choosing to reflect small school district transportation aid in their transportation budget appropriation.

    (b) The Director of Finance may approve any transfer authorized by this provision, provided that such transfer may not be authorized sooner than 30 days after the notification in writing of the necessity therefor to the chairperson of the committee in

	each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine.	
15.	Notwithstanding any other provision of law, a local school district shall be eligible to claim apportionments for K–12 pupils as concurrently enrolled in adult education in 1990–91 only to the extent of the previous year's ADA so claimed plus an increase not to exceed the percent of increase in ADA over the previous year for the district's regular ADA.	
17.	(a) The Legislature finds and declares that average daily attendance claimed for purposes of apportionments by school districts needs to be in compliance with current law.	
	(b) Recognizing the severe dislocation that could occur, school districts shall not be required to change existing practice in claiming average daily attendance for fiscal year 1990–91.	
	(c) The State Department of Education in consultation with staff of the legislative fiscal and policy committees, the Department of Finance, the Legislative Analyst's Office, and school district attendance accounting and business officers, shall develop recommendations on the most cost-effective means of confirming pupils' attendance in school for at least the minimum day. A report of these recommendations shall be submitted to the Joint Legislative Budget Committee and the Director of the Department of Finance on or before December 1, 1990.	
	(d) The recommendations contained in the report required in paragraph (c) shall be neutral with regard to the calculation of the Proposition 98 guarantee for K–14 education funding. This shall not preclude inclusion of recommendations that in isolation might have such an effect, as long as they are accompanied by other recommendations which in total would be neutral.	

Item Amount

(e) For 1990–91, school districts shall include in the school accountability report card required under Section 35256 of the Education Code, a report of average daily attendance with respect to adherence to the minimum day requirements of statute.

(f) On or before August 1, 1990, the Superintendent of Public Instruction shall notify each school district of the report required in paragraph (c), and advise that the report will include recommendations which may require changes in accounting for, and claiming of, average daily attendance.

18. Of the funds appropriated in this item, $450,000 shall be allocated to Orange Unified School District, fulfilling the November 1989 Superior Court of the State of California settlement agreement, case number 47-94-93.

19. Notwithstanding any other provision of law, those allowances provided pursuant to Provision 18 of Item 6110-101-001 of the Budget Act of 1989 shall be funded pursuant to paragraph (1) of subdivision (b) of Section 46300.1 of the Education Code or at a rate funded during 1989–90, whichever is less.

20. Notwithstanding the conclusions expressed in Attorney General Opinion No. 89-202 or any provision of law to the contrary, the penalties and interest on property tax redemptions received by school districts, county offices of education, and community college districts during the 1990–91 fiscal year shall be treated in the same manner for the purpose of determining the state aid portion of school apportionment funding as the revenues were treated in the 1989–90 fiscal year.

21. Notwithstanding any other provision of law, no school district may receive apportionments from this item for pupils 19 years or older in K–12 independent study programs for average daily attendance in excess of the amount generated by these pupils in the 1988–89 fiscal year or, if the district received no apportionments for these pupils' average daily attendance in the 1988–89, then in the 1987–88 fiscal year. This limitation shall not apply to pupils who

23. Notwithstanding any other provision of law, for a high school district which has had declining enrollment for 4 consecutive years, including the 1990–91 fiscal year, and whose feeder elementary districts have each had increasing enrollments for at least 3 of the same 4 years, the Superintendent of Public Instruction may, in lieu of Section 42238.5 of the Education Code, determine the number of units of average daily attendance of the high school district for the 1990–91 fiscal year by averaging the number of units of average daily attendance for the current year and the preceding 3 years. to this provision.
24. In lieu of the adjustment provided pursuant to paragraph (1) of subdivision (b) of Section 46300.1 of the Education Code, the allowance for districts eligible for funding pursuant to Section 42284 of the Education Code shall be reduced by 33 percent of the statewide average level per unit of average daily attendance paid for pupils in adult education.
25. The State Department of Education shall work with the federal government and appropriate state agencies, including, but not limited to, the Department of Finance and the Controller's office, to determine if it is possible to allow districts with fewer than 1,001 average daily attendance to be excluded from the requirement of the J-380. If the State Department of Education, the Department of Finance, and the Controller each approve in writing an exemption based on districts complying with specified conditions, then, notwithstanding the provisions of Section 56730.5 of the Education Code, the State Department of Education may exempt the districts wishing to be exempted un-

26. Any district qualifying for apportionments pursuant to subdivision (b) of Section 42281 of the Education Code in the 1989–90 fiscal year shall be eligible for funding pursuant to the same provision in the 1990–91 fiscal year if it would otherwise be eligible for apportionments pursuant to subdivision (a) of Section 42281 of the Education Code.
27. Districts eligible for apportionments pursuant to both provisions 22 and 23 of this item may receive apportionments for either provision, but may not receive apportionments for both provisions.

mandated portion of the employer contributions to the Public Employees' Retirement System, through the 1990–91 fiscal year. The reduction shall be calculated as follows:

(a) Determine the amount of employer contributions which would have been made in the 1990–91 fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect in 1984–85 were in effect during the 1990–91 fiscal year.

(b) Subtract from the amount determined in subdivision (a) the actual amount of employer contributions made to the Public Employees' Retirement System in the 1990–91 fiscal year.

(c) For the purposes of this provision, employer contributions to the Public Employees' Retirement System for any of the following positions shall be excluded from the calculation specified above:

(1) Positions supported totally by federal funds which are subject to supplanting restrictions.

(2) Positions supported by funds received pursuant to Section 42243.6 of the Education Code.

(3) Positions supported, to the extent of employer contributions not exceeding $25,000 by any single educational agency, from a revenue source determined on the basis of equity to be properly excludable from this subdivision by the Superintendent of Public Instruction with the approval of the Director of Finance.

(d) For accounting purposes, the reduction made by this provision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent of Public Instruction.

It is the intent of the Legislature to make adjustments to county office of education revenue limits for the 1990–91 fiscal year to reflect savings that these districts will realize in the contributions to the Public Employees' Retirement System due to a reduced contribution rate for

the 1990–91 fiscal year.

8. It is the intent of the Legislature to adjust the revenue limits of the county offices of education in order to reflect savings that these agencies have realized in their contributions to the Public Employees' Retirement System due to reductions in the contribution rate due to the enactment of Chapter 330 of the Statutes of 1982, adjusted for any changes in those contributions resulting from subsequent changes in employer contribution rates. It is the further intent of the Legislature that this adjustment be phased in over a three-year period, with the full amount of the adjustment to be incorporated in the revenue limits of the county offices of education in the 1991–92 fiscal year.
9. Notwithstanding any other provision of law, only those pupils enrolled in County Office of Education programs while detained in a juvenile hall, juvenile home, day center, juvenile ranch, juvenile camp or regional youth educational facility established pursuant to Article 14 (commencing with Section 850), Article 15 (commencing with Section 880) and Article 24.5 (commencing with Section 894) of Chapter 2 of Division 2 of the Welfare and Institutions Code shall be counted as Juvenile Court School pupils. Expenditures which represent contract payments to other agencies for the operation of juvenile court and community school programs shall be included in the juvenile court and community school account and the contract costs distributed to the cost categories defined in (1), (2), (3), and (4) above. 11. Notwithstanding any other provision of law, only pupils, excepting those permitted pursuant to subdivision (a) and (b) of Section 1981 of the Education Code, who are referred by the county probation department under Section 601 or 654 of the Welfare and Institutions Code after an individualized review and certification of the appropriateness of enrollment in the county group home and institution's school or county community school, shall be enrolled in county community schools. The individualized review shall include representatives of the court, the county department of education, the county probation department, and either the school district of residence or, in cases in which the pupil resides in a group home or institution, the school district in which the group home or institution is located, and, in each case, the school district representative must agree to the appropriateness of the proposed placement and pupils so placed must have a probation officer or other appropriate designee of the probation department assigned to their case.

Provisions:

1. Funds scheduled in category (b) of this item shall be allocated subject to the requirements of Sections 8279 and 8279.1 of the Education Code.
2. The following reimbursement factors shall take effect as of July 1, 1990, but shall not apply to the School-Age Community Child Care Program:

Item Amount

(a) Under 4 hours per day: 55% of the full-time daily rate.
(b) 4 to under 6½ hours: 75% of the full-time daily rate.
(c) 6½ to under 10½ hours: 100% of the full-time daily rate.
(d) 10½ hours and over: 118% of the full-time daily rate.

It is the intent of the Legislature that the rate specified in subdivision (d) of this provision shall result in services to additional children. Child development contractors that serve children 10½ hours or more per day and demonstrate to the satisfaction of the State Department of Education that their costs are reasonable and in excess of those allowed by subdivision (d) of this provision shall have the following apply: subdivision (a) of this provision shall be reduced to 50 percent, and subdivision (d) of this provision shall be increased to 150 percent.

The State Department of Education, using its existing procedures, shall give priority for the provision of services to additional children resulting from the change in subdivision (d) of this provision to counties that are relatively underserved by child development funds, as measured by funding per child receiving Aid to Families with Dependent Children (AFDC) in each county and other measures as deemed necessary by the department.

3. Notwithstanding Section 2.00 of this act, child development appropriations shall be available in accordance with the provisions of Section 8278 of the Education Code, except that funds remaining unencumbered as of June 30, 1991, shall revert to the General Fund. Further, the State Department of Education shall report to the Joint Legislative Budget Committee and the Department of Finance by March 31, 1991, the amount of child development funds, by program, which have been determined after audit to be unearned. The State Department of Education shall report on September 30, 1990, and on March 31, 1991, the settlement of claims payable from unearned contract funds balances by program. Further, the State Department of Ed-

ucation shall report on September 30, 1990 and on March 31, 1991, the reencumbrance of unearned contract funds made pursuant to Section 8278 of the Education Code, by program, specifying the purpose and need for each expenditure.

4. The California Child Care Initiative shall ensure that the $250,000 in state funds are matched on a one-to-two basis, with private corporations and local governments providing up to $500,000.
5. Recognizing that the availability of child care is essential to economic self-sufficiency, it is the intent of the Legislature to fund child care services as necessary to support the goal of full employment.

Effective July 1, 1986, and notwithstanding the provisions of Sections 8263 and 8468.5 of the Education Code, if a GAIN participant reaches the top of a State Department of Education (SDE) waiting list and income and eligibility criteria for SDE programs are met, he or she shall be retained at the top of the list and enrollment in an SDE-subsidized space shall be deferred until the parent becomes employed or is separated from GAIN, whichever comes first. At this time, the participant who has been deferred for an SDE space shall have priority in the order of deferral for the next available SDE-subsidized space, regardless of income level that meets SDE criteria (with the exception of priorities for abused and neglected children).

These requirements shall not apply to parents whose children are enrolled in an SDE-subsidized space prior to the parents' enrollment in GAIN.

The Department of Social Services (DSS) and the State Department of Education (SDE) shall enter into a memorandum of understanding that specifies a level of service requirement by SDE programs for AFDC recipients. The data collected by SDE on September 15, 1986, and certified by the Auditor General on February 25, 1987, shall establish the plateau by county against which all future surveys of AFDC participation will be measured. For the 1990–91 fiscal year, the sampling will be made by SDE on September 15 and March 15. To establish an on-

going process, SDE shall propose legislation that will fix these point-in-time dates in the Education Code.

If, upon comparison to the plateau, the AFDC participation falls below the certified county levels by more than 5 percent, the enrollment of GAIN participants, as specified in the previous paragraph, shall not be deferred. Deferrals shall resume only if AFDC participation levels are again in excess of the certified plateau.

6. The State Department of Education shall, to the extent possible, grant waivers of the school-age community child care requirements at the time contracts are issued. Notwithstanding any other provision of law, the Superintendent of Public Instruction shall ensure that waiver denials issued after the time contracts are issued shall not take effect until two months after the denial decisions are provided, in writing, to affected contractors. The two-month period may be extended at the discretion of the Superintendent of Public Instruction in order to provide contractors with a reasonable amount of time to comply with school-age community child care requirements. Nothing in this provision shall be construed to apply to school-age community child care agencies that do not apply for waivers in good faith.
7. Notwithstanding any other provision of law, the Superintendent of Public Instruction shall authorize any School Age Community Child Care program agency the choice of either a child day or a child hour as the contract unit of enrollment for the purpose of reimbursement. The agency's unit of choice shall remain in effect for the 1990–91 fiscal year and shall be the basis for determining earnings under the contract. After analysis of School-Age Community Child Care providers statewide, the superintendent shall establish an enrollment unit or units for reimbursement that will meet the needs of participating agencies.
8. Notwithstanding subdivision (e) of Section 8277.7 of the Education Code, the relocatable classroom located at Jacoby Creek School for the purposes of the "latch-key" program may also be used as a part-time elementary school class-

room in accordance with existing agreements among officials of that school and child care council.

9. Notwithstanding any other provision of law, the State Department of Education, Child Development Division, may authorize a maximum reimbursement rate not to exceed the regional GAIN rate for child care for Alternative Payment Programs and Family Child Care Home Programs with nonemployee providers in service areas that exceeds the current statutory maximum reimbursement rate. This increased rate shall be subject to the procedures established by the State Department of Education pursuant to Section 8265.1 of the Education Code.
10. Notwithstanding any other provision of law, the State Department of Education may authorize the use of adjustment factors for special needs children under Section 8265.5 of the Education Code for Alternative Payment Programs and Family Child Care Homes Programs with nonemployee providers and Migrant Programs whose assigned reimbursement rates exceed the standard reimbursement rate established under subdivision (b) of Section 8265 of the Education Code.
11. Notwithstanding Section 8473.3 of the Education Code, if a School-Age Community Child Care Program contractor fails to operate at least 98 percent of the minimum days of operation required in its contract, or ceases operations, or the contract is terminated prior to the end of the contract period, the maximum reimbursable amount shall be reduced in proportion to the percentage of the contract minimum days of operation that the contractor was not in operation.
12. Community college districts which levied child development permissive override taxes pursuant to Sections 8329 and 8330 of the Education Code in the 1977–78 fiscal year and received fiscal relief through Chapter 282 of the Statutes of 1979 shall not receive reimbursement for child care services from the Superintendent of Public Instruction in excess of 75 percent of the average daily enrollment funding standards for

campus child care programs. Campus child care programs operated by the University of California, California State University, and community colleges that did not levy a permissive override tax in the 1977–78 fiscal year shall receive reimbursement from the Superintendent of Public Instruction which equals 100 percent of the average daily enrollment funding standards for campus child care programs.

13. The amount appropriated by this item for campus child care tax bailout shall be allocated by the State Department of Education on order of the Chancellor of the California Community Colleges. The chancellor shall order the allocation of these funds to community college districts which levied child care permissive override taxes in the 1977–78 fiscal year pursuant to Sections 8329 and 8330 of the Education Code in an amount equal to the property tax revenues, tax relief subventions, and state aid required to be made available by the district to its child development program for the 1979–80 fiscal year pursuant to Section 30 of Chapter 1035 of the Statutes of 1979, increased by any cost-of-living increases granted in subsequent fiscal years. These funds shall be used only for the purpose of community college child development programs.
14. Notwithstanding Section 8278 of the Education Code, the State Department of Education shall adopt an expenditure plan for funds in excess of those required to make payments on accounts payable pursuant to subdivision (a) of Section 8278 of the Education Code. To the extent that the following provisions are not in conflict with legislative priorities specified in this act or in other subsequent legislation, the expenditure plan shall reflect the following distribution of funds:
    (a) Not less than 50 percent for direct service.
    (b) Not less than 20 percent for one-time-only special projects which will directly benefit children, including data collection and research.
    (c) Not less than 20 percent for staff development.

15. Notwithstanding any other provision of law, for each School-Age Community Child Care Program approved for funding, the Superintendent of Public Instruction shall ensure that no more than one-half of the enrollees reported are eligible for and receiving subsidization as specified under subdivision (b) of Section 8468.5 of the Education Code. Agencies which fail to meet the requirements of this provision, and which do not have a State Department of Education approved waiver under Section 8474 of the Education Code, shall be deemed in noncompliance with the Education Code requirements. The failure of an agency to submit a corrective action plan within the timelines specified by the State Department of Education to correct the deficiency shall result in the agency being placed on conditional status. Agencies on conditional status shall be monitored monthly by the State Department of Education, which shall provide technical assistance to enable agencies to reach compliance.

    It is the intent of the Legislature that the above-referenced procedures shall be imposed for the 1990–91 fiscal year only. On July 1, 1991, the full fiscal effect of the state participation limits shall be resumed.

16. Notwithstanding subdivision (w) of Section 8208 of the Education Code and Section 8360 of the Education Code, a person employed as a "program director" shall hold a Children's Center Supervision Permit, or its equivalent as specified in Section 8360, or shall hold a waiver of these requirements issued by the Superintendent of Public Instruction. The Superintendent of Public Instruction may issue this waiver if the superintendent determines that the contractor has documented a compelling need to do so and if the candidate is likely to have a Children's Center Supervision Permit, or its equivalent as specified in Section 8360, no later than June 30, 1991, as shown by satisfactory progress on an educational plan prepared by the candidate.

17. To the extent permitted by Public Law 100-485, up to $3,500,000 of the funds provided in subcategory (3) of category (b) may be used as

a basis for securing federal matching funds available for child care under Public Law 100-485. These additional funds shall be used only to continue and expand the child development component of the SAPID Program under the State Department of Education (SDE). The SDE shall actively seek matching federal funds at the earliest possible date. To the extent that Public Law 100-485 is implemented in the 1990–91 fiscal year, the State Department of Social Services, in consultation with the SDE, shall establish a reimbursement process to utilize available federal funds as specified.

18. For purposes of calculating State Department of Education Child Care and Development and State Preschool enrollment growth as required by Chapters 82 and 83 of the Statutes of 1989, the Department of Finance shall develop a state population formula for children ages 0 through 4 years based on California data available. This data may include, but not be limited to, birth, death, and net migration.

The Department of Finance shall report the 0 through 4-year old state population formula by October 1, 1992, and each year thereafter, to the State Department of Education, the Joint Legislative Budget Committee, and the fiscal committees of the Legislature.

For fiscal years 1991–92 and 1992–93, the Department of Finance shall use the K–8 ADA enrollment growth calculations in lieu of the 0 through 4-year old state population formula. For the 1993–94 fiscal year and each year thereafter, the Department of Finance shall use a 0 through 4-year old state population formula as required by Chapters 82 and 83 of the Statutes of 1989.

6110-209-001—For local assistance, Department of Education (Proposition 98), for transfer to the Controller for reimbursement of claims received pursuant to Section 44944 of the Education Code, Program 10.10—School Apportionments		30,000
6110-224-001—For local assistance, Department of Education (Proposition 98)		51,846,000
Schedule:		
(a) 10.10.950—School Apportionments (year-round school incentive payments)	51,546,000	
(b) 10.10.020—Year-Round School Demonstration Program (Orchard Plan)	300,000	
Provisions:		
1. The funds appropriated in Schedule (a) of this item shall be the only funds allocated as incentive payments for year-round school operations pursuant to Sections 42250 and 42250.3 of the Education Code.		
2. Applications for year-round incentive payments pursuant to Sections 42250 and 42250.3 of the Education Code must annually be received by the Office of Local Assistance by no later than December 31 of the year in which the year-round operation occurred and for which payment is sought; applications received after that date shall not be processed. The Office of Local Assistance shall certify all eligible and approved claims to the Superintendent of Public Instruction by no later than April 1 of the following year. In the event that the funds available for a fiscal year are insufficient to fully pay all claims for that year, the Superintendent of Public Instruction shall at that time provide all approved claims with a prorated share of the funds made available.		
3. If a district receives state reimbursement specifically attributable to the cost of operating schools on a year-round basis pursuant to a court-ordered or voluntary desegregation program, the district shall be eligible for any portion of the allowances for incentive payments pursuant to Sections 42250 and 42250.3 of the Education Code for the 1990–91 fiscal year but only to the extent that the district incurs costs in

	1990–91 specifically attributed to operating schools on a year-round basis, as audited and approved by the State Controller, that exceed claims submitted for state reimbursement and deemed to be allowable costs by the State Controller for such year-round operation pursuant to Sections 42243.6 and 42249 of the Education Code for the 1990–91 fiscal year. Funds may be distributed during the 1990–91 fiscal year pursuant to this provision. However, the State Controller shall audit and may make adjustments to the funds distributed under this item in future years.	
	4. Notwithstanding subdivision (b) of Section 42250.3 of the Education Code, a school district that meets all the criteria described in subdivision (a) of Section 42250.3 shall receive, based only on year-round school operation during 1990–91, year-round education incentive payments calculated as follows:	
	(a) The school district shall certify no more than the number of pupils in year-round education in excess of the capacity of the school or schools, as determined by court order or State Allocation Board classroom loading standard, and may certify less than the total number in excess of this capacity.	
	(b) The Office of Local Assistance shall multiply the number of pupils determined in paragraph (a) by the allowable square footage of new construction for the grade levels of the excess pupils.	
	(c) The Office of Local Assistance shall multiply the amount determined in paragraph (b) by the average cost of new construction that would be allowed for schools of that grade level in that locale.	
	(d) The State Department of Education shall certify to the State Allocation Board the amount of land that would be necessary for an educationally adequate facility for the number and grade level of pupils determined in paragraph (a).	
	(e) The Office of Local Assistance shall multiply the amount determined in paragraph (d) by the cost of land in the area where a new school would be built, if the pupils

were not participating in year-round education.

(f) The Office of Local Assistance shall reduce the value of land in this calculation starting in the year after the state has purchased the land for the new school that would be built, if the pupils were not participating in year-round education. This reduction shall be one-third per year of the value of the land purchased.

(g) The Office of Local Assistance shall add the amounts determined in paragraphs (c) and (e) or (f), whichever applies, and multiply the result by .05.

(h) The Office of Local Assistance shall divide the amount determined in paragraph (g) by the number of students enrolled in the facility or facilities used for year-round education.

(i) The Office of Local Assistance shall determine the factor of excess pupil capacity by dividing the number of pupils determined in subdivision (a) by the pupil capacity, as determined by State Allocation Board classroom loading standards.

(j) The Office of Local Assistance shall divide the factor of excess pupil capacity determined in subdivision (i) by .15. The result shall be rounded to the third decimal and shall not exceed 1.000.

(k) The Office of Local Assistance shall multiply the factor determined in subdivision (j) by the amount determined in subdivision (h). The Office of Local assistance shall certify the amount so determined to the State Allocation Board.

(*l*) The State Allocation Board shall certify to the Superintendent of Public Instruction the amount determined in subdivision (k), not to exceed one hundred thirty-two dollars ($132) per pupil in year-round education facilities. (This amount has been adjusted to include the annual inflation for the prior calendar year on the basis of the cost index for class B construction as determined by the State Allocation Board in accordance

Item	Amount

with subdivision (b) of Section 42250.3 of the Education Code.)

(m) In accordance with existing statutory law, a school district shall, in addition to the eligibility criteria specified in Section 42250.3 of the Education Code, also meet the applicable eligibility criteria for the incentive payments provided pursuant to Section 42250 of the Education Code (that is, the school district shall be eligible for funding for new construction under the State School Building Lease-Purchase Program).

(n) In determining if there is substantial overcrowding in the entire school district or high school attendance area pursuant to subdivision (a) of Section 42250.3 of the Education Code, the Office of Local Assistance shall calculate the capacity of the entire district or high school attendance area in accordance with the existing methods used to determine eligibility for new construction funding.

(o) Excess capacity shall reflect only the additional capacity that has been generated as a result of using a multitrack year-round calendar, and shall not reflect the increased capacity of any leased or state emergency portable classroom added to a year-round site after July 1, 1989, or any leased portable or state emergency classroom at any year-round school site which is a site first used to calculate an incentive after July 1, 1989.

5. Notwithstanding Provision 4, incentive payments shall be subject to the following conditions:

(a) Schools which did not receive incentive payments in the preceding two fiscal years for accommodating pupils in excess of capacity shall accommodate at least 5 percent or more pupils over the capacity of the school.

(c) For the purposes of subdivision (a), school districts may average the overcrowding accommodated among a combination of schools.

Item Amount

(d) No school accommodating a total number of pupils which is less than the capacity of the school for more than a majority of the school year shall qualify for incentive payments.

(e) It is the intent of the Legislature that, beginning in the 1990–91 fiscal year, no incentive payments shall be made for a school or combination of schools which on average accommodate fewer pupils than 105 percent of capacity. Pupils not on multitrack schedules shall be excluded from incentive payment computations.

6. The State Allocation Board shall exclude from allowable area square feet funding eligibility the amount of allowable building area which is determined by the level of the school or schools noted in subdivision (b) of provision 4 and determined by the calculation made pursuant to subdivision (b). In no case shall this exclusion be less than 5 percent of the calculated capacities of each school which was used to calculate year-round education incentive.

7. Project phase approvals that would have been approved and funded by the State Allocation Board with an effective date prior to March 1, 1990, except that the Board had no funds for that purpose, shall be exempt from provision 6.

8. Project phase approvals after March 1, 1990, shall be subject to the eligibility reductions specified in provision 6.

9. School districts may choose which project or level of approved projects is to be reduced, provided that the project was, or would have been, approved for Phase I with an effective date prior to March 1, 1990, and further provided that no land had been acquired, or construction commenced, for that project.

10. (a) The Department of Finance shall include in the Governor's Budget for the 1991–92 fiscal year revisions to the incentive program which meet all of the following objectives:

(1) Simplify the current formula.

(2) Ensure that the total costs of the incentive shall not be more than the full avoided cost of the schools or schools

	which would otherwise have been built.		
	(3) Increase the minimum deduction from eligibility up to a maximum of 15 percent over a subsequent three-year period for each school used to claim the incentive funding.		
	(b) This provision shall be inoperative if a statute which revises the incentive funding program becomes operative on or before January 1, 1991.

It is the legislative intent that districts' additional average daily attendance funded for 1989–90 through the General Apportionment process as a result of other districts' average daily attendance or attendance hours being funded through supplemental funds shall be understood to be one-time and shall not become part of the base revenue for subsequent years.

8. Notwithstanding any other provision of law, any funds allocated pursuant to Section 84707 of the Education Code or Section 22.00 of this act shall not be considered as part of the base revenues for community college districts in computing the 1991–92 apportionments, as prescribed in Section 84701 of the Education Code. The Board of Governors shall allocate funds on a priority basis and to local programs on the basis of need for student services and financial aid.	
10.	(a) The funds appropriated in Schedule (c) are for transfer by the State Controller during the 1990–91 fiscal year to Section B of the State School Fund, in lieu of the amount which otherwise would be appropriated for transfer from the General Fund in the State Treasury to Section B of the State School Fund for the 1990–91 fiscal year pursuant to Section 14020 of the Education Code, for local assistance for funding the excess direct instructional cost of providing special facilities, special education materials, educational assistance, mobility assistance, transportation, program accountability, program developmental services for handicapped students enrolled at community colleges, and for state hospital programs. It is the intent of the Legislature that funding provided for the purposes of student matriculation shall continue to be scheduled in the Governor's Budget as a categorical program, including that scheduling in the event that Phase II of transitional program improvement of community college reform, as defined by paragraph (2) of subdivision (b) of Section 70 of Chapter 973 of the Statutes of 1988, is adequately funded, pursuant to subdivision (e) of Section 70 of Chapter 973 of the Statutes of 1988. Each

schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to the schedules "category", "program", or "project" means a class of expenditure such as, but not limited to:

(a) "Personal services," which shall include all expenditures for payment of officers and employees of the state, including: salaries and wages, workers' compensation, compensation paid to employees on approved leave of absence on account of sickness, unemployment compensation benefits, insurance premiums for workers' compensation coverage, industrial disability leave and payments, nonindustrial disability benefits and payments, the state's contributions to the Public Employees' Retirement Fund, the Teachers' Retirement Fund, the University of California Retirement Fund to provide for that portion of retirement costs to be provided for Hastings College of the Law in Item 6600-001-001 of this Budget Act, the Old Age and Survivors' Insurance Revolving Fund, the Public Employees' Contingency Reserve Fund, and the state's cost of health benefits plans; but do not include compensation of independent contractors rendering personal services to the state under contract.

(d) "Working drawings" are defined as a complete set of plans and specifications showing and describing all phases of a project, architectural, structural, mechanical, electrical, civil engineering, and landscaping systems to the degree necessary for the purposes of accurate bidding by contractors and for the use of artisans in constructing the project. (b) Notwithstanding Sections 6.50, 8.50, and 28.00 of this act, the following provisions shall govern the augmentation and reduction of the amounts available for expenditure for any category or program in the schedule set forth in this item, and the transfers of funds among categories in the schedule set forth in this item:

(1) The Director of Finance may not authorize the augmentation of the total amount available for expenditure in the schedule set forth for appropriation in this item to reflect any available SLIAG funds which he or she determines

have not been taken into consideration in the schedule or are in excess of the amount so taken into consideration, except as follows:

(A) The Director of Finance may allocate the balance of any remaining funds authorized for expenditure by Section 14.00 of the Budget Act of 1987, Section 23.50 of the Budget Act of 1988, or Section 23.50 of the Budget Act of 1989 for any category or program in the schedule set forth for appropriation in this item. These transfers may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.

(B) The Director of Finance may authorize the expenditure of any available SLIAG funds which he or she determines have not been taken into consideration in the schedule or are in excess of the amount so taken into consideration, if the director determines that the state's total five-year allocation exceeds $1,700,000,000 and that the additional expenditures can be sustained over the duration of the five-year expenditure plan within the revised estimate of SLIAG allocations. These additional expenditures may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.

(2) The Director of Finance may authorize the further augmentation of the amount available for expenditure for any category or program in the schedule set forth for appropriation in this item for increases in the level of service due to increased caseload, utilization, or cost per unit of service. These augmentations may be authorized pursuant to the provisions of paragraph (4). The Director of Finance may not authorize the augmentation of the amount available for expenditure from SLIAG funds for new program activities not identified in the schedule set forth in this item.

(3) The Director of Finance may also reduce the amount available for expenditure for any category or program in the schedule set forth for appropriation in this item for reduc-

tions in the level of service due to decreased caseload, utilization, or cost per unit of service. These reductions may be authorized pursuant to the provisions of paragraph (4). The Director of Finance may not authorize the elimination of the expenditure from SLIAG funds for program activities identified in the schedule set forth in this item.

(4) The Director of Finance may authorize the augmentation or reduction of the amount available for expenditure for a category or program designated in the schedule set forth for such appropriation in this item by transfer from or transfer to any of the other designated categories or programs within this item for the purposes stated in paragraphs (2) and (3). These transfers may be authorized not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house which consider appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designee, may in each instance determine.

(5) In any situations not discussed in paragraphs (1), (2), (3), or (4), the provisions of Section 28.00 shall apply.

(c) To the maximum extent possible, public assistance and public health programs shall use existing delivery mechanisms, funding mechanisms and service providers to deliver services or benefits to newly legalized persons.

(d) Those funding mechanisms which currently allocate resources on the basis of the general population of the respective counties shall be interpreted to refer to the number of newly legalized persons in each county insofar as allocation of the SLIAG apportionment is concerned. Other funding mechanisms which may use variables different than population shall similarly be interpreted to utilize such variables only as they apply to newly legalized persons.

(e) It is intended that all SLIAG reimbursable costs shall be identified to ensure that California's allotment of federal SLIAG funds is maximized. Departments shall authorize service providers to claim SLIAG funds using a method of cost calculation allowable under federal SLIAG regulations which minimizes the under identification of all SLIAG reimbursable costs. The method of cost calculation which can be used may include, but shall not be limited to, the use of a statistically valid sample of a provider's caseload, or, for public health programs, the ratio of newly legalized persons in a service population to all members of the relevant service population.

(f) The Health and Welfare Agency and administering departments, including the Department of Education, shall take the

steps necessary to subrogate to the providers of service, the financial liability for inappropriate expenditure or nonuse of federal funds. Whenever current program requirements do not specify such responsibility, the appropriate state agency shall enter into agreements with providers calling for their acceptance of financial responsibility in return for allocation of funds by the state. Funds shall not be allocated to any provider by administering departments absent acceptance of financial responsibility for audit exceptions by the provider.

(g) The general assistance program will remain the responsibility of the counties in which newly legalized persons reside. The State Department of Social Services shall provide necessary oversight and shall allocate funds for newly legalized persons through the system which allows counties to claim general assistance funds for refugees. All preliminary allocations shall be adjusted on the basis of actual caseload experience to the extent funds are available.

(h) Records of services provided to newly legalized persons will be kept at the local level except for those programs that use central fiscal intermediary functions to process claims. Individual programs will require periodic reports from providers and will provide their managing state departments with summary data at suitable intervals. The managing departments will track the provision and cost of services to newly legalized persons.

(i) K–12 education services shall be limited to those newly legalized children who meet the requirement of the Federal Emergency Immigrant Education Act of having had less than three years of education in the United States. In accordance with federal SLIAG regulations, the Superintendent of Public Instruction shall allocate such funds, upon application by local school districts, to those districts that are highly impacted by the number of newly legalized children.

(j) The Department of Education shall distribute adult education SLIAG funds to community colleges, local school districts, and community-based organizations—including qualified designated entities authorized to provide educational services by the Immigration and Naturalization Service regulations—in accordance with an IRCA Adult Education Services Delivery Plan (AESDP). This plan shall be developed by the Department of Education in consultation with representatives of the different service provider groups, and shall be provided to the Director of Finance by September 15, 1990. Prior to allocation of any SLIAG funds to the Department of Education, the AESDP shall be approved by the Director of Finance.

(k) The Adult Education Services Delivery Plan shall specify:

1. The process for tracking SLIAG funds to newly legalized persons;

2. That the maximum average reimbursement per newly legalized person participating in educational services shall be the least of: (A) the service hours provided multiplied by $5.00; (B) $500 per newly legalized person per year; or (C) actual provider costs of providing services, as determined by applicable state and federal cost principles.

However, for instructional services, the Superintendent of Public Instruction may authorize rates of reimbursement not to exceed a statewide average of $5.50 per hour where these rates are necessary to provide services under special circumstances. These special rates of payment shall be approved by the Superintendent of Public Instruction prior to their taking effect, and may not exceed the limits imposed by subparagraphs (B) or (C).

Funding authorized pursuant to this subdivision may be used for allowable ancillary costs, including assessment, administration, educational counseling, staff training, recordkeeping, facility rental, child care, transportation, curriculum development, and outreach. Reimbursement shall not exceed actual costs.

Payment for all adult education services shall not exceed the amount authorized by this act or subsequent modifications thereto;

3. Appropriate guarantees or safeguards that the $500 dollar limit shall not be exceeded;
4. The requirement that INS approve individual providers to issue certificates of satisfactory pursuit, as a condition of their receiving SLIAG funds for English-as-a-Second Language (ESL) and civics instruction;
5. How community-based organizations and qualified designated entities may receive SLIAG educational funds in an expeditious and timely manner, while guaranteeing that appropriate standards of educational quality and fiscal accountability are maintained;
6. The appropriate division of responsibility between local school districts and the community colleges, including a reiteration of legislative intent that, notwithstanding Section 8530 of the Education Code, school and community college districts which do not currently provide adult education and noncredit instruction are eligible to participate in this program;
7. The appropriate division of responsibility between the Department of Education and the chancellor's office of the community colleges;
8. That a score of 215 on the Comprehensive Adult Student Assessment System (CASAS) test equates to a newly legalized person being able to demonstrate proficiency in English for the purposes of converting from temporary to permanent

residency status. ESL instruction also may be provided to newly legalized persons scoring at or above the CASAS 215 level. However, providers of educational services must target services as specified in paragraph (3) of subdivision (t);

9. That the State Department of Education shall submit quarterly reports to the Health and Welfare Agency, detailing the aggregate claims for reimbursement for adult education services, the total number of newly legalized persons served, the number of certificates of satisfactory pursuit issued by SLIAG-participating providers, and the number of pre-1982 individual and SAW's served, including individuals served who do not need an educational service to convert to permanent residency; and

10. That K–12 school districts and community colleges shall not receive General Fund apportionments for services provided to newly legalized persons where reimbursement for such services has been provided from SLIAG funds.

(lx) (1) The Health and Welfare Agency shall oversee outreach activities targeted to newly legalized persons. The outreach efforts shall cover, to the extent SLIAG reimbursement and federal law allow, all of the following:

(A) Information on the steps temporary legal residents must take to obtain permanent legal resident status, including information on the specific requirements to obtain this status and guidelines for courses of study for English language and civics instruction as established by the Immigration and Naturalization Service (INS), and how and where to obtain these education services.

(B) Information about employment, health, education, and social services available; the importance of identifying oneself as a newly legalized person to providers of these services; the rights and responsibilities of newly legalized persons; and how to obtain help in dealing with the legalization process.

(2) The Health and Welfare Agency shall have the discretion to utilize up to $1,250,000 in funds for these comprehensive coordinated outreach activities, and to distribute these funds to nonprofit organizations based on what it determines is necessary to accomplish the objectives of the outreach program. Contractors shall distribute all appropriate materials developed concerning requirements for change in status from temporary legal resident to permanent legal resident to existing providers of education and health services to eligible legalized persons. These outreach services shall be consistent with, and provided in coordination with, the outreach services provided pursuant to paragraphs (1) and (3). To the extent feasible, outreach contractors shall subcon-

tract with local community-based organizations and qualified designated entities for face-to-face or other community-based outreach efforts.

(3) (A) In addition to efforts undertaken by the Health and Welfare Agency, the Department of Health Services, the State Department of Education, and the Department of Mental Health shall have the discretion to use, from their departmental allocations set forth in paragraph (2) of subdivision (a), funds to provide outreach on the availability of health, social, employment, and educational services to newly legalized persons. These outreach services shall be consistent with, and provided in coordination with, the outreach services provided pursuant to paragraphs (1) and (2). The departments may provide these outreach services through local government agencies and private nonprofit providers serving SLIAG-eligible persons, as the participating departments, in consultation with SLIAG providers, deem most appropriate.

(B) In consulting service providers, the State Department of Education shall utilize its statewide advisory council operating pursuant to subdivision (x). The Department of Health Services shall form an ad hoc advisory group composed of representatives of primary care clinics, local health officers, and county indigent health care program administrators. The Department of Mental Health shall consult the California Conference of Local Mental Health Directors and the California Council on Mental Health. The departments shall consult with service providers; develop necessary program structure, policies, and procedures; and commence outreach program implementation no later than January 1, 1991.

(C) The Department of Health Services may utilize up to $1,369,000 to provide unserved newly legalized persons with information on how to obtain needed health care services, with the goal of establishing a preventive and primary care relationship between providers and members of this population.

(D) The State Department of Education may utilize up to $1,100,000 to reach eligible legalized persons with CASAS scores of under 200 and those not yet evaluated on the CASAS instrument.

(E) The Department of Mental Health may utilize up to $60,000 to provide general information to the newly legalized population about mental health services offered in their communities and how to gain access to them.

(m) Each state department which receives or administers SLIAG funds shall make available, where necessary, through existing

programs, technical assistance and training to service providers. Technical assistance may include information and training in cost tracking and identification systems, accounting procedures and program accountability, reimbursement claim preparation, and identification procedures for newly legalized persons. The departments shall ensure that this assistance is allowable under federal SLIAG regulations and guidelines. The departments may provide this technical assistance directly through existing programs or through contracts with individuals or organizations having expertise in program areas, and may implement this technical assistance through any of the following:

(1) Local or regional or statewide workshops.
(2) Identification of model programs.
(3) Onsite consultation.
(4) Statewide training/association activities.

(n) Primary care clinics may participate in established public health program contracting processes in order to be reimbursed from other funding sources. The Department of Health Services shall coordinate its various public health contracting programs to allow eligible primary care clinics to apply for provider status in public health programs as appropriate.

(o) The Department of Education, in providing administrative oversight of SLIAG programs, shall assist community-based organizations in establishing educational programs for newly legalized persons, in locating credentialed instructors and in obtaining in-service training.

(p) (1) All entities providing ESL classes to newly legalized persons shall employ at least one teacher/coordinator who holds a certificate or credential recognized by the appropriate credentialing agency as an indicator of the teacher's ability to teach in a language development program. All other individuals who teach ESL classes shall:

(A) Hold a bilingual education or language development specialist certificate issued by the appropriate credentialing agency; or
(B) Be credentialed and have successfully completed college coursework or training in ESL.

(2) When no teacher meeting the above criteria is available for placement, individuals who meet any of the following criteria and agree to participate in mandatory, concurrent training in ESL may be hired. Eligible candidates include individuals who:

(A) Are not credentialed, but have ESL college coursework or training; or
(B) Have established proven experience of not less than 6 months of successful direct ESL instruction with any age group.

(q) (1) Counties which claim SLIAG funds for indigent health services based on the documentation of services provided to individual eligible legalized aliens, to the extent SLIAG funds are allowable and to the extent this information is not now available, shall implement, by the end of the 1990–91 state fiscal year, the Medically Indigent Care Reporting System, as defined by the State Department of Health Services. This system shall provide, at a minimum, specific patient identification and linkage to incurred costs for the five service categories below:

(A) Inpatient services rendered to newly legalized persons and associated costs.

(B) Outpatient services and associated costs.

(C) Emergency and associated costs.

(D) Pregnancy-related services and associated costs.

(E) Contract services and associated costs.

(2) Counties which claim SLIAG funds for medically indigent health services based on statistically valid sampling shall submit their sampling plans, inclusive of all methodologies and protocols, to the Department of Health Services for review and approval. Prior to this approval, the state department shall submit the sampling plan to the United States Department of Health and Human Services for review and comment. Any such approval by the state department shall categorically include the federal comments and shall be contingent thereon. Approval of a sampling plan shall in no way set aside the requirement for subrogation of financial liability for inappropriate expenditure or nonuse of funds contained in subdivision (f). Nothing in this subdivision shall be construed to preclude the state department from disapproving a sampling plan for cause.

(3) Counties shall have the option of utilizing either of the methods described in paragraph (1) or (2) for claiming SLIAG funds for indigent health services.

(4) The State Department of Health Services, in consultation with the Health and Welfare Agency, shall inform counties concerning the extent to which SLIAG funds may be used to design, develop, implement, and maintain data collection and auditing systems, and shall monitor county implementation of the Medically Indigent Care Reporting System (MICRS). Counties shall submit an implementation plan to the department no later than six months after receipt of written federal assurance that costs incurred in the design, development, and implementation of MICRS are reimbursable using SLIAG funds. Counties shall have an appropriate patient identification system in place no later than eight months after receipt of this written assurance.

(r) (1) (A) The State Department of Education (SDE) shall establish a funding allotment for each approved adult education SLIAG provider. The SDE shall adjust individual allotments at the end of the fall semester and also periodically as deemed necessary, to reflect updated estimates of enrollment and funding available. The SDE shall also apportion at least 10 percent of the appropriation to a reserve pending the midyear adjustment or adjustments.

(B) The aggregate funding allotments for all adult education providers shall be based on a total student enrollment of 383,000 newly legalized persons, each receiving an average of 60 hours of instruction. In establishing and adjusting provider funding allotments, SDE may fund more than 383,000 students or provide for average attendance hours in excess of 60 hours, provided that all adult education services are funded within the appropriation specified in clause (1) of subparagraph (C) of paragraph (2) of subdivision (a). SDE shall notify the Department of Finance in advance if provider allotments exceed 383,000 students or 23,000,000 instructional hours.

(2) For the purpose of determining each provider's funding allotment, the SDE shall calculate an amount for each provider based on the following list of priorities. The calculation shall commence with subparagraph (A) for all providers statewide, and shall proceed until the total amount of funding made available for this purpose has been exhausted:

(A) 60 hours of instruction for each pre-1982 individual in need of a certificate of satisfactory pursuit, and not previously enrolled for 60 hours or meeting alternative means of demonstrating satisfactory pursuit. The SDE's calculation shall be based on the department's estimates of the number of these individuals in each county, minus estimates of the number of those individuals receiving non-SLIAG funded services. Funding associated with these individuals shall be prorated among providers within each county based on the discretion of the Superintendent of Public Instruction, but primarily based on 1988–89 and 1989–90 enrollment counts.

(B) Additional hours for ESL and civics instruction for pre-1982 individuals and Special Agricultural Workers (SAW's), at the discretion of the Superintendent of Public Instruction.

(C) Additional hours for other SLIAG-allowable adult education instruction, at the discretion of the Superintendent of Public Instruction.

(s) For the purpose of initiating new programs or expanding existing ones, the State Department of Education shall consider a geographic area as severely underserved when:

(1) There are 50 or more priority individuals, as defined in subdivision (t), who are living in the geographic area and who need enrollment in an ESL/civics class in order to successfully apply for lawful permanent residency; and

(2) There are no ESL/civics class programs approved by the United States Department of Justice to issue certificates of satisfactory pursuit in the geographical area, or all existing classes in the geographical area have waiting lists of six months or longer enrollment backlog; and

(3) It is more than 40 miles, or one-hour's travel time (one way), between the underserved area and the nearest ESL/civics provider which will have sufficient vacant class slots within the next six months.

(t) (1) Priority students for ESL and civics instruction are defined as persons who are applicants for permanent residence pursuant to Section 245A of the Immigration Reform Control Act of 1986 (P.L. 99-603), who score below a level of 215 on the standardized Comprehensive Adult Student Assessment System (CASAS) or a correlative score on any other standardized literacy test approved by the Superintendent of Public Instruction, or who have failed the legal proficiency test administered by the Immigration and Naturalization Service (INS) or its designated agencies, and who have not yet demonstrated that they are "satisfactorily pursuing" English and United States civics, as defined in paragraph (s) of Part 245a.1 of Title 8 of the Code of Federal Regulations and cannot qualify for any alternatives to demonstrating satisfactory pursuit other than enrolling in an adult education program.

(2) As a condition of receiving funds, providers of ESL and civics instruction shall maintain waiting lists of prospective students eligible under the State Legalization Impact Assistance Grant (SLIAG) program identified by adjustment status pursuant to Sections 210 and 245A of Public Law 99-603. The waiting lists shall specify: (1) each individual's status (Pre-1982 or SAW); (2) CASAS score (when assessed); and (3) whether the individual was previously enrolled for the purposes of meeting INS requirements, qualifies for any alternatives to demonstrating satisfactory pursuit, or has passed the legal proficiency test administered by the INS (or its designated agencies), has failed this test, or has qualified for a certificate of satisfactory pursuit.

(3) In addition, at the end of each quarter or semester, including the summer quarter or semester, providers shall reenroll all SLIAG-funded individuals, vacancies permitting. At these times, or any other time when a vacancy arises, providers shall enroll students based on the following priorities:
   (A) Priority students scoring below 215 CASAS, or who have failed an INS-approved proficiency test, in need of 60 hours of instruction in order to obtain a certificate of satisfactory pursuit and who do not qualify for any of the alternative means of demonstrating satisfactory pursuit.
   (B) Students scoring 215 CASAS or above who do not qualify for any of the alternative means of demonstrating satisfactory pursuit, but who reside 40 miles or more from an INS test center (or one hour travel time, one way), and who are in need of 60 hours of instruction in order to obtain a certificate of satisfactory pursuit.
   (C) Students scoring below 215 CASAS who: (i) have qualified for a certificate of satisfactory pursuit; or (ii) are SAW's.
   (D) Students scoring 215 CASAS or above and previously enrolled and not in need of a certificate of satisfactory pursuit.
   (E) Students scoring 215 CASAS or above and not previously enrolled and not in need of a certificate of satisfactory pursuit.

(4) Providers shall schedule future dates on which priority individuals on waiting lists can enroll and on which other students shall reenroll, and shall inform individuals on waiting lists of these dates at the time they are included on the lists.

(5) For any given semester, providers who certify to the superintendent that there are no priority students on their waiting lists are exempt from the reenrollment requirements for that semester.

(6) If the State Department of Education has determined that a SLIAG-funded education agency has provided an average of over 100 hours of instruction at the end of the first semester, and the provider has a waiting list with priority students subsequent to enrolling second (Spring) semester students, the State Department of Education shall instruct that provider to reenroll all SLIAG-funded students during the second semester once the average hours of instruction reaches 60 hours. Reenrollment shall be based on the priorities as set forth in paragraph (3).

(7) The State Department of Education shall issue guidelines defining the maximum number of weeks allowable in a given semester or quarter.

(8) This subdivision shall apply notwithstanding any provision of the Education Code or any other provision of law.

(u) It is the intent of the Legislature that educational service providers encourage individuals scoring above 210 CASAS to take the Immigration and Naturalization Services proficiency test before enrolling in adult education classes. The SDE shall notify providers of this policy.

(v) Educational providers receiving SLIAG funds shall report to the State Department of Education, no later than November 1, 1990, the following information by category (pre-1982, SAW, below or above 215 CASAS): the number of individuals served, the number still on waiting lists, the number of certificates of satisfactory pursuit issued, and any other data deemed necessary by the State Department of Education and the Health and Welfare Agency for making midyear allotment adjustments.

(w) The aggregate allotments made to all participating community colleges pursuant to subparagraphs (A), (B), and (C) of paragraph (2) of subdivision (r), plus a proportional amount of the funds reserved for the midyear adjustment required by paragraph (1) of subdivision (r), shall be considered a program appropriation, just as if it were separately scheduled under subparagraph (C) of paragraph (2) of subdivision (a). The State Department of Education, in consultation with the Chancellor's office and the Department of Finance, shall have the authority to adjust the amounts allocated to individual community college districts. However, should these adjustments either augment or reduce the total amount of funds available to community colleges, these adjustments shall only be authorized subject to the legislative notification procedure set forth in paragraphs (2), (3), and (4) of subdivision (b).

(x) The State Department of Education shall maintain a statewide advisory council of community-based organizations, qualified designated entities, adult education providers, and community college providers to assist the department in the coordination of administrative, reimbursement, and funding allocation processes, outreach, and technical assistance efforts.

(y) All contracts and agreements involving SLIAG funds shall require both contracting parties to maintain confidentiality of all beneficiary information relating to immigration status. The contracts shall specify that this information shall not be released to the United States Immigration and Naturalization Service, or to any other agency, without the beneficiary's consent, unless this release is required by state or federal law.

(z) The maximum average reimbursement rate for instructional services established by paragraph (2) of subdivision (k) shall govern the payment of adult education provider claims for the 1989–90 fiscal year, except that:

(1) The Superintendent of Public Instruction may authorize rates of payment in excess of $5.00 per hour, but not to exceed a statewide average of $5.00 per hour.

(2) These special rates of payment shall not be subject to the superintendent's prior approval.

(3) Payment for all adult education services shall not exceed the amount authorized by the Budget Act of 1989 or subsequent modifications thereto.

(za) (1) The Health and Welfare Agency shall oversee education and outreach activities on employment discrimination. The education and outreach efforts shall cover, to the extent SLIAG reimbursement and federal law allow, all of the following:

(A) Education and outreach to California employers regarding practices of unfair discrimination in employment, based on national origin or citizenship status.

(B) Education and outreach to persons in California regarding their rights to protection from unfair discrimination in seeking or retaining employment, based on national origin or citizenship status. This educational outreach shall include material on the processes and procedures for redressing unfair discriminatory practices in accordance with federal and state law.

(2) The Health and Welfare Agency shall have the discretion to utilize up to $892,000 for community-based education and outreach activities to be performed by private nonprofit organizations. Contractors shall distribute all appropriate materials developed to existing providers of education and health services to eligible legalized persons and shall coordinate their activities with these providers. The Department of Fair Employment and Housing and the Employment Development Department shall have the discretion to utilize up to $774,000 and $884,000, respectively, for their antidiscrimination education and outreach activities. These activities shall focus primarily on employer education efforts and shall use, where feasible, existing communication networks and state staff to provide information and assistance to employers and employer groups.

(zb) (1) All participating departments shall develop plans dealing with the transition from SLIAG funding for each program under their jurisdiction. These plans shall detail the number of newly legalized persons served by the program, the costs of services provided them, the projected need to provide continuing services to newly legalized persons, the feasibility of meeting this need through existing program resources, the sources of funding for continuing services if existing program resources are inadequate, and the consequences of not providing continuing services to newly le-

galized persons.

(2) The departments shall submit their plans to the Health and Welfare Agency by December 1, 1990. The agency shall consider these plans as part of its recommendations for expenditure of SLIAG funds for the 1991–92 fiscal year, and shall provide a consolidated SLIAG transition plan to the Governor and the Legislature by January 10, 1991.

(zc) The Department of Mental Health shall notify counties, as part of its SLIAG funding process, that it is appropriate that nonprofit community mental health clinics be incorporated, to the extent feasible, into the network of providers of outreach and mental health services to newly legalized persons.

(zd) If additional federal funds become available above the amount appropriated in this act, the Controller shall augment the appropriation in clause (1) of subparagraph (C) of paragraph (2) of subdivision (a) by the amount of the additional federal funds available, provided that the augmentation made pursuant to this subdivision shall not exceed $16,000,000.

For the 1990–91 fiscal year, the oil and mineral revenues from federal lands which are deposited in the State School Fund shall be divided between Section A and Section B of the State School Fund, with 85 percent of these revenues to be credited to Section A of the fund exclusively for K–12 district regular apportionments and 15 percent to Section B of the fund exclusively for community college regular apportionments. penditures and purposes for expenditure for the 1991–92 fiscal year. If applicable, the amount of lottery funds received on the basis of adult education ADA and the amount of lottery funds expended for adult education also shall be reported.

(b) The State Department of Education shall conduct a survey of a representative sample of 100 local educational agencies to determine the patterns of use of lottery funds in those agencies. The sample shall be drawn to include all local educational agencies over 200,000 ADA and representative local educational agencies randomly selected by size, range, type, and geographical dispersion. On or before January 15, 1991, the State Department of Education shall report to the Legislature and the Governor the results of the survey for the 1989–90 fiscal year.

SEC. 26.60. Notwithstanding any other provision of law, 30 days prior to the Department of Food and Agriculture's entering into interim financing or long-term financing, including bond agreements, pursuant to Article 9 (commencing with Section 19590) of Chapter 4 of Division 8 of the Business and Professions Code, the department shall submit a report to the Chairperson of the Joint Legislative Budget Committee with copies to the Chairpersons of Senate Budget and Fiscal Review Subcommittee Number 2, Assembly Ways and Means Subcommittee Number 3, the Senate Select Committee on Fairs and Rural Issues, and the Subcommittee on Fairs and Expositions of the Assembly Committee on Agriculture. The report shall list: (a) proposed individual satellite wagering expansion projects at fairs, (b) costs for constructing, operating, and maintaining individual satellite wagering projects, (c) net revenue projections for individual satellite wagering projects, and (d) projected effect on net Satellite Wagering Account revenue resulting from individual satellite wagering projects and satellite wagering related projects. Additional notification is not required for financing proposals unless refinancing will result in the expenditure of additional funds, in which case the report shall include the above-requested information relating only to the new debt. Reporting shall only be required for satellite wagering projects funded by interim financing or long-term financing, including bond agreements.

SEC. 27.00. (a) Approval by the Department of Finance of the creation of deficiencies pursuant to Section 11006 or approval to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall not be made unless the approval is made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and chairperson of the committee in each house which considers appropriations not later than 30 days prior to the effective date of the approval, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine, except for an approval for an emergency expenditure. This notification requirement is not applicable to caseload increases in Medi-Cal, Aid to Families with De-

pendent Children (AFDC), and Supplemental Security Income/State Supplementary Program (SSI/SSP). All notifications shall include (1) the date a deficiency request was received by the Department of Finance, (2) the reason for the proposed deficiency, and (3) the approved amount.

(b) Approval for any emergency expenditure shall be made in writing and filed with the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house which considers appropriations not later than 10 days after the effective date of the approval. All notices shall state the reason for and amount of the deficiency.

As used in this section, "emergency expenditure" means an expenditure incurred in response to conditions of disaster or extreme peril which threaten the health or safety of persons or property within the state.

(c) The Department of Finance shall report quarterly to the Chairperson of the Joint Legislative Budget Committee and the fiscal committee of each house on the cumulative deficiency requests approved pursuant to subdivisions (a) and (b). The report shall contain the information required in paragraphs (1), (2), and (3) of subdivision (a). This report shall be filed within 15 days after the close of each fiscal quarter.

(d) The Department of Finance shall provide copies of all requests from agencies to spend at rates which will result in a deficiency appropriation to the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house which considers appropriations. The department shall submit these copies within 10 days of receipt. The transmittal of this information to the Legislature shall not be construed by the requesting agency as approval of the deficiency request.

(e) For purposes for which the Governor previously vetoed funding, allocation of funds or authorization for deficiency expenditures shall not be made under the emergency provisions.

SEC. 27.50. (a) The California Auctioneer Commission, the Board of Chiropractic Examiners, the Board of Osteopathic Examiners, the Board of Pilot Commissioners, and any board or bureau within the Department of Consumer Affairs shall provide written notification to the Department of Finance, the Joint Legislative Budget Committee, and the fiscal committees of the Legislature 30 days prior to the expenditure of funds to pursue or defend against a lawsuit which is not directly related to consumer protection.

(b) As used in this section, "a lawsuit directly related to consumer protection" means a lawsuit against or filed by a licensee of the board, bureau, or commission itself. All notifications shall contain: (1) the reason for being involved in the lawsuit; (2) the anticipated cost of the lawsuit; and (3) details of how the costs will be covered within the authorized budget or through a deficiency request authorization pursuant to Section 27.00 or 28.00 of this act. The transmittal

of this information to the Legislature shall not be construed by the board, bureau, or commission as approval to be involved in the lawsuit.

SEC. 28.00. (a) The Director of Finance may authorize the augmentation of the amount available for expenditure for any category or program in the schedule set forth for any appropriation in this act or any additional category or program in the amount of any funds which he or she estimates will be received by an officer, department, division, bureau, or other agency during the 1990–91 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he or she determines has not been taken into consideration in the schedule or is in excess of the amount so taken into consideration.

(b) The Director of Finance may also reduce any category or program whenever he or she determines that funds to be received will be less than the amount taken into consideration in the schedule.

(c) The augmentations or reductions set forth in paragraphs (1) to (5), inclusive, may not be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine. This notification requirement is not applicable to federal funds related to caseload increases in Medi-Cal, Aid to Families With Dependent Children (AFDC) and Supplemental Security Income/State Supplementary Program (SSI/SSP).

(1) Augmentations or reductions which either are (A) in excess of $100,000 or (B) are in excess of 10% of the amount available for expenditure in the affected category or program.

(2) Any other augmentations which the Director of Finance determines constitute an increase in the level of services above that authorized by this act or other existing law or are for a new program not identified in this act as such.

(3) Any other reductions which the Director of Finance determines constitute a decrease in the level of service below that authorized by this act or other existing law.

(4) Any augmentation, regardless of the amount, for the purpose of funding a task force or advisory council created by executive order of the Governor.

(5) Any reduction in excess of 5% of the amount available for expenditure for any program funded from the Cigarette and Tobacco Products Surtax Fund.

(d) Any personnel action which is dependent on funds subject to the provisions of this section shall not be effective until after the provisions of this section have been complied with. Any authorization made pursuant to this section too late for inclusion in the Governor's

Budget for the 1991–92 fiscal year shall remain in effect for the period the director may determine in each instance, but in no event after June 30, 1992.

(e) All authorizations reported or requested under the provisions of this section shall include all of the following:

(1) A description of the proposed expenditure and identification of the statutory authority for the expenditure.

(2) A determination whether the expenditure, if federally funded, is specifically designed to be one-time, a continuing federal obligation, or one that the state is required (or expected) to fund at some future date.

(3) A determination whether the expenditure, if federally funded, supplements or replaces existing state expenditures.

(4) A determination whether the expenditure has previously been considered at some point in the legislative process and has been denied and, if the expenditure has been denied, for what reasons.

(f) All increased expenditures from department indirect cost funds in excess of the amount budgeted in this act or identified in a prior Section 28.00 notification are subject to the reporting requirements of this section.

SEC. 29.00. The Department of Finance shall calculate and publish a listing of total personnel-years and estimated salary savings for each department and agency. These listings shall be published by the Department of Finance at the same time as the publication of (a) the Governor's Budget, (b) the May revision and (c) the Final Change Book.

(a) The listing provided at the time of the publication of the Governor's Budget shall contain estimates of personnel-years for the prior year, current year, and budget year.

(b) The listing provided at the time of publication of the May revision shall contain estimates of personnel-years proposed for the budget year.

(c) The listing provided at the time of the publication of the Final Change Book shall contain estimates of personnel-years for the budget year just enacted.

SEC. 30.00. Section 13340 of the Government Code is amended to read:

13340. On and after July 1, 1991, no moneys in any fund which, by any statute other than a Budget Act, is continuously appropriated without regard to fiscal years, may be encumbered unless the Legislature, by statute, specifies that the moneys in the fund are appropriated for encumbrance.

SEC. 31.00. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code and Article 2.5 (commencing with Section 13332) of Chapter 3 of Part 3 of Division 3 of Title 2 of the Government Code requiring expenditures to be made in accordance with the al-

lotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in the manner which the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

The Director of Finance, or his or her authorized designee, shall notify the Chairperson of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step per month of $3,020 as of July 1, 1990 and $3,171 as of January 1, 1991. He or she shall also report all transfers to blanket authorizations and the establishment of any permanent positions out of a blanket authorization.

All positions administratively established pursuant to this section during the 1990–91 fiscal year shall terminate on June 30, 1991, except for those positions which have been (a) included in the 1991–92 Governor's Budget as proposed new positions, or (b) approved by the Department of Finance and reported to the Legislature after the 1991–92 Governor's Budget submission to the Legislature. The positions set forth in (a) and (b) above may be reestablished by the Department of Finance during the 1991–92 fiscal year, provided these positions are shown in the 1992–93 proposed Governor's Budget submitted to the Legislature, or in subsequent Department of Finance letters to the Legislature, and provided that these positions do not result in establishment of positions deleted by the Legislature through the 1991–92 budget process.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. A copy of this document shall be submitted to the Department of Finance upon request. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to the allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. This transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any 1990–91 fiscal year appropriation not appropriated for that purpose may be expended for increases in salary ranges or any other employee compensation action(s) unless the Department of Finance certifies to the salary and other compensation-

setting authority prior to the adoption of these action(s) that funds are available to pay the increased salary or employee compensation resulting therefrom. Prior to certification, the Department of Finance shall determine whether this increase in salary range or employee compensation action will require supplemental funding in the 1991–92 fiscal year. If the Department of Finance determines that supplemental funding will be required, no certification shall be issued unless notification in writing is given by the Department of Finance, at least 30 days before certification is made, to the chairperson of the committee in each house which considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or a lesser time which the chairperson of the joint committee, or his or her designee, determines.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that these expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32.00. The officers of the various departments, boards, commissions, and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of these appropriations, unless the consent of the Department of Finance is first obtained, and a certificate, in writing, is duly signed by the director of the department seeking authority for the expenditure, certifying the unavoidable necessity of the expenditure. Any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void, and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of a department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable both personally and on his or her official bond for the amount of the indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to which the indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Chairperson of the Joint Legislative Budget Committee, and the chairperson of the committee in each house which considers appropriations, quarterly, and shall in-

dicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 33.00. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 33.50. If the appropriation in category (f) of Item 5180-151-001 of Section 2.00 of this act is reduced or eliminated by the Governor pursuant to subdivision (b) of Section 10 of Article IV of the California Constitution, the Director of Finance shall transfer from the Restitution Fund the amount of funds necessary so that at least ten million three hundred thousand dollars ($10,300,000) shall be available during the 1990–91 fiscal year for the support of the Office of Child Abuse Prevention in accordance with Chapter 12 (commencing with Section 18975) of Part 6 of Division 9 of the Welfare and Institutions Code.

SEC. 34.00. If any portion of this act is held unconstitutional, such decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 35.00. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36.00. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act makes appropriations and contains related provisions for support of state and local government for the 1990–91 fiscal year and provides for capital outlay appropriations, in continuation of existing programs and to promote and sustain the economy of the state. It is imperative that these appropriations be available for expenditure commencing not later than July 1, 1990. It is therefore necessary that the act go into immediate effect.

[Approved by Governor August 7, 1990. Filed with Secretary of State August 8, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 1120 of the Harbors and Navigation Code is amended to read:

1120. Vessels which use pilotage services, and their tackle, apparel, furniture, and other appurtenances, and their owners, operators, and agents are jointly and severally liable for pilotage fees and for the surcharges established pursuant to this division.

SEC. 2. Section 1136 of the Harbors and Navigation Code is amended to read:

1136. Every pilot and inland pilot licensed pursuant to this division shall do all of the following:

(a) Take an oath of office in the manner prescribed by law.

(b) Submit monthly to the board a verified account of all moneys or other compensation received by the pilot or inland pilot as a result of pilotage services, or by any other person for the pilot or inland pilot, or on the pilot's or inland pilot's account on the forms furnished by the board.

SEC. 3. Section 1159.1 is added to the Harbors and Navigation Code, to read:

1159.1. The board shall impose a board operations surcharge, the purpose of which is to fully compensate the board for its official services, for the services of its staff, and for all its incidental expenses. The amount of the surcharge shall not exceed 7½ percent of all pilotage fees charged by pilots and inland pilots, unless the board establishes, with the approval of the Department of Finance, a lesser percentage. The board shall quarterly review its ongoing and anticipated expenses and adjust the surcharge to reflect any changes which have occurred since the last adjustment.

SEC. 4. Section 1163 of the Harbors and Navigation Code is amended to read:

1163. (a) (1) Each retired or disabled pilot shall receive, as a monthly pension, that amount which is one hundred ten dollars ($110) multiplied by the number of full years of service he performed as a pilot licensed under this division.

(2) A pilot who retires or becomes disabled shall not begin to receive his pension until the benefit year next following the date on which he retires or becomes disabled.

(3) No retired pilot shall receive benefits pursuant to the pension plan in any benefit year unless his resignation as an active pilot specifying a proposed date of retirement was submitted, in writing, to the board, prior to December if his retirement is to be effective the first day of the following January or prior to June if his retirement is to be effective the first day of the following July. His resignation shall become effective on either January 1 or July 1 as specified in the written resignation.

(4) If a retired or disabled pilot who is receiving a pension dies without a wife surviving him, his successor in interest shall receive the proceeds of the pension for the remainder of the benefit year, after which time it shall cease.

(b) (1) The widow of a deceased pilot who would be eligible for a pension pursuant to subdivision (c) of Section 1164 shall receive, as a monthly pension, three-fourths of the amount that her deceased husband would have received as a pension pursuant to this section had he lived.

(2) If a retired or disabled pilot receiving a pension dies, his widow shall continue to receive the full pension to which her deceased husband was entitled for the balance of the benefit year, after which she shall receive the amount specified in paragraph (1) of this subdivision.

(3) When a widow receiving a pension dies, her successor in interest shall receive the proceeds of the pension for the remainder of the benefit year, after which time it shall cease.

(c) For the purposes of the computations described in paragraph (1) of subdivision (a), six months or more of service by a pilot shall be considered a full year.

SEC. 5. Section 1171.5 of the Harbors and Navigation Code is amended to read:

1171.5. (a) The board shall adopt, by regulation, licensing standards which shall be equal to, or exceed, standards for obtaining federal endorsements and which shall conform with and support the state policy specified in Sections 1100 and 1101.

(b) The board shall adopt reasonable rules and regulations which require pilots to be qualified to perform all pilot duties.

(c) The board shall adopt training standards and a training program for pilots, inland pilots, and pilot trainees. In the case of pilot trainees, the training program shall be for a minimum of one year and a maximum of three years. In the case of pilots and inland pilots, the board shall specify the type, nature, duration, and frequency of the training required and the identity of the pilots or inland pilots who are required to undergo training in the next 12-month period. Pursuant to Section 1182, the license of a pilot or inland pilot may be revoked or suspended if he or she fails to complete the training required by this subdivision during the period specified.

(d) The board shall establish a pilot evaluation committee consisting of five active pilots who each have at least 10 years' experience as a pilot on the Bays of San Francisco, San Pablo, and Suisun. The board shall select the members of the pilot evaluation committee. A member may not serve for more than two four-year terms, except that two of the initial members appointed to the pilot evaluation committee shall serve terms of two years.

(e) The pilot evaluation committee shall conduct and supervise the pilot training programs pursuant to the direction and regulation of the board and consistent with the intent of this division.

(f) The board shall issue a certificate of completion to each pilot trainee who satisfactorily completes the training program. The board shall not issue a pilot's license to any person who does not receive a certificate of completion of the training program by the board, although the board may refuse to issue a pilot license to a pilot trainee who has received this certificate.

(g) The training program for pilots, inland pilots, and pilot trainees shall be funded from the Board of Pilot Commissioners Special Fund pursuant to Section 1159.

1190. (a) Every vessel spoken inward or outward bound, shall pay the following rate of bar pilotage through the Golden Gate and into or out of the Bays of San Francisco, San Pablo, and Suisun:

(1) Seven dollars and thirty-five cents ($7.35) per draft foot of the vessel's deepest draft and fractions of a foot pro rata, and an additional charge of 50.19 mills ($0.05019) per high gross registered ton.

(2) A minimum charge for bar pilotage shall be six hundred dollars ($600) for each vessel piloted.

(3) The vessel's deepest draft shall be the maximum draft attained, on a stillwater basis, at any part of the vessel during the course of such transit inward or outward.

(b) The rate specified in subdivision (a) shall apply only to a

pilotage which passes through the Golden Gate to or from the high seas to or from a berth within an area bounded by the Southern Pacific Bridge to the north and Hunter's Point to the south. The rate for pilotage to or from the high seas to or from a point past the Southern Pacific Bridge or Hunter's Point shall include a movement fee in addition to the basic bar pilotage rate as specified by the board pursuant to Section 1191.

(c) The rate established in paragraph (1) of subdivision (a) shall be for a trip from the high seas to dock or from the dock to high seas. The rate specified in Section 1191 shall not be charged by pilots for docking and undocking vessels. This subdivision does not apply to the rates charged by inland pilots for their services.

(d) The board shall determine the number of pilots to be licensed based on the 1986 manpower study adopted by the board.

SEC. 7. Section 1195 of the Harbors and Navigation Code is amended to read:

1195. (a) In addition to other fees for pilotage, there shall be a surcharge in an amount established by the board for each movement of a vessel using pilot services for each pilot trainee who is enrolled in the pilot trainee training program established by the board.

(b) The moneys charged and collected each month from the pilot trainee surcharge shall be paid to the board. The moneys shall be used only to fund the pilot trainee training program in the manner established by the board.

(c) By action of the board, the board may adjust the amount established pursuant to subdivision (a) as necessary to efficiently administer the pilot trainee training program.

SEC. 8. Section 1196 is added to the Harbors and Navigation Code, to read:

In order to provide the board with sufficient funding and authorization to immediately commence an ongoing training program for existing pilots and inland pilots, to adjust the purchasing power of pension benefits, and to ensure that the Board of Pilot Commissioners for San Francisco, San Pablo, and Suisun Bays is properly compensated for its costs of operation, it is necessary that this act take effect immediately.

CHAPTER 483

[Approved by Governor August 8, 1990 Filed with Secretary of State August 9, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 6086.7 of the Business and Professions Code is repealed.

SEC. 2. Section 6086.7 is added to the Business and Professions Code, to read:

6086.7. A court shall notify the State Bar of any of the following:

(a) A final order of contempt imposed against an attorney that may involve grounds warranting discipline under this chapter. The court entering the final order shall transmit to the State Bar a copy of the relevant minutes, final order, and transcript, if one exists.

(b) Whenever a modification or reversal of a judgment in a judicial proceeding is based in whole or in part on the misconduct, incompetent representation, or willful misrepresentation of an

attorney.

(c) The imposition of any judicial sanctions against an attorney, except sanctions for failure to make discovery or monetary sanctions of less than one thousand dollars ($1,000).

In the event of a notification made under subdivision (a), (b), or (c), the court shall also notify the attorney involved that the matter has been referred to the State Bar.

The State Bar shall investigate any matter reported under this section as to the appropriateness of initiating disciplinary action against the attorney.

SEC. 3. Section 6089 of the Business and Professions Code is repealed.

SEC. 4. Section 6148 of the Business and Professions Code is amended to read:

6148. (a) In any case not coming within Section 6147 in which it is reasonably foreseeable that total expense to a client, including attorney fees will exceed one thousand dollars ($1,000), the contract for services in the case shall be in writing and shall contain all of the following:

(1) The hourly rate and other standard rates, fees, and charges applicable to the case.

(2) The general nature of the legal services to be provided to the client.

(3) The respective responsibilities of the attorney and the client as to the performance of the contract.

(b) All bills rendered by an attorney to a client shall clearly state the basis thereof. Bills for the fee portion of the bill shall include the amount, rate, basis for calculation, or other method of determination of the attorney's fees and costs. Bills for the cost and expense portion of the bill shall clearly identify the costs and expenses incurred and the amount of the costs and expenses. Upon request by the client, the attorney shall provide a bill to the client no later than 10 days following the request unless the attorney has provided a bill to the client within 31 days prior to the request, in which case the attorney may provide a bill to the client no later than 31 days following the date the most recent bill was provided. The client is entitled to make similar requests at intervals of no less than 30 days following the initial request. In providing responses to client requests for billing information, the attorney may use billing data that is currently effective on the date of the request, or, if any fees or costs to that date cannot be accurately determined, they shall be described and estimated.

(c) Failure to comply with any provision of this section renders the agreement voidable at the option of the client, and the attorney shall, upon the agreement being voided, be entitled to collect a reasonable fee.

(d) This section shall not apply to any of the following:

(1) Services rendered in an emergency to avoid foreseeable prejudice to the rights or interests of the client or where a writing

is otherwise impractical.

(2) An arrangement as to the fee implied by the fact that the attorney's services are of the same general kind as previously rendered to and paid for by the client.

(3) If the client knowingly states in writing, after full disclosure of this section, that a writing concerning fees is not required.

(4) If the client is a corporation.

(e) This section applies prospectively only to fee agreements following its operative date.

SEC. 5. Section 6200 of the Business and Professions Code is amended to read:

6200. (a) The board of governors shall, by rule, establish, maintain, and administer a system and procedure for the arbitration of disputes concerning fees, costs, or both, charged for professional services by members of the State Bar or by members of the bar of other jurisdictions. The rules may include provision for a filing fee in such amount as the board may, from time to time, determine.

(b) This article shall not apply to any of the following:

(1) Disputes where a member of the State Bar of California is also admitted to practice in another jurisdiction or where an attorney is only admitted to practice in another jurisdiction, and he or she maintains no office in the State of California, and no material portion of the services were rendered in the State of California.

(2) Claims for affirmative relief against the attorney for damages or otherwise based upon alleged malpractice or professional misconduct, except as provided in subdivision (a) of Section 6203.

(3) Disputes where the fee or cost to be paid by the client or on his or her behalf has been determined pursuant to statute or court order.

(c) Arbitration under this article shall be voluntary for a client and shall be mandatory for an attorney if commenced by a client.

(d) The board of governors shall adopt rules to allow arbitration of attorney fee and cost disputes under this article to proceed under arbitration systems sponsored by local bar associations in this state. Rules of procedure promulgated by local bar associations are subject to review by the board to insure that they provide for a fair, impartial, and speedy hearing and award. In adopting or reviewing these rules, the board may provide for one lay member of any arbitration panel of three arbitrators.

(e) In any arbitration conducted pursuant to this article by the State Bar or by a local bar association, pursuant to rules of procedure approved by the board of governors, the arbitrator or arbitrators, as well as the arbitrating association and its directors, officers, and employees, shall have the same immunity which attaches in judicial proceedings.

(f) In the conduct of arbitrations under this article the arbitrator or arbitrators may do all of the following:

(1) Take and hear evidence pertaining to the proceeding.

(2) Administer oaths and affirmations.

(3) Compel, by subpoena, the attendance of witnesses and the production of books, papers, and documents pertaining to the proceeding.

SEC. 6. Section 6201 of the Business and Professions Code is amended to read:

6201. (a) The rules adopted by the board of governors shall provide that, except as to an action filed in small claims court, an attorney shall forward a written notice to the client prior to or at the time of service of summons in an action against the client for recovery of fees, costs, or both, covered by the provisions of this article. The written notice shall be in such form as the board of governors may prescribe, but shall include a statement of the client's right to arbitration under this article. Failure to give this notice shall be a ground for the dismissal of the action.

The rules adopted by the board of governors shall provide that the client's failure to request arbitration within 30 days after receipt of notice from the attorney shall be deemed a waiver of the client's right to arbitration under the provisions of this article.

(b) If an attorney, or the attorney's assignee, subject to the provisions of this article, commences an action in any court, other than a small claims court, and the dispute is not one to which subdivision (b) of Section 6200 applies, the client may stay the action by serving and filing a request for arbitration in accordance with the rules established by the board of governors pursuant to subdivision (a) of Section 6200. If the attorney files an action against the client in small claims court for recovery of fees, costs, or both, covered by the provisions of this article, and the client has not filed a request for arbitration, the small claims action, including any appeal, shall not be stayed under the provisions of this section, and the matter shall not be subject to arbitration under this article while the matter is pending in small claims court or after judgment is given in that court. A small claims court action shall not be filed by the attorney after the client has filed a request for arbitration while the arbitration is pending or after the award is issued. Any such action shall be dismissed without prejudice, and the pendency of the action shall not preclude the arbitration from going forward. The request for arbitration shall be served and filed prior to the filing of an answer in the action; failure to so request arbitration prior to the filing of an answer shall be deemed a waiver of the client's right to arbitration under the provisions of this article if notice of the client's right to arbitration was given pursuant to subdivision (a).

(c) Upon filing and service of the request for arbitration, the action shall be stayed, without the necessity of court order, until the award of the arbitrators is issued or the arbitration is otherwise terminated, and the time of the continuance of the stay shall not be part of the time limited for the commencement of the action. The stay may be vacated in whole or in part, after a hearing duly noticed by any party or the court, if the court finds that the matter, or any part of it, is not an appropriate one for arbitration under the

provisions of this article. The action may thereafter proceed subject to the provisions of Section 6204.

(d) A client's right to request or maintain arbitration under the provisions of this article is waived by (1) the commencement of an action or the filing of any pleading by the client seeking judicial resolution of a dispute to which this article applies, or (2) seeking affirmative relief against the attorney for damages or otherwise based upon alleged malpractice or professional misconduct.

SEC. 7. Section 6203 of the Business and Professions Code is amended to read:

6203. (a) The award shall be in writing and signed by the arbitrators concurring therein. It shall include a determination of all the questions submitted to the arbitrators, the decision of which is necessary in order to determine the controversy. The award shall not include any award to either party for attorney's fees incurred, notwithstanding any contract between the parties providing for such an award or attorney's fees. However, this section shall not preclude an award of attorney's fees to either party by a court pursuant to subdivision (c) of this section or of subdivision (d) of Section 6204. The State Bar, or the local bar association delegated by the State Bar to conduct the arbitration, shall deliver to each of the parties with the award, an original declaration of service of the award.

The arbitrators may receive evidence relating to claims of malpractice and professional misconduct, but only to the extent that those claims bear upon the fees, costs, or both, to which the attorney is entitled. The arbitrators shall not award affirmative relief, in the form of damages or offset or otherwise, for injuries underlying any such claim. Nothing in this section shall be construed to prevent the arbitrators from awarding a refund of unearned prepaid fees.

(b) Even if the parties to the arbitration have not agreed in writing to be bound, the arbitration award shall become binding upon the passage of 30 days after mailing of notice of the award, unless a party has, within the 30 days, sought a trial after arbitration pursuant to Section 6204. If an action has previously been filed in any court, any petition to confirm, correct, or vacate the award shall be to the court in which the action is pending, and may be served by mail on any party who has appeared, as provided in Chapter 4 (commencing with Section 1003) of Title 14 of Part 2 of the Code of Civil Procedure; otherwise it shall be in the same manner as provided in Chapter 4 (commencing with Section 1285) of Title 9 of Part 3 of the Code of Civil Procedure. If no action is pending in any court, the award may be confirmed, corrected, or vacated by petition to the court having jurisdiction over the amount of the arbitration award, but otherwise in the same manner as provided in Chapter 4 (commencing with Section 1285) of Title 9 of Part 3 of the Code of Civil Procedure.

(c) A court confirming, correcting, or vacating an award under this section may award to the prevailing party reasonable fees and costs including, if applicable, fees or costs on appeal, incurred in

obtaining confirmation, correction, or vacation of the award. The party obtaining judgment confirming, correcting, or vacating the award shall be the prevailing party except that, without regard to consideration of who the prevailing party may be, if a party did not appear at the arbitration hearing in the manner provided by the rules adopted by the board of governors, that party shall not be entitled to attorney's fees or costs upon confirmation, correction, or vacation of the award.

SEC. 8. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

Notwithstanding subdivision (b) of Section 57079, if a proposed reorganization includes a detachment of territory from the City-County of Sacramento where the governments of the City of Sacramento and County of Sacramento are consolidated in one city-county legislative body pursuant to Chapter 5 (commencing with Section 51900), of Part 2 of Division 1 of Title 5, the proceedings shall not terminate if the City-County of Sacramento files a written protest to a detachment from the City-County of Sacramento and simultaneous annexation to any of the Cities of Folsom, Isleton, and Galt, and if the proposed detachment and simultaneous annexation includes territory within the sphere of influence of any of the Cities of Folsom, Isleton, or Galt. "Sphere of influence" means for this

purpose, the sphere of influence, which has been approved in principle by the City-County of Sacramento by July 1, 1991, and adopted or amended by the local agency formation commission pursuant to Chapter 4 (commencing with Section 56425) of Part 4 prior to or as of July 1, 1992.

SEC. 4. Section 3 of this act applies to applications whether filed before or after the effective date of this act. It is the intent of the Legislature that the Local Agency Formation Commission shall not take final action on a proposed reorganization as set forth in Section 3 of this act before the City-County of Sacramento has expressed its approval pursuant to Section 3 of this act.

SEC. 5. The Legislature finds and declares that this act is necessary as a special law and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances present in Sacramento County due to the possibility of a consolidation of the City of Sacramento with the County of Sacramento and with any or all of the other cities located in Sacramento County.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Because the effects of a consolidation of the governments of the City of Sacramento and the County of Sacramento upon proceedings for the detachment of territory from a city are unclear, it is necessary that this legislation take effect before consolidation is voted upon by the people and it is therefore necessary that this act take effect immediately.

of this chapter or the application thereof to any person or circumstances is held to be invalid, the invalidity shall not affect other provisions or applications of the chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

77906. It is hereby declared as a matter of legislative determination that members of the commission are intended to represent and further the interest of a particular agricultural industry concerned and that this representation and furtherance is intended to serve the public interest. Accordingly, the Legislature finds that, with respect to persons who are elected or appointed to the commission, the particular agricultural industry concerned is tantamount to, and constitutes, the public generally within the meaning of Section 87103 of the Government Code.

77907. A commission form of administration created by this chapter is designed to deal with the broad field of production research, education, advertising, market research, promotion, and trade of flowers.

Article 3. The California Cut Flower Commission

77925. (a) There is in the state government the California Cut Flower Commission. The commission shall be composed of 13 members.

(b) Twelve producers, three each from Districts 1 to 4, inclusive, shall be elected by and from producers within the respective districts.

(c) One member shall be either a public member or a producer member, as determined by a majority of the producer members elected pursuant to subdivision (b).

If the producer members determine that the member shall be a public member, the public member shall be appointed by the director from the nominees recommended by the producer members.

If the producer members determine that the member shall be a producer, the producer members shall appoint a producer to the commission, who shall be known as the producer member-at-large.

(d) The director and other governmental officers, as determined by the commission, shall be ex officio members of the commission.

(e) The ex officio members are nonvoting members of the commission.

77926. (a) The director may require the commission to correct or cease any activity or function which is determined by the director not to be in the public interest or which is in violation of this chapter.

(b) If the commission refuses or fails to cease these activities or functions or to make corrections required by the director, the director may, upon written notice, suspend all or a portion of the activities or functions of the commission until the time that the cessation or correction of the activities or functions, as required by the director, has been accomplished by the commission.

(c) Any action of the commission in violation of the written notice is without legal force or effect. The director, to the extent feasible, shall issue the written notice prior to the commission entering into any contractual relationship affecting the existing or proposed activities or functions which are the subject of the written notice.

(d) At the same time the written notice is provided to the commission, the director shall notify the commission in writing of the specific acts which the director determines are not in the public interest or are in violation of this chapter, the director's reasons for requiring a cessation or correction of specific existing or proposed activities or functions, and the director's recommendations with respect to any action that will make the activities or functions acceptable.

77927. The commission or the director may bring an action for judicial relief from the director's written notice, or from noncompliance by the commission with the written notice, as the case may be, in a court of competent jurisdiction, which may issue a temporary restraining order, permanent injunction, or other appropriate relief.

77928. When the director is required to concur in a decision of the commission, the director shall concur, refuse to concur, or request additional information from the commission within 15 working days from the date the director receives notification of the decision.

77929. The commission shall reimburse the director for all expenditures incurred by the director in carrying out his or her

duties and responsibilities pursuant to this chapter. However, a court may, if it finds that the director acted arbitrarily or capriciously in restricting the activities or functions of the commission, relieve the commission of the responsibility for payment of the director's legal costs with regard to that action.

77930. An alternate member to each member of the commission, except the ex officio members, shall be elected in the same manner and for the same term as the member. Except as provided in Section 77937, an alternate member shall, in the absence of the member for whom he or she is an alternate, serve in place of the member and shall exercise all of the rights, privileges, and powers of the member when serving on the commission. If the status of a member changes, thereby making the member ineligible to serve, or in the event of the death, removal, resignation, or disqualification of a member, the alternate member shall act as a member of the commission until a qualified successor is elected or appointed.

77931. Any vacancy on the commission occurring by the failure of any person elected to or serving on the commission as a member or alternate member to continue in his or her position due to a change in his or her status, thereby making the person ineligible to serve, or due to death, removal, resignation, or disqualification, shall be filled for the unexpired portion of the term by a majority vote of the remaining members of the commission. The appointee shall meet all of the qualifications set forth in this article as required for the member or alternate whose office he or she is to occupy.

77932. Any vacancy on the commission occurring by the failure of the public member or his or her alternate member to continue in his or her position due to a change in his or her status, thereby making the member or alternate ineligible to serve, or due to death, removal, resignation, or disqualification, shall be filled for the unexpired portion of the term by the director from nominees recommended by the commission. The appointee shall meet all of the qualifications set forth in this article as required for the member or alternate whose office he or she is to occupy.

77933. Any producer member and his or her alternate member on the commission shall be an individual producer or an employee representing a producer who has a financial interest in producing, or causing to be produced, flowers for market. Qualifications of producer members and their alternate members shall be maintained during their entire term of office.

77934. The public member and his or her alternate member on the commission shall have all the powers, rights, and privileges of any other member or alternate member, respectively, on the commission. The public member and his or her alternate member shall not have any financial interest in the flower industry.

77935. The term of office of all members and alternate members of the commission, except ex officio members, is three years commencing with the first day of December prior to the beginning of the marketing year in the year of their election and until qualified

successors are elected. The terms of office of each member and alternate member of the commission shall be limited to three consecutive terms.

77936. The commission is hereby declared and created a corporate body. It may sue and be sued, enter into contracts, adopt a seal, and has all of the powers of a corporation. Copies of its proceedings, records, and acts, when authenticated, shall be prima facie evidence of the truth of all statements therein.

77937. A quorum of the commission is a majority of the voting members of the commission. Any alternate member to any producer member may serve in the absence of any other member if that member's alternate is also absent, if that action is necessary to establish a quorum. Except as provided in Sections 77914 and 78002, the vote of a majority of the members present at a meeting at which there is a quorum shall constitute the act of the commission.

77938. The director or his or her representatives shall be notified and may attend each meeting of the commission and any committee meeting of the commission.

77939. Members and alternate members of the commission and members of committees established by the commission shall not receive any compensation but shall receive the per diem established by Section 11564.5 of the Government Code. Ex officio members who are state officers or employees and who are compensated by the state are not eligible for per diem pursuant to this section. In addition, members and alternate members of the commission and members of committees established by the commission shall be reimbursed for actual and necessary travel expenses under the rules of the Department of Personnel Administration. The per diem and reimbursement for travel expenses shall be paid to those members for each day spent in actual attendance at, or in traveling to and from, meetings of the commission or committees of the commission, or on special assignment for the commission, as approved by the commission.

77940. All funds received by any person from the assessments levied under the authority of this chapter or otherwise received by the commission shall be deposited in banks which the commission may designate and shall be disbursed by order of the commission through an agent or agents designated by the commission for that purpose. The agent or agents shall be bonded by a fidelity bond, executed by a surety company authorized to transact business in this state, in favor of the commission, in an amount of not less than twenty-five thousand dollars ($25,000).

77941. The state is not liable for the acts of the commission or its contracts. Payments of all claims arising by reason of the administration of this chapter or acts of the commission are limited to the funds collected by the commission. No member , alternate member, employee, or agent of the commission is personally liable for the contracts of the commission nor is any such person responsible individually in any way to any producer or any other

person for errors in judgment, mistakes, or other acts, either of commission or omission, as a principal, agent, or employee, except for his or her own individual acts of dishonesty or crime. No member, alternate member, employee, or agent of the commission, is responsible individually for any act or omission of any other member, alternate member, employee, or agent of the commission. Liability is several and not joint, and no member, alternate member, employee, or agent of the commission is liable for the default of any other member, alternate member, employee, or agent of the commission.

77945. The powers and duties of the commission include, but are not limited to, all of those specified in this article.

77946. The commission may adopt, amend, and repeal regulations and operating procedures necessary to carry out this chapter, including regulations governing appeals from actions taken by the commission pursuant to any of its regulations or operating procedures.

77947. The commission may administer and enforce this chapter and perform all acts and exercise all powers incidental to, or in connection with, or deemed reasonably necessary for, the proper or advisable effectuation of this chapter.

77948. The commission may appoint its own officers, including a chairperson, one or more vice chairpersons, and other officers as it deems necessary. The officers have the powers and duties delegated to them by the commission.

77949. The commission may employ a person to serve at the pleasure of the commission as president and chief executive officer of the commission, and other personnel, including legal counsel, necessary to carry out this chapter. The commission may retain a management firm or the staff from any board, commission, or agency of the state or federal government to perform the functions prescribed by this section under the control of the commission. If any person employed by the commission engages in any conduct which the director determines is not in the public interest or which is in violation of this chapter, the director shall notify the commission of the conduct and request that corrective and, if appropriate, disciplinary action be taken by the commission. If the commission fails or refuses to correct the situation or to take disciplinary action satisfactory to the director, the director may suspend or discharge the person.

77950. The commission may fix the compensation for all employees of the commission.

77951. The commission may appoint committees composed of both members and nonmembers of the commission to advise the commission in carrying out this chapter.

77952. The commission may establish offices and incur expenses,

enter into any and all contracts and agreements, create liabilities, borrow funds in advance of receipt of assessments, and repay producers for costs incurred during the initial formation of the commission, as may be necessary, in the opinion of the commission, for the proper administration and enforcement of this chapter and the performance of its duties.

77953. The commission shall keep accurate books, records, and accounts of all its dealings which shall be subject to an annual audit by an auditing firm selected by the commission with the concurrence of the director. A summary of the audit shall be reported to all producers and a copy of the summary shall also be submitted to the department. In addition, the director may, as he or she determines necessary, conduct or cause to be conducted a fiscal and compliance audit of the commission.

77954. (a) The commission may present facts to, and negotiate with, state, federal, and foreign agencies on matters which affect this chapter, to the extent permitted by federal law.

(b) The commission shall not expend more than 10 percent of its annual budget during the 1991 to 1995, calendar years, inclusive, on activities for the modification or removal of trade barriers that restrict the free flow of flowers to market, including litigation involving trade practices, to the extent permitted by federal law.

77955. The commission may make, in its name, contracts to receive or render services in formulating and conducting plans and programs and any other contracts or agreements that the commission deems necessary for carrying out this chapter.

77956. The commission may conduct, and contract with others to conduct, production research, including the study, analysis, accumulation, and dissemination of information obtained from that research or otherwise, regarding this chapter.

The commission may implement and conduct, and contract with others to implement and conduct, market analysis, market development, market research, and shipping research, analysis, and development. The commission may study, analyze, accumulate, and disseminate any and all information obtained from those activities.

77957. The commission may accept contributions or matching private, state, or federal funds, and employ or make contributions of funds to other persons or state or federal agencies, for purposes of this chapter.

77958. The commission may publish and distribute, without charge, bulletins and other communications for the dissemination of information to producers.

77959. The commission shall establish an assessment rate to defray the operating costs of the commission.

77960. The commission shall adopt an annual budget according to accepted accounting practices. The director shall concur in the adoption of the budget prior to the encumbrance of funds, except for encumbrances necessary to pay the compensation of employees of the commission.

77961. (a) The commission may advertise or otherwise promote the sale of flowers.

(b) The commission may jointly advertise or otherwise promote the sale of flowers with any other corporation or organization advertising or otherwise promoting the sale of any other product or commodity.

77962. The commission shall annually prepare and submit to the director, for his or her concurrence, a statement of contemplated activities authorized pursuant to this chapter.

77963. The commission and the director shall keep confidential and shall not disclose, except when required in a judicial proceeding, all lists of producers in their possession.

77964. The commission may investigate and prosecute civil violations of this chapter and file complaints with appropriate law enforcement agencies or officers for suspected criminal violations of this chapter.

Article 5. Implementation and Voting Procedures

77970. (a) Within 45 days of the effective date of this chapter, the director shall establish a list of producers eligible to vote on the implementation of this chapter. In establishing the list, the director may require that producers submit the names and mailing addresses of all known producers. The director shall receive suggestions for inclusion on that list from any organization of producers, and may verify the eligibility of any person so suggested. The director also may require that the information provided include the quantity of flowers produced by each producer or, in the alternative, may establish procedures for receiving the information at the time of the referendum vote conducted pursuant to Section 77971. The request for the information shall be in writing, and the requested information shall be filed within 10 days following receipt of the request.

(b) Any producer whose name does not appear upon the appropriate list may have his or her name placed on the list by filing with the director a signed statement identifying himself or herself as a producer. The absence of a producer's name from the list does not exempt the producer from paying assessments and does not invalidate any industry votes conducted pursuant to this article.

(c) Proponents and opponents of the commission may contact producers on the lists in a form and manner prescribed by the director so long as all expenses associated with the contacts are paid in advance.

(d) Any proponent or opponent of the commission may submit to the director a statement of his or her position on the matter, and the director shall include these statements with the referendum ballots.

77971. This chapter, except as necessary to conduct an implementation referendum vote, shall not become operative until the director finds, in a referendum vote conducted by the director

that at least 40 percent of the total number of producers from the list established by the director pursuant to this article have participated and that either of the following has occurred:

(a) Sixty-five percent of the producers who voted in the referendum voted in favor of this chapter, and the producers so voting marketed a majority of the gross dollar value of flowers in the preceding marketing year by all of the producers who voted in the referendum.

(b) A majority of the producers who voted in the referendum voted in favor of this chapter, and the producers so voting marketed 65 percent or more of the total gross dollar value of flowers in the preceding marketing year by all of the producers who voted in the referendum.

77972. The director shall establish a period to conduct the referendum which shall not be less than 10 days nor more than 60 days in duration, and may prescribe additional procedures that may be necessary to conduct the referendum. If the initial period established is less than 60 days, the director may extend the period to not more than 60 days.

77973. The failure of a producer to receive a ballot shall not invalidate a referendum.

77974. If the director finds that a favorable vote has been given as provided in Section 77971, the director shall certify and give notice of the favorable vote to all producers whose names and addresses are on file with the director.

77975. If the director finds that a favorable vote has not been given as provided in Section 77971, the director shall certify and declare this chapter inoperative. The director may conduct another implementation referendum vote one or more years after the previous vote has been taken.

77976. Upon certification of the commission, the director shall contact all producers in each district by mail, or call meetings of producers in each district, for the purpose of nominating and electing persons to the commission. All producers on the director's list shall be given written notice of any election meetings at least 10 days prior to the meeting date. To be eligible for election to the commission, producer nominees shall present to the director a nomination petition with the signatures of at least three eligible producers from the district from which the nominee is seeking election.

77977. Subsequent to the first election of members of the commission pursuant to this chapter, persons to be elected to the commission shall be selected pursuant to nomination and election procedures which are adopted by the commission with the concurrence of the director.

77978. (a) Prior to the director holding the referendum pursuant to Section 77971, the proponents of the commission shall deposit with the director the amount that the director determines necessary to defray the expenses of preparing the necessary lists and

information and conducting the referendum.

(b) Any funds not used in carrying out Section 77971 shall be returned to the proponents of the commission who deposited the funds with the director.

(c) Upon the establishment of the commission, the commission may reimburse the proponents of the commission for any funds deposited with the director which were used in carrying out Section 77971 and for any legal expenses and other costs incurred in establishing the commission.

Article 6. Assessments and Records

77985. (a) The commission shall establish the assessment for the following marketing year not later than January 1 of each year, or as soon thereafter as is possible. The commission shall adopt bylaws that indicate when payment is due.

(b) The assessment for the 1991 marketing year shall not be less than one-half of 1 percent, nor more than 1 percent, of the gross dollar value of flowers grown and shipped by a producer. In any subsequent marketing year, the assessment shall not be more than 1 percent of the gross dollar value of flowers grown and shipped by a producer.

(c) A fee greater than the amount specified in subdivision (b) may not be charged unless approved by the vote specified in Section 77971.

77986. This chapter does not apply to any person who grows flowers only for his or her own home use or who is not a producer. However, any such person who markets flowers shall file an affidavit with the commission establishing that the person grows flowers valued at less than the gross value established pursuant to Section 77918. The commission shall then determine whether the affidavit should be approved.

The commission may terminate the collection of assessments directly from producers and, instead, collect producer assessments from shippers or handlers who shall deduct the assessment from amounts paid by the shippers or handlers to the producers and who shall be trustees of the funds until they are paid to the commission at the time and in the manner prescribed by the commission.

77987. Every producer shall keep a complete and accurate record of the gross dollar value of all flowers grown and cut. The records shall be in simple form and contain information as the commission shall prescribe. The records shall be retained by the producer for two years and shall be offered and submitted for inspection at any reasonable time upon written demand of the commission or its duly authorized agent.

77988. (a) The commission may specify, by regulation, the conditions under which proprietary information obtained from producers may be disclosed. Otherwise, all proprietary information obtained by the commission or the director from producers is

confidential and shall not be disclosed except when required in a judicial proceeding.

(b) Information on volume shipments, product value, and any other related information which is required for reports to governmental agencies; financial reports to the commission or aggregate sales and inventory information; and any other information which the commission requires that gives only totals, but excludes individual producer information, may be disclosed by the commission.

77989. Any assessment which is levied pursuant to this chapter is a personal debt of every producer so assessed.

77990. Any producer who fails to file a return or pay any assessment within the time required by the commission shall pay the commission a penalty of 10 percent of the amount of the assessment determined to be due and, in addition, pay 1½ percent interest per month on the unpaid balance.

Article 7. Actions and Penalties

77995. It is unlawful for any person to do any of the following:

(a) Refuse to render a report, statement, or record required by the commission.

(b) Furnish a false report, statement, or record required by the commission.

(c) When engaged in the handling of flowers, to fail or refuse to furnish the commission or its duly authorized agents, information concerning the names and addresses of persons from whom the flowers have been received and the quantity so received.

(d) Secrete, destroy, or alter records required to be kept under this chapter.

77996. The commission shall adopt procedures to grant individuals aggrieved by its actions or determinations an informal hearing before the commission or before a committee of the commission designated for this purpose. Appeals from decisions of the commission may be made to the director. The determination of the director shall be subject to judicial review upon petition filed with the appropriate superior court.

77997. (a) The commission may commence civil actions and utilize all remedies provided in law or equity for the collection of assessments and civil penalties and for obtaining injunctive relief or specific performance regarding this chapter and the regulations adopted pursuant to this chapter. A court shall issue to the commission any requested writ of attachment or injunctive relief upon a prima facie showing by verified complaint that a named defendant has violated this chapter or any regulation of the commission, including, but not limited to, the nonpayment of assessments or the intentional submission of false information to the commission. No bond shall be required to be posted by the commission as a condition for the issuance of any writ of attachment

or injunctive relief.

(b) A writ of attachment shall be issued pursuant to Chapter 4 (commencing with Section 485.010) of Title 6.5 of Part 2 of the Code of Civil Procedure, except that the showing specified in Section 485.010 of the Code of Civil Procedure is not required. Injunctive relief shall be issued pursuant to Chapter 3 (commencing with Section 525) of Title 7 of that part, except that the showing of irreparable harm or inadequate remedy at law specified in Sections 526 and 527 is not required.

(c) Upon entry of any final judgment on behalf of the commission against any defendant, the court shall enjoin the defendant from conducting any type of business involving flowers until there is full compliance and satisfaction of the judgment. Upon a favorable judgment for the commission, it is entitled to receive reimbursement for any reasonable attorney's fees and other actual related costs. Venue for these actions may be established at the domicile or place of business of the defendant or in the county of the principal office of the commission. The commission may be sued only in the county of its principal office.

77998. The suspension or termination of this chapter shall not affect or waive any right, duty, obligation, or liability which has arisen or which may thereafter arise in connection with this chapter, release or extinguish any violation of this chapter, or affect or impair any right or remedies of the commission with respect to any violation.

Article 8. Continuation or Suspension and Termination

78000. From January 1, 1995, to December 30, 1995, inclusive, the commission shall conduct a referendum among the producers to determine whether the operations of this chapter shall be approved and continued in effect. There is a favorable vote under this chapter if the director determines from the referendum that a majority of the eligible producers voting in the referendum voted in favor of continuing the operations of this chapter. If the director finds that a favorable vote has been given, the director shall so certify and this chapter shall remain effective. If the director finds that a favorable vote has not been given, the director shall so certify and declare the operations of this chapter suspended on December 31, 1995. Thereupon, operation of the commission shall be concluded and funds distributed in the manner provided in Section 78004. No bond or security shall be required for any such referendum.

78001. Following a favorable referendum conducted prior to December 31, 1995, the commission shall conduct a referendum every fifth year thereafter, unless a referendum is conducted as the result of a petition filed pursuant to this article. In that case, the referendum shall be held pursuant to procedures provided in Section 78000 every fifth year following the industry petitioned referendum.

78002. (a) Upon a finding by a two-thirds vote of the

membership of the commission that the operation of this chapter has not tended to effectuate its declared purposes, the commission may recommend to the director that the operation of this chapter be suspended. However, any suspension shall not become effective until the expiration of the current marketing year.

(b) The director shall, upon receipt of the recommendation, or may, after a public hearing to review a petition filed with the director requesting a suspension signed by not less than 20 percent of the producers by number who produced not less than 20 percent of the gross dollar value of flowers in the immediately preceding marketing year, hold a referendum among the producers to determine if the operations of the commission shall be suspended. However, the director shall not hold a referendum as a result of the petition unless the petitioner shows, by a preponderance of evidence, that the operation of this chapter has not tended to effectuate its declared purposes.

(c) The director shall establish a referendum period, which shall not be less than 10 days nor more than 60 days in duration. The director may prescribe additional procedures as may be necessary to conduct the referendum. At the close of the established referendum period, the director shall tabulate the ballots filed during the period. The director shall suspend the operation of this chapter if the director finds that at least 40 percent of the total number of producers from the list established by the director have participated in the referendum and either one of the following has occurred:

(1) Sixty-five precent or more of the producers who voted in the referendum voted in favor of suspension, and the producers so voting marketed a majority of the total gross dollar value of flowers in the preceding marketing year by all of the producers who voted in the referendum.

(2) A majority of the producers who voted in the referendum voted in favor of suspension, and the producers so voting marketed 65 percent or more of the total gross dollar value of flowers in the preceding marketing year by all of the producers who voted in the referendum.

78003. (a) The director shall terminate the commission at the end of the then current marketing year if the director finds that the termination of the commission is requested in writing, within a 90-day period, by at least 51 percent of the eligible producers that produce at least 51 percent of the total gross dollar value of flowers.

(b) The person or persons originating the request shall file a written notice with the director in a manner that establishes the date the request is initiated. Any person may withdraw his or her name from the petition requesting the termination prior to the time the request is presented to the director.

(c) The signatures to the petition requesting the termination need not all be appended to one sheet of paper. Each person signing the petition shall specify his or her place of business in a manner that will enable the location to be readily ascertained.

(d) The petition shall bear a copy of the notice of intention to terminate the commission. Signatures shall be secured within the time limit specified in this section.

78004. After the effective date of suspension, the operation of the commission shall be concluded and any and all funds remaining held by the commission and not required to defray the expenses of concluding and terminating operations of the commission shall be returned upon a pro rata basis to all persons from whom assessments were collected in the immediately preceding marketing year. However, if the commission finds that the amounts so returnable are so small as to make impractical the computation and remitting of the pro rata refund to these persons, any funds remaining after payment of all expenses of winding up and terminating operations shall be withdrawn from the approved depository and paid into an appropriate program conducted by the University of California or the California State University, another state agency, or a federal agency which deals with the purposes of this chapter. If no such program exists, the funds shall be paid into the State Treasury as unclaimed trust funds.

78005. Upon suspension of the operation of this chapter, the commission shall mail a copy of the notice of suspension to all producers whose names and addresses are on file with the commission and to the appropriate policy committees in both the Assembly and Senate.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. (b) The center's clients include, but are not limited to, teachers, administrators and curriculum planners, student teachers, mentor teachers, and special school staff.

(c) Approximately 3,000 educators are served by the Curriculum Resource Center directly each year and information is disseminated indirectly to thousands more.

(d) Since the Curriculum Resource Center is supported primarily by the Butte County Office of Education, its service area could be limited to Butte County. However, because the members of the county board of education acknowledge the value of the Curriculum Resource Center's collection and services, they have allowed the center to continue serving all educators who contact the center.

SEC. 2. The sum of one hundred forty thousand dollars ($140,000) is hereby appropriated from the General Fund to the State Department of Education without regard to fiscal year for allocation to the Butte County Office of Education for purposes of operating the Curriculum Resource Center in Oroville to provide assistance to public schools throughout California as described in Section 1.

SEC. 3. SECTION 1. Section 62212 of the Food and Agricultural Code is amended to read:

62212. The director may fix the rates of assessments or fees required by Section 62211 at lesser amounts, and may adjust the rates of assessments or fees from time to time, whenever he or she finds that the cost of administering the provisions of this chapter, including any allocation of funds made pursuant to Section 38986, can be defrayed from revenues derived from the lower rates. However, the rate of assessments deducted from payments to producers for market milk, including the handler's own production, and the rate of fees paid by handlers shall, at all times, be in the ratio of 2 to 1, except that this ratio need not be achieved during a six-month period following the transfer of any fund surplus pursuant to Section 62574.

SEC. 2. Section 62521 of the Food and Agricultural Code is amended to read:

62521. For purposes of this chapter, the following terms mean:

(a) "Board" means the Milk Producers Security Trust Fund

Board.

(b) "Fund" means the Milk Producers Security Trust Fund created pursuant to Section 62506.

(c) "Fund surplus" means the amount by which the fund, including security charges collected and all increments received pursuant to Section 62573, exceeds, at any particular time, the maximum amount provided for in Section 62560.

(d) "Handler" means any person who as owner, agent, broker, or intermediary, either directly or indirectly, receives, purchases, or otherwise acquires ownership, possession, or control of milk in unprocessed or bulk form from a producer or a producer-handler for the purpose of manufacturing, processing, selling, or other handling. It includes cooperative associations that, either directly or indirectly, receive, purchase, or otherwise acquire ownership, possession, or control of milk from other handlers or producers who are nonmembers of the cooperative.

(e) "Milk" means bulk whole milk, bulk lowfat milk, bulk skim milk, bulk condensed skim, and bulk cream, and any other combination of these products which have not had nondairy ingredients added. It does not include milk which has been packaged in bottles, cartons, dispenser cans, or other consumer packages.

(f) "Producer" means any person that produces milk from five or more cows whose bulk milk is received, acquired, or handled by a handler. It includes the nonprofit cooperative associations described in Article 3 (commencing with Section 61871) of Chapter 2 in the sale of milk of its member producers to other handlers.

SEC. 3. Section 62569 of the Food and Agricultural Code is amended to read:

62569. Any money which is collected by the director pursuant to this chapter shall be deposited in a bank or other depository which is approved by the director. Funds which are so collected are exempt from Sections 11270 and 11272 of the Government Code and shall be deposited and disbursed only to pay for milk produced and delivered within this state, which has not been otherwise paid for, including pool equalization fund obligations, attorney's fees and other costs incurred in litigation involving the fund, expenses generated by the auditing requirement imposed by Section 62570, and for the costs set forth in Section 62573. The expenditure of those funds is exempt from Section 925.6 of the Government Code.

Nothing in this section prevents the director from using the increment received from investment, reinvestment, or deposit of money specified in Section 62573, in the manner provided by Section 62574.

SEC. 4. Section 62573 of the Food and Agricultural Code is amended to read:

62573. Any increment which is received from investment, reinvestment, or deposit of money pursuant to Section 62572 shall be deposited to the credit of the fund. The Treasurer may deduct from this remittance an amount equal to the reasonable costs incurred in

carrying out Section 62572 and this section or may bill the director for the costs, and the director shall pay the costs from money collected pursuant to this chapter.

Nothing in this section prevents the director from using the increment in a manner provided by Section 62574.

SEC. 5. Section 62574 is added to the Food and Agricultural Code, to read:

62574. Immediately following the semiannual payment to the fund of the increment provided in Section 62573, if the director determines that there is a fund surplus, the director shall transfer an amount equal to the fund surplus to an account administered by the Milk Stabilization Branch of the department to be used to reduce the producer and handler assessments that would otherwise be imposed pursuant to Article 14 (commencing with Section 62211) of Chapter 2. One-half of the fund surplus so transferred shall be used to reduce the obligation of producers and one-half shall be used to reduce the obligation of handlers pursuant to that article. If, at any time, the director determines that the fund has fallen below the maximum amount provided in Section 62560 or that a transfer pursuant to this section would cause the fund to fall below the maximum amount provided in Section 62560, the director shall cease to make any transfer pursuant to this section until the time that a fund surplus exists.

(2) Concurrent with implementation of the first year of rates established under the Medi-Cal Long Term Care Reimbursement Act of 1990 (Article 3.8 (commencing with Section 14126) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code), for the purposes of this section "nursing hours" means the number of hours of work performed per patient day by aides, nursing assistants, registered nurses, and licensed vocational nurses (except directors of nursing in facilities of 60 or larger capacity) and, in the distinct part of facilities and freestanding facilities providing care for the developmentally disabled or mentally disordered, licensed psychiatric technicians who performed direct nursing services for patients in skilled nursing and intermediate care facilities, except when the skilled nursing and intermediate care facility is licensed as a part of a state hospital.

(d) Except as otherwise provided by law, the administrator of an intermediate care facility/developmentally disabled habilitative or an intermediate care facility/developmentally disabled—nursing shall be either a licensed nursing home administrator or a qualified mental retardation professional.

SEC. 3. Section 14110.7 of the Welfare and Institutions Code is amended to read:

14110.7. (a) The director shall adopt regulations increasing the minimum number of equivalent nursing hours per patient required in skilled nursing facilities to 3.0, in skilled nursing facilities with special treatment programs to 2.3, in intermediate care facilities to 1.1, and in intermediate care facilities/developmentally disabled to 2.7.

(b) (1) The director shall adopt regulations which shall establish the minimum number of equivalent nursing hours per patient required in the following, for the first year of implementation of the first year of rates established pursuant to this article:

(A) 2.6 hours for skilled nursing facilities.

(B) 1.9 hours for skilled nursing facilities with special treatment programs.

(c) (1) The Legislature finds and declares all of the following:

(A) The one-year transition phase from 2.6 to 2.7 equivalent nursing hours allows ample time to restructure staffing.

(B) The 4 percent augmentation to reimburse for direct patient care, as defined in paragraph (2) of subdivision (b) of Section 14126.60, provides funds to cover additional expenses, if any, incurred by facilities to implement this staffing standard.

(2) Subject to the appropriation of sufficient funds, the department may adopt regulations to increase the minimum number of equivalent nursing hours required of facilities subject to this section per patient beyond 2.7 nursing hours per patient day.

(d) (1) The department shall identify those skilled nursing facilities that are in compliance with the 3.0 minimum double nursing hour standards, as defined in subdivision (a) of Section 1276.5 of the Health and Safety Code, but have actual staffing ratios below 2.5, as of July 1, 1990, and shall not enforce the 2.7 equivalent nursing

hours with respect to those facilities until the third year of implementation of the rates established under this article.

(2) The department shall periodically review facilities which have actual staffing ratios described in paragraph (1) to ensure that they are making sufficient progress toward 2.7 hours.

SEC. 4. Article 3.8 (commencing with Section 14126) is added to Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, to read:

Article 3.8. Medi-Cal Long-Term Care Reimbursement Act of 1990

14126. This article shall be known as the Medi-Cal Long-Term Care Reimbursement Act of 1990.

14126.05. The Legislature finds and declares all of the following:

(a) Financing long-term health care has become a significant cost to the state with the potential for the cost of care in long-term care facilities to increase faster than other Medi-Cal program costs due to an increase in the aging population, competition for qualified labor, and increased demand for quality care.

(b) There is increasing recognition that the method of Medi-Cal reimbursement for long-term health care facilities can be designed to promote quality care, patient access to appropriate services, and administrative efficiency and cost containment when appropriate.

(c) The current system of reimbursement methodology for long-term care facilities encourages providers to discriminate on admissions, and overemphasizes cost containment and administrative simplicity at the expense of quality care and patient access to appropriate services.

(d) The current payment structure requires additional incentives to provide access and quality services to Medi-Cal recipients.

(e) The purpose of this article is to establish the principles of a new reimbursement methodology for long-term care facilities that promotes availability and access to appropriate services, recognizes money spent on patient care, and promotes quality of care.

(f) In addition, it is the intent of the Legislature that funds expended to implement this section be used by long-term health care facilities participating in Medi-Cal to improve patient care by staffing at levels which meet patients' needs and to ensure that these facilities have the needed resources and staff to provide quality care to Medi-Cal patients.

14126.10. (a) The department shall not enforce, through administrative action, nor shall facilities be expected to implement, the federal Omnibus Reconciliation Act of 1987 (P.L. 100-203), except pursuant to this article and those provisions of current state law and regulations operative on January 1, 1991, unless the Legislature provides funding sufficient to provide a prospective adjustment in Medi-Cal rates in an amount equal to the cost of implementation any new requirements for that purpose.

14126.15. The reimbursement methodology described in this article applies to all of the following:

(a) Freestanding nursing facilities licensed as any of the following:

(1) Skilled nursing facilities.

(2) Intermediate care facilities.

(b) Intermediate care facilities for the developmentally disabled.

14126.20. (a) The department shall develop the reimbursement methodology for intermediate care facilities for the developmentally disabled-habilitative, and intermediate care facilities for the developmentally disabled-nursing, as defined in Section 1250 of the Health and Safety Code, in consultation with the State Department of Developmental Services, provider associations, labor, and consumer advocates.

(b) (1) The department shall develop the methodology required by subdivision (a) within two years from the effective date of this article. The methodology shall be prospective.

(2) The department shall use the methodology developed pursuant to paragraph (1) at least on an annual basis to establish Medi-Cal reimbursement rates for all designated facilities.

14126.23. The director may adopt regulations identifying the manner of payment for equipment, supplies, and services necessary to provide the designated level of care in long-term care facilities.

14126.25. (a) The department shall establish rates pursuant to this article on the basis of facility cost data reported in the integrated long-term care disclosure and Medi-Cal cost report required by Section 443.30 of the Health and Safety Code.

(b) (1) The department and the Office of Statewide Health Planning and Development, in consultation with nursing home labor, patient rights advocates, and provider associations shall make changes to the disclosure and cost report necessary to implement this article.

(2) In addition to changes to the disclsoure and cost reports identified in paragraph (1) of subdivision (b), raw food costs shall be separately reported on the cost reports.

(c) The process of making those changes shall be exempt from the public hearing process.

(d) Facilities shall submit annual reports representing a fiscal reporting period, including any partial period report required by law.

(e) The facilities shall submit the reports required by subdivision (d) pursuant to Section 443.33 of the Health and Safety Code.

(f) The Office of Statewide Health Planning and Development shall develop any procedures necessary to phase in this section.

(g) (1) Facilities providing intermediate care-habilitative and intermediate care-nursing services shall submit cost reports to the department within four months after the close of the filing organization's fiscal year.

(2) Cost reports required by paragraph (1) shall be filed by electronic media, as determined by the department. This filing

period shall be implemented during a transition period, detemined by the department in consultation with the State Department of Developmental Services and provider associations.

(3) The department shall establish reimbursement rates August 1 of each year on the basis of cost data submitted by facilities required to report under this section for the most recent reporting period available from the Office of Statewide Health Planning, as defined under the state medicaid plan.

14126.30. (a) The department shall conduct financial audits of cost reports at the facility or any other suitable location, including home offices.

(b) The department shall audit the facilities a minimum of once every three years, except where it is statistically appropriate to annually audit the entire peer group of facilities.

(c) (1) During the course of audits under this section, prior unaudited reports shall be included in the scope of the audit to determine if costs have been properly reported.

(2) The department shall adjust all expenses included in a cost report which are not properly allocated.

(d) The department may audit facilities at times other than those specified in this section to ensure program integrity.

(e) (1) The department shall use the results of audits performed pursuant to this section, and the results of any federal audits, to determine an adjustment to each facility's reported costs prior to application of the methodology defined in this article.

(2) If any facility is overpaid or underpaid as a result of an inaccurate report, the department shall adjust the reimbursement of the facility prospectively over the intervening years between audits by an amount equal to the amount of overpayment or underpayment which resulted from the inaccuarte reporting.

(f) Any audit conducted pursuant to this section shall satisfy all audit requirements of Sections 14110.6 and 14110.7.

(g) The department shall not implement the audit requirements contained in subdivisions (c) and (d) of Section 1410.6, and Sections 1268.5 and 1338 of the Health and Safety Code in the implementation of the first-year rates established pursuant to this article.

14126.35. Upon a change in facility licensee, the entity relinquishing the license shall create an escrow account which establishes a demand notice in the name of the department. The demand notice shall be in an amount equal to the facility's potential direct patient care overpayment, calculated as the direct care component of the facility's current reimbursement rate times the number of annual Medi-Cal patient days reported in the facility's latest filed cost report times 10 percent times the number of years since the facility's last audit, or if the facility has never been audited under the new reimbursement methodology, the number of years from the date the changes in reimbursement were implemented. The instructions pertinent to these funds shall require that the funds be deposited in an interest-bearing account and disbursed only upon

the advice of the director. A new license shall not be issued by the department until it has received a copy of escrow instructions to this effect.

14126.40. (a) To facilitate expeditious review by the department, an application for a new license shall include an estimated date of actual sale.

(b) A copy of the application for a new license shall be submitted to the Office of Statewide Health Planning and Development.

(c) The previous licensee of the facility shall send the department a copy of the final reports submitted to the Office of Statewide Health Planning and Development pursuant to Section 443.31, and subdivision (b) of Section 443.33 of the Health and Safety Code.

(d) If the director determines that a closeout audit of the facility is appropriate, the department shall conduct and complete the audit and issue a report within 60 days after a complete and usable cost report has been filed with the office and received by the department in accordance with subdivision (c).

14126.45. (a) Concurrent with the issuance of the closeout audit, the director shall authorize the return of the escrow funds, plus any accrued interest, to the previous licensee of the facility, unless the audit identifies an overpayment. In such a case, the director shall authorize the disbursement of all or part of the escrow funds to the department.

(b) The amount of funds disbursed to the department shall not exceed the actual amount of overpayment identified in the audit. If appealed by the previous licensee of the facility, any disbursement of these funds shall be delayed until final adjudication of the appeal process.

14126.50. Facilities and previous licensees of facilities may appeal the result of any department audit pursuant to this article, as provided in regulations adopted by the department.

14126.55. (a) Each new facility shall receive the average rate, weighted by Medi-Cal days, for its peer group. The department shall implement this method until a full 12 months of usable cost report data are available to develop a rate under this article.

(b) New licensees, as described in Section 14126.35, may petition the department for a higher direct patient care rate if the rate paid to the previous licensee was below the average rate, weighted by Medi-Cal days, for its peer group.

(c) The department may adjust the peer group assignment described in paragraph (2) of subdivision (b) of Section 14126.60 where it is necessary to accommodate petitions made pursuant to subdivision (b).

14126.60. (a) The reimbursement rate paid each facility shall be prospective and reflect the sum of the following components:

(1) Direct patient care labor.

(2) Capital-related assets.

(3) All other costs.

(b) (1) (A) (i) The direct patient care labor component

includes wages, salaries, and fringe benefits, except workers' compensation and state unemployment insurance benefits, of registered nurses, licensed vocational nurses, nurse assistants, geriatric nurse practitioners, social workers, activity program leaders, and psychiatric technicians, who are employees of the facility and who provide direct patient care.

(ii) For purposes of this subparagraph, "activity program leaders" means the same as defined in Section 72385 of Title 22 of the California Code of Regulations.

(iii) For purposes of this subparagraph, "social workers" means the same as defined in Section 72105 of Title 22 of the California Code of Regulations.

(B) (i) The department shall update direct patient care labor costs by an economic indicator developed by the department that is representative of state long-term care labor cost trends. Any change in the economic indicator used by the department shall not be based solely on achieving cost savings.

(ii) The department shall project the costs from the midpoint of a facility fiscal reporting period for the most recent fiscal year available from the Office of Statewide Health Planning, as defined in the state medicaid plan, to the midpoint of the state's rate year.

(C) The direct patient care labor component shall also include the cost of payment to nurse registries or temporary help agencies for salary and wages for temporary employees who provide direct patient care, not to exceed the average hourly wage and fringe benefit cost of comparable employees in the facility. The remainder of the costs of payment to nurse registries or temporary help agencies not attributable to this section shall be included in the other component as recognized in subdivision (d).

(2) (A) Payment for routine direct patient care labor shall be tiered to recognize the amount of money spent by the facility for the direct patient care component, geographical labor markets, and bed size.

(B) Facilities whose direct patient care labor costs fall within a tier shall be reimbursed at the upper payment limit of that tier.

(C) An amount of 4 percent above the payment level established pursuant to paragraph (A) shall be added to the rate in order to provide funds that may be used to increase wages or hire additional direct patient care staff.

(D) Total payment for direct patient care labor shall be recognized up to, but not to exceed, the 75th percentile of the projected costs for any peer group, but not lower than, the 25th statewide percentile with intermediate tiers, as determined appropriate by the department to meet this intent of the act adding this section.

(3) At a minimum of every five years, the department shall perform a study of current geographical labor market conditions in order to establish logical peer groups and determine appropriate facility placement.

(c) (1) The capital-related component of the reimbursement rate shall recognize capital-related assets through a fair rental value system initially based on a representative current statewide market value of twenty-seven thousand five hundred dollars ($27,500). Subsequent rates established in accordance with paragraph (2) may include consideration of regional market value if substantiated by data. This component shall represent leases, mortgage interest, depreciation of real and personal property and equipment, and a return on investment. The computation of the capital-related component shall be based upon 100 percent occupancy, unless the facility's Medi-Cal census meets or exceeds 70 percent, in which case the occupancy rate shall be established at 95 percent, unless the statewide occupancy rate exceeds 95 percent, at which time the adjustment shall be the actual statewide occupancy rate of the preceding year.

(2) (A) Property values shall be updated annually, at the rate of 2 percent per year.

(B) (i) The department shall, at a minimum of every five years, review property values, perform appraisals if necessary, and rebase the capital assets component.

(ii) To assist the department in making its periodic reviews of property values, the records of all changes in ownership shall be reported to the department containing at a minimum the new owner, the sale price of the facility, a copy of the appraisal from the lender, the amount and interest rate of the loan.

(C) The department shall adopt the necessary regulations to accommodate the reporting and collecting of this data.

(3) To compute the payment for capital-related assests under this subdivision, a fixed rate of return of 7 percent shall be applied to the established representative value of the properties.

(4) (A) The department shall include a disproportionate share provision which incrementally increases the rate of return for those facilities which have a high Medi-Cal census, as described in subparagraph (B).

(B) The incremental increase in the disproportionate share provision shall be as follows:

(i) One-quarter of 1 percent if the Medi-Cal census exceeds 70 percent of the total licensed beds in service.

(ii) One-half of 1 percent if the Medi-Cal census exceeds 80 percent of the total licensed beds in service.

(iii) Three-quarters of 1 percent if the Medi-Cal census exceeds 90 percent of the total licensed beds in service.

(5) The fair rental value of a bed established pursuant to this section shall not be changed during the Medi-Cal rate year unless specifically provided for in the state plan.

(d) (1) All of the following costs are included in the other component:

(A) Salary, wages, and fringe benefits for dietary, housekeeping, laundry services, maintenance, operations, administration and any

other labor, including all labor contracted to provide dietary, housekeeping, and laundry services.

(B) Supplies, materials, raw food, and property taxes and insurance.

(C) Workers' compensation and state unemployment insurance for those employees included in the direct patient component.

(D) The cost of payment made to nurse registries or temporary help agencies which was not included in the direct patient component.

(E) All other allowable routine costs not otherwise specified in this section.

(2) (A) Costs included in the other component shall be established on a prospective basis, peer grouped, as appropriate, by bed size and geographical area, updated on the basis of economic indicators developed by the department that are representative of state long-term care costs, and reimbursed at the median of each peer group established for this purpose.

(B) The median of wages, salaries, and fringe benefits, except for workers' compensation and state unemployment insurance benefits, of dietary, housekeeping and laundry staff who are regular employees of the facility and whose sole function is to perform these duties, shall be computed separately from the median of the remaining costs included in this component.

(C) The first year after the effective date of this article, all facilities shall receive the prospective median plus 3 percent for the component described in subparagraph (B). Each year thereafter, the department shall review the expenditures by facility for dietary, housekeeping, and laundry. Facilities which have spent up to the 40th percentile of the dietary, housekeeping, and laundry component, as described in subparagraph (B), of the previous year's rate study computations shall receive the prospective median. Facilities which have spent over the 40th percentile and up to and including the 50th percentile, shall receive the prospective median plus at least 2 percent. Facilities which have spent over the 50th percentile shall receive the prospective median plus at least 3 percent.

(D) Reimbursement for this component shall be the sum of the computation described in paragraph (C) and the median of the remaining costs included in this component.

14126.65. (a) (1) The department shall implement the reimbursement methodology contained in this article for the 1991–92 Medi-Cal rate year, effective August 1, 1991.

(2) Pending the availability of revised cost report data, the department shall make reasonable assumptions and estimates which reflect existing data sources and rate development methods, to place appropriate costs in each reimbursement component.

(b) For subsequent rate years the department shall continue to make similar assumptions and estimates until all facilities have submitted complete cost reports, as defined in paragraph (1) of

subdivision (b) of Section 14126.25 and there is a full data base available.

(c) During the first year under the methodology established pursuant to this article, facilities shall be paid the higher of the reimbursement rate generated under this article or the reimbursement rate existing on July 1, 1991.

(d) During the second year under the new methodology, facilities shall be paid the higher of either of the following:

(1) The reimbursement rate generated under this article.

(2) The average of the reimbursement rate generated under this article and the rate on July 1, 1991.

(e) Commencing with the third rate year under the new methodology, all facilities shall receive reimbursement rates established under this article.

14126.70. (a) By May 1, 1991, the department shall provide information and detail on the assumptions being used in the rate development process for the upcoming Medi-Cal rate year, and any actual or proposed Medi-Cal state plan amendments, to the appropriate policy and fiscal committees in each house of the Legislature and the Joint Legislative Budget Committee.

(b) The Legislative Analyst shall comment annually on the implementation of this article, commencing with the 1992–93 fiscal year budget report, until full implementation of this article, as determined by the department.

14126.75. (a) The department shall consult with provider associations, consumer advocates, and labor organization representatives regarding the implementation of the reimbursement methodology established by this article.

(b) The department shall consult annually with those entities identified in subdivision (a) regarding the assumptions being used in the rate development process for the following Medi-Cal rate year.

14126.80. (a) Commencing December 1, 1992, and ending December 1, 1995, the Auditor General shall annually report to the appropriate policy and fiscal committees of the Legislature on all of the following:

(1) Changes in wages, benefits, employee turnover, and employee hours per patient day for all of the following classes of employees of freestanding nursing facilities:

(A) Nurses' assistants.

(B) Licensed vocational nurses.

(C) Registered nurses.

(D) Dietary, housekeeping, and laundry personnel.

(2) To the extent possible, the reported data shall relate changes in wages, benefits, and staffing levels to the percentage of Medi-Cal patients in the facility; changes in discharge patterns; changes in distribution of admissions by payor; changes in Medi-Cal census; and other specific quality indicators developed with input from provider associations, consumer advocates, labor organizations, policy and fiscal committees of the Legislature, the Office of Statewide Health

Planning and Development, and the State Department of Health Services.

(3) The first report shall furnish base year data specified in paragraphs (1) and (2) for the period from August 1, 1990, to July 31, 1991, and compare that base year data with data for the period from August 1, 1991, to July 31, 1992. Subsequent annual reports shall update the data and compare that data with base year data and data of the prior year.

(4) The Auditor General shall contract for data collection and analysis. It is the intent of the Legislature that the Auditor General require the use of random sample techniques to produce statistically reliable findings which are aggregated for pertinent facility reimbursement or peer groups, or both.

(5) The reported data shall allow for the impact of other variables such as changes in labor market conditions and changes in federal or state laws, rules, and regulations on facility performance measures.

(b) Commencing December 1, 1996, the department shall annually submit data as described in subdivision (a) to the appropriate fiscal and policy committees of the Legislature. To the extent possible, the department may use cost report and other data available from existing sources to meet this requirement.

(c) The resources necessary to implement this section shall be included in the submissions of the affected state agencies for the preparation of the Governor's budget.

SEC. 5. The State Department of Health Services shall utilize funds appropriated for the purposes of this act through the annual budget process.

SEC. 6. (a) (1) The State Department of Health Services shall secure any necessary federal approvals of the state medicaid plan revisions pursuant to the act.

(2) The State Department of Health Services shall submit the state plan amendments to implement this act to the federal government by September 30, 1991.

(b) The State Department of Health Services, shall, upon implementation of the changes in reimbursement under Article 3.8 (commencing with Section 14126) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, comply with Sections 11346.4 to 11346.8, inclusive, of the Government Code, and shall submit its proposal to the fiscal and appropriate policy committees in both the Senate and the Assembly for their review and comment.

SEC. 7. (a) The State Department of Health Services shall develop a methodology designed to maintain the current relationship between rates paid to skilled nursing facilities and skilled nursing facilities with special treatment programs which contract with the Department of Mental Health.

(b) The annual rate adjustments for skilled nursing facilities with special treatment programs shall be included in the appropriation for long-term care funding.

SEC. 8. It is the intent of the Legislature that the implementation

of this act in the 1991–92 fiscal year shall result in a material improvement in the Medi-Cal rates paid to facilities over and above any other rate increases required by routine annual rate studies.

SEC. 9. (a) The department shall conduct a survey of long-term care patients which considers patient acuity and resource needs to determine if existing levels of care provide adequate access and appropriate care for long-term care patients.

(b) By April 1, 1991, the State Department of Health Services shall provide the results of the study, including information regarding the relative staff resource need for the levels of care identified by the survey, to the appropriate policy and fiscal committees of the Legislature.

(c) If the study required by subdivision (b) demonstrates a need for modifications to the existing levels of care, the department shall provide a discussion of alternatives for modifying levels of care with the fiscal impact, if any, of each alternative.

SEC. 10. (a) It is the intent of the Legislature to avoid additional expenditures for implementation of both this act and the federal Omnibus Budget Reconciliation Act of 1987 (P.L. 100-203) in a period of very limited state resources.

(b) The Legislature finds and declares that with implementation of this act the state is in substantial compliance with the intent of the federal Omnibus Budget Reconciliation Act of 1987.

(c) (1) No later than October 1, 1991, the State Department of Health Services, after substantial consultation with providers, labor, and consumer advocates, shall submit a report to the appropriate policy and fiscal committees of the Legislature, identifying additional quality of care concerns, patients rights issues, and if there are sufficient incentives to ensure adequate bed access in the future.

(2) The State Department of Health Services shall provide estimates of those items which appear to result in additional cost, and a projected timeline for completing implementation of this act.

SEC. 11. (a) The State Department of Health Services shall not implement this act if either of the following occur:

(1) The federal government does not approve its implementation through a waiver or state plan approval in the 1990–91 or 1991–92 fiscal year.

(2) Any court determines in the 1990–91 or 1991–92 fiscal year that the provisions of this act, in addition to current state statutes and regulations regarding standards for long-term care, do not comply with the federal Omnibus Budget Reconciliation Act of 1987 and orders the state to take action which would increase the expenditure of state money from the General Fund.

(b) If this act is not implemented due to the implementation of this section, the State Department of Health Services shall establish Medi-Cal rates paid affected providers, retroactively to August 1, 1991, to those levels required under the state medicaid plan in existence on July 1, 1990, including any annual rate adjustment pursuant thereto.

SEC. 12. The sum of three hundred seventy thousand dollars ($370,000) is hereby appropriated from the General Fund to the State Department of Health Services to implement this act. It is the intent of the Legislature that federal matching funds be made available for this purpose.

SEC. 13. Regulations adopted to implement this act shall be adopted as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The adoption of these regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, emergency regulations adopted to implement this act shall not be subject to the review or approval of the Office of Administrative Law. These regulations shall become effective immediately upon filing with the Secretary of State.

SEC. 14. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The Legislature has determined that the quality of care in the state's long-term health care facilities is directly related to the level of Medi-Cal reimbursement provided to participating Medicaid providers. In order to ensure the continued health and safety of California's elderly and infirm, it is necessary that this act take effect immediately.

CHAPTER 503

An act to amend Section 6872 of the Business and Professions Code, relating to collection agencies.

[Approved by Governor August 10, 1990 Filed with Secretary of State August 10, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 6872 of the Business and Professions Code is amended to read:

6872. (a) The superior court in and for the county wherein any person carries on, or attempts to carry on, business as a collection agency without first having obtained a license pursuant to this chapter, or carries on that business after the revocation or expiration of any license or during the period of suspension of any license, may, on application of the director, or any person licensed under this act or association representing those licensees or any member of the general public, issue an injunction or other appropriate order

restraining such conduct and may impose civil fines not exceeding ten thousand dollars ($10,000).

(b) A proceeding to impose the above fine and enjoin the unlicensed operation of a collection agency business may be brought in any court of competent jurisdiction in the name of the people of the State of California by the Attorney General or by any district attorney or city attorney in any city or city and county, or with the consent of the district attorney, by a city prosecutor in any city or city and county having a full-time city prosecutor, for the jurisdiction in which the unlicensed activity has occurred. If the action is brought by a district attorney, the penalty collected shall be paid to the treasurer of the county in which the judgment is entered. If the action is brought by a city attorney or city prosecutor, one-half of the penalty collected shall be paid to the treasurer of the city in which the judgment was entered, and one-half to the treasurer of the county in which the judgment was entered. If the action is brought by a city attorney in a city and county, the penalty collected shall be paid to the treasurer of the city and county in which the judgment is entered. If the action is brought by the Attorney General, all of the penalty collected shall be deposited in the Collection Agency Fund.

(c) The proceedings under this section shall be governed by Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that there shall be no requirement to allege facts necessary to show or tending to show lack of an adequate remedy at law or irreparable injury.

CHAPTER 504

An act to repeal and add Chapter 5 (commencing with Section 14501) of Division 7 of the Food and Agricultural Code, relating to agriculture, and making an appropriation therefor.

[Approved by Governor August 10, 1990 Filed with Secretary of State August 10, 1990]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 14501) of Division 7 of the Food and Agricultural Code is repealed.

SEC. 2. Chapter 5 (commencing with Section 14501) is added to Division 7 of the Food and Agricultural Code, to read:

CHAPTER 5. FERTILIZING MATERIALS

Article 1. General Provisions

14501. The Legislature finds and declares that it is the intent of this chapter to do all of the following:

(a) To promote the distribution of effective and safe fertilizing materials essential for the production of food and fiber.

(b) To provide assurance to the consumer of commercial fertilizers, agricultural minerals, packaged soil amendments, and auxiliary soil and plant substances that the product purchased is properly identified, and to provide assurance of the validity of the quality and quantity represented by the manufacturer of these products.

(c) To provide funds for the administration and enforcement of this chapter.

14502. The director shall enforce this chapter and adopt and enforce such regulations relating to the manufacture, guaranteeing, labeling, and distribution of, the manner of reporting tonnage for, and making inspection tonnage fee payments upon, fertilizing materials as the director determines necessary to carry out this chapter. A copy of those regulations shall be mailed promptly upon adoption to each person who is licensed pursuant to this chapter. The failure of any licensee to receive a copy of the regulations is not a defense to a violation of the regulations.

14503. Any money which is received by the director pursuant to this chapter shall be paid into the State Treasury to the credit of the Department of Food and Agriculture Fund, to be expended solely for the administration and enforcement of this chapter.

14504. The director shall prepare an annual statement of the operating expenditures and revenue related to this chapter which shall be presented to the board for review as soon as possible following the termination of the fiscal year. A copy of this statement shall be made available to any interested person upon request.

14505. Agricultural products derived from municipal sewage sludge shall be regulated as a fertilizing material pursuant to this chapter, and when used in general commerce, these products are not subject to regulation as a hazardous substance pursuant to Section 28744 of the Health and Safety Code and are not subject to regulation as a waste under Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code.

Article 2. Definitions

14511. "Agricultural liming materials" are agricultural minerals composed of calcium or magnesium compounds, or both, which are capable of neutralizing soil acidity and which are distributed in this state for that purpose.

14512. "Agricultural mineral" means any substance with nitrogen (N), available phosphoric acid (P_2O_5), and soluble potash (K_2O), singly or in combination, in amounts less than 5 percent which is distributed for farm use, or any substance only containing recognized essential secondary nutrients or micronutrients in amounts equal or greater than minimum amounts specified by the director, by regulation, and distributed in this state as a source of

It shall include the following:

(a) Synthetic polyelectrolytes.

(b) Lignin or humus preparations.

14518. "Business location" means any place where fertilizing materials are sold or stored for later sale, except storage of package materials on premises operated exclusively as a public warehouse.

14519. "Captured dilute solutions" means solutions that contain low levels of plant nutrients as a result of equipment rinsing and runoff.

14520. "Chelates" means compounds, usually organic, which can combine with a metal ion and form a ring structure between a portion of the chelating agent molecule and the metal.

14521. "Chelated plant nutrients" means compounds of metallic secondary nutrients and micronutrients with organic chelating agents which have the property of being available under pH conditions in which the nutrients normally form insoluble compounds.

14522. "Commercial fertilizer" means any substance which contains 5 percent or more of nitrogen (N), available phosphoric acid (P_2O_5), or soluble potash (K_2O), singly or collectively, which is

distributed in this state for promoting or stimulating plant growth. "Commercial fertilizer" includes both agricultural and specialty fertilizers. "Specialty fertilizers" may contain less than 5 percent nitrogen (N), available phosphoric acid (P_2O_5), or soluble potash (K_2O), singly or collectively.

"Natural organic complexes" do not include synthetic chelates in that natural organic complex, generally known as the natural organic chelates which are polymers, for which the nature of the metallic bonding is not known.

(b) "Inorganic complexes" include inorganic cations which form coordinate chemical bonds with other inorganic cations, anions, or neutral molecules, such as where metal-ammonia complexes of zinc or ammonia are coordinately bonded to the metal cation, and which usually reacts differently than the metal alone in solutions, but dissociates in soil and reacts as the uncomplexed cation.

14525. "Compost" means a biologically stable material derived from the composting process.

The members of the board shall receive no compensation, but are entitled to payment of necessary traveling expenses in accordance with the rules of the Department of Personnel Administration. These expenses shall be paid out of appropriations made to the department pursuant to this chapter.

14582. The term of office of a member of the board is three years. The initial board shall consist of, three members appointed for a term of three years, three members appointed for a term of two years, and three members appointed for a term of one year. Thereafter, appointments shall be for full three-year terms. Vacancies shall be filled for the duration of an unexpired term.

Every person who manufactures or distributes fertilizing materials shall, before he or she engages in the activity, obtain a license from the director, which shall be valid for two years, for each plant and business location which he or she operates, as required by the director, by regulation. However, a person who only distributes or who makes retail sales of packaged commercial fertilizers, soil amendments, or auxiliary soil and plant substances, alone or in any combination, which bear the registered label of another licensed person, is not required to obtain the license. The license fee shall not exceed two hundred dollars ($200). The director may, based on the findings and recommendation of the board, reduce the license fee to a lower rate which provides sufficient revenue to carry out this chapter.

14592. A violation of this article is an infraction punishable by a fine of not more than five hundred dollars ($500). A second or subsequent violation of this article is a misdemeanor punishable by a fine of not less than one hundred dollars ($100) and not more than one thousand dollars ($1,000).

Article 5. Registration

14601. Each differing label, other than weight or package size, such as changes in the guaranteed analysis, derivation statement, or anything that implies a different product, for specialty fertilizer, packaged agricultural mineral, auxiliary soil and plant substance, and packaged soil amendment shall be registered as required by the director, by regulation. The registration fee shall not exceed two hundred dollars ($200) per product. The director may, based on the finding and recommendation of the board, reduce the registration fee to a lower rate which provides sufficient revenue to carry out this chapter. The director may require proof of labeling statements and other claims made for any specialty fertilizer, agricultural mineral, soil amendment, or auxiliary soil and plant substance, before the director registers any such product. As evidence of proof, the director may rely on experimental data, evaluations, or advice furnished by scientists, including scientists affiliated with the

University of California, and may accept or reject additional sources of proof in the evaluation of any agricultural mineral or auxiliary soil and plant substance. In all cases, experimental proof shall relate to conditions in California under which the product is intended for use.

The director, after hearing, may cancel the registration of, or refuse to register, any specialty fertilizer, agricultural mineral, soil amendment, or auxiliary soil and plant substance, which the director determines is detrimental or injurious to plants, animals, public safety, or the environment when it is applied as directed, which is known to be of little or no value for the purpose for which it is intended, or for which any false or misleading claim is made or implied. The director may cancel the registration of any product of any person who violates this chapter.

The proceedings to determine whether to cancel or refuse registration of any of those products shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part I of Division 3 of Title 2 of the Government Code. The director shall have all the powers which are granted pursuant to that Chapter 5.

The director may, based on the finding and recommendation of the board, reduce the mill tax assessment rate to a lower rate which provides sufficient revenue to carry out this chapter.

14612. Each licensee shall maintain in this state, or with the director's permission at another location, an accurate record of all transactions subject to assessment. These records shall be maintained for a period of not less than three years following the transaction and are subject to audit by the director.

14613. The payment required by Section 14611, together with a form containing information prescribed by the director, shall be made quarterly within one calendar month after March 31, June 30, September 30, and December 31 of each year, and that form shall be submitted on or before those dates even if no fertilizer materials are sold. For any delinquency in making the payment, or any deficiency

in payment, the director shall add a penalty of 15 percent to the delinquent payment. Any delinquency which is more than 90 days past due is a cause for cancellation of the license.

Article 7. Tonnage Reports

Any information furnished to the director under this chapter shall not be disclosed in such a way as to divulge the business practices of any licensee.

14623. The tonnage report shall be submitted to the director not later than January 31 of each year. The director shall impose a penalty in the amount of two hundred dollars ($200) on any person who does not submit the report on or before January 31.

Article 8. Labels

14631. Every lot, parcel, or package of fertilizing material distributed into or within this state shall have attached to it, or the shipment shall be physically accompanied by, a label as required by the director, by regulation. The director may require proof of labeling statements and claims made for any commercial fertilizer. As evidence of proof, the director may rely on experimental data, evaluations, or advice furnished by scientists, including scientists affiliated with the University of California, and may accept or reject additional sources of proof. The director may cancel the approval of, or refuse to approve, a commercial fertilizer label if the director determines that adequate proof of label claims do not exist. The director, after hearing, may cancel the license of any person who distributes a commercial fertilizer with a label for which approval has been canceled or a label which has not been approved by the director.

14632. The sale or distribution of any lot, parcel, or package of fertilizing material without the label specified in Section 14631 or the regulations adopted pursuant to that section, is an infraction punishable by a fine of not more than two hundred fifty dollars ($250) if at least one notice of warning has been issued by the director for a prior violation within a 12-month period. A second or subsequent violation of this section within a 12-month period is a misdemeanor punishable by a fine of not less than one hundred dollars ($100) and not more than one thousand dollars ($1,000).

Article 9. Inspection, Sampling, and Analysis

14641. The director shall have free access at reasonable times to all records, premises, or conveyances which are used in the manufacture, transportation, importation, distribution, storage, or application of any fertilizing material.

14642. The director shall, at the times and to the extent necessary for the enforcement of this chapter, do all of the following:

(a) Take samples of any substance.

(b) Make analyses or examinations of any substance.

(c) Conduct investigations concerning the use, sale, adulteration, or misbranding of any substance.

14643. In determining the percentage of component parts of any substance for the purpose of proper labeling, registration, or determining compliance with representations, all analyses shall be made according to a method determined by the director.

14644. The director shall publish, at least annually, the results of examinations or chemical analyses of official samples of commercial fertilizer and agricultural minerals, and any additional information the director deems necessary.

14645. The director may take a sample for analysis from any lot of fertilizing material which is in the possession of any producer, manufacturer, importer, agent, dealer, or user. The sample shall be taken pursuant to regulations adopted by the director.

14646. The director shall establish sampling procedures by regulation.

14647. Upon the analysis of a sample of fertilizing material, the director shall issue a report showing the findings and indicating that the product has met the guarantee or was found to be deficient. However the director, in determining whether any product is deficient in guarantee or misrepresented, may establish, by regulation, tolerances that provide allowances for variations that occur in the taking, preparation, and analysis of an official sample.

14648. In any action, civil or criminal, in any court in this state, a laboratory report from the director which states the results of any analysis, reported to be made pursuant to this chapter, shall be prima facie evidence of all of the following:

(a) That the sample which is described in the laboratory report was properly analyzed.

(b) That the sample was taken pursuant to this chapter.

(c) That the substances analyzed contained the component parts which are stated in the laboratory report.

(d) That the sample was taken from the lots, parcels, or packages which are described in the laboratory report.

Article 10. Violations

14651. (a) Unless otherwise specified in this chapter, any violation of this chapter, or the regulations adopted pursuant to this

chapter, is a misdemeanor which is punishable by a fine of not more than five hundred dollars ($500) for the first violation and not less than five hundred dollars ($500) for each subsequent violation.

(b) The director may, after hearing, refuse to issue or renew, or may suspend or revoke, a license or registration for any violation of this chapter or any regulation which is adopted pursuant to this chapter.

(c) Upon calling a hearing, the director shall hand deliver or mail a notice of the hearing to the licensee or registrant specifying the time and place of the hearing at least 10 days prior to the hearing. The hearing officer may do any of the following:

(1) Administer oaths and take testimony.

(2) Issue subpoenas requiring the attendance of the licensee, registrant, or witnesses, together with books, records, memoranda, papers, and all other documents that may be pertinent to the case.

(3) Compel from the licensee or registrant and any witness the disclosure of all facts known to him or her regarding the case. In no instance shall any employee of the Feed, Fertilizer, and Livestock Drugs Branch serve as the hearing officer in any hearing conducted pursuant to this section.

(d) Any prson who is denied a license, whose license is not renewed, or whose license is suspended or revoked pursuant to this section may appeal to the director.

14652. It is unlawful for any person to manufacture or distribute in this state any fertilizing material without complying with this chapter or the regulations adopted pursuant to this chapter.

14653. The director may seize and hold any lot of fertilizing material which he or she has reasonable cause to believe is in violation of this chapter or the regulations adopted pursuant to this chapter.

14654. If the director seizes any lot of fertilizing material, he or she shall immediately issue a hold order to the person that has control of that material. The director may affix to that lot or package of the material a warning tag which states that the lot is subject to a hold order.

14655. (a) Any lot of fertilizing material for which a hold order or notice is issued shall be held by the person having control of the material and shall not be distributed or moved except under the specific directions of the director, pending final disposition pursuant to this chapter. This does not prevent the person who has control of the material from inspecting any seized material or from taking a reasonable sample for evidence while in the presence of a person designated by the director.

(b) The movement, distribution, or sale of all or part of any product that has been quarantined by the director, unless the movement, distribution, or sale has the prior approval of the director, is a misdemeanor punishable by a fine of not more than five hundred dollars ($500). A second or subsequent violation of this subdivision is a misdemeanor punishable by a fine of not less than one thousand

dollars ($1,000).

14656. Upon demand of the person who has control of the seized fertilizing material, and within 10 days of sampling by the director, a subsample shall be returned from the state laboratory to the person in control of the fertilizing material.

14657. If the seized and held lot, as determined by the director's analysis, is not in violation of this chapter, the director shall immediately release the seized and held lot and remove the hold order.

14658. If the seized and held lot is found to be in violation of this chapter, the director shall take either of the following actions:

(a) Continue to hold the lot until such time as the requirements of this chapter have been complied with, at which time the lot shall be released.

(b) Issue orders for the disposal of the lot in a manner specified by the director.

14659. The person who has control of a seized or held lot that is found to be in violation of this chapter may appeal the result of the analysis to the director, in writing, within 15 days of receiving the notice of violation. Upon receipt of that appeal, the director shall take a further sample of the lot in question for analysis. The cost of sampling and analysis shall be at the expense of the person who requests the further sample. The findings of the analysis on appeal shall be conclusive.

14660. The authority for the issuance of citations is limited to the violations of Sections 14591, 14601, 14631, 14651, and 14655. The director shall adopt procedures for the issuance of citations and penalties, upon the recommendation of the board. Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code does not apply to the procedures adopted by the director pursuant to this section.

Article 11. Procedure for Prosecution

14671. In addition to the remedies provided in this chapter, the department may bring an action in superior court and the court may grant a temporary or permanent injunction restraining any person from violating this chapter or the regulations adopted pursuant to this chapter. Any proceeding under this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure. The department shall not, however, be required to allege facts necessary to show or tending to show irreparable damage or loss. The court may require any acts or course of conduct necessary to effectuate the purposes of this chapter.

14672. Nothing in this chapter requires the director to report for prosecution or to institute injunctive proceedings for any minor violation of this chapter whenever the director believes that the public interest would be adequately served by a suitable written

notice of warning and compliance with the notice.

Article 12. Misbranding and Adulteration

(d) If it purports to be, or is represented as, a fertilizing material, or is represented as containing a primary or secondary plant nutrient or micronutrients, or both, unless the plant nutrients conform to the definition of identity, if any, prescribed by regulation. In adopting these regulations, due regard shall be given to commonly accepted definitions and official fertilizer terms such as those prescribed by the Association of American Plant Food Control Officials.

14682. No person shall distribute an adulterated fertilizing material. A fertilizing material shall be deemed to be adulterated under any of the following conditions:

(a) If it contains any deleterious or harmful ingredient in sufficient amounts to render it injurious to beneficial plant life when applied in accordance with directions for use on the label, or if adequate warning statements or directions for use which may be necessary to protect plant life are not indicated on the label.

(b) If its composition falls below or differs from that which it is purported to possess by its labeling.

(c) If it contains unwanted crop seed or weed seed.

(d) If it is a threat to public safety.

SEC. 3. Notwithstanding the repeal of former Sections 14541 and 14542 of the Food and Agricultural Code by Section 1 of this act, the members of the Fertilizer Inspection Advisory Board appointed to the board on or before December 31, 1990, pursuant to those provisions shall continue in office for the remainder of their unexpired term. On and after January 1, 1991, the appointment of members of the Fertilizer Inspection Advisory Board and their term of office shall be governed by Article 3 (commencing with Section 14581) of Chapter 5 of Division 7 of the Food and Agricultural Code, as added by Section 2 of this act.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become

operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 510

An act relating to the Sacramento Area Flood Control Agency.

[Approved by Governor August 10, 1990. Filed with Secretary of State August 13, 1990.]

The people of the State of California do enact as follows:

PART 1. INTRODUCTORY PROVISIONS

CHAPTER 1. SHORT TITLE

SECTION 1. This act shall be known and may be cited as the Sacramento Area Flood Control Agency Act.

CHAPTER 2. FINDINGS

Sec. 20. The Legislature finds and declares as follows:

(a) The Sacramento Area Flood Control Agency has been created as a joint exercise of powers agency under an agreement made pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, and dated November 21, 1989.

(b) The need for coordinated planning for the control of flood waters within or flowing into the boundaries of the City of Sacramento, the County of Sacramento, Reclamation District 1000, the American River Flood Control District, and portions of the County of Sutter, and the protection of public and private property from those waters led to the creation of the Sacramento Area Flood Control Agency.

(c) A purpose of the Sacramento Area Flood Control Agency is to coordinate a regional effort to finance, provide, and maintain facilities and works necessary to ensure a reasonable and prudent level of flood protection, as determined by the agency, in developed and urbanizing areas which are designated for residential, commercial, or industrial uses within its boundaries and to provide local assurances and participate in cost sharing for federal flood control projects.

CHAPTER 3. DEFINITIONS

Sec. 30. "Agency" means the Sacramento Area Flood Control Agency.

Sec. 31. "Agreement" means the joint exercise of powers agreement under which the Sacramento Area Flood Control Agency was formed and any subsequent amendments to it.

Sec. 32. "Board" means the board of directors of the agency, as established pursuant to the agreement.

Sec. 33. "Incidental expenses" includes all of the following:

(a) The cost of planning and designing projects pursuant to this act, including the costs of environmental evaluations and mitigation for those projects.

(b) The costs associated with the creation and administration of any financing arrangement authorized by this act, including, but not limited to, the costs of creating or modifying assessment or special tax districts, the costs of collecting assessments and special taxes, and costs arising from the issuance and administration of any bonds issued under this act.

(c) Any other expenses incidental to the construction, completion, inspection, and financing or refinancing of any authorized project, including relocation costs.

Sec. 34. "Project" means the acquisition, construction, maintenance, or operation of any flood control facility authorized under the agreement and not inconsistent with this act, including, but not limited to, acquisition of right-of-way and payment of incidental expenses. Participation in a project includes making payments or other contributions pursuant to any contract entered into with another governmental agency which requires the other governmental agency to perform work on a project.

PART 2. ORGANIZATION AND POWERS

CHAPTER 1. MEMBERSHIP, BOUNDARIES, AND GENERAL POWERS

Sec. 50. The membership, boundaries, purposes, and governance of the agency shall be as set forth in the agreement. The agreement may be amended in accordance with the provisions of the agreement as initially signed or subsequently amended by its members, as long as the amendments do not conflict with this act or Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code.

Sec. 51. The agency shall not undertake any project located within the jurisdictional boundaries of its member agencies and of any reclamation, levee, or levee maintenance district not party to the agreement, without the prior agreement of the governing body of the affected district.

Sec. 52. Notwithstanding the purposes specified in the agreement, the agency shall have as its highest priority the

protection of life, property, watercourses, watersheds, and public highways within its boundaries from damage from flood and storm waters. In addition, to the maximum extent economically feasible and consistent with its flood protection and flood management requirements and with state and federal agreements, the agency shall carry out its responsibilities in ways which provide for the optimum protection of the natural environment, especially riparian habitat and natural stream channels suitable for native plant and wildlife habitat and public recreation. Nothing in this act is intended to amend, modify, or alter the provisions of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) or any other state or federal laws whose purpose is to protect and preserve the natural environment.

Sec. 53. Notwithstanding any other provision of law, the agency may participate in financing or refinancing any flood control works or the flood control component of any dam, including a multiple purpose dam.

SEC. 54. If the agency is authorized to participate in financing and refinancing the construction of an expandable flood control dam, the financing or refinancing may include elements not strictly necessary for flood control, but only if both of the following occur:

(a) In the judgment of the board at the time the project receives the board's final approval, the financing or refinancing of these elements is cost-effective as compared to adding these elements when and if the dam is expanded.

(b) The congressional authorization, or state authorization, of the expandable flood control dam provides that, in the event the dam is subsequently expanded to provide water and power:

(1) All of the costs of constructing the expandable flood control dam shall be reapportioned among the financial participants in the expanded dam, including, without limitation, flood control, water, and power. Any such reapportionment shall be made as if the original flood control dam had been constructed as a multipurpose facility using the estimated value of the flood control project at the time of expansion.

(2) The costs which are thereby assigned to water and power, including the cost of expandability elements, shall be repaid to, and divided among, the financial participants in the original flood control dam in proportion to the share of these costs borne by each such participant.

The cost attributable to interest incurred relating to the expandability elements may be apportioned at the discretion of the board in accordance with this section.

Sec. 55. Sections 53 and 54 do not represent, and shall not be construed as representing, legislative preference for a dam or any particular dam, dam size, design, or option.

PART 3. FINANCIAL PROVISIONS

CHAPTER 1. GENERAL FINANCIAL PROVISIONS

Sec. 100. The agency may, in any year, levy assessments, reassessments, or special taxes and issue bonds to finance projects in accordance with, and pursuant to, the Improvement Act of 1911 (Division 7 (commencing with Section 5000) of the Streets and Highways Code), the Improvement Bond Act of 1915 (Division 10 (commencing with Section 8500) of the Streets and Highways Code), the Municipal Improvement Act of 1913 (Division 12 (commencing with Section 10000) of the Streets and Highways Code), the Benefit Assessment Act of 1982 (Chapter 6.4 (commencing with Section 54703) of the Government Code), the Integrated Financing District Act (Chapter 1.5 (commencing with Section 53175) of Division 2 of Title 5 of the Government Code), the Mello-Roos Community Facilities Act of 1982 (Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code), and the Marks-Roos Local Bond Pooling Act of 1985 (Article 4 (commencing with Section 6584) of Chapter 5 of Division 7 of Title 1 of the Government Code).

Sec. 101. Sections 5190, 5191, 5192, 5193, and 10302 of the Streets and Highways Code shall not apply to assessment proceedings undertaken pursuant to Section 100.

Sec. 102. Notwithstanding the related provisions of any assessment act which the agency is authorized to use, any assessment diagram which any of those acts requires to be prepared prior to final approval of the district may show only the exterior boundaries of the assessment district and the boundaries of any assessment zones or improvement areas within the district. The diagram may refer to the county assessor's maps and records for a detailed description of each lot or parcel.

Sec. 103. (a) Notwithstanding any other provision of law, the agency may levy and collect assessments and reassessments in the same manner as provided in Article 3 (commencing with Section 51320) of Chapter 2 of Part 7 of Division 15 of the Water Code, to pay any or all of the following:

(1) For the operation and maintenance of projects.

(2) For the satisfaction of liabilities arising from projects.

(3) For the administration costs of the agency.

(4) To accumulate a fund which may be used to advance the cost of agency projects, provided that the advances be repaid, with interest as determined by the board, from assessments, reassessments, special taxes, or fees charged by the agency pursuant to this act.

(b) For purposes of this section, the board shall perform all the functions allocated by Article 3 (commencing with Section 51320) of Chapter 2 of Part 7 of Division 15 of the Water Code, to the board of supervisors or the board of trustees.

(c) For purposes of this section, the board may order the creation of a separate assessment roll to pay the allowable expenses of any single project or any group or system of projects.

Sec. 104. Notwithstanding any other provision of law, Division 4 (commencing with Section 2800) of the Streets and Highways Code does not apply to any assessment levied by the agency.

Sec. 105. Notwithstanding any other provision of law, all assessments, reassessments, and taxes levied by the agency may be collected together with, and not separately from, taxes for county purposes. Any county which is a member of the agency may collect at the request of the agency all assessments, reassessments, and special taxes levied by the agency and shall cause those revenues to be deposited into the Sacramento County Treasury to the credit of the agency. Each county may deduct its reasonable collection and administrative costs.

Sec. 106. Notwithstanding any other provision of law, any assessment or reassessment levied pursuant to this act may be apportioned on the basis of land use category, proportionate storm water runoff, relative hazard of flooding, or other reasonable basis, separately or in combination, as determined by the board. All lots and parcels shall be conclusively presumed to benefit from the projects being financed in proportion to that apportionment.

CHAPTER 2. SPECIAL CAPITAL ASSESSMENTS

Article 1. Formation of Districts

Sec. 110. As an alternative or in addition to any other power available to the agency, the agency may, in any year, levy and collect assessments and sell bonds pursuant to this chapter for any project. These assessments may be levied within the entire area of the agency or within any project area determined by the board to particularly benefit from a given project. Assessment areas may overlap.

Sec. 111. Before undertaking any assessment pursuant to this chapter, the agency shall adopt a resolution declaring its intention to do so, briefly describing the proposed project, specifying the exterior boundaries of the area to be assessed, and providing for the issuance of bonds, if any. The resolution shall briefly describe any existing or intended contract with any other governmental agency to share in financing or performance of the work on the project. The resolution shall also direct an officer of the agency to prepare a report pursuant to Section 112.

Sec. 112. The report shall contain all of the following:

(a) A general description of the project.

(b) A name for the proposed assessment district, which may be in the form "Sacramento Area Flood Control Assessment District Number _____."

(c) An estimate of the cost of the project. If part of the cost is

expected to be paid from contributions from other governmental agencies, the report shall include an estimate of the expected total amount of those contributions.

(d) A plan for financing the project, including a brief description of the principal amount and maturities of any proposed bonds, and of any reserve or other special funds required. The plan shall include estimates of the annual revenue needed to pay debt service on bonds and to pay any other expenses arising in conjunction with the project, including any amounts needed to replenish reserve or other special funds.

(e) A specification of a method for annually apportioning the estimated annual costs of the project among the parcels in the area to be assessed, and a method for determining the rate of assessment. The apportionment shall be in proportion to the benefit received by each parcel, as determined pursuant to Section 106. The specification shall be in sufficient detail to allow any property owner within the district to determine the annual amount that he or she would have to pay.

Sec. 113. When the report is filed with the agency, the board may at a public meeting tentatively approve the report and schedule a hearing on it not earlier than 30 days and not later than 90 days following tentative approval of the report. The hearing may be continued for a period not to exceed six months. Notice of the hearing shall be published pursuant to Section 6066 of the Government Code in a newspaper of general circulation in the area proposed to be assessed, and the first publication shall occur not later than 20 days before the date of the hearing. The notice to be published shall be entitled "Notice of Flood Control Assessments" and shall include all of the following:

(a) The time and place of the hearing on the proposed assessments and bonds.

(b) A general description of the proposed project and the area proposed to be assessed.

(c) A statement that the agency is considering levying annual assessments on lots or parcels of property within the area of the proposed district to pay for the project.

(d) A statement that the agency is considering issuing bonds to finance the local share of the cost of the proposed project.

(e) The name and telephone number of an employee of the agency from whom a copy of the report can be obtained, and who can answer questions concerning the project and the hearing. The agency may charge the reasonable reproduction costs for copies of the report, and shall make copies available for free public inspection at one or more public places within the area proposed to be assessed.

Sec. 114. A copy of the notice shall also be mailed, first class, postage prepaid, to all persons owning real property proposed to be assessed as their names and addresses appear on the last assessment roll for county taxes. The notices shall be mailed not later than 20 days before the date of the hearing.

Sec. 115. Any owner of real property in the area proposed to be assessed may file a written protest with the agency secretary at or before the time set for the hearing. Each protest shall contain a description of the lot or parcel in which each signer has an ownership interest, sufficient to allow the agency secretary to determine that the protest is valid. If the signer is not shown on the last assessment roll as the owner of the lot or parcel, the protest shall include written evidence that the signer is the legal owner of the property. The secretary shall endorse on each protest the date of receipt, and at the time of the hearing shall represent to the board all protests filed with the secretary.

Sec. 116. At the hearing, the board may modify the proposal in the report by either reducing the area proposed to be assessed, reducing the rate of assessment, altering the apportionment of assessments so long as no assessment is increased, or by reducing the principal amount of the proposed bonds. If the protests are against the proposed assessments and the board finds that the protests are signed by either the owners of more than 25 percent of the area of the land included within the proposed assessment district, or more than 25 percent of the registered voters, in the proposed district, who voted in the last gubernatorial election, the board may either abandon the proceedings or submit the proposal to the registered voters residing within the proposed district to be assessed at a general or special election to be held at least 45 days after the date of close of the hearing. Any election shall be conducted in accordance with the provisions of the Elections Code applicable to counties. The board may proceed with the levy and collection of the assessments and the sale of bonds if the proposal is approved by a majority vote of those who vote on the proposal. If the board abandons the proceedings or the proposition fails to win majority voter approval, no further proceedings to levy the proposed assessments pursuant to this chapter shall be undertaken for six months from the date of the election.

Sec. 117. If the board determines to proceed with the levy and collection of assessments and the sale of bonds, it shall adopt a resolution confirming the report, as modified, and ordering the levy of the assessments and the sale of bonds.

Article 2. Levy and Collection of Assessments

Sec. 120. The validity of any assessment levied or bond issued under this chapter shall not be contested in any action or proceeding unless the action or proceeding is commenced within 30 days after the assessment is levied. Any appeal from a final judgment in such an action or proceeding shall be perfected within 30 days after the entry of judgment.

Sec. 121. An action to determine the validity of any assessment or bonds pursuant to this chapter may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code

of Civil Procedure. In any such action, all findings of fact or conclusions of the board upon all matters shall be conclusive unless the action was instituted within 30 days after the findings or conclusions were made.

Sec. 122. After one or more districts have been created and authorized to levy assessments pursuant to this chapter, the board may, by resolution, provide for the levy of the assessments using the method for apportioning the assessment and for setting the rate of assessment as set out in the report confirmed pursuant to Section 117. The clerk of the agency shall file a list of all parcels subject to assessments levied pursuant to this chapter and the amount of the assessment or assessments levied against each parcel, with the county auditor on or before August 10 of each tax year. The assessments shall be collected in the same manner as ordinary property taxes are collected and shall be subject to the same penalties and the same procedure, sale, and lien priority in case of delinquency as provided for ad valorem taxes.

Article 3. Bonds

Sec. 130. The board may sell bonds or notes of the agency to finance projects as set out in the report confirmed pursuant to Section 117. The board shall authorize the issuance of bonds by adoption of a resolution which provides for all of the following:

(a) The denominations, form, and registration provisions of the bonds.

(b) The manner of execution of the sale of the bonds.

(c) The par amount of the bonds to be sold.

(d) The appointment of one or more banks or trust companies within the state having the necessary trust powers as trustee, fiscal agent, paying agent, or bond registrar.

(e) The execution of a document or indenture securing the bonds.

(f) The pledge or assignment of the designated assessment revenues to the repayment of the bonds.

(g) The interest rate to be borne by the bonds.

(h) Any other terms and conditions determined to be necessary by the board.

Sec. 131. The bonds shall be signed by the chairperson of the board, and countersigned by the Sacramento County Auditor. The bonds may be authenticated by a paying agent selected by the board, and the signatures of the chairman and Sacramento County Auditor may be facsimile signatures. In case any officer whose signature appears on the bonds shall cease to be an officer at any time, the signature shall nevertheless be valid and sufficient for all purposes.

Sec. 132. The board may sell bonds pursuant to this chapter at public or private sale at not less than 95 percent of par value. The proceeds of the sale of the bonds shall be placed in the treasury of Sacramento County to the credit of the agency and the issuing assessment district, and the proper record of the transaction shall be

placed upon the books of the Sacramento County treasury. The bond proceeds shall be used exclusively to finance or refinance projects pursuant to the report confirmed pursuant to Section 117.

Sec. 133. The board may include in the aggregate principal amount of the bonds to be issued an amount for a reserve fund for the payment of the bonds. The amount to be included for the reserve fund shall not exceed the amount permitted by law. The reserve fund and all interest earned on it shall either be used for the payment of debt service on the bonds, if there is a deficiency, and then only to the extent of the deficiency, or the funds may be transferred to the redemption fund for the bonds for advance or final retirement of the bonds.

Notwithstanding any provision of this section, the amount and disposition of the reserve fund may conform to the provisions of the Internal Revenue Code or the regulations of the United States Department of the Treasury.

Sec. 134. Any bonds or notes issued pursuant to this chapter may be refunded when and to the extent necessary as determined by the board.

CHAPTER 3. DEVELOPMENT FEES

Sec. 150. The board may by resolution prescribe, revise, and collect fees as a condition of development of land. Before adopting a schedule of fees, the board shall, by resolution, do all of the following:

(a) Describe the specific flood control projects that are needed or have been provided by the agency in one or more areas proposed for development in order that the area or areas meet flood protection standards as determined by the board.

(b) Estimate the cost of the projects and any associated environmental mitigation required and specify a plan for financing that cost, or estimate the amount that the agency has already spent on the projects and associated environmental mitigation, or both.

(c) Determine a tentative time schedule for construction of any projects which are not yet completed.

(d) Determine the reasonable portion of the cost of the projects to be apportioned to new development within the area protected by those projects.

(e) Adopt a schedule of fees to be levied against new development within the area pursuant to this chapter.

Sec. 151. Development of land for the purposes of this chapter shall include, but not be limited to, any act requiring a final subdivision map, building permit, zoning change or variance, or a special use permit, as determined by the board. No city or county within the agency shall permit any development without written confirmation from the agency that any fee levied pursuant to this chapter has been paid. In imposing any fee pursuant to this chapter, the agency shall rely upon the environmental impact report or other

environmental documentation used by any city or county which is a member of the agency in approving the proposed development.

Sec. 152. The portion of the cost of new projects to be apportioned to new development, and the apportionment of that cost against various categories of land use through the schedule of fees, shall be based on the portion of the benefits of flood protection which will accrue to each category of new development when the area benefiting from the flood protection is fully developed. The board shall be the final and conclusive judge of these matters.

Sec. 153. Fees and charges prescribed as a condition of development of land pursuant to this chapter shall be in addition to any other conditions imposed on the development by any other agency having power to prescribe such other conditions.

Sec. 154. In lieu of payment of any fee levied pursuant to this chapter, the agency may accept the lawful creation of an assessment district or community facilities district. Alternatively, in lieu of payment of the total fee prior to development, the agency may accept annual payments which include interest, administrative costs, and security to guarantee the payment of the total fee.

Sec. 155. Revenues derived from fees prescribed pursuant to this chapter for any area may be used only for the acquisition, engineering, design, construction, reconstruction, maintenance, or operation of flood control projects within that area, or used to pay the debt service on, or reduce the principal of, any bonded indebtedness of that area.

Sec. 156. Whenever the development of land is made subject to fees by the board pursuant to this chapter, the board may allow a credit against those fees for the acquisition, engineering, design, construction, reconstruction, maintenance, or operation costs of any flood control facility which has been constructed or paid for by the owner of the land proposed for the development and accepted by the agency. A credit against a fee imposed by the board for development also may be allowed if a development fee previously imposed by any county or city which is a member of the agency and which is in part for flood control purposes has been paid by the owner, provided that the agency has entered into an agreement with the county or city that the portion of that development fee allocated for flood control purposes is transferred to the agency.

Sec. 157. Chapter 5 (commencing with Section 66000) of Division 1 of Title 7 of the Government Code does not apply to fees levied pursuant to this chapter.

CHAPTER 511

An act to amend Section 1985 of the Code of Civil Procedure, and to amend Sections 68097.2 and 68097.5 of the Government Code, relating to subpoenas, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 10, 1990. Filed with Secretary of State August 13, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Section 1985 of the Code of Civil Procedure is amended to read:

1985. (a) The process by which the attendance of a witness is required is the subpoena. It is a writ or order directed to a person and requiring the person's attendance at a particular time and place to testify as a witness. It may also require a witness to bring any books, documents, or other things under the witness's control which the witness is bound by law to produce in evidence. When a county recorder is using the microfilm system for recording, and a witness is subpoenaed to present a record, the witness shall be deemed to have complied with the subpoena if the witness produces a certified copy thereof.

(b) A copy of an affidavit shall be served with a subpoena duces tecum issued before trial, showing good cause for the production of the matters and things described in the subpoena, specifying the exact matters or things desired to be produced, setting forth in full detail the materiality thereof to the issues involved in the case, and stating that the witness has the desired matters or things in his or her possession or under his or her control.

SEC. 2. Section 10500.5 of the Public Contract Code is amended to read:

10500.5. It is the intent of the Legislature to facilitate the participation of small businesses, particularly small disadvantaged or minority business enterprises, women business enterprises, and disabled veteran business enterprises, in business contracting with the University of California. The Legislature intends that the Regents of the University of California adopt policies and procedures to ensure that a fair proportion of university contracts be placed with small business enterprises, particularly small disadvantaged, women, and disabled veteran business enterprises, in areas of commodity purchases, services, and construction contracts. It is further the intent of the Legislature that the regents adopt, by January 1, 1985, with respect to small business enterprises, particularly small disadvantaged and women business enterprises, and by January 1, 1992, with respect to disabled veteran business enterprises, policies and procedures that include, but are not limited to, all of the following:

(a) Annual targets for utilization of small businesses, particularly disadvantaged business enterprises, women business enterprises, and disabled veteran business enterprises, including subcontracts for construction.

general contractors and subcontractors in each project.

(c) Outreach programs.

(d) Directories of disadvantaged business enterprises, women business enterprises, and disabled veteran business enterprises.

(e) Monitoring by the regents of progress with respect to the utilization of disadvantaged business enterprises, women business enterprises, and disabled veteran business enterprises.

It is also the intent of the Legislature that the Regents of the University of California report annually to the Legislature, on or before each July 1, on the participation of small disadvantaged business enterprises, women business enterprises, and disabled veteran business enterprises in university business contracting.

SEC. 3. Section 10501 of the Public Contract Code is amended to read:

10501. Except as otherwise provided in this article, the Regents of the University of California shall let any contract for a project to the lowest responsible bidder or else reject all bids. However, if one or more of the bids is substantially equal to the lowest bid, and at least one of those bidders is a disadvantaged business enterprise, a women business enterprise, or a disabled veteran business enterprise, the regents may award the contract in accordance with the policies and procedures adopted pursuant to Section 10500.5. If the regents deem it to be for the best interest of the university, the regents may, on the refusal or failure of the successful bidder for a project to execute a tendered contract, award it to the second lowest responsible bidder. If the second lowest bidder fails or refuses to execute the contract, the regents may likewise award it to the third lowest responsible bidder.

SEC. 4. Section 8281 of the Public Utilities Code is amended to read:

8281. (a) The Legislature hereby finds and declares that the essence of the American economic system of private enterprise is free competition. Only through full and free competition can free markets, reasonable and just prices, free entry into business, and opportunities for the expression and growth of personal initiative and individual judgment be assured. The preservation and expansion of that competition is basic to the economic well-being of this state and that well-being cannot be realized unless the actual and potential capacity of women, minority, and disabled veteran business enterprises is encouraged and developed. Therefore, it is the declared policy of the state to aid the interests of women, minority, and disabled veteran business enterprises in order to preserve reasonable and just prices and a free competitive enterprise, to ensure that a fair proportion of the total purchases and contracts or subcontracts for commodities, supplies, technology, property, and services for regulated utilities are awarded to women, minority, and disabled veteran business enterprises, and to maintain and strengthen the overall economy of the state.

(b) (1) The Legislature finds all of the following:

(A) The opportunity for full participation in our free enterprise system by women, minority, and disabled veteran business enterprises is essential if this state is to attain social and economic equality for those businesses and improve the functioning of the state economy.

(B) Public agencies which have established short- and long-range women, minority, and disabled veteran business enterprise goals are awarding 30 percent or more of their contracts to these business enterprises.

(C) Women, minority, and disabled veteran business enterprises have traditionally received less than a proportionate share of regulated public utility procurement contracts.

(D) It is in the state's interest to expeditiously improve the economically disadvantaged position of women, minority, and disabled veteran business enterprises.

(E) The position of these businesses can be improved by providing long-range substantial goals for procurement by regulated public utilities of technology, equipment, supplies, services, materials, and construction work from women, minority, and disabled veteran businesses.

(F) That procurement also benefits the public utilities and consumers of the state by encouraging the expansion of the number of suppliers for procurements, thereby encouraging competition among the suppliers and promoting economic efficiency in the process.

(2) It is the purpose of this article to do all of the following:

(A) Encourage greater economic opportunity for women, minority, and disabled veteran business enterprises.

(B) Promote competition among regulated public utility suppliers in order to enhance economic efficiency in the procurement of electrical, gas, and telephone corporation contracts and contracts of their commission-regulated subsidiaries and affiliates.

(C) Clarify and expand the program for the procurement by regulated public utilities of technology, equipment, supplies, services, materials, and construction work from women, minority, and disabled veteran business enterprises.

SEC. 5. Section 8282 of the Public Utilities Code is amended to read:

8282. For the purposes of this article, the following definitions apply:

(a) "Women business enterprise" means a business enterprise that is at least 51 percent owned by a woman or women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and whose management and daily business operations are controlled by one or more of those individuals.

(b) "Minority business enterprise" means a business enterprise that is at least 51 percent owned by a minority group or groups; or,

in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more minority groups, and whose management and daily business operations are controlled by one or more of those individuals. The contracting utility shall presume that minority includes Black Americans, Hispanic Americans, Native Americans, and Asian Pacific Americans.

(c) "Disabled veteran business enterprise" has the same meaning as defined in subdivision (g) of Section 999 of the Military and Veterans Code.

(d) "Control" means exercising the power to make policy decisions.

(e) "Operate" means being actively involved in the day-to-day management and not merely officers or directors.

SEC. 6. Section 8283 of the Public Utilities Code is amended to read:

8283. (a) The commission shall require each electrical, gas, and telephone corporation with gross annual revenues exceeding twenty-five million dollars ($25,000,000) and their commission-regulated subsidiaries and affiliates, to submit annually, a detailed and verifiable plan for increasing women, minority, and disabled veteran business enterprise procurement in all categories.

(b) These annual plans shall include short- and long-term goals and timetables, but not quotas, and shall include methods for encouraging both prime contractors and grantees to engage women, minority, and disabled veteran business enterprises in subcontracts in all categories which provide subcontracting opportunities.

(c) The commission shall establish guidelines for all electrical, gas, and telephone corporations with gross annual revenues exceeding twenty-five million dollars ($25,000,000) and their commission-regulated subsidiaries and affiliates, to be utilized in establishing programs pursuant to this article.

(d) Every electrical, gas, and telephone corporation with gross annual revenues exceeding twenty-five million dollars ($25,000,000) shall furnish an annual report to the commission regarding the implementation of programs established pursuant to this article in a form that the commission shall require, and at the time that the commission shall annually designate.

(e) The commission shall provide a report to the Legislature on September 1 of each year, on the progress of activities undertaken by each electrical, gas, and telephone corporation with gross annual revenues exceeding twenty-five million dollars ($25,000,000) pursuant to this article in the implementation of women, minority, and disabled veterans business enterprise development programs. The commission shall recommend a program for carrying out the policy declared in this article, together with recommendations for legislation that it deems necessary or desirable to further that policy.

SEC. 7. Section 8284 of the Public Utilities Code is amended to read:

8284. (a) The commission shall, by rule or order, adopt criteria

for verifying and determining the eligibility of women, minority, and disabled veteran business enterprises for procurement contracts.

(b) The commission shall develop, and require every electrical, gas, and telephone corporation with gross annual revenues exceeding twenty-five million dollars ($25,000,000) and their commission-regulated subsidiaries and affiliates to implement, an outreach program to inform and recruit women, minority, and disabled veteran business enterprises to apply for procurement contracts under this article.

SEC. 8. Section 8285 of the Public Utilities Code is amended to read:

8285. Any person or corporation, through its directors, officers, or agents, which falsely represents a business as a women, minority, or disabled veteran business enterprise in the procurement of, or attempt to procure, contracts from an electrical, gas, or telephone corporation with gross annual revenues exceeding twenty-five million dollars ($25,000,000), or a commission-regulated subsidiary or affiliate subject to this article, shall be punished by a fine of not more than five thousand dollars ($5,000) or by imprisonment in the county jail for not to exceed one year or in the state prison for not to exceed five years, or by both that fine and imprisonment. In the case of a corporation, the fine or imprisonment, or both, shall be imposed on every director, officer, or agent responsible for the false statements.

SEC. 9. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

The people of the State of California do enact as follows:

SECTION 1. Section 40709.6 is added to the Health and Safety Code, to read:

The district in which the source of emission reductions is located shall determine the type and quantity of emission reductions to be credited. The district in which the proposed source of emission increases is located shall determine the impact of these emissions reductions in mitigation of the emission increases in the same manner and to the same extent as the district would do so for fully credited emission reductions from sources located within its boundaries.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

However, the governing board of any airport may require a charter-party carrier operating limousines to obtain an airport permit for operating authority at the airport.

(c) Notwithstanding subdivisions (a) and (b), the governing body of any airport may adopt and enforce reasonable and nondiscriminatory local airport rules, regulations, and ordinances pertaining to access, use of streets and roads, parking, traffic control, passenger transfers, trip fees, and occupancy, and the use of buildings and facilities, which are applicable to charter-party carriers operating limousines on airport property.

(d) This section does not apply to any agreement entered into pursuant to Sections 21690.5 to 21690.9, inclusive, between the governing body of an airport and charter-party carriers operating limousines.

CHAPTER 519

An act to amend Sections 51226, 52910, and 52911 of, and to add Chapter 14 (commencing with Section 52980) to Part 28 of, the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor August 13, 1990 Filed with Secretary of State August 13, 1990]

I am deleting the $150,000 appropriation contained in Section 5 of Assembly Bill No 1953

This bill would appropriate $150,000 to establish six vocational education pilot projects to begin in May 1991 and to continue through April 1994 The purpose of these pilot projects would be to provide alternative courses of study that would meet graduation requirements and produce immediately employable graduates This bill would also require the State Department of Education to develop vocational model curriculum standards that provide alternative means for pupils to meet high school graduation requirements and require the State Board of Education to approve the standards by May 1, 1991.

I am opposed to the $150,000 appropriation for the pilot projects in this bill Existing law authorizes local education agencies to use their vocational education funds to identify a local vocational education curriculum that satisfies, in part, high school graduation requirements School districts that choose to provide vocational education instruction may use the standards developed by the Department of Education and redirect their vocational education funds to implement a program along the lines of the pilot project

With this deletion, I approve Assembly Bil No 1953

GEORGE DEUKMEJIAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 51226 of the Education Code is amended to read:

51226. (a) The Superintendent of Public Instruction shall coordinate the development, on a cyclical basis, of model curriculum standards for the course of study required by Section 51225.3 and for a vocational education course of study necessary to assist school districts with complying with subdivision (b) of Section 51228. The superintendent shall review currently available textbooks in conjunction with the curriculum standards. The superintendent shall seek the advice of classroom teachers, school administrators, parents, postsecondary educators, and representatives of business and industry in developing these curriculum standards. The superintendent shall recommend policies to the State Board of Education for consideration and adoption by the board. The State Board of Education shall adopt these policies no later than January 1, 1985. However, neither the superintendent nor the board shall adopt rules or regulations for course content or methods of instruction. The standards for a vocational education course of study shall be adopted by the State Board of Education no later than May 1, 1991.

(b) Not less than every three years, the governing board of each school district shall compare local curriculum, course content, and course sequence with the standards adopted pursuant to subdivision

(a).

SEC. 2. Section 52910 of the Education Code is amended to read:

52910. The Legislature hereby finds and declares all of the following:

(a) That California's present employment preparation and career education programs need to be strengthened and expanded to meet the needs of employers for a skilled work force and student and employee demands for career-vocational preparation and occupational training, including the use of computers and other technologies.

(b) That changes occurring in California's economy make it imperative that there be available a work force with the personal and occupational skills and knowledge to productively support new economic and technological developments. The Legislature also finds a need to improve coordination among the many service providers funded by federal and state funds to avoid unnecessary duplication of programs and services.

(c) That it is in the best interest of the state to provide all students with a cohesive and well articulated system of career-vocational preparation and occupational training which prepares students for roles as family members and community members, leaders, and productive workers. The Legislature also finds that the alternative means authorized in subdivision (b) of Section 51225.3 are currently being underutilized by school districts.

(d) That students in California's public schools face inadequate access to quality career-vocational preparation and occupational training programs, and declares that providing high quality curriculum and instruction in this area is a high priority of the state. The Legislature believes that all students should be prepared with basic job entry skills at the completion of their schooling.

(e) That every student shall attain a minimum of 12 years of systematic study or its equivalent that effectively prepares the student to enter college, a job, or advanced preparation.

(f) That the number of pupils who drop out of school is excessive and detrimental to the public interest, as is the excessively high rate of unemployment among youths.

(g) That dropping out of school reduces a young person's potential for future employment and income, and depresses the productivity of the state's economy.

(h) That it is in the state's best interests to provide all pupils with a cohesive, defined, and well-articulated system of career education and job training.

(i) That pupils enrolled in public intermediate, secondary, and postsecondary schools face diminished access to quality vocational and career educational programs, and that the provision of a high quality curriculum and course of instruction in these areas are a high priority within the state.

(j) That a pupil's pursuit of career education programs in secondary schools and their use to satisfy the requirements for

admission to baccalaureate postsecondary educational programs should not be mutually exclusive.

(k) That vocational education and basic academic skills should not be viewed as competitive or alternative programs, but rather should be viewed as complementary educational programs.

(*l*) That there are many opportunities, particularly for pupils who are not college bound, to obtain basic academic skills in an applied manner through vocational education programs.

It is the intent of the Legislature in enacting this chapter to require that all pupils enrolled in the public schools be afforded the best possible opportunity to complete the equivalent of 12 years of systematic training to enable him or her to graduate from high school, in a manner which will enable him or her to advance to a college or university and to meet entry-level requirements for a chosen occupational field. The Legislature recognizes that in order to graduate from high school, pupils must complete the prescribed course of study of sufficient rigor and duration as necessary to enable them to effectively function as family members, citizens, leaders, and working members of their communities.

SEC. 3. Section 52911 of the Education Code is amended to read:

52911. For purposes of this chapter, the following definitions shall apply:

(a) "Applied academic areas" means the subject matter areas of agriculture, business and office education, marketing, consumer and homemaking education, health careers, home economic related occupations, and industrial arts, technical, trade and industrial education and methodologies including, but not limited to, work experience education, cooperative vocational education, and community classroom.

(b) "Applied academic programs" means programs that teach and reinforce academic, technical, and employability skills, necessary for employment or advanced training, in applied academic areas.

SEC. 4. Chapter 14 (commencing with Section 52980) is added to Part 28 of the Education Code, to read:

CHAPTER 14. PILOT PROJECTS IN APPLIED ACADEMIC AREAS AND PROGRAMS

52980. (a) In accordance with the requirements of this chapter, the State Department of Education shall select six school districts maintaining any of grades 7 to 12, inclusive, to participate in pilot projects in applied academic areas and programs. The pilot projects shall commence in May 1991, and continue through April 1994. The purpose of the pilot projects shall be to provide opportunities for pupils to attain academic interpersonal and entry-level employment skills upon graduation from high school pursuant to Sections 51225.3 and 51228. These program areas shall include, but shall not be limited to, the applied academic areas of agriculture, business and office

education, marketing, health careers, consumer and homemaking education, home economic-related occupations, industrial arts, technical education, and trade and industrial education. School districts which elect to participate in the pilot project, and which are selected by the department, shall receive a one-time grant in an amount not to exceed thirty thousand dollars ($30,000) for the purpose of administering the pilot project.

The department shall ensure that school districts selected to participate in the pilot projects are representative of large, medium, and small school districts, and school districts from rural, suburban, and urban areas. In order to be eligible to participate in the pilot projects, a school district must be in the top 30th percentile of school districts in terms of high school dropout rates.

(b) As used in this chapter, "interpersonal skills" means appropriate listening skills, the ability to communicate effectively through writing and speaking, the ability to solve problems cooperatively and to negotiate solutions, the ability to take responsibility for the person's own work, and the ability to work productively with others.

52981. (a) The governing board of each school district participating in the pilot project, with the active involvement of existing school district advisory committees, parents, teachers, and pupils, shall prescribe alternative methods for pupils to complete the prescribed course of study for high school graduation, which may include, but are not limited to, practical demonstration of skills and competencies, supervised work experience or other outside school experience, interdisciplinary study, independent study, and credit earned while enrolled in a postsecondary educational institution. Pursuant to the requirements of subdivision (b) of Section 51225.3, the requirements for graduation and the alternative methods for completing the prescribed course of study shall be made available to pupils, parents, and the public.

(b) Each school district participating in the pilot project shall develop an academic course of study for the general education of all pupils and for preparation of pupils to graduate at a level of achievement sufficient for admission to public or private postsecondary educational institutions.

The adopted course of study shall also include applied academic areas and programs which enable pupils to graduate with the skills necessary for entry-level occupational fields. These applied academic programs shall be designed to be of sufficient rigor and duration to meet the school district's approval that the course of study meets the requirements for high school graduation and to provide pupils the opportunity for admission to a postsecondary educational program or advanced training program.

Each pupil shall be provided the opportunity, at his or her option, after receiving appropriate assessment and counseling, to be placed in the sequence of coursework which affords him or her the best opportunity to meet his or her career and educational goals, without

undue emphasis of any particular goal.

(c) School districts participating in the pilot project shall do all of the following:

(1) Review the inventory of skills of courses in applied academic areas, which are comparable to the approved state model curriculum standards and frameworks, which may satisfy in part, or be substituted for, the requirements for high school graduation in science, mathematics, art, social science, economics, and English.

(2) Identify the courses in applied academic areas which are of sufficient rigor and duration, and which include an adequate core of skills which satisfy in whole or in part the requirements for high school graduation prescribed in subdivision (a) of Section 51225.3.

(3) Review, in consultation with the Superintendent of Public Instruction, the current methods of planning, delivering, and evaluating courses in applied academic areas and programs in high schools and regional occupational centers and programs.

(d) As used in this section, "applied academic areas" means the subject matter areas of agriculture, business and office education, marketing, consumer and homemaking education, health careers, home economic related occupations, industrial arts, technical, trade, and industrial education and methodologies, including, but not limited to, work experience education, cooperative vocational education, and community classrooms.

(e) As used in this section, "applied academic programs" means programs that teach and reinforce academic, technical, and employability skills, necessary for employment or advanced training, in applied academic areas.

52982. School districts that elect to participate in the pilot project and that are selected by the department to participate in the pilot project shall receive a grant in an amount not to exceed thirty thousand dollars ($30,000) for the purposes of administering the pilot project. The State Department of Education shall award grants not to exceed thirty thousand dollars ($30,000) to two large school districts, grants not to exceed twenty-five thousand dollars ($25,000) to two medium school districts, and grants not to exceed twenty thousand dollars ($20,000) to two small school districts.

The department shall determine the criteria to be utilized in defining large, medium, and small school districts for the purposes of this chapter.

52983. Each participating school district shall submit a report to the State Department of Education no later than November 30, 1993, on the progress made in achieving the program objectives set forth in Section 52981.

SEC. 5. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the General Fund to the State Department of Education for the purpose of funding pilot projects in applied academic areas and programs pursuant to Chapter 14 (commencing with Section 52980) of Part 28 of the Education Code.

CHAPTER 520

An act to amend Section 2866 of the Business and Professions Code, relating to licensed vocational nurses.

(a) Be at least 17 years of age.

CHAPTER 521

An act relating to youth, and making an appropriation therefor.

[Approved by Governor August 13, 1990. Filed with Secretary of State August 13, 1990.]

I am deleting the appropriation $135,000 contained in Section 4 of Assembly Bill No. 481.

This bill would appropriate $135,000 from the Driver Training Penalty Assessment Fund to the City of Richmond Police Athletic League (PAL) for a two-year pilot program directed toward youth crime prevention.

The reserve in the Driver Training Penalty Assessment Fund has always accrued to the Geneal Fund. Thus, this bill would cause a reduction in the General Fund Reserve.

It is more appropriate to consider funding the provisions of this bill during the budget process for Fiscal Year 1991–92. Only at that time can we review the relative merits of this program in comparison to all other funding projects The budget process enables us to weigh all demands on the state's revenues and direct our resources to programs, either new or existing, that have the most merit

With this deletion, I approve Assembly Bill No 481

GEORGE DEUKMEJIAN, Governor

An act to add Section 2889.6 to the Public Utilities Code, relating to public utilities.

[Approved by Governor August 13, 1990 Filed with Secretary of State August 14, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 2889.6 is added to the Public Utilities Code, to read:

2889.6. The commission shall, by rule or order, require all local exchange carriers to do both of the following:

(a) Include in their telephone directory information concerning emergency situations which may affect the telephone network. The information shall include the procedures which the corporation will follow during emergencies, how telephone subscribers can best use the telephone network in an emergency situation, and the emergency services available by dialing "911."

(b) Annually provide to all subscribers in the form of a billing insert, which need not be a separate document, information concerning emergency situations which may affect the telephone network. The information shall include the procedures which the corporation will follow during emergencies, how telephone subscribers can best use the telephone network in an emergency situation, and the emergency services available by dialing "911." The billing insert shall additionally direct the subscriber to consult the telephone directory for similar information concerning the use of the telephone in emergency situations.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 525

An act to amend Sections 42100 and 48645.3 of the Education Code, relating to education.

[Approved by Governor August 13, 1990 Filed with Secretary of State August 14, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 42100 of the Education Code is amended to read:

42100. On or before the 15th day of September of each year the governing board of each school district shall approve, on a form prescribed by the Superintendent of Public Instruction, an annual statement of all receipts and expenditures of the district for the preceding fiscal year and shall file the statement with the county superintendent of schools on or before the 20th day of September. On or before the 20th day of October, the county superintendent of schools shall verify the mathematical accuracy of the statement and shall transmit a copy to the Superintendent of Public Instruction.

SEC. 2. Section 48645.3 of the Education Code is amended to read:

48645.3. Juvenile court schools shall be conducted in a manner as shall be prescribed by the county board of education to best accomplish the provisions of Section 48645. The minimum schoolday shall be 240 minutes. Minimum schooldays shall be calculated on the basis of the average number of minutes of attendance during not more than 10 consecutive days in which classes are conducted. The minimum schoolday for pupils in attendance in approved vocational education programs, work programs prescribed by the probation department pursuant to Section 883 of the Welfare and Institutions Code, and work experience programs shall be 180 minutes, which shall be calculated on the basis of the average number of minutes of attendance during not more than 10 consecutive days in which classes are conducted. The county board of education shall adopt and enforce a course of study and evaluate its program in accordance

with Sections 51040, 51041, 51050, and 51054 and the provisions of Article 3 (commencing with Section 51200) of Chapter 2 of Part 28, except subdivision (c) of Section 51220.

Juvenile court schools shall not be closed on any weekday of the calendar year, except those weekdays adopted by the board of education as school holidays or set aside by the board of education for inservice purposes. However, the board of education may close juvenile court schools when it deems such closing is necessary to accommodate contingencies.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 526

An act to add Section 44276.5 to the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor August 13, 1990. Filed with Secretary of State August 14, 1990]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that the violent behavior of some students continues to be a major problem confronting school personnel.

The Legislature also finds that certificated school personnel often are not prepared effectively in their professional programs to cope with potentially violent situations or with violent youth.

SEC. 2. Section 44276.5 is added to the Education Code, to read:

44276.5. The commission shall undertake a series of leadership activities directed toward establishing appropriate standards of preparation for teachers and other certificated personnel concerning violent behavior by students. These activities may include an examination of existing preparation programs, the creation of an advisory panel of experts on issues of youth gangs and violence, a conference or symposium on these issues, and the dissemination of teacher preparation models for optional use in teacher preparation programs. The commission shall report on its activities to the

Legislature by January 1, 1992.

SEC. 3. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the Teacher Credentials Fund to the Commission on Teacher Credentialing for the purpose of Section 44276.5 of the Education Code.

CHAPTER 527

An act to amend Sections 26298.2, 26299.041, and 53721.6 of the Government Code, relating to local taxation.

[Approved by Governor August 13, 1990 Filed with Secretary of State August 14, 1990]

The people of the State of California do enact as follows:

SECTION 1. (a) It has been the policy of the Legislature that newly created local agencies and commissions constitutionally may be granted the authority to impose local taxes with the approval of a simple majority of the electors voting on the measure. Therefore, the amendment of Sections 26298.2 and 26299.041 of the Government Code by this act is not intended to in any manner affect any pending court decisions as to whether newly created local agencies or commissions constitutionally may be granted the authority to impose local taxes with the approval of a simple majority of the electors voting on the measure.

(b) It is the intent of the Legislature in enacting this act, in view of pending court decisions as to whether newly created local agencies or commissions may impose local taxes with the approval of only a simple majority of the electors voting on the measure, to provide newly created local agencies or commissions with the option to require the adoption of local taxes with the approval of either a simple majority or two-thirds of the electors voting on the measure, as deemed by the agency or commission to be in its best interests.

SEC. 2. Section 26298.2 of the Government Code is amended to read:

26298.2. (a) A retail transactions and use tax ordinance applicable in the incorporated and unincorporated territory of the county may be adopted by the commission in accordance with Section 26298.8 and Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, if the ordinance is adopted by a two-thirds vote of the commission and if a majority of the electors voting on the measure vote to approve its imposition at an election. This election may be a special election called for that purpose by the commission or, if the commission so determines, shall be consolidated with a regular election.

(b) In addition to the authorization of subdivision (a), a retail transactions and use tax ordinance applicable in the incorporated

and unincorporated territory of the county may be adopted by the commission in accordance with the requirements of subdivision (a), except that, at the option of the commission, the ordinance may be required to be approved by two-thirds of the electors voting on the measure.

SEC. 3. Section 26299.041 of the Government Code is amended to read:

26299.041. (a) A retail transactions and use tax ordinance applicable in the incorporated and unincorporated territory of a county may be imposed by the agency in accordance with this chapter and Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, if the tax ordinance is adopted by a two-thirds vote of the agency and imposition of the tax is subsequently approved by a majority of the electors voting on the measure at a special election called for that purpose by the board of supervisors, at the request of the agency, and a county regional justice facilities master plan is adopted pursuant to Section 26299.009.

(b) In addition to the authorization of subdivision (a), a retail transactions and use tax ordinance applicable in the incorporated and unincorporated territory of a county may be imposed by the agency in accordance with the requirements of subdivision (a), except that, at the option of the agency, the ordinance may be required to be approved by two-thirds of the electors voting on the measure.

(c) A retail transactions and use tax approved by the electors pursuant to this chapter shall remain in effect for not longer than 30 years, or any lesser period of time specified in the tax ordinance. The tax may be continued in effect, or reimposed, by a tax ordinance adopted by a two-thirds vote of the agency and the reimposition of the tax is approved by either a majority or two-thirds of the electors, whichever was required for the initial approval.

(d) The special elections required by subdivisions (a), (b), and (c) for the initial imposition and reimposition, respectively, of a retail transactions and use tax may be consolidated, if the agency so determines, with a regular election.

SEC. 4. Section 53721.6 of the Government Code is amended to read:

53721.6. (a) A retail transactions and use tax imposed by an ordinance adopted pursuant to Chapter 13.7 (commencing with Section 26295) or 13.8 (commencing with Section 26299.000) of Part 2 of Division 2 of Title 3 shall be deemed to be a general tax for the purposes of this article unless the transactions and use tax ordinance, or an amendment thereto, either declares the tax to be a special tax or requires the proceeds of the tax to be placed in a fund other than the general fund of the county regional justice facilities financing agency, or a similar fund, and irrevocably restricts the use of the proceeds to specific purposes of more limited scope and type than the general governmental purposes of the county regional justice facilities financing agency set forth in Section 26298.18 or 26299.031.

(b) The receipt or retention of the proceeds of the transactions and use tax, imposed by an ordinance adopted pursuant to Chapter 13.7 (commencing with Section 26295) or 13.8 (commencing with Section 26299.000) of Part 2 of Division 2 of Title 3 by a bond trustee for bonds secured by the proceeds of the tax shall not cause a general tax to become a special tax.

CHAPTER 528

An act to add Section 8492 to the Fish and Game Code, relating to fish, and making an appropriation therefor.

[Became law without Governor's signature. Filed with Secretary of State August 14, 1990]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that overfishing of crayfish in the Sacramento-San Joaquin Delta is placing serious pressure on the species.

SEC. 2. Section 8492 is added to the Fish and Game Code, to read:

8492. The department shall take the steps it determines are necessary to prevent overfishing of crayfish in the Sacramento-San Joaquin Delta. Those steps may include, but are not limited to, submitting to the Legislature proposed legislation to place limitations on the commercial crayfishing in that area.

CHAPTER 529

An act to amend, repeal, and add Section 12729 of, and to add and repeal Section 12729.5 of, the Business and Professions Code, relating to weights and measures.

The people of the State of California do enact as follows:

(3) For a third or subsequent conviction within a period of one year, a fine not exceeding five hundred dollars ($500).

(c) A violation of Section 12722 by a vehicle hauling bulk tomatoes is an infraction. Every person convicted of an infraction pursuant to this subdivision shall be punished as follows:

(1) For a vehicle that exceeds the tolerance provided by regulations adopted pursuant to Section 12723 by less than 50 percent, a fine not exceeding two hundred dollars ($200).

(2) For a vehicle that exceeds the tolerance provided by regulations adopted pursuant to Section 12723 by 50 to 100 percent, inclusive, a fine not exceeding four hundred dollars ($400).

(3) For a vehicle that exceeds the tolerance provided by regulations adopted pursuant to Section 12723 by more than 100 percent, a fine not exceeding eight hundred dollars ($800).

This section shall remain in effect only until January 1, 1995, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1995, deletes or extends that date.

SEC. 2. Section 12729 is added to the Business and Professions Code, to read:

12729. (a) Except as otherwise provided in this section, any person who violates any provision of this chapter is guilty of a misdemeanor.

(b) A violation of Section 12722 by vehicles hauling bulk tomatoes that does not exceed 50 percent of the tolerance provided by regulations adopted pursuant to Section 12723, or a violation of Section 12714, 12714.5, or 12715 is an infraction.

(c) Every person convicted of an infraction pursuant to this chapter shall be punished as follows:

(1) For the first conviction, a fine not exceeding one hundred dollars ($100).

(2) For a second conviction within a period of one year, a fine not exceeding two hundred dollars ($200).

(3) For a third or subsequent conviction within a period of one year, a fine not exceeding five hundred dollars ($500).

(d) This section shall become operative on January 1, 1995.

SEC. 3. Section 12729.5 is added to the Business and Professions Code, to read:

12729.5. (a) In order to determine the impact of changing the schedule of fines for a violation of Section 12722 by a vehicle hauling bulk tomatoes, the department shall compile information on, and prepare a statistical comparison of, violations of Section 12722 by vehicles hauling bulk tomatoes for (1) 18 months prior to January 1, 1991, and (2) 18 months after January 1, 1991. The department shall provide this information and comparison to the Legislature not later than January 1, 1993.

(b) This section shall remain in effect only until January 1, 1995, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1995, deletes or extends that date.

CHAPTER 530

An act to amend Sections 10235.12 and 10235.16 of, and to add Article 5 (commencing with Section 10237) to Chapter 2.6 of Part 2 of Division 2 of, the Insurance Code, relating to long-term care insurance.

[Approved by Governor August 15, 1990 Filed with Secretary of State August 15, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 10235.12 of the Insurance Code is amended to read:

10235.12. (a) As used in this section:

(1) "Basis for continuation of coverage" means a policy provision which maintains coverage under the existing group policy when that coverage would otherwise terminate and which is subject only to the continued timely payment of premium when due.

(2) "Basis for conversion of coverage" means a policy provision to the effect that an individual whose coverage under the group policy would otherwise terminate or has been terminated for any reason, including discontinuance of the group policy in its entirety or with respect to an insured class, and who has been continuously insured under the group policy (and any group policy which it replaced), for at least six months immediately prior to termination, shall be entitled to the issuance of a converted policy by the insurer under whose group policy he or she is covered, without evidence of insurability.

(3) "Converted policy" means an individual policy of long-term care insurance providing benefits identical to, or benefits determined by the commissioner to be substantially equivalent to or in excess of, those provided under the group policy from which conversion is made.

If the group policy from which conversion is made restricts the provision of benefits and services to, or contains incentives to use certain providers or facilities, the commissioner, in making the determination as to the substantial equivalency of benefits, shall take into consideration the differences between managed care and nonmanaged care plans, including, but not limited to, provider system arrangements, service availability, benefit levels, and administrative complexity.

(4) A "managed care plan" means any health care or assisted living arrangement designed to coordinate patient care or control costs through utilization review, case management, or the use of

specific provider networks.

(b) Group long-term care insurance policies delivered or issued for delivery in this state on or after January 1, 1990, shall provide covered individuals with a basis for continuation of coverage or a basis for conversion of coverage.

(c) Group policies which restrict provision of benefits and services to, or which provide incentives to use, certain providers or facilities may include continuation benefits which are substantially equivalent to the benefits of the existing group policy. The commissioner shall make a determination as to the substantial equivalency of benefits for this purpose and, in doing so, shall take into consideration the differences between managed care plans and nonmanaged plans, including, but not limited to, provider system arrangements, service availability, benefit levels, and administrative complexity.

(d) Written application for a converted policy shall be made and the first premium due, if any, shall be paid as directed by the insurer not later than 31 days after termination of coverage under the group policy. The converted policy shall be issued effective on the day following the termination of coverage under the group policy, and shall be renewable annually.

(e) Unless the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the group policy from which conversion is made. Where the group policy from which conversion is made replaced previous group coverage, the premium for the converted policy shall be calculated on the basis of the insured's age at inception of coverage under the previous group policy replaced.

(f) Continuation of coverage or issuance of a converted policy shall be mandatory, unless either of the following apply:

(1) Termination of group coverage resulted from an individual's failure to make any required payment of premium or contribution when due.

(2) The terminating coverage is replaced not later than 31 days after termination by group coverage effective on the day following the termination of coverage and the replacement coverage meets both of the following criteria:

(A) The replacement coverage provides benefits identical to, or benefits determined by the commissioner to be substantially equivalent to or in excess of, those provided by the terminating coverage.

(B) The premium for the replacement coverage is calculated in a manner consistent with the requirements of subdivision (e).

(g) Notwithstanding any other provision of this section, a converted policy issued to an individual who at the time of conversion is covered by another long-term care insurance policy which provides benefits on the basis of incurred expenses, may contain a provision which results in a reduction of benefits payable

if the benefits provided under the additional coverage, together with the full benefits provided by the converted policy, would result in payment of more than 100 percent of incurred expenses. This provision shall only be included in a converted policy if the converted policy also provides for a premium decrease or refund which reflects the reduction in benefits payable.

(h) The converted policy may provide that the benefits payable under the converted policy, together with the benefits payable under the group policy from which conversion is made, shall not exceed those that would have been payable had the individual's coverage under the group policy remained in force and effect.

(i) Notwithstanding any other provision of this section, any insured individual whose eligibility for group long-term care coverage is based upon his or her relationship to another person, shall be entitled to continuation of coverage under the group policy upon termination of the qualifying relationship by death or dissolution of marriage.

(j) Continuation, conversion, or replacement coverage shall not contain preexisting condition exclusions if, as of the effective date of continuation, conversion, or replacement, the group coverage from which continuation, conversion, or replacement is made would provide benefits for preexisting conditions.

(k) If the group coverage from which continuation, conversion, or replacement is made, imposes preexisting condition limitation periods, elimination, waiting or other time periods as preconditions to benefits, and any of these preconditions have been partially satisfied as of the effective date of continuation, conversion, or replacement, the period of that partial satisfaction shall be applied as a credit towards satisfaction of those preconditions to benefits contained in the continuation, conversion, or replacement coverage.

(*l*) This section shall prevail as to any conflict between its provisions and Part 6.1 (commencing with Section 12670) of Division 2 of the Insurance Code.

SEC. 2. Section 10235.16 of the Insurance Code is amended to read:

10235.16. (a) Long-term care insurance application forms shall include a question designed to elicit information as to whether the proposed insurance is intended to replace any other accident and sickness or long-term care insurance presently in force. A supplementary application or other form to be signed by the applicant containing such a question may be used.

(b) Upon determining that a sale will involve replacement, an insurer, other than an insurer using direct response solicitation methods, or its agent shall furnish the applicant, prior to issuance or delivery of a policy or certificate, a notice regarding replacement of accident and sickness or long-term care coverage. One copy of this notice shall be retained by the applicant and an additional copy signed by the applicant shall be retained by the insurer. The required notice shall be provided in the following form:

"NOTICE TO APPLICANT REGARDING REPLACEMENT OF ACCIDENT AND SICKNESS OR LONG-TERM CARE INSURANCE

According to (your application) (information you have furnished), you intend to lapse or otherwise terminate existing accident and sickness or long-term care insurance and replace it with long-term care insurance coverage to be issued by (company name) Insurance Company. Your new coverage provides thirty (30) days within which you may decide, without cost, whether you desire to keep the coverage. For your own information and protection, you should be aware of and seriously consider certain factors which may affect the insurance protection available to you under the new coverage.

(1) Health conditions which you may presently have (preexisting conditions), may not be immediately or fully covered under the new coverage. This could result in denial or delay in payment of benefits under the new coverage, whereas a similar claim might have been payable under your present coverage.

(2) You may wish to secure the advice of your present insurer or its agent regarding the proposed replacement of your present coverage. This is not only your right, but it is also in your best interest to make sure you understand all the relevant factors involved in replacing your present coverage.

(3) If, after due consideration, you still wish to terminate your present coverage and replace it with new coverage, be certain to truthfully and completely answer all questions on the application concerning your medical health history. Failure to include all material medical information on an application may provide a basis for the company to deny any future claims and to refund your premium as though your coverage had never been in force. After the application has been completed and before you sign it, reread it carefully to be certain that all the information has been properly recorded.

The above 'Notice to Applicant' was delivered to me on:

_____

(Date)

_____

(Applicant's Signature)"

(c) For group coverage not subject to the 30-day return provision of Section 10232.7, the notice shall be modified to reflect the appropriate time period in which the policy may be returned and premium refunded.

SEC. 3. Article 5 (commencing with Section 10237) is added to Chapter 2.6 of Part 2 of Division 2 of the Insurance Code, to read:

Article 5. Inflation Escalator and Benefit Increases

10237. This article applies to all long-term care insurance policies delivered or issued for delivery in this state on or after January 1, 1991.

10237.1. No insurer may deliver or issue for delivery a long-term care insurance policy in this state unless the insurer offers to the policyholder the option to purchase a long-term care insurance policy that provides for benefit levels to increase to account for reasonably anticipated increases in the costs of long-term care services covered by the policy. Insurers shall offer to each policyholder, at the time of purchase, the option to purchase a long-term care insurance policy containing an inflation protection feature which is no less favorable than one that does one or more of the following:

(a) Increases benefit levels annually.

(b) Guarantees the insured individual the right to periodically increase benefit levels without providing evidence of insurability or health status so long as the option for the previous period has not been declined.

(c) Covers a specified percentage of actual or reasonable charges.

10237.2. If the policy is issued to a group, the required offering in Section 10237.1 shall be made to the group policyholder; except that if the policy is issued to a group as defined in subdivision (d) of Section 10231.6, other than to a continuing care retirement community, the offering shall be made to each proposed certificate holder.

10237.3. The offer in Section 10237.1 shall not be required of any of the following:

(a) Life insurance policies or riders containing accelerated long-term care benefits.

(b) Expense incurred long-term care insurance policies. For purposes of this subdivision, "expense incurred" does not include policies paying a certain percentage of reasonable and customary charges up to a specified, indemnity-type maximum amount.

CHAPTER 531

An act to amend Section 25385.8 of the Health and Safety Code, relating to hazardous substances.

[Approved by Governor August 15, 1990. Filed with Secretary of State August 15, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Section 25385.8 of the Health and Safety Code is amended to read:

25385.8. (a) The Superfund Bond Trust Fund is hereby created in the State Treasury. All interest earned on funds in the state account, and other funds transferred to the trust fund by the Legislature or the department, shall be deposited in the trust fund, which is a sinking fund to ensure the payment of principal of, and interest on, the debt incurred pursuant to Section 25385.5. All interest earned on money in the fund shall be deposited in the trust fund. The funds in the trust fund shall be invested by the Treasurer. The committee shall administer the trust fund so that there are sufficient funds in the trust fund to make the necessary principal and interest payments on bonds issued and shall transfer funds from the trust fund for this purpose to the Hazardous Substance Clearing Account.

(b) There shall be transferred annually the sum of five million dollars ($5,000,000) from the state account to the trust fund.

(c) The unobligated balance in the state account shall be transferred by the department to the trust fund on December 31 of each year. For purposes of this section, "unobligated balance" means that amount, which shall not be less than zero, determined by the department, in the year-end financial statement submitted to the Controller, to be the total of all unencumbered funds on June 30 of that calendar year, less the total of all of the following:

(1) Any fund in the reserve account for emergencies established by Section 25354.

(2) Any remaining principal of the loan authorized by Section 25332.

(3) Any interest due on any remaining principal of the loan authorized by Section 25332.

(4) Any funds paid as taxes for the following fiscal year.

(5) Any funds received from the federal government pursuant to the federal act.

(6) Any funds in the state account subject to the rebate specified in Section 25347.2.

(7) Any interest accruing from funds deposited in the subaccount for site operation and maintenance established by Section 25330.5.

(8) Any funds received from responsible parties for remedial and removal action, except to the extent those funds are necessary to reimburse the state account for funds previously expended therefrom.

(9) Any funds deposited into a sinking fund to ensure the repayment of principal on, and interest of, bonds pursuant to Section 25385.9.

(d) The amendment of this section made at the 1990 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law.

CHAPTER 532

An act to amend Sections 25356.1, 25356.3, and 25356.5 of the Health and Safety Code, relating to hazardous substances.

[Approved by Governor August 15, 1990. Filed with Secretary of State August 15, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 25356.1 of the Health and Safety Code is amended to read:

25356.1. (a) Except as provided in subdivision (g), the department, or, if appropriate, the regional water quality control board shall prepare or approve remedial action plans for all sites listed pursuant to Section 25356.

(b) A potentially responsible party may request the department or the regional water quality control board, when appropriate, to prepare or approve a remedial action plan for any site not listed pursuant to Section 25356 if the department or the State Water Resources Control Board determines that a removal or remedial action is required to respond to a release of a hazardous substance. The department or the state board shall respond to a request to prepare or approve a remedial action plan within 90 days of receipt. This subdivision does not affect the authority of any regional water quality control board to issue and enforce a cleanup and abatement order pursuant to Section 13304 of the Water Code or a cease and desist order pursuant to Section 13301 of the Water Code.

(c) All remedial action plans prepared or approved pursuant to this section shall be based upon Section 25350, Subpart F of the National Oil and Hazardous Substances Pollution Contingency Plan (40 C.F.R. 300.61 et seq.), and any amendments thereto, and upon all of the following factors, to the extent that these factors are consistent with these federal regulations and do not require a less stringent level of cleanup than these federal regulations:

(1) Health and safety risks posed by the conditions at the site. When considering these risks, the department or the regional water quality control board shall consider scientific data and reports which may have a relationship to the site.

(2) The effect of contamination or pollution levels upon present, future, and probable beneficial uses of contaminated, polluted, or threatened resources.

(3) The effect of alternative remedial action measures on the reasonable availability of groundwater resources for present, future, and probable beneficial uses. The department or regional water quality control board shall consider the extent to which remedial action measures are available which use, as a principal element, treatment that significantly reduces the volume, toxicity, or mobility of the hazardous substances, as opposed to remedial actions which do

not use this treatment. The department or regional water quality control board shall not select remedial action measures which use offsite transport and disposal of untreated hazardous substances or contaminated materials if practical and cost-effective treatment technologies are available.

(4) Site specific characteristics, including the potential for offsite migration of hazardous substances, the surface or subsurface soil, and the hydrogeologic conditions, as well as preexisting background contamination levels.

(5) Cost effectiveness of alternative remedial action measures. In evaluating the cost effectiveness of proposed alternative remedial action measures, the department or regional water quality control board shall consider, to the extent possible, the total short-term and long-term costs of these actions and shall use, as a major factor, whether the deferral of a remedial action will result, or is likely to result, in a rapid increase in cost or in the hazard to public health or the environment posed by the site. Land disposal shall not be deemed the most cost-effective measure merely on the basis of lower short-term cost.

(6) The potential environmental impacts of alternative remedial action measures, including, but not limited to, land disposal of the untreated hazardous substances as opposed to treatment of the hazardous substances to remove or reduce its volume, toxicity, or mobility prior to disposal.

(d) A remedial action plan prepared or approved pursuant to this section shall include a statement of reasons setting forth the basis for the removal and remedial actions selected. The statement shall include an evaluation of each proposed alternative submitted to, or prepared by, the department or the regional water quality control board for a particular site. The statement shall also include an evaluation of the consistency of the removal and remedial actions proposed by the plan with the federal regulations and factors specified in subdivision (c) and shall set forth the reasons for rejection of alternative removal and remedial actions. The statement shall also include a nonbinding preliminary allocation of responsibility among all identifiable potentially responsible parties at a particular site, including those parties which may have been released, or may otherwise be immune, from liability pursuant to this chapter or any other provision of law. Before adopting a final remedial action plan, the department or the regional water quality control board shall prepare or approve a draft remedial action plan and shall do all of the following:

(1) Circulate the draft plan for at least 30 days for public comment.

(2) Notify affected local and state agencies of the removal and remedial actions proposed in the remedial action plan and publish a notice in a newspaper of general circulation in the area affected by the draft remedial action plan. The department or the regional water quality control board shall also post notices in the location where the

proposed removal or remedial action would be located and shall notify, by direct mailing, the owners of property contiguous to the site addressed by the plan, as shown in the latest equalized assessment roll.

(3) Hold one or more meetings with the lead and responsible agencies for the removal and remedial actions, the potentially responsible parties for the removal and remedial actions, and the interested public, to provide the public with the information which is necessary to address the issues which concern the public. The information to be provided shall include an assessment of the degree of contamination, the characteristics of the hazardous substances, an estimate of the time required to carry out the removal and remedial actions, and a description of the proposed removal and remedial actions.

(4) Comply with Section 25358.7.

(e) After complying with subdivision (d), the department or the regional water quality control board shall review and consider any public comments, and shall revise the draft plan, if appropriate. The department or the regional water quality control board shall then issue the final remedial action plan.

(f) A potentially responsible party named in the final remedial action plan issued by the department or the regional water quality control board may seek judicial review of the final remedial action plan by filing a petition for writ of mandate pursuant to Section 1085 of the Code of Civil Procedure within 30 days after the final remedial action plan is issued by the department or the regional water quality control board. Any other person who has the right to seek judicial review of the final remedial action plan by filing a petition for writ of mandate pursuant to Section 1085 of the Code of Civil Procedure shall do so within one year after the final remedial action plan is issued. No action may be brought by a potentially responsible party to review the final remedial action plan if the petition for writ of mandate is not filed within 30 days of the date the final remedial action plan was issued. No action may be brought by any other person to review the final remedial action plan if the petition for writ of mandate is not filed within one year of the date the final remedial action plan is issued. The filing of a petition for writ of mandate to review the final remedial action plan shall not stay any removal or remedial action specified in the final plan.

For purposes of judicial review, the court shall uphold the final remedial action plan if the plan is based upon substantial evidence available to the department or the regional water quality control board, as the case may be. This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction, including, but not limited to, enjoining the expenditure of funds pursuant to paragraph (2) of subdivision (b) of Section 25385.6.

(g) (1) This section does not require the department or a regional water quality control board to prepare a remedial action plan if conditions present at a site present an imminent or substantial

endangerment to the public health and safety or to the environment.

(2) A remedial action plan is not required pursuant to subdivision (a) if all of the following apply:

(A) The department, a regional water quality control board, or a responsible party takes a removal action at a site listed pursuant to Section 25356 to prevent, minimize, or mitigate damage that may otherwise result from a release or threatened release of a hazardous substance.

(B) The total cost of the removal action is less than four hundred thousand dollars ($400,000).

(C) The department, after appropriate testing and analysis, determines that the removal action has adequately abated conditions at the site and the site may be removed from the list established pursuant to Section 25356.

(3) The department may waive the requirement that a remedial action plan meet the requirements specified in subdivision (c) if all of the following apply:

(A) The responsible party adequately characterizes the hazardous substance conditions at a site listed pursuant to Section 25356.

(B) The responsible party submits to the department, in a form acceptable to the department, all of the following:

(i) A description of the techniques and methods to be employed in excavating, storing, handling, transporting, treating, and disposing of materials from the site.

(ii) A listing of the alternative remedial measures which were considered by the responsible party in selecting the proposed removal action.

(iii) A description of methods that will be employed during the removal action to ensure the health and safety of workers and the public during the removal action.

(iv) A description of prior removal actions with similar hazardous substances and with similar public safety and environmental considerations.

(C) The department determines that the remedial action plan provides protection of human health and the environment at least equivalent to that which would be provided by a remedial action plan prepared in accordance with subdivision (c).

(D) The total cost of the removal action is less than two million dollars ($2,000,000).

(4) For purposes of this section, the cost of a removal action includes the cleanup of removal of released hazardous substances from the environment or the taking of other actions which are necessary to prevent, minimize, or mitigate damage which may otherwise result from a release or threatened release, as further defined by Section 9601 (23) of Title 42 of the United States Code.

(5) Paragraphs (2) and (3) of this subdivision do not apply to a removal action paid from the Hazardous Substance Cleanup Fund.

(h) Article 2 (commencing with Section 13320), Article 3

(commencing with Section 13330), Article 5 (commencing with Section 13350), and Article 6 (commencing with Section 13360) of Chapter 5 of Division 7 of the Water Code apply to any action or failure to act by a regional water quality control board pursuant to this section.

SEC. 2. Section 25356.3 of the Health and Safety Code is amended to read:

25356.3. (a) The department or the regional water quality control board shall serve a copy by mail of the draft remedial action plan upon all potentially responsible parties identified in the plan. Within 15 days after the issuance of a final remedial action plan, any potentially responsible parties with aggregate alleged liability in excess of 50 percent of the costs of removal and remedial action, as set forth in the statement of reasons issued pursuant to subdivision (d) of Section 25356.1, but excluding any costs which are the subject of an agreement under which any party agrees to assume liability for those costs, may convene an arbitration proceeding by agreeing to submit to binding arbitration by the panel. The filing of a demand to convene an arbitration panel shall not stay any removal or remedial actions specified in the plan. If an arbitration panel is convened pursuant to this section, any other potentially responsible party may elect to submit to binding arbitration by the panel. Any person submitting to arbitration under this section shall agree not to contest the fact of liability in the arbitration. The panel shall, and the parties are entitled to, address the proper apportionment of liability pursuant to subdivision (b). Submission to arbitration under this section is not an admission of liability for any other purpose or in any other proceeding, including a subsequent arbitration proceeding concerning the same site. The department or the regional water quality control board, whichever issued the final remedial action plan, shall participate in the arbitration proceedings to the same extent as the potentially responsible parties which have submitted to the arbitration.

(b) The panel shall apportion liability for the costs of all removal and remedial actions specified in the final remedial action plan.

(c) In panel proceedings, liability for the costs of removal and remedial actions shall be apportioned among all identifiable potentially responsible parties regardless of whether those parties are before the panel or have otherwise been released, or are immune, from liability pursuant to this chapter or any other provision of law. The panel shall apportion liability based on all of the following criteria:

(1) The amount of hazardous substance for which each party may be responsible.

(2) The degree of toxicity of the hazardous substance.

(3) The degree of involvement of the potentially responsible parties in the generation, transportation, treatment, or disposal of the hazardous substance.

(4) The degree of care exercised by the potentially responsible

parties with respect to the hazardous substances, taking into account the characteristics of the substance.

(5) The degree of cooperation by the potentially responsible parties with federal, state, and local officials to prevent harm to human health and the environment.

(d) The panel may issue subpoenas and subpoenas duces tecum to require attendance of a person or the production of documents, at the request of any person identified as potentially responsible in the remedial action plan, on its own motion, or at the request of the department or the appropriate regional water quality control board. A person requesting a subpoena duces tecum shall comply with Section 1985 of the Code of Civil Procedure. The jurisdiction of subpoenas and subpoenas duces tecum issued by the panel extends to all parts of the state. The subpoenas and subpoenas duces tecum shall be served pursuant to Sections 1987 and 1988 of the Code of Civil Procedure.

If the panel determines that a person is refusing to respond to a subpoena or subpoena duces tecum, or is guilty of a misconduct during the arbitration and negotiation process, the panel shall certify the facts to the superior court of the county in which the site is located. The court shall thereupon issue an order directing the person to appear before the court and show cause why the person should not be punished for contempt pursuant to Section 1209 of the Code of Civil Procedure. The order and a copy of the certified statement shall be served on the person, and thereafter the court shall have jurisdiction of the matter. The same proceedings shall be followed, the same penalties may be imposed, and the person charged may be purged of contempt in the same way as if the person has committed a contempt in the trial of a civil action before a superior court.

After receipt of documents pursuant to a subpoena duces tecum, any party may request the panel for a continuance for a reasonable period of time to review the documents prior to proceeding with the arbitration. The panel may grant a continuance for that purpose upon a showing of good cause.

(e) This chapter does not require a regional water quality control board or the State Water Resources Control Board to engage in arbitration pursuant to this section or Section 25356.2 for any enforcement action taken pursuant to Division 7 (commencing with Section 13000) of the Water Code.

(f) The costs of conducting the arbitration shall be borne by the potentially responsible parties submitting to the arbitration pursuant to subdivision (a), except that any filing fees, witness fees, costs of discovery, or any other costs necessarily incurred by one party shall not be shared by any other party.

SEC. 3. Section 25356.5 of the Health and Safety Code is amended to read:

25356.5. On or before January 10 of each fiscal year, the department shall provide a report to the Legislature which contains

all of the following information:

(a) The actual funds expended for each site listed during the preceding year pursuant to Section 25356.

(b) The state's efforts to obtain available federal funds for the purposes of this chapter.

(c) An accounting of federal funds which have been obtained by, or committed to, the state.

(d) The state's efforts to obtain contributions to removal or remedial actions from potentially responsible parties.

CHAPTER 533

An act to amend Section 25143.2 of the Health and Safety Code, relating to hazardous waste, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 15, 1990 Filed with Secretary of State August 15, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 25143.2 of the Health and Safety Code is amended to read:

25143.2. (a) Recyclable materials are subject to the requirements of this chapter which apply to hazardous wastes, unless the department issues a variance pursuant to Section 25143, or except as provided otherwise in subdivision (b), (c), or (d) or the regulations adopted by the department pursuant to Sections 25150 and 25151.

(b) Except as otherwise provided in subdivision (e), any recyclable material is not a waste under this chapter when the material can be shown to be recycled by any of the following methods:

(1) Used or reused as an ingredient in an industrial process to make a product, if the material is not being reclaimed.

(2) Used or reused as a safe and effective substitute for commercial products, if the material is not being reclaimed.

(3) Returned to the original process from which the material was generated, without first being reclaimed, if the material is returned as a substitute for raw material feedstock, and the process uses raw materials as principal feedstocks.

(c) Except as otherwise provided in subdivisions (b), (d), and (e), any recyclable material may be recycled at a facility which is not authorized by the department pursuant to the applicable hazardous waste facilities permit requirements of Article 9 (commencing with Section 25200) if either of the following requirements is met:

(1) The material is a petroleum refinery waste containing oil which is converted into petroleum coke at the same facility at which

the waste was generated, unless the resulting coke product would be identified as a hazardous waste under this chapter. A waste subject to this paragraph is exempt from this chapter to the same extent the waste is exempt from subsections (q), (r), and (s) of Section 6924 of Title 42 of the United States Code.

(2) The material meets all of the following conditions:

(A) The material is recycled and used at the same facility at which the material was generated.

(B) The material is recycled within 90 days of its generation.

(C) The material is managed in accordance with all applicable requirements for generators of hazardous wastes under this chapter and regulations adopted by the department.

(d) Except as otherwise provided in subdivision (e), any recyclable material which is a non-RCRA hazardous waste, as defined in Section 25117.9, is not a waste under this chapter if the material meets any of the following requirements:

(1) The material can be shown to be recycled and used at the site where the material was generated.

(2) The material qualifies as one or more of the following:

(A) The material is a product, which has been processed from a hazardous waste, or which has been handled, at a facility authorized by the department pursuant to the facility permit requirements of Article 9 (commencing with Section 25200) to process or handle the material, if the product meets both of the following conditions:

(i) The product contains no hazardous constituents, other than those for which the material is being recycled.

(ii) The product is used, or distributed or sold for use, in a manner for which the product is commonly used.

(B) The material is a petroleum refinery waste containing oil which is converted into petroleum coke at the same facility at which the waste was generated, unless the resulting coke product would be identified as a hazardous waste under this chapter.

(C) The material is oily waste, used oil, or spent nonhalogenated solvent which is managed by the owner or operator of a refinery which is processing primarily crude oil and which is not subject to permit requirements for recycling of used oil, or a public utility, or a corporate subsidiary, corporate parent, or subsidiary of the same corporate parent of the refinery or public utility, and which meets all of the following requirements:

(i) The material is either burned in an industrial boiler, an industrial furnace, an incinerator, or a utility boiler which complies with all applicable federal and state laws, or is recombined with normal process streams to produce a fuel.

(ii) The material is either managed at the site where it was generated or managed at another site owned or operated by the generator, a corporate subsidiary of the generator, a subsidiary of the same entity of which the generator is a subsidiary, or the corporate parent of the generator.

(iii) The material contains no hazardous constituents other than

those for which the material is being recycled.

(3) The material is transported between locations operated by the same person, if the material is recycled at the last location and is not handled at any interim location not operated by the person. If requested by the department or by any law enforcement official, a person handling material subject to this paragraph shall, within 15 days of the request, supply documentation to show that the requirements of this paragraph have been satisfied.

(4) The material is transferred between locations operated by the same person, if the material is to be recycled at an authorized offsite hazardous waste facility and if all of the following conditions are met:

(A) The material is transferred by employees of the person in vehicles under the control of the person or by a registered hazardous waste hauler under contract to the person.

(B) The material is not handled at any interim location not operated by the person.

(C) The material is not held at any publicly accessible interim location for more than four hours.

(D) The material is managed in compliance with the requirements of this chapter and the regulations adopted pursuant to this chapter prior to the initial transportation of the material and after the receipt of the material at the last location operated by the person. Upon receipt of the material at the last location operated by the person, the material shall be deemed to have been generated at that location.

(E) If requested by the department, or by any law enforcement official, a person handling material subject to this paragraph shall, within 15 days of the request, supply documentation to show that the requirements of this paragraph have been satisfied.

(5) The material is both transported and used or reused, as an ingredient in an industrial process to make a product, if the material is not treated before that use or reuse.

(6) The material is a container which meets all of the following requirements:

(A) The container was last used to hold a hazardous material acquired from a supplier of hazardous materials.

(B) The container is empty pursuant to the standards set forth in Section 261.7 of Title 40 of the Code of Federal Regulations.

(C) The container is returned to a supplier of hazardous materials for the purpose of being refilled.

(D) The container is not treated prior to being returned to the supplier of hazardous materials.

(E) The container is not treated by the supplier of hazardous materials except by rinsing.

(F) The container is refilled by the supplier with hazardous material which is compatible with the hazardous material which the container previously held.

(G) The container is handled in accordance with any regulations adopted by the department to implement this paragraph.

(e) Notwithstanding subdivisions (b), (c), and (d), all of the following recyclable materials are hazardous wastes and subject to full regulation under this chapter, even if the recycling involves use, reuse, or return to the original process as described in subdivision (b), or even if the recycling involves activities or materials described in subdivisions (c) and (d):

(1) Materials which are a RCRA hazardous waste, as defined in Section 25120.2, used in a manner constituting disposal, or used to produce products that are applied to the land including, but not limited to, materials used to produce a fertilizer, soil amendment, agricultural mineral, or an auxiliary soil and plant substance. The department may adopt regulations to exclude materials from regulation pursuant to this paragraph.

(2) Materials which are a non-RCRA hazardous waste, as defined in Section 25117.9, and used in a manner constituting disposal or used to produce products that are applied to the land as a fertilizer, soil amendment, agricultural mineral, or an auxiliary soil and plant substance. The department may adopt regulations to exclude materials from regulation pursuant to this paragraph.

(3) Materials burned for energy recovery, used to produce a fuel, or contained in fuels, except materials exempted under paragraph (1) of subdivision (c) or subparagraph (B) or (C) of paragraph (2) of subdivision (d).

(4) Materials accumulated speculatively.

(5) Materials determined to be inherently wastelike pursuant to regulations adopted by the department.

(A) Meet a characteristic or a criterion of a hazardous waste established by the Environmental Protection Agency or the department.

(B) Are listed by the Environmental Protection Agency or the department as a hazardous waste.

(7) Used oil, as defined in subdivision (a) of Section 25250.1, unless one of the following applies:

(A) The used oil meets the definition of recycled oil contained in subdivision (c) of Section 25250.1.

(B) The used oil is exempted under subparagraph (B) or (C) of paragraph (2) of subdivision (d) or under paragraph (4) of subdivision (d) of this section, under subdivision (e) of Section 25250.1, or under Section 25250.3.

(C) The used oil is used or reused on the site where it was generated or is exempt under paragraph (3) of subdivision (d) and, in either situation, is not any of the following:

(i) Used in a manner constituting disposal or used to produce a product that is applied to land.

(ii) Burned for energy recovery or used to produce a fuel, unless

the used oil is exempted under subparagraph (B) or (C) of paragraph (2) of subdivision (d).

(iii) Accumulated speculatively.

(iv) Determined to be inherently wastelike pursuant to regulations adopted by the department.

(f) If the department brings an action to enforce this chapter, any person subject to the action who claims that a certain recyclable material is not a waste or is excluded, exempt, or conditionally exempt, from regulation under this chapter, shall demonstrate to the department that there is a known market or disposition for the material, and that the requirements of any exemption, exclusion, or conditional exemption from this chapter are met, by providing appropriate documentation to demonstrate that the material is not a waste or is excluded, exempt, or conditionally exempt, from regulation. Any person subject to an enforcement action and making this claim shall provide to the department, upon request, the name, street and mailing address, and telephone number of the owner or operator of any facility that manages the material, and any other information related to the management of the material requested by the department. Any owner or operator of a facility subject to an action to enforce this chapter who claims to be recycling materials shall show that the facility has the necessary equipment to recycle the material.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to carry out the state's hazardous waste control program in order to protect public health and safety and the environment, it is necessary that this act take effect immediately.

CHAPTER 541

An act relating to postsecondary education, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature. Filed with Secretary of State August 21, 1990]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) Reading services to the blind in the California State University are inconsistent within the system and in most cases, not enough reading time is provided.

(2) Students very often are restricted in the area of selecting their own readers.

(3) Choice of reading location is not given to the student on some of the campuses. In particular, no off-campus reading is permitted, thus creating a hardship on blind students to complete course assignments within course timelines.

(4) Students should be advised of their rights and responsibilities within the California State University system when first enrolling in school.

(5) The Trustees of the California State University are aware of the above problems and have promised that immediate remedies will be instituted.

(b) The Trustees of the California State University, on or before December 1, 1990, shall submit a report to the Legislature addressing the issue of provision of ample reading hours for blind students. It shall also address the question of allowing the student to select his or her own reader. The report shall also discuss the issue of the student choosing his or her own location of receiving reader services. The

report shall also address the question of students' rights with regard to reading services.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to resolve ongoing problems of blind students attending the California State University at the earliest possible time, it is necessary for this act to take effect immediately.

CHAPTER 542

An act to amend Sections 22352, 22357, and 22358.4 of the Vehicle Code, relating to vehicles.

[Approved by Governor August 24, 1990 Filed with Secretary of State August 27, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Section 22352 of the Vehicle Code is amended to read:

22352. The prima facie limits are as follows and shall be applicable unless changed as authorized in this code and, if so changed, only when signs have been erected giving notice thereof:

(a) Fifteen miles per hour:

(1) When traversing a railway grade crossing, if during the last 100 feet of the approach to the crossing the driver does not have a clear and unobstructed view of the crossing and of any traffic on the railway for a distance of 400 feet in both directions along the railway. This subdivision does not apply in the case of any railway grade crossing where a human flagman is on duty or a clearly visible electrical or mechanical railway crossing signal device is installed but does not then indicate the immediate approach of a railway train or car.

(2) When traversing any intersection of highways if during the last 100 feet of the driver's approach to the intersection the driver does not have a clear and unobstructed view of the intersection and of any traffic upon all of the highways entering the intersection for a distance of 100 feet along all those highways, except at an intersection protected by stop signs or yield right-of-way signs or controlled by official traffic control signals.

(3) On any alley.

(b) Twenty-five miles per hour:

(1) On any highway other than a state highway, in any business or residence district unless a different speed is determined by local authority under procedures set forth in this code.

(2) When passing a school building or the grounds thereof,

contiguous to a highway and posted with a standard "SCHOOL" warning sign, while children are going to or leaving the school either during school hours or during the noon recess period. The prima facie limit shall also apply when passing any school grounds which are not separated from the highway by a fence, gate or other physical barrier while the grounds are in use by children and the highway is posted with a standard "SCHOOL" warning sign.

(3) When passing a senior center or other facility primarily used by senior citizens, contiguous to a street other than a state highway and posted with a standard "SENIOR" warning sign. A local authority is not required to erect any sign pursuant to this paragraph until donations from private sources covering those costs are received and the local agency makes a determination that the proposed signing should be implemented. A local authority may, however, utilize any other funds available to it to pay for the erection of those signs.

SEC. 2. Section 22357 of the Vehicle Code is amended to read:

22357. Whenever a local authority determines upon the basis of an engineering and traffic survey that a speed greater than 25 miles per hour would facilitate the orderly movement of vehicular traffic and would be reasonable and safe upon any street other than a state highway otherwise subject to a prima facie limit of 25 miles per hour, the local authority may by ordinance determine and declare a prima facie speed limit of 30, 35, 40, 45, or 50 miles per hour or a maximum speed limit of 55 miles per hour, whichever is found most appropriate to facilitate the orderly movement of traffic and is reasonable and safe. The declared prima facie or maximum speed limit shall be effective when appropriate signs giving notice thereof are erected upon the street and shall not thereafter be revised except upon the basis of an engineering and traffic survey. This section does not apply to any 25-mile-per-hour prima facie limit which is applicable when passing a school building or the grounds thereof or when passing a senior center or other facility primarily used by senior citizens.

SEC. 3. Section 22358.4 of the Vehicle Code is amended to read:

22358.4. Whenever a local authority determines upon the basis of an engineering and traffic survey that the prima facie speed limit of 25 miles per hour established by paragraph (2) or (3) of subdivision (b) of Section 22352 is more than is reasonable or safe, the local authority may, by ordinance or resolution, determine and declare a prima facie speed limit of 20 or 15 miles per hour, whichever is justified as the appropriate speed limit by such survey. The ordinance or resolution shall not be effective until appropriate signs giving notice of the speed limit are erected upon the highway and, in the case of a state highway, until the ordinance is approved by the Department of Transportation and the appropriate signs are erected upon the highway.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction,

changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(c) The notice of motion for blood tests under subdivision (b) may be filed not later than two years from the child's date of birth by the husband, or for purposes of establishing paternity by the presumed father or the child through or by the child's guardian ad litem.

(d) The notice of motion for blood tests under subdivision (b) may be filed by the mother of the child not later than two years from the child's date of birth if the child's biological father has filed an affidavit with the court acknowledging paternity of the child.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee, if any, is paid, whichever last occurs.

SEC. 2. Section 6796.3 of the Business and Professions Code is amended to read:

6796.3. If the registrant or certificate holder has been practicing in this state with an expired or delinquent license and receives a waiver from taking the examination as specified in subdivision (c) then he or she shall pay all accrued and unpaid renewal fees.

(c) The licensee takes and passes the examination, if any, which would be required if applying for the license for the first time, or otherwise establishes to the satisfaction of the board that, with due regard for the public interest, the licensee is qualified to engage in the practice of land surveying.

An act to amend Section 20603 of, and to add Section 21251.132 to, the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor August 24, 1990 Filed with Secretary of State August 27, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 20603 of the Government Code is amended to read:

20603. (a) The normal rate of contribution for a state miscellaneous member whose service is not included in the federal system shall be 6 percent of the compensation in excess of three hundred seventeen dollars ($317) per month paid that member for service rendered on and after July 1, 1976. The normal rate of contribution for a school member, or a local miscellaneous member shall be 7 percent of the compensation paid that member for service rendered on and after the operative date of the amendments to this section at the 1971 Regular Session.

The normal rate of contribution as established under this subdivision for a member whose service is included in the federal system, and whose service retirement allowance is reduced under Section 21251.13 or Section 21251.132 because of that inclusion, shall be reduced by one-third as applied to compensation not exceeding four hundred dollars ($400) per month for service after the date of

execution of the agreement including service in the federal system and prior to termination of the agreement with respect to the coverage group to which he or she belongs.

(b) The normal rate of contribution for a state miscellaneous member whose service has been included in the federal system shall be 5 percent of compensation in excess of five hundred thirteen dollars ($513) per month paid that member for service rendered on and after July 1, 1976.

(c) The normal rate of contribution for a state miscellaneous member who elects to become subject to Section 21251.146 or Section 21251.147 shall be 0 percent, unless the member subsequently elects to become subject to Section 21251.13, as authorized by subdivision (c) of Section 20013.7. A member who elects to become subject to Section 21251.13 shall contribute at the rate specified in subdivision (a) or (b) of this section, as determined by the member's status with the federal system, and the rate shall be applied from the first of the month following the date of the election. A member who makes the election shall also contribute for service prior to the date the contribution rate was applied, in the manner specified in Section 20813.5. A member who elected to become subject to Section 21251.13 solely for service rendered on or after the effective date of the election, as authorized by subdivision (c) of Section 20013.7 during the period between November 1, 1988, and October 31, 1989, is not required to make the contributions specified in Section 20813.5.

(d) Notwithstanding any other provision of this part, state member contributions on premium compensation for planned overtime paid at the "half-time" rate as part of the regular shift under the federal Fair Labor Standards Act or the Memorandum of Understanding of State Bargaining Units 7 and 8 are waived for the period April 15, 1985, through June 30, 1988.

This subdivision applies to State Bargaining Units 7 and 8 and becomes effective only if the board approves a waiver of employer contributions on the same premium compensation for the same period of time. If this subdivision is approved by the board, benefits shall be calculated to include overtime paid at the one-half time rate.

SEC. 2. Section 21251.132 is added to the Government Code, to read:

21251.132. The combined current and prior service pensions for a local miscellaneous member is a pension derived from the contribution of the employer sufficient, when added to the service retirement annuity that is derived from the accumulated normal contributions of the member at the date of retirement, to equal the fraction of one-fiftieth of the member's final compensation set forth opposite the member's age at retirement, taken to the preceding completed quarter year, in the following table, multiplied by the number of years of current and prior service except service in a category of membership other than that of local miscellaneous member with which the member is entitled to be credited at retirement:

The operative date of this section with respect to a local miscellaneous member shall be the effective date of the amendment to his or her employer's contract electing to be subject to this section.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 550

An act to add Chapter 18 (commencing with Section 77501) to Division 22 of the Food and Agricultural Code, relating to forest products, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 24, 1990 Filed with Secretary of State August 27, 1990]

The people of the State of California do enact as follows:

SECTION 1. Chapter 18 (commencing with Section 77501) is added to Division 22 of the Food and Agricultural Code, to read:

CHAPTER 18. CALIFORNIA FOREST PRODUCTS COMMISSION

Article 1. Declaration and General Provisions

77501. The production and marketing of forest products constitute an important industry of this state; the industry provides substantial and necessary revenues for the state and employment for its citizens.

77502. The maintenance of the forest products industry of California is necessary to ensure the public of a continuous supply of forest products and the maintenance of needed levels of income for those persons engaged in the industry.

77503. The production and marketing of forest products produced in this state is hereby declared to be affected with a public interest. This chapter is enacted in the exercise of the police power of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state.

77504. No action taken by the commission, or by any individual in accordance with this chapter or with the rules and regulations adopted pursuant to this chapter, is a violation of the so-called Cartwright Act (Chapter 2 (commencing with Section 16700) of Part 2 of Division 7 of the Business and Professions Code), the Unfair Practices Act (Chapter 4 (commencing with Section 17000) of that Part 2), or any statutory or common law against monopolies or combinations in restraint of trade.

77505. This chapter shall be liberally construed. If any provision of this chapter or the application thereof to any person or circumstances is held to be invalid, the invalidity shall not affect other provisions or applications of the chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

77506. It is hereby declared as a matter of legislative determination that members of the commission are intended to represent and further the interest of a particular industry concerned

and that this representation and furtherance is intended to serve the public interest. Accordingly, the Legislature finds that, with respect to persons who are elected or appointed to the commission, the particular industry concerned is tantamount to, and constitutes, the public generally within the meaning of Section 87103 of the Government Code.

77507. A commission form of administration created by this chapter is designed to deal with the broad fields of generic product promotion of forest products, public information and education, and research.

Three producers shall be elected by and from producers of 5,000,000 to 20,000,000, inclusive, board feet net Scribner Decimal C log rule, or the equivalent thereof, in the preceding marketing year, three producers shall be elected by and from producers of between 20,000,000 to 100,000,000, inclusive, board feet net Scribner Decimal C log rule, or the equivalent thereof, in the preceding marketing year, and three producers shall be elected by and from producers of over 100,000,000 board feet net Scribner Decimal C log rule, or the equivalent thereof, in the preceding marketing year.

(b) The public member shall be appointed to the commission by the director from the nominees recommended by the commission.

(c) The director, and other appropriate individuals, as determined by the commission, shall serve as ex officio members of the commission.

77542. (a) The director may require the commission to correct or cease any existing activity or function which is determined by the director not to be in the public interest or which is in violation of this chapter.

(b) If the commission refuses or fails to cease these activities or functions or to make corrections required by the director, the director may, upon written notice, suspend all or a portion of the activities or functions of the commission until the cessation or correction of the activities or functions, as required by the director, has been accomplished by the commission.

(c) Any actions of the commission in violation of the written notice are invalid. The director, to the extent feasible, shall issue the written notice prior to the commission entering into any contractual relationship affecting the existing or proposed activities or functions which are the subject of the written notice.

(d) At the same time the written notice is provided to the commission, the director shall notify the commission in writing of the specific acts which the director determines are not in the public interest or are in violation of this chapter, the director's reasons for

requiring a cessation or correction of specific existing or proposed activities or functions, and the director's recommendations with respect to any action that will make the activities or functions acceptable.

77543. The commission or the director may bring an action for judicial relief from the director's written notice, or from noncompliance by the commission with the written notice, as the case may be, in a court of competent jurisdiction, which may issue a temporary restraining order, permanent injunction, or other applicable relief.

77544. When the director is required to concur in a decision of the commission, the director shall concur, refuse to concur, or request additional information from the commission within 15 working days from the date the director receives notification of the decision.

77545. The commission shall reimburse the director for all expenses incurred by the director in carrying out his or her duties and responsibilities pursuant to this chapter. However, a court may, if it finds that the director has acted arbitrarily or capriciously in restricting the activities or functions of the commission, relieve the commission of the responsibility for the payment of the director's legal costs with regard to that action.

77546. An alternate member to each member of the commission, except the ex officio members, shall be elected or appointed in the same manner and for the same term as the member. Except as provided in Section 77551, an alternate member shall, in the absence of the member for whom he or she is an alternate, serve in the place of the member and shall have and exercise all of the rights, privileges, and powers of the member when serving on the commission. In the event the status of a member changes thereby making the member ineligible to serve, or in the event of the death, removal, resignation, or disqualification of a member, the alternate member shall act as a member of the commission until a qualified successor is elected.

77547. Any vacancy on the commission occurring by the failure of any person elected or appointed to or serving on the commission as a member or alternate member to continue in his or her position because of a change in his or her status thereby making the person ineligible to serve, or because of the death, removal, resignation, or disqualification of a member, shall be filled for the unexpired portion of the term by a majority vote of the remaining members of the commission. That person shall possess all of the same qualifications set forth in this article as is required for the person whose office he or she is to occupy.

(c) The public member shall have all the powers, rights, and privileges of any other member of the commission.

77549. The term of office of each member, except the ex officio members, shall be three years, commencing with the beginning of the following marketing year and until a qualified successor is elected.

No member may serve more than two consecutive three-year terms.

77550. The commission shall be and is hereby declared to be a corporate body. It may sue and be sued, enter into contracts, adopt a seal, and have and possess all of the powers of a corporation. Copies of its proceedings, records, and acts when authenticated, shall be prima facie evidence of the truth of all statements therein.

77551. A quorum of the commission shall be six members of whom at least five shall be producer members. Notwithstanding Section 77546, any alternate member may serve in the absence of any member if the member's alternate is also absent and the action is necessary to establish a quorum. Except as provided in Section 77663, the vote of a majority of the members present at a meeting at which there is a quorum constitutes an act of the commission.

77552. The director or his or her representatives shall be notified and may attend each meeting of the commission and any committee meeting of the commission.

77553. No member, alternate member, or member of a committee established by the commission who is a nonmember of the commission, shall receive compensation. The per diem, traveling expenses, and allowances may be paid for each day spent in actual attendance at, or in traveling to and from, meetings of the commission or committees of the commission, or on special assignment for the

commission, as approved by the commission.

77554. All funds received by any person from the assessments levied pursuant this chapter or otherwise received by the commission shall be deposited in banks which the commission may designate and shall be disbursed by order of the commission through an agent designated by the commission for that purpose. The agent shall be bonded by a fidelity bond, executed by a surety company authorized to transact business in this state, in favor of the commission, in the amount of not less than twenty-five thousand dollars ($25,000).

77555. The state is not liable for the acts of the commission or its contracts. Payments of all claims arising by reason of the administration of this chapter or acts of the commission are limited to the funds collected by the commission.

No member of the commission, alternate member, or any employee or agent thereof, is personally liable for the contracts of the commission. No member of the commission, alternate member, or any employee or agent thereof, is responsible individually in any way to any other person for errors in judgment, mistakes, or other acts, either of commission or of omission, as principal, agent, or employee, except for his or her own individual acts of dishonesty or crime. No member of the commission, alternate member, or any employee or agent thereof, is responsible individually for any act or omission of any other member of the commission, alternate member, or any employee or agent thereof.

Liability is several and not joint, and no member of the commission, alternate member, or any employee or agent thereof, is liable for the default of any other member of the commission, alternate member, or any employee or agent thereof.

Article 4. Powers and Duties of the Commission

77571. The powers and duties of the commission include, but are not limited to, all of those specified in this article.

77572. The commission may adopt and, from time to time, alter, rescind, modify, and amend bylaws, regulations, operating procedures, and orders for carrying out this chapter, including regulations for appeals from any bylaw, regulation, operating procedure, or order of the commission.

77573. The commission may administer and enforce this chapter and do and perform all acts and exercise all powers incidental to, or in connection with, or deemed reasonably necessary for, the proper implementation of this chapter.

77574. The commission may appoint its own officers, including a chairperson, one or more vice chairpersons, and other officers as it deems necessary. The officers shall have the powers and duties delegated to them by the commission.

77575. The commission may employ a person to serve at the pleasure of the commission as president and chief executive officer

of the commission, and other personnel, including legal counsel, necessary to carry out this chapter.

If any person employed by the commission engages in any conduct which the director determines is not in the public interest or which is in violation of this chapter, the director shall notify the commission of the conduct and request that corrective and, if appropriate, disciplinary action be taken by the commission. If the commission fails or refuses to correct the situation or to take disciplinary action satisfactory to the director, the director may suspend or discharge the person.

The commission may retain a management firm or the staff from any board, commission, or committee of the state or federal government to perform the functions prescribed by this section under the control of the commission.

77576. The commission may fix the compensation for all of its employees.

77577. The commission may appoint committees composed of both members and nonmembers of the commission to advise the commission in carrying out this chapter.

77578. The commission may establish offices and incur expenses, enter into any and all contracts and agreements, create liabilities, and borrow funds in advance of receipt of assessments as may be necessary, in the opinion of the commission, for the proper administration and enforcement of this chapter and the performance of its duties.

77579. The commission shall keep accurate books, records, and accounts of all of its dealings which shall be subject to an annual audit by an auditing firm selected by the commission with the concurrence of the director.

A summary of the audit shall be reported to all persons subject to this chapter, a copy of which shall also be submitted to the director. In addition, the director may, as he or she determines necessary, conduct or cause to be conducted a fiscal and compliance audit of the commission.

77580. The commission may present facts to, and negotiate with state, federal, and foreign agencies on matters which affect this chapter.

77581. The commission may enter into contracts to receive or render services in formulating and conducting plans and programs and any other contracts or agreements that the commission may deem necessary for carrying out this chapter.

77582. The commission may conduct, and contract with others to conduct, research, including the study, analysis, accumulation, and dissemination of information obtained from the research or elsewhere, regarding this chapter.

77583. The commission may promote the sale of forest products by advertising and other promotional means, including cost sharing advertising, for the purpose of maintaining and expanding present markets and creating new and larger intrastate, interstate, and

foreign markets for forest products and to educate and instruct the public with respect to the use of forest products. The commission may not promote the sale of unprocessed logs in foreign markets or rough-sawn products for remanufacture in foreign markets. Promotional activities for foreign export markets shall be limited exclusively to value-added forest products in finished manufactured form and may not include cants.

77584. The commission may accept contributions or match private, state, or federal funds, and employ or make contributions of funds to other persons or state or federal agencies, for purposes of carrying out this chapter.

77585. The commission may publish and distribute, without charge, bulletins or other communications to persons subject to this chapter.

77586. The commission shall establish an assessment rate to defray its operating costs.

77587. The commission shall adopt an annual budget according to generally accepted accounting practices. The director shall concur in the adoption of the budget prior to the encumbrance of funds, except for any obligations incurred pursuant to Section 77576.

77588. The commission shall submit to the director, for his or her concurrence, an annual statement of contemplated activities authorized pursuant to this chapter.

77589. The commission and the director shall keep confidential and shall not disclose, except when required in a judicial proceeding, all lists in their possession of persons subject to this chapter.

77590. The commission may investigate and prosecute civil violations of this chapter and file complaints with appropriate law enforcement agencies or officers for suspected criminal violations of this chapter.

Article 5. Implementation and Voting Procedures

77601. (a) Within 60 days after the effective date of this chapter, the director shall establish a list of producers, eligible to vote on the implementation of this chapter. In establishing the list, the director may require producers and others to submit the names and mailing addresses of all known producers. The director also may require that the information provided include the volume of timber sold or acquired in the preceding marketing year by persons subject to this chapter or, in the alternative, may establish procedures for receiving the information at the time of the referendum vote specified in Section 77602. The director may also request the assistance of the State Board of Equalization in gathering the information. Notwithstanding any other provision of law, the State Board of Equalization shall provide the director the information which shall be used only for purposes specified in this chapter. The request for the information shall be in writing and the response shall be provided as required under this section within 15 days following the

receipt of the request.

(b) Any producer whose name does not appear on the list may have his or her name placed on the list by filing with the director a signed statement identifying himself or herself as a producer. The absence of a producer's name from the list does not exempt the person from paying assessments and does not invalidate any votes conducted pursuant to this chapter.

(c) Proponents and opponents of the commission may contact producers on the lists in a form and manner prescribed by the director so long as all expenses associated with the contacts are paid in advance.

77602. This chapter, except as necessary to conduct an implementation referendum vote, shall not become operative until the director finds, in a referendum vote conducted by the director, that at least 40 percent of the total number of producers from the list established by the director pursuant to this article participate and that either of the following has occurred:

(a) Sixty-five percent of the producers who voted in the referendum voted in favor of this chapter, and the producers so voting sold or acquired a majority of the total volume of timber in the preceding marketing year by all of the producers who voted in the referendum.

(b) A majority of the producers who voted in the referendum voted in favor of this chapter, and the producers so voting sold or acquired 65 percent or more of the total volume of timber in the preceding marketing year by all of the producers who voted in the referendum.

77603. The director shall establish a period, which shall not be less than 10 days or more than 60 days, to conduct the referendum, and may prescribe additional procedures that may be necessary to conduct the referendum. If the initial period established is less than 60 days, the director may extend the period, except that the total referendum period may not exceed 60 days.

77604. The nonreceipt of a ballot by any producer shall not invalidate a referendum.

77605. If the director finds that a favorable vote has been given as provided in Section 77602, the director shall certify and give notice of the favorable vote to all affected producers whose names and addresses are on file with the director.

77606. If the director finds that a favorable vote has not been given as provided in Section 77602, the director shall certify and declare this chapter inoperative. The director may conduct another implementation referendum vote one year or more after the previous referendum has been held.

77607. Upon certification of the commission, the director shall contact all producers by mail or call meetings of producers for the purpose of nominating and electing persons to the commission. All producers on the director's list shall be provided written notice of any election meetings at least 10 days prior to the meeting date.

To be eligible for election to the commission, nominees are required to present to the director a nomination petition with the signatures of at least three eligible producers from the category of producers specified in Section 77541 from which the nominee is seeking election.

77608. Subsequent to the first election of members and alternate members of the commission pursuant to this chapter, persons to be elected to the commission shall be selected pursuant to nomination and election procedures established by the commission with the approval of the director.

77609. (a) Prior to the referendum vote conducted by the director pursuant to Section 77602, the proponents of the commission shall deposit with the director the amount that the director deems necessary to defray the expenses of preparing the necessary list and information and conducting the vote.

(b) Any funds which are not used to carry out Section 77602 shall be returned to the proponents of the commission who deposited the funds with the director.

(c) Upon the establishment of the commission, the commission may reimburse the proponents of the commission for any funds deposited with the director which were used in carrying out Section 77602 and for any legal expenses and costs incurred in establishing the commission.

Article 6. Assessments and Records

77621. (a) The commission shall establish the assessment for the marketing year not later than January 1 of each year or as soon thereafter as is possible.

(b) The assessment shall not exceed one dollar ($1) per thousand board feet net log scale Scribner Decimal C log rule, or the equivalent thereof, as determined by the commission.

(c) The producer shall pay the assessment to the commission at the time and in the manner prescribed by the commission.

(d) An assessment of more than the amount provided for in subdivision (b) may not be charged unless and until a greater assessment is approved pursuant to the vote requirements specified in Section 77602.

77622. Any person requesting an exemption from this chapter shall file an affidavit with the commission attesting that he or she is not a producer. The affidavit shall contain all of the information required by the commission. The commission shall review the affidavit, conduct any additional investigation it deems appropriate, and approve or deny the affidavit.

77623. Every producer shall keep a complete and accurate record of all transactions involving the sale or purchase of timber. The records shall be in simple form and contain information as the commission shall prescribe. The records shall be retained by the producer for a period of two years and shall be offered and submitted

for inspection at any reasonable time upon written demand of the commission or its duly authorized agent.

77624. (a) All proprietary information obtained by the commission or the director from producers is confidential and shall not be disclosed except when required in a judicial proceeding.

(b) Information on volume shipments, product value, and any other related information which is required for reports to governmental agencies, financial reports to the commission or aggregate sales and inventory information, and any other information which the commission requires that gives only totals, but excludes individual producer information, may be disclosed by the commission.

77625. Any assessment which is levied pursuant to this chapter is a personal debt of every producer so assessed.

77626. Any producer who fails to file a return or pay any assessment within the time required by the commission shall pay to the commission a penalty of 10 percent of the amount of the assessment determined to be due and, in addition, pay 1½ percent interest per month on the unpaid balance.

77627. When the producer is a corporation, all of the directors and officers of the corporation in their capacity as individuals shall be included, and any liability for violating this chapter, including but not limited to, failing to pay assessments or to collect assessments, shall also include identical liability upon each director or officer of the corporation.

Article 7. Actions and Penalties

77641. It is a misdemeanor for any person to do any of the following:

(a) Refuse to render a report, statement, or record required by the commission.

(b) Furnish a false report, statement, or record required by the commission.

(c) Fail or refuse to furnish the commission, or its duly authorized agents, information concerning the names and addresses of persons from whom timber has been received and the quantity so received.

(d) Secrete, destroy, or alter records required to be kept under this chapter.

77642. The commission shall establish procedures for the purpose of granting individuals aggrieved by its actions or determinations an informal hearing before the commission, or before a committee of the commission designated for this purpose. Appeals from decisions of the commission may be made to the director. The determination of the director shall be subject to judicial review upon petition filed with the appropriate superior court.

77643. (a) The commission may commence civil actions and utilize all remedies provided in law or equity for the collection of assessments and civil penalties and for the obtaining of injunctive

relief or specific performance regarding this chapter and the rules and regulations adopted pursuant to this chapter. A court shall issue to the commission any requested writ of attachment or injunctive relief upon a prima facie showing by verified complaint that a named defendant has violated this chapter or any rule or regulation of the commission, including, but not limited to, the nonpayment of assessments. The commission shall not be required to post a bond as a condition for the issuance of any writ of attachment or injunctive relief.

(b) A writ of attachment shall be issued pursuant to Chapter 5 (commencing with Section 485.010) of Title 6.5 of Part 2 of the Code of Civil Procedure, except that the showing specified in Section 485.010 of that code is not required. Injunctive relief shall be granted pursuant to Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the showing of irreparable harm or inadequate remedy at law specified in Sections 526 and 527 of that code is not required.

(c) Upon entry of any final judgment on behalf of the commission against any defendant, the court shall enjoin the defendant from conducting any type of business regarding timber until there is full compliance and satisfaction of the judgment. Upon a favorable judgment for the commission, it is entitled to receive reimbursement for any reasonable attorney's fees and other actual related costs. Venue for these actions may be established at the domicile or place of business of the defendant or in the county of the principal office of the commission. The commission may be sued only in the county of its principal office.

77644. The repeal or suspension and termination of this chapter shall not do any of the following:

(a) Affect or waive any right, duty, obligation, or liability which has arisen or which may thereafter arise in connection with this chapter.

(b) Release or extinguish any violation of this chapter.

(c) Affect or impair any right or remedies of the commission with respect to any violation.

Article 8. Continuation or Suspension and Termination

77661. Between January 1, 2001, and December 31, 2001, inclusive, the commission shall hold a referendum among producers to determine whether the operations of this chapter shall be approved and continued in effect.

There is a favorable vote under this article if the director determines from the referendum that a majority of the eligible producers voting in the referendum voted in favor of continuing the operations of this chapter. If the director finds that a favorable vote has been given, the director shall so certify and this chapter shall remain in effect.

If the director finds that a favorable vote has not been given, the

director shall so certify and declare the operations of this chapter suspended upon the expiration of the marketing season ending December 31, 2001. Thereupon, the operation of the commission shall be concluded and funds distributed in the manner provided in Section 77665. No bond or security shall be required for the referendum.

77662. Following a favorable referendum conducted prior to December 31, 2001, a referendum shall be conducted by the commission every 10 years thereafter unless a referendum is conducted as the result of a petition pursuant to this article. In that case, the referendum shall be every 10th year following the industry petitioned referendum following the procedure specified in Section 77661.

77663. (a) Upon a finding by a two-thirds vote of the commission that the operation of this chapter has not tended to effectuate its declared purposes, the commission may recommend to the director that the operation of this chapter be suspended. However, any suspension shall not become effective until the expiration of the current marketing year.

(b) The director shall, upon receipt of the recommendation, or may, after a public hearing to review a petition filed with the director requesting a suspension signed by not less than 20 percent of the producers who sold or acquired not less than 20 percent of the total volume of timber in the immediately preceding marketing year, hold a referendum among the producers to determine if the operations of the commission shall be suspended. However, the director shall not hold a referendum as a result of the petition, unless the petitioner shows, by a preponderance of the evidence, in a manner prescribed by the director, that the operation of this chapter has not tended to effectuate its declared purposes.

(c) The director shall establish a referendum period, which shall not be less than 10 days or more than 60 days. The director may prescribe additional procedures as may be necessary to conduct the referendum. At the close of the established referendum period, the director shall tabulate the ballots filed during the period. If at least 40 percent of the total number of producers from the list established by the director participate in the referendum, the director shall suspend the operation of this chapter if the director finds either one of the following has occurred:

(1) Sixty-five percent or more of the producers who voted in the referendum voted in favor of suspension, and the producers so voting sold or acquired a majority of the total volume of timber in the preceding marketing year by all of the producers who voted in the referendum.

(2) A majority of the producers who voted in the referendum voted in favor of suspension, and the producers so voting sold or acquired 65 percent or more of the total volume of timber in the preceding marketing year by all of the producers who voted in the referendum.

77664. (a) The director shall terminate the commission at the end of the then current marketing year if the director finds that the termination of the commission is requested in writing, within a 90-day period, by at least 51 percent of the eligible producers that sold or acquired at least 51 percent of the total volume of timber.

(b) The producer originating the request shall file a written notice with the director in a manner that establishes the date the request is initiated. Any person may withdraw his or her name from the petition requesting the termination prior to the time the request is presented to the director.

(c) The signatures to the petition requesting the termination need not all be appended to one sheet of paper. Each producer signing the petition shall specify his or her place of business in a manner that will enable the location to be readily ascertained.

(d) The petition shall bear a copy of the notice of intention to terminate the commission. Signatures shall be secured within the time limit specified in this section.

77665. After the effective date of suspension, the operation of the commission shall be concluded and the funds remaining held by the commission and not required to defray the expenses of concluding and terminating operations of the commission, shall be returned upon a pro rata basis to all producers from whom assessments were collected in the immediately preceding marketing year. However, if the commission finds that the amounts so returnable are so small as to make impractical the computation and remitting of the prorate refund to these producers, the remaining funds shall be withdrawn from the approved depository and paid to an appropriate program conducted by the University of California or the California State University, another state agency, or a federal agency which deals with the purposes of this chapter. If no such program exists, the funds shall be paid to the State Treasury as unclaimed trust funds.

77666. Upon suspension of the operation of this chapter, the commission shall mail a copy of the notice of suspension to all persons affected by the suspension whose names and addresses are on file.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to conduct promotional, public information and

educational, and research programs for timber products as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 554

An act relating to postsecondary education.

[Approved by Governor August 24, 1990 Filed with Secretary of State August 27, 1990]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) California's education system must promote rigorous academic pursuits and provide a wide variety of options for our students. Students should not be forced to remain in high school if they are better able to learn at the college level.

(b) Several states, including Minnesota, Colorado, Florida, Maine, Utah, and Washington, have established a postsecondary enrollment options program, to allow high school students to take postsecondary classes at state expense, regardless of their previous academic performance. The object of the program is to improve educational quality and accountability through market competition, while expanding access to postsecondary education.

(c) Preliminary evidence indicates that the postsecondary enrollment options program has been successful. Challenged by the potential loss of funding and students, the public high schools quadrupled their number of advanced placement courses in a two-year period after the postsecondary enrollment options act became law. The high schools are also developing cooperative relationships with the postsecondary schools, so that college level classes can be taught at the high schools.

SEC. 2. The California Postsecondary Education Commission shall review and assess the existing postsecondary enrollment options program in the various states, to determine if the postsecondary enrollment options program has been successful in achieving its objectives, and if the postsecondary enrollment options program should be implemented in California in the form of an act such as that proposed by Assembly Bill 1620, as introduced in the 1989–90 Regular Session of the Legislature. In conducting this review and assessment, the commission shall:

(a) Identify the opportunities that currently exist in California for high school students to enroll in college level courses, and the number of students who annually take advantage of these opportunities.

(b) Identify the strengths and weaknesses of the postsecondary enrollment options program in each state.

(c) Estimate the financial costs to the state if California implemented a postsecondary enrollment options program similar to the existing models.

(d) Present specific recommendations for implementing all or part of the postsecondary enrollment options program in California,

if, in the judgment of the commission, the program has been successful in other states and it would promote rigorous academic and it would promote rigorous academic pursuits and provide a wide variety of options for students in California.

In preparing the review and assessment, the commission shall consult with an advisory committee appointed by the commission and composed of representatives from public and private schools, colleges, and universities in California. The commission shall submit its report to the Legislature and the Governor on or before February 1, 1992. Funding for the costs associated with this project shall be provided to the commission through the annual budget act.

CHAPTER 555

An act to amend Section 13651 of the Business and Professions Code, relating to petroleum.

[Approved by Governor August 24, 1990. Filed with Secretary of State August 27, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Section 13651 of the Business and Professions Code is amended to read:

13651. (a) On and after January 1, 1985, every service station in this state shall provide, during operating hours, water, compressed air, and a gauge for measuring air pressure, to the public for use in servicing any passenger vehicle, as defined in Section 465 of the Vehicle Code, or any commercial vehicle, as defined in Section 260 of the Vehicle Code, with an unladen weight of 6,000 pounds or less.

(b) (1) On and after January 1, 1990, every service station in this state located within 660 feet of an accessible right-of-way of any interstate or primary highway, as defined in Sections 5215 and 5220, shall provide, during business hours, public restrooms for use by its customers. Service stations shall not charge customers separately for the use of restroom facilities.

(2) The public restroom shall not be temporary or portable but shall be permanent and shall include separate facilities for men and women, each with toilets and sinks suitable for use by persons handicapped in accordance with Section 19955.5 of the Health and Safety Code and Title 24 of the California Code of Regulations and shall be maintained in a clean and sanitary manner.

(3) This subdivision does not apply to service stations which are operational prior to January 1, 1990, and which would be obligated to construct permanent restroom facilities to comply with this subdivision.

(4) For the purposes of this subdivision, "customer" means a person who purchases any product available for sale on the premises

of the service station, including items not related to the repairing or servicing of a motor vehicle.

(c) On and after July 1, 1991, every service station in this state shall display, at a conspicuous place on, at, or near the dispensing apparatus or at or near the point of sale, at least one clearly visible sign showing a list of applicable state and federal fuel taxes per gallon of motor vehicle fuel sold from the dispensing apparatus.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 556

An act to amend Sections 45246 and 88066 of the Education Code, relating to personnel commissions.

[Approved by Governor August 24, 1990. Filed with Secretary of State August 27, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Section 45246 of the Education Code is amended to read:

45246. (a) Within 30 days after adoption of the system the governing board shall publicly announce its intended appointee or appointees, as appropriate, and the appointee or appointees, as appropriate, nominated by its classified employees. As soon after their appointment as practicable but within 30 days, the appointed members shall announce their intended appointee for the third or fifth member, as appropriate. They may consider the recommendations of the governing board, the classified employees, or other concerned citizens. If these members do not announce their intended appointee within the 30-day period, the Executive Officer of the State Personnel Board shall make the appointment.

"Adoption of the system" means, in the case of Section 45221, the day on which a successful election is certified to the governing board or, in the case of Section 45224, the day the governing board approves a motion, order, or resolution to adopt the system regardless of the date specified for operational commencement of the system.

(b) Where a system is already in existence and a vacancy will exist on December 1, by not later than September 30:

(1) The governing board shall publicly announce the name of the person it intends to appoint or reappoint, if the vacancy is its appointee.

(2) The appointee or appointees, as appropriate, of the governing board and the appointee or appointees of the classified employees shall publicly announce the name of the person they intend to appoint, if the vacancy is their appointee.

If the governing board and the classified employees of the district are unable to agree upon a nomination by September 30, the Executive Officer of the State Personnel Board shall make the appointment within 30 days.

(c) Where a system is already in existence and a vacancy in a position nominated by the classified employees will occur, the classified employees shall submit the name of its nominee to the governing board at least 30 days prior to the date on which the vacancy will occur and the governing board shall appoint that nominee to be effective on the date on which the vacancy would occur.

(d) At a board meeting to be held after 30 and within 45 days of the dates specified in subdivision (a) and paragraph (1) of subdivision (b), as the case may be, the governing board in open hearing shall provide the public and employees and employee organizations the opportunity to express their views on the qualifications of those persons recommended by the governing board for appointment.

The board at the time may make its appointment or may make a substitute appointment or recommendation without further notification or public hearing.

In the case of the nominees of the classified employees, the board shall appoint the nominee, unless the classified employees voluntarily withdraw the name of the nominee and submit the name of a new nominee. In the latter case, the board then shall appoint the new nominee.

(e) In the event a vacancy exists because of a failure of the classified employees to agree on a nominee, the board may make an emergency appointment as authorized in subdivision (b) of Section 45248. If there is no personnel director, the board nevertheless may make an emergency interim appointment under this subdivision.

(f) At the next regularly scheduled personnel commission meeting to be held after 30 days from adoption of the system, as specified in subdivision (a), or at the next regularly scheduled personnel commission meeting to be held after 30 days from the day the intended appointee is announced, as specified in paragraph (2) of subdivision (b), as the case may be, the appointee or appointees of the governing board and the appointee or appointees nominated by the classified employees shall, in an open hearing, provide the public and employees and employee organizations the opportunity to express their views on the qualifications of each candidate recommended for the vacancy. Each candidate shall be invited to

this meeting.

The appointee or appointees of the governing board and the appointee or appointees nominated by the classified employees may make their appointment or may make a substitute appointment or recommendation without further notification or public hearing.

SEC. 2. Section 88066 of the Education Code is amended to read:

88066. (a) Within 30 days after adoption of the system the governing board shall publicly announce its intended appointee, and the appointee or appointees, as appropriate, nominated by its classified employees. As soon after their appointment as practicable but within 30 days, the appointed members shall announce their intended appointee for the third or fifth member, as appropriate. They may consider the recommendations of the governing board, the classified employees, or other concerned citizens. If these members do not announce their intended appointee within the 30-day period, the Executive Officer of the State Personnel Board shall make the appointment.

"Adoption of the system" means, in the case of Section 88051, the day on which a successful election is certified to the governing board or, in the case of Section 88054, the day the governing board approves a motion, order, or resolution to adopt the system regardless of the date specified for operational commencement of the system.

(b) Where a system is already in existence and a vacancy will exist on December 1, by not later than September 30:

(1) The governing board shall publicly announce the name of the person it intends to appoint or reappoint, if the vacancy is its appointee.

(2) The appointee or appointees, as appropriate, of the governing board and the appointee or appointees of the classified employees shall publicly announce the name of the person they intend to appoint, if the vacancy is their appointee.

If the governing board and the classified employees of the district are unable to agree upon a nomination by September 30, the Executive Officer of the State Personnel Board shall make the appointment within 30 days.

(c) Where a system is already in existence and a vacancy in a position nominated by the classified employees will occur, the classified employees shall submit the name of its nominee to the governing board at least 30 days prior to the date on which the vacancy will occur and the governing board shall appoint that nominee to be effective on the date on which the vacancy would occur.

(d) At a board meeting to be held after 30 and within 45 days of the dates specified in subdivision (a) and paragraph (1) of subdivision (b), as the case may be, the governing board in open hearing shall provide the public and employees and employee organizations the opportunity to express their views on the qualifications of those persons recommended by the governing board for appointment.

The board at the time may make its appointment or may make a substitute appointment or recommendation without further notification or public hearing.

In the case of the nominees of the classified employees, the board shall appoint the nominee, unless the classified employees voluntarily withdraw the name of the nominee and submit the name of a new nominee. In the latter case, the board shall then appoint the new nominee.

(e) In the event a vacancy exists because of a failure of the classified employees to agree on a nominee, the board may make an emergency appointment as authorized in subdivision (b) of Section 88065. If there is no personnel director, the board may nevertheless make an emergency interim appointment under this subdivision.

(f) At the next regularly scheduled personnel commission meeting to be held after 30 days from adoption of the system, as specified in subdivision (a), or at the next regularly scheduled personnel commission meeting to be held after 30 days from the day the intended appointee is announced, as specified in paragraph (2) of subdivision (b), as the case may be, the appointee or appointees of the governing board and the appointee or appointees nominated by the classified employees shall, in an open hearing, provide the public and employees and employee organizations the opportunity to express their views on the qualifications of each candidate recommended for the vacancy. Each candidate shall be invited to this meeting.

The appointee or appointees of the governing board and the appointee or appointees nominated by the classified employees may make their appointment or may make a substitute appointment or recommendation without further notification or public hearing.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 557

An act to amend Sections 25199.10 and 25199.11 of the Health and Safety Code, relating to hazardous waste.

[Approved by Governor August 24, 1990 Filed with Secretary of State August 27, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 25199.10 of the Health and Safety Code is amended to read:

25199.10. (a) If an appeal is filed pursuant to subdivision (b), (d), or (e) of Section 25199.9, or paragraph (3) of subdivision (c) of Section 25199.9, the Governor or the Governor's designee shall determine within five working days whether the proponent has obtained all permits for the specified hazardous waste facility project which can be obtained before construction from those responsible agencies which are state agencies, and which were obtainable when the appeal was filed. If, because the application for the appeal is incomplete, the Governor or the Governor's designee is unable to determine, within five working days, whether or not the appeal board should be convened, the Governor or the Governor's designee shall return the application for appeal to the proponent or interested party who filed the appeal. The proponent or interested party shall resubmit the completed application for an appeal within 20 calendar days after receiving the returned appeal and if the proponent or interested party fails to do so, the Governor or the Governor's designee shall not reconsider whether to convene an appeal board.

(b) If the Governor or the Governor's designee determines, pursuant to subdivision (a), that the proponent has obtained all permits for the specified hazardous waste facility project which can be obtained before construction from those responsible agencies which are state agencies, or if an appeal is filed pursuant to paragraph (1) of subdivision (c) of Section 25199.9, the Governor or the Governor's designee shall convene an appeal board within 30 days after making that determination or receiving that appeal, by requesting the League of California Cities and the County Supervisors Association of California to each nominate persons for appointment to an appeal board, as specified in paragraphs (6) and (7) of subdivision (c).

(c) An appeal board shall consist of seven members, five of whom shall be the members listed in paragraphs (1) to (5), inclusive, and two of whom shall be separately appointed for each particular appeal, as provided in paragraphs (6) and (7). An appeal board shall consist of the following members:

(1) The State Director of Health Services.

(2) The Chairperson of the State Air Resources Board.

(3) The Chairperson of the State Water Resources Control Board.

(4) A member of a county board of supervisors appointed by the Senate Committee on Rules who shall be selected from the persons nominated by the County Supervisors Association of California. The appointment shall be for a period of four years, but shall terminate earlier if the appointee does not continue in office as a member of a board of supervisors.

(5) A member of a city council appointed by the Speaker of the Assembly who shall be selected from the persons nominated by the League of California Cities. The appointment shall be for a period of four years, but shall terminate earlier if the appointee does not continue in office as a member of a city council.

(6) A member of a county board of supervisors appointed by the Speaker of the Assembly who shall be selected from the persons nominated by the County Supervisors Association of California. The member shall be from the county in which the specified hazardous waste facility project which is the subject of the appeal is located. However, if the member appointed pursuant to paragraph (4) is from the county in which the specified hazardous waste facility project is located, the member appointed pursuant to this paragraph shall not be from that same county. If the appointee appointed pursuant to this paragraph does not continue in office as a member of a board of supervisors for the duration of the appeal for which the appointment was made, the appointment shall terminate and a new appointment shall be made.

(7) A member of a city council appointed by the Senate Committee on Rules who shall be selected from the persons nominated by the League of California Cities. The member shall be from the city in which the specified hazardous waste facility project which is the subject of the appeal is located, or from the city which the Governor or the Governor's designee determines to be the most directly affected by the project if the project is not located in a city. However, if the member appointed under paragraph (5) is from a city in the county in which the specified hazardous waste facility project is located, the member appointed under this paragraph shall be from a city in a different county. If the appointee appointed pursuant to this paragraph does not continue in office as a member of a city council for the duration of the appeal for which the appointment was made, the appointment shall terminate and a new appointment shall be made.

(d) The appeal board shall issue the final decision upon an appeal in writing and the members of the appeal board shall sign the decision.

(e) The State Director of Health Services, the Chairperson of the State Air Resources Board, and the Chairperson of the State Water Resources Control Board may designate an alternate to attend any meetings or hearings of an appeal board in that person's place, except that the alternate may not vote on a final decision on an appeal or sign the written decision in place of the person for whom the person serves as alternate.

(f) The Governor or the Governor's designee shall designate staff to serve the appeal board.

SEC. 2. Section 25199.11 of the Health and Safety Code is amended to read:

25199.11. (a) An appeal board convened by the Governor or the Governor's designee to hear an appeal pursuant to subdivision (b) or (c) of Section 25199.9 shall follow the procedures and requirements specified in this section.

(b) Within 30 days after the Governor or the Governor's designee determines that an appeal board should be convened pursuant to subdivision (b) of Section 25199.9, or paragraph (3) of subdivision (c) of Section 25199.9, the appeal board shall be convened. Within 15 days after the appeal board has been convened, a public hearing shall be held in the city or county where the specified hazardous waste facility project is located. At the hearing, the proponent, and the local agency whose land use decision is being appealed, shall present arguments and evidence to the appeal board concerning whether or not the appeal should be accepted.

(c) Within 15 days after the date of the public hearing specified in subdivision (b), the appeal board shall decide whether or not to accept the appeal. The appeal board may accept an appeal only by an affirmative vote of four members of the appeal board. The appeal board shall make its decision based upon the arguments and evidence presented at the hearing. The appeal board's decision shall be in writing, shall be signed by the members who voted in favor of the decision, and shall state the reasons for accepting or rejecting the appeal. The appeal board may accept the appeal if the arguments and evidence presented at the hearing tend to show that, when the local agency's reasons for disapproving the application for a land use decision are weighed against statewide, regional, or county hazardous waste management policies, goals, and objectives, there are compelling reasons to review the disapproval of the application.

(d) If the appeal board accepts the appeal, within 30 days after this acceptance, the appeal board shall conduct an informal workshop on the subject of the appeal in the city or county where the specified hazardous waste facility project is proposed to be located. Within 45 days following acceptance of the appeal, the appeal board shall also hold a public hearing in the community to hear the arguments and evidence for the purpose of making a tentative decision on the appeal. In issuing a decision pursuant to the hearing, the appeal board shall adopt a rebuttable presumption that the land use decision of the local agency disapproving the application is supported by substantial reasons and that, when these reasons are weighed against statewide, regional, or county hazardous waste management policies, goals, and objectives, the reasons for reversing the local agency's action are not compelling. In all matters related to the appeal, including, but not limited to, matters related to the findings required by subdivision (f), the burden of proof shall be with the proponent to rebut this presumption and to establish that

there are compelling reasons to reverse the local agency's land use decision.

(e) Within 45 days after the public hearing, the appeal board shall, by an affirmative vote of at least four members, issue a written decision on the appeal. If the appeal board agrees with the land use decision of the local agency, the appeal board shall state its reasons for this position. If the appeal board agrees with the proponent's appeal, the appeal board shall issue a tentative decision stating that the local agency's land use decision should be reversed.

(f) The appeal board shall not reverse the local agency's land use decision unless the appeal board makes all of the following findings:

(1) That the significant environmental impacts of the specified hazardous waste facility project will be adequately mitigated.

(2) That the specified hazardous waste facility project was consistent with the applicable city or county general plan when the local agency accepted, as complete, the proponent's application for a land use decision. For the purpose of this finding, a project is consistent with the applicable city or county general plan if the appeal board makes one of the following determinations:

(A) The appeal board may determine that a specified hazardous waste facility project that is not a land disposal facility project is consistent with the general plan if the appeal board makes all of the following findings:

(i) The project is proposed to be located in an area zoned and designated in the applicable general plan for industrial use and substantially developed with other industrial facilities which produce, treat, or dispose of hazardous waste onsite and which are served by the same transportation routes as the proposed facility. In addition, the land uses authorized in the applicable general plan and zoning ordinances in the vicinity of the project are compatible with the project.

(ii) There is no clear and express provision in the general plan which states that such a specified hazardous waste facility project is inconsistent with the general plan, or, if there is such a provision, the provision was adopted after January 1, 1983.

(iii) The specified hazardous waste project is consistent, as determined by the appeal board, with the general plan.

(B) The appeal board may determine that a specified hazardous waste facility project is consistent with the applicable city or county general plan if the project is a land disposal facility project, and if all of the following apply:

(i) There is no clear and express provision in the general plan that states that such a specified hazardous waste facility project is inconsistent with the general plan, or, if there is such a provision, the provision was adopted after January 1, 1983.

(ii) The project is consistent, as determined by the appeal board, with the general plan.

(3) That the specified hazardous waste facility is consistent with the county hazardous waste management plan, if such a plan has

been adopted by the county, and approved by the department, pursuant to Article 3.5 (commencing with Section 25135).

(4) That alternative locations for the specified hazardous waste facility project, as identified in the environmental impact report for the project and in the county hazardous waste management plan, if one has been approved by the department, have been adequately considered by the appeal board in determining the appropriateness of the location chosen for the project.

(5) That reversing the local agency's land use decision is consistent with statewide, regional, and county hazardous waste management policies, goals, and objectives. In making this finding, the appeal board shall consider all of the following factors:

(A) Whether or not a need for the specified hazardous waste facility project has been demonstrated.

(B) Whether or not the specified hazardous waste facility project is of a type, and in a location, that conforms to statewide, regional, or local hazardous waste management policies.

(C) Whether or not the specified hazardous waste facility will be operated using the best feasible hazardous waste management technologies.

(g) The local agency whose land use decision is being appealed may reconsider the action and approve the application for the land use decision, consistent with the appeal board's tentative decision, within 60 days after the appeal board issues its tentative decision. If the local agency does not approve the application for the land use decision consistent with the tentative decision within 60 days after the decision is issued, the appeal board shall, by an affirmative vote of at least four members, issue a final decision. If the final decision reverses the local agency's land use decision, the appeal board shall then require the local agency to approve the application for the land use decision and if the local agency does not approve the application for the land use decision, the Attorney General shall bring an action to require the local agency to approve the application for the land use decision for the specified hazardous waste facility project.

An act to amend Section 1091 of the Government Code, relating to public officers and employees.

[Approved by Governor August 29, 1990. Filed with Secretary of State August 29, 1990.]

SECTION 1. Section 1091 of the Government Code is amended to read:

1091. (a) An officer shall not be deemed to be interested in a contract entered into by a body or board of which the officer is a member within the meaning of this article if the officer has only a remote interest in the contract and if the fact of that interest is disclosed to the body of the board of which the officer is a member and noted in its official records, and thereafter the body or board authorizes, approves, or ratifies the contract in good faith by a vote of its membership sufficient for the purpose without counting the vote or votes of the officer or member with the remote interest.

(b) As used in this article, "remote interest" means any of the following:

(1) That of an officer or employee of a nonprofit corporation, except as provided in paragraph (8) of subdivision (a) of Section 1091.5.

(2) That of an employee or agent of the contracting party, if that contracting party has 10 or more other employees and if the officer was an employee or agent of that contracting party for at least three years prior to the officer initially accepting his or her office.

For purposes of this paragraph, time of employment with the contracting party by the officer shall be counted in computing the three-year period specified in this paragraph even though the contracting party has been converted from one form of business organization to a different form of business organization within three years of the initial taking of office by the officer. Time of employment in that case shall be counted only if, after the transfer or change in organization, the real or ultimate ownership of the contracting party is the same or substantially similar to that which existed before the transfer or change in organization. For purposes of this paragraph, stockholders, bondholders, partners, or other persons holding an interest in the contracting party are regarded as having the "real or ultimate ownership" of the contracting party.

(3) That of an employee or agent of the contracting party, if all of the following conditions are met:

(A) The agency of which the person is an officer is a local public agency located in a county with a population of less than 4,000,000.

(B) The contract is competitively bid and is not for personal services.

(C) The employee or agent is not in a primary management capacity with the contracting party, is not an officer or director of the contracting party, and holds no ownership interest in the contracting party.

(D) The contracting party has 10 or more other employees.

(E) The employee or agent did not directly participate in formulating the bid of the contracting party.

(F) The contracting party is the lowest responsible bidder.

(4) That of a parent, spouse, sibling, or child of the contracting party.

(5) That of a landlord or tenant of the contracting party.

(6) That of an attorney of the contracting party or that of an owner, officer, employee, or agent of a firm which renders, or has rendered, service to the contracting party in the capacity of stockbroker, insurance agent, insurance broker, real estate agent, or real estate broker, if these individuals have not received and will not receive remuneration, consideration, or a commission as a result of the contract.

(7) That of a member of a nonprofit corporation formed under the Food and Agricultural Code or a nonprofit corporation formed under the Corporations Code for the sole purpose of engaging in the merchandising of agricultural products or the supplying of water.

(8) That of a supplier of goods or services when those goods or services have been supplied to the contracting party by the officer for at least five years prior to his or her election or appointment to office.

(9) That of a person subject to the provisions of Section 1090 in any contract or agreement entered into pursuant to the provisions of the California Land Conservation Act of 1965.

(10) That of an officer, director, or employee of a bank, bank holding company, or savings and loan association with which a party to the contract has the relationship of borrower or depositor, debtor or creditor.

(11) That of an engineer, geologist, or architect employed by a consulting engineering or architectural firm. This paragraph applies only to an employee of a consulting firm who does not serve in a primary management capacity, and does not apply to an officer or director of a consulting firm.

(12) That of an elected officer otherwise subject to Section 1090, in any housing assistance payment contract entered into pursuant to Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f) as amended, provided that the housing assistance payment contract was in existence before Section 1090 became applicable to the officer and will be renewed or extended only as to the existing tenant, or, in a jurisdiction in which the rental vacancy rate is less than 5 percent, as to new tenants in a unit previously under a Section 8 contract. This section applies to any person who became a public official on or after November 1, 1986.

(c) This section is not applicable to any officer interested in a

contract who influences or attempts to influence another member of the body or board of which he or she is a member to enter into the contract.

(d) The willful failure of an officer to disclose the fact of his or her interest in a contract pursuant to this section is punishable as provided in Section 1097. That violation does not void the contract unless the contracting party had knowledge of the fact of the remote interest of the officer at the time the contract was executed.

CHAPTER 566

An act to amend Sections 369 and 739 of the Welfare and Institutions Code, relating to minors.

[Approved by Governor August 29, 1990 Filed with Secretary of State August 29, 1990]

The people of the State of California do enact as follows:

SECTION 1. Section 369 of the Welfare and Institutions Code is amended to read:

369. (a) Whenever any person is taken into temporary custody under Article 7 (commencing with Section 305) and is in need of medical, surgical, dental, or other remedial care, the probation officer may, upon the recommendation of the attending physician and surgeon or, if the person needs dental care and there is an attending dentist, the attending dentist, authorize the performance of the medical, surgical, dental, or other remedial care. The probation officer shall notify the parent, guardian, or person standing in loco parentis of the person, if any, of the care found to be needed before that care is provided, and if the parent, guardian, or person standing in loco parentis objects, such care shall be given only upon order of the court in the exercise of its discretion.

(b) Whenever it appears to the juvenile court that any person concerning whom a petition has been filed with the court is in need of medical, surgical, dental, or other remedial care, and that there is no parent, guardian, or person standing in loco parentis capable of authorizing or willing to authorize the remedial care or treatment for that person, the court, upon the written recommendation of a licensed physician and surgeon or, if the person needs dental care, a licensed dentist, and after due notice to the parent, guardian, or person standing in loco parentis, if any, may make an order authorizing the performance of the necessary medical, surgical, dental, or other remedial care for that person.

(c) Whenever a dependent child of the juvenile court is placed by order of the court within the care and custody or under the supervision of the probation officer of the county in which the dependent child resides and it appears to the court that there is no

parent, guardian, or person standing in loco parentis capable of authorizing or willing to authorize medical, surgical, dental, or other remedial care or treatment for the dependent child, the court may, after due notice to the parent, guardian, or person standing in loco parentis, if any, order that the probation officer may authorize the medical, surgical, dental, or other remedial care for the dependent child, by licensed practitioners, as may from time to time appear necessary.

(d) Whenever it appears that a minor otherwise within subdivision (a), (b), or (c) requires immediate emergency medical, surgical, or other remedial care in an emergency situation, that care may be provided by a licensed physician and surgeon or, if the minor needs dental care in an emergency situation, by a licensed dentist, without a court order and upon authorization of a probation officer. The probation officer shall make reasonable efforts to obtain the consent of, or to notify, the parent, guardian, or person standing in loco parentis prior to authorizing emergency medical, surgical, dental, or other remedial care. "Emergency situation," for the purposes of this subdivision means a minor requires immediate treatment for the alleviation of severe pain or an immediate diagnosis and treatment of an unforeseeable medical, surgical, dental, or other remedial condition or contagious disease which if not immediately diagnosed and treated, would lead to serious disability or death.

(e) In any case in which the court orders the performance of any medical, surgical, dental, or other remedial care pursuant to this section, the court may also make an order authorizing the release of information concerning that care to probation officers, parole officers, or any other qualified individuals or agencies caring for or acting in the interest and welfare of the minor under order, commitment, or approval of the court.

(f) Nothing in this section shall be construed as limiting the right of a parent, guardian, or person standing in loco parentis, who has not been deprived of the custody or control of the minor by order of the court, in providing any medical, surgical, dental, or other remedial treatment recognized or permitted under the laws of this state.

(g) The parent of any person described in this section may authorize the performance of medical, surgical, dental, or other remedial care provided for in this section notwithstanding his or her age or marital status. In nonemergency situations the parent authorizing the care shall notify the other parent prior to the administration of such care.

SEC. 2. Section 739 of the Welfare and Institutions Code is amended to read:

739. (a) Whenever any person is taken into temporary custody under Article 15 (commencing with Section 625) and is in need of medical, surgical, dental, or other remedial care, the probation officer may, upon the recommendation of the attending physician and surgeon or, if the person needs dental care and there is an

attending dentist, the attending dentist, authorize the performance of that medical, surgical, dental, or other remedial care. The probation officer shall notify the parent, guardian, or person standing in loco parentis of the person, if any, of the care found to be needed before the care is provided, and if the parent, guardian, or person standing in loco parentis objects, such care shall be given only upon order of the court in the exercise of its discretion.

(b) Whenever it appears to the juvenile court that any person concerning whom a petition has been filed with the court is in need of medical, surgical, dental, or other remedial care, and that there is no parent, guardian, or person standing in loco parentis capable of authorizing or willing to authorize the remedial care or treatment for that person, the court, upon the written recommendation of a licensed physician and surgeon or, if the person needs dental care, a licensed dentist, and after due notice to the parent, guardian, or person standing in loco parentis, if any, may make an order authorizing the performance of the necessary medical, surgical, dental, or other remedial care for that person.

(c) Whenever a ward of the juvenile court is placed by order of the court within the care and custody or under the supervision of the probation officer of the county in which the ward resides and it appears to the court that there is no parent, guardian, or person standing in loco parentis capable of authorizing or willing to authorize medical, surgical, dental, or other remedial care or treatment for the ward, the court may, after due notice to the parent, guardian, or person standing in loco parentis, if any, order that the probation officer may authorize the medical, surgical, dental, or other remedial care for the ward by licensed practitioners, as may from time to time appear necessary.

(d) Whenever it appears that a minor otherwise within subdivision (a), (b), or (c) requires immediate emergency medical, surgical, or other remedial care in an emergency situation, that care may be provided by a licensed physician and surgeon or, if the minor needs dental care in an emergency situation, by a licensed dentist, without a court order and upon authorization of a probation officer. The probation officer shall make reasonable efforts to obtain the consent of, or to notify, the parent, guardian, or person standing in loco parentis prior to authorizing emergency medical, surgical, dental, or other remedial care. "Emergency situation," for the purposes of this subdivision means a minor requires immediate treatment for the alleviation of severe pain or an immediate diagnosis and treatment of an unforeseeable medical, surgical, dental, or other remedial condition or contagious disease which if not immediately diagnosed and treated, would lead to serious disability or death.

(e) In any case in which the court orders the performance of any medical, surgical, dental, or other remedial care pursuant to this section, the court may also make an order authorizing the release of information concerning that care to probation officers, parole

officers, or any other qualified individuals or agencies caring for or acting in the interest and welfare of the minor under order, commitment, or approval of the court.

(f) Nothing in this section shall be construed as limiting the right of a parent, guardian, or person standing in loco parentis, who has not been deprived of the custody or control of the minor by order of the court, in providing any medical, surgical, dental, or other remedial treatment recognized or permitted under the laws of this state.

(g) The parent of any person described in this section may authorize the performance of medical, surgical, dental, or other remedial care provided for in this section notwithstanding his or her age or marital status. In nonemergency situations the parent authorizing the care shall notify the other parent prior to the administration of such care.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

The people of the State of California do enact as follows:

SECTION 1. Section 1108 of the Corporations Code is amended to read:

1108. (a) The merger of any number of domestic corporations with any number of foreign corporations may be effected if the foreign corporations are authorized by the laws under which they are formed to effect such a merger. The surviving corporation may be any one of the constituent corporations and shall continue to exist under the laws of the state or place of its incorporation.

(b) If the surviving corporation is a domestic corporation, the merger proceedings with respect to that corporation and any domestic disappearing corporation shall conform to the provisions of

this chapter governing the merger of domestic corporations, but if the surviving corporation is a foreign corporation, then, subject to the requirements of subdivision (d) and of Section 407 and Chapters 12 (commencing with Section 1200) and 13 (commencing with Section 1300) (with respect to any domestic constituent corporations), the merger proceedings may be in accordance with the laws of the state or place of incorporation of the surviving corporation.

(c) If the surviving corporation is a domestic corporation, the agreement and the officers' certificate of each domestic or foreign constituent corporation shall be filed as provided in Section 1103, or the certificate of ownership shall be filed as provided in Section 1110, and thereupon, subject to subdivision (c) of Section 110, the merger shall be effective as to each domestic constituent corporation; and each foreign disappearing corporation which is qualified for the transaction of intrastate business shall by virtue of the filing automatically surrender its right to transact intrastate business.

(d) If the surviving corporation is a foreign corporation, the merger shall become effective in accordance with the law of the jurisdiction in which it is organized, but, except as provided in subdivision (e), the merger shall be effective as to any domestic disappearing corporation as of the time of effectiveness in the foreign jurisdiction upon the filing in this state as required by this subdivision. There shall be filed as to the domestic disappearing corporation or corporations the documents described in any one of the following paragraphs:

(2) An executed counterpart of the agreement, certificate or other document filed by the surviving foreign corporation in the state or place of its incorporation for the purpose of effecting the merger.

(3) A copy of the agreement of merger with an officers' certificate of the surviving foreign corporation and of each constituent domestic corporation attached, which officers' certificates shall conform to the requirements of Section 1103.

(4) A certificate of ownership pursuant to Section 1110.

(e) If the date of the filing in this state pursuant to subdivision (d) is more than six months after the time of the effectiveness in the foreign jurisdiction, or if the powers of the domestic corporation are suspended at the time of effectiveness in the foreign jurisdiction, the merger shall be effective as to the domestic disappearing corporation or corporations as of the date of filing in this state. Each foreign disappearing corporation that is qualified for the transaction of intrastate business shall automatically by the filing pursuant to subdivision (d) surrender its right to transact intrastate business as

of the date of filing in this state regardless of the time of effectiveness as to a domestic disappearing corporation.

(f) The provisions of the last two sentences of Section 1101 and Chapters 12 (commencing with Section 1200) and 13 (commencing with Section 1300) apply to the rights of the shareholders of any of the constituent corporations which are domestic corporations and of any domestic corporation which is a parent party of any foreign constituent corporation.

23208. (a) Any person who drives a vehicle 30 or more miles per hour over the maximum, prima facie, or posted speed limit on a freeway, or 20 or more miles per hour over the maximum, prima facie, or posted speed limit on any other street or highway, and in a manner prohibited by Section 23103 during the commission of a violation of Section 23152 or 23153 shall, in addition to the punishment prescribed for that person upon conviction of a violation of Section 23152 or 23153, be punished by an additional and consecutive term of 60 days in the county jail.

(b) If the court grants probation or suspends the execution of sentence, it shall require as a condition of probation or suspension that the defendant serve 60 days in the county jail, in addition and consecutive to any other sentence prescribed by this chapter.

(c) On a first conviction under this section, the court shall order the driver to participate in, and successfully complete, an alcohol or drug education and counseling program, or both an alcohol and a drug education and counseling program. Except in unusual cases where the interests of justice would be served, a finding making this section applicable to a defendant shall not be stricken pursuant to Section 1385 of the Penal Code or any other provision of law. If the court decides not to impose the additional and consecutive term, it shall specify on the court record the reasons for that order.

(d) The additional term provided in this section shall not be imposed unless the facts of driving in a manner prohibited by Section 23103 and driving the vehicle 30 or more miles per hour over the

maximum, prima facie, or posted speed limit on a freeway, or 20 or more miles per hour over the maximum, prima facie, or posted speed limit on any other street or highway, are charged in the accusatory pleading and admitted or found to be true by the trier of fact. A finding of driving in that manner shall be based on facts in addition to the fact that the defendant was driving while under the influence of alcohol, any drug, or both, or with a specified percentage of alcohol in the blood.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

However, the court may extend the time not more than 10 days for the purpose of hearing or determining any motion for a new trial, or in arrest of judgment, and may further extend the time until the probation officer's report is received and until any proceedings for granting or denying probation have been disposed of. If, in the opinion of the court, there is a reasonable ground for believing a defendant insane, the court may extend the time for pronouncing sentence until the question of insanity has been heard and determined, as provided in this code. If the court orders defendant placed in a diagnostic facility pursuant to Section 1203.03, the time otherwise allowed by this section for pronouncing judgment is extended by a period equal to (1) the number of days which elapse between the date of the order and the date on which notice is received from the Director of Corrections advising whether or not the Department of Corrections will receive defendant in the facility, and (2) if the director notifies the court that it will receive the defendant, the time which elapses until his or her return to the court from the facility.

CHAPTER 573

An act to add Article 5u (commencing with Section 998.098) to Chapter 6 of Division 4 of the Military and Veterans Code, relating to the financing of a program to provide farm and home aid for veterans in accordance with the Veterans' Farm and Home Purchase Act of 1974, and acts amendatory thereof and supplemental thereto, through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 30, 1990. Filed with Secretary of State August 30, 1990]

The people of the State of California do enact as follows:

SECTION 1. Article 5u (commencing with Section 998.098) is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 5u. Veterans' Bond Act of 1990

998.098. This article may be cited as the Veterans' Bond Act of 1990.

998.099. (a) The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), except as otherwise provided herein, is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this article, and the provisions of that law are included in this article as though set out in full in this article. All references in this article to "herein" refer both to this article and that law.

(b) For purposes of the State General Obligation Bond Law, the Department of Veterans Affairs is designated the board.

998.100. As used herein, the following words have the following meanings:

(a) "Bond" means veterans' bond, a state general obligation bond, issued pursuant to this article adopting the provisions of the State General Obligation Bond Law.

(b) "Committee" means the Veterans' Finance Committee of 1943, created by Section 991.

(c) "Board" means the Department of Veterans Affairs.

(d) "Fund" means the Veterans' Farm and Home Building Fund of 1943, created by Section 988.

(e) "Bond act" means this article authorizing the issuance of state general obligation bonds and adopting the State General Obligation Bond Law by reference.

998.101. For the purpose of creating a fund to provide farm and home aid for veterans in accordance with the Veterans' Farm and

Home Purchase Act of 1974 (Article 3.1 (commencing with Section 987.50)), and of all acts amendatory thereof and supplemental thereto, the committee may create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of not more than four hundred million dollars ($400,000,000), exclusive of refunding bonds, in the manner provided herein.

998.102. (a) All bonds authorized by this article, when duly sold and delivered as provided herein, constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof.

(b) There shall be collected annually in the same manner and at the same time as other state revenue is collected a sum of money, in addition to the ordinary revenues of the state, sufficient to pay the principal of, and interest on, these bonds as provided herein, and all officers required by law to perform any duty in regard to the collection of state revenues shall collect this additional sum.

(c) On the dates on which funds are remitted pursuant to Section 16676 of the Government Code for the payment of the then maturing principal of, and interest on, the bonds in each fiscal year, there shall be returned to the General Fund all of the money in the fund, not in excess of the principal of, and interest on, any bonds then due and payable, except as herein provided for the prior redemption of the bonds. If the money so returned on the remittance dates is less than the principal and interest then due and payable, the balance remaining unpaid shall be returned to the General Fund out of the fund as soon as it shall become available, together with interest thereon from the dates of maturity until so returned, at the same rate of interest as borne by the bonds, compounded semiannually.

998.103. There is hereby appropriated from the General Fund, for purposes of this article, a sum of money that will equal both of the following:

(a) That sum annually necessary to pay the principal of, and the interest on, the bonds issued and sold as provided herein, as that principal and interest become due and payable.

(b) That sum necessary to carry out Section 998.104, appropriated without regard to fiscal years.

998.104. For purposes of this article, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of a sum of money not to exceed the amount of the unsold bonds which have been authorized by the committee to be sold pursuant to this article. Any sums withdrawn shall be deposited in the fund. All money made available under this section to the board shall be returned by the board to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from the sale of bonds for the purpose of carrying out this article.

998.105. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account,

in accordance with Section 16312 of the Government Code, for the purposes of carrying out this chapter. The amount of the request shall not exceed the amount of unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter. The board shall execute whatever documents are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

998.106. Upon request of the board, supported by a statement of its plans and projects approved by the Governor, the committee shall determine whether to issue any bonds authorized under this article in order to carry out the board's plans and projects, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out these plans and projects progressively, and it is not necessary that all the bonds be issued or sold at any one time.

998.107. So long as any bonds authorized under this article are outstanding, the Director of Veterans Affairs shall, at the close of each fiscal year, require a survey of the financial condition of the Division of Farm and Home Purchases, together with a projection of the division's operations, to be made by an independent public accountant of recognized standing. The results of each survey and projection shall be reported in writing by the public accountant to the Director of Veterans Affairs, the California Veterans Board, and the committee.

The Division of Farm and Home Purchases shall reimburse the public accountant for these services out of any money which the division may have available on deposit with the Treasurer.

998.108. The committee may authorize the Treasurer to sell all or any part of the bonds authorized by this article at the time or times fixed by the Treasurer.

Whenever the committee deems it necessary for an effective sale of the bonds, the committee may authorize the Treasurer to sell any issue of bonds at less than their par value, notwithstanding Section 16754 of the Government Code. However, the discount on the bonds shall not exceed 3 percent of the par value thereof.

998.109. Out of the first money realized from the sale of bonds as provided herein, there shall be redeposited in the General Obligation Bond Expense Revolving Fund, established by Section 16724.5 of the Government Code, the amount of all expenditures made for the purposes specified in that section, and this money may be used for the same purpose and repaid in the same manner whenever additional bond sales are made.

998.110. Any bonds issued and sold pursuant to this article may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. The approval of the voters for the issuance of bonds under this article includes approval for the issuance of bonds issued to refund bonds originally issued or any previously issued

refunding bonds.

998.111. Notwithstanding any provision of the bond act, if the Treasurer sells bonds under this article for which bond counsel has issued an opinion to the effect that the interest on the bonds is excludable from gross income for purposes of federal income tax, subject to any conditions which may be designated, the Treasurer may establish separate accounts for the investment of bond proceeds and for the earnings on those proceeds, and may use those proceeds or earnings to pay any rebate, penalty, or other payment required by federal law or take any other action with respect to the investment and use of bond proceeds required or permitted under federal law necessary to maintain the tax-exempt status of the bonds or to obtain any other advantage under federal law on behalf of the funds of this state.

998.112. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this article are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by Article XIII B.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the people of the Veterans' Bond Act of 1990, as set forth in Section 1 of this act.

SEC. 3. (a) Notwithstanding Sections 3525, 3528, 3529, 3560, 3578, and 10218 of the Elections Code or any other provisions of law, Section 1 of this act shall be submitted to the voters at the November 6, 1990, general election.

(b) The Secretary of State shall ensure the placement of Section 1 of this act on the November 6, 1990, general election ballot, in substantial compliance with any statutory time requirements applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 1 of this act as expeditiously as possible, but not later than two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 1 of this act as expeditiously as possible, but not later than five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot

pamphlet shall, notwithstanding Section 3578 of that code, be mailed at least 14 days before the election.

SEC. 4. Notwithstanding any other provision of law, all ballots at the election shall have printed thereon, in a square, the words: " Veterans' Bond Act of 1990," and in the same square, under the words, the following in 8-point type: "This act provides for a bond issue of four hundred million dollars ($400,000,000) to provide farm and home aid for California veterans." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting of the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the Veterans' Bond Act of 1990 may be included on the November 6, 1990, statewide ballot in furtherance of an orderly program of providing farm and home purchase benefits to California veterans, it is necessary that this act take effect immediately.

(b) Allocations made pursuant to subdivision (a) may be issued as mortgage revenue bonds at any time by the California Housing Finance Agency in compliance with federal law.

CHAPTER 575

An act to add Chapter 14.6 (commencing with Section 67358) to Part 40 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1990 Filed with Secretary of State September 5, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 14.6 (commencing with Section 67358) is added to Part 40 of the Education Code, to read:

CHAPTER 14.6. HIGHER EDUCATION FACILITIES BOND ACT OF NOVEMBER 1990

Article 1. General Provisions

67358. This chapter shall be known and may be cited as the Higher Education Facilities Bond Act of November 1990.

67358.1. The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California containing nine campuses, the California State University containing 20 campuses, the California Community Colleges consisting of 71 districts containing 107 campuses, the Hastings College of the Law, the California Maritime Academy, and their respective off-campus centers. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs. Those studies demonstrate that the long-term and short-term needs total, in the aggregate, several billion dollars.

(d) The purpose of the Higher Education Facilities Bond Act of November 1990 is to assist in meeting the capital outlay financing needs of California's public higher education system.

67358.2. As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the Higher Education Facilities Finance Committee created pursuant to Section 67353.

(b) "Fund" means the 1990 Higher Education Capital Outlay

Bond Fund created pursuant to Section 67358.3.

Article 2. Higher Education Facilities Bond Act Program

67358.3. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1990 Higher Education Capital Outlay Bond Fund, which is hereby created.

67358.4. (a) The committee shall be and is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of funding aid to the University of California, the California State University, the California Community Colleges, the Hastings College of the Law, and the California Maritime Academy for the construction, including the construction of buildings and the acquisition of related fixtures, the construction or improvement of off-campus facilities of the California State University approved by the Trustees of the California State University on or before July 1, 1990, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, and for the equipping of new, renovated, or reconstructed facilities, and to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings. The addition of the Hastings College of the Law to this section is not intended to mark a change from the funding authorizations made by Section 67354, as contained in the Higher Education Facilities Bond Act of 1986, or Section 67334, as contained in the Higher Education Facilities Bond Act of 1988, but is intended to more clearly state what was intended by the Legislature in those sections as well.

(b) Moneys made available under Section 67359 or 67359.2 may be used to provide short-term loans to community colleges for the purchase of instructional equipment. Those loans shall be repaid from the first moneys available in the Capital Outlay Fund for Public Higher Education beginning in the 1990–91 fiscal year, or from proceeds of the bonds.

Article 3. Fiscal Provisions

67358.5. (a) Bonds in the total amount of four hundred fifty million dollars ($450,000,000), not including the amount of any refunding bonds issued in accordance with Section 67359.3, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the committee at any different times necessary to service expenditures required by the apportionments.

67358.6. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law shall apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter. For purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the bond fund is designated as the "board" for projects funded by those appropriations.

67358.7. The committee shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 67358.4 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

67358.8. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

67358.9. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 67359, appropriated without regard to fiscal years.

67359. For the purposes of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, together with interest at the rate paid on moneys in the Pooled Money Investment Account, from money received from the sale of bonds for

the purpose of carrying out this chapter.

No funds shall be expended pursuant to this chapter for the acquisition and development of new campuses which would increase the number of campuses designated in Section 67358.1.

67359.1. All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

67359.2. The board may request the Pooled Money Investment Board for a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, and may execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. The loan shall be deposited in the fund for the purpose of carrying out the provisions of this chapter. The amount of the loan shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purposes of this chapter.

67359.3. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance and sale or exchange of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. The approval by the electors of this state of the issuance and sale of bonds under this chapter includes approval of the issuance and sale or exchange of any bonds issued to refund either those bonds or any previously issued refunding bonds.

67359.4. Notwithstanding any provision of this chapter or the State General Obligation Bond Law set forth in Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes under designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and the investment earnings on these proceeds, and the Treasurer shall be authorized to use or direct the use of these proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or to take any other action with respect to the investment and use of bond proceeds require or desirable under federal law so as to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the voters of the Higher Education Facilities Bond Act of November 1990, set forth in Section 1 of this act.

SEC. 3. (a) Notwithstanding Sections 3525, 3528, 3529, 3560, 3578, and 10218 of the Elections Code or any other provisions of law, Section 1 of this act shall be submitted to the voters at the November 6, 1990, general election.

(b) The Secretary of State shall ensure the placement of Section 1 of this act on the November 6, 1990, general election ballot, in

substantial compliance with any statutory time requirements applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 1 of this act within two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 1 of this act within five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of that code, be mailed at least 14 days before the election.

SEC. 4. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: "Higher Education Facilities Bond Act of November 1990," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of four hundred fifty million dollars ($450,000,000) to provide funds for the construction or improvement of facilities of California's public higher education institutions, which include the University of California's nine campuses, the California State University's 20 campuses, the 71 districts of the California Community Colleges containing 107 campuses, the Hastings College of the Law, the California Maritime Academy, and off-campus facilities of the California State University approved by the Trustees of the California State University on or before July 1, 1990. The use of funds authorized under this act includes, but is not necessarily limited to, the construction or improvement of classrooms, laboratories, and libraries, and the implementation of earthquake and other health or safety improvements." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This bill would provide the people of California with an opportunity to provide funding in 1990 for critically needed higher education facilities. In order that the Higher Education Facilities Bond Act of 1990 contained in Section 1 of this act, which provides for this funding, be included on the November 6, 1990, general election ballot, it is necessary that the act take effect immediately.

CHAPTER 576

An act to add Chapter 17 (commencing with Section 7440) to Title 7 of Part 3 of the Penal Code, relating to financing a prison and community-based correctional facilities construction program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1990 Filed with Secretary of State September 5, 1990]

The people of the State of California do enact as follows:

SECTION 1. Chapter 17 (commencing with Section 7440) is added to Title 7 of Part 3 of the Penal Code, to read:

CHAPTER 17. NEW PRISON CONSTRUCTION BOND ACT OF 1990-B

7440. This chapter shall be known and may be cited as the New Prison Construction Bond Act of 1990-B.

7441. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter except that, notwithstanding anything in the State General Obligation Bond Law, the maximum maturity of the bonds shall not exceed 20 years from the date of each respective series. The maturity of each respective series shall be calculated from the date of that series.

7442. (a) There is in the State Treasury the 1990-B Prison Construction Fund which is hereby created. The proceeds of the sale of bonds authorized by this chapter shall be deposited in the 1990-B Prison Construction Fund. Upon request of the Department of Corrections and upon approval of the Director of Finance, appropriations or augmentations to appropriations made from the 1984 Prison Construction Fund established by Section 7202, the 1986 Prison Construction Fund established by Section 7302, or the 1988

Prison Construction Fund established by Section 7402, or the 1990 Prison Construction Fund established by Section 7422, or any combination thereof may be funded from the 1990-B Prison Construction Fund created by this section. If appropriations are so carried forward, "fund" means the 1984 Prison Construction Fund, the 1986 Prison Construction Fund, the 1988 Prison Construction Fund, the 1990 Prison Construction Fund established by Section 7422, or the 1990-B Prison Construction Fund established by Section 7442, or any combination thereof, as is appropriate. At least 30 days prior to requesting that an appropriation be carried forward as authorized by this section, the Department of Corrections shall notify the chairpersons of the fiscal committees in each house of the Legislature, and the chairperson and the vice chairperson of the Joint Legislative Budget Committee.

(b) Notwithstanding any provision of this chapter or the State General Obligation Bond Law as set forth in Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer shall be authorized to maintain separate accounts for the investment of bond proceeds and the investment earnings on such proceeds, and the Treasurer shall be authorized to use or direct the use of those proceeds or earnings to pay any rebate, penalty or other payment required under federal law or to take any other action with respect to the investment and use of bond proceeds required or desirable under federal law so as to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

7443. The 1990-B Prison Construction Committee is hereby created. The committee shall consist of the Controller, the Treasurer, and the Director of Finance, or their designated representatives. A majority can act for the committee. The Treasurer shall chair the committee. That committee shall be the "committee," as that term is used in the State General Obligation Bond Law.

When funds are appropriated to the Department of Corrections, the department is the "board" for the purpose of the State General Obligation Bond Law and this chapter. When funds are appropriated to the Department of the Youth Authority, the Department of the Youth Authority is the "board" for the purpose of the State General Obligation Bond Law and this chapter.

7444. The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate principal amount of four hundred fifty million dollars ($450,000,000), exclusive of refunding bonds, or so much thereof as is necessary, which may be issued and sold to provide a fund to be used for carrying out the purposes expressed in Section 7446 and to be used to reimburse the General Obligation Bond

Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

7445. The committee may determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter, and if so, the amount of bonds then to be issued and sold. The committee may authorize the Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the Treasurer.

7446. The moneys in the fund shall be used for the acquisition, construction, renovation, remodeling, and deferred maintenance of state youth and adult correctional facilities. Moneys deposited in the fund may also be used for the refinancing of interim debt incurred for any of the purposes specified in this section. Of the moneys deposited in the fund pursuant to this chapter, fifteen million dollars ($15,000,000) shall be used for planning and construction by, or under the supervision of, the Department of Corrections of multipurpose community-based facilities for programs designed to reduce drug use, recidivism, and violence in the state's prison system, including, but not limited to, restitution centers, facilities for the incarceration and rehabilitation of drug offenders, and centers for intensive programs for parolees and offenders with nonviolent records, as recommended by the Blue Ribbon Commission on Inmate Population Management.

7447. (a) All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both the principal thereof and interest thereon.

(b) There shall be collected annually in the same manner and at the same time as other state revenue is collected, that sum, in addition to the ordinary revenues of the state, that is required to pay the principal of and interest on those bonds, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of that revenue to do and perform each and every act which shall be necessary to collect that additional sum.

(c) All money deposited in the fund that has been derived from premiums or accrued interest on bonds sold shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(d) All money deposited in the fund pursuant to any provision of law requiring repayments to the state that is financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund. When transferred to the General Fund, that money shall be applied as a reimbursement to the General Fund on account of the principal of and interest on the bonds which have been paid from the General Fund.

7448. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State

Treasury for the purpose of this chapter such an amount as will equal the following:

(a) That sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to this chapter.

(b) That sum as is necessary to carry out the provisions of Section 7449, which sum is appropriated without regard to fiscal years.

7449. For the purpose of carrying out this chapter, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the committee in accordance with this chapter. Any money made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter. Those withdrawals from the General Fund shall be returned to the General Fund with interest at the rate which would otherwise have been earned by those sums in the Pooled Money Investment Account.

7450. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

7451. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of bonds shall include the approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

7452. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 7446, but shall not be available for transfer to the General Fund to pay the principal of and interest on bonds. The money in the fund may be expended only as herein provided.

Notwithstanding any other provision of this chapter, or the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the

bonds is excluded from gross income for federal tax purposes under designated conditions, the Treasurer may maintain separate accounts for the bond proceeds invested and the investment earnings on those proceeds, and may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law, or take any other action with respect to the investment and the use of those bond proceeds, as may be required or desirable under federal law in order to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

7453. Money in the fund may only be expended pursuant to appropriations by the Legislature. The Department of Corrections and the Department of the Youth Authority, annually on or before January 10, shall submit their respective five-year facility master plans to the Legislature. Each plan shall include a program of proposed expenditures from the 1990-B Prison Construction Fund.

7454. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the voters of the New Prison Construction Bond Act of 1990-B.

SEC. 3. (a) Notwithstanding Sections 3525, 3528, 3529, 3560, 3578, and 10218 of the Elections Code, or any other provisions of law, Section 1 of this act shall be submitted to the voters at the November 6, 1990, general election.

(b) The Secretary of State shall ensure the placement of Section 1 of this act on the November 6, 1990, general election ballot, in substantial compliance with any statutory time requirements applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 1 of this act within two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 1 of this act within five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot

pamphlet shall, notwithstanding Section 3578 of that code, be mailed at least 14 days before the election.

SEC. 4. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: "New Prison Construction Bond Act of 1990-B," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of four hundred fifty million dollars ($450,000,000) to provide funds to relieve overcrowding in the state's prisons and the Youth Authority facilities through new construction." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the New Prison Construction Bond Act of 1990-B may be timely placed on the November 6, 1990, General Election ballot, it is essential that this act take effect immediately.

CHAPTER 577

An act to amend Sections 52501, 52526, 52528, 52529, 52533, 53130, and 53160 of, to amend and renumber Section 52504 of, to add Sections 52531.5, 52532.3, and 52532.6 to, to add Section 53137 to Part 8 (commencing with Section 53130) of Division 31 of, to add Chapter 10 (commencing with Section 51475) to Part 3 of Division 31 of, to add Part 11 (commencing with Section 53500) to Division 31 of, to repeal Section 52502 of, and to repeal and add Section 52506 of, to repeal and add Chapter 2 (commencing with Section 52510) to Part 6 of Division 31 of, the Health and Safety Code, relating to financing a housing program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1990. Filed with Secretary of State September 5, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10 (commencing with Section 51475) is added to Part 3 of Division 31 of the Health and Safety Code, to read:

CHAPTER 10. MULTIFAMILY HOUSING

51475. (a) The Legislature finds and declares:

(1) Significant amounts of housing built to serve lower income households and families is disappearing from the housing market. This phenomenon is due to government policies that allow prepayment of mortgages, termination of use restrictions and nonrenewal of subsidy contracts and to changes in market forces which increase property values and create pressure to convert to middle or upper income housing or other commercial uses. These conversions displace lower income tenants who have very limited options for relocating in comparable affordable housing.

(2) There are nearly 2,000 rental housing projects built in this state prior to 1980 under Section 236, Section 221 (d) (3) and Section 8 programs of the United States Department of Housing and Urban Development and the Section 515 Program of the federal Farmers' Home Administration, containing approximately 123,000 units subject to potential conversion to higher market rent housing or condominium units which will result in the displacement of lower income tenants.

(3) It is in the public interest to preserve and expand our existing affordable lower income housing stock.

(b) It is the intent of the Legislature to provide a flexible and expeditious source of mortgage financing for bridge loans and gap financing to preserve and expand existing afforable lower income rental housing stock.

51476. The agency shall administer a program for the preservation of multifamily housing under authority of this chapter with funds made available by the California Housing Bond Act of 1990.

51477. There is hereby created in the State Treasury an Affordable Housing Preservation and Rehabilitation Fund. "Fund" as used in this chapter means the Affordable Housing Preservation and Rehabilitation Fund. Notwithstanding the provisions of Section 13340 of the Government Code, all moneys in the fund are continuously appropriated to the agency without regard to fiscal years, for expenditure pursuant to this chapter and for defraying the actual administrative costs of the agency incurred pursuant to this chapter. Notwithstanding Section 16305.7 of the Government Code, any interest earned or other increment derived from investments made from moneys in the fund shall be deposited in the fund.

51478. All of the powers granted under this chapter are cumulative with powers of the agency under other provisions of this part, and this chapter constitutes an alternative method to issue bonds and to make mortgage loans pursuant to the provisions of this chapter.

51479. In administering a program for the preservation of multifamily housing hereunder, the agency may segregate funds

available for these purposes into separate accounts as necessary to reflect the different types of assistance authorized by this chapter. In order to accomplish the goals of this chapter, all or some portion of bonds sold under authority of Part 11 (commencing with Section 53500) may bear interest which is taxable under the Internal Revenue Code.

51480. (a) (1) Mortgage lending authorized by this chapter shall be for multifamily rental housing developments at risk of conversion. For the purposes of this chapter, multifamily rental housing developments at risk of conversion shall include any of the following:

(A) Federally assisted housing for which the low-income use restriction may terminate or be substantially modified within four years.

(B) State or locally assisted housing for which the low-income use restrictions may terminate or be substantially modified within four years.

(C) Other privately owned housing serving at least 30 percent lower income tenants which is demonstrated to be at risk of converting to other residential or nonresidential use within four years resulting in the displacement of lower income tenants.

(2) For the purposes of this chapter, "substantially modified" means any change to use restrictions which would result in reducing the number of units originally required to be set aside for lower income tenants or reducing the time the units are required to be set aside for lower income tenants.

(b) Mortgage lending authorized by this chapter for multifamily rental housing developments at risk of conversion shall include the following:

(1) Loans for the acquisition of an existing multifamily rental housing development for a temporary period prior to and pursuant to a plan made or approved by the agency for permanent financing and any necessary rehabilitation of the multifamily rental housing development. Loans made pursuant to this paragraph shall not exceed 90 percent of the value of the property and the costs of holding the housing for a period of up to three years and shall accrue simple interest at a rate of 3 percent per annum. All principal and accrued interest shall be due and payable not later than three years from the date of the loan, or earlier upon sale, refinancing, syndication, or permanent loan closing. The board may extend the term of the loan for one additional year based on a finding that additional time is needed to secure permanent financing for the development. The loan shall be subject to a regulatory agreement with an occupancy restriction for the assisted units for 40 years.

(2) Loans for acquisition or acquisition and rehabilitation secured by a lien junior to other permanent financing for a multifamily rental housing development pursuant to a plan made or approved by the agency for permanent financing and any necessary rehabilitation of the multifamily rental housing development. Loans made pursuant

to this paragraph shall be made upon terms and conditions determined by the board, but in an amount which, when added to debt secured by a lien senior to the loan, does not exceed 90 percent of the value of the property or if the property is rehabilitated, 90 percent of the after rehabilitation value. The amount included in an acquisition and rehabilitation loan for rehabilitation shall not exceed $5,000 per unit. The number of assisted units shall be at least equal to the proportion of project cost financed pursuant to this chapter to total project cost. Loans made pursuant to this paragraph shall be for a term of not less than 40 years and shall bear simple interest at a rate of 3 percent per annum. The board may extend the term of the loan for an additional 10 years as long as the rental housing development is operated in a manner consistent with the regulatory agreement. The board, in its discretion, may provide for the current payment of interest or for the accrual of interest over the term of the loan. All principal and any accrued interest shall be due and payable at the end of the loan term, or earlier upon sale, refinancing or syndication of the property unless the agency determines the proceeds obtained from a refinancing or syndication are necessary to maintain the housing development in accordance with the terms and conditions of the regulatory agreement or otherwise further the purposes of the chapter. The loan shall be subject to a regulatory agreement with an occupancy restriction for the assisted units for 40 years.

(c) (1) In making mortgage loans pursuant to this chapter, the agency shall consider the public benefit to be derived from the loan, and the amount of loan shall not exceed the amount necessary to ensure the preservation and or expansion of lower income housing consistent with paragraph (2).

The loan amount shall be limited to the total amount required, when considered with other available financing and assistance, in order to achieve all of the following:

(A) Enable the acquisition or acquisition and rehabilitation of assisted rental housing units.

(B) Ensure that rents for assisted units are in accordance with program requirements.

(C) Operate in compliance with all other program requirements.

(D) Allow a debt service coverage ratio in an amount sufficient to satisfy the requirements of other lenders providing financing for the rental housing development, but not to exceed 115 percent.

(2) In making loans pursuant to this chapter, the agency shall do the following:

(A) Establish application forms and materials.

(B) Accept applications at any time and make loan commitments at scheduled meetings of the board.

(C) Ensure that the housing development meets minimum threshold requirements relating to the capability of the applicant to develop and manage the housing development.

(D) Ensure that the housing development is economically feasible and complies with the program requirements of this chapter.

(E) Use the following preferences in evaluating the housing developments and making loan commitments:

(i) The smallest percentage of the maximum allowable rents for lower income tenants.

(ii) The longest period of affordability.

(iii) The least permanent displacement of lower income tenants.

(iv) The greatest number of units consisting of three or more bedrooms.

(v) The greatest number of units for single room occupancy for very low income tenants.

(vi) The maximum use of private, local, federal, and other financing.

(vii) The greatest impact on the availability of affordable low-income housing in a community.

(F) In making loans pursuant to this subdivision, the agency shall consider variances in market conditions relating to the cost of developing rental housing.

(d) (1) All loans made pursuant to this section shall be subject to a regulatory agreement executed by the borrower and recorded in the office of the county recorder of the county in which the property is located.

(2) The regulatory agreement shall contain at least all of the following:

(A) Restrictions on occupancy of units within the housing development to meet the requirements of paragraphs (1) and (2) of subdivision (b).

(B) Provisions governing tenant selection to ensure occupancy by lower income tenants.

(C) Provisions governing occupancy standards and rental agreements.

(D) Provisions for setting rents pursuant to subdivision (g).

(E) Provisions limiting distribution of earnings pursuant to paragraphs (1) and (2) of subdivision (*l*).

(F) Provisions specifying the conditions under which the agency and any intended beneficiary may enforce the regulatory agreement.

(3) The regulatory agreement shall be recorded against the property and shall be deemed a covenant running with the land and shall be binding upon the sponsor and any and all successors in interest in case of sale or transfer of the housing development for the original term of the loan, regardless of any prepayment of the loan, except when the sale or transfer is a result of a foreclosure by the first lienholder.

(e) Not less than 20 percent, nor more than 40 percent, of the assisted units financed pursuant to paragraph (3) of subdivision (a) shall be available on a priority basis to elderly or handicapped persons.

(f) (1) No loan shall be made pursuant to this section if, as a result of the loan, the aggregate number of units in the housing

development available to persons of low and very low income would be less than the number of those units available prior to making the loan.

(2) No loan shall be made pursuant to this section unless the number of low- and very low income units is equal to or exceeds 30 percent of the total units in the housing development, except that a loan may be made when the number of units is equal to or exceeds 20 percent of the total units when the housing development was originally financed using tax-exempt bond proceeds and the housing sponsor agrees to increase the number of low- and very low income units to 30 percent of the total units as the units become available.

(g) (1) For all units not receiving assistance payments under Section 8 of the United States Housing Act of 1937, as amended (42 U.S.C. Sec. 1437f), or other rental assistance payments, the respective rent for each assisted unit existing prior to loan assistance shall be the base rent for that unit. The base rent for each occupied unit may be annually increased in accordance with the inflation index specified in subdivision (h).

(2) For all units receiving project-based payments under Section 8 of the United States Housing Act of 1937 or other rental assistance payments, at the time these payments cease to be available, base rents shall be established as follows: rents for units occupied by tenants earning less than 35 percent of median income shall be no more than 30 percent of 35 percent of median income adjusted for family size appropriate for the unit, rents for units occupied by tenants earning between 35 percent and 50 percent of median income shall be 30 percent of 50 percent of median income adjusted for family size appropriate for the unit, rents for units occupied by tenants earning between 51 percent and 80 percent of median income shall be 30 percent of 60 percent of median income adjusted for family size appropriate for the unit. The base rent for each unit may be annually increased in accordance with the inflation index specified in subdivision (h).

In determining the loan amount, the agency shall ensure that these rent levels are achieved at the time the rental assistance payments cease, taking into account the projected date for cessation of the rental payments. The agency shall require that sponsors make every effort to seek renewal of the rental assistance payments if renewal is possible.

(3) Upon vacancy of an assisted unit, the rent for that unit shall be the last rent charged pursuant to paragraph (1) or (2). The rent for units may be annually increased in accordance with the inflation index specified in subdivision (h).

(4) For the life of the project, the sponsor shall maintain the assisted units in the proportion of tenants with incomes less than 35 percent of median income, between 35 percent and 50 percent of median income, and between 51 percent and 80 percent of median income as existed in the project at the time of application. Upon request of the sponsor, the agency may allow vacated units originally

occupied by tenants earning less than 35 percent of median income to be rented to tenants earning up to 50 percent of median income, adjusted for family size, in the event the agency determines that the base rent is not affordable to tenants below 35 percent of median income.

(h) Rents for units financed pursuant to this section may be automatically increased by the sponsor annually according to an inflation index to be determined by the board. The inflation index shall reflect anticipated annual changes in rental housing development operating costs from the base year in which rents are initially established for the housing development. Any sponsor may appeal to the agency in writing for a greater adjustment in rents necessary to ensure the fiscal integrity of the housing development; the request on appeal shall be deemed approved unless rejected by the agency within 60 days from the date of receipt of the appeal.

(i) Not less than 20 percent of funds made available to the agency for the purposes specified in this section shall be made available for loans in rural areas.

(j) (1) If a multifamily rental housing development assisted by this chapter is not economically feasible, the sponsor, with the approval of the agency, may remove one or more assisted units from the occupancy requirements for a period of time necessary for the development to again become economically feasible.

(2) For purposes of paragraph (1), "economically feasible" means that project revenue equals or exceeds project operating expenses, excluding any return on investment.

The agency shall administer a home purchase assistance program in accordance with the provisions of this part to assist first-time homebuyers to utilize mortgage financing available pursuant to Part 3 (commencing with Section 50900) of this division with the additional financial resources made available pursuant to this part.

52511. Home purchase assistance under this part shall include, but not be limited to, both an interest rate subsidy to reduce the interest rate paid by the borrower on the first-mortgage loan and a deferred-payment, low-interest second-mortgage loan to reduce the principal and interest payments on the first-mortgage loan. The amount of home purchase assistance shall not exceed the amount necessary to make the total debt financing affordable to eligible households, but in no event shall the interest rate subsidy reduce the effective interest rate to the borrower below 3 percent per annum, nor shall the deferred-payment, low-interest, second-mortgage loan exceed 49 percent of the total debt financing necessary to purchase the home. The loan amount may include the costs of closing escrow.

52512. The amount of home purchase assistance provided under this part shall constitute a second-mortgage loan secured by a deed of trust of second priority to the first-mortgage loan provided by the agency pursuant to Part 3 (commencing with Section 50900) of this division or by a conventional lender pursuant to policies established by the agency. The second-mortgage loan shall be due and payable upon sale, transfer, or refinancing of the home, except upon

If the home is not sold, transferred, or refinanced during the term of the first-mortgage loan, the second-mortgage loan, including any accrued interest, shall begin amortizing on the same terms as the first-mortgage loan on the next periodic payment date after the final payment on the first-mortgage loan until the second-mortgage loan is repaid in full. Mortgage loans under this program may be assumed only if the transferee and the property meet the eligibility requirements of this part. The terms of the promissory note for the second-mortgage loan may include provision for simple interest to accrue over the term of the loan and payable with the loan as provided in this section. Any repayment of principal or payment of interest from loans made pursuant to this part shall be deposited in the First-Time Home Buyers Fund.

The purchase price of a property eligible to be assisted shall not exceed either of the following:

(a) One hundred percent of the average area purchase price of a resale home when the borrowers are one- or two-member households.

(b) One hundred ten percent of the average area purchase price of a resale home when the borrowers are three or more member households.

CHAPTER 3. FISCAL PROVISIONS

53502.5. Bonds in the total amount of one hundred twenty-five million dollars ($125,000,000), exclusive of refunding bonds issued pursuant to Section 53503, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

53503. Any bonds issued and sold pursuant to this chapter may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of these bonds shall include the approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

53504. The bonds authorized by this part shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this part and are hereby incorporated in this part as though set forth in full in this part.

For purposes of this part, the Housing Committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Controller, the Treasurer, the Director of Finance, the Director of Housing and Community Development, and the Executive Director of the California Housing Finance Agency, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Department of Housing and Community Development is designated as the "board" for programs administered by the department, the Board of Directors of the California Housing Finance Agency is

designated as the "board" for programs administered by the agency, and the governing board of the California Housing Insurance Fund is designated as the "board" for programs administered by the fund.

Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

Bonds authorized under this part may bear interest which is taxable for purposes of the Internal Revenue Code or may be exempt from that taxation. Taxable bonds shall, however, only be issued where federal law would preclude the use of the proceeds of tax-exempt bonds for a purpose otherwise permitted under Chapter 10 (commencing with Section 51475) of Part 3 of Division 31.

53507. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

53508. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this part, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this part, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 53509, appropriated without regard to fiscal years.

53509. For the purposes of carrying out this part, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized to be sold for the purpose of carrying out this part. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this part.

53510. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute such documents as are required by the Pooled Money Investment Board to obtain and

repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

53511. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

53311.5. Notwithstanding any provision of this part or the State General Obligation Bond Law as set forth in Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, if the Treasurer sells bonds pursuant to this part that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer shall be authorized to maintain separate accounts for the investment of bond proceeds and the investment earnings on those proceeds, and the Treasurer shall be authorized to use or direct the use of those proceeds or earnings to pay any rebate, penalty or other payment required under federal law or to take any other action with respect to the investment and use of bond proceeds required or desirable under federal law so as to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

53512. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this part are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 21. (a) Notwithstanding Sections 3525, 3528, 3529, 3560, 3578, and 10218 of the Elections Code or any other provision of law, a ballot measure that sets forth the California Housing Bond Act of 1990, as set forth in Sections 2 to 16, inclusive and Sections 18 and 20, of this act, shall be submitted to the people of the State of California for their ratification at the statewide election to be held November 6, 1990.

submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act provisions contained in Sections 2 to 16, inclusive, and Sections 18 and 20, of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act provisions to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of the that code, be mailed at least 14 days before the election.

SEC. 22. Notwithstanding any other provision of law, all ballots of the election on Sections 2 to 16, inclusive, and Sections 18 and 20, of this act shall have printed thereon and in a square thereof, the words: "California Housing Bond Act of 1990," and in the same square under those words, the following in eight-point type: "This act establishes a comprehensive housing program to address the severe housing crisis in California by (a) authorizing the use of funds from the First-Time Home Buyers Bond Act of 1982, under which the voters of this state authorized a bond issue of two hundred million dollars ($200,000,000), to provide financial assistance to first-time homebuyers in the form of interest rate subsidies and deferred-payment, low-interest second-mortgage loans and (b) providing for a bond issue of one hundred twenty-five million dollars ($125,000,000) to provide funds for a housing and earthquake safety program that includes financing for: (1) the preservation and rehabilitation of the existing stock of rental housing for families and individuals, including rental housing which meets the special needs of the elderly and disabled, (2) emergency shelters and transitional housing for homeless families and individuals, (3) a multifamily mortgage loan and bond insurance program, (4) farmworker housing, and (5) rehabilitation loans to enable unreinforced masonry rental buildings to withstand earthquakes." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 23. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

17650.15. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the fund.

17650.20. All moneys deposited in the fund shall be available to provide aid to school districts of the state in accordance with the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700)), and of all acts amendatory thereof and supplementary thereto, to provide aid to school districts of the state in accordance with Section 17650.30, to provide funds to repay any money advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

17650.25. (a) With respect to the proceeds of bonds to be expended under this chapter for the purposes of Chapter 22 (commencing with Section 17700), all provisions of Chapter 22 (commencing with Section 17700) shall apply.

(b) As to any project that is funded, in whole or in part, from the

proceeds of bonds to be expended under this chapter for the purposes of Chapter 22 (commencing with Section 17700), the state's portion of land costs paid from the proceeds of bonds authorized under this chapter shall not exceed two million two hundred fifty thousand dollars ($2,250,000) per acre, per project.

17650.30. (a) Of the proceeds from the sale of bonds pursuant to this chapter, not more than two hundred sixty million dollars ($260,000,000) may be used for one or more of the following purposes:

(1) Project funding for applicant districts under Chapter 22 (commencing with Section 17700) that are eligible for that funding, but that lack funding priority due to the size of pupil enrollment in the district.

(2) The identification, assessment, or abatement of hazardous asbestos in school facilities, pursuant to either Chapter 22 (commencing with Section 17700) or Section 39619.6.

(3) The acquisition of portable classrooms for use in accordance with Chapter 25 (commencing with Section 17785).

(4) The reconstruction or modernization of facilities within the meaning of Chapter 22 (commencing with Section 17700).

(5) The funding of child care facilities pursuant to Section 8477.

(b) Of the proceeds from the sale of bonds pursuant to this chapter, forty million dollars ($40,000,000) shall be used for the purchase and installation of air-conditioning equipment and insulation materials, and related costs, pursuant to Section 42250.1 for schools operated on a year-round multitrack schedule in a manner that increases school capacity and reduces or eliminates the district's need for the construction of additional classroom space.

(c) Notwithstanding subdivision (b), in the event the board determines that the amount made available under that subdivision exceeds the amount necessary to fund the qualified recipients of the apportionment authorized under that subdivision, as indicated by those applications for that funding received by the board on or before June 30, 1991, the board may expend any portion of that excess for any one or more of the purposes described in subdivision (a).

Article 3. Fiscal Provisions

17650.40. Bonds in the total amount of eight hundred million dollars ($800,000,000), exclusive of refunding bonds, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

17650.44. The State School Building Finance Committee, created by Section 15909 and composed of the Governor, Controller, Treasurer, Director of Finance, and the Director of Education, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall be designated to chair the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet and advise with the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and as such shall have the powers and duties imposed upon those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide the assistance to the committee as it may require. The Attorney General of the state shall be the legal adviser of the committee.

17650.45. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board."

17650.50. Upon request of the board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Section 17650.20, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

17650.55. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

17650.60. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and

interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 17650.70, appropriated without regard to fiscal years.

17650.63. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter. The board shall execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

17650.65. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), if the Treasurer sells bonds that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes subject to designated conditions, the Treasurer may maintain separate accounts for the bond proceeds invested and for the investment earnings on those proceeds, and may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds that is required or desirable under federal law in order to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

17650.70. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

17650.75. All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

17650.80. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the electors of the state for the issuance of the bonds described in this chapter shall include approval of the issuance of any bonds issued to refund any bonds

originally issued under this chapter or any previously issued refunding bonds.

17650.85. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 2. Section 1 of this act shall become operative upon the adoption by the people of the School Facilities Bond Act of 1990, as set forth in Section 1 of this act.

SEC. 3. (a) Notwithstanding Sections 3525, 3528, 3529, 3560, 3578, and 10218 of the Elections Code or any other provisions of law, Section 1 of this act shall be submitted to the voters at the November 6, 1990, general election.

(b) The Secretary of State shall ensure the placement of Section 1 of this act on the November 6, 1990, general election ballot, in substantial compliance with any statutory time requirements applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 1 of this act within two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 1 of this act within five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of that code, be mailed at least 14 days before the election.

SEC. 4. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: " School Facilities Bond Act of 1990", and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of eight hundred million dollars ($800,000,000) to provide capital outlay for construction or improvement of public schools." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting of the election is done by means of voting machines used pursuant to law in the manner that carries out the

intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with the provisions of this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the School Facilities Bond Act of 1990 contained in Section 1 of this act may be included on the November 6, 1990, general election ballot, which is needed to provide in a timely manner for the funding, from state general obligation bond proceeds, of critical school facilities construction needs, it is necessary that this act take effect immediately.

CHAPTER 579

An act to add Title 4.9 (commencing with Section 4496.50) to Part 3 of the Penal Code, relating to the financing of a county correctional facility and juvenile facility program by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 4, 1990. Filed with Secretary of State September 5, 1990]

The people of the State of California do enact as follows:

SECTION 1. Title 4.9 (commencing with Section 4496.50) is added to Part 3 of the Penal Code, to read:

TITLE 4.9. COUNTY CORRECTIONAL FACILITY CAPITAL EXPENDITURE AND JUVENILE FACILITY BOND ACT OF 1990

CHAPTER 1. GENERAL PROVISIONS

4496.50. This title shall be known and may be cited as the County Correctional Facility Capital Expenditure and Juvenile Facility Bond Act of 1990.

4496.51. The Legislature finds and declares all of the following:

(a) While the County Jail Capital Expenditure Bond Act of 1981, the County Jail Capital Expenditure Bond Act of 1984, the County Correctional Facility Capital Expenditure Bond Act of 1986, and the County Correctional Facility Capital Expenditure and Youth Facility Bond Act of 1988 have helped eliminate many of the critically overcrowded conditions found in county correctional facilities in the

state, many problems remain.

(b) Numerous county jails and juvenile facilities throughout California are dilapidated and overcrowded.

(c) Capital improvements are necessary to protect life and safety of the persons confined or employed in jail facilities and to upgrade the health and sanitary conditions of those facilities.

(d) County jails are threatened with closure or the imposition of court supervision if health and safety deficiencies are not corrected immediately.

(e) Due to fiscal constraints associated with the loss of local property tax revenues, counties are unable to finance the construction of adequate jail and juvenile facilities.

(f) Local facilities for adults and juveniles are operating over capacity and the population of these facilities is still increasing. It is essential to the public safety that construction of new facilities proceed as expeditiously as possible to relieve overcrowding and to maintain public safety and security.

4496.52. As used in this title, the following terms have the following meanings:

(a) "Committee" means the 1990 County Correctional Facility Capital Expenditure and Juvenile Facility Finance Committee created pursuant to Section 4496.59.

(b) "Fund" means the 1990 County Correctional Facility Capital Expenditure and Juvenile Facility Bond Fund created pursuant to Section 4496.53.

(c) "County correctional facilities" means county jail facilities, including separate facilities for the care of mentally ill inmates and persons arrested because of intoxication, but does not include county juvenile facilities.

(d) "County juvenile facilities" means county juvenile halls, juvenile homes, ranches, or camps, and other juvenile detention facilities.

(e) "Youth center" means a facility where children, ages 6 to 17, inclusive, come together for programs and activities, including, but not limited to, recreation, health and fitness, delinquency prevention (such as antigang programs and programs fostering resistance to peer group pressures), counseling for problems such as drug and alcohol abuse and suicide, citizenship and leadership development, and youth employment.

(f) "Youth shelter" means a facility that provides a variety of services to homeless minors living on the street to assist them with their immediate survival needs and to help reunite them with their parents or, as a last alternative, to find a suitable home.

CHAPTER 2. PROGRAM

4496.53. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1990 County Correctional Facility Capital Expenditure and Juvenile Facility Bond Fund, which is

hereby created.

4496.54. (a) Moneys in the fund, up to a limit of one hundred fifty million dollars ($150,000,000), may be available for the construction, reconstruction, remodeling, and replacement of county correctional facilities, and the performance of deferred maintenance on county correctional facilities. However, deferred maintenance for facilities shall only include items with a useful life of at least 10 years.

(b) Moneys in the fund, up to a limit of fifty million dollars ($50,000,000), may be available for the construction, reconstruction, remodeling, and replacement of county juvenile facilities, and the performance of deferred maintenance on county juvenile facilities, but may only be used for the purpose of reducing overcrowding and eliminating health, fire, and life safety hazards.

(c) Moneys in the fund, up to a limit of twenty-five million dollars ($25,000,000), are hereby appropriated to the Department of the Youth Authority for the purpose of making awards to public or private nonprofit agencies or joint ventures, or a combination of those entities, for purposes of purchasing equipment and for acquiring, renovating, or constructing youth centers or youth shelters, as provided by the Youth Center and Youth Shelter Bond Act of 1988. Fifteen million dollars ($15,000,000) shall be available for youth centers. Ten million dollars ($10,000,000) shall be available for youth shelters. All money shall be distributed by the Department of the Youth Authority. However, any remaining money that has not been awarded under this subdivision within two years of the effective date of this title shall be available for both youth centers and youth shelters.

(d) Expenditure shall be made only if county matching funds of 25 percent are provided as determined by the Legislature, except that this requirement may be modified or waived by the Legislature where it determines that it is necessary to facilitate the expeditious and equitable construction of state and local correctional facilities.

4496.55. In order to be eligible to receive funds for the purposes specified in Section 4496.54 derived from the issuance of bonds under this title, a county shall do all of the following:

(a) Adopt a plan to prohibit the detention of all juveniles in county jails unless otherwise authorized by law.

(b) Demonstrate that it has adequate facilities for mentally ill inmates or detainees and for those persons arrested because of inebriation, or demonstrate that it has a plan for the provision of services to these persons.

(c) Demonstrate that it has utilized, to the greatest practicable extent, alternatives to jail incarceration.

4496.56. (a) If after the effective date of this title, the electors of a county adopt an initiative measure or approve a referendum measure stating their opposition to the location of, or expansion of, a state prison in the county, whether at a specified location or otherwise, or if the board of supervisors adopts a resolution or

ordinance stating its opposition to the location of, or expansion of, a state prison in the county, whether at a specified location or otherwise, that county shall not thereafter be eligible for the receipt of funds under this title until and unless that measure is repealed by the electors or the board of supervisors.

(b) Subdivision (a) shall not preclude the board of supervisors from informing the Department of Corrections of problems associated with a specific proposed facility or site in response to a specific request from the Department of Corrections or pursuant to Section 7004, and subdivision (a) shall not apply to such a response.

(c) Subdivision (a) shall not apply to any county which has two or more prisons which are planned and sited, under construction, or in operation on the effective date of this title.

4496.57. Money in the fund may only be expended for projects specified in this chapter as allocated in appropriations made by the Legislature.

CHAPTER 3. FISCAL PROVISIONS

4496.58. Bonds in the total amount of two hundred twenty-five million dollars ($225,000,000), exclusive of refunding bonds, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this title and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

4496.59. The bonds authorized by this title shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this title.

4496.60. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this title, the 1990 County Correctional Facility Capital Expenditure and Juvenile Facility Finance Committee is hereby created. For purposes of this title, the finance committee is "the committee" as that term is used in the State General Obligation Bond Law. The committee consists of the Governor, the Controller, the Treasurer, the Director of Finance, or their designated representatives. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Board of Corrections is designated the "board."

4496.61. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 4496.54 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

4496.62. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

4496.63. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum which is necessary to carry out the provisions of Section 4496.42, appropriated without regard to fiscal years.

4496.64. For the purposes of carrying out this title, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which have been authorized by the committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section, plus any interest that the amounts would have earned in the Pooled Money Investment Account, shall be returned to the General Fund from money received from the sale of bonds for the purpose of carrying out this title.

4496.65. All money deposited in the fund which is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

4496.66. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code.

4496.67. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out the provisions of this chapter. The amount of the request shall not exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. The board shall execute such documents as required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in

the fund to be allocated by the board in accordance with this chapter.

4496.68. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this title are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

4496.69. Notwithstanding any other provision of this chapter or the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes under designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and the investment earnings on those proceeds, and may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law, or take any other action with respect to the investment and the use of those bond proceeds, as may be required or desirable under federal law in order to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the voters of the County Correctional Facility Capital Expenditure and Juvenile Facility Bond Act of 1990, as set forth in Section 1 of this act.

SEC. 3. Notwithstanding any other provision of law, all ballots of the election shall have printed thereon and in a square thereof, the words: "County Correctional Facility Capital Expenditure and Juvenile Facility Bond Act of 1990," and in the same square under those words, the following in 8-point type: "This act provides for a bond issue of two hundred twenty-five million dollars ($225,000,000) to provide funds for the construction, reconstruction, remodeling, replacement, and deferred maintenance of county correctional facilities and county juvenile facilities." Opposite the square, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against the act.

Where the voting in the election is done by means of voting machines used pursuant to law in the manner that carries out the intent of this section, the use of the voting machines and the expression of the voters' choice by means thereof are in compliance with this section.

SEC. 4. (a) Notwithstanding Sections 3525, 3528, 3529, 3560, 3578, and 10218 of the Elections Code or any other provision of law, Section 1 of this act shall be submitted to the voters at the November 6, 1990, general election.

(b) The Secretary of State shall ensure the placement of Section 1 of this act on the November 6, 1990, general election ballot, in substantial compliance with any statutory time requirements

applicable to the submission of statewide measures to the voters at a statewide election.

(c) Notwithstanding Section 3531 of the Elections Code, the Attorney General shall prepare and return to the Secretary of State a ballot title for the bond act contained in Section 1 of this act within two days after the effective date of this act.

(d) Notwithstanding Section 3572 of the Elections Code, the Legislative Analyst shall prepare an impartial analysis of the bond act contained in Section 1 of this act within five days after the effective date of this act, and the analysis shall not be submitted to a review committee.

(e) The Secretary of State shall include, in the ballot pamphlet mailed pursuant to Section 3578 of the Elections Code, the information specified in Section 3570 of that code regarding the bond act provisions contained in Section 1 of this act.

If that inclusion is not possible, the Secretary of State shall publish a supplemental ballot pamphlet regarding the bond act to be mailed with the ballot pamphlet. If the supplemental ballot pamphlet cannot be mailed with the ballot pamphlet, the supplemental ballot pamphlet shall, notwithstanding Section 3578 of that code, be mailed at least 14 days before the election.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the County Correctional Facilities Capital Expenditure and Juvenile Facility Bond Act of 1990 contained in Section 1 of this act be included on the November 6, 1990, general election ballot, it is necessary that this act take effect immediately.

CHAPTER 580

An act to amend and repeal Section 5705.2 of, the Welfare and Institutions Code, relating to county health services.

[Approved by Governor September 4, 1990. Filed with Secretary of State September 5, 1990.]

The people of the State of California do enact as follows:

SECTION 1. Section 5705.2 of the Welfare and Institutions Code, as amended by Section 6 of Chapter 1106 of the Statutes of 1987, is amended to read:

5705.2. (a) It is the intent of the Legislature that the use of negotiated net amounts or rates, as provided in subdivision (b), be given preference in contracts for services under this division.

(b) Negotiated net amounts or rates may be used as the cost of services only in accordance with the following provisions:

(1) A negotiated net amount shall be determined by calculating the total budget for services for a program or a component of a program, less the amount of projected revenue. This net amount shall be negotiated between the provider of services and the county mental health program, and may be used by providers in contracts with the county. The negotiated net amount shall be submitted to the State Department of Mental Health prior to the commencement date of the contract. No contract shall become final until the State Department of Mental Health has approved the net amount. If approval is received after the commencement date of the contract, the approval shall be retroactive to the commencement date. Should the negotiated net amount be disapproved after the commencement date of the contract, the provider shall be compensated for work performed pursuant to the contract in accordance with Section 5705. Once the negotiated net amount is approved by the State Department of Mental Health, all participating government funding sources, except for the Medi-Cal program (Chapter 7 (commencing with Section 14000) of Part 3 of Division 9), shall be bound to that amount as the cost of providing all or part of the total county mental health program as described in the county Short-Doyle plan for each fiscal year to the extent that the governmental funding source participates in funding the county mental health program. Where the State Department of Health Services promulgates regulations for determining reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program, those regulations shall be controlling only as to the rates for reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program and rendered to Medi-Cal beneficiaries. Providers under this subdivision shall report to the State Department of Mental Health and the local mental health program any information required by the State Department of Mental Health in accordance with procedures established by the Director of Mental Health. Contracts entered into pursuant to this paragraph shall be financed within an approved Short-Doyle plan or contract.

Notwithstanding any other provision of this division or Division 9 (commencing with Section 10000), absent a finding of fraud, abuse, or failure to achieve contract objectives, no restrictions, other than any contained in the contract, shall be placed upon a provider's expenditure or retention funds received pursuant to this paragraph.

(2) A negotiated rate is the payment for services delivered on a per unit of service basis. This rate shall be negotiated between the provider of services and the county mental health program. The negotiated rate shall be submitted to the State Department of Mental Health prior to the commencement date of the contract. No contract shall become final until the State Department of Mental Health has approved the rate. If approval is received after the commencement date of the contract, the approval shall be retroactive to the commencement date. Should the negotiated rate be disapproved after the commencement date of the contract, the

provider shall be compensated for work performed pursuant to the contract in accordance with Section 5705. Once this rate is approved by the State Department of Mental Health, all participating governmental funding shall be bound by that amount as the cost of providing that service for that county mental health program to the extent that the governmental funding source participates in funding the county mental health program. Where the State Department of Health Services promulgates regulations for determining reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program, those regulations shall be controlling only as to the rates for reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program and rendered to Medi-Cal beneficiaries. Providers under this subdivision shall report to the State Department of Mental Health and the local mental health program any information required by the State Department of Mental Health in accordance with procedures established by the Director of Mental Health.
