(2) In addition, the court may assess a civil penalty not to exceed twenty-five thousand dollars ($25,000) against any or all of the defendants, based upon the severity of the nuisance and its duration.

(3) In establishing the amount of any civil penalty, the court shall consider all of the following factors:

(A) The actions taken by the defendant to mitigate or correct the problem at the dwelling, building, or place or the reasons why the defendants did not take any such action.

(B) The failure of a district attorney or city attorney to serve a notice as required by Section 11571.

(C) Any previous actions brought against the defendant pursuant to this article.

(D) The cost to the agency of investigating and correcting the condition.

(E) Any other factor deemed by the court to be relevant.

(c) (1) If the court finds that any vacancy resulting from closure of the building or place may create a nuisance or that closure is otherwise harmful to the community, in lieu of ordering the building or place closed, the court may order the person who is responsible for the existence of the nuisance, or the person who knowingly permits controlled substances to be unlawfully sold, served, stored, kept, or given away in or from a building or place he or she owns, to pay damages in an amount equal to the fair market rental value of the building or place for one year to the city or county in whose jurisdiction the nuisance is located for the purpose of carrying out their drug prevention and education programs. If awarded to a city, eligible programs may include those developed as a result of cooperative programs among schools, community agencies, and the local law enforcement agency. If awarded to a county, funds shall be used for those programs that are part of the drug program plan, as specified in Section 11983.2. These funds shall not be used to supplant existing city, county, state, or federal resources used for drug prevention and education programs.

(2) For purposes of this subdivision, the actual amount of rent being received for the rental of the dwelling, building, or place, or the existence of any vacancy therein, may be considered, but shall not be the sole determinant of the fair market rental value. Expert testimony may be used to determine the fair market rental value.

(d) This section shall be repealed on January 1, 1996.

SEC. 4. Section 11581 is added to the Health and Safety Code, to read:

11581. (a) If the existence of the nuisance is established in the action, an order of abatement shall be entered as a part of the judgment, which order shall direct the removal from the building or place of all fixtures, musical instruments, and other movable property used in conducting, maintaining, aiding, or abetting the nuisance and shall direct their sale in the manner provided for the sale of chattels under execution.

(b) The order shall provide for the effectual closing of the building or place against its use for any purpose, and for keeping it closed for a period of one year. This subdivision is intended to give priority to closure. Any alternative to closure may be considered only as provided in this section.

In addition, the court may assess a civil penalty not to exceed twenty-five thousand dollars ($25,000) against any or all of the defendants, based upon the severity of the nuisance and its duration.

(c) (1) If the court finds that any vacancy resulting from closure

of the building or place may create a nuisance or that closure is otherwise harmful to the community, in lieu of ordering the building or place closed, the court may order the person who is responsible for the existence of the nuisance, or the person who knowingly permits controlled substances to be unlawfully sold, served, stored, kept, or given away in or from a building or place he or she owns, to pay damages in an amount equal to the fair market rental value of the building or place for one year to the city or county in whose jurisdiction the nuisance is located for the purpose of carrying out their drug prevention and education programs. If awarded to a city, eligible programs may include those developed as a result of cooperative programs among schools, community agencies, and the local law enforcement agency. If awarded to a county, funds shall be used for those programs that are part of the drug program plan, as specified in Section 11983.2. These funds shall not be used to supplant existing city, county, state, or federal resources used for drug prevention and education programs.

(2) For purposes of this subdivision, the actual amount of rent being received for the rental of the building or place, or the existence of any vacancy therein, may be considered, but shall not be the sole determinant of the fair market rental value. Expert testimony may be used to determine the fair market rental value.

(d) This section shall become operative on January 1, 1996.

(c) Participating districts shall encourage the participation of elementary and secondary schools with low academic performance.

(d) The Superintendent of Public Instruction shall develop and distribute a program advisory to school districts on this program option.

(e) This section shall become inoperative on June 30, 1996, and, as of January 1, 1997, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1997, deletes or extends the dates on which it becomes inoperative and is repealed.

CHAPTER 582

An act to add Section 410.42 to the Code of Civil Procedure, relating to contracts.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 410.42 is added to the Code of Civil Procedure, to read:

410.42. The following provisions of a contract between the contractor and a subcontractor with principal offices in this state, for the construction of a public or private work of improvement in this state, shall be void and unenforceable:

(a) A provision which purports to require any dispute between the parties to be litigated, arbitrated, or otherwise determined outside this state.

(b) A provision which purports to preclude a party from

commencing such a proceeding or obtaining a judgment or other resolution in this state or the courts of this state.

For purposes of this section, "construction" means any work or services performed on, or materials provided for, a work of improvement, as defined in Section 3106 of the Civil Code, and for which a lien may be claimed pursuant to Section 3110 of the Civil Code (whether or not a lien is in fact claimed) or for which such a lien could be claimed but for Section 3109.

CHAPTER 583

An act to amend Section 66602 of, to add Section 66646.1 to, to add Chapter 5.5 (commencing with Section 66663) to Title 7.2 of, and to repeal Section 66667 of, the Government Code, relating to San Francisco Bay.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 66602 of the Government Code is amended to read:

66602. The Legislature further finds and declares that certain water-oriented land uses along the bay shoreline are essential to the public welfare of the bay area, and that these uses include ports, water-related industries, airports, wildlife refuges, water-oriented recreation and public assembly, desalinization plants, upland dredged material disposal sites, and powerplants requiring large amounts of water for cooling purposes; that the San Francisco Bay Plan should make provision for adequate and suitable locations for all these uses, thereby minimizing the necessity for future bay fill to create new sites for these uses; that existing public access to the shoreline and waters of the San Francisco Bay is inadequate and that maximum feasible public access, consistent with a proposed project, should be provided.

SEC. 2. Section 66646.1 is added to the Government Code, to read:

66646.1. The Legislature finds that the State Water Resources Control Board and the California Regional Water Quality Control Board for the San Francisco Bay Region have the responsibility for establishing the beneficial uses of the waters of San Francisco Bay and setting water quality objectives to protect these uses, and have the primary responsibility for coordination, control, and enforcement of water quality in San Francisco Bay. The policies, decisions, advice, and authority of these boards should be the primary basis for the commission to carry out its water quality responsibilities in San Francisco Bay.

SEC. 3. Chapter 5.5 (commencing with Section 66663) is added to Title 7.2 of the Government Code, to read:

CHAPTER 5.5. SAN FRANCISCO BAY DREDGING

Article 1. Findings and Declarations

66663. The Legislature hereby finds and declares that because of the shallowness and high rate of sedimentation of the San Francisco Bay, dredging is essential to establish and maintain navigational channels for maritime commerce, which contributes substantially to the local, regional, and state economies, as well as for military navigation, flood control, recreational boating, and other public purposes.

66663.1. The Legislature further finds and declares that it is in the interest of the state to accomplish the following:

(a) Establish the relative importance of dredging needs so that the most important projects can be prioritized and accomplished quickly and unnecessary dredging activities are eliminated.

(b) Examine the potential for and promote using dredged materials as a resource, such as creating new wetlands and maintaining existing levees.

(c) Establish a broad range of environmentally sound and economically feasible disposal options in order to protect fish and wildlife resources and other beneficial uses of the bay and the ocean.

(d) Identify how disposal sites can best be managed and assure adequate monitoring of dredging and disposal activities.

66663.2. The Legislature further finds and declares that the United States Army Corps of Engineers, the Environmental Protection Agency, the State Water Resources Control Board and relevant California regional water quality control boards, and the San Francisco Bay Conservation and Development Commission have agreed to participate in a joint effort known as the Long Term Management Strategy (LTMS) to formulate a federal/state management strategy for bay dredging that concentrates federal efforts toward studying and possibly designating ocean disposal sites, and state efforts towards inbay and upland disposal options. This chapter is intended to reflect the commission's role in the Long Term Management Strategy, including the following:

(a) Evaluation of the use of upland, diked bayland, and delta areas for reuse of material dredged from the bay, regulatory constraints and opportunities involving upland disposal, and potential project sponsors and methods to implement those uses.

(b) Participation with the United States Geological Survey to make a detailed study of bay sediment processes affecting the need for bay dredging and the physical impacts of inbay disposal to augment the modeling work on bay sediment dynamics being performed by the State Water Resources Control Board and the United States Army Corps of Engineers.

(c) Participation in the studies of the economic and environmental impacts of the array of disposal options, and assistance in the identification of feasible and environmentally acceptable disposal sites for material dredged from the bay in the ocean, bay, upland, and delta areas, with particular attention given to identifying sites suitable for the reuse of dredged materials.

(d) Participation in the development of a program to implement the Long Term Management Strategy, including the prioritization of dredging needs, taking into account technical requirements, geographic factors, and economic investments affecting, and environmental impacts resulting from, maritime, recreational boating, and other dredging projects, and the monitoring and evaluation of (1) regulatory compliance, (2) the environmental effects of dredging and disposal, and (3) the effectiveness of designated disposal sites.

66663.3. The Legislature finds and declares that the commission should avoid duplication of effort in carrying out its role in the Long Term Management Strategy by making maximum use of information available from other portions of the strategy, the San Francisco Estuary Project, and other federal, state, and local agencies and private organizations.

Article 2. Definitions

66664. "Bay" means all portions of San Francisco Bay, as defined in subdivision (a) of Section 66610.

66664.1. "Commission" means the San Francisco Bay Conservation and Development Commission.

66664.2. "Delta" means the Sacramento-San Joaquin Delta, as described in Section 12220 of the Water Code.

66664.3. "Dredged material disposal" means the placement of material extracted by dredging.

66664.4. "Dredging" means the extraction of sand, mud, or other materials from San Francisco Bay, its tributaries, the delta, or coastal state waters.

66664.5. "Reuse" means the use of dredged material as a construction material or for some other beneficial purpose.

66664.6. "Upland disposal" means disposal of dredged material in areas not subject to tidal action.

Article 3. Implementation

66666. No provision of this chapter shall be construed to change any existing regulatory authority under Division 6 (commencing with Section 6001), Division 7 (commencing with Section 8600), or Division 13 (commencing with Section 21000) of the Public Resources Code, or the Porter-Cologne Water Quality Control Act (Division 7 (commencing with Section 13000) of the Water Code), all of which shall remain in full force and effect. Nothing in this

chapter shall be construed to remove or otherwise affect certifications, waivers of certifications, waste discharge requirements, or commission or State Lands Commission permits now or hereafter issued for dredging and disposal projects pursuant to this title or any other applicable provision of state or federal law.

66667. (a) The commission may impose a user fee not to exceed ten cents ($0.10) per cubic yard of material upon any public agency or person who proposes to dredge material from, or dispose of dredged material in, the area described in subdivisions (a) and (e) of Section 66610. As needed, the commission shall, after a public hearing, set the fee at an amount which it finds necessary to meet its cost for participating in the Long Term Management Strategy. Prior to setting the fee, the commission shall consult with affected public agencies or persons proposing to dredge in the area described in subdivisions (a) and (e) of Section 66610 in an attempt to obtain funding for these costs from alternative sources, including, but not limited to, the General Fund, federal agencies, and voluntary industry funding. To the extent alternative funding is accepted by the commission to carry out the purposes of this chapter, the commission shall reduce on a commensurate basis, or shall not impose, the user fee authorized by this section. In no event shall the sum of all of the fees collected by the commission pursuant to this section and the funding obtained from alternative sources exceed the sum of six hundred fifty thousand dollars ($650,000). Funds from fees and alternative sources shall be deposited in the Long Term Management Strategy Study Fund, which is hereby created in the State Treasury. All moneys in the Long Term Management Strategy Study Fund shall be available to the commission, upon appropriation by the Legislature, only for costs associated with its participation in the Long Term Management Strategy. The commission shall include a detailed accounting of funds imposed, collected, and expended in the annual report required by Section 66661.

(b) This section shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute which is enacted before January 1, 1998, deletes or extends that date.

CHAPTER 584

An act to amend Section 12022.2 of the Penal Code, relating to crimes.

[Approved by Governor October 5, 1991 Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 12022.2 of the Penal Code is amended to read:

12022.2. (a) Any person who, while armed with a firearm in the commission or attempted commission of any felony, has in his or her immediate possession ammunition for the firearm designed primarily to penetrate metal or armor, shall upon conviction of that felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony, be punished by an additional term of three, four, or five years. The court shall order the middle term unless there are circumstances in aggravation or mitigation. The court shall state the reasons for its enhancement choice on the record at the time of the sentence.

(b) Any person who wears a body vest in the commission or attempted commission of a violent offense, as defined in subdivision (b) of Section 12021.1, shall, upon conviction of that felony or attempted felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony, be punished by an additional term of one, two, or three years. The court shall order the middle term unless there are circumstances in aggravation or mitigation. The court shall state the reasons for its enhancement choice on the record at the time of the sentence.

(c) As used in this section, "body vest" means any bullet-resistant material intended to provide ballistic and trauma protection for the wearer.

CHAPTER 585

An act to amend Section 67380 of the Education Code, relating to postsecondary education.

[Approved by Governor October 5, 1991 Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 67380 of the Education Code is amended to read:

67380. The governing board of each community college district, the Trustees of the California State University, the Board of Directors of the Hastings College of the Law, and the Regents of the University of California shall do all of the following:

(a) Require the appropriate officials at each campus within their respective jurisdictions to compile records of both of the following:

(1) All occurrences reported to campus police or safety authorities of, and arrests for, crimes which are committed on campus and which involve violence, hate violence, theft or destruction of property, illegal drugs, or alcohol intoxication.

(2) All occurrences of noncriminal acts of hate violence reported to, and for which a written report is prepared by, designated campus authorities.

(b) Any written record of a noncriminal act of hate violence shall include, but not be limited to, the following:

For the purposes of this section, posting and distribution may be accomplished by including relevant safety information in a student handbook or brochure which is made generally available to students.

(e) Require the appropriate officials at each campus within their respective jurisdictions to report information compiled pursuant to subdivision (a) relating to hate violence to the governing board, trustees, board of directors, or trustees, as the case may be. The governing board, trustees, board of directors, or trustees, as the case may be, shall, upon collection of that information from all of the campuses within their jurisdiction, transmit a report containing a compilation of that information to the California Postsecondary Education Commission no later than January 1 of each year, commencing January 1, 1993. The commission shall submit a report to the Legislature and the Governor on July 1, 1993, and every two years thereafter, on the type and number of incidents of hate violence occurring in institutions of public higher education in California. It is the intent of the Legislature that the governing board of each community college district, the Trustees of the California State University, the Board of Directors of the Hastings College of the Law, and the Regents of the University of California establish guidelines for identifying and reporting occurrences of hate violence. It is the intent of the Legislature that the guidelines established by these institutions of higher education be as consistent with each other as possible. These guidelines shall be developed in consultation with the California Postsecondary Education Commission, the Department of Fair Employment and Housing, and the California Association of Human Rights Organizations. The report shall include, but not be limited to, the following:

(1) A comparison of incidents occurring in the year being reported to previous years for which there is hate violence data.

SECTION 1. Section 4760 of the Vehicle Code is amended to read:

4760. (a) (1) Except as provided in subdivision (b), the department shall refuse to renew the registration of any vehicle if the registered owner or lessee has been mailed a notice of delinquent parking violation relating to standing or parking, the processing agency has filed or electronically transmitted to the department an itemization of unpaid parking penalties, including administrative fees pursuant to Section 40220, and the owner or lessee has not paid the parking penalty and administrative fee pursuant to Section 40211, unless he or she pays to the department, at the time of application for renewal, the full amount of all outstanding parking penalties and administrative fees, as shown by records of the department.

(2) When the department receives the full amount of all outstanding parking penalties and administrative fees pursuant to paragraph (1), it shall issue a receipt showing each parking penalty and administrative fee which has been paid, the processing agency for that penalty and fee, and a description of the vehicle involved in the parking violations. The receipt shall also state that, to reduce the possibility of impoundment under Section 22651 or immobilization under Section 22651.7 of the vehicle involved in the parking violation, the registered owner or lessee may transmit to that processing agency a copy or other evidence of the receipt.

(b) The department shall not refuse to renew the registration of any vehicle owned by a renter or lessor if the applicant provides the department with the abstract or notice of disposition of parking violation issued pursuant to subdivision (c) for clearing all

outstanding parking penalties and administrative fees as shown by the records of the department.

(c) The court or designated processing agency shall issue an abstract or notice of disposition of parking violation to the renter or lessor of a vehicle issued a notice of delinquent parking violation relating to standing or parking, if the renter or lessor provides the court or processing agency with the name, address, and driver's license number of the rentee or lessee at the time of occurrence of the parking violation.

The processing agency shall, within 72 hours of receiving that satisfactory evidence, update its records to reflect the payments made to the department. If the processing agency does not receive the amount of the parking penalties and administrative fees from the department within four months of the date of issuance of that satisfactory evidence, the processing agency may revise its records to reflect that no payments were received for the notices of parking violation.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

In addition, a high school district shall be deemed to have a substantial enrollment in multitrack year-round schools for purposes of Section 17717.7 if, at the option of the district, the entire high school to be constructed is to operate on a multitrack year-round basis.

SEC. 2. Notwithstanding any other provision of law, the buildings currently leased by the Mendocino-Lake Community College District, and located at 525 North Main Street in Lakeport, California, and at the Willits Center at 11 Marin Street in Willits Center, are exempt from Article 7 (commencing with Section 81130) and Article 8 (commencing with Section 81160) of Chapter 1 of Part 49 of the Education Code until the date upon which the construction of permanent facilities of the Lake County Center and the Willits Center of Mendocino College is complete or December 31, 1995, whichever date occurs first.

SEC. 3. Due to unique circumstances concerning the Mendocino-Lake Community College District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

(5) Any situation in which residents experience mental or verbal abuse.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 590

An act to amend Sections 44244.1, 44332, 44424, and 44425 of, and to add Section 44440 to, the Education Code, relating to teacher credentialing.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 44244.1 of the Education Code is amended to read:

44244.1. A recommendation by the Committee of Credentials to deny, suspend, or revoke an application or a credential of a certified employee or to issue a private admonition may be adopted by the Commission on Teacher Credentialing without further proceedings if, after service of notice of the committee decision pursuant to Section 44244, the certified employee fails to give notice of intent to request an administrative hearing or if he or she gives notice of intent not to request an administrative hearing within 30 days. All proceedings before the commission to consider a recommendation for issuance of a private admonition shall be held in executive session. The commission shall make no disclosures concerning private admonitions except as required by Section 44438. For good cause shown, the commission may grant an additional 30 days for filing of a request for an administrative hearing.

SEC. 2. Section 44332 of the Education Code is amended to read:

44332. Except where that service is provided by a school district authorized to register certification documents pursuant to Section 44332.5, each county or city and county board of education may issue temporary certificates for the purpose of authorizing salary payments to certified employees whose credential applications are being processed or to personnel employed in children's centers or

other preschool educational programs whose permit applications are being processed. However, the individual must have demonstrated proficiency in basic reading, writing, and mathematic skills pursuant to the requirements of Section 44252.5. The applicant for the temporary certificate shall make a statement under oath that he or she has duly filed an application for a credential or permit together with the required fee and that, to the best of his or her knowledge, no reason exists why a certificate or permit should not be issued. The certificate or permit shall be valid for not more than one calendar year from the date of issuance.

The county or city and county board of education shall cancel the temporary certificate or permit immediately upon receipt of certification in writing from the commission that the applicant apparently does not possess adequate academic qualifications or apparently has a criminal record that would disqualify the applicant.

In no event shall a temporary certificate issued to a permit applicant be valid beyond the time that the commission either issues or denies the originally requested permit. In no event shall a temporary certificate issued to a credential applicant be valid beyond the time that the commission provides written notification to the county or city and county board of education that the applicant apparently does not possess adequate qualifications, that the commission has received facts that may cause denial of the application, or issues or denies the originally requested credential.

SEC. 3. Section 44424 of the Education Code is amended to read:

Any action that the commission is permitted to take following a conviction may be taken after the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence and the time for appeal has elapsed or the judgment of conviction has been affirmed on appeal, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

SECTION 1. Section 56.10 of the Civil Code is amended to read:

56.10. (a) No provider of health care shall disclose medical information regarding a patient of the provider without first obtaining an authorization, except as provided in subdivision (b) or (c).

(7) When otherwise specifically required by law.

(c) A provider of health care may disclose medical information as follows:

(1) The information may be disclosed to providers of health care or other health care professionals or facilities for purposes of diagnosis or treatment of the patient. This includes, in an emergency situation, the communication of patient information by radio transmission between emergency medical personnel at the scene of an emergency, or in an emergency medical transport vehicle, and emergency medical personnel at a health facility licensed pursuant to Chapter 2 (commencing with Section 1200) of Division 2 of the Health and Safety Code.

(2) The information may be disclosed to an insurer, employer,

health care service plan, hospital service plan, employee benefit plan, governmental authority, or any other person or entity responsible for paying for health care services rendered to the patient, to the extent necessary to allow responsibility for payment to be determined and payment to be made. If (A) the patient is, by reason of a comatose or other disabling medical condition, unable to consent to the disclosure of medical information and (B) no other arrangements have been made to pay for the health care services being rendered to the patient, the information may be disclosed to a governmental authority to the extent necessary to determine the patient's eligibility for, and to obtain, payment under a governmental program for health care services provided to the patient. The information may also be disclosed to another provider as necessary to assist the other provider in obtaining payment for health care services rendered by that provider to the patient.

(3) The information may be disclosed to any person or entity that provides billing, claims management, medical data processing, or other administrative services for providers or for any of the persons or entities specified in paragraph (2). However, no information so disclosed shall be further disclosed by the recipient in any way which would be violative of this part.

(4) The information may be disclosed to organized committees and agents of professional societies or of medical staffs of licensed hospitals, or to licensed health care service plans, or to professional standards review organizations, or to utilization and quality control peer review organizations as established by Congress in Public Law 97-248 in 1982, or to persons or organizations insuring, responsible for, or defending professional liability which a provider may incur, if the committees, agents, plans, organizations, or persons are engaged in reviewing the competence or qualifications of health care professionals or in reviewing health care services with respect to medical necessity, level of care, quality of care, or justification of charges.

(5) The information in the possession of any provider of health care may be reviewed by any private or public body responsible for licensing or accrediting the provider of health care. However, no patient identifying medical information may be removed from the premises except as expressly permitted or required elsewhere by law.

(6) The information may be disclosed to the county coroner in the course of an investigation by the coroner's office.

(7) The information may be disclosed to public agencies, clinical investigators, health care research organizations, and accredited public or private nonprofit educational or health care institutions for bona fide research purposes. However, no information so disclosed shall be further disclosed by the recipient in any way which would permit identification of the patient.

(8) A provider of health care that has created medical information as a result of employment-related health care services to an

employee conducted at the specific prior written request and expense of the employer may disclose to the employee's employer that part of the information which:

(A) Is relevant in a law suit, arbitration, grievance, or other claim or challenge to which the employer and the employee are parties and in which the patient has placed in issue his or her medical history, mental or physical condition, or treatment, provided it may only be used or disclosed in connection with that proceeding.

(B) Describes functional limitations of the patient that may entitle the patient to leave from work for medical reasons or limit the patient's fitness to perform his or her present employment, provided that no statement of medical cause is included in the information disclosed.

(9) Unless the provider is notified in writing of an agreement by the sponsor, insurer, or administrator to the contrary, the information may be disclosed to a sponsor, insurer, or administrator of a group or individual insured or uninsured plan or policy which the patient seeks coverage by or benefits from, if the information was created by the provider of health care as the result of services conducted at the specific prior written request and expense of the sponsor, insurer, or administrator for the purpose of evaluating the application for coverage or benefits.

(10) The information may be disclosed to a group practice prepayment health care service plan by providers which contract with the plan and may be transferred among providers which contract with the plan, for the purpose of administering the plan. Medical information may not otherwise be disclosed by a health care service plan except in accordance with the provisions of this part.

(11) Nothing in this part shall prevent the disclosure by a provider of health care to an insurance institution, agent, or support organization, subject to Article 6.6 (commencing with Section 791) of Part 2 of Division 1 of the Insurance Code, of medical information if the insurance institution, agent, or support organization has complied with all requirements for obtaining the information pursuant to Article 6.6 (commencing with Section 791) of Part 2 of Division 1 of the Insurance Code.

(12) The information relevant to the patient's condition and care and treatment provided may be disclosed to a probate court investigator engaged in determining the need for an initial conservatorship or continuation of an existent conservatorship, if the patient is unable to give informed consent.

SECTION 1. Section 11164 of the Health and Safety Code is amended to read:

11164. Except as provided in Section 11167, no person shall prescribe a controlled substance, nor shall any person fill, compound, or dispense such a prescription unless it complies with the requirements of this section.

(a) Each prescription for a controlled substance classified in Schedule II shall be wholly written in ink or indelible pencil in the handwriting of the prescriber upon the official prescription form issued by the Department of Justice. Each prescription shall be prepared in triplicate, signed, and dated by the prescriber, and shall contain the name and address of the person for whom the controlled substance is prescribed, the name, quantity, and strength of the controlled substance prescribed, directions for use, and the address, category of professional licensure, and the federal controlled substance registration number of the prescriber. The original and duplicate of the prescription shall be delivered to the pharmacist filling the prescription. The duplicate shall be retained by the pharmacist and the original, properly endorsed by the pharmacist with the name and address of the pharmacy, the pharmacy's state license number, the date the prescription was filled and the signature of the pharmacist, shall be transmitted to the Department of Justice at the end of the month in which the prescription was filled. Upon receipt of an incompletely prepared official prescription form of the Department of Justice, the pharmacist may enter on the face of the prescription the address of the patient.

(b) Each prescription for a controlled substance classified in Schedule III, IV, or V, except as authorized by subdivision (c), shall be subject to the following requirements:

(1) The prescription shall be signed and dated by the prescriber and shall contain the name of the person for whom the controlled substance is prescribed, the name and quantity of the controlled substance prescribed, and directions for use. With respect to prescriptions for controlled substances classified in Schedules III and IV, the signature, date, and information required by this paragraph shall be wholly written in ink or indelible pencil in the handwriting of the prescriber.

(2) In addition, the prescription shall contain the name, address, telephone number, category of professional licensure, and federal

Notwithstanding any provision in this section, the prescriber's address, telephone number, category of professional licensure, or federal controlled substances registration number need not appear on the prescription if that information is readily retrievable in the pharmacy.

(3) The prescription shall also contain the address of the person for whom the controlled substance is prescribed. If the prescriber does not specify this address on the prescription, the pharmacist filling the prescription or an employee acting under the direction of the pharmacist shall write or type the address on the prescription or maintain this information in a readily retrievable form in the pharmacy.

(c) Any controlled substance classified in Schedule III, IV, or V may be dispensed upon an oral prescription, which shall be reduced to writing by the pharmacist filling the prescription or by any other person expressly authorized by provisions of the Business and Professions Code. The date of issue of the prescription and all the information required for a written prescription by subdivision (b) shall be included in the written record of the prescription. The pharmacist need not reduce to writing the address, telephone number, license classification, or federal registry number of the prescriber or the address of the patient if that information is readily retrievable in the pharmacy. Pursuant to authorization of the prescriber, any employee of the prescriber on behalf of the prescriber may orally transmit a prescription for a controlled substance classified in Schedule III, IV, or V, if in these cases the written record of the prescription required by this subdivision specifies the name of the employee of the prescriber transmitting the prescription.

(d) The use of commonly used abbreviations shall not invalidate an otherwise valid prescription.

(e) Notwithstanding any provision of subdivisions (b) and (c), prescriptions for a controlled substance classified in Schedule V may be for more than one person in the same family with the same medical need.

(f) In addition to the prescriber's record required by Section 11190, any practitioner dispensing a controlled substance classified in Schedule II in accordance with subdivision (b) of Section 11158 shall prepare a written record thereof on the official forms issued by the Department of Justice, pursuant to Section 11161, and shall transmit the original to the Department of Justice in accordance with any rules that the department may adopt for completion and transmittal of the forms.

SEC. 2. Section 11200 of the Health and Safety Code is amended to read:

11200. No person shall dispense or refill a controlled substance

prescription more than six months after the date thereof or cause a prescription for a Schedule III or IV substance to be refilled in an amount in excess of a 120-day supply, unless renewed by the prescriber. No prescription for a Schedule II substance may be refilled.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 22350 of the Business and Professions Code is amended to read:

22350. (a) Any person who makes more than 10 services of process within this state during one calendar year shall file a verified certificate of registration as a process server with the county clerk of the county in which he or she resides or has his or her principal place of business.

(3) Any person who is specially appointed by a court to serve its process.

(4) An employee of a person who is registered under this chapter or a person who is acting as an independent contractor pursuant to the provisions of Section 22356.5, for a person registered under this chapter.

(5) A licensed private investigator or his or her employees.

(6) Any agent or employee of a nonprofit or fraternal organization who serves process on behalf of the organization and receives no fee for such service.

SEC. 2. Section 22356 of the Business and Professions Code is amended to read:

22356. A registrant shall be responsible at all times for the good conduct of his or her employees acting within the course or scope of their employment, and any person acting as an independent contractor within the course or scope of the agency relationship with the registrant.

SEC. 3. Section 22356.5 is added to the Business and Professions Code, to read:

22356.5. (a) In addition to the information required by subdivision (b) of Section 22360, any proof of service of any process which is signed by an independent contractor of a person registered under this chapter shall indicate that the proof of service was signed as an independent contractor of a registered process server. The proof of service shall additionally indicate whether the independent contractor is separately registered pursuant to this chapter, and if so, the county of registration and the number assigned pursuant to

Section 22355.

(b) No registrant shall permit any individual to sign any proof of service of any process as an independent contractor unless all of the following conditions are met:

(1) The independent contractor is performing pursuant to a written independent contractor agreement with the registrant.

(2) The independent contractor supplies proof of bonding under Section 22353, if applicable.

(3) The registrant exercises minimal supervision or control over the means of accomplishing the service of any process assigned by the registrant. The registrant may communicate a deadline for the service of process and request notification that such service has been completed.

(4) The registrant imposes no restrictions on the independent contractor's ability to perform services for others registered under this chapter.

(5) The independent contractor supplies proof that any required business licenses have been obtained.

(c) Persons not meeting the criteria of subdivision (b) shall be treated as employees of the registrant while persons meeting the criteria of subdivision (b) shall be treated as independent contractors.

(b) An investigation concerning the revocation or suspension of a certificate of registration may be commenced at any time at the option of the county clerk if the county clerk deems it to be appropriate. A complaint by any person who has alleged that he or she has been injured by a service of process shall be investigated by the public prosecutor. The investigation shall determine if the registrant complied with the provisions of law governing the service of process or constituted improper service of process not amounting to a violation of the law.

(c) If the public prosecutor determines from the investigation that cause may exist for the suspension or revocation of the certificate of registration, he or she shall set the matter for hearing and give notice to the registrant. That hearing shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Division 3 of Title 2 of the Government Code except that the decision of the administrative law judge shall be final. For the purposes of

those provisions, the public prosecutor shall be deemed to be the agency.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of the code, standard, rule, regulation, or order alleged to have been violated. In addition, the citation shall fix a reasonable time for the abatement of the alleged violation. The period specified for abatement shall not commence running until the date the citation or notice is received by certified mail and the certified mail receipt is signed, or if not signed, the date the return

is made to the post office. If the division officially and directly delivers the citation or notice to the employer, the period specified for abatement shall commence running on the date of the delivery.

A "notice" in lieu of citation may be issued with respect to violations found in an inspection or investigation which meet either of the following requirements:

(1) The violations do not have a direct relationship upon the health or safety of an employee.

(2) The violations do not have an immediate relationship to the health or safety of an employee, and are of a general or regulatory nature. A notice in lieu of a citation may be issued only if the employer agrees to correct the violations within a reasonable time, as specified by the division, and agrees not to appeal the finding of the division that the violations exist. A notice issued pursuant to this paragraph shall have the same effect as a citation for purposes of establishing repeat violations or a failure to abate. Every notice shall clearly state the abatement period specified by the division, that the notice may not be appealed, and that the notice has the same effect as a citation for purposes of establishing a repeated violation or a failure to abate. The employer shall indicate agreement to the provisions and conditions of the notice by his or her signature on the notice.

Under no circumstances shall a notice be issued in lieu of a citation if the violations are serious, repeated, willful, or arise from a failure to abate.

The director shall prescribe guidelines for the issuance of these notices.

The division may impose a civil penalty against an employer as specified in Chapter 4 (commencing with Section 6423) of this part. A notice in lieu of a citation may not be issued if the number of first instance violations found in the inspection (other than serious, willful, or repeated violations) is 10 or more violations.

No citation or notice shall be issued by the division for a given violation or violations after six months have elapsed since occurrence of the violation.

The director shall prescribe procedures for the issuance of a citation or notice.

The division shall prepare and maintain records capable of supplying an inspector with previous citations and notices issued to an employer.

SEC. 2. Section 6425 of the Labor Code is amended to read:

6425. Any employer, and every employee having direction, management, control, or custody of any employment, place of employment, or other employee, who willfully violates any occupational safety or health standard, order, or special order, or Section 25910 of the Health and Safety Code, and that violation caused death to any employee, or caused permanent or prolonged impairment of the body of any employee, shall, upon conviction, be punished by a fine of not more than seventy thousand dollars

($70,000), by imprisonment for not more than six months, or by both; except that if the conviction is for a violation committed after a first conviction of the person, punishment shall be by a fine not to exceed seventy thousand dollars ($70,000), but in no case less than thirty-five thousand dollars ($35,000), by imprisonment for not more than one year, or by both. Nothing in this section shall prohibit a prosecution under Section 192 of the Penal Code.

SEC. 3. Section 6426 of the Labor Code is amended to read:

6426. Whoever knowingly makes any false statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained pursuant to this division shall, upon conviction, be punished by a fine of not more than seventy thousand dollars ($70,000), or by imprisonment for not more than six months, or by both.

SEC. 4. Section 6427 of the Labor Code is amended to read:

6427. Any employer who violates any occupational safety or health standard, order, or special order, or Section 25910 of the Health and Safety Code, and the violation is specifically determined not to be of a serious nature, may be assessed a civil penalty of up to seven thousand dollars ($7,000) for each violation. Employers who do not have an operative injury prevention program shall receive no adjustment for good faith of the employer or history of previous violations as provided in paragraphs (3) and (4) of subdivision (c) of Section 6319.

SEC. 5. Section 6428 of the Labor Code is amended to read:

6428. SEC. 7. Section 6430 of the Labor Code is amended to read:

6430. (a) Any employer who fails to correct a violation of any occupational safety or health standard, order, or special order, or Section 25910 of the Health and Safety Code, within the period permitted for its correction shall be assessed a civil penalty of not more than seven thousand dollars ($7,000) for each day during which the failure or violation continues.

(b) Notwithstanding subdivision (a), for any employer who submits a signed statement affirming compliance with the

abatement terms pursuant to Section 6320, and is found upon a reinspection not to have abated the violation, any adjustment to the civil penalty based on abatement shall be rescinded and the additional civil penalty assessed for failure to abate shall not be adjusted for good faith of the employer or history of previous violations as provided in paragraphs (3) and (4) of subdivision (c) of Section 6319.

SEC. 8. Section 6431 of the Labor Code is amended to read:

6431. Any employer who violates any of the posting or recordkeeping requirements as prescribed by regulations adopted pursuant to Sections 6408 and 6410, or who fails to post any notice required by Section 3550, shall be assessed a civil penalty of up to seven thousand dollars ($7,000) for each violation.

SEC. 9. Section 6434 of the Labor Code is amended to read:

6434. The civil penalties provided for in this chapter shall not be assessed against employers that are governmental entities.

SEC. 10. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to comply with federal OSHA's state plan approval criteria and to continue to receive federal funding for the CAL/OSHA program, it is necessary for this act to take effect immediately.

CHAPTER 600

An act to amend Sections 3710.2, 3711, and 3722 of the Labor Code, relating to workers' compensation, and making an appropriation therefor.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 3710.2 of the Labor Code is amended to read:

3710.2. Failure of an employer, officer, or anyone having direction, management, or control of any place of employment or of employees to observe a stop order issued and served upon him or her pursuant to Section 3710.1 is a misdemeanor punishable by imprisonment in the county jail not exceeding 60 days or by a fine not exceeding ten thousand dollars ($10,000), or both. Fines shall be paid into the State Treasury to the credit of the Uninsured Employers Fund. The director may also obtain injunctive and other relief from the courts to carry out the purposes of Section 3710.1. The failure to obtain a policy of workers' compensation insurance or a

certificate of consent to self-insure as required by Section 3700 is a misdemeanor in accordance with Section 3700.5.

SEC. 2. Section 3711 of the Labor Code is amended to read:

3711. (a) Every employer who applies for any license or for renewal of any license for a business issued pursuant to Section 37101 of the Government Code or Section 7284 of the Revenue and Taxation Code shall provide proof of valid workers' compensation insurance or other proof of compliance with the provisions of Section 3700.

(b) This section shall not apply if the applicant for any license or renewal of any license signs a certificate which reads as follows, or the wording of which has been approved by the Director of Industrial Relations:

"I certify that in the performance of work for which this license is issued I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California."

If, after signing the certificate, the applicant for the license should become subject to the workers' compensation provisions of this code, he or she shall forthwith comply with the provisions of Section 3700 or his or her license is revoked.

(c) The director may, at any time, require any employer to furnish a written statement showing the name of his or her insurer or the manner in which the employer has complied with the provisions of Section 3700. Failure of the employer for a period of 10 days to furnish the written statement is prima facie evidence that he or she has failed or neglected in respect to the matters so required. The 10-day period shall not be construed to allow an uninsured employer, so found by the director, any extension of time from the application of the provisions of Section 3710.1. An insured employer who fails to respond to an inquiry respecting his or her status as to his or her workers' compensation security shall be assessed and required to pay a penalty of five hundred dollars ($500) to the director for deposit in the State Treasury to the credit of the Uninsured Employers Fund. In any prosecution under this article, the burden of proof is upon the defendant to show that he or she has secured the payment of compensation in one of the two ways set forth in Section 3700.

SEC. 3. Section 3722 of the Labor Code is amended to read:

3722. (a) At the time the stop order is issued and served pursuant to Section 3710.1, the director shall also issue and serve a penalty assessment order requiring the uninsured employer to pay to the director, for deposit in the State Treasury to the credit of the Uninsured Employers Fund, the sum of one thousand dollars ($1,000) per employee employed at the time the order is issued and served, as an additional penalty for being uninsured at that time.

(b) If upon the filing of a claim for compensation under this division the Workers' Compensation Appeals Board finds that any employer has not secured the payment of compensation as required by this division and finds the claim either noncompensable or

compensable, the appeals board shall mail a copy of their findings to the uninsured employer and the director, together with a direction to the uninsured employer to file a verified statement pursuant to subdivision (c).

After the time for any appeal has expired and the adjudication of the claim has become final, the uninsured employer shall be assessed and pay as a penalty either of the following:

(1) In noncompensable cases, two thousand dollars ($2,000) per each employee employed at the time of the claimed injury.

(2) In compensable cases, ten thousand dollars ($10,000) per each employee employed on the date of the injury.

(c) In order to establish the number of employees the uninsured employer had on the date of the claimed injury in noncompensable cases and on the date of injury in compensable cases, the employer shall submit to the director within 10 days after service of findings, awards, and orders of the Workers' Compensation Appeals Board a verified statement of the number of employees in his or her employ on the date of injury. If the employer fails to submit to the director this verified statement or if the director disputes the accuracy of the number of employees reported by the employer, the director shall use any information regarding the number of employees as the director may have or otherwise obtains.

(d) The maximum amount of penalties which may be assessed pursuant to this section is one hundred thousand dollars ($100,000). Payment shall be transmitted to the director for deposit in the State Treasury to the credit of the Uninsured Employers Fund.

(e) The Workers' Compensation Appeals Board may provide for a summary hearing on the sole issue of compensation coverage to effect the provisions of this section.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 601

An act to add Chapter 1.1 (commencing with Section 1180.101) to Part 6 of Division 1 of the Health and Safety Code, relating to primary care clinics, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.1 (commencing with Section 1180.101) is added to Part 6 of Division 1 of the Health and Safety Code, to read:

CHAPTER 1.1. PRIMARY CARE CLINIC REVOLVING FUND

Article 1. General Provisions

1180.101. The Legislature finds and declares all of the following:

(a) Clinics are valuable partners in the state's efforts to improve access to health services.

(b) Clinics have an established record of providing quality health services to medically uninsured persons at a reasonable cost.

(c) Clinics are experienced in serving the culturally diverse populations of this state and have developed comprehensive health services packages that meet special population needs.

(d) Clinics are major partners with all levels of government as contractors and grantees in programs that serve the poor, low income, minorities, and other target populations with special needs in both urban and rural areas of California.

(e) The state's grant and contract approval process are so complicated and time consuming that clinics are faced annually with severe cash-flow problems.

(f) The length of time required for the state to process and execute payment of claims submitted by clinics, creates severe cash-flow problems for the clinics.

(g) Clinics often have no choice but to borrow funds to cover operations pending receipt of state funds and the resulting interest payments reduce the amount of funds available for direct services to the needy population.

(h) Therefore, it is the intent of the Legislature that preliminary advance payment authority be established for the state department in order to alleviate clinics' cash-flow problems to the extent possible.

(i) It is the intent of the Legislature that a clinic revolving fund be established within the state department to expedite the payment process and thereby alleviate the cash-flow problems of clinics.

1180.105. As used in this chapter, "clinic" means a primary care clinic as defined in Section 1200.

1180.110. (a) The state department shall prepare and transmit to the Legislature a report of the state department's activities relating to the utilization of clinics to provide comprehensive health services pursuant to the following programs:

(1) Health of seasonal agricultural and migratory workers and their families program.

(2) American Indian health services program.

(3) Rural health services program.

(4) Grants-in-aid to clinic program.

(5) California health services corps program.

(b) A report shall be transmitted to the Legislature by July 1, 1992, and by July 1 of every fourth year thereafter.

(c) The report shall also include any grant funds expended and the resources allocated to the programs by the state department, including staff, travel, and support services.

(d) The report shall reflect activities, resources, and expenditures by fiscal year.

Article 2. The Clinic Revolving Fund

1180.121. The Clinic Revolving Fund of the State Department of Health Services is hereby established for the purpose of expediting preliminary advance payments as authorized pursuant to Article 3 (commencing with Section 1180.131) and to reimburse clinics that are grantees or contractors for services rendered under grants or contracts issued pursuant to this part and Part 6.9 (commencing with Section 1189.101).

1180.122. (a) Notwithstanding Section 16400 of the Government Code or any other provision of law, the department may, to the extent local assistance appropriations are made by the Legislature for programs set forth in this part and Part 6.9 (commencing with Section 1189.101), without at the time furnishing vouchers or itemized statements, draw up to 50 percent of the funds appropriated for the purposes of the Clinic Revolving Fund, for purposes of preliminary advance payments pursuant to Article 3 (commencing with Section 1180.131).

(b) The purpose of the Clinic Revolving Fund does not include expenses related to departmental administrative expenses, departmental travel expenses, departmental travel expense advances, or other departmental administrative costs.

1180.123. In lieu of actually withdrawing revolving fund moneys from the State Treasury, the Controller, upon the request of the State Department of Health Services, shall apply and credit the amount of the Clinic Revolving Fund, or any portion thereof, as repayment and return of any existing funds in the revolving fund to the appropriation for which it was drawn by the state department.

1180.124. The state department shall remain fully accountable for the Clinic Revolving Fund. All disbursements shall be substantiated by vouchers filed with the Controller. Disbursements may be

reported, substantiated by vouchers, from time to time to the Controller in connection with claims for reimbursements of the revolving fund. At any time, upon the demand of the Department of Finance or the Controller, the revolving fund shall be accounted for and substantiated by vouchers and itemized statements submitted to the Controller.

Article 3. Preliminary Advance Payments

1180.131. Notwithstanding any provision of law to the contrary, the state department may, to the extent funds are available, provide for advance payments for services to be performed under pending grant agreements or contracts with clinics pursuant to this part, at the time that the notice of award is issued if all of the following conditions are met:

(a) The request for application or the request for proposals contains the terms and conditions under which advance payment may be received pursuant to this section.

(b) That the total amount of the advance shall not exceed 25 percent of the amount of the proposed award, including any advance payments provided under authority of any other provision of law.

(c) That the terms and conditions of the request for application or the request for proposal, specifies that the grantee shall repay the full amount of the advance if the grant or the contract is not finally approved.

(d) That the state department has evaluated the financial stability of the clinic and found it to be reasonably financially sound.

(e) That advance payments be made only to those nonprofit agencies which request an advance in writing.

(f) That the application or proposal contains the terms and conditions set forth in the request for application or the request for proposal.

(g) That the application or proposal is signed by an authorized person representing the clinic.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide needed primary health care services, it is necessary that this act take effect immediately.

CHAPTER 602

An act to amend Sections 1875, 1875.3, 1875.6, and 2054 of, and to add Section 2058 to, the Insurance Code, and to add Section 1170.78 to the Penal Code, relating to insurance.

[Approved by Governor October 5, 1991 Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. In enacting this act, the Legislature finds and declares the following:

(a) California has recently been ravaged by a number of tragic arson set fires.

(b) Fires, especially those set by arson, place in jeopardy many lives of both the victims of arson fires and the firefighters who must suppress the fires.

(c) Arson fires destroy millions of dollars in property, both inhabitable and forest land.

(d) Arson fires set throughout California in 1990 resulted in a tremendous number of insurance claims, resulting in the pay out of hundreds of millions of dollars in claims, directly impacting the cost of residential insurance and resulting in an increase in the cost of residential insurance for all Californians.

SEC. 2. Section 1875 of the Insurance Code is amended to read:

1875. As used in this chapter:

(a) "Authorized agency" means any of the following officers or agencies, or their duly authorized representatives, when investigating or prosecuting arson in connection with a specific fire: the State Fire Marshal, the Director of the Department of Forestry and Fire Protection, the chief of any city or county fire department, the chief of any fire protection district, the Attorney General, any district attorney, or any peace officer, the Department of Insurance, and any federal agency.

(b) "Insurer" means any insurer admitted to write, or otherwise issuing, fire insurance covering property in this state and includes its agents, servants, investigators, and adjusters. "Insurer" includes the California FAIR Plan.

SEC. 3. Section 1875.3 of the Insurance Code is amended to read:

1875.3. An authorized agency shall notify the insurer, if known, and at the expense of the insurer, whenever it has reason to believe that a fire loss was not accidentally caused. The agency shall also release to the claimant's insurer specific information regarding the fire loss at the earliest time possible unless it determines that an ongoing investigation would be jeopardized.

SEC. 4. Section 1875.6 of the Insurance Code is amended to read:

1875.6. Any authorized agency that receives any information furnished as required by this article shall not make the information

public until the time that its release is required in connection with a criminal or civil proceeding.

SEC. 5. Section 2054 of the Insurance Code is amended to read:

2054. In the absence of any change increasing the risk without the consent of the insurer or of fraud on the part of the insured, and except as provided in Sections 2056 and 2058, the insurer under such a valued policy shall pay losses as follows:

(a) In case of a total loss, the whole amount insured upon the insured's interest in such building or structure, as stated in the policy and upon which the insurers have received a premium.

(b) In case of a partial loss the full amount of the partial loss.

(c) In case there are two or more policies covering the insured's interest, each policy shall contribute pro rata to the payment of such whole or partial loss.

SEC. 6. Section 2058 is added to the Insurance Code, to read:

2058. Notwithstanding any other provision of law, if a loss arising out of fire is rebuilt or replaced, an insured covered by a valued policy shall receive full payment for the loss up to the face amount of the policy. If the loss is not rebuilt or replaced, an insured covered by a valued policy shall receive either the replacement value of the loss or the face amount of the policy, whichever is less. As used in this section, "valued policy" has the meaning set forth in Section 412.

This section applies only to valued policies issued or renewed on and after July 1, 1992.

SEC. 7. Section 1170.78 is added to the Penal Code, to read:

1170.78. Upon a conviction of a violation of Section 451, the fact that the person committed the offense in retaliation against the owner or occupant of the property or structure burned, or against one believed by the person to be the owner or occupant of the property or structure burned, for any eviction or other legal action taken by the owner or occupant, or believed owner or occupant, shall be a circumstance in aggravation of the crime in imposing a term under subdivision (b) of Section 1170.

CHAPTER 603

An act to amend Sections 17274 and 24436.5 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor October 5, 1991 Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 17274 of the Revenue and Taxation Code is amended to read:

17274. (a) Notwithstanding any other provisions in this part to the contrary, in the case of a taxpayer who derives rental income

from substandard housing located in this state, no deduction shall be allowed for interest, taxes, depreciation, or amortization paid or incurred in the taxable year with respect to the substandard housing, except as provided in subdivision (e).

(b) "Substandard housing" means housing which (1) has been determined by a state or local government regulatory agency to violate state law or local codes dealing with health, safety, or building; and (2) after written notice of violation by the regulatory agency, specifying the applicability of this section, has not been brought to a condition of compliance within six months after the date of the notice or the time prescribed in the notice, whichever period is later; or on which good faith efforts for compliance have not been commenced, as determined by the regulatory agency. The regulatory agency may, for good cause shown, extend the compliance date prescribed in a violation notice.

(c) When the period specified in subdivision (b) has expired without compliance, the regulatory agency shall mail to the taxpayer a notice of noncompliance. The notice of noncompliance shall be in such form and shall include such information as may be prescribed by the Franchise Tax Board, shall be mailed by certified mail to the taxpayer at the taxpayer's last known address, and shall advise the taxpayer (1) of an intent to notify the Franchise Tax Board of the noncompliance within 10 days unless an appeal is filed, (2) where an appeal may be filed, and (3) of a general description of the tax consequences of the filing with the Franchise Tax Board. Appeals shall be made to the same body and in the same manner as appeals from other actions of the regulatory agency. If no appeal is made within 10 days or after disposition of the appeal if the regulatory agency is sustained, the regulatory agency shall notify, in writing, the Franchise Tax Board of the noncompliance. The notice of noncompliance shall contain the legal description or the lot and block numbers of the real property, the assessor's parcel number, and the name of the owner of record as shown on the latest equalized assessment roll. In addition, the regulatory agency shall, at the same time as notification of the notice of noncompliance is sent to the Franchise Tax Board, record a copy of the notice of noncompliance in the office of the recorder for the county in which the substandard housing is located that includes a statement of tax consequences that may be determined by the Franchise Tax Board. However, the failure to record a notice with the county recorder shall not relieve the liability of any taxpayer nor shall it create any liability on the part of the regulatory agency. The regulatory agency may charge the taxpayer a fee in an amount not to exceed the regulatory agency's costs incurred in recording any notice of noncompliance or issuing any release of that notice. The notice of compliance shall be recorded and shall serve to expunge the notice of noncompliance. The notice of compliance shall contain the same recording information required for the notice of noncompliance. No deduction by the taxpayer, or any other taxpayer who obtains title to the property subsequent to

the recordation of the notice of noncompliance, shall be allowed for the items provided in subdivision (a) from the date of the notice of noncompliance until the date the regulatory agency determines that the substandard housing has been brought to a condition of compliance. The regulatory agency shall mail to the Franchise Tax Board and the taxpayer a notice of compliance, which notice shall be in such form and include such information as may be prescribed by the Franchise Tax Board. In the event the period of noncompliance does not cover an entire taxable year, the deductions shall be denied at the rate of $\frac{1}{12}$ for each full month during the period of noncompliance.

If the property is owned by more than one owner or if recorded title is in the name of a fictitious owner, the notice requirements provided in subdivision (b) and this subdivision shall be satisfied for each owner if the notices are mailed to one owner or to the fictitious name owner at the address appearing on the latest available property tax bill. However, notices made pursuant to this subdivision shall not relieve the regulatory agency from furnishing taxpayer identification information required to implement this section to the Franchise Tax Board.

(d) For the purposes of this section, a notice of noncompliance shall not be mailed by the regulatory agency to the Franchise Tax Board if any of the following occur:

(1) The rental housing was rendered substandard solely by reason of earthquake, flood, or other natural disaster except where the condition remains for more than three years after the disaster.

(2) The owner of the rental housing has secured financing to bring the housing into compliance with those laws or codes which have been violated, causing the housing to be classified as substandard, and has commenced repairs or other work necessary to bring the housing into compliance.

(3) The owner of rental housing which is not within the meaning of housing accommodation as defined by subdivision (d) of Section 35805 of the Health and Safety Code has done both of the following:

(A) Attempted to secure financing to bring the housing into compliance with those laws or codes which have been violated, causing the housing to be classified as substandard.

(B) Been denied that financing solely because the housing is located in a neighborhood or geographical area in which financial institutions do not provide financing for rehabilitation of any such housing.

(e) This section does not apply to deductions from income derived from property rendered substandard solely by reason of a change in applicable state or local housing standards unless the violations cause substantial danger to the occupants of the property, as determined by the regulatory agency which has served notice of violation pursuant to subdivision (b).

(f) The owner of rental housing found to be in noncompliance shall, upon total or partial divestiture of interest in the property,

immediately notify the regulatory agency of the name and address of the person or persons to whom the property has been sold or otherwise transferred and the date of the sale or transference.

(g) By July 1 of each year, the regulatory agency shall report to the appropriate legislative body of its jurisdiction all of the following information, for the preceding calendar year, regarding its activities to secure code enforcement, which shall be public information:

(1) The number of written notices of violation issued for substandard dwellings under subdivision (b).

(2) The number of violations complied with within the period prescribed in subdivision (b).

(3) The number of notices of noncompliance issued pursuant to subdivision (c).

(4) The number of appeals from those notices pursuant to subdivision (c).

(5) The number of successful appeals by owners.

(6) The number of notices of noncompliance mailed to the Franchise Tax Board pursuant to subdivision (c).

(7) The number of cases in which a notice of noncompliance was not sent pursuant to subdivision (d).

(8) The number of extensions for compliance granted pursuant to subdivision (b) and the mean average length of the extensions.

(9) The mean average length of time from the issuance of a notice of violation to the mailing of a notice of noncompliance to the Franchise Tax Board where the notice is actually sent to the Franchise Tax Board.

(10) The number of cases where compliance is achieved after a notice of noncompliance has been mailed to the Franchise Tax Board.

(11) The number of instances of disallowance of tax deductions by the Franchise Tax Board resulting from referrals made by the regulatory agency. This information may be filed in a supplemental report in succeeding years as it becomes available.

SEC. 2. Section 24436.5 of the Revenue and Taxation Code is amended to read:

24436.5. (a) In the case of a taxpayer who derives rental income from substandard housing located in this state, no deductions for interest, depreciation, taxes, or amortization under Section 24343, 24344, 24345, 24349, or 24354.2 shall be allowed which relate to such substandard housing.

(b) Substandard housing means housing which (1) has been determined by a state or local government regulatory agency to violate state law or local codes dealing with health, safety, or building; and (2) after written notice of violation by the regulatory agency, specifying the applicability of this section, has not been repaired or brought to a condition of compliance within six months after the date of the notice or the time prescribed in the notice, whichever period is longest; or on which good faith efforts for compliance have not been commenced, as determined by the

regulatory agency. The regulatory agency may, for good cause shown, extend the compliance date prescribed in a violation notice.

(c) When the period specified in subdivision (b) has expired without compliance, the government regulatory agency shall mail to the taxpayer a notice of noncompliance. The notice of noncompliance shall be in such form and shall include such information as may be prescribed by the Franchise Tax Board, shall be mailed by certified mail to the taxpayer at his last known address, and shall advise the taxpayer (1) of an intent to notify the Franchise Tax Board of such noncompliance within 10 days unless an appeal is filed, (2) where an appeal may be filed, and (3) a general description of the tax consequences of such filing with the Franchise Tax Board. Appeals shall be made to the same body and in the same manner as appeals from other actions of the regulatory agency. If no appeal is made within 10 days or after disposition of the appeal if the regulatory agency is sustained, the regulatory agency shall notify, in writing, the Franchise Tax Board of such noncompliance. The notice of noncompliance shall contain the legal description or the lot and block numbers of the real property, the assessor's parcel number, and the name of the owner of record as shown on the latest equalized assessment roll. In addition, the regulatory agency shall, at the same time as notification of the notice of noncompliance is sent to the Franchise Tax Board, record a copy of the notice of noncompliance in the office of the recorder for the county in which the substandard housing is located that includes a statement of tax consequences that may be determined by the Franchise Tax Board. However, the failure to record a notice with the county recorder shall not relieve the liability of any taxpayer nor shall it create any liability on the part of the regulatory agency. The regulatory agency may charge the taxpayer a fee in an amount not to exceed the regulatory agency's costs incurred in recording any notice of noncompliance or issuing any release of that notice. The notice of compliance shall be recorded and shall serve to expunge the notice of noncompliance. The notice of compliance shall contain the same recording information required for the notice of noncompliance. No deduction by the taxpayer, or any other taxpayer who obtains title to the property subsequent to the recordation of the notice of noncompliance, shall be allowed for the items provided in subdivision (a) from the date of the notice of noncompliance until the date the regulatory agency determines that the substandard housing has been brought to a condition of compliance. The regulatory agency shall mail to the Franchise Tax Board and the taxpayer a notice of compliance, which notice shall be in such form and include such information as may be prescribed by the Franchise Tax Board. In the event the period of noncompliance does not cover an entire income year, the deductions shall be denied at the rate of $\frac{1}{12}$ for each full month during the period of noncompliance.

If the property is owned by more than one owner or the recorded title is in the name of a fictitious owner, the notice requirements

provided in subdivision (b) and this subdivision shall be satisfied for each owner if the notices are mailed to one owner or to the fictitious name owner at the address appearing on the latest available property tax bill. However, notices made pursuant to this subdivision shall not relieve the regulatory agency from furnishing taxpayer identification information required to implement this section to the Franchise Tax Board.

(d) For the purposes of this section, a notice of noncompliance shall not be mailed by the regulatory agency to the Franchise Tax Board if any of the following occur:

(1) The rental housing was rendered substandard solely by reason of earthquake, flood or other natural disaster except where such condition remains for more than three years after the disaster.

(2) The owner of the rental housing has secured financing to bring such housing into compliance with those laws or codes which have been violated, causing such housing to be classified as substandard, and has commenced repairs or other work necessary to bring such housing into compliance.

(3) The owner of rental housing which is not within the meaning of housing accommodation, as defined in subdivision (d) of Section 35805 of the Health and Safety Code, has done both of the following:

(A) Attempted to secure financing to bring such housing into compliance with those laws or codes which have been violated, causing such housing to be classified as substandard.

(B) Been denied that financing solely because such housing is located in a neighborhood or geographical area in which financial institutions do not provide financing for rehabilitation of any such housing.

(e) The provisions of this section do not apply to deductions from income derived from property rendered substandard solely by reason of a change in applicable state or local housing standards unless such violations cause substantial danger to the occupants of such property, as determined by the regulatory agency which has served notice of violation pursuant to subdivision (b).

(f) The owner of rental housing found to be in noncompliance shall, upon total or partial divestiture of interest in such property, immediately notify the regulatory agency of the name and address of the person or persons to whom the property has been sold or otherwise transferred and the date of the sale or transference.

(g) By July 1 of each year, the regulatory agency shall report to the appropriate legislative body of its jurisdiction all of the following information, for the preceding calendar year, regarding its activities to secure code enforcement, which shall be public information:

(1) The number of written notices of violation issued for substandard dwellings under subdivision (b).

(2) The number of violations complied with within the period prescribed in subdivision (b).

(3) The number of notices of noncompliance issued pursuant to subdivision (c).

(4) The number of appeals from those notices pursuant to subdivision (c).

(5) The number of successful appeals by owners.

(6) The number of notices of noncompliance mailed to the Franchise Tax Board pursuant to subdivision (c).

(7) The number of cases in which a notice of noncompliance was not sent pursuant to the provisions of subdivision (d).

(8) The number of extensions for compliance granted pursuant to subdivision (b) and the mean average length of such extensions.

(9) The mean average length of time from the issuance of a notice of violation to the mailing of a notice of noncompliance to the Franchise Tax Board where such notice is actually sent to the Franchise Tax Board.

(10) The number of cases where compliance is achieved after a notice of noncompliance has been mailed to the Franchise Tax Board.

(11) The number of instances of disallowance of tax deductions by the Franchise Tax Board resulting from referrals made by the regulatory agency. This information may be filed in a supplemental report in succeeding years as it becomes available.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 604

An act to add Section 24324 to the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 24324 is added to the Revenue and Taxation Code, to read:

24324. (a) Gross income does not include any contribution to the capital of the taxpayer.

(b) (1) For purposes of this section, "contribution to the capital of the taxpayer" includes any amount of money or other property received from any person (whether or not a shareholder) by a regulated public utility that provides electric energy, gas (through a local distribution system or transportation by pipeline), water, or

sewerage disposal services if all of the following apply:

(A) The amount is contribution in aid of construction.

(B) Where the contribution is in property that is other than electric energy, gas steam, water, or sewerage disposal facilities, the amount meets the requirements of the expenditure rule of paragraph (2).

(C) The amounts (or any property acquired or constructed with those amounts) are not included in the taxpayer's rate base for ratemaking purposes.

(2) An amount meets the requirements of this paragraph if all of the following apply:

(A) An amount equal to that amount is expended for the acquisition or construction of tangible property described in Section 1231(b) of the Internal Revenue Code and both of the following apply:

(i) The expenditure was the purpose motivating the contribution.

(ii) The property is used predominantly in the trade or business of furnishing electric energy, gas, steam, water, or sewerage disposal services.

(B) The expenditure referred to in subparagraph (A) occurs before the end of the second income year after the income year in which that amount was received.

(C) Accurate records are kept of the amount contributed and expenditures made on the basis of the project for which the contribution was made and on the basis of the year of contribution or expenditure.

(3) For purposes of this section:

(A) "Contribution in aid of construction" does not include amounts paid as customer connection fees (including amounts paid to connect the customer's line to an electric line, a gas main, a steam line, or a main water or sewer line) and amounts paid as service charges for starting or stopping services.

(B) "Contribution in aid of construction" includes amounts received by a regulated public utility from a contributor to recover the federal tax imposed upon contributions in aid of construction, provided that the method used to recover the tax is authorized by Public Utilities Commission Decision 87-09-026.

(C) "Predominantly" means 80 percent or more.

(D) "Regulated public utility" means a regulated public utility as defined by Section 7701(a)(33) of the Internal Revenue Code, except that it does not include any utility which is not required to provide electric energy, gas, water, or sewerage disposal services to members of the general public (including, in the case of a gas transmission utility, the provision of gas services by sale for resale to the general public) in its service area.

(4) Notwithstanding any other provision of this part, no deduction or credit shall be allowed for, or by reason of, the expenditure which constitutes a contribution in aid of construction to which this section applies. The adjusted basis of any property acquired with

contributions in aid of construction to which this section applies shall be zero.

(c) This section shall apply to contributions in aid of construction made on or after January 1, 1977, and before January 1, 1992.

SEC. 2. The Legislature finds and declares that Section 1 of this act is declaratory of the legislative intent of existing law, and is consistent with past and present Franchise Tax Board and industry practice, as demonstrated by, but not limited to, all of the following:

(a) The utility industry, with the knowledge of the Franchise Tax Board, interpreted written advice by the Franchise Tax Board, both in 1973 and in 1987, to conclude that contributions in aid of construction do not constitute taxable income for state income tax purposes.

(b) In its determination of rates, the Public Utilities Commission has based utility rates on the industry practice of not considering contributions in aid of construction as taxable income.

(c) In 1987, through both Senate Joint Resolution 8 and Assembly Joint Resolution 20, the Legislature petitioned the Congress to repeal its taxation of capital contributions to investor-owned energy and water utilities.

(d) In 1987, the Legislature enacted Senate Bill 572, which conformed generally with tax changes made in the Federal Tax Reform Act of 1986. The Legislature specifically did not conform to provisions of that act that included contributions in aid of construction in the definition of taxable income.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 605

An act to amend Section 11411 of the Penal Code, relating to terrorism.

[Approved by Governor October 5, 1991 Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 11411 of the Penal Code is amended to read:

11411. (a) Any person who places or displays a sign, mark, symbol, emblem, or other physical impression, including, but not limited to, a Nazi swastika on the private property of another, without authorization, for the purpose of terrorizing the owner or occupant of that private property or in reckless disregard of the risk of terrorizing the owner or occupant of that private property shall be punished by imprisonment in the county jail not to exceed one year, by a fine not to exceed five thousand dollars ($5,000), or by both the fine and imprisonment for the first conviction and by

imprisonment in the county jail not to exceed one year, by a fine not to exceed fifteen thousand dollars ($15,000), or by both the fine and imprisonment for any subsequent conviction.

(b) Any person who engages in a pattern of conduct for the purpose of terrorizing the owner or occupant of private property or in reckless disregard of terrorizing the owner or occupant of that private property, by placing or displaying a sign, mark, symbol, emblem, or other physical impression, including, but not limited to, a Nazi swastika, on the private property of another on two or more occasions, shall be punished by imprisonment in the state prison for 16 months or 2 or 3 years, by a fine not to exceed ten thousand dollars ($10,000), or by both the fine and imprisonment, or by imprisonment in a county jail not to exceed one year, by a fine not to exceed five thousand dollars ($5,000), or by both the fine and imprisonment. A violation of this subdivision shall not constitute felonious conduct for purposes of Section 186.22.

(c) Any person who burns or desecrates a cross or other religious symbol, knowing it to be a religious symbol, on the private property of another without authorization for the purpose of terrorizing the owner or occupant of that private property or in reckless disregard of the risk of terrorizing the owner or occupant of that private property shall be punished by imprisonment in the state prison for 16 months or 2 or 3 years, by a fine of not more than ten thousand dollars ($10,000), or by both the fine and imprisonment, or by imprisonment in a county jail not to exceed one year, by a fine not to exceed five thousand dollars ($5,000), or by both the fine and imprisonment for the first conviction and by imprisonment in the state prison for 16 months or 2 or 3 years, by a fine of not more than ten thousand dollars ($10,000), or by both the fine and imprisonment, or by imprisonment in a county jail not to exceed one year, by a fine not to exceed fifteen thousand dollars ($15,000), or by both the fine and imprisonment for any subsequent conviction.

(d) As used in this section, "terrorize" means to cause a person of ordinary emotions and sensibilities to fear for personal safety.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 606

An act to amend Section 3052.5 of, and to add Section 3052b to, the Civil Code, relating to liens.

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 3052b is added to the Civil Code, to read:

3052b. (a) The procedure in this section shall be an alternative to the lien-sale procedure provided in Section 3052, but applies only to liens under Section 3051 for charges not exceeding one hundred fifty dollars ($150), exclusive of additional charges and interest authorized by this section. As a condition precedent to using the procedure specified in this section, the lienholder shall have done all of the following:

(1) Provided the property owner with an accurate written summary of the lien provisions of this section.

(2) Obtained the property owner's address and telephone number, together with a written declaration signed by the property owner stating that the property owner has read and understands the summary provided pursuant to paragraph (1), at the time of entering into the transaction from which the lien arose.

(3) Posted, at the time of the transaction from which the lien arose, a notice which fully and fairly informs the public of the substance of this section. The notice shall be posted in a location clearly visible to the public in the lienholder's business premises.

(b) Any lienholder proceeding under this section shall notify the owner of the property subject to the lien upon completion of the work for which the lien is claimed. This notice shall be by first-class mail.

(c) If a property owner who has actually received notice pursuant to subdivision (b) fails to pay the charges for which the lien is claimed for 30 days following receipt of the notice, the lienholder may thereafter charge two dollars ($2) per day for storing the property subject to the lien and these charges shall also be secured by the lien.

(d) Not less than 30 days following the notice specified in subdivision (b), the lienholder shall notify the property owner by first-class mail that the property will be sold to satisfy the lien, unless the charges are paid within 30 days following the mailing of the notice.

(e) If the lienholder has complied with the notice requirements of subdivisions (b) and (d), not less than 30 days have elapsed since the mailing of the notice required by subdivision (d), and the property owner has not fully paid the original charges for which the lien is claimed plus any additional charges authorized by subdivision

(c), the lienholder may sell the property subject to the lien at a public or bona fide private sale to satisfy the sum of those obligations, all costs and expenses of the sale, and interest at the rate of 12 percent per annum from 30 days following receipt of the notice specified in subdivision (b) or the date the same were advanced until repayment.

(f) However, the owner of the property sold pursuant to subdivision (e) may redeem the property sold to satisfy the lien, within 20 days following the sale, upon payment of all charges, costs and expenses, and interest specified in subdivision (e).

(g) The proceeds of the sale shall first be applied to the discharge of the lien, the costs of sale, and interest specified in subdivision (e). The remainder, if any, shall be paid to the former owner of the property so sold.

SEC. 2. Section 3052.5 of the Civil Code is amended to read:

3052.5. (a) The provisions of Sections 3052 and 3052b shall not apply to any service dealer registered with the Bureau of Repair Services pursuant to Chapter 20 (commencing with Section 9800) of Division 3 of the Business and Professions Code if the dealer reasonably believes that the serviced product is of nominal value. For purposes of this section, nominal value shall be ascertained as follows: the product is not readily salable for more than the legitimate charges against it, and either the original retail value of the product was under two hundred dollars ($200) and the product is over three years old, or the original retail value is over two hundred dollars ($200) and the product is over six years old.

Service dealers may use any available materials or information including, but not limited to, industry publications, code dates, sales records, or receipts to assist in determining value and age of the serviced product.

(b) A service dealer may select one of the following alternative methods for the disposal of unclaimed serviced products determined to have a value as specified in subdivision (a):

(1) The service dealer may provide the owner of such product with the following written notice to be mailed following completion of work on the serviced product:

The people of the State of California do enact as follows:

SECTION 1. Section 6071 is added to the Business and Professions Code, to read:

6071. (b) Whoever denies the right provided by Section 51.7, or whoever aids, incites, or conspires in that denial, is liable for each and every offense for the actual damages suffered by any person denied that right and, in addition, (1) an amount to be determined by a jury, or a court sitting without a jury, for exemplary damages; (2) a civil penalty of twenty-five thousand dollars ($25,000) to be awarded to the person denied the right provided by Section 51.7; and (3) attorney fees as may be determined by the court.

(b) Any individual whose exercise or enjoyment of rights secured by the Constitution or laws of the United States, or of rights secured by the Constitution or laws of this state, has been interfered with, or attempted to be interfered with, as described in subdivision (a), may institute and prosecute in his or her own name and on his or her own behalf a civil action for damages, including, but not limited to,

damages under Section 52, injunctive relief, and other appropriate equitable relief to protect the peaceable exercise or enjoyment of the right or rights secured.

(c) An action brought pursuant to subdivision (a) or (b) may be filed either in the superior court for the county in which the conduct complained of occurred or in the superior court for the county in which a person whose conduct complained of resides or has his or her place of business. An action brought by the Attorney General pursuant to subdivision (a) also may be filed in the superior court for any county wherein the Attorney General has an office, and in such a case, the jurisdiction of the court shall extend throughout the state.

(d) Whenever a court issues a temporary restraining order or a preliminary or permanent injunction in an action brought pursuant to subdivision (a) or (b), ordering a defendant to refrain from conduct or activities, the order issued shall include the following statement: VIOLATION OF THIS ORDER IS A CRIME PUNISHABLE UNDER SECTION 422.9 OF THE PENAL CODE.

(e) The court shall order the plaintiff or the attorney for the plaintiff to deliver, or the county clerk to mail, two copies of any order, extension, modification, or termination thereof granted pursuant to this section, by the close of the business day on which the order, extension, modification, or termination was granted, to each local law enforcement agency having jurisdiction over the residence of the plaintiff and any other locations where the court determines that acts of violence against the plaintiff are likely to occur. Those local law enforcement agencies shall be designated by the plaintiff or the attorney for the plaintiff. Each appropriate law enforcement agency receiving any order, extension, or modification of any order issued pursuant to this section shall serve forthwith one copy thereof upon the defendant. Each appropriate law enforcement agency shall provide to any law enforcement officer responding to the scene of reported violence, information as to the existence of, terms, and current status of, any order issued pursuant to this section.

(f) A court shall not have jurisdiction to issue an order or injunction under this section, if that order or injunction would be prohibited under Section 527.3 of the Code of Civil Procedure.

(g) Actions under this section shall be independent of any other remedies or procedures that may be available to an aggrieved person under any other provision of law.

(h) In addition to any damages, injunction, or other equitable relief awarded in an action brought pursuant to subdivision (b), the court may award the petitioner or plaintiff reasonable attorney's fees.

(c) Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy.

However, nothing in this division shall require the disclosure of that portion of those investigative files which reflect the analysis or conclusions of the investigating officer.

Other provisions of this subdivision notwithstanding, state and local law enforcement agencies shall make public the following information, except to the extent that disclosure of a particular item of information would endanger the safety of a person involved in an investigation or would endanger the successful completion of the investigation or a related investigation:

(2) The time, substance, and location of all complaints or requests for assistance received by the agency and the time and nature of the response thereto, including, to the extent the information regarding crimes alleged or committed or any other incident investigated is recorded, the time, date, and location of occurrence, the time and date of the report, the name, age, and current address of the victim,

except that the address of the victim of any crime defined by Section 261, 264, 264.1, 273a, 273d, 273.5, 286, 288, 288a, 289, 422.6, 422.7, or 422.75 of the Penal Code shall not be disclosed, the factual circumstances surrounding the crime or incident, and a general description of any injuries, property, or weapons involved. The exemption in this subdivision shall not apply to records of fines imposed on the borrowers.

CHAPTER 608

An act to amend Section 1747.02 of, and to add Section 1747.94 to, the Civil Code, relating to credit cards.

[Approved by Governor October 5, 1991 Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1747.02 of the Civil Code is amended to read:

1747.02. As used in this title:

(a) "Credit card" means any card, plate, coupon book, or other single credit device existing for the purpose of being used from time to time upon presentation to obtain money, property, labor, or services on credit. "Credit card" does not mean any of the following:

(1) Any single credit device used to obtain telephone property, labor or services in any transaction under public utility tariffs.

(2) Any device that may be used to obtain credit pursuant to an electronic fund transfer but only if the credit is obtained under an agreement between a consumer and a financial institution to extend credit when the consumer's asset account is overdrawn or to maintain a specified minimum balance in the consumer's asset account.

(3) Any key or card key used at an automated dispensing outlet to obtain or purchase petroleum products, as defined in subdivision (c) of Section 13401 of the Business and Professions Code, which will be used primarily for business rather than personal or family purposes.

(b) "Accepted credit card" means any credit card which the cardholder has requested or applied for and received or has signed, or has used, or has authorized another person to use, for the purpose

of obtaining money, property, labor, or services on credit. Any credit card issued in renewal of, or in substitution for, an accepted credit card becomes an accepted credit card when received by the cardholder, whether the credit card is issued by the same or a successor card issuer.

(c) "Card issuer" means any person who issues a credit card or the agent of that person for that purpose with respect to the credit card.

(d) "Cardholder" means a natural person to whom a credit card is issued for consumer credit purposes, or a natural person who has agreed with the card issuer to pay consumer credit obligations arising from the issuance of a credit card to another natural person. For purposes of Sections 1747.05, 1747.10, and 1747.20, the term includes any person to whom a credit card is issued for any purpose, including business, commercial, or agricultural use, or a person who has agreed with the card issuer to pay obligations arising from the issuance of such a credit card to another person.

(e) "Retailer" means every person other than a card issuer who furnishes money, goods, services, or anything else of value upon presentation of a credit card by a cardholder.

(f) "Unauthorized use" means the use of a credit card by a person, other than the cardholder, (1) who does not have actual, implied, or apparent authority for that use and (2) from which the cardholder receives no benefit. "Unauthorized use" does not include the use of a credit card by a person who has been given authority by the cardholder to use the credit card. Any attempted termination by the cardholder of the person's authority is ineffective as against the card issuer until such time as the cardholder complies with such procedures as may be required by the card issuer to terminate that authority. Notwithstanding the above, following the card issuer's receipt of oral or written notice from a cardholder indicating that it wishes to terminate the authority of a previously authorized user of a credit card, the card issuer shall follow its usual procedures for precluding any further use of a credit card by an unauthorized person.

(g) An "inquiry" is a writing which is posted by mail to the address of the card issuer to which payments are normally tendered, unless another address is specifically indicated on the statement for that purpose, then to that other address, and which is received by the card issuer no later than 60 days after the card issuer transmitted the first periodic statement that reflects the alleged billing error, and which:

(1) Sets forth sufficient information to enable the card issuer to identify the cardholder and the account;

(2) Sufficiently identifies the billing error; and

(3) Sets forth information providing the basis for the cardholder's belief that the billing error exists.

(h) A "response" is a writing which is responsive to an inquiry and mailed to the cardholder's address last known to the card issuer.

(i) A "timely response" is a response which is mailed within two

complete billing cycles, but in no event later than 90 days, after the card issuer receives an inquiry.

(j) A "billing error" means an error by omission or commission in (1) posting any debit or credit, or (2) in computation or similar error of an accounting nature contained in a statement given to the cardholder by the card issuer. A "billing error" does not mean any dispute with respect to value, quality or quantity of goods, services or other benefit obtained through use of a credit card.

(k) "Adequate notice" means a printed notice to a cardholder which sets forth the pertinent facts clearly and conspicuously so that a person against whom it is to operate could reasonably be expected to have noticed it and understood its meaning.

(*l*) "Secured credit card" means any credit card issued under an agreement or other instrument which pledges, hypothecates, or places a lien on real property or money or other personal property to secure the cardholder's obligations to the card issuer.

SEC. 2. Section 1747.94 is added to the Civil Code, to read:

1747.94. (a) In addition to any other disclosures required by law, a card issuer of a secured credit card shall, in every advertisement or solicitation to prospective cardholders, expressly identify the credit instrument offered as a "secured credit card" and prominently disclose that credit extended under the secured credit card is secured, and shall describe the security by item or type.

(b) Any deed of trust executed in connection with a secured credit card shall contain a statement that it is security for a secured credit card obligation. However, failure to include the statement shall not invalidate the deed of trust.

(c) This section does not apply to either of the following:

(1) Any credit card which is issued under an agreement or other instrument creating a purchase money security interest in property purchased with the credit card, but which does not pledge, hypothecate, or place a lien on other property of the cardholder or any co-obligor.

(2) Loans or extensions of credit subject to the Federal Home Equity Loan Consumer Protection Act of 1988 (P. L. 100-709).

(d) Any violation of this section shall constitute unfair competition within the meaning of Section 17200 of the Business and Professions Code.

CHAPTER 609

[Approved by Governor October 5, 1991. Filed with Secretary of State October 7, 1991.]

The appropriations for categories (e), (f), (g), (i), (j), and (k) are unnecessary. These claims have been paid or will be paid by the affected departments through a process which certifies availability of funds from within existing budgeted resources.

With the above deletions, I hereby approve Senate Bill No. 67

(b) A certification of compliance issued by the State Department of Mental Health shall be a condition of licensure for the community treatment facility by the State Department of Social Services.

(c) The State Department of Mental Health shall adopt regulations to include, but not be limited to, the following:

(d) The standards adopted by regulations pursuant to subdivision (a) shall include, but not be limited to, standards for treatment staffing and for the use of psychotropic medication, discipline, and restraint in the facilities.

(e) The sum of forty-five thousand dollars ($45,000) is hereby appropriated annually from the General Fund to the State Department of Mental Health for one personnel year to carry out the provisions of this section.

(f) Notwithstanding Section 13340 of the Government Code, the sum of fifty-five thousand dollars ($55,000) is continuously appropriated annually, without regard to fiscal years, from the General Fund to the Attorney General for purposes of representing the State Department of Mental Health when a facility appeals denial of certification or decertification as provided in this section.

SEC. 3. Section 4095 of the Welfare and Institutions Code is amended to read:

4095. (a) It is the intent of the Legislature that essential and culturally relevant mental health assessment, case management, and treatment services be available to court wards and dependents

placed out-of-home or who are at risk of requiring out-of-home care. This can be best achieved at the community level through the active collaboration of county social service, probation, education, mental health agencies, and foster care providers.

(b) Therefore, using the Children's Mental Health Services Act (Part 4 (commencing with Section 5850) of Division 5) as a guideline, the State Department of Mental Health, in consultation with the California Conference of Local Mental Health Directors, the State Department of Social Services, the County Welfare Directors Association, the Chief Probation Officer's Association, county alcohol and drug program administrators, and foster care providers, shall do all of the following:

(1) By July 1, 1992, develop an individualized mental health treatment needs assessment protocol for court wards and dependents.

(2) By October 1, 1993, establish and maintain a special system of per child payments for supplemental mental health services rendered to court wards and dependents pursuant to this section. This payment system shall ensure that children are served according to state-level priorities, and that similar children are served similarly statewide, to the extent of appropriations available through the annual Budget Act to implement this section. The payment system shall encourage utilization of other resources where possible, including Medi-Cal reimbursement. It is the intent of the Legislature that the payment system shall be flexible so that services may be provided in the most appropriate setting and in the most cost-effective manner.

(3) By October 1, 1993, the department shall, for the purposes of implementing this section, establish guidelines for rates, payment, and subsets of target populations to be served, for supplemental mental health services rendered to court wards and dependents. These guidelines shall include, but not be limited to, data collection, cost reporting, and types of placement resources receiving county mental health funds. These guidelines shall remain in effect until the special system of payments is established, in accordance with paragraph (2).

(4) By January 1, 1993, establish, by regulation, all of the following:

(A) Definitions of priority ranking of subsets of the court wards and dependents target population.

(B) Definitions of priority supplemental services, including, but not limited to, services defined in Title IX (commencing with Section 7030) of the California Code of Regulations as of January 1, 1992, and family therapy, prevocational services, crisis support, family support, therapeutic respite activities, and therapeutic milieu activities, to be available to the target population.

(C) A certification procedure, to be employed by the local mental health director, which assures that only mental health services approved by the local mental health director shall be eligible for reimbursement under this section.

(5) Require that interagency collaboration and program services are structured in a manner which will facilitate future implementation of the goals of the Children's Mental Health Services Act. Components shall be added to the plans and contracts which specifically address the procedures to be implemented by the county in meeting the provisions of this section. The components are to be developed in collaboration with the county social services and probation departments. Plans and contracts submitted for department approval shall document that the procedures to be implemented in compliance with this section have been approved by the county social services department and the county probation department pursuant to an interagency agreement.

(c) (1) Only those individuals within the target population as defined in regulation and determined to be eligible for services as a result of a mental health treatment needs assessment may receive services pursuant to this section.

(2) Allocation of funds appropriated for the purposes of this section shall be based on the number of wards and dependents identified pursuant to paragraphs (3) and (4) of subdivision (b).

(3) The counties shall be held harmless for failure to provide assessment and treatment services to those children identified in need of services for whom there is no funding.

(d) It is the intent of the Legislature to limit supplemental mental health treatment rates for the target population of this section to rates established pursuant to paragraphs (2), (3), and (4) of subdivision (b), effective October 1, 1993, and to reduce the impact of competition for scarce treatment resources on the cost and availability of care. The State Department of Mental Health, in consultation with the State Department of Social Services and appropriate organizations, including organizations representing service providers, shall develop a plan to accomplish this intent that addresses the access to, and availability of, mental health treatment for the target population. This plan shall be submitted to the Legislature by October 1, 1993.

(e) The department shall annually report to the Legislature on the service populations provided mental health treatment services pursuant to this section, the types and costs of services provided, and the number of children identified in need of treatment services who did not receive the services.

SEC. 3.5. Section 11460 of the Welfare and Institutions Code is amended to read:

11460. (a) Foster care providers shall be paid a per child per month rate in return for the care and supervision of the AFDC-FC child placed with them. The department is designated the single organizational unit whose duty it shall be to administer a state system for establishing rates in the AFDC-FC program. State functions shall be performed by the department or by delegation of the department to county welfare departments.

(b) "Care and supervision" includes food, clothing, shelter, daily

supervision, school supplies, a child's personal incidentals, liability insurance with respect to a child, and reasonable travel to the child's home for visitation.

(1) For a child placed in a group home, care and supervision shall also include reasonable administration and operational activities necessary to provide the items listed in this subdivision.

(2) For a child placed in a group home, care and supervision may also include reasonable activities performed by social workers employed by the group home provider which are not otherwise considered daily supervision or administration activities.

(c) It is the intent of the Legislature to establish the maximum level of state participation in out-of-state foster care group home program rates effective January 1, 1992.

(1) The department shall develop regulations that establish the method for determining the level of state participation for each out-of-state group home program. The department shall consider all of the following methods:

(A) A standardized system based on the level of care and services per child per month as detailed in Section 11462.

(B) A system which considers the actual allowable and reasonable costs of care and supervision incurred by the program.

(C) A system which considers the rate established by the host state.

(D) Any other appropriate methods as determined by the department.

(2) State reimbursement for the AFDC-FC group home rate to be paid to an out-of-state program on or after January 1, 1992, shall only be paid to programs which have done both of the following:

(A) Submitted a rate application to the department and received a determination of the level of state participation.

(i) The level of state participation shall not exceed the current fiscal year's standard rate for rate classification level 14.

(ii) The level of state participation shall not exceed the rate determined by the ratesetting authority of the state in which the facility is located.

(iii) The level of state participation shall not decrease for any child placed prior to January 1, 1992, who continues to be placed in the same out-of-state group home program.

(B) Agreed to comply with information requests, and program and fiscal audits as determined necessary by the department.

(d) A foster care provider that accepts payments, following the effective date of this section, based on a rate established under this section, shall not receive rate increases or retroactive payments as the result of litigation challenging rates established prior to the effective date of this section. This shall apply regardless of whether a provider is a party to the litigation or a member of a class covered by the litigation.

(e) Nothing shall preclude a county from using a portion of its county funds to increase rates paid to family homes and foster family

agencies within that county, and to make payments for specialized care increments, clothing allowances, or infant supplements to homes within that county, solely at that county's expense.

SEC. 4. Section 11462 of the Welfare and Institutions Code is amended to read:

11462. (a) Effective July 1, 1990, foster care providers licensed as group homes, as defined in departmental regulations, including public child care institutions, as defined in Section 11402.5, shall have rates established by classifying each group home program and applying the standardized schedule of rates. The department shall collect information from group providers beginning January 1, 1990, in order to classify each group home program.

(b) A group home program shall be initially classified, for purposes of emergency regulations, according to the level of care and services to be provided using a point system developed by the department and described in the report, "The Classification of Group Home Programs under the Standardized Schedule of Rates System," prepared by the State Department of Social Services, August 30, 1989.

(c) The rate for each rate classification level (RCL) has been determined by the department with data from the AFDC-FC Group Home Rate Classification Pilot Study. The rates effective July 1, 1990, were developed using 1985 calendar year costs and reflect adjustments to the costs for each fiscal year, starting with the 1986–87 fiscal year, by the amount of the California Necessities Index computed pursuant to the methodology described in Section 11453. The data obtained by the department using 1985 calendar year costs shall be updated and revised by January 1, 1993.

(d) As used in this section, "standardized schedule of rates" means a listing of the 14 rate classification levels, the single rate established for each RCL, and the rate floor for each RCL.

(e) The standardized schedule of rates shall be phased in commencing July 1, 1990.

(1) In order to phase in the standardized schedule of rates, a "rate floor" has been established for each RCL.

(2) The rate floor for the 1990–91 fiscal year shall be 85 percent of the standard rate for each RCL. The rate floor shall be increased to 92.5 percent of the standard rate for the 1991–92 fiscal year for each RCL, and shall be equal to the standard rate for each RCL for the 1992–93 fiscal year and beyond.

(f) Except as specified in paragraph (1), the department shall determine the RCL for each group home program on a prospective basis, according to the level of care and services that the group home operator projects will be provided during the period of time for which the rate is being established.

(1) For a group home program for which the department established a rate effective prior to June 30, 1990, that took into account the program's historical costs, the department shall establish the rate for the 1990–91 fiscal year by determining the RCL on a

retrospective basis, according to the level of care and services actually provided between July 1 and December 31, 1989, or between July 1, 1989, and March 31, 1990.

(2) Group home programs that fail to maintain at least the level of care and services associated with the RCL upon which their rate was established shall inform the department. The department shall develop regulations specifying procedures to be applied when a group home fails to maintain the level of services projected, including, but not limited to, rate reduction and recovery of overpayments.

(g) (1) The standardized schedule of rates for the 1990–91 fiscal year is:

Rate Classification Level	Point Ranges	FY 1990–91 Standard Rate	FY 1990–91 Rate Floor (85%)
1	Under 60	$1,183	$1,006
2	60– 89	1,478	1,256
3	90–119	1,773	1,507
4	120–149	2,067	1,757
5	150–179	2,360	2,006
6	180–209	2,656	2,258
7	210–239	2,950	2,508
8	240–269	3,245	2,758
9	270–299	3,539	3,008
10	300–329	3,834	3,259
11	330–359	4,127	3,508
12	360–389	4,423	3,760
13	390–419	4,720	4,012
14	420 & Up	5,013	4,261

(2) As of July 1, 1992, group home programs which generate the requisite number of points for RCL 13 or 14, which only accept children with special treatment needs as determined through the assessment process in subdivision (b) of Section 11467 and which have as part of their program measurable performance standards developed by the county of placement, shall be classified at RCL 13 or 14.

(3) A group home program shall be classified at RCL 13 until July 1, 1992, as long as the group home program meets all of the following requirements:

(A) The group home program is providing or has proposed to provide the level of care and services necessary to generate sufficient points in the ratesetting process to be classified at RCL 13.

(B) (i) The group home provider shall agree to accept for placement into its group home program only children who have been certified by the local mental health program, except as specified in clause (iii).

(ii) The certification required by clause (i) shall indicate the child has been determined by the local mental health program to be seriously emotionally disturbed, as defined in paragraph (10), and the child needs the level of care and supervision provided in the group home program.

(iii) Any group home program that, during the 1990–91 fiscal year, provided the level of care and services necessary to generate sufficient points in the ratesetting process to be classified at RCL 13 or 14 and projected that it would provide that level of care and services in the 1990–91 and 1991–92 fiscal year rate applications, with children in placement on the date of the mental health program certification, as required by subdivision (c), shall not be required to obtain the certification of children in placement required by this subdivision.

(iv) Any child who is determined by the placing agency to need immediate emergency placement and is placed in a group home program prior to a mental health assessment and a local mental health certification as required by clause (i) shall be assessed by a licensed mental health professional within 72 hours of the emergency placement within the group home program as being seriously emotionally disturbed, as defined in paragraph (10) and in need of the level of care and supervision provided in the group home program.

(v) The group home provider shall obtain the certification as required by clauses (i) and (ii) within 30 days of the first day of placement in the group home program for each child who has been determined to need immediate emergency placement and has been assessed by a licensed mental health professional within 72 hours of the placement.

(C) (i) The local mental health program shall certify, unless the State Department of Mental Health agrees to certify, that the group home program includes provisions for mental health treatment services that meet the local mental health program's criteria, including, but not limited to, all of the following:

(I) Therapeutic milieu.

(II) Self-help skills.

(III) Behavioral interventions.

(IV) Psychosocial activities.

(V) Other therapeutic services required for the child to benefit from the program.

(B) The department shall set the rate of any group home program which met the requirements of subparagraphs (A) and (B) of paragraph (3) prior to the implementation of this section at RCL 13

effective July 1, 1991, if both of the following requirements are met:

(i) The mental health program certification required by subparagraph (C) of paragraph (3) was obtained within 90 days of the effective date of this section.

(ii) The mental health program certification required by subparagraph (C) of paragraph (3) indicates the group home program met the requirements for certification as of July 1, 1991.

(5) Notwithstanding paragraph (3), a group home program shall be classified at RCL 14 until July 1, 1992, as long as the group home program meets all of the following requirements:

(A) The group home program is providing or has proposed to provide the level of care and services necessary to generate sufficient points in the ratesetting process to be classified at RCL 14.

(B) (i) The group home provider agrees to accept for placement into its group home program only children who have been certified by the local mental health program, except as specified in clause (iii).

(ii) The certification required of clause (i) shall indicate the child has been determined by the local mental health program to be seriously emotionally disturbed, as defined in paragraph (10), and the child needs the level of care and supervision provided in the group home program.

(iii) Any group home program that, during the 1990–91 fiscal year, provided the level of care and services necessary to generate sufficient points in the ratesetting process to be classified at RCL 13 or 14 and projected that it would provide that level of care and services in the 1990–91 and 1991–92 fiscal year rate applications, with children in placement on the date of the mental health program certification, as required by subdivision (c), shall not be required to obtain the certification of children in placement required by this subdivision.

(iv) Any child who is determined by the placing agency to need immediate emergency placement and is placed in a group home program prior to a mental health assessment and a local mental health certification as required by clause (i) shall be assessed by a licensed mental health professional within 72 hours of the emergency placement within the group home program as being seriously emotionally disturbed, as defined in paragraph (10) and in need of the level of care and supervision provided in the group home program.

(v) The group home provider shall obtain the certification as required by clauses (i) and (ii) within 30 days of the first day of placement in the group home program for each child who has been determined to need immediate emergency placement and has been assessed by a licensed mental health professional within 72 hours of the placement.

(C) (i) The local mental health program shall certify, unless the State Department of Mental Health agrees to certify, that the group home program includes provisions for mental health treatment services that meet the local mental health program's criteria,

including, but not limited to, all of the following:

(I) Therapeutic milieu.

(III) Behavioral interventions.

(IV) Psychosocial activities.

(V) Other therapeutic services required for the child to benefit from the program.

(ii) The certification required by clause (i) shall include assurances that the program services are available, as attested by the local mental health director.

(6) (A) The department shall set rates at RCL 14, to be effective on the date the requirements of subparagraphs (A), (B), and (C) of paragraph (5) are met.

(B) The department shall set the rate of any group home program which met the requirements of subparagraphs (A) and (B) of paragraph (3) prior to the implementation of this section at RCL 14 effective July 1, 1991, if both of the following requirements are met:

(i) The mental health program certification required by subparagraph (C) of paragraph (3) was obtained within 90 days of the effective date of this section.

(ii) The mental health program certification required by subparagraph (C) of paragraph (5) indicates the group home program met the requirements for certification as of July 1, 1991.

(7) The classification of a group home program of an existing provider at RCL 13 pursuant to paragraph (3) or RCL 14 pursuant to paragraph (5) shall be considered a program change for ratesetting purposes.

(8) Any group home program that has been classified at RCL 13 pursuant to the requirements of paragraph (3) or RCL 14 pursuant to the requirements of paragraph (5) shall be reclassified at the appropriate RCL with a commensurate reduction in rate if any of the following occurs:

(A) The group home program fails to maintain the level of care and services necessary to generate the requisite number of points for RCL 13 as required by subparagraph (A) of paragraph (3) or RCL 14 as required by subparagraph (A) of paragraph (5).

(B) The group home program accepts placement of a child who has not been certified as required by subparagraph (B) or (E) of paragraph (3) or subparagraph (B) or (E) of paragraph (5).

(C) The group home program fails to maintain a certified mental health treatment program as required by subparagraph (C) of paragraph (3), or subparagraph (C) of paragraph (5).

(9) The effective date of a reclassification and rate reduction made pursuant to paragraph (8) shall be the date of occurrence of any one of the conditions in paragraph (8).

(10) For purposes of this subdivision, a child who is seriously emotionally disturbed means a child who meets the conditions specified in paragraph (2) of subdivision (a) of Section 5600.3 and who is subject to Section 1502.4 of the Health and Safety Code.

(11) Paragraphs (3), (4), (5), (6), (7), (8), (9), and (10) shall remain operative only until July 1, 1992.

(h) (1) For the 1990–91 fiscal year, the standardized schedule of rates shall be implemented as follows:

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year below the standard rate for the fiscal year 1990–91 RCL shall receive their 1989–90 rate plus an amount equal to the California Necessities Index (CNI). The rate for the 1990–91 fiscal year at which the state will participate shall not exceed the standard rate for the RCL.

(B) If the CNI increase to the group home program's 1989–90 fiscal year rate does not raise the group home program to the rate floor for the RCL, the group home program shall receive a rate equal to the rate floor for the RCL.

(C) A group home program which received an AFDC-FC rate for the 1989–90 fiscal year at or above the standard rate for the RCL for the 1990–91 fiscal year shall continue to receive the 1989–90 fiscal year rate.

(2) For the 1992–93 fiscal year and the 1993–94 fiscal year, the standardized rate for each RCL shall be adjusted by an amount equal to CNI computed pursuant to the methodology described in Section 11453. No adjustment shall be made in the standardized rate for each RCL for the 1991–92 fiscal year.

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year at or above the adjusted standard rate for the RCL in the current fiscal year shall continue to receive that rate.

(B) A group home program which received an AFDC-FC rate in the prior fiscal year below the standard rate for the RCL in the current fiscal year shall receive that rate adjusted by an amount equal to the CNI. The rate for the current fiscal year shall not exceed the standard rate for the RCL and shall not be less than the rate floor for the RCL.

(3) Beginning with the 1994–95 fiscal year, the standardized schedule of rates shall be adjusted annually by an amount equal to the CNI computed pursuant to Section 11453, subject to the availability of funds.

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year at or above the adjusted standard rate for the RCL in the current fiscal year shall continue to receive that rate.

(B) Any group home program which received an AFDC-FC rate in the prior fiscal year below the adjusted standard rate for the RCL in the current fiscal year shall receive the adjusted RCL rate.

(i) (1) The rate for a new group home program of a new or existing provider shall be established at the rate floor for the new program's projected RCL.

(2) The department shall not establish a rate for a new program of a new or existing provider unless the provider submits a recommendation from the host county, the primary placing county, or a regional consortium of counties that the program is needed in

that county; that the provider is capable of effectively and efficiently operating the program; and that the provider is willing and able to accept AFDC-FC children for placement who are determined by the placing agency to need the level of care and services that will be provided by the program.

(3) The department shall encourage the establishment of consortia of county placing agencies on a regional basis for the purpose of making decisions and recommendations about the need for, and use of, group home programs and other foster care providers within the regions.

(4) The department shall annually conduct a county-by-county survey to determine the unmet placement needs of children placed pursuant to Sections 300 and Section 601 or 602, and shall publish its findings by November 1 of each year.

(j) The department shall develop regulations specifying ratesetting procedures for program expansions, reductions, or modifications, including increases or decreases in licensed capacity, or increases or decreases in level of care or services.

(k) General unrestricted or undesignated private charitable donations and contributions made to charitable or nonprofit organizations shall not be deducted from the cost of providing services pursuant to this section.

(*l*) The department shall, by October 1 each year, commencing October 1, 1992, provide the Joint Legislative Budget Committee with a list of any new departmental requirements established during the previous fiscal year concerning the operation of group homes, and of any unusual, industrywide increase in costs associated with the provision of group care which may have significant fiscal impact on providers of group homes care. The committee may, in fiscal year 1993–94 and beyond, use the list to determine whether an appropriation for rate adjustments is needed in the subsequent fiscal year.

(m) Following the initial implementation of the group home ratesetting system described in this section, the department, with the advice and assistance of the counties and representatives of providers of group home care, may submit to the Legislature recommendations to modify the program classification point system, number of rate classification levels, amounts that make up the standardized schedule of rates, or other components of the system. These recommendations shall be based on the department's review and evaluation of the program classification system, group home cost data collected pursuant to Section 11466.3, and information from the Group Home Program Statements and Level of Care Assessments specified in Section 11467.

(n) This section shall remain in effect only until July 1, 1995, and as of that date is repealed, unless a later enacted statute, which becomes effective on or before July 1, 1995, deletes or extends that date.

SEC. 4.5. Section 11462.1 of the Welfare and Institutions Code is

repealed.

SEC. 5. Section 11467 of the Welfare and Institutions Code is amended to read:

11467. (a) By July 1, 1992, the State Department of Social Services, in consultation with the counties and foster care providers, shall develop a standard format for group home program statements for ratesetting, community care licensing, and county placement purposes.

(b) By July 1, 1992, the State Department of Social Services, in consultation with the State Department of Mental Health and the counties, shall develop a Level of Care Assessment Instrument which shall match the assessed needs of the dependent child and his or her family with the services provided at each Rate Classification Level established pursuant to Section 11462.

(c) By July 1, 1992, the State Department of Social Services, in consultation with the State Department of Mental Health, the Department of the Youth Authority, county probation departments, foster care providers, and the counties, shall develop a Level of Care Assessment Instrument which shall match the assessed needs of the ward and his or her family with the services provided by placement facilities at each Rate Classification Level established pursuant to Section 11462.

(d) The Level of Care Assessment Instrument developed pursuant to subdivisions (b) and (c) shall include specified indicators of a child's need for a mental health treatment needs assessment which is available to a child pursuant to Section 5407. The State Department of Social Services, in consultation with the State Department of Mental Health, the Department of the Youth Authority, county probation departments, foster care providers, and the counties, shall specify the criteria for determining when a mental health treatment needs assessment shall be conducted pursuant to Section 5407.

(e) No later than January 1, 1993, the department shall report to the Legislature on the requirements specified in subdivisions (a) to (d), inclusive.

SEC. 6. The State Department of Social Services shall study the need for Rate Classification Level 13 and Rate Classification Level 14, as provided for in Section 11462 of the Welfare and Institutions Code, for categories of children including, but not limited to, children with special health care needs and children adjudicated pursuant to Sections 601 or 602 of the Welfare and Institutions Code. The study shall include evaluation of the need for different or additional licensing categories and program standards which may need to be implemented for these categories of children.

SEC. 7. The State Department of Social Services shall adopt any regulations necessary to implement Sections 1, 3.5, and 4 of this act as emergency regulations in accordance with the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For purposes of the

Administrative Procedure Act, the adoption of regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. These regulations shall not be subject to the review and approval of the Office of Administrative Law and shall become effective immediately upon filing with the Secretary of State. The regulations shall not remain in affect more than 120 days, for regulations implementing Section 3.5, and one year, for regulations implementing Sections 1 and 4, unless the department complies with all of the provisions of Chapter 3.5 (commencing with Section 11340) as required by subdivision (e) of Section 11346.1 of the Government Code.

SEC. 8. The State Department of Mental Health and the State Department of Social Services shall initially adopt regulations pursuant to Section 2 of this act as emergency regulations in accordance with the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For purposes of the Administrative Procedure Act, the adoption of the regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. These regulations shall not be subject to the review and approval of the Office of Administrative Law and shall not be subject to automatic repeal until 180 days after the regulations take effect and shall become effective immediately upon filing with the Secretary of State. The emergency regulations adopted pursuant to this act shall not, at any time, be subject to Sections 5400 or 5750 of the Welfare and Institutions Code. The regulations required by this act to be adopted by the State Department of Mental Health and the State Department of Social Services shall be adopted simultaneously. The initial public comment period required by the Administrative Procedure Act shall run concurrently and the public hearing required by the Administrative Procedure Act shall be scheduled for the same day at the same locations.

SEC. 9. Notwithstanding any other provision of law, up to one hundred fifty thousand dollars ($150,000) of the amount identified in paragraph (5) of subdivision (c) of Section 17601 of the Welfare and Institutions Code, may be transferred to Item 4440-001-001 of the Budget Act of 1991 for the purposes of implementation by the State Department of Mental Health on behalf of the counties of Sections 1 and 4 of this act.

Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure adequate protections are in place to provide for a healthful and safe environment for children eligible for rate classification level 13 and rate classification level 14, and in order to implement the provision of services through community treatment facilities, it is necessary that this act take effect immediately.

CHAPTER 611

Necessary medical therapy treatment services under the California Children's Services Program rendered in the public schools shall be exempt from financial eligibility standards and enrollment fee requirements for such services when rendered to any handicapped child whose educational or physical development would be impeded without such services.

All counties shall use the uniform standards for financial eligibility and enrollment fees established by the department. All enrollment fees shall be used in support of the California Children's Services Program.

265. (a) (1) Annually, the board of supervisors shall appropriate a sum of money for services for handicapped children of the county, including diagnosis, treatment, and therapy services for physically handicapped children in public schools, equal to 25 percent of the

The department shall gather information from counties necessary to comply with this section.

4075. The department shall establish and maintain an equitable system of payment for the special needs of mentally disordered persons in private residential care facilities for the mentally disabled as follows:

The department shall establish a standardized assessment tool and client monitoring system for counties to use in determining the functional ability and programmatic needs of mentally disordered clients pursuant to this chapter.

(b) The department shall adopt regulations necessary to establish eligibility criteria for private residential care facilities, including, but not limited to, training and educational requirements for facility operators and staff and ability to meet specified special needs of clients.

(c) The department shall establish rates annually in consultation with the California Conference of Local Mental Health Directors and provider groups. These rates shall include, but not be limited to, each of the cost elements in this section as follows:

(1) Rates established for all facilities shall include an adequate amount to care for basic living needs of a mentally disordered person. "Basic living needs" are defined to include housing, including shelter, utilities, and furnishings; food; and personal care. These amounts may be adjusted annually to reflect cost-of-living changes. A redetermination of basic living costs shall be undertaken every three years by the department using the best available estimating methods.

(2) To the extent applicable, rates established for facilities shall include a reasonable amount for unallocated services. These costs shall be determined using generally accepted accounting principles. "Unallocated services," for the purposes of this section, means the indirect costs of managing a facility and includes costs of managerial personnel, facility operation, maintenance and repair, employee benefits, taxes, interest, insurance, depreciation, and general and administrative support. If a facility serves other persons in addition

to mentally disordered persons, unallocated services expenses shall be reimbursed under this section, only for the proportion of the costs associated with the care of mentally disordered persons.

(3) Rates established for facilities shall include an amount to reimburse facilities for the depreciation of mandated capital improvements and equipment as established in the state's uniform accounting manual. For purposes of this section, "mandated capital improvements and equipment" are only those remodeling and equipment costs incurred by a facility because an agency of government has required the remodeling or equipment as a condition for the use of the facility as a provider of care to mentally disordered persons.

(4) To the extent applicable, rates established for all facilities shall include as a factor an amount to reflect differences in the cost of living for different geographic areas in the state.

(5) Rates established for facilities shall include an amount for supervision where the functional ability or programmatic needs of residents require augmented supervisory staff.

(6) Rates of payment for private residential care facilities shall be established in such ways as to ensure the maximum utilization of all federal and other sources of funding, to which mentally disordered persons are legally entitled, prior to the commitment of state funds for those purposes.

(d) In no case shall the rates established under this section be less than the rates paid for equivalent categories of regional center clients which were in effect on July 1, 1985.

4091. SEC. 22. Section 4094 of the Welfare and Institutions Code is amended to read:

4094. (a) The State Department of Mental Health shall establish, by regulation, program standards for any facility licensed as a community treatment facility providing mental health treatment services to seriously emotionally disturbed children, as defined in Section 5699.2, pursuant to subdivision (a) of Section 1502 of the Health and Safety Code. This section shall apply only to community treatment facilities described in this subdivision.

(b) A certification of compliance issued by the State Department of Mental Health shall be a condition of licensure for the community treatment facility by the State Department of Social Services.

(c) The State Department of Mental Health shall adopt regulations to include, but not be limited to, the following:

(1) Procedures by which the Director of Mental Health shall

certify that a facility requesting licensure as a community treatment facility pursuant to Section 1502 of the Health and Safety Code is in compliance with program standards established pursuant to this section.

(2) Procedures by which the Director of Mental Health shall deny a certification to a facility or decertify a facility licensed as a community treatment facility pursuant to Section 1502 of the Health and Safety Code, but no longer complying with program standards established pursuant to this section, in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(3) Provisions for site visits by the State Department of Mental Health for the purpose of reviewing a facility's compliance with program standards established pursuant to this section.

(4) Provisions for the community care licensing staff of the State Department of Social Services to report to the State Department of Mental Health when there is reasonable cause to believe that a community treatment facility is not in compliance with program standards established pursuant to this section.

(5) Provisions for the State Department of Mental Health to provide consultation and documentation to the State Department of Social Services in any administrative proceeding regarding denial, suspension, or revocation of a community treatment facility license.

(d) The standards adopted by regulations pursuant to subdivision (a) shall include, but not be limited to, standards for treatment staffing and for the use of psychotropic medication, discipline, and restraint in the facilities.

(e) During the initial public comment period for the adoption of the regulations required by this section, the community care facility licensing regulations proposed by the State Department of Social Services and the program standards proposed by the State Department of Mental Health shall be presented simultaneously.

(f) The sum of forty-five thousand dollars ($45,000) is hereby appropriated annually from the General Fund to the State Department of Mental Health for one personnel year to carry out the provisions of this section.

SEC. 23. Section 4095 of the Welfare and Institutions Code is amended to read:

4095. (a) It is the intent of the Legislature that essential and culturally relevant mental health assessment, case management, and treatment services be available to court wards and dependents placed out-of-home or who are at risk of requiring out-of-home care. This can be best achieved at the community level through the active collaboration of county social service, probation, education, mental health agencies, and foster care providers.

(b) Therefore, using the Children's Mental Health Services Act (Part 4 (commencing with Section 5850) of Division 5) as a guideline, the State Department of Mental Health, in consultation with the California Conference of Local Mental Health Directors,

the State Department of Social Services, the County Welfare Directors Association, the Chief Probation Officer's Association, county alcohol and drug program administrators, and foster care providers, shall do all of the following:

(1) By July 1, 1992, develop an individualized mental health treatment needs assessment protocol for court wards and dependents.

(2) By October 1, 1993, establish and maintain a special system of per child payments for supplemental mental health services rendered to court wards and dependents pursuant to this section. This payment system shall ensure that children are served according to state-level priorities, and that similar children are served similarly statewide, to the extent of appropriations available through the annual Budget Act to implement this section. The payment system shall encourage utilization of other resources where possible, including Medi-Cal reimbursement. It is the intent of the Legislature that the payment system shall be flexible so that services may be provided in the most appropriate setting and in the most cost-effective manner.

(3) By October 1, 1993, the department shall, for the purposes of implementing this section, establish guidelines for rates, payment, and subsets of target populations to be served, for supplemental mental health services rendered to court wards and dependents. These guidelines shall include, but not be limited to, data collection, cost reporting, and types of placement resources receiving county mental health funds. These guidelines shall remain in effect until the special system of payments is established, in accordance with paragraph (2).

(4) By January 1, 1993, establish, by regulation, all of the following:

(A) Definitions of priority ranking of subsets of the court wards and dependents target population.

(B) Definitions of priority supplemental services, including, but not limited to, services defined in Title IX (commencing with Section 7030) of the California Code of Regulations as of January 1, 1992, and family therapy, prevocational services, crisis support, family support, therapeutic respite activities, and therapeutic milieu activities, to be available to the target population.

(C) A certification procedure, to be employed by the local mental health director, which assures that only mental health services approved by the local mental health director shall be eligible for reimbursement under this section.

(5) Require that interagency collaboration and program services are structured in a manner which will facilitate future implementation of the goals of the Children's Mental Health Services Act. Components shall be added to the plans and contracts which specifically address the procedures to be implemented by the county in meeting the provisions of this section. The components are to be developed in collaboration with the county social services and probation departments. Plans and contracts submitted for

department approval shall document that the procedures to be implemented in compliance with this section have been approved by the county social services department and the county probation department pursuant to an interagency agreement.

(c) (1) Only those individuals within the target population as defined in regulation and determined to be eligible for services as a result of a mental health treatment needs assessment may receive services pursuant to this section.

(2) Allocation of funds appropriated for the purposes of this section shall be based on the number of wards and dependents identified pursuant to paragraphs (3) and (4) of subdivision (b).

(3) Funds specified in subdivision (a) of Section 17601 for purposes of this section shall, in the 1991–92 fiscal year, be distributed to all counties. The counties may return them to the State Department of Mental Health. The department shall use these funds to reimburse the costs of services provided under this section by counties or the department, the costs of mental health services provided counties or the department pursuant to Section 11462, and any costs associated with the development of assessment protocols, payment systems, and other products called for in this section.

(4) The counties shall be held harmless for failure to provide assessment and treatment services to those children identified in need of services for whom there is no funding.

(d) It is the intent of the Legislature to limit supplemental mental health treatment rates for the target population of this section to rates established pursuant to paragraphs (2), (3), and (4) of subdivision (b), effective October 1, 1993, and to reduce the impact of competition for scarce treatment resources on the cost and availability of care. The State Department of Mental Health, in consultation with the State Department of Social Services and appropriate organizations, including organizations representing service providers, shall develop a plan to accomplish this intent that addresses the access to, and availability of, mental health treatment for the target population. This plan shall be submitted to the Legislature by October 1, 1993.

(e) The department shall annually report to the Legislature on the service populations provided mental health treatment services pursuant to this section, the types and costs of services provided, and the number of children identified in need of treatment services who did not receive the services.

SEC. 24. Section 4330 of the Welfare and Institutions Code is amended to read:

4330. The State Department of Mental Health shall be reimbursed for use of state hospital beds by counties pursuant to Part 1 (commencing with Section 5000) of Division 5 as follows:

(a) (1) For the 1991–92 fiscal year, the department shall receive reimbursement in accordance with subdivision (b) or Section 17601. This total may be adjusted to reflect any and all amounts previously unallocated or held in reserve for use by small counties and any

adjustments made pursuant to Chapter 1341 of the Statutes of 1990.

(2) It is the intent of the Legislature to encourage and allow greater flexibility with respect to resources during the first transitional year, and, to this end, the Director of Mental Health may implement proposals for purchase in or purchase out of, state hospital beds which were proposed in accordance with Chapter 1341 of the Statutes of 1990.

(3) Funds and bed days historically allocated to small counties shall be allocated to counties with no allocation.

(b) Commencing with the 1992–93 fiscal year and each fiscal year thereafter, the department shall be reimbursed in accordance with the contracts entered into pursuant to Section 4331.

(c) The rate of reimbursement which shall apply each fiscal year shall be determined by the department and shall include all actual costs determined by hospital and by type of service provided. Costs shall not include costs incurred for capital outlay relating to existing facilities or capacity, which shall remain the responsibility of the state. Costs for capital outlay related to future expansions or construction of new facilities requested by any county or cost related to innovative arrangements under Section 4355 shall be a cost to the county unless the expansion, construction or innovative arrangements are determined to be of statewide benefit.

(d) After final determination of state hospital costs for patients covered under Part 1 (commencing with Section 5000) of Division 5, funds that remain unencumbered at the close of the fiscal year shall be made available to counties that used fewer state hospital beds than their contracted number, proportional to the contracted amount not used, but this amount shall not exceed the value of the unused contracted amount. These funds shall be used for mental health purposes.

SEC. 25. Section 4331 of the Welfare and Institutions Code is amended to read:

4331. (a) No later than July 1, 1992, and in each subsequent year, each county acting singly or in combination with other counties shall contract with the department for the number and types of state hospital beds that the department will make available to the county or counties during the fiscal year. Each county contract shall be subject to the provisions of this chapter, as well as other applicable provisions of law, but shall not be subject to the Public Contract Code and shall not be subject to review and approval by the Department of General Services.

(b) (1) No later than January 1, 1992, each county acting singly or in combination with other counties, shall notify the department in writing as to the number and type of state hospital beds the county or counties will contract for with the state in the 1992–93 fiscal year.

(2) No later than July 1, 1992, and no later than July 1 of each subsequent year, each county acting singly or in combination with other counties shall give the department preliminary written notification of the number and types of state hospital beds that the

county or counties will contract for with the state during the subsequent fiscal year. Counties may include in their notification a request for additional beds beyond their previous year's contract.

(3) No later than January 1, 1992, and no later than January 1 of each subsequent year, each county acting singly or in combination with other counties shall give the department final written notifications of the number and types of state hospital beds that the county or counties will contract for with the state during the subsequent fiscal year.

(4) The department shall provide counties with preliminary cost and utilization information based on the best data possible, 60 days in advance of the preliminary notification deadline, and a proposed final cost estimate, based on the best data possible, 60 days in advance of the final deadline. Final rates shall be subject to contract agreement.

(c) There shall be no increase in the number of beds provided to a county or group of counties during a fiscal year unless the contract between the department and that county or group of counties is amended by mutual agreement. Any significant change in services requested by a county shall require amendment of the contract.

(d) If a county or group of counties has not contracted with the department by July 1 of any given year, the number of beds to be provided that fiscal year shall be the same as the number provided the previous fiscal year, and the rate of reimbursement that shall be paid to the department shall be at the amount set by the department for the fiscal year commencing July 1 of that year.

SEC. 26. Section 4332 of the Welfare and Institutions Code is amended to read:

4332. (a) Contracts entered into pursuant to Section 4331 shall do all of the following:

(1) Specify the number of beds to be provided.

(2) Specify the rate or rates of reimbursement.

(3) Set forth the specific type of services requested by the county, in detail.

(4) Specify procedures for admission and discharge.

(5) Include any other pertinent terms as agreed to by the department and the county.

(b) The department shall consult, in advance, with the counties regarding any changes in state hospital facilities or operations which would significantly impact access to care or quality of care, or significantly increase costs.

(c) Beginning with the 1992–93 fiscal year and annually thereafter, the department shall make available to counties upon request the basis upon which its rates have been set, including any indirect cost allocation formulas.

SEC. 27. Section 4333 of the Welfare and Institutions Code is amended to read:

4333. (a) In the event a county or counties elect to reduce their state hospital resources, beginning July 1, 1992, systemwide state

hospital net bed reduction in any one year may not exceed 10 percent of the total for patients under Part 1 (commencing with Section 5000) of Division 5 in the prior year without the specific approval of the Director of Mental Health.

(b) Net bed reductions at any one hospital may not exceed 10 percent of its contracted beds without specific approval of the Director of Mental Health.

(c) If the proposed reduction in any year exceeds the maximum permitted amount, the department, with the assistance of counties, shall make every effort to contract for beds with other purchasers.

(d) If total county requests for bed reduction in any one year or at any one facility still exceed the amount of reduction allowed, each county's share of the reduction shall be determined by taking the ratio of its contracted beds to the total contracted and multiplying this by the total beds permitted to be reduced.

(e) (1) Small counties shall be exempted from the limitations of this section and shall have the amount of their reduction determined by the Director of Mental Health.

(2) For purposes of this chapter, "small counties" means counties with a population of 125,000 or less based on the most recent available estimates of population data determined by the Population Research Unit of the Department of Finance.

(f) It is the intent of the Legislature that counties have maximum flexibility in planning the use of these resources, which includes making full use of existing facilities and that the Director of Mental Health enforce his or her exemption authority in a manner consistent with this intent. Because freed-up beds may be purchased by other counties or may be used for other purposes, it is anticipated that individual county flexibility will be substantially greater than the 10-percent figure described in subdivisions (a) and (b).

(g) Counties may annually contract for state hospital beds as single entities or in combination with other counties. For purposes of this section, small counties, as defined in subdivision (e):

(1) Are encouraged to establish regional authorities to pool their resources to assure their ability to provide the necessary array of services to their mentally ill populations not otherwise available to them on an individual basis.

(2) May receive loans from the General Fund when emergency state hospital beds are needed, not to exceed one year in duration, with interest payable at the same rate as that earned through the Pooled Money Investment Fund. Any interest due may be waived based upon a finding of emergency by the Secretary of Health and Welfare and the Director of Finance.

(h) The department, in consultation with the California Conference of Local Mental Health Directors, affected employee organizations, and other consumer and family organizations, shall make available to the Legislature on an annual basis, beginning May 1, 1992, information assessing the impact of limitations on bed reductions on county flexibility, and the quality of care, efficiency,

and effectiveness of state hospital operations.

SEC. 28. Section 4341 of the Welfare and Institutions Code is amended to read:

4341. (a) In order to ensure the availability of an adequate number of persons from all disciplines necessary to implement appropriate and effective services to severely mentally ill persons of all ages and ethnic groups, the department shall, to the extent resources are available, implement a Human Resources Development Program.

(b) Implementation of the program shall include negotiation with any or all of the following: the University of California, state colleges, community colleges, private universities and colleges, public and private hospitals, and public and private rehabilitation, community care, treatment providers, and professional associations, to arrange affiliations and contracts for educational and training programs to ensure appropriate numbers of graduates with experience in serving severely mentally ill persons in the most cost-effective programs.

(c) The human resources development effort shall be undertaken with active participation of the California Conference of Local Mental Health Directors, client and family representatives, and professional and academic institutions.

(d) The program shall give particular attention to areas of specific expertise where local programs and state hospitals have difficulty recruiting qualified staff, including programs for forensic persistently severely mentally ill children and youth, and severely mentally ill elderly persons. Specific attention shall be given to ensuring the development of a mental health work force with the necessary bilingual and bicultural skills to deliver effective service to the diverse population of the state.

SEC. 29. Section 4342 of the Welfare and Institutions Code is amended to read:

4342. The five-year youth suicide prevention program established by the department shall develop all of the following:

(a) Research and data collection on youth suicide.

(b) Public education material production and distribution in conjunction with other public agencies and the private sector throughout the state.

(c) Training programs involving students, parents, teachers, school administrators, mental health professionals, local social service agencies, juvenile justice representatives, and others concerned with the problem of youth suicide.

(d) A final evaluation and report to the Governor and Legislature no later than July 1, 1993. It is the intent of the Legislature to expand the youth suicide prevention program to include research and data collection, public education material production and distribution, and training programs to address the needs of California's adult population in need of suicide interventions.

(e) This section shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which

is enacted before January 1, 1994, deletes or extends that date.

SEC. 30. Section 4353 of the Welfare and Institutions Code is amended to read:

4353. The Legislature finds and declares all of the following:

(a) There is a large population of persons who have suffered traumatic head injuries resulting in significant functional impairment.

(b) Approximately 80 percent of these injuries have occurred as a direct result of motor vehicle accidents.

(c) There is a lack of awareness of the problems associated with head injury resulting in a significant lack of services for persons with head injuries, including, but not limited to, in-home and out-of-home services, respite care, placement programs, counseling, cognitive rehabilitation, transitional living, and vocational rehabilitation services.

(d) Although there are currently a number of different programs attempting to meet the needs of the persons with head injuries, there is no clearly defined ultimate responsibility vested in any single state agency. Nothing in this section shall be construed to mandate services for persons with acquired traumatic injury through county and city programs.

(e) There is no programmatic coordination among agencies to facilitate the provision of a continuing range of services appropriate for persons with traumatic head injuries.

(f) There is a serious gap in postacute care services resulting in incomplete recovery of functional potential.

(g) Due to the problems referred to in this section, the state is not adequately meeting the needs of persons with head injuries enabling them to return to work and to lead productive lives.

SEC. 31. Section 4356 of the Welfare and Institutions Code is amended to read:

4356. (a) The department shall award and administer a maximum of four three-year demonstration projects. Priority shall be given to applicants which have proven experience in providing services to persons with an acquired traumatic brain injury or providing supported employment services to persons with special needs. There shall be at least one demonstration project located in the north half of the state and one in the south half of the state. The department shall award project grants no later than six months after funds for this purpose have been appropriated, using a competitive bidding process. No application shall be considered by the department unless the applicant sets forth in the application the means by which data will be collected for purposes of evaluation pursuant to subdivision (b). All projects shall be operational within two months following the grant award.

(b) The department shall also develop an evaluation and data collection system prior to the initial operative date of the project pursuant to subdivision (a), to assess the effectiveness of these coordinated service models. The department shall report to the

Legislature on the progress of the demonstration projects by November 30 of each year in which the projects are operational.

The evaluation shall assess the effectiveness of the pilot projects by doing all of the following:

(1) Comparing the number of persons who achieved supported employment placement, as described in subdivision (d) of Section 5564.1, with the number who would have achieved placement without the assistance of a pilot project. The program shall have as a goal an increase of 30 percent in numbers of persons employed as a result of the program.

(2) Comparing the number of persons who achieved employment compared with the number who would have achieved employment without the assistance of a pilot project. The program shall have as a goal an increase of 30 percent in numbers of persons employed as a result of the program.

(3) Conducting any other evaluative investigation which interested parties, as described in subdivision (c), determine to be appropriate. The program shall have as a goal an increase of 30 percent in the numbers of persons with significant improvement as measured by standard and objective functional assessment independence measures.

(4) The comparisons shall be analyzed to determine if provision of services had a statistically significant impact on rates of employment or supported employment, or on any other objective which interested parties, as described in subdivision (c), direct the department to measure.

(c) The department shall consult with interested parties to assist with the implementation of this chapter, and specifically with the development of criteria for selection of the projects and development of an evaluation and data collection system. Interested parties shall include, but not be limited to, all of the following:

(1) The California Association of Rehabilitation Facilities.

(2) The California Association for Adult Day Services.

(3) The Southern California Head Injury Foundation.

(4) The Northern California Head Injury Association.

(5) The Coalition of Independent Living Centers.

(d) The term "supported employment placement" as used in paragraph (1) of subdivision (b) means an alternative method of providing services which may include prevocational and educational services to individuals who may not qualify for vocational rehabilitation. The following four characteristics distinguish supported employment from both vocational rehabilitation services and traditional methods of providing day activity services:

(1) Service recipients appear to lack the potential for unassisted competitive employment.

(2) Ongoing training, supervision, and support services must be provided.

(3) The opportunity is designed to provide the same benefits that other persons receive from work, including an adequate income

level, quality of working life, security, and mobility.

(4) There is flexibility in the provision of support which is necessary to enable the person to function effectively at the worksite.

SEC. 32. Section 4360 of the Welfare and Institutions Code is amended to read:

4360. (a) The department shall provide mental health treatment and supervision in the community for judicially committed persons. The program established and administered by the department under this chapter to provide these services shall be known as the Forensic Conditional Release Program and may be used by the department in accordance with this section to provide services in the community to other patient populations for which the department has direct responsibility.

(b) The department may provide directly, or through contract with private providers or counties, for these services, including administrative and ancillary services related to the provision of direct services. These contracts shall be exempt from the requirements contained in the Public Contract Code and the State Administrative Manual, and from approval by the Department of General Services. Subject to approval by the department, a county or private provider under contract to the department to provide these services may subcontract with private providers for those services.

SEC. 33. Section 5402 of the Welfare and Institutions Code is amended to read:

5402. (a) The State Department of Mental Health shall collect and publish annually quantitative information concerning the operation of this division including the number of persons admitted for 72-hour evaluation and treatment, 14-day and 30-day periods of intensive treatment, and 180-day postcertification intensive treatment, the number of persons transferred to mental health facilities pursuant to Section 4011.6 of the Penal Code, the number of persons for whom temporary conservatorships are established, and the number of persons for whom conservatorships are established in each county.

(b) Each local mental health director, and each facility providing services to persons pursuant to this division, shall provide the department, upon its request, with any information, records, and reports which the department deems necessary for the purposes of this section. The department shall not have access to any patient name identifiers.

(c) Information published pursuant to this section shall not contain patient name identifiers and shall contain statistical data only.

(d) The department shall make the reports available to medical, legal, and other professional groups involved in the implementation of this division.

SEC. 34. Section 5403 of the Welfare and Institutions Code is amended to read:

5403. (a) From July 1, 1991 to June 30, 1993, inclusive, regulations promulgated by the department shall not be subject to the approval of the California Conference of Local Mental Health Directors. The impact of this subdivision on regulatory timing shall be included in the department's report to the Legislature on September 30, 1992.

(b) The department shall continue to involve the conference in the development of all regulations which affect local mental health programs prior to the promulgation of those regulations pursuant to the Administrative Procedure Act.

SEC. 35. Section 5600.1 of the Welfare and Institutions Code is amended to read:

5600.1. The mission of California's mental health system shall be to enable persons experiencing severe and disabling mental illnesses and children with serious emotional disturbances to access services and programs that assist them, in a manner tailored to each individual, to better control their illness, to achieve their personal goals, and to develop skills and supports leading to their living the most constructive and satisfying lives possible in the least restrictive available settings.

SEC. 36. Section 5600.2 of the Welfare and Institutions Code, as added by Chapter 89 of the Statutes of 1991, is amended to read:

5600.2. To the extent resources are available, public mental health services in this state should be provided to priority target populations in systems of care that are client-centered, culturally competent, and fully accountable, and which include the following factors:

(a) Client-Centered Approach. All services and programs designed for persons with mental disabilities should be client centered, in recognition of varying individual goals, diverse needs, concerns, strengths, motivations, and disabilities. Persons with mental disabilities:

(1) Retain all the rights, privileges, opportunities, and responsibilities of other citizens unless specifically limited by federal or state law or regulations.

(2) Are the central and deciding figure, except where specifically limited by law, in all planning for treatment and rehabilitation based on their individual needs. Planning should also include family members and friends as a source of information and support.

(3) Shall be viewed as total persons and members of families and communities. Mental health services should assist clients in returning to the most constructive and satisfying lifestyles of their own definition and choice.

(4) Should receive treatment and rehabilitation in the most appropriate and least restrictive environment, preferably in their own communities.

(5) Should have an identifiable person or team responsible for their support and treatment.

(6) Shall have available a mental health advocate to ensure their rights as mental health consumers pursuant to Section 5521.

(b) Priority Target Populations. Persons with serious mental illnesses have severe, disabling conditions that require treatment, giving them a high priority for receiving available services.

(c) Systems of Care. The mental health system should develop coordinated, integrated, and effective services organized in systems of care to meet the unique needs of children and youth with serious emotional disturbances, and adults, older adults, and special populations with serious mental illnesses. These systems of care should operate in conjunction with an interagency network of other services necessary for individual clients.

(d) Outreach. Mental health services should be accessible to all consumers on a 24-hour basis in times of crisis. Assertive outreach should make mental health services available to homeless and hard-to-reach individuals with mental disabilities.

(e) Multiple Disabilities. Mental health services should address the special needs of children and youth, adults, and older adults with dual and multiple disabilities.

(f) Quality of Service. Qualified individuals trained in the client-centered approach should provide effective services based on measurable outcomes and deliver those services in environments conducive to clients' well-being.

(g) Cultural Competence. All services and programs at all levels should have the capacity to provide services sensitive to the target populations' cultural diversity. Systems of care should:

(1) Acknowledge and incorporate the importance of culture, the assessment of cross-cultural relations, vigilance towards dynamics resulting from cultural differences, the expansion of cultural knowledge, and the adaptation of services to meet culturally unique needs.

(2) Recognize that culture implies an integrated pattern of human behavior, including language, thoughts, beliefs, communications, actions, customs, values, and other institutions of racial, ethnic, religious, or social groups.

(3) Promote congruent behaviors, attitudes, and policies enabling the system, agencies, and mental health professionals to function effectively in cross-cultural institutions and communities.

(h) Community Support. Systems of care should incorporate the concept of community support for individuals with mental disabilities and reduce the need for more intensive treatment services through measurable client outcomes.

(i) Self-Help. The mental health system should promote the development and use of self-help groups by individuals with serious mental illnesses so that these groups will be available in all areas of the state.

(j) Outcome Measures. State and local mental health systems of care should be developed based on client-centered goals and evaluated by measurable client outcomes.

(k) Administration. Both state and local departments of mental health should manage programs in an efficient, timely, and

cost-effective manner.

(*l*) Research. The mental health system should encourage basic research into the nature and causes of mental illnesses and cooperate with research centers in efforts leading to improved treatment methods, service delivery, and quality of life for mental health clients.

(m) Education on Mental Illness. Consumer and family advocates for mental health should be encouraged and assisted in conforming the public about the nature of mental illness from their viewpoint and about the needs of consumers and families. Mental health professional organizations should be encouraged to disseminate the most recent research findings in the treatment and prevention of mental illness.

SEC. 37. Section 5600.2 of the Welfare and Institutions Code, as amended by Chapter 962 of the Statutes of 1990, is amended and renumbered to read:

5751.2. (a) Except as provided in this section, persons employed or under contract to provide mental health services pursuant to this part shall be subject to all applicable requirements of law respecting professional licensure, and no person shall be employed in local mental health programs pursuant to this part to provide services for which such a license is required, unless the person possesses a currently valid license.

(b) Persons employed as psychologists and clinical social workers, while continuing in their employment in the same class as of January 1, 1979, in the same program or facility, including those persons on authorized leave, but not including intermittent personnel, shall be exempt from the requirements of subdivision (a). Additionally, the requirements of subdivision (a) may be waived by the department solely for persons in the professions of psychology, clinical social work, or marriage, family and child counseling who are gaining qualifying experience for licensure in the profession in this state.

(c) (1) A waiver granted pursuant to subdivision (b) shall not exceed three years from commencement of employment in this state in the case of marriage, family, and child counselors, at which time licensure shall have been obtained or the employment shall be terminated. For persons employed as marriage, family, and child counselors less than full time, an extension of a waiver of licensure may be granted for additional years proportional to the extent of part-time employment, as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed five years.

(2) A waiver granted pursuant to subdivision (b) shall not exceed four years from commencement of employment in this state in the case of full-time clinical social workers, at which time licensure shall have been obtained or the employment shall be terminated. However, the department may grant an extension of a waiver of licensure for one additional year, based on extenuating circumstances as determined by the department pursuant to

subdivision (f). For persons employed as clinical social workers less than full time, an extension of a waiver of licensure may be granted for additional years proportional to the extent of part-time employment, as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed six years.

(d) A waiver granted pursuant to subdivision (b) shall not exceed two years from commencement of employment in this state in the case of psychologists, at which time licensure shall have been obtained or the employment shall be terminated. For persons employed full time as a psychologist, the department may grant an extension of a waiver of licensure for an additional year, based upon extenuating circumstances as determined by the department. For persons employed less than full time as a psychologist, the department may grant an extension of a waiver of licensure for additional years proportional to the extent of part-time employment, based upon extenuating circumstances as determined by the department as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed five years.

(e) However, the durational limitations upon waivers shall not apply to active candidates for a doctoral degree in social work, social welfare, or social science, who are enrolled at an accredited university, college, or professional school, but these limitations shall apply following completion of this training. Additionally, this durational limitation upon waivers shall not apply to active candidates for a doctoral degree in marriage, family and child counseling or marital and family therapy who are enrolled at a school, college, or university, specified in subdivision (a) of Section 4980.40 of the Business and Professions Code, but the limitations shall apply following completion of the training. A waiver pursuant to this section shall be granted only to the extent necessary to qualify for licensure, except that personnel recruited for employment from outside this state and whose experience is sufficient to gain admission to a licensing examination shall, nevertheless, have two years from the date of their employment in California to become licensed, at which time licensure shall have been obtained or the employment shall be terminated. The department may grant an extension of a waiver of licensure for personnel recruited from outside this state for one additional year, based upon extenuating circumstances as determined by the department pursuant to subdivision (f).

(f) The department shall grant a request for an extension of a waiver based on extenuating circumstances, pursuant to subdivision (c) or (e), if any of the following circumstances exist:

(1) The person requesting the extension has experienced a recent catastrophic event which may impair the person's ability to qualify for and pass the license examination. Those events may include, but are not limited to, significant hardship caused by a natural disaster, serious and prolonged illness of the person, serious and prolonged

illness or death of a child, spouse, or parent, or other stressful circumstances.

(2) The person requesting the extension has difficulty speaking or writing the English language, or other cultural and ethnic factors exist which substantially impair the person's ability to qualify for and pass the license examination.

(3) The person requesting the extension has experienced other personal hardship which the department, in its discretion, determines to warrant the extension.

SEC. 38. Section 5600.3 of the Welfare and Institutions Code is amended to read:

5600.3. To the extent resources are available, the primary goal of use of funds deposited in the mental health account of the local health and welfare trust fund should be to serve the target populations identified in the following categories, which shall not be construed as establishing an order of priority:

(a) (1) Seriously emotionally disturbed children or adolescents.

(2) For the purposes of this part, "seriously emotionally disturbed children or adolescents" means minors under the age of 18 years who have a mental disorder as identified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, other than a primary substance use disorder or developmental disorder, which results in behavior inappropriate to the child's age according to expected developmental norms. Members of this target population shall meet one or more of the following criteria:

Serious mental disorders include, but are not limited to, schizophrenia, as well as

major affective disorders or other severely disabling mental disorders. This section shall not be construed to exclude persons with a serious mental disorder and a secondary diagnosis of substance abuse, developmental disability, or other physical or mental disorder.

(3) Members of this target population shall meet all of the following criteria:

(A) The person has a mental disorder as identified in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders, other than a primary substance use disorder or developmental disorder or acquired traumatic brain injury pursuant to subdivision (a) of Section 4354 unless that person also has a serious mental disorder as defined in paragraph (2).

(B) (i) As a result of the mental disorder the person has substantial functional impairments or symptoms, or a psychiatric history demonstrating that without treatment there is an imminent risk of decompensation to having substantial impairments or symptoms.

(ii) For the purposes of this part, "functional impairment" means being substantially impaired as the result of a mental disorder in independent living, social relationships, vocational skills, or physical condition.

(C) As a result of a mental functional impairment and circumstances the person is likely to be eligible for public assistance, services, or entitlements or is otherwise legally a public responsibility.

(c) Adults or older adults who require or are at risk of requiring acute psychiatric inpatient care, residential treatment, or outpatient crisis intervention because of a mental disorder with symptoms of psychosis, suicidality, or violence.

(d) Persons who need brief treatment as a result of a natural disaster or severe local emergency.

SEC. 39. Section 5600.4 of the Welfare and Institutions Code is amended to read:

5600.4. Community mental health services should be organized to provide an array of treatment options in the following areas, to the extent resources are available:

(a) Precrisis and Crisis Services. Immediate response to individuals in precrisis and crisis and to members of the individual's

support system, on a 24-hour, seven-day-a-week basis. Crisis services may be provided offsite through mobile services. The focus of precrisis services is to offer ideas and strategies to improve the person's situation, and help access what is needed to avoid crisis. The focus of crisis services is stabilization and crisis resolution, assessment of precipitating and attending factors, and recommendations for meeting identified needs. Case management may be provided offsite through mobile services.

(b) Comprehensive Evaluation and Assessment. Includes evaluation and assessment of physical and mental health, income support, housing, vocational training and employment, and social support services needs. Evaluation and assessment may be provided offsite through mobile services.

5600.9. (a) Services to the target populations described in Section 5600.3 should be planned and delivered to the extent practicable so that persons in all ethnic groups are served with programs that meet their cultural needs.

(b) Services in rural areas should be developed in flexible ways, and may be designed to meet the needs of the indigent and uninsured who are in need of public mental health services because other private services are not available.

(c) To the extent permitted by law, counties should maximize all available funds for the provision of services to the target populations. Counties are expressly encouraged to develop interagency programs and to blend services and funds for individuals with multiple problems, such as those with mental illness and substance abuse, and children, who are served by multiple agencies. State departments are directed to assist counties in the development of mechanisms to blend funds and to seek any necessary waivers which may be appropriate.

Pursuant to subdivision (b) of Section 5764, the California Council on Mental Health shall consult with the Organization of Mental Health Advisory Boards regarding data needed to perform these assessments. No later than March 15, 1992, the Organization of Mental Health Advisory Boards shall report to the California Council on Mental Health on all these issues.

(c) This section shall become inoperative on July 1, 1993, and, as of January 1, 1994, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1994, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 44. Section 5610 of the Welfare and Institutions Code is amended to read:

5610. (a) Each county mental health system shall comply with reporting requirements developed by the State Department of Mental Health which shall be uniform and simplified. The data system, including performance outcome measures reported

pursuant to Section 5613, shall be developed by July 1, 1992.

(c) Unless determined necessary by the department to comply with federal law and regulations, the data system developed pursuant to subdivision (b) shall not be more costly than that in place during the 1990–91 fiscal year.

(d) The department shall develop unique patient identifiers that permit development of client-specific cost and outcome measures while protecting confidentiality. The department shall not have access to any patient name identifiers.

SEC. 45. Section 5651 of the Welfare and Institutions Code is amended to read:

SEC. 46. Section 5651.2 of the Welfare and Institutions Code is amended to read:

5651.2. For the 1991–92 fiscal year, each county shall, no later than October 1, 1991, submit to the department a simplified performance contract. The performance contract shall include, but not be limited to, assurances necessary to ensure compliance with federal law. In addition, the performance contract may include provisions governing reimbursement to the state for costs associated with state hospitals and institutions for mental disease.

SEC. 47. Section 5672 of the Welfare and Institutions Code is amended to read:

5672. The types of programs serving children and adolescents referred to in Section 5671.5 are those described in this section. The programs should meet the criteria set forth in this section and in Sections 5671 and 5671.5. Nothing in this section should be construed to waive any licensure requirement pursuant to the California Community Care Facilities Act (Chapter 3 (commencing with Section 1500) of Division 2 of the Health and Safety Code) for any community care facility.

(a) A program for a short-term crisis residential alternative to hospitalization. The services in this program should include, but not be limited to, provision of direct services to the family, specific linkages with the child's educational system and community educational resources, and development of a support system, including school and treatment referrals. The program should be designed for children and adolescents who would otherwise be referred to a psychiatric inpatient unit. It should be a 24-hour program, with an emphasis on stabilization and appropriate referral for further treatment or support services.

(b) A long-term residential treatment program. This program should have an educational orientation and should reflect the principle that education be available in the least restrictive environment. The program should serve children and adolescents requiring an intensive support system for a period of six to 18 months, who would otherwise be at risk of periodic hospitalization. The program should provide coordinated intervention with the child, family unit, and community education resources, and should include

aftercare services to the child and family unit to solidify gains and develop skills in linking with community services.

(c) A transitional residential program. This program may include group homes, foster homes, or homes adapted for preparing adolescents approaching majority to adjust to emancipation.

The services in this program should include, but not be limited to, coordination with community education resources to meet the child's individual need, family services designed to strengthen the family unity of which the child is a part, and aftercare services to reinforce the gains brought about by the program and assist in community adjustment.

(d) A program for a semisupervised, independent but structured living arrangement. This program should apply to older adolescents, who are either emancipated or who would not be returning home from out-of-home placement. The semisupervised living arrangement should require structured living designed to impart those skills necessary for successful independent living as described in subdivision (d) of Section 5671. Adult supervision should be available 24 hours per day.

The services should include, but not be limited to, prevocational and vocational linkages in the community, financial planning which may include rent subsidy assistance, and development of a social support system.

(e) (1) A day treatment program. This program should provide services to children and adolescents who are residing in their own homes or in out-of-home placements. Schoolsites or other noninstitutional settings are preferred for this program. A day treatment program for children should offer a multidisciplinary approach and should incorporate education, recreation, and rehabilitation activities. Services provided should be age appropriate and age specific intensive remedial programs, including education, counseling, socialization, and recreational services. To the extent feasible, the client's family should be included in these activities.

(2) Day treatment services should be designed to provide an alternative to residential placement, to provide preventive services in the early stages of family breakdown, and to reduce the need for more costly and lengthy treatment services. Aftercare services should be available to maintain gains and prevent family regression.

(f) A socialization center program. This program should provide a multidisciplinary approach and seek funding from a variety of agencies responsible for providing services, including, but not limited to, school districts and recreation departments. The services should promote community acceptance of clients and the integration of their family units. Family involvement in planning activities and developing support system linkages should be encouraged.

(g) An in-home treatment program. This program should be designed to strengthen the child's ties with the family unit and with the greater community without removing the child from his or her home environment and community educational system.

Services provided should include, but not be limited to, crisis intervention, direct family services, development of specific treatment plans, development of ongoing plans utilizing available resources in the community educational system, and special programs which act as a support system for the child and family unit.

(h) Augmentation of crisis intervention program. This program should provide specifically for evaluation, diagnosis, and disposition planning for children and adolescents in psychiatric crisis.

(i) Case management services program. This program should emphasize prevention services and should be designed to divert to noninstitutional programs children and adolescents at risk of involvement with traditional mental health institutions.

SEC. 48. Article 2 (commencing with Section 5681) of Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code is repealed.

SEC. 49. Article 2 (commencing with Section 5680) is added to Chapter 2.5 of Part 2 of Division 5 of the Welfare and Institutions Code, to read:

Article 2. Community Support System for Homeless Mentally Disabled Persons

5680. In order to assist homeless mentally disabled persons to secure, stabilize, and maintain safe and adequate living arrangements in the community, the Legislature hereby establishes the Community Support System for Homeless Mentally Disabled.

5681. (a) It is the intent of the Legislature that when funds are made available, counties should assure the delivery of long-range services and community support assistance to homeless mentally disabled persons and those at risk of becoming homeless.

(b) It is further the intent of the Legislature that specific outreach and service priority be given under this chapter to homeless mentally disabled persons not served by any local or state programs as of September 30, 1985.

5682. The goal of the community support system is to assure that needed community services are provided to homeless mentally disabled persons and those at risk of becoming homeless to stabilize, maintain, and enhance their living in the community. All services of the community support system are offered to these persons on a voluntary basis. The active participation of the clients being provided services is encouraged at all times. Programs are designed to be accessible to the clients intended to be served. No individual service offered should be contingent upon the acceptance of any other community support service or mental health treatment.

5683. The function of the community support system is to conduct active outreach to homeless mentally disabled persons, to secure and maintain income, housing, food, and clothing for clients, and to develop social skills and prevocational and vocational skills on a voluntary basis. Each community support system is based upon the

range of services as may be necessary to meet a client's needs:

(a) Personal assistance to secure and maintain housing, food, clothing, income, and health benefits.

(b) Accessing social and vocational skill development activities when they are available, case management, and crisis intervention, with a focus on finding alternatives to acute inpatient hospital care, services when they are needed.

5683.5. Community support systems may provide temporary funds to their homeless clients for their personal incidental living needs while the clients are in residential placement. Up to seventy-five dollars ($75) may be made available monthly to each client for this purpose. Local mental health programs shall, to the extent possible, recoup payments from clients after they become eligible for a governmental assistance program, including, but not limited to, general relief or SSI/SSP funds or otherwise become financially able to repay the county community support system.

5685. Counties may provide specific services, contract with a public or private agency, or a combination of both. Nothing contained in this article shall prevent a county from developing a consortium model which involves a number of providers performing specific functions. If a county decides to contract out a portion or all of the community support program functions, priority shall be given to providers, public or private, that have demonstrated an ability and desire to the county to work with the population intended to be served and which possess the management skills needed to perform the functions they propose to perform.

5685.5. (a) A county may contract with the local office of the public guardian to receive and manage income and benefits for mentally ill persons, regardless of whether the persons are under conservatorship. The case management services described in this section shall be provided only with the consent of the client. The public guardian, under the contracts, may perform functions intended to meet the goals of the community support system listed in Section 5683, and may also include, but not be limited to, all of the following case management services:

(1) Outreach and casefinding to locate mentally ill persons in need of services.

(2) Establishing liaison with charitable organizations which serve mentally ill persons.

(3) Assistance in applying for and obtaining public assistance benefits for which they are eligible.

(b) Any office of the public guardian contracting with the county to provide these management services shall maintain a record of those individuals being assisted, including information about whether the individual is under conservatorship, the type of service assistance provided by the office of the public guardian, and any agencies with which the office of the public guardian is coordinating efforts.

5686. Whenever a county believes that a mentally disabled

person may be unable to manage his or her SSI/SSP funds, the county mental health program shall advise the person that he or she may have a trusted family member, relative or friend designated as their representative payee under the SSI/SSP program.

5686.5. In order to make the most efficient use of the public funds appropriated for this purpose, counties are encouraged to maximize the use of existing public and private community resources. If voluntarily requested by the client, the community support agency shall help the client learn to manage his or her own money. Any SSI/SSP money, or other personal funds, if managed by the program or by the local office of the public guardian, shall, at all times, be considered as the client's money. Nothing in this section, however, shall prevent a client from purchasing residential care with SSI/SSP funds.

5688.6. Any and all funds appropriated for the homeless mentally disabled which have been determined to be unexpended and unencumbered two years after the date the funds were appropriated shall be transferred to the Department of Housing and Community Development. The amount of transfer shall be determined after the State Department of Mental Health settles county cost reports for the fiscal year the funds were appropriated. The funds transferred to the Department of Housing and Community Development shall be administered in accordance with that department's Special Users Housing Rehabilitation or Emergency Shelter programs to provide low-income transitional and long-term housing for homeless mentally disabled persons. Special priority shall be given to project proposals for homeless mentally disabled persons in the same county from which the funds for the support of the community support system were originally allocated.

5699. (a) The Legislature finds and declares all of the following:

(1) That mental health case management services required for children with serious emotional disturbance are different than these services for mentally disordered clients described in Chapter 2.5 (commencing with Section 5670).

(2) That mental health case management services for children with serious emotional disturbance are not defined in statute.

(b) It is the intent of the Legislature to encourage the development of mental health case management services for children with serious emotional disturbance who are separated or at risk of being separated from their families and require mental health treatment, to the extent resources are available. SEC. 59. Section 5705 of the Welfare and Institutions Code is amended to read:

5705. (a) It is the intent of the Legislature that the use of negotiated net amounts or rates, as provided in this section, be given preference in contracts for services under this division.

(b) Negotiated net amount or rates may be used as the cost of services in contracts between the state and the county or contracts between the county and a subprovider of services, or both, in accordance with the following provisions:

(1) A negotiated net amount shall be determined by calculating the total budget for services for a program or a component of a program, less the amount of projected revenue. All participating government funding sources, except for the Medi-Cal program (Chapter 7 (commencing with Section 14000) of Part 3 of Division

9), shall be bound to that amount as the cost of providing all or part of the total county mental health program as described in the county performance contract for each fiscal year, to the extent that the governmental funding source participates in funding the county mental health programs. Where the State Department of Health Services promulgates regulations for determining reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program, those regulations shall be controlling as to the rates for reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program and rendered to Medi-Cal beneficiaries. Providers under this subdivision shall report to the State Department of Mental Health and local mental health programs any information required by the State Department of Mental Health in accordance with procedures established by the Director of Mental Health.

(2) A negotiated rate is the payment for services delivered on a per unit of service basis. All participating governmental funding sources shall be bound by that amount as the cost of providing that service for that county mental health program to the extent that the governmental funding source participates in funding the county and mental health program. Where the State Department of Health Services promulgates regulations for determining reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program, those regulations shall be controlling as to the rates for reimbursement of Short-Doyle mental health services allowable under the Medi-Cal program and rendered to Medi-Cal beneficiaries. Providers under this subdivision shall report to the local mental health program and the local mental health program shall report to the State Department of Mental Health any information required by the department in accordance with procedures established by the Director of Mental Health.

(c) Notwithstanding any other provision of this division or Division 9 (commencing with Section 10000), absent a finding of fraud, abuse, or failure to achieve contract objectives, no restrictions, other than any contained in the contract, shall be placed upon a provider's expenditure or retention of funds received pursuant to this section.

SEC. 60. Section 5711 of the Welfare and Institutions Code is amended to read:

5711. (a) In the case of federal audit exceptions, federal audit appeal processes shall be followed unless the State Department of Mental Health, in consultation with the California Conference of Local Mental Health Directors, determines that those appeals are not cost beneficial.

(b) Whenever there is a final federal audit exception against the state resulting from expenditure of federal funds by individual counties, the State Department of Mental Health or the State Department of Health Services may request the Controller's office to offset the county's allocation from the Mental Health Subaccount

of the Sales Tax Account of the Local Revenue Fund by the amount of the exception. The Controller shall be provided evidence that the county has been notified of the amount of the audit exception no less than 30 days before the offset is to occur. The State Department of Mental Health and the State Department of Health Services shall involve the appropriate counties in developing responses to any draft federal audit reports which may directly impact the counties.

SEC. 61. Section 5712 of the Welfare and Institutions Code is amended to read:

5712. The department shall contract with counties for the funds appropriated to, and allocated by, the department pursuant to paragraph (2) of subdivision (a) of Section 5700 in accordance with the following:

5716. Counties may contract with providers on a negotiated rate or negotiated net amount basis for services funded from amounts allocated to the county by the department in the same manner as set forth in Section 5705, except that the negotiated rate or net amount

shall be approved by the department. If the negotiated rate or net amount is not approved by the department, reimbursement to the county shall be in accordance with applicable provisions of this chapter and department regulation. If a negotiated net rate contract is not approved by the department, the contract shall be based upon actual cost.

SEC. 64. Section 5721 of the Welfare and Institutions Code is amended to read:

5721. Except as otherwise provided in this section, in determining the amounts which may be paid, fees paid by persons receiving services or fees paid on behalf of persons receiving services by the federal government, by the California Medical Assistance Program set forth in Chapter 7 (commencing with Section 14000) of Part 3 of Division 9, and by other public or private sources, shall be deducted from the costs of providing services. However, a county may negotiate a contract which permits a mental health care provider to retain unanticipated funds above the budgeted contract amount, provided that the unanticipated revenues are utilized for the mental health services specified in the contract. If a provider is permitted by contract to retain unanticipated revenues above the budgeted amount, the mental health provider shall specify the services funded by those revenues in the year end cost report submitted to the county. A county shall not permit the retention of any fees paid by private resources on behalf of Medi-Cal beneficiaries without having those fees deducted from the costs of providing services. Whenever feasible, mentally disordered persons who are eligible for mental health services under the California Medical Assistance Program shall be treated in a facility approved for reimbursement in that program. General unrestricted or undesignated private charitable donations and contributions made to charitable or nonprofit organizations shall not be considered as "fees paid by persons" or "fees paid on behalf of persons receiving services" under this section and the contributions shall not be applied in determining the amounts to be paid. These unrestricted contributions shall not be used in part or in whole to defray the costs or the allocated costs of the California Medical Assistance Program.

SEC. 65. Section 5722 of the Welfare and Institutions Code is amended to read:

5722. (a) The department shall have responsibility, as delegated by the State Department of Health Services, for conducting investigations and audits of claims and reimbursements for expenditures for mental health services provided by county mental health programs to Medi-Cal eligible individuals.

(b) The amount of the payment or repayment of federal funds in accordance with audit findings pertaining to Short-Doyle Medi-Cal mental health services shall be determined by the State Director of Health Services pursuant to the existing administrative appeals process of the State Department of Health Services.

amended to read:

5724. (a) The department, in consultation with the California Conference of Local Mental Health Directors, shall as expeditiously as possible, but no later than March 31, 1992, develop a new ratesetting methodology for use in the Short-Doyle Medi-Cal system. The department shall transmit the proposed methodology to the State Department of Health Services to be incorporated into the state's Medi-Cal plan for the following fiscal year. It is intended that this rate system be in place for the 1992–93 fiscal year, to the extent permitted by federal law. The proposal shall include all of the following:

(1) Maximum appropriate reimbursement for administrative support costs including, but not limited to, quality assurance, utilization review, technical assistance, training, cost accounting, intake processing, outreach services, and direct administrative activities.

(2) Greater reliance on prospective rates which may be regionally based and which shall not be subject to retrospective adjustment and which will reduce the administrative burden on the counties and the state related to cost reporting and auditing consistent with the overall goals of realignment.

(3) Alternative methodologies for establishing reimbursement limits.

(b) This methodology shall not be implemented until it has received any necessary federal approvals.

SEC. 67. Section 5750 of the Welfare and Institutions Code is amended to read:

5750. (a) The State Department of Mental Health shall administer this part and shall adopt standards for approval of mental health services, and rules and regulations necessary thereto. However, these standards, rules, and regulations shall be adopted only after consultation with the California Council on Mental Health and the California Conference of Local Mental Health Directors. Adoption of these standards, rules, and regulations shall require approval by the California Conference of Local Mental Health Directors by majority vote of those present at an official session except for regulations pertaining to psychiatric health facilities. For regulations pertaining to psychiatric health facilities, the vote by the conference, following consultation, shall be only advisory to the State Department of Mental Health.

(b) If the conference refuses or fails to approve standards, rules, or regulations submitted to it by the State Department of Mental Health for its approval, the State Department of Mental Health may submit these standards, rules, or regulations to the conference at its next meeting, and if the conference again refuses to approve them, the matter shall be referred for decision to a committee composed of the Secretary of the Health and Welfare Agency, the Director of Mental Health, the President of the California Conference of Local Mental Health Directors, the Chairman of the California Council on

Mental Health, and a member designated by the State Advisory Health Council.

(c) (1) From July 1, 1991, to June 30, 1993, inclusive, the conference shall not approve regulations of the State Department of Mental Health. The impact on this subdivision of regulatory timing shall be included in the department's report to the Legislature on September 30, 1992.

(2) The department shall continue during that period to involve the conference in the development of all regulations which affect local mental health programs, prior to the promulgation of those regulations pursuant to the Administrative Procedure Act.

SEC. 68. Section 5750.1 of the Welfare and Institutions Code is amended to read:

5750.1. Notwithstanding Section 5750, any standard, rule, or policy, not directly the result of a statutory or administrative law change, adopted by the department or county during the term of an existing county performance contract shall not apply to the negotiated rate and net amount terms of that contract under Sections 5705 and 5716, but shall only apply to contracts established after adoption of the standard, rule, or policy.

SEC. 69. Section 5764 of the Welfare and Institutions Code is amended to read:

5764. The California Council on Mental Health shall have the powers and authority necessary to carry out the duties imposed upon it by this chapter, including, but not limited to, the following:

(a) To advise the Director of Mental Health on the development of the state three-year mental health plan and the system of priorities contained in that plan.

(b) To periodically review all mental health services in California, conducting independent investigations and studies as necessary.

(1) The council shall assess the impact of the realignment of services from the state to the county on services delivered to clients and on the local community. The council shall report this information to the Legislature prior to fiscal committee deliberations for the 1992–93 fiscal year. The report shall include recommendations provided to the council by the Organization of Mental Health Advisory Boards pursuant to paragraph (1) of subdivision (b) of Section 5604.2. The council shall provide a final report to the Legislature on the impact of realignment no later than January 15, 1993.

(2) The council shall review pertinent portions of the proposed plans and budgets of all state agencies serving persons with mental disabilities, including the Departments of Education, Rehabilitation, Health Services, Transportation, Social Services, Developmental Services, Employment, Youth Authority, Corrections, and Parks and Recreation and the Office of Statewide Health Planning and Development and may include public hearings. The California Council on Mental Health may prepare any necessary reports to the Governor, the Legislature, and the Director of Mental Health, and

A claim filed after that time may only be paid if the claim falls within the exceptions set forth in federal law. Any claim filed with the department after July 1, 1985, shall be subject to these limitations.

(2) The department may change the nine-month limitation specified in paragraph (1), as deemed necessary by the department to comply with federal changes which affect claiming time limits.

paragraph (2) of subdivision (a) of Section 1498.1 of Title 17 of the California Code of Regulations, the notice of intent to contract submitted by an eligible county pursuant to this section shall not be legally binding on that county or the state until 15 days after the enactment of the Budget Act of 1991.

(3) For the 1991–92 fiscal year only, contracts entered into pursuant to this section shall be governed by the following provisions:

(A) For a county which contracted with the department pursuant to Section 16709 during the 1990–91 fiscal year, the county may unilaterally terminate its contract and the effective date of termination shall be no earlier than the first day of the calendar month subsequent to 45 days after enactment of the Budget Act of 1991.

(B) (i) Notwithstanding any other provision of this section, except as provided in clause (ii), money in the program account shall not be used to pay for services for individuals who are not residents of counties that contract with the department pursuant to this

section.

(ii) Clause (i) does not apply to services that are related to any accident or illness that occurs within a county that contracts with the department pursuant to this section.

(f) (1) Moneys in the program account shall be administered on an accrual basis and notwithstanding any other provision of law, except as provided in this section, shall not be transferred to any other fund or account in the State Treasury except for purposes of investment as provided in Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code.

(2) (A) Any interest or other increment resulting from the investment shall be deposited in the program account, at the end of the 1982–83 fiscal year and every six months thereafter, notwithstanding Section 16305.7 of the Government Code.

Six months after the end of each fiscal year, any projected savings in the program account shall be transferred to the reserve account, with final settlement occurring no more than 12 months later. Moneys in this account shall be utilized when expenditures for health services made pursuant to subdivision (j) for a fiscal year exceed the amount of funds available in the program account for that fiscal year. When funds in the reserve account are estimated to exceed 10 percent of the budget for health services for all counties electing to contract with the department under this section for the fiscal year, the additional funds shall be available for expenditure to augment the rates, benefits, or eligibility criteria pursuant to subdivision (j) or for reducing the participation fees required of Section 16809.3.

(h) Moneys in the program account and the reserve account, except for funds provided by the state in excess of the amount required to fund the state risk specified in subdivision (j), and any funds loaned pursuant to subdivision (q), shall not be transferred to any other fund or account in the State Treasury except for purposes of investment as provided in Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code. (2) (A) Beginning in the 1992–93 fiscal year and for each fiscal year thereafter, counties shall assume the risk for cost increases of the County Medical Services Program not funded through other sources. This risk shall be limited to the cumulative annual growth in the Local Revenue Fund created by Section 17600 according to the table specified in paragraph (3) to the County Medical Services Program. Cost increases shall be allocated proportionately to each county's actual growth in dedicated revenues. The state shall be at risk for any costs which exceed the cumulative annual growth in vehicle license fee and sales tax revenues deposited into the Local Revenue Fund for distribution to counties participating in the County Medical Services Program.

(B) As a condition of the state assuming this risk, the department may require uniform eligibility criteria and benefits to be provided which shall be mutually established by participating counties in conjunction with the department. The department in consultation with the counties may revise these eligibility criteria and benefits or alter rates of payment during the fiscal year in order to ensure that sufficient funds are available for health services to county residents certified as eligible for the services. The counties and the department shall work collectively to ensure that expenditures do not exceed the funds available in the program account and may adjust eligibility and benefit criteria and payments accordingly.

In negotiating and renegotiating contracts with hospitals, the commission may seek terms which allow reimbursement for patients receiving services under this section at contracted Medi-Cal rates.

(o) Any hospital which has a contract with the state for inpatient services under the Medi-Cal program and which has been approved by the commission to be reimbursed for patients receiving services under this section shall not deny services to these patients.

(ii) The reimbursement shall be made monthly on the same day the Controller allocates funds to the local health and welfare trust funds.

(B) During the 1992–93 fiscal year and thereafter, the amount to be reimbursed each month shall be computed by multiplying the ratio of the county's contract for mental health services to the amount of money projected to be allocated to the county pursuant to Schedule A by the funds available for deposit in the mental health account of the county's health and welfare trust fund.

Sec. 202. (a) (1) No later than November 15, 1991, the Health and Welfare Agency shall establish a task force to review and evaluate existing county reporting and data requirements for mental health, public health, indigent health, and social services. In addition, the task force shall propose a plan to evaluate realignment which shall include the specific data to be collected, the entities that would collect each type of data, and the dates on which data will be provided to the Health and Welfare Agency.

(2) (A) The plan and budget requirements specified in subdivision (b) of Section 16800 of the Welfare and Institutions Code shall be superseded by the recommendations of the task force when implementing legislation is enacted or when the Health and Welfare Agency determines that the recommendations may be implemented under existing statutes.

(B) Recommendations for modifying the county plan and budget requirements specified in subdivision (b) of Section 16800 shall not result in county administrative costs that exceed statewide costs incurred under statutes in effect on the effective date of this section.

(b) The task force shall consist of representatives from the Health

and Welfare Agency, the Department of Finance, the Legislative Analyst's office, appropriate legislative committee staff, county representatives, representatives of public and private sector health workers, private health care providers, medically indigent adults, nonprofit community-based organizations providing mental health, public health, social services, the affected state departments, and other interested groups.

(c) On or before April 1, 1992, the Health and Welfare Agency shall report to the Legislature on recommendations for data and information requirements and shall submit a draft of legislative language necessary to effect the recommendations. This report shall specifically include recommendations on the data to be collected to meet legislative intent as specified in subdivision (f).

(d) The Legislative Analyst shall issue a report summarizing the health service plans submitted by each governing body to the Health and Welfare Agency pursuant to subdivision (b) of Section 16800 of the Welfare and Institutions Code. The Legislative Analyst shall summarize these service plans and provide an independent verification of their accuracy based on site visits to as many counties as possible. A report shall be transmitted to the Joint Legislative Task Force on Realignment by May 15, 1992, April 1, 1993, and April 1, 1994.

(e) The Auditor General and the Legislative Analyst shall prepare and transmit a comprehensive evaluation plan to the Joint Legislative Task Force on Realignment created by this act no later than June 30, 1992. This plan shall include elements contained in the evaluation plan pursuant to subdivision (b) of Section 16800 of the Welfare and Institutions Code, the extent to which the Health and Welfare Agency data and recommendations would allow for an evaluation of the items specified in subdivision (f), costs estimated for conducting the comprehensive evaluation, and a division of labor between the joint committees, and what components would be performed by either the Joint Legislative Task Force on Realignment directly, an independent contractor, the Legislative Analyst, or the Auditor General.

(f) This plan shall cover the resources and data needed to determine the following:

(1) If there has been compliance with each of the realignment provisions pursuant to this act.

(2) If revenues have been sufficient to adequately serve anticipated caseload increases.

(3) The extent to which additional problems of access to care by the indigent and racial and ethnic minorities have developed.

(4) The extent to which local public health, indigent health, and social services planning, funding, and service delivery has been inclusive of public health and social services providers in the local jurisdictions, including nonprofit community-based organizations.

(5) The extent to which interagency collaboration has occurred for the purposes of streamlining intake and assessment processes and

coordinating funding and service delivery.

(6) The extent to which the costs and demand for health care in contract counties and under the County Medical Services Program (CMSP) has increased, and the factors impeding the ability to meet increased needs.

(7) The extent to which health care standards have been maintained and enforcement procedures established by county public health departments.

(8) The extent to which surveillance systems identify communicable and chronic diseases and other causes of death and disability.

(g) Based on its review of the evaluation plan, the Joint Legislative Task Force on Realignment shall develop legislation specifying the resources and activities necessary to provide for an evaluation by April 1, 1994, and annually thereafter until April 1, 1996.

(h) It is the intent of the Legislature that the evaluation shall be based on site visits and analysis of data in the following counties over the three-year period: three counties each with a population of over 2,000,000 persons; three counties each with a population between 1,000,000 and 2,000,000 persons; and three counties each with a population between 500,000 and 1,000,000 persons. The State Department of Health Services shall assist the Joint Legislative Task Force on Realignment, independent contractors, the Legislative Analyst, and the Auditor General in conducting onsite visits. In addition, the department shall conduct a review in five counties designated by the department as being contract counties and nine counties designated CMSP counties and shall submit a report of these reviews to the Legislative Analyst over the three-year period.

(i) In each evaluation, the Joint Legislative Task Force on Realignment, independent contractors, the Legislative Analyst, and the Auditor General shall make a specific determination as to whether implementation has complied with this act and Sections 16990 and 16995 of the Welfare and Institutions Code, and shall include recommendations for such legislation as may be appropriate to deter or remedy any problems identified.

(j) As part of their responsibilities in conducting these evaluations, the Joint Legislative Task Force on Realignment, independent contractors, the Legislative Analyst, and the Auditor General shall consult with providers of public health, indigent health, mental health, and social services at the county level, and impacted communities including, but not limited to, the indigent, racial and ethnic minorities, and rural farmworkers.

CHAPTER 612

An act to amend Section 1277 of the Health and Safety Code, and to amend and renumber Section 5600.2 of the Welfare and Institutions Code, relating to mental health.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 7, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1277 of the Health and Safety Code is amended to read:

1277. (a) No license shall be issued by the state department unless it finds that the premises, the management, the bylaws, rules and regulations, the equipment, the staffing, both professional and nonprofessional, and the standards of care and services are adequate and appropriate, and that the health facility is operated in the manner required by this chapter and by the rules and regulations adopted hereunder.

(b) Notwithstanding any provision of Part 2 (commencing with Section 5600) of Division 5 of, or Division 7 (commencing with Section 7100) of, the Welfare and Institutions Code or any other law to the contrary, except Sections 2137.1 and 2137.2 of the Business and Professions Code, the licensure requirements for professional personnel, including, but not limited to, physicians and surgeons, dentists, podiatrists, psychologists, marriage, family, and child counselors, pharmacists, registered nurses, and clinical social workers in the state and other governmental health facilities licensed by the state department shall not be less than for those professional personnel in health facilities under private ownership. Persons employed as psychologists and clinical social workers, while continuing in their employment in the same class as of January 1, 1979, in the same state or other governmental health facility licensed by the state department, including those persons on authorized leave, but not including intermittent personnel, shall be exempt from the requirements of this subdivision. Additionally, the requirements of this subdivision may be waived by the state department solely for persons in the professions of psychology, marriage, family, and child counseling or clinical social work who are gaining qualifying experience for licensure in such profession in this state. A waiver granted pursuant to this subdivision shall not exceed two years from the date the employment commences in this state in the case of psychologists, or four years from commencement of the employment in this state in the case of marriage, family, and child counselors and clinical social workers, at which time licensure shall have been obtained or the employment shall be terminated except that an extension of a waiver of licensure may be granted for one additional year, based on extenuating circumstances determined by

the department pursuant to subdivision (e). For persons employed as psychologists, clinical social workers, or marriage, family and child counselors less than full time, an extension of a waiver of licensure may be granted for additional years proportional to the extent of part-time employment, as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed six years in the case of clinical social workers and marriage, family, and child counselors, or five years in the case of psychologists. However, this durational limitation upon waivers shall not apply to active candidates for a doctoral degree in social work, social welfare, or social science, who are enrolled at an accredited university, college, or professional school, but these limitations shall apply following completion of this training. Additionally, this durational limitation upon waivers shall not apply to active candidates for a doctoral degree in marriage, family, and child counseling or marital and family therapy who are enrolled at a school, college, or university, specified in subdivision (a) of Section 4980.40 of the Business and Professions Code, but the limitations shall apply following completion of the training. A waiver pursuant to this subdivision shall be granted only to the extent necessary to qualify for licensure, except that personnel recruited for employment from outside this state and whose experience is sufficient to gain admission to a licensing examination shall nevertheless have one year from the date of their employment in California to become licensed, at which time licensure shall have been obtained or the employment shall be terminated, provided that the employee shall take the licensure examination at the earliest possible date after the date of his or her employment, and if the employee does not pass the examination at that time, he or she shall have a second opportunity to pass the examination, subject to the one-year limit.

(c) A special permit shall be issued by the state department when it finds that the staff, both professional and nonprofessional, and the standards of care and services are adequate and appropriate, and that the special services unit is operated in the manner required in this chapter and by the rules and regulations adopted hereunder.

(d) The state department shall apply the same standards to state and other governmental health facilities that it licenses as it applies to health facilities in private ownership, including standards specifying the level of training and supervision of all unlicensed practitioners. The department may grant an extension of a waiver of licensure for personnel recruited from outside this state for one additional year, based upon extenuating circumstances as determined by the department pursuant to subdivision (e).

(e) The department shall grant a request for an extension of a waiver based on extenuating circumstances, pursuant to subdivision (b), if any of the following circumstances exist:

(1) The person requesting the extension has experienced a recent catastrophic event which may impair the person's ability to qualify for and pass the license examination. Those events may include, but

are not limited to, significant hardship caused by a natural disaster, serious and prolonged illness of the person, serious and prolonged illness or death of a child, spouse, or parent, or other stressful circumstances.

(2) The person requesting the extension has difficulty speaking or writing the English language, or other cultural and ethnic factors exist which substantially impair the person's ability to qualify for and pass the license examination.

(3) The person requesting the extension has experienced other personal hardship which the department, in its discretion, determines to warrant the extension.

SEC. 2. Section 5600.2 of the Welfare and Institutions Code, as amended by Section 2 of Chapter 962 of the Statutes of 1990, is amended and renumbered to read:

5603. (a) Except as provided in this section, persons employed or under contract to provide mental health services pursuant to this part shall be subject to all applicable requirements of law respecting professional licensure, and no person shall be employed in local mental health programs pursuant to this part to provide services for which such a license is required, unless the person possesses a currently valid license.

(b) Persons employed as psychologists and clinical social workers, while continuing in their employment in the same class as of January 1, 1979, in the same program or facility, including those persons on authorized leave, but not including intermittent personnel, shall be exempt from the requirements of subdivision (a). Additionally, the requirements of subdivision (a) may be waived by the department solely for persons in the professions of psychology, clinical social work, or marriage, family and child counseling who are gaining qualifying experience for licensure in the profession.

(c) A waiver granted pursuant to subdivision (b) shall not exceed four years from commencement of employment in the case of full-time clinical social workers, or in the case of marriage, family and child counselors, at which time licensure shall have been obtained or the employment shall be terminated. However, the department may grant an extension of a waiver of licensure for one additional year, based on extenuating circumstances as determined by the department pursuant to subdivision (f). For persons employed as clinical social workers or marriage, family and child counselors less than full time, an extension of a waiver of licensure may be granted for additional years proportional to the extent of part-time employment, as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed six years.

(d) A waiver granted pursuant to subdivision (b) shall not exceed two years from commencement of employment in the case of psychologists, at which time licensure shall have been obtained or the employment shall be terminated. For persons employed full time as a psychologist, the department may grant an extension of a waiver

of licensure for an additional year, based upon extenuating circumstances as determined by the department. For persons employed less than full time as a psychologist, the department may grant an extension of a waiver of licensure for additional years proportional to the extent of part-time employment, based upon extenuating circumstances as determined by the department as long as the person is employed without interruption in service, but in no case shall the waiver of licensure exceed five years.

(e) However, the durational limitations upon waivers shall not apply to active candidates for a doctoral degree in social work, social welfare, or social science, who are enrolled at an accredited university, college, or professional school, but these limitations shall apply following completion of this training. Additionally, this durational limitation upon waivers shall not apply to active candidates for a doctoral degree in marriage, family and child counseling or marital and family therapy who are enrolled at a school, college, or university, specified in subdivision (a) of Section 4980.40 of the Business and Professions Code, but the limitations shall apply following completion of the training. A waiver pursuant to this section shall be granted only to the extent necessary to qualify for licensure, except that personnel recruited for employment from outside this state and whose experience is sufficient to gain admission to a licensing examination shall, nevertheless, have two years from the date of their employment in California to become licensed, at which time licensure shall have been obtained or the employment shall be terminated. The department may grant an extension of a waiver of licensure for personnel recruited from outside this state for one additional year, based upon extenuating circumstances as determined by the department pursuant to subdivision (f).

(f) The department shall grant a request for an extension of a waiver based on extenuating circumstances, pursuant to subdivision (c) or (e), if any of the following circumstances exist:

(1) The person requesting the extension has experienced a recent catastrophic event which may impair the person's ability to qualify for and pass the license examination. Those events may include, but are not limited to, significant hardship caused by a natural disaster, serious and prolonged illness of the person, serious and prolonged illness or death of a child, spouse, or parent, or other stressful circumstances.

(2) The person requesting the extension has difficulty speaking or writing the English language, or other cultural and ethnic factors exist which substantially impair the person's ability to qualify for and pass the license examination.

(3) The person requesting the extension has experienced other personal hardship which the department, in its discretion, determines to warrant the extension.

CHAPTER 613

An act to amend Sections 68113, 68543.5, 76103, 76213, and 77200 of the Government Code, to amend Sections 859a, 1306, 1462, and 1464 of the Penal Code, to amend Sections 4760.1, 40611, and 42006 of the Vehicle Code, and to amend Section 75 of Chapter 90 of the Statutes of 1991, relating to criminal law.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 68113 of the Government Code, as amended by Chapter 189 of the Statutes of 1991, is amended to read:

68113. (a) The superior, municipal, and justice courts in each county shall submit a report to the Judicial Council on progress towards achieving the cost reduction goals associated with the coordination plans and factors impacting the cost of court operations and the collection of revenues. The report shall also include financial information prepared by the county auditor on expenditures for court operations and revenues according to a uniform chart of accounts adopted by the Judicial Council. The first report shall be submitted on or before February 15, 1992, covering the period July 1, 1991, to December 31, 1991, inclusive. Thereafter the reports shall be submitted quarterly on or before the 15th day of the second month following the end of the quarter, except the fourth-quarter report shall be submitted on the 15th day of the third month following the end of the fourth quarter.

(b) For purposes of the reporting requirements of this section, a court or courts in a county may petition the Judicial Council to permit division of the court or courts into smaller administrative units corresponding to the organization of the court or courts under a coordination plan where reporting courtwide would impose an undue burden because of the number of judges or the physical location of the divisions of the court or courts.

(c) The Judicial Council shall submit a report to the Legislature on or before November 1 following the end of each fiscal year setting forth all of the following:

(1) The revenues and expenditures for each superior, municipal, and justice court in the state and statewide totals.

(2) A summary of the savings achieved by each county and statewide.

(3) Factors impacting the cost of court operations and the collection of revenues.

SEC. 2. Section 68543.5 of the Government Code, as amended by Chapter 189 of the Statutes of 1991, is amended to read:

68543.5. (a) Whenever a judge retired as such under the Judges' Retirement Law is assigned to sit in a trial court, the state shall pay

the judge for each day of service in the court in the amount specified in Section 68543.7, without loss or interruption of retirement benefits, unless the judge waives compensation under this section. Whenever a retired judge of a justice court who is not under the Judges' Retirement Law is assigned to sit in a trial court the state shall pay the judge for each day of service in the court in the amount specified in Section 68543.7, or the compensation specified in Section 68541, whichever is greater. The compensation is payable out of any appropriation for extra compensation of judges assigned by the Chairperson of the Judicial Council.

The receiving county shall pay the state at least 50 percent of the salary provided in Section 68543.7 for the time the judge serves the receiving court and may, at its option, agree to pay more than 50 percent. If the county is an option county, as defined in Section 77004, the amount due shall be paid as provided in Section 77205.3.

During the period of assignment, a retired judge shall be allowed expenses for travel, board, and lodging incurred in the discharge of the assignment. When assigned to sit in the county in which he or she resides, the judge shall be allowed expenses for travel, and board incurred in the discharge of the assignment. The expenses for travel, board, and lodging shall be paid by the state under the rules adopted by the Board of Control which are applicable to officers of the state provided for in Article VI of the Constitution while traveling on official state business. The receiving county shall reimburse the state for these expenses. If the county is an option county, as defined in Section 77004, the amount due shall be paid as provided in Section 77205.3.

Notwithstanding the above provisions pertaining to compensation, a retired judge on senior judge status shall receive compensation from the state as provided in Sections 75028 and 75028.2, and shall be allowed expenses for travel, board, and lodging incurred in the discharge of the assignment as provided in this section.

A county receiving a judge on senior judge status shall pay the state 50 percent of the full salary of a judge of the court to which the retired judge is assigned for the time the judge serves the receiving court. If the county is an option county, as defined in Section 77004, the amount due shall be paid as provided in Section 77205.3.

(b) Whenever a judge retired as such under the Judges' Retirement Law is assigned to sit in a court of appeal or the Supreme Court, he or she shall be compensated while so sitting at a rate equal to 92 percent of the full compensation of a judge of the court to which he or she is assigned unless the judge waives compensation under this section. A retired judge of a justice court who is not under the Judges' Retirement Law and who is assigned to sit in a court of appeal or the Supreme Court shall be compensated while so sitting at the full compensation of a judge of the court to which he or she is assigned, or the compensation specified in Section 68541, whichever is greater. The compensation shall be chargeable for the period specified in Section 68547 the same as provided by law with respect to the

compensation of a judge of the court to which he or she is assigned and the compensation is payable out of any appropriation for extra compensation of judges assigned by the Chairperson of the Judicial Council.

If the compensation is greater than the judge's retirement allowance, the state shall pay the judge the difference between the compensation and the retirement allowance. The state shall reimburse the Judges' Retirement Fund for the retirement allowance paid to the judge while sitting on assignment, except that if no allowance has been paid because the judge has taken deferred retirement, no reimbursement shall be paid to the Judges' Retirement System.

If the compensation would be less than his or her retirement allowance, the retirement allowance shall continue to be paid in lieu of the compensation. The state shall reimburse the Judges' Retirement Fund in the amount of the compensation which would otherwise have been paid to the judge while sitting on assignment.

If a judge retired under the Judges' Retirement Law is assigned to sit in a court of appeal or the Supreme Court, the 8 percent difference between the compensation of the retired judge while so assigned and the compensation of a judge of the court to which assigned shall be paid to the Judges' Retirement Fund.

During the period of assignment, a retired judge shall be allowed expenses for travel, board, and lodging incurred in the discharge of the assignment. When assigned to sit in the county in which he or she resides, the judge shall be allowed expenses for travel, and board incurred in the discharge of the assignment. The expenses for travel, board, and lodging shall be paid by the state under the rules adopted by the State Board of Control which are applicable to officers of the state provided for in Article VI of the Constitution while traveling on official state business.

Notwithstanding the above provisions pertaining to compensation, a retired judge on senior judge status shall receive compensation from the state as provided in Sections 75028 and 75028.2, and shall be allowed expenses for travel, board, and lodging incurred in the discharge of the assignment as provided in this section.

SEC. 3. Section 76103 of the Government Code, as amended by Chapter 189 of the Statutes of 1991, is amended to read:

76103. To assist any county in the funding and maintenance of a criminal justice forensic laboratory, the board of supervisors may, by resolution, establish in the county treasury a forensic laboratory fund. The fund moneys, together with any interest earned thereon, shall be held by the county treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code. The moneys in the Forensic Laboratory Fund together with any interest earned thereon shall be payable only for the construction, reconstruction, expansion, improvement, operation, or maintenance of Forensic Laboratory Facilities. The money in the fund may be used through any public agency funding mechanism including, but

not limited to, retirement of bonded indebtedness, loan repayments, and monthly payments involving lease-purchase programs, which reduce an obligation incurred in reliance upon the authority granted by this section.

SEC. 4. Section 76213 of the Government Code, as added by Chapter 189 of the Statutes of 1991, is amended to read:

76213. To assist Imperial County in the improvement of criminal justice automated information systems and the funding and maintenance of a criminal justice forensic laboratory, the board of supervisors may by resolution establish in the county treasury a Criminal Justice Investigation Fund pursuant to Section 76105.

The fund moneys together with any interest earned thereon shall be held by the treasurer separate from any funds subject to transfer or division pursuant to Section 1463 of the Penal Code. The moneys in the Criminal Justice Investigation Fund together with any interest earned thereon shall be payable only for the improvement of criminal justice automated information systems and the construction, reconstruction, expansion, improvement, operation, or maintenance of the forensic laboratory facilities. The money in the fund may be used through any public agency funding mechanism including, but not limited to, retirement of bonded indebtedness, loan repayments, and monthly payments involving lease-purchase programs, which reduce an obligation incurred in reliance upon the authority granted by this section.

SEC. 5. Section 77200 of the Government Code, as amended by Chapter 189 of the Statutes of 1991, is amended to read:

77200. (a) Except as provided in subdivisions (d) and (e), the Controller shall transmit to each option county quarterly payments on the block grant owing to that county based upon the number of judges, court commissioners, and referees in the county, as determined pursuant to Section 77202, multiplied each quarter by the following amounts:

(1) For the 1990–91 fiscal year, the sum of forty-two thousand one hundred thirty-five dollars ($42,135).

(2) For the 1991–92 fiscal year, the sum of fifty thousand five hundred sixty-two dollars ($50,562), as adjusted by a percentage equal to the average percentage salary increase for the previous fiscal year for California state employees, as determined pursuant to Section 68203.

(3) Beginning with the 1992–93 fiscal year, it is the intent of the Legislature to increase trial court funding by an amount sufficient to fund 55 percent of the annual statewide costs for court operations. It is the intent of the Legislature that this funding shall increase to 60 percent for the 1993–94 fiscal year, to 65 percent for the 1994–95 fiscal year, and to 70 percent for the 1995–96 fiscal year.

(b) In any year in which the amounts provided pursuant to this section are reduced, a county may reduce total expenditures for court operations by an amount up to but not exceeding the total dollar amount of the reduction to the county in state block grant

funding.

(c) Quarterly payments shall be transmitted by the Controller on or before the 15th day of that quarter.

(d) In the event the Budget Act for the 1991–92 fiscal year provides additional moneys for trial court funding in excess of the amount required pursuant to subdivision (a), those moneys shall be apportioned to each option county, in the amount indicated in this subdivision. These apportionments shall be in addition to those provided for in subdivision (a) and shall be allocated by the Controller on a quarterly basis as provided in subdivision (c).

SEC. 6. Section 859a of the Penal Code is amended to read:

859a. (a) If the public offense charged is a felony not punishable with death, the magistrate shall immediately upon the appearance of counsel for the defendant read the complaint to the defendant and ask him or her whether he or she pleads guilty or not guilty to the offense charged therein and to a previous conviction or convictions of crime if charged. While the charge remains pending before the magistrate and when the defendant's counsel is present, the defendant may plead guilty to the offense charged, or, with the consent of the magistrate and the district attorney or other counsel for the people, plead nolo contendere to the offense charged or plead guilty or nolo contendere to any other offense the commission of which is necessarily included in that with which he or she is charged, or to an attempt to commit the offense charged and to the previous conviction or convictions of crime if charged upon a plea of guilty or nolo contendere. The magistrate may then fix a reasonable bail as provided by this code, and upon failure to deposit the bail or surety, shall immediately commit the defendant to the sheriff and certify the case, including a copy of all proceedings therein and any testimony that in his or her discretion he or she may require to be taken, to the

superior court, and thereupon the proceedings shall be had as if the defendant had pleaded guilty in that court. This subdivision shall not be construed to authorize the receiving of a plea of guilty or nolo contendere from any defendant not represented by counsel. If the defendant subsequently files a written motion to withdraw the plea under Section 1018, the motion shall be heard and determined by the court before which the plea was entered.

(b) Notwithstanding Section 1191 or 1203, the magistrate shall, upon the receipt of a plea of guilty or nolo contendere and upon the performance of the other duties of the magistrate under this section, immediately appoint a time for pronouncing judgment in the superior court, municipal court, or justice court and refer the case to the probation officer if eligible for probation, as prescribed in Section 1191.

SEC. 7. Section 1306 of the Penal Code, as amended by Chapter 90 of the Statutes of 1991, is amended to read:

The judgment shall be the amount of the bond plus costs, and notwithstanding any other law, no penalty assessments shall be levied or added to the judgment.

(b) If a court grants relief from bail forfeiture, it shall impose a monetary payment as a condition of relief to compensate the people for the costs of returning a defendant to custody pursuant to Section 1305, except for cases where the court determines that in the best interest of justice no costs should be imposed. The amount imposed shall reflect the actual costs of returning the defendant to custody.

(c) If, because of the failure of any court to promptly perform the duties enjoined upon it pursuant to this section, summary judgment is not entered within 90 days after the date upon which it may first be entered, the right to do so expires and the bail is exonerated.

(d) A dismissal of the complaint, indictment, or information after the default of the defendant shall not release or affect the obligation of the bail bond or undertaking.

(e) The district attorney or county counsel shall:

(1) Demand immediate payment of the judgment within 30 days after the summary judgment becomes final.

(2) If the judgment remains unpaid for a period of 20 days after demand has been made, shall forthwith enforce the judgment in the manner provided for enforcement of money judgments generally. If the judgment is appealed by the surety or bondsman, the undertaking required to be given in these cases shall be provided by a surety other than the one filing the appeal. The undertaking shall comply with the enforcement requirements of Section 917.1 of the Code of Civil Procedure.

(f) The right to enforce a summary judgment entered against a

bondsman pursuant to this section shall expire two years after the entry of the judgment.

(c) When any deposited bail is made for an offense to which this section applies, and for which a court appearance is not mandatory, the person making the deposit shall also deposit a sufficient amount to include the state penalty prescribed by this section for forfeited bail. These moneys are to be used for the education or training of department employees which fulfills a need consistent with the objectives of the Department of Fish and Game.

(2) Once a month there shall be transferred into the Restitution Fund an amount equal to 32.02 percent of the state penalty funds deposited in the State Penalty Fund during the preceding month. (6) Once a month there shall be transferred into the Local Public Prosecutors and Public Defenders Training Fund established pursuant to Section 11503 an amount equal to 0.78 percent of the state penalty funds deposited in the State Penalty Fund during the preceding month. The amount so transferred shall not exceed the sum of eight hundred fifty thousand dollars ($850,000) in any fiscal year. The remainder in excess of eight hundred fifty thousand dollars ($850,000) shall be transferred to the Restitution Fund.

(7) Once a month there shall be transferred into the

All moneys in excess of that amount shall be distributed pro rata pursuant to paragraphs (1) to (7), inclusive, and utilized in accordance with this subdivision.

(B) Any moneys deposited in the State Penalty Fund attributable to the assessments made pursuant to subdivision (i) of Section 27315 of the Vehicle Code on or after the date that Chapter 6.6 (commencing with Section 5564) of Part 1 of Division 5 of the Welfare and Institutions Code is repealed shall be utilized in accordance with paragraphs (1) to (8), inclusive, of this subdivision.

In lieu of the certificate of adjudication, a notice from the court stating that the original records have been lost or destroyed shall permit the department to renew the registration.

(c) Any notice received by the department pursuant to Section 40509 which has been on file five years may be removed from the department records and destroyed, in the discretion of the department.

(d) In lieu of the certificate of adjudication or a notice from the court, the department shall with the consent of all registered owners collect the amounts which it has been notified are due pursuant to Sections 40509 and 40509.5, and authorized to be collected pursuant to Article 2 (commencing with Section 14910) of Chapter 5 of Division 6.

If that date is not deleted or extended, then, on and after July 1, 1994, pursuant to Section 9611 of the Government Code, Section 33352 of the Education Code, as added by Section 2 of Chapter 1010 of the Statutes of 1976, shall have the same force and effect as if this temporary provision had not been enacted.

33353. The California Interscholastic Federation is a voluntary organization consisting of school and school related personnel with responsibility, generally, for administering interscholastic athletic activities in secondary schools. It is the intent of the Legislature that the California Interscholastic Federation, in consultation with the State Department of Education, implement the following policies:

(a) Give school district governing boards specific authority to select their athletic league representatives.

(2) If the State Department of Education states that a school district, an association or consortium of school districts, or the California Interscholastic Federation is not in compliance with state or federal law, the State Department of Education may require the school district, association or consortium, or the federation to adjust its policy so that it is in compliance. However, the State Department of Education shall not have authority to determine the specific policy which a school district, association or consortium, or the federation must adopt in order to comply with state and federal laws.

(3) If the State Department of Education states that a school district, association or consortium, or the federation is not in compliance with state or federal law in matters relating to interscholastic activities, and the school district, association or consortium, or the federation does not change its policy in order to comply with these laws, the State Department of Education may commence with appropriate legal proceedings against the California Interscholastic Federation, the school district or against school districts which are members of the California Interscholastic Federation or the association or consortium which the department states is in noncompliance. In such a legal proceeding the court shall determine the matter de novo. The State Department of Education may make recommendations for appropriate remedies in these proceedings.

(b) This section shall not be construed or interpreted to limit the

discretion of local governing boards, or voluntary associations formed or maintained pursuant to subdivision (b) of Section 35179, in any policy, program, or activity which is in compliance with state and federal law.

(c) The state law with which the policies of school districts, of associations or consortia of school districts, and of the California Interscholastic Federation, concerning interscholastic athletics, are required to comply, in accordance with this section, includes, but is not limited to, any regulations issued by the State Board of Education pursuant to Section 232 with regard to sex discrimination in interscholastic athletics.

(d) This section shall remain in effect only until July 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before July 1, 1994, deletes or extends that date.

SEC. 5. Section 35179 of the Education Code is amended to read:

35179. (a) Each school district governing board shall have general control of, and be responsible for, all aspects of the interscholastic athletic policies, programs, and activities in its district, including, but not limited to, eligibility, season of sport, number of sports, personnel, and sports facilities. In addition, the board shall assure that all interscholastic policies, programs, and activities in its district are in compliance with state and federal law.

(b) Governing boards may enter into associations or consortia with other boards for the purpose of governing regional or statewide interscholastic athletic programs by permitting the public schools under their jurisdictions to enter into a voluntary association with other schools for the purpose of enacting and enforcing rules relating to eligibility for, and participation in, interscholastic athletic programs among and between schools.

(c) Each governing board, or its designee, shall represent the individual schools located within its jurisdiction in any voluntary association of schools formed or maintained pursuant to this section.

(d) No voluntary interscholastic athletic association, of which any public school is a member, shall discriminate against, or deny the benefits of any program to, any person on the basis of race, sex, or ethnic origin.

(e) Interscholastic athletics is defined as those policies, programs, and activities that are formulated or executed in conjunction with, or in contemplation of, athletic contests between two or more schools, either public or private.

CHAPTER 618

An act relating to reimbursements for voluntary desegregation.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding paragraph (2) of subdivision (a) of Section 42247 of the Education Code, in the case of the Oakland Unified School District, the Controller shall designate as "the first full year of operation" for purposes of Section 42247, the 1992–93 fiscal year, subject to the following conditions:

(a) Prior to April 30, 1991, the district has repaid to the State of California the amount of five million seven hundred twenty-five thousand six hundred forty-six dollars ($5,725,646), representing the amount disbursed to the district under Section 42247 during the 1988–89 fiscal year.

(b) Prior to December 31, 1991, the district has submitted a plan and detailed budget for voluntary desegregation of the district during the 1992–93 fiscal year to the Superintendent of Public Instruction and the Controller, and the superintendent has approved the plan and the Controller has approved the budget by April 1, 1992.

(c) The amount of the "audited costs approved by the Controller for the first full year of operation" shall not exceed nine million seven hundred thousand dollars ($9,700,000).

(d) During the 1992–93 school year, the Controller shall review implementation of the plan and report his or her findings to the Joint Legislative Budget Committee by March 1, 1993. Prior to appropriating funds for the 1993–94 fiscal year, appropriate legislative budget committees shall review the plan for implementation and compliance.

The district may become a regular recipient of budgeted funding pursuant to Section 42247 starting in the 1993–94 fiscal year provided that funds for this purpose are included in the Budget Act of 1993.

SEC. 2. Due to the unique circumstances concerning the educational recovery plan in the Oakland Unified School District, it is necessary that a special provision for voluntary desegregation reimbursement be made for the district, and the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

(b) A radon measurement laboratory certification authorizes the laboratory to perform radon analysis utilizing only those types of devices for which it is certified.

(c) A laboratory shall not be certified or recertified as a radon measurement laboratory unless the applicant meets all of the following qualifications:

(1) The applicant submits written evidence of successful completion by an operating supervisor of the laboratory of a classroom course of study in radon measurement meeting the standards adopted by the department. (2) The laboratory provides (a) quality assurance and quality control program meeting the standards adopted by the department. The department shall adopt the guidelines for the quality assurance and quality control program provided in the National Radon

Measurement Proficiency Program of the federal Environmental Protection Agency as the standards for the quality assurance and quality control program pursuant to Section 19033.

(3) For renewal of certification, the applicant submits written evidence of successful participation by the operating supervisor of the laboratory in each radon proficiency program applicable to radiation measurement laboratories offered by the federal Environmental Protection Agency since the date of the prior application for certification, or shows good cause for not participating in each of those programs in which the applicant's operating supervisor did not participate.

19029. An employee of the State of California or any employee of an agency of the United States working in the radon program, and who meets the experience and educational requirement for certification in any of the categories set forth in this chapter, shall be certified in that category. A certification under this section is valid only for purposes of that person's employment and shall not authorize the employee to perform any private consulting within the State of California.

19030. The department shall, on or before March 1, 1992, and quarterly thereafter publish, and work with associations representing certified radon testers and mitigators to widely disseminate, a list of persons and entities certified under this act, and, to the extent the information is available, the list of persons and entities of reciprocal states which are known to operate in this state.

(b) The person is designing or constructing mitigation measures to prevent against radon infiltration or accumulation in new construction.

(c) The person is performing scientific research regarding testing or mitigation of radon, but only if the person informs the owner and the occupant of the building of all of the following:

(1) That the person is not certified by the department to test for, or to mitigate against, radon.

(2) Any test results are neither certified or valid for legal purposes.

(3) Any mitigation methods suggested or used are experimental.

(d) The person or entity is purveying radon equipment which is approved by the department for sale to the general public that is manufactured or designed by a person or entity that is certified under this chapter, or the person or entity is purveying radon equipment to a person or entity which is certified under this chapter.

19032. A person or entity which is certified in another state, which has a reciprocal agreement with this state pursuant to Section 19022, may conduct those activities in this state for which the person or entity is certified in that other state.

19033. (a) The federal guidelines prescribed in this chapter shall become state standards unless the department finds the federal guidelines do not promote the intent and purposes of this chapter. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, and except as provided in subdivision (b), a federal guideline which becomes a state standard pursuant to this chapter shall take effect in this state 30 days after it becomes effective as a federal guideline.

(b) Any person who will be adversely affected by adoption of the federal guideline in this state may, within the 30 days prior to its becoming effective as a standard in this state, file with the department, in writing, objections and a request for a hearing. The timely filing of substantial objections to the adoption of a federal guideline which has become effective as a state standard, stays the adoption of the federal guideline as a state standard in this state until the department conducts a hearing and decides the issue.

Article 4. Enforcement

19035. The department may revoke or suspend a certification for any of the following reasons:

(a) Any misstatement in the application or in any supplementary statement.

(b) Any condition revealed by the application, supplementary statement, report, record, or other evidence, which would warrant the department's refusal to grant a registration on an original application.

applicable rule, regulation, code, or order adopted pursuant to this section.

(d) Being discontinued or removed, or having the operating supervisor discontinued or removed, from the federal Environmental Protection Agency's Radon and Radon Progeny Measurement Proficiency Program or its Radon Contractors Program during the term of the certification.

19036. It is unlawful for an individual to function as a radon measurement laboratory, radon testing and consulting specialist, or a radon mitigation contractor in violation of this chapter. A violation of this chapter is a misdemeanor punishable by a fine of not more than one thousand dollars ($1,000).

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 624

An act to amend Section 52324.6 of the Education Code, relating to regional occupational programs.

[Approved by Governor October 6, 1991 Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 52324.6 of the Education Code is amended to read:

52324.6. (a) Any regional occupational program shall be eligible to apply for apportionments as a necessary small regional occupational program under this section if it is a regional occupational program with an annual total average daily attendance of 350 or less in the prior fiscal year, and the regional occupational program provides instructional service to a comprehensive high school or schools that have an average daily attendance in grades 9 to 12, inclusive, during the fiscal year of 350 or less.

A necessary small regional occupational program may apply for a small school regional occupational program service allocation pursuant to this section for any or all of the comprehensive high schools within its boundaries that have an average daily attendance of 350 or less during the fiscal year, and at which instruction is provided by the regional occupational program.

The county superintendents of schools shall annually certify the eligibility of a regional occupational program as a necessary small regional occupational program and annually certify the eligibility of all comprehensive high schools within the boundaries that have been selected by the necessary small regional occupational program to receive small school regional occupational program service allocations.

(b) The Superintendent of Public Instruction shall annually allocate small school regional occupational program service funding, in accordance with the schedule prescribed in this subdivision, for any and all comprehensive high schools that are certified as eligible and are selected in accordance with subdivision (a). Regional occupational programs that do not certify the employment of the minimum number of full-time equivalent certificated employees at each school shall have the total small school regional occupational program service allocation for that school reduced by a pro rata amount, based on the percentage of employee service provided in comparison to the total number of regional occupational program employees required for full funding. Full-time equivalency for purposes of this subdivision shall be equal to six teaching periods of comprehensive high school.

For the 1990–91 fiscal year, the necessary small school regional occupational program service allocation schedule is as follows:

Average daily attendance per eligible comprehensive high school within the necessary small ROP	Minimum number of full-time equivalent certificated ROP employees required for full funding of ROP service to each small school	Small school service allocation
0–50	0.50	$22,329
51–100	0.83	37,289
101–150	1.00	44,658
151–200	1.17	50,026
201–250	1.33	59,619
251–300	1.50	66,987
301–350	1.67	74,356

The small school regional occupational program service allocation shall be adjusted annually by the same percentage cost-of-living adjustment applied to other regional occupational center and program revenue limits.

(c) (1) If a regional occupational program applies for funding under this section, the regional occupational program shall certify to the Superintendent of Public Instruction all concurrently enrolled average daily attendance generated during the previous year in each school to which small school regional occupational program service funds were allocated under subdivision (b). The average daily attendance certified under this subdivision shall be subtracted from the regional occupational program's prior year total allowable average daily attendance, and the remainder shall become the current year allowable regional occupational program average daily attendance for all nonconcurrently enrolled students and concurrently enrolled students from schools not funded under subdivision (b). This calculation shall be completed the year a

regional occupational program applies to become a necessary small regional occupational program or the year that the eligible regional occupational program selects any comprehensive high school defined in subdivision (a) to receive a small school regional occupational program service allocation.

(2) In the fiscal year that an eligible regional occupational program selects to remove a certified comprehensive high school from the small school regional occupational program service allocation funding or when the comprehensive high school no longer qualifies under the provisions of subdivision (a), the superintendent shall allocate a sum equal to the average of the prior two years' annual regional occupational program average daily attendance for the comprehensive high school multiplied by either the statewide average revenue limit per average daily attendance or the revenue limit per average daily attendance of the regional occupational program, whichever is greater, to the revenue limit of the eligible regional occupational program.

(3) In addition, the superintendent shall raise the prior year's annual concurrently enrolled average daily attendance for all schools not funded under subdivision (b) of the eligible small school regional occupational program an amount equal to the average of the prior two years' annual regional occupational program average daily attendance for the comprehensive high school. This adjusted allowable average daily attendance shall be the new base upon which growth is calculated for nonconcurrently enrolled students and concurrently enrolled students from high schools not funded under subdivision (b), within an eligible regional occupational program.

(d) Total annual apportionments for regional occupational programs that qualify for funding under this section as necessary small regional occupational programs shall be calculated in accordance with the following formula:

Total small school ROP service allocations to selected comprehensive high schools of 350 or less average daily attendance pursuant to subdivision (b)	+	Reported allowable average daily attendance pursuant to subdivision (c) multiplied by either the statewide average ROP revenue limit or the ROP revenue limit, whichever is greater	=	Total annual state apportionment for a necessary small ROP

(e) Nothing in this section shall be construed to require eligible regional occupational programs to apply for funding under this section.

(f) In fiscal years subsequent to the 1989–90 fiscal year, the prior year's apportionment under this section shall be annually adjusted by the same cost-of-living increase provided to regional occupational

programs through the standard apportionment system.

(g) Notwithstanding any other provision of law, the amount specified by Section 2 of Chapter 1538 of the Statutes of 1985 shall be used to fund the difference between the amount authorized pursuant to this section on January 1, 1986, and the amount authorized pursuant to Provision 2 of Item 6100-102-001 of the Budget Act of 1985.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 67300 of the Education Code is amended to read:

67300. Services for disabled students provided by the California Community Colleges and the California State University shall, and services provided for the University of California may, at a minimum, conform to the level and quality of those services provided by the Department of Rehabilitation to its clients prior to July 1, 1981. However, nothing in this chapter requires the California Community Colleges, the California State University, or the University of California to provide the services for disabled students in the same manner as those services were provided by the Department of Rehabilitation.

The Board of Governors of the California Community Colleges and the Trustees of the California State University shall, for their respective systems, and the Regents of the University of California may, by January 15, 1982, adopt regulations to implement this chapter.

Notwithstanding any other provision of this section or Section 67301, blind students who are attending California Community Colleges under the sponsorship of the Department of Rehabilitation shall have all reader services provided directly by the Department of Rehabilitation. Reader services provided by the Department of Rehabilitation pursuant to this section shall be furnished in accordance with federal and state law. The Department of Rehabilitation shall seek federal funds for the provision of readers to blind students pursuant to this section.

SEC. 2. Section 67302 is added to the Education Code, to read:

67302. (a) California State University systemwide policy governing the provision of services to students with disabilities shall include a requirement that Disabled Student Services (DSS) directors maintain a list of readers who meet certain standards. These standards shall include some college education, a 3.0 grade point average, or the possession of equivalent skills. It is expected that most students will select a reader from this list.

(b) In addition, systemwide policy shall require that students and readers meet in a mutually agreeable public facility, either on campus or off campus, as appropriate to the student's coursework and consistent with campus policy. Requests for, and explanation of, the need for exceptions to this regulation shall be made in writing by a student on a standardized form developed by the California State University and maintained on file.

(c) Students who prefer a reader not on the campus list or prefer alternative locations for services mutually agreed to by the reader and the student, shall file written requests on a standardized form provided by the DSS director, or his or her designee, and developed by the California State University, to be maintained on file.

(d) At the beginning of each term, students shall receive a notice informing them of the option to choose a reader not on the list and to choose a location for receiving reader services in a nonpublic facility. CHAPTER 628

An act to repeal Chapter 1651 of the Statutes of 1990, relating to transportation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 6, 1991 Filed with Secretary of State October 8, 1991]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1651 of the Statutes of 1990 is repealed.

SEC. 2. (a) If funds are available pursuant to Section 4 of this act, the Department of General Services, in coordination with the Department of Transportation, shall conduct a one-year pilot project utilizing the process of telecommuting as an alternative to commuting between home and work for employees in private industry and federal, state, and local government employees (1)

between the Counties of Orange and Riverside, (2) between the Interstate 15 high desert corridor and the San Bernardino Valley area, and (3) between San Bernardino County and Los Angeles and Orange Counties. Within San Bernardino County more than one telecommuting center may be necessary to fulfill the purposes of this act.

(b) The Department of General Services shall enter into contracts with the Riverside County Transportation Commission and the San Bernardino Associated Governments to implement the project, and shall allocate funds appropriated to the department for the purposes of this act pursuant to the terms of those agreements. Both the Riverside County Transportation Commission and the San Bernardino Associated Governments may enter into separate contracts with private or public entities to implement all or a portion of the project.

(c) The Department of General Services, in cooperation with the Department of Transportation, shall report on its experiences under the pilot project, together with its recommendations, to the Legislature on or before January 1, 1993. The Riverside County Transportation Commission and the San Bernardino Associated Governments shall be responsible either to prepare the report or to oversee the preparation of the report with respect to the projects implemented within their jurisdictions. The report shall be reviewed and accepted by the Department of General Services prior to submission to the Legislature.

(d) The report required by subdivision (c) shall include, but not be limited to, a program evaluation, financial statement, and comments of participants in the pilot project, and shall address other relevant issues as outlined in the contract between the Department of General Services and the counties. The program evaluation shall include specific data on the number of participants, frequency of use by each participant and the average daily use of any telecommuting center established as a result of this act, an estimate of the number of commute trips reduced as a result of this pilot project, and a projection of the number of commute trips that could be avoided if this program were extended for five years. The financial statement shall detail the costs of implementing this pilot project and compare the costs of the pilot project to the costs of traffic controls that would otherwise be necessary to accommodate the level of traffic which the program evaluation estimates could be diverted within five years if the pilot project were continued. The pilot project shall be considered a success if the number of normal commute trips diverted to telecommuting is cost-effective when compared to the alternative of constructing traffic controls necessary to reduce the same number of commute trips diverted to telecommuting under the pilot project on an average daily usage basis.

SEC. 3. For purposes of this act, "telecommuting" means the partial or total substitution of the use of computers or telecommunication technologies, or both, for work related activities

which would otherwise require employees to commute to work.

SEC. 4. (a) The funds appropriated to the Department of General Services by Section 3 of Chapter 1651 of the Statutes of 1990, are hereby reappropriated to the department for the purposes of Section 2 of this act. Of the amount so appropriated, one hundred thousand dollars ($100,000) shall be allocated to the Riverside County Transportation Commission and one hundred thousand dollars ($100,000) shall be allocated to the San Bernardino Associated Governments to be expended for purposes of Section 2 of this act, subject to the following conditions:

(1) Funds for the Riverside County Transportation Commission shall not be encumbered until that commission adopts a resolution which guarantees the appropriation of not less than one hundred thousand dollars ($100,000) from the commission for the project, and which guarantees that not less than one hundred thousand dollars ($100,000), in cash or in-kind contributions, will be obtained for the project from private industry. In-kind contributions include, but are not limited to, office space, office furniture and supplies, and computer and other equipment, and shall be valued at the fair market value for those items. If less than one hundred thousand dollars ($100,000) in contributions from private industry are obtained, the Riverside County Transportation Commission shall appropriate from other funds available to it an amount for the project equal to the difference between one hundred thousand dollars ($100,000) and the value of the contributions received.

(2) Funds for the San Bernardino Associated Governments shall not be encumbered until the San Bernardino Associated Governments adopts a resolution which guarantees the appropriation of not less than one hundred thousand dollars ($100,000) from the associated governments for the project, and which guarantees that not less than one hundred thousand dollars ($100,000), in cash or in-kind contributions, will be obtained for the project from private industry. In-kind contributions include, but are not limited to, office space, office furniture and supplies, and computer and other equipment, and shall be valued at the fair market value for those items. If less than one hundred thousand dollars ($100,000) in contributions from private industry are obtained, the San Bernardino Associated Governments shall appropriate from other funds available to it an amount for the project equal to the difference between one hundred thousand dollars ($100,000) and the value of the contributions received.

(b) Any funds expended for the telecommuting project on or after January 1, 1991, by the Riverside County Transportation Commission or the San Bernardino Associated Governments, or from contributions received from private industry, prior to the actual receipt of federal trust funds, shall be counted towards the contributions required by this section.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the telecommuting demonstration project which was initiated pursuant to Chapter 1651 of the Statutes of 1990 may be carried on without interruption, it is necessary for this act to take effect immediately.

The weight given to each variable shall simulate the weighting used in the Washington State intrastate funding formula adjusting for the geographic factor.

(3) A rural factor which guarantees a 105 percent allocation to rural planning and service areas.

(4) A hold-harmless factor which guarantees that no planning and service area shall have its federal and state allocation of funds under Title III of the federal Older Americans Act (42 U.S.C., Sec. 3021, et seq.), excluding area agency on aging administrative costs and funds carried over from the 1983–84 fiscal year, reduced below the 1984–85 fiscal year funding levels.

In developing this methodology the department shall provide assurances that as additional federal and state service dollars are allocated to the planning and service areas these dollars will be expended on those elderly persons identified as in greatest economic or social need.

(e) For purposes of this section, "one-time-only funds" means the combination of unspent funds which were budgeted to an area agency on aging and unearned funds resulting from audit resolutions.

The people of the State of California do enact as follows:

SECTION 1. Section 19.8 of the Penal Code is amended to read:

19.8. The following offenses are subject to subdivision (d) of Section 17: Sections 330, 415, 485, 555, and 853.7, of this code; subdivision (m) of Section 602 of this code; subdivision (b) of Section 25658 and Sections 25658.5, 25661, and 25662 of the Business and Professions Code; subdivision (c) of Section 23109 and Sections 12500, 14601.1, 27150.1, 40508, and 42005 of the Vehicle Code, and any other offense which the Legislature makes subject to subdivision (d) of Section 17. Except where a lesser maximum fine is expressly provided for violation of any of those sections, any violation which is an infraction is punishable by a fine not exceeding two hundred fifty dollars ($250).

Except for the violations enumerated in subdivision (d) of Section 13202.5 of the Vehicle Code, and Section 14601.1 of the Vehicle Code based upon failure to appear, a conviction for any offense made an infraction under subdivision (d) of Section 17 is not grounds for the suspension, revocation, or denial of any license, or for the revocation of probation or parole of the person convicted.

SEC. 2. Section 490.1 is added to the Penal Code, to read:

(b) Any offense charged as an infraction under this section shall be subject to the provisions of subdivision (d) of Section 17 and

Sections 19.6 and 19.7.

A violation which is an infraction under this section is punishable by a fine not exceeding two hundred fifty dollars ($250).

CHAPTER 639

An act to add Article 13.1 (commencing with Section 429.13) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to medical devices.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Article 13.1 (commencing with Section 429.13) is added to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, to read:

Article 13.1. Safer Medical Devices

429.13. The Legislature hereby finds and declares all of the following:

(a) More than 700,000 California health care workers and professionals, such as nurses, physicians and surgeons and housekeeping staff, daily put their lives at risk of infection from deadly, bloodborne diseases in order to provide health care for all Californians.

(b) Nationally, more than 1,000 health care personnel a year are infected with Hepatitis B, and 250 die of this disease.

(c) Approximately 30 cases of occupational exposure to HIV have been conclusively documented by the federal Centers for Disease Control.

(d) Studies estimate that it is likely that several hundred health care workers nationwide have been infected with HIV on the job.

(e) Some bloodborne diseases, including infection with HIV, can be prevented only through avoiding exposure to the pathogen.

(f) In 1989, the federal Occupational Safety and Health Administration estimated that health care personnel suffer 889,000 exposures to bloodborne diseases annually nationwide and that 790,000 of these exposures results from injuries from sharp instruments, including needle sticks.

(g) During a six-month period, more than 200 exposures of health care personnel to blood and other bodily fluids were documented at a single hospital, the Medical Center at the University of California, San Francisco.

(h) While most health care employers have implemented rigorous, universal infection control procedures, requiring gloving

and other protective equipment, exposures to bloodborne diseases continues to be a major risk for health care workers.

(i) As the federal Occupational Safety and Health Administration has noted, gloving and other protective devices cannot prevent puncture injuries from needles and other sharp instruments.

(j) Medical devices, such as needles and intravenous tubing, are reviewed by the federal Food and Drug Administration for patient safety and efficacy but are not reviewed by any state or federal agency for worker safety.

(k) It is estimated that improved product design of medical devices, such as needles, syringes, connectors for intravenous tubes, and vacuum tubes used to draw blood could reduce injuries involving exposure to blood by as much as 85 percent.

429.14. It is the intent of the Legislature in enacting this article to reduce exposure of health care personnel to deadly, bloodborne diseases by encouraging the development and use of medical devices that are designed to assure worker safety as well as the safety of patients and the efficacy of the device.

429.15. (a) The program on occupational health and occupational disease prevention of the state department shall do all of the following:

(1) In coordination with the Division of Occupational Safety and Health, review and analyze existing studies, data, and other information on safety-enhanced product design of medical devices that place health care workers at risk of exposure to bloodborne diseases including, but not limited to, syringes and intravenous tubing which have sharp points.

(2) Collect and evaluate information from health facilities which are using medical devices which have been redesigned to enhance worker safety.

(3) To the extent that funding is available, conduct demonstration projects to test the use of safety enhanced medical devices at health facilities, which volunteer to participate in these projects.

(4) Report to the Legislature and the Department of Industrial Relations its findings regarding the use of safety-enhanced product design for medical devices. These findings shall include analysis and recommendations regarding projected cost savings to health facilities, actual improvement in worker safety, and continued patient safety and efficacy.

(b) The duties required by this section shall be performed to the extent that the state department obtains funds from private sources and the federal government.

CHAPTER 640

An act to repeal Section 1777.8 of the Labor Code, relating to apprenticeship, and making an appropriation therefor.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1777.8 of the Labor Code is repealed.

SEC. 2. Notwithstanding Section 1611 and Chapter 3.5 (commencing with Section 10200) of Part 1 of Division 3 of the Unemployment Insurance Code, on or before February 1, 1992, one million three hundred thousand dollars ($1,300,000) from interest earned from moneys in the Employment Training Fund shall be transferred to the Department of Industrial Relations for the support of the Division of Apprenticeship Standards.

CHAPTER 641

An act to add Chapter 5 (commencing with Section 58700) to Part 31 of the Education Code, to amend, repeal, and add Section 11489 of the Health and Safety Code, to amend Section 16 of Chapter 1492 of the Statutes of 1988, and to repeal Sections 1, 2, 3, 4, 5, 6, 8, 9, and 10 of Chapter 1250 of the Statutes of 1988, relating to gang risk intervention programs.

[Approved by Governor October 6, 1991 Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 58700) is added to Part 31 of the Education Code, to read:

CHAPTER 5. GANG RISK INTERVENTION PROGRAMS

58700. The Legislature finds and declares that gang violence has caused a tremendous strain on the progress of the communities impacted. The loss of life, property, and positive opportunity for growth caused by gang violence has reached an intolerable level.

The Legislature further finds and declares that youth gang violence can be effectively reduced in California schools through the involvement of parents, teachers, school administrators, community organizations, and individuals with firsthand knowledge of the problem.

The Legislature further finds and declares that a strong and

consistent relationship between the home and schools would facilitate the learning process and inevitably help control problems associated with gang violence.

58701. It is the intent of the Legislature to cause the development of positive intervention pilot programs for elementary and secondary school age students in Los Angeles County, through cooperation between individual schools and existing organizations in communities. It is also the intent of the Legislature that if the intervention pilot programs in Los Angeles County are determined to be effective in reducing problems associated with gang violence, that other counties in the state be eligible to receive special funding to establish similar positive intervention programs.

58702. Unless the context otherwise requires, as used in this chapter, the following definitions shall apply:

(a) "School" means any public school within Los Angeles County, consisting of kindergarten and grades 1 to 12, inclusive.

(b) "Private, nonprofit organization" means any organization registered in that category with the Secretary of State.

(c) "Gang Risk Intervention Pilot Program" means a community-based positive intervention program for elementary through high school students directed at all of the following:

(1) Reducing the probability of youth involvement in gang activities and consequent violence.

(2) Establishing ties, at an early age, between youth and community organizations.

(3) Committing local business and community resources to positive programming for youth.

58703. The State Department of Education shall contract with the Los Angeles County Office of Education for the development, administration, and implementation in Los Angeles County of community-based Gang Risk Intervention Pilot Programs (GRIPP). The programs may be established in incorporated or unincorporated territory of the county, or both.

58704. (a) The Los Angeles County Office of Education may request and review proposals for, and award grants to, private nonprofit organizations, and public entities which apply jointly with individual schools, for the purpose of establishing a Gang Risk Intervention Pilot Program.

(b) The Los Angeles County Office of Education, upon its election to enter into a contract pursuant to Section 58703, shall distribute a standard request for proposal and shall select Gang Risk Intervention Pilot Programs to receive grants through a competitive bidding process. Proposals to the Los Angeles County Office of Education for Gang Risk Intervention Pilot Program grant funding shall begin with school years no sooner than the 1989–90 session and shall include all of the following:

(1) A description of the program goals, activities, and curricula. The description of the program goals shall include a list of measurable objectives for the purpose of evaluation by the Los

Angeles County Office of Education. To the extent possible, proposals shall contain empirical data on current problems, such as dropout rates and occurrences of violence on and off campus by schoolage individuals.

(2) A description of the individual school or schools and the geographic area to be affected by the program.

(3) A demonstration of broad-based support for the program from business and community organizations.

(4) A clear description of the experience, expertise, and other qualifications of the private nonprofit agencies to conduct an effective intervention program in cooperation with a school or a group of schools.

(5) A proposed budget for expenditure of the grant.

(c) The Office of Criminal Justice Planning shall monitor and evaluate the Gang Risk Intervention Pilot Programs. The evaluation shall include a comparison of children served by the Gang Risk Intervention Pilot Programs to children of similar socioeconomic and demographic environments, and shall include the following information regarding the performance and effectiveness of the Gang Risk Intervention Pilot Programs:

(1) Success in obtaining stated goals.

(2) Reduction in dropout rates.

(3) Reduction in violence among students, on and off campus.

(4) Development of techniques for early identification of at-risk youth.

For the purposes of evaluating the programs, the Office of Criminal Justice Planning shall, to the extent feasible, compare the data submitted by each applicant pursuant to paragraph (1) of subdivision (b) with comparable data collected after the intervention pilot program has been implemented to determine the effectiveness of the program in slowing down and, to the extent possible, reversing the trends of problems such as increased dropout rates and violence on and off campus.

58705. (a) Gang Risk Intervention Pilot Programs (GRIPP), funded by grants awarded by the Los Angeles County Office of Education, shall be initiated at the local level through voluntary cooperation between a local school, or group of schools, and a private nonprofit community-based organization or organizations, and shall place at each school, or group of schools, a community organizer to be selected by the private nonprofit organization or organizations involved.

(b) Gang Risk Intervention Pilot Programs shall include, but are not limited to:

(1) Counseling for targeted at-risk students, parents, and families, individually and collectively.

(2) Exposure to positive sports and cultural activities, promoting affiliations between youth and the local community.

(1) The Gang Risk Intervention Pilot Program is open to children without regard to any child's religious beliefs or any other factor related to religion.

(2) No religious instruction is included in the Gang Risk Intervention Pilot Program.

(3) The space in which the Gang Risk Intervention Pilot Program is operated is not utilized in any manner to foster religion during the time used for the Gang Risk Intervention Pilot Program.

58706. The Los Angeles County Office of Education shall not be required to grant any funds in excess of amounts received for this purpose.

58707. The Los Angeles County Office of Education is hereby authorized to receive funds disbursed from the Asset Forfeiture Distribution Fund pursuant to subparagraph (B) of paragraph (3) of subdivision (b) of Section 11489 of the Health and Safety Code.

SEC. 2. Section 11489 of the Health and Safety Code, as amended by Chapter 1195 of the Statutes of 1989, is amended to read:

An act to add Chapter 24 (commencing with Section 22750) to Division 8 of the Business and Professions Code, relating to pallets.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991]

The people of the State of California do enact as follows:

SECTION 1. Chapter 24 (commencing with Section 22750) is added to Division 8 of the Business and Professions Code, to read:

CHAPTER 24. BEVERAGE CONTAINER OR GROCERY PALLETS

22750. For purposes of this chapter, a "beverage container or grocery pallet" is a wooden or plastic carrier or container,

approximately 48 inches by 40 inches with a four-way forklift entry, used by a manufacturer or distributor in the transportation to retail outlets of food or other items sold in grocery stores, other than alcoholic beverages or malt-based nonalcoholic beverages, which has a notice permanently affixed to it that (a) identifies the company name of the owner of the pallet, (b) notifies the public that the unauthorized possession of the pallet is a violation of state law, and (c) lists a telephone number or address for returning the pallet to the owner.

22751. Any person who purchases or leases any beverage container or grocery pallet shall retain a copy of the bill of sale or other evidence which supports the purchase.

22752. As used in this chapter, an "unauthorized person" with respect to possession of beverage container or grocery pallets includes anyone in possession of a beverage container or grocery pallet, except the following:

(1) The company owner.

(2) A person in lawful possession of the beverage container or grocery pallet.

22753. The following acts are punishable as provided in subdivision (b) of Section 489 or in Section 490 of the Penal Code as to any beverage container or grocery pallet when the beverage container or grocery pallet has a sign permanently affixed to it that identifies the owner of the property, notifies the public that the unauthorized possession of the container or pallet is a violation of state law, and lists an address or telephone number for returning the container or pallet to the owner:

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 643

An act to add Chapter 5 (commencing with Section 58700) to Part 31 of the Education Code, and to repeal Chapter 342 of the Statutes of 1991, relating to education.

[Approved by Governor October 6, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 58700) is added to Part 31 of the Education Code, to read:

CHAPTER 5. TUTORING AND HOMEWORK ASSISTANCE PROGRAM

58700. The Legislature finds and declares all of the following:

(a) The Pasadena Unified School District has operated the Tutoring and Homework Assistance Program since September 1985 through which pupils are able to receive appropriate homework or specialized tutorial assistance, or both, from trained personnel and volunteers after regular school hours at each of the district's 30 schools, at no cost to the pupil, and through which parents, teachers, and pupils receive information and referral services on the tutoring and homework support services available through the school district and other community organizations.

(b) The Tutoring and Homework Assistance Program has provided over 30,000 hours of assistance annually to over 1,000 pupils.

(c) Surveys completed by principals, site coordinators, classroom teachers, parents, and pupils have generated favorable responses to the program.

(d) The Tutoring and Homework Assistance Program is of educational benefit and provides a cost-effective means of reaching pupils, of supporting rather than replacing the role of parents, and of enabling pupils to succeed in school and, therefore, to be more likely to remain in school.

(e) The district has evaluated the program pursuant to the evaluation requirements of this chapter and has found that the program results in improved academic performance.

(f) The Tutoring and Homework Assistance Program has demonstrated success during the first two years of operation and should be continued on a statewide basis.

58701. (a) The Pasadena Unified School District shall furnish, on or before July 1, 1992, to the Superintendent of Public Instruction, a copy of its Tutoring and Homework Assistance Program, as developed and implemented pursuant to Chapter 1311 of the Statutes of 1988.

58702. (a) Any school district that implements the Tutoring and Homework Assistance Program may credit towards its summer

school apportionments, computed pursuant to Section 42239, as amended by the annual Budget Act, hours of homework and tutorial assistance provided pursuant to the program described in Sections 58700 and 58701, if the instruction is in core academic areas specified in paragraph (2) of subdivision (d) of Section 42239.

(b) Any school district may claim funding for programs operated pursuant to this chapter if the district has first claimed in regular summer school programs the budgeted funding level of hours based on 7 percent of the district's total enrollment for the prior fiscal year or the budgeted funding level of hours guaranteed in either Section 42239 or the annual Budget Act, if greater than 7 percent. For the 1991–92 fiscal year, the number of hours shall be those set forth in subdivision (a) of Provision 8 of Item 6110-101-001 of Section 2.00 of the Budget Act of 1991.

(c) Funding claimed pursuant to this chapter shall be limited to the amount calculated pursuant to each school district's percentage of enrollment for the prior year and number of hours specified in the annual Budget Act as being available for reallocation of funding appropriated for summer school that is not claimed by school districts. For the 1991–92 fiscal year, the number of hours shall be those set forth in subdivision (b) of Provision 8 of Item 6110-101-001 of Section 2.00 of the Budget Act of 1991.

(d) Each school district that claims funding pursuant to this chapter shall maintain a record, capable of being audited, of the number of hours spent in direct contact with the pupil under the program. A certificated employee of the district shall certify the accuracy of the number of hours utilized to submit a claim for funding pursuant to this chapter prior to the allocation of that funding to the school district.

is either of the following:

(1) Surrounded entirely by incorporated area.

(2) Surrounded on at least three sides by incorporated area or at least 75 percent of the boundary of the property is contiguous with incorporated area, whichever is less.

(b) The acquisition of parkland pursuant to this section shall be consistent with the general plan of the city.

(c) At the time funds are appropriated for its acquisition, the property acquired pursuant to this section shall not be improved with a business or farm operation that contributes materially to the owner's support. For the purpose of this section, a business shall not include the purchase, sale, lease, or rental of real property.

(d) In the event a city council intends to sell real property acquired pursuant to this section, the former owner from whom the city acquired the property shall be given notice of the proposed sale of the property and accorded the right, prior to the final acceptance of bids, to purchase the property at the tentatively accepted highest bid price.

(e) This section shall remain in effect only until January 1, 1997, and as of that date is repealed unless a later enacted chapter, which is chaptered before January 1, 1997, deletes or extends that date.

Accordingly, the full value of a timeshare estate or timeshare use may be determined by reference to resort properties, condominiums, cooperatives, or other properties which are similar in size, type, and location to the property subject to timeshare ownership and are not owned on a timeshare basis. The aggregate assessed value of all the timeshare estates or uses relating to a single lot, parcel, unit, or other segment of real property shall be determined by adding (1) the fair market value of the similar lot, parcel, unit, or other segment not owned on a timeshare basis, and (2) an amount necessary to reflect any increase or decrease to the market value attributable to the fact that the property is marketed in increments of time, or by any alternate method which will determine the real property value without regard to any nonreal property items which may be included.

(b) Nothing in this section shall authorize a reassessment of real property as a result of the creation or transfer of a timeshare interest in the property unless the creation or transfer of the timeshare interest constitutes a change in ownership under Chapter 2 (commencing with Section 60) of Part 2 and Section 2 of Article XIII A of the California Constitution.

(c) For purposes of this section, "timeshare estate" and "timeshare use" shall have the meanings set forth in Section 11003.5 of the Business and Professions Code, and "timeshare interest" shall refer to both timeshare estates and timeshare uses.

(d) Nothing in this section shall be construed as requiring the assessment of any property at less than fair market value as required by Section 401.

SEC. 9. Section 38351 of the Revenue and Taxation Code is amended to read:

38351. Every person who owns timber subject to a timber harvest plan, every person who is required to file a notice of timber operations with the State Forester, every person who owns timber maintained for eventual harvest as Christmas trees, and every person who is the first person who acquires either legal title or beneficial title to downed timber or timber after it has been felled from land owned by a federal agency or any other person or agency or entity exempt from state taxation under the Constitution or laws of the

Nothing in this section shall preclude prosecution under the

authority provided for in any other provision of law.

In addition to any other penalties, a person found guilty of violating this section, shall be liable for the actual damages sustained by the agency administering the examination not to exceed ten thousand dollars ($10,000) and the costs of litigation.

(c) If any provision of this section or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the section that can be given effect without the invalid provision or application, and to this end the provisions of this section are severable.

(b) Nothing in subdivision (a) shall be construed to prohibit comparative advertising.

(c) For the purposes of this section, the term "comparative advertising" means the use of a competitor's trademark in advertising to compare the relative qualities of the competitive goods.

SEC. 4. Chapter 6 (commencing with Section 17300) of Part 2 of Division 7 of the Business and Professions Code is repealed.

SEC. 5. Section 2870 of the Labor Code is amended to read:

2870. (a) Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either:

SEC. 2. Section 35002 of the Vehicle Code is amended to read:

35002. (a) This division does not apply to any authorized emergency vehicle owned or operated by a governmental agency while being used in responding to and returning from emergency fire calls, while being moved from place to place in anticipation of emergency fire calls, when used during training in any fire service application or during fire prevention activities, or when vehicles ordinarily used for those purposes are necessarily transported for vehicle maintenance, repair, or service. This subdivision only applies to vehicles purchased prior to January 1, 1992.

(b) All vehicles purchased on and after January 1, 1992, and described in subdivision (a) shall comply with applicable permit requirements adopted by the Department of Transportation pursuant to this code, and shall meet the following requirements:

(1) It shall be the responsibility of the manufacturer to provide a gross axle weight rating (GAWR), gross combined weight rating (GCWR), and gross vehicle weight rating (GVWR), adequate to carry a full water tank with the allowance for personnel and

miscellaneous equipment, including hose load, shown in the table below:

	Personnel	Misc. Equipment
Pumpers	1,200 lbs.	2,000 lbs.
Light attack apparatus	600 lbs.	900 lbs.
Water towers	1,200 lbs.	1,500 lbs.
Aerial platforms with ground ladders	1,200 lbs.	2,500 lbs.
Aerial ladders with ground ladders	1,200 lbs.	2,500 lbs.

Fire apparatus shall be weighed and certified by the manufacturer to determine compliance with the table above prior to acceptance by the purchaser. Apparatus and chassis manufacturers shall furnish certification of the gross vehicle weight rating (GVWR), gross combined weight rating (GCWR), and gross axle weight rating (GAWR) on a nameplate affixed to the apparatus.

(2) Any fire apparatus exceeding 31,000 pounds gross vehicle weight rating (GVWR) shall be equipped with a retarder.

(3) For purposes of this section, a "fire apparatus" is any vehicle or combination of vehicles designed, maintained, and used exclusively for the suppression of fires or for fire prevention activities, including the training of firefighters. A tank vehicle owned by a regularly organized fire suppression agency and used to transport water or other fire suppression materials is a fire apparatus. A vehicle or combination of vehicles which is not designed specifically for fire suppression, including, but not limited to, a hazardous materials response vehicle, dedicated rescue vehicle, command post communications vehicle, passenger vehicle, bus, mobile kitchen, mobile sanitation facility, and heavy equipment transport vehicle, are not a fire apparatus for purposes of this section.

(c) A vehicle owned, operated, or rented by any public agency which is being used in responding to or returning from an emergency, may be operated as required, if a reasonable effort is first made by the agency to obtain verbal permission from an authorized officer or employee of the agency having jurisdiction of the highways used, and, upon termination of the emergency, when the vehicle is returning from the site of the emergency, the public agency either obtains a permit at the location of the emergency or makes a reasonable effort to obtain verbal permission from an authorized officer or employee of the agency having jurisdiction of the highways used, and obtains a written permit for that use pursuant to Section 35780 not later than three days after the date of the emergency. As used in this subdivision, "emergency" means a condition which poses an imminent threat of loss of property or a hazard to life, as determined by the public agency charged with responsibility to

respond thereto.

(d) Any governmental agency operating an authorized emergency vehicle or other vehicle subject to this section is liable to the governmental agency having jurisdiction of any state or county highway for any damage to the highway or any highway structure caused by the operation of the vehicle of a size or weight of vehicle or load exceeding that specified in this division. The cost of repair of the damage is a proper charge against the support fund of the governmental agency operating the oversize or overweight vehicle.

(e) Neither the state nor any agency thereof is liable for damage to any highway or highway structure caused by vehicles operated, pursuant to this section, by or on behalf of a local authority or any other local governmental entity.

CHAPTER 649

An act to amend Section 800 of the Welfare and Institutions Code, relating to minors.

[Approved by Governor October 6, 1991 Filed with Secretary of State October 8, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 800 of the Welfare and Institutions Code is amended to read:

800. (a) A judgment in a proceeding under Section 601 or 602 may be appealed from, by the minor, in the same manner as any final judgment, and any subsequent order may be appealed from, by the minor, as from an order after judgment. Pending appeal of the order or judgment, the granting or refusal to order release shall rest in the discretion of the juvenile court. The appeal shall have precedence over all other cases in the court to which the appeal is taken.

A ruling on a motion to suppress pursuant to Section 700.1 shall be reviewed on appeal even if the judgment is predicated upon an admission of the allegations of the petition.

A judgment or subsequent order entered by a referee shall become appealable whenever proceedings pursuant to Section 252, 253, or 254 have become completed or, if proceedings pursuant to Section 252, 253, or 254 are not initiated, when the time for initiating the proceedings has expired.

(b) An appeal may be taken by the people from any of the following:

(1) A ruling on a motion to suppress pursuant to Section 700.1 even if the judgment is a dismissal of the petition or any count or counts of the petition. However, no appeal by the people shall lie as to any count which, if the people are successful, will be the basis for further proceedings subjecting any person to double jeopardy.

(2) An order made after judgment entered pursuant to Section 777.

(3) An order modifying the jurisdictional finding by reducing the degree of the offense or modifying the offense to a lesser offense.

(4) An order or judgment dismissing or otherwise terminating the action before the minor has been placed in jeopardy, or where the minor has waived jeopardy. If, pursuant to this paragraph, the people prosecute an appeal of the decision or any review of that decision, it shall be binding upon the people and they shall be prohibited from refiling the case which was appealed.

(5) The imposition of an unlawful order at a dispositional hearing, whether or not the court suspends the execution of the disposition.

(c) Nothing contained in this section shall be construed to authorize an appeal from an order granting probation. Instead, the people may seek appellate review of any grant of probation, whether or not the court imposes disposition, by means of a petition for a writ of mandate or prohibition which is filed within 60 days after probation is granted. The review of any grant of probation shall include review of any order underlying the grant of probation.

(d) An appellant unable to afford counsel, shall be provided a free copy of the transcript in any appeal.

(e) The record shall be prepared and transmitted immediately after filing of the notice of appeal, without advance payment of fees. If the appellant is able to afford counsel, the county may seek reimbursement for the cost of the transcripts under subdivision (c) of Section 68511.3 of the Government Code as though the appellant had been granted permission to proceed in forma pauperis.

(f) All appeals shall be initiated by the filing of notice of appeal in conformity with the requirements of Section 1240.1 of the Penal Code.

(b) The abstract shall be forwarded within 30 days of the date the judgment of reversal becomes final. SEC. 2. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(b) A veterinarian or an unlicensed person may, in lieu of contesting a citation pursuant to this section, transmit to the board the amount assessed in the citation as a civil penalty, within 10 business days after receipt of the citation. An unlicensed person may notify the board and file a petition for a writ of administrative mandamus under Section 1094.5 of the Code of Civil Procedure within 30 calendar days after receipt of the citation, without engaging in an informal conference or administrative hearing. In that action, the complaint shall include a certified copy of the final order of the board, together with the factual findings and determinations of the board and administrative law judge. The findings shall be prima facie evidence of the facts stated therein, and in the absence of contrary evidence may serve as the basis for the issuance of the judgment and order.

(e) Failure of a licensee to pay a civil penalty within 30 days of the date of receipt of the assessment, unless the citation is being appealed, may result in disciplinary action being taken by the board. When a citation is not contested and a civil penalty is not paid, the full amount of the assessed civil penalty shall be added to the fee for renewal of the license. A license shall not be renewed without payment of the renewal fee and civil penalty.

(f) Any civil penalties received under this chapter shall be deposited in the Board of Examiners in Veterinary Medicine Contingent Fund.

CHAPTER 655

An act to amend Sections 1203.3 and 1382 of the Penal Code, relating to criminal procedure.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this bill to require that there be a hearing in open court before the judge with

notice and opportunity to be heard afforded the prosecuting attorney before a sentence or a term of probation is modified, under those circumstances where it is not otherwise required that the prosecuting attorney be notified of these activities. The Legislature is particularly concerned where the modification in sentence results in a reduction of the sentence or the term of probation.

SEC. 2. Section 1203.3 of the Penal Code is amended to read:

1203.3. (a) The court shall have authority at any time during the term of probation to revoke, modify, or change its order of suspension of imposition or execution of sentence. The court may at any time when the ends of justice will be subserved thereby, and when the good conduct and reform of the person so held on probation shall warrant it, terminate the period of probation, and discharge the person so held.

(b) The exercise of the court's authority in subdivision (a) to revoke, modify, change, or terminate probation is subject to the following:

(1) Before any sentence or term or condition of probation is modified, a hearing shall be held in open court before the judge. The prosecuting attorney shall be given a two-day written notice and an opportunity to be heard on the matter.

(A) If the sentence or term or condition of probation is modified pursuant to this section, the judge shall state the reasons for that modification on the record.

(B) As used in this section, modification of sentence shall include reducing a felony to a misdemeanor.

(2) No order shall be made without written notice first given by the court or the clerk thereof to the proper probation officer of the intention to revoke, modify, or change its order.

(3) In all cases, if the court has not seen fit to revoke the order of probation and impose sentence or pronounce judgment, the defendant shall at the end of the term of probation or any extension thereof, be by the court discharged subject to the provisions of these sections.

(c) If a probationer is ordered to serve time in jail, and the probationer escapes while serving that time, the probation is revoked as a matter of law on the day of the escape.

(d) If probation is revoked pursuant to subdivision (c), upon taking the probationer into custody, the probationer shall be accorded a hearing or hearings consistent with the holding in the case of People v. Vickers, 8 Cal. 3d 451. The purpose of that hearing or hearings is not to revoke probation, as the revocation has occurred as a matter of law in accordance with subdivision (c), but rather to afford the defendant an opportunity to require the prosecution to establish that the alleged violation did in fact occur and to justify the revocation.

(e) This section does not apply to cases covered by Section 1203.2.

SEC. 3. Section 1382 of the Penal Code is amended to read:

1382. (a) The court, unless good cause to the contrary is shown, shall order the action to be dismissed in the following cases:

(1) When a person has been held to answer for a public offense and an information is not filed against that person within 15 days thereafter.

(2) When a defendant is not brought to trial in a superior court within 60 days after the finding of the indictment or filing of the information or, in case the cause is to be tried again following a mistrial, an order granting a new trial from which an appeal is not taken, or an appeal from the superior court, within 60 days after the mistrial has been declared, after entry of the order granting the new trial, or after the filing of the remittitur in the trial court, or after the issuance of a writ or order which in effect grants a new trial, within 60 days after notice of the writ or order is filed in the trial court and served upon the prosecuting attorney, or within 90 days after notice of the writ or order is filed in the trial court and served upon the prosecuting attorney in any case where the district attorney chooses to resubmit the case for a preliminary examination after an appeal or the issuance of a writ reversing a judgment of conviction upon a plea of guilty prior to a preliminary hearing in a municipal or justice court. However, an action shall not be dismissed under this paragraph if either of the following circumstances exist:

(A) The defendant enters a general waiver of the 60-day trial requirement. A general waiver of the 60-day trial requirement entitles the superior court to set or continue a trial date without the sanction of dismissal should the case fail to proceed on the date set for trial. If the defendant, after proper notice to all parties, later withdraws his or her waiver in the superior court, the defendant shall be brought to trial within 60 days of the date of that withdrawal. If

(next page is 3017)

a general time waiver is not expressly entered, the provisions of subparagraph (B) shall apply.

(B) The defendant requests or consents to the setting of a trial date beyond the 60-day period. Whenever a case is set for trial beyond the 60-day period by request or consent, expressed or implied, of the defendant without a general waiver, the defendant shall be brought to trial on the date set for trial or within 10 days thereafter.

Whenever a case is not set for trial after a defendant enters either a general waiver as to the 60-day trial requirement or requests or consents, expressed or implied, to the setting of a trial date beyond the 60-day period pursuant to this paragraph, the court may not grant a motion of the defendant to vacate the date set for trial and to set an earlier trial date unless all parties are properly noticed and the court finds good cause for granting that motion.

(3) Regardless of when the complaint is filed, when a defendant in a misdemeanor case in an inferior court is not brought to trial within 30 days after he or she is arraigned or enters his or her plea, whichever occurs later, if the defendant is in custody at the time of arraignment or plea, or in all other cases, within 45 days after the defendant's arraignment or entry of the plea, whichever occurs later, or in case the cause is to be tried again following a mistrial, an order granting a new trial from which an appeal is not taken, or an appeal from the inferior court, within 30 days after the mistrial has been declared, after entry of the order granting the new trial, or after the remittitur is filed in the trial court or, if the new trial is to be held in the superior court, within 30 days after the judgment on appeal becomes final. However, an action shall not be dismissed under this subdivision if either of the following circumstances exist:

(A) It is set for trial on a date beyond the prescribed period at the request of the defendant or with the defendant's consent, express or implied, and the defendant is brought to trial on the date so set for trial or within 10 days thereafter.

(B) It is not tried on the date set for trial because of the defendant's neglect or failure to appear, in which case the defendant shall be deemed to have been arraigned within the meaning of this subdivision on the date of his or her subsequent arraignment on a bench warrant or his or her submission to the court.

(b) Whenever a defendant has been ordered to appear in superior court on a case set for trial or set for a hearing prior to trial, if the defendant fails to appear on that date and a bench warrant is issued, the defendant shall be brought to trial within 60 days after the defendant next appears in the superior court unless a trial date had previously been set which is beyond that 60-day period.

(c) If the defendant is not represented by counsel, the defendant shall not be deemed under this section to have consented to the date for the defendant's trial unless the court has explained to the defendant his or her rights under this section and the effect of his or her consent.

CHAPTER 657

An act to amend Section 13967 of the Government Code, relating to the indemnification of victims of crime.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 13967 of the Government Code is amended to read:

13967. (a) Upon a person being convicted of any crime in the State of California, the court shall, in addition to any other penalty provided or imposed under the law, order the defendant to pay restitution in the form of a penalty assessment in accordance with Section 1464 of the Penal Code and to pay restitution to the victim in accordance with subdivision (c). In addition, if the person is convicted of one or more felony offenses, the court shall impose a separate and additional restitution fine of not less than one hundred dollars ($100) and not more than ten thousand dollars ($10,000). In setting the amount of the fine for felony convictions, the court shall consider any relevant factors including, but not limited to, the seriousness and gravity of the offense and the circumstances of its commission, any economic gain derived by the defendant as a result of the crime, and the extent to which others suffered losses as a result of the crime. Those losses may include pecuniary losses to the victim or his or her dependents as well as intangible losses, such as psychological harm caused by the crime. Except as provided in Section 1202.4 of the Penal Code and subdivision (c) of this section, under no circumstances shall the court fail to impose the separate and additional restitution fine required by this section. This fine shall not be subject to penalty assessments as provided in Section 1464 of the Penal Code.

(b) Except as provided in subdivision (c), the fine imposed pursuant to this section shall be deposited in the Restitution Fund in the State Treasury. Notwithstanding Section 13340, the proceeds in the Restitution Fund are hereby continuously appropriated to the board for the purpose of indemnifying persons filing claims pursuant to this article. However, the funds appropriated pursuant to this section for administrative costs of the State Board of Control shall be subject to annual review through the state budget process.

(c) In cases in which a victim has suffered economic loss as a result of the defendant's criminal conduct, and the defendant is denied probation, in lieu of imposing all or a portion of the restitution fine, the court shall order restitution to be paid to the victim. If a defendant has been convicted of a felony violation of Section 288 of the Penal Code, restitution to the victim may be ordered whether or not the defendant is denied probation. Notwithstanding subdivision

(a), restitution shall be imposed in the amount of the losses, as determined. The court shall order full restitution unless it finds clear and compelling reasons for not doing so, and states them on the record. A restitution order imposed pursuant to this subdivision shall identify the losses to which it pertains, and shall be enforceable as a civil judgment. The making of a restitution order pursuant to this subdivision shall not affect the right of a victim to recovery from the Restitution Fund in the manner provided elsewhere, except to the extent that restitution is actually collected pursuant to the order. Restitution collected pursuant to this subdivision shall be credited to any other judgments for the same losses obtained by the victim against the defendant arising out of the crime for which the defendant was convicted.

Restitution ordered pursuant to this subdivision shall, to the extent possible, be of a dollar amount that is sufficient to fully reimburse the victim, or victims, for all determined economic losses incurred as the result of the defendant's criminal conduct. If the conviction is for felony violation of Section 288 of the Penal Code, the court may also order that the restitution be paid to the victim to cover noneconomic losses, including, but not limited to, psychological harm.

For any order of restitution made pursuant to this subdivision, the defendant shall have the right to a hearing before the judge to dispute the determination made regarding the amount of restitution.

(d) At its discretion, the board of supervisors of any county may impose a fee to cover the actual administrative cost of collecting the restitution fine, not to exceed 10 percent of the amount ordered to be paid, to be added to the restitution fine and included in the order of the court, the proceeds of which shall be deposited in the general fund of the county.

CHAPTER 658

(2) All seismic strengthening financed with any loan funded pursuant to this section shall be in accordance with a plan developed for the structure by a civil engineer or an architect, or approved by a city or city and county building official, one of whom shall certify that the work funded is necessary for seismic safety reasons, or is otherwise legally required for completion of the work or occupancy of the building. In no event shall any loan funded pursuant to this section finance the destruction of any existing building or the construction of any new building.

(3) Any amount received in payment of interest on or to repay principal on any loan made pursuant to this section shall be used to pay debt service on bonds authorized pursuant to this section, or shall be used to fund additional loans for seismic strengthening, except that the provisions of this paragraph shall not apply after the bonds, including any bonds issued to refund the bonds, are fully repaid.

(4) Loans made pursuant to this section shall constitute liens in favor of the city or city and county when recorded by the county recorder of the county in which the real property is located. The lien shall contain the legal description of the real property, the assessor's parcel number, and the name of the owner of record as shown on the latest equalized assessment roll.

(5) The legislative body of the city or city and county may specify the interest rate, term, and other provisions of any loan made pursuant to this section.

(6) A city or city and county may issue bonds and make loans pursuant to this section only if the city or city and county has completed an inventory of unreinforced masonry structures within its jurisdiction and has adopted a mitigation ordinance pursuant to Section 8875.2 or Section 19163 of the Health and Safety Code. The city or city and county shall establish criteria, terms, and conditions to identify eligible buildings.

(b) The legislative body of the city or city and county is authorized to expend the proceeds of bonds authorized by this section to make loans pursuant to this section. Loans made pursuant to this section shall not be construed to be gifts of public funds in violation of Section 6 of Article XVI of the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

[Approved by Governor October 7, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 69763.1 is added to the Education Code, to read:

69763.1. (a) If a borrower defaults on a guaranteed student loan and the lender's default claim has been paid, the Student Aid Commission shall fulfill the collection efforts required by federal law, which includes initiating a civil suit against the borrower for repayment of the loan.

(b) After the period specified in federal law for commencing action, the amount of the promissory note, plus interest and costs, may be collected by the filing of a certificate requesting judgment pursuant to subdivision (c) or by other appropriate civil action.

(c) If the loan principal, interest, and predefault and collection costs are not paid when due, and there is evidence that the borrower does not intend to pay under the terms of the promissory note or promissory notes, the commission may file in the office of the County Clerk of Sacramento County, or any other county, a certificate specifying the amount of the loan principal, interest, and predefault and collection costs due, the name and last known address of the individual liable for the amount due, the fact that the commission has complied with all applicable state and federal laws in the computation of the amount due, and a request that judgment be entered against the individual in the amount of the loan principal, interest, and predefault and collection costs specified in the certificate.

(d) Prior to the filing of the certificate, the commission shall, by mail, notify the individual of the amount that is due and of the opportunity for a hearing. If a hearing is requested, 10 days' notice shall be given of the time and place of the hearing, which shall be held in Sacramento County or, if properly requested, the county of residence of the person requesting the hearing. The hearing shall be conducted by a referee who shall submit findings and recommendations to the director of the commission, or an authorized representative, who shall decide the matter. The decision shall be effective upon notice to the interested parties. The director of the commission, or the authorized representative, may rescind the decision and reconsider the matter for good cause shown at any time within three years after the date the disputed loan first became due,

or within one year from the hearing, whichever is later. If no hearing is requested within 15 days after mailing the notice required by this subdivision, the certificate required by subdivision (b) may be filed.

SEC. 2. Section 69763.2 is added to the Education Code, to read:

69763.2. (a) The county clerk, immediately upon the filing of the certificate specified in Section 69763.1, shall enter a judgment for the people of the State of California against the individual in the amount of the loan principal, interest, and predefault and collection costs listed on the certificate. The county clerk may file the judgment in the book entitled "California Student Aid Commission Judgments."

(b) Execution shall issue upon the judgment specified in subdivision (a) upon request of the Student Aid Commission in the same manner as execution may issue upon other judgments as prescribed in the Code of Civil Procedure.

(c) At least 10 days before executing any writ to collect, the commission shall send notice of the intent to execute upon a writ to the borrower and to any cosigners, by certified mail, to the most recent addresses maintained in the files of the commission. Any person receiving the notice of the intent to execute upon a writ may request a hearing to contest the existence or the amount of the writ. At the request of the individual, the commission shall conduct a hearing pursuant to Section 69763.1, at which it shall be determined whether the loan principal, interest, and predefault and collection costs in the amount claimed by the commission are due and whether the individual named on the certificate is liable for the amount. If no hearing is requested, the execution shall be commenced for the garnishment of wages, the attachment of property, or other legal collection action.

SEC. 3. Section 69763.3 is added to the Education Code, to read:

69763.3. At any time before wages are garnished or a lien is placed on property, a borrower may pay the Student Aid Commission the amount of the recorded judgment, plus costs. If that payment is made, wage garnishment or the attachment of property shall not commence. The payment shall not constitute a waiver of the right to a hearing.

SEC. 4. Section 69763.4 is added to the Education Code, to read:

69763.4. If the Student Aid Commission, or an authorized agent, has reasonable cause to believe that a lien on property may be jeopardized within the 10-day notice-of-intent period, the lien may be filed without prior notice. The commission shall provide notice of the attachment of property by lien to the owner and to any other person known to be claiming an interest in the property, within 48 hours after filing, excluding Saturdays, Sundays, and the holidays specified in Section 6700 of the Government Code. Any hearing to contest the lien shall be requested within 10 days following transmittal of the notice.

CHAPTER 660

An act to add Chapter 1.8 (commencing with Section 8170) to, and to add Chapter 1.9 (commencing with Section 8180) to, Part 6 of Division 1 of Title 1 of the Education Code, relating to child care, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 8, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.8 (commencing with Section 8170) is added to Part 6 of Division 1 of Title 1 of the Education Code, to read:

CHAPTER 1.8. TRUSTLINE: A REGISTRY FOR INDIVIDUALS RESPONSIBLE FOR THE CARE AND SUPERVISION OF CHILDREN

8170. (a) Any child care provider who possesses any one of the following identification cards may initiate a background examination process pursuant to this chapter: (1) a valid California driver's license, (2) a valid identification card issued by the Department of Motor Vehicles, (3) a valid Alien Registration Card, or (4) in the case of a person living in a state other than California, a valid numbered photo identification card issued by an agency of the state other than California.

(b) "Child care provider" or "providers" for the purposes of this chapter means a person 18 years of age or older who provides child care or supervision and who is not required to be licensed pursuant to Section 1596.792 of the Health and Safety Code.

8171. (a) Each provider initiating a background examination process pursuant to this chapter shall obtain one set of fingerprints from a law enforcement agency or other local agency on a fingerprint card authorized by the Department of Justice and shall submit the fingerprints and a completed trustline application to the Department of Justice. The agency taking the fingerprints shall inscribe the serial number from the identification card described in Section 8170 on the fingerprint cards.

(b) A law enforcement agency or other local agency authorized

to take fingerprints may charge a reasonable fee to offset the costs of fingerprinting for the purposes of this chapter.

(c) The Department of Justice shall use the fingerprints to search the California Criminal History System and the California Child Abuse Central Index.

8172. (a) The Department of Justice shall establish a trustline registry pursuant to this chapter. Upon submission of the trustline application and fingerprints pursuant to subdivision (a) of Section 8171, the Department of Justice shall enter into the trustline registry the provider's name, identification card number, and an indicator that the provider has submitted an application and fingerprints. This provider shall be known as a "trustline applicant."

(b) Upon completion of the searches of the California Criminal History System and the California Child Abuse Central Index, if no reported criminal conviction or substantiated child abuse information that would disqualify the provider from being licensed by the State Department of Social Services as a child care provider is found, the Department of Justice shall enter that finding in the provider's record in the trustline registry and shall notify the provider of the action. This provider shall be known as a "registered trustline child care provider."

(c) If, in any of the two searches, or in any report that is received by the Department of Justice subsequent to these searches, reported criminal conviction or substantiated child abuse information for which the provider could not request an exemption from the Director of Social Services for a license as a child care provider is found, the Department of Justice shall notify the provider that he or she is not eligible to be a registered trustline child care provider, or in the case where a provider was previously registered, that he or she is no longer eligible to be a registered trustline child care provider. Also the provider's record as a trustline applicant or a registered child care provider shall be removed from the registry.

(d) (1) If, in any of the two searches, or in any report that is received by the Department of Justice subsequent to these searches, reported criminal conviction or substantiated child abuse information for which the provider could request an exemption from the Director of Social Services for a license as a child care provider is found, the Department of Justice shall review the information and either register the person as a registered trustline child care provider or deny the registration. In either case, the Department of Justice shall notify the provider of its action. In the event of a denial, the Department of Justice shall remove the provider's record as a trustline applicant from the registry.

(2) If the Department of Justice denies registration pursuant to paragraph (1), it shall advise the provider of the right to appeal. The provider shall have 15 days to appeal the denial. Upon receipt by the Department of Justice of the appeal, the appeal shall be set for hearing. The hearing shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title

2 of the Government Code, and the department has all the powers granted in that chapter.

(e) (1) The Department of Justice shall adopt regulations that are parallel to those used by the State Department of Social Services in determining whether a person applying for a license for a child day care facility may be granted an exemption to work in a day care facility despite a criminal conviction or a determination of substantiated child abuse. If an appeal is requested, the Department of Justice shall make the determination within 30 days, based upon the regulations adopted.

(2) Notwithstanding paragraph (1), the background examination required pursuant to this chapter shall not include review of the Automated Name Index of the Department of Motor Vehicles.

(3) In order to expedite the implementation of this chapter, regulations adopted for the purposes of Chapter 3.65 (commencing with Section 1597.80) shall be used for the purposes of this chapter to the extent that those regulations are consistent with this chapter.

(f) The Department of Justice may charge a provider initiating a background examination a fee not to exceed the actual costs of the searches of the California Criminal History System and the California Child Abuse Central Index.

(g) The Department of Justice shall maintain and continually update an index of reports of substantiated child abuse by, and pertinent criminal convictions of, providers and shall review the reports received from the child abuse index pursuant to Section 11170 of the Penal Code to determine if the child abuse of the provider is substantiated. The Department of Justice shall continually update the trustline registry pursuant to the actions required in subdivisions (c) and (d) of this section.

(h) The Department of Justice shall provide the California Child Care Resource and Referral Network with a continually updated record of the trustline applicants and the registered trustline child care providers.

(i) Notwithstanding any provision of law to the contrary, including Part 3 (commencing with Section 900) of Division 3.6 of Title 1 of the Government Code, state officers or employees shall not be liable for any damages caused by their conduct pursuant to this chapter except for intentional acts or gross negligence.

(j) Nothing in this chapter shall preclude the Superintendent of Public Instruction from compiling additional information from any source concerning the employment of any child care provider who is compensated with funds administered by the State Department of Education.

8173. The State Department of Education shall enter into a contract with the California Child Care Resource and Referral Network to administer the trustline.

8174. (a) The California Child Care Resource and Referral Network shall have the following responsibilities:

8176. A private employment agency that refers a child care provider who is not required to be licensed pursuant to Section 1596.792 of the Health and Safety Code to parents or guardians shall not make a referral of a provider who is not a trustline applicant or a registered trustline child care provider.

This section shall become operative six months after the date this chapter becomes operative.

8177. (a) This chapter shall become inoperative during any fiscal year in which either the State Department of Education or the Department of Justice delivers to the Chief Clerk of the Assembly and to the Secretary of the Senate a written statement indicating that the agency does not have sufficient funding to perform its duties under this chapter for that fiscal year.

(b) After this chapter becomes inoperative pursuant to subdivision (a), this chapter shall only again become operative after the Department of Education or the Department of Justice delivers to the Chief Clerk of the Assembly and to the Secretary of the Senate a written statement indicating that the agency has sufficient funding to perform its duties under this chapter.

(c) It is the intent of the Legislature that funding for the purposes of this chapter be provided in the Budget Act of 1992 and in each fiscal year thereafter.

8178. (a) A child care resource and referral agency established pursuant to Article 2 (commencing with Section 8210) of Chapter 2

of Part 6 of Division 1 of Title 1 of the Education Code shall have the following responsibilities in the administration of the trustline within its local geographic area of service:

(3) Report annually to the California Child Care Resource and Referral Network on local promotional efforts, problems encountered, and recommendations for program improvement.

(4) Ensure that the trustline is accessible to all persons in the state, regardless of their income or their ability to speak English.

(b) Each Child Care Resource and Referral Agency shall be annually allocated by the State Department of Education four cents ($0.04) per child aged zero to 14 years residing in the agency's designated service area.

8179. (a) The State Department of Education shall, in consultation with the representatives pursuant to Section 8175, select, contract with, and monitor a private consultant for the purpose of evaluating the trustline. The evaluation shall at a minimum address the following:

(1) The extent to which the trustlines registration system identifies persons seeking child care employment who have a reported criminal conviction or about whom there is substantiated child abuse information.

(2) The level of participation by parents, guardians, and child care providers.

(3) Obstacles to maximizing the benefits of the trustline registry.

(b) The State Department of Education shall transmit interim evaluation reports to the Legislature on or before September 30 of the second calendar year in which the program established by this chapter is in operation, and on or before September 30th of each subsequent year in which this program is in operation. The State Department of Education shall transmit the final evaluation report developed pursuant to subdivision (a), along with conclusions and recommendations that it develops in consultation with the Child Care Resource and Referral Network and the representatives pursuant to Section 8175, to the Legislature on or before January 1 of the fifth year in which the program is in operation.

(b) (1) Except as provided in paragraph (2), any person who is convicted of a felony which is committed for the benefit of, at the direction of, or in association with any criminal street gang, with the specific intent to promote, further, or assist in any criminal conduct by gang members, shall, upon conviction of that felony, in addition and consecutive to the punishment prescribed for the felony or attempted felony of which he or she has been convicted, be punished by an additional term of one, two, or three years at the court's discretion. However, if the underlying felony is committed on the grounds of, or within 1,000 feet of, a public or private elementary, vocational, junior high, or high school, during hours in which the facility is open for classes or school related programs or when minors are using the facility, the additional term shall be two, three, or four years, at the court's discretion. total assets.

(d) (1) In order to ensure the safety and soundness of industrial loan companies and to avoid an unreasonable concentration of loans and obligations that could result in balloon payments, all loans and obligations specified in subdivision (c) with a term in excess of 10 years and 30 days shall be repaid in substantially equal weekly, semimonthly, monthly, or quarterly installments during their term.

(2) In the event paragraph (1) is held invalid by any court of competent jurisdiction as preempted by, or in violation of, any federal law, then the aggregate of all loans and obligations having a term in excess of 10 years and 30 days secured solely or primarily by real property and having other than substantially equal weekly, semimonthly, monthly or quarterly installments during their term shall not exceed 1 percent of an industrial loan company's assets.

Article 2. Temporary Restraining Order and Injunction

50585. (a) The program operator may seek, on its own behalf or on behalf of other participants, project employees, or persons residing within 100 feet of the program site, a temporary restraining order and an injunction prohibiting abuse or program misconduct as provided in this chapter. A program operator may not seek a temporary restraining order, pursuant to this section, against a participant after the participant has been under contract with the program operator for at least six months or longer, except when an action is pending against the participant or a temporary restraining order is in effect and subject to further orders. Nothing in this section shall be construed to authorize a person residing within 100 feet of the program site to seek a temporary restraining order or injunction under this chapter.

(b) Upon filing a petition for an injunction under this chapter, the program operator may obtain a temporary restraining order in accordance with the provisions of this section. No temporary restraining order shall be issued without notice to the opposite party, unless it shall appear from the facts shown by the affidavit that great or irreparable harm would result to the program operator, a program participant, or an individual residing within 100 feet of the program site before the matter can be heard on notice. The program operator or the program operator's attorney shall state in an affidavit to the court (1) that within a reasonable time prior to the application for a temporary restraining order he or she informed the opposing party or his or her attorney at what time and where the application would be made, (2) that he or she in good faith attempted to so inform the opposing party and his or her attorney but was unable to so inform the opposing attorney or his or her party, specifying the efforts made to contact them, or (3) that for reasons specified he or she should not be required to inform the opposing party or his or her attorney.

A temporary restraining order may be granted upon an affidavit which, to the satisfaction of the court, shows reasonable proof of program misconduct or abuse by the participant, and that great or irreparable harm would result. A temporary restraining order granted under this section shall remain in effect, at the court's

discretion, for a period not to exceed five days, unless otherwise modified, extended, or terminated by the court.

(c) The matter shall be made returnable on an order requiring cause to be shown why the injunction should not be granted, not later than five days from the date of the order. When the matter comes up for hearing, the party who obtained the temporary restraining order shall be ready to proceed and shall have personally served upon the opposite party at least two days prior to the hearing, a copy of the petition, a copy of the temporary restraining order, if any, the notice of hearing, copies of all affidavits to be used in the application, and a copy of any points and authorities in support of the petition. If the party who obtained the temporary restraining order is not ready, or if he or she fails to serve a copy of his or her petition, affidavits, and points and authorities, as herein required, the court shall dissolve the temporary restraining order. The court may, upon the filing of an affidavit by the program operator or his or her attorney, that the participant could not be served on time, reissue any temporary restraining order previously issued pursuant to this section and dissolved by the court for failure to serve the participant. An order reissued under this section shall state on its face the new date of expiration of the order. No fees shall be charged for the reissuance of any order under this section. The participant shall be entitled to a continuance, provided that the request is made on or before the hearing date and the hearing shall be set for a date within 15 days of the application, unless the participant requests a later date. The court may extend, or modify and extend, any temporary restraining order until the date and time upon which the hearing is held. The participant may file a response which explains, excuses, justifies, or denies the alleged conduct. No fee shall be charged for the filing of a response. At the hearing, the judge shall receive any testimony or evidence that is relevant, and may make an independent inquiry. If the judge finds by clear and convincing evidence that program misconduct or abuse exists, an injunction shall issue prohibiting that conduct. An injunction issued pursuant to this section shall have a duration of not more than one year. At any time within the three months before the expiration of the injunction, the program operator may apply for renewal of the injunction by filing a new petition for an injunction under this section.

(d) In addition to orders restraining abuse, the court may, upon clear and convincing evidence of abuse, issue an order excluding the participant from the program site, or restraining the participant from coming within 200 feet of the program site, upon an affidavit which, to the satisfaction of the court, shows clear and convincing evidence of abuse of a project employee, another participant, or a person who resides within 100 feet of the program site, by the participant and that great or irreparable injury would result to one of these individuals if the order is not issued. An order excluding the participant from the program site may be included in the temporary restraining order only in an emergency where it is necessary to

protect another participant, a project employee, or an individual who lives within 100 feet of the project site from imminent serious bodily injury.

(e) Nothing in this chapter shall preclude either party from representation by private counsel or from appearing on his or her own behalf.

(f) The notice of hearing specified in subdivision (c) shall contain on its face the name and phone number of an office funded by the federal Legal Services Corporation which provides legal services to low income persons in the county in which the action is filed. The notice shall indicate that this number may be called for legal advice concerning the filing of a response to the petition.

(g) Nothing in this chapter shall preclude the program operator's right to utilize other existing civil remedies. An order issued under this section shall not affect the rights of anyone not named in the order.

50586. (a) The clerk shall transmit a copy of each temporary restraining order or injunction or modification or termination thereof, granted under this chapter, by the close of the business day on which the order was granted, to the law enforcement agencies having jurisdiction over the program site. Each law enforcement agency may make available information as to the existence and current status of these orders to law enforcement officers responding to the scene of reported abuse or program misconduct.

(b) Any willful disobedience of any temporary restraining order or injunction granted under this section shall be a misdemeanor pursuant to Section 166 of the Penal Code.

(c) If a participant is found in contempt of a court order issued pursuant to this section, the court may, in addition to any other punishment, modify the order to exclude the participant from the program site.

50587. If a participant has violated an order issued under Section 50585, the participant shall be considered to have failed to perform the conditions of the agreement under which the property is held as provided in subsection 3 of Section 1161 of the Code of Civil Procedure, which conditions cannot afterward be performed.

50588. The Judicial Council shall promulgate forms and related instructions to implement the procedures required by this chapter. The petition and response forms shall be simple and concise.

Article 3. Recovery of Dwelling Unit

50590. If, after hearing pursuant to this chapter, an order excluding the participant from the program site is issued, the program operator may, without further notice, take possession of the participant's dwelling unit on the program site. The program operator shall have the same rights to the dwelling unit as if it had been recovered after abandonment in accordance with Section 1951.3 of the Civil Code and without objection of the participant. If

other participants, including the defendant participant's family members, reside in the dwelling unit, the abandonment shall be deemed only to affect the rights of the individual or individuals against whom the order has issued.

50591. If the program operator takes possession of the property, pursuant to this article, the program operator shall give the subject participant a reasonable opportunity to remove the participant's property from his or her dwelling unit on the program site, and, thereafter, the program operator may consider the remaining subject participant's property to be abandoned property pursuant to Chapter 5 (commencing with Section 1980) of Part 4 of Division 3 of the Civil Code.

SEC. 2. This act shall become operative on July 1, 1992.

8606.1. (a) The Legislature finds and declares that the use of nearshore trawl nets was authorized through the experimental gear permit process and the alternative gear development program as a potential alternative to the use of gill and trammel nets in areas where the use of that gear type has been prohibited.

(b) The Legislature, in considering the needs of user groups, requires the use of nearshore trawl nets to be phased out effective January 1, 1993.

(c) The department shall issue 12 experimental gear permits authorizing the use of trawl nets in state waters during the period from May 1, 1992, through September 30, 1992. The 12 experimental gear permits shall be issued to those fishermen who hold experimental gear permits to use trawl nets in nearshore waters off central California during 1991.

(d) The terms and conditions of the 12 experimental gear permits to use trawl nets shall be the same as those approved by the Fish and Game Commission during 1991, except that fishing under authority of those permits authorized in waters between Waddell Creek (Santa Cruz County) and Indian Head Beach (Monterey County) shall be conducted in waters not less than 7½ fathoms in depth or within a one-mile radius of Point Santa Cruz (Santa Cruz County), and fishing under authority of permits authorized in waters between a line extending 253 degrees magnetic from Double Point (Marin

Any alternative gear received by the department due to a revocation, nonrenewal, or termination of an experimental permit may be resold by the State Coastal Conservancy at fair market value to other experimental permit applicants or holders under this article. If the permittee chooses to keep the alternative gear and repay the loan, the rate of interest shall be reduced to 3 percent for the remaining balance of the loan.

(b) If the Legislature approves the permanent use or type of gear and the commercial fishing permit or the license for the permanent use or type of gear is revoked for a violation of the terms and conditions under which the fishery is conducted, the permittee shall be responsible for any remaining balance on any outstanding loan with the State Coastal Conservancy for the purchase of alternative fishing gear.

(c) In District 19A, bait nets may be used only to take anchovies, queenfish, white croakers, sardines, squid, and smelt for bait only.

Bait nets may not be used within 750 feet of Seal Beach Pier or Belmont Pier.

(d) No other species of fish may be taken on any boat carrying a bait net in District 19A, except that loads or lots of fish may contain not more than 18 percent by weight of the fish, of other bait fish species taken incidentally to other fishing operations and which are mixed with other fish in the load or lot.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the continued ability to investigate potentially viable alternative fishing gear from among a more comprehensive range of possibilities so as to protect and preserve the fisheries, marine mammals and seabirds, and the nearshore ecological community at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 678

An act to add Chapter 6.6 (commencing with Section 20790) to Part 3 of Division 5 of Title 2 of the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6.6 (commencing with Section 20790) is added to Part 3 of Division 5 of Title 2 of the Government Code, to read:

CHAPTER 6.6. PREPAYMENT OF CONTRIBUTIONS

20790. All or part of the employer's contribution required to be made to the system during any fiscal year may be made annually in advance of the due date thereof on an estimated basis pursuant to contractual agreement with the board. Any payments so made in advance on an estimated basis shall be adjusted at the end of the appropriate fiscal year to reflect the actual annual contribution required for that fiscal year. The payments to be so made in advance

may be discounted to their present value at a rate to be established by agreement with the board.

This section shall apply only to Riverside County as a two-year pilot project between July 1, 1992, and June 30, 1994.

20791. (a) The board shall prepare and submit a report to the Legislature on the implementation of this chapter on or before December 1, 1994.

(b) (1) The report shall contain an evaluation of the administrative and economic advantages of the annual prepaid contribution for the system, the pilot county, and all contracting public agencies, should this option be made available to them.

(2) The project shall be deemed successful if all of the following criteria are met:

(A) The discount of the annual employer contribution is sufficient to induce a public agency to forego its current method of payment.

(B) The board can demonstrate that prepayment of employer contributions does not have an adverse impact upon investment strategy or the rate of return on investments.

(C) Prepayment of employer contributions does not result in a substantial increase in administrative costs.

(3) The project shall be deemed unsuccessful if any of the criteria contained in paragraph (2) are not met, or if the board determines that implementation of the program on a systemwide basis is not feasible.

SEC. 2. The limitations imposed by Section 1 of this act are necessary because the Public Employees' Retirement System needs an opportunity to study the implementation of a system for the advanced payment of employer contribution without incurring the costs required to administer the system on a statewide basis. Therefore, a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

CHAPTER 679

An act to add Section 10032 to the Business and Professions Code, relating to real estate.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 10032 is added to the Business and Professions Code, to read:

10032. (a) All obligations created under Section 10000, and following, all regulations issued by the commissioner relating to real estate salespersons, and all other obligations of brokers and real estate salespersons to members of the public shall apply regardless

of whether the real estate salesperson and the broker to whom he or she is licensed have characterized their relationship as one of "independent contractor" or of "employer and employee."

(b) A real estate broker and a real estate salesperson licensed under that broker may contract between themselves as independent contractors or as employer and employee, for purposes of their legal relationship with and obligations to each other. Characterization of a relationship as either "employer and employee" or "independent contractor" for statutory purposes, including, but not limited to, withholding taxes on wages and for purposes of unemployment compensation, shall be governed by Section 650 and Sections 13000 to 13054, inclusive, of the Unemployment Insurance Code. For purposes of workers compensation the characterization of the relationship shall be governed by Section 3200, and following, of the Labor Code.

SEC. 2. This act shall not be interpreted or applied to affect the obligation or ability, if any, of a broker to maintain workers compensation insurance, or the holding in Gibson v. Davis Realty Co. (1964) 215 Cal. App. 2d 190, that a real estate broker may be vicariously liable under the doctrine of respondeat superior for tortious acts of a salesperson licensed under the broker; and further, that real estate salespersons cannot be classified as independent contractors for purposes of liability to third parties and that any provision in a contract which purports to change that relationship from that of an agent to independent contractor is invalid as being contrary to law for purposes of tort liability to third parties.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 680

An act to add Sections 6830.1 and 6832 to the Harbors and Navigation Code, relating to river port commissions.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 6830.1 is added to the Harbors and Navigation Code, to read:

6830.1. (a) In addition to the commissioners appointed pursuant to Section 6830, the Sacramento-Yolo Port Commission shall have one commissioner appointed by the City Council of the City of West Sacramento and one commissioner appointed jointly by the Board of Supervisors of Sacramento County and the City Council of the City of Sacramento.

(b) On or before the end of each fiscal year, the City of West Sacramento shall pay to the Sacramento-Yolo Port District an amount which is equal to the costs incurred by the district on behalf of the commissioner appointed by the City of West Sacramento pursuant to this section.

(c) On or before the end of each fiscal year, Sacramento County and the City of Sacramento shall pay to the Sacramento-Yolo Port District an amount which is equal to the cost incurred by the district on behalf of the commissioner appointed jointly by Sacramento County and the City of Sacramento pursuant to this section. The county and city shall contribute an equal amount to the payment required by this subdivision.

SEC. 2. Section 6832 is added to the Harbors and Navigation Code, to read:

6832. Notwithstanding any other provision of law, the creation of any indebtedness by the Sacramento-Yolo Port District pursuant to this chapter shall require the prior authorization of a five-sevenths majority vote of the members of the port commission.

SEC. 3. The Legislature finds and declares that a special law is necessary and that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution because of the unique circumstances of the Sacramento-Yolo Port District. The facts constituting the special circumstances are:

The jurisdictional boundary overlap and proximity of the Sacramento-Yolo Port District with the City of West Sacramento, together with the interrelationship of their financial resources, are unique in this state and a special act to provide representation of the city is therefore necessary.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school

district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 681

If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. SEC. 2. The Legislature finds and declares that there are special circumstances unique to the Irvine Ranch Water District which make a special act necessary and that a general law cannot be made applicable within the meaning of subdivision (b) of Section 16 of Article IV of the California Constitution.

CHAPTER 683

An act to amend Section 2020 of the Welfare and Institutions Code, relating to youth.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 2020 of the Welfare and Institutions Code is amended to read:

(B) A maximum of 30 percent to shelters for abused and neglected children. Funds allocated for shelters for abused and neglected children shall be prioritized among no more than three counties of the 1st to 10th class, inclusive, as defined by Section 28020 of the Government Code. The criteria for selection of these counties

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. (a) (1) The Legislature finds and declares that the card club industry in California is important to the economic well-being of this state, with over 300 clubs employing over 20,000 Californians while generating more than forty million dollars ($40,000,000) each year in vitally needed revenue for local governments.

(2) The Legislature further finds and declares that card cheating is a threat to the integrity and the financial health of California card clubs and that it is imperative that card cheats, when identified, are vigorously prosecuted.

(3) The Legislature further finds and declares that very few of the cases of card cheating brought to the attention of local law enforcement are prosecuted.

(b) It is the intent of the Legislature in adopting this act to facilitate the prosecution of those who violate Section 332 of the

Penal Code; to foster recognition that violations occur through the counterfeiting, misappropriation, and other misuse of poker chips, tokens, and markers; and to encourage local prosecutors to develop policies for the prosecution of these cases.

SEC. 2. Section 318 of the Penal Code is amended to read:

318. Whoever, through invitation or device, prevails upon any person to visit any room, building, or other places kept for the purpose of illegal gambling or prostitution, is guilty of a misdemeanor, and, upon conviction thereof, shall be confined in the county jail not exceeding six months, or fined not exceeding five hundred dollars ($500), or be punished by both that fine and imprisonment.

SEC. 3. Section 332 of the Penal Code is amended to read:

332. (a) Every person who by the game of "three card monte," so-called, or any other game, device, sleight of hand, pretensions to fortune telling, trick, or other means whatever, by use of cards or other implements or instruments, or while betting on sides or hands of any play or game, fraudulently obtains from another person money or property of any description, shall be punished as in case of larceny of property of like value.

(b) For the purposes of this section, "fraudulently obtains" includes, but is not limited to, cheating, including, for example, gaining an unfair advantage for any player in any game through a technique or device not sanctioned by the rules of the game.

(c) For the purposes of establishing the value of property under this section, poker chips, tokens, or markers have the monetary value assigned to them by the players in any game.

CHAPTER 685

An act to amend Section 1399.63 of the Health and Safety Code, and to amend Section 10128.3 of the Insurance Code, relating to insurance.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1399.63 of the Health and Safety Code is amended to read:

1399.63. (a) Any carrier providing replacement coverage with respect to hospital, medical or surgical expense or service benefits within a period of 60 days from the date of discontinuance of a prior contract or policy providing such hospital, medical or surgical expense or service benefits shall immediately cover all employees and dependents who were validly covered under the previous contract or policy at the date of discontinuance and are within the

definitions of eligibility under the succeeding carrier's contract and who would otherwise be eligible for coverage under the succeeding carrier's contract, regardless of any provisions of the contract relating to active full-time employment or hospital confinement or pregnancy. However, with respect to employees or dependents who are totally disabled on the date of discontinuance of the prior carrier's contract or policy and entitled to an extension of benefits pursuant to subdivision (b) of Section 1399.62, or pursuant to subdivision (d) of Section 10128.2 of the Insurance Code, the succeeding carrier is not required to provide benefits for services or expenses directly related to any conditions which caused the total disability.

(b) Except as otherwise provided in subdivision (a), until an employee or dependent entitled to coverage under a succeeding carrier's contract pursuant to subdivision (a) of this section qualifies for full benefits by meeting all effective date requirements of the succeeding carrier's contract, the level of benefits shall not be lower than the benefits provided under the prior carrier's contract or policy reduced by the amount of benefits paid by the prior carrier. Such employee or dependent shall continue to be covered by the succeeding carrier until the earlier of the following dates:

(1) The date coverage would terminate for an employee or dependent in accordance with the provisions of the succeeding carrier's contract, or

(2) In the case of an employee or dependent who was totally disabled on the date of discontinuance of the prior carrier's contract or policy and entitled to an extension of benefits pursuant to subdivision (d) of Section 10128.2 of the Insurance Code or subdivision (b) of Section 1399.62, the date the period of extension of benefits terminates or, if the prior carrier's contract or policy is not subject to this article, the date to which benefits would have been extended had the prior carrier's contract or policy been subject to this article.

(c) Except as otherwise provided in this section, and except to the extent that benefits for the condition would have been reduced or excluded under the prior carrier's contract or policy, no provision in a succeeding carrier's contract of replacement coverage which would operate to reduce or exclude benefits on the basis that the condition giving rise to benefits preexisted the effective date of the succeeding carrier's contract shall be applied with respect to those employees and dependents validly covered under the prior carrier's contract or policy on the date of discontinuance.

(d) In a situation where a determination of the prior carrier's benefit is required by the succeeding carrier, at the succeeding carrier's request, the prior carrier shall furnish a statement of benefits available or pertinent information, sufficient to permit verification of the benefit determination by the succeeding carrier.

(e) For purposes of subdivision (a), a succeeding carrier's coverage shall not exclude any dependent child who was covered by

the previous carrier solely because the plan member does not provide the primary support for that dependent child.

(f) Except to the extent that benefits for the condition would have been reduced or excluded under the prior carrier's contract or policy, no provision in the succeeding carrier's contract, where an employee changes carriers due to a change in employment or other circumstances, that would operate to reduce or exclude benefits for the following congenital craniofacial anomalies: cleft lip and palate (as defined in ICD-9-CM Diagnosis Code 749, International Classification of Diseases, 9th Revision, Clinical Modification, Volume 1, Second Edition, September, 1980), acrocephalosyndactyly (as defined in ICD-9-CM Diagnosis Code 755.55, cranio only), and other congenital musculoskeletal anomalies (as defined in ICD-9-CM Diagnosis Code 756.0), on the basis that the condition giving rise to benefits preexisted the effective date of the succeeding carrier's contract, shall be applied to those employees and dependents validly covered under the prior carrier's contract or policy on the date the prior contract or policy terminated when payment or services had been commenced by the previous carrier. That succeeding coverage shall otherwise be subject to all other provisions of the contract between the insured and the succeeding carrier. Nothing in this subdivision shall be construed to limit or otherwise affect any obligation of a succeeding carrier to provide benefits for a condition not specified in this subdivision, where expressly or impliedly required by other provisions of this chapter; this subdivision is not intended to affect the construction of the language of any other provision of this chapter.

SEC. 2. Section 10128.3 of the Insurance Code is amended to read:

10128.3. (a) Any carrier providing replacement coverage with respect to hospital, medical or surgical benefits on an expense-incurred or service basis within a period of 60 days from the date of discontinuance of a prior policy providing that hospital, medical or surgical benefits shall immediately cover all employees and dependents who were validly covered under the previous policy at the date of discontinuance, are within the definitions of eligibility under the succeeding carrier's policy, and who would otherwise be eligible for coverage under the succeeding carrier's policy, regardless of any provisions of the policy relating to active full-time employment or hospital confinement or pregnancy. However, with respect to employees or dependents who are totally disabled on the date of discontinuance of the prior carrier's contract or policy and entitled to an extension of benefits pursuant to subdivision (b) of Section 1399.62 of the Health and Safety Code, or pursuant to subdivision (d) of Section 10128.2, the succeeding carrier is not required to provide benefits for services or expenses directly related to any conditions which caused the total disability.

(b) Except as otherwise provided in subdivision (a), until an employee or dependent entitled to coverage under a succeeding

carrier's policy pursuant to subdivision (a) of this section qualifies for full benefits by meeting all effective date requirements of the succeeding carrier's policy, the level of benefits shall not be lower than the benefits provided under the prior carrier's policy reduced by the amount of benefits paid by the prior carrier. The employee or dependent shall continue to be covered by the succeeding carrier until the earlier of the following dates:

(1) The date coverage would terminate for an employee or dependent in accordance with the provisions of the succeeding carrier's policy.

(2) In the case of an employee or dependent who was totally disabled on the date of discontinuance of the prior carrier's policy and entitled to an extension of benefits pursuant to subdivision (b) of Section 1399.62 of the Health and Safety Code, or subdivision (d) of Section 10128.2, the date the period of extension of benefits terminates, or, if the prior carrier's policy is not subject to this article, the date to which benefits would have been extended had the prior carrier's policy been subject to this article.

(c) Except as otherwise provided in this section, and except to the extent that benefits for the condition would have been reduced or excluded under the prior carrier's policy, no provision in a succeeding carrier's policy of replacement coverage which would operate to reduce or exclude benefits on the basis that the condition giving rise to benefits preexisted the effective date of the succeeding carrier's policy shall be applied with respect to those employees and dependents validly insured under the prior carrier's policy on the date of discontinuance.

(d) In a situation where a determination of the prior carrier's benefit is required by the succeeding carrier, at the succeeding carrier's request, the prior carrier shall furnish a statement of benefits available or pertinent information, sufficient to permit verification of the benefit determination by the succeeding carrier.

(e) For purposes of subdivision (a), a succeeding carrier's policy shall not exclude coverage of a dependent child who was covered by the previous carrier solely because the insured does not provide primary support for that dependent child.

(f) The fraudulent failure or refusal of an employee or dependent to disclose a preexisting condition to the succeeding carrier shall not be ascribed to the entire group and shall not alleviate the duty of a succeeding carrier under subdivision (a) to immediately cover all employees and dependents who were validly covered under the previous policy on the date of discontinuance. Any denial of benefits on the basis of fraud shall be limited to the employee or dependent who committed the fraud.

(g) Except to the extent that benefits for the condition would have been reduced or excluded under the prior carrier's contract or policy, no provision in the succeeding carrier's contract, where an employee changes carriers due to a change in employment or other circumstances, that would operate to reduce or exclude benefits for

the following congenital craniofacial anomalies: cleft lip and palate (as defined in ICD-9-CM Diagnosis Code 749, International Classification of Diseases, 9th Revision, Clinical Modification, Volume 1, Second Edition, September, 1980), acrocephalosyndactyly (as defined in ICD-9-CM Diagnosis Code 755.55, cranio only), and other congenital musculoskeletal anomalies (as defined in ICD-9-CM Diagnosis Code 756.0), on the basis that the condition giving rise to benefits preexisted the effective date of the succeeding carrier's contract, shall be applied to those employees and dependents validly covered under the prior carrier's contract or policy on the date the prior contract or policy terminated when payment or services had been commenced by the previous carrier. That succeeding coverage shall otherwise be subject to all other provisions of the contract between the insured and the succeeding carrier.

CHAPTER 686

An act to add Article 5.4 (commencing with Section 769.80) to Chapter 1 of Part 2 of Division 1 of the Insurance Code, relating to insurance.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Article 5.4 (commencing with Section 769.80) is added to Chapter 1 of Part 2 of Division 1 of the Insurance Code, to read:

Article 5.4. Managing General Agents

769.80. This act shall be known and may be cited as the Managing General Agents Act.

769.81. As used in this article:

(a) "Actuary" means a person who is a member in good standing of the American Academy of Actuaries, the Casualty Actuarial Society, or the Society of Actuaries, and is qualified to sign a statement of actuarial opinion on loss reserves.

(b) "Insurer" means any person, firm, association, or corporation duly licensed as an insurer and operating under a certificate of authority in this state.

(c) "Managing General Agent" (MGA) means any person, firm, association, partnership, or corporation who negotiates and binds ceding reinsurance contracts on behalf of an insurer or manages all or part of the insurance business of an insurer (including the management of a separate division, department or underwriting office) and acts as an agent for that insurer whether known as an

MGA, manager, or other similar term, who, with or without the authority, either separately or together with affiliates, produces, directly or indirectly, and underwrites an amount of gross direct written premium equal to or more than 5 percent of the policyholder surplus as reported in the last annual statement of the insurer in any one quarter or year together with one or more of the following: (1) adjusts or pays claims in excess of an amount determined by the commissioner, or (2) negotiates reinsurance on behalf of the insurer.

Notwithstanding the above, the following persons shall not be considered as MGAs for the purposes of this act:

(1) An employee of the insurer.

(2) A United States manager of the United States branch of an alien insurer.

(3) An underwriting manager which, pursuant to contract, manages the insurance operations of the insurer, is under common control with the insurer, subject to the holding company regulatory act, and whose compensation is not based on the volume of premiums written.

(4) The attorney-in-fact authorized by and acting for the subscribers of a reciprocal insurer or interinsurance exchange under powers of attorney.

(d) "Underwrite" means the authority to accept or reject risk on behalf of the insurer.

769.82. (a) No producer shall act in the capacity of an MGA with respect to risks located in this state for an insurer which holds a certificate of authority unless that producer is licensed as a fire and casualty broker-agent or as a life agent in this state.

(b) No producer shall act in the capacity of an MGA representing an insurer domiciled in this state with respect to risks located outside this state unless that producer is licensed as a fire and casualty broker-agent or as a life agent in this state.

(c) The commissioner may require a fidelity bond in an amount acceptable to him or her for the protection of the insurer.

(d) The commissioner may require the MGA to maintain an errors and omissions policy. If a policy is not generally available at a reasonable cost, the commissioner may, by rule, suspend the requirement of this subdivision until that coverage becomes generally available at a reasonable cost.

769.83. No producer acting in the capacity of an MGA shall place business with an insurer unless there is in force a written contract between the parties which sets forth the responsibilities of each party and where both parties share responsibility for a particular function, specifies the division of such responsibilities, and which contains the following minimum provisions:

(a) The insurer may terminate the contract for cause upon written notice to the MGA. The insurer may suspend the underwriting authority of the MGA during the pendency of any dispute regarding the cause for termination.

(b) The MGA shall render accounts to the insurer detailing all

transactions and remit all funds due under the contract to the insurer on not less than a monthly basis.

(c) All funds collected for the account of an insurer shall be held by the MGA in a fiduciary capacity in a bank which is a member of the Federal Reserve System. This account shall be used for all payments on behalf of the insurer. The MGA may retain no more than three months estimated claims payments and allocated loss adjustment expenses. The requirements of this subdivision shall be in addition to the requirements of Sections 1734 and 1735.

(d) Separate records of business written by the MGA shall be maintained. The insurer shall have access to and the right to copy all accounts and records related to its business in a form usable by the insurer and the commissioner shall have access to all books, bank accounts, and records of the MGA in a form usable to the commissioner. Those records shall be retained by the MGA, and shall be the joint property of the insurer and MGA.

(e) The contract may not be assigned in whole or part by the MGA.

(f) Appropriate underwriting guidelines including:

(1) The maximum annual premium volume.

(2) The basis of the rates to be charged.

(3) The types of risks which may be written.

(4) Maximum limits of liability.

(5) Applicable exclusions.

(6) Territorial limitations.

(7) Policy cancellation provisions.

(8) The maximum policy period.

The insurer shall have the right to cancel or nonrenew any policy of insurance, except as limited by any other provision of this code.

(g) If the contract permits the MGA to settle claims on behalf of the insurer:

(1) All claims shall be reported to the insurer in a timely manner.

(2) A copy of the claim file shall be sent to the insurer at its request or as soon as it becomes known that the claim is subject to any of the following:

(A) Has the potential to exceed an amount determined by the commissioner or exceeds the limit set by the company, whichever is less.

(B) Involves a coverage dispute.

(C) May exceed the MGA's claims settlement authority.

(D) Is open for more than six months.

(E) Is closed by payment of an amount set by the commissioner or an amount set by the insurer, whichever is less.

(3) All claim files shall be the joint property of the insurer and MGA. However, upon an order of liquidation of the insurer such files shall become the sole property of the insurer or its estate; the MGA shall have reasonable access to and the right to copy the files on a timely basis.

(4) Any settlement authority granted to the MGA may be

terminated for cause upon the insurer's written notice to the MGA or upon the termination of the contract. The insurer may suspend the settlement authority during the pendency of any dispute regarding the cause for termination.

(h) Where electronic claims files are in existence, the contract shall address the timely transmission of the data.

(i) If the contract provides for a sharing of interim profits by the MGA, and the MGA has the authority to determine the amount of the interim profits by establishing loss reserves or controlling claim payments, or in any other manner, interim profits will not be paid to the MGA until one year after they are earned for property insurance business and five years after they are earned on casualty business and not until the profits have been verified pursuant to Section 769.84.

(j) The MGA shall not do any of the following:

(1) Bind reinsurance or retrocessions on behalf of the insurer, except that the MGA may bind facultative reinsurance contracts pursuant to obligatory facultative agreements if the contract with the insurer contains reinsurance underwriting guidelines including, for both reinsurance assumed and ceded, a list of reinsurers with which such automatic agreements are in effect, the coverages and amounts or percentages that may be reinsured and commission schedules. This paragraph shall not operate to prohibit transactions which are subject to Chapter 6.5 (commencing with Section 1781.1) of Part 2 of Division 1, if the MGA has complied with all of the requirements of that chapter.

(2) Commit the insurer to participate in insurance or reinsurance syndicates.

(3) Appoint any agent without assuring that the agent is lawfully licensed to transact the type of insurance for which he or she is appointed.

(4) Without prior approval of the insurer, pay or commit the insurer to pay a claim over a specified amount, net of reinsurance, which shall not exceed 1 percent of the insurer's policyholder's surplus as of December 31 of the last completed calendar year.

(5) Collect any payment from a reinsurer or commit the insurer to any claim settlement with a reinsurer, without prior approval of the insurer. If prior approval is given, a report shall be promptly forwarded to the insurer.

(6) Permit any agent appointed pursuant to paragraph (3) to serve on the insurer's board of directors.

(7) Jointly employ an individual who is employed with the insurer.

(8) Appoint a sub-MGA.

769.84. (a) The insurer shall have on file an independent financial examination, in a form acceptable to the commissioner, of each MGA with which it has done business.

(b) If an MGA establishes loss reserves, the insurer shall annually obtain the opinion of an actuary attesting to the adequacy of loss

reserves established for losses incurred and outstanding on business produced by the MGA. This is in addition to any other required loss reserve certification.

(c) The insurer shall periodically (at least semiannually) conduct an onsite review of the underwriting and claims processing operations of the MGA.

(d) Binding authority for all reinsurance contracts or participation in insurance or reinsurance syndicates shall rest with an officer of the insurer, who shall not be affiliated with the MGA.

(e) Within 30 days of entering into or termination of a contract with an MGA, the insurer shall provide written notification of such appointment or termination to the commissioner. Notices of appointment of an MGA shall include a statement of duties which the applicant is expected to perform on behalf of the insurer, the lines of insurance for which the applicant is to be authorized to act, and any other information the commissioner may request.

(f) An insurer shall review its books and records each quarter to determine if any producer has become, by operation of Section 769.81, an MGA as defined in that section. If the insurer determines that a producer has become an MGA pursuant to the above, the insurer shall promptly notify the producer and the commissioner of that determination and the insurer and the producer shall fully comply with this article within 30 days.

(g) An insurer shall not appoint to its board of directors an officer, director, employee, any agent appointed pursuant to paragraph (3) of subdivision (j) of Section 769.83, or controlling shareholder of its MGAs. This subdivision shall not apply to relationships governed by Article 4.7 (commencing with Section 1215) of Chapter 2 of Part 2 of Division 1.

769.85. The acts of the MGA are considered to be the acts of the insurer on whose behalf it is acting. An MGA may be examined as if it were the insurer.

769.86. (a) If the commissioner finds after hearing that any person has violated any provision of this article he or she may order any of the following:

(1) For each separate violation, a penalty in an amount not to exceed twenty-five thousand dollars ($25,000).

(2) Revocation or suspension of the producer's license.

(b) Hearings held pursuant to subdivision (a) shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, except that the hearings shall be conducted by administrative law judges chosen under Section 11502 or appointed by the commissioner.

(c) The decision, determination, or order of the commissioner pursuant to subdivision (a) shall be subject to judicial review.

(d) Nothing contained in this section shall affect the right of the commissioner to impose any other penalties provided for in this code, nor limit any other authority required or authorized by this code to be exercised by the commissioner.

(e) Nothing contained in this article is intended to or shall in any manner limit or restrict the rights of policyholders, claimants, and auditors.

769.87. The commissioner may adopt reasonable rules and regulations for the implementation and administration of this article.

CHAPTER 687

An act to amend Section 1132 of the Welfare and Institutions Code, relating to crimes.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1152 of the Welfare and Institutions Code is amended to read:

1152. (a) Any person who without the use of force or violence willfully assists any parolee of the Department of the Youth Authority whose parole has been revoked, any escapee, any ward confined to a Department of the Youth Authority institution or facility, or who is being transported to or from that institution or facility, or any person in the lawful custody of any officer or person to escape or in an attempt to escape from a Department of the Youth Authority institution or facility, or custody, is guilty of a misdemeanor.

(b) Any person who with the use of force or violence willfully assists any parolee of the Department of the Youth Authority whose parole has been revoked, any escapee, any ward confined to a Department of the Youth Authority institution or facility, or who is being transported to or from that institution or facility, or any person in the lawful custody of any officer or person to escape or in an attempt to escape from a Department of the Youth Authority institution or facility, or custody, is punishable by imprisonment in the state prison for a term of 16 months, two, or three years or in the county jail for a term not exceeding one year.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 688

An act to amend Sections 10040, 10605.3, and 10605.4 of the Health and Safety Code, relating to vital statistics.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 10040 of the Health and Safety Code is amended to read:

10040. (a) There is a State Vital Record Improvement Project Fund in the State Treasury. Not less than 10 percent of the moneys collected in the fund prior to or on December 31, 1992, less any fund reductions resulting from budget expropriations, shall, upon appropriation by the Legislature, be allocated by the State Registrar to local registrars to be utilized to improve and automate the processing of local vital record systems. Those allocations shall be based on the needs of local registrars to improve and automate record systems, as determined by the State Registrar, with emphasis on providing funds to those counties with insufficient Vital and Health Statistics Trust Fund revenue to support vital record automation.

(b) The remainder of the moneys in the fund not subject to local allocations pursuant to subdivision (a) shall, upon appropriation by the Legislature, be utilized by the State Registrar to improve and automate the processing of vital records maintained by the State Registrar.

SEC. 2. Section 10605.3 of the Health and Safety Code is amended to read:

10605.3. (a) Commencing January 1, 1992, in addition to the fees prescribed by subdivisions (a) to (d), inclusive, of Section 10605, all applicants for certified copies of the records described in those subdivisions shall pay an additional fee of two dollars ($2), which shall be collected by the State Registrar, the local registrar, county recorder, or county clerk, as the case may be.

(b) Except as provided in paragraph (2), the local public official charged with the collection of the additional fee established pursuant to subdivision (a) may create a Vital and Health Statistics Trust Fund. The fees collected by local public officials pursuant to subdivision (a) shall be distributed as follows:

(1) Commencing January 1, 1992, and ending December 31, 1992, one dollar ($1) of each two dollars ($2) collected shall be deposited with the State Registrar in the State Vital Record Improvement Project Fund established pursuant to Section 10040.

(2) Commencing January 1, 1993, ninety cents ($0.90) of each two dollars ($2) collected shall be deposited with the State Registrar in the Vital Record Improvement Project Fund established pursuant to

Section 10040.

(3) The remainder of each two dollars ($2) collected shall be deposited into the collecting agency's Vital and Health Statistics Trust Fund.

(4) Any local public official that does not establish a local Vital and Health Statistics Trust Fund shall forward the entire two dollars ($2) fee to the State Registrar, who shall deposit the fees into the Vital Record Improvement Project Fund established pursuant to Section 10040.

(5) Fees collected by the State Registrar shall be deposited into the Vital Record Improvement Project Fund established pursuant to Section 10040.

(c) Moneys in each Vital and Health Statistics Trust Fund shall be available to the public official charged with the collection of fees pursuant to this section to defray the administrative costs of collecting and reporting with respect to those fees and for the other costs, as follows:

(1) Modernization of vital record operations, including improvement, automation, and technical support of vital record systems.

(2) Improvement in the collection and analysis of health-related birth and death certificate information, and other community health data collection and analysis, as appropriate.

(d) Funds collected pursuant to this section shall not be used to supplant existing funding which is necessary for the daily operation of vital record systems. It is the intent of the Legislature that funds collected pursuant to this section be used to enhance service to the public, to improve analytical capabilities of state and local health authorities in addressing the health needs of newborn children, maternal health problems, and to analyze the health status of the general population.

(e) Each county shall annually submit a report to the State Registrar by March 1, containing information on the amount of revenues collected pursuant to this section for the previous calendar year and on how the revenues were expended and for what purpose.

(f) This section shall remain in effect only until January 1, 1997, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1997, deletes or extends that date.

(g) It is the intent of the Legislature that the Vital Record Improvement Project be completed by January 1, 1997, and that the one dollar ($1) surcharge used to fund this project be discontinued at that time.

SEC. 3. Section 10605.4 of the Health and Safety Code is amended to read:

10605.4. (a) In addition to the fees prescribed by subdivisions (a) to (d), inclusive, of Section 10605, any applicant for a certified copy of any records described in those subdivisions shall pay an additional fee of one dollar ($1) to the State Registrar. Each local registrar, county recorder, or county clerk collecting the additional fee

pursuant to this section shall transmit the entire fee to the State Registrar by the 10th day of the month following the month in which the fee was received.

(b) This section shall remain in effect only until January 1, 1997, and as of that date is repealed unless a later enacted statute which is enacted before January 1, 1997, deletes or extends that date.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for those costs because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(a) "New motor vehicle" means a new motor vehicle as defined in subparagraph (B) of paragraph (4) of subdivision (e) of Section 1793.2 of the Civil Code.

(b) "Manufacturer" means a new motor vehicle manufacturer, manufacturer branch, distributor, or distributor branch required to be licensed pursuant to Article 1 (commencing with Section 11700) of Chapter 4 of Division 5 of the Vehicle Code.

(c) "Qualified third party dispute resolution process" means a third party dispute resolution process which operates in compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter and which has been certified by the department pursuant to this chapter.

SEC. 4. Section 9889.71 of the Business and Professions Code is amended and renumbered to read:

472.1. The department shall establish a program for certifying each third-party dispute resolution process used for the arbitration of disputes pursuant to paragraph (2) of subdivision (e) of Section 1793.2 of the Civil Code. In establishing the program, the department shall do all of the following:

(a) Prescribe and provide forms to be used to apply for certification under this chapter.

(b) Establish a set of minimum standards which shall be used to determine whether a third-party dispute resolution process is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

(c) Prescribe the information which each manufacturer, or other entity, that operates a third-party dispute resolution process shall provide the department in the application for certification. In prescribing the information to accompany the application for certification, the department shall require the manufacturer, or other entity, to provide only that information which the department finds is reasonably necessary to enable the department to determine whether the third-party dispute resolution process is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

(d) Prescribe the information that each qualified third-party dispute resolution process shall provide the department, and the time intervals at which the information shall be required, to enable the department to determine whether the qualified third-party dispute resolution process continues to operate in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

SEC. 5. Section 9889.72 of the Business and Professions Code is amended and renumbered to read:

472.2. (a) Each manufacturer may establish, or otherwise make available to buyers or lessees of new motor vehicles, a qualified

third-party dispute resolution process for the resolution of disputes pursuant to paragraph (2) of subdivision (e) of Section 1793.2 of the Civil Code. A manufacturer that itself operates the third-party dispute resolution process shall apply to the department for certification of that process. If the manufacturer makes the third-party dispute resolution process available to buyers or lessees of new motor vehicles through contract or other arrangement with another entity, that entity shall apply to the department for certification. An entity that operates a third-party dispute resolution process for more than one manufacturer shall make a separate application for certification for each manufacturer that uses that entity's third-party dispute resolution process. The application for certification shall be accompanied by the information prescribed by the department.

(b) The department shall review the application and accompanying information and, after conducting an onsite inspection, shall determine whether the third-party dispute resolution process is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter. If the department determines that the process is in substantial compliance, the department shall certify the process. If the department determines that the process is not in substantial compliance, the department shall deny certification and shall state, in writing, the reasons for denial and the modifications in the operation of the process that are required in order for the process to be certified.

(c) The department shall make a final determination whether to certify a third-party dispute resolution process or to deny certification not later than 90 calendar days following the date the department accepts the application for certification as complete.

SEC. 6. Section 9889.73 of the Business and Professions Code is amended and renumbered to read:

472.3. (a) The department, in accordance with the time intervals prescribed pursuant to subdivision (d) of Section 9889.71, but at least once annually, shall review the operation and performance of each qualified third-party dispute resolution process and determine, using the information provided the department as prescribed pursuant to subdivision (d) of Section 9889.71 and the monitoring and inspection information described in subdivision (c) of Section 9889.74, whether the process is operating in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter. If the department determines that the process is in substantial compliance, the certification shall remain in effect.

(b) If the department determines that the process is not in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code or this chapter, the department shall issue a notice of decertification to the entity which operates the process and shall send a copy of that notice to any manufacturer

affected by the decertification. The notice of decertification shall state the reasons for the issuance of the notice and prescribe the modifications in the operation of the process that are required in order for the process to retain its certification.

(c) A notice of decertification shall take effect 180 calendar days following the date the notice is served on the manufacturer, or other entity, which uses the process that the department has determined is not in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code or this chapter. The department shall withdraw the notice of decertification prior to its effective date if the department determines, after a public hearing, that the manufacturer, or other entity, which uses the process has made the modifications in the operation of the process required in the notice of decertification and is in substantial compliance with paragraph (3) of subdivision (e) of Section 1793.2 of the Civil Code and this chapter.

SEC. 7. Section 9889.74 of the Business and Professions Code is amended and renumbered to read:

472.4. In addition to any other requirements of this chapter, the department shall do all of the following:

(a) Establish procedures to assist owners or lessees of new motor vehicles who have complaints regarding the operation of a qualified third-party dispute resolution process.

(b) Establish methods for measuring customer satisfaction and to identify violations of this chapter, which shall include an annual random postcard or telephone survey by the department of the customers of each qualified third-party dispute resolution process.

(c) Monitor and inspect, on a regular basis, qualified third-party dispute resolution processes to determine whether they continue to meet the standards for certification. Monitoring and inspection shall include, but not be limited to, all of the following:

(1) Onsite inspections of each qualified third-party dispute resolution process not less frequently than twice annually.

(2) Investigation of complaints from consumers regarding the operation of qualified third-party dispute resolution processes and analyses of representative samples of complaints against each process.

(3) Analyses of the annual surveys required by subdivision (b).

(d) Notify the Department of Motor Vehicles of the failure of a manufacturer to honor a decision of a qualified third-party dispute resolution process to enable the Department of Motor Vehicles to take appropriate enforcement action against the manufacturer pursuant to Section 11705.4 of the Vehicle Code.

(e) Submit a biennial report to the Legislature evaluating the effectiveness of this chapter, make available to the public summaries of the statistics and other information supplied by each qualified third party dispute resolution process, and publish educational materials regarding the purposes of this chapter.

(f) Adopt regulations as necessary and appropriate to implement this chapter and paragraph (3) of subdivision (e) of Section 1793.2

of the Civil Code.

SEC. 8. Section 9889.75 of the Business and Professions Code is amended and renumbered to read:

472.5. The New Motor Vehicle Board in the Department of Motor Vehicles shall, in accordance with the procedures prescribed in this section, administer the collection of fees for the purposes of fully funding the administration of this chapter.

(a) Fees collected pursuant to this section shall be deposited in the Certification Account in the Vehicle Inspection and Repair Fund and shall be available, upon appropriation by the Legislature, exclusively to pay the expenses incurred by the department in administering this chapter and to pay the New Motor Vehicle Board as provided in Section 3016 of the Vehicle Code. If at the conclusion of any fiscal year the amount of fees collected exceeds the amount of expenditures for that purpose during that fiscal year, the surplus in the Certification Account shall be carried over into the succeeding fiscal year.

(b) Beginning July 1, 1988, and on or before May 1 of each calendar year thereafter, every manufacturer shall file with the New Motor Vehicle Board a statement of the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year, and shall, upon written notice delivered to the manufacturer by certified mail, return receipt requested, pay to the New Motor Vehicle Board a fee, not to exceed one dollar ($1) for each motor vehicle sold, leased, or distributed by or for the manufacturer in this state during the preceding calendar year. The total fee paid by each manufacturer shall be rounded to the nearest dollar in the manner described in Section 9559 of the Vehicle Code. Not more than one dollar ($1) shall be charged, collected, or received from any one or more manufacturers pursuant to this subdivision with respect to the same motor vehicle.

(c) (1) The fee required by subdivision (b) is due and payable not later than 30 days after the manufacturer has received notice of the amount due and is delinquent after that time. A penalty of 10 percent of the amount delinquent shall be added to that amount, if the delinquency continues for more than 30 days.

(2) If a manufacturer fails to file the statement required by subdivision (b) by the date specified, the New Motor Vehicle Board shall assess the amount due from the manufacturer by using as the number of motor vehicles sold, leased, or otherwise distributed by or for the manufacturer in this state during the preceding calendar year the total number of new registrations of all motor vehicles sold, leased, or otherwise distributed by or for the manufacturer during the preceding calendar year.

(d) On or before February 1 of each year, the department shall notify the New Motor Vehicle Board of the dollar amount necessary to fully fund the program established by this chapter during the following fiscal year. The New Motor Vehicle Board shall use this

information in calculating the amounts of the fees to be collected from manufacturers pursuant to this section.

(e) For purposes of this section, "motor vehicle" means a new passenger or commercial motor vehicle of a kind that is required to be registered under the Vehicle Code, but the term does not include a motorcycle, a motor home, or any vehicle whose gross weight exceeds 10,000 pounds.

(f) The New Motor Vehicle Board may adopt regulations to implement this section. The regulations shall include, at a minimum, a formula for calculating the fee, established pursuant to subdivision (b), for each motor vehicle and the total amount of fees to be collected from each manufacturer.

SEC. 9. Section 9889.76 of the Business and Professions Code is repealed.

SEC. 10. Section 1793.2 of the Civil Code is amended to read:

1793.2. (a) Every manufacturer of consumer goods sold in this state and for which the manufacturer has made an express warranty shall:

(1) (A) Maintain in this state sufficient service and repair facilities reasonably close to all areas where its consumer goods are sold to carry out the terms of those warranties or designate and authorize in this state as service and repair facilities independent repair or service facilities reasonably close to all areas where its consumer goods are sold to carry out the terms of the warranties.

(B) As a means of complying with this paragraph, a manufacturer may enter into warranty service contracts with independent service and repair facilities. The warranty service contracts may provide for a fixed schedule of rates to be charged for warranty service or warranty repair work. However, the rates fixed by those contracts shall be in conformity with the requirements of subdivision (c) of Section 1793.3. The rates established pursuant to subdivision (c) of Section 1793.3, between the manufacturer and the independent service and repair facility, shall not preclude a good faith discount which is reasonably related to reduced credit and general overhead cost factors arising from the manufacturer's payment of warranty charges direct to the independent service and repair facility. The warranty service contracts authorized by this paragraph shall not be executed to cover a period of time in excess of one year, and may be renewed only by a separate, new contract or letter of agreement between the manufacturer and the independent service and repair facility.

(2) In the event of a failure to comply with paragraph (1) of this subdivision, be subject to Section 1793.5.

(3) Make available to authorized service and repair facilities sufficient service literature and replacement parts to effect repairs during the express warranty period.

(b) Where those service and repair facilities are maintained in this state and service or repair of the goods is necessary because they do not conform with the applicable express warranties, service and

repair shall be commenced within a reasonable time by the manufacturer or its representative in this state. Unless the buyer agrees in writing to the contrary, the goods shall be serviced or repaired so as to conform to the applicable warranties within 30 days. Delay caused by conditions beyond the control of the manufacturer or his representatives shall serve to extend this 30-day requirement. Where delay arises, conforming goods shall be tendered as soon as possible following termination of the condition giving rise to the delay.

(c) The buyer shall deliver nonconforming goods to the manufacturer's service and repair facility within this state, unless, due to reasons of size and weight, or method of attachment, or method of installation, or nature of the nonconformity, delivery cannot reasonably be accomplished. If the buyer cannot return the nonconforming goods for any of these reasons, he or she shall notify the manufacturer or its nearest service and repair facility within the state. Written notice of nonconformity to the manufacturer or its service and repair facility shall constitute return of the goods for purposes of this section. Upon receipt of that notice of nonconformity, the manufacturer shall, at its option, service or repair the goods at the buyer's residence, or pick up the goods for service and repair, or arrange for transporting the goods to its service and repair facility. All reasonable costs of transporting the goods when a buyer cannot return them for any of the above reasons shall be at the manufacturer's expense. The reasonable costs of transporting nonconforming goods after delivery to the service and repair facility until return of the goods to the buyer shall be at the manufacturer's expense.

(d) (1) Except as provided in paragraph (2), if the manufacturer or its representative in this state does not service or repair the goods to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either replace the goods or reimburse the buyer in an amount equal to the purchase price paid by the buyer, less that amount directly attributable to use by the buyer prior to the discovery of the nonconformity.

(2) If the manufacturer or its representative in this state is unable to service or repair a new motor vehicle, as that term is defined in subparagraph (B) of paragraph (4) of subdivision (e), to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either promptly replace the new motor vehicle in accordance with subparagraph (A) or promptly make restitution to the buyer in accordance with subparagraph (B). However, the buyer shall be free to elect restitution in lieu of replacement, and in no event shall the buyer be required by the manufacturer to accept a replacement vehicle.

(A) In the case of replacement, the manufacturer shall replace the buyer's vehicle with a new motor vehicle substantially identical to the vehicle replaced. The replacement vehicle shall be accompanied by all express and implied warranties that normally

accompany new motor vehicles of that specific kind. The manufacturer also shall pay for, or to, the buyer the amount of any sales or use tax, license fees, registration fees, and other official fees which the buyer is obligated to pay in connection with the replacement, plus any incidental damages to which the buyer is entitled under Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(B) In the case of restitution, the manufacturer shall make restitution in an amount equal to the actual price paid or payable by the buyer, including any charges for transportation and manufacturer-installed options, but excluding nonmanufacturer items installed by a dealer or the buyer, and including any collateral charges such as sales tax, license fees, registration fees, and other official fees, plus any incidental damages to which the buyer is entitled under Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(C) When the manufacturer replaces the new motor vehicle pursuant to subparagraph (A), the buyer shall only be liable to pay the manufacturer an amount directly attributable to use by the buyer of the replaced vehicle prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. When restitution is made pursuant to subparagraph (B), the amount to be paid by the manufacturer to the buyer may be reduced by the manufacturer by that amount directly attributable to use by the buyer prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. The amount directly attributable to use by the buyer shall be determined by multiplying the actual price of the new motor vehicle paid or payable by the buyer, including any charges for transportation and manufacturer-installed options, by a fraction having as its denominator 120,000 and having as its numerator the number of miles traveled by the new motor vehicle prior to the time the buyer first delivered the vehicle to the manufacturer or distributor, or its authorized service and repair facility for correction of the problem that gave rise to the nonconformity. Nothing in this paragraph shall in any way limit the rights or remedies available to the buyer under any other law.

(e) (1) It shall be presumed that a reasonable number of attempts have been made to conform a new motor vehicle to the applicable express warranties if, within one year from delivery to the buyer or 12,000 miles on the odometer of the vehicle, whichever occurs first, either (A) the same nonconformity has been subject to repair four or more times by the manufacturer or its agents and the buyer has at least once directly notified the manufacturer of the need for the repair of the nonconformity or (B) the vehicle is out of service by reason of repair of nonconformities by the manufacturer

or its agents for a cumulative total of more than 30 calendar days since delivery of the vehicle to the buyer. The 30-day limit shall be extended only if repairs cannot be performed due to conditions beyond the control of the manufacturer or its agents. The buyer shall be required to directly notify the manufacturer pursuant to subparagraph (A) only if the manufacturer has clearly and conspicuously disclosed to the buyer, with the warranty or the owner's manual, the provisions of this subdivision and that of subdivision (d), including the requirement that the buyer must notify the manufacturer directly pursuant to subparagraph (A). This presumption shall be a rebuttable presumption affecting the burden of proof, and it may be asserted by the buyer in any civil action, including an action in small claims court, or other formal or informal proceeding.

(2) If a qualified third-party dispute resolution process exists, and the buyer receives timely notification in writing of the availability of that qualified third-party dispute resolution process with a description of its operation and effect, the presumption in paragraph (1) may not be asserted by the buyer until after the buyer has initially resorted to the qualified third-party dispute resolution process as required in paragraph (3). Notification of the availability of the qualified third-party dispute resolution process is not timely if the buyer suffers any prejudice resulting from any delay in giving the notification. If a qualified third-party dispute resolution process does not exist, or if the buyer is dissatisfied with that third-party decision, or if the manufacturer or its agent neglects to promptly fulfill the terms of the qualified third-party dispute resolution process decision after the decision is accepted by the buyer, the buyer may assert the presumption provided in paragraph (1) in an action to enforce the buyer's rights under subdivision (d). The findings and decision of a qualified third-party dispute resolution process shall be admissible in evidence in the action without further foundation. Any period of limitation of actions under any federal or California laws with respect to any person shall be extended for a period equal to the number of days between the date a complaint is filed with a third-party dispute resolution process and the date of its decision or the date before which the manufacturer or its agent is required by the decision to fulfill its terms if the decision is accepted by the buyer, whichever occurs later.

(3) A qualified third-party dispute resolution process shall be one that does all of the following:

(A) Complies with the minimum requirements of the Federal Trade Commission for informal dispute settlement procedures as set forth in Part 703 of Title 16 of the Code of Federal Regulations, as those regulations read on January 1, 1987.

(B) Renders decisions which are binding on the manufacturer if the buyer elects to accept the decision.

(C) Prescribes a reasonable time, not to exceed 30 days after the decision is accepted by the buyer, within which the manufacturer or

its agent must fulfill the terms of its decisions.

(D) Provides arbitrators who are assigned to decide disputes with copies of, and instruction in, the provisions of the Federal Trade Commission's regulations in Part 703 of Title 16 of the Code of Federal Regulations as those regulations read on January 1, 1987, Division 2 (commencing with Section 2101) of the Commercial Code, and this chapter.

(E) Requires the manufacturer, when the process orders, under the terms of this chapter, either that the nonconforming motor vehicle be replaced if the buyer consents to this remedy or that restitution be made to the buyer, to replace the motor vehicle or make restitution in accordance with paragraph (2) of subdivision (d).

(F) Provides, at the request of the arbitrator or a majority of the arbitration panel, for an inspection and written report on the condition of a nonconforming motor vehicle, at no cost to the buyer, by an automobile expert who is independent of the manufacturer.

(G) Takes into account, in rendering decisions, all legal and equitable factors, including, but not limited to, the written warranty, the rights and remedies conferred in regulations of the Federal Trade Commission contained in Part 703 of Title 16 of the Code of Federal Regulations as those regulations read on January 1, 1987, Division 2 (commencing with Section 2101) of the Commercial Code, this chapter, and any other equitable considerations appropriate in the circumstances. Nothing in this chapter requires that, to be certified as a qualified third-party dispute resolution process pursuant to this section, decisions of the process must consider or provide remedies in the form of awards of punitive damages or multiple damages, under subdivision (c) of Section 1794, or of attorney's fees under subdivision (d) of Section 1794, or of consequential damages other than as provided in subdivisions (a) and (b) of Section 1794, including, but not limited to, reasonable repair, towing, and rental car costs actually incurred by the buyer.

(H) Requires that no arbitrator deciding a dispute may be a party to the dispute and that no other person, including an employee, agent, or dealer for the manufacturer, may be allowed to participate substantively in the merits of any dispute with the arbitrator unless the buyer is allowed to participate also. Nothing in this paragraph prohibits any member of an arbitration board from deciding a dispute.

(I) Obtains and maintains certification by the Department of Consumer Affairs pursuant to Chapter 9 (commencing with Section 472) of Division 1 of the Business and Professions Code.

(4) For the purposes of subdivision (d) and this subdivision the following terms have the following meanings:

(A) "Nonconformity" means a nonconformity which substantially impairs the use, value, or safety of the new motor vehicle to the buyer or lessee.

(B) "New motor vehicle" means a new motor vehicle which is

used or bought for use primarily for personal, family, or household purposes. "New motor vehicle" includes the chassis, chassis cab, and that portion of a motor home devoted to its propulsion, but does not include any portion designed, used, or maintained primarily for human habitation, a dealer-owned vehicle and a "demonstrator" or other motor vehicle sold with a manufacturer's new car warranty but does not include a motorcycle or a motor vehicle which is not registered under the Vehicle Code because it is to be operated or used exclusively off the highways. A "demonstrator" is a vehicle assigned by a dealer for the purpose of demonstrating qualities and characteristics common to vehicles of the same or similar model and type.

(C) "Motorhome" means a vehicular unit built on, or permanently attached to, a self-propelled motor vehicle chassis, chassis cab, or van, which becomes an integral part of the completed vehicle, designed for human habitation for recreational or emergency occupancy.

(5) (A) Except as provided in subparagraph (B), no person shall sell, either at wholesale or retail, lease, or transfer a motor vehicle transferred by a buyer or lessee to a manufacturer pursuant to paragraph (2) of subdivision (d) or a similar statute of any other state, unless the nature of the nonconformity experienced by the original buyer or lessee is clearly and conspicuously disclosed to the prospective buyer, lessee, or transferee, the nonconformity is corrected, and the manufacturer warrants to the new buyer, lessee, or transferee in writing for a period of one year that the motor vehicle is free of that nonconformity.

(B) Except for the requirement that the nature of the nonconformity be disclosed to the transferee, subparagraph (A) does not apply to the transfer of a motor vehicle to an educational institution if the purpose of the transfer is to make the motor vehicle available for use in automotive repair courses.

CHAPTER 690

An act to amend Section 19599 of the Business and Professions Code, relating to horseracing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 19599 of the Business and Professions Code is amended to read:

19599. (a) The board shall not approve any form of wagering on more than one race unless all such races are conducted on the same

racing program.

(b) Notwithstanding any other provision of law, each racing association or fair shall include the types of conventional and exotic wagers it proposes to offer on its application to conduct a horseracing meeting. An association or fair may offer any form of parimutuel wager as defined by regulations adopted by the board, or as defined by Chapter 9, Pari-Mutuel Wagering, Uniform Rules of Racing, as published by the Association of Racing Commissioners International. The board may prohibit any form of parimutuel wager if it determines that the proposed wager would compromise the honesty and integrity of racing in the state.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the horseracing industry to respond more quickly to changing fan preferences for types of wagers and in order to realize additional state revenues from new types of wagers as soon as possible, it is necessary for this act to take effect immediately.

CHAPTER 691

An act to add and repeal Section 7040.1 of the Business and Professions Code, relating to contractors, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 7040.1 is added to the Business and Professions Code, to read:

7040.1. (a) Notwithstanding any other provision of law, this chapter does not apply to nonprofit organizations providing weatherization services at no cost to households under federally funded low-income programs administered by the Department of Economic Opportunity. Such a nonprofit organization may, therefore, contract any activities covered by federally funded Department of Economic Opportunity programs to properly licensed contractors, subject to the condition that it contracts with a properly licensed contractor when an activity would disturb a hazardous material, or would constitute asbestos-related work as defined by Section 6501.8 of the Labor Code.

(b) This section shall only be in effect until January 1, 1996, and on that date is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1996, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

If this act does not take effect immediately, low-income weatherization services currently provided through the Department of Economic Opportunity programs may be terminated due to lack of compliance with Section 7040 of the Business and Professions Code which could result in disallowed costs to the state in the amount of between $10 million and $20 million as of June 30, 1991.

CHAPTER 692

An act relating to female prisoners.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) The Department of Corrections estimates that the number of female prisoners will reach 10,250 in 1996. Although a significant number of these prisoners will be housed in new facilities, the department will continue to rely on the California Institution for Women (CIW) to house more female prisoners than its design capacity. CIW's designed bed capacity of 1,026 currently houses almost 2,000 female prisoners and has housed as many as 2,700. At present, most female prisoners who are experiencing serious medical problems are housed at the CIW.

(b) The female population presents medical issues that differ significantly from that of the male population.

(1) About 95 percent of the female prisoners are of childbearing age. In 1990, most of the 271 CIW prisoners gave birth. The medical history of these prisoners places them within the risk pregnancy category. Medical complications have been noted in 85 percent of all pregnancies at CIW.

(2) More than 80 percent of the new admissions of female prisoners from 1987 through 1989 had drug histories. Female felon new admissions are more likely to have a history of serious drug abuse than male felon new admissions.

(3) The number of identified HIV disease cases among female prisoners has grown from seven cases in March 1988 to 31 cases in August 1990. The department projects 121 active identified cases by 1996.

(4) The number of female prisoners over the age of 60 years has increased over the last five years.

These populations require greater health care services than the

general prison population, including services provided by a licensed health care facility.

(c) The CIW maintains and operates an institution-based health care facility that is not licensed by the State Department of Health Services, and is in need of physical repair and renovation.

(d) The licensure of the CIW health care facilities has been delayed pending publication of enabling regulations for the licensure category of the "Correctional Treatment Center." The enabling statute contains a sunset provision, effective January 1, 1993.

SEC. 2. (a) To assure that the appropriate health care services are available to address the needs of female prisoners and to assure that the Department of Corrections accelerates its planning for female prisoner health care, a Women's Health Issues Task Force is hereby established within the Department of Corrections. The purpose of the task force shall be to identify female health care issues, identify solutions to identified health care needs, and assist the department in the preparation of a five-year Female Prisoner Health Care Master Plan. This plan shall include a female health needs assessment analysis, including an analysis of the necessary medical staff, an analysis of the appropriate licensure categories, and proposals for facilities necessary to provide effective female health care in a correctional setting. The plan shall contain timetables and funding alternatives and shall consider the needs of individual institutions as well as departmentwide issues.

(b) The department shall appoint sufficient medical experts on female health issues to the task force to facilitate development and production of the plan. At a minimum, the department shall appoint to the task force representatives of public health organizations specializing in female health issues and appropriate representatives of the State Department of Health Services and the California Medical Association specializing in prisoner health care. The task force shall also include a representative designated by the Blue Ribbon Commission on Women in California Prisons established by Senate Concurrent Resolution 33 of the 1991–92 Regular Session of the Legislature. The Senate Committee on Rules and the Speaker of the Assembly shall submit to the Department of Corrections appointment recommendations for the task force. The membership of the task force shall be broadly reflective of the general public including ethnic minorities and women. Appointments shall also include persons with medical expertise in the following areas:

(1) Obstetrics and gynecology care for female prisoners.

(2) Care and treatment of females with AIDS and who are HIV positive.

(3) Issues affecting elderly females.

(4) Diseases disproportionately affecting people of color, including, but not limited to, hypertension, diabetes, and sickle-cell anemia.

(5) Psychological issues affecting institutionalized and incarcerated females.

(6) Licensure and accrediting of health care facilities issues.

(c) The department shall report to the Legislature on or before December 31, 1992, the findings of the task force. Upon completing the five-year Female Prisoner Health Care Master Plan, the department shall report to the Legislature annually, on the department's progress in meeting the goals established by the plan.

(d) This section shall remain in effect only until January 1, 1993, and as of that date is repealed.

SEC. 3. It is the intent of the Legislature that the provisions of this act work in concert with the provisions of Senate Concurrent Resolution 33 of the 1991–92 Regular Session.

CHAPTER 693

An act to add and repeal Chapter 6 (commencing with Section 99250) to Part 65 of the Education Code, relating to postsecondary education.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 99250) is added to Part 65 of the Education Code, to read:

CHAPTER 6. GOVERNOR'S PROFESSOR OF THE YEAR AWARDS

99250. The Governor's Professor of the Year Awards shall be awarded annually to three or more faculty members teaching undergraduate courses at public or private postsecondary educational institutions who demonstrate exceptional teaching performance.

99251. Each public or private postsecondary educational institution is eligible to nominate one faculty member for these awards each year.

99252. The Governor, with the assistance of the California Postsecondary Education Commission, shall establish a committee to select the recipients of the Governor's Professor of the Year Awards. The committee shall consist of representatives of the Governor, the Legislature, the commission, the academic senates, and appropriate civic, business, academic, and student organizations. The committee shall develop specific criteria and guidelines to be used in selecting the recipients of the Governor's Professor of the Year Awards.

99253. Each recipient of the award shall receive a citation and a payment of five thousand dollars ($5,000). The Governor shall host an appropriate ceremony at which the awards shall be presented to the recipients.

99254. The commission shall seek funding for these awards through contributions from the private corporate sector. Working in cooperation with the committee, the commission shall prepare a biennial report describing specific examples of successful innovative teaching strategies being used by undergraduate faculty in public and private postsecondary educational institutions in California.

99255. The Governor's Professor of the Year Awards shall be awarded commencing in 1992, and every year thereafter.

99256. This chapter shall become inoperative on June 30, 1997, and, as of January 1, 1998, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1998, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. It is the intent of the Legislature, in enacting Chapter 6 (commencing with Section 99250) of Part 65 of the Education Code, to foster quality in undergraduate education. As the Legislature's Joint Committee for Review of the Master Plan for Higher Education concluded in 1989, "absolutely central to any hope for quality undergraduate education must be an uncompromising commitment to excellence in undergraduate teaching."

These sanctions shall include, but need not be limited to, a moratorium on new referrals, imposition of a corrective plan as specified in regulations, removal of consumers from a service area where dangerous conditions or abusive conditions exist, and termination of approval for habilitation funding.

(2) A moratorium on new referrals shall be the first formal sanction to be taken except in instances where consumers are at imminent risk of abuse or other harm. The moratorium shall be in place only until the conditions cited are corrected as determined by the habilitation specialist.

(3) A corrective plan shall be the second formal sanction to be taken in the event the moratorium does not produce timely results. Noncompliance with the conditions and timelines of the corrective plan shall result in termination of approval for habilitation funding.

(4) Removal of consumers from a program shall only take place where dangerous or abusive conditions are present, or upon termination of approval for habilitation funding. In instances of removal for health and safety reasons, consumers may return, at their option, when the corrections are made by the program, as determined by the department.

(5) Any provider sanctioned under paragraph (2), (3), or (4) may request an administrative review.

(A) The sanctioned provider shall submit its request for an administrative review, in writing, no later than 30 calendar days following written notice from the department on the sanctions imposed. the sanctions should not be imposed and shall include supporting documentation. The department shall convene a Habilitation Services Program administrative review committee within 30 calendar days of receipt of a timely written request for an administrative review. The committee shall be made up of the Chief Deputy Director of the Department of Rehabilitation and the deputy directors or their designees. A written decision of the committee shall be mailed to the appellant within 15 working days of the administrative review.

(B) A provider sanctioned under paragraph (4) may also request an expedited administrative review from the Deputy Director of the Program Management and Support Division of the Department of Rehabilitation. The expedited review request shall be made by 4 p.m. of the first full-working day following removal of the consumers. A telephone request to the deputy, or his or her designee, stating a wish to appeal the removal of consumers and a statement of reasons shall be accepted when followed by written confirmation received in the deputy director's office no later than five working days after the action to remove consumers is taken. The expedited administrative review by the deputy director, or his or her designee, shall take place within five working days of receipt of a timely request. A written decision shall be issued within five working days of the expedited administrative review. The provider sanctioned under paragraph (4) may exercise the administrative review procedure referenced in subparagraph (A) in lieu of, or in addition to, the expedited administrative review. In the event both options are exercised, the regular administrative review shall serve as a second level review.

SEC. 12. Section 19354.8 of the Welfare and Institutions Code is amended to read:

19354.8. Each work-activity program facility shall annually review its consumers in order to determine whether these individuals should be referred for vocational rehabilitation services, including supported employment.

SEC. 13. Section 19355 of the Welfare and Institutions Code is amended to read:

19355. (a) The department shall purchase those habilitation services which it determines to be necessary in the individual habilitation component of the individual program plan for eligible adults with developmental disabilities from accredited community nonprofit agencies providing work-activity services or supported employment services, or both.

(b) Habilitation services shall continue as long as reasonable progress is being made toward achieving objectives of the individual habilitation component or as long as these services are determined by the habilitation team to be necessary to maintain the current level of functioning of the person.

(c) It is the intent of the Legislature that all persons receiving services at the end of any fiscal year shall be continued in service as identified in the habilitation component of the individual program

plan in the subsequent fiscal year.

SEC. 14. Section 19356 of the Welfare and Institutions Code is amended to read:

19356. (a) The department shall promulgate regulations to establish rates subject to the approval of the Department of Finance. The regulations shall provide for an equitable ratesetting procedure in which each specific allowable service, activity, and provider administrative cost comprising an overall habilitation service, as determined by the department, reflects the reasonable cost of service. Reasonable costs shall be determined annually by the department, subject to audit at the discretion of the department.

(b) Notwithstanding subdivision (a), commencing July 1, 1988, the department shall set rates for work-activity program facilities based on the following premises and methodology:

(1) Work-activity program facilities shall be grouped into four categories, as follows:

(A) Three categories shall be determined by the size of client attendance:

(i) Category A, including client attendance of not more than 30.

(ii) Category B, including client attendance of more than 30 but not more than 100.

(iii) Category C, including client attendance of more than 100.

Client attendance for categories "A," "B," and "C" shall be determined by dividing the number of habilitation days billed in the previous historical year, as specified in regulations adopted pursuant to subdivision (a), by the number of billable days in that year.

(B) One category shall be determined by the primary purpose of the work-activity program:

(i) Category D, consisting of all facilities, without regard to client attendance, which the department approves to provide services to clients with special needs.

(2) (A) Notwithstanding other provisions of this subdivision, the department shall redetermine the size of each facility in categories A, B, and C annually, using the methodology specified in paragraph (1). If a facility's client attendance size changes, resulting in changing that facility to a new category, the department shall adjust its rate, using the methodology prescribed in paragraph (3), the existing cost statement, and the gross weighted average of the category of the facility's new category.

(B) The redetermination of facility size and rate adjustments based on facility size shall be suspended for the 1991–92 fiscal year.

(3) The department shall compute the gross weighted average of each category of work-activity program, based on cost statements submitted biennially in the form specified in regulations adopted pursuant to subdivision (a). The rate for the two payment years following that computation, except as provided in paragraphs (2) and (5), and except for any annual cost of living adjustments contained in the annual Budget Act, for each individual facility shall be set at the highest of the following three options:

(A) (i) Option A: the net to gross of each facility, which shall be the ratio of the daily net cost, or the cost excluding recoveries, as specified in regulations adopted pursuant to subdivision (a), to the daily gross cost, or the cost including recoveries. The net to gross ratio multiplied by the gross weighted average of the respective category multiplied by 95 percent shall be the Option A rate for each facility in all categories.

(ii) Beginning July 1, 1990, Option A shall be the net to gross multiplied by the gross weighted average of the respective category for each facility in all categories.

(B) (i) Option B for all facilities other than category D facilities: the individual new cost statement rate multiplied by 95 percent.

(ii) Option B for category D facilities: the individual new cost statement rate.

(C) Option C:

(i) For facilities in categories A, B, and C when the net to gross of the new cost statement is lower than the net to gross of the previous cost statement: the individual rate paid in the 1987–88 fiscal year, less the product of the individual rate paid in the 1987–88 fiscal year multiplied by the difference of the net to gross ratios between the previous cost statement and the new cost statement, multiplied by 90 percent.

(ii) For facilities in categories A, B, and C when the net to gross of the new cost statement is equal to, or higher than, the net to gross of the previous cost statement: the product of the individual rate paid in the 1987–88 fiscal year multiplied by 90 percent.

(iii) For facilities in category D: the same methodology specified in subparagraphs (i) and (ii), except the percentage factor shall be 100 percent.

(iv) Option C shall be operative only until July 1, 1990.

(4) The gross weighted average specified in paragraph (3) shall be determined by using the cost statements submitted by facilities in the 1987–88 fiscal year pursuant to regulations adopted pursuant to subdivision (a), to determine the daily gross rate for each facility for each category. The daily gross rate of each facility in the same category shall be multiplied by the number of client attendance days to determine the program cost of that facility. The gross weighted average of each category shall be the quotient of the sum of the total program costs and the total days attended, of all facilities in the same category. The department shall biennially reset the gross weighted average and the rate options specified in paragraph (3), using new cost statements.

(5) (A) The department shall make no rate adjustments other than those specified in paragraph (2), those rate adjustments based on the loss of subsidized staff, and cost-of-living adjustments contained in the Budget Act.

(B) The department shall reset the rate due to the loss of subsidized staff only for the individual facility which incurs the loss, and only in the following circumstances:

(i) The facility is receiving a rate which is less than the gross weighted average of its category.

(ii) The facility has hired or retained staff to maintain the staffing level specified in regulations adopted pursuant to subdivision (a).

(iii) The adjusted rate due to loss of subsidized staff shall not exceed the gross weighted average of its category, and shall become effective on the following July 1.

(6) The department may adopt regulations in addition to those adopted pursuant to subdivision (a), after consultation with the California Association of Rehabilitational Facilities and the Association for Retarded Citizens-California, or any advisory groups which are successors to those groups that represent work-activity programs, which set forth further policies and procedures and staffing and performance standards for work-activity programs. The department shall meet at least semiannually with those provider advisory groups to review and make recommendations regarding implementation of this subdivision.

(7) This subdivision shall become inoperative July 1, 1996.

SEC. 15. Section 19356.5 of the Welfare and Institutions Code is amended to read:

19356.5. (a) The department may approve new work-activity programs, after confirming the need for a new work-activity program, determining the capacity of a new work-activity program to deliver effective services, and assessing the ability of the program to comply with accreditation requirements of the Habilitation Services Program, when applicable.

(b) Work-activity programs or program components that receive the department's approval to provide supported employment services shall receive rates in accordance with Section 19356.6.

(c) (1) Any other new program or program component, including that which has as its primary purpose the provision of specialized services to meet the needs of particular groups shall receive the gross weighted average of its respective category.

(2) As soon as the new work-activity facility has a historical period of not less than three months that is representative of the cost per consumer, as determined by the department, the department shall set the rate in accordance with subparagraphs (A), (B), and (C) of paragraph (3) of subdivision (b) of Section 19356, using the gross weighted average for the appropriate category.

(3) This subdivision shall remain operative only until July 1, 1996.

(d) Notwithstanding Section 19355, the department may purchase services from new work-activity programs or program components, even though the program or program component is not yet accredited by the Commission on Accreditation of Rehabilitation Facilities if all of the following apply:

(1) The department can verify that the program or program component is in compliance with accreditation standards adopted by the department.

(2) (A) The program or program component commits, in

writing, to apply for accreditation by the Commission on Accreditation of Rehabilitation Facilities within three years of the purchase of the services by the Habilitation Services Program.

(B) The commission shall accredit a program or program component within four years after the program or program component has applied pursuant to subparagraph (A).

SEC. 16. Section 19356.6 of the Welfare and Institutions Code is amended to read:

19356.6. (a) The definitions contained in this subdivision shall govern the construction of this section, with respect to services provided through the Habilitation Service Program, and unless the context requires otherwise, shall have the following meanings:

(1) "Supported employment" means substantial paid work that is integrated in the community for persons with developmental disabilities whose vocational handicap is so severe that they would be unable to achieve this employment without specialized services and would not be able to retain this employment without an appropriate level of ongoing postemployment support services.

(2) "Substantial paid work" means work of at least 20 hours per week which is paid for in accordance with applicable standards set forth by the Department of Labor and the State Department of Industrial Relations.

(3) "Integrated work" means the engagement of an employee with a disability in work in a natural community employment setting, including, but not limited to, groups and individual placements, in which the degree of integration is measured by the extent to which the disabled employee has opportunities to interact with nondisabled individuals other than those providing direct support services to the disabled employee.

(4) "Group placement" means the engagement of a group containing at least three, but not more than eight, persons with developmental disabilities in paid work in an integrated work setting in the community, usually at employer sites, and which represents a minority of the employer's workforce.

(5) "Individual placement" means placing a person with a developmental disability with an employer in the community and providing specialized services which are intended to lead to employer-paid and employer-supervised employment, and where services decrease as the individual adjusts to the job; and ongoing postemployment services necessary for the individual to retain the job.

(6) "Allowable supported employment services" means the services approved in the individual habilitation component and provided, to the extent allowed by the Habilitation Services Program, for the purpose of achieving supported employment as an outcome for persons with developmental disabilities, which may include any of the following:

(A) Program staff time spent conducting task analysis on a supported employment opportunity for a specific consumer or group

of consumers.

(B) Program staff time spent in the direct supervision or training of a consumer or consumers while they are engaged in integrated work designed to achieve supported employment unless other arrangements for client supervision, such as employer supervision reimbursed by the work-activity program, are approved by the Habilitation Services Program.

(C) Social skills training which is necessary to ensure job adjustment and retention, and which is provided in an integrated setting, unless otherwise approved by the Habilitation Services Program.

(D) Training in certain independent living skills, such as independent travel or money management, which is necessary to ensure job adjustment and retention and which is provided in the community, unless otherwise approved by the Habilitation Services Program.

(E) Counseling with family, care providers, or others to ensure necessary support to consumers' job adjustment or to overcome problems affecting their job performance.

(F) Direct action to advocate on behalf of a consumer to resolve problems affecting the consumer's work adjustment or retention of an integrated job.

(G) Intervention with the employer to review a consumer's job performance, resolve job problems or facilitate the employer's hiring of the consumer as an employee.

(H) In the case of groups which must take equipment or materials to and from the worksite, the time the group members spend preparing for, and ending, the day's work.

(I) In the case of individual placements, job development to the extent authorized by the Habilitation Services Program, and ongoing postemployment support services needed to ensure the consumer's retention of the job.

(J) In the case of groups, the staff time spent obtaining and arranging the jobsite for a specific group of consumers.

(b) (1) Notwithstanding subdivision (c) of Section 19353, the department's habilitation services and vocational rehabilitation programs may mutually serve individuals whose individual written rehabilitation program provides for placement into supported employment, or who are participating in vocational rehabilitation extended evaluation services.

(2) Section 19351 shall not be interpreted to limit the authority provided by this subdivision to mutually serve consumers.

(c) (1) The Habilitation Services Program shall set hourly rates for supported employment services provided in accordance with this section. The Habilitation Services Program shall apply those rates to those work-activity programs or program components of work-activity programs approved by the department to provide community-integrated services under former paragraph (3) of subdivision (d) of Section 19356.5, and to new programs or

components approved by the Habilitation Services Program to provide supported employment services following enactment of this section. Both of these categories of programs or components shall be required to comply with the criteria set forth in subdivision (b) of Section 19356.7 to receive approval from the Habilitation Services Program.

(2) The hourly rate for work crews and enclaves shall be four dollars ($4) per client or, in the case of new components of existing programs, the work-activity program's daily rate converted to an hourly rate according to the formula set forth in subdivision (d), whichever hourly rate is the higher. In addition, the Habilitation Services Program may, at its discretion, negotiate a higher hourly rate for work crews or enclaves, based upon a submitted budget that is approved by the Habilitation Services Program, when there is documentation that demonstrates a need for a higher rate because of the nature and severity of the disabilities of the clients served or unique local needs, as determined by the Habilitation Services Program. All negotiated rate increases based on unique local needs shall be contingent upon review and approval by the Department of Finance.

(3) The hourly rate for individual placement shall be twenty dollars ($20) per consumer for one-to-one services. If more than one client is receiving placement services simultaneously at the same site, the amount to be reimbursed per hour of service provided shall not exceed twenty dollars ($20) regardless of the number of consumers receiving service during the hour.

(4) These hourly rates shall be subject to rate adjustments provided by law commencing with the 1987–88 fiscal year.

(5) (A) Commencing July 1, 1991, the department shall add to each supported employment program rate an amount that is the equivalent of the hourly reimbursement received by the program for administrative services delivered during the period of July 1, 1990, to March 31, 1991, inclusive.

(B) For programs approved after July 1, 1991, pursuant to Section 19356.7, the statewide average for hourly reimbursement for administrative services shall be applied to the rate.

(d) (1) When a consumer receives traditional work-activity services and supported employment services during the same payment period, the Habilitation Services Program shall convert the daily rate for the traditional work-activity services into an hourly rate for the purpose of paying for those traditional work-activity services received by that consumer. In its conversion of the daily rate into any hourly rate the Habilitation Services Program shall use the formula in paragraph (2).

(2) The daily rate of the work-activity program shall be divided by the number of hours in the program day of the traditional work-activity program during the historical period on which its rate is based, or as of the date the Habilitation Services Program approved the work-activity program as a new provider of habilitation services

plus 5 percent.

(e) This section shall become inoperative on October 1, 1996, and, as of January 1, 1997, is repealed "unless a later enacted statute" which becomes effective on or before January 1, 1997, deletes or extends the dates on which it becomes inoperative and is repealed.

(2) The capacity of the program to deliver supported employment services effectively.

(3) The ability of the program to comply with accreditation requirements of the Habilitation Services Program.

(4) A profile of an average consumer in the program or component, showing the planned progress toward self-reliance as an employee, measured, as appropriate, in terms of decreasing support services.

(5) The ability of the program to achieve integrated substantial paid work on the average for consumers served.

(c) The Habilitation Services Program may purchase supported employment services at the rates authorized in Section 19356.6 only from supported employment programs or components approved under this section.

(d) For purposes of evaluating the effectiveness of the entire program, and individual supported employment programs or components, the Habilitation Services Program may monitor supported employment programs or components to determine whether the performance agreed upon in the approved proposal is being achieved. When the performance of a supported employment program or component does not comply with the criteria according to which it was approved for funding pursuant to subdivision (b), the Habilitation Services Program may establish prospective performance criteria for the program or component, with which the program or component shall comply as a condition of continued funding.

(e) The department may adopt the regulations it deems necessary to implement Sections 19352, 19356.6, and this section.

(f) This section shall become inoperative on October 1, 1996, and, as of January 1, 1997, is repealed unless a later enacted statute which becomes effective on or before January 1, 1997, deletes or extends the

dates on which it becomes inoperative and is repealed.

(2) (A) A work-activity program may, by prior written approval of the department, change the length of a work-activity program day.

(B) If the department approves a reduction in the work-activity program day pursuant to subparagraph (A), the department may change the habilitation services rate.

(c) (1) A work-activity program may change the length of a work-activity program day on an individual basis in order to meet the needs of the consumer, if the habilitation specialist approves the reason or reasons for the change.

(2) The work-activity program shall document the reasons for any change in a work-activity program day on an individual basis.

SEC. 20. Section 19358.5 is added to the Welfare and Institutions Code, to read:

Any state agency, city or county, political subdivision, or district of this state may, without advertising or calling for bids, purchase materials and supplies manufactured and services provided by public or private nonprofit California corporations operating rehabilitation facilities serving persons with disabilities who have indicated an interest in supplying those goods and services and may, on an equitable basis apportion the business among the interested rehabilitation facilities, provided the goods or services meet the specifications and needs of the purchasing agency and are purchased at a fair market price, as determined by the appropriate state or local agency and provided that the public or private nonprofit California corporations comply with all of the following requirements:

(a) (1) Contract work obtained under this section shall be performed by a labor force which is comprised primarily of persons with disabilities, as measured by the percentage of person-hours of direct labor devoted to the contract work.

(7) Abide by the provisions of the Federal Fair Labor Standards Act, the Walsh-Healy Public Contract Act, the Wagner O'Day Act, and the regulations of the State Division of Industrial Welfare.

(b) For purposes of this section a "disabled person" means any person (other than a blind person) who is so severely incapacitated by any physical or mental disability that he or she cannot currently engage in normal competitive employment because of the disability.

SEC. 23. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to timely implement, for the 1991–92 fiscal year, policy changes designed to protect vulnerable consumers with developmental disabilities, to help meet the serious anticipated budget deficit for the 1991–92 fiscal year, to suspend for one year the rate increases required by paragraph (2) of subdivision (b) of Section 19356 of the Welfare and Institutions Code, to allow budget funds to be applied against the unallocated "trigger" reduction, and to avert additional program reductions, it is necessary that this act take effect immediately.

to cross-examination. The commission shall afford each of these electricity demand models or forecasts the evidentiary weight it determines appropriate. Nothing in this subdivision requires the State Energy Resources Conservation and Development Commission to approve or adopt any electricity demand model or forecast.

(b) Any testimony presented in a hearing or proceeding before the commission that is based in whole, or in part, on a computer model shall include a listing of all the equations and assumptions built into the model.

(d) The commission shall adopt rules and procedures to meet the requirements specified in subdivisions (a), (b), and (c). These rules shall include procedural safeguards that protect data bases and models not owned by the public utility.

(e) The commission shall establish appropriate procedures for determining the appropriate level of compensation for a party's access.

(f) Each party shall have access to the computer programs and models of each other party to the extent provided by Section 1822. The commission shall not require a utility to provide a remote terminal or other direct physical link to the computer systems of a utility to a third party.

(g) The commission shall verify, validate, and review the computer models of any electric corporation that are used for the purpose of planning, operating, constructing, or maintaining the corporation's electricity transmission system, and that are the basis for testimony and exhibits in hearings and proceedings before the commission.

(h) The transmission computer models shall be available to, and subject to verification by, each party to a commission proceeding in accordance with subdivision (a) of Section 1822, and regulations adopted pursuant to subdivision (d) of Section 1822.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

84202.3. (b) This section shall not apply to a committee during any semiannual period in which the committee is required to file preelection statements pursuant to subdivision (a), (b), or (c) of Section 84200.5.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 3. The Legislature finds and declares that this act furthers the purposes of the Political Reform Act of 1974 within the meaning of subdivision (a) of Section 81012 of the Government Code.

CHAPTER 697

An act to amend Sections 224.36, 224.50, 224.73, and 229.60 of, and to add and repeal Section 224.45 to, the Civil Code, and to amend Section 1522.4 of the Health and Safety Code, relating to adoptions, and declaring the urgency thereof, to take effect immediately as an urgency statute.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 224.36 of the Civil Code is amended to read:

224.36. (a) Whenever the petitioners move to withdraw the petition for the adoption or to dismiss the proceeding, the clerk of the court in which the proceeding is pending shall immediately notify the department at Sacramento of that action. The department or the delegated county adoption agency shall file a full report with the court recommending a suitable plan for the child in every case in which the petitioners move to withdraw the petition for the adoption or where the department or the delegated county adoption agency recommends that the petition for adoption be denied and shall appear before the court for the purpose of representing the child.

(b) Notwithstanding withdrawal or dismissal by the petitioners, the court may retain jurisdiction over the child for the purpose of making any order or orders for his or her custody as the court may deem to be in the best interests of the child.

(c) Whenever the birth parent has refused to give the required consent or the reason or cause for the withdrawal of the petition, or dismissal of the proceeding is the withdrawal of the consent of the birth parent or parents, the court shall order at the hearing the child restored to the care and custody of the birth parent or parents.

SEC. 2. Section 224.45 is added to the Civil Code, to read:

224.45. (a) With respect to petitions for which a fee is charged, deferred, reduced, or waived under Section 224.47, if the department or a delegated county adoption agency fails without good cause to conduct the interviews of the petitioners and all persons from whom consent is required as specified in Section 224.44 and, within the period of time specified in Section 224.44, the petitioners, upon giving 10 days' written notice to the department or the delegated county adoption agency responsible for the investigation of the adoption, may request the superior court in which the adoption petition has been filed, or the superior court in the county in which the birth parent resides, to permit the signing of the consent in the presence of the court by any person whose consent is required. The consent and a statement of understanding shall be obtained on forms prescribed by the department. In all cases in which the consent of

the birth parent or parents is taken pursuant to this subdivision, the consent form and the statement of understanding shall be read and signed by the birth parent or parents in the presence of the superior court. Consent provided pursuant to this subdivision shall be in lieu of the otherwise applicable provisions of subdivisions (a) and (c) of Section 224.62, but shall have the same effect.

(b) For purposes of this section, "good cause" includes, but is not limited to, the following:

(1) An inability to contact or locate any of the persons who are required to be interviewed pursuant to Section 224.44.

(2) Failure of the petitioner to provide the district office of the department or the delegated county adoption agency with a copy of the filed petition and the names, addresses, and telephone numbers of all persons to be interviewed, within 10 working days of the date the petition is filed with the court.

(c) The fee authorized by subdivision (a) of Section 224.47 shall be waived if the consent of any party from whom consent is required is taken in the presence of the court pursuant to subdivision (a) of this section.

(d) This section shall become operative July 1, 1991.

(e) This section shall remain in effect only until January 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1993, deletes or extends that date.

SEC. 3. Section 224.50 of the Civil Code is amended to read:

224.50. (a) Notwithstanding the time limits of Section 224.44, if the person to be interviewed has been advised as provided in subdivision (b) and if there is no serious question about the suitability of the prospective adoptive family as provided in subdivision (c), the department or a delegated county adoption agency shall interview at the department or agency office any person willing to be interviewed from whom consent is required, within 10 working days of receiving a copy of the filed adoption petition and documentation that all of the following conditions have been met:

(1) The person from whom consent is required has been advised pursuant to subdivision (b).

(2) There is no serious question about the suitability of the prospective adoptive family as provided in subdivision (c).

(3) The department or the agency has received the name, address, and phone number of the person to be interviewed and the complete report of the assessment of the prospective adoptive family.

The department or the delegated county adoption agency may take the consent of the person to the adoption at this interview or subsequently.

(b) The advice required by subdivision (a) shall be given by a representative of the department or a full-service adoption agency or noncustodial adoption agency, as defined in Section 220.20, as specified in this subdivision prior to placement of the child for adoption. The advice shall include a balanced presentation of the

alternatives to adoption, the right to obtain additional counseling, the right to retain separate legal counsel, the meaning of the consent to adoption, the right to future information about the status of the adoption, the needs of the child and the prospective adoptive parents for complete information on the background of the child, the content of the assessment of the prospective adoptive family, and other information determined necessary by the department. The person giving the advice shall also collect information on the background of the child from the person being advised.

Each person advised pursuant to this subdivision shall be offered at least three separate counseling sessions, to be held on different days, except that this requirement does not apply to birth fathers from whom consent for the adoption is not required. Each counseling session shall be no less than 50 minutes' duration. The counseling may be provided by a representative of the department or a licensed adoption agency or by persons licensed to provide psychotherapy or counseling selected by the person. The counseling costs shall be paid by the prospective adoptive parents at the request of the birth parents. If counseling is requested prior to the placement of the child for adoption, it shall be initiated prior to the placement.

Confirmation that a person has been advised and has received counseling, if desired, as required by this subdivision, shall be documented by the department or by an agency as described in Section 220.20 on a form prescribed by the department.

If the person from whom consent is required decides to relinquish the child for adoption, rather than to consent to adoption of the child by the petitioners, the agency advising the birth parent or parents shall not accept the relinquishment of the child, except when there are no other licensed adoption agencies in the county acceptable to the birth parent or parents, in which case the advising agency still shall not accept a relinquishment sooner than five days after completion of the giving of that advice.

(c) The determination that there is no serious question about the suitability of the prospective adoptive family, as required by subdivision (a), shall be based on an assessment conducted by the department or by a licensed adoption agency. The assessment shall be completed or updated within 12 months before the placement of the child for adoption. The assessment shall include consideration of those factors required by the department in a study to determine whether the prospective adoptive family and its home are suitable for a child, except those factors regarding the adjustment of the child in the home. In addition to describing fully information collected in the assessment and the conclusions of the assessment, the report of the assessment shall specify the characteristics of a child which the family would adopt, including, but not limited to, age, sex, ethnicity, race, and special needs. The prospective adoptive parents and any person being advised pursuant to subdivision (b) shall be provided with a written summary of the report of the assessment.

If the assessment results in a determination that there is a serious

question as to the suitability of the prospective adoptive family, or if the assessment is discontinued prior to completion because of such a question, the department or the adoption agency shall provide a report of the complete or incomplete assessment to the department. The department shall retain this report for 10 years for use in any assessment of the suitability of the family to adopt a child.

(d) Any relationship between an attorney and a licensed private adoption agency involved in providing advice, counseling, or assessment to any party in an adoption pursuant to subdivision (b), shall be disclosed in writing to any person from whom consent is required and to the prospective adoptive parents.

(e) No licensed private adoption agency is required to provide the advice and assessment services specified in subdivisions (b) and (c). However, if such an agency elects to provide these services, it shall provide both services. There is no requirement that prospective adoptive parents and birth parents use the same adoption agency for these services. If the agency has a policy that allows it to provide services only to members of specific groups, this policy shall be disclosed to families prior to the beginning of the assessment process.

(f) The department or the delegated county adoption agency shall perform the advice and assessment services specified in subdivisions (b) and (c) at no cost only in those cases where all of the following apply:

(1) The prospective adoptive parents are seeking the assessment because of the intended placement of a specific child of an identified birth parent.

(2) The advice and assessment services can be conducted prior to the placement of the child.

(3) The department or the delegated county adoption agency can provide the services without delaying any mandated service.

(4) The fees specified in subdivision (a) of Section 224.47 would be waived because they would cause economic hardship to the prospective adoptive parents and would be detrimental to the welfare of the adopted child as determined by the department.

(g) The department shall study the effect of the processes described in subdivisions (a) and (f), inclusive, on the child and the parties to the adoption. The study shall provide and evaluate comparative data using information regarding the factors specified in this subdivision, which shall cover a period prior to, and concurrent with, the implementation of this section for adoptions conducted under this section or pursuant to other statutory provisions. These factors include the number and percentage of birth parents actually receiving counseling, the number of petitions in which a birth parent seeks the withdrawal of consent to adoption, the number of occasions in which the birth parent's consent is not taken at the initial interview under provisions of this section and the reasons, the number of adoptions commenced and completed under this section and pursuant to other statutory provisions, the number of requests for return of a child by a birth parent after placement but

before consent, the amount of time spent by the state in completing the home study, and the number of negative home studies presented to the court.

The Independent Adoption Preplacement Program authorized by this section shall be deemed to be successful if there is a 10 percent reduction in the number of withdrawals of consent to adoption in cases commenced under this section, and if at least 25 percent of all nonagency adoptions are commenced pursuant to this section at the time the evaluation is completed.

The department shall report its findings to the Legislature on or before January 1, 1993.

(h) The department may adopt emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code to implement this section.

This section shall remain in effect only until January 1, 1994, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1994, deletes or extends that date.

SEC. 4. Section 224.73 of the Civil Code is amended to read:

224.73. (a) The department shall adopt a statement to be presented to the birth parents at the time the consent to adoption is signed and to prospective adoptive parents at the time of the home study which shall, in a clear and concise manner, in words calculated to assure the confidence of the birth parents in the integrity of the adoption process, communicate to the birth parent of a child who is the subject of an adoption petition all of the following facts:

(1) It is in the best interest of the child that the birth parents keep the department informed of any health problems that the parent develops that could affect the child.

(2) It is extremely important that the birth parent keep his or her address current with the department in order to permit a response to any inquiries to the department or delegated county adoption agency concerning medical or social history.

(3) Section 229.40 of the Civil Code authorizes a person who has been adopted and who attains the age of 21 years to petition the department to obtain the name and address of his or her birth parents. Consequently, it is of the utmost importance that the birth parent indicate whether or not he or she wishes his or her name and address to be so disclosed by checking the appropriate box provided on the form.

(4) The birth parent may change his or her decision as to whether or not he or she wishes his or her name and address disclosed, at any time, by sending a notarized letter to that effect, by certified mail, return receipt requested, to the department.

(5) The consent will be filed in the office of the county clerk of the county in which the adoption takes place. The file is not open to inspection by any persons other than the parties to the adoption proceedings, their attorneys, and the department, except upon order of the judge of the superior court.

(b) The department shall adopt a form to be signed by the birth parents at the time the consent to adoption is signed which shall provide as follows:

"Section 229.40 of the Civil Code authorizes a person who has been adopted and who attains the age of 21 years to petition the State Department of Social Services or the licensed adoption agency that joined in the petition for his or her adoption to obtain the name and address of his or her birth parents. Indicate by checking one of the boxes below whether or not you wish your name and address to be so disclosed:

☐ YES
☐ NO
☐ UNCERTAIN AT THIS TIME; WILL NOTIFY AGENCY AT LATER DATE"

SEC. 5. Section 229.60 of the Civil Code is amended to read:

229.60. (a) Notwithstanding any other provision of law, if an adoptee who has attained the age of 21 years has filed his or her current address, a written request for contact with any biological sibling whose existence is known to him or her, and a written waiver of his or her rights with respect to the disclosure of his or her name and address to the sibling, with the department or the adoption agency that joined in the petition for his or her adoption, and any such biological sibling of that person who has attained the age of 21 years also has filed his or her current address, made such a request for contact, and filed a written waiver, if applicable, the department or the agency shall release to each of them the other's name and address. Upon inquiry, and upon proof that a person is the sibling of an adoptee who has filed a waiver pursuant to this section, the department or agency may advise him or her that such a waiver has been filed by the adoptee. The department or an agency may charge a reasonable fee, not to exceed fifty dollars ($50), for providing the service required by this section.

(b) An adoptee may revoke a waiver executed pursuant to this section by giving written notice to that effect to the department or agency.

(c) The department shall adopt a form for the request authorized by this section, which shall provide for an affidavit to be executed by persons seeking to employ the procedure authorized by this section that to the best of his or her knowledge he or she is an adoptee or a sibling of an adoptee; the form also shall contain a notice of an adoptee's rights pursuant to subdivision (b) and a statement that information will be disclosed only if there is a currently valid waiver on file with the department or agency. The department may adopt regulations requiring any additional means of identification from a person making a request pursuant to this section as it deems necessary, and for the obtaining of the consent of the birth parents of the adoptee and the sibling in order to make the disclosure

authorized by this section in any case in which the sibling remained in the custody and control of the birth parents until he or she attained the age of 18 years.

(d) The department shall not solicit the execution of a waiver authorized by this section; however, the department shall announce the availability of the procedure authorized by this section, utilizing a means of communication appropriate to effectively inform the public.

SEC. 6. Section 1522.4 of the Health and Safety Code is amended to read:

1522.4. (a) In addition to any other requirements of this chapter and except for foster family homes, small family homes, and certified family homes of foster family agencies, all of the following apply to any community care facility providing 24-hour care for children:

(1) The facility shall have one or more facility managers. "Facility manager," as used in this section, means a person on the premises with the authority and responsibility necessary to manage and control the day-to-day operation of a community care facility and supervise the clients. The facility manager, licensee, and administrator, or any combination thereof, may be the same person provided he or she meets all applicable requirements. If the administrator is also the facility manager for the same facility, this person shall be limited to the administration and management of only one facility.

(2) The facility manager shall have at least one year of experience working with the client group served, or equivalent education or experience, as determined by the department.

(3) A facility manager shall be at the facility at all times when one or more clients are present. To ensure adequate supervision of clients when clients are at the facility outside of their normal schedule, a current telephone number where the facility manager can be reached shall be provided to the clients, licensing agency, school, and any other agency or person as the department determines is necessary. The facility manager shall instruct these agencies and individuals to notify him or her when clients will be returning to the facility outside of the normal hours.

(4) The Legislature intends to upgrade the quality of care in licensed facilities. For the purposes of Sections 1533 and 1534, the licensed facility shall be inspected and evaluated for quality of care at least once each year, without advance notice and as often as necessary, without advance notice, to ensure the quality of care being provided.

Paragraphs (1), (2), and (3) shall apply only to new facilities licensed for six or fewer children which apply for a license after January 1, 1985, and all other new facilities licensed for seven or more children which apply for a license after January 1, 1988. Existing facilities licensed for seven or more children shall comply by January 1, 1989.

(b) No employee of the state or county employed in the

administration of this chapter or employed in a position that is in any way concerned with facilities licensed under this chapter shall hold a license or have a direct or indirect financial interest in a facility described in subdivision (a).

CHAPTER 699

An act to add Chapter 13.8 (commencing with Section 8897) to Division 1 of Title 2 of the Government Code, relating to earthquake protection.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 13.8 (commencing with Section 8897) is added to Division 1 of Title 2 of the Government Code, to read:

CHAPTER 13.8. RESIDENTIAL STRENGTHENING-SEISMIC SAFETY

Article 1. General Provisions and Legislative Findings

8897. (a) The Legislature finds and declares all of the following:

(1) There exists a serious threat of homes in the State of California falling or sliding off of foundations during an earthquake due to lack of anchorage to the foundation or due to cripple wall failure. Over 23,000 homes were damaged or destroyed during the Loma Prieta earthquake of October 17, 1989, and one of the main causes of damage was the lack of anchorage of these homes to their foundations or as a result of cripple wall bracing.

(2) The building codes used in the State of California did not require homes to be anchored to their foundations until on or about 1949, and some of California's local jurisdictions did not enforce the anchor bolting requirements until as late as 1958.

(3) As a result of the practices set forth in paragraphs (1) and (2), there are approximately 1,200,000 homes in the State of California which may not be bolted or anchored to their foundations or do not have adequate cripple wall bracing.

(4) There exists a serious threat of gas leaks followed by fire and explosion from water heaters that overturn, damaging the plumbing or electrical wiring during an earthquake due to the lack of adequate anchoring, strapping, or bracing.

(b) Therefore, it is the goal of the Legislature to ensure that all homes be bolted or anchored to their foundations, have adequate bracing of the cripple walls, and have the water heaters braced, strapped, or anchored to reduce earthquake hazards.

(c) The Legislature further finds and declares that the disclosure of the earthquake hazard deficiencies is designed to provide the buyer with the knowledge of possible vulnerabilities associated with the dwelling being purchased. It is the intent of the Legislature that the seller be able to complete the report without having to consult with any design professional.

Article 2. Earthquake Evaluations

8897.1. (a) After July 1, 1992, the transferor of any real property containing any residential dwelling built prior to January 1, 1960, with one to four living units of conventional light-frame construction, as defined in Chapter 25 of the 1991 Edition of the Uniform Building Code of the International Conference of Building Officials, shall, as soon as practicable before the transfer, deliver to the purchaser or transferee a copy of the "Homeowner's Guide to Earthquake Preparedness" published pursuant to Section 10149 of the Business and Professions Code and complete the earthquake hazards disclosure regarding the property. The earthquake hazards disclosure shall clearly indicate whether the transferor has actual knowledge that the dwelling has any of the deficiencies listed in

Section 8897.2.

(b) The transferor shall make the earthquake hazards disclosure as soon as practicable before the transfer of title in the case of a sale or exchange, or prior to execution of the contract where the transfer is by a real property sales contract, as defined in Section 2985. For purposes of this subdivision, the disclosure may be made in person or by mail to the transferee, or to any person authorized to act for him or her in the transaction, or to additional transferees who have requested delivery from the transferor in writing.

(c) This article does not apply to any of the following:

(1) Transfers which are required to be preceded by the furnishing to a prospective transferee of a copy of a public report pursuant to Section 11018.1 of the Business and Professions Code.

(2) Transfers pursuant to court order, including, but not limited to, transfers ordered by a probate court in the administration of an estate, transfers pursuant to a writ of execution, transfers by a trustee in bankruptcy, transfers by eminent domain, or transfers resulting from a decree for specific performance.

(4) Transfers by a fiduciary in the course of the administration of a decedent's estate, guardianship, conservatorship, or trust.

(5) Transfers from one coowner to one or more coowners.

(6) Transfers made to a spouse, or to a person or persons in the lineal line of consanguinity of one or more of the transferors.

(7) Transfers between spouses resulting from a decree of dissolution of a marriage, from a decree of legal separation, or from a property settlement agreement incidental to either of those decrees.

(8) Transfers by the Controller in the course of administering the Unclaimed Property Law provided for in Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure.

(9) Transfers under the provisions of Chapter 7 (commencing with Section 3691) or Chapter 8 (commencing with Section 3771) of Part 6 of Division 1 of the Revenue and Taxation Code.

(10) Transfers for which the transferee has agreed in writing that the dwelling will be demolished within one year of the date of transfer.

(d) This article does not apply to:

(1) Dwellings with a concrete slab foundation.

(2) Dwellings with no foundation system or with a wood foundation that rests directly on the ground.

8897.2. (a) The transferor shall be required to disclose any of the following deficiencies which are within the transferor's actual knowledge and material to the transaction, and which may increase a dwelling's vulnerability to earthquake damage:

(1) The absence of anchor bolts securing the sill plate to the foundation.

(2) The existence of perimeter cripple walls that are not braced with plywood, blocking, or diagonal metal or wood braces.

(3) The existence of a first-story wall or walls that are not braced with plywood or diagonal metal or wood braces.

(5) The existence of unreinforced masonry dwelling walls.

(6) The existence of a habitable room or rooms above a garage.

(7) The existence of a water heater which is not anchored, strapped, or braced.

(b) The transferor shall be required to disclose any material information within the transferor's actual knowledge regarding any corrective measures or improvements taken to address the items listed in subdivision (a).

8897.3. (a) For the purposes of this chapter, if it is determined that retrofit work is appropriate to address potential deficiencies listed in Section 8897.2, the following standards shall be used:

(1) The foundation anchor bolt requirements of subdivision (f) of Section 2907 of Chapter 29 of the 1991 Edition of the Uniform Building Code of the International Conference of Building Officials, or any local government modification which establishes equivalent or higher requirements.

(2) The cripple wall bracing requirements of paragraph (4) of subdivision (g) of Section 2517 of Chapter 25 of the 1991 Edition of the Uniform Building Code of the International Conference of Building Officials, or any local government modification which establishes equivalent or higher requirements.

(3) The water heater bracing, anchoring, or strapping requirements to resist falling or horizontal displacement due to earthquake motion of Section 19215 of the Health and Safety Code.

(b) Any qualified historical building or structure, as defined pursuant to Section 18955 of the Health and Safety Code, shall be permitted to utilize alternatives to the requirements of this section, as provided by the State Historical Building Code (Part 2.7 (commencing with Section 18950) of Division 13 of the Health and Safety Code) and the regulations issued pursuant thereto.

8897.4. No transfer of title shall be invalidated on the basis of a failure to comply with this chapter.

8897.5. For the purposes of this chapter, the duty of the real estate licensee shall be limited to providing to the seller a copy of the Homeowner's Guide to Earthquake Preparedness for delivery to the transferee pursuant to Section 2079.8 of the Civil Code.

An act to add Section 199.52 to the Health and Safety Code, relating to AIDS.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 199.52 is added to the Health and Safety Code, to read:

199.52. (a) In enacting this section the Legislature finds and declares:

(1) It is in the interest of the people of California to develop a vaccine which will prevent the infection of HIV, the agent which causes AIDS.

(2) In order to develop that vaccine, a prototype vaccine must be first given to HIV-negative people to determine the following:

(A) The vaccine's toxicity.

(B) The vaccine's efficacy.

(C) The human immune response to the vaccine.

(3) These studies are currently impossible because vaccine manufacturers fear that, by inoculating HIV-negative individuals with an experimental vaccine, they will elicit a positive immune response as measured by an enzyme linked immunosorbent assay (ELISA), western blot or other federal Food and Drug

Administration approved in vitro diagnostic test, thereby placing vaccine volunteers at risk for denial of health or life insurance by insurance carriers as a consequence of their participation.

(4) Insurers need a reliable mechanism by which they can verify the insurability of a vaccine trial participant.

(b) No health care service plan, disability insurer, nonprofit hospital service plan, self-insured employee welfare benefit plan, or life insurer may withhold any settlement or coverage of an individual solely because of his or her participation in an AIDS/HIV vaccine clinical trial studied under an investigational new drug application effective pursuant to Section 312 of Title 21 of the Code of Federal Regulations, or Section 26679.

(c) The sponsor of any such trial shall make a confidential certificate with all the necessary particulars, which shall be determined by the State Department of Health Services, for each enrollee and then submit it to the State Department of Health Services, which shall endorse it and return it to the vaccine recipient. A copy of this confidential certificate shall be kept on file indefinitely by both the study sponsor and the State Department of Health Services.

(d) Release of a confidential certificate shall be by written authorization of the enrollee named in the certificate. If the enrollee is unable to provide the written authorization, a person designated in the certificate by the enrollee may provide the written authorization. The written authorization shall include the name of the person or entity to whom the disclosure would be made.

Disclosure as used in this section means to release, transfer, disseminate or otherwise communicate all or part of any confidential certificate orally, in writing, or by electronic means to any person or entity.

CHAPTER 704

An act to amend Sections 105, 106, 120, 122, 130, 131, and 132 of, and to add Sections 107, 118, and 123 to, the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990), relating to the Sacramento Area Flood Control Agency.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 105 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 105. (a) Notwithstanding any other provision of law, all assessments, reassessments, and taxes levied by the agency may be collected together with, and not separately from, taxes for county

purposes. Any county which is a member of the agency may collect, at the request of the agency, all assessments, reassessments, and special taxes levied by the agency and shall deposit those revenues into the Sacramento County Treasury to the credit of the agency.

(b) Each county may require that the amount to be collected be increased to include a proportionate amount of the county's reasonable collection and administrative costs, not to exceed ten dollars ($10) per installment for each lot or parcel, as reimbursement for expenses incurred by the county in collecting the assessment, reassessment, or special tax.

SEC. 2. Section 106 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 106. Notwithstanding any other provision of law, any assessment or reassessment levied pursuant to this act may be apportioned on the basis of land use category, proportionate storm water runoff, relative hazard of flooding, infrastructure protection, or other reasonable basis, separately or in combination, as determined by the board. All lots and parcels shall be conclusively presumed to benefit from the projects being financed in proportion to that apportionment.

SEC. 3. Section 107 is added to the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990), to read:

Sec. 107. Notwithstanding any other provision of law, the board may include within the agency's annual budget a general unappropriated reserve fund not to exceed 25 percent of the total appropriations contained in the agency's budget, exclusive of all items for bond interest and redemption, and the general unappropriated reserve. The reserve fund may be used for emergencies, replacements, or other lawful purposes of the agency.

SEC. 4. Section 118 is added to the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990), to read:

Sec. 118. (a) Upon adopting a resolution pursuant to Section 117, the agency shall record a notice of assessment whereupon the assessment shall attach as a lien on the property assessed.

(b) From the date of the recordation of the notice of assessment, each special assessment levied under this chapter is a lien on the land on which it is levied. This lien is paramount to all other liens, except prior assessments and taxation. Unless sooner discharged, the lien continues for 10 years from the date of the recordation or, if bonds are issued to represent the assessment, until four years after the date on which the last installment on the bonds or the last principal coupon attached to the bonds is due. All persons have constructive notice of this lien from the date of the recordation.

SEC. 4.5. Section 120 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 120. The validity of any assessment levied or bond issued under this chapter shall not be contested in any action or proceeding unless the action or proceeding is commenced within 30 days after the assessment is levied pursuant to Section 117. Any appeal from a

final judgment in such an action or proceeding shall be perfected within 30 days after the entry of judgment.

SEC. 5. Section 122 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 122. After one or more districts have been created and authorized to levy assessments pursuant to this chapter, the board may, by resolution, provide for the levy of the assessments using the method for apportioning the assessment and for setting the rate of the assessment as set out in the report confirmed pursuant to Section 117. The clerk of the agency shall file a list of all parcels subject to assessments levied pursuant to this chapter and the amount of the assessment or assessments levied against each parcel, with the county auditor on or before August 10 of each tax year. The assessments shall be collected in the same manner as ordinary property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ad valorem taxes.

SEC. 5.2. Section 123 is added to the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990), to read:

Sec. 123. (a) In the event of nonpayment of any assessment levied pursuant to this chapter, and not later than four years after the due date of the last installment of principal, as a cumulative remedy, the amount when due and delinquent may, by order of the board, be collected pursuant to an action brought in the superior court to foreclose the lien.

(b) The lien of an assessment levied pursuant to this chapter on tax-deeded land may be foreclosed in the same manner as the foreclosure of other real property. The action shall be brought in the name of the agency.

(c) The costs of the action shall be fixed and allowed by the court and shall include reasonable attorney's fees, interest, penalties, and other charges and advances as provided by this chapter. The costs shall be included in the judgment. The amount of penalties, costs, and interest due shall be calculated up to the date of judgment.

(d) The court may adjudge and decree a lien against the lot or parcel of land covered by the assessment for the amount of the judgment and may order the premises to be sold on execution as in the sale of other real estate by the process of the court, with the same rights of redemption.

(e) The board may, by resolution adopted prior to the issuance of bonds, covenant for the benefit of bondholders to commence and diligently prosecute to completion any foreclosure action regarding delinquent installments of any assessments or reassessments that secure the bonds that are to be issued, or to employ a trustee to do so on behalf of the bondholders.

SEC. 5.4. Section 130 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 130. The board may sell bonds or notes of the agency to finance projects as set out in the report confirmed pursuant to

Section 117. The board shall authorize the issuance of bonds by adoption of a resolution which provides for all of the following:

(a) The denominations, form, and registration provisions of the bonds.

(b) The manner of execution of the sale of the bonds.

(c) The par amount of the bonds to be sold.

(d) The appointment of the Sacramento County Treasurer or one or more banks or trust companies within the state having the necessary trust powers as trustee, fiscal agent, paying agent, or bond registrar.

(e) The execution of a document or indenture securing the bonds.

(f) The pledge or assignment of the designated assessment revenues to the repayment of the bonds.

(g) The interest rate to be borne by the bonds.

(h) Any other terms and conditions determined to be necessary by the board.

SEC. 6. Section 131 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 131. The bonds shall be signed by the chairperson of the board, and countersigned by the Sacramento County Treasurer. The bonds may be authenticated by a paying agent selected by the board, and the signatures of the chairman and Sacramento County Treasurer may be facsimile signatures. In case any officer whose signature appears on the bonds shall cease to be an officer at any time, the signature shall nevertheless be valid and sufficient for all purposes.

SEC. 7. Section 132 of the Sacramento Area Flood Control Agency Act (Chapter 510 of the Statutes of 1990) is amended to read:

Sec. 132. The board may sell bonds pursuant to this chapter at public or private sale at not less than 95 percent of par value. The proceeds of the sale of the bonds shall be placed in the treasury of Sacramento County to the credit of the agency and the issuing assessment district, and the proper record of the transaction shall be placed upon the books of the Sacramento County treasury. The bond proceeds shall be used exclusively to finance or refinance projects and to pay incidental expenses pursuant to the report confirmed pursuant to Section 117.

SEC. 8. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 705

An act to add Chapter 7.1 (commencing with Section 25620) to Division 15 of the Public Resources Code, relating to air quality.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7.1 (commencing with Section 25620) is added to Division 15 of the Public Resources Code, to read:

CHAPTER 7.1. HARVEY CLEAN FUEL AND CAMPUS RIDESHARE ACT

25620. This chapter shall be known and may be cited as the Harvey Clean Fuel and Campus Rideshare Act.

25621. The Legislature finds and declares that air pollution in California remains a significant threat to public health and the environment, and therefore, the University of California and the California State University, in their continuing efforts to improve the state's air quality and traffic management, should consider the unique opportunity to improve transportation by implementing innovative and efficient commute management and ridesharing. It is, therefore, the intent of the Legislature, in enacting this chapter, to direct the State Energy Resources Conservation and Development Commission to develop and submit recommendations to the Legislature for the creation of a program enabling the University of California and the California State University to purchase new medium-duty shuttle buses which meet federal safety standards and are primarily fueled by methanol, ethanol, electricity, compressed natural gas, propane, or other low-emission, clean-burning fuels.

25622. (a) The commission, in consultation with the State Air Resources Board, shall develop recommendations for the establishment of a program of technology development and financial assistance to be implemented by the commission on campuses of the University of California and the California State University which choose to participate, the purpose of which shall be to expand the use of alternative fuels in medium-duty vehicles as a means of improving air quality, assuring the state's energy security, and increasing the competitiveness of fuel markets.

(b) The commission shall develop recommendations on both of the following:

(1) A demonstration of the technological and economic feasibility and environmental impacts of utilizing alternative fuels in medium-duty vehicles.

(2) Technical and financial assistance for public and private

transit operators for the acquisition, operation, and maintenance of new, alternative-fueled, medium-duty transit buses.

(c) As used in this section, "medium-duty vehicle" means a vehicle between 10,000 and 26,000 pounds, capable of carrying at least 15 passengers.

(d) The program recommendations developed pursuant to this chapter shall provide for the maximum feasible financial and technical participation of government agencies and private industry.

(e) In developing the program recommendations required pursuant to this chapter, the commission shall consider the feasibility and cost-effectiveness of integrating a campus alternative-fueled, medium-duty transit bus program with the commission's Safe Schoolbus Fuel Efficiency Demonstration Program established in Part 10.7 (commencing with Section 17910) of the Education Code.

(f) The commission shall submit its recommendations to the Legislature by March 1, 1992.

CHAPTER 706

An act to add Division 12.9 (commencing with Section 19500) to the Public Resources Code, relating to solid waste.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Division 12.9 (commencing with Section 19500) is added to the Public Resources Code, to read:

DIVISION 12.9. FIBERGLASS RECYCLED CONTENT ACT OF 1991

CHAPTER 1. FINDINGS AND DEFINITIONS

19500. The Legislature finds and declares all of the following:

(a) Recycling of glass sold in the state benefits the state through reduction in the need for solid waste landfills, more efficient use of energy in manufacturing, and development of an economy more efficient in its use of secondary materials.

(b) Because of the expansion of recycling collection programs in the state, there is a need to aggressively develop new markets for scrap glass.

(c) The use of scrap glass in the manufacture of fiberglass products sold in California will contribute significantly to developing markets for recycled glass.

(d) The use of cullet in fiberglass manufacturing presents no significant technical or financial barriers to industry or consumers, if

the cullet meets minimum quality specifications.

(e) In order to enhance the availability and efficiency of recycling opportunities, it is in the best interest of the health and safety of the people of the state to make alternative markets for recycled glass economically feasible.

19501. This division shall be known and may be cited as the Fiberglass Recycled Content Act of 1991.

19502. For purposes of this division, the following definitions shall apply:

(a) "Cullet" means postconsumer glass from food, drink, or beverage containers, or any other glass not generated by fiberglass manufacturing.

(b) "Department" means the Department of Conservation.

(c) "Fiberglass manufacturer" means a person who uses glass in the commercial manufacture of building insulation fiberglass for wholesale or retail sale in the state.

(d) "Building insulation" means a fiberglass batt, blanket, loose fill or spray-in-place material primarily designed and used to resist heat flow, that is installed in roofs, ceilings, walls, and floors of buildings.

CHAPTER 2. FIBERGLASS RECYCLED CONTENT PROGRAM

19510. Except as provided in Section 19511, every manufacturer shall ensure that the annual tonnage of fiberglass manufactured or sold in the state by that manufacturer on and after January 1, 1992, other than fiberglass in inventory manufactured for sale before January 1, 1992, shall contain at least 10 percent cullet .

19511. The percentage of fiberglass sold which is made of cullet shall be calculated in tons used on an annual basis. Unless the department determines that an increase in the percentage of cullet would pose an unreasonable technical burden on the fiberglass manufacturer that exceeds the benefits to recycling the cullet, each fiberglass manufacturer shall increase the percentage of cullet in fiberglass in accordance with the following requirements:

(a) On and after January 1, 1994, until December 31, 1994, the percentage of cullet shall be 20 percent.

(b) On and after January 1, 1995, the percentage of cullet shall be 30 percent.

19512. On or before January 1, 1994, the department shall request comments from at least two fiberglass manufacturers, two cullet processors, and any other interested parties on the feasibility of increasing the percentage of cullet in fiberglass to 30 percent. On or before July 1, 1994, the department shall hold a public hearing, on the record, with representatives from the fiberglass industry, cullet processors, and other interested parties to determine the feasibility of increasing cullet content in fiberglass manufacturing.

CHAPTER 3. CULLET SPECIFICATIONS FOR FIBERGLASS MANUFACTURING

19515. The quality specifications provided in this chapter are the minimum quality specifications which cullet is required to meet for purposes of the exemption specified in Section 19522.

19515.5. Chemical Composition

19519. A fiberglass manufacturer shall comply with all applicable state and federal laws, regulations, and permits concerning the environment, health, or safety when using cullet in fiberglass manufacturing.

CHAPTER 4. CERTIFICATION OF USE

19520. Each fiberglass manufacturer shall, on or before March 1 of each year, submit a report to the department certifying the number of tons of cullet used for the manufacture of fiberglass during the preceding calendar year and the number of tons of fiberglass sold in the state during the preceding calendar year.

19521. Every fiberglass manufacturer who submits glass cullet content usage certification pursuant to Section 19520 may be subject to an audit by the department to ensure that the cullet was used.

19522. If a manufacturer of fiberglass is unable to obtain sufficient amounts of cullet within any certification period, the manufacturer shall certify this fact to the department and provide the department with the specific reason for failing to use cullet, including verification of a best faith effort to use the cullet, and evidence that the cullet failed to meet minimum quality specifications pursuant to Chapter 3 (commencing with Section 19515) and, therefore, presented a significant barrier to meeting the requirements of Chapter 2 (commencing with Section 19510).

19523. For the purposes of implementing and enforcing these provisions, the department shall develop and maintain a list which identifies all fiberglass manufacturers. The department shall also make available to fiberglass manufacturers names and addresses of all recyclers and processors of cullet certified pursuant to Division 12.1 (commencing with Section 14500).

19524. The department shall include in its annual report to the Legislature a discussion of the progress toward achieving maximum use of cullet in the manufacture of fiberglass sold in the state, including opportunities for increasing the content of cullet in fiberglass required by this division.

CHAPTER 5. ENFORCEMENT

19530. If any person provides a fiberglass manufacturer with false or misleading information concerning the recycled content of glass cullet, the department, within 30 days of making this determination, shall refer the false or misleading certificate to the Attorney General for prosecution for fraud.

19531. If any fiberglass manufacturer provides the department with a false or misleading certificate concerning the percentage of glass cullet used pursuant to this division pursuant to Section 19520, the department, within 30 days of making this determination, shall refer the false or misleading certificate to the Attorney General for prosecution for fraud.

19532. If any fiberglass manufacturer provides the department with a false or misleading certificate concerning why the fiberglass manufacturer was unable to meet the content requirements due to technical infeasibility pursuant to Section 19522, the department, within 30 days of making this determination, shall refer the false or misleading certificate to the Attorney General for prosecution for fraud.

19533. Information on glass cullet prices or other prices obtained by the department in the course of an audit is proprietary information and the department shall not make this information available to the general public.

19534. This division does not prevent a person from selling or using fiberglass made of 100 percent virgin content, as long as the fiberglass manufacturer meets the content requirements of Chapter 2 (commencing with Section 19510).

19535. (a) Any person who violates Chapter 2 (commencing with Section 19510) or this section is guilty of an infraction punishable by a fine of not more than one thousand dollars ($1,000).

(b) In addition to subdivision (a), any person who violates this division may be assessed a civil penalty by the department of not more than one thousand dollars ($1,000) for each violation, pursuant to a notice and a hearing conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. Any civil penalties and fines received pursuant to this section shall be deposited in the Fiberglass Recycled Content Account, which is hereby established in the California Beverage Container Recycling Fund, and the funds in that account may be expended by the department for the administration of this division upon appropriation by the Legislature.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless

otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 707

An act to add Sections 22651.4 and 34517 to the Vehicle Code, relating to vehicles.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 22651.4 is added to the Vehicle Code, to read:

22651.4. Any peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, may impound a vehicle and its cargo pursuant to Section 34517.

SEC. 2. Section 34517 is added to the Vehicle Code, to read:

34517. (a) With respect to a commercial motor vehicle from another country, no person shall operate the vehicle outside the boundaries of a designated commercial zone unless the required operating authority from the Interstate Commerce Commission has first been obtained.

(b) A violation of subdivision (a) is an infraction punishable by a fine of one thousand dollars ($1,000).

(c) Notwithstanding subdivision (b), a peace officer, as defined in Chapter 4.5 (commencing with Section 830) of Title 3 of Part 2 of the Penal Code, shall issue a citation for a violation of subdivision (a) to the driver of the vehicle and order the driver of the vehicle to return the vehicle to its country of origin. The peace officer may impound a vehicle cited under this section and its cargo until the citation and all charges related to the impoundment are cleared. The impoundment charges are the responsibility of the vehicle's owner.

(d) As used in this section, "designated commercial zone" means a commercial zone, as defined in Sections 1048.101 and 1048.102 of Title 49 of the Code of Federal Regulations.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 708

An act to amend Section 25284.4 of the Health and Safety Code, relating to hazardous substances.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 25284.4 of the Health and Safety Code is amended to read:

25284.4. (a) On and after January 1, 1989, all tank integrity tests required by this chapter or pursuant to any local ordinance in compliance with Section 25299.1 shall be performed only by, or under the direct and personal supervision of, a tank tester with a currently valid tank testing license issued pursuant to this section. No person shall engage in the business of tank integrity testing, or act in the capacity of a tank tester, within this state on and after January 1, 1989, without first obtaining a tank testing license from the board. The board may extend the January 1, 1989, date for a period of not more than one year, to give tank testers a reasonable opportunity to qualify for licensing. Any person who violates this subdivision is guilty of a misdemeanor and may be subject to civil liability pursuant to subdivision (g).

(b) Any person proposing to conduct tank integrity testing within the state shall apply to the board for a tank testing license, and shall pay the appropriate fee established by the board. A license issued pursuant to this section shall expire three years after the date of issuance and shall be subject to renewal, except as specified in this section. If the tank tester fails to renew the tank tester's license within three years of the license's expiration date, the license shall lapse and the person shall apply for a new tank testing license and shall meet the same requirements of this section for a new applicant. A tank tester shall pay a fee to the board at the time of licensing and at the time of renewal. The board shall adopt a fee schedule for the issuance and renewal of tank testing licenses to cover the necessary and reasonable costs of administering and enforcing this section.

(c) (1) The board may establish any additional qualifications and standards for the licensing of tank testers. Each applicant for licensing as a tank tester shall pass an examination specified by the board and shall have completed a minimum of either of the following:

(A) One year of qualifying field experience by personally testing a number of underground storage tanks specified by the board.

(B) Completed six months of field experience by personally testing a number of underground storage tanks specified by the board and have successfully completed a course of study applicable to tank testing which is satisfactory to the board.

(2) The examination required by paragraph (1) shall, at a minimum, test the applicant's knowledge of all of the following:

(A) General principles of tank and pipeline testing.

(B) Basic understanding of the mathematics relating to tank testing.

(C) Understanding of the specific test procedures, principles, and equipment for which the tank tester will be qualified to operate.

(D) Knowledge of the regulations and laws governing the regulation of underground storage tanks.

(E) Proper safety procedures.

(d) The board shall maintain a current list of all persons licensed pursuant to this section, including a record of enforcement actions taken against these persons. This list shall be made available to local agencies and the public on request.

(e) A tank tester may be liable civilly in accordance with subdivision (g) and, in addition, may be subject to administrative sanctions pursuant to subdivision (f) for performing or causing another to perform, any of the following actions:

(1) Willfully or negligently violating, or causing, or allowing the violation of, this chapter or any regulations adopted pursuant to this chapter.

(2) Willfully or negligently failing to exercise direct and personal control over an unlicensed employee, associate, assistant, or agent during any phase of tank integrity testing.

(3) Without regard to intent or negligence, using or permitting a licensed or unlicensed employee, associate, assistant, or agent to use any method or equipment which is demonstrated to be unsafe or unreliable for tank integrity testing.

(4) Submitting false or misleading information on an application for license.

(5) Using fraud or deception in the course of doing business as a tank tester.

(6) Failing to use reasonable care, or judgment, while performing tank integrity tests.

(7) Failing to maintain competence in approved tank testing procedures.

(8) Failing to use proper tests or testing equipment to conduct tank integrity tests.

(9) Any other action which the board may, by regulation, prescribe.

(f) (1) The board may suspend the license of a tank tester for a period of up to one year, and may revoke, or refuse to grant or renew, a license and may place on probation, or reprimand, the licensee upon any reasonable ground, including, but not limited to, those violations specified in subdivision (e). The board may investigate any licensed tank tester after receiving a written request from a local agency.

(2) The board shall notify the tank tester of any alleged violations and of proposed sanctions, before taking any action pursuant to this

subdivision. The tank tester may request a hearing, or submit a written response within 30 days of the date of notice. Any hearing conducted pursuant to this subdivision shall be conducted in accordance with the hearing procedure specified in subdivision (g). After the hearing, or at a time after the 30-day response period, the board may impose the appropriate administrative sanctions authorized by this subdivision if it finds that the tank tester has committed any of the alleged violations specified in the notice.

(g) (1) The board may impose civil liability for a violation of subdivision (a) or (e) in accordance with Article 2.5 (commencing with Section 13323) of Chapter 5 of Division 7 of the Water Code, in an amount which shall not exceed five hundred dollars ($500) for each day in which the violation occurs, except that the chief of the division of water quality of the board or any other person designated by the board shall issue the complaint to the violator. The complaint shall be issued based on information developed by board staff or local agencies. Any hearing on the complaint shall be made before the board, or a panel thereof, consisting of one or more board members. The decision of the board shall be final upon issuance and may be reviewed pursuant to Section 13325 of the Water Code within 30 days following issuance of the order.

(i) Any fees or civil liability collected pursuant to this section shall be deposited in the Underground Storage Tank Tester Account which is hereby created in the General Fund. The money in this account is available for expenditure by the board, upon appropriation by the Legislature, for purposes of implementing the tank tester licensing program established by this section and for repayment of the loan made by Section 13 of the act of the 1987–88 Regular Session of the Legislature which added this section.

SEC. 3. Section 22658 of the Vehicle Code is amended to read:

22658. (a) Except as provided in Section 22658.2, the owner or person in lawful possession of any private property may, subsequent to notifying, by telephone or, if impractical, by the most expeditious means available, the city police or county sheriff, whichever is appropriate, cause the removal of a vehicle parked on the property to the nearest public garage under any of the following circumstances:

(1) There is displayed, in plain view at all entrances to the property, a sign not less than 17 by 22 inches in size, with lettering not less than one inch in height, prohibiting public parking and indicating that vehicles will be removed at the owner's expense, and containing the telephone number of the local traffic law enforcement agency, and the sign may also indicate that a citation may also be issued for the violation.

(2) The vehicle has been issued a notice of parking violation, and 96 hours have elapsed since the issuance of that notice.

(3) The vehicle is on private property and lacks an engine, transmission, wheels, tires, doors, windshield, or any other major part or equipment necessary to operate safely on the highways, the owner

or person in lawful possession of the private property has notified the city police or county sheriff, as appropriate, and 24 hours have elapsed since that notification.

(4) The lot or parcel upon which the vehicle is parked is improved with a single-family dwelling.

(b) The person causing removal of the vehicle shall, if the person knows or is able to ascertain from the registration records of the Department of Motor Vehicles the name and address of the registered and legal owner of the vehicle, immediately give, or cause to be given, notice in writing to the registered and legal owner of the fact of the removal, the grounds for the removal, and indicate the place to which the vehicle has been removed. If the vehicle is stored in a public garage, a copy of the notice shall be given to the proprietor of the garage. The notice provided for in this section shall include the amount of mileage on the vehicle at the time of removal. If the person does not know and is not able to ascertain the name of the owner or for any other reason is unable to give the notice to the owner as provided in this section, the person causing removal of the vehicle shall comply with the requirements of subdivision (c) of Section 22853 relating to notice in the same manner as applicable to an officer removing a vehicle from private property.

(c) This section does not limit or affect any right or remedy which the owner or person in lawful possession of private property may have by virtue of other provisions of law authorizing the removal of a vehicle parked upon private property.

(d) The owner of a vehicle removed from private property pursuant to subdivision (a) may recover for any damage to the vehicle resulting from any intentional or negligent act of any person causing the removal of, or removing, the vehicle.

(e) Any owner or person in lawful possession of any private property, or an "association" pursuant to Section 22658.2, causing the removal of a vehicle parked on that property is liable for double the storage or towing charges whenever there has been a failure to comply with paragraph (1), (2), or (3) of subdivision (a) or to state the grounds for the removal of the vehicle if requested by the legal or registered owner of the vehicle as required by subdivision (f).

(f) Any owner or person in lawful possession of any private property, or an "association" pursuant to Section 22658.2, causing the removal of a vehicle parked on that property shall state the grounds for the removal of the vehicle if requested by the legal or registered owner of that vehicle. Any towing company that removes a vehicle from private property with the authorization of the property owner or the property owner's agent shall not be held responsible in any situation relating to the validity of the removal. Any towing company that removes the vehicle under this section shall be responsible for (1) any damage to the vehicle in the transit and subsequent storage of the vehicle and (2) the removal of a vehicle other than the vehicle specified by the owner or other person in lawful possession of the private property.

(g) Possession of any vehicle under this section shall be deemed to arise when a vehicle is removed from private property and is in transit.

(h) A towing company may impose a charge of not more than one-half of the regular towing charge for the towing of a vehicle at the request of the owner of private property or that owner's agent pursuant to this section if the owner of the vehicle or the owner's agent returns to the vehicle before it is removed from the private property. The regular towing charge may only be imposed after the vehicle has been removed from the property and is in transit.

(i) A charge for towing or storage, or both, of a vehicle under this section is excessive if the charge is greater than that which would have been charged for towing or storage, or both, made at the request of a law enforcement agency under an agreement between the law enforcement agency and a towing company in the city or county in which is located the private property from which the vehicle was, or was attempted to be, removed.

If a request to release a vehicle is made within eight hours from the time the vehicle is brought into the storage facility, regardless of the calendar date, the storage charge shall be for only one day. Not more than one day's storage charge may be required for any vehicle released the same day that it is stored.

(j) Any person who charges a vehicle owner a towing, service, or storage charge at an excessive rate, as described in subdivision (i), is liable to the vehicle owner for four times the amount charged.

(k) Persons operating or in charge of any storage facility where vehicles are stored pursuant to this section shall accept a valid bank credit card or cash for payment of towing and storage by a registered owner or the owner's agent claiming the vehicle. In addition, persons operating or in charge of the storage facility shall have sufficient moneys on the premises to accommodate, and make change in, a reasonable monetary transaction.

Credit charges for towing and storage services shall comply with Section 1748.1 of the Civil Code. Law enforcement agencies may include the costs of providing for payment by credit when making agreements with towing companies as described in subdivision (i).

(*l*) (1) A towing company shall not remove a vehicle from private property without first obtaining written authorization from the property owner or lessee, or an employee or agent thereof, who shall be present at the time of removal. General authorization to remove vehicles at the towing company's discretion shall not be delegated to a towing company or its affiliates except in the case of a vehicle unlawfully parked within 15 feet of a fire hydrant, or in a fire lane, or in a manner which interferes with any entrance to, or exit from, the private property.

(2) If a towing company removes a vehicle without written authorization and that vehicle is unlawfully parked within 15 feet of a fire hydrant, or in a fire lane, or in a manner which interferes with any entrance to, or exit from the private property, the towing

company shall take, prior to the removal of that vehicle, a photograph of the vehicle which clearly indicates that parking violation. The towing company shall keep one copy of the photograph taken pursuant to this paragraph, and shall present that photograph to the owner or an agent of the owner, when that person claims the vehicle.

(3) Any towing company, or any affiliate of a towing company, which removes a vehicle from private property without first obtaining written authorization from the property owner or lessee, or an employee or agent thereof, who is present at the time of removal, except as permitted by paragraph (1), is liable to the owner of the vehicle for four times the amount of the towing and storage charges, in addition to any applicable criminal penalty, for a violation of paragraph (1).

SEC. 4. Section 1.5 of this bill incorporates amendments to Section 2551 of the Streets and Highways Code proposed by both this bill and SB 1254. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1992, (2) each bill amends Section 2551 of the Streets and Highways Code, and (3) this bill is enacted after SB 1254, in which case Section 2551 of the Streets and Highways Code, as amended by SB 1254, shall remain operative only until the operative date of this bill, at which time Section 1.5 of this bill shall become operative, and Section 1 of this bill shall not become operative.

SEC. 5. Section 2.5 of this bill incorporates amendments to Section 2553 of the Streets and Highways Code proposed by both this bill and SB 1254. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1992, (2) each bill amends Section 2553 of the Streets and Highways Code, and (3) this bill is enacted after SB 1254, in which case Section 2553 of the Streets and Highways Code, as amended by SB 1254, shall remain operative only until the operative date of this bill, at which time Section 2.5 of this bill shall become operative, and Section 2 of this bill shall not become operative.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

18431.2. (a) Any return, declaration, statement, or other document required to be made under this part that is filed using electronic technology shall be in a form as the Franchise Tax Board may prescribe and shall be accompanied by a transmittal document signed in accordance with Section 18431 in the case of individuals, or subdivision (a) of Section 17932 in the case of a partnership.

(c) "Electronic imaging technology" means a system of microphotography, optical disk, or reproduction by other technique which does not permit additions, deletions, or changes to the original document. The system may include, but is not limited to, any magnetic media or other machine readable form.

(d) "Traditional medium" means any return, declaration,

statement, or other document required to be made pursuant to this article other than those made using electronic imaging technology.

The system may include, but is not limited to, any magnetic media or other machine readable form.

(d) "Traditional medium" means any return, declaration, statement, or other document required to be made pursuant to this article other than those made using electronic imaging technology.

SEC. 4. Section 25405 of the Revenue and Taxation Code is amended to read:

25405. All returns, declarations, statements, or other documents or copies thereof required by this part, shall be in any form as the Franchise Tax Board may from time to time prescribe, including, but not limited to, on paper, on magnetic media pursuant to Section 26426, or by electronic imaging technology pursuant to Section 25403.5, and shall be filed with the Franchise Tax Board. Blank forms of returns shall be furnished by the Franchise Tax Board on application, but failure to secure the form shall not release any taxpayer from the obligation of making a return hereunder.

CHAPTER 713

An act to add Section 223.5 to the Streets and Highways Code, relating to highways.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 223.5 is added to the Streets and Highways Code, to read:

223.5. (a) The department shall develop a policy for the use of

restroom facilities at safety roadside rests by disabled travelers at those locations on state highways which have separate restroom facilities for disabled persons. The policy shall permit a disabled person to be accompanied in the restroom by his or her attendant, who may be a person of the opposite sex, to assist the disabled person.

(b) The policy shall provide for the design and placement of special signs at the safety roadside rests clearly indicating that it is permissible for a person of the opposite sex to accompany a disabled person into the restroom to assist the disabled person.

CHAPTER 714

An act to amend Section 2881 of the Public Utilities Code, relating to telephones.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 2881 of the Public Utilities Code is amended to read:

2881. (a) The commission shall design and implement a program whereby each telephone corporation shall provide a telecommunications device capable of servicing the needs of the deaf or severely hearing impaired, together with a single party line, at no charge additional to the basic exchange rate, to any subscriber who is certified as deaf or severely hearing impaired by a licensed physician, audiologist, or a qualified state agency and to any subscriber which is an organization representing the deaf or severely hearing impaired, as determined and specified by the commission pursuant to subdivision (d).

(b) The commission shall also design and implement a program whereby each telephone corporation shall provide a dual-party relay system, using third-party intervention to connect deaf or severely hearing-impaired persons and offices of organizations representing the deaf or severely hearing impaired, as determined and specified by the commission pursuant to subdivision (d), with persons of normal hearing by way of intercommunications devices for the deaf or severely hearing impaired and the telephone system, making available reasonable access of all phases of public telephone service to deaf or severely hearing-impaired telephone subscribers. In order to make a dual party relay system which will meet the requirements of deaf and severely hearing-impaired persons available at a reasonable cost, the commission shall initiate an investigation, conduct public hearings to determine the most cost-effective method of providing dual-party relay service to the deaf or severely hearing impaired when using a telecommunications device, and

solicit the advice, counsel, and physical assistance of statewide nonprofit consumer organizations of the deaf, during the development and implementation of the system. The commission shall phase in this program, on a geographical basis, over a three-year period ending on January 1, 1987.

(c) The commission shall also design and implement a program whereby specialized or supplemental telephone communications equipment may be provided to subscribers who are certified to be disabled at no charge additional to the basic exchange rate. The certification, including a statement of medical need for specialized telephone communications equipment, shall be provided by a licensed physician and surgeon acting within the scope of his or her license or by a qualified state agency, as determined by the commission. The commission shall, in this connection, study the feasibility of, and implement if determined to be feasible, personal income criteria, in addition to the medical certification of disability, for determining a subscriber's eligibility under this subdivision.

(d) The commission shall establish a rate recovery mechanism through a surcharge not to exceed one-half of 1 percent uniformly applied to a subscriber's intrastate telephone service, other than one-way radio paging service and universal telephone service, both within a service area and between service areas, to allow telephone corporations to recover costs as they are incurred under this section. The surcharge shall be in effect until January 1, 1995. The commission shall require that the programs implemented under this section be identified on subscribers' bills as "communication devices funds for deaf and disabled" and shall establish a fund and require separate accounting for each of the programs implemented under this section.

(e) The commission shall determine and specify those statewide organizations representing the deaf or severely hearing impaired which shall receive a telecommunications device pursuant to subdivision (a) or a dual party relay system pursuant to subdivision (b), or both, and in which offices the equipment shall be installed in the case of an organization having more than one office. The commission shall direct the telephone corporations subject to its jurisdiction to comply with its determinations and specifications in this regard.

(f) The commission shall annually review the surcharge level and the balances in the funds established pursuant to subdivision (d). Until January 1, 1995, the commission shall be authorized to make, within the limits set by subdivision (d), any necessary adjustments to the surcharge to ensure that the programs supported thereby are adequately funded and that the fund balances are not excessive. A fund balance which is projected to exceed six months' worth of projected expenses at the end of the fiscal year is excessive.

(g) The commission shall prepare and submit to the Legislature, on or before December 31, 1988, and annually thereafter, a report on the fiscal status of the programs established and funded pursuant to this section and Section 2881.1. The report shall include a statement

of the surcharge level established pursuant to subdivision (d) and revenues produced by the surcharge, an accounting of program expenses, and an evaluation of options for controlling those expenses and increasing program efficiency, including, but not limited to, all of the following proposals:

(1) The establishment of a means test for persons to qualify for program equipment or free or reduced charges for the use of telecommunication services.

(2) The imposition of limits or other restrictions on maximum usage levels for the relay service, which shall include the development of a program to provide basic communications requirements to relay users at discounted rates and, for usage in excess of those basic requirements, at rates which recover the full costs of service.

(3) More efficient means for obtaining and distributing equipment to qualified subscribers.

(4) The establishment of quality standards for increasing the efficiency of the relay system.

CHAPTER 715

An act to add Section 25143.10 to the Health and Safety Code, relating to hazardous waste.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 25143.10 is added to the Health and Safety Code, to read:

25143.10. (a) Except as provided in subdivisions (e) and (f), any person who recycles more than 100 kilograms per month of recyclable material under a claim that the material qualifies for exclusion or exemption pursuant to Section 25143.2 shall, on or before July 1, 1992, and every two years thereafter, provide to the local health officer or other local public officer authorized to implement this chapter pursuant to Section 25180, all of the following information, using the format established pursuant to subdivision (d), in writing:

(1) The name, site address, mailing address, and telephone number of the owner or operator of any facility that recycles the material.

(2) The name and address of the generator of the recyclable material.

(3) Documentation that the requirements of any exemptions or exclusions pursuant to Section 25143.2 are met, including, but not limited to, all of the following:

(A) Where a person who recycles the material is not the same person who generated the recyclable material, documentation that there is a known market for disposition of the recyclable material and any products manufactured from the recyclable material.

(B) Where the basis for the exclusion is that the recyclable material is used or reused to make a product or as a safe and effective substitute for a commercial product, a general description of the material and products, identification of the constituents or group of constituents, and their approximate concentrations, which would render the material or product hazardous under the regulations adopted pursuant to Sections 25140 and 25141, if it were a waste, and the means by which the material is beneficially used.

(b) The governing body of a city or county may adopt an ordinance or resolution pursuant to Section 510 to pay for the actual expenses of the activities carried out by local health officers or other local public officers pursuant to subdivision (a).

(c) If a person who recycles material under a claim that the material qualifies for exclusion or exemption pursuant to Section 25143.2 is not the same person who generated the recyclable material, the person who recycles the material shall, on or before July 1, 1992, and every two years thereafter, provide a copy of the information required to be submitted pursuant to subdivision (a) to the generator of the recyclable material.

(d) The person providing the information required by subdivision (a) shall use a format developed by the California Conference of Directors of Environmental Health in consultation with the department. The department shall distribute the format to local health officers or other local public officers authorized to implement this chapter pursuant to Section 25180.

(e) A recyclable material generated in a product or raw material storage tank, a product or raw material transport vehicle or vessel, a product or raw material pipeline, or in a manufacturing process unit or an associated nonwaste treatment manufacturing unit is not subject to the requirements of this section, until the recyclable material exits the unit in which it was generated, unless the unit is a surface impoundment, or unless the material remains in the unit for more than 90 days after the unit ceases to be operated for manufacturing, storage, or transportation of the product or raw material.

(f) A local health officer or other local public officer authorized to implement this chapter pursuant to Section 25180 may exempt from subdivision (a) any person who operates antifreeze recycling units or solvent distillation units, where the recycled material is returned to productive use at the site of generation, or may require less information than that required under subdivision (a) from such a person.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district

will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. SEC. 45. Section 73687 of the Government Code is amended to read:

SEC. 46. Section 73691 of the Government Code is amended to read:

Step 3. $42,491
Step 4. $44,615

Reporters shall initially be placed at step 1 of the salary schedule except reporters may be placed at a higher step with the approval of the county administrative officer, and shall be advanced one step annually upon the anniversary date of such employment. If, because of recruitment difficulties, it is necessary to appoint a court reporter at a step of the salary schedule which is above the step at which any court reporters are currently employed, all court reporters below that step will move to the higher step at the discretion of the judges of the court. Each such reporter shall accrue and be entitled to receive sick leave benefits at the rate of 3.6924 hours of sick leave with pay for each pay period or major fraction thereof, served up to an accumulative total of 156 working days. Each such reporter shall accrue and receive vacation at the same rate as judges of such court not to exceed 21 working days a year which may be accrued not to exceed 42 days to be taken at such time as the judge to which he or she has been assigned consents.

SEC. 47. Section 73692 of the Government Code is amended to read:

73692. Pursuant to Section 72194, the judges of the court may appoint as many additional reporters as the business of the court requires, who shall be known as official reporters pro tempore. Each pro tempore reporter shall be paid one hundred forty-eight dollars and twenty-nine cents ($148.29) for a full day on duty under order of the court. For purposes of receiving the above compensation, one or more of the following shall apply:

(1) The court has indicated in advance that the pro tempore assignment is for a full day.

(2) The pro tempore reporter was on duty for more than four hours.

Each pro tempore reporter shall be paid eighty-six dollars and thirty-eight cents ($86.38) for one half day of duty under order of the court when (a) the court has indicated in advance that the pro tempore assignment is for a half day and the pro tempore reporter is on duty for four hours or less, generally exclusive of the noon recess; or (b) the court has indicated in advance that the pro tempore assignment is for a full day but the pro tempore reporter is on duty for four hours or less and consents to being released for the balance of the day.

Where a pro tempore reporter has agreed to a one-half day assignment, the courts shall make every practicable effort to assure that the pro tempore reporter shall not be on duty for longer than four hours, unless the pro tempore reporter agrees with the court to work beyond four hours. In the latter case, the full-day pro tempore rate of one hundred forty-eight dollars and twenty-nine cents ($148.29) shall apply.

Nothing herein shall be construed to limit the court's authority to in all instances pay a pro tempore reporter at the rate of one hundred forty-eight dollars and twenty-nine cents ($148.29) when, in the court's judgment, that rate is necessary to obtain pro tempore reporter services for the court.

The above payments shall upon order of the court be a charge against the general fund of the county.

(b) The Legislature finds and declares that the matter of appointing, promoting, demoting, and dismissing persons in positions with the municipal courts and all other aspects of the personnel management of municipal courts of Orange County is one for local concern. It further finds and declares that wherever possible such personnel management may grant to persons in positions with the municipal courts similar treatment with persons in positions with the County of Orange who are performing similar duties and who possess similar qualifications.

The personnel committee may adopt rules and regulations providing for a personnel system for all municipal courts of Orange County which may provide for similar treatment for employees and attachés of the several courts as is provided for Orange County employees generally. In so providing for a personnel system, the judges may adopt all or any part of the personnel and salary resolution or appropriate memoranda of understanding of the County of Orange.

(d) With the approval of the board of supervisors, the personnel system adopted by the personnel committee and made applicable to all the municipal courts of Orange County may be administered by the County of Orange through its personnel department. The board of supervisors may withdraw its approval at any time.

(e) If an increase in the business of the court or any other emergency requires a greater number of attachés or employees for the prompt and faithful discharge of the business of the court than the number expressly provided in this article or requires the performance of duties of positions in a class not expressly provided in this article, a majority of the judges of any of the courts, with the approval of the board of supervisors, may establish additional titles, pay rates, and positions as they deem necessary for the performance of the duties and exercise of the powers conferred by law upon the

courts. Rates of compensation of such other officers, attachés, and employees may be set by joint action and approval of the board of supervisors and a majority of the municipal court judges of Orange County. The establishment of additional titles, positions, and pay rates and changes in compensation made pursuant to this subdivision shall be on an interim basis and shall expire on January 1 of the second year following the year in which such establishment or change is made. The provisions of this section are directory only and are not intended to affect the application of Section 72150.

There shall be two judges representing the municipal courts selected by a majority vote of the judges on the Municipal Court Judges Personnel Committee. There shall be two judges representing the superior court selected by a majority vote of the members of the Superior Court Marshal's Personnel Committee. The fifth member of the committee shall be selected by a majority vote of the aforementioned four members and may be selected from judges of either the municipal or superior court. If the four members cannot agree upon a fifth member, then the fifth member shall be selected by the judges of the superior court and the judges of the municipal courts in Orange County by a majority vote of their aggregate number. The five members shall, by majority vote, select one member to act as the committee's chair. The selection of the members of the Joint Marshal Personnel Committee shall occur no later than the 31st of January of each year with the term of office to be one year. Vacancies that occur within the term of appointment shall be filled by the original appointing body.

The Joint Marshal Personnel Committee shall hear all grievances referred to step 3 of a grievable action. to read:

42846. (a) The board may expend available moneys to perform any cleanup, abatement, or remedial work required under the circumstances set forth in Section 42845 which in its judgment is required by the magnitude of endeavor or the need for prompt action to prevent substantial pollution, nuisance, or injury to the public health or safety. The action may be taken in default of, or in addition to, remedial work by the violator or other persons, and regardless of whether injunctive relief is being sought.

(b) The board may perform the work itself, or by or in cooperation with any other governmental agency, and may use rented tools or equipment, either with operators furnished or unoperated. Notwithstanding any other provisions of law, the board may enter into oral contracts for that work, and the contracts, whether written or oral, may include provisions for equipment rental and in addition the furnishing of labor and materials necessary to accomplish the work. The contracts are exempt from approval by the Department of General Services pursuant to Section 10295 of the Public Contract Code.

(2) The owner or operator has established a trust fund or equivalent financial arrangement acceptable to the board, as specified in Article 4 (commencing with Section 43600).

(3) The amounts that the owner or operator will deposit annually in the trust fund or equivalent financial arrangement acceptable to the board will ensure adequate resources for closure and postclosure maintenance.

(b) Submit to the regional water board, the local enforcement agency, and the board a plan for the closure of the landfill and a plan for the postclosure maintenance of the landfill.

SEC. 28. Section 43503 of the Public Resources Code is amended to read:

The closure and postclosure maintenance plans shall be included in that review. If the owner or operator intends to close the solid waste landfill on or before September 28, 1992, or if

the solid waste landfill does not have sufficient permitted capacity to operate after September 28, 1992, the owner or operator shall submit the plans on or before July 1, 1990, or upon application to become an operator of a solid waste facility pursuant to Section 44001.

(b) If the solid waste facility is not in compliance within that period, the enforcement agency shall revoke the operating permit of the solid waste facility until the violations of state minimum standards are remedied. If a closed or abandoned disposal site is not in compliance within the one-year period, the unremedied condition is prima facie evidence of negligence; and, in any action for damages against the owner of the property for injury caused by the unremedied condition, the burden of proving that the injury was not caused by the unremedied condition shall be on the owner of the property.

(c) The enforcement agency may recover any costs incurred pursuant to this section by charging the fee authorized by Section 41900.

SEC. 31. Section 44800 of the Public Resources Code is amended to read:

44800. All hearings required to be conducted under this chapter or Chapter 1 (commencing with Section 45000) of Part 5 by a local governing body shall be conducted by a hearing panel of three persons appointed by the chairperson of the local governing body of the enforcement agency under either of the following alternatives:

This subdivision does not limit the authority of the board to award grants of funds from the account in excess of, or in addition to, the minimum grant amounts set forth in this subdivision, in accordance with the grant criteria adopted pursuant to Section 46205.

SEC. 39. Section 48009 of the Public Resources Code is repealed.

SEC. 40. Section 48010 of the Public Resources Code is repealed.

CHAPTER 718

An act to amend Section 41781 of, and to add Section 41781.1 to, the Public Resources Code, relating to solid waste, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 41781 of the Public Resources Code, as amended by Section 19 of Chapter 1355 of the Statutes of 1990, is amended to read:

41781. (a) For the purpose of determining the base amount of solid waste from which source reduction, recycling, and composting levels shall be calculated, "solid waste" includes only the following:

(1) Materials in the waste stream generated within a local agency's jurisdiction, the types and quantities of which were disposed of at a permitted disposal facility as of January 1, 1990. Nothing in this section requires local agencies to perform waste characterization in addition to the waste characterization requirements established under Sections 41030, 41031, 41331, and 41332.

(2) The amount of solid waste diverted from a landfill or transformation facility through source reduction, recycling, or composting.

(b) For the purposes of this section, "solid waste" does not include

any of the following:

(1) Agricultural wastes, except agricultural wastes which were disposed of at a permitted disposal facility as of January 1, 1990, which are diverted, and which are recycled, composted, or reused.

(2) Inert solids, including inert solids used for structural fill, except inert solids which were disposed of at a permitted disposal facility as of January 1, 1990, which are diverted, and which are recycled or reused for paving materials or other construction-related materials.

(3) Scrap metals, except scrap metals which were disposed of at a permitted disposal facility as of January 1, 1990, which are diverted, and which are recycled or reused.

(4) Discarded, white-coated major appliances, except those discarded, white-coated major appliances which were disposed of at a permitted disposal facility as of January 1, 1990, which are diverted, and which are recycled, or refurbished and reused.

(5) Sludge.

(6) Another waste product which would not normally be disposed of at a landfill or transformation facility.

(c) For the purposes of this chapter, the amount of solid waste from which the required reductions are measured shall be the amount of solid waste existing on January 1, 1990, with future adjustments for increases or decreases in the quantity of waste caused only by changes in population and changes in the number or size of governmental, industrial, or commercial operations in the jurisdiction.

(d) For the purpose of determining recycling levels required pursuant to this article, counties and cities shall include all existing residential, commercial, and industrial source reduction, recycling, and composting activities that divert solid waste from solid waste landfills and transformation facilities.

(e) On or before March 1, 1991, the board, in consultation and with the cooperation of the state water board and the State Department of Health Services, shall prepare and submit to the Legislature and the Governor a report on whether or not to include sludge in the waste diversion requirements established under Section 41780. The report shall include, but is not limited to, all of the following:

(1) A description and evaluation of the various options for disposal and reuse of sludge, including, but not limited to, composting, cocomposting, land application, incineration, ocean disposal, and landfill disposal.

(2) An evaluation of the environmental impacts of the various disposal and reuse options, including, but not limited to, impacts on surface, marine, and ground water quality and impacts on air quality.

(3) An evaluation of the public health impacts of the various disposal and reuse options, including impacts from ingestion of, and skin contact with, sludge.

(4) An evaluation of the adequacy of existing federal and state

statutes and regulatory programs designed to regulate sludge disposal and reuse, including, but not limited to, adequacy of current funding levels for regulatory programs.

(5) Recommendations on the best available methods to dispose or reuse sludge to ensure the maximum protection of public health and the environment.

(f) This section shall remain in effect until July 1, 1992, and as of that date is repealed.

SEC. 2. Section 41781 of the Public Resources Code, as amended by Section 20 of Chapter 1355 of the Statutes of 1990, is amended to read:

41781. (a) For the purpose of determining the base rate of solid waste from which source reduction, recycling, and composting levels shall be calculated, "solid waste" includes only the following:

(1) Materials in the waste stream generated within a local agency's jurisdiction, the types and quantities of which were disposed of at a permitted disposal facility as of January 1, 1990. Nothing in this section requires local agencies to perform waste characterization in addition to the waste characterization requirements established under Sections 41030, 41031, 41331, and 41332.

(2) The amount of solid waste diverted from a landfill or transformation facility through source reduction, recycling, or composting.

(b) For the purposes of this section, "solid waste" does not include any of the following:

(1) Agricultural wastes, except agricultural wastes which were disposed of at a permitted disposal facility as of January 1, 1990, which are diverted, and which are recycled, composted, or reused.

(4) Discarded, white-coated major appliances, except those discarded, white-coated major appliances which were disposed of at a permitted disposal facility as of January 1, 1990, which are diverted, and which are recycled, or refurbished and reused.

(5) Another waste product which would not normally be disposed of at a landfill or transformation facility.

(c) For the purposes of this chapter, the amount of solid waste from which the required reductions are measured shall be the amount of solid waste existing on January 1, 1990, with future adjustments for increases or decreases in the quantity of waste caused only by changes in population or changes in the number or size of governmental, industrial, or commercial operations in the

jurisdiction.

(d) For the purpose of determining recycling levels required pursuant to this article, counties and cities shall include all existing residential, commercial, and industrial source reduction, recycling, and composting activities that divert solid waste from solid waste landfills and transformation facilities.

(e) This section shall become operative on July 1, 1992.

SEC. 3. Section 41781.1 is added to the Public Resources Code, to read:

41781.1. Prior to determining that the diversion of sludge may be counted toward the diversion requirements established under Section 41780, but within 180 days of receiving such a request, the board shall do both of the following:

(a) (1) Make a finding at a public hearing, based upon substantial evidence, that the sludge has been adequately analyzed and will not pose a threat to public health or the environment for the reuse which is proposed.

Except as provided in paragraph (2), prior to making the finding required to be made pursuant to this subdivision, the board shall consult with, and obtain the concurrence in the finding of, each of the following agencies, to the extent of each agency's jurisdiction over the sludge or its intended reuse:

(A) The State Water Resources Control Board and the California Regional Water Quality Control Board.

(B) The State Department of Health Services.

(C) The State Air Resources Board and air pollution control districts and air quality management districts.

(D) The Department of Toxic Substances Control.

Nothing in this section is intended to require an agency to perform any assessment or review of sludge other than the assessment or review required by other provisions of law administered by these agencies.

(2) If, prior to the board making the finding required to be made pursuant to this subdivision, an agency specified in paragraph (1) issues a permit, waste discharge requirements, or imposes other conditions for the reuse of sludge, the agency shall have been deemed to have concurred in that finding.

(b) Establish, or ensure that one or more of the agencies specified in paragraph (1) of subdivision (a) establishes, ongoing monitoring requirements which ensure that the proposed sludge reuse does not pose a threat to public health or the environment.

(c) It is not the intent of this section to require the board, or the agencies listed in paragraph (1) of subdivision (a), to impose additional requirements or approval procedures for sludge or sludge reuse applications, apart from the requirements and approval procedures already imposed by state and federal law. It is the intent of this section to require that the board determine that each sludge diversion for which diversion credit is sought, meets all applicable requirements of state and federal law and thereby provides for

maximum protection of public health and the environment.

SEC. 4. The sum of one hundred sixty-eight thousand dollars ($168,000) is hereby appropriated from the Integrated Waste Management Account in the Integrated Waste Management Fund to the California Integrated Waste Management Board for purposes of the development and implementation of sludge reuse regulations. Any regulations developed pursuant to this section shall provide for maximum protection of public health and the environment consistent with the requirements of state and federal law.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to extend the operative effect of existing law beyond October 1, 1991, without interruption, and in order to implement city or county source reduction and recycling elements at the earliest possible time, it is necessary that this act take effect immediately.

Sec. 6901 et seq.).

(g) The termination date for interim status for any land disposal facility, as defined in subdivision (h) of Section 25179.3, which is in existence on the effective date of any statute or the regulation adopted pursuant to that statute which subjects the facility to hazardous waste facilities permit requirements under this chapter, and which is granted interim status under this section, is the date 12 months after the date on which the facility first becomes subject to the hazardous waste facilities permit requirements, unless one of the following applies:

In taking final action pursuant to this section, the department shall either issue the hazardous waste facilities permit or make a final denial of the application. The department may extend final action for one year upon its determination that the permit application is complete and that more time is needed for review and evaluation of the application.

(b) On July 1, 1992, interim status granted for any existing offsite hazardous waste facility which is not subject to the time limits specified in Section 25200.7 shall be terminated, unless the department received an application for a final hazardous waste facilities permit pursuant to Section 25200 on or before June 30, 1992.

(2) The facility capacity authorized in the facility's original hazardous waste facilities permit, grant of interim status, or any state or local agency permit allowing the construction or operation of a facility for the burning of hazardous waste, granted on or after January 1, 1990.

(c) Paragraph (1) of subdivision (a) does not apply to any project which does any of the following:

(1) Exclusively burns digester gas produced from manure or any other solid or semisolid animal waste.

(2) Exclusively burns methane gas produced from a disposal site as defined in Section 66714.1 of the Government Code, which is used only for the disposal of solid waste as defined in Section 66719 of the Government Code.

(3) Exclusively burns forest, agricultural, wood, or other biomass wastes.

(4) Exclusively burns hazardous waste in an incineration unit which is transportable and which is either at a site for not longer than three years or is part of a remedial or removal action. For purposes of this paragraph, "transportable" means any equipment which performs a "treatment" as defined in Section 66216 of Title 22 of the California Code of Regulations, and which is transported on a vehicle as defined in Section 66230 of Title 22 of the California Code of Regulations.

(5) Exclusively burns refinery waste in a flare on the site of generation.

(6) Exclusively burns in a flare methane gas produced at a

municipal sewage treatment plant.

(7) Exclusively burns hazardous waste, or exclusively burns hazardous waste as a supplemental fuel, as part of a research, development, or demonstration project which, consistent with federal regulations implementing the Resource Conservation and Recovery Act of 1976 (Public Law 94-580) and amendments thereto, has been determined to be innovative and experimental by the State Department of Health Services and which is limited in type and quantity of waste to that necessary to determine the efficacy and performance capabilities of the technology or process; provided, however, that any facility which operated as a research, development, or demonstration project and for which an application is thereafter submitted for a hazardous waste facility permit for operation other than as a research, development, or demonstration project shall be considered a new facility for the burning of hazardous waste and shall be subject to subdivision (a) of Section 21151.1.

(8) Exclusively burns soils contaminated only with petroleum fuels or the vapors from these soils.

(9) Exclusively treats less than 3,000 pounds of hazardous waste per day in a thermal processing unit operated in the absence of open flame, and submits a worst-case health risk assessment of the technology to the State Department of Health Services for review and distribution to the interested public. This assessment shall be prepared in accordance with guidelines set forth in the Air Toxics Assessment Manual of the California Air Pollution Control Officers Association.

(10) Exclusively burns less than 1,200 pounds of infectious waste per day, as defined in Section 25117.5 of the Health and Safety Code, on hospital sites.

(11) Exclusively burns chemicals and fuels as part of firefighter training.

(12) Exclusively conducts open burns of explosives subject to the requirements of the local or regional air pollution control district and in compliance with OSHA and Cal-OSHA regulations.

(13) Exclusively conducts onsite burning of less than 3,000 pounds per day of fumes directly from a manufacturing or commercial process.

(d) Paragraph (1) of subdivision (a) does not apply to any project for which the State Energy Resources Conservation and Development Commission has assumed jurisdiction under Chapter 6 (commencing with Section 25500) of Division 15.

(e) Paragraphs (2) and (3) of subdivision (a) shall not apply if the facility only manages hazardous waste which is identified or listed pursuant to Section 25140 or 25141 on or after January 1, 1992, but not before that date, or only conducts activities which are regulated pursuant to Chapter 6.5 (commencing with Section 25100) of Division 20 of the Health and Safety Code on or after January 1, 1992, but not before that date.

(f) This section does not exempt any project from any other requirement of this division.

(g) For purposes of this section, offsite facility means a facility that serves more than one generator of hazardous waste.

SEC. 7. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction or because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 720

An act to add Section 199.2 to the Code of Civil Procedure, and to add Section 70142.13 to the Government Code, relating to courts.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 199.2 is added to the Code of Civil Procedure, to read:

199.2. In Placer County prospective jurors residing in the Tahoe Judicial District, except as otherwise provided in this section, shall only be included in trial court venires of divisions of the superior court located within that judicial district during the months of November, December, January, and February. However, each prospective juror residing in the Tahoe Judicial District shall be given the opportunity to elect to serve on juries with respect to trials at other locations during those months in accordance with the rules of the superior court, which shall afford to each eligible resident of the county an opportunity for selection as a trial jury venireman. Additionally, nothing in this section shall preclude the superior court, in its discretion, from ordering a countywide venire in the interest of justice during any time of the year.

SEC. 2. Section 70142.13 is added to the Government Code, to read:

70142.13. (a) In the County of Placer, the court commissioner appointed pursuant to Section 70141 shall hold office at the pleasure of a majority of the judges. Subject to subdivision (c), the superior court may provide that the commissioner, in addition to the duties

prescribed in Section 259 of the Code of Civil Procedure, shall perform the duties of a probate commissioner appointed pursuant to Section 69897 of the Government Code. The superior court may also authorize the commissioner to perform the duties of a juvenile court referee appointed pursuant to Section 247 of the Welfare and Institutions Code, and other duties as specified by the superior court.

(b) The superior court shall not appoint a commissioner pursuant to Section 70141 unless there is a prior finding by the board of supervisors that there are sufficient funds for this purpose.

(c) Any commissioner authorized to perform additional duties pursuant to this section shall have been admitted to practice law in California for not less than five years, but in no case shall a commissioner engage in the practice of law during his or her period of service as a commissioner.

(d) Any commissioner authorized to perform additional duties pursuant to this section shall receive compensation pursuant to a contract recommended by the superior court and approved annually by the board of supervisors. The presiding judge of the superior court shall specify the days, hours, and court locations for the commissioner.

(e) The commissioner appointed pursuant to Section 70141 shall not be counted in the calculation of trial court funding pursuant to Sections 77200 and 77202, and the salary for this position shall not be considered as a part of court operations for Placer County for purposes of Sections 77203 and 77204.

CHAPTER 721

An act to amend Sections 207.1, and 1752.15 of, and to repeal Section 1732.4 of, the Welfare and Institutions Code, relating to juveniles.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 207.1 of the Welfare and Institutions Code is amended to read:

207.1. (a) No court, judge, referee, peace officer, or employee of a detention facility shall knowingly detain any minor in a jail or lockup, except as provided in subdivision (b) or (d).

(b) Any minor who is alleged to have committed an offense described in subdivision (b) of Section 707, whose case is transferred to a court of criminal jurisdiction pursuant to Section 707.1 after a finding is made that he or she is not a fit and proper subject to be dealt with under the juvenile court law, may be detained in a jail or other secure facility for the confinement of adults, if all of the

following conditions are met:

(1) The juvenile court judge makes a finding at the conclusion of the fitness hearing that the minor's further detention in the juvenile hall would endanger the safety of the public or would be detrimental to the other minors in the juvenile hall.

(2) Contact between the minor and adults in the facility is restricted in accordance with Section 208.

(3) The minor is adequately supervised.

(4) The adult facility has been approved by the Youth Authority as an appropriate place for the detention of minors so transferred.

(c) A minor who is found not to be a fit and proper subject to be dealt with under the juvenile court law shall, upon the conclusion of the fitness hearing, be entitled to be released on bail or on his or her own recognizance upon the same circumstances, terms, and conditions as an adult who is alleged to have committed the same offense.

(d) A minor 14 years of age or older who is taken into temporary custody by a peace officer on the basis of being a person described by Section 602, and who, in the reasonable belief of the peace officer, presents a serious security risk of harm to self or others, may be securely detained in a law enforcement facility that contains a lockup for adults, if all of the following conditions are met:

(1) The minor is held in temporary custody for the purpose of investigating the case, facilitating release of the minor to a parent or guardian, or arranging transfer of the minor to an appropriate juvenile facility.

(2) The minor is detained in the law enforcement facility for a period that does not exceed six hours except as provided in subdivision (g).

(3) The minor is informed at the time he or she is securely detained of the purpose of the secure detention, of the length of time the secure detention is expected to last, and of the maximum six-hour period the secure detention is authorized to last. In the event an extension is granted pursuant to subdivision (g), the minor shall be informed of the length of time the extension is expected to last.

(4) Contact between the minor and adults confined in the facility is restricted in accordance with Section 208.

(5) The minor is adequately supervised.

(6) A log or other written record is maintained by the law enforcement agency showing the offense which is the basis for the secure detention of the minor in the facility, the reasons and circumstances forming the basis for the decision to place the minor in secure detention, and the length of time the minor was securely detained.

Any other minor who is taken into temporary custody by a peace officer on the basis that the minor is a person described by Section 602, may be taken to a law enforcement facility that contains a lockup for adults and may be held in temporary custody in the facility for the purposes of investigating the case, facilitating the release of the

minor to a parent or guardian, or arranging for the transfer of the minor to an appropriate juvenile facility. However, while in the law enforcement facility, the minor may not be securely detained and shall be supervised in a manner so as to ensure that there will be no contact with adults in custody in the facility. If the minor is held in temporary, nonsecure custody within such a facility, the peace officer shall exercise one of the dispositional options authorized by Sections 626 and 626.5 without unnecessary delay and, in every case, within six hours.

As used in this subdivision, "law enforcement facility" includes a police station or a sheriff's station, but does not include a jail, as defined in subdivision (i).

(e) The Department of the Youth Authority shall assist law enforcement agencies, probation departments, and courts with the implementation of this section by doing all of the following:

(1) The Department of the Youth Authority shall advise each law enforcement agency, probation department, and court affected by this section as to its existence and effect.

(2) The Department of the Youth Authority shall inquire of the official in charge of each jail or lockup that reported the confinement of a minor in calendar year 1984 or 1985 as to whether the jail or lockup may be used for the future confinement of any minor pursuant to subdivision (b), and if the Department of the Youth Authority is informed that the jail or lockup may be so used, it shall inspect the jail or lockup and determine whether it is an appropriate place for the secure detention of minors in conformity with the requirements of law.

(3) The Department of the Youth Authority shall make available and shall, upon request, provide technical assistance to each governmental agency that reported the confinement of a minor in a jail or lockup in calendar year 1984 or 1985. The purpose of this technical assistance is to develop alternatives to the use of jails or lockups for the confinement of minors. These alternatives may include secure or nonsecure facilities located apart from an existing jail or lockup; improved transportation or access to juvenile halls or other juvenile facilities; and other programmatic alternatives recommended by the Department of the Youth Authority. The technical assistance shall take such form as the Department of the Youth Authority deems appropriate for effective compliance with this section.

(f) The Department of the Youth Authority may exempt a county that does not have a juvenile hall, or may exempt an offshore law enforcement facility, from compliance with this section for a reasonable period of time, until July 1, 1991, for the purpose of allowing the county or the facility to develop alternatives to the use of jails and lockups for the confinement of minors, if all of the following conditions are met:

(1) The county or the facility submits a written request to the Department of the Youth Authority for an extension of time to

comply with this section.

(2) The Department of the Youth Authority agrees to make available, and the county or the facility agrees to accept, technical assistance to develop alternatives to the use of jails and lockups for the confinement of minors during the period of the extension.

(3) The county or the facility requesting the extension submits to the Department of the Youth Authority a written plan for full compliance with this section by September 1, 1987.

(g) (1) Under the limited conditions of inclement weather, acts of God, or natural disasters that result in the temporary unavailability of transportation, an extension of the six-hour maximum period of detention set forth in paragraph (2) of subdivision (d) may be granted to a county by the Department of the Youth Authority. The extensions may only be granted by the Department of the Youth Authority on an individual, case-by-case basis. If the extension is granted, the detention of minors under those conditions shall not exceed the duration of the special conditions, plus a period reasonably necessary to accomplish transportation of the minor to a suitable juvenile facility, not to exceed six hours after the restoration of available transportation.

A county that receives an extension under this paragraph shall comply with the requirements set forth in subdivision (d). The county shall also provide a written report to the Department of the Youth Authority that specifies when the inclement weather, act of God, or natural disaster ceased to exist, when transportation availability was restored, and when the minor was delivered to a suitable juvenile facility. In the event that the minor was detained for a period in excess of 24 hours, the Department of the Youth Authority shall verify the information contained in the report.

(2) Under the limited condition of temporary unavailability of transportation, an extension of the six-hour maximum period of detention set forth in paragraph (2) of subdivision (d) may be granted by the Department of the Youth Authority to an offshore law enforcement facility. The extension may only be granted by the Department of the Youth Authority on an individual, case-by-case basis. If the extension is granted, the detention of minors under those conditions shall only extend until the next available mode of transportation can be arranged.

An offshore law enforcement facility that receives an extension under this paragraph shall comply with the requirements set forth in subdivision (d). The facility shall also provide a written report to the Department of the Youth Authority that specifies when the next mode of transportation became available, and when the minor was delivered to a suitable juvenile facility. In the event that the minor was detained for a period in excess of 24 hours, the Department of the Youth Authority shall verify the information contained in the report.

(3) At least annually, the Department of the Youth Authority shall review and report on extensions sought and granted under this

subdivision. If, upon that review, the Department of the Youth Authority determines that a county has sought one or more extensions resulting in the excessive confinement of minors in adult facilities, or that a county is engaged in a pattern and practice of seeking extensions, it shall require the county to submit a detailed explanation of the reasons for the extensions sought and an assessment of the need for a conveniently located and suitable juvenile facility. Upon receiving this information, the Department of the Youth Authority shall make available, and the county shall accept, technical assistance for the purpose of developing suitable alternatives to the confinement of minors in adult lockups. Based upon the information provided by the county, the Department of the Youth Authority may also place limits on, or refuse to grant, future extensions requested by the county under this subdivision.

(h) Any county that did not have a juvenile hall on January 1, 1987, may establish a special purpose juvenile hall, as defined by the Department of the Youth Authority, for the detention of minors for a period not to exceed 96 hours. Any county that had a juvenile hall on January 1, 1987, may, in addition to the juvenile hall, also establish a special purpose juvenile hall. The Department of the Youth Authority shall prescribe minimum standards for any such facility.

(i) (1) As used in this chapter, "jail" means any building which contains a locked facility administered by a law enforcement or governmental agency, the purpose of which is to detain adults who have been charged with violations of criminal law and are pending trial, or to hold convicted adult criminal offenders sentenced for less than one year.

(2) As used in this chapter, "lockup" means any locked room or secure enclosure under the control of a sheriff or other peace officer which is primarily for the temporary confinement of adults upon arrest.

(3) As used in this section "offshore law enforcement facility" means a sheriff's station containing a lockup for adults that is located on an island located at least 22 miles from the California coastline.

(j) Nothing in this section shall be deemed to prevent a peace officer or employee of an adult detention facility or jail from escorting a minor into the detention facility or jail for the purpose of administering an evaluation, test, or chemical test pursuant to Section 23157 of the Vehicle Code, if all of the following conditions are met:

(1) The minor is taken into custody by a peace officer on the basis of being a person described by Section 602 and there is no equipment for the administration of the evaluation, test, or chemical test located at a juvenile facility within a reasonable distance of the point where the minor was taken into custody.

(2) The minor is not locked in a cell or room within the adult detention facility or jail, is under the continuous, personal supervision of a peace officer or employee of the detention facility or jail, and is not permitted to come in contact or remain in contact

with in-custody adults.

(3) The evaluation, test, or chemical test administered pursuant to Section 23157 of the Vehicle Code is performed as expeditiously as possible, so that the minor is not unnecessarily delayed within the adult detention facility or jail. Upon completion of the evaluation, test, or chemical test, the minor shall be removed from the detention facility or jail as soon as reasonably possible. No minor shall be held in custody in an adult detention facility or jail under the authority of this paragraph for a period in excess of two hours.

SEC. 2. Section 1732.4 of the Welfare and Institutions Code is repealed.

SEC. 3. Section 1752.15 of the Welfare and Institutions Code is amended to read:

1752.15. The director may enter into contracts, with the approval of the Director of Finance, with any county of this state upon request of the board of supervisors thereof, wherein the Department of the Youth Authority agrees to furnish temporary emergency detention facilities and necessary services incident thereto, for persons under the age of 18 years who are in the custody of the county probation officer pursuant to provisions of Chapter 2 (commencing with Section 200) of Part 1 of Division 2. Facilities of the department may be used only on a temporary basis when existing county juvenile facilities are rendered unsafe or inadequate because of a natural or manmade disaster, or when the continued presence of the minor or minors in the county juvenile facilities would, in the opinion of the judge of the juvenile court having jurisdiction over the minor, of the chief probation officer of the county, and of the director, present a significant risk of violence or escape. They may not be used for the detention of a person who is alleged to be or has been adjudged to be a person described by Section 300 or Section 601.

Whenever any person is detained in a California Youth Authority facility located in a county other than the county which has contracted for services pursuant to this section, the county shall provide for adequate consultation between the minor and his or her attorney; and, if the minor's parent or guardian lacks adequate private means of transportation, and if the minor has been detained in the facility for more than 10 days, the county shall make reasonable efforts to provide for visitation between the minor and his or her parents or guardian.

The county shall reimburse the state for the cost of these services, the cost to be determined by the director. The department shall present to the county, not more than once a month, a claim for the amount due the state under this section which the county shall process and pay pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code.

CHAPTER 722

An act to amend Sections 1347, 1356, and 1382 of, and to add Section 1356.1 to, the Health and Safety Code, relating to prepaid health plans.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 1347 of the Health and Safety Code is amended to read:

1347. (a) There is established in the Department of Corporations a Health Care Service Plan Advisory Committee consisting of 20 members. The members shall consist of the commissioner or the commissioner's designee; a physician and surgeon with five years' experience in providing services to enrollees of a health care service plan; a person with expertise and five years' experience in an administrative capacity of a hospital-based plan; a person with five years' experience with a corporation formed under Section 9201 of the Corporations Code; a person with five years' experience with a non-hospital-based independent practice association; a person with expertise and five years' experience in a health care service plan which is a hospital-based independent practice association; a person with five years' experience in an administrative capacity with a non-hospital-based health care service plan; a person with five years' experience in an administrative capacity with a specialized health care service plan; a certified public accountant with five years' experience in auditing plans; and six public members having no financial interest in the delivery of health care services or in plans except for being enrolled in a health care service plan or specialized health care service plan.

The members shall also include two persons with five years' experience in an administrative capacity with a dental service plan, two persons with five years' experience in an administrative capacity with a vision service plan, and one person with five years' experience in an administrative capacity with a mental health service plan, all of whom shall be appointed by the commissioner for a term of three years commencing January 1, 1989. With respect only to one of the members appointed who is required to have five years' experience in an administrative capacity with a vision service plan, until January 1, 1996, the commissioner may at his or her discretion substitute for the five years' experience requirement compensating factors such as professional education, experience in related fields, and other factors as the commissioner deems relevant.

The members shall be appointed by the commissioner for a term of three years, except that of the members first appointed, four shall serve for a term of one year and five shall serve for a term of two

years, as designated by the commissioner.

The committee shall meet at least quarterly and at the call of the chairperson. The commissioner or the commissioner's designee shall be chairperson of the committee. The committee may establish its own rules and procedures. All members shall serve without compensation, but the six public members shall be reimbursed from department funds for expenses actually and necessarily incurred by them in the performance of their duties.

(b) The purpose of the committee is to assist and advise the commissioner in the implementation of the commissioner's duties under this chapter. The commissioner shall consult with the advisory committee on regulations and the recommendations of the committee shall be made a part of the record with regard to such regulations. The committee shall be given at least 45 days to review and comment on regulations prior to setting a notice of hearing for proposed regulations. Nothing in this subdivision prohibits the commissioner from promulgating urgency regulations pursuant to the provisions of the Administrative Procedure Act. The commissioner shall discuss budget changes relating to the administration of this chapter with the committee, and the committee may make recommendations to the commissioner regarding the proposed budget changes.

SEC. 2. Section 1356 of the Health and Safety Code, as amended by Section 5 of Chapter 1043 of the Statutes of 1990, is amended to read:

1356. (a) Each plan applying for licensure under this chapter shall reimburse the commissioner for the actual cost of processing the application, including overhead, up to an amount not to exceed twenty-five thousand dollars ($25,000). The cost shall be billed not more frequently than monthly and shall be remitted by the applicant to the commissioner within 30 days of the date of billing. The commissioner shall not issue a license to any applicant prior to receiving payment in full for all amounts charged pursuant to this subdivision.

(b) In addition to other fees and reimbursements required to be paid under this chapter, each licensed plan shall pay to the commissioner an amount as estimated by the commissioner for the ensuing fiscal year, as a reimbursement of its share of all costs and expenses, including routine financial examinations, medical surveys, and overhead, reasonably incurred in the administration of this chapter and not otherwise recovered by the commissioner under this chapter or from the General Fund. The amount may be paid in two equal installments. The first installment shall be paid on or before August 1 of each year, and the second installment shall be paid on or before December 15 of each year. The amount paid by each plan, except a plan offering only specialized health care service plan contracts, shall be twelve thousand five hundred dollars ($12,500), plus an amount up to but not exceeding an amount computed in accordance with the following schedule:

Plan Enrollment	Amount of Assessment
0 to 25,000	$0 + 35 cents for each enrollee
25,001 to 75,000	$8,750 + 23 cents for each enrollee in excess of 25,000
75,001 to 150,000	$20,250 + 20 cents for each enrollee in excess of 75,000
150,001 to 300,000	$35,250 + 17 cents for each enrollee in excess of 150,000
over 300,000	$60,750 + 15 cents for each enrollee in excess of 300,000

Plans offering only specialized health care service plan contracts shall pay seven thousand five hundred dollars ($7,500), plus an amount up to, but not exceeding, an amount computed in accordance with the following schedule:

Plan Enrollment	Amount of Assessment
0 to 25,000	$0 + 35 cents for each enrollee
25,001 to 75,000	$8,750 + 23 cents for each enrollee in excess of 25,000
75,001 to 150,000	$20,250 + 17 cents for each enrollee in excess of 75,000
150,001 to 300,000	$33,000 + 13 cents for each enrollee in excess of 150,000
over 300,000	$52,500 + 11 cents for each enrollee in excess of 300,000

The amount paid by each plan shall be for each enrollee enrolled in its plan in this state as of the preceding March 31, and shall be fixed by the commissioner by notice to all licensed plans on or before June 15 of each year. A plan that is unable to report the number of enrollees enrolled in the plan because it does not collect that data, shall provide the commissioner with an estimate of the number of enrollees enrolled in the plan and the method used for determining the estimate. The commissioner may, upon giving written notice to the plan, revise the estimate if the commissioner determines that the method used for determining the estimate was not reasonable.

In determining the amount assessed, the commissioner shall consider all appropriations from the General Fund for the support of this chapter and all reimbursements provided for in this chapter.

(c) By notice to all licensed plans on or about January 15, 1992, the commissioner may assess a pro rata special assessment on all plans of up to one-half of the amount by which the aggregate assessment increased pursuant to the additional assessment authority authorized by the statute of the 1991 portion of the 1991–92 Regular Session that amended this section.

(d) The expense of requiring nonprofit hospital service plans described in paragraph (3) of subdivision (d) of Section 1343 to

comply with the financial requirements of this chapter shall be charged against each nonprofit hospital service plan. The amount charged shall be the actual cost associated with regulating a nonprofit hospital service plan described in paragraph (3) of subdivision (d) of Section 1343, including the actual salaries or compensation paid to the persons conducting the administration and enforcement, the expenses incurred in the course thereof, and overhead costs in connection therewith as fixed by the commissioner. In determining the cost of the administration or enforcement, the commissioner may use the estimated average hourly cost for all persons of similar classification performing administration or enforcement for the fiscal year. The amounts charged shall be billed not more frequently than monthly and shall be remitted by the nonprofit hospital service plan to the commissioner within 30 days of the date of billing.

(e) Each nonprofit hospital service plan and each licensed plan may also be required to pay two thousand dollars ($2,000) plus an amount up to, but not exceeding forty-eight hundredths of one cent ($0.0048) for each enrollee for the purpose of reimbursing its share of all costs and expenses, including overhead, reasonably anticipated to be incurred by the department in administering Sections 1394.7 and 1394.8 during the current fiscal year. The amount charged shall be remitted within 30 days of the date of the commissioner's notice to the nonprofit hospital service plan and each licensed plan of the amounts owed.

(f) In no case shall the reimbursement, payment, special assessment, or other fee authorized by this section exceed the cost, including overhead, reasonably incurred in the administration of this chapter.

(g) This section shall remain in effect only until April 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before April 1, 1993, deletes or extends that date.

SEC. 2.5. Section 1356 of the Health and Safety Code, as amended by Section 5 of Chapter 1043 of the Statutes of 1990, is amended to read:

1356. (a) Each plan applying for licensure under this chapter shall reimburse the commissioner for the actual cost of processing the application, including overhead, up to an amount not to exceed twenty-five thousand dollars ($25,000). The cost shall be billed not more frequently than monthly and shall be remitted by the applicant to the commissioner within 30 days of the date of billing. The commissioner shall not issue a license to any applicant prior to receiving payment in full for all amounts charged pursuant to this subdivision.

(b) In addition to other fees and reimbursements required to be paid under this chapter, each licensed plan shall pay to the commissioner an amount as estimated by the commissioner for the ensuing fiscal year, as a reimbursement of its share of all costs and expenses, including routine financial examinations, medical surveys,

and overhead, reasonably incurred in the administration of this chapter and not otherwise recovered by the commissioner under this chapter or from the General Fund. The amount may be paid in two equal installments. The first installment shall be paid on or before August 1 of each year, and the second installment shall be paid on or before December 15 of each year. The amount paid by each plan, except a plan offering only specialized health care service plan contracts, shall be twelve thousand five hundred dollars ($12,500), plus an amount up to but not exceeding an amount computed in accordance with the following schedule:

Plan Enrollment	Amount of Assessment
0 to 25,000	$0 + 35 cents for each enrollee
25,001 to 75,000	$8,750 + 23 cents for each enrollee in excess of 25,000
75,001 to 150,000	$20,250 + 20 cents for each enrollee in excess of 75,000
150,001 to 300,000	$35,250 + 17 cents for each enrollee in excess of 150,000
over 300,000	$60,750 + 15 cents for each enrollee in excess of 300,000

Plans offering only specialized health care service plan contracts shall pay seven thousand five hundred dollars ($7,500), plus an amount up to, but not exceeding, an amount computed in accordance with the following schedule:

Plan Enrollment	Amount of Assessment
0 to 25,000	$0 + 35 cents for each enrollee
25,001 to 75,000	$8,750 + 23 cents for each enrollee in excess of 25,000
75,001 to 150,000	$20,250 + 17 cents for each enrollee in excess of 75,000
150,001 to 300,000	$33,000 + 13 cents for each enrollee in excess of 150,000
over 300,000	$52,500 + 11 cents for each enrollee in excess of 300,000

The amount paid by each plan shall be for each enrollee enrolled in its plan in this state as of the preceding March 31, and shall be fixed by the commissioner by notice to all licensed plans on or before June 15 of each year. A plan that is unable to report the number of enrollees enrolled in the plan because it does not collect that data, shall provide the commissioner with an estimate of the number of enrollees enrolled in the plan and the method used for determining the estimate. The commissioner may, upon giving written notice to the plan, revise the estimate if the commissioner determines that the method used for determining the estimate was not reasonable.

In determining the amount assessed, the commissioner shall consider all appropriations from the General Fund for the support

of this chapter and all reimbursements provided for in this chapter.

(c) By notice to all licensed plans on or about January 15, 1992, the commissioner may assess a pro rata special assessment on all plans of up to one-half of the amount by which the aggregate assessment increased pursuant to the additional assessment authority authorized by the statute of the 1991 portion of the 1991–92 Regular Session that amended this section.

(d) The expense of requiring nonprofit hospital service plans described in paragraph (3) of subdivision (d) of Section 1343 to comply with the financial requirements of this chapter shall be charged against each nonprofit hospital service plan. The amount charged shall be the actual cost associated with regulating a nonprofit hospital service plan described in paragraph (3) of subdivision (d) of Section 1343, including the actual salaries or compensation paid to the persons conducting the administration and enforcement, the expenses incurred in the course thereof, and overhead costs in connection therewith as fixed by the commissioner. In determining the cost of the administration or enforcement, the commissioner shall use the estimated average hourly cost for all persons of similar classification performing administration or enforcement for the fiscal year. The amounts charged shall be billed not more frequently than monthly and shall be remitted by the nonprofit hospital service plan to the commissioner within 30 days of the date of billing.

(e) Each nonprofit hospital service plan and each licensed plan may also be required to pay two thousand dollars ($2,000) plus an amount up to, but not exceeding forty-eight hundredths of one cent ($0.0048) for each enrollee for the purpose of reimbursing its share of all costs and expenses, including overhead, reasonably anticipated to be incurred by the department in administering Sections 1394.7 and 1394.8 during the current fiscal year. The amount charged shall be remitted within 30 days of the date of the commissioner's notice to the nonprofit hospital service plan and each licensed plan of the amounts owed.

(f) In no case shall the reimbursement, payment, special assessment, or other fee authorized by this section exceed the cost, including overhead, reasonably incurred in the administration of this chapter.

(g) This section shall remain in effect only until April 1, 1993, and as of that date is repealed, unless a later enacted statute, which is enacted before April 1, 1993, deletes or extends that date.

SEC. 3. Section 1356 of the Health and Safety Code, as added by Section 6 of Chapter 1043 of the Statutes of 1990, is amended to read:

1356. (a) Each plan applying for licensure under this chapter shall reimburse the commissioner for the actual cost of processing the application, including overhead, up to an amount not to exceed twenty-five thousand dollars ($25,000). The cost shall be billed not more frequently than monthly and shall be remitted by the applicant to the commissioner within 30 days of the date of billing. The

commissioner shall not issue a license to any applicant prior to receiving payment in full for all amounts charged pursuant to this subdivision.

(b) In addition to other fees and reimbursements required to be paid under this chapter, each licensed plan shall pay to the commissioner an amount as estimated by the commissioner for the ensuing fiscal year, as a reimbursement of its share of all costs and expenses, including routine financial examinations, medical surveys and overhead, reasonably incurred in the administration of this chapter and not otherwise recovered by the commissioner under this chapter or from the General Fund. The amount may be paid in two equal installments. The first installment shall be paid on or before August 1 of each year, and the second installment shall be paid on or before December 15 of each year. The amount paid by each plan, except a plan offering only specialized health care service plan contracts, shall be twelve thousand five hundred dollars ($12,500), plus an amount up to but not exceeding an amount computed in accordance with the following schedule:

Plan Enrollment	Amount of Assessment
0 to 25,000	$0 + 35 cents for each enrollee
25,001 to 75,000	$8,750 + 23 cents for each enrollee in excess of 25,000
75,001 to 150,000	$20,250 + 20 cents for each enrollee in excess of 75,000
150,001 to 300,000	$35,250 + 17 cents for each enrollee in excess of 150,000
over 300,000	$60,750 + 15 cents for each enrollee in excess of 300,000

Plans offering only specialized health care service plan contracts shall pay seven thousand five hundred dollars ($7,500), plus an amount up to, but not exceeding, an amount computed in accordance with the following schedule:

Plan Enrollment	Amount of Assessment
0 to 25,000	$0 + 35 cents for each enrollee
25,001 to 75,000	$8,750 + 23 cents for each enrollee in excess of 25,000
75,001 to 150,000	$20,250 + 17 cents for each enrollee in excess of 75,000
150,001 to 300,000	$33,000 + 13 cents for each enrollee in excess of 150,000
over 300,000	$52,500 + 11 cents for each enrollee in excess of 300,000

The amount paid by each plan shall be for each enrollee enrolled in its plan in this state as of the preceding March 31, and shall be fixed by the commissioner by notice to all licensed plans on or before June 15th of each year. A plan that is unable to report the number of

enrollees enrolled in the plan because it does not collect that data, shall provide the commissioner with an estimate of the number of enrollees enrolled in the plan and the method used for determining the estimate. The commissioner may, upon giving written notice to the plan, revise the estimate if the commissioner determines that the method used for determining the estimate was not reasonable.

In determining the amount assessed, the commissioner shall consider all appropriations from the General Fund for the support of this chapter and all reimbursements provided for in this chapter.

(c) Each licensed plan shall also pay two thousand dollars ($2,000) plus an amount up to, but not exceeding, forty-eight hundredths of one cent ($0.0048) for each enrollee for the purpose of reimbursing its share of all costs and expenses, including overhead, reasonably anticipated to be incurred by the department in administering Sections 1394.7 and 1394.8 during the current fiscal year. The amount charged shall be remitted within 30 days of the date of billing.

(d) In no case shall the reimbursement, payment, or other fee authorized by this section exceed the cost, including overhead, reasonably incurred in the administration of this chapter.

(e) This section shall become operative April 1, 1993.

SEC. 4. Section 1356.1 is added to the Health and Safety Code, to read:

1356.1. Notwithstanding subdivision (f) of Section 1356, as amended by Section 5 of Chapter 1043 of the Statutes of 1990, and subdivision (d) of Section 1356, as added by Section 6 of Chapter 1043 of the Statutes of 1990, if the commissioner determines that the charges and assessments set forth in this chapter for any year are in excess of the amount necessary, or are insufficient, to meet the expenses of administration of this chapter, for that year, the assessments and charges for the following year shall be adjusted on a pro rata basis in accordance with the percentage of the excess or insufficiency as related to the actual charges and assessments for the year for which the excess or insufficiency occurred, in order to recover the actual costs of administration.

SEC. 5. Section 1382 of the Health and Safety Code is amended to read:

1382. (a) The commissioner shall conduct an examination of the fiscal and administrative affairs of any plan, and each person with whom the plan has made arrangements for administrative, management, or financial services, as often as deemed necessary to protect the interest of subscribers or enrollees, but not less frequently than once every five years.

(b) The expense of conducting any additional or nonroutine examinations pursuant to this section, and the expense of conducting any additional or nonroutine medical surveys pursuant to Section 1380 shall be charged against the plan being examined or surveyed. The amount shall include the actual salaries or compensation paid to the persons making the examination or survey, the expenses incurred in the course thereof, and overhead costs in connection

therewith as fixed by the commissioner. In determining the cost of examinations or surveys, the commissioner may use the estimated average hourly cost for all persons performing examinations or surveys of plans for the fiscal year. The amount charged shall be remitted by the plan to the commissioner. If recovery of these costs cannot be made from the plan, these costs may be added to, but subject to the limitation of, the assessment provided for in subdivision (b) of Section 1356.

(c) Reports of all examinations shall be open to public inspection, except that no examination shall be made public, unless the plan has had an opportunity to review the examination report and file a statement or response within 30 days, to be attached to the report. Deficiencies shall not be made public if they are corrected within 30 days of the date that the plan was notified of the deficiency.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 7. Section 2.5 of this bill incorporates amendments to Section 1356 of the Health and Safety Code, as amended by Section 5 of Chapter 1043 of the Statutes of 1990, proposed by both this bill and SB 244. It shall only become operative if (1) both bills are enacted and become effective on January 1, 1992, (2) each bill amends Section 1356 of the Health and Safety Code, as amended by Section 5 of Chapter 1043 of the Statutes of 1990, and (3) this bill is enacted after SB 244, in which case Section 2 of this bill shall not become operative.

CHAPTER 723

An act to add Sections 13553, 13554, 13554.2, and 13554.3 to the Water Code, relating to water.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 13553 is added to the Water Code, to read:

13553. (a) The Legislature hereby finds and declares that the use of potable domestic water for toilet and urinal flushing in nonresidential structures and those structures defined in Group I-3

in Table No. 5-A of the Uniform Building Code is a waste or an unreasonable use of water within the meaning of Section 2 of Article X of the California Constitution if reclaimed water, for these uses, is available to the user and meets the requirements set forth in Section 13550, as determined by the state board after notice and a hearing.

(b) The state board may require a public agency or person subject to this section to furnish whatever information may be relevant to making the determination required in subdivision (a).

SEC. 2. Section 13554 is added to the Water Code, to read:

13554. (a) Any public agency, including a state agency, city, county, city and county, district, or any other political subdivision of the state, may require the use of reclaimed water for toilet and urinal flushing in nonresidential structures and those structures defined in Group I-3 in Table No. 5-A of the Uniform Building Code, except a mental hospital or other facility operated by a public agency for the treatment of persons with mental disorders, if all of the following requirements are met:

(1) Reclaimed water, for these uses, is available to the user and meets the requirements set forth in Section 13550, as determined by the state board after notice and a hearing.

(2) The use of reclaimed water does not cause any loss or diminution of any existing water right.

(3) The public agency has prepared an engineering report pursuant to Section 60323 of Title 22 of the California Code of Regulations that includes plumbing design, cross-connection control, and monitoring requirements for the use site, which are in compliance with criteria established pursuant to Section 13521.

(b) This section applies only to either of the following:

(1) New structures for which the building permit is issued on or after March 15, 1992, or, if a building permit is not required, new structures for which construction begins on or after March 15, 1992.

(2) Any construction pursuant to subdivision (a) for which the State Department of Health Services has, prior to January 1, 1992, approved the use of reclaimed water.

(c) Division 13 (commencing with Section 21000) of the Public Resources Code does not apply to any project which only involves the repiping, redesign, or use of reclaimed water by a nonresidential structure necessary to comply with a requirement issued by a public agency under subdivision (a). This exemption does not apply to any project to develop reclaimed water, to construct conveyance facilities for reclaimed water, or any other project not specified in this subdivision.

SEC. 3. Section 13554.2 is added to the Water Code, to read:

13554.2. (a) The State Department of Health Services may establish a reasonable schedule of fees by which the department is reimbursed for the costs it incurs pursuant to Sections 13553 and 13554.

(b) For purposes of implementing a fee schedule pursuant to subdivision (a), the State Department of Health Services shall

maintain a record of its costs. In determining those costs, the department may consider personnel requirements, materials, travel expenses, office overhead, and other relevant direct and indirect expenses.

SEC. 4. Section 13554.3 is added to the Water Code, to read:

13554.3. The State Water Resources Control Board may establish a reasonable schedule of fees by which it is reimbursed for the costs it incurs pursuant to Sections 13553 and 13554.

CHAPTER 724

An act to amend Sections 25299.2 and 25299.4 of the Health and Safety Code, relating to hazardous substances, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 25299.2 of the Health and Safety Code is amended to read:

25299.2. (a) Except as provided in subdivision (a) of Section 25299.4, this chapter does not preclude or deny the right of a local agency to adopt and enforce any regulation, requirement, or standard of performance that is more stringent than a regulation, requirement, or standard of performance in effect under this chapter with respect to underground storage tanks, if the regulation, requirement, or standard of performance, as provided in this subdivision, is consistent with this chapter.

(b) This chapter shall not be construed to preclude or deny the right of a local agency to regulate tanks which are not subject to regulation under this chapter or the federal act.

SEC. 2. Section 25299.4 of the Health and Safety Code is amended to read:

25299.4. (a) (1) After January 1, 1984, any local agency may apply to the board for authority to implement design and construction standards for the containment of a hazardous substance in underground storage tanks which are in addition to those set forth in this chapter. The application shall include a description of the additional standards and a discussion of the need to implement them. The board shall approve the application if it finds, after an investigation and public hearing, that the local agency has demonstrated by clear and convincing evidence that the additional standards are necessary to adequately protect the soil and the beneficial uses of the waters of the state from unauthorized releases.

(2) The board shall make its determination within six months of the date of application for authority to implement additional

standards. If the board's determination upholds the application for authority to implement additional standards, the standards shall be effective as of the date of the determination. If the board's determination does not uphold the application, the additional standards shall not go into effect.

(b) (1) Any permitholder or permit applicant may apply to the regional board having jurisdiction over the location of the permitholder or applicant's facility for a site-specific variance from Section 25291 or 25292. A site-specific variance is an alternative procedure which is applicable in one local agency jurisdiction. Prior to applying to the regional board, the permitholder shall first contact the local agency pursuant to paragraph (5).

(2) The regional board shall hold a public hearing 60 days after the completion of any documents required by the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(3) The regional board shall consider the local agency's and the city, county, or city and county's recommendations in rendering its decision. Failure of the local agency or city, county, or city and county to join in the variance application pursuant to paragraph (5) shall not affect the request of the applicant to proceed with the variance application.

(4) The regional board shall approve the variance if it finds, after investigation and public hearing, that the applicant has demonstrated by clear and convincing evidence either of the following:

(A) Because of the facility's special circumstances, not generally applicable to other facilities' property, including size, shape, design, topography, location, or surroundings, the strict application of Sections 25291 and 25292 is unnecessary to adequately protect the soil and beneficial uses of the waters of the state from an unauthorized release.

(B) Strict application of the standards of Sections 25291 and 25292 would create practical difficulties not generally applicable to other facilities or property and that the proposed alternative will adequately protect the soil and beneficial uses of the waters of the state from an unauthorized release.

(5) Before applying for a variance, the applicant shall contact the local agency to determine if a site-specific variance is required. If the local agency determines that a site-specific variance is required or does not act within 60 days, the applicant may proceed with the variance procedure in subdivision (a).

(6) At least 30 days before applying to the appropriate regional board, the applicant shall notify and request the city, county, or city and county to join the applicant in the variance application before the regional board.

(A) The city, county, or city and county shall provide notice of the receipt of that request to any person who has requested the notice.

(B) The local agency within the city, county, or city and county

which has the jurisdiction for land use decisions shall have 30 days from completion of any documents required by the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) to act on the applicant's request to join the applicant.

(c) Applicants requesting a variance pursuant to subdivision (b) shall pay a fee determined by the board to be necessary to recover the reasonable cost of administering subdivision (b).

(d) The permit issued for any underground storage tank issued a variance pursuant to subdivision (b) shall require compliance with any conditions prescribed by the board or a regional board in issuing the variance. The conditions prescribed by the board or regional board in the permit shall include any conditions necessary to assure compliance with any applicable requirements of the federal act.

(e) This section does not apply to or within any city or county which was exempt from implementing this chapter as of December 31, 1984.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to delete the provisions which allow underground storage tanks containing hazardous substances to be exempted from regulation, thereby better protecting human health and safety and the environment, it is necessary that this act take effect immediately.

CHAPTER 725

An act to add Section 5107 to the Business and Professions Code, relating to consumer affairs, and making an appropriation therefor.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 5107 is added to the Business and Professions Code, to read:

5107. (a) The executive officer of the board may request the administrative law judge, as part of the proposed decision in a disciplinary proceeding, to direct any holder of a permit or certificate found guilty of unprofessional conduct in violation of subdivisions (b), (c), (i), and (j) of Section 5100, or involving a felony conviction in violation of subdivision (a) of Section 5100, or involving fiscal dishonesty in violation of subdivision (h) of Section 5100, to pay to the board all reasonable costs of investigation and prosecution of the case, including, but not limited to, attorneys' fees. The board shall not recover costs incurred at the administrative hearing.

(b) A certified copy of the actual costs, or a good faith estimate of costs where actual costs are not available, signed by the executive officer, shall be prima facie evidence of reasonable costs of investigation and prosecution of the case.

(c) The administrative law judge shall make a proposed finding of the amount of reasonable costs of investigation and prosecution of the case when requested to do so by the executive officer pursuant to subdivision (a). Costs are payable 120 days after the board's decision is final unless otherwise provided for by the administrative law judge or if the time for payment is extended by the board.

(d) The finding of the administrative law judge with regard to cost shall not be reviewable by the board to increase the cost award. The board may reduce or eliminate the cost award, or remand to the administrative law judge where the proposed decision fails to make a finding on costs requested by the executive officer pursuant to subdivision (a).

(e) The administrative law judge may make a further finding that the amount of reasonable costs awarded shall be reduced or eliminated upon a finding that respondent has demonstrated that he or she cannot pay all or a portion of the costs or that payment of the costs would cause an unreasonable financial hardship which can not be remedied through a payment plan.

(f) When an administrative law judge makes a finding that costs be waived or reduced, he or she shall set forth the factual basis for his or her finding in the proposed decision.

(g) Where an order for recovery of costs is made and timely payment is not made as directed by the board's decision, the board may enforce the order for payment in any appropriate court. This right of enforcement shall be in addition to any other rights the board may have as to any holder of a permit or certificate directed to pay costs.

(h) In any judicial action for the recovery of costs, proof of the board's decision shall be conclusive proof of the validity of the order of payment and the terms of payment.

(i) All costs recovered under this section shall be deposited in the Accountancy Fund.

(j) (1) Except as provided in paragraph (2), the board shall not renew or reinstate the permit or certificate of any holder who has failed to pay all of the costs ordered under this section.

(2) Notwithstanding, paragraph (1), the board may, in its discretion, conditionally renew or reinstate for a maximum of one year the permit or certificate of any holder who demonstrates financial hardship and who enters into a formal agreement with the board to reimburse the board within that one year period for those unpaid costs.

(k) Nothing in this section shall preclude the board from seeking recovery of costs in an order or decision made pursuant to an agreement entered into between the board and the holder of any permit or certificate.

CHAPTER 726

An act to amend Sections 23355.2, 23357, and 25658.4 of, and to add Section 23396.1 to, the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 23355.2 of the Business and Professions Code is amended to read:

23355.2. (a) For purposes of this section, "controlled access alcoholic beverage cabinet" means a closed container, either refrigerated, in whole or in part, or nonrefrigerated, and access to the interior of which is (1) restricted by means of a locking device which requires the use of a key, magnetic card, or similar device, or (2) controlled at all times by the licensee.

(b) Notwithstanding any other provision of this division, a hotel or motel having an on-sale license may sell alcoholic beverages to its registered guests by means of a controlled access alcoholic beverage cabinet located in the guestrooms of those registered guests, provided that each of the following conditions is met:

(1) Access to a controlled access alcoholic beverage cabinet in a particular guestroom is provided, whether by furnishing a key, magnetic card, or similar device, or otherwise, only to the adult registered guest, if any, registered to stay in the guestroom.

(2) Prior to providing a key, magnetic card, or other similar device required to attain access to the controlled access alcoholic beverage cabinet in a particular guestroom to the registered guest thereof, or prior to otherwise providing access thereto to the registered guest, the licensee shall verify, in accordance with Article 3 (commencing with Section 25657), of Chapter 16 of this division, that each registered guest to whom a key, magnetic card, or similar device is provided, or to whom access is otherwise provided, is not a minor.

(3) All employees handling the alcoholic beverages to be placed in the controlled access alcoholic beverage cabinet in any guestroom, including, but not limited to, any employee who inventories or restocks and replenishes the alcoholic beverages in the controlled access alcoholic beverage cabinet, shall be at least 21 years of age.

(4) There is no replenishing or restocking of the alcoholic beverages in any controlled access alcoholic beverage cabinet between the hours of 2 a.m. and 6 a.m. of the same day.

(c) Notwithstanding any other provision of this division, a hotel or motel having an on-sale general license or an on-sale general license for restricted service lodging establishments may, upon issuance of a permit from the department, sell from its controlled access

alcoholic beverage cabinets distilled spirits in containers of 50 milliliters or less, or in containers of comparable size. The department shall charge an annual fee for a permit issued pursuant to this subdivision equal to the annual renewal fee applicable to an off-sale general license pursuant to Section 23320.

(d) Notwithstanding any other provision of this division, a hotel or motel having an on-sale general license or an on-sale general license for restricted service lodging establishments and an off-sale general license may sell from its controlled access alcoholic beverage cabinets distilled spirits in containers of 50 milliliters or less, or in containers of comparable size, without having to obtain the permit specified in subdivision (c).

(e) A controlled access alcoholic beverage cabinet may be part of another cabinet or similar device, whether refrigerated, in whole or in part, or nonrefrigerated, from which nonalcoholic beverages or food may be purchased by the guests in hotel or motel guestrooms. However, in that event, the portion of the cabinet or similar device in which alcoholic beverages are stored shall be a controlled access alcoholic beverage cabinet, as defined in this section.

(f) For purposes of this section, "hotel" or "motel" shall mean an establishment which is licensed to sell alcoholic beverages and which contains guestroom accommodations with respect to which the predominant relationship existing between the occupants thereof and the owner or operator of the establishment is that of innkeeper and guest. For purposes of this subdivision, the existence of other legal relationships as between some occupants and the owner or operator thereof shall be immaterial.

SEC. 2. Section 23357 of the Business and Professions Code is amended to read:

23357. A licensed beer manufacturer may, at the licensed premises of production, sell to consumers for consumption off the premises beer which is produced and bottled by, or produced and packaged for that manufacturer. Licensed beer manufacturers may also sell beer to any person holding a license authorizing the sale of beer and may sell beer to consumers for consumption on the manufacturer's licensed premises or on premises owned by the manufacturer which are contiguous to the licensed premises and which are operated by and for the manufacturer. Licensed beer manufacturers may also sell beer and wine, regardless of source, to consumers for consumption at a bona fide public eating place on the manufacturer's licensed premises or at a bona fide public eating place on premises owned by the manufacturer which are contiguous to the licensed premises and which are operated by and for the manufacturer. Notwithstanding any other provision of this division, licensed beer manufacturers and holders of out-of-state beer manufacturer's certificates may be issued and may hold retail package off-sale beer and wine licenses. Alcoholic beverage products sold at or from the off-sale premises which are not produced and bottled by, or produced and packaged for, the beer manufacturer

shall be purchased by the beer manufacturer only from a licensed wholesaler.

SEC. 3. Section 23396.1 is added to the Business and Professions Code, to read:

23396.1. (a) An on-sale general license for restricted service lodging establishments authorizes those hotels and motels described in subdivision (b) to sell or furnish alcoholic beverages for consumption on the premises by means of:

(1) Controlled access alcoholic beverage cabinets located in guestrooms, subject to the conditions specified in Section 23355.2.

(2) Furnishing alcoholic beverages only to their transient guests and their invitees under circumstances where the uniform cost of the alcoholic beverages is included in the price of the overnight transient occupancy accommodation, whether or not separately stated.

(b) For purposes of this division, a "restricted service lodging establishment" is a hotel or motel, within the meaning of subdivision (f) of Section 23355.2, which meets all of the following conditions:

(1) It does not operate a bona fide eating place or other public premise.

(2) It has at least 10 guestroom accommodations.

(3) It does not derive more than 5 percent of its total gross annual revenues from sales of alcoholic beverages.

(c) A premises licensed pursuant to this section shall not be authorized to sell or furnish alcoholic beverages to the general public, shall not be entitled to a caterer's permit pursuant to Section 23399, and shall not be entitled to exercise any off-sale privileges pursuant to Section 23401. The provisions of Article 2 (commencing with Section 23815) of Chapter 5 do not apply to the issuance of on-sale general licenses for restricted service lodging establishments. An on-sale general restricted service lodging establishment license may be transferred to another person but not to another location. A licensee specified in this section shall purchase no alcoholic beverages for sale in this state other than from a wholesaler or winegrower licensee.

(d) An applicant for an original on-sale general license for restricted service lodging establishments shall, at the time of filing the application for the license, accompany the application with a fee of six thousand dollars ($6,000). The application and acknowledgment shall be in a form understandable to the clerk.

(1) The department shall specify the form of the application and acknowledgment which shall include at a minimum a summary of

CHAPTER 727

An act to amend Sections 3068 and 3068.1 of the Civil Code, and to amend Section 10652.5 of the Vehicle Code, relating to vehicles.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 3068 of the Civil Code is amended to read:

3068. (a) Every person has a lien dependent upon possession for the compensation to which the person is legally entitled for making repairs or performing labor upon, and furnishing supplies or materials for, and for the storage, repair, or safekeeping of, and for the rental of parking space for, any vehicle of a type subject to registration under the Vehicle Code, subject to the limitations set forth in this chapter. The lien shall be deemed to arise at the time a written statement of charges for completed work or services is presented to the registered owner.

(b) (1) Any lien under this section which arises because work or services have been performed on a vehicle with the consent of the registered owner shall be extinguished and no lien sale shall be conducted unless either of the following occurs:

(A) The lienholder applies for an authorization to conduct a lien sale within 30 days after the lien has arisen.

(B) An action in court is filed within 30 days after the lien has arisen.

(2) A person whose lien for work or services on a vehicle has been extinguished shall turn over possession of the vehicle, at the place where the work or services were performed, to the legal owner or the lessor upon demand of the legal owner or lessor, and upon tender by the legal owner or lessor, by cashier's check or in cash, of only the amount for storage, safekeeping, or parking space rental for the vehicle to which the person is entitled by subdivision (c).

(3) Any lien under this section which arises because work or services have been performed on a vehicle with the consent of the registered owner shall be extinguished, and no lien sale shall be conducted, if the lienholder, after written demand made by either personal service or certified mail with return receipt requested by the legal owner or the lessor to inspect the vehicle, fails to permit that inspection by the legal owner or lessor, or his or her agent, within a period of time not sooner than 24 hours nor later than 72 hours after the receipt of that written demand, during the normal business hours of the lienholder.

(c) The lienholder shall not charge the legal owner or lessor any amount for release of the vehicle in excess of the amounts authorized by this subdivision.

(1) That portion of the lien in excess of seven hundred fifty dollars ($750) for any work or services, or that amount in excess of four hundred dollars ($400) for any storage, safekeeping, or rental of parking space or, if an application for an authorization to conduct a lien sale has been filed pursuant to Section 3071 within 30 days after the commencement of the storage or safekeeping, in excess of five hundred dollars ($500) for any storage or safekeeping, rendered or performed at the request of any person other than the legal owner or lessor, is invalid, unless prior to commencing any work, services, storage, safekeeping, or rental of parking space, the person claiming the lien gives actual notice in writing either by personal service or by registered letter addressed to the legal owner named in the registration certificate, and the written consent of that legal owner is obtained before any work, services, storage, safekeeping, or rental of parking space are performed.

(2) If any portion of a lien includes charges for the care, storage, or safekeeping of, or for the rental of parking space for, a vehicle for a period in excess of 60 days, the portion of the lien which accrued after the expiration of that period is invalid unless Sections 10650 and 10652 of the Vehicle Code have been complied with by the holder of the lien.

(3) The charge for the care, storage, or safekeeping of a vehicle which may be charged to the legal owner or lessor shall not exceed that for one day of storage if, 24 hours or less after the vehicle is placed in storage, a request is made for the release of the vehicle. If the request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full, calendar-day basis for each day, or part thereof, that the vehicle is in storage.

(d) In any action brought by or on behalf of the legal owner or

lessor to recover a vehicle alleged to be wrongfully withheld by the person claiming a lien pursuant to this section, the prevailing party shall be entitled to reasonable attorney's fees and costs, not to exceed one thousand seven hundred fifty dollars ($1,750).

SEC. 2. Section 3068.1 of the Civil Code is amended to read:

3068.1. (a) Every person has a lien dependent upon possession for the compensation to which the person is legally entitled for towing or storage of any vehicle subject to registration which has been authorized to be removed by a public agency. The lien is deemed to arise on the date of possession of the vehicle. Possession is deemed to arise when the vehicle is removed and is in transit. A person seeking to enforce a lien for the storage and safekeeping of a vehicle shall impose no charge exceeding that for one day of storage if, 24 hours or less after the vehicle is placed in storage, a request is made for the release of the vehicle. If the request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full, calendar-day basis for each day, or part thereof, that the vehicle is in storage.

(b) If the vehicle has been determined to have a value of over three hundred dollars ($300) pursuant to Section 22670 of the Vehicle Code, but not exceeding one thousand dollars ($1,000), the lien shall be satisfied pursuant to Section 3072. Lien-sale proceedings pursuant to this chapter shall commence within 15 days of the date the lien arises. No storage shall accrue beyond the 15-day period unless lien-sale proceedings have commenced.

(c) If the vehicle has been determined to have a value exceeding one thousand dollars ($1,000) pursuant to Section 22670 of the Vehicle Code, the lien shall be satisfied pursuant to Section 3071. The storage lien may be for a period not exceeding 60 days or, if an application for an authorization to conduct a lien-sale has been filed pursuant to Section 3071 within 30 days after the lien arises, a period not exceeding 120 days.

SEC. 3. Section 10652.5 of the Vehicle Code is amended to read:

10652.5. (a) Whenever the name and address of the legal owner of a motor vehicle is known, or may be ascertained from the registration records in the vehicle or from the records of the Department of Motor Vehicles, no fee or service charge may be imposed upon the legal owner for the parking and storage of the motor vehicle for the period commencing with the 16th day of possession and continuing until written notice by certified mail with return receipt requested is sent to the legal owner by the person in possession of the motor vehicle.

(b) The costs of notifying the legal owner may be charged as part of the storage fee when the motor vehicle has been stored for an indefinite period of time and notice is given no sooner than the third day of possession. This subdivision also applies if the legal owner refuses to claim possession of the motor vehicle.

(c) In any action brought by, or on behalf of, a legal owner of a motor vehicle to which subdivision (a) applies, to recover a motor

vehicle alleged to be withheld by the person in possession of the motor vehicle by demanding storage fees or charges for any number of days in excess of that permitted pursuant to subdivision (a), the prevailing party shall be entitled to reasonable attorney's fees, not to exceed one thousand seven hundred fifty dollars ($1,750). The recovery of those fees is in addition to any other right, remedy, or cause of action of that party.

(d) This section is not applicable to any motor vehicle stored by a levying officer acting under the authority of judicial process.

CHAPTER 728

An act to amend Section 1250.8 of the Health and Safety Code, relating to general acute care hospitals.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1250.8 of the Health and Safety Code is amended to read:

1250.8. (a) Notwithstanding subdivision (a) of Section 437.10, the state department, upon application of a general acute care hospital which meets all the criteria of subdivision (b), and other applicable requirements of licensure, shall issue a single consolidated license to a general acute care hospital which includes more than one physical plant maintained and operated on separate premises or which has multiple licenses for a single health facility on the same premises. A single consolidated license shall not be issued where the separate freestanding physical plant is a skilled nursing facility or an intermediate care facility, whether or not the location of the skilled nursing facility or intermediate care facility is contiguous to the general acute care hospital unless the hospital is exempt from the requirements of subdivision (b) of Section 1254, or the facility is part of the physical structure licensed to provide acute care.

(b) The issuance of a single consolidated license shall be based on the following criteria:

(1) There is a single governing body for all of the facilities maintained and operated by the licensee.

(2) There is a single administration for all of the facilities maintained and operated by the licensee.

(3) There is a single medical staff for all of the facilities maintained and operated by the licensee, with a single set of bylaws, rules, and regulations, which prescribe a single committee structure.

(4) Except as provided otherwise in this paragraph, the physical plants maintained and operated by the licensee which are to be covered by the single consolidated license are located not more than

15 miles apart. The director may issue a single consolidated license to a general acute care hospital which maintains and operates two or more physical plants which are located beyond 15 miles if all of the following exist:

(A) Either (i) one or more physical plants are located in a rural area, as defined by regulations of the director; or (ii) the physical plants are located beyond 15 miles from the general acute care hospital which obtains the single consolidated license and provide outpatient services as defined by the department, and do not provide inpatient services.

(B) The director finds, after consultation with the Director of the Office of Statewide Health Planning and Development, that the issuance of the single consolidated license for the general acute care hospital would not significantly impair the operation of Part 1.5 (commencing with Section 437) of Division 1.

(C) The director finds that the licensee can comply with the requirements of licensure and maintain the provision of quality care, and adequate administrative and professional supervision.

(D) The physical plants satisfy the criteria of subdivision (a) and paragraphs (1), (2), and (3).

(E) The physical plants of the licensee operate in full compliance with subdivision (f) of Section 1275.

(c) In issuing the single consolidated license, the state department shall specify the location of each supplemental service and the location of the number and category of beds provided by the licensee. The single consolidated license shall be renewed annually.

(d) To the extent required by Part 1.5 (commencing with Section 437) of Division 1, a general acute care hospital which has been issued a single consolidated license:

(1) Shall not transfer from one facility to another a special service described in Section 1255 without first obtaining a certificate of need.

(2) Shall not transfer, in whole or in part, from one facility to another, a supplemental service, as defined in regulations of the director pursuant to this chapter, without first obtaining a certificate of need, unless the licensee, 30 days prior to the relocation, notifies the Office of Statewide Health Planning and Development, the applicable health systems agency, and the state department of the licensee's intent to relocate the supplemental service, and includes with this notice a cost estimate, certified by a person qualified by experience or training to render the estimates, which estimates that the cost of the transfer will not exceed the capital expenditure threshold established by the Office of Statewide Health Planning and Development pursuant to Section 437.10.

(3) Shall not transfer beds from one facility to another facility, without first obtaining a certificate of need unless, 30 days prior to the relocation, the licensee notifies the Office of Statewide Health Planning and Development, the applicable health systems agency, and the state department of the licensee's intent to relocate health facility beds, and includes with this notice both of the following:

(A) A cost estimate, certified by a person qualified by experience or training to render the estimates, which estimates that the cost of the relocation will not exceed the capital expenditure threshold established by the Office of Statewide Health Planning and Development pursuant to Section 437.10.

(B) The identification of the number, classification, and location of the health facility beds in the transferor facility and the proposed number, classification, and location of the health facility beds in the transferee facility.

Except as otherwise permitted in Part 1.5 (commencing with Section 437) of Division 1, or as authorized in an approved certificate of need pursuant to that part, health facility beds transferred pursuant to this section shall be used in the transferee facility in the same bed classification as defined in Section 1250.1, as the beds were classified in the transferor facility.

Health facility beds transferred pursuant to this section shall not be transferred back to the transferor facility for two years from the date of the transfer, regardless of cost, without first obtaining a certificate of need pursuant to Part 1.5 (commencing with Section 437) of Division 1.

(e) All transfers pursuant to subdivision (d) shall satisfy all applicable requirements of licensure and shall be subject to the written approval, if required, of the state department. The state department may adopt regulations which are necessary to implement the provisions of this section. These regulations may include a requirement that each facility of a health facility subject to a single consolidated license have an onsite full-time or part-time administrator.

(f) As used in this section, "facility" means any physical plant operated or maintained by a health facility subject to a single, consolidated license issued pursuant to this section.

(g) For purposes of selective provider contracts negotiated under the Medi-Cal program, the treatment of a health facility with a single consolidated license issued pursuant to this section shall be subject to negotiation between the health facility and the California Medical Assistance Commission. A general acute care hospital which is issued a single consolidated license pursuant to this section may, at its option, receive from the state department a single Medi-Cal program provider number or separate Medi-Cal program provider numbers for one or more of the facilities subject to the single consolidated license. Irrespective of whether the general acute care hospital is issued one or more Medi-Cal provider numbers, the state department may require the hospital to file separate cost reports for each facility pursuant to Section 14170 of the Welfare and Institutions Code.

(h) For purposes of the Annual Report of Hospitals required by regulations adopted by the state department pursuant to this part, the state department and the Office of Statewide Health Planning and Development may require reporting of bed and service

utilization data separately by each facility of a general acute care hospital issued a single consolidated license pursuant to this section.

(i) The amendments made to this section during the 1985–86 Regular Session of the California Legislature pertaining to the issuance of a single consolidated license to a general acute care hospital in the case where the separate physical plant is a skilled nursing facility or intermediate care facility shall not apply to the following facilities:

(1) Any facility which obtained a certificate of need after August 1, 1984, and prior to February 14, 1985, as described in this subdivision. The certificate of need shall be for the construction of a skilled nursing facility or intermediate care facility which is the same facility for which the hospital applies for a single consolidated license, pursuant to subdivision (a).

(2) Any facility for which a single consolidated license has been issued pursuant to subdivision (a), as described in this subdivision, prior to the effective date of the amendments made to this section during the 1985–86 Regular Session of the California Legislature.

Any facility which has been issued a single consolidated license pursuant to subdivision (a), as described in this subdivision, shall be granted renewal licenses based upon the same criteria used for the initial consolidated license.

(j) If the state department issues a single consolidated license pursuant to this section, the state department may take any action authorized by this chapter, including, but not limited to, any action specified in Article 5 (commencing with Section 1294), with respect to any facility, or any service provided in any facility, which is included in the consolidated license.

(k) The eligibility for participation in the Medi-Cal program (Chapter 7 (commencing with Section 14000), Part 3, Division 9, Welfare and Institutions Code) of any facility that is included in a consolidated license issued pursuant to this section, provides outpatient services, and is located more than 15 miles from the health facility issued the consolidated license shall be subject to a determination of eligibility by the state department. This subdivision shall not apply to any facility that is located in a rural area and is included in a consolidated license issued pursuant to subparagraphs (A), (B), and (C) of paragraph (4) of subdivision (b). Regardless of whether a facility has received or not received a determination of eligibility pursuant to this subdivision, this subdivision shall not affect the ability of a licensed professional, providing services covered by the Medi-Cal program to a person eligible for Medi-Cal in a facility subject to a determination of eligibility pursuant to this subdivision, to bill the Medi-Cal program for those services provided in accordance with applicable regulations.

CHAPTER 729

An act to add Chapter 13 (commencing with Section 7120) to Division 7 of Title 1 of the Government Code, to add Section 1373.13 to the Health and Safety Code, and to add Section 10177.9 to the Insurance Code, relating to dentistry.

The people of the State of California do enact as follows:

SECTION 1. Chapter 13 (commencing with Section 7120) is added to Division 7 of Title 1 of the Government Code, to read:

CHAPTER 13. DENTAL DISCRIMINATION

7120. (a) It is the intent of the Legislature that all persons licensed in this state to engage in the practice of dentistry shall be accorded equal professional status and privileges, without regard to the degree earned.

(b) Notwithstanding any other provision of law, no agency of the state or of any city, county, city and county, district, or other political subdivision of the state shall discriminate, with respect to employment, staff privileges, or the provision of, or contracts for, professional services, against a licensed dentist solely on the basis of the educational degree held by the dentist.

SEC. 2. Section 1373.13 is added to the Health and Safety Code, to read:

SEC. 4. No reimbursement is required by this act pursuant to

Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 730

An act to amend Section 65583 of the Government Code, relating to housing.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 65583 of the Government Code is amended to read:

65583. The housing element shall consist of an identification and analysis of existing and projected housing needs and a statement of goals, policies, quantified objectives, and scheduled programs for the preservation, improvement, and development of housing. The housing element shall identify adequate sites for housing, including rental housing, factory-built housing, and mobilehomes, and shall make adequate provision for the existing and projected needs of all economic segments of the community. The element shall contain all of the following:

(a) An assessment of housing needs and an inventory of resources and constraints relevant to the meeting of these needs. The assessment and inventory shall include the following:

(1) Analysis of population and employment trends and documentation of projections and a quantification of the locality's existing and projected housing needs for all income levels. These existing and projected needs shall include the locality's share of the regional housing need in accordance with Section 65584.

(2) Analysis and documentation of household characteristics, including level of payment compared to ability to pay, housing characteristics, including overcrowding, and housing stock condition.

(3) An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment, and an analysis of the relationship of zoning and public facilities and services to these sites.

(4) Analysis of potential and actual governmental constraints

upon the maintenance, improvement, or development of housing for all income levels, including land use controls, building codes and their enforcement, site improvements, fees and other exactions required of developers, and local processing and permit procedures.

(5) Analysis of potential and actual nongovernmental constraints upon the maintenance, improvement, or development of housing for all income levels, including the availability of financing, the price of land, and the cost of construction.

(6) Analysis of any special housing needs, such as those of the handicapped, elderly, large families, farmworkers, families with female heads of households, and families and persons in need of emergency shelter.

(7) Analysis of opportunities for energy conservation with respect to residential development.

(8) An analysis of existing assisted housing developments that are eligible to change to non-low-income housing uses during the next 10 years due to termination of subsidy contracts, mortgage prepayment, or expiration of use restrictions. "Assisted housing developments," for the purpose of this section, shall mean multifamily rental housing that receives governmental assistance under federal programs listed in subdivision (a) of Section 65863.10, state and local multifamily revenue bond programs, local redevelopment programs, the federal Community Development Block Grant Program, or local in-lieu fees. "Assisted housing developments" shall also include multifamily rental units that were developed pursuant to a local inclusionary housing program or used to qualify for a density bonus pursuant to Section 65916.

(A) The analysis shall include a listing of each development by project name and address, the type of governmental assistance received, the earliest possible date of change from low-income use and the total number of elderly and nonelderly units that could be lost from the locality's low-income housing stock in each year during the 10-year period. For purposes of state and federally funded projects, the analysis required by this subparagraph need only contain information available on a statewide basis.

(B) The analysis shall estimate the total cost of producing new rental housing that is comparable in size and rent levels, to replace the units that could change from low-income use, and an estimated cost of preserving the assisted housing developments. This cost analysis for replacement housing may be done aggregately for each five-year period and does not have to contain a project by project cost estimate.

(C) The analysis shall identify public and private nonprofit corporations known to the local government which have legal and managerial capacity to acquire and manage these housing developments.

(D) The analysis shall identify and consider the use of all federal, state, and local financing and subsidy programs which can be used to preserve, for lower income households, the assisted housing

developments, identified in this paragraph, including, but not limited to, federal Community Development Block Grant Program funds, tax increment funds received by a redevelopment agency of the community, and administrative fees received by a housing authority operating within the community. In considering the use of these financing and subsidy programs, the analysis shall identify the amounts of funds under each available program which have not been legally obligated for other purposes and which could be available for use in preserving assisted housing developments.

(b) A statement of the community's goals, quantified objectives, and policies relative to the maintenance, preservation, improvement, and development of housing.

It is recognized that the total housing needs identified pursuant to subdivision (a) may exceed available resources and the community's ability to satisfy this need within the content of the general plan requirements outlined in Article 5 (commencing with Section 65300). Under these circumstances, the quantified objectives need not be identical to the identified existing housing needs, but should establish the maximum number of housing units that can be constructed, rehabilitated, and conserved over a five-year time frame.

(c) A program which sets forth a five-year schedule of actions the local government is undertaking or intends to undertake to implement the policies and achieve the goals and objectives of the housing element through the administration of land use and development controls, provision of regulatory concessions and incentives, and the utilization of appropriate federal and state financing and subsidy programs when available and the utilization of moneys in a Low and Moderate Income Housing Fund of an agency if the locality has established a redevelopment project area pursuant to the Community Redevelopment Law (Division 24 (commencing with Section 33000) of the Health and Safety Code). In order to make adequate provision for the housing needs of all economic segments of the community, the program shall do all of the following:

(1) Identify adequate sites which will be made available through appropriate zoning and development standards and with public services and facilities needed to facilitate and encourage the development of a variety of types of housing for all income levels, including rental housing, factory-built housing, mobilehomes, emergency shelters and transitional housing in order to meet the community's housing goals as identified in subdivision (b).

(2) Assist in the development of adequate housing to meet the needs of low- and moderate-income households.

(3) Address and, where appropriate and legally possible, remove governmental constraints to the maintenance, improvement, and development of housing.

(4) Conserve and improve the condition of the existing affordable housing stock, which may include addressing ways to mitigate the loss of dwelling units demolished by public or private action.

(5) Promote housing opportunities for all persons regardless of race, religion, sex, marital status, ancestry, national origin, or color.

(6) (A) Preserve for lower income households the assisted housing developments identified pursuant to paragraph (8) of subdivision (a). The program for preservation of the assisted housing developments shall utilize, to the extent necessary, all available federal, state, and local financing and subsidy programs identified in paragraph (8) of subdivision (a), except where a community has other urgent needs for which alternative funding sources are not available. The program may include strategies that involve local regulation and technical assistance.

(B) The program shall include an identification of the agencies and officials responsible for the implementation of the various actions and the means by which consistency will be achieved with other general plan elements and community goals. The local government shall make a diligent effort to achieve public participation of all economic segments of the community in the development of the housing element, and the program shall describe this effort.

(d) The analysis and program for preserving assisted housing developments required by the amendments to this section enacted by the Statutes of 1989 shall be adopted as an amendment to the housing element by January 1, 1992.

(e) Failure of the department to review and report its findings pursuant to Section 65585 to the local government between January 1, 1992, and the next periodic review and revision required by Section 65588, concerning the housing element amendment required by the amendments to this section by the Statutes of 1989, shall not be used as a basis for allocation or denial of any housing assistance administered pursuant to Part 2 (commencing with Section 50400) of Division 31 of the Health and Safety Code.

CHAPTER 731

An act to amend Sections 25915.2 and 25915.5 of the Health and Safety Code, relating to asbestos.

by the owner of information identifying the presence or location of asbestos-containing construction materials in the building. This notice shall be provided annually thereafter. In addition, if new information regarding those items specified in paragraphs (1) to (5), inclusive, of subdivision (a) of Section 25915 has been obtained within 90 days after the notice required by this subdivision is provided or any subsequent 90-day period, then a supplemental notice shall be provided within 15 days of the close of that 90-day period.

(b) Notice provided pursuant to this chapter shall be provided to new employees within 15 _____ days of commencement of work in the building.

(c) Notice provided pursuant to this chapter shall be mailed to any new owner designated to receive the notice pursuant to subdivision (a) of Section 25915.5 within 15 days of the effective date of the agreement under which a person becomes a new owner.

(d) Subdivisions (a) and (c) shall not be construed to require owners of a building or part of a building within a residential common interest development to mail written notification to other owners of a building or part of a building within the residential common interest development, if all the following conditions are met:

(1) The association conspicuously posts, in each building or part of a building, known to contain asbestos-containing materials, a large sign in a prominent location that fully informs persons entering each building or part of a building within the common interest development that the association knows the building contains asbestos-containing materials.

The sign shall also inform persons of the location where further information, as required by this chapter, is available about the asbestos-containing materials known to be located in the building.

(2) The owners or association disclose, as soon as practicable before the transfer of title of a separate interest in the common interest development, to a transferee the existence of asbestos-containing material in a building or part of a building within the common interest development.

Failure to comply with this section shall not invalidate the transfer of title of real property. This paragraph shall only apply to transfers of title of separate interests in the common interest development of which the owners have knowledge. As used in this section, "association" and "common interest development" are defined in Section 1351 of the Civil Code.

(e) If a person contracting with an owner receives notice pursuant to this chapter, that contractor shall provide a copy of the notice to his or her employees or contractors working within the building.

(f) If the asbestos-containing construction material in the building is limited to an area or areas within the building that meet all the following criteria:

(1) Are unique and physically defined.

(2) Contain asbestos-containing construction materials in structural, mechanical, or building materials which are not replicated throughout the building.

(3) Are not connected to other areas through a common ventilation system; then, an owner required to give notice to his or her employees pursuant to subdivision (a) of Section 25915 or 25915.1 may provide that notice only to the employees working within or entering that area or those areas of the building meeting the conditions above.

(g) If the asbestos-containing construction material in the building is limited to an area or areas within the building that meet all the following criteria:

(1) Are accessed only by building maintenance employees or contractors and are not accessed by tenants or employees in the building, other than on an incidental basis.

(2) Contain asbestos-containing construction materials in structural, mechanical, or building materials which are not replicated in areas of the building which are accessed by tenants and employees.

(3) The owner knows that no asbestos fibers are being released or have the reasonable possibility to be released from the material; then, as to that asbestos-containing construction material, an owner required to give notice to his or her employees pursuant to subdivision (a) of Section 25915 or Section 25915.1 may provide that notice only to its building maintenance employees and contractors who have access to that area or those areas of the building meeting the conditions above.

(h) In those areas of a building where the asbestos-containing construction material is composed only of asbestos fibers which are completely encapsulated, if the owner knows that no asbestos fibers are being released or have the reasonable possibility to be released from that material in its present condition and has no knowledge that other asbestos-containing material is present, then an owner required to give notice pursuant to subdivision (a) of Section 25915 shall provide the information required in paragraph (2) of subdivision (a) of Section 25915 and may substitute the following notice for the requirements of paragraphs (1), (3), (4), and (5) of subdivision (a) of Section 25915:

(1) The existence of, conclusions from, and a description or list of the contents of, that portion of any survey conducted to determine the existence and location of asbestos-containing construction materials within the building that refers to the asbestos materials described in this subdivision, and information describing when and where the results of the survey are available pursuant to Section 25917.

(2) Information to convey that moving, drilling, boring, or otherwise disturbing the asbestos-containing construction material identified may present a health risk and, consequently, should not be

attempted by an unqualified employee. The notice shall identify the appropriate person the employee is required to contact if the condition of the asbestos-containing construction material deteriorates.

SEC. 2. Section 25915.5 of the Health and Safety Code is amended to read:

25915.5. (a) An owner required to give notice to employees pursuant to this chapter, in addition to notifying his or her employees, shall mail, in accordance with this subdivision, a copy of that notice to all other persons who are owners of the building or part of the building, with whom the owner has privity of contract. Receipt of a notice pursuant to this section by an owner, lessee or operator shall constitute knowledge that the building contains asbestos-containing construction materials for purposes of this chapter. Notice to an owner shall be delivered by first-class mail addressed to the person and at the address designated for the receipt of notices under the lease, rental agreement, or contract with the owner.

(b) The delivery of notice under this section or negligent failure to provide that notice shall not constitute a breach of any covenant under the lease or rental agreement, and nothing in this chapter enlarges or diminishes any rights or duties respecting constructive eviction.

(c) No owner who, in good faith, complies with the provisions of this section shall be liable to any other owner for any damages alleged to have resulted from his or her compliance with the provisions of this section.

(d) This section shall not be construed to apply to owners of a building or part of a building within a residential common interest development or association, if the owners comply with the provisions of subdivision (d) of Section 25915.2. For purposes of this section, "association" and "common interest development" are defined in Section 1351 of the Civil Code.

CHAPTER 732

An act to amend Section 713 of the Fish and Game Code, and to amend Section 6 of Chapter 1681 of the Statutes of 1990, relating to the Department of Fish and Game, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 713 of the Fish and Game Code is amended to read:

713. (a) The changes in the Implicit Price Deflator for State and Local Government Purchases of Goods and Services, as published by the United States Department of Commerce, shall be used as the index to determine an annual rate of increase or decrease in the fees for licenses, stamps, permits, and tags issued by the department, except commercial fishing fees.

(b) The department shall determine the change in the Implicit Price Deflator for State and Local Government Purchases of Goods and Services, as published by the United States Department of Commerce, for the quarter ending March 31 of the current year compared to the quarter ending March 31 of the previous year. The relative amount of the change shall be multiplied by the current fee for each license, stamp, permit, or tag issued by the department. The product shall be rounded to the nearest twenty-five cents ($0.25), and the resulting amount shall be added to the fee for the current year. The resulting amount shall be the fee for the license year beginning on or after January 1 of the next succeeding calendar year for the license, stamp, permit, or tag which is adjusted under this section.

(c) Notwithstanding any other provision of law, the department may recalculate the current fees charged for each license, stamp, permit, or tag issued by the department, except commercial fishing fees, to determine that all appropriate indexing has been included in the current fees. This section shall apply to all licenses, stamps, permits, or tags, except commercial fishing fees, that have not been increased each year since the base year of the 1985–86 fiscal year.

(d) The calculations provided for in this section shall be reported to the Legislature with the Governor's Budget Bill.

(e) The Legislature finds that all revenues generated by fees for licenses, stamps, permits, and tags, computed under this section and used for the purposes for which they were imposed, are not subject to Article XIII B of the California Constitution.

(f) The department shall, at least every five years, analyze all fees for permits, licenses, stamps, and tags issued by it to ensure the appropriate fee amount is charged. Where appropriate, the department shall recommend to the Legislature or the commission that fees established by the commission or the Legislature be adjusted to ensure that those fees are appropriate.

SEC. 2. Section 6 of Chapter 1681 of the Statutes of 1990 is amended to read:

Sec. 6. The sum of six million five hundred fifty-six thousand dollars ($6,556,000) is hereby appropriated, as follows:

(a) Three million five hundred fifty-six thousand dollars ($3,556,000) from the Environmental License Plate Fund to the Fish and Game Preservation Fund to pay for expenditures made pursuant to Item 3600-001-140 of the Budget Act of 1989 (Chapter 93 of the Statutes of 1989).

(b) Three million dollars ($3,000,000) from the Off-Highway Vehicle Fund as a loan to the Fish and Game Preservation Fund to

pay for expenditures made pursuant to Item 3600-001-200 of the Budget Act of 1989 (Chapter 93 of the Statutes of 1989). One million five hundred thousand dollars ($1,500,000) shall be repaid from the Fish and Game Preservation Fund to the Off-Highway Vehicle Fund on or before June 30, 1994, and the remaining balance shall be repaid on or before June 30, 1995. Both amounts shall be repaid with interest at the average rate of interest earned by funds in the Pooled Money Investment Account.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that the most current index information from the Implicit Price Deflator for State and Local Government Purchases of Goods and Services is available for use in making authorized adjustments to hunting, fishing, and other related fees during 1991, and to delete the requirement of repayment of a certain loan to the Fish and Game Preservation Fund and extend the time of repayment of another loan to that fund at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 733

An act to amend Sections 55522.5 and 56182.5 of, and to add Sections 55522.6 , 55902.2, 56182.6, and 56632.2 to, the Food and Agricultural Code, relating to farm products.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 55522.5 of the Food and Agricultural Code is amended to read:

55522.5. (a) It is unlawful for a licensee that has changed its legal entity to do any of the following:

(1) Continue to operate after the change.

(2) Purchase or handle any farm product from a person who had a farm product contract with the former licensee at the time of the change in entity without notifying that person, in writing, of the change in entity.

(3) Use any invoice, contract, or other document associated with the purchase, consignment, or brokerage of any farm product that identifies the former licensee unless the new entity is conspicuously identified on the same invoice, contract, or other document as the entity responsible for the transaction.

(b) The new entity shall notify the director in writing of the change in legal entity within 15 days of the change. The new legal

entity shall, before it conducts business that requires a license, obtain a new license for the business.

(c) Notwithstanding subdivision (b), if a licensee conducts business without a new license as a result of a change of legal entity, it may, within 120 days of the change, upon a showing of no substantial change in financial resources and liabilities, petition the director to grant a new license retroactive to the first day of the month during which the change occurred, and the director may grant the license with retroactive effect upon a finding that doing so would be consistent with the purposes of this chapter. Upon granting the petition, the director shall (1) require the licensee to pay an additional fee in an amount that will cover the expenses of the department in the matter, but not to exceed the fee for a new license, (2) place conditions on the license that are consistent with the purposes of this chapter as the director deems appropriate, and (3) require the licensee to pay an amount, for deposit in the Farm Products Trust Fund, equal to the amount that would have been required had the license been obtained in accordance with subdivision (b).

SEC. 2. Section 55522.6 is added to the Food and Agricultural Code, to read:

55522.6. (a) If the Secretary of State suspends the corporate status of any licensee or if the corporate status is forfeited, the license is revoked by operation of law. The former licensee shall provide written notice of the suspension or forfeiture to the director, and to each person with whom it has a farm product contract, within 15 days of the date the Secretary of State mails the notice of suspension or forfeiture.

(b) The former licensee, may, upon a showing of no substantial change in financial resources and liabilities, and within 90 days of the suspension or forfeiture of corporate status, petition the director for an order to reissue its license formerly held under this chapter. If the corporate status has been reinstated by the Secretary of State, the director may reissue the license if the director finds that doing so would be consistent with the purposes of this chapter. As a condition to reissuing the license, the director may (1) require the former licensee to undertake such financial guarantees, including the filing and maintaining bonds, as the director deems necessary to protect the interests of contracting parties, and (2) impose conditions on the license that are consistent with the purposes of this chapter as the director deems appropriate.

SEC. 3. Section 55902.2 is added to the Food and Agricultural Code, to read:

55902.2. It is a misdemeanor for any person subject to this chapter to pay license fees in an amount less than that amount established under subdivision (b) of Section 55861. Any person who pays less than the amount established under subdivision (b) of Section 55861 for two or more consecutive years shall pay to the director treble the amount of the license fees due pursuant to this chapter.

SEC. 3.5. Section 56182.5 of the Food and Agricultural Code is amended to read:

56182.5. (a) It is unlawful for a licensee that has changed its legal entity to do any of the following:

(1) Continue to operate after the change.

(2) Purchase or handle any farm product from a person who had a farm product contract with the former licensee at the time of the change in entity without notifying that person, in writing, of the change in entity.

(3) Use any invoice, contract, or other document associated with the purchase, consignment, or brokerage of any farm product that identifies the former licensee unless the new entity is conspicuously identified on the same invoice, contract, or other document as the entity responsible for the transaction.

(b) The new entity shall notify the director in writing of the change in legal entity within 15 days of the change. The new legal entity shall, before it conducts business that requires a license, obtain a new license for the business.

(c) Notwithstanding subdivision (b), if a licensee conducts business without a new license as a result of a change of legal entity, it may, within 120 days of the change, upon a showing of no substantial change in financial resources and liabilities, petition the director to grant a new license retroactive to the first day of the month during which the change occurred, and the director may grant the license with retroactive effect upon a finding that doing so would be consistent with the purposes of this chapter. Upon granting the petition, the director shall (1) require the licensee to pay an additional fee in an amount that will cover the expenses of the department in the matter, but not to exceed the fee for a new license, (2) place conditions on the license that are consistent with the purposes of this chapter as the director deems appropriate, and (3) require the licensee to pay an amount, for deposit in the Farm Products Trust Fund, equal to the amount that would have been required had the license been obtained in accordance with subdivision (b).

SEC. 4. Section 56182.6 is added to the Food and Agricultural Code, to read:

56182.6. (a) If the Secretary of State suspends the corporate status of any licensee or if the corporate status is forfeited, the license is revoked by operation of law. The former licensee shall provide written notice of the suspension or forfeiture to the director, and to each person with whom it has a farm product contract, within 15 days of the date the Secretary of State mails the notice of suspension or forfeiture.

(b) The former licensee, may, upon a showing of no substantial change in financial resources and liabilities, and within 90 days of the suspension or forfeiture of corporate status, petition the director for an order to reissue its license formerly held under this chapter. If the corporate status has been reinstated by the Secretary of State, the

director may reissue the license if the director finds that doing so would be consistent with the purposes of this chapter. As a condition to reissuing the license, the director may (1) require the former licensee to undertake such financial guarantees, including the filing and maintaining of bonds, as the director deems necessary to protect the interests of contracting parties and (2) impose other conditions on the license that are consistent with the purposes of this chapter as the director deems appropriate.

SEC. 5. Section 56632.2 is added to the Food and Agricultural Code, to read:

56632.2. It is a misdemeanor for any person subject to this chapter to pay license fees in an amount less than that amount established under subdivision (b) of Section 56571. Any person who pays less than the amount established under subdivision (b) of Section 56571 for two or more consecutive years shall pay to the director treble the amount of the license fees due pursuant to this chapter.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 734

An act to amend Section 6624 of the Labor Code, relating to occupational safety and health.

[Approved by Governor October 7, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 6624 of the Labor Code is amended to read:

6624. A petition for reconsideration is deemed to have been denied by the appeals board unless it is acted upon within 45 days from the date of filing. The appeals board may, upon good cause being shown therefor, extend the time within which it may act upon that petition for not exceeding 15 days.

CHAPTER 735

An act to amend Sections 14040, 14040.5, 14050.1, 14115, and 14123.2 of, and to add Section 14132.18 to, the Welfare and Institutions Code, relating to Medi-Cal.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 14040 of the Welfare and Institutions Code is amended to read:

14040. (a) Each contract for fiscal intermediary services shall allow, to the extent practicable, providers to utilize electronic means for transmitting claims to the fiscal intermediary contractor. Means of transmission, and the manner and format used, shall be approved by the director. In determining which electronic means are acceptable, the director shall consider magnetic tape, computer-to-computer via telephone, diskettes, and any other methods which may become available through technological advancements.

(b) A provider may assign signature authority for transmission of claims to an authorized representative or billing agent.

(c) The department shall develop reasonable standards for participation by providers or persons who bill on behalf of providers in the use of claim transmission methods utilized pursuant to this section. These standards shall be designed to ensure that participants are able to submit technically complete claims and reduce the potential for fraud and abuse. A "technically complete claim" means any billing request for payment from a provider or the agent of a provider, including an original claim, claim inquiry, or appeal, that is submitted on the correct Medi-Cal claim form or electronic billing format, is fully and accurately completed, and includes all information and documentation required to be submitted on or with the claim pursuant to Medi-Cal billing and documentation requirements.

(d) To the extent required by federal and state law, the fiscal intermediary shall retain claim data submitted by providers pursuant to this section. The department shall, however, return to a health care provider original tapes, diskettes, and any other similar devices which are used by the provider pursuant to this section.

(e) In order to reduce the amount of paperwork or attachments which are required to be completed by a provider submitting a bill for services under this chapter to the fiscal intermediary, the department shall direct the fiscal intermediary to investigate and develop the means to incorporate as much information as possible on the electronic format.

SEC. 2. Section 14040.5 of the Welfare and Institutions Code is

amended to read:

14040.5. (a) Billing intermediaries shall register with the director and shall obtain an identifier code which shall be part of all Medi-Cal claims submitted by any billing intermediary.

(b) Any provider using a billing intermediary to bill the Medi-Cal program shall provide written notification to the director of the name and address of the billing intermediary.

(c) (1) Any Medi-Cal claim submitted by a billing intermediary failing to comply with the requirements of this section shall be subject to denial by the director.

(2) The director may deny, suspend, or withdraw the registration of a billing intermediary based upon failure to comply with this section, or for involvement of a billing intermediary in illegal submission of claims.

(3) The director may immediately withdraw or suspend the registration of a billing intermediary upon the involvement of that billing intermediary in the filing of false or misleading information on claims submitted for services allegedly rendered, or when a billing intermediary has demonstrated a pattern of filing claims which are not technically complete claims as defined in subdivision (c) of Section 14040.

(4) Proceedings for suspension or withdrawal of the registration of a billing intermediary pursuant to this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, except that hearings may be conducted by departmental hearing officers appointed by the director. The director may periodically contract with the Office of Administrative Hearings to conduct these hearings.

(5) The director shall notify the billing intermediary 30 days in advance of a proposed suspension and shall allow the billing intermediary to demonstrate why the suspension notice should not be issued.

(6) The director shall notify the billing intermediary of the suspension and the effective date thereof and at the same time shall serve the billing intermediary with the accusation. Upon receipt of a notice of defense by the billing intermediary, the director shall set the matter for hearing within 30 days of the receipt of the notice. The suspension shall remain in effect until the hearing is completed and the director has made a final determination on the merits. The suspension shall, however, be deemed vacated if the director fails to make a final determination on the merits within 60 days of the completion of the original hearing.

(6) This subdivision shall not apply where the suspension of a billing intermediary is based upon the conviction for any crime involving fraud, abuse of the Medi-Cal program, or suspension from the federal Medicare program. In those instances, suspension shall be automatic.

(d) For purposes of this section, a billing intermediary includes

any entity including a partnership, corporation, sole proprietorship, or person which bills Medi-Cal on behalf of a provider pursuant to a contractual relationship with the provider. As used in this section a billing intermediary does not include salaried employees of a provider.

(e) As used in this section "provider" means any individual, partnership, clinic, group, association, corporation, or institution as defined in Section 51051 of Title 22 of the California Administrative Code, and includes any officer, director, agent, or employee thereof.

SEC. 3. Section 14050.1 of the Welfare and Institutions Code is amended to read:

14050.1. For purposes of this chapter, "categorically needy person" means a person whose coverage is mandatory under Title XIX of the Social Security Act including, but not limited to, the individuals covered pursuant to Section 1396a(a)(10)(A)(i) of Title 42 of the United States Code.

SEC. 4. Section 14115 of the Welfare and Institutions Code is amended to read:

14115. (a) Bills for service under this chapter shall be submitted not more than six months after the month in which the service is rendered, and shall be in the form prescribed by the director, except that in the event the patient does not identify himself or herself to the provider as a Medi-Cal beneficiary within four months after the month in which the service was rendered, the provider shall be entitled to submit his or her statement at any time within 60 days after that date certified by the provider as the date the patient was first identified as a Medi-Cal beneficiary. However, the date certified by the provider as the date the patient was first so identified shall not be later than one year after the month in which the service was rendered. Whenever a provider has submitted a claim to a liable third party, the provider shall have one year after the month in which the service is rendered for submission of the bill. Whenever a legal proceeding has been commenced with either an administrative or judicial tribunal concerning a bill for which the provider is attempting to obtain payment from a liable third party, the provider shall have one year in which to submit the bill after the month in which the services have been rendered. A copy of the pleadings shall be conclusively presumed to be sufficient evidence of commencement of a legal proceeding.

(b) Further, the director may, where he or she finds that delay in the submission of bills was caused by circumstances beyond the control of the provider, extend the period for submission of bills for a period not to exceed one year.

(c) (1) Reimbursement for an original claim, submitted for payment between six and 12 months after the month of service, which does not meet any of the exceptions allowing billing after six months as specified in subdivisions (a) and (b), shall be reduced as follows:

(A) The amount otherwise payable by Medi-Cal shall be reduced

by 25 percent for claims submitted during the seventh through the ninth month after the month of service.

(B) The amount otherwise payable by Medi-Cal shall be reduced by 50 percent for claims submitted during the 10th through the 12th month after the month of service.

(2) In no event shall the provider be reimbursed for claims submitted more than one year after the month of service.

(d) For the purposes of this section, identification of a patient as a Medi-Cal beneficiary shall mean presentation to the provider of the patient's Medi-Cal card.

(e) No further followup shall be required, after the provider receives acknowledgment of a claim inquiry from the fiscal intermediary, until the claim is paid or denied, except that this period shall not exceed one year from the date of acknowledgment. Within one year from the date of acknowledgment the next level of appeal shall be utilized by the provider.

SEC. 5. Section 14123.2 of the Welfare and Institutions Code is amended to read:

14123.2. Any provider or person that presents or causes to be presented a claim for services to an officer, employee, or agent of the State of California, or of any department or agency thereof as defined in appropriate state law, that the director determines is for a medical or other item or service that the person knows or has reason to know; (a) was not provided as claimed, or (b) payment for which may not be made under the program in the following instances: (1) when the person or provider has been suspended from participation in the program, or (2) when the department determines that the services or items claimed are substantially in excess of the needs of individuals or are of a quality that fails to meet professionally recognized standards of health care, or (3) when the department determines that a person has demonstrated a pattern of abusive overbilling of the program, or (4) when the department determines that a person has intentionally or negligently made a false statement or representation on any request for payment submitted to the Medi-Cal program; or (c) is submitted in violation of an agreement between the person and the state, shall be subject in addition to any other penalties that may be prescribed by law, to a civil money penalty of not more than three times the amount claimed for each item or service. For continuing intentional violations, a civil money penalty of not more than three times the amount claimed for each item or service may be imposed for each day the violation continues.

The director shall make the determination to assess civil money penalties and shall be responsible for the collection of the penalty amounts.

The provider or person subjected to a civil money penalty may appeal any decision by the director to assess the penalty.

Notwithstanding any other provisions of law, all money collected pursuant to this section shall be deposited in the General Fund on a monthly basis.

SEC. 6. Section 14132.18 is added to the Welfare and Institutions Code, to read:

14132.18. (a) Community supported living arrangement services approved by the United States Department of Health and Human Services in accordance with Section 1396v of Title 42 of the United States Code is a covered benefit under this chapter to the extent that federal financial participation is available for those services and shall be subject to the terms, conditions, and duration of any waiver obtained from the Secretary of the United States Department of Health and Human Services.

(b) (1) The department, in consultation with the State Department of Developmental Services, shall submit an application to the secretary for approval to provide community supported living arrangement services and seek any federal waivers necessary to implement this subdivision.

(2) State matching funds for the federal medicaid funding shall come out of purchase of services funds of the regional centers, established pursuant to Article 1 (commencing with Section 4620) of Chapter 5 of Division 4.5 and it is the intent of the Legislature that no new funds from the General Fund shall be appropriated for this purpose.

(c) The department, in consultation with the State Department of Developmental Services, shall establish and maintain program standards for quality assurance and minimum protection to protect the health, safety, and welfare of individuals receiving community supported living arrangement services and as otherwise necessary to implement this section.

(d) In order to facilitate the design and development of community supported living arrangement services; program regulations implementing, interpreting, or making specific the provisions of subdivision (a) shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. This subdivision shall become inoperative on January 1, 1997.

(e) If the provision of community supported living arrangements as a covered benefit under this chapter receive federal approval, the department shall collect patient-specific cost data and compare the costs of providing community supported living arrangements under this chapter with the costs experienced prior to the provision of community supported living arrangements as a covered benefit under this chapter.

(f) This section shall cease to be operative if the Director of Health Services determines (1) California's application for federal funds under the community supported living arrangements medicaid state plan option is not accepted; (2) California's application for renewal of funding for community supported living arrangements is not accepted during the course of the grant; (3) federal funding for community supported living arrangements ceases to be available; or (4) California determines that it no longer

chooses to participate in the community supported living arrangements medicaid state plan option.

SEC. 7. The Legislature finds and declares that the United States Congress through its amendment of the Social Security Act has encouraged an innovative program of community supported living arrangement services for a limited number of states and a limited number of service providers and beneficiaries. Therefore, in order to facilitate California's success in competing for federal funds and to provide the flexibility to expeditiously develop necessary rules and standards it is the intent of the Legislature to provide statutory authority for the State Department of Health Services and the State Department of Developmental Services to seek and utilize federal medicaid funds and to suspend for a period of five years the necessity of requiring regulations to be subject to the Administrative Procedure Act.

SEC. 8. The Legislature finds and declares that when a billing intermediary under the Medi-Cal program misrepresents the information on a claim for reimbursement for Medi-Cal services or otherwise submits false or fraudulent claims, the State Department of Health Services' only recourse is to discipline the provider of the services. It is the intent of the Legislature, by amending Section 14040.5 of the Welfare and Institutions Code in Section 2 of this act, to remedy this situation by authorizing the Director of Health Services to deny, suspend, or withdraw the registration of a billing intermediary in those circumstances.

CHAPTER 736

An act to add Section 16731.5 to the Government Code, relating to general obligation bonds.

[Approved by Governor October 7, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

represented by bond certificates in denominations as the committee deems appropriate, but not less than one thousand dollars ($1,000).

(2) The dates of maturity and the aggregate amounts of the bonds maturing on each of these dates. Determination of maturity dates and amounts by the committee shall be made upon recommendation of the Treasurer to provide the maximum benefit to potential purchasers and to respond to the expected demand for the bonds. Whenever the committee determines to issue bonds from any authorized bond act as zero coupon or capital appreciation bonds, and to issue bonds from the same authorization at the same time pursuant to Section 16731, the committee may comply with the requirements of subdivision (b) of Section 16731 by taking into account all the bonds of the same authorization being issued at the same time.

(3) The interest rate or rates, and interest payment dates applicable to the bonds. Zero coupon bonds may bear a zero rate of interest, and capital appreciation bonds may bear a stated rate of interest payable only at maturity, compounded at the same rate, which rate or rates may be determined at the time of sale of the bonds. The rate of interest borne by these bonds, or the nominal interest rate taking into account the original issue discount of these bonds, when bearing a zero interest rate, shall not exceed 11 percent per annum.

(4) Any provisions for the redemption of the bonds prior to their stated maturity.

(5) The technical form and language of the bonds.

(6) All other terms and conditions of the bonds and of their execution, issuance, and sale, deemed necessary and appropriate by the committee.

(b) Notwithstanding any other provision of this chapter, when the committee determines to issue bonds as zero coupon or capital appreciation bonds, all of the following shall apply:

(1) The bonds may be sold at negotiated sale at a price below the par value in a manner consistent with paragraph (3) of subdivision (a). If the committee determines to issue other bonds authorized by the same bond act at the same time as zero coupon or capital appreciation bonds are issued, the other bonds may also be sold at negotiated sale with a discount of not more than 3 percent of the par amount thereof.

(2) For purposes of determining the principal amount of bonds of any voted authorization outstanding, in the case of any bonds which are zero coupon or capital appreciation bonds and do not provide for payment of interest on the bond prior to maturity, the principal amount of the bonds shall be the cash price paid by the initial purchasers of the bonds to the state, and deposited in the fund, plus the amount of any costs of issuance of the bonds. Within 30 days of the delivery of any zero coupon or capital appreciation bonds, the Treasurer shall submit to the committee a certificate stating the principal amount of bonds of each issue, calculated as stated in this

subdivision, which have been sold, and the certification shall be conclusive for all purposes under this chapter and the constitution.

(3) The committee may arrange to utilize the services of investment banks, commercial banks, savings and loans or other financial institutions, or other advisers as it may deem appropriate to publicize and assist in the marketing and sale of zero coupon or capital appreciation bonds.

(c) When zero coupon or capital appreciation bonds are issued pursuant to this section, the debt service payments on the bonds should continue to be managed in a manner consistent with the state's policy of retiring general obligation bonds in an orderly efficient manner. It is the expectation of the Legislature that the authority provided by this section will not be used to defer debt service payments as a means of preserving General Fund moneys for short-term purposes.

CHAPTER 737

An act to add Chapter 6.5 (commencing with Section 5501) to Part 1 of Division 4 of the Food and Agricultural Code, relating to economic poisons.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6.5 (commencing with Section 5501) is added to Part 1 of Division 4 of the Food and Agricultural Code, to read:

CHAPTER 6.5. ROADSIDE VEGETATION CONTROL

5501. This chapter shall be known and may be cited as the Property Owners' Roadside Vegetation Control Information Act of 1991.

5502. The following definitions shall govern the construction of this chapter:

(a) "Agency" means an agency of state government that has responsibility for roadside vegetation control operations on, or along, roadways.

(b) "Economic poison" has the same meaning as defined by Section 12753.

(c) "Property owner" means an owner, lessee, or tenant of real property that is adjacent or contiguous to a roadway over which an agency has responsibility for roadside vegetation control.

(d) "Roadside" means the land adjacent to, or dividing the lanes of traffic of, a roadway.

(e) "Roadway" means any highway, superhighway, expressway, street, road, lane, or other public thoroughfare.

5503. The Legislature hereby finds and declares all of the following:

(a) The unannounced and poorly coordinated use of economic poisons to control roadside vegetation has too frequently resulted in damage to adjacent or contiguous private property. In some instances, this activity has caused growers to needlessly suffer economic loss or damage to their crops.

(b) Property owners have a right to know beforehand the manner in which state government intends to control the roadside vegetation adjacent or contiguous to their property.

(c) It is in the public interest to establish a voluntary mechanism by which private property owners may meet and confer with representatives of state government to enter into mutually acceptable voluntary agreements to promote coordinated programs for roadside vegetation control and, thereby, minimize damage to adjacent and contiguous property.

(d) Mutually acceptable agreements may include, but are not limited to, provisions whereby the property owner assumes responsibility for roadside vegetation control in a manner which is at least as effective as that proposed by state government, the use of mechanical means of vegetation control, the use of a combination of economic poison and mechanical means of control, a delay in the application of an economic poison, or the use of different economic poisons.

(e) Private property owners and representatives of state government are encouraged to voluntarily develop creative and innovative means to accomplish the goals and objectives of this chapter.

5504. An agency shall promptly provide any or all of the following information to a property owner who so requests:

(a) The date on which the agency is scheduled, or planning, to conduct roadside vegetation control and the method or methods the agency is planning to use in the roadside vegetation control operation on, or along, the part of the roadway that is adjacent or contiguous to his or her property.

(b) The frequency with which the agency is scheduled, or is planning, to conduct a roadside vegetation control operation on, or along, the part of the roadway adjacent or contiguous to his or her property.

(c) Any other relevant information in the possession of the agency that may be of interest to the property owner of the property adjacent or contiguous to the roadside where the vegetation control operation is to be conducted.

5505. The agency shall not conduct a roadside vegetation control operation on that portion of the roadway for which a property owner has made a request for information pursuant to Section 5504, until both of the conditions set forth in subdivisions (a) and (b) have been

met or unless subdivision (c) applies:

(a) The agency provides the property owner the requested information pursuant to Section 5504.

(b) The property owner did not request a meeting with the representatives of the agency within 30 days after he or she received the information or, if so requested, the meeting is held in accordance with Section 5506.

(c) The agency provided the property owner the requested information pursuant to Section 5504, the property owner requested a meeting to be held in accordance with Section 5506, and the agency, having made a good faith effort to accommodate the property owner in scheduling and conducting a meeting, is unable to reach an agreement with the property owner on a reasonable meeting time and place within 30 days of the initial request for a meeting.

5506. (a) Within 30 days of receipt of the information required to be provided pursuant to Section 5504, the property owner may request a meeting with representatives of the agency to discuss the agency's proposed schedule for, or method of, roadside vegetation control, or both the schedule and method to be used on, or along, the roadway adjacent or contiguous to his or her property.

(b) Upon receipt of a request for a meeting pursuant to this section, the agency shall meet with the property owner at a mutually agreeable time and location.

(c) The purpose of the meeting shall be to develop and adopt (1) a schedule for the roadside vegetation control operation and (2) a method of roadside vegetation control that eliminates, or minimizes, damage to the property owner's property while preserving the ability of the agency to conduct an effective roadside vegetation control program.

(d) The agency shall consider and, if the facts presented to the agency warrant further action in order to carry out the objectives of this chapter, do any or all of the following:

(1) Revise the schedule for the roadside vegetation control operation.

(2) Revise the proposed methods of roadside vegetation control, including, but not limited to, the use of economic poison or mechanical methods of control, or a combination thereof.

(3) Use different economic poisons, or different combinations or concentrations of economic poisons.

(4) Enter into an agreement with the property owner whereby the property owner agrees to assume the responsibility, in whole or in part, of roadside vegetation control by any lawful method of control, if the agency determines that the property owner's method is as effective as the method proposed to be used by the agency.

(e) The objective of this section is to establish a procedure for property owners and representatives of agencies to meet and confer in order to develop and adopt mutually acceptable times for, and methods of, well-coordinated and effective roadside vegetation

control operations and, thereby, minimize damage to adjacent or contiguous property.

(f) If agreement cannot be reached between the property owner and the agency, the agency shall maintain responsibility for decisions affecting roadside vegetation control in the disputed area.

5507. If the property owner does not carry out the terms of any agreement entered into pursuant to paragraph (4) of subdivision (d) of Section 5506, as determined by the agency, the agency may immediately conduct the roadside vegetation control in accordance with the agency's schedule and method of roadside vegetation control.

5508. This chapter shall be liberally construed to accomplish its purposes and objectives.

5509. Any property owner affected by the decision of the agency made pursuant to this chapter may bring an action for writ of mandamus challenging the decision pursuant to Section 1085 of the Code of Civil Procedure. A property owner may also request a court to issue an injunction or order any other action to restrain any violation of this chapter.

CHAPTER 4.5. HIGHER EDUCATION ACCOUNTABILITY PROGRAM

99180. (a) It is the intent of the Legislature that demonstrable improvements in student knowledge, capacities, and skills between entrance and graduation be publicly announced and available, and that these improvements be achieved efficiently through the effective use of student and institutional resources of time, effort, and money.

(b) It is further the intent of the Legislature that public and private institutions of higher education express expectations of student performance in a manner that is clear to students.

(c) It is further the intent of the Legislature that existing accountability requirements be strengthened through the elimination of unnecessary and redundant reports submitted by the educational institutions to various state agencies. The purpose of each report shall be identified, as well as the costs associated with production of the report. The California Postsecondary Education Commission shall review and comment on the utility of the required reports identified by the educational institutions, and offer recommendations for consolidating or eliminating existing reporting requirements in order to reduce operating expenses and streamline reporting provisions.

99182. (a) On or before November 15, 1994, and each November 15 thereafter, the California Postsecondary Education Commission shall submit a higher education report to the Legislature and the Governor which provides information to the citizens of the state on

the significant indicators of performance of the public colleges and universities. This annual report shall be presented in a readable format. Prior to publication, the commission shall distribute a draft of the report to all public colleges and universities for comment.

(b) The commission, in cooperation with the public colleges and universities, shall develop and adopt a format for the higher education report specified in subdivision (a) and the information to be included. (3) The number of hours per student per semester spent by faculty in student advisement.

(4) Placement data on graduates.

(5) The proportional change in the participation and graduation rate of students from groups historically underrepresented in higher education.

If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 744

An act to add Section 42409 to the Health and Safety Code, relating to air pollution.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 42409 is added to the Health and Safety Code, to read:

42409. Every district shall publish in writing and make available to any interested party a list which describes potential violations subject to penalties under this article . The list shall also include the minimum and maximum penalties for each violation which may be assessed by a district pursuant to this article.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 745

An act to amend Sections 66427.4 and 66428 of, and to add Sections 66427.5 and 66428.1 to, the Government Code, and to amend Section 50786 of the Health and Safety Code, relating to mobilehomes, and making an appropriation therefor.

[Approved by Governor October 8, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 66427.4 of the Government Code is amended to read:

66427.4. (a) At the time of filing a tentative or parcel map for a subdivision to be created from the conversion of a mobilehome park to another use, the subdivider shall also file a report on the impact of the conversion upon the displaced residents of the mobilehome park to be converted. In determining the impact of the conversion on displaced mobilehome park residents, the report shall address the availability of adequate replacement space in mobilehome parks.

(b) The subdivider shall make a copy of the report available to

each resident of the mobilehome park at least 15 days prior to the hearing on the map by the advisory agency or, if there is no advisory agency, by the legislative body.

(c) The legislative body, or an advisory agency which is authorized by local ordinance to approve, conditionally approve, or disapprove the map, may require the subdivider to take steps to mitigate any adverse impact of the conversion on the ability of displaced mobilehome park residents to find adequate space in a mobilehome park.

(d) This section establishes a minimum standard for local regulation of conversions of mobilehome parks into other uses and shall not prevent a local agency from enacting more stringent measures.

(e) The subdivider shall offer each existing tenant an option to purchase his or her condominium unit which is to be created by the conversion of the park into condominium interests or to continue residency as a tenant. In the event that the tenant elects to continue residency as a tenant in a park created pursuant to Chapter 11 (commencing with Section 50780) of Part 2 of Division 31 of the Health and Safety Code, Section 66427.5 shall be applicable.

SEC. 2. Section 66427.5 is added to the Government Code, to read:

66427.5. At the time of filing a tentative or parcel map for a subdivision to be created using financing or funds provided pursuant to Chapter 11 (commencing with Section 50780) of Part 2 of Division 31 of the Health and Safety Code, the subdivider shall avoid the economic displacement of all nonpurchasing residents in the following manner:

(a) As to nonpurchasing residents who are not lower income households, as defined in Section 50079.5 of the Health and Safety Code, the monthly rent, including any applicable fees or charges for use of any preconversion amenities, may increase from the preconversion rent to market levels, as defined in an appraisal conducted in accordance with nationally recognized professional appraisal standards, in equal annual increases over a four-year period.

(b) As to nonpurchasing residents who are lower income households, as defined in Section 50079.5 of the Health and Safety Code, the monthly rent, including any applicable fees or charges for use of any preconversion amenities, may increase from the preconversion rent by an amount equal to the average monthly increase in rent in the four years immediately preceding the conversion, except that in no event shall the monthly rent be increased by an amount greater than the average monthly percentage increase in the Consumer Price Index for the most recently reported period.

SEC. 3. Section 66428 of the Government Code is amended to read:

66428. (a) Local ordinances may require a tentative map where

a parcel map is required by this chapter. A parcel map shall be required for subdivisions as to which a final or parcel map is not otherwise required by this chapter, unless the preparation of the parcel map is waived by local ordinance as provided in this section. A parcel map shall not be required for either of the following:

(1) Subdivisions of a portion of the operating right-of-way of a railroad corporation, as defined by Section 230 of the Public Utilities Code, which are created by short-term leases (terminable by either party on not more than 30 days' notice in writing).

(2) Land conveyed to or from a governmental agency, public entity, public utility, or for land conveyed to a subsidiary of a public utility for conveyance to that public utility for rights-of-way, unless a showing is made in individual cases, upon substantial evidence, that public policy necessitates a parcel map.

(b) A local agency shall, by ordinance, provide a procedure for waiving the requirement for a parcel map, imposed by this division, including the requirements for a parcel map imposed by Section 66426. The procedure may include provisions for waiving the requirement for a tentative and final map for the construction of a condominium project on a single parcel. The ordinance shall require a finding by the legislative body or advisory agency, that the proposed division of land complies with requirements established by this division or local ordinance enacted pursuant thereto as to area, improvement and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and other requirements of this division or local ordinance enacted pursuant thereto. In any case, where the requirement for a parcel map is waived by local ordinance pursuant to this section, a tentative map may be required by local ordinance.

(c) If a local ordinance does not require a tentative map where a parcel map is required by this division, the subdivider shall have the option of submitting a tentative map, or if he or she desires to obtain the rights conferred by Chapter 4.5 (commencing with Section 66498.1), a vesting tentative map.

SEC. 4. Section 66428.1 is added to the Government Code, to read:

66428.1. (a) When at least two-thirds of the owners of mobilehomes who are tenants in the mobilehome park sign a petition indicating their intent to purchase the mobilehome park for purposes of converting it to resident ownership, and a field survey is performed, the requirement for a parcel map or a tentative and final map shall be waived unless any of the following conditions exist:

(1) There are design or improvement requirements necessitated by significant health or safety concerns.

(2) The local agency determines that there is an exterior boundary discrepancy that requires recordation of a new parcel or tentative and final map.

(3) The existing parcels which exist prior to the proposed

conversion were not created by a recorded parcel or final map.

(4) The conversion would result in the creation of more condominium units or interests than the number of tenant lots or spaces that exist prior to conversion.

(b) The petition signed by owners of mobilehomes in a mobilehome park proposed for conversion to resident ownership pursuant to subdivision (a) shall read as follows:

MOBILEHOME PARK PETITION AND DISCLOSURE STATEMENT

SIGNING THIS PETITION INDICATES YOUR SUPPORT FOR CONVERSION OF THIS MOBILEHOME PARK TO RESIDENT OWNERSHIP. THIS DISCLOSURE STATEMENT CONCERNS THE REAL PROPERTY SITUATED IN THE CITY OF _____, COUNTY OF _____, STATE OF CALIFORNIA, DESCRIBED AS _____. THE TOTAL COST FOR CONVERSION AND PURCHASE OF THE PARK IS $____ TO $_____, EXCLUDING FINANCING COSTS. THE TOTAL COST TO YOU FOR CONVERSION AND PURCHASE OF YOUR OWNERSHIP INTEREST IS $____ TO $_____, EXCLUDING FINANCING COSTS. IF TWO-THIRDS OF THE RESIDENTS IN THIS PARK SIGN THIS PETITION INDICATING THEIR INTENT TO PURCHASE THE MOBILEHOME PARK FOR PURPOSES OF CONVERTING IT TO RESIDENT OWNERSHIP, THEN THE REQUIREMENTS FOR A NEW PARCEL, OR TENTATIVE AND FINAL SUBDIVISION MAP IN COMPLIANCE WITH THE SUBDIVISION MAP ACT MUST BE WAIVED, WITH CERTAIN VERY LIMITED EXCEPTIONS. WAIVING THESE PROVISIONS OF LAW ELIMINATES NUMEROUS PROTECTIONS WHICH ARE AVAILABLE TO YOU.

_____ _____

Buyer, unit #, date Petitioner, date

(c) The local agency shall provide an application for waiver pursuant to this section. After the waiver application is deemed complete pursuant to Section 65943, the local agency shall approve or deny the application within 50 days. The applicant shall have the right to appeal that decision to the governing body of the local agency.

(d) If a tentative or parcel map is required, the local agency shall not impose any offsite design or improvement requirements unless these are necessary to mitigate an existing health or safety condition. No other dedications, improvements, or in-lieu fees shall be required by the local agency. In no case shall the mitigation of a health or safety condition have the effect of reducing the number, or changing the location, of existing mobilehome spaces.

(e) If the local agency imposes requirements on an applicant to mitigate a health or safety condition, the applicant and the local agency shall enter into an unsecured improvement agreement. The local agency shall not require bonds or other security devices pursuant to Chapter 5 (commencing with Section 66499) for the performance of that agreement. The applicant shall have a period of one year from the date the agreement was executed to complete those improvements.

(f) If the waiver application provided for in this section is denied by the local agency pursuant to the provisions of subdivision (a), the applicant may proceed to convert the mobilehome park to a tenant-owned, condominium ownership interest, but shall file a parcel map or a tentative and final map. The local agency may not require the applicant to file and record a tentative and final map unless the conversion creates five or more parcels shown on the map. The number of condominium units or interests created by the conversion shall not determine whether the filing of a parcel or a tentative and final map shall be required.

(g) For the purposes of this section, the meaning of "resident ownership" shall be as defined in Section 50781 of the Health and Safety Code.

SEC. 5. Section 50786 of the Health and Safety Code is amended to read:

50786. (a) The department shall adopt regulations for the administration and implementation of this chapter.

(b) The department shall obtain the best available security for loans made pursuant to this chapter. The security may include a note, deed of trust, assignment of lease, or other form of security on real or personal property which the department determines is adequate to protect the interests of the state. To the extent applicable, these documents and any regulatory provisions shall be recorded or referenced in a recorded document in the office of the county recorder of the county in which the mobilehome park is located.

(c) The degree of continuing regulatory control with respect to park operations and resident loans exercised by the department in making loans pursuant to this chapter shall be commensurate with the level of financial assistance provided and in all cases shall be adequate to protect the state's security interest and ensure the accomplishment of the purposes of the program authorized by this chapter. The regulatory requirements shall be set forth in a regulatory agreement, deed of trust, or other lien, and any violation of these requirements shall be considered a violation of a security document.

(d) Before providing financing pursuant to this chapter, the department shall require provision of, and approve, at least all of the following:

(1) Verification that at least two-thirds of the households residing in the mobilehome park support the plans for acquisition and conversion of the park.

(2) Verification that either no park residents shall be involuntarily displaced as a result of the park conversion or the impacts of the displacement shall be mitigated as required under state and local law. For purposes of this requirement, compliance with Section 66427.5 of the Government Code shall be conclusively presumed to have mitigated economic displacement.

(3) Verification that the conversion is consistent with local zoning and land use requirements, other applicable state and local laws, and regulations and ordinances.

(4) Projected costs and sources of funds for all conversion activities.

(5) Projected operating budget for the park during and after the conversion.

(6) A management plan for the conversion and operation of the park.

(7) If necessary, a relocation plan for residents not participating which is in compliance with Chapter 16 (commencing with Section 7260) of Division 7 of Title 1 of the Government Code.

(e) The department shall, to the greatest extent feasible, do both of the following:

(1) Require participation by cities and counties in loan applications submitted pursuant to this chapter.

(2) Contract with private lenders or units of local government to provide program administration and to service loans made pursuant to this chapter.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 746

An act to amend Section 19546 of the Business and Professions Code, relating to horseracing.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 19546 of the Business and Professions Code is amended to read:

19546. (a) In order to encourage and develop the racing of all horses in California, regardless of breed, whenever the California

(b) All recognized breeds of horses may compete in barrel races, show jumping races, and steeplechase races. Parimutuel wagering may be conducted on barrel races, show jumping races, and steeplechase races at any public or private facility which has been approved and licensed by the board.

CHAPTER 747

An act to add Chapter 9 (commencing with Section 24101) to, to repeal the heading of Article 1 (commencing with Section 23801) and to repeal Article 2 (commencing with Section 23831) of Chapter 6 of, Division 11 of, the Food and Agricultural Code, and to amend Section 25988.5 of the Health and Safety Code, relating to animals.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) Horses, ponies, mules, and burros are lost through theft, abuse, and destruction, which constitutes a loss of public property, and a loss to the state of tax revenues, which would otherwise have been obtained from sales taxes on the sale of feed, grain, and tack purchased for these animals.

(b) The purpose of this act is to protect horses, ponies, mules, and burros.

SEC. 2. Chapter 9 (commencing with Section 24101) is added to Division 11 of the Food and Agricultural Code, to read:

CHAPTER 9. EQUINE PROTECTION: ENFORCEMENT

24101. This chapter shall be known and may be cited as the Equine Protection Act of 1991.

24102. For purposes of this chapter:

(a) "Animal" means a horse, pony, mule, or burro.

(b) "Program" means the program of equine protection and identification of the department.

(c) "Slaughter" means to kill an animal and prepare it for consumption by animals or human beings.

24103. There is in the department a program of equine protection and identification.

24105. No investigator of the program or any other employee of the department, in enforcing this chapter, shall be required to conduct any investigation that involves the theft of any animal. That investigation shall be conducted by the law enforcement entity that filed the theft report.

24106. No person shall purchase, consign, sell, or accept the donation of an animal which is destined for slaughter unless the seller or donor of the animal provides, and the purchaser or donee receives, at the time of delivery, a written bill of sale or any written instrument which contains all of the following information:

(a) A description of each animal which is sold that includes its sex, breed, color, approximate height and weight, approximate age, natural marks, or identifying scars, and of each brand or tatoo and its location. If the animal has been branded or tatooed and registered with the Bureau of Livestock Identification in the department, the identification papers shall accompany the animal.

(b) The name, address, signature, and motor vehicle driver's license number of the person who sold or donated the animal.

(c) The date of the transaction.

(d) The name, address, and motor vehicle driver's license number of the purchaser of the animal.

(e) The name, address, and motor vehicle driver's license number of any person who transports the animal to the purchaser or an auction yard.

24107. Every operator of an auction yard or dealer who handles animals destined for slaughter shall keep a written record of all sales and purchases made in the course of conducting the business for at least two years after making the final entry of any purchase, sale, or donation of an animal. The operator of an auction yard or the dealer shall show the record on demand to any investigator of the program or any peace officer.

24108. Any person who does not keep the written records required by this chapter or who refuses, upon demand of any investigator of the program or any peace officer, to show the record, or any person who destroys the record within two years after making the final entry of any purchase, consignment, sale, or donation of any animal, is guilty of an infraction.

24109. (a) No animal, whether branded or not, shall be shipped, transported, hauled, or delivered for slaughter, unless it is inspected by an inspector of the program.

(b) As part of the inspection required by this section, the inspector shall be provided a valid bill of sale containing the information designated in Section 24106 for each individual animal.

24110. An inspector shall seize any animal for which a valid bill of sale containing the information designated in Section 24106 is not provided.

24111. Except as otherwise provided in this chapter, it is unlawful for any person to remove from the possession of an inspector any animal seized or which is otherwise in the possession of an inspector.

24112. If the animal which is seized or otherwise in the possession of the inspector is branded, the director shall cause a search to be made of the brand records to ascertain the owner.

24113. If the brands or marks are recorded, the director shall immediately, by letter, notify the person in whose name the brands or marks are recorded.

24114. If the owner cannot be ascertained, the director shall cause a notice of the seizure of the animal to remain posted for a period of 14 days on a bulletin board in each office of the Bureau of Livestock Identification. In addition to posting the notice, the director shall periodically publish a list of the descriptions of the animals, containing the information specified in Section 24106, in the classified section of a horse-oriented publication which is in general circulation throughout the State of California. The notices shall also state the time and place of the animal's proposed sale.

24115. Any person that claims ownership of the animal may, at any time, but not later than 14 days after the first posting of the notice, file his or her proof of ownership with the director and the director shall proceed to determine the claim of ownership.

24116. If ownership is proved to the satisfaction of the director, the animal shall be returned to the owner upon payment by the owner of all expenses which were incurred in the handling of the animal.

24117. If the animal at any time while in the possession of an inspector is in a condition which requires immediate disposal, the animal may be disposed of by the director. The proceeds from the salvage, if any, in excess of expenses which were incurred in the handling of the animal shall be paid to the person proving ownership pursuant to Section 24116.

24118. If after 14 days from the date of the first posting of notice, no satisfactory proof of ownership of the animal has been made, or if the owner fails or refuses to pay all expenses which were incurred, the director shall sell the animal. All sales which are made pursuant to this chapter convey a good and valid title to the purchaser.

24119. The proceeds from the sale of any animal shall be paid into, and the expenses of holding, advertising, sale, and other incidental expenses shall be paid from, the Department of Food and Agriculture Fund.

24120. If any person shall, within one year after the date of the sale, prove to the satisfaction of the director his or her ownership of an animal which was sold pursuant to this article, the director shall order the net proceeds of the sale of the animal to be paid to that person.

24121. If the inspector of the program determines that the person who offers the animal for inspection is in lawful possession, the inspector shall issue a certificate of inspection.

24122. The certificate of inspection shall be signed by the inspector of the program and shall indicate all of the following:

(a) The place and date of inspection and the number of animals

inspected.

(b) The sex, breed, color, approximate height and weight, approximate age, natural marks and identifying scars, and a description of each brand or tattoo and its location on each animal.

(c) If the animal is to be transported, the names of the shipper and consignee and the point of origin and the final destination of the shipment.

(d) If the animal is to be transported, the length of time necessary to transport the animal between the point of inspection and the point of final destination. The inspector shall determine the amount of time needed for this purpose, based upon the information provided to him or her at the time of inspection.

The certificate issued pursuant to this section shall only be valid for transportation purposes during the period of time specified on the certificate by the inspector.

24123. It is unlawful for any inspector to issue a certificate of inspection unless he or she personally makes the inspection between sunrise and sunset.

24124. One copy of the certificate of inspection required by this chapter shall accompany the shipment of animals.

24125. Any person who transports an animal destined for slaughter who does not have a copy of the certificate of inspection as required pursuant to this chapter or who refuses, upon demand of any investigator of the program or any peace officer, to exhibit a copy of the certificate, is subject to a civil penalty not to exceed fifty dollars ($50) for each animal.

24126. It is unlawful for any person to remove any animal and substitute another for it, or to add any other animal or transport an animal from any lot of animals for which a certificate has been issued, until the shipment or slaughter is completed, unless the inspector who issued the certificate approves these actions in writing. A violation of this section is a misdemeanor.

24127. (a) Each dealer who handles animals destined for slaughter, and who ships more than 15 or more animals at a time for slaughter, shall pay the inspector a service fee of twenty-five dollars ($25), in addition to a fee of ten dollars ($10) for each animal. The inspection shall take place within 24 hours of the date of transportation.

(b) Each dealer who handles animals destined for slaughter, and who ships less than 15 animals at a time for slaughter, shall pay the inspector for the actual cost of the inspection, as determined by the director. The inspection shall take place immediately prior to when the animal to be shipped is loaded onto the conveyance.

(c) The fees shall be paid at the point of inspection of the animals. The revenue derived from these fees shall be deposited in the Department of Food and Agriculture Fund and, upon appropriation by the Legislature, shall be expended to carry out this chapter. The department shall maintain all internal accounting measures necessary to ensure that revenue derived pursuant to this chapter

shall be kept separate from all other funds in the Department of Food and Agriculture Fund.

24128. (a) The inspector shall make a memorandum which shows the number, sex, breed, color, approximate height and weight, approximate age, natural marks and identifying scars, and a description of each brand or tattoo and its location on each animal which is inspected, and the names of the owner or claimant, consignor, or consignee.

(b) The memorandum of the inspection shall be retained for record purposes by the inspector for at least two years after the date of the inspection.

24129. The department shall maintain inspection certificates for a period of five years in a manner that shall disclose the number of animals that have been inspected.

24130. Any person that is engaged in the business of buying or selling animals on consignment at any public or private salesyard shall keep after each sale, a certificate of consignment which contains all of the following information:

(a) The name and address of the consignor.

(b) A description of each animal which is sold that includes its sex, breed, color, approximate height and weight, approximate age, natural marks and identifying scars, and a description of each brand or tattoo and its location on each animal.

(c) Reasonable proof of the ownership of the animal.

(d) The license number of any vehicle which transports the animal to the salesyard. If the animal is transported in a trailer, the license number of both the trailer and the vehicle which pulls it shall be given.

(e) The signature of the consignor.

24131. Any person subject to Section 24130 shall retain the certificate of consignment on file for a period of at least two years after the sale. The certificates of consignment shall be presented on demand of any peace officer or any agent of the program.

24132. (a) Notwithstanding any other provision of law, a person is civilly liable for four times the value of the animal at the time of taking, possessing, harboring, transporting, or slaughtering of the animal, with interest, at the prime rate from the date of that occurrence, for attorney fees incurred in the recovery of the animal, and for an amount in fair compensation for the time and money properly expended by the owner in pursuit of the animal, as follows:

(1) In any action for the wrongful taking, possessing, harboring, or transporting of an animal for slaughter or for the slaughter of the animal without the consent of the owner or the person lawfully in possession of the animal or any animal whose ownership is still in dispute.

(2) In any action where a person knowingly, by any false representation or pretense, defrauds another person of any animal, which results in the wrongful taking, possessing, harboring, or transporting of the animal for slaughter without the consent of the

owner or the person lawfully in possession of the animal or any animal whose ownership is still in dispute.

(b) The commencement of any criminal prosecution for the theft of the animal shall not preclude or prevent any civil action as specified in this section.

24133. Any person who transports an animal destined for slaughter out of the state under false pretenses in order to avoid an inspection under this chapter is guilty of a misdemeanor and subject to a fine of five hundred dollars ($500) for each animal so transported.

SEC. 3. The heading of Article 1 (commencing with Section 23801) of Chapter 6 of Division 11 of the Food and Agricultural Code is repealed.

SEC. 4. Article 2 (commencing with Section 23831) of Chapter 6 of Division 11 of the Food and Agricultural Code is repealed.

SEC. 5. Section 25988.5 of the Health and Safety Code is amended to read:

25988.5. (a) Citations issued pursuant to Section 25988 shall require the person cited to pay a civil penalty in the amount of one hundred dollars ($100) for each violation, and one hundred dollars ($100) for each day the violation continues.

(b) Any person who violates Section 25988 may be prosecuted by the district attorney of the county in which the violation occurred or the city attorney of the city in which the violation occurred.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 748

An act to amend Sections 752, 754, 756, 758, 760.5, 763, 764, 772, 777, 782, and 783 of the Public Resources Code, relating to forestry.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 752 of the Public Resources Code is amended to read:

752. "Professional forester," as used in this article, means a person

who, by reason of his or her knowledge of the natural sciences, mathematics, and the principles of forestry, acquired by forestry education and experience, performs services, including, but not limited to, consultation, investigation, evaluation, planning, or responsible supervision of forestry activities when such professional services require the application of forestry principles and techniques.

SEC. 2. Section 754 of the Public Resources Code is amended to read:

754. As an alternative to registration as a professional forester, or as a certified specialist pursuant to Section 772, any federal agency may submit, for board recognition, its independent certification program. Recognition by the board shall be based on its finding that the certification program submitted fully protects the public interest, including qualifications and methods of disciplining certificants consistent with Sections 775, 777, and 778. These certificants shall be considered "qualified but exempt" from registration by the board in that area of practice in relation to activities on federal land. A person who is "qualified but exempt" pursuant to this section shall not represent himself or herself as a "professional forester" or specific board "certified specialist" until that person complies with the requirements of the board for these titles. The board shall not take any corrective action pursuant to this section until July 1, 1993, to allow time to comply with this section.

SEC. 3. Section 756 of the Public Resources Code is amended to read:

756. Nothing in this article prohibits any person from engaging in those activities otherwise restricted to professional foresters, certified specialists, or qualified but exempt certificants, provided a registrant is in charge of the professional practice or work of that person and all professional work or documents are done by or under the supervision of the registrant.

SEC. 4. Section 758 of the Public Resources Code is amended to read:

758. This article shall not be construed to authorize a registered professional forester to practice civil engineering as defined in Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code or to practice land surveying as defined in Chapter 15 (commencing with Section 8700) of Division 3 of the Business and Professions Code or to practice landscape architecture, as defined in Chapter 3.5 (commencing with Section 5615) of Division 3 of the Business and Professions Code.

SEC. 5. Section 760.5 of the Public Resources Code is amended to read:

760.5. The board may hire the clerical and secretarial employees, technical personnel, and other staff who are necessary and budgeted to properly assist the work of the board in carrying out the purposes of this article. This staff personnel shall be subject to the relevant system and procedures of the state civil service. The provisions of the

State Civil Service Act contained in Part 2 (commencing with Section 18500) of Division 5 of Title 2 of the Government Code shall apply to that personnel. The executive officer shall be an employee exempt from civil service.

SEC. 6. Section 763 of the Public Resources Code is amended to read:

763. (a) The board shall establish an examining committee of at least seven members composed of the following, who shall be appointed by the board and serve at its pleasure:

(1) Two public members with one selected from the membership of the board.

(2) At least four professional foresters in good standing representing a broad cross section of employment and expertise.

(3) At least one other natural resource professional.

(b) The examining committee shall do all of the following:

(1) Examine all applicants for registration as professional foresters and for specialty certificates.

(2) Recommend to the board applicants for the license of professional forester and applicants for specialty certificates who fulfill the requirements of this article.

(3) Review complaints, which review may include independent investigations or expert witness evaluations, and make disciplinary recommendations to the board.

(4) Establish ad hoc committees as needed with representatives of certified specialists.

(5) Recommend to the board whether an independent certification program qualifies for recognition under Section 754.

(6) Recommend adoption of the rules and regulations or changes in rules and regulations which may be needed to effect this article.

SEC. 7. Section 764 of the Public Resources Code is amended to read:

764. Any person appointed to serve upon the examining committee shall receive, if requested, one hundred dollars ($100) for each day during which he or she is engaged in the performance of his or her official duties, except that the compensation of each member shall not exceed in any one fiscal year the sum of one thousand dollars ($1,000). In addition, each member shall be reimbursed for necessary expenses incurred in the performance of his or her duties, including travel, at state rates.

SEC. 8. Section 772 of the Public Resources Code is amended to read:

772. (a) Instead of being registered as a professional forester, an applicant may request to be registered as a certified specialist in one or more fields of forestry. Registration in a specialty area does not prohibit a professional forester from providing services within that professional forester's area of expertise. Specialties shall be developed by the board based on need, in conjunction with the examining committee and its ad hoc committees, and shall establish the scope of practice.

(b) As an alternative to a board-developed specialty, any public agency or professional society may submit for board recognition its independent certification program as full qualification without examination for the board's certificate of specialization. That certification as a specialist shall be granted provided the board determines the program fully protects the public interest in that area of practice encompassed by the program. Those certificants are subject to board registration and discipline with review by that specialty. The board shall not take any corrective action pursuant to this section until December 31, 1993, to allow time to comply with this section.

SEC. 9. Section 777 of the Public Resources Code is amended to read:

777. If the board finds against the registrant, the board, in its decision, may terminate all operations of the registrant during the period fixed by the decision, except those operations the board determines that the person may complete. The board may impose upon the registrant compliance with specific conditions as may be just in connection with his or her operations, and may further provide that, until the conditions are complied with, no application for restoration of the suspended or revoked registration shall be accepted by the board.

The board shall provide public notice of the suspension or revocation pursuant to this section.

The board may issue a private reprimand when a registrant commits a failure of responsibility which warrants a lesser level of discipline than suspension. The issuance of a private reprimand does not prohibit the board from using the subject of the private reprimand in an accusation, within the statute of limitations, seeking suspension or revocation resulting from a subsequent complaint, to establish a pattern of lesser failures of professional responsibility. If the evidence is insufficient to support a private reprimand or an accusation, the executive officer for registration may send a letter expressing the examining committee's concerns.

SEC. 10. Section 782 of the Public Resources Code is amended to read:

782. The amount of fees shall be established by regulations of the board within the following ranges, and based on a determination by the board of the amount of revenues reasonably necessary to carry out this article:

(a) The application fee for registration or each certificate of specialization shall be not less than fifty dollars ($50) and not more than two hundred dollars ($200).

(b) The registration fee and certificate of specialization fees and renewal fees shall be not less than twenty-five dollars ($25) and not more than two hundred fifty dollars ($250). Every licensed person shall, on or before July 1 of each year, pay the renewal fee.

(c) The fee for issuance of a duplicate display registration document or certificate of specialization shall be not less than five

dollars ($5) and not more than twenty-five dollars ($25).

(d) The penalty fee for failure to apply for a renewal shall be not less than ten dollars ($10) and not more than twenty-five dollars ($25) for each month of delinquency. In return for the payment of the renewal fee and any applicable late fees, a renewal registration card shall be issued.

(e) A registrant or certificant may, upon written notice to the board, be granted a withdrawal period without penalty not to exceed five years. A reinstatement application shall be accompanied with a fee of not less than fifteen dollars ($15) and not more than fifty dollars ($50), for registration or each certificate of specialization.

SEC. 11. Section 783 of the Public Resources Code is amended to read:

783. In case any person defaults in payment of the renewal fee, his or her registration may be revoked by the board on 60 days' notice in writing from the board, unless within this time the fee is paid, together with penalty, not exceeding the amount fixed by this article. Upon payment of the fee and penalty within one year, the board shall reinstate the person's registration.

CHAPTER 749

An act to amend Sections 22813.5, 22859, 22862.1, and 22862.2 of, and to repeal and add Section 22813.6 of, the Government Code, relating to public employees, and making an appropriation therefor.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 22813.5 of the Government Code is amended to read:

22813.5. Thirty days prior to or 30 days following retirement and during the annual open enrollment period, a state employee who is enrolled in the flexible benefits plan administered by the Department of Personnel Administration or the Trustees of the California State University shall be given the option to elect coverage in any available board-administered health plan and receive the applicable employer's contribution toward the health benefits premium, if the state employee would otherwise qualify as an annuitant.

SEC. 2. Section 22813.6 of the Government Code is repealed.

SEC. 3. Section 22813.6 is added to the Government Code, to read:

22813.6. Notwithstanding any other provision of law, a state employee participating in the flexible benefits program administered by the Department of Personnel Administration or the

Trustees of the California State University, who either terminated enrollment in a board-administered health plan in reliance on other medical coverage or was enrolled in a board-administered health plan for self only, may enroll without regard to an open enrollment period for coverage as follows: (a) for self alone or self and all eligible dependents, if the flexible cash option is discontinued; or, (b) to add all eligible dependents, upon their loss of coverage, where the flexible cash option has not been selected.

Either type of enrollment shall be requested within 60 calendar days of the loss of other coverage and submitted to the retirement system through the Department of Personnel Administration or the Trustees of the California State University. The effective date of these enrollments shall be the first day of the month following the loss of other coverage. Either type of enrollment shall entitle the state employee to receive the benefit of the applicable employer's contributions toward the health plan costs under Section 22825.1.

SEC. 4. Section 22859 of the Government Code is amended to read:

22859. A contracting agency may elect by amendment to its contract with the board to participate in a Medicare reimbursement program for its employees or annuitants, or family members of employees or annuitants, who are enrolled in a health benefits plan under this part that provides supplemental benefits for persons enrolled under the health insurance provisions of Title XVIII of the federal Social Security Act. The program shall apply to reimbursement of the amount of Medicare's standard charge exclusive of surcharge for late enrollment for insurance described in Part B under the Social Security Act, as prescribed by board regulations.

SEC. 5. Section 22862.1 of the Government Code is amended to read:

22862.1. Notwithstanding any other provision of law, the board may contract with health maintenance organizations or fee-for-service plans, licensed and doing business in other states to provide health benefits for active state employees and active employees of contracting agencies, who are assigned to perform duties outside of this state and for active and retired employees who choose to reside out of this state. The contracts shall be on such terms as the board in its discretion deems necessary or desirable. The plans may not be required to meet the minimum requirements of the board, as specified in the regulations of the board, but shall, at a minimum, provide appropriate safeguards for members. For purposes of this section, an employee is permanently assigned out-of-state if the assignment is intended to exceed four months.

SEC. 6. Section 22862.2 of the Government Code is amended to read:

22862.2. An out-of-state employee who separates from service as an employee of this state or a contracting agency and becomes an annuitant, as defined by Section 22754, may continue his or her

enrollment in a board-approved out-of-state health benefits plan or may transfer to any other plan approved or maintained by the board.

An annuitant who leaves this state and elects to reside in another state in which the board maintains a health benefits plan which is approved by the board may transfer his or her enrollment to that plan and shall be entitled to the benefits of the employer's contributions as provided in this part.

SEC. 7. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 750

An act to amend Section 1 of, to repeal Sections 2 and 4 of, and to amend and renumber Section 3 of, Chapter 153 of the Statutes of 1974, and to create the Ojai Basin Groundwater Management Agency, relating to water.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Ojai Basin Groundwater Management Agency Act.

Article 1. Creation

Sec. 101. The Legislature hereby finds and declares that the preservation of the groundwater within the territory of the Ojai Basin Groundwater Management Agency, created pursuant to Section 102 for the protection of agricultural, municipal, and industrial uses, is in the public interest and for the common benefit of water users within the agency.

Sec. 102. The Ojai Basin Groundwater Management Agency is hereby created. For the purposes of this act, the boundaries of the agency include that portion of the Ojai Basin watershed which lies within the boundaries of the Casitas Municipal Water District or the Ojai Water Conservation District, but do not include any land within the boundaries of the Ventura River County Water District. The boundaries of the agency are more particularly described as follows:

The point of beginning is located at the intersection of the centerline of Creek Road and the northerly boundary of Camp Comfort; thence, northerly along the centerline of Creek Road to the point of intersection with the centerline of Hermosa Road; thence, westerly and northwesterly along the centerline of Hermosa Road to the point of intersection with the easterly line of Ventura Avenue, also known as State Highway Routes 33 and 150; thence, northerly along that easterly line of Ventura Avenue to the point of intersection with the centerline of Ojai Avenue; thence, northeasterly along the centerline of Ojai Avenue to the point of intersection with the centerline of Del Norte Road; thence, northerly along the centerline of Del Norte Road and the northerly prolongation of the centerline of Del Norte to the north quarter corner of Section 35, Township 5 North, Range 23 West, San Bernardino Base and Meridian, that point being also a point in the boundary of the Casitas Municipal Water District; thence along that boundary; thence east along the north line of that Section 35 and along the north line of Section 36 of that Township and Range and Sections 31, 32, 33, and 34 of Township 5 North, Range 22 West, San Bernardino Base and Meridian to the northeast corner of that Section 34; thence, south along the east line of that Section 34 and the east line of Section 3, Township 4 North, Range 22 West, San Bernardino Base and Meridian to the northwest corner of the south one-half of the northwest one-quarter of Section 2 of that last mentioned Township and Range; thence, east along the north line of that south one-half of the northwest one-quarter of Section 2 to the northeast corner thereof, south along the east line of that south one-half of the northwest one-quarter of Section 2 to the southeast corner thereof; thence, west along the south line of that south one-half of the northwest one-quarter of Section 2 to the northeast corner of the west one-half of the southwest one-quarter of that Section 2; thence, south along the east line of that west one-half of the southwest one-quarter of Section 2 to the southeast corner thereof to a point in the north line of fractional Section 11, Township 4 North, Range 22 West, San Bernardino Base and Meridian; thence, east along that north line to the north quarter corner of that fractional Section 11; thence, in a varying generally southwesterly and westerly direction along the watershed dividing ridge line, as shown on the Ojai Quadrangle of the United States Geological Survey 7.5 minute series

of topographic maps, between the Ojai Valley and the Lions Creek Drainage, a distance of approximately four and three-quarter miles, more or less, to the point at which the 1,400-foot contour intersects the range line common to Range 22 West and Range 23 West, San Bernardino Base and Meridian; thence, in a straight line in a generally south of west direction a distance of approximately one and one-half miles, more or less, to the point of beginning.

Sec. 202. The boundaries of the agency shall be depicted on a map which shall be adopted by the board and thereafter recorded in the office of the county recorder.

Article 3. Definitions

Sec. 301. Unless otherwise indicated by their context, the terms defined in this article govern the interpretation of this act.

Sec. 302. "Agency" means the Ojai Basin Groundwater Management Agency.

Sec. 303. "Aquifer" means a geologic formation or structure that transmits or stores water in sufficient quantities to supply pumping wells or springs.

Sec. 304. "Available supply" means that quantity of groundwater which can be withdrawn in any given year from the groundwater basin without resulting in, or aggravating, conditions of overdraft, subsidence, or groundwater quality degradation. Available supply of the basin includes the natural water supply, imported water, and other water which has been spread to the basin or has otherwise reached the basin and return flows to the basin attributable to these sources reaching the basin in the course of use.

Sec. 305. "Basin" means the Ojai groundwater basin, as shown in the Department of Water Resources Bulletin No. 12, "Ventura County Investigation," dated October 1953, to the extent included within the boundaries of the district, as defined in Section 201.

Sec. 306. "Board" means the board of directors of the agency.

Sec. 307. "Conjunctive use" means the coordinated operation of groundwater and surface water supplies. Conjunctive use includes increased groundwater use or decreased groundwater replenishment with surface supplies in years when surface supplies are less than normal and, in years of more abundant surface supplies, the increased use of surface water in lieu of groundwater, either to allow groundwater levels to recover or to replenish artificial groundwater supplies. Conjunctive use also includes long-term storage of water in the basin.

Sec. 308. "County" means the County of Ventura.

Sec. 309. "Export" means extracting groundwater from the basin for use on land, or within an area, which does not overlie or is not within the boundaries of the agency. Export does not include use on or after January 1, 1992, within any area served by groundwater from the basin prior to January 1, 1992.

Sec. 310. "Extraction" means the act of obtaining groundwater

by pumping or other controlled means.

Sec. 311. "Extraction facility" means any device or method for the extraction of groundwater within the basin.

Sec. 312. "Groundwater" means water beneath the surface of the earth within the zone below the water table in which the soil is completely saturated with water.

Sec. 313. "Groundwater basin" means a geologically and hydrologically defined area containing one or more aquifers which store, transmit, and yield significant quantities of water to wells, or are capable of doing so.

Sec. 314. "Groundwater management activities" means programs, measures, or actions taken to preserve, monitor, protect, and enhance groundwater resources within the territory of the agency.

Sec. 315. "Groundwater rights adjudication" means the determination of substantially all rights in the basin or the area subject to the adjudication.

Sec. 316. "Mutual water company" means a corporation organized for, or engaged in the business of, selling, distributing, supplying, or delivering water to its stockholders and members at cost for irrigation purposes or for domestic use.

Sec. 317. "Notice" or a "noticed hearing" means the notice required by Section 6061 of the Government Code.

Sec. 318. "Operator" means a person who operates a groundwater extraction facility. If the agency is unable to determine who operates a particular extraction facility, then "operator" shall mean the person to whom the extraction facility is assessed by the county assessor or, if not separately assessed, the person who owns the land upon which the extraction facility is located.

Sec. 319. "Overdraft" means the condition of the basin where the average annual amount of water extracted exceeds the average annual supply of water to the basin.

Sec. 320. "Person" includes any state or local governmental agency, private corporation, firm, partnership, individual, group of individuals, or, to the extent authorized by law, any federal agency.

Sec. 321. "Program" means a groundwater management program prepared by the agency pursuant to this act.

Sec. 322. "Recharge" means the natural or artificial replenishment of groundwater storage by percolation or injection of one or more sources of water at the surface.

Sec. 323. "Replenishment" means spreading water over a permeable area for the purpose of allowing it to percolate to groundwater basins or aquifers, or otherwise adding water to groundwater basins or aquifers.

Sec. 324. "Supplemental water" means surface water or groundwater imported from outside the watershed or watersheds of the basin and flood waters that are conserved and saved within the watershed or watersheds which would otherwise have been lost or would not have reached the basin.

Sec. 325. "Temporary surplus" means the amount of water that can be extracted from the basin without permanently adversely affecting the available supply of the basin or the ability of the basin to provide storage space for natural or artificial recharge that would be lost during wet years if it could not be stored in the basin.

Sec. 326. "Water year" means the period from October 1 of one calendar year to September 30, inclusive, of the following calendar year.

Sec. 327. "Well interference" means a substantial water level decline in a short time period in a localized area caused by pumping from extraction facilities.

Article 4. General Provisions

Sec. 401. (a) The board shall consist of five directors and shall be selected in the following manner:

(1) One director shall be a member of, and be appointed by, each of the following entities, and shall be chosen by their respective governing boards or bodies from their members whose districts or divisions, if any, overlie, at least in part, the boundaries of the agency:

(A) The Ojai City Council.

(B) The Board of the Casitas Municipal Water District.

(C) The Board of the Ojai Water Conservation District.

(2) One director shall be a representative of the Southern California Water Company.

(3) One director shall be chosen from the members of the governing boards of the following mutual water companies whose territory at least in part overlies the boundaries of the agency.

(A) The Senior Canyon Mutual Water Company.

(B) The Siete Robles Mutual Water Company.

(C) The Hermitage Mutual Water Company.

The mutual water company director shall be chosen at a public meeting where each mutual water company is represented by the chairperson of its governing board. If the mutual water companies fail to appoint a director within three months, the remaining four directors shall appoint a director from one of the boards of the mutual water companies identified in this paragraph.

(b) The board is the governing body of the agency and shall exercise the powers of the agency.

Sec. 402. (a) No provisions of this act shall be construed to deny any entity from which a board member is or may be selected any rights or powers which they have or may be granted.

(b) The agency shall not involve itself in activities normally and historically undertaken by any entity, such as the construction and operation of dams, spreading grounds, pipelines, flood control facilities, groundwater wells, and water distribution facilities, or the wholesale and retail sale of water, without prior consent of those entities, and shall otherwise limit its activities to monitoring, planning, managing, controlling, preserving, and regulating the

extraction and use of groundwater within the boundaries of the agency.

Sec. 403. This act does not abrogate or impair the overlying or appropriative rights of landowners or existing appropriators within the agency, including the right to seek an adjudication of those rights, or abrogate or impair the jurisdiction of the California Public Utilities Commission in regulating the activities and assets of the Southern California Water Company.

Sec. 404. (a) The board may adopt ordinances for the purpose of monitoring, regulating, conserving, managing, and controlling the use and extraction of groundwater within the boundaries of the agency. All ordinances shall be adopted, after a noticed public hearing, by a majority vote of the board. Notice of the adoption of all ordinances shall be given. The ordinances of the agency shall become effective on the 31st day after adoption.

(b) Notwithstanding subdivision (a), the board shall comply with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of the Government Code), and may adopt as an urgency measure an interim ordinance. That urgency measure shall require a ⅘ vote of the board for adoption. The interim ordinance shall have no force and effect 45 days after its adoption. After a noticed public hearing, the board may extend the interim ordinance for 10 months and 15 days by a ⅘ vote of the board.

Sec. 405. Any person who intentionally violates this act or any agency ordinance is guilty of an infraction and may be required to pay a fine to the agency not to exceed five hundred dollars ($500). No fine shall be imposed until written notice has been given by registered mail to the alleged violator stating that a hearing will be held by the board not less than 30 days after the date of the notice, at which time the board will consider the imposition of the fine.

Sec. 406. Any person who negligently or intentionally violates this act or any agency ordinance may also be liable civilly to the agency for a sum not to exceed one thousand dollars ($1,000) per day for each day of violation, in addition to any other penalties that may be prescribed by law. No liability shall be imposed until written notice has been given by registered mail to the alleged violator stating that a hearing will be held by the board not less than 30 days after the date of the notice, at which time the board will consider the imposition of the liability.

Sec. 407. Upon the failure of any person to comply with this act or any agency ordinance, the agency may petition the superior court for a temporary restraining order, preliminary or permanent injunction, or other appropriate equitable relief. The right to petition for injunctive relief is in addition to other rights, which may be provided elsewhere in this act or otherwise allowed by law.

Sec. 408. The agency may petition the superior court of the county to recover any sums due the agency or damages incurred by the agency. To preserve and manage the groundwater resources within the agency, the agency may commence, maintain, intervene

in, defend in, compromise, and assume the costs and expenses incurred by the agency in, actions and proceedings involving groundwater, including, but not limited to, groundwater rights adjudication.

Sec. 409. The agency may contract for staff and other services and may hire other contractors and consultants.

Sec. 410. The agency may exclude from any of the requirements of this act, or the operation of any ordinance, any operator who extracts less than a minimum amount of groundwater as specified by ordinance adopted by the board.

Article 5. Studies and Investigations

Sec. 501. The agency may collect data and conduct technical and other investigations in order to carry out this act. All hydrological investigations and studies carried out by, or on behalf of, the agency shall be conducted by, or under the supervision of, licensed engineers or other persons qualified in groundwater geology or hydrology.

Sec. 502. (a) The agency shall prepare annually a report on groundwater supplies and conditions in the agency, including groundwater management objectives and a plan of implementation of those objectives, following a determination that groundwater management activities may be necessary.

(b) The agency may prepare, or receive reports on groundwater and supplemental water supplies and conditions in the territory of the agency, including groundwater management and conjunctive use objectives and a plan for implementation of those objectives.

Sec. 503. The agency may recommend and encourage wastewater reuse and other water development projects, if those projects will enhance and contribute to the responsible management of groundwater resources, as part of its annual plan for implementation of groundwater management objectives.

Article 6. Groundwater Management Plans

Sec. 601. In order to maximize the long-term available supply, the agency shall develop, adopt, and implement a plan to protect the basin's groundwater quality and to balance long-term average annual water replenishment and extractions in the basin.

Sec. 602. The agency shall undertake a study to develop the plan required pursuant to Section 601 which includes all of the following components:

(a) A list of groundwater extraction facilities within the boundaries of the agency.

(b) For each extraction facility, an estimate of annual water production, in acre-feet per year, using industry accepted monitoring and testing procedures.

(c) A table and graph depicting water level readings, as of each

October 1, from acceptable sources for the period of record.

(d) Provisions and testing procedures for monitoring water quality.

(e) Historical data for rainfall runoff, basin usage and replenishment, and water conservation activities.

(f) A proposed minimum amount of groundwater extraction below which the requirements of this act will not be applied.

Sec. 603. (a) The agency shall undertake a groundwater management study for future extractions from the basin. As a part of this study, the agency shall determine the hydrologic characteristics of the basin, which shall include all of the following information:

(1) Existing groundwater storage capacity.

(2) Existing groundwater storage.

(3) Existing and projected groundwater use.

(4) A review of the boundaries of the basin.

(5) The average annual variation in storage in existing groundwater storage.

(6) Projected annual rainfall, runoff, and recharge rates.

(7) Long-term recoverable storage, including an estimate of nonrecoverable storage.

(8) Potential extractions and storage programs.

Sec. 604. (a) The plan required pursuant to Section 601 may consider any project alternatives designed to enhance the overall balance of long-term average annual basin replenishment and extractions.

(b) The plan shall investigate options of operating the basin to provide an increased ability to capture, recharge, and maximize reasonable uses by fully utilizing the available groundwater supply. The options may include the conjunctive operation of the basin with Casitas Reservoir. The plan shall recommend alternative methods of managing the basin to achieve the long-term objectives of Section 601.

(c) The plan shall establish a minimum amount of groundwater extraction below which the requirements of this act will not be applied, which amount may be modified from time to time based on the impact on the operation of the agency.

Sec. 605. (a) The studies required in Sections 602 and 603 shall be completed and submitted to the board by January 1, 1993.

(b) The plan required in Section 601 shall be completed and submitted to the board by January 1, 1994.

Article 7. Groundwater Management

Sec. 701. If, after a noticed public hearing and consideration of any relevant investigations, studies, and evidence, including compliance with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code), the board determines that groundwater management activities are

necessary in order to improve or protect the quantity or quality of groundwater supplies within the basin, the board may, by ordinance, undertake any of the activities authorized by this article. The requirement in this section for compliance with the California Environmental Quality Act does not, and shall not be construed to, limit compliance with that act for other discretionary actions by the board.

Sec. 702. The board may exercise any of the following measures:

(a) Require conservation practices and measures within identified portions of the agency.

(b) Commence and prosecute legal actions to enjoin unreasonable uses or methods of use of water within the agency or outside the agency to the extent those uses or methods of use adversely affect the groundwater supply within the agency.

(c) Conserve and reclaim water within or outside the agency, require conservation practices and measures within the agency, and impose charges upon those within or without the agency benefited by the conservation practices.

Sec. 703. The agency may regulate groundwater replenishment programs and the recapture of supplemental groundwater resulting from those programs within the agency.

Sec. 704. To encourage conjunctive use, the agency may do either or both of the following:

(a) Contract with entities for benefits to areas outside the basin which may result from conservation or conjunctive use practices within the basin and may impose appropriate charges for those benefits.

(b) Contract with groundwater users within the basin to enhance the conjunctive use of groundwater and surface water and compensate groundwater users for the value of those measures.

Sec. 705. To minimize well interference, the agency may do either or both of the following:

(a) Impose spacing requirements or require reasonable mitigation measures relating to the construction of any new extraction facility.

(b) Impose reasonable operating regulations on extraction facilities.

Sec. 706. The agency may control groundwater extractions by regulating, limiting, or suspending extractions from extraction facilities, the construction of new extraction facilities, the enlarging of existing facilities, and the reactivation of abandoned or inactive extraction facilities. Construction of new extraction facilities may be suspended only after consulting with the county water resources department.

Sec. 707. The availability of supplemental water to any operator shall not subject that operator to regulations more restrictive than those imposed on other operators.

Sec. 708. (a) No groundwater shall be exported from within the agency unless the exporter has applied for, and obtained, a permit

from the agency which establishes the quantity of water which may be exported and the conditions of the export. Notwithstanding any conditions specified in the permit, exporters shall be subject to this act.

(b) The agency shall not issue any permit to export groundwater from the agency unless the applicant has established that the temporary surplus is in excess of the amount currently required for reasonable and beneficial uses within the agency, and the board determines that the export would not adversely affect the rights of groundwater users within the agency. The agency shall issue permits for export for time periods, and under terms and conditions, it deems appropriate. All permits shall declare that they are subject to the right of the agency to reduce or suspend exports pursuant to this act.

(c) The agency shall, after published notice and a hearing which discloses evidence of overdraft, or any threat of overdraft, reduce or suspend extractions by exporters regardless of whether a permit to export has been granted pursuant to this act.

(d) The right to store and recapture imported or developed water in the groundwater basin shall be subject to prior permit by the agency. The agency shall issue storage and recapture permits under terms and conditions it deems appropriate and may impose charges therefor. Existing recapture facilities are exempt from this section.

Article 8. Registration of Groundwater Extraction Facilities

Sec. 801. The agency may, by ordinance, require extraction facilities to be registered with the agency within 30 days of notice being given to the operator of the extraction facility.

Sec. 802. The agency may require, by ordinance, that the operator of a registered extraction facility provide the agency annually with all of the following information regarding the extraction facility:

(a) The name and address of the operator of the extraction facility.

(b) The name and address of the owner of the land upon which the extraction facility is located.

(c) A description of the equipment associated with the extraction facility.

(d) The location of the water extraction facility.

(e) The purposes of groundwater use.

Sec. 803. No person may extract groundwater by the use of any extraction facility required to be registered unless the extraction facility has been registered with the agency.

Sec. 804. The agency shall require extraction facilities to be equipped with waterflow measuring devices installed and calibrated by the agency or, at the agency's option, by the extraction facility operator. The agency may, by ordinance, exempt specific extraction facilities from the measuring device requirements.

Sec. 805. No person may extract groundwater by the use of any

extraction facility required to be equipped with a waterflow measuring device unless the extraction facility is so equipped.

Sec. 806. If an extraction facility is equipped with a waterflow measuring device, the record of extraction, as disclosed by the waterflow measuring device, may at the election of the board be presumed to be accurate, and if so presumed, shall be used as the basis for computing the water extraction of the extraction facility in completing the groundwater extraction statement.

Sec. 807. The agency may require proof of the accuracy of the waterflow measuring device from the operator and may, absent adequate proof of accuracy, order the operator, at the operator's sole cost, to have the waterflow measuring device calibrated in a manner acceptable to the agency. If the agency has probable cause to believe that the extraction of groundwater from any extraction facility is in excess of the amount reported in a groundwater extraction statement filed pursuant to Section 810, or if no statement is filed covering an extraction facility, the agency may investigate the extraction of water from the extraction facility.

Sec. 808. No person may intentionally injure, alter, remove, reset, adjust, manipulate, obstruct, or in any manner interfere or tamper with any waterflow measuring device affixed to any extraction facility so that the waterflow measuring device improperly or inaccurately measures and records water extraction.

Sec. 809. The board may, by ordinance, establish reasonable methods to be used in computing the amount of water extracted by exempted extraction facilities.

Sec. 810. (a) The agency may, by ordinance, require the operator of each extraction facility to file, in the form specified by the agency, a groundwater extraction statement that contains, but is not limited to, the following information:

(1) Total extraction in acre-feet of water from the extraction facility.

(2) The crop types or other uses and the acreage served by the extraction facility compared to the number of acres owned or leased.

(3) The method of measuring or computing groundwater extraction.

(4) Water conservation activities.

(b) Each groundwater extraction statement shall be verified by a written declaration under penalty of perjury that the information contained in the statement is true and correct.

(c) The operator of an extraction facility which has been permanently abandoned on or after January 1, 1992, shall give written notice of the abandonment to the agency.

Sec. 811. No person who is required to file a groundwater extraction statement may fail to do so.

Sec. 812. No person, with an intent to evade any requirement of this act, may file a false or fraudulent groundwater extraction statement with the agency.

Article 9. Management Charges

Sec. 901. (a) Each year the board may fix a management charge in accordance with benefit-based criteria to be established by the board, upon the City of Ojai, the Casitas Municipal Water District, the Ojai Water Conservation District, and the Southern California Water Company, for the purpose of paying the costs of initiating, carrying on, and completing any of the powers, purposes, and groundwater management activities for which the agency is organized.

(b) In the aggregate, management charges shall be limited to fifty thousand dollars ($50,000) in the first year and twenty-five thousand dollars ($25,000) in the second year. None of the entities identified in subdivision (a) shall be required to pay more than one-third of the aggregate allowable charges. Management charges in succeeding years, or contributions in excess of the established limits, shall be voluntary and payable at the discretion of each entity identified in subdivision (a).

Sec. 902. Management charges shall be paid in the manner prescribed by ordinance.

Article 10. Management Charges to Property

Sec. 1001. Each year the agency may fix a management charge for the purpose of paying the costs of initiating, carrying on, and completing any of the powers, projects, and purposes for which the agency is organized.

Sec. 1002. Before levying management charges, the board shall, after notice and hearing, find and determine the portion of the agency to be benefited by management and planning activities, the need for management charges for the purpose of paying the cost of these activities, and the amount of the charges to be levied.

Sec. 1003. Management charges may not exceed seven dollars and fifty cents ($7.50) per acre per year for each acre of land, or five dollars ($5.00) for each parcel of land of less than one acre within the agency.

Sec. 1004. Management charges applicable to the territory served by the City of Ojai's corporate franchise, or any other water purveyor within the agency's boundaries, may be collected by the water purveyor if the agency so requests and the water purveyor agrees to do so, and shall be paid to the agency in lieu of collection through the tax bills. The board may exclude portions of the agency or may establish schedules varying the management charges according to the likelihood that the land will benefit, as determined by the board, from improved groundwater management and planning.

Sec. 1005. The management charge may, at the option of the agency, be collected on the tax bills of the county, by the same persons, and at the same time as, together with and not separately

from, county property taxes. In lieu of this election, the agency shall collect management charges at the same time, together with penalties and interest at the same rates, as is prescribed for the collection of county property taxes.

Sec. 1006. The amount of an unpaid management charge, together with any penalty and interest thereon, shall constitute a lien on that land as of the same time and in the same manner as does the tax lien securing county property taxes.

Sec. 1007. The board may fix management charges until January 1, 1995.

Article 11. Groundwater Extraction Charges

Sec. 1101. (a) The agency may, by ordinance, levy groundwater extraction charges on the extraction of groundwater by the use of water extraction facilities within the boundaries of the agency to pay the costs of initiating, carrying on, and completing any of the powers, purposes, and groundwater management activities described in this act, except that the charge shall not exceed the annual costs to the district incurred in carrying out this act and the cost of a reasonable reserve not to exceed 25 percent of the total appropriations in the agency's budget.

(b) Groundwater extraction charges shall be levied only within a zone or zones of benefit of the district which will benefit from the powers, purposes, and groundwater management activities.

(c) The board may establish zones of benefit within the district. Resolutions of the board shall describe the boundaries of the zones of benefit. The board may amend zones of benefit boundaries by annexing property to or by withdrawing property from a zone, or may divide a zone into two or more zones. Resolutions of the board shall describe the boundaries of the amended or divided zones.

Sec. 1102. (a) Before the levy of groundwater extraction charges, the board of directors shall, after notice and hearing, find and determine the activities required to prepare or implement any groundwater management program for the district and to initiate, carry on, or complete any of the other powers and purposes set forth in this act, and the sum of money necessary for the ensuing water year for those activities.

(b) The board shall determine the need and desirability of levying a groundwater extraction charge for the purpose of paying the costs of initiating, carrying on, and completing any of the powers and purposes set forth in this act. The board shall find that the charge is necessary to finance or otherwise support the groundwater management services provided by the district, except that the charge shall not exceed the annual costs to the district incurred in carrying out this act and the cost of a reasonable reserve not to exceed 25 percent of the total appropriations contained in the agency's budget.

Sec. 1103. The groundwater extraction charge rate shall be

uniform for groundwater extraction within the territory of the agency.

Sec. 1104. Groundwater extraction charges shall be calculated on the basis of groundwater extraction statements filed pursuant to Section 810 and the benefit determined pursuant to Section 1101.

Sec. 1105. If any operator of any extraction facility fails to pay the groundwater extraction charge when due, the agency shall charge and collect interest, at the rate of 1½ percent each month, on the delinquent amount of the groundwater extraction charge. In addition, the agency may exercise any of the rights granted pursuant to Article 5 (commencing with Section 75630) of Chapter 3 of Part 9 of Division 21 of the Water Code to collect delinquent groundwater extraction charges.

Sec. 1106. All money collected by the agency pursuant to this article, Article 9 (commencing with Section 901), or Article 10 (commencing with Section 1001), shall be available for expenditure by the agency in carrying out its groundwater management activities.

Sec. 1107. The groundwater extraction charge shall not exceed seven dollars and fifty cents ($7.50) per acre-foot pumped per year.

Article 12. Miscellaneous

Sec. 1201. The Legislature finds and declares that this act, which is applicable only to the Ojai Basin Groundwater Management Agency, is necessary because of the unique and special groundwater management problems in the area included in the agency. SEC. 2. Section 1 of Chapter 153 of the Statutes of 1974 is amended to read:

Section 1. The Ojai Water Conservation District shall be governed by the Water Conservation Act of 1927 (Chapter 91 of the Statutes of 1927).

Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 751

An act to amend Section 2557 of the Streets and Highways Code, relating to highways, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 8, 1991. Filed with Secretary of State October 9, 1991]

Facilities and equipment acquired through the expenditure of proceeds from the sale of those bonds shall have a useful life at least equal to the term of the bonds.

(d) (1) Any money received by an authority pursuant to subdivision (b) of Section 9250.10 of the Vehicle Code which exceeds the amount needed for full implementation and ongoing costs to maintain and operate the motorist aid system of call boxes, installed pursuant to subdivision (a), may be used for purposes of paragraph (2) and for additional motorist aid services or support, including, but not limited to, the following safety-related projects:

(c) Each person employed by the Orange County Transportation Commission on January 1, 1992, may, no later than February 1, 1992, elect to either remain a member of the Public Employees' Retirement System or become a member of the Orange County Employees Retirement System. However, installations on state freeways are subject to the approval of the Department of Transportation and installations in other state highways are subject to Article 2 (commencing with Section 670) of Chapter 3 of Division 1 of the Streets and Highways Code.

SEC. 10. Section 130240.1 is added to the Public Utilities Code, to read:

130240.1. (a) The Orange County Transportation Authority may enter into agreements for the joint use or joint development of any property or rights by the authority and any city, public agency, or public utility operating transit facilities or nontransit facilities, or both, or any other person, firm, corporation, association,

organization, or other entity, public or private, either, in whole or in part, within or outside the county, for the joint use or development of any property of the authority or of the city, public agency, public utility, person, firm, corporation, association, organization, or other entity, public or private, for the establishment of through routes, joint fares, station cost-sharing, connector fees, or land, air, or development rights, sales or leasing, transfer of passengers, pooling arrangements, or for any other purpose necessary for, incidental to, or convenient for the full exercise of the powers granted in this chapter. As to any service which the authority is authorized to perform pursuant to this chapter, the authority may contract for the performance of the service by any city, county, or public utility the territory of which is, in whole or in part, within the county.

(b) "Joint development" includes, but is not limited to, agreements with any person, firm, corporation, association, organization, or other entity, public or private, to develop or to engage in the planning, financing, construction, or operation of authority facilities or development projects adjacent, or physically or functionally related, to authority facilities.

(c) "Nontransit facilities," as used in this section, includes any land, buildings, or equipment, or interest therein, which is used primarily for the production of transit revenue not arising from the operation of a transit system.

SEC. 11. Section 130241 is added to the Public Utilities Code, to read:

130241. All the provisions of the Orange County Transit District Act of 1965 (Part 4 (commencing with Section 40000) of Division 10), regarding the powers and functions of the Orange County Transit District shall be equally applicable to the Orange County Transportation Authority as if set forth herein, and shall be in addition to the powers and functions set forth in this division. The authority shall determine which provisions are applicable to the authority.

SEC. 12. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

3. Equal to or greater than 10% but less than 15%	67%

5. Equal to or greater than 20% but less than 25%	85%
6. Equal to or greater than 25%	90%

(d) (1) The State Allocation Board shall calculate the statewide average cost avoided per pupil under Chapter 22 (commencing with Section 17700) of Part 10 through the operation of school facilities on a multitrack year-round basis, based on the following school facilities cost components:

No later than December 1, 1992, and biennially thereafter, the board shall report to the Legislature the result of its calculation for the prior two-year period.

For the 1992–93 fiscal year, and each fiscal year thereafter, the "statewide average cost avoided per pupil" shall be established by the statute that appropriates funding for the purposes of this section for that fiscal year.

(f) If the applications approved exceed the appropriations available for this purpose, additional funds shall be requested to cover all eligible claims. Until additional funds become available, funding per pupil in excess of capacity for the schoolsite shall be prorated by dividing the total dollar amount available by the total dollar amount of eligible claims and multiplying each dollar claimed by the resulting percentage factor.

(b) In the first year of funding for a schoolsite under Section 42263, if the number of pupils certified in excess of the capacity of the schoolsite is less than 5 percent of capacity, the number of pupils reported by the superintendent shall be equal to 5 percent of capacity. In the second year of that funding, if the number of pupils certified in excess of the capacity of the schoolsite is less than 10 percent of capacity, the number of pupils reported by the superintendent shall be equal to 10 percent of capacity. In the third, and each subsequent year of that funding, if the number of pupils certified in excess of the capacity of the schoolsite is less than 15 percent of capacity, the number of pupils reported by the superintendent shall be equal to 15 percent of capacity.

(c) Notwithstanding subdivision (a), for a schoolsite for which a school district received year-round incentive funding for the 1989–90 fiscal year pursuant to former Section 42250.3, the superintendent shall report for the 1991–92 fiscal year the number of pupils equal to

10 percent of capacity of the site, or the number of pupils in excess of capacity certified pursuant to subdivision (b) of Section 42263, whichever is greater and for the 1992–93 fiscal year the number of pupils equal to 15 percent of capacity of the site, or the number of pupils in excess of capacity claimed pursuant to subdivision (b) of Section 42263, whichever is greater.

48412. (a) Any person 16 years of age or older, or who has been enrolled in the 10th grade for one academic year or longer, or who will complete one academic year of enrollment in the 10th grade at the end of the semester during which the next regular examination will be conducted, shall be permitted to have his or her proficiency in basic skills taught in public high schools verified according to criteria established by the State Department of Education.

The State Board of Education shall award a "certificate of proficiency" to persons who demonstrate that proficiency. The certificate of proficiency shall be equivalent to a high school diploma, and the State Department of Education shall keep a permanent record of the issuance of all the certificates.

(b) The State Department of Education shall develop standards of competency in basic skills taught in public high schools and shall provide for the administration of examinations prepared by or with the approval of the department to verify such competency. Regular examinations shall be held once in the fall semester and once in the spring of every academic year on a date, as determined by the State Department of Education, which will enable notification of examinees and the schools they attend, if any, of the results thereof not later than two weeks prior to the date on which that semester ends in a majority of school districts which maintain high schools.

In addition to regular examinations, the State Department of Education may, at the discretion of the Superintendent of Public Instruction, conduct examinations for all eligible persons once during each summer recess and may conduct examinations at such other times as the superintendent deems necessary to accommodate eligible persons whose religious convictions or physical handicaps prevent their attending one of the regular examinations.

(c) The State Department of Education may charge a fee for each examination application in an amount sufficient to recover the costs of administering the requirements of this section; provided, however, that the fee shall not exceed forty dollars ($40) per examination application. All fees levied and collected pursuant to this section shall be deposited in the State Treasury for remittance to the current support appropriation of the State Department of Education as reimbursement for costs of administering this section. Any reimbursements collected in excess of actual costs of administration of this section shall be transferred to the unappropriated surplus of the General Fund by order of the Director of Finance.

(d) The State Board of Education shall adopt rules and regulations

as are necessary for implementation of the provisions of this section.

The hearing and notice shall be conducted in accordance with the rules and regulations governing procedures for the expulsion of pupils as described in Section 48918. A school district may request information from another school district regarding a recommendation for expulsion or the expulsion of an applicant for enrollment. If this information is not provided to the school district and the school district later determines the pupil was expelled from the previous school, the lack of compliance shall be recorded and discussed in the hearing required pursuant to subdivision (a).

(c) The governing board of a school district may make a determination to deny enrollment to an individual who has been expelled from another school district for any act described in paragraphs (1) to (4), inclusive, of subdivision (a) of Section 48915, for the remainder of the expulsion period after a determination has been made, pursuant to a hearing, that the individual poses a potential danger to either the pupils or employees of the school district.

(d) The governing board of a school district, when making its determination whether to enroll an individual who has been expelled from another school district for these acts, may consider the following options:

(1) Deny enrollment.

(2) Permit enrollment.

(3) Permit conditional enrollment in a regular school program or another educational program.

to either the pupils or employees of the school district, shall permit the individual to enroll in a school in the school district during the term of the expulsion, provided that he or she, subsequent to the expulsion, either has established legal residence in the school district, pursuant to Section 48200, or has enrolled in the school pursuant to an interdistrict agreement executed between the affected school districts pursuant to Chapter 5 (commencing with Section 46600).

other dangerous substances upon prenatal development as required by Section 51203 of the Education Code. That funding shall be allocated to applicant school districts on the basis of need, as evidenced by factors including, but not limited to, the incidence of teen pregnancy and controlled substance abuse in the pupil population of the district.

(2) Notwithstanding any other provision of law, the funding allocated pursuant to this subdivision shall be in lieu of any payment that otherwise may be made to reimburse the recipient school districts pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state and incurred by them pursuant to Section 51203 of the Education Code. No school district shall be required to expend in any fiscal year, for the purpose of providing the instruction described in paragraph (1), an amount that exceeds the amount received by that district for that fiscal year from funding appropriated expressly by the Legislature for that instructional purpose and any funding made available for that instructional purpose under the federal Drug Free Schools and Communities Act of 1986 (20 U.S.C. CHAPTER 757

An act to add Part 4 (commencing with Section 4370) to Division 4 of the Welfare and Institutions Code, relating to public school pupils, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 9, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. Part 4 (commencing with Section 4370) is added to Division 4 of the Welfare and Institutions Code, to read:

PART 4. SCHOOL-BASED EARLY MENTAL HEALTH INTERVENTION AND PREVENTION SERVICES FOR CHILDREN ACT

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

4370. This part shall be known and may be cited as the School-based Early Mental Health Intervention and Prevention Services for Children Act of 1991.

4371. The Legislature finds and declares all of the following:

(a) Each year in California over 65,000 teenagers become adolescent mothers and 230 teenagers commit suicide. Each year more than 20 percent of California's teenagers drop out of high school.

(b) Thirty percent of California's elementary school pupils experience school adjustment problems, many of which are evident the first four years of school, that is, kindergarten and grades 1 to 3, inclusive.

(c) Problems that our children experience, whether in school or at home, that remain undetected and untreated grow and manifest themselves in all areas of their later lives.

(d) There is a clear relationship between early adjustment problems and later adolescent problems, including, but not limited to, poor school attendance, low achievement, delinquency, drug abuse, and high school dropout rates. In many cases, signs of these problems can be detected in the early grades.

(e) It is in California's best interest, both in economic and human terms, to identify and treat the minor difficulties that our children are experiencing before those difficulties become major barriers to later success. It is far more humane and cost-effective to make a small investment in early mental health intervention and prevention services now and avoid larger costs, including, but not limited to, foster care, group home placement, intensive special education services, mental health treatment, or probation supervised care.

(f) Programs like the Primary Prevention Projects and the San Diego Unified Counseling Program for children have proven very effective in helping children adjust to the school environment and learn more effective coping skills that in turn result in better school achievement, increased attendance, and increased self-esteem.

(g) To create the optimum learning environment for our children, schools, teachers, parents, public and private service

providers, and community-based organizations must enter into locally appropriate cooperative agreements to ensure that all pupils will receive the benefits of school-based early mental health intervention and prevention services that are designed to meet their personal, social, and educational needs.

4372. For the purposes of this part, the following definitions shall apply:

(a) "Cooperating entity" means any federal, state, or local, public or private nonprofit agency providing school-based early mental health intervention and prevention services that agrees to offer services at a schoolsite through a program assisted under this part.

(b) "Eligible pupil" means a pupil who attends a school that receives funds under Part A of Chapter 1 of Title I of the Elementary and Secondary Education Act of 1965 and who is in kindergarten or grades 1 to 3, inclusive.

(c) "Local educational agency" means any school district or county office of education.

(d) "Director" means the State Director of Mental Health.

(e) "Supportive service" means a service that will enhance the mental development of children.

CHAPTER 2. SCHOOL-BASED EARLY MENTAL HEALTH INTERVENTION AND PREVENTION SERVICES MATCHING GRANT PROGRAM

4380. The Legislature authorizes the director, in consultation with the Secretary of Child Development and Education and the Superintendent of Public Instruction, to award matching grants to local educational agencies to pay the state share of the costs of providing programs that provide school-based early mental health intervention and prevention services to eligible pupils at schoolsites of eligible pupils, as follows:

(a) The director shall award matching grants pursuant to this chapter to local educational agencies throughout the state.

(b) Matching grants awarded under this part shall be awarded for a period of not more than three years and no single schoolsite shall be awarded more than one grant.

(c) The director shall pay to each local educational agency having an application approved pursuant to requirements in this part the state share of the cost of the activities described in the application.

(d) The state share of matching grants shall be 60 percent in the first year; 40 percent in the second year; and 30 percent in the third year.

(e) The local share of matching grants shall be 40 percent in the first year, 60 percent in the second year; and 70 percent in the third year.

(f) The local share of the matching grant may be in cash or payment in-kind.

(g) Priority shall be given to those applicants that demonstrate

the following:

(1) The local educational agency will serve the greatest number of eligible pupils from low-income families.

(2) The local educational agency will provide a strong parental involvement component.

(3) The local educational agency will provide supportive services with one or more cooperating entities.

(4) The local educational agency will provide services at a low cost per child served in the project.

(5) The local educational agency will provide programs and services that are based on adoption or modification, or both, of existing programs that have been shown to be effective.

(6) The local educational agency will provide services to children who are in out-of-home placement or who are at risk of being in out-of-home placement.

(h) Eligible supportive services may include the following:

(1) Individual and group intervention and prevention services.

(2) Parent involvement through conferences or training, or both.

(3) Teacher and staff conferences and training related to meeting project goals.

(4) Referral to outside resources when eligible pupils require additional services.

(5) Use of paraprofessional staff, who are trained and supervised by credentialed school psychologists, school counselors, or school social workers, to meet with pupils on a short-term weekly basis, as in the Primary Prevention Projects established pursuant to Chapter 6 (commencing with Section 5475) of Part 1.

(6) Any other service or activity that will improve the mental health of eligible pupils.

Prior to participation by an eligible pupil in either individual or group services, consent of a parent or guardian shall be obtained.

(i) Each local educational agency seeking a grant under this chapter shall submit an application to the director at the time, in a manner, and accompanied by any information the director may reasonably require.

(j) Each matching grant application submitted shall include all of the following:

(1) Documentation of need for the school-based early mental health intervention and prevention services.

(2) A description of the school-based early mental health intervention and prevention services expected to be provided at the schoolsite.

(3) A statement of program goals.

(4) A list of cooperating entities that will participate in the provision of services. A letter from each cooperating entity confirming its participation in the provision of services shall be included with the list. At least one letter shall be from a cooperating entity confirming that it will agree to screen referrals of low-income children the program has determined may be in need of mental

health treatment services and that, if the cooperating entity determines that the child is in need of those services and if the cooperating entity determines that according to its priority process the child is eligible to be served by it, the cooperating entity will agree to provide those mental health treatment services.

(5) A detailed budget and budget narrative.

(6) A description of the proposed plan for parent involvement in the program.

(7) A description of the population anticipated to be served, including number of pupils to be served and socioeconomic indicators of sites to receive funds.

(8) A description of the matching funds from a combination of local education agencies and cooperating entities.

(9) A plan describing how the proposed school-based early mental health intervention and prevention services program will be continued after the matching grant has expired.

(10) Assurance that grants would supplement and not supplant existing local resources provided for early mental health intervention and prevention services.

(11) A description of an evaluation plan that includes quantitative and qualitative measures of school and pupil characteristics, and a comparison of children's adjustment to school.

(k) Matching grants awarded pursuant to this article may be used for salaries of staff responsible for implementing the school-based early mental health intervention and prevention services program, equipment and supplies, training, and insurance.

(*l*) Salaries of administrative staff and other administrative costs associated with providing services shall be limited to 5 percent of the state share of assistance provided under this section.

(m) No more than 10 percent of each matching grant awarded pursuant to this article may be used for matching grant evaluation.

(n) No more than 6 percent of the moneys allocated to the director pursuant to this chapter may be utilized for program administration and evaluation.

Program administration shall include both state staff and field staff who are familiar with and have successfully implemented school-based early mental health intervention and prevention services. Field staff may be contracted with by local school districts or community mental health programs. Field staff shall provide support in the timely and effective implementation of school-based early mental health intervention and prevention services. Reviews of each project shall be conducted at least once during the first year of funding.

4381. No funding shall be made available to any program or facility pursuant to this chapter unless all of the following conditions are met:

(a) The program facility is open to children without regard to any child's religious beliefs or any other factor related to religion.

(b) No religious instruction is included in the program.

(c) The space in which the program is operated is not utilized in any manner to foster religion during the time used for the program.

CHAPTER 3. SCHOOL-BASED EARLY MENTAL HEALTH INTERVENTION AND PREVENTION SERVICES MATCHING GRANT PROGRAM EVALUATIONS AND REPORTS

4390. The Legislature finds that an evaluation of program effectiveness is both desirable and necessary and accordingly requires the following:

(a) No later than September 1, 1992, and each year thereafter through the term of the grant award, each local education agency that receives a matching grant under this part shall submit a report to the director that shall include the following:

(1) An evaluation of the effectiveness of the local educational agency in achieving stated goals.

(2) A description of the problems encountered in the design and operation of the school-based early mental health intervention and prevention services program, including, but not limited to, identification of any federal, state, or local regulations that impeded program implementation.

(3) The number of eligible pupils served by the program.

(4) The number of additional eligible pupils who have not been served.

(5) An evaluation of the impact of the school-based early mental health intervention and prevention services program on the local educational agency and the children completing the program. The program shall be deemed successful if at least 75 percent of the children who complete the program show an improvement in at least one of the four following areas:

(A) Learning behaviors.

(B) Attendance.

(C) School adjustment.

(D) School-related competencies. Improvement shall be compared with comparable children in that school district that do not complete or participate in the program.

(6) An accounting of local budget savings, if any, resulting from the implementation of the school-based early mental health intervention and prevention services program.

(7) A revised plan of how the proposed school-based early mental health intervention and prevention services program will be continued after the state matching grant has expired, including a list of cooperative entities that will assist in providing the necessary funds and services.

(b) No later than January 1, 1994, the director shall, through grants, contracts, or cooperative agreements with independent organizations, provide for an evaluation of the effectiveness of matching grants awarded under Chapter 2 (commencing with Section 4380) of this part. This evaluation shall allow for the

comparison of the impact of different models of school-based mental health early intervention and prevention services programs on the local educational agency and on the children participating in the program. That comparison shall be done with comparable schools or school districts that operate without the school-based mental health early intervention and prevention services program.

(c) No later than April 1, 1994, the director shall submit a report to the Governor, the Legislature, and the Secretary of Child Development and Education summarizing the reports submitted under subdivision (a) of this section and reporting the results of the evaluation described in subdivision (b) of this section.

SEC. 2. It is the intent of the Legislature that sums as may be necessary be appropriated for the School-Based Early Mental Health Intervention and Prevention Services for Children Act of 1991 for the 1992–93 and 1993–94 fiscal years. It is further the intent of the Legislature that sufficient funding shall be provided in subsequent fiscal years to expand the program on a statewide basis. It is also the intent of the Legislature that any funding appropriated in excess of any funding appropriated for the 1991–92 fiscal year in subsequent fiscal years be in excess of the amount required to be appropriated to meet the minimum funding guarantee pursuant to the provisions of Section 8 of Article XVI of the California Constitution.

(b) The State Director of Mental Health shall allocate to local educational agencies that have been selected to participate in the grant program under the School-Based Early Mental Health Intervention and Prevention Services for Children Act of 1991 all funds appropriated by the Legislature for that purpose.

SEC. 3. For the 1991–92 and 1992–93 fiscal years, the State Director of Mental Health shall not award a grant to a local educational agency that also has been awarded an operational grant under the Healthy Start Support Services for Children Act of 1991.

SEC. 4. (a) If Senate Bill 620 is enacted and becomes effective on or before January 1, 1992, and that bill adds Chapter 5 (commencing with Section 8800) to Part 6 of the Education Code, establishing the Healthy Start Support Services for Children Act, it is the intent of the Legislature that, no later than the 1993–94 fiscal year, a single schoolsite that receives funding under that program and the program established under Section 1 of this act, shall combine and subsume the assistance received under both programs under the program established by Senate Bill 620.

(b) If the conditions in subdivision (a) do not occur, and in the event that Assembly Bill 165 is enacted and becomes effective on or

before January 1, 1992, and that bill adds Chapter 5 (commencing with Section 54550) to Part 29 of the Education Code, establishing the CalSTAR Early Intervention and Prevention Program, it is the intent of the Legislature that, no later than the 1993–94 fiscal year, a single schoolsite that receives funding under that program and the program established under Section 1 of this act, shall combine and subsume the assistance received under both programs under the program established by Assembly Bill 165.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that every child in California is provided the school-based early mental health intervention and prevention services they require to learn, it is necessary that this act take effect immediately.

CHAPTER 758

An act to add Sections 8211 and 8236 to the Education Code, relating to preschool funding, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 9, 1991. Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) High quality, comprehensive child development services are essential in preparing at-risk children for school and enabling them to achieve their full potential.

(b) It is far more humane and cost-effective to engage in preventive programs, like preschool, than in remedial programs that are far more expensive and far less certain of success.

(c) For every dollar invested in comprehensive preschool programs, society saves five dollars ($5) in welfare, remedial education, and crime costs. Yet, California is failing to make this investment since there are currently over 150,000 children on waiting lists for the State Preschool Program.

(d) California must make an investment in its children by assisting the State Preschool Program in providing necessary health, educational, nutritional, and social services to its economically disadvantaged children and their families.

(e) California must strengthen its commitment to children by expanding access to the State Preschool Program to ensure that all eligible children receive high quality, comprehensive services.

SEC. 2. Section 8211 is added to the Education Code, to read:

8211. It is the intent of the Legislature that one hundred eighty

thousand dollars ($180,000) be appropriated each fiscal year for allocation to child care and development resource and referral agencies operated by local educational agencies for the purpose of the child care resources and referral program set forth in this article.

SEC. 3. Section 8236 is added to the Education Code, to read:

8236. It is the intent of the Legislature to expand access for all eligible four-year-old children to the State Preschool Program, and to expand access to all eligible three-year-old children, if all eligible four-year-old children are being served by the State Preschool Program. Once all eligible children are served by the State Preschool Program, it is the intent of the Legislature to expand access to full-day child development programs for eligible four-year-old children. Once all eligible four-year-old children have access to full-day child development programs, it is the intent of the Legislature to expand access to full-day child development programs for all eligible three-year-old children. Accordingly, the Legislature hereby requires all of the following:

(a) If the superintendent has funded all applications from local educational agencies that have indicated a need for additional funds to serve eligible four-year-old children in the State Preschool Program, and if the superintendent has funded all applications from local educational agencies that have indicated a need for additional funds to serve eligible three-year-old children in the State Preschool Program, the superintendent may use the remaining funds to contract with local educational agencies to provide full-day child development programs pursuant to this chapter to eligible four-year-old children. Before the superintendent may expend those funds for full-day child development programs, the superintendent shall notify the Department of Finance that all applications from local educational agencies that indicated a need for additional funds to serve eligible three- and four-year-old children in the State Preschool Program have been funded and shall request the approval of the Department of Finance to use the remaining funds for full-day child development programs, as specified by the superintendent, in consultation with the Secretary of Child Development and Education, to provide access to those programs for eligible four-year-old children.

(b) Funds that remain available after providing the services as required in subdivision (a) are to be used to provide access to full-day child development programs for eligible three-year-old children.

(c) For purposes of this section, the following definitions apply:

(1) "Eligible children" means children who are currently eligible for the State Preschool Program.

(2) "Local education agency" means a school district, county office of education or a community college district, a or a school district on behalf of one or more schools within the school district.

(3) "Superintendent" means the Superintendent of Public Instruction.

(d) Nothing in this section shall be deemed to preclude a local education agency from subcontracting with an appropriate public or private agency to operate a state preschool program and to apply for funds made available for the purposes of this section. If a school district chooses not to operate or subcontract for a state preschool program, the superintendent shall work with the county office of education to explore possible opportunities in subcontracting to provide a state preschool program.

SEC. 4. The sum of one hundred eighty thousand dollars ($180,000) is hereby appropriated to the Superintendent of Public Instruction from the General Fund for allocation to child care and development resource and referral agencies operated by local educational agencies for the purposes of the child care resources and referral program set forth in Article 2 (commencing with Section 8210) of Chapter 2 of Part 6 of the Education Code. This amount shall be applied toward the Proposition 98 minimum funding obligation for the 1991–92 fiscal year.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that every child who is four years of age in California is provided the support and guidance he or she requires in order to learn and to succeed, it is necessary that this act take effect immediately.

CHAPTER 759

An act to add Chapter 5 (commencing with Section 8800) to Part 6 of the Education Code, relating to children.

[Approved by Governor October 9, 1991 Filed with Secretary of State October 9, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 8800) is added to Part 6 of the Education Code, to read:

CHAPTER 5. HEALTHY START SUPPORT SERVICES FOR CHILDREN ACT

Article 1. General Provisions and Definitions

8800. This chapter shall be known and may be cited as the Healthy Start Support Services for Children Act.

8801. The Legislature finds and declares all of the following:

(a) A large and growing number of California's children are not

learning enough in school to prepare them for full economic, social, and civic participation in adult life, as evidenced by the following statistics:

(1) Each year, between 59,000 and 72,000 children are born exposed to drugs or alcohol.

(2) Currently 360,000 children are abused or neglected, according to the juvenile courts and county welfare departments.

(3) Each year, a substantial number of parents have their parental rights terminated by the courts.

(4) Seventy thousand children are presently placed with foster care because of parental abuse or neglect or delinquent behavior.

(5) Out of an average class of 30 high school sophomores, any eight pupils are on public assistance, any four speak no English, any eight are at least two years behind in reading and math, any three have grown up in public housing, any seven will not graduate, any three will be teen parents, and any seven will not be employable.

(6) Sixty-one thousand children receive mental health services annually.

(7) One million one hundred thousand children go to bed hungry every night.

(b) The quality of life for all Californians is affected by these conditions. These children, and often the children they have, impose heavy costs on taxpayers by requiring special services, income assistance, or incarceration or institutionalization. They are a burden on the capacity of the state's economy to produce adequate revenues and an adequate tax base.

(c) The causes of the problems children face are complex and interdependent. Many families, especially those affected by poverty, fail to provide the physical, emotional, and intellectual support needed to ensure that their children are ready for school. Many neighborhoods and larger communities lack the resources or organization to support children. The schools' support services either are not effective or have not effectively serviced a large enough percentage of at-risk children.

(d) Because children spend so much of their time at school, schools have been increasingly asked to provide a wide range of health and social services to children, and many have attempted to help parents as well. The capacity of schools to undertake these roles must be increased.

(e) However, this service capacity should not be increased through conventional, categorical approaches. Services to children and their families can be most effectively provided through consortia which include schools, other health and human service providers, parents, and community groups. Collaboration is necessary and more effective because the goals of school and community services are interdependent; fragmentation of existing state and local services otherwise inhibits their effectiveness; and community-based services offer resources and competence that schools do not have. Both the state and counties must develop policies and incentives to improve

collaboration at the local level.

(f) Therefore, it is the intent of the Legislature that by implementing the Healthy Start Support Services for Children Act, children in need of assistance to overcome the barriers to healthy, productive lives be given assistance in all of the following ways:

(1) By creating a learning environment that is optimally responsive to the physical, emotional, and intellectual needs of each child.

(2) By fostering interagency collaboration and communication at the local level to more efficiently and effectively deliver human support services to children and their families.

(3) By encouraging the full use of existing agencies, professional personnel, and public and private funds to ensure that children are ready and able to learn, and to prevent duplication of services and unnecessary expenditures.

(4) By encouraging the development of a local interagency oversight mechanism that includes a records system to evaluate cost and effectiveness, and the development of a process of self-assessment of those records and the way in which they are used, to improve the effectiveness of services.

8802. For the purposes of this chapter, the following definitions shall apply:

(a) "Consortium" means two or more local educational agencies.

(b) "Cooperating agency" means any federal, state, or local public or private nonprofit agency that agrees to offer support services at a schoolsite through a program implemented under this chapter.

(c) "Council" means the Healthy Start Support Services for Children Program Council.

(d) "Eligible pupil" means a pupil who attends a qualifying school that receives funds under this chapter.

(e) "Lead agency" means the State Department of Education.

(f) "Local educational agency" means a school district or county office of education.

(g) "Private partner" means a private business or foundation that provides financial assistance or otherwise assists a support services program operated under this chapter.

(h) "Qualifying school" means a school that is either of the following:

(1) A school in which 50 percent or more of the enrolled pupils either (A) are from families that receive Aid to Families with Dependent Children program benefits, have limited English proficiency, as identified pursuant to Section 52163, or both, or (B) are eligible to receive free or reduced-price meals under Section 49552.

(2) A school that does not satisfy the criteria in paragraph (1) but that demonstrates other factors that warrant its consideration, including, for example, strong local collaboration and maximum use of existing resources, so that the school may serve as a model for other schools, or other factors indicating pupil need. No more than 10

percent of the schools that participate in the program established by this chapter may be schools that qualify under this paragraph. However, pupils who attend schools that qualify under this paragraph shall be given priority for services if they are either (A) from families that receive Aid to Families with Dependent Children program benefits or pupils who are limited English proficiency, as defined in Section 52163, or both, or (B) eligible to receive free or reduced-price meals under Section 49552.

(i) "Secretary" means the Secretary of Child Development and Education.

(j) "Agency secretary" means the Secretary of the Health and Welfare Agency.

(k) "Superintendent" means the Superintendent of Public Instruction.

(*l*) "Support services" means services that will enhance the physical, social, emotional, and intellectual development of children and their families.

Article 2. Healthy Start Support Services for Children Program Council and Grant Program

8803. In order to encourage the integration of children's services, it is the intent of the Legislature to promote interagency coordination and collaboration among the state agencies responsible for the provision of support services to children and their families.

Therefore, the Legislature hereby establishes the Healthy Start Support Services for Children Program Council, as follows:

(a). Members of the council shall include the superintendent, the agency secretary, the secretary, and the directors of the State Department of Health Services, the State Department of Social Services, the State Department of Alcohol and Drug Programs, and the State Department of Mental Health.

(b) Duties of the council shall include:

(1) Developing, promoting, and implementing policy affecting the Healthy Start Support Services for Children Program.

(2) Reviewing grant applications submitted to the lead agency and providing the lead agency with recommendations for awarding grants pursuant to Section 8804.

(3) Soliciting input regarding program policy an direction from individuals and entities with experience in the integration of children's services.

(4) Assisting the lead agency in fulfilling its responsibilities under this chapter.

(5) Providing recommendations to the Governor, the Legislature, and the lead agency regarding the Healthy Start Support Services for Children Grant Program.

(6) At the request of the superintendent, assist the local educational agency or consortium in planning and implementing this program, including assisting with local advocacy and problem

solving, and developing agency collaboration.

8804. The superintendent shall award grants to a local educational agency or consortium to pay the costs of planning and operating, on behalf of one or more qualifying schools within the local educational agency or consortium, programs that provide support services to eligible pupils and their families at the schoolsite, or at a site adjacent to the school, as follows:

(a) Grants shall be awarded by the superintendent based upon the recommendations of the council and pursuant to this section.

(b) Two types of grants may be awarded to applicant local educational agencies or consortia, depending upon the level of readiness of that applicant to implement a program pursuant to this chapter. The superintendent shall issue Requests for Proposals for awarding the grants, which shall specify maximum dollar amounts for which each type of grant may be awarded. The Requests for Proposals shall also specify other criteria, as required by this article. The superintendent shall award those grants as follows:

(1) Planning grants may be awarded to local educational agencies or consortia that have demonstrated a need to implement a program, but that are not ready to begin the operation of the program, or that are in need of additional planning to expand existing support services programs. Planning grants shall be no more that fifty thousand dollars ($50,000) and shall be awarded for a period not to exceed two years. Upon completion of the planning phase, the local educational agency or consortium shall be eligible to apply for and may receive an operational grant.

(2) Operational grants may be awarded to local educational agencies or consortia that have demonstrated readiness to begin operation of a program or to expand existing support services programs. Operational grants shall supplement, not supplant, existing services and funds.

(3) Operational grants shall be awarded for a period not to exceed three years.

(A) Operational grants may include one-time startup grants, which may be used for, among other things, purchasing equipment, hiring staff, designing a program evaluation, or hiring a consultant. Startup grants shall be awarded for no more than one hundred thousand dollars ($100,000).

(B) Operational grants shall be awarded for no more than three hundred thousand dollars ($300,000). No more than 50 percent of each grant shall be available for expenditure on direct services, as long as the grant application contains a three-year plan to significantly reduce or to eliminate agency reliance on funding provided under this article for direct services. Direct services do not include salaries for staff who are developing or implementing the program.

(c) All grants awarded under this article shall be matched by the participating local educational agency or consortium with one dollar ($1) for each four dollars ($4) awarded. The match shall be

contributed in cash or as services or resources of comparable value. It is the intent of the Legislature that participants seek and utilize private funds or resources for this purpose. The superintendent may waive the match requirement upon verifying that the local educational agency or consortium made a substantial effort to secure a match but was unable to secure the required match.

(d) The superintendent shall award grants pursuant to this article to local educational agencies or consortia in northern, central, and southern California, in urban, suburban, and rural areas. To the extent possible, the grants shall be awarded for programs representative of the ethnic and linguistic diversity of schoolage pupils and their families. Further, to the extent possible, 50 percent of the grants shall be awarded to schools serving elementary school children and 50 percent to schools serving junior and senior high school pupils.

(e) No more than 100 local educational agencies or consortia shall be selected to participate in the Healthy Start Support Services for Children Grant Program for the first three years.

(f) A local educational agency or consortium is eligible for a grant under this article, on behalf of one or more schools operated by the agency or consortium, if it demonstrates in its plan that it:

(1) Will give priority for services provided under this chapter to eligible pupils from low-income families.

(2) Will assist families in responding to support services needs of eligible pupils.

(5) Has developed a system of providing services to all pupils at qualifying schools that receive funding under this chapter, including a mechanism to assess appropriate fees for services, based on the sliding fee schedule established pursuant to subdivision (e) of Section 8263. No fee shall be charged for services specified in a child's individualized education program, developed pursuant to the Individuals with Disabilities Education Act (P.L. 101-476).

(6) Involves parents or guardians and teachers in the process of identifying pupils' service needs and in the planning for and provision of support services.

(g) For purposes of this chapter, support services shall include case-managed health, mental health, social, and academic support services benefiting children and their families, and may include, but are not limited to:

(k) No more than 5 percent of any amount appropriated in any fiscal year to carry out the purposes of this chapter may be used by the superintendent for program administration, evaluation, and technical assistance. Technical assistance includes, but is not limited to, assistance in preparing both planning and operational grants, in establishing interagency collaboration, in providing information dissemination and referrals, including information about appropriate program models, in conducting site visits, and in convening workshops to assist in the implementation of a program developed pursuant to this chapter.

8805. The Legislature finds that an evaluation of plan effectiveness is both desirable and necessary, and accordingly requires the following:

(a) No later than January 1, 1994, each local educational agency or consortium that receives an operational grant under this chapter shall submit a report to the superintendent, the secretary, and the agency secretary that shall include:

(1) An assessment of the effectiveness of that local educational agency or consortium in achieving stated goals in the planning and/or operational phase.

(2) Problems encountered in the design and operation of the Healthy Start Support Services for Children Grant Program plan, including identification of any federal, state, or local statute or regulation that will impede program implementation.

These shall include, but not be limited to, attendance, academic performance, dropout rates, pupil grades, postsecondary education or training, immunizations, birth weights, diagnostic screening, self-esteem, out-of-home placement rates, child protective services referrals, family functioning, and school staff and administration participation.

(2) Additional annual evaluations shall be conducted subject to additional funding being made available for purposes of this chapter in subsequent fiscal years.

Article 4. Local Agency Collaboration

8806. (a) Each local educational agency or consortium applying for a grant under this chapter shall establish procedures to ensure on-going consultation and collaboration with local agencies for the purposes set forth in subdivision (c). The consultation and collaboration process shall involve, at a minimum, parents or guardians and teachers of eligible pupils and representatives of each member agency or private partner who will provide, or is anticipated to provide, services pursuant to this chapter.

(b) If the local educational agency or consortium is located within a county that has established an interagency children's services coordinating council pursuant to Chapter 12.8 (commencing with Section 18986), of Part 6 of Division 9 of the Welfare and Institutions Code, any Healthy Start Support Services for Children Grant Program proposal submitted under this chapter first shall be approved by that council. The implementation of any program developed pursuant to this chapter shall be subject to the regular review of the interagency children's services coordinating council. The local educational agency or consortium may engage in those activities authorized pursuant to Article 3 (commencing with Section 18986.20) of Chapter 12.8 of Part 6 of Division 9 of the Welfare and Institutions Code provided that the interagency children's services coordinating council first approves those activities. The interagency children's services coordinating council or its members may be designated to fulfill the responsibilities of the consultation and collaboration process required by this article.

8807. (a) The State Department of Education shall be required to implement this chapter only to the extent that funds are apportioned for that purpose under the annual Budget Act, or are made available to the department for the purposes of this chapter from federal sources. It is the intent of the Legislature that the superintendent, in consultation with the secretary and the agency secretary, seek and utilize any federal funds that may be made available for the purposes of this chapter.

(b) All money appropriated by the Legislature to the superintendent for purposes of the Healthy Start Support Services for Children Act, shall be allocated by the superintendent to local educational agencies or consortia that have been selected to participate in the grant program. Any amount not allocated during a fiscal year may be carried over to the subsequent fiscal year. In order to ensure that those local educational agencies or consortia that receive planning grants will be eligible to receive operational grants, a portion of any funds appropriated during a fiscal year may be reserved for allocation as operational grants in future fiscal years.

(c) To the extent permitted by federal law, any funding made available to a local educational agency or consortium shall be subject to all of the following conditions:

(1) The program is open to children without regard to any child's religious beliefs or any other factor related to religion.

(2) No religious instruction is included in the program.

(3) The space in which the program is operated is not used in any manner to foster religion during the time used for operation of the program.

SEC. 2. (a) In the event that Assembly Bill 1650 is enacted and becomes effective on or before January 1, 1992, and that bill adds Part 4 (commencing with Section 4370) to Division 4 of the Welfare and Institutions Code, establishing the School-based Early Mental Health Intervention and Prevention Services for Children Act of 1991, it is the intent of the Legislature that, no later than the 1993–94 fiscal year, a single schoolsite that receives funding under that program

and the program established under Section 1 of this act, shall combine and subsume assistance, including state-level assistance, and oversight assistance received under both programs under the program established under Section 1 of this act.

(b) In the event that Assembly Bill 165 is enacted and becomes effective on or before January 1, 1992, and that bill adds Chapter 5 (commencing with Section 55450) to Part 29 of the Education Code, establishing the CalSTAR Early Intervention and Prevention Program, it is the intent of the Legislature that, no later than the 1993–94 fiscal year, a single schoolsite that receives funding under that program and under the program established under Section 1 of this act, shall combine and subsume the assistance and oversight assistance received under both programs under the program established by Section 1 of this act.

CHAPTER 760

An act to amend Sections 60601, 60602, 60603, 60604.5, 60700, and 60701 of, to add Sections 60600.1, 60602.5, 60604.8, and 60604.9 to, and to repeal Sections 60603.5 and 60604.7 of, and to repeal Chapter 5 (commencing with Section 60600) of Part 33 of, the Education Code, relating to education, and making an appropriation therefor.

[Approved by Governor October 9, 1991 Filed with Secretary of State October 9, 1991]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The purpose of the California public school system is to facilitate the development of each and every one of its pupils to become a self-motivated, competent, and lifelong learner.

(b) Every facet of the California public school system should be designed and operated explicitly to further the development of California's pupils as self-motivated, competent, and lifelong learners.

(c) In order to ascertain how best to design an educational program to enable each pupil to become self-motivated and competent learners, it is valuable to assess each pupil's level of development.

(d) The primary purpose of every testing and assessment system shall be the learning needs of the pupil; that is, to determine whether the pupil's instructional and curricular programs are effective and to ascertain the academic needs of individuals and groups within schools to enable the teacher and school to best design an educational program that furthers the development of each pupil.

SEC. 1.3. The Legislature finds and declares that the current

pupil assessment system does not meet the purposes described in Section 1. The Legislature further finds and declares all of the following:

(a) California pupils take a variety of tests to fulfill state and school district requirements, to qualify for certain federally funded programs, to meet college admission requirements, and for other purposes. As a result, valuable instructional time is used for administering tests that may be duplicative, may not be well aligned with what pupils are learning in class, may not be evaluated and returned to schools until several months after the testing, and often do not provide information on individual pupil performance that teachers can use to improve the instructional program. Those tests seldom provide teachers and schools the information required to assist them to improve their teaching and educational programs.

(b) Existing achievement tests, which rely heavily on multiple choice testing methods, measure certain skills and knowledge quite effectively and efficiently. Nevertheless, there is a need for greater emphasis on testing that requires pupils to demonstrate more explicitly that they can use their knowledge to solve problems and to communicate the results of their learning.

(c) California schools do not have a clearly articulated set of performance standards for each level of learning. As a result, there is no consistent system that pupils and parents can use to assess the performance of schools and school districts in providing effective programs and to measure the academic achievement of pupils.

(d) The five grade levels currently tested under the California school assessment program do not provide the most efficient assessment of overall pupil achievement.

SEC. 1.5. Section 60600.1 is added to the Education Code, to read:

60600.1. This chapter shall remain in effect only until January 1, 1995, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1995, deletes or extends that date.

SEC. 2. Section 60601 of the Education Code is amended to read:

60601. (a) It is the intent of the Legislature in enacting this chapter to provide a system of individual assessment of pupils that has, as its primary purpose, the improvement of instruction for pupils. That system shall include, but not be composed exclusively of, authentic performance-based assessment. The assessments should assist teachers, schools, and school districts in designing educational programs that best enable pupils to become self-motivated, competent, and lifelong learners. It is further the intent of the Legislature in enacting this chapter to determine the effectiveness of school districts and schools in assisting pupils to master the fundamental educational skills toward which instruction is directed. The program of statewide testing shall provide the public, the Legislature, and school districts with evaluative information regarding the various levels of proficiency achieved by different groups of pupils of varying socioeconomic backgrounds.

(b) It is also the intent of the Legislature in enacting this chapter

to provide a statewide assessment system that would ascertain the following:

(1) The progress of individual pupils toward the goals of becoming self-motivated, competent, and lifelong learners.

(2) The learning levels, status, and styles of particular groups of pupils in order to better design programs for those groups that enable them to become self-motivated, competent, and lifelong learners.

(3) The success of particular methods of teaching and educational programs or schools, or both, in promoting the development of self-motivated, competent, and lifelong learners.

(c) The Legislature finds and declares that assessment is an integral part of instructional improvement and an important means by which California's citizens can determine if local and state level education reform is resulting in improved teaching and learning for all pupils. Accordingly, the statewide pupil assessment program should provide information to teachers, schools, school districts, state and local policymakers, and the public regarding the effectiveness of instructional programs for pupils. That information also should assist state and local policymakers to allocate education resources in a manner that provides maximum educational opportunity for all pupils. In order to accomplish the goals set forth in subdivisions (a), (b), and (c), the Legislature finds and declares, therefore, that California's testing system should be improved, coordinated, and consolidated to do all of the following:

(1) First and foremost, provide information on the status and progress of individual pupils to those pupils, their parents, and their teachers. This information should be designed to assist in the improvement of teaching and learning in California public classrooms and other purposes, including, but not limited to, informing parents of their children's academic progress, helping pupils and their parents to make wise educational and career or occupational plans; providing potential employers with information to assist in the selection of candidates for training, internships, and hiring; providing institutions of higher education with information to assist in the selection and placement of high school pupils; and providing school districts with a mechanism to certify that all pupils have met designated standards of proficiency. The Legislature recognizes that, in addition to statewide assessments that will occur at the grade levels specified in this chapter, local school districts will conduct ongoing pupil assessments and provide information regarding pupil performance based on those assessments on a regular basis to parents and schools.

(2) Develop a set of statewide performance standards in all major subject areas to serve as the basis for reporting results for individual pupils and for groups of pupils. These standards should be designed to identify expected achievement benchmarks by grade level.

(3) Provide end-of-course examinations in all major subject areas at the middle school and high school levels to inform pupils

regarding their level of proficiency and to inform teachers regarding their teaching effectiveness, as measured against statewide standards.

(4) Accomplish a net reduction in the number of different tests administered.

(5) Ensure that the tests measure the knowledge and skills necessary so that each pupil may participate fully in lifelong learning, citizenship, employment, and where appropriate, postsecondary educational options.

(6) Make assessment an integral part of the instructional process, pursuant to which all pupils have the maximum opportunity to demonstrate what they know; to think, problem solve, and apply their knowledge in testing situations; and to be assisted and motivated through the assessment process to reach higher levels of learning.

(7) Design and administer the assessment practices to facilitate the development of the learner, to assist in the design of the process of teaching and learning and to be sensitive to, fair to, and respectful of, the integrity of the individual pupil and his or her language, culture, and disability.

(8) Ensure that all assessment procedures, items, instruments, and scoring systems are rigorously reviewed to ensure that they do not use procedures, items, instruments, or scoring practices that are racially, culturally, or gender biased.

(9) Provide information to pupils, teachers, schools, and school districts on a timely basis so that the information can be used to further the development of the pupil and to improve the educational program.

(10) Develop test score performance levels that are comparable to the performance levels of the National Education Goals Panel so that California's local and state test results are reported in a manner that corresponds to the national test results, provided, however, that the integrity of the state system, as set forth in this section, shall not be compromised. Test results should be reported in terms describing a pupil's academic capabilities and in terms of employment skills possessed by the pupil, and should not report only numerical or percentile scores.

(d) It is the intent of the Legislature, pursuant to this article, to begin a planning and implementation process to enable the Superintendent of Public Instruction to accomplish the goals set forth in this section.

SEC. 3. Section 60602 of the Education Code is amended to read:

60602. As used in this chapter:

(a) "Achievement test" means any standardized test that measures or attempts to measure the level of performance that a pupil has attained in one or more courses of study. It shall include (1) tests in basic skills courses administered annually, and (2) tests in content courses administered from time to time as designated by the State Board of Education.

(b) "Physical fitness test" means any test that addresses body structure and composition, and cardiovascular, musculoskeletal, and neuromuscular functions.

(c) "Statewide pupil assessment program" means the systematic achievement testing of all pupils in grades 4, 5, 8, and 10, and the health-related physical fitness testing of all pupils in grades 5, 7, and 9, required by this chapter in all schools within each school district by means of tests designated by the State Board of Education.

(d) "Basic skills courses" means those subjects that involve, among other skills, memorization and mastery of specific functions, including, but not limited to, reading, spelling, basic mathematics, and effectiveness of written expression.

(e) "Content courses" means those subjects that require the integration of factual matter, logical analysis, the solution by the pupil of posed problems, the drawing of logical inferences, the use of critical thinking, and the communication of ideas. These subjects shall include, but are not limited to, literature, history, mathematics, and science.

(f) "End of course exams" means assessments of pupil achievement in academic subjects or vocational fields as measured against statewide performance standards. These exams shall include, but not be limited to, the Golden State Examination established pursuant to Section 60700.

SEC. 4. Section 60602.5 is added to the Education Code, to read:

60602.5. (a) The Superintendent of Public Instruction shall design and implement a statewide pupil assessment program to implement the testing requirements of this article in accordance with the objectives set forth in Section 60601. That program shall include the following:

(1) A method for producing valid, reliable individual pupil scores.

(2) Statewide performance standards that allow pupils to demonstrate their integration of knowledge across major subject areas.

(3) An assessment system that includes, but is not composed exclusively of, authentic performance-based assessment.

(4) End-of-course examinations in all major subject matter fields.

(5) A statewide system that integrates both local and state testing in a common framework.

(6) The alignment of assessment with the knowledge and skills called for under the curriculum frameworks adopted by the State Board of Education.

(b) The superintendent shall develop and submit to the Legislature, no later than March 1, 1992, a five-year cost and implementation plan for the program described in subdivision (a).

(c) The elements to be included in the program described in subdivision (a) shall include, beginning in the 1991–92 academic year, all of the following:

(1) The development and initial field testing of a system for providing reliable, comparable individual pupil results to pupils,

parents, teachers, and potential employers.

(2) Work in the development of new performance-based assessments limited to the grade levels and subject areas specified in Section 60603.

(3) The statewide administration, scoring, and reporting of tests in grade 8.

(4) The administration and reporting of individual pupil results on end-of-course examinations in beginning algebra, geometry, United States history, economics, biology, and chemistry.

(d) The State Department of Education shall review and approve other pupil tests available for school district use, with particular attention to their alignment with the curriculum frameworks adopted by the State Board of Education and other state and national models and standards of teaching and testing practice. The statewide subject matter projects authorized under Article 1 (commencing with Section 99200) of Chapter 5 of Part 65 shall assist in the review of the tests.

(e) In recognition of the fact that not all elements as stated in subdivisions (a) and (c) of this section can be achieved at one time or within a single year, development and implementation of a system for providing reliable, comparable individual pupil results shall be completed prior to any expansion and development, or both, of new performance-based assessments except to the extent that performance-based assessments are an integral part of the system for providing individual pupil results.

SEC. 5. Section 60603 of the Education Code is amended to read:

60603. The State Board of Education shall:

(a) Require a testing program in all school districts.

(b) Require the State Department of Education to submit and recommend achievement tests to the State Board of Education for approval and adoption. The adopted tests shall be printed or purchased and distributed to the various school districts in the state by the State Department of Education.

(c) Develop a testing method that will obtain an accurate estimate of individual pupil performance, school performance, school district performance, and statewide performance of pupils in grades 4, 5, 8, and 10, in basic skills courses and content courses. That testing method may incorporate the use of direct writing assessment and other performance-based assessment, and otherwise maximize the opportunity for individual pupils to fully demonstrate their knowledge and problem-solving skills. For purposes of this article, "performance-based assessment" involves, but is not limited to, a pupil's demonstration of knowledge and skills by writing an essay response to a question, conducting an experiment, constructing a diagram or model, or orally explaining a solution to a problem. "Direct writing assessment" means that performance-based assessment under which pupils use written expression to demonstrate reading comprehension and writing skills.

Under this testing method, the State Department of Education

shall annually require that each district administer a statewide test to all pupils in grades 4, 5, 8, and 10. The subject areas of reading, written expression, mathematics, history/social science, and science shall be addressed by that test. It is the intent of the Legislature that, to the extent funding is provided for this purpose, additional subject areas, including, but not limited to, the visual and performing arts, shall be included in the statewide test for grades 4 or 5, and 8. Tests in the visual and performing arts shall be designed in a manner that does not undermine creativity. Notwithstanding any other provision of law, the testing provided for under this article shall address, in grade 4, only the subject areas of reading, written expression, and mathematics, and, in grade 5, only the subject areas of history/social science and science. The testing method may be structured in a way which allows pupils to demonstrate their integration of knowledge across subject matters. The results of the grade 10 test may serve as preliminary indicators of attainment of that knowledge to provide a basis for pupils, parents, and schools to work together to ensure that all pupils have met statewide performance standards by the end of high school. The department shall determine whether pupils in a given school shall be administered the entire test or whether the pupils shall be administered a portion of the test which will be representative of all the test objectives, goals, or categories of items on the entire test. The department may provide assistance to school districts in the implementation of the testing method established pursuant to this subdivision.

(d) Make available models of exemplary assessment instruments which classroom teachers may use to evaluate the effectiveness of the instructional program in the elementary grades. Schools shall be encouraged to use the model assessments to measure the extent to which pupils in the primary grades have acquired the appropriate knowledge and skills in reading, written expression, mathematics, history/social science, and science, as addressed in the state curriculum frameworks and under the assessment program set forth in this article beginning in grade 4.

(e) Adopt regulations for the conduct and administration of the testing program.

(f) Award contracts to develop achievement testing instruments to be used for the purposes of this section, according to competitive bidding procedures.

SEC. 6. Section 60603.5 of the Education Code is repealed.

SEC. 7. Section 60604.5 of the Education Code is amended to read:

60604.5. The State Department of Education shall develop a plan to analyze the results of the state testing program scores for grades 4, 5, 8, and 10 to identify factors that are related to educational success or failure and shall submit to the Legislature annually a budget to perform those analyses.

SEC. 8. Section 60604.7 of the Education Code is repealed.

SEC. 9. Section 60604.8 is added to the Education Code, to read:

60604.8. It is the intent of the Legislature that the Superintendent of Public Instruction shall, to the extent resources are provided for this purpose:

(a) Conduct and publish reviews of pupil tests for pupils who intend to enter the work force upon graduation from high school.

(b) Examine the feasibility of developing authentic, performance-based vocational certification exams to be used in assessing those pupils.

SEC. 9.5. Section 60604.9 is added to the Education Code, to read:

60604.9. (a) Each pupil shall have an individual record of accomplishment by the end of the 12th grade that includes the results of the grade 10 test, or retakes of that test in grades 11 and 12, results of end-of-course exams he or she chose to take, and whatever vocational education certification exams he or she chose to take, as well as evidence of job experience and other valued accomplishments.

(b) Neither the grade 10 test, nor any earlier statewide assessment, shall be used for the placement or tracking of a pupil, which is defined as assigning or counseling a pupil into a separate sequence of courses that limit the options of that pupil in regards to college preparation, technical preparation, or any other career path that the pupil selects. To assure that these assessments will not be used for tracking, any pupil who wishes to improve his or her performance on the grade 10 test may take all or any portion of the grade 10 test again in grade 11 or 12, or both.

(c) It is the intent of this legislation that school districts and schools shall use the results of the grade 10 test, as well as all earlier assessments, to provide appropriate support to pupils, parents, and teachers in order to assist pupils in strengthening their development as learners, as reflected in the grade 10 test, and thereby to improve their performance in subsequent assessments.

SEC. 10. Section 60700 of the Education Code is amended to read:

60700. There is hereby established the Golden State Examination Program for the purpose of administering the Golden State Examination to pupils enrolled in public high schools. The Golden State Examination shall measure pupil achievement under statewide standards of competency in academic subjects and shall adopt a special honors designation and insignia on a high school diploma for qualifying pupils. Participation in the Golden State Examination Program shall be voluntary on the part of each school district maintaining a high school. The governing board of each participating school district shall determine the extent to which pupils of the district shall be required to participate in the Golden State Examination.

SEC. 11. Section 60701 of the Education Code is amended to read:

60701. (a) On or before March 15, 1985, the Superintendent of Public Instruction shall prepare, with the cooperation of representatives from institutions of higher education, school districts, and certificated personnel, academic subject matter

examinations for the Golden State Examination in each of the following academic subject areas:

(1) English literature and composition.

(2) Mathematics.

(3) Laboratory sciences.

(4) Foreign languages.

(5) United States history.

(6) Health sciences.

(7) Other academic subjects that are a part of the high school curriculum, including, but not limited to, the visual and performing arts, as may be designated by the superintendent.

(b) The superintendent shall adopt rules and regulations establishing procedures for the administration and assessment of the Golden State Examination.

The adopted rules and regulations shall establish minimum achievement scores for eligibility for an honors designation and insignia on a high school diploma for pupils with qualifying scores on one or more academic subject matter examinations. The superintendent shall provide school districts with the necessary materials for the conferring of honors. The adopted rules and regulations also shall require participating school districts to notify pupils of the opportunity to take the Golden State Examination, to administer the examinations in accordance with the procedures established by the superintendent, and to affix the appropriate honors designation and insignia on high school diplomas.

(c) It is the intent of the Legislature that the Superintendent of Public Instruction, the President of the University of California, the Chancellor of the California State University, and the Chancellor of the California Community Colleges shall work together to determine the feasibility of the joint development and scoring by those institutions of the Golden State Examination in written composition and of using the results of that test to assist in postsecondary admission and course placement.

SEC. 12. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 13. The Superintendent of Public Instruction shall make annual reports to the Governor, the Department of Finance, and the Legislature on the progress in implementing a system to provide reliable and comparable individual pupil assessment results.

SEC. 14. The sum of nine million two hundred fifty thousand dollars ($9,250,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the purpose of operating the statewide pupil assessment program. Of that amount five million dollars ($5,000,000) shall be apportioned by the Superintendent of Public Instruction to one or more school districts or county offices of education for the provision of services relating to the development and implementation of the statewide pupil assessment program required by this act.

(b) Sections 30809 and 30810 and subdivision (a) of this section do not authorize the issuance or enforcement of any cease and desist order as to any activity undertaken by a local governmental agency pursuant to a declaration of emergency by the board of supervisors of the county in which the activity is being or may be undertaken.

CHAPTER 762

An act to amend Sections 1348 and 1350 of, and to add Chapter 4.1 (commencing with Section 1385) to Division 2 of, the Fish and Game Code, relating to conservation.

[Approved by Governor October 9, 1991 Filed with Secretary of State October 10, 1991.]

The people of the State of California do enact as follows:

SECTION 1. Section 1348 of the Fish and Game Code is amended to read:

1348. (a) The board shall authorize the acquisition of such real property, rights in real property, water, or water rights as may be necessary to carry out the purposes of this chapter. The board may authorize acquisition by the department, but the department shall not acquire any of such property by eminent domain proceedings except such property as may be necessary to provide access roads or

rights-of-way to areas to be used for fishing the coastal waters of the Pacific Ocean, and then only if the board of supervisors of the affected county has agreed by resolution to those proceedings for each parcel of land, and has further agreed by resolution to maintain the road or right-of-way. The board may authorize acquisition by the State Public Works Board, which may effect acquisitions pursuant to the Property Acquisition Law, Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code.

(b) For the purposes of this chapter and Chapter 4.1 (commencing with Section 1385), the board may authorize the acquisition of interests in real property and water rights by means of gifts, purchases, leases, easements, the transfer or exchange of property for other property of like value, transfers of development rights or credits, and purchases of development rights, conservation easements, and other interests.

(c) To further implement this chapter and Chapter 4.1 (commencing with Section 1385), the board may authorize the department to do any of the following:

(1) Accept federal grants and receive gifts, donations, subventions, rents, royalties, and other financial support from public or private sources. Proceeds received from any of these sources shall be deposited in the Wildlife Restoration Fund.

(2) Notwithstanding any other provision of law, lease, sell, exchange, or otherwise transfer any real property, interest in real property, or option acquired pursuant to this chapter. Proceeds from transactions entered in pursuant to this paragraph shall be deposited in the Wildlife Restoration Fund.

(3) Lease degraded potential wildlife habitat real property to nonprofit organizations, local governmental agencies, or state and federal agencies if the lessee agrees to restore the real property to its highest possible wildlife habitat value and maintain the real property at that highest possible wildlife habitat value. Proceeds from any lease or rental and interest thereon shall be deposited in the Wildlife Restoration Fund.

(4) Acquire former wildlife habitat real property, including riparian habitat real property, restore and sell the real property, or any interest therein, to private owners, local governmental agencies, or state departments and agencies or exchange the property for other real property, if a written and recorded agreement is first secured to keep and maintain the real property as wildlife habitat in perpetuity. The agreement shall contain a reversion if the real property sold or exchanged is not maintained as wildlife habitat. The agreement containing the reversion shall be set forth in any conveyance transferring any real property, interest in real property, or option subject to this section. Proceeds from the sales shall be deposited in the Wildlife Restoration Fund.

SEC. 2. Section 1350 of the Fish and Game Code is amended to read:

1350. (a) The department shall, when authorized by the board,

construct in accordance with law such facilities as are suitable for the purpose for which the real property or rights in real property or water, or water rights were acquired. Each completed project shall be managed and maintained by the department.

The department, with the approval of the board, may enter into agreements with any other department or agency of this state, any local agency, or nonprofit organization, to provide for the construction, management, or maintenance of the facilities authorized by the board, and such other department or agency of this state, local agency, or nonprofit organization, and each of them may construct, manage, or maintain those facilities pursuant to the agreement. Work performed by a local agency or nonprofit organization under those agreements is exempt from Chapter 3 (commencing with Section 14250), of Part 5 of Division 3 of Title 2 of the Government Code. However, nothing in this section shall be construed to exempt any work from Part 7 (commencing with Section 1720) of Division 2 of the Labor Code.

(b) The department, when authorized by the board, may apply for and accept federal grants, and receive gifts, donations, and other financial support from public or private sources to be used for fish and wildlife habitat enhancement, including riparian habitat restoration projects on real property or waters for which the state obtains an interest. Funds received from any of those sources shall be deposited in the Wildlife Restoration Fund.

(c) The board may award grants or loans to nonprofit organizations, local governmental agencies, federal agencies, and state agencies for the purposes of fish and wildlife habitat restoration, enhancement, management, protection and improvement of riparian resources, and for development of compatible public access facilities in the same manner and subject to the same terms and conditions as prescribed in Section 31116 of the Public Resources Code. Proceeds from repayment of any loans and the interest thereon shall be deposited in the Wildlife Restoration Fund.

SEC. 3. Chapter 4.1 (commencing with Section 1385) is added to Division 2 of the Fish and Game Code, to read:

CHAPTER 4.1. CALIFORNIA RIPARIAN HABITAT CONSERVATION PROGRAM

1385. This chapter shall be known and may be cited as the California Riparian Habitat Conservation Act.

1386. The Legislature finds and declares all of the following:

(a) California's rivers, wetlands, and waterways, and the fisheries and wildlife habitat they provide, are valuable and finite resources that benefit the people of the state and are threatened with deterioration or degeneration that may endanger the natural beauty and productivity of these valuable resources.

(b) The public interest requires the coordinated protection of rivers and riparian resources in order to maintain an equilibrium

between the natural endowment of, and manmade alterations to, California's river environment, and in order to preserve the scenic beauty of these natural resources and the recreational and economic benefits they provide.

(c) By virtue of the special conditions and circumstances of the natural ecology, the increasing human populations and needs in the state, and the numerous governmental agencies with an interest in coordinating activities which affect rivers and riparian habitat resources, there is a need for a coordinated state rivers and riparian habitat protection program.

1387. The Wildlife Conservation Board shall establish and administer, through the department, the California Riparian Habitat Conservation Program pursuant to this chapter and Chapter 4 (commencing with Section 1300). The purpose and goal of the program is to protect, preserve, and restore riparian habitats throughout the state by the acquisition of interests and rights in real property and waters to the extent deemed necessary to carry out the purposes of the program.

1388. The board, pursuant to this chapter, shall approve projects to acquire, preserve, restore, and enhance riparian habitat throughout the state, and coordinate its activities undertaken pursuant to this program with other resources protection activities of the board and other state agencies.

1389. The preservation and enhancement of riparian habitat shall be a primary concern of the Wildlife Conservation Board and the department, and of all state agencies whose activities impact riparian habitat, including the Department of Conservation, the Department of Boating and Waterways, the Department of Parks and Recreation, the Department of Water Resources, the Department of Forestry and Fire Protection, the State Coastal Conservancy, the California Conservation Corps, the California Tahoe Conservancy, the Santa Monica Mountains Conservancy, the California Coastal Commission, the San Francisco Bay Conservation and Development Commission, and the State Lands Commission.

1390. In order to accomplish the objectives of this chapter, the Wildlife Conservation Board may authorize the department to do all of the following:

(a) Acquire interests in real property and water rights through gift, purchase, lease, easement, and transfer or exchange of easements, development rights or credits, and other interests in real property.

(b) Coordinate its activities under the program with any governmental program for surplus real property sales in the state.

(c) Award grants and loans to local public agencies, state agencies, federal agencies, and nonprofit organizations for the purposes of this program.

(d) For the purposes of this chapter, "nonprofit organization" means any private, nonprofit organization which qualifies for exempt status under Section 501 (c) (3) of the United States Internal

Revenue Code of 1986, and has among its principal charitable purposes the preservation of real property for scientific, historic, educational, recreational, scenic or open-space values, the protection of the natural environment, or the preservation and enhancement of fisheries and wildlife or their habitat.

(e) Exercise any authority and comply with requirements contained in Sections 1348 and 1350, as appropriate, to preserve and enhance riparian habitat for purposes of this chapter.

1391. Grants to nonprofit organizations pursuant to Section 1390 for the acquisition of real property or interests therein shall be subject to all of the following conditions:

(a) The purchase price of any interest in real property acquired by the nonprofit organization may not exceed fair market value as established by an appraisal approved by the Wildlife Conservation Board.

(b) The Wildlife Conservation Board approves the terms under which the interest in real property is acquired.

(c) The interest in real property acquired pursuant to a grant from the Wildlife Conservation Board may not be used as security for any debt to be incurred by the nonprofit organization unless the board approves the transaction.

(d) The transfer of real property acquired pursuant to a grant shall be subject to the approval of the Wildlife Conservation Board and the execution of an agreement between the board and the transferee sufficient to protect the interest of the State of California.

(e) The state shall have a right of entry and power of termination in and over all interests in real property acquired with state funds, which may be exercised if any essential term or condition of the grant is violated.

(f) If the existence of the nonprofit organization is terminated for any reason, title to all interest in real property acquired with state funds shall immediately vest in the state. However, prior to that termination, upon approval of the board, another public agency or nonprofit organization may receive title to all or a portion of that interest in real property by recording its acceptance of title in writing. Any deed or other instrument of conveyance whereby real property is being acquired by a nonprofit organization pursuant to this section shall be recorded and shall set forth the executory interest or right of entry on the part of the state.

SEC. 4. The Wildlife Conservation Board and the Department of Fish and Game shall, if necessary to implement this act, request an augmentation of the funds appropriated to the board by the Budget Act of 1991 in an amount necessary to implement this act instead of redirecting existing resources for that purpose.

CHAPTER 763

An act to amend Section 8574.17 of the Government Code, and to add Sections 765.5 and 765.7 to the Public Utilities Code, relating to transportation, and making an appropriation therefor.

[Approved by Governor October 9, 1991. Filed with Secretary of State October 10, 1991.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Safe Rail Transportation Act of 1991.

SEC. 2. The Legislature finds and declares all of the following:

(a) Transportation of hazardous materials by rail and highway is increasing, with a concomitant increase in the potential exposure of the public to hazardous materials spills.

(b) The derailments of two freight trains in July 1991 resulted in the escape of dangerous and toxic materials and highlighted the necessity for tighter controls relating to the transportation of these materials as well as the necessity for improved procedures by government and industry to respond in the best possible coordinated manner to future incidents, in order to protect the health and welfare of the public and the environment.

(c) Additional state participation in the regulation of hazardous materials transportation is consistent with federal law, particularly in situations not addressed by federal law or regulation, and those involving "essentially local safety hazards" on railroad lines.

SEC. 3. Section 8574.17 of the Government Code is amended to read:

8574.17. (a) A state toxic disaster contingency plan established pursuant to this article shall provide for an integrated and effective state procedure to respond to the occurrence of toxic disasters within the state. The plan shall provide for the designation of a lead agency to direct strategy to ameliorate the effects of a toxic disaster, for specified state agencies to implement the plan, for interagency coordination of the training conducted by state agencies pursuant to the plan, and for on-scene coordination of response actions.

Notwithstanding any provision of the plan, the authority for the management of the scene of an on-highway toxic spill or disaster shall be vested in the appropriate law enforcement agency having primary traffic investigative authority on the highway where the incident occurs or in a local fire protection agency as provided by Section 2454 of the Vehicle Code. During the preparation of the toxic disaster contingency plan, the Office of Emergency Services shall adopt the recommendations of the Department of the California Highway Patrol in developing response and on-scene procedures for toxic disasters which occur upon the highways, based upon previous studies for such procedures, insofar as the procedures are not

inconsistent with the overall plan for initial notification of toxic disasters by public agencies and for after-incident evaluation and reporting.

(b) The Office of Emergency Services shall establish a central notification and reporting system to facilitate operation of the state toxic disaster response procedures designated by the toxic disaster contingency plan.

SEC. 4. Section 765.5 is added to the Public Utilities Code, to read:

765.5. (a) The purpose of this section is to provide that the commission takes all appropriate action necessary to ensure the safe operation of railroads in this state.

(b) Not later than July 1, 1992, and annually thereafter, the commission, consistent with Section 434 of Chapter 13 of Title 45 of the United States Code, shall identify track sections which it determines pose local safety hazards, and report on those sites to the Legislature. The commission shall include in its report at least all those sites which have inordinately high derailment rates, as determined by the commission.

(c) Not later than December 31, 1992, the commission shall propose regulations it determines would establish a program to eliminate or reduce the local safety hazards identified in the report prepared pursuant to subdivision (b). The regulations shall include requirements relating to special equipment; operating, inspection, and reporting standards; and recommended capital improvements at each site.

(d) The commission shall dedicate sufficient resources necessary to adequately carry out the State Participation Program for the regulation of rail transportation of hazardous materials as authorized by the Hazardous Material Transportation Uniform Safety Act of 1990 (P.L. 101-615).

(e) On or before July 1, 1992, the commission shall hire a minimum of six additional rail inspectors who are or shall become federally certified, consisting of three additional motive power and equipment inspectors, two signal inspectors, and one operating practices inspector, for the purpose of enforcing compliance by railroads operating in this state with state and federal safety regulations.

(f) On or before July 1, 1992, the commission shall establish, by regulation, a minimum inspection standard to ensure, at the time of inspection, that railroad locomotives, equipment and facilities located in Class I railroad yards in California will be inspected not less frequently than every 180 days, and inspection of all branch and main line track not less frequently than every 12 months.

SEC. 5. Section 765.7 is added to the Public Utilities Code, to read:

765.7. The commission, in conjunction with the California Environmental Protection Agency, shall request, no later than July 1, 1992, the appropriate federal agencies to do all of the following:

(a) Investigate and review other chemical compounds not presently considered to be hazardous or toxic for possible reclassification as hazardous substances.

(b) Require the use of safer cars in rail transportation of all hazardous materials.

(c) Increase the amount of information required on the manifest with regard to any hazardous materials being transported so as to be capable of being understood by personnel involved in emergency, and include information on environmental effects.

(d) The commission shall report to the Legislature on the status of its requests no later than September 30, 1992, and every six months thereafter until September 30, 1995.

SEC. 6. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 7. This act shall become operative only if Senate Bill 152 of the 1991–92 Regular Session is enacted.

SEC. 8. Notwithstanding any other provision of law, this chapter shall not be construed to make reference to a "California Environmental Protection Agency" for the purposes of compliance with Provision 2 of Item 3400-002-044 of the 1991–92 Budget Act.

SEC. 9. The sum of four hundred eighty thousand dollars ($480,000) is hereby appropriated from the Public Utilities Commission Transportation Reimbursement Account to the Public Utilities Commission for those costs incurred in carrying out the purposes of this act.

CHAPTER 764

An act to add Section 309.7 to the Public Utilities Code, relating to transportation, and making an appropriation therefor.

[Approved by Governor October 9, 1991 Filed with Secretary of State October 10, 1991.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) Railroad accidents pose a continuing and grave danger to the health and safety of the people of California, and to the environment of the State of California, as exemplified by a recent series of accidents on the Sacramento River, in the Mohave Desert, and in Ventura County.

(b) Prevention of accidents through the adoption and enforcement of operating standards and rules that eliminate unsafe

conditions on railroads is a goal both of federal rail safety legislation and regulations and state safety legislation and regulations.

(c) The California Public Utilities Commission has operated under a mandate from the California Legislature to promulgate and enforce railroad safety measures for 80 years, and has adopted a number of orders and regulations which improve railroad safety within the State of California.

(d) The United States Secretary of Transportation has certified the California Public Utilities Commission as a state agency that may participate in investigative and surveillance activities in connection with enforcement of federal rail safety rules and regulations.

(e) As a certified state agency, the California Public Utilities Commission may enforce both state and federal laws relating to rail safety.

(f) Vigorous enforcement of both state and federal rail safety legislation and regulations by the California Public Utilities Commission can reduce the danger posed by unsafe conditions, operations and practices, before they result in derailments and other accidents.

(g) The recent series of accidents in California demonstrates a need for improvement in the effectiveness and performance of the Safety Division of the California Public Utilities Commission.

(h) Improvement in effectiveness requires both additional resources in the form of inspectors, support staff, and enforcement personnel and a determination by the management of the California Public Utilities Commission to reduce the dangers posed by unsafe conditions and practices by promptly identifying them and vigorously pursuing their correction, using all powers available to them under state and federal law.

(i) Improvement in effectiveness requires the identification, description, and cataloguing of all essentially local safety hazards in California, including the identification of hazardous sites, and the development of special local rules and procedures for reducing the danger of derailment or other accidents at those sites by the California Public Utilities Commission.

(j) In carrying out the purposes of this act, inspectors of the California Public Utilities Commission should pay particular attention to those locomotive, car, track, and signal conditions that will help avoid train accidents and personal injuries.

SEC. 2. Section 309.7 is added to the Public Utilities Code, to read:

309.7. (a) The safety division of the commission shall be responsible for inspection, surveillance, and investigation of the rights-of-way, facilities, equipment, and operations of railroads and public mass transit guideways, and for enforcing state and federal laws, regulations, orders, and directives relating to transportation of persons or commodities, or both, of any nature or description by rail. The safety division shall advise the commission on all matters relating to rail safety, and shall propose to the commission rules, regulations,

orders and other measures necessary to reduce the dangers caused by unsafe conditions on the railroads of the state. The delegation of enforcement responsibility to the rail safety division shall not diminish the power of other agencies of state government to enforce laws relating to employee or environmental safety pollution prevention or public health and safety.

(b) In performing its duties, the safety division shall exercise all powers of investigation granted to the commission, including rights to enter upon land or facilities, inspect books and records, and compel testimony. The commission shall employ sufficient federally certified inspectors to assure at the time of inspection that railroad locomotives and equipment and facilities located in class I railroad yards in California are inspected not less frequently than every 180 days, and inspection of all main and branch line tracks not less frequently than every 12 months. In performing its duties, the safety division shall consult with representatives of railroad corporations, labor organizations representing railroad employees, and the Federal Railroad Administration.

(c) The general counsel shall assign to the safety division the personnel and attorneys necessary to fully utilize the powers granted to the commission by any state law, and by any federal law relating to rail transportation, including, but not limited to, the Federal Rail Safety Act, (45 U.S.C. 421m, et seq.), to enforce safety laws, rules, regulations, and orders and to collect fines and penalties resulting from the violation of any safety rule or regulation.

(d) The activities of the safety division that relate to common carriers by rail shall also be supported by the fees paid by railroad corporations, if any, pursuant to Sections 421 to 424, inclusive. The commission shall report to the Legislature annually on the activities of the safety division, and shall fully document in the report all expenditures of those funds.

SEC. 3. This act shall become operative only if Senate Bill 152 of the 1991–92 Regular Session is enacted.

SEC. 4. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions of applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 5. The sum of one million eight hundred thousand dollars ($1,800,000) is appropriated from the California Public Utilities Commission Transportation Reimbursement Account to the California Public Utilities Commission for the purposes of this act, effective January 1, 1992.

CHAPTER 765

An act to add Chapter 10 (commencing with Section 2800) to Division 3 of the Fish and Game Code, relating to fish and game, and making an appropriation therefor.

[Approved by Governor October 9, 1991. Filed with Secretary of State October 10, 1991.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The continuing population growth in California will result in increasing demands for dwindling natural resources and result in the continuing decline of the state's wildlife.

(b) There is a need for broad-based planning to provide for effective protection and conservation of the state's wildlife heritage while continuing to allow appropriate development and growth.

(c) Natural community conservation planning is an effective tool in protecting California's natural diversity while reducing conflicts between protection of the state's wildlife heritage and reasonable use of natural resources for economic development.

(d) Natural community conservation planning promotes coordination and cooperation among public agencies, landowners, and other private interests, provides a mechanism by which landowners and development proponents can effectively participate in the resource conservation planning process, provides a regional planning focus which can effectively address cumulative impact concerns, minimizes wildlife habitat fragmentation, promotes multispecies management and conservation, provides one option for identifying and ensuring appropriate mitigation for impacts on fish and wildlife, and promotes the conservation of broad based natural communities and species diversity.

(e) Natural community conservation planning can provide for efficient use and protection of natural and economic resources while promoting greater sensitivity to important elements of the state's critical natural diversity.

(f) Natural community conservation planning is an effective planning process which can facilitate early coordination to protect the interest of the state, the federal government, and local public agencies, landowners, and other private parties.

(g) Natural community conservation planning is a mechanism that can provide an early planning framework for proposed development projects within the planning area in order to avoid, minimize, and compensate for project impacts to wildlife.

(h) Natural community conservation planning is consistent with and will support the fish and wildlife management activities of the Department of Fish and Game in its role as the trustee for fish and

wildlife within the state.

(i) The purpose of natural community conservation planning is to sustain and restore those species and their habitat identified by the Department of Fish and Game which are necessary to maintain the continued viability of those biological communities impacted by growth and development.

SEC. 2. Chapter 10 (commencing with Section 2800) is added to Division 3 of the Fish and Game Code, to read:

CHAPTER 10. NATURAL COMMUNITY CONSERVATION PLANNING

2800. This chapter shall be known and may be cited as the Natural Community Conservation Planning Act.

2805. The definitions in this section govern the construction of this chapter.

(a) "Natural community conservation plan" means the plan prepared pursuant to an agreement entered into in accordance with subdivision (a) of Section 2810. The plan identifies and provides for the regional or areawide protection and perpetuation of natural wildlife diversity, while allowing compatible and appropriate development and growth.

(b) "Wildlife" has the same meaning as defined in Section 711.2.

(c) "Person" has the same meaning as defined in Section 711.2.

2810. The department may enter into agreements with any person for the purpose of preparing and implementing a natural community conservation plan to provide comprehensive management and conservation of multiple wildlife species, including, but not limited to, those species listed pursuant to Article 2 (commencing with Section 2070) of Chapter 1.5. The agreement shall include cost reimbursement provisions pursuant to Section 2840.

2820. Natural community conservation planning may be undertaken by local, state, and federal agencies independently or in cooperation with other persons. The plan shall be consistent with the agreement entered into pursuant to Section 2810 and shall be approved by the department for implementation upon meeting the standards established by the department for natural community conservation.

2825. (a) The department may prepare nonregulatory guidelines for the development and implementation of natural community conservation plans. The guidelines are exempt from Chapter 3.5 (commencing with Section 11340) of Division 3 of Title 2 of the Government Code. The guidelines may include, but are not limited to, all of the following:

(1) Defining the scope of a conservation planning area.

(2) Determining conservation standards, guidelines, and objectives for the planning area.

(3) Appointing one or more advisory committees to review and make recommendations regarding the preparation and

implementation of natural community conservation plans.

(4) Coordinating with local, state, and federal agencies.

(5) Incorporating public input.

(6) Ensuring compatibility with the federal Endangered Species Act (16 U.S.C. Sec. 1531 et seq.).

(7) Obtaining approval of the natural community conservation plan by the department.

(8) Provisions for implementation of the plan.

(9) Monitoring and reporting on plan implementation.

(10) Amending the plan consistent with the initial intent of the plan.

(b) Nothing in this chapter exempts projects proposed in a natural community conservation planning area from the requirements of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(c) Natural community conservation plans, as appropriate, shall be implemented pursuant to Section 2081.

(d) To the extent practicable, implementation of natural community conservation plans shall use the services of either the California Conservation Corps or local community conservation corps.

2830. Upon recommendation of the department, the commission may authorize, pursuant to Section 2084, the taking of any candidate species whose conservation, protection, restoration, and enhancement is provided for in a department approved natural community conservation plan consistent with paragraph (6) of subdivision (a) of Section 2825.

2835. The department may permit the taking, as provided in this code, of any identified species whose conservation and management is provided for in a department approved natural communities conservation plan.

2840. (a) The department shall be compensated for the actual costs incurred in participating in the preparation and implementation of natural community conservation plans. These costs may include consultation with other parties to agreements authorized by Section 2810, providing and compiling wildlife and wildlife habitat data, reviewing and approving the final plan, monitoring implementation of the plan, and other activities necessary to the preparation and implementation of a plan.

(b) The department shall be compensated for those expenses identified in subdivision (a) according to a schedule in the agreement authorized by Section 2810.

SEC. 3. This act does not apply to any agreement for the preparation of a habitat conservation plan or natural community conservation plan approved by the Director of Fish and Game at the time of enactment of this act.

CHAPTER 766

An act to add Section 59019 to the Health and Safety Code, and to amend Sections 421, 421.5, 7672, and 7673 of, and to add Article 10 (commencing with Section 7710) to Chapter 1 of Division 4 of, the Public Utilities Code, relating to railroads.

[Approved by Governor October 9, 1991. Filed with Secretary of State October 10, 1991]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) There exists a danger to the public and the environment from the rail transportation of hazardous materials in the state.

(b) In one event in July 1991, a train derailment in the area near Dunsmuir, California, caused widespread loss of wildlife, disrupted business and the resort nature of the area, and posed a significant health hazard to residents and tourists.

(c) State action is necessary because the federal government's lists of hazardous materials are incomplete and, thus, do not offer the level of protection needed by the people of our state.

(d) There exists a need to strengthen California's laws in order to prevent and respond to hazardous materials emergencies in order to better safeguard the safety of the public and the environment.

SEC. 2. Section 59019 is added to the Health and Safety Code, to read:

59019. (a) On or before July 1, 1992, and on or before July 1 annually thereafter, the Office of Environmental Health Hazard Assessment shall provide to the Legislature and the Public Utilities Commission, for the purpose of Section 7672 of the Public Utilities Code, a list of commodities, set forth by category, that pose potential threats to the public, property, and the environment when transported on railroad lines in the state. The office shall develop the categories in consultation with the Office of Emergency Services.

(b) The office, in determining which commodities pose potential threats, shall consider both the toxicity of the commodity itself and the toxicity of any potential breakdown elements of the commodity when exposed to air, water, or other chemical agents that the commodity or its byproducts might contact under normal circumstances or in the event of mishandling, accident, or other possible event associated with, transporting the commodity on railroad lines in the state. In developing the list pursuant to this section, the office shall consider excluding those consumer products that are shipped in finished packages which, due to their packaging or quantity, are not likely to pose a hazard to the public or environment in the event of a train derailment or other surface accident. The list shall be used exclusively for the purposes specified in Sections 7711 and 7712 of the Public Utilities Code.

(c) The Public Utilities Commission shall provide the office with all information about railroad operations which the office needs to make the determination required by this section.

SEC. 3. Section 421 of the Public Utilities Code is amended to read:

421. (a) The commission shall annually determine a fee to be paid by every passenger stage corporation, charter-party carrier of passengers, pipeline corporation, for-hire vessel operator, common carrier vessel operator, railroad corporation, and commercial air operator and every other common carrier and related business subject to the jurisdiction of the commission, except as otherwise provided in Article 3 (commencing with Section 431) and Chapter 6 (commencing with Section 5001) of Division 2.

(b) The annual fee shall be established to produce a total amount equal to the amount established in the authorized commission budget for the same year, including adjustments appropriated by the Legislature and an appropriate reserve, to regulate common carriers and related businesses, less the amount to be paid from special accounts or funds pursuant to Section 403, funds from the Transportation Planning and Development Account in the State Transportation Fund, reimbursements, federal funds, other revenues, and unencumbered funds from the preceding year.

(c) The commission shall collect the initial fee from railroad corporations beginning on February 1, 1992, and shall distribute the amounts collected as directed in Senate Bill 152 of the 1991–92 Regular Session.

SEC. 4. Section 421.5 of the Public Utilities Code is amended to read:

421.5. This article does not apply to any interstate or foreign highway carrier registered pursuant to the Interstate and Foreign Highway Carriers' Registration Act (Chapter 2 (commencing with Section 3901) of Division 2) who does not otherwise hold any operating authority from the commission to operate in intrastate commerce.

SEC. 5. Section 7672 of the Public Utilities Code is amended to read:

7672. For purposes of this article, "hazardous material" means any of the following:

(a) A hazardous material as defined in Section 171.8 of Title 49 of the Code of Federal Regulations.

(b) A hazardous material defined in Section 25501 of the Health and Safety Code.

(c) Any commodity listed by the Office of Environmental Health Hazard Assessment pursuant to Section 59019 of the Health and Safety Code.

SEC. 6. Section 7673 of the Public Utilities Code is amended to read:

7673. Each railroad corporation which transports hazardous materials in the state shall do all of the following:

(a) Provide a system map of the state to the Office of Emergency Services and to the Public Utilities Commission, showing practical groupings of mileposts on the system and showing mileposts of stations, terminals, junction points, road crossings, and the locations of natural gas and liquid pipelines in railroad rights-of-way.

(b) Annually submit to the Office of Emergency Services a copy of a publication which identifies emergency handling guidelines for the surface transportation of hazardous materials, except that if the railroad corporation is classified as a class I carrier by the Interstate Commerce Commission pursuant to Subpart A of Part 1201 of Subchapter C of Chapter X of the Code of Federal Regulations, the railroad corporation shall annually submit to the Office of Emergency Services 50 copies of this publication which the Office of Emergency Services shall make available to the Public Utilities Commission and local administering agencies and to other response agencies. These guidelines shall not be considered comprehensive instructions for the handling of any specific incident.

(c) If there is a train incident resulting in a release or an overturned railcar or an impact which threatens a release of a hazardous material, provide the emergency response agency with all of the following information:

(1) A list of each car in the train and the order of the cars.

(2) The contents of each car, if loaded, in the train.

(3) Identification of the cars and contents in the train which are involved in the incident, including, but not limited to, those cars which have derailed.

(4) Emergency handling procedures for each hazardous material transported in or on the involved cars of the train.

SEC. 7. Article 10 (commencing with Section 7710) is added to Chapter 1 of Division 4 of the Public Utilities Code, to read:

Article 10. Railroad Safety and Emergency Planning and Response

7710. For purposes of this article, the following definitions shall apply:

(a) "Commission" shall mean the Public Utilities Commission.

(b) "Director" means the Director of the Office of Emergency Services.

(c) "Fund" means the Rail Accident Prevention and Response Fund created pursuant to Section 7713.

(d) "Office" means the Office of Emergency Services.

(e) "Prevention account" means the Hazardous Spill Prevention Account created, pursuant to Section 7714, in the Railroad Accident Prevention and Response Fund.

(f) "Secretary" means the Secretary of the California Environmental Protection Agency.

7711. On or before July 1, 1992, and on or before July 1 annually thereafter, the commission shall report to the Legislature on sites on

railroad lines in the state it finds to be hazardous. The report shall include, but not be limited to, information on all of the following:

(a) A list, prepared pursuant to Section 59019 of the Health and Safety Code, of all commodities transported on railroad lines in the state that could pose a hazard to the public or the environment in the event of a train derailment or other accident.

(b) A description of the quantities of commodities identified in subdivision (a) that are transported on railroad lines in the state. The commission shall also describe the locations and routes at, and on, which the commodities specified in subdivision (a) are transported. Railroad corporations shall provide to the commission all information necessary to comply with this subdivision.

(c) A list of all railroad derailment accident sites in the state on which accidents have occurred within at least the previous five years. The list shall describe the nature and probable causes of the accidents, if known.

(d) A list of all railroad sites in the state that the commission determines pose a local safety hazard. Factors that the commission shall consider in determining a local safety hazard may include, but need not be limited to, all of the following:

(1) The severity of grade and curve of track.

(2) The value of special skills of train operators in negotiating the particular segment of railroad line.

(3) The value of special railroad equipment in negotiating the particular segment of railroad line.

(4) The types of commodities transported on or near the particular segment of railroad line.

(5) The hazard posed by the release of the commodity into the environment.

(6) The value of special railroad equipment in the process of safely loading, transporting, storing, or unloading potentially hazardous commodities.

(7) The proximity of railroad activity to human activity or sensitive environmental areas.

(e) In determining which railroad sites pose a local safety hazard pursuant to subdivision (d), the commission shall consider the history of accidents at or near the sites. The commission shall not limit its determination to sites at which accidents have already occurred, but shall identify potentially hazardous sites based on the criteria enumerated in subdivision (d) and all other criteria that the commission determines influence railroad safety.

7712. On or before January 1, 1993, the commission shall adopt regulations, based on its findings and not inconsistent with federal law. The commission may amend or revise the regulations as necessary thereafter, to reduce the potential railroad hazards identified in Section 7711. In adopting the regulations, the commission shall consider at least all of the following:

(a) Establishing regulations for the transporting of commodities which the commission has listed pursuant to Section 7711. These

standards shall include, but need not be limited to, all of the following:

(1) Requiring railroad operators to maintain on trains easily accessible and identifiable information describing the chemical composition, trade name, potential hazards, and proper emergency response procedures for each category of hazardous commodity specified in subdivision (a) of Section 7711 when loaded, transported, stored, or unloaded on or from their trains.

(2) Requiring railroad operators to maintain, on all trains that carry the commodities specified in subdivision (a) of Section 7711, emergency response telephone and radio contacts for all manufacturers of commodities listed pursuant to subdivision (a) of Section 7711, of all local railroad emergency response agencies on the train's route, for the Office of Emergency Services, and for all applicable federal emergency response agencies.

(3) Requiring railroad operators to post on railroad cars containing commodities identified in subdivision (a) of Section 7711 easily identifiable placards identifying the name, type, and nature of the commodity.

(1) Sizes, numbers, and configurations of locomotives.

(2) Brakes.

(3) Construction of train cars that carry the commodities specified in subdivision (a) of Section 7711.

(c) Establishing special train operating standards for trains operated over railroad sites identified as posing a local safety hazard pursuant to subdivision (d) of Section 7711. These standards may include, but need not be limited to, standards for all of the following:

(1) Length, weight, and weight distribution of trains.

(2) Speeds and accelerations of trains.

(3) Hours of allowable travel.

(d) Establishing special training, personnel, and performance standards for operators of trains that travel on railroad sites identified as posing a local safety hazard pursuant to subdivision (d) of Section 7711.

(e) The commission may authorize its executive director to exercise the commission's authority to issue cease and desist orders pursuant to this section.

SEC. 10. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction. Notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 11. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

CHAPTER 767

An act to amend Sections 421, 421.5, 422, 423, 424, and 99315.5 of, and to add Sections 765.6 and 765.9 to, the Public Utilities Code, relating to rail safety.

[Approved by Governor October 9, 1991 Filed with Secretary of State October 10, 1991]

The people of the State of California do enact as follows:

SECTION 1. Section 421 of the Public Utilities Code is amended to read:

421. The commission shall annually determine a fee to be paid by every passenger stage corporation, charter-party carrier of passengers, pipeline corporation, for-hire vessel operator, common carrier vessel operator, railroad corporation, and commercial air operator and every other common carrier and related business subject to the jurisdiction of the commission, except as otherwise provided in Article 3 (commencing with Section 431) of this chapter and Chapter 6 (commencing with Section 5001) of Division 2.

The annual fee shall be established to produce a total amount equal to the amount established in the authorized commission budget for the same year, including adjustments appropriated by the Legislature and an appropriate reserve, to regulate common carriers and related businesses, less the amount to be paid from special accounts or funds pursuant to Section 403, reimbursements, federal funds, other revenues, and unencumbered funds from the preceding year.

Notwithstanding any other provision of law, the fees paid by railroad corporations shall be used for state-funded railroad investigation and enforcement activities of the commission, other than the rail safety activities funded by the Transportation Planning and Development Account pursuant to Section 99315.5. The railroad fees shall be set annually at a level which generates not less than the amount sufficient to fund activities pursuant to Section 765.5.

On January 1, 1992, the commission shall submit to the Legislature a detailed budget implementing this section for the 1992–93 fiscal year. The commission shall also submit to the Legislature by January 1, 1993, and on each January 1 thereafter, a detailed budget for expenditure of railroad corporation fees for the ensuing budget year. The budget for expenditure of railroad corporation fees shall include, at a minimum, the following line items:

(a) Expenditures for railroad-safety personnel directly involved in inspecting railroads and enforcing rail safety regulations.

(b) Expenditures for clerical and support staff directly associated with railroad-safety inspections.

(c) Expenditures for personnel related to railroad operations, but not directly involved in railroad-safety activities.

(d) Expenditures for the pro rata share of commission overhead costs attributed to the railroad-safety program.

The Department of Finance shall notify the Joint Legislative Budget Committee, pursuant to Section 28 of the Budget Act, prior to authorizing any change in the Budget Act appropriation for railroad corporation fees that are larger than one hundred thousand dollars ($100,000) or 10 percent of the amount budgeted, whichever is less.

SEC. 2. Section 421.5 of the Public Utilities Code is amended to read:

421.5. This article does not apply to any interstate or foreign highway carrier registered pursuant to the Interstate and Foreign Highway Carriers' Registration Act (Chapter 2 (commencing with Section 3901) of Division 2) who does not otherwise hold any operating authority from the commission to operate in intrastate commerce.

SEC. 3. Section 422 of the Public Utilities Code is amended to read:

422. The commission shall establish the fee pursuant to Section 421 with the approval of the Department of Finance and in accordance with all of the following:

(a) In its annual budget request, the commission shall specify, at a minimum, both of the following:

(1) The amount of its budget to be financed by the fee.

(2) The dollar allocation of the amount of its budget to be financed by the fee by each class of carrier and related business subject to the fee. Each class of carrier and related business subject to this article shall pay fees sufficient to support the commission's regulatory activities for the class from which the fee is collected and to establish an appropriate reserve.

(b) The commission may establish different and distinct methods of assessing fees for each class of carrier and related business, if the revenues collected are consistent with paragraph (2) of subdivision (a).

(c) Within each class of carrier and related business subject to the fee, the commission shall allocate, among the members of the class, the amount of the commission's budget to be financed by the fee based on the ratio that each member's gross intrastate revenues bears to the total gross intrastate revenues of the class, except for railroad corporations, whose fees shall be allocated within that class in accordance with subdivision (g).

(d) Any carrier or related business which is a member of more than one class of carrier or related business shall be subject to the fee for each class of which it is a member.

(e) For every carrier and related business having annual gross intrastate revenues of one hundred thousand dollars ($100,000) or less, or for every railroad corporation having annual gross intrastate revenues of ten million dollars ($10,000,000) or less, the commission shall annually establish uniform fees, which shall be not less than a minimum annual fee, to be paid by each carrier and related business and by each railroad corporation, if the revenues collected are consistent with paragraph (2) of subdivision (a). Every carrier and related business and railroad corporation paying fees pursuant to this subdivision shall show proof of eligibility at the time of payment in a form the commission may specify.

(f) The commission shall annually establish a uniform fee, which shall be not less than a minimum annual fee, to be paid by every commercial air operator and for-hire vessel operator, if the revenues collected are consistent with paragraph (2) of subdivision (a).

(g) The commission shall establish the initial fee amount to be paid by railroad corporations subject to this section, and the regulations for the assessment and collection of the fee, no later than January 31, 1992. The commission shall collect the initial fee from railroad corporations beginning on February 1, 1992, and shall disburse the amounts collected as directed in Section 309.7, as added by Assembly Bill 684 of the 1991–92 Regular Session, and Section 421.

(h) The commission shall establish regulations for allocating the proportionate share of the fee established pursuant to paragraph (2) of subdivision (a) to be paid by the rail corporations within that class. The regulations may utilize gross intrastate revenues; track mileage

within the state; terminals located within the state; loaded car miles traveled within the state; fuel consumption; or any other measure deemed by the commission to be appropriate in allocating the fee among railroad corporations. On or before January 15, 1992, railroad corporations as a group may submit a proposed plan of allocation to the commission, which the commission shall consider in establishing the regulations.

SEC. 4. Section 423 of the Public Utilities Code is amended to read:

423. Except as provided in Section 404, every carrier and related business subject to Section 421 shall make the payments of the required fee in accordance with the following schedule:

(a) Every carrier and related business with annual gross intrastate revenues of one hundred thousand dollars ($100,000) or less, railroad corporation, commercial air operator, and for-hire vessel operator shall make payment of the fee to the commission on an annual basis on or before January 15.

(b) Every other carrier and related business not subject to subdivision (a) shall make payment of the fee on a quarterly basis between the first and 15th days of July, October, January, and April.

(c) Each carrier and related business subject to subdivision (b) shall, at that time, prepare and transmit a report, in the form the commission may specify, showing the gross operating revenue of the carrier or related business for the calendar quarter covered by the report together with the fee established pursuant to Section 421. In the case of a railroad corporation, the report shall address the factors identified by the commission as the basis for allocation pursuant to subdivision (g) of Section 422.

(d) Any carrier or related business required to submit information and reports under this article may, in lieu thereof, submit copies of information or reports made to another governmental agency if all of the following requirements are met:

(1) The alternate information or reports contain all of the information required by the commission.

(2) The requirements to which the alternate information or reports are responsive are clearly identified.

(3) The information or reports are certified by the carrier or related business to be true and correct.

SEC. 5. Section 424 of the Public Utilities Code is amended to read:

424. As used in this article:

(a) "Class" means a group of carriers or related businesses as specified by the commission for purposes of establishing the fees pursuant to this article. The commission shall create separate classes for the following: passenger vehicle operators, pipeline corporations, vessel operators, railroad corporations, and commercial air operators.

(b) "Gross intrastate revenue" includes all compensation for the transportation or storage of property or the transportation of persons when both the origin and destination of the transportation or the

performance of the service is within this state, and shall not include compensation for the transportation of persons or property in interstate or foreign commerce or the transportation of vehicles by ferries. "Gross intrastate revenue," as determined pursuant to this article, shall apply only for purposes of determining the fees required by this chapter and shall not necessarily constitute gross operating revenue for any other purpose.

(c) "Fee" means that monetary amount determined in accordance with this article.

SEC. 6. Section 765.6 is added to the Public Utilities Code, to read:

765.6. The commission shall report to the Legislature on the compliance with the requirements of Section 765.5, as added by Assembly Bill 151 of the 1991–92 Regular Session on or before January 1, 1993, and annually thereafter. Additionally, the commission shall provide for an annual audit of the use of funds collected from railroads pursuant to Section 421. The annual report shall include a determination by the commission of the impact on competition, if any, of the regulatory fees assessed railroad corporations and motor carriers for the support of the commission's activities.

SEC. 7. Section 765.9 is added to the Public Utilities Code, to read:

765.9. Federal funds available to the commission for rail safety inspection and enforcement purposes shall be allocated to eligible passenger and freight rail activities on a proportionate basis.
