STATUTES OF CALIFORNIA

AND DIGESTS OF MEASURES

1996

Constitution of 1879 as Amended

Measures Submitted to Vote of Electors,
Primary Election, March 26, 1996
and General Election, November 5, 1996

General Laws, Amendments to the Codes, Resolutions,
and Constitutional Amendments passed by the
California Legislature

1995–96 Regular Session
1995–96 First Extraordinary Session
1995–96 Second Extraordinary Session
1995–96 Third Extraordinary Session
1995–96 Fourth Extraordinary Session

Compiled by
BION M. GREGORY
Legislative Counsel

CHAPTER 196

An act to add Chapter 3.45 (commencing with Section 44755) to Part 25 of, to add Chapter 15 (commencing with Section 53000) to Part 28 of, and to add Article 6 (commencing with Section 60350) to Chapter 2 of Part 33 of, the Education Code, relating to education, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.45 (commencing with Section 44755) is added to Part 25 of the Education Code, to read:

CHAPTER 3.45. TEACHER READING INSTRUCTION DEVELOPMENT PROGRAM

44755. (a) It is the intent of the Legislature that each certificated teacher of pupils enrolled in kindergarten and grades 1 to 3, inclusive, possess the knowledge and skills to effectively teach pupils to read.

(b) The State Department of Education shall allocate the amounts appropriated pursuant to this chapter to each school district on the basis of an equal amount per pupil in enrollment statewide in kindergarten and grades 1 to 3, inclusive, as of October 1996.

(c) For the purpose of this chapter the term "school district" means school districts and county offices of education.

44756. To be eligible for funds pursuant to this chapter, a school district shall certify to the State Department of Education that not less than 90 percent of its certificated employees who provide direct instructional services to pupils enrolled in kindergarten or any of grades 1 to 3, inclusive, have received the type of inservice training described in subdivision (b) of Section 44757 and that the provision of that inservice training did not cause a reduction in pupil instruction time.

44757. A school district shall certify to the State Department of Education all of the following, as a condition to receiving funding pursuant to this chapter:

(a) That funds received pursuant to this chapter shall be spent by school districts only for the purpose of providing inservice training in reading instruction in the 1996–97 school year to certificated employees who provide direct instructional services to pupils enrolled in kindergarten or any of grades 1 to 3, inclusive, and to schoolsite administrators.

(b) That funds received pursuant to this chapter shall be expended for inservice training programs in reading instruction that

address systematically explicit phonics instruction, phonemic awareness, sound-symbol relationship, decoding, word-attack skills, spelling instruction, diagnosis of reading deficiencies, research on how children learn to read, research on how proficient readers read, the structure of the English language, relationships between reading, writing, and spelling, planning and delivery of appropriate reading instruction based on assessment and evaluation, and independent pupil reading of high quality books and the relationship of that reading to improved reading performance.

(c) That the school district will develop an action agenda that provides for a program of inservice training in reading instruction for all certificated employees in the school district who provide direct instructional services to pupils in kindergarten, or grades 1 to 3, inclusive. In that action agenda, the school district shall, to the extent feasible and appropriate, use:

(1) Staff development days authorized pursuant to Section 44670.2.

(2) Staff development funds available from all state and federal funding sources.

(3) Inservice training provided by publishers of reading program instructional materials adopted by the State Board of Education in 1996.

(4) A clinical diagnostic teacher training approach.

(5) Involvement of the parents and guardians of pupils enrolled in the school district.

(d) That inservice training provided pursuant to this section shall be coordinated and integrated with any inservice training in reading instruction funded by amounts received pursuant to the federal Goals 2000: Education America Act (P.L. 103-227) for the 1995–96 fiscal year.

SEC. 2. Chapter 15 (commencing with Section 53000) is added to Part 28 of the Education Code, to read:

CHAPTER 15. COMPREHENSIVE READING LEADERSHIP PROGRAM

53000. This chapter shall be known and may be cited as the Comprehensive Reading Leadership Program Act of 1996.

53001. The Legislature hereby finds and declares that strong leadership is needed at the local level to improve reading instruction in kindergarten and grades 1 to 3, inclusive, of the public schools. Therefore, it is the intent of the Legislature in enacting this chapter to encourage members of governing boards of school districts, school administrators, and teachers identified by the governing board of the school district as having demonstrated leadership in reading instruction to implement a comprehensive reading program for kindergarten and grades 1 to 3, inclusive, that emphasizes basic reading skills and continued improvement of reading skills through the reading of high quality books.

53002. (a) County offices of education may apply to the State Board of Education to design a reading leadership program and develop materials that focus on systematically explicit phonics instruction, phonemic awareness, sound-symbol relationships, decoding, word-attack skills, spelling instruction, diagnosis of reading deficiencies, research on how children learn to read, research on how proficient readers read, the structure of the English language, relationships between reading, writing, and spelling, planning and delivery of appropriate reading instruction based on assessment and evaluation, and independent pupil reading of high quality books and the relationship of that reading to improved reading performance.

(b) From the applications received pursuant to this section, the State Board of Education shall select one county office of education that has a proposed reading leadership program and a proposed materials development program that, in the judgment of the State Board of Education, will provide an effective reading leadership training program addressing the elements listed in subdivision (a) of this section and meet the requirements of subdivision (a) of Section 53003. The State Board of Education is hereby authorized to allocate from moneys appropriated to it an amount sufficient to fund the reading leadership program selected pursuant to this section.

53003. From the applications received pursuant to this chapter, the State Board of Education shall select county offices of education and school districts on a statewide basis to conduct reading leadership training programs pursuant to the program developed pursuant to Section 53002. The State Board of Education shall select an applicant in accordance with the following criteria:

(a) The selected applicants shall have the qualifications necessary to deliver a high-quality reading leadership training program.

(b) The selected applicants shall represent all areas of the state so that each geographical area of the state has reasonable access to a reading leadership training program.

53004. From the amount appropriated for the purposes of this chapter, the State Board of Education shall determine the amount of funds to allocate to each school district and county office of education selected pursuant to Section 53003 to provide reading leadership training programs according to criteria established by the State Board of Education that is based on the actual cost of providing the leadership program.

53005. The State Board of Education shall designate the school districts and county offices of education that will be served by each of the reading leadership training program providers selected pursuant to Section 53003.

53006. The county offices of education and school districts selected pursuant to Section 53003 shall conduct reading leadership training programs in accordance with the following:

(a) The members of the governing boards of the school districts, administrators of school districts and schools, and teachers who have

been identified by the governing boards of the school districts as having demonstrated leadership in reading instruction in each school district to be served, as determined pursuant to Section 53004, shall be invited to participate in the reading leadership training program.

(b) The reading leadership training programs shall adhere to the program designs and use the materials produced pursuant to Section 53002.

(c) The reading leadership training programs shall address systematically explicit phonics instruction, phonemic awareness, sound-symbol relationships, decoding, word-attack skills, spelling instruction, diagnosis of reading deficiencies, research on how children learn to read, research on how proficient readers read, the structure of the English language, relationships between reading, writing, and spelling, planning and delivery of appropriate reading instruction based on assessment and evaluation, and independent pupil reading of high quality books and the relationship of that reading to improved reading performance.

SEC. 3. Article 6 (commencing with Section 60350) is added to Chapter 2 of Part 33 of the Education Code, to read:

Article 6. Core Reading Program Instructional Materials

60350. It is the intent of the Legislature that each pupil in kindergarten and grades 1 to 3, inclusive, be furnished with a complete set of core reading program instructional materials adopted by the state board in 1996.

60351. (a) The State Department of Education shall apportion funds appropriated for purposes of this article to school districts on the basis of an equal amount per statewide pupil enrollment in kindergarten and grades 1 to 3, inclusive.

(b) For the purposes of this article, the term "school districts" means school districts and county offices of education and the term "governing boards" means governing boards of school districts and county boards of education.

60352. A school district may apply to the state board for funding for the purchase of a complete set of core reading program instructional materials pursuant to this article.

(a) Except as provided in subdivision (b), each school district shall expend funds received pursuant to this article for the sole purpose of purchasing core reading program instructional materials for pupils enrolled in kindergarten and grades 1 to 3, inclusive, that meet the following requirements:

(1) The instructional materials have been adopted by the state board in 1996.

(2) The instructional materials meet the requirements of Section 62000.4.

(3) The instructional materials include, but are not necessarily limited to, phonemic awareness, systematic explicit phonics, and

spelling patterns, accompanied by reading material that provides practice in the lesson being taught.

(b) A school district may expend up to 5 percent of the amounts received pursuant to this article to acquire independent reading books for pupils enrolled in grades 1 to 4, inclusive, for the purpose of stocking school or classroom libraries.

(c) Each school district that receives funds pursuant to this chapter shall purchase the core reading instructional materials on or before September 30, 1997, except that the state board may extend the last date to purchase materials to not later than September 30, 1998, if in a public hearing the governing board adopts a resolution requesting that extension and stating the reasons therefor. In granting a request for an extension pursuant to this subdivision, the state board shall prescribe the last date that core reading instructional materials may be purchased, but in no event shall the state board authorize a date of extension later than September 30, 1998. It is the intent of the Legislature that the state board authorize extensions to governing boards that have demonstrated that they are unable to meet the deadline set forth in this subdivision because of factors out of their control, including, but not limited to, insufficient time to evaluate and field test the state board-approved materials.

(d) If the governing board establishes, to the satisfaction of the state board, that the state-adopted instructional materials do not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that governing board to use the funds received pursuant to this article to purchase instructional materials as specified by the state board, in accordance with standards and procedures established by the state board, and that meet the requirements of Section 60200.4 and include, but are not necessarily limited to, phonemic awareness, systematic explicit phonics, and spelling patterns, accompanied by reading material that provides practice in the lesson being taught. It is the intent of the Legislature that any request made by governing boards pursuant to this subdivision prior to August 31, 1996, be expedited by the state board.

(e) Each governing board shall certify to the State Department of Education that the amounts received pursuant to this chapter have been expended as required by this chapter. The governing board shall certify at a public hearing of the board that each pupil enrolled in kindergarten and grades 1 to 3, inclusive, has been furnished a complete set of core reading program instructional materials that meets the requirements of this section.

SEC. 4. (a) The sum of one hundred fifty-two million dollars ($152,000,000) is hereby appropriated from the General Fund to the State Department of Education, without regard to fiscal years, for the purposes of allocating funds to school districts for the purchase of core reading program instructional materials pursuant to Article 6 (commencing with Section 60350) of Chapter 2 of Part 33 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 5. (a) The sum of thirteen million dollars ($13,000,000) is hereby appropriated from the General Fund to the State Department of Education, without regard to fiscal years, for the purposes of allocating funds to school districts for the provision of inservice training on reading instruction knowledge and skills to teachers pursuant to Chapter 3.45 (commencing with Section 44755) of Part 25 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 6. (a) The sum of two million dollars ($2,000,000) is hereby appropriated from the General Fund to the State Board of Education, without regard to fiscal years, for allocation to county offices of education and school districts for reading leadership training programs pursuant to Chapter 15 (commencing with Section 53000) of Part 28 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make statutory changes necessary for the implementation of the Budget Act of 1996, it is necessary for this act to take effect immediately.

CHAPTER 197

An act to amend Sections 1797.254, 102247, 102250, 116590, 116600, 120955, and 123227 of, to amend and renumber Section 4019.10 of, to add Sections 116377 and 123228 to, to add Chapter 12 (commencing with Section 1799.202) to Division 2.5 of, to add and repeal Section 103640 of, the Health and Safety Code, to amend Sections 4359, 4643, 5778, 14005.21, 14005.8, 14005.85, 14021.6, 14105.31, 14105.33, 14105.35, 14105.37, 14105.38, 14105.39, 14105.4, 14105.405, 14105.41, 14105.42, 14105.91, 14105.915, 14105.916, 14132.44, 14132.47, 14132.90, 14133.22, 14148.5, and 14163 of, to amend and repeal Section 4791 of, to add Sections 4681.3, 4776.5, 6600.05, 7200.05, 14005.81, 14511, and 14512 to, to add and repeal Chapter 14 (commencing with Section 18993) of Part 6 of Division 9 of, to add and repeal Division 24 (commencing with Section 24000) of, and to add and repeal Sections 14087.305 and 14105.335 of, the Welfare and Institutions Code, and to amend Section 24 of Chapter 305 of the Statutes of 1995, relating to health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) Various reports and investigations have documented deficiencies in pediatric emergency and critical care throughout the United States. A 1993 report from the Institute of Medicine of the National Academy of Sciences found that emergency medical services for children in the United States are inadequate. The report recommends that states develop emergency medical services systems for children within the emergency medical services system to ensure that children receive adequate and appropriate emergency medical services necessary to prevent loss of life and human potential.

(b) California has approximately two and one half million children under 14 years of age, (8.5 percent of the U.S. population, 1990 Census) within its borders, the largest pediatric population of any state in the United States. California's children experience unnecessarily high rates of injury and illness that lead to disability and death. Lifetime costs associated with fatal and nonfatal injury in 1991 were estimated at $15.3 billion for children under 15 years of age, and

$100.3 billion for 15- to 24-year olds. Available estimates indicate that the implementation of comprehensive and coordinated services for emergency medical services ensures more appropriate care and an emergency medical services system for children would provide significant economic benefits.

(c) Each year in California, approximately 240 children per 100,000 will require admission to pediatric critical care centers, yet only 55 percent of these children in need of this care actually receive it. Seventy percent of the children in pediatric care units are five years of age or less, and suffer from medical illnesses such as acute asthma, meningitis, and other infectious diseases, seizures, and poisonings. Acute illness is a source of enormous ongoing physical, psychological, and financial loss to children and families. Twenty-one thousand children die annually within the United States from these illnesses.

(d) Traumatic injuries, including, but not limited to, injuries attributed to automobiles, bicycles, burns, drowning, intentional injury or violence, and firearms are the most common cause of death in children over one year old. Statistics also show that children have an unacceptably high death rate in these emergency situations. It has been estimated that between 8,000 and 12,000 of the 22,000 children who die from injuries each year in the United States could be saved by the establishment of injury prevention programs and emergency medical services systems specifically for children.

(e) Children have unique problems and needs associated with acute injury and illness, and they also suffer from different types of injuries and illnesses than adults. As a result, children require different types of diagnostic procedures, medications, and support techniques. In order to avoid unnecessary injuries and deaths when treating children, their emergency and critical care medical needs should be recognized and treated appropriately within this state's existing emergency medical services system.

(f) Existing emergency medical services education programs primarily focus on assessment, care, and treatment of adults and offer very few hours of pediatric education. In addition, many emergency medical services personnel have limited clinical experience with children, indicating the need to improve education of these personnel as regards pediatric emergencies.

(g) Some hospitals and out-of-hospital emergency care providers do not have the appropriate pediatric equipment to treat children in need of emergency care.

(h) Requiring pediatric preparedness in every emergency department as well as access to specialized pediatric centers would ensure that all of California's children who need emergency medical care will get appropriate pediatric emergency and critical care.

(i) The California Emergency Medical Services Authority has received national recognition for their leadership in the development of guidelines for a statewide pediatric emergency and

critical care medical services model. Full implementation of the Emergency Medical Services for Children (EMSC) guidelines on a statewide basis must be achieved.

SEC. 2. Section 1797.254 of the Health and Safety Code is amended to read:

1797.254. Local EMS agencies shall annually submit an emergency medical services plan for the EMS area to the authority, according to EMS Systems, Standards, and Guidelines established by the authority.

SEC. 3. Chapter 12 (commencing with Section 1799.202) is added to Division 2.5 of the Health and Safety Code, to read:

CHAPTER 12. EMERGENCY MEDICAL SERVICES SYSTEM FOR CHILDREN

1799.202. This chapter shall be known and may be cited as the California Emergency Medical Services for Children Act of 1996.

1799.204. (a) For purposes of this chapter, the following definitions apply:

(1) "EMSC Program" means the Emergency Medical Services For Children Program administered by the authority.

(2) "Technical advisory committee" means a multidisciplinary committee with pediatric emergency medical services, pediatric critical care, or other related expertise.

(3) "EMSC component" means the part of the local agency's EMS plan that outlines the training, transportation, basic and advanced life support care requirements, and emergency department and hospital pediatric capabilities within a local jurisdiction.

(b) Contingent upon available funding, an Emergency Medical Services For Children Program is hereby established within the authority.

(c) The authority shall do the following to implement the EMSC Program:

(1) Employ or contract with professional, technical, research, and clerical staff as necessary to implement this chapter.

(2) Provide advice and technical assistance to local EMS agencies on the integration of an EMSC Program into their EMS system.

(3) Oversee implementation of the EMSC Program by local EMS agencies.

(4) Establish an EMSC technical advisory committee.

(5) Facilitate cooperative interstate relationships to provide appropriate care for pediatric patients who must cross state borders to receive emergency and critical care services.

(6) Work cooperatively and in a coordinated manner with the State Department of Health Services and other public and private agencies in the development of standards and policies for the delivery of emergency and critical care services to children.

(7) On or before March 1, 2000, produce a report for the Legislature describing any progress on implementation of this

chapter. The report shall contain, but not be limited to, a description of the status of emergency medical services for children at both the state and local levels, the recommendation for training, protocols, and special medical equipment for emergency services for children, an estimate of the costs and benefits of the services and programs authorized by this chapter, and a calculation of the number of children served by the EMSC system.

(d) No more than one hundred twenty thousand dollars ($120,000) per fiscal year shall be expended from the General Fund by the authority for the EMSC program.

1799.205. A local EMS agency may develop an EMSC Program in its jurisdiction, contingent upon available funding. If a local EMS agency develops an EMSC Program in its jurisdiction, the local EMS agency shall develop and incorporate in its EMS plan an EMSC component that complies with EMS plan requirements. The EMSC component shall include, but need not be limited to, the following:

(a) EMSC system planning, implementation, and management.

(b) Injury and illness prevention planning, that includes, among other things, coordination, education, and data collection.

(c) Care rendered to patients outside the hospital.

(d) Emergency department care.

(e) Interfacility consultation, transfer, and transport.

(f) Pediatric critical care and pediatric trauma services.

(g) General trauma centers with pediatric considerations.

(h) Pediatric rehabilitation plans that include, among other things, data collection and evaluation, education on early detection of need for referral, and proper referral of pediatric patients.

(i) Children with special EMS needs outside the hospital.

(j) Information management and system evaluation.

1799.207. The authority may solicit and accept grant funding from public and private sources to supplement state funds.

SEC. 4. Section 4019.10 of the Health and Safety Code is amended and renumbered to read:

116565. (a) Commencing July 1, 1993, each public water system serving 1,000 or more service connections and any public water system that treats water on behalf of one or more public water systems for the purpose of rendering it safe for human consumption, shall reimburse the department for actual cost incurred by the department for conducting those activities mandated by this chapter relating to the issuance of domestic water supply permits, inspections, monitoring, surveillance, and water quality evaluation that relate to that specific public water system. The amount of reimbursement shall be sufficient to pay, but in no event shall exceed, the department's actual cost in conducting these activities.

(b) Commencing July 1, 1993, each public water system serving less than 1,000 service connections shall pay an annual drinking water operating fee to the department as set forth in this subdivision for costs incurred by the department for conducting those activities

mandated by this chapter relating to inspections, monitoring, surveillance, and water quality evaluation relating to public water systems. The total amount of fees shall be sufficient to pay, but in no event shall exceed, the department's actual cost in conducting these activities. Notwithstanding adjustment of actual fees collected pursuant to Section 100425 as authorized pursuant to subdivision (d) of Section 106590, the maximum amount that shall be paid annually by a public water system pursuant to this section shall not exceed the following:

Type of public water system	Fee
15– 24 service connections	$250
25– 99 service connections	$400
100–499 service connections	$500
500–999 service connections	$700
Noncommunity water systems pursuant to paragraph (1) of subdivision (j) of Section 116275	$350
Noncommunity water systems exempted pursuant to Section 116282	$100

(c) For purposes of determining the fees provided for in subdivision (a), the department shall maintain a record of its actual costs for pursuing the activities specified in subdivision (a) relative to each system required to pay the fees. The fee charged each system shall reflect the department's actual cost, or in the case of a local primacy agency the local primacy agency's actual cost, of conducting the specified activities.

(d) The department shall submit an invoice for cost reimbursement for the activities specified in subdivision (a) to the public water systems no more than twice a year.

(1) The department shall submit one estimated cost invoice to public water systems serving 1,000 or more service connections and any public water system that treats water on behalf of one or more public water systems for the purpose of rendering it safe for human consumption. This invoice shall include the actual hours expended during the first six months of the fiscal year. The hourly cost rate used to determine the amount of the estimated cost invoice shall be the rate for the previous fiscal year.

(2) The department shall submit a final invoice to the public water system prior to September 1 following the fiscal year that the costs were incurred. The invoice shall indicate the total hours expended during the fiscal year, the reasons for the expenditure, the hourly cost rate of the department for the fiscal year, the estimated cost invoice, and payments received. The amount of the final invoice shall be

determined using the total hours expended during the fiscal year and the actual hourly cost rate of the department for the fiscal year. The payment of the estimated invoice, exclusive of late penalty, if any, shall be credited toward the final invoice amount.

(3) Payment of the invoice issued pursuant to paragraphs (1) and (2) shall be made within 90 days of the date of the invoice. Failure to pay the amount of the invoice within 90 days shall result in a 10 percent late penalty that shall be paid in addition to the invoiced amount.

(e) Any public water system under the jurisdiction of a local primacy agency shall pay the fees specified in this section to the local primacy agency in lieu of the department. This section shall not preclude a local health officer from imposing additional fees pursuant to Section 101325.

SEC. 5. Section 102247 of the Health and Safety Code is amended to read:

102247. (a) There is hereby created in the State Treasury the Health Statistics Special Fund. The fund shall consist of revenues including, but not limited to, all of the following:

(1) Fees or charges remitted to the State Registrar for record search or issuance of certificates, permits, registrations, or other documents pursuant to Chapter 3 (commencing with Section 26800) of Part 3 of Division 2 of Title 3 of the Government Code, and Chapter 4 (commencing with Section 102525), Chapter 5 (commencing with Section 102625), Chapter 8 (commencing with Section 103050), and Chapter 15 (commencing with Section 103600), of Part 1, of Division 102.

(2) Funds remitted to the State Registrar by the federal Social Security Administration for participation in the enumeration at birth program.

(3) Funds remitted to the State Registrar by the National Center for Health Statistics pursuant to the federal Vital Statistics Cooperative Program.

(4) Funds deposited pursuant to Section 103640.

(5) Any other funds collected by the State Registrar, except Children's Trust Fund fees collected pursuant to Section 18966 of the Welfare and Institutions Code, fees allocated to the Judicial Council pursuant to Section 1852 of the Family Code, and fees collected pursuant to Section 103645, all of which shall be deposited into the General Fund.

(b) Moneys in the Health Statistics Special Fund shall be expended by the State Registrar for the purpose of funding its existing programs and programs that may become necessary to carry out its mission, upon appropriation by the Legislature.

(c) Health Statistics Special Fund moneys shall be expended only for the purposes set forth in this section and Section 102249, and shall not be expended for any other purpose or for any other state program.

(d) It is the intent of the Legislature that the Health Statistics Special Fund provide for the following:

(1) Registration and preservation of vital event records and dissemination of vital event information to the public.

(2) Data analysis of vital statistics for population projections, health trends and patterns, epidemiologic research, and development of information to support new health policies.

(3) Development of uniform health data systems that are integrated, accessible, and useful in the collection of information on health status.

SEC. 6. Section 102250 of the Health and Safety Code is amended to read:

102250. (a) (1) There is a State Vital Record Improvement Account in the Health Statistics Special Fund.

(2) Commencing January 1, 1997, the State Vital Record Improvement Account in the Health Statistics Special Fund shall be terminated and all funds in the State Vital Record Improvement Account in the Health Statistics Special Fund, or owed to that account as of January 1, 1997, shall remain in the Health Statistics Special Fund and may be expended, upon appropriation by the Legislature, for the purposes of the act adding this paragraph or to fulfill other statutory requirements of the State Registrar.

(b) The remainder of the moneys in the account that are not subject to local allocations on January 1, 1997, pursuant to subdivision (a) of former Section 10040, shall, upon appropriation by the Legislature, be utilized by the State Registrar to improve and automate the processing of vital records maintained by the State Registrar.

(c) This section shall become operative January 1, 1997.

SEC. 7. Section 103640 is added to the Health and Safety Code, to read:

103640. (a) In addition to the fees prescribed by subdivisions (a) to (d), inclusive, of Section 103625, all applicants for certified copies of the records described in those subdivisions shall pay an additional fee of up to two dollars ($2), that shall be collected by the State Registrar, the local registrar, county recorder, or county clerk, as the case may be.

(b) Except as provided in paragraph (2), the local public official charged with the collection of the additional fee established pursuant to subdivision (a) may create a Vital and Health Statistics Trust Fund. The fees collected by local public officials pursuant to subdivision (a) shall be distributed as follows:

(1) Up to ninety cents ($0.90) of each fee collected pursuant to this section shall be deposited with the State Registrar for deposit pursuant to Section 102250.

(2) The remainder of the fee collected pursuant to this section shall be deposited into the collecting agency's Vital and Health Statistics Trust Fund.

(3) Any local public official that does not establish a local Vital and Health Statistics Trust Fund shall forward the entire fee collected pursuant to this section to the State Registrar, who shall deposit the fees pursuant to Section 102250.

(4) Fees collected by the State Registrar shall be deposited pursuant to Section 102250.

(c) Moneys in each Vital and Health Statistics Trust Fund shall be available to the public official charged with the collection of fees pursuant to this section to defray the administrative costs of collecting and reporting with respect to those fees and for the other costs, as follows:

(1) Modernization of vital record operations, including improvement, automation, and technical support of vital record systems.

(2) Improvement in the collection and analysis of health-related birth and death certificate information, and other community health data collection and analysis, as appropriate.

(d) Funds collected pursuant to this section shall not be used to supplant existing funding that is necessary for the daily operation of vital record systems. It is the intent of the Legislature that funds collected pursuant to this section be used to enhance service to the public, to improve analytical capabilities of state and local health authorities in addressing the health needs of newborn children, maternal health problems, and to analyze the health status of the general population.

(e) Each county shall annually submit a report to the State Registrar by March 1, containing information on the amount of revenues collected pursuant to this section for the previous calendar year and on how the revenues were expended and for what purpose.

(f) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

(g) This section shall become operative on January 1, 1997.

SEC. 8. Section 116377 is added to the Health and Safety Code, to read:

116377. The department may adopt emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, to implement amendments to this chapter. The initial adoption of emergency regulations and one readoption of the initial regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Initial emergency regulations and the first readoption of those regulations shall be exempt from review by the Office of Administrative Law. The emergency regulations authorized by this section shall be submitted to the Office of Administrative Law for filing with the Secretary of State and publication in the California

Code of Regulations and shall remain in effect for not more than 180 days.

SEC. 9. Section 116590 of the Health and Safety Code is amended to read:

116590. (a) All funds received by the department pursuant to this chapter, including, but not limited to, all civil penalties collected by the department pursuant to Article 9 (commencing with Section 116650) and Article 11 (commencing with Section 116725), shall be deposited into the Safe Drinking Water Account that is hereby established. Funds in the Safe Drinking Water Account may not be expended for any purpose other than as set forth in this chapter. All moneys collected by the department pursuant to Sections 116565 to 116600, inclusive, shall be deposited into the Safe Drinking Water Account for use by the department, upon appropriation by the Legislature, for the purpose of providing funds necessary to administer this chapter.

(b) The department's hourly cost rate used to determine the reimbursement for actual costs pursuant to Sections 116565, 116577, and 116580 shall be based upon the department's salaries, benefits, travel expense, operating, equipment, administrative support, and overhead costs.

(c) Notwithstanding Section 6103 of the Government Code, each public water system operating under a permit issued pursuant to this chapter shall pay the fees set forth in this chapter. A public water system shall be permitted to collect a fee from its customers to recover the fees paid pursuant to this chapter.

(d) The fees collected pursuant to subdivision (b) of Section 116565 and subdivision (b) of Section 116570 shall be adjusted annually pursuant to Section 100425, and the adjusted fee amounts shall be rounded off to the nearest whole dollar.

(e) Fees assessed pursuant to this chapter shall not exceed actual costs to either the department or the local primacy agency, as the case may be, related to the public water systems assessed the fees.

(f) In no event shall the total amount of funds collected pursuant to subdivision (a) of Section 116565, and subdivision (a) of Section 116577 from public water systems serving 1,000 or more service connections exceed the following:

(1) For the 1992–93 fiscal year, four million nine hundred thousand dollars ($4,900,000).

(2) For the 1993–94 fiscal year, four million seven hundred fifty thousand dollars ($4,750,000).

(3) For the 1994–95 fiscal year, five million dollars ($5,000,000).

(4) For the 1995–96 fiscal year, five million two hundred fifty thousand dollars ($5,250,000).

(5) For the 1996–97 fiscal year, five million five hundred thousand dollars ($5,500,000).

(6) For the 1997–98 fiscal year and subsequent fiscal years, the total amount of funds collected shall not increase by more than 5 percent of the amount collected for the previous fiscal year.

(g) The department shall develop a time accounting standard designed to do all of the following:

(1) Provide accurate time accounting.

(2) Provide accurate invoicing based upon hourly rates comparable to private sector professional classifications and comparable rates charged by other states for comparable services. These rates shall be applied against the time spent by the actual individuals who perform the work.

(3) Establish work standards that address work tasks, timing, completeness, limits on redirection of effort, and limits on the time spent in the aggregate for each activity.

(4) Establish overhead charge-back limitations, including, but not limited to, charge-back limitations on charges relating to reimbursement of services provided to the department by other departments and agencies of the state, that reasonably relate to the performance of the function.

(5) Provide appropriate invoice controls.

SEC. 10. Section 116600 of the Health and Safety Code is amended to read:

116600. Except as otherwise specified, Sections 116565 to 116600, inclusive, shall become operative July 1, 1993. Sections 116565 to 116600, inclusive, shall remain in effect until January 1, 2002, and as of that date are repealed unless a later enacted statute that is enacted before January 1, 2002, deletes or extends that date.

SEC. 11. Section 120955 of the Health and Safety Code is amended to read:

120955. (a) To the extent that state and federal funds are appropriated in the Budget Act for these purposes, the director shall establish and may administer a program to provide drug treatments to persons infected with human immunodeficiency virus (HIV), the etiologic agent of acquired immune deficiency syndrome (AIDS). The director shall develop, maintain, and update as necessary a list of drugs to be provided under this program. Drugs on the list shall include, but not be limited to, the drugs zidovudine (AZT) and aerosolized pentamidine.

(b) The director may grant funds to a county public health department through standard agreements to administer this program in that county. To maximize the recipients' access to drugs covered by this program, the director shall urge the county health department in counties granted these funds to decentralize distribution of the drugs to the recipients.

(c) The director shall establish a rate structure for reimbursement for the cost of each drug included in the program. Rates shall not be less than the actual cost of the drug. However, the director may

purchase a listed drug directly from the manufacturer and negotiate the most favorable bulk price for that drug.

(d) Manufacturers of the drugs on the list shall pay the department a rebate of 15 percent of the average wholesale cost price of each drug.

(e) The department shall submit an invoice, not less than two times per year, to each manufacturer for the amount of the rebate required by subdivision (d).

(f) Drugs may be removed from the list for failure to pay the rebate required by subdivision (d), unless the department determines that removal of the drug from the list would cause substantial medical hardship to beneficiaries.

(g) The department may adopt emergency regulations to implement amendments to this chapter made during the 1996 portion of the 1995–96 Regular Session, in accordance with the Administrative Procedure Act, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The initial adoption of emergency regulations shall be deemed to be an emergency and considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this section shall remain in effect for no more than 180 days.

(h) Reimbursement under this chapter shall not be made for any drugs that are available to the recipient under any other private, state, or federal programs, or under any other contractual or legal entitlements, except that the director may authorize an exemption from this subdivision where exemption would represent a cost savings to the state.

SEC. 12. Section 123227 of the Health and Safety Code is amended to read:

123227. (a) The following definitions shall apply for purposes of this section:

(1) "Domestic violence" means the infliction or threat of physical harm against past or present adult or adolescent female intimate partners, and shall include physical, sexual, and psychological abuse against the woman, and is a part of a pattern of assaultive, coercive, and controlling behaviors directed at achieving compliance from or control over, that woman.

(2) "Shelter-based" means an established system of services where battered women and their children may be provided safe or confidential emergency housing on a 24-hour basis, including, but not limited to, hotel or motel arrangements, haven, and safe houses.

(3) "Emergency shelter" means a confidential or safe location that provides emergency housing on a 24-hour basis for battered women and their children.

(b) The Maternal and Child Health Branch of the State Department of Health Services shall administer a comprehensive

shelter-based services grant program to battered women's shelters pursuant to this section.

(c) The Maternal and Child Health Branch shall administer grants, awarded as the result of a request for application process, to battered women's shelters that propose to maintain shelters or services previously granted funding pursuant to this section, to expand existing services or create new services, and to establish new battered women's shelters to provide services, in any of the following four areas:

(1) Emergency shelter to women and their children escaping violent family situations.

(2) Transitional housing programs to help women and their children find housing and jobs so that they are not forced to choose between returning to a violent relationship or becoming homeless. The programs may offer up to 18 months of housing, case management, job training and placement, counseling, support groups, and classes in parenting and family budgeting.

(3) Legal and other types of advocacy and representation to help women and their children pursue the appropriate legal options.

(4) Other support services for battered women and their children.

(d) In implementing the grant program pursuant to this section, the State Department of Health Services shall consult with an advisory council, to remain in existence until January 1, 1998. The council shall be composed of not to exceed 13 voting members and two nonvoting members appointed as follows:

(1) Seven members appointed by the Governor.

(2) Three members appointed by the Speaker of the Assembly.

(3) Three members appointed by the Senate Committee on Rules.

(4) Two nonvoting ex officio members who shall be Members of the Legislature, one appointed by the Speaker of the Assembly and one appointed by the Senate Committee on Rules. Any Member of the Legislature appointed to the council shall meet with, and participate in the activities of, the council to the extent that participation is not incompatible with his or her position as a Member of the Legislature.

The membership of the council shall consist of domestic violence advocates, battered women service providers, and representatives of women's organizations, law enforcement, and other groups involved with domestic violence. At least one-half of the council membership shall consist of domestic violence advocates or battered women service providers from organizations such as the California Alliance Against Domestic Violence.

It is the intent of the Legislature that the council membership reflect the ethnic, racial, cultural, and geographic diversity of the state.

(e) The department shall collaborate closely with the council in the development of funding priorities, the framing of the Request for Proposals, and the solicitation of proposals.

(f) (1) The Maternal and Child Health Branch of the State Department of Health Services shall administer grants, awarded as the result of a request for application process, to agencies to conduct demonstration projects to serve battered women, including, but not limited to, creative and innovative service approaches, such as community response teams and pilot projects to develop new interventions emphasizing prevention and education, and other support projects identified by the advisory council.

(2) For purposes of this subdivision, "agency" means a state agency, a local government, a community-based organization, or a nonprofit organization.

(g) It is the intent of the Legislature that services funded by this program include services in underserved and ethnic and racial communities. Therefore, the Maternal and Child Health Branch of the State Department of Health Services shall do all of the following:

(1) Fund shelters pursuant to this section that reflect the ethnic, racial, economic, cultural, and geographic diversity of the state.

(2) Target geographic areas and ethnic and racial communities of the state whereby, based on a needs assessment, it is determined that no shelter-based services exist or that additional resources are necessary.

(h) The director may award additional grants to shelter-based agencies when it is determined that there exists a critical need for shelter or shelter-based services.

(i) As a condition of receiving funding pursuant to this section, battered women's shelters shall do all of the following:

(1) Provide matching funds or in-kind contributions equivalent to not less than 20 percent of the grant they would receive. The matching funds or in-kind contributions may come from other governmental or private sources.

(2) Ensure that appropriate staff and volunteers having client contact meet the definition of "domestic violence counselor" as specified in subdivision (a) of Section 1037.1 of the Evidence Code. The minimum training specified in paragraph (2) of subdivision (a) of Section 1037.1 of the Evidence Code shall be provided to those staff and volunteers who do not meet the requirements of paragraph (1) of subdivision (a) of Section 1037.1 of the Evidence Code.

SEC. 13. Section 123228 is added to the Health and Safety Code, to read:

123228. (a) The Maternal and Child Health Branch of the State Department of Health Services shall fund, through a competitive selection process determined by the director, at least one agency to provide expert technical assistance and training on domestic violence issues and building agency capacity in order to obtain other funding for services for battered women and their children, including, but not limited to, grant writing and building coalitions.

(b) The Maternal and Child Health Branch of the State Department of Health Services shall fund at least one agency to

conduct a statewide evaluation of the services funded through Section 123277.

(c) For purposes of subdivision (a), "agency" means a state agency, local government, a community-based organization, or a nonprofit agency.

(d) Contracts awarded pursuant to this section are exempt from the competitive bidding requirements of the Public Contract Code.

SEC. 14. Section 4359 of the Welfare and Institutions Code is amended to read:

4359. This chapter shall remain in effect until January 1, 2000, and as of that date is repealed, unless a later enacted statute enacted prior to that date extends or deletes that date.

SEC. 15. Section 4643 of the Welfare and Institutions Code, as amended by Chapter 1 of the 1996 Fourth Extraordinary Session, is amended to read:

4643. (a) If assessment is needed, it shall be performed within 120 days following initial intake. Assessment shall be performed as soon as possible and in no event more than 60 days following initial intake where any delay would expose the client to unnecessary risk to his or her health and safety or to significant further delay in mental or physical development, or the client would be at imminent risk of placement in a more restrictive environment. Assessment may include collection and review of available historical diagnostic data, provision or procurement of necessary tests and evaluations, and summarization of developmental levels and service needs and is conditional upon receipt of the release of information specified in subdivision (b). On July 1, 2000, the 120 days allowed for assessment shall revert to 60 days and if unusual circumstances prevent the completion of assessment within 60 days following intake, this assessment period may be extended by one 30-day period with the advance written approval of the department.

(b) In determining if an individual meets the definition of developmental disability contained in subdivision (a) of Section 4512, the regional center may consider evaluations and tests, including, but not limited to, intelligence tests, adaptive functioning tests, neurological and neuropsychological tests, diagnostic tests performed by a physician, psychiatric tests, and other tests or evaluations that have been performed by, and are available from, other sources.

SEC. 16. Section 4681.3 is added to the Welfare and Institutions Code, to read:

4681.3. Notwithstanding any other provision of this article, for the 1996–97 fiscal year, the rate schedule authorized by the department in operation June 30, 1996, shall be increased based upon the amount appropriated in the Budget Act of 1996 for that purpose. The increase shall be applied as a percentage, and the percentage shall be the same for all providers.

SEC. 17. Section 4776.5 is added to the Welfare and Institutions Code, to read:

4776.5. (a) Regional centers shall not be subject to any provision of law, regulation, or policy required of state agencies pertaining to the planning and acquisition of information technology, including personal computers, local area networks, information technology consultation, and software.

(b) The State Department of Developmental Services and the Association of Regional Center Agencies shall jointly develop guidelines for use by regional centers in the expenditure of funds for those information system activities, including consultation and software development, involving interface with the data bases of the State Department of Developmental Services, including the Uniform Fiscal System.

SEC. 18. Section 4791 of the Welfare and Institutions Code, as amended by Chapter 1 of the 1996 Fourth Extraordinary Session, is amended to read:

4791. (a) The Legislature finds that when the state faces an unprecedented fiscal crisis , the services set forth in this division are necessary to enable persons with developmental disabilities to live in the least restrictive setting.

(b) In order to ensure that services to eligible consumers are available throughout the fiscal year, regional centers shall administer their contracts within the level of funding available within the annual Budget Act.

(c) To carry out the intent of this provision, and notwithstanding Chapter 5 and Section 4643, each regional center contract shall include provisions which ensure the regional center will provide services to eligible consumers within the funds available in the contract throughout the fiscal year. Regional centers shall implement innovative, cost-effective methods of services delivery, which may include, but not be limited to, the use of vouchers, consumer or parent services coordinators, increased administrative efficiencies, and alternative sources of payment for services.

(d) In the event of an unallocated reduction, the Budget Act of each fiscal year shall determine the distribution of any unallocated reduction within the regional center budget item.

(e) In the event of an unallocated reduction in the regional center budget, or if an individual regional center notifies the department that the regional center will be unable to provide services and supports to eligible consumers throughout the fiscal year within the level of funding available in their contract, the following shall apply:

(1) The department shall provide the regional center or regional centers with guidelines, technical assistance, and a variety of options for reducing operations and purchase of service costs.

(2) Within 30 days of the enactment of the Budget Act or after the date a regional center notifies the department of a projected deficit in its purchase of services budget, each impacted regional center

shall develop and submit a plan to the department describing in detail how it intends to absorb any unallocated reduction and shall achieve savings necessary to provide services to eligible consumers throughout the fiscal year within the limitations of the funds allocated. Prior to adopting the plan, each regional center shall hold a public hearing in order to receive comment on the plan. The regional centers shall provide notice to the community at least 10 days in advance of the public hearing. The regional center shall summarize and respond to the public testimony in their plan.

(3) The plan submitted to the department may include, but not be limited to:

(A) Innovative and cost-effective methods of services delivery that include, but are not limited to, the use of vouchers; the use of consumers and parents as service coordinators; alternative methods of case management; the use of volunteer teams, made up of consumers, parents, other family members, and advocates, to conduct the monitoring activities described in Section 4648.1; increased administrative efficiencies; alternative sources of payment for services; use of available assessments in determining eligibility; and alternative nonresidential rate methodologies or service delivery models, or both. In addition, the regional center shall take into account, in identifying the consumer's service needs, the family's responsibility for providing similar services to a child without disabilities.

(B) The maximization of all alternative funding sources, including federal and generic funding sources.

(C) Assurances that all other operations expenditure reductions are considered before any reductions are made in nonsupervisory, service coordination staff.

(4) The regional centers shall implement components of their plans upon approval of the department. The department shall review and approve, or require modification of portions of the regional centers' plan, within 30 days of receipt of the plan.

(f) Notwithstanding any other provision of law, in any fiscal year in which an unallocated reduction is made in the regional center budget, the director may adopt, amend, repeal, or suspend regulations as necessary to permit program flexibility and allow regional centers to achieve cost savings or innovative approaches to service delivery, including, but not limited, to those specified in subparagraph (A) of paragraph (1) of subdivision (e) without adversely affecting consumer health and safety or placing persons with disabilities in a more restrictive environment. Furthermore, any such regulatory change shall not authorize categorical reductions; changes in service delivery shall have an exemption process. It is the intent of the Legislature that any such action be deemed an emergency necessary for the immediate preservation of the public peace, health, and safety, or general welfare for purposes of subdivision (b) of Section 11346.1 of the Government Code.

(g) Notwithstanding any other provision of law, the State Director of the Department of Developmental Services may require one or more regional centers to take any actions he or she determines to be necessary to ensure reductions are made in the regional center operations budget, including, but not limited to, the following:

(1) Require a regional center to centralize billing and other fiscal and administrative functions.

(2) Require a regional center to reduce office space through the decentralization of service coordinators by allowing service coordinators to work in their homes and in community-based programs.

(3) Require a regional center to freeze or reduce levels of pay for administrative and managerial employees.

(4) Require a regional center to contract for specified functions currently conducted directly by the regional center.

(5) Require regional centers to seek Medi-Cal provider status for regional center staff performing reimbursable activities.

(h) Notwithstanding any other provisions of law, the director may terminate a regional center contract if he or she determines that the regional center is unable or unwilling to make the necessary reductions in its operations budget or if the action is necessary to avoid reductions in the purchase of services for regional center consumers.

(i) Notwithstanding any other provisions of law, the department may directly operate a regional center after the termination of a contract.

(j) If the director determines that regional centers cannot provide services throughout the fiscal year within the funds provided by the Budget Act, he or she shall immediately report to the Governor and the appropriate fiscal committees of the Legislature and recommend actions to secure additional funds or reduce expenditures, including any actions which require the suspension of the entitlement to service set forth in this division.

(k) Developing and implementing the plan shall be considered a contractual obligation pursuant to Section 4635 of the Welfare and Institutions Code. Accordingly, the department shall make reasonable efforts to assist regional centers in fulfilling their contractual obligations and provide technical assistance, as necessary. In addition, a regional center's failure to develop and implement the plan may be considered grounds for contract termination or nonrenewal. If at any time the director of the department determines that a regional center's plan does not adequately address a funding deficiency during the fiscal year, the director may require the use of operational funds to reduce the deficiency in purchase of services funds.

(*l*) This section shall become inoperative on July 1, 2000, and, as of January 1, 2001, is repealed, unless a later enacted statute, that

becomes operative on or before January 1, 2001, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 19. Section 5778 of the Welfare and Institutions Code is amended to read:

5778. (a) This section shall be limited to mental health services reimbursed through a fee-for-service payment system.

(b) During the initial phases of the implementation of this part, as determined by the department, the mental health plan contractor and subcontractors shall submit claims under the Medi-Cal program for eligible services on a fee-for-service basis.

(c) A qualifying county may elect, with the approval of the department, to operate under the requirements of a capitated, integrated service system field test pursuant to Section 5719.5 rather than this part, in the event the requirements of the two programs conflict. A county that elects to operate under that section shall comply with all other provisions of this part that do not conflict with that section.

(d) (1) No sooner than October 1, 1994, state matching funds for Medi-Cal fee-for-service acute psychiatric inpatient services, and associated administrative days, shall be transferred to the department. No later than July 1, 1997, upon agreement between the department and the State Department of Health Services, state matching funds for the remaining Medi-Cal fee-for-service mental health services and the state matching funds associated with field test counties under Section 5719.5 shall be transferred to the department.

(2) The State Department of Mental Health, in consultation with the State Department of Health Services, a statewide organization representing counties, and a statewide organization representing health maintenance organizations shall develop a timeline for the transfer of funding and responsibility for fee-for-service mental health services from Medi-Cal managed care plans to local mental health plans. In developing the timeline, the department shall develop screening, referral, and coordination guidelines to be used by Medi-Cal managed care plans and local mental health plans.

(e) The department shall allocate the contracted amount at the beginning of the contract period to the mental health plan. The allocated funds shall be considered to be funds of the plan that may be held by the department. The department shall develop a methodology to ensure that these funds are held as the property of the plan and shall not be reallocated by the department or other entity of state government for other purposes.

(f) Beginning in the fiscal year following the transfer of funds from the State Department of Health Services, the state matching funds for Medi-Cal mental health services shall be included in the annual budget for the State Department of Mental Health. The amount included shall be based on historical cost, adjusted for changes in the number of Medi-Cal beneficiaries and other relevant factors.

(g) Initially, the mental health plans shall use the fiscal intermediary of the Medi-Cal program of the State Department of Health Services for the processing of claims for inpatient psychiatric hospital services and may be required to use that fiscal intermediary for the remaining mental health services. The providers for other Short-Doyle Medi-Cal services shall not be initially required to use the fiscal intermediary but may be required to do so on a date to be determined by the department. The department and its mental health plans shall be responsible for the initial incremental increased matching costs of the fiscal intermediary for claims processing and information retrieval associated with the operation of the services funded by the transferred funds.

(h) The mental health plans, subcontractors, and providers of mental health services shall be liable for all federal audit exceptions or disallowances based on their conduct or determinations. The mental health plan contractors shall not be liable for federal audit exceptions or disallowances based on the state's conduct or determinations. The department and the State Department of Health Services shall work jointly with mental health plans in initiating any necessary appeals. The State Department of Health Services may offset the amount of any federal disallowance or audit exception against subsequent claims from the mental health plan or subcontractor. This offset may be done at any time, after the audit exception or disallowance has been withheld from the federal financial participation claim made by the State Department of Health Services. The maximum amount that may be withheld shall be 25 percent of each payment to the plan or subcontractor.

(i) The mental health plans shall have sufficient funds on deposit with the department as the matching funds necessary for federal financial participation to ensure timely payment of claims for acute psychiatric inpatient services and associated administrative days. The department and the State Department of Health Services, in consultation with a statewide organization representing counties, shall establish a mechanism to facilitate timely availability of those funds. Any funds held by the state on behalf of a plan shall be deposited in a mental health managed care deposit fund and shall accrue interest to the plan. The department shall exercise any necessary funding procedures pursuant to Section 12419.5 of the Government Code and Sections 8776.6 and 8790.8 of the State Administrative Manual regarding county claim submission and payment.

(j) (1) The goal for funding of the future capitated system shall be to develop statewide rates for beneficiary, by aid category and with regional price differentiation, within a reasonable time period. The formula for distributing the state matching funds transferred to the State Department of Mental Health for acute inpatient psychiatric services to the participating counties shall be based on the following principles:

(A) Medi-Cal state General Fund matching dollars shall be distributed to counties based on historic Medi-Cal acute inpatient psychiatric costs for the county's beneficiaries and on the number of persons eligible for Medi-Cal in that county.

(B) All counties shall receive a baseline based on historic and projected expenditures up to October 1, 1994.

(C) Projected inpatient growth for the period October 1, 1994, to June 30, 1995, inclusive, shall be distributed to counties below the statewide average per eligible person on a proportional basis. The average shall be determined by the relative standing of the aggregate of each county's expenditures of mental health Medi-Cal dollars per beneficiary. Total Medi-Cal dollars shall include both fee-for-service Medi-Cal and Short-Doyle Medi-Cal dollars for both acute inpatient psychiatric services, outpatient mental health services, and psychiatric nursing facility services, both in facilities that are not designated as institutions for mental disease and for beneficiaries who are under 22 years of age and beneficiaries who are over 64 years of age in facilities that are designated as institutions for mental disease.

(D) There shall be funds set aside for a self-insurance risk pool for small counties. For purposes of this subdivision, "small counties" means counties with less than 200,000 population.

(2) The allocation method for state funds transferred for acute inpatient psychiatric services shall be as follows:

(A) For the 1994–95 fiscal year, an amount equal to 0.6965 percent of the total shall be transferred to a fund established by small counties. This fund shall be used to reimburse mental health plans in small counties for the cost of acute inpatient psychiatric services in excess of the funding provided to the mental health plan for risk reinsurance, acute inpatient psychiatric services and associated administrative days, or for costs associated with the administration of these moneys. The methodology for use of these moneys shall be determined by the small counties, through a statewide organization representing counties, in consultation with the State Department of Mental Health.

(B) The balance of the transfer amount for the 1994–95 fiscal year shall be allocated to counties based on the following formula:

County	Percentage
Alameda	3.5991
Alpine	.0050
Amador	.0490
Butte	.8724

(k) The allocation method for the state funds transferred for subsequent years for acute inpatient psychiatric and other mental health services shall be determined by the State Department of Mental Health in consultation with a statewide organization representing counties.

(*l*) The allocation methodologies described in this section shall only be in effect while federal financial participation is received on a fee-for-service reimbursement basis. When federal funds are capitated, the State Department of Mental Health, in consultation with a statewide organization representing counties, shall determine the methodology for capitation consistent with federal requirements.

(m) The formula that specifies the amount of state matching funds transferred for the remaining Medi-Cal fee-for-service mental health services shall be determined by the department in consultation with a statewide organization representing counties. This formula shall only be in effect while federal financial participation is received on a fee-for-service reimbursement basis.

(n) Upon the transfer of funds from the budget of the State Department of Health Services to the department pursuant to subdivision (d), the department shall assume the applicable program oversight authority formerly provided by the State Department of Health Services, including, but not limited to, the oversight of utilization controls as specified in Section 14133. The mental health plan shall include a requirement in any subcontracts that all inpatient subcontractors maintain necessary licensing and certification. Mental health plans shall require that services delivered by licensed staff are within their scope of practice. Nothing in this part shall prohibit the mental health plans from establishing standards that are in addition to the minimum federal and state requirements, provided that these standards do not violate federal and state Medi-Cal requirements and guidelines.

(o) Subject to federal approval and consistent with state requirements, the mental health plan may negotiate rates with providers of mental health services.

(p) Under the fee-for-service payment system, any excess in the payment set forth in the contract over the expenditures for services by the plan shall be spent for the provision of mental health services and related administrative costs.

(q) Nothing in this part shall limit the mental health plan from being reimbursed appropriate federal financial participation for any qualified services even if the total expenditures for service exceeds the contract amount with the Department of Mental Health. Matching nonfederal public funds shall be provided by the plan for the federal financial participation matching requirement.

SEC. 20. Section 6600.05 is added to the Welfare and Institutions Code, to read:

6600.05. It is the intent of the Legislature that persons committed to a secure facility for mental health treatment pursuant to Section 6600 shall be placed at Atascadero State Hospital in the 1996–97 fiscal year unless there are unique circumstances that would preclude the placement of a person at that facility.

SEC. 21. Section 7200.05 is added to the Welfare and Institutions Code, to read:

7200.05. It is the intent of the Legislature that not more than 227 patients whose placement has been required pursuant to provisions of the Penal Code shall be placed in Metropolitan State Hospital in the 1996–97 fiscal year.

SEC. 22. Section 14005.21 of the Welfare and Institutions Code is amended to read:

14005.21. (a) Any medically needy aged, blind, or disabled person who was categorically needy under this chapter on the basis of eligibility under Chapter 3 (commencing with Section 12000) or Subchapter 16 (commencing with Section 1381) of Chapter 7 of Title 42 of the United States Code for the month of August 1993, and was discontinued as of September 1, 1993, and who, but for the addition of Section 12200.015, would be eligible to receive benefits without a share of cost in September 1993 under this chapter, shall remain eligible to receive benefits without a share of cost under this chapter as if that person were categorically needy as long as he or she meets other applicable requirements.

(b) Any medically needy aged, blind, or disabled person who was eligible for benefits under this chapter as categorically needy or medically needy under subdivision (a) for the month of August 1994, shall not be responsible for paying his or her share of cost if he or she had that eligibility for benefits without a share of cost interrupted or terminated by the addition of Section 12200.017, and if he or she, but for Section 12200.017, would be eligible to continue receiving benefits under this chapter without a share of cost.

(c) Any medically needy aged, blind, or disabled person who was eligible for benefits under this chapter as categorically needy, or as medically needy under subdivision (a) or (b), for the calendar month immediately preceding the date that the reductions in maximum aid

payments for the state supplementary program established in Chapter 3 (commencing with Section 12000) of Part 3 of Division 9 made in the 1995–96 Regular Session of the Legislature are effective shall not be responsible for paying his or her share of cost if he or she had that eligibility for benefits without a share of cost interrupted or terminated by the reductions in maximum aid payments, and if he or she, but for the reductions, would be eligible to continue receiving benefits under this chapter without a share of cost.

(d) Any medically needy aged, blind, or disabled person who was eligible for benefits under this chapter as categorically needy, or as medically needy under subdivisions (a), (b), or (c) for the calendar month immediately preceding the date that the reductions in maximum aid payments for the state supplementary program established in Chapter 3 (commencing with Section 12000) made in the 1996 portion of the 1995-96 Regular Session of the Legislature are effective shall not be responsible for paying his or her share of cost if he or she had that eligibility for benefits without a share of cost interrupted or terminated by the reductions in maximum aid payments, and if he or she, but for these reductions, would be eligible to continue receiving benefits under this chapter without a share of cost.

(e) The department shall implement this section regardless of the availability of federal financial participation for the share of cost paid from state funds pursuant to subdivisions (a), (b), (c), and (d).

SEC. 23. Section 14005.8 of the Welfare and Institutions Code is amended to read:

14005.8. (a) (1) To the extent required by Subchapter XIX (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code and regulations adopted pursuant thereto, a family who was receiving aid pursuant to a state plan approved under Part A of Subchapter IV (commencing with Section 601) of Title 42 of the United States Code in at least three of the six months immediately preceding the month in which that family became ineligible for that assistance due to increased hours of employment, income from employment, or the loss of earned income disregards, shall remain eligible for health care services as provided in this chapter during the immediately succeeding six-month period.

(2) The department shall terminate extensions of health care services authorized by paragraph (1) as required under federal law.

(b) The department shall notify persons eligible under subdivision (a) of their right to continued health care services for each six-month period and a description of their reporting requirement, and the circumstances under which the extension may be terminated. The notice shall also include a Medi-Cal card or other evidence of entitlement to those services.

(c) Notwithstanding any other provision of this section, the department, in conformance with federal law, shall offer beneficiaries covered under subdivision (a) the option of remaining

eligible for health care services provided in this chapter for an additional extension period of six months. Health services shall be continued in as automatic a manner as permitted by federal law, and without any unnecessary paperwork.

(d) During the initial extension period and any additional six-month extension period, the department, consistent with federal law, may, whenever the department determines it to be cost-effective, elect to pay a family's expenses for premiums, deductibles, coinsurance, or similar costs for health insurance or other health coverage offered by an employer of the caretaker relative or by an employer of the absent parent of the dependent child. If, during the additional six-month extension period, the department elects to pay health premiums and this coverage exists, the beneficiary may be given the opportunity to express his or her preference between continuing the Medi-Cal coverage or obtaining health insurance.

(e) During the additional six-month extension period, the department may impose a premium for the health insurance or other health coverage consistent with Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396 et seq.) if the department determines that the imposition of a premium is cost-effective.

(f) The department shall adopt emergency regulations in order to comply with mandatory provisions of Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396 et seq.) for extension of medical assistance. These regulations shall become effective immediately upon filing with the Secretary of State.

(g) This section shall become operative April 1, 1990.

(h) This section shall become inoperative only if, and commencing on the date that, the director executes a declaration, that shall be retained by the director, stating that any federal approval required for federal financial participation in the provision of transitional Medi-Cal benefits pursuant to Section 14005.81, as added during the 1996 portion of the 1995-96 Regular Session, has been obtained, and shall remain inoperative until Section 14005.81 is repealed or the director executes a declaration, that shall be retained by the director, stating that federal financial participation has been withdrawn, whichever occurs first.

SEC. 24. Section 14005.81 is added to the Welfare and Institutions Code, to read:

14005.81. (a) (1) To the extent required by Subchapter XIX (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code and regulations adopted pursuant to that subchapter, a family who was receiving aid pursuant to a state plan approved under Part A (commencing with Section 601) of Subchapter IV of Title 42 of the United States Code in at least three of the six months immediately preceding the month in which that family became ineligible for that assistance due to increased hours of employment, income from employment, or the loss of earned income

disregards, shall remain eligible for health care services as provided in this chapter during the immediately succeeding 6-month period.

(2) The department shall terminate extensions of health care services authorized by paragraph (1) as required under federal law.

(b) The department shall notify each person eligible under subdivision (a) of his or her right to continued health care services for each 6-month period, and shall provide him or her with a description of his or her reporting obligation, and the circumstances under which the extension may be terminated. The notice shall also include a Medi-Cal card or other evidence of entitlement to those services.

(c) Notwithstanding any other provision of this section, the department, in conformance with federal law, shall offer beneficiaries covered under this subdivision (a) the option of remaining eligible for health care services provided in this chapter for up to three additional extension periods of six months each.

(d) Health services shall be continued in as automatic a manner as permitted by federal law, and without any unnecessary paperwork.

(e) During the initial extension period and any additional 6-month extension period, the department, consistent with federal law, may, whenever the department determines it to be cost effective, elect to pay a family's expenses for premiums, deductibles, coinsurance, or similar costs for health insurance or other health coverage offered by an employer of the caretaker relative or by an employer of the absent parent of the dependent child. If, during any additional 6-month extension period, the department elects to pay health premiums and this coverage exists, the beneficiary may be given the opportunity to express his or her preference between continuing the Medi-Cal coverage or obtaining health insurance.

(f) During any additional 6-month extension period, the department may impose a premium for the health insurance or other health coverage consistent with Title XIX of the federal Social Security Act (Subchapter XIX (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code) if the department determines that the imposition of a premium is cost effective.

(g) The department shall, in accordance with the Administrative Procedure Act, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, adopt emergency regulations in order to comply with the requirement set forth in this section for extension of medical assistance. These regulations shall become effective immediately upon filing with the Secretary of State.

(h) No later than October 1, 1996, the director shall seek approval from the United States Department of Health and Human Services for federal financial participation in the implementation of this section.

(i) This section shall become operative only if, and to the extent that, the director executes a declaration that shall be retained by the director, stating that any necessary federal approvals have been obtained and that federal financial participation under Title XIX of the federal Social Security Act, if applicable, has been approved.

SEC. 25. Section 14005.85 of the Welfare and Institutions Code is amended to read:

14005.85. (a) Families who, because of marriage or because separated spouses reunite, lose AFDC eligibility under the chapter because the family no longer meets the need requirement specified in Section 11250 or has increased assets or income, or both, shall be eligible for extended medical benefits as specified under this article for a period not to exceed 12 months.

(b) The department shall seek all federal waivers necessary to implement this section.

(c) This section shall not be implemented until the director has executed a declaration, that shall be retained by the director, that any necessary waivers and federal financial participation have been obtained.

SEC. 26. Section 14021.6 of the Welfare and Institutions Code is amended to read:

14021.6. (a) Subject to the requirements of federal law, the maximum allowable rates for the Medi-Cal Drug Treatment Program shall be determined by computing the median rate from available cost data by modality from the fiscal year that is two years prior to the year for which the rate is being established.

(b) Notwithstanding subdivision (a), for the 1996–97 fiscal year, the rates for nonperinatal outpatient methadone maintenance services shall be set at the rate established for the 1995–96 fiscal year.

(c) Notwithstanding subdivision (a), the maximum allowable rate for group outpatient drug free services shall be set on a per person basis. A group shall consist of a minimum of four and a maximum of 10 individuals, at least one of which shall be a Medi-Cal eligible beneficiary.

(d) The department shall develop individual and group rates for extensive counseling for outpatient drug free treatment, based on a 50-minute individual or a 90-minute group hour, not to exceed the total rate established for subdivision (c).

(e) The department may adopt regulations as necessary to implement subdivisions (a) and (b), or to implement cost containment procedures. These regulations may be adopted as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The adoption of these emergency regulations shall be deemed an emergency necessary for the immediate preservation of the public peace, health and safety, or general welfare.

SEC. 27. Section 14087.305 is added to the Welfare and Institutions Code, to read:

14087.305. (a) In areas specified by the director for expansion of the Medi-Cal managed care program under 14087.3 and where the department is contracting with prepaid health plans or with prepaid health plans that are contracting with, governed, owned, or operated by a county board of supervisors, a county special commission or county health authority authorized by Section 14018.7, 14087.31, 14087.35, 14087.36, 14087.38, and 14087.96, the department shall exclude the Medi-Cal hospice benefit from the list of covered services for which it contracts.

(b) This section shall not apply to managed care contracts signed or in place on July 1, 1996, and any contract in the 12 expansion counties. Medi-Cal beneficiaries eligible for the hospice benefit, and who elect the benefit, shall be provided with the name, address, and telephone number of each licensed hospice provider in their geographic area.

(c) The name, address, and telephone number of each participating hospice shall be made available by contacting the health care options contractor or the health care plan.

(d) Each beneficiary or eligible appliant electing the benefit shall be informed that if he or she fails to make a choice, he or she shall be assigned to, and enrolled in a hospice.

(e) This section shall become inoperative on July 1, 1997, and, as of January 1, 1998, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 1998, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 28. Section 14105.31 of the Welfare and Institutions Code is amended to read:

14105.31. For purposes of the Medi-Cal contract drug list, the following definitions shall apply:

(a) "Single-source drug" means a drug that is produced and distributed under an original New Drug Application approved by the federal Food and Drug Administration. This shall include a drug marketed by the innovator manufacturer and any cross-licensed producers or distributors operating under the New Drug Application, and shall also include a biological product, except for vaccines, marketed by the innovator manufacturer and any cross-licensed producers or distributors licensed by the federal Food and Drug Administration pursuant to Section 262 of Title 42 of the United States Code. A drug ceases to be a single-source drug when the same drug in the same dosage form and strength manufactured by another manufacturer is approved by the federal Food and Drug Administration under the provisions for an Abbreviated New Drug Application.

(b) "Best price" means the negotiated price, or the manufacturer's lowest price available to any class of trade organization or entity, including, but not limited to, wholesalers,

retailers, hospitals, repackagers, providers, or governmental entities within the United States, that contracts with a manufacturer for a specified price for drugs, inclusive of cash discounts, free goods, volume discounts, rebates, and on- or off-invoice discounts or credits, shall be based upon the manufacturer's commonly used retail package sizes for the drug sold by wholesalers to retail pharmacies.

(c) "Equalization payment amount" means the amount negotiated between the manufacturer and the department for reimbursement by the manufacturer, as specified in the contract. The equalization payment amount shall be based on the difference between the manufacturer's direct catalog price charged to wholesalers and the manufacturer's best price, as defined in subdivision (b).

(d) "Manufacturer" means any person, partnership, corporation, or other institution or entity that is engaged in the production, preparation, propagation, compounding, conversion, or processing of drugs, either directly or indirectly by extraction from substances of natural origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis, or in the packaging, repackaging, labeling, relabeling, and distribution of drugs.

(e) "Price escalator" means a mutually agreed upon price specified in the contract, to cover anticipated cost increases over the life of the contract.

(f) "Medi-Cal pharmacy costs" or "Medi-Cal drug costs" means all reimbursements to pharmacy providers for services or merchandise, including single-source or multiple-source prescription drugs, over-the-counter medications, and medical supplies, or any other costs billed by pharmacy providers under the Medi-Cal program.

(g) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 29. Section 14105.33 of the Welfare and Institutions Code is amended to read:

14105.33. (a) The department may enter into contracts with manufacturers of single-source and multiple-source drugs, on a bid or nonbid basis, for drugs from each major therapeutic category, and shall maintain a list of those drugs for which contracts have been executed. It is the intent of the Legislature that, in the implementation of this section during the 1996–97 fiscal year, the director negotiate as aggressively as necessary to achieve the savings related to pharmaceutical contracting identified in the Budget Act of 1996.

(b) (1) Contracts executed pursuant to this section shall be for the manufacturer's best price, as defined in Section 14105.31, which shall be specified in the contract, and subject to agreed upon price escalators, as defined in that section. The contracts shall provide for an equalization payment amount, as defined in Section 14105.31, to

be remitted to the department quarterly. The department shall submit an invoice to each manufacturer for the equalization payment amount, based on utilization data from the department's prescription drug paid claims tapes. The drugs of any manufacturer with an existing contract that does not execute a contract amendment with the department within 60 days of the effective date of the amendment of this section enacted in 1992, pursuant to the requirements of this subdivision as amended, or a manufacturer without an existing contract that does not execute a contract with the department within 60 days of the effective date of this amendment of this section enacted in 1992, pursuant to the requirements of this subdivision as amended, shall be available to Medi-Cal beneficiaries only through prior authorization.

(2) The department shall provide for an annual audit of utilization data used to calculate the equalization amount to verify the accuracy of that data. The findings of the audit shall be documented in a written audit report to be made available to manufacturers within 90 days of receipt of the report from the auditor. Any manufacturer may receive a copy of the audit report upon written request. Contracts between the department and manufacturers shall provide for any equalization payment adjustments determined necessary pursuant to an audit.

(3) Utilization data used to determine an equalization payment amount shall exclude data from both of the following:

(A) Health maintenance organizations, as defined in Section 300e(a) of Title 42 of the United States Code, including those organizations that contract under Section 1396b(m) of Title 42 of the United States Code.

(B) Capitated plans that include a prescription drug benefit in the capitated rate, and that have negotiated contracts for rebates or discounts with manufacturers.

(c) In order that Medi-Cal beneficiaries may have access to a comprehensive range of therapeutic agents, the department shall ensure that there is representation on the list of contract drugs in all major therapeutic categories. Except as provided in subdivision (a) of Section 14105.35, the department shall not be required to contract with all manufacturers who negotiate for a contract in a particular category. The department shall ensure that there is sufficient representation of single-source and multiple-source drugs, as appropriate, in each major therapeutic category.

(d) (1) The department shall select the therapeutic categories to be included on the list of contract drugs, and the order in which it seeks contracts for those categories. The department may establish different contracting schedules for single-source and multiple-source drugs within a given therapeutic category.

(2) The department shall make every attempt to complete the initial contracting process for each major therapeutic category by January 1, 1999.

(e) (1) In order to fully implement subdivision (d), the department shall, to the extent necessary, negotiate or renegotiate contracts to ensure there are as many single-source drugs within each therapeutic category or subcategory as the department determines necessary to meet the health needs of the Medi-Cal population. The department may determine in selected therapeutic categories or subcategories that no single-source drugs are necessary because there are currently sufficient multiple-source drugs in the therapeutic category or subcategory on the list of contract drugs to meet the health needs of the Medi-Cal population. However, in no event shall a beneficiary be denied continued use of a drug which is part of a prescribed therapy in effect as of September 2, 1992, until the prescribed therapy is no longer prescribed.

(2) In the development of decisions by the department on the required number of single-source drugs in a therapeutic category or subcategory, and the relative therapeutic merits of each drug in a therapeutic category or subcategory, the department shall consult with the Medi-Cal Contract Drug Advisory Committee. The committee members shall communicate their comments and recommendations to the department within 30 business days of a request for consultation, and shall disclose any associations with pharmaceutical manufacturers or any remuneration from pharmaceutical manufacturers.

(3) In order to expedite implementation of paragraph (1), the requirements of Sections 14105.37, 14105.38, subdivisions (a), (c), (e), and (f) of Sections 14105.39, 14105.4, and 14105.405 are waived for the purposes of this section until January 1, 1994.

(f) In order to achieve maximum cost savings, the Legislature declares that an expedited process for contracts under this section is necessary. Therefore, contracts entered into on a nonbid basis shall be exempt from Chapter 2 (commencing with Section 10290) of Part 2 of Division 2 of the Public Contract Code.

(g) In no event shall a beneficiary be denied continued use of a drug that is part of a prescribed therapy in effect as of September 2, 1992, until the prescribed therapy is no longer prescribed.

(h) Contracts executed pursuant to this section shall be confidential and shall be exempt from disclosure under the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code).

(i) The department shall provide individual notice to Medi-Cal beneficiaries at least 60 calendar days prior to the effective date of the deletion or suspension of any drug from the list of contract drugs. The notice shall include a description of the beneficiary's right to a fair hearing and shall encourage the beneficiary to consult a physician to determine if an appropriate substitute medication is available from Medi-Cal.

(j) In carrying out the provisions of this section, the department may contract either directly, or through the fiscal intermediary, for

pharmacy consultant staff necessary to initially accomplish the treatment authorization request reviews.

(k) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 30. Section 14105.335 is added to the Welfare and Institutions Code, to read:

14105.335. (a) Effective July 1, 1996, all pharmaceutical manufacturers shall provide the department a supplemental 10 percent rebate in addition to rebates pursuant to other provisions of state or federal law, less any state supplemental rebate currently provided under separate state agreements. The supplemental rebate required under this section shall be required for each prescription drug reimbursed through the Medi-Cal program. This supplemental rebate shall be calculated as 10 percent of the manufacturer's average manufacturer price, as that term is defined in the manufacturer's contract with the Health Care Financing Administration pursuant to Section 1927 of the Social Security Act (42 U.S.C. 1396r-8). Products that have been added to the Medi-Cal list of contract drugs pursuant to Section 14105.43 or 14133.2 do not require a supplemental rebate.

(b) Until such time as a manufacturer executes a contract or contract amendment for the rebates required by subdivision (a), all of that manufacturer's drugs and drug products shall be available to Medi-Cal beneficiaries only through prior authorization.

(c) In carrying out this section, the department may contract either directly, or through the fiscal intermediary, for pharmacy consultant staff necessary to accomplish the treatment authorization request reviews. This authority shall extend until January 1, 1997.

(d) For any drug placed on prior authorization pursuant to subdivision (b), the procedural and notification requirements described in subdivision (i) of Section 14105.33, Sections 14105.37 and 14105.38, subdivisions (a), (c), (e), and (f) of Section 14105.39, and Sections 14105.4 and 14105.405 are waived for the purposes of this section.

(e) This section shall remain in effect only until January 1, 1997, and as of that date, is repealed, unless a later enacted statute that is enacted on or before January 1, 1997, deletes or extends that date.

SEC. 31. Section 14105.35 of the Welfare and Institutions Code is amended to read:

14105.35. (a) (1) On and after July 1, 1990, drugs included on the Medi-Cal drug formulary shall be included on the list of contract drugs until the department and the manufacturer have concluded contract negotiations or the department suspends the drug from the list of contract drugs pursuant to the provisions of this subdivision.

The department shall, in writing, invite any manufacturer with single-source drug products on the formulary as of July 1, 1990, to enter into negotiations relative to the retention of its drug or drugs. As to the issue of cost, the department shall accept the manufacturer's

best price as sufficient for purposes of entering into a contract to retain the drug or drugs on the list of contract drugs.

If the department and a manufacturer enter into a contract for retention of a drug or drugs on the list of contract drugs, the drug or drugs shall be retained on the list of contract drugs for the effective term of the contract.

If a manufacturer refuses to enter into negotiations with the department pursuant to this subdivision, or if after 30 days of negotiation, the manufacturer has not agreed to execute a contract for a drug at the manufacturer's best price, the department may suspend from the list of contract drugs the manufacturer's single-source drug in question for a period of at least 180 days. The department shall lift the suspension upon execution of a contract for that drug. Consistent with the provisions of this section, the department shall delete the Medi-Cal drug formulary specified in paragraphs (b), (c), (d), and (e) of Section 59999 of Title 22 of the California Code of Regulations.

(2) On and after July 1, 1990, the director may retain a drug on the Medi-Cal list of contract drugs even if no contract is executed with a manufacturer, if the director determines that an essential need exists for that drug, and there are no other drugs currently on the formulary that meet that need.

(3) The director may delete a drug from the list of contract drugs if the director determines that the drug presents problems of safety or misuse. The director's decision as to safety shall be based upon published medical literature, and the director's decision as to misuse shall be based on published medical literature and claims data supplied by the fiscal intermediary.

(b) Any reference to the Medi-Cal drug formulary by statute or regulation shall be construed as referring to the list of contract drugs.

(c) (1) Any drug in the process of being added to the formulary by contract agreement pursuant to Section 14105.3, executed prior to the effective date of this section, shall be added to the list of contract drugs.

(2) Contracts pursuant to Section 14105.3 executed prior to January 1, 1991, shall be considered to be contracts executed pursuant to Section 14105.33, and the department shall exempt the drugs included in these contracts from the initial therapeutic category review in which they would normally be considered.

(3) Nothing in this section shall be construed to require the department to discontinue negotiations into which it has entered with any manufacturer as of the effective date of this section. Contracts entered into as a result of these negotiations shall be exempt from the initial therapeutic category review in which they would normally be considered.

(d) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 32. Section 14105.37 of the Welfare and Institutions Code is amended to read:

14105.37. (a) The department shall notify each manufacturer of drugs in therapeutic categories selected pursuant to Section 14105.33 of the provisions of Sections 14105.31 to 14105.42, inclusive.

(b) If, within 45 days of notification, a manufacturer does not enter into negotiations for a contract pursuant to those sections, the department may suspend or delete from the list of contract drugs, or refuse to consider for addition, drugs of that manufacturer in the selected therapeutic categories.

(c) If, after 150 days from the initial notification, a contract is not executed for a drug currently on the list of contract drugs, the department may suspend or delete the drug from the list of contract drugs.

(d) If, within 150 days from the initial notification, a contract is executed for a drug currently on the list of contract drugs, the department shall retain the drug on the list of contract drugs.

(e) If, within 150 days from the date of the initial notification, a contract is executed for a drug not currently on the list of contract drugs, the department shall add the drug to the list of contract drugs.

(f) The department shall terminate all negotiations 150 days after the initial notification.

(g) The department may suspend or delete any drug from the list of contract drugs at the expiration of the contract term or when the contract between the department and the manufacturer of that drug is terminated.

(h) Any drug suspended from the list of contract drugs pursuant to this section or Section 14105.35 shall be subject to prior authorization, as if that drug were not on the list of contract drugs.

(i) Any drug suspended from the list of contract drugs pursuant to this section or Section 14105.35 for at least 12 months may be deleted from the list of contract drugs in accordance with the provisions of Section 14105.38.

(j) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 33. Section 14105.38 of the Welfare and Institutions Code is amended to read:

14105.38. (a) (1) In the event the department determines a drug should be deleted from the list of contract drugs, the department shall conduct a public hearing, as provided in this section, to receive comment on the impact of removing the drug.

(2) (A) The department shall provide written notice 30 days prior to the hearing.

(B) The department shall send the notice required by this subdivision to the manufacturer of the drug proposed to be deleted and to organizations representing Medi-Cal beneficiaries.

(b) (1) The hearing panel shall consist of the Chief, Medi-Cal Drug Discount Program, who shall serve as chair, and the Medi-Cal Contract Drug Advisory Committee.

(2) The hearing shall be recorded and transcribed, and the transcript available for public review.

(3) Subsequent to hearing all public comment, and within 30 days of the hearing, each panel member shall submit a recommendation regarding deletion of the drug and the reason for the recommendation to the director.

(c) The director shall consider public comments provided at the hearing and the recommendations of each panel member in determining whether to delete the drug.

(d) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 34. Section 14105.39 of the Welfare and Institutions Code is amended to read:

14105.39. (a) (1) A manufacturer of a new single-source drug may request inclusion of its drug on the list of contract drugs pursuant to Section 14105.33 provided all of the following conditions are met:

(A) The request is made within 12 months of approval for marketing by the federal Food and Drug Administration.

(B) The manufacturer agrees to negotiate a contract with the department to provide the drug at the manufacturer's best price.

(C) (i) The manufacturer provides the department with necessary information, as specified by the department, in the request.

(ii) Notwithstanding clause (i), either of the following may be submitted by the manufacturer in lieu of the Summary Basis of Approval prepared by the federal Food and Drug Administration for that drug:

(I) The federal Food and Drug Administration's approval or approvable letter for the drug and federal Food and Drug Administration's approved labeling.

(II) The federal Food and Drug Administration's medical officers' and pharmacologists' reviews and the federal Food and Drug Administration's approved labeling.

(D) The department had concluded contracting for the therapeutic category in which the drug is included prior to approval of the drug by the federal Food and Drug Administration.

(2) Within 90 days from receipt of the request, the department shall evaluate the request using the criteria identified in subdivision (d), and shall submit the drug to the Medi-Cal Contract Drug Advisory Committee.

(b) Any petition for the addition to or deletion of a drug to the Medi-Cal drug formulary submitted prior to July 31, 1990, shall be deemed to be denied. A manufacturer who has submitted a petition

deemed denied may request inclusion of that drug on the list of contract drugs provided all of the following conditions are met:

(1) The manufacturer agrees to negotiate for a contract with the department to provide the drug at the manufacturer's best price.

(2) The manufacturer provides the department with necessary information, as specified by the department, in the request.

(3) The manufacturer submits the request to the department prior to October 1, 1990.

(c) Any new drug designated as having an important therapeutic gain and approved for marketing by the federal Food and Drug Administration on or after July 31, 1990, shall immediately be included on the list of contract drugs for a period of three years provided that all of the following conditions are met:

(1) The manufacturer offers the department its best price.

(2) The drug is typically administered in an outpatient setting.

(3) The drug is prescribed only for the indications and usage specified in the federal Food and Drug Administration approved labeling.

(4) The drug is determined by the director to be safe, relative to other drugs in the same therapeutic category on the list of contract drugs.

(d) (1) To ensure that the health needs of Medi-Cal beneficiaries are met consistent with the intent of this chapter, the department shall, when evaluating a decision to execute a contract, and when evaluating drugs for retention on, addition to, or deletion from, the list of contract drugs, use all of the following criteria:

(A) The safety of the drug.

(B) The effectiveness of the drug.

(C) The essential need for the drug.

(D) The potential for misuse of the drug.

(E) The cost of the drug.

(2) The deficiency of a drug when measured by one of these criteria may be sufficient to support a decision that the drug should not be added or retained, or should be deleted from the list. However, the superiority of a drug under one criterion may be sufficient to warrant the addition or retention of the drug, notwithstanding a deficiency in another criterion.

(e) (1) A manufacturer of single-source drugs denied a contract pursuant to this section or Section 14105.33 or 14105.37, may file an appeal of that decision with the director within 30 calendar days of the department's written decision.

(2) Within 30 calendar days of the manufacturer's appeal, the director shall request a recommendation regarding the appeal from the Medi-Cal Contract Drug Advisory Committee. The committee shall provide its recommendation in writing, within 30 calendar days of the director's request.

(3) The director shall issue a final decision on the appeal within 30 calendar days of the recommendation.

(f) Deletions made to the list of contract drugs, including those made pursuant to Section 14105.37, shall become effective no sooner than 30 days after publication of the changes in provider bulletins.

(g) Changes made to the list of contract drugs under this or any other section are exempt from the requirements of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), Chapter 4 (commencing with Section 11370), and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code), and shall not be subject to the review and approval of the Office of Administrative Law.

(h) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 35. Section 14105.4 of the Welfare and Institutions Code, as amended by Section 8 of Chapter 723 of the Statutes of 1992, is amended to read:

14105.4. (a) The director shall appoint a Medi-Cal Contract Drug Advisory Committee for the purpose of providing scientific and medical analysis on drugs contained on the list of contract drugs. The duties of the committee shall be as follows:

(1) To review drugs in the Medi-Cal list of contract drugs and make written recommendations to the director as to the addition of any drug or the deletion of any drug from the list. These recommendations shall be in accordance with subdivision (d) of Section 14105.39.

(2) To review and report in writing to the director as to the comparative therapeutic effect of drugs in accordance with Section 14053.5.

(3) To prepare a fair, impartial, and independent recommendation in writing, regarding appeals from manufacturers made pursuant to subdivision (e) of Section 14105.39.

(b) The committee shall consist of at least one representative from each of the following groups:

(1) Physicians.

(2) Pharmacists.

(3) Schools of pharmacy or pharmacologists.

(4) Medi-Cal beneficiaries.

(c) Members of the committee shall be reimbursed for necessary travel and other expenses incurred in the performance of official committee duties.

(d) In order to provide sufficient scientific information and analysis in the therapeutic categories under review, the director may replace a representative if required for specific expertise.

(e) The director shall notify the committee of the decisions made on the recommendations.

(f) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 36. Section 14105.4 of the Welfare and Institutions Code, as amended by Section 9 of Chapter 723 of the Statutes of 1992, is amended to read:

14105.4. (a) The department shall schedule and conduct a public regulatory hearing to consider the addition of a drug to, or the deletion of a drug from, the Medi-Cal drug formulary five working days subsequent to the Medical Therapeutic and Drug Advisory Committee meeting which shall meet at least every four months. The public hearing may consist of written testimony only, and the hearing record shall be closed at the end of the public hearing.

(b) The department shall make available 45 days prior to the public hearing the department's estimate of any anticipated costs or savings to the state from adding a drug product to, or deleting a drug product from, the Medi-Cal drug formulary.

(c) Whenever the department accepts a completed petition to add a drug product to the Medi-Cal drug formulary and it is not processed pursuant to Section 14105.9, it shall be scheduled for review at the next regularly scheduled Medical Therapeutic and Drug Advisory Committee meeting and public regulatory hearing, unless the meeting and hearing are scheduled to occur within 120 days, in which case the drug product may be scheduled for the following hearing.

(d) The director shall issue a final decision regarding the drug product and shall submit any regulation adding a drug product to, or deleting a drug product from, the Medi-Cal drug formulary to the Office of Administrative Law, along with the completed rulemaking record, within seven months after the hearing prescribed in subdivision (a). This section shall not, however, be construed in a manner which results in the disapproval or invalidation of a regulation for failure to comply with the time frames prescribed in this subdivision and subdivisions (a) and (c).

(e) (1) Except as provided in paragraph (2), the criteria used by the department in deciding whether a drug product shall be added to or deleted from the formulary shall be limited to the criteria adopted as department regulations. The criteria shall be specific and unambiguous.

(2) Notwithstanding paragraph (1), either of the following may be submitted by the manufacturer in lieu of the Summary Basis of Approval prepared by the federal Food and Drug Administration for that drug:

(A) The federal Food and Drug Administration's approval or approvable letter for the drug and federal Food and Drug Administration's approved labeling.

(B) The federal Food and Drug Administration's medical officers' and pharmacologists' reviews and the federal Food and Drug Administration's approved labeling.

(f) Departmental requests for information from persons filing drug petitions to which this section applies shall be specific and

unambiguous and shall be made solely for the purpose of addressing the criteria utilized in accordance with subdivision (e).

(g) All published studies received by the department pursuant to a drug petition prior to the close of the public regulatory hearing record shall be accepted and considered by the department.

(h) Whenever the director decides to reject a petition to add a drug product to, or delete a drug product from, the formulary, the director shall notify the petitioner directly and in writing indicating the reason and specifying the criteria utilized in reaching the decision.

(i) The department shall accept a petition for a drug that has been rejected by the director upon the submission of another complete petition containing substantial new information that addresses the reason or reasons for rejection stated by the director pursuant to subdivision (h). Any petition accepted pursuant to this subdivision shall be processed in accordance with subdivision (c), or Section 14105.9, whichever is applicable.

(j) This section shall become operative on January 1, 1999.

SEC. 37. Section 14105.405 of the Welfare and Institutions Code is amended to read:

14105.405. (a) A Medi-Cal beneficiary, within 90 days of receipt of the director's notice to beneficiaries pursuant to subdivision (g) of Section 14105.33, informing them of the decision to delete or suspend a drug from the list of contract drugs, may request a fair hearing pursuant to Chapter 7 (commencing with Section 10950) of Part 2.

(b) Any beneficiary filing a fair hearing request regarding the deletion or suspension of a drug from the formulary shall be granted a treatment authorization request for that drug until a final decision is adopted by the director. Should the beneficiary seek judicial review of the director's decision, a treatment authorization request shall be granted for that drug until a final decision is issued by the court.

(c) (1) Any Medi-Cal beneficiary, within one year of the director's decision pursuant to Section 10959, may file a petition with the superior court, under the provisions of Section 1094.5 of the Code of Civil Procedure, praying for a review of both the legal and factual basis for the director's decision.

(2) The director shall be the sole respondent in these proceedings.

(d) Any Medi-Cal beneficiary injured as a result of being denied a drug which is determined to be medically necessary may sue for injunctive or declaratory relief to review the director's decision to delete or suspend a drug from the list of contract drugs.

(e) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 38. Section 14105.41 of the Welfare and Institutions Code, as amended by Section 11 of Chapter 723 of the Statutes of 1992, is amended to read:

14105.41. (a) Moneys accruing to the department from contracts executed pursuant to Section 14105.33 shall be deposited in the Health Care Deposit Fund, and shall be subject to appropriation by the Legislature.

(b) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 39. Section 14105.41 of the Welfare and Institutions Code, as amended by Section 97 of Chapter 938 of the Statutes of 1995, is amended to read:

14105.41. (a) For the purpose of adding drugs to, or deleting drugs from, the Medi-Cal drug formulary as described in Section 14105.4, whether pursuant to a petition or by the department independent of a petition, all of the requirements of the Administrative Procedure Act contained in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable except that the requirements of subdivision (a) of Section 11340.7 and subdivision (a) of Section 11346.9 of the Government Code shall be deemed to have been complied with if the department does all of the following:

(1) Upon receipt of a petition requesting the addition of a drug to, or the deletion of a drug from, the Medi-Cal drug formulary, the department shall notify the petitioner directly and in writing of the receipt of the petition and shall, within 30 days, either return the petition as incomplete or schedule the petition for public hearing, unless the public hearing is not required pursuant to Section 14105.9.

(2) Notifies each petitioner directly and in writing of its decision regarding the addition of a drug product to, or deletion of a drug product from, the formulary and shall state the reason or reasons for its decision and the specific regulatory criteria that are the basis of the department's decision.

(3) Prepares and submits to the Office of Administrative Law with the adopted regulation all of the following for each drug which the department has decided to add to, or delete from, the Medi-Cal drug formulary:

(A) A brief summary of the comments submitted. For the purpose of this section, "comments" shall mean the major points raised in testimony which specifically address the regulatory criteria upon which the department is authorized, pursuant to subdivision (e) of Section 14105.4, to base a decision to add or delete a drug from the formulary.

(B) The recommendation of the Medical Therapeutic and Drug Advisory Committee.

(C) The decision of the department.

(D) A statement of the reason and the specific regulatory criteria that are the basis of the department's decision.

(b) Any additional information provided to the department during the posting of revisions to the proposed regulation shall be

responded to by the department directly and in writing to the originator. That response shall notify the originator whether the additional information has resulted in a changed decision.

(c) For the purpose of review by the court, if any, and review and approval by the Office of Administrative Law of changes to the Medi-Cal drug formulary adopted by the department, each drug added to, or deleted from, the formulary shall be considered to be a separate regulation and shall be severable from all other additions or deletions of drugs contained in the rulemaking file.

(d) This section shall be applicable to any Medi-Cal drug formulary regulation package filed with the Office of Administrative Law on or after January 1, 1999.

(e) This section shall become operative on January 1, 1999.

SEC. 40. Section 14105.42 of the Welfare and Institutions Code, as amended by Chapter 716 of the Statutes of 1992, is amended to read:

14105.42. (a) The department shall report to the Legislature after the first three major therapeutic categories have been reviewed and contracts executed. The report shall include the estimated savings, number of manufacturers entering negotiations, number of contracts executed, number of drugs added and deleted, and impact on Medi-Cal beneficiaries and providers.

(b) The department shall provide the following data to the Legislature and to the Auditor General by January 1, 1991, and every six months thereafter:

(1) The number of drug treatment authorization requests (TAR) received by facsimile, by secondary answering system and in person for each therapeutic category.

(2) The number of drug TARS requested, approved, denied, and returned.

(3) The length of time between the TAR request and the decision, specified by type of communication such as telephone or facsimile if available.

(4) For denied TARS, the number of fair hearings requested, approved, denied and pending.

(5) The numbers of providers who were unable to submit a request or made multiple attempts because of faulty or unavailable lines of communication, if available.

(6) The numbers of complaints made by beneficiaries and providers relating to difficulty or inability to obtain a TAR response.

(7) The status of the enhancements to the TAR process specified in Section 21 of Chapter 457 of the Statutes of 1990.

(8) The number of calls on the TAR line which are not getting through.

(c) The Auditor General shall prepare a report by February 1, 1991, and every six months thereafter providing a summary and analysis of the data specified in subdivision (b), and a comparative analysis of changes in the TAR process using June 1, 1990, as a base. The analysis shall include a measure of increased or decreased ability

to contact the department and receive a response in a shorter or greater period of time.

(d) The Bureau of State Audits shall prepare a report by January 1, 1998, on the drug program management techniques of the drug contracting program, and the comparability of the program to other private sector third party payers. In completing its report the bureau may consult with the department, prescribing physicians, pharmacists, drug manufacturers, representatives of beneficiaries, and others as the bureau sees fit.

(e) The department shall report to the Legislature, through the annual budget process, on the cost effectiveness of contracts executed pursuant to Section 14105.33.

(f) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 41. Section 14105.91 of the Welfare and Institutions Code is amended to read:

14105.91. The department may add a drug to the formulary which is a different dosage form, or strength of a drug product which is listed in the formulary without review by the Medical Therapeutics and Drug Advisory Committee and the addition shall be deemed to comply with the requirements of the California Administrative Procedures Act.

This section shall become operative on January 1, 1999.

SEC. 42. Section 14105.915 of the Welfare and Institutions Code is amended to read:

14105.915. The department may remove any drug from the formulary at the expiration of the contract term or when the contract between the department and the manufacturer of that drug is terminated.

This section shall become operative on January 1, 1999.

SEC. 43. Section 14105.916 of the Welfare and Institutions Code is amended to read:

14105.916. Notwithstanding any other provision of law, on and after January 1, 1999, drugs on the Medi-Cal list of contract drugs shall become the Medi-Cal drug formulary.

SEC. 43.5. Section 14132.44 of the Welfare and Institutions Code is amended to read:

14132.44. (a) Targeted case management (TCM), pursuant to Section 1915(g) of the Social Security Act as amended by Public Law 99-272 (42 U.S.C. Sec. 1396n(g)), shall be covered as a benefit, effective January 1, 1995. Nothing in this section shall be construed to require any local governmental agency to implement TCM.

(b) A TCM provider furnishing TCM services shall be a local governmental agency under contract with the department to provide TCM services. Local educational agencies shall not be providers of case management services under this section.

(c) A TCM provider may contract with a nongovernmental entity or the University of California, or both, to provide TCM services on its behalf under the conditions specified by the department in regulations.

(d) Each TCM provider shall have all of the following:

(1) Established procedures for performance monitoring.

(2) A countywide system to prevent duplication of services and to ensure coordination and continuity of care among providers of case management services provided to beneficiaries who are eligible to receive case management services from two or more programs.

(3) A fee mechanism effective January 1, 1995, specific to TCM services provided, which may vary by program.

(e) A TCM service provider, a nongovernmental entity or the University of California, or both, under contract with a TCM provider may provide TCM services to one or all of the following groups of Medi-Cal beneficiaries, which shall be defined in regulation:

(1) High-risk persons.

(2) Persons who have language or other comprehension barriers.

(3) Persons on probation.

(4) Persons who have exhibited an inability to handle personal, medical, or other affairs.

(5) Persons abusing alcohol or drugs, or both.

(6) Adults at risk of institutionalization.

(7) Adults at risk of abuse or neglect.

(f) (1) A local governmental agency that elects to provide TCM services to the groups specified in subdivision (e) shall, for each fiscal year, for the purpose of obtaining federal medicaid matching funds, submit an annual cost report as prescribed by the department that certifies all of the following:

(A) The availability and expenditure of 100 percent of the nonfederal share for the provision of TCM services from the local governmental agency's general fund or from any other funds allowed under federal law and regulation.

(B) The amount of funds expended on allowable TCM services.

(C) Its expenditures represent costs that are eligible for federal financial participation.

(D) The costs reflected in the annual cost reports used to determine TCM rates are developed in compliance with the definitions contained in the Office of Management and Budget (OMB) Circular A-87.

(E) Case management services provided in accordance with Section 1396n(g) of Title 42 of the United States Code will not duplicate case management services provided under any home- and community-based services waiver.

(F) Claims for providing case management services pursuant to this section will not duplicate claims made to public agencies or private entities under other program authorities for the same purposes.

(G) The requirements of subdivision (d) have been met.

(2) The department shall deny any claim if it determines that any certification required by this subdivision is not adequately supported for purposes of federal financial participation.

(g) Only a local governmental agency may submit TCM service claims to the department for the performance of TCM services.

(h) During the period from January 1, 1995, through June 30, 1995, TCM services shall be reimbursed according to the interim mechanism developed by the state and the Health Care Financing Administration, which is reflected in the document entitled "Agreement Between the Health Care Financing Administration and the State of California, Department of Health Services." For the 1995–96 fiscal year, the department shall establish an initial rate of reimbursement. Effective July 1, 1996, and thereafter, TCM services shall be reimbursed in accordance with regulations that shall be adopted by the department.

(i) The department, in consultation with local governmental agencies, and consistent with federal regulations, and the State Medicaid Manual of the Department of Health and Human Services, Health Care Financing Administration, shall adopt regulations that define TCM services, establish the standards under which TCM services qualify as a Medi-Cal reimbursable service, prescribe the methodology for determining the rate of reimbursement, and establish a claims submission and processing system and method to certify local matching expenditures.

(j) (1) Notwithstanding any other provision of this section, the state shall be held harmless, in accordance with paragraphs (2) and (3) from any federal audit disallowance and interest resulting from payments made by the federal medicaid program as reimbursement for claims for providing TCM services pursuant to this section, less the amounts already remitted to the state pursuant to subdivision (m) for the disallowed claim.

(2) To the extent that a federal audit disallowance and interest results from a claim or claims for which any local governmental agency has received reimbursement for TCM services, the department shall recoup from the local governmental agency that submitted that disallowed claim, through offsets or by a direct billing, amounts equal to the amount of the disallowance and interest, in that fiscal year, less the amounts already remitted to the state pursuant to subdivision (m) for the disallowed claim. All subsequent claims submitted to the department applicable to any previously disallowed claim, may be held in abeyance, with no payment made, until the federal disallowance issue is resolved.

(3) Notwithstanding paragraphs (1) and (2), to the extent that a federal audit disallowance and interest results from a claim or claims for which the local governmental agency has received reimbursement for TCM services performed by a nongovernmental entity or the University of California, or both, under contract with,

and on behalf of, the participating local governmental agency, the department shall be held harmless by that particular local governmental agency for 100 percent of the amount of any such federal audit disallowance and interest, less the amounts already remitted to the state pursuant to subdivision (m) for the disallowed claim.

(k) The use of local matching funds required by this section shall not create, lead to, or expand the health care funding obligations or service obligations for current or future years for each local governmental agency, except as required by this section or as may be required by federal law.

(*l*) TCM services are services which assist beneficiaries to gain access to needed medical, social, educational, and other services. Services provided by TCM providers, and their subcontractors, shall be defined in regulation, and shall include at least one of the following:

(1) Assessment.
(2) Plan development.
(3) Linkage and consultation.
(4) Assistance in accessing services.
(5) Periodic review.
(6) Crisis assistance planning.

(m) (1) Each local government agency shall contribute to the department a portion of the agency's general fund that has been made available due to the coverage of services described in this section under the Medi-Cal program. The contributed funds shall be reinvested in health services through the Medi-Cal program. The total contribution amount shall be equal to $33^1/_3$ percent of the amounts that have been made available under this section, but in no case shall this contribution exceed twenty million dollars ($20,000,000) in a fiscal year less the amount contributed pursuant to subdivision (m) of Section 14132.47. Beginning with the 1994–95 fiscal year, each local governmental agency's share of the total contribution shall be determined by claims submitted and approved for payment through January 1 of the following calendar year. Claims received and approved for payment after January 1 for dates of service in the previous fiscal year shall be included in the following year's calculation. Each local governmental agency's share of the contribution for the previous fiscal year shall be determined no later than February 15 and shall be remitted to the state no later than April 1 of each year. The contribution amount shall be paid from nonfederal, general fund revenues, and shall be deposited in the Targeted Case Management Claiming Fund, which is hereby created, for transfer to the Health Care Deposit Fund.

(2) Moneys received by the department pursuant to this subdivision are hereby continuously appropriated, notwithstanding Section 13340 of the Government Code, to the department for the support of the Medi-Cal program, and the funds shall be

administered in accordance with procedures prescribed by the Department of Finance. If not paid as provided in this section, the department may offset payments due to each local governmental agency from the state, not related to payments required to be made pursuant to this section, in order to recoup these funds for the Targeted Case Management Claiming Fund.

(n) As a condition of participation and in consideration of the joint effort of the local governmental agencies and the department in implementing this section and the ongoing need of local governmental agencies to receive technical support from the department, as well as assistance in claims processing and program monitoring, the local governmental agencies shall cover the costs of the administrative activities performed by the department. Each local governmental agency shall annually pay a portion of the total costs of administrative activities performed by the department through a mechanism agreed to by the department and the local governmental agencies, or if no agreement is reached by August 1 of each year, directly to the state. The department shall determine and report the staffing requirements upon which projected costs will be based. Projected costs shall include the anticipated salaries, benefits, and operating expenses necessary to administer targeted case management.

(o) For the purposes of this section a "local governmental agency" means a county or chartered city.

SEC. 44. Section 14132.47 of the Welfare and Institutions Code is amended to read:

14132.47. (a) It is the intent of the Legislature to provide local governmental agencies the choice of participating in either or both of the Targeted Case Management (TCM) and Administrative Claiming process programs at their option, subject to the requirements of this section and Section 14132.44.

(b) The department may contract with each participating local governmental agency to assist with the performance of administrative activities necessary for the proper and efficient administration of the Medi-Cal program, pursuant to Section 1396b(a) of Title 42 of the United States Code, Section 1903a of the federal Social Security Act, and this activity shall be known as the Administrative Claiming process.

(c) (1) As a condition for participation in the Administrative Claiming process, each participating local governmental agency shall, for the purpose of claiming federal medicaid matching funds, enter into a contract with the department and shall certify to the department the amount of local governmental agency general funds or any other funds allowed under federal law and regulation expended on the allowable administrative activities.

(2) The department shall deny the claim if it determines that the certification is not adequately supported for purposes of federal financial participation.

(d) Each participating local governmental agency may subcontract with nongovernmental entities to assist with the performance of administrative activities necessary for the proper and efficient administration of the Medi-Cal program under the conditions specified by the department in regulations. A nongovernmental entity may include a local educational agency.

(e) Each Administrative Claiming process contract shall include a requirement that each participating local governmental agency submit a claiming plan in a manner that shall be prescribed by the department in regulations, developed in consultation with local governmental agencies.

(f) The department shall require that each participating local governmental agency certify to the department both of the following:

(1) The availability and expenditure of 100 percent of the nonfederal share of the cost of performing Administrative Claiming process activities. The funds expended for this purpose shall be from the local governmental agency's general fund or from any other funds allowed under federal law and regulation.

(2) In each fiscal year that its expenditures represent costs that are eligible for federal financial participation for that fiscal year. The department shall deny the claim if it determines that the certification is not adequately supported for purposes of federal financial participation.

(g) (1) Notwithstanding any other provision of this section, the state shall be held harmless, in accordance with paragraphs (2) and (3), from any federal audit disallowance and interest resulting from payments made to a participating local governmental agency pursuant to this section, less the amounts already remitted to the state pursuant to subdivision (m) for the disallowed claim.

(2) To the extent that a federal audit disallowance and interest results from a claim or claims for which any participating local governmental agency has received reimbursement for Administrative Claiming process activities, the department shall recoup from the local governmental agency that submitted the disallowed claim, through offsets or by a direct billing, amounts equal to the amount of the disallowance and interest, in that fiscal year, less the amounts already remitted to the state pursuant to subdivision (m) for the disallowed claim. All subsequent claims submitted to the department applicable to any previously disallowed administrative activity or claim, may be held in abeyance, with no payment made, until the federal disallowance issue is resolved.

(3) Notwithstanding paragraph (2), to the extent that a federal audit disallowance and interest results from a claim or claims for which the participating local governmental agency has received reimbursement for Administrative Claiming process activities performed by a nongovernmental entity under contract with, and on behalf of, the participating local governmental agency, the

department shall be held harmless by that particular participating local governmental agency for 100 percent of the amount of any such federal audit disallowance and interest, less the amounts already remitted to the state pursuant to subdivision (m) for the disallowed claim.

(h) The use of local matching funds required by this section shall not create, lead to, or expand the health care funding obligations or service obligations for current or future years for any participating local governmental agency, except as required by this section or as may be required by federal law.

(i) The department shall deny any claim from a participating local governmental agency if the department determines that the claim is not adequately supported in accordance with criteria established pursuant to this subdivision and implementing regulations before it forwards such a claim for reimbursement to the federal medicaid program. In consultation with local government agencies, the department shall adopt regulations that prescribe the requirements for the submission and payment of claims for administrative activities performed by each participating local agency.

(j) Administrative activities shall be those determined by the department to be necessary for the proper and efficient administration of the state's medicaid plan and shall be defined in regulation.

(k) If the department denies any claim submitted under this section, the affected participating local governmental agency may, within 30 days after receipt of written notice of the denial, request that the department reconsider its action. The participating local governmental agency may request a meeting with the director or his or her designee within 30 days to present its concerns to the department after the request is filed. If the director or his or her designee cannot meet, the department shall respond in writing indicating the specific reasons for which the claim is out of compliance to the participating local governmental agency in response to its appeal. Thereafter, the decision of the director shall be final.

(*l*) Participating local governmental agencies may claim the actual costs of nonemergency, nonmedical transportation of Medi-Cal eligibles to Medi-Cal covered services, under guidelines established by the department, to the extent that these costs are actually borne by the participating local governmental agency.

(m) (1) Each participating local governmental agency shall contribute to the department a portion of the agency's general fund that has been made available due to the coverage of administrative activities described in this section under the Medi-Cal program. The contributed funds shall be reinvested in health services through the Medi-Cal program. The total contribution amount shall be equal to $33\ ^1/_3$ percent of amounts made available under this section, but in no case shall the contribution exceed twenty million dollars

($20,000,000) a fiscal year less the amount contributed pursuant to subdivision (m) of Section 14132.44. Beginning with the 1994–95 fiscal year, each local governmental agency's share of the total contribution shall be determined by claims submitted and approved for payment through January 1 of the following calendar year. Claims received and approved for payment after January 1 for dates of service in the previous fiscal year shall be included in the following year's calculation. Each local governmental agency's share of the contribution for the previous fiscal year shall be determined no later than February 15 and shall be remitted to the state no later than April 1 of each year. The contribution amount shall be paid from nonfederal, general fund revenues and shall be deposited in the Administrative Claiming Fund for transfer to the Health Care Deposit Fund.

(2) Moneys received by the department pursuant to this subdivision are hereby continuously appropriated to the department for support of the Medi-Cal program, and the funds shall be administered in accordance with procedures prescribed by the Department of Finance. If not paid as provided in this section, the department may offset payments due to each participating local governmental agency from the state, not related to payments required to be made pursuant to this section in order to recoup these funds for the Administrative Claiming Fund.

(n) As a condition of participation in the Administrative Claiming process and in recognition of revenue generated to each participating local governmental agency in the Administrative Claiming process, each participating local governmental agency shall pay an annual participation fee through a mechanism agreed to by the state and local governmental agencies, or, if no agreement is reached by August 1 of each year, directly to the state. The participation fee shall be used to cover the cost of administering the Administrative Claiming process, including, but not limited to, claims processing, technical assistance, and monitoring. The department shall determine and report staffing requirements upon which projected costs will be based. The amount of the participation fee shall be based upon the anticipated salaries, benefits, and operating expenses, to administer the Administrative Claiming process and other costs related to that process.

(o) For the purposes of this section "participating local governmental agency" means a county or chartered city under contract with the department pursuant to subdivision (b).

(p) For the purposes of this section, a "nongovernmental entity" does not include an entity or person administered by, affiliated with, or employed by a participating local governmental agency.

(q) The requirements of subdivision (m) shall not apply to claims for administrative activities, pursuant to the Administrative Claiming process, performed by public health programs administered by the state.

(r) A participating local governmental agency may charge an administrative fee to any entity claiming Administrative Claiming through that agency.

(s) The department shall continue to administer the Administrative Claiming process in conformity with federal requirements.

(t) The department shall provide technical assistance to all participating local governmental agencies in order to maximize federal financial participation in the Administrative Claiming process.

(u) This section shall be applicable to Administrative Claiming process activities performed, and to moneys paid to participating local governmental agencies for those activities, in the 1994–95 fiscal year and thereafter.

SEC. 45. Section 14132.90 of the Welfare and Institutions Code is amended to read:

14132.90. (a) As of September 15, 1995, day care habilitative services, pursuant to subdivision (c) of Section 14021 shall be provided only to alcohol and drug exposed pregnant women and women in the postpartum period, or as required by federal law.

(b) (1) Notwithstanding any other provision of law, except to the extent required by federal law, if, as of May 15, 1997, the projected costs for the 1996–97 fiscal year for outpatient drug abuse services, as described in Section 14021, exceed forty-five million dollars ($45,000,000) in state General Fund moneys, then the outpatient drug free services, as defined in Section 51341.1 of Title 22 of the California Code of Regulations, shall not be a benefit under this chapter as of July 1, 1997.

(2) Notwithstanding paragraph (1), outpatient methadone maintenance and Naltrexone shall remain benefits under this chapter.

(3) Notwithstanding paragraph (1), residential care, outpatient drug free services, and day care habilitative services, for alcohol and drug exposed pregnant women and women in the postpartum period shall remain benefits under this chapter.

SEC. 46. Section 14133.22 of the Welfare and Institutions Code is amended to read:

14133.22. (a) Prescribed drugs shall be limited to no more than six per month, unless prior authorization is obtained.

(b) The limit in subdivision (a) shall not apply to patients receiving care in a nursing facility.

(c) The limit in subdivision (a) shall not apply to drugs for family planning.

(d) The department may issue Medi-Cal cards that contain labels for prescribed drugs to implement this section.

(e) In carrying out this section, the department may contract either directly, or through the fiscal intermediary, for pharmacy

consultant staff necessary to accomplish the treatment authorization request reviews.

SEC. 47. Section 14148.5 of the Welfare and Institutions Code is amended to read:

14148.5. (a) State funded perinatal services shall be provided under the Medi-Cal program to pregnant women and state funded medical services to infants up to one year of age in families with incomes above 185 percent, but not more than 200 percent of the federal poverty level, in the same manner that these services are being provided to the Medi-Cal population, including eligibility requirements and integration of eligibility determinations and payment of claims, except as follows:

(1) The assets of the family shall not be considered in making the eligibility determination.

(2) The income deduction specified in subdivision (f) of Section 14148 shall not be applied.

(b) Services provided under this section shall not be subject to any share-of-cost requirements.

(c) (1) The department, in implementing the Medi-Cal program and public health programs, in coordination with the Major Risk Medical Insurance Programs Access for Infants and Mothers component shall provide for outreach activities in order to enhance participation and access to perinatal services. Funding received pursuant to the federal provisions shall be used to expand perinatal outreach activities.

(2) Those outreach activities required by paragraph (1) shall be targeted toward both Medi-Cal and non-Medi-Cal eligible high risk or uninsured pregnant women and infants. Outreach activities may include, but not be limited to, all of the following:

(A) Education of the targeted women on the availability and importance of early prenatal care and referral to Medi-Cal and other programs.

(B) Information provided through toll-free telephone numbers.

(C) Recruitment and retention of perinatal providers.

(d) Notwithstanding any other provision of law, contracts required to implement the provisions of this section shall be exempt from the approval of the Director of General Services and from the provisions of the Public Contract Code.

(e) The programs authorized in this section shall be operative for the entire 1996–97 fiscal year.

SEC. 48. Section 14163 of the Welfare and Institutions Code is amended to read:

14163. (a) For purposes of this section, the following definitions shall apply:

(1) "Public entity" means a county, a city, a city and county, the University of California, a local hospital district, a local health authority, or any other political subdivision of the state.

(2) "Hospital" means a health facility that is licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code to provide acute inpatient hospital services, and includes all components of the facility.

(3) "Disproportionate share hospital" means a hospital providing acute inpatient services to Medi-Cal beneficiaries that meets the criteria for disproportionate share status relating to acute inpatient services set forth in Section 14105.98.

(4) "Disproportionate share list" means the annual list of disproportionate share hospitals for acute inpatient services issued by the department pursuant to Section 14105.98.

(5) "Fund" means the Medi-Cal Inpatient Payment Adjustment Fund.

(6) "Eligible hospital" means, for a particular state fiscal year, a hospital on the disproportionate share list that is eligible to receive payment adjustment amounts under Section 14105.98 with respect to that state fiscal year.

(7) "Transfer year" means the particular state fiscal year during which, or with respect to which, public entities are required by this section to make an intergovernmental transfer of funds to the Controller.

(8) "Transferor entity" means a public entity that, with respect to a particular transfer year, is required by this section to make an intergovernmental transfer of funds to the Controller.

(9) "Transfer amount" means an amount of intergovernmental transfer of funds that this section requires for a particular transferor entity with respect to a particular transfer year.

(10) "Intergovernmental transfer" means a transfer of funds from a public entity to the state, that is local government financial participation in Medi-Cal pursuant to the terms of this section.

(11) "Licensee" means an entity that has been issued a license to operate a hospital by the department.

(12) "Annualized Medi-Cal inpatient paid days" means the total number of Medi-Cal acute inpatient hospital days, regardless of dates of service, for which payment was made by or on behalf of the department to a hospital, under present or previous ownership, during the most recent calendar year ending prior to the beginning of a particular transfer year, including all Medi-Cal acute inpatient covered days of care for hospitals that are paid on a different basis than per diem payments.

(13) "Medi-Cal acute inpatient hospital day" means any acute inpatient day of service attributable to patients who, for those days, were eligible for medical assistance under the California state plan, including any day of service that is reimbursed on a basis other than per diem payments.

(b) The Medi-Cal Inpatient Payment Adjustment Fund is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, the fund shall be continuously appropriated to,

and under the administrative control of, the department for the purposes specified in subdivision (d). The fund shall consist of the following:

(1) Transfer amounts collected by the Controller under this section, whether submitted by transferor entities pursuant to subdivision (i) or obtained by offset pursuant to subdivision (j).

(2) Any other intergovernmental transfers deposited in the fund, as permitted by Section 14164.

(3) Any interest that accrues with respect to amounts in the fund.

(c) Moneys in the fund, which shall not consist of any state general funds, shall be used as the source for the nonfederal share of payments to hospitals pursuant to Section 14105.98. Moneys shall be allocated from the fund by the department and matched by federal funds in accordance with customary Medi-Cal accounting procedures, and used to make payments pursuant to Section 14105.98.

(d) Except as otherwise provided in Section 14105.98 or in any provision of law appropriating a specified sum of money to the department for administering this section and Section 14105.98, moneys in the fund shall be used only for the following:

(1) Payments to hospitals pursuant to Section 14105.98.

(2) Except for the amount transferred pursuant to paragraph (3), transfers to the Health Care Deposit Fund as follows:

(A) In the amount of two hundred thirty-nine million seven hundred fifty-seven thousand six hundred ninety dollars ($239,757,690), for the 1994–95 and 1995–96 fiscal years.

(B) In the amount of two hundred twenty-nine million seven hundred fifty-seven thousand six hundred ninety dollars ($229,757,690) for the 1996–97 fiscal year and each fiscal year thereafter.

(C) Notwithstanding any other provision of law, the amount specified in this paragraph shall be in addition to any amounts transferred to the Health Care Deposit Fund arising from changes of any kind attributable to payment adjustment years prior to the 1993–94 payment adjustment year. These transfers from the fund shall be made in six equal monthly installments to the Medi-Cal local assistance appropriation item (Item 4260-101-001 of the annual Budget Act) in support of Medi-Cal expenditures. The first installment shall accrue in October of each transfer year, and all other installments shall accrue monthly thereafter from November through March.

(3) In the 1993–94 fiscal year, in addition to the amount transferred as specified in paragraph (2), fifteen million dollars ($15,000,000) shall also be transferred to the Medi-Cal local assistance appropriation item (Item 4260-101-001) of the Budget Act of 1993.

(e) For the 1991–92 state fiscal year, the department shall determine, no later than 70 days after the enactment of this section, the transferor entities for the 1991–92 transfer year. To make this

determination, the department shall utilize the disproportionate share list for the 1991–92 fiscal year, which shall be issued by the department no later than 65 days after the enactment of this section, pursuant to paragraph (1) of subdivision (f) of Section 14105.98. The department shall identify each eligible hospital on the list for which a public entity is the licensee as of July 1, 1991. The public entity that is the licensee of each identified eligible hospital shall be a transferor entity for the 1991–92 transfer year.

(f) The department shall determine, no later than 70 days after the enactment of this section, the transfer amounts for the 1991–92 transfer year.

The transfer amounts shall be determined as follows:

(1) The eligible hospitals for 1991–92 shall be identified. For each hospital, the applicable total per diem payment adjustment amount under Section 14105.98 for the 1991–92 transfer year shall be computed. This amount shall be multiplied by 80 percent of the eligible hospital's annualized Medi-Cal inpatient paid days as determined from all Medi-Cal paid claims records available through April 1, 1991. The products of these calculations for all eligible hospitals shall be added together to determine an aggregate sum for the 1991–92 transfer year.

(2) The eligible hospitals for 1991–92 involving transferor entities as licensees shall be identified. For each hospital, the applicable total per diem payment adjustment amount under Section 14105.98 for the 1991–92 transfer year shall be computed. This amount shall be multiplied by 80 percent of the eligible hospital's annualized Medi-Cal inpatient paid days as determined from all Medi-Cal paid claims records available through April 1, 1991. The products of these calculations for all eligible hospitals with transferor entities as licensees shall be added together to determine an aggregate sum for the 1991–92 transfer year.

(3) The aggregate sum determined under paragraph (1) shall be divided by the aggregate sum determined under paragraph (2), yielding a factor to be utilized in paragraph (4).

(4) The factor determined in paragraph (3) shall be multiplied by the amount determined for each hospital under paragraph (2). The product of this calculation for each hospital in paragraph (2) shall be divided by 1.771, yielding a transfer amount for the particular transferor entity for the transfer year, except as provided by paragraph (5).

(5) Only for the transfer year with respect to which the payment adjustment program set forth in Section 14105.98 first gains federal approval, a reduction in the transfer amount determined pursuant to paragraph (4) shall be applicable under the following circumstances:

(A) To determine any such reduction, the transfer amount determined pursuant to paragraph (4) shall first be multiplied by a fraction, the numerator of which is the number of days of the transfer

year for which federal approval is effective and the denominator of which is 365.

(B) If the product of the calculation under subparagraph (A) is 80 percent or more of the transfer amount determined under paragraph (4), no reduction of the transfer amount determined under paragraph (4) shall apply.

(C) If the product of the calculation under subparagraph (A) is less than 80 percent of the transfer amount determined under paragraph (4), a reduction shall apply to the transfer amount determined under paragraph (4). The reduction shall be that particular amount which is equal to the difference between (i) the transfer amount determined under paragraph (4) and (ii) the amount calculated under subparagraph (A) divided by 80 percent.

(D) Any reduction of a transfer amount applicable under subparagraph (C) shall be spread equally among the installments referred to in subdivision (i).

(g) For the 1991–92 transfer year, the department shall notify each transferor entity in writing of its applicable transfer amount or amounts no later than 70 days after the enactment of this section, which amount or amounts shall be subject to adjustment pursuant to subdivisions (f) and (i).

(h) For the 1992–93 transfer year and subsequent transfer years, transfer amounts shall be determined in the same procedural manner as set forth in subdivision (f), except:

(1) The department shall use all of the following:

(A) The disproportionate share list applicable to the particular transfer year to determine the eligible hospitals.

(B) The payment adjustment amounts calculated under Section 14105.98 for the particular transfer year. These amounts shall take into account any projected or actual increases or decreases in the size of the payment adjustment program as are required under Section 14105.98 for the particular year in question. Subject to the installment schedule in paragraph (5) of subdivision (i) regarding transfer amounts, the department may issue interim, revised, and supplemental transfer requests as necessary and appropriate to address changes in payment adjustment levels that occur under Section 14105.98. All transfer requests, or adjustments thereto, issued to transferor entities by the department shall meet the requirements set forth in subparagraph (E) of paragraph (5) of subdivision (i).

(C) Data regarding annualized Medi-Cal inpatient paid days for the most recent calendar year ending prior to the beginning of the particular transfer year, as determined from all Medi-Cal paid claims records available through April 1 preceding the particular transfer year.

(D) The status of public entities as licensees of eligible hospitals as of July 1 of the particular transfer year.

(E) The transfer amounts calculated by the department may be increased or decreased by a percentage amount consistent with the Medi-Cal State Plan.

(2) For the 1993–94 transfer year and subsequent transfer years, transfer amounts shall be increased on a pro rata basis for each transferor entity for the particular transfer year in the amounts necessary to fund the nonfederal share of the total supplemental lump-sum payment adjustment amounts that arise under Section 14105.98. For purposes of this paragraph, the supplemental lump-sum payment adjustment amounts shall be deemed to arise for the particular transfer year as of the date specified in Section 14105.98. Transfer amounts to fund the nonfederal share of the payments shall be paid by the transferor entities for the particular transfer year within 20 days after the department notifies the transferor entity in writing of the additional transfer amount to be paid.

(3) The department shall prepare preliminary analyses and calculations regarding potential transfer amounts, and potential transferor entities shall be notified by the department of estimated transfer amounts as soon as reasonably feasible regarding any particular transfer year. Written notices of transfer amounts shall be issued by the department as soon as possible with respect to each transfer year. All state agencies shall take all necessary steps in order to supply applicable data to the department to accomplish these tasks. The Office of Statewide Health Planning and Development shall provide to the department quarterly access to the edited and unedited confidential patient discharge data files for all Medi-Cal eligible patients. The department shall maintain the confidentiality of that data to the same extent as is required of the Office of Statewide Health Planning and Development. In addition, the Office of Statewide Health Planning and Development shall provide to the department, not later than March 1 of each year, the data specified by the department, as the data existed on the statewide data base file as of February 1 of each year, from all of the following:

(A) Hospital annual disclosure reports, filed with the Office of Statewide Health Planning and Development pursuant to Section 443.31 of the Health and Safety Code, for hospital fiscal years that ended during the calendar year ending 13 months prior to the applicable February 1.

(B) Annual reports of hospitals, filed with the Office of Statewide Health Planning and Development pursuant to Section 439.2 of the Health and Safety Code, for the calendar year ending 13 months prior to the applicable February 1.

(C) Hospital patient discharge data reports, filed with the Office of Statewide Health Planning and Development pursuant to subdivision (g) of Section 443.31 of the Health and Safety Code, for the calendar year ending 13 months prior to the applicable February 1.

(D) Any other materials on file with the Office of Statewide Health Planning and Development.

(4) For the 1993–94 transfer year and subsequent transfer years, the divisor to be used for purposes of the calculation referred to in paragraph (4) of subdivision (f) shall be determined by the department. The divisor shall be calculated to ensure that the appropriate amount of transfers from transferor entities are received into the fund to satisfy the requirements of Section 14105.98 for the particular transfer year. For the 1993–94 transfer year, the divisor shall be 1.742.

(5) For the 1993–94 fiscal year, the transfer amount that would otherwise be required from the University of California shall be increased by fifteen million dollars ($15,000,000).

(6) Notwithstanding any other provision of law, the total amount of transfers required from the transferor entities for any particular transfer year shall not exceed the sum of the following:

(A) The amount needed to fund the nonfederal share of all payment adjustment amounts applicable to the particular payment adjustment year as calculated under Section 14105.98. Included in the calculations for this purpose shall be any decreases in the program as a whole, and for individual hospitals, that arise due to the provisions of Section 1396r-4(f) of Title 42 of the United States Code.

(B) The amount needed to fund the transfers to the Health Care Deposit Fund, as referred to in paragraphs (2) and (3) of subdivision (d).

(7) (A) Except as provided in subparagraph (B) and in subparagraph (A) of paragraph (2) of subdivision (j), and except for a prudent reserve not to exceed two million dollars ($2,000,000) in the Medi-Cal Inpatient Payment Adjustment Fund, any amounts in the fund, including interest that accrues with respect to the amounts in the fund, that are not expended, or estimated to be required for expenditure, under Section 14105.98 with respect to a particular transfer year shall be returned on a pro rata basis to the transferor entities for the particular transfer year within 120 days after the department determines that the funds are not needed for an expenditure in connection with the particular transfer year.

(B) The department shall determine the interest amounts that have accrued in the fund from its inception through June 30, 1995, and, no later than January 1, 1996, shall distribute these interest amounts to transferor entities, as follows:

(i) The total amount transferred to the fund by each transferor entity for all transfer years from the inception of the fund through June 30, 1995, shall be determined.

(ii) The total amounts determined for all transferor entities under clause (i) shall be added together, yielding an aggregate of the total amounts transferred to the fund for all transfer years from the inception of the fund through June 30, 1995.

(iii) The total amount determined under clause (i) for each transferor entity shall be divided by the aggregate amount determined under clause (ii), yielding a percentage for each transferor entity.

(iv) The total amount of interest earned by the fund from its inception through June 30, 1995, shall be determined.

(v) The percentage determined under clause (iii) for each transferor entity shall be multiplied by the amount determined under clause (iv), yielding the amount of interest that shall be distributed under this subparagraph to each transferor entity.

(C) Regarding any funds returned to a transferor entity under subparagraph (A), or interest amounts distributed to a transferor entity under subparagraph (B), the department shall provide to the transferor entity a written statement that explains the basis for the particular return or distribution of funds and contains the general calculations used by the department in determining the amount of the particular return or distribution of funds.

(i) (1) For the 1991–92 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in eight equal installments. Except as provided below, the first installment shall accrue on July 25, 1991, and all other installments shall accrue on the 5th day of each month thereafter from August through February.

(2) Notwithstanding paragraph (1), no installment shall be payable to the Controller until that date which is 20 days after the department notifies the transferor entity in writing that the payment adjustment program set forth in Section 14105.98 has first gained federal approval as part of the Medi-Cal program. For purposes of this paragraph, federal approval requires both (i) approval by appropriate federal agencies of an amendment to the Medi-Cal State Plan, as referred to in subdivision (o) of Section 14105.98, and (ii) confirmation by appropriate federal agencies regarding the availability of federal financial participation for the payment adjustment program set forth in Section 14105.98 at a level of at least 40 percent of the percentage of federal financial participation that is normally applicable for Medi-Cal expenditures for acute inpatient hospital services.

(3) If any installment that would otherwise be payable under paragraph (1) is not paid because of the provisions of paragraph (2), then subparagraphs (A) and (B) shall be followed when federal approval is gained.

(A) All installments that were deferred based on the provisions of paragraph (2) shall be paid no later than 20 days after the department notifies the transferor entity in writing that federal approval has been gained, in an amount consistent with subparagraph (B).

(B) The installments paid pursuant to subparagraph (A) shall be paid in full, subject to an adjustment in amount pursuant to paragraph (5) of subdivision (f).

(4) All installments for the 1991–92 transfer year that arise in months after federal approval is gained shall be paid by the 5th day of the month or 20 days after the department notifies the transferor entity in writing that federal approval has been gained, whichever is later. These installments shall be subject to an adjustment in amount pursuant to paragraph (5) of subdivision (f).

(5) (A) Except as provided in subparagraphs (B) and (C), for the 1992–93 transfer year and subsequent transfer years, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in eight equal installments. The first installment shall be payable on July 10 of each transfer year. All other installments shall be payable on the 5th day of each month thereafter from August through February.

(B) For the 1994–95 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in five equal installments. The first installment shall be payable on October 5, 1994. The next four installments shall be payable on the fifth day of each month thereafter from November through February.

(C) For the 1995–96 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in five equal installments. The first installment shall be payable on October 5, 1995. The next four installments shall be payable on the fifth day of each month thereafter from November through February.

(D) Except as otherwise specifically provided, subparagraphs (A) to (C), inclusive, shall not apply to increases in transfer amounts described in paragraph (2) of subdivision (h) or to additional transfer amounts described in subdivision (o).

(E) All requests for transfer payments, or adjustments thereto, issued by the department shall be in writing and shall include (i) an explanation of the basis for the particular transfer request or transfer activity, (ii) a summary description of program funding status for the particular transfer year, and (iii) the general calculations used by the department in connection with the particular transfer request or transfer activity.

(6) A transferor entity may use any of the following funds for purposes of meeting its transfer obligations under this section:

(A) General funds of the transferor entity.

(B) Any other funds permitted by law to be used for these purposes, except that a transferor entity shall not submit to the Controller any federal funds unless those federal funds are authorized by federal law to be used to match other federal funds. In addition, no private donated funds from any health care provider, or from any person or organization affiliated with such a health care provider, shall be channeled through a transferor entity or any other public entity to the fund. The transferor entity shall be responsible

for determining that funds transferred meet the requirements of this subparagraph.

(j) (1) If a transferor entity does not submit any transfer amount within the time period specified in this section, the Controller shall offset immediately the amount owed against any funds which otherwise would be payable by the state to the transferor entity. The Controller, however, shall not impose an offset against any particular funds payable to the transferor entity where the offset would violate state or federal law.

(2) Where a withhold or a recoupment occurs pursuant to the provisions of paragraph (2) of subdivision (r) of Section 14105.98, the nonfederal portion of the amount in question shall remain in the fund, or shall be redeposited in the fund by the department, as applicable. The department shall then proceed as follows:

(A) If the withhold or recoupment was imposed with respect to a hospital whose licensee was a transferor entity for the particular state fiscal year to which the withhold or recoupment related, the nonfederal portion of the amount withheld or recouped shall serve as a credit for the particular transferor entity against an equal amount of transfer obligations under this section, to be applied whenever the transfer obligations next arise. Should no such transfer obligation arise within 180 days, the department shall return the funds in question to the particular transferor entity within 30 days thereafter.

(B) For other situations, the withheld or recouped nonfederal portion shall be subject to paragraph (7) of subdivision (h).

(k) All amounts received by the Controller pursuant to subdivision (i), paragraph (2) of subdivision (h), or subdivision (o), or offset by the Controller pursuant to subdivision (j), shall immediately be deposited in the fund.

(*l*) For purposes of this section, the disproportionate share list utilized by the department for a particular transfer year shall be identical to the disproportionate share list utilized by the department for the same state fiscal year for purposes of Section 14105.98. Nothing on a disproportionate share list, once issued by the department, shall be modified for any reason other than mathematical or typographical errors or omissions on the part of the department or the Office of Statewide Health Planning and Development in preparation of the list.

(m) Neither the intergovernmental transfers required by this section, nor any elective transfer made pursuant to Section 14164, shall create, lead to, or expand the health care funding or service obligations for current or future years for any transferor entity, except as required of the state by this section or as may be required by federal law, in which case the state shall be held harmless by the transferor entities on a pro rata basis.

(n) No amount submitted to the Controller pursuant to subdivision (i), paragraph (2) of subdivision (h), or subdivision (o), or offset by the Controller pursuant to subdivision (j), shall be

claimed or recognized as an allowable element of cost in Medi-Cal cost reports submitted to the department.

(o) Whenever additional transfer amounts are required to fund the nonfederal share of payment adjustment amounts under Section 14105.98 that are distributed after the close of the particular payment adjustment year to which the payment adjustment amounts apply, the additional transfer amounts shall be paid by the parties who were the transferor entities for the particular transfer year that was concurrent with the particular payment adjustment year. The additional transfer amounts shall be calculated under the formula that was in effect during the particular transfer year. For transfer years prior to the 1993–94 transfer year, the percentage of the additional transfer amounts available for transfer to the Health Care Deposit Fund under subdivision (d) shall be the percentage that was in effect during the particular transfer year. These additional transfer amounts shall be paid by transferor entities within 20 days after the department notifies the transferor entity in writing of the additional transfer amount to be paid.

(p) (1) Ten million dollars ($10,000,000) of the amount transferred from the Medi-Cal Inpatient Payment Adjustment Fund to the Health Care Deposit Fund due to amounts transferred attributable to years prior to the 1993–94 fiscal year is hereby appropriated without regard to fiscal years to the State Department of Health Services to be used to support the development of managed care programs under the department's plan to expand Medi-Cal managed care.

(2) These funds shall be used by the department for both of the following purposes: (A) distributions to counties or other local entities that contract with the department to receive those funds to offset a portion of the costs of forming the local initiative entity, and (B) distributions to local initiative entities that contract with the department to receive those funds to offset a portion of the costs of developing the local initiative health delivery system in accordance with the department's plan to expand Medi-Cal managed care.

(3) Entities contracting with the department for any portion of the ten million dollars ($10,000,000) shall meet the objectives of the department's plan to expand Medi-Cal managed care with regard to traditional and safety net providers.

(4) Entities contracting with the department for any portion of the ten million dollars ($10,000,000) may be authorized under those contracts to utilize their funds to provide for reimbursement of the costs of local organizations and entities incurred in participating in the development and operation of a local initiative.

(5) To the full extent permitted by state and federal law, these funds shall be distributed by the department for expenditure at the local level in a manner that qualifies for federal financial participation under the medicaid program.

SEC. 49. Section 14511 is added to the Welfare and Institutions Code, to read:

14511. Notwithstanding any other provision of law, on and after the effective date of any repeal of Division 24 (commencing with Section 24000) of the Welfare and Institutions Code, the general statewide program for the provision of comprehensive clinical family planning services as referenced in this chapter shall be deemed to be operative in all respects, and the State Department of Health Services shall administer the program accordingly. It is the intent of the Legislature that appropriate funding be made available at that time for the general statewide program for the provision of comprehensive clinical family planning services as set forth in this chapter through the annual budget process.

SEC. 50. Section 14512 is added to the Welfare and Institutions Code, to read:

14512. It is the intent of the Legislature that all contracts for the provision of direct services entered into by the Office of Family Planning under this chapter shall be competitively awarded.

SEC. 51. Chapter 14 (commencing with Section 18993) is added to Part 6 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 14. COMMUNITY CHALLENGE GRANT PROGRAM

18993. There is hereby created the Community Challenge Grant Program in the State Department of Health Services to provide community challenge grants to reduce the number of teenage and unwed pregnancies.

18993.1. The Legislature hereby finds and declares all of the following:

(a) One in three children in California is born out of wedlock.

(b) As many as 70,000 children were born to teenagers in each of at least the last two years and nearly 25 percent of these were born to teenage mothers who have previously had children.

(c) Children who grow up without fathers are five times more likely to be poor, twice as likely to drop out of school, and much more likely to end up in foster care or juvenile justice facilities.

(d) Girls raised in single-parent families are three times more likely to become unwed teenage mothers than those girls raised in two-parent families.

(e) Boys without a father in the home are more likely to become incarcerated, unemployed, or uninvolved with their own children when they become fathers.

(f) The consequences of teenage pregnancy and fatherlessness are significant and far-reaching.

(g) Teenage and unwed pregnancy are problems that affect community health and success.

(h) Government can best solve the problems of teenage and unwed pregnancies in partnership with local communities, parents, and families.

(i) Communities should decide what prevention strategies will work and be acceptable.

(j) Parents and families should be included in the teenage pregnancy prevention strategies.

18993.2. (a) The State Department of Health Services shall administer grants for purposes of this chapter that shall be awarded pursuant to a request for application process.

(b) Grants shall be awarded to existing and new community-based nonprofit organizations and county and local governments for purposes of implementing locally developed prevention and intervention strategies designed to do the following:

(1) Reduce the number of teenage and unwed pregnancies.

(2) Reduce the number of children growing up in homes without fathers as a result of these pregnancies.

(3) Promote responsible parenting and the involvement of the father in the economic, social, and emotional support of his children.

(c) Grant funding shall not be used for clinical services and shall target, but not be limited to, the following populations:

(1) Presexual adolescents.

(2) Sexually active adolescents.

(3) Pregnant and parenting adolescents.

(4) Parents and families.

(5) Adults at risk for unwed motherhood or absentee fatherhood.

(d) The department shall provide outreach and training to potential grantees to increase the number of agencies and groups that may be able to successfully compete for the grants.

(e) The department shall issue periodic reports that describe the projects that have been awarded grants pursuant to this chapter.

18993.3. (a) An advisory committee of 10 members shall be appointed to advise and consult with the department regarding the Community Challenge Grant Program in the following areas:

(1) The broad goals of the program.

(2) Effective strategies for implementing the program.

(3) Elements of evaluating the effectiveness of the program grantees.

(4) Strategies for engaging nongovernmental resources and expertise in the implementation and success of the program.

(b) Six members shall be appointed by the Secretary of the Health and Welfare Agency, two members by the Speaker of the Assembly, and two members by the Senate Committee on Rules.

(c) The advisory committee shall reflect a broad constituency and multidisciplinary approach to the problem of teenage and unwed pregnancy, including persons that represent corporations and foundations, the religious community, parents, teenagers, the

education and academic community, community-based organizations, and public health organizations.

18993.4. Grant applications shall include, but not be limited to, the following:

(a) Plans for community collaboration with parents, local agencies, businesses, school leaders, community groups, and private organizations.

(b) Measurable objectives selected by the applicant.

(c) Evidence of the applicant's capability to effect proposed changes.

(d) A needs assessment.

(e) A comprehensive description of the population or populations proposed to be served.

(f) A project description, a work plan, and budget justifications.

(g) A project evaluation and a process for data collection to facilitate the department's ability to conduct a statewide evaluation.

18993.5. (a) Criteria for grant selection shall include, but not be limited to, the following:

(1) Degree of community input and collaboration in the project.

(2) Degree of involvement of parents and families within the community.

(3) Degree of involvement of nongovernmental organizations.

(4) Degree of need for the project in the local community.

(5) Geographic, economic, population, and ethnic diversity.

(6) Feasibility.

(7) Cost effectiveness.

(8) Degree to which project outcomes can be measured and evaluated.

(b) The department shall provide an explanation for the reasons why an applicant is not funded.

18993.6. (a) Grantees shall be required to match a portion of the grant awarded under the Community Challenge Grant Program with either dollar or measurable in-kind contributions as provided by this section.

(b) Grantees shall provide a match of not less than 10 percent for the first year of the grant, not less than 15 percent for the second year of the grant, and not less than 20 percent for the third year of the grant.

(c) The match required by this section shall be supplemental to the funds appropriated for the Community Challenge Grant Program and shall be from nongovernmental sources.

18993.7. (a) The costs for state administration of the Community Challenge Grant Program may be up to 5 percent of the total appropriation for the program. The Legislature shall be notified of the administrative costs of this program pursuant to Section 28 of the Budget Act of 1996. Indirect costs for grantees shall not exceed 10 percent of the grant amount.

(b) The department may use local assistance funds allocated for the program to provide training to potential grantees authorized by subdivision (d) of Section 18993.2.

(c) The department may use local assistance funds allocated to the program for the evaluation of the program required by subdivision (b) of Section 18993.8.

18993.8. The department shall conduct a statewide independent evaluation of the program. The department shall submit its findings from the evaluation to the Legislature on or before January 1, 1999.

18993.9. This chapter shall remain operative until July 1, 1999, and shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, which is effective on or before January 1, 2000, deletes or extends that date.

SEC. 52. Division 24 (commencing with Section 24000) is added to the Welfare and Institutions Code, to read:

DIVISION 24. STATE-ONLY FAMILY PLANNING PROGRAM

24000. There is established in the State Department of Health Services the State-Only Family Planning Program to provide comprehensive clinical family planning services to low-income men and women. This division shall be known and may be cited as the State-Only Family Planning Program.

24001. (a) For purposes of this division, "family planning" means the process of establishing objectives for the number and spacing of children, and selecting the means by which those objectives may be achieved. These means include a broad range of acceptable and effective methods and services to limit or enhance fertility, including contraceptive methods, natural family planning, abstinence methods and basic, limited fertility management. Family planning services include, but are not limited to, preconceptual counseling, maternal and fetal health counseling, general reproductive health care, including diagnosis and treatment of infections and conditions, including cancer, that threaten reproductive capability, medical family planning treatment and procedures, including supplies and followup, and informational, counseling, and educational services. Family planning does not include abortion, pregnancy testing solely for the purposes of referral for abortion or services ancillary to abortions, or pregnancy care that is not incident to the diagnosis of pregnancy.

(b) For purposes of this division, "department" means the State Department of Health Services.

24003. (a) A person shall be eligible to receive services pursuant to this chapter provided that the following conditions are met:

(1) The person is a resident of California.

(2) The person has a family income at or below 200 percent of the federal poverty level.

(3) The person has no other source of health care coverage unless the use of that health care coverage would create a barrier to access because of confidentiality.

(4) The person is not otherwise eligible for existing Medi-Cal services without a share of cost.

(b) Notwithstanding any other provision of law, the provision of family planning services shall not require the consent of anyone other than the person who is to receive the services.

(c) Eligibility shall be determined at point of service by the provider. The provider shall obtain information on the individual's family size, income, and health care coverage and then, based on that information, determine if the individual meets the eligibility criteria specified in subdivision (a). All individuals who meet the eligibility requirements shall be certified by the provider as eligible for services under the program. A Medi-Cal share of cost shall not be used to deny access to family planning services under the program. The department may require the collection on a voluntary basis or the use of the individual's social security number, or both. No services shall be denied to a client if a social security number is not provided.

(d) Eligibility shall be based on the individual's self-declaration of gross annual or monthly income, family size, and other source of health care coverage, signed under penalty of perjury at each annual eligibility certification. No asset information shall be used to determine eligibility.

(e) The department may establish a copayment system for services provided pursuant to this chapter that is based upon the income level of the individual and the cost of the service provided. No individual whose documented family income is at or below 100 percent of the federal poverty level shall be subject to copayment. The copayment fee shall not be used to deny access to family planning services. State reimbursement to the provider shall be offset by that amount of the copayment collected from the eligible individual. The department shall notify providers on an annual basis of the copayment fee schedule.

24005. (a) Only licensed medical personnel with family planning skills, knowledge, and competency may provide the full range of family planning medical services covered in this program.

(b) Medi-Cal enrolled providers, as determined by the department, shall be eligible to provide family planning services under the program. Those providers electing to participate in the program shall provide the full scope of family planning education, counseling, and medical services specified for the program, either directly or by referral, consistent with standards of care issued by the department. The department shall require providers to enter into enrollment agreements with the department to ensure compliance with standards. Providers who do not provide services consistent with the standards of care may be disenrolled as a provider from the program.

(c) Enrolled providers shall attend specific orientation approved by the department in comprehensive family planning services. Enrolled providers who insert IUDs or contraceptive implants shall have received prior clinical training specific to these procedures.

24007. (a) The department shall determine the scope of benefits for the program, which shall include, but is not limited to, the following:

(1) Family planning related services and male and female sterilization. Family planning services for men and women include emergency and complication services directly related to the contraceptive method and followup, consultation and referral services, as indicated, which may require treatment authorization requests.

(2) All United States Department of Health and Human Services, Federal Drug Administration-approved birth control methods, devices, and supplies that are in keeping with current standards of practice and from which the individual may choose.

(3) Culturally and linguistically appropriate health education and counseling services, including informed consent; psychosocial and medical aspects of contraception, sexuality, fertility, pregnancy, and parenthood; infertility; reproductive health care; preconceptual and nutrition counseling; prevention and treatment of sexually transmitted infection; use of contraceptive methods, devices, and supplies; possible contraceptive consequences and followup; interpersonal communication and negotiation of relationships to assist individuals and couples in effective contraceptive method use and planning families.

(4) A comprehensive health history, updated at next periodic visit (between 11 and 24 months after initial examination) that includes a complete obstetrical history, gynecological history, contraceptive history, personal medical history, health risk factors, and family health history, including genetic or hereditary conditions.

(5) A complete physical examination on initial and subsequent periodic visits.

(b) Benefits under this program shall be effective in 30 days after notice to providers, but not sooner than January 1, 1997.

24009. Family planning services are confidential. All information about personal facts and circumstances obtained by the provider shall be treated as privileged communications, shall be held confidential, and shall not be divulged without the individual's written consent, except as required by law or as may be necessary to provide emergency services to the individual or as required by the department to administer this program. Information may be disclosed in summary, statistical, or other form that does not identify particular individuals.

24011. (a) Providers shall submit claims for reimbursement for services provided on or after January 1, 1997, or receipt of notice from the department, whichever is later, and covered by this program, to

the fiscal intermediary of the department for payment. Charges and individual information shall be submitted on the form or in the format specified by the department for the state-only family planning program, and providers shall be reimbursed at the rates established for those services by the department.

(b) The department shall use existing contractual claims processing services in order to promote efficiency and to maximize use of funds.

(c) Claims for state-only family planning services provided through prescription, including laboratory and pharmaceutical, shall be reimbursed in a manner determined by the department. Eligible individuals shall not be charged for any state-only family planning laboratory or pharmaceutical services.

(d) Claims for method-related complications requiring approved treatment authorization requests shall be reimbursed regardless of category of medical service.

24013. (a) Notwithstanding any other provision of law, the department may adopt any procedures as are necessary for the review of a grievance or complaint concerning the processing of claims or payment of moneys alleged by a provider of services to be payable by reason of any of the provisions of this division.

(b) Any applicant for, or recipient of, services under the state-only family planning program shall have a right to a hearing conducted by the department regarding the person's eligibility or receipt of services. A proposed decision from the administrative law judge shall be submitted to the State Director of Health Services for adoption, modification, or rehearing. The decision of the director shall be final. A person shall not have a right to contest changes made to the eligibility standards or benefits of the state-only family planning program.

24015. The department may adopt emergency regulations as necessary to implement and administer this chapter in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The initial adoption of any emergency regulations following January 1, 1997, shall be deemed to be an emergency and necessary for immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this act shall remain in effect no more than 180 days.

24017. The program shall be exempt from the requirements of Chapter 7 (commencing with Section 11700) of Part 1 of Division 3 of Title 2 of the Government Code and Chapter 3 (commencing with Section 12100) of Division 2 of Part 2 of the Public Contract Code as those requirements apply to the use of contractual claims processing services by the department.

24021. The department shall conduct an evaluation of the effectiveness and efficiency of the program, including expanded access and reduction of unintended pregnancies, and shall report to

the Legislature by no later than January 1, 2000. The department may use local assistance funds allocated to the State-Only Family Planning Program for the evaluation of the program.

24023. It is the intent of the Legislature that the State Department of Health Services shall, effective March 1, 1997, conduct no other general statewide program for the provision of comprehensive clinical family planning services as referenced in Chapter 8.5 (commencing with Section 14500) of Part 3 of Division 9, while the State-Only Family Planning Program authorized by this division is in effect. For the purpose of avoiding a disruption of services, to the extent the implementation of the State-Only Family Planning Program does not occur on or before March 1, 1997, the Director of Health Services may extend the general statewide program for the provision of comprehensive clinical family planning services as referenced in Chapter 8.5 (commencing with Section 14500) of Part 3 of Division 9. This extension shall be made only upon notification to the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house that considers appropriations and under no condition shall extend beyond 120 days.

24027. This division shall remain operative only until July 1, 2000, and, as of January 1, 2001, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 2001, deletes or extends that date.

SEC. 53. Section 24 of Chapter 305 of the Statutes of 1995 is amended to read:

Sec. 24. Notwithstanding any other provision of law, the emergency regulations developed pursuant to Section 14680 of the Welfare and Institutions Code to implement Part 2.5 (commencing with Section 5775) of Division 5 of the Welfare and Institutions Code shall remain in effect until July 1, 1997, or until the regulations are made permanent, whichever occurs first, and shall not be subject to the repeal provisions of Section 11346.1 of the Government Code until that time.

SEC. 54. (a) No later than February 15, 1997, the State Department of Alcohol and Drug Programs shall provide a report to the chairs of the fiscal committees and policy committees of the Legislature on each of the audits, studies, and surveys required by this section.

(b) The State Department of Alcohol and Drug Programs shall contract for an independent audit of the department's financial procedures for allocation of funds and reimbursement of costs for treatment services, including the department's procedures and timelines for allocation of funds by counties. The department shall contract with the Bureau of State Audits for this function.

(c) The State Department of Alcohol and Drug Programs, in consultation with the State Department of Health Services, shall contract with an actuarial firm for an independent study of drug and

alcohol treatment rates to determine the actual costs of providing drug and alcohol treatment and ancillary services in programs funded through the department. The study shall include and compare all costs of treatment services including the use of funds from other governmental and nongovernmental sources. The purpose of this study shall be to provide the department with a factually correct, statistically valid data base sample to set statewide rates for each service.

(d) The State Department of Alcohol and Drug Programs in consultation with counties and drug and alcohol treatment providers shall develop a survey to be issued to all counties for distribution to all providers. The survey of the alcohol and drug treatment services funded through the State Department of Alcohol and Drug Programs shall include at least all of the following:

(1) A determination of the required length of time to complete the program, if any.

(2) The number of clients who entered the program and the number who completed the program, if applicable.

(3) How many clients were terminated from the program and the causes for those terminations.

(4) The number of times each client was previously in treatment.

(5) How many and what type of followup services are provided to clients upon completion of the program.

(6) What ancillary services are provided during and following treatment.

(7) The number of clients receiving each service.

(8) The description of services provided.

(9) Each county's procedure timelines for allocation of funds and reimbursement of costs.

(10) What services include family members of clients.

(e) The data from this survey shall be collected and analyzed by an actuarial firm and validated by the Bureau of State Audits.

SEC. 55. The State Department of Health Services shall report to the Legislature, by March 1, 1997, on the following data with respect to the child health and disability prevention program provided for pursuant to Article 6 (commencing with Section 124025) of Chapter 3 of Part 2 of Division 106 of the Health and Safety Code:

(a) The number of children, by age, enrolled in each health plan contracting with the state.

(b) The number of children, by age, who received a comprehensive examination under the child health and disability prevention program in each health plan contracting with the state that is capitated for child health and disability prevention program services.

(c) It is the intent of the Legislature that the State Department of Health Services' Division of Medical Care Services and Division of Primary Care and Family Health cooperate in the development of shared information capability. To the extent this capability exists, the

department shall also include in the report required by this section the number of children, by age, in each health plan contracting with the state and that is capitated for child health and disability prevention services, referred for followup diagnosis or treatment from a child health and disability examination. To the extent this capability does not exist, the department shall also identify in this report the barriers to the development of shared information and reporting capability, and the cost to develop this capability.

SEC. 56. The State Department of Health Services may adopt emergency regulations to implement this act in accordance with the Administrative Procedure Act, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The initial adoption of emergency regulations and one readoption of the initial regulations shall be deemed to be an emergency and considered by the Office of Administrative Law as necessary for the immediate preservation of the public peace, health and safety, or general welfare. Initial emergency regulations and the first readoption of those regulations shall be exempt from review by the Office of Administrative Law. The emergency regulations authorized by this section shall be submitted to the Office of Administrative Law for filing with the Secretary of State and publication in the California Code of Regulations and shall remain in effect as emergency regulations for no more than 180 days.

SEC. 57. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 58. If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 59. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to timely provide for the administration of this act for the entire 1996–97 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 198

An act to amend Section 14163 of the Welfare and Institutions Code, relating to public social services, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 14163 of the Welfare and Institutions Code is amended to read:

14163. (a) For purposes of this section, the following definitions shall apply:

(1) "Public entity" means a county, a city, a city and county, the University of California, a local hospital district, a local health authority, or any other political subdivision of the state.

(2) "Hospital" means a health facility that is licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code to provide acute inpatient hospital services, and includes all components of the facility.

(3) "Disproportionate share hospital" means a hospital providing acute inpatient services to Medi-Cal beneficiaries that meets the criteria for disproportionate share status relating to acute inpatient services set forth in Section 14105.98.

(4) "Disproportionate share list" means the annual list of disproportionate share hospitals for acute inpatient services issued by the department pursuant to Section 14105.98.

(5) "Fund" means the Medi-Cal Inpatient Payment Adjustment Fund.

(6) "Eligible hospital" means, for a particular state fiscal year, a hospital on the disproportionate share list that is eligible to receive payment adjustment amounts under Section 14105.98 with respect to that state fiscal year.

(7) "Transfer year" means the particular state fiscal year during which, or with respect to which, public entities are required by this section to make an intergovernmental transfer of funds to the Controller.

(8) "Transferor entity" means a public entity that, with respect to a particular transfer year, is required by this section to make an intergovernmental transfer of funds to the Controller.

(9) "Transfer amount" means an amount of intergovernmental transfer of funds that this section requires for a particular transferor entity with respect to a particular transfer year.

(10) "Intergovernmental transfer" means a transfer of funds from a public entity to the state, that is local government financial participation in Medi-Cal pursuant to the terms of this section.

(11) "Licensee" means an entity that has been issued a license to operate a hospital by the department.

(12) "Annualized Medi-Cal inpatient paid days" means the total number of Medi-Cal acute inpatient hospital days, regardless of dates of service, for which payment was made by or on behalf of the department to a hospital, under present or previous ownership, during the most recent calendar year ending prior to the beginning of a particular transfer year, including all Medi-Cal acute inpatient covered days of care for hospitals that are paid on a different basis than per diem payments.

(13) "Medi-Cal acute inpatient hospital day" means any acute inpatient day of service attributable to patients who, for those days, were eligible for medical assistance under the California state plan, including any day of service that is reimbursed on a basis other than per diem payments.

(14) "OBRA 1993 payment limitation" means the hospital-specific limitation on the total annual amount of payment adjustments to each eligible hospital under the payment adjustment program that can be made with federal financial participation under Section 1396r-4(g) of Title 42 of the United States Code as implemented pursuant to the Medi-Cal State Plan.

(b) The Medi-Cal Inpatient Payment Adjustment Fund is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, the fund shall be continuously appropriated to, and under the administrative control of, the department for the purposes specified in subdivision (d). The fund shall consist of the following:

(1) Transfer amounts collected by the Controller under this section, whether submitted by transferor entities pursuant to applicable provisions of this section or obtained by offset pursuant to subdivision (j).

(2) Any other intergovernmental transfers deposited in the fund, as permitted by Section 14164.

(3) Any interest that accrues with respect to amounts in the fund.

(c) Moneys in the fund, which shall not consist of any state general funds, shall be used as the source for the nonfederal share of payments to hospitals pursuant to Section 14105.98. Moneys shall be allocated from the fund by the department and matched by federal funds in accordance with customary Medi-Cal accounting procedures, and used to make payments pursuant to Section 14105.98.

(d) Except as otherwise provided in Section 14105.98 or in any provision of law appropriating a specified sum of money to the department for administering this section and Section 14105.98, moneys in the fund shall be used only for the following:

(1) Payments to hospitals pursuant to Section 14105.98.

(2) Except for the amount transferred pursuant to paragraph (3), transfers to the Health Care Deposit Fund as follows:

(A) In the amount of two hundred thirty-nine million seven hundred fifty-seven thousand six hundred ninety dollars ($239,757,690), for the 1994–95 and 1995–96 fiscal years.

(B) In the amount of two hundred twenty-nine million seven hundred fifty-seven thousand six hundred ninety dollars ($229,757,690) for the 1996–97 fiscal year and each fiscal year thereafter.

(C) Notwithstanding any other provision of law, the amount specified in this paragraph shall be in addition to any amounts transferred to the Health Care Deposit Fund arising from changes of any kind attributable to payment adjustment years prior to the 1993–94 payment adjustment year. These transfers from the fund shall be made in six equal monthly installments to the Medi-Cal local assistance appropriation item (Item 4260-101-001 of the annual Budget Act) in support of Medi-Cal expenditures. The first installment shall accrue in October of each transfer year, and all other installments shall accrue monthly thereafter from November through March.

(3) In the 1993–94 fiscal year, in addition to the amount transferred as specified in paragraph (2), fifteen million dollars ($15,000,000) shall also be transferred to the Medi-Cal local assistance appropriation item (Item 4260-101-001) of the Budget Act of 1993.

(e) For the 1991–92 state fiscal year, the department shall determine, no later than 70 days after the enactment of this section, the transferor entities for the 1991–92 transfer year. To make this determination, the department shall utilize the disproportionate share list for the 1991–92 fiscal year, which shall be issued by the department no later than 65 days after the enactment of this section, pursuant to paragraph (1) of subdivision (f) of Section 14105.98. The department shall identify each eligible hospital on the list for which a public entity is the licensee as of July 1, 1991. The public entity that is the licensee of each identified eligible hospital shall be a transferor entity for the 1991–92 transfer year.

(f) The department shall determine, no later than 70 days after the enactment of this section, the transfer amounts for the 1991–92 transfer year.

The transfer amounts shall be determined as follows:

(1) The eligible hospitals for 1991–92 shall be identified. For each hospital, the applicable total per diem payment adjustment amount under Section 14105.98 for the 1991–92 transfer year shall be computed. This amount shall be multiplied by 80 percent of the

eligible hospital's annualized Medi-Cal inpatient paid days as determined from all Medi-Cal paid claims records available through April 1, 1991. The products of these calculations for all eligible hospitals shall be added together to determine an aggregate sum for the 1991–92 transfer year.

(2) The eligible hospitals for 1991–92 involving transferor entities as licensees shall be identified. For each hospital, the applicable total per diem payment adjustment amount under Section 14105.98 for the 1991–92 transfer year shall be computed. This amount shall be multiplied by 80 percent of the eligible hospital's annualized Medi-Cal inpatient paid days as determined from all Medi-Cal paid claims records available through April 1, 1991. The products of these calculations for all eligible hospitals with transferor entities as licensees shall be added together to determine an aggregate sum for the 1991–92 transfer year.

(3) The aggregate sum determined under paragraph (1) shall be divided by the aggregate sum determined under paragraph (2), yielding a factor to be utilized in paragraph (4).

(4) The factor determined in paragraph (3) shall be multiplied by the amount determined for each hospital under paragraph (2). The product of this calculation for each hospital in paragraph (2) shall be divided by 1.771, yielding a transfer amount for the particular transferor entity for the transfer year.

(g) For the 1991–92 transfer year, the department shall notify each transferor entity in writing of its applicable transfer amount or amounts no later than 70 days after the enactment of this section.

(h) For the 1992–93 transfer year and subsequent transfer years, transfer amounts shall be determined in the same procedural manner as set forth in subdivision (f), except:

(1) The department shall use all of the following:

(A) The disproportionate share list applicable to the particular transfer year to determine the eligible hospitals.

(B) The payment adjustment amounts calculated under Section 14105.98 for the particular transfer year. These amounts shall take into account any projected or actual increases or decreases in the size of the payment adjustment program as are required under Section 14105.98 for the particular year in question, including any decreases resulting from the application of the OBRA 1993 payment limitation. Subject to the installment schedule in paragraph (5) of subdivision (i) regarding transfer amounts, the department may issue interim, revised, and supplemental transfer requests as necessary and appropriate to address changes in payment adjustment levels that occur under Section 14105.98. All transfer requests, or adjustments thereto, issued to transferor entities by the department shall meet the requirements set forth in subparagraph (E) of paragraph (5) of subdivision (i).

(C) Data regarding annualized Medi-Cal inpatient paid days for the most recent calendar year ending prior to the beginning of the

particular transfer year, as determined from all Medi-Cal paid claims records available through April 1 preceding the particular transfer year.

(D) The status of public entities as licensees of eligible hospitals as of July 1 of the particular transfer year.

(E) (i) Except as provided in subparagraph (ii), for transfer amounts calculated by the department may be increased or decreased by a percentage amount consistent with the Medi-Cal State Plan.

(ii) For the 1995–96 transfer year, the nonfederal share of the secondary supplemental payment adjustments described in paragraph (9) of subdivision (y) of Section 14105.98 shall be funded as follows:

(I) Ninety-nine percent of the nonfederal share shall be funded by a transfer from the University of California.

(II) One percent of the nonfederal share shall be funded by transfers from those public entities that are the licensees of the hospitals included in the "other public hospitals" group referred to in clauses (ii) and (iii) of subparagraph (B) of paragraph (9) of subdivision (y) of Section 14105.98. The transfer responsibilities for this one percent shall be allocated to the particular public entities on a pro rata basis, based on a formula or formulae customarily used by the department for allocating transfer amounts under this section. The formula or formulae shall take into account, through reallocation of transfer amounts as appropriate, the situation of hospitals whose secondary supplemental payment adjustments are restricted due to the application of the limitation set forth in clause (v) of subparagraph (B) of paragraph (9) of subdivision (y) of Section 14105.98.

(III) All transfer amounts under this subparagraph shall be paid by the particular transferor entities within 30 days after the department notifies the transferor entity in writing of the transfer amount to be paid.

(2) For the 1993–94 transfer year and subsequent transfer years, transfer amounts shall be increased on a pro rata basis for each transferor entity for the particular transfer year in the amounts necessary to fund the nonfederal share of the total supplemental lump-sum payment adjustment amounts that arise under Section 14105.98. For purposes of this paragraph, the supplemental lump-sum payment adjustment amounts shall be deemed to arise for the particular transfer year as of the date specified in Section 14105.98. Transfer amounts to fund the nonfederal share of the payments shall be paid by the transferor entities for the particular transfer year within 20 days after the department notifies the transferor entity in writing of the additional transfer amount to be paid.

(3) The department shall prepare preliminary analyses and calculations regarding potential transfer amounts, and potential transferor entities shall be notified by the department of estimated

transfer amounts as soon as reasonably feasible regarding any particular transfer year. Written notices of transfer amounts shall be issued by the department as soon as possible with respect to each transfer year. All state agencies shall take all necessary steps in order to supply applicable data to the department to accomplish these tasks. The Office of Statewide Health Planning and Development shall provide to the department quarterly access to the edited and unedited confidential patient discharge data files for all Medi-Cal eligible patients. The department shall maintain the confidentiality of that data to the same extent as is required of the Office of Statewide Health Planning and Development. In addition, the Office of Statewide Health Planning and Development shall provide to the department, not later than March 1 of each year, the data specified by the department, as the data existed on the statewide data base file as of February 1 of each year, from all of the following:

(A) Hospital annual disclosure reports, filed with the Office of Statewide Health Planning and Development pursuant to Section 443.31 of the Health and Safety Code, for hospital fiscal years that ended during the calendar year ending 13 months prior to the applicable February 1.

(B) Annual reports of hospitals, filed with the Office of Statewide Health Planning and Development pursuant to Section 439.2 of the Health and Safety Code, for the calendar year ending 13 months prior to the applicable February 1.

(C) Hospital patient discharge data reports, filed with the Office of Statewide Health Planning and Development pursuant to subdivision (g) of Section 443.31 of the Health and Safety Code, for the calendar year ending 13 months prior to the applicable February 1.

(D) Any other materials on file with the Office of Statewide Health Planning and Development.

(4) For the 1993–94 transfer year and subsequent transfer years, the divisor to be used for purposes of the calculation referred to in paragraph (4) of subdivision (f) shall be determined by the department. The divisor shall be calculated to ensure that the appropriate amount of transfers from transferor entities are received into the fund to satisfy the requirements of Section 14105.98 for the particular transfer year. For the 1993–94 transfer year, the divisor shall be 1.742.

(5) For the 1993–94 fiscal year, the transfer amount that would otherwise be required from the University of California shall be increased by fifteen million dollars ($15,000,000).

(6) Notwithstanding any other provision of law, the total amount of transfers required from the transferor entities for any particular transfer year shall not exceed the sum of the following:

(A) The amount needed to fund the nonfederal share of all payment adjustment amounts applicable to the particular payment adjustment year as calculated under Section 14105.98. Included in the

calculations for this purpose shall be any decreases in the program as a whole, and for individual hospitals, that arise due to the provisions of Section 1396r-4(f) or (g) of Title 42 of the United States Code.

(B) The amount needed to fund the transfers to the Health Care Deposit Fund, as referred to in paragraphs (2) and (3) of subdivision (d).

(7) (A) Except as provided in paragraph (2) of subdivision (j), and except for a prudent reserve not to exceed two million dollars ($2,000,000) in the Medi-Cal Inpatient Payment Adjustment Fund, any amounts in the fund, including interest that accrues with respect to the amounts in the fund, that are not expended, or estimated to be required for expenditure, under Section 14105.98 with respect to a particular transfer year shall be returned on a pro rata basis to the transferor entities for the particular transfer year within 120 days after the department determines that the funds are not needed for an expenditure in connection with the particular transfer year.

(B) The department shall determine the interest amounts that have accrued in the fund from its inception through June 30, 1995, and, no later than January 1, 1996, shall distribute these interest amounts to transferor entities, as follows:

(i) The total amount transferred to the fund by each transferor entity for all transfer years from the inception of the fund through June 30, 1995, shall be determined.

(ii) The total amounts determined for all transferor entities under clause (i) shall be added together, yielding an aggregate of the total amounts transferred to the fund for all transfer years from the inception of the fund through June 30, 1995.

(iii) The total amount determined under clause (i) for each transferor entity shall be divided by the aggregate amount determined under clause (ii), yielding a percentage for each transferor entity.

(iv) The total amount of interest earned by the fund from its inception through June 30, 1995, shall be determined.

(v) The percentage determined under clause (iii) for each transferor entity shall be multiplied by the amount determined under clause (iv), yielding the amount of interest that shall be distributed under this subparagraph to each transferor entity.

(C) Regarding any funds returned to a transferor entity under subparagraph (A), or interest amounts distributed to a transferor entity under subparagraph (B), the department shall provide to the transferor entity a written statement that explains the basis for the particular return or distribution of funds and contains the general calculations used by the department in determining the amount of the particular return or distribution of funds.

(i) (1) For the 1991–92 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in eight equal installments. Except as provided below, the first installment shall accrue on July 25, 1991, and all other

installments shall accrue on the fifth day of each month thereafter from August through February.

(2) Notwithstanding paragraph (1), no installment shall be payable to the Controller until that date which is 20 days after the department notifies the transferor entity in writing that the payment adjustment program set forth in Section 14105.98 has first gained federal approval as part of the Medi-Cal program. For purposes of this paragraph, federal approval requires both (i) approval by appropriate federal agencies of an amendment to the Medi-Cal State Plan, as referred to in subdivision (o) of Section 14105.98, and (ii) confirmation by appropriate federal agencies regarding the availability of federal financial participation for the payment adjustment program set forth in Section 14105.98 at a level of at least 40 percent of the percentage of federal financial participation that is normally applicable for Medi-Cal expenditures for acute inpatient hospital services.

(3) If any installment that would otherwise be payable under paragraph (1) is not paid because of the provisions of paragraph (2), then subparagraphs (A) and (B) shall be followed when federal approval is gained.

(A) All installments that were deferred based on the provisions of paragraph (2) shall be paid no later than 20 days after the department notifies the transferor entity in writing that federal approval has been gained, in an amount consistent with subparagraph (B).

(B) The installments paid pursuant to subparagraph (A) shall be paid in full, subject to an adjustment in amount pursuant to paragraph (5) of subdivision (f).

(4) All installments for the 1991–92 transfer year that arise in months after federal approval is gained shall be paid by the fifth day of the month or 20 days after the department notifies the transferor entity in writing that federal approval has been gained, whichever is later. These installments shall be subject to an adjustment in amount pursuant to paragraph (5) of subdivision (f).

(5) (A) Except as provided in subparagraphs (B) and (C), for the 1992–93 transfer year and subsequent transfer years, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in eight equal installments. The first installment shall be payable on July 10 of each transfer year. All other installments shall be payable on the fifth day of each month thereafter from August through February.

(B) For the 1994–95 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in five equal installments. The first installment shall be payable on October 5, 1994. The next four installments shall be payable on the fifth day of each month thereafter from November through February.

(C) For the 1995–96 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the

fund, in five equal installments. The first installment shall be payable on October 5, 1995. The next four installments shall be payable on the fifth day of each month thereafter from November through February.

(D) Except as otherwise specifically provided, subparagraphs (A) to (C), inclusive, shall not apply to increases in transfer amounts described in paragraph (2) of subdivision (h) or to additional transfer amounts described in subdivision (o).

(E) All requests for transfer payments, or adjustments thereto, issued by the department shall be in writing and shall include (i) an explanation of the basis for the particular transfer request or transfer activity, (ii) a summary description of program funding status for the particular transfer year, and (iii) the general calculations used by the department in connection with the particular transfer request or transfer activity.

(6) A transferor entity may use any of the following funds for purposes of meeting its transfer obligations under this section:

(A) General funds of the transferor entity.

(B) Any other funds permitted by law to be used for these purposes, except that a transferor entity shall not submit to the Controller any federal funds unless those federal funds are authorized by federal law to be used to match other federal funds. In addition, no private donated funds from any health care provider, or from any person or organization affiliated with such a health care provider, shall be channeled through a transferor entity or any other public entity to the fund. The transferor entity shall be responsible for determining that funds transferred meet the requirements of this subparagraph.

(j) (1) If a transferor entity does not submit any transfer amount within the time period specified in this section, the Controller shall offset immediately the amount owed against any funds which otherwise would be payable by the state to the transferor entity. The Controller, however, shall not impose an offset against any particular funds payable to the transferor entity where the offset would violate state or federal law.

(2) Where a withhold or a recoupment occurs pursuant to the provisions of paragraph (2) of subdivision (r) of Section 14105.98, the nonfederal portion of the amount in question shall remain in the fund, or shall be redeposited in the fund by the department, as applicable. The department shall then proceed as follows:

(A) If the withhold or recoupment was imposed with respect to a hospital whose licensee was a transferor entity for the particular state fiscal year to which the withhold or recoupment related, the nonfederal portion of the amount withheld or recouped shall serve as a credit for the particular transferor entity against an equal amount of transfer obligations under this section, to be applied whenever the transfer obligations next arise. Should no such transfer obligation

arise within 180 days, the department shall return the funds in question to the particular transferor entity within 30 days thereafter.

(B) For other situations, the withheld or recouped nonfederal portion shall be subject to paragraph (7) of subdivision (h).

(k) All amounts received by the Controller pursuant to subdivision (i), paragraph (2) of subdivision (h), or subdivision (o), or offset by the Controller pursuant to subdivision (j), shall immediately be deposited in the fund.

(*l*) For purposes of this section, the disproportionate share list utilized by the department for a particular transfer year shall be identical to the disproportionate share list utilized by the department for the same state fiscal year for purposes of Section 14105.98. Nothing on a disproportionate share list, once issued by the department, shall be modified for any reason other than mathematical or typographical errors or omissions on the part of the department or the Office of Statewide Health Planning and Development in preparation of the list.

(m) Neither the intergovernmental transfers required by this section, nor any elective transfer made pursuant to Section 14164, shall create, lead to, or expand the health care funding or service obligations for current or future years for any transferor entity, except as required of the state by this section or as may be required by federal law, in which case the state shall be held harmless by the transferor entities on a pro rata basis.

(n) No amount submitted to the Controller pursuant to subdivision (i), paragraph (2) of subdivision (h), or subdivision (o), or offset by the Controller pursuant to subdivision (j), shall be claimed or recognized as an allowable element of cost in Medi-Cal cost reports submitted to the department.

(o) Whenever additional transfer amounts are required to fund the nonfederal share of payment adjustment amounts under Section 14105.98 that are distributed after the close of the particular payment adjustment year to which the payment adjustment amounts apply, the additional transfer amounts shall be paid by the parties who were the transferor entities for the particular transfer year that was concurrent with the particular payment adjustment year. The additional transfer amounts shall be calculated under the formula that was in effect during the particular transfer year. For transfer years prior to the 1993–94 transfer year, the percentage of the additional transfer amounts available for transfer to the Health Care Deposit Fund under subdivision (d) shall be the percentage that was in effect during the particular transfer year. These additional transfer amounts shall be paid by transferor entities within 20 days after the department notifies the transferor entity in writing of the additional transfer amount to be paid.

(p) (1) Ten million dollars ($10,000,000) of the amount transferred from the Medi-Cal Inpatient Payment Adjustment Fund to the Health Care Deposit Fund due to amounts transferred

attributable to years prior to the 1993–94 fiscal year is hereby appropriated without regard to fiscal years to the State Department of Health Services to be used to support the development of managed care programs under the department's plan to expand Medi-Cal managed care.

(2) These funds shall be used by the department for both of the following purposes: (A) distributions to counties or other local entities that contract with the department to receive those funds to offset a portion of the costs of forming the local initiative entity, and (B) distributions to local initiative entities that contract with the department to receive those funds to offset a portion of the costs of developing the local initiative health delivery system in accordance with the department's plan to expand Medi-Cal managed care.

(3) Entities contracting with the department for any portion of the ten million dollars ($10,000,000) shall meet the objectives of the department's plan to expand Medi-Cal managed care with regard to traditional and safety net providers.

(4) Entities contracting with the department for any portion of the ten million dollars ($10,000,000) may be authorized under those contracts to utilize their funds to provide for reimbursement of the costs of local organizations and entities incurred in participating in the development and operation of a local initiative.

(5) To the full extent permitted by state and federal law, these funds shall be distributed by the department for expenditure at the local level in a manner that qualifies for federal financial participation under the medicaid program.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make changes in provisions relating to the Medi-Cal program that are necessary to implement the Budget Act of 1996, it is necessary that this act go into effect immediately.

CHAPTER 199

An act to amend Sections 349.109, 104380, 104385, 104420, 104485, 104550, 124900, 124930, and 124950 of the Health and Safety Code, to amend Sections 12696.05 and 12699.50 of the Insurance Code, to amend Sections 14148.99, 16809.5, 16909, 16945, and 16997.1 of, to add Section 16990.1 to, and to repeal Section 16918 of, the Welfare and Institutions Code, relating to health, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 349.109 of the Health and Safety Code is amended to read:

349.109. This article shall remain operative only until July 1, 1997, shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1998, deletes or extends that date.

SEC. 2. Section 104380 of the Health and Safety Code is amended to read:

104380. (a) Funds appropriated to the department for local lead agencies for purposes of this article shall be allocated prospectively, on a quarterly basis in accordance with this section.

(b) No local lead agency shall be allocated less than one hundred ten thousand dollars ($110,000).

(c) (1) Except as provided in subdivision (b), counties not listed in subdivision (d) shall receive an allocation based on each county's proportion of the statewide population.

(2) Counties that receive their allocations pursuant to paragraph (1) shall receive 73 percent of their 1990–91 fiscal year allocation.

(d) Except as provided in subdivision (b), the balance of the funds after the allocation contained in subdivision (c) have been made, shall be allocated to the following specified counties in accordance with the following percentages:

COUNTY	ALLOCATION
Alameda	4.7427%
Contra Costa	1.8032%
Fresno	2.6855%
Kern	1.7083%
Lake	0.1826%
Los Angeles	43.8057%
Mendocino	0.2664%
Merced	0.7244%
Monterey	1.2937%
Orange	5.1382%
Placer	0.3697%
Riverside	3.1828%
Sacramento	3.2922%
San Bernardino	3.7972%
San Diego	5.9971%
San Francisco	5.3898%
San Joaquin	1.7413%
San Luis Obispo	0.8096%

San Mateo	1.4582%
Santa Barbara	0.7918%
Santa Clara	5.2450%
Santa Cruz	0.7709%
Stanislaus	1.2793%
Tulare	1.3768%
Ventura	1.5472%
Yolo	0.6004%

(e) Except as provided in subdivision (b), the allocation for those counties in which a city health department which is a local lead agency as defined by subdivision (*l*) of Section 104355 is located shall be apportioned among the local lead agencies in that county based on their jurisdiction's proportionate share of the countywide population.

(f) Reductions in allocations necessary to comply with subdivision (b) shall be distributed among the counties listed in subdivision (d) proportionately based on the table contained in subdivision (d).

(g) The department shall use population estimates for 1989 for each county and for each city as specified in the Department of Finance E-1 Report.

(h) Payments shall be made prospectively, on a quarterly basis, to local jurisdictions.

(i) (1) The department shall conduct a fiscal and program review on a regular basis.

(2) If the department determines that any county is not in compliance with any provision of this chapter, the county shall submit to the department, within 60 days, a plan for complying with this article.

(3) The department may withhold funds from local lead agencies allocated funds under this section that are not in compliance with this chapter in the same manner as the department is authorized under Chapter 5 (commencing with Section 16940) of Part 4.7 of Division 9 of the Welfare and Institutions Code. The department may terminate the agreement with the noncompliant local lead agency, recoup any unexpended funds from the noncompliant local lead agency, and reallocate both the withheld and recouped funds to provide services available under this section to the jurisdiction of the noncompliant agency through an agreement with a different governmental or private nonprofit agency capable of delivering those services based on the department's local lead agency guidelines for local plans and a process determined by the department. The department may encumber and reallocate these funds no sooner than three months after the date of the first notification that the department has determined the local lead agency to be out of compliance with statutory requirements.

SEC. 3. Section 104385 of the Health and Safety Code is amended to read:

104385. (a) The department shall award and administer grants for projects directed at the prevention of tobacco-related diseases. The purpose of the grant program is to conduct health education and promotion activities targeted to high-risk persons and groups in order to reduce the number of persons beginning to use tobacco, continuing to use tobacco, or developing tobacco-related diseases. The grants shall provide funds to eligible grantees, as determined by the department. In awarding grants, the department shall select a variety of projects and grantees.

(b) The department shall develop criteria and standards for the allocation of grant awards which consider the need to balance target populations to be served, project types of rural suburban and urban projects, and consider the current regional availability of similar services. Target populations may include, but not be limited to, children, young adults, pregnant women, low-income individuals, Black, Hispanic, Native American, and Asian-Pacific Islander populations, current smokers, and schoolaged youth no longer attending school classes. The grant awards may also be made to school districts for nonclassroom, districtwide efforts to reduce tobacco use. The department shall develop mechanisms to evaluate all programs and shall require any program funded under this article to provide statistics on the impact of the program.

(c) The department shall give priority to grantees who do the following:

(1) Demonstrate community support for the project.

(2) Design the project to coordinate with other community services including local health programs, school-based programs, or voluntary health organizations.

(3) Design the project to utilize and enhance existing services and resources.

(4) Serve a target population at high risk of starting tobacco use or developing tobacco-related illnesses.

(5) Demonstrate an understanding of the role community norms have in influencing behavioral change regarding tobacco use.

(6) Indicate promising innovative approaches to diminishing tobacco use among target groups and permit those approaches to be replicated by others.

(d) Of the funds appropriated to the department in Item 4260-111-231 of the 1996 Budget Act, five million dollars ($5,000,000) shall be available specifically for grants awarded on a competitive basis to provide smoking cessation classes or services for persons eligible for and enrolled in the state's Medi-Cal program, or persons who are medically indigent.

SEC. 4. Section 104420 of the Health and Safety Code is amended to read:

104420. The State Department of Education shall provide the leadership for the successful implementation of this article in programs administered by local public and private schools, school districts, and county offices of education. The State Department of Education shall do all of the following:

(a) Provide a planning and technical assistance program to carry out its responsibilities under this article.

(b) Provide guidelines for schools, school districts, and school district consortia to follow in the preparation of plans for implementation of antitobacco use programs for schoolage populations. The guidelines shall:

(1) Require the applicant agency to select one or more model program designs and shall permit the applicant to modify the model program designs to take special local needs and conditions into account.

(2) Require the applicant agency to prepare for each target population to be served a description of the service to be provided, an estimate of the number to be served, an estimate of the success rate and a method to determine to what extent goals have been achieved.

(3) Require plan submissions to include a staffing configuration and a budget setting forth use and distribution of funds in a clear and detailed manner.

(c) Prepare model program designs and information for local schools, local school districts, consortia, and county offices of education to follow in establishing direct service programs to targeted populations. Model program designs shall, to the extent feasible, be based on studies and evaluations that determine which service delivery systems are effective in reducing tobacco use and are cost-effective. The State Department of Education shall consult with the department, and school districts with existing antitobacco programs in the preparation of model program designs and information.

(d) Provide technical assistance for local schools, local school districts, and county offices of education regarding the prevention and cessation of tobacco use. In fulfilling its technical assistance responsibilities, the State Department of Education may establish a center for tobacco use prevention that shall identify, maintain, and develop instructional materials and curricula encouraging the prevention or cessation of tobacco use. The State Department of Education shall consult with the department and others with expertise in antitobacco materials or curricula in the preparation of these materials and curricula.

(e) Monitor the implementation of programs that it has approved under this article to ensure successful implementation.

(f) Prepare guidelines within 180 days of the effective date of this article for a school-based program of outreach, education,

intervention, counseling, peer counseling, and other activities to reduce and prevent smoking among schoolage youth.

(g) Assist county offices of education to employ a tobacco use prevention coordinator to assist local schools and local public and community agencies in preventing tobacco use by pupils.

(h) Train the tobacco use prevention coordinators of county offices of education so that they are:

(1) Familiar with relevant research regarding the effectiveness of various kinds of antitobacco use programs.

(2) Familiar with department guidelines and requirements for submission, review, and approval of school-based plans.

(3) Able to provide effective technical assistance to schools and school districts.

(i) Establish a tobacco use prevention innovation program effort directed at specific pupil populations.

(j) Establish a competitive grants program to develop innovative programs promoting the avoidance, abatement, and cessation of tobacco use among pupils.

(k) Establish a tobacco-free school recognition awards program.

(*l*) As a condition of receiving funds pursuant to this article, the State Department of Education, county offices of education, and local school districts shall ensure that they coordinate their efforts toward smoking prevention and cessation with the lead local agency in the community where the local school district is located.

(m) (1) Develop, in coordination with the county offices of education, a formula that allocates funds for school-based, antitobacco education programs to school districts and county offices of education for all students in grades 4 to 8, inclusive, on the basis of the average daily attendance (ADA) of pupils. School districts shall provide tobacco-use prevention instruction for students, grades 4 to 8, inclusive, that address the following essential topics:

(A) Immediate and long-term undesirable physiologic, cosmetic, and social consequences of tobacco use.

(B) Reasons that adolescents say they smoke or use tobacco.

(C) Peer norms and social influences that promote tobacco use.

(D) Refusal skills for resisting social influences that promote tobacco use.

(2) Develop a competitive grants program administered by the State Department of Education directed at students in grades 9 to 12, inclusive. The purpose of the grant program shall be to conduct tobacco-use prevention and cessation activities targeted to high-risk students and groups in order to reduce the number of persons beginning to use tobacco, or continuing to use tobacco. The State Department of Education shall consult with local lead agencies, the Tobacco Education and Research Oversight Committee, and representatives from nonprofit groups dedicated to the reduction of tobacco-associated disease in making grant award determinations. Grant award amounts shall be determined by available funds. The

State Department of Education shall give priority to programs, including, but not limited to, the following:

(A) Target current smokers and students most at risk for beginning to use tobacco.

(B) Offer or refer students to cessation classes for current smokers.

(C) Utilize existing antismoking resources, including local antismoking efforts by local lead agencies and competitive grant recipients.

(n) (1) Allocate funds for administration to county offices of education for implementation of Tobacco Use Prevention Programs. The funds shall be allocated according to the following schedule based on average daily attendance in the prior year credited to all elementary, high, and unified school districts, and to all county superintendents of schools within the county as certified by the Superintendent of Public Instruction:

(A) For counties with over 400,000 average daily attendance, thirty cents ($0.30) per average daily attendance.

(B) For counties with more than 100,000 and less then 400,000 average daily attendance, sixty-five cents ($0.65) per average daily attendance.

(C) For counties with more than 50,000 and less than 100,000 average daily attendance, ninety cents ($0.90) per average daily attendance.

(D) For counties with more than 25,000 and less than 50,000 average daily attendance, one dollar ($1) per average daily attendance.

(E) For counties with less than 25,000 average daily attendance, twenty-five thousand dollars ($25,000).

(2) In the event that funds appropriated for this purpose are insufficient, the Superintendent of Public Instruction shall prorate available funds among participating county offices of education.

(o) Allocate funds appropriated by the act adding this subdivision for local assistance to school districts and county offices of education based on average daily attendance reported in the second principal apportionment in the prior fiscal year. Those school districts and county offices of education that receive one hundred thousand dollars ($100,000) or more of local assistance pursuant to this part shall target 30 percent of those funds for allocation to schools that enroll a disproportionate share of students at risk for tobacco use.

(p) (1) Provide that all school districts and county offices of education that receive funding under subdivision (o) make reasonable progress toward providing a tobacco-free environment in school facilities for students and employees.

(2) All school districts and county offices of education that receive funding pursuant to paragraph (1) shall adopt and enforce a tobacco-free campus policy no later than July 1, 1995. The policy shall prohibit the use of tobacco products, any time, in district-owned or

leased buildings, on district property and in district vehicles. Information about the policy and enforcement procedures shall be communicated clearly to school personnel, parents, students, and the larger community. Signs stating "Tobacco use is prohibited" shall be prominently displayed at all entrances to school property. Information about smoking cessation support programs shall be made available and encouraged for students and staff. Any school district or county office of education that does not have a tobacco-free district policy implemented by July 1, 1996, shall not be eligible to apply for funds from the Cigarette and Tobacco Products Surtax Fund in the 1996–97 fiscal year and until the tobacco-free policy is implemented. Funds that are withheld from school districts that fail to comply with the tobacco-free policy shall be available for allocation to school districts implementing a tobacco-use prevention education program, pursuant to subdivision (m).

SEC. 5. Section 104485 of the Health and Safety Code is amended to read:

104485. This article shall remain operative only until July 1, 1997, and shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is effective on or before January 1, 1998, deletes or extends that date.

SEC. 6. Section 104550 of the Health and Safety Code is amended to read:

104550. This article shall become inoperative on July 1, 1997, and, as of January 1, 1998, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 1998, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 7. Section 124900 of the Health and Safety Code is amended to read:

124900. (a) The State Department of Health Services shall select primary care clinics that are licensed under paragraph (1) or (2) of subdivision (a) of Section 1204, or are exempt from licensure under subdivision (c) of Section 1206, to be reimbursed for delivering medical services, including preventative health care, and smoking prevention and cessation health education, to program beneficiaries. In selecting primary care clinics for reimbursement, the department shall give priority to clinics that provide services in a medically undeserved area or to a medically undeserved population as determined by the department.

(b) As a part of the award process for funding pursuant to this article, the department shall take into account the availability of primary care services in the various geographic areas of the state. The department shall determine which areas within the state have populations which have clear and compelling difficulty in obtaining access to primary care. The department shall consider proposals from new and existing eligible providers to extend clinic services to these populations. The department shall give equal consideration to all

applicants, regardless of whether or not they have previously been funded for this program by the department.

(c) Each primary care clinic applying for funds pursuant to this article shall demonstrate that the funds shall be used to expand medical services, including preventative health care, and smoking prevention and cessation health education, for program beneficiaries based on the primary care clinic's projected increase in outpatient visits as compared to the outpatient visits provided in the 1988 calendar year.

(d) (1) For purposes of this article, an outpatient visit shall include, diagnosis and medical treatment services, including the associated pharmacy, X-ray, and laboratory services, and prevention health and case management services that are needed as a result of the outpatient visit. For a new patient, an outpatient visit shall also include a health assessment encompassing an assessment of smoking behavior and the patient's need for appropriate health education specific to related tobacco use and exposure.

(2) "Case management" includes, for this purpose, the management of all physician services, both primary and specialty, and arrangements for hospitalization, postdischarge care, and followup care.

(e) Payment shall be on a per visit basis at a rate that is determined by the department to be appropriate for an outpatient visit as defined in this section, not to exceed sixty-five dollars ($65) per outpatient visit.

In developing a statewide uniform rate for an outpatient visit as defined in this article, the department shall consider existing rates of payments for comparable outpatient visits. The department shall review the outpatient visit rate on an annual basis.

(f) Not later than May 1 of each year, the department shall adopt and provide each clinic with a schedule for programs under this article, including the date for notification of availability of funds, the deadline for the submission of a completed application, and an anticipated contract award date for successful applicants.

(g) In administering the program created pursuant to this article, the department shall utilize the Medi-Cal program statutes and regulations pertaining to program participation standards, medical and administrative recordkeeping, the ability of the department to monitor and audit clinic records pertaining to program services rendered to program beneficiaries and take recoupments or recovery actions consistent with monitoring and audit findings, and the provider's appeal rights. Each primary care clinic applying for program participation shall certify that it will abide by these statutes and regulations and other program requirements set forth in this article.

SEC. 8. Section 124930 of the Health and Safety Code is amended to read:

124930. (a) For any condition detected as part of a child health and disability prevention screen for any child eligible for services under Section 104395, if the child was screened by the clinic or upon referral by a child health and disability prevention program provider, unless the child is eligible to receive care with no share of cost under the Medi-Cal program, is covered under another publicly funded program, or the services are payable under private coverage, a clinic shall, as a condition of receiving funds under this article, do all of the following:

(1) Insofar as the clinic directly provides these services for other patients, provide medically necessary followup treatment, including prescription drugs.

(2) Insofar as the clinic does not provide treatment for the condition, arrange for the treatment to be provided.

(b) (1) If any child requires treatment the clinic does not provide, the clinic shall arrange for the treatment to be provided, and the name of that provider shall be noted in the patient's medical record.

(2) The clinic shall contact the provider or the patient or his or her guardian, or both, within 30 days after the arrangement for the provision of treatment is made, and shall determine if the provider has provided appropriate care, and shall note the results in the patient's medical record.

(3) If the clinic is not able to determine, within 30 days after the arrangement for the provision of treatment is made, whether the needed treatment was provided, the clinic shall provide written notice to the county child health and disability prevention program director, and shall also provide a copy to the state director of the program.

(c) (1) For the 1994–95 and 1995–96 fiscal years, inclusive, the state department may establish a reimbursement program for referral case management services required pursuant to subdivision (b), provided to a child pursuant to subdivision (a).

(2) The department may utilize funds appropriated for the purposes of this article for reimbursements under paragraph (1).

SEC. 9. Section 124950 of the Health and Safety Code is amended to read:

124950. This article shall remain operative only until July 1, 1997, and shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is effective on or before January 1, 1998, deletes or extends that date.

SEC. 10. Section 12696.05 of the Insurance Code is amended to read:

12696.05. The board may do all of the following:

(a) Determine eligibility criteria for the program. These criteria shall include the requirements set forth in Section 12698.

(b) Determine the eligibility of applicants.

(c) Determine when subscribers are covered and the extent and scope of coverage.

(d) Determine subscriber contribution amounts schedules. Subscriber contribution amounts shall be indexed to the federal poverty level and shall not exceed 2 percent of a subscriber's annual gross family income.

(e) Provide coverage through participating health plans or through coordination with other state programs, and contract for the processing of applications and the enrollment of subscribers. Any contract entered into pursuant to this part shall be exempt from any provision of law relating to competitive bidding, and shall be exempt from the review or approval of any division of the Department of General Services. The board shall not be required to specify the amounts encumbered for each contract, but may allocate funds to each contract based on projected and actual subscriber enrollments in a total amount not to exceed the amount appropriated for the program.

(f) Authorize expenditures from the fund to pay program expenses which exceed subscriber contributions, and to administer the program as necessary.

(g) Develop a promotional component of the program to make Californians aware of the program and the opportunity that it presents.

(h) Issue rules and regulations as necessary to administer the program. Until January 1, 1998, any rules and regulations issued pursuant to this subdivision that manage program integrity, revise the benefit package, or reduce the eligibility criteria below 300 percent of the federal poverty level may be adopted as emergency regulations in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The adoption of these regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health, and safety, or general welfare. The regulations shall become effective immediately upon filing with the Secretary of State.

(i) Exercise all powers reasonably necessary to carry out the powers and responsibilities expressly granted or imposed by this part.

SEC. 11. Section 12699.50 of the Insurance Code is amended to read:

12699.50. This part shall remain operative only until July 1, 1997, shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is effective on or before January 1, 1998, deletes or extends that date.

SEC. 12. Section 14148.99 of the Welfare and Institutions Code is amended to read:

14148.99. This article shall remain operative only until July 1, 1997, shall remain in effect only until January 1, 1998, and as of that

date is repealed, unless a later enacted statute, which is effective on or before January 1, 1998, deletes or extends that date.

SEC. 13. Section 16809.5 of the Welfare and Institutions Code is amended to read:

16809.5. (a) Funds appropriated for the purposes of this section shall be allocated on a monthly basis.

(b) Money allocated for the purposes of this section may be used to expand the scope of benefits, to fund special projects which alleviate problems of access to health and dental care under the County Medical Services Program and to compensate hospitals and other emergency health service providers for emergency treatment of out-of-county indigent patients and shall not be used to fund existing levels of service.

(c) Funds available from appropriations for the purposes of this chapter may be utilized to fund increased program costs due to caseload increases and provider rate increases.

(d) Unexpended funds allocated from the fiscal year 1990–91 appropriation for purposes of improving dental access may be utilized in fiscal year 1991–92 for the continuation and completion of projects developed to improve dental access.

(e) This section shall remain operative only until July 1, 1997, and shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is effective on or before January 1, 1998, deletes or extends that date.

SEC. 14. Section 16909 of the Welfare and Institutions Code is amended to read:

16909. (a) Any county which receives funds pursuant to this part shall deposit them in a special revenue fund or trust fund established solely for this purpose, in a hospital services account, a physician services account, and other county health services account, and any other account or subaccount the department may require, before transferring or expending them for any of the uses allowed in this part.

(b) Any county subject to the requirements of subdivision (a) shall deposit the funds in the special revenue fund or trust fund before transferring the funds to the county emergency medical services fund, as provided in subdivision (c) of Section 16933 and Section 16951.

(c) (1) Interest on each fund, account, or subaccount shall accrue to the benefit of the fund, account, or subaccount, and shall be expended for the same purposes as the other funds in the account or subaccount.

(2) Interest or other increments resulting from funds transferred to the county for noncounty hospitals pursuant to paragraph (1) or (2) of subdivision (b) of Section 16946 shall be expended under paragraph (1) or (2) of subdivision (b) of Section 16946.

(d) For the period July 1, 1991, to June 30, 1997, inclusive, counties shall submit a report that displays cost and utilization data for each

account in the trust fund established pursuant to this section, to the department on a semiannual, preliminary annual, and final annual basis, in a form prescribed by the department.

(e) Data required by subdivision (d) shall include, but not be limited to, all of the following:

(1) For the Hospital Services Account, the data shall include all of the following:

(A) Inpatient stay, including child health and disability prevention followup treatment, including the following information:

(i) Facility name.

(ii) Amount paid by the county.

(iii) Number of discharges.

(iv) Patient days.

(B) Outpatient visits, including child health and disability prevention followup treatment, including the following information:

(i) Facility name.

(ii) Amount paid by the county.

(iii) Number of visits.

(C) Emergency room.

(i) Facility name.

(ii) Amount paid by the county.

(iii) Number of visits.

(2) For the Physician Services Account, the data shall include all of the following:

(A) Emergency services, including the following information:

(i) The number of providers.

(ii) The number of visits.

(iii) The amount paid by the county.

(B) Obstetrics, including the following information:

(i) The number of providers.

(ii) The number of visits.

(iii) The amount paid by the county.

(C) Pediatrics, including the following information:

(i) The number of providers.

(ii) The number of visits.

(iii) The amount paid by the county.

(D) Child health and disability prevention followup treatment, including the following information:

(i) The number of providers.

(ii) The number of visits.

(iii) The amount paid by the county.

(3) For the other county health services account, the data shall include all of the following:

(A) For funds expended for hospital services, those data in paragraph (1) of subdivision (e).

(B) For funds expended for physician services, those data in paragraph (2) of subdivision (e).

(C) For funds expended for services other than those provided and billed for by a hospital or physician, the data shall include:

(i) The number of providers by type of service.

(ii) The number of visits or units, or both, by type of service.

(iii) The amount paid by the county by type of service.

(D) Child health and disability prevention followup treatment, including the following information:

(i) The number of providers.

(ii) The number of visits.

(iii) The amount paid by the county.

(f) The Director of Health Services shall withhold, in part or in whole, payment of moneys governed by Chapter 4 (commencing with Section 16930) and Chapter 5 (commencing with Section 16940) of this part to a county, until the reports specified in this section have been submitted to the department in the form and according to the procedures established by the department.

SEC. 15. Section 16918 of the Welfare and Institutions Code is repealed.

SEC. 16. Section 16945 of the Welfare and Institutions Code is amended to read:

16945. (a) The department shall annually verify and transmit to each MISP county and each CMSP county the figures specified in subdivision (c), using data supplied by the office.

(b) (1) For purposes specified in subdivision (c), the office shall use data from the quarterly reports required by Section 128740 of the Health and Safety Code.

(2) For the 1989–90 fiscal year computations, the office shall use the 1988 calendar year data, as adjusted by the office, existing on the statewide file on September 1, 1989.

(3) For the computations for fiscal years after the 1989-90 fiscal year, the office shall use the data from the quarterly reports for the calendar year preceding the computational fiscal year, as adjusted by the office, existing on the statewide file on April 15 immediately preceding the computational fiscal year.

(4) (A) Except as provided in subparagraphs (B), (C), and (D), the definitions, procedures, and data elements specified in Chapter 3 (commencing with Section 16920) shall be used in all computations required in subdivision (c).

(B) For the 1991–92 fiscal year, the following definitions shall be used in all computations required in subdivision (c):

(i) "Uncompensated care charges" means the sum of the charges related to patients falling within the charity-other category in the 1990 calendar year and 25 percent of the charges related to patients falling within the bad debts category in the first two quarters of the 1990 calendar year, as both categories of charges are reported quarterly to the office pursuant to Section 128740 of the Health and Safety Code.

(ii) "Uncompensated care costs" means that amount calculated by applying an overall hospital cost-to-charge ratio, calculated by dividing gross operating expenses by gross inpatient and outpatient revenue, as reported quarterly to the office, to uncompensated care charges.

(C) For the 1992-93 fiscal year, the following definitions shall be used in all computations required in subdivision (c):

(i) "Uncompensated care charges" means the charges related to patients falling within charity-other, as reported quarterly to the office pursuant to Section 128740 of the Health and Safety Code.

(ii) "Uncompensated care costs" means that amount calculated by applying an overall hospital cost-to-charge ratio, calculated by dividing gross operating expenses by gross inpatient and outpatient revenue, as reported quarterly to the office, to uncompensated care charges.

(D) For the 1993–94, 1994–95, 1995–96, and 1996–97 fiscal years, the following definitions shall be used in all computations required in subdivision (c):

(i) (I) For county hospitals and for all hospitals operating in counties with no county hospital, "uncompensated care charges" means the charges related to patients falling within charity-other, gross inpatient revenue-county indigent programs and gross outpatient revenue-county indigent programs, as reported quarterly to the office pursuant to Section 128740 of the Health and Safety Code.

(II) For noncounty hospitals operating in a county with a county hospital, "uncompensated care charges" means the charges related to patients falling within charity-other and county indigent programs contractual adjustments, as reported quarterly to the office pursuant to Section 128740 of the Health and Safety Code.

(ii) "Uncompensated care costs" means that amount calculated by applying an overall hospital cost-to-charge ratio, calculated by dividing gross operating expenses less other operating revenue by gross inpatient and outpatient revenue, as reported quarterly to the office, to uncompensated care charges.

(c) The office shall compute the following data on uncompensated care costs reported by hospitals located within each MISP county and each CMSP county:

(1) The sum of uncompensated care costs for all hospitals.

(2) The sum of uncompensated care costs for all noncounty hospitals.

(3) The sum of uncompensated care costs for all county hospitals.

(4) The uncompensated care costs of each hospital within the county.

(5) The percentage derived from dividing the result of paragraph (2) by the result of paragraph (1).

(6) The percentage derived from dividing the result of paragraph (3) by the result of paragraph (1).

(7) The percentage for each individual hospital derived from dividing each noncounty hospital's uncompensated care cost in paragraph (4) by the amount in paragraph (2).

(d) The office shall transmit to the department the data specified in subdivision (c) within 30 days of the dates specified in paragraph (2) of subdivision (b) and paragraph (3) of subdivision (b) of this section.

SEC. 17. Section 16990.1 is added to the Welfare and Institutions Code, to read:

16990.1. Notwithstanding the first sentence of paragraph (1) of subdivision (a) of Section 16990, for the purposes of determining the level of financial support in the 1996–97 fiscal year, the amounts specified in subparagraph (A) of paragraph (1) of subdivision (a) of Section 16990 shall be added to 50 percent of the amounts specified in subparagraph (B) of paragraph (1) of subdivision (a).

SEC. 18. Section 16997.1 of the Welfare and Institutions Code is amended to read:

16997.1. This part shall remain operative only until July 1, 1997, and shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is effective on or before January 1, 1998, deletes or extends that date.

SEC. 19. (a) The Rural Health Policy Council, established pursuant to Part 5 (commencing with Section 1179) of Division 1 of the Health and Safety Code, through the Office of Statewide Health Planning and Development, shall develop and administer a competitive grants program for projects located in rural areas of California. The Rural Health Policy Council shall make a determination of what constitutes rural after receiving public input and upon recommendation of the Interdepartmental Rural Health Coordinating Committee and the Rural Health Programs Liaison. The purpose of this grants program shall be to fund innovative, collaborative, cost-effective, and efficient projects that pertain to the delivery of health and medical services in rural areas of the state. The Rural Health Policy Council shall develop and establish uses for the funds to fund special projects that alleviate problems of access to quality health care in rural areas and to compensate public and private health care providers associated with direct delivery of patient care. The funds shall be used exclusively for medical and hospital care for treatment for patients who cannot afford to pay for services and for whom payment will not be made through private or public programs.

(b) The Rural Health Policy Council shall establish the criteria, standards, and eligibility to be used in requests for proposals or requests for application, the application review process, determining the maximum amount and number of grants to be awarded, preference and priority of projects, compliance monitoring, and the measurement of outcomes achieved after receiving comment from the public at a meeting held pursuant to the Bagley-Keene Open

Meeting Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code). The office shall administer the funds appropriated by the Budget Act of 1996 consistent with Proposition 99 for purposes of this section. Entities eligible for these funds shall include rural health providers served by the programs operated by the departments represented on the Rural Health Policy Council, which include the State Department of Alcohol and Drug Programs, the Emergency Medical Services Authority, the State Department of Health Services, the State Department of Mental Health, and the Office of Statewide Health Planning and Development. The grant funds shall be used to expand existing services or establish new services and shall not be used to supplant existing levels of service.

(c) The office shall periodically report to the Rural Health Policy Council on the status of the funded projects. This information shall also be available at the public meetings.

(d) This section shall become inoperative on July 1, 1997, and, as of January 1, 1998, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 1998, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 20. In the event that funds in the Cigarette and Tobacco Products Surtax Fund are insufficient to support the Budget Act appropriations for the programs authorized in this act, the Director of Finance may authorize the augmentation or reduction of the amounts appropriated in the Budget Act for the programs authorized in this act. These augmentations or reductions may be authorized not sooner than 45 days after notification in writing of the necessity therefor is provided to the chairpersons of the committees in each house that consider appropriations, the Chairperson of the Joint Legislative Budget Committee, and the chairpersons of the committees of each house that consider health policy, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee, or his or her designees, may in each instance determine. The following provisions shall also apply.

(a) The Director of Finance shall provide sufficient funding for those programs authorized in this act pursuant to Section 16809.5 of the Welfare and Institutions Code (expanded County Medical Services Program), Section 104395 of the Health and Safety Code (expanded Child Health and Disability Prevention Program), subdivision (e) of Section 104375 of the Health and Safety Code (media campaign), and Part 6.3 (commencing with Section 12695) of the Insurance Code (Access for Infants and Mothers Program).

(b) To the extent reductions are required under this section to appropriations for other programs authorized in this act and funded from the Cigarette and Tobacco Products Surtax Fund, these reductions shall be allocated among those programs on a pro rata basis.

(c) Copies of any notifications required to authorize augmentations or reductions pursuant to this section shall be provided to organizations representing the programs authorized in this act, and to counties, which request in writing that they be informed of such notifications.

SEC. 21. The State Department of Health Services may adopt emergency regulations to implement this act in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The initial adoption of the emergency regulations and one readoption of the initial regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health, and safety or general welfare. Initial emergency regulations and the first readoption of those regulations shall be exempt from review by the Office of Administrative Law. Emergency regulations authorized by this section and the readoption of those regulations shall be submitted to the Office of Administrative Law for filing with the Secretary of State and publication in the California Code of Regulations and each shall remain in effect for no more than 180 days.

SEC. 22. (a) Notwithstanding any provision of law, funds appropriated through the Budget Act of 1996 for the tobacco use competitive grants program set forth in Section 104385 of the Health and Safety Code and the tobacco prevention media campaign set forth in subdivision (e) of Section 104375 of the Health and Safety Code shall be available for expenditure without regard to fiscal year until July 1, 1999.

(b) Notwithstanding any provision of law, funds appropriated through the Budget Act of 1996 for the evaluation of the State Department of Education's tobacco use prevention education program pursuant to subdivision (c) of Section 104375 of the Health and Safety Code, for the State Department of Education's allocation of funds for school-based tobacco use prevention pursuant to Sections 104425 and 104430 of the Health and Safety Code, for the tobacco use prevention program set forth in Section 104400 of the Health and Safety Code, and for the rural health improvement grants established in Section 19 of this act shall be available for expenditure without regard to fiscal year until July 1, 1998.

SEC. 23. All funds derived from the imposition of taxes pursuant to Article 2 (commencing with Section 30121) of Chapter 2 of Part 13 of Division 2 of the Revenue and Taxation Code, which are appropriated for the purposes of this act, shall be used to supplement existing levels of services provided and shall not be used to fund existing levels of service.

SEC. 24. No funds derived from the imposition of taxes pursuant to Article 2 (commencing with Section 30121) of Chapter 2 of Part 13 of Division 2 of the Revenue and Taxation Code, the Hospital Services Account, the Physician Services Account, or the Unallocated

Account in the Cigarette and Tobacco Products Surtax Fund, for the purposes of this act, shall be used to pay for services except for the treatment of patients who cannot afford to pay for those services, and for whom payment will not be made through any private coverage or by any program funded in whole or in part by the federal government.

SEC. 25. Moneys in the Hospital Services Account, the Physician Services Account, the Health Education Account, and the Unallocated Account in the Cigarette and Tobacco Products Surtax Fund shall not be transferred to any other fund or account in the State Treasury, except as provided in this act or other legislation, and except for purposes of investment as provided in Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code. All interest or other increment resulting from investment shall be deposited to the respective account.

SEC. 26. Due to the necessity to implement the mandates of Article 2 (commencing with Section 30121) of Chapter 2 of Part 13 of Division 2 of the Revenue and Taxation Code, any contract made pursuant to this act shall not be subject to Part 2 (commencing with Section 10100) of the Public Contract Code.

SEC. 27. Notwithstanding any other provision of law, any unappropriated funds from the 1996–97 fiscal year contained in any of the accounts in the Cigarette and Tobacco Products Surtax Fund shall remain in that account, and be available for appropriation for the 1997–98 fiscal year.

SEC. 28. It is the intent of the Legislature that the appropriations contained in the Budget Act of 1996 shall not establish a precedent on how programs shall be funded from accounts in the Cigarette and Tobacco Products Surtax Fund in future fiscal years.

SEC. 29. The Office of the Legislative Analyst shall prepare an analysis, which may be contained in the Analysis of the 1997–98 Budget Bill, but in no case shall it be submitted later than March 1, 1997, on the expenditure of funds, by county, provided in accordance with Chapters 89 and 91 of the Statutes of 1991 for health care, and the expenditure by county of funds allocated from the Cigarette and Tobacco Products Surtax Fund for health care. The report shall be submitted to the Chairperson of the Joint Legislative Budget Committee and the chairperson of the committee in each house that considers appropriations.

SEC. 30. All programs authorized or amended by this act shall be deemed to be operative for the entire 1996–97 fiscal year.

SEC. 31. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 32. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to timely provide for the administration of this act for the 1996–97 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 200

An act to amend Sections 32230, 32231, 32233, 32234, 32236, and 32237 of, to amend and renumber the heading of Article 3.5 (commencing with Section 32230) of Chapter 2 of Part 19 of, and to add Article 4 (commencing with Section 48700) to Chapter 4 of Part 27 of, the Education Code, relating to schools, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that schools and communities work together to serve youth who demonstrate negative behavior and attitudes, and provide them community services and supervision to prevent them from entering the juvenile justice system.

SEC. 2. The Legislature finds and declares as follows:

(a) When schools and communities work together to address early indicators of juvenile delinquency, they improve the chances of positive outcomes for youth and increase the likelihood of diverting youth from the juvenile justice system.

(b) Youth at risk of delinquent behavior usually exhibit a pattern of multiple problems in a variety of settings, and intervention with these youths at the earliest sign of problems improves the probability of preventing subsequent delinquent behavior and reduces the need for more costly interventions and services.

(c) Truancy is a strong predictor of subsequent involvement with law enforcement and youth must be in school to benefit from educational programs and instruction.

(d) Juvenile delinquency prevention and intervention programs must be integrated among schools, local law enforcement, county probation services, social services, child welfare, family preservation programs, and community-based organizations, and these efforts must reflect local community determinations of the most pressing problems and program priorities.

SEC. 3. The heading of Article 3.5 (commencing with Section 32230) of Chapter 2 of Part 19 of the Education Code is amended and renumbered to read:

Article 3.7. School Violence Reduction Programs

SEC. 4. Section 32230 of the Education Code is amended to read:

32230. It is the intent of the Legislature that schools and school districts receiving grants pursuant to this article accomplish the following goals:

(a) Protect pupils and school staff from crime and violence on school campuses.

(b) Secure school campuses from outside criminal activity and disturbances.

(c) Provide safe passage for pupils to and from school.

(d) Reduce truant and delinquent behavior by pupils.

(e) Teach pupils techniques for resolving conflicts without resorting to the use of violence.

(f) Train school staff and administrators to support and promote conflict resolution and mediation techniques for resolving conflicts between or among pupils.

(g) Reduce the incidents of violence at the schoolsite.

(h) Provide pupils with after school programs that promote and utilize conflict resolution and mediation techniques as positive alternatives to delinquent behavior.

SEC. 5. Section 32231 of the Education Code is amended to read:

32231. (a) The School Violence Reduction Program is hereby established. This statewide grant program shall be coordinated through county offices of education to provide grants to schools and school districts for school violence reduction programs. Each county office of education shall do all of the following:

(1) No later than 60 days after the Superintendent of Public Instruction certifies the level of funds available for the fiscal year pursuant to Section 32238, notify the Superintendent of Public Instruction of the intent of the county office of education to participate in the grant program.

(2) Notify schools and school districts within the jurisdiction of the county office of education of the availability of, and the process to be followed in applying for, grants under the grant program.

(3) Identify the elements found in successful school violence reduction programs and incorporate those elements into the criteria for review and selection of requests for proposals for grants, as described in subdivision (b) of Section 32233.

(4) Provide information as requested by the Superintendent of Public Instruction for use in the evaluation conducted pursuant to Section 32237.

(5) Provide information as requested by the Superintendent of Public Instruction on the types of safe school strategies funded with these grants.

(b) (1) If a county office of education chooses not to participate individually in the grant program, or if funding available through the grant program to an individual county office of education would be insufficient to conduct school violence reduction programs in accordance with the requirements of this article, several county offices of education may form a consortium to participate in the grant program and shall be subject to this article to the same extent as an individual county office of education.

(2) If a county office of education chooses not to participate in the grant program either individually or as part of a consortium, that portion of funding that the county office would have received for the grant program shall be distributed on a pro rata basis to participating county offices of education.

SEC. 6. Section 32233 of the Education Code is amended to read:

32233. (a) No later than 90 days after the Superintendent of Public Instruction certifies the level of funds available for the fiscal year pursuant to Section 32238, a county office of education that has notified the Superintendent of Public Instruction of its intent to participate in the grant program shall develop requests for proposals, pursuant to which that county office of education shall select grant recipients from schools and school districts within the jurisdiction of the county office of education.

(b) The participating county offices of education shall establish selection criteria for the approval of applications submitted by schools and school districts for school violence reduction programs. The approved selection criteria shall include, but not be limited to, an evaluation of all of the following:

(1) The extent to which the applicant demonstrates that conflict or violence is a substantial and continuing problem for pupils and staff.

(2) The applicant's formal relationship with the appropriate law enforcement agency or agencies and county probation office to coordinate crime and violence reduction efforts.

(3) The extent to which the applicant school or school district has involved pupils, parents, businesses, social service agencies, law enforcement agencies, and other appropriate community representatives in developing the proposed conflict resolution or school violence reduction program.

(4) The ability of the applicant school or school district to effectively manage and administer the proposed program.

(5) The applicant's comprehensive safety strategy developed for the school community to ensure the safety of pupils and staff.

(6) The extent to which the proposed school violence reduction program meets the identified safety needs of the pupils and staff.

(7) The extent to which the proposed strategies for the school violence reduction program fit within the applicant's existing comprehensive school safety plans.

(8) The applicant's commitment to the implementation of the proposed school violence reduction program and its plan for the continuation of the program upon termination of state funding.

(9) The extent to which the applicant submits a proposal in which monetary and in-kind support, in addition to the funds provided through a grant, are identified to promote the success of a school violence reduction program.

(10) The extent to which the applicant develops a plan, and demonstrates the ability, to share the successful components of its school violence reduction program with other schools and school districts.

(c) The participating county offices of education shall provide for the selection of an application review panel comprised of representatives from local law enforcement, education, and community agencies and county probation offices.

(d) Grant recipients shall be selected and notified no later than 30 days after submitting applications.

SEC. 7. Section 32234 of the Education Code is amended to read:

32234. School violence reduction programs funded pursuant to grants under this article may include, but not be limited to, all of the following activities:

(a) Implementing safe school strategies.

(b) Supporting school police and security personnel.

(c) Supporting a school resource or probation officer on campus.

(d) Purchasing security equipment such as communication devices and metal detectors.

(e) Implementing truancy reduction programs.

(f) Establishing attendance improvement programs.

(g) Establishing conflict resolution projects.

(h) Making the schoolsite available after hours for activities for youth that provide positive alternatives to criminal or delinquent behavior.

(i) Involving parents in efforts to ensure safety and security on and around the school campus.

(j) Establishing programs for hate-motivated crime prevention.

SEC. 8. Section 32236 of the Education Code is amended to read:

32236. (a) Any participating county office of education or consortium of county offices of education may utilize no more than 5 percent of the funds received by that county office of education or consortium pursuant to Section 32235 for expenses associated with the implementation of the grant program.

(b) The Superintendent of Public Instruction may retain 3 percent of the money to be distributed pursuant to paragraph (1) of subdivision (a) of Section 32235 for the School Violence Reduction Program for the purposes of administering this article and

disseminating information regarding successful school violence reduction programs that are developed and implemented by participating county offices of education to other county offices of education.

(c) The Superintendent of Public Instruction may retain five hundred thousand dollars ($500,000) from the money distributed pursuant to paragraph (1) of subdivision (a) of Section 32235 for the purposes of administering the Targeted Truancy and Public Safety Grant Program contained in Article 4 (commencing with Section 48700) of Chapter 4 of Part 27. The funds allocated pursuant to this subdivision shall be the total amount allocated for these purposes for the duration of the Targeted Truancy and Public Safety Grant Program.

SEC. 9. Section 32237 of the Education Code is amended to read:

32237. (a) The Superintendent of Public Instruction shall contract for an ongoing independent evaluation of the effectiveness of school violence reduction programs funded by grants pursuant to this article. The evaluation shall determine the effectiveness of each program based upon all of the following criteria:

(1) A reduction in incidents of school violence at the schoolsite where the school violence reduction program is conducted.

(2) A reduction in the number of suspensions or expulsions of pupils for violent behavior at the schoolsite where the school violence reduction program is conducted.

(3) A comparison of incidents of school violence with schools of similar size and pupils of similar socioeconomic background as the schoolsite where the school violence reduction program is conducted.

(b) On or before June 1, 1998, the superintendent shall submit to the Legislature an interim progress report and on or before October 1, 1999, the superintendent shall submit to the Legislature a final evaluation report, both of which shall be based on the ongoing evaluation made pursuant to subdivision (a).

SEC. 10. Article 4 (commencing with Section 48700) is added to Chapter 4 of Part 27 of the Education Code, to read:

Article 4. Targeted Truancy and Public Safety Grant Program

48700. This article shall be known and may be cited as the Targeted Truancy and Public Safety Grant Program.

48705. For purposes of this article, the following definitions apply:

(a) "High-risk youth" means a juvenile 15 years of age or younger who has been declared a ward of the juvenile court for the first time, or who is placed under the supervision of the probation department pursuant to Section 654 of the Welfare and Institutions Code, and who has at least two of the following four risk factors:

(1) Poor school behavior and performance.

(2) Family problems.

(3) Substance abuse.

(4) Delinquent behavior.

(b) "Poor school behavior and performance" means having attendance problems of truancy or a pattern of missing school, missing certain classes, or missing certain times of the schoolday; behavior problems that result in suspension or expulsion; or failing one or more classes.

(c) "Family problems" means poor supervision and control; domestic violence, trauma; recent financial problems, marital or family discord; or documented child abuse or neglect.

(d) "Substance abuse" means the abuse of alcohol or drugs by minors, other than experimentation.

(e) "Delinquent behavior" means a pattern of stealing, incorrigibility, or gang membership or association.

48710. (a) The Targeted Truancy and Public Safety Grant Program is a three-year grant demonstration program, and shall be administered by the State Department of Education. The program shall operate in school districts or county offices of education, each of which shall design, establish, implement, and evaluate a locally designed program to prevent and intervene in the truancy patterns of high-risk youth who have been referred for the first time to the county probation department. The goal of the Targeted Truancy and Public Safety Grant Program is to develop and implement intervention strategies that will end each participating high-risk youth's escalating pattern of truancy, antisocial behavior, and delinquency.

(b) The State Department of Education shall inform each school district and county office of education about targeted truancy programs before announcing the availability of the Targeted Truancy and Public Safety Grant Program, and shall provide technical assistance to each school district and county office of education that is considering, or has submitted, a grant application pursuant to this article. Technical assistance includes, but is not limited to, successful models, features of successful targeted truancy intervention programs, and multiagency collaboration.

(c) The school districts and county offices of education selected for the Targeted Truancy and Public Safety Grant Program shall be geographically balanced, as determined by the Superintendent of Public Instruction.

(d) The Superintendent of Public Instruction shall award grants in an amount at least not to exceed a total of one million two hundred fifty thousand dollars ($1,250,000) over the three-year grant period. No grant shall be awarded unless the applicant makes available resources in an amount at least equal to the amount of the grant. Resources may included in-kind contributions from participating agencies. An applicant shall demonstrate that the grant program will involve a collaborative multiagency effort to address truancy and delinquency behaviors, and that the chief probation officer in the

county supports the application and will assist in the implementation of the program.

(e) After awarding Targeted Truancy and Public Safety Grants, the State Department of Education shall provide ongoing technical assistance to those school districts and county offices of education that are awarded grants.

48715. The State Department of Education shall give funding priority to proposals that include a comprehensive approach to all of the following:

(a) Strategies that produce education success, in part by assisting families of high-risk youth to ensure that these youth attend school regularly.

(b) A restorative justice program for juvenile offenders that promotes accountability to the victim.

(c) Adequate levels of supervision, structure, and support to minors and their families throughout the intervention process.

(d) Accountability by the minors for their actions and developing in the minors increased sensitivity to the impact of their actions on others.

(e) Promotion of prosocial values, behaviors, and relationships.

(f) Individualized intervention strategies that have strong followup after the crisis stage.

(g) Culturally appropriate, family centered services, driven by the needs of youth and families, and built on individual, family, and community strengths.

(h) Service integration and coordination through structured collaboration among public and private agencies that may include, but not be limited to, county or local school attendance review boards, truancy mediation programs, or pupil support teams.

(i) Evidence of community involvement in the application that includes commitments from a broad base of participants from local government and the community, including, but not limited to, community-based youth development organizations, probation, social service agencies, civic organizations, the business community, religious groups, parents, law enforcement, and representatives of at-risk youth.

(j) Family empowerment through support, education, and services.

48720. Each school district or county office of education, in implementing its Targeted Truancy and Public Safety Grant, shall provide the following:

(a) Adequate levels of supervision, structure, and support to minors and their families both during and after the intervention and treatment process for the following purposes:

(1) To ensure the protection of the community, the minor, and his or her family.

(2) To facilitate the development of positive behavior patterns.

(3) To eliminate any obvious barriers to the family's progress.

(b) Accountability on the part of the minor for his or her actions, including criminal behavior, and assistance to the minor in developing a greater awareness and sensitivity for the impact of the minor's actions, including criminal behavior, on other people and situations.

(c) Assistance to the families in their efforts to ensure their minor is attending school regularly.

(d) Assistance to the minor in developing strategies for attaining and reinforcing school success.

(e) Promotion and development of positive social values, behavior, and relationships by providing opportunities to the minor to directly help people, improve the community, participate in positive leisure-time activities specially chosen to match his or her individual interests, skills, and abilities, and have greater access and exposure to positive adult and juvenile role models.

(f) Promotion and development of individualized intervention strategies that may include, but are not limited to, the following:

(1) Delivery of services in close proximity to the minor's or family's home.

(2) Community case advocates to assist in building bridges of trust.

(3) A restorative justice program to promote rehabilitation of juveniles and offer victims a forum for healing.

(g) Implementation of gang intervention strategies, where appropriate.

(h) Provision of a continuum of care with strong followup services that continue to be available to the minor and family, as long as needed, after a crisis.

48725. The Superintendent of Public Instruction shall establish minimum standards, funding schedules, and procedures for selecting participating school districts or county offices of education that shall take into consideration, but not be limited to, all of the following:

(a) Size of the eligible high-risk youth population.

(b) Demonstrated ability to administer the program.

(c) Identification of service delivery area.

(d) Demonstrated ability to provide or develop intervention strategies that will provide the services described in Section 48720 for the eligible high-risk youth population and their families.

(e) Likelihood that the program will continue to operate after state grant funding ends.

(f) A formal evaluation component to assess the success of the implementation of the grant program.

48730. (a) The State Department of Education, in collaboration with the Board of Corrections, shall create an evaluation design for the Targeted Truancy and Public Safety Grant Program that will assess the effectiveness of program implementation and operation and the degree to which the school district or county office of education has met the following minimum criteria:

(1) Utilization of a multiagency, multidisciplinary team so that the program can effectively draw on the professional knowledge, skill, and experience of all team members in areas including, but not limited to, education, job preparation and search, job skills, vocational training, life skills, counseling, drug and alcohol treatment, health care, parenting skills, family literacy, community service opportunities, building self-esteem and self-confidence, mentoring, restorative justice, restitution programs, gang intervention, recreational, social and cultural activities, transportation, and child care.

(2) Empowerment of the family to recognize and ultimately solve the problems related to their minor's truancy and criminal behavior, and to participate as an integral part of the treatment team and process.

(3) Teamwork on the part of all treatment and intervention agencies involved in the grant program, including the family, professionals, and any community volunteers.

(b) The State Department of Education shall also judge the success of each grant program by comparing a control group to an experimental group. Data from the school and court records shall be examined for juveniles and their families in each group according to, but not limited to, the following criteria:

(1) The number of schooldays of attendance during the current or most recent semester.

(2) The number of truancies reported.

(3) The number of suspensions and expulsions recorded by the school.

(4) The number of subsequent arrests, petitions to declare the minor a ward of the juvenile court, or proceedings in the superior court.

(5) The juveniles' grade point averages for the most recently completed school grading period.

(c) The State Department of Education shall contract with an independent evaluator to assess the overall success of the Targeted Truancy and Public Safety Grant Program.

48735. Grant recipients shall collect and report data to the State Department of Education that includes, at a minimum, those items identified in subdivision (b) of Section 48730, and any other data to indicate the effect of intervention strategies and grant program operations on the risk factors used to identify the grant program's high-risk youth participants. The Superintendent of Public Instruction shall annually summarize the data reported by those awarded grants, and shall develop a final analysis of the grant program in a report to be submitted to the Legislature on or before March 1, 2001.

48740. The Targeted Truancy and Public Safety Grant Program shall be implemented within nine months of the appropriation of

funds for the program, and shall terminate three years and nine months from the date of the appropriation of funds.

SEC. 11. (a) The sum of ten million dollars ($10,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to school districts and county offices of education for the purpose of the Targeted Truancy and Public Safety Grant Program contained in Article 4 (commencing with Section 48700) of Part 27 of the Education Code.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code for the 1995–96 fiscal year and be included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code for the 1995–96 fiscal year.

SEC. 12. The sum of one hundred fifty thousand dollars ($150,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the purpose of funding the contract for an evaluator as required by the Targeted Truancy and Public Safety Grant Program in subdivision (c) of Section 48730 of the Education Code.

SEC. 13. (a) The sum of three million dollars ($3,000,000) is hereby appropriated from the General Fund to the School Safety Account in the General Fund, which account is continuously appropriated, for allocation by the Superintendent of Public Instruction pursuant to Section 32235 of the Education Code.

(b) If the amount in the General Fund to be transferred to the School Safety Account pursuant to Section 32235 of the Education Code exceeds three million dollars ($3,000,000), those funds are hereby appropriated in augmentation of the appropriation in subdivision (a), except in no event shall that amount exceed ten million dollars ($10,000,000) as set forth in paragraph (2) of subdivision (b) of Section 11489 of the Health and Safety Code.

SEC. 14. (a) For the 1996–97 fiscal year, and in addition to the funds appropriated pursuant to Section 32235 of the Education Code, four million two hundred thousand dollars ($4,200,000) is hereby appropriated from the General Fund to the State Department of Education to be allocated by the Superintendent of Public Instruction to county offices of education in accordance with subdivisions (b) and (c) of Section 32235 of the Education Code, for the purposes of awarding School Violence Reduction Program grants pursuant to Article 3.7 of Chapter 2 of Part 19 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be

"General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 15. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to implement the Targeted Truancy and Public Safety Grant Program and the School Violence Reduction Program, as contained in this act, at the earliest opportunity, and to appropriate funds therefor for the 1996–97 school year, it is necessary that this act take effect immediately.

CHAPTER 201

An act to repeal Section 8002 of, and to repeal and add Section 8001 of, the Financial Code, to amend Section 4106 of, and to add Section 4101.5 to, the Food and Agricultural Code, to amend Sections 8690.6 and 11270 of, to amend and repeal Sections 8690, 8690.2, and 8690.4 of, to add Sections 8690.25 and 8690.45 to, and to repeal and add Section 13308 of, the Government Code, and to amend Sections 50531, 50661, 50661.5, 50697.1, 50740, 50778, and 50882 of the Health and Safety Code, to add Section 2105.1 to the Streets and Highways Code and to repeal Sections 11453.05, 12201.05, 12303.51, 14029, and 16702.01 of the Welfare and Institutions Code, relating to state government, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this act to make the necessary statutory changes to implement the Budget Act of 1996 relative to the administration of state government.

SEC. 2. Section 8001 of the Financial Code is repealed.

SEC. 3. Section 8001 is added to the Financial Code, to read:

8001. The Superintendent of Banks shall also serve as the commissioner and succeeds to all functions and duties previously held by the commissioner.

SEC. 4. Section 8002 of the Financial Code is repealed.

SEC. 5. Section 4101.5 is added to the Food and Agricultural Code, to read:

4101.5. The California Museum of Science and Industry shall study the feasibility of transferring management and operation of the museum facilities to the California Museum Foundation of Los Angeles, and, if feasible, prepare a plan to accomplish that transfer. The California Museum of Science and Industry may study other alternatives for restructuring, including, but not limited to, obtaining funding from local educational entities that participate in the museum programs and operations, and prepare an alternative restructuring plan. The California Museum of Science and Industry shall provide an interim report of the study to the Legislature by March 1, 1997, and a final report of the study to the Legislature by May 1, 1997.

SEC. 6. Section 4106 of the Food and Agricultural Code is amended to read:

4106. (a) The California Museum of Science and Industry shall work with the Los Angeles Memorial Coliseum Commission, the City of Los Angeles, and the County of Los Angeles to develop additional parking facilities in Exposition Park to the extent necessary to allow for expansion of the park.

(b) The California Museum of Science and Industry shall manage or operate its parking facilities in a manner which preserves and protects the interests of itself and the California African-American Museum and recognizes the cultural and educational character of Exposition Park.

(c) The first eight hundred thirty-two thousand seven hundred sixty-five dollars ($832,765) of revenues received each year by the California Museum of Science and Industry from parking facilities, from rental of museum facilities, or from other business activities shall be deposited in the General Fund.

(d) (1) The Exposition Park Improvement Fund is hereby created in the State Treasury. All revenues received by the California Museum of Science and Industry from its parking facilities, from rental of museum facilities, or from other business activities, in excess of the eight hundred thirty-two thousand seven hundred sixty-five dollars ($832,765) deposited each year in the General Fund, shall be deposited in the Exposition Park Improvement Fund.

(2) Notwithstanding subdivision (c), for the 1996–97 fiscal year only, all revenues received by the museum during that fiscal year from the sources described in paragraph (1) shall be deposited in the Exposition Park Improvement Fund.

(e) The moneys in the Exposition Park Improvement Fund may only be used, upon appropriation by the Legislature, for improvements to Exposition Park, including, but not limited to, maintenance of existing parking and museum facilities, replacement of museum equipment, supplies and wages expended to generate revenues from rental of museum facilities, development of new

parking facilities and acquisition of land within or adjacent to Exposition Park.

(f) The Legislature hereby finds and declares that there is a need for development of additional park, recreation, museum, and parking facilities in Exposition Park. The Legislature recognizes that the provision of these needed improvements as identified in the California Museum of Science and Industry Exposition Park Master Plan may require the use of funds provided by other governmental agencies or private donors.

The California Museum of Science and Industry may accept funds from other governmental agencies or private contributions for the purpose of implementation of the California Museum of Science and Industry Exposition Park Master Plan. The private contributions and funds from governmental agencies other than state governmental agencies shall be deposited in the Exposition Park Improvement Fund in the State Treasury and shall be available for expenditure without regard to fiscal years by the California Museum of Science and Industry for implementation of the California Museum of Science and Industry Exposition Park Master Plan. Funds from other state governmental agencies shall be deposited in the Exposition Park Improvement Fund and shall be available for expenditure, upon appropriation, by the California Museum of Science and Industry for implementation of the California Museum of Science and Industry Exposition Park Master Plan. However, any expenditure is not authorized sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house that considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time as the chairperson of the joint committee, or his or her designee, may in each instance determine.

SEC. 7. Section 8690 of the Government Code is amended to read:

8690. As used in this article:

(a) "Fund" means the Natural Disaster Assistance Fund created by Section 8690.2.

(b) "Public Facilities and Local Agency Disaster Response Account" means the special account established in the fund pursuant to subdivision (a) of Section 8690.4.

(c) "Street and Highway Account" means the special account established in the fund pursuant to subdivision (b) of Section 8690.4.

(d) "Office of Emergency Services Disaster Administration Support Account" means the special account established in the fund pursuant to subdivision (c) of Section 8690.4.

(e) This section shall remain in effect only until July 1, 1997, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 1997, deletes or extends that date.

SEC. 8. Section 8690.2 of the Government Code is amended to read:

8690.2. The Natural Disaster Assistance Fund is hereby created as a special fund in the State Treasury. This fund and its subsidiary accounts are continuously appropriated for purposes of this act. The fund is the successor to the funds appropriated by Section 4 of Chapter 624 of the Statutes of 1973 and to the Street and Highway Disaster Fund, which funds are hereby abolished, effective the 61st day after final adjournment of the 1973–74 Regular Session of the Legislature. All of the assets, liabilities, and surpluses of the two abolished funds shall, on order of the Controller and as of the effective date of their abolition, be transferred to and become assets, liabilities, and surpluses of the Natural Disaster Assistance Fund except that all assets, liabilities, and surplus of the portion of the Street and Highway Disaster Fund relating to state highways shall be transferred to the State Highway Account in the State Transportation Fund. The existing appropriations from either of such funds shall continue to be available for allocation, encumbrance, and expenditure in the same manner and for the same purposes and periods from the Natural Disaster Assistance Fund. Any reference in any law or regulation to the Street and Highway Disaster Fund shall be deemed to refer to the Street and Highway Account of the Natural Disaster Assistance Fund.

Any moneys received by the director or any state agency after the effective date of this section which, by law, would otherwise be required to be deposited in either of such funds, shall on order of the Controller, be deposited in the State Treasury in the Natural Disaster Assistance Fund.

This section shall remain in effect only until July 1, 1997, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 1997, deletes or extends that date.

SEC. 9. Section 8690.25 is added to the Government Code, to read:

8690.25. The Natural Disaster Assistance Fund, referred to as "fund" in this article, is hereby created as a special fund in the State Treasury. This fund and its subsidiary account, the Earthquake Emergency Investigations Account, are continuously appropriated, without regard to fiscal years, for purposes of this act.

This section shall become operative on July 1, 1997.

SEC. 10. Section 8690.4 of the Government Code is amended to read:

8690.4. The Controller shall establish the following four special accounts in the Natural Disaster Assistance Fund:

(a) The Public Facilities and Local Agency Disaster Response Account, into which shall be paid all moneys appropriated by the Legislature for allocation for (1) the repair, restoration, reconstruction, or replacement of facilities belonging to local agencies damaged as a result of natural disasters, (2) matching fund assistance for cost sharing required under federal disaster assistance programs, as specified in subdivisions (b) (c), and (e) of Section 8685, and (3) local agency personnel overtime costs and supplies used

during eligible disaster response and recovery activities, including the cost of administering those activities, as specified in subdivisions (a) and (d) of Section 8685.

(b) The Street and Highway Account, into which shall be paid all resources transferred from the Street and Highway Disaster Fund, any money received from the federal government as reimbursement to any city or county for expenditures from funds allocated, transferred or expended pursuant to this chapter for a street and highway project, any money hereafter appropriated by the Legislature for allocation for street and highway projects, and any income from investment of moneys in the account and payments by local agencies in reimbursement of moneys disbursed from the account including deferred payments with charges, pursuant to Section 8686.8.

(c) The Office of Emergency Services Disaster Administration Support Account, into which shall be paid all moneys appropriated by the Legislature for allocation for state administrative and engineering support required to respond to a specific disaster in accordance with the state disaster assistance program authorized under this chapter.

(d) The Earthquake Emergency Investigations Account, into which shall be paid all moneys appropriated by the Legislature to the Seismic Safety Commission for allocation for the purpose of enabling immediate investigation of damaging earthquakes. Allocations may be made by the commission to assist organizations which have incurred expenses in the course of conducting earthquake investigations. Allocations may be made to cover the following expenses:

(1) Travel, meals, and lodging.

(2) Publishing of findings.

(3) Contractor assistance in the investigation.

(4) Other expenses which the commission may allow as necessary to assist the investigation.

The unpredictable nature of earthquakes necessitates immediate access to funds for investigative purposes. For this reason, notwithstanding any other provision of law, funds in the Earthquake Emergency Investigations Account shall be available for expenditure without regard to fiscal years.

(e) It is the intent of the Legislature that the Public Facilities and Local Agency Disaster Response Account, the Street and Highway Account, and the Office of Emergency Services Administration Support Account each have an unencumbered balance of one million dollars ($1,000,000) at the beginning of each fiscal year.

In the event that any of these three accounts require additional moneys to meet claims against the account, the Director of Finance may transfer moneys from the Special Fund for Economic Uncertainties to the account in that amount sufficient to pay the amount of the claims that exceed the unencumbered balance in the

account, provided that the transfer is not made prior to notification in writing to the Joint Legislative Budget Committee of the reason and amount of transfer.

This section shall remain in effect only until July 1, 1997, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 1997, deletes or extends that date.

SEC. 11. Section 8690.45 is added to the Government Code, to read:

8690.45. (a) The Controller shall establish the following special account in the Natural Disaster Assistance Fund.

The Earthquake Emergency Investigations Account, into which shall be paid all moneys appropriated by the Legislature to the Seismic Safety Commission for allocation for the purpose of enabling immediate investigation of damaging earthquakes. Allocations may be made by the commission to assist organizations that have incurred expenses in the course of conducting earthquake investigations. Allocations may be made to cover the following expenses:

(1) Travel, meals, and lodging.

(2) Publishing of findings.

(3) Contractor assistance in the investigation.

(4) Other expenses that the commission may allow as necessary to assist the investigation.

The unpredictable nature of earthquakes necessitates immediate access to funds for investigative purposes. For this reason, notwithstanding any other provision of law, funds in the Earthquake Emergency Investigations Account shall be available for expenditure without regard to fiscal years.

(b) This section shall become operative on July 1, 1997.

SEC. 12. Section 8690.6 of the Government Code is amended to read:

8690.6. (a) There is hereby established in the Reserve for Economic Uncertainties a Disaster Response-Emergency Operations Account. Notwithstanding Section 13340, moneys in the account are continuously appropriated, subject to the limitations specified in subdivisions (c) and (d), without regard to fiscal years, for allocation by the Director of Finance to state agencies for disaster response operation costs incurred by state agencies as a result of a state of emergency proclamation by the Governor. These allocations may be for response activities, defined as any activity occurring within 365 days of a declaration of emergency by the Governor, or for recovery activities, defined as any activity occurring after the 365th day of a declaration of emergency by the Governor.

(b) It is the intent of the Legislature that the Disaster Response-Emergency Operations Account have an unencumbered balance of one million dollars ($1,000,000) at the beginning of each fiscal year. In the event that this account requires additional moneys to meet claims against the account, the Director of Finance may transfer moneys from the Special Fund for Economic Uncertainties

to the account in that amount sufficient to pay the amount of the claims that exceed the unencumbered balance in the account.

(c) For response activities, as defined, the funds shall be allocated subject to the conditions of this section and in accordance with Section 27.00 of the annual Budget Act, except that the allocations may be made 30 days or less after notification of the Legislature pursuant to subdivision (b) of that section.

(d) For recovery activities, as defined, the funds shall be allocated subject to the conditions of this section and in accordance with all subdivisions of Section 27.00 of the annual Budget Act, and shall include the Department of Finance's determination as to whether the expenditure for which the allocation is to be made was previously proposed at some point in the legislative consideration of the annual Budget Bill and was not approved and, if the expenditure was not approved, for what reasons.

(e) No funds allocated under this section shall be used to supplant federal funds otherwise available in the absence of state financial relief.

(f) The amount of financial assistance provided to an individual, business, or governmental entity under this section, or pursuant to any other program of state-funded disaster assistance, shall be deducted from sums received in payment of damage claims asserted against the state, its agents, or employees, for causing or contributing to the effects of the proclaimed disaster.

(g) No public entity administering disaster assistance to individuals shall receive funds under this section unless it administers that assistance pursuant to the following criteria:

(1) All applications, forms, and other written materials presented to persons seeking assistance shall be available in English and in the same language as that used by the major non-English-speaking group within the disaster area.

(2) Bilingual staff who reflect the demographics of the disaster area shall be available to applicants.

(h) The Legislature finds and declares that the amendments made to subdivision (c) of this section by Chapter 16 of the Statutes of 1986 declare the intent of the Legislature at the time when this section was originally added to this code by Chapter 1562 of the Statutes of 1985.

(i) This section shall become inoperative on July 1, 1999, and, as of January 1, 2000, is repealed, unless a later enacted statute, which becomes effective on or before January 1, 2000, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 13. Section 11270 of the Government Code is amended to read:

11270. As used in this article "administrative costs" means the amounts expended by the Legislature, Controller, Treasurer, the State Personnel Board, the Department of General Services, the State Board of Control, the State Department of Finance, the Office

of Administrative Law, the Department of Personnel Administration, the Secretary of the State and Consumer Services Agency, the Secretary of the Business, Transportation and Housing Agency, the Secretary of the Health and Welfare Agency, the Secretary of the Resources Agency, the Secretary of the Youth and Adult Correctional Agency, the California State Library, and the Department of Information Technology, and a proration of any other cost to or expense of the state for services or facilities provided for the Legislature and the above agencies, for supervision or administration of the state government or for services to the various state agencies.

SEC. 14. Section 13308 of the Government Code, as added by Chapter 455 of the Statutes of 1990, is repealed.

SEC. 15. Section 13308 of the Government Code, as added by Chapter 458 of the Statutes of 1990, is repealed.

SEC. 16. Section 13308 is added to the Government Code, to read:

13308. (a) The Director of Finance shall provide to the Legislature, on or before February 1 of each year, all proposed statutory changes, as prepared by the Legislative Counsel, that are necessary to implement the Governor's Budget, as described in subdivision (a) of Section 13337.

(b) The Director of Finance shall provide to the Legislature, on or before April 1 of each year, all proposed adjustments to the Governor's Budget except as specified by subdivisions (c) and (d).

(c) The Director of Finance shall provide to the Legislature, on or before May 1 of each year, all proposed adjustments to the Governor's Budget in appropriations for capital outlay.

(d) The Director of Finance shall provide to the Legislature, on or before May 14 of each year, all of the following:

(1) An estimate of General Fund revenues for the current fiscal year and for the ensuing fiscal year.

(2) Any proposals to reduce expenditures to reflect updated revenue estimates.

(3) All proposed adjustments to the Governor's Budget that are necessary to reflect updated estimates of state funding required pursuant to Section 8 of Article XVI of the California Constitution, or to reflect caseload enrollment or population changes.

(e) The Director of Finance may authorize suspension for the current fiscal year of any provision of this section not sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house that considers the State Budget and the Chairperson of the Joint Legislative Budget Committee.

SEC. 17. Section 50531 of the Health and Safety Code is amended to read:

50531. (a) The Urban Housing Development Loan Fund established in the State Treasury is hereby renamed the Urban Predevelopment Loan Fund.

(b) Notwithstanding Section 13340 of the Government Code, all money in the fund, including any interest on loans made from the fund, is hereby continuously appropriated to the department for carrying out the purposes of this chapter and for repaying any transfer made to the fund pursuant to Section 50748.1, together with interest as provided in that section. The fund shall be a revolving loan fund that shall be used to make predevelopment loans and land purchase loans to eligible sponsors for assisted housing in urban areas, for occupancy primarily by persons of low income.

(c) All interest, dividends, and pecuniary gains from investments or deposits of moneys in the fund shall accrue to the fund, notwithstanding Section 16305.7 of the Government Code.

There shall be paid into the fund all of the following:

(1) Any moneys appropriated and made available by the Legislature for the purposes of the fund.

(2) Any moneys that the department receives prior to July 1, 1996, in repayment of loans made from the fund, including any interest on loans made from the fund.

(3) Any other moneys that may be made available to the department prior to July 1, 1996, for the purposes of this chapter from any other source.

(d) Notwithstanding any other provision of law, on or after July 1, 1996, the unencumbered fund balance shall be transferred to the Rental Housing Construction Fund and subsequent income and other resources received by the department pursuant to this section shall be deposited in the Rental Housing Construction Fund.

SEC. 18. Section 50661 of the Health and Safety Code is amended to read:

50661. (a) There is hereby created in the State Treasury the Housing Rehabilitation Loan Fund. All interest or other increments resulting from the investment of moneys in the Housing Rehabilitation Loan Fund shall be deposited in the fund, notwithstanding Section 16305.7 of the Government Code. Notwithstanding Section 13340 of the Government Code, all money in the fund is continuously appropriated to the department for the following purposes:

(1) For making deferred-payment rehabilitation loans for financing all or a portion of the cost of rehabilitating existing housing to meet rehabilitation standards as provided in this chapter.

(2) For making deferred payment loans as provided in Sections 50668.5, 50669, and 50670.

(3) For making deferred payment loans pursuant to Sections 50662.5 and 50671.

(4) Subject to the restrictions of Section 53131, if applicable, for administrative expenses of the department made pursuant to this chapter, Article 3 (commencing with Section 50693) of Chapter 7.5, and Chapter 10 (commencing with Section 50775).

(5) For related administrative costs of nonprofit corporations and local public entities contracting with the department pursuant to Section 50663 in an amount, if any, as determined by the department, to enable the entities and corporations to implement a program pursuant to this chapter. The department shall ensure that not less than 20 percent of the funds loaned pursuant to this chapter shall be allocated to rural areas. For purposes of this chapter "rural area" shall have the same meaning as in Section 50199.21.

(b) There shall be paid into the fund the following:

(1) Any moneys appropriated and made available by the Legislature for purposes of the fund.

(2) Any moneys that the department receives in repayment of loans made from the fund, including any interest thereon.

(3) Any other moneys that may be made available to the department for the purposes of this chapter from any other source or sources.

(4) Moneys transferred or deposited to the fund pursuant to Sections 50661.5 and 50778.

(c) Notwithstanding any other provision of law, any interest or other increment earned by the investment or deposit of moneys appropriated by subdivision (b) of Section 3 of Chapter 2 of the Statutes of the 1987–88 First Extraordinary Session, or Section 7 of Chapter 4 of the Statutes of the 1987–88 First Extraordinary Session, shall be deposited in a special account in the Housing Rehabilitation Loan Fund and shall be used exclusively for purposes of Sections 50662.5 and 50671.

(d) Notwithstanding any other provision of law, effective with the date of the act adding this subdivision, appropriations authorized by the Budget Act of 1996 for support of the Department of Housing and Community Development from the California Disaster Housing Repair Fund and the California Homeownership Assistance Fund shall instead be authorized for expenditure from the Housing Rehabilitation Loan Fund.

SEC. 19. Section 50661.5 of the Health and Safety Code is amended to read:

50661.5. (a) There is hereby created in the State Treasury the California Disaster Housing Repair Fund, into which shall be paid all moneys appropriated by the Legislature pursuant to subdivision (b) or transferred pursuant to subdivision (c) for housing repair loans pursuant to Sections 50662.7, 50671.5, and 50671.6. All interest or other increments resulting from the investment of moneys in the California Disaster Housing Repair Fund shall be deposited in the fund, notwithstanding Section 16305.7 of the Government Code. Notwithstanding Section 13340 of the Government Code, all money in that fund is continuously appropriated to the department for the following purposes:

(1) For making deferred payment loans and predevelopment loans pursuant to Sections 50662.7, 50671.5, and 50671.6.

(2) For related administrative expenses of the department.

(3) For related administrative expenses of any entity contracting with the department, pursuant to Sections 50662.7, 50671.5, and 50671.6 in an amount, if any, as determined by the department, to enable the entities to implement a program pursuant to those sections.

(4) For providing loan guarantees for disaster-related loans made by private institutional lending sources.

(b) There shall be paid into the fund the following:

(1) Any moneys appropriated and made available by the Legislature for purposes of the fund.

(2) Any moneys transferred from the Special Fund for Economic Uncertainties prior to July 1, 1996, pursuant to subdivision (c).

(3) Any other moneys which may be made available to the department prior to July 1, 1996, for the purposes of this section from any other source or sources.

(4) The director may authorize the sale of the beneficiary interest of loans made pursuant to Section 50662.7. The proceeds from that sale prior to July 1, 1996, shall be deposited into the California Disaster Housing Repair Fund. Proceeds from that sale after July 1, 1996, shall be deposited in the General Fund.

(c) (1) To the extent that funds are not available, the Department of Housing and Community Development shall submit to the Department of Finance, within 90 days after a disaster, a deficiency request based on a minimum funding level based on a damage survey completed by the Office of Emergency Services and the Federal Emergency Management Agency. The request shall distinguish between owner-occupied housing of one to four units and rental housing of five or more units.

(2) Upon receipt of the deficiency request from the Department of Housing and Community Development pursuant to paragraph (1), the Department of Finance shall make a funding determination and notify the Legislature of the approval or disapproval of the deficiency amount. Any deficiency amount approved shall distinguish between owner-occupied housing of one to four units and rental housing of five or more units.

(3) Any payments made pursuant to this subdivision from funds made available under Section 50671.5 shall be matched by a corresponding and equal payment from funds made available under Section 50671.6, except that, upon the determination of the Director of Finance that one of the two rental repair programs has excess funds, moneys from that fund may be used for either of the other two disaster repair programs.

(d) In the event of a natural disaster, as defined in Section 8680.3 of the Government Code, the Director of Finance may transfer moneys from the Special Fund for Economic Uncertainties established by Section 16418 of the Government Code to the California Disaster Housing Repair Fund, provided the transfer is not

made sooner than 30 days after notification in writing of the necessity therefor is provided to the Joint Legislative Budget Committee.

(e) Notwithstanding any other provision of law, on or after July 1, 1996, the unencumbered fund balance and reserves shall be transferred to the Housing Rehabilitation Loan Fund and subsequent income and other resources payable pursuant to Sections 50662.7, 50671.5, and 50671.6, shall be deposited to the Housing Rehabilitation Loan Fund, except that payments of principal and interest on loans issued pursuant to Sections 50662.7, 50671.5, and 50671.6 shall be deposited in the General Fund.

(f) In making funds available to disaster victims pursuant to Sections 50662.7, 50671.5, and 50671.6, the department shall impose a one-year deadline for submission of applications.

(g) Any changes made on or after January 1, 1994, to any program funded by the California Disaster Housing Repair Fund shall not apply to applications submitted on or before December 31, 1993. The department may administer the program in accordance with guidelines until regulations are adopted.

SEC. 20. Section 50697.1 of the Health and Safety Code is amended to read:

50697.1. (a) The Self-Help Housing Fund is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, all moneys in the fund are continuously appropriated for contracts entered into pursuant to subdivision (b) of Section 50696 and for costs incurred by the California Self-Help Housing Program in administering the program. The moneys in the fund are not subject to transfer to any other fund pursuant to Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, except the Surplus Money Investment Fund. The department may require the transfer of moneys in the fund to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code. Notwithstanding Section 16305.7 of the Government Code, all interest, dividends, and pecuniary gains from the investments shall accrue to the fund.

(b) The Self-Help Housing Fund shall consist of all of the following:

(1) Any moneys appropriated to the fund by the Legislature.

(2) Any moneys which the California Self-Help Housing Program receives in repayment or return of the funds, including any interest on those moneys.

(3) Any other moneys which may be made available to the California Self-Help Housing Program for the purposes of subdivision (b) of Section 50696 from any other source or sources.

SEC. 21. Section 50740 of the Health and Safety Code is amended to read:

50740. (a) The Rental Housing Construction Incentive Fund established in the State Treasury is hereby renamed the Rental

Housing Construction Fund. Notwithstanding Section 13340 of the Government Code, all money in the fund is hereby continuously appropriated to the Department of Housing and Community Development, and, except as provided in subdivisions (b) and (c), shall be utilized for purposes of this chapter and for the purposes of Section 50775.5, Chapter 3.2 (commencing with Section 50517.5), Chapter 3.5 (commencing with Section 50530), and Chapter 15 (commencing with Section 50880). All interest or other increment resulting from investment or deposit of moneys in the fund shall be deposited in the fund, notwithstanding Section 16305.7 of the Government Code. Moneys in the fund shall not be subject to transfer to any other fund pursuant to Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, except the Surplus Money Investment Fund.

(b) Money from the fund utilized by the agency for development costs which was repaid to the agency or disencumbered between June 30, 1982, and June 30, 1983, and any additional funds or interest which is available for encumbrance on June 30, 1983, shall be deposited in a separate account in the fund and utilized as follows:

(1) Eight million one hundred thousand dollars ($8,100,000) shall be utilized by the agency for activities authorized by Article 4.5 (commencing with Section 51180) of Chapter 5 of Part 3.

(2) Five hundred thousand dollars ($500,000) shall be transferred by the agency to the department for deposit in the Rural Community Facility Grant Fund, established pursuant to Section 6125, and utilized to carry out the program established by Chapter 11 (commencing with Section 6120) of Part 3 of Division 5.

(3) Three million dollars ($3,000,000) shall be transferred by the agency to the department and deposited in the Housing Rehabilitation Loan Fund, established pursuant to Section 50661, and utilized for making deferred payment loans for residential hotels as authorized by subdivision (b) of Section 50661 and for purposes of subdivision (c) of Section 50661.

(4) One million seven hundred thousand dollars ($1,700,000) shall be transferred by the agency to the department for deposit in the Emergency Housing and Assistance Fund, established pursuant to Section 50800.

(5) Two million five hundred thousand dollars ($2,500,000) shall be transferred by the agency to the Trustees of the California State University for deposit in the Affordable Student Housing Revolving Fund, established pursuant to Section 90087 of the Education Code, and utilized to carry out the program established by Article 3 (commencing with Section 90085) of Chapter 8 of Part 55 of the Education Code.

(6) Three hundred thousand dollars ($300,000) shall be transferred by the agency to the department and utilized to carry out the program established by Chapter 3.6 (commencing with Section 50533).

(7) Four million two hundred thousand dollars ($4,200,000) shall be transferred by the agency to the department for deposit in the annuity fund, established pursuant to Section 50738.5, and utilized for the purposes authorized by that section.

(c) An amount not to exceed four million dollars ($4,000,000) of the moneys from the fund utilized by the agency for development costs which is repaid to the agency or disencumbered on or after July 1, 1983, shall be deposited in the separate account established pursuant to subdivision (b) and utilized and apportioned in accordance with the following percentages as it becomes available:

(1) Fifty percent of the moneys shall be transferred by the agency to the department and deposited in the Housing Rehabilitation Loan Fund, established pursuant to Section 50661, and utilized for the purposes specified in paragraph (3) of subdivision (b).

(2) Twenty-five percent of the moneys shall be transferred by the agency to the department for deposit in the Emergency Housing and Assistance Fund, established pursuant to Section 50800, and utilized for the purposes specified in paragraph (4) of subdivision (b).

(3) Twenty-five percent of the moneys shall be transferred by the agency to the department for deposit in the annuity fund, established pursuant to Section 50738.5, and utilized for the purposes specified in paragraph (7) of subdivision (b).

(d) Notwithstanding any other provision of law, effective with the date of the act adding this subdivision, appropriations authorized for support of the Department of Housing and Community Development from the Family Housing Demonstration Account and the Urban Predevelopment Loan Fund shall instead be authorized for expenditure from the Rental Housing Construction Fund.

SEC. 22. Section 50778 of the Health and Safety Code is amended to read:

50778. (a) The Homeownership Assistance Fund is hereby created in the State Treasury and, notwithstanding Section 13340 of the Government Code, is continually appropriated to the department for purposes of this chapter, including Section 50775.5, and for the purposes of Section 50745.1. Any moneys received by the department pursuant to this chapter shall be deposited in such fund. All interest or other increment resulting from investment or deposit of moneys in the fund shall be deposited in the fund, notwithstanding Section 16305.7 of the Government Code. Moneys in the fund shall not be subject to transfer to any other fund pursuant to any provisions of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, excepting the Surplus Money Investment Fund.

(b) Not less than 50 percent of the moneys in the fund shall be used to assist lower income households. Not less than 20 percent of the units assisted shall be in rural areas.

(c) Funds available for the purpose of this chapter shall be allocated by the department throughout the state in accordance with identified housing needs.

(d) (1) Notwithstanding any other provision of law, commencing on July 1, 1992, the department shall not be required to make loans pursuant to this chapter.

(2) The department may retain within the fund moneys necessary for administration and monitoring of loans made prior to July 1, 1992, to make loans pursuant to loan commitments made prior to July 1, 1992. The department may also retain reserves for curing or averting a default that would jeopardize any security interest of the department.

(3) Notwithstanding any other provision of law, on or after July 1, 1996, the unencumbered fund balance and reserves shall be transferred to the Housing Rehabilitation Loan Fund. Subsequent income and resources shall be deposited to the Housing Rehabilitation Loan Fund.

SEC. 23. Section 50882 of the Health and Safety Code is amended to read:

50882. (a) The Family Housing Demonstration Account is hereby established in the Rental Housing Construction Fund. The account shall be organized into subaccounts as provided in this chapter. All of the following moneys shall be paid into the account:

(1) Any moneys appropriated and made available by the Legislature for the purposes of the account.

(2) Any moneys which the department receives prior to July 1, 1996, in repayment or return of loans made from the account, including any interest on those loans.

(3) Any other moneys which may be made available to the department prior to July 1, 1996, for the purposes of this chapter from any other source or sources.

(b) Notwithstanding Section 13340 of the Government Code, all money in the account is hereby continuously appropriated to the department and shall be utilized for the purposes of Article 1 (commencing with Section 50880) to Article 4 (commencing with Section 50893), inclusive, including administrative expenses of the department for the implementation and operation of the programs created by this chapter. All interest or other increment resulting from investment or deposit of moneys in the account shall be deposited in the account, notwithstanding Section 16305.7 of the Government Code. Moneys in the account are not subject to transfer to any other fund, except as set forth in this chapter, pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code, except the Surplus Money Investment Fund.

(c) Money available for loans in the account shall be utilized and apportioned in accordance with the following percentages unless the terms of the transfers or deposit provide otherwise:

(1) Not less than 25 percent, nor more than 35 percent, shall be utilized for congregate housing developments pursuant to this chapter.

(2) The balance shall be utilized for community housing developments pursuant to this chapter.

(d) Notwithstanding any other provision of law, on or after July 1, 1996, the unencumbered account balance and reserves shall be transferred out of the Family Housing Demonstration Account, but shall be retained within the Rental Housing Construction Fund.

SEC. 24. Section 2105.1 is added to the Streets and Highways Code, to read:

2105.1. Notwithstanding Section 2105, the Solano County municipal court fines and forfeitures collected pursuant to Section 40508 of the Vehicle Code during fiscal years 1986–87 to 1988–89, inclusive, in the amount of four hundred twenty-six thousand three hundred eighty-one dollars ($426,381) shall be deposited in the General Fund of Solano County.

SEC. 25. Section 11453.05 of the Welfare and Institutions Code is repealed.

SEC. 26. Section 12201.05 of the Welfare and Institutions Code is repealed.

SEC. 27. Section 12303.51 of the Welfare and Institutions Code as added by Chapter 455 of the Statutes of 1990 is repealed.

SEC. 28. Section 12303.51 of the Welfare and Institutions Code as added by Chapter 458 of the Statutes of 1990 is repealed.

SEC. 29. Section 14029 of the Welfare and Institutions Code as added by Chapter 455 of the Statutes of 1990 is repealed.

SEC. 30. Section 14029 of the Welfare and Institutions Code as added by Chapter 458 of the Statutes of 1990 is repealed.

SEC. 31. Section 16702.01 of the Welfare and Institutions Code is repealed.

SEC. 32. Any appropriation made for support of the State Banking Department for supervision and regulation of savings associations, payable from the Savings Association Special Regulatory Fund, shall be deemed to be made for support of the Department of Savings and Loan for supervision and regulation of savings associations, payable from the Savings Association Special Regulatory Fund.

SEC. 33. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for necessary statutory changes to implement the Budget Act of 1996 to take effect at the earliest possible time, it is necessary that this act take effect immediately.

———

CHAPTER 202

An act amend Section 13108 of the Health and Safety Code, to add Sections 4145 and 5080.27 to, and to add and repeal Sections 515 and 14306.5 of, the Public Resources Code, and to amend Section 38225 of the Vehicle Code, relating to natural resources, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 13108 of the Health and Safety Code is amended to read:

13108. (a) Except as limited by Chapter 6 (commencing with Section 140) of Division 1 of the Labor Code and Section 18930 of this code, the State Fire Marshal shall prepare and adopt building standards, not inconsistent with existing laws or ordinances, relating to fire protection in the design and construction of the means of egress and the adequacy of exits from, and the installation and maintenance of fire alarm and fire extinguishment equipment or systems in, any state institution or other state-owned building and submit those building standards to the State Building Standards Commission for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13. The State Fire Marshal shall prepare and adopt regulations other than building standards for the installation and maintenance of equipment and furnishings that present unusual fire hazards in any state institution or other state-owned building.

(b) The fire chief of any city, county, or fire protection district, or that person's authorized representative, may enter any state institution or any other state-owned or state-occupied building for the purpose of preparing a fire suppression preplanning program or for the purpose of investigating any fire in a state-occupied building.

(c) Except as otherwise provided in this section, the State Fire Marshal shall enforce the regulations adopted by him or her and building standards relating to fire and panic safety published in the California Building Standards Code in all state-owned buildings and state institutions throughout the state. Upon written request from the chief fire official of any city, county, or fire protection district, the State Fire Marshal may authorize that chief fire official and his or her authorized representatives, in their geographical area of responsibility, to make fire revention inspections of state-owned buildings, other than state institutions, for the purpose of enforcing the regulations relating to fire and panic safety adopted by the State Fire Marshal pursuant to this section and building standards relating to fire and panic safety published in the California Building Standards

Code. Authorization from the State Fire Marshal shall be limited to those fire departments or fire districts that maintain a fire prevention bureau staffed by paid personnel.

(d) Any requirement or order made by any chief fire official pursuant to this section may be appealed to the State Fire Marshal. The State Fire Marshal, upon receiving an appeal and subject to the provisions of Chapter 5 (commencing with Section 18945) of Part 2.5 of Division 13, shall determine if the requirement or order made is reasonably consistent with the fire and panic safety regulations adopted by him or her and building standards relating to fire and panic safety published in the California Building Standards Code.

SEC. 2. Section 515 is added to the Public Resources Code, to read:

515. (a) Notwithstanding any other provision of law, the department is hereby granted the authority, for which it may expend funds appropriated by the Budget Act of 1996, to do either of the following:

(1) Exercise the same authority granted to the Division of the State Architect and the Office of Real Estate and Design Services in the Department of General Services to acquire, plan, design, construct, and administer contracts and professional services.

(2) Permit the Prison Industry Authority to participate as a competitive bidder, rather than as the sole source with regard to contracts and services.

(b) Notwithstanding any other provision of law, the director, or his or her designee, in lieu of the Director of Finance, is authorized to carry out subdivisions (b), (c), and (d) of Section 31.00 of the Budget Act of 1996.

(c) Notwithstanding subdivision (a) of Section 948 and Section 965 of the Government Code, the director, or his or her designee, in lieu of the Director of Finance, is authorized to certify funds for the payment of all legal settlements, State Board of Control claims, judgments, and tort claims, for which the department has sufficient expenditure authority and funds without the need for an augmentation.

(d) Notwithstanding Section 11032 of the Government Code, the director, or his or her designee, may authorize its officers and employees to travel outside the state or country without approval by any other agency, and the funds appropriated by the Budget Act of 1996 may be used for that purpose.

(e) (1) Notwithstanding Sections 8647, 11005, and 11005.1 of the Government Code, but subject to paragraphs (2) and (3) of this subdivision, the department may accept gifts and donations of personal and real property without approval by the Director of Finance. The department shall bear any costs associated with the acceptance of those gifts and donations, and the funds appropriated by the Budget Act of 1996 may be used for this purpose. The

department shall not certify the fair market value of any gift or donation of real property without performing its own appraisal.

(2) Upon receipt of any gift or donation of real property, the department shall certify to the Department of Finance in writing that:

(A) The gift or donated property will have minimal impact on the operation and maintenance costs and the department will absorb the costs within its existing budget.

(B) The gift or donated property is adjacent to an existing park.

(C) The gift or donated property promotes park purposes.

(D) The gift or donated property has no evidence or history of environmental hazards or contamination.

(E) There are no lawsuits pending concerning the property, and clear title is a condition of the acceptance of the gift or donation.

(F) The gift or donated property has an estimated fair market value of less than five hundred thousand dollars ($500,000).

(G) There are no provisions that will restrict the department or the state from divesting title to the gift or donated property.

(H) There are no structures on the property, or any structures on the property will be razed.

(3) If one or more of the criteria listed in paragraph (2) are not met, the department shall obtain approval from the Department of Finance to accept the gift or donation of real property. Any gifts and donations that will require future budget change proposals shall be submitted to the Department of Finance for approval.

(f) Notwithstanding Section 12439 of the Government Code, the department is exempt from the provisions that abolish, effective July 1, 1996, any positions that were vacant continuously during the period between October 1, 1995, and June 30, 1996.

(g) Notwithstanding any other provision of law, the director, or his or her designee, in lieu of the Director of Finance, is authorized to approve Budget Revision, Standard Form 26.

(h) Notwithstanding Section 16304.1 of the Government Code, the director, or his or her designee, in lieu of the Director of Finance, is authorized to carry out this section as it relates to the reversion of undisturbed balances and the payment of unpaid encumbrances.

(i) This section shall become inoperative on June 30, 1997, and, as of January 1, 1998, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 1998, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 3. Section 4145 is added to the Public Resources Code, to read:

4145. (a) It is the intent of the Legislature that cooperative agreements that are entered into between the department and a local government shall provide for the equitable sharing of costs associated with capital outlay projects that enlarge, enhance, or replace facilities for the purposes of benefiting the cooperating local government.

(b) The department shall prescribe those terms and conditions for those cooperative agreements that would result in an equitable sharing of those costs in proportion to the benefits derived, including any in-kind, lump-sum, or installment payments. Any installment payment made in connection with a cooperative agreement entered into pursuant to this section shall be made over a period of time not exceeding a maximum of 20 years at the same rate of interest as the rate for the state's Pooled Money Investment Account. Any money that is received for reimbursements for facility improvement costs, under a cooperative agreement, shall be deposited in the General Fund.

SEC. 4. Section 5080.27 is added to the Public Resources Code, to read:

5080.27. Notwithstanding any other provision of law, the department is authorized to enter into a concession contract for the development, operation, and maintenance of the Crystal Cove Historic District as a public use facility for a period of up to 60 years, upon those terms and conditions that the department determines to be in the best interests of the state.

SEC. 5. Section 14306.5 is added to the Public Resources Code, to read:

14306.5. (a) Notwithstanding Section 11032 of the Government Code, the corps may authorize its officers and employees to travel outside the state without approval by any other agency, and the funds appropriated by the Budget Act of 1996 may be used for that purpose.

(b) Notwithstanding subdivisions (b), (c), and (d) of Section 31.00 of the Budget Act of 1996, the corps may authorize new positions, reclassifications, transfers to blanket authorizations, and the establishment of a blanket authorization, without prior notification to the Department of Finance or the Legislature, and the funds appropriated by the Budget Act of 1996 may be used for that purpose. The corps shall report to the Department of Finance and the Legislature on a quarterly basis regarding actions taken pursuant to this authority.

(c) Notwithstanding Sections 8647, 11005, and 11005.1 of the Government Code, the corps may accept gifts and donations of personal property without approval by the Director of Finance. The corps shall bear any costs associated with the acceptance of those gifts and donations, and the funds appropriated by the Budget Act of 1996 may be used for that purpose.

(d) Notwithstanding Section 19080.3 of the Government Code, the corps may make limited-term appointments, not exceeding a period of four years for any appointment, without the review or approval of the State Personnel Board, and the funds appropriated by the Budget Act of 1996 may be used for that purpose.

(e) Notwithstanding Section 2807 of the Penal Code, the corps may procure corpsmember-related goods and services from the private sector, and the funds appropriated by the Budget Act of 1996

may be used for that purpose. Notwithstanding this grant of authority, the corps shall contract with the Prison Industry Authority for this purpose if the Prison Industry Authority is able to meet the cost, quality, and time requirements established by the corps for the goods or services.

(f) Notwithstanding Sections 13332.06, 13332.08, and 14669 of, and Chapter 6 (commencing with Section 14825) and Chapter 6.5 (commencing with Section 1483.5) of Part 5.5 of Division 3 of Title 2 of, the Government Code, and Chapter 1 (commencing with Section 10100), Chapter 2 (commencing with Section 10290), and Chapter 3 (commencing with Section 12100) of Part 2 of Division 2, the corps may execute contracts, procure all goods and services, including any fleet needs within 60 days or less, and negotiate all lease agreements for office, warehouse, and other appropriate facilities without review or approval by the Department of General Services and pursuant to methods and procedures other than those set forth in the State Administrative Manual, and funds appropriated by the Budget Act of 1996 may be used for that purpose. The authority with regard to lease agreements set forth in this subdivision does not alter the authority or responsibilities of the Department of General Services concerning the consolidation of offices in the Sacramento metropolitan area or the consolidation plans for other metropolitan areas in the state.

(g) Notwithstanding Sections 14931 and 14931.1 of, or Part 6.5 (commencing with Section 15250) of Division 3 of Title 2 of, the Government Code, the corps may purchase electronic data processing and telecommunications goods and services, not exceeding one million dollars ($1,000,000) for any one procurement, without the requirement of review or approval by the Department of General Services and pursuant to methods and procedures other than those set forth in the State Administrative Manual, and funds appropriated by the Budget Act of 1996 may be used for that purpose. The corps shall continue to use the Department of General Services CALNET, except that, if the department is unable to provide the information and maintenance required for the corps' statewide data base network on a cost-competitive and timely basis, the corps shall be exempt from any restrictions relating to CALNET that are imposed by the Office of Telecommunications of the Department of General Services.

(h) Notwithstanding Chapter 7 (commencing with Section 14850) of Part 5.5 of Division 3 of Title 2 of the Government Code, the corps may procure printing services for its district field offices without the requirement of review or approval by the Department of General Services and pursuant to methods and procedures other than those set forth in the State Administrative Manual, and funds appropriated by the Budget Act of 1996 may be used for that purpose. In soliciting competitive bids for the procurement of those services, the Sacramento headquarters of the corps shall consider the

Department of General Services and the Office of State Printing as it would any other bidder.

(i) This section shall become inoperative on June 30, 1997, and, as of January 1, 1998, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 1998, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 6. Section 38225 of the Vehicle Code, as amended by Section 3 of Chapter 970 of the Statutes of 1995, is amended to read:

38225. (a) A service fee of seven dollars ($7) shall be paid to the department for the issuance or renewal of identification of off-highway motor vehicles subject to identification, except as expressly exempted under this division.

(b) In addition to the service fee specified in subdivision (a), a special fee of eight dollars ($8) shall be paid at the time of payment of the service fee for the issuance or renewal of an identification plate or device.

(c) All money transferred pursuant to Sections 8352.6 and 8352.7 of the Revenue and Taxation Code, all fees received by the department pursuant to subdivision (b), and all day use, overnight use, or annual or biennial use fees for state vehicular recreation areas received by the Department of Parks and Recreation, shall be deposited in the Off-Highway Vehicle Trust Fund, which is hereby created. There shall be a separate reporting of special fee revenues by vehicle type, including four-wheeled vehicles, three-wheelers, motorcycles, and snowmobiles. All money shall be deposited in the fund, which is a trust fund, and, upon appropriation by the Legislature, shall be allocated by the Off-Highway Motor Vehicle Recreation Commission, as provided in this section. Money in the fund shall be administered by the commission, as trustee of the fund, and, subject to Section 5090.61 of the Public Resources Code, shall be allocated for those purposes set forth in Sections 38240 and 38240.1.

(d) Any money temporarily transferred by the Legislature from the Off-Highway Vehicle Trust Fund to the General Fund shall be reimbursed, without interest, by the Legislature within two fiscal years of the transfer.

(e) This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2003, deletes or extends that date. Any unencumbered funds remaining in the Off-Highway Vehicle Trust Fund on January 1, 2003, shall be transferred to the General Fund.

SEC. 7. Section 38225 of the Vehicle Code, as amended by Section 4 of Chapter 970 of the Statutes of 1995, is amended to read:

38225. (a) A service fee of seven dollars ($7) shall be paid to the department for the issuance or renewal of identification of off-highway motor vehicles subject to identification, except as expressly exempted under this division.

(b) This section shall become operative on January 1, 2003.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make the necessary statutory changes to implement the Budget Act of 1996 at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 203

An act to amend Section 42238 of, and to add Sections 42238.41, 42238.42, and 42238.43 to, the Education Code, relating to school finance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 42238 of the Education Code is amended to read:

42238. (a) For the 1984–85 fiscal year and each fiscal year thereafter, the county superintendent of schools shall determine a revenue limit for each school district in the county pursuant to this section.

(b) The base revenue limit for the current fiscal year shall be determined by adding to the base revenue limit for the prior fiscal year the following amounts:

(1) The inflation adjustment specified in Section 42238.1.

(2) For the 1995–96 fiscal year, the equalization adjustment specified in Section 42238.4.

(3) For the 1996–97 fiscal year, the equalization adjustments specified in Sections 42238.41, 42238.42, and 42238.43.

(4) For the 1985–86 fiscal year, the amount received per unit of average daily attendance in the 1984–85 fiscal year pursuant to Section 42238.7.

(5) For the 1985–86, 1986–87, and 1987–88 fiscal years, the amount per unit of average daily attendance received in the prior fiscal year pursuant to Section 42238.8.

(c) Except for districts subject to subdivision (d), the base revenue limit computed pursuant to subdivision (b) shall be multiplied by the district average daily attendance computed pursuant to Section 42238.5.

(d) For districts for which the number of units of average daily attendance determined pursuant to Section 42238.5 is greater for the current fiscal year than for the 1982–83 fiscal year, compute the

following amount, in lieu of the amount computed pursuant to subdivision (c):

(1) Multiply the base revenue limit computed pursuant to subdivision (c) by the average daily attendance computed pursuant to Section 42238.5 for the 1982–83 fiscal year.

(2) Multiply the lesser of the amount in subdivision (c) or 1.05 times the statewide average base revenue limit per unit of average daily attendance for districts of similar type for the current fiscal year by the difference between the average daily attendance computed pursuant to Section 42238.5 for the current and 1982–83 fiscal years.

(3) Add the amounts in paragraphs (1) and (2).

(e) The base revenue limit per unit of average daily attendance shall be the lesser of the following amounts:

(1) The amount determined in subdivision (b).

(2) The amount computed pursuant to Section 42238 for the prior fiscal year divided by the prior fiscal year revenue limit average daily attendance times the sum of 1.0 and twice the percentage increase in revenue limits computed pursuant to Section 42238.1 for the current fiscal year.

(f) For districts electing to compute units of average daily attendance pursuant to paragraph (3) of subdivision (a) of Section 42238.5, the amount computed pursuant to Article 4 (commencing with Section 42280) shall be added to the amount computed in subdivision (c) or (d), as appropriate.

(g) For the 1984–85 fiscal year only, the county superintendent shall reduce the total revenue limit computed in this section by the amount of the decreased employer contributions to the Public Employees' Retirement System resulting from enactment of Chapter 330 of the Statutes of 1982, offset by any increase in those contributions, as of the 1983–84 fiscal year, resulting from subsequent changes in employer contribution rates.

The reduction shall be calculated as follows:

(1) Determine the amount of employer contributions that would have been made in the 1983–84 fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect immediately prior to the enactment of Chapter 330 of the Statutes of 1982 were in effect during the 1983–84 fiscal year.

(2) Subtract from the amount determined in paragraph (1) the greater of subparagraph (A) or (B):

(A) The amount of employer contributions that would have been made in the 1983–84 fiscal year if the applicable Public Employees' Retirement System employer contribution rate in effect immediately after the enactment of Chapter 330 of the Statutes of 1982 were in effect during the 1983–84 fiscal year.

(B) The actual amount of employer contributions made to the Public Employees' Retirement System in the 1983–84 fiscal year.

(3) For purposes of this subdivision, employer contributions to the Public Employees' Retirement System for any of the following shall be excluded from the calculation specified above:

(A) Positions supported totally by federal funds that were subject to supplanting restrictions.

(B) Positions supported by funds received pursuant to Section 42243.6.

(C) Positions supported, to the extent of employer contributions not exceeding twenty-five thousand dollars ($25,000) by any single educational agency, from a revenue source determined on the basis of equity to be properly excludable from the provisions of this subdivision by the Superintendent of Public Instruction with the approval of the Director of Finance.

(4) For accounting purposes, the reduction made by this subdivision may be reflected as an expenditure from appropriate sources of revenue as directed by the Superintendent of Public Instruction.

(h) The Superintendent of Public Instruction shall apportion to each school district the amount determined in this section less the sum of:

(1) The district's property tax revenue received pursuant to Chapter 3 (commencing with Section 75) and Chapter 6 (commencing with Section 95) of Part 0.5 of the Revenue and Taxation Code.

(2) The amount, if any, received pursuant to Part 18.5 (commencing with Section 38101) of the Revenue and Taxation Code.

(3) The amount, if any, received pursuant to Chapter 3 (commencing with Section 16140) of the Government Code.

(4) Prior years taxes and taxes on the unsecured roll.

(5) Fifty percent of the amount received pursuant to Section 41603.

(6) The amount of motor vehicle license fees distributed pursuant to Section 11003.4 of the Revenue and Taxation Code.

(7) The amount, if any, received pursuant to any provision of the Community Redevelopment Law (Part 1 (commencing with Section 33000) of Division 24 of the Health and Safety Code), except for any amount received pursuant to Section 33401 or 33676 of the Health and Safety Code that is used for land acquisition, facility construction, reconstruction, or remodeling, or deferred maintenance, except for any amount received pursuant to Section 33492.15, paragraph (3) of subdivision (a) of Section 33607.5, or Section 33607.7 of the Health and Safety Code that is allocated exclusively for educational facilities.

(i) This section shall become operative July 1, 1984.

SEC. 2. Section 42238.41 is added to the Education Code, to read:

42238.41. (a) For the 1996–97 fiscal year, the county superintendent of schools, in conjunction with the Superintendent of Public Instruction, shall compute an equalization adjustment for

each school district in the county, so that no district's 1995–96 base revenue limit per unit of average daily attendance is less than the 1995–96 fiscal year statewide average base revenue limit for the appropriate size and type of district listed in subdivision (b).

For purposes of this section, the district base revenue limit and the statewide average base revenue limit shall not include any amounts attributable to Section 45023.4, 46200, or 46201.

(b) Subdivision (a) shall apply to the following school districts, which shall be grouped according to size and type as follows:

District	ADA
Elementary	less than 101
Elementary	more than 100
High School	less than 301
High School	more than 300
Unified	less than 1,501
Unified	more than 1,500

(c) The Superintendent of Public Instruction shall compute a revenue limit equalization adjustment for each school district's base revenue limit per unit of average daily attendance as follows:

(1) Add the products of the amount computed for each school district by the county superintendent pursuant to subdivision (a) and the average daily attendance used to calculate the district's revenue limit for the current fiscal year as adjusted for the deficit factor in Section 42238.145.

(2) Divide the amount appropriated for purposes of this section for the current fiscal year by the amount computed pursuant to paragraph (1).

(3) Multiply the amount computed for the school district pursuant to subdivision (a) by the amount computed pursuant to paragraph (2).

(d) For the purposes of this section, the 1995–96 statewide average base revenue limits determined for the purposes of subdivision (a) and the fraction computed pursuant to paragraph (2) of subdivision (c) by the Superintendent of Public Instruction for the 1995–96 second principal apportionment shall be final, and shall not be recalculated at subsequent apportionments. In no event shall the fraction computed pursuant to paragraph (2) of subdivision (c) exceed 1.00. For the purposes of determining the size of a district used in subdivision (b), county superintendents of schools, in conjunction with the Superintendent of Public Instruction, shall use a school district's revenue limit average daily attendance for the 1995–96 fiscal year as determined pursuant the Section 42238.5 and Article 4 (commencing with Section 42280).

SEC. 3. Section 42238.42 is added to the Education Code, to read:

42238.42. (a) In the event that the amount required to be appropriated for the purpose of the state's minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution for the 1996–97 fiscal year, as determined in paragraph (1) of subdivision (b), exceeds the amount appropriated for that purpose for the 1996–97 fiscal year, as determined pursuant to paragraph (2) of subdivision (b), the amount computed pursuant to subdivision (d), is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the purposes of equalizing the revenue limits of school districts pursuant to subdivision (e) and Section 42238.43 and for the purpose of reducing the deficit factor applied to the revenue limits of county superintendents of schools pursuant to Section 2558.45 and reducing the deficit factor applied to the revenue limits of the school districts pursuant to Section 42238.145.

(b) To determine the amounts available for the purposes of this section, the Department of Finance shall make the following computations:

(1) At the first principal apportionment for the 1997–98 fiscal year, compute the level of General Fund revenues that meets the state's minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution for the 1996–97 fiscal year based upon the most current determination of data as defined in subdivision (a) of Section 41206 of the Education Code.

(2) Subtract from the amount determined in paragraph (1) an amount equal to the total amount of General Fund revenues that have been appropriated for the purpose of meeting the state's minimum funding obligation for the 1996–97 fiscal year to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution as of February 1, 1998.

(3) If the amount computed in paragraph (2) is greater than zero, that amount is the total amount available for the purposes of this section.

(c) To determine the portion of the amount computed in subdivision (a) to set aside for community college districts pursuant to this section, the Department of Finance shall make the following computations:

(1) Add the total General Fund allocations to school districts and community college districts for the purposes of meeting the state's minimum funding obligation to school districts and community college districts pursuant to Section 8 of Article XVI of the California Constitution for the 1996–97 fiscal year to the total statewide amount of "allocated local proceeds of taxes," as defined in subdivisions (g) and (h) of Section 41202, allocated to school districts and community college districts for the 1996–97 fiscal year.

(2) Divide the sum of the General Fund allocations made to community college districts for the purposes of meeting the state's minimum funding obligation to community college districts pursuant to Section 8 of Article XVI of the California Constitution for the 1996–97 fiscal year and the total statewide amount of "allocated local proceeds of taxes," as defined in subdivision (h) of Section 41202, allocated to community college districts for the 1996–97 fiscal year by the sum computed pursuant to paragraph (1).

(3) Multiply the amount computed pursuant to subdivision (b) by the percentage determined in paragraph (2). Community college districts shall be entitled to receive an amount equal to the amount computed pursuant to this paragraph and that amount shall be set aside from the General Fund for appropriation to community college districts by the Legislature.

(d) The amount of the appropriation made pursuant to subdivision (a) of this section shall be computed by subtracting the amount computed in paragraph (3) of subdivision (c) from the amount computed pursuant to subdivision (b). The Director of the Department of Finance shall certify to the Controller the amount of the appropriation computed pursuant to this subdivision and under no circumstances shall funds be released by the Controller for purposes of this section before that certification is received by the Controller.

(e) Prior to the allocation provided in subdivision (f), the Superintendent of Public Instruction shall allocate 50 percent of the amount computed pursuant to subdivision (d) to school districts for the purpose of making equalization adjustments to the base revenue limit of school districts for the 1996–97 fiscal year, as follows:

(1) The Superintendent of Public Instruction shall perform the computations set forth in Section 42238.43 for the purpose of equalization adjustments to the base revenue limits of school districts for the 1996–97 fiscal year to determine the amount to allocate to each school district pursuant to this paragraph.

(2) The Superintendent of Public Instruction shall repeat the process of computing equalization adjustments to the base revenue limits of school districts for the 1996–97 fiscal year pursuant to Section 42238.43 until the total amount of funds available for that purpose pursuant to this subdivision is allocated to school districts.

(3) If the total amount of funds available for allocation pursuant to this subdivision is insufficient to fully fund the amounts computed pursuant to paragraph (1) or the amount computed pursuant to any of the iterations made pursuant to paragraph (2), the allocations computed pursuant to those paragraphs shall be reduced proportionately.

(f) The Superintendent of Public Instruction shall allocate 50 percent of the amount computed pursuant to subdivision (d) to county superintendents of schools for the purpose of reducing the 1996–97 and 1997–98 deficit factors applied to the revenue limits of

county superintendent of schools and school districts pursuant to Sections 2558.45 and 42238.145, respectively. The amount of the allocation made to each school district and county superintendent of schools for the purpose of reducing their respective deficit factors shall be computed in proportion to their respective shares of the total statewide amount of the deficit factors applied to the revenue limits for school districts and county superintendents of schools.

(g) In no event shall this section be construed to require an appropriation that would cause the aggregate amount required to be appropriated from the General Fund for the 1996-97 fiscal year pursuant to Section 8 of Article XVI of the California Constitution to be exceeded.

SEC. 4. Section 42238.43 is added to the Education Code, to read:

42238.43. (a) For the 1996–97 fiscal year, the county superintendent of schools, in conjunction with the Superintendent of Public Instruction, shall compute an equalization adjustment for each school district in the county, so that no district's base revenue limit per unit of average daily attendance is less than the 1996–97 fiscal year statewide average base revenue limit for the appropriate size and type of district listed in subdivision (b) plus the inflation adjustment specified in Section 42238.1 for the current fiscal year for the appropriate type of district.

For purposes of this section, the district base revenue limit and the statewide average base revenue limit shall not include any amounts attributable to Section 45023.4, 46200, or 46201.

(b) Subdivision (a) shall apply to the following school districts, which shall be grouped according to size and type as follows:

District	ADA
Elementary	less than 101
Elementary	more than 100
High School	less than 301
High School	more than 300
Unified	less than 1,501
Unified	more than 1,500

(c) The equalization adjustment computed pursuant to this section shall only be funded from amounts appropriated for that purpose pursuant to Section 42238.42.

(d) For the purposes of the computation made pursuant to paragraph (1) of subdivision (e) of Section 42238.42, the 1996–97 statewide average base revenue limits determined for the purposes of subdivision (a) and the fraction, if any, computed pursuant to paragraph (3) of subdivision (e) of Section 42238.42 by the Superintendent of Public Instruction for the 1996–97 second principal apportionment shall be final, and shall not be calculated as subsequent apportionments. In no event shall the fraction computed

pursuant to paragraph (3) of subdivision (e) of Section 42238.42 exceed 1.00. If any iterations are required pursuant to paragraph (2) of Section 42238.42, the Superintendent of Public Instruction shall recompute the 1996–97 statewide average base revenue limit to include any adjustments made by the immediately preceeding iteration. For the purposes of determining the size of a district used in subdivision (b), the Superintendent of Public Instruction shall use a school district's revenue limit average daily attendance for the 1996–97 fiscal year as determined pursuant to Section 42238.5 and Article 4 (commencing with Section 42280).

SEC. 5. (a) The Legislature hereby appropriates from the General Fund to the Superintendent of Public Instruction, for allocation to school districts, a sum that is equal to the total statewide amount necessary to fund the equalization adjustments computed for each school district for the 1996–97 fiscal year pursuant to Section 42238.41 of the Education Code. The Director of the Department of Finance shall certify to the Controller the amount of the appropriation computed pursuant to this section. In no event shall the total amount appropriated for the purpose of Section 42238.41 of the Education Code pursuant to this section exceed one hundred forty-seven million one hundred thousand dollars ($147,100,000). The Superintendent of Public Instruction, if necessary, shall reduce the equalization adjustments computed for the base revenue limits of school districts pursuant to Section 42238.41 of the Education Code as provided in that section. This section shall not be construed to limit in any way the amounts computed pursuant to Sections 42238.42 and 42238.43 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code for the 1996–97 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1996–97 fiscal year.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the California Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make statutory changes necessary for the implementation of the Budget Act of 1996, it is necessary for this act to take effect immediately.

CHAPTER 204

An act to amend Sections 2558.45, 8208, 8265, 8450, 35160.5, 41203.1, 42238.145, 42243.7, 42301, 42258.9, and 56728.8 of, to add Sections 8237 and 8451 to, to add Article 5 (commencing with Section 51450) to Chapter 3 of Part 28 of, and to add Chapter 3.1 (commencing with Section 58520) to Part 31 of, the Education Code, relating to education finance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

On this date I have signed Assembly Bill No. 3488 with the following deletions.

Section 10 and Section 38. Providing Continuation School Adjustment Equalization. I am deleting subdivision (f) of Section 10 and I eliminate Section 38. These sections would provide $2,000,000 to equalize the continuation school revenue limit add-on on a per pupil basis. Because the law does not provide for any change to the continuation school revenue limit add-on from the original amount, and each continuation school's pupil population may vary annually, equalization is an unrealistic objective. This proposal is further complicated by the fact that for some districts, the continuation school adjustment was rolled into the district base revenue limit. Continuation schools provide important services to our pupils, such as functioning as the first safety net for at-risk pupils. While I cannot support the proposal in this bill, I would be receptive to reviewing a comprehensive proposal that addresses issues regarding continuation school funding formulas.

Section 18. Regarding the Community Colleges Block Grant. I am deleting subdivision (b) of Section 18. This subdivision would provide $2,100,000 for the Mt. San Antonio Community College MIS project. This MIS project could be modified in scope and funded through the various supporting colleges' portion of one-time block grant funds or ongoing funds, if it is a high priority at the local level.

Section 30. Regarding the Alhambra City High School District Loan. I am deleting this section. This section would provide a loan of $650,000 to the Alhambra City High School District to compensate for a loss of pupils due to a district reorganization. The district, however, is currently meeting its budget reserve requirements and shows no evidence that its fiscal solvency is jeopardized. Only in such cases would a loan be appropriate.

Section 41. Related to Adult Basic Education. I am deleting this section. This section would provide $6,400,000 adult education funds to provide to immigrants classes in basic skills, citizenship, English as a second language, and workforce preparation classes such as reading, writing, speaking, and problem solving. The 1996 Budget Act appropriates over $477 million for adult education programs, with $28 million in General Fund (pursuant to the Immigration and Workforce Preparation Act) and $7.7 million in federal funds, specifically earmarked for the purposes described above. I believe those amounts should be sufficient to address the adult education needs of our immigrant population.

With the above deletions, I hereby approve AB 3488.

PETE WILSON, Governor

The people of the State of California do enact as follows:

SECTION 1. Section 2558.45 of the Education Code is amended to read:

2558.45. For the purposes of this article the revenue limit of each county superintendent of schools shall be reduced by a deficit factor, as follows:

(a) (1) The revenue limit for the 1994–95 fiscal year for each county superintendent of schools determined pursuant to this article shall be reduced by a 12.59 percent deficit factor.

(2) The revenue limit for the 1995–96 fiscal year determined pursuant to this article for each county superintendent of schools shall be reduced by an 11.70 percent deficit factor.

(3) The revenue limit for the 1996–97 and 1997–98 fiscal years determined pursuant to this article for each county superintendent of schools shall be reduced by an 11.547 percent deficit factor, as adjusted pursuant to Section 42238.41.

(b) (1) The revenue limit for each county superintendent of schools for the 1994–95 fiscal year shall be determined as if the revenue limit for each county superintendent of schools had been determined for the 1993–94 fiscal year without being reduced by the deficit factor required pursuant to Section 2558.4.

(2) When computing the revenue limit for each county superintendent of schools for the 1995–96 or any subsequent fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for each county superintendent of schools had been determined for the previous fiscal year without being reduced by the deficit factor specified in this section.

SEC. 2. Section 8208 of the Education Code is amended to read:

8208. As used in this chapter:

(a) "Assigned reimbursement rate" is that rate established by the contract with the agency and is derived by dividing the total dollar amount of the contract by the minimum child day of average daily enrollment level of service required.

(b) "Alternative payments" includes payments that are made by one child care agency to another agency or child care provider for the provision of child care and development services, and payments that are made by an agency to a parent for the parent's purchase of child care and development services.

(c) "Applicant or contracting agency" means a school district, community college district, college or university, county superintendent of schools, county, city, public agency, private non-tax-exempt agency, private tax-exempt agency, or other entity that is authorized to establish, maintain, or operate services pursuant to this chapter. Private agencies and parent cooperatives, duly licensed by law, shall receive the same consideration as any other authorized entity with no loss of parental decisionmaking prerogatives as consistent with the provisions of this chapter.

(d) "Attendance" means the number of children present at a child care and development facility. "Attendance," for the purposes of reimbursement, includes excused absences by children because of illness, quarantine, illness or quarantine of their parent, family

emergency, or to spend time with a parent or other relative as required by a court of law or that is clearly in the best interest of the child.

(e) "Capital outlay" means the amount paid for the renovation and repair of child care and development facilities to comply with state and local health and safety standards, and the amount paid for the state purchase of relocatable child care and development facilities for lease to qualifying contracting agencies.

(f) "Caregiver" means a person who provides direct care, supervision, and guidance to children in a child care and development facility.

(g) "Child care and development facility" means any residence or building or part thereof in which child care and development services are provided.

(h) "Child care and development programs" means those programs that offer a full range of services for children from infancy to 14 years of age, for any part of a day, by a public or private agency, in centers and family child care homes. These programs include, but are not limited to, all of the following:

(1) Campus child care and development.
(2) General child care and development.
(3) Intergenerational child care and development.
(4) Migrant child care and development.
(5) Schoolage parenting and infant development.
(6) State preschool.
(7) Resource and referral.
(8) Severely handicapped.
(9) Family day care.
(10) Alternative payment.
(11) Child abuse protection and prevention services.
(12) Schoolage community child care.

(i) "Short-term respite child care" means child care service to assist families whose children have been identified through written referral from a legal, medical, social service agency, or emergency shelter as being neglected, abused, exploited, or homeless, or at risk of being neglected, abused, exploited, or homeless. Child care is provided for less than 24 hours per day in child care centers, treatment centers for abusive parents, family child care homes, or in the child's own home.

(j) "Child care and development services" means those services designed to meet a wide variety of needs of children and their families, while their parents or guardians are working, in training, seeking employment, incapacitated, or in need of respite. These services include direct care and supervision, instructional activities, resource and referral programs, and alternative payment arrangements.

(k) "Children at risk of abuse, neglect, or exploitation" means children who are so identified in a written referral from a legal, medical, or social service agency, or emergency shelter.

(*l*) "Children with exceptional needs" means children who have been determined to be eligible for special education and related services by an individualized education program team according to the special education requirements contained in Part 30 (commencing with Section 56000), and meeting eligibility criteria described in Section 56026 and Sections 56333 to 56338, inclusive, and Sections 3030 and 3031 of Title 5 of the California Code of Regulations. These children have an active individualized education program, and are receiving appropriate special education and services, unless they are under three years of age and permissive special education programs are available. These children may be mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired, deaf-blind, multihandicapped, or children with specific learning disabilities, who require the special attention of adults in a child care setting.

(m) "Children with special needs" includes infants and toddlers under the age of three years; limited-English-speaking-proficient children; children with exceptional needs; limited-English-proficient handicapped children; and children at risk of neglect, abuse, or exploitation.

(n) "Closedown costs" means reimbursements for all approved activities associated with the closing of operations at the end of each growing season for migrant child development programs only.

(o) "Cost" includes, but is not limited to, expenditures that are related to the operation of child development programs. "Cost" may include a reasonable amount for state and local contributions to employee benefits, including approved retirement programs, agency administration, and any other reasonable program operational costs. "Reasonable and necessary costs" are costs that, in nature and amount, do not exceed what an ordinary prudent person would incur in the conduct of a competitive business.

(p) "Elementary school," as contained in Section 425 of Title 20 of the United States Code (the National Defense Education Act of 1958, Public Law 85-864, as amended), includes early childhood education programs and all child development programs, for the purpose of the cancellation provisions of loans to students in institutions of higher learning.

(q) "Severely handicapped children" are children who require instruction and training in programs serving pupils with the following profound disabilities: autism, blindness, deafness, severe orthopedic impairments, serious emotional disturbance, or severe mental retardation. These children, ages birth to 21 years, inclusive, may be assessed by public school special education staff, regional center staff, or another appropriately licensed clinical professional.

(r) "Health services" includes, but is not limited to, all of the following:

(1) Referral, whenever possible, to appropriate health care providers able to provide continuity of medical care.

(2) Health screening and health treatment, including a full range of immunization recorded on the appropriate state immunization form to the extent provided by the Medi-Cal Act (Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code) and the Child Health and Disability Prevention Program (Article 3.4 (commencing with Section 320) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code), but only to the extent that ongoing care cannot be obtained utilizing community resources.

(3) Health education and training for children, parents, staff, and providers.

(4) Followup treatment through referral to appropriate health care agencies or individual health care professionals.

(s) "Higher educational institutions" means the Regents of the University of California, the Trustees of the California State University, the Board of Governors of the California Community Colleges, and the governing bodies of any accredited private nonprofit institution of postsecondary education.

(t) "Intergenerational staff" means persons of various generations.

(u) "Limited-English-speaking-proficient and non-English-speaking-proficient children" means children who are unable to benefit fully from an English-only child care and development program as a result of either of the following:

(1) Having used a language other than English when they first began to speak.

(2) Having a language other than English predominantly or exclusively spoken at home.

(v) "Parent" means any person living with a child who has responsibility for the care and welfare of the child.

(w) "Program director" means a person who, pursuant to Sections 8244 and 8360.1, is qualified to serve as a program director.

(x) A "proprietary child care agency" means an organization or facility providing child care, which is operated for profit.

(y) "Resource and referral programs" means programs that provide information to parents, including referrals and coordination of community resources for parents and public or private providers of care. Services frequently include, but are not limited to: technical assistance for providers, toy-lending libraries, equipment-lending libraries, toy- and equipment-lending libraries, staff development programs, health and nutrition education, and referrals to social services.

(z) "Site supervisor" means a person who, regardless of his or her title, has operational program responsibility for a child care and

development program at a single site. A site supervisor shall hold a regular children's center instructional permit, and shall have completed not less than six units of administration and supervision of early childhood education or child development, or both. The Superintendent of Public Instruction may waive the requirements of this subdivision if the superintendent determines that the existence of compelling need is appropriately documented.

In respect to state preschool programs, a site supervisor may qualify under any of the provisions in this subdivision, or may qualify by holding an administrative credential or an administrative services credential. A person who meets the qualifications of a site supervisor under both Section 8244 and subdivision (e) of Section 8360.1 is also qualified under this subdivision.

(aa) "Standard reimbursement rate" means that rate established by the Superintendent of Public Instruction pursuant to Section 8265.

(bb) "Startup costs" means those expenses an agency incurs in the process of opening a new or additional facility prior to the full enrollment of children.

(cc) "State preschool services" means part-day educational programs for low-income or otherwise disadvantaged prekindergarten-age children.

(dd) "Support services" means those services which, when combined with child care and development services, help promote the healthy physical, mental, social, and emotional growth of children. Support services include, but are not limited to: protective services, parent training, provider and staff training, transportation, parent and child counseling, child development resource and referral services, and child placement counseling.

(ee) "Teacher" means a person with the appropriate certificate who provides program supervision and instruction which includes supervision of a number of aides, volunteers, and groups of children.

(ff) "Workday" means the time that the parent requires temporary care for a child for any of the following reasons:

(1) To undertake training in preparation for a job.

(2) To undertake or retain a job.

(3) To undertake other activities that are essential to maintaining or improving the social and economic function of the family, are beneficial to the community, or are required because of health problems in the family.

SEC. 3. Section 8237 is added to the Education Code, to read:

8237. A state preschool program applicant or contracting agency has 120 calendar days prior to the first day of the beginning of the new preschool year to certify eligibility and enroll families into their program.

SEC. 4. Section 8265 of the Education Code is amended to read:

8265. (a) The Superintendent of Public Instruction shall implement a plan that establishes reasonable standards and assigned

reimbursement rates, which vary with the length of the program year and the hours of service.

Parent fees shall be used to pay reasonable and necessary costs for providing additional services.

When establishing standards and assigned reimbursement rates, the Superintendent of Public Instruction shall confer with applicant agencies.

The reimbursement system, including standards and rates, shall be submitted to the Joint Legislative Budget Committee.

The Superintendent of Public Instruction may establish any regulations he or she deems advisable concerning conditions of service and hours of enrollment for children in the programs.

(b) The standard reimbursement rate shall be three thousand five hundred twenty-three dollars ($3,523) per unit of average daily enrollment for a 250-day year, increased by the cost-of-living adjustment granted by the Legislature beginning July 1, 1980.

(c) The plan shall require agencies having an assigned reimbursement rate above the current year standard reimbursement rate to reduce costs on an incremental basis to achieve the standard reimbursement rate.

(d) The plan shall provide for adjusting reimbursement on a case-by-case basis, in order to maintain service levels for agencies currently at a rate less than the standard reimbursement rate. Assigned reimbursement rates shall be increased only on the basis of one or more of the following:

(1) Loss of program resources from other sources.

(2) Need of an agency to pay the same child care rates as those prevailing in the local community.

(3) Increased costs directly attributable to new or different regulations.

(4) Documented increased costs necessary to maintain the prior year's level of service and ensure the continuation of threatened programs.

Child care agencies funded at the lowest rates shall be given first priority for increases.

(e) The plan shall provide for expansion of child development programs at no more than the standard reimbursement rate for that fiscal year.

(f) The Superintendent of Public Instruction may reduce the percentage of reduction for any public agency:

(1) Which is currently serving more than 400 children; or

(2) Which has in effect a collective bargaining agreement; or

(3) For which other extenuating circumstances apply as determined by the Superintendent of Public Instruction.

SEC. 5. Section 8450 of the Education Code is amended to read:

8450. (a) All child development contractors are encouraged to develop and maintain a reserve within the child development fund,

derived from earned but unexpended funds. Child development contractors may retain all earned funds. For the purpose of this section, "earned funds" are those for which the required number of eligible service units have been provided.

(b) Earned funds may not be expended for any activities proscribed by Section 8406.7. Earned but unspent funds shall remain in the contractor's reserve account within the child development fund and shall be expended only by direct service child development programs that are funded under contract with the department.

(c) Notwithstanding subdivisions (a) and (b), a contractor may retain a reserve fund balance for a resource and referral program, separate from the balance retained pursuant to subdivision (b), not to exceed 3 percent of the contract amount. Funds from this reserve account shall be expended only by resource and referral programs that are funded under contract with the department.

(d) Notwithstanding subdivisions (a) and (b), a contractor may retain a reserve fund for alternative payment model and certificate child care contracts, separate from the reserve fund retained pursuant to subdivisions (b) and (c). Funds from this reserve account shall be expended only by alternative payment model and certificate child care programs that are funded under contract with the department. The reserve amount allowed by this section may not exceed either of the following whichever is greater:

(1) Two percent of the sum of the parts of each contract to which that contractor is a party that is allowed for administration pursuant to Section 8276.7 and that is allowed for supportive services pursuant to the provisions of the contract.

(2) One thousand dollars ($1,000).

(e) Each contractor's audit shall identify any funds earned by the contractor for each contract through the provision of contracted services in excess of funds expended.

(f) Any interest earned on reserve funds shall be included in the fund balance of the reserve. This reserve fund shall be maintained in an interest-bearing account.

(g) Moneys in a contractor's reserve fund shall be used only for expenses that are reasonable and necessary costs as defined in subdivision (o) of Section 8208.

(h) Any reserve fund balance in excess of the amount authorized pursuant to subdivisions (c) and (d) shall be returned to the State Department of Education pursuant to procedures established by the department and reappropriated as second-year funds consistent with Section 8278.

(i) Upon termination of all child development contracts between a contractor and the State Department of Education, all moneys in a contractor's reserve fund shall be returned to the department pursuant to procedures established by the department, and reappropriated as second-year funds consistent with Section 8278.

(j) Expenditures from, additions to, and balances in, the reserve fund shall be included in the agency's annual financial statements and audit.

SEC. 6. Section 8451 is added to the Education Code, to read:

8451. (a) Notwithstanding the provisions of this chapter and implementing regulations, the State Department of Education shall develop a prototype of a new contracting system pursuant to the discussion of relevant issues raised in the preliminary report titled "Revisions to the Current Contracting System for Child Care and Development Programs" dated February 6, 1996, as required by the Budget Act of 1995.

(b) The prototype shall be implemented by no more than 5 percent of child care and development contractors.

(c) The department shall develop a plan for the prototype by January 1, 1997, and shall commence testing it July 1, 1997, with any necessary amendments completed by September 1, 1997. The prototype test shall be conducted over a two-year period and may be extended only with the concurrence of the Department of Finance and 30 days' notification to the Joint Legislative Budget Committee. The department may not implement the prototype without the concurrence of the Department of Finance and 30 days' notification to the Joint Legislative Budget Committee. In developing the plan, the department shall fully consult with the Department of Finance, the Office of the Legislative Analyst, and representative child care and development contractors.

(d) Except for separately authorized cost-of-living increases or expansions, the prototype shall neither increase aggregate state costs nor lower the total number of children served by the participating agencies.

(e) An independent evaluation shall be conducted of the prototype. An interim evaluation shall be submitted to the legislative budget committees by January 1, 1999, with a final evaluation report submitted to the legislative budget committees by January 2000.

SEC. 7. Section 35160.5 of the Education Code is amended to read:

35160.5. (a) The governing board of each school district that maintains one or more schools containing any of grades 7 to 12, inclusive, shall, as a condition for the receipt of an inflation adjustment pursuant to Section 42238.1, establish a school district policy regarding participation in extracurricular and cocurricular activities by pupils in grades 7 to 12, inclusive. The criteria, which shall be applied to extracurricular and cocurricular activities, shall ensure that pupil participation is conditioned upon satisfactory educational progress in the previous grading period. Pupils who are eligible for differential standards of proficiency pursuant to subdivision (d) of Section 51215 are covered by this section consistent with that subdivision. No person shall classify a pupil as eligible for differential standards of proficiency pursuant to subdivision (d) of

Section 51215 for the purpose of circumventing the intent of this subdivision.

(1) For purposes of this subdivision, "extracurricular activity" means a program that has all of the following characteristics:

(A) The program is supervised or financed by the school district.

(B) Pupils participating in the program represent the school district.

(C) Pupils exercise some degree of freedom in either the selection, planning, or control of the program.

(D) The program includes both preparation for performance and performance before an audience or spectators.

(2) For purposes of this subdivision, an "extracurricular activity" is not part of the regular school curriculum, is not graded, does not offer credit, and does not take place during classroom time.

(3) For purposes of this subdivision, a "cocurricular activity" is defined as a program that may be associated with the curriculum in a regular classroom.

(4) Any teacher graded or required program or activity for a course that satisfies the entrance requirements for admission to the California State University or the University of California, is not an extracurricular or cocurricular activity as defined by this section.

(5) For purposes of this subdivision, "satisfactory educational progress" shall include, but not be limited to, the following:

(A) Maintenance of minimum passing grades, which is defined as at least a 2.0 grade point average in all enrolled courses on a 4.0 scale.

(B) Maintenance of minimum progress toward meeting the high school graduation requirements prescribed by the governing board.

(6) For purposes of this subdivision, "previous grading period" does not include any grading period in which the pupil was not in attendance for all, or a majority of, the grading period due to absences excused by the school for reasons such as serious illness or injury, approved travel, or work. In that event, "previous grading period" is deemed to mean the grading period immediately prior to the grading period or periods excluded pursuant to this paragraph.

(7) A program that has, as its primary goal, the improvement of academic or educational achievements of pupils is not an extracurricular or cocurricular activity as defined by this section.

(8) The governing board of each school district may adopt, as part of its policy established pursuant to this subdivision, provisions that would allow a pupil who does not achieve satisfactory educational progress, as defined in paragraph (4), in the previous grading period to remain eligible to participate in extracurricular and cocurricular activities during a probationary period. The probationary period shall not exceed one semester in length, but may be for a shorter period of time, as determined by the governing board of the school district. A pupil who does not achieve satisfactory educational progress, as defined in paragraph (4), during the probationary period

shall not be allowed to participate in extracurricular and cocurricular activities in the subsequent grading period.

(9) Nothing in this subdivision shall preclude the governing board of a school district from imposing a more stringent academic standard than that imposed by this subdivision. If the governing board of a school district imposes a more stringent academic standard, the governing board shall establish the criteria for participation in extracurricular and cocurricular activities at a meeting open to the public pursuant to Section 35145.

The governing board of each school district shall annually review the school district policies adopted pursuant to the requirements of this section.

(b) (1) On or before July 1, 1994, the governing board of each school district shall, as a condition for the receipt of school apportionments from the state school fund, adopt rules and regulations establishing a policy of open enrollment within the district for residents of the district. This requirement does not apply to any school district that has only one school or any school district with schools that do not serve any of the same grade level.

(2) The policy shall include all of the following elements:

(A) It shall provide that the parents or guardian of each schoolage child who is a resident in the district may select the schools the child shall attend, irrespective of the particular locations of his or her residence within the district, except that school districts shall retain the authority to maintain appropriate racial and ethnic balances among their respective schools at the school districts' discretion or as specified in applicable court-ordered or voluntary desegregation plans.

(B) It shall include a selection policy for any school that receives requests for admission in excess of the capacity of the school that ensures that selection of pupils to enroll in the school is made through a random, unbiased process that prohibits an evaluation of whether any pupil should be enrolled based upon his or her academic or athletic performance. For purposes of this subdivision, the governing board of the school district shall determine the capacity of the schools in its district. However, school districts may employ existing entrance criteria for specialized schools or programs if the criteria are uniformly applied to all applicants. This subdivision shall not be construed to prohibit school districts from using academic performance to determine eligibility for, or placement in, programs for gifted and talented pupils established pursuant to Chapter 8 (commencing with Section 52200) of Part 28.

(C) It shall provide that no pupil who currently resides in the attendance area of a school shall be displaced by pupils transferring from outside the attendance area.

(3) Notwithstanding the requirement of subparagraph (B) of paragraph (2) that the policy include a selection policy for any school that receives requests for admission in excess of the capacity of the

school that ensures that the selection is made through a random, unbiased process, the policy may include any of the following elements:

(A) It may provide that special circumstances exist that might be harmful or dangerous to a particular pupil in the current attendance area of the pupil, including, but not limited to, threats of bodily harm or threats to the emotional stability of the pupil, that serve as a basis for granting a priority of attendance outside the current attendance area of the pupil. A finding of harmful or dangerous special circumstances shall be based upon either of the following:

(i) A written statement from a representative of the appropriate state or local agency, including, but not limited to, a law enforcement official or a social worker, or properly licensed or registered professionals, including, but not limited to, psychiatrists, psychologists, or marriage, family and child counselors.

(ii) A court order, including a temporary restraining order and injunction, issued by a judge.

A finding of harmful or dangerous special circumstances pursuant to this subparagraph may be used by a school district to approve transfers within the district to schools that have been deemed by the school district to be at capacity and otherwise closed to transfers that are not based on harmful or dangerous special circumstances.

(B) It may provide that any pupil attending a school prior to July 1, 1994, may be considered a current resident of that school for purposes of this section until the pupil is promoted or graduates from that school.

(C) It may provide that no pupil who was on a waiting list for a school or specialized program, on or before July 1, 1994, pursuant to a then-existing district policy on transfers within the district, shall be displaced by pupils transferring after July 1, 1994, from outside the attendance area, as long as the continued maintenance on a waiting list remains consistent with the former policy.

(D) It may provide that schools receiving requests for admission shall give priority for attendance to siblings of children already in attendance in that school.

(E) It may include a process by which the school district informs parents or guardians that certain schools or grade levels within a school are currently, or are likely to be, at capacity and, therefore, those schools or grade levels are unable to accommodate any new pupils under the open enrollment policy.

(4) It is the intent of the Legislature that, upon the request of the pupil's parent or guardian and demonstration of financial need, each school district provide transportation assistance to the pupil to the extent that the district otherwise provides transportation assistance to pupils.

SEC. 8. Section 41203.1 of the Education Code is amended to read:

41203.1. (a) For the 1990–91 fiscal year and each fiscal year thereafter, allocations calculated pursuant to Section 41203 shall be distributed in accordance with calculations provided in this section. Notwithstanding Section 41203, and for the purposes of this section, school districts, community college districts, and direct elementary and secondary level instructional services provided by the State of California shall be regarded as separate segments of public education, and each of these three segments of public education shall be entitled to receive respective shares of the amount calculated pursuant to Section 41203 as though the calculation made pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution were to be applied separately to each segment and the base year for the purposes of this calculation under paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution were based on the 1989–90 fiscal year. Calculations made pursuant to this subdivision shall be made so that each segment of public education is entitled to the greater of the amounts calculated for that segment pursuant to paragraph (1) or (2) of subdivision (b) of Section 8 of Article XVI of the California Constitution.

(b) If the single calculation made pursuant to Section 41203 yields a guaranteed amount of funding that is less than the sum of the amounts calculated pursuant to subdivision (a), then the amount calculated pursuant to Section 41203 shall be prorated for the three segments of public education.

(c) Notwithstanding any other provision of law, this section shall not apply to the 1992–93 fiscal year.

(d) Notwithstanding any other provision of law, this section shall not apply to the 1993–94 fiscal year.

(e) Notwithstanding any other provision of law, this section shall not apply to the 1994–95 fiscal year.

(f) Notwithstanding any other provision of law, this section shall not apply to the 1995–96 fiscal year.

(g) Notwithstanding any other provision of law, this section shall not apply to the 1996–97 fiscal year.

SEC. 9. Section 42238.145 of the Education Code is amended to read:

42238.145. For the purposes of this article, the revenue limit for each school district shall be reduced by a deficit factor, as follows:

(a) (1) For the 1994–95 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by an 11.01 percent deficit factor.

(2) For the 1995–96 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 10.12 percent deficit factor.

(3) For the 1996–97 and 1997–98 fiscal years the revenue limit for each school district determined pursuant to this article shall be

reduced by a 9.967 percent deficit factor, as adjusted pursuant to Section 42238.41.

(b) (1) The revenue limit for the 1994–95 fiscal year for each school district shall be determined as if the revenue limit for each school district had been determined for the 1993–94 fiscal year without being reduced by the deficit factor required pursuant to Section 42238.14.

(2) When computing the revenue limit for each school district for the 1995–96 or any subsequent fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that school district had been determined for the previous fiscal year without being reduced by the deficit factor specified in this section.

SEC. 10. Section 42243.7 of the Education Code is amended to read:

42243.7. (a) For any unified school district which commenced operations on or after June 30, 1978, or any school district which receives approval from the State Department of Education for a new continuation education high school for the 1979–80 fiscal year, or any fiscal year thereafter, the Superintendent of Public Instruction shall compute an adjustment to the district revenue limit pursuant to this section.

(b) Determine the amount of foundation program which the district would have been entitled to pursuant to subdivision (a) of Section 41711 if the district had operated during the 1977–78 fiscal year utilizing the number of units of average daily attendance attending high school in the district in the fiscal year for which the revenue limit is being computed.

(c) Determine the amount of foundation program which the district would have been entitled to pursuant to paragraph (1) of subdivision (b) of Section 41711 if the district had operated during the 1977–78 fiscal year utilizing the same number of units of average daily attendance used in subdivision (b) of this section.

(d) Subtract the amount determined pursuant to subdivision (c) from the amount computed pursuant to subdivision (b).

(e) The amount computed pursuant to subdivision (d), if greater than zero, shall be added to the revenue limit computed pursuant to subdivision (c) of Section 42237 or pursuant to Section 42238. If the amount in subdivision (d) is less than zero there is no adjustment.

(f) For each school district that claimed average daily attendance for continuation education high schools at the second principal apportionment for the 1995–96 fiscal year, increase the amount of the revenue limit per unit of average daily attendance computed by the school district by one hundred dollars ($100); except that if the amount appropriated for the purposes of this subdivision for any fiscal year is insufficient to increase each such unit of average daily attendance by that amount, then the Superintendent of Public Instruction shall adjust the amount of the increase on a pro rata basis.

(g) The Superintendent of Public Instruction shall reduce by the amount computed pursuant to subdivisions (d) and (f) the revenue limit computed pursuant to Section 42238 of any district discontinuing the operation of a continuation education school approved pursuant to subdivision (a).

(h) Commencing with the 1994–95 fiscal year and each fiscal year thereafter, the adjustment computed pursuant to this section shall not be adjusted by the deficit factor applied to the revenue limit of each school district pursuant to Section 42238.145.

(i) The adjustment computed pursuant to this section for a new continuation education high school may be applicable for any unified school district that was not fully operational during the first year of operation of the continuation education high school. The number of units of average daily attendance to be used in computing the adjustment shall be the number of units of average daily attendance generated by the continuation education high school in the district for the first year that the district is fully operational in all grades.

SEC. 11. Section 42301 of the Education Code is amended to read:

42301. (a) Notwithstanding any other provision, the State Department of Education shall grant applications for apportionments for purposes of this article, to the extent that funds are available, according to the following priorities:

(1) First priority for apportionments shall be for the purchase of new schoolbuses to replace existing schoolbuses owned by an eligible district or county office that do not conform to federal safety standards.

(2) Second priority for apportionments shall be for the reconditioning of existing schoolbuses owned by an eligible district or county office. For purposes of this paragraph, "reconditioning" includes, but is not limited to, retrofitting schoolbuses to conform to the federal Motor Vehicle Safety Standard 222 relating to schoolbus passenger seating and crash protection requirements.

(3) Any remaining funds shall be apportioned for the purchase of new schoolbuses by eligible districts or county offices which have proposed to increase the number of schoolbuses owned by the district or county office of education.

(4) In awarding grants, in accordance with the priorities established by paragraphs (1), (2), and (3), the State Department of Education shall give priority to eligible school districts with the smallest average daily attendance, as determined by the department.

(b) The governing board of any school district or county office of education shall be eligible to receive apportionments under this article for the replacement of schoolbuses.

(c) Any school district or county office of education receiving funds under this section shall be required to pay one-half of the estimated cost of a new schoolbus.

Each school district or county office shall also be required to contribute 50 percent of any proceeds from the sale of any schoolbus to be replaced with a new schoolbus purchased under this article.

(d) Insofar as possible, any purchases of new schoolbuses with funds apportioned pursuant to this article shall be made by the Department of General Services. Title to any schoolbus purchased by the Department of General Services pursuant to this section shall be in the name of the school district or county office of education for which the schoolbus was purchased.

(e) The State Department of Education shall develop priority categories for funding under this section which are based solely on vehicle age and mileage. Seventy-five percent of the funds available in any fiscal year for the purposes of this section shall be distributed to school districts and county offices of education based upon priority categories that utilize only vehicle age, mileage, and type of vehicle. Twenty-five percent of the funds available in any fiscal year for purposes of this section shall be allocated based upon the condition of the vehicles to be replaced. School districts and county offices shall submit as evidence of the condition of the vehicle to be replaced, the most recent California Highway Patrol inspection report, a repair estimate made by an independent repair shop, and any other information requested by the department.

(f) The State Department of Education shall estimate the cost of a replacement vehicle of the same capacity as the vehicle being replaced. A school district's or county office's entitlement shall equal the department's estimated cost, less any contributions determined pursuant to this section. A district or county office may use additional district or county office funds to purchase a schoolbus which is more expensive than the model used by the department to estimate the cost.

(g) Funds allocated pursuant to this section shall not be used to purchase a vehicle which does not meet the schoolbus passenger seating and crash protection requirements of the federal Motor Vehicle Safety Standard 222.

SEC. 12. Section 44258.9 of the Education Code is amended to read:

44258.9. (a) The Legislature finds that continued monitoring of teacher assignments by county superintendents of schools will ensure that the rate of teacher misassignment remains low. To the extent possible and with funds provided for that purpose, each county superintendent of schools shall perform the duties specified in subdivisions (b) and (c).

(b) (1) Each county superintendent of schools shall annually monitor and review school district certificated employee assignment practices according to the following priority:

(A) Schools and school districts that are likely to have problems with teacher misassignment based on past experience or other available information.

(B) All other schools on a four-year cycle.

(2) The Commission on Teacher Credentialing shall be responsible for the monitoring and review of those counties or cities and counties in which there is a single school district, including the Counties of Alpine, Amador, Del Norte, Mariposa, Plumas, and Sierra, and the City and County of San Francisco. All information related to the misassignment of certificated personnel shall be submitted to each affected district within 45 calendar days of the monitoring activity.

(e) County superintendents of schools shall submit an annual report to the Commission on Teacher Credentialing summarizing the results of all assignment monitoring and reviews. These reports shall include, but need not be limited to, the following:

(1) The numbers of teachers assigned and types of assignments made by local district governing boards under the authority of Sections 44256, 44258.2, and 44263 of the Education Code.

(2) Information on actions taken by local committees on assignment, including the number of assignments authorized, subject areas into which committee-authorized teachers are assigned, and evidence of any departures from the implementation plans presented to the county superintendent by school districts.

(3) Information on each school district reviewed regarding misassignments of certificated personnel, including efforts to eliminate these misassignments.

(4) After consultation with representatives of county superintendents of schools, other information as may be determined to be needed by the Commission on Teacher Credentialing.

(f) Commencing in 1990, the Commission on Teacher Credentialing shall submit biennial reports to the Legislature concerning teacher assignments and misassignments which shall be based, in part, on the annual reports of the county superintendents of schools.

(g) (1) The Commission on Teacher Credentialing shall establish reasonable sanctions for the misassignment of credential holders.

Prior to the implementation of regulations establishing sanctions, the Commission on Teacher Credentialing shall engage in a variety of activities designed to inform school administrators, teachers, and personnel within the offices of county superintendents of schools of the regulations and statutes affecting the assignment of certificated personnel. These activities shall include the preparation of instructive brochures and the holding of regional workshops.

(2) Commencing July 1, 1989, any certificated person who has been required by an administrative superior to accept an assignment for which he or she has no legal authorization shall, after exhausting any existing local remedies, notify the county superintendent of schools in writing of the illegal assignment. The county superintendent of schools shall, within 15 working days, advise the affected certificated person concerning the legality of his or her

assignment. There shall be no adverse action taken against a certificated person who files a notification of misassignment with the county superintendent of schools. During the period of the misassignment, the certificated person who has filed a written notification with the county superintendent of schools shall be exempt from the provisions of Section 45034. If it is determined that a misassignment has taken place, any performance evaluation of the employee under Sections 44660 to 44664, inclusive, in any misassigned subject shall be nullified.

(3) Commencing July 1, 1989, the county superintendent of schools shall notify, through the office of the district superintendent, any certificated school administrator responsible for the assignment of a certificated person to a position for which he or she has no legal authorization of the misassignment and shall advise him or her to correct the assignment within 30 calendar days. The county superintendent of schools shall notify the Commission on Teacher Credentialing of the misassignment if the certificated school administrator has not corrected the misassignment within 30 days of the initial notification, or if the certificated school administrator has not described, in writing, within the 30-day period, to the county superintendent of schools the extraordinary circumstances which make this correction impossible.

(4) Commencing July 1, 1989, the county superintendent of schools shall notify any superintendent of a school district in which 5 percent or more of all certificated teachers in the secondary schools are found to be misassigned of the misassignments and shall advise him or her to correct the misassignments within 120 calendar days. The county superintendent of schools shall notify the Commission on Teacher Credentialing of the misassignments if the school district superintendent has not corrected the misassignments within 120 days of the initial notification, or if the school district superintendent of schools has not described, in writing, within the 120-day period, to the county superintendent of schools the extraordinary circumstances which make this correction impossible.

(h) Commencing July 1, 1989, each applicant for a professional administrative service credential shall be required to demonstrate knowledge of existing credentialing laws, including knowledge of assignment authorizations.

SEC. 13. Article 5 (commencing with Section 51450) is added to Chapter 3 of Part 28 of the Education Code, to read:

Article 5. Golden State Seal Merit Diploma

51450. The Golden State Seal Merit Diploma is hereby established as an honors diploma to recognize high school graduates who have mastered the high school curriculum. The Golden State Seal Merit Diploma shall be awarded jointly by the State Board of

Education and the Superintendent of Public Instruction to each qualifying high school student.

51451. A student who meets the following requirements shall qualify for a Golden State Seal Merit Diploma:

(a) The completion of all requirements for a high school diploma.

(b) A demonstration of the mastery of the curriculum in at least six subject matter areas, four of which shall be mathematics, English language arts, science, and United States history, with the remaining two subject matter areas selected by the student.

51452. The State Board of Education shall determine and adopt, based upon the recommendations of the Superintendent of Public Instruction, the following:

(a) The means by which students may demonstrate mastery of the curriculum. For subject matter areas included in the Golden State Examination (Article 5 (commencing with Section 60650) of Chapter 5 of Part 33), that examination shall serve as the means by which students may demonstrate mastery of the curriculum. For other subject matter areas, the means may include, but shall not be limited to, any subject matter examinations deemed appropriately rigorous by the board. For this purpose, the board may designate examinations administered by or under the auspices of the State Department of Education, or examinations produced by private providers or local educational agencies, that are supervised and administered under conditions that are deemed adequate by the board.

(b) Student performance standards or achievement levels that demonstrate mastery of the curriculum.

51453. Under the policy direction of the State Board of Education and the administrative leadership of the Superintendent of Public Instruction, the State Department of Education shall do the following:

(a) Ensure that the results of the Golden State Examination are sent to school districts in a timely manner and work with providers of other examinations to provide timely information to school districts on students who have met the performance standards so that school districts can efficiently maintain student records and identify pupils who meet the requirements of the Golden State Seal Merit Diploma.

(b) Prepare and distribute to school districts an appropriate insignia to be affixed to a student's diploma and transcript indicating that the student has been awarded a Golden State Seal Merit Diploma by the State Board of Education and the Superintendent of Public Instruction.

(c) Consider whether it would be appropriate and feasible to provide any additional awards to recipients of the Golden State Seal Merit Diploma.

51454. Each school district that confers high school diplomas shall maintain appropriate records in order to identify students who have earned a Golden State Seal Merit Diploma, and shall affix the

appropriate insignia to the diploma and transcript of each student that earns a Golden State Seal Merit Diploma.

51455. (a) It is the intent of the Legislature that no fee or other cost be charged to any pupil pursuant to this article. However, notwithstanding any other provision of law, a school district receiving funds pursuant to Chapter 1 (commencing with Section 54000) of Part 29 may expend any portion of those funds to pay for all or part of the costs of one or more examinations pursuant to this article that are charged to economically disadvantaged pupils.

(b) An economically disadvantaged pupil means a pupil from a family that receives Aid to Families with Dependent Children.

SEC. 14. Section 56728.8 of the Education Code is amended to read:

56728.8. (a) Notwithstanding subdivision (d) of Section 56760, for the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of those instructional personnel service units operated and fundable for services to individuals with exceptional needs younger than three years of age at the second principal apportionment of the prior fiscal year, as long as the pupil count of these pupils divided by the number of instructional personnel service units is not less than the following:

(1) For special classes and centers—12, based on the unduplicated pupil count.

(2) For resource specialist programs—24, based on the unduplicated pupil count.

(3) For designated instruction and services—12, based on the unduplicated pupil count, or 39, based on the duplicated pupil count.

(b) Notwithstanding subdivision (d) of Section 56760, in the 1985–86 fiscal year and each fiscal year thereafter, a special education local plan area shall be eligible for state funding of instructional personnel service units for services to individuals with exceptional needs younger than three years of age in excess of the number of instructional personnel service units operated and fundable at the second principal apportionment of the prior fiscal year only with the authorization of the Superintendent of Public Instruction.

(c) The Superintendent of Public Instruction shall base the authorization of funding for special education local plan areas pursuant to this section, including the reallocation of instructional personnel service units, upon criteria that shall include, but not be limited to, the following:

(1) Changes in the total number of pupils younger than three years of age enrolled in special education programs.

(2) High- and low-average caseloads per instructional personnel service unit for each instructional setting.

(d) Notwithstanding subdivision (e) of Section 56760, infant programs in special classes and centers funded pursuant to this item shall be supported by two aides, unless otherwise required by the Superintendent of Public Instruction.

(e) Infant services in resource specialist programs funded pursuant to this item shall be supported by one aide.

(f) In determining the number of instructional personnel service units for which a special education local plan area may qualify, a minimum of six infants shall constitute eligibility for the initial unit. However, programs operating pursuant to Section 56425 shall be allowed a minimum of one initial unit for the 1985–86 fiscal year. When units are allocated pursuant to this subdivision, the Superintendent of Public Instruction shall allocate only the least expensive unit appropriate.

(g) Beginning with the 1986–87 fiscal year, those programs operating pursuant to Section 56425 with fewer than six infants shall receive a partial unit, as determined by the Superintendent of Public Instruction.

(h) Notwithstanding Sections 56211 and 56212, a special education local plan area may apply for, and the superintendent may grant, a waiver of any of the standards and criteria specified in this section if compliance would prevent the provision of a free, appropriate public education or would create undue hardship. In granting the waivers, the superintendent shall give priority to the following factors:

(1) Applications from special education local plan areas for waivers for a period not to exceed three years to specifically maintain or increase the level of special education services necessary to address the special education service requirements of individuals with exceptional needs residing in sparsely populated districts or attending isolated schools designated in the application.

(A) Sparsely populated districts are school districts that meet one of the following conditions:

(i) A school district or combination of contiguous school districts in which the total enrollment is less than 600 pupils, kindergarten and grades 1 to 12, inclusive, and in which one or more of the school facilities is an isolated school.

(ii) A school district or combination of contiguous school districts in which the total pupil density ratio is less than 15 pupils, kindergarten and grades 1 to 12, inclusive, per square mile and in which one or more of the school facilities is an isolated school.

(B) Isolated schools are schools with enrollments of less than 600 pupils, kindergarten and grades 1 to 12, inclusive, that meet one or more of the following conditions:

(i) The school is located more than 45 minutes average driving time over commonly used and well-traveled roads from the nearest school, including schools in adjacent special education local plan areas, with an enrollment greater than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(ii) The school is separated, by roads that are impassable for extended periods of time due to inclement weather, from the nearest school, including schools in adjacent special education local plan

areas, with an enrollment greater than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(iii) The school is of a size and location that, when its enrollment is combined with the enrollments of the two largest schools within an average driving time of not more than 30 minutes over commonly used and well-traveled roads, including schools in adjacent special education local plan areas, the combined enrollment is less than 600 pupils, kindergarten and grades 1 to 12, inclusive.

(iv) The school is the one of normal attendance for a severely disabled individual, as defined in Section 56030.5, or an individual with a low-incidence disability, as defined in Section 56026.5, who otherwise would be required to be transported more than 75 minutes, average one-way driving time over commonly used and well-traveled roads, to the nearest appropriate program.

(2) The location of licensed children's institutions, foster family homes, residential medical facilities, or similar facilities within the boundaries of a local plan if 3 percent or more of the local plan's unduplicated pupil count resides in those facilities.

(i) By authorizing units pursuant to this section, the superintendent shall not increase the statewide total number of instructional personnel service units for purposes of state apportionments unless an appropriation specifically for growth in the number of instructional personnel service units is made in the annual Budget Act or other legislation. The allocation for implementation in the 1990–91 fiscal year shall not exceed the amount of five hundred thousand dollars ($500,000) provided by subdivision (a) of Provision 6 of Item 6110-161-001 of Section 2.00 of the Budget Act of 1990. If that growth appropriation is made, units authorized by the superintendent pursuant to this section are subject to the following restrictions:

(1) The units shall be funded only by that growth appropriation and no other funds may be apportioned for the units.

(2) All units shall be fully funded pursuant to Chapter 7 (commencing with Section 56700) of Part 30.

(j) The superintendent shall monitor the use of instructional personnel service units retained or authorized by the granting of waivers pursuant to subdivision (h) to ensure that the instructional personnel service units are used in a manner wholly consistent with the basis for the waiver request.

(k) Notwithstanding Section 56726 or 56731, or paragraph (2) of subdivision (e) of Section 56737 of the Education Code, or any other provision of law, the State Department of Education shall allocate funds for the 1995–96 and 1996–97 fiscal years to those educational agencies receiving allocations for instructional personnel service units pursuant to this section based on computing 200-day entitlements. The 200-day entitlements shall not exceed 111 percent of the current entitlement for each educational agency. Notwithstanding any other provision of law, no funds shall be

allocated pursuant to Section 56726 for the 1995–96 and 1996–97 fiscal years for services provided to children with exceptional needs who are younger than three years of age.

SEC. 15. Chapter 3.1 (commencing with Section 58520) is added to Part 31 of the Education Code, to read:

CHAPTER 3.1. SINGLE GENDER ACADEMIES PILOT PROGRAM

58520. (a) This chapter shall be known and may be cited as the Single Gender Academies Pilot Program Act of 1996.

58521. (a) The Legislature hereby finds and declares that a primary goal of the Single Gender Academies Pilot Program is to increase the diversity of California's public educational offering by making single gender academies available to those pupils of each gender who because of their unique educational needs will benefit from single gender education.

(b) It is the intent of the Legislature that single gender academies operated pursuant to this chapter shall be tailored to the differing needs and learning styles of boys as a group and girls as a group. It is further the intent of the Legislature that if a particular program or curriculum is available to one gender, it shall also be available to those pupils in the other gender who would benefit from the particular program or curriculum.

(c) It is further the intent of the Legislature that single gender academies operated pursuant to this chapter offer the following:

(1) Diversity in educational opportunity.

(2) Equal opportunities at both boys' and girls' academies.

(3) Equal funding and facilities at both boys' and girls' academies.

58522. (a) The Superintendent of Public Instruction shall administer this chapter.

(b) A school district may submit an application to the Superintendent of Public Instruction to receive a grant for the establishment and operation of a single gender academy pursuant to this chapter. To be eligible to receive a grant pursuant to this chapter, the single gender academy for which the school district has applied for a grant shall meet the following requirements:

(1) Enrollment in the single gender academy must be on a voluntary basis.

(2) Boys and girls enrolled in similar schools must have equal access to the schools.

(3) In all aspects of the curricula, the educational opportunity must be equal for boys and girls.

(4) A plan for conducting an evaluation of the results of the single gender academies.

(c) The Superintendent of Public Instruction shall award grants to 10 applicant school districts for the establishment of one single gender academy for girls and one single gender academy for boys in each of those selected school districts. Grant recipients shall be

selected on a competitive basis. In selecting grant recipients, the superintendent shall consider whether the proposed single gender academy meets the requirements set forth in subdivision (b). The superintendent shall select grant recipients that have clearly demonstrated the expected benefits of single gender education at the proposed academy and how a single gender academy will meet the unique educational needs of the pupils and communities they serve. When choosing between grant applicants that have similar qualifications, the superintendent shall give preference to applicant school districts seeking to establish single gender academies for both boys and girls that will be in close geographical proximity to ensure equal access to single gender academies for both genders in the school districts.

58523. (a) The governing board of a school district receiving a grant pursuant to this chapter shall establish a single gender academy as a magnet school pursuant to its general power established under Section 35160 or an an alternative education magnet school pursuant to Chapter 3 (commencing with Section 58500).

(b) The governing board of a school district receiving a grant pursuant to this chapter shall provide a detailed report of the relative success of the single gender academy to the Superintendent of Public Instruction, Department of Finance, office of the Legislative Analyst, Joint Legislative Budget Committee, Senate Committee on Education, and to the Assembly Committee on Education on or before January 1, 2000.

58524. The Superintendent of Public Instruction shall allocate two hundred fifty thousand dollars ($250,000) for each single gender academy established pursuant to this chapter to the school district establishing the academy.

SEC. 16. Notwithstanding any other provision, for the purposes of Sections 14002, 14004, and 41301 for the 1997-98 fiscal year, the Superintendent of Public Instruction shall certify to the Controller amounts that do not exceed the amounts needed to fund the revenue limits of school districts, as determined pursuant to Section 42238 of the Education Code and as adjusted by the deficit factor specified for the fiscal year in Section 42238.145 of the Education Code, and the revenue limits of county superintendents of schools as determined pursuant to Section 2558 of the Education Code as adjusted by the deficit factor specified for the fiscal year in Section 2558.45 of the Education Code.

SEC. 17. (a) The sum of forty-eight thousand dollars ($48,000) is hereby appropriated from the General Fund in augmentation of schedule (a) of Item 6870-101-001 of Section 2.00 of the Budget Act of 1995 (Ch. 303, 1995 Stats.), for the purposes of apportionments to community college districts for property tax deficiencies.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be

"General Fund revenues appropriated to community college districts," as defined in subdivision (d) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 18. (a) The sum of seventy-six million nine hundred thirty-two thousand dollars ($76,932,000) is hereby appropriated from the General Fund for transfer by the Controller to Section B of the State School Fund for the purpose of providing one-time block grants to community college districts for the 1996–97 fiscal year. The Chancellor of the Community Colleges shall allocate the amounts appropriated pursuant to this section in an average amount per actual statewide full-time equivalent student enrollment reported for the 1995–96 fiscal year, except that each community college district shall be allocated an amount not less than one hundred thousand dollars ($100,000) and the average amount per unit of full-time enrollment shall be computed accordingly. Community college districts shall expend the allocations made pursuant to this section for the purpose of instructional supplies, instructional equipment, and library materials, including equipment and materials that increase the use of modern technology for instructional purposes.

(b) Of the sum appropriated pursuant to subdivision (a), the sum of two million one hundred thousand dollars ($2,100,000) shall be allocated to the Mt. San Antonio Community College District for the acquisition and pilot testing of a fully integrated management information system. Any procurement of software is to be purchased through a competitive bid process pursuant to Part 3 (commencing with Section 20100) of the Public Contracts Code with the Mt. San Antonio Community College District issuing the contract.

(c) Of the funds allocated pursuant to this section to the Los Angeles Community College District, five hundred ninety-six thousand seven hundred and nineteen dollars ($596,719) of that total apportionment to the Los Angeles Community College District shall be allocated for the purposes of equipment at the East Los Angeles College's Automotive Technology Training Facility.

(d) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, fifty-five million six hundred fifteen thousand dollars ($55,615,000) of the amounts appropriated pursuant to subdivision (a) shall be deemed to be "General Fund revenues appropriated to community college districts," as defined in subdivision (d) of Section 41202 of the Education Code for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to

Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code for the 1995–96 fiscal year.

(e) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, nineteen million six hundred fifty-nine thousand dollars ($19,659,000) of the amounts appropriated by subdivision (a) shall be deemed to be "General Fund revenues appropriated to community college districts," as defined in subdivision (a) of Section 41202 of the Education Code for the 1994–95 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1994–95 fiscal year.

(f) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, one million six hundred fifty-eight thousand dollars ($1,658,000) of the amounts appropriated by subdivision (a) shall be deemed to be "General Fund revenues appropriated to community college districts," as defined in subdivision (d) of Section 41202 of the Education Code for the 1991–92 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1991–92 fiscal year.

SEC. 19. (a) The sum of sixty million dollars ($60,000,000) is hereby appropriated from the General Fund to the Chancellor of the California Community Colleges for the purpose of allocating funds to community college districts for one-time deferred maintenance projects for the 1996–97 fiscal year. Allocations shall be made in accordance with Section 84660 of the Education Code, except that for a community college district to be eligible for funds appropriated pursuant to this section and pursuant to schedule (o) of Item 6870-101-001 of Section 2.00 of the Budget Act of 1996, the community college district shall pay for a portion of the project from other revenues available to the community college districts. The matching fund requirement under this section may be waived in whole or in part as specified in Section 84660 of the Education Code. The amount of the match shall be determined as follows:

(1) Determine the amount scheduled for deferred maintenance in Item 6870-101-0001 of Section 2.00 of the Budget Act of 1996.

(2) Add the amount determined in paragraph (1) to the amount appropriated for deferred maintenance in this section.

(3) Divide the amount determined in paragraph (1) above by the sum of paragraphs (1) and (2).

(4) Multiply the quotient computed pursuant to paragraph (2) by 100. The result of this calculation is the percentage of the cost of the deferred maintenance project that each community college district

is required to make toward the cost of a deferred maintenance project.

(5) Multiply the percentage computed in paragraph (4) by the cost of the deferred maintenance project for which the community college district is requesting funds. This is the amount of the match the community college must contribute to the cost of the deferred maintenance project.

(b) Of the amount appropriated in subdivision (a), up to fourteen million dollars ($14,000,000) may be utilized by the Chancellor of the California Community Colleges to backfill a property tax deficiency for community college districts for the 1995–96 fiscal year provided that the following conditions are met:

(1) No property tax backfill will occur until final property tax figures have been certified by the Chancellor of the California Community College Districts.

(2) The final dollar amount must be adjusted to reflect repayment of six million two hundred thirty-two thousand dollars ($6,232,000) advanced to the Chancellor of the California Community College Districts pursuant to Chapter 142 of the Statutes of 1994.

(3) The dollar amount of the property tax deficiency must be certified by the Director of Finance prior to the allocation of funds.

(c) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to community college districts," as defined in subdivision (d) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 20. (a) The sum of twenty million dollars ($20,000,000) is hereby appropriated from the General Fund to the Chancellor of the California Community Colleges for the 1996–97 fiscal year for the purpose of allocating funds to community college districts to fund architectural barrier removal projects. The amounts appropriated in this section shall be distributed by the Chancellor of the California Community Colleges to community college districts on a project-by-project basis based on priority of need for the project. As a condition to receiving funds, community college districts shall provide an equal matching amount, unless the Board of Governor's of the California Community Colleges waives this requirement. The Chancellor of the California Community Colleges shall develop specific architectural barrier removal criteria and no funds shall be encumbered under this section until the chancellor has done so. The Chancellor of the California Community Colleges shall submit their recommendations on for architectural barrier removal criteria to the Joint Legislative Budget Committee, the Budget Committee of the

Assembly, the Budget and Fiscal Review Committee of the Senate, the Legislative Analyst's Office, and the Department of Finance no later than October 1, 1996. Funds shall be available for allocation of this appropriation until June 30, 1997.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to community college districts," as defined in subdivision (d) of Section 41202 of the Education Code for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 21. (a) Notwithstanding Chapter 7 (commencing with Section 56700) of Part 30 of the Education Code, funds appropriated pursuant to schedule (b) of Item 6110-161-001 of the Budget Act of 1996 are hereby reappropriated to the State Department of Education for the purpose of Title 14 (commencing with Section 95000) of the Government Code, as follows:

(1) The reappropriation shall only be made if the amount appropriated pursuant to schedule (b) of Item 6110-161-001 of Section 2.00 of the Budget Act of 1996 exceeds the amount necessary to fund the total statewide number of instructional personnel services units computed pursuant to Section 56728.8 of the Education Code for the 1996–97 fiscal year and the reimbursement amount received by the State Department of Education from the Department of Developmental Services pursuant to Title 14 (commencing with Section 95000) of the Government Code is not sufficient to fully fund the costs of operating the programs set forth in that title for the 1996–97 fiscal year.

(2) If the conditions in paragraph (1) are met, the amount of the reappropriation shall be the lesser of the amounts determined pursuant to subparagraph (A) or (B), except that if the amounts determined in those subparagraphs are the same, then that shall be the amount of the reappropriation:

(A) The amount necessary to fully fund the costs of the State Department of Education in operating the programs set forth in Title 14 (commencing with Section 95000) of the Government Code, as determined under paragraphs (1) and (2) of subdivision (b).

(B) The amount by which the appropriation made pursuant to schedule (b) of Item 6110-161-001 of Section 2.00 of the Budget Act of 1996 is in excess of the amount necessary to fund the total statewide number of instructional personnel services units computed pursuant to Section 56728.2 of the Education Code for the 1996–97 fiscal year.

(b) From the amounts reappropriated pursuant to subdivision (a), each local education agency that has costs for operating a program established pursuant to Title 14 (commencing with Section

95000) of the Government Code that exceed the amount allocated by the State Department of Education to the local education agency for that purpose shall be eligible to receive an amount not to exceed the amount computed as follows:

(1) Subtract the number of children under the age of three years with solely low-incidence disabilities served by the local education agency in the 1992–93 fiscal year, as reported on the April 1993 pupils count made pursuant to Section 56728.5 of the Education Code, from the number of solely low-incidence children under three years of age that the local education agency is projected to serve in the 1996–97 fiscal year.

(2) Multiply the number computed in paragraph (1) by six thousand six hundred eighty dollars ($6,680).

(3) If the funds reappropriated pursuant to subdivision (a) are insufficient to fully fund the allocations computed pursuant to this subdivision, the amount of the allocations shall be reduced on a pro rata basis.

SEC. 22. For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (d) of Section 42 of Chapter 308 of the Statutes of 1995, shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1994–95 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1994–95 fiscal year.

SEC. 23. (a) The sum of six million sixty-five thousand dollars ($6,065,000) is hereby appropriated from the General Fund to the Controller for reimbursement, in accordance with the provisions of Section 6 of Article XIII B of the California Constitution, of claims filed by school districts for the 1994–95 fiscal year for the teacher evaluations required by Section 35160.5 of the Education Code, as that section existed on the date prior to the effective date of this section.

(b) The sum of one million five hundred thirty-three thousand dollars ($1,533,000) is hereby appropriated from the General Fund to the Controller for transfer to the State Teachers' Retirement Fund for reimbursement of costs incurred in the 1994–95 fiscal year pursuant to Chapter 1036 of the Statutes of 1979.

(c) For purposes of making computations required by Section 8 of Article XVI of the California Constitution, the appropriations made by subdivisions (a) and (b) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1994–95 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes

appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1994–95 fiscal year.

SEC. 24. (a) The sum of three million six hundred sixteen thousand dollars ($3,616,000) is hereby appropriated from the General Fund to the Controller for reimbursement, in accordance with the provisions of Section 6 of Article XIII B of the California Constitution, of claims filed by school districts for the 1994–95 fiscal year for the teacher evaluations required by Section 35160.5 of the Education Code, as that section existed on the date prior to the effective date of this section.

(b) The sum of ten million five hundred thousand dollars ($10,500,000) is hereby appropriated, from the General Fund to the Controller for reimbursement, in accordance with the provisions of Section 6 of Article XIII B of the California Constitution of claims filed by school districts for the 1995–96 fiscal year for the teacher evaluations required by Section 35160.5 of the Education Code, as that section existed on the date prior to the effective date of this section.

(c) For purposes of making computations required by Section 8 of Article XVI of the California Constitution, the appropriations made by subdivisions (a) and (b) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 25. (a) The sum of two hundred million dollars ($200,000,000) is hereby appropriated from the General Fund for transfer to Section A of the State School Fund for allocation to school districts and county offices of education on the basis of an equal amount per unit of average daily attendance, as defined in subdivision (b) of Section 42235.5 of the Education Code, and including average daily attendance used to compute funding for small school districts pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24 of the Education Code, reported for the second principal apportionment for the 1995–96 fiscal year pursuant to Section 41601 of the Education Code. That allocation shall be used solely for instructional materials, library resources, deferred maintenance, education technology, or any other nonrecurring costs.

(b) Prior to the use of funds appropriated in subdivision (a), the governing board of the school district or the county board of education shall hold a public hearing or hearings at which time the governing board of the school district or the county board of education shall report on the needs of, and resources for, instructional materials, library resources, deferred maintenance, education

technology, and any other nonrecurring costs in the district or county office of education. The governing board of the school district or county board of education shall encourage the participation of parents, teachers, members of the community interested in the affairs of the school district or county office of education, and collective bargaining unit leaders. The board shall provide 10 days notice of the public hearing or hearings. The notice shall contain the time, place, and purpose of the hearing and shall be posted in three public places. The governing board of the school district or county board of education may include the hearing specified in this section as part of any regularly scheduled meeting.

(c) Prior to the use of funds appropriated in subdivision (a) for nonrecurring costs related to employee compensation, the governing board of the school district or the county board of education shall hold a public hearing or hearings, in addition to, and no less than, 10 days subsequent to the hearing or hearings provided in subdivision (b), at which time the board shall report on the needs of and resources for instructional materials, library resources, deferred maintenance, and education technology. The governing board of the school district or county board of education shall encourage the participation of parents, teachers, members of the community interested in the affairs of the school district or county office of education, and collective bargaining unit leaders. The governing board of the school district or county board of education shall provide 10 days notice of the public hearing or hearings. The notice shall contain the time, place, and purpose of the hearing. The governing board of the school district or county board of education may include the hearing specified in this section as part of any regularly scheduled meeting.

(d) The appropriation made in subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202, for the 1995–96 fiscal year, and "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of that fiscal year, for purposes of Section 8 of Article XVI of the California Constitution for the 1995–96 fiscal year.

SEC. 26. (a) The sum of thirty-five million dollars ($35,000,000) is hereby appropriated from the General Fund to the State Department of Education for apportionment to school districts and county offices of education pursuant to Section 42301 of the Education Code for the 1996–97 fiscal year.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code for the 1995–96 fiscal year, and included within the "total allocations to

school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 27. (a) The sum of five million dollars ($5,000,000) is hereby appropriated from the General Fund to the State Department of Education without regard to fiscal year for the purposes of the Single Gender Academies Pilot Program established pursuant to Chapter 3.1 (commencing with Section 58520) of Part 31 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 28. (a) The sum of fifty million dollars ($50,000,000) is hereby appropriated from the General Fund to the State School Deferred Maintenance Fund, without regard to fiscal year, to be allocated by the State Allocation Board to fund applications received by the Office of Public School Construction for the purposes of payments for deferred maintenance projects for school districts maintaining kindergarten or any of grades 1 to 12, inclusive. Notwithstanding any other sections of the Education Code and to the extent that funds are available within this section, the State Allocation Board shall give first priority for apportionment of these funds to school districts requesting funding for projects that meet the criteria for critical hardship pursuant to Section 39619.5 of the Education Code as of June 30, 1996. If, after funding all projects that meet the critical hardship criteria, additional funds remain from this appropriation, the State Allocation Board shall allocate any remaining funds to school districts pursuant to Section 39619 of the Education Code and any criteria established by the State Allocation Board for general deferred maintenance projects.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 29. (a) The sum of seven million two hundred thousand dollars ($7,200,000) is hereby appropriated from the General Fund for transfer by executive order of the Director of Finance to the Controller, for reimbursement of approved claims received from the following school districts and county offices of education for costs of court ordered desegregation programs operated pursuant to Sections 42243.6, 42243.9, and 42247 of the Education Code for the 1993–94 fiscal year.

The appropriation made by this subdivision shall be allocated according to the following schedule:

	Reimbursement amount for the 1993-94 fiscal year
Bakersfield City School District court-ordered desegregation	$ 12,300
Los Angeles Unified School District court-ordered desegregation	3,287,700
Menlo Park Elementary School District court-ordered desegregation	4,800
Ravenwood City Elementary School District court-ordered desegregation	9,000
Redwood City Elementary School District court-ordered desegregation	8,800
San Bernardino City Unified School District court-ordered desegregation	682,900
San Diego Unified School District court-ordered desegregation	722,500
San Francisco Unified School District court-ordered desegregation	84,700
San Jose Unified School District court-ordered desegregation	1,112,200
San Mateo County Office of Education court-ordered desegregation	2,900
Santa Clara County Office of Education court-ordered desegregation	1,800
Sequoia Union High School District court-ordered desegregation	270,500
Stockton Unified School District court-ordered desegregation	999,900

(b) The appropriations made by subdivision (a) is subject to all of the following:

(1) Before submittal of a claim to the Controller for payment, school districts shall subject their past year actual claims to audit, in accordance with standards utilized by the Controller in prior years for the audit of past year actual desegregation claims, to ensure its claim complies with the requirements of Sections 42247, 42247.1, 42248, 42249 and 42249.2 of the Education Code. School districts may contract with the Controller for the performance of those audits. All past year actual claims submitted to the Controller for payment shall be accompanied by any reports issued by the auditing entity, unless the auditing entity was the Controller.

(2) The Controller shall only reimburse those past year actual claims that conform to the requirements of paragraph (2).

(3) The Controller shall allocate funds appropriated in this section in accordance with Section 42247 of the Education Code. The Controller shall reimburse these claims only from funds appropriated specifically for that purpose by the Legislature.

(4) The Controller shall allocate funds appropriated in this section in accordance with the schedule contained herein, unless a revision of that schedule has been approved by the Department of Finance.

(5) The Department of Finance may not authorize any revisions to the schedule in this section sooner than 30 days after notification in writing of the necessity therefor to the chairperson of the committee in each house that considers appropriations and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the joint committee, or his or her designee, may in each instance determine.

(6) Funds appropriated in this item shall not be used to reimburse claims by school districts for facilities lease costs, school construction, reconstruction, replacement of facilities, purchase of existing facilities, purchase of land, or the performance of deferred maintenance activities on facilities.

(7) Effective July 1, 1991, and notwithstanding any other provision of law to the contrary, no school district shall be required to comply with Sections 90 to 101, inclusive, of Title 5 of the California Code of Regulations. Any costs incurred after that date in compliance with those regulations shall be deemed incurred voluntarily and shall not be reimbursable as a state-mandated local program. Nothing in this provision shall be interpreted to deny reimbursement of claims for court-ordered or voluntary desegregation plans or programs.

(c) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year and included within the "total allocations to school districts and community college districts from General Fund

proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 30. (a) The sum of six hundred fifty thousand dollars ($650,000) is hereby appropriated from the General Fund to Section A of the State School Fund for apportionment by the Superintendent of Public Instruction to the Alhambra City High School District for the purposes of making a loan to the district for the 1996–97 fiscal year.

(b) The funds appropriated in subdivision (a) shall not be disbursed until the Alhambra City High School District has notified the Controller of its acceptance of the terms of the loan. If the district does not notify the Controller within 90 days of the effective date of this section the funds shall revert to the Proposition 98 Reversion Account within the General Fund.

(c) Interest on the loan made pursuant to subdivision (a) shall accrue from the date the funds are disbursed to the school district, at the investment rate of the Pooled Money Investment Account as of the date the funds are disbursed to the district. The loan shall be repaid in three equal annual installments, to be repaid each January 1, beginning January 1, 1998. If payment is not made by the school district within 60 days after the scheduled date, the Controller shall pay the defaulted loan payment of principal and interest by withholding that amount from the next available apportionment to the county treasurer on behalf of the school district pursuant to Section 42238 of the Education Code.

(d) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 31. (a) The sum of four million dollars ($4,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the purpose of establishing the Discovery Science Center in Orange County for the 1996–97 fiscal year. Funds appropriated in this section shall be used on a one-time basis for the construction and start-up costs for the Discovery Science Center in Orange County. The center shall be an 80,000 square foot, hands-on, interactive learning facility. The center shall be in a centrally located site to benefit all of Orange County, and shall afford access to science to children who live in the less affluent areas of the county. The center shall serve as a resource for public elementary and secondary

schools, and shall offer programs to Orange County schools, residents, and visitors.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 32. (a) The sum of one million dollars ($1,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction, without regard to fiscal year, for the purpose of allocating funds to the Soledad Union School District for the construction of a regional community library in Monterey County. Funds appropriated in this section shall be used on a one-time basis to provide the remaining balance of funds necessary for construction of a joint use library in Monterey County that will serve the pupils of the Soledad Union School District and adults in the community.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 33. (a) The sum of eight hundred thousand dollars ($800,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to the Claremont Unified School District for the purpose of allocating funds to that school district for the one-time costs related to special education facilities at the Sumner Elementary School site for the 1996–97 fiscal year.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 34. The funds appropriated in Items 6110-105-001, 6110-156-0001, 6110-158-0001, 6110-161-0001, 6110-196-0001 and 6110-230-0001, of Section 2.00 of the Budget Act of 1996, are in lieu of the amounts that would otherwise be required to be appropriated pursuant to any other provision of law.

SEC. 35. (a) The sum of three hundred and seventy-five thousand dollars ($375,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to the Oakland Museum of California for the 1996–97 fiscal year. Funds allocated in this section shall be used on a one-time basis for education activities related to the California Gold Rush. These activities shall include curriculum development, teacher training, outreach development, exhibits, on-line resources, and museum programs.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code for the 1995–96, fiscal year and be included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 36. The sum of two million seven hundred sixty thousand dollars ($2,760,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction, without regard to fiscal year, for allocation to the Pomona Unified School District for the purpose of funding the one-time startup costs for the Educational Village Project at that school district.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year and be included within the "total allocations to school districts and community college districts from General fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code for the 1995–96 fiscal year.

SEC. 37. (a) The sum of twelve million dollars ($12,000,000) is hereby appropriated from the General fund to the California Public School Library Protection Fund established pursuant to Section 18178 of the Education Code, without regard to fiscal year, for the purposes set forth in that section.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined

in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 38. (a) The sum of two million dollars ($2,000,000) is hereby appropriated from the General Fund for transfer to Section A of the State School Fund for the purposes of continuation high school equalization for the 1996–97 fiscal year pursuant to subdivision (f) of Section 42243.7 of the Education Code.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1996–97 fiscal year and be included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1996–97 fiscal year.

SEC. 39. (a) The sum of fifty million dollars ($50,000,000) is hereby appropriated from the General Fund as a contingency expenditure, to be authorized by the Department of Finance for allocation as appropriate for the reimbursement of state-mandated cost claims submitted by school districts and county offices of education.

(b) Prior to the use of funds appropriated in subdivision (a), the Controller shall ensure audits of the claims are complete.

(c) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 40. (a) The sum of five hundred twenty-eight thousand dollars ($528,000) is hereby appropriated from the General Fund for transfer by executive order of the Director of Finance to the Controller, for reimbursement of approved claims received from the Ocean View Elementary School District in Huntington Beach for the costs of operating its voluntary desegregation program pursuant to Sections 42247 and 42249 of the Education Code, for the 1992–93, 1993–94, 1994–95, and 1995–96 fiscal years.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 41. (a) The sum of six million four hundred thousand dollars ($6,400,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction to be apportioned to school districts for the costs of programs and services established pursuant to the Immigrant Workforce Preparation Act contained in Chapter 10.5 (commencing with Section 52651) of Part 28 of the Education Code for the 1996–97 fiscal year.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included with the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 42. (a) The sum of nine hundred and eighty thousand dollars ($980,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to the Museum of Tolerance at the Simon Wiesenthal Center for the 1996–97 fiscal year. Funds allocated in this section shall be used on a one-time basis to acquire the necessary hardware and software to upgrade the Multimedia Learning Center so that it can be formatted for direct communication into California's classrooms. This shall include the capability to transmit, via the Internet, text and images from the museum to anywhere in the state. It may also include the potential for on-line conferencing that will access teachers directly and immediately to the museum's curriculum experts.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and be included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined

in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 43. (a) The sum of two million dollars ($2,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to the Golden Gate Institute for Indigenous Cultures and to the California Indian Museum for the 1996–97 fiscal year for the one-time purpose of assisting in the retrofit and renovation of designated buildings at the Presidio in San Francisco.

(b) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and be included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 44. (a) The sum of three hundred eighty-seven million dollars ($387,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the purpose of providing funds to each regular public school in the state for the 1996–97 fiscal year. The Superintendent of Public Instruction shall allocate the funds on the basis of an equal amount per unit of actual average daily attendance for the 1995–96 second principal apportionment for each regular public school, provided, however, that no regular public school shall receive less than twenty-five thousand dollars ($25,000).

(b) The use of funds allocated pursuant to subdivision (a) for schools under the jurisdiction of a school district shall be proposed by each school's schoolsite council, as defined in Section 52012 of the Education Code, or if the school does not have a schoolsite council, by schoolwide advisory groups or school support groups that conform to the requirements of Section 52012 of the Education Code. The proposals shall be approved by the governing board of the school district prior to expenditure of the funds allocated pursuant to subdivision (a). If the governing board of a school district does not approve the use proposed pursuant to this subdivision, the governing board of the school district shall inform the schoolsite council, schoolwide advisory group, or school support group of the reasons why the proposal was disapproved. If the schoolsite council, schoolwide advisory group, or school support group and the governing board of the school district are not able to agree on the use of the funds by May 1, 1997, the county superintendent of schools shall notify the Superintendent of Public Instruction of the impasse. The Superintendent of Public Instruction shall require that the funds allocated to the school be returned to the state and the funds shall

revert to the Proposition 98 Reversion Account within the General Fund.

(c) The use of funds allocated pursuant to subdivision (a) for schools under the jurisdiction of a county office of education shall be proposed by each school's schoolwide advisory group or school support group that conforms to the requirements of Section 52012 of the Education Code. The proposals shall be approved by the county board of education prior to expenditure of the funds allocated pursuant to subdivision (a).

(d) For purposes of this section, the term "regular public school," as provided in subdivision (a), shall be defined as any public school at a distinct and wholly self-contained public schoolsite, with a separate county-district-school (CDS) code, as maintained by the Superintendent of Public Instruction as of June 30, 1996, and which is in operation during the 1996–97 school year. Two or more schools that share a physical site or staff shall be considered a single "regular public school" for purposes of qualifying for the minimum twenty-five thousand dollar ($25,000) grant, which shall be allocated to the separate schools sharing the site based on each school's share of qualifying average daily attendance. Funds allocated pursuant to subdivision (a) shall not be allocated to parents or pupils.

(e) For the purposes of this section, the term "regular public school," as provided in subdivision (a), shall include charter schools that have pupils who are currently enrolled and that have a current county-district-school (CDS) code, as maintained by the Superintendent of Public Instruction as of June 30, 1996. The use of the funds allocated to charter schools pursuant to subdivision (a) shall further the program specified in the school's charter and shall not be allocated to parents, pupils, or staff of the charter school. A charter school shall obtain approval from the governing board of the school district for the use of the funds allocated pursuant to subdivision (a) if the terms of its charter require the approval of the governing board of the school district for similar uses of funds.

(f) Schools that choose to accept funds allocated pursuant to subdivision (a) agree to implement all of the provision of this section.

(g) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, of the appropriation made by subdivision (a), fourteen million five hundred ninety-three thousand dollars ($14,593,000) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1991–92 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1991–92 fiscal year.

(h) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, of the

appropriation made by subdivision (a), one hundred eighty-six million five hundred eighty-four thousand dollars ($186,584,000) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1994–95 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1994–95 fiscal year.

(i) For the purpose of making the computations required by Section 8 of Article XVI of the California Constitution, of the appropriation made by subdivision (a), one hundred eighty-five million eight hundred twenty-three thousand dollars ($185,823,000) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 45. (a) The sum three hundred fifty thousand dollars ($350,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction, without regard to fiscal year, for allocation to the Los Angeles Unified School District for the purpose of the Los Angeles Police Academy Magnet Schools Program. The Los Angeles Police Academy Magnet Schools Program at the three participating schools enables pupils to better understand the duties and roles of law enforcement in addition to the coursework that is otherwise required for those pupils.

(b) For purposes of making computations required by Section 8 of Article XVI of the California Constitution, the appropriations made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 46. (a) The sum of twenty thousand dollars ($20,000) is hereby appropriated to the Superintendent of Public Instruction, without regard to fiscal year, for allocation to the Chino Unified School District for the purposes of the Chino Drug Awareness program provided to pupils enrolled in that school district.

(b) For purposes of making computations required by Section 8 of Article XVI of the California Constitution, the appropriations made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision

(c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 47. (a) The sum of one million dollars ($1,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction, without regard to fiscal year, for the purposes of the Golden State Seal Merit Diploma contained in Article 5 (commencing with Section 51450) of Chapter 3 of Part 28 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be "General Fund revenues appropriated to school districts," as defined in subdivision (c) of Section 41202 of the Education Code, for the 1995–96 fiscal year, and included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B" as defined in subdivision (e) of Section 41202 of the Education Code, for the 1995–96 fiscal year.

SEC. 48. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 49. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to implement the Budget Act of 1996 with respect to public schools and community colleges, it is necessary that this act take effect immediately.

CHAPTER 205

An act to add Chapter 10 (commencing with Section 10985) to Part 2 of Division 9 of the Welfare and Institutions Code, relating to public

social services, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10 (commencing with Section 10985) is added to Part 2 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 10. REPORTING ON INCARCERATED INDIVIDUALS

10985. (a) Each city, county, or city and county, that operates a jail, shall report twice each month to the department the name, known aliases, birth date, social security number, and expected released date, if known, of any person whose period of incarceration in jail has exceeded 30 days. The report shall not include names previously reported unless it is for a new period of incarceration.

(b) (1) The director may establish a uniform data format for the reporting of the data required to be reported in subdivision (a).

(2) The director shall reimburse each reporting entity, except for those entities seeking reimbursement pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code, at a rate of ten dollars for each unduplicated person reported pursuant to subdivision (a).

(3) The state may make payments to local entities pursuant to paragraph (1) or pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code only for a name previously reported by that entity if it is reported for a new period of incarceration.

(4) The director shall annually determine the program savings to the state that result from the reporting of names required by subdivision (a). The annual Budget Act may provide for reimbursement at a level below that provided in paragraph (2) if the savings are not sufficient to offset the cost of the reimbursements.

(c) The director shall distribute information received pursuant to subdivision (a) to departments of the state and federal government and to local agencies that administer public benefits for which incarceration affects eligibility, to ensure that public assistance payments and other public benefits are not paid to persons who are ineligible to receive those benefits based on incarceration, or whose absence from the household would result in a recalculation of the benefits of other members of the household. For the purpose of reports to federal agencies under this section, the local jail shall be considered the reporting institution.

(d) The director may suspend the reporting requirement established in this section if the director determines that data available from other sources provide timely information on the identity of jail inmates that will ensure that public assistance payments and other public benefits are not paid to ineligible persons.

SEC. 2. The sum of two hundred thirty thousand dollars ($230,000) is hereby appropriated from the General Fund to the State Department of Social Services for the purpose of implementing this act in the 1996–97 fiscal year. The State Department of Social Services may hire the equivalent of two personnel years and may contract for services necessary for the implementation of this act.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code, except with respect to any agency obtaining reimbursement from the State Department of Social Services pursuant to subdivision (b) of Section 10985 of the Welfare and Institutions Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to prevent inappropriate public social services program payments, at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 206

An act to amend Section 1611.5 of the Unemployment Insurance Code, to amend Sections 11450, 11450.01, 11450.015, 11450.017, 11450.018, 11453, 11462, 11501, 11501.5, 12200.01, 12200.015, 12200.017, 12200.018, 12201, 12201.03, 12301.6, 12302.1, 12550, 12551, 12552, 16525.10, 16525.40, 17000.6, 17001.5, 19356, and 19356.6 of, to amend and repeal Section 15200.6 of, to add Sections 11462.1 and 11501.1 to, to add Chapter 4.6 (commencing with Section 10830) to Part 2 of Division 9 of, to repeal and add Sections 11466.25, 11487.5, and 19355.5 of, and to repeal, add, and repeal Section 12302.7 of, the Welfare and

Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1611.5 of the Unemployment Insurance Code is amended to read:

1611.5. (a) Notwithstanding Section 1611, the Legislature may appropriate from the Employment Training Fund up to twenty million dollars ($20,000,000) in the Budget Act of 1994, twenty-two million seven hundred thirty-five thousand dollars ($22,735,000) in the Budget Act of 1995, and twenty million dollars ($20,000,000) in the Budget Act of 1996 for purposes of funding the local assistance portion of the nonfederal share of cost in the Greater Avenues for Independence (GAIN) program, provided for pursuant to Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code, as administered by the State Department of Social Services.

(b) Notwithstanding any other provision of law, the panel may execute training contracts for up to twenty million dollars ($20,000,000) in excess of the amounts appropriated by Item 5100-001-0514 of the Budget Act of 1996.

SEC. 1.5. Chapter 4.6 (commencing with Section 10830) is added to Part 2 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 4.6. STATEWIDE FINGERPRINT IMAGING SYSTEM

10830. (a) The department and the Health and Welfare Data Center shall design, implement, and maintain a statewide fingerprint imaging system for use in connection with the determination of eligibility for benefits under the Aid to Families with Dependent Children (AFDC) program under Chapter 2 (commencing with Section 11200) of Part 3 excluding Aid to Families with Dependent Children-Foster Care (AFDC-FC), and the Food Stamp Program under Chapter 10 (commencing with Section 18900) of Part 6.

(b) (1) Every applicant for, or recipient of, aid under Chapter 2 (commencing with Section 11200) of Part 3 excluding the AFDC-FC program and Chapter 10 (commencing with Section 18900) of Part 6, other than dependent children or persons who are physically unable to be fingerprint imaged, shall, as a condition of eligibility for assistance, be required to be fingerprint imaged.

(2) A person subject to the requirements of paragraph (1) shall not be eligible for the Aid to Families with Dependent Children program or the Food Stamp Program until fingerprint images are provided, except as provided in subdivision (e). Ineligibility may

extend to an entire case of any person who refuses to provide fingerprint images.

(c) The department may adopt emergency regulations to implement this section specifying the statewide fingerprint imaging requirements and exemptions to the requirements in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The initial adoption of any emergency regulations implementing this section, as added during the 1996 portion of the 1995–96 Regular Session, shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this subdivision shall remain in effect for no more than 180 days.

(d) All persons required to be fingerprint imaged pursuant to this section shall be informed that fingerprint images obtained pursuant to this section shall be used only for the purpose of verifying eligibility and preventing multiple enrollments in the Aid to Families with Dependent Children program or the Food Stamp Program. The department, county welfare agencies, and all others shall not use or disclose the data collected and maintained for any purpose other than the prevention or prosecution of fraud. Fingerprint imaging information obtained pursuant to this section shall be confidential under Section 10850.

(e) (1) Except as provided in paragraph (2), the fingerprint imaging required under this chapter shall be scheduled only during the application appointment or other regularly scheduled appointments. No other special appointment shall be required. No otherwise eligible individual shall be ineligible to receive benefits under this chapter due to any technical problem occurring in the fingerprint imaging system or as long as the person consents to and is available for fingerprint imaging at a mutually agreed upon time, not later than 60 days from the initial attempt to complete fingerprint imaging.

(2) During the first nine months following implementation, recipients may be scheduled for separate appointments to complete the fingerprint imaging required by this section. Notice shall be mailed first class by the department to recipients at least 10 days prior to the appointment, and shall include procedures for the recipient to reschedule the scheduled appointment within 30 days.

(f) If the fingerprint image of an applicant or recipient of aid to which this section applies matches another fingerprint image on file, the county shall notify the applicant or recipient. In the event that a match is appealed, the fingerprint image match shall be verified by a trained individual and any matching case files reviewed prior to the denial of benefits. Upon confirmation that the applicant or recipient is receiving or attempting to receive multiple Aid to Families with

Dependent Children program checks, a county fraud investigator shall be notified.

SEC. 2. Section 11450 of the Welfare and Institutions Code is amended to read:

11450. (a) (1) Aid shall be paid for each needy family, which shall include all eligible brothers and sisters of each eligible applicant or recipient child and the parents of the children, but shall not include unborn children, or recipients of aid under Chapter 3 (commencing with Section 12000), qualified for aid under this chapter. In determining the amount of aid paid, the family's income, exclusive of any amounts considered exempt as income or paid pursuant to subdivision (e) or Section 11453.1 shall be deducted from the sum specified in Section 11452, as adjusted for cost-of-living increases pursuant to Section 11453 and paragraph (2) of subdivision (a) of Section 11450. In no case shall the amount of aid paid for each month exceed the sum specified in the following table, as adjusted for cost-of-living increases pursuant to Section 11453 and paragraph (2) of subdivision (a) of Section 11450, plus any special needs, as specified in subdivisions (c), (e), and (f):

Number of eligible needy persons in the same home	Maximum aid
1	$ 326
2	535
3	663
4	788
5	899
6	1,010
7	1,109
8	1,209
9	1,306
10 or more	1,403

If, when, and during such times as the United States government increases or decreases its contributions in assistance of needy children in this state above or below the amount paid on July 1, 1972, the amounts specified in the above table shall be increased or decreased by an amount equal to that increase or decrease by the United States government, provided that no increase or decrease shall be subject to subsequent adjustment pursuant to Section 11453.

(2) The sums specified in paragraph (1) shall not be adjusted for cost of living for the 1990–91, 1991–92, 1992–93, 1993–94, 1994–95, 1995–96, and 1996–97 fiscal years, and through October 31, 1997, nor shall that amount be included in the base for calculating any

cost-of-living increases for any fiscal year thereafter. Elimination of the cost-of-living adjustment pursuant to this paragraph shall satisfy the requirements of Section 11453.05, and no further reduction shall be made pursuant to that section.

(b) When the family does not include a needy child qualified for aid under this chapter, aid shall be paid to a pregnant mother for the month in which the birth is anticipated and for the three-month period immediately prior to the month in which the birth is anticipated in the amount which would otherwise be paid to one person, as specified in subdivision (a), if the mother, and child if born, would have qualified for aid under this chapter. Verification of pregnancy shall be required as a condition of eligibility for aid under this subdivision. Aid shall also be paid to a pregnant woman with no other children in the amount which would otherwise be paid to one person under subdivision (a) at any time after verification of pregnancy if the pregnant woman is also eligible for the Cal-Learn Program described in Article 3.5 (commencing with Section 11331) and if the mother and child, if born, would have qualified for aid under this chapter.

(c) The amount of forty-seven dollars ($47) per month shall be paid to pregnant mothers qualified for aid under subdivision (a) or (b) to meet special needs resulting from pregnancy if the mother, and child, if born, would have qualified for aid under this chapter. County welfare departments shall refer all recipients of aid under this subdivision to a local provider of the Women, Infants and Children program. If that payment to pregnant mothers qualified for aid under subdivision (a) is considered income under federal law in the first five months of pregnancy, payments under this subdivision shall not apply to persons eligible under subdivision (a), except for the month in which birth is anticipated and for the three-month period immediately prior to the month in which delivery is anticipated, if the mother, and the child if born, would have qualified for aid under this chapter.

(d) For children receiving AFDC-FC under this chapter, there shall be paid, exclusive of any amount considered exempt as income, an amount of aid each month which, when added to the child's income, is equal to the rate specified in Section 11460, 11461, 11462, 11462.1, or 11463. In addition, the child shall be eligible for special needs, as specified in departmental regulations.

(e) In addition to the amounts payable under subdivision (a) and Section 11453.1, a family shall be entitled to receive an allowance for recurring special needs not common to a majority of recipients. These recurring special needs shall include, but not be limited to, special diets upon the recommendation of a physician for circumstances other than pregnancy, and unusual costs of transportation, laundry, housekeeping service, telephone, and utilities. The recurring special needs allowance for each family per month shall not exceed that amount resulting from multiplying the

sum of ten dollars ($10) by the number of recipients in the family who are eligible for assistance.

(f) After a family has used all available liquid resources, both exempt and nonexempt, in excess of one hundred dollars ($100), the family shall also be entitled to receive an allowance for nonrecurring special needs.

(1) An allowance for nonrecurring special needs shall be granted for replacement of clothing and household equipment and for emergency housing needs other than those needs addressed by paragraph (2). These needs shall be caused by sudden and unusual circumstances beyond the control of the needy family. The department shall establish the allowance for each of the nonrecurring special need items. The sum of all nonrecurring special needs provided by this subdivision shall not exceed six hundred dollars ($600) per event.

(2) Homeless assistance is available to a homeless family seeking shelter when the family is eligible for aid under this chapter. Homeless assistance for temporary shelter is also available to homeless families which are apparently eligible for aid under this chapter. Apparent eligibility exists when evidence presented by the applicant or which is otherwise available to the county welfare department and the information provided on the application documents indicate that there would be eligibility for aid under this chapter if the evidence and information were verified. However, an alien applicant who does not provide verification of his or her eligible alien status, or a woman with no eligible children who does not provide medical verification of pregnancy, is not apparently eligible for purposes of this section.

A family is considered homeless, for the purpose of this section, when the family lacks a fixed and regular nighttime residence; or the family has a primary nighttime residence that is a supervised publicly or privately operated shelter designed to provide temporary living accommodations; or the family is residing in a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

(A) (i) A nonrecurring special need of thirty dollars ($30) a day shall be available to families for the costs of temporary shelter, subject to the requirements of this paragraph. County welfare departments may increase the daily amount available for temporary shelter to large families as necessary to secure the additional bed space needed by the family.

(ii) This special need shall be granted or denied immediately upon the family's application for homeless assistance, and benefits shall be available for up to three working days. The county welfare department shall verify the family's homelessness within the first three working days and if the family meets the criteria of questionable homelessness established by the department, the county welfare department shall refer the family to its early fraud

prevention and detection unit, if the county has such a unit, for assistance in the verification of homelessness within this period.

(iii) After homelessness has been verified, the three-day limit shall be extended for a period of time which, when added to the initial benefits provided, does not exceed a total of 16 calendar days. This extension of benefits shall be done in increments of one week and shall be based upon searching for permanent housing which shall be documented on a housing search form; good cause; or other circumstances defined by the department. Documentation of housing search shall be required for the initial extension of benefits beyond the three-day limit and on a weekly basis thereafter as long as the family is receiving temporary shelter benefits. Good cause shall include, but is not limited to, situations in which the county welfare department has determined that the family, to the extent it is capable, has made a good faith but unsuccessful effort to secure permanent housing while receiving temporary shelter benefits.

(B) A nonrecurring special need for permanent housing assistance is available to pay for last month's rent and security deposits when these payments are reasonable conditions of securing a residence.

The last month's rent portion of the payment (1) shall not exceed 80 percent of the family's maximum aid payment without special needs for a family of that size and (2) shall only be made to families that have found permanent housing costing no more than 80 percent of the family's maximum aid payment without special needs for a family of that size, in accordance with the maximum aid schedule specified in subdivision (a).

However, if the county welfare department determines that a family intends to reside with individuals who will be sharing housing costs, the county welfare department shall, in appropriate circumstances, set aside the condition specified in clause (2) of the preceding paragraph.

(C) The nonrecurring special need for permanent housing assistance is also available to cover the standard costs of deposits for utilities which are necessary for the health and safety of the family.

(D) A payment for or denial of permanent housing assistance shall be issued no later than one working day from the time that a family presents evidence of the availability of permanent housing. If an applicant family provides evidence of the availability of permanent housing before the county welfare department has established eligibility for aid under this chapter, the county welfare department shall complete the eligibility determination so that the denial of or payment for permanent housing assistance is issued within one working day from the submission of evidence of the availability of permanent housing, unless the family has failed to provide all of the verification necessary to establish eligibility for aid under this chapter.

(E) (i) Except as provided in clauses (ii) and (iii), eligibility for the temporary shelter assistance and the permanent housing assistance pursuant to this paragraph shall be limited to one period of up to 16 consecutive calendar days of temporary assistance and one payment of permanent assistance. Any family that includes a parent or nonparent caretaker relative living in the home who has previously received temporary or permanent homeless assistance at any time on behalf of an eligible child shall not be eligible for further homeless assistance. Any person who applies for homeless assistance benefits shall be informed that the temporary shelter benefit of up to 16 consecutive days is available only once in a lifetime, with certain exceptions, and that a break in the consecutive use of the benefit constitutes permanent exhaustion of the temporary benefit.

(ii) A family that becomes homeless as a direct and primary result of a state or federally declared natural disaster shall be eligible for temporary and permanent homeless assistance.

(iii) A family shall be eligible for temporary and permanent homeless assistance when homelessness is a direct result of domestic violence by a spouse, partner, or roommate; physical or mental illness that is medically verified that shall not include a diagnosis of alcoholism, drug addiction, or psychological stress; or, the uninhabitability of the former residence caused by sudden and unusual circumstances beyond the control of the family including natural catastrophe, fire, or condemnation. These circumstances shall be verified by a third-party governmental or private health and human services agency and homeless assistance payments based on these specific circumstances may not be received more often than once in any 24-month period.

(iv) The county welfare department shall report to the department through a statewide homeless assistance payment indicator system, necessary data, as requested by the department, regarding all recipients of aid under this paragraph.

(F) The county welfare departments, and all other entities participating in the costs of the AFDC program, have the right in their share to any refunds resulting from payment of the permanent housing. However, if an emergency requires the family to move within the 24-month period specified in subparagraph (E), the family shall be allowed to use any refunds received from its deposits to meet the costs of moving to another residence.

(G) Payments to providers for temporary shelter and permanent housing and utilities shall be made on behalf of families requesting these payments.

(H) The daily amount for the temporary shelter special need for homeless assistance may be increased if authorized by the current year's Budget Act by specifying a different daily allowance and appropriating the funds therefor.

(I) No payment shall be made pursuant to this paragraph unless the provider of housing is a commercial establishment, shelter, or

person in the business of renting properties who has a history of renting properties.

(g) The department shall establish rules and regulations assuring the uniform application statewide of this subdivision.

(h) The department shall notify all applicants and recipients of aid through the standardized application form that these benefits are available and shall provide an opportunity for recipients to apply for the funds quickly and efficiently.

(i) Except for the purposes of Section 15200, the amounts payable to recipients pursuant to Section 11453.1 shall not constitute part of the payment schedule set forth in subdivision (a).

The amounts payable to recipients pursuant to Section 11453.1 shall not constitute income to recipients of aid under this section.

SEC. 3. Section 11450.01 of the Welfare and Institutions Code is amended to read:

11450.01. (a) Notwithstanding any other provision of law, commencing October 1, 1992, the maximum aid payments specified in paragraph (1) of subdivision (a) of Section 11450 in effect on July 1, 1992, shall be reduced by 4.5 percent.

(b) (1) The department shall seek the approval from the United States Department of Health and Human Services that is necessary to reduce the maximum aid payments specified in subdivision (a) by an additional amount equal to 1.3 percent of the maximum aid payments specified in paragraph (1) of subdivision (a) of Section 11450 in effect on July 1, 1992.

(2) The reduction provided by this subdivision shall be made on the first day of the month following 30 days after the date of approval by the United States Department of Health and Human Services.

SEC. 4. Section 11450.015 of the Welfare and Institutions Code is amended to read:

11450.015. Notwithstanding any other provision of law, the maximum aid payments in effect on June 30, 1993, in accordance with paragraph (1) of subdivision (a) of Section 11450 as reduced by subdivisions (a) and (b) of Section 11450.01, shall be reduced by 2.7 percent beginning the first of the month following 60 days after the enactment of this section.

SEC. 5. Section 11450.017 of the Welfare and Institutions Code is amended to read:

11450.017. Notwithstanding any other provision of law, the maximum aid payment in effect on June 30, 1994, in accordance with paragraph (1) of subdivision (a) of Section 11450 as reduced by subdivisions (a) and (b) of Section 11450.01 and Section 11450.015, shall be reduced by 2.3 percent beginning the first of the month following 50 days after the effective date of this section.

SEC. 6. Section 11450.018 of the Welfare and Institutions Code is amended to read:

11450.018. (a) Notwithstanding any other provision of law, the maximum aid payment in accordance with paragraph (1) of

subdivision (a) of Section 11450 as reduced by subdivisions (a) and (b) of Section 11450.01, Section 11450.015, and Section 11450.017, shall be reduced by 4.9 percent for counties in Region 2, as specified in Section 11452.018.

(b) Notwithstanding any other provision of law, through October 31, 1997, the maximum aid payment in accordance with paragraph (1) of subdivision (a) of Section 11450, as reduced by subdivision (a) and (b) of Section 11450.01, Section 11450.015, Section 11450.017, and subdivision (a) shall be reduced by 4.9 percent.

(c) Prior to implementing the reductions specified in subdivisions (a) and (b), the director shall apply for and obtain a waiver from the United States Department of Health and Human Services of Section 1396a(c)(1) of Title 42 of the United States Code. The reduction shall be implemented to the extent the waiver is granted and only so long as the waiver is effective. This subdivision shall not apply if either the federal waiver process set forth at Section 1315 of Title 42 of the United States Code or Section 1396a(c) is repealed or modified such that a waiver is not necessary to implement subdivision (a) or (b).

(d) This section shall become operative and the reductions specified in subdivisions (a) and (b) shall commence on the first day of the month following 30 days after the receipt of federal approval or on the first day of the month following 30 days after a change in federal law that allows states to reduce aid payments without any risk to federal funding under Title XIX of the Social Security Act, whichever is earlier, but no earlier than October 1, 1995.

SEC. 7. Section 11453 of the Welfare and Institutions Code is amended to read:

11453. (a) Except as provided in subdivision (c), the amounts set forth in Section 11452 and subdivision (a) of Section 11450 shall be adjusted annually by the department to reflect any increases or decreases in the cost of living. These adjustments shall become effective July 1 of each year, unless otherwise specified by the Legislature. The cost-of-living adjustment shall be calculated by the Department of Finance based on the changes in the California Necessities Index, which as used in this section means the weighted average changes for food, clothing, fuel, utilities, rent, and transportation for low-income consumers. The computation of annual adjustments in the California Necessities Index shall be made in accordance with the following steps:

(1) The base period expenditure amounts for each expenditure category within the California Necessities Index used to compute the annual grant adjustment are:

Food	$ 3,027
Clothing (apparel and upkeep)	406
Fuel and other utilities	529
Rent, residential	4,883
Transportation	1,757
Total	$10,602

(2) Based on the appropriate components of the Consumer Price Index for All Urban Consumers, as published by the United States Department of Labor, Bureau of Labor Statistics, the percentage change shall be determined for the 12-month period ending with the December preceding the year for which the cost-of-living adjustment will take effect, for each expenditure category specified in subdivision (a) within the following geographical areas: Los Angeles-Long Beach-Anaheim, San Francisco-Oakland, San Diego, and, to the extent statistically valid information is available from the Bureau of Labor Statistics, additional geographical areas within the state which include not less than 80 percent of recipients of aid under this chapter.

(3) Calculate a weighted percentage change for each of the expenditure categories specified in subdivision (a) using the applicable weighting factors for each area used by the State Department of Industrial Relations to calculate the California Consumer Price Index (CCPI).

(4) Calculate a category adjustment factor for each expenditure category in subdivision (a) by (1) adding 100 to the applicable weighted percentage change as determined in paragraph (2) and (2) dividing the sum by 100.

(5) Determine the expenditure amounts for the current year by multiplying each expenditure amount determined for the prior year by the applicable category adjustment factor determined in paragraph (4).

(6) Determine the overall adjustment factor by dividing (1) the sum of the expenditure amounts as determined in paragraph (4) for the current year by (2) the sum of the expenditure amounts as determined in subdivision (d) for the prior year.

(b) The overall adjustment factor determined by the preceding computation steps shall be multiplied by the schedules established pursuant to Section 11452 and subdivision (a) of Section 11450 as are in effect during the month of June preceding the fiscal year in which the adjustments are to occur and the product rounded to the nearest dollar. The resultant amounts shall constitute the new schedules which shall be filed with the Secretary of State.

(c) (1) No adjustment to the maximum aid payment set forth in subdivision (a) of Section 11450 shall be made under this section for the purpose of increasing the benefits under this chapter for the

1990–91, 1991–92, 1992–93, 1993–94, 1994–95, 1995–96, and 1996–97 fiscal years, and through October 31, 1997, to reflect any change in the cost of living. For the 1997–98 fiscal year, the cost-of-living adjustment that would have been provided on July 1, 1997, pursuant to subdivision (a) shall be made on November 1, 1997. Elimination of the cost-of-living adjustment pursuant to this paragraph shall satisfy the requirements of Section 11453.05, and no further reduction shall be made pursuant to that section.

(2) No adjustment to the minimum basic standard of adequate care set forth in Section 11452 shall be made under this section for the purpose of increasing the benefits under this chapter for the 1990–91 and 1991–92 fiscal years to reflect any change in the cost of living.

(d) Adjustments for subsequent fiscal years pursuant to this section shall not include any adjustments for any fiscal year in which the cost of living was suspended pursuant to subdivision (c).

SEC. 8. Section 11462 of the Welfare and Institutions Code is amended to read:

11462. (a) (1) Effective July 1, 1990, foster care providers licensed as group homes, as defined in departmental regulations, including public child care institutions, as defined in Section 11402.5, shall have rates established by classifying each group home program and applying the standardized schedule of rates. The department shall collect information from group providers beginning January 1, 1990, in order to classify each group home program.

(2) Notwithstanding paragraph (1), foster care providers licensed as group homes shall have rates established only if the group home is organized and operated on a nonprofit basis as required under subdivision (h) of Section 11400. The department shall terminate the rate effective January 1, 1993, of any group home not organized and operated on a nonprofit basis as required under subdivision (h) of Section 11400.

(b) A group home program shall be initially classified, for purposes of emergency regulations, according to the level of care and services to be provided using a point system developed by the department and described in the report, "The Classification of Group Home Programs under the Standardized Schedule of Rates System," prepared by the State Department of Social Services, August 30, 1989.

(c) The rate for each rate classification level (RCL) has been determined by the department with data from the AFDC-FC Group Home Rate Classification Pilot Study. The rates effective July 1, 1990, were developed using 1985 calendar year costs and reflect adjustments to the costs for each fiscal year, starting with the 1986–87 fiscal year, by the amount of the California Necessities Index computed pursuant to the methodology described in Section 11453. The data obtained by the department using 1985 calendar year costs shall be updated and revised by January 1, 1993.

(d) As used in this section, "standardized schedule of rates" means a listing of the 14 rate classification levels, the single rate established for each RCL, and the rate floor for each RCL.

(e) The standardized schedule of rates shall be phased in commencing July 1, 1990.

(1) In order to phase in the standardized schedule of rates, a "rate floor" has been established for each RCL.

(2) The rate floor for fiscal year 1990–91 shall be 85 percent of the standard rate for each RCL. The rate floor shall be increased to 92.5 percent of the standard rate for fiscal year 1991–92 for each RCL, shall be equal to the standard rate for each RCL for the period July 1, 1992, to September 13, 1992, inclusive, and shall be 92.5 percent of the standard rate for each RCL for the period September 14, 1992, to June 30, 1993, inclusive.

(3) The rate floor for each RCL shall be 95 percent of the standard rate for each RCL for the 1993–94 fiscal year. The rate floor shall be equal to the standard rate for each RCL for the 1994–95 fiscal year and beyond.

(f) Except as specified in paragraph (1), the department shall determine the RCL for each group home program on a prospective basis, according to the level of care and services that the group home operator projects will be provided during the period of time for which the rate is being established.

(1) For a group home program for which the department established a rate effective prior to June 30, 1990, that took into account the program's historical costs, the department shall establish the rate for fiscal year 1990–91 by determining the RCL on a retrospective basis, according to the level of care and services actually provided between July 1 and December 31, 1989, or between July 1, 1989, and March 31, 1990.

(2) Group home programs that fail to maintain at least the level of care and services associated with the RCL upon which their rate was established shall inform the department. The department shall develop regulations specifying procedures to be applied when a group home fails to maintain the level of services projected, including, but not limited to, rate reduction and recovery of overpayments.

(3) The department shall not reduce the rate, establish an overpayment, or take other actions pursuant to paragraph (2) for any period that a group home program maintains the level of care and services associated with the RCL for children actually residing in the facility. Determinations of levels of care and services shall be made in the same way as modifications of overpayments are made pursuant to paragraph (2) of subdivision (b) of Section 11466.2.

(4) Beginning July 1, 1994, for group homes paid at rates below the standard rate established by subdivision (g), a group home program shall remain at its current RCL if it maintains at least the level of care and services associated with that percentage of the points required

to be at that RCL that equals the percentage of the standard rate used to establish the group home's rate. In no event, however, shall points per child per month be reduced more than 10 points below the minimum required for the current RCL. The RCL for a program shall not increase due to the operation of this paragraph absent any program changes approved by the department pursuant to subdivision (k).

(5) A group home program that substantially changes it staffing pattern from that reported in the group home program statement shall provide notification of this change to all counties that have placed children currently in care. This notification shall be provided whether or not the RCL for the program may change as a result of the change in staffing pattern.

(g) The standardized schedule of rates for fiscal year 1990–91 is:

		FY 1990–91	
Rate Classification Level	Point Ranges	Standard Rate	Rate Floor (85%)
1	Under 60	$1,183	$1,006
2	60–89	1,478	1,256
3	90–119	1,773	1,507
4	120–149	2,067	1,757
5	150–179	2,360	2,006
6	180–209	2,656	2,258
7	210–239	2,950	2,508
8	240–269	3,245	2,758
9	270–299	3,539	3,008
10	300–329	3,834	3,259
11	330–359	4,127	3,508
12	360–389	4,423	3,760
13	390–419	4,720	4,012
14	420 & Up	5,013	4,261

(h) (1) For fiscal year 1990–91, the standardized schedule of rates shall be implemented as follows:

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year below the standard rate for the fiscal year 1990–91 RCL shall receive their 1989–90 rate plus an amount equal to the California Necessities Index (CNI). The rate for fiscal year 1990–91 at which the state will participate shall not exceed the standard rate for the RCL.

(B) If the CNI increase to the group home program's fiscal year 1989–90 rate does not raise the group home program to the rate floor for the RCL, the group home program shall receive a rate equal to the rate floor for the RCL.

(C) A group home program which received an AFDC-FC rate for fiscal year 1989–90 at or above the standard rate for the RCL for fiscal year 1990–91 shall continue to receive that fiscal year 1989–90 rate.

(2) For that portion of the 1997–98 fiscal year, commencing on November 1, 1997, and the 1998–99 fiscal year, the standardized rate for each RCL shall be adjusted by an amount equal to the California Necessities Index computed pursuant to the methodology described in Section 11453.

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year at or above the adjusted standard rate for the RCL in the current fiscal year shall continue to receive that rate.

(B) A group home program which received an AFDC-FC rate in the prior fiscal year below the standard rate for the RCL in the current fiscal year shall receive that rate adjusted by an amount equal to the CNI. The rate for the current fiscal year shall not exceed the standard rate for the RCL and shall not be less than the rate floor for the RCL.

(3) Beginning with the 1999–2000 fiscal year. the standardized schedule of rates shall be adjusted annually by an amount equal to the CNI computed pursuant to Section 11453, subject to the availability of funds.

(A) Any group home program which received an AFDC-FC rate in the prior fiscal year at or above the adjusted standard rate for the RCL in the current fiscal year shall continue to receive that rate.

(B) Any group home program which received an AFDC-FC rate in the prior fiscal year below the adjusted standard rate for the RCL in the current fiscal year shall receive the adjusted RCL rate.

(i) (1) (A) The rate for a new group home program of a new or existing provider shall be established at the rate floor for the new program's projected RCL.

(B) On and after the operative date of this subparagraph, the department shall not, prior to July 1, 1993, establish a rate for a new group home program of a new or existing provider.

(2) The department shall not establish a rate for a new program of a new or existing provider unless the provider submits a recommendation from the host county, the primary placing county, or a regional consortium of counties that the program is needed in that county; that the provider is capable of effectively and efficiently operating the program; and that the provider is willing and able to accept AFDC-FC children for placement who are determined by the placing agency to need the level of care and services that will be provided by the program.

(3) The department shall encourage the establishment of consortia of county placing agencies on a regional basis for the

purpose of making decisions and recommendations about the need for, and use of, group home programs and other foster care providers within the regions.

(4) The department shall annually conduct a county-by-county survey to determine the unmet placement needs of children placed pursuant to Sections 300 and Section 601 or 602, and shall publish its findings by November 1 of each year.

(j) The department shall develop regulations specifying ratesetting procedures for program expansions, reductions, or modifications, including increases or decreases in licensed capacity, or increases or decreases in level of care or services.

(k) (1) For the purpose of this subdivision, "program change" means any alteration to an existing group home program planned by a provider that will increase the RCL or AFDC-FC rate. An increase in the licensed capacity or other alteration to an existing group home program that does not increase the RCL or AFDC-FC rate shall not constitute a program change.

(2) (A) Prior to July 1, 1993, the rate for a group home program shall not increase, as the result of a program change, from the rate established for the program effective June 30, 1992. For rate increases as a result of a program change which became effective between July 1, 1992, and the effective date of this paragraph, the department shall adjust rates downward as necessary to comply with this chapter. Notwithstanding any other provisions of law, a group home provider shall be allowed to change a group home program to reflect a decrease in services due to the provisions of this paragraph.

(B) For the 1993–94 fiscal year, the rate for a group home program shall not increase, as the result of a program change, from the rate established for the program effective July 1, 1993, except as provided in paragraph (3).

(C) For the 1994–95 fiscal year, the 1995–96 fiscal year, and the 1996–97 fiscal year, the rate for a group home program shall not increase, as the result of a program change, from the rate established for the program effective July 1, 1994, except as provided in paragraph (3).

(3) (A) For the 1993–94 fiscal year, the 1994–95 fiscal year, the 1995–96 fiscal year, and the 1996–97 fiscal year, the department shall not establish a rate for a new program of a new or existing provider or approve a program change for an existing provider that either increases the program's RCL or AFDC-FC rate, or increases the licensed capacity of the program as a result of decreases in another program with a lower RCL or lower AFDC-FC rate that is operated by that provider, unless both of the conditions specified in this paragraph are met.

(i) The licensee obtains a letter of recommendation from the host county, primary placing county, or regional consortium of counties regarding the proposed program change or new program.

(ii) The county determines that there is no increased cost to the General Fund.

(B) Notwithstanding subparagraph (A), the department may grant a request for a new program or program change, not to exceed 25 beds, statewide, if (i) the licensee obtains a letter of recommendation from the host county, primary placing county, or regional consortium of counties regarding the proposed program change or new program, and (ii) the new program or program change will result in a reduction of referrals to state hospitals during the 1993–94 fiscal year, the 1994–95 fiscal year, the 1995–96 fiscal year, or the 1996–97 fiscal year.

(*l*) General unrestricted or undesignated private charitable donations and contributions made to charitable or nonprofit organizations shall not be deducted from the cost of providing services pursuant to this section.

(m) The department shall, by October 1 each year, commencing October 1, 1992, provide the Joint Legislative Budget Committee with a list of any new departmental requirements established during the previous fiscal year concerning the operation of group homes, and of any unusual, industrywide increase in costs associated with the provision of group care which may have significant fiscal impact on providers of group homes care. The committee may, in fiscal year 1993–94 and beyond, use the list to determine whether an appropriation for rate adjustments is needed in the subsequent fiscal year.

(n) This section shall become operative on July 1, 1995.

SEC. 9. Section 11462.1 is added to the Welfare and Institutions Code, to read:

11462.1. (a) No later than February 1, 1997, the department shall establish a proposal for a basic rate for the care and supervision of children subject to Section 300 or Section 602 who are placed in out-of-home care facilities, regardless of the type of placement. In addition, the proposal shall include a rate structure with incremental rates for various service components provided to children subject to Section 300 or Section 602 who are placed in out-of-home care to facilitate the provision of those services according to the individual needs of each child.

(b) The rate structure proposed pursuant to subdivision (a) shall, in the aggregate, cost no more than the aggregate cost of the rate structure in effect on January 1, 1997.

(c) The department, in developing the rate structure proposal required by this section, shall seek and consider the advice and participation of county welfare and probation departments, group home providers, foster family agencies, group home associations, the Foster Parent Association, representatives of the Legislature, and other interested parties.

(d) The department shall provide the proposal to the chairs of the appropriate policy committees and fiscal committees in the Senate

and the Assembly by February 1, 1997. Any change to the current rate system proposed by the department pursuant to this section shall require statutory authorization.

SEC. 10. Section 11466.25 of the Welfare and Institutions Code is repealed.

SEC. 11. Section 11466.25 is added to the Welfare and Institutions Code, to read:

11466.25. Interest begins to accrue on a group home provider overpayment on the date of the issuance of the final audit report.

SEC. 12. Section 11487.5 of the Welfare and Institutions Code is repealed.

SEC. 13. Section 11487.5 is added to the Welfare and Institutions Code, to read:

11487.5. (a) Notwithstanding any other provision of law, including Sections 11487 and 15204.5, the department shall implement a program in any participating county whereby the county shall be reimbursed for overpayment recoveries under Section 11004 as follows:

(1) Reimbursement shall be made to a participating county based on a plan of operations for a program of overpayment recoveries that is approved by the department. No operating plan shall be approved by the department unless the plan contains assurances that the participating county will maintain a centralized unit or designate a person or persons to perform the overpayment recovery activities.

(2) Reimbursement shall be made for all allowable administrative costs incurred, as defined by the department, to make a recovery of overpayments under Section 11004, not to exceed the state's share of the overpayments recovered by the county.

(b) For purposes of this section, "participating county" means any county in which the welfare director applies to the department for participation in the program prescribed by this section.

(c) On or before January 30, 1997, the department shall report to the appropriate committees of the Legislature on the implementation of this section.

(d) This section shall be implemented when both of the following have occurred:

(1) The federal government has made funding available for the activities described in this section.

(2) The Department of Finance has examined the annual projection of costs and savings for these activities certified by the director, and has determined that during each fiscal year in which the director proposes to implement these provisions the savings to the General Fund from increased overpayment recoveries equals or exceeds the additional costs to the state.

SEC. 14. Section 11501 of the Welfare and Institutions Code is amended to read:

11501. (a) Families who were formerly recipients of aid under this chapter for three of the previous six months, and who meet all

federal requirements for transitional child care shall be eligible for 12 months of transitional child care under this article. Transitional child care services shall include the same services as those child care supportive services provided under subdivision (b) and paragraphs (1), (2), and (5) of subdivision (c) of Section 11323.8, except for those portions which are specifically prohibited by federal law or regulations.

(b) To the extent permissible under federal law and regulations, transitional child care supportive services provided pursuant to subdivision (b) and paragraphs (1), (2), and (5) of subdivision (c) of Section 11323.8 shall be provided by the county in the same manner as they are provided to families in the county GAIN program. The county may contract out with public and private child care programs to provide any or all of the services.

(c) No funding shall be provided for nonfederal cases or for costs which are not eligible for federal matching funds unless specifically provided under this chapter.

(d) This section shall become inoperative if, and commencing on the date that, the director executes a declaration, that shall be retained by the director, stating that any federal approval required for federal financial participation in the provision of transitional child care pursuant to Section 11501.1, as added during the 1996 portion of the 1995–96 Regular Session of the Legislature, has been obtained, and shall remain inoperative until the date that either Section 11501.1 is repealed or the director executes a declaration, that shall be retained by the director, stating that federal financial participation for implementation of Section 11501.1 has terminated, whichever occurs first.

SEC. 15. Section 11501.1 is added to the Welfare and Institutions Code, to read:

11501.1. (a) Families who were formerly recipients of aid under this chapter for three of the previous six months, and who meet all federal requirements for transitional child care, shall be eligible for 24 months of transitional child care under this article. Transitional child care services shall include the same services as those child care supportive services provided under subdivision (b) and paragraphs (1), (2), and (5) of subdivision (c) of Section 11323.8, except for those portions that are specifically prohibited by federal law or regulations.

(b) To the extent permissible under federal law and regulations, transitional child care supportive services provided pursuant to subdivision (b) and paragraphs (1), (2), and (5) of subdivision (c) of Section 11323.8, shall be provided by the county in the same manner as they are provided to families in Article 3.2 (commencing with Section 11320). The county may contract with public and private child care programs to provide any or all of the services.

(c) No funding shall be provided for nonfederal cases or for costs that are not eligible for federal matching funds unless specifically provided under this chapter.

(d) It is the intent of the Legislature that, to the extent feasible, in order to promote the efficient delivery of services, social service agencies, in implementing this section, shall operate in cooperation with existing child care delivery systems in their area.

(e) No later than October 1, 1996, the director shall seek approval from the United States Department of Health and Human Services for federal financial participation in the implementation of this section.

(f) Subdivisions (a) to (c), inclusive, shall be implemented only if, and commencing on the date that, the director executes a declaration, that shall be retained by the director, stating that approval for federal financial participation has been obtained in accordance with subdivision (d).

SEC. 15.5. Section 11501.5 of the Welfare and Institutions Code is amended to read:

11501.5. (a) Families who, because of marriage or because separated spouses reunite, lose eligibility under this chapter because the family either no longer meets the need requirement specified in Section 11250 or has increased assets or income, or both, shall be eligible for transitional child care benefits as specified under this article for a period not to exceed 12 months.

(b) This section shall not be implemented until the director has executed a declaration, that shall be retained by the director, that any necessary waivers and federal financial participation have been obtained.

SEC. 16. Section 12200.01 of the Welfare and Institutions Code is amended to read:

12200.01. (a) Notwithstanding any other provision of law, commencing November 1, 1992, the payments schedules set forth in Section 12200 in effect on June 30, 1992, except subdivisions (e), (g), and (h) shall be reduced by 5.8 percent.

(b) Notwithstanding subdivision (a), in no event shall the combined amount of the federal Supplementary Security Income payment and the state Supplementary State Program payment level for any applicant or recipient be reduced below the level required by the federal Social Security Act in order to maintain eligibility for federal funding under Title XIX of the federal Social Security Act (Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code).

SEC. 17. Section 12200.015 of the Welfare and Institutions Code is amended to read:

12200.015. (a) Notwithstanding any other provision of law, the maximum aid payments in effect on June 30, 1993, in accordance with Section 12200, as reduced by subdivision (a) of Section 12200.01, except subdivisions (e), (g), and (h) of Section 12200, shall be reduced by 2.7 percent beginning the first of the month following 60 days after the enactment of this section.

(b) Notwithstanding subdivision (a), in no event shall the payment schedules be reduced below the level required by the federal Social Security Act in order to maintain eligibility for federal funding under Title XIX of the federal Social Security Act, contained in Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code.

SEC. 18. Section 12200.017 of the Welfare and Institutions Code is amended to read:

12200.017. (a) Notwithstanding any other provision of law, the maximum aid payments in effect on June 30, 1994, in accordance with Section 12200, as reduced by subdivision (a) of Section 12200.01 and Section 12200.015, except subdivisions (e), (g), and (h) of Section 12200, shall be reduced by 2.3 percent effective September 1, 1994.

(b) Notwithstanding subdivision (a), in no event shall any maximum aid payment schedule in any payment category established pursuant to Section 12200 be reduced below the level required by the federal Social Security Act in order to maintain eligibility for federal funding under Title XIX of the federal Social Security Act, contained in Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code.

(c) In no event shall the reduction of any maximum aid payment level pursuant to this section result in a change in share of cost or eligibility for services under Article 7 (commencing with Section 12300) for any aged, blind, or disabled person who was receiving services under that article in 1994 prior to the enactment of this section because of that reduction in maximum aid payment, provided he or she continues to meet other applicable requirements.

SEC. 19. Section 12200.018 of the Welfare and Institutions Code is amended to read:

12200.018. (a) If permitted by federal law, and notwithstanding any other provision of law, through October 31, 1997, the payment schedules set forth in Section 12200 in effect on June 30, 1995, as reduced by subdivision (a) of Section 12200.01, Section 12200.015, and subdivision (a) of Section 12200.017, except subdivisions (e), (g), and (h), shall be reduced by 4.9 percent.

(b) If permitted by federal law, and notwithstanding any other provision of law, the payment schedules set forth in Section 12200 in effect on June 30, 1995, as reduced by subdivision (a) of Section 12200.01, Section 12200.015, subdivision (a) of Section 12200.017, and subdivision (a) of this section, except subdivision (e), (g), and (h), shall be adjusted, for each county to reflect regional variations in housing costs based on the lowest quartile of monthly rents reported in the Decennial Census data for 1990, in the following manner:

(1) For the regions where the lowest quartile rent equals or exceeds four hundred dollars ($400) per month, the payment schedules shall not be reduced. This region shall consist of the following counties:

(A) Alameda County

(B) Contra Costa County
(C) Los Angeles County
(D) Marin County
(E) Monterey County
(F) Napa County
(G) Orange County
(H) San Diego County
(I) San Francisco County
(J) San Luis Obispo County
(K) San Mateo County
(L) Santa Barbara County
(M) Santa Clara County
(N) Santa Cruz County
(O) Solano County
(P) Sonoma County
(Q) Ventura County

(2) For counties where lowest quartile rent is below four hundred dollars ($400) per month, the payment schedules shall be reduced by 4.9 percent. This paragraph shall apply to the following counties:

(A) Alpine County
(B) Amador County
(C) Butte County
(D) Calaveras County
(E) Colusa County
(F) Del Norte County
(G) El Dorado County
(H) Fresno County
(I) Glenn County
(J) Humboldt County
(K) Imperial County
(L) Inyo County
(M) Kern County
(N) Kings County
(O) Lake County
(P) Lassen County
(Q) Madera County
(R) Mariposa County
(S) Mendocino County
(T) Merced County
(U) Modoc County
(V) Mono County
(W) Nevada County
(X) Placer County
(Y) Plumas County
(Z) Riverside County
(AA) Sacramento County
(AB) San Benito County
(AC) San Bernardino County

(AD) San Joaquin County
(AE) Shasta County
(AF) Sierra County
(AG) Siskiyou County
(AH) Stanislaus County
(AI) Sutter County
(AJ) Tehama County
(AK) Trinity County
(AL) Tulare County
(AM) Tuolumne County
(AN) Yolo County
(AO) Yuba County

(c) Subdivisions (a) and (b) shall be operative, and the reductions in payment schedules shall commence on the first of the month following approval and implementation by the Social Security Administration but no earlier than December 1, 1995.

(d) Subdivisions (a) and (b) shall not be operative if any payment schedule set forth in Section 12200 would be reduced below the level required by subsection (e) of Section 1382g of Title 42 of the United States Code in order to maintain eligibility for federal funding under Title XIX of the Social Security Act, contained in Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code.

(e) If subdivisions (a) and (b) are not operative, the payment schedules set forth in Section 12200, except subdivisions (e), (g), and (h), shall for the 1996–97 fiscal year through October 31, 1997, be reduced, commencing December 1, 1995, to the minimum amounts, not to exceed 4.9 percent of the maximum aid payment in effect on June 30, 1995, permitted by the federal Social Security Act by subsection (e) of Section 1382g of Title 42 of the United States Code that will maintain eligibility for federal funding under Title XIX of the Social Security Act, contained in Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code.

(f) In no event shall the reduction of any payment schedule pursuant to this section result in a change in eligibility or share of cost for services under Article 7 (commencing with Section 12300) for any aged, blind, or disabled person who was receiving services under that article in 1995 prior to the enactment of this section because of that reduction in maximum aid payment, provided he or she continues to meet other applicable requirements.

SEC. 20. Section 12201 of the Welfare and Institutions Code is amended to read:

12201. (a) Except as provided in subdivision (d), the payment schedules set forth in Section 12200 shall be adjusted annually to reflect any increases or decreases in the cost of living. These adjustments shall become effective January 1 of each year. The cost-of-living adjustment shall be based on the changes in the California Necessities Index, which as used in this section shall be the

weighted average of changes for food, clothing, fuel, utilities, rent, and transportation for low-income consumers. The computation of annual adjustments in the California Necessities Index shall be made in accordance with the following steps:

(1) The base period expenditure amounts for each expenditure category within the California Necessities Index used to compute the annual grant adjustment are:

Food	$ 3,027
Clothing (apparel and upkeep)	406
Fuel and other utilities	529
Rent, residential	4,883
Transportation	1,757
Total	$10,602

(2) Based on the appropriate components of the Consumer Price Index for All Urban Consumers, as published by the United States Department of Labor, Bureau of Labor Statistics, the percentage change shall be determined for the 12-month period which ends twelve months prior to the January in which the cost-of-living adjustment will take effect, for each expenditure category specified in paragraph (1) within the following geographical areas: Los Angeles-Long Beach-Anaheim, San Francisco-Oakland, San Diego, and, to the extent statistically valid information is available from the Bureau of Labor Statistics, additional geographical areas within the state which include not less than 80 percent of recipients of aid under this chapter.

(3) Calculate a weighted percentage change for each of the expenditure categories specified in subdivision (a) using the applicable weighting factors for each area used by the State Department of Industrial Relations to calculate the California Consumer Price Index (CCPI).

(4) Calculate a category adjustment factor for each expenditure category in paragraph (1) by (1) adding 100 to the applicable weighted percentage change as determined in paragraph (2) and (2) dividing the sum by 100.

(5) Determine the expenditure amounts for the current year by multiplying each expenditure amount determined for the prior year by the applicable category adjustment factor determined in paragraph (4).

(6) Determine the overall adjustment factor by dividing (1) the sum of the expenditure amounts as determined in paragraph (4) for the current year by (2) the sum of the expenditure amounts as determined in paragraph (4) for the prior year.

(b) The overall adjustment factor determined by the preceding computational steps shall be multiplied by the payment schedules

established pursuant to Section 12200 as are in effect during the month of December preceding the calendar year in which the adjustments are to occur, and the product rounded to the nearest dollar. The resultant amounts shall constitute the new schedules for the categories given under subdivisions (a), (b), (c), (d), (e), (f), and (g) of Section 12200, and shall be filed with the Secretary of State. The amount as set forth in subdivision (h) of Section 12200 shall be adjusted annually pursuant to this section in the event that the secretary agrees to administer payment under that subdivision. The payment schedule for subdivision (i) of Section 12200 shall be computed as specified, based on the new payment schedules for subdivisions (a), (b), (c), and (d) of Section 12200.

(c) The department shall adjust any amounts of aid under this chapter to insure that the minimum level required by the Social Security Act in order to maintain eligibility for funds under Title XIX of that act is met.

(d) (1) No adjustment shall be made under this section for the 1991, 1992, 1993, 1994, 1995, 1996, and 1997 calendar years to reflect any change in the cost of living. Elimination of the cost-of-living adjustment pursuant to this paragraph shall satisfy the requirements of Section 12201.05, and no further reduction shall be made pursuant to that section.

(2) Any cost-of-living adjustment granted under this section for any calendar year shall not include adjustments for any calendar year in which the cost of living was suspended pursuant to paragraph (1).

SEC. 21. Section 12201.03 of the Welfare and Institutions Code is amended to read:

12201.03. (a) For the 1992, 1993, 1994, 1995, 1996, and 1997 calendar years, if no cost-of-living adjustment is made pursuant to Section 12201, the payment schedules set forth in Sections 12200, 13920, and 13921, as adjusted pursuant to Section 12201, shall include the pass along of any cost-of-living increases in federal benefits under Subchapter 16 (commencing with Section 1381) of Chapter 7 of Title 42 of the United States Code.

(b) Notwithstanding paragraph (2) of subdivision (d) of Section 12201, any adjustments made pursuant to this section to reflect the pass along of federal cost-of-living adjustments shall be included in the base amounts for purposes of determining cost-of-living adjustments made pursuant to Section 12201.

(c) Notwithstanding subdivision (a), no pass along of any cost-of-living increase in federal benefits under Subchapter 16 (commencing with Section 1381) of Chapter 7 of Title 42 of the United States Code shall be made in 1994. This provision shall not apply to those persons receiving payments pursuant to subdivisions (e), (g), and (h) of Section 12200.

(d) Notwithstanding subdivision (a), in no event shall the payment schedules be reduced below the level required by the federal Social Security Act in order to maintain eligibility for federal

funding under Title XIX of the federal Social Security Act, contained in Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code.

SEC. 22. Section 12301.6 of the Welfare and Institutions Code is amended to read:

12301.6. (a) Notwithstanding Sections 12302 and 12302.1, a county board of supervisors may, at its option, elect to do either of the following:

(1) Contract with a nonprofit consortium to provide for the delivery of in-home supportive services.

(2) Establish, by ordinance, a public authority to provide for the delivery of in-home supportive services.

(b) (1) To the extent that a county elects to establish a public authority pursuant to paragraph (2) of subdivision (a), the enabling ordinance shall specify the membership of the governing body of the public authority, the qualifications for individual members, the manner of appointment, selection, or removal of members, how long they shall serve, and other matters as the board of supervisors deems necessary for the operation of the public authority.

(2) A public authority established pursuant to paragraph (2) of subdivision (a) shall be both of the following:

(A) An entity separate from the county, and shall be required to file the statement required by Section 53051 of the Government Code.

(B) A corporate public body, exercising public and essential governmental functions and that has all powers necessary or convenient to carry out the delivery of in-home supportive services, including the power to contract for services pursuant to Sections 12302 and 12302.1 and that makes or provides for direct payment to a provider chosen by the recipient for the purchase of services pursuant to Sections 12302 and 12302.2. Employees of the public authority shall not be employees of the county for any purpose.

(3) (A) As an alternative, the enabling ordinance may designate the board of supervisors as the governing body of the public authority.

(B) Any enabling ordinance that designates the board of supervisors as the governing body of the public authority shall also specify that no fewer than 50 percent of the membership of the advisory committee shall be individuals who are current or past users of personal assistance services paid for through public or private funds or recipients of services under this article.

(C) If the enabling ordinance designates the board of supervisors as the governing body of the public authority, it shall also require the appointment of an advisory committee of not more than 11 individuals who shall be designated in accordance with subparagraph (B).

(D) Prior to making designations of committee members pursuant to subparagraph (C), or governing body members in

accordance with paragraph (4), the board of supervisors shall solicit recommendations of qualified members of either the governing body of the public authority or of any advisory committee through a fair and open process that includes the provision of reasonable, written notice to, and a reasonable response time by, members of the general public and interested persons and organizations.

(4) If the enabling ordinance does not designate the board of supervisors as the governing body of the public authority, the enabling ordinance shall require the membership of the governing body to meet the requirements of subparagraph (B) of paragraph (3).

(c) (1) Any public authority created pursuant to this section shall be deemed to be the employer of in-home supportive services personnel referred to recipients under paragraph (3) of subdivision (d) within the meaning of Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 of the Government Code. Recipients shall retain the right to hire, fire, and supervise the work of any in-home supportive services personnel providing services to them.

(2) (A) Any nonprofit consortium contracting with a county pursuant to this section shall be deemed to be the employer of in-home supportive services personnel referred to recipients pursuant to paragraph (3) of subdivision (d) for the purposes of collective bargaining over wages, hours, and other terms and conditions of employment.

(B) Recipients shall retain the right to hire, fire, and supervise the work of any in-home supportive services personnel providing services for them.

(3) When any increase in provider wages or benefits is negotiated or agreed to by a public authority or nonprofit consortium under this section, then the county shall use county-only funds to fund both the county share and the state share, including employment taxes, of any increase in the cost of the program, unless otherwise provided for in the annual Budget Act or appropriated by statute. No increase in wages or benefits negotiated or agreed to pursuant to this section shall take effect unless and until, prior to its implementation, the department has obtained the approval of the State Department of Health Services for the increase pursuant to a determination that it is consistent with federal law and to ensure federal financial participation for the services under Title XIX of the federal Social Security Act.

(d) A public authority established pursuant to this section or a nonprofit consortium contracting with a county pursuant to this section, when providing for the delivery of services under this article by contract in accordance with Sections 12302 and 12302.1 or by direct payment to a provider chosen by a recipient in accordance with Sections 12302 and 12302.2, shall comply with and be subject to, all statutory and regulatory provisions applicable to the respective delivery mode.

(e) Any nonprofit consortium contracting with a county pursuant to this section or any public authority established pursuant to this section shall provide for all of the following functions under this article, but shall not be limited to those functions:

(1) The provision of assistance to recipients in finding in-home supportive services personnel through the establishment of a registry.

(2) Investigation of the qualifications and background of potential personnel.

(3) Establishment of a referral system under which in-home supportive services personnel shall be referred to recipients.

(4) Providing for training for providers and recipients.

(5) Performing any other functions related to the delivery of in-home supportive services.

(6) Ensuring that the requirements of the personal care option pursuant to Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code are met.

(f) (1) Any nonprofit consortium contracting with a county pursuant to this section or any public authority created pursuant to this section shall be deemed not to be the employer of in-home supportive services personnel referred to recipients under this section for purposes of liability due to the negligence or intentional torts of the in-home supportive services personnel.

(2) In no case shall a nonprofit consortium contracting with a county pursuant to this section or any public authority created pursuant to this section be held liable for action or omission of any in-home supportive services personnel whom the nonprofit consortium or public authority did not list on its registry or otherwise refer to a recipient.

(3) Counties and the state shall be immune from any liability resulting from their implementation of this section in the administration of the In-Home Supportive Services program. Any obligation of the public authority or consortium pursuant to this section, whether statutory, contractual, or otherwise, shall be the obligation solely of the public authority or nonprofit consortium, and shall not be the obligation of the county or state.

(g) Any nonprofit consortium contracting with a county pursuant to this section shall ensure that it has a governing body that complies with the requirements of subparagraph (B) of paragraph (3) of subdivision (b) or an advisory committee that complies with subparagraphs (B) and (C) of paragraph (3) of subdivision (b).

(h) Recipients of services under this section may elect in-home supportive services personnel who are not referred to them by the public authority or nonprofit consortium. Those personnel shall be referred to the public authority or nonprofit consortium for the purposes of wages, benefits, and other terms and conditions of employment.

(i) Nothing in this section shall be construed to affect the state's responsibility with respect to the state payroll system, unemployment insurance, or workers' compensation and other provisions of Section 12302.2 for providers of in-home supportive services. Any county that elects to provide in-home supportive services pursuant to this section shall be responsible for any increased costs to the in-home supportive services case management, information, and payrolling system attributable to that election. The department shall collaborate with any county that elects to provide in-home supportive services pursuant to this section prior to implementing the amount of financial obligation for which the county shall be responsible.

(j) To the extent permitted by federal law, personal care option funds, obtained pursuant to Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code, along with matching funds using the state and county sharing ratio established in subdivision (c) of Section 12306, or any other funds that are obtained pursuant to Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code, may be used to establish and operate an entity authorized by this section.

(k) Notwithstanding any other provision of law, the county, in exercising its option to establish a public authority, shall not be subject to competitive bidding requirements. However, contracts entered into by either the county, a public authority, or a nonprofit consortium pursuant to this section shall be subject to competitive bidding as otherwise required by law.

(*l*) (1) The department may adopt regulations implementing this section as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedures Act, the adoption of the regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these emergency regulations shall not be subject to the review and approval of the Office of Administrative Law.

(2) Notwithstanding subdivision (h) of Section 11364.1 and Section 11349.6 of the Government Code, the department shall transmit these regulations directly to the Secretary of State for filing. The regulations shall become effective immediately upon filing by the Secretary of State.

(3) Except as otherwise provided for by Section 10554, the Office of Administrative Law shall provide for the printing and publication of these regulations in the California Code of Regulations. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these regulations shall not be repealed by the Office of Administrative Law

and shall remain in effect until revised or repealed by the department.

(m) (1) In the event that a county elects to form a nonprofit consortium or public authority pursuant to subdivision (a) before the State Department of Health Services has obtained all necessary federal approvals pursuant to paragraph (3) of subdivision (j) of Section 14132.95, all of the following shall apply:

(A) Subdivision (c) shall apply only to those matters that do not require federal approval.

(B) The second sentence of subdivision (g) shall not be operative.

(C) The nonprofit consortium or public authority shall not provide services other than those specified in paragraphs (1), (2), (3), (4), and (5) of subdivision (d).

(2) Paragraph (1) shall become inoperative when the State Department of Health Services has obtained all necessary federal approvals pursuant to paragraph (3) of subdivision (j) of Section 14132.95.

(n) (1) One year after the effective date of the first approval by the department granted to the first public authority, the Bureau of State Audits shall commission a study to review the performance of that public authority.

(2) The study shall be submitted to the Legislature and the Governor not later than two years after the effective date of the approval specified in subdivision (a). The study shall give special attention to the health and welfare of the recipients under the public authority, including the degree to which all required services have been delivered, out-of-home placement rates, prompt response to recipient complaints, and any other issue the director deems relevant.

(3) The report shall make recommendations to the Legislature and the Governor for any changes to this section that will further ensure the well-being of recipients and the most efficient delivery of required services.

(o) Commencing July 1, 1997, the department shall provide annual reports to the appropriate fiscal and policy committees of the Legislature on the efficacy of the implementation of this section, and shall include an assessment of the quality of care provided pursuant to this section.

SEC. 23. Section 12302.1 of the Welfare and Institutions Code is amended to read:

12302.1. (a) Contracts entered into by a county under Section 12302 shall be for terms not exceeding three years. In the event of a three-year contract, the county, at the end of the first contract term, may renew the contract for a second term not exceeding one year. The rate of reimbursement shall be negotiated consistent with regulations promulgated by the State Department of Social Services. For any extended contract, the rate shall reflect, but is not limited to, the following financial considerations:

(1) Actual expenditures by the contractor as documented during the first contract term and approved by the state.

(2) Changes in federal, state, or county program requirements.

(3) Federal and state minimum wage and contractual step merit increases.

(4) Statutory taxes.

(5) Insurance costs.

(6) Reasonable costs which have been approved by the county department of social services, as long as those costs do not increase unreimbursed county expenditures or lead to a reduction in client services, and those costs can be funded within the maximum allowable rates set by the department for in-home supportive services contracts and the county's state allocation for in-home supportive services.

(7) Other reasonable costs over which the contracting parties have no control.

(b) (1) Except as provided in paragraph (2), the purchase of services regulations adopted by the department that govern county welfare departments shall also govern acceptable in-home supportive services contracting, including the methods used to advertise, procure, select, and award the contracts, and the procedures used to amend, renew, or extend an existing contract with the same contractor, including, in addition to rate changes, any other change in other terms of the contract. In no case shall the department's regulations governing in-home supportive services contracting procedures differ from the contract procedures specified in the department's purchase of service regulations for other services purchased by county welfare departments, except as required by federal law.

(2) The department may, through regulation, require until July 1, 2000, the prior review of all bid and contract documents for managed care contracts under Section 12302.7.

SEC. 24. Section 12302.7 of the Welfare and Institutions Code is repealed.

SEC. 25. Section 12302.7 is added to the Welfare and Institutions Code, to read:

12302.7. (a) (1) Any county may contract on a nonexclusive basis with any qualified individual, organization, entity, or entities to provide or arrange for in-home supportive services as specified in Section 12300 and personal care services as specified in Section 14132.95. Subject to subdivisions (j), (k), and (*l*), contracts under this section may be entered into on a "task frequency mode of service delivery" basis. For purposes of this section "task frequency mode of service" means a mode of service delivery under which the contractor is financially at risk for providing all in-home supportive services identified as necessary by the county pursuant to Section 12301.1 to enrolled beneficiaries in the county. The costs of these contracts shall not exceed the sum of 100 percent of the county's

average cost per case at the time the contract is entered into for the average cost per case for persons eligible to receive services under subdivision (a) of Section 12303.4 and the average cost per case for persons eligible to receive services under subdivision (b) of Section 12303.4 for cases covered by the contract, adjusted to reflect subsequent increases in state or federal minimum wage requirements and any adjustments for wages provided in Budget Acts enacted after January 1, 1997.

(2) The contract authorized by paragraph (1) may include provisions to do the following:

(A) Provide for service delivery on a task frequency basis or on an hourly basis.

(i) To the extent a contract provides for a task frequency basis of service assessment and delivery, and if services are to be claimed and reimbursed on an hourly basis, the task frequency basis shall be converted to an hourly equivalency by the county.

(ii) For purposes of this section, a "task frequency basis" means the provision of all services identified as necessary by the county to a beneficiary at intervals that are consistent with the needs identified by the county. This clause shall not require that each service be provided for the same duration as the same or substantially similar service provided in other modes of service delivery.

(B) Provide for the delivery of in-home supportive services authorized under this article and Medi-Cal personal care services provided for pursuant to Section 14132.95, or both, in a manner consistent with the task frequency mode of service delivery to ensure the most cost-effective and appropriate scope, frequency, and quality of services.

(C) (i) The county shall provide the case management services.

(ii) For purposes of this section, "case management services" includes, but is not limited to, the development of a plan of care based on the county's needs assessment and quality of care assurance.

(D) Provide for alternative methods of payment for services, including, but not limited to, a prospectively set reimbursement rate, a negotiated reimbursement rate, or other basis permissible under state and federal law.

(3) Any contract authorized by paragraph (1) shall include provisions to provide that any in-home supportive services direct service provider shall not also serve as a case manager.

(b) (1) The contracts shall apply to recipients becoming eligible for these services on or after the start date of the contract. Persons who qualified for in-home supportive services prior to hospitalization or institutionalization in a long-term care facility and who return home shall be considered as current recipients for purposes of this section. Recipients may elect to be served under a contract subject to this subdivision and shall be informed of the contractor's obligation to deliver all the services identified on a task frequency basis. Recipients may change contractors if there is more than one

contractor with the county. A recipient consenting to services from a contractor under this section may choose his or her home attendant and replace the home attendant if so desired. Recipients shall be informed of the task frequency mode of service delivery under the contract pursuant to subdivision (f) and the contractor's obligation to deliver all the services identified on a task frequency basis, to change contractors if there is more than one contractor with the county and they are informed that the recipients have the right to choose their home attendant and replace the home attendant if so desired and they voluntarily consent to services under this method.

(2) At the county's option, recipients who became eligible prior to the start date of the contract may elect to be served under a contract subject to this subdivision, provided they are informed of the task frequency mode of service delivery under the contract pursuant to subdivision (f) and the contractor's obligation to deliver all the services identified on a task frequency basis, to change contractors if there is more than one contractor with the county and they are informed that the recipients have the right to choose their home attendant and replace the home attendant if so desired and they voluntarily consent to services under this method.

(c) In all cases regarding the provision of services pursuant to contracts under this section, the county shall perform all of the following:

(1) Needs assessments.

(2) Needs assessment redeterminations, including determinations for the termination of services.

(3) Quality of care assurance meeting the standards established by the director pursuant to subdivision (g).

(4) The assignment of a recipient to a contractor subject to the provisions of subdivision (e).

(d) The contract shall permit a recipient to immediately change his or her caregiver provided by the contractor.

(e) A recipient of benefits under this article in a county that has entered into a contract pursuant to paragraph (1) of subdivision (a) may elect to receive benefits through any mode of service available in the county notwithstanding the manner in which the recipient had been receiving benefits prior to the date the county contract became effective, and may elect to disenroll from any mode of service delivery authorized by the county or change to another contractor if there is more than one contractor with the county at any time, upon 72 hours' notice. Any recipient who believes his or her health or safety may be in jeopardy shall have the right immediately to disenroll from a mode of service or change contractors.

(f) A county that contracts with an entity pursuant to subdivision (a) shall be required to fully inform recipients about the task frequency mode of service delivery, the requirements for the contractor to provide all services to which the recipient is entitled, including the frequency of the services, the recipient's right to

choose either the task frequency mode of service delivery or the individual provider mode of service delivery, the recipient's right to disenroll from the task frequency mode of service delivery, and the method by which the recipient may exercise his or her right to disenroll. The county shall also inform recipients of their right to request a hearing pursuant to Section 10950 if they are dissatisfied with any action concerning the delivery of service.

(g) (1) The director shall specify performance and quality assurance standards to be included in contracts under this section for in-home supportive services to assure delivery of all required services at the time the services are needed, including weekends and nights, establish proper screening, training, and supervision of persons providing direct services and institute frequent periodic quality control audits and utilization review of all services. These standards shall not be subject to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(2) Quality control audits and utilization review shall be performed by entities that are independent of the county and the contractor. The reports of the audits and utilization review shall be made available to the public. The cost of those quality control audits and utilization review shall be considered as part of the county administrative costs under the contract.

(h) (1) Contracts subject to this section shall, to the greatest extent possible, permit recipients to set their own service schedule.

(2) Contractors shall have the capacity to deliver services on weekends and at night.

(i) (1) One year after the effective date of the first contract approved pursuant to this section, the Bureau of State Audits shall commission a study to review the performance of all contracts under this section.

(2) The study shall be submitted to the Legislature and the Governor not later than two years after the effective date of the first contract approved pursuant to this section.

(3) The study shall give special attention to both of the following:

(A) The health and welfare of the recipients under task frequency based contracts, including the degree to which all required services have been delivered, out-of-home placement rates, prompt response to recipient complaints, and any other issue the director deems relevant.

(B) The cost implications of task frequency based contracts, estimating the potential for ongoing savings, if any.

(4) The report shall make recommendations to the Legislature and the Governor for any changes to this section that would further ensure the well-being of recipients and the most efficient delivery of required services.

(j) The department shall obtain the approval of the State Department of Health Services for any contract providing personal care services entered into pursuant to this section prior to its

execution to determine that it is consistent with federal law and to ensure federal financial participation for the services under Title XIX of the federal Social Security Act (Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code). The department shall expedite the approval of regulations, invitations for bids, requests for proposals, and contracts under this section.

(k) The Director of Health Services shall seek any federal waivers or approvals necessary for implementation of this section. Prior to, or at, the time the director submits any request or requests for federal approval, the director shall submit copies of the request or requests to the County Welfare Directors Association and to the appropriate committees of the Legislature.

(*l*) This section shall be implemented only if, and to the extent that, the Director of Health Services executes a declaration that states that any necessary federal approvals have been obtained and that federal financial participation under Title XIX of the federal Social Security Act (Subchapter 19 (commencing with Section 1396) of Chapter 7 of Title 42 of the United States Code), if applicable, has been approved.

(m) Any contract entered into pursuant to this section shall provide for an assurance by the contractor that the scope, frequency, and quality of services provided under the contract shall not be reduced below the level authorized by the county pursuant to this article. A county shall ensure that the contractor provides all required service tasks to eligible recipients in accordance with their levels of need.

(n) If the department finds that the amount, scope, duration, or quality of care in a county has been reduced from that provided in the individual provider mode of service, then the department shall inform the county of its specific findings and the department shall require the county to take one of the following actions:

(1) Terminate the contract entered into under this section.

(2) Continue the contract and address the department's concerns. However, the county shall use county-only funds to fund both the county share and the state share of any increase in the cost of the program to fund necessary increases in the level of service, if any. A contract under this paragraph that does not increase the average cost per case in the county at the time of the program change shall be deemed not to increase the cost of the program.

(o) Increased costs attributable to a county contracting pursuant to this section, including increased costs that are associated with case management, information, and payrolling system augmentation shall be borne by the county.

(p) Any contract entered into pursuant to this section shall meet all applicable federal and state procurement requirements.

(q) All contracts subject to this section shall require the contractor to provide a plan for coordinating recruitment with the Greater Avenues for Independence (GAIN) program, provided for pursuant

to Article 3.2 (commencing with Section 11320) of Chapter 2, in order to maximize the employment opportunities of GAIN recipients.

(r) (1) A county contracting pursuant to this section shall appoint an advisory committee of not more than 11 individuals. No fewer than 50 percent of the membership of the advisory committee shall be individuals who are current or past users of personal assistance services paid for through public or private funds or recipients of services under this article.

(2) Prior to making designations of committee members, the board of supervisors shall solicit recommendations of qualified members through a fair and open process that includes the provision of reasonable written notice to, and a reasonable response time by, members of the general public and interested persons and organizations.

(s) The department shall provide annual reports to the appropriate committees of the Legislature beginning on July 1, 1997, on the efficacy of the implementation of this section, and shall include an assessment of the quality of care provided pursuant to this section.

(t) The department may adopt regulations implementing this section as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. For the purposes of the Administrative Procedures Act, the adoption of the regulations shall be deemed an emergency and necessary for the immediate preservation of the public peace, health, and safety, or general welfare. Notwithstanding Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, these emergency regulations shall not be subject to the review and approval of the Office of Administrative Law.

(u) This section shall become inoperative on July 1, 2001, and, as of January 1, 2002, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2002, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 26. Section 12550 of the Welfare and Institutions Code is amended to read:

12550. For the purposes of this article, "special circumstances" means those which are not common to all recipients and which arise out of need for certain goods or services, and physical infirmities or other conditions peculiar, on a nonrecurring basis, to the individual's situation. Special circumstances shall include replacement of essential household furniture and equipment, or clothing when lost, damaged or destroyed by a catastrophe, necessary moving expenses, required housing repairs, and unmet shelter needs.

This section shall become operative on July 1, 1997.

SEC. 27. Section 12551 of the Welfare and Institutions Code is amended to read:

12551. Special circumstances shall also include special needs as provided in Sections 11023 and 11023.1.

This section shall become operative on July 1, 1997.

SEC. 28. Section 12552 of the Welfare and Institutions Code is amended to read:

12552. The county shall verify that a special circumstance does exist and shall issue a warrant for payment within the guidelines provided by the department. The county shall then send a claim to the state for payment.

This section shall become operative on July 1, 1997.

SEC. 29. Section 15200.6 of the Welfare and Institutions Code, as added by Section 129 of Chapter 722 of the Statutes of 1992, is repealed.

SEC. 30. Section 15200.6 of the Welfare and Institutions Code, as added by Section 6 of Chapter 851 of the Statutes of 1992, is amended to read:

15200.6. (a) It is the intent of the Legislature for the State Department of Social Services to allocate to counties funds as specified in this section to assist counties to increase child support collections through the child support enforcement program. For the 1992–93 fiscal year, the total amount allocated under the two methods specified in this section shall not exceed ten million dollars ($10,000,000). "Department," as used in this section, means the State Department of Social Services.

(b) The funds may be used for the following purposes and in any manner that will enhance child support collections.

(1) To purchase equipment and fund staff to further a county's effort to automate its offices as long as the automation is in accordance with the Statewide Automated Child Support System being implemented statewide.

(2) To fund staff who will further the county's collection efforts.

(3) To match federal funds to increase court time given to child support, including, but not limited to, funding additional family law commissioner or referee positions which are authorized by law, renting or leasing additional space, funding additional support staff and litigant services, and obtaining additional equipment. More than one county may jointly fund a family support commissioner or referee position to serve the participating counties. For the 1996–97 and 1997–98 fiscal years, funds shall be made available to the extent appropriated by the Budget Act to the Judicial Council to implement Section 4251 of, and Division 14 (commencing with Section 10000) of, the Family Code. The Judicial Council shall allocate the funds to counties for the purpose of matching federal funds for the costs of commissioners, family law facilitators, and related costs. The Judicial Council may also use the funds to offset the nonfederal share of costs incurred for performing the duties specified in Section 4252 of the Family Code. The funds may only be used to match federal funds to increase court time if the county does not decrease its current allocation of court time to child support cases or decrease the time more than in other areas under its plan for trial court funding. The

funds allocated pursuant to this section and the federal matching funds for increased court time for child support cases shall be considered outside the requirements of trial court funding. Funds allocated to the Judicial Council shall not be subject to the requirements of subdivision (c).

(c) Counties may choose one of the following methods for obtaining these funds to increase child support collections:

(1) Matching funds method:

(A) It is the intent of the Legislature to appropriate the sum of ten million dollars ($10,000,000), or any higher amount specified in the annual Budget Act, from the General Fund to the State Department of Social Services. Within 60 days of the enactment of the annual Budget Act, any county choosing to apply for funds under this method shall submit to the department a plan specifying the amount of county match funds the county will provide, the amount of General Fund moneys the county is requesting, and the intended uses of the funds consistent with subdivision (b).

(B) The department shall allocate the funds to counties based on the amount each county has reported it is to match. In order to receive these funds, a county shall match every dollar of the General Fund money provided to the county with fifty cents ($0.50) of county funds, which shall be used for the child support program. In the event that the department receives applications that exceed the total funds available, the department shall allocate the available funds among the applications based on collections-to-cost ratios.

(C) Funds expended to comply with Section 15200.97 shall qualify for this match.

(2) Loan method:

(A) The Director of Finance is authorized to transfer up to ten million dollars ($10,000,000), or any higher amount as may be specified in the annual Budget Act, from Item 5180-101-001 to Item 5180-141-001 of the annual Budget Act for allocation by the State Department of Social Services to county child support enforcement programs. There shall be no requirement for counties to match these funds, but the State Department of Social Services shall take any steps necessary to ensure that the maximum amount of federal funds are available to match these funds.

(B) The State Department of Social Services shall allocate these funds to counties based upon an approved application. In the event that the department receives applications that exceed the total funds available, the department shall allocate the available funds among the approved applications based on collections-to-cost ratios. In order to be approved, the application shall be signed by the district attorney and shall, at a minimum, specify:

(i) The county's estimate of the state share of baseline Aid to Families with Dependent Children (AFDC) collections in the county for the state fiscal year in which the requested allocation will be spent. For purposes of this section, "baseline AFDC collections"

means the collections that would be made by the county in the absence of this section. The department shall review the county's baseline AFDC and non-AFDC collections estimate and shall approve the estimate if it is reasonably consistent with recent trends and developments in the county.

(ii) The specific program activities for which the county proposes to use the funds. The county shall certify that these activities are in addition to the activities, or the levels of activity, funded in the previous year.

(iii) The amount requested.

(iv) The county's estimate of the state share of increased AFDC and non-AFDC collections, minus any incentive paid to the county pursuant to Section 15200.8, anticipated to result from the activities identified in clause (ii). The department shall review this estimate and advise the county as to its reasonableness. For purposes of this section, "increased AFDC collections" means revenues above the county's approved estimate of baseline AFDC collections.

(v) A statement by the district attorney that he or she understands that the incentives that would otherwise be paid to the county in the subsequent fiscal year will be reduced to recover any state costs that are not fully offset by increased revenues.

(C) The department shall approve applications with approved baseline AFDC collections and in which the collections-to-cost ratio derived by dividing the amounts estimated under clause (iv) of subparagraph (B) by the amount requested under clause (iii) of subparagraph (B) is equal to, or greater than, two times the statewide average comparable collections-to-cost ratio for the previous five years.

(D) At the end of the first quarter of the state fiscal year, following the state fiscal year in which any county received an allocation pursuant to this section, the department shall estimate the total state share of AFDC collections by each county, minus each incentive paid to the county pursuant to Section 15200.8.

(E) For each of the four quarters following the first quarter of the state fiscal year following the year in which a county receives an allocation pursuant to this section, the department shall reduce the incentive payment by one-fourth of the amount which the allocation to the county pursuant to this section for the previous state fiscal year exceeds the difference, if greater than zero, resulting from subtracting the state share of baseline AFDC collections specified in the county's application from the department's estimate of the state share of total collections.

(d) The Director of Finance may authorize the transfer of amounts from Item 5180-101-001 to Item 5180-001-001 of the Budget Act of 1992 in order to fund the cost of the administrative activities associated with the enhancement of the child support enforcement program authorized by the statute adding this section, and the provisions of AB 568, AB 2621, SB 1423, and SB 1959, if those bills are

enacted by the 1991–92 Regular Session of the Legislature. At least 30 days prior to those transfers, the department shall notify the Department of Finance and the fiscal committees of the Legislature of the planned transfer.

SEC. 31. Section 16525.10 of the Welfare and Institutions Code is amended to read:

16525.10. (a) For counties that do not participate in the partnership demonstration project pursuant to Section 16560, the department shall conduct the demonstration project described in Chapter 1385 of the Statutes of 1989, which shall conform to the requirements set forth in this chapter, and that shall be integrated with the foster care program authorized by Article 5 (commencing with Section 11400) of Chapter 2 of Part 3, and child welfare services programs authorized by Chapter 5 (commencing with Section 16500).

(b) This demonstration project shall be conducted in ten counties, as requested by each participating county, pursuant to procedures established by the department. The demonstration project in these counties shall continue until June 30, 1997, if funds are appropriated for that purpose in the Budget Act of 1996.

(c) Notwithstanding any other provision of law, the "Options for Recovery" services as described in the demonstration project shall be funded with a 30-percent nonfederal county share consistent with the normal sharing ratio for child welfare services. This county share may be provided with county general funds, or other sources of funds which are unrestricted and are eligible for this use as provided by the funding source. The source of the county share shall meet all applicable state and federal requirements and provide counties with maximum flexibility.

SEC. 32. Section 16525.40 of the Welfare and Institutions Code is amended to read:

16525.40. This chapter shall remain in effect only until January 1, 1998, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1998, deletes or extends that date.

SEC. 33. Section 17000.6 of the Welfare and Institutions Code, as amended by Section 8 of Chapter 6 of the Statutes of 1996, is amended to read:

17000.6. (a) The board of supervisors of any county may adopt a standard of aid below the level established in Section 17000.5 if the Commission on State Mandates makes a finding that meeting the standards in Section 17000.5 would result in a significant financial distress to the county. When the commission makes a finding of significant financial distress concerning a county, the board of supervisors may establish a level of aid which is not less than 40 percent of the 1991 federal official poverty level, which may be further reduced pursuant to Section 17001.5 for shared housing. The commission shall not make a finding of significant financial distress unless the county has made a compelling case that, absent the

finding, basic county services, including public safety, cannot be maintained.

(b) Upon receipt of a written application from a county board of supervisors, the commission may make a finding of financial distress for a period of up to 36 months pursuant to regulations that are necessary to implement this section, which shall be adopted by the commission. The period of reduction may be renewed by the commission upon reapplication by the county. Any county that filed an application or reapplication that was approved for a period of up to 12 months by the commission on or before December 31, 1996, shall be deemed to have had that application or reapplication approved for a period of 36 months. If the period of financial distress is delayed by court action, the period shall be tolled during that delay.

(c) As part of the decisionmaking process, the commission shall notice and hold a public hearing on the county's application or reapplication in the county of application. The commission shall provide a 30-day notice of the hearing in the county of application or reapplication. The commission shall notify the applicant county of its preliminary decision within 60 days after receiving the application and final decision within 90 days after receiving the application. If a county files an application while another county's application is pending, the commission may extend both the preliminary decision period up to 120 days and the final decision period up to 150 days from the date of the application and any current period of significant financial distress of the applicant county that has been set pursuant to subdivision (b) shall be extended for the same period.

(d) This section shall not be construed to eliminate the requirement that a county provide aid pursuant to Section 17000.

(e) Any standard of aid adopted pursuant to this section shall constitute a sufficient standard of aid.

(f) The commission may adopt emergency regulations for the implementation of this section.

SEC. 34. Section 17001.5 of the Welfare and Institutions Code, as amended by Section 9 of Chapter 6 of the Statutes of 1996, is amended to read:

17001.5. (a) Notwithstanding any other provision of law, including, but not limited to, Section 17000.5, the board of supervisors of each county, or the agency authorized by the county charter, may do any of the following:

(1) (A) Adopt residency requirements for purposes of determining a persons' eligibility for general assistance. Any residence requirement under this paragraph shall not exceed 15 days.

(B) Nothing in this paragraph shall be construed to authorize the adoption of a requirement that an applicant or recipient have an address or to require a homeless person to acquire an address.

(2) (A) Establish a standard of general assistance for applicants and recipients who share housing with one or more unrelated persons or with one or more persons who are not legally responsible

for the applicant or recipient. The standard of general assistance aid established pursuant to Section 17000.5 for a single adult applicant or recipient may be reduced pursuant to this paragraph by not more than the following percentages, as appropriate:

(i) Fifteen percent if the applicant or recipient shares housing with one other person described in this subparagraph.

(ii) Twenty percent if the applicant or recipient shares housing with two other persons described in this subparagraph.

(iii) Twenty-five percent if the applicant or recipient shares housing with three or more other persons described in this paragraph.

(B) Any standard of aid adopted pursuant to this paragraph shall constitute a sufficient standard of aid for any recipient who shares housing.

(C) Counties with shared housing reductions larger than the amounts specified in subparagraph (A) as of August 19, 1992, may continue to apply those adjustments.

(3) Discontinue aid under this part for a period of not more than 180 days with respect to any recipient who is employable and has received aid under this part for three months if the recipient engages in any of the following conduct:

(A) Fails, or refuses, without good cause, to participate in a qualified job training program, participation of which is a condition of receipt of assistance.

(B) After completion of a job training program, fails, or refuses, without good cause, to accept an offer of appropriate employment.

(C) Persistently fails, or refuses, without good cause, to cooperate with the county in its efforts to do any of the following:

(i) Enroll the recipient in a job training program.

(ii) After completion of a job training program, locate and secure appropriate employment for the recipient.

(D) For purposes of this paragraph, lack of good cause may be demonstrated by a showing of any of the following:

(i) The willful failure, or refusal, of the recipient to participate in a job training program, accept appropriate employment, or cooperate in enrolling in a training program or locating employment.

(ii) Not less than three separate acts of negligent failure of the recipient to engage in any of the activities described in clause (i).

(4) Prohibit an employable individual from receiving aid under this part for more than three months in any 12-month period, whether or not the months are consecutive. This paragraph shall apply to aid received on or after the effective date of this paragraph. This paragraph shall apply only to those individuals who have been offered an opportunity to attend job skills or job training sessions.

(5) Notwithstanding paragraph (3), discontinue aid to, or sanction, recipients for failure or refusal without good cause to follow program requirements. For purposes of this subdivision, lack of good cause may be demonstrated by a showing of either (A) willful failure

or refusal of the recipient to follow program requirements, or (B) not less than three separate acts of negligent failure of the recipient to follow program requirements.

(b) (1) The Legislative Analyst shall conduct an evaluation of the impact of this section on general assistance recipients and applicants.

(2) The evaluation required by paragraph (1) shall include, but need not be limited to, all of the following:

(A) The impact on the extent of homelessness among applicants and recipients of general assistance.

(B) The rate at which recipients of general assistance are sanctioned by county welfare departments.

(C) The impact of the 15-day residency requirement on applicants or recipients of general assistance, including how often the requirement is invoked.

(3) The Legislative Analyst shall, in the conduct of the study required by this section, consult with the State Department of Social Services, the County Welfare Directors Association, and organizations that advocate on behalf of recipients of general assistance.

(c) A county may provide aid pursuant to Section 17000.5 either by cash assistance, in-kind aid, a two-party payment, voucher payment, or check drawn to the order of a third-party provider of services to the recipient. Nothing shall restrict a county from providing more than one method of aid to an individual recipient.

SEC. 35. Section 19355.5 of the Welfare and Institutions Code is repealed.

SEC. 36. Section 19355.5 is added to the Welfare and Institutions Code, to read:

19355.5. Notwithstanding any other provision of law, effective July 1, 1996, all rates established for the 1996–97 fiscal year pursuant to Section 19356 under this chapter for work-activity programs shall be reduced proportionately if necessary by the percentage necessary to ensure that projected total General Fund expenditures for the habilitation services and vocational rehabilitation work activity and supported employment programs based on Budget Act caseload projections do not exceed the General Fund appropriations for these programs in the Budget Act of 1996.

SEC. 37. Section 19356 of the Welfare and Institutions Code is amended to read:

19356. (a) The department shall adopt regulations to establish rates for work-activity program services subject to the approval of the Department of Finance. The regulations shall provide for an equitable ratesetting procedure in which each specific allowable service, activity, and provider administrative cost comprising an overall habilitation service, as determined by the department, reflects the reasonable cost of service. Reasonable costs shall be determined biennally by the department, subject to audit at the discretion of the department.

(b) It is the intent of the Legislature that, commencing July 1, 1996, the department establish rates for both habilitation services and vocational rehabilitation work-activity programs pursuant to subdivision (a). Nothing in this subdivision shall preclude the subsequent amendment or adoption of regulations pursuant to subdivision (a).

SEC. 38. Section 19356.6 of the Welfare and Institutions Code is amended to read:

19356.6. (a) The definitions contained in this subdivision shall govern the construction of this section, with respect to services provided through the Habilitation Service Program, and unless the context requires otherwise, shall have the following meanings:

(1) "Supported employment" means paid work that is integrated in the community for persons with developmental disabilities whose vocational handicap is so severe that they would be unable to achieve this employment without specialized services and would not be able to retain this employment without an appropriate level of ongoing postemployment support services.

(2) "Integrated work" means the engagement of an employee with a disability in work in a natural community employment setting, including, but not limited to, groups and individual placements, in which the degree of integration is measured by the extent to which the disabled employee has opportunities to interact with nondisabled individuals other than those providing direct support services to the disabled employee.

(3) "Group placement" means the engagement of a group containing at least three, but not more than eight, persons with developmental disabilities in paid work in an integrated work setting in the community, usually at employer sites, and which represents a minority of the employer's work force.

(4) "Individual placement" means placing a person with a developmental disability with an employer in the community and providing specialized services which are intended to lead to employer-paid and employer-supervised employment, and where services decrease as the individual adjusts to the job; and ongoing postemployment services necessary for the individual to retain the job.

(5) "Allowable supported employment services" means the services approved in the individual habilitation component and provided, to the extent allowed by the Habilitation Services Program, for the purpose of achieving supported employment as an outcome for persons with developmental disabilities, which may include any of the following:

(A) Program staff time spent conducting task analysis on a supported employment opportunity for a specific consumer or group of consumers.

(B) Program staff time spent in the direct supervision or training of a consumer or consumers while they are engaged in integrated

work designed to achieve supported employment unless other arrangements for consumer supervision, such as employer supervision reimbursed by the work-activity program, are approved by the Habilitation Services Program.

(C) Social skills training which is necessary to ensure job adjustment and retention, and which is provided in an integrated setting, unless otherwise approved by the Habilitation Services Program.

(D) Training in certain independent living skills, such as independent travel or money management, which is necessary to ensure job adjustment and retention and which is provided in the community, unless otherwise approved by the Habilitation Services Program.

(E) Counseling with family, care providers, or others to ensure necessary support to consumers' job adjustment or to overcome problems affecting their job performance.

(F) Direct action to advocate on behalf of a consumer to resolve problems affecting the consumer's work adjustment or retention of an integrated job.

(G) Intervention with the employer to review a consumer's job performance, resolve job problems or facilitate the employer's hiring of the consumer as an employee.

(H) In the case of groups which must take equipment or materials to and from the worksite, the time the group members spend preparing for, and ending, the day's work.

(I) In the case of individual placements, job development to the extent authorized by the Habilitation Services Program, and ongoing postemployment support services needed to ensure the consumer's retention of the job.

(J) In the case of groups, the staff time spent obtaining and arranging the jobsite for a specific group of consumers.

(b) (1) Notwithstanding subdivision (c) of Section 19353, the department's habilitation services and vocational rehabilitation programs may mutually serve individuals whose individual written rehabilitation program provides for placement into supported employment, or who are in vocational rehabilitation extended evaluation.

(2) Section 19351 shall not be interpreted to limit the authority provided by this subdivision to mutually serve consumers.

(c) (1) The Habilitation Services Program shall set hourly rates for supported employment services provided in accordance with this section. The Habilitation Services Program shall apply those rates to those work-activity programs or program components of work-activity programs approved by the department to provide community-integrated services under former paragraph (3) of subdivision (d) of Section 19356.5, and to new programs or components approved by the Habilitation Services Program to provide supported employment services following enactment of this

section. Both of these categories of programs or components shall be required to comply with the criteria set forth in subdivision (b) of Section 19356.7 to receive approval from the Habilitation Services Program.

(2) The hourly rate for work crews and enclaves shall be four dollars ($4) per client or, in the case of new components of existing programs, the work-activity program's daily rate converted to an hourly rate according to the formula set forth in subdivision (d), whichever hourly rate is the higher. In addition, the Habilitation Services Program may, at its discretion, negotiate a higher hourly rate for work crews or enclaves, based upon a submitted budget that is approved by the Habilitation Services Program, when there is documentation that demonstrates a need for a higher rate because of the nature and severity of the disabilities of the clients served or unique local needs, as determined by the Habilitation Services Program. All negotiated rate increases based on unique local needs shall be contingent upon review and approval by the Department of Finance.

(3) The hourly rate for individual placement shall be twenty dollars ($20) per consumer for one-to-one services. If more than one client is receiving placement services simultaneously at the same site, the amount to be reimbursed per hour of service provided shall not exceed twenty dollars ($20) regardless of the number of consumers receiving service during the hour.

(4) These hourly rates shall be subject to rate adjustments provided by law commencing with the 1987–88 fiscal year.

(5) (A) Commencing July 1, 1991, the department shall add to each supported employment program rate an amount that is the equivalent of the hourly reimbursement received by the program for administrative services delivered during the period of July 1, 1990, to March 31, 1991, inclusive.

(B) For programs approved after July 1, 1991, pursuant to Section 19356.7, the statewide average for hourly reimbursement for administrative services shall be applied to the rate.

(6) It is the intent of the Legislature that, commencing July 1, 1996, the department establish rates for both habilitation services and vocational rehabilitation supported employment services pursuant to this section.

(d) (1) When a consumer receives traditional work-activity services and supported employment services during the same payment period, the Habilitation Services Program shall convert the daily rate for the traditional work-activity services into an hourly rate for the purpose of paying for those traditional work-activity services received by that consumer. In its conversion of the daily rate into any hourly rate, the Habilitation Services Program shall use the formula in paragraph (2).

(2) The daily rate of the work-activity program shall be divided by the number of hours in the program day of the traditional

work-activity program during the historical period on which its rate is based, or as of the date the Habilitation Services Program approved the work-activity program as a new provider of habilitation services plus 5 percent.

(e) This section shall become inoperative on October 1, 1996, and, as of January 1, 1997, is repealed unless a later enacted statute which becomes effective on or before January 1, 1997, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 39. The amendment of Section 15200.6 made by this act shall become operative only if Assembly Bill 1058 is enacted during the 1996 portion of the 1995–96 Regular Session, and as enacted, that bill contains Division 14 (commencing with Section 10000) of the Family Code and Article 4 (commencing with Section 4250) of Chapter 2 of Part 2 of Division 9 of the Family Code.

SEC. 40. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 41. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that changes necessary for implementation of the Budget Act of 1996 will be effective for the entire 1996–97 fiscal year, it is necessary that this act go into immediate effect.

CHAPTER 207

An act to add Section 24002.5 to the Government Code, relating to county assessors.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 24002.5 is added to the Government Code, to read:

24002.5. (a) No person shall exercise the powers and duties of the office of assessor unless he or she holds a valid appraiser's certificate issued by the State Board of Equalization pursuant to Article 8 (commencing with Section 670) of Chapter 3 of Part 2 of Division 1 of the Revenue and Taxation Code.

(b) Notwithstanding subdivision (a), a duly elected or appointed person may exercise the powers and duties of assessor, for a period not to exceed one year, if he or she acquires a temporary appraiser's certificate from the State Board of Equalization within 30 days of election or appointment.

(c) This section shall not apply to any person holding the office of assessor on January 1, 1997.

CHAPTER 208

An act to amend Section 56361 of the Education Code, relating to special education.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 56361 of the Education Code is amended to read:

56361. The continuum of program options shall include all of the following:

(a) Regular education programs consistent with subparagraph (B) of paragraph (5) of Section 1412 and clause (iv) of subparagraph (C) of paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code and implementing regulations.

(b) A resource specialist program pursuant to Section 56362.

(c) Designated instruction and services pursuant to Section 56363.

(d) Special classes and centers pursuant to Section 56364.

(e) Nonpublic, nonsectarian school services pursuant to Section 56365.

(f) State special schools pursuant to Section 56367.

(g) Instruction in settings other than classrooms where specially designed instruction may occur.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because this act implements a federal law or regulation and results only in costs mandated by the federal government, within the meaning of Section 17556 of the Government Code.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative

on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 209

An act to amend Section 68083 of the Government Code, relating to courts.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 68083 of the Government Code is amended to read:

68083. (a) Upon the occurrence of a vacancy in a municipal court judgeship, other than the sole remaining municipal court judgeship for the county, if the Governor finds there are sufficient funds for the conversion of a municipal court judgeship into a superior court judgeship and finds that the administration of justice would be advanced by such a conversion, the number of municipal court judges for the county shall then be reduced by one and the number of superior court judges for the county shall be increased by one. Prior to making a determination, the Governor shall consider the following factors:

(1) The geographic separation of the two courts.

(2) The fiscal impact of the conversion.

(3) The existence of a coordination plan approved pursuant to Section 68112 of the Government Code that permits blanket cross-assignment of superior court judges and municipal court judges to assist in the timely processing of cases before all of the courts in the county.

(b) For purposes of this section, a vacancy in a municipal court judgeship shall be deemed to occur only upon the appointment or election of a municipal court judge to another office, or to a court other than a superior court judgeship which was created within three years pursuant to this section, upon the removal or death of the municipal court judge holding that judgeship, or upon the resignation or retirement of a municipal court judge who has reached the age of retirement.

(c) The Governor's finding shall become effective when received by the Secretary of State.

(d) When a finding by the Governor that a position should be reallocated takes effect, the Judicial Council shall reallocate to the

superior court the funding in support of the municipal court salary and the chamber staff positions as well as any other required funding.

CHAPTER 210

An act to add Section 11376 to the Health and Safety Code, relating to controlled substances.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 11376 is added to the Health and Safety Code, to read:

11376. Upon the diversion or conviction of a person for any offense involving substance abuse, the court may require, in addition to any or all other terms of diversion or imprisonment, fine, or other reasonable conditions of sentencing or probation imposed by the court, that the defendant participate in and complete counseling or education programs, or both, including, but not limited to, parent education or parenting programs operated by community colleges, school districts, other public agencies, or private agencies.

CHAPTER 211

An act to add Section 96.15 to the Revenue and Taxation Code, relating to local government finance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 96.15 is added to the Revenue and Taxation Code, to read:

96.15. (a) Notwithstanding any other provision of this chapter, in the event a qualifying city as defined in subdivision (d) of Section 98 or subdivision (f) of Section 98.02 becomes the successor agency to a special district as a result of a merger described in Section 57087.3 of the Government Code, the auditor shall allocate to that qualifying city, in addition to any other amount of ad valorem property tax revenue required to be allocated to that city pursuant to this chapter,

the amount of ad valorem property tax revenue that otherwise would be allocated to that district pursuant to this article.

(b) It is the intent of the Legislature in enacting this section to confirm and clarify a county auditor's duty and authority, established by subdivision (d) of Section 57087.3 of the Government Code, to allocate to a qualifying city the ad valorem property tax revenue of a subsidiary district that has been merged with the city.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to timely clarify and confirm the right of cities to avail themselves of the existing funding sources for those public services for which those cities have assumed responsibility pursuant to mergers with local special districts, it is necessary that this act take effect immediately.

CHAPTER 212

An act to amend Section 3042 of the Penal Code, relating to prisoners.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 3042 of the Penal Code is amended to read:

3042. (a) At least 30 days before the Board of Prison Terms meets to review or consider the parole suitability or the setting of a parole date for any prisoner sentenced to a life sentence, the board shall send written notice thereof to each of the following persons: the judge of the superior court before whom the prisoner was tried and convicted, the attorney who represented the defendant at trial, the district attorney of the county in which the offense was committed, the law enforcement agency that investigated the case, and where the prisoner was convicted of the murder of a peace officer, the law enforcement agency which had employed that peace officer at the time of the murder.

(b) The Board of Prison Terms shall record all such hearings and transcribe recordings of those hearings within 30 days of any hearing. Those transcripts, including the transcripts of all prior hearings, shall be filed and maintained in the office of the Board of Prison Terms and shall be made available to the public no later than 30 days from the date of the hearing. No prisoner shall actually be released on parole prior to 60 days from the date of the hearing.

(c) At any hearing, the presiding hearing officer shall state his or her findings and supporting reasons on the record.

(d) Any statements, recommendations, or other materials considered shall be incorporated into the transcript of the hearing, unless the material is confidential in order to preserve institutional security and the security of others who might be endangered by disclosure.

(e) This section shall not apply to any hearing held to consider advancing a prisoner's parole date due to his or her conduct since his or her last hearing.

(f) (1) The written notice to the judge of the superior court before whom the prisoner was tried and convicted shall be sent by certified mail with return receipt requested.

(2) The judge receiving this written notice may forward to the parole board any unprivileged information from the trial or sentencing proceeding regarding the prisoner, witnesses, or victims, or other relevant persons, or any other information, that is pertinent to the question of whether the parole board should grant parole or under what conditions parole should be granted. The judge may also, in his or her discretion, include information given to him or her by victims, witnesses, or other persons that bear on the question of the prisoner's suitability for parole.

(3) The parole board shall review and consider all information received from the judge or any other person and shall consider adjusting the terms or conditions of parole to reflect the comments or concerns raised by this information, as appropriate.

(g) Nothing in this section shall be construed as limiting the type or content of information the judge or any other person may forward to the parole board for consideration under any other provision of law.

CHAPTER 213

An act to add Sections 19326 and 19327 to the Education Code, relating to the State Library.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 19326 is added to the Education Code, to read:

19326. (a) The State Librarian may annually award a gold medal for excellence in the humanities and science to an individual or organization for publication of a work that has enriched the collection of the State Library and enriched the state by significantly

contributing to the intellectual, cultural, and scientific knowledge of the people of the state.

(b) The award shall formally be known as the "California State Library Gold Medal for Excellence in the Humanities and Science."

(c) To assist in making the selection of a recipient of the California State Library Gold Medal for Excellence in the Humanities and Science, the State Librarian shall consult an advisory panel consisting of one representative from each of the following:

(1) The Governor.

(2) The President pro Tempore of the Senate.

(3) The Speaker of the Assembly.

(4) The Chief Justice of the California Supreme Court.

(d) The State Librarian is authorized to seek private contributions to defray the cost of awarding the California State Library Gold Medal for Excellence in the Humanities and Science and related expenses.

SEC. 2. Section 19327 is added to the Education Code, to read:

19327. (a) In order to protect and preserve valuable and irreplaceable treasures of the state, the State Librarian may enter into an operating agreement with a private, nonprofit, tax-exempt organization, currently known as the California State Library Foundation, as follows:

(1) The California State Library Foundation may be designated by the State Librarian as the only authorized provider of copies and reproductions of rare and valuable State Library materials.

(2) The California State Library Foundation may be authorized by the State Librarian to provide copies and reproductions of documents and other information found in the collection of the State Library, as requested by members of the public.

(3) The California State Library Foundation may be authorized by the State Librarian to use State Library facilities and equipment designated by the State Librarian as necessary for the California State Library Foundation to provide services to the State Library efficiently and economically.

(b) The State Librarian may establish an agreement with the California State Library Foundation to collect fees from the public for providing the services specified in subdivision (a). Fees for copying, reproduction, and other services provided by the California State Library Foundation shall be at a level consistent with the cost of providing these services.

CHAPTER 214

An act to add Section 25143.12 to the Health and Safety Code, relating to hazardous waste.

[Approved by Governor July 20, 1996. Filed with
Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 25143.12 is added to the Health and Safety Code, to read:

25143.12. Notwithstanding any other provision of law, debris that is contaminated only with petroleum or any of its fractions is exempt from regulation under this chapter if all of the following conditions are met:

(a) The debris consists exclusively of wood, paper, textile materials, concrete rubble, metallic objects, or other solid manufactured objects.

(b) The debris is not subject to regulation as a hazardous waste under the federal act.

(c) The debris does not contain any free liquids, as determined by the paint filter test specified in the regulations adopted by the department.

(d) The debris is disposed of in a composite lined portion of a waste management unit which is classified as either a Class I or Class II landfill in accordance with Article 3 (commencing with Section 2530) of Chapter 15 of Division 3 of Title 23 of the California Code of Regulations, the disposal is made in accordance with the applicable requirements of the California regional water quality control board and the California Integrated Waste Management Board, and, if the waste management unit is a Class II landfill, it is sited, designed, constructed, and operated in accordance with the minimum standards applicable on or after October 9, 1993, to new or expanded municipal solid waste landfills, which are contained in Part 258 (commencing with Section 258.1) of Subchapter I of Chapter 1 of Title 40 of the Code of Federal Regulations, as those regulations read on January 1, 1996.

CHAPTER 215

An act to amend Section 740.4 of the Public Utilities Code, relating to public utilities.

[Approved by Governor July 20, 1996. Filed with
Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 740.4 of the Public Utilities Code is amended to read:

740.4. (a) The commission shall authorize public utilities to engage in programs to encourage economic development.

(b) Reasonable expenses for economic development programs, as specified in this section, shall be allowed, to the extent of ratepayer benefit, when setting rates to be charged by public utilities electing to initiate these programs.

(c) Economic development activities may include, but not be limited to, the following:

(1) Community marketing and development.

(2) Technical assistance to support technology transfer.

(3) Market research.

(4) Site inventories.

(5) Industrial and commercial expansion and relocation assistance.

(6) Business retention and recruitment.

(7) Management assistance.

(d) This section shall not be interpreted to permit the funding of economic development activities that benefit any affiliated companies or parent holding companies beyond that which is authorized by law as of January 1, 1992.

(e) (1) This section shall not authorize the commission to establish discriminatory rates for the purpose of attracting or benefiting specific industries or business entities, except that incentives may be provided for the benefit of industries or business entities whose facilities are located within the boundaries of enterprise zones, economic incentive areas, recycling market development zones, or federal rural enterprise communities in accordance with the provisions of Chapter 12.8 (commencing with Section 7070) and Article 1 (commencing with Section 7080) of Chapter 12.9 of Division 7 of Title 1 of the Government Code, and Article 2 (commencing with Section 42145) of Chapter 3 of Part 3 of the Public Resources Code.

(2) The commission may apply the incentives authorized by this subdivision that benefit industries or business entities whose facilities are located within the boundaries of economic enterprise zones or incentive areas to attract a federal Department of Defense Finance and Accounting Service Center at the existing site of Norton Air Force Base in San Bernardino County. This paragraph shall become inoperative if the federal Department of Defense Finance and Accounting Service Center is not located upon the premises known as Norton Air Force Base in San Bernardino County and shall also become inoperative on February 1, 1994, if that facility has not been awarded to that site before that date.

(f) The commission may provide incentives pursuant to subdivision (e) to industries or business entities whose facilities are located within the boundaries of an enterprise zone that engage in activities in connection with the conversion of Fort Ord to other uses.

(g) The commission may authorize rate discounts to industries or business entities whose facilities are located or will be located within the boundaries of enterprise zones, recycling market development zones, or economic incentive areas pursuant to paragraph (1) of subdivision (e). These discounts may be applied in either of the following ways:

(1) Utilities may apply reduced monthly rates to qualifying customers' monthly utility bills.

(2) Utilities may, at the election of qualifying customers, assign the discounts to a private or public entity that returns consideration of like value to those customers, provided the customers agree to maintain their facilities in an enterprise zone, a recycling market development zone, or an economic incentive area for a minimum of five years from the date of commencement of the discount.

(h) It is the intent of the Legislature that the Public Utilities Commission, in implementing this chapter, shall allow rate recovery of expenses and rate discounts supporting economic development programs within the geographic area served by any public utility to the extent the utility incurring or proposing to incur, those expenses and rate discounts demonstrates that the ratepayers of the public utility will derive a benefit from those programs. Further, it is the intent of the Legislature that expenses for economic development programs incurred prior to the effective date of this chapter, which have not been previously authorized to be recovered in rates, shall not be subject to rate recovery.

CHAPTER 216

An act to add Section 16521.5 to the Welfare and Institutions Code, relating to foster youth.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 16521.5 is added to the Welfare and Institutions Code, to read:

16521.5. (a) A foster care provider, in consultation with the county case manager, shall be responsible for ensuring that adolescents who remain in long-term foster care, as defined by the department, receive age-appropriate pregnancy prevention information to the extent state and county resources are provided.

(b) A foster care provider, in consultation with the county case manager, shall be responsible for ensuring that a foster youth is provided with appropriate referrals to health services when the

foster youth either reaches the age of 18 or is emancipated, and to the extent county and state resources are provided.

(c) As part of the home study process, the prospective foster care provider shall notify the county if he or she objects to participating in adolescent pregnancy prevention training or the dissemination of information pursuant to subdivisions (a) and (b). A licensed foster care provider shall notify the county if he or she objects to participation. If the provider objects, the county case manager shall assume this responsibility.

(d) Subdivisions (a), (b), and (c) shall not take effect until the department, in consultation with the work group, develops guidelines that describe the duties and responsibilities of foster care providers and county case managers in delivering pregnancy prevention services and information.

(e) (1) The department, in consultation with the State Department of Health Services, shall convene a working group for the purpose of developing a pregnancy prevention plan that will effectively address the needs of adolescent male and female foster youth. The work group shall meet not more than three times and thereafter shall provide consultation to the department upon request.

(2) The working group shall include representatives from the California Youth Connection, the Foster Parent's Association, group home provider associations, the County Welfare Director's Association, providers of teen pregnancy prevention programs, a foster care case worker, an expert in pregnancy prevention curricula, a representative of the Independent Living Program, and an adolescent health professional.

(f) The plan required pursuant to subdivision (e) shall include, but not be limited to, all of the following:

(1) Effective strategies and programs for pre-teen and older teen foster youth.

(2) The role of foster care and group home care providers.

(3) The role of the assigned case management worker.

(4) How to involve foster youth peers.

(5) Selecting and providing appropriate materials to educate foster youth in family life education.

(6) The training of foster care and group home care providers and, when necessary, county case managers in adolescent pregnancy prevention.

(g) Counties currently mandating foster care provider training shall be encouraged to include the pregnancy prevention curricula guidelines and educational materials that may be developed by the work group pursuant to subdivision (f).

(h) The department shall adopt regulations to implement this section.

———

CHAPTER 217

An act to amend Section 1214.1 of the Penal Code, relating to civil assessments, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1214.1 of the Penal Code is amended to read:

1214.1. (a) In addition to any other penalty in infraction, misdemeanor, or felony cases, the court may impose a civil assessment of up to two hundred fifty dollars ($250) against any defendant who fails, after notice and without good cause, to appear in court for any proceeding authorized by law or who fails to pay all or any portion of a fine ordered by the court.

(b) The assessment shall not become effective until at least 10 calendar days after the court mails a warning notice to the defendant by first-class mail to the address shown on the notice to appear or to the defendant's last known address. If the defendant appears within the time specified in the notice and shows good cause for the failure to appear or for the failure to pay a fine, the court shall vacate the assessment.

(c) If a civil assessment is imposed under this section, no bench warrant or warrant of arrest shall be issued with respect to the failure to appear at the proceeding for which the assessment is imposed or the failure to pay the fine. An outstanding, unserved bench warrant or warrant of arrest for a failure to appear or for a failure to pay a fine shall be recalled prior to the subsequent imposition of a civil assessment.

(d) The assessment imposed under subdivision (a) shall be subject to the due process requirements governing defense and collection of civil money judgments generally.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ease the fiscal crises faced by our counties by authorizing them to collect civil assessments in infraction, misdemeanor, and felony cases, it is necessary that this act take effect immediately.

———

CHAPTER 218

An act to amend Sections 9083 and 13210 of the Elections Code, relating to elections.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 9083 of the Elections Code is amended to read:

9083. If the ballot contains a question as to the confirmation of a justice of the Supreme Court or a court of appeal, the Secretary of State shall include in the state ballot pamphlet a written explanation of the electoral procedure for justices of the Supreme Court and the courts of appeal. The explanation shall state the following:

"Under the California Constitution, justices of the Supreme Court and the courts of appeal are subject to confirmation by the voters. The public votes "yes" or "no" on whether to retain each justice.

"These judicial offices are nonpartisan.

"Before a person can become an appellate justice, the Governor must submit the candidate's name to the Judicial Nominees Evaluation Commission, which is comprised of public members and lawyers. The commission conducts a thorough review of the candidate's background and qualifications, with community input, and then forwards its evaluation of the candidate to the Governor.

"The Governor then reviews the commission's evaluation and officially nominates the candidate, whose qualifications are subject to public comment before examination and review by the Commission on Judicial Appointments. That commission consists of the Chief Justice of California, the Attorney General of California, and a senior Presiding Justice of the Courts of Appeal. The Commission on Judicial Appointments must then confirm or reject the nomination. Only if confirmed does the nominee become a justice.

"Following confirmation, the justice is sworn into office and is subject to voter approval at the next gubernatorial election, and thereafter at the conclusion of each term. The term prescribed by the California Constitution for justices of the Supreme Court and courts of appeal is 12 years. Justices are confirmed by the Commission on Judicial Appointments only until the next gubernatorial election, at which time they run for retention of the remainder of the term, if any, of their predecessor, which will be either four or eight years."

SEC. 2. Section 13210 of the Elections Code is amended to read:

13210. (a) In the case of candidates for delegate to national convention, there shall be printed in boldface gothic type, not smaller than 12-point, across the column above the names of the persons preferred by the groups of candidates for delegates, the

words, "President of the United States." The words "Vote for one group only" shall extend to the extreme right-hand margin of the column and over the voting square.

(b) In the case of candidates for President and Vice President, the words "Vote for One Party" shall appear just below the heading "President and Vice President" and shall be printed so as to appear above the voting squares for that office. The heading "President and Vice President" shall be printed in boldface 12-point gothic type, and shall be centered above the names of the candidates.

(c) In that section of the ballot designated for judicial offices, next to the heading "judicial" shall appear the instruction: "Vote yes or no for each office."

(d) In the case of candidates for Justice of the Supreme Court and court of appeal, within the rectangle provided for each candidate, and immediately above each candidate's name, there shall appear the following: "For (designation of judicial office). " There shall be as many of these headings as there are candidates for these judicial offices. No heading shall apply to more than one judicial office. Underneath each heading shall appear the words "Shall (title and name of Justice) be elected to the office for the term provided by law ?"

(e) In the case of all other candidates, each group of candidates to be voted on shall be preceded by the designation of the office for which they are running, and the words "vote for one" or "vote for no more than two," or more, according to the number to be nominated or elected. The designation of the office shall be printed flush with the left-hand margin in boldfaced gothic type not smaller than 8-point. The words, "vote for _____" shall extend to the extreme right-hand margin of the column and over the voting square. The designation of the office and the directions for voting shall be separated from the candidates by a light line. There shall be no line between the headings for federal or legislative offices and the designation of the office and the directions for voting.

SEC. 3. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 219

An act to add and repeal Section 19601.2 of the Business and Professions Code, relating to horseracing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 19601.2 is added to the Business and Professions Code, to read:

19601.2. (a) During calendar periods when the San Mateo County Fair and the Humboldt County Fair both conduct race meetings, the San Mateo County Fair shall be the association authorized to distribute the signal and accept wagers on out-of-zone races if it complies with the conditions specified in subdivision (a) of Section 19601. The amounts deducted from out-of-zone wagering shall be distributed as provided in subdivisions (b) and (d) of Section 19601, except that from license fees to be distributed pursuant to this section, the San Mateo County Fair shall retain an amount equal to three-fourths of 1 percent of the out-of-zone wagering handle and shall distribute that amount to the Humboldt County Fair not less than seven days after the close of the racing meeting.

(b) This section shall remain in effect until January 1, 1999, and as of that date is repealed unless a later enacted statute, which is enacted prior to January 1, 1999, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for this act to apply to the 1996 racing season, it is necessary that this act take effect immediately.

CHAPTER 220

An act to amend Section 832.7 of the Penal Code, relating to peace officers.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 832.7 of the Penal Code is amended to read:

832.7. (a) Peace officer personnel records and records maintained by any state or local agency pursuant to Section 832.5, or information obtained from these records, are confidential and shall not be disclosed in any criminal or civil proceeding except by discovery pursuant to Sections 1043 and 1046 of the Evidence Code. This section shall not apply to investigations or proceedings concerning the conduct of police officers or a police agency conducted by a grand jury, a district attorney's office, or the Attorney General's office.

(b) Notwithstanding subdivision (a), a department or agency shall release to the complaining party a copy of his or her own statements at the time the complaint is filed.

(c) Notwithstanding subdivision (a), a department or agency which employs peace officers may disseminate data regarding the number, type, or disposition of complaints (sustained, not sustained, exonerated, or unfounded) made against its officers if that information is in a form which does not identify the individuals involved.

(d) Notwithstanding subdivision (a), a department or agency which employs peace officers may release factual information concerning a disciplinary investigation if the peace officer who is the subject of the disciplinary investigation, or the peace officer's agent or representative, publicly makes a statement he or she knows to be false concerning the investigation or the imposition of disciplinary action. Information may not be disclosed by the peace officer's employer unless the false statement was published by an established medium of communication, such as television, radio, or a newspaper. Disclosure of factual information by the employing agency pursuant to this subdivision is limited to facts contained in the peace officer's personnel file concerning the disciplinary investigation or imposition of disciplinary action that specifically refute the false statements made public by the peace officer or his or her agent or representative.

(e) The department or agency shall provide written notification to the complaining party of the disposition of the complaint within 30 days of the disposition.

The notification described in this subdivision shall not be conclusive or binding or admissible as evidence in any separate or subsequent action or proceeding brought before an arbitrator, court, or judge of this state or the United States.

(f) Nothing in this section shall affect the discovery or disclosure of information contained in a peace officer's personnel file pursuant to Section 1043 of the Evidence Code.

———

CHAPTER 221

An act to amend Sections 33492, 33492.3, 33492.10, 33492.11, 33492.15, and 33492.87 of, to amend the heading of Chapter 4.5 (commencing with Section 33492) of Part 1 of Division 24 of, to add Sections 33492.4, 33492.16, 33492.18, and 33492.20 to, to repeal Sections 33492.17, 33492.19, 33492.21, 33492.23, 33492.25, and 33492.27 of, the Health and Safety Code, relating to redevelopment, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Chapter 4.5 (commencing with Section 33492) of Part 1 of Division 24 of the Health and Safety Code is amended to read:

CHAPTER 4.5. MILITARY BASE CONVERSION REDEVELOPMENT AGENCIES

SEC. 2. Section 33492 of the Health and Safety Code is amended to read:

33492. With enactment of this chapter, it is the intent of the Legislature to do both of the following:

(a) Provide a means of mitigating the economic and social degradation that is faced by communities the jurisdictions of which include military bases that have been ordered to be closed or realigned by the federal Base Closure Commission.

(b) Enable redevelopment agencies to place in a project area portions of a military base that were previously developed, but that cannot be utilized in their present condition because of, in whole or in part, substandard infrastructure and buildings that do not meet state building standards. It is not the intent of the Legislature to encourage redevelopment agencies to include large areas of undeveloped land within project areas.

SEC. 3. Section 33492.3 of the Health and Safety Code is amended to read:

33492.3. For any project area formed pursuant to this chapter, the project area may include all, or any portion of, property within a military base that the federal Base Closure Commission has voted to close or realign when that action has been sustained by the President and Congress of the United States, regardless of the percentage of urbanized land, as defined in Section 33320.1, within the military base. The project area may include territory outside the military base; however, all territory outside the military base included therein shall be characterized as predominantly urbanized, as that term is

defined in subdivision (b) of Section 33320.1. The procedures authorized by this chapter may be used for the redevelopment of any closed or realigned military base, but shall not constitute the exclusive method by which redevelopment may occur on these bases.

SEC. 4. Section 33492.4 is added to the Health and Safety Code, to read:

33492.4. Chapter 4 (commencing with Section 33300) shall be applicable to any project area formed pursuant to this chapter, except to the extent that Chapter 4 is inconsistent with this chapter.

SEC. 4.5. Section 33492.10 of the Health and Safety Code is amended to read:

33492.10. (a) For purposes of this chapter, a blighted area within the boundaries of a military base is an area in which the combination of two or more conditions set forth in Section 33492.11 is so prevalent and so substantial that it causes a reduction of, or lack of, proper utilization of the area to an extent that constitutes a serious physical and economic burden on the community which cannot reasonably be expected to be reversed or alleviated by private enterprise or governmental action, or both, without redevelopment.

(b) A project area adopted pursuant to this chapter may include territory outside the boundaries of the military base, as those boundaries exist on January 1, 1996; however, all territory outside the boundaries of the military base included in the project area shall be characterized by blight, as that term is defined in Sections 33030 and 33031. An area outside the boundaries of a military base may be included in the project area only upon a finding by the agency that the area is blighted and that its inclusion in the project area is necessary for effective redevelopment of the base property. The agency shall include evidence supporting this finding in the report submitted to the legislative body pursuant to Section 33352. An area outside the boundaries of a military base shall be deemed not necessary for effective redevelopment if the area is included only for the purpose of obtaining the allocation of taxes from the area pursuant to Section 33670 without other substantial justification for its inclusion.

(c) This section, as amended by the act that adds this subdivision, shall only be applicable to a redevelopment plan adopted or amended on or after the effective date of the act that adds this subdivision. A redevelopment plan adopted pursuant to this chapter prior to the effective date of the act that adds this subdivision shall be subject to this section as it was added by Chapter 944 of the Statutes of 1993.

SEC. 5. Section 33492.11 of the Health and Safety Code is amended to read:

33492.11. (a) For purposes of this chapter, this section describes conditions that cause blight:

(1) Buildings in which it is unsafe or unhealthy for persons to live or work. These conditions can be caused by serious building code

violations, dilapidation and deterioration, defective design or physical construction, faulty or inadequate infrastructure, or other similar factors.

(2) Factors that prevent or substantially hinder the economically viable reuse or capacity of buildings or areas. This condition can be caused by conditions including, but not limited to, all of the following: a substandard design; buildings that are too large or too small, given present standards and market conditions; age, obsolescence, deterioration, dilapidation, or other physical conditions, that could prevent the highest and best uses of the property. This condition can also be caused by buildings that will have to be demolished, or buildings or areas that have a lack of adequate parking.

(3) Adjacent or nearby uses that are incompatible with each other and that prevent the economic development of those parcels or other portions of the project area.

(4) Buildings on land that, when subdivided, or when infrastructure is installed, will not comply with community subdivision, zoning, or planning regulations.

(5) Properties currently served by infrastructure that does not meet existing adopted utility or community infrastructure standards.

(6) Buildings that, when built, did not conform to the then effective building, plumbing, mechanical, or electrical codes adopted by the community where the project area is located.

(7) Land that contains materials or facilities, including, but not limited to, materials for aircraft landing pads and runways, that will have to be removed to allow development.

(b) Pursuant to Section 33321, a project area need not be restricted to buildings, improvements, or lands which are detrimental or inimical to the public health, safety, or welfare, but may consist of an area where these conditions predominate and injuriously affect the entire area. A project area may include lands, buildings, or improvements which are not detrimental to the public health, safety, or welfare, but the inclusion of which is found necessary for the effective redevelopment of the area of which they are a part. Each area included under this section shall be necessary for effective redevelopment, and shall not be included for the purpose of obtaining the allocation of tax-increment revenue from the area pursuant to Section 33670 without other substantial justification for its inclusion.

(c) This section, as amended by the act that adds this subdivision, shall only be applicable to a redevelopment plan adopted or amended on or after the effective date of the act that adds this subdivision. A redevelopment plan adopted pursuant to this chapter prior to the effective date of the act that adds this subdivision shall be subject to this section as it was added by Chapter 944 of the Statutes of 1993.

SEC. 6. Section 33492.15 of the Health and Safety Code is amended to read:

33492.15. Notwithstanding any other provision of law, all of the following shall occur:

(a) The agency shall make the payments required by Section 33607.5, except that each of the time periods governing the payments shall be calculated from the date the county auditor makes the certification to the Director of Finance pursuant to Section 33492.9, instead of from the first year that the agency receives tax-increment revenue.

(b) Prior to incurring any bonded indebtedness, any agency administering a project area pursuant to this chapter may subordinate to the bonded debt the amount required to be paid to an affected school district or community college district pursuant to this section upon a finding, based upon substantial evidence, that the agency will have sufficient funds available to pay both the bonded debt payments and the payments required by this section.

SEC. 7. Section 33492.16 is added to the Health and Safety Code, to read:

33492.16. (a) Notwithstanding Section 33334.2 or any other provision of law, an agency established or governed pursuant to this chapter may annually defer the requirement to allocate 20 percent of tax increment revenue to the Low and Moderate Income Housing Fund for a period of up to five years after the date of adoption of the redevelopment plan, based upon an annual finding of the legislative body that the funds are necessary for the effective redevelopment of base property and long-term tax generation, and that the vacancy rate for housing affordable to lower income households within the jurisdiction of the members of the agency is greater than 4 percent. The vacancy rate for housing affordable to lower income households shall be established by using the vacancy rates most recently published in the annual California Department of Finance Population and Housing Estimates (Report E-5, or a successor report).

The authority and procedures for deferral of allocation of tax increment revenue which is governed by this section shall not apply to the tax increment revenues attributable to the property that is located outside the military base which is allocated to the Low- and Moderate-Income Housing Fund.

(b) The amount of the deferral, if any, shall be considered an indebtedness of the agency, and shall be paid into the Low and Moderate Income Housing Fund no later than the end of the 20th fiscal year after the date on which the agency adopts its project. If the indebtedness is not eliminated by the end of the 20th fiscal year, the county auditor or controller, no later than March 15 of the 21st year, shall withhold from the portion of tax increment to which the redevelopment agency is otherwise entitled an amount equal to the indebtedness and deposit those funds into a separate Low and Moderate Income Housing Fund for use by the agency to meet its affordable housing requirements pursuant to this part. Under no

circumstances shall this section be interpreted or applied in a manner that has the effect of reducing the tax increment payable or received by affected taxing entities pursuant to Section 33492.15.

SEC. 8. Section 33492.17 of the Health and Safety Code, as added by Chapter 944 of the Statutes of 1993, is repealed.

SEC. 9. Section 33492.18 is added to the Health and Safety Code, to read:

33492.18. (a) Notwithstanding subdivision (k) of Section 33352, the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) shall not apply to the adoption of a redevelopment plan prepared pursuant to this article if the redevelopment agency determines at a public hearing, noticed in accordance with this section, that the need to adopt a redevelopment plan at the soonest possible time in order to use the authority in this article requires the redevelopment agency to delay application of the provisions of the California Environmental Quality Act to the redevelopment plan in accordance with this section.

(b) If the redevelopment agency finds, pursuant to subdivision (a), that the application of the California Environmental Quality Act to the redevelopment plan is required to be delayed, the redevelopment agency or the community shall certify an environmental impact report for the redevelopment plan within 18 months after the effective date of the ordinance adopting the redevelopment plan. If, as a result of the preparation of the environmental document prepared pursuant to this subdivision, it is necessary to amend the redevelopment plan to mitigate any impacts, the agency shall amend the redevelopment plan according to the procedures of this part. If the environmental document is determined to be inadequate by a court of competent jurisdiction, the redevelopment agency shall not undertake additional projects that implement the redevelopment plan until an adequate environmental document has been certified. However, this determination shall not affect the validity of the redevelopment plan.

(c) Until the redevelopment agency or the community certifies an environmental impact report for the redevelopment plan, all projects, as defined in the California Environmental Quality Act, that implement the redevelopment plan shall be subject to the California Environmental Quality Act, including, but not limited to, specific plans and rezonings. The environmental document for any implementing project shall include an analysis and mitigation of potential cumulative impacts, if any, that otherwise would not be known until an environmental document for the redevelopment plan is certified or approved and shall also include a reporting or monitoring program required pursuant to Section 21081 of the Public Resources Code.

(d) The notice for the public hearing required by subdivision (a) shall comply with, and may be combined with, the notices in Section

33349 or 33361. The notice shall state that the agency intends to consider and act upon a determination that the need to adopt a redevelopment plan at the soonest possible time in order to use the authority in this article requires the redevelopment agency to delay application of the provisions of the California Environmental Quality Act to the redevelopment plan in accordance with this section.

SEC. 10. Section 33492.19 of the Health and Safety Code is repealed.

SEC. 11. Section 33492.20 is added to the Health and Safety Code, to read:

33492.20. (a) (1) The redevelopment plan for the base need not include either of the following:

(A) The information required pursuant to subdivision (d) of Section 33324, relative to the contents of the preliminary plan.

(B) The finding required pursuant to paragraph (4) of subdivision (d) of Section 33367, relative to the consistency of the redevelopment plan to the community's general plan.

(2) The agency shall not expend any tax increment funds allocated to it from the project area for expenses related to carrying out the project, unless and until the legislative bodies of all the communities included in the project area have adopted findings that the redevelopment plan is consistent with the general plan of the community, including the housing element, which substantially complies with the requirements of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code.

(b) Notwithstanding Section 33328, the report required by that section need only be as complete as the information then available permits.

(c) Notwithstanding Section 33344.5, the preliminary report required by that section need only be as complete as the information then available permits, and need not contain the information required by subdivision (c) of Section 33344.5.

(d) The report submitted by the agency to the legislative body pursuant to Section 33352, need not contain the items listed in subdivisions (h), (j), and (k) of Section 33352, as modified by subdivision (b) of this section.

(e) The ordinance adopted by the legislative body pursuant to Section 33367 need not contain the items listed in paragraphs (4) and (12) of subdivision (d) of Section 33367.

SEC. 12. Section 33492.21 of the Health and Safety Code is repealed.

SEC. 13. Section 33492.23 of the Health and Safety Code is repealed.

SEC. 14. Section 33492.25 of the Health and Safety Code is repealed.

SEC. 15. Section 33492.27 of the Health and Safety Code is repealed.

SEC. 16. Section 33492.87 of the Health and Safety Code is amended to read:

33492.87. (a) (1) Notwithstanding Section 33334.2 or any other provision of law, the agency established or governed pursuant to this article may annually defer the requirement to allocate 20 percent of tax-increment revenue to the Low and Moderate Income Housing Fund for a period of up to 5 years after the date on which the county auditor makes the certification pursuant to Section 33492.9.

(2) The agency shall not defer its allocation in any year unless it first adopts a finding based on substantial evidence that the vacancy rate for rental housing affordable to lower income households within the jurisdiction of the members of the agency is greater than 4 percent.

(3) The amount of the deferral, if any, shall be considered an indebtedness of the agency and shall be paid into the Low and Moderate Income Housing Fund no later than the end of the 10th fiscal year after the date on which the county auditor makes the certification pursuant to Section 33492.9. If the indebtedness is not eliminated by the end of the 10th fiscal year, the county auditor or controller shall, no later than March 15 of the 11th year, withhold an amount equal to the indebtedness and deposit those funds into a separate Low and Moderate Income Housing Fund for use by the redevelopment agency to meet its affordable housing requirements pursuant to this part.

(b) The agency shall not be required to replace barracks or dormitory-style housing or Arnold Heights housing that is adaptively reused, demolished, or removed within the boundaries of March Air Force Base.

SEC. 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to mitigate the very serious economic effects resulting from the closure or realignment of 29 major military bases in the State of California, it is important that the redevelopment of the lands comprising the bases be undertaken at the earliest possible time. It is, therefore, necessary that this act take effect immediately.

CHAPTER 222

An act to add Article 7 (commencing with Section 33493.1) to Chapter 4.5 of Part 1 of Division 24 of the Health and Safety Code, relating to redevelopment.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Article 7 (commencing with Section 33493.1) is added to Chapter 4.5 of Part 1 of Division 24 of the Health and Safety Code, to read:

Article 7. The Alameda Naval Air Station and the Fleet Industrial Supply Center

33493.1. With the enactment of this article, it is the intent of the Legislature to provide for precise and specific means to mitigate the very serious economic effects of the closure of the Alameda Naval Air Station and the Fleet Industrial Supply Center on the City of Alameda, surrounding cities, and the County of Alameda by facilitating the planning and implementation of the reuse and redevelopment of the lands comprising the Naval Air Station and the Fleet Industrial Supply Center located in the City of Alameda and the surrounding areas in accordance with land use plans and a redevelopment plan that are in effect prior to the disposition of lands by the federal government.

33493.2. A redevelopment plan covering all or part of the lands of the Alameda Naval Air Station and the Fleet Industrial Supply Center Redevelopment Project may be adopted pursuant to Article 1 (commencing with Section 33492), provided that the project area shall not include territory outside the boundaries of the Alameda Naval Air Station and the Fleet Industrial Supply Center.

33493.3. Notwithstanding Section 33492.9 or any other provision of law, the redevelopment agency shall make payments to affected taxing entities required by Section 33607.5.

33493.4. (a) Dwelling units, as defined, in the Alameda Naval Air Station and the Fleet Industrial Supply Center Project Area made available to a member of the Homeless Collaborative pursuant to the Base Closure Community Redevelopment and Homeless Assistance Act of 1994 (Part A of Title XXIX of Public Law 101-510; 10 U.S.C. Sec. 2687 note), and in particular Section (7) (C) through (O) thereof, and thereafter substantially rehabilitated, shall be deemed substantially rehabilitated units for purposes of determining the compliance of the Alameda Naval Air Station and the Fleet Industrial Supply Center redevelopment agency with the provisions of subdivision (b) of Section 33413.

(b) For the purposes of this section "dwelling units" means permanent or transitional residential units, and does not mean student dormitory rooms or overnight emergency shelter beds.

(c) For the purposes of this section "substantially rehabilitated" means rehabilitation, the value of which constitutes 25 percent of the after rehabilitation value of the dwelling, inclusive of land value.

SEC. 2. The Legislature finds and declares that because of the unique circumstances applicable to the City of Alameda and the

County of Alameda due to the closure of the Alameda Naval Air Station and the Fleet Industrial Supply Center, a statute of general applicability cannot be enacted within the meaning of subdivision (b) of Section 16 of Article IV of the California Constitution, and the enactment of this special statute is therefore necessary.

SEC. 3. The Legislature finds and declares that (a) the City of Alameda created a previous redevelopment area over part of the military base property that is to be closed, and (b) no redevelopment has occurred on that property.

The redevelopment agency of the City of Alameda may transfer all or part of the federal military property in the previous redevelopment area to the redevelopment area permitted under this act when forming the redevelopment project area, provided that there are no financial impacts upon the state or local taxing entities because of the transfer.

CHAPTER 223

An act to amend Section 18022 of the Financial Code, relating to industrial loan companies.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 18022 of the Financial Code is amended to read:

18022. No industrial loan company shall invest any of its funds, except as authorized in this division. Industrial loan companies may invest their funds in investments that are legal investments for commercial banks, including the capital stock, obligations, or other securities of one or more corporations, subject to rules and orders prescribed by the commissioner. Companies may also invest their funds in the choses in action issued by any other industrial loan company.

CHAPTER 224

An act to amend Sections 12807, 12808, 40509, and 40509.5 of, and to add Sections 1822 and 13365.2 to, the Vehicle Code, relating to vehicles.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1822 is added to the Vehicle Code, to read:

1822. The Legislature finds that driving under the influence of alcohol or drugs continues to be a primary safety issue on the state's highways, and the major cause of traffic deaths. It is imperative that violators who drive while under the influence of alcohol or drugs be fully prosecuted under the law. The Legislature also finds that too often violators have not had their driving records at the Department of Motor Vehicles appropriately updated. Therefore, it is the intent of the Legislature that the department, working with the courts, establish and maintain a data and monitoring system to track violations of driving under the influence of alcohol or drugs, including, but not limited to, violations of Article 1.3 (commencing with Section 23136), Article 1.5 (commencing with Section 23140), and Article 2 (commencing with Section 23152), of Chapter 12 of Division 11. The system shall match arrests for driving under the influence of alcohol or drug violations with convictions reported to the department.

SEC. 2. Section 12807 of the Vehicle Code is amended to read:

12807. The department shall not issue or renew a driver's license to any person:

(a) When a license previously issued to the person under this code has been suspended until the expiration of the period of the suspension, unless cause for suspension has been removed.

(b) When a license previously issued to the person under this code has been revoked until the expiration of one year after the date of the revocation, except where a different period of revocation is prescribed by this code, or unless the cause for revocation has been removed.

(c) When the department has received a notice pursuant to Section 40509 or 40509.5, unless the department has received a certificate as provided in those sections.

SEC. 3. Section 12808 of the Vehicle Code is amended to read:

12808. (a) The department shall, before issuing or renewing any license, check the record of the applicant for conviction of traffic violations and traffic accidents.

(b) The department shall, before issuing or renewing any license, check the record of the applicant for notices of failure to appear in court filed with it and shall withhold or shall not issue a license to any applicant who has violated his written promise to appear in court unless the department has received a certificate issued by the magistrate or clerk of the court hearing the case in which the promise was given showing that the case has been adjudicated or unless the applicant's record is cleared as provided in Chapter 6 (commencing with Section 41500) of Division 17. In lieu of the certificate of adjudication, a notice from the court stating that the original records

have been lost or destroyed shall permit the department to issue a license.

(c) (1) Any notice received by the department pursuant to Section 40509, 40509.1, or 40509.5 , except subdivision (c) of Section 40509.5, that has been on file five years may be removed from the department records and destroyed at the discretion of the department.

(2) Any notice received by the department under subdivision (c) of Section 40509.5 that has been on file 10 years may be removed from the department records and destroyed at the discretion of the department.

SEC. 4. Section 13365.2 is added to the Vehicle Code, to read:

13365.2. (a) Upon receipt of the notice required under subdivision (c) of Section 40509.5, the department shall suspend the driving privilege of the person upon whom notice was received and shall continue that suspension until receipt of the certificate required under that subdivision.

(b) The suspension required under subdivision (a) shall become effective on the 45th day after the mailing of written notice by the department.

SEC. 5. Section 40509 of the Vehicle Code is amended to read:

40509. (a) Except as required under subdivision (c) of Section 40509.5, if any person has for a period of 15 or more days violated a written promise to appear or a lawfully granted continuance of his or her promise to appear in court or before the person authorized to receive a deposit of bail, or violated an order to appear in court, including, but not limited to, a written notice to appear issued in accordance with Section 40518, the magistrate or clerk of the court may give notice of the failure to appear to the department for any violation of this code, or any violation that can be heard by a juvenile traffic hearing referee pursuant to Section 256 of the Welfare and Institutions Code, or any violation of any other statute relating to the safe operation of a vehicle, except violations not required to be reported pursuant to paragraphs (1), (2), (3), (6), (7), and (8) of subdivision (b) of Section 1803. The notice shall be given within 60 days of the failure to appear. If thereafter the case in which the promise was given is adjudicated or the person who has violated the court order appears in court or otherwise satisfies the order of the court, the magistrate or clerk of the court hearing the case shall sign and file with the department a certificate to that effect.

(b) If any person has, for a period of 15 or more days, willfully failed to pay a lawfully imposed fine within the time authorized by the court or to pay a fine pursuant to subdivision (a) of Section 42003, the magistrate or clerk of the court may give notice of the fact to the department for any violation, except violations not required to be reported pursuant to paragraphs (1), (2), (3), (6), (7), and (8) of subdivision (b) of Section 1803. If thereafter the fine is fully paid, the

magistrate or clerk of the court shall issue and file with the department a certificate showing that the fine has been paid.

(c) (1) Notwithstanding subdivisions (a) and (b), the court may notify the department of the total amount of bail, fines, assessments, and fees authorized or required by this code, including Section 40508.5, which are unpaid by any person.

(2) Once a court has established the amount of a fine and any assessments, and notified the department, the court shall not further enhance or modify that amount.

(3) This subdivision applies only to violations of this code that do not require a mandatory court appearance, are not contested by the defendant, and do not require proof of correction certified by the court.

(d) Whenever any person has for a period of 15 or more days willfully failed to obey any court order concerning a violation of this code other than failure to appear or pay a fine, the department shall suspend the person's privilege to operate a motor vehicle until compliance with the court order is shown. The magistrate or clerk of the court may give notice of any noncompliance of a court order to the department. The suspension shall not become effective until 45 days after the giving of written notice by the department to the person or until the end of any stay of suspension. However, this subdivision does not apply to court orders concerning violations enumerated in paragraphs (1), (2), (3), (6), and (7) of subdivision (b) of Section 1803.

(e) With respect to a violation of this code, this section is applicable to any court which has not elected to be subject to the notice requirements of subdivision (b) of Section 40509.5.

(f) Any violation subject to Section 40001, which is the responsibility of the owner of the vehicle, shall not be reported under this section.

SEC. 6. Section 40509.5 of the Vehicle Code is amended to read:

40509.5. (a) Except as required under subdivision (c), if, with respect to an offense described in subdivision (e), any person has, for a period of 15 or more days, violated his or her written promise to appear or a lawfully granted continuance of his or her promise to appear in court or before the person authorized to receive a deposit of bail, or violated an order to appear in court, the magistrate or clerk of the court may give notice of the failure to appear to the department for any violation of this code, any violation that can be heard by a juvenile traffic hearing referee pursuant to Section 256 of the Welfare and Institutions Code, or any violation of any other statute relating to the safe operation of a vehicle, except violations not required to be reported pursuant to paragraphs (1), (2), (3), (6), and (7) of subdivision (b) of Section 1803. The notice shall be given within 60 days of the failure to appear. If thereafter the case in which the promise was given is adjudicated or the person who has violated the court order appears in court and satisfies the order of the court,

the magistrate or clerk of the court hearing the case shall sign and file with the department a certificate to that effect.

(b) If, with respect to an offense described in subdivision (e), any person has, for a period of 15 or more days, willfully failed to pay a lawfully imposed fine within the time authorized by the court or to pay a fine pursuant to subdivision (a) of Section 42003, the magistrate or clerk of the court may give notice of the fact to the department for any violation, except violations not required to be reported pursuant to paragraphs (1), (2), (3), (6), and (7) of subdivision (b) of Section 1803. If thereafter the fine is fully paid, the magistrate or clerk of the court shall issue and file with the department a certificate showing that the fine has been paid.

(c) If any person charged with a violation of Section 23152 or 23153, or Section 191.5 of the Penal Code, or paragraph (3) of subdivision (c) of Section 192 of that code has, for a period of 15 or more days, violated a lawfully granted continuance of his or her promise to appear in court or is released from custody on his or her own recognizance and fails to appear in court or before the person authorized to receive a deposit of bail, or violated an order to appear in court, the magistrate or clerk of the court shall give notice to the department of the failure to appear. The notice shall be given within 60 days of the failure to appear. If thereafter the case in which the notice was given is adjudicated or the person who has violated the court order appears in court or otherwise satisfies the order of the court, the magistrate or clerk of the court hearing the case shall prepare and forward to the department a certificate to that effect.

(d) Except as required under subdivision (c), the court shall mail a courtesy warning notice to the defendant by first-class mail at the address shown on the notice to appear, at least 10 days before sending a notice to the department under this section.

(e) If the court notifies the department of a failure to appear or pay a fine pursuant to subdivision (a) or (b), no arrest warrant shall be issued for an alleged violation of subdivision (a) or (b) of Section 40508 or of a court order issued pursuant to subdivision (a) of Section 42003, unless one of the following criteria is met:

(1) The alleged underlying offense is a misdemeanor or felony.

(2) The alleged underlying offense is a violation of any provision of Division 12 (commencing with Section 24000), Division 13 (commencing with Section 29000), or Division 15 (commencing with Section 35000), required to be reported pursuant to Section 1803.

(3) The driver's record does not show that the defendant has a valid California driver's license.

(4) The driver's record shows an unresolved charge that the defendant is in violation of his or her written promise to appear for one or more other alleged violations of the law.

(f) Except as required under subdivision (c), in addition to the proceedings described in this section, the court may elect to notify the department pursuant to subdivision (c) of Section 40509.

(g) Whenever any person has for a period of 15 or more days willfully failed to obey any court order concerning a violation of this code other than failure to appear or pay a fine, the department shall suspend the person's privilege to operate a motor vehicle until compliance with the court order is shown. The magistrate or clerk of the court may give notice of any noncompliance of a court order to the department. The suspension shall not become effective until 45 days after the giving of written notice by the department to the person or until the end of any stay of suspension. However, this subdivision does not apply to court orders concerning violations enumerated in paragraphs (1), (2), (3), (6), and (7) of subdivision (b) of Section 1803.

(h) This section is applicable to courts which have elected to provide notice pursuant to subdivision (b). The method of commencing or terminating an election to proceed under this section shall be prescribed by the department.

(i) Any violation subject to Section 40001, which is the responsibility of the owner of the vehicle, shall not be reported under this section.

SEC. 7. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 225

An act to amend Section 18455 of the Financial Code, relating to financial institutions.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 18455 of the Financial Code is amended to read:

18455. An industrial loan company shall not, directly or indirectly, make any loan to, or purchase a contract, loan, or chose in action from, hold a lease obligation of, or purchase a lease contract from:

(a) A person who is an officer or director of the industrial loan company or of its holding or affiliated company.

(b) A person who is a holder of record or beneficiary of the shares of the industrial loan company or of any holding or affiliated company. This restriction shall not apply to persons holding less than 10 percent of the shares of a holding company or affiliate company which is exempt from the qualification requirements of the Corporate Securities Law of 1968 contained in Section 25130 of the Corporations Code, pursuant to subdivision (a) or (b) of Section 25101 of the Corporations Code.

(c) A person in which an officer or director of the industrial loan company or of any holding or affiliated company directly or indirectly is financially interested, directly or indirectly.

(d) A person in which the holder of record or beneficiary of the shares of the industrial loan company or of any holding or affiliated company directly or indirectly is financially interested, directly or indirectly. This restriction shall not apply to persons holding less than 10 percent of the shares of a holding company or affiliate company that is exempt from the qualification requirements of the Corporate Securities Law of 1968 contained in Section 25130 of the Corporations Code, pursuant to subdivision (a) or (b) of Section 25101 of the Corporations Code.

(e) A person who acquired those contracts directly or indirectly or through intervening assignments from a person described in subdivision (a), (b), (c), or (d).

Any officer, director or shareholder of an industrial loan company who directly or indirectly makes or procures or participates in making or procuring a loan or contract in violation of this section or knowingly approves the same is personally liable for any loss resulting to an industrial loan company from the loan or contract, in addition to any other penalties provided by law.

(f) The prohibition contained in this section shall not apply to the purchase by an industrial loan company of a contract, loan, or chose in action from a finance lender, as described in Section 22009, a mortgage broker, a mortgage banker, a real estate broker or other licensed lender, provided written authorization for the purchase is obtained from the commissioner.

(g) The prohibition contained in this section shall not apply to the purchase of life insurance by an industrial loan company on behalf of an officer or director as part of the officer's or director's employee benefit plan package.

CHAPTER 226

An act to amend Section 25205.14 of the Health and Safety Code, and to amend Section 43152.15 of the Revenue and Taxation Code,

relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 25205.14 of the Health and Safety Code is amended to read:

25205.14. (a) Except as provided in Section 25404.5, the owner or operator of a facility or transportable treatment unit operating pursuant to a permit-by-rule shall pay a fee to the board per facility or transportable treatment unit for each reporting period, or portion thereof. The fee for the 1996 reporting period shall be one thousand two hundred thirty-six dollars ($1,236). Thereafter, the fee shall be adjusted annually by the board to reflect increases and decreases in the cost of living, as measured by the Consumer Price Index issued by the Department of Industrial Relations or a successor agency. The owner or operator of a facility or transportable treatment unit operating pursuant to a permit-by-rule shall also pay a fee in the amount of 50 percent of the fee specified in this subdivision for each modification of the notification required by Sections 67450.2 and 67450.3 of Title 22 of the California Code of Regulations, as those sections read on January 1, 1995, or as those sections may subsequently be amended. The reporting period shall begin January 1 of each calendar year. On or before January 31 of each calendar year, the department shall notify the board of all known owners or operators operating pursuant to a permit-by-rule who are not exempted from this fee pursuant to Section 25404.5. The department shall also notify the board of any owner or operator authorized to operate pursuant to a permit-by-rule, who is not exempted from this fee pursuant to Section 25404.5, within 60 days after the owner or operator is authorized.

(b) Except as provided in Section 25404.5, a generator operating under a grant of conditional authorization pursuant to Section 25200.3 shall pay a fee to the board per facility for each reporting period, or portion thereof, unless the generator is subject to a fee under a permit-by-rule. The fee for the 1996 reporting period shall be one thousand two hundred thirty-six dollars ($1,236). Thereafter, the fee shall be adjusted annually by the board to reflect increases and decreases in the cost of living, during the prior fiscal year, as measured by the Consumer Price Index issued by the Department of Industrial Relations or a successor agency. A generator shall also pay a fee in the amount of 50 percent of the fee specified in this subdivision for each notification amendment required by subdivision (k) of Section 25200.3. The reporting period shall begin January 1 of each calendar year. On or before January 31 of each calendar year,

the department shall notify the board of all known generators operating pursuant to a grant of conditional authorization under Section 25200.3 who are not exempted from this fee pursuant to Section 25404.5. The department shall also notify the board of any generator authorized to operate under a grant of conditional authorization, who is not exempted from this fee pursuant to Section 25404.5, within 60 days of the receipt of notification.

(c) Except as provided in Section 25404.5, a generator performing treatment conditionally exempted pursuant to Section 25144.6 or subdivision (a) or (c) of Section 25201.5 shall pay one hundred dollars ($100) to the board per facility for the initial operating period, or portion thereof, and fifty dollars ($50) every reporting period thereafter, unless that generator is subject to a fee under a permit-by-rule or a conditional authorization pursuant to Section 25200.3. The reporting period shall begin January 1 of each calendar year. On or before January 31 of each calendar year, the department shall notify the board of all known facilities performing treatment conditionally exempted by Section 25144.6 or subdivision (a) or (c) of Section 25201.5 who are not exempted from this fee pursuant to Section 25404.5. The department shall also notify the board of any generator who notifies the department that the generator is conducting a conditionally exempt treatment operation, and who is not exempted from this fee pursuant to Section 25404.5, within 60 days of the receipt of the notification.

(d) The fees imposed pursuant to this section shall be paid in accordance with Part 22 (commencing with Section 43001) of Division 2 of the Revenue and Taxation Code.

SEC. 2. Section 43152.15 of the Revenue and Taxation Code is amended to read:

43152.15. (a) In addition to the requirements imposed pursuant to Sections 43152.7 and 43152.11, every generator subject to the fees specified in Sections 25205.5 and 25205.9 of the Health and Safety Code shall make a prepayment of the fee by site to the board which is due and payable on or before the last day of August of each calendar year. The prepayment shall be accompanied by a prepayment return in a form prescribed by the board.

(b) For purposes of subdivision (a), the amount of the prepayment shall be not less than either of the following:

(1) One hundred percent of the applicable fee imposed on the generator, based on the generator's fee category as specified in Section 25205.5 of the Health and Safety Code for the total volume of hazardous waste generated by site during the period January 1 to June 30, inclusive, of the current calendar year in which the prepayment is due. The prepayment may be offset by fees paid by the generator for a local hazardous waste management program conducted by a local agency pursuant to a memorandum of understanding with the department which includes the following:

(A) The local fees are paid for the current calendar year for which the prepayment is due or the local fees are paid for the preceding calendar year, if fees have not been paid for the current year.

(B) The offset is subject to the limitations and requirements specified in subdivision (c) of Section 43152.7.

(2) Fifty percent of the generator fee liability paid to the board by site for the preceding calendar year provided the generator paid a generator fee liability to the board for the preceding calendar year for that site.

(c) The board shall credit the amount of the prepayment against the amount of the fee due and payable for the calendar year in which the prepayment is due.

(d) Notwithstanding any other provision in this section, the prepayment of a generator fee shall not be required for any amount due that is less than five hundred dollars ($500), or for any other amount due if the board determines that prepayment is not in the best economic interest of the program.

(e) Any person required to make a prepayment pursuant to this section who fails to make a prepayment by the due date specified in subdivision (a) shall also pay penalties and interest in accordance with Sections 43155 and 43156.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to avoid the incurring of unnecessary administrative costs by the State Board of Equalization in 1996 in connection with the processing of returns covering prepayment of generator fee liability, and to prevent operators from paying an increased fee, it is necessary that this act take effect immediately.

CHAPTER 227

An act to amend Section 18266 of the Financial Code, relating to industrial loan companies.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 18266 of the Financial Code is amended to read:

18266. (a) Except as set forth in subdivisions (b) and (c), any loan or obligation made or acquired by an industrial loan company that has investment certificates outstanding that is secured primarily by real property and has an outstanding principal balance of ten

thousand dollars ($10,000) or more shall be secured by real property having a fair market value, or real property and personal property combined having a fair market value, at the time the loan or other obligation is made or acquired, of at least 110 percent of the principal amount owing on the loan or obligation and on prior encumbrances, except nondelinquent tax liens, secured by the same real property with regard to loans secured solely by real property, or by both real property and personal property. Fair market value of the real property for purposes of this section shall be determined by a real property appraiser who meets the qualifications established pursuant to Title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, Public Law 101-73, and any applicable regulations, guidelines, or policies thereunder.

(b) Subdivision (a) does not apply to:

(1) Any loan guaranteed in whole or in part by the Administrator of Veterans Affairs pursuant to the Servicemen's Readjustment Act of 1944 or any act of Congress supplementary or amendatory thereof.

(2) Any loan insured by the Federal Housing Administration pursuant to the National Housing Act or any act of Congress supplementary or amendatory thereof.

(c) Subject to all other provisions of subdivision (a) and any requirements the commissioner may impose by rule or order, the following loans may be secured by real property having a fair market value of less than 110 percent of the principal amount of the loan and prior encumbrances:

(1) Any loan made by an industrial loan company to facilitate the sale of real property owned by the industrial loan company resulting from foreclosure or receipt of a deed in lieu of foreclosure.

(2) Any loan renewed or modified by an industrial loan company pursuant to a clearly defined and well-documented program adopted by the board of directors of the industrial loan company to achieve orderly repayment of the loan or to maximize recovery of the loan.

(3) Any loan or obligation saleable in the secondary market. For purposes of this paragraph, "saleable in the secondary market" means saleable to a qualified institutional buyer, as evidenced by irrevocable commitments to buy by those qualified institutional buyers.

(4) Any loan or obligation owned for less than 90 days.

(d) In complying with the requirement of subdivision (a), an industrial loan company may include the principal amount of private mortgage insurance.

(e) Any loan or obligation made or acquired by an industrial loan company that has investment certificates outstanding that is secured solely by motor vehicles or other personal property shall be secured by that property having a fair market value at the time the loan or other obligation is made or acquired of at least 100 percent of the principal amount owing on the loan or obligation. The personal

property held as security shall be of a class or kind that has been declared eligible by regulation of the commissioner.

CHAPTER 228

An act to amend, repeal, and add Section 10753 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 10753 of the Revenue and Taxation Code is amended to read:

10753. (a) Upon the first sale of a new vehicle to a consumer and upon each sale of a used vehicle to a consumer, the department shall determine the market value of the vehicle on the basis of the cost price to the purchaser as evidenced by a certificate of cost, but not including California sales or use tax or any local sales, transactions, use, or other local tax. "Cost price" shall include the value of any modifications made by the seller.

(b) Notwithstanding subdivision (a), the department shall not redetermine the market value of used vehicles or modify the vehicle license fee classification of used vehicles determined pursuant to Section 10753.1 or 10753.2, when the seller is the parent, grandparent, child, grandchild, or spouse of the purchaser, and the seller is not engaged in the business of selling vehicles subject to registration under the Vehicle Code, or when a lessor, as defined in Section 372 of the Vehicle Code, transfers title and registration of a vehicle to the lessee at the expiration or termination of a lease.

(c) (1) In the event any commercial vehicle is modified or additions are made to the chassis or body at a cost of two thousand dollars ($2,000) or more, but not including any change of engine of the same type or any cost of repairs to a commercial vehicle, the owner of the commercial vehicle shall report any modification or additions to the department and the department shall classify or reclassify the commercial vehicle in its proper class as provided in Section 10753.1 or 10753.2, taking into consideration the increase in the market value of the commercial vehicle due to those modifications or additions, and any reclassification resulting in increase in market value shall be based on the cost to the consumer of those modifications or additions. In the event any vehicle is modified or altered resulting in a decrease in the market value thereof of two hundred dollars ($200) or more as reported to and determined by the department, the department shall classify or

reclassify the vehicle in its proper class as provided in Section 10753.1 or 10753.2.

(2) Paragraph (1) shall not apply to any of the following:

(A) When the cost of any modification or additions to the chassis or body of a commercial vehicle is less than two thousand dollars ($2,000).

(B) When the cost is for modifications or additions necessary to incorporate a system approved by the State Air Resources Board as meeting the emission standards set forth in subdivisions (a) and (b) of former Section 39102 and former Section 39102.5 of the Health and Safety Code as they read on December 31, 1975.

(C) When the cost is for modifications that are necessary to enable a disabled person to use or operate the vehicle.

(3) For purposes of this subdivision, "commercial vehicle" means a vehicle as defined in Section 260 of the Vehicle Code that is regulated by the Department of the Highway Patrol pursuant to Sections 2813 and 34500 of the Vehicle Code.

(d) This section is also applicable to a system specified in subdivision (c) approved by the State Air Resources Board as meeting the emission standards specified in subdivisions (a) and (b) of former Section 39102 and former Section 39102.5 of the Health and Safety Code as they read on December 31, 1975, for vehicles 6,001 pounds or less, manufacturer's gross vehicle weight, controlled to meet exhaust emission standards when sold new, when such a system is used in any vehicle over 6,001 pounds or any vehicle 6,001 pounds or less not controlled to meet exhaust emission standards.

(e) The temporary attachment of any camper, as defined in Section 243 of the Vehicle Code, to a vehicle is not a modification or addition for the purposes of subdivision (c).

(f) The attachment to a vehicle of radiotelephone equipment furnished by a telephone corporation, as defined in Section 234 of the Public Utilities Code, is not a modification or addition for the purpose of subdivision (c), when that equipment is not owned by the owner of the vehicle.

(g) This section shall remain in effect only until January 1, 2000, and as of that date is repealed.

SEC. 2. Section 10753 is added to the Revenue and Taxation Code, to read:

10753. (a) Upon the first sale of a new vehicle to a consumer and upon each sale of a used vehicle to a consumer, the department shall determine the market value of the vehicle on the basis of the cost price to the purchaser as evidenced by a certificate of cost, but not including California sales or use tax or any local sales, transactions, use, or other local tax. "Cost price" shall include the value of any modifications made by the seller.

(b) Notwithstanding subdivision (a), the department shall not redetermine the market value of used vehicles or modify the vehicle license fee classification of used vehicles determined pursuant to

Section 10753.1 or 10753.2, when the seller is the parent, grandparent, child, grandchild, or spouse of the purchaser, and the seller is not engaged in the business of selling vehicles subject to registration under the Vehicle Code, or when a lessor, as defined in Section 372 of the Vehicle Code, transfers title and registration of a vehicle to the lessee at the expiration or termination of a lease.

(c) (1) In the event any vehicle is modified or additions are made to the chassis or body at a cost of two hundred dollars ($200) or more, but not including any change of engine of the same type or any cost of repairs to a vehicle, the owner of the vehicle shall report any modification or additions to the department and the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.1 or 10753.2, taking into consideration the increase in the market value of the vehicle due to those modifications or additions, and any reclassification resulting in increase in market value shall be based on the cost to the consumer of those modifications or additions. In the event any vehicle is modified or altered resulting in a decrease in the market value thereof of two hundred dollars ($200) or more as reported to and determined by the department, the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.1 or 10753.2.

(2) Paragraph (1) shall not apply to any of the following:

(A) When the cost of any modification or additions to the chassis or body of a vehicle is less than two hundred dollars ($200).

(B) When the cost is for modifications or additions necessary to incorporate a system approved by the State Air Resources Board as meeting the emission standards set forth in subdivisions (a) and (b) of former Section 39102 and former Section 39102.5 of the Health and Safety Code as they read on December 31, 1975.

(C) When the cost is for modifications that are necessary to enable a disabled person to use or operate the vehicle.

(d) This section is also applicable to a system specified in subdivision (c) approved by the State Air Resources Board as meeting the emission standards specified in subdivisions (a) and (b) of former Section 39102 and former Section 39102.5 of the Health and Safety Code as they read on December 31, 1975, for vehicles 6,001 pounds or less, manufacturer's gross vehicle weight, controlled to meet exhaust emission standards when sold new, when such a system is used in any vehicle over 6,001 pounds or any vehicle 6,001 pounds or less not controlled to meet exhaust emission standards.

(e) The temporary attachment of any camper, as defined in Section 243 of the Vehicle Code, to a vehicle is not a modification or addition for the purposes of subdivision (c).

(f) The attachment to a vehicle of radiotelephone equipment furnished by a telephone corporation, as defined in Section 234 of the Public Utilities Code, is not a modification or addition for the purpose of subdivision (c), when that equipment is not owned by the owner of the vehicle.

(g) This section shall become operative on January 1, 2000.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 229

An act to amend and repeal Section 114350 of the Health and Safety Code, relating to agriculture.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 114350 of the Health and Safety Code is amended to read:

114350. Certified farmers' markets shall meet the provisions of Article 6 (commencing with Section 113975) and, in addition, shall meet all of the following requirements:

(a) All food shall be stored at least 15 centimeters (6 inches) off the floor or ground or under any other conditions that are approved.

(b) Food preparation is prohibited at certified farmers' markets with the exception of the food samples. Distribution of food samples is allowed provided that the following sanitary conditions exist:

(1) Samples shall be kept in approved, clean, covered containers.

(2) All food samples shall be distributed by the producer in a sanitary manner.

(3) Clean, disposable plastic gloves shall be used when cutting food samples.

(4) Food intended for sampling shall be washed, or cleaned in another manner, of any soil or other material by potable water in order that it is wholesome and safe for consumption.

(5) Potable water shall be available for hand washing and sanitizing as approved by the local enforcement agency.

(6) Potentially hazardous food samples shall be maintained at or below 45 degrees fahrenheit. All other food samples shall be disposed of within two hours after cutting.

(7) Utensil and hand washing water shall be disposed of in a facility connected to the public sewer system or in a manner approved by the local enforcement agency.

(8) Utensils and cutting surfaces shall be smooth, nonabsorbent, and easily cleaned or disposed of as approved by the local environmental health agency.

(c) Approved toilet and hand washing facilities shall be available within 60 meters (200 feet) of the premises of the certified farmers' market or as approved by the enforcement officer.

(d) No live animals, birds, or fowl shall be kept or allowed within 6 meters (20 feet) of any area where food is stored or held for sale. This subdivision does not apply to guide dogs, signal dogs, or service dogs when used in the manner specified in Section 54.1 of the Civil Code.

(e) All garbage and rubbish shall be stored, and disposed of, in a manner approved by the enforcement officer.

(f) Notwithstanding Article 11 (commencing with Section 114250), vendors selling food adjacent to and under the jurisdiction and management of a certified farmers' market may store, display, and sell from a table or display fixture apart from the vehicle, in a manner approved by the local enforcement agency.

SEC. 2. Section 114350 of the Health and Safety Code is repealed.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for certain costs that may be incurred by a local agency or school district because in that regard this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 230

An act to amend Section 2941 of the Civil Code, relating to mortgages.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 2941 of the Civil Code is amended to read:

2941. (a) Within 30 days after any mortgage has been satisfied, the mortgagee or the assignee of the mortgagee shall execute a

certificate of the discharge thereof, as provided in Section 2939, and shall record or cause to be recorded, except as provided in subdivision (c), in the office of the county recorder in which the mortgage is recorded. The mortgagee shall then deliver, upon the written request of the mortgagor or the mortgagor's heirs, successors, or assignees, as the case may be, the original note and mortgage to the person making the request.

(b) (1) When the obligation secured by any deed of trust has been satisfied, the beneficiary or the assignee of the beneficiary shall execute and deliver to the trustee the original note, deed of trust, request for a full reconveyance, and other documents as may be necessary to reconvey, or cause to be reconveyed, the deed of trust.

(A) The trustee shall execute the full reconveyance and shall record or cause it to be recorded, except as provided in subdivision (c), in the office of the county recorder in which the deed of trust is recorded within 21 calendar days after receipt by the trustee of the original note, deed of trust, request for a full reconveyance, the fee that may be charged pursuant to subdivision (e), recorder's fees, and other documents as may be necessary to reconvey, or cause to be reconveyed, the deed of trust.

(B) The trustee shall deliver a copy of the reconveyance to the beneficiary, its successor in interest, or its servicing agent, if known.

(C) Following execution and recordation of the full reconveyance, upon receipt of a written request by the trustor or the trustor's heirs, successors, or assignees, the trustee shall then deliver the original note and deed of trust to the person making that request.

(2) If the trustee has failed to execute and record, or cause to be recorded, the full reconveyance within 60 calendar days of satisfaction of the obligation, the beneficiary, upon receipt of a written request by the trustor or trustor's heirs, successor in interest, agent, or assignee, shall execute and acknowledge a document pursuant to Section 2934a substituting itself or another as trustee and issue a full reconveyance.

(3) If a full reconveyance has not been executed and recorded pursuant to either paragraph (1) or paragraph (2) within 75 calendar days of satisfaction of the obligation, then a title insurance company may prepare and record a release of the obligation. However, at least 10 days prior to the issuance and recording of a full release pursuant to this paragraph, the title insurance company shall mail by first-class mail with postage prepaid, the intention to release the obligation to the trustee, trustor, and beneficiary of record, or their successor in interest of record, at the last known address.

(A) The release shall set forth:

(i) The name of the beneficiary.

(ii) The name of the trustor.

(iii) The recording reference to the deed of trust.

(iv) A recital that the obligation secured by the deed of trust has been paid in full.

(v) The date and amount of payment.

(B) The release issued pursuant to this subdivision shall be entitled to recordation and, when recorded, shall be deemed to be the equivalent of a reconveyance of a deed of trust.

(4) Where an obligation secured by a deed of trust was paid in full prior to July 1, 1989, and no reconveyance has been issued and recorded by October 1, 1989, then a release of obligation as provided for in paragraph (3) may be issued.

(5) Paragraphs (2) and (3) do not excuse the beneficiary or the trustee from compliance with paragraph (1). Paragraph (3) does not excuse the beneficiary from compliance with paragraph (2).

(6) In addition to any other remedy provided by law, a title insurance company preparing or recording the release of the obligation shall be liable to any party for damages, including attorneys' fees, which any person may sustain by reason of the issuance and recording of the release, pursuant to paragraphs (3) and (4).

(c) The mortgagee or trustee shall not record or cause the certificate of discharge or full reconveyance to be recorded when any of the following circumstances exists:

(1) The mortgagee or trustee has received written instructions to the contrary from the mortgagor or trustor, or the owner of the land, as the case may be, or from the owner of the obligation secured by the deed of trust or his or her agent, or escrow.

(2) The certificate of discharge or full reconveyance is to be delivered to the mortgagor or trustor, or the owner of the land, as the case may be, through an escrow to which the mortgagor, trustor, or owner is a party.

(3) When the personal delivery is not for the purpose of causing recordation and when the certificate of discharge or full reconveyance is to be personally delivered with receipt acknowledged by the mortgagor or trustor or owner of the land, as the case may be, or their agent if authorized by mortgagor or trustor or owner of the land.

(d) The violation of this section shall make the violator liable to the person affected by the violation for all damages which that person may sustain by reason of the violation, and shall require that the violator forfeit to that person the sum of three hundred dollars ($300).

(e) (1) The trustee, beneficiary, or mortgagee may charge a reasonable fee to the trustor or mortgagor, or the owner of the land, as the case may be, for all services involved in the preparation, execution, and recordation of the full reconveyance, including, but not limited to, document preparation and forwarding services rendered to effect the full reconveyance, and, in addition, may collect official fees. This fee may be made payable no earlier than the opening of a bona fide escrow or no more than 60 days prior to the

full satisfaction of the obligation secured by the deed of trust or mortgage.

(2) If the fee charged pursuant to this subdivision does not exceed sixty-five dollars ($65), the fee is conclusively presumed to be reasonable.

(f) For purposes of this section, "original" may include an optically imaged reproduction when the following requirements are met:

(1) The trustee receiving the request for reconveyance and executing the reconveyance as provided in subdivision (b) is an affiliate or subsidiary of the beneficiary or an affiliate or subsidiary of the assignee of the beneficiary, respectively.

(2) The optical image storage media used to store the document shall be nonerasable write once, read many (WORM) optical image media that does not allow changes to the stored document.

(3) The optical image reproduction shall be made consistent with the minimum standards of quality approved by either the National Institute of Standards and Technology or the Association for Information and Image Management.

(4) Written authentication identifying the optical image reproduction as an unaltered copy of the note, deed of trust, or mortgage shall be stamped or printed on the optical image reproduction.

CHAPTER 231

An act to amend Section 21101.4 of the Vehicle Code, relating to vehicles.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 21101.4 of the Vehicle Code is amended to read:

21101.4. (a) A local authority may, by ordinance or resolution, adopt rules and regulations for temporarily closing to through traffic a highway under its jurisdiction when all of the following conditions are, after a public hearing, found to exist:

(1) The local authority finds and determines that there is serious and continual criminal activity in the portion of the highway recommended for temporary closure. This finding and determination shall be based upon the recommendation of the police department or, in the case of a highway in an unincorporated area, on the joint recommendation of the sheriff's department and the Department of the California Highway Patrol.

(2) The highway has not been designated as a through highway or arterial street.

(3) Vehicular or pedestrian traffic on the highway contributes to the criminal activity.

(4) The closure will not substantially adversely affect traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services, or the delivery of freight by commercial vehicles in the area of the highway proposed to be temporarily closed.

(b) A highway may be temporarily closed pursuant to subdivision (a) for not more than 18 months, except that this period may be extended for not more than five additional consecutive periods of not more than 18 months each if, prior to each of those extensions, the local authority holds a public hearing and finds, by ordinance or resolution, that all of the following conditions exist:

(1) Continuation of the temporary closure will assist in preventing the occurrence or reoccurrence of the serious and continual criminal activity found to exist when the immediately preceding temporary closure was authorized. This finding and determination shall be based upon the recommendation of the police department or, in the case of a highway in an unincorporated area, on the joint recommendation of the sheriff's department and the Department of the California Highway Patrol.

(2) The highway has not been designated as a through highway or arterial street.

(3) Vehicular or pedestrian traffic on the highway contributes to the criminal activity.

(4) The immediately preceding closure has not substantially adversely affected traffic flow, safety on the adjacent streets or in the surrounding neighborhoods, the operation of emergency vehicles, the performance of municipal or public utility services, or the delivery of freight by commercial vehicles in the area of the highway that was temporarily closed.

(c) The local authority shall mail written notice of the public hearing required under subdivision (a) or (b) to all residents and owners, as shown on the last equalized assessment roll, of property adjacent to the portion of highway where a temporary closure or extension of temporary closure is proposed.

CHAPTER 232

An act relating to coastal resources.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, the State Coastal Conservancy may, consistent with Division 21 (commencing with Section 31000) of the Public Resources Code, request the Department of General Services to retain, reserve, transfer, or convey to a public entity, nonprofit organization, or other eligible third party, any portion of, or interest in, the real property known as Cascade Ranch in San Mateo County, owned by the state and under the control and possession of the State Coastal Conservancy, if the conservancy determines that the action is appropriate to protect the natural or recreational resources of the property or of adjoining state-owned property, and that the action will not significantly interfere with the production of crops on the remaining portion of the property.

CHAPTER 233

An act to amend Section 56366.7 of the Education Code, relating to special education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 56366.7 of the Education Code is amended to read:

56366.7. (a) As a condition of certification, a nonpublic, nonsectarian school or agency shall submit, on forms developed by the superintendent in consultation with statewide organizations representing providers of special education and designated instruction and services, a list of uniform tuition fees for providing special education and designated instruction and services to individuals with exceptional needs who are served through contracts with local education agencies. The superintendent shall not certify, or shall decertify, any nonpublic nonsectarian school or agency that has not complied with this section by June 30, 1998. The superintendent shall ensure that tuition fee information is uniformly collected from nonpublic, nonsectarian schools and agencies that seek certification each year.

(b) (1) Uniform tuition fees are based on the per-day costs of providing special education and designated instruction and services to individuals with exceptional needs served in a nonpublic, nonsectarian school or agency, which costs are contained in the school or agency total operating budget that is submitted with an

application for certification and are uniformly charged by the school or agency to all contracting local education agencies.

(2) The total operating budget for purposes of providing special education services includes all costs incurred or projected to be incurred for the administration and operation of the school, including, but not limited to:

(A) Rents and leases.

(B) Principal and interest on debt service.

(C) Wages, salaries, and benefits.

(D) Supplies.

(E) Materials.

(F) Accounting, legal, medical, and psychological benefits, and other professional services.

(G) Equipment.

(H) Depreciation taken in accordance with generally accepted accounting principles.

(I) Amortization taken in accordance with generally accepted accounting principles.

(J) Insurance, or if self-insured, contributions to self-insured funds.

(K) Contributions to reserve funds maintained in accordance with generally accepted accounting principles.

(L) Licensing and regulatory fees.

(M) Advertising.

(N) Books and publications.

(O) Travel.

(P) Professional association dues.

(Q) Contractual services (for example, maintenance, gardening, and transportation).

(R) Utilities.

(S) Taxes.

(T) Training and staff development.

(U) A percentage rate of return equal to the rate of return earned in the preceding fiscal year.

(3) A uniform tuition fee is a daily fee that is comprised of the costs contained in the total operating budget divided by the total schooldays of attendance of individuals with exceptional needs.

(4) There shall be deducted from the total operating budget all expenses associated with any service that is charged as a separate service fee and not included in the uniform tuition fee. A separate service fee is a daily rate charged for a service that is not included in the uniform tuition fee and for which the school or agency charges separately, for example designated instruction and services as defined in Section 56363 or transportation. The unit of measurement for a separate service fee varies from service to service and from school to school unless otherwise required by a contract with a local education agency under subdivision (c) of Section 56366.

(c) This section shall become inoperative on June 30, 2001, and, as of January 1, 2002, is repealed, unless a later enacted statute, that becomes effective on or before January 1, 2002, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the extension of the requirement that the superintendent not certify or decertify a nonpublic, nonsectarian school or agency that does not submit the list of uniform tuition fees for services be implemented at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 234

An act to add Section 56111.12 to the Government Code, and to amend Section 99231 of the Public Utilities Code, relating to annexation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 56111.12 is added to the Government Code, to read:

56111.12. (a) Notwithstanding Section 56110, upon approval of the commission, the City of Chowchilla may annex noncontiguous territory of not more than 1,280 acres in size located in the County of Madera and which constitutes state correctional facilities. If, after completion of the annexation, the State of California sells that territory or any part thereof, all of the territory that is no longer owned by the state shall cease to be part of the City of Chowchilla.

(b) If territory is annexed pursuant to this section, the city may not annex any territory not owned by the State of California and not contiguous to the city although that territory is contiguous to the territory annexed pursuant to this section.

(c) When territory ceases to be part of the city pursuant to this section, the legislative body of the city shall adopt a resolution confirming the detachment of that territory from the city. The resolution shall describe the detached territory and shall be accompanied by a map indicating the territory. Immediately upon adoption of the resolution, the city clerk shall make any filing provided for by Chapter 8 (commencing with Section 57200) of Part 4 of Division 3.

(d) If territory annexed to the City of Chowchilla pursuant to this section becomes contiguous to the city, the limitations imposed by this section shall cease to apply.

SEC. 2. Section 99231 of the Public Utilities Code is amended to read:

99231. All operators and city or county governments with responsibility for providing municipal services to a given area collectively may file claims for only those moneys that represent that area's apportionment.

The term "apportionment" has reference to that proportion of the total annual revenue anticipated to be received in the fund that the population of the area bears to the total population of the county.

The term "area" means:

(a) With reference to a transit district, the entire area stated in its enabling legislation or franchise, excluding cities therein which have retained the right to join the district at a later time.

(b) With reference to a transit development board, the entire area stated in its enabling legislation, including the municipalities therein which operated bus systems prior to the creation of the board and subsequently conveyed those systems to the board.

(c) With reference to a county government, the unincorporated area of the county.

(d) With reference to a city government, the corporate area of the city.

(e) With reference to the City and County of San Francisco and the Counties of Alameda and Contra Costa, the unincorporated area thereof (and with reference to a city in those counties, the corporate area of the city) which is outside the area of the Alameda-Contra Costa Transit District and which is not receiving adequate local public transportation services, as determined by the Metropolitan Transportation Commission pursuant to subdivision (b) of Section 99207.

(f) Where a transit district, a transit development board, or a county or city, provides public transportation services beyond its boundaries, its area, for purposes of this section, shall also include:

(1) All of that area within one-half mile of any route which extends beyond its boundaries.

(2) All of the corporate area of a city to which it provides those services pursuant to contract or prior express authority of the secretary.

The transportation planning agency may rely, in its determination of populations, on estimates which are used by the Controller for distributing money to cities under Section 2107 of the Streets and Highways Code and to counties under Section 11005 of the Revenue and Taxation Code, and may contract with the Department of Finance or other appropriate state agency for an annual determination of those population estimates as may be necessary.

(g) With reference to the County of Riverside, the area within the jurisdiction of the transit operator established by the joint exercise of powers of one or more cities and the County of Riverside. The area within the jurisdiction of the transit operator shall be as it existed on January 1, 1981, as determined by the Riverside County Transportation Commission.

(h) With reference to the County of San Bernardino, the area within the jurisdiction of the transit operator established by the joint exercise of powers of one or more cities, including the most populous city, and the County of San Bernardino. The area within the jurisdiction of the transit operator shall be as it existed on January 1, 1985, as determined by the San Bernardino County Transportation Commission.

(i) With reference to the County of Monterey, the area including the Correctional Training Facility-Soledad even if annexed by the City of Soledad.

(j) With reference to the County of Del Norte, the area including the Pelican Bay State Prison, even if annexed by the City of Crescent City.

(k) With reference to the County of Imperial, the area including the Calipatria State Prison, even if annexed by the City of Calipatria.

(*l*) With reference to the County of Lassen, the area including the California Correctional Center, even if annexed by the City of Susanville.

(m) With reference to the County of Riverside, the area including the Chuckawalla Valley State Prison, even if annexed by the City of Blythe.

(n) With reference to the County of Imperial, the area including the California State Prison-Imperial County (South), even if annexed by either the City of El Centro or the City of Imperial.

(o) With reference to the County of Madera, the area including the Central California Women's Facility and the Valley State Prison for Women, even if annexed by the City of Chowchilla.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the annexation application for the subject state-owned prison property may be timely heard and decided and the benefits thereof be realized as soon as possible by the City of Chowchilla and the County of Madera, which benefits will help to offset the serious financial impact on those agencies caused by, among other things, the increased demand for social and other services made necessary by the location of the prison facilities in the County of Madera, it is necessary that this act take effect immediately.

———

CHAPTER 235

An act to amend Section 1596.871 of the Health and Safety Code, relating to child day care facilities.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1596.871 of the Health and Safety Code is amended to read:

1596.871. It is the intent of the Legislature in enacting this section to require the fingerprints of those individuals whose contact with child day care facility clients may pose a risk to the children's health and safety.

(a) Before issuing a license or special permit to any person to operate or manage a day care facility, the department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of a crime other than a minor traffic violation, or arrested for any crime specified in Section 290 of the Penal Code or arrested for violating Section 245, 273.5, subdivision (b) of Section 273a, or prior to January 1, 1994, paragraph (2) of Section 273a of the Penal Code, or for any crime for which the department cannot grant an exemption if the person was convicted and the person has not been exonerated. That criminal history information shall include the full criminal record, if any, of those persons. No fee shall be charged by the Department of Justice or the department for the fingerprinting of an applicant who will serve six or fewer children or any family day care applicant for a license, or for obtaining a criminal record of an applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the Department of Justice shall notify the State Department of Social Services of that fact and the application shall be denied, unless the director grants an exemption pursuant to subdivision (f). If no criminal record information has been recorded, the Department of Justice shall provide the applicant and the State Department of Social Services with a statement of that fact.

(b) In addition to the applicant, this section shall be applicable to criminal convictions of the following persons:

(1) Adults responsible for administration or direct supervision of staff.

(2) Any person, other than a child, residing in the facility.

(3) Any person who provides care and supervision to the children.

(4) Any staff person or employee who has frequent and routine contact with the children. In determining who has frequent contact,

any volunteer who is in the facility shall be exempt unless the volunteer is used to replace or supplement staff in providing direct care and supervision of children in care. In determining who has routine contact, staff and employees under direct onsite supervision and who are not providing direct care and supervision or who have only occasional or intermittent contact with clients shall be exempt.

(5) If the applicant is a firm, partnership, association, or corporation, the chief executive officer, other person serving in like capacity, or a person designated by the chief executive officer as responsible for the operation of the facility, as designated by the applicant agency.

(6) If the applicant is a local educational agency, the president of the governing board, the school district superintendent, or a person designated to administer the operation of the facility, as designated by the local educational agency.

(7) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(8) This section does not apply to adult volunteers or adult staff employed by the applicant on an intermittent basis for less than 10 days per month, provided that these adults are under constant supervision by adults who meet the requirements of this section.

(9) This section does not apply to employees of child care and development programs under contract with the State Department of Education who have completed a criminal records clearance as part of an application to the Commission on Teacher Credentialing, and who possess a current credential or permit issued by the commission, including employees of child care and development programs that serve both children subsidized under, and children not subsidized under, a State Department of Education contract. The Commission on Teacher Credentialing shall notify the department upon revocation of a current credential or permit issued to an employee of a child care and development program under contract with the State Department of Education.

(10) This section does not apply to employees of a child care and development program operated by a school district, county office of education, or community college district under contract with the State Department of Education who have completed a criminal records clearance as a condition of employment. The school district, county office of education, or community college district upon receiving information that the status of an employee's criminal record clearance has changed shall submit that information to the department.

(c) (1) Subsequent to initial licensure, any person specified in subdivision (b) and not exempted from fingerprinting shall, as a

condition to employment, residence, or presence in a child day care facility be fingerprinted and sign a declaration under penalty of perjury regarding any prior criminal conviction. The licensee shall submit these fingerprints to the Department of Justice not later than four calendar days following employment, residence, or initial presence in the child day care facility.

(2) These fingerprints shall be on a card provided by the State Department of Social Services for the purpose of obtaining a permanent set of fingerprints. Fingerprints not submitted to the Department of Justice, as required in this section, shall result in the citation of a deficiency and the fingerprints shall then be submitted to the State Department of Social Services for processing. Within 30 calendar days of the receipt of the fingerprints, the Department of Justice shall notify the State Department of Social Services of the criminal record information, as provided in this subdivision. If no criminal record information has been recorded, the Department of Justice shall provide the licensee and the State Department of Social Services with a statement of that fact within 15 calendar days of receipt of the fingerprints. If new fingerprints are required for processing, the Department of Justice shall, within 15 calendar days from the date of receipt of the fingerprints, notify the licensee that the fingerprints were illegible.

(3) Except for persons specified in paragraph (2) of subdivision (b), the licensee shall endeavor to ascertain the previous employment history of persons required to be fingerprinted under this subdivision. If it is determined by the department, on the basis of fingerprints submitted to the Department of Justice, that the person has been convicted of a sex offense against a minor, or has been convicted of an offense specified in Section 243.4, 273a, 273d, or subdivision (a) or (b) of Section 368 of the Penal Code, or has been convicted of a felony, the State Department of Social Services shall notify the licensee to act immediately to terminate the person's employment, remove the person from the child day care facility, or bar the person from entering the child day care facility. The department may subsequently grant an exemption pursuant to subdivision (f). If the conviction was for another crime except a minor traffic violation, the licensee shall, upon notification by the State Department of Social Services, act immediately to either (1) terminate the person's employment, remove the person from the child day care facility, or bar the person from entering the child day care facility; or (2) seek an exemption pursuant to subdivision (f). The department shall determine if the person shall be allowed to remain in the facility until a decision on the exemption is rendered.

(4) The department may issue an exemption on its own motion pursuant to subdivision (f) if the person's criminal history indicates that the person is of good character based on the age, seriousness, and frequency of the conviction or convictions. The department, in consultation with interested parties, shall develop regulations to

establish the criteria to grant an exemption pursuant to this paragraph.

(5) Concurrently with notifying the licensee pursuant to paragraph (3), the department shall notify the affected individual of his or her right to seek an exemption pursuant to subdivision (f). The individual may seek an exemption only if the licensee terminates the person's employment or removes the person from the facility after receiving notice from the department pursuant to paragraph (3).

(d) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to Sections 1203.4 and 1203.4a of the Penal Code permitting the person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction. For purposes of this section or any other provision of this chapter, the arrest disposition report certified by the Department of Justice, or documents admissible in a criminal action pursuant to Section 969b of the Penal Code, shall be prima facie evidence of conviction, notwithstanding any other provision of law prohibiting the admission of these documents in a civil or administrative action.

(e) The State Department of Social Services shall not use a record of arrest to deny, revoke, or terminate any application, license, employment, or residence unless the department investigates the incident and secures evidence, whether or not related to the incident of arrest, that is admissible in an administrative hearing to establish conduct by the person that may pose a risk to the health and safety of any person who is or may become a client.

(f) (1) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), or for employment, residence, or presence in a child day care facility as specified in subdivision (c) if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of good character so as to justify issuance of the license or special permit or granting an exemption for purposes of subdivision (c). However, no exemption shall be granted pursuant to this subdivision if the conviction was for an offense specified in Section 220, 243.4, or 264.1, subdivision (a) of Section 273a, or subdivision (a) of Section 290, or prior to January 1, 1994,

paragraph (1) of Section 273a or 273d, or Section 288, 289, or subdivision (a) or (b) of Section 368 of the Penal Code, or was a conviction of another crime against an individual specified in subdivision (c) of Section 667.5 of the Penal Code.

(2) The department shall not prohibit a person from being employed or having contact with clients in a facility on the basis of a denied criminal record exemption request or arrest information unless the department complies with the requirements of Section 1596.8897.

(g) Upon request of the licensee, who shall enclose a self-addressed stamped postcard for this purpose, the Department of Justice shall verify receipt of the fingerprints.

(h) (1) For the purposes of compliance with this section, the department may permit an individual to transfer a current criminal records clearance, as defined in subdivision (a), from one facility to another, as long as the criminal record clearance has been processed through a state licensing district office, and is being transferred to another state licensing district office.

(2) The State Department of Social Services shall hold criminal records clearances in its active files for a minimum of two years after an employee is no longer employed at a licensed facility in order for the criminal records clearances to be transferred.

CHAPTER 236

An act to add Section 20527.11 to the Water Code, relating to water.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 20527.11 is added to the Water Code, to read:

20527.11. The Board of Directors of the Richvale Irrigation District may adopt a resolution that authorizes persons holding title to real property within the district, or their legal representative, to vote. Holders of title need not be residents of the district in order to qualify as voters. Each eligible voter shall be entitled to cast only one vote.

(b) The last equalized county assessment roll is conclusive evidence of ownership of the real property.

(c) (1) If land is owned in joint tenancy, tenancy in common, community property, or any other multiple ownership, the owners of the land shall designate, in writing, which one of the owners is deemed the owner of the land for purposes of qualifying as a voter.

(2) The designation shall be made upon a form provided by the district, and shall be filed with the district at least 40 days prior to the

election and shall remain in effect until amended or revoked. No amendment or revocation may occur within the period of 39 days prior to any election.

(d) The district shall provide to the elections clerk a list of eligible voters pursuant to Section 10525 of the Elections Code at least 35 days prior to an election.

(e) The legal representative of a corporation or estate owning real property may vote on behalf of the corporation or estate.

(f) (1) Every voter, or his or her legal representative, may vote at any district election either in person or by a person appointed as his or her proxy.

(2) Voting by legal representatives and the appointment of a proxy shall be allowed in accordance with Sections 35005 and 35006 of the Water Code.

(g) Notwithstanding Section 21100 , any eligible voter, as specified in this section, may be a member of the Board of Directors of the Richvale Irrigation District.

(h) (1) As used in this section, "legal representative" means an official of a corporation owning real property or a guardian, conservator, executor, or administrator of the estate of the holder of title to real property who is all of the following:

(A) Appointed under the laws of this state.

(B) Entitled to the possession of the estate's real property.

(C) Authorized by the appointing court to exercise the particular right, privilege, or immunity which the legal representative seeks to exercise.

(2) As used in this section, "eligible voter" means a person who meets the requirements of Section 20527 or a person who is a holder of title to real property within the district.

(3) The Board of Directors of the Richvale Irrigation District may, not less than 120 days before the next general district election, abolish the divisions of the district for that election. The abolishment of the divisions shall be effective only for that general election, unless the question of abolishing the divisions is presented to the voters at that election and a majority of the votes cast on that question are in favor of abolishing the divisions for future elections.

(i) (1) This section shall be operative as long as the district does not provide water, drainage services, electricity, flood control services, or sewage disposal services for domestic purposes for residents of the district.

(2) (A) This section shall become inoperative if the district commences to provide any of the services described in paragraph (1).

(B) The district shall notify the Secretary of State 30 days prior to commencing to provide any of the services described in paragraph (1). The notice required by this subparagraph shall state that it is being made pursuant to this subdivision.

SEC. 2. The Legislature finds and declares that this act, which is applicable only to the Richvale Irrigation District, is necessary because the district serves only irrigation water, there are few landowners residing within the district, and it is difficult to encourage eligible persons to serve from the several divisions on the district's board. Many landowners residing outside the boundaries of the district desire to vote and to serve as board members. It is, therefore, hereby declared that a general law cannot be made applicable to the district in accordance with Section 16 of Article IV of the California Constitution, and that the enactment of this special law is necessary for the solution of problems existing within the district.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district are the result of a program for which legislative authority was requested by that local agency or school district, within the meaning of Section 17556 of the Government Code and Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 237

An act to add Section 769.55 to the Insurance Code, relating to insurance.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 769.55 is added to the Insurance Code, to read:

769.55. Notwithstanding any other provision of this code, for the purposes of Chapter 6 (commencing with Section 520) through Chapter 11 (commencing with Section 675), inclusive of Part 1 of Division 1, the obligation of an insurer to furnish any notice to its insured required by law may be carried out by an insurer's general agent, provided, however, that an insurer's delegation of a notice obligation to a general agent shall not limit or negate the insurer's responsibility or liability if the general agent fails to provide the required notice.

As used in this section, "general agent" means a licensed fire and casualty broker-agent who, pursuant to a written contract with an admitted insurer manages the transaction of one or more classes of

insurance written by the insurer and has the power to (1) appoint, supervise, and terminate local agents, (2) accept or decline risks, and (3) collect premium moneys from producing broker-agents.

Nothing in this section shall provide an exemption from Article 5.4 (commencing with Section 769.80) to any fire and casualty broker-agent who is otherwise subject to that article.

CHAPTER 238

An act to amend Sections 861 and 862 of the Food and Agricultural Code, relating to agriculture.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 861 of the Food and Agricultural Code is amended to read:

861. For lots of over 200 pounds of any fruits, nuts, or vegetables that are the food product of any tree, vine, or plant, or for lots of over 200 pounds of any burl wood from a walnut tree, living or dead, and that are marketed for commercial purposes, all of the following apply:

(a) Every person who sells the commodity shall provide the buyer or transporter with a record of proof of ownership for each lot of the commodity.

(b) Every person who buys the commodity for resale shall obtain from the previous buyer or from the transporter a record of proof of ownership for each lot of the commodity.

(c) Every person who transports for commercial purposes shall possess a record showing proof of ownership for each lot of the commodity during transportation.

SEC. 2. Section 862 of the Food and Agricultural Code is amended to read:

862. Upon probable cause to believe any fruits, nuts, vegetables, or walnut burl regulated pursuant to this chapter is in unlawful possession, proof of ownership shall be made available for inspection upon request of the secretary, the commissioner, or by any peace officer. If the secretary or the commissioner has probable cause to believe that any fruits, nuts, vegetables, or walnut burl regulated pursuant to this chapter is in unlawful possession, he or she may request a peace officer to stop the vehicle pursuant to Section 881 for inspection. The record shall contain the following information:

(a) Name, address, telephone number, and signatures of the seller or the seller's authorized representative.

(b) Name, address, and telephone number of the buyer or consignee if not sold.

(c) Common or generic name and quantity of the commodity involved.

(d) Date of transaction and date of commencement of transportation.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 239

An act to add Section 19264 to the Revenue and Taxation Code, relating to taxation.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 19264 is added to the Revenue and Taxation Code, to read:

19264. (a) Notwithstanding Sections 706.071 and 706.080 of the Code of Civil Procedure, the Franchise Tax Board shall establish a pilot program to issue earnings withholding orders for taxes and any other notice or document required to be served or provided in connection with an earnings withholding order, pursuant to Article 4 (commencing with Section 706.070) of Chapter 5 of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure, to government and private employers by magnetic media, electronic transmission, or other electronic technology. The purpose of the pilot program is to study the feasibility and cost effectiveness of the Franchise Tax Board issuing earnings withholding orders to employers using magnetic media, electronic transmission, or other electronic technology.

(b) The pilot program shall apply to any earnings withholding order for taxes and any other notice or document required to be served or provided in accordance with subdivision (a) on or after

January 1, 1997, and before January 1, 1999, to an employer who agrees to participate in the pilot program.

(c) For purposes of the pilot program, the Franchise Tax Board shall identify and work with employers who agree to be served as authorized by subdivision (a).

(d) The pilot program shall be successful if the Franchise Tax Board can demonstrate all of the following:

(1) The Franchise Tax Board's time to prepare and serve earnings withholding orders by magnetic media, electronic transmission, or other electronic technology, as authorized by subdivision (a), will be reduced by at least two days when compared to orders that would otherwise be prepared and served under Article 4 (commencing with Section 706.070) of Chapter 5 of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(2) The Franchise Tax Board's administrative cost to prepare and serve earnings withholding orders by magnetic media, electronic transmission, or other electronic technology, as authorized by subdivision (a), will be less than the cost to prepare and serve orders as specified under Article 4 (commencing with Section 706.070) of Chapter 5 of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(3) The employer's time and administrative costs to receive and comply with orders served in accordance with subdivision (a) do not exceed the time and administrative costs when compared to receiving and complying with orders served in accordance with Article 4 (commencing with Section 706.070) of Chapter 5 of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

(e) The Franchise Tax Board shall report to the Legislature on or before January 1, 1999, as to the results of the pilot program. The report shall include a cost comparison and the administrative advantages and disadvantages of preparing and serving earnings withholding orders by traditional methods and by magnetic media, electronic transmission, or other electronic technology.

(f) If the Franchise Tax Board determines that the pilot program is successful based on the criteria stated in subdivision (d), the Franchise Tax Board may continue to issue earnings withholding orders for taxes and any other notice or document required to be served or provided in connection with an earnings withholding order, pursuant to Article 4 (commencing with Section 706.070) of Chapter 5 of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure, to government and private employers who agree to accept service by magnetic media, electronic transmission, or other electronic technology.

(g) This section shall apply in the same manner and with the same force and effect and to the full extent as if this section had been incorporated in full into Article 4 (commencing with Section

706.070) of Chapter 5 of Division 2 of Title 9 of Part 2 of the Code of Civil Procedure.

CHAPTER 240

An act to amend Sections 1102.1, 1102.6, 1102.9, and 2079.16 of the Civil Code, relating to real property.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1102.1 of the Civil Code is amended to read:

1102.1. In enacting Chapter 817 of the Statutes of 1994, it was the intent of the Legislature to clarify and facilitate the use of the real estate disclosure statement, as specified in Section 1102.6. The Legislature intended the statement to be used by transferors making disclosures required under this article and by agents making disclosures required by Section 2079 on the agent's portion of the real estate disclosure statement, in transfers subject to this article. In transfers not subject to this article, agents may make required disclosures in a separate writing. The Legislature did not intend to affect the existing obligations of the parties to a real estate contract, or their agents, to disclose any fact materially affecting the value and desirability of the property, including, but not limited to, the physical conditions of the property and previously received reports of physical inspections noted on the disclosure form set forth in Section 1102.6 or 1102.6a, and that nothing in this article shall be construed to change the duty of a real estate broker or salesperson pursuant to Section 2079.

It is also the intent of the Legislature that the delivery of a real estate transfer disclosure statement may not be waived in an "as is" sale, as held in Loughrin v. Superior Court, 15 Cal. App. 4th 1188.

SEC. 2. Section 1102.6 of the Civil Code is amended to read:

1102.6. The disclosures required by this article pertaining to the property proposed to be transferred are set forth in, and shall be made on a copy of, the following disclosure form:

REAL ESTATE TRANSFER DISCLOSURE STATEMENT

THIS DISCLOSURE STATEMENT CONCERNS THE REAL PROPERTY SITUATED IN THE CITY OF _____, COUNTY OF _____, STATE OF CALIFORNIA, DESCRIBED AS _____. THIS STATEMENT IS A DISCLOSURE OF THE CONDITION OF THE ABOVE DESCRIBED PROPERTY IN COMPLIANCE WITH SECTION 1102 OF THE CIVIL CODE AS OF _____, 19___. IT IS NOT A WARRANTY OF ANY KIND BY THE SELLER(S) OR ANY AGENT(S) REPRESENTING ANY PRINCIPAL(S) IN THIS TRANSACTION, AND IS NOT A SUBSTITUTE FOR ANY INSPECTIONS OR WARRANTIES THE PRINCIPAL(S) MAY WISH TO OBTAIN.

I

COORDINATION WITH OTHER DISCLOSURE FORMS

This Real Estate Transfer Disclosure Statement is made pursuant to Section 1102 of the Civil Code. Other statutes require disclosures, depending upon the details of the particular real estate transaction (for example: special study zone and purchase-money liens on residential property).

Substituted Disclosures: The following disclosures have or will be made in connection with this real estate transfer, and are intended to satisfy the disclosure obligations on this form, where the subject matter is the same:

☐ Inspection reports completed pursuant to the contract of sale or receipt for deposit.

☐ Additional inspection reports or disclosures:

_____

SECTION 1102.3 OF THE CIVIL CODE PROVIDES A BUYER WITH THE RIGHT TO RESCIND A PURCHASE CONTRACT FOR AT LEAST THREE DAYS AFTER THE DELIVERY OF THIS DISCLOSURE IF DELIVERY OCCURS AFTER THE SIGNING OF AN OFFER TO PURCHASE. IF YOU WISH TO RESCIND THE CONTRACT, YOU MUST ACT WITHIN THE PRESCRIBED PERIOD.

A REAL ESTATE BROKER IS QUALIFIED TO ADVISE ON REAL ESTATE. IF YOU DESIRE LEGAL ADVICE, CONSULT YOUR ATTORNEY.

SEC. 3. Section 1102.9 of the Civil Code is amended to read:

1102.9. Any disclosure made pursuant to this article may be amended in writing by the transferor or his or her agent, but the amendment shall be subject to Section 1102.3.

SEC. 4. Section 2079.16 of the Civil Code is amended to read:

2079.16. The disclosure form required by Section 2079.14 shall have Sections 2079.13 to 2079.24, inclusive, excluding this section, printed on the back, and on the front of the disclosure form the following shall appear:

DISCLOSURE REGARDING
REAL ESTATE AGENCY RELATIONSHIP

(As required by the Civil Code)

When you enter into a discussion with a real estate agent regarding a real estate transaction, you should from the outset understand what type of agency relationship or representation you wish to have with the agent in the transaction.

SELLER'S AGENT

A Seller's agent under a listing agreement with the Seller acts as the agent for the Seller only. A Seller's agent or a subagent of that agent has the following affirmative obligations:

To the Seller:

A fiduciary duty of utmost care, integrity, honesty, and loyalty in dealings with the Seller.

To the Buyer and the Seller:

(a) Diligent exercise of reasonable skill and care in performance of the agent's duties.

(b) A duty of honest and fair dealing and good faith.

(c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the diligent attention and observation of, the parties.

An agent is not obligated to reveal to either party any confidential information obtained from the other party that does not involve the affirmative duties set forth above.

BUYER'S AGENT

A selling agent can, with a Buyer's consent, agree to act as agent for the Buyer only. In these situations, the agent is not the Seller's agent, even if by agreement the agent may receive compensation for services rendered, either in full or in part from the Seller. An agent acting only for a Buyer has the following affirmative obligations:

To the Buyer:

A fiduciary duty of utmost care, integrity, honesty, and loyalty in dealings with the Buyer.

To the Buyer and the Seller:

(a) Diligent exercise of reasonable skill and care in performance of the agent's duties.

(b) A duty of honest and fair dealing and good faith.

(c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the diligent attention and observation of, the parties. An agent is not obligated to reveal to either party any confidential information obtained from the other party that does not involve the affirmative duties set forth above.

AGENT REPRESENTING BOTH SELLER AND BUYER

A real estate agent, either acting directly or through one or more associate licensees, can legally be the agent of both the Seller and the Buyer in a transaction, but only with the knowledge and consent of both the Seller and the Buyer.

In a dual agency situation, the agent has the following affirmative obligations to both the Seller and the Buyer:

(a) A fiduciary duty of utmost care, integrity, honesty and loyalty in the dealings with either the Seller or the Buyer.

(b) Other duties to the Seller and the Buyer as stated above in their respective sections.

In representing both Seller and Buyer, the agent may not, without the express permission of the respective party, disclose to the other party that the Seller will accept a price less than the listing price or that the Buyer will pay a price greater than the price offered.

The above duties of the agent in a real estate transaction do not relieve a Seller or Buyer from the responsibility to protect his or her own interests. You should carefully read all agreements to assure that they adequately express your understanding of the transaction. A real estate agent is a person qualified to advise about real estate. If legal or tax advice is desired, consult a competent professional.

Throughout your real property transaction you may receive more than one disclosure form, depending upon the number of agents assisting in the transaction. The law requires each agent with whom you have more than a casual relationship to present you with this disclosure form. You should read its contents each time it is presented to you, considering the relationship between you and the real estate agent in your specific transaction.

This disclosure form includes the provisions of Sections 2079.13 to 2079.24, inclusive, of the Civil Code set forth on the reverse hereof. Read it carefully.

Agent (date)	Buyer/Seller (date) (Signature)
Associate Licensee (date) (Signature)	Buyer/Seller (date) (Signature)

CHAPTER 241

An act to amend Sections 42803, 42804, 42807, 42809, and 42815 of the Food and Agricultural Code, relating to agriculture.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 42803 of the Food and Agricultural Code is amended to read:

42803. (a) Commencing on January 1, 1997, and until March 31, 1997, producers of commodities subject to this article may file a petition with the secretary requesting that the commodity be exempted from this article.

(b) Upon a finding by the secretary that the petition represents not less than 51 percent of the producers of the commodity who produce not less than 51 percent of the total quantity of the commodity marketed in the preceding marketing season, the secretary shall do all of the following:

(1) Declare the commodity exempt from this article.

(2) Immediately repeal all regulations pertaining to the commodity adopted by the secretary pursuant to this division.

(3) Make a determination concerning a refund of any assessments collected pursuant to this article.

(c) Commodity exemptions granted pursuant to this section shall be effective immediately on the date of the finding specified in subdivision (b).

SEC. 2. Section 42804 of the Food and Agricultural Code is amended to read:

42804. (a) On and after March 31, 1997, the secretary shall exempt any commodity subject to this article and repeal all regulations pertaining to the commodity adopted by the secretary pursuant to this division if:

(1) A written petition requesting exemption is filed with the secretary during the period commencing July 1 and ending December 31 of any year.

(2) The secretary finds that the petition represents not less than 51 percent of the producers directly affected who have produced not less than 51 percent of the total quantity of the commodity marketed in the preceding marketing season.

(3) The petition, prior to being submitted to the secretary, was circulated among the producers directly affected for a period not exceeding 90 days and was on a form approved by the secretary.

(b) Exemptions granted under this section shall be effective on July 1 following the year in which the petition is filed with the secretary.

(c) Any costs incurred by the department in processing any petition for exemption filed pursuant to this section shall be borne by the producers representing the commodity for which the petition is filed.

(d) This section also applies to producers of any commodity who request the secretary to rescind a previously granted exemption.

(e) All producers directly affected by this section shall provide the following information to the secretary upon filing of the written petition requesting exemption:

(1) The correct name and address of each producer or handler.

(2) The quantity of each commodity produced by the producer during the previous marketing season.

(f) The secretary also may require handlers of commodities subject to this article to report quantities received from each producer in the previous season.

(g) Any determination of compliance with this section may be based upon information provided by producers or handlers of commodities subject to this article. Failure or refusal to provide that information within the specified time does not invalidate the secretary's findings.

SEC. 3. Section 42807 of the Food and Agricultural Code is amended to read:

42807. Notwithstanding Section 42806, on January 1, 1997, and thereafter until altered, rescinded, or eliminated, the assessment rate for those commodities that are not otherwise subject to a mandatory inspection fee shall be three mills ($0.003) per container and the assessment rate for those commodities that are otherwise subject to a mandatory inspection fee shall be one mill ($0.001) per container.

SEC. 4. Section 42809 of the Food and Agricultural Code is amended to read:

42809. (a) The secretary shall appoint a committee pursuant to subdivision (b) to provide recommendations and advice on all matters pertaining to the implementation and enforcement of this division.

(b) The committee shall be composed of 13 voting members who have a financial interest, either personal or through their employment, in a commodity represented. The secretary shall

appoint the members of the committee from a list of nominees provided by the commodity groups subject to this article, as follows:

(1) Four members shall be appointed from the fresh fruit commodity group consisting of oranges, other citrus fruits, strawberries, and table grapes.

(2) Two members shall be appointed to represent other fresh fruit commodities.

(3) Four members shall be appointed from the fresh vegetable commodity group consisting of broccoli, tomatoes, and lettuce.

(4) Two members shall be appointed to represent other vegetable commodity groups.

(5) One member shall be appointed from other commodity groups subject to this article.

(6) A county agricultural commissioner may be appointed by the secretary as a nonvoting member.

(c) The committee shall meet at the request of the secretary, the committee chairperson, or upon the request of four committee members.

(d) Any committee member who represents a commodity that has been exempted from the application of this article shall be replaced with a member chosen to maintain the balance between the commodity groups.

(e) The committee shall appoint its own officers, including a chairperson, one or more vice chairpersons, and any other officers it deems necessary.

(f) Committee members may participate in meetings of the committee by means of telephone conference calls.

SEC. 5. Section 42815 of the Food and Agricultural Code is amended to read:

42815. This article shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, which becomes effective on or before January 1, 2000, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

———

CHAPTER 242

An act to add Section 6301.1 to the Business and Professions Code, relating to law libraries.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 6301.1 is added to the Business and Professions Code, to read:

6301.1. Notwithstanding Section 6301, in San Diego County the board of law library trustees shall be constituted, as follows:

(a) Two judges of the superior court, to be elected by and from judges in the San Diego County Judicial District. Each superior court judge so elected shall serve a three-year term.

(b) Two judges from the municipal courts of the county. The courts may, by joint agreement, determine the pattern of representation on the board. Each municipal court judge so elected shall serve a three-year term.

(c) The board of supervisors shall appoint three attorneys resident in the county to the board of law library trustees, to serve overlapping three-year terms. In order to stagger the three appointments, the board of supervisors shall, in January of 1997, appoint one attorney to a one-year term, one attorney to a two-year term, and one attorney to a three-year term; and as each term expires, the new appointee shall thereafter serve three-year terms. At least one attorney appointed pursuant to this subdivision shall be a member of the San Diego Bar Association.

(d) In the event a trustee cannot serve a full term, the appointing authority for that individual shall appoint another qualified person to complete that term. Interim appointments may be made by the board of law library trustees in accordance with Section 6305.

CHAPTER 243

An act to amend Sections 36621, 36622, 36631, and 36634 of the Streets and Highways Code, relating to improvement assessment districts.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 36621 of the Streets and Highways Code is amended to read:

36621. (a) Upon the submission of a written petition, signed by the property owners in the proposed district who will pay more than 50 percent of the assessments proposed to be levied, the city council may initiate proceedings to form a district by the adoption of a resolution expressing its intention to form a district. The amount of assessment attributable to property owned by the same property owner which is in excess of 40 percent of the amount of all assessments proposed to be levied, shall not be included in determining whether the petition is signed by property owners who will pay more than 50 percent of the total amount of assessments proposed to be levied.

(b) The petition of property owners required under subdivision (a) shall include a summary of the management district plan. That summary shall include all of the following:

(1) A map showing the boundaries of the district.

(2) Information specifying where the complete management district plan can be obtained.

(3) Information specifying that the complete management district plan shall be furnished upon request.

(c) The resolution of intention described in subdivision (a) shall contain all of the following:

(1) The management district plan.

(2) A time and place for a public hearing on the establishment of the property and business improvement district and the levy of assessments, which shall not be held more than 60 days after the adoption of the resolution of intention.

SEC. 2. Section 36622 of the Streets and Highways Code is amended to read:

36622. The management district plan shall contain all of the following:

(a) A map of the district in sufficient detail to locate each parcel of property within the district.

(b) The name of the proposed district.

(c) A description of the boundaries of the district, including the boundaries of any benefit zones, proposed for establishment or extension in a manner sufficient to identify the lands included. Under no circumstances shall the boundaries of a proposed district overlap with the boundaries of another existing district created pursuant to this part. Nothing in this part prohibits the boundaries of a district created pursuant to this part to overlap with other assessment districts established pursuant to other provisions of law including, but not limited to, the Parking and Business Improvement Area Law of 1989.

(d) The improvements and activities proposed for each year of operation of the district and the maximum cost thereof.

(e) The total annual amount proposed to be expended for improvements, maintenance and operations in each year of operation of the district.

(f) The proposed source or sources of financing including the proposed method and basis of levying the assessment in sufficient detail to allow each property owner to calculate the amount of the assessment to be levied against his of her property.

(g) The time and manner of collecting the assessments.

(h) The specific number of years, to a maximum of five, in which assessments will be levied. The management district plan may set forth specific increases in assessments for each year of operation of the district.

(i) The proposed time for implementation and completion of the management district plan.

(j) Any proposed rules and regulations to be applicable to the district.

(k) A list of the properties to be assessed, including the assessor's parcel numbers, and a statement of the method or methods by which the expenses of a district will be imposed upon benefited real property, in proportion to the benefit received by the property, to defray the cost thereof, including operation and maintenance. The plan may provide that all or any class or category of real property which is exempt by law from real property taxation may nevertheless be included within the boundaries of the district but shall not be subject to the assessment.

(*l*) Any other item or matter required to be incorporated therein by the city council.

SEC. 3. Section 36631 of the Streets and Highways Code is amended to read:

36631. (a) Before adopting a resolution establishing the district, the city council shall appoint an advisory board which shall make a recommendation to the city council on the expenditure of revenues derived from the levy of assessments pursuant to this part, on the classification of properties, as applicable, and on the method and basis of levying the assessments. The city council may designate existing advisory boards or commissions to serve as the advisory board for the district or may create a new advisory board for that purpose. At least one member of the advisory board shall be a business licensee within the district who is not also a property owner within the district.

(b) Any advisory board appointed by the city council pursuant to subdivision (a) shall comply with the provisions of the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code).

SEC. 4. Section 36634 of the Streets and Highways Code is amended to read:

36634. (a) The assessments levied on real property pursuant to this part shall be levied on the basis of the estimated benefit to the real property within the property and business improvement district. The city council may classify properties for purposes of determining the benefit to property of the improvements and activities provided pursuant to this part.

(b) Properties zoned solely for residential use, or that are zoned for agricultural use, are conclusively presumed not to benefit from the improvements and service funded through these assessments, and shall not be subject to any assessment pursuant to this part.

CHAPTER 244

An act to amend Section 20221 of the Public Contract Code, relating to public transit.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 20221 of the Public Contract Code is amended to read:

20221. (a) The purchase of all supplies, equipment, and materials when the expenditure required exceeds twenty-five thousand dollars ($25,000), and the construction of facilities and works when the expenditure required exceeds ten thousand dollars ($10,000), shall be by contract let to the lowest responsible bidder. Notice requesting bids shall be published at least once in a newspaper of general circulation. This publication shall be made at least 10 days before the bids are received. The board may reject any and all bids and readvertise in its discretion.

(b) Whenever the expected procurement required exceeds two thousand five hundred dollars ($2,500) and, in the case of the construction of facilities and works does not exceed ten thousand dollars ($10,000) or in the case of the purchase of supplies, equipment, or materials does not exceed twenty-five thousand dollars ($25,000), the district shall obtain a minimum of three quotations, either written or oral, that permit prices and terms to be compared.

(c) Where the expenditure required by the bid price is less than one hundred thousand dollars ($100,000), the general manager may act for the board. When acting pursuant to this subdivision, the general manager shall, in each instance, promptly notify the board of the action taken.

CHAPTER 245

An act to amend Section 1250.2 of the Health and Safety Code, and to amend Sections 4080 and 6003.1 of the Welfare and Institutions Code, relating to mental health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1250.2 of the Health and Safety Code is amended to read:

1250.2. (a) As defined in Section 1250, "health facility" includes the following type: "psychiatric health facility" means a health facility, licensed by the State Department of Mental Health, which provides 24-hour inpatient care for mentally disordered, incompetent, or other persons described in Division 5 (commencing with Section 5000) or Division 6 (commencing with Section 6000) of the Welfare and Institutions Code. This care shall include, but not be limited to, the following basic services: psychiatry, clinical psychology, psychiatric nursing, social work, rehabilitation, drug administration, and appropriate food services for those persons whose physical health needs can be met in an affiliated hospital or in outpatient settings.

It is the intent of the Legislature that the psychiatric health facility shall provide a distinct type of service to psychiatric patients in a 24-hour acute inpatient setting. The State Department of Mental Health shall require regular utilization reviews of admission and discharge criteria and lengths of stays in order to assure that these patients are moved to less restrictive levels of care as soon as appropriate.

(b) The State Department of Mental Health may issue a special permit to a psychiatric health facility for it to provide structured outpatient services (commonly referred to as SOPS) consisting of morning, afternoon, or full daytime organized programs, not exceeding 10 hours, for acute daytime care for patients admitted to the facility. This subdivision shall not be construed as requiring a psychiatric health facility to apply for a special permit to provide these alternative levels of care.

The Legislature recognizes that with access to structured outpatient services, as an alternative to 24-hour inpatient care, certain patients would be provided with effective intervention and less restrictive levels of care. The Legislature further recognizes that certain patients, the less restrictive levels of care eliminate the need for inpatient care, enable earlier discharge from inpatient care by providing a continuum of care with effective aftercare services, or

reduce or prevent the need for a subsequent readmission to inpatient care.

(c) Any reference in any statute to Section 1250 shall be deemed and construed to also be a reference to this section.

(d) Notwithstanding any other provision of law, and to the extent consistent with federal law, a psychiatric health facility shall be eligible to participate in the medicare program under Title XVIII of the federal Social Security Act (42 U.S.C. Sec. 1395 et seq.), and the medicaid program under Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396 et seq.), if all of the following conditions are met:

(1) The facility is a licensed facility.

(2) The facility is in compliance with all related statutes and regulations enforced by the State Department of Mental Health, including regulations contained in Chapter 9 (commencing with Section 77001) of Division 5 of Title 22 of the California Code of Regulations.

(3) The facility meets the definitions and requirements contained in subdivisions (e) and (f) of Sections 1861 of the federal Social Security Act (42 U.S.C. Sec. 1395x (e) and (f)) including the approval process specified in Section 1861(e)(7)(B) of the Social Security Act (42 U.S.C. 1395x(e)(7)(B)), which requires that the state agency responsible for licensing hospitals has assured that the facility meets licensing requirements.

(4) The facility meets the conditions of participation for hospitals pursuant to Part 482 of Title 42 of the Code of Federal Regulations.

SEC. 2. Section 4080 of the Welfare and Institutions Code is amended to read:

4080. (a) Psychiatric health facilities, as defined in Section 1250.2 of the Health and Safety Code, shall only be licensed by the State Department of Mental Health subsequent to application by counties, county contract providers, or other organizations pursuant to this part.

(b) (1) For counties or county contract providers that choose to apply, the local mental health director shall first present to the local mental health advisory board, for its review an explanation, of the need for the facility and a description of the services to be provided. The local mental health director shall then submit to the governing body the explanation and description. The governing body may submit the application to the State Department of Mental Health.

(2) Other organizations that will be applying for licensure and do not intend to use any Bronzan-McCorquodale funds pursuant to Section 5707 shall submit to the local mental health director and the governing body in the county in which the facility is to be located a written and dated proposal of the services to be provided. The local mental health director and the governing body shall have 30 days during which to provide any advice and recommendations regarding licensure, as they deem appropriate. At any time after the 30-day period, the organizations may then submit their applications, along

with the mental health director's and governing body's advice and recommendations, if any, to the State Department of Mental Health.

(c) The State Fire Marshal and other appropriate state agencies, to the extent required by law, shall cooperate fully with the State Department of Mental Health to ensure that the State Department of Mental Health approves or disapproves the licensure applications not later than 90 days after the application submission by a county, county contract provider, or other organization.

(d) Every psychiatric health facility and program for which a license has been issued shall be periodically inspected by a multidisciplinary team appointed or designated by the State Department of Mental Health. The inspection shall be conducted no less than once every two years and as often as necessary to ensure the quality of care provided. During the inspections the review team shall offer such advice and assistance to the psychiatric health facility as it deems appropriate.

(e) (1) The program aspects of a psychiatric health facility that shall be reviewed and may be approved by the State Department of Mental Health shall include, but not be limited to:

(A) Activities programs.
(B) Administrative policies and procedures.
(C) Admissions, including provisions for a mental evaluation.
(D) Discharge planning.
(E) Health records content.
(F) Health records services.
(G) Interdisciplinary treatment teams.
(H) Nursing services.
(I) Patient rights.
(J) Pharmaceutical services.
(K) Program space requirements.
(L) Psychiatrist and clinical psychological services.
(M) Rehabilitation services.
(N) Restraint and seclusion.
(O) Social work services.
(P) Space, supplies, and equipment.
(Q) Staffing standards.
(R) Unusual occurrences.
(S) Use of outside resources, including agreements with general acute care hospitals.
(T) Linguistic access and cultural competence.
(U) Structured outpatient services to be provided under special permit.

(2) The State Department of Mental Health has the sole authority to grant program flexibility.

(f) The State Department of Mental Health shall adopt regulations that shall include, but not be limited to, all of the following:

(1) Procedures by which the State Department of Mental Health shall review and may approve the program and facility requesting licensure as a psychiatric health facility as being in compliance with program standards established by the department.

(2) Procedures by which the Director of Mental Health shall approve, or deny approval of, the program and facility licensed as a psychiatric health facility pursuant to this section.

(3) Provisions for site visits by the State Department of Mental Health for the purpose of reviewing a facility's compliance with program and facility standards.

(4) Provisions for the State Department of Mental Health for any administrative proceeding regarding denial, suspension, or revocation of a psychiatric health facility license.

(g) Regulations shall be adopted by the State Department of Mental Health, which shall establish standards for pharmaceutical services in psychiatric health facilities. Licensed psychiatric health facilities shall be exempt from requirements to obtain a separate pharmacy license or permit.

(h) (1) It is the intent of the Legislature that the State Department of Mental Health shall license the facility in order to establish innovative and more competitive and specialized acute care services.

(2) The State Department of Mental Health shall review and may approve the program aspects of public or private facilities, with the exception of those facilities that are federally certified or accredited by a nationally recognized commission that accredits health care facilities, only if the average per diem charges or costs of service provided in the facility is approximately 60 percent of the average per diem charges or costs of similar psychiatric services provided in a general hospital.

(3) (A) When a private facility is accredited by a nationally recognized commission that accredits health care facilities, the department shall review and may approve the program aspects only if the average per diem charges or costs of service provided in the facility do not exceed approximately 75 percent of the average per diem charges or costs of similar psychiatric service provided in a psychiatric or general hospital.

(B) When a private facility serves county patients, the department shall review and may approve the program aspects only if the facility is federally certified by the Health Care Financing Administration and serves a population mix that includes a proportion of Medi-Cal patients sufficient to project an overall cost savings to the county, and the average per diem charges or costs of service provided in the facility do not exceed approximately 75 percent of the average per diem charges or costs of similar psychiatric service provided in a psychiatric or general hospital.

(4) When a public facility is federally certified by the Health Care Financing Administration and serves a population mix that includes

a proportion of Medi-Cal patients sufficient to project an overall program cost savings with certification, the department shall approve the program aspects only if the average per diem charges or costs of service provided in the facility do not exceed approximately 75 percent of the average per diem charges or costs of similar psychiatric service provided in a psychiatric or general hospital.

(5) (A) The State Department of Mental Health may set a lower rate for private or public facilities than that required by paragraph (3) or paragraph (4), respectively, if so required by the federal Health Care Financing Administration as a condition for the receipt of federal matching funds.

(B) This section shall not impose any obligation on any private facility to contract with a county for the provision of services to Medi-Cal beneficiaries, and any contract for that purpose shall be subject to the agreement of the participating facility.

(6) (A) In using the guidelines specified in this subdivision, the department shall take into account local conditions affecting the costs or charges.

(B) In those psychiatric health facilities authorized by special permit to offer structured outpatient services not exceeding 10 daytime hours, the following limits on per diem rates shall apply:

(i) The per diem charge for patients in both a morning and an afternoon program on the same day shall not exceed 60 percent of the facility's authorized per diem charge for inpatient services.

(ii) The per diem charge for patients in either a morning or afternoon program shall not exceed 30 percent of the facility's authorized per diem charge for inpatient services.

(i) The licensing fees charged for these facilities shall be credited to the State Department of Mental Health for its costs incurred in the review of psychiatric health facility programs, in connection with the licensing of these facilities.

(j) Proposed changes in the standards or regulations affecting health facilities that serve the mentally disordered shall be effected only with the review and coordination of the Health and Welfare Agency.

(k) In psychiatric health facilities where the clinical director is not a physician or a psychiatrist, or if one is temporarily not available, a physician shall be designated who shall direct those medical treatments and services that can only be provided by, or under the direction of, a physician.

SEC. 3. Section 6003.1 of the Welfare and Institutions Code is amended to read:

6003.1. As used in this article, county psychiatric health facility means a 24-hour acute care facility provided by the county pursuant to the provisions in Sections 5404 and 7100.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning

of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to preserve the federal financial participation in the Medi-Cal and medicare services provided by federally certified psychiatric health facilities in Humboldt, Shasta, and Santa Barbara Counties and to enable federal certification and financial participation in Medi-Cal and medicare services at psychiatric health facilities in Los Angeles, Solano, and Riverside Counties, as well as other counties, it is necessary that this act take effect immediately.

CHAPTER 246

An act to add Section 5080.36.1 to the Public Resources Code, relating to parks and recreation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 5080.36.1 is added to the Public Resources Code, to read:

5080.36.1. (a) The Legislature hereby finds and declares that the department and the City of Malibu are in the process of entering into an operating agreement for the purpose of negotiating a concession contract that would require the City of Malibu to repair and refurbish, and operate, the Malibu Pier, and that the standard 20-year term is insufficient to enable the City of Malibu to amortize the type and scale of repairs and improvements that the department will require the City of Malibu to make.

(b) The department and the City of Malibu may enter into an operating agreement for the repair, refurbishment, and operation of the Malibu Pier for a period not to exceed 30 years if the operating agreement also requires the rent to be reviewed and adjusted at least every five years to reflect economic conditions in the area in which the pier is located.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make repairs necessary to eliminate a threat to public safety, as soon as possible, thereby preventing the closure of, and ensuring the continued operation of, the Malibu Pier, it is necessary that this act take effect immediately.

CHAPTER 247

An act to add Section 1531.1 to the Health and Safety Code, relating to community care facilities.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1531.1 is added to the Health and Safety Code, to read:

1531.1. (a) A residential facility licensed as an adult residential facility, group home, small family home, foster family home, or a family home certified by a foster family agency may install and utilize delayed egress devices of the time delay type.

(b) As used in this section, "delayed egress device" means a device that precludes the use of exits for a predetermined period of time. These devices shall not delay any resident's departure from the facility for longer than 30 seconds.

(c) Within the 30 seconds of delay, facility staff may attempt to redirect a resident who attempts to leave the facility.

(d) Any person accepted by a residential facility or family home certified by a foster family agency utilizing delayed egress devices shall meet all of the following conditions:

(1) The person shall have a developmental disability as defined in Section 4512 of the Welfare and Institutions Code.

(2) The person shall be receiving services and case management from a regional center under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code.

(3) An interdisciplinary team, through the Individual Program Plan (IPP) process pursuant to Section 4646.5 of the Welfare and Institutions Code, shall have determined that the person lacks hazard awareness or impulse control and requires the level of supervision afforded by a facility equipped with delayed egress devices, and that but for this placement, the person would be at risk of admission to, or would have no option but to remain in, a more restrictive state hospital or state developmental center placement.

(e) The facility shall be subject to all fire and building codes, regulations, and standards applicable to residential care facilities for the elderly utilizing delayed egress devices, and shall receive approval by the county or city fire department, the local fire prevention district, or the State Fire Marshal for the installed delayed egress devices.

(f) The facility shall provide staff training regarding the use and operation of the egress control devices utilized by the facility,

protection of residents' personal rights, lack of hazard awareness and impulse control behavior, and emergency evacuation procedures.

(g) The facility shall develop a plan of operation approved by the State Department of Social Services that includes a description of how the facility is to be equipped with egress control devices that are consistent with regulations adopted by the State Fire Marshal pursuant to Section 13143 of the Health and Safety Code.

(h) The plan shall include, but shall not be limited to, all of the following:

(1) A description of how the facility will provide training for staff regarding the use and operation of the egress control devices utilized by the facility.

(2) A description of how the facility will ensure the protection of the residents' personal rights consistent with Sections 4502, 4503, and 4504 of the Welfare and Institutions Code.

(3) A description of how the facility will manage the person's lack of hazard awareness and impulse control behavior.

(4) A description of the facility's emergency evacuation procedures.

(i) Delayed egress devices shall not substitute for adequate staff. The capacity of the facility shall not exceed six residents.

(j) Emergency fire and earthquake drills shall be conducted at least once every three months on each shift, and shall include all facility staff providing resident care and supervision on each shift.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for certain costs that may be incurred by a local agency or school district because in that regard this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 248

An act to repeal Section 12414 of the Government Code and to amend Section 38905.1 of the Revenue and Taxation Code, relating to the Controller.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 12414 of the Government Code is repealed.

SEC. 2. Section 38905.1 of the Revenue and Taxation Code is amended to read:

38905.1. (a) Commencing with the 1983–84 fiscal year, the Controller shall, pursuant to subdivision (c) of Section 38904, on November 30 and May 31 of each fiscal year, transmit to county treasurers the balance that existed in the Timber Tax Fund on the preceding November 10 or May 10, respectively, in accordance with the following allocation schedule:

(1) For the 1983–84 fiscal year, 50 percent of the balance in Timber Tax Fund shall be transmitted to county treasurers based on the annual yield tax revenue guarantee certified for each county pursuant to subdivision (c) or (e) of Section 27423 of the Government Code. The remaining 50 percent of the balance in the fund shall be transmitted to county treasurers in the same proportion that the balance to be transmitted was generated from each county, as certified by the State Board of Equalization.

(2) For the 1984–85 fiscal year and each fiscal year thereafter, 100 percent of the balance in the fund shall be transmitted to county treasurers in the same proportion that the balance to be transmitted was generated from each county, as certified by the State Board of Equalization.

(b) Upon receipt of funds pursuant to subdivision (a), the county auditor shall within 10 days distribute the funds among the jurisdictions (as defined in Section 95) within the county in the same proportion that each jurisdiction's minimum revenue guarantee, determined pursuant to Section 27423 of the Government Code, bears to the total of all those amounts for all jurisdictions within the county.

(c) It is the intent of the Legislature that the provisions of subdivision (a) shall provide a final and conclusive disposition of the problem of allocating yield tax revenues among counties entitled to those revenues.

SEC. 3. On or before March 15, 1997, the Controller shall transfer any remaining funds in the Computer Software Refund Fund, created by Section 60.1 of Chapter 268 of the Statutes of 1984, to the

General Fund, and following that transfer the Computer Software Refund Fund is abolished.

CHAPTER 249

An act to amend Sections 33349 and 33350 of the Health and Safety Code, relating to redevelopment.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 33349 of the Health and Safety Code is amended to read:

33349. (a) The agency shall publish notice of the hearing not less than once a week for four successive weeks prior to the hearing. The notice shall be published in a newspaper of general circulation, printed and published in the community, or if there is none, in a newspaper selected by the agency. The notice of hearing shall include a legal description of the boundaries of the area or areas designated in the proposed redevelopment plan and a general statement of the scope and objectives of the plan in nontechnical language and in a clear and coherent manner using words with common and everyday meaning.

(b) Copies of the notices published pursuant to this section shall be mailed, by first-class mail, to the last known assessee of each parcel of land in the area designated in the redevelopment plan, at his or her last known address as shown on the last equalized assessment roll of the county; or where a city assesses, levies, and collects its own taxes, as shown on the last equalized assessment roll of the city; or to the owner of each parcel of land within the boundaries of the area or areas designated in the proposed redevelopment plan, as shown on the records of the county recorder 30 days prior to the date the notice is published.

(c) (1) Notice shall also be provided, by first-class mail, to all residents and businesses within the project area at least 30 days prior to the hearing.

(2) The mailed notice requirement of this subdivision shall only apply when mailing addresses to all individuals and businesses, or to all occupants, are obtainable by the agency at a reasonable cost. The notice shall be mailed by first-class mail, but may be addressed to "occupant." If the agency has acted in good faith to comply with the notice requirements of this subdivision, the failure of the agency to provide the required notice to residents or businesses unknown to the agency or whose addresses cannot be obtained at a reasonable

cost, shall not, in and of itself, invalidate a redevelopment plan or amendment to a redevelopment plan.

(d) Copies of the notices published pursuant to this section shall also be mailed to the governing body of each of the taxing agencies that levies taxes upon any property in the project area designated in the proposed redevelopment plan. Notices sent pursuant to this subdivision shall be mailed by certified mail, return receipt requested.

SEC. 2. Section 33350 of the Health and Safety Code is amended to read:

33350. Each assessee whose property would be subject to acquisition by purchase or condemnation under the plan shall be sent a statement in nontechnical language and in a clear and coherent manner using words with common and everyday meaning, to that effect attached to his notice of the hearing. Alternatively, a list or map of all properties which would be subject to acquisition by purchase or condemnation under the plan may be mailed to assessees with the notices of hearing.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 250

An act to amend Section 7863 of the Fish and Game Code, relating to commercial fishing, and making an appropriation therefor.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 7863 of the Fish and Game Code is amended to read:

7863. This article shall remain in effect only until January 1, 2002, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2002, deletes or extends that date.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 251

An act to add Section 13231 to the Fish and Game Code, relating to the Fish and Wildlife Pollution Account.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 13231 is added to the Fish and Game Code, to read:

13231. Consistent with Section 13203, the department shall maintain a cost accounting system that accounts for the costs of each activity or program engaged in pursuant to Section 13230 using funds from the subaccounts listed in that section.

CHAPTER 252

An act to amend Section 1063 of the Insurance Code, relating to insurance.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1063 of the Insurance Code is amended to read:

1063. (a) Within 60 days after the original effective date of this article, all insurers, including reciprocal insurers, admitted to transact insurance in this state of any or all of the following classes

only in accordance with the provisions of Chapter 1 (commencing with Section 100) of Part 1 of this division: fire (see Section 102), marine (see Section 103), plate glass (see Section 107), liability (see Section 108), workers' compensation (see Section 109), common carrier liability (see Section 110), boiler and machinery (see Section 111), burglary (see Section 112), sprinkler (see Section 114), team and vehicle (see Section 115), automobile (see Section 116), aircraft (see Section 118), and miscellaneous (see Section 120), shall establish the California Insurance Guarantee Association (the association); provided, however, this article shall not apply to the following classes or kinds of insurance: life and annuity (see Section 101), title (see Section 104), fidelity or surety including fidelity or surety bonds, or any other bonding obligations (see Section 105), disability or health (see Section 106), credit (see Section 113), mortgage (see Section 117), mortgage guaranty, insolvency or legal (see Section 119), financial guaranty or other forms of insurance offering protection against investment risks (see Section 124), the ocean marine portion of any marine insurance or ocean marine coverage under any insurance policy including the following: the Jones Act (46 U.S.C. Sec. 688), the Longshore and Harbor Workers' Compensation Act (33 U.S.C. Sec. 901 et seq.), or any other similar federal statutory enactment, or any endorsement or policy affording protection and indemnity coverage, or reinsurance as defined in Section 620, or fraternal fire insurance written by associations organized and operating under Sections 9080 to 9103, inclusive. Any insurer admitted to transact only those classes or kinds of insurance excluded from this article shall not be a member insurer of the association. Each such insurer, including the State Compensation Insurance Fund, as a condition of its authority to transact insurance in this state, shall participate in the association whether established voluntarily or by order of the commissioner after the elapse of 60 days following the original effective date of this article in accordance with rules to be established as provided in this article. It shall be the purpose of such association to provide for each member insurer insolvency insurance as defined in Section 119.5.

(b) The association shall be managed by a board of governors, composed of nine member insurers, each of which shall be appointed by the commissioner to serve initially for terms of one, two, or three years and thereafter for three-year terms so that three terms shall expire each year on December 31, and shall continue in office until his or her successor shall be appointed and qualified. At least five members of the board shall be domestic insurers. At least three such members shall be stock insurers, and at least three shall be nonstock insurers. The nine members shall be representative, as nearly as possible, of the classes of insurance and of the kinds of insurers covered by this article. In case of a vacancy for any reason on the board, the commissioner shall appoint a member insurer to fill the unexpired term.

(c) The association shall adopt a plan of operations, and any amendments thereto, not inconsistent with the provisions of this article, necessary to assure the fair, reasonable, and equitable manner of administering the association, and to provide for such other matters as are necessary or advisable to implement the provisions of this article. The plan of operations and any amendments thereto shall be subject to prior written approval by the commissioner. All members of the association shall adhere to the plan of operation.

(d) If for any reason the association fails to adopt a suitable plan of operation within 90 days following the original effective date of this article, or if at any time thereafter the association fails to adopt suitable amendments to the plan of operation, the commissioner shall after hearing adopt and promulgate such reasonable rules as are necessary or advisable to effectuate the provisions of this chapter. Such rules shall continue in force until modified by the commissioner after hearing or superseded by a plan of operation, adopted by the association and approved by the commissioner.

(e) In accordance with its plan of operation, the association may designate one or more of its members as a servicing facility, but a member may decline such designation. Each servicing facility shall be reimbursed by the association for all reasonable expenses it incurs and for all payments it makes on behalf of the association. Each servicing facility shall have authority to perform any functions of the association that the board of governors lawfully may delegate to it and to do so on behalf of and in the name of the association. The designation of servicing facilities shall be subject to the approval of the commissioner.

(f) The association shall have authority to borrow funds when necessary to effectuate the provisions of this article.

(g) The association, either in its own name or through servicing facilities, may be sued and may use the courts to assert or defend any rights the association may have by virtue of this article as reasonably necessary to fully effectuate the provisions thereof.

(h) The association shall have the right to intervene as a party in any proceeding instituted pursuant to Section 1016 wherein liquidation of a member insurer as defined in Section 1063.1 is sought.

CHAPTER 253

An act to repeal Section 19821 of the Government Code, relating to state employees.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 19821 of the Government Code is repealed.

CHAPTER 254

An act to add Section 23824.1 to the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 23824.1 is added to the Business and Professions Code, to read:

23824.1. (a) The provisions of Section 23824 shall apply to convention centers and event centers which are operated by municipal, independent nonprofit agencies for the purpose of providing meeting rooms, exhibit space, or event and theatrical seating, or all of these.

(b) Any license issued pursuant to this section shall be issued only upon condition that all revenues generated from the license shall be segregated and allocated for the operations and capital requirements of the convention center or event center only.

(c) For purposes of this section, "event center" means a community center, activity center, auditorium, convention center, arena, or other building, collection of buildings, or facility which is used exclusively or primarily for the holding of exhibitions, conventions, meetings, spectacles, concerts, or shows.

CHAPTER 255

An act to add Section 1118 to the Unemployment Insurance Code, relating to unemployment compensation.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known as the "Make it Easy on the Family and Small Business Act." It is the intent of the Legislature that the employer reporting system provided by this act eventually be expanded and modified to authorize small businesses to meet their

reporting requirements to the Department of Employment Development in a similar manner.

SEC. 2. Section 1118 is added to the Unemployment Insurance Code, to read:

1118. (a) This section applies only to employers who employ individuals to perform domestic service, as described in Sections 682 and 684.

(b) Effective July 1, 1997, notwithstanding Section 1088, a domestic service employer shall be authorized to file the report of wages required by Section 1088 by telephone. This does not apply to the filing of Internal Revenue Service Form W-2.

(c) The department shall notify all domestic service employers of the availability of the telephone reporting system. A domestic service employer shall be required to make an election to report by telephone or by mail. After a domestic service employer elects to report by telephone, the employer is required to report in that mode for the remainder of the calendar year. If a domestic service employer makes this election in the second or subsequent quarter of a calendar year, the employer shall be required to report by telephone for the remainder of the calendar year and for all four quarters of the subsequent calendar year. A domestic service employer who has elected to report by telephone and who is eligible under this subdivision to change the reporting mode shall provide 30 days' notice to the department in order to begin reporting by mail.

(d) A domestic service employer reporting by telephone shall be required to provide the department with the employer's account number, the social security numbers of all employees, and the wages paid to each employee for the reporting period. The department may request additional information in order to determine the amount of wages that are taxable.

(e) The department shall compute the contributions owed based upon the wage information reported by the domestic service employer.

(f) A domestic service employer reporting by telephone shall be permitted to pay the contributions owed by credit card or charge card. The payment shall be subject to the State Payment Card Act (Ch. 2.6 (commencing with Section 6160) of Div. 7, Title 1, Gov. C.).

(g) If a domestic service employer reporting by telephone does not pay by credit card or charge card, the department shall advise the employer of the due date for the payment and of any penalties and interest that will be charged if a payment is late.

CHAPTER 256

An act to amend Section 66516 of, and to add Section 66516.5 to, the Government Code, and to amend Sections 29142.4 and 99314.7 of the Public Utilities Code, relating to transportation.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 66516 of the Government Code is amended to read:

66516. The commission, in coordination with the regional transit coordinating council established by the commission pursuant to Section 29142.4 of the Public Utilities Code, shall adopt rules and regulations to promote the coordination of fares and schedules for all public transit systems within its jurisdiction. The commission shall require every system to enter into a joint fare revenue sharing agreement with connecting systems consistent with the commission's rules and regulations.

SEC. 2. Section 66516.5 is added to the Government Code, to read:

66516.5. The commission may do the following:

(a) In consultation with the regional transit coordinating council, identify those functions performed by individual public transit systems that could be consolidated to improve the efficiency of regional transit service, and recommend that those functions be consolidated and performed through inter-operator agreements or as services contracted to a single entity.

(b) Improve service coordination and effectiveness in those transit corridors identified as transit corridors of regional significance by the commission in consultation with the regional transit coordinating council by recommending improvements in those corridors, including, but not limited to, reduction of duplicative service and institution of coordinated service across public transit system boundaries.

SEC. 3. Section 29142.4 of the Public Utilities Code is amended to read:

29142.4. No funds shall be allocated to an entity pursuant to Section 29142.2, after January 1, 1978, unless, as determined by the Metropolitan Transportation Commission, the transit operator:

(a) Is a participating member of a regional transit coordinating council which the commission shall establish to better coordinate routes, schedules, fares, and transfers among the San Francisco Bay area transit operators and to explore potential advantages of joint ventures in areas such as marketing, maintenance, and purchasing. The commission shall be a member of the council.

(b) Establishes, for the period for which the funds are allocated, fare levels such that fare revenues equal at least 33 percent of its operating cost, which shall be all of its costs in the expense object classes, exclusive of the costs of the depreciation and amortization expense object classes, of the uniform system of accounts and records adopted by the State Controller pursuant to Section 99243. The allocation period shall not be less than one calendar quarter nor longer than one fiscal year, as determined by the commission. For purposes of this subdivision, the two special transit service districts of the Alameda-Contra Costa Transit District shall be considered separate transit districts. On and after July 1, 1981, the commission may grant, any operator which was in compliance with the 33 percent requirement prior to that date, a credit not to exceed 5 percent to meet that requirement on the basis of special operating characteristics of its transit system, including, but not limited to, its transfer and special fare policies. In no event shall the combined fare revenues of the three operators, excluding any credit granted by the commission, be less than 33 percent of their combined operating cost.

(c) Has complied with standards established by the commission pursuant to Section 66517.5 of the Government Code.

SEC. 4. Section 99314.7 of the Public Utilities Code is amended to read:

99314.7. (a) In allocating funds for operating purposes pursuant to Sections 99313 and 99314, the Metropolitan Transportation Commission shall apply the following eligibility standards to the operators within the region subject to its jurisdiction:

(1) An operator is not eligible for its full allocation under this section unless the operator has been found to have made reasonable effort in implementing productivity improvements pursuant to Section 99244. In determining whether a reasonable effort has been made, the Metropolitan Transportation Commission shall give consideration to whether the operator would qualify for funding under Section 99314.6. The amount of funds allocated shall be reduced in an amount that the Metropolitan Transportation Commission deems proportionate to the failure of the operator to implement the recommended improvements. The Metropolitan Transportation Commission shall adopt rules and regulations, in cooperation with the affected operators, governing the allocation of any funds withheld under this paragraph, subject to paragraphs (2) and (3).

(2) Notwithstanding paragraph (1), an operator shall not receive any funds pursuant to Section 99313 or 99314 unless it has complied with the applicable rules , regulations, and recommendations adopted by the Metropolitan Transportation Commission pursuant to Sections 66516 and 66516.5 of the Government Code.

(3) Funds withheld from allocation to an operator pursuant to paragraph (1) shall be retained by the Metropolitan Transportation Commission for reallocation to that operator for two years following

the year of ineligibility. With respect to the funds withheld from an operator pursuant to paragraph (1), the Metropolitan Transportation Commission shall reallocate those funds to the operator if the operator complies with that paragraph within two years. Funds not reallocated to the operator, and funds withheld pursuant to paragraph (2), shall be allocated to any eligible operator within the region subject to the jurisdiction of the Metropolitan Transportation Commission for the purpose of improving coordination among the operators, or to any operator whose increase in total operating cost per revenue vehicle hour is less than the increase in the Consumer Price Index. Funds allocated for these purposes are exempt from subdivision (a).

(b) For purposes of this section, "operating cost," "revenue vehicle hour," and "Consumer Price Index" have the same meaning as defined in Section 99314.6.

CHAPTER 257

An act to amend Sections 1695.5, 1697, and 1698 of the Business and Professions Code, relating to dentistry.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1695.5 of the Business and Professions Code is amended to read:

1695.5. (a) The board shall establish criteria for the acceptance, denial, or termination of licentiates in a diversion program. Unless ordered by the board as a condition of licentiate disciplinary probation, only those licentiates who have voluntarily requested diversion treatment and supervision by a committee shall participate in a diversion program.

(b) A licentiate who is not the subject of a current investigation may self-refer to the diversion program on a confidential basis, except as provided in subdivision (f).

(c) A licentiate under current investigation by the board may also request entry into the diversion program by contacting the board's Diversion Program Manager. The Diversion Program Manager may refer the licentiate requesting participation in the program to a diversion evaluation committee for evaluation of eligibility. Prior to authorizing a licentiate to enter into the diversion program, the Diversion Program Manager may require the licentiate, while under current investigation for any violations of the Dental Practice Act or other violations, to execute a statement of understanding that states that the licentiate understands that his or her violations of the Dental

Practice Act or other statutes that would otherwise be the basis for discipline, may still be investigated and the subject of disciplinary action.

(d) If the reasons for a current investigation of a licentiate are based primarily on the self-administration of any controlled substance or dangerous drugs or alcohol under Section 1681 of the Business and Professions Code, or the illegal possession, prescription, or nonviolent procurement of any controlled substance or dangerous drugs for self-administration that does not involve actual, direct harm to the public, the board shall close the investigation without further action if the licentiate is accepted into the board's diversion program and successfully completes the requirements of the program. If the licentiate withdraws or is terminated from the program by a diversion evaluation committee, the investigation shall be reopened and disciplinary action imposed, if warranted, as determined by the board.

(e) Neither acceptance nor participation in the diversion program shall preclude the board from investigating or continuing to investigate, or taking disciplinary action or continuing to take disciplinary action against, any licentiate for any unprofessional conduct committed before, during, or after participation in the diversion program.

(f) All licentiates shall sign an agreement of understanding that the withdrawal or termination from the diversion program at a time when a diversion evaluation committee determines the licentiate presents a threat to the public's health and safety shall result in the utilization by the board of diversion treatment records in disciplinary or criminal proceedings.

(g) Any licentiate terminated from the diversion program for failure to comply with program requirements is subject to disciplinary action by the board for acts committed before, during, and after participation in the diversion program. A licentiate who has been under investigation by the board and has been terminated from the diversion program by a diversion evaluation committee shall be reported by the diversion evaluation committee to the board.

SEC. 2. Section 1697 of the Business and Professions Code is amended to read:

1697. Each licentiate who requests participation in a diversion program shall agree to cooperate with the treatment program designed by a committee and to bear all costs related to the program, unless the cost is waived by the board. Any failure to comply with the provisions of a treatment program may result in termination of the licentiate's participation in a program.

SEC. 3. Section 1698 of the Business and Professions Code is amended to read:

1698. (a) After a committee in its discretion has determined that a licentiate has been rehabilitated and the diversion program is

completed, the committee shall purge and destroy all records pertaining to the licentiate's participation in a diversion program.

(b) Except as authorized by subdivision (f) of Section 1695.5, all board and committee records and records of proceedings pertaining to the treatment of a licentiate in a program shall be kept confidential and are not subject to discovery or subpoena.

CHAPTER 258

An act to amend Section 168 of, and to add Section 14201.6 to, the Penal Code, relating to the Department of Justice.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 168 of the Penal Code is amended to read:

168. (a) Every district attorney, clerk, judge, or peace officer who, except by issuing or in executing a search warrant or warrant of arrest for a felony, willfully discloses the fact of the warrant prior to execution for the purpose of preventing the search or seizure of property or the arrest of any person shall be punished by imprisonment in the state prison or in a county jail for not exceeding one year.

(b) This section shall not prohibit the following:

(1) A disclosure made by a district attorney or the Attorney General for the sole purpose of securing voluntary compliance with the warrant.

(2) Upon the return of an indictment and the issuance of an arrest warrant, a disclosure of the existence of the indictment and arrest warrant by a district attorney or the Attorney General to assist in the apprehension of a defendant.

(3) The disclosure of an arrest warrant pursuant to paragraph (1) of subdivision (a) of Section 14201.6.

SEC. 2. Section 14201.6 is added to the Penal Code, to read:

14201.6. (a) The Department of Justice shall establish and maintain a publicly accessible computer internet directory of information relating to the following:

(1) Persons for whom an arrest warrant has been issued pursuant to an alleged violation of any offense defined as a violent felony in subdivision (c) of Section 667.5.

(2) Critical missing children.

(3) Unsolved homicides.

(b) The Attorney General may determine the extent of information and the priority of cases to be included in the directory.

(c) The department shall keep confidential, and not enter into the directory, either of the following:

(1) Information regarding any case for which the Attorney General has determined that disclosure pursuant to this section would endanger the safety of a person involved in an investigation or the successful completion of the investigation or a related investigation.

(2) Information regarding an arrest warrant for which the issuing magistrate has determined that disclosure pursuant to this section would endanger the safety of a person involved in an investigation or the successful completion of the investigation or a related investigation.

(d) For purposes of this section, "critical missing child" includes, but is not limited to, any case of a missing child for which there is evidence or indications that the child is at risk, as specified in subdivision (b) of Section 14213.

CHAPTER 259

An act to amend Sections 25205.2 and 25205.5 of the Health and Safety Code, relating to hazardous waste.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 25205.2 of the Health and Safety Code is amended to read:

25205.2. (a) Except as provided in subdivisions (c) and (h), in addition to the fees specified in Section 25174.1, each operator of a facility shall pay a facility fee for each reporting period, or any portion thereof, to the board based on the size and type of the facility, as specified in Section 25205.4. On or before January 31 of each calendar year, the department annually shall notify the board of all known facility operators by facility type and size. The department shall also notify the board of any operator who is issued a permit or grant of interim status within 30 days from the date that a permit or grant of interim status is issued to the operator. The fee specified in this section does not apply to facilities exempted pursuant to Section 25205.12.

(b) The board shall deposit all fees collected pursuant to subdivision (a) in the Hazardous Waste Control Account in the General Fund. The fees so deposited may be expended by the department, upon appropriation by the Legislature, for the purposes specified in subdivision (b) of Section 25174.

(c) Notwithstanding subdivision (a), a person who is issued a variance by the department from the requirement of obtaining a hazardous waste facilities permit or grant of interim status is not subject to the fee, for any reporting period following the reporting period in which the variance was granted by the department.

(d) Operators subject to facility fee liability pursuant to this section shall pay the following amounts:

(1) The operator shall pay the applicable facility fee for each reporting period in which the facility actually engaged in the treatment, storage, or disposal of hazardous waste.

(2) The operator shall pay the applicable facility fee for one additional reporting period immediately following the final reporting period in which the facility actually engaged in that treatment or storage. For the 1994 reporting period and thereafter, the facility's size for that additional reporting period shall be deemed to be the largest size at which the facility has ever been subject to the fee. If the department previously approved a unit or portion of the facility for a variance, closure, or permit-by-rule, the facility's size for that reporting period shall be deemed to be its largest size since the department granted the approval.

(3) The operator of a disposal facility shall pay twice the applicable facility fee for one additional reporting period immediately following the final reporting period in which the facility actually engaged in disposal of hazardous waste.

(4) For the 1994 reporting period and thereafter, a facility shall not be deemed to have stopped treating, storing, or disposing of hazardous waste unless it has actually ceased that activity and has notified the department of its intent to close.

(5) If the reporting period which immediately followed the final reporting period in which a facility actually engaged in the treatment, storage, or disposal of the hazardous waste was the six-month period from July 1, 1991, through December 31, 1991, the operator shall be subject to twice the fee otherwise applicable to that operator for that reporting period under paragraphs (2) and (3).

(e) No facility shall be subject to a facility fee for treatment, storage, or disposal, if that activity ceased before July 1, 1986, and if the fee for the activity was not paid prior to January 1, 1994.

(f) Notwithstanding any other provision of this section, a person who ceased actual treatment, storage, or disposal of hazardous waste, whether generated onsite or received from offsite, before July 1, 1986, and who paid facility fees for any reporting period after that date pursuant to a decision of the State Board of Equalization, and who filed a claim for refund of those fees on or before January 1, 1994, shall be entitled to a refund of those amounts.

(g) Facility operators who treated, stored, or disposed of hazardous waste on or after July 1, 1986, shall be subject to the provisions of this section which were in effect prior to January 1, 1994, as to payments which their operators made prior to January 1, 1994.

The operators shall be subject to subdivision (d) as to any other liability for the facility fee.

(h) A treatment facility is not subject to the facility fee established pursuant to this section, if the facility engages in treatment exclusively to accomplish a removal or remedial action or a corrective action in accordance with an order issued by the Environmental Protection Agency pursuant to the federal act or in accordance with an order issued by the department pursuant to Section 25187, if the facility was put in operation solely for purposes of complying with that order. The department shall instead assess a fee for that facility for the actual time spent by the department for the inspection and oversight of that facility. The department shall base the fee on the department's work standards and shall assess the fee on an hourly basis.

(i) Notwithstanding subdivision (a), a facility operating pursuant to a standardized permit or grant of interim status, as specified in Section 25201.6, shall receive a credit for the annual facility fee imposed by this section for a period of time equal to the number of years that the facility lawfully operated prior to September 21, 1993, pursuant to a hazardous waste facilities permit or other grant of authorization and paid facility fees for the operation of the facility pursuant to this section.

Section 25205.5 of the Health and Safety Code is amended to read:

25205.5. (a) In addition to the fee imposed pursuant to Section 25174.1, every generator of hazardous waste, in the amounts specified in subdivision (c), shall pay the board a generator fee for each generator site for each calendar year, or portion thereof, unless the generator has paid a facility fee or received a credit, as specified in Section 25205.2, for each specific site, for the calendar year for which the generator fee is due.

(b) The base fee rate for the fee imposed pursuant to subdivision (a) is three thousand three hundred seventy-one dollars ($3,371).

(c) (1) Each generator who generates an amount equal to, or more than, five tons, but less than 25 tons, of hazardous waste during the prior calendar year shall pay 5 percent of the base rate.

(2) Each generator who generates an amount equal to, or more than, 25 tons, but less than 50 tons, of hazardous waste during the prior calendar year shall pay 40 percent of the base rate.

(3) Each generator who generates an amount equal to, or more than, 50 tons, but less than 250 tons, of hazardous waste during the prior calendar year shall pay the base rate.

(4) Each generator who generates an amount equal to, or more than, 250 tons, but less than 500 tons, of hazardous waste during the prior calendar year shall pay five times the base rate.

(5) Each generator who generates an amount equal to, or more than, 500 tons, but less than 1,000 tons, of hazardous waste during the prior calendar year shall pay 10 times the base rate.

(6) Each generator who generates an amount equal to, or more than, 1,000 tons, but less than 2,000 tons, of hazardous waste during the prior calendar year shall pay 15 times the base rate.

(7) Each generator who generates an amount equal to, or more than, 2,000 tons of hazardous waste during the prior calendar year shall pay 20 times the base rate.

(d) The base rate established pursuant to subdivision (b) is the base rate for the 1996 calendar year and the board shall adjust the base rate annually to reflect increases or decreases in the cost of living, during the prior fiscal year, as measured by the Consumer Price Index issued by the Department of Industrial Relations or by a successor agency.

(e) The establishment of the annual operating fee pursuant to this section is exempt from Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(f) The following materials are not hazardous wastes for purposes of this section:

(1) Hazardous materials which are recycled, and used onsite, and are not transferred offsite.

(2) Aqueous waste treated in a treatment unit operating, or which subsequently operates, pursuant to a permit-by-rule, or pursuant to Section 25200.3 or 25201.5. However, hazardous waste generated by a treatment unit treating waste pursuant to a permit-by-rule, by a unit which subsequently obtains a permit-by-rule, or other authorization pursuant to Section 25200.3 or 25201.5 is hazardous waste for purposes of this section.

(g) The fee imposed pursuant to this section shall be paid in accordance with Part 22 (commencing with Section 43001) of Division 2 of the Revenue and Taxation Code.

(h) (1) The amendment of this section made by Chapter 1125 of the Statutes of 1991 does not constitute a change in, but is declaratory of, existing law.

(2) The amendment of subdivision (a) of this section, effective January 1, 1997, does not constitute a change in, but is declaratory of, existing law.

CHAPTER 260

An act to amend Section 2056 of the Business and Professions Code, relating to medicine.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 2056 of the Business and Professions Code is amended to read:

2056. (a) The purpose of this section is to provide protection against retaliation for physicians who advocate for medically appropriate health care for their patients pursuant to Wickline v. State of California 192 Cal. App. 3d 1630.

(b) It is the public policy of the State of California that a physician and surgeon be encouraged to advocate for medically appropriate health care for his or her patients. For purposes of this section, "to advocate for medically appropriate health care" means to appeal a payor's decision to deny payment for a service pursuant to the reasonable grievance or appeal procedure established by a medical group, independent practice association, preferred provider organization, foundation, hospital medical staff and governing body, or payer, or to protest a decision, policy, or practice that the physician, consistent with that degree of learning and skill ordinarily possessed by reputable physicians practicing according to the applicable legal standard of care, reasonably believes impairs the physician's ability to provide medically appropriate health care to his or her patients.

(c) The application and rendering by any person of a decision to terminate an employment or other contractual relationship with, or otherwise penalize, a physician and surgeon principally for advocating for medically appropriate health care consistent with that degree of learning and skill ordinarily possessed by reputable physicians practicing according to the applicable legal standard of care violates the public policy of this state. No person shall terminate, retaliate against, or otherwise penalize a physician and surgeon for that advocacy, nor shall any person prohibit, restrict, or in any way discourage a physician and surgeon from communicating to a patient information in furtherance of medically appropriate health care.

(d) This section shall not be construed to prohibit a payer from making a determination not to pay for a particular medical treatment or service, or to prohibit a medical group, independent practice association, preferred provider organization, foundation, hospital medical staff, hospital governing body acting pursuant to Section 809.05, or payer from enforcing reasonable peer review or utilization review protocols or determining whether a physician has complied with those protocols.

(e) Medically appropriate health care in a hospital licensed pursuant to Section 1250 of the Health and Safety Code shall be defined by the hospital medical staff and approved by the governing body, consistent with that degree of learning and skill ordinarily possessed by reputable physicians practicing according to the applicable legal standard of care.

(f) Nothing in this section shall be construed to prohibit the governing body of a hospital from taking disciplinary actions against a physician and surgeon as authorized by Sections 809.05, 809.4, and 809.5.

(g) Nothing in this section shall be construed to prohibit the Medical Board of California from taking disciplinary actions against a physician and surgeon under Article 12 (commencing with Section 2220).

(h) For purposes of this section, "person" has the same meaning as set forth in Section 2032.

CHAPTER 261

An act to amend Section 1101 of, and to add Section 1109 to, the Evidence Code, relating to evidence.

[Approved by Governor July 20, 1996. Filed with Secretary of State July 22, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1101 of the Evidence Code is amended to read:

1101. (a) Except as provided in this section and in Sections 1102, 1103, 1108, and 1109, evidence of a person's character or a trait of his or her character (whether in the form of an opinion, evidence of reputation, or evidence of specific instances of his or her conduct) is inadmissible when offered to prove his or her conduct on a specified occasion.

(b) Nothing in this section prohibits the admission of evidence that a person committed a crime, civil wrong, or other act when relevant to prove some fact (such as motive, opportunity, intent, preparation, plan, knowledge, identity, absence of mistake or accident, or whether a defendant in a prosecution for an unlawful sexual act or attempted unlawful sexual act did not reasonably and in good faith believe that the victim consented) other than his or her disposition to commit such an act.

(c) Nothing in this section affects the admissibility of evidence offered to support or attack the credibility of a witness.

SEC. 2. Section 1109 is added to the Evidence Code, to read:

1109. (a) Except as provided in subdivision (e), in a criminal action in which the defendant is accused of an offense involving domestic violence, evidence of the defendant's commission of other domestic violence is not made inadmissible by Section 1101, if the evidence is not inadmissible pursuant to Section 352.

(b) In an action in which evidence is to be offered under this section, the people shall disclose the evidence to the defendant,

including statements of witnesses or a summary of the substance of any testimony that is expected to be offered, at least 30 days before the scheduled date of trial or at a later time as the court may allow for good cause.

(c) This section shall not be construed to limit or preclude the admission or consideration of evidence under any other statute or case law.

(d) As used in this section, "domestic violence" has the meaning set forth in Section 13700 of the Penal Code.

(e) Evidence of acts occurring more than 10 years before the charged offense is inadmissible under this section, unless the court determines that the admission of this evidence is in the interest of justice.

CHAPTER 262

An act to amend Sections 69102, 69104, 69581, 69582, 69584.5, 69591, 69592, 69593, 69594, 69598, 69601, 69602, 69604, 69609, 72602.9, 73075, 73431, 73731, and 74641 of the Government Code, relating to courts.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 69102 of the Government Code is amended to read:

69102. The Court of Appeal for the Second Appellate District consists of seven divisions having four judges each. One division shall hold its regular sessions in Ventura County, Santa Barbara County, or San Luis Obispo County, at the discretion of the judges of that division, and the other divisions shall hold their regular sessions at Los Angeles.

SEC. 2. Section 69104 of the Government Code is amended to read:

69104. The Court of Appeal for the Fourth Appellate District consists of three divisions. One division shall hold its regular sessions at San Diego and shall have nine judges. One division shall hold its regular sessions in the San Bernardino/Riverside area and shall have six judges. One division shall hold its regular sessions in Orange County and shall have six judges.

SEC. 3. Section 69581 of the Government Code is amended to read:

69581. In the County of Butte there shall be five judges of the superior court.

SEC. 4. Section 69582 of the Government Code is amended to read:

69582. In the County of Contra Costa there are 18 judges of the superior court.

SEC. 5. Section 69584.5 of the Government Code is amended to read:

69584.5. In the County of Imperial there shall be four judges of the superior court.

SEC. 6. Section 69591 of the Government Code is amended to read:

69591. In the County of Orange there are 61 judges of the superior court.

SEC. 7. Section 69592 of the Government Code is amended to read:

69592. In the County of Riverside there are 26 judges of the superior court.

SEC. 8. Section 69593 of the Government Code is amended to read:

69593. In the County of Sacramento there are 33 judges of the superior court.

SEC. 9. Section 69594 of the Government Code is amended to read:

69594. In the County of San Bernardino there are 30 judges of the superior court.

SEC. 10. Section 69598 of the Government Code is amended to read:

69598. In the County of San Joaquin there are 13 judges of the superior court.

SEC. 11. Section 69601 of the Government Code is amended to read:

69601. In the County of Shasta there shall be four judges of the superior court; provided, that at such time as the Shasta County Board of Supervisors finds that there are sufficient funds for an additional judge and adopts a resolution to that effect, there shall be five judges of the superior court.

SEC. 12. Section 69602 of the Government Code is amended to read:

69602. In the County of Solano there shall be nine judges of the superior court.

SEC. 13. Section 69604 of the Government Code is amended to read:

69604. In the County of Stanislaus there shall be nine judges of the superior court.

SEC. 14. Section 69609 of the Government Code is amended to read:

69609. In the County of Placer there shall be five judges of the superior court.

SEC. 15. Section 72602.9 of the Government Code is amended to read:

72602.9. Notwithstanding any other provision of law, there shall be seven judges in the Citrus Judicial District; provided that at such time as the Los Angeles County Board of Supervisors finds there are sufficient funds for one additional judge for that district and adopts a resolution to that effect, there shall be eight judges in the Citrus Judicial District; and further provided that, following the appointment of an eighth judge, there shall be no more than one court commissioner in the Citrus Judicial District unless and until the Los Angeles County Board of Supervisors finds that there are sufficient funds for a second court commissioner for that district and adopts a resolution to that effect, at which time there shall be two court commissioners in the Citrus Judicial District.

SEC. 16. Section 73075 of the Government Code is amended to read:

73075. Each of the municipal court districts established in Alameda County shall have the number of judges set out below opposite the name of the judicial district over which such court has jurisdiction:

Alameda Judicial District	1
Berkeley–Albany Judicial District	4
Oakland–Piedmont–Emeryville Judicial District	14
San Leandro–Hayward Judicial District	8
Fremont–Newark–Union City Judicial District	4
Livermore–Pleasanton–Dublin Judicial District	3

SEC. 17. Section 73431 of the Government Code is amended to read:

73431. Each municipal court district established in Kern County shall have the number of judges set forth opposite the name of the judicial district over which such court has jurisdiction.

Bakersfield Judicial District	9
East Kern Judicial District	2
North Kern Judicial District	3
South Kern Judicial District	3

SEC. 18. Section 73731 of the Government Code is amended to read:

73731. (a) There shall be five judges.

(b) The persons appointed to or succeeding to the three judgeships created January 1, 1976, and the one judgeship created January 10, 1977, shall serve until their successors are elected at the November, 1978 general election and qualify to take office for full terms in January, 1979.

SEC. 19. Section 74641 of the Government Code is amended to read:

74641. Each of the municipal court districts in the County of Santa Barbara shall have the following number of judges and commissioners:

(a) Santa Barbara	4 judges and two commissioners
(b) Northern Santa Barbara:	
(1) Santa Maria Division	3 judges and 1 commissioner
(2) Lompoc Division	1 judge
(3) Solvang Division	1 judge

SEC. 20. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 263

An act to add Article 5 (commencing with Section 14070), Article 5.2 (commencing with Section 14072), Article 5.4 (commencing with Section 14074), and Article 5.6 (commencing with Section 14076) to Chapter 1 of Part 5 of Division 3 of Title 2 of, and to repeal and add Section 14031.8 of, and to repeal Sections 14031.9 and 14031.10 of, the Government Code, relating to transportation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Intercity Passenger Rail Act of 1996.

SEC. 2. (a) The Legislature finds and declares all of the following:

(1) An intercity rail passenger system, linking major urban centers and complemented by feeder bus services that provide access to outlying areas and destinations, is an important element of the state's transportation system, and shall remain a state-funded program.

(2) The state has a continuing interest in the provision of cost-effective intercity rail passenger services and has a responsibility to coordinate intercity rail passenger services statewide.

(3) Since 1976, the state has invested over one billion dollars ($1,000,000,000) in capital improvements and operating support for intercity rail passenger service and must ensure the protection of that investment. Recently, state costs to support operation of this service have increased greatly due to congressional reductions in Amtrak's federal operating support.

(b) The Legislature, through the enactment of this act, intends all of the following:

(1) The Secretary of Business, Transportation and Housing shall be responsible for the overall planning, coordination, and budgeting of the intercity passenger rail service.

(2) If the secretary determines that transferring responsibility for intercity rail service in a particular corridor or corridors to a statutorily created joint powers agency would result in administrative or operating cost reductions, the secretary may authorize the Department of Transportation to enter into an interagency agreement to effect a transfer of those administrative functions.

(3) Any intercity rail corridor for which administrative responsibility has been transferred to a joint powers board through an interagency agreement shall remain as a component of the statewide system of intercity rail corridors.

(4) The public interest requires expansion of the state intercity rail program in order to keep pace with the needs of an expanding population.

(5) For not less than a three-year period, the level of state funding for intercity rail service in each corridor shall be maintained at a level equal to at least the current level of service in the corridor, thus providing fiscal stability that will allow appropriate planning and operation of these services.

SEC. 3. Section 14031.8 of the Government Code is repealed.

SEC. 4. Section 14031.8 is added to the Government Code, to read:

14031.8. (a) The Secretary of Business, Transportation and Housing shall establish, through an annual budget process, the level of state funding available for the operation of intercity passenger rail service in each corridor.

(b) Where applicable, operating funds shall be allocated by the secretary to the joint powers board in accordance with an interagency agreement which includes mutually agreed-upon rail

services. Funds for the administration and marketing of services, as appropriate, shall also be transferred by the secretary to the joint powers board, subject to the terms of the interagency agreement.

(c) The joint powers board or local or regional entities may augment state-provided resources to expand intercity passenger rail services, or to address funding shortfalls in achieving agreed-upon performance standards.

(d) The department may provide any support services as may be mutually agreed upon by the board and the department.

(e) Operating costs shall be controlled by dealing with, at a minimum, the current Amtrak cost allocation formula and the ability to contract out to Amtrak or other rail operators as a part of federal legislation dealing with Amtrak reauthorization.

(f) Not later than December 31, 1997, the secretary shall establish a set of uniform performance standards for all corridors and operators to control cost and improve efficiency.

SEC. 5. Section 14031.9 of the Government Code is repealed.

SEC. 6. Section 14031.10 of the Government Code is repealed.

SEC. 7. Article 5 (commencing with Section 14070) is added to Chapter 1 of Part 5 of Division 3 of Title 2 of the Government Code, to read:

Article 5. Intercity Rail Agreements

14070. As used in this article, the following terms have the following meanings:

(a) "Board" or "joint powers board" means the governing board of a joint exercise of powers agency established pursuant to Article 5.2 (commencing with Section 14072), Article 5.4 (commencing with Section 14074), or Article 5.6 (commencing with Section 14076) for the purpose of assuming administrative responsibility for intercity passenger rail service within the respective corridor.

(b) "Secretary" means the Secretary of the Business, Transportation and Housing Agency.

14070.2. (a) If authorized by the secretary, the department may, through an interagency agreement, transfer to a joint powers board, and the board may assume, all responsibility for administering passenger rail service in the corridor. Upon the date specified in the agreement, the board shall succeed to the department's powers and duties relative to that service, except that the department shall retain responsibility for developing budget requests for the service through the state budget process, which shall be developed in consultation with the board, and for coordinating service in the corridor with other passenger rail services in the state.

(b) The interagency agreement shall be executed on or before December 31, 1996. If an interagency agreement is not entered into on or before December 31, 1996, the secretary shall provide a report to the Governor and the Legislature on or before January 30, 1997,

explaining why an acceptable agreement has not been developed, with specific recommendations for developing an acceptable interagency agreement.

(c) The secretary shall require the board to demonstrate the ability to meet the performance standards established by the secretary pursuant to subdivision (f) of Section 14031.8.

14070.4. (a) An interagency transfer agreement between the department and a joint powers board, when approved by the secretary, shall do all of the following:

(1) Specify the date and conditions for the transfer of responsibilities and identify the annual level of funding for the initial five years of the transfer and ensure that the level of funding is consistent with and sufficient for the planned service improvements within the corridor.

(2) Identify, for the initial year and subsequent years, the funds to be transferred to the board including state operating subsidies made available for intercity rail services in the corridor, and funds currently used by the department for administration and marketing of the corridor, with the amounts adjusted annually for inflation and in accordance with the business plan.

(3) Specify the level of service to be provided, the respective responsibilities of the board and the department, the methods that the department will use to assure the coordination of services with other rail passenger services in the state, and the methods that the department will use for the annual review of the business plan and annual proposals on funding and appropriations.

(4) Describe the terms for transferring to the joint exercise of powers agency car and locomotive train sets, and other equipment and property owned by the department and required for the intercity service in the corridor including, but not limited to, the number of units to be provided, liability coverage, maintenance and warranty responsibilities, and indemnification issues.

(5) Describe auditing responsibilities and process requirements, reimbursement and billing procedures, the responsibility for funding shortfalls, if any, during the course of each fiscal year, an operating contract oversight review process, performance standards and reporting procedures, the level of rail infrastructure maintenance, and other relevant monitoring procedures. The description shall contain an evaluation of the impact of any transfer of equipment on other intercity corridors. The agreement shall endeavor to minimize the impact and maximize the efficient use of the equipment, including continued joint use of equipment that is currently shared by one or more corridors.

(b) Use of the annual state funding allocation, as set forth in the interagency transfer agreement for the initial five years, shall be described in an annual business plan submitted by the board to the secretary for review and recommendation by April 1 of each year. The business plan, when approved by the secretary, shall be deemed

accepted by the state. The budget proposal developed by the department for the subsequent year shall be based upon the business plan approved by the secretary. The business plan shall be consistent with the interagency agreement and shall include a report on the recent as well as historical performance of the corridor service, an overall operating plan including proposed service enhancement to increase ridership and provide for increased traveler demands in the corridor for the upcoming year, short-term and long-term capitol improvement programs, funding requirements for the upcoming fiscal year, and an action plan with specific performance goals and objectives. The business plan shall document service improvements to provide the planned level of service, inclusion of operating plans to serve peak period work trips, and consideration of other service expansions and enhancements. The plan shall clearly delineate how funding and accounting for state-sponsored rail passenger services shall be separate from locally sponsored services in the corridor. Proposals to expand or modify passenger services shall be accompanied by the identification of all associated costs and ridership projections. The business plan shall establish, among other things: fares, operating strategies, capital improvements needed, and marketing and operational strategies designed to meet performance standards established in the interagency agreement.

(c) Based on the annual business plan and the subsequent appropriation by the Legislature, the secretary shall allocate state funds on an annual basis to the board. As provided in the interagency agreement, any additional funds that are required to operate the passenger rail service during the fiscal year shall be provided by the board from jurisdictions that receive service. In addition, the board may use any cost savings or farebox revenues to provide service improvements related to intercity service. In any event, the board shall report the fiscal results of the previous year's operations as part of the annual business plan.

(d) The term of the agreement shall not exceed three years.

(e) The level of service funded by the state shall in no case be less than the current number of intercity roundtrips operated in a corridor and serving the end points currently served by the intercity rail corridor. The level of service funded by the state shall also include feeder bus service with substantially the same number of route miles as the current feeder system, to be operated in conjunction with the trains.

(f) Nothing in this article shall be construed to preclude expansion of state-approved intercity rail service.

14070.6. The department and any entity that assumes administrative responsibility for passenger rail services through an interagency transfer agreement, may, through a competitive bid process, contract with the National Railroad Passenger Corporation (Amtrak) or with other organizations authorized under state or federal law to provide passenger rail services, and may contract with

rail corporations and other rail operators for the use of tracks and other facilities and for the provision of passenger services on terms and conditions as the parties may agree. The department is deemed to be a third-party beneficiary of the contract, and the contract shall not contain any provision or condition that would negatively impact on or conflict with any other contracts the department has regarding intercity rail services. Any entity that succeeds the department as sponsor of state-supported passenger rail services through an interagency transfer agreement, is deemed an agency of the state for all purposes related to passenger rail services, including Section 1614 of Title 49 of the United States Code.

SEC. 8. Article 5.2 (commencing with Section 14072) is added to Chapter 1 of Part 5 of Division 3 of Title 2 of the Government Code, to read:

14072. The Southern California Regional Rail Authority is an existing joint powers authority formed pursuant to Section 130255 of the Public Utilities Code, made up of the county transportation commissions of the Counties of Los Angeles, Orange, Riverside, San Bernardino, and Ventura, and set up to operate the commuter rail network known as Metrolink in those counties.

14072.2. The joint powers authority, known as the Southern California Regional Rail Authority, may, if the authority elects to be a party to an interagency agreement pursuant to Article 5 (commencing with Section 14070), be expanded to form an authority for the administration of intercity passenger rail services in the Counties of Imperial, Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, and Ventura. The expanded authority may include, but is not limited to, the following agencies: the Imperial Valley Association of Governments, the Los Angeles County Metropolitan Transportation Commission, the Orange County Transportation Authority, the Riverside County Transportation Commission, the San Bernardino Association of Governments, the San Diego Association of Governments, the San Luis Obispo Council of Governments, the Santa Barbara County Association of Governments, and the Ventura County Transportation Commission. For the purposes of this section, "authority" means the expanded board of the Southern California Regional Rail Authority. Only the expanded board or authority, not the Southern California Regional Rail Authority board existing on July 1, 1996, may exercise jurisdiction over intercity rail matters for the service area of the authority. For purposes of taking action on intercity rail issues, including, but not limited to, equipment, funding, legislation, marketing, and operations, the member agency from each county shall be allowed one vote. Representation shall be limited to one agency per county.

14072.4. Membership in the expanded Southern California Regional Rail Authority shall be one voting representative from each

of the designated member agencies. Members shall be appointed from each of the member agencies annually.

14074.6. This article shall be applicable only if the entities to be represented on the authority enter into a joint exercise of powers agreement to expand the authority, and elect to become a party to an interagency transfer agreement pursuant to Article 5 (commencing with Section 14070).

SEC. 9. Article 5.4 (commencing with Section 14074) is added to Chapter 1 of Part 5 of Division 3 of Title 2 of the Government Code, to read:

Article 5.4. San Joaquin Corridor

14074. As used in this article, the following terms have the following meanings:

(a) "Board" means the governing board of the San Joaquin Corridor Joint Powers Agency established pursuant to Section 14074.2.

(b) "San Joaquin Corridor" or "corridor" means the Los Angeles-Bakersfield-Fresno-Stockton-Sacramento- Oakland rail corridor.

14074.2. (a) The San Joaquin Corridor Joint Powers Agency may be established by agreement of the represented agencies for the purpose of assuming responsibility for intercity passenger rail services in the San Joaquin Corridor.

(b) The board shall be composed of the following 19 members:

(1) One member from the Capitol Corridor Joint Powers Board, if that board is in existence.

(2) One member from the County of Sacramento, appointed by the board of supervisors of that county.

(3) One member from the County of Los Angeles, appointed by the board of supervisors of that county.

(4) Two members each from the Counties of Fresno, Kern, Kings, Madera, Merced, San Joaquin, Stanislaus, and Tulare, appointed by the board of supervisors of the respective county. Each county shall appoint one member who is an elected official and one who is a private citizen.

14074.6. This article shall be applicable only if the entities that would be represented on the board enter into a joint exercise of powers agreement to form the agency, and elect to become a party to an interagency transfer agreement pursuant to Article 5 (commencing with Section 14070).

SEC. 10. Article 5.6 (commencing with Section 14076) is added to Chapter 1 of Part 5 of Division 3 of Title 2 of the Government Code, to read:

Article 5.6. Capitol Corridor

14076. As used in this article, the following terms have the following meanings:

(a) "Board" means the Capitol Corridor Joint Powers Board created by Section 14076.2.

(b) "Capitol Corridor" or "corridor" means the Colfax-Sacramento-Suisun City-Oakland-San Jose rail corridor.

14076.2. (a) There is hereby created the Capitol Corridor Joint Powers Board, subject to being organized pursuant to subdivision (b). The board shall be composed of not more than the following 16 members:

(1) Six members of the San Francisco Bay Area Rapid Transit District Board of Directors, appointed by the board of directors of that district, as follows:

(A) Two who are residents of Alameda County.

(B) Two who are residents of Contra Costa County.

(C) Two who are residents of the City and County of San Francisco.

(2) Two members of the Board of Directors of the Sacramento Regional Transit District, appointed by the board of directors of that district.

(3) Two members of the Board of Directors of the Santa Clara County Transit District, appointed by the board of directors of that district.

(4) Two members of the county congestion management agency for that County of Yolo, appointed by that agency.

(5) Two members of the county congestion management agency for the County of Solano, appointed by that agency.

(6) Two members of the Placer County Transportation Planning Agency, appointed by that agency.

(b) The board shall be organized when at least two of the jurisdictions described in paragraphs (1) to (6), inclusive, of subdivision (a) elect to appoint members to serve on the board. Only those jurisdictions that appoint members to serve on the board prior to December 31, 1996, shall be member-agencies of the board.

14076.4. If the board and the department enter into an interagency transfer agreement pursuant to Article 5 (commencing with Section 14070), for an initial period, that begins with the transfer of responsibilities from the department to the board and continues for a three-year period subsequent to the completion of the track and signal improvements between Sacramento and Emeryville, the San Francisco Bay Area Rapid Transit District General Manager and the district's administrative staff shall, if that district has appointed members to the board in accordance with Section 14076.2, provide all necessary administrative support to the board to perform its duties and responsibilities, and may perform for the board any and all activities that they are authorized to perform for the district. At the

conclusion of the initial period, the board may, through procedures that it determines, select the San Francisco Bay Area Rapid Transit District or another existing public rail transit agency for a three-year term to provide all necessary administrative support staff to the board to perform its duties and responsibilities.

14076.6. The board shall make its decisions in accordance with the votes of its members, requiring a majority vote for all matters with the exception of the approval of the business plan, and revisions, which shall require a vote of two-thirds of the members.

14076.8. For the purpose of carrying out its responsibilities pursuant to this article, the board may seek funds from any jurisdiction served by the Capitols passenger rail service for enhanced service.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that improved and expanded passenger rail services may be realized at the earliest possible time, it is necessary for this act to take effect immediately.

CHAPTER 264

An act to amend Section 339 of the Streets and Highways Code, relating to highways.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to continue State Highway Route 39 as a state highway within the Angeles National Forest because of its unique character and regional importance for access to the Angeles National Forest.

It is the further intent of the Legislature, if a portion of State Highway Route 39 is relinquished to the City of Azusa pursuant to subdivision (d) of Section 339 of the Streets and Highways Code, that the city not incur additional costs in connection with the city assuming responsibility for maintenance and operation of the relinquished portion.

SEC. 2. Section 339 of the Streets and Highways Code is amended to read:

339. Route 39 is from:

(a) Route 1 near Huntington Beach to Route 72 in La Habra via Beach Boulevard.

(b) Beach Boulevard to Harbor Boulevard in La Habra via Whittier Boulevard.

(c) Whittier Boulevard in La Habra to Route 2 via Harbor Boulevard to the vicinity of Fullerton Road, then to Azusa Avenue, Azusa Avenue to San Gabriel Canyon Road, San Gabriel Avenue southbound between Azusa Avenue and San Gabriel Canyon Road, and San Gabriel Canyon Road.

The department shall not assume maintenance of any portion of Route 39 until that portion has been constructed or reconstructed to the minimum state highway standards established pursuant to Sections 81 and 2109.

(d) Notwithstanding subdivision (c), the portion of Route 39 that is within the city limits of the City of Azusa, except that portion that is north of post mile 17, shall cease to be a state highway when the department and the City of Azusa reach agreement on the terms of the relinquishment of that portion of Route 39 to that city. The terms of the relinquishment agreement shall require that any lump-sum payment from the department to the City of Azusa be deposited by that city in a special account and used solely for improvements on Azusa Avenue and San Gabriel Avenue in the City of Azusa.

CHAPTER 265

An act to add Section 11521 to the Vehicle Code, relating to vehicles.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 11521 is added to the Vehicle Code, to read:

11521. No person required to be licensed as an automobile dismantler under this code shall advertise the services of an automobile dismantler without indicating in the advertisement the occupational license or permit number of the automobile dismantler as issued by the department.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative

on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 266

An act to add Section 102122 to the Public Utilities Code, relating to transportation.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 102122 is added to the Public Utilities Code, to read:

102122. (a) The board of directors may adopt ordinances that do any of the following:

(1) Prohibit persons from knowingly giving false identification to a district employee engaged in the enforcement of district ordinances or state laws, or otherwise obstructing the issuance of a citation for violation of district ordinances or state law.

(2) Prohibit unauthorized operation of, interference with, entry into, climbing upon, attaching to, or loitering on or in transit facilities or other transit property.

(3) Prohibit the removal, displacement, injury, destruction, or obstruction of any part of any track, switch, turnout, bridge, culvert, or any other district structure or fixture.

(4) Specifying conditions under which a passenger may board a district vehicle with a bicycle and where the bicycle may be stowed.

(b) The board may provide that a violation of any ordinance adopted pursuant to subdivision (a) is an infraction punishable by a fine not exceeding seventy-five dollars ($75), and that a violation by a person after the second conviction is punishable by a fine not to exceed two hundred fifty dollars ($250) and by community service for a total time not to exceed 48 hours over a period not to exceed 30 days which do not conflict with the violator's hours of school attendance or employment.

(c) The board may designate persons regularly employed by a district as inspectors or supervisors whose duties shall include enforcement of district ordinances adopted under subdivision (a), Sections 640 and 640.5 of the Penal Code, and Section 22656 of the Vehicle Code. The designated persons shall have the authority set forth in Section 836.5 of the Penal Code.

(d) This section does not prohibit any person from engaging in activities that are protected under the laws of the United States or of

California, including, but not limited to, picketing, demonstrating, or distributing handbills.

CHAPTER 267

An act to amend Section 3068.1 of the Civil Code, relating to vehicles.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 3068.1 of the Civil Code is amended to read:

3068.1. (a) Every person has a lien dependent upon possession for the compensation to which the person is legally entitled for towing, storage, or labor associated with recovery or load salvage of any vehicle subject to registration that has been authorized to be removed by a public agency, a private property owner pursuant to Section 22658 of the Vehicle Code, or a lessee, operator, or registered owner of the vehicle. The lien is deemed to arise on the date of possession of the vehicle. Possession is deemed to arise when the vehicle is removed and is in transit, or when vehicle recovery operations or load salvage operations have begun. A person seeking to enforce a lien for the storage and safekeeping of a vehicle shall impose no charge exceeding that for one day of storage if, 24 hours or less after the vehicle is placed in storage, the vehicle is released. If the release is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full, calendar-day basis for each day, or part thereof, that the vehicle is in storage. If a request to release the vehicle is made and the appropriate fees are tendered and documentation establishing that the person requesting release is entitled to possession of the vehicle, or is the owner's insurance representative, is presented within the initial 24 hours of storage, and the storage facility fails to comply with the request to release the vehicle or is not open for business during normal business hours, then only one day's charge may be required to be paid until after the first business day. A "business day" is any day in which the lienholder is open for business to the public for at least eight hours. If the request is made more than 24 hours after the vehicle is placed in storage, charges may be imposed on a full-calendar day basis for each day, or part thereof, that the vehicle is in storage.

(b) If the vehicle has been determined to have a value not exceeding two thousand five hundred dollars ($2,500), the lien shall be satisfied pursuant to Section 3072. Lien-sale proceedings pursuant to Section 3072 shall commence within 15 days of the date the lien arises. No storage shall accrue beyond the 15-day period unless

lien-sale proceedings pursuant to Section 3072 have commenced. The storage lien may be for a period not exceeding 60 days if a completed notice of a pending lien sale form has been filed pursuant to Section 3072 within 15 days after the lien arises. Notwithstanding this 60-day limitation, the storage lien may be for a period not exceeding 120 days if any one of the following occurs:

(1) A Declaration of Opposition is filed with the department pursuant to Section 3072.

(2) The vehicle has an out-of-state registration.

(3) The vehicle identification number was altered or removed.

(4) A person who has an interest in the vehicle becomes known to the lienholder after the lienholder has complied with subdivision (b) of Section 3072.

(c) If the vehicle has been determined to have a value exceeding two thousand five hundred dollars ($2,500) pursuant to Section 22670 of the Vehicle Code, the lien shall be satisfied pursuant to Section 3071. The storage lien may be for a period not exceeding 120 days if an application for an authorization to conduct a lien sale has been filed pursuant to Section 3071.

(d) Any lien under this section shall be extinguished, and no lien sale shall be conducted, if any one of the following occurs:

(1) The lienholder, after written demand to inspect the vehicle made by either personal service or certified mail with return receipt requested by the legal owner or the lessor, fails to permit the inspection by the legal owner or lessor, or his or her agent, within a period of time of at least 24 hours, but not to exceed 72 hours, after the receipt of that written demand, during the normal business hours of the lienholder. The legal owner or lessor shall comply with inspection and vehicle release policies of the impounding public agency.

(2) The amount claimed for storage exceeds the posted rates.

CHAPTER 268

An act to amend Sections 25100 and 25608 of the Corporations Code, relating to corporations.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 25100 of the Corporations Code is amended to read:

25100. The following securities are exempted from Sections 25110, 25120, and 25130:

(a) Any security (including a revenue obligation) issued or guaranteed by the United States, any state, any city, county, city and county, public district, public authority, public corporation, public entity, or political subdivision of a state or any agency or corporate or other instrumentality of any one or more of the foregoing; or any certificate of deposit for any of the foregoing.

(b) Any security issued or guaranteed by the Dominion of Canada, any Canadian province, any political subdivision or municipality of that province, or by any other foreign government with which the United States currently maintains diplomatic relations, if the security is recognized as a valid obligation by the issuer or guarantor; or any certificate of deposit for any of the foregoing.

(c) Any security issued or guaranteed by and representing an interest in or a direct obligation of a national bank or a bank or trust company incorporated under the laws of this state, and any security issued by a bank to one or more other banks and representing an interest in an asset of the issuing bank.

(d) Any security issued or guaranteed by a federal savings and loan association or federal savings bank or federal land bank or joint land bank or national farm loan association or by any savings association, as defined in subdivision (a) of Section 5102 of the Financial Code, which is subject to the supervision and regulation of the Savings and Loan Commissioner of this state.

(e) Any security (other than an interest in all or portions of a parcel or parcels of real property which are subdivided land or a subdivision or in a real estate development), the issuance of which is subject to authorization by the Insurance Commissioner, the Public Utilities Commission, or the Real Estate Commissioner of this state.

(f) Any security consisting of any interest in all or portions of a parcel or parcels of real property which are subdivided lands or a subdivision or in a real estate development; provided that the exemption in this subdivision shall not be applicable to any investment contract sold or offered for sale with, or as part of, any such interest, or to any person engaged in the business of selling, distributing, or supplying water for irrigation purposes or domestic use which is not a public utility.

(g) Any mutual capital certificates or savings accounts, as defined in the Savings Association Law, issued by a savings association, as defined by subdivision (a) of Section 5102 of the Financial Code, and holding a license or certificate of authority then in force from the Savings and Loan Commissioner of this state.

(h) Any security issued or guaranteed by any federal credit union, or by any credit union organized and supervised, or regulated, under the Credit Union Law.

(i) Any security issued or guaranteed by any railroad, other common carrier, public utility, or public utility holding company which is (1) subject to the jurisdiction of the Interstate Commerce Commission or (2) a holding company registered with the Securities

and Exchange Commission under the Public Utility Holding Company Act of 1935 or a subsidiary of that company within the meaning of that act or (3) regulated in respect of the issuance or guarantee of the security by a governmental authority of the United States, of any state, of Canada or of any Canadian province; and the security is subject to registration with or authorization of issuance by that authority.

(j) Any security (except evidences of indebtedness, whether interest bearing or not) of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit, if no part of the net earnings of the issuer inures to the benefit of any private shareholder or individual, or (2) organized as a chamber of commerce or trade or professional association. The fact that amounts received from memberships or dues or both will or may be used to construct or otherwise acquire facilities for use by members of the nonprofit organization does not disqualify the organization for this exemption. This exemption does not apply to the securities of any nonprofit organization if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the organization or operation of that nonprofit organization or from remuneration received from that nonprofit organization.

(k) Any agreement, commonly known as a "life income contract," of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit and (2) which the commissioner designates by rule or order, with a donor in consideration of a donation of property to that issuer and providing for the payment to the donor or persons designated by him or her of income or specified periodic payments from the donated property or other property for the life of the donor or those other persons.

(*l*) Any note, draft, bill of exchange, or banker's acceptance which is freely transferable and of prime quality, arises out of a current transaction or the proceeds of which have been or are to be used for current transactions, and which evidences an obligation to pay cash within nine months of the date of issuance, exclusive of days of grace, or any renewal of that paper which is likewise limited, or any guarantee of that paper or of any such renewal, provided that the paper is not offered to the public in amounts of less than twenty-five thousand dollars ($25,000) in the aggregate to any one purchaser. In addition, the commissioner may, by rule or order, exempt any issuer of any notes, drafts, bills of exchange or banker's acceptances from qualification of those securities when the commissioner finds that the qualification is not necessary or appropriate in the public interest or for the protection of investors.

(m) Any security issued by any corporation organized and existing under the provisions of Chapter 1 (commencing with Section 54001) of Division 20 of the Food and Agricultural Code.

(n) Any beneficial interest in an employees' pension, profit-sharing, stock bonus or similar benefit plan which meets the requirements for qualification under Section 401 of the federal Internal Revenue Code or any statute amendatory thereof or supplementary thereto. A determination letter from the Internal Revenue Service stating that an employees' pension, profit-sharing, stock bonus or similar benefit plan meets those requirements shall be conclusive evidence that the plan is an employees' pension, profit-sharing, stock bonus or similar plan within the meaning of the first sentence of this subdivision until the date the determination letter is revoked in writing by the Internal Revenue Service, regardless of whether or not the revocation is retroactive.

(o) Any security listed or approved for listing upon notice of issuance on a national securities exchange or designated or approved for designation upon notice of issuance as a national market system security on an interdealer quotation system by the National Association of Securities Dealers, Inc., if the exchange or interdealer quotation system has been certified by rule or order of the commissioner and any warrant or right to purchase or subscribe to the security. The exemption afforded by this subdivision does not apply to securities listed or designated, or approved for listing or designation upon notice of issuance, in a rollup transaction unless the rollup transaction is an eligible rollup transaction as defined in Section 25014.7.

That certification of any exchange or system shall be made by the commissioner upon the written request of the exchange or system if the commissioner finds that the exchange or system: (i) in acting on applications for listing of common stock substantially applies the minimum standards set forth in either alternative (A) or (B) of paragraph (1), and (ii) in considering suspension or removal from listing or designation, substantially applies each of the criteria set forth in paragraph (2).

(1) Listing standards:

(A) (i) Shareholders' equity of at least four million dollars ($4,000,000).

(ii) Pretax income of at least seven hundred fifty thousand dollars ($750,000) in the issuer's last fiscal year or in two of its last three fiscal years.

(iii) Minimum public distribution of 500,000 shares (exclusive of the holdings of officers, directors, controlling shareholders, and other concentrated or family holdings), together with a minimum of 800 public holders or minimum public distribution of 1,000,000 shares together with a minimum of 400 public holders. The exchange or system may also consider the listing or designation of a company's securities if the company has a minimum of 500,000 shares publicly

held, a minimum of 400 shareholders and daily trading volume in the issue has been approximately 2,000 shares or more for the six months preceding the date of application. In evaluating the suitability of an issue for listing or designation under this trading provision, the exchange or system shall review the nature and frequency of that activity and any other factors as it may determine to be relevant in ascertaining whether the issue is suitable for trading. A security which trades infrequently shall not be considered for listing or designation under this paragraph even though average daily volume amounts to 2,000 shares per day or more.

Companies whose securities are concentrated in a limited geographical area, or whose securities are largely held in block by institutional investors, normally may not be considered eligible for listing or designation unless the public distribution appreciably exceeds 500,000 shares.

(iv) Minimum price of three dollars ($3) per share for a reasonable period of time prior to the filing of a listing or designation application; provided, however, in certain instances an exchange or system may favorably consider listing an issue selling for less than three dollars ($3) per share after considering all pertinent factors, including market conditions in general, whether historically the issue has sold above three dollars ($3) per share, the applicant's capitalization, and the number of outstanding and publicly held shares of the issue.

(v) An aggregate market value for publicly held shares of at least three million dollars ($3,000,000).

(B) (i) Shareholders' equity of at least four million dollars ($4,000,000).

(ii) Minimum public distribution set forth in clause (iii) of subparagraph (A) of paragraph (1).

(iii) Operating history of at least three years.

(iv) An aggregate market value for publicly held shares of at least fifteen million dollars ($15,000,000).

(2) Criteria for consideration of suspension or removal from listing:

(i) If a company which (A) has shareholders' equity of less than one million dollars ($1,000,000) has sustained net losses in each of its two most recent fiscal years, or (B) has net tangible assets of less than three million dollars ($3,000,000) and has sustained net losses in three of its four most recent fiscal years.

(ii) If the number of shares publicly held (excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings) is less than 150,000.

(iii) If the total number of shareholders is less than 400 or if the number of shareholders of lots of 100 shares or more is less than 300.

(iv) If the aggregate market value of shares publicly held is less than seven hundred fifty thousand dollars ($750,000).

(v) If shares of common stock sell at a price of less than three dollars ($3) per share for a substantial period of time and the issuer shall fail to effectuate a reverse stock split of the shares within a reasonable period of time after being requested by the exchange to take that action.

A national securities exchange or interdealer quotation system of the National Association of Securities Dealers, Inc. certified by rule or order of the commissioner under this subdivision shall file annual reports when requested to do so by the commissioner. The annual reports shall contain, by issuer: the variances granted to an exchange's listing standards or interdealer quotation system's designation criteria, including variances from corporate governance and voting rights' standards, for any security of that issuer; the reasons for the variances; a discussion of the review procedure instituted by the exchange or interdealer quotation system to determine the effect of the variances on investors and whether the variances should be continued; and any other information that the commissioner deems relevant. The purpose of these reports is to assist the commissioner in determining whether the quantitative and qualitative requirements of this subdivision are substantially being met by the exchange or system in general or with regard to any particular security.

The commissioner after appropriate notice and opportunity for hearing in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, may, in his or her discretion, by rule or order, decertify any exchange or interdealer quotation system previously certified which ceases substantially to apply the minimum standards or criteria as set forth in paragraphs (1) and (2).

A rule or order of certification shall conclusively establish that any security listed or approved for listing upon notice of issuance on any exchange, or designated or approved for designation upon issuance as a national market system security on any interdealer quotation system, named in a rule or order of certification, and any warrant or right to purchase or subscribe to any such security, is exempt under this subdivision until the adoption by the commissioner of any rule or order decertifying the exchange or interdealer quotation system.

(p) A promissory note secured by a lien on real property, which is neither one of a series of notes of equal priority secured by interests in the same real property nor a note in which beneficial interests are sold to more than one person or entity.

(q) Any unincorporated interindemnity or reciprocal or interinsurance contract, which qualifies under the provisions of Section 1280.7 of the Insurance Code, between members of a cooperative corporation, organized and operating under Part 2 (commencing with Section 12200) of Division 3 of Title 1, and whose members consist only of physicians and surgeons licensed in

California, which contracts indemnify solely in respect to medical malpractice claims against the members, and which do not collect in advance of loss any moneys other than contributions by each member to a collective reserve trust fund or for necessary expenses of administration.

(1) Whenever it appears to the commissioner that any person has engaged or is about to engage in any act or practice constituting a violation of any provision of Section 1280.7 of the Insurance Code, the commissioner may in the commissioner's discretion bring an action in the name of the people of the State of California in the superior court to enjoin the acts or practices or to enforce compliance with Section 1280.7 of the Insurance Code. Upon a proper showing a permanent or preliminary injunction, restraining order or writ of mandate shall be granted and a receiver or conservator may be appointed for the defendant or the defendant's assets.

(2) The commissioner may, in the commissioner's discretion, (A) make such public or private investigations within or outside of this state as the commissioner deems necessary to determine whether any person has violated or is about to violate any provision of Section 1280.7 of the Insurance Code or to aid in the enforcement of Section 1280.7, and (B) publish information concerning the violation of Section 1280.7.

(3) For the purpose of any investigation or proceeding under this section, the commissioner or any officer designated by the commissioner may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the commissioner deems relevant or material to the inquiry.

(4) In case of contumacy by, or refusal to obey a subpoena issued to, any person, the superior court, upon application by the commissioner, may issue to the person an order requiring the person to appear before the commissioner, or the officer designated by the commissioner, there to produce documentary evidence, if so ordered, or to give evidence touching the matter under investigation or in question. Failure to obey the order of the court may be punished by the court as a contempt.

(5) No person is excused from attending or testifying or from producing any document or record before the commissioner or in obedience to the subpoena of the commissioner or any officer designated by the commissioner, or in any proceeding instituted by the commissioner, on the ground that the testimony or evidence (documentary or otherwise), required of the person may tend to incriminate the person or subject the person to a penalty or forfeiture, but no individual may be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which the person is compelled, after validly claiming the privilege against self-incrimination, to testify or produce

evidence (documentary or otherwise), except that the individual testifying is not exempt from prosecution and punishment for perjury or contempt committed in testifying.

(6) The cost of any review, examination, audit, or investigation made by the commissioner under Section 1280.7 of the Insurance Code shall be paid to the commissioner by the person subject to the review, examination, audit, or investigation, and the commissioner may maintain an action for the recovery of these costs in any court of competent jurisdiction. In determining the cost, the commissioner may use the actual amount of the salary or other compensation paid to the persons making the review, examination, audit, or investigation plus the actual amount of expenses including overhead reasonably incurred in the performance of the work.

The recoverable cost of each review, examination, audit, or investigation made by the commissioner under Section 1280.7 of the Insurance Code shall not exceed twenty-five thousand dollars ($25,000), except that costs exceeding twenty-five thousand dollars ($25,000) shall be recoverable if the costs are necessary to prevent a violation of any provision of Section 1280.7 of the Insurance Code.

(r) Any shares or memberships issued by any corporation organized and existing pursuant to the provisions of Part 2 (commencing with Section 12200) of Division 3 of Title 1, provided the aggregate investment of any shareholder or member in shares or memberships sold pursuant to this subdivision does not exceed three hundred dollars ($300). This exemption does not apply to the shares or memberships of any such corporation if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the corporation or the operation of the corporation or from remuneration, other than reasonable salary, received from the corporation. This exemption does not apply to nonvoting shares or memberships of any such corporation issued to any person who does not possess, and who will not acquire in connection with the issuance of nonvoting shares or memberships, voting power (Section 12253) in the corporation. This exemption also does not apply to shares or memberships issued by a nonprofit cooperative corporation organized to facilitate the creation of an unincorporated interindemnity arrangement that provides indemnification for medical malpractice to its physician and surgeon members as set forth in subdivision (q).

(s) Any security consisting of or representing an interest in a pool of mortgage loans which meets each of the following requirements:

(1) The pool consists of whole mortgage loans or participation interests in those loans, which loans were originated or acquired in the ordinary course of business by a national bank or federal savings and loan association or federal savings bank having its principal office in this state, by a bank incorporated under the laws of this state or by a savings association as defined in subdivision (a) of Section 5102 of the Financial Code and which is subject to the supervision and

regulation of the Savings and Loan Commissioner, which at the time of transfer to the pool is an authorized investment for such originating or acquiring institution.

(2) The pool of mortgage loans is held in trust by a trustee which is a financial institution specified in paragraph (1) as trustee or otherwise.

(3) The loans are serviced by a financial institution specified in paragraph (1).

(4) The security is not offered in amounts of less than twenty-five thousand dollars ($25,000) in the aggregate to any one purchaser.

(5) The security is offered pursuant to a registration under the Securities Act of 1933, or pursuant to an exemption under Regulation A under that act, or in the opinion of counsel for the issuer, is offered pursuant to an exemption under Section 4(2) of that act.

(t) Any security issued by an issuer registered as an open-end management company or unit investment trust under the Investment Company Act of 1940, provided that all the following requirements are met:

(1) The registration statement for the securities is currently effective under the Securities Act of 1933.

(2) Prior to any offer or sale in this state of securities claimed to be exempt under this subdivision, there is filed with or paid to the commissioner each of the following:

(A) A notice of intention to sell that has been executed by the issuer and that includes the name and address of the issuer and the name of the securities to be offered and sold under this subdivision.

(B) A copy of the current prospectus to be used in the offer and sale of the security.

(C) The fee provided in subdivision (f) of Section 25608.

If any offer or sale is made pursuant to this exemption more than 12 months after the date the notice was filed under this subdivision, the issuer shall file another notice of intention to sell, a copy of the prospectus the issuer is currently utilizing for the purpose of making that offer, and the fee specified in subparagraph (C) of paragraph (2).

SEC. 2. Section 25608 of the Corporations Code is amended to read:

25608. (a) The commissioner shall charge and collect the fees fixed in this section. All fees charged and collected under this section shall be transmitted to the Treasurer at least weekly, accompanied by a detailed statement thereof and shall be credited to the State Corporations Fund.

(b) The fee for filing an application for a negotiating permit under subdivision (c) of Section 25102 is fifty dollars ($50).

(c) The fee for filing a notice pursuant to paragraph (5) of subdivision (h) of Section 25102 and the fee for filing a notice pursuant to paragraph (4) of subdivision (f) of Section 25102, in addition to the fee prescribed in those paragraphs, if applicable, shall

be determined based on the value of the securities proposed to be sold in the transaction for which the notice is filed and in accordance with subdivision (g), and shall be as follows:

Value of Securities Proposed to be Sold	Filing Fee
$25,000 or less	$ 25
$25,001 to $100,000	$ 35
$100,001 to $500,000	$ 50
$500,001 to $1,000,000	$150
Over $1,000,000	$300

(d) The fee for filing an application for designation of an issuer pursuant to subdivision (k) of Section 25100 is fifty dollars ($50).

(e) The fee for filing an application for qualification of the sale of securities by notification under Section 25112 or by permit under paragraph (1) of subdivision (b) of Section 25113 (except applications for qualification by permit of the sale of any guarantee of any security, the fees for which applications are fixed in subdivision (k)) is two hundred dollars ($200) plus one-fifth of 1 percent of the aggregate value of the securities sought to be sold in this state up to a maximum aggregate fee of two thousand five hundred dollars ($2,500).

The fee for filing a small company application for qualification of the sale of securities by permit under paragraph (2) of subdivision (b) of Section 25113 is two thousand five hundred dollars ($2,500). In the case where the costs of processing a small company application exceed the filing fee, an additional fee shall be charged, not to exceed one thousand dollars ($1,000), over and above the filing fee based on the costs of the salary or other compensation paid to persons processing the application plus overhead costs reasonably incurred in the performance of the work. In determining the costs, the commissioner may use the estimated average hourly cost for all persons processing applications for the fiscal year.

(f) The fee for filing an application for qualification of the sale of securities by coordination under Section 25111 or a notice of intention to sell under subdivision (t) of Section 25100 is two hundred dollars ($200) plus one-fifth of 1 percent of the aggregate value of the securities sought to be sold in this state up to a maximum aggregate fee of two thousand five hundred dollars ($2,500).

(g) For the purpose of determining the fees fixed in subdivisions (e) and (f):

(1) The value of the securities shall be the price at which the company proposes to sell the securities, or the value, as alleged in the application, or the actual value, as determined by the commissioner, of the consideration (if other than money) to be received in

exchange therefor, or of the securities when sold, whichever is greater.

(2) Interim or voting trust certificates shall have a value equal to the aggregate value of the securities to be represented by the interim or voting trust certificates.

(3) The value of a warrant or right to purchase or subscribe to another security of the same or another issuer shall be an amount equal to the consideration to be paid for that warrant or right plus an amount equal to the consideration to be paid upon purchase of the additional securities, provided that if the latter amount is not determinable at the time of qualification, that amount shall then be the value of the additional securities as determined by the commissioner.

(4) In the case of a share dividend where the shareholders are given an option to accept either cash or additional shares of common stock, the value of the securities to be sold shall be the maximum amount of cash that would be payable in the event that all shareholders elected to accept cash.

(h) The fee for filing an application for qualification of the sale of securities by permit under Section 25121 is:

(1) Two hundred dollars ($200) in connection with any change (including any stock split or reverse stock split or stock dividend, except a stock dividend where the shareholders are given an option to accept either cash or additional shares of common stock) in the rights, preferences, privileges, or restrictions of or on outstanding securities.

(2) Two hundred dollars ($200) plus one-fifth of 1 percent of the value, as alleged in the application, or the actual value, as determined by the commissioner, of the consideration to be received in exchange therefor, up to a maximum aggregate fee of two thousand five hundred dollars ($2,500), in any exchange of securities by the issuer with its existing security holders exclusively, or in any exchange in connection with any merger or consolidation or purchase of corporate assets in consideration of the issuance of securities.

(i) The fee for filing an application for qualification of the sale of securities by notification under Section 25131 shall be one hundred dollars ($100).

(j) The fee for an application for the removal of any condition under Section 25141 is fifty dollars ($50).

(k) The fee for filing any application for a permit to execute or issue any guarantee of any security is fifty dollars ($50).

(*l*) The fee for acting as escrow holder for securities under Section 25149 is fifty dollars ($50). In addition, a fee of two dollars and fifty cents ($2.50) shall be paid for the deposit with the commissioner of each new certificate or other document resulting from a transfer in escrow.

(m) The fee for filing an application for an order (1) consenting to the transfer in escrow of securities or (2) consenting to the transfer

of securities subject to any condition imposed by the commissioner requiring the commissioner's consent to the transfer is twenty dollars ($20) for each transfer.

(n) The filing fee for an amendment to an application filed after the effective date of the qualification of the sale of securities is fifty dollars ($50) plus any additional fee that would have been required to be paid with the original application for qualification of the sale of securities under this section if the matters set forth in the amendment had been included in the original application.

(o) (1) The fee for filing an application for a broker-dealer certificate under Section 25211 is three hundred dollars ($300).

(2) Each broker-dealer shall pay to the commissioner its pro rata share of all costs and expenses, reasonably incurred in the administration of the broker-dealer program under this division, as estimated by the commissioner for the ensuing year and any deficit actually incurred or anticipated in the administration of the program in the year in which the assessment is made. The pro rata share shall be the proportion that the broker-dealer and the number of its agents in this state bears to the aggregate number of broker-dealers and agents in this state as shown by records maintained by or on behalf of the commissioner. The pro rata share may include the costs of any examinations, audit, or investigation provided for in subdivision (r).

(3) On or before the 30th day of May in each year, the commissioner shall notify each broker-dealer by mail of the amount assessed and levied against it and that amount shall be paid within 20 days thereafter. If payment is not made within 20 days, the commissioner shall assess and collect a penalty in addition to the assessment, of 1 percent of the assessment for each month or part of a month that the payment is delayed or withheld.

(4) In the levying and collection of the assessment, a broker-dealer shall not be assessed for, nor be permitted to pay, less than seventy-five dollars ($75) per year.

(5) In determining the amount assessed, the commissioner shall consider all appropriations from the State Corporations Fund for the support of the broker-dealer program under this division and all reimbursements applicable to the administration of the broker-dealer program under this division.

(6) If a broker-dealer fails to pay the assessment on or before the 30th day of June following the day upon which payment is due, the commissioner may by order summarily suspend or revoke the certificate issued to the broker-dealer. If, after that order is made, a request for hearing is filed in writing and a hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date. During any period when its certificate is revoked or suspended, a broker-dealer shall not conduct business pursuant to this division except as may be permitted by order of the commissioner; provided, however, that the revocation, suspension, or surrender of a certificate

shall not affect the powers of the commissioner as provided under this division.

(p) The commissioner shall charge a fee of twenty-five dollars ($25) for the filing of a notice or report required by rule adopted pursuant to subdivision (b) of Section 25210.

(q) The fee for filing an application for an investment adviser under Section 25231 is one hundred twenty-five dollars ($125), and payment of this amount shall keep the certificate, if granted, in effect during the calendar year during which it is granted. Every investment adviser who has secured from the commissioner a certificate shall, in order to keep the certificate in effect for an additional period, pay a renewal fee of one hundred twenty-five dollars ($125) on or before the 15th day of December preceding the additional period.

(r) The fee for any examination, audit, or investigation is the amount of the salary or other compensation paid to the persons making the examination, audit, or investigation plus the amount of expenses including overhead reasonably incurred in the performance of the work. In determining the costs associated with an examination, audit, or investigation, the commissioner may use the estimated average hourly cost for all persons performing examinations, audits, or investigations for the fiscal year.

(s) The fee for any hearing held by the commissioner pursuant to Section 25142 shall be the sum determined by the commissioner to cover the actual expense of noticing and holding the hearing.

(t) The commissioner may fix by rule a reasonable charge for any publications issued under his or her authority. The charges shall not apply to reports of the commissioner in the ordinary course of distribution.

(u) The fee for filing an offer under subdivision (b) of Section 25507 shall be the amount of filing fee payable under subdivision (e), (f), (h), or (i) of this section if an application had been filed to qualify the transaction in which the securities upon which the offer is to be made were sold in violation of the qualification provisions of this law.

(v) The fee for filing an application for exemption pursuant to subdivision (*l*) of Section 25100 is two hundred fifty dollars ($250).

(w) The commissioner may by rule require payment of a fee for filing a notice or report required by a rule adopted pursuant to Section 25105. The fee required in connection with a transaction as defined by that rule shall not exceed the fees specified in subdivision (c) based on the value of the securities sold, but the commissioner may permit a single notice for more than one transaction.

(x) The fee for filing the first notice of transaction under subdivision (n) of Section 25102 is six hundred dollars ($600).

(y) The fee for filing a notice of transaction under subdivision (o) of Section 25102 shall be the fee for filing an application for qualification of the sale of securities by permit under paragraph (1)

of subdivision (b) of Section 25113 as set forth in subdivision (e) of this section.

(z) The fee for filing a notice of transaction under subdivision (h) of Section 25103 shall be six hundred dollars ($600).

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 269

An act to amend Section 40709.6 of the Health and Safety Code, relating to air pollution.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 40709.6 of the Health and Safety Code is amended to read:

40709.6. (a) Increases in emissions of air pollutants at a stationary source located in a district may be offset by emission reductions credited to a stationary source located in another district if both stationary sources are located in the same air basin or, if not located in the same air basin, if all of the following requirements are met:

(1) The stationary source to which the emission reductions are credited is located in an upwind district that is classified as being in a worse nonattainment status than the downwind district pursuant to Chapter 10 (commencing with Section 40910).

(2) The stationary source at which there are emission increases to be offset is located in a downwind district that is overwhelmingly impacted by emissions transported from the upwind district, as determined by the state board pursuant to Section 39610.

(3) Any offset credited shall be approved by a resolution adopted by the governing board of the upwind district and the governing board of the downwind district. In adopting a resolution pursuant to this subdivision, each governing board shall consider the impact of the offset on air quality, public health, and the regional economy.

(b) The district, in which the stationary source to which emission reductions are credited is located, shall determine the type and quantity of the emission reductions to be credited.

(c) The district, in which the stationary source at which there are emission increases to be offset is located, shall do both of the following:

(1) Determine the impact of those emission reductions in mitigation of the emission increases in the same manner and to the same extent as the district would do so for fully credited emission reductions from sources located within its boundaries.

(2) Adopt a rule or regulation to discount the emission reductions credited to the stationary source in the other district. The discount shall not be less than the emission reduction for offsets from comparable sources located within the district boundaries.

CHAPTER 270

An act to amend Section 5023 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 5023 of the Vehicle Code is amended to read:

5023. (a) Any person described in Section 5101 may also apply for a set of commemorative Olympic reflectorized license plates and the department shall issue those special license plates in lieu of regular license plates. The commemorative Olympic reflectorized license plates shall be of a distinctive design and shall be available in a special series of letters or numbers, or both, as determined by the department after consultation with the United States Olympic Committee.

(b) In addition to the regular fees for an original registration or renewal of registration, the following special fees shall be paid:

(1) Fifty dollars ($50), inclusive of any administrative fees, for the initial issuance of the special plates.

(2) Fifteen dollars ($15) for the transfer of the special plates to another vehicle.

(3) Thirty-five dollars ($35) for duplicate, replacement commemorative Olympic reflectorized license plates of the same number in the series.

(4) Thirty dollars ($30) for the annual renewal of the special plates.

(c) When payment of renewal fees is not required as specified in Section 4000, or when the person determines to retain the plates upon sale, trade, or other release of the vehicle upon which the special plates have been displayed, the person shall notify the department and the person may retain the special plates.

(d) All revenue derived from the additional special fees provided in this section, less costs incurred by the department pursuant to this section, shall be deposited in the California Olympic Training Account in the General Fund established pursuant to Section 7592 of the Government Code.

(e) The department shall report to the Legislature the number of commemorative plates that have been issued and renewed pursuant to this section, the total revenue received for the issuance and renewal, the costs incurred by the department, and the amount deposited in the California Olympic Training Account.

The first report shall be submitted to the Legislature on December 31, 1991, and a report shall be submitted every two years thereafter, with a final report to be submitted on December 31, 2011.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to reduce, at the earliest possible time, the additional fee for the initial issuance of a set of commemorative Olympic reflectorized license plates in order to encourage sales of those plates, it is necessary that this act take effect immediately.

CHAPTER 271

An act to amend Section 44009 of the Public Resources Code, relating to solid waste, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 44009 of the Public Resources Code is amended to read:

44009. (a) (1) The board shall, in writing, concur or object to the issuance, modification, or revision of any solid waste facilities permit within 60 days of the board's receipt of any proposed solid waste facilities permit submitted under Section 44007 after consideration of the issues in this section.

(2) If the board determines that the permit is not consistent with the state minimum standards adopted pursuant to Section 43020, or

is not consistent with Sections 43040, 43600, 44007, 44010, 44017, 44150, and 44152 or Division 31 (commencing with Section 50000), the board shall object to provisions of the permit and shall submit those objections to the local enforcement agency for its consideration.

(3) If the board fails to concur or object in writing within 60 days, it shall be deemed to have concurred in the issuance of the permit as submitted to it.

(b) Notwithstanding subdivision (a), the board is not required to concur in, or object to, and shall not be deemed to have concurred in, the issuance of a solid waste facilities permit for a disposal facility if the owner or operator is not in compliance with, as determined by the regional water board, an enforcement order issued pursuant to Chapter 5 (commencing with Section 13300) of Division 7 of the Water Code, or if all of the following conditions exist:

(1) Waste discharge requirements for the disposal facility issued by the applicable regional water board are pending review in a petition before the state water board.

(2) The petition for review of the waste discharge requirements includes a request for a stay of the waste discharge requirements.

(3) The state water board has not taken action on the stay request portion of the pending petition for review of waste discharge requirements.

(c) In objecting to the issuance, modification, or revision of any solid waste facilities permit pursuant to this section, the board shall, based upon substantial evidence in the record on the matter before the board, state its reasons for objecting. The board shall not object to the issuance, modification, or revision of any solid waste facilities permit unless it finds that the permit is not consistent with the state minimum standards adopted pursuant to Section 43020, or is not consistent with Section 43040, 43600, 44007, 44010, 44017, 44150, or 44152 or Division 31 (commencing with Section 50000).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to facilitate the issuance, modification, and revision of solid waste facilities permits, thereby better protecting the environment and public health and safety by providing for the management of solid waste, it is necessary that this act take effect immediately.

CHAPTER 272

An act to add Section 31529.9 to the Government Code, relating to county retirement systems.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 31529.9 is added to the Government Code, to read:

31529.9. (a) In addition to the powers granted by Sections 31529, 31529.5, 31614, and 31732, the board of retirement and the board of investment may contract with the county counsel or with attorneys in private practice or employ staff attorneys for legal services.

(b) Notwithstanding Sections 31529.5 and 31580, the board shall pay, from system assets, reasonable compensation for the legal services.

(c) This section shall be applicable to any county of the 2nd class, 14th class, 15th class, or the 16th class as described by Sections 28020, 28023, 28035, 28036, and 28037.

SEC. 2. The Legislature finds and declares that this act is not intended to diminish, limit, or otherwise affect the power of a county board of retirement or investments to appoint, discharge, or otherwise administer and manage its employees under Section 31522.1 of the Government Code or other provisions of the County Employees Retirement Law of 1937 or Section 17 of Article XVI of the California Constitution.

CHAPTER 273

An act to amend Section 5943 of the Fish and Game Code, relating to fishing.

[Approved by Governor July 22, 1996. Filed with Secretary of State July 23, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 5943 of the Fish and Game Code is amended to read:

5943. (a) The owner of a dam shall accord to the public for the purpose of fishing, the right of access to the waters impounded by the dam during the open season for the taking of fish in the stream or river, subject to the regulations of the commission.

(b) Subdivision (a) does not apply to any impoundment of water by a dam that is wholly located on privately owned land that is primarily agricultural or residential in nature if the impounded waters are from a stream or river that is not naturally frequented by fish and if the dam does not prevent the free passage of fish over or around the dam. The Legislature finds and declares that this subdivision is intended to be declaratory of existing law.

CHAPTER 274

An act to add and repeal Chapter 4 (commencing with Section 18250) of Part 6 of Division 9 of the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 24, 1996. Filed with Secretary of State July 25, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 (commencing with Section 18250) is added to Part 6 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 4. SANTA CLARA COUNTY WRAP-AROUND SERVICES PILOT PROJECT

18250. (a) It is the intent of the Legislature that Santa Clara County be authorized to continue to provide children with service alternatives to group home care through the development of expanded family-based services currently provided through "Program UPLIFT." This program shall include individualized or "wrap-around" services, where services are wrapped around a child living with his or her birth parent, relative, adoptive parent, licensed or certified foster parent, or guardian. The wrap-around services developed under this section shall build on the strengths of each eligible child and family and be tailored to address their unique and changing needs.

(b) It is further the intent of the Legislature that the pilot project continuing "Program UPLIFT" include the following elements:

(1) Making available to the county the state share of nonfederal reimbursement for group home placement, minus the state share, if any, of any concurrent out-of-home placement costs, for children eligible under this chapter, for the purpose of allowing the county to develop family-based service alternatives.

(2) Enabling the county to access all possible sources of federal funds for the purpose of developing family-based service alternatives.

(3) Encouraging collaboration among persons and entities including, but not limited to, parents, county welfare departments, county mental health departments, county probation departments, county health departments, special education local planning agencies, school districts, and private service providers for the purpose of planning and providing individualized services for children and their birth or substitute families.

(4) Ensuring local community participation in the development and implementation of wrap-around services by county placing agencies and service providers.

(5) Preserving and using the service resources and expertise of nonprofit providers to develop family-based and community-based service alternatives.

18251. As used in this chapter:

(a) "County" means Santa Clara County.

(b) "County placing agency" means a county welfare or probation department, or a county mental health department with respect to those children placed pursuant to Section 7572.5 of the Government Code.

(c) "Eligible child" means a child who is any of the following:

(1) A child who has been adjudicated as either a dependent or ward of the juvenile court pursuant to Section 300, 601, or 602 and who would be placed in a group home licensed by the department at a rate classification level of 12 or higher.

(2) A child who would be voluntarily placed in out-of-home care pursuant to Section 7572.5 of the Government Code.

(3) A child who is currently placed in a group home licensed by the department at a rate classification level of 12 or higher.

(d) "Wrap-around services" means community-based intervention services that emphasize the strengths of the child and family and includes the delivery of coordinated, highly individualized unconditional services to address needs and achieve positive outcomes in their lives.

18252. Santa Clara County shall, at the county's option, develop a county plan for intensive wrap-around services and monitor the provision of those services in accordance with the plan. The county's plan shall include all the following elements:

(a) A process and protocol for reviewing the eligibility of children and families for service and for monitoring accessibility and availability of service to the targeted population. Children shall be determined as eligible for wrap-around services pursuant to subdivision (d) of Section 18251, except that:

(1) Once a child is determined to be eligible for wrap-around services under this chapter, he or she shall remain eligible for the time period specified in his or her individualized services plan.

(2) A child and family participating in a family maintenance services program as described in Section 16506 and the wrap-around services program, shall not be subject to the time limitations specified in Section 16506.

(b) A process to accept, modify, or deny proposed individualized service plans for eligible children and families.

(c) A process for parent support, mentoring, and advocacy that ensures parent understanding of, and participation in, wrap-around services programs.

(d) A planning and review process to support and facilitate the following principles in delivering intensive wrap-around services to eligible children and families:

(1) Focusing on an individual child and family through the creation of service plans designed specifically to address the unique needs and strengths of each child and his or her family.

(2) Providing services geared toward enabling children to remain in the least restrictive, most family-like setting possible.

(3) Developing a close collaborative relationship with each child's family in the planning and provision of wrap-around services.

(4) Conducting a thorough, strengths-based assessment of each child and family that will form the basis for the development of the individualized intervention plan.

(5) Designing and delivering services that incorporate the religious customs, and regional, racial, and ethnic values and beliefs of the children and families served.

18253. The county shall ensure that an evaluation of the pilot project is conducted to determine the cost and treatment effectiveness of outcomes such as family functioning and social performance, preventing placement in more restrictive environments, improving emotional and behavioral adjustments, school attendance, and academic performance for eligible children.

18254. (a) Reimbursement rates for intensive wrap-around services, under this pilot project, shall be based on the average cost of rate classification levels 12 to 14, inclusive, in Santa Clara County, minus the cost, if any, of concurrent out-of-home placement of those children.

(b) The annual maximum limit on funding available for the pilot project authorized by this chapter shall be based on the average cost, determined pursuant to subdivision (a), for 125 child welfare cases.

(c) The department shall reimburse to Santa Clara County, for the purpose of providing intensive wrap-around services, up to 100 percent of the state share of nonfederal funds, to be matched by Santa Clara County's share of cost as established by law, and to the extent permitted by federal law, up to 100 percent of the federal funds allocated for group home placements of eligible children, at the rate authorized pursuant to subdivision (a).

(d) These funds shall be remitted quarterly to the county as part of the child welfare allocation.

(e) State and, to the extent permitted by federal law, federal foster care funds shall remain with the administrative authority of the county welfare department, which may enter into an interagency agreement to transfer those funds, and shall be used to provide intensive wrap-around services.

(f) General Fund costs for the provision of benefits to eligible children pursuant to subdivision (c) of Section 18251 at rates authorized by subdivision (a) through the pilot project authorized by

this chapter shall not exceed the costs which would otherwise have been incurred had the eligible children been placed in a group home.

18255. The pilot project authorized by this chapter shall be limited to not more than 125 child welfare cases in any year.

18256. On or before July 1, 2001, Santa Clara County shall submit a report to the appropriate committees of the Legislature assessing the effectiveness of the pilot project authorized by this chapter, which shall include, but need not be limited to, all of the following:

(a) The effectiveness of the project in reducing the level of out-of-home services required, and in reducing the average length of stay in out-of-home care.

(b) A comparison of the cost of placement and services for children in the pilot project with the average cost of out-of-home placement for the same number of children.

18257. This chapter shall become inoperative on July 1, 2001, and, as of January 1, 2002, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2002, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure a continuous flow of uninterrupted funding for the innovative program providing services to severely emotionally disturbed children in Santa Clara County, it is necessary that this act take effect immediately.

CHAPTER 275

An act to amend Section 308 of the Welfare and Institutions Code, relating to juveniles.

[Approved by Governor July 24, 1996. Filed with Secretary of State July 25, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 308 of the Welfare and Institutions Code is amended to read:

308. (a) When a peace officer or social worker takes a minor into custody pursuant to this article, he or she shall take immediate steps to notify the minor's parent, guardian, or a responsible relative that the minor is in custody and that the child has been placed in a facility authorized by law to care for the child, and shall provide a telephone number at which the minor may be contacted. The confidentiality of the address of any licensed foster family home in which the child has been placed shall be maintained until the dispositional hearing, at

which time the judge may authorize, upon a finding of good cause, the disclosure of the address. However, the court may order the release of the address of the licensed foster family home to the minor's parent, guardian, or responsible relative upon notification of the licensed foster family home in cases where a petition to challenge jurisdiction or other motion to delay the dispositional hearing beyond 60 days after the hearing at which the minor was ordered removed or detained, pursuant to subdivision (b) of Section 352, is granted. Moreover, a foster parent may authorize the release of the address of the foster family home at any time during the placement. The county welfare department shall make a diligent and reasonable effort to ensure regular telephone contact between the parent and a child of any age, prior to the detention hearing, unless that contact would be detrimental to the child. The initial telephone contact shall take place as soon as practicable, but no later than five hours after the child is taken into custody.

(b) Immediately after being taken to a place of confinement pursuant to this article and, except where physically impossible, no later than one hour after he or she has been taken into custody, a minor 10 years of age or older shall be advised that he or she has the right to make at least two telephone calls from the place where he or she is being held, one call completed to his or her parent, guardian, or a responsible relative, and another call completed to an attorney. The calls shall be at public expense, if the calls are completed to telephone numbers within the local calling area, and in the presence of a public officer or employee. Any public officer or employee who willfully deprives a minor taken into custody of his or her right to make these telephone calls is guilty of a misdemeanor.

CHAPTER 276

An act to amend Section 15379.21 of the Government Code, relating to economic development.

[Approved by Governor July 24, 1996. Filed with Secretary of State July 25, 1996.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the California Community Colleges Economic Development Program, whose mission is described in Section 15379.21 of the Government Code, should be utilized to, among other things, train and retrain workers in order to attract prospective industry and retain existing industry in affected areas. The Legislature further finds and declares that it should therefore be a priority of the program to assist community colleges working in conjunction with local communities

experiencing military base downsizing or closure, or both, or the appropriate authority designated by that community.

SEC. 2. Section 15379.21 of the Government Code is amended to read:

15379.21. (a) The mission of the economic development program, subject to approval and amendment by the Board of Governors of the California Community Colleges, shall include, but not be limited to, all of the following:

(1) To advance California's economic growth and global competitiveness through quality education and services focusing on continuous work force improvement, technology deployment, and business development.

(2) To coordinate a community college response to meet statewide work force needs that attracts, retains, and expands businesses.

(3) To develop innovative solutions, as needed, in identified strategic priority areas, including, but not limited to, advanced transportation technologies, biotechnologies, small business applications, applied competitive technologies, including computer integrated manufacturing, production, and continuous quality improvement, environmental technologies, health care delivery, international trade, and work place literacy.

(4) To identify, acquire, and leverage resources to support local, regional, and statewide economic development.

(5) To create logistical, technical, and marketing infrastructure support for economic development activities within the California Community Colleges.

(6) To optimize access to community colleges' economic development services.

(7) To develop strategic public and private sector partnerships.

(8) To assist communities experiencing military base downsizing and closures.

(b) The board of governors and the chancellor may award grants to districts for leadership in accomplishing the mission and goals of the economic development program, as described in subdivision (a).

CHAPTER 277

An act to add Part 10.5 (commencing with Section 17211) and Part 23 (commencing with Section 38000) to, to repeal and add Part 10 (commencing with Section 15100) of, and to repeal Part 10.5 (commencing with Section 17900) and Part 23 (commencing with Section 39001) of, the Education Code, and to repeal Sections 53080, 53080.1, 53080.15, 53080.2, 53080.3, 53080.4, 53080.6, and 53081 of the Government Code, relating to school facilities.

[Approved by Governor July 24, 1996. Filed with
Secretary of State July 25, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Part 10 (commencing with Section 15100) of the Education Code is repealed.

SEC. 2. Part 10 (commencing with Section 15100) is added to the Education Code, to read:

PART 10. SCHOOL BONDS

CHAPTER 1. BONDS OF SCHOOL DISTRICTS AND COMMUNITY COLLEGE DISTRICTS

Article 1. Purposes for Authorizing Bonds

15100. Except as otherwise provided by law, the governing board of any school district or community college district may, when in its judgment it is advisable, and shall, upon a petition of the majority of the qualified electors residing in the school district or community college district, order the county superintendent of schools to call an election and submit to the electors of the district the question whether the bonds of the district shall be issued and sold for the purpose of raising money for the following purposes:

(a) The purchasing of school lots.

(b) The building or purchasing of school buildings.

(c) The making of alterations or additions to the school building or buildings other than as may be necessary for current maintenance, operation, or repairs.

(d) The repairing, restoring, or rebuilding of any school building damaged, injured, or destroyed by fire or other public calamity.

(e) The supplying of school buildings and grounds with furniture, equipment, or necessary apparatus of a permanent nature.

(f) The permanent improvement of the school grounds.

(g) The refunding of any outstanding valid indebtedness of the district, evidenced by bonds, or of state school building aid loans.

(h) The carrying out of the projects or purposes authorized in Section 17577 or 81613.

(i) The purchase of schoolbuses the useful life of which is at least 20 years.

(j) The demolition or razing of any school building with the intent to replace it with another school building, whether in the same location or in any other location.

Any one or more of the purposes enumerated, except that of refunding any outstanding valid indebtedness of the district evidenced by bonds, may, by order of the governing board entered in its minutes, be united and voted upon as one single proposition.

15101. Notwithstanding any provision of law to the contrary, no election shall be held pursuant to this chapter within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as the statewide election, subject to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code.

15102. The total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987–88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987–88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

15103. Notwithstanding any other provision of law, for the purpose of computing the limit on the amount of bonds which may be issued by a district pursuant to the provisions of this chapter, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowner's property tax exemption.

15105. For the purpose of the provisions of Sections 15102 and 15106 which require that the valuation as shown on the last equalized assessment roll be modified pursuant to Section 41201 or 84201, the "current year" as used in Section 41201 or 84201 shall be deemed to be the latest fiscal year for which there exists a last equalized county assessment roll as ascertained in accordance with Chapter 3 (commencing with Section 2050) of Part 3 of Division 1 of the Revenue and Taxation Code, and the term "two immediately preceding years" shall be deemed to be the two fiscal years immediately preceding the fiscal year for which the last equalized county assessment roll exists. Whenever in any year it becomes necessary to determine the modification under Sections 15102 and 15106, at a time between the date when the assessment roll for that year becomes the last equalized county assessment roll ascertained under Chapter 3 and the date when the factor for the current year is certified and becomes available, the factor for the current year shall be deemed to be 1.00.

15106. Any unified school district or community college district may issue bonds not to exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located.

In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(a) For the purposes of the State School Building Aid Law of 1952 with respect to applications for apportionments and apportionments filed or made prior to September 15, 1961, and to the repayment thereof, Chapter 6 (commencing with Section 15700) of this part, inclusive, only, any unified school district shall be considered to have a bonding capacity in the amount permitted by law for an elementary school district and a bonding capacity in the amount permitted by law for a high school district.

(b) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987–88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987–88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more school districts or community college districts subsequent to the 1987–88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district or community college district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15102.

15107. In computing the limitation of indebtedness of any school district or community college district of any kind or class heretofore or hereafter formed or organized, hereinafter in this section referred to as the "bonding district," the outstanding indebtedness of any previously existing district all or any part of which forms a component part of the bonding district and the outstanding indebtedness of any district for which any territory which has become a part of the bonding district is liable shall be excluded and shall not be deemed, for the purposes of computing the limitation of indebtedness under Section 15102 or 15106, to constitute outstanding indebtedness of the bonding district, except to the extent that the outstanding indebtedness has been expressly assumed by the bonding district by vote of not less than two-thirds of the electors of the bonding district

voting at an election at which the proposition of assuming the indebtedness is voted upon. Nothing herein contained shall operate to release any property from liability for taxes to pay the principal and interest of indebtedness incurred by any component district or for which any territory which has become a part of the bonding district is liable and in which the taxable property is located at the time of the incurring of the indebtedness. It is the intent of the Legislature to provide in this section a special method of computing the limitation of indebtedness of school districts or community college districts irrespective of liability of the area embraced within the school districts for the payment of any bonded indebtedness.

15108. For the purpose of determining the limitation of indebtedness of a school district or community college districts of any type or class under Section 15102 or 15106, that portion of the bonded indebtedness of the district for which another district or territory in another district is liable shall be excluded and shall not be deemed to constitute outstanding bonded indebtedness of the district.

15109. Where an elementary school district and a high school district with a combined average daily attendance of 300,000 or more are governed by the same governing board, and the pupils in grades seven and eight in the districts are in attendance at high schools maintained by the high school district, the governing board, by resolution filed with the county auditor, may provide that the bond issuance limitations determined under Section 15102 shall be adjusted by reducing the bond issuance limitation of the elementary school district by 1 percent of its total and by augmenting the bond issuance limitation for the high school district by the amount by which that of the elementary district was reduced.

15110. An action to determine the validity of bonds and of the ordering of the improvement or acquisition may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure. In such action, all findings, conclusions and determinations of the legislative body which conducted the proceedings shall be conclusive in the absence of actual fraud.

15111. The governing board of each school district or community college district shall, within 30 days after the end of each fiscal year, submit to the county superintendent of schools who has jurisdiction over the school district or community college district a report containing the following information, concerning any election held pursuant to Sections 4152, 15120, 15121, and 16058 for the approval of the issuance of bonds or the assumption of any bonded indebtedness or other indebtedness:

(1) The total amount of the bond issue, bonded indebtedness or other indebtedness involved.

(2) The percentage of registered electors of the district who voted at the election.

(3) The results of the election, with the percentage of votes cast for and against the proposition involved.

Article 2. General Provisions for Bond Elections

15120. The election shall be conducted as provided in Chapter 3 (commencing with Section 5300) of Part 4, except with respect to each of the following:

(1) As otherwise provided in Sections 15100 to 15126, inclusive.

(2) That the formal notice of the election shall contain, in addition to the items specified in Section 5361, each of the following:

(a) The purposes for which the bonds are to be issued.

(b) The amount of the bonds.

(c) The maximum rate of interest, not to exceed the maximum rate of interest allowed by Sections 15140 to 15143.

(d) The maximum number of years, not to exceed 25, not to exceed which the bonds or any series thereof are to run.

No election shall be held under this section in any school district for a period of 90 days after the election in the same school district.

15121. Any election called pursuant to Sections 15100 to 15141, inclusive, and Sections 15142 to 15261, inclusive, may be consolidated with any other election pursuant to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code.

15122. The words to appear upon the ballots shall be "Bonds—Yes" and "Bonds—No," or words of similar import. A brief statement of the proposition, setting forth the amount of the bonds to be voted upon, the maximum rate of interest, and the purposes for which the proceeds of the sale of the bonds are to be used, shall be printed upon the ballot. No defect in the statement other than in the statement of the amount of the bonds to be authorized shall invalidate the bonds election.

15123. The form and details of all ballots at school district or community college bond elections shall comply with ballot provisions of this code applicable to governing board member elections with additional requirements as provided for in this chapter.

15124. If it appears from the certificate of election results that two-thirds of the votes cast on the proposition of issuing bonds of the district are in favor of issuing the bonds; or, a majority of the votes cast, if the election is held to repair, reconstruct or replace school buildings in compliance with Section 17367 or 81162 or any other provision of law, the governing board of the school district or community college shall cause an entry of that fact to be made upon its minutes. The governing board shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

15125. The proceedings relating to the authorization of bonds of a joint school district of any type need be certified only to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district. The board of supervisors may issue and

sell the bonds and no action of the board of supervisors of any other county in which the district is situated shall be required in connection with the issuance and sale, and the bonds need not be signed by any officer of any the other county.

15126. No error, irregularity, or omission which does not affect the substantial rights of the taxpayers within the district or the electors voting at any election at which bonds of any district are authorized to be issued shall invalidate the election or any bonds authorized.

Article 3. Issuance and Sale of Bonds

15140. Bonds of a school district or community college district shall be offered for sale by the board of supervisors of the county, the county superintendent of which has jurisdiction over the district, or the community college district governing board, where appropriate, as soon as possible following receipt of a resolution duly adopted by the governing board of the school district or community college district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds.

15141. When authorized by the governing board of a school district or a community college district, bonds of a school district or a community college district may be offered for sale as a group by the board of supervisors of the county, the county superintendent of schools, or the governing board of a community college district, which has jurisdiction over the district, at a time determined by the board of supervisors following receipt of a resolution duly adopted by the governing board of the school district or community college district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. Bidders shall be required to bid a lump-sum bid on all bonds as a group. If bids satisfactory to the governing board of each school district included in the group are received, the bonds offered for sale shall be awarded to the bidder whose bid will result in the lowest net interest cost for the group or for the bonds of any district included within the group. Bonds shall be issued and sold in the name of each school district or a community college district in the same manner as provided in this chapter.

15142. The bonds shall be issued in the denomination or denominations as the board of supervisors or governing board of the community college district may prescribe.

15143. The bonds shall not bear a rate of interest greater than 8 percent per annum, payable annually or semiannually.

15144. The number of years the whole or any part of the bonds are to run shall not exceed 25 years, from the date of the bonds or the date of any series thereof.

15145. (a) The board of supervisors by an order entered upon its minutes shall prescribe the form of the bonds. The bonds shall be signed by the chairperson of the board of supervisors, or by any other member thereof as the board of supervisors shall, by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose, and also signed by the treasurer of the county, and shall be countersigned by the clerk of the board of supervisors or by a deputy of either of the officers. Unless the board of supervisors otherwise provides, all the signatures and countersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced except that one of the signatures or countersignatures to the bonds shall be manually affixed. Any signature may be affixed in accordance with the provisions of the Uniform Facsimile Signatures of Public Officials Act, Chapter 6 (commencing with Section 5500) of Title 1 of the Government Code. All expense incurred for the preparation, sale, and delivery of the school bonds, including but not limited to, fees of an independent financial consultant, the publication of the official notice of sale of the bonds, the preparation, printing and distribution of the official statement, the obtaining of a rating, the purchase of insurance insuring the prompt payment of interest and principal, the preparation of the certified copy of the transcript for the successful bidder, the printing of the bonds, and legal fees of independent bond counsel retained by the school district or community college district issuing the bonds are legal charges against the funds of the district issuing the bonds and may be paid from the proceeds of sale of the bonds.

(b) Notwithstanding subdivision (a), the board of supervisors may, in its discretion, determine that all of the required signatures and countersignatures shall be by facsimiles, provided, however, that the bonds shall not be valid or become obligatory for any purpose until manually signed by an authenticating agent duly appointed by the board or its authorized designee.

15146. The bonds shall be issued by the board of supervisors, payable out of the interest and sinking fund of the district. The board of supervisors, in its discretion, and without further authorization from the governing board, may sell the bonds at a negotiated sale or by competitive bidding. The bonds may be sold at a discount not to exceed 5 percent and at an interest rate not exceeding the maximum permitted by law. If the sale is by competitive bid, the board of supervisors shall comply with Sections 15147 and 15148. The bonds shall be sold by the board of supervisors no later than the date designated by the governing board of the school district or

community college district as the final date for the sale of the bonds. The proceeds of the sale of the bonds, exclusive of any premium received, shall be deposited in the county treasury to the credit of the building fund of the school district, or community college district as designated by the California Community Colleges Budget and Accounting Manual. The proceeds deposited shall be drawn out as other school moneys are drawn out. The bond proceeds withdrawn shall not be applied to any other purposes than those for which the bonds were issued. Any premium or accrued interest received from the sale of the bonds shall be deposited in the interest and sinking fund of the district.

15147. Before selling the bonds, or any part of them, the board of supervisors or community college district, as appropriate, shall advertise for bids at least two weeks in some daily or weekly newspaper of general circulation published in the county whose county superintendent of schools or governing board of the community college district has jurisdiction over the district, or if there is no newspaper published in the county, in a newspaper published in some other county in the state having a general circulation in the county.

15148. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder or bidders, and the county clerk shall prepare and certify to all of the proceedings on file in his office relative to the issuance and sale of the bonds, which transcript of proceedings shall be delivered to the successful bidder or bidders without charge. If no bids are received, or if the board determines that the bids received exceed either the maximum acceptable interest rate prescribed by the governing board or the maximum rate prescribed by Section 15143, or that they are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and without further authorization from the governing board, either readvertise or sell the bonds at private sale.

For the purpose of determining whether or not a bid exceeds the maximum acceptable interest rate, the interest rate of that bid shall be deemed to be the interest rate resulting from the total net interest cost arrived at by computing the total amount of interest which the district would be required to pay from the date of the bonds to the respective maturity dates thereof at the rate or rates specified in the bid and by deducting therefrom any premium bid.

15149. The issuing school district or community college district by action of its governing board may prepare, or have prepared, bond brochures to serve as a prospectus for bond buyers to assist in the satisfactory sale of the bonds, the expense of the brochures to be payable out of the funds of the district. The brochures may be prepared only after the issuance of the bonds to be sold has been approved by the electors of the district pursuant to Sections 15120 to 15126, inclusive.

The issuing school district or community college district by action of its governing board may expend district funds for the purposes of advertising the availability of the bonds for purchase in any publication or newspaper which in the opinion of the governing board will give notice to prospective bond buyers that the bonds are available for purchase by bond buyers.

Article 4. Required Form of Bonds

15180. Whenever under Sections 15100 and 15102, and Sections 15107 to 15140, inclusive, and Sections 15142 to 15261, inclusive, any bonds are issued, the bonds may be issued either in the form of coupon bonds, or in the form of registered bonds, or some in the form of coupon bonds and some in the form of registered bonds, as may be provided in the proceedings for the issuance of the bonds, and notwithstanding any language or provision to the contrary contained in any statute authorizing the issuance of the bonds, or in any other law.

15181. If any officer whose signature, countersignature, or attestation appears on any school bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, the signature, countersignature, or attestation either on the bonds or the coupons, or on both, is nevertheless valid and sufficient for all purposes the same as if the officer had remained in office until the delivery of the bonds, and the signature upon the coupons of the person who is auditor at the date of the bonds, is valid although the bonds themselves may be attested by a different person who is auditor at the time of delivery of the bonds.

15182. Any bonds executed in the manner provided by the board of supervisors shall be valid, notwithstanding any change in the officers who signed the bonds or the coupons, or in the seal of the board of supervisors, occurring after the execution.

Article 5. Registration of Bonds

15190. Whenever the owner of any coupon bond or of any bond payable to bearer presents the bond to the treasurer or other officer of the county in which the district is located, who by law performs the duties of treasurer, with a request for the conversion of the bond into a registered bond, the treasurer or other officer shall cut off and cancel the coupons of the coupon bond, and shall stamp, print, or write upon the coupon bond or other bond payable to the bearer, either upon its back or upon its face, as may be convenient, a statement to the effect that the bond is registered in the name of the owner and that thereafter the interest and principal of the bond are payable to the registered owner.

15191. After registration any bond may be transferred by the registered owner in person, or by attorney duly authorized, on

presentation of the bond to the treasurer or other officer performing the duties of treasurer. The bond may be again registered as before, a similar statement being stamped, printed, or written thereon.

15192. The statement stamped, printed, or written upon the bond may be substantially in the following form:

(Date, giving month, day, and year.)

This bond is registered pursuant to the statute in such cases made and provided in the name of (insert name of owner) and the interest and principal thereof are hereafter payable to the owner.

_____

Treasurer (or other officer)

15193. After any bond has been registered as provided in this article, the principal and interest of the bond shall be payable to the registered owner.

15194. The treasurer or other officer shall keep in his or her office a book or books which shall at all times show what bonds are registered and in whose name respectively.

Article 6. Cancellation of Unsold Bonds

15200. If any bonds authorized under the provisions of Sections 15100 and 15102, and Sections 15107 to 15140, inclusive, and Sections 15142 to 15261, inclusive, have not been offered for sale for one year from the date of the election at which they were authorized or remain unsold for a period of six months after having been offered for sale in the manner prescribed by the board of supervisors, the governing board of the district, for which the bonds were authorized, may petition the board of supervisors that has jurisdiction of the issuance and sale of the bonds to cause the unsold bonds to be canceled.

15201. Upon receiving the petition, signed by a majority of the members of the governing board, the board of supervisors shall fix a time for hearing it, which shall not be more than 30 days after receipt of the petition, and shall cause a notice stating the time and place of the hearing, and the object of the petition in general terms, to be published for 10 days prior to the hearing, in a newspaper published in the school district or community college district, if there is one, and if there is no newspaper published in the school district, in a newspaper published at the county seat of the county.

15202. At the time and place designated in the notice, or at any subsequent time to which the hearing may be postponed, the board of supervisors shall hear any reasons that may be submitted for or against the granting of the petition.

15203. If the board of supervisors deem it for the best interests of the school district or community college district named in the

petition that the unsold bonds be canceled, it shall make and enter an order in the minutes of its proceedings that the unsold bonds be canceled. Upon the entry of the order the bonds and the vote by which they were authorized to be issued shall cease to be of any validity.

15204. The governing board of any school district or community college district may petition the board of supervisors to cancel the remaining authorization of that district to issue and sell bonds resulting from any particular school bond election after the sale of at least 90 percent of the bonds authorized at the election if the amount of the remaining authorization is not more than twenty-five thousand dollars ($25,000) and in the opinion of the governing board the sale of the remaining bonds would not be economically justified. Sections 15201 and 15202 shall be applicable and at or following, the hearing provided in Section 15201 and 15202, the board of supervisors, if it determines that the public interest will be served thereby, may make and enter an order in the minutes of its proceedings that the remaining authorization be canceled. Upon the entry of the order the vote by which the remaining authorization was created shall cease to be of any validity with respect to the remaining authorization.

Article 7. Purchase of Bonds by Issuing School Districts and Community College Districts

15220. The governing board of a school district or community college district may purchase in the open market bonds issued by the district. The cost of bonds purchased may be paid out of any funds of the district not required by law to be set aside for teachers' salaries.

15221. When any bonds issued by a district have been purchased by the governing board of the district, the bonds shall be deemed canceled and of no further validity. The governing board of the district shall immediately, after purchasing the bonds, notify the board of supervisors of its action, describing the bonds purchased. At its first meeting thereafter the board of supervisors shall note the purchase and cancellation of the bonds in the minutes of its proceedings.

Article 8. Method of Bond Payment

15230. The board of supervisors by an order entered upon its minutes shall fix the time when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. If the governing board of the district has prescribed in its resolution the time or times when the whole or any part of the bonds shall be payable, the times and amounts shall be fixed by the order of the board of supervisors.

Any bonds authorized at an election held after September 15, 1945, may be issued subject to call and redemption before maturity at the

option of the governing board of the district. The governing board may include in its resolution a requirement that all or any part of such bonds shall be issued subject to call and redemption before maturity and the price or prices at which the bonds shall be redeemed. The board of supervisors, in its order fixing the form of the bonds and the maturities thereof, shall provide that the bonds be redeemable at the option of the governing board and at the price or prices fixed in the resolution. Bonds issued subject to call and redemption prior to maturity shall contain a recital to that effect, and no bond shall be subject to call or redemption prior to maturity unless it contains that recital. The board of supervisors in its order shall fix the method of giving notice of redemption to holders of bonds to be redeemed.

15231. The board of supervisors at the direction of governing board of the district may divide the principal amount of bonds authorized at any election into two or more series and may fix different dates for the bonds of each series, in which event the maximum maturity date of the bonds shall be calculated from the date of each series respectively. When the issuance of bonds shall have been authorized pursuant to two or more propositions submitted at the same or different elections, all or any part of the bonds not theretofore issued may be combined and issued and sold as one or more series.

15232. The board of supervisors may make the principal and interest of the bonds payable at the office of the treasurer of the county, or at any other place within the United States which the board may designate, or at the office of the county treasurer, or at any other designated place at the option of the bondholder. The place of payment shall be specified in the bonds. The expense of paying the bonds elsewhere than at the office of the treasurer shall be a proper charge against the district to be paid out of the tax levied and collected for the payment of the bonds.

15233. The principal and interest on the bonds shall be paid by the county treasurer of the county, the superintendent of schools of which has jurisdiction of the district in behalf of which the bonds were issued, at the place required by the terms of the bonds, upon presentation and surrender of warrants drawn by the county auditor in payment thereof, after he or she has canceled the bonds and coupons, or upon the receipt of the registered owner, if the bonds are registered, after a proper warrant has been drawn by the auditor, out of the fund provided for their payment.

15234. Any money remaining in the interest and sinking fund of any district after the payment of all bonds and coupons payable from the fund, or any money in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the general fund of the district upon the order of the auditor.

15235. Any money paid into the county treasury of the county and credited to the interest and sinking fund of any district pursuant to

subdivision (b) of Section 2106 or subdivision (b) of Section 2109 remaining after the payment of all bonds and coupons payable from the fund, or which is in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the special reserve fund of the school district, or designated building fund of the community college district upon the order of the auditor, and may be used only for the purpose specified in Section 42840 or in accordance with the California Community Colleges Budget and Accounting Manual and for no other purpose.

Article 9. Tax for Payment of Bonds

15250. The board of supervisors of the county, the superintendent of schools of which has jurisdiction over any district, shall annually at the time of making the levy of taxes for county purposes, levy a tax for that year upon the property in the district for the interest and redemption of all outstanding bonds of the district. The tax shall not be less than sufficient to pay the interest on the bonds as it becomes due and to provide a sinking fund for the payment of the principal on or before maturity and may include an allowance for an annual reserve, established for the purpose of avoiding fluctuating tax levies. The tax shall be sufficient to provide funds for the payment of the interest on the bonds as it becomes due and also any part of the principal and interest that is to become due before the proceeds of a tax levied at the time for making the next general tax levy may be made available for the payment of the principal and interest.

15251. All taxes levied, when collected shall be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district in behalf of which the tax was levied, to the credit of the interest and sinking fund of the school district, or community college district as designated by the California Community Colleges Budget and Accounting Manual, and shall be used for the payment of the principal and interest of the bonds and for no other purpose.

15252. The board of supervisors of the county, the superintendent of schools which has jurisdiction over any school district, shall annually at the time of making the levy of taxes for county purposes estimate the amount of money required to meet the payment of the principal and interest on bonds of the district authorized by the electors of the district and not sold, and which the governing board of the district informs the board in their belief will be sold before the next tax levy, and the board of supervisors shall levy a tax sufficient to pay the principal and interest so estimated.

15253. If the bonds are declared invalid or are not issued for any reason, the tax levied and collected shall, if the school district or community college district has other bonds outstanding, be retained in the interest and sinking fund of the district to meet the interest and principal falling due on the bonds. If the district has no bonds

outstanding the proceeds of the tax levy shall be transferred to the general fund of the district on the order of the auditor.

15254. This article shall apply only to bonds of a school district or community college district which were approved by the electors prior to July 1, 1978, and to bonded indebtedness for the acquisition or improvement of real property approved by two-thirds of the voters on or after June 4, 1986.

Article 10. Tax for Payment of Bonds of School District or Community College District Located in Two or More Counties

15260. In case of a district lying in two or more counties, the assessor of each of the counties in which the district lies, shall annually as soon as the county assessments have been equalized by the State Board of Equalization, certify to the board of supervisors of each of the counties in which any portion of the district is situated, the assessed value of all taxable property in the county situated in the school district or community college district. The tax shall be levied according to the ratio which the assessed value of the property in the district in any county bears to the total assessed value of the property in the district. Each board of supervisors shall levy upon the property of the district and within its own county the rate of tax that will be sufficient to raise not less than the amount needed to pay the interest and any portion of the principal of the bonds that is to become due during the year.

15261. The tax shall be entered upon the assessment roll and collected in the same manner as other school taxes.

The tax when collected shall be paid into the county treasury of the county. The treasurer of any county, other than the one whose superintendent of schools has jurisdiction over the school, shall, upon order of the county auditor, pay the sum collected on account of the tax into the treasury of the county whose superintendent of schools has jurisdiction over the school.

15262. This article shall apply only to bonds of a school district which were approved by the electors prior to July 1, 1978, and to bonded indebtedness for the acquisition or improvement of real property approved by two-thirds of the voters on or after June 4, 1986.

CHAPTER 2. BONDS OF SCHOOL FACILITIES IMPROVEMENT DISTRICTS

Article 1. General Provisions

15300. This chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district and for the issuance of general obligation bonds by a school facilities improvement district.

15301. (a) Any school district that has a community facilities district formed pursuant to the Mello-Roos Community Facilities Act

of 1982, as set forth in Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, that has as one of its purposes the construction of school facilities within a portion of the territory of the school district, may proceed under this chapter.

(b) The boundaries of any school facilities improvement district formed pursuant to this chapter shall include all of the portion of the territory within the boundaries of the school district that is not located within the boundaries of the community facilities district as described in subdivision (a).

15302. General obligation bonds of the school facilities improvement district may be issued for the following purposes, if the purpose of the bonds is to benefit the land within the school facilities improvement district consistent with any of the following:

(a) To purchase real property upon which to construct school facilities.

(b) To build or purchase school facilities.

(c) To make alterations or additions to the school facilities other than those necessary for ordinary maintenance, operation, or repairs.

(d) To repair, restore, or rebuild any school facilities damaged, injured, or destroyed by fire or other public calamity.

(e) To supply playgrounds with furniture, equipment, or necessary apparatus of a permanent nature.

(f) To permanently improve school grounds.

(g) To refund any valid outstanding indebtedness of the school facilities improvement district that is evidenced by bonds.

(h) To carry out the projects or purposes authorized in Section 39613.

(i) To demolish or raze any school building with the intent to replace it with another school building, whether in the same location or in any other location.

15303. This chapter shall not be operative in any county or counties until the board of supervisors of either the county in which the county superintendent of schools having jurisdiction over the school district in which the school facilities improvement district is located or, if a school facilities improvement district lies in two or more counties, the board of supervisors for those counties, by resolution adopted by a majority vote of the board of supervisors, makes this chapter applicable in the county or counties.

Article 2. Formation of District

15320. Whenever the governing board of a school district meeting the requirements set forth in Section 15301 determines that a school facilities improvement district is necessary, the governing board shall adopt a resolution of intention that states all of the following:

(a) The intention of the governing board to form the proposed school facilities improvement district.

(b) The purpose for which the proposed school facilities improvement district is to be formed, consistent with the requirements set forth in Section 15302.

(c) The estimated cost of the school facilities improvement project.

(d) That any taxes levied for the purpose of financing the general obligation bonds issued to finance the project shall be levied exclusively upon the lands in the proposed school facilities improvement district.

(e) That a map showing the exterior boundaries of the proposed school facilities improvement district is on file with the governing board of the school district and is available for inspection by the public. The boundaries of the school facilities improvement district shall meet the requirements set forth in subdivision (b) of Section 15301.

(f) The time and place for a hearing by the governing board on the formation of the proposed school facilities improvement district.

(h) That any interested persons, including all persons owning lands in the school district or in the proposed school facilities improvement district, may appear and be heard.

15321. Notice of the hearing shall be given by publishing a copy of the resolution of intention in a newspaper of general circulation published in each affected county, pursuant to Section 6066 of the Government Code, the first publication shall be at least 14 days prior to the time fixed for the hearing. The notice shall also be given by posting a copy of the resolution in three public places located within the proposed school facilities improvement district for at least 14 days prior to the time fixed for the hearing. No notice other than that required by this section need be given.

15322. The governing board of the school district shall hold the hearing provided for by resolution of intention at the time and place fixed by that resolution. Any interested person, including, but not limited to, all persons owning land in the school district, or in the proposed school facilities improvement district, may appear and be heard concerning any matters set forth in the resolution of intention.

15323. At the hearing, the governing board of the school district may adopt a resolution proposing modifications, consistent with Section 15302, of the purpose stated in the resolution of intention. A resolution proposing modification shall describe the proposed modifications, state the change, if any, in the estimated cost of carrying out the purpose, and shall fix a time and place for hearing by the governing board.

15324. The governing board of the school district shall publish the resolution proposing the modifications to the resolution of intention once in the same newspaper in which the resolution of intention was

published at least 14 days prior to the date of hearing on the proposed modifications.

15325. The hearing on any proposed modifications may be held at the same time and place as any continued hearing on the resolution of intention and both hearings may be held and conducted concurrently.

15326. At the conclusion of the hearing on the resolution of intention and of the hearing, if any, upon proposed modifications, the governing board may by resolution order the school facilities improvement district formed for the purpose and with the boundaries described in the resolution of intention, and, if relevant, the resolution proposing modifications. The resolution ordering the school facilities improvement district formed shall state the estimated cost of carrying out the purpose described in the resolution. The resolution shall also number and designate the school facilities improvement district substantially as "School Facilities Improvement District of _____ School District."

15327. The governing board of the school district in which a school facilities improvement district has been formed shall have the same rights, powers, duties and responsibilities with respect to the formation and government of school facilities improvement district as the governing board has with respect to the school district.

Article 3. Financing the Bonds

15330. The total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the school facilities improvement district as shown by the last equalized assessment of the county or counties in which the school facilities improvement district is located. For purposes of this section, the taxable property of a school facilities improvement district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property located within the school facilities improvement district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property located within the school facilities improvement district for the fiscal year by the gross assessed value of all unitary and operating nonunitary property located within the county in which the school facilities improvement district is located for the fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

15331. Notwithstanding any other law, for the purpose of computing the limit on the amount of bonds that may be issued by a school facilities improvement district pursuant to the provisions of this chapter, the taxable property of the school facilities improvement district shall be determined upon the basis that the school facilities improvement district's assessed value has not been

reduced by the exemption of the assessed value of business inventories in the school facilities improvement district or reduced by the homeowner's property tax exemption.

15332. Notwithstanding Section 15330, any school facilities improvement district that is located within the boundaries of a unified school district may issue bonds not to exceed 2.5 percent of the taxable property of the school facilities improvement district as shown by the last equalized assessment of the county or counties in which the school facilities improvement district is located.

In computing the outstanding bonded indebtedness of any school facilities improvement district that is located in any unified school district, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district to each of those purposes respectively.

For purposes of this section, the taxable property of a school facilities improvement district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property located within the school facilities improvement district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property located within the district for the fiscal year by the gross assessed value of all unitary and operating nonunitary property located within the county in which the district is located for the fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

15333. In computing the limitation of indebtedness of any school facilities improvement district, hereinafter in this section referred to as the "bonding district," the outstanding indebtedness of any previously existing district all or any part of which forms a component part of the bonding district and the outstanding indebtedness of any district for which any territory that has become a part of the bonding district is liable shall be excluded and shall not be deemed, for the purposes of computing the limitation of indebtedness under Sections 15330 and 15332, to constitute outstanding indebtedness of the bonding district, except to the extent that the outstanding indebtedness has been expressly assumed by the bonding district by vote of not less than two-thirds of the electors of the bonding district voting at an election at which the proposition of assuming the indebtedness is voted upon. Nothing in this section shall operate to release any property from liability for taxes to pay the principal and interest of indebtedness incurred by any component district or for which any territory that has become a part of the bonding district is liable and in which the taxable property is located at the time of the

incurring of the indebtedness. It is the intent of the Legislature to provide in this section a special method of computing the limitation of indebtedness of school facilities improvement districts irrespective of liability of the area embraced within the school districts for the payment of any bonded indebtedness.

15334. For the purpose of determining the limitation of indebtedness of a school facilities improvement district under Section 15330 or 15332, that portion of the bonded indebtedness of the school facilities improvement district for which another district or territory in another district is liable shall be excluded and shall not be deemed to constitute outstanding bonded indebtedness of the school facilities improvement district.

15335. An action to determine the validity of bonds and of the ordering of the improvement or acquisition may be commenced pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure. In the action, all findings, conclusions and determinations of the legislative body that conducted the proceedings shall be conclusive in the absence of actual fraud.

15336. Within 30 days after the end of each fiscal year, the governing board of the school district in which the school facilities improvement district is located shall submit a report containing the following information relating to an election held pursuant to Article 4 (commencing with Section 15340), to the county superintendent of schools who has jurisdiction over the school district:

(a) The total amount of the bond issue, bonded indebtedness, or other indebtedness involved.

(b) The percentage of qualified electors who are residents of the school facilities improvement district who voted at the election.

(c) The results of the election, with the percentage of votes cast for and against the proposition involved.

Article 4. General Provisions for Bond Elections

15340. (a) After adopting the resolution ordering the formation of the school facilities improvement district, the governing board may provide for and call a special bond election within the school facilities improvement district to, or may at the next statewide election, submit to the voters of the school facilities improvement district a proposition of whether or not an indebtedness of the district shall be incurred and bonds issued therefor in an amount not exceeding the estimate stated in the resolution ordering the school facilities improvement district formed.

(b) The indebtedness and the bonds shall be payable from taxes to be levied and collected upon lands located within the school facilities improvement district.

15341. Notwithstanding any law, no election shall be held pursuant to this chapter within 45 days before a statewide election or

within 45 days after a statewide election unless conducted at the same time as the statewide election, subject to the provisions of Part 2.5 (commencing with Section 23300) of Division 14 of the Elections Code.

15342. Any one or more of the purposes enumerated in Section 15302, except that of refunding any outstanding valid indebtedness of the school facilities improvement district evidenced by bonds, may, by order of the governing board of the school district in which the school facilities improvement district is located, be united and voted upon in a single proposition.

15343. The election shall be conducted as provided in Chapter 3 (commencing with Section 5300) of Part 4 except as provided by each of the following:

(a) As otherwise provided in this chapter.

(b) That the formal notice of the election shall contain and specify, in addition to the items specified in Section 5361:

(1) The purposes for which the bonds are to be issued.

(2) The amount of the bonds.

(3) The maximum rate of interest, not to exceed the maximum rate of interest allowed by Article 5 (commencing with Section 15350).

(4) The maximum number of years, not to exceed 25, not to exceed which the bonds or any series thereof are to run.

(c) No election shall be held under the provisions of this section in any school facilities improvement district for a period of 90 days after an election in the same school facilities improvement district.

15344. Any election called pursuant to this chapter may be consolidated with any other election pursuant to the provisions of Part 2.5 (commencing with Section 23300) of Division 14 of the Elections Code.

15345. Any qualified elector who is a resident of the territory of the school facilities improvement district may vote on the proposition of issuing bonds of the school facilities improvement district.

15346. The words to appear upon the ballots shall be "Bonds—Yes" and "Bonds—No," or words of similar import. A brief statement of the proposition, setting forth the amount of the bonds to be voted upon, the maximum rate of interest, and the purposes for which the proceeds of the sale of the bonds are to be used, shall be printed upon the ballot. No defect in the statement other than in the statement of the amount of the bonds to be authorized shall invalidate the bonds election.

15347. Unless otherwise specified in this chapter, the form and details of all ballots at school facilities improvement elections shall comply with ballot provisions of Part 4 (commencing with Section 2400) of the Government Code.

15348. The proposition shall be deemed approved upon approval by two-thirds of the votes cast by voters voting on the proposition of issuing bonds of the school facilities improvement district.

15349. If it appears from the certificate of election results that two-thirds of the votes cast by the voters voting on the proposition of issuing bonds of the school facilities improvement district are in favor of issuing the bonds, the governing board of the school district in which the school facilities improvement district is located shall cause an entry of that fact to be made upon its minutes. The governing board of that school district shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the school district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

15349.1. The proceedings relating to the authorization of bonds of a school facilities improvement district that is located within a joint school district of any type need be certified only to the board of supervisors of the county whose superintendent of schools has jurisdiction over the school district in which the school facilities improvement district exists. The board of supervisors may issue and sell the bonds and no action of the board of supervisors of any other county in which the school board is situated shall be required in connection with the issuance and sale of the bonds, and the bonds need not be signed by any officer of any other county.

15349.2. No error, irregularity, or omission that does not affect the substantial rights of the taxpayers within the school facilities improvement district or the qualified electors voting at any election at which bonds of any school facilities improvement district are authorized to be issued shall invalidate the election or any bonds authorized by that election.

Article 5. Issuance and Sale of Bonds

15350. Bonds of a school facilities improvement district shall be offered for sale by the board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located as soon as possible, when appropriate, following receipt of a resolution duly adopted by the governing board of that school district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds.

15351. When authorized by the governing board of the school district in which the school facilities improvement district is located, bonds of the school facilities improvement district may be offered for sale as a group by the board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located,

at a time determined by the board of supervisors following receipt of a resolution duly adopted by the governing board of that school district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. Bidders shall be required to bid a lump-sum bid on all bonds as a group. If bids satisfactory to the governing board of each school district in which a school facilities improvement district is located are received, the bonds offered for sale shall be awarded to the bidder whose bid will result in the lowest net interest cost for the group or for the bonds of any district included within the group. Bonds shall be issued and sold in the name of each school facilities improvement district in the same manner as provided in this chapter.

15352. The bonds shall be issued in the name of the school facilities improvement district and shall be designated "Bonds of the School Facilities Improvement District of the _____ School District" and each bond and all interest coupons shall state that the tax for the payment thereof shall be limited to annual taxes to be levied upon and collected from the lands within the school facilities improvement district.

15353. The bonds shall be issued in the denomination or denominations as the board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located may prescribe.

15354. The bonds shall not bear a rate of interest greater than 8 percent per annum, payable annually or semiannually.

15355. The number of years the whole or any part of the bonds are to run shall not exceed 25 years, from the date of the bonds or the date of any series thereof.

15356. (a) The board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located shall prescribe the form of the bonds by an order entered upon its minutes. The bonds shall be signed by the chairperson of the board of supervisors, or by any other member thereof as the board of supervisors shall, by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose, and also signed by the treasurer of the county, and shall be countersigned by the clerk of the board of supervisors or by a deputy of either of the officers. Unless the board of supervisors otherwise provides, all the signatures and countersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced except that one of the signatures or countersignatures to the bonds shall be manually affixed. Any signature may be affixed in accordance with the provisions of the Uniform Facsimile Signatures of Public Officials

Act, Chapter 6 (commencing with Section 5500) of Title 1 of the Government Code. All expenses incurred for the preparation, sale, and delivery of the school facilities improvement bonds, including but not limited to, fees of an independent financial consultant, the publication of the official notice of sale of the bonds, the preparation, printing, and distribution of the official statement, the obtaining of a rating, the purchase of insurance insuring the prompt payment of interest and principal, the preparation of the certified copy of the transcript for the successful bidder, the printing of the bonds, and legal fees of independent bond counsel retained by the school facilities improvement district issuing the bonds are legal charges against the funds of the school facilities improvement district issuing the bonds and may be paid from the proceeds of sale of the bonds.

(b) Notwithstanding subdivision (a), the board of supervisors may, in its discretion, determine that all of the required signatures and countersignatures shall be by facsimiles, provided, however, that the bonds shall not be valid or become obligatory for any purpose until manually signed by an authenticating agent duly appointed by the board or its authorized designee.

15357. The board of supervisors shall establish within the country treasury a school facilities improvement fund for each school facilities improvement district the purpose of depositing the proceeds of the bonds issued pursuant to this chapter. The board of supervisors shall also establish within the county treasury a school facilities improvement bond interest and sinking fund for each school facilities improvement district.

15358. The bonds shall be issued by the board of supervisors, payable out of the interest and sinking fund of the school facilities improvement district. The board of supervisors, in its discretion, and without further authorization from the governing board of the school district in which the school facilities improvement district is located, may sell the bonds at a negotiated sale or by competitive bidding. The bonds may be sold at a discount not to exceed 5 percent and at an interest rate not exceeding the maximum permitted by Section 15354. If the sale is by competitive bid, the board of supervisors shall comply with the provisions of Sections 15359 and 15359.1. The bonds shall be sold by the board of supervisors no later than the date designated by the governing board of the school district in which the school facilities improvement district is located as the final date for the sale of the bonds. The proceeds of the sale of the bonds, exclusive of any premium received, shall be deposited in the county treasury to the credit of the school facilities improvement fund of the school facilities improvement district. The proceeds deposited shall be drawn out as necessary to finance the purposes approved by the voters pursuant to this chapter. The bond proceeds withdrawn shall not be applied to any other purposes than those for which the bonds were issued. Any premium or accrued interest received from the sale of the bonds shall be deposited in the interest and sinking fund of the

county treasury established for the school facilities improvement district.

15359. Before selling the bonds, or any part of them, the board of supervisors as appropriate, shall advertise for bids at least two weeks in some daily or weekly newspaper of general circulation published in the county whose county superintendent of schools has jurisdiction over the governing board of the school district in which the school facilities improvement district is located or if there is no newspaper published in the county, in a newspaper published in some other county in the state having a general circulation in the county.

15359.1. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder or bidders, and the county clerk shall prepare and certify to all of the proceedings on file in his or her office relative to the issuance and sale of the bonds, which transcript of proceedings shall be delivered to the successful bidder or bidders without charge. If no bids are received, or if the board determines that the bids received exceed either the maximum acceptable interest rate prescribed by the governing board or the maximum rate prescribed by Section 15353, or that they are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and without further authorization from the governing board of the school district in which the school facilities improvement district is located, either readvertise or sell the bonds at private sale.

For the purpose of determining whether or not a bid exceeds the maximum acceptable interest rate, the interest rate of that bid shall be deemed to be the interest rate resulting from the total net interest cost arrived at by computing the total amount of interest that the school facilities improvement district would be required to pay from the date of the bonds to the respective maturity dates thereof at the rate or rates specified in the bid and by deducting therefrom any premium bid.

15359.2. The issuing school facilities improvement district, by action of the governing board of the school district in which the school facilities improvement district is located, may prepare, or have prepared, bond brochures to serve as a prospectus for bond buyers to assist in the satisfactory sale of the bonds, the expense of the brochures shall be payable out of the funds of the district. The brochures may be prepared only after the issuance of the bonds to be sold has been approved by the electors of the school facilities improvement district pursuant to Article 4 (commencing with Section 15340).

The issuing school facilities improvement district by action of the governing board in which the school facilities improvement district is located may expend funds of the school facilities improvement district for the purposes of advertising the availability of the bonds for purchase in any publication or newspaper that in the opinion of

that governing board will give notice to prospective bond buyers that the bonds are available for purchase by bond buyers.

Article 6. Required Form of Bonds

15360. Notwithstanding any other provision of law, whenever any bonds are issued pursuant to this chapter, the bonds may be issued either in the form of coupon bonds, or in the form of registered bonds, or some in the form of coupon bonds and some in the form of registered bonds, as may be provided in the proceedings for the issuance of the bonds.

15361. If any officer whose signature, countersignature, or attestation appears on any school facilities improvement bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, the signature, countersignature, or attestation either on the bonds or the coupons, or on both, is valid and sufficient for all purposes as if the officer had remained in office until the delivery of the bonds, and the signature upon the coupons of the person who is auditor at the date of the bonds, is valid although the bonds themselves may be attested by a different person who is auditor at the time of delivery of the bonds.

15362. Any bonds executed in the manner provided by the board of supervisors shall be valid, notwithstanding any change in the officers who signed the bonds or the coupons, or in the seal of the board of supervisors, occurring after the execution.

Article 7. Registration of Bonds

15370. Whenever the owner of any coupon bond or of any bond payable to bearer presents the bond to the treasurer or other officer of the county in which the school facilities improvement bonds are issued is located, who by law performs the duties of treasurer, with a request for the conversion of the bond into a registered bond, the treasurer or other officer shall cut off and cancel the coupons of the coupon bond, and shall stamp, print, or write upon the coupon bond or other bond payable to the bearer, either upon its back or upon its face, as may be convenient, a statement to the effect that the bond is registered in the name of the owner and that thereafter the interest and principal of the bond are payable to the registered owner.

15371. After registration, any bond may be transferred by the registered owner in person, or by attorney duly authorized, on presentation of the bond to the treasurer or other officer performing the duties of treasurer. The bond may be again registered as before, a similar statement being stamped, printed, or written thereon.

15372. The statement stamped, printed, or written upon the bond may be substantially in the following form:

(Date, giving month, day, and year.)

This bond is registered pursuant to the statute in the cases made and provided in the name of (insert name of owner) and the interest and principal thereof are hereafter payable to the owner.

_____

Treasurer (or other officer)

15373. After any bond has been registered as provided in this article, the principal and interest of the bond shall be payable to the registered owner.

15374. The treasurer or other officer shall keep in his or her office a book or books that shall at all times show what bonds are registered and in whose name respectively.

Article 8. Cancellation of Unsold Bonds

15380. If any bonds authorized under this chapter have not been offered for sale for one year from the date of the election at which they were authorized or remain unsold for a period of six months after having been offered for sale in the manner prescribed by the board of supervisors, the governing board of the school district in which the school facilities improvement district is located and for which the bonds were authorized, may petition the board of supervisors that has jurisdiction of the issuance and sale of the bonds to cause the unsold bonds to be canceled.

15381. Upon receiving the petition, signed by a majority of the members of the governing board of the school district in which the school facilities improvement district is located, the board of supervisors shall fix a time for a hearing, which shall not be more than 30 days after receipt of the petition, and shall cause a notice stating the time and place of the hearing, and the object of the petition in general terms, to be published for 10 days prior to the hearing, in a newspaper published in the school facilities improvement district if there is one, and if there is no newspaper published in the school facilities improvement district, in a newspaper published at the county seat of the county.

15382. At the time and place designated in the notice, or at any subsequent time to which the hearing may be postponed, the board of supervisors shall hear any reasons that may be submitted for or against the granting of the petition.

15383. If the board of supervisors deem it for the best interests of the school facilities improvement district named in the petition that the unsold bonds be canceled, it shall make and enter an order in the minutes of its proceedings that the unsold bonds be canceled. Upon the entry of the order the bonds and the vote by which they were authorized to be issued shall cease to be of any validity.

15384. The governing board of a school district in which a school facilities improvement district is located may petition the board of supervisors to cancel the remaining authorization of that district to issue and sell bonds resulting from any particular school bond election after the sale of at least ninety percent (90%) of the bonds authorized at the election if the amount of the remaining authorization is not more than twenty-five thousand dollars ($25,000) and in the opinion of the governing board the sale of the remaining bonds would not be economically justified. The provisions of Sections 15381 and 15382 shall be applicable and at or following the hearing therein provided for, the board of supervisors, if it determines that the public interest will be served thereby, may make and enter an order in the minutes of its proceedings that the remaining authorization be canceled. Upon the entry of the order the vote by which the remaining authorization was created shall cease to be of any validity with respect to such remaining authorization.

Article 9. Purchase of Bonds by Issuing School Districts

15390. The governing board of a school district in which a school facilities improvement district is located may purchase in the open market bonds issued by the school facilities improvement district with available funds from the school facilities improvement fund.

15391. When any bonds issued by a school facilities improvement district have been purchased by the governing board of the school district in which the school facilities improvement district is located, the bonds shall be deemed canceled and of no further validity. The governing board of the school district in which the school facilities improvement district is located shall immediately, after purchasing the bonds, notify the board of supervisors of its action, describing the bonds purchased. At its first meeting thereafter the board of supervisors shall note the purchase and cancellation of the bonds in the minutes of its proceedings.

Article 10. Method of Bond Payment

15400. The board of supervisors by an order entered upon its minutes shall fix the time when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. If the governing board of the school district in which the school facilities improvement district is located has prescribed in its resolution the time or times when the whole or any part of the bonds shall be payable, the times and amounts shall be fixed by the order of the board of supervisors.

Any bonds may be issued subject to call and redemption before maturity at the option of the governing board of the school district in which the school facilities improvement district exists. The governing board may include in its resolution a requirement that all

or any part of the bonds shall be issued subject to call and redemption before maturity and the price or prices at which said bonds shall be redeemed. The board of supervisors, in its order fixing the form of the bonds and the maturities thereof, shall provide that the bonds be redeemable at the option of the governing board and at the price or prices fixed in the resolution. Bonds issued subject to call and redemption prior to maturity shall contain a recital to that effect, and no bond shall be subject to call or redemption prior to maturity unless it contains the recital. The board of supervisors in its order shall fix the method of giving notice of redemption to holders of bonds to be redeemed.

15401. The board of supervisors at the direction of the governing board of the school district in which the school facilities improvement district is located may divide the principal amount of bonds authorized at any election into two or more series and may fix different dates for the bonds of each series, in which event the maximum maturity date of the bonds shall be calculated from the date of each series respectively. When the issuance of bonds shall have been authorized pursuant to two or more propositions submitted at the same or different elections, all or any part of the bonds not theretofore issued may be combined and issued and sold as one or more series.

15402. The board of supervisors may make the principal and interest of the bonds payable at the office of the treasurer of the county, or at any other place within the United States which the board may designate, or at the office of the county treasurer, or at any other designated place at the option of the bondholder. The place of payment shall be specified in the bonds. The expense of paying the bonds elsewhere than at the office of the treasurer shall be a proper charge against the school facilities improvement district to be paid out of the tax levied and collected for the payment of the bonds.

15403. The principal and interest on the bonds shall be paid by the county treasurer of the county in which the superintendent of schools has jurisdiction of the school district in which the school facilities improvement district is located, at the place required by the terms of the bonds, upon presentation and surrender of warrants drawn by the county auditor in payment thereof, after he or she has canceled the bonds and coupons, or upon the receipt of the registered owner, if the bonds are registered, after a proper warrant has been drawn by the auditor, out of the fund provided for their payment.

15404. Any money remaining in the interest and sinking fund of any school facilities improvement district after the payment of all bonds and coupons payable from the fund, or any money in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the general fund of the governing board of the school district in which the school facilities improvement district is located upon the order of the auditor.

15405. Any money paid into the county treasury of the county and credited to the interest and sinking fund of any school facilities improvement district remaining after the payment of all bonds and coupons payable from the fund, or which is in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the special reserve fund of the school district in which the school facilities improvement district is located and may be used only for the purpose specified in Section 42840.

Article 11. Tax for Payment of Bonds

15410. The board of supervisors of the county in which the superintendent of schools of who has jurisdiction over a school district in which a school facilities improvement district is located shall annually at the time of making the levy of taxes for county purposes levy a tax for that year upon the property in the school facilities improvement district for the interest and redemption of all outstanding bonds of the district. The tax shall not be less than sufficient to pay the interest on the bonds as it becomes due and to provide a sinking fund for the payment of the principal on or before maturity and may include an allowance for an annual reserve, established for the purpose of avoiding fluctuating tax levies. The tax shall be sufficient to provide funds for the payment of the interest on the bonds as it becomes due and also that part of the principal and interest as is to become due before the proceeds of a tax levied at the time for making the next general tax levy can be made available for the payment of the principal and interest.

15411. All taxes levied, when collected, shall be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located and on behalf of which the tax was levied. All collected tax revenues shall be used exclusively for the payment of the principal and interest of the bonds of the school facilities improvement district, including any sinking fund.

15412. The board of supervisors of the county whose superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located, shall annually at the time of making the levy of taxes for county purposes estimate the amount of money required to meet the payment of the principal and interest on bonds of the district authorized by the electors of the district and not sold, and that the governing board of the school district informs the board on their belief will be sold before the next tax levy, and the board of supervisors shall levy a tax sufficient to pay the principal and interest so estimated.

15413. If the bonds are declared invalid or are not issued for any reason, the tax levied and collected shall be retained in the interest and sinking fund of the school facilities improvement district to meet the interest and principal falling due on the bonds. If the school

facilities improvement district has no bonds outstanding the proceeds of the tax levy shall be transferred to the general fund of the school district in which the improvement district is located on the order of the auditor.

15414. This article shall apply only to general obligation bonds issued for one or more purposes specified in Section 15302 and approved by two-thirds of the votes cast by the voters voting on the proposition.

Article 12. Tax for Payment of Bonds of School Facilities Improvement District Located in Two or More Counties

15420. If a school facilities improvement district lies in two or more counties, the assessor of each of the counties in which the district lies, shall annually as soon as the county assessments have been equalized by the State Board of Equalization, certify to the board of supervisors of each of the counties in which any portion of the schools facilities improvement district is located, the assessed value of all taxable property in the county located within the school facilities improvement district or community college district. The tax shall be levied according to the ratio which the assessed value of the property in the district in any county bears to the total assessed value of the property in the school facilities improvement district. Each board of supervisors shall levy upon the property of the school facilities improvement district and within its own county the rate of tax that will be sufficient to raise not less than the amount needed to pay the interest and the portion of the principal of the bonds as is to become due during the year.

15421. The tax shall be entered upon the assessment roll and collected in the same manner as other on real property.

The tax when collected shall be paid into the county treasury of the county. The treasurer of any county, other than the one whose superintendent of schools has jurisdiction over the school district in which the school facilities improvement district is located, shall, upon order of the county auditor, pay the sum collected on account of the tax into the treasury of the county whose superintendent of schools has jurisdiction over the school district in which the community facilities district is located.

15422. This article shall apply only to general obligation bonds issued for one or more purposes specified in Section 15302 and approved by two-thirds of the votes cast by voters voting on the proposition.

Article 13. Maximum Tax for Payment of Bonds

15425. Notwithstanding any other provision of this chapter, it is the intent of the Legislature that the rate of taxes levied annually upon the property in a school facilities improvement district

pursuant to this chapter not be greater than the rate of the annual special tax levied upon parcels in the same school district that are part of a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth in Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code. A determination by the governing board of a school district, made at the time bonds are sold pursuant to this chapter, that the rate of taxes to be levied annually upon the property in the school facilities improvement district, based upon tax rate estimates prepared pursuant to Section 9401 of the Elections Code, does not exceed the rate of the annual special tax levied upon parcels in the same school district that are part of a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982, shall be conclusive evidence of compliance with the intent of this section.

CHAPTER 3. CALL AND REDEMPTION OF STATE SCHOOL CONSTRUCTION BONDS

15600. The State School Building Finance Committee or other governmental body empowered to make a determination of whether any or all of the bonds authorized to be issued by the state, under legislation enacted following the effective date of this section, for the purpose of assisting local school districts in the acquisition of sites, the construction of school buildings and related facilities, and the purchase of furniture and equipment, may instruct the Treasurer to include in the bonds, or any of them, provisions permitting their call and redemption at the option of the state prior to their maturity and indicating the price at which such bonds shall be subject to redemption; and it shall be the duty of the Treasurer to comply therewith. No bonds shall be subject to call or redemption prior to maturity unless they contain a recital to that effect.

CHAPTER 4. STATE SCHOOL BUILDING AID LAW, 1949

Article 1. General Provisions

15700. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary and adequate school sites and buildings for the pupils of the public school system, the system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless

of how desirable such additional facilities may be. To the end that school classrooms may be made available at once and to all school districts in need of such classrooms, provisions for other needed school facilities is necessarily subordinated.

15701. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive.

(c) "Project" means the purposes for which a school district has applied for an apportionment under this chapter.

(d) "Grade level maintained by a district" means either of the following:

(1) The kindergarten, if any, and grades 1 to 6, inclusive, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district.

(2) Grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

15702. The Director of General Services shall administer this chapter and shall provide any assistance to the board that it may require.

15703. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board in an advisory capacity shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Public School Building Loan Fund.

15704. The board by the adoption of rules shall give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities. This priority shall be based on acuteness of overcrowding, on sudden growth in attendance, on amount of local tax funds expended for housing of a character within the purposes of this chapter, and on the time the district's application has been ready for allotment. The board may make exceptions when it determines that it will be for the benefit of the children affected.

In adopting rules the board may provide for the granting of priority points to govern the allocation according to the following schedule:

(a) Two priority points may be granted for each percent of the latest computed average daily attendance of the district that is inadequately housed. The number of inadequately housed pupils is the latest computed average daily attendance of the district less the sum of both of the following:

(1) Any classrooms up to a total of two, multiplied by 25.

(2) Any classrooms in excess of two, multiplied by 33.

The term "classrooms" for the purposes of this computation shall mean any school classrooms, temporary and permanent, determined by the State Department of Education to be safely usable.

(b) One priority point may be granted for each 5 percent of the latest computed average daily attendance of the district that represents an increase over the average daily attendance for the fifth preceding school year.

(c) One point of priority may be granted for each one-twentieth of 1 percent of the assessed valuation of the district, collected in taxes and expended for school housing within the scope of this chapter since July 1, 1944. Expenditure of the proceeds of the sale of bonds shall not be counted but expenditure for interest and retirement of bonds shall be counted.

(d) Not more than one point of priority shall be allowed for each calendar month that the completed application of the district has awaited funds.

If any computation of priority points made under this section results in a fraction of a point, that fraction shall be disregarded and the number of priority points shall be taken as the next lowest whole number.

These priorities shall be recomputed at least semiannually when funds are available for allocation, on the respective periods of time next preceding the date of computation. The State Department of Education shall assist and cooperate with the board in determining priority ratings.

15705. In addition to any other powers and duties as are granted the board by this chapter, the board shall do each of the following:

(1) Establish any qualifications not in conflict with other provisions of this chapter that it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter.

(2) Establish any procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter that it deems necessary and which are not in conflict with the powers and duties of the State Department of Education or of the director granted or imposed by this chapter.

(3) Adopt any rules and regulations for the administration of this chapter, requiring any procedure, forms, and information, that it may deem necessary.

15706. Apportionment from the Public School Building Loan Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for all of the following purposes:

(a) The purchase and improvement of schoolsites which have been approved by the State Department of Education.

(b) The purchase of desks, tables, chairs, and built-in or fixed equipment, as listed in Part III of the California School Accounting Manual contained in the Bulletin of the California State Department

of Education, Volume XIII, No. 2, June 1944, or as amended or revised.

(c) The planning and construction, reconstruction, alteration of, and addition to, school buildings for any facilities that are approved by the State Department of Education as essential, all of which purposes are hereby declared to be, and are, public works.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the costs thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering the insurance. However, in other respects the apportionments are eligible for payment under this chapter.

15707. In addition to the purposes for which apportionments may be made to school districts under Section 15706, apportionments may also be made to school districts for the construction, repair, attachment or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

15708. In making application for, and in expending, apportionments of funds under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state. Upon the payment by the district of the amounts required to be paid by it to the state under this chapter the board shall, in the name of the state, convey the property to the district.

15709. The board may require school districts to insure for the benefit of the state all sites, equipment, and buildings which are under Section 15708 the property of the state, against any risks and in any amounts that the board may deem necessary to protect the interests of the state. No state funds apportioned under this chapter shall be used to pay the premiums on said insurance.

15710. Where a district is required by a contract entered into between itself and a general construction contractor to obtain, at its own expense, insurance covering risks incurred during any construction for which an apportionment has been made, the cost thereof may be paid directly to said district out of the Public School Building Loan Fund.

It is the intent and purpose of this section to provide for reimbursement to school districts for any builders' risk insurance that may have been furnished and paid for by the districts in connection with approved apportionments from the Public School Building

Loan Fund from the time of the effective date of Chapter 1389 of the Statutes of 1949.

The Legislature in adopting this section expressly recognizes that eligible school districts in making provision for builders' risk insurance during the period of construction of new buildings has provided a saving for the taxpayers of the district, and also has reduced the amount which otherwise would have been paid out of the Public School Building Loan Fund to the district if the cost of the builders' risk insurance had been borne by the contractor with the district. For this reason the Legislature hereby finds, determines, and declares that the adoption of this section having an effect retroactive to the effective date of Chapter 1389 of the Statutes of 1949 is therefore lawful, proper, and represents the saving of public funds for a lawful and public purpose.

The Controller of the State of California is hereby authorized and directed to cancel and annul any claims or demands against the school district arising out of, or in any way connected with, claims for reimbursement from the school districts to the Public School Building Loan Fund arising out of the direct purchase of builders' risk insurance on any construction by any school district under an approved application by the board.

15712. Funds apportioned to a school district under this chapter for a project, remaining unencumbered or unexpended one year from the date the application of the district for the apportionment was approved, shall not be encumbered or expended except as provided in this section.

The governing board of the district shall notify the board of its desire to encumber or expend the funds. The board shall immediately request the State Department of Education to, and the department shall, review the project for which apportionment was made. If the State Department of Education finds that the conditions existing at the time it approved the project for which the apportionment was made have so changed that the needs of the district are less than originally determined, it shall notify the board of its findings and of the respects in which the project should accordingly be modified. The board shall review the project and revise the project in any manner that it deems necessary, subject to the provisions of Section 15727, and make any changes in the purposes for which the apportionment may be expended that it deems necessary. The cost of the project as revised by the board shall be computed in the manner prescribed by Section 15713 and the excess, if any, of the amount theretofore apportioned to the district over the computed cost of the revised project shall be deducted by the board from the apportionment made to the district. The board shall give notice of its action, in writing, to the Controller, the governing board of the district, and the county auditor and the county treasurer having jurisdiction over the public school building fund of the district. If the amount of the excess, or any portion thereof,

has not been paid to the district, the excess, or portion thereof, shall be made available for apportionment to other districts. If the excess, or portion thereof, has been paid to the district, it shall not be encumbered or expended by the district and shall become due and payable to the State of California. The governing board of the district and the county treasurer shall pay that amount to the Treasurer, out of the funds, and in the manner specified in Section 15752. The payment shall, on order of the Controller, be deposited in the Public School Building Loan Fund in the State Treasury.

It shall be the duty of the governing body and county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

This section does not authorize the board to increase any apportionment made to a district.

15713. Each school district which desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in any form and number of copies that the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire project for which the district desires an apportionment. Estimates of cost for new construction appearing in an application shall not exceed typical current costs of comparable new construction by school districts in the same area not receiving or not eligible for apportionment under this chapter, as determined by the Director of General Services, or if there has been no new construction by districts in the area, the estimates of cost shall not exceed the reasonable current cost of similar construction in the area as determined by the Director of General Services. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of General Services.

A district may at any time amend or supplement its application.

The Director of General Services shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount which the district can contribute toward the cost of the project out of its available funds, and shall submit his report thereon to the board.

The directors shall as promptly as possible prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of General Services, who shall, if he or she finds the documents to be in proper form and otherwise sufficient, refer them to the board. If the Director of General Services finds the documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or State Department of Education, he or she shall refer them to the director who shall take any action that may be necessary. The

board shall, subject to the provisions of this chapter approve or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Public School Building Loan Fund the amount applied for, or any portion thereof that the board may deem appropriate. However, it may order that the apportionment or any part thereof shall be paid in progressive installments at the times and under the conditions that it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 15721 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of the resolution of the board, and if it does not become a final apportionment by the date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

The board may for any good cause that it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a district under the terms of an apportionment, other than any contribution required of the district under Section 15721 from the sale of bonds. However, the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.

15714. When an apportionment has been made by the board to a school district the board may, upon application of the governing board of the district, authorize the governing board to transfer funds from other authorized purposes if more than one purpose has been authorized in the district by the board, or to make additional apportionments to the district, or both, if the board determines that additional apportionments or transfers are necessary to meet the actual cost of the specific school plant facilities or sites for which the original apportionment was made. An apportionment made under this section shall be final if the original apportionment has become final, otherwise it shall become final if and when the original apportionment becomes final.

All provisions of this chapter shall apply to apportionments made under this section, except Sections 15713, 15721, 15722, 15725, and 15726 exclusive of the second paragraph of Section 15726 and any other provisions that may relate to application and eligibility for apportionments.

15715. The board may approve, in whole or in part, an application submitted by a school district under Section 15713 and in the amount,

not exceeding the amount applied for, that the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount determined by the board as aforesaid, to the applicant school district from the Public School Building Loan Fund for that portion or portions of the project that the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments within two years after the original approval without requiring a district to issue additional bonds.

The total of the amounts of applications as approved by the board under this section shall not, when added to all amounts apportioned to school districts by the board under Section 15713, exceed 90 percent of the total amount of state school building bonds authorized to be issued and sold by Section 2 of Article XVI of the Constitution of the state.

Except as otherwise provided in this section, all provisions of this chapter relating to apportionments shall apply to apportionments made under this section.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

15716. If, after a conditional apportionment has been made to a school district, legal proceedings initiated prior or subsequent to the making of the conditional apportionment prevent the taking, within the period during which the conditional apportionment remains effective under Section 15713, of the actions necessary to permit the conditional apportionment to become final, the conditional apportionment shall nevertheless remain effective for a period of nine months from the date upon which the legal proceedings are finally determined. The amount of the apportionment may be diminished by the board after a second investigation at which the board shall determine whether conditions existing at the time it approved the project for which apportionment was made have so changed that the needs of the district are less than originally determined and if so the conditional apportionment shall be reduced by a corresponding amount.

15717. With respect to any apportionment made to a school district prior to December 26, 1950, the board may, on the application of the governing board of the district make additional apportionments to the school district for the purchase of the furniture authorized by Section 15706. An apportionment made under this section shall be final if the original apportionment has become final;

otherwise it shall become final if and when the original apportionment becomes final.

All provisions of this chapter shall apply to apportionments made under this section, except Sections 15713, 15721, 15722, 15725, and 15726, exclusive of the second paragraph of Section 15726, and any other provisions that may relate to applications and eligibility for apportionments.

15718. The sum of two million dollars ($2,000,000) was by Chapter 13 of the Statutes of 1952 (First Extraordinary Session) made available from the Public School Building Loan Fund for apportionment by the board pursuant to this chapter, except as otherwise provided by this section and to be transferred by the Controller as needed into a separate account in the State School Building Fund which was created in the State Treasury.

Apportionments made under this section shall be available as grants to those school districts to which apportionments have been made under this chapter, prior to April 1, 1952, and only for the amounts thereof as are in excess of the apportionments the voters of the districts voted to accept and repay under Sections 15721, 15722, and 15723.

If and when the electors of districts receiving apportionments under this section, vote to accept and repay additional amounts under Sections 15721, 15722, and 15723, the board may make apportionments under other sections of this chapter in substitution in whole or in part of the grants made under this section.

In the event the electors of the district fail to vote to accept and repay the additional amounts or if apportionments covering the amounts are not made under other sections of this chapter, beginning in September 1953, and annually for nine years thereafter, apportionments made to the districts from the State School Fund under Sections 46304, 46305, and 92 or 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, or any successor thereof, shall be reduced by an amount equivalent to one-tenth of the amount apportioned under this section. This section shall not be applied so as to reduce any average daily attendance apportionment below the constitutional minimum. During the year beginning September 1953, and each year thereafter in which the Controller determines that the apportionment of any district is to be reduced as herein provided, he or she shall deduct the total amount of the annual repayment of each district in equal amounts from each installment of the apportionments made to the district. The amount deducted shall, on order of the Controller, be transferred from the State School Building Fund to the General Fund at the time and for the purpose provided in Section 15903.

Notwithstanding any other law, taxes in the districts shall be increased sufficiently to offset the amounts by which the average daily attendance apportionments are reduced under this section. The

tax increases shall be made in the manner prescribed under Section 15742 of this chapter.

Any amounts made available by this section which are not apportioned by June 30, 1953, and any recovery by substitution of apportionments made in accordance with this section shall be transferred to the Public School Building Loan Fund.

15719. No apportionment shall be made for new construction which when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per pupil of the estimated enrollment in excess of that computed under the following schedule:

Type of school	Enrollment	Square feet per pupil
Elementary school comprising kindergarten and grades 1 to 6, inclusive	300 or more	55
Elementary school comprising grades 7 and 8	750 or more	75
Junior high school comprising grades 7 and 9, inclusive	750 or more	75
Junior high school comprising grades 7 to 10, inclusive	750 or more	75
High school comprising grades 7 to 12, inclusive	750 or more	80
High school comprising grades 9 to 12, inclusive	750 or more	80
High school comprising grades 10 to 12, inclusive	750 or more	80

The maximum total building areas per pupil allowed to applicants having schools with smaller estimated enrollments than shown in the above schedule shall be determined by the State Department of Education, and shall be building areas to provide comparable facilities to those enumerated above, and shall be the least building area required to house adequately the estimated enrollment and the normal instructional and other services.

No estimate of enrollment made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the second fiscal year beyond the fiscal year in which an application is made, and in no case shall be given effect unless approved by the State Department of Education.

15720. Payment shall be made in accordance with the terms of a final apportionment, either directly or by way of reimbursement, to

a school district for expenditures, or commitments therefor, which have been made by the district subsequent to December 5, 1949, for any items approved by the board in the apportionment. However, where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of the district containing the item was received by the board, payment or reimbursement for the item, either with state funds or with district funds which the district is required to contribute by the apportionment, shall be made only upon authorization of the board by special resolution citing this section.

15721. No apportionment to a school district shall become final unless one of the following is satisfied:

(a) The total amount of outstanding bonds of the district exceeds 95 percent of the maximum amount of bonds which the district could have had outstanding under any law on the date the conditional apportionment is made.

(b) If the total amount of the bonds of the district outstanding and unpaid is less than 95 percent of the amount of the bonds permitted to be issued by the district, the amount of district bonds outstanding is within twenty-five thousand dollars ($25,000) of the total bond limit permitted, as of the date on which the conditional apportionment is made. At the time the board makes a conditional apportionment pursuant to Section 15713, it shall determine what portion of the total amount of bonds which a district is permitted to issue and sell by law shall be issued and sold by the district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought. The portion so determined by the board shall be not less than the minimum amount required for the apportionment to become final under this section. Any apportionment made by the board pursuant to Section 15713 shall be conditioned upon the approval and sale of the bonds by the district.

No apportionment to a district shall become final unless, at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board of the district to accept, expend, and repay, as provided in this chapter, an apportionment under the provisions of this chapter. The election shall be combined with and held at the same time as the bond election to authorize the amount of bonds required by the board, if any, and shall be called, held, and conducted in the same manner as are elections to authorize the issuance of district bonds, except that the ballot, in addition to the bond proposition, shall contain substantially the following words:

"Shall the governing board of the _____ school district be authorized to accept and expend an apportionment in an amount not to exceed _____ dollars ($_____) from the State of California under and subject to the provisions of Chapter 6 (commencing with Section 15700) of Part 10 of Division 1 of Title

1 of the Education Code which amount is subject to repayment as provided by said chapter? Yes ____ No ____."

15722. Immediately after the result of the election has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the bonds have been authorized in the amount prescribed by the board and whether the school district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the Controller. When the bonds authorized have been issued and sold and the proceeds thereof made available for the purposes of the application, the county superintendent of schools shall also certify this fact to the board and the Controller. Upon the receipt by the board of the certificate stating that the bonds have been issued and sold and the proceeds thereof made available for the purposes of the application, the apportionment shall become final.

15723. The election by a school district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 15721 may be called and held either before or after the making of an apportionment.

All elections held prior to October 13, 1950, whether before or after the making of an apportionment, are hereby validated and confirmed if otherwise called and held pursuant to law.

15724. Whenever a conditional apportionment has been made, and the county auditor has inadvertently and erroneously included in his certification of the outstanding bonded indebtedness of the school district the bonded indebtedness of another school district having the same, or substantially the same, boundaries, which bonded indebtedness is less than 2 percent of the total amount of the total bonded indebtedness certified, and thereafter an election upon the issuance of new bonds in the amount required by the board has been had and the vote thereon has been in favor of the issuance of the bonds, and the board has certified to the Controller that the apportionment to the district has become final, the final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the Public School Building Loan Fund according to the terms of the final apportionment is hereby confirmed, ratified, and validated.

Any bonds erroneously certified, however, shall not be taken into consideration in making the computation required by Section 15721.

15725. No apportionment shall be made to a school district for any grade level if the estimated cost of the project, as approved by the Director of General Services, is (1) an amount which would result in an apportionment to the district exceeding the amount authorized at the district election held under Section 15721, or (2) an amount which if raised by the issuance and sale of bonds of the district running for 25 years bearing the current going rate of interest as determined by the board and the principal of which is payable in 25

equal annual payments, would require the levy of a tax under Section 15250 upon property in the district which would, when added to the tax actually being levied upon property in the district for the grade level as determined by the Director of General Services under that section, amount to less than thirty cents ($0.30) on each one hundred dollars ($100) of assessed valuation of property in the district during the next fiscal year. Beginning in 1981–82, the amount shall be the levy of a tax which would amount to less than 0.075 percent of full valuation of property in the district during the next fiscal year.

At the time the board makes an apportionment, it shall, with the approval of the Director of General Services, fix the interest to be paid by the district on the sum apportioned to it at a rate equal to the effective rate paid by the state upon the bonds sold from the proceeds of which the apportionment is made, giving effect to the price at which the bonds are sold and the premium, if any, paid thereon, adjusted to the next highest one-eighth of 1 percent, to cover the cost of sale and issuance of the bonds and costs of administration, to be compounded annually through the 30th day of June of each year.

15726. As used in Section 15725 of the Education Code, the phrase "adjusted to the next highest one-eighth of 1 percent" means "increased by a full one-eighth of 1 percent." It is hereby declared that this construction is not intended as a change in the present law, but as a declaration of the existing law, and shall apply to any interest rate heretofore or hereafter fixed by the board under said section.

15727. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment or for any project or part thereof which has not been approved by the State Department of Education.

15728. Each district to which an apportionment has been made under this chapter shall repay the principal amount of the apportionment and the accrued interest thereon in the amount and in the manner hereinafter provided in this chapter.

15729. The following definitions apply to the computations and determinations required to be made under Sections 15730, 15732, and 15733, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation, to and including 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.10 percent of the full valuation. This tax amount shall exclude the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of thirty cents ($0.30) on each one hundred dollars ($100) of such assessed valuation to and including the 1980–81 fiscal year. For 1981–82 and thereafter, the tax shall be 0.075 percent of such full valuation: and

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of ten cents ($0.10) on each one hundred dollars ($100) of such assessed valuation to and including the 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.025 percent of the full value.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the date of the first final apportionment for any grade level to the district under this chapter, computed as provided in Section 15730.

15730. On or before the first day of December of each fiscal year, the Director of General Services shall determine for each grade level and certify to the Controller the eligible bonded debt service for the district, as follows:

(a) He or she shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a district, conditioned upon the issuance and sale of additional bonds of the district, the Director of General Services shall determine and include in the eligible bonded debt service and in his or her certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each grade level as a condition to receiving the additional apportionment.

(b) If the Director of General Services determines in any fiscal year that the amount certified to the Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 15729 and subdivision (a) of this section, then the Director of General Services shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of the bonded indebtedness and the amount so certified by the Director of General Services.

(c) If the Director of General Services determines in any fiscal year that the amount certified to the Controller as the eligible bonded debt service during the last preceding fiscal year is less than

the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 15729 and subdivision (a) of this section, then the Director of General Services shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of the bonded indebtedness and the amount so certified by the Director of General Services.

15731. Notwithstanding any other provisions of this chapter, a school district otherwise eligible to receive a conditional apportionment under Chapter 8 (commencing with Section 16000) of this part may apply for an adjustment of annual repayment obligations under this chapter.

The board may require any information that is necessary to determine the number of units of estimated average daily attendance for which the district would have been eligible to construct school facilities under this chapter, if the conditional apportionment had been made and had become final. The units shall be known as "eligible attendance units." The board shall then determine an "eligible facilities cost" by multiplying the number of the eligible attendance units by the average cost of housing elementary or high school pupils as set forth in the latest report to the Legislature required under Section 16098.

In any fiscal year in which the school district is, in the judgment of the board, operating sufficient year-round classes to provide housing for the eligible attendance units, the Director of General Services shall add to the amount which he or she is required to certify to the Controller under Section 15730 an amount equal to one-twentieth of such eligible facilities costs.

The additional amount so certified shall be considered for all purposes of this article as eligible bonded debt service.

15732. On or before the first day of January of each fiscal year, the Controller shall compute for each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year the 40-cent tax amount, the 30-cent tax amount and the 10-cent tax amount.

15733. On or before the first day of January of each fiscal year the Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year, as follows:

(a) If, for any grade level of a district, the amount of the eligible bonded debt service exceeds the 40 cents ($0.40) tax amount, no annual repayment shall be due the state from the district with respect to the grade level during the next succeeding fiscal year.

(b) If, for any grade level of a district, the 40 cents ($0.40) tax amount is greater than the eligible bonded debt service, the amount of the excess shall constitute the annual repayment due the state with respect to the grade level during the next succeeding fiscal year.

However, if the eligible bonded debt service is less than the 10 cents ($0.10) tax amount, the annual repayment shall equal the 30 cents ($0.30) tax amount.

(c) The total repayment from each district is the sum of the annual repayments determined for each grade level of the district under this section.

15734. Notwithstanding any other provision of this chapter, and regardless of how many apportionments are made to a grade level of a school district under the provisions of this chapter, the total annual repayment for the grade level during any fiscal year, covering all the apportionments, shall not exceed the amount that would be computed under Sections 15729 to 15735, inclusive, for any one of the apportionments.

15735. The Controller shall, during the next fiscal year following that in which he or she determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to the district from the State School Fund under Sections 46304, 46305, and 92 or 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, and, on order of the Controller, the amount so deducted shall be transferred to the Public School Building Loan Fund. All money transferred to the Public School Building Loan Fund under this section shall be available only for transfer to the General Fund under Section 15903.

15736. Notwithstanding any provision of law to the contrary, whenever in any fiscal year, pursuant to Chapter 5, Part 9, Division 1 of the Revenue and Taxation Code, a refund is made or a judgment rendered, as the case may be, for the return of an amount collected as school district taxes levied during a previous year upon secured or unsecured personal property, because it was determined that the property was exempt from taxation, and the property so determined to be exempt equals 1 percent, or more, of the assessed valuation in the school district upon which school district taxes for the previous year were levied, the Controller shall reduce the annual repayment of the district and the amount deducted from the State School Fund apportionment of the district for the fiscal year next succeeding that in which the refund was made or judgment rendered, by that amount by which the annual repayment and deduction of the district would have been reduced for the fiscal year next succeeding that in which the taxes were levied had the assessed valuation upon which the annual repayment was computed not included an amount of assessed valuation equal to the amount of assessed valuation of the property so determined to be exempt.

The amount of annual repayment and deduction, reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 15735, 15741, and 15742 for the fiscal year in which the reduction is made.

15737. (a) Upon request of the district, the Controller shall use in computing the "40-cent, 30-cent, and 10-cent tax amounts" under Section 15732 the difference between the total assessed valuation of property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of the total assessed valuation, with respect to which revenues of the district taxes levied in the 1954–1955 fiscal year, or thereafter, have been impounded by the county auditor pursuant to Section 14240. Beginning with the 1981–82 fiscal year, the amount in excess of 0.5 percent of the total assessed valuation shall be used in the computation. If the request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954–1955 fiscal year, the Controller shall recompute the annual repayment of the district due during the 1955–1956 fiscal year on the basis of the reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 15741 of the recomputed annual repayment for the 1955–1956 fiscal year, and of the recomputed amount to be deducted from the State School Fund apportionment to the district during the 1955–1956 fiscal year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district, for the first fiscal year or second fiscal year next succeeding that in which the notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 15735, 15741, and 15742 for the fiscal year in which the increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a), Section 15736 shall not apply with respect to any tax revenues to which subdivision (a) applies.

15738. The Controller shall make the deduction provided by Section 15735 during each fiscal year, as herein provided, until the principal amount of the apportionment made to the district for the grade level, and all accrued interest due thereon, has been withheld; but no interest shall accrue or become due and payable to the state with respect to the principal amount of any apportionment after the expiration of 25 years from the first day of July of the fiscal year next succeeding the date of the warrant issued by the Controller covering the payment to the county treasurer of each portion of the apportionment. At the expiration of 30 years from the first day of July

of the fiscal year next succeeding the date of the warrant issued by the Controller covering the payment to the county treasurer of each portion of the apportionment, any unpaid balance of the principal amount of the apportionment, including all interest included in the principal amount, shall be canceled on the books of the Controller, and the state shall have no further right to the repayment of the unpaid balance.

15739. The Controller shall certify to the board the cancellation of the unpaid balance of the principal amount of the apportionment. Upon receipt of the certification, the board shall, in the name of the state, convey to the district all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to, from moneys provided by the apportionment covered by the cancellation.

15740. The Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to each grade level of a district under this chapter. He or she shall compute interest on the original amount of the apportionment at the rate fixed by the board, from the date of issuance of the Controller's warrant covering the payment to the county treasurer of any portion of the apportionment until the first day of July of the fiscal year next succeeding that in which the warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to the apportionment through the 30th day of the following June of each year, until the principal and interest have been paid, or until the interest ceases to accrue, as provided in this chapter. Interest on unpaid school building aid apportionments shall be computed as if the annual repayment were credited on the first day of July of the fiscal year in which the repayment is withheld.

15741. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

15742. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the Controller during the fiscal year in which the tax is levied. The tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

15743. The board shall prescribe in the detail that it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and the prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for any cause that it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose. However, the changes or substitutions in the purposes for which the funds were earmarked or encumbered, with respect to the requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of General Services.

15744. Unless the board has received the certificates of the county superintendent of schools required by Section 15722 within nine months from the date of the conditional apportionment, it shall, at the expiration of the nine-month period, void the conditional apportionment and shall certify this fact to the Controller. Each final apportionment made by the board under this chapter shall be certified by it to the Controller who shall from time to time draw his or her warrant on the Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of the final apportionment. The warrant shall be exempt from the provisions of Division 4 of Title 2 of the Government Code and shall be paid by the Treasurer from the Public School Building Loan Fund.

15745. A public school building fund is hereby created in the county treasury in each county for each school district in the county. The county treasurer of each county shall pay into the public school building fund of each district, exactly as apportioned by the board, all moneys received by him or her under this chapter with respect to that district.

15746. The governing board of each school district to which an apportionment is made under this chapter is authorized to, and shall, transfer to the public school building fund of the district from all other funds of the district in which the moneys may be, all moneys of the district which under, or pursuant to, this chapter are required to be expended for the project for which the apportionment was made.

15747. A fund in the State Treasury is hereby created, to be known as the Public School Building Loan Fund. All money in the Public School Building Loan Fund, including any money deposited in the fund from any source whatsoever after July 29, 1949, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

15748. Notwithstanding any provision of law to the contrary, the State Allocation Board may from time to time by appropriate resolution order the transfer from the Public School Building Loan Fund to the State School Building Aid Fund of any amounts therein which it deems no longer desirable to retain for the purposes of this chapter and Sections 15900 to 15909, inclusive. Nothing herein shall be deemed to apply to any moneys heretofore or hereafter deposited in the Public School Building Loan Fund by virtue of Sections 15735 and 15907, and former Section 5107 as added by Chapter 922 of the Statutes of 1949, and as subsequently amended; or to any moneys appropriated from the Public School Building Loan Fund by virtue of the Budget Acts of 1954 and 1955, and which remain available for expenditure. Upon such order or orders the Controller shall make appropriate transfers, and any sums so transferred shall be available for apportionment in the same manner as other moneys in the State School Building Aid Fund, except that to the amount available for apportionment on the fifth day of each month pursuant to Section 16409, there shall be added any amount transferred to the State School Building Aid Fund by virtue of this paragraph prior to the fifth day of the preceding month. Notwithstanding the provisions of Section 15904, after July 7, 1955, there shall be no further transfers to the General Fund from the Public School Building Loan Fund of any amounts deposited therein by virtue of Sections 15752, 15753, and 15754.

15749. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the public school building fund of the district exactly as apportioned by the board and only for the purposes for which the moneys were apportioned to the district, and for no other purpose, and shall make the reports relating to the expenditure of the moneys that the board and the Controller shall require.

15750. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

15751. It shall be the duty of the Controller to make the audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he or she may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

15752. Whenever the Controller determines that any money apportioned to a school district has been expended by the school district for purposes not authorized by this chapter, or exceeds the

final cost of the project which is authorized by this chapter to be paid therefrom, the Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of the unauthorized expenditures, or the amount of the excess apportionment, as the case may be. Upon receipt of the notice, the governing board shall order the county treasurer to pay to the Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in the notice. That amount shall, upon order of the Controller, be deposited in the State Treasury to the credit of the Public School Building Loan Fund.

It shall be the duty of the governing body and county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

If, upon petition of the district, the Controller determines that the amount is in excess of the amount that may be paid out of taxes levied at the maximum rate increased by any increase in the rate authorized by the electors of the district pursuant to Section 42202, without impairing essential district services, he or she may provide for the payment of the entire amount or any unpaid balance thereof in not exceeding three consecutive annual payments, commencing with the next school year. Each payment shall be an equal portion of the principal amount, plus accrued interest, and shall be paid not later than January 31st of each school year in which a payment is due. If the district fails to make the payment as specified, the Controller shall deduct the amount thereof from the February payment made to the district under Section 14041.

Deferred payments under this section shall bear interest at the same annual rate of interest as the apportionment from which the unauthorized expenditures or the amounts of excess apportionment were made.

15753. Any portion of an apportionment paid to a school district under this chapter shall be available for expenditure by its governing board for not less than one year nor more than three years, as the board shall determine, after the date on which the warrant covering the portion of the apportionment was issued by the Controller. For the purposes of this chapter, an apportionment shall be deemed to be expended at the time and to the extent that the amount thereof on deposit in the county treasury has been encumbered by the creation of a valid obligation on the part of the school district. Upon the expiration of its period of availability, the unencumbered balance of any apportionment made under this chapter shall become due and payable to the State of California; and the governing board of the school district and the county treasurer shall pay the amount of the

unencumbered balance to the Treasurer, out of the funds, and in the manner specified in Section 15752. The payment shall, on order of the Controller, be deposited in the Public School Building Loan Fund in the State Treasury.

It shall be the duty of the governing body and county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

15754. Whenever a school district receives an apportionment under this chapter for the purchase or improvement of a school building site and within a period of five years after the date on which the warrant covering the appropriate portion or portions of the apportionment was drawn on the State Treasurer from the Public School Building Loan Fund, (1) sells or otherwise disposes of the site or the improvements thereon, or any portion thereof, purchased or improved in whole or in part from the apportionment, or (2) within not less than one year nor more than five years, as the board shall determine, does not begin to use the site or the improvements thereon for the purpose or purposes for which the apportionment was made, the board shall make the determinations and take the action with respect thereto as it may deem necessary. If the board determines that the district has (1) sold or otherwise disposed of the site or the improvements thereon, or any portion thereof, or (2) has not used the site for the purpose for which the apportionment was made, it shall demand the return of the apportionment or the portion thereof that it deems proper.

Written notice of the demand, setting forth the amount due the state pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the Controller. Upon receipt of the notice and demand, the governing board of the school district shall order the county treasurer to pay to the Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in the notice. The amount shall, upon order of the Controller, be deposited in the State Treasury to the credit of the Public School Building Loan Fund.

It shall be the duty of the governing board and county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

Article 2. School Housing Aid for Reorganized Districts

15780. (a) As used in this article:

(1) "State-aided district" means a district to which a conditional or final apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all, or a part of, a state-aided district or an applicant district has been included.

(b) Except as otherwise provided in Section 15788, the effective date for the purposes of this article of any change of boundaries or annexation or other inclusion affecting a school district shall be the date the action became effective for the purposes of Section 4002.

15781. When a district has received conditional apportionments which have become final under this chapter, and there is a unification of the district prior to December 31, 1952, within the meaning of Section 4320, with another district having the same boundaries, the effective date of the unification for the purpose of the first district receiving additional apportionments pursuant to the terms of Section 15714 shall be July 1, 1953.

15782. Whenever, prior to the date on which a conditional apportionment is made by the board to an applicant district, (1) if an applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no apportionment shall be made to the applicant district; (2) if less than the whole of an applicant district is included in a district which is ineligible for an apportionment under this chapter, the board may reconsider the application of the applicant district and make the determinations and take the action with respect thereto, including the making, subject to Article 1 of this chapter, of a conditional apportionment to the district, as the board may deem necessary because of the inclusion of less than the whole of the applicant district in the acquiring district; (3) if an applicant district is annexed to or otherwise included in whole or in part in a district which is eligible for an apportionment under this chapter and has made or does make an application for the apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make such determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter, of conditional apportionments to districts, that the board may deem necessary because of the annexation or other inclusion in the acquiring district of the applicant district in whole or in part.

15783. Whenever, subsequent to the date on which a conditional apportionment is made by the board to an applicant district, but prior to the date on which the conditional apportionment becomes final, (1) if an applicant district is annexed to or otherwise included in whole in a district which is not eligible for an apportionment under this chapter, the conditional apportionment shall, notwithstanding any other provisions of this chapter, become void and the board shall promptly notify the Controller in writing thereof and the date on which the apportionment became void; (2) if the district to which an applicant district is annexed or in which it is otherwise included in whole is eligible for an apportionment, has made or does make an application for an apportionment under this chapter, the conditional

apportionment made to the applicant district shall, notwithstanding any other provisions of this chapter, become void but the board may reconsider the application of the acquiring district and make determinations and take action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter except as hereinafter provided, of additional conditional apportionments to the acquiring district, as the board may deem necessary as a result of the annexation or other inclusion in the acquiring district of the applicant district; (3) if less than the whole of an applicant district is included in another district, the conditional apportionment shall, notwithstanding any other provisions of this chapter become void, but the board may reconsider the application and make such determinations and take such actions with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 15700) of this chapter except as hereinafter provided, of new conditional apportionments to the applicant district, as the board may deem necessary as a result of such inclusion of a portion of the applicant district in the acquiring district.

Notwithstanding anything in the first sentence of Section 15721 to the contrary, additional conditional apportionments made to a district under (2), or new conditional apportionments made to a district under (3) of the first paragraph of this section may, with the approval of the board, become final if the total amount of the bonds of the district outstanding and unpaid is within ten thousand dollars ($10,000) of the amount required under Section 15721.

15784. Whenever, prior to the date on which conditional apportionments have been made to an applicant district for the full amount of state aid approved for the district under Section 15715, (1) if the applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no further apportionment shall be made to the applicant district; (2) if the applicant district is annexed to or otherwise included in whole in a district which is eligible for an apportionment under this chapter and which has made or does make an application for an apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make determinations and take any action with respect thereto, including the making, subject to Article 1 (commencing with Section 15700) of this chapter, of a conditional apportionment or apportionments to the acquiring district that the board may deem necessary because of such annexation or other inclusion in the acquiring district of the applicant district; (3) if a portion of the applicant district is annexed to or otherwise included in another district, the board may reconsider the application of the applicant district and may, within two years after the first apportionment made under the approval, make additional apportionments that it sees fit to the applicant district, but not in excess of the amount in which the application was originally approved, without requiring the district to issue additional bonds.

15785. Notwithstanding, and in lieu of, any provisions of this chapter to the contrary, excepting Section 15725 if during the fiscal year 1950–1951, or any subsequent fiscal year, a conditional apportionment is or has been made to a district, hereinafter referred to as the original district, and if the original district (1) holds or has held all elections required by Section 15721, and (2) before the apportionment becomes final is or has been annexed to or included in whole in another district, hereinafter referred to as the acquiring district, which had prior thereto received its first final apportionment under this chapter during the same fiscal year, and (3) after the inclusion or annexation sells or has sold the bonds authorized by the aforesaid elections, the board may approve any application by the governing board of the acquiring district and make an apportionment, or apportionments, for any project for which the original district would have been eligible under this chapter had such inclusion not taken place. No apportionment shall be made to the acquiring district under this section unless the proceeds of the bonds which the board required the original district to sell are available for and will be contributed toward the cost of the approved project. Any apportionment made to the acquiring district under this section shall become final when made.

The computations provided in Sections 15729, 15730, and 15733 with respect to apportionments made under this section shall be made exactly as though the acquiring school district was comprised only of the original school district.

Any rate or amount of tax levied pursuant to or under the authority of Sections 14204 and 15742, or any other provision of law, for the purpose of producing the amount or any part thereof deducted by the Controller with respect to apportionments made under this section, during any fiscal year under Sections 15735 and 15738 from apportionments to the acquiring district from the State School Fund shall be levied only on property in the original school district.

15786. Whenever, subsequent to the date when a conditional apportionment is made to a district and before the conditional apportionment becomes final the boundaries of the district are changed so that the territory of the district is reduced by not to exceed 1 percent of the assessed valuation of the district, as determined by the last equalized assessment roll immediately preceding the effective date of the change of boundaries, and the superintendent of schools of the county having jurisdiction over the district has failed to file the certificate required by Section 15795, showing the change of boundaries, and prior to April 15, 1952, the board has certified to the Controller that the apportionment made to the district has become final, the final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the Public School Building Loan Fund according to the terms of the final apportionment is hereby confirmed, ratified, and validated.

15787. Notwithstanding any provision of law to the contrary, whenever a conditional apportionment has been made to an elementary school district pursuant to Section 15714 prior to August 1, 1951, and the school district has subsequently voted to become a part of a union school district before the school district has voted to accept and repay an amount sufficient to include both said entire apportionment made pursuant to Section 15714, and all other apportionments made to the school district by the board prior to August 1, 1951, the elementary school district is continued in existence until September 1, 1953, for the purpose of (1) receiving any apportionment made to said district subsequent to August 1, 1951, under Section 15718, as if the elementary district had not voted to unionize with another school district, and (2) for the purpose of voting upon the acceptance and repayment of the apportionment mentioned in (1) or any other apportionment made to the district by the board subsequent to August 1, 1951.

If any elementary school district so described above shall vote, prior to September 1, 1953, to accept and repay any apportionment above mentioned (except of any apportionment made under Section 15718), the apportionment shall thereupon become final. Repayment of any apportionment referred to in this section shall be made by the elementary district pursuant to the applicable provisions of this chapter as if no change in boundaries had been made in the district.

15788. Whenever, subsequent to the date on which a conditional apportionment made to a district becomes final, the state-aided district is included in whole in another district, the acquiring district shall, on the effective date of the inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to the apportionment and the property acquired or to be acquired from funds provided thereby, and all funds in the public school building fund of the state-aided district shall be transferred to the public school building fund of the acquiring district. All amounts which would, after the effective date of the inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to the apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district as fixed by Section 4000, become liable for the annual repayments and other payments due the state under this chapter with respect to the apportionment or the property acquired or to be acquired therewith.

15789. Whenever one or more state-aided districts are included in whole in an acquiring district, and the acquiring district applies for and receives an apportionment, then after the effective date of the inclusion and upon the approval of the application of the acquiring district, the governing board of each component state-aided district shall immediately transfer to the acquiring district all moneys of the component district which are required to be, or have been,

earmarked for a project or projects of the district. The acquiring district, upon the transfer to it of the funds, may expend the funds for any projects of the acquiring district as to which its application was approved.

15790. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of General Services shall determine what portion of the apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of General Services under this section may be redetermined by him or her, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to the final cost. The Director of General Services shall promptly notify the Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him or her under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the state under the provisions of this chapter.

On and after the date of the change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of General Services has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of the portion of the apportionment in the public school building fund of the state-aided district shall be transferred to the public school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the state of that portion of the annual repayment and all other payments due the state under the provisions of this chapter with respect to that portion of the apportionment which the Director of General Services has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district, or, in the event a portion of the apportionment is a lower percentage of the apportionment than the percentage that the assessed valuation in the territory of the state-aided district which was transferred to the acquiring district is of the total assessed valuation of the state-aided district immediately preceding the effective date of the transfer, the acquiring district shall become liable for the payment to the state of that percentage of the annual repayment and all other repayments due to the state under provisions of this chapter with respect to the

apportionment which is equal to the percentage of assessed valuation in the territory transferred to the acquiring district.

Notwithstanding the foregoing, the liability of the acquiring district for the repayment of any portion of the apportionment made to the state-aided district shall not exceed the product of the highest percentage referred to above (whether relating to assessed valuation or to the portion of the apportionment expended in the property acquired), multiplied by the balance due on the apportionment made to the state-aided district at the time of the withdrawal on the effective date specified in Section 4064 of the territory referred to. The limited liability is hereinafter referred to as "the maximum." It is the intent of the Legislature that the maximum shall be applied by the Controller, both retroactively and prospectively, provided that as a result of the application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than the maximum, assuming this paragraph had been in effect at that time, the excess shall be credited by the Controller against any apportionment balances for which said district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from other districts by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 15735 prior to January 1, 1966.

If any subsection, clause, sentence of phrase of this section is for any reason held to be unconstitutional such decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section, and each subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences or phrases be declared unconstitutional.

15791. Notwithstanding any change in the boundaries of a state-aided district or the annexation to, or the inclusion in, another district of a state-aided district, the state-aided district as it existed immediately prior to the effective date of the action shall be continued in existence for the determination of the assessed valuation of the property therein and for the purposes of the computations provided by Sections 15729, 15730, and 15733; and all the computations required to be made pursuant to those sections shall be made exactly as if there had been no change of boundaries, annexations, or inclusion, except as otherwise provided in Sections 15792 and 15793.

15792. Whenever, subsequent to the date on which a conditional apportionment becomes final, territory is withdrawn from a state-aided district and no portion of the apportionment was expended for school property acquired by the acquiring district:

(1) If the acquiring district is a state-aided district, the assessed valuation in the territory acquired shall be included in determining assessed valuation of the property in the acquiring district, and shall thereafter be excluded in determining assessed valuation of the property in the state-aided district, for purposes of the computations under Sections 15729 to 15733, inclusive;

(2) If the acquiring district is not a state-aided district, the State Controller shall determine the percentage relationship, at the time of the withdrawal, between (a) the assessed valuation in the territory acquired, together with the current assessed valuation in all other territory theretofore acquired by the acquiring district from the state-aided district since the date of its first conditional apportionment under this chapter, and (b) the current assessed valuation of the state-aided district as it was territorially constituted on the latter date.

If the percentage of assessed valuation in acquired territory is, in the aggregate, less than 10 percent, the assessed valuation in all the acquired territory shall be excluded, until the next withdrawal of territory from the state-aided district to the acquiring district, in determining the assessed valuation of the state-aided district for the purposes of the computations under Sections 15729 to 15733, inclusive.

If the percentage of assessed valuation in acquired territory is, in the aggregate, a percentage equal to or greater than 10 percent, the Controller shall, by deducting such percentage from 100 percent, obtain the "complement percentage." Until the next withdrawal of territory from the state-aided district to the acquiring district, the assessed valuation of the state-aided district for purposes of the computations under Sections 15729 to 15733, inclusive, shall be determined by dividing the current assessed valuation of the state-aided district, as territorially constituted immediately subsequent to the last withdrawal, by the complement percentage.

Whenever, pursuant to this section, the assessed valuation of the state-aided district is adjusted for repayment computation purposes by use of the complement percentage, liability for the annual repayment computed shall be apportioned between the state-aided district and the acquiring district by multiplying such annual repayment by the complement percentage, the product representing the liability of the state-aided district, and the remainder of the computed repayment representing the liability of the acquiring district.

Notwithstanding the foregoing, the liability of the state-aided district shall not exceed the product of any "complement percentage" (as it may from time to time exist) times the balance due on the final apportionment at the time the complement percentage is established; and the liability of the acquiring district (while a complement percentage remains unchanged) shall not exceed the remainder of the balance of the aforesaid final apportionment at the

time the complement percentage is established. The maximum liability on the part of either the state-aided or acquiring districts established as above (and until the time that the liability be altered by altering the "complement percentage") shall be hereinafter referred to in this section with respect to each district as "the maximum."

(3) In the event that two or more nonstate-aided districts acquire territory from the state-aided district the Controller shall determine the formulae for apportioning liability for the annual repayment between the districts affected (including the formulae for determining what assessed valuations shall be used within the affected districts or territories withdrawn, and the dates of determination thereof) as will in his or her opinion best comply with the principles set forth above, irrespective of whether the formulae are in literal compliance therewith. The same percentage of annual repayment for which a district is liable at the time the liability apportionment is made shall (unless and until the liability apportionment is subsequently changed pursuant to this paragraph) be deemed applicable to the liability of the district for the balance (as of the date the liability apportionment is made) due on the final apportionment to the state-aided district. The liability for the balance shall, with respect to any affected district, be hereinafter referred to as the "maximum" for the district.

(4) It is the intent of the Legislature that the foregoing "maximums" shall be applied by the Controller both retroactively and prospectively, provided that as a result of the application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than its "maximum," assuming this paragraph and others to which it is referable had been in effect at that time, the excess shall be credited by the Controller against any apportionment balances for which the district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from any other district by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 16080 prior to January 1, 1966.

If any subsection, clause, sentence or phrase of this section is for any reason held to be unconstitutional that decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section and each subsection, sentence, clause or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences, or phrases be declared unconstitutional.

15793. Whenever, subsequent to the date on which a conditional apportionment becomes final, any territory is withdrawn from a nonstate-aided district and annexed to the state-aided district, the

assessed valuation in the territory so annexed shall be included with the valuation of the state-aided district for the purposes of making the computations provided by Sections 15729 to 15733.

15794. The Controller shall compute, in accordance with Sections 15791, 15792, and 15793, the amount of the annual repayment due the state on account of the apportionment or apportionments to each state-aided district and shall deduct from the respective apportionments made from the State School Fund under Sections 46304, 46305, and 92 or 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, to the state-aided district and an acquiring district the portion thereof for which each is liable under this article.

15795. (a) When, after any application is filed, the applicant district is annexed to, or, by change of boundaries or otherwise, is included in whole or in part in another district or districts, the superintendent of schools of the county having jurisdiction over the applicant district shall, within 10 days after the effective date of the annexation, inclusion, or change of boundaries, file a certificate with the board, in writing, in the form that the board shall prescribe, setting forth each of the following:

(1) The effective date of the annexation, inclusion, or change of boundaries.

(2) Identification of the area of the school district affected by such change and the name of the school district or districts in which such area is included as a result thereof.

(3) Any additional information in any form that the board may require.

(b) The board shall, upon receiving the appropriate certificate from a county superintendent of schools as provided herein, promptly notify the Controller, in writing, of each of the following:

(1) The effective date of annexation or other inclusion of a state-aided district by an acquiring district.

(2) The name of the state-aided district.

(3) The name of the acquiring district.

(4) The number and other identification of the apportionment affected.

CHAPTER 5. STATE SCHOOL BUILDING FINANCE COMMITTEE

15900. For the purpose of creating a fund to provide aid to school districts of the state, the State School Building Finance Committee, created by Section 15909, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the state in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof.

15909. There is hereby created a State School Building Finance Committee composed of the Governor, Controller, Treasurer, Director of Finance, and Superintendent of Public Instruction, all of

whom shall serve thereon without compensation and a majority of whom shall be empowered to act for the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the speaker, shall meet and advise with the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, these Members of the Legislature shall constitute an interim investigation committee on the subject of this chapter and as such shall have the powers and duties imposed upon these committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide any assistance to the State School Building Finance Committee that it may require. The Attorney General of the state shall be the legal adviser of the State School Building Finance Committee.

CHAPTER 6. STATE SCHOOL BUILDING AID LAW OF 1952

Article 1. General Provisions

16000. This chapter may be cited as the State School Building Aid Law of 1952.

16001. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary schoolsites and buildings for the pupils of the public school system, this system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the pupils of the public school system. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless of how desirable such additional facilities may be. To the end that school classrooms may be made available at once and to all school districts in need of such classrooms, provisions for other needed school facilities is necessarily subordinated.

16002. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive.

(c) Notwithstanding any other law, the term "project" shall be deemed to include any or all of the purposes for which a school district has applied for apportionments under this chapter, pursuant to any regulations that the State Allocation Board may adopt.

(d) "Grade level maintained by a district" means any of the following:

(1) The kindergarten, if any, and grades 1 to 6, inclusive, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district.

(2) Grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district.

However, not more than one grade level shall be claimed by any district under any one of the paragraphs of this subdivision.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires. The term "apportionment" in Sections 16091, 16097, 16099, 16100, 16104, 16105, and any other section in this chapter where the context justifies, shall be deemed to include funds of a school district required by the board to be contributed toward the purposes thereof. It is hereby declared that this construction is not intended as a change in the present law but rather as a declaration of existing law.

16002.5. For the purposes of this chapter, the term "basic bond requirement," means 5 percent of the assessed valuation of taxable property of the district for each grade level maintained by a district, as shown by the last equalized assessment of the county or counties in which the district is located, and as modified by Section 41201 or Section 84201.

16003. With respect to applications filed on and after the effective date of this section by a unified district and any apportionments and repayments made under the applications, "grade level maintained by the district" means the kindergarten, if any, and grades 1 to 12, inclusive, maintained by the district.

A unified district if otherwise eligible, may apply for and receive an apportionment for either one or both of the grade levels.

This section shall not apply to a unified district during the first three years following the effective date of this section, or during the first three fiscal years in which the district is in existence for all purposes, if the governing board of the district transmits to the board a written notice stating the district desires to be exempted from this section during that period.

16004. Notwithstanding any provision of this chapter to the contrary, the board shall review each application and shall take action to insure that apportionments are not made that will provide for construction of permanent facilities to meet temporary peak enrollments at any site or at any grade level. In cases deemed by the board to be hardship cases involving high school or unified school districts where the district will not be able to house high school pupils under basic area limitation formulas prescribed in this chapter, the board may make apportionments for high school facilities in excess of the limitations. In that event, the board may provide for the construction of portable facilities at any particular site for which the apportionments are made, particularly where the board determines that there will be, within a six- to nine-year period immediately

following the apportionment for facilities at the site, a diminution in enrollment at the site justifying relocation of facilities. In no event shall the board have any authority to make an apportionment for construction area at a high school attendance center which, when added to the area of adequate school construction at that center, would exceed the area permitted therefor by Sections 16053 and 16054.

16005. The Director of General Services shall administer this chapter and shall provide any assistance to the board that it may require.

16006. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the State School Building Aid Fund.

16007. The board by the adoption of rules shall give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities. This priority shall be based on acuteness of overcrowding, on rapidity of growth in attendance, and on the time the district's application has been ready for allotment. The board may make exceptions when it determines that it will be for the benefit of the children affected.

The State Department of Education shall assist and cooperate with the board in determining priorities.

16008. In allocating funds under this chapter, the board may give first priority to school districts for the replacement and repair of school buildings and necessary facilities appurtenant thereto damaged by any earthquake occurring subsequent to July 1, 1952. All of the provisions of this chapter apply to the districts except the provisions for the establishment of priorities.

Prior to making any apportionment under this section, the State Allocation Board may secure from the Department of General Services, a report showing the urgency of the work of replacement or repair for which an application has been filed. The report shall not be conclusive upon the State Allocation Board, but shall be advisory only.

16009. In addition to any other powers and duties that are granted the board by this chapter, the board shall:

(a) Establish any qualifications not in conflict with other provisions of this chapter that it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter.

(b) Establish any procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter that it deems necessary and which are not

in conflict with the powers and duties of the State Department of Education or of the director granted or imposed by this chapter.

(c) Adopt any rules and regulations for the administration of this chapter, requiring the procedure, forms, and information, that it may deem necessary.

16010. The State Department of Education, in addition to any responsibilities or approvals required under Sections 39000 to 39323, inclusive, shall provide the following services to school districts making applications for apportionments under this chapter:

(1) It shall assist school districts in organizing a comprehensive planning effort. It shall guide a planning process through its appropriate steps and, when requested by a school district, it shall provide the school district with sources of expertise, either public or private, which may be able to contribute to the development of plans to find solutions for specific problems a school district may have.

(2) It shall provide continuing research in relation to all phases of educational programs and the school facilities that are required to implement these educational programs.

(3) It shall provide a review and evaluation service to school districts to assure the effectiveness of the facilities that have been provided in accommodating educational programs.

(4) It shall provide communication media through publications, seminars, and prepare planning guides and procedures containing recommendations, which guides shall be used to disseminate educational planning information to all school districts.

16011. Each school district which desires an apportionment of funds under this chapter shall, unless specifically exempted by the board, prepare a long-range comprehensive master plan for the district prepared in accordance with acceptable planning procedures. Information relating to the following factors should be included in this master plan:

(a) A statement of the educational programs and goals of the district in relation to its programs, both current and future.

(b) A comprehensive evaluation and report of the utilization of the school facilities now existing in the district.

(c) A comprehensive demographic study of the district, as it currently exists and as projected into the future.

(d) A policy statement regarding actual or potential human problems.

(e) A policy statement as to the priority in which the district proposes to solve its school housing problems.

(f) A policy statement regarding cooperation with other local public agencies to achieve total community development.

(g) A policy to insure continuous review so that plans will be kept up to date and changing conditions will be reviewed and accommodated by appropriate revision of plans.

The director shall review the long-range master plan and project development plan and shall report his or her findings and recommendations thereon to the board.

16012. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from the disposition shall be contributed in reduction of any apportionment. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state, by any instruments deemed appropriate by the board, title to property, whereupon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the state, and apply the proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement the disposition. Whenever the board determines it to be in the best interests of the state, an apportionment may be made for the demolition of any facilities replaced through an apportionment. This section shall be applicable to property replaced by apportionments heretofore or hereafter made under this chapter or Chapter 6 (commencing with Section 15700) of this part.

16013. Notwithstanding any other provisions of this chapter, the board may grant priority in the apportioning of funds to school districts to those districts which have sold facilities replaced under a previous application and have applied the proceeds therefrom in reduction of prior apportionments to the district. Apportionments so made shall not be in excess of the amount of the proceeds which were applied to prior apportionments subsequent to July 1, 1970, and shall be made only for projects which were approved by the board prior to July 1, 1970.

16014. Apportionment from the State School Building Aid Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes, all of which purposes are hereby declared to be, and are, public works:

(a) The purchase and improvement of schoolsites which have been approved by the State Department of Education.

(b) The purchase of necessary desks, tables, chairs and other movable furniture and equipment, as approved by the State Department of Education.

(c) The planning and construction, reconstruction, alteration of, the moving of portable classroom buildings on an existing site or to another schoolsite, and addition to, school buildings, including built-in or fixed equipment, for any facilities that are approved by the State Department of Education as essential, except a room used solely for an auditorium for a school of any type or class and a room used solely for a gymnasium or a room used solely for a cafeteria for

elementary schools. This section does not prohibit the State Department of Education from approving multipurpose rooms which are rooms designed to be used for two or more of the following purposes:

(1) Classroom.
(2) Auditorium.
(3) Gymnasium.
(4) Cafeteria.
(5) Any other purposes that district requires which are approved by the State Department of Education.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering the insurance. However, in other respects the apportionments are eligible for payment under this chapter.

In addition to the foregoing, the board may make an apportionment to a school district for the purchase from another school district of existing facilities, real or personal, including the site thereof, or any portion of any of the foregoing, providing that the board finds that it is economical and good practice on the part of the acquiring district to purchase the same, and that the consideration to be paid in the light of all the circumstances surrounding the transfer is fair and equitable both to the acquiring district and to the state.

16015. Notwithstanding any other provisions of this chapter, the board may make an apportionment to any school district for the cost of leasing portable classrooms during the period in which additional school facilities are being constructed by a previously approved project, provided that each of the following conditions is satisfied:

(a) The district has received a final apportionment for the previously approved project and the construction of which has not yet been completed.

(b) Estimates of average daily attendance used for justifying the previously approved project indicate either of the following:

(1) An increase over the base period of projection of at least 15 percent.

(2) A substantial number of district classes being on triple session during the period of construction, as determined by the State Allocation Board.

(c) The district is making maximum use of its existing facilities through the operation of one or more continuous school programs.

Any apportionment made to a school district pursuant to this section shall be added to the final apportionment for the previously approved project specified in subdivision (a), and the repayment thereof by the school district shall be made under the same terms and conditions as prescribed for the final apportionment.

16016. A leasehold or use permit interest held by a school district in land owned in fee simple by the government of the United States may, for all purposes of this chapter, be deemed a purchase of land by the district and to vest title and ownership in the district.

16017. The board shall not make any apportionment with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate said facilities.

16018. In addition to the purposes for which apportionments may be made to school districts under Section 16014, apportionments may also be made to school districts for the construction, repair, attachment or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

16019. In making applications for, and in expending apportionments of funds under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds apportioned under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing the real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. The certificate shall as to any party thereafter acquiring real property or any interest therein in the county from the school district have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. This effect shall commence upon recordation and continue until the certificate is discharged or released as provided herein.

Upon request the Director of General Services shall do each of the following:

(a) Issue a release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under Section 16105, provided that delivery of the release may be subject to any conditions that may be prescribed by the board to protect the state's interest.

(b) Issue a disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is

not required to consent to under the terms of Section 16105, provided that the delivery of the disclaimer may be subject to any conditions that the board deems appropriate to protect the interests of the state, including conditions relating to the amount of consideration to be received from the disposition where the board asserts an interest in the proceeds of the disposition under other provisions of this chapter. The release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter each of the following shall occur:

(a) The Director of General Services shall file with the recorder a release of any certificate. The release shall be recorded and indexed in the same index as the certificate.

(b) The title to personal property purchased by the school district with funds apportioned under this chapter shall revert to the school district without further action by the state.

16020. The board may require school districts to insure for the benefit of the state all sites, equipment, and buildings which are under Section 16019 the property of the state, against any risk and in any amounts that the board may deem necessary to protect the interests of the state. No state funds apportioned under this chapter shall be used to pay the premiums on the insurance.

16021. A school district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

16022. Funds apportioned to a school district under Section 16024 for a project, remaining unencumbered or unexpended one year from the date the application of the district for apportionment was approved, shall not be encumbered or expended except as provided in this section.

The governing board of the district shall notify the board of its desire to encumber or expend funds. The board shall immediately request the State Department of Education to, and the department shall, review the project for which apportionment was made. If the State Department of Education finds that the conditions existing at the time it approved the project for which the apportionment was made have so changed that the needs of the district are less than originally determined, it shall notify the board of its findings and of the respects in which the project should accordingly be modified. The board shall review the project and revise the project in any manner that it deems necessary subject to Section 16067, and make any changes in the purposes for which the apportionment may be expended that it deems necessary. The cost of the project as revised by the board shall be computed in the manner prescribed by Section 16024 and the excess, if any, of the amount theretofore apportioned

to the district over the computed cost of the revised project shall be deducted by the board from the apportionment made to the district. The board shall give notice of its action, in writing, to the Controller, the governing board of the district, and the county auditor and the county treasurer having jurisdiction over the state school building fund of the district. If the amount of the excess, or any portion thereof, has not been paid to the district, the excess, or portion thereof, shall be made available for apportionment to other districts, if the excess, or portion thereof, has been paid to the district, it shall not be encumbered or expended by the district and shall become due and payable to the State of California. The governing board of the district and the county treasurer shall pay the amount to the Treasurer, out of the funds, and in the manner specified in Section 16100. The payment shall, on order of the Controller, be deposited in the State School Building Aid Fund in the State Treasury.

It shall be the duty of the governing body and county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

This section does not authorize the board to increase any apportionment made to a school district.

16023. Notwithstanding any other provisions of this chapter, a district may apply, on a separate application, for an apportionment for the purchase of laboratory and vocational training equipment, whether or not the equipment is for use in connection with a construction project.

All of the provisions of this chapter apply to the application and apportionment except that:

(a) Any application for the equipment pursuant to this section which is received by the board shall be transmitted to the State Department of Education. If the State Department of Education approves the application, it shall refer it to the board which shall either approve or reject the application pursuant to Section 16024. Any provision of Section 16024 inconsistent with this section shall not apply to the application.

(b) Section 16007 does not apply.

(c) If the application is approved and an apportionment granted therefor the district shall repay the full amount of the apportionment and the interest thereon. The repayment of the apportionment, and the interest thereon, may be over a period of years, not to exceed 20 years from the first day of January of the fiscal year next succeeding the fiscal year in which the apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. The repayment is in addition to any other repayment required under this chapter.

16024. Each school district that desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in the form and number

of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment. Before the board approves an application for a construction project and makes an apportionment pursuant to this chapter, it shall, after consultation with the Department of General Services, establish standards for all new construction included therein. After this consultation the board shall establish current construction cost standards for that construction. The standards shall not exceed typical comparable new construction by school districts in the same area not receiving or eligible for apportionment under this chapter, or if there has been no new construction by school districts in the area, the standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine these typical current costs or reasonable current costs. In applying those standards the board shall take into account the size and type of the construction proposed and may make deviations as in their judgment are justified. When a standard has been set by the board to cover any individual apportionment, no apportionment shall be made by the board in excess of that standard, unless the board shall find that in view of a rapid increase in building costs an adjustment is warranted. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of General Services.

A school district shall not let any contract for new construction included in an application for a construction project that has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for that new construction.

A school district may at any time amend or supplement its application.

Each construction project for which a district applies for an apportionment shall be applied for on a separate application and shall be considered separately by the board. If a district applies for more than one construction project, at the same time or at different times, the priority points of the district shall be recalculated after the approval of each separate construction project and before a subsequent construction project is approved.

The board shall require the changes in the plans that an applicant school district submits with its application as the board determines is necessary or desirable to reduce the cost of the project. The board may also, by rule, provide for the vesting in the director or in the Director of General Services of the responsibility for requiring those changes, according to whether the subject matter of the change is subject to the jurisdiction or approval of the director or the Director of General Services, respectively.

The board may, for good cause as it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a school district under the terms of an apportionment, other than any contribution required of the district under Section 16058 from the sale of bonds. However, the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.

The Director of General Services shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount that the school district can contribute toward the cost of the project out of its available funds, and shall submit his or her report thereon to the board.

The term "available funds" as used in the preceding paragraph means funds of the district other than funds received by gift or bequest.

The director shall, as promptly as possible, prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of General Services, who shall, if he or she finds the documents to be in proper form and otherwise sufficient, refer them to the board. If the director finds the documents to be lacking in any respect as to any matter that is subject to the jurisdiction or approval of the director or the State Department of Education, or the board of governors, as appropriate to their jurisdiction, he or she shall refer them to the director who shall take action as may be necessary. Subject to this chapter, the board shall approve or reject each application referred to it by the director. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the State School Building Aid Fund the amount applied for, or any portion thereof as the board may deem appropriate. However, it may order that the apportionment or any part thereof shall be paid in progressive installments at the time and under the conditions as it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 16058 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of 12 months from the date of the resolution of the board, and if it does not become a final apportionment by that date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

16025. Notwithstanding any other provisions of this chapter, a school district otherwise eligible to receive a conditional

apportionment under this chapter may apply for an adjustment of annual repayment obligations in lieu of receiving the conditional apportionment.

The board may require any information that is necessary to determine the number of units of estimated average daily attendance for which the district would have been eligible to construct school facilities under this chapter, if the conditional apportionment had been made and had become final. These units shall be known as "eligible attendance units."

The board shall then determine an "eligible facilities cost" by multiplying the number of the eligible attendance units by the average cost of housing elementary or high school pupils as set forth in the latest report to the Legislature required under Section 16098.

In any fiscal year in which the school district is in the judgment of the board operating sufficient year-around classes to provide housing for the eligible attendance units aforementioned, the Director of General Services shall add to the amount which he or she is required to certify to the Controller under Sections 16072, 16084, and 16086 an amount equal to one-twentieth of the eligible facilities costs.

The additional amount so certified shall be considered for all purposes of this chapter as eligible bonded debt service.

16026. Notwithstanding any other provisions of this chapter, any school district whose governing board has adopted and put into effect a year-round school operation plan or continuous school program, as defined in Section 16030, or has adopted a plan or program for operation in the following school year, may apply to the board and the board may provide financial assistance in furnishing and installing an air cooling system in those facilities which will be so operated, so long as the construction of the facility was commenced prior to December 31, 1972. Financial assistance provided by the board may be in any of the following forms:

(a) An apportionment pursuant to Section 16024.

(b) An authorization to use proceeds from the sale of district bonds.

(c) An authorization to use the net proceeds derived from the sale of unused schoolsites whether or not there are unpaid apportionments outstanding against the sites.

The board shall establish cost standards applicable to the furnishing and installing of air cooling systems in existing schools. No apportionment or authorization shall be made by the board in excess of the standard established for the apportionment.

16027. In any fiscal year in which the school district is conducting a year-round school operation or continuous school program, as defined in Section 16030, utilizing a facility for which financial assistance was provided by the board under Section 16026, the Director of General Services shall add to the amount which he or she is required to certify to the Controller under Sections 16072, 16084

and 16086 an amount equal to the debt service for retirement of bonds authorized for use under Section 16026.

16028. Any authorization of the proceeds derived from the sale of an unused site pursuant to Section 16026 shall constitute a conversion of the unpaid portion of the apportionment to the application for an air cooling system as if an apportionment had originally been made therefor. The converted apportionment shall be repaid pursuant to Section 16069 irrespective of Section 16105.

16028.5. Whenever a school district has received an increased building cost allowance pursuant to Section 16024 or 16026 for the purpose of providing facilities for year-round school operation as defined in Section 16030, and in any fiscal year subsequent to the fiscal year in which the facilities are completed fails to conduct a year-around school operation, the Director of General Services shall in the following fiscal year deduct an amount from the eligible bonded debt service of the district equal to one-twentieth of the amount of the increased cost allowance plus interest thereon. The total amount to be deducted in subsequent fiscal years after the completion of the facilities shall not exceed seven-twentieths of the amount of the increased allowance, plus interest.

16029. Notwithstanding any other provisions of this chapter, a school district qualifying for an adjustment of annual repayment obligations under Section 16025 or 15731 may apply for an apportionment under this chapter.

The apportionment shall not exceed the "eligible facilities cost", as defined in Section 16025 or 15731, and may be made available, upon the review and recommendation of the State Department of Education, only for the modifications of existing facilities necessary for the implementation of continuous school programs (as defined in Chapter 5 (commencing with Section 37600) of Part 22).

In allocating funds under this chapter, the board may give first priority to school districts for modifications to existing facilities to be made pursuant to this section when in the judgment of the board the modifications of existing facilities are necessary for operation of year-round classes. In no event shall apportionments be made for modifications to a standard greater than could have been constructed in a new school building under this article. All of the provisions of the chapter apply to the districts except the provisions for the establishment of priorities.

Any apportionment made under this section shall be deducted from the eligible facilities costs before the Director of General Services makes his or her computation of the adjustment under Section 16025 or 15731.

16031. Notwithstanding any provision of this chapter to the contrary, no school district shall be required, except as provided in this section, to contribute toward the cost of a project for which an application for an apportionment is filed, any of the following funds of the district:

(a) Amounts in the general fund of the district which are apportionments from the State School Fund.

(b) Amounts in the general fund of the district which are the proceeds of a tax levy and have not been earmarked by the governing board of the district or the electors of the district for any purposes for which school district bonds may be issued and sold.

In considering an application for an apportionment the board may review the purposes for which the district has expended or encumbered proceeds from the sale of district bonds authorized to be issued at an election held on or after September 3, 1952. Upon a finding by the board that any such proceeds have been expended or encumbered for purposes outside the scope and intent of this chapter, the board may require the district to contribute toward the project for which an apportionment is sought from any funds of the district, except those referred to in subdivision (a) above, an amount equal to the amount of district bonds proceeds expended or encumbered for purposes outside the scope and intent of this chapter. Proceeds from the sale of district bonds which have been encumbered or expended for the purchase of schoolbuses authorized by Section 15100 shall be deemed encumbered or expended for purposes outside the scope and intent of this chapter.

If a district is required pursuant to this section to make a contribution toward the project for which an apportionment is sought as a result of the purchase prior to January 1, 1967, of schoolbuses authorized by Section 15100 out of proceeds from the sale of district bonds, the district at the time that the board determines that the contribution is required may agree to pay the required contribution by payment into the State School Building Aid Fund by 10 or less annual installments payable without interest over a period not exceeding 10 years after the date of the final apportionment. The first installment shall be due and payable one year after the date of the final apportionment. The installment payments shall be made by the governing board of the district from moneys in the general fund of the district if money is available therefor. If the governing board of the district determines that money is not available in the general fund of the district for such purposes, the maximum rate of school district tax for any school year is hereby increased for any school year by such amount not to exceed the amount of the proposed payment into the State School Building Aid Fund as shown by the budget for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from the revenue from the increase in the rate of tax provided by this section.

16032. Notwithstanding any other provisions of this chapter, whenever the board makes a finding pursuant to Section 16031 that proceeds from the sale of district bonds have been expended or encumbered by a school district for purposes outside the scope and intent of this chapter the board, in lieu of requiring the district to

contribute toward the project for which an apportionment is sought from any funds of the district, may stipulate that such bond funds expended or encumbered shall not be considered as "eligible bonded debt service" as defined in Section 16070 and 16084.

16033. The expenditure by a school district, prior to the filing of an application for an apportionment under this chapter, of proceeds from the sale of district bonds for the construction of a swimming pool, shall not in and of itself constitute grounds for denying an apportionment, but the board may require a contribution of district funds therefor under Section 16031.

16034. Before the board approves an application for a furniture or equipment project, or an application for a new construction project, including furniture and equipment, and after consultation with the State Department of Education, it shall establish current furniture and equipment cost standards. Such standards shall not exceed the quantity and quality of furniture and equipment for comparable facilities purchased by school districts not receiving or not eligible for an apportionment under this chapter. Such standards shall consist of equipment costs for each type of classroom or pupil station which represents a differential in costs. The standards shall be reviewed quarterly by the board and adjustments made in accordance with current cost standards. When standards have been adopted by the board, no apportionment shall be made by the board in excess of such standards unless a rapid increase in costs warrants an adjustment.

Before the board approves an application for furniture and equipment in connection with an application for the replacement of, reconstruction of, alteration of, or addition to, a school building, the State Department of Education, after full consideration of all the furniture and equipment existing in the applicant district that is in usable condition, shall recommend the amount that shall be approved in the application. The board may approve all or a portion of the amount so recommended.

16035. The board may approve, in whole or in part, an application submitted by a school district under Section 16024 and in such amount, not exceeding the amount applied for, as the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount determined by the board, to the applicant school district from the State School Building Aid Fund for that portion or portions of the construction project as the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a construction project, the board may approve the remaining portion or portions of the construction project and make an additional apportionment or apportionments within five years

after the original approval without requiring a district to issue additional bonds. The board may also make an additional apportionment or apportionments for a period of time in excess of five years after the original approval without requiring a district to issue additional bonds if it has made a finding that the additional apportionment or apportionments are justified by virtue of the fact that state funds were not available for apportionment within the two-year period after the original approval because of the inability of the state to sell authorized state bonds within the maximum permitted interest rate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to the district in an amount equal to the excess even though the additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board. Before the additional apportionment becomes final the district, pursuant to Section 16058, shall hold an election to repay the amount of the additional apportionment which is in excess of the amount which the district has previously voted to repay. The additional apportionment shall become final when the county superintendent of schools transmits to the board and the Controller a certificate in duplicate stating that the school district has authorized the acceptance and expenditure of the necessary amount of the excess. If the additional apportionments are made by the board within five years after the original approval, except an apportionment made final pursuant to subdivision (c) of Section 16058, the district shall not be required to issue additional bonds.

Except as otherwise provided in this section, all provisions of this chapter relating to apportionments shall apply to apportionments made under this section.

Whenever an apportionment has heretofore been made or is hereafter made to a district for a site and the district heretofore or hereafter proposes to acquire the site through negotiation or condemnation but the total acquisition cost thereof, plus all other costs incidental to either the acquisition or condemnation of the site, exceeds or exceeded the apportionment for the site, the board may at any time hereafter make an additional apportionment to provide for the differential in total acquisition cost without the district being required to issue additional bonds to qualify, providing the board finds (1) that it is in the interest of the state to proceed with the acquisition despite the acquisition costs, and (2) that the district is unable to provide, or it would be a hardship to require it to provide, the excess costs. The board may also, in its discretion, as a condition of making the apportionment, require the district to repay in full all or any part of the excess apportionment, under the terms and

conditions that the board deems desirable, and the district shall be empowered and obligated to comply if it accepts the excess apportionment, notwithstanding any other law to the contrary; provided, (1) that no the repayment shall be required from any source that would be exempt from required contribution toward the cost of a project under Sections 16024 and 16031 (excepting amounts in the General Fund raised by taxes to pay any judgment requiring the repayment), and (2) that any portion of the apportionment not required to be repaid in full, shall be repayable in the same manner as a construction apportionment.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

16036. The board shall, after consultation with the State Department of Education, establish site cost standards which shall be used in evaluating the cost in relationship to the size of any site to be acquired wholly or partially with funds apportioned under this chapter. In determining the standards, consideration should be given to the following factors:

(a) The grade level of the school.
(b) The location of the school.
(c) The enrollment to attend the school.
(d) The purchase price of each acre of the site.
(e) The site development cost.
(f) Land use in the area.

16037. Notwithstanding any other provision of this chapter, whenever the board has made an apportionment more than two years after the original approval of and apportionment for any construction project, and pursuant to Section 16035 has required the district to issue additional qualifying bonds as a condition of the apportionment, the board may continue to make apportionments as it may consider necessary to complete the approved construction project without requiring further qualification by the district, provided the apportionments are made within two years of the date upon which the additional qualifying bonds were required.

16038. Notwithstanding the provisions of Section 16035, if the board has approved an application for a construction project and has made an apportionment therefor, the board may make an additional apportionment or apportionments for a period of time in excess of two years after the original approval without requiring a district to issue additional bonds; provided that: (1) the approved project provides for the structural rehabilitation of an unsafe school building, and (2) the apportionment is necessary to cover costs resulting from additional items of work necessary for compliance with structural safety requirements, and the need for such additional work was not foreseen at the time of the original apportionment.

16039. Notwithstanding any other provisions of this chapter, a district which applies for an apportionment for the purchase of a site or for the cost of the preparation of plans and specifications, which is not a part of a construction project, shall make a separate application for the site or plans and specifications in the same manner as prescribed by Section 16024.

All of the provisions of this chapter apply to that application and apportionment except that:

(a) If the State Department of Education determines that within five years in the case of an application for an elementary grade level maintained by the district, or within seven years, in the case of an application for a high school grade level maintained by the district, from the date of the application for the site or for the plans and specifications, there will be sufficient enrollment in the district, based upon enrollment projection criteria adopted by the board, to show the need of such site or for the plans and specifications, it may approve the application. The board may modify a determination respecting future enrollment in connection with an application for an elementary grade level maintained by the district to utilize a period of seven years from the date of the application if it is necessary to meet the emergency conditions existing in that certain district due to a rapid increase in the enrollment of pupils, or due to the scarcity of land within the district, or both. Any application referred to the board pursuant to this section may be either approved in whole or in part, not exceeding the amount applied for, as the board may deem appropriate, pursuant to Sections 16024 and 16035, except that the board may approve additional portions of an application and make an additional apportionment or apportionments within five years of the original approval without requiring a district to issue additional bonds. No additional approval pursuant to the original application or apportionment thereunder may be made unless the board first has investigated and determined the necessity of the additional approval or apportionment, and has received a report thereon from the State Department of Education. Any provision of Section 16024 inconsistent with this section does not apply to that application. As used in this section, an "elementary grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in clause (1) of subdivision (e) of Section 16002. As used in this section a "high school grade level maintained by the district" is a grade level composed of the grades and maintained by the districts specified in clause (2) of subdivision (e) of Section 16002.

(b) Section 16007 does not apply.

(c) An application for a site pursuant to this section may include an amount for the preparation of plans and specifications for school facilities and for the development of the site, which will conform to those eligible for construction under this chapter.

(d) If the application is approved and an apportionment granted therefor the district shall repay the full amount of the apportionment

and the interest thereon. The repayment of the apportionment for a site and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the fiscal year next succeeding the fiscal year in which the apportionment became final. The repayment of the apportionment for plans and specifications, and the interest thereon, may be over a period of years, not to exceed 30 years from the first day of January of the second fiscal year succeeding the fiscal year in which such apportionment became final. The number of years allowed for repayment shall be determined by the board at the time it fixes interest on the apportionment. The repayment is in addition to any other repayment required under this chapter. If an apportionment is granted pursuant to this section for a site and the site is subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, or if an apportionment is granted pursuant to this section for plans and specifications and the plans and specifications are subsequently used in a construction project for which an apportionment is received under other provisions of this chapter, the district shall not be required to make any further repayments for the site, or the plans and specifications, as the case may be, pursuant to this section and the unpaid balance of the apportionment and interest owing on the apportionment for the site, or the plans and specifications, as the case may be, pursuant to this section shall be added to the principal amount of the apportionment and accrued interest thereon for the construction project. The site is "subsequently used in a construction project" within the meaning of the preceding sentence, if it is used in connection with a construction project at the same grade level by any district receiving a construction apportionment therefor, as this is not intended as a change in the present law, but as a statement of the existing law. In addition, the site is "subsequently used in a construction project" within the meaning of that reference, if it is used in connection with the construction project by any district receiving a construction apportionment therefor at a different grade level, providing that in the latter instance the board in its discretion consents by resolution to the combination of the site and construction apportionments.

16039.5. Notwithstanding the provisions of Section 16039, if the board has made apportionments pursuant to the section for purchase of a site or preparation of plans and specifications and the district after January 1, 1977, (1) begins construction on the site of facilities which are justified by the maximum building areas set forth in Sections 16047, 16052, 16053, and 16054, or (2) uses the plans and specifications for the construction of the facilities using, in any case, funds other than an apportionment, the site or plans and specifications shall be deemed to be "subsequently used in a construction project" within the meaning of Section 16039. In these cases, the balance of the principal amount of the apportionment for the site or plans and specifications, and accrued interest thereon,

shall not be payable pursuant to Section 16039, but shall be added by the Controller to, and become a part of, any apportionment for construction pursuant to Section 16041, as if an apportionment had been made for the construction and had become final upon the date construction began.

16040. In any month in which the priority point procedures prescribed by Section 16007 are utilized, the board may apportion to school districts, under Section 16039, not more than the sum of four hundred thousand dollars ($400,000); provided that any amount apportioned or made final pursuant to subdivision (c) of Section 16058 shall not be subject to the limitation.

16041. If an apportionment is or has been made at any time after September 9, 1953, for construction on a site for which an apportionment was made pursuant to Section 16039, from and after the date the apportionment for construction becomes, or became, final, no repayment deductions by the Controller pursuant to Section 16080 attributable to the apportionment for the site shall thereafter be made, except that any the repayment deductions attributable to the site apportionment which would otherwise be made by the Controller during the fiscal year in which the construction apportionment becomes final shall be made during the fiscal year only. The balance of the principal amount of the apportionment for the site, and accrued interest thereon, shall be added by the Controller to and become part of the apportionment for construction, as of the date of the apportionment, and repaid in the manner otherwise prescribed by this article. The Controller shall promptly notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of any revision required by this section of any previous computation made by him or her pursuant to Section 16089.

16042. In addition to any powers granted the board under this chapter, the board shall have authority to make apportionments to school districts for the purchase of sites and construction or purchase of temporary and portable buildings thereon, or for the construction alone, and for the cost of site preparation, including necessary utility costs, in connection with their utilization. The board may establish standards in conjunction with the State Department of Education pertaining to said sites and facilities as a condition of making the apportionments.

In addition, the board may expend moneys from the State School Building Aid Fund directly for the construction, acquisition, storage, maintenance and repair of the buildings, and administrative costs relating thereto. In the event the board may lease, sell or transfer under a lease-purchase agreement the buildings to eligible school districts or to county superintendents of schools. Any agreements with school districts may provide for the payment by the state of site preparation costs, including necessary utility costs, sufficient to

permit the utilization of the facilities. Any building leased for placement on the school property or under a purchase or a lease-purchase agreement shall be deemed the construction or alteration of a school building as those terms are defined in Sections 17280 to 17313, inclusive. The consideration payable by either school districts or county superintendents for the facilities shall, as nearly as practicable, reflect an amount which would render to the state a fair return, as determined by the board, on its investment in said facilities and expenditures connected with their utilization, in the light of the benefits conferred by the agreement pertaining thereto.

The county superintendent of schools may contract with eligible school districts respecting and transfer to them by lease, lease-purchase or sale, facilities acquired by him or her from the board, provided that the agreements are not inconsistent with the rights of the state under any agreement between the superintendent and the board respecting the property. Repayments to the state as due shall be made by the county superintendent from the funds received from the affected school districts, and, if necessary to make the same when due, from the county school service fund, upon which he or she is authorized to draw requisitions for this purpose. The fund shall be reimbursed for the withdrawals from any payments made by the affected districts to the county superintendent not required when made for the discharge of any obligations of the county superintendent hereunder to the state.

No transfer of any property acquired directly by the board to any school district by lease or otherwise shall be made either by the board or county superintendents without the approval of the State Department of Education solely as to (1) the property to be transferred, including incidental construction, if any, connected therewith, (2) whether the same shall be by lease or sale, and (3) if less than a sale, the term of the lease, including any contingent or indefinite term.

The board, affected school districts, and county superintendents of schools are authorized to do any and all things necessary to carry out the purposes of this section. Payments required of any affected school districts under any agreement entered into pursuant to this section shall be made promptly when due. Whenever the board deems it economically desirable in the state's interest to do so, it may dispose of any facilities directly acquired by it to any public or private parties in the manner and under the terms as it deems best, providing that the disposition is not inconsistent with any agreements previously entered into under this section.

The term "eligible school districts" as used in this section, shall be deemed to refer to those districts which at the time an agreement contemplated hereunder is entered into would upon proper application have been eligible to receive an apportionment under this chapter, provided that solely for the purpose of determining the eligibility the board, or the county superintendent of schools in

agreements with districts hereunder, may waive construction area restrictions pertaining to apportionments under this chapter.

16043. If, after a conditional apportionment has been made to a school district, legal proceedings initiated prior or subsequent to the making of any conditional apportionment prevent the taking, within the period during which the conditional apportionment remains effective under Section 16024, of the actions necessary to permit the conditional apportionment to become final, the conditional apportionment shall nevertheless remain effective for a period of nine months from the date upon which such legal proceedings are finally determined. The amount of the apportionment may be diminished by the board after a second investigation at which the board shall determine whether conditions existing at the time it approved the project for which apportionment was made have so changed that the needs of the district are less than originally determined, and if so, the conditional apportionment shall be reduced by a corresponding amount.

16044. No apportionment shall be made for new construction which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of average daily attendance of the estimated average daily attendance in excess of that computed in accordance with Sections 16047, 16052, 16053, 16054, and 16055.

As used in Sections 16047, 16052, 16053, 16054, and 16055, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 16053, 16054, and 16055, "attendance center" means a school maintained or to be maintained at a given location within a district. The State Department of Education shall approve or disapprove the allocation by an applicant district of units of estimated average daily attendance among the attendance centers of the district.

To the building area permitted to an applicant school district by Sections 16047, 16052, 16053, 16054, and 16055, there may be added any additional building area that may be required to provide adequate facilities for exceptional children pursuant to Article 3 (commencing with Section 16190) of this chapter.

No estimate of average daily attendance made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, except that an estimate for the purpose of justifying an apportionment for a grade level maintained by a unified district, under an application filed prior to September 15, 1961, or by a high school district composed of grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, or of justifying an apportionment for a unified district for a junior high school or high school project under

an application made on or after the effective date shall not be made for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter pupils attending grades 7 and 8 in an elementary district but residing in a high school district which maintains one or more junior high schools shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1959, or unless the electorate of the district, during the year 1974, has authorized the return of the seventh and eighth grade pupils from the high school district and the maintaining of grades 7 and 8 in the elementary district. When pupils attending grades 7 and 8 are so considered in determining or estimating the average daily attendance of the elementary district in making apportionment to the elementary district, these pupils shall not be considered in determining or estimating average daily attendance of the high school district in making an apportionment to the high school district for junior high school purposes.

The board shall develop statewide or areawide averages of pupil occupancy for family dwellings of various sizes and for mobilehomes of various sizes for use by applicant school districts in estimating the average daily attendance of family dwellings and mobilehome parks under construction or newly constructed and never occupied in the district.

16045. (a) The board by the adoption of rules shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. The rules shall define and provide for the method of determining building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction.

The board may make exceptions to this section or to the rules adopted pursuant to this section when it determines that the exceptions will be for the benefit of children affected.

For the purposes of this section, "service area" may be defined as any of the following:

(b) (1) Buildings which when constructed were intended to be used for a purpose to which the provisions of Sections 17280 to 17313, inclusive, would not apply, whether or not those sections were in effect at the time when the building was constructed.

(2) Buildings which when constructed were intended to be used for a purpose to which Sections 17280 to 17313, inclusive, would apply,

whether or not those sections were in effect when the building was constructed, but which building has been converted or is intended to be converted, as shown by the application, to use for purposes to which the sections would not apply. Service area may include, but is not limited to, construction used as bus garages, maintenance shops, centrally located district storage and warehouses, custodial houses, utility shelters, administration offices, transformer vaults, and service yards.

(c) In the event that a school district has expended funds for the purpose of constructing buildings used for housing certificated employees of the district and their families, the area of the buildings and the funds expended therefor shall be accounted for in the following manner:

(1) The area of the buildings constructed or acquired with the proceeds of a tax levied under Sections 14200 to 14240, 42200 to 42247, and 45020, inclusive, shall be excluded from the building area of the district.

(2) The area of the buildings constructed or acquired with the proceeds from the sale of school district bonds prior to July 1, 1961, shall be excluded from the building area of the district, however, the bond funds shall not be considered as "eligible bonded debt service" as defined in subdivision (d) of Section 16070 and Section 16084.

(d) The board shall exclude from the building area of a district:

(1) The area of any building which is or will be used exclusively for a parent cooperative nursery education facility, and for no other purpose, and which building at the time of acquisition thereof by the district was incidental to the purchase of a schoolsite and unsuitable for classroom purposes or which was acquired by the district without expenditure of school district funds.

(2) The area of any building which is or will be used exclusively for a preschool educational program facility pursuant to Chapter 4 (commencing with Section 54400) of Part 29, or Chapter 2.5 (commencing with Section 16150) of Part 4 of Division 9 of the Welfare and Institutions Code, or any combination thereof; provided, that the building was constructed, leased, or purchased with local general funds, or federal or state funds allocated specifically for a preschool educational program.

(e) The area of adequate school construction existing in a district at the time of application shall be initially computed as all of the construction area of a district except all of the following:

(1) The areas as may be eligible for replacement under standards established by the board.

(2) The areas in an existing structurally inadequate building for which an application has been filed for structural rehabilitation or in a building previously structurally rehabilitated under either Chapter 6 (commencing with Section 15700) or Sections 16000 to 16207, inclusive, that exceeds the maximum building area allowed by

Section 16044 for a number of pupils, equivalent to those that could be housed in the building after rehabilitation.

The board shall prescribe by rule the method of computing the number of pupils which could be so housed for the purposes of this subdivision.

(f) If the area of adequate school construction, when added to the minimum facilities needed by the district, results in a total construction area in excess of the amount prescribed in Section 16044, then the board may make the following adjustments to the initial computation or the revisions thereof as the board, in its discretion, deems desirable:

(1) Service areas constructed prior to July 19, 1947, shall be excluded, except as provided in paragraph (3).

(2) Service areas constructed subsequent to July 19, 1947, shall be recomputed by multiplying the total number of square feet of said service area by the percentage determined from dividing the actual construction cost per square foot as determined by the Director of General Services by the estimated average cost per square foot of the new school facilities for which the district has made application.

(3) If any inadequate nonservice area constructed prior to July 19, 1947, is, or will be, converted to a service area, the area shall be recomputed by multiplying said area by the percentage determined by dividing the depreciated value of said area by the replacement cost as the value and cost are determined by the Director of General Services.

(4) If, after the revised computation of service areas is made as prescribed under paragraphs (1), (2), and (3), the existing and requested building area of the district is in excess of the schedule set forth in Section 16044, the existing building area of nonservice facilities may be determined on the basis of the number of pupils housed by the facilities at an allowance per pupil which is not more than 25 percent in excess of the amount per pupil prescribed in Section 16044.

The board shall prescribe by rule the method for computing the number of adequately housed pupils for purposes of this subdivision.

16046. Any building area excluded from the computation of adequate school building construction by adjustments made under Section 16045 shall not be subsequently included in computing the area of adequate school construction by reason of its having been converted to usable instructional area used exclusively for vocational educational programs, provided the conversion was accomplished with federal or district funds, allocated specifically for that purpose, other than state apportionment funds or bond funds required to be contributed to the State School Building Aid Program.

16047. There shall be allowed to each district with attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for the attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by the first paragraph of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

16048. The area of any building constructed by a school district after September 11, 1957 with any funds other than state or federal funds given or bequeathed to the district after the effective date, and the area of any building given, devised or bequeathed to a school district by any entity other than the state or federal government after the effective date, including any building given to a district by any city, county or political subdivision of this state, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

For the purposes of this section, any building leased to a school district for a term exceeding 24 years and for an annual rental of not exceeding five dollars ($5), shall be construed as constituting a gift to the district.

16049. The area of any classroom or building used for adult education classes during the regular schoolday, except a building area that has been constructed or acquired with the proceeds from the sale of school district bonds or state or federal funds allocated to the district under any state school building aid program, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

16050. The area of any building, the construction of which was financed by the proceeds from a tax levied pursuant to former Section 16633, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

16051. The area of any building which has not been constructed or reconstructed under the provisions of Sections 17280 to 17313, inclusive, shall not be included in any computation of the area of adequate school construction under this chapter, provided that such area is being used exclusively for adult education classes during the regular schoolday and that the operation of such classes has been approved by the State Department of Education.

16051.5. The area of any building, the construction of which was financed by the proceeds of a tax levied pursuant to Section 49502, shall not be included in any computation of the area of adequate school construction existing in any applicant school district under this chapter.

16052. There shall be allowed to each district a maximum area of 75 square feet for each attendance unit of the district in grades 7 and 8.

16053. The allowance of maximum area to a district for the attendance units in junior high schools of the district composed of grades 7 to 9, inclusive, or 7 to 10, inclusive, shall be determined pursuant to this section, rather than Sections 16052 and 16054. This section does not apply to junior high schools composed of grades 7 and 8 only.

There shall be allowed to each district a maximum area for the attendance units of the district in junior high schools determined by computing, in accordance with the following paragraph, the number of square feet for the attendance units at each junior high school attendance center of the district, and totaling the number of square feet so determined for all attendance units in all such junior high school attendance centers of the district.

There shall be allowed a maximum area of 75 square feet for each attendance unit of the junior high attendance center in grades 7 and 8. For each attendance unit in grade 9, or grades 9 and 10, as the case may be, at each junior high school attendance center, there shall be allowed a maximum area of a number of square feet equal to the number of square feet which would be allowed under Section 16054 for each attendance unit of an attendance center having a total number of attendance units equal to the total number of attendance units in grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, at the junior high school attendance center. The number of square feet which would be allowed under Section 16054 for each attendance unit of an attendance center shall be computed by determining in accordance with that section the total number of square feet which would be allowed at an attendance center and dividing such total number of square feet by the total number of attendance units at such attendance center.

16054. There shall be allowed to each district a maximum area for the attendance units of the district in grades 9 to 12, inclusive, determined by computing, for the attendance units in grades 9 to 12, inclusive, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1- 50 18,000	
51-100 18,000	plus 162 for each attendance unit over 50

101-200	26,100	plus 99 for each attendance unit over 100
201-300	36,000	plus 60 for each attendance unit over 200
301-600	42,000	plus 54 for each attendance unit over 300
601-1,800	58,200	plus 80 for each attendance unit over 600
Over 1,800	154,200	plus 85 for each attendance unit over 1,800

16056. When a unified district which is otherwise qualified for an apportionment under this chapter applies for an apportionment and the area of adequate school construction existing in any one of the component elementary districts included in the unified district is of such an amount that the district is prevented, by Sections 16044 to 16055 inclusive, from receiving an apportionment, the maximum area of school construction for each unit of attendance, for elementary school construction prescribed by such sections, may be computed separately for each component elementary district without regard to the area of adequate school construction existing in the other component districts, and apportionments made to the unified district on the basis of such separate computations. On request of the governing board of the unified district the State Superintendent of Public Instruction shall make or cause to be made a survey of building needs in the district and the area computations for elementary school construction. He or she shall report his or her findings and recommendations to the board for consideration in connection with any application before the board from the unified school district.

16057. Payment shall be made in accordance with the terms of a final apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district for any items approved by the board in the apportionment, provided, the construction contract has been let no earlier than two years preceding the date the application is received by the board. Where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for the item, either with state funds or with district funds which the district is required to contribute by the apportionment, shall be made only upon authorization of the board by special resolution citing this section.

16058. No apportionment to a school district shall become final unless: (a) the total amount of outstanding bonds of the district

exceeds 95 percent of the basic bond requirement of the district on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars ($25,000) of the basic bond requirement of the district, as of the date on which the conditional apportionment is made, or (c) the district has issued and sold pursuant to this section, and as a condition to the initial conditional apportionment, an amount of bonds equal to the total cost of the project for which the apportionment was made, including necessary contingencies. At the time the board makes a conditional apportionment pursuant to Section 16024, it shall determine the total amount of bonds which shall be issued and sold by the district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought. The amount so determined by the board shall be not less than the minimum amount required for the apportionment to become final under this section. Any apportionment made by the board pursuant to Section 16024 shall be conditioned upon the approval and sale of the bonds by the district. The amount of any apportionment for a construction project made as a consequence of applying district bond proceeds toward the reduction of prior apportionments pursuant to this section instead of applying the district bond proceeds toward the cost of the construction project, shall be excluded in determining the amount chargeable against the apportionments authorized by the electorate of the district to be accepted, expended and repaid. It is hereby declared that this provision, added by the amendment to this section enacted at the 1958 First Extraordinary Session of the Legislature, is not intended as a change in the law, but rather as a declaration of existing law.

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, the authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to the district. Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board. The amount so determined by the board shall be not less than the minimum amount required for the apportionment to become final under this section. Any apportionment made by the board pursuant to Section 16024 shall be conditioned upon the approval and sale of the bonds by the district.

No apportionment to a school district under this chapter shall become final, nor any agreement authorized by Section 16042 be entered into unless at an election called by the governing board of

the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board to accept, expend and repay as provided in this chapter and apportionment under the provisions thereof or, with respect to the agreement, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated by the agreement, or by any act of its governing board or for which it is responsible, contemplated or permitted thereby. The election shall be called, held and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words:

"Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1 of the Education Code, which amount is subject to repayment as provided by said chapter, or (2) to enter into an agreement or agreements with the state pursuant to Section 16042 of the Education Code, which will at the time of such agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than _____ dollars ($_____), or both. Yes____ No____."

16059. Notwithstanding any provision of Section 16058, if a previously eligible applicant school district has received apportionments and has realized savings in state aid apportionments or district contributions, or both, including any interest earned thereon, on completed projects pursuant to this chapter, which projects have not been reduced to final costs, the district may apply for, and shall be granted, final apportionments for additional eligible facilities in a total amount not to exceed those project savings.

The project savings for which a district has applied pursuant to this section shall not be considered excess apportionments or unencumbered balances for the purposes of Sections 16100 and 16104.

In no event shall the grant of the project savings to the district pursuant to this section extend the repayment period of any prior apportionments for the purposes of canceling the interest and principal payable thereon pursuant to Section 16083.

16060. Notwithstanding any provisions of Section 16058, if an applicant district issues and sells bonds prior to an apportionment in an amount which results in its being on the date of the apportionment within five thousand dollars ($5,000) of the basic bond requirement of the district, and makes the entire proceeds of the bond issue available for the purposes of the apportionment, or as a condition of an apportionment is required by the board to sell bonds to within five

thousand dollars ($5,000) of the basic bond requirement of the district, and to make the proceeds available for the purposes of Section 16058, the district shall remain qualified to receive an apportionment or apportionments prior to the next equalized assessment of the county or counties in which said district is located without being required to issue and sell additional bonds, notwithstanding the retirement of any bonds of the district or territorial changes therein subsequent to any apportionment referred to in this section and prior to the next equalized assessment.

16061. Immediately after the result of the election has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the bonds have been authorized in the amount prescribed by the board and whether the school district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the Controller. When the bonds authorized have been issued and sold and the proceeds thereof made available for the purposes of the application, the county superintendent of schools shall also certify this fact to the board and the Controller. Upon the receipt by the board of the certificates stating that the bonds have been issued and sold and the proceeds made available for the purposes of the application, the apportionment shall become final.

16062. The election by a school district upon the acceptance, expenditure, and repayment of an apportionment prescribed by Section 16058 may be called and held either before or after the making of an apportionment except that no election shall be held within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as that statewide election, subject to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code.

16063. Whenever a conditional apportionment has, prior to January 1, 1980, been made to an applicant school district pursuant to this chapter and thereafter the county superintendent of schools of the county having jurisdiction over the district has certified to the board and the Controller that at an election called, held and conducted in the district for that purpose, two-thirds of the qualified electors of the district voting thereat authorized the governing board of the applicant school district to accept, expend and repay an apportionment under this chapter, and whenever thereafter the county superintendent of schools has certified to the board and the Controller that the amount of bonds, if any, required by the board, as a condition to the apportionment becoming final, have been issued and sold and the proceeds thereof made available for the purposes of the application and the board has certified to the Controller that the apportionment to the applicant school district has become final, the final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the State School Building Aid

Fund according to the terms of the final apportionment is hereby confirmed, ratified, and validated.

Notwithstanding any provision to the contrary, no funds authorized by any bond act for the purpose of this chapter shall be made available for expenditure without specific authority of the board or its delegated representative.

16064. If the board has made an apportionment to a school district after November 1, 1960, upon the condition that the district issue and sell district bonds in an amount prescribed by the board, and an election was heretofore held in the district at which two-thirds of the voters voting on the proposition to authorize the issuance and sale of bonds in an amount sufficient to meet the condition of the apportionment voted in favor thereof, all acts or proceedings heretofore taken by or on behalf of the school district, under any law, or under the color of any law, for the authorization, issuance, sale or exchange of the bonds of the school district for any public purpose are hereby confirmed, validated and declared legally effective. This shall include all acts and proceedings of the governing board of the school district, and of any person or officer, heretofore done or taken upon the authorization, issuance, or sale of the bonds.

All bonds of any the school district heretofore authorized to be issued and hereafter issued and delivered in accordance with the authorization shall be the legal, valid and binding obligations of the district.

As used in this section the word "hereafter" means any time on or subsequent to the effective date of this section and the word "heretofore" means any time prior to the effective date.

16065. Notwithstanding any provision to the contrary after June 28, 1955, at the time the board makes an apportionment, the board, with the approval of the Director of General Services, shall, pursuant to this section, fix the rate of interest to be paid by the district on the sum apportioned to it. The board shall compute the average of the rates of interest which the state pays upon the state school building bonds, authorized by Article XVI, sold at the three sales of state school building bonds occurring immediately prior to the apportionment, or, if the board so determines, at all of the sales of the bonds occurring in the two years immediately prior to the apportionment, giving effect to the price at which the state school building bonds sold at the sales, and the premium, if any paid, thereon. The average rate shall be adjusted to the next highest one-tenth of 1 percent to cover the cost of sale and issuance of the bonds and costs of administration. The adjusted average rate shall be the rate paid by the district on its apportionment, and shall be compounded annually through the 30th day of June of each year.

16066. Apportionments may be made irrespective of whether there is on deposit at the time thereof a sufficient amount in the State School Building Aid Fund to permit the payment of the apportionments. Disbursements may be made under any

apportionment which heretofore or hereafter becomes final from any funds in the State School Building Aid Fund without regard to whether there exists at the time of the disbursement a sufficient amount in the fund to permit the payment in full of all apportionments previously made. However, no disbursements shall be made from any funds in the State School Building Aid Fund required by law to be transferred to the General Fund, or from any moneys therein which the Controller deems necessary to satisfy appropriations from the fund for purposes other than apportionments.

16067. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment or for any project or part thereof which has not been approved by the State Department of Education.

16068. If any school district receives a final apportionment under this chapter and after November 12, 1952, receives money from the federal government as reimbursement for any expenditures by the state or school district for constructing any school facilities included in the construction project for which the district is receiving an apportionment, the amount of the district's annual repayment next succeeding the date on which the district receives the money shall be increased by the amount of the money so received; provided, however, that the annual repayment of the district shall not be so increased where the money received from the federal government constitutes a contribution toward the cost of school facilities which are to be acquired, in part, with an apportionment, and the federal funds are encumbered or expended by the district in accordance with the purposes of the apportionment.

16069. Each district to which an apportionment has been made under this chapter shall repay the principal amount of the apportionment and the accrued interest thereon in the amount and in the manner provided in this chapter.

16070. The following definitions apply to the computation and determinations required to be made under Section 16072, 16074, and 16075, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation, to and including 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.10 percent of the full valuation. This tax amount shall exclude the full value of solvent credits and other intangible property, for the current fiscal year within the district.

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of thirty cents ($0.30) on each one hundred dollars ($100) of the assessed valuation to and including the 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.075 percent of the full valuation.

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of ten cents ($0.10) on each one hundred dollars ($100) of the assessed valuation to and including the 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.025 percent of the full value.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each the grade level prior to the making of the first apportionment for grade level to the district under the provisions of this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part, provided that for the purposes hereof the first apportionment made to a district for a grade level after all previous apportionments to the district for that grade level have been repaid in full, excluding apportionments made under Section 16039 and not combined with construction apportionments, shall be deemed to be the "first apportionment for the grade level."

16071. This section applies only to a unified school district that filed an application on or after April 30, 1977, for an apportionment for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, and the repayments required for apportionments made under those applications.

The following definitions apply to the computation and determinations required to be made under Sections 16072, 16074, and 16075, and they apply with respect to the grade level of a unified school district for which grade level an apportionment has become final during any preceding fiscal year:

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of 0.20 percent of full valuation for the current fiscal year within the district.

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of 0.15 percent of full valuation for the current fiscal year within the district.

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of 0.05 percent of full valuation for the current fiscal year within the district.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each grade level prior to the making of the first apportionment for the grade level to

the unified school district under this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

If the unified school district's first apportionment under this chapter was for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, grades 1 to 8, inclusive, grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, "eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the indebtedness that was incurred for elementary and high school purposes prior to the making of the first apportionment under this chapter computed as provided in Section 16072 together with the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

16071.5. The amounts raised and to be raised by the district during the current fiscal year for repayment of principal and interest for any bonds, issued and sold by an applicant district, which are in excess of the "basic bond requirement," as defined in Section 16002.5, shall not be considered as "eligible bonded debt service" for purposes of computing repayments or deferments pursuant to Sections 16070, 16072, 16073, 16084 and 16086.

16072. On or before the first day of December of each fiscal year, the Director of General Services shall determine for each grade level and certify to the Controller the eligible bonded debt service for the district, as follows:

(a) He or she shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district or upon the requirement that the proceeds of bonds issued and sold be contributed for the purposes of the application for which the apportionment is made, the Director of General Services shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving the additional apportionment or which was incurred for bonds issued and sold, the proceeds of which were required to be contributed for purposes for which the apportionment was made.

(b) If the Director of General Services determines in any fiscal year that the amount certified to the Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in

subdivision (d) of Section 16070 and subdivision (a) of this section, then the Director of General Services shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of General Services.

(c) If the Director of General Services determines in any fiscal year that the amount certified to the Controller as the eligible bonded debt service during the last preceding fiscal year is less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 16070 and subdivision (a) of this section, then the Director of General Services shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of the bonded indebtedness and the amount so certified by the Director of General Services.

(d) If an apportionment has been made to a district for a grade level for which the district also received an apportionment pursuant to Chapter 4 (commencing with Section 15700) of this part, the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for the grade level as required by Chapter 4 (commencing with Section 15700) of this part and the amount shall be included by the Controller in the eligible bonded debt service of the district for that grade level. For an apportionment to a unified district for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, for which an application for an apportionment was filed on or after the effective date of the amendment to this section made at the 1961 session of the Legislature, if an apportionment had also been made to the district pursuant to Chapter 4 (commencing with Section 15700) of this part for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, or 1 to 8, inclusive, or grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for all of the grade levels as required by Chapter 4 (commencing with Section 15700) and the amount shall be included by the Controller in the eligible bonded debt service of the district for the grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive.

16072.5. Whenever a school district has applied the proceeds of a sale of local bonds to a project pursuant to subdivision (c) of Section 17032, the Director of General Services shall include in the determination of the eligible bonded debt service of the district, the amount raised or to be raised for repayment of principal and interest

on that portion of the bonded indebtedness of the district generating the proceeds.

16073. Whenever (a) a school district which has not sold bonds within two fiscal years immediately preceding the fiscal year in which a repayment computation is made pursuant to this article; and (b) the district is not eligible for deferment under Section 16084 or 16086 and has been required during the fiscal year in which repayment computations are made to issue bonds in order to qualify for an apportionment; and (c) no funds for the required bond issue have been provided during that year in the district's bond interest and redemption fund budget, the Director of General Services shall determine the eligible portion of the amount required from taxes for the required issue during the next succeeding fiscal year and shall certify the amount to the Controller as additional eligible debt service prior to the levy of taxes during such fiscal year. The provisions of this section shall apply to the qualifying bond requirements commencing with the 1972–73 fiscal year.

16074. On or before the first day of January of each fiscal year, the Controller shall compute for each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year the 40-cent tax amount, the 30-cent tax amount and the 10-cent tax amount.

16075. On or before the first day of January of each fiscal year the Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year, as follows:

(a) If, for any grade level of a district, the amount of the eligible bonded debt service exceeds the 40-cent tax amount, no annual repayment shall be due the state from such district with respect to such grade level during the next succeeding fiscal year.

(b) If, for any grade level of a district, the 40-cent tax amount is greater than the eligible bonded debt service, the amount of such excess shall constitute the annual repayment due the state with respect to such grade level during the next succeeding fiscal year; except that if the eligible bonded debt service is less than the 10-cent tax amount, the annual repayment shall equal the 30-cent tax amount.

(c) The total repayment for each district is the sum of the annual repayments determined for each grade level of the district under this section.

16076. Whenever the Director of General Services has certified an additional amount of eligible debt service under the provisions of Section 16073, the Controller shall make a recomputation of the annual repayment and notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the revised repayment. The recomputation and notification shall be completed prior to the date on which the board of supervisors makes the levy of taxes for county purposes.

16077. If an apportionment is made for a project which includes a multipurpose room the board shall determine and specify the portion of the apportionment that is allocated to the cost of the multipurpose room.

If a district receives an apportionment a portion of which is for a multipurpose room it shall repay the principal amount of such portion of the apportionment as an additional payment as provided by this section. Interest on the total apportionment shall be paid as provided in Section 16083. The repayment is in addition to the repayments required on the total of all apportionments to the district, which shall be repaid as otherwise provided in this chapter.

Notwithstanding the provisions of Sections 16083 and 16087 for cancellation of the principal amount of apportionments the Controller shall continue to make the deduction provided by Section 16080 during each fiscal year thereafter until the principal amount of the portion of the apportionment that was allocated to the cost of the multipurpose room and was made and disbursed to the district has been withheld, or for an additional period of 10 years, whichever first occurs. At the expiration of 40 years from the first day of July of the fiscal year next succeeding the fiscal year in which the apportionment became final, the unpaid balance of the principal amount of the portion of the apportionment shall be canceled on the books of the State Controller and the provisions of Section 16083 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 16087.

16078. Notwithstanding any other provision of this chapter, the total amount of the repayment made each year by each school district to which one or more apportionments have been made under this chapter shall not be less than the amount of the cost to the state for that year to pay principal and interest on the bonded indebtedness incurred to fund the apportionment or apportionments made to that district.

16079. Notwithstanding any other provision of this chapter, and regardless of how many apportionments are made to a grade level of a school district under the provisions of this chapter, the total annual repayment for such grade level during any fiscal year, covering all such apportionments, shall not exceed the amount that would be computed under Sections 16070 to 16080, inclusive, for any one of such apportionments.

16080. The Controller shall, during the next fiscal year following that in which he or she determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to the district from the State School Fund under Sections 46304, 46305, and 41050 and 92, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, and, on order of the Controller, the amount so deducted shall be transferred to the State School Building Aid Fund. All money

transferred to the State School Building Aid Fund under this section shall be available only for transfer to the General Fund of Section 16403.

16080.5. (a) Notwithstanding any other provision of this chapter, for any school district that qualifies under subdivision (b), as certified by the State Allocation Board, the Controller, upon receipt of a written request to that effect from the governing board of the school district, shall reduce the tax amount that would otherwise be utilized in computing the district's annual repayment obligation under this chapter by the amount of 50 percent.

(b) Subdivision (a) shall apply to any school district in which, on or after January 1, 1989, the voters of the district approve a local general obligation bond measure, which measure includes within its purposes the funding of school facilities construction or reconstruction. Subdivision (a) shall apply to a district that qualifies under this subdivision as of the day following the date of that voter approval.

16081. Notwithstanding any provision of law to the contrary, whenever in any fiscal year, pursuant to Chapter 5 (commencing with Section 5096), Part 9, Division 1 of the Revenue and Taxation Code, a refund is made or a judgment rendered, as the case may be, for the return of an amount collected as school district taxes levied during a previous year upon secured or unsecured personal property, because it was determined that such property was exempt from taxation, and such property so determined to be exempt equals 1 percent, or more, of the assessed valuation in the school district upon which school district taxes for such previous year were levied, the Controller shall reduce the annual repayment of the district and the amount deducted from the State School Fund apportionment of such district for the fiscal year next succeeding that in which such refund was made or judgment rendered, by that amount by which the annual repayment and deduction of the district would have been reduced for the fiscal year next succeeding that in which such taxes were levied had the assessed valuation upon which such annual repayment was computed not included an amount of assessed valuation equal to the amount of assessed valuation of the property so determined to be exempt.

The amount of annual repayment and deduction, reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 16080, 16089 and 16090 for the fiscal year in which such reduction is made.

16082. (a) Upon request of the district, the Controller shall use in computing the "40-cent, 30-cent, and 10-cent tax amounts" under Section 16070 the difference between the total assessed valuation of property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of such total assessed valuation, with respect to

which revenues of the district taxes levied in the 1954–1955 fiscal year, or thereafter, have been impounded by the county auditor pursuant to Section 14240. Beginning with the 1981–82 fiscal year, the difference in excess of 0.50 percent of the total assessed value shall be used in the computation. If the request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954–1955 fiscal year, the Controller shall recompute the annual repayment of the district due during the 1955–1956 fiscal year on the basis of the reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 16089 of the recomputed annual repayment for the 1955–1956 fiscal year, and of the recomputed amount to be deducted from the State School Fund apportionment to the district during the 1955–1956 fiscal year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district for the first fiscal year or second fiscal year next succeeding that in which the notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 16080, 16089, and 16090 for the fiscal year in which the increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a) hereof, Section 16081 shall not apply with respect to any tax revenues to which subdivision (a) applies.

16083. The Controller shall make the deduction provided by Section 16080 during each fiscal year, as herein provided, until the principal amount of the apportionment made and disbursed to the district for the grade level, and all accrued interest due thereon, has been withheld; but no interest shall accrue, or become due and payable, to the state with respect to the principal amount of the apportionment, or any portion thereof, for any period of time following the expiration of 25 years after the first day of July of the fiscal year next succeeding the fiscal year in which the apportionment becomes final. At the expiration of 30 years from the first day of July of the fiscal year next succeeding the fiscal year in which the apportionment became final, the unpaid balance of the principal amount of the apportionment disbursed to the district, including all interest included in the principal amount as provided in Section 16088, shall be canceled on the books of the Controller; and the state shall have no further right to the repayment of the unpaid balance. Notwithstanding the provisions of this section, that portion

of the "annual repayment," if any, computed by the Controller under Section 16075 prior to the date of cancellation of the principal amount of an apportionment under this section, which has not been withheld by the Controller, as provided by Section 16080, prior to the date of the cancellation, shall be withheld by the Controller, as provided by Section 16080, subsequent to the effective date of the cancellation; and the amount so withheld shall be credited to the school district in determining the principal amount of the apportionment, including all interest included therein, which is canceled under the provisions hereof. The grade level shall be excluded from any computations provided under Sections 16070, 16071, 16072, 16074, and 16075, in making the computations, after the effective date of the cancellation, to determine the "annual repayment," if any, that may thereafter be due the state from the school district with respect to other grade levels thereof.

16084. If, on or before June 30th of any fiscal year, the governing board of any school district files a request with the Controller for a deferment of the annual repayment due from the district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter or Chapter 6 (commencing with Section 15700) of this part, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of the annual repayment, the deferment shall be made in accordance with the determination. The request for deferment, having once been filed with the Controller, shall remain in effect each ensuing year, and the Controller shall continue to compute and allow the deferment in accordance with this section each year, until the time as the governing board of the school district files a written request with the Controller to discontinue the deferment.

As used in the preceding paragraph, "any school district" means a district which is liable for the repayment of the principal amount of apportionments made to the district under the provisions of Chapter 4 (commencing with Section 15700) of this part and which has received a conditional apportionment under this chapter.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district, during the fiscal year in which the annual repayment is to be deducted pursuant to Sections 15735 and 16080, for the payment of principal and interest on (a) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter, (b) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter, and (c) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school

building apportionments under Chapter 4 (commencing with Section 15700) of this part and under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under Chapter 4 (commencing with Section 15700) of this part for the grade level. It is hereby declared that this paragraph is not intended as a change in the present law but rather as a declaration of existing law.

There shall be computed the amount which would be produced by a tax of forty-five cents ($0.45) on each one hundred dollars ($100) of assessed valuation of the district during the year, to be known as the "45-cent tax amount," except beginning with the 1981–82 fiscal year, the amount shall be produced by a tax of 0.1125 percent of the full value. The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 45-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the Controller shall request the Director of General Services to, and the Director of General Services shall, determine and certify to the Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 15733 and Section 16075, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years. Any repayments by a district of a deferred

amount shall be first applied to loans granted under Chapter 4 (commencing with Section 15700) of this part.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 15738 or Section 16083, as the case may be, there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the Controller, and the provisions of Section 15738 or Section 16083, as the case may be, shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 15739 or 16087, whichever is applicable.

16085. For purposes of computing, under Section 16084, the portion of the annual repayment to be deferred in the case of a unified school district which has applied for and received an apportionment under Section 16003, the "45-cent tax amount" shall be the amount produced by a tax of ninety cents ($0.90) on each one hundred dollars ($100) of assessed valuation of the district during the year, except beginning with the 1981–82 fiscal year the tax shall be 0.225 percent of the full value.

16086. The provisions of this section shall apply: (1) to any school district which has succeeded to and become vested with all duties, powers, purposes, jurisdiction, and responsibility with respect to a portion of an apportionment determined or redetermined to have been expended, or to be expendable, for property acquired or to be acquired by it, and which has become liable for a portion of the annual repayment of a portion of an apportionment, as provided in Section 16159; and (2) to any state-aided district a portion of the territory of which was transferred to a district described in (1), above, and in connection with which territory a portion of an apportionment made to such state-aided district has or will be expended for property acquired or to be acquired.

If, on or before June 30 of any fiscal year, the governing board of the school district files a request with the Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of the annual repayment, the deferment shall be made in accordance with the determination. The request for deferment, once filed with the Controller, shall remain in effect in each ensuing year, and the Controller shall continue to compute and allow the deferment in accordance with this section each year, until the time as the governing board of the school district files a written request with the Controller to discontinue the deferment.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district during the fiscal year in which the annual repayment is to be deducted pursuant to Section 16080, for the payment of principal and interest on: (a) that portion of the annual repayment and all other payments due the state under Section 16075 and other provisions of this chapter with respect to the portion of the apportionment for which the district has been determined to be liable under Section 16159; (b) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter; (c) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter; and (d) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during the fiscal year, for the annual repayment of school building apportionments under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under this chapter for the grade level.

There shall be computed the amount which would be produced by a tax of forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation of the district during such year, to be known as the "40-cent tax amount," except beginning with the 1981–82 fiscal year, the amount shall be produced by a tax of 0.10 percent of the full value of the district during such year. The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 40-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the Controller shall request the Director of General Services to, and the Director of General Services shall, determine and certify to the Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 16075, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 16083 there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the Controller, and the provisions of Section 16083 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 16087.

16086.5. Notwithstanding any other provision of this chapter, where an election is or has been held after March 1, 1979, and prior to December 1, 1979, for the purpose of forming a new unified school district, coterminous with an existing elementary school district, and such reorganization becomes effective for all purposes on July 1, 1980, such unified school district shall be eligible for a deferment of annual repayment as set forth in Section 16086, except that the "basic tax amount" shall be computed as the sum of (a) that portion of the original high school repayment for which the new district is liable and (b) that portion of the original high school eligible debt service computed pursuant to Section 16072 for which the new district is liable, as provided in Section 4147.

16087. The Controller shall certify to the board the cancellation of the unpaid balance of the principal amount of the apportionment. Upon receipt of the certification, the board shall, in the name of the state, convey to the district all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to, from money provided by the apportionment covered by the cancellation.

16088. The Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to each grade level of a district under the provisions of this chapter. He or she shall compute interest, at the rate fixed by the

board, on each amount disbursed by the state pursuant to the apportionment, from the date of issuance of the Controller's warrant covering the payment to the county treasurer of the amount until the first day of July of the fiscal year next succeeding that in which the warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to the apportionment, through the 30th day of the following June of each year, until the principal and interest have been paid, or until the interest ceases to accrue, as provided in this chapter. Interest on unpaid school building aid apportionments shall be computed as if the annual repayment were credited on the first day of July of the fiscal year in which the repayment is withheld.

16089. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

16090. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the Controller during the fiscal year in which the tax is levied. Effective July 1, 1988, that tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of a separate fund of the district to be known as the Tax Override Fund.

16091. The board shall prescribe in the detail that it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and the prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for any cause that it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose. However, the changes or substitutions in the purposes for which the funds were earmarked or encumbered, with respect to the requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of General Services.

16092. Unless the board has received the certificates of the county superintendent of schools required by Section 16061 within nine months from the date of the conditional apportionment, it shall, at

the expiration of the nine months' period, void the conditional apportionment and shall certify this fact to the Controller. Each final apportionment made by the board under this chapter shall be certified by it to the Controller who shall from time to time draw his or her warrant on the Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of the final apportionment. The warrant shall be exempt from the provisions of Division 4 (commencing with Section 16100) of Title 2 of the Government Code and shall be paid by the Treasurer from the State School Building Aid Fund.

16093. A state school building fund is hereby created in the county treasury in each county for each school district in the county. The county treasurer of each county shall pay into the state school building fund of each school district, exactly as apportioned by the board, all moneys received by him or her under this chapter with respect to each school district.

16094. Interest earned on those portions of deposits in a state school building fund representing allocations from the proceeds of state school construction bonds received by the county treasurer for the benefit of a school district under this chapter shall be paid into the state school building fund created by Section 16093. The interest which prior to the 1964–65 fiscal year was deposited in the general fund of the school district for which the state school building fund was established shall remain the property of that general fund.

16095. The governing board of each school district to which an apportionment is made under this chapter is authorized to, and shall, transfer to the state school building fund of the district from all other funds of the district in which the moneys may be, all moneys of the district which under, or pursuant to, this chapter are required to be expended for the project for which the apportionment was made.

16096. A fund in the State Treasury is hereby created, to be known as the State School Building Aid Fund. All money in the State School Building Aid Fund, including any money deposited in the fund from any source whatsoever after November 12, 1952, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

16096.5. From any moneys in the State School Building Aid Fund available for the purposes of this chapter, the board shall make available to the Director of General Services any amounts that it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

16097. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the state school building fund of the school district exactly as apportioned by the board and only for the purposes for which the moneys were apportioned to the district, and for no other purpose,

and shall make the reports relating to the expenditure of the moneys that the board and the Controller shall require.

16098. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

16099. It shall be the duty of the Controller to make the audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he or she may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

16100. Whenever the Controller determines that any money apportioned to a school district has been expended by the school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by Section 16024 to be paid therefrom, the Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of the unauthorized expenditures, or the amount of the excess apportionment, as the case may be. Upon receipt of the notice, the governing board shall order the county treasurer to pay to the Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in the notice. The amount shall, upon order of the Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

It shall be the duty of the governing body and the county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

If, upon petition of the district, the Controller determines that the amount to be included in the county settlement is in excess of the amount that may be paid out of taxes levied at the maximum rate authorized by law (increased by any increase in the rate authorized by the electors of the district pursuant to Section 42202), without impairing essential district services, he or she may provide for the payment of the entire amount or any unpaid balance thereof in not exceeding three consecutive annual payments, commencing with the next school year. Each payment shall be an equal portion of the principal amount, plus accrued interest, and shall be paid not later

than January 31st of each school year in which a payment is due. If the district fails to make the payment as specified, the Controller shall deduct the amount thereof from the February payment made to the district under Section 14041.

Deferred payments under this section shall bear interest at the same annual rate of interest as the apportionment from which the unauthorized expenditures or the amounts of excess apportionment were made.

16101. Notwithstanding any provision of law to the contrary, if an apportionment is or has been made at any time after October 1, 1953, to meet a construction low bid and if the State Allocation Board after approving the apportionment revises the apportionment, and the apportionment finally approved reveals that an applicant school district receives excess construction area to what they are entitled to pursuant to Section 16044, and if a judgment for the collection of the excess apportionment has not been rendered by a court prior to September 11, 1957, the excess apportionment shall be computed by the Controller and shall be repaid pursuant to this section. The district shall repay the amount of excess apportionment, and the interest thereon, in equal annual installments within 20 years from the date it receives the excess apportionment. The rate of interest shall be the same rate as that fixed for the approved apportionment. The district may at any time before the end of the 20-year period for repayment elect to repay, and repay, the balance of the excess apportionment then unpaid, plus interest computed to the date of repayment of such balance.

16102. If the board, between April 5, 1963, and July 1, 1963, approves an application for an apportionment and makes a conditional apportionment to the district making the application and if after the approval it is determined that the projected enrollment of the district is less than that upon which the district's application was based, any apportionment made by the board under the application is hereby ratified and confirmed and payments shall be made to the district pursuant to the apportionment. The board shall as a condition to any apportionment made under the application require the district to repay in full that portion of the apportionment which it determines to be attributable to the excess projected enrollment upon which the application was based and the district shall be empowered and obligated to comply with the requirement if it accepts the portion of the apportionment. The repayment shall be in equal annual installments made within 20 years from the date the district receives the apportionment. The repayment shall be in addition to any other repayment required by this chapter. The rate of interest shall be the same rate as that fixed for the remainder of the apportionment.

If at any time the board determines that the amount of actual enrollment of the district attains the amount of the projected enrollment upon which the district's application, referred to above,

was based, the board may, if it determines that the inclusion of the excess projected enrollment in the application occurred inadvertently, provide that the district shall not be required to pay any further installments for full repayment of that portion of the apportionment attributable to the excess projected enrollment and the unpaid balance of the portion and interest thereon shall thereafter be repaid under the same terms and in the same manner as the balance of the apportionment made under the application.

16103. If a school district entered into an agreement at any time beginning on October 1, 1954, and ending on December 31, 1954, whereby it agreed to lease a site and facilities situated thereon, for the purpose of constructing administrative facilities on the site in accordance with plans prepared by or for the district, the State Allocation Board may make an apportionment to the district for the acquisition of the site and facilities; provided, (1) that the district at the time of receiving the apportionment would otherwise be eligible to receive an apportionment for square footage of building area equal to or exceeding that of the facilities to be constructed; (2) the Department of Education approves of the acquisition on the basis that it is necessary to provide needed administrative facilities for the district; and (3) the board finds that the acquisition and the consideration being paid therefor is economically feasible and constitutes sound financial practice.

16104. Any portion of an apportionment paid to a school district under this chapter shall be available for expenditure by its governing board for not less than one year nor more than three years, as the board shall determine, after the date on which the warrant covering that portion of the apportionment was issued by the Controller, provided that no limitation on expenditure shall be applicable with respect to any items the payment or reimbursement of which is required to be made by special resolution pursuant to Section 16057, whether the special resolution is adopted prior or subsequent to the termination of the period of availability herein specified. For the purposes of this chapter, an apportionment shall be deemed to be expended at the time and to the extent that the amount thereof on deposit in the county treasury has been encumbered by the creation of a valid obligation on the part of the school district. Upon the expiration of its period of availability, the unencumbered balance of any apportionment made under this chapter shall become due and payable to the State of California; and the governing board of the school district and the county treasurer shall pay the amount of the unencumbered balance to the Treasurer, out of the funds, and in the manner specified in Section 16100 of this code. The payment shall, on order of the Controller, be deposited in the State School Building Aid Fund in the State Treasury, to be reapportioned by the board.

It shall be the duty of the governing body and county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on

behalf of the state, provided that notwithstanding the above duties shall not be deemed to exist with respect to any amount heretofore or hereafter due the state occasioned by the termination of the period of availability of expenditure provided by this section where the period of availability of expenditure for the items representing the amount is subsequently made inapplicable by the adoption of a special resolution pursuant to Section 16057.

16105. Whenever a school district receives or has received an apportionment for or toward the purchase or improvement of realty or personalty (hereafter referred to as "property") and within five years from the date of the written authorization from a duly authorized representative of the board for the expenditure therefor from state funds or from contributable district funds, sells, leases, exchanges or otherwise disposes of the property or any portion thereof without the consent of the board, the board may demand the return of the state apportionment or the portion thereof it deems proper, plus accrued interest at the prescribed rate, less any repayment made prior to the demand by the district on account of the apportionment. A district may not at any time while an apportionment remains unpaid or noncanceled, dispose of any property acquired therefrom without the consent of the board, excepting transfers provided for by Article 15 (commencing with Section 17556) of Chapter 3 of Part 23 and existing improvements on an acquired site. The consent may be subject to the conditions as may be imposed, which may include the application of the consideration received in reduction of any apportionments previously made to the district. Any property into which the consideration from the disposition is converted shall be and remain the property of the state as if an apportionment had originally been authorized therefor.

Whenever, in the judgment of the board, a district fails to use property for the purpose or purposes for which an apportionment has been made, within not less than one nor more than five years from the aforesaid authorization, as the board shall determine, the board may demand back the return of the apportionment, or portion thereof, with interest, as specified in the preceding paragraph. The board's interpretation of the "use" in any instance, and whether or not the district has complied therewith, shall be conclusive upon the district affected after a hearing and finding of the board. In addition to the foregoing, the board may at any time subsequent to the expiration of the last mentioned period, while an apportionment remains unpaid or uncanceled, determine that a site or portion thereof, purchased in whole or in part with the apportionment is not being used for the purpose or purposes for which the apportionment was made, which determination shall be conclusive upon the district after a hearing and finding of the board. Pursuant to that determination, the board may direct the sale or other disposition of the site or portion thereof by the state or by the district and apply the proceeds, after deducting expenses it determines necessary to

facilitate the disposition, in reduction of the apportionment, plus accrued interest. Any excess shall be applied in reduction of any other unpaid or noncanceled apportionments, plus interest, as the board shall direct, any remaining proceeds thereafter being payable to the district. For the purposes of the determination of disposition, the district shall, whenever directed by the board, convey record title to the site or portion thereof to the state or do any other acts deemed necessary by the board to facilitate the disposition or implement the terms thereof. Any disposition authorized to be made hereunder by the district shall be made in accordance with the procedure prescribed by this code for the disposition of unneeded school property, otherwise as directed by the board, provided that the consideration to be received shall be subject to the approval of the board or its delegate for that purpose.

Written notice of any demand prescribed by this section, setting forth the amount due the state pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the Controller. Upon receipt of the notice and demand, the governing board of the school district shall order the county treasurer to pay to the Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in the notice. The amount shall, upon order of the Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

Whenever a school district receives or has received an apportionment under this chapter for the purchase of a site which contains existing improvements, the board may require the district to dispose of the existing improvements as a condition of receiving an apportionment in the manner as the board deems proper, and contribute the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment. In the event that the district is not so required to dispose of the existing improvements but after receiving the apportionment subsequently disposes thereof, the net proceeds therefrom or the value of the consideration received therefor, shall be contributed by the district in reduction of any remaining indebtedness to the state under this chapter or Chapter 4 (commencing with Section 15700).

Where a district has been unable to use any building site acquired by an apportionment under this chapter because of the delay of the board in acting upon its application for an apportionment for the planning and construction of school buildings on the site, the board may withhold demand for repayment of the apportionment for the building site for a period of not less than one or more than three years after approval of the apportionment for planning and construction.

It shall be the duty of the governing body and county treasurer to make the payments to the Treasurer as provided in this section, and

it shall be the duty of the Controller to enforce the collection on behalf of the state.

Whenever the consent of the board is required in this section, it may be given by written authorization of its authorized representative for that purpose. The provisions of this section, including the term "apportionment" or "apportionments," shall be deemed to be applicable to apportionments heretofore or hereafter made under this chapter or Chapter 4 (commencing with Section 15700).

Article 2. School Housing Aid for Reorganized Districts

16150. (a) As used in this article:

(1) "State-aided district" means a district to which a conditional or final apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all or a part of, a state-aided district or an applicant district has been included.

(3) "Original district" means a state-aided or applicant district included in whole or in part in an acquiring district.

(b) For the purposes of this article as it applies to an acquiring district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization shall be:

(1) For granting conditional apportionments: the date the action became effective for the purposes of Sections 4062 and 4063.

(2) For making conditional apportionments final: the date the action became effective for the purposes of Sections 4062 and 4063.

(c) For the purposes of this article as it applies to an original district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization in which the original district is included in whole or in part in an acquiring district shall be:

(1) For granting conditional apportionments: the date the action becomes effective for all purposes as specified in Section 4064.

(2) For making conditional apportionments final: the date the action became effective for all purposes as specified in Section 4064.

(3) No conditional apportionment may be made to any original district affected by any reorganization after the date such action became effective for the purposes of Sections 4062 and 4063 except upon an application that has the approval of the governing board of the acquiring district.

16151. On the date an acquiring district becomes effective for all purposes, as specified in Section 4064, the authority to accept a state loan voted by an original district pursuant to this chapter whose boundaries are coterminous with the boundaries of the acquiring district shall become authority of the acquiring district to accept a state loan. However, when the proceeds of bonds authorized and sold by the acquiring district are applied toward the reduction of apportionments made to an original district which is included in

whole in the acquiring district pursuant to Section 16058, the amount of bond proceeds shall be excluded in determining the amount chargeable against any apportionment authorized to be accepted by the electorate of the original or acquiring district.

16152. Notwithstanding any other provision of this chapter, where an election is or has been held after April 1, 1972, in two elementary districts for the purpose of forming a new elementary district from the territories of the districts, which reorganization would become effective for all purposes on July 1, 1973, and where one of the districts has prior to April 1, 1972, voted to accept, expend, and repay apportionments under this chapter but no apportionments pursuant to the authorization has been made to the district as of April 1, 1972, the consent of the electors in the districts to the reorganization shall be deemed to constitute a consent on behalf of the newly formed district to accept, expend, and repay apportionments under this chapter to the extent that the former authorization for apportionments had not been utilized.

Further, the ballot for the election held for the purpose of forming the new elementary school district shall contain a statement to the effect that approval of reorganization shall be deemed to constitute a consent on behalf of the newly formed district to accept, expend, and repay apportionments under this chapter to the extent that the former authorization for apportionments has not been utilized.

16153. Whenever, prior to the date on which a conditional apportionment is made by the board to an applicant district, (1) if an applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this chapter, no apportionment shall be made to the applicant district; (2) if less than the whole of an applicant district is included in a district which is ineligible for an apportionment under this chapter, the board may reconsider the application of the applicant district and make such determinations and take the action with respect thereto, including the making, subject to Article 1 (commencing with Section 16000) of this chapter, of a conditional apportionment to the district, as the board may deem necessary because of such inclusion of less than the whole of the applicant district in the acquiring district; (3) if an applicant district is annexed to or otherwise included in whole or in part in a district which is eligible for an apportionment under this chapter and has made or does make an application for the apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make the determinations and take the action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter, of conditional apportionments to the districts, as the board may deem necessary because of the annexation or other inclusion in the acquiring district of the applicant district in whole or in part.

16154. Whenever, subsequent to the date on which a conditional apportionment is made by the board to an applicant district, but prior to the date on which the conditional apportionment becomes final, (1) if an applicant district is annexed to or otherwise included in whole in a district which is not eligible for an apportionment under this chapter, the conditional apportionment shall, notwithstanding any other provisions of this chapter, become void and the board shall promptly notify the Controller in writing thereof and the date on which the apportionment became void; (2) if the district to which an applicant district is annexed or in which it is otherwise included in whole is eligible for an apportionment, has made or does make an application for such an apportionment under this chapter, the conditional apportionment made to the applicant district shall, notwithstanding any other provisions of this chapter, become void but the board may reconsider the application of the acquiring district and make the determinations and take such action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter except as hereinafter provided, of additional conditional apportionments to the acquiring district, as the board may deem necessary as a result of such annexation or other inclusion in the acquiring district of the applicant district; (3) if less than the whole of an applicant district is included in another district, the conditional apportionment shall, notwithstanding any other provisions of this chapter, become void, but the board may reconsider the application and make such determinations and take such actions with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter except as hereinafter provided, of new conditional apportionments to the applicant district, as the board may deem necessary as a result of such inclusion of a portion of the applicant district in the acquiring district.

Notwithstanding anything in the first sentence of Section 16058 to the contrary, additional conditional apportionments made to a district under (2), or new conditional apportionments made to a district under (3) of the first paragraph of this section may, with the approval of the board, become final if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars ($25,000) of the amount required under Section 16058.

16155. If an annexation or other inclusion of a portion of an applicant district in another district comprises less than 5 percent of the assessed valuation of the applicant district on the effective date of the change, no annexation or other inclusion shall be deemed to have taken place for the purposes of Sections 16154 and 16156.

16156. Whenever, prior to the date on which conditional apportionments have been made to an applicant district for the full amount of state aid approved for the district under Section 16035, (1) if the applicant district is annexed to or otherwise included in whole in another district which is ineligible for an apportionment under this

chapter, no further apportionment shall be made to the applicant district; (2) if the applicant district is annexed to or otherwise included in whole in a district which is eligible for an apportionment under this chapter and which has made or does make an application for the apportionment, the board may reconsider the applications of the applicant district and the acquiring district and make any determinations and take any action with respect thereto, including the making, subject to the provisions of Article 1 (commencing with Section 16000) of this chapter, of a conditional apportionment or apportionments to the acquiring district that the board may deem necessary because of the annexation or other inclusion in the acquiring district of the applicant district; (3) if a portion of the applicant district is annexed to or otherwise included in another district, the board may reconsider the application of the applicant district and may, within two years after the first apportionment made under the approval, make the additional apportionments as it sees fit to the applicant district, but not in excess of the amount in which the application was originally approved, without requiring the district to issue additional bonds.

16157. Whenever, subsequent to the date on which a conditional apportionment made to a district becomes final, the state-aided district is included in whole in another district, the acquiring district shall, on the effective date of the inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to the apportionment and the property acquired or to be acquired from funds provided thereby, and all funds in the state school building fund of the state-aided district shall be transferred to the state school building fund of the acquiring district. All amounts which would, after the effective date of the inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to the apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district as fixed by Section 4064, become liable for the annual repayments and other payments due the state under Section 16075 and other provisions of this chapter with respect to the apportionment or the property acquired or to be acquired therewith.

16158. Whenever one or more state-aided districts are included in whole in an acquiring district, and the acquiring district applies for and receives an apportionment, then after the effective date of the inclusion and upon the approval of the application of the acquiring district, the governing board of each component state-aided district shall immediately transfer to the acquiring district all moneys of the component district which are required to be, or have been, earmarked for a project or projects of the district. The acquiring district, upon the transfer to it of the funds, may expend the funds for

any projects of the acquiring district as to which its application was approved.

16159. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of the district is included in another district, the Director of General Services shall determine what portion of the apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of General Services under this section may be redetermined by him or her, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to the final cost. The Director of General Services shall promptly notify the Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor and the treasurer of the counties having jurisdiction over the districts of each determination and redetermination made by him or her under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of the district to the state under this chapter.

On and after the date of the change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of General Services has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of the portion of the apportionment in the state school building fund of the state-aided district shall be transferred to the state school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the state of that portion of the annual repayment and all other payments due the state under Section 16075 and other provisions of this chapter with respect to that portion of the apportionment which the Director of General Services has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district, or, in the event the portion of the apportionment is a lower percentage of the apportionment than the percentage that the assessed valuation in the territory of the state-aided district which was transferred to the acquiring district is of the total assessed valuation of the state-aided district immediately preceding the effective date of the transfer, the acquiring district shall become liable for the payment to the state of that portion of the annual repayment and all other repayments due the state under Section 16075 and other provisions of this chapter with respect to the apportionment which is equal to the percentage of assessed valuation

in the territory transferred to the acquiring district. "Annual repayment," as used in this section, refers to repayment computed under Sections 16070 to 16075, inclusive, and excludes amounts for which the state-aided district is liable under the provisions of Section 16039. Whenever a site for which repayments are being made under Section 16039 is transferred to an acquiring district the acquiring district shall be liable for the repayments required under Section 16039.

Notwithstanding the foregoing, the liability of the acquiring district for the repayment of any portion of the apportionment made to the state-aided district shall not exceed the product of the highest percentage referred to above (whether relating to assessed valuation or to the portion of the apportionment expended in the property acquired), multiplied by the balance due on the apportionment made to the state-aided district at the time of the withdrawal on the effective date specified in Section 4064 (Sec. 1, Ch. 95, Stats. 1964, 1st Ex. Sess.) of the territory referred to. The limited liability is hereinafter referred to as "the maximum." It is the intent of the Legislature that the maximum shall be applied by the Controller, both retroactively and prospectively, provided that as a result of the application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than the maximum, assuming this paragraph had been in effect at that time, the excess shall be credited by the Controller against any apportionment balances for which the district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from other districts by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 16080 prior to January 1, 1966.

If any subdivision clause, sentence, or phrase of this section is for any reason held to be unconstitutional the decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section and each subdivision, sentence, clause, or phrase thereof irrespective of the fact that any one or more subsections, clauses, sentences, or phrases be declared unconstitutional.

16160. Notwithstanding the provisions of Sections 16159 and 16161, in situations where an applicant district at the elementary grade level under this chapter is divided into three parts, each of which is included in a newly formed unified school district, each part shall be excluded in determining the state loan repayment liability for any apportionment made to the original district subsequent to the date the unification is effective for purposes of Section 4062 (Sec. 1, Ch. 873, Stats. 1972), provided:

(a) The assessed valuation of the part is less than 4 percent of the original district in the fiscal year immediately preceding the fiscal year the change is made effective for all purposes.

(b) The average daily attendance in the part is excluded in determining projected enrollment of the original district for additional state aid during the period after the change is effective for purposes of Section 4062 (Sec. 1, Ch. 873, Stats. 1972) and prior to the effective date for all purposes.

(c) The part contains no sites, plans, or school facilities, which were acquired under this chapter or under Chapter 4 (commencing with Section 15700) of this part.

16161. Notwithstanding any change in the boundaries of a state-aided district or the annexation to, or the inclusion in, another district of a state-aided district, the state-aided district as it existed immediately prior to the effective date of the action shall be continued in existence for the determination of the assessed valuation of the property therein and for the purposes of the computations provided by Sections 16070, 16072, 16074, 16075 and 16084; and all the computations required to be made pursuant to those sections shall be made exactly as if there had been no such change of boundaries, annexation, or inclusion, except as otherwise provided in Sections 16163 and 16164. However, that if a state-aided district shall be included entirely in another school district which subsequently becomes state aided, then the unpaid balances of the apportionments made to the original district shall be added to the balances of the apportionments made to the newly aided district. In those cases, no further computations as aforesaid, or repayments, shall be made with respect to the original district, but the computations and repayments shall thenceforth be based solely upon the territory and assessed valuation of the newly aided district, in the manner provided by Sections 16070, 16072, 16074, 16075 and 16084.

16162. If a unified school district, after the effective date of this section, applies for and is granted an apportionment under this chapter on the basis of grade levels as defined in Section 16003, all unpaid balances of prior apportionments made to the district, subject to Section 16161, shall be added to the balances of the apportionments made on the basis of Section 16003. In those cases, no further computations or repayments under Sections 16070, 16072, 16074, 16075 and 16084 shall be made with respect to the prior apportionments alone, but the computations and repayments shall thenceforth be based solely upon the combined apportionments, and shall be made as provided in Sections 16071, 16072, 16074, 16075 and 16084.

16163. Whenever, subsequent to the date on which a conditional apportionment becomes final, territory is withdrawn from a state-aided district and no portion of the apportionment was expended for school property acquired by the acquiring district:

(1) If the acquiring district is a state-aided district, the assessed valuation in the territory acquired shall be included in determining assessed valuation of the property in the acquiring district, and shall thereafter be excluded in determining assessed valuation of the property in the state-aided district, for purposes of the computations under Sections 16070 to 16075, inclusive;

(2) If the acquiring district is not a state-aided district, the Controller shall determine the percentage relationship, at the time of the withdrawal, between (a) the assessed valuation in the territory acquired, together with the current assessed valuation in all other territory theretofore acquired by the acquiring district from the state-aided district since the date of its first conditional apportionment under this chapter, and (b) the current assessed valuation of the state-aided district as it was territorially constituted on the latter date.

If the percentage of assessed valuation in acquired territory is, in the aggregate, less than 10 percent, the assessed valuation in all the acquired territory shall be excluded, until the next withdrawal of territory from the state-aided district to the acquiring district, in determining the assessed valuation of the state-aided district for the purposes of the computations under Sections 16070 to 16075, inclusive.

If the percentage of assessed valuation in acquired territory is, in the aggregate, a percentage equal to or greater than 10 percent, the Controller shall, by deducting the percentage from 100 percent, obtain the "complement percentage." Until the next withdrawal of territory from the state-aided district to the acquiring district, the assessed valuation of the state-aided district for purposes of the computations under Sections 16070 to 16075, inclusive, shall be determined by dividing the current assessed valuation of the state-aided district as territorially constituted immediately subsequent to the last withdrawal, by the complement percentage.

Whenever, pursuant to this section, the assessed valuation of the state-aided district is adjusted for repayment computation purposes by use of the complement percentage, liability for the annual repayment computed shall be apportioned between the state-aided district and the acquiring district by multiplying the annual repayment by the complement percentage, the product representing the liability of the state-aided district, and the remainder of the computed repayment representing the liability of the acquiring district.

Notwithstanding the foregoing, the liability of the state-aided district shall not exceed the product of any "complement percentage" (as it may from time to time exist) times the balance due on the aforesaid final apportionment at the time the complement percentage is established; and the liability of the acquiring district (while a complement percentage remains unchanged) shall not exceed the remainder of the balance of the final apportionment at

the time complement percentage is established. The maximum liability on the part of either the state-aided or acquiring districts established as above (and until the time that the liability be altered by altering the "complement percentage") shall be hereinafter referred to in this section with respect to each such district as "the maximum."

(3) In the event that two or more non-state-aided districts acquire territory from the state-aided district, the Controller shall determine the formulae for apportioning liability for the annual repayment between the districts affected (including the formulae for determining what assessed valuations shall be used within the affected districts or territories withdrawn, and the dates of determination thereof), as will in his or her opinion best comply with the principles set forth above, irrespective of whether the formulae are in literal compliance therewith. The same percentage of annual repayment for which a district is liable at the time the liability apportionment is made shall (unless and until the liability apportionment is subsequently changed pursuant to this paragraph) be deemed applicable to the liability of the district for the balance (as of the date the liability apportionment is made) due on the final apportionment to the state-aided district. The liability for the balance shall, with respect to any affected district, be hereinafter referred to as the "maximum" for the district.

(4) It is the intent of the Legislature that the foregoing "maximums" shall be applied by the Controller both retroactively and prospectively, provided that as a result of the application (1) no cash refund shall be made to any district; (2) in the event any district has, in the past, paid an amount greater than its "maximum," assuming this paragraph and others to which it is referable had been in effect at that time, the excess shall be credited by the Controller against any apportionment balances for which the district is or may hereafter become liable; and (3) the Controller shall make retroactively any adjustments in the amounts due from any other district by virtue of any adjustments made under (2) above. Notwithstanding the foregoing, any computations required to be made pursuant to this paragraph shall not be reflected in any changes in deductions required to be made pursuant to Section 16080 prior to January 1, 1966.

If any subdivision, clause, sentence, or phrase of this section is for any reason held to be unconstitutional the decision shall not affect the validity of the remaining portions of this section. The Legislature hereby declares that it would have adopted this section and each subdivision, sentence, clause, or phrase thereof irrespective of the fact that any one or more subdivisions, clauses, sentences, or phrases be declared unconstitutional.

16164. Whenever, subsequent to the date on which a conditional apportionment becomes final, any territory is withdrawn from a non-state-aided district and annexed to the state-aided district, the

assessed valuation in the territory so annexed shall be included with the valuation of the state-aided district for the purposes of making the computations provided by Sections 16070 to 16075, inclusive.

16165. The Controller shall compute, in accordance with Sections 16161, 16163 and 16164, the amount of the annual repayment due the state on account of the apportionment or apportionments to each state-aided district and shall deduct from the respective apportionments made from the State School Fund under Sections 46304, 46305, and 92 or 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, to the state-aided district and an acquiring district the portion thereof for which each is liable under this article (Sections 16150 to 16166, inclusive).

16166. When, after any application is filed, the applicant district is annexed to, or, by change of boundaries or otherwise, is included in whole or in part in another district or districts, the superintendent of schools of the county having jurisdiction over the applicant district shall, within 10 days after the effective date of the annexation, inclusion, or change of boundaries, file a certificate with the board, in writing, in the form that the board shall prescribe, setting forth (1) the effective date of the annexation, inclusion, or change of boundaries; (2) identification of the area of the school district affected by the change and the name of the school district or districts in which the area is included as a result thereof; and (3) any additional information in any form that the board may require.

The board shall, upon receiving the appropriate certificate from a county superintendent of schools as provided herein, promptly notify the State Controller, in writing, of (1) the effective date of annexation or other inclusion of a state-aided district by an acquiring district; (2) the name of the state-aided district; (3) the name of the acquiring district; and (4) the number and other identification of the apportionment affected.

Article 3. School Housing Aid for Exceptional Children

16190. The board may make apportionments from any sum appropriated by the Legislature at the 1952 Second Extraordinary Session and from any state bonds heretofore or hereafter authorized by the electorate for state school building aid, including the proceeds of bonds authorized by Section 2 of Article XVI of the California Constitution, for assistance to school districts in providing necessary housing and equipment for the education of exceptional children. All the provisions of Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter, except Sections 16007 and 16044, shall apply to this article unless otherwise provided herein.

16191. As used in this article, "exceptional children" means physically handicapped pupils, mentally retarded pupils, educationally handicapped pupils, multihandicapped pupils, or

pupils enrolled in development centers for the handicapped required or allowed to be educated pursuant to Part 30 (commencing with Section 56000).

16192. Allocations under this article for assistance to school districts in providing necessary housing and equipment for the education of pupils enrolled or to be enrolled in development centers for the handicapped may be made only to those school districts that are authorized to operate development centers pursuant to Article 1 (commencing with Section 56800) of Chapter 6 of Part 30, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976.

16193. The State Allocation Board, in cooperation with the State Department of Education, shall develop standards to be complied with in the construction of housing facilities for development centers for the handicapped with allowances provided pursuant to this article.

16194. The State Allocation Board shall establish guidelines and procedures to be utilized in determining the eligibility of school districts for allowances provided pursuant to this article with respect to facilities and equipment for the education of pupils enrolled in development centers for the handicapped. The guidelines and procedures shall provide that in order to be eligible to receive the allowance the school district has no existing facilities which could be utilized for a development center for the handicapped.

16195. Allocations under this article may be made in the amount as may be necessary, and in the manner as to distribute the available funds equitably among school districts, giving consideration to the needs of each district and the number of children within each district who are blind, partially seeing, aphasic, deaf, hard of hearing, mentally retarded, or orthopedic or who are health impaired, multihandicapped, speech handicapped, educationally handicapped, or enrolled in development centers for the handicapped.

In computing the number of those children, there shall be included all of the following:

(a) The number of them residing in the district.

(b) The number of handicapped minors who are actually living within the district five or more days a week, although their legal residence may be outside the district and who are educated pursuant to Section 56708, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976.

(c) The number of them who reside outside of the district, except those described in subdivision (b), and who are to be educated by the district, excluding mentally retarded minors within Section 56501, as amended by Section 58 of Chapter 1247 of the Statutes of 1977, who reside within a district having an average daily attendance of 900 or more and which does not meet the requirements of Section 16058 concerning outstanding bonded indebtedness.

Allocations for housing and equipment for minors having speech defects or disorders shall be allowed in new schools constructed after July 1, 1968, and in existing schools constructed between July 1, 1933, and July 1, 1968. The housing and equipment shall be designed and provided to permit their utilization for remedial and other special services including speech therapy, speech reading (lipreading), and auditory training for the speech and hearing handicapped, screening and testing for speech and hearing defects, or both, psychological testing of exceptional children, subject matter tutoring of exceptional children, and other specialized activities required by these children. In addition to the maximum building area allowances provided in Sections 16047, 16052, 16053, and 16054, not more than an additional 200 square feet of building area shall be allowed for each new school so planned and constructed.

Each existing school, constructed between July 1, 1933, and July 1, 1968, shall be allowed not more than an additional 200 square feet of building area only for construction thereon of a new speech facility. At the option of the applicant district, the board may allocate funds to convert existing facilities or to provide a combination of new construction and conversion of existing facilities to provide housing for minors having speech defects or disorders, provided the cost of the conversion or combination of new construction and conversion does not exceed the computed cost for 200 square feet of new classroom construction based upon cost standards adopted by the board. At the further option of the applicant district, and in lieu of new building construction or conversion, the board may allocate funds for the acquisition of mobile speech therapy facilities, provided the cost of the mobile facilities does not exceed the combined computed cost for 200 square feet of new classroom construction, based upon cost standards adopted by the board, at all schools which will be served by the mobile facility.

16196. Notwithstanding any provisions of this article to the contrary, apportionments for the construction of facilities and the purchase of essential furniture and equipment for the education of exceptional children may, subject to the approval of the State Department of Education, be made to any school districts not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter, for the education of blind, partially seeing, aphasic, deaf, hard-of-hearing, mentally retarded, orthopedic or other health-impaired, multihandicapped, and educationally handicapped minors, pupils having speech defects or disorders, or pupils enrolled in development centers for the handicapped.

The State Department of Education may approve applications in those situations where the facilities will be used by a county superintendent of schools required to educate physically handicapped minors pursuant to Section 1850, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976, and mentally retarded

minors pursuant to Section 1880, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976. A school district may educate these minors by agreement with a county superintendent of schools required to educate these minors. Priority in the use of the facilities shall be given to pupils from districts other than the applicant district.

Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid. Repayments shall be made in the following manner: Fifty percent of the amount of the apportionment shall be repaid in full with interest by the district, in the annual amounts and at the interest rate over the period as the State Allocation Board may determine, not to exceed 20 years from the date the apportionment became final. In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by the facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if the district had been required to repay 100 percent of the apportionment over that period.

The county board of supervisors of the county whose superintendent of schools conducts classes in the facility during any fiscal year shall at that time or times within the fiscal year that may be agreed upon between the county and the school district, but in any case not later than the end of the fiscal year, pay to the school district having the obligation to repay the apportionment made under this section for the construction of the facility, an amount equal to 80 percent of the amount the district is required to repay in the fiscal year with respect to the apportionment described above.

The county board of supervisors shall raise the amount required through a general tax levy on the property within the participating districts, or through a tuition charge not to exceed one hundred sixty dollars ($160) a year per pupil by the county superintendent of schools to the school districts of residence of pupils attending the facility other than the district having the obligation to repay, or through a combination of these.

The county superintendent of schools shall notify the county board of supervisors of his or her intention to approve a school district's application for an allocation under this article before he or she approves the application.

16197. Notwithstanding any other provisions of this article to the contrary, apportionments for the purchase of mobile classrooms for the education of physically handicapped pupils enrolled in integrated programs, as set forth in Section 56702, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976, and for the education and therapy of speech-handicapped pupils may, subject to the approval of the State Department of Education, be made to any school district not otherwise eligible to receive apportionments

under Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) for that purpose.

The State Department of Education may approve applications in those situations where mobile classrooms will be used by a county superintendent of schools required to educate physically handicapped minors pursuant to Sections 1850 and 56701, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976. Mobile classrooms shall be used pursuant to an agreement authorized by Section 41308.

Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid. Repayments shall be made in the following manner: Fifty percent of the amount of the apportionment shall be repaid in full with interest by the district, in annual amounts and at an interest rate over the period as the State Allocation Board may determine, not to exceed 20 years from the date the apportionment became final. In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by the facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if the district had been required to repay 100 percent of the apportionment over that period.

The county board of supervisors of the county whose superintendent of schools uses mobile classrooms during any fiscal year shall at the time or times within the fiscal year as may be agreed upon between the county and the school district, but in any case not later than the end of the fiscal year, pay to the school district having the obligation to repay the apportionment made under this section for the purchase of mobile classrooms, an amount equal to 100 percent of the amount the district is required to repay in the fiscal year with respect to the apportionment described above.

The county board of supervisors shall raise the amount required through a general tax levy on the property within the participating districts, or through a tuition charge not to exceed one hundred sixty dollars ($160) a year per pupil by the county superintendent of schools to the school districts of residence of pupils attending the facility including the district having the obligation to repay, or through a combination of these.

The county superintendent of schools shall notify the county board of supervisors of his or her intention to approve a school district's application for an allocation under this article before he or she approves the application.

The State Department of Education shall prepare specifications or regulations for the construction of mobile classrooms to provide for a useful life of no less than 20 years.

The use of mobile classrooms shall meet specifications described by the State Department of Education as they relate to the needs of the

physically handicapped pupils being served, as set forth in Section 56701, as enacted by Section 2 Chapter 1010 of the Statutes of 1976.

16198. Notwithstanding any provision of law to the contrary, the board shall control the amount of apportionments made for facilities for exceptional children. In so controlling these apportionments the board shall establish allowable building areas and cost standards comparable to the building areas and costs of similar facilities constructed by school districts which are not applicants under this chapter.

16199. The State Department of Education may accept applications by school districts for the construction of facilities and the purchase of essential furniture and equipment, under a pilot project to maintain regional programs for physically exceptional children.

The Superintendent of Public Instruction shall establish standards with respect to the regional programs for the pilot project which shall include, among other things, the curriculum to be offered, the area to be served, and the supervision and instruction with respect to the programs. Of the school district applicants which meet the standards established, the State Department of Education may designate not more than four school districts to receive apportionments as part of the pilot project to maintain regional programs for physically exceptional children.

The pilot project pursuant to this act shall begin with the 1972–1973 school year and shall terminate at the end of the 1974–1975 school year. The State Department of Education shall provide for state evaluation of the pilot project.

With respect to school districts selected as part of the pilot project, the State Allocation Board may approve applications and make apportionments pursuant to Section 16196, notwithstanding that the school district is serving a district or districts with an average daily attendance in excess of 8,000.

In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by the facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if the district had been required to repay 100 percent of the apportionment over that period.

The districts participating in a pilot project may include in interdistrict attendance agreements the cost of making repayments in the same proportion to the total repayment as the number of pupils enrolled from each district bears to the total number of pupils enrolled.

16200. Notwithstanding any provisions of this article to the contrary, the board may make apportionments to school districts not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000) and Article 2 (commencing with

Section 16150) for the construction of special education facilities and the purchase of essential furniture and equipment for the purpose of either or both (1) educating those physically handicapped, mentally retarded, and educationally handicapped pupils who regularly reside in an established, licensed children's institution or family home and are being educated pursuant to Section 42902, as amended by Section 1 of Chapter 1173 of the Statutes of 1977, and (2) educating handicapped pupils in development centers for handicapped pupils pursuant to Article 1 (commencing with Section 56800) of Chapter 6 of Part 30, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976.

Only 50 percent of any amounts allocated and disbursed to a district under this section shall be repaid by the district. Each disbursement shall be repaid in 20 equal annual installments, including interest as determined by the board, and shall be computed and withheld by the Controller. The first computation of repayment of any disbursement shall be made in the fiscal year following the disbursement and shall during the next fiscal year be deducted in equal amounts from the February, March, April, and May installments of the apportionment made to the district from the State School Fund under Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive.

16201. Notwithstanding the provisions of Article 1 (commencing with Section 16000) and Article 2 (commencing with Section 16150) of this chapter, the obligation of any district receiving an apportionment under this article to repay the apportionment shall not extend to more than one-half of the amount of the apportionment.

16202. With the approval of the county superintendent of schools, a school district may make application for an allocation under this article. Facilities for which an apportionment is made under this section shall be made available for use by the county superintendent of schools until he or she ceases to conduct the classes therein or until the superintendent of schools of a county other than the county whose superintendent of schools approved the application made under this section acquires jurisdiction over the location of the facility, whichever first occurs. Not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid. Repayments shall be made in the following manner: Ten percent of the amount of the apportionment shall be subject to repayment by the district to the extent, and in the manner prescribed in Article 1 (commencing with Section 16000) of this chapter for apportionments other than those made pursuant to Section 16039. Forty percent of the amount of the apportionment shall be repaid in full with interest by the district, in the annual amounts and over the period as the board may determine, not to exceed 20 years from the date the apportionment became final. The county board of supervisors of the county whose superintendent of schools conducts

classes in the facility during any fiscal year shall at the time or times within the fiscal year as may be agreed upon between the county and the school district, but in any case not later than the end of the fiscal year, pay to the school district having the obligation to repay the apportionment made under this section for the construction of the facility, an amount equal to the amount the district is required to repay in that fiscal year with respect to the 40 percent of the amount of the apportionment described above.

The county board of supervisors may raise the amount required through a general tax levy or through a tuition charge not to exceed one hundred sixty dollars ($160) a year per pupil by the county superintendent of schools to the school districts of residence of pupils attending the facility other than the district having the obligation to repay or through a combination of these.

Upon application of a school district and written approval of the county superintendent of schools the board may amend any apportionment previously received by a district for exceptional children by providing that the same shall be deemed to have been made with reference to this section, in which event all the incidents of this section shall be deemed applicable thereto, except that only the unpaid balance of the apportionment at the time of the amendment of the apportionment with interest accrued to that date shall be repaid as prescribed in this section.

The county superintendent of schools shall notify the county board of supervisors of his or her intention to approve a school district's application for an allocation under this article before he approves the application.

16203. Not later than July 10th of each year the county superintendent of schools of each county in which there is a school district maintaining facilities for the education of exceptional children which have been constructed with funds apportioned to the district under this article shall certify to the board of supervisors and to the county auditor of the county the total number of units of average daily attendance of pupils enrolled in the facilities during the next preceding fiscal year who reside in a district other than the district maintaining the facilities. On or before July 10th of each year the county superintendent of schools shall notify the governing board of each affected school district of the total number of units of average daily attendance of pupils residing in that district who were in attendance at the facilities maintained by another district.

16204. On or before July 20th of each year, the governing board of a school district which has received a notification pursuant to Section 16203, shall determine, and notify the county board of supervisors and the county auditor, whether the amounts required to be paid on behalf of the district under Section 16207 shall be provided from the general fund of the district or by a special district tax levied by the county board of supervisors.

In the event that the district notification specifies that the amounts so required shall be provided by a special district tax, or if no notification is made, the board of supervisors with whom the certificate prescribed by Section 16203 is filed shall, at the time of making the tax levy for that year for county purposes, levy a special tax upon all taxable property in the district of residence of each pupil enrolled in the facilities other than the district maintaining the facilities, sufficient in amount to raise, for the use of the facilities, the sum of one hundred sixty dollars ($160) per unit of average daily attendance, less any amounts per unit of the average daily attendance remaining in the county school building aid fund from levies and collections made in any prior year and not paid to the state pursuant to Section 16207.

16205. If the board of supervisors fails to make a district tax levy required under Section 16204, the auditor shall make the levy.

In the event the governing board of a school district has elected to provide from the district general fund the amounts required to be paid on behalf of the district from the county school building aid fund under Section 16207, the county superintendent of schools shall order the payment to be made in the amount required from the general fund of the district.

16206. In the event that the governing board of a school district determines, subject to the approval of the county superintendent of schools, that the amounts collected within the district by special taxes levied pursuant to Section 16204 or Section 16205 and credited to the district in the county school building aid fund are substantially in excess of amounts required of the district for purposes of Section 16207 for the ensuing three-year period, the county superintendent may order the payment to the district from the county school building aid fund of so much of the excess moneys that he or she may deem appropriate.

16207. The county auditor shall, not later than the last Monday in December and the last Monday in May of each year, notify the superintendent of schools of the amount in the county school building aid fund. Thereupon the superintendent shall draw his or her order on the county auditor in favor of the Treasurer for the amount in the county school building aid fund of the county, except that the total of the orders for any year may be limited to an amount not to exceed the total of one hundred sixty dollars ($160) for each unit of average daily attendance during the next preceding fiscal year of students residing in a district other than a district maintaining the facilities. The amount shall be paid by the county treasurer and, upon order of the Controller, shall be deposited in the State Treasury to the credit of the State School Building Aid Fund. All money paid to the State School Building Aid Fund under the provisions of this section shall be available only for transfer to the General Fund under Section 16403, as amended by Section 2 of Chapter 1373 of the Statutes of 1992, and

shall be credited to the repayment of the apportionment of funds to the school district maintaining the facilities.

Article 4. School Housing Aid for Compensatory Education Purposes

16210. Not to exceed thirty-five million dollars ($35,000,000) of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 may be expended pursuant to this article as grants to assist school districts.

Allocations and grants under this article shall be made by the State Allocation Board, upon application of an eligible school district, for the purposes and projects designated by the district and approved by the Director of Compensatory Education. The purposes and projects shall be provided for pupils in any kindergarten or any of grades 1 to 9, inclusive, and for children participating in preschool programs. The Director of Compensatory Education may establish priorities for purposes of allocations and grants under this article based upon comparative needs of school districts and the urgency thereof. No interest shall be charged to a school district for an allocation or grant made under this article to the school district.

16211. Grants may be made pursuant to this article to districts which have been determined to be eligible for an apportionment under Article 5 (commencing with Section 54480) of Chapter 4 of Part 29, or districts maintaining schools for kindergarten, or any of grades 1 to 6, inclusive, in areas designated pursuant to Section 54482 which have reduced the number of pupils to full-time equivalent classroom teachers in kindergarten and any of grades 1 to 6, inclusive, in those schools to a ratio of 25 to 1, or better. The grants shall be made for the purposes, and subject to the conditions, following:

For expenditure by the district in areas designated pursuant to Section 54482 for any of the following:

(a) Acquisition, by purchase or lease, and the installation and equipping of portable classrooms for classroom instructional purposes.

(b) Acquisition of land for schoolsites.

(c) Construction and equipping of permanent school buildings and facilities.

(d) Reconstruction, renovation or remodeling of existing school buildings and facilities.

(e) Any combination of the above.

16212. In lieu of grants to districts pursuant to subdivision (a) of Section 16211 for the purpose of acquisition of portable buildings or other facilities and equipment, the board may expend moneys available for grants under this article for the acquisition of portable buildings and facilities and equipment by the state, and thereafter convey the same to the eligible districts. The conveyance to eligible

districts may take the form of sale, lease, outright grant, or other suitable form of conveyance, as determined by the board.

16213. In formulating recommendations to the board under this article, the State Department of Education, through the Director of Compensatory Education, shall be subject to standards established by rules and regulations of the State Board of Education.

16214. For each school district which receives a grant or allocation pursuant to this article, commencing with the fiscal year next succeeding the fiscal year in which the grant or allocation was received, and for each fiscal year thereafter, the Controller shall compute an amount equal to one cent ($0.01) on each one hundred dollars ($100) of the assessed valuation of property within the district. The Controller shall, during the next fiscal year following that in which he or she makes the computation pursuant to the preceding sentence of this section, deduct the amount so computed in equal amounts from each of the February, March, April, and May installments of the apportionments made to the district from the State School Fund under Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive; and, on order of the Controller, the amount so deducted shall be transferred to the State School Building Aid Fund. All money transferred to the State School Building Aid Fund under this section shall be available only for transfer to the General Fund under Section 17204, as enacted by Section 2 of Chapter 1010 of the Statutes of 1978.

The Controller shall make the computations and deductions required by this section for 30 fiscal years or until the time as the total of the amounts so deducted equal 50 percent of the amount of the grant or allocation which was made to the school district, whichever first occurs.

Notwithstanding any provision of law to the contrary, for each fiscal year for which a computation is made pursuant to the section, the maximum rate of school district tax for the school district for which the computation is made shall be increased by one cent ($0.01) per each one hundred dollars ($100) of the assessed value of property within the district and shall be in addition to any amount of tax otherwise authorized to be levied, and amounts raised through the levy of the tax may be used to offset any reduction in equalization aid resulting from the deductions made pursuant to this section.

The increase in the maximum school district tax provided by this section shall be deemed to be for bonded debt service or current capital construction. If the one cent ($0.01) rate of school district tax levied by the district causes the tax levied by the district for bonded debt service and for current capital construction in the same year to exceed the forty-cent ($0.40) tax amount, as that term is defined by Section 16070 or 16071, whichever is applicable, for each grade level maintained by the district, the Controller shall not make the deduction otherwise required by this section for the fiscal year.

16215. Sections 16000 to 16006, inclusive, Sections 16009, 16018, and 16021, and Sections 16091 to 16100, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise.

Article 5. School Housing Aid for Districts Impacted by Seasonal Agricultural Employment

16230. Not to exceed one million five hundred thousand dollars ($1,500,000) of the amount of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966 which are reserved pursuant to Section 17214, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976, may be expended pursuant to this article.

Nothing in this article shall be construed to sanction, perpetuate or promote the racial or ethnic segregation, or the segregation by economic class, of pupils in the public schools.

The funds shall be expended by the State Allocation Board, for the acquisition of portable school and classroom buildings, and for the expenses incurred in the administration of this article.

The portable school and classroom buildings may be made available by the board, upon the recommendation of the Director of Compensatory Education, to any school district which, because of the influx for temporary periods in the school year of large numbers of persons employed in seasonal agricultural work, experiences emergency increases in school enrollments of such magnitude as to make it impossible or impractical to accommodate the additional pupils in existing school buildings and facilities available to the district.

16231. The portable school and classroom buildings acquired pursuant to this article shall be made available to a school district irrespective of whether the district is otherwise in receipt of or eligible for assistance under any other provisions of this chapter.

The use of the portable school and classroom buildings may be made available to a school district by letting the same to the district free of charge, or by lease, or by conveying the same to the district under lease-purchase agreement, sale, or outright grant, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education. In addition the use of the portable school and classroom buildings may be made available to a school district by any of the means specified by Section 16041, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education.

16232. The use of the portable school and classroom buildings under this article shall be based upon application therefor submitted by the governing board of the school district to the Director of Compensatory Education, who shall review the same, make any modifications he or she deems appropriate, and transmit the

approved application to the State Allocation Board with his or her recommendations as to the action to be taken thereon.

16233. If at any time the State Allocation Board shall determine that the need of the district for particular portable buildings which are made available to the district pursuant to this article has ceased, the board may take possession of the buildings on behalf of the state, and may dispose of the buildings to public or private parties in any manner and under any terms that it deems to be in the best interests of the state.

16234. Sections 16000 to 16006, inclusive, Sections 16009, 16018, and 16021, and Sections 16091 to 16100, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise.

16235. All moneys received from the rental, lease, or sale of portable school and classroom buildings pursuant to this article shall be deposited in the State Treasury and, on order of the Controller, shall be credited to and in augmentation of the appropriation made by Section 16230.

All moneys shall be available without regard to fiscal years for repairing, renovating, installing, moving, or maintaining the buildings or for acquiring additional portable school and classroom buildings for the purposes of this article.

Article 6. School Housing Aid for a Regional Occupational Center

16250. Not to exceed two million four hundred twelve thousand two hundred thirty-three dollars and forty-nine cents ($2,412,233.49) of the amount of the proceeds of bonds issued under the State School Building Aid Law of 1966 may be expended pursuant to this article. The funds shall be allocated by the State Allocation Board to a joint powers board of education for the construction of a permanent campus for a newly created regional occupation center school to be located in the south bay area of Los Angeles County, having a population in excess of 1,070,000, and a potential average daily attendance in excess of 10,000 persons. Not to exceed four hundred thousand dollars ($400,000) of such sum shall be allocated and expended for architectural and engineering services in connection with the construction.

Sections 16000 to 16006, inclusive, Sections 16009, 16018 and 16021, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board requires otherwise.

16251. The allocation of funds to the entity pursuant to this article shall be conditioned upon the prior approval of the proposed facilities and subject matter of the educational program by the Superintendent of Public Instruction.

16252. It is the intent of the Legislature in enacting this article to finance the capital expenditures involved in the construction,

equipping, and establishment, to serve an area in great need of occupational preparation, of a regional occupational center school to be maintained by a Joint Powers Board of Education and entity. It is the further intent of the Legislature to improve the employment opportunities of persons residing in areas of need for the training, by providing educational programs of a nature that will serve the social and economic needs of that area. The program will also serve to upgrade the cultural and intellectual as well as the economic life of the area to be served.

The Legislature finds that the federal government has made available in the south bay area of Los Angeles County land to be used for a regional occupation center school, provided a permanent campus can be established on the land within 18 months. For this reason, it is essential that the money made available for purposes of this article be allocated to the establishment of a permanent campus for a regional occupational center school in the south bay area of Los Angeles County.

16253. (a) Any amounts allocated and disbursed to the Joint Powers Board of Education and entity pursuant to this article shall be a loan by the state to the entity and shall be fully repaid by the entity to the state within 10 years after the date of disbursement to the entity. Interest shall be paid at a rate determined by the board. Any loan shall be repaid by the entity from proceeds of a tax under provisions of Section 52317, as amended by Section 1 of Chapter 267 of the Statutes of 1977, for sites, buildings and equipment, by a maximum tax levy of the assessed valuation of the entity not to exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation in that entity.

(b) The annual repayment shall be determined by agreement between the Director of Finance and the Superintendent of Public Instruction. The tax revenue referred to in subdivision (a) above shall be transferred by the County Auditor of Los Angeles County to the General Fund of the state in accordance with established regulations and procedures.

Article 7. Children's Center Construction Law of 1968

16260. This article shall be known as the Children's Center Construction Law of 1968.

16261. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to school districts and to county superintendents of schools for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers.

In enacting this article, the Legislature considers that the greatest need is to provide children's center facilities for the education and care of children during the time the sole parent is at work making the family economically self-sufficient, or is in school or in training to gain economic self-responsibility. The Legislature recognizes the need to encourage the provision of additional children's center facilities to permit more families to become economically self-sufficient.

16262. The following terms, whether used or referred to in this article, have the following meanings, unless a different meaning clearly appears from the context:

(a) "Local agency" means a school district or a county superintendent of schools operating or authorized to operate a children's center pursuant to this chapter.

(b) "Board" means the State Allocation Board.

(c) "Project" means the purposes for which a local agency has applied for assistance. A project may include the acquisition and improvement of sites, the planning and construction of permanent facilities, and the acquisition of equipment for children's centers.

(d) "Construction of facilities" means construction of permanent facilities which may include leased portable buildings.

16263. This article shall be administered by the State Allocation Board. The board shall adopt any rules and regulations that it deems necessary to carry out the purposes of this article. The rules and regulations of the board shall establish a system of priorities to determine the relative necessity to establish children's center facilities by a local agency. In establishing priorities with regard to the outlay of capital funds for the construction of new children's centers, or with regard to the rental or leasing of facilities for new centers, the board shall give special consideration to school districts as described under subdivision (a) of Section 54425 which are also certified by the State Department of Health as containing substantial numbers of families who are recipients of aid to families with dependent children or who are former or potential recipients of the aid and who might reasonably be expected to improve their ability to be self-supporting if child care services are made available. The Department of Benefit Payments shall provide the State Department of Health with any information in its possession necessary for the administration of this section.

16264. No local agency shall receive an initial allocation from any appropriation made for the purposes of this article more than an amount to be known as the local agency entitlement. This amount shall be computed as follows:

(a) Determine the percentage that the amount apportioned to the local agency in the previous fiscal year for operation purposes pursuant to Section 8380, as amended by Section ____ of Chapter _____ of the Statutes of _____, bears to the total amount allocated to all local agencies under the same section.

(b) Determine the percentage that the statewide modified assessed valuation per average daily attendance for the grade level involved in the previous fiscal year bears to the assessed valuation per unit of average daily attendance of the local agency. Local agencies other than school districts shall use a percentage of 1.00.

(c) Determine the local agency eligibility factor by multiplying the percentage derived in (a) by that derived in (b).

(d) Determine the local agency entitlement by multiplying the district eligibility factor derived in (c) by the amount appropriated for this purpose.

Amounts of the appropriation initially unallocated may be allocated subsequently without regard to the limitation of the local agency entitlement. Amounts of local agency entitlement not applied for within 90 days of the notification of entitlement, and amounts approved pursuant to Section 16268 but not allocated pursuant to Section 16269, and not made available on an extended basis after one year from the date of the original approval, may also be allocated without regard to the limitation of local agency entitlement.

16265. Any local agency operating or authorized to operate a children's center may apply for assistance under this article to undertake one or more projects. Any local agency not operating a children's center in the prior fiscal year shall have its eligibility and other factors determined by a method similar to that in Section 16264. Reasonable estimates may be used.

16266. Applications for assistance under this article shall be made on forms prescribed and furnished by the board. The applications shall include, but not be limited to, all of the following data and information:

(a) An outline and general description of the project to be undertaken.

(b) An estimate of the cost of the project to be undertaken and the anticipated source of funds to complete the project.

(c) The estimated number of children to be served by the project.

(d) The waiting list of the local agency for children's centers.

(e) The amount expended by the local agency from local sources during the past five years for the provision of children's center facilities.

16267. Not more than 25 percent of any funds available under this article for allocation to local agencies under this article shall be allocated for the reconstruction or rehabilitation of existing children's center facilities. Not less than 75 percent of the funds shall be allocated for the planning and construction of new permanent facilities, including acquisition and improvement of sites and acquisition of equipment for the facilities.

16268. The board shall notify a local agency when a preliminary approval of project has been given, and shall reserve from the appropriation made a sum in the amount of the approval given.

16269. Funds allocated for a project shall be disbursed to the local agency upon certification to the Controller when the executive officer of the board has determined both of the following:

(a) All required approvals of the projects have been granted.

(b) The local agency has subsequent to the effective date of this section, committed the expenditure through the granting of a contract or the authorization of an agreement which requires the payment of funds.

16270. In administering this article, the board shall approve the application. The executive officer of the board shall (a) prescribe and furnish application forms and (b) certify to the Controller the allocation of funds to which a local agency is eligible.

16271. All sites, plans, and specifications of the proposed facilities shall be approved by the State Department of Education. Prior to the approval, the local agency shall certify to the State Department of Education the unavailability of adequate, alternate facilities in the area to be served by the proposed facilities. The facilities shall include but not be limited to vacant classrooms, auditoriums, multipurpose rooms, church or recreation facilities.

16272. For each one dollar ($1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for the project in an amount which bears the same percentage to the one dollar ($1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies. Local agencies other than school districts shall use a percentage of 1.00.

Article 7.5. Regional Occupational Center of Kern

16280. Not to exceed six million dollars ($6,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1974 shall be allocated by the State Allocation Board to the Regional Occupational Center of Kern for the construction and equipping of a new regional occupational center to be located in Kern County. The funds shall be available for allocation to the entity for a period of not more than four years from the effective date of this article and during such period the entity shall apply for the funds as are necessary to accomplish the purposes of this article. Funds shall be expended after the four-year period with respect to allocations made during the four-year period.

Only Sections 16000, 16001, 16003, 16005, and 16006, and Sections 16009, 16018, 16019, 16021, 16089, 16093, 16094, 16097, and 16099 of Article 1 (commencing with Section 16000) of this chapter shall be applicable to the administration of this article unless the context of this article as determined by the State Allocation Board requires otherwise.

16281. The Legislature finds that the Regional Occupational Center of Kern is comprised of three school districts in Kern County and it provides vocational training in areas of social and economic need. The Legislature further finds that the entity is in need of school building facilities and the participating school districts have levied the permissive override tax authorized by Education Code Section 52317 to meet the cost of that construction. Inflation dictates that construction must begin at the earliest possible time to minimize the overall cost. The Legislature intends, therefore, in enacting this article to make available the necessary funds for immediate construction of the needed school facilities. The Legislature intends, however, that the funds shall be paid back in full with interest as provided by this article so that the taxpayers of this state shall not be required to pay for the support of the facilities.

16282. Any amounts allocated and disbursed to the Regional Occupational Center of Kern pursuant to this article shall be fully repaid with interest by the entity to the state in 20 equal annual payments commencing with the second fiscal year after the date of disbursement to the entity. Interest shall be paid at a rate determined by the State Allocation Board. Amounts allocated pursuant to this article shall be repaid by the entity from the proceeds of the tax levied by the participating school districts pursuant to Section 52317 and the payments shall be transferred by the County Auditor of Kern County to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

16283. If at the time of considering the entity's application the State Allocation Board determines that the revenue to be received from the tax permitted by Section 52317 will be insufficient to pay the principal and interest of the loan in 20 equal annual payments, the board shall approve the application and allocate the funds therefor only upon condition that an election be called by the governing board of the entity and that two-thirds of the qualified electors of the entity voting on a proposition therefor, authorize the governing board to accept, expend and repay as provided in this article the allocation or apportionment. The election shall be called, held, and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words:

"Shall the Governing Board of the Regional Occupational Center of Kern, for the purpose of providing permanent facilities for a regional occupational center, be authorized to accept, expend, and repay an apportionment from the State of California under and subject to the provisions of Article 7.5 (commencing with Section 16280) of Chapter 8, Part 10, Division 1, Title 1 of the Education Code, in an amount not to exceed $_____. Yes____

No____"

16284. On or before the first day of January of each fiscal year the Controller shall determine the annual repayment due.

Article 8. School Housing Aid for a Regional Occupational Center in San Joaquin County

16300. Not to exceed two million dollars ($2,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966 shall be expended pursuant to this article. The funds shall be expended under the administrative direction of the State Allocation Board in cooperation with the Board of Education of the Stockton Unified School District for the construction of a permanent campus for a newly created regional occupational center school to be located in San Joaquin County. Not to exceed two hundred fifty thousand dollars ($250,000) of the sum shall be allocated and expended for architectural and engineering services in connection with the construction.

Sections 16000 to 16006, inclusive, and Sections 16009, 16018 and 16021, shall be applicable to the administration of this article, unless the context of this article, as determined by the board, requires otherwise. Except to the extent and for the purposes expressly provided herein, the provisions of other articles in this chapter shall not be applicable hereto.

16301. (a) It is the intent of the Legislature in enacting this article to finance the capital expenditures involved in the construction, equipping, and establishment of a regional occupational center to be maintained by the Stockton Unified School District, to serve an area in great need of occupational preparation. It is the further intent of the Legislature, by this article, to improve the employment opportunities of persons residing in areas of need for the training by providing educational programs of a nature that will serve the social and economic needs of that area. The program provided will also serve to upgrade the cultural and intellectual life, as well as the economic life, of the area to be served.

(b) The governing board of any school district maintaining a high school may, pursuant to Section 52301, cooperate with the Stockton Unified School District in the establishment and maintenance of the regional occupational center.

(c) In conjunction with the regional occupational center, regional occupational programs may be established in the Stockton Unified School District and in participating school districts.

(d) The cooperation in the establishment and maintenance of a regional occupational center pursuant to subdivision (b) and the establishment and maintenance of regional occupational programs pursuant to subdivision (c), may be undertaken pursuant to Article

1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code.

(e) Notwithstanding subdivisions (b), (c), and (d), the Stockton Unified School District has the sole duty to the state to operate and manage the regional occupational center and any regional occupational program authorized by this article.

(f) The amount computed for the Stockton Unified School District pursuant to subdivision (a) of Section 42233 shall be deemed to have been increased by the amount raised within the Stockton Unified School District for the support of a regional occupational center and program, except capital outlay expenditures, maintained during the 1972–73 fiscal year by the county superintendents of schools. The other computations required by Article 2 (commencing with Section 42230) of Chapter 7 of Part 24 shall be adjusted to appropriately reflect the increase. The revenue limit applicable to the county superintendent of schools shall be reduced by an amount equal to the increase in the revenue limit of the Stockton Unified School District made pursuant to this subdivision.

Article 9. School Housing Aid for Rehabilitation and Replacement of Structurally Inadequate School Facilities

16310. Not to exceed forty million dollars ($40,000,000) of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 may be expended pursuant to this article.

16311. Not to exceed two hundred fifty million dollars ($250,000,000) of the proceeds of the sale of bonds authorized by the School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972 may be expended pursuant to this article.

16312. The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and the obligation carries with it a corresponding responsibility for the physical safety of children while attending school.

16313. It is the intent of the Legislature in enacting this article to provide a means through repayable state loans for school districts not otherwise eligible for assistance under this chapter (consisting principally of school districts in the urban centers of the state), to house their pupils in facilities that are structurally safe.

16314. The following terms, as used in this article, shall have the following meanings, unless the State Allocation Board finds a different meaning is essential for properly carrying out the purposes of this article, or finds that a different meaning clearly appears from the context:

(a) "Board" means the State Allocation Board as defined in Article 1 (commencing with Section 16000) of this chapter.

(b) "Director" means the Director of Education.

(c) "District" means an elementary, high school, or unified school district.

(d) "Project" means the purposes for which a district has applied for assistance in the rehabilitation or replacement of unsafe school facilities at a given attendance center.

(e) "Apportionment" means an apportionment made under this article, and unless the context otherwise requires, it shall be deemed to include funds of a district required by the board to be contributed toward the cost of a project.

(f) "Attendance center" means a school maintained or to be maintained at a given location within a district.

16315. The State Allocation Board shall administer this article. The Director of General Services shall provide the assistance to the board as it may require.

16316. In addition to any other powers and duties granted to the board by Article 1 (commencing with Section 16000) of this chapter, the board shall:

(a) Establish the qualifications that it deems will best serve the purposes of this article for determining the eligibility of districts to apportionments under this article.

(b) Establish the procedures and policies in connection with the administration of and expenditure of funds made available for the purpose of this article that it deems necessary.

(c) Adopt the rules and regulations for the administration of this article, requiring the procedure, forms, and information as it may deem necessary.

16317. The board, by the adoption of rules, shall give priority in allocating funds to districts which will benefit most from the reconstruction or replacement of schoolhouse facilities. This priority may be based on the age and structural safety of existing buildings at the school or schools where the construction or reconstruction will occur, acuteness of overcrowding and density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served in allocating funds under this article.

16318. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from the disposition shall be contributed in reduction of any apportionment proportionate to the state's participating in the project. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state by any instruments deemed appropriate by the board, title to the property, whereupon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the state, and apply the applicable proceeds therefrom in reduction of apportionments to the

district. The district affected shall do all things deemed necessary by the board to implement the disposition.

16319. Apportionments under this article from the State School Building Aid Fund shall be made for the sole purpose of reconstructing or replacing existing substandard buildings that present a potential threat to the safety of schoolchildren and which do not comply with the requirements of Article 3 (commencing with Section 17280) of Chapter 2 of Part 10.5 or for the purpose of restoring facilities damaged by an earthquake after February 1, 1971, and for which there are no other state or federal funds available for the restoration. The apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes, all of which purposes are declared to be, and are, public works:

(a) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(b) The construction of permanent or temporary school buildings and facilities for replacement purposes.

(c) The acquisition, by purchase or lease, and the installation of classrooms for replacement purposes.

(d) The acquisition and development of schoolsites necessary for construction of buildings approved under this article.

(e) The construction, repair, attachment, or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made.

(f) The acquisition of additional furniture and equipment as is deemed necessary by the board to make the rehabilitated or replaced facilities properly function.

(g) Any combination of the above.

Except as is provided in Section 16320, apportionments shall not be made under this article for the purpose of reconstructing or replacing existing substandard buildings which have already been reconstructed or replaced using funds made available under Chapter 1575 of the Statutes of 1947, as amended, or Chapter 7 (commencing with Section 16500), Chapter 4 (commencing with Section 15700), and Chapter 8 (commencing with Section 16000) of this part.

As a part of the purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction, or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering the insurance. However, in other respects the apportionments are eligible for payment under this chapter.

16320. Notwithstanding the provisions of Section 16319, apportionments under this article from the proceeds of bonds

remaining from the authorization provided in the State School Building Aid Bond Law of 1966 may be made for the purpose of (1) reconstructing or replacing existing substandard school buildings or high school dormitories that present a potential threat to the safety of schoolchildren and which were not previously constructed or reconstructed in accordance with the requirements of Article 3 (commencing with Section 17280) of Chapter 2 of Part 10.5 or which if previously reconstructed to comply with the provisions of Article 3 no longer meet the standards of structural safety prescribed under the authority of Article 3 in effect on April 10, 1933, or (2) reconstructing or replacing existing structures utilized by a school district as school buildings originally designed to house the United States Cavalry and used as World War II prisoner-of-war camp structures or an existing structure utilized by a school district as a school building which was originally designed as a mess facility for the United States Army Air Corps without regard to conditional or provisional structural approvals received by the district with respect to the buildings prior to the enactment of Chapter 500 of the Statutes of 1972.

Apportionments for the reconstruction or replacement of a dormitory shall only be made when the use and occupancy of the dormitory will be by resident pupils of the district who are in attendance at the high school of the district and when in the judgment of the board the pupils cannot be reasonably expected to travel by vehicle to the school on a daily basis.

16321. Notwithstanding the provisions of Section 16319, apportionments under this article from the proceeds of bonds remaining from the authorization provided in the State School Building Aid Bond Law of 1966 may be made for the purpose of replacing school buildings severely damaged by an earthquake in Sonoma County subsequent to September 30, 1969, and subsequently demolished by the school district in the interest of safety to the children, but not yet replaced by permanent facilities.

16321.7. Notwithstanding the provisions of Section 16319, apportionments may be made to a school district for the purpose of replacing an existing substandard building which formerly housed the district's high school, and which was subsequently replaced by a new high school building using an apportionment received under this chapter, but which continued to be used by the district for elementary school purposes from the time of completion of the new high school in the 1958–59 school year until November 1971, when the pupils were transferred from the unsafe school building to temporary structures.

16322. The State Department of Education shall provide the following services to school districts making applications for apportionments under this article:

(a) It shall assist school districts in organizing a comprehensive planning effort. It shall guide a planning process through its

appropriate steps and, when requested by a school district, it shall provide the school district with sources of expertise, either public or private, which may be able to contribute to the development of plans to find solutions for specific problems a school district may have.

(b) It shall provide continuing research in relation to all phases of educational programs and the school facilities that are required to implement these educational programs.

(c) It shall provide a review and evaluation service to school districts to assure the effectiveness of the facilities that have been provided in accommodating educational programs.

(d) It shall provide communication media through publications and seminars, and prepare planning guides and procedures containing recommendations, which guides shall be used to disseminate educational planning information to all school districts.

Unless specifically exempted by the State Allocation Board, each school district which files an application for an apportionment of funds under this article after July 1, 1973, shall prepare and submit to the board either, (1) a long-range comprehensive master plan justifying the application, prepared in accordance with acceptable planning procedures, or (2) a certification to the effect that replacement school buildings for which application has been made will all be located on existing schoolsites containing a school building or buildings, or (3) a certification that the applicant school maintains only one school. Specific information relating to the following factors must be included in the master plan:

(a) A statement of the educational programs and goals of the district in relation to its programs, both current and future.

(b) A comprehensive evaluation and report of the utilization of the school facilities now existing in the district together with preliminary plans of the facilities to be reconstructed or replaced under this article, prepared in accordance with the requirements of Section 17302 or 81138.

(c) A comprehensive demographic study of the district, as it currently exists and as projected into the future.

(d) A policy statement regarding actual or potential human problems.

(e) A policy statement as to the priority in which the district proposes to solve its school housing problems.

(f) A policy statement regarding cooperation with other local public agencies to achieve total community development.

(g) A policy to insure continuous review so that plans will be kept up to date and changing conditions will be reviewed and accommodated by appropriate revision of plans.

The director shall review the long-range master plan and project development plan and shall report his findings and recommendations thereon to the board. The board shall in no instance approve an application or make an apportionment therefor until it has determined to its satisfaction that the facility for which the

apportionment is sought is justified by an appropriate estimate of average daily attendance and location within the district.

16323. Each school district which desires an apportionment shall submit through its governing board to the board an application therefor in the form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment.

Estimates of costs for new construction or equipment appearing in an application shall conform to cost standards adopted by the board under Section 16024.

A school district shall not let any contract for new construction included in an application for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under Section 16024 for the new construction by more than 2 percent or except as otherwise provided in Section 16332. The amount, if any, by which the contract cost exceeds the construction cost standards fixed by the board shall be borne by the school district and shall not be included in the apportionment.

A school district may at any time amend or supplement its application.

Each construction project for which a district applies for an apportionment shall be applied for on a separate application and shall be considered separately by the board. If a district applies for more than one construction project, at the same time or at different times, the priority points of the district shall be recalculated after the approval of each separate construction project and before a subsequent construction project is approved.

The board shall require any changes in the plans which an applicant school district submits with its application that the board determines is necessary or desirable to reduce the cost of the project.

16324. A school district may at any time file an application or amend or supplement an application. Upon receipt of any application, the Director of General Services shall as promptly as possible prepare a report and recommendation with respect to the application after having received recommendations from the director in respect to any matter which is subject to the jurisdiction or approval of the director or State Department of Education. The board shall, subject to the provisions of this article, approve, in whole or in part, or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the State School Building Aid Fund the amount applied for, or any portion thereof that the board may determine appropriate. However, it may order that the apportionment or any part thereof shall be paid in progressive installments at any times and

under any conditions that it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 16327 is favorable and if the county superintendent of schools furnishes a certificate satisfactory to the board certifying that there is on deposit in the state school building fund of the district the amount of district funds which, when added to the apportionment computed under Section 16330, will equal the estimated cost of the project approved under Section 16323.

Unless the board has received the certificates of the county superintendent of schools required by this section within nine months from the date of the conditional apportionment, it shall, at the expiration of the nine-month period, void the conditional apportionment and shall certify this fact to the Controller. Each final apportionment made by the board under this article, shall be certified by it to the Controller who shall from time to time draw his or her warrant on the Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of the final apportionment. The warrant shall be exempt from the provisions of Division 4 (commencing with Section 16100) of Title 2 of the Government Code and shall be paid by the Treasurer from the State School Building Aid Fund.

16325. The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount approved for the application from the State School Building Aid Fund for such portion or portions of the project for which the board determines the district is ready to proceed. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments as it deems appropriate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to any district in an amount equal to the excess even though the additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

16326. The amount of new building area for which an apportionment may be made for the purpose of replacing unsafe school buildings shall be computed in accordance with regulations

adopted by the board. Such regulation shall be based upon the number of units of average daily attendance which were housed in the unsafe buildings being replaced and the building area limitations contained in Sections 16047, 16052, 16053, 16054 and 16055 together with any adjustments necessary to alleviate hardships occurring as a result of only partial replacement of an entire attendance center. In no event shall an apportionment be made for new building area the chargeable area of which exceeds the chargeable area of the unsafe buildings being replaced. The chargeable area of any school building shall be computed in the uniform manner prescribed by the board.

16327. No payment of funds may be made pursuant to an apportionment unless the district holds an election at which the electorate of the district approve the acceptance, expenditure, and repayment of at least the amount apportioned pursuant to this article. The election may be held prior to or subsequent to an apportionment. If the electors voting at the election fail to approve the proposition by the same majority required at a district bond election, within nine months from the date of the apportionment, the apportionment and the board's approval of the application become null and void.

Notwithstanding the foregoing, an election held prior to the effective date of Article 9 (commencing with Section 16310) of this chapter, pursuant to Section 16058, is valid for the purposes of the foregoing paragraph, provided that the district is not otherwise eligible to receive apportionments under Article 1 (commencing with Section 16000), Article 2 (commencing with Section 16150), and Article 3 (commencing with Section 16190) of this chapter.

16328. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment.

16329. Payment shall be made in accordance with the terms of an apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the effective date of this article for any items approved by the board in such apportionment. However, where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of the district containing the item was received by the board, payment or reimbursement for the item, either with state funds or with district funds which the district is required to contribute by the apportionment, shall be made only upon authorization of the board by special resolution citing this section.

16330. The amount of the apportionment to a school district from the State School Building Aid Fund shall initially be computed by the board as follows:

(a) Determining the ratio which the school district's assessed valuation per pupil for the grade level of the project application bears to the statewide assessed valuation per pupil in that grade level, for the preceding fiscal year.

(b) Subtracting the amount computed under (a) from four.

(c) Dividing the amount computed under (b) by four plus the ratio which the school district's assessed valuation per pupil for the grade level of the project application bears to the statewide assessed valuation per pupil for that grade level, for the preceding fiscal year, which computation shall be denoted the "basic computed state matching ratio of assistance."

(d) The computation prescribed by subdivisions (a), (b), and (c) may be diagrammed as follows, with "A.V." representing the words "assessed valuation," and "a.d.a." representing the words "average daily attendance."

$$\text{Basic computed state matching ratio of assistance} = \frac{4 - \dfrac{\text{District A.V. per a.d.a.}}{\text{Statewide A.V. per a.d.a.}}}{4 + \dfrac{\text{District A.V. per a.d.a.}}{\text{Statewide A.V. per a.d.a.}}}$$

(e) The basic computed state matching ratio of assistance for a grade level of a school district shall not be less than 25 percent nor more than 80 percent of the cost of any specific project.

(f) When the final eligible costs of a project have been determined pursuant to the audit prescribed in Sections 16340 and 16099, the amount of the basic computed state matching ratio of assistance to the district shall be adjusted accordingly.

16330.5. Notwithstanding former Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1977, or anything to the contrary in this article, whenever the State Allocation Board determines that state funds are not available to make an apportionment for an otherwise eligible project in the amount computed pursuant to Section 16330, an application may be approved and an apportionment made for one dollar ($1) only. In any instances the project may be financed by the applicant district using funds derived from a twenty-cent ($0.20) tax levy provided by Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1977, together with any other funds available to the district for those purposes. The tax levy shall be twenty cents ($0.20) per one hundred dollars ($100) of assessed value for years prior to the 1980-81

fiscal year and beginning in the 1981–82 fiscal year shall be 0.05 percent of the full value.

16331. A school district may obtain local funds to match the state assistance with any combination of funds available as follows:

(a) Through the issuance of school district bonds.

(b) Through the levy and collection of school district taxes. The proceeds of any increase in the maximum tax rate shall be used exclusively for projects for which an apportionment or apportionments have been made under this article.

(c) Through the levy and collection of school district taxes as authorized by Section 39230.

(d) From any other fund available for capital outlay purposes.

16332. Whenever a school district determines that it is in its best interest to provide facilities on a given schoolsite in addition to those contained in the approved application, it may do so, with any excess funds it has available for capital outlay purposes, beyond those required under this article, by adding the excess funds to the total cost of the project. There shall be no penalties imposed under this article as a result of the expenditures.

16333. Whenever a school district has received an apportionment or apportionments of funds pursuant to Chapter 6 (commencing with Section 15700) or Chapter 8 (commencing with Section 16000) of this part, and, through the issuance of bonds, uses the bond proceeds as its source of funds to match its share of the eligible project cost of any project for which an apportionment of funds is made under this article, the amount of the bond funds shall be considered eligible bonded debt service in the computations made by the Director of General Services prescribed in Sections 15729 and 15730 and in Sections 16070 to 16090, inclusive.

16334. The interest on apportionments made under this article shall be established by the board, with the approval of the Director of General Services, as follows:

(1) The interest rate applicable to apportionments made pursuant to Article 1 (commencing with Section 16000) and determined in accordance with Section 16065 shall be established as of June 30 of each year.

(2) The applicable interest rate on June 30 shall apply to apportionments made under this article in the ensuing fiscal year, July 1 through June 30.

(3) Interest on the apportionment shall be compounded annually through the 30th day of June of each year.

16335. Each district to which an apportionment or apportionments has been made under this article shall repay the principal amount of such apportionment or apportionments and the accrued interest thereon in 20 equal annual payments. The first payment shall be made in the second fiscal year following the year in which the apportionment is made. In any year prior to the 1980–81 fiscal year in which the equal annual repayment exceeds that amount

which seventeen and one-half cents ($0.175) per one hundred dollars ($100) of assessed valuation for each grade level (i.e. elementary or high school) operated by the district would raise during the year of the computation, the repayment shall be reduced to the amount which the seventeen and one-half cents ($0.175) for each grade level would so raise. In any year, beginning in the 1981–82 fiscal year, in which the equal annual repayment exceeds that amount which 0.04375 percent of the full value for each grade level operated by the district would raise during the year of the computation, the repayment shall be reduced to the amount which the 0.04375 percent of the full value for each grade level would so raise. The amount of the reduction in computed repayment shall be canceled on the books of the Controller. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each amount if computed separately.

On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year. The computation and collection procedures shall be in accordance with Sections 16080, 16089, and 16090.

16335.1. Any apportionment made to the Marysville Joint Unified School District under Section 16339.8 shall be repaid through the continuance of the seventeen and one-half cents ($0.175) per one hundred dollars ($100) of assessed valuation per grade level tax rate set forth in Section 16335, after such time as the maximum repayment under Section 16335 becomes less than seventeen and one-half cents ($0.175) per one hundred dollars ($100) of assessed valuation per grade level. When the Controller has determined that the entire apportionment including interest, but less any amount paid by the district pursuant to Section 16339.8 has been completely repaid, this section shall cease to be operative.

16336. Notwithstanding any provisions of this article, any school district which has levied the entire amount permitted under former Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1977, and has declared the entire proceeds therefrom available as local matching funds for a particular project, but lacks sufficient matching funds for the project as required under this article, may file an application thereunder prior to January 1, 1974. Under the circumstances the board may increase the basic computed state matching ratio of assistance in the amount, which, when added to the sum of the entire proceeds of the levy permitted under former Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1997, and any other funds which in the opinion of the board is or can be made currently available for the project, including funds authorized by the electors from bonds or otherwise, would be necessary to construct minimum essential facilities for the project as determined by the board. Not more than forty-five million dollars ($45,000,000) available for the purposes of this article may be

apportioned for increases in the basic computed state matching ratio pursuant to this section. The source of the forty-five million dollars ($45,000,000) apportioned for this purpose shall be thirty million dollars ($30,000,000) previously appropriated for this purpose from the School Building Safety Fund by Chapter 500 of the Statutes of 1972, plus an additional fifteen million dollars ($15,000,000) of bond funds remaining from the State School Building Aid Bond Law of 1966.

16337. Notwithstanding any provisions of this article, where less than thirty million dollars ($30,000,000) has been apportioned or otherwise reserved by the board pursuant to Section 16336 on January 1, 1973, the board shall apportion as grants the remainder thereof under this section for matching purposes pursuant to this article to districts which the board determines has the greatest need. The apportionments under this section may be made only to those districts (1) which would not have been eligible to apply under Section 16336 if they had levied the entire twenty cent ($0.20) tax rate specified therein, and (2) which have filed an application by January 1, 1973, and received an apportionment under this article from the board by February 28, 1973.

16339. Notwithstanding any provisions of this article or Section 16336 thereof to the contrary, any school district which lacks sufficient matching funds for a particular project or projects, as required under this article, may file an application and the board may approve a project or projects conditioned upon the district levying, in the 1974–75 fiscal year, the entire twenty cent ($0.20) tax rate per one hundred dollars ($100) of assessed valuation permitted under former Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1997, or Section 81180 and applying the proceeds of such levy as local matching funds for such project or projects. Beginning in the 1981–82 fiscal year, the tax shall be 0.05 percent of full value.

Under those circumstances, provided the applicant district was not eligible to receive a grant under Section 16337, the board may increase the basic computed state matching ratio of assistance in that amount, which, when added to the sum of the entire proceeds of the twenty cent ($0.20) tax rate, except beginning in the 1981–82 fiscal year, the tax shall be 0.05 percent of full value, and any other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined by the board. Not more than nineteen million dollars ($19,000,000) of the proceeds of the sale of bonds authorized by Section 16310, may be apportioned pursuant to this section and in augmentation of the forty-five million dollars ($45,000,000) made available under Section 16336.

16339.5. Notwithstanding any provisions of this article to the contrary, any district which does not have sufficient matching funds for a particular project as required under this article may file an

application under Section 16339, and the board may approve the project conditioned upon the district levying in the 1975–76 fiscal year the entire twenty cent ($0.20) tax rate per one hundred dollars ($100) of the assessed valuation permitted under Section 39230.1 in lieu of the tax authorized by Section 16339 and applying the entire proceeds of the levy as local matching funds for the project providing:

(a) The district has levied a tax at the rate of at least ten cents ($0.10) per one hundred dollars ($100) of assessed valuation of the tax permitted under Section 39230 for the 1973–74 fiscal year and of at least nine cents ($0.09) per one hundred dollars ($100) of assessed valuation of the tax permitted under Section 39230 for the 1974–75 fiscal year.

(b) The district has sold the facilities to be replaced to a county prior to June 1972, but continued to use the facilities after the sale until June 1972.

16339.6. Notwithstanding any provisions of this article or Sections 16336 and 16339 thereof to the contrary, any school district, which has issued at least thirty-seven million dollars ($37,000,000) in bonds for the purpose of replacing structurally unsafe buildings and which lacks sufficient matching funds for a particular project or projects, as required under this article, may apply and the board may approve, a project or projects conditioned upon the district having levied or being required to levy, in the fiscal years 1974–75, 1975–76, and 1976–77, the entire twenty cent ($0.20) tax rate per one hundred dollars ($100) of assessed valuation permitted under Section 39230 and applying the entire proceeds therefrom as local matching funds to an eligible project or projects.

Under those circumstances, the board may increase the basic computed state matching ratio of assistance in the amount which, when added to the sum of (1) the entire proceeds which have been collected from the aforementioned twenty cent ($0.20) tax levies at the time of the application and not yet applied as matching funds to previously approved projects and (2) any other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined by the board. Not more than six million dollars ($6,000,000) of the proceeds of the sale of bonds authorized by Section 16310, may be apportioned pursuant to this section.

16339.8. Notwithstanding any provisions of this article to the contrary, the State Allocation Board may appropriate to the Marysville Joint Unified School District a sum not to exceed seven hundred thousand dollars ($700,000) for costs incurred in repairing damage at Lindhurst High School, which was constructed pursuant to this article as a replacement of facilities not complying with earthquake safety requirements. The need for the repair of Lindhurst High School may have been caused by improper construction or design. Therefore, the proceeds received from any

insurance or arbitration award, or any other action, shall be paid by the district to the board as a direct reduction in the apportionment made under this section.

16340. Sections 16006, 16017, 16021, 16066, 16088, 16091, and 16093 to 16100, inclusive, shall be applicable to the administration of this article unless the context of this article as determined by the board, requires otherwise.

16341. Whenever a school district receives or has received an apportionment under this article for the purchase of a site which contains existing improvements, the board may require the district to dispose of any existing improvements that a condition of receiving an apportionment in any manner that the board deems proper. Whenever a district sells, leases or disposes of any site acquired under an apportionment or any improvements appurtenant to any site so acquired it shall contribute a portion of the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment, such portion being proportionate to the state's participation in the project.

16342. To determine the effect of school housing aid for reorganized districts, the applicable portions of Article 2 (commencing with Section 16150) of this chapter shall apply.

16343. Whenever a conditional apportionment has, prior to January 1, 1980, been made to an applicant school district pursuant to this chapter and thereafter the county superintendent of schools of the county having jurisdiction over such district has certified to the board and the Controller that at an election called, held and conducted in the district for that purpose, the qualified electors of the district voting thereat authorized the governing board of the applicant school district, by the same majority vote required at a district bond election, to accept, expend and repay an apportionment under the provisions of this chapter, and whenever thereafter said county superintendent of schools has certified to the board and the Controller that the required contribution of the district has been placed on deposit in the state school building fund of the district and the board has certified to the Controller that the apportionment to the applicant school district has become final, such final apportionment is hereby confirmed, ratified, and validated, and any expenditure of money from the State School Building Aid Fund or the School Building Safety Fund according to the terms of such final apportionment is hereby confirmed, ratified, and validated.

Notwithstanding any provision to the contrary, no funds authorized by any bond act for the purpose of this chapter shall be made available for expenditure without specific authority of the board or its delegated representative.

16344. Notwithstanding the provisions of Section 16319, if a school district otherwise eligible to receive an apportionment under this article operates sufficient continuous school programs (as defined in Chapter 5 (commencing with Section 37600) of Part 22) to provide

housing for students displaced from structurally inadequate facilities, the costs of modifying any existing facilities necessary for the implementation of any continuous school programs shall be eligible, upon the review and recommendation of the State Department of Education, for an apportionment under this article from the proceeds of bonds remaining from the authorization provided in the State School Building Aid Law of 1966.

CHAPTER 7. SCHOOL CONSTRUCTION LAW OF 1957

Article 1. General Provisions

16500. This chapter may be cited as the "State Project Area School Construction Law."

16501. In recognition of the impact which certain major state construction projects have on local school district building needs in the areas in which the projects are constructed, the Legislature declares that it is the policy of the state to bear a proportionate share of the construction costs of school buildings in the area affected in the manner and to the extent provided by this chapter.

16502. As used in this chapter:

(a) "State project" means any construction project undertaken by the state, or the state and federal government jointly, which will cause a sudden influx of people into the area affected and where sufficient housing, schools, and other community facilities are not available. For the purposes of this subdivision, the Governor is hereby empowered to proclaim any major construction project undertaken by the state as a "state project" and define the area affected or likely to be affected thereby if both of the following conditions are satisfied:

(1) The Governor finds that the construction project will cause a sudden influx of people into the area.

(2) The Governor is requested to do so by the county board of supervisors.

The proclamation shall be in writing and shall take effect immediately. As soon thereafter as possible it shall be filed in the office of the Secretary of State.

(b) "Board" means the State Allocation Board.

(c) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive.

(d) "Project" means the purposes for which a school district has applied for an apportionment.

(e) "Construction project" means the purposes for which a school district has applied for an apportionment at a given location.

(f) "Grade level maintained by a district" means any of the following:

(1) The kindergarten, if any, and grades 1 to 6, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district.

(2) Grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district, but not more than one grade level shall be claimed by any district under any one of the paragraphs of this subdivision.

(g) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

(h) "Project children" means children of parents who have come to the district subsequent to the start of the state project and who are employed by the State of California or the federal government in connection with a state project and children of parents employed by any contractor or subcontractor of a state project.

(i) "Indirect project children" means children of parents who have come to the district subsequent to the start of the state project and who are not employed by a contractor or subcontractor of a state project but who are children in the area in addition to those which would be expected as a result of normal development and growth of the area as determined pursuant to regulations of the director which he or she is hereby authorized to adopt.

(j) "Parent" includes a legal guardian or other person standing in loco parentis.

(k) "Department" means the State Department of Education.

16503. The Director of General Services shall administer this chapter and shall provide any assistance to the board that it may require.

16504. A fund in the State Treasury is hereby created, to be known as the State School Construction Fund. All money in the State School Construction Fund, including any money deposited in the fund from any source whatsoever after September 11, 1957, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under this chapter.

Article 2. Apportionments

16520. Apportionment from the State School Construction Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for any of the following purposes:

(a) The purchase and improvement of schoolsites which have been approved by the department.

(b) The purchase of desks, tables, chairs, and equipment, as approved by the department.

(c) The planning and construction, reconstruction, alteration of, and addition to, school buildings for facilities that are approved by the department as essential, all of which purposes are hereby declared to be, and are, public works.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or

alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering the insurance. However, in other respects the apportionments are eligible for payment under this chapter.

16521. In addition to the purposes for which apportionments may be made to school districts under Section 16520, apportionments may also be made to school districts for the construction, repair, attachment or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

16522. In making applications for, and in expending, apportionments of funds under this chapter, a district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state. Upon the payment by the district of the amounts required to be paid by it to the state under this chapter, the board shall, in the name of the state, convey the property to the district.

16523. The board may require school districts to insure for the benefit of the state all sites, equipment, and buildings which are the property of the state, against any risks and in any amounts that the board may deem necessary to protect the interests of the state. No state funds apportioned under this chapter shall be used to pay the premiums on the insurance.

16524. A district shall be eligible to an apportionment under this chapter if the estimated number of project children and indirect project children who will be in average daily attendance in the schools of the district during the period of the state project is at least 25 and is at least 5 percent of the estimated number of all children who will be in average daily attendance in the schools of the district during the current fiscal year.

16525. Any eligible school district may make application for an apportionment for a grade level which it maintains by submitting through the governing board an application therefor in a form and number that the board shall prescribe. The application shall be addressed to the board and shall set forth a project for the construction of school facilities for the district in accordance with this section.

(a) Each application and copy thereof shall contain and be supported by:

(1) A description of the project and the site therefor, preliminary drawings of the school facilities to be constructed thereon, and any other information relating to the project that the board may require.

(2) A statement of the estimated cost of the project certified by an architect or structural engineer.

(3) Evidence that the district has or will have title to the site upon which the facilities as specified in the application will be constructed.

(4) Assurance that the district will cause the work on the project to be commenced within a reasonable time and prosecuted to completion with reasonable diligence.

(b) The board shall require any changes in the plans which an applicant school district submits with its application that the board determines is necessary or desirable to assure completion of the project with available funds of the district and the amount of the apportionment to which the district is entitled under this chapter. For that purpose the board may delegate to the director or the Director of General Services, according to whether the subject matter of the revision of the plans is subject to the jurisdiction and approval of the director or the Director of General Services, the authority to require any revision in the plans that the board deems necessary or desirable to accomplish the purposes of this subdivision.

(c) Upon submission of an application for an apportionment under this chapter the Director of General Services shall do each of the following:

(1) Transmit a copy of the application to the director who shall as promptly as possible prepare a report and recommendation with respect thereto. Thereupon the director shall transmit his or her report and recommendation to the Director of General Services who shall refer them to the board if he or she finds them in proper form and otherwise sufficient. If the Director of General Services finds the documents to be lacking in any respect as to any matter subject to the jurisdiction of the director or the department, he or she shall refer them to the director who shall take any action that may be necessary.

(2) Determine the applicant district's financial ability with funds apportioned under this chapter and funds devoted by the district to the project to meet the cost of the project and submit his or her report thereon as promptly as possible to the board.

16526. At the next regular meeting of the board following the submission of the reports and recommendations required by Section 16525, the board shall, subject to this chapter, approve or reject the application. If the board approves the application, it shall by resolution adopted by it, apportion to the district from the State School Construction Fund the amount applied for, or any portion thereof that the board determines proper. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 16527 is favorable. The conditional apportionment shall remain in effect for a period of nine months from the date of the resolution of the board. If the apportionment does not become final within the time prescribed, it shall become void and the money so apportioned shall again become available for apportionment pursuant to this chapter.

16527. No apportionment to a school district under this chapter shall become final, nor shall any agreement authorized by Section 16528 be entered into, unless at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board to accept, expend, and repay an apportionment as provided in this chapter or, with respect to an agreement authorized by Section 16528, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated by the agreement, or by any act of its governing board, or for which it is responsible, contemplated, or permitted under the agreement. The election shall be called, held, and conducted in the same manner as are elections to authorize the issuance of district bonds, except that the ballot shall contain substantially the following words:

"Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of the State Project Area School Construction Law, a portion of which amount is subject to repayment as provided by that law, or (2) to enter into an agreement or agreements with the state pursuant to Section 16528 of the Education Code, which will at the time of the agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all of these agreements of not more than _____ dollars, or both. Yes ____ No ____."

16528. (a) In addition to the powers granted the board under this chapter, the board shall have authority to do each of the following:

(1) Make apportionments to districts for the purchase of sites only, or for the construction or purchase of temporary or portable buildings, and for the cost of site preparation, including any necessary utility costs, in connection with their utilization.

(2) Establish standards in conjunction with the State Department of Education pertaining to the sites and buildings as a condition for making the apportionment. In addition the board may also expend moneys from the State School Construction Fund directly for the construction, acquisition, storage, maintenance, and repair of the buildings, including administrative costs related thereto. In the latter event the board may lease, sell, or transfer under a lease-purchase agreement the buildings to school districts eligible for aid under this chapter, under the terms as it deems fit. Agreements pertaining thereto may provide for the payment by the state of site preparation costs, including any necessary utility costs, sufficient to permit their utilization.

(b) Whenever the board deems it economically desirable to do so the board may dispose of any facilities acquired or constructed

directly by it under this section to any public or private parties under the terms and in the manner as the board deems fit, save insofar as the disposal is inconsistent with any agreement under this section between the board and an affected district. The board is authorized to do any and all things necessary to effectuate the purposes of this section, and any eligible school district is authorized to enter into an agreement with the board to carry out the purposes hereof.

(c) Any buildings leased for placement on the school property or under a purchase or a lease-purchase agreement shall be deemed the construction or alteration of a school building as those terms are defined in Sections 17280 to 17313, inclusive.

(d) The consideration provided by any agreement between the state and districts pursuant to this section shall as nearly as possible reflect an amount which would return to the state a fair pro rata proportion of its capital investment and expenditures connected therewith in the light of the benefits conferred by the agreement. The consideration shall be paid by the districts promptly when due, and Section 16573 shall not be deemed applicable to reduce the consideration, provided that the amounts so repaid shall be redeposited in the State School Construction Fund.

(e) No agreement shall be entered into under this section unless the department has, with respect thereto, or as a condition of making the agreement, approved each of the following items:

(1) The property to be transferred, including any incidental construction pertaining thereto.

(2) Whether the agreement shall be by lease or sale.

(3) The term of the transfer, if less than a sale, including any contingent or indefinite term.

"Sale" as used in this subdivision includes a lease-purchase transaction. The jurisdiction of the department shall not otherwise extend to the terms of the agreement.

Article 3. Apportionments, Computation

16540. The board shall compute for each applicant school district the amount to which the district is entitled under this chapter in the manner prescribed by this article. The amount so computed shall be reduced by the amount received or to be received by the district under Public Law 815 of the 81st Congress, as amended, or any similar provisions of any other act of Congress, solely on account of the participation of the federal government in the state project or shall be reduced by the percentage of the cost of the project (as that term is defined in Section 41930) borne by the federal government, whichever is the greater amount.

16541. In the computation of the apportionments to applicant school districts, the board may utilize the facilities and services of any department or agency of the state and may delegate the performance of any duties or functions, except those specifically delegated by this

chapter to the director or department, to any officer or employee thereof as the board deems necessary and proper.

16542. The board shall multiply:

(a) The estimated number of project children in the district by the current construction cost per pupil in the area of the state project.

(b) The estimated number of indirect project children in the district by the current construction cost per pupil in the area, multiplied by 55 percent.

(c) "Current construction cost per pupil" as used in this section means the average per pupil cost of constructing complete school facilities for the grade level maintained by the district for which application for an apportionment is made under this chapter.

(d) The total of the amounts computed pursuant to subdivisions (a) and (b) shall be apportioned to the district.

16543. (a) The average per pupil cost of constructing complete school facilities in the area of the state project for the purposes of this article shall be determined by the board, after consultation with the department and the Department of General Services, on the basis of information obtained thereby and any other information that may be available to the department.

(b) Estimates of the number of project children and indirect project children for the purpose of this article shall be made by the applicant school district in accordance with rules prescribed by the director and shall be made as of the time the greatest number of such children will attend the schools of the district as a result of the state project. The estimates shall be made on the basis of the best information available to the district at the time of the application. Approval of the estimates by the director, in whole or in part, shall be on the basis of the best information available to the director at the time of the approval. In the approval of estimates of the number of project children and indirect project children for the purposes of this article the director may utilize the facilities and services of any department or agency of the state as he or she deems necessary and proper. No estimate shall be used as a basis of an apportionment that has not been approved by the director.

Article 4. Apportionments, Payment

16550. Immediately after the result of the election required by Section 16527 has been determined, the county superintendent of schools shall make a certificate in duplicate stating whether the district has authorized the acceptance and expenditure of the apportionment. One copy of the certificate shall be sent to the board and one copy to the Controller. Upon the receipt by the board of the certificate, the apportionment shall become final.

16551. The election by a school district upon the acceptance, expenditure, and repayment of an apportionment prescribed by

Section 16527 may be called and held either before or after the making of an apportionment.

16552. Payment shall be made in accordance with the terms of a final apportionment, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the date of the proclamation of the Governor proclaiming a state project in the area including the district, for any items approved by the board in the apportionment. However, if expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of the district containing the item was received by the board, payment or reimbursement for the item shall be made only upon authorization of the board by special resolution citing this section.

16553. The board shall prescribe in the detail that it deems necessary, the purposes for which moneys apportioned by it to a district under this chapter may be expended and the prescription shall be binding upon the governing board of the district except that it may be, for good cause, modified by the board.

16554. Each apportionment made by the board under this chapter shall be certified by it to the Controller who shall thereupon draw his or her warrant on the State Treasury in favor of the county treasurer of the county having jurisdiction over the district. The warrant shall be paid by the Treasurer from the State School Construction Fund and is not subject to the provisions of Section 925.6 of the Government Code.

16555. The county treasurer of each county shall pay all moneys received by him or her under this chapter into the county treasury to the credit of the state school construction fund of the district, which fund is hereby created, exactly as apportioned by the board.

16556. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the state school construction fund of the district only for the purposes for which the moneys were apportioned to the district and for no other purpose and shall make any reports relating to the expenditure of the moneys that the board and the Controller shall require.

16557. It shall be the duty of the Controller to make any audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, that he or she may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes authorized by this chapter.

Article 5. Apportionments, Repayment

16570. Each school district to which an apportionment is made under this chapter shall repay the principal amount of the apportionment in the manner prescribed by this article.

16571. For purposes of computing the repayment, the state project shall be deemed completed on June 30th of the fiscal year in which the state project is completed and accepted by the state.

16572. The principal amount of the apportionment shall be computed and repaid in the manner prescribed in this article.

(a) On or before the first day of January succeeding the completion of the state project, the Controller shall compute the annual repayment of each apportionment for each grade level maintained by the district, as follows:

(1) He or she shall determine from the certification of the director the total amount of average daily attendance of project children, and the total amount of average daily attendance of indirect project children, in attendance in the grade level maintained by the district for the period commencing with the date of the proclamation of the Governor proclaiming the existence of a state project in the area including the district and ending on June 30th of the fiscal year in which the state project is completed.

(2) He or she shall divide the average daily attendance of the project children by 30 and multiply the quotient by the amount determined by the board pursuant to Section 16543 as the average per pupil cost of construction in the area of the state project.

(3) He or she shall multiply the average daily attendance of the indirect project children by 55 percent. The product shall be divided by 30 and the quotient multiplied by the amount determined by the board pursuant to Section 16543 as the average per pupil cost of construction in the area of the state project.

(4) The total of the amounts computed pursuant to paragraphs (2) and (3) shall be subtracted from the amount of the apportionment to the district. The remainder shall be divided by 30 and the quotient shall constitute the amount of the annual repayment of the apportionment.

(5) Upon application of the district and approval by the board, the total amount of the repayment may be paid in a lump sum or in fewer than 30 years.

16573. If on June 30th of the fiscal year in which the state project is completed there is classroom space constructed with funds apportioned under this chapter, that is not being used by the district, the board shall, upon application of the district, reduce the total amount to be repaid by the district on a proportionate basis until the time that the classroom space is used by the district. No payment shall be required by the district for the period during which the classroom space is not used by the district.

16574. The Controller shall, during the fiscal year in which he or she determines the annual repayment as provided in Section 16572, and for each subsequent fiscal year not exceeding 30, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to the district from the State School Fund under Sections 46304, 46305, and 92 or 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, and, on order of the Controller, the amount so deducted shall be transferred to the General Fund of the state.

16575. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the fiscal year, the Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

16576. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the next levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money withheld by the Controller during the fiscal year preceding that in which the tax is levied. The tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

16577. Notwithstanding Section 16572 to the contrary, if on or before June 30th of the fiscal year in which the state project is completed the district has received a final apportionment under Sections 16000 to 16207, inclusive, or if at any time thereafter the district receives a final apportionment under Sections 16000 to 16207, inclusive, the amount of the apportionment to the district under this chapter then remaining unpaid shall, upon request of the district, be added to the principal amount of the apportionment made to the district under Sections 16000 to 16207, inclusive. Thereupon the apportionment made to the district under this chapter shall be deemed to be an apportionment made to the district under Sections 16000 to 16207, inclusive, and subject to repayment in the manner therein prescribed, except that no interest shall be charged or collected upon the amount which is added to the principal amount of the apportionment made to the district under Sections 16000 to 16207, inclusive. For the purposes of Section 16083, any amount added to the principal amount of an apportionment pursuant to this section shall be deemed to have become final and disbursed to the

district on the date the state project is deemed completed pursuant to Section 16571.

Article 6. Miscellaneous

16590. In addition to any other powers and duties as are granted the board by this chapter, the board shall do each of the following:

(a) Establish any procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter that it deems necessary and which are not in conflict with the powers and duties of the State Department of Education or of the director granted or imposed by this chapter.

(b) Adopt any rules and regulations for the administration of this chapter, requiring any procedure, forms, and information, that it may deem necessary.

16591. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the State School Construction Fund.

16592. Whenever the Controller determines that any money apportioned to a school district under this chapter has been expended by the district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of the unauthorized expenditures, or the amount of the excess apportionment, as the case may be. Upon receipt of the notice, the governing board shall order the county treasurer to pay to the Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in the notice. The amount shall, upon order of the Controller, be deposited in the State Treasury to the credit of the State School Construction Fund, to be reapportioned by the board.

The governing body and county treasurer shall make the payments to the Treasurer as provided in this section, and the Controller shall enforce the collection on behalf of the state.

CHAPTER 8. URBAN SCHOOL CONSTRUCTION AID LAW OF 1968

Article 1. General Provisions

16700. This chapter may be cited as the "Urban School Construction Aid Law of 1968."

16701. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing schoolsites and buildings for pupils of the public school system who are now housed in substandard schools constructed prior to 1943.

16702. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "Director" means the Director of Education.

(c) "Project" means the purpose or purposes for which a school district has applied for an apportionment or apportionments.

(d) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

(e) "Urban district" means any school district, the boundaries of which are substantially identical to or which encompass the boundaries of a city having a population in 1960 of not less than 50,000 persons.

16703. The Director of General Services shall administer this chapter and shall provide any assistance to the board that it may require.

16704. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Urban School Construction Aid Fund.

16705. The board by the adoption of rules shall give priority in allocating funds to urban districts to those districts where the children will benefit most from schoolhouse facilities. This priority shall be based upon the age of existing buildings and the acuteness of overcrowding at the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served.

16706. In addition to any other powers and duties that are granted the board by this chapter, the board shall:

(a) Establish any qualifications not in conflict with other provisions of this chapter that it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter.

(b) Establish any procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter that it deems necessary.

(c) Adopt any rules and regulations for the administration of this chapter, requiring any procedure, forms, and information, that it may deem necessary.

16707. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from the disposition shall be contributed in reduction of any apportionment. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state, by any instruments deemed appropriate by the board, title to the replaced property, whereupon, the board shall dispose of the property in any manner it deems appropriate to insure the highest return to the state, and apply the proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement the disposition.

16708. Apportionments from the Urban School Construction Aid Fund created by Section 16728 shall be limited to urban districts and shall be made for the sole purpose of reconstructing or replacing existing substandard buildings constructed prior to 1943. The apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes:

(1) The acquisition, by purchase or lease, and the installation and equipping portable classrooms for instructional purposes.

(2) The acquisition and development of schoolsites.

(3) The construction and equipping of permanent school buildings and facilities.

(4) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(5) Any combination of the above.

As a part of these purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction, or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering the insurance, provided that in other respects the apportionments are eligible for payment under this chapter.

A leasehold or use permit interest held by a school district in land owned in fee simple by the government of the United States may, for all purposes of this chapter, be deemed a purchase of land by the district and to vest title and ownership in the district.

16709. The board shall not make any apportionment with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate the facilities.

16710. In addition to the purposes for which apportionments may be made to school districts under Section 16708, apportionments may also be made to school districts for the construction, repair, attachment, or development of offsite facilities, utilities, or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

16711. (a) In making applications for, and in expending apportionments of funds under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

(b) The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds apportioned under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing the real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. The certificate shall as to any party thereafter acquiring real property or any interest therein in the county from the school district have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. That effect shall commence upon recordation and continue until the certificate is discharged or released as provided herein.

(c) Upon request, the Director of General Services shall issue either of the following:

(1) A release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under this chapter, provided that delivery of the release may be subject to any conditions that may be prescribed by the board to protect the state's interest.

(2) A disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under this chapter, provided that the delivery of the disclaimer may be subject to any conditions that the board deems appropriate to protect the interests of the state, including conditions relating to the amount of consideration to be

received from the disposition if the board asserts an interest in the proceeds of the disposition under other provisions of this chapter.

The release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

(d) Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter both of the following shall occur:

(1) The Director of General Services shall file with the recorder a release of any certificate. The release shall be recorded and indexed in the same index as the certificate.

(2) The title to personal property purchased by such school district with funds apportioned under this chapter shall revert thereto without further action by the state.

16712. A school district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

16713. Each school district which desires an apportionment shall submit through its governing board to the board an application therefor in the form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment.

Estimates of costs for new construction or equipment appearing in an application shall not exceed typical current costs of comparable new construction or equipment by school districts in the same area not receiving an apportionment under this chapter, as determined by the Director of General Services, or if there has been no new construction by school districts in the area, the estimates of costs shall not exceed the reasonable current cost of similar construction or equipment in the area as determined by the Director of General Services.

A school district may at any time file an application or amend or supplement an application. Upon receipt of any application, the Director of General Services shall as promptly as possible prepare a report and recommendation with respect to the application after having received recommendations from the director in respect to any matter which is subject to the jurisdiction or approval of the director or State Department of Education. The board shall, subject to the provisions of this chapter, approve, in whole or in part, or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Urban School Construction Aid Fund the amount applied for, or a portion thereof as the board may determine appropriate. However, it may order that the apportionment or any part thereof shall be paid

in progressive installments at times and under conditions as it may then prescribe.

16714. The board may approve, in whole or in part, an application submitted by a school district under Section 19263 and in any amount, not exceeding the amount applied for, that the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount approved in the application of the district by the board to the applicant school district from the Urban School Construction Aid Fund for any portion or portions of the project that the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments as it deems appropriate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to the district in an amount equal to the excess even though the additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

16715. No apportionment shall be made for new construction, the area of which exceeds the area of the unsafe buildings being replaced under Section 16708. The area of school buildings shall be computed in a uniform manner as prescribed by the board.

16716. Payment shall be made in accordance with the terms of an apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the effective date of this chapter for any items approved by the board in the apportionment. However, if expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of the district containing the item was received by the board, payment or reimbursement for the item, either with state funds or with district funds which the district is required to contribute by the apportionment, shall be made only upon authorization of the board by special resolution citing this section.

16717. Notwithstanding any provision to the contrary, the board, with the approval of the Director of General Services, shall, pursuant

to this section, fix the rate of interest to be paid by the districts on the sums apportioned during that fiscal year. Beginning each fiscal year the board shall compute the average of the rates of interest which the state pays upon the state school reconstruction and replacement bonds, sold at the three sales of state school reconstruction and replacement bonds occurring immediately prior to that fiscal year, or, if the board so determines, at all of the sales of the bonds occurring in the two years immediately prior thereto, giving effect to the price at which the state school reconstruction and replacement bonds sold at the sales, and the premium, if any paid, thereon. If an apportionment is made prior to the sale of state school reconstruction and replacement bonds, the board shall use the computed average rate of interest which the state paid on the last sale of state school building bonds. The average rate shall be adjusted to the next highest one-tenth of 1 percent to cover the cost of sale and issuance of the bonds and costs of administration. The adjusted average rate shall be the rate paid by districts on apportionments received during that fiscal year, and shall be compounded annually through the 30th day of June of each year.

16718. Apportionments may be made irrespective of whether there is on deposit at the time thereof a sufficient amount in the Urban School Construction Aid Fund to permit the payment of the apportionments. Disbursements may be made under any apportionment from any funds in the Urban School Construction Aid Fund irrespective of whether there exists at the time of the disbursement a sufficient amount in the fund to permit the payment in full of all apportionments previously made. However, no disbursements shall be made from any funds in the Urban School Construction Aid Fund required by law to be transferred to the General Fund, or from any moneys therein which the Controller deems necessary to satisfy appropriations from the fund for purposes other than apportionments.

16719. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment.

16720. Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the Controller pursuant to this section. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each apportionment if computed separately.

The Controller shall determine the portion of the principal amount of the apportionment or apportionments made to each district to be

repaid by the district by diminishing the principal amount by the product of the ratio which the assessed valuation of the district per unit of average daily attendance of pupils in the grades maintained by the district during the preceding fiscal year bears to the assessed valuation per unit of average daily attendance in the same type of districts in the state and one-half of the principal amount of the apportionment or apportionments, except that the amount to be repaid shall not exceed the amount of the principal apportionment or apportionments.

The Controller shall make the computation to determine the annual repayment due in the next fiscal year following the fiscal year in which the apportionment is made. In any year prior to the 1980–81 fiscal year in which the annual repayment exceeds the amount which may be raised by a three-cent ($0.03) tax rate per one hundred dollars ($100) of assessed valuation in the district, the governing board of the school district shall so certify to the Controller whereupon the Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax rate of three cents ($0.03) per one hundred dollars ($100) of assessed valuation of the district. In any year, beginning with the 1981–82 fiscal year, in which the annual repayment exceeds the amount which may be raised by a levy of 0.0075 percent of the full value in the district, the governing board of the school district shall so certify to the Controller whereupon the Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax of 0.0075 percent of the full value of the district. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

16721. The Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to the district from the State School Fund and, on order of the State Controller, the amount so deducted shall be transferred to the Urban School Construction Aid Fund. All money transferred to the Urban School Construction Aid Fund under this section shall be available only for transfer to the General Fund.

16722. The Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to a district under this chapter. He or she shall compute interest, at the rate fixed by the board, on each amount disbursed by the state pursuant to the apportionment, from the date of issuance of the Controller's warrant covering the payment to the county treasurer of the amount until the first day of July of the fiscal year next succeeding that in which the warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to the apportionment, through the 30th day

of the following June of each year, until the principal and interest have been paid.

16723. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

16724. The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the Controller during the fiscal year in which the tax is levied. The tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

16725. The board shall prescribe in the detail that it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and the prescription shall be binding upon the governing board of the district, except that it may be changed or modified by the board for any cause that it sees fit.

16726. An urban school construction fund is hereby created in the county treasury in each county for each school district in the county. The county treasurer of each county shall pay into the urban school construction fund of each school district, exactly as apportioned by the board, all moneys received by him or her under this chapter with respect to each school district.

16727. Interest earned on those portions of deposits in an urban school construction fund representing allocations from the proceeds of state school reconstruction and replacement bonds received by the county treasurer for the benefit of a school district under this chapter shall be paid into the Urban School Construction Fund created by Section 16728.

16728. A fund in the State Treasury is hereby created, to be known as the Urban School Construction Aid Fund. All money in the Urban School Construction Aid Fund, including any money deposited the fund from any source whatsoever is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

16729. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the urban school construction fund of the school district

exactly as apportioned by the board and only for the purposes for which the moneys were apportioned to the district, and for no other purpose, and shall make the reports relating to the expenditure of the moneys that the board and the Controller shall require.

16730. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

16731. It shall be the duty of the Controller to make any audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, that he or she may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

16732. Whenever the Controller determines that any money apportioned to a school district has been expended by the school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of the unauthorized expenditures, or the amount of the excess apportionment, as the case may be. Upon receipt of the notice, the governing board shall order the county treasurer to pay to the Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in the notice. The amount shall, upon order of the Controller, be deposited in the State Treasury to the credit of the Urban School Construction Aid Fund, to be reapportioned by the board.

It shall be the duty of the governing body and the county treasurer to make the payments to the Treasurer as provided in this section, and it shall be the duty of the Controller to enforce the collection on behalf of the state.

If the district fails to make the payment specified within one year after written notice of the amount due, the Controller shall deduct the amount thereof with interest from date of the notice from the February payment made to the district under Section 14041 in the next succeeding fiscal year.

16733. (a) As used in this chapter:

(1) "State-aided district" means a district to which an apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all or a part of, a state-aided district or an applicant district has been included.

(3) "Original district" means a state-aided or applicant district included in whole or in part in an acquiring district.

(b) For the purposes of this article as it applies to an original district or to an acquiring district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization shall be the date the action became effective for the purposes of Section 4060.

16734. Whenever, subsequent to the date of an apportionment to a district, the state-aided district is included in whole or in part in another district, the acquiring district in which a state-aid project is located shall, on the effective date of the inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to any apportionment or apportionments for such project and the property acquired or to be acquired from funds provided thereby, and all funds in the urban school construction fund of the state-aided district shall be transferred to the urban school construction fund of the acquiring district. All amounts which would, after the effective date of the inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to the apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district become liable for the annual repayments and other payments due the state under this chapter.

CHAPTER 12. STATE SCHOOL BUILDING LEASE-PURCHASE LAW OF 1976

Article 1. General Provisions

17000. This chapter may be cited as the "Leroy F. Greene State School Building Lease-Purchase Law of 1976."

17001. (a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

(b) In order to expedite the elimination of the use of nonconforming school buildings that are used or designed to be used for instructional purposes or intended to be entered by pupils, the State Allocation Board may establish criteria that considers special circumstances under which funds may be allocated for the

reconstruction of nonconforming buildings. The funds allocated in accordance with this section shall not exceed 75 percent of the cost of facility replacement.

(c) It is the intent of the Legislature that all construction projects be designed and constructed to maximize the use of educational technology, as set forth in subdivision (b) of Section 17002.

17002. The following terms wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Board" means the State Allocation Board.

(b) "Cost of project" includes, but is not limited to, the cost of all real estate property rights, and easements acquired, and the cost of developing the site and streets and utilities immediately adjacent thereto, the cost of construction, reconstruction, or modernization of buildings and the furnishing and equipping, including the purchase of educational technology hardware, of those buildings, the supporting wiring and cabling, and the technological modernization of existing buildings to support that hardware, the cost of plans, specifications, surveys, and estimates of costs, and other expenses that are necessary or incidental to the financing of the project. For purposes of this section, "educational technology hardware" includes, but is not limited to, computers, telephones, televisions, and video cassette recorders.

(c) The term "lease" includes a lease with an option to purchase.

(d) "Project" means the facility being constructed or acquired by the state for rental to the applicant school district and may include the reconstruction or modernization of existing buildings, construction of new buildings, the grading and development of sites, acquisition of sites therefor and any easements or rights-of-way pertinent thereto or necessary for its full use including the development of streets and utilities.

(e) "Property" includes all property, real, personal or mixed, tangible or intangible, or any interest therein necessary or desirable for carrying out the purposes of this chapter.

(f) "Apportionment" means a reservation of funds necessary to finance the cost of any project approved by the board for lease to an applicant school district.

17002.1. As used in this chapter, construction shall include, but not be limited to, reconstruction, modernization, and replacement of facilities, and the performance of deferred maintenance activities on facilities pursuant to rules and regulations regarding those activities as may be adopted by the board. Funding for deferred maintenance activities for a facility may be approved under this chapter without regard to whether project funding for the reconstruction, modernization, or replacement of the facility is prohibited under Section 17021.

17003. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

17004. The State Allocation Board is continued in existence for the purpose of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid as an administrative expense referred to herein.

17005. In addition to all other powers and duties as are granted the board by this chapter, other statute, or the Constitution, the board shall have power to:

(a) Establish any qualifications not in conflict with other provisions of this chapter, as it deems will best serve the purposes of this chapter, for determining the eligibility of school districts to lease projects under this chapter.

(b) Establish any procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt any rules and regulations for the administration of this chapter, requiring any procedure, forms, and information, as it may deem necessary.

(d) Construct and control any project.

(e) Fix rates, rents, or other charges for the use of any project acquired, constructed, rehabilitated, equipped, furnished, or for services rendered in connection with that project, and to alter, change, or modify the same at its pleasure, subject to any contractual obligation that may be entered into by the board with respect to the fixing of the rates, rents, or charges.

17005.1. On or before June 30, 1981, and on or before June 30 of each year thereafter, the board shall approve a plan specifying (a) the amount of funds to be allocated in the forthcoming fiscal year for the purposes of deferred maintenance activities and (b) the manner in which such funds shall be allocated to applicant districts.

17005.3. (a) Any school district with an average daily attendance of less than 2,501 pupils may apply to the board for a loan to cover the project activities of the first or second phase, as those phases were defined on July 1, 1993, of a project funded under this chapter. The loan shall not be utilized for the purchase of real property and shall be repaid by the school district either through a dedication of fees or charges levied pursuant to Section 17620 until the loan is repaid or upon receiving the project funding at the construction phase, but, in any event, the loan shall be repaid within five years from the date on which the board makes the loan. In addition to the other methods of repayment specified in this subdivision, the board may also notify the Controller if a school district is 90 days late in making loan repayments, in which case the Controller shall reduce the apportionments to which the school district is otherwise entitled

under Section 42238 as necessary to recover past due payments and any current payments.

(b) The board may make loans under this section to the extent that the board determines that funds are available for that purpose. The total annual maximum funds that may be loaned under this section is ten million dollars ($10,000,000) per fiscal year.

(c) The board may make loans under this section only for those projects and phases that have met all of the eligibility standards of the board and receive approval for an apportionment, but for which apportionment funds are not available. In any event, the amount of the loan shall not exceed the amount that would have been eligible for apportionment.

17005.5. The board may provide a loan to any school district from the proceeds of the sale of bonds pursuant to the School Facilities Bond Act of 1992, and the 1992 School Facilities Bond Act, to provide aid for school districts in accordance with this chapter, when those proceeds are available in the State School Building Lease-Purchase Fund. In order to provide a loan, both of the following conditions shall be met:

(a) The amount of the loan shall not exceed the amount set forth in legislation enacted that specifies the loan amount.

(b) The loan shall be repaid pursuant to a schedule set forth in legislation enacted that specifies a loan repayment schedule.

17006. (a) The board shall not enter into any lease with respect to an application for replacing inadequate school facilities unless it first has investigated and made a finding, or the governing board of a self-certifying district, as applicable, first certifies that it has investigated and made a finding, consistent with guidelines adopted by the board, that one or both of the following conditions exists:

(1) It would not be economical or good practice to rehabilitate those facilities.

(2) The school facilities are inadequate due to their susceptibility to repeated flooding. The board shall develop and adopt regulations that define inadequacy of school facilities on the basis of susceptibility to repeated flooding. The building area of any facility found to be inadequate pursuant to this subdivision shall be excluded, for the purposes of any application for the replacement of any facility, from the calculation under this chapter of the area of adequate school construction existing in the applicant school district.

(b) The self-certifying district shall maintain documentation of each investigation and finding it conducts pursuant to subdivision (a) as may be required by the board, and the investigation and finding shall be subject to subsequent audit as the board may direct.

(c) For purposes of this chapter, a "self-certifying district" as to any project to be funded under this chapter, is an applicant district that provides 50 percent or more of the cost of the project from funding sources other than any state program administered by the board.

17007. The State School Building Finance Committee, created by Section 15909 and composed of the Governor, Controller, Treasurer, Director of Finance, and Director of Education, all of whom shall serve thereon without compensation and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker, shall meet with and advise the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature.

For purposes of this chapter the Members of the Legislature shall constitute an interim investigation committee on the subject of this chapter and as an interim investigating committee shall have the powers and duties imposed upon interim investigating committees by the Joint Rules of the Senate and the Assembly. The Director of General Services shall provide any assistance to the committee that it may require. The Attorney General shall be the legal adviser of the committee.

17008. A fund is hereby created in the State Treasury to be known as the State School Building Lease-Purchase Fund. All money in the State School Building Lease-Purchase Fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated for expenditure pursuant to this chapter.

The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the State School Building Lease-Purchase Fund from any source.

17008.3. (a) The board may establish a revolving loan account within the State School Building Lease-Purchase Fund, and may allocate from the fund to that account those amounts it determines to be necessary for the purposes of this section.

(b) The board may apportion to any school district that submits to the board a statement of its intent to subsequently file a project application under this chapter, a loan for the purpose of advance planning and related administrative costs pursuant to the preparation of that application. The loan amount shall not exceed 3 percent of the estimated project cost, as determined pursuant to the building cost standards established under this chapter.

(c) If, within a period of 24 months following the receipt of any loan amounts under this section, the project for which those advance planning funds were provided has not been found by the board to be qualified for funding under this chapter, the board shall so notify the Controller, who shall reduce the apportionments to which the district is otherwise entitled under Section 42238 as necessary to repay the amount of all loans provided under this section, over such period of time as the board finds to be reasonable. The Controller shall transfer the amount of all apportionment reductions imposed under this

subdivision to the revolving loan account established under this section.

(d) The repayment of loan amounts received under this section by school districts other than those described under subdivision (c) shall be accomplished by the withholding, as determined by the board, of apportionment funds that would be available to the district for purposes of the project for which the district received funding approval under this chapter.

17008.5. The board may approve projects and make apportionments in amounts not exceeding those funds on deposit in the State School Building Lease-Purchase Fund plus any amount of bonds authorized by the State School Building Finance Committee but not yet sold by the Treasurer.

Disbursements may be made under any apportionment made from any funds in the State School Building Lease-Purchase Fund, irrespective of whether there exists at the time of the disbursement a sufficient amount in the State School Building Lease-Purchase Fund to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

17009. (a) The county superintendent of schools or county office of education shall be eligible to receive any funds from the portion of the proceeds of the sale of any state bonds that are set aside for the construction, reconstruction, or modernization of, or deferred maintenance on facilities to house special education pupils who are defined as severely handicapped and eligible pursuant to Section 17047.

(b) Subdivision (a) is only applicable if the county superintendent of schools or county office of education has filed with the State Allocation Board a regionalized facility plan, as developed and approved by the State Department of Education, that covers the county or special education local planning agency area of responsibility.

Article 2. Projects

17010. The board may construct any project, and may acquire all property necessary therefor, on any terms and conditions as it may deem advisable. When any part of the work is to be done or performed by any public body or the United States jointly or in conjunction with the board, the portion of the cost of the project to be borne by the board may be turned over to the government of the United States or to any other public body, to be expended by it in the acquisition, construction or completion of the project.

17011. The board may use for the payment of the costs of acquisition, construction or completion of any project any funds made available to the board by the State of California or any other funds provided by the board from any source, to be expended for

accomplishing the purposes set forth in this chapter, together with the proceeds of bonds issued and sold pursuant to the State School Building Lease-Purchase Bond Law of 1976.

17012. The board has full charge of the acquisition, construction, completion, and control of all projects authorized by them and may proceed with such work forthwith.

17013. Title to all property acquired, constructed, or improved by the board and the revenues and income therefrom, is in the State of California. All such property, and the income therefrom are exempt from all taxation by the State of California or by any county, city and county, city, district, political subdivision or public corporation thereof.

17014. (a) The board shall require the school district to make all necessary repairs, renewals, and replacements to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose will be borne by the school district.

(b) In order to ensure compliance with subdivision (a) and encourage applicants to maintain all buildings under their control, the board shall require the applicant to do all of the following prior to the approval of a project:

(1) Establish a restricted account within the district's general fund for the exclusive purpose of providing moneys for regular maintenance and routine repair of school buildings, according the highest priority to funding for the purpose set forth in subdivision (a).

(2) Agree to deposit into the account established pursuant to paragraph (1), in each fiscal year for the term of the lease agreements of all projects constructed under this chapter, a minimum amount equal to or greater than 2 percent of the applicant's General Fund budget for that fiscal year. This paragraph is applicable only to the following districts:

(A) High school districts with average daily attendance greater than 300.

(B) Elementary school districts with average daily attendance greater than 900.

(C) Unified school districts with average daily attendance greater than 1,200.

17015. The board shall require the school district to insure against public liability or property damage in connection with any project.

17016. The board, by the adoption of rules, may establish priorities for the construction and leasing of projects to those school districts the pupils of which will benefit most. The board may make exceptions from established priorities when it determines that to do so will benefit the pupils affected.

17017. Each school district that desires to lease a project for a grade level maintained by it, shall submit through its governing board an application therefor to the board in the form and number of copies that the board may prescribe. Immediately upon receipt of

an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the Director of General Services.

Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project.

Before the board approves an application for a construction project, it shall establish cost standards for all new construction included therein. The cost standards shall not exceed typical comparable new construction by school districts in the same area, or if there has been no new construction by school districts in the area, the cost standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine such typical current costs or such reasonable current costs. In applying cost standards the board shall take into account the size and type of the construction proposed and may make any deviations that in its judgment are justified. When a standard has been set by the board to cover any individual apportionment, no project shall be approved by the board in excess of the standard, unless the board shall find that in view of a subsequent increase in building costs an adjustment is warranted. No contract shall be let for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for the new construction.

17017.1. (a) The West Contra Costa Unified School District shall be ineligible for any state school facilities funding for a period of five years from June 30, 1993, or until the date of the final payment on its entire debt to the state, including both principal and interest, whichever is later.

Notwithstanding the above, the school district may continue to receive funding for deferred maintenance activities and for those purposes specified in subdivision (b).

(b) The State Allocation Board shall approve funding for only those Richmond Unified School District State School Building Lease-Purchase Program projects which were approved for Phase II apportionments on or before April 1, 1993. All West Contra Costa Unified School District projects may be considered for funding by the State Allocation Board either in five years or after the complete repayment of the loan established under Section 41471, whichever is later.

(c) In the event that the State Allocation Board approves the replacement of the existing Belding Elementary School with funds currently allocated for the modernization of the Harry Ells Middle School and the Samuel Gompers Middle School, that approval shall be considered allowable exemption under subdivision (b). Authority for this exemption is repealed on November 1, 1993, if approval of

Phase III construction apportionment for the replacement of the existing Belding Elementary School has not occurred.

In allowing for the possibility of this exemption, it is not the intent of the Legislature to interfere in any way with the decisionmaking authority and process of the State Allocation Board. It is the intent of the Legislature that a proposal to replace the existing Belding Elementary School with funds currently allocated to the modernization of the Harry Ells Middle School and the Samuel Gompers Middle School be submitted to the State Allocation Board under its existing procedures and policies. The State Allocation Board's decision shall be based on the merits of the proposal, not this exemption authority. Specifically, this subdivision may not be used as justification for approval of a project to replace the Belding Elementary School.

(d) Any properties or facilities designated by the school district to be used for other than school purposes to generate capital to repay the outstanding debt shall be ineligible for deferred maintenance funding. Should any facilities receive funding for those purposes after the enactment of this legislation, and later be declared available for purposes intended to repay the debt, the value of state funding received for deferred maintenance at that facility shall be deducted from ongoing or future deferred maintenance projects in the district.

If no projects are available for offset of apportionments, the value of the deferred maintenance performed will be added to the outstanding loan balance.

17017.5. (a) The board may approve, in whole or in part, an application submitted by a school district under Section 17017 or 17020 in an amount not exceeding the amount applied for as the board may deem appropriate.

(b) The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make apportionments of project funding not exceeding in the aggregate the total amount determined by the board under subdivision (a) for the portion or portions of the project for which the board determines the district is ready to proceed. Subsequent to the board's approval of a project, any requirement imposed by the board that the compliance of the project with building cost or area standards and related guidelines adopted by the board be established as a condition of the apportionment of funds under this chapter shall be satisfied, as to a project for a self-certifying district, by the certification by the district of that compliance. In addition, the board shall not require that estimates of average daily attendance be updated as to that project more often than once every 12 months subsequent to the board's approval of the project. The self-certifying district shall maintain documentation of the compliance certified pursuant to this subdivision as may be required by the board, and that compliance shall be subject to subsequent audit as the board may direct.

(c) Whenever a district files an application, the board shall require the district to submit to the board and the State Department of Education a five-year plan for construction and rehabilitation of school facilities, and to obtain the written approval of the department that the plan complies with standards that are established by the department for this purpose to ensure that the applicant district has adequately anticipated its school facilities needs and identified funding sources as necessary to meet those needs. The plan may be adjusted to reflect adjusted growth targets.

(d) The board shall not approve any application under this chapter after January 1, 1990, unless accompanied by a study examining the feasibility of implementing in the district a year-round multitrack educational program that is designed to increase pupil capacity in the district or in overcrowded high school attendance areas by at least 20 percent.

(e) The board may waive subdivision (d) or the requirements of Section 17017.7, or both, if a school district demonstrates that these requirements will result in a particular educational or financial hardship to the district. Further, the board shall waive subdivision (d), if it finds that there is clear hardship to a district due to declining enrollment or no growth.

17017.6. Notwithstanding Section 17017.7, the definition of "substantial enrollment" set forth in that section shall apply only to elementary and unified school districts. For a high school district, "substantial enrollment in multitrack year-round schools," for the purposes of Section 17017.7, means that at least 30 percent of the pupils enrolled in the high school district are enrolled in multitrack year-round schools, or that 40 percent of the pupils enrolled in public school in kindergarten and grades 1 to 12, inclusive, within the boundaries of the high school attendance area for which the school district is applying for new facilities are enrolled in multitrack year-round schools. In addition, a high school district shall be deemed to have a substantial enrollment in multitrack year-round schools for purposes of Section 17017.7 if, at the option of the district, the entire high school to be constructed is to operate on a multitrack year-round basis.

17017.7. (a) Notwithstanding any other provision of this chapter, priority for the approval of project funding for new construction under this chapter, shall be as follows:

(1) First priority for construction funds shall be given to school districts with a substantial enrollment in multitrack year-round schools requesting state funding for 50 percent of the cost of a project that would be constructed to operate on a multitrack year-round basis.

(2) Second priority shall be for school districts with a substantial enrollment in multitrack year-round schools requesting state funding for the entire cost of a project that would be constructed to operate on a multitrack year-round basis.

(3) Third priority shall be for school districts without a substantial enrollment in multitrack year-round schools requesting state funding for 50 percent of the cost of a project to operate on a multitrack year-round basis.

(4) Fourth priority shall be for school districts without a substantial enrollment in multitrack year-round schools requesting state funding for the entire cost of a project that would be constructed to operate on a multitrack year-round basis.

(5) Fifth priority shall be for school districts with a substantial enrollment in multitrack year-round schools requesting state funding for 50 percent of the cost of a project that would not operate on a multitrack year-round basis.

(6) Sixth priority shall be for school districts with a substantial enrollment in multitrack year-round schools requesting state funding for the entire cost of a project that would not operate on a multitrack year-round basis.

(b) The board shall not restrict the availability of funding for construction of multitrack year-round schools, from any funding source available to the State School Building Lease-Purchase Fund, but shall make approval of project funding for those projects the first priority in accordance with this section.

(c) "Substantial enrollment," for the purposes of this section, means enrollment of at least 30 percent of district pupils in kindergarten and grades 1 to 6, inclusive, or 40 percent of pupils in kindergarten and grades 1 to 12, inclusive, in the high school attendance area for which the school district is applying for new facilities. The calculation set forth in this subdivision, as to a self-certifying district, shall be made by the district, in accordance with any standards governing that calculation that are adopted by the board. The calculation shall be certified by the district to the board and used by the board for the purposes of this section. The self-certifying district shall maintain documentation of the calculation as may be required by the board, and the calculation shall be subject to subsequent audit as the board may direct. If a self-certifying district is found by the board to have materially misrepresented its pupil enrollment pursuant to this subdivision, the board may impose either or both of the penalties set forth in paragraphs (1) and (2) of subdivision (b) of Section 17041.2, in accordance with that section.

(d) "Multitrack year-round school," for purposes of this section, means a school for which the applicant district demonstrates that both of the following criteria are satisfied:

(1) The pupils are divided into three or more groups or tracks, which rotate attendance so that, for a majority of schooldays during the school year, at least one group or track is not attending the school while all other groups or tracks are in attendance.

(2) The operation of the school on a multitrack year-round basis has resulted in an increase in enrollment capacity.

(e) Notwithstanding any other provision of this section, the State Allocation Board may continue to implement any year-round school priority provisions for hardships adopted prior to September 1, 1990.

17017.9. (a) Notwithstanding any other provision of law, a project shall be accorded, subject to subdivision (b), the priority status that otherwise is accorded under Section 17017.7 to a project for which state funding is requested for only 50 percent of the cost, if both of the following conditions are met:

(1) The applicant district documents to the satisfaction of the board that it has incurred bonded indebtedness in an amount not less than 95 percent of the bonding capacity of the district.

(2) The applicant district agrees that all of the following local resources of the district existing on or after the date of the district's first application for project funding pursuant to this section shall apply toward the cost of projects for which the district requests state funding pursuant to this chapter, not to exceed 50 percent of the cost of any project:

(A) Any unexpended bonding capacity of the district.

(B) Funding that is made available to the district from local sources expressly for school facilities purposes, including, but not limited to, funding provided under Chapter 2.5 (commencing with Section 53311) of Division 2 of Title 5 of the Government Code and developer fees or other charges imposed pursuant to Section 17620, or Title 7 (commencing with Section 65000) of the Government Code.

(b) An applicant district qualifying for the priority status described in subdivision (a) as to any project shall continue to be accorded that status for all subsequent projects under this chapter until the time that the bonding capacity of the district determined for purposes of that subdivision increases by 20 percent.

(c) The condition set forth in paragraph (2) of subdivision (a) shall apply until either the applicant district's eligibility under this section terminates pursuant to subdivision (b), or funding for the district is approved and apportioned under this chapter for a project for which 50 percent or more of the cost is provided by the district from funding sources other than any state program administered by the board, whichever occurs first.

(d) Notwithstanding any other provision of law, as to any project for which priority status is accorded pursuant to subdivision (a), the estimate of average daily attendance for the applicant district may be calculated, upon request of the district, in the manner set forth in subdivision (a) of Section 17040.3.

17018. In approving applications pursuant to this chapter, the board shall encourage the design and construction of facilities which will conserve unreplenishable energy resources by consideration of alternate design and insulation concepts as well as unconventional energy sources. In so doing, the board may increase cost allowances to reflect the difference between conventional and unconventional

concepts when the board is satisfied that the life cycle cost of the project is not expected to exceed the life cycle cost of a conventionally designed project.

17018.5. (a) The Legislature intends for the board to encourage school districts to utilize alternative methods to fund school facilities.

(b) The board shall approve applications pursuant to the requirements of this section that request the board to share a portion of the cost of projects constructed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth by Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code. The board shall disregard the fact that structures have been constructed in accordance with that act, and neither consider nor approve any application for cost sharing until the time that the applicant school district would have become eligible for approval of its application during the normal process established for considering and approving applications.

(c) The board shall approve applications for cost sharing based on both of the following factors:

(1) Estimates of average daily attendance at the time the application is considered.

(2) The amount of cost sharing requested.

(d) The costs shared by the board shall be an amount equal to the cost that would have been allowed for the project had it been originally approved pursuant to this chapter less 5 percent per year depreciation, exclusive of land, for each year that the project was constructed in advance of the application approval, but no more than the lesser of an amount equal to 75 percent of the allowable cost of the project or the principal amount of any outstanding callable bonds and other debts incurred to finance the project under the Mello-Roos Community Facilities Act of 1982.

(e) If the board utilizes a point system to prioritize applications for funding, the computation of priorities for an application pursuant to this section shall be increased by 4 percent for each year from the date of construction of the project to the date of approval of the cost-sharing application.

17019. Before the board approves any project that includes the acquisition of furniture or equipment, it shall establish current cost and quality standards for furniture and equipment, including, but not limited to, educational technology hardware. The standards shall not exceed the cost and quality of furniture and equipment for comparable facilities purchased by school districts in the same area. The standards shall consist of furniture and equipment costs for each type of classroom or pupil station having different cost criteria. The standards shall be reviewed quarterly by the board and adjustments made in accordance with actual current costs. When cost and quality standards have been adopted by the board, the standards shall not be exceeded unless a subsequent increase in actual current costs warrants an adjustment.

Before the board approves a project for the replacement, reconstruction, or alteration of, or addition to, a school building, full consideration shall be given to all usable furniture and equipment existing in the applicant district. The board may approve all or a portion of the amount applied for.

17019.3. (a) Any applicant school district may contract with a firm, as defined in Section 4525 of the Government Code, for construction project management services to assist in the development or implementation of a project for which the district has applied for funding under this chapter, subject to the requirement that a performance bond be required from all building contractors hired to construct the project in order to ensure the completion of performance under the contract.

(b) That portion of any contract, as described in subdivision (a), concerning the final phase of construction of the project, shall be submitted by the applicant district to the board for approval. If the board does not approve, reject, or recommend modifications to, that contract portion within 15 business days after receiving that contract information, that portion of the contract shall be deemed to be approved by the board.

(c) From the amount of funding approved by the board under this chapter for any project, the board shall authorize the expenditure of funds for the costs of construction project management services provided to the project, as described in subdivision (a), where the board finds that the contracting for those services was necessary and appropriate to the school district's development or implementation of that project.

17019.5. For a school district having an average daily attendance of 2,500 or less for the prior fiscal year, the board may approve, subject to the building cost standards established under this chapter, a supplemental apportionment up to five thousand five hundred dollars ($5,500) for any new construction project, and up to one thousand three hundred twenty dollars ($1,320) for any other project approved under this chapter, as reimbursement for administrative expenses incurred by the district in filing the application for the project. The amount of the supplemental apportionments shall be adjusted in 1990, and every two years thereafter, by the board at its January meeting, which adjustment shall be in an amount equal to the amount of the adjustment for inflation set forth in the statewide cost index for class D construction.

17020. (a) Notwithstanding other provisions of this chapter, in order to expedite a total school facility a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on the justification documents for the total school facility. The school district may apply for a subsequent project or projects to complete the total school facility.

(b) Any application filed pursuant to this section shall be subject to all provisions of this chapter generally applicable to project applications, to the extent not in conflict with this section.

(c) Any estimate of average daily attendance made by an applicant district for the purpose of justifying an application pursuant to this section may be made for up to and including two years longer than the period of time permitted by Section 17040.

(d) Beginning in the fifth fiscal year following the fiscal year in which any apportionment is made to a school district pursuant to this section, the district shall repay the apportionment, with interest, in 10 equal annual installments, unless and until the district has qualified for an apportionment pursuant to an application for utilization of the site under this chapter. These repayments shall constitute rent, and shall be in addition to any other rents or fees for which the district is obligated under Section 17032. The board may waive any obligation of repayment under this subdivision to the extent that the board finds that the obligation will result in an extreme hardship upon the district.

(e) The school district may apply for a subsequent project or projects to complete the total school facility.

17021. No project shall be approved for the reconstruction, modernization, or replacement of any school building that was constructed or reconstructed less than 30 years, or, in the case of any portable classroom, as defined in subdivision (e) of Section 17042.5, less than 20 years, prior to the date of approval of the project applied for under this chapter.

17021.3. (a) For purposes of this chapter, "modernization" or "renovation" means any modification of an existing structure, the costs of which do not exceed 25 percent of the replacement cost of that structure.

(b) No project shall be approved for the modernization of any school facility unless and until both of the following are demonstrated to the satisfaction of the board:

(1) The project will enhance the capacity of the facility to achieve one or more educational purposes.

(2) The resulting pupil capacity of the facility, as measured in units of average daily attendance, will equal or exceed 80 percent of the facility's maximum capacity as determined under the board standards established under this chapter.

(c) No project shall be approved for the modernization of any school facility that was constructed less than 30 years prior to the date of the approval of the project applied for under this chapter.

(d) The State Allocation Board may waive the requirement in subdivision (c) if the building has been declared by the Office of the State Architect to be, or is in imminent danger of becoming, a health or safety hazard to the pupils. This determination may only be made in the case of a natural disaster, for example, fire, flood, or

earthquakes, or as a result of a determination by a qualified engineer, and agreed to in writing by the Office of the State Architect.

17021.4. Notwithstanding the limitation set forth in subdivision (a) of Section 17021.3, the costs of a modernization or renovation project funded under this chapter may exceed 25 percent of the replacement cost of an existing structure where the costs in excess of that amount are funded by the district exclusively from sources other than any state program administered by the board. For each project, the total costs of the modernization or renovation project, as supplemented pursuant to this section, may not exceed 50 percent of the replacement cost of the existing structure except to the extent of those costs funded by the district, from sources other than any state program administered by the board, that are expended to conform that structure to current building standards, in which event the total costs of the project may not exceed 75 percent of the replacement cost of the structure.

17022. Except as provided in Section 17041, the board shall not approve any new school facilities for any applicant school district or county superintendent of schools until it first has made a determination that the applicant will utilize all existing facilities and sites to the extent economically and practically feasible. The board may also require the applicant to explore cooperative efforts with adjacent districts or, in the case of county superintendents of schools, with adjacent county superintendents of schools, in order that all existing or planned facilities in the general area of need shall be utilized.

17022.7. (a) The funding for any reconstruction project approved by the board pursuant to this chapter that meets the requirements set forth in subdivision (b) shall include all of the following, not to exceed the total cost of the reconstruction project or 75 percent of the replacement cost of the facility to be reconstructed, whichever is less:

(1) Twenty-five percent of the replacement cost of the facility.

(2) A funding entitlement to the extent that the reconstruction will result in an increased capacity of the facility to house pupils, calculated pursuant to the cost standards for new construction established by the board under Section 17017.

(3) Any costs incurred by the district as required to ensure that the facility, as reconstructed, complies with applicable structural safety standards for school buildings pursuant to Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365) of Chapter 2 of Part 10.5, and Article 7 (commencing with Section 81130) and Article 8 (commencing with Section 81160) of Chapter 1 of Part 49.

(b) In order to qualify for the funding entitlement set forth in subdivision (a), a school district reconstruction project shall be required to meet all of the following conditions:

(1) The facility to be reconstructed is at least 30 years old as of the date the application is filed.

(2) The cost of the reconstruction project exceeds 25 percent of the replacement cost of the facility.

(3) The reconstruction will result in an increased capacity of the facility to house pupils.

(c) No reconstruction project shall be approved under this chapter for which the total cost exceeds 75 percent of the replacement cost of the facility to be reconstructed.

17023. Nothing contained in this chapter shall be construed as changing the powers and duties of the Department of Education or the Department of General Services in respect to schoolsites and the construction of school buildings as contained in Chapter 1 (commencing with Section 17211) and Chapter 2 (commencing with Section 17251) of Part 10.5.

17024. (a) The board shall not authorize the selection of any schoolsite, or a contract for the construction of any new school building, or for any addition to, or alteration of, any existing building, for lease-purchase to any school district, unless the applicant district has obtained the written approval of the State Department of Education that the site selection, and the building plans and specifications, comply with the standards adopted by the department pursuant to subdivisions (b) and (c), respectively, of Section 17251.

(b) A self-certifying district shall comply with subdivision (a) by certifying to the State Department of Education and the board that the site selection, and the building plans and specifications, comply with the standards adopted by the department pursuant to subdivisions (b) and (c), respectively, of Section 17251. The self-certifying district shall maintain documentation of the determinations made pursuant to this subdivision as required by the board. Those determinations shall be subject to subsequent audit by the State Department of Education in accordance with this section.

(c) The State Department of Education shall conduct random audits of the information certified by self-certifying districts pursuant to subdivision (b), using generally accepted auditing principles, at any time to ensure compliance with the law.

(d) If any information certified by a self-certifying district pursuant to subdivision (b) is found by the department to contain any material inaccuracy, the department shall so notify the board. The board shall thereupon impose both of the following penalties:

(1) Pursuant to a repayment schedule approved by the board of no more than five years, the district shall repay to the board, for deposit in the State School Building Lease-Purchase Fund, an amount equal to the amount of project funding allocated under this chapter to acquire any site that was selected in material violation of the standards adopted by the department pursuant to subdivision (b) of Section 17251, together with interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of

interest for the most recent issue of state general obligation bonds as established pursuant to Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater. The amount of any repayment owing under this paragraph for any fiscal year, which is not repaid otherwise by the district, shall be withheld by the board from any project funding that otherwise would be allocated to that district under this chapter in that fiscal year. As to any repayment obligation remaining for that fiscal year, the board shall notify the Superintendent of Public Instruction, who shall withhold the amount of that remaining obligation from the apportionments to be made to the district from the State School Fund in that fiscal year.

(2) The board shall prohibit the district from exercising the self-certifying authority under subdivision (b) under any subsequent applications for project funding for a period of up to five years following the date of the finding of a material inaccuracy, or until the district's repayment of the entire amount owing under paragraph (1), whichever occurs later.

(e) Any school district against which the board imposed the penalties under paragraphs (1) and (2) of subdivision (d) may submit for binding determination by an arbitrator the issue of whether the penalties imposed are disproportionate to the inaccuracy certified by the district. Except as otherwise provided by this chapter, the procedure governing the arbitration shall be as set forth in Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure.

(f) It is the intent of the Legislature that audits as described in this section not interfere with the application and construction process under this chapter unless one or more violations are discovered.

17024.5. Upon request of any school district, the State Department of Education shall provide assistance in the evaluation and utilization of existing school facilities and the justification of the need for schoolsites, new facilities, and the rehabilitation or replacement of existing facilities, in accordance with board regulations.

17025. (a) The board shall not authorize a contract for the construction of any new school, or for the addition to, or reconstruction or alteration of, any existing building, for lease-purchase to any school district unless the applicant district has submitted plans therefor to the Department of General Services and obtained the written approval of the department pursuant to Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5.

(b) The board, or the self-certifying district, as applicable, shall certify the compliance of a project with Sections 17212, 17212.5, and 17213, with Division 13 (commencing with Section 21000) of the Public Resources Code, and with any other law that applies to that project, but may require documentation of compliance only as to requirements that are applicable under this chapter.

Notwithstanding any other law, for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code, the applicant district shall be deemed to be the "lead agency" with regard to any project funded for that district under this chapter.

17029. (a) The board shall authorize the applicant school district to act as its agent in the performance of acts specifically approved by the board and all acts required pursuant to Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5. That authorization shall include, but is not limited to, the selection of schoolsites, the securing of appraisals, the contracting for architectural services, the advertisement for construction bids and the entering into of contracts therefor and the purchase of furniture and equipment.

(b) If, pursuant to the authority granted under subdivision (a), a self-certifying district submits to the board two or more independent appraisals and certifies to the board that the appraisals were performed by appraisers licensed or certified in accordance with Part 3 (commencing with Section 11300) of Division 4 of the Business and Professions Code and were obtained in accordance with standards and procedures imposed by the board for that purpose, the district shall not be required to document its compliance with those standards and procedures except as specified in Section 17041.2. In addition, the board shall use any of those appraisals, including an appraisal that is not the highest bid appraisal, for the purposes of this section, except that the board may substitute, for the results of those appraisals, the results of one or more independent appraisals, which may include an appraisal performed by the Department of General Services, obtained by the board for that purpose.

(c) If, pursuant to the authority granted under subdivision (a), any bid reported to the board by a self-certifying district as the lowest responsible bid for a construction contract does not exceed the cost limit established by the board for that purpose, and the district certifies to the board that the bid was obtained in accordance with standards and procedures imposed by the board for that purpose, the district shall not be required to document its compliance with those standards and procedures except as specified in Section 17041.2.

17029.5. Notwithstanding any other provisions of this chapter, the funding by the board of contracts entered into by a school district pursuant to this chapter shall not, in itself, make the board liable for any tort, breach of contract, or any other action for damages caused by a school district arising from those contracts. These contracts include, but are not limited to, contracts between the school district and its construction contractors, construction managers, architects, or engineers. The school district shall be liable for all torts, breaches of contract, or any other actions for damages caused by the school district.

17030. (a) In expending funds for any project under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings

constructed, altered or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

(b) The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing the real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. The certificate shall, as to any party thereafter acquiring real property or any interest therein in the county from the school district, have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. That effect shall commence upon recordation and shall continue until the certificate is discharged or released as provided herein.

(c) Upon request, the Director of General Services shall issue either of the following:

(1) A release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under Section 17039, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest.

(2) A disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under the terms of Section 17039, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interest of the state, including conditions relating to the amount of consideration to be received from the disposition where the board asserts an interest in the proceeds of such disposition under other provisions of this chapter. The release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

(d) Upon payment by the district of all amounts required to be paid by it, or on its behalf, to the state under this chapter, each of the following shall occur:

(1) The Director of General Services shall file with the county recorder a release of any certificate, which release shall be recorded and indexed in the same index as the certificate.

(2) The title to personal property purchased by the school district with funds apportioned under this chapter shall revert thereto without further action by the state.

17030.2. Notwithstanding any other provision to the contrary, all lease agreements shall terminate 40 years from the date of execution

and title to the property covered therein shall revert to the district as though full payment had been made.

17030.3. Notwithstanding any other provision of this chapter, any project funded under this chapter that involves only the identification, assessment, or abatement of hazardous asbestos in school facilities shall not be subject to Section 17014 or 17032, nor shall that funding cause the transfer to the state of title or any other property interest in the subject facilities.

17030.5. Notwithstanding any provision to the contrary, no funds authorized by any act for the purpose of this chapter may be expended for any purpose without specific authorization from the board or its designated representatives.

17030.6. From any moneys in the State School Building Lease-Purchase Fund, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

17031. The applicant district, acting as agent for the state, shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to school buildings.

17032. The board shall fix rents for all projects acquired and may change the rents from time to time as may be needed provided the rents shall not in any year exceed the sum of the following:

(a) One dollar ($1).

(b) Any interest earned on funds in the county school lease-purchase fund for the district.

(c) Any unencumbered bond funds of the district, exclusive of funds that are used by the district to fund a project pursuant to Section 17040.2.

(d) The net proceeds from the sale or lease of any school buildings or land no longer needed for school purposes, exclusive of proceeds that are used for capital outlay expenditures for school construction that conforms to building area standards established under this chapter, for revenue purposes under a joint venture as authorized by Section 17032.3.

17032.3. (a) Any school district for which one or more projects has been funded under this chapter may, pursuant to written agreement with any other public or private person or entity, utilize any school buildings, land, or other real property interest that the governing board determines is not needed for school purposes, and will not be needed for school purposes within the next 30 years, in a joint venture with that person or entity to generate revenues for school facilities purposes, pursuant to the following conditions:

(1) The district has developed a school district asset utilization plan, setting forth the information required under subdivision (b), which plan has been the subject of a public hearing, and the governing board of the district has made the finding that the implementation of the plan will benefit the district.

(2) Prior to the execution by the school district governing board of any agreement regarding the utilization of the school buildings or land, or both, under a joint venture pursuant to this section, the school district asset utilization plan has been submitted for, and has received, the review and approval of the State Allocation Board. No later than 90 days after the receipt of the plan, the board shall determine whether to approve the plan, which approval shall be granted if the board finds the plan to comply with this section.

(3) Once every three years after the approval of any plan pursuant to paragraph (2), the school district shall update the plan with information regarding the disposition of the revenues received by the district from the utilization of the school buildings or land, or both, under the joint venture, including the effect of those revenues upon the school facility needs for which the district may otherwise be eligible under this chapter or under any other school facilities program administered by the board, together with such other information as the board may require, and shall resubmit the plan to the board for its review and approval. In the event that the board refuses to approve the plan on the basis that the district is no longer in substantial compliance with this section, the surplus school buildings or land, or both, utilized under the joint venture shall no longer be exempt from the rental requirements of Section 17032.

(4) Pursuant to a school district asset utilization plan approved under this section, the school district may utilize school buildings or land, or both, in a joint venture, the revenues from which shall be placed by the district in a separate fund. The principal and interest from that separate fund may be expended by the district only for the following school facilities purposes, as authorized under the approved plan, in accordance with the pupil loading and cost standards established pursuant to this chapter: the acquisition of land, new construction, reconstruction, modernization, rehabilitation, and deferred maintenance.

(b) For purposes of this section, a school district asset utilization plan shall include, but not necessarily be limited to, all of the following:

(1) A specific description of the surplus school buildings or land, or both, to be utilized under the joint venture.

(2) The identification of the current educational uses of the surplus school buildings or land, or both, and of the educational uses proposed under the joint venture.

(3) The identification of the current noneducational uses of the surplus school buildings or land, or both, and of the noneducational uses proposed under the joint venture, and a specific assessment of the compatibility of those uses with any applicable general or specific governmental land use plans and with applicable zoning restrictions.

(4) A description of the prospective economic benefits to be derived by the district from the joint venture.

(5) A description of the prospective educational benefits to be derived by the district from the joint venture.

(6) A comprehensive description of the joint venture, including, but not limited to, a description of the intended means of financing the joint venture.

(7) A plan for the disposition of the revenues received by the district from the joint venture.

17033. Rent, charges, and fees collected in error may be refunded by the board in accordance with regulations prescribed by the board.

17034. A county school lease-purchase fund is hereby created in the county treasury within each county for each school district project in the county.

17035. The board may from time to time authorize the Controller to transfer any funds that the board may deem necessary from the State School Building Lease-Purchase Fund established for a given project to the corresponding county school lease-purchase fund in the county treasury.

17036. (a) Except as provided in subdivision (b), funds may be expended from the county school lease-purchase fund by the applicant school district only when specifically authorized by the board for either direct project costs or reimbursements.

(b) Upon specific authorization by the board, applicant school districts may be reimbursed from the county school lease-purchase fund for expenditures, or commitments therefor, made prior to the approval of a project by the board, subject to all of the following conditions:

(1) The expenditures or commitments were made in accordance with the terms of the approval of a project.

(2) The expenditures or commitments were made not more than four years prior to the approval of a project.

(3) The expenditures or commitments do not include any cost incurred for construction of a project.

17038. The board shall require school districts to insure at their own expense for the benefit of the state, all sites, equipment and buildings which are, under Section 17030, the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No project funds shall be used to pay the premiums on such insurance. All payments resulting from claims made against said insurance shall be made payable to and retained by the board. Funds so received shall be utilized by the board for repair or replacement of the facilities for which claim was made. In no event may the amounts expended from such funds for such repair or replacement exceed the payments received.

17039. (a) Not more than one hundred fifty million dollars ($150,000,000) of the moneys authorized by the State School Building Lease-Purchase Bond Law of 1982 (Sec. 34, Ch. 552, Stats. 1995) shall

be reserved for the reconstruction or modernization of facilities within the meaning of this chapter.

(b) For purposes of this section, the State Allocation Board shall establish a separate priority system which shall be based on the following factors and any other factors which the board determines are appropriate:

(1) Structural condition and age of the building.

(2) Percentage of pupils affected in the district or attendance area.

(3) Degree of utilization of eligible buildings.

(4) Other building code deficiencies, such as health, safety, or electrical problems.

17039.1. Not more than two hundred million dollars ($200,000,000) of the moneys authorized by the State School Building Lease-Purchase Bond Law of 1982 (Sec. 34, Ch. 552, Stats. 1995) shall be reserved for the reconstruction or modernization of facilities within the meaning of this chapter.

17039.2. Of the moneys reserved for the rehabilitation or modernization of facilities pursuant to Section 17039.1, the board may reserve not more than twenty-five million dollars ($25,000,000) for apportionments to school districts that the board has determined to be in severe need of the apportionment. In addition, of the moneys reserved for the reconstruction or modernization of facilities pursuant to Section 17696.96 of the Greene-Hughes School Building Lease-Purchase Bond Law of 1986 (Sec. 34, Ch. 552, Stats. 1995), the board may reserve up to and including 10 percent for this purpose. In either event, the apportionment shall be for purposes of site acquisition and the construction of school facilities for schoolsites that meet one or more of the conditions established by the board, which shall include, but are not limited to, the following:

(a) The schoolsite is not less than 30 years of age.

(b) The schoolsite has accommodated a significant increase in enrollment during the last 10-year period.

(c) Enrollment increases have been accommodated by placing relocatable structures on the schoolsite without expanding the schoolsite.

(d) The schoolsite has inadequate playground space for its enrollment.

(e) The schoolsite has inadequate meal facilities, and those facilities are used for more than three times the number of pupils for which the facilities were originally designed.

Article 3. Allowances

17040. Except as provided in Section 17041, no project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building

construction per unit of estimated average daily attendance in excess of that computed in accordance with Sections 17043, 17044, 17045, and 17046.

As used in Sections 17041.5, 17043, 17044, 17045, and 17046, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 17045 and 17046, "attendance center" means a school maintained or to be maintained at a given location within a district. Enrollment projections shall be made for the third fiscal year beyond the fiscal year in which the application is made for a project for kindergarten or any of grades 1 to 6, inclusive, and for the fourth fiscal year beyond the fiscal year in which the application is made for a junior high school or high school project. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter, pupils attending grades 7 and 8 in an elementary district, but residing in a high school district that maintains one or more junior high schools, shall not be considered in determining or estimating the average daily attendance of the elementary district, unless one of the following conditions is met:

(a) The elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1975.

(b) The elementary district, by a vote of the electorate at an election held on June 2, 1981, withdrew its 7th and 8th grade pupils from the high school district.

(c) The elementary district, by a vote of the electorate at an election held on November 4, 1980, withdrew its 7th and 8th grade pupils from the high school district and the high school district continues to qualify for a project, other than a project pursuant to Section 17041, on the basis of the remaining 7th and 8th grade pupils. In no event shall a facility be constructed for the withdrawn 7th and 8th grade pupils at a distance less than one and one-half miles from the nearest proposed or existing junior high facility.

When these pupils are so considered in determining or estimating the average daily attendance of the elementary district, they shall not be considered in determining or estimating average daily attendance of the high school district for junior high school purposes.

17040.1. (a) The allowable building area of any project, as calculated under this article, may be increased by any applicant school district, where the increase is funded exclusively from sources other than any state programs administered by the State Allocation Board. Any increase in building area pursuant to this section in a

project for which construction commenced on or after January 1, 1987, not to exceed 110 percent of the area that would be allowed under applicable state standards, shall be excluded from the calculation of the area of adequate school construction for the purposes of all subsequent project applications by the district under this chapter.

(b) The maximum building cost permitted for any project under this article may be increased, by not more than 10 percent, by any applicant school district, where the increase is funded by the district exclusively from the proceeds of a general obligation bond measure approved by the voters of the district or of a special tax pursuant to the formation of a community facilities district under Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, or both. In order to qualify for this purpose, any tax or other charge authorized pursuant to that approval or formation, respectively, shall apply uniformly to all taxpayers or all real property within the school district, rather than to a particular class of property or taxpayers, and shall require that the amount of the school facilities fee or other requirement that may be levied by the school district pursuant to Section 17620, in addition to that tax or other charge, not exceed the amount deemed by the governing board to be necessary for the interim school facilities needs of the district.

17040.2. Where 75 percent or more of the total cost of a project approved under this chapter is to be funded by the applicant district from sources other than any state program administered by the board, the area of the allowable new building construction for that project, and the amount of the building cost allowed for that project under this chapter, shall each be increased by 5 percent, plus 1 percent for each 1 percent by which that local contribution exceeds 75 percent.

17040.3. (a) Notwithstanding any other provision of this part, the estimate of average daily attendance for an applicant school district shall be calculated for up to and including two years longer than the period of time permitted by Section 17040, as requested by the district, where 50 percent or more of the cost of the project is provided by the district from funding sources other than any state program administered by the board. For the purposes of any subsequent project application from that district based upon additional growth in pupil enrollment, the estimate of average daily attendance shall be based on enrollment projections for any period of time, as requested by the district, up to and including that permitted by Section 17040.

(b) The project shall be "fast tracked." For purposes of this section, "fast tracking" means that the total amount of project funding eligibility shall be established upon the board's approval of the project, which shall be subsequently disbursed as necessary for the development and construction of the project without the

prerequisite of any additional state certification or other state-conducted review of project eligibility. Based upon the results of an audit to be conducted upon completion of the project, the board or the applicant district, as appropriate, shall pay to the other any amount that is necessary to conform to the allocation of project costs determined upon the board's approval of the project.

In the event that the applicant district has not executed all contractual agreements necessary for the complete construction of the project within a period of 18 months following the board's approval of the project, this subdivision shall cease to apply to the project with regard to any state funding of the project not yet disbursed. Upon request of the applicant district and approval by the board, this 18-month period may be extended for an additional period of up to six months to account for one or more delays resulting from circumstances beyond the district's control.

17040.4. Notwithstanding any other provision of this part, the board may use, for purposes of determining the estimate of average daily attendance for an applicant school district, a master plan that has been prepared by a district that includes the additional pupils due to increases in housing units within the boundaries of the district or attendance area. Before a master plan may be used, both of the following conditions shall be satisfied:

(a) The city, county, or city and county has obtained approval of a local general obligation bond or has obtained funds pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth by Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, to provide local matching funds for school facility projects for which approval is being sought pursuant to this section.

(b) At least 60 percent of the total cost of the project for which approval is being sought shall be provided by funding sources other than any state program administered by the board.

17040.5. Notwithstanding any other provision of this article, the board shall exclude the area of enclosed stairs and appropriate landings for each floor level served from the computation of the allowable building area of multistory buildings for any applicant school district.

17040.6. (a) For any school of two or more stories, the project funding provided under this chapter shall include, at the request of the applicant district, the costs of any or all of the following:

(1) Compliance with applicable requirements of law for fire safety, and for handicapped access, as a result of the multistory design.

(2) Playground apparatus.

(3) Duct shafts, utility tunnels, and pipe conduit chases.

(4) Security items required as a result of the multistory design.

(b) In calculating the maximum project funding that may be allocated for parking, landscaping, and other general schoolsite

improvements, which calculation is determined in proportion to the total building cost or area approved for funding under the project, the total building cost or area approved for funding under the project shall be computed by the board to include any increase in project building area, as authorized under Section 17041.8. The applicant district shall provide the board information on how the supplemental project funding will be allocated to relieve the effects resulting from less than the specified land area for the schoolsite.

(c) This section shall apply to any application for project funding under this chapter for which the final apportionment for construction of the project had not been made on or prior to December 1, 1987.

(d) For any project approved under this chapter, the amount of project funding granted by the board shall include the actual and reasonable costs incurred by any applicant district for the revision of its project application for the purpose of qualifying for supplemental project funding as authorized by this section.

17040.7. Notwithstanding any other provision of this article, the board shall provide that building area for enclosed hallways in the second or higher story of any building shall be counted as two-thirds of the actual area. For purposes of this section "enclosed hallways" includes, but is not limited to, all of the following:

(a) Covered passages, arcades, shelters, porches, and planting areas.

(b) Enclosed covered areas that provide shelter between buildings that are 20 feet or more apart.

(c) Sun control devices designed and located to function in lieu of covered walks or other shelters.

(d) Mezzanines used for storage purposes.

17040.8. Where an applicant district that is eligible under this chapter for project funding of new construction of school facilities on an existing schoolsite, which site has less than 50 percent of the land recommended under State Department of Education guidelines, as published in the School Site Analysis and Development Handbook in effect on January 1, 1987, the area of allowable new building construction for that project shall be increased by the square footage of any existing one-story school facility or facilities to be replaced under the project by one or more multistory school facilities.

17040.9. (a) (1) The board shall allocate the amount calculated under subdivision (b), in addition to any other project funding authorized under this chapter, to each project funded under this chapter for which the resulting pupil density will exceed the following:

(A) For a project for kindergarten or any of the grades 1 to 6, inclusive, 90 pupils per acre.

(B) For a project for a junior high school project, 80 pupils per acre.

(C) For a project for a senior high school project, 70 pupils per acre.

(2) For any new construction project, pupil density shall be computed, for purposes of paragraph (1), by dividing the number of units of estimated average daily attendance for the project, including those to be served by relocatable structures, by the acreage of the project site.

(3) For any project for the construction of additional facility space on an existing schoolsite or on land acquired that is adjacent to an existing schoolsite, pupil density shall be computed, for purposes of paragraph (1), by adding the number of units of estimated average daily attendance for the project to the number of units of average daily attendance for the existing school facilities, and dividing that sum by the total site acreage for the project and the existing school facilities.

(b) The supplemental project funding authorized under this section shall be calculated by dividing the actual pupil density for the project, as calculated under subdivision (a), by the threshold pupil density for the project as set forth in that subdivision, and multiplying the resulting fraction by an amount equal to the average cost per acre of the land approved for acquisition by the board under this chapter for the project, or that would have been approved for acquisition if the applicant school district had not had an existing schoolsite available for the project.

17041. Whenever the area of adequate school construction existing in any attendance area is such as to prevent another attendance area from receiving the maximum area of school construction for each unit of attendance as specified for the district as a whole, the allowable building area may be computed separately for each attendance area. For the purposes of this section and Section 17041.5, an "attendance area" is defined as the geographical area serving an existing or proposed high school and those junior high schools and elementary schools included therein.

17041.1. (a) Notwithstanding any other provision of this chapter, the following determinations shall be made by a self-certifying district, in the manner specified in this chapter and in accordance with the standards governing those determinations that are adopted by the board, for the purpose of calculating the district's eligibility for project funding under this chapter:

(1) The total allowable building area for which the district is eligible for project funding under this chapter.

(2) The district's area of existing adequate school construction, including, but not limited to, the conducting of field inspections for this purpose.

If requested by the applicant district, the board shall provide assistance to the district in preparing the necessary documents for self-certification pursuant to this chapter.

(b) The area determinations made by a self-certifying district pursuant to subdivision (a) shall be certified by the district in its application for project funding and shall be used by the board as the basis for project funding eligibility, except to the extent of any information that the board finds is demonstrated, pursuant to the information certified and any other documentation available to the board from prior project funding applications for that district, to be materially inaccurate, regardless of whether the inaccuracy was intended. No later than 30 calendar days after receipt of the determinations certified pursuant to subdivision (a), the board shall notify the district of any inaccuracies identified under this subdivision.

(c) Each self-certifying district shall maintain documentation of the determinations described in subdivision (a) as required by the board. Those determinations shall be subject to subsequent audit as the board may direct.

(d) All estimates of average daily attendance for a self-certifying district for the purposes of this article shall be made by the district in accordance with the standards governing those estimates that are adopted by the board. Each determination made by a self-certifying district pursuant to this subdivision shall be reviewed for accuracy by the board or by the county office of education in the county in which the district is located. In the event that the review is performed by the board, that review shall be completed no later than 45 calendar days subsequent to the board's receipt from the district of all documentation necessary for that purpose.

17041.2. (a) The State Allocation Board shall conduct random audits of the information certified by self-certifying districts pursuant to this chapter, except as to any determinations that are made under subdivision (d) of Section 17041.1 or that are subject to audit by the State Department of Education pursuant to Section 17024, using generally accepted auditing principles, at any time to ensure compliance with the law.

(b) If any information submitted by a self-certifying district in its certification of funding eligibility for any project is found by the board to contain any material inaccuracy, any building area constructed as a result, in excess of the building area to which the district was entitled for purposes of that project, shall be included in the calculation of the area of adequate school construction for the purposes of all subsequent project applications by the district under this chapter. In addition, the board shall impose both of the following penalties:

(1) Pursuant to a repayment schedule approved by the board, the district shall repay to the board of no more than five years, for deposit in the State School Building Lease-Purchase Fund, an amount equal to the amount of project funding allocated under this chapter to construct that excess building area, together with interest at the rate paid on moneys in the Pooled Money Investment Account or at the

highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater. The amount of any repayment owing under this paragraph for any fiscal year, which is not repaid otherwise by the district, shall be withheld by the board from any project funding that otherwise would be allocated to that district under this chapter in that fiscal year. As to any repayment obligation remaining for that fiscal year, the board shall notify the Superintendent of Public Instruction, who shall withhold the amount of that remaining obligation from the apportionments to be made to the district from the State School Fund in that fiscal year.

(2) The information that otherwise may be certified under this chapter by a self-certifying district shall be made by the board under any subsequent applications for project funding, rather than by the applicant district, for a period of up to five years following the date of the finding of a material inaccuracy, or until the district's repayment of the entire amount owing under paragraph (1), whichever occurs later.

(c) Any school district against which the board imposes the penalties under paragraphs (1) and (2) of subdivision (b) may submit for binding determination by an arbitrator the issue of whether the penalties imposed are disproportionate to the inaccuracy certified by the district. Except as otherwise provided by this chapter, the procedure governing the arbitration shall be as set forth in Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure.

(d) It is the intent of the Legislature that audits as described in this section not interfere with the application and construction process under this chapter unless one or more violations are discovered.

17041.3. For the purposes of Sections 17041 and 17041.5, allowable building area may be computed, in the alternative to the methods prescribed by Section 17041, for any combination of two or more adjacent high school attendance areas pursuant to the following conditions:

(a) The project to be funded is for the construction of a high school, junior high school, or elementary school located or to be located in any of those high school attendance areas.

(b) The high school, junior high school, or elementary school to be constructed is to serve pupils residing in each of those high school attendance areas.

(c) The combined computation of allowable building area reflects the allowable building area to which each of the high school attendance areas would otherwise be entitled, reflecting the proportion of projected pupil enrollment in the school to be constructed, as calculated under this chapter, from each of those attendance areas.

17041.5. (a) Whenever the area of adequate school construction existing in an attendance area is less than the maximum area computed for that attendance area, any portion of the remaining computed allowable building area may be used for the construction of district administration and maintenance facilities.

(b) If the allowable building area is computed separately by attendance area, the board shall include within the computation of the maximum area for that attendance area the proposed building area of a project for the construction of district administration and maintenance facilities.

17041.6. The board shall, in allocating funds for school facilities construction pursuant to this chapter, give first priority to applicant districts proposing additional classrooms within their maximum allowable building area before allocating funds to applicant districts proposing administration and maintenance facilities.

17041.8. (a) Notwithstanding any other provision of law, any applicant school district that receives supplemental project funding under Sections 17040.6, 17040.7, 17040.8, and 17041.8 shall apply that funding to the purposes of the project funded, in compliance with any requirements set forth in those sections, but need not comply in that regard with the allowable building area of that project as otherwise calculated under this chapter. The expenditure of the supplemental project funds authorized under those sections is exempt from the total building cost standards applicable to the project. In addition, the increase in building area authorized under this subdivision is exempt, for purposes of any subsequent application for project funding under this chapter, from the calculation of existing adequate school construction of the district.

(b) Notwithstanding any other provision of law, the total amount of supplemental project funding that an applicant district is entitled to receive under Sections 17040.6, 17040.7, 17040.8, and 17040.9 may not exceed the lesser of the following:

(1) An amount equal to that calculated under subdivision (b) of Section 17040.9.

(2) An amount equal to the sum of four thousand dollars ($4,000) for each of the first 500 units of estimated average daily attendance for the project, and two thousand dollars ($2,000) for each additional unit of estimated average daily attendance. The monetary rates set forth in this paragraph shall be increased annually for inflation for the prior calendar year on the basis of the cost index for class B construction as determined in the January meeting of the board.

17042. (a) The board, by the adoption of rules, shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Those rules shall define and provide for the method of determining building areas that are to be included in, in whole or in part, or to be excluded from, the area of existing adequate school construction. Any building to which Article 3 (commencing with Section 17280) of

Chapter 3 of Part 10.5 does not apply shall not be considered adequate school construction for the purpose of determining the maximum total building area per attendance unit.

The board may make exceptions to the provisions of this section, or to the rules adopted pursuant thereto, if it determines that the exception or exceptions will be for the benefit of pupils affected.

(b) For the purposes of this chapter, the area of adequate school construction existing in an applicant school district does not include any of the following:

(1) Any portable classroom made available to the district under Chapter 14 (commencing with Section 17085).

(2) In any school operated on a year-round schedule, any building area that has been in continuous use during the preceding five-year period primarily for the operation of any preschool program or programs.

(3) Any building area, not to exceed the area that is equivalent to one classroom per schoolsite, used to provide support services pursuant to Chapter 5 (commencing with Section 8800) of Part 6 or to provide integrated children's services pursuant to Section 18986.40 of the Welfare and Institutions Code. A school shall meet the definition of a "qualifying school" under paragraph (1) of subdivision (h) of Section 8802 to qualify for this exemption from the area of adequate school construction.

(c) The board may make exceptions to this section, or to the rules adopted pursuant thereto, if it determines that the exception or exceptions will be for the benefit of pupils affected.

17042.5. (a) For purposes of determining the area of adequate school construction existing in an applicant school district pursuant to Section 17042.7, all portable classrooms, whether owned or leased, shall be included, except as otherwise provided in paragraphs (1) to (3), inclusive.

(1) Leased portable classrooms acquired by a school district shall not be included in the area of existing adequate school construction until January 1, 1991.

(2) Portable classrooms leased pursuant to Chapter 14 (commencing with Section 17085) shall be excluded from the area of adequate school construction. Portable classrooms obtained by an applicant district pursuant to subdivision (b) of Section 17088.5 also shall be excluded from the area of adequate school construction, except as to any portable classroom or classrooms for which the district rejected the board's offer to purchase pursuant to that subdivision.

(3) Portable classrooms that have been leased or owned by the district for 20 years or more shall be excluded from the area of adequate school construction.

(4) Leased portable classrooms shall not be included in the area of adequate school construction for a period of five years from the date first leased by the district. That exclusion shall be extended by

the board for one additional five-year period where the board finds that the continued use of the leased portable classrooms for classroom purposes is justified by additional growth in average daily attendance pursuant to the standards established by this part. If the board finds continued use to be no longer justified, it may extend the exclusion for a period of up to two years as necessary to maintain the eligibility of the applicant district for project funding pursuant to this chapter if the board finds that the district has made a good faith effort to obtain that funding in a timely manner. The additional five-year exclusion shall not apply to any portable classroom for which, under the lease agreement, the district is to take title, or the total consideration paid by the district for the lease and an option to purchase is determined by the board to be substantially equivalent to the cost of acquiring title.

(b) For purposes of this section, "portable classroom" means a classroom building of modular design and construction that meets all of the following criteria:

(1) Is designed and constructed to be relocatable and transportable over public streets.

(2) Is designed and constructed for relocation without the separation of the roof or floor from the building.

(3) When measured at the most exterior walls, has a floor area not in excess of 2,000 square feet.

17042.7. (a) For any project application filed or amended on or after January 1, 1993, the area of adequate school construction existing in the applicant school district or, where appropriate, in the attendance area, at the time of application shall be calculated pursuant to the following formula:

(1) Identify by grade level all teaching stations existing in the school district or, where appropriate, the attendance area, as of January 1, 1993. For the purposes of this section, "teaching station" means any space that was constructed or reconstructed to serve as an area in which to provide pupil instruction.

(2) Determine the maximum pupil loading figure for each grade level pursuant to the district pupil loading standards in effect on January 1, 1993. For the purposes of this section, the "district pupil loading standards" are those pupil loading standards in effect in a school district on July 1, 1992, as a result of actions including, but not necessarily limited to, the execution of a collective bargaining agreement or the adoption of a district policy by the governing board of the school district. In no event may this figure be more than the maximum pupil loading standards established by the board, or less than three pupil units lower than those maximum pupil loading standards.

(3) Multiply the figure determined under paragraph (2) for each grade level by the number of teaching stations for the particular grade level, as determined under paragraph (1).

(4) Multiply the product determined under paragraph (3) by the maximum area allowance established for that grade level under this article.

(5) The sum of these computations for each grade level, as determined under paragraphs (1) to (4), inclusive, shall be the total area of adequate school construction existing in the district or attendance area pursuant to this formula.

(b) For purposes of this section, a school district that is participating in a class size reduction program set forth in this code shall use the pupil loading standard established pursuant to that program.

(c) The area of existing adequate school construction calculated under this section shall not include, in any school operated on a year-round schedule, any teaching station that has been in continuous use during the preceding five-year period primarily for the operation of a preschool program or programs.

17043. (a) There shall be allowed to each district with attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

(b) The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for such attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by subdivision (a) of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

17044. There shall be allowed to each district a maximum area of 75 square feet for each attendance unit of the district in grades 7 and 8.

17045. The maximum area allowed to a district for attendance units in junior high schools composed of grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, shall be determined pursuant to this section, rather than Sections 17044 and 17046. This section shall not apply to junior high schools composed of grades 7 and 8 only.

The maximum area allowed for attendance units in junior high schools shall be determined by computing, in accordance with this section, the number of square feet for the attendance units at each junior high school attendance center of the district, and totaling the number of square feet so determined for all attendance units in all such junior high school attendance centers of the district. There shall be allowed a maximum area of 75 square feet for each attendance unit of the junior high school attendance center in grades 7 and 8. For each attendance unit in grade 9, or grades 9 and 10, as the case may be, at each junior high school attendance center, there shall be allowed a maximum area equal to the number of square feet which would be allowed under Section 17046 for each attendance unit of an

attendance center having a total number of attendance units equal to the total number of attendance units in grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, at such junior high school attendance center. The number of square feet which would be allowed under Section 17046 for each attendance unit of an attendance center shall be computed by determining in accordance with that section the total number of square feet which would be allowed at an attendance center and dividing such total number of square feet by the total number of attendance units at such attendance center.

17046. There shall be allowed to each district a maximum area for the attendance units of the district in grades 9 to 12, inclusive, determined by computing, for the attendance units in grades 9 to 12, inclusive, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1- 50	18,000
51-100	18,000 plus 162 for each attendance unit over 50
101-200	26,100 plus 99 for each attendance unit over 100
201-300	36,000 plus 60 for each attendance unit over 200
301-600	42,000 plus 54 for each attendance unit over 300
601-1,800	58,200 plus 80 for each attendance unit over 600
Over 1,800	154,200 plus 85 for each attendance unit over 1,800

17046.7. Notwithstanding any other provision of law, the determination of the area of allowable new building construction for any project for an applicant school district for which original construction commenced on or after January 1, 1987, shall be made on the basis of 107 percent of the area that would otherwise be determined for that purpose under this chapter, calculated to the nearest whole number.

17046.8. Notwithstanding any other provisions of law, the maximum allowable building area for each applicant district shall be reduced by the product of the maximum area per attendance unit

calculated for each appropriate grade level and the number of pupils reported by the Superintendent of Public Instruction for that grade level pursuant to Section 42268. This reduction shall be calculated on the basis, at the district's option, of either the district as a whole or the appropriate attendance area, as defined in Section 17041.

17047. (a) The allowable new building area for the purpose of providing special day class and Resource Specialist Program facilities for special education pupils shall be negotiated and approved by the State Allocation Board, with any necessary assistance to be provided by the Special Education Division of the State Department of Education. The square footage allowances shall be computed within the maximum square footage set forth in the following schedule:

Special Day Class Basic Need	Grade Levels	Loading*	Square Footage
Nonsevere Disability			
—Specific Learning Disability	All	12	1080
—Mildly Mentally Retarded	All	12	1080
—Severe Disorder of Language	All	10	1080
Severe Disability			
—Deaf and Hard of Hearing	All	10	1080
—Visually Impaired	All	10	1330 (1080 + 250 storage)
—Orthopedically and Other Health Impaired	All	12	2000 (1080 + 400 toilets + 250 storage + 270 daily living skills + 3000 therapy + 75 therapy per additional classroom)
—Autistic	All	6	1160 (1080 + 80 toilets)
—Severely Emotionally Disturbed	All	6	1160 (1080 + 80 toilets)
—Severely Mentally Retarded	Elem.	12	1750 (1080 + 400 toilets + 270 daily living skills)

	Secon.		2150 (1080 + 400 toilets + 270 daily living skills + 400 vocational)
—Developmentally Disabled	All	10	2000 (1080 + 400 toilets + 250 storage + 270 daily living skills + 3000 therapy** + 750 therapy per additional CR)
—Deaf−Blind/Multi	All	5	1400 (1080 + 200 storage + 150 toilets)

			Pupils	Square Feet
Resource Specialist Program for those pupils with disabling conditions whose needs have been identified by the Individualized Education Program (IEP) Team, who require special education for a portion of the day, and who are assigned to a regular classroom for a majority of the schoolday.***	All	Maximum caseload for RS is 28, not all served at same time.	1–8	240
			9–28	480
			29–37	720
			38–56	960
			57–65	1200
			66–85	1440
			86–94	1680
			95–112	1920

* Special pupils may usually be grouped without accordance to type, especially in smaller districts or where attendance zones may indicate, to maximize loadings per classroom where there are children with similar educational need (Sec. 56364).

** Therapy add−ons not to be provided if on same site as orthopedically impaired.

*** To a maximum of 4 percent of the unhoused average daily attendance of the district, per new school or addition, to a maximum of 1920 square feet.

(b) The allowable new building area shall be computed by dividing the number of eligible pupils by the minimum required loading per classroom for special day classes for the type of pupils to be enrolled. No new or additional facility shall be provided for special

day classes unless the number of additional eligible pupils equals one-third or more of the minimum required loading.

17047.5. (a) All school facilities purchased or newly constructed pursuant to this chapter for use, in whole or in part, by pupils who are individuals with exceptional needs, as defined in Section 56026, shall be designed and located on the schoolsite so as to maximize interaction between those individuals with exceptional needs and other pupils as appropriate to the needs of both.

(b) School district governing boards and county offices of education shall ensure that school facilities for pupils who are individuals with exceptional needs are integrated with other school facilities in applying for the purchase or new construction of school facilities pursuant to this chapter.

(c) The State Allocation Board, after consultation with the State Department of Education and representatives from county offices of education, special education services regions, and school districts, shall develop and adopt any regulations necessary to implement this section.

(d) Notwithstanding any other law, the requirement set forth in subdivision (a) may be waived, by the Superintendent of Public Instruction, only upon compliance with the following procedure:

(1) The applicant school district or county superintendent of schools shall file a written request for waiver that documents the reasons for its inability to comply with the requirement.

(2) The State Department of Education shall verify the reasons set forth pursuant to paragraph (1), including the documentation submitted, which verification shall be completed no later than 30 days after the filing of the request for waiver with the Superintendent of Public Instruction.

(3) The Advisory Commission on Special Education, as established under Section 33590, at its first scheduled meeting following the verification conducted pursuant to paragraph (2), shall review the request for waiver, accompanying documentation, and the verification findings of the State Department of Education. No later than 15 days following the date of that meeting, the commission shall submit its written comments and recommendations regarding the request for waiver to the Superintendent of Public Instruction.

(4) The Superintendent of Public Instruction shall review the comments and recommendations submitted by the Advisory Commission on Special Education prior to approving or rejecting the request for waiver.

(5) Any request for waiver, submitted in accordance with this section, that is not rejected within 60 days of its receipt by the State Department of Education, shall be deemed approved.

(e) This section does not apply to any application for project funding under this chapter that meets one of the following conditions:

(1) The application was submitted to the board prior to January 1, 1987, and all of the facilities under the project for use, in whole or in part, by pupils who are individuals with exceptional needs are located on a schoolsite on which facilities for use by other pupils are also located.

(2) The application is for any other project, for which, prior to January 1, 1987, the board approved the drawing of final plans and the preparation of final specifications.

17048. Whenever an existing building is to be reconstructed, rather than replaced, under an application pursuant to this chapter, there shall be allowed, for those attendance units to be housed in such reconstructed building, an additional five square feet of building area beyond the amounts set forth in Section 17043, 17044, 17045, or 17046.

17049. (a) The board shall require, as a condition of providing funding for any project under this chapter, that, for any facilities for kindergarten or any of grades 1 to 12, inclusive, or for any facilities for special education or continuation high school purposes, at least 30 percent of allowable new building construction for classrooms under the project be utilized for relocatable structures.

(b) The board may reduce the percentage requirement set forth in subdivision (a), as to any applicant, in the event that the quantity of relocatable structures necessary to comply with those requirements is unavailable from the manufacturers of those structures.

(c) The board may reduce or eliminate the percentage requirements set forth in subdivision (a), as to any applicant, under either of the following circumstances:

(1) Where the board finds that special conditions of terrain, climate, or unavailability of space within the attendance area make the use of relocatable structures impractical or inappropriate.

(2) Under the condition that, as the result of a future project for which the district receives funding under this chapter, located on the same schoolsite on which the current project is located, at least 30 percent of total building construction for classrooms on that schoolsite will be utilized for relocatable structures.

(d) Relocatable structures acquired by an applicant school district up to two years preceding the final approval by the board of the project application submitted by the district shall apply to the percentage requirements set forth in subdivision (a).

(e) Notwithstanding subdivision (d), relocatable structures acquired by an applicant school district up to 10 years preceding the final approval by the board of the project application submitted by the district shall apply to the percentage requirements set forth in subdivision (a) if the relocatable structures are to be situated on the site of a new school to be constructed under the project and all of the following conditions are met:

(1) The relocatable structures were not previously used to satisfy the 30 percent requirement set forth in subdivision (a) under any other project constructed pursuant to this chapter.

(2) The board determines that the relocatable structures are in satisfactory condition upon being moved to the new schoolsite, and are usable for classroom purposes without requiring major repair or renovation for a period of not less than 20 years subsequent to that relocation.

(3) Subsequent to moving the relocatable structures to the new schoolsite, at least 30 percent of the classroom space at the schoolsite where the structures were previously located consists of relocatable structures.

The cost of moving the relocatable structures to the new schoolsite shall be at the school district's sole expense.

(f) Whenever at least 10 percent of the allowable new building construction contained in an application is to be utilized for relocatable structures, an additional three square feet of building area for each pupil to be housed under the approved project shall be allowed.

17050. (a) A district may enter into a contract with the county, or other appropriate entity having responsibility for the provision of public library services, in which the district is located for the purpose of operating a joint-use library facility at a schoolsite owned by the district.

(b) The district may apply for the lease-purchase of a project which includes a library facility, pursuant to Section 17017, which facility, if constructed, would be of sufficient size to accommodate the requirements of a joint-use library for which the district has entered into a contract, pursuant to subdivision (a).

(c) Should the board receive an application for a project which includes space for a joint-use library, the board shall evaluate the application disregarding any space in the proposed library facility which is beyond the needs of the district, provided the application contains a copy of the contract specified in subdivision (a), and provided that the contract contains at least the following:

(1) Agreement that the county or other appropriate entity shall deposit in the county school lease-purchase fund, created pursuant to Section 17034, an amount equal to the total cost of any space in the proposed library facility which is beyond the needs of the district, prior to the signing of the construction contract for the project. The deposit shall not be refundable, except to the extent that it may prove subsequently to be in excess of the actual total cost of the space which is beyond the needs of the district.

(2) Agreement between the district and the county or other appropriate entity regarding staffing, maintenance, materials acquisition, and other matters related to the administration and operating costs of the joint-use facility.

(3) Agreement between the district and the county or other appropriate entity regarding the procedure for amendment or termination of the contract, including the disposition of materials housed in the joint-use facility should termination of the contract occur.

(d) Any space in a joint-use library which is beyond the needs of the district shall not be included by the board in any calculations made for any other purposes provided for in this article for the period of time that the contract for that joint-use facility remains in effect. Should the contract be terminated, the board shall include the additional space in any calculations made after the termination for any other purposes provided for in this article.

17051. (a) A district may enter into an agreement with another governmental entity that includes some or all of the territory of the district for the purpose of the joint use of park and recreation facilities, including an auditorium, or commercial or industrial facilities.

(b) If the board receives an application for a project that includes some or all of the territory of the district for the purpose of the joint use of park and recreation facilities or commercial or industrial facilities, the board shall evaluate the application disregarding any space in the proposed joint-use facility that is beyond the needs of the district if the application contains a copy of the agreement specified in subdivision (a) and if the contract contains at least the following:

(1) An agreement that the county or other appropriate entity shall deposit in the county school lease-purchase fund, created pursuant to Section 17034, an amount equal to the total cost of any space in the proposed joint-use facility that is beyond the needs of the district, prior to the signing of the construction contract for the project. The deposit shall not be refundable, except to the extent that it may prove subsequently to be in excess of the actual total cost of the space that is beyond the needs of the district.

(2) An agreement between the district and the county or other appropriate entity regarding staffing, maintenance, materials acquisition, and other matters related to the administration and operating costs of the joint-use facility.

(3) An agreement between the district and the county or other appropriate entity regarding the procedure for amendment or termination of the contract, including the disposition of materials housed in the joint-use facility should termination of the contract occur.

(c) Any space in a joint-use facility that is beyond the needs of the district shall not be included by the board in any calculations made for any other purposes provided for in this article for the period of time that the contract for that joint-use facility remains in effect. If the contract is terminated, the board shall include the additional space in any calculations made after the termination for any other purposes provided for in this article.

Article 4. Space-Saver Schools

17055. (a) The board shall authorize project funding under this chapter for the construction, in urban areas in which the construction of schools would ordinarily require the removal of residential, commercial, or industrial structures, of four elementary or junior high schools, or any combination thereof, none of which serve any of the grades 10 to 12, inclusive.

(b) The construction funded pursuant to subdivision (a) shall be designed to minimize the need for the relocation of inhabitants of residential, commercial, or industrial structures. The design features of the schools may include, but should not be limited to, the use of below-ground facility construction, multistory construction, multiuse construction where single-use construction currently exists, the joint use of facilities that otherwise involve such uses as a shopping center, office complex, or apartment building, the joint or dual use of land that otherwise involves park or other uses, overhead or underground parking, or the use of areas above or below streets or freeways.

17056. Any school district that is a project applicant under this chapter may apply for the funding of a school specifically under this article, pursuant to which it may be approved by the board for funding only to the extent of its project eligibility under this chapter. The governing board of each district for which that funding is approved by the board shall do all of the following, in the order specified:

(a) Identify an area within the district that it determines to be appropriate for the construction of a school that meets the purposes of this article.

(b) Establish criteria for the purpose of identifying the school design that will most effectively accomplish the purposes of this article and the needs of the district. The district shall thereupon issue, in a manner approved by the board, a request for architectural design proposals incorporating those criteria.

17058. The cost of any project funded under this article shall not exceed the maximum cost that would otherwise be allowable for a project funded under this chapter.

Article 4.1. Alternative Use of Apportionments

17059. The Legislature finds and declares as follows:

(a) In many areas of the state, overcrowding in the schools has created a need for new school facilities in neighborhoods where little or no vacant land exists. School districts are compelled, therefore, to acquire property that already has been developed with structures, then demolish these structures and construct classroom space.

(b) With an estimated statewide need for school facilities within the next five years that exceeds fourteen billion dollars

($14,000,000,000), neither state nor local funds reasonably can be anticipated to meet this need.

(c) In many of the areas having overcrowded schools, a significant supply exists of vacant space in structures meeting current building codes.

(d) Use of this vacant space by schools can be a cost-effective means of providing classroom space for the students of California.

(e) This chapter and Section 4-306 of Part 1 of Title 24 of the California Code of Regulations authorize the reconstruction of existing commercial buildings for school facility purposes.

(f) No existing commercial building shall be considered for reconstruction for school facility classroom purposes unless it was designed and constructed according to the standards established in the 1976 Uniform Building Code or subsequent editions of that code.

17059.1. In a manner that is consistent with this chapter and the California Code of Regulations, a school district that is eligible for an apportionment for project funding for new construction under this chapter may use that apportionment for the acquisition and conversion of an existing commercial building to school facility purposes.

17059.2. The State Allocation Board in conjunction with the office of the State Architect shall advise all school districts in the state of the existence of the procedure for reconstructing existing commercial buildings for school facility purposes and shall upon request assist in the interpretation and successful implementation of the pertinent regulations in the California Code of Regulations.

Article 5. Joint Venture School Facilities Construction Projects

17060. (a) A school district may enter into a joint venture relationship for the purposes of school facilities construction. Notwithstanding any other provision of this chapter, a school district entering into a joint venture relationship does so as an independent entity and not as an agent of the State Allocation Board.

(b) For the purposes of this article, "joint venture" means a collaborative undertaking by two or more persons or organizations for a specific project or projects, having the legal characteristics of a partnership.

(c) The joint venture relationship may, but is not required to, include any of the following:

(1) Joint use of the property of, or facilities on, the project site.

(2) Ground leases, alternative financing arrangements, or similar financing arrangements.

(3) A construction arrangement in which a school district enters into an agreement with a developer pursuant to which the school district initially stipulates the basic performance and programmatic criteria for the facility and the developer provides input into the design work and building construction services by entering into a

contract with a single source team to administer the project in a manner consistent with state law, and construct the project to, under most circumstances, a maximum price.

(d) The price for the portion of the project that is funded by the state shall be established through a bidding process as approved by the State Allocation Board. All subcontract trade groups that are included within the project, shall be determined based upon competitive bidding for each contract group. All subcontracts shall be awarded to the lowest responsible bidder.

(e) The proposed uses of any facilities constructed under the joint venture project shall not be inconsistent with educational purposes and activities.

(f) The cost of any project funded under this article shall not exceed the maximum cost that would otherwise be allowable for a project funded under this chapter.

17061. (a) A school district may apply to the State Allocation Board for funding for the costs of property acquisition and the cost of construction, as specified in this chapter, of the school facilities portion of a joint venture project. The school district shall publicly solicit proposals for the joint venture project pursuant to the procedures set forth in this section and Sections 17062, 17521, 17522, and 17523.

(b) Upon review of the application for funding, the State Allocation Board shall establish the maximum allowances for construction of the school facilities portion of the joint venture project. For the purpose of calculating allowances pursuant to Article 3 (commencing with Section 17040), the State Allocation Board shall use the information used to determine the allowances for the school district at the time the district received approval of funds under this chapter to acquire property on which the school facilities will be constructed, or at the time an application is made pursuant to subdivision (a), whichever is earlier.

(c) The State Allocation Board may approve, in whole or in part, an application submitted by a school district pursuant to this section in an amount the State Allocation Board may deem appropriate, not to exceed the amount applied for, subject to final approval of the joint venture agreement pursuant to Section 17063.

(d) For purposes of this section, and the process referred to in subdivision (a), a school district joint venture request for proposals shall include, but not necessarily be limited to, all of the following:

(1) A specific description of the school buildings or land, or both, to be constructed or utilized under the joint venture and a description of how the costs of the project have been determined.

(2) The identification of the current educational uses of the school buildings or land, or both, and of the educational uses proposed under the joint venture.

(3) The identification of the current noneducational uses of the proposed school buildings or land, or both, and of the noneducational

uses proposed under the joint venture, and a specific assessment of the compatibility of those uses with any applicable general or specific governmental land use plan and with applicable zoning restrictions.

(4) A description of the prospective economic benefits to be derived by the school district from the joint venture.

(5) A description of the prospective educational benefits to be derived by the school district from the joint venture.

(6) A request that each request for proposal response include a comprehensive description of the joint venture, including, but not limited to, a description of the intended means of financing the joint venture.

17062. (a) Notwithstanding Sections 20111 and 20118.4 of the Public Contract Code, or any other law, upon approval of funding pursuant to Section 17061, a school district may utilize a request for qualifications and proposal process described in subdivision (a) of Section 17061 to select and enter into a joint venture agreement with a developer to construct school facilities. The agreement may utilize Section 17406.

(b) The joint venture agreement shall include, but not be limited to, all of the following terms:

(1) The cost of the project approved by the State Allocation Board pursuant to Section 17061 as the amount that the district will pay to the developer pursuant to the joint venture agreement upon completion of the project, if applicable.

(2) A detailed description of the project, including, but not limited to, the school facilities and any other facilities that may be included in the project and any other information necessary to meet the requirements of this chapter.

(3) The timeframe for completion of the project.

(4) A requirement that there shall be no state liability if funds are not made available within the four-year period specified in subdivision (a) of Section 17063.

(c) The joint venture agreement may also include a requirement that if the actual cost of constructing the school facility project designated in the agreement exceeds the amount set forth in that agreement, the developer shall be responsible for the additional expense.

(d) The lien placed on a schoolsite pursuant to this chapter shall only attach to that portion of the project for which state funds are actually expended. In addition, the lien shall expressly recognize any subordinate property interest created by the joint venture, and the state lien shall not be foreclosed or otherwise used to terminate the property interest, or any subordinate financing liens incidental thereto, created by the joint venture. The document creating that lien on a schoolsite shall be written in a manner to clearly prohibit assumption of any state liability resulting from the lien.

(e) Notwithstanding subdivision (d), the nondisturbance of subordinate property interests permitted in subdivision (d) shall not

permit the foreclosure or other private taking of actual school facilities or property paid for with state funds in a manner that would restrict, terminate, or impair the school facilities portion of the joint venture or the school district's use thereof.

17063. Upon completion of the joint venture agreement pursuant to Section 17062, the school district shall transmit the agreement to the State Allocation Board for final review to determine whether the agreement is consistent with the project approval pursuant to Section 17061. The State Allocation Board shall act to approve or disapprove the complete agreement within 60 days following submission of the complete proposal to the State Allocation Board. The approval or disapproval relates to only the decision by the State Allocation Board to fund the school portion of the joint venture project and is not to be construed as an approval or disapproval of the terms and conditions of the joint venture agreement nor as authority for the school district to act as the agent of the State Allocation Board. The State Allocation Board is not made a party to the joint venture agreement and shall not incur liability under the joint venture agreement through its approval or disapproval of the agreement. The joint venture shall indemnify and hold harmless the State Allocation Board and its officers, agents, and employees from any loss or liability, including reasonable attorneys fees and costs, caused by the joint venture arising out of, or in relation to, any contract entered into by the joint venture in furtherance of the joint venture project. The date of approval by the State Allocation Board of the project shall be the date of funding eligibility for the project. The apportionment of funds for the eligible project shall be made at any point up to four years following the date of funding eligibility subject to the availability of funds for this purpose. If the state funds are not available within that four-year period, the school district may at its option remain in the funding cycle, subject to other provisions of this chapter, until the school district receives all of the funds it is eligible to receive pursuant to this article as of the date of funding eligibility. The district's eligibility for reimbursement of authorized costs and the district's position in the processing schedule for the reimbursement shall be established as the date of project approval by the State Allocation Board. The exact amount of the reimbursement shall be determined at the conclusion of the project and shall be based upon the actual subcontract trade bids and other costs allowable pursuant to Section 17019.3.

17064. The selection of any design professional pursuant to this article shall be made in accordance with Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code.

17065. The design and construction of school facilities pursuant to this article shall comply with Article 3 (commencing with Section 17280) of Chapter 2 of Part 10.5.

17066. This article does not affect any requirement of a school district to comply with the prevailing wage requirements of Article

2 (commencing with Section 1770) of Chapter 2 of Part 7 of Division 2 of the Labor Code with respect to the school facilities portion of a joint venture project under this article.

CHAPTER 13. TRANSFER OF EXCESS FUNDS

17080. (a) Notwithstanding any other provision of law, whenever moneys transferred to the General Fund each year from (1) moneys deposited in the Public School Building Loan Fund pursuant to Section 15735, and (2) moneys deposited in the State School Building Aid Fund pursuant to Section 16080, are in excess of the amounts required to reimburse the General Fund on account of principal and interest due and payable for that fiscal year on all school building aid bonds outstanding against the state, an amount equal to such excess is appropriated from the General Fund for purposes of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 12 (commencing with Section 17000)) and Section 17584. The Controller shall transfer, as directed by the State Allocation Board, such appropriated amount to the State School Building Lease-Purchase Fund and to the State School Deferred Maintenance Fund, which is hereby established.

(b) In addition to the amount transferred pursuant to subdivision (a), the Controller shall transfer annually from the General Fund to the State School Deferred Maintenance Fund an amount equal to any amount transferred to or deposited in the General Fund as a result of repayment of any loan made by the board pursuant to Section 17005.15.

(c) Notwithstanding Section 13340 of the Government Code, the State School Deferred Maintenance Fund is continuously appropriated for the purposes for which it is established.

CHAPTER 14. EMERGENCY SCHOOL CLASSROOM LAW OF 1979

Article 1. General Provisions

17085. This chapter may be cited as the State Relocatable Classroom Law of 1979.

17086. In adopting this chapter, the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be.

17087. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "State School Building Aid Fund" means that fund established pursuant to Section 16096.

(c) "Lessee" means a school district or county superintendent of schools to whom the board has leased a portable classroom pursuant to this chapter.

17088. In addition to any other powers and duties as are granted the board by this chapter, other statutes, or the State Constitution, the board has the power to do each of the following:

(a) Establish any qualifications not in conflict with other provisions of this chapter, as it deems will best serve the purposes of this chapter, for determining the eligibility of school districts and county superintendents of schools to lease portable classrooms under this chapter.

(b) Establish any procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt any rules and regulations for the administration of this chapter requiring such procedure, forms, and information, as it may deem necessary.

(d) Have constructed, furnished, equipped, or otherwise require whatever work is necessary to place, portable classrooms on schoolsites where needed.

(e) Own, have maintained, and lease portable classrooms to qualifying school districts and county superintendents of schools.

(f) From any moneys in the State School Building Aid Fund available for purposes of this chapter, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

(g) Notwithstanding any other provision of law, from any funds available to the board, the board may, no later than January 15 of any year, make available to the Director of General Services up to thirty-five million dollars ($35,000,000) for expenditure in the subsequent school year. It is the intent of the Legislature that this allocation be annually funded from an appropriation made for this purpose by the Legislature in the Budget Act for the fiscal year in which the board is to act to make that funding available. These funds shall be utilized to purchase portable classrooms for the purposes of this section.

17088.3. (a) No school district shall qualify for the lease under this chapter, after January 1, 1990, of one or more portable classrooms except upon submitting a study examining the feasibility of implementing in the district a year-round multitrack educational program that is designed to increase pupil capacity in the district by at least 20 percent.

(b) Emergency or urgency conditions within a school district shall constitute grounds for approval by the board, pending submission of the report.

(c) Subdivision (a) does not apply to facilities that are designated as uninhabitable after July 1, 1989, due to fire or other health or safety conditions.

(d) Subdivision (a) does not apply to a school district for leases or subleases under this chapter for the purpose of providing facilities, pursuant to subdivision (c) of Section 17091, for licensed child day care programs or recreation or enrichment activities or programs for schoolage children.

17088.5. (a) The board may empower any lessee to act as its agent in the performance of acts authorized under this chapter with regard to portable classrooms to be made available to that lessee, including, but not necessarily limited to, contracting for architectural and construction services and purchasing furniture and equipment.

(b) In addition, where any qualifying school district or county superintendent of schools is deemed by the board to be eligible under this chapter for the lease of portable classrooms, but adequate funds are not at that time available to the board for the purchase of those classrooms, the board may authorize the school district or county superintendent of schools to purchase portable classrooms, to the extent of that eligibility, pursuant to the following conditions:

(1) The portable classrooms are purchased under a procedure determined by the board, pursuant to either a bidding process implemented by the school district or county superintendent of schools or by the State Office of Procurement.

(2) To the extent that funding for purposes of this chapter is subsequently made available to the board, the board shall purchase the portable classroom or classrooms from the school district or county superintendent of schools, for lease to that entity under this chapter, for an amount, not to exceed the purchase price the board determines it would have paid for the classroom or classrooms at the time they were acquired pursuant to paragraph (1), as necessary to reimburse the school district or county superintendent of schools for the purchase price, less the amount that would have been charged to the school district or county superintendent of schools for the lease of the classroom or classrooms under Section 17089 from the date of purchase. The sale of the portable classroom or classrooms under this paragraph shall be at the discretion of the school district or county superintendent of schools.

17088.7. (a) Any school district, or, under a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code, any combination of one or more school districts or county superintendents of schools, may, to the extent of the eligibility of the school district or of the parties to the joint powers agreement to lease portable classrooms under this chapter, purchase portable classrooms as provided in this section.

(b) The number of portable classrooms which may be purchased pursuant to this section, on a statewide basis, shall not exceed 200 in

any given year, and shall not exceed 600 in total. Portable classrooms purchased prior to September 22, 1989, are exempt from the yearly limit of 200, but shall be counted towards the total limit of 600.

(c) The purchase costs of the portable classrooms, which include costs of site preparation, furniture and equipment, toilet facilities as described in Section 65980 of the Government Code, and the transportation of classrooms, may be funded from revenues received by the school district or districts pursuant to Section 17620. The purchase shall comply with any procedures and policies established by the board under this chapter for the purchase of portable classrooms. All portable classrooms purchased pursuant to this section are the property of the state.

(d) The board shall lease the portable classrooms purchased pursuant to the authority granted in this section to the purchaser, as described in subdivision (a), in accordance with this chapter, including applicable eligibility standards, and the purchase costs paid shall be credited toward the rent the purchaser would otherwise be required to pay under this chapter as a lessee.

(e) In the event that the purchase of portable classrooms under this section occurs pursuant to a joint powers agreement, as described in subdivision (a), the agreement shall identify the school district or districts and county superintendent or superintendents of schools that are party to the agreement, identify the district or districts providing the revenues, specify the manner in which the revenues are to be expended, and specify the distribution of portable classrooms subsequent to purchase, which distribution shall be in accordance with the eligibility requirements of this chapter. The agreement shall be subject to approval of the board, pursuant to subdivision (b) and any applicable procedures and policies established by the board under this chapter.

17089. (a) The board shall lease portable classrooms to qualifying school districts and county superintendents of schools for not less than one dollar ($1) per year, nor more than four thousand dollars ($4,000) per year, for each portable classroom, which amount shall be annually increased according to the adjustment for inflation set forth in the statewide cost index for classroom construction, as determined by the board at its January meeting.

(b) The board shall require each lessee to undertake all necessary maintenance, repairs, renewal, and replacement to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the lessee.

17089.2. Any portable classroom that is leased from the board by a school district or county superintendent of schools under this chapter on July 1, 1991, may be purchased by that district or county superintendent of schools for an amount equal to the purchase price paid by the board, including the purchase costs specified in subdivision (c) of Section 17088.7, less the amount of any rent already

paid to the board by the district or county superintendent of schools for that classroom. Payment for purchases made pursuant to this section shall be in equal annual installments for an agreed upon term not to exceed nine years.

17089.5. The board may lease portable classrooms to any school district or county superintendent of schools which serves infant or preschool individuals with exceptional needs, as defined in Section 56026, and which operates programs pursuant to Part 30 (commencing with Section 56000). These portable classrooms shall be adequately equipped to meet the educational needs of these students, including, but not limited to, sinks and restroom facilities.

17090. The board shall require lessees to insure at their own expense for the benefit of the state, any leased portable classroom which is the property of the state, against such risks, including liability from the use thereof, in such amounts as the board may deem necessary to protect the interest of the state. All payments resulting from claims made against the insurance shall be made payable to and retained by the board for deposit in the State School Building Aid Fund.

17091. (a) The board shall have authority to adopt rules establishing priorities for the acquisition and leasing of classrooms to those school districts and county superintendents of schools whose pupils will benefit most. The board may make exceptions from the established priorities if it determines that the pupils affected will benefit.

(b) If at any time the number of portable classrooms available exceeds the number of those required by applicant districts, as determined by basic loading standards and eligibility requirements, the board may authorize additional portable classrooms to be placed in any school district that agrees to hire an additional teacher for each additional portable classroom placed in the district pursuant to this subdivision.

(c) If at any time the number of portable classrooms available exceeds the number of those required by applicant districts, as determined by basic loading standards and eligibility requirements, the board shall authorize additional portable classrooms to be placed in any school district, upon request of the school district, for the purpose of providing licensed child day care programs or recreation or enrichment activities or programs for schoolage children on a schoolsite, unless the surplus classrooms are needed for emergency purposes.

17092. (a) No portable classrooms shall be made available to any school district unless the district furnishes evidence, satisfactory to the board, that the district has no available bond proceeds that could be used for the purchase of classroom facilities.

(b) Notwithstanding any other provision of law, a school district or county superintendent of schools that has received approval for a project that includes a justified number of new teaching stations

pursuant to Chapter 12 (commencing with Section 17000) shall be eligible for at least the same number of emergency portable classrooms as approved new teaching stations.

(c) Subdivision (a) does not apply to leases or subleases under this chapter for the purpose of providing facilities, pursuant to subdivision (c) of Section 17091, for licensed child day care programs or any recreation or enrichment activities or programs for schoolage children.

17092.3. A school district may sublease any portable classroom obtained by the district pursuant to subdivision (c) of Section 17091 to a private provider that has entered into a contract with the district to provide any child care and development program or programs or any recreation or enrichment activities or programs for schoolage children on a schoolsite. The terms of the sublease for rental payments and other related costs shall not exceed the costs of the portable classroom to the district.

17093. The board shall have prepared for its use, performance specifications for portable classrooms complying with Sections 17280 to 17314, inclusive, which are capable of being economically moved, and bids for the construction of which can be solicited from more than one responsible bidder. The board may from time to time solicit bids from, and award to, the lowest responsible competitive bidder, contracts for the construction or purchase of the number of portable classrooms it deems will be required by eligible school districts and county superintendents of schools during the next 12 months.

17094. If at any time the board determines that a lessee's need for particular portable classrooms which were made available to the lessee pursuant to this chapter has ceased, the board may take possession of the portable classrooms and may lease them to other eligible districts or county superintendents of schools, or if there is no longer a need for any portable classrooms, the board may dispose of them to public or private parties in any manner that it deems to be in the best interests of the state.

Any revenue which is derived from a lease or other disposition of the portable classrooms pursuant to this section shall be deposited in the State School Building Aid Fund.

17095. The State Board of Education may waive application of the penalty provisions of Section 41376 for school districts which during the school year used portable classrooms leased pursuant to this chapter.

CHAPTER 15. SCHOOL DISTRICT REVENUE BONDS

Article 1. General Provisions

17100. The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are

the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. However, these sources are still insufficient to meet the construction needs statewide of school districts.

Article 2. Revenue Bonds

17110. The governing board of a school district may issue for sale revenue bonds to finance the construction of joint occupancy facilities as prescribed in Article 8 (commencing with Section 17515) of Chapter 4 of Part 10.5, which facilities are necessary to relieve overcrowded schools. Proceeds from the rental and lease of the facilities shall be used by the governing board to repay the revenue bonds.

As used in this chapter:

(a) "To finance the construction of joint occupancy facilities" means to offset either the cost of constructing the joint occupancy facilities or the cost of financing the construction of joint occupancy facilities, or both.

(b) "Joint occupancy facilities" means any building constructed pursuant to this chapter which is occupied jointly by a school district and a private entity specified in Section 17811 or one or more buildings which are constructed pursuant to this chapter on the same property used by the district and the private entity, but are not occupied jointly. Facilities to be acquired by purchase pursuant to this article for occupancy by pupils shall meet the requirements of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365) of Chapter 3 of Part 10.5.

(c) "Construction" includes acquisition by purchase.

17111. The governing board may contract with any person, firm, partnership, joint venture, or other private entity for the purpose of issuing revenue bonds pursuant to Section 17810 and for the purpose of renting or leasing the facilities constructed pursuant to this chapter.

17112. No revenue bonds may be issued for sale by the governing board unless the facilities are to be constructed on district-owned property, except as to facilities to be acquired by purchase.

CHAPTER 16. PUBLIC DISCLOSURE OF NON-VOTER-APPROVED DEBT

17150. (a) Upon the approval by the governing board of the school district to proceed with the issuance of certificates of participation revenue bonds, the school district shall notify the county superintendent of schools and the county auditor. The superintendent of the school district shall provide the repayment schedules for that debt obligation, and evidence of the ability of the school district to repay that obligation, to the county auditor, the county superintendent, the governing board, and the public. Within

15 days of the receipt of the information, the county superintendent of schools and the county auditor may comment publicly to the governing board of the school district regarding the capability of the school district to repay that debt obligation.

(b) Upon the approval by the county board of education to proceed with the issuance of certificates of participation or revenue bonds, the county superintendent of schools or superintendent of a school district for which the county board serves as governing board shall notify the Superintendent of Public Instruction. The county superintendent of schools or the superintendent of a school district for which the county board serves as the governing board shall provide the repayment schedules for that debt obligation and evidence of the ability of the county office of education or school district to repay that obligation, to the Superintendent of Public Instruction, the governing board, and the public. Within 15 days of the receipt of the information the Superintendent of Public Instruction may comment publicly to the county board of education regarding the capability of the county office of education or school district to repay that debt obligation.

CHAPTER 17. THE ARCHIE-HUDSON AND CUNNEEN SCHOOL TECHNOLOGY REVENUE BOND ACT

17160. It is the intent of the Legislature in enacting this act to provide a source of financing for the development of California public schools' educational technology infrastructure for the use of technology in instruction through the use of state revenue bonds repaid from a dedicated portion of funds allocated to school districts from the California State Lottery Education Fund pursuant to Section 8880.5 of the Government Code. It is further the intent of the Legislature in enacting this act to further the purposes of the California State Lottery Act of 1984 as approved by the voters on November 6, 1984.

17161. For the purpose of this article the following terms have the following meanings:

(a) "Act" means the Archie-Hudson and Cunneen School Technology Revenue Bond Act.

(b) "Authority" means the California School Financing Authority established pursuant to Section 17172.

(c) "Bond" means bonds, notes, bond anticipation notes, commercial paper, and any other evidences of indebtedness.

(d) "Fund" means the School Technology Pooled Revenue Bond Fund established pursuant to subdivision (c) of Section 17162.

(e) "School district" means school district or county office of education.

17162. (a) Notwithstanding Section 17199.3, the authority may issue bonds exclusively for the purposes of this act, provided that the total amount of bonds issued and outstanding at any time under this

act shall not exceed four hundred million dollars ($400,000,000). Authorization for the issuance of bonds under this act shall become operative after July 1, 1997, upon receipt by the authority of repayment pledges made by school districts, pursuant to Section 17163, which, when the pledges from all school districts are combined, are equal to or greater than five million dollars ($5,000,000). The authority shall not issue bonds for any project that cannot be supported by the repayment pledges of school districts.

(b) In administering this act, the authority shall meet all of the requirements established by law for the issuance, holding, and repayment of revenue bonds by the authority, including those set forth in Chapter 17 (commencing with Section 17170), unless otherwise provided for in this act.

(c) Revenues from the sale of bonds issued pursuant to this act shall be deposited in the School Technology Pooled Revenue Bond Fund, which fund is hereby established in the State Treasury. Notwithstanding Section 13340 of the Government Code, all moneys in the fund shall be continuously appropriated without regard to fiscal year for the purposes of this chapter. The authority shall allocate moneys to each participating school district from the fund.

(d) Allocations from the fund shall be used by school districts only for the purpose of establishing computer-based networks and telecommunications systems for instructional purposes, including the procurement and installation of computer hardware and software, multimedia audio, video, and data transfer equipment, and wiring, cabling, and other equipment necessary to establish network connectivity, and any planning and installation costs associated with establishing and installing the networks.

(e) The length of terms of the bonds issued pursuant to this act shall be less than the useful life of the equipment to be purchased as set forth in subdivision (d).

17163. (a) Notwithstanding any other provision of law, a school district may participate in this act, if the governing board of the school district adopts a resolution approving that participation. A participating school district shall pledge a portion of the lottery revenues allocated annually to the school district from the California State Lottery Education Fund as a dedicated revenue source to repay bonds issued by the authority under the act.

(b) A school district may pledge an amount up to the equivalent of 25 percent, but not more than 25 percent, of the allocation to the school district for the 1996–97 fiscal year from the California State Lottery Education Fund.

(c) A participating school district shall guarantee the repayment of bonds issued under this chapter by providing instructions to the Controller as follows:

(1) Informs the Controller of its election to participate in this act.

(2) Authorizes the Controller to pay the portion of the school district's annual allocation of funds from the California State Lottery

Education Fund to the bond trustee identified by the school district for the repayment of the school district's share of the bonds issued under this chapter.

(3) Contains a transfer schedule that sets forth the amounts of funds, which shall be equal to the amount of funds pledged pursuant to subdivisions (a) and (b) of this section, to be transferred by the Controller to the trustee from the funds to be allocated to that school district from the California State Lottery Education Fund.

17163.5. The Controller shall pay bond trustees in accordance with the instructions received pursuant to Section 17863. The Controller shall make that payment only from moneys in the California State Lottery Education Fund allocated to that school district. The Controller is not authorized to pay a bond trustee any amount in excess of a district's allocation from the California State Lottery Education Fund.

17164. Nothing contained in this chapter shall be deemed or construed to create or constitute a debt, liability, or a loan or pledge of the credit of the state.

Notwithstanding any other provision of law, should lottery funds pledged to repay bonds issued pursuant to this act be insufficient to repay the revenue bonds, negotiable notes, or negotiable bond anticipation notes sold to finance projects and related interest and expenses, moneys in the General Fund shall not be available as an alternative source of repayment.

17165. The State Department of Education shall include in its annual survey of schools on the use of lottery funds, the amount of lottery revenues expended to repay bonds issued pursuant to this act.

CHAPTER 18. CALIFORNIA SCHOOL FINANCE AUTHORITY

17170. This chapter shall be known and may be cited as the California School Finance Authority Act.

17171. The Legislature hereby finds and declares that it is in the interest of the state and its people for the state to do all of the following:

(a) Reconstruct, remodel, or replace existing school buildings which are educationally inadequate or which do not meet current structural safety requirements.

(b) Acquire new schoolsites and buildings to be made available to school districts and community college districts for the pupils of the public education system, which is a matter of general concern inasmuch as the education of the state's children is an obligation and function of the state.

(c) Assist school districts and community college districts by providing access to financing for working capital and capital improvements.

17172. There is in the state government the California School Finance Authority. The authority is a public instrumentality, and the

exercise by the authority of the powers conferred by this chapter is an essential public function.

17173. As used in this chapter, the following words and terms shall have the following meanings, unless the context indicates or requires another or different meaning or intent:

(a) "Act" means the California School Finance Authority Act.

(b) "Agent" means a county or city board of education or superintendent of schools acting with its consent on behalf of one or more school districts for any purpose of this chapter, and the Board of Governors of the California Community Colleges or the Chancellor of the California Community Colleges acting with its consent on behalf of one or more community college districts for any purpose of this chapter.

(c) "Authority" means the California School Finance Authority, or any board, body, commission, department, or officer succeeding to the principal functions of the authority, or to which the powers conferred upon the authority by this chapter shall be given by law.

(d) "Bonds" means bonds, notes, bond anticipation notes, commercial paper, and any other evidences of indebtedness.

(e) "Cost," as applied to all or part of a project financed pursuant to this chapter, means and includes all or any part of the cost of any of the following:

(1) Construction.

(2) Acquisition or improvement of all lands, structures, real or personal property, rights, rights-of-way, franchises, easements, and interests acquired or used for a project.

(3) Demolition or removal of any buildings or structures on land acquired for a project, including the acquisition of any lands to which the buildings or structures may be moved.

(4) All machinery and equipment.

(5) Financing charges.

(6) Interest prior to, during, and for a period following, the completion of such construction or improvement as determined by the authority.

(7) Provisions for working capital.

(8) Reserves for principal and interest, and for extensions, enlargements, additions, replacements, renovations, and improvements.

(9) Engineering, architectural, financial, and legal services, plans, specifications, studies, surveys, estimates, administrative expenses, and other expenses necessary or incident to the construction, acquisition, or improvement of any project or any financing under this chapter.

(f) "Educational facility" means any property, facility, structure, equipment, or furnishings used or operated in conjunction with one or more public schools or community colleges, including, but not limited to, all of the following:

(1) Classrooms.

(2) Auditoriums.
(3) Student centers.
(4) Administrative offices.
(5) Sports facilities.
(6) Maintenance, storage, or utility facilities.
(7) All necessary or usual attendant and related facilities and equipment, including streets, parking, and supportive service facilities or structures required or useful for the effective operation of the educational facility.

(g) "Participating district" means a school district or community college district which undertakes, itself or through an agent, the financing or refinancing of a project or of working capital pursuant to this chapter. "Participating district" shall also be deemed to refer to the agent to the extent the agent is acting on behalf of the school district or community college district for any purpose of this chapter.

(h) "Project" means the acquisition, construction, expansion, remodeling, renovation, improvement, furnishing, or equipping of an educational facility to be financed or refinanced pursuant to this chapter. "Project" may include any combination of the foregoing undertaken jointly by any participating district with one or more other participating districts.

(i) "Working capital" means funds to be used by, or on behalf of, a participating district to pay maintenance or operating expenses, or any other costs which would be treated as an expense item under generally accepted accounting principles in connection with the ownership or operation of an educational facility, including, but not limited to, all of the following:
(1) Reserves for maintenance or operating expenses.
(2) Interest for a period not to exceed one year on any loan for working capital made pursuant to this chapter.
(3) Reserves for debt service, and any other costs necessary or incidental to, financing pursuant to this chapter.

(j) "Certificate of participation" means an undivided interest in one or more bonds, leases, loans, installment sales, or other agreements of a participating district or districts.

17174. (a) The authority shall be comprised of the following members:
(1) The Treasurer, who shall serve as chairperson.
(2) The Director of the State Department of Finance.
(3) The Superintendent of Public Instruction.

(b) Each member of the authority may designate an individual from the member's department or agency to act for the member and represent the member at all meetings.

(c) Members of the authority or their designees shall serve without compensation, but may be reimbursed by the authority for necessary and reasonable expenses incurred in the discharge of their duties.

17175. (a) Upon the first appointment of its members, and thereafter on or after March 31 of each year, the authority shall elect from its members a vice chairperson and a secretary-treasurer, who shall hold office until the following March 31, and shall continue to serve until their successors have been elected.

(b) On behalf of the authority, the chairperson shall appoint an executive director, who shall not be a member of the authority, and who shall serve at the pleasure of the authority. The executive director shall receive the compensation fixed for that purpose by the authority.

The authority may delegate to the executive director the power to enter contracts on behalf of the authority.

17176. (a) Except as otherwise provided by subdivision (b), the Attorney General shall be the legal counsel for the authority.

(b) Upon the approval of the Attorney General, which shall not be unreasonably withheld, the authority may employ legal counsel as, in its judgment, is necessary or advisable to enable it to carry out the duties and functions of the authority pursuant to this chapter, including, but not limited to, the employment of bond counsel in connection with the issuance of bonds.

17177. The executive director or other person designated by resolution of the authority shall maintain a record of the proceedings of the authority, and shall be custodian of all books, documents, and papers filed with the authority, the minute book or journal of the authority, and its official seal. The executive director or the designee may cause copies to be made of all minutes and other records and documents of the authority, and may certify under the official seal of the authority that the copies are true copies, and all persons dealing with the authority may rely upon that certification.

17178. Two members of the authority shall constitute a quorum. The affirmative vote of a majority of a quorum shall be necessary for any action taken by the authority. A vacancy in the membership of the authority shall not impair the right of a quorum to exercise all the rights and perform all the duties of the authority. Each meeting of the authority shall be open to the public and shall be held in accordance with Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code. Resolutions of the authority need not be published or posted. The authority may delegate by resolution to one or more of its members or its executive director any powers and duties as it may deem proper.

17179. The provisions of this chapter shall be administered by the authority, which shall have and is hereby vested with all powers reasonably necessary to carry out the powers and responsibilities expressly granted or imposed under this chapter.

17180. The authority is hereby authorized to do all of the following:

(a) Adopt bylaws for the regulation of its affairs and the conduct of its business.

(b) Adopt an official seal.

(c) Sue and be sued in its own name.

(d) Receive and accept gifts, grants, or donations of money for any of the purposes of this chapter from any of the following:

(1) A federal agency.

(2) A state agency.

(3) A municipality, county, or other political subdivision of the state.

(4) An individual, association, or corporation.

(e) Engage the services of private consultants to render professional and technical assistance and advice in carrying out the purposes of this chapter.

(f) (1) Determine the location and character of any project to be financed under this chapter, and acquire, construct, enlarge, remodel, renovate, alter, improve, furnish, equip, own, maintain, manage, repair, operate, lease as lessee or lessor, or regulate the same.

(2) Designate a participating district as its agent, with authority to enter into contracts, for any of the purposes specified in paragraph (1).

(3) Enter into contracts for any of the purposes specified in paragraph (1).

(4) Enter into contracts for the management and operation of a project owned by the authority.

(g) Acquire, directly or by and through a participating district as its agent, by purchase solely from funds provided pursuant to this chapter, or by gift or devise, and sell, by installment or otherwise, property, rights, rights-of-way, franchises, easements, and other interests in lands, including, but not limited to, lands lying under water, and riparian rights, located within the state which the authority deems necessary or convenient for the acquisition, construction, financing, or operation of a project. The authority may do so upon the terms, and at the prices, it considers reasonable and upon which it can agree with the owner, and may take the title to the interest in the name of the authority or in the name of a participating district as its agent.

(h) Receive and accept from any source loans, contributions, or grants for, or in aid of, the construction, financing, or refinancing of all or part of a project, in the form of money, property, labor, or other things of value.

(i) Pursuant to an agreement between the authority and the participating district, make, directly or through a lending institution, secured or unsecured loans to, or purchase secured or unsecured loans from, a participating district for any of the following purposes:

(1) To finance a project or provide working capital. No loan to finance a project shall exceed the total cost of the project, as determined by the participating district and approved by the authority.

(2) To refinance indebtedness incurred by the participating district in connection with projects undertaken, educational facilities acquired, or working capital financed.

(j) Upon the terms and conditions the authority deems proper, lease a project being financed pursuant to this chapter to a participating district, and charge and collect rent therefor. The authority may terminate a lease pursuant to this subdivision upon the lessee's failure to comply with any of its obligations under the lease. The lease may include any of the following provisions:

(1) That the lessee shall have the option to renew the term of the lease for the period or periods, and at the rent, determined by the authority, or to purchase any or all of the project.

(2) That upon payment by the participating district of all of the indebtedness incurred by the authority for the financing of the project or for the refinancing of the district's outstanding indebtedness, the authority may convey any or all of the project to the lessee or lessees, with or without further consideration.

(k) Charge and equitably apportion among participating districts its administrative costs and expenses incurred pursuant to this chapter.

(*l*) (1) Obtain, or aid in obtaining, from any state or federal agency or any private company, any insurance, guarantee, letter, or line of credit regarding, or of, or for, the payment or repayment of all or part of the interest, principal, or both, on any loan, lease, or obligation, or any instrument evidencing or securing the same, made or entered into pursuant to this chapter, or on any bonds issued pursuant to this chapter.

(2) Notwithstanding any other provision of this chapter, enter into any agreement, contract, or any other instrument regarding any insurance, guarantee, letter, or line of credit specified in paragraph (1), and accept payment in the manner and form provided therein in the event of default by a participating district.

(3) Assign any insurance, guarantee, letter, or line of credit specified in paragraph (1) as security for bonds issued by the authority.

(m) Enter into any agreements or contracts, including, but not limited to, agreements for liquidity or credit enhancement, execute any instruments, and any other act or thing necessary, convenient, or desirable for the purposes of the authority or to carry out any express power granted the authority pursuant to this chapter.

(n) At the discretion of the authority, invest any moneys held in reserve or in sinking funds, or any moneys not required for immediate use or disbursement, in obligations authorized by the resolution authorizing the bonds secured by the investment, or by law governing the investment of trust funds in the custody of the Treasurer.

17181. (a) The California School Finance Authority Fund is hereby created in the State Treasury, to be administered by the

authority. Notwithstanding Section 13340 of the Government Code, all moneys in the fund shall be continuously appropriated without regard to fiscal year for the purposes of this chapter. The authority may pledge any or all of the moneys in the fund as security for payment of the principal of, and interest on, any particular issuance of bonds pursuant to this chapter. For that purpose, or as necessary or convenient to the accomplishment of any other purpose of this chapter, the authority may divide the fund into separate accounts. All moneys accruing to the authority pursuant to this chapter from any source shall be deposited in the fund.

(b) Subject to any priorities created by the pledge of particular moneys in the fund to secure any issuance of bonds of the authority, and to reasonable administrative costs incurred by the authority in implementing this chapter, all moneys in the fund, regardless of the source, shall be held in trust for the security and payment of bonds of the authority, and shall not be used or pledged for any other purpose while any bonds are outstanding and unpaid. Nothing in this subdivision shall be construed to limit the power of the authority to make loans with bond proceeds in accordance with the terms of the resolution authorizing the issuance of those bonds.

(c) Pursuant to any agreements with the holders of particular bonds pledging any particular assets, revenues, or moneys, the authority may create separate accounts in the fund to manage the assets, revenues, or moneys in the manner prescribed by the agreements.

(d) From time to time, the authority may direct the Treasurer to do any of the following:

(1) Invest moneys in the fund which are not required for its current needs, including, but not limited to, proceeds from the sale of any bonds in eligible securities specified in Section 16430 of the Government Code and designated by the authority, or in any other securities or obligations designated by the authority, in the resolution authorizing the issuance of the bonds payable or secured by the moneys.

(2) Deposit moneys in the fund in interest bearing accounts in state or national banks or other financial institutions having principal offices in the state.

(3) Transfer moneys in the fund to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3 of Part 4 of Division 4 of Title 2 of the Government Code.

Notwithstanding Section 16305.7 of the Government Code, all interest or other earnings resulting from an investment or deposit pursuant to this subdivision shall be deposited in the fund.

(e) Except as otherwise provided in paragraph (3) of subdivision (d), no moneys in the fund shall be subject to transfer to any other fund pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code.

17182. (a) Except as otherwise provided in subdivision (b), all expenses incurred by the authority in implementing this chapter shall be payable solely from funds appropriated for purposes of this chapter, and the authority shall not incur liabilities in excess of the amount of those funds.

(b) For purposes of meeting the necessary expenses of initial organization and operation of the authority until it derives money from funds provided to it pursuant to this chapter, the authority may borrow such moneys as it may require. Moneys borrowed pursuant to this subdivision shall subsequently be charged to, and apportioned among, participating school districts in an equitable manner, and repaid with appropriate interest over a reasonable period of time.

17183. (a) From time to time, the authority may, by resolution, issue its revenue bonds in order to provide funds for any of the purposes of this chapter. Bonds may be issued to finance any of the following:

(1) A single project or financing of working capital for a single participating district.

(2) A series of projects or financings of working capital for a single participating district.

(3) A single project or financing of working capital for several participating districts.

(4) Several projects or financing of working capital for several participating districts.

(b) Except as otherwise expressly provided by the authority, all revenue bonds shall be payable from any available revenues or moneys of the authority not otherwise pledged, subject only to any agreements with holders of particular bonds or notes pledging any particular revenue or moneys. Notwithstanding that revenue bonds issued pursuant to this section may be payable from a special fund, the revenue bonds shall be, and shall be deemed to be for all purposes, negotiable instruments, subject only to the provisions of the revenue bonds for registration.

(c) The revenue bonds of the authority may be issued as serial bonds, term bonds, or the authority, in its discretion, may issue bonds of both types. The issuance shall be in accordance with the indenture, trust agreement, or resolution relating to the revenue bonds, which shall provide all of the following:

(1) The date or dates of the bonds.

(2) The date or dates upon which the bonds will mature, not to exceed 40 years from their respective dates.

(3) The interest rate or rates, or methods of determining the interest rate or rates, of the bonds.

(4) When the bonds are payable.

(5) The denominations of the bonds.

(6) The form of the bonds, which shall be either bearer or registered.

(7) The registration privileges of the bonds.

(8) The manner in which the bonds are to be executed.

(9) The place or places at which the bonds shall be payable in lawful money of the United States of America.

(10) The terms of redemption of the bonds.

(d) After giving due consideration to the recommendations of the participating district or districts, the revenue bonds of the authority shall be sold by the Treasurer at either a public or private sale at a price or prices, and upon the terms and conditions prescribed by the authority. The revenue bonds of the authority may be sold at, above, or below the par value of the bonds.

(e) Pending the preparation of the definitive bonds, the authority may issue interim receipts or certificates or temporary bonds which shall be exchanged for the definitive bonds.

(f) Any resolution authorizing the issuance of any bonds of the authority, or any issue of revenue bonds of the authority, may include any of the following provisions:

(1) Provisions pledging all or any part of the proceeds of the bonds or revenue of a project or loan.

(2) Provisions concerning the replacement of mutilated, destroyed, stolen, or lost bonds.

(3) Provisions specifying insurance to be maintained on the project and the authorized uses of the proceeds of the insurance.

(4) Covenants against the mortgaging or otherwise encumbering, selling, leasing, pledging, placing a charge upon, or otherwise disposing of the project prior to the payment of the bonds issued to finance the project.

(5) Provisions specifying the events of default, terms upon which the bonds may be declared due before maturity, and the terms upon which the declaration and its consequences may be waived.

(6) The rights, liabilities, powers, and duties arising upon the breach of any covenants, conditions, or obligations.

(7) Vesting of the right to enforce covenants in a trustee.

(8) The terms upon which all or any percentage of the bondholders may enforce covenants or duties.

(9) Procedures for amending the terms of the resolution, with or without the consent of the holders of a specified number of bonds.

(10) Provision for any other acts or things deemed necessary, convenient, or desirable by the authority to secure the bonds or improve their marketability.

(g) The validity of the authorization and issuance of any bond issue shall not be affected by proceedings for the acquisition, construction, or improvement of any project, or by contracts relating to those proceedings. Any resolution authorizing the issuance of any bonds of the authority may provide authorization for the bonds to bear a statement certifying that they are issued pursuant to this chapter. Bonds bearing such a statement shall be conclusively deemed valid and issued in conformity with this chapter. Reference on the face of the bonds to the resolution by its date of adoption shall

incorporate the provisions of the resolution and of this chapter into the terms of the bonds.

(h) Members of the authority, or any person executing the revenue bonds of the authority, shall not incur personal liability on the bonds, nor shall these persons incur personal liability or accountability by reason of the issuance of the revenue bonds of the authority.

(i) The authority is authorized, out of any funds available for that purpose, to purchase revenue bonds of the authority. The authority may hold, pledge, cancel, or resell any bonds purchased under the authority of this subdivision, subject to, and in accordance with, agreements with bondholders.

(j) The financing or refinancing of projects or working capital may be provided pursuant to this chapter by means other than revenue bonds, at the discretion of the authority, including financing or refinancing through certificates of participation, or other interests, in bonds, loans, leases, installment sales, or other agreements of the participating district or districts. In this connection, the authority may do all things and execute and deliver all documents and instruments as may be necessary or desirable with regard to issuance of the certificates of participation or other means of financing or refinancing.

17183.5. In enacting this chapter, it is the intent of the Legislature to provide financing only for projects demonstrated by the participating district to be financially feasible. In demonstrating financial feasibility, the participating district may take into account all district funds, and may base future projections upon historical experience or reasonable expectations, or a combination thereof. Nothing in this section shall be construed to imply that any project is required to produce revenue in order to be financed under this chapter.

17184. (a) In the discretion of the authority, any revenue bonds of the authority issued under this chapter may be secured by a trust agreement, or by indenture by and between the authority and a corporate trustee or trustees, including the Treasurer or any trust company or bank having the powers of a trust company within or outside the state.

(b) Any trust agreement, indenture, or any resolution providing for the issuance of bonds of the authority, may pledge or assign the proceeds of the bonds, and the revenues to be received by, a participating district or districts.

(c) Any trust agreement, indenture, or resolution providing for the issuance of revenue bonds of the authority may include any provisions for the protection of, and the enforcement of the rights and remedies of, bondholders as may be reasonable and proper and not in violation of any law, including provisions included in any resolution or resolutions of the authority provided under subdivision (a) or (b).

(d) Any trust agreement or indenture may prescribe the rights and remedies of the bondholders, and of the trustee or trustees, and may restrict the individual right of action of the bondholders.

(e) Any trust agreement, indenture, or resolution may include any other provisions deemed by the authority to be reasonable and proper for the security of the bondholders.

(f) Notwithstanding any other provision of law, the Treasurer shall not be deemed to have a conflict of interest by reason of his or her capacity as trustee pursuant to this chapter.

17185. (a) Revenue bonds issued under this chapter are not and shall not be deemed to constitute a debt or liability of the state, or any political subdivision thereof, and are not and shall not be deemed to be a pledge of the faith and credit of the state, or any political subdivision thereof, other than the authority. Revenue bonds of the authority shall be payable solely from funds provided under this chapter.

(b) Each revenue bond of the authority shall include a statement on the face of the bond that neither the State of California nor the authority is obligated to pay the principal or interest thereon, except from revenues of the authority, and shall also include a statement that neither the faith or credit, nor the taxing power of the State of California, or any political subdivision, is pledged to the payment of the principal or interest of the bonds.

(c) The issuance of revenue bonds under this chapter shall not directly, indirectly, or contingently obligate the state, or any political subdivision thereof, to levy or pledge any form of taxation, or make any appropriation for their payment.

17186. (a) Any holder of revenue bonds issued under this chapter, or any coupons appertaining thereto, or the trustee or trustees under any trust agreement, indenture, or resolution, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any rights conferred under state law, by this chapter, or under the terms of any trust agreement, indenture, or resolution, except to the extent that these rights may be otherwise restricted by any resolution authorizing the issuance of these bonds, or by any trust agreement or indenture securing these bonds.

(b) Any holder of revenue bonds issued under this chapter, or any coupons appertaining thereto, or the trustee or trustees under any trust agreement, indenture, or resolution, may enforce and compel the performance of all duties required under this chapter, or by any trust agreement, indenture, or resolution, to be performed by the authority, or by any officer, employee, or agent of the authority.

17187. All moneys received under this chapter, whether received as proceeds from the sale of revenue bonds or as revenues, are trust funds to be held and applied solely as provided in this chapter. Any officer, bank, or trust company with whom those moneys have been deposited, shall act as trustee of those moneys and shall hold and

apply them for those purposes, subject to the requirements of this chapter and the resolution authorizing the bonds of any issue, or the trust agreement or indenture securing those bonds, may provide.

17188. (a) The authority may provide for the issuance of the revenue bonds of the authority for the purpose of refunding any bonds, or any series or issue of the revenue bonds of the authority then outstanding, and may include the payment of any redemption premium for those bonds and any interest accrued or to accrue to the date of redemption and purchase or maturity of those bonds.

(b) The proceeds of any bonds issued for the purpose of refunding of outstanding bonds may, in the discretion of the authority, be applied to the purchase or redemption prior to maturity or retirement at maturity of the outstanding bonds on their earliest or any subsequent redemption date or upon the purchase or at the maturity thereof, or paid to a third person to assume the authority's obligation to make those payments, and may, pending that application, be placed in escrow to be applied to the purchase or retirement at maturity or redemption on any date or dates as may be determined by the authority.

(c) Any escrowed proceeds, pending such use may be invested and reinvested in obligations or securities authorized by resolution of the authority, maturing at any time or times as shall be appropriate to assure the prompt payment, as to principal, interest, and redemption premium, if any, of the outstanding bonds to be so refunded. The interest, income and profits, if any, earned or realized on any investment may also be applied to the payment of the outstanding bonds to be so refunded or of interest in the refunding bonds. After the terms of the escrow have been fully satisfied and carried out, any balance of proceeds and interest, income profits, if any, earned or realized on the investments thereof may be returned to the authority for use by it in any lawful manner.

(d) All refunding bonds are subject to the provisions of this chapter, in the same manner and to the same extent, as other bonds issued pursuant to this chapter.

17189. (a) Revenue bonds issued by the authority under this chapter shall be designated as securities in which all banks, bankers, savings banks, trust companies, and other persons engaged in a banking business; all insurance companies, insurance associations, and other persons carrying on an insurance business; any administrators, executors, guardians, trustees, and other fiduciaries; and any other persons who are now or who may hereafter be authorized to invest in bonds or other obligations of the state, may properly and legally invest any funds, including capital belonging to them or within their control.

(b) Revenue bonds issued by the authority under this chapter, other notes or securities, or obligations are hereby made securities which may properly and legally be deposited with, and received by, any state or municipal officer, or agency of the state for any purpose

for which the deposit of bonds or other obligations of the state are, or may hereafter be, authorized by law.

17190. (a) Any bonds issued under this chapter, their transfer, and income therefrom shall at all times be free from taxation of every kind by the state and by all political subdivisions of the state.

(b) The authority is not required to pay any taxes or assessments upon, or with respect to, any project or property acquired by or for the authority under this chapter, or upon any income therefrom, or on or from any other assets or operations of the authority.

17191. (a) The State of California pledges and agrees with the holders of the bonds issued pursuant to this chapter, and with those parties who may enter into contracts with the authority pursuant to the provisions of this chapter, that the state will not limit, alter, or restrict the rights hereby vested in the authority to finance educational facilities. The State of California pledges and agrees to fulfill the terms of any agreements made with the holders of bonds authorized by this chapter, and with the parties who may enter into contracts with the authority pursuant to this chapter, and pledges and agrees not to impair the rights or remedies of the holders of any revenue bonds or any parties until the bonds, together with interest, are fully paid and discharged and any contracts are fully performed on the part of the authority.

(b) The authority shall have the right to include the pledges made pursuant to this section in its revenue bonds and contracts.

17192. (a) Pledges by or to the authority of revenues, moneys, accounts, accounts receivable, contract rights, or other rights to payment of any other kind made by or to the authority pursuant to this chapter shall be valid and binding from the time the pledge is made for the benefit of the pledges, and the successors thereto.

(b) The revenues, moneys, accounts, accounts receivable, and other rights to payment of any other kind pledged by or to the authority or its assignees, shall immediately be subject to the lien of the pledge without physical delivery, or any further act. The lien of any pledge shall be valid and binding against all parties, irrespective of whether the parties have notice of the claim. The trust agreement, indenture, resolution, or other instrument by which any pledge is created need not be recorded.

17193. (a) The authority shall fix, revise, charge, and collect rents for the use of each project owned by the authority, and may contract with any person, partnership, association, corporation, or other body, whether public or private, for that purpose. Any lease entered into by the authority with a participating district, and each agreement, note, or other instrument evidencing the obligations of a participating district to the authority, shall provide that the rents or principal, interest, and other charges payable by the participating district shall be sufficient to provide for all of the following:

(1) To pay the principal, sinking fund payments, if any, premiums, if any, and the interest on outstanding bonds of the authority issued in respect of the project when due and payable.

(2) To create and maintain reserves which may, but need not necessarily be required or provided for, in the resolution relating to the revenue bonds of the authority.

(3) To pay its share of the administrative costs and expenses of the authority.

(b) The authority shall pledge the revenues derived and to be derived from a project or from a participating district for the purposes specified in paragraphs (1), (2), and (3) of subdivision (a). The authority may issue additional revenue bonds which may be ranked on a parity with other bonds relating to the project to the extent, and under the terms and conditions provided, in the bond resolution.

(c) The authority and a participating district may include in any lease or agreement between them or with a credit provider any terms and conditions relating to insurance, liquidity, or credit enhancement of the bonds, or any other lawful terms and conditions the authority deems necessary or desirable to facilitate the purposes of this chapter.

17194. The authority may authorize any participating district to act as its agent in the performance of acts specifically approved by the authority, and all acts required under Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5. The authorizations may include, but are not necessarily limited to, all of the following:

(a) The selection of school or college sites.

(b) The securing of appraisals.

(c) Contracts for architectural services.

(d) The advertisement for construction bids and the entry into contracts for construction.

(e) The purchase of furniture and equipment.

17195. Whenever the principal and interest on bonds issued by the authority to finance the cost of a project, or to refinance the outstanding indebtedness of one or more participating districts, including any refunding bonds issued to refund and refinance those bonds, have been fully paid or retired, or whenever adequate provision has been made to fully pay and retire the bonds, and all other conditions of the resolution, lease, trust indenture and any security interest, or any other instrument or instruments authorizing and securing the bonds have been satisfied and the lien of security interest has been released in accordance with those provisions, the authority shall promptly provide for and execute any releases, release deeds, reassignments, deeds, and conveyances as are necessary and required to convey or release its rights, title, and interest in the project financed, to the participating districts.

17196. (a) This chapter shall be deemed to provide a complete, additional, and alternative method for accomplishing the acts

authorized in this chapter, and shall be deemed as being supplemental and additional to the powers conferred by other applicable laws, except that the issuance of revenue bonds and refunding bonds and the undertaking or projects or financings under this chapter need not comply with the requirements of any other laws applicable to the issuance of bonds, including, without limitation, Division 13 (commencing with Section 21000) of the Public Resources Code.

(b) Except as provided in subdivision (a), the financing of a project under this chapter shall not exempt a project from any of the requirements of law which are otherwise applicable to the project.

17197. To the extent that the provisions of this chapter are inconsistent with any other provisions of any general statute, or a special act or parts thereof, the provisions of this chapter shall be deemed controlling.

17198. Any net earnings of the authority beyond that necessary for the retirement of any obligations issued by the authority, or to implement the purposes of this chapter, may inure only to the benefit of the State of California or the authority.

17199. Upon the dissolution of the authority, title to all property owned by the authority shall vest in the successor authority created by the Legislature, if any, if the successor authority meets the requirements of Section 103 of the federal Internal Revenue Code of 1954, as amended, and its implementing regulations, as an authority entitled to issue obligations on behalf of the State of California, the interest from which is exempted from federal income taxation.

In the event that a successor authority is not created, title to all property owned by the authority shall vest in the State of California.

17199.1. (a) Any participating district, exclusively for the purpose of securing financing or refinancing of projects or working capital pursuant to this chapter through the issuance of revenue bonds, certificates of participation, or other means, and notwithstanding any other provision of law, may issue bonds to the authority or borrow money or purchase or lease educational facilities from the authority, and in connection therewith, sell or lease property to the authority, at any interest rate or rates, rental provisions, with any maturity date or dates or term, and with any other payment, security, default, remedy, and other terms or provisions as may be specified in the bonds of the participating district or a loan, loan purchase, installment sale, lease, or other agreement between the authority and the participating district, subject to the following conditions:

(1) The sum of the amount borrowed to finance working capital and the interest payable thereon at the initial interest rate if interest is variable, shall not exceed 85 percent of the estimated amount of uncollected taxes, income, revenue, cash receipts, and other district funds which will be available in any fiscal year for the repayment of the loan and the interest thereon. For purposes of this paragraph,

"revenue" includes, but is not limited to, federal and state funds received by the district.

(2) In computing the maximum amount which may be borrowed in any fiscal year pursuant to paragraph (1), the district may exclude the amount of any principal or interest which is secured by a pledge of the amount in any inactive or term deposit of the district which has a term scheduled to terminate during that fiscal year.

(3) A participating district that borrows money to finance working capital pursuant to this subdivision shall be required to repay and discharge the loan within 15 months of the loan date.

(4) In enacting this chapter, it is the intent of the Legislature to provide financing of working capital needed to cover temporary or cash-flow deficits and needs for working capital and not long-term budget deficits or shortfalls in funding. The participating school district must demonstrate to the satisfaction of the authority that, during the term of any working capital loan received pursuant to this chapter, the participating district will receive or otherwise have (without additional borrowing) sufficient funds to repay and discharge the loan. The participating district may take into account all district funds and may base future projections upon historical experience or reasonable expectations, or a combination thereof.

(b) Any participating district may enter into any agreement for liquidity or credit enhancement, with any reimbursement, payment, interest, security, default, remedy, and other terms it may deem necessary or appropriate in connection with the issuance of bonds, the borrowing of money or the lease or purchase of educational facilities, whichever is applicable. Any participating district or districts may also do all things and execute all documents as may be necessary or desirable in connection with the issuance of certificates of participation, or other interests, in any bond, loan, installment sale, lease, or other agreement of the district.

(c) A school district may by resolution authorize any county or city board of education or superintendent of schools, and a community college district may by resolution authorize the Board of Governors of the California Community Colleges or the Chancellor of the California Community Colleges, to act as its agent in the performance of any of the matters permitted by this section or any other provision of this chapter. Notwithstanding any other provision of law, the agent shall have the powers granted by the resolution for purposes of this chapter. The resolution shall be deemed to bind the school district or community college district, as the case may be, to any contract, agreement, instrument, or other document executed by the agent on behalf of the school district or community college district, and all duties, obligations, or responsibilities contained therein on the part of the school district or community college district, to the same extent as if duly authorized, executed, and delivered by the school district or community college district.

(d) This section shall be deemed to provide a complete, additional, and alternative method for accomplishing the acts authorized by this section, and the issuance of bonds to, borrowing of money from, or sale or purchase or lease of educational facilities from or to, the authority. Any agreement entered into in connection with the issuance of bonds, the borrowing of money or the sale, purchase, or lease of educational facilities, including, without limitation, any agreement for liquidity or credit enhancement under this section, need not comply with the requirements of any other law applicable to issuance of bonds, borrowing, selling, purchasing, leasing, pledge, encumbrance, or credit, as the case may be, by a school district or community college district, or by a county or city board of education or superintendent of schools or the Board of Governors of the California Community Colleges or Chancellor of the California Community Colleges.

17199.2. An action may be commenced under Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure to determine the validity of any issuance or proposed issuance of revenue bonds, the loan of the proceeds thereof, the sale, purchase, or lease of facilities under this chapter, or the legality and validity of any proceedings previously taken or proposed in a resolution of the authority to be taken for the authorization, issuance, sale, and delivery of the bonds, for the use of the proceeds thereof, or for the payment of the principal and interest thereon.

17199.3. (a) The total amount of revenue bonds which may be issued and outstanding at any time under this chapter shall not exceed four hundred million dollars ($400,000,000).

(b) For purposes of subdivision (a), bonds which meet any of the following conditions shall not be deemed to be outstanding:

(1) Bonds which have been refunded pursuant to Section 17188.

(2) Bonds for which money or securities in amounts necessary to pay or redeem the principal, interest, or any redemption premium on the bonds have been deposited in trust.

(3) Bonds which have been issued to provide working capital.

SEC. 3. Part 10.5 (commencing with Section 17211) is added to the Education Code, to read:

PART 10.5. SCHOOL FACILITIES

CHAPTER 1. SCHOOLSITES

Article 1. General Provisions

17211. Prior to commencing the acquisition of real property for a new schoolsite or an addition to an existing schoolsite, the governing board of a school district shall evaluate the property at a public hearing using the site selection standards established by the State Department of Education pursuant to subdivision (b) of

Section 17251. The governing board may direct the district's advisory committee established pursuant to Section 17388 to evaluate the property pursuant to those site selection standards and to report its findings to the governing board at the public hearing.

17212. The governing board of a school district, prior to acquiring any site on which it proposes to construct any school building as defined in Section 17283 shall have the site, or sites, under consideration investigated by competent personnel to ensure that the final site selection is determined by an evaluation of all factors affecting the public interest and is not limited to selection on the basis of raw land cost only. If the prospective schoolsite is located within the boundaries of any special studies zone or within an area designated as geologically hazardous in the safety element of the local general plan as provided in subdivision (g) of Section 65302 of the Government Code, the investigation shall include any geological and soil engineering studies by competent personnel needed to provide an assessment of the nature of the site and potential for earthquake or other geologic hazard damage.

The geological and soil engineering studies of the site shall be of such a nature as will preclude siting of a school in any location where the geological and site characteristics are such that the construction effort required to make the school building safe for occupancy is economically unfeasible. No studies are required to be made if the site or sites under consideration have been the subject of adequate prior studies. The evaluation shall also include location of the site with respect to population, transportation, water supply, waste disposal facilities, utilities, traffic hazards, surface drainage conditions, and other factors affecting the operating costs, as well as the initial costs, of the total project.

For the purposes of this article, a special studies zone is an area which is identified as a special studies zone on any map, or maps, compiled by the State Geologist pursuant to Chapter 7.5 (commencing with Section 2621) of Division 2 of the Public Resources Code.

17212.5. Geological and soil engineering studies as described in Section 17212 shall be made, within the boundaries of any special studies zone, for the construction of any school building as defined in Section 17283, or if the estimated cost exceeds twenty thousand dollars ($20,000), for the reconstruction or alteration of or addition to any school building for work which alters structural elements. The Department of General Services may require similar geological and soil engineering studies for the construction or alteration of any school building on a site located outside of the boundaries of any special studies zone. No studies need be made if the site under consideration has been the subject of adequate prior studies.

No school building shall be constructed, reconstructed, or relocated on the trace of a geological fault along which surface

rupture can reasonably be expected to occur within the life of the school building.

A copy of the report of each investigation conducted pursuant to this section shall be submitted to the Department of General Services pursuant to Article 3 (commencing with Section 17280) of this chapter and to the State Department of Education. The cost of geological and soil engineering studies and investigations conducted pursuant to this section may be treated as a capital expenditure.

17213. The governing board of a school district shall not approve a project involving the acquisition of a schoolsite by a school district unless all of the following occur:

(a) The lead agency, as defined in Section 21067 of the Public Resources Code, determines that the property purchased or to be built upon is not any of the following:

(1) The site of a current or former hazardous waste disposal site or solid waste disposal site unless, if the site was a former solid waste disposal site, the governing board of the school district concludes that the wastes have been removed.

(2) A hazardous substance release site identified by the State Department of Health Services in a current list adopted pursuant to Section 25356 for removal or remedial action pursuant to Chapter 6.8 (commencing with Section 25300) of Division 20 of the Health and Safety Code.

(3) A site which contains one or more pipelines, situated underground or aboveground, which carries hazardous substances, acutely hazardous materials, or hazardous wastes, unless the pipeline is a natural gas line which is used only to supply natural gas to that school or neighborhood.

(b) The lead agency, as defined in Section 21067 of the Public Resources Code, preparing the environmental impact report or negative declaration has consulted with the administering agency in which the proposed schoolsite is located and with any air pollution control district or air quality management district having jurisdiction in the area, to identify facilities within one-fourth of a mile of the proposed schoolsite which might reasonably be anticipated to emit hazardous air emissions, or to handle hazardous or acutely hazardous materials, substances, or waste. The lead agency shall include a list of the locations for which information is sought.

(c) The governing board of the school district makes one of the following written findings:

(1) Consultation identified none of the facilities specified in subdivision (b).

(2) The facilities specified in subdivision (b) exist, but one of the following conditions applies:

(A) The health risks from the facilities do not and will not constitute an actual or potential endangerment of public health to persons who would attend or be employed at the school.

(B) The governing board finds that corrective measures required under an existing order by another jurisdiction which has jurisdiction over the facilities will, before the school is occupied, result in the mitigation of all chronic or accidental hazardous air emissions to levels that do not constitute an actual or potential endangerment of public health to persons who would attend or be employed at the proposed school. If the governing board makes this finding, the governing board shall also make a subsequent finding, prior to the occupancy of the school, that the emissions have been mitigated to these levels.

(d) As used in this section:

(1) "Hazardous air emissions" means emissions into the ambient air of air contaminants which have been identified as a toxic air contaminant by the State Air Resources Board or by the air pollution control officer for the jurisdiction in which the project is located. As determined by the air pollution control officer, hazardous air emissions also means emissions into the ambient air from any substance identified in subdivisions (a) to (f), inclusive, of Section 44321 of the Health and Safety Code.

(2) "Hazardous substance" means any substance defined in Section 25316 of the Health and Safety Code.

(3) "Acutely hazardous material" means any material defined pursuant to subdivision (a) of Section 25532 of the Health and Safety Code.

(4) "Hazardous waste" means any waste defined in Section 25117 of the Health and Safety Code.

(5) "Hazardous waste disposal site" means any site defined in Section 25114 of the Health and Safety Code.

(6) "Administering agency" means any agency designated pursuant to Section 25502 of the Health and Safety Code.

(7) "Handle" means handle as defined in Article 1 (commencing with Section 25500) of Chapter 6.95 of Division 20 of the Health and Safety Code.

17215. (a) In order to promote the safety of pupils, comprehensive community planning, and greater educational usefulness of schoolsites before acquiring title to property for a new schoolsite, the governing board of each school district, including any district governed by a city board of education, shall give the Department of Transportation written notice of the proposed acquisition and shall submit any information required by the department if the proposed site is within two miles, measured by air line, of that point on an airport runway or a potential runway included in an airport master plan that is nearest to the site.

(b) If the Department of Transportation is no longer in operation, the governing board of the school district shall, in lieu of notifying the Department of Transportation, notify the United States Department of Transportation or any other appropriate agency, in writing, of the proposed acquisition for the purpose of obtaining from the

department or other agency any information or assistance that it may desire to give.

(c) The Department of Transportation shall investigate the proposed site and, within 30 working days after receipt of the notice, shall submit to the governing board a written report and its recommendations concerning acquisition of the site. As part of the investigation, the Department of Transportation shall give notice thereof to the owner and operator of the airport who shall be granted the opportunity to comment upon the proposed schoolsite.

(d) The governing board shall not acquire title to the property until the report of the Department of Transportation has been received. If the report does not favor the acquisition of the property for a schoolsite or an addition to a present schoolsite, the governing board shall not acquire title to the property until 30 days after the department's report is received and until the department's report has been read at a public hearing duly called after 10 days' notice published once in a newspaper of general circulation within the school district or, if there is no newspaper of general circulation within the school district, in a newspaper of general circulation within the county in which the property is located.

(e) Except as provided in subdivision (e), if the Department of Transportation in its report submitted to a governing board of a school district does not favor acquisition of a proposed site that is within two miles of the centerline of an active runway, no state funds or local funds shall be apportioned or expended for the acquisition of that site, construction of any school building on that site, or for the expansion of any existing site to include that site.

(f) This section does not apply to sites acquired prior to January 1, 1966, nor to any additions or extensions to those sites.

(g) If the recommendations of the Department of Transportation are unfavorable, the recommendations shall not be overruled without the express approval of the State Allocation Board.

17216. No action undertaken by the State Department of Education or by any other state agency or by any political subdivision pursuant to this chapter, or in compliance with this chapter, shall be construed to affect any rights arising under the provisions of Section 19 of Article 1 of the California Constitution.

17217. The governing board of a school district may acquire a site for a school building contiguous to the boundaries of the district and upon the acquisition of the site it shall become a part of the district. The site shall not be acquired until the county committee on school district organization of the county or of each of the counties concerned has received the proposal for acquisition of the site and reported its recommendations thereon to the governing boards of the districts concerned and to each county superintendent of schools concerned. The report of the county committee shall be made within 60 days from the time the proposal for acquisition of the site was

submitted to it. The power of eminent domain may be used for the purposes of this section.

A schoolsite is contiguous for the purpose of this section although separated from the boundaries of the district by a road, street, stream, or other natural or artificial barrier or right-of-way.

17218. The governing board of a school district which has been included in a school district unification proposal approved by the electors of the territory involved pursuant to Chapter 2 (commencing with Section 4206) of Part 3, may, prior to the time the new unified school district becomes effective for all purposes, acquire a site for a school building at any place within the new unified school district, and upon the acquisition of the site it shall become a part of the district pending the date when the new unified school district becomes effective for all purposes. The site shall not be acquired until the county committee on school district organization of the county or of each of the counties concerned has received the proposal for acquisition of the site and reported its recommendations thereon to the governing boards of the districts concerned and to each county superintendent of schools concerned. The report of the county committee shall be made within 60 days from the time the proposal for acquisition of the site was submitted to it.

17219. (a) Whenever a school district acquires or has acquired a site for school purposes, as determined by the State Allocation Board, and does not use the site within (1) five years of the date of acquisition for the kindergarten, if any, and any of grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district, or, (2) seven years of the date of acquisition for any of grades 7 to 12, inclusive, maintained by a high school district or a unified school district, or if a school district has a site at any grade level that has previously been used but has not been used for school purposes within the preceding five years, the school district shall be subject to nonuse payments, unless the State Allocation Board, from time to time, makes a determination that the school district will utilize the property for the purpose for which it was intended within a reasonable period of time, in a specific amount for each additional year in which the site is retained and not used by the district beyond the foregoing specified periods, except the first additional year shall be deemed to end not earlier than April 30, 1973.

(b) Payment shall not be required under this section as to any site having a value of twenty thousand dollars ($20,000) or less. Commencing on January 1, 1988, and annually thereafter, the State Allocation Board shall increase this exemption figure by the amount of the current fiscal year inflation adjustment specified in Section 42238.1, if any.

(c) The payments required shall be computed by the Executive Officer of the State Allocation Board and certified to the Controller, and payments shall be equal to one one-hundredth ($^1/_{100}$) of the original purchase price of the site modified by either a factor

reflecting the change in assessed value of all lands in the state from the date of purchase of the site to the current date or any other factor that in the determination of the State Allocation Board is applicable to the site under consideration.

(d) Whenever the State Allocation Board has determined that a school district in good faith has, within the preceding year, advertised the schoolsite for sale to the highest bidder pursuant to the provisions of Article 4 (commencing with Section 17455) of Chapter 4 of Part 10.5 and has received no bids that in the judgment of the State Allocation Board reflect the fair market value of the property, the Executive Officer of the State Allocation Board shall not compute any nonuse payments for the site for a period of one year beyond the date of the determination.

(e) Nonuse payments shall not be required for any year with respect to a schoolsite that for one-half or more of the number of days of that year has been utilized for any of the following purposes:

(1) By the school district, or by any other governmental entity pursuant to agreement with the school district, for school purposes, for use as a civic center, or for community playground, playing field, or other outdoor recreational purposes. "Civic center," for this purpose, means a site used for one or more of the purposes described in Section 40041.

(2) By the State Allocation Board, pursuant to agreement with the school district, for the storage of emergency portable classrooms.

(3) By the school district, or by any other public or private entity pursuant to agreement with the school district, for the operation of a child care program.

(f) Nonuse payments shall not be required for any year with respect to a schoolsite that was leased at least one-half of the days in that year in a manner that subjected the site to property taxes equal to the taxes that would have been paid if the site had been sold.

17220. If the State Allocation Board determines a school district to be exempt from the requirement to make nonuse payments for any year as to any schoolsite on any basis authorized under subdivision (e) or (f) of Section 17219, that exemption shall continue to apply to that schoolsite for each subsequent year for which the superintendent of the school district certifies to the State Allocation Board, on a timely basis, that the basis of exemption continues to exist.

17221. The amount of any nonuse payments required of any school district under Section 17219 shall be reduced, without regard to fiscal year, by the amount of the proceeds, resulting from the lease of district property that is subject to that section, that are expended by the district the payment of bond debt service costs that are directly related to the actual construction of school facilities.

17222. The Controller shall, during the next fiscal year following that in which the Executive Officer of the State Allocation Board certifies to him or her the amount of payment, deduct the total amount of the payment of each district in equal amounts from each

of the February, March, April and May installments of the apportionments made to the district from the State School Fund under Sections 46304, 46305, and 41050, Sections 41330 to 41343, inclusive, and Sections 41600 to 41972, inclusive, whichever are in effect. However, in no event shall the deductions exceed an amount which would result in a district's receiving, in any school year, from the State School Fund, less than one hundred twenty dollars ($120) per pupil in average daily attendance in the district during the preceding school year. On order of the Controller, the amount so deducted shall be transferred to the State School Site Utilization Fund which is hereby created.

17223. (a) Whenever a school district has either begun to use an unused site or has sold that site within two years of the date the Controller, pursuant to Section 17222, has deducted a certified nonuse payment from the district's State School Fund apportionment, the State Allocation Board shall certify that fact to the Controller. The Controller shall then cease to withhold any additional payments and shall return to the district from the State School Site Utilization Fund the payments, without interest, which had been withheld for the particular site during the prior fiscal year and the current fiscal year.

(b) If the school district begins to use or has sold the site more than two years after the aforesaid date, the State Allocation Board shall so certify to the Controller and no further payments shall be withheld as specified in Section 17222.

17224. Any funds in the State School Site Utilization Fund, including interest, which are not subject to return to a school district pursuant to Section 17223 shall revert to the General Fund.

Article 2. Disposal of Sites

17230. Notwithstanding the provisions of Article 4 (commencing with Section 17455) of Chapter 4 of this part and in addition to the requirements placed upon school districts pursuant to Section 54222 of the Government Code, the governing board of any school district may sell, for less than fair market value, any schoolsite that is deemed to be surplus property of the district, to any park district, city, or county in which the school district is wholly or partially situated for use or partial use as park or recreational purposes or open-space purposes if the governing board adopts a resolution specifying that it will sell or transfer the property for less than fair market value to such an entity for that purpose. The offer to sell shall be made in writing, but the terms by which the property may be sold or transferred need not be specifically provided.

17231. The sale or transfer may be made for cash and other valuable consideration, or for other valuable consideration, as deemed appropriate by the governing board of the school district.

The sale or transfer may be made without first taking a vote of the electors of the district.

17232. A school district's offer to sell or transfer the land shall be made to all park districts, cities, and counties in which the school district is wholly or partially situated pursuant to this article and shall remain open for not less than 60 days. The sale or transfer shall be made to whichever public entity first accepts the offer, or whichever public entity can negotiate satisfactorily for the purchase or transfer of the surplus land.

17233. Notwithstanding Article 4 (commencing with Section 17455) of Chapter 4 of this part, Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, or any other provision of law, any unimproved real property that was acquired by a school district pursuant to Section 35270.5, which property the governing board of the school district has deemed to be surplus property of the district, may not be sold to any person or entity within 20 years of its acquisition by the district unless the district has first made a bona fide offer to sell the property to the person or entity that owned the property at the time of its acquisition by the district or, if applicable, offered to that person or entity a right of first refusal of any bona fide offer acceptable to the district made by another to purchase the property.

17234. The failure to comply with any provision of this article shall not invalidate any sale or transfer of real property to a purchaser or encumbrancer for value.

CHAPTER 2. NEW SCHOOLS RELIEF ACT OF 1979

17240. This chapter shall be known and may be cited as the New Schools Relief Act of 1979.

17241. The Legislature hereby finds and declares that because of the adoption of Article XIII A of the California Constitution, imposing limits on the ability of school districts to levy and collect property taxes, it is necessary to create new revenues for the construction of school facilities.

17242. It is the intent of the Legislature in enacting this chapter to provide opportunities for school districts, the state, and the private sector to cooperate to provide needed school facilities in growth impacted districts, and to facilitate innovative financing and other techniques for growth impacted districts to help meet new school construction needs.

17243. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "A school district with an anticipated increase in enrollment" means a school district in which the level of enrollment is projected by the district to be higher during any of the five years, including the year in which the projection is made, than the year preceding the

year in which the projection is made. Projections shall be made pursuant to regulations adopted by the board.

(c) "Private developers" means individuals or corporations owning land, facilities, or both; or, in the business of developing land for construction purposes, constructing facilities on developed land, or both.

17244. Notwithstanding any other provision of law, a school district with an anticipated increase in enrollment is authorized to lease land and facilities from a private developer with funds provided by one or more of the following sources, subject to regulations established by the board:

(a) Funds provided by the state for the purposes of school construction (1) in the Budget Act, (2) in separate legislation, (3) from the sale of bonds, the issuance of which was approved by the voters of the state prior to January 1, 1980, provided that the purposes for which the issuance of the bonds was approved encompassed the purposes of this section; or (4) from the sale of bonds, the issuance of which may be approved on or after January 1, 1980, by the voters of the state for the purposes of school construction, among other purposes.

(b) Funds the district has borrowed from the state and which the district is in the process of repaying, provided that nothing in this section shall be construed as terminating, delaying, or otherwise interrupting the district's schedule of repayments for the funds.

(c) Available capital reserves from the district's general fund or special funds of the district, provided the purposes of this section do not conflict with the purposes for which the funds may be used.

(d) Proceeds from the sale or lease of unneeded facilities, provided that nothing in this section shall be construed to have any of the following effects:

(1) To terminate, delay, or otherwise interrupt the schedule of regular repayments for the district's obligations to the state.

(2) To relieve the district from any obligation to the state, except to the degree that such district may retain that portion of the proceeds from the sale or lease of unneeded facilities necessary to lease land and facilities pursuant to this section.

(3) To permit the district to retain any proceeds otherwise owing to the state from the lease or sale of unneeded facilities in excess of the amount necessary to lease land and facilities pursuant to this section.

17245. Notwithstanding any other law, a school district with an anticipated increase in enrollment is authorized to construct school facilities authorized within state school building aid standards, and subject to regulations established by the board, with funds from the following sources:

(a) Available capital reserves from the district's general fund or special funds of the district, provided the purposes of this section do not conflict with the purposes for which the funds may be used.

(b) Proceeds from the sale or lease of unneeded facilities provided that nothing in this section shall be construed to have any of the following effects:

(1) To terminate, delay, or otherwise interrupt the schedule of regular repayments for the district's obligations to the state.

(2) To relieve the district from any obligation to the state, except to the degree that the district may retain that portion of the proceeds from the sale or lease of unneeded facilities necessary to construct facilities pursuant to this section.

(3) To permit the district to retain any proceeds otherwise owing to the state from the lease or sale of unneeded facilities in excess of the amount necessary to construct facilities pursuant to this section.

CHAPTER 3. CONSTRUCTION OF SCHOOL BUILDINGS

Article 1. State Department of Education: Powers and Duties

17251. The State Department of Education shall:

(a) Upon the request of the governing board of any school district, advise the governing board on the acquisition of new schoolsites and, after a review of available plots, give the governing board in writing a list of the recommended locations in the order of their merit, considering especially the matters of educational merit, safety, reduction of traffic hazards, and conformity to the land use element in the general plan of the city, county, or city and county having jurisdiction. The governing board may purchase a site deemed unsuitable for school purposes by the State Department of Education only after reviewing the department's report on proposed sites at a public hearing. The department shall charge the school district a reasonable fee for each schoolsite reviewed not to exceed the actual administrative costs incurred for that purpose.

(b) Develop standards for use by a school district in the selection of schoolsites, in accordance with the objectives set forth in subdivision (a). The department shall investigate complaints of noncompliance with site selection standards and shall notify the governing board of the results of the investigation. If that notification is received prior to the acquisition of the site, the governing board shall discuss the findings of the investigation in a public hearing.

(c) Establish standards for use by school districts to ensure that the design and construction of school facilities are educationally appropriate and promote school safety.

(d) Upon the request of the governing board of any school district, review plans and specifications for school buildings in the district.

The department shall charge governing boards of school districts, for the review of plans and specifications, a reasonable fee not to exceed the actual administrative costs incurred for that purpose.

(e) Upon the request of the governing board of any school district, make a survey of the building needs of the district, advise the

governing board concerning the building needs, suggest plans for financing a building program to meet the needs. The department shall charge the district, for the cost of the survey, a reasonable fee not to exceed the actual administrative costs incurred for that purpose.

(f) Provide information relating to the impact or potential impact upon any schoolsite of hazardous substances, solid waste, safety, hazardous air emissions, and other information as the department may deem appropriate.

17252. All money collected by the State Department of Education under the provisions of this article shall be available for the use of the department pursuant to appropriations for any use that may from time to time be made by the Legislature.

17253. (a) The Legislature finds and declares the following:

(1) The Department of Water Resources, pursuant to Division 3 (commencing with Section 6000) of the Water Code, exercises regulatory control over dam safety in the State of California.

(2) The department approves all plans and specifications, certifies that any dam is safe to impound water, periodically inspects all dams for the continuing safety of all impounding structures, and may revoke any certification allowing impoundment of water if it is determined that the dam is a danger to life and property.

(b) If the Department of Water Resources has asserted and continues to exercise its regulatory control over the Domenigoni Valley Reservoir Project, the State Department of Education, when evaluating schoolsites, shall not require mitigation related to potential dam breach inundation of the Domenigoni Valley Reservoir Project.

Article 2. Plans

17260. As used in Sections 17260 to 17267, inclusive, "school buildings" refers to only one-story schoolhouses of not more than nine classrooms.

17261. The State Department of Education shall:

(a) Establish a pool of duplicate plans for school buildings appropriate for school districts in rural areas. The series shall be composed of plans designed to meet the requirements of school districts located in rural areas of varying characteristics. The plans may include landscape suggestions.

(b) Provide specifications for the design and construction of school buildings.

17262. Any school district may request sets of any plans and specifications appropriate for use in constructing a school building of the type desired by the district. The plans and specifications shall be furnished to the school district subject to the payment of the actual expense incurred by the State Department of Education, but the expense shall not exceed more than 2 percent of the total cost of the

project. Any payments received for the plans and specifications shall be paid into the State Treasury to the credit of the General Fund.

17263. The plans and specifications for any school building as defined in Section 17283, together with estimates of cost, shall be submitted by the board to the Department of General Services for approval.

17264. (a) Commencing January 1, 1992, all plans and specifications for the construction of a new or modernized elementary school building shall be designed to provide appropriate space, consistent with the needs of the attendance area of the school, to accommodate before-school and after-school child care programs. The State Allocation Board may waive this requirement if it determines that the school district will experience an educational or financial hardship in this accommodation.

(b) For purposes of this section, first consideration in the design of space to be used for the before-school and after-school child care programs shall be within the multipurpose room.

(c) For purposes of this section, the terms "new construction" and "modernization" shall have the same meaning as those words are used in Chapter 12 (commencing with Section 17000) of Part 10.

(d) No funding shall be made available to any child care program or facility pursuant to this chapter unless all of the following conditions are met:

(1) The program facility is open to children without regard to any child's religious beliefs or any other factor related to religion.

(2) No religious instruction is included in the program.

(3) The space in which the program is operated is not utilized in any manner to foster religion during the time used for the program.

17265. All provisions of Sections 17280 to 17313, inclusive, are made applicable to school buildings as defined in Section 17283 constructed from plans and specifications furnished under Sections 17260 to 17267, inclusive, except as otherwise provided in the latter sections.

17266. The district shall furnish its own architect or structural engineer, or both, for necessary structural engineering and supervision of construction.

17267. The governing board of a school district shall, before letting any contract for the construction of a school building as defined in Section 17283 according to the plans and specifications, file a set of the plans and specifications with the Department of General Services accompanied by a fee in the amount fixed by Section 17300.

17268. (a) The governing board of a school district shall not approve a project for the construction of a new school building, as defined in Section 17283, unless the project and its lead agency comply with the same requirements specified in subdivision (a) of Section 17213 for schoolsite acquisition.

(b) For purposes of this section, the acceptance of construction bids shall constitute approval of the project.

Article 3. Approvals

17280. (a) The Department of General Services under the police power of the state shall supervise the design and construction of any school building or, if the estimated cost exceeds twenty thousand dollars ($20,000), the reconstruction or alteration of or addition to any school building, to ensure that plans and specifications comply with the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, and to ensure that the work of construction has been performed in accordance with the approved plans and specifications, for the protection of life and property. Nothing in this section shall be construed to allow a school district to perform work with its own forces in excess of the limitations set forth in Sections 17595 and 17599. In calculating the cost of any project of reconstruction or alteration of, or addition to, any school building for the purpose of determining the applicability of the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, the Department of General Services shall not include, as an element of that cost, any expenses of air-conditioning equipment or insulation materials for that building, or of installing the equipment or materials.

(b) Whenever repairs due to fire damage, not including any damage caused by wind or earthquake, must be made to any school building previously approved by the Department of General Services, the approved plans and specifications used in the original work under then existing rules, regulations, and building standards may be used without modification, providing all other provisions of this article are carried out.

(c) Notwithstanding any other provision of law, no school district shall be authorized to construct or reconstruct any school building, regardless of the source of funding, unless and until the governing board of the district, by resolution, has indicated the agreement of the district that any school building construction or reconstruction that exceeds those construction cost and allowable area standards or any allowable building area computed for an attendance area pursuant to Section 17041 shall, in the event of the district's subsequent application for state funding for school facility construction, be deducted from the allowable building area for which the district would otherwise have been eligible, which restriction shall not be subject to waiver or exception as otherwise may be provided by law.

If it is determined that, for any reason, a school district failed to comply with the requirement of this section, the district shall not be eligible for any additional building area pursuant to Section 17049 and may be denied any time priority established for the particular project pursuant to Section 17016.

17281. This article, together with Article 6 (commencing with Section 17365), and Article 7 (commencing with Section 81130) of

Chapter 1 of Part 49, shall be known and may be cited as the "Field Act."

17282. (a) It is the intent of the Legislature to expedite the repair, alteration, and reconstruction of school facilities that have been damaged or destroyed by fire, earthquake, flood, or other manmade or natural disasters, to return those school facilities to a condition that makes them useful to school districts in the least amount of time and at the lowest appropriate cost while maintaining the integrity and safety of the structure as required by the laws of this state.

(b) Notwithstanding any other law, if a school facility has been damaged or destroyed by fire, earthquake, flood, or other manmade or natural disaster, all reviews or approvals required by this article shall be expedited. In no event shall any review or approval exceed 60 days, excluding weekends and holidays, from the date of receipt of all complete plans, specifications, and documentation for the facilities from the district.

(c) If, upon review, the plans or specifications require minor amendment or modification, these minor amendments or modifications shall not delay the completion of the review or approval beyond the 60-day requirement specified in subdivision (b) unless the amendment or modification constitutes a major substantive change affecting the entire project. While any minor amendments or modifications are being undertaken, the remainder of the project shall continue under review so that a timely and adequate review may be completed within the 60-day requirement of subdivision (b).

(d) A state agency that is required to perform any review or approval under this article may hire additional personnel or incur any additional costs necessary to perform the review or approval within the time limits set forth in this section and shall charge the district a fee not to exceed the actual cost of the review or approval.

(e) As used in this section, "damaged" means damages to the extent that occupancy is precluded based upon a report of an architect or a structural engineer and the concurrence of the Department of General Services in the report's conclusion that the occupancy of the premises is precluded.

(f) The expedited review and approval required by this section shall not apply if the documents are not submitted within six months of the damage to, or destruction of, the facilities.

17283. "School building" as used in this article means and includes any building used, or designed to be used, for elementary or secondary school purposes and constructed, reconstructed, altered, or added to, by the state or by any city or city and county, or by any political subdivision, or by any school district of any kind within the state, or by any regional occupational center or program created by or authorized to act by an agreement under joint exercise of power, or by the United States government, or any agency thereof.

17284. Any school building, as defined in Section 17283, operated by a county official, board, or commission which on the effective date of this section is in violation of this article, if compliance therewith was otherwise required, may be continued in use as a school building after June 30, 1975, provided that no building shall be operated after that date unless the county official, board, or commission requests and obtains from the State Allocation Board authority for use of the building for a specific period after that date.

Concurrent with the request the county official, board, or commission shall file with the State Allocation Board a statement or resolution declaring an intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement.

The State Allocation Board shall not authorize the county official, board, or commission to use the building after June 30, 1975, unless it has first determined that the affected authority has already proceeded with a plan of total repair, reconstruction, or replacement in a timely manner and the contract has been let for any phase of, and work commenced on, the project.

In no event shall the State Allocation Board authorize the use of these unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

17285. (a) Notwithstanding any provision of law except Sections 17286, 17287, and 17405, a leased building that does not meet the requirements of Section 17280 may not be used as a school building, as defined in Section 17283, after September 1, 1990.

(b) Notwithstanding any other provision of law, a building leased pursuant to Section 17280 may be used after September 1, 1991, as a regional occupational center or program that does not meet the requirements of Section 17280, provided the building satisfies all of the following conditions:

(1) The facility is one of the following:

(A) A single-story, wood-framed structure.

(B) A single-story, light steel frame structure.

(C) A structure for which a structural engineer has submitted a report that certifies that substantial structural hazards do not exist, as to that structure. The governing board of the regional occupational center or program, as provided for under Section 52310.5, shall review the report prior to approval of the lease and may reject the report if there is any evidence of fraud regarding the facts in the report.

(2) The building or structure complies with all applicable local building standards and all applicable local health and safety standards in the community in which it is located.

(3) The governing board of the regional occupational center or program, as provided for under Section 52310.5, certifies to the State Allocation Board that reasonable efforts have been made to locate the

regional occupational center or program in facilities that conform to the seismic safety standards set forth in Part 2 (commencing with Section 2-101), Part 3 (commencing with Section 3-089-1), Part 4 (commencing with Section 4-403), and Part 5 (commencing with Section 5-102), of Title 24 of the California Code of Regulations.

(c) On or before September 1, 1994, and every three years thereafter, each governing board of a regional occupational center or program shall report to the State Allocation Board on the facilities utilized for the operation of that center or program and on efforts to place the center or program in facilities that conform to the seismic safety standards described in paragraph (3) of subdivision (b).

17286. Where the primary use of either a building or complex within which the building is situated, operated by an official or board of a city, city and county or county, is for purposes other than educational, such as, but not limited to, correctional, forestry, or hospital purposes, the building shall not be considered to be a "school building" within the meaning of Section 17283 notwithstanding any educational use thereof incidental to the primary purpose.

17287. For the purposes of this article and Article 6 (commencing with Section 17365), "school building" does not include (a) any building of a school district or county superintendent of schools which is used solely for classes or programs in outdoor science, conservation, and forestry in accordance with Article 5 (commencing with Section 8760) of Chapter 4 of Part 6 and which does not occupy, in whole or in part, the same parcel of land upon which there is situated any school maintained by the district or county superintendent, or (b) agricultural education laboratory facilities used primarily for plant and animal production or the storage of materials, equipment, and supplies involved in this production.

17288. (a) Notwithstanding Section 17285, any high school pupil who attends a class or classes on a campus of the University of California or the California State University in order to receive specialized educational services and opportunities authorized by Chapter 6 (commencing with Section 58800) of Part 31 and any adult attending a special education program established pursuant to Part 30 (commencing with Section 56000), is considered a pupil of that campus for the purposes of Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5. Any building or structure or portion of building or structure that pupils occupy pursuant to this section shall not be considered "school buildings" within the meaning of Section 17283.

(b) The governing board of each school district, each county board of education, or each county superintendent of schools, as appropriate, shall notify, in writing, the parent or guardian of each high school pupil who attends a class or classes authorized by Chapter 6 (commencing with Section 58800) of Part 31 and each adult attending a special education program established pursuant to Part

30 (commencing with Section 56000), prior to the pupil's attendance at the class on a university campus that, although University of California and California State University buildings are required to conform to the rigorous standards of the Uniform Building Code (UBC), the buildings on the university campuses may not meet the requirements of Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5. This notice shall accompany, to the greatest extent possible, any existing notification to parents or guardians regarding specialized educational services and opportunities.

17289. In order to provide alternative, community-based educational opportunities through independent study, any school district or county office of education may request an exemption from the State Allocation Board for a building or structure, or portion of a building or structure, from the definition of "school buildings" within the meaning of Section 17283. The exemptions may be granted for no longer than two years and exemptions are renewable. An exemption may only be granted if the school district or county office of education demonstrates to the satisfaction of the State Allocation Board all of the following:

(a) The building or structure, or portion of building or structure, satisfies all of the following:

(1) It is not located on a regular schoolsite.

(2) It complies with all applicable local building standards and all relevant local health and safety standards in the community in which it is located.

(3) It is used for independent study.

(4) It serves fewer than 25 pupils enrolled in kindergarten or any of the grades 1 to 12, inclusive, at any one time in the building or structure, or in a portion of a building or structure where the remainder of the building or structure is not used for instructional purposes.

(b) The use of the building or structure is critical to providing an effective alternative, community-based program.

(c) The use of other buildings or structures that would meet seismic safety standards for school facilities is not practical.

17290. (a) An owned relocatable building or structure that is to be used for school purposes shall be subject to the provisions of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365). The governing board of a school district may request and obtain from the State Allocation Board a one-time waiver of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365) for a maximum of three years upon presentation of satisfactory evidence to the State Allocation Board that the district is proceeding in a timely manner with a program that will eliminate the need for the owned relocatable facilities within that time period.

(b) Notwithstanding subdivision (a), a waiver granted to a school district pursuant to that subdivision prior to January 1, 1993, may be

renewed by the State Allocation Board for one additional period of no more than three years, not extending past September 30, 1996. However, any waiver granted to a school district that will expire on or before September 30, 1996, is hereby extended until September 30, 1997.

(c) This section applies only to relocatable buildings or structures owned by school districts on or before April 17, 1990, and does not authorize school districts to purchase relocatable buildings or structures to be used for school purposes which do not comply with the provisions of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365) of this chapter.

(d) This section shall remain in effect only until September 30, 1997, and as of that date is repealed, unless a later enacted statute, that is enacted before September 30, 1997, deletes or extends that date.

17291. (a) An owned relocatable building or structure that is to be used for school purposes shall be subject to the provisions of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365).

(b) This section shall become operative on September 30, 1997.

17292. (a) Notwithstanding any provision of law, an owned or leased relocatable building that does not meet the requirements of Section 17280 may be used as a school building through September 30, 2007, if all of the following conditions are met:

(1) The relocatable building is a single story structure with not more than 2,160 square feet of interior floor area when all sections are joined together.

(2) The relocatable building was constructed after December 19, 1979, and bears a commercial coach insignia of approval from the Department of Housing and Community Development.

(3) The bracing and anchoring of interior overhead nonstructural elements, such as light fixtures and heating and air-conditioning diffusers, and the foundation system complies with the applicable rules and regulations adopted pursuant to this article and published in Title 24 of the California Code of Regulations.

(4) The building construction, including associated site construction, except for the relocatable building defined in paragraph (2), complies with the applicable rules and regulations adopted pursuant to this article, Sections 4450 to 4458, inclusive, of the Government Code, and Section 13143 of the Health and Safety Code and the administrative and building standards published in Title 19 and Title 24 of the California Code of Regulations.

(5) The Department of General Services has issued a certification of compliance with the requirements of this article.

(6) The relocatable building was in use for classroom purposes on or before September 30, 1997.

(b) The Department of General Services may assess fees to carry out the requirements of this section. Fees imposed pursuant to this subdivision shall be equal to the costs associated with making the

certifications and inspections required by, and otherwise enforcing, this section and shall be deposited in the Public School Planning, Design, and Construction Review Revolving Fund.

(c) (1) Any relocatable building that has received a certification of compliance from the Department of General Services pursuant to subdivision (a) shall be reinspected for structural integrity by the Division of the State Architect by December 31, 2002.

(2) Notwithstanding paragraph (1), any relocatable building that has been moved from one site to another site and was inspected between the years 2000 and 2002, inclusive, is exempt from the requirements of paragraph (1).

(d) On or before September 30, 2007, the governing board of the school district shall certify to the State Allocation Board by resolution that the relocatable building is no longer being used as a school building.

17292.5. (a) If the governing board of a school district operates a program for expelled pupils, the governing board shall do one or more of the following:

(1) Utilize available school facilities that conform to the requirements of Part 2 (commencing with Section 2-101), Part 3 (commencing with Section 3-089-1), Part 4 (commencing with Section 4-403), and Part 5 (commencing with Section 5-102), of Title 24 of the California Code of Regulations.

(2) Apply for emergency portable classrooms pursuant to Chapter 25 (commencing with Section 17085) of Part 10.

(3) Enter into lease agreements for facilities, provided that the facilities are limited to a structure where a structural engineer has submitted a report that determines substantial structural hazards do not exist.

(b) Before entering into any lease pursuant to paragraph (3) of subdivision (a), the governing board of the school district shall certify to the State Allocation Board that all reasonable efforts have been made to locate the program in facilities that conform to the structural safety standards listed in paragraph (1) of subdivision (a).

(c) On or before September 1, 1996, and every three years thereafter, each school district shall report to the State Allocation Board on the facilities utilized for the operation of these programs and efforts to place programs in facilities that conform with the requirements of Part 2 (commencing with Section 2-101), Part 3 (commencing with Section 3-089-1), Part 4 (commencing with Section 4-403), and Part 5 (commencing with Section 5-102), of Title 24 of the California Code of Regulations.

17293. (a) On or after January 1, 1993, if a county superintendent or school district elects to operate a new or expanded pregnant and parenting teen program pursuant to Chapter 6.5 (commencing with Section 8910) of Part 6, the county superintendent or school district may enter into lease agreements for school facilities as set forth in subdivision (b), if both of the following conditions are met:

(1) All available school facilities that conform to the requirements of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17320) have been utilized.

(2) If facilities meeting the requirements of paragraph (1) are not available, the school district or county superintendent of schools has applied to lease or purchase emergency portable classrooms pursuant to Chapter 14 (commencing with Section 17085) of Part 10 and the application was either not approved, or the portable classrooms approved will not meet the needs of the county superintendent of schools or the school district.

(b) Notwithstanding any other provision of law, the county superintendent or the school district may enter into lease agreements as follows:

(1) The lease may be for a period of up to five years if a report and certification of safety is prepared by a structural engineer that verifies that the building meets local safety standards and that substantial structural hazards do not exist. The county board of education or school district governing board, as the case may be, shall review the report and certification prior to the approval of the lease and may reject the report if there is evidence of fraud regarding the facts in the report.

(2) Before entering into any lease, the county superintendent or the school district shall certify that all reasonable efforts have been made to locate programs in facilities that conform to paragraph (1) or (2).

17294. "Construction or alteration" as used in this article includes any construction, reconstruction, or alteration of, or addition to, any school building.

17295. The Department of General Services shall pass upon and approve or reject all plans for the construction or, if the estimated cost exceeds twenty thousand dollars ($20,000), the alteration of any school building. To enable it to do so, the governing board of each school district and any other school authority before adopting any plans for such school building shall submit the plans to the Department of General Services for approval, and shall pay the fees prescribed in this article.

Where the estimated cost of an alteration exceeds ten thousand dollars ($10,000) but does not exceed twenty thousand dollars ($20,000), a structural engineer shall examine the proposed project to determine if it is a nonstructural alteration or a structural alteration. If he or she determines that the project is a nonstructural alteration, he or she shall prepare a statement so indicating. If he or she determines that the project is structural, he or she shall prepare plans and specifications for the project and shall observe the work of construction. A copy of the engineer's report stating that the work does not affect structural elements, or a copy of the plans and specifications for structural work, as the case may be, shall be filed with the Department of General Services.

17296. Notwithstanding any other provision of law, any school-based facility providing social services or support services, or health care, that is established through agreements with local governments and school districts pursuant to Chapter 5 (commencing with Section 8800) of Part 6 or as part of an integrated children's services program pursuant to Chapter 12.9 (commencing with Section 18986.40) of Part 6 of Division 9 of the Welfare and Institutions Code, respectively, is located on school property, and meets all the requirements of the Uniform Building Code and has been approved by the building department of the appropriate local jurisdiction, as well as those of the appropriate local jurisdiction, shall not be required to obtain approval of plans by the Department of General Services pursuant to Section 17295.

17297. Except as provided in Section 17298, before letting any contract for any construction or alteration of any school building, the written approval of the plans, as to safety of design and construction, by the Department of General Services, shall be first had and obtained.

17298. Before the commencement of any fabrication, construction, or alteration of a relocatable school building of a type previously approved by the Department of General Services, the written approval of the plans, as to the safety and design of construction, by the Department of General Services, shall be first had and obtained.

17299. In each case the application for approval of the plans shall be accompanied by the plans and full, complete, and accurate specifications, and structural design computations, and estimates of cost, which shall comply in every respect with any and all requirements prescribed by the Department of General Services.

17300. (a) The application shall be accompanied by a filing fee in amounts as determined by the Department of General Services based on the estimated cost of the work described in subdivision (a) of Section 17280, according to the following schedule:

(1) For the first one million dollars ($1,000,000), a fee of not more than 0.7 percent of the estimated cost.

(2) For all costs in excess of one million dollars ($1,000,000), a fee of not more than 0.6 percent of the estimated cost.

The minimum fee in any case shall be two hundred fifty dollars ($250). If the actual cost exceeds the estimated cost by more than 5 percent, a further fee shall be paid to the Department of General Services, based on the above schedule and computed on the amount by which the actual cost exceeds the amount of the estimated cost.

(b) The fees determined pursuant to subdivision (a) shall be paid in two installments, as specified by the Department of General Services. The first installment shall be in an amount equal to 70 percent of the estimated cost calculated under subdivision (a), and shall be paid at the time the application is submitted to the department. The second installment shall be in an amount equal to

30 percent of the estimated cost calculated under subdivision (a), and shall be paid no later than five working days after the applicant accepts the bids for construction of the project for which the fees are paid. This subdivision shall become operative January 1, 1994.

(c) The fee shall be paid to the Department of General Services, including, but not limited to, a case in which the application is referred under Section 17306 to a qualified plan review firm.

17301. (a) All fees received by the Department of General Services pursuant to this chapter shall be paid into the State Treasury and credited to the Public School Planning, Design, and Construction Review Revolving Fund, which is hereby created. Notwithstanding Section 13340 of the Government Code, all moneys in the fund are hereby continuously appropriated for expenditure by the Department of General Services to be applied, in the most efficient and expeditious manner possible, to the expenses associated with the review and approval of plans and specifications, and the supervision of public school building construction, pursuant to this article and Article 5 (commencing with Section 17350). The fees paid into the fund shall not be used for or diverted to any other program or purpose. Notwithstanding any other provision of law, any moneys in the Architecture Public Building Fund on the effective date of this section thereupon shall be transferred to the Public School Planning, Design, and Construction Review Revolving Fund for expenditure in accordance with this section.

Adjustments in the amounts of the fees, as determined by the Department of General Services, may be made by the department within the limits set forth in Sections 17300 and 17352 in order to maintain a reasonable working balance in the fund.

(b) The Department of Finance shall provide for the audit of the fund as needed to ensure that it is used solely for the purposes of this article and that the amount of the fee charged does not exceed what is necessary to cover the costs realized by the Department of General Services in carrying out its responsibilities pursuant to this article. The actual cost of the audit shall be paid from the fund.

17302. (a) Except as provided in subdivision (b), all plans, specifications, and estimates shall be prepared by a licensed architect holding a valid certificate under Chapter 3 (commencing with Section 5500) of Division 3 of the Business and Professions Code or by a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code, and the observation of the work of construction shall be under the responsible charge of such an architect or structural engineer.

(b) For the purposes of this section, a mechanical or electrical engineer holding a valid certificate under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code may be in responsible charge of preparation of plans, specifications, and estimates, and observation of the work of construction where the

work is, as determined by the Department of General Services, of the kind normally performed by engineers certified in the particular branch of engineering for which the engineer is certified. Any architectural or structural work involved shall be the respective responsibility of a licensed architect holding a valid certificate under Chapter 3 (commencing with Section 5500) of Division 3 of the Business and Professions Code, or a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code.

17303. (a) The Department of General Services shall establish one or more methods to ensure that each application has been completed sufficiently by the applicant to enable the plan review to be performed.

(b) Upon receipt of a complete application, the Department of General Services shall inform the applicant of the period of time that it anticipates to elapse prior to commencing review of the applicant's plans. As necessary to ensure that this period of time does not exceed an average, as calculated for each quarter of the calendar year, of 15 working days, the department shall do one or more of the following:

(1) Contract for assistance from one or more qualified plan review firms pursuant to Section 17305.

(2) Employ additional staff on a temporary basis.

(3) Maximize the use of department staff through the use of overtime or other appropriate means.

(4) Any other action determined by the department to have the effect of expediting the review and approval process.

(c) Each application shall identify, for purposes of receiving the notifications required under this subdivision, an employee of the applicant school district and either the applicant's architect or structural engineer. The Department of General Services immediately shall notify that employee, and the identified architect or structural engineer, when each of the following steps in the plan review process occurs:

(1) The department requests the applicant's architect or structural engineer to correct or complete any part of the application.

(2) An application number is assigned to the application.

(3) Review of the applicant's plans is commenced.

(4) Review of the applicant's plans is completed and the department returns the plans to the architect or structural engineer for correction.

(5) Corrected plans are returned to the department by the applicant's architect or structural engineer for final review and approval.

(6) The department approves the plans and causes a final record set of the plans to be printed in accordance with Section 17304.

(d) The Department of General Services may provide additional notifications to applicants as it deems necessary.

17304. (a) Upon approving the plans submitted by an applicant pursuant to this article, the Department of General Services shall cause a final record set of the plans to be printed. The department may contract with one or more private entities to perform that printing at one or more of the regional area offices of the department. The costs incurred pursuant to this subdivision shall be paid by the applicant.

(b) No later than five working days after approving plans submitted by an applicant pursuant to this article, the department shall issue a final letter of approval to the applicant.

17305. (a) Notwithstanding Section 14952 of the Government Code, the Department of General Services may contract with one or more qualified plan review firms for assistance in performing the plan review required under this article or Article 5 (commencing with Section 17350).

(b) For purposes of this article, "qualified plan review firm" means an individual or firm that is identified by the Department of General Services as having appropriate expertise and knowledge of the requirements that apply to school buildings under this article. The department shall establish and maintain a list of the individuals and firms so identified, and shall make that list available, upon request, to school districts and other interested parties.

17306. (a) Upon submitting a complete application for review under this article, the applicant may request that the Department of General Services refer the documents necessary for the review of that application to a qualified plan review firm operating under contract with the department pursuant to Section 17305. The department immediately shall grant the request if it anticipates that more than 15 working days will elapse prior to its commencing the review of the applicant's plans. In addition, if more than 15 working days elapse after the applicant submits the complete application before the department commences review, the department immediately shall refer the necessary documents to a qualified plan review firm if the applicant so requests.

Upon completing the review, the qualified plan review firm shall submit the documents referred to it for the review of the application, together with the results of its review, to the Department of General Services.

(b) The Department of General Services shall establish a procedure governing the use by applicants of the review process alternative described in this section, including, but not limited to, provisions restricting the use of qualified plan review firms on the basis of conflict of interest.

17307. No contract for the construction or alteration of any school building, made or executed by the governing board of any school district or other public board, body, or officer otherwise vested with

authority to make or execute a contract, is valid, and no public money shall be paid for any work done under a contract or for any labor or materials furnished in constructing or altering any building, unless the plans, specifications, and estimates comply in every particular with the provisions of this article and the requirements prescribed by the Department of General Services and unless the approval thereof in writing has first been had and obtained from the Department of General Services.

17308. (a) The Legislature finds and declares that a number of serious discrepancies in the interpretation of the structural standards and architectural barrier requirements that apply to school buildings under this chapter, and of the plan review procedures that apply under this chapter, exist within the Department of General Services, and within and between various firms utilized by the department on a contract basis, applicant school districts, and architects and structural engineers utilized by applicant school districts.

(b) The Department of General Services shall provide training, on an ongoing basis, to its employees and to the employees of architectural and structural engineering firms that contract with the department for the purposes of this chapter. The training shall address all phases of the plan review process established under this chapter, and shall be designed to ensure that all individuals who develop and review school building plans obtain sufficient knowledge of the rules, regulations, and standards that apply under this chapter.

(c) The department shall make the training described in subdivision (b) available to the employees of architectural and structural engineering firms that contract with applicant school districts for the purpose of this chapter, and to any other individuals, firms, and government agencies that are involved in school building design, construction, or inspection and that may benefit from the training. The department may charge a fee for training provided pursuant to this subdivision.

(d) The department shall develop and publish interpretations of the structural standards, architectural barrier requirements, and review procedures referred to in subdivision (a) as may be necessary to remedy the interpretational discrepancies described in that subdivision. These interpretational materials shall be updated at least annually.

17309. From time to time, as the work of construction or alteration progresses and whenever the Department of General Services requires, the licensed architect or structural engineer in charge of observation of construction or registered engineer in charge of observation of other work, the inspector on the work, and the contractor shall each make to the Department of General Services a report, duly verified by him or her, upon a form prescribed by the Department of General Services, based upon his or her own personal knowledge, indicating that the work during the period

covered by the report has been performed and materials have been used and installed, in every material respect, in compliance with the approved plans and specifications, setting forth such detailed statements of fact as are required by the Department of General Services.

The term "personal knowledge" as used in this section and as applied to the architect, and the registered engineer, means the personal knowledge which is obtained from periodic visits to the project site of reasonable frequency for the purpose of general observation of the work, and also which is obtained from the reporting of others as to the progress of the work, testing of materials, inspection and superintendence of the work that is performed between the above-mentioned periodic visits of the architect or the registered engineer. The exercise of reasonable diligence to obtain the facts is required.

The term "personal knowledge" as applied to the inspector means the actual personal knowledge which is obtained from his or her personal continuous inspection of the work of construction in all stages of its progress at the site where he is responsible for inspection and, when work is carried out away from the site, that personal knowledge which is obtained from the reporting of others on the testing or inspection of materials and workmanship for compliance with plans, specifications or applicable standards. The exercise of reasonable diligence to obtain the facts is required.

The term "personal knowledge" as applied to the contractor means the personal knowledge which is obtained from the construction of the building. The exercise of reasonable diligence to obtain the facts is required.

17310. Except as provided in Section 18930 of the Health and Safety Code, the Department of General Services may from time to time make such rules and regulations as it deems necessary, proper, or suitable to carry out the provisions of this article.

The Department of General Services shall adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 of the Health and Safety Code for the purposes described in this article.

17311. The Department of General Services shall make such inspection of the school buildings and of the work of construction or alteration as in its judgment is necessary or proper for the enforcement of this article and the protection of the safety of the pupils, the teachers, and the public. The school district, city, city and county, or the political subdivision within the jurisdiction of which any school building is constructed or altered shall provide for and require competent, adequate, and continuous inspection during construction or alteration by an inspector satisfactory to the architect or structural engineer and the Department of General Services. The inspector shall act under the direction of the architect or structural

engineer as the board may direct, and be responsible to the governing board.

17312. Any person who violates any of the provisions of this article or makes any false statement in any verified report or affidavit required pursuant to this article is guilty of a felony.

17313. Upon written request by the governing board of any school district or upon written request by at least 10 percent of the parents having children enrolled as pupils in any school district as certified to by the county superintendent of schools, the Department of General Services shall make an examination and report on the structural condition of any public school building of the district, subject to the payment by the governing board of the actual expenses incurred by the Department of General Services. Payment of the expenses may be waived by the Department of General Services on recommendation of the State Superintendent of Public Instruction when it appears to him or her that the school district in which the public school building is located cannot afford to pay them.

17314. Any public school building which has been approved by the Department of General Services (formerly Division of Architecture) for occupancy shall be deemed to meet the local building requirements for use as a private school.

17315. (a) When a school building constructed in accordance with plans and specifications approved by the Department of General Services is completed, the notice of completion is filed, and all final verified reports and all testing and inspection documents, as required by this article or as required by the rules and regulations adopted pursuant to this article, are submitted to and on file with the Department of General Services, and all required fees paid by the school district, the department shall issue a certification that the school building complies with the requirements of this article. Nothing in this article shall prevent beneficial occupancy by a school district prior to the issuance of this certification.

(b) When a school building, constructed in accordance with approved plans and specifications, is completed but final verified reports, as are required under Section 39151, have not been submitted to the Department of General Services due to the incapacitating illness, death, or the default of any persons required to file such reports, the Department of General Services shall, upon written request of the school district, review all of the project records and make such examinations as it deems necessary to enable it to certify that the school building otherwise complies with the requirements of this article. The Department of General Services may request the school district to have made, reported, and verified any other tests and inspections which the department deems necessary to complete its examinations of the construction.

(c) The costs incurred by the Department of General Services in connection with this section shall be paid by the school district. The actual costs to perform the examinations, tests, and inspections shall

be an appropriate cost of the project to be paid from the building funds of the district. Certification of the project by the Department of General Services shall be withheld until all the costs have been paid by the school district.

(d) This section shall not relieve any individual of his or her responsibility to file verified reports, as required in Section 17309, or any other documents required by the rules and regulations adopted pursuant to this article. This section shall not abrogate the provisions of Section 17312.

17316. Any contract entered into by and between the governing board of any school district and any certified architect or structural engineer pursuant to Section 39148 shall provide that all plans, specifications and estimates prepared pursuant thereto shall be and remain the property of the school district.

Article 3.5. Earthquake Construction of Private Schools

17320. This article shall be known and may be cited as the Private Schools Building Safety Act of 1986.

17321. The Legislature finds and declares all of the following:

(a) Most of California is subject to potentially devastating, large-magnitude earthquakes.

(b) Earth scientists estimate that there is a greater than 50-percent probability that one or more damaging earthquakes will occur in California between now and the end of the century.

(c) Not all students of private schools enjoy the same or equivalent earthquake safety as is afforded to students of public schools by the Field Act and other legislation.

(d) Modifications of building design, plan checking, and inspection procedures can offer increased protection to private school students.

17322. It is the intent of the Legislature that children attending private schools be afforded life safety protection similar to that of children attending public schools by having all of the following:

(a) Private school structures designed and constructed in a manner that minimizes fire hazards and resists the forces generated by earthquakes, gravity, and winds to the extent necessary to ensure the safety of occupants.

(b) The structural systems and details set forth in working drawings and specifications carefully reviewed by responsible enforcement agencies using qualified personnel, and the construction process carefully inspected.

(c) Procedures for the design and construction of private school structures to be subjected to qualified design review and construction inspection.

(d) Nonstructural components, including, but not limited to, ceiling systems, electrical equipment, and mechanical equipment given adequate consideration during the design and construction

process to assure that they will not detract from occupant safety in the event of an earthquake.

17323. For the purposes of this article:

(a) "Construction or alteration" means any construction of, addition to, reconstruction of, or structural alteration to any private school structure.

(b) "Enforcement agency" means the agency of a city, city and county, or county responsible for building safety within its jurisdiction.

(c) "Private school structure" means any building used for educational purposes through the 12th grade by 50 or more persons for more than 12 hours per week or 4 hours in any one day. Any structure owned or operated by a public school district shall not be affected by this article.

(d) "Structural engineer" means a person authorized to use the title of structural engineer under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code.

(e) "Engineer of record" means the architect, if no structural engineer or civil engineer has been retained for the structural design.

(f) "Electrical engineer" means an electrical engineer, as defined in Section 6702.1 of Chapter 7 of Division 3 of the Business and Professions Code.

(g) "Mechanical engineer" means a mechanical engineer, as defined in Section 6702.2 of Chapter 7 of Division 3 of the Business and Professions Code.

(h) "Qualified inspector" means a person who is currently certified by the International Conference of Building Officials or who has demonstrated his or her competence to the satisfaction of the enforcement agency as having expertise and experience in the particular type of construction or operation requiring inspection.

17324. The appropriate enforcement agency that meets the requirements of Sections 17331 and 17332 shall review the design and inspect the construction, reconstruction, structural alteration, or addition to any private school structure to the extent necessary to ensure that drawings and specifications comply with the applicable sections of the Uniform Building Code and to ensure that construction work has been performed in accordance with the approved drawings and specifications, and the provisions of this article.

17325. Private school structures of one-story Type V and Type II N construction, as defined by the Uniform Building Code, that are 2,000 square feet or less in floor area are exempt from the provisions of this article.

17326. (a) Prior to adopting any drawings or specifications for the private school structure, the governing board, authority, owner, corporation, or other agency proposing to construct any private school structure shall submit the design calculations, drawings, and specifications of the private school structure to the appropriate

enforcement agency. The enforcement agency shall stamp the drawings and specifications if the construction or alteration is approved by the enforcement agency. Included with the stamp shall be the signature of the qualified person referred to in Sections 17333 and 17334.

(b) The provisions of this section are not applicable to private school construction or alteration contracts entered into prior to July 1, 1987.

17327. The application for approval of the drawings and specifications for private school structures shall be accompanied by comprehensive and complete drawings, design calculations, specifications, and a soil analysis at a level of detail appropriate to the proposed structure and site, all of which shall comply with the requirements prescribed by the enforcement agency. This review shall not preclude incremental submission and approval of drawings and specifications.

17328. The enforcement agency shall approve or reject all drawings and specifications for the construction or alteration of private school structures and in doing so shall review the submitted design calculations, drawings, and specifications to ensure compliance with the requirements of this article. A record shall be kept by the enforcement agency indicating that design calculations, drawings, and specifications have been reviewed and conform with the applicable sections of the Uniform Building Code.

17329. All drawings and specifications shall be prepared under the responsible charge of an architect, civil engineer, or structural engineer, who shall sign all drawings and specifications that are to be approved by the enforcement agency. Observation of the work of construction shall be under the general responsible charge, as defined by Section 6703 of Chapter 7 of Division 3 of the Business and Professions Code, of the architect, civil engineer, or structural engineer who signed the drawings, except that drawings and specifications not involving architectural or structural conditions may be prepared and the construction work may be administered by a registered professional engineer qualified in the branch of engineering that is appropriate to the drawings, specifications, estimates, and construction work.

If the architect, civil engineer, or structural engineer is unable to exercise general responsible charge of construction another architect, civil engineer, or structural engineer shall be retained to exercise general responsible charge of construction.

17330. Except as provided in Section 17326, on or after July 1, 1987, construction of a private school structure shall not commence unless the structure's drawings and specifications comply with the provisions of this article and the requirements prescribed by the enforcement agency, and approval of those drawings and specifications has been obtained from the enforcement agency.

17331. During construction or alteration of a private school structure, the building owner shall provide for, and the local enforcement agency shall require, special inspection by a qualified inspector when needed, as determined by the local enforcement agency. Continuous inspection is not required.

17332. An enforcement agency is qualified to undertake the review of plans, drawings, and specifications for a private school structure if the enforcement agency has a structural engineer, either on its staff or under contract, that is responsible for all design review conducted by the enforcement agency and the record prepared under Section 17328.

17333. A jurisdiction whose enforcement agency does not meet the qualifications specified in Sections 17331 and 17332 shall obtain necessary qualified personnel to meet the requirements of this article by contracting with other public agencies, private sector firms, or individuals qualified to perform the necessary services.

17334. During the construction of a private school structure, the enforcement agency shall require the engineer of record responsible for the structural design, or that engineer's authorized representative, to make periodic reviews of construction at the construction site to observe compliance with the approved structural plans, specifications, and change orders. The engineer of record in general responsible charge of the work of construction, and the registered professional engineer shall make a report, duly verified by him or her through periodic review of construction, showing that the work done during the period covered by the report has been performed and that the materials used and installed are in accordance with the approved drawings and specifications. Any detailed statements of fact required by the enforcement agency shall be included. These observations and statements shall not be relied upon by others as acceptance of the work, nor shall they be construed to relieve the contractor in any way of his or her obligations and responsibilities under the construction contract.

"Periodic review of construction," as used in this section and as applied to the architect, civil engineer, structural engineer, or the registered professional engineer, means the knowledge that is obtained from periodic visits of reasonable frequency to the project site for the purpose of general observation of the work. It also means the knowledge that is obtained from the reporting of others as to the progress of the work, testing of materials, inspection, and superintendence of the work that is performed between those periodic visits of the architect, civil engineer, or structural engineer, or the registered engineer. The exercise of reasonable diligence to obtain the facts is required. "Periodic review of construction" does not include responsiblity for superintendence of construction processes, site conditions, operations, equipment, personnel, or maintenance of a safe place to work or any safety in, on, or about the site of work.

17335. Prior to the issuance of a Certificate of Occupancy, the engineer of record shall state in writing to the enforcement agency that, in exercising his or her reasonable professional judgment and to the best of his or her knowledge, information, and belief, the private school structure was constructed in substantial conformity with the approved plans and specifications.

17336. Any person who willfully violates this chapter is guilty of a misdemeanor.

Article 4. Building Schoolhouses

17340. The governing board of any school district may, and when directed by a vote of the district shall, build and maintain a schoolhouse.

17342. The governing board of any school district, whenever in its judgment it is desirable to do so, may establish additional schools in the district.

17343. The governing board of any school district may purchase property and construct and equip buildings in an area after the legal action has been taken that will result in annexation of the area to the school district, but before the annexation has become effective.

Article 5. Factory-Built School Buildings

17350. It is the intent of this article to provide an alternative procedure to Article 3 (commencing with Section 17280) for the construction and installation of factory-built school buildings not over 1,000 square feet in area designed or intended for use as school buildings. As used in this article, a "factory-built building" means any building designed or intended for use as a school building which is either wholly manufactured or is in substantial part manufactured at an offsite location in accordance with building standards adopted and approved pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 of the Health and Safety Code and other regulations adopted by the Department of General Services, to be assembled or erected on a schoolsite. Any such building purchased or leased by a school district shall be deemed to be the construction or alteration of a school building as those terms are used in Article 2 (commencing with Section 17260) and Article 3 (commencing with Section 17280) of this chapter, and all of the provisions of each of those articles, not inconsistent with the provisions of this article, shall apply with respect to factory-built buildings designed or intended for use as school buildings.

17351. Except as provided in Section 18930 of the Health and Safety Code, the Department of General Services shall adopt regulations for the safety of design and construction of factory-built buildings for use as school buildings, and shall prescribe procedures for the plans, specifications, methods of construction, and estimates

of cost of a factory-built school building to be submitted to the department for approval as provided in Section 17352. Except as provided in Section 18930 of the Health and Safety Code, such regulations shall comply with but not be limited by the provisions of Article 2 (commencing with Section 17260) and Article 3 (commencing with Section 17280) of this chapter.

The Department of General Services shall adopt and submit building standards for approval pursuant to Chapter 4 (commencing with Section 18935) of Part 2.5 of Division 13 of the Health and Safety Code for the purposes described in this section.

17352. A manufacturer of factory-built buildings designed or intended for use as school buildings shall submit to the Department of General Services and the State Department of Education for approval, its plans, specifications, methods of construction, and estimates of cost of such buildings. At the same time the manufacturer shall pay to the Department of General Services a deposit to be applied toward the actual expenses in an amount as determined by the Department of General Services based on the estimated cost of such factory-built buildings, but not exceeding 0.5 percent of such estimated cost. The minimum deposit in any case shall be fifty dollars ($50). The manufacturer shall reimburse the Department of General Services and the State Department of Education for the actual expenses incurred by those departments in the review of such plans and specifications.

All fees received by the Department of General Services pursuant to this article are subject to the provisions of Section 17301.

17353. All plans, specifications and estimates shall be prepared by a certified architect holding a valid license under Chapter 3 (commencing with Section 5500) of Division 3 of the Business and Professions Code or by a structural engineer holding a valid certificate to use the title structural engineer under Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code, and the supervision of the work of construction in the factory shall be under the responsible charge of such an architect or structural engineer.

17354. The Department of General Services, in accordance with standards and procedures adopted pursuant to Section 17351, and as such standards and procedures may thereafter be modified, shall either approve or reject such plans, specifications, and methods of construction. Approval shall not be given unless such plans, specifications, and methods of construction are in accordance with standards adopted by the department pursuant to Section 17351. The department may establish procedures for the inspection of the facilities and manufacturing processes of a manufacturer to determine the manufacturer's ability to produce factory-built school buildings in accordance with the plans, specifications, and methods of construction which the manufacturer has submitted to the department. The Department of General Services shall notify the

State Department of Education of its approval of a manufacturer's plans, specifications, and methods of construction of a factory-built school building.

17355. The Department of General Services shall provide for competent, adequate, and continuous inspection during construction in the factory to insure that all work has been performed and materials used and installed, in every particular, in accordance with the approved plans and specifications. The manufacturer shall reimburse the department for the costs incurred for such inspection as determined by the department.

17356. From time to time, as the work of construction in the factory progresses and whenever the Department of General Services requires, the certified architect or structural engineer in responsible charge of the supervision of the work of construction in the factory, the inspector on the work, and the manufacturer shall each make to the Department of General Services a report, duly verified by him or her, upon a form prescribed by the Department of General Services, showing, of his or her own personal knowledge, that the work during the period covered by the report has been performed, and materials used and installed, in every particular, in accordance with the approved plans and specification, setting forth such detailed statements of fact as are required by the Department of General Services.

17357. Upon the Department of General Services' approval of a manufacturer's plans, specifications, and methods of construction of a factory-built school building, a school district, whenever it is otherwise required by any of the provisions of Article 2 (commencing with Section 17260), or Article 3 (commencing with Section 17280) of this chapter to submit to the Department of General Services or to the State Department of Education the plans and specifications for the construction of a school building may, instead, include in its application for approval to each of such departments a notification that it intends to utilize such factory-built school building. The plans and specifications for the factory-built building to be utilized shall be submitted with the application and notification for identification purposes. Before granting its approval for the use of such buildings, the Department of General Services shall insure that the plans, specifications, and methods of construction of the buildings have been approved and are in accordance with standards adopted by the department pursuant to Section 17351 which are in effect at the time the application for approval is passed upon by the department. Whenever a school district complies with the alternative procedure prescribed by this section it shall not be required to pay the filing fee prescribed by Sections 17267 and 17300, except that a fee shall be charged for onsite work pursuant to Section 17358. If the submitted plans and specifications have not been previously approved the application shall be rejected. In such case a new application together with required documents shall be filed for approval of plans and

specifications by either the manufacturer pursuant to the provisions of Section 17352 or by the school district pursuant to the provisions of Article 3 (commencing with Section 17280) of this chapter.

17358. Whenever a school district has contracted for the purchase or lease of a factory-built school building and where such building is to be supported by foundations, underpinning, pedestals, or similar type elements which extend more than 18 inches above natural grade at any point, or on temporary blocks or jacks of any height, all the provisions of Article 3 (commencing with Section 17280) of this chapter shall apply to the design and construction of onsite work except that, for fee purposes, only the estimated cost of onsite work need be considered. The minimum amount in any case shall be fifty dollars ($50).

17359. The provisions of Sections 17266, 17268, 17300, 17302, and 17309 shall not apply with respect to the manufacture, sale, or lease of factory-built school buildings if this article is otherwise complied with.

17360. Sections 17297, 17302, 17307, 17309, and 17311 shall not apply with respect to the design and construction of onsite work except where required Section 17358.

Article 6. Fitness for Occupancy

17365. The Legislature finds and declares as follows:

(a) By an urgency act (Stats. 1933, Ch. 59), the Legislature at the 1933 General Session established reasonable minimum standards for the design and construction of new school buildings, as now defined in Section 17283. Although it was not required that then existing school buildings incorporate these standards, it was intended by the Legislature that in the intervening years continuous progress would be made in the repair, reconstruction or replacement of such school buildings.

(b) Progress toward this end has been outstanding since 1971 as a result of state funds being made available for rehabilitating or replacing structurally unsafe school facilities.

17366. It is the intent of the Legislature to reexamine the progress under this article from time to time. To enable it to do so, and to expedite the provision of safe educational facilities for California schoolchildren, the Legislature intends that the governing board of each school district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

17367. The governing board of any school district which has in use for school purposes any school buildings which were not constructed under approved plans and the supervision and inspection requirements of Article 3 (commencing with Section 17280) of this chapter shall have such buildings examined pursuant to this section and shall have completed on or before January 1, 1970, the

examination, reporting and estimate requirements of this section and Section 39223.

Whenever an examination of the structural condition of any school building of a school district has been made by the Department of General Services, or by any licensed structural engineer or licensed architect for the governing board of the school district, or under the authorization of law, and a report of the examination, including the findings and recommendations of the agency or person making the examination, has been made to the governing board of the district, and the report shows that the building is unsafe for use, the governing board of the district shall immediately have prepared an estimate of the cost necessary to make such repairs to the building or buildings as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law. The estimate shall be based on current costs and may include other costs to reflect modern educational needs. Also an estimate of the cost of replacement based on the standards established by the State Allocation Board for area per pupil and cost per square foot, shall be made and reported.

The report required by this section shall include a statement that each of the buildings examined is safe or unsafe for school use. For the purpose of this statement the sole consideration shall be protection of life and the prevention of personal injury at a level of safety equivalent to that established by Article 3 (commencing with Section 17280) of this chapter and the rules and regulations adopted thereunder, disregarding, insofar as possible, such building damage not jeopardizing life which would be expected from one disturbance of nature of the intensity used for design purposes in said rules and regulations.

The governing board, utilizing the information acquired from the examination and report developed pursuant to this section, shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.

17368. "School building" as used in this article shall be limited to any physical structure capable of being occupied by pupils, but shall exclude, (a) any bleacher or grandstand with less than six rows of seats, (b) any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and buildings utilized by adult schools for off-campus, voluntary adult education courses or registered apprentice courses, (c) any swimming pool, or (d) any yard or lighting poles or flagpoles or playground equipment which does not exceed 35 feet in height.

"School building" as used in this article excludes any building owned or occupied by a unified school district, high school district,

or a county superintendent of schools which is used exclusively for adult education purposes.

If any building so excluded was not constructed in accordance with Article 3 (commencing with Section 17280) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety.

17369. "School building" as used in this article excludes any building operated by an official or board of a public entity for purposes other than educational, notwithstanding any educational use thereof incidental to the other primary purpose.

For purposes of this section, a public entity includes, but is not limited to, a city, city and county, county, or special district, but does not include a school district or county superintendent of schools.

17370. Except as provided in Section 17371, nothing in this article shall be construed as relieving any member of the governing board of a school district of any liability for injury to persons or damage to property imposed by law.

17371. No member of the governing board of a school district shall be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Article 3 (commencing with Section 17280) of this chapter, if such governing board complies with the provisions of this article. Such limit on liability shall commence when such governing board initiates action to comply with the provisions of Section 17367.

A licensed structural engineer or licensed architect employed by a governing board to examine any school building under this article shall not be held personally liable for injury to persons or damage to property as a result of the structural inadequacy and failure of a building, provided he or she has exercised normal professional diligence in carrying out his or her functions under Article 3 (commencing with Section 39140) of this chapter and the provisions of this article.

17372. No school building examined and found to be unsafe for school use pursuant to Section 17367 and not repaired or reconstructed in accordance with the provisions of this article, and no school building which has never met the requirements of Article 3 (commencing with Section 17280) of this chapter, shall be used as a school building for elementary or secondary school purposes after June 30, 1975, unless the governing board of the school district has requested and obtained from the State Allocation Board authority for use of the building for a specific period beyond that date. Prior to requesting this authority, the governing board shall adopt a resolution declaring the board's intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement. The State Allocation Board shall not authorize any

school district to use a building beyond June 30, 1975, unless it has first determined that the school district has already proceeded with a plan of total repair, reconstruction, or replacement in a timely manner and a contract has been let for any phase of, and work commenced on, the project. In no event shall the State Allocation Board authorize the use of any unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

For purposes of this section, "school building" does not include any portable building. Portable buildings may be used beyond June 30, 1975 to meet temporary housing needs until all repair, reconstruction or replacement of all district school buildings is complete or until June 30, 1977, whichever occurs first, provided that the governing board of the district has requested and obtained from the State Allocation Board authority for use of such portable buildings. The State Allocation Board may grant this authority only to those districts in which 20 percent or more of the schools are subject to partial or complete reconstruction pursuant to Section 17367. Any portable buildings for which authority is granted for temporary use pursuant to this section shall not be subject to Article 3 (commencing with Section 17280) or Article 6 (commencing with Section 17365) of this chapter during the period of the authorized use.

17373. Notwithstanding any other provision of this article or Article 9 (commencing with Section 16310) of Chapter 6 of Part 10, whenever a school district does not have funds available to repair, reconstruct, or replace the school buildings referred to in this article or Section 16320, the school district shall apply for any funds that may be necessary to accomplish the repair, reconstruction, or replacement pursuant to Article 9. The school district shall also accept any funds that are disbursed to the district pursuant to Article 9, whether or not the funds constitute the maximum amount applied for, and shall repay the funds in accordance with Article 9. In cases in which funds derived from a tax increase levied pursuant to Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1977, or Section 39230.5, as enacted by Section 2 of Chapter 1010 of the Statutes of 1976, are utilized to match amounts disbursed to a school district under an apportionment made pursuant to Article 9 (commencing with Section 16310) of Chapter 6 of Part 10, the disbursement and repayment may be made without the necessity of a vote of the electorate of the district as prescribed in any provision of Chapter 6 (commencing with Section 16000) of Part 10.

17374. Any revenue derived from an increase in the rate of tax provided by Section 39230, as amended by Section 147 of Chapter 36 of the Statutes of 1977, prior to July 1, 1975, and which is unexpended on that date, may be used after July 1, 1975, by the governing board of a school district to complete the corrective structural repair, reconstruction, or replacement of any school building subject to Section 17367 which had not been completed on that date.

Article 8. All-Purpose Recreational Stadium and Center

17375. The Governing Board of the Los Angeles Unified School District, the City of Los Angeles, and the Board of Supervisors of the County of Los Angeles may form a joint powers agency pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code for the financing, construction, and operation of an all-purpose recreational stadium and center in the San Pedro area of Los Angeles County.

The governing body of the joint powers agency shall be composed of the following members:

(a) One member appointed by the Los Angeles County Board of Supervisors.

(b) One member appointed by the City of Los Angeles.

(c) One member appointed by the governing board of the Los Angeles Unified School District.

(d) Two members by a majority of the three members appointed pursuant to subdivisions (a), (b), and (c).

17376. The Board of Supervisors of Los Angeles County may establish a county service area pursuant to Chapter 2.2 (commencing with Section 25210.1) of Part 2 of Division 2 of Title 3 of the Government Code, for the construction and operation of the recreational stadium and center, with the consent of both the City of Los Angeles and the governing board of Los Angeles Unified School District.

The boundaries of the county service area shall be prescribed by the governing body of the joint powers agency.

17377. The governing body of the joint powers agency may, pursuant to Article 2 (commencing with Section 6540) of Chapter 5 of Division 7 of Title 1 of the Government Code, issue revenue bonds to finance the construction of the all-purpose recreational stadium and center.

17378. The governing body of the joint powers agency may, pursuant to the terms of the joint powers agreement, rent the stadium or center to any public or private entity. The proceeds of the rental shall be used for the payment of principal and interest on the revenue bonds and the operation and maintenance of the stadium and center.

17379. The board of supervisors may have levied and collected a tax within the county service area for the purpose of obtaining funds for contribution to the joint powers agency for the operation and maintenance of the stadium and center.

However, no such tax may be levied and collected unless a majority of the voters of the county service area voting at an election called for such purpose approve a ballot proposition authorizing the levy and collection of such tax. The election may be called by the board of supervisors.

The joint powers agency shall not undertake any financing or construction of the all-purpose recreational stadium and center unless and until such proposition is approved by the voters.

17380. The Legislature finds and declares that because of a unique situation existing in the San Pedro area of the County of Los Angeles regarding the possible acquisition of useful federal surplus land, a general law, within the meaning of Section 16 of Article IV of the California Constitution, cannot be made applicable.

CHAPTER 4. PROPERTY: SALE, LEASE, EXCHANGE

Article 1. Conveyances

17385. The governing board of any school district shall receive in the name of the district conveyances for all property received and purchased by it, and shall make in the name of the district conveyances of all property belonging to the district and sold by it.

17386. The governing board of any school district shall have the power to execute and deliver quitclaim deeds, either with or without consideration to the owners of real property adjacent to any real property owned by the school district, for the purpose of removing defects in and otherwise clearing up the title to such adjacent real property.

Article 1.5. Advisory Committees

17387. It is the intent of the Legislature that leases entered into pursuant to this chapter provide for community involvement by attendance area at the district level. This community involvement should facilitate making the best possible judgments about the use of excess school facilities in each individual situation.

It is the intent of the Legislature to have the community involved before decisions are made about school closure or the use of surplus space, thus avoiding community conflict and assuring building use that is compatible with the community's needs and desires.

17388. The governing board of any school district may, and the governing board of each school district, prior to the sale, lease, or rental of any excess real property, except rentals not exceeding 30 days, shall, appoint a district advisory committee to advise the governing board in the development of districtwide policies and procedures governing the use or disposition of school buildings or space in school buildings which is not needed for school purposes.

17389. A school district advisory committee appointed pursuant to Section 17388 shall consist of not less than seven nor more than 11 members, and shall be representative of each of the following:

(a) The ethnic, age group, and socioeconomic composition of the district.

(b) The business community, such as store owners, managers, or supervisors.

(c) Landowners or renters, with preference to be given to representatives of neighborhood associations.

(d) Teachers.

(e) Administrators.

(f) Parents of students.

(g) Persons with expertise in environmental impact, legal contracts, building codes, and land use planning, including, but not limited to, knowledge of the zoning and other land use restrictions of the cities or cities and counties in which surplus space and real property is located.

17390. The school district advisory committee shall do all of the following:

(a) Review the projected school enrollment and other data as provided by the district to determine the amount of surplus space and real property.

(b) Establish a priority list of use of surplus space and real property that will be acceptable to the community.

(c) Cause to have circulated throughout the attendance area a priority list of surplus space and real property and provide for hearings of community input to the committee on acceptable uses of space and real property, including the sale or lease of surplus real property for child care development purposes pursuant to Section 17458.

(d) Make a final determination of limits of tolerance of use of space and real property.

(e) Forward to the district governing board a report recommending uses of surplus space and real property.

17391. The governing board may elect not to appoint an advisory committee pursuant to Section 17387 in the case of a lease or rental to a private educational institution for the purpose of offering summer school in a facility of the district.

Article 2. Leasing Property

17400. (a) Any school district may enter into leases and agreements relating to real property and buildings to be used by the district pursuant to this article.

(b) As used in this article, "building" includes each of the following:

(1) One or more buildings located or to be located on one or more sites.

(2) The remodeling of any building located on a site to be leased pursuant to this article.

(3) Onsite and offsite facilities, utilities or improvements which the governing board determines are necessary for the proper operation or function of the school facilities to be leased.

(4) The permanent improvement of school grounds.

(c) As used in this article, "site" includes one or more sites, and also may include any building or buildings located or to be located on a site.

17401. As used in this article "lease or agreement" shall include a lease-purchase agreement.

17402. Before the governing board of a school district enters into a lease or agreement pursuant to this article, it shall have available a site upon which a building to be used by the district may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites, and it shall have prepared and shall have adopted plans and specifications for the building that have been approved pursuant to Sections 17280 to 17316, inclusive. A district has a site available for the purposes of this section under any of the following conditions:

(a) If it owns a site or if it has an option on a site that allows the school district or the designee of the district to purchase the site. Any school district may acquire and pay for an option containing such a provision.

(b) If it is acquiring a site by eminent domain proceedings and pursuant to Chapter 6 (commencing with Section 1255.010) of Title 7 of Part 3 of the Code of Civil Procedure, the district has obtained an order for possession of the site, and the entire amount deposited with the court as the probable amount of compensation for the taking has been withdrawn.

(c) In the case of a district qualifying under Section 17410, if it is leasing a site from a governmental agency pursuant to a lease having an original term of 35 years or more or having an option to renew that, if exercised, would extend the term to at least 35 years.

17403. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 40 years.

17404. Sections 17455 to 17480, inclusive, shall not apply to leases made pursuant to this article.

17405. Any lease or agreement shall be subject to the following requirements:

(a) A building or structure that is to be used for school purposes shall be subject to the provisions of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365). The governing board of a school district may request and obtain from the State Allocation Board authority for use of any building not meeting the structural standards prescribed by Article 3 (commencing with Section 17280) until September 1, 1990. After September 1, 1990, the governing board of a school district may request and obtain from the State Allocation Board a waiver of Article 3 (commencing with Section 17280) for a maximum of three years. A building or facility used by a school district under a lease or lease-purchase agreement into which neither pupils nor teachers are required to enter or that would be excluded from the definition of "school building," as

contained in Section 17368, shall not be considered to be a "school building" within the meaning of Section 17283.

(b) Notwithstanding subdivision (a), a waiver granted to a school district pursuant to that subdivision prior to January 1, 1993, may be renewed by the State Allocation Board for one additional period of no more than three years, not extending past September 30, 1996. However, any waiver granted to a school district that will expire on or before September 30, 1996, is hereby extended until September 30, 1997.

(c) Subdivision (a) shall not apply to trailer coaches used for classrooms or laboratories if the trailer coaches conform to the requirements of Part 2 (commencing with Section 18000) of Division 13 of the Health and Safety Code, and the rules and regulations promulgated thereunder concerning mobilehomes, are not expanded or fitted together with other sections to form one unit greater than 24 feet in width, are used for special educational purposes, and are used by not more than 12 pupils at a time, except that the trailer coaches may be used by not more than 20 pupils at a time for driver training purposes.

(d) The site on which a leased relocatable structure is located shall be owned by the school district, or shall be under the control of the school district pursuant to a lease or a permit.

"Relocatable structure" is any structure that is designed to be relocated.

(e) This section shall remain in effect only until September 30, 1997, and as of that date is repealed, unless a later enacted statute, that is enacted before September 30, 1997, deletes or extends that date.

17405. Any lease or agreement shall be subject to the following requirements:

(a) A building or structure that is to be used for school purposes shall be subject to the provisions of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365). A building or facility used by a school district under a lease or lease-purchase agreement into which neither pupils nor teachers are required to enter or that would be excluded from the definition of "school building," as contained in Section 17368, shall not be considered to be a "school building" within the meaning of Section 17283.

(b) Subdivision (a) shall not apply to trailer coaches used for classrooms or laboratories if the trailer coaches conform to the requirements of Part 2 (commencing with Section 18000) of Division 13 of the Health and Safety Code, and the rules and regulations promulgated thereunder concerning mobilehomes, are not expanded or fitted together with other sections to form one unit greater than 24 feet in width, are used for special educational purposes, and are used by not more than 12 pupils at a time, except that the trailer coaches may be used by not more than 20 pupils at a time for driver training purposes.

(c) The site on which a leased relocatable structure is located shall be owned by the school district, or shall be under the control of the school district pursuant to a lease or a permit.

"Relocatable structure" is any structure that is designed to be relocated.

(d) For purposes of interconnection of fire alarms, buildings leased for 24 months or less shall be subject to Section 809 of the Uniform Building Code until applicable regulations proposed by the State Fire Marshal are adopted as part of Title 24 of the California Code of Regulations.

(e) This section shall become operative on September 30, 1997.

17406. (a) Notwithstanding Section 17417, the governing board of a school district, without advertising for bids, may let, for a minimum rental of one dollar ($1) a year, to any person, firm, or corporation any real property that belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the use of the school district during the term thereof, and provides that title to that building shall vest in the school district at the expiration of that term. The instrument may provide for the means or methods by which that title shall vest in the school district prior to the expiration of that term, and shall contain such other terms and conditions as the governing board may deem to be in the best interest of the school district.

(b) Any rental of property that complies with subdivision (a) shall be deemed to have thereby required the payment of adequate consideration for purposes of Section 6 of Article XVI of the California Constitution.

17407. The governing board of any school district may enter into an agreement with any person, firm, or corporation under which that person, firm, or corporation shall construct, or provide for the construction of, a building to be used by the district upon a designated site and lease the building and site to the district. The instrument shall provide that the title to the building and site shall vest in the district at the expiration of the lease, and may provide the means or method by which the title to the building and site shall vest in the district prior to the expiration of the lease, and shall contain such other terms and conditions as the governing board of the district deems to be in the best interest of the district.

The agreement entered into shall be with the lowest responsible bidder who shall give the security that any board requires. The board may reject all bids. For the purpose of securing bids the board shall publish at least once a week for two weeks in some newspaper of general circulation published in the district, or if there is no paper, then in some paper of general circulation circulated in the county, a notice calling for bids, stating the proposed terms of the agreement and the time and place where bids will be opened.

17408. The governing board of a school district shall call and hold an election, pursuant to Section 17409 or 17412, before or after entering a lease or agreement, as the case may be, except that if the lease or agreement does not effect an increase in the existing applicable maximum tax rate of the district, the election requirements of this section shall not apply.

17409. Before entering into a lease or agreement pursuant to this article, the governing board of the district shall call, hold, and conduct an election in the manner provided in Section 42202, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the _____ District purchase (a site, sites) prepare plans and specifications, [the reference to the site or sites and plans and specifications shall not be included if, prior to calling the election, the governing board of the district has acquired a site or sites or proposes to lease a site or sites and has prepared plans and specifications] and lease (a site and, sites and) (a building, buildings) to be constructed for use by the school district [designating the location of the site or sites on which the building or buildings will be constructed and generally describing the building or buildings], and, for such purposes, shall the maximum tax rate of the district be increased by not to exceed _____, such increase to be in effect in the _____ District for the years 19____ to _____, be authorized and the amount of such increase used solely and exclusively for such purposes?"

17410. (a) If, at an election held pursuant to Section 17409, or the predecessor to that section, a majority of the electors voting on the proposition voted "Yes," the governing board may call an election pursuant to this section.

Before entering into one or more leases or agreements pursuant to this section and this article, the governing board of the district shall call, hold, and conduct an election in the manner provided in Section 42202 of the Education Code, as it existed on December 31, 1979, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the _____ District purchase (a site, sites) prepare plans and specifications [the reference to the site or sites and plans and specifications shall not be included if, prior to calling the election, the governing board of the district has acquired a site or sites or proposes to lease a site or sites or has prepared plans and specifications] and lease (a site, sites) and (a building, buildings) to be constructed for use by the school district (designating the location of the site or sites on which the building or buildings will be constructed and generally describing the building or buildings) and for those purposes, shall the tax rate increase authorized on [the date of the original election], be used solely and exclusively for those purposes in addition to those approved by the majority of electors at the election held pursuant to Section 17409, or the predecessor to that section, on [the date of the original election]?"

If, at the election held pursuant to this section, a majority of the electors voting on the proposition vote "Yes," the governing board may proceed pursuant to this article to use that previously authorized tax increase for the purpose or purposes authorized under that election.

(b) It is the intent of the Legislature, in enacting this section, to permit the levy of a tax to the extent authorized at an election held pursuant to Section 17409, or the predecessor to that section, as modified to permit the proceeds of that tax to be expended for the purposes authorized at the election held pursuant to subdivision (a).

17411. The governing board of the district, if the district proposes at an election held pursuant to Section 17409 to lease more than one building, may include in the ballot measure used in the election a statement that the district reserves the right to lease less than all of the proposed buildings designated in the ballot measure. If such a statement is included in the ballot measure, the governing board may at any time thereafter determine to not lease one or more of the buildings included in the ballot measure, and such determination shall not breach any obligation of the district to the voters of the district.

17412. An election held pursuant to Section 17409 or Section 17413 shall be held in conjunction with either a statewide primary or general election, or an election date specified in Section 2500 of the Elections Code.

17413. In lieu of calling an election pursuant to Section 17409, the governing board of a school district may call an election pursuant to this section. Within 10 days after the governing board has opened the proposals pursuant to Section 17417 or has adopted a resolution pursuant to Section 17418 it may accept a proposal, if proceeding under Section 17417, and execute the lease or agreement, and immediately thereafter call an election pursuant to this section.

The governing board of the district shall call, hold, and conduct an election in the manner provided in Section 42202, except that the ballot used in the election shall contain substantially the words: "Shall the governing board of the _____ District lease [a site (sites) and] a building [buildings] to be constructed for use by the school district [designating the location of the site or sites on which the building or buildings will be constructed, and generally describing the building or buildings and the cost thereof], and, for such purposes, shall the maximum tax rate of the district be increased by not to exceed _____, such increase to be in effect in the _____ District for the years 19___ to _____, be authorized and the amount of such increase used solely and exclusively for such purposes?"

17414. If, at the election held pursuant to Section 17409 or Section 17413, a majority of the electors voting on the proposition vote "Yes," the governing board may proceed pursuant to this article.

17415. Whenever the electors of a school district, at an election held pursuant to Section 17409 or 17413, have approved an increase in the maximum tax rate of the district for the purpose of enabling the district to enter into a lease or agreement for a site or building, or both, and before the lease or agreement is entered into, or during the term of the lease or agreement, territory is taken from the district and annexed to or included in another district by any means, the acquiring district shall automatically assume and shall pay to the district from which the territory is transferred a proportionate share of any remaining payments due under the lease or agreement, as the payments become due, for so long as the lease or agreement runs.

The acquiring district's proportionate share shall be in the ratio which the total assessed valuation of taxable property in the transferred territory bore to the total assessed valuation of taxable property in the whole district from which the territory is transferred for the year immediately preceding the date on which the transfer became effective for all purposes.

This section shall be applicable only with respect to transfers of school district territory which become effective for all purposes after the effective date of enactment of this section, and shall be applicable whether the election under Section 17409 or 17413 occurred prior to or after the effective date of this section.

17416. (a) Unless the time allowed for the governing board to enter into the lease agreement is extended pursuant to subdivision (b), if the governing board of the district fails to enter into a lease pursuant to this article within three years after an election, held pursuant to Section 17409, at which a majority of the votes cast favors the proposition submitted, the authorization for an increase in the maximum tax rate shall become void.

(b) If litigation is filed challenging in any way the election held pursuant to Section 17409 or the competitive bidding proceedings or contract for the construction of the building to be used by the district; compliance with the California Environmental Quality Act; or the validity of or the proceedings for the issuance of any bonds, notes, warrants, or other evidences of indebtedness of a nonprofit corporation to be sold to finance construction of the building, the authorization for an increase in the maximum tax rate shall not become void because of the failure of the governing board to enter into a lease pursuant to this article until three years after the date upon which this subdivision becomes effective.

This subdivision shall apply only to school districts which had an average daily attendance of 65,000 or more in the 1975–76 fiscal year.

17417. After the governing board of a school district has complied with Section 17402, it shall, in a regular open meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article. The resolution shall describe, in any manner to identify it, the available site upon which the building to be used by the district shall be constructed, shall generally describe the

building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor, shall, if that is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed, and shall state the maximum number of years for which the school district will lease the building or site and building, as the case may be, and shall state that the proposals submitted therefor shall designate the amount of rental, which shall be annual, semiannual, or monthly, to be paid by the school district for the use of the building, or building and site, as the case may be. The resolution shall fix a time, not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to enter a lease or agreement with the school district will be received from any person, firm, or corporation, and considered by the governing board. Notice thereof shall be given in the manner provided in Section 17469.

At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to enter a lease or agreement and which are made by responsible bidders, the proposal which calls for the lowest rental shall be finally accepted, or the board shall reject all bids. The board is not required to accept a proposal, or else reject all bids, on the same day as that in which the proposals are opened.

17418. (a) As an alternative to obtaining sealed proposals as required by Sections 17407 and 17417, the governing board may, in a public meeting, adopt a resolution declaring its intention to enter into a lease or agreement pursuant to this article with a nonprofit public benefit corporation organized under the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code) if the articles of incorporation or bylaws of the nonprofit public benefit corporation provide both of the following:

(1) That no person shall be eligible to serve as a member or director of the corporation except a person initially approved by resolution of the governing board of the school district.

(2) That no part of the net earnings of the corporation shall inure to the benefit of any member, private shareholder, individual, person, firm or corporation excepting only the school district.

(b) The resolution adopted by the governing board shall do all of the following:

(1) Describe, in a manner to identify it, the available site upon which the building to be used by the district shall be constructed.

(2) Generally describe the building to be constructed and state that the building shall be constructed pursuant to the plans and specifications adopted by the governing board therefor.

(3) If that is the case, state the minimum yearly rental at which the governing board will lease real property belonging to the district upon which the building is to be constructed.

(4) State the maximum number of years for which the school district will lease the building, or building and site, as the case may be.

(c) Any building constructed by a nonprofit public benefit corporation pursuant to a lease or agreement entered into pursuant to this section shall be constructed under a contract awarded to the lowest responsible bidder pursuant to Article 42 (commencing with Section 20670) of Part 3 of Division 2 of the Public Contract Code. Section 17424 applies to the contract.

17419. Any bonds, notes, warrants, or other evidences of indebtedness to be issued by a nonprofit corporation to finance the construction of a building pursuant to a lease or agreement entered into pursuant to Section 17418 shall be sold pursuant to Chapter 10 (commencing with Section 5800) of Division 6 of Title 1 of the Government Code.

17420. All bonds, notes, warrants or other evidences of indebtedness referred to in Section 17419 and the interest thereon, and all bonds, notes, warrants, or other evidences of indebtedness issued to refinance any bonds, notes, warrants, or other evidences of indebtedness referred to in Section 17419 and the interest thereon, are exempt from all taxation in the state other than inheritance, gift and franchise taxes.

17421. Any building constructed for the use of a school district pursuant to this article is subject to Sections 17280 to 17313, inclusive.

17422. For the purposes of Sections 15102 and 15106 and Chapter 6 (commencing with Section 16000) of Part 10, 50 percent of any remaining payments for use of the building or site and building which would become due from the district under any leases and agreements entered into by the district pursuant to this article, if the leases and agreements were to run their full term, shall be considered outstanding bonded indebtedness.

17423. No district shall enter into any lease or agreement pursuant to this article if at the time 50 percent of any remaining rental payments for use of the building or site and building which would become due from the district pursuant to this article, including the lease or agreement to be entered into, if the leases and agreements were to run their full term, plus the total amount of district bonded indebtedness outstanding at the time, shall exceed 7.5 percent for elementary school districts and high school districts and 12.5 percent for unified school districts of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. For the purpose of this

section, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowners' property tax exemption.

17424. The governing board of the school district shall obtain the general prevailing rate of per diem wages from the Director of the Department of Industrial Relations for each craft, classification or type of workman needed for the construction of the building and shall specify in the resolution and in the notice, required by Section 17417, or in the resolution required by Section 17418 and in the lease or agreement made pursuant to this article, what the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality is for each craft, classification or type of workmen needed for the construction of the building. The holidays upon which such rate shall be paid need not be specified by the governing board, but shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workmen employed on the project.

Any agreement or lease entered into pursuant to this article shall require that such general prevailing rates will be paid. It shall also require that work performed by any workman employed upon the project in excess of eight hours during any one calendar day shall be permitted only upon compensation for all hours worked in excess of eight hours per day at not less than $1^1/_2$ times the basic rate of pay. There may also be included in leases or agreements entered into pursuant to this article any other requirements with respect to matters related to the subject of this section which the governing board deems necessary or desirable.

17425. The provisions of this article prevail over any provisions of law which conflict therewith.

17426. All acts and proceedings taken prior to the effective date of the enactment of this section, by or on behalf of any district under this article, or under color of this article, for the authorization of an increase in the maximum tax rate of the district and for the leasing of a building or buildings for the purposes of the district are hereby confirmed, ratified, validated, and declared legally effective. This shall include all acts and proceedings of the governing board of the district and of any person, public officer, board, or agency, heretofore done or taken upon the question of the authorization of the tax rate increase or the leasing. Whenever an election has been called and held prior to the effective date of the enactment of this section, for the purpose of submitting to the voters of any district the question of an increase in the maximum tax rate of the district and for the leasing of a building or buildings for the purposes of the district, the election and all proceedings attendant thereon are hereby confirmed, ratified, validated, and declared to be legally effective for all purposes, and the tax rate increase, if authorized by the required

vote and in accordance with the proceedings heretofore taken, shall be a legal and valid authorization, in accordance with its terms, and any tax heretofore or hereafter levied pursuant to that authorization shall be legal and valid. The foregoing provisions of this section shall operate to supply any legislative authorization that may be necessary to validate the acts and proceedings heretofore taken which the Legislature could have supplied or provided for in this article. The foregoing provisions of this section shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the California and United States Constitutions. The foregoing provisions of this section shall not operate to confirm, ratify, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal proceeding now pending and undetermined or which may be pending and undetermined during the period of 30 days from and after the effective date of this section, and shall not operate to confirm, ratify, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void, or ineffective.

In any school district in which an election was called and held prior to the effective date of this section in which the voters of the district authorized an increase in the maximum tax rate of the district and the leasing of a building or buildings for the purposes of the district, the law in effect at the date of the school district election shall govern the terms of the lease, the terms of the sale of related bonds, notes, and warrants, and the school district's maximum bonded indebtedness, and Section 17423 shall not be applicable to the school district's entry into any lease or agreement authorized at an election called and held prior to the effective date of this section.

17427. The State Allocation Board shall consider community school pupils housed in leased facilities that do not conform to the requirements of Part 2 (commencing with Section 2-101), Part 3 (commencing with Section 3-089-1), Part 4 (commencing with Section 4-403), and Part 5 (commencing with Section 5-102), of Title 24 of the California Code of Regulations as unhoused for the purposes of determining priority for the leasing of portable classrooms pursuant to Chapter 14 (commencing with Section 17085) of Part 10.

17428. The governing board of a school district may lease property in an adjoining school district for garage, warehouse, or other utility purposes or may purchase property in an adjoining school district for those purposes and may dispose of the property in the same manner as property within the boundary of the district is purchased and disposed of.

The power of eminent domain shall not be applicable and the acquisitions by purchase shall be subject to the approval of the governing board of the school district in which the property is located.

17429. (a) This section shall apply only to a school district in which the electorate authorizes an increase in the maximum tax rate of the district pursuant to this article for the lease of one or more schools, and there exists at the time of the election on a site owned by the district a school facility not owned by the district meeting all of the requirements of Article 3 (commencing with Section 17280) of this chapter, which site and school facility are designated and described in the ballot proposition approved by the voters.

(b) Notwithstanding any other law, a school district may lease from a California nonprofit corporation an existing school and may pay rentals therefor from funds derived from the increase in the maximum tax rate approved by the voters at an election. The purchase price of the school paid by the nonprofit corporation to the owners of the school shall not exceed the actual audited cost of construction thereof including actual interest paid on money borrowed to finance such construction. Prior to the purchase of the school by the nonprofit corporation, an independent certified public accountant shall be retained by the school district to verify the actual cost of construction and any interest paid to finance the construction, and the nonprofit corporation may conclusively rely upon any certificate or opinion setting forth the actual cost of construction and the interest prepared by the independent certified public accountant.

(c) A school district, the electorate of which, prior to the effective date of this section, authorized an increase in the maximum tax rate in the manner, for the purposes, and under the circumstances specified in subdivision (a), may avail itself of the authority afforded by subdivision (b).

Article 2.5. Leasing Facilities

17430. Notwithstanding any other law, the governing board of any school district may enter into a lease or agreement for any school facilities pursuant to this article with a nonprofit corporation organized under Division 2 (commencing with Section 5000) of Title 1 of the Corporations Code if the articles of incorporation or bylaws of the nonprofit corporation provide for both of the following conditions:

(a) No person shall be eligible to serve as a member or director of the nonprofit corporation, except a person initially approved by resolution of the governing board of the school district.

(b) No part of the net earnings of the nonprofit corporation shall inure to the benefit of any member, private shareholder, individual, person, firm, or corporation, excepting only the school district.

Any facilities constructed by a nonprofit corporation pursuant to a lease or agreement entered into pursuant to this article shall be constructed under a contract awarded to the lowest responsible

bidder pursuant to Chapter 3.5 (commencing with Section 4220) of Division 5 of Title 1 of the Government Code.

17431. Notwithstanding any other law, an owner's development lien created pursuant to this article is a covenant for the benefit of the school district or districts expressly described therein which shall, upon recordation with the county recorder of the county in which the real property is located, run with the land described in the document by which the lien is placed of record. The owner's development lien shall be binding upon successors in interest, during their ownership, of any portion of such land affected thereby and each person having an interest therein derived through any owner of the land owned by the covenantor.

The covenant running with the land created by the owner's development lien as provided in this section constitutes a valid covenant notwithstanding the fact that it is created in connection with only one estate and is imposed upon a single parcel and is intended to be for the benefit of a school district or districts who are not a landowner or owners.

17432. The sale of bonds for the accomplishment of a school facilities plan shall be subject to the approval of the State Treasurer. Prior to the sale of any bonds, the State Allocation Board shall determine that the proposed facilities to be constructed with the bond proceeds are consistent with its building area and costs standards as to the area and facilities described in the school facilities plan pursuant to which the bonds are to be issued. The sale of the bonds shall be conducted in compliance with Chapter 10 (commencing with Section 5800) of Division 6 of Title 1 of the Government Code. However, the bonds may be sold at a negotiated sale. The State Treasurer and the State Allocation Board may impose a charge and collect a fee for reimbursement of actual costs incurred in accomplishing the approval and determination.

17433. Any rental payments required by any lease or agreement entered into pursuant to this article may be paid in annual installments or may be prepaid from state funds or other funds of the school district permissible by law to be used for those purposes at any time during the period of the lease or agreement.

17434. Whenever the governing board determines that a lease or agreement should be entered into with a nonprofit corporation, the board shall adopt a resolution of intention. The board shall have the following powers and shall state in the resolution all of the following:

(a) The intention of the board to formulate a school facilities plan for the school district or a portion thereof.

(b) A summary description of the facilities to be included within the school facilities plan.

(c) The estimated expense of carrying out the school facilities plan, including all incidental expenses.

(d) That a map depicting the exterior boundaries of the territory to be benefited by the school facilities plan is on file with the secretary

of the school district and is available for inspection by any person or persons interested.

(e) A legal description of the real property upon which an owner's development lien is to be imposed and to be recorded with the county recorder of the county or counties in which the real property is located.

(f) The intention of the board to cause the formation of a nonprofit corporation the purpose of which is to issue bonds, notes, or other obligations to finance the construction of the facilities included within the school facilities plan and to lease the facilities to the school district.

(g) That pursuant to Section 17438, an owner's development lien shall be imposed to the benefit of the school district on all real property described in the map on file with the secretary of the school district, exclusive of real property subject to restrictions that preclude development thereon, which shall specify the amount thereof and the maximum period of time over which the amount is to be paid, together with a specified maximum interest rate.

(h) That the school district may enforce the lien, as to any amount or amounts in default, by judicial foreclosure proceedings as provided for in Section 17444.

(i) That the owner's development lien provided for in this article shall be imposed with the consent of all owners within the final map of the boundaries in equal amounts on each acre or portion thereof within the territory to be benefited by the school facilities plan or imposed pursuant to Section 17447.

(j) That the proposed facilities may or may not be constructed within the boundaries of the territory to be benefited by the school facilities plan as depicted on the map described in subdivision (d).

(k) That the benefited property may include noncontiguous territory and that real property may subsequently be included by the governing board, subject to the assumption of a pro rata share of all obligations incurred or to be incurred, plus an amount not less than all amounts collected pursuant to the owner's development lien per acre or portion thereof.

17435. Subsequent to the adoption of the resolution pursuant to Section 17434, the secretary of the school district shall mail a copy of such resolution to each owner of property within the territory to be benefited from the school facilities plan as shown on the last equalized assessment roll, as well as the persons that the secretary can reasonably determine may have an interest in the property, except for those persons who have filed written waivers to receive copies of the resolution with the secretary of the district. A copy of the resolution shall be published pursuant to Section 6066 of the Government Code. The school district also shall give the notice to any persons who have in writing requested notice of the proceedings. The secretary of the district also shall mail copies of the resolution to any beneficiary under any deeds of trust on property within the

territory to be benefited by the school facilities plan unless written waivers to receive the copies have been filed with the secretary of the school district.

Any owner of real property or owner of an interest in real property, such as a trustee or beneficiary under a deed of trust or similar secured interest, may file written objections to the implementation of the school facilities plan with the secretary of the district, which written objections shall be filed with the secretary no later than 30 days from the date of the mailing of a copy of the resolution.

17436. No sooner than 30 days from the date mailing occurs pursuant to Section 17435, the governing board of the school district may consider all written objections filed with the secretary of the school district and may, at its discretion, discontinue proceedings pursuant to this article or may adopt, after consideration of written objections, a resolution ordering the implementation of the school facilities plan for the purpose and for the benefit of that territory described in the resolution of intention, provided the owners described in Section 17435 have consented in writing to the owner's development lien.

17437. The resolution ordering implementation of the school facilities plan shall state the following:

(a) A legal description of the real property to which an owner's development lien is to be imposed.

(b) The names of all owners of record of the real property to which an owner's development lien is to be imposed.

(c) The total amount of the owner's development lien to benefit the school district as described in subdivision (g) of Section 17434.

(d) The real property described in the resolution shall be subject to an owner's development lien for a pro rata share on each acre or portion thereof pursuant to this article or any other amount as herein provided.

(e) That all owners of the real property described in the resolution have agreed on their behalf and on behalf of their successors in interest to pay the designated share of the owner's development lien, have acknowledged that such agreement constitutes a covenant running with the land pursuant to Section 17431, have agreed that the obligation created is secured by the owner's development lien as provided in this article, and have consented to the implementation of the owner's development lien.

(f) That a lease or agreement will be entered into with a nonprofit corporation.

17438. After adoption of the resolution ordering implementation of the school facilities plan, the resolution shall be recorded with the county recorder of the county or counties in which the real property subject to the owner's development lien is located.

Upon recordation of the resolution, an owner's development lien is hereby created and attaches to the real property described therein for the cost of implementing the school facilities plan.

17439. No sooner than 90 days from the date a resolution is recorded pursuant to Section 17438, a nonprofit corporation which has entered into a lease or agreement with the school district pursuant to this article may issue bonds for the purpose of financing all or a portion of the school facilities plan approved pursuant to procedures of this article.

17440. Except as provided in Section 2192.1 of the Revenue and Taxation Code, an owner's development lien imposed for the purposes of this article shall have the same priority as special assessment liens described in Article 13 (commencing with Section 53930) of Chapter 4 of Part 1 of Division 2 of Title 5 of the Government Code. Except as to any due, unpaid and delinquent amount, the owner's development lien shall not be deemed to be a prior encumbrance within the meaning of Section 766 of the Financial Code. From and after the date of the recording of the owner's development lien, all persons shall be deemed to have notice of the contents thereof.

17441. Additional territory may be added to the area described as being benefited by the school facilities plan in the discretion of the governing board, provided the owners of the real property to be added consent to the imposition of a lien for all present and future obligations as set forth in the school facilities plan and agree to pay to the district an amount at least equal to all amounts collected pursuant to the owner's development lien.

Any additional territory added to the area benefited by the school facilities plan pursuant to this section shall be the subject of a resolution described in Section 17437 and recorded pursuant to Section 17438.

17442. The governing board may bill and collect pursuant to the owner's development lien and collect payments from the owners of all property subject to an owner's development lien in amounts sufficient for the district to meet its rental obligations under any lease or agreement and to pay or reimburse any expenses incurred to implement the school facilities plan. The amounts due pursuant to the owner's development liens shall be billed and collected in equal amounts on each acre or portion thereof as provided for in the owner's development lien or as provided for in Sections 17437 and 17447.

A school district electing to utilize the provisions of this article may enter into a contract with the county tax collector for the billing of the annual amounts billed pursuant to this section. The tax collector may collect these amounts together with and not separate from the taxes on the property. The county tax collector shall be entitled to a fee for the reasonable value of his or her services.

17443. An owner's development lien may be released by the governing board, provided funds are deposited with the board to pay the unpaid principal amount of the lien, plus any prepayment charges in an amount to be determined by the governing board.

Upon receipt of these amounts, the board shall adopt a resolution specifically providing a legal description of the real property and the record title owners thereof subject to the release. The resolution shall be recorded with the county recorder of the county or counties in which the real property is located. Upon recordation of the resolution, the owner's development lien shall be discharged and of no further effect.

17444. (a) Any installment of an owner's development lien created pursuant to this article shall become delinquent 30 days following billing thereof if unpaid, or if the installment is being collected by the county tax collector, at the time general taxes become delinquent. An installment shall be in default 30 days after written notice of the delinquency has been given by certified or registered mail to the record owner of the property subject to the lien and all lenders of record.

(b) The governing board, not later than four years after the date of default of any payment, may order that the amount be collected by an action brought in superior court to foreclose against the real property subject to the owner's development lien for the then delinquent installment of the owner's development lien. The action shall affect only the delinquent amounts and shall not accelerate or require payment of any remaining amount of the owner's development lien.

(c) The lease agreement between the governing board and the nonprofit corporation may contain covenants for the benefit of bondholders providing that the governing board shall commence and diligently prosecute to completion any foreclosure action regarding delinquent installments of an owner's development lien. The lease agreement may specify a deadline for commencement of the foreclosure action and any other terms and conditions that the governing board may determine to be reasonable.

(d) The governing board may assign its rights under this section to the nonprofit corporation or to any trustee under the resolution adopted pursuant to Section 17437.

(e) Costs in the action shall be fixed and allowed by the court and shall include, but are not limited to, reasonable attorneys' fees, interest, penalties and other charges or advances authorized by this article, and when so fixed and allowed by the court, the costs shall be included in the judgment. The amount of penalties, costs, and interest due shall be calculated up to the date of judgment.

(f) All matters pertaining to foreclosure, execution and sale shall be governed by the then existing law of California. However, notwithstanding any other law, the owner's right of redemption shall be limited to 60 days following the date of sale of the owner's interest. The owner's development lien shall continue as security for all future required installment payments. Any remaining funds after foreclosure and payment of all obligations and costs of foreclosure of the delinquent installment of the owner's development lien shall be

paid pursuant to the priority of encumbrances of record and to the owner or owner's successor as of the date of initiation of the foreclosure proceeding.

(g) Foreclosures of installments of the owner's development lien pursuant to this article shall not affect the priority of any scheme of community development approved by the Department of Real Estate, including, but not limited to, subdivision maps, condominium plans, covenants, conditions, restrictions, and easements whether recorded prior to or subsequent to the owner's development lien.

17445. Any action to contest the validity of this article may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure, except that an appeal from any judgment rendered in such action shall be made directly to the Supreme Court of the State of California.

17446. Notwithstanding any other provision contained in this article, and as an alternative method of accomplishing the purposes of this article, owner's development liens may be imposed in unequal amounts on each acre or portion thereof in order that the liens may be based upon equal or equitable amounts for each individual dwelling unit after subdivision into lots or condominium units.

17447. (a) As an alternate provision, owner's development liens previously imposed upon a particular parcel or parcels of property which are subsequently subdivided may be apportioned to provide that the owner's development liens shall be imposed upon the individual lots and condominium units created by one or more subdivisions. The liens need not necessarily be imposed upon a pro rata basis based upon acreage, but may be imposed pursuant to Section 17446 to provide for an equal or equitable portion of the total lien to be imposed upon each individual dwelling unit or resulting separate parcel. In imposing the owner's development liens on individual lots and condominium units, there may be excluded from the liens property which becomes subject to restrictions that preclude development thereon including, but not limited to, areas of common ownership, streets, and easements. Prior to the apportionments of an owner's development lien pursuant to this section, the governing board of the school district shall adopt a resolution which shall include the following:

(1) A legal description of the real property on which an owner's development lien has previously been imposed.

(2) The intention of the governing board to apportion the owner's development lien to provide for an equitable apportionment of the lien upon individual lots and condominium units within the properties to be subdivided.

(3) A map showing the subdivided lands, together with the proposed owner's development liens to be imposed upon the individual lots and condominium units within one or more such subdivisions.

(b) Upon adoption of the resolution, the secretary of the school district shall mail a copy of the resolution to each owner of the property upon which the owner's development lien has previously been imposed as shown on the last equalized assessment roll. A copy of this resolution shall be published pursuant to Section 6066 of the Government Code. The secretary of the school district shall mail copies of the resolution to any beneficiary of deeds of trust upon the property. No sooner than 30 days after the mailings, the governing board may consider objections to the proposed apportionment of the owner's development lien. Provided that all owners of the parcels over which the lien is to be apportioned, including any beneficiary under any deeds of trust, or any beneficiary under any deed of trust, have consented, the owner's development lien may be apportioned to provide for an equitable portion of the total development lien to be placed upon the individual lots, condominium units or separate parcels created within one or more of the subdivisions. A resolution approving the apportionment of the owner's development lien shall thereafter be adopted and recorded with the county recorder of the county or counties in which the real property is located. Apportionment pursuant to this section shall be effective upon the recordation. The apportionment of the owner's development lien shall in no way either increase or decrease the total amount of the owner's development lien which has previously been imposed upon the properties involved. However, the original owner's development lien which had been previously imposed shall be released of record at the time the apportionment of the lien pursuant to this section is recorded.

Article 3. Leasing of Equipment

17450. Any school district or any county superintendent of schools may, as lessee, enter into a lease or lease-purchase agreement for equipment or service systems with any persons, firm, corporation or public agency. As used in this article "equipment" includes all of the following:

(1) Schoolbuses.

(2) Other motor vehicles.

(3) Test materials, educational films, and audiovisual materials.

(4) All other items defined as equipment or service systems in the California School Accounting Manual.

17451. Before a lease or lease-purchase agreement may be entered into the lessee shall comply with all applicable provisions for bids and contracts prescribed by Article 3 (commencing with Section 17595) of Chapter 5 of this part. Each contract shall show the total price for an outright purchase of any item and also its total cost for the entire specified term of the contract.

17452. The term of any lease or lease-purchase agreement shall not exceed the estimated useful life of the item but in no event shall

the term exceed 10 years. A lease, but not a lease-purchase agreement, may be renewable at the option of the lessee and the lessor, jointly, at the end of each term at a rate not more than 12 percent annually above the rate set pursuant to the existing agreement. In no event shall the combined period of the original lease and renewals or extensions exceed 10 years. Any contract for the lease or lease-purchase of equipment or service systems which was in existence prior to April 22, 1975, shall remain in effect and such terms are hereby ratified.

17453. As a lessor, a school district governing board is authorized to let, or let with option to purchase, any land, buildings, or equipment it determines is not needed for school purposes for a term extending to the end of the expected nonuse of the land, buildings, or equipment and under any conditions it deems reasonable. All of these leases and leases with options to purchase to nonpublic agencies or individuals shall comply with the provisions of Sections 17545, 17546, 17547, and 17548.

Article 4. Sale or Lease of Real Property

17455. The governing board of any school district may sell any real property belonging to the school district or may lease for a term not exceeding 99 years, any real property, together with any personal property located thereon, belonging to the school district which is not or will not be needed by the district for school classroom buildings at the time of delivery of title or possession. The sale or lease may be made without first taking a vote of the electors of the district, and shall be made in the manner provided by this article.

17456. Notwithstanding Section 17455, the sale by the governing board of any school district of any real property belonging to the school district or the lease by that governing board, for a term not exceeding 99 years, of any real property, together with any personal property located thereon, belonging to the school district shall not be subject to any other provision of this chapter, to Article 5 (commencing with Section 17485), or to Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, if all of the following conditions are met:

(a) The property is sold or leased to another local governmental agency, or to a nonprofit corporation that is organized for the purpose of assisting one or more local governmental agencies in obtaining financing.

(b) (1) In the case of the sale of school district property pursuant to this section, the school district, as part of that same sale transaction, simultaneously repurchases the same property that is the subject of the transaction.

(2) In the case of the lease of school district property pursuant to this section, the school district, as part of that same lease transaction, simultaneously leases back, for a term that is not substantially less

than the term of that lease, the same property that is the subject of the transaction.

(c) The financing proceeds obtained by the school district pursuant to the transaction described in this section are expended solely for capital outlay purposes, including the acquisition of real property for intended use as a schoolsite and the construction, reconstruction, and renovation of school facilities.

17457. Notwithstanding any other provision of this part, in connection with a sale, sale back, lease, or leaseback of school district property, no proceeds obtained by the school district from the sale of the sale back or leaseback agreement, or interests therein, or a debt instrument payable from payments under the sale back or leaseback agreement shall be used for general operating purposes of the school district.

17458. (a) Notwithstanding Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, the governing board of any school district complying with Section 101338.2 of Title 22 of the California Administrative Code and seeking to sell or lease any real property it deems to be surplus property may first offer that property for sale or lease to any contracting agency, as defined in Section 8208 of the Education Code, pursuant to the following conditions:

(1) The real property sold or leased shall be used by the contracting agency, or by any successor in interest to the contracting agency, exclusively for the delivery of child care and development services, as defined in Section 8208 of the Education Code, for a period of not less than five years from the date upon which the real property is made available to that agency, or successor in interest, pursuant to the sale, or, in the event of a lease, until the real property is returned to the possession of the school district, whichever occurs earlier.

(2) In the event that the contracting agency, or any successor in interest, fails to comply with the condition set forth in paragraph (1), that agency, or successor in interest, that purchased the real property, is required immediately to offer that real property for sale pursuant to this article and Article 5 (commencing with Section 17485) and to sell the property pursuant to those provisions. The agency, or its successor in interest, shall comply, in that regard, with all requirements under those provisions that would otherwise apply to a school district, except that a sale price computed under subdivision (a) of Section 17491 shall be based upon the cost of acquisition incurred by the school district that sold the property pursuant to this subdivision, rather than that incurred by the contracting agency or its successor in interest. In the event, alternatively, of a lease of real property pursuant to this subdivision, the failure by the contracting agency, or any successor in interest, to comply with paragraph (1) shall constitute a breach of the lease, entitling the school district to immediate possession of the real

property, in addition to any damages to which the district may be entitled under the lease agreement.

(3) The school district, and each of the entities authorized to receive offers of sale pursuant to this article or Article 5 (commencing with Section 17485), has standing to enforce the conditions set forth in this subdivision, and shall be entitled to the payment of reasonable attorneys' fees incurred as a prevailing party in any action or proceeding brought to enforce any of those conditions.

(b) No sale or lease of the real property of any school district, as authorized under subdivision (a), may occur until the school district advisory committee has held hearings pursuant to subdivision (c) of Section 17390.

(c) This section is in addition to, and shall not limit the requirements of, Article 5 (commencing with Section 17485), but this section may be utilized with regard to property which the governing board of a school district may retain under Section 17490.

17459. The sale of real property pursuant to this article shall be subject to the provisions of Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code.

17460. (a) Notwithstanding subdivision (c) of this section or Sections 17456, 17457, and 42133, the West Contra Costa Unified School District, formerly known as the Richmond Unified School District, may enter into an agreement to lease any real property pursuant to Section 17456 and may use the financing proceeds from the agreement to terminate the Lease-Purchase Agreement, dated May 1, 1988, between the Richmond Unified School District Financing Corporation and the Richmond Unified School District. However, any property that has been leased, rented, sold, or otherwise utilized pursuant to Section 41470 may not be leased pursuant to this section.

(b) The West Contra Costa Unified School District shall notify the Controller at the time the district enters into a lease agreement pursuant to subdivision (a). That notice shall set forth a schedule of the rental payments payable under the lease agreement and shall include the name and address of the trustee to whom the right to receive the rental payments has been assigned.

(c) Upon written notification by the trustee that the school district has not made one or more of the rental payments required by the terms of the lease, the Controller shall pay to the trustee from Section A of the State School Fund the defaulted rental payment. That payment by the Controller shall not exceed the amount of any apportionment entitlement of the district to moneys in Section A of the State School Fund, less any payments required in that fiscal year to repay any state loans made to the district. The Controller shall withhold the amount of any payment made under this subdivision, including reimbursement of the Controller's administrative costs as

determined under a schedule approved by the California Debt Advisory Commission, from subsequent apportionments to the West Contra Costa Unified School District from Section A of the State School Fund.

(d) Nothing in this section shall be construed to obligate the state to make any payment to, or on behalf of, the West Contra Costa Unified School District from Section A of the State School Fund in any amount, pursuant to any particular allocation formula, or to make any other payment to, or on behalf of, the district, including, but not limited to, any payment of those rental payments.

(e) Any apportionments made by the Controller pursuant to subdivision (c) shall be deemed to be an allocation to the West Contra Costa Unified School District for purposes of subdivision (b) of Section 8 of Article XVI of the California Constitution, and for purposes of Chapter 2 (commencing with Section 41200) of Part 24.

17461. (a) The governing board of any school district that has, by majority vote, established a standard rate or rates for the lease pursuant to this article of its real property may, by majority vote, delegate to the officer or employee as the governing board may designate, the power to enter into any lease, for and on behalf of the district, of any real property of the school district, with respect to which real property either the district has received only one sealed proposal that conforms with the existing standard rate or rates, from a responsible bidder, and no oral bid that would meet the requirements of Section 17473, or the lease is to be entered into pursuant to Section 17480.

(b) The governing board of any school district may, by majority vote, delegate to such officer or employee as the governing board may designate, the power to enter into any lease, permit, or agreement for the use by the district of buildings or other facilities if the use is to be granted to the district without charge.

17462. The funds derived from the sale of surplus property shall be used for capital outlay or for costs of maintenance of school district property that the governing board of the school district determines will not recur within a five-year period. Proceeds from a lease of school district property with an option to purchase may be deposited into a restricted fund for the routine repair of district facilities, as defined by the State Allocation Board, for up to a five-year period. In addition, the proceeds may be deposited in the general fund of the district for any general fund purpose if the school district governing board and the State Allocation Board have determined that the district has no anticipated need for additional sites or building construction for the five-year period following the sale or lease, and the district has no major deferred maintenance requirements. A school district that sold or leased real property pursuant to Section 17455 and that deposited the interest earned on those proceeds in the general fund of the school district in the 1986–87 or the 1987–88 fiscal years, may continue to deposit the interest into the general fund for

operating expenses through June 30, 1991. In the 1991–92 fiscal year, and each fiscal year thereafter for five fiscal years, the school district shall reduce the deposit of interest by 20 percent and shall use the reduction in interest for capital outlay or for costs of deferred maintenance of school district property. The State Allocation Board may grant a school district permission to change the five-year and 20 percent requirement to 10 years and 10 percent, if the State Allocation Board determines that the individual circumstances of the district warrants the change.

The proceeds may also be deposited into a special reserve fund for capital outlay, for costs of maintenance of school district property that the governing board determines will not recur within a five-year period, or for the future maintenance and renovation of schoolsites if the district governing board and the State Allocation Board have determined that the district has no anticipated need for schoolsites or building construction or major deferred maintenance projects for a five-year period following the sale or lease. Proceeds deposited in the special reserve fund shall not be available for general operating expenses as provided in Section 42842.

17463. Notwithstanding Section 17462, a school district having an average daily attendance of less than 10,001 in any fiscal year may deposit any and all interest earned on the funds derived from the sale in that fiscal year of surplus property into the general fund of the district for any general fund purpose, subject to the following conditions:

(a) Prior to that deposit, the district shall submit to the State Allocation Board a capital outlay plan for the district for a period of five years following that sale, together with a declaration of the finding by the governing board of the school district that the school facilities needs of the district can be met over that five-year period without funding or other assistance from any state school facilities funding program. No later than the date upon which that initial five-year period concludes, the district shall submit to the State Allocation Board a capital outlay plan for the district for the subsequent five-year period.

(b) Prior to the decision to place that interest money into the district's general fund, the governing board of the school district shall consider the extent to which it is necessary or appropriate to expend that money to meet the district's needs relative to capital outlay, facilities, modernization, and deferred maintenance. In addition, as to any interest money deposited into the district's general fund pursuant to this section, the governing board shall consider the extent to which it is necessary or appropriate to expend the money to meet the district's needs relative to ongoing maintenance prior to expending that money for any other purpose.

(c) A school district that deposits interest into its general fund pursuant to the authority set forth in this section shall not be eligible during the 10-year period described in subdivision (a) for funding or

other assistance under Chapter 12 (commencing with Section 17000) or Chapter 14 (commencing with Section 17085) of Part 10, Sections 17582 to 17592, inclusive, or any other state school facilities funding program.

(d) If a school district seeks state funding pursuant to Chapter 22 (commencing with Section 17000), Chapter 14 (commencing with Section 17085) of Part 10, Sections 17582 to 17592, inclusive, or any other state school facilities funding program, on or after the expiration of the 10-year period specified in subdivision (c), any state funding received by the district from the program shall be reduced by any remaining funds derived from the sale of that surplus property by the district and any unencumbered interest earned on those funds.

17464. Except as provided for in Article 2 (commencing with Section 17230) of Chapter 1, the sale or lease with an option to purchase of real property by a school district shall be in accordance with the following priorities and procedures.

(a) First, the property shall be offered for park or recreational purposes pursuant to Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, in any instance in which that article is applicable.

(b) Second, the property shall be offered for sale or lease with an option to purchase, at fair market value in both of the following ways:

(1) In writing, to the Director of General Services, the Regents of the University of California, the Trustees of the California State University, the county and city in which the property is situated, and to any public housing authority in the county in which the property is situated.

(2) By public notice to any public district, public authority, public agency, public corporation, or any other political subdivision in this state, to the federal government, and to nonprofit charitable corporations existing on December 31, 1979, and organized pursuant to Part 3 (commencing with Section 10200) of Division 2 of Title 1 of the Corporations Code then in effect or organized on or after January 1, 1980, as a public benefit corporation under Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code. Public notice shall consist of at least publishing its intention to dispose of the real property in a newspaper of general circulation within the district, or if there is no newspaper of general circulation in the district, then in any newspaper of general circulation that is regularly circulated in the district. The notice shall specify that the property is being made available to all public districts, public authorities, public agencies, and other political subdivisions or public corporations in this state, and to other nonprofit charitable or nonprofit public benefit corporations.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or more often, with at least five days

intervening between the respective publication dates not counting the publication dates, are sufficient. The written notice required by paragraph (1) shall be mailed no later than the date of the second published notice.

The entity desiring to purchase or lease the property shall, within 60 days after the third publication of notice, notify the school district of its intent to purchase or lease the property. If the entity desiring to purchase or lease the property and the district are unable to arrive at a mutually satisfactory price or lease payment during the 60-day period, the property may be disposed of as otherwise provided in this section. In the event the district receives offers from more than one entity pursuant to this subdivision, the school district governing board may determine which of such offers to accept.

(c) Third, the property may be disposed of in any other manner authorized by law.

This section shall become operative January 1, 1988.

17465. (a) As used in this section, the terms "district," "special education local plan area," and "county office" have the same meaning as prescribed by Part 30 (commencing with Section 56000).

(b) The governing board of a school district that adopts a resolution of intent to lease vacant classrooms shall first offer to lease the classrooms for special education programs that are provided by either other districts that comprise part of the special education local plan area in which the leasing district is included or by the county office having jurisdiction over the leasing district, to the pupils of the leasing district, in whole or in part.

(c) Upon adoption of the resolution, the governing board shall notify, in writing, other districts or the county office, as specified in subdivision (b), of its intent to lease vacant classrooms. The notice shall describe the vacant classrooms, shall specify that the lease shall not exceed a term of 99 years and that the lease payment and other terms of the lease are subject to negotiation, and shall state that the offer to lease is valid for no more than 60 days after receipt thereof.

(d) Notwithstanding Section 17466, the governing board may include in its resolution a time for a public meeting of the governing board to be held at its regular place of meeting at which sealed proposals to lease will be received and considered, and, notwithstanding Section 17469, may post copies of the resolution and publish notice of the adoption of the resolution. However, the governing board shall not act on any proposal prior to the first of the following conditions occurring:

(1) Receipt from the county superintendent or the public education agency, as appropriate, of its intent to lease the classrooms or of its intent not to do so.

(2) Expiration of the 60-day period prescribed by subdivision (c).

(e) An entity desiring to lease the vacant classrooms shall, within 60 days from receipt of the notification, inform the governing board, in writing, of its intent to lease or not to lease the classrooms.

(f) (1) The lease payments and other terms of the lease for vacant classrooms leased to other districts or to the county office, as specified in subdivision (b), shall be negotiated by the entity desiring to lease the vacant classrooms and the governing board. Any entity eligible to lease vacant classrooms pursuant to this section and any governing board may negotiate lease payments prior to the availability of the vacant classrooms.

(2) The lease payments shall not exceed the district's actual costs for maintenance, operation, and custodial services for the leased classrooms.

(3) If more than one governing board offers to lease classrooms, the entity desiring to lease such classrooms may elect to negotiate either individually with each district, or jointly, with some or all of such districts. If the entity elects joint negotiations, the lease payments shall not exceed the participating districts' average actual costs for maintenance, operation, and custodial services for the leased classrooms.

(g) If the governing board and the entity desiring to lease the classrooms are unable to complete negotiations for the lease and arrive at a mutually satisfactory lease within the same 60-day period that the entity has to inform the governing board of its intent to lease or not lease, the governing board may lease the classrooms in accordance with the provisions of this article.

(h) If vacant classrooms are available in both operating and nonoperating schools, the governing board, prior to adopting a resolution of intent to lease, shall consider which school would provide the environment least restrictive to the needs of handicapped pupils or individuals with exceptional needs, as appropriate, for whom the county superintendent or public education agency provides special education programs.

17466. Before ordering the sale or lease of any property the governing board, in a regular open meeting, by a two-thirds vote of all its members, shall adopt a resolution, declaring its intention to sell or lease the property, as the case may be. The resolution shall describe the property proposed to be sold or leased in such manner as to identify it and shall specify the minimum price or rental and the terms upon which it will be sold or leased and the commission, or rate thereof, if any, which the board will pay to a licensed real estate broker out of the minimum price or rental. The resolution shall fix a time not less than three weeks thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

17467. In lieu of the declaration of intention to lease real property provided in Section 17466, the governing board of any school district having an average daily attendance of 400,000 or more as shown by the annual report of the county superintendent of schools for the preceding year may publish a notice three times in a period of not less than 15 days in a newspaper of general circulation published in

the district. The notice shall describe the property proposed to be leased in such manner as to identify it and shall specify the minimum rental and terms upon which it will be leased. The notice shall fix a time not less than 15 days thereafter for a public meeting of the governing board to be held at its regular place of meeting at which proposal to lease will be received and considered.

The governing board by majority vote may adopt a ruling delegating to such officer or employee of the district as the board may designate, authority to perform the duties prescribed in this section.

Bids received under this section shall be received, accepted, or rejected in accordance with the provisions of this article.

17468. If, in the discretion of the board, it is advisable to offer to pay a commission to a licensed real estate broker who is instrumental in obtaining any proposal, the commission shall be specified in the resolution. No commission shall be paid unless there is contained in or with the sealed proposal or stated in or with the oral bid, which is finally accepted, the name of the licensed real estate broker to whom it is to be paid, and the amount or rate thereof. Any commission shall, however, be paid only out of money received by the board from the sale or rental of the real property.

17469. Notice of the adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the board or by a majority thereof in three public places in the district, not less than 15 days before the date of the meeting, and by publishing the notice not less than once a week for three successive weeks before the meeting in a newspaper of general circulation published in the county in which the district or any part thereof is situated, if any such newspaper is published therein.

17470. (a) The governing board of a school district that intends to sell real property pursuant to this article shall take reasonable steps to ensure that the former owner from whom the district acquired the property receives notice of the public meeting prescribed by Section 17466, in writing, by certified mail, at least 60 days prior to the meeting.

(b) The governing board of a school district shall not be required to accord the former owner the right to purchase the property at the tentatively accepted highest bid price nor to offer to sell the property to the former owner at the tentatively accepted highest bid price.

17471. Whenever it is proposed to lease real property and the governing board unanimously determines in the resolution that in its opinion, the monthly rental value of the property does not exceed the sum of fifty dollars ($50), the resolution need not be posted and may, before the date of the meeting, be published in two successive issues of a weekly newspaper or in five successive issues of a daily newspaper. The newspaper in which the notice is published shall be one published in the district and having a general circulation there; or if there is no newspaper, then one having a general circulation in the district; or if there is no newspaper, then in one having a general

circulation in a county in which the district or any part thereof is situated.

17472. At the time and place fixed in the resolution for the meeting of the governing body, all sealed proposals which have been received shall, in public session, be opened, examined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to sell or to lease and which are made by responsible bidders, the proposal which is the highest, after deducting therefrom the commission, if any, to be paid a licensed real estate broker in connection therewith, shall be finally accepted, unless a higher oral bid is accepted or the board rejects all bids.

17473. Before accepting any written proposal, the board shall call for oral bids. If, upon the call for oral bidding, any responsible person offers to purchase the property or to lease the property, as the case may be, upon the terms and conditions specified in the resolution, for a price or rental exceeding by at least 5 percent, the highest written proposal, after deducting the commission, if any, to be paid a licensed real estate broker in connection therewith, then the oral bid which is the highest after deducting any commission to be paid a licensed real estate broker, in connection therewith, which is made by a responsible person, shall be finally accepted. Final acceptance shall not be made, however, until the oral bid is reduced to writing and signed by the offeror.

17474. In the event of a sale on a higher oral bid to a purchaser procured by a licensed real estate broker, other than the broker who submitted the highest written proposal, and who is qualified as provided in Section 17468 of this code, the board shall allow a commission on the full amount for which the sale is confirmed. One-half of the commission on the amount of the highest written proposal shall be paid to the broker who submitted it, and the balance of the commission on the purchase price to the broker who procured the purchaser to whom the sale was confirmed.

17475. The final acceptance by the governing body may be made either at the same session or at any adjourned session of the same meeting held within the 10 days next following.

17476. The governing body may at the session, if it deems such action to be for the best public interest, reject any and all bids, either written or oral, and withdraw the property from sale or lease.

17477. (a) (1) If the governing board has complied with the provisions of this article, and no proposals are submitted or the proposals submitted do not conform with all terms and conditions specified in the resolution of intent to lease, the governing board may within one year thereafter, or one year after the passage of 30 days from the rejection of a public entity's nonconforming proposal, as appropriate, lease such real property, together with any personal property located thereon, to any lessee, at a price not less than fair market value in accordance with any terms and conditions agreed

upon by the governing board and the lessee, except that the term of a lease shall not exceed three years. Sections 17461, 17464, and 17466 to 17469, inclusive, and Sections 17471 to 17473, inclusive, shall not apply to the lease.

(2) The governing board may by majority vote delegate an officer or employee of the district, or any other third person, to secure a lessee and to negotiate the terms and conditions of the lease. However, the lease shall not be executed unless the governing board by majority vote, at a public meeting, approves the lease.

(3) If a public entity has submitted a nonconforming proposal, the governing board shall not take any action pursuant to this subdivision until 30 days after the rejection of the proposal.

(b) Subdivision (a) shall not apply if a public entity has submitted a proposal that does not conform with all the terms and conditions specified in the resolution of intent to lease, and if the public entity requests, in writing, within 30 days from the rejection of its proposal, that the governing board lease the real property, subject to the resolution of intent, in accordance with this article.

17478. Any resolution of acceptance of any bid made by the governing body authorizes and directs the president of the governing body, or other presiding officer, or the members thereof, to execute a deed or lease and to deliver it upon performance and compliance by the purchaser or lessee of all the terms or conditions of his or her contract to be performed concurrently therewith.

17479. Nothing in Sections 17455 to 17542, inclusive, shall prevent the governing board of any school district from acquiring, leasing or subleasing property pursuant to Section 1261 of the Military and Veterans Code.

17480. The governing board of any school district may, without complying with any other provision of this article, let in the name of the district any buildings, grounds, or space therein, together with any personal property located thereon, not needed for school classroom buildings upon any terms and conditions as may be agreed upon by the governing board of the district and the lessee thereof for a period not exceeding 30 separate or consecutive calendar days or portions thereof in each fiscal year.

17481. In addition to any other authority to lease real property, the governing board of a school district, by a two-thirds vote of its members, may lease, for a term not exceeding three months, school district property having a residence thereon, which cannot be developed for district purposes because of the unavailability of funds. The lease shall be upon any terms and conditions that the parties thereto may agree and may be entered into without complying with any provisions in this code except as provided in this section.

17482. The governing board of a school district may, with the approval of the county board of supervisors, sell or lease any building of the district together with the site upon which the building is located, without complying with any other provisions of this article,

provided that the county board of supervisors finds that all of the following conditions exist:

(a) The sale or lease is to be made to an incorporated nonprofit tax-exempt community or civic organization with a membership comprised predominantly of persons residing in the community in which the building and site are situated.

(b) The building is not suitable for school purposes.

(c) The building has an historic value and its preservation and utilization for the benefit of the community will best be ensured by sale or lease to an organization specified in subdivision (a).

(d) The sale or lease is to be executed for a consideration to enure to the school district reflecting the fair market value of the property, or its fair rental value, as the case may be, except that the sale may be executed for a consideration that is less than the fair market value of the property if all of the following conditions exist:

(1) More than 50 percent of the buildings on the site have been designated as historically significant by the State Historical Resources Commission.

(2) For a period of 25 years, commencing with the date that possession of the property is transferred, the building or buildings designated pursuant to paragraph (1) shall be used and maintained for public benefit as an historical resource, and the site shall otherwise be available for public access and use, including, but not limited to, park and recreational uses. Any violation of this condition shall result in the automatic reversion of title to the property so transferred, without remuneration, to the transferor school district. The condition set forth in this paragraph does not prohibit any use of the site that is necessary or appropriate to its use and maintenance for historical purposes.

(3) The consideration paid is equal to or greater than the sum of the actual cost of the acquisition of the property by the school district and the actual cost of any capital improvements made to the property.

(e) Adequate provision has been made in connection with the sale or lease transaction to protect the district against all civil liabilities which might arise in connection with any use of the building and site.

17483. The failure to comply with the provisions of this article shall not invalidate the transfer or conveyance of real property to a purchaser or encumbrancer for value.

17484. The governing board of any school district, constituting the governing body of an elementary district, a high school district, or any two of those districts, may sell any building, structure, or other fixture, belonging to one of its respective districts to another district governed by it, for an amount to be fixed by the governing body, without advertisement for or receipt of bids or compliance with any other provisions of this code.

Whenever any property is sold under this section it shall be removed from the premises of the district selling it within 60 days from the date of the sale.

Article 5. Surplus School Playground, Playing Field, and Recreational Property

17485. The Legislature is concerned that school playgrounds, playing fields, and recreational real property will be lost for those uses by the surrounding communities even if those communities in their planning process have assumed that the properties would be permanently available for recreational purposes. It is the intent of the Legislature in enacting this article to allow school districts to recover their investment in surplus property while making it possible for other agencies of government to acquire the property and keep it available for playground, playing field or other outdoor recreational and open-space purposes.

17486. This article shall apply to any schoolsite owned by a school district, which the governing board determines to sell or lease, and with respect to which the following conditions exist:

(a) Either the whole or a portion of the schoolsite consists of land which is used for school playground, playing field, or other outdoor recreational purposes and open-space land particularly suited for recreational purposes.

(b) The land described in subdivision (a) has been used for one or more of the purposes specified therein for at least eight years immediately preceding the date of the governing board's determination to sell or lease the schoolsite.

(c) No other available publicly owned land in the vicinity of the schoolsite is adequate to meet the existing and foreseeable needs of the community for playground, playing field, or other outdoor recreational and open-space purposes, as determined by the governing body of the public agency which proposes to purchase or lease land from the school district, pursuant to Section 17492.

17487. As used in this article, "schoolsite" means a parcel of land, or two or more contiguous parcels, which is owned by a school district. "Governing board" means the governing board of the school district which owns the schoolsite.

17488. The governing board of any school district may sell or lease any schoolsite containing land described in Section 17486, and, if the governing board decides to sell or lease such land, it shall do so in accordance with the provisions of this article.

17489. Notwithstanding Section 54222 of the Government Code, the governing board, prior to selling or leasing any schoolsite containing land described in Section 17486, excluding that portion of a schoolsite retained by the governing board pursuant to Section 17490, shall first offer to sell or lease that portion of the schoolsite consisting of land described in Section 17486, excluding that portion

retained by the governing board pursuant to Section 17490, to the following public agencies in accordance with the following priorities:

(a) First, to any city within which the land may be situated.

(b) Second, to any park or recreation district within which the land may be situated.

(c) Third, to any regional park authority having jurisdiction within the area in which the land is situated.

(d) Fourth, to any county within which the land may be situated.

The governing board shall have discretion to determine whether the offer shall be an offer to sell or an offer to lease.

An entity which proposes to purchase or lease a schoolsite offered by a school district shall notify the district of its intention, in writing, within 60 days after receiving written notification from the district of its offer to sell or lease.

17490. In determining what portion of a schoolsite shall be offered for sale or lease pursuant to this article, the governing board may retain any part of the schoolsite containing structures or buildings, together with such land adjacent thereto which, as determined by the governing board, must be included in order to avoid reducing the value of that part of the schoolsite containing such structures or buildings to less than 50 percent of fair market value.

17491. (a) Except as otherwise provided in subdivision (b) or (e), the price at which land described in Section 17486, excluding that portion of a schoolsite retained by the governing board pursuant to Section 17490, is sold pursuant to this article shall not exceed the school district's cost of acquisition, calculated as a pro rata cost of acquiring the entire parcel comprising the schoolsite, adjusted by a factor equivalent to the percentage increase or decrease in the cost of living from the date of purchase to the year in which the offer of sale is made, plus the cost of any improvement to the recreational and open-space portion of the land which the school district has made since its acquisition of the land. In no event shall the price be less than 25 percent of the fair market value of the land described in Section 17486 or less than the amount necessary to retire the share of local bonded indebtedness plus the amount of the original cost of the approved state aid applications on the property, excluding that portion of a schoolsite retained by the governing board pursuant to Section 17489, at the time of the offer.

These provisions shall apply to land that the school district acquired by gift or for consideration.

(b) A school district that offers a portion of a schoolsite for sale may offer such portion of property for sale at its fair market value, provided the school district offers an equivalent size alternative portion of that schoolsite for school playground, playing field, or other recreational and open-space purposes.

(c) Land which is leased pursuant to this article shall be leased at an annual rate of not more than 1/20th of the maximum sales price determined pursuant to subdivision (a) of this section, adjusted

annually by a factor equivalent to the percentage increase or decrease in the cost of living for the immediately preceding year.

(d) The percentage of annual increase or decrease in the cost of living shall be the amount shown for January 1st of the appropriate year by the then current Bureau of Labor Statistics Consumers Price Index for the area in which the schoolsite is located.

(e) Whenever a school district closes a schoolsite and sells any land described in Section 17486 pursuant to this article to help pay only for capital outlay costs incurred directly as a result of the transfer of pupils from the closed school to another school or other schools of the district, the sale price of the property determined pursuant to subdivision (a) shall be increased by an amount equal to the additional costs incurred due to the school closure.

17492. The governing body of a public agency which proposes to purchase or lease land from a school district pursuant to this article shall first make a finding, approved by a vote of two-thirds of its members, that public lands in the vicinity of the schoolsite are inadequate to meet the existing and foreseeable needs of the community for playground, playing field, or other outdoor recreational and open-space purposes.

17493. (a) No public agency may purchase surplus school property from a school district pursuant to this article unless it has first adopted a plan for the purchase of surplus school property. The plan shall designate the surplus site or sites all or a portion of which the public agency desires to purchase at the price established pursuant to this article and shall designate at least 70 percent of the total surplus school acreage as property which the agency does not desire to purchase at the price established pursuant to this article. Where the plan indicates that the agency desires to purchase only a portion of a schoolsite at the price established pursuant to this article, it shall designate the percent of the property to be so purchased and provide a description of the general location of the property to be purchased, without designating the metes and bounds.

(b) Any property designated by public agencies as surplus schoolsites which the agencies do not wish to purchase, pursuant to subdivision (a), may be sold or leased by a school district without regard to this article.

(c) This section shall become operative on April 1, 1982.

17494. Any land purchased or leased by a public agency pursuant to this article shall thereafter be maintained by such agency for playground, playing field, or other outdoor recreational and open-space uses. Land which prior to its sale or lease was used for playground or playing field purposes, shall continue to be maintained for such use by the acquiring agency, unless the governing body of that agency, by a two-thirds vote at a public hearing, determines that there is no longer a significant need for the land to be so used, in which case the land may thereafter be used for other outdoor recreational or open-space purposes. The school district may, at any

time, reacquire the land at a price calculated in the manner prescribed in Section 17491, and the rights of reacquisition provided in this section shall be set forth in the deed or other instrument of transfer. If the governing board of the public agency determines that the land is no longer needed for playground, playing field, or other outdoor recreational and open-space purposes, the public agency shall offer the property to the school district for reacquisition under this section, and the school district shall notify the public agency within 60 days of its intent to reacquire the land. If the school district intends to sell the property within one year of the reacquisition date, the school district may finance the reacquisition of the land by lien against the proceeds to be obtained from the sale of the land by the school district. If the school district fails to give the public agency timely notice of its intent to reacquire the property, or if it fails to exercise its right of reacquisition, the public agency may use or dispose of the property.

For purposes of this section, "cost of acquisition," as used in Section 17491, shall refer to the cost at which the land was acquired by the public agency.

17495. The sale or lease of land by a school district pursuant to this article shall be subject to, and governed by, the provisions of Article 2 (commencing with Section 17230) of Chapter 1 and Article 4 (commencing with Section 17455), except to the extent that the provisions of this article are inconsistent with a provision or provisions of Article 2 or 4, in which event the provisions of this article shall govern the sale or lease.

17496. Failure by the school district to comply with the provisions of this article shall not invalidate the transfer or conveyance of real property to a purchaser or encumbrancer for value.

17497. Notwithstanding the other provisions of this article, any school district governing board may designate not more than two surplus schoolsites as exempt from the provisions of this article for each planned schoolsite acquisition if the school district has an immediate need for an additional schoolsite and is actively seeking to acquire an additional site, and may exempt not more than one surplus schoolsite if the district is seeking immediate expansion of the classroom capacity of an existing school by 50 percent or more.

The exemption provided for by this section shall be inapplicable to any schoolsite which, under a lease executed on or before July 1, 1974, with a term of 10 years, was leased to a city of under 100,000 population for park purposes, was improved at city expense, and used for public park purposes.

17498. A school district having a schoolsite described in Section 17486 may, as an alternative to sale or lease of the land pursuant to the foregoing provisions of this article, enter into other forms of agreement concerning the disposition of the property with any entity enumerated in Section 17489, in accordance with the priorities therein specified, including, but not limited to each of the following:

(a) An agreement to lease to such entity all or part of the schoolsite for a specified term, with an option to purchase such properties at the end of the term.

(b) An agreement granting to the entity a permanent open-space easement for recreational use over a portion of the leased site.

(c) If the lessee or a grantee under an agreement is an entity having zoning powers, an agreement requiring the entity to rezone any portion of the property retained by the school district in accordance with conditions specified in the agreement, to the extent that rezoning in accordance with the conditions is in compliance with applicable laws of the state.

17499. (a) No more than 30 percent of the total surplus school acreage owned by a school district may be purchased or leased by public agencies pursuant to this article.

(b) The right of any public agency to purchase or lease surplus school property pursuant to this article shall exist only with respect to an amount of surplus school acreage within its jurisdictional boundaries which, when added to the surplus school acreage within its jurisdictional boundaries already purchased or leased pursuant to this article, will not exceed 30 percent of the surplus school acreage owned by the school district which is within the jurisdictional boundaries of that agency.

(c) For purposes of this section, "surplus school acreage" of a school district means property which is owned by a district and not used for school purposes, including, but not limited to, undeveloped property and property which contains school buildings that are not in use as a result of a school closure and which is not subject to any lease or agreement executed on or before July 1, 1974, for a term in excess of six years, in which any city containing a population of less than 100,000 had use of the property for park purposes on January 1, 1981, and had improved the property.

(d) Nothing in this section shall be construed to deny local agencies the opportunity to purchase at full market value all or part of the 70 percent of the total surplus school acreage which is not affected by this article.

17500. This article shall not apply to any school district having more than 400,000 pupils in average daily attendance.

Article 7. Leasing for Production of Gas

17510. The governing board of a school district may, upon complying with this article, enter into and be a party to a community lease to which a city or other public agency and one or more private persons or private agencies are also parties for the leasing of the parcels of lands owned by the district and the other parties for the extraction and taking of gas not associated with oil, on the terms and conditions that the governing board of the district may prescribe.

The lease may be entered into without complying with any provisions of this code except as provided in this article.

17511. The board shall not enter into and be a party to any lease unless the following conditions have been met:

(a) A resolution authorizing that action and prescribing the terms of the lease has been adopted by the unanimous vote of all the members elected or appointed to the board.

(b) The resolution has been published in a newspaper of general circulation published in the district, or if there be no newspaper, in a newspaper having a general circulation in the district, once a week for three weeks prior to the execution of the lease by the board.

17512. No well for the production of gas shall be drilled on any land owned by the district and leased pursuant to this article.

Article 8. Joint Occupancy

17515. Any school district may enter into leases and agreements relating to real property and buildings to be used jointly by the district and any private person, firm, or corporation pursuant to this article. As used in this article, "building" includes onsite and offsite facilities, utilities and improvements that, as agreed upon by the parties, are appropriate for the proper operation or function of the building to be occupied jointly by the district and the private person, firm, or corporation. It also includes the permanent improvement of school grounds.

Any building, or portion thereof, that is used by a private person, firm, or corporation pursuant to this section shall be subject to the zoning and building code requirements of the local jurisdiction in which the building is situated.

Section 53094 of the Government Code shall not be applicable to uses of school district property or buildings authorized by this section, except in the case of property or buildings used solely for educational purposes.

17516. (a) Before the governing board of a school district enters into a lease or agreement pursuant to this article, it shall own a site upon which a building to be used by the district and private person, firm, or corporation may be constructed and shall have complied with the provisions of law relating to the selection and approval of sites.

(b) This section shall not apply to any building to be acquired by purchase pursuant to Article 2 (commencing with Section 17110) of Chapter 16 of Part 10.

17517. The term of any lease or agreement entered into by a school district pursuant to this article shall not exceed 66 years.

17518. The governing board of a school district may let to any private person, firm, or corporation, any real property that belongs to the district if the instrument by which the property is let requires the lessee therein to construct on the demised premises, or provide

for the construction thereon of, a building or buildings for the joint use of the school district and the private person, firm, or corporation during the term of the agreement.

However, title to that portion of the building to be occupied by the private individual, firm, or corporation shall remain exclusively the personal property of the private party during the term of the lease and the title to that portion of the building to be occupied by the district shall vest in the district upon completion thereof and acceptance thereof by the school district. No rental fee or other charge for the use of the building shall be paid by the district.

17519. Any lease of real property by a school district to a private person, firm, or corporation pursuant to this article shall be upon the terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions of this code except as provided in this article. However, any lease or agreement pursuant to this article shall be subject to Article 7 (commencing with Section 35230) of Chapter 2 of Part 21.

17520. Before entering into a lease or agreement pursuant to this article, the governing board of a school district shall comply with Section 17521.

17521. For the purposes of receiving proposals for the joint occupancy of a building to be constructed on school property, the board shall, in a regular open meeting, adopt a resolution declaring its intention to consider the proposals. The resolution shall describe the proposed site on which the building to be jointly occupied is to be constructed in a manner so as to identify the site, shall specify the intended use of that portion of the building that is to be occupied by the district, and shall fix a time not less than 90 days thereafter for a public meeting of the governing board to be held at its regular place of meeting, at which meeting the board shall receive and consider all plans or proposals submitted.

17522. Notice of adoption of the resolution and the time and place of holding the meeting shall be given by publishing the resolution at least once a week for three weeks in a newspaper of general circulation published in the district if there is one, or if none is published in the district, in a newspaper published in the county.

17523. At the time and place fixed in the resolution for the meeting of the governing board, the board shall meet and consider all plans and proposals submitted for the joint occupancy of the building to be constructed on the proposed schoolsite.

17524. (a) After considering all proposals submitted, the governing board of the school district may, subject to Section 17525, select the plan or proposal that best meets the needs of the school district and enter into a contract incorporating that plan or proposal either as submitted or as revised by the governing board of the school district. However, the governing board shall not approve any proposal nor enter into a lease or contract incorporating a proposal until the governing board has submitted the proposal to the State

Board of Education, and the State Board of Education has approved the proposal. The State Board of Education shall, within 45 days of the date of submission, notify the governing board of its approval or disapproval.

(b) The governing board shall require any person, firm, or corporation with whom it enters into a lease or agreement pursuant to this article to file one of the following, as determined by the governing board:

(1) A bond for the performance of the lease or agreement.

(2) An irrevocable letter of credit issued by a state or national bank for the performance of the lease or agreement.

17525. Any building constructed for the use of a school district pursuant to this article is subject to Sections 17280 to 17313, inclusive, and all other provisions of this code relating to the physical structure of school buildings.

17526. The provisions of this article prevail over any provisions of law that conflict therewith.

Article 9. Joint Use

17527. (a) The governing board of any school district may enter into agreements to make vacant classrooms or other space in operating school buildings available for rent or lease to other school districts, educational agencies, except private educational institutions which maintain kindergarten or grades 1 to 12, inclusive, governmental units, nonprofit organizations, community agencies, professional agencies, commercial and noncommercial firms, corporations, partnerships, businesses, and individuals, including during normal school hours if the school is in session.

(b) The governing board shall give first priority in leasing or renting vacant classroom space or other space to educational agencies for conducting special education programs and second priority to other educational agencies.

17528. As used in this article, "building" includes onsite and offsite facilities, utilities, and improvements which, as agreed upon by the parties, are appropriate for the proper operation or function of the building to be jointly occupied and used. It also includes the permanent improvement of school grounds.

17529. Prior to entering into a lease or agreement pursuant to this article, the school district governing board shall determine that the proposed joint occupancy and use of school district property or buildings will not do any of the following:

(a) Interfere with the educational program or activities of any school or class conducted upon the real property or in any building.

(b) Unduly disrupt the residents in the surrounding neighborhood.

(c) Jeopardize the safety of the children of the school.

17530. The governing board of a school district entering into a lease pursuant to this article shall comply with the applicable provisions of Article 4 (commencing with Section 17455).

17531. (a) Except as provided in subdivision (b) of this section and Section 17532, the amount of classroom space leased pursuant to this article in any schoolsite during normal school hours shall not exceed 45 percent of the total classroom space of that school, and in no event shall the leased classroom space in the school district during normal school hours exceed 30 percent of the district's total classroom space in operating schools.

(b) The governing board of a school district may, upon a two-thirds vote, enter into lease agreements which exceed the 45 percent limit per school upon making a finding that the leases are compatible with the educational purpose of the school. The board, however, shall not exceed, pursuant to this subdivision, the 30 percent limit of classroom space for the entire school district.

(c) The provisions of this section shall not apply to agreements for the lease of classroom space entered into by districts on or before March 4, 1981.

17532. The governing board of a school district may lease vacant classroom space the total area of which exceeds the 30 percent districtwide limit of classroom space available pursuant to this article, if a lease is for any day care center, nursery school, or special education class.

17533. A local agency having general planning jurisdiction may require adherence to appropriate zoning ordinances, use permits, construction or safety codes, by a school district seeking to lease a portion of a school building for uses other than public or education-related uses.

17534. (a) Except as provided in subdivision (b), the term of any agreement entered into by a school district pursuant to this article shall not exceed five years.

(b) The provisions of subdivision (a) shall not apply to agreements under or pursuant to which capital outlay improvements are made on school property for park and recreation purposes by public entities and nonprofit corporations.

17535. (a) Except as provided in subdivision (b), no agreement entered into by a school district pursuant to this article shall rent or lease vacant classrooms or other space in operating schools for less than fair market rental for comparable facilities.

(b) A district may enter into an agreement to rent or lease vacant classrooms or other space in operating schools to public entities for less than fair market rental for comparable facilities.

Article 10. Exchange of Property

17536. The governing board of a school district may exchange any of its real property for real property of another person or private

business firm. Any exchange shall be upon such terms and conditions as the parties thereto may agree and may be entered into without complying with any provisions in this code except as provided in this article.

17537. Before ordering any exchange of real property the board shall adopt, by a two-thirds vote of its members, a resolution declaring its intention to exchange the property. The resolution shall describe the properties to be exchanged in a manner to identify them, and the terms and conditions, not including the price, upon which they will be exchanged.

17538. The governing board of any school district which has acquired title to property included within an application which has been approved by the State Allocation Board for state school building aid and which property is to be used as an access roadway to the schoolsite may exchange the property for other property to be used as an access roadway which abuts a state highway, if in the opinion of the Division of Highways in the Department of Transportation there is objection to the first access roadway, and if in the opinion of the governing board the property acquired by the exchange will afford more safety to the pupils of the district.

Article 13. Sale or Lease of Personal Property by One District to Another

17540. The governing board of any school district may sell any personal property or school supplies belonging to the district to the federal government or its agencies, to the state, to any county, city and county, city or special district, or to any other school district or any agency eligible under the federal surplus property law, (40 U.S.C. Sec. 484(j)(3)) and the governing board of another school district may purchase the property, for an amount equal to the cost thereof plus the estimated cost of purchasing, storing, and handling the property, without advertisement for or receipt of bids or compliance with any other provisions of this code. The governing board of any school district may purchase any personal property or school supplies for the purpose of selling them, pursuant to this section.

This section does not authorize the purchase, for the purpose of resale, of standard school supplies and equipment by any elementary school district governed by school trustees.

17541. The provisions of Section 17540 shall be applicable to a sale of personal property from a unified school district whose boundaries are coterminous with a city or city and county to that city or city and county.

17542. The governing board of any school district may sell or lease used personal property belonging to the district to the federal government or its agencies, to the state, to any county, city and county, city or special district, or to any other school district, and the governing board of another school district may purchase or lease the

property. The selling price and the terms of sale, or the lease price and the terms of lease shall be fixed by the governing boards of the school districts effecting the sale or lease, and approved by the county superintendent of schools. The sale or lease may be made without advertisement for or receipt of bids, or compliance with any other provisions of this code.

Article 14. Sale of Personal Property

17545. (a) The governing board of any school district may sell for cash any personal property belonging to the district if the property is not required for school purposes, or if it should be disposed of for the purpose of replacement, or if it is unsatisfactory or not suitable for school use. There shall be no sale until notice has been given by posting in at least three public places in the district for not less than two weeks, or by publication for at least once a week for a period of not less than two weeks in a newspaper published in the district and having a general circulation there. If there is no such newspaper, then in a newspaper having a general circulation in the district; or if there is no newspaper, then in a newspaper having a general circulation in a county in which the district or any part thereof is situated. The board shall sell the property to the highest responsible bidder, or shall reject all bids.

(b) The governing board may choose to conduct any sale of personal property authorized under this section by means of a public auction conducted by employees of the district or other public agencies, or by contract with a private auction firm. The board may delegate to the district employee responsible for conducting the auction the authority to transfer the personal property to the highest responsible bidder upon completion of the auction and after payment has been received by the district.

17546. (a) If the governing board, by a unanimous vote of those members present, finds that the property, whether one or more items, does not exceed in value the sum of two thousand five hundred dollars ($2,500), it may be sold at private sale without advertising, by any employee of the district empowered for that purpose by the board.

(b) Any item or items of property having previously been offered for sale pursuant to Section 17545, but for which no qualified bid was received, may be sold at private sale without advertising by any employee of the district empowered for that purpose by the board.

(c) If the board, by a unanimous vote of those members present, finds that the property is of insufficient value to defray the costs of arranging a sale, the property may be donated to a charitable organization deemed appropriate by the board, or it may be disposed of in the local public dump on order of any employee of the district empowered for that purpose by the board.

17547. The money received from the sale shall be placed to the credit of the fund from which the original expenditure for the purchase of the property was made or in the general or reserve fund of the district.

17548. The governing board of any school district may dispose of personal property belonging to the district for the purpose of replacement by providing in the notice calling for bids for furnishing new materials, articles, or supplies that each bidder shall agree in his or her bid to purchase the property being replaced and to remove it from the school grounds and shall state in his or her bid the amount which he or she will deduct from the price bid for furnishing new materials, articles, or supplies as the purchase price for the personal property being purchased from the district. The board shall let the contract to any responsible bidder whose net bid is the lowest, or shall reject all bids.

17549. The governing board of any school district may enter into contracts with manufacturers or suppliers for the exchange of household appliances and equipment belonging to the district and used for instructional purposes for new property of like class and kind for a similar use without advertising for or taking bids. The cost to the district for the exchange shall not exceed the excess, if any, of the manufacturer's or supplier's selling price of the new property over the original cost to the district of the property being disposed of by the district, plus any applicable tax.

17550. The governing board of any school district may, when calling for bids and letting contracts for constructing new school buildings, or repairing, altering, adding to, or reconstructing existing school buildings, or demolishing existing school buildings, require each bidder for the performance of the work to agree in his or her bid to purchase and to remove from the school grounds all old materials required by the specifications to be removed from any existing school building on the same school grounds and not required for school purposes and to state in his or her bid the amount which he or she will deduct from the price bid for the work as the purchase price of the old materials. The board shall let the contract to any responsible bidder whose net bid is the lowest, or shall reject all bids.

17551. The governing board of a school district may authorize any officer or employee of the district to sell to any pupil personal property of the district which has been fabricated by such pupil, at the cost to the district of the materials furnished by the district and used therein.

17552. The governing board of a school district may sell to persons enrolled in classes for adults maintained by the district any materials that may be necessary for the making of articles by those persons in those classes. The materials shall be sold at not less than the cost thereof to the district and any article made therefrom shall be the property of the person making it.

17553. A school district may, in accordance with regulations adopted by the governing board of the district and for educational use, sell, give, or exchange for similar published materials, published materials prepared by the district in connection with the curricular and special services that the district is authorized to perform. Unless restricted by the regulations of the governing board, the sale or gift may be made to, and the exchange may be made with, any person, political subdivision, public officer or agency, or educational institution. The distribution of the published material in accordance with this section is declared to be a public purpose and in furtherance of Article IX, Section 1, of the Constitution.

A school district may also license the use of copyrights held by the district, to the same persons or entities and for the same purposes as provided in the above paragraph.

The district shall grant a license to any public agency organized under the authority of this state, unless an exclusive license has previously been granted a private publisher.

Any charge which may be assessed a public agency for the license to use the copyright or for materials, to which the district holds the copyright, shall not exceed the cost to the district of the preparation and reproduction of the materials.

Any granting of a license, by a school district, to reproduce copyrighted material is declared to be for a public purpose in furtherance of Article XI, Section 1, of the Constitution.

17554. Notwithstanding any other provision of law, the governing board of any school district owning land upon which agricultural products are grown may enter into agreements with an agricultural cooperative or association for the purpose of maintaining, harvesting or selling the products.

17555. Notwithstanding any other provision of this article, the governing board of any school district may sell or lease any personal property belonging to the district to any private educational institution for use in any summer school which the institution offers in a facility of the district used under a lease or agreement entered into pursuant to Section 17527.

Article 15. Dedication of Real Property

17556. The governing board of any school district may, pursuant to this article, dedicate or convey to the state, or any political subdivision or municipal corporation thereof, for public street or highway purposes, either with or without consideration and without a vote of the electors of the district first being taken, any real property belonging to the district, either in fee or any lesser estate or interest therein, including abutter's right of access to any public street or highway; and may dedicate or convey to any public corporation, or private corporation engaged in the public utility business, without a vote of the electors of the district first being taken, an easement to

lay, construct, reconstruct, maintain, and operate water, sewer, gas, or storm drain pipes or ditches, electric or telephone lines, and access roads used in connection therewith, over and upon any land belonging to the school district, upon such terms and conditions as the parties thereto may agree.

17557. Before ordering the dedication or conveyance of any property the governing board shall in regular open meeting by a two-thirds vote of all its members adopt a resolution declaring its intention to dedicate or convey the property. The resolution shall describe the property proposed to be dedicated or conveyed in such manner as to identify it, and shall specify the purposes for which and the terms upon which it will be dedicated or conveyed, and shall fix a time not less than 10 days thereafter for a public meeting of the governing board to be held at its regular place of meeting for a public hearing upon the question of making the dedication or conveyance.

17558. Notice of adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the members of the board, or by a majority thereof, in three public places in the district not less than 10 days before the date of the meeting, and by publishing the notice once not less than five days before the date of the meeting in a newspaper of general circulation, published in the district, if there is one, or, if there is no such newspaper published in the district, then in a newspaper published in the county in which the district or any part thereof is situated and having a general circulation in the district.

17559. At the time and place fixed in the resolution for the meeting of the governing board the public hearing shall be held, and the governing board may at the meeting, or at any other meeting of the governing board held within 60 days thereafter, unless a protest is entered, adopt a resolution by a two-thirds vote of all its members authorizing and directing the president of the governing board, or any other presiding officer, or the secretary, or the members thereof, to execute a deed of dedication or conveyance of the property and to deliver it. Upon the delivery and acceptance of the deed the dedication or conveyance is fully effective.

17560. A petition protesting against the proposed dedication or conveyance signed by at least 10 percent of the qualified electors of the district, as shown by the affidavit of one of the petitioners, may be filed with the governing board at the meeting held at the time and place fixed in the resolution. If a protest is filed, the governing board shall, before taking any further action on the proposed dedication or conveyance, submit the question of whether the proposed dedication or conveyance should be made, to the superintendent of schools of the county having jurisdiction over the district, whose decision is final. If the superintendent approves the proposed dedication or conveyance, the board may proceed as provided in Section 17559. If the superintendent of schools does not approve the proposed

dedication or conveyance, no further proceedings shall be had thereon.

17561. Whenever school districts are required to improve and dedicate real property to the centerline of streets or highways adjacent to a schoolsite or forming an intersection at a schoolsite location, and when such street or highway rights-of-way are being conveyed to the city or county or by the city or county to the school district, the requirements of this article shall be deemed satisfied solely by posting a notice of intention to convey in an appropriate location before conveyance.

CHAPTER 5. PROPERTY MAINTENANCE AND CONTROL

Article 1. Duties of Governing Board

17565. The governing board of any school district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. The governing board may also insure the property against other perils. The insurance shall be written in any admitted insurer, or in any nonadmitted insurer to the extent and subject to the conditions prescribed in Section 1763 of the Insurance Code. Insurance on property of a district may be, in the discretion of the governing board, of the deductible type of coverage. By deductible type of coverage is meant a form of insurance under which the insurance becomes operative when the loss and damage exceeds an amount stipulated in the policy or policies.

The governing board, in their notice of bid for any school district construction, may indicate that it may elect to assume the cost of fire insurance by adding the coverage to the district's existing policy and in that event bids made on the construction shall be made in the alternative, with and without the fire insurance coverage included, and the governing board shall make its election as to who shall secure and pay for the insurance at the time of accepting the bid.

17566. (a) The governing board of any school district, by resolution, may establish a fund or funds for losses, and payments, including, but not limited to, health and welfare benefits for its employees as defined by Section 53200 of the Government Code, school district property, any liability, and workers' compensation, in the county treasury for the purpose of covering the deductible amount under deductible types of insurance policies, losses or payments arising from self-insurance programs, or losses or payments due to noninsured perils. In the fund or funds shall be placed those sums, to be provided in the budget of the school district, that will create an amount that, together with investments made from the fund or funds, will be sufficient in the judgment of the governing board to protect the school district from those losses or to provide for payments on the deductible amount under deductible types of insurance policies, losses or payments arising from self-insurance

programs, or losses or payments due to noninsured perils. Nothing in this section shall be construed to prohibit the governing board from providing protection against those losses or liability for the payment of claims partly by means of the fund or funds and partly by means of insurance written by acceptable insurers as provided in Section 17565.

The fund or funds shall be considered as separate and apart from all other funds of the school district, and the balance therein shall not be considered to be part of the working cash of the school district in compiling annual budgets.

Warrants may be drawn on or transfers made from the fund or funds so created only to reimburse or indemnify the school district for losses as herein specified, and for the payment of claims, administrative costs, and related services, and to provide for deductible insurance amounts and purchase of excess insurance. The warrants or transfers shall be within the purpose of the fund or funds as established by resolution of the governing board.

The cash placed in the fund or funds may be invested and reinvested by the county treasurer, with the advice and consent of the governing board of the school district, in securities that are legal investments for surplus county funds in this state. The income derived from the investments, together with interest earned on uninvested funds, shall be considered revenue of, and be deposited in, the fund. The cost of contracts or services authorized by this section are appropriate charges against the respective fund.

The governing board may contract for investigative, administrative, and claims adjustment services relating to claims. The contract may provide that the contracting firm may reject, settle, compromise, and approve claims against the district, or its officers or employees, within the limits and for amounts that the governing board may specify, and may provide that the contracting firm may execute and issue checks in payment of those claims, which checks shall be payable only from a trust account that may be established by the governing board. Funds in the trust account established by the board pursuant to this section shall not exceed a sum that is sufficient, as determined by the governing board to provide for the settlement of claims for a 30-day period. The rejection or settlement and approval of a claim by the contracting firm in accordance with the terms of the contract shall have the same effect as would the rejection or settlement and approval of the claim by the governing board.

The contract may also provide that the contracting firm may employ legal counsel, subject to terms and limitations that the board may prescribe, to advise the contracting firm concerning the legality and advisability of rejecting, settling, compromising, and paying claims referred to the contracting firm by the board for investigation and adjustment, or to represent the board in litigation concerning the claims. The compensation and expenses of the attorney for services

rendered to the board shall be an appropriate charge against the appropriate fund.

The contract provided for in this section may contain other terms and conditions that the governing board may consider necessary or desirable to effectuate the board's self-insured programs.

In lieu of, or in addition to, contracting for the services described in this section, the governing board may authorize an employee or employees to perform any or all of the services and functions for which the board may contract under the provisions of this section.

(b) As used in this section:

(1) "Firm" includes a person, corporation, or other legal entity, including a county superintendent of schools.

(2) "Governing boards" includes governing boards of school districts and county superintendents of schools.

(3) "School district" includes a county superintendent of schools who may participate in or administer insurance or self-insurance programs for the county office of education or for one or more school districts.

(c) A county superintendent of schools may participate in or administer insurance for one or more school districts pursuant to this section or for one or more community college districts pursuant to Section 81602, for any combination of school districts and community college districts pursuant to this section and Section 81602.

(d) Prior to funding health and welfare benefits pursuant to this section, the school district shall secure the services of an actuary who is a member of the American Academy of Actuaries to provide actuarial evaluations of the future annual costs of those benefits. The future annual costs as determined by the actuary shall be made public at a public meeting at least two weeks prior to the commencement of funding health and welfare benefits pursuant to this section.

(e) Upon commencing the funding of health and welfare benefits pursuant to this section, the school district shall secure the services of an actuary as described in subdivision (d) to complete, every three years, an actuarial evaluation of the annual costs of those benefits. A copy of the results of that evaluation shall be submitted by the district to the county superintendent of schools.

17567. Nothing in this code shall be construed to prohibit two or more school districts from exercising, through a joint powers agreement made pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, the powers prescribed in Section 17566 in accordance with the terms and conditions set forth in that section and in Section 17565.

17568. In districts situated within or partly within cities having a population of over five hundred thousand (500,000) as determined by the 1920 federal census any board of education may establish a fund in the county treasury for the purpose of covering fire losses to school property in lieu of carrying fire insurance in admitted insurers as provided in Section 17565. In the fund shall be placed sums, to be

provided in the budget of the district, as will create an amount which, together with investments made from the fund, will be sufficient in the judgment of the board of education upon the advice of competent actuaries to protect the board of education against losses by fire on all or any part of the school property within its jurisdiction. Nothing contained herein shall be construed as prohibiting the board of education from providing protection against fire losses partly by means of the fund and partly by means of fire insurance written by admitted insurers as provided in Section 17565.

The fund shall be considered as separate and apart from all other funds of the district and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall be drawn on, or transfers made from, the fund so created only to reimburse or indemnify the school district for losses as herein specified, and for the payment of claims, administrative costs, related services, and to provide for deductible insurance amounts and the purchase of excess insurance. The warrants or transfers shall be within the purpose of the fund as established by resolution of the governing board.

The cash placed in the fund may be invested and reinvested by the county treasurer with the advice and consent of the board of education in securities which are legal investments for surplus county funds in this state. The income derived from such investments together with interest earned on uninvested funds shall be considered revenue of and be deposited in the fund.

The county treasurer shall make quarterly reports to the board of education as to the condition of the fund, using as a basis for the report the cost or market value, whichever may be the lower, of the securities held as investments plus the cash in the fund.

17569. The governing board of any school district may grade, pave, construct sewers, or otherwise improve streets and other public places in front of real property owned or controlled by it, and also may construct in immediate proximity to any school or site owned or controlled by the district, pedestrian tunnels, overpasses, footbridges, sewers and water pipes when required for school or administrative purposes, may acquire property, easements and rights-of-way for such purpose, and may appropriate money to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality.

17570. Any provision to the contrary notwithstanding, the governing board of any school district, other than a city school district with over 50,000 pupils in average daily attendance during the preceding fiscal year, may construct pedestrian walks, footbridges, and pedestrian tunnels when required for the safety of pupils

attending the schools of the district, may acquire easements and rights-of-way for those purposes, and may appropriate money to acquire such easements and rights-of-way and to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality. Pedestrian walks, footbridges, and pedestrian tunnels shall be constructed, and such easements or rights-of-way for those purposes shall be acquired, within one mile of the school for the pupils of which the walks, bridges, and tunnels are necessary.

17571. The governing board of any school district may install and maintain a lighting system in any underpass in the vicinity of a schoolhouse.

17572. The governing board of any school district may appropriate money to pay assessments, for the improvement of streets or other public places, levied against any real property owned by, or under the control of the board, when the property is included within an assessment district formed in pursuance of any general law of the state or under the charter of any municipality. The assessments may be paid out of any funds belonging to the school district, except funds derived from the sale of bonds or required by law to be used for teachers' salaries.

17573. The governing board of every school district shall provide a warm, healthful place in which children who bring their own lunches to school may eat the lunches.

17574. The governing board of a school district may construct a mobilehome site on the grounds of any district facility or facilities maintained by the district, including all necessary appurtenances and fixtures, and may pay the cost of utilities, insurance, and necessary services, for the purpose of enabling a responsible person or persons to install and occupy a mobilehome on such site. Such person or persons, who need not be classified as employees of the district, shall, in return for being permitted to install and occupy a mobilehome on the district facility site on terms and conditions acceptable to the governing board, agree to maintain any surveillance over the facility grounds as the school district governing board requires, and to report to district authorities illegal or suspicious activities that are observed.

17575. The governing board of any school district, when leasing a building for housing of school district employees, may lease such building for any period they deem necessary.

17576. The governing board of every school district shall provide, as an integral part of each school building, or as part of at least one building of a group of separate buildings, sufficient patent flush water closets for the use of the pupils. In school districts where the water

supply is inadequate, chemical water closets may be substituted for patent flush water closets by the board.

This section shall apply to all buildings existing on September 19, 1947, or constructed after such date.

17577. In addition to the other powers granted the governing board of each school district may provide sewers and drains adequate to treat and/or dispose of sewage and drainage on or away from each school property. For this purpose it may construct adequate systems or acquire adequate disposal rights in systems constructed or to be constructed by others for these purposes without regard to their proximity. The cost thereof may be paid from the building fund, including any bond moneys therein.

17578. The governing board of each district maintaining a high school shall provide for the annual cleaning, sterilizing, and necessary repair of football equipment of their respective schools pursuant to Sections 39614 and 39616.

17579. All football equipment actually worn by pupils shall be cleaned and sterilized at least once a year. Football equipment used in spring training shall be cleaned and sterilized before it is used in the succeeding fall term.

17580. Any contract with a dealer or craftsman for the repair of football equipment belonging to the district or the state college shall specifically state or describe the materials to be used by the dealer or craftsman in repairing such equipment.

17581. (a) The Legislature finds and declares that the quality of protective equipment worn by participants in high school interscholastic football is a significant factor in the occurrence of injuries to such participants and that it is therefore necessary to insure minimum standards of quality for the equipment in order to prevent unnecessary injuries to such participants.

(b) No football helmets shall be worn by participants in high school interscholastic football unless the equipment has been certified for use by the National Operating Committee on Standards for Athletic Equipment or any other recognized certifying agency in the field.

This section shall not be construed as relieving school districts from the duty of maintaining football protective equipment in a safe and serviceable condition.

17582. (a) The governing board of each school district may establish a restricted fund to be known as the "district deferred maintenance fund" for the purpose of major repair or replacement of plumbing, heating, air conditioning, electrical, roofing, and floor systems, the exterior and interior painting of school buildings, the inspection, sampling, and analysis of building materials to determine the presence of asbestos-containing materials, the encapsulation or removal of asbestos-containing materials, and any other items of maintenance approved by the State Allocation Board. Funds deposited in the district deferred maintenance fund may be received

from any source whatsoever, and shall be accounted for separately from all other funds and accounts and retained in the district deferred maintenance fund for purposes of this section.

(b) Funds deposited in the district deferred maintenance fund shall only be expended for maintenance purposes as provided pursuant to subdivision (a).

(c) The governing board of each school district shall have complete control over the funds and earnings of funds once deposited in the district deferred maintenance fund, provided that no funds deposited in the district deferred maintenance fund pursuant to subdivision (a) or (b) of Section 17584 may be expended by the governing board for any purpose except those specified in subdivision (a) of this section.

17583. Notwithstanding Section 17582, whenever the state funds provided pursuant to Sections 17584 and 17585 are insufficient to fully match the local funds deposited in the deferred maintenance fund, the governing board of each school district may transfer the excess local funds deposited in that fund to any other expenditure classifications in other funds of the district. A resolution providing for the transfer shall be approved by a two-thirds vote of the governing board members and filed with the county superintendent of schools and the county auditor.

17584. (a) Whenever, in any given fiscal year, a school district has budgeted, exclusive of state matching funds and district funds previously matched pursuant to subdivision (b), in its deferred maintenance fund established pursuant to Section 17582 an amount equal to, or greater than, that amount the district expended from its general fund for major maintenance, repair, or modernization of existing school buildings, as specified in Section 17582, exclusive of categorical aid funds and any proceeds from the sale of district property which were expended for the purpose of the district deferred maintenance account, in either the 1978–79 or 1979–80 fiscal year, adjusted annually to the current fiscal year in conformance with the percentage change in the district revenue limit computed pursuant to Section 42237 or 42238, the Superintendent of Public Instruction shall so certify to the State Allocation Board.

(b) The State Allocation Board shall apportion, from the State School Deferred Maintenance Fund, to school districts an amount equal to one dollar ($1) for each one dollar ($1) of local funds up to a maximum of $^1/_2$ percent of the district's current-year revenue limit average daily attendance multiplied by the average, per unit of average daily attendance, of the total general funds and adult education funds budgeted by districts of similar size and type, as defined in Section 42238.4, for the prior fiscal year, exclusive of any amounts budgeted for capital outlay or debt service, to the extent of funds available pursuant to Chapter 13 (commencing with Section 17080) of Part 10.

(c) Notwithstanding subdivision (a), in order to be eligible to receive state aid pursuant to subdivision (b), no district shall be required to budget from local district funds an amount greater than $^1/_2$ percent of the district's current-year revenue limit average daily attendance, multiplied by the average, per unit of average daily attendance, of the total general funds and adult education funds budgeted by districts of similar size and type, as defined in Section 42238.4 for the prior fiscal year, exclusive of any amounts budgeted for capital outlay or debt service.

17585. (a) School districts may submit applications to the State Allocation Board for deferred maintenance funding in addition to the amounts specified in Section 17584. In order to be eligible for an additional apportionment, a school district shall do all of the following:

(1) Certify that if an additional apportionment is provided, the district will have matched the additional apportionment amount with an equal amount of district funds that have not been previously used as a match for state aid.

(2) Certify an additional claim of not greater than one-half of 1 percent of the district's current-year revenue limit average daily attendance, multiplied by the average, per unit of average daily attendance, of the total general funds and adult education funds budgeted by districts of similar size and type, as defined in Section 42238.4 for the prior fiscal year, excluding any amounts budgeted for capital outlay or debt service, but including adult education funds.

(3) Certify that any additional funds will be used to meet deferred maintenance identified in the district's five-year deferred maintenance plan.

(b) The State Allocation Board shall establish rules and regulations regarding the formulas used to apportion additional funds pursuant to this section.

(c) It is the intent of the Legislature that state funds for deferred maintenance be drawn first from excess bond repayments by school districts, revenues pursuant to subdivision (f) of Section 6217 of the Public Resources Code, and proceeds from existing general obligation bonds.

17586. Notwithstanding any limitations imposed as a result of actions taken by the State Allocation Board pursuant to Section 17462, a school district shall be eligible to receive an apportionment pursuant to subdivision (b) of Section 17584, if it meets all of the following criteria:

(a) There are excess revenues that resulted from the sale of surplus sites upon which there was no encumbrance to the board.

(b) The Superintendent of Public Instruction has verified all of the following:

(1) The district had a fiscal emergency in any one or both of the 1987–88 and 1988–89 fiscal years.

(2) The fiscal emergency was caused primarily by required expenditures.

(3) The district has taken reasonable steps to address the fiscal emergency.

17587. (a) Notwithstanding the limitations of Section 17584, the State Allocation Board may each year reserve an amount not to exceed 10 percent of the funds transferred from any source to the State School Deferred Maintenance Fund for apportionments to school districts, in instances of extreme hardship. The apportionment shall be in addition to the apportionments made pursuant to Section 17584. Not less than one-half of all funds made available by this section shall be apportioned to school districts that had an average daily attendance, excluding summer session attendance, of less than 2,501 during the prior fiscal year.

An extreme hardship shall exist in a school district when the State Allocation Board determines the existence of all of the following:

(1) That the district has deposited in its deferred maintenance fund an amount equal to at least 0.5 percent of the total general funds and adult education funds budgeted by the district for the fiscal year, exclusive of any amounts budgeted for capital outlay or debt service.

(2) That the district has a critical project on its five-year plan which if not completed in one year could result in serious damage to the remainder of the facility or would result in a serious hazard to the health and safety of the pupils attending the facility.

(3) That the total funds deposited by the district and the state pursuant to Section 17584 are insufficient to complete the project.

(b) As a result of the determination made in subdivision (a), the State Allocation Board may increase the apportionment to a school district by the amount it determines necessary to complete the critical project.

(c) Notwithstanding subdivision (a), in any fiscal year in which the State Allocation Board has apportioned all funding from the State School Deferred Maintenance Fund for which school districts have qualified under Section 17584, the board may apportion any amount remaining in that fund for the purposes of this section.

17588. As a result of the determination made in Section 17587, the State Allocation Board may do any of the following:

(a) Increase the apportionment to an eligible school district by the amount it determines necessary to complete the critical project, and require a contribution by the district.

(b) Waive repayment by the district, in whole or in part.

(c) Reduce state apportionments pursuant to Section 17584 in future years to offset the increased apportionment.

The State Allocation Board shall develop and adopt regulations for the application of subdivisions (a), (b), and (c). The regulations may give consideration to a school district's financial resources, ongoing deferred maintenance needs, and the nature of the project for which the hardship apportionment is requested.

The waiver authorized in subdivision (b) may be applied by the board to any repayment otherwise required by law, regardless of apportionment date.
