SEC. 3. Section 17732.1 is added to the Welfare and Institutions Code, to read:

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds that in view of the complexity of the used car industry and in order to ensure a high level of consumer protection, it is essential that applicants for a dealer's license, by those applicants selling used vehicles, possess a general knowledge of the laws that regulate vehicle sales.

(b) It is, therefore, the intent of the Legislature that the Department of Motor Vehicles, in conjunction with the Independent Automobile Dealers Association of California, develop an educational curriculum for applicants for a dealer's license. That curriculum shall be used in the educational program required to be completed by a new applicant for a dealer's license, who will sell used vehicles, prior to the applicant taking a test for a dealer's license.

SEC. 2. Section 426 of the Vehicle Code is amended to read:

426. "New motor vehicle dealer" is a dealer, as defined in Section 285, who, in addition to the requirements of that section, either acquires for resale new and unregistered motor vehicles from manufacturers or distributors of those motor vehicles or acquires for resale new and unregistered off-highway motorcycles from manufacturers or distributors of the vehicles. No distinction shall be made, nor any different construction be given to the definition of "new motor vehicle dealer" and "dealer" except for the application of the provisions of Chapter 6 (commencing with Section 3000) of Division 2 and Section 11704.5 or 11704.6. The provisions of Sections 3001 and 3003 shall not, however, apply to a dealer who deals exclusively in motorcycles.

(2) Motor vehicle financing.

(3) Truth in lending.

(4) Sales and use taxes.

(1) A new motor vehicle dealer or any employee of that dealer.

(2) A person who holds a valid license as a dealer at the time of application.

(3) A person who held a license as a dealer during the 36 months immediately preceding the date of the receipt of the application by the department.

(4) A person who holds a valid license as an automobile dismantler or any employee of that dismantler.

SEC. 4. Section 11704.7 is added to the Vehicle Code, to read:

11704.7. Every person who applies to the department to take or retake the examination required under Section 11704.5 shall pay to the department a fee of sixteen dollars ($16).

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

SEC. 2. It is the intent of the Legislature that the State Department of Health Services, in adopting regulations that would add the Board for Orthotist Certification as an entity by which an orthotist or prosthetist may be certified in order to be eligible to provide Medi-Cal services, consider scope of practice, training, and education, where applicable.

CHAPTER 1010

An act to amend Sections 17321, 17331, and 17331.1 of the Financial Code, relating to escrow agents.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 17321 of the Financial Code is amended to read:

17321. Fidelity Corporation shall bill and collect from each member an annual premium which in the aggregate shall consist of assessments for the operations fund and the fidelity fund.

(a) The annual assessment for the operations fund shall be assessed no later than October 15 of each year for the current fiscal year in accordance with subdivision (b) of Section 17320. The payment of any invoice for assessments under this subdivision is payable by the member escrow agent in three equal and consecutive monthly installments with the first installment payable at or within 30 days after receipt of the Fidelity Corporation invoice. The assessment shall include:

(1) All costs and expenses of administration as budgeted by the board of directors for the current fiscal year.

(2) Any expenses actually incurred in the preceding fiscal year which exceeded the budgeted costs of expenses and administration except for expenses recovered pursuant to subdivision (a) of Section 17321.1.

Each member's assessment shall be determined pro rata based upon the ratio of each member's licensed locations to the total licensed locations of all members as of the preceding June 30.

Members licensed on or after July 1 of each year shall be assessed only for costs and expenses pursuant to paragraph (1) of this subdivision. This assessment shall be prorated on a monthly basis.

(b) The annual assessment for the fidelity fund shall be assessed no later than May 1. The assessment shall be calculated as follows:

(1) If the membership fund and fidelity fund in the aggregate equal an amount less than five million dollars ($5,000,000), then the assessment shall be the greater of: (A) one million dollars ($1,000,000); or (B) the sum of (i) the greater of an amount necessary to bring the membership fund and fidelity fund in the aggregate up to five million dollars ($5,000,000) or the total of all claims paid during the preceding fiscal year (except to the extent of any special assessment made pursuant to subdivision (b) of Section 17321.1) plus (ii) the greater of four hundred thousand dollars ($400,000) or 0.045 percent of the total average trust obligations of all members as reflected in the most recent report required by Section 17348.

(2) If the membership fund and fidelity fund in the aggregate equal an amount that is at least five million dollars ($5,000,000) but less than 1 percent of the total average trust obligations for all members as reflected in the most recent report required by Section 17348 or the fidelity fund equals an amount less than five million dollars ($5,000,000), then the assessment shall be: (A) an amount equal to the total of all claims paid during the preceding fiscal year (except to the extent of any special assessment made pursuant to

subdivision (b) of Section 17321.1); and (B) an amount which is the greater of four hundred thousand dollars ($400,000) or 0.045 percent of the total average trust obligations of all members as reflected in the most recent report required by Section 17348.

(3) If the membership fund and fidelity fund in the aggregate equal 1 percent of the total average trust obligations of all members as reflected in the most recent report required by Section 17348 and the fidelity fund equals at least five million dollars ($5,000,000), then the assessment shall be an amount equal to the actuarial projection of losses for the forthcoming fiscal year.

Each member's fidelity fund assessment for paragraphs (1), (2), and (3) shall be the amount derived by multiplying the amount to be assessed by the ratio that each member's risk factors bear to the total of all members' risk factors.

A member's risk factors shall be computed in accordance with the following formula, except that the total factors of a member shall be reduced by one for each licensed branch location:

Coverage per Licensed Location	Factors
$1,000,000	3
$2,000,000	5
$3,000,000	7
$4,000,000	8
$5,000,000	9

(c) Notwithstanding subdivision (b), the assessment for the fidelity fund for the fiscal year beginning July 1, 1989, shall be made immediately upon 90-day notice of cancellation of the fidelity bond or insurance policy permitted by paragraph (2) of subdivision (c) of Section 17310, but in no event later than 60 days prior to the date of cancellation.

(d) Every licensed member as of March 31 shall pay the fidelity fund assessment, without any pro rata adjustment, notwithstanding that the member may have surrendered a license or have a license revoked prior to the date that the assessment is mailed.

SEC. 2. Section 17331 of the Financial Code is amended to read:

17331. (a) Within 30 days following written notice by Fidelity Corporation to an escrow agent any shareholder, officer, director, trustee, manager, or employee of an escrow agent, directly or indirectly compensated by an escrow agent within this state, shall be required to apply for a Fidelity Corporation Certificate, prepared and issued by Fidelity Corporation, as a condition of their employment or entitlement to compensation, before the person may continue the regular discharge of their duties, or have access to moneys or negotiable securities belonging to or in the possession of

the escrow agent, or draw checks upon the escrow agent or the trust funds of the escrow agent.

(b) Within 60 days of the effective date of this section, each member shall provide Fidelity Corporation with a list of all shareholders, officers, directors, trustees, managers, and employees or other persons, on the form prescribed by Fidelity Corporation.

(c) Fidelity Corporation Certificates may also be known as Escrow Agents' Fidelity Corporation Certificates or EAFC Certificates. The certificate shall at all times remain the property of Fidelity Corporation, and is not transferable by either a member or employee. The certificate shall not be deemed to be, or construed as, a warranty or guarantee by Fidelity Corporation of the integrity, veracity, or competence of the person.

(d) An application for a Fidelity Corporation Certificate shall be in writing and in such form as prescribed by Fidelity Corporation, and may include (1) a fee not to exceed fifty dollars ($50), (2) two passport-size photographs, and (3) a set of fingerprints on the form established by the Department of Justice for requesting state summary criminal history information plus the fee charged by the Department of Justice for processing noncriminal applicant fingerprints. The Department of Justice shall honor the Fidelity Corporation report request form and issue a report to Fidelity Corporation notwithstanding any other provision of law or regulation to the contrary. Fidelity Corporation shall also be entitled to submit a set of fingerprints on the specified noncriminal applicant fingerprint form for the purpose of requesting and obtaining a report from the Department of Justice, for the officers and employees of Fidelity Corporation. Any member shall cause the filing of applications for all existing employees as required by this section within 30 days of written notice by Fidelity Corporation to the member.

(e) The application form shall include a provision for binding arbitration to allow for arbitration of any appeal or dispute as to any decision by Fidelity Corporation concerning the certificate, as follows:

ANY DISPUTE AS TO WHETHER THE DENIAL OF THIS CERTIFICATE APPLICATION IS UNNECESSARY OR UNAUTHORIZED OR WAS IMPROPERLY, NEGLIGENTLY, OR UNLAWFULLY RENDERED, MAY BE DETERMINED BY SUBMISSION TO ARBITRATION AS PROVIDED BY CALIFORNIA LAW, AND NOT BY A LAWSUIT OR RESORT TO COURT PROCESS EXCEPT AS CALIFORNIA LAW PROVIDES FOR JUDICIAL REVIEW OF ARBITRATION PROCEEDINGS OR EXCEPT AS PROVIDED BY SECTION 17331.3 OF THE FINANCIAL CODE. THE APPLICANT MAY, SUBJECT TO AGREEMENT, SUBMIT ANY ISSUE ARISING FROM ANY DECISION BY FIDELITY CORPORATION TO DENY THIS

CERTIFICATE APPLICATION TO BE DECIDED BY BINDING NEUTRAL ARBITRATION. UPON SUCH AGREEMENT, THE APPLICANT HAS NO RIGHTS TO HAVE ANY DISPUTE CONCERNING THIS CERTIFICATE APPLICATION LITIGATED IN A COURT OR JURY TRIAL NOR ANY JUDICIAL RIGHTS TO DISCOVERY AND APPEAL, EXCEPT AS SPECIFICALLY PROVIDED IN THE ESCROW LAW, AND ARBITRATION MAY BE COMPELLED AS PROVIDED BY LAW.

(f) There shall be no liability on the part of and no cause of action of any nature shall arise against Fidelity Corporation or its members, directors, officers, employees, or agents, the State of California, the Department of Corporations, or any officer, agent, or employee of the state or the Department of Corporations for any statements made by Fidelity Corporation in any reports or recommendations made pursuant to this division, or for any reports or recommendations made pursuant to this division to Fidelity Corporation by its members, directors, officers, employees or agents, the State of California, the Department of Corporations, or any officer, agent, or employee of the state or the Department of Corporations, unless the information provided is false and the party making the statement or providing the false information does so with knowledge and malice. Reports or recommendations made pursuant to this section, or Section 17331.1, 17331.2, or 17331.3 shall not be public documents.

(g) There shall be no liability on the part of and no cause of action of any nature shall arise against Fidelity Corporation or its members, directors, officers, employees, or agents, the State of California, the Department of Corporations, or any officer, agent, or employee of the state or the Department of Corporations for the release of any information furnished to Fidelity Corporation pursuant to this section unless the information released is false and the party, including Fidelity Corporation, its members, directors, officers, employees, or agents, the state, the Department of Corporations, or any officer, agent, or employee of the state or the Department of Corporations, who releases the false information does so with knowledge and malice.

(h) There shall be no liability on the part of and no cause of action of any nature shall arise against Fidelity Corporation or its directors, officers, employees, or agents, for any decision to deny an application for a certificate or to suspend or revoke the certificate of any person or for the timing of any decision or the timing of any notice to persons or members thereof, or for any failure to deny an application under subdivision (a) of Section 17331.2. This subdivision does not apply to acts performed in bad faith or with malice.

(i) Fidelity Corporation, any member of Fidelity Corporation, an agent of Fidelity Corporation or of its members, or any person who uses any information obtained under this section for any purpose not authorized by this chapter is guilty of a misdemeanor.

(j) Section 17331, 17331.1, or 17331.2 shall not constitute a restriction or limitation upon the obligation of Fidelity Corporation to indemnify members against loss, as provided in Sections 17310 and 17314. The failure to obtain a certificate, the denial of an application for a certificate, or the suspension, cancellation, or revocation of a certificate shall not limit the obligation of Fidelity Corporation to indemnify a member against loss.

(k) As of January 1, 1992, notwithstanding Section 11105 of the Penal Code, Fidelity Corporation shall be entitled to receive state summary criminal history information and subsequent arrest notification from the Department of Justice as a result of fingerprint cards submitted to the Department of Justice by the Department of Corporations, pursuant to subdivision (g) of Section 17209, Section 17212.1, and subdivision (d) of Section 17414.1, by or on behalf of escrow agents, shareholders, officers, directors, trustees, managers, or employees of an escrow agent, directly or indirectly compensated by an escrow agent. The Department of Justice and Fidelity Corporation shall enter into an agreement to implement this subdivision. The Department of Corporations shall forward to Fidelity Corporation, weekly, a list of names of individual fingerprints submitted to the Department of Justice.

SEC. 3. Section 17331.1 of the Financial Code is amended to read:

17331.1. The person may continue employment until or unless denied a certificate by Fidelity Corporation. The member shall submit all applications for certificates to Fidelity Corporation within 10 business days of the date of employment.

(b) Upon written notice by Fidelity Corporation to any or all members that any person has been denied a certificate, or has had a certificate suspended, canceled, or revoked, no member or person acting on behalf of a member shall authorize that person to have access to money or negotiable securities belonging to or in the possession of the escrow agent, or to draw checks upon the escrow agent or the trust accounts of the escrow agent. Any member or person who commits or who causes a violation of this section, which violation was either known or should have been known by the member or such persons committing or causing the violation, may be subject to action by the commissioner and Fidelity Corporation as provided for in this division.

(c) Each member and each person required to have a certificate shall comply with the Fidelity Corporation rules, to be approved by the commissioner, concerning the manner and timing within which Fidelity Corporation shall receive notice of employment, change of the person's name, mailing address, or employment status, the certificate form, and the procedures for the administration thereof.

Fidelity Corporation may collect a fee to cover the cost of processing the notices but no fee shall exceed twenty-five dollars ($25).

(d) Fidelity Corporation shall assess the member a penalty at the rate of twenty-five dollars ($25) for every day that the member has not fully complied with this section, Section 17331, or Section 17331.2.

(e) Any member that suffers a loss of trust obligations caused by any person who is required to have a certificate but has (1) failed to apply for a certificate, (2) has had the application for a certificate denied, (3) has a suspended certificate, or (4) whose certificate has been revoked shall be obligated to pay a deductible in the amount of ten thousand dollars ($10,000) plus 10 percent of the amount by which the loss exceeds ten thousand dollars ($10,000), notwithstanding the statutory deductible as prescribed by Section 17314.3. Other than as provided for in this subdivision, the failure to obtain a certificate, the denial of an application for a certificate, or the suspension, cancellation, or revocation of a certificate shall not limit the obligation of Fidelity Corporation to indemnify a member against loss of trust obligations as defined in this division.

(b) The Director of Finance shall provide written notification to the chairperson of the appropriate budget and policy committees in each house of the Legislature upon transfer of any funds into the Youth Pilot Program Fund.

(c) Moneys in the fund shall be available for encumbrance until July 1, 2004, at which time all unencumbered moneys in the fund shall revert to the General Fund.

(d) It is the intent of the Legislature to continue the commitment to maximize federal matching funds for state and county programs.

(e) It is the intent of the Legislature that the Youth Pilot Program Fund shall be continuously appropriated only for the purpose of implementing the Youth Pilot Program pursuant to this chapter, and a continuously appropriated fund shall not be used to implement the provisions of this chapter, should they be extended beyond the pilot program.

(f) This section shall remain in effect only until July 1, 2004, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2004, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide timely authority to blend funds for the purpose of integrating services for high-risk children and families, as provided in Section 18987 of the Welfare and Institutions Code, and to avoid adverse impact to the health and safety of the targeted populations, it is necessary that this act take effect immediately.

CHAPTER 1012

An act to amend Section 16946 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 16946 of the Welfare and Institutions Code is amended to read:

16946. (a) The Hospital Services Account portion of each county's allocation pursuant to Sections 16932 and 16941 shall be divided into two amounts by:

(1) Multiplying the Hospital Services Account funding portion by the percentage specified in paragraph (5) of subdivision (c) of Section 16945.

(2) Multiplying the amount of the Hospital Services Account funding portion by the percentage specified in paragraph (6) of subdivision (c) of Section 16945.

(b) The amount of each county's Hospital Services Account funding portion calculated in paragraph (1) of subdivision (a) shall be used for payment or support of services provided on or after July 1, 1989, by noncounty hospitals. Beginning in the 1991–92 fiscal year and annually thereafter, these amounts shall be reduced by dividing each county's amount by the total amount for all counties, multiplied by the sum of twelve million dollars ($12,000,000). This amount for each county shall be further divided into two equal parts, as follows:

(1) (A) The first part shall be allocated to each noncounty hospital within a county in amounts determined by multiplying the percentages specified in paragraph (7) of subdivision (c) of Section 16945 by the amount of the first part, and may be used for payment or support of services provided by noncounty hospitals to any eligible patient treated at any time during the fiscal year of the allocation.

(B) Funds distributed during fiscal years subsequent to the 1989–90 fiscal year shall be accounted for on a quarterly basis.

(C) For the 1989–90 fiscal year, noncounty hospitals shall provide the demographic data specified in paragraph (2) of subdivision (b) of Section 16918 on a minimum of 5 percent of patients for whom services are paid for in whole or in part by funds allocated pursuant to this paragraph, in addition to any other requirements specified in Section 16918.

(D) For the 1990–91 fiscal year and fiscal years thereafter, noncounty hospitals shall provide data pursuant to the reporting requirements specified in Section 16918 and shall provide posted and individual notices pursuant to Section 16818 for the duration of any quarter during which funds allocated pursuant to this paragraph are used.

(E) Amounts calculated pursuant to this paragraph shall not be reduced or utilized to offset the costs of administering the Hospital Services Account.

(2) (A) (i) The remaining 50 percent of the funds from the Hospital Services Account shall be distributed by the county to hospitals, including those under contract with the county, to

maintain access to emergency care and to purchase other necessary hospital services provided during the fiscal year of the allocation.

(ii) In contracting for emergency care with hospitals in neighboring counties, the county shall not impose conditions to accept transfers that it does not impose on hospitals within its own boundaries.

(B) (i) Prior to distributing funds to hospitals, each county shall consult with the hospitals and consider the historic and projected patterns of care provided by hospitals, by geographic catchment areas within both urban and nonurban areas, unique costs associated with treating disproportionate numbers of severely ill indigent patients, and disproportionate losses sustained by hospitals in the provision of care.

(ii) The county shall also consider the patterns of care of its residents provided by Level I trauma care hospitals in contiguous counties and may make proportionate allocations to those trauma centers.

(c) (1) The amount of each county's Hospital Services Account funding portion calculated in paragraph (2) of subdivision (a) may be used for the payment or support of services provided in county hospitals or noncounty hospitals as determined by each county during the fiscal year of the allocation.

(2) Beginning in the 1991–92 fiscal year and annually thereafter, the amount of each county's funding portion calculated pursuant to paragraph (2) of subdivision (a) shall be reduced by an amount that shall be calculated as follows:

(A) Divide each county's amount of funding under paragraph (2) of subdivision (a) by the total amount of funding under that paragraph for all counties.

(B) Multiply the quotient calculated pursuant to subparagraph (A) by the sum of six million dollars ($6,000,000).

(d) As a condition of receiving funds under this section and Section 16932, each county shall require each county and noncounty hospital to do all of the following:

(1) (A) Maintain the same number and classification of emergency room permits and trauma facility designations as existed on January 1, 1990.

(B) (i) Any hospital that maintained two special permits for basic emergency service on the effective date of this part shall be deemed to have met the requirements of paragraph (1) of subdivision (d), if each of the emergency rooms was located on separate campuses of the hospital and was located not more than two miles from the other emergency room.

(ii) Clause (i) shall apply even if one of the emergency room permits is surrendered after the effective date of this part.

(2) Provide data and reports on the use and expenditure of all funds received. This information shall be in a form and according to procedures specified by the county and the department.

(3) Assure that funds received pursuant to this section are used only for services for persons who cannot afford to pay for those services, and for whom payment will not be made through any private coverage or by any program funded in whole or in part by the federal government.

(e) (1) If a county or noncounty hospital does not comply with this section, the county shall recover funds received by the hospital as follows:

(A) For any violation of paragraph (1) of subdivision (d), the county shall recover that portion of the funds received which equal the ratio of the number of months not in compliance to 12 months.

(B) For any violation of paragraph (2) of subdivision (d), the county shall recover all funds received.

(C) For any violation of paragraph (3) of subdivision (d), the county shall recover the difference between the amount received and the amount for which the hospital can document that the funds were used only for services for persons who cannot afford to pay for those services and for whom payment will not be made through any private coverage or by any program funded in whole or in part by the federal government.

(2) The county may deny further payments required by this section until the hospital demonstrates compliance.

(f) Funds withheld or recovered pursuant to this section may be reallocated and distributed by the county pursuant to paragraph (2) of subdivision (b).

(g) (1) Except as provided in paragraph (2), funds allocated pursuant to paragraph (1) or (2) of subdivision (b) which are not expended because a hospital does not participate shall be redistributed pursuant to paragraph (2) of subdivision (b).

(2) If no noncounty hospitals remain to participate, the county may distribute those unexpended funds pursuant to subdivision (c).

(h) (1) In any county that comprises not more than one-half percent of the total state population and in which there are a county hospital and a noncounty hospital with emergency room permits located within two miles of each other, the county hospital may surrender its emergency room permit without any penalty for violation of paragraph (1) of subdivision (d) provided all of the following occur:

(A) The county shall enter into a contractual arrangement with the noncounty hospital.

(B) The county and noncounty hospital shall provide for the availability of at least the same level of emergency services and specialty backup which the county hospital and noncounty hospital provided prior to the surrendering of the emergency room permit.

(C) The county shall establish sufficient capacity, including evening and weekend coverage, in its urgent care clinic and other outpatient clinics to provide for the same or greater level of urgent care and nonemergency visits that were provided in the county

hospital emergency department in the calendar year prior to the surrendering of the emergency room permit.

(D) The county shall provide for adequate initial and ongoing public notification and information, in Spanish and English, on the availability of emergency, urgent care, and nonurgent clinic services and how to obtain those services.

(E) The county ensures that there are adequate Spanish translation services and referral services on a 24-hour basis at the noncounty hospital emergency department, and at the county hospital clinics, during their hours of operation.

(2) The department shall annually review the county's compliance with this subdivision. If the department determines that the county is not in compliance with this subdivision, it shall require the county to recover funds and deny further payments pursuant to subdivision (e) until compliance is resumed.

(3) Any county that is permitted under paragraph (1) to surrender its emergency room permit shall continue to fulfill its duties and obligations to provide indigent care according to Section 17000.

(i) Any county of the 24th class that discontinues the provision of acute inpatient care services may surrender its emergency room permit without any penalty for violation of paragraph (1) of subdivision (d), provided that the county shall enter into a contractual arrangement with at least one noncounty hospital meeting the requirements of subdivision (h) and all of the requirements of subparagraphs (A) to (E), inclusive, of paragraph (1) of subdivision (h) are met by the county and the contracting noncounty hospital, in which case paragraphs (2) and (3) of subdivision (h) shall apply to that county.

CHAPTER 1013

An act to repeal and add Section 2856 of the Civil Code, relating to sureties.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 2856 of the Civil Code is repealed.

SEC. 2. Section 2856 is added to the Civil Code, to read:

2856. (a) Any guarantor or other surety, including a guarantor of a note or other obligation secured by real property or an estate for years, may waive any or all of the following:

(1) The guarantor or other surety's rights of subrogation, reimbursement, indemnification, and contribution and any other

rights and defenses that are or may become available to the guarantor or other surety by reason of Sections 2787 to 2855, inclusive.

(2) Any rights or defenses the guarantor or other surety may have in respect of his or her obligations as a guarantor or other surety by reason of any election of remedies by the creditor.

(3) Any rights or defenses the guarantor or other surety may have because the principal's note or other obligation is secured by real property or an estate for years. These rights or defenses include, but are not limited to, any rights or defenses that are based upon, directly or indirectly, the application of Section 580a, 580b, 580d, or 726 of the Code of Civil Procedure to the principal's note or other obligation.

(b) A contractual provision that expresses an intent to waive any or all of the rights and defenses described in subdivision (a) shall be effective to waive these rights and defenses without regard to the inclusion of any particular language or phrases in the contract to waive any rights and defenses or any references to statutory provisions or judicial decisions.

(c) Without limiting any rights of the creditor or any guarantor or other surety to use any other language to express an intent to waive any or all of the rights and defenses described in paragraphs (2) and (3) of subdivision (a), the following provisions in a contract shall effectively waive all rights and defenses described in paragraphs (2) and (3) of subdivision (a):

> The guarantor waives all rights and defenses that the guarantor may have because the debtor's debt is secured by real property. This means, among other things:
> (1) The creditor may collect from the guarantor without first foreclosing on any real or personal property collateral pledged by the debtor.
> (2) If the creditor forecloses on any real property collateral pledged by the debtor:
> (A) The amount of the debt may be reduced only by the price for which that collateral is sold at the foreclosure sale, even if the collateral is worth more than the sale price.
> (B) The creditor may collect from the guarantor even if the creditor, by foreclosing on the real property collateral, has destroyed any right the guarantor may have to collect from the debtor.
> This is an unconditional and irrevocable waiver of any rights and defenses the guarantor may have because the debtor's debt is secured by real property. These rights and defenses include, but are not limited to, any rights or defenses based upon Section 580a, 580b, 580d, or 726 of the Code of Civil Procedure.

(d) Without limiting any rights of the creditor or any guarantor or other surety to use any other language to express an intent to waive

all rights and defenses of the surety by reason of any election of remedies by the creditor, the following provision shall be effective to waive all rights and defenses the guarantor or other surety may have in respect of his or her obligations as a surety by reason of an election of remedies by the creditor:

> The guarantor waives all rights and defenses arising out of an election of remedies by the creditor, even though that election of remedies, such as a nonjudicial foreclosure with respect to security for a guaranteed obligation, has destroyed the guarantor's rights of subrogation and reimbursement against the principal by the operation of Section 580d of the Code of Civil Procedure or otherwise.

(e) Subdivisions (b), (c), and (d) shall not apply to a guaranty or other type of suretyship obligation made in respect of a loan secured by a deed of trust or mortgage on a dwelling for not more than four families when the dwelling is occupied, entirely or in part, by the borrower and that loan was in fact used to pay all or part of the purchase price of that dwelling.

(f) The validity of a waiver executed before January 1, 1997, shall be determined by the application of the law that existed on the date that the waiver was executed.

SEC. 3. It is the intent of the Legislature that the types of waivers described in Section 2856 of the Civil Code do not violate the public policy of this state. Additionally, the Legislature, by enacting subdivisions (b), (c), and (d) of Section 2856 of the Civil Code, does not intend to address the legal requirements for waivers in a guaranty or other suretyship contract in connection with the types of transactions described in subdivision (e) of Section 2856 of the Civil Code. No inference of any kind should be drawn from the exclusion of these transactions from the application of subdivisions (b), (c), and (d) of Section 2856 of the Civil Code. These amendments are not intended to limit or otherwise affect any rights or protections currently afforded to borrowers under Section 580a, 580b, 580d, or 726 of the Code of Civil Procedure.

CHAPTER 1014

An act to add Section 511 to the Business and Professions Code, to amend Section 1367.10 of, and to add Section 1348.6 to, the Health and Safety Code, and to add Section 10175.5 to the Insurance Code, relating to health coverage.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 511 is added to the Business and Professions Code, to read:

511. (a) No subcontract between a physician and surgeon, physician and surgeon group, or other licensed health care practitioner who contracts with a health care service plan or health insurance carrier, and another physician and surgeon, physician and surgeon group, or licensed health care practitioner, shall contain any incentive plan that includes a specific payment made, in any type or form, to a physician and surgeon, physician and surgeon group, or other licensed health care practitioner as an inducement to deny, reduce, limit, or delay specific, medically necessary, and appropriate services covered under the contract with the health care service plan or health insurance carrier and provided with respect to a specific enrollee or groups of enrollees with similar medical conditions.

(b) Nothing in this section shall be construed to prohibit subcontracts that contain incentive plans that involve general payments such as capitation payments or shared risk agreements that are not tied to specific medical decisions involving specific enrollees or groups of enrollees with similar medical conditions.

SEC. 2. Section 1348.6 is added to the Health and Safety Code, to read:

1348.6. (a) No contract between a health care service plan and a physician, physician group, or other licensed health care practitioner shall contain any incentive plan that includes specific payment made directly, in any type or form, to a physician, physician group, or other licensed health care practitioner as an inducement to deny, reduce, limit, or delay specific, medically necessary, and appropriate services provided with respect to a specific enrollee or groups of enrollees with similar medical conditions.

(b) Nothing in this section shall be construed to prohibit contracts that contain incentive plans that involve general payments, such as capitation payments, or shared-risk arrangements that are not tied to specific medical decisions involving specific enrollees or groups of enrollees with similar medical conditions. The payments rendered or to be rendered to physicians, physician groups, or other licensed health care practitioners under these arrangements shall be deemed confidential information in accordance with subdivision (d) of Section 1351.

SEC. 3. Section 1367.10 of the Health and Safety Code is amended to read:

1367.10. Every health care service plan that will affect the choice of physician, hospital, or other health care providers shall include within its disclosure form and within its evidence or certificate of coverage a statement clearly describing how participation in the plan may affect the choice of physician, hospital, or other health care providers, the basic method of reimbursement, and whether

financial bonuses or incentives are used. The plan shall clearly inform prospective enrollees that participation in that plan will affect the person's choice of provider in this regard by placing the following statement in a conspicuous place on all material required to be given to prospective enrollees including promotional and descriptive material, disclosure forms, and certificates and evidences of coverage:

PLEASE READ THE FOLLOWING INFORMATION SO YOU WILL KNOW FROM WHOM OR WHAT GROUP OF PROVIDERS HEALTH CARE MAY BE OBTAINED

It is not the intent of this section to require that the names of individual health care providers be enumerated to prospective enrollees.

SEC. 3.5. Section 1367.10 of the Health and Safety Code is amended to read:

1367.10. Every health care service plan that will affect the choice of physician, hospital, or other health care providers shall include within its disclosure form and within its evidence or certificate of coverage a statement clearly describing how participation in the plan may affect the choice of physician, hospital, or other health care providers, the basic method of reimbursement, and whether financial bonuses or incentives are used. The plan shall clearly inform prospective enrollees that participation in that plan will affect the person's choice of provider in this regard by placing the following statement in a conspicuous place on all material required to be given to prospective enrollees including promotional and descriptive material, disclosure forms, and certificates and evidences of coverage:

PLEASE READ THE FOLLOWING INFORMATION SO YOU WILL KNOW FROM WHOM OR WHAT GROUP OF PROVIDERS HEALTH CARE MAY BE OBTAINED

It is not the intent of this section to require that the names of individual health care providers be enumerated to prospective enrollees.

If the health care service plan provides a list of providers to patients or contracting providers, the plan shall include within the provider listing a notification that enrollees may contact the plan in order to obtain a list of the facilities with which the health care service plan is contracting for subacute care and/or transitional inpatient care.

SEC. 4. Section 10175.5 is added to the Insurance Code, to read:

10175.5. (a) No disability insurance contract with a physician and surgeon, physician and surgeon group, or other licensed health care practitioner shall contain any incentive plan that includes specific payment made in any type or form, to a physician and

surgeon, physician and surgeon group, or other licensed health care practitioner as an inducement to deny, reduce, limit, or delay specific, medically necessary, and appropriate services provided with respect to specific insureds or groups of insureds with similar medical conditions.

(b) Nothing in this section shall be construed to prohibit payment arrangements that are not tied to specific medical decisions involving specific insureds or group of insureds with similar medical conditions.

SEC. 5. Section 3.5 of this bill incorporates amendments to Section 1367.10 of the Health and Safety Code proposed by both this bill and SB 1547. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1997, (2) each bill amends Section 1367.10 of the Health and Safety Code, and (3) this bill is enacted after SB 1547, in which case Section 3 of this bill shall not become operative.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1015

An act to add Section 11462.06 to the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 11462.06 is added to the Welfare and Institutions Code, to read:

11462.06. (a) For purposes of the administration of this article, including the setting of group home rates, the department shall deem the reasonable costs of affiliated leases for shelter care for foster children to be allowable costs. Reimbursement of shelter costs shall not exceed 12 percent of the fair market value of owned, leased, or rented buildings, exclusive of idle capacity and capacity used for nongroup home programs and activities. Shelter costs shall be

considered reasonable in relation to the fair market value limit as described in subdivision (c). Allowable costs of affiliated leases shall be subject to a review by the Charitable Trust Section of the Department of Justice as specified by Chapter 15 (commencing with Section 999) of Division 1 of Title 11 of the California Code of Regulations.

(b) Effective July 1, 1998, an approval letter from the Charitable Trust Section of the Department of Justice shall be required for approval of shelter costs that result from self-dealing transactions, as defined in Section 5233 of the Corporations Code.

(c) For purposes of this section, fair market value of leased property shall be determined by either of the following methods, as chosen by the provider:

(1) The market value shown on the last tax bill for the cost reporting period.

(2) The market value determined by an independent appraisal. The appraisal shall be performed by a qualified, professional appraiser who, at a minimum, meets standards for appraisers as specified in Chapter 6.5 (commencing with Section 3500) of Title 10 of the California Code of Regulations. The appraisal shall not be deemed independent if performed under a less-than-arms-length agreement, or if performed by a person or persons employed by, or under contract with, the group home for purposes other than performing appraisals, or by a person having a material interest in any group home which receives foster care payments. If the department believes an appraisal does not meet these standards, the department shall give its reasons in writing to the provider and provide an opportunity for appeal.

CHAPTER 1016

An act to amend Section 1529.2 of the Health and Safety Code, relating to community care facilities.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1529.2 of the Health and Safety Code is amended to read:

1529.2. (a) In addition to the foster parent training provided pursuant to Section 903.7 of the Welfare and Institutions Code, foster family agencies shall supplement the community college training by providing a program of training for their certified foster families.

(b) (1) Every licensed foster parent shall complete a minimum of 12 hours of foster parent training, as prescribed in paragraph (3),

before the placement of any foster children with the foster parent. In addition, a foster parent shall complete a minimum of eight hours of foster parent training annually as prescribed in paragraph (4). No child shall be placed in a foster family home unless these requirements are met by the persons in the home who are serving as the foster parents.

(2) (A) Upon the request of the foster parent for a hardship waiver from the postplacement training requirement or a request for an extension of the deadline, the county may, at its option, on a case-by-case basis, waive the postplacement training requirement or extend any established deadline for a period not to exceed one year, if the postplacement training requirement presents a severe and unavoidable obstacle to continuing as a foster parent. Obstacles for which a county may grant a hardship waiver or extension are:

(i) Lack of access to training due to the cost or travel required.

(ii) Family emergency.

(B) Before a waiver or extension may be granted, the foster parent should explore the opportunity of receiving training by video or written materials.

(3) The initial preplacement training shall include, but not be limited to, training courses that cover all of the following:

(A) An overview of the child protective system.

(B) The effects of child abuse and neglect on child development.

(C) Positive discipline and self-esteem.

(D) Health issues in foster care.

(E) Accessing education and health services available to foster children.

(4) The postplacement annual training shall include, but not be limited to, training courses that cover all of the following:

(A) Age-appropriate child development.

(B) Health issues in foster care.

(C) Emancipation and independent living skills if a foster parent is caring for youth.

(5) Foster parent training may be attained through a variety of sources, including community colleges, counties, hospitals, foster parent associations, the California State Foster Parent Association's Conference, adult schools, and certified foster parent instructors.

(6) A candidate for placement of foster children shall submit a certificate of training to document completion of the training requirements. The certificate shall be submitted with the initial consideration for placements and provided at the time of the annual visit by the licensing agency thereafter.

(c) Nothing in this section shall preclude a county from requiring county-provided preplacement or postplacement foster parent training in excess of the requirements in this section.

CHAPTER 1017

An act to add Section 14087.316 to, and to add and repeal Section 14087.315 of, the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 14087.315 is added to the Welfare and Institutions Code, to read:

14087.315. (a) (1) At any time during the three year period described in subdivision (a) of Section 14094.3, the department shall approve, implement, and evaluate a pilot project in Tulare County, if requested by Tulare County, under the jurisdiction of the special commission established pursuant to Section 14087.31 or the contract specified in Section 14087.3, to test alternative managed care models tailored to the special health care needs of children under the California Children's Services Program.

(2) The pilot project shall maintain and follow the standards of care established by the California Children's Services Program, including the use of paneled providers and California Children's Services-approved special care centers and shall follow treatment plans for the California Children's Services Program, including specified services and providers of services pursuant to Section 14094.1, and adhere to all regulations or additional standards developed by the department for implementation of the program under Section 14094.1.

(3) The department shall require the pilot project serving children with conditions eligible under the California Children's Services Program to report expenditures and savings separately for services covered by the California Children's Services Program and children eligible under that program.

(4) The pilot project authorized by this section shall meet all requirements established by the department for California Children's Services Program pilot projects pursuant to Section 14094.3, including, but not limited to, program requirements outlined in the pilot project request for applications and the submission of information or documentation, or both, as required by the department.

(b) (1) The department shall submit to the appropriate committees of the Legislature an evaluation of the pilot project provided for pursuant to subdivision (a), based upon at least one full year of operation.

(2) The evaluation required pursuant to paragraph (1) shall address the impact of the pilot project on outcomes and, in addition, shall assess the extent to which:

(A) All children participating in the pilot project are referred in a timely fashion for appropriate health care.

(B) All children participating in the pilot project have access to coordinated care that includes primary care services in their own community.

(C) California Children's Services Program standards are being adhered to.

(3) The pilot program shall furnish to the department, in a format prescribed by the department, any statistical data or any other information necessary to complete the evaluation required pursuant to paragraph (1).

(c) (1) Prior to implementation of the pilot project provided for pursuant to subdivision (a), the department and the special commission authorized by Section 14087.31 shall agree on an appropriate capitation rate for services covered under the California Children's Services Program that is in compliance with federal and state laws and regulations governing these rates and is cost-neutral to the General Fund. If a capitation rate cannot be agreed upon, the county shall not be required to implement the pilot project provided for pursuant to subdivision (a).

(2) For purposes of this section, services covered by the California Children's Services Program, provided through the Tulare County Children's Services Program pilot program shall be defined as all medically necessary services required to treat the enrollee's condition on which eligibility for the California Children's Services Program is based pursuant to Section 123840 of the Health and Safety Code, and in accordance with all California Children's Services Program standards and guidelines and California Children's Services project requirements established by the department.

(d) The county shall obtain reinsurance to ensure that no child who is eligible to receive California Children's Services Program services will be denied those services.

(e) The special commission authorized by Section 14087.31 shall refer all children newly diagnosed with suspected CCS-eligible conditions to the county CCS program for determination of CCS medical eligibility and for assurance of continuity of services if a child becomes ineligible for Medi-Cal.

(f) This section is not intended to authorize, and shall not be interpreted to permit, any reduction in benefits or eligibility levels under the California Children's Services.

(g) In order to ensure that California Children's Services Program benefits are provided to enrollees with a condition eligible under the California Children's Services Program according to California Children's Services Program standards, in addition to the compliance monitoring and other state or federal oversight required under the

county's Medi-Cal managed care contract, there shall be oversight by the state and local California Children's Services Program for services covered by the contract authorized by this section.

(h) This section shall remain operative only until July 1, 1999, shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 2000, deletes or extends that date.

SEC. 2. Section 14087.316 is added to the Welfare and Institutions Code, to read:

14087.316. (a) In lieu of establishing the special commission authorized by Section 14087.31, the county may, itself, negotiate with the department the contract specified in Section 14087.3 and arrange for the provision of health care services provided pursuant to this chapter. If the county elects to exercise this option, subdivisions (p), (q), (t), (u), (v), (w), (x), and (z), of Section 14087.31 shall apply with equal force and effect to the County of Tulare, its board of supervisors and its members, and any advisory commission and its members appointed by the board of supervisors to assist with the provision of health care services provided pursuant to this section.

(b) The Tulare County Board of Supervisors shall establish and maintain an advisory commission. The advisory commission shall have a membership that includes beneficiaries, representatives of the community clinics, representatives of hospitals, and physicians. Physician membership shall be nominated by the Tulare County Medical Society.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1018

An act to add Section 65584.6 to the Government Code, relating to housing.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) In order to fulfill the purposes of Sections 65583 and 65584, housing should be developed in the jurisdictions to which the housing need is allocated.

(b) Due to circumstances unique to Napa County, and in order to provide additional and new housing for low- and moderate-income households, the county may meet a portion of its fair share housing needs allocation in one or more cities only within the county.

(c) Among the circumstances making it appropriate for Napa County to undertake this authority are both of the following:

(1) The county has 35,000 acres of world-famous vineyards and unincorporated area. The county's tourism industry relies on the vineyards and devotes its significant economic interests on those vineyards.

(2) The county has adopted a Housing Trust Fund program for residential development and a fee on industrial, commercial, and viticultural development in its unincorporated areas. The Housing Trust Fund currently generates approximately five hundred fifty thousand dollars ($550,000) per year to further affordable goals and strategies of the county's general plan, and these moneys can be effectively invested in partnership with the cities in the county in order to address affordable housing needs of county residents.

SEC. 2. Section 65584.6 is added to the Government Code, to read:

65584.6. (a) The County of Napa may, during its current housing element planning period, identified in Section 65588, meet up to 15 percent of its existing share of the regional housing need for lower income households, as defined in Section 65584, by committing funds for the purpose of constructing affordable housing units, and constructing those units in one or more cities within the county, only after all of the following conditions are met:

(1) An agreement has been executed between the county and the receiving city or cities, following a public hearing held by the county.

(2) The council of governments that assigned the county's share approves the request to meet up to 15 percent of the county's fair share housing allocation within one or more of the cities within the county.

(3) The city or cities in which the units are developed agree not to count the units towards their share of the region's affordable housing need.

(4) The county and the receiving city or cities find as follows:

(A) Adequate sites with appropriate zoning exist. The agreement shall demonstrate that the city or cities have identified sufficient sites in their housing elements to meet their existing share of regional housing need, as allocated by the council of governments pursuant

to subdivision (a) of Section 65584, in addition to the sites needed to construct the units pursuant to this section.

(B) If needed, additional subsidy or financing for the construction of the units is available.

(C) The receiving city or cities have housing elements that have been found by the Department of Housing and Community Development to be in compliance with this article.

(b) The county shall only receive credit after the units have been constructed.

(c) Concurrent with the review by the council of governments prescribed by this section, the Department of Housing and Community Development shall evaluate the agreement to determine whether the city or cities are in substantial compliance with this section. If the council of governments or the department fails to satisfy this requirement within 30 days following a request by the county or receiving city or cities, the agreement shall be deemed approved by that entity.

(d) If at the end of the five-year period identified in subdivision (c) of Section 65583, any percentage of the regional share allocation has not been constructed as provided pursuant to subdivision (a), the council of governments shall add the unbuilt units to Napa County's regional share allocation for the planning period of the next periodic update of the housing element.

(e) Napa County shall not meet a percentage of its share of the regional share pursuant to subdivision (a) on or after June 30, 2004, unless a later enacted statute, that is enacted before June 30, 2004, deletes or extends that date.

SEC. 3. The Legislature finds and declares that, because of the unique circumstances applicable to the County of Napa, as regards the availability of locations for affordable housing within the county, a statute of general applicability cannot be enacted within the meaning of subdivision (b) of Section 16 of Article IV of the California Constitution.

CHAPTER 1019

An act to amend Section 647 of the Penal Code, and to add Section 13201.5 to, and to amend and repeal Section 22659.5 of, the Vehicle Code, relating to prostitution.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the "Prostitution Abatement and Neighborhood Protection Act of 1996."

SEC. 2. Section 647 of the Penal Code is amended to read:

647. Every person who commits any of the following acts is guilty of disorderly conduct, a misdemeanor:

(a) Who solicits anyone to engage in or who engages in lewd or dissolute conduct in any public place or in any place open to the public or exposed to public view.

(b) Who solicits or who agrees to engage in or who engages in any act of prostitution. A person agrees to engage in an act of prostitution when, with specific intent to so engage, he or she manifests an acceptance of an offer or solicitation to so engage, regardless of whether the offer or solicitation was made by a person who also possessed the specific intent to engage in prostitution. No agreement to engage in an act of prostitution shall constitute a violation of this subdivision unless some act, in addition to the agreement, is done within this state in furtherance of the commission of an act of prostitution by the person agreeing to engage in that act. As used in this subdivision, "prostitution" includes any lewd act between persons for money or other consideration.

(c) Who accosts other persons in any public place or in any place open to the public for the purpose of begging or soliciting alms.

(d) Who loiters in or about any toilet open to the public for the purpose of engaging in or soliciting any lewd or lascivious or any unlawful act.

(e) Who loiters or wanders upon the streets or from place to place without apparent reason or business and who refuses to identify himself or herself and to account for his or her presence when requested by any peace officer so to do, if the surrounding circumstances would indicate to a reasonable person that the public safety demands this identification.

(f) Who is found in any public place under the influence of intoxicating liquor, any drug, controlled substance, toluene, or any combination of any intoxicating liquor, drug, controlled substance, or toluene, in such a condition that he or she is unable to exercise care for his or her own safety or the safety of others, or by reason of his or her being under the influence of intoxicating liquor, any drug, controlled substance, toluene, or any combination of any intoxicating liquor, drug, or toluene, interferes with or obstructs or prevents the free use of any street, sidewalk, or other public way.

(g) When a person has violated subdivision (f) of this section, a peace officer, if he or she is reasonably able to do so, shall place the person, or cause him or her to be placed, in civil protective custody. The person shall be taken to a facility, designated pursuant to Section 5170 of the Welfare and Institutions Code, for the 72-hour treatment and evaluation of inebriates. A peace officer may place a person in civil protective custody with that kind and degree of force which would be lawful were he or she effecting an arrest for a misdemeanor without a warrant. No person who has been placed in civil protective custody shall thereafter be subject to any criminal prosecution or

juvenile court proceeding based on the facts giving rise to this placement. This subdivision shall not apply to the following persons:

(1) Any person who is under the influence of any drug, or under the combined influence of intoxicating liquor and any drug.

(2) Any person who a peace officer has probable cause to believe has committed any felony, or who has committed any misdemeanor in addition to subdivision (f) of this section.

(3) Any person who a peace officer in good faith believes will attempt escape or will be unreasonably difficult for medical personnel to control.

(h) Who loiters, prowls, or wanders upon the private property of another, at any time, without visible or lawful business with the owner or occupant. As used in this subdivision, "loiter" means to delay or linger without a lawful purpose for being on the property and for the purpose of committing a crime as opportunity may be discovered.

(i) Who, while loitering, prowling, or wandering upon the private property of another, at any time, peeks in the door or window of any inhabited building or structure, without visible or lawful business with the owner or occupant.

(j) Who lodges in any building, structure, vehicle, or place, whether public or private, without the permission of the owner or person entitled to the possession or in control of it.

(k) Anyone who looks through a hole into a bathroom with the intent to invade the privacy of persons inside.

In any accusatory pleading charging a violation of subdivision (b), if the defendant has been once previously convicted of a violation of that subdivision, the previous conviction shall be charged in the accusatory pleading. If the previous conviction is found to be true by the jury, upon a jury trial, or by the court, upon a court trial, or is admitted by the defendant, the defendant shall be imprisoned in a county jail for a period of not less than 45 days and shall not be eligible for release upon completion of sentence, on probation, on parole, on work furlough or work release, or on any other basis until he or she has served a period of not less than 45 days in a county jail. In all cases in which probation is granted, the court shall require as a condition thereof that the person be confined in a county jail for at least 45 days. In no event does the court have the power to absolve a person who violates this subdivision from the obligation of spending at least 45 days in confinement in a county jail.

In any accusatory pleading charging a violation of subdivision (b), if the defendant has been previously convicted two or more times of a violation of that subdivision, each such previous conviction shall be charged in the accusatory pleading. If two or more of these previous convictions are found to be true by the jury, upon a jury trial, or by the court, upon a court trial, or are admitted by the defendant, the defendant shall be imprisoned in a county jail for a period of not less than 90 days and shall not be eligible for release upon completion of

sentence, on probation, on parole, on work furlough or work release, or on any other basis until he or she has served a period of not less than 90 days in a county jail. In all cases in which probation is granted, the court shall require as a condition thereof that the person be confined in a county jail for at least 90 days. In no event does the court have the power to absolve a person who violates this subdivision from the obligation of spending at least 90 days in confinement in a county jail.

In addition to any punishment prescribed by this section, a court may suspend, for not more than 30 days, the privilege of the person to operate a motor vehicle pursuant to Section 13201.5 of the Vehicle Code for any violation of subdivision (b) that was committed within 1,000 feet of a private residence and with the use of a vehicle.

SEC. 2.5. Section 647 of the Penal Code is amended to read:

647. Every person who commits any of the following acts is guilty of disorderly conduct, a misdemeanor:

(a) Who solicits anyone to engage in or who engages in lewd or dissolute conduct in any public place or in any place open to the public or exposed to public view.

(b) Who solicits or who agrees to engage in or who engages in any act of prostitution. A person agrees to engage in an act of prostitution when, with specific intent to so engage, he or she manifests an acceptance of an offer or solicitation to so engage, regardless of whether the offer or solicitation was made by a person who also possessed the specific intent to engage in prostitution. No agreement to engage in an act of prostitution shall constitute a violation of this subdivision unless some act, in addition to the agreement, is done within this state in furtherance of the commission of an act of prostitution by the person agreeing to engage in that act. As used in this subdivision, "prostitution" includes any lewd act between persons for money or other consideration.

(c) Who accosts other persons in any public place or in any place open to the public for the purpose of begging or soliciting alms.

(d) Who loiters in or about any toilet open to the public for the purpose of engaging in or soliciting any lewd or lascivious or any unlawful act.

(e) Who loiters or wanders upon the streets or from place to place without apparent reason or business and who refuses to identify himself or herself and to account for his or her presence when requested by any peace officer so to do, if the surrounding circumstances would indicate to a reasonable person that the public safety demands this identification.

(f) Who is found in any public place under the influence of intoxicating liquor, any drug, controlled substance, toluene, or any combination of any intoxicating liquor, drug, controlled substance, or toluene, in such a condition that he or she is unable to exercise care for his or her own safety or the safety of others, or by reason of his or her being under the influence of intoxicating liquor, any drug, controlled substance, toluene, or any combination of any intoxicating

liquor, drug, or toluene, interferes with or obstructs or prevents the free use of any street, sidewalk, or other public way.

(g) When a person has violated subdivision (f) of this section, a peace officer, if he or she is reasonably able to do so, shall place the person, or cause him or her to be placed, in civil protective custody. The person shall be taken to a facility, designated pursuant to Section 5170 of the Welfare and Institutions Code, for the 72-hour treatment and evaluation of inebriates. A peace officer may place a person in civil protective custody with that kind and degree of force which would be lawful were he or she effecting an arrest for a misdemeanor without a warrant. No person who has been placed in civil protective custody shall thereafter be subject to any criminal prosecution or juvenile court proceeding based on the facts giving rise to this placement. This subdivision shall not apply to the following persons:

(1) Any person who is under the influence of any drug, or under the combined influence of intoxicating liquor and any drug.

(2) Any person who a peace officer has probable cause to believe has committed any felony, or who has committed any misdemeanor in addition to subdivision (f) of this section.

(3) Any person who a peace officer in good faith believes will attempt escape or will be unreasonably difficult for medical personnel to control.

(h) Who loiters, prowls, or wanders upon the private property of another, at any time, without visible or lawful business with the owner or occupant. (j) Who lodges in any building, structure, vehicle, or place, whether public or private, without the permission of the owner or person entitled to the possession or in control of it.

(k) Anyone who looks through a hole or opening into, or otherwise views, by means of any instrumentality, including, but limited to, a periscope, telescope, binoculars, camera, or camcorder, the interior of a bathroom, changing room, fitting room, dressing room, or tanning booth, or the interior of any other area in which the occupant has a reasonable expectation of privacy, with the intent to invade the privacy of a person or persons inside.

In any accusatory pleading charging a violation of subdivision (b), if the defendant has been once previously convicted of a violation of that subdivision, the previous conviction shall be charged in the accusatory pleading. If the previous conviction is found to be true by the jury, upon a jury trial, or by the court, upon a court trial, or is admitted by the defendant, the defendant shall be imprisoned in a

county jail for a period of not less than 45 days and shall not be eligible for release upon completion of sentence, on probation, on parole, on work furlough or work release, or on any other basis until he or she has served a period of not less than 45 days in a county jail. In all cases in which probation is granted, the court shall require as a condition thereof that the person be confined in a county jail for at least 45 days. In no event does the court have the power to absolve a person who violates this subdivision from the obligation of spending at least 45 days in confinement in a county jail.

In any accusatory pleading charging a violation of subdivision (b), if the defendant has been previously convicted two or more times of a violation of that subdivision, each such previous conviction shall be charged in the accusatory pleading. If two or more of these previous convictions are found to be true by the jury, upon a jury trial, or by the court, upon a court trial, or are admitted by the defendant, the defendant shall be imprisoned in a county jail for a period of not less than 90 days and shall not be eligible for release upon completion of sentence, on probation, on parole, on work furlough or work release, or on any other basis until he or she has served a period of not less than 90 days in a county jail. In all cases in which probation is granted, the court shall require as a condition thereof that the person be confined in a county jail for at least 90 days. In no event does the court have the power to absolve a person who violates this subdivision from the obligation of spending at least 90 days in confinement in a county jail.

In addition to any punishment prescribed by this section, a court may suspend, for not more than 30 days, the privilege of the person to operate a motor vehicle pursuant to Section 13201.5 of the Vehicle Code for any violation of subdivision (b) that was committed within 1,000 feet of a private residence and with the use of a vehicle.

SEC. 3. Section 13201.5 is added to the Vehicle Code, to read:

13201.5. A court may suspend, for not more than 30 days, the privilege of any person to operate a motor vehicle upon conviction of subdivision (b) of Section 647 of the Penal Code where the violation was committed within 1,000 feet of a private residence and with the use of a vehicle.

SEC. 4. Section 22659.5 of the Vehicle Code is amended to read:

22659.5. (a) Notwithstanding any other provision of law, the County of Alameda, any city in that county, the County of Contra Costa, any city in that county, the County of Kern, any city in that county, the County of San Diego, any city in that county, the County of Sacramento, any city in that county, the City and County of San Francisco, the City of Signal Hill, the City of Long Beach, and the City of Los Angeles with respect to that portion of that city situated in the San Fernando Valley statistical area, as described in subdivision (c) of Section 11093 of the Government Code, may adopt an ordinance establishing a five-year pilot program which implements procedures for declaring any motor vehicle a public nuisance when the vehicle is used in the commission of an act in violation of Section 266h or 266i

of the Penal Code or subdivision (b) of Section 647 of that code, and there is a conviction of Section 266h or 266i of the Penal Code or subdivision (b) of Section 647 of that code, or a provision involving any lesser included offense to which the defendant enters a plea of guilty or nolo contendere as part of a plea agreement subsequent to the defendant having been charged with a violation of Section 266h or 266i of the Penal Code or subdivision (b) of Section 647 of that code.

(b) In addition to the authority provided by subdivision (h) of Section 22651, the ordinance may also include procedures to enjoin and abate the declared nuisance by ordering the defendant not to use the vehicle again for purposes of violating Section 266h or 266i of the Penal Code or subdivision (b) of Section 647 of that code and authorizing the temporary impoundment of the vehicle that the court has declared a nuisance if the defendant violates the order. The impoundment shall not exceed 48 hours.

(c) The only action that may be taken to enjoin and abate the declared nuisance are those actions specified in subdivision (b).

(d) Any procedures implemented pursuant to this section shall ensure that no vehicle shall be declared a nuisance if the vehicle is stolen, unless it is not possible to reasonably ascertain the identity of any owner of the vehicle.

(e) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted before January 1, 1999, deletes or extends that date.

SEC. 5. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 6. Section 2.5 of this bill incorporates amendments to Section 647 of the Penal Code proposed by both this bill and AB 2051. It shall only become operative if (1) both bills are enacted and become effective on or before January 1, 1997, (2) each bill amends Section 647 of the Penal Code, and (3) this bill is enacted after AB 2051, in which case Section 2 of this bill shall not become operative.

An act to amend Section 30054 of, and to add Section 30055 to, the Government Code, relating to taxation.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 30054 of the Government Code is amended to read:

30054. (a) For the 1993–94, 1994–95, and 1995–96 fiscal years only, the amounts allocated pursuant to Sections 30052 and 30053 shall be available only for public safety services, and shall be allocated in each qualified county to local agencies as provided in subdivision (b).

(b) (1) Each county shall create a Public Safety Augmentation Fund that shall consist of all revenues received by the county as a result of the allocations pursuant to Sections 30052 and 30053.

(2) Except as provided in paragraph (3) or (4), for each of the 1993–94, 1994–95, and 1995–96 fiscal years only, the augmentation fund described in paragraph (1) shall be allocated among the county and each city in the county that provides public safety services as follows:

all cities in the county and from the county to the Educational Revenue Augmentation Fund pursuant to Section 97.3 of the Revenue and Taxation Code for the 1993–94 fiscal year less the amount of vehicle license fee revenues allocated to the county and all cities in the county pursuant to Section 11005.4 of the Revenue and Taxation Code for the 1993–94 fiscal year.

(B) The auditor shall multiply the amount in the augmentation fund by the allocation factor determined in subparagraph (A) for each city.

(C) The allocation factor to be used for each city for the 1993–94 fiscal year shall not result in an allocation that exceeds 50 percent of the difference between the following:

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The property known as the South Spit of Humboldt Bay, including five miles from Table Bluff County Park to the south jetty separating south Humboldt Bay from the Pacific Ocean, contains several species of rare or endangered plants and animals.

(b) Lack of proper management of the South Spit of Humboldt Bay has negatively affected the wetland and dune resources of Humboldt Bay, including essential habitat for migratory water birds and the brant and snowy plover, and has placed at risk valuable cultural resources of the Wiyot people.

(c) Current illegal camping on the South Spit of Humboldt Bay negatively affects natural or cultural activities, such as hiking, sportfishing, hunting, appropriate off-highway vehicle use, Native American gatherings and cultural protection.

(d) Public ownership of the South Spit of Humboldt Bay is desirable to ensure that it is properly managed and its natural and cultural resources can be restored and protected.

(e) Expansion of existing publicly owned wildlife habitat and refuge will enhance wildlife habitat protection, is desirable, and can be most effectively accomplished by engaging in cooperative management with various state and federal agencies.

SEC. 2. Due to the impact of unmanaged public use of the South Spit of Humboldt Bay on its natural and cultural resources, after the removal of any illegal encampment, debris, and other environmental hazards by the current property owners, the State Coastal Conservancy and the Wildlife Conservation Board may acquire the south spit area. The State Coastal Conservancy, in consultation with the Department of Parks and Recreation, the Attorney General, the State Lands Commission, and Humboldt County, may prepare a management plan for the south spit area. It is the intent of the Legislature that the management plan be based on a site that has been cleared of illegal encampments, debris, and other environmental hazards. It is the intent of the Legislature that the management plan be completed and submitted to the Legislature on or before June 30, 1997, and that it include, but not be limited to, the following minimum standards:

(a) The property shall have controlled access.

(b) Rare species of plants and animals shall be protected, and their habitats, including dunes and wetlands, shall be restored where appropriate and feasible.

(c) Access corridors shall be specified.

(d) Cultural resources shall be protected through a cooperative arrangement with the representative of the Wiyot people.

(e) Uses shall be strictly limited and controlled, consistent with habitat requirements, public safety, and maintenance of public facilities, including the public jetty.

(f) Off-highway vehicle use shall be limited to the waveslope on the west side of the South Jetty Road, bounded by Table Bluff County Park to the south and the South Jetty to the north.

(g) Vehicular access on the east side of South Jetty Road shall be limited by special permission only as required for access for hunting, gathering, wildlife management, or traditional uses of the Wiyot people.

(h) Vehicle turnouts and pedestrian access shall be allowed only at designated corridors.

(i) Identification of potential state, local, and federal funding sources necessary to implement the plan.

SEC. 3. There is hereby appropriated from the Public Resources Account in the Cigarette and Tobacco Products Surtax Fund to the State Coastal Conservancy the sum of one hundred thousand dollars ($100,000) for the acquisition of, and planning for, the South Spit of Humboldt Bay pursuant to Section 2 of this act.

SEC. 42. Section 87408.6 of the Education Code is amended to read:

87408.6. (a) Except as provided in subdivision (h), no person shall be initially employed by a community college district in an

academic or classified position unless the person has submitted to an examination within the past 60 days to determine that he or she is free of active tuberculosis, by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code. This examination shall consist of an X-ray of the lungs, or an approved intradermal tuberculin test, that, if positive, shall be followed by an X-ray of the lungs.

The X-ray film may be taken by a competent and qualified X-ray technician if the X-ray film is subsequently interpreted by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

The district superintendent, or his or her designee, may exempt, for a period not to exceed 60 days following termination of the pregnancy, a pregnant employee from the requirement that a positive intradermal tuberculin test be followed by an X-ray of the lungs.

(b) Thereafter, employees who are skin test negative shall be required to undergo the foregoing examination at least once each four years or more often if directed by the governing board upon recommendation of the local health officer for so long as the employee remains skin test negative. Once an employee has a documented positive skin test that has been followed by an X-ray, the foregoing examinations shall no longer be required and referral shall be made within 30 days of completion of the examination to the local health officer to determine the need for followup care.

(c) After the examination, each employee shall cause to be on file with the district superintendent a certificate from the examining physician and surgeon showing the employee was examined and found free from active tuberculosis. "Certificate," as used in this subdivision, means a certificate signed by the examining physician and surgeon or a notice from a public health agency or unit of the American Lung Association that indicates freedom from active tuberculosis. The latter, regardless of form, will constitute evidence of compliance with this section.

(d) This examination is a condition of initial employment and the expense incident thereto shall be borne by the applicant unless otherwise provided by rules of the governing board. However, the board may, if an applicant is accepted for employment, reimburse the person in a like manner prescribed for employees in subdivision (e).

(e) The governing board of each district shall reimburse the employee for the cost, if any, of this examination. The board may provide for the examination required by this section or may establish a reasonable fee for the examination that is reimbursable to employees of the district complying with this section.

(f) At the discretion of the governing board, this section shall not apply to those employees not requiring certification qualifications who are employed for any period of time less than a college year

whose functions do not require frequent or prolonged contact with students.

The governing board may, however, require the examination and may, as a contract condition, require the examination of persons employed under contract, other than those persons specified in subdivision (a), if the board believes the presence of these persons in and around college premises would constitute a health hazard to students.

(g) If the governing board of a community college district determines by resolution, after hearing, that the health of students in the district would not be jeopardized thereby, this section shall not apply to any employee of the district who files an affidavit stating that he or she adheres to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion and that to the best of his or her knowledge and belief he or she is free from active tuberculosis. If at any time there should be probable cause to believe that the affiant is afflicted with active tuberculosis, he or she may be excluded from service until the governing board of the employing district is satisfied that he or she is not so afflicted.

(h) A person who transfers his or her employment from one campus or community college district to another shall be deemed to meet the requirements of subdivision (a) if the person can produce a certificate that shows that he or she was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the college previously employing him or her that it has a certificate on file that contains that showing.

A person who transfers his or her employment from a private or parochial elementary school, secondary school, or nursery school to the community college district subject to this section shall be deemed to meet the requirements of subdivision (a) if the person can produce a certificate as provided for in Section 121525 of the Health and Safety Code that shows that he or she was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him or her that it has the certificate on file.

(i) Any governing board of a community college district providing for the transportation of students under contract shall require as a condition of the contract the examination for active tuberculosis, as provided in subdivision (a) of this section, of all drivers transporting the students, provided that privately contracted drivers who transport the students on an infrequent basis, not to exceed once a month, shall be excluded from this requirement.

(j) Examinations required pursuant to subdivision (i) shall be made available without charge by the local health officer.

SEC. 43. Section 87781 of the Education Code, as amended by Chapter 758 of the Statutes of 1995, is amended to read:

Every academic employee employed five days a week by a community college district shall be entitled to 10 days' leave of absence for illness or injury and any additional days in addition thereto that the governing board may allow for illness or injury, exclusive of all days he or she is not required to render service to the district, with full pay for a college year of service. An employee employed for less than five schooldays a week shall be entitled, for a college year of service, to that proportion of 10 days' leave of absence for illness or injury as the number of days he or she is employed per week bears to five and is entitled to those additional days in addition thereto as the governing board may allow for illness or injury to certificated employees employed for less than five schooldays a week; pay for any day of those absences shall be the same as the pay that would have been received had the employee served during the day. Credit for leave of absence need not be accrued prior to taking leave by the employee and the leave of absence may be taken at any time during the college year. If the employee does not take the full amount of leave allowed in any school year under this section, the amount not taken shall be accumulated from year to year with additional days as the governing board may allow.

The governing board of each community college district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purposes of this section. These rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized church or denomination.

Nothing in this section shall be deemed to modify or repeal any provision in Chapter 3 (commencing with Section 120175) of Part 1 of Division 105 of the Health and Safety Code.

Section 87780 does not apply to the first 10 days of absence on account of illness or accident of any employee employed five days a week or to the proportion of 10 days of absence to which the employee employed less than five days a week is entitled hereunder on account of illness or accident or to additional days granted by the governing board. Any employee shall have the right to utilize sick leave provided for in this section and the benefit provided by Section 87780 for absences necessitated by pregnancy, miscarriage, childbirth, and recovery therefrom.

(b) Prior to adoption of these regulations, the director shall issue administratively a preliminary, nonexhaustive list of materials that are in compliance or not in compliance with subdivision (p) of Section 110815 of the Health and Safety Code based on the listings of permitted materials published by California Certified Organic Farmers, the Organic Foods Production Association of North America, and the Departments of Agriculture of the States of Oregon and Washington.

SEC. 83. Section 7901 of the Government Code is amended to read:

7901. For the purposes of Article XIII B of the California Constitution and this division:

(a) "Change in California per capita personal income" means the number resulting when the quotient of the California personal income, as published by the United States Department of Commerce in the Survey of Current Business for the fourth quarter of a calendar year divided by the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly determined quotient for the next prior year. For example, the change in California per capita personal income for 1979 (to be used for computing the appropriations limit for the 1980–81 fiscal year) would equal the fourth quarter 1979 personal income divided by the January 1, 1980, population, the quotient divided by the fourth quarter 1978 personal income divided by the January 1, 1979, population.

(b) "Change in population" for a local agency for a calendar year means the number resulting when the percentage change in population between January 1 of the next calendar year and January 1 of the calendar year in question, as estimated by the Department of Finance pursuant to Section 2227 of the Revenue and Taxation Code for each city and county and Section 2228 of the Revenue and Taxation Code for each special district, plus 100, is divided by 100. For example, the change in population for 1979 would equal the percentage change in population between January 1, 1980, and January 1, 1979, plus 100, the sum divided by 100. For purposes of the state's appropriations limit, "change in population" means the number resulting when the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly estimated population for January 1 of the calendar year in question. For example, the change in population for 1979 (to be used for computing the appropriations limit for the 1980–81 fiscal year) would equal the January 1, 1980, population divided by the January 1, 1979, population.

A city or special district may choose to use the change in population within its jurisdiction or within the county in which it is located. For a special district located in two or more counties, the special district may choose to use the change in population in the county in which the portion of the district is located which has the highest assessed valuation. Each city and special district shall select its change in population pursuant to this paragraph annually by a recorded vote of the governing body of the city or special district. A charter city and county may choose to use the change in population provided in this paragraph or may choose to use the change in population provided in Section 2 of Chapter 1221 of the Statutes of 1980.

A county may choose to use any one of the following:

(1) The change in population within its jurisdiction.

(2) The change in population within its jurisdiction, combined with the change in population within all counties having borders that are contiguous to that county.

(3) The change in population within the incorporated portion of the county.

(c) "Change in population" for a school district means the change in average daily attendance between the year prior to that for which the appropriations limit is being computed and the year for which the appropriations limit is being computed, using the average daily attendance as defined in Section 7906.

(d) "Change in population" for a community college district means the number resulting when the average daily attendance reported by the community college district for state apportionment funding purposes computed pursuant to Article 2 (commencing with Section 84520) of Chapter 4 of Part 50 of the Education Code is divided by the similarly computed average daily attendance for the previous year.

(e) "Local agency" means a city, county, city and county, special district, authority or other political subdivision of the state, except a school district, community college district, or county superintendent of schools. The term "special district" shall not include any district which (1) existed on January 1, 1978, and did not possess the power to levy a property tax at that time or did not levy or have levied on its behalf, an ad valorem property tax rate on all taxable property in the district on the secured roll in excess of $12^1/_2$ cents per $100 of assessed value for the 1977–78 fiscal year, or (2) existed on January 1, 1978, or was thereafter created by a vote of the people, and is totally funded by revenues other than the proceeds of taxes as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution.

If a special district levied, or had levied on its behalf, different property tax rates for the 1977–78 fiscal year depending on which area or zone within the district boundaries property was located, it shall be deemed not to have levied a secured property tax rate in excess of $12^1/_2$ cents per $100 of assessed value if the total revenue

derived from the ad valorem property tax levied by or for the district for 1977–78, divided by the total amount of taxable assessed valuation within the district's boundaries for 1977–78, does not exceed .00125.

(f) "School district" means an elementary, high school, or unified school district.

(g) "Local jurisdiction" means a local agency, school district, community college district, or county superintendent of schools.

(h) As used in Section 2 and subdivision (b) of Section 3 of Article XIII B, "revenues" means all tax revenues and the proceeds to a local jurisdiction or the state received from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues as described in subdivision (i) of Section 8 of Article XIII B. For a local jurisdiction, revenues and appropriations shall also include subventions, as defined in Section 7903, and with respect to the state, revenues and appropriations shall exclude those subventions.

(i) (1) "Proceeds of taxes" shall not include proceeds to a local jurisdiction or the state from regulatory licenses, user charges, or user fees except to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service.

(2) "Proceeds of taxes" also does not include the proceeds received by a local jurisdiction from a license tax imposed pursuant to Section 25149.5 of the Health and Safety Code or a tax or fee imposed pursuant to Section 25173.5 of the Health and Safety Code on the operation of a hazardous waste facility, or the proceeds received by a local jurisdiction from a surcharge which is collected by a regional disposal facility, as authorized pursuant to Section 115255 of the Health and Safety Code to the extent that these proceeds of the license tax, tax, fee, or surcharge are expended for costs or increased burdens on local jurisdictions which are associated with the hazardous waste facility or regional disposal facility. These costs or burdens include, but are not limited to, general fund expenses, the improvement and maintenance of roads and bridges, fire protection, emergency medical response, law enforcement, air and groundwater monitoring, epidemiological studies, emergency response training, and equipment related to the hosting of the hazardous waste facility or regional disposal facility.

SEC. 84. Section 8607.2 of the Government Code is amended to read:

8607.2. (a) All public water systems, as defined in subdivision (f) of Section 116275 of the Health and Safety Code, with 10,000 or more service connections shall review and revise their disaster preparedness plans in conjunction with related agencies, including, but not limited to, local fire departments and the office to ensure that the plans are sufficient to address possible disaster scenarios. These plans should examine and review pumping station and distribution

facility operations during an emergency, water pressure at both pumping stations and hydrants, and whether there is sufficient water reserve levels and alternative emergency power, including, but not limited to, onsite backup generators and portable generators.

(b) All public water systems, as defined in subdivision (f) of Section 116275 of the Health and Safety Code, with 10,000 or more service connections following a declared state of emergency shall furnish an assessment of their emergency response and recommendations to the Legislature within six months after each disaster, as well as implementing the recommendations in a timely manner.

(c) By December 1, 1996, the Office of Emergency Services shall establish appropriate and insofar as practical, emergency response and recovery plans, including mutual aid plans, in coordination with public water systems, as defined in subdivision (f) of Section 116275 of the Health and Safety Code, with 10,000 or more service connections.

SEC. 85. Section 8610.5 of the Government Code is amended to read:

8610.5. The Public Utilities Commission shall develop and transmit to the Office of Emergency Services an equitable method of assessing the utilities operating the powerplants for their reasonable pro rata share of state agency costs. Each local government involved shall submit a statement of its costs, as required, to the Office of Emergency Services. (h) A coroner shall not be liable for damages in a civil action for any act or omission done in compliance with this section.

(i) No consent of any person is required prior to undertaking the autopsy required by this section. However, if the physician of record certifies the cause of death is sudden infant death syndrome and the parents object to an autopsy on religious or ethical grounds, no autopsy shall be required.

(3) All cease and desist orders issued after January 1, 1986, pursuant to Section 13301 of the Water Code, and all cleanup or abatement orders issued after January 1, 1986, pursuant to Section 13304 of the Water Code, that concern the discharge of wastes that are hazardous materials.

(d) The local enforcement agency, as designated pursuant to Section 18051 of Title 14 of the California Code of Regulations, shall compile as appropriate, but at least annually, and shall submit to the California Integrated Waste Management Board, a list of all solid waste disposal facilities from which there is a known migration of hazardous waste. The California Integrated Waste Management Board shall compile the local lists into a statewide list, which shall be submitted to the Secretary for Environmental Protection and shall be available to any person who requests the information.

(e) The Secretary for Environmental Protection shall consolidate the information submitted pursuant to this section and distribute it in a timely fashion to each city and county in which sites on the lists are located. The secretary shall distribute the information to any other person upon request. The secretary may charge a reasonable fee to persons requesting the information, other than cities, counties, or cities and counties, to cover the cost of developing, maintaining, and reproducing and distributing the information.

(f) Before a lead agency accepts as complete an application for any development project which will be used by any person, the applicant shall consult the lists sent to the appropriate city or county and shall submit a signed statement to the local agency indicating whether the project and any alternatives are located on a site that is included on any of the lists compiled pursuant to this section and shall specify any list. If the site is included on a list, and the list is not specified on the statement, the lead agency shall notify the applicant pursuant to Section 65943. The statement shall read as follows:

(g) The changes made to this section by the act amending this section, that takes effect January 1, 1992, apply only to projects for which applications have not been deemed complete on or before January 1, 1992, pursuant to Section 65943.

SEC. 103. Section 66013 of the Government Code is amended to read:

66013. (a) Notwithstanding any other provision of law, when a local agency imposes fees for water connections or sewer connections, or imposes capacity charges, those fees or charges shall not exceed the estimated reasonable cost of providing the service for which the fee or charge is imposed, unless a question regarding the amount of the fee or charge imposed in excess of the estimated reasonable cost of providing the services or materials is submitted to, and approved by, a popular vote of two-thirds of those electors voting on the issue.

(b) As used in this section:

(1) "Sewer connection" means the connection of a building to a public sewer system.

(2) "Water connection" means the connection of a building to a public water system, as defined in subdivision (f) of Section 116275 of the Health and Safety Code.

(3) "Capacity charges" means charges for facilities in existence at the time the charge is imposed or charges for new facilities to be constructed in the future that are of benefit to the person or property being charged.

(4) "Local agency" means a local agency as defined in Section 66000.

(c) Any judicial action or proceeding to attack, review, set aside, void, or annul the ordinance, resolution, or motion imposing a fee or

capacity charge subject to this section shall be brought pursuant to Section 66022.

SEC. 104. Section 784 of the Harbors and Navigation Code is amended to read:

784. Nothing in this chapter is intended to affect the operation of Section 117505 of the Health and Safety Code. The state board and any regional board may also regulate nonsewage discharges excepting vessel washdown water, liquid galley, shower, or bath waste, or water discharges necessary for the propulsion or stability of a vessel.

SEC. 105. Section 27 of the Health and Safety Code, as added by Chapter 28 of the Statutes of 1995, is amended and renumbered to read:

28. For the purposes of this code, "recycled water" or "reclaimed water" has the same meaning as recycled water as defined in subdivision (n) of Section 13050 of the Water Code.

SEC. 106. Section 113 of the Health and Safety Code, as amended by Chapter 852 of the Statutes of 1995, is amended and renumbered to read:

100425. (a) The fees or charges for the issuance or renewal of any permit, license, registration, or document pursuant to Sections 1639.5, 1676, 1677, 2202, 2805, 11887, 100720, 100860, 106700, 106890, 106925, 107080, 107090, 107095, 107160, 110210, 110470, 111130, 111140, 111630, 112405, 112510, 112750, 112755, 113060, 113065, 113845, 114056, 114065, paragraph (2), of subdivision (c) of Section 114090, 114140, subdivision (b) of Section 114290, 114367, 115035, 115065, 115080, 116205, 117923, 117995, 118045, 118210, and 118245 shall be adjusted annually by the percentage change printed in the Budget Act for those items appropriating funds to the state department. After the first annual adjustment of fees or charges pursuant to this section, the fees or charges subject to subsequent adjustment shall be the fees or charges for the prior calendar year. The percentage change shall be determined by the Department of Finance, and shall include at least the total percentage change in salaries and operating expenses of the state department. However, the total increase in amounts collected under this section shall not exceed the total increased cost of the program or service provided.

(b) The state department shall publish annually a list of the actual numerical fee charges for each permit, license, certification, or registration governed by this section. This adjustment of fees and publication of the fee list shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 107. The heading of Chapter 1.155 (commencing with Section 199.65) of Part 1 of Division 1 of the Health and Safety Code is amended and renumbered to read:

CHAPTER 10.5. AIDS EXPOSURE NOTIFICATION

SEC. 108. Section 199.65 of the Health and Safety Code is amended and renumbered to read:

121130. (a) The Legislature finds and declares all of the following:

(1) Early knowledge of HIV infection is important in order to permit exposed persons to make informed health care decisions as well as to take measures to reduce the likelihood of transmitting the infection to others.

(2) Individual health care providers, agents and employees of health care facilities and individual health care providers, and first responders, including police, firefighters, rescue personnel, and other persons who provide the first response to emergencies, frequently come into contact with the blood and other potentially infectious materials of individuals whose HIV infection status is not known.

(3) Even if these exposed individuals use universal infection control precautions to prevent HIV transmission, there will be occasions when they experience significant exposure to the blood or other potentially infectious materials of patients.

(b) Therefore, it is the intent of the Legislature to provide a narrow exposure notification and information mechanism to permit individual health care providers, the employees or contracted agents of health care facilities and individual health care providers, and first responders, who have experienced a significant exposure to the blood or other potentially infectious materials of a patient, to learn of the HIV infection status of the patient.

SEC. 109. Section 199.66 of the Health and Safety Code is amended and renumbered to read:

121132. (a) "Attending physician of the source patient" means any physician and surgeon licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code and any person licensed pursuant to the Osteopathic Initiative Act, who provides health care services to the source patient. Notwithstanding any other provision of this subdivision to the contrary, the attending physician of the source patient shall include any of the following persons:

(1) The private physician of the source patient.

(2) The physician primarily responsible for the patient who is undergoing inpatient treatment in a hospital.

(3) A registered nurse or licensed nurse practitioner who has been designated by the attending physician of the source patient.

(b) "Available blood or patient sample" means blood or other tissue or material that was legally obtained in the course of providing health care services, and is in the possession of the physician or other health care provider of the source patient prior to the exposure incident.

(c) "Certifying physician" means any physician consulted by the exposed individual for the exposure incident. A certifying physician shall have demonstrated competency and understanding of the then applicable guidelines or standards of the Division of Occupational Safety and Health.

(d) "Exposed individual" means any individual health care provider, first responder, or any other person, including, but not limited to, any employee, volunteer, or contracted agent of any health care provider, who is exposed, within the scope of his or her employment, to the blood or other potentially infectious materials of a source patient.

(e) "Health care provider" means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, any person licensed pursuant to the Osteopathic Initiative Act or the Chiropractic Initiative Act, any person certified pursuant to Division 2.5 (commencing with Section 1797), any clinic, health dispensary, or health facility licensed or exempt from licensure pursuant to Division 2 (commencing with Section 1200), any employee, volunteer, or contracted agent of any group practice prepayment health care service plan regulated pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2), and any professional student of one of the clinics, health dispensaries, or health care facilities or health care providers described in this subdivision.

(f) "First responder" means police, firefighters, rescue personnel, and any other person who provides emergency response, first aid care, or other medically related assistance either in the course of the person's occupational duties or as a volunteer.

(g) "Other potentially infectious materials" means those body fluids identified by the Division of Occupational Safety and Health as potentially capable of transmitting HIV.

(h) "Significant exposure" means direct contact with blood or other potentially infectious materials of a patient in a manner that, according to the then applicable guidelines of the Division of Occupational Safety and Health, is capable of transmitting HIV.

(i) "Source patient" means any person receiving health care services whose blood or other potentially infectious material has been the source of a significant exposure to an exposed individual.

SEC. 110. Section 199.67 of the Health and Safety Code is amended and renumbered to read:

121135. Notwithstanding Chapter 7 (commencing with Section 120975) or any other provision of law, the blood or other tissue or material of a source patient may be tested, and an exposed individual may be informed of the HIV status of the patient, if the exposed individual and the health care facility, if any, have substantially complied with the then applicable guidelines of the Division of

Occupational Safety and Health and the State Department of Health Services and if the following procedure is followed:

(a) (1) Whenever an individual becomes an exposed individual by experiencing an exposure to the blood or other potentially infectious material of a patient during the course of rendering health-care-related services or occupational services, the exposed individual may request an evaluation of the exposure by a physician to determine if it is a significant exposure as defined in subdivision (h) of Section 121132. No physician or other exposed individual shall certify his or her own significant exposure. However, an employing physician may certify the exposure of one of his or her employees. Requests for certification shall be made in writing within 72 hours of the exposure.

(2) A written certification by a physician of the significance of the exposure shall be obtained within 72 hours of the request. The certification shall include the nature and extent of the exposure.

(b) (1) The exposed individual shall be counseled regarding the likelihood of transmission, the limitations of an HIV test, the need for followup testing, and the procedures that the exposed individual must follow regardless of the HIV status of the source patient. The exposed individual may be tested in accordance with the then applicable guidelines or standards of the Division of Occupational Safety and Health. The result of this test shall be confirmed as negative before available blood or other patient samples of the source patient may be tested for evidence of HIV infection without the consent of the source patient pursuant to subdivision (d).

(2) Within 72 hours of certifying the exposure as significant, the certifying physician shall provide written certification to an attending physician of the source patient that a significant exposure to an exposed individual has occurred, and shall request information on the HIV status of the source patient and the availability of blood or other patient sample. An attending physician shall respond to the request for information within three working days.

(c) If the HIV status of the source patient is already known to be positive, then, except as provided in subdivisions (b) and (c) of Section 121010 when the exposed individual is a health care provider or an employee or agent of the health care provider of the source patient, an attending physician and surgeon of the source patient shall attempt to obtain the consent of the source patient to disclose to the exposed individual the HIV status of the source patient. If the source patient cannot be contacted or refuses to consent to the disclosure, then the exposed individual may be informed of the HIV status of the source patient by an attending physician of the source patient as soon as possible after the exposure has been certified as significant, notwithstanding Section 120980 or any other provision of law.

(d) If the HIV status of the source patient is unknown to the certifying physician or an attending physician, if blood or other

patient samples are available, and if the exposed individual has tested negative on a baseline HIV test, the source patient shall be given the opportunity to give informed consent to an HIV test in accordance with the following:

(1) Within 72 hours after receiving a written certification of significant exposure, an attending physician of the source patient shall do all of the following:

(A) Make a good faith effort to notify the source patient or the authorized legal representative of the source patient about the significant exposure. A good faith effort to notify includes, but is not limited to, a documented attempt to locate the source patient by telephone or by first-class mail with certificate of mailing. An attempt to locate the source patient and the results of that attempt shall be documented in the medical record of the source patient. An inability to contact the source patient, or legal representative of the source patient, after a good faith effort to do so as provided in this subdivision, shall constitute a refusal of consent pursuant to paragraph (2).

(B) Attempt to obtain the voluntary informed consent of the source patient or the authorized legal representative of the source patient to perform an HIV test on the source patient or on any available blood or patient sample of the source patient. The voluntary informed consent shall be in writing. The source patient shall have the option not to be informed of the test result. An exposed individual shall be prohibited from attempting to obtain directly informed consent for HIV testing from the source patient. If a source patient is incapacitated and therefore is unable to provide informed consent and has no authorized legal representative, then HIV testing on the source patient or available blood or tissue of the source patient shall not be permitted.

(C) Provide the source patient with medically appropriate pretest counseling and refer the source patient to appropriate posttest counseling and followup if necessary. The source patient shall be offered medically appropriate counseling whether or not he or she consents to testing.

(2) If the source patient or the authorized legal representative of the source patient refuses to consent to an HIV test after a documented effort has been made to obtain consent, then any available blood or patient sample of the source patient may be tested. The source patient or authorized legal representative of the source patient shall be informed that an available blood sample or other tissue or material will be tested despite his or her refusal, and that the exposed individual shall be informed of the HIV test results.

(3) A source patient or the authorized legal representative of a source patient shall be advised that he or she shall be informed of the results of the HIV test only if he or she wishes to be so informed. If a patient refuses to provide informed consent to HIV testing and refuses to learn the results of HIV testing, then he or she shall sign

a form documenting this refusal. The source patient's refusal to sign this form shall be construed to be a refusal to be informed of the HIV test results. HIV test results shall only be placed in the medical record when the patient has agreed in writing to be informed of the results.

(4) Notwithstanding any other provision of law, if the source patient or authorized legal representative of a source patient refuses to be informed of the results of the test, then the HIV test results of that source patient shall only be provided to the exposed individual in accordance with the then applicable regulations established by the Division of Occupational Safety and Health.

(5) The source patient's identity shall be encoded on the HIV test result record.

(e) If an exposed individual is informed of the HIV status of a source patient pursuant to this section, the exposed individual shall be informed that he or she is subject to existing confidentiality protections for any identifying information about the HIV test results, and that HIV-related medical information of the source patient shall be kept confidential and may not be further disclosed, except as otherwise authorized by law. The exposed individual shall be informed of the penalties for which he or she would be personally liable for violation of Section 120980.

(f) The costs for the HIV test and counseling of the exposed individual, or the source patient, or both shall be borne by the employer of the exposed individual, if any. An employer who directs and controls the exposed individual shall provide the postexposure evaluation and followup required by the California Division of Occupational Safety and Health as well as the testing and counseling for source patients required under this chapter. If an exposed individual is a volunteer or a student, then the health care provider or first responder that assigned a task to the volunteer or student may pay for the costs of testing and counseling as if that volunteer or student were an employee. If an exposed individual, who is not an employee of a health facility or of another health care provider, chooses to obtain postexposure evaluation or followup counseling, or both, or treatment, then he or she shall be financially responsible for the costs thereof and shall be responsible for the costs of the testing and counseling for the source patient.

(g) Nothing in this section authorizes the disclosure of the source patient's identity.

(h) Nothing in this section shall authorize a health care provider to draw blood or other body fluids except as otherwise authorized by law.

(i) The provisions of this section are cumulative only and shall not preclude HIV testing of source patients as authorized by any other provision of law.

SEC. 111. Section 199.68 of the Health and Safety Code is amended and renumbered to read:

121140. (a) No health care provider, as defined in this chapter, shall be subject to civil or criminal liability or professional disciplinary action for performing an HIV test on the available blood or patient sample of a source patient, or for disclosing the HIV status of a source patient to the source patient, an attending physician of the source patient, the certifying physician, the exposed individual, or any attending physician of the exposed individual, if the health care provider has acted in good faith in complying with this chapter.

(b) Any health care provider or first responder, or any exposed individual, who willfully performs or permits the performance of an HIV test on a source patient, that results in economic, bodily, or psychological harm to the source patient, without adhering to the procedure set forth in this chapter is guilty of a misdemeanor, punishable by imprisonment in the county jail for a period not to exceed one year, or a fine not to exceed ten thousand dollars ($10,000), or by both.

SEC. 112. Section 305 of the Health and Safety Code, as added by Chapter 873 of the Statutes of 1995, is amended and renumbered to read:

125107. (a) For purposes of this section, "prenatal care provider" means a licensed health care professional providing prenatal care within his or her lawful scope of practice. This definition shall not include a licensed health care professional who provides care other than prenatal care to a pregnant patient.

(b) The prenatal care provider primarily responsible for providing prenatal care to a pregnant patient shall offer human immunodeficiency virus (HIV) information and counseling to every pregnant patient. This information and counseling shall include, but shall not be limited to, all of the following:

(1) A description of the modes of HIV transmission.

(2) A discussion of risk reduction behavior modifications including methods to reduce the risk of perinatal transmission.

(3) Referral information to other HIV prevention and psychosocial services, if appropriate, including anonymous and confidential test sites approved by the Office of AIDS of the State Department of Health Services.

(c) The prenatal care provider primarily responsible for providing prenatal care to a pregnant patient shall offer an HIV test as defined in Section 120775 to every pregnant patient, unless a positive HIV test result is already documented in the patient's medical record or the patient has AIDS as diagnosed by a physician. The offering of an HIV test shall include discussion of all of the following:

(1) The purpose of the test.

(2) The risks and benefits of the test.

(3) The voluntary nature of the test.

(d) If the pregnant woman voluntarily consents to testing, the provider shall arrange for HIV testing directly or by referral,

including, but not limited to, referral to anonymous and confidential test sites approved by the Office of AIDS of the State Department of Health Services.

(e) The prenatal care provider primarily responsible for providing prenatal care to a pregnant patient shall document in the patient's medical record that HIV information and counseling has been offered. The prenatal care provider shall also document the offering of the HIV antibody test in the patient's medical record.

(f) Nothing in this section shall be construed to require testing, the documentation or disclosure of whether the patient had an HIV test, or the result of an HIV test except to the patient. Any documentation or disclosure of HIV related information shall be made in accordance with Chapter 7 (commencing with Section 120975) of Part 4 of Division 105 regarding confidentiality and informed consent.

SEC. 113. The heading of Article 3.35 (commencing with Section 319.50) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, as added by Chapter 463 of the Statutes of 1995, is amended and renumbered to read:

Article 3. Breast Feeding

SEC. 114. Section 319.50 of the Health and Safety Code, as added by Chapter 463 of the Statutes of 1995, is amended and renumbered to read:

123360. The State Department of Health Services shall include in its public service campaign the promotion of mothers breast feeding their infants.

SEC. 115. Section 319.55 of the Health and Safety Code, as added by Chapter 463 of the Statutes of 1995, is amended and renumbered to read:

123365. (a) All general acute care hospitals, as defined in subdivision (a) of Section 1250, and all special hospitals providing maternity care, as defined in subdivision (f) of Section 1250, shall make available a breast feeding consultant or alternatively, provide information to the mother on where to receive breast feeding information.

(b) The consultant may be a registered nurse with maternal and newborn care experience, if available.

(c) The consultation shall be made available during the hospitalization associated with the delivery, or alternatively, the hospital shall provide information to the mother on where to receive breast feeding information.

(d) The patient may decline this consultation or information.

SEC. 116. The heading of Article 3.55 (commencing with Section 330.10) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, as added by Chapter 674 of the Statutes of 1995, is amended and renumbered to read:

Article 2.5. Infant Botulism Treatment and Prevention Program

SEC. 117. Section 330.10 of the Health and Safety Code, as added by Chapter 674 of the Statutes of 1995, is amended and renumbered to read:

123700. (a) Infant botulism is an acute, life-threatening paralytic disease of babies caused by a potent bacterial neurotoxin.

(b) Half of all cases of infant botulism in the United States occur in California, where the causative bacterial spores are known to be highly endemic. In any given year between 30 and 50 infants with botulism are hospitalized in California, thus qualifying infant botulism as an "orphan disease" as defined by the federal Orphan Drug Act of 1983 (P.L. 97-414, as amended).

(c) The cost of hospitalization of these afflicted babies for the five years 1988–92 were approximately fourteen million dollars ($14,000,000). Over two million seven hundred thousand dollars ($2,700,000) of these costs were paid by the State Department of Health Services through its Medi-Cal and California Children's Services programs, while over one million four hundred thousand ($1,400,000) of these costs were absorbed as operating losses by California hospitals.

(d) Hospital stay for these critically-ill infants averages five weeks and costs approximately seventy thousand dollars ($70,000) per case. In 1992 a single case was hospitalized over six months at a cost in excess of five hundred five thousand dollars ($505,000). In 1988 a single infant was hospitalized for 10 months at a cost of over six hundred thirty-five thousand dollars ($635,000).

(e) In an effort to reduce these costs, the State Department of Health Services began in early 1992 a four-year clinical trial of a potential new medicine, human Botulism Immune Globulin (BIG), specifically designed for the treatment of infant botulism. The funding for this clinical trial is being provided by the United States Food and Drug Administration.

(f) As defined in the federal Orphan Drug Act, the State Department of Health Services is the official sponsor of BIG. As such, the department is responsible for providing and distributing an ongoing supply of BIG to infant botulism patients nationwide if the clinical trial shows that BIG is safe and effective treatment for infant botulism. The clinical trial is expected to end in 1996.

(g) If human-derived BIG proves to be effective, then physicians can choose to use it to treat foodborne botulism and wound botulism, rather than using the existing horse-serum-derived botulism antitoxin, which has serious side effects. Foodborne botulism and wound botulism also qualify as "orphan diseases" under the federal Orphan Drug Act.

(h) Other scientific evidence indicates that infant botulism and related illnesses may be responsible for one of every 20 sudden infant

death cases in California. More sudden infant deaths occur in California each year than in any other state.

(i) The Legislature finds and declares that the enactment of this article is necessary for the protection of the public's health, investigations and further research into the optimal medical treatment of infant botulism, including product improvement of BIG, and into the causes and prevention of infant botulism and related sudden infant death cases, and providing expert medical consultation for the care of infants with this disease.

SEC. 118. Section 330.15 of the Health and Safety Code, as added by Chapter 674 of the Statutes of 1995, is amended and renumbered to read:

123702. (a) The State Department of Health Services shall establish an Infant Botulism Treatment and Prevention Unit. This unit shall have responsibility for ensuring the production and distribution of BIG to patients in California and nationwide suspected of having infant botulism or other forms of human botulism in accord with applicable federal law.

(b) As permitted by federal law, the state department shall charge a fee for BIG, and the fees shall be deposited in the special Infant Botulism Treatment and Prevention Fund established by Section 123709.

(c) Notwithstanding any other provision of law, the funds generated by the sale of BIG are to be expended only for the purposes authorized by this article.

(d) The amount of the fee shall be established by regulation and periodically adjusted by the State Director of Health Services in order to meet but not exceed the total costs of this article. This adjustment of fees shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, except that upon adoption of the adjusted fee by the director, the provision revising the fee shall be filed with the Secretary of State and shall be printed in the California Code of Regulations.

(e) It is the intent of the Legislature that the state department consider providing BIG to low-income families at no charge.

SEC. 119. Section 330.20 of the Health and Safety Code, as added by Chapter 674 of the Statutes of 1995, is amended and renumbered to read:

123704. The Infant Botulism Treatment and Prevention Unit shall provide all the following services:

(a) Produce, or cause to have produced, and maintain, a supply of BIG sufficient to treat the expected number of annual cases of infant botulism in the United States, and to store, or arrange storage for, same.

(b) Distribute BIG to patients suspected of having infant botulism or other forms of botulism in California and in the rest of the United States on appropriate medical indications.

(c) Investigate ways to improve the treatment of infant botulism and related illness, including technical improvement of BIG, and implement them as appropriate.

(d) Provide diagnostic laboratory services and medical and public health expertise about infant botulism and related illnesses to all physicians, hospitals, laboratories, and parents statewide.

(e) Investigate all cases or suspected cases of infant botulism with both field and laboratory techniques as appropriate, in order to acquire the broadest data base for prevention and optimal treatment.

(f) Develop and implement control measures for the prevention of infant botulism and related illnesses.

(g) Share with other public health agencies the expertise gained in the development of BIG as it relates to other toxin-mediated infectious diseases of public health importance, and apply that expertise as appropriate.

(h) Establish scientific collaborations with university, forensic, hospital, public health, pharmaceutical, and biotechnology institutions, as appropriate as determined by the unit, that have resources and expertise to contribute to the study, prevention, or treatment of infant botulism and related illnesses.

SEC. 120. Section 330.25 of the Health and Safety Code, as added by Chapter 674 of the Statutes of 1995, is amended and renumbered to read:

123705. It is the intent of the Legislature that the program carried out pursuant to this article shall be fully supported from the fees collected for providing BIG to patients with suspected infant botulism or other forms of botulism and that these fees be made available for expenditure by the state department as appropriated by the Legislature in the annual Budget Act. However, it is the intent of the Legislature that until June 30, 1999, the Legislature may appropriate in the annual Budget Act the funds necessary for the support of programs authorized in this article in excess of fee revenues collected. It is, further, the intent of the Legislature that these appropriations be provided as a loan from the General Fund to be repaid with interest to the General Fund over the subsequent five years with interest at the rate earned by moneys invested in the Pooled Money Investment Account.

SEC. 121. Section 330.30 of the Health and Safety Code, as added by Chapter 674 of the Statutes of 1995, is amended and renumbered to read:

123707. (a) If the results of the clinical trial do not qualify BIG for product licensure by the United States Food and Drug Administration, then this article shall become inoperative on the date that the Commissioner of the United States Food and Drug Administration or his or her delegate so notifies the State Department of Health Services, and shall be repealed on January 1 following the receipt of the notice, unless a later enacted statute operative on or before that date deletes or extends that date. The

director shall transmit a written notice to the Secretary of the Senate and the Chief Clerk of the Assembly commemorating receipt of the notice from the commissioner.

(b) Since the incidence of infant botulism in California can vary by as much as 60 percent from year to year, and since continuity of program operations is critical to the health and well-being of these infants, any funds not expended at the end of the fiscal year shall be carried forward into the next fiscal year, notwithstanding any other provision of law.

(c) In carrying out this article, the Infant Botulism Treatment and Prevention Unit may adopt regulations, make and receive grants, and enter into contracts and interagency agreements.

125275. (a) The Legislature finds that Alzheimer's disease, a devastating disease which destroys certain vital cells of the brain, affects more than 1,500,000 Americans. The Legislature also finds that Alzheimer's disease and related disorders are responsible for 50 percent of all nursing home admissions and Alzheimer's disease is the fourth leading cause of death in adults. The Legislature recognizes that the disease has serious emotional, financial, and social consequences for its victims and their families.

(b) The Legislature recognizes that the cause of Alzheimer's disease is presently unknown, and there is no established treatment which can cure, reverse, or stop the progression of Alzheimer's disease. The Legislature also recognizes that research is the only hope for victims and families. The Legislature finds that existing diagnostic and treatment centers have improved the quality of care available to the victims of Alzheimer's disease and increased knowledge with respect to Alzheimer's disease and related disorders. These centers provide clinical opportunities for research and facilitate the collection of essential data regarding Alzheimer's disease and related disorders, while at the same time providing valuable services such as information and referral, counseling, and training to victims and their families. It is the intent of the Legislature, in enacting this article, to encourage the establishment of geographically dispersed diagnostic and treatment centers for Alzheimer's disease within every postsecondary higher educational institution with a medical center, and to encourage research to discover the cause of, and a cure for, Alzheimer's disease.

(c) The functions of the diagnostic and treatment centers shall be designed to serve all of the following purposes:

(1) To provide diagnostic and treatment services and improve the quality of care to victims of Alzheimer's disease.

(2) To increase research by faculty and students in discovering the cause of, and a cure for, Alzheimer's disease.

(3) To provide training, monitoring, consultation, and continuing education to the families of those who are affected by Alzheimer's disease.

(4) To increase the training of health care professionals with respect to Alzheimer's disease and other acquired brain impairments to the extent that the centers have the requisite expertise.

(d) The diagnostic and treatment centers may collaborate with the Statewide Resources Consultant designated pursuant to Section 4364 of the Welfare and Institutions Code, to the extent that the

centers deem necessary in order to fulfill the functions set forth in subdivision (c).

For the purpose of this subdivision, an employer is any person defined in Section 25118 of the Health and Safety Code. Employers with fewer than 10 employees are not subject to any fees pursuant to this section.

(d) The fees imposed in subdivision (b) are the rates for calendar year 1995 and shall be adjusted annually by the State Board of Equalization to reflect increases or decreases in the cost of living

during the prior fiscal year as measured by the Consumer Price Index issued by the Department of Industrial Relations, or a successor agency. This adjustment of fees shall not be subject to the requirements of Chapter 2.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

128185. The Legislature finds and declares all of the following:

(c) The population most in need of long-term care is growing rapidly. SEC. 149. Section 1205.5 of the Health and Safety Code is amended to read:

1205.5. A clinic that has been verified by the Licensing and Certification Division of the State Department of Health Services and the Office of Statewide Health Planning and Development as having (1) provided chronic dialysis and (2) been licensed as an outpatient clinic, before September 26, 1978, shall not be required to have a certificate of need pursuant to Chapter 1 (commencing with Section 127125) of Part 2 of Division 107 in order to obtain licensure as a chronic dialysis clinic. A clinic that has been verified by the Licensing and Certification Division of the State Department of Health Services and the Office of Statewide Health Planning and Development as having (1) provided surgical services, (2) been licensed as an outpatient clinic and (3) been eligible to receive Medi-Cal reimbursement as an outpatient clinic in connection with the surgical services, before September 26, 1978, shall not be required to have a certificate of need pursuant to Chapter 1 (commencing with Section 127125) of Part 2 of Division 107 in order to obtain licensure as a surgical clinic.

Nothing in this section shall, however, be construed to exempt a clinic subject to this section from the requirement for a certificate of need with respect to projects specified in subdivision (c), (d), or (e)

of Section 127170, or with respect to changes of licensure category occurring subsequent to initial licensure as a specialty clinic pursuant to this section.

A clinic that has been verified by the Licensing and Certification Division of the State Department of Health Services and the Office of Statewide Health Planning and Development as having (1) provided surgical services, (2) been licensed as an outpatient clinic and (3) been eligible to receive Medi-Cal reimbursement as an outpatient clinic in connection with the surgical services, before September 26, 1978, and that meets the requirements for licensure as a surgical clinic, need not operate on an open-staff basis in order to be licensed as a surgical clinic.

A clinic that has been verified by the Licensing and Certification Division of the State Department of Health Services and the Office of Statewide Health Planning and Development as having (1) provided rehabilitation service and (2) been licensed as an outpatient clinic, a community clinic, or free clinic, before September 26, 1978, shall not be required to have a certificate of need pursuant to Chapter 1 (commencing with Section 127125) of Part 2 of Division 107 in order to obtain licensure as a rehabilitation clinic.

(i) Any other information as may be required by the state department for the proper administration and enforcement of this chapter, including, but not limited to, evidence that the clinic has a written policy relating to the dissemination of the following information to patients:

Licensed inpatient beds in a correctional treatment center shall be used only for the purpose of providing health services.

(b) Except as provided in Section 1253.1, beds classified as intermediate care beds, on September 27, 1978, shall be reclassified by the state department as intermediate care—other. This reclassification shall not constitute a "project" within the meaning of Section 127170 and shall not be subject to any requirement for a certificate of need under Chapter 1 (commencing with Section 127125) of Part 2 of Division 107, and regulations of the state department governing intermediate care prior to the effective date shall continue to be applicable to the intermediate care—other classification unless and until amended or repealed by the state department.

(2) "Communicable, contagious, or infectious disease" means any disease that is capable of being transmitted from person to person with or without contact and as established by the State Department of Health Services pursuant to Section 120130, and Section 2500 et seq. of Title 17 of the California Code of Regulations.

(b) Each health care facility in the Department of Corrections and in the Department of the Youth Authority shall have a medical

director in charge of the health care services of that facility who shall be a physician and surgeon licensed to practice in California and who shall be appointed by the directors of the departments. The medical director shall direct the medical treatment programs for all health services and services supporting the health services provided in the facility.

(c) The medical director, chief of medical services, chief medical officer, or the physician designated by the department to act in that capacity, shall use every available means to ascertain the existence of, and to immediately investigate, all reported or suspected cases of any communicable, contagious, or infectious disease and to ascertain the source or sources of the infections and prevent the spread of the disease. In carrying out these investigations, the medical director, chief of medical services, chief medical officer, or the physician designated by the department to act in that capacity, is hereby invested with full powers of inspection, examination, and quarantine or isolation of all inmates or wards known to be, or reasonably suspected to be, infected with a communicable, contagious, or infectious disease.

(d) The medical director, chief of medical services, chief medical officer, or the physician designated by the department to act in that capacity, shall order an inmate or ward to receive an examination or test, or may order an inmate or ward to receive treatment if the medical director, chief of medical services, chief medical officer, or the physician designated by the department to act in that capacity, has reasonable suspicion that the inmate or ward has, has had, or has been exposed to a communicable, contagious, or infectious disease and the medical director, chief of medical services, chief medical officer, or the physician designated by the department to act in that capacity, has reasonable grounds to believe that it is necessary for the preservation and protection of staff and inmates or wards.

(e) Notwithstanding Section 2600 or 2601 of the Penal Code, or any other provision of law, any inmate or ward who refuses to submit to an examination, test, or treatment for any communicable, contagious, or infectious disease or who refuses treatment for any communicable, contagious, or infectious disease, or who, after notice, violates, or refuses or neglects to conform to any rule, order, guideline, or regulation prescribed by the department with regard to communicable disease control shall be tested involuntarily and may be treated involuntarily. This inmate or ward shall be subject to disciplinary action as described in Title 15 of the California Code of Regulations.

(f) This section shall not apply to HIV or AIDS. Testing, treatment, counseling, prevention, education, or other procedures dealing with HIV and AIDS shall be conducted as prescribed in Title 8 (commencing with Section 7500) of Part 3 of the Penal Code.

(g) This section shall not apply to tuberculosis. Tuberculosis shall be addressed as prescribed in Title 8.7 (commencing with Section 7570) of the Penal Code.

SEC. 153. Section 1250.8 of the Health and Safety Code is amended to read:

1250.8. (a) Notwithstanding subdivision (a) of Section 127170, the state department, upon application of a general acute care hospital that meets all the criteria of subdivision (b), and other applicable requirements of licensure, shall issue a single consolidated license to a general acute care hospital that includes more than one physical plant maintained and operated on separate premises or that has multiple licenses for a single health facility on the same premises. A single consolidated license shall not be issued where the separate freestanding physical plant is a skilled nursing facility or an intermediate care facility, whether or not the location of the skilled nursing facility or intermediate care facility is contiguous to the general acute care hospital unless the hospital is exempt from the requirements of subdivision (b) of Section 1254, or the facility is part of the physical structure licensed to provide acute care.

(b) The issuance of a single consolidated license shall be based on the following criteria:

(1) There is a single governing body for all of the facilities maintained and operated by the licensee.

(2) There is a single administration for all of the facilities maintained and operated by the licensee.

(3) There is a single medical staff for all of the facilities maintained and operated by the licensee, with a single set of bylaws, rules, and regulations that prescribe a single committee structure.

(4) Except as provided otherwise in this paragraph, the physical plants maintained and operated by the licensee that are to be covered by the single consolidated license are located not more than 15 miles apart. The director may issue a single consolidated license to a general acute care hospital that maintains and operates two or more physical plants which are located beyond 15 miles if all of the following exist:

(A) Either (i) one or more physical plants are located in a rural area, as defined by regulations of the director; or (ii) the physical plants are located beyond 15 miles from the general acute care hospital that obtains the single consolidated license and provide outpatient services as defined by the department, and do not provide inpatient services.

(B) The director finds, after consultation with the Director of the Office of Statewide Health Planning and Development, that the issuance of the single consolidated license for the general acute care hospital would not significantly impair the operation of Chapter 1 (commencing with Section 127125) of Part 2 of Division 107.

(C) The director finds that the licensee can comply with the requirements of licensure and maintain the provision of quality care, and adequate administrative and professional supervision.

(D) The physical plants satisfy the criteria of subdivision (a) and paragraphs (1), (2), and (3).

(E) The physical plants of the licensee operate in full compliance with subdivision (f) of Section 1275.

(c) In issuing the single consolidated license, the state department shall specify the location of each supplemental service and the location of the number and category of beds provided by the licensee. The single consolidated license shall be renewed annually.

(d) To the extent required by Chapter 1 (commencing with Section 127125) of Part 2 of Division 107, a general acute care hospital that has been issued a single consolidated license:

(1) Shall not transfer from one facility to another a special service described in Section 1255 without first obtaining a certificate of need.

(2) Shall not transfer, in whole or in part, from one facility to another, a supplemental service, as defined in regulations of the director pursuant to this chapter, without first obtaining a certificate of need, unless the licensee, 30 days prior to the relocation, notifies the Office of Statewide Health Planning and Development, the applicable health systems agency, and the state department of the licensee's intent to relocate the supplemental service, and includes with this notice a cost estimate, certified by a person qualified by experience or training to render the estimates, which estimates that the cost of the transfer will not exceed the capital expenditure threshold established by the Office of Statewide Health Planning and Development pursuant to Section 127170.

(3) Shall not transfer beds from one facility to another facility, without first obtaining a certificate of need unless, 30 days prior to the relocation, the licensee notifies the Office of Statewide Health Planning and Development, the applicable health systems agency, and the state department of the licensee's intent to relocate health facility beds, and includes with this notice both of the following:

(A) A cost estimate, certified by a person qualified by experience or training to render the estimates, which estimates that the cost of the relocation will not exceed the capital expenditure threshold established by the Office of Statewide Health Planning and Development pursuant to Section 127170.

(B) The identification of the number, classification, and location of the health facility beds in the transferor facility and the proposed number, classification, and location of the health facility beds in the transferee facility.

Except as otherwise permitted in Chapter 1 (commencing with Section 127125) of Part 2 of Division 107, or as authorized in an approved certificate of need pursuant to that part, health facility beds transferred pursuant to this section shall be used in the transferee

facility in the same bed classification as defined in Section 1250.1, as the beds were classified in the transferor facility.

Health facility beds transferred pursuant to this section shall not be transferred back to the transferor facility for two years from the date of the transfer, regardless of cost, without first obtaining a certificate of need pursuant to Chapter 1 (commencing with Section 127125) of Part 2 of Division 107.

(e) All transfers pursuant to subdivision (d) shall satisfy all applicable requirements of licensure and shall be subject to the written approval, if required, of the state department. The state department may adopt regulations that are necessary to implement the provisions of this section. These regulations may include a requirement that each facility of a health facility subject to a single consolidated license have an onsite full-time or part-time administrator.

(f) As used in this section, "facility" means any physical plant operated or maintained by a health facility subject to a single, consolidated license issued pursuant to this section.

(g) For purposes of selective provider contracts negotiated under the Medi-Cal program, the treatment of a health facility with a single consolidated license issued pursuant to this section shall be subject to negotiation between the health facility and the California Medical Assistance Commission. A general acute care hospital that is issued a single consolidated license pursuant to this section may, at its option, receive from the state department a single Medi-Cal program provider number or separate Medi-Cal program provider numbers for one or more of the facilities subject to the single consolidated license. Irrespective of whether the general acute care hospital is issued one or more Medi-Cal provider numbers, the state department may require the hospital to file separate cost reports for each facility pursuant to Section 14170 of the Welfare and Institutions Code.

(h) For purposes of the Annual Report of Hospitals required by regulations adopted by the state department pursuant to this part, the state department and the Office of Statewide Health Planning and Development may require reporting of bed and service utilization data separately by each facility of a general acute care hospital issued a single consolidated license pursuant to this section.

(i) The amendments made to this section during the 1985–86 Regular Session of the California Legislature pertaining to the issuance of a single consolidated license to a general acute care hospital in the case where the separate physical plant is a skilled nursing facility or intermediate care facility shall not apply to the following facilities:

(1) Any facility that obtained a certificate of need after August 1, 1984, and prior to February 14, 1985, as described in this subdivision. The certificate of need shall be for the construction of a skilled nursing facility or intermediate care facility that is the same facility

for which the hospital applies for a single consolidated license, pursuant to subdivision (a).

(2) Any facility for which a single consolidated license has been issued pursuant to subdivision (a), as described in this subdivision, prior to the effective date of the amendments made to this section during the 1985–86 Regular Session of the California Legislature.

Any facility that has been issued a single consolidated license pursuant to subdivision (a), as described in this subdivision, shall be granted renewal licenses based upon the same criteria used for the initial consolidated license.

(j) If the state department issues a single consolidated license pursuant to this section, the state department may take any action authorized by this chapter, including, but not limited to, any action specified in Article 5 (commencing with Section 1294), with respect to any facility, or any service provided in any facility, that is included in the consolidated license.

(k) The eligibility for participation in the Medi-Cal program (Chapter 7 (commencing with Section 14000), Part 3, Division 9, Welfare and Institutions Code) of any facility that is included in a consolidated license issued pursuant to this section, provides outpatient services, and is located more than 15 miles from the health facility issued the consolidated license shall be subject to a determination of eligibility by the state department. This subdivision shall not apply to any facility that is located in a rural area and is included in a consolidated license issued pursuant to subparagraphs (A), (B), and (C) of paragraph (4) of subdivision (b). Regardless of whether a facility has received or not received a determination of eligibility pursuant to this subdivision, this subdivision shall not affect the ability of a licensed professional, providing services covered by the Medi-Cal program to a person eligible for Medi-Cal in a facility subject to a determination of eligibility pursuant to this subdivision, to bill the Medi-Cal program for those services provided in accordance with applicable regulations.

SEC. 154. Section 1250.9 of the Health and Safety Code, as amended by Chapter 511 of the Statutes of 1995, is amended and renumbered to read:

128600. The Legislature finds and declares that the oversight and reporting requirements of the demonstration project established in this section are equal to, or exceed similar licensing standards for other health facilities.

(a) The Office of Statewide Health Planning and Development shall conduct a demonstration project to evaluate the accommodation of postsurgical care patients for periods not exceeding two days, except that the attending physician and surgeon may require that the stay be extended to no more than three days.

(b) (1) The demonstration project shall operate for a period not to exceed six years, for no more than 12 project sites, one of which shall be located in Fresno County. However, the demonstration

project shall be extended an additional six years, to September 30, 2000, only for those project sites that were approved by the Office of Statewide Health Planning and Development and operational prior to January 1, 1994.

(2) Any of the 12 project sites may be distinct parts of health facilities, or any of those sites may be physically freestanding from health facilities. None of the project sites that are designated as distinct parts of health facilities, shall be located in the service area of any one of the six freestanding project sites. None of the project sites that are designated as distinct parts of health facilities shall have a service area that overlaps with any one or more service areas of the freestanding pilot sites. For the purposes of this section, service area shall be defined by the office.

(c) (1) The office shall establish standards for participation, commensurate with the needs of postsurgical care patients requiring temporary nursing services following outpatient surgical procedures.

(2) In preparing the standards for participation, the office may, as appropriate, consult with the State Department of Health Services and a technical advisory committee that may be appointed by the Director of the Office of Statewide Health Planning and Development. The committee shall have no more than eight members, all of whom shall be experts in health care, as determined by the director of the office. One of the members of the committee shall, as determined by the director of the office, have specific expertise in the area of pediatric surgery and recovery care.

(3) If a technical advisory committee is established by the director of the office, members of the committee shall be reimbursed for any actual and necessary expenses incurred in connection with their duties as members of the committee.

(d) Not later than six months prior to the conclusion of the demonstration project, the office shall submit an evaluation of the demonstration project to the Legislature on the effectiveness and safety of the demonstration project in providing recovery services to patients receiving outpatient surgical services. The office, as part of the evaluation, shall include recommendations regarding the establishment of a new license category or amendment of existing licensing standards.

(e) The office shall establish and administer the demonstration project in facilities with no more than 20 beds that continuously meet the standards of skilled nursing facilities licensed under subdivision (c) of Section 1250, except that the office may, as appropriate and unless a danger to patients would be created, eliminate or modify the standards. This section shall not prohibit general acute care hospitals from participating in the demonstration project. The office may waive those building standards applicable to a project site that is a distinct part of a health facility that are inappropriate, as determined by the office, to the demonstration project. Notwithstanding health facility licensing regulations contained in Division 5 (commencing

with Section 70001) of Title 22 of the California Code of Regulations, a project site that is a distinct part of a health facility shall comply with all standards for participation established by the office and with all regulations adopted by the office to implement this section. A project site that is a distinct part of a health facility shall not, for the duration of the pilot project, be subject to Division 5 (commencing with Section 70001) of Title 22 of the California Code of Regulations which conflict, as determined by the office, with the demonstration project standards or regulations.

(f) The office shall issue a facility identification number to each facility selected for participation in the demonstration project.

(g) Persons who wish to establish recovery care programs shall make application to the office for inclusion in the pilot program. Applications shall be made on forms provided by the office and shall contain sufficient information determined as necessary by the office.

(h) As a condition of participation in the pilot program, each applicant shall agree to provide statistical data and patient information that the office deems necessary for effective evaluation. It is the intent of the Legislature that the office shall develop procedures to assure the confidentiality of patient information and shall only disclose patient information, including name identification, as is necessary pursuant to this section or any other law.

(i) Any authorized officer, employee, or agent of the office may, upon presentation of proper identification, enter and inspect any building or premises and any records, including patient records, of a pilot project participant at any reasonable time to review compliance with, or to prevent any violation of, this section or the regulations and standards adopted thereunder.

(j) The office may suspend or withdraw approval of any or all pilot projects with notice, but without hearing if it determines that patient safety is being jeopardized.

(k) The office may charge applicants and participants in the program a reasonable fee to cover its actual cost of administering the pilot program and the cost of any committee established by this section. The facilities participating in the pilot project shall pay fees that equal the amount of any increase in fiscal costs incurred by the state as a result of the extension of the pilot project until September 30, 2000, pursuant to subdivision (b).

(*l*) The office may contract with a medical consultant or other advisers as necessary, as determined by the office. Due to the necessity to expedite the demonstration project and its extremely specialized nature, the contracts shall be exempt from Section 10373 of the Public Contract Code, and shall be considered sole-source contracts.

(m) The office may adopt emergency regulations to implement this section in accordance with Section 11346.1 of the Government Code, except that the regulations shall be exempt from the requirements of subdivisions (e), (f), and (g) of that section. The

regulations shall be deemed an emergency for the purposes of Section 11346.1.

Applications to establish any of the four project sites authorized by the amendments made to this section during the 1987–88 Regular Session of the California Legislature shall be considered by the office from among the applications submitted to it in response to its initial request for proposal process.

(n) Any administrative opinion, decision, waiver, permit, or finding issued by the office prior to July 1, 1990, with respect to any of the demonstration projects approved by the office prior to July 1, 1990, shall automatically be extended by the office to remain fully effective as long as the demonstration projects are required to operate pursuant to this section.

(o) The office shall not grant approval to a postsurgical recovery care facility, as defined in Section 97500.111 of Title 22 of the California Code of Regulations, that is freestanding, as defined in Section 97500.49 of Title 22 of the California Code of Regulations, to begin operation as a participating demonstration project if it is located in the County of Solano.

(p) Participants in the demonstration program for postsurgical recovery facilities shall not be precluded from receiving reimbursement from, or conducting good faith negotiations with, a third-party payor solely on the basis that the participant is engaged in a demonstration program and accordingly is not licensed.

SEC. 155. Section 1251.3 of the Health and Safety Code is amended to read:

1251.3. A health facility licensed as a general acute care hospital, providing alcohol recovery services, may convert its licensure category to an acute psychiatric hospital and it may reclassify all of its general acute care beds to acute psychiatric without first obtaining a certificate of need pursuant to Section 127170 if all of the following conditions are met:

(a) The health facility notifies, in writing, the State Department and the Office of Statewide Health Planning and Development on or before September 3, 1982.

(b) The project would reclassify all of the facility's general acute care beds to acute psychiatric.

(c) The total licensed capacity of the facility to be converted does not exceed 31 beds.

SEC. 155.5. Section 1253.1 of the Health and Safety Code is amended to read:

1253.1. (a) Any skilled nursing facility or intermediate care facility that on the effective date of this section is providing care for the developmentally disabled may utilize beds designated for that purpose to provide intermediate care for the developmentally disabled without obtaining a certificate of need, a change in licensure category, or a change in bed classification pursuant to subdivision (c)

of Section 1250.1, provided the facility meets and continues to meet the following criteria:

(1) The facility was surveyed on or before July 18, 1977, by the State Department of Health for certification under the federal ICF/MR program pursuant to Section 449.13 of Title 42 of the Code of Federal Regulations, and the beds designated for intermediate care for the developmentally disabled were certified by the state department, either before or after that date, to meet the standards set forth in Section 449.13 of Title 42 of the Code of Federal Regulations.

(2) Not less than 95 percent of the beds so certified for intermediate care for the developmentally disabled are utilized exclusively for provision of care to residents with a developmental disability, as defined in subdivision (a) of Section 4512 of the Welfare and Institutions Code. Nothing in this paragraph shall require continuous bed occupancy, but a bed certified for intermediate care for the developmentally disabled shall be deemed to be converted to another use if occupied by a resident who is not developmentally disabled.

(3) On and after the effective date of regulations implementing this section, no change of ownership has occurred with respect to the facility requiring issuance of a new license, except a change occurring because of a decrease in the number of partners of a licensed partnership or a reorganization of the governing structure of a licensee in which there is no change in the relative ownership interests.

(b) Any facility receiving an exemption under subdivision (a) shall, with respect to beds designated for intermediate care for the developmentally disabled, be subject to regulations of the state department applicable to that level of care, rather than the level of care for which the beds are licensed. The state department shall indicate on the license of any facility receiving an exemption pursuant to subdivision (a) that the licensee has been determined by the state department to meet the criteria of subdivision (a).

(c) The licensee of any facility receiving an exemption under this section shall notify the state department not less than 30 days prior to taking action that will cause the facility to cease meeting the criteria specified in paragraph (2) or (3) of subdivision (a).

(d) Upon a change of ownership of the facility or change in ownership interests not meeting the criterion for continued exemption specified in paragraph (3) of subdivision (a), the applicant for relicensure shall elect as follows:

(1) To reclassify all skilled nursing beds that have been exempted under this section to the intermediate care-developmental disabilities classification, or to continue the skilled nursing classification with respect to skilled nursing beds that have received the exemption.

(2) To reclassify intermediate care beds that have been exempted under this section to the intermediate care-developmental disabilities classification, or to reclassify intermediate care beds that have received the exemption to the intermediate care-other classification.

Reclassification of beds pursuant to this subdivision shall not constitute a "project" within the meaning of Section 127170 and shall not be subject to any requirement for a certificate of need under Chapter 1 (commencing with Section 127125) of Part 2 of Division 107.

SEC. 156. Section 1255 of the Health and Safety Code is amended to read:

1255. In addition to the basic services offered under the license, a general acute care hospital may be approved in accordance with subdivision (c) of Section 1277 to offer special services including, but not limited to, the following:

(a) Radiation therapy department.
(b) Burn center.
(c) Emergency center.
(d) Hemodialysis center (or unit).
(e) Psychiatric.
(f) Intensive care newborn nursery.
(g) Cardiac surgery.
(h) Cardiac catheterization laboratory.
(i) Renal transplant.
(j) Other special services as the department may prescribe by regulation.

A general acute care hospital that exclusively provides acute medical rehabilitation center services may be approved in accordance with subdivision (b) of Section 1277 to offer special services not requiring surgical facilities.

The state department shall adopt standards for special services and other regulations as may be necessary to implement this section. For cardiac catheterization laboratory service, the state department shall, at a minimum, adopt standards and regulations that specify that only diagnostic services, and what diagnostic services, may be offered by an acute care hospital or a multispecialty clinic as defined in subdivision (*l*) of Section 1206 that is approved to provide cardiac catheterization laboratory service but is not also approved to provide cardiac surgery service, together with the conditions under which the cardiac catheterization laboratory service may be offered.

A cardiac catheterization laboratory service shall be located in a general acute care hospital that is either licensed to perform cardiovascular procedures requiring extracorporeal coronary artery bypass, that meets all of the applicable licensing requirements relating to staff, equipment, and space for service; or shall, at a minimum, have a licensed intensive care service, coronary care service and maintain a written agreement for the transfer of patients

to a general acute care hospital that is licensed for cardiac surgery or shall be located in a multispecialty clinic as defined in subdivision (*l*) of Section 1206. The transfer agreement shall include protocols that will minimize the need for duplicative cardiac catheterizations at the hospital in which the cardiac surgery is to be performed.

For purposes of this section, multispecialty clinic, as defined in subdivision (*l*) of Section 1206, includes an entity in which the multispecialty clinic holds at least a 50-percent general partner interest and maintains responsibility for the management of the service, if all of the following requirements are met:

(1) The multispecialty clinic existed as of March 1, 1983.

(2) Prior to March 1, 1985, the multispecialty clinic did not offer cardiac catherterization services, dynamic multiplane imaging, or other types of coronary or similar angiography.

(3) The multispecialty clinic creates only one entity that operates its service at one site.

(4) These entities shall have the equipment and procedures necessary for the stabilization of patients in emergency situations prior to transfer and patient transfer arrangements in emergency situations that shall be in accordance with the standards established by the Emergency Medical Services Authority, including the availability of comprehensive care and the qualifications of any general acute care hospital expected to provide emergency treatment.

Except as provided in Sections 128525 and 128530, under no circumstances shall cardiac catheterizations be performed outside of a general acute care hospital or a multispecialty clinic, as defined in subdivision (*l*) of Section 1206, that qualifies for this definition as of March 1, 1983.

SEC. 157. Section 1268 of the Health and Safety Code, as amended by Chapter 512 of the Statutes of 1995, is amended to read:

1268. (a) Upon the filing of the application for licensure or for a special permit for special services and full compliance with this chapter and the rules and regulations of the state department, the state department shall issue to the applicant the license or special permit applied for. A license shall not be issued or renewed for beds permanently converted to other than patient use and that do not meet construction and operational requirements. However, if the director finds that the applicant is not in compliance with the laws or regulations of this part, the director shall deny the applicant a license or a special permit for special services. Additionally, the director shall not issue a license covering a project within the meaning of Section 127170 for which there is no valid, subsisting, and unexpired certificate of need issued pursuant to Chapter 1 (commencing with Section 127125) of Part 2 of Division 107.

(b) As a condition of licensure, the director shall require evidence that the applicant have a written policy relating to the dissemination of the following information to patients:

(1) A summary of current state laws requiring child passenger restraint systems to be used when transporting children in motor vehicles.

(2) A listing of child passenger restraint system programs located within the county, as required by Section 27360 or 27362 of the Vehicle Code.

(3) Information describing the risks of death or serious injury associated with the failure to utilize a child passenger restraint system.

A hospital may satisfy the requirements of this paragraph by reproducing for distribution materials specified in Section 27366 of the Vehicle Code, describing the risks of injury or death as a result of the failure to utilize passenger restraints for infants and children, as provided, without charge, by the Department of the California Highway Patrol. A hospital that does not have these materials, but demonstrates that it has made a written request to the Department of the California Highway Patrol for the materials, is in compliance with this paragraph.

(c) The conversion of a general acute care hospital or special hospital to a general acute care hospital that exclusively provides acute medical rehabilitation center services shall not require a certificate of need, as required by Section 127170, if the health facility is rendering the services specified in subdivision (f) of Section 1250 on January 1, 1979.

SEC. 158. Section 1271.1 of the Health and Safety Code is amended to read:

1271.1. (a) A health facility may place up to 50 percent of its licensed bed capacity in voluntary suspension for a period not exceeding three years, upon submitting written notification to the state department and to the Office of Statewide Health Planning and Development. However, this section does not authorize a health facility to deactivate all beds utilized for the provision of a basic service or to deactivate all beds utilized for a special service or other supplemental service for which the health facility holds a special permit or licensure approval. Prior to the expiration of the voluntary suspension, the health facility may request an extension, that may be granted by the director if the director finds, after consultation with the Director of the Office of Statewide Health Planning and Development, that there is no identified need for additional beds (of the category suspended) in the service area of the health facility. If during a period of voluntary suspension under this section the statewide Health Facilities and Services Plan identifies a need for additional beds (of the category suspended) in the health facility's service area, the Director of the Office of Statewide Health Planning and Development may require the health facility to terminate the voluntary suspension and exercise one of the following options, at the discretion of the health facility: (1) place some or all of the suspended beds in operation, in accordance with the identified need, within one

year following his or her order, or (2) alternatively have the beds deemed permanently converted to other than patient use within the meaning of Section 1268.

(b) A health facility may remove all or any portion of its voluntarily suspended bed capacity from voluntary suspension by request to the state department, which request shall be granted unless the areas housing the suspended beds fail to meet currently applicable operational requirements or fail to meet construction requirements for the health facility in effect at the time the request for suspension of the beds was received by the state department.

(c) While health facility beds are in suspension pursuant to subdivision (a), the beds shall not be deemed to be permanently converted to other than patient use, for purposes of Section 1268. The requirements of this section shall not apply to any temporary deactivation of beds necessitated by the work of construction or other activities required with respect to a project for which a certificate of need or certificate of exemption has been granted pursuant to Chapter 1 (commencing with Section 127125) of Part 2 of Division 107. Nothing in this section shall in any way limit or affect the authority of a health facility to use a portion of its beds in one bed classification in another bed classification as permitted by subdivision (a) of Section 127170, including the use of general acute care beds as skilled nursing beds; provided, however, that when beds in a particular classification are suspended pursuant to this section, the remainder of the health facility's beds in the same classification may not be used so as to result in elimination of all beds utilized for provision of a basic service or utilized for provision of a special service or other supplemental service for which the health facility holds a special permit or licensure approval.

SEC. 160. Section 1339.8 of the Health and Safety Code is amended to read:

1339.8. The Office of Statewide Health Planning and Development shall review and approve the number of swing beds that may be designated pursuant to paragraph (4) of subdivision (b) of Section 1339.15, based upon community need and projected utilization and issue a certificate of need pursuant to the review and approval. Except as provided herein, a primary health service hospital shall be subject to the requirements pertaining to approval of projects, as defined in Section 127170, that are set forth in Chapter 1 (commencing with Section 127125) of Part 2 of Division 107.

SEC. 161. Section 1339.30 of the Health and Safety Code is amended to read:

This pilot project shall be established and administered by the department, and shall consist of up to three pilot projects, one of which shall be located in San Diego. The department shall license facilities that are part of the pilot project for the duration of the pilot project as a special hospital: hospice. No person or entity shall be licensed as a special hospital: hospice unless that person or entity is participating in this pilot project.

The purpose of the pilot project is to determine the need of hospice patients for acute inpatient hospital care.

This article shall not preclude the provision of appropriate hospice services in other settings.

SEC. 162. Section 1395 of the Health and Safety Code is amended to read:

1395. (a) Notwithstanding Article 6 (commencing with Section 650) of Chapter 1 of Division 2 of the Business and Professions Code, any health care service plan or specialized health care service plan may, except as limited by this subdivision, solicit or advertise with regard to the cost of subscription or enrollment, facilities and services rendered, provided, however, Article 5 (commencing with Section 600) of Chapter 1 of Division 2 of the Business and Professions Code remains in effect. Any price advertisement shall be exact, without the use of such phrases as "as low as," "and up," "lowest prices" or words or phrases of similar import. Any advertisement that refers to services, or costs for the services, and that uses words of comparison must be based on verifiable data substantiating the comparison. Any health care service plan or specialized health care service plan so advertising shall be prepared to provide information sufficient to establish the accuracy of the comparison. Price advertising shall not be fraudulent, deceitful, or misleading, nor contain any offers of discounts, premiums, gifts, or bait of similar nature. In connection

with price advertising, the price for each product or service shall be clearly identifiable. The price advertised for products shall include charges for any related professional services, including dispensing and fitting services, unless the advertisement specifically and clearly indicates otherwise.

Employment by or a contract with a plan as a provider of professional services shall not constitute a ground for disciplinary action against a health professional licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code by a licensing agency regulating a particular health care profession.

(c) A health care service plan licensed under this chapter may directly own, and may directly operate through its professional employees or contracted licensed professionals, offices and subsidiary corporations, including pharmacies that satisfy the requirements of subdivision (d) of Section 4080.5 of the Business and Professions Code, as are necessary to provide health care services to the plan's subscribers and enrollees.

(e) Nothing in this chapter shall be construed to repeal, abolish, or diminish the effect of Section 129450 of the Health and Safety Code.

(f) Except as specifically provided in this chapter, nothing in this chapter shall be construed to limit the effect of the laws governing professional corporations, as they appear in applicable provisions of the Business and Professions Code, upon specialized health care service plans.

(c) The department shall develop criteria and standards for participation in the pilot project that shall include, but not be limited to, the following:

(1) The facility shall be a residential care facility for the elderly, with licenses in good standing. The facilities shall maintain substantial compliance with all applicable regulations and statutes during the pilot project.

(4) The facility shall obtain the appropriate fire clearance from the local fire authority.

(5) Each facility shall have admission, retention, and transfer criteria to select residents who may be placed in the facility during the pilot project. A resident shall not have other mental or physical health care needs beyond those caused by the dementing illness which would otherwise disqualify that person for acceptance or retention in a residential care facility for the elderly.

(6) The facility shall have a consulting physician to review the medical condition of residents.

(7) The facility shall conduct an admission assessment of the resident prior to admission, that shall include:

(A) A minimental test to assess the resident's level of cognitive impairment.

(B) An activities of daily living assessment.

(C) A behavioral assessment for the purpose of designing and implementing an individualized care plan of therapeutic activities.

The department shall develop criteria for granting exemptions from the requirements of this paragraph for circumstances when emergency placement is necessary.

(e) The Health and Welfare Agency's Alzheimer's Disease and Related Disorders Advisory Group, or any other entity, may provide assistance to the department, as requested by the department.

SEC. 165. Section 1569.692 of the Health and Safety Code is amended to read:

1569.692. (a) Notwithstanding paragraph (6) of subdivision (a) of Section 87572 of Title 22 of the California Code of Regulations, participating residential care facilities for the elderly may operate with a secured or locked perimeter if all of the following conditions are met:

(1) The resident is never locked in his or her room.

(2) With respect to residential care facility for the elderly sites, the resident is never physically or chemically restrained. For purposes of this section "chemically restrained" does not include medication prescribed by a physician and surgeon that is an essential component of the resident's treatment plan and that is generally recognized by the Alzheimer's disease diagnostic and treatment centers established pursuant to Section 125280 as appropriate treatment for a person with a medical diagnosis of dementia.

(3) With respect to residential care facility for the elderly sites, the resident has freedom of movement within the secured perimeter.

(4) Evidence shall be provided in the resident's file that a formal mental status questionnaire has been administered to rule out mental illness and to determine cognitive level.

(5) Evidence shall be provided in the resident's file that the following diagnostic tests have been given, as appropriate, to rule out reversible disease:

(A) At least one type of brain imaging test.
(B) A complete blood count.
(C) Serum glucose.
(D) Serum urea nitrogen.
(E) Creatinine level.
(F) Thyroid function.
(G) Seriology test for syphilis.
(H) Determination of B-12 and Folate levels.
(I) Urinalysis.
(J) Other tests indicated by medical history or physician and surgeon.

The department, in consultation with the Alzheimer's disease diagnostic and treatment centers, established pursuant to Section 125280, may require other tests or change the tests required in this paragraph to reflect advances in diagnostic technology.

(b) For purposes of this section, "secured perimeter" means that the external boundary of the facility, including yard areas, are functionally locked to the resident. If a facility provides multiple levels of care or has separate and distinct sections to the physical layout, each level or section licensed by the department may be secured. The purpose of the secured perimeter is to provide free movement in a safe area to residents within the boundaries of the facility, including yard areas, to prevent wandering.

SEC. 166. Section 1596.813 of the Health and Safety Code is amended to read:

1596.813. The department shall adopt regulations regarding immunization requirements for children enrolled in family day care homes in accordance with Chapter 1 (commencing with Section 120325) of Part 2 of Division 105.

1603.3. (a) Prior to a donation of blood or blood components each donor shall be notified in writing of, and shall have signed a written statement confirming the notification of, all of the following:

(1) That the blood or blood components shall be tested for evidence of antibodies to the probable causative agent of acquired immune deficiency syndrome.

(2) That donors found to have serologic evidence of the antibodies shall be placed on a confidential statewide Blood Donor Deferral

Register without a listing of the reason for being included on the register.

(3) That the donor shall be notified of the test results in accordance with the requirements described in subdivision (c).

(4) That the donor blood or blood component that is found to have the antibodies shall not be used for transfusion.

(5) That blood or blood components shall not be donated for transfusion purposes by a person if the person has reason to believe that he or she has been exposed to acquired immune deficiency syndrome.

(6) That the donor is required to complete a health screening questionnaire to assist in the determination as to whether he or she has been exposed to acquired immune deficiency syndrome.

(b) A blood bank or plasma center shall incorporate voluntary means of self-deferral for donors. The means of self-deferral may include, but are not limited to, a form with checkoff boxes specifying that the blood donated is for research or test purposes only and a telephone callback system for donors to use in order to inform the blood bank that blood donated should not be used for transfusion. The blood bank or plasma center shall inform the donor, in a manner that is understandable to the donor, that the self-deferral process is available and should be used if the donor has reason to believe that he or she is infected with the human immunodeficiency virus. The blood bank or plasma center shall also inform the donor that it is a felony pursuant to Section 1621.5 to donate blood if the donor knows that he or she has a diagnosis of AIDS or knows that he or she has tested reactive to the etiologic agent of AIDS or to antibodies to that agent.

(c) Blood or blood products from any donor initially found to have serologic evidence of antibodies to the probable causative agent of AIDS shall be retested for confirmation. Only if a further test confirms the conclusion of the earlier test shall the donor be notified of a reactive result by the blood bank or plasma center.

The state department shall develop permissive guidelines for blood banks and plasma centers on the method or methods to be used to notify a donor of a test result. Each blood bank or plasma center shall, upon positive confirmation using the best available and reasonable techniques, provide the information to the state department for inclusion in the Donor Deferral Register. Blood banks and plasma centers shall provide the information on donations testing reactive for the antibodies to the probable causative agent of AIDS and carrier donors of viral hepatitis to the department on a single list in the same manner without specification of the reason the donor appears on the list.

(d) The Blood Donor Deferral Register, as described in subdivision (e) of Section 1603.1, shall include names of individuals who are deferred from blood donations without identifying the reasons for deferral.

(e) Each blood bank or plasma center operating in California shall prominently display at each of its collection sites a notice that provides the addresses and telephone numbers of sites, within the proximate area of the blood bank or plasma center, where tests provided pursuant to Chapter 3 (commencing with Section 120885) of Part 4 of Division 105 may be administered without charge.

(f) The state department may promulgate any additional regulations it deems necessary to enhance the safety of donated blood and plasma. The state department may also promulgate regulations it deems necessary to safeguard the consistency and accuracy of HIV test results by requiring any confirmatory testing the state department deems appropriate for the particular types of HIV tests that have yielded "reactive," "positive," "indeterminate," or other similarly labeled results.

(g) Notwithstanding any other provision of law, no civil liability or criminal sanction shall be imposed for disclosure of test results to a public health officer when the disclosure is necessary to locate and notify a blood donor of a reactive result if reasonable efforts by the blood bank or plasma center to locate the donor have failed. Upon completion of the public health officer's efforts to locate and notify a blood donor of a reactive result, all records obtained from the blood bank pursuant to this subdivision, or maintained pursuant to this subdivision, including, but not limited to, any individual identifying information or test results, shall be expunged by the public health officer.

SEC. 168. Section 1603.4 of the Health and Safety Code is amended to read:

As used in this section, "public entity" includes, but is not limited to, any publicly owned or operated blood bank or plasma center and the state department.

(b) Neither the state department nor any blood bank or plasma center, including a blood bank or plasma center owned or operated by a public entity, shall be held liable for any damage resulting from the notification of test results, as set forth in paragraph (3) of subdivision (a) of, or in subdivision (c) of, Section 1603.3.

In addition and irrespective of the location of the blood collection center, a fee of five hundred dollars ($500) for each additional blood collection center operated by the blood bank up to a maximum of one thousand five hundred dollars ($1,500) for three or more blood collection centers.

(b) The maximum application and renewal fees for blood bank licenses pursuant to subdivision (a) shall be adjusted annually in the manner specified in Section 100450. The adjustments shall be rounded off to the nearest whole dollar.

(c) This chapter shall not be interpreted to exempt the state, a district, city, county, or city and county, from payment of fees or from meeting the requirements established pursuant to this chapter or regulations adopted thereunder.

SEC. 170. Section 1619 of the Health and Safety Code is amended to read:

1619. Nothing in this chapter shall be considered to be in conflict with Part 5 (commencing with Section 109875) of Division 104 of this code and all provisions of that division shall apply to biologics within the meaning of this chapter, except that this chapter shall not apply to products of:

(b) A laboratory licensed by the Animal Inspection and Quarantine Branch, Agricultural Research Service, United States Department of Agriculture.

SEC. 171. Section 1729.1 of the Health and Safety Code is amended to read:

1729.1. The fee specified in Section 1729 shall be adjusted annually in the manner specified in Section 100445. The adjustments shall be rounded off to the nearest whole dollar amount.

SEC. 172. Section 1797.98e of the Health and Safety Code is amended to read:

1797.98e. (a) It is the intent of the Legislature that a simplified, cost-efficient system of administration of this chapter be developed so that the maximum amount of funds may be utilized to reimburse physicians and surgeons and for other emergency medical services purposes. The administering agency shall select an administering officer and shall establish procedures and time schedules for the submission and processing of proposed reimbursement requests submitted by physicians and surgeons. The schedule shall provide for disbursements of moneys in the Emergency Medical Services Fund on at least an annual basis to applicants who have submitted accurate and complete data for payment by a date to be established by the administering agency. When the administering agency determines that claims for payment for physician and surgeon services are of sufficient numbers and amounts, that if paid, the claims would exceed

the total amount of funds available for payment, the administering agency shall fairly prorate, without preference, payments to each claimant at a level less than the maximum payment level. Each administering agency may encumber sufficient funds during one fiscal year to reimburse claimants for losses incurred during that fiscal year for which claims will not be received until after the fiscal year. The administering agency may, as necessary, request records and documentation to support the amounts of reimbursement requested by physicians and surgeons and the administering agency may review and audit the records for accuracy. Reimbursements requested and reimbursements made that are not supported by records may be denied to and recouped from physicians and surgeons. Physicians and surgeons found to submit requests for reimbursement that are inaccurate or unsupported by records may be excluded from submitting future requests for reimbursement. The administering officer shall not give preferential treatment to any facility, physician and surgeon, or category of physician and surgeon and shall not engage in practices that constitute a conflict of interest by favoring a facility or physician and surgeon with which the administering officer has an operational or financial relationship. A hospital administrator of a hospital owned or operated by a county of a population of 250,000 or more as of January 1, 1991, or a person under the direct supervision of that person, shall not be the administering officer. The board of supervisors of a county or any other county agency may serve as the administering officer.

(b) Each provider of health services that receives payment under this chapter shall keep and maintain records of the services rendered, the person to whom rendered, the date, and any additional information the administering agency may, by regulation, require, for a period of three years from the date the service was provided. The administering agency shall not require any additional information from a physician and surgeon providing emergency medical services that is not available in the patient record maintained by the entity listed in subdivision (f) where the medical services are provided, nor shall the administering agency require a physician and surgeon to make eligibility determinations.

(c) During normal working hours, the administering agency may make any inspection and examination of a hospital's or physician and surgeon's books and records needed to carry out the provisions of this chapter. A provider who has knowingly submitted a false request for reimbursement shall be guilty of civil fraud.

(d) Nothing in this chapter shall prevent a physician and surgeon from utilizing an agent who furnishes billing and collection services to the physician and surgeon to submit claims or receive payment for claims.

(e) All payments from the fund pursuant to Section 1797.98c to physicians and surgeons shall be limited to physicians and surgeons

who, in person, provide onsite services in a clinical setting, including, but not limited to, radiology and pathology settings.

(f) All payments from the fund shall be limited to claims for care rendered by physicians and surgeons to patients who are initially medically screened, evaluated, treated, or stabilized in any of the following:

(1) A basic or comprehensive emergency department of a licensed general acute care hospital.

(2) A site that was approved by a county prior to January 1, 1990, as a paramedic receiving station for the treatment of emergency patients.

(3) A standby emergency department that was in existence on January 1, 1989, in a hospital specified in Section 124840.

(4) For the 1991–92 fiscal year and each fiscal year thereafter, a facility which contracted prior to January 1, 1990, with the National Park Service to provide emergency medical services.

(g) Payments shall be made only for emergency services provided on the calendar day on which emergency medical services are first provided and on the immediately following two calendar days, however, payments may not be made for services provided beyond a 48-hour period of continuous service to the patient.

(h) Notwithstanding subdivision (g), if it is necessary to transfer the patient to a second facility providing a higher level of care for the treatment of the emergency condition, reimbursement shall be available for services provided at the facility to which the patient was transferred on the calendar day of transfer and on the immediately following two calendar days, however, payments may not be made for services provided beyond a 48-hour period of continuous service to the patient.

(i) Payment shall be made for medical screening examinations required by law to determine whether an emergency condition exists, notwithstanding the determination after the examination that a medical emergency does not exist. Payment shall not be denied solely because a patient was not admitted to an acute care facility. Payment shall be made for services to an inpatient only when the inpatient has been admitted to a hospital from an entity specified in subdivision (f).

(j) The administering agency shall compile a quarterly and year-end summary of reimbursements paid to facilities and physicians and surgeons. The summary shall include, but shall not be limited to, the total number of claims submitted by physicians and surgeons in aggregate from each facility and the amount paid to each physician and surgeon. The administering agency shall provide copies of the summary and forms and instructions relating to making claims for reimbursement to the public, and may charge a fee not to exceed the reasonable costs of duplication.

(k) Each county shall establish an equitable and efficient mechanism for resolving disputes relating to claims for

reimbursements from the fund. The mechanism shall include a requirement that disputes be submitted either to binding arbitration conducted pursuant to arbitration procedures set forth in Chapter 3 (commencing with Section 1282) and Chapter 4 (commencing with Section 1285) of Part 3 of Title 9 of the Code of Civil Procedure, or to a local medical society for resolution by neutral parties.

The registration certificate shall be shown upon demand to any representative of the department, officer of the Department of the California Highway Patrol, any local health officer, or any public officer designated by the department. Any person registered pursuant to this section may obtain additional copies of the registration from the department upon the payment of a fee of two dollars ($2) for each copy requested, in accordance with Section 12196 of the Government Code.

(3) The hazardous waste information required and collected for registration pursuant to this subdivision shall be recorded and maintained in the management information system operated by the Department of the California Highway Patrol.

(b) Persons transporting only septic tank, cesspool, seepage pit, or chemical toilet waste that does not contain a hazardous waste originating from other than the body of a human or animal and who hold an unrevoked registration issued by the health officer or the health officer's authorized representative pursuant to Article 1 (commencing with Section 117400) of Chapter 4 of Part 13 of Division 104 are exempt from the requirements of subdivision (a).

(c) Except as provided in subdivision (g), persons transporting hazardous wastes to a permitted hazardous waste facility for transfer, treatment, recycling, or disposal, that do not exceed a total volume of five gallons or do not exceed a total weight of 50 pounds, are exempt from the requirements of subdivisions (a) and (e) and from the requirements of Section 25160 concerning possession of the manifest while transporting hazardous waste, upon meeting all of the following conditions:

(1) The hazardous wastes are transported in closed containers and packed in a manner that prevents the containers from tipping, spilling, or breaking during the transporting.

(2) Different hazardous waste materials are not mixed within a container during the transporting.

(3) If the hazardous waste is extremely hazardous waste or acutely hazardous waste, the extremely hazardous waste or acutely hazardous waste was not generated in the course of any business, and is not more than 2.2 pounds.

(4) The person transporting the hazardous waste is the producer of that hazardous waste, and the person produces not more than 100 kilograms of hazardous waste in any month.

(5) The person transporting the hazardous waste does not accumulate more than a total of 1,000 kilograms of hazardous waste onsite at any one time.

(d) Any person registered as a hazardous waste transporter pursuant to subdivision (a) is not subject to the registration requirements of Article 1 (commencing with Section 117400) of Chapter 4 of Part 13 of Division 104, but shall comply with those terms, conditions, orders, and directions that the health officer or the health officer's authorized representative may determine to be necessary for the protection of human health and comfort, and shall otherwise comply with the requirements for statements as provided in Section 117435. Violations of those requirements of Section 117435 shall be punished as provided in Section 117450. Proof of registration pursuant to subdivision (a) shall be submitted by mail or in person to the local health officer in the city or county in which the registered hazardous waste transporter will be conducting the activities described in Section 117405.

(e) It is unlawful for any person to transport hazardous waste in any truck, trailer, semitrailer, vacuum tank, or cargo tank not inspected by the Department of the California Highway Patrol or to transport hazardous waste in any container, other than a container packaged pursuant to United States Department of Transportation regulations, which has not been inspected by the Department of the California Highway Patrol.

(f) Any person authorized to collect solid waste, as defined in Section 40191 of the Public Resources Code, who unknowingly transports hazardous waste to a solid waste facility, as defined in Section 40194 of the Public Resources Code, incidental to the collection of solid waste is not subject to subdivisions (a) and (e).

(g) Any person transporting household hazardous waste or a conditionally exempt small quantity generator transporting hazardous waste to an authorized household hazardous waste collection facility pursuant to Section 25218.5 is exempt from subdivisions (a) and (e) and from paragraph (1) of subdivision (d) of Section 25160 requiring possession of the manifest while transporting hazardous waste.

(h) This section shall become operative January 1, 1998.

SEC. 233. Section 25174.7 of the Health and Safety Code is amended to read:

25174.7. (a) The fees provided for in Sections 25174.1 and 25205.5 do not apply to any of the following:

(1) Hazardous wastes which result when a government agency, or its contractor, removes or remedies a release of hazardous waste in the state caused by another person.

(2) Hazardous wastes generated or disposed of by a public agency operating a household hazardous waste collection facility in the state pursuant to Article 10.8 (commencing with Section 25218), including, but not limited to, hazardous waste received from conditionally exempt small quantity commercial generators, authorized pursuant to Section 25218.3.

(3) Hazardous wastes generated or disposed of by local vector control agencies which have entered into a cooperative agreement pursuant to Section 116180 or by county agricultural commissioners, if the hazardous wastes result from their control or regulatory activities and if they comply with the requirements of this chapter and regulations adopted pursuant thereto.

(4) Hazardous waste disposed of, or submitted for disposal or treatment, by any person, which is discovered and separated from solid waste as part of a load checking program.

(b) Notwithstanding paragraph (1) of subdivision (a), any person responsible for a release of hazardous waste, which has been removed or remedied by a government agency, or its contractor, shall pay the fee pursuant to Section 25174.1.

(c) Any person who acquires land for the sole purpose of owner-occupied single-family residential use, and who acquires that

land without actual or constructive notice or knowledge that there is a tank containing hazardous waste on or under that property, is exempt from the fees imposed pursuant to Sections 25174.1, 25205.5, and 25345, in connection with the removal of the tank.

SEC. 234. Section 25187 of the Health and Safety Code, as amended by Section 26.5 of Chapter 639 of the Statutes of 1995, is amended to read:

25187. (a) (1) Whenever the department, a unified program agency authorized pursuant to paragraph (2), local health officer authorized pursuant to Section 25187.7, or a local public officer designated by the director pursuant to subdivision (a) of Section 25180 and authorized pursuant to Section 25187.7 determines that any person has violated, is in violation of, or threatens, as defined in subdivision (e) of Section 13304 of the Water Code, to violate, this chapter, Chapter 6.8 (commencing with Section 25300) of this division, or Article 3 (commencing with Section 114990) of Chapter 8 of Part 9 of Division 104, or any permit, rule, regulation, standard, or requirement issued or adopted pursuant to this chapter, Chapter 6.8 (commencing with Section 25300) of this division, or Article 3 (commencing with Section 114990) of Chapter 8 of Part 9 of Division 104, or the department, an authorized unified program agency, an authorized local health officer, or an authorized local public officer determines that there is or has been a release, as defined in Chapter 6.8 (commencing with Section 25300), of hazardous waste or constituents into the environment from a hazardous waste facility, the department, an authorized unified program agency, authorized local health officer, or authorized local public officer may issue an order specifying a schedule for compliance or correction and imposing an administrative penalty for any violation of this chapter or any permit, rule, regulation, standard, or requirement issued or adopted pursuant to this chapter. In the case of a release of hazardous waste or constituents into the environment from a hazardous waste facility that is required to obtain a permit pursuant to Article 9 (commencing with Section 25200), the department shall pursue the remedies available under this chapter, including the issuance of an order for corrective action pursuant to this section, before using the legal remedies available pursuant to Chapter 6.8 (commencing with Section 25300), except in any of the following circumstances:

(A) Where the person who is responsible for the release voluntarily requests in writing that the department issue an order to that person to take corrective action pursuant to Chapter 6.8 (commencing with Section 25300).

(B) Where the person who is responsible for the release is unable to pay for the cost of corrective action to address the release. For purposes of this subparagraph, the inability of a person to pay for the cost of corrective action shall be determined in accordance with the policies of the Environmental Protection Agency for the implementation of Section 9605 of Title 42 of the United States Code.

(C) Where the person responsible for the release is unwilling to perform corrective action to address the release. For purposes of this subparagraph, the unwillingness of a person to take corrective action shall be determined in accordance with the policies of the Environmental Protection Agency for the implementation of Section 9605 of Title 42 of the United States Code.

(D) Where the release is part of a regional or multisite groundwater contamination problem that cannot, in its entirety, be addressed using the legal remedies available pursuant to this chapter and for which other releases that are part of the regional or multisite groundwater contamination problem are being addressed using the legal remedies available pursuant to Chapter 6.8 (commencing with Section 25300).

(E) Where an order for corrective action has already been issued against the person responsible for the release, or the department and the person responsible for the release have, prior to January 1, 1996, entered into an agreement to address the required cleanup of the release pursuant to Chapter 6.8 (commencing with Section 25300).

(F) Where the hazardous waste facility is owned or operated by the federal government.

(2) The authority granted under this section to a unified program agency is limited to the issuance of orders to correct releases from, and violations of the requirements of this chapter listed in paragraph (1) of subdivision (c) of Section 25404 occurring at, a unified program facility within the jurisdiction of the CUPA, and is subject to the provisions of Section 25404.1.

(A) Notwithstanding paragraph (1) and Section 25187.7, within the jurisdiction of a CUPA, the unified program agencies shall be the only local agencies authorized to issue orders under this section to correct releases from, and violations of the requirements of this chapter listed to paragraph (1) of subdivision (c) of Section 25404 occurring at, a unified program facility.

(B) The CUPA shall annually submit a summary report to the department on the status of orders issued by the unified program agencies under this section and Section 25187.1.

(C) The department shall adopt regulations to implement this paragraph and paragraph (2) of subdivision (a) of Section 25187.1. The regulations shall include, but not be limited to, all of the following requirements:

(i) A requirement that the unified program agency shall consult with the district attorney for the county on the development of policies to be followed by the unified program agency in exercising the authority delegated pursuant to this section and Section 25187.1.

(ii) Provisions to ensure coordinated and consistent application of this section and Section 25187.1 when both the department and the unified program agency have or will be issuing orders under one or both of these sections at the same facility.

(iii) Provisions to ensure that the enforcement authority granted to the unified program agencies will be exercised consistently throughout the state.

(iv) A requirement that the unified program agency have the ability to represent itself in administrative appeal hearings.

(v) Minimum training requirements for staff of the unified program agency relative to this section and Section 25187.1.

(vi) Procedures to be followed by the department to rescind the authority granted to a unified program agency under this section and Section 25187.1, if the department finds that the unified program agency is not exercising that authority in a manner consistent with the provisions of this chapter and Chapter 6.11 (commencing with Section 25404) and the regulations adopted pursuant thereto.

(3) An order issued pursuant to this section shall include a requirement that the person take corrective action with respect to hazardous waste, including the cleanup of the hazardous waste, abatement of the effects thereof, and any other necessary remedial action. An order issued pursuant to this section that requires corrective action at a hazardous waste facility shall require that corrective action be taken beyond the facility boundary, where necessary to protect human health or the environment. The order shall incorporate, as a condition of the order, any applicable waste discharge requirements issued by the State Water Resources Control Board or a California regional water quality control board, and shall be consistent with all applicable water quality control plans adopted pursuant to Section 13170 of the Water Code and Article 3 (commencing with Section 13240) of Chapter 4 of Division 7 of the Water Code and state policies for water quality control adopted pursuant to Article 3 (commencing with Section 13140) of Chapter 3 of Division 7 of the Water Code existing at the time of the issuance of the order, to the extent that the department, authorized unified program agency, authorized local health officer, or authorized local public officer determines that those plans and policies are not less stringent than this chapter and regulations adopted pursuant to this chapter. The department, authorized unified program agency, authorized local health officer, or authorized local public officer also may include any more stringent requirement that the department, authorized unified program agency, authorized local health officer, or authorized local public officer determines is necessary or appropriate to protect water quality. Persons who are subject to an order pursuant to this section include present and prior owners, lessees, or operators of the property where the hazardous waste is located, present or past generators, storers, treaters, transporters, disposers, and handlers of hazardous waste, and persons who arrange, or have arranged, by contract or other agreement, to store, treat, transport, dispose of, or otherwise handle hazardous waste.

(4) In an order proposing a penalty pursuant to this section, the department, authorized unified program agency, authorized local

health officer, or authorized local public officer shall take into consideration the nature, circumstances, extent, and gravity of the violation, the violator's past and present efforts to prevent, abate, or clean up conditions posing a threat to the public health or safety or the environment, the violator's ability to pay the proposed civil penalty, and the prophylactic effect that imposition of the proposed penalty would have on both the violator and the regulated community as a whole.

(b) For purposes of subdivision (a), "hazardous waste facility" includes the entire site that is under the control of an owner or operator engaged in the management of hazardous waste.

(c) Any order issued pursuant to subdivision (a) shall be served by personal service or certified mail and shall inform the person so served of the right to a hearing.

(d) (1) Any person served with an order pursuant to subdivision (c) who has been unable to resolve any violation or deficiency on an informal basis with the department, authorized unified program agency, authorized local health officer, or authorized local public officer may, within 15 days after service of the order, request a hearing by filing with the department, authorized unified program agency, authorized local health officer, or authorized local public officer a notice of defense. The notice shall be filed with the office that issued the order. A notice of defense shall be deemed filed within the 15-day period provided by this subdivision if it is postmarked within that 15-day period. If no notice of defense is filed within the time limits provided by this subdivision, the order shall become final.

(2) If a person served with an order pursuant to subdivision (c) chooses to resolve the content, terms, or conditions of the order directly with the department, authorized unified program agency, authorized local health officer, or authorized local public officer and does not file an administrative or judicial appeal, the person may request, and the department, authorized unified program agency, authorized local health officer, or authorized local public officer shall prepare, a written statement, that the department, authorized unified program agency, authorized local health officer, or authorized local public officer shall amend into the order, that explains the violation and the penalties applied, including the nature, extent, and gravity of the violations, and that includes a brief description of any mitigating circumstances and any explanations by the respondent. Any amendment to include the written statement prepared pursuant to this subdivision does not constitute a new order and does not create new appeal rights.

(e) Except as provided in subdivision (f), any hearing requested under subdivision (d) shall be conducted within 90 days after receipt of the notice of defense by an administrative law judge of the Office of Administrative Hearings of the Department of General Services in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the

department, authorized unified program agency, authorized local health officer, or authorized local public officer shall have all the authority granted to an agency by those provisions.

(f) Any provision of an order issued under subdivision (a), except the imposition of an administrative penalty, shall take effect upon issuance by the department or unified program agency if the department or unified program agency finds that the violation or violations of law associated with that provision may pose an imminent and substantial endangerment to the public health or safety or the environment, and a request for a hearing shall not stay the effect of that provision of the order pending a decision by the department under subdivision (e). However, in the event that the department or unified program agency determines that any or all provisions of the order are so related that the public health or safety or the environment can be protected only by immediate compliance with the order as a whole, then the order as a whole, except the imposition of an administrative penalty, shall take effect upon issuance by the department or unified program agency. A request for a hearing shall not stay the effect of the order as a whole pending a decision by the hearing officer under subdivision (e). Any order issued after a hearing requested under subdivision (d) shall take effect upon issuance by the department or unified program agency.

(g) A decision issued pursuant to this section may be reviewed by the court pursuant to Section 11523 of the Government Code. In all proceedings pursuant to this subdivision, the court shall uphold the decision of the department, authorized unified program agency, authorized local health officer, or authorized local public officer if the decision is based upon substantial evidence in the whole record. The filing of a petition for writ of mandate shall not stay any corrective action required pursuant to this chapter or the accrual of any penalties assessed pursuant to this chapter. This subdivision does not prohibit the court from granting any appropriate relief within its jurisdiction.

(h) Except as otherwise provided in subdivisions (i) and (j), all administrative penalties collected under this section shall be placed in a separate subaccount in the Hazardous Waste Control Account and shall be available for expenditure by the department only upon appropriation by the Legislature.

(i) Fifty percent of the penalties collected from actions brought by unified program agencies, local health officers or designated local public officers pursuant to this section shall be paid to the city or county whose unified program agency, local health officer, or designated local public officer imposed the penalty, and shall be deposited into a special account that may be expended to fund the activities of the unified program agency, local health officer, or designated local public officer in enforcing this chapter pursuant to Section 25180, after the director determines that the local agency enforcement of this section is fair and reasonable.

(j) Fifty percent of the penalties collected from actions brought by unified program agencies, local health officers, or designated local public officers pursuant to this section shall be paid to the department and deposited in the Hazardous Waste Control Account for expenditure by the department, upon appropriation by the Legislature, in connection with activities of unified program agencies, local health officers, or designated local public officers.

SEC. 235. Section 25198 of the Health and Safety Code, as amended by Section 1 of Chapter 301 of the Statutes of 1995, is amended to read:

25198. (a) For purposes of this section, "state department" means the State Department of Health Services.

(b) Except as provided in subdivision (c), the analysis of any material required by this chapter shall be performed by a laboratory certified by the state department pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101, except that laboratories previously issued a certificate under this section shall be deemed certified until the time that certification under Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101 has been either granted or denied, but not beyond the expiration date shown on the certificate previously issued under this section.

(c) The requirements of subdivision (b) shall not apply to analyses performed by a laboratory pursuant to the facility's waste analysis plan, that is prepared in accordance with the regulations adopted by the Department of Toxic Substances Control pursuant to this chapter, if both of the following conditions are met:

(1) The laboratory is owned or operated by the same person who owns or operates the facility at which the waste will be managed, and the facility is a hazardous waste treatment, storage, or disposal facility that is required to obtain a hazardous waste facilities permit pursuant to Article 9 (commencing with Section 25200).

(2) The analysis is conducted for any of the following purposes:

(A) To determine whether a facility will accept the hazardous waste for transfer, storage, or treatment, as described in paragraph (3) of subdivision (a) of Section 66264.13 of, and paragraph (3) of subdivision (a) of Section 66265.13 of, Title 22 of the California Code of Regulations, as those sections read on January 1, 1996.

(B) To ensure that the analysis used to determine whether a facility will accept the hazardous waste for transfer, storage, or treatment is accurate and up to date, as described in paragraph (4) of subdivision (a) of Section 66264.13 of, and paragraph (4) of subdivision (a) of Section 66265.13 of, Title 22 of the California Code of Regulations, as those sections read on January 1, 1996.

(C) To determine whether the hazardous waste received at the facility for transfer, storage, or treatment matches the identity of the hazardous waste designated on an accompanying manifest or shipping paper, as described in paragraph (5) of subdivision (a) of

Section 66264.13 of, and paragraph (5) of subdivision (a) of Section 66265.13 of, the California Code of Regulations, as those sections read on January 1, 1996.

(d) An analysis performed in accordance with subdivision (c) is not an analysis performed for regulatory purposes within the meaning of paragraph (4) of subdivision (c) of Section 100825.

(e) The exemption provided by subdivision (c) does not exempt the analyses of waste for purposes of disposal from the requirements of subdivision (b) requiring certified laboratory analyses. The analyses described in subdivision (c) are not exempt from any other requirement of law, regulation, or guideline governing quality assurance and quality control.

(f) No person or public entity of the state shall contract with a laboratory for environmental analyses for which certification is required pursuant to this chapter, unless the laboratory holds a valid certificate from the state department.

(g) This section shall remain in effect until January 1, 2001, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 2001, deletes or extends that date.

SEC. 236. Section 25198 of the Health and Safety Code, as added by Section 2 of Chapter 301 of the Statutes of 1995, is amended to read:

25198. (a) For purposes of this section, "state department" means the State Department of Health Services.

(b) The analysis of any material required by this chapter shall be performed by a laboratory certified by the state department pursuant to Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101, except that laboratories previously issued a certificate under this section shall be deemed certified until the time that certification under Article 3 (commencing with Section 100825) of Chapter 4 of Part 1 of Division 101 has been either granted or denied, but not beyond the expiration date shown on the certificate previously issued under this section.

(c) No person or public entity of the state shall contract with a laboratory for environmental analyses for which certification is required pursuant to this chapter, unless the laboratory holds a valid certificate.

(d) This section shall become operative January 1, 2001.

SEC. 237. Section 25208.17 of the Health and Safety Code is amended to read:

25208.17. (a) Except as provided in subdivision (g), a person specified in subdivision (h) is exempt from filing the report required by Section 25208.7 if the surface impoundment has been closed, or will be closed before January 1, 1988, in accordance with Subchapter 15 (commencing with Section 2510) of Chapter 3 of Title 23 of the California Administrative Code, and it has only been used for the discharge of economic poisons, as defined in Section 12753 of the Food and Agricultural Code, and if the person submits an application for exemption to the regional board on or before February 1, 1987,

pursuant to subdivision (b) and an initial hydrogeological site assessment report to the regional board on or before July 1, 1987. A qualified person shall be responsible for the preparation of the hydrogeological site assessment report and shall certify its completeness and accuracy.

(b) A person seeking exemption from Section 25208.7 shall file an application for exemption with the regional board on or before February 1, 1987, together with an initial filing fee of three thousand dollars ($3,000). The application shall include the names of persons who own or operate each surface impoundment for which the exemption is sought and the location of each surface impoundment for which an exemption is sought.

(c) Notwithstanding Section 25208.3, each person filing an application for exemption pursuant to subdivision (b) shall pay only the application fee provided in subdivision (b) and any additional fees assessed by the state board to recover the actual costs incurred by the state board and regional boards to administer this section. The person is not liable for fees assessed pursuant to Section 25208.3, except that, if the person is required to comply with Section 25208.7 or 25208.6, the fees assessed under this section shall include the costs of the regional board and state board to administer those sections.

(d) If a person fails to pay the initial filing fee by February 1, 1987, or fails to pay any subsequent additional assessment pursuant to subdivision (c), the person shall be liable for a penalty of not more than 100 percent of the fees due and unpaid, but in an amount sufficient to defer future noncompliance, as based upon that person's past history of noncompliance and ability to pay, and upon additional expenses incurred by the regional board and state board as a result of this noncompliance.

(e) Notwithstanding Section 25208.3, after the regional board has made a determination pursuant to subdivision (g), a final payment or refund of fees specified in subdivision (c) shall be made so that the total fees paid by the person shall be sufficient to cover the actual costs of the state board and the regional board in administering this section.

(f) The hydrogeological site assessment report shall contain for each surface impoundment, all of the following information:

(1) A description of the surface impoundment, including its physical characteristics, its age, the presence or absence of a liner, a description of the liner, the liner's compatibility with the hazardous wastes discharged to the impoundment, and the design specifications of the impoundment.

(2) A description of the volume and concentration of hazardous waste constituents placed in the surface impoundment, based on a representative chemical analysis of the specific hazardous waste type and accounting for variance in hazardous waste constituents over time.

(3) An analysis of surface and groundwater on, under, and within one mile of the surface impoundment to provide a reliable indication of whether or not hazardous constituents or leachate is leaking or has been released from the surface impoundment.

(4) A chemical characterization of soil-pore liquid in areas which are likely to be affected by hazardous constituents or leachate released from the surface impoundment, as compared to geologically similar areas near the surface impoundment that have not been affected by releases from the surface impoundment. This characterization shall include:

(A) A description of the composition of the vadose zone beneath the surface impoundment. This description shall include a chemical and hydrogeological characterization of both the consolidated and unconsolidated geologic materials underlying the surface impoundment, and an analysis for pollutants, including those constituents discharged into the surface impoundment. This description shall also include soil moisture readings from a representative number of points around the surface impoundment's perimeter and at the maximum depth of the surface impoundment. If the regional board determines that the use of suction type soil sampling devices are infeasible due to climate, soil hydraulics, or soil texture, the regional board may authorize the use of alternative devices. The initial report shall contain all data in tabular form so that data, constituents, and concentrations are readily discernible.

(B) A determination of the chemical characteristics of the soil made by collecting a soil sample upgradient from the impoundment or from an area that has not been affected by seepage from the surface impoundment and that is in a hydrogeologic environment similar to the surface impoundment. The determinations shall be analyzed for the same pollutants analyzed pursuant to subparagraph (A).

(5) A description of current groundwater and vadose zone monitoring being conducted at the surface impoundment for leak detection, including detailed plans and equipment specifications and a technical report that provides the rationale for the spatial distribution of groundwater and vadose zone monitoring points for the design of monitoring facilities, and for the selection of monitoring equipment. This description shall include:

(A) A map showing the location of monitoring facilities with respect to each surface impoundment.

(B) Drawings and design data showing construction details of groundwater monitoring facilities, including all of the following:

(i) Casing and hole diameter.

(ii) Casing materials.

(iii) Depth of each monitoring well.

(iv) Size and position of perforations.

(v) Method for joining sections of casing.

(vi) Nature and gradation of filter material.

(vii) Depth and composition of annular seals.

(viii) Method and length of time of development.

(ix) Method of drilling.

(C) Specifications, drawings, and data for the location and installation of vadose zone monitoring equipment.

(D) Discussion of sampling frequency and methods and analytical protocols used.

(E) Justification of indicator parameters used.

(6) Documentation demonstrating that the monitoring system and methods used at the facility can detect any seepage before the hazardous waste constituents enter the waters of the state. This documentation shall include, but is not limited to, substantiation of each of the following:

(A) The monitoring facilities are located close enough to the surface impoundment to identify lateral and vertical migration of any constituents discharged to the impoundment.

(B) The groundwater monitoring wells are not located within the influence of any adjacent pumping water wells that might impair their effectiveness.

(C) The groundwater monitoring wells are screened only in the zone of groundwater to be monitored.

(D) The casing material in the groundwater monitoring wells does not interfere with, or react to, the potential contaminants of major concern at the impoundment.

(E) The casing diameter allows an adequate amount of water to be removed during sampling and allows full development of each well.

(F) The annular seal of each groundwater monitoring well prevents pollutants from migrating down the well.

(G) The water samples are collected after at least five well volumes have been removed from the well and that the samples are collected, preserved, transported, handled, analyzed, and reported in accordance with guidelines for collection and analysis of groundwater samples that provide for preservation of unstable indicator parameters and prevent physical or chemical changes that could interfere with detection of indicator parameters. If the wells are low-yield wells, in that the wells are incapable of yielding three well volumes during a 24-hour period, the methods of water sample collection shall insure that a representative sample is obtained from the well.

(H) The hazardous waste constituents selected for analysis are specific to the facility, taking into account the chemical composition of hazardous wastes previously placed in the surface impoundment.

(I) The frequency of monitoring is sufficient to give timely warning of any leakage or release of hazardous constituents or leachate so that remedial action can be taken prior to any adverse changes in the quality of the groundwater.

(7) A written statement from the qualified person preparing the report indicating whether any hazardous constituents or leachate has migrated into the vadose zone, water-bearing strata, or waters of the state in concentrations that pollute or threaten to pollute the waters of the state.

(8) A written statement from the qualified person preparing the report indicating whether any migration of hazardous constituents or leachate into the vadose zone, water-bearing strata, or waters of the state is likely or not likely to occur within five years, and any evidence supporting that statement.

(g) The regional board shall complete a thorough analysis of each hydrogeological site assessment report submitted pursuant to subdivision (b) within one year after submittal. If the regional board, determines that a hazardous waste constituent from the surface impoundment is polluting or threatening to pollute, as defined in subdivision (*l*) of Section 13050 of the Water Code, both of the following shall occur:

(1) The regional board shall issue a cease and desist order or a cleanup and abatement order that prohibits any discharge into the surface impoundment and that requires compliance with Section 25208.6.

(2) The person shall file a report pursuant to Section 25208.7 within nine months after the regional board makes the determination pursuant to subdivision (g). In making any determination under this subdivision, the regional board shall state the factual basis for the determinations.

(h) For purposes of this section, person means only the following:

(1) Pest control operators and businesses licensed pursuant to Section 11701 of the Food and Agricultural Code.

(2) Local governmental vector control agencies who have entered into a cooperative agreement with the department pursuant to Section 116180.

SEC. 238. Section 25249.11 of the Health and Safety Code is amended to read:

25249.11. Definitions.

For purposes of this chapter:

Sec. 6501 et seq., Sec. 2101, P.L. 101-624), all products sold as organic in California shall be certified by a federally accredited certifying agent, if they are required to be certified under the federal act. In addition food shall be sold as organic only in accordance with this section, subdivisions (c) and (d) of Section 110830, Sections 110855 to 110870, inclusive, and Section 46009 of the Food and Agricultural Code. The Secretary of Food and Agriculture, director, and the county agricultural commissioners shall carry out this subdivision to the extent that adequate funds are made available for that purpose.

(b) Food sold as organic may be certified only by a certification organization registered pursuant to subdivisions (c) and (d), by the director pursuant to subdivision (f), by a certification organization registered pursuant to Section 46009 of the Food and Agricultural Code, or by the Secretary of Food and Agriculture or a county agricultural commissioner pursuant to Section 46009 of the Food and Agricultural Code or a federally accredited certification organization.

(c) In order to be registered, a certification organization shall meet all of the following minimum qualifications:

(1) Be the certification organization for at least five legally separate and distinct, financially unrelated, and independently controlled persons involved in the production or processing of food sold as organic.

(2) Be a legally separate and distinct entity from any person whose food is certified by the organization. A certification organization shall be considered legally separate and distinct notwithstanding the fact that persons or representatives of persons whose food is certified serve as directors, officers, or in other capacities for the certification organization, so long as those persons or representatives of those persons do not exercise decisionmaking authority over certification of that particular food.

(3) Have no financial interest in the sale of the food, except that fees charged by the certification organization to cover the reasonable costs of operating the certification organization do not constitute a financial interest for purposes of this section.

(d) Effective January 1, 1992, a certification organization that certifies processed food sold as organic, except for processed meat, fowl, or dairy products, shall register with the director and shall thereafter annually renew the registration unless no longer engaged in the activities requiring the registration. Registration shall be on a form provided by the director, shall include the filing of a certification plan as specified in Section 110865 and payment of the fee specified in subdivision (f). The certification program shall be subject to all provisions regarding certification organizations contained in this article, except that the requirements of subdivisions (c) and (d) shall not apply, and the program shall meet all of the requirements for federal certification programs, including federal accreditation.

(f) The registration fee shall be five hundred dollars ($500), unless the certification organization is also registered as a certifier of producers by the Secretary of Food and Agriculture under Section 46009 of the Food and Agricultural Code, in that case the registration fee shall be one hundred dollars ($100).

(g) The director may audit the organization's certification procedures and records at any time. Records of certification organizations not otherwise required to be released upon request or made publicly available shall not be released by the director except to other employees of the department, the Department of Food and Agriculture, a county agricultural commissioner, the Attorney General, any prosecuting attorney, or any government agency responsible for enforcing laws related to the activities of the person subject to this part.

(1) From 60 degrees Celsius, (140 degrees Fahrenheit) to 21 degrees Celsius (70 degrees Fahrenheit) within two hours.

(2) From 21 degrees Celsius (70 degrees Fahrenheit) to 5 degrees Celsius (41 degrees Fahrenheit) or below within four hours.

(c) If prepared at ambient temperature, potentially hazardous food shall be cooled rapidly from ambient temperature to 5 degrees Celsius (41 degrees Fahrenheit) or below within four hours.

(d) The rapid cooling of potentially hazardous food shall be completed by one or more of the following methods based on the type of food being cooled:

(1) Placing the food in shallow, heat-conducting pans.

(2) Separating the food into smaller or thinner portions.

(3) Using rapid-cooling equipment.

(4) Using containers that facilitate heat transfer.

(5) Adding ice as an ingredient.

(6) Inserting appropriately designed containers in an ice bath and stirring frequently.

(7) In accordance with a HACCP plan adopted pursuant to Section 114055 or 114056.

(8) Utilizing other effective means that have been approved by the enforcement agency.

(e) When potentially hazardous food is placed in cooling or cold-holding equipment, food containers in which the food is being cooled shall be:

(1) Arranged in the equipment, to the extent practicable, to provide maximum heat transfer through the container walls.

(2) Loosely covered, or uncovered if protected from overhead contamination, to facilitate heat transfer from the surface of the food.

(3) Stirred as necessary to evenly cool a liquid or a semiliquid food.

(f) Notwithstanding subdivision (e), other methods of cooling potentially hazardous food may be utilized, unless deemed unacceptable by the enforcing agency, including, but not limited to, a HACCP plan adopted pursuant to Section 114055 or 114056.

(2) Is received in a wholesome condition.

(3) Is in containers that are not contaminated or damaged in a manner as to permit contamination of food.

(4) Is in containers and on pallets that are not infested with vermin.

The shellfish certification tag or label shall be maintained upon the original container until emptied and then retained for a period of not less than 90 days from the date of receipt. In the case of a food establishment that sells full containers of shucked or unshucked shellfish, an invoice or written record containing all of the required shellfish information may be maintained, for a period of not less than 90 days from the date of receipt, in lieu of maintaining the certification tag or label as provided in the preceding sentence.

(2) Live molluscan shellfish may not be accepted unless received at an internal temperature of 7 degrees Celsius (45 degrees Fahrenheit) or below; provided, however, that the shellfish may be accepted at a temperature above 7 degrees Celsius (45 degrees Fahrenheit) if received on the date of harvest.

(f) Frozen food shall be accepted only if there are no visible signs of thawing or refreezing.

All returned or damaged food products and food product from which the label has been removed shall be separated and stored in a separate area and in a manner that shall prevent adulteration of other foods and shall not contribute to a vermin problem. Bulk food not stored in original packaging shall be stored in containers identifying the food by common name.

(b) Unpackaged food may be displayed in bulk for customer self-service under the following conditions:

(1) Produce and food requiring further processing may be displayed on open counters or in containers.

(2) Salad bars, buffet-type food service, and other ready-to-eat food shall:

(4) Nonfood items shall be displayed and stored in an area separate from food.

(c) Unpackaged food may be displayed and sold in bulk in other than self-service containers if both of the following conditions are satisfied:

(1) The food is served by an employee of the food establishment directly to a consumer.

(2) The food is displayed in clean, sanitary, and covered or otherwise protected containers.

(d) If the director makes a specific finding that a disease is actually transmitted by the method of dispensing unpackaged foods, as prescribed by this section, the director may establish by regulation greater restrictions on the sale of that food than are required by this section. These regulations shall bear directly on the specific

relationship between the disease actually transmitted and the dispensing methods permitted by this section.

It is the intent of the Legislature that the California Uniform Retail Food Facilities Law Revision Committee, in its effort to bring forward a uniform state food health code that is appropriate for every type of retail food facility, recommend internal cooking temperatures and time ratios that kill the Escherichia Coli 0157: H_7 (E-Coli) bacteria in ground beef of 145 degrees Fahrenheit for three minutes; 150 degrees Fahrenheit for one minute; or 155 degrees Fahrenheit for 15 seconds, or as otherwise approved by the State Department of Health Services.

SEC. 283. Section 27623 of the Health and Safety Code, as amended by Chapter 852 of the Statutes of 1995, is amended and renumbered to read:

114090. (a) All utensils and equipment shall be scraped, cleaned, or sanitized as circumstances require.

(b) All food establishments in which food is prepared or in which multiservice kitchen utensils are used shall have a sink with at least three compartments with two integral metal drainboards. Additional drainage space may be provided that is not necessarily attached to the sink. The sink compartments and drainage facilities shall be large enough to accommodate the largest utensil or piece of equipment to be cleaned therein. A one-compartment or two-compartment sink that is in use on January 1, 1996, may be continued in use until replaced. The enforcement officer may approve the continued use of a one-compartment or two-compartment sink even upon replacement if the installation of a three-compartment sink would not be readily achievable and where other approved sanitation methods are used.

(c) All food establishments in which multiservice consumer utensils are used shall clean the utensils in one of the following ways:

(1) Handwashing of utensils using a three-compartment metal sink with dual integral metal drainboards where the utensils are first washed by hot water and a cleanser until they are clean, then rinsed in clear, hot water before being immersed in a final warm solution meeting the requirements of Section 114060.

(2) Machine washing of utensils in machines using a hot water or chemical sanitizing rinse shall meet or be equivalent to sanitation standards approved pursuant to Section 114065 and shall be installed and operated in accordance with those standards. The machines shall be of a type, and shall be installed and operated as approved by the department. The velocity, quantity, and distribution of the washwater, type and concentration of detergent used therein, and the time the utensils are exposed to the water, shall be sufficient to clean the utensils. All new spray-type dish machines designed for hot water sanitizing shall be equipped with a self-sealing temperature and pressure test plug. The test plug shall be located immediately upstream of the rinse manifold in a horizontal position and on the machine exterior.

(3) A two-compartment metal sink, having metal drainboards, equipped for hot water sanitization, that is in use on January 1, 1985, may be continued in use until replaced.

(4) Other methods may be used after approval by the department.

Where an undercounter dish machine is used, there shall be two metal drainboards, one for soiled utensils and one for clean utensils, located adjacent to the machine. The drainboards shall be sloped and drained to an approved waste receptor. This requirement may be satisfied by using the drainboards appurtenant to sinks as required in subdivision (b) and paragraph (1) of subdivision (c), if the facilities are located adjacent to the machine.

(f) The handling of cleaned and soiled utensils, equipment, and kitchenware shall be undertaken in a manner which will preclude possible contamination of cleaned items with soiled items.

(g) All utensils, display cases, windows, counters, shelves, tables, refrigeration units, sinks, dishwashing machines, and other equipment or utensils used in the preparation, sale, service, and display of food shall be made of nontoxic, noncorrosive materials, shall be constructed, installed, and maintained to be easily cleaned, and shall be kept clean and in good repair.

(h) Utensils and equipment shall be handled and stored so as to be protected from contamination. Single-service utensils shall be obtained only in sanitary containers or approved sanitary dispensers, stored in a clean, dry place until used, handled in a sanitary manner, and used once only.

(1) Each time there is a change in processing between types of animal products except when products are handled in the following order: any cooked ready-to-eat products first; raw beef and lamb products second; raw fish products third; and raw pork or poultry products last.

(2) Each time there is a change from working with raw foods of animal origin to working with ready-to-eat foods.

(3) Between uses with raw fruits or vegetables and with potentially hazardous food.

(4) Before each use of a food temperature measuring device.

(5) At any time during the food handling operation when contamination may have occurred.

(j) (1) Except as provided in paragraphs (2) and (3) of this subdivision, if used with potentially hazardous food, equipment food-contact surfaces and utensils shall be cleaned throughout the day at least every four hours.

(2) Equipment food-contact surfaces and utensils may be cleaned less frequently than every four hours if the utensils and equipment are used to prepare food in a refrigerated room, at or below 13 degrees Celsius (55 degrees Fahrenheit), and the utensils and equipment are cleaned at least every 24 hours.

(3) Equipment food-contact surfaces and utensils may be cleaned less frequently than every four hours if the enforcement agency approves the cleaning schedule utilized based on a consideration of the following factors:

(A) Characteristics of the equipment and its use.

(B) The type of food involved.

(C) The amount of food residue accumulation.

(D) The temperature at which the food is maintained during the operation and the potential for the rapid and progressive growth of infectious or toxicogenic micro-organisms that may cause food infections or food intoxications.

(k) Nonfood contact surfaces of equipment shall be cleaned at a frequency necessary to prevent accumulation of residue.

All steam tables, ice machines and bins, food preparation sinks, utensil washing sinks, display cases, and other similar equipment that discharge liquid waste shall be drained by means of indirect waste pipes, and all wastes drained by them shall discharge through an airgap into an open floor sink or other approved type of receptor that is properly connected to the drainage system. Drainage from refrigeration units shall be conducted in a sanitary manner to a floor sink or other approved device by an indirect connection or to a properly installed and functioning evaporator. Indirect waste receptors shall be located to be readily accessible for inspection and cleaning. Dishwashing machines may be connected directly to the sewer immediately downstream from a floor drain or they may be drained through an approved indirect connection. Utensil washing sinks in use on January 1, 1996, that are directly plumbed may be continued in use.

(4) The amendments to this subdivision made during the 1991–92 Regular Session, and the amendments made to this subdivision and to Section 32126 made during the 1993–94 Regular Session, shall only apply to transfers made on or after the effective dates of the acts amending this subdivision. The amendments to this subdivision made during those sessions shall not apply to any of the following:

(A) A district that has discussed and adopted a board resolution, prior to September 1, 1992, that authorizes the development of a business plan for an integrated delivery system.

(5) Notwithstanding paragraph (4), if substantial amendments are proposed to be made to a transfer agreement described in subparagraph (A) or (B) of paragraph (4), the amendments shall be fully discussed in advance of the district board's decision to adopt the amendments in at least two properly noticed open and public meetings in compliance with Section 32106 and the Ralph M. (7) For purposes of this subdivision, a "transfer" means the transfer of ownership of the assets of a district. A lease of the real property or the tangible personal property of a district shall not be subject to this subdivision except as specified in Section 32121.4 and as required under Section 32126.

(10) A transfer of any of the assets of a district to one or more nonprofit corporations to operate and maintain the assets shall not be required to meet paragraphs (1) to (9), inclusive, of this subdivision if all of the following conditions apply at the time of the transfer:

(B) The district is in default of its loan obligations, as determined by the Office of Statewide Health Planning and Development.

(C) The Office of Statewide Health Planning and Development and the district, in their best judgment, agree the transfer of some or all of the assets of the district to a nonprofit corporation or corporations is necessary to cure the default, and will obviate the need for foreclosure. This cure of default provision shall be applicable prior to the office foreclosing on district hospital assets. After the office has foreclosed on district hospital assets, or otherwise taken possession in accordance with law, the office may exercise all of its powers to deal with and dispose of hospital property.

(D) The transfer and all arrangements necessary thereto are discussed in advance of the transfer in at least one properly noticed open and public meeting in compliance with the Ralph M. Brown Act, Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code and Section 32106. The meeting referred to in this paragraph shall be noticed and held within 90 days of notice in writing to the district by the office of an event of default. If the meeting is not held within this 90-day period, the district shall be deemed to have waived this requirement to have a meeting.

(11) If a transfer under paragraph (10) is a lease, the lease shall provide that the assets shall revert to the district at the conclusion of the leasehold interest. If the transfer is a sale, the proceeds shall be used first to retire the obligation insured by the office, then to retire any other debts of the district. After providing for debts, any remaining funds shall revert to the district.

However, that activity shall not be deemed to result in or constitute the giving or lending of the district's credit, assets, surpluses, cash, or tangible goods to, or in aid of, any person, association, or corporation in violation of Section 6 of Article XVI of the California Constitution.

Nothing in this section shall authorize activities that corporations and other artificial legal entities are prohibited from conducting by Section 2400 of the Business and Professions Code.

Any agreement to provide health care coverage that is a health care service plan, as defined in subdivision (f) of Section 1345, shall be subject to the provisions of Chapter 2.2 (commencing with Section 1340) of Division 2, unless exempted pursuant to Section 1343 or 1349.2.

A district shall not provide health care coverage for any employee of an employer operating within the communities served by the district, unless the Legislature specifically authorizes, or has authorized in this section or elsewhere, the coverage.

This section shall not authorize any district to contribute its facilities to any joint venture that could result in transfer of the facilities from district ownership.

(s) To provide health care coverage to members of the district's medical staff, employees of the medical staff members, and the dependents of both groups, on a self-pay basis.

No payments of principal, interest, insurance premium and inspection fees, and all other costs of state-insured loans obtained under the authorization of this section shall be made from funds derived from the district's power to tax. It is hereby declared that the authorizations for the executing of the mortgages, deeds of trust and other necessary security agreements by the board and for the enforcement of the state's rights thereunder is in the public interest in order to preserve and promote the health, welfare, and safety of the people of this state by providing, without cost to the state, a state insurance program for health facility construction loans in order to stimulate the flow of private capital into health facilities construction to enable the rational meeting of the critical need for new, expanded and modernized public health facilities.

(c) Remedial action carried out under this section shall be carried out only pursuant to a remedial action agreement entered into by the local officer and the responsible party. The remedial action agreement shall specify the testing, monitoring, and analysis the responsible party will carry out to determine the type and extent of the contamination caused by the released waste that is the subject of the remedial action, the remedial actions that will be taken, and the cleanup goals that the local officer determines are necessary to protect human health or safety or the environment, and that, if met, constitute a permanent remedy to the release of the waste.

(d) A local officer who enters into a remedial action agreement, as described in subdivision (c), may, after giving the responsible

party adequate notice, withdraw from the agreement at any time after making one of the following findings:

(1) The responsible party is not in compliance with the remedial action agreement.

(2) Appropriate staff resources, technical expertise, or technical capabilities are not available to adequately supervise the remedial action.

(3) The release of the waste that is the subject of the remedial action is of a sufficiently complex nature or may present such a significant potential hazard to human health or the environment that it should be referred to the Department of Toxic Substances Control or a California regional water quality control board.

(e) After determining that a responsible party has completed the actions required by the remedial action agreement and that a permanent remedy for the release of waste has been achieved, the local officer may provide the responsible party with a letter or other document that describes the release of waste that occurred and the remedial action taken, and certifies that the cleanup goals embodied in the remedial action agreement were accomplished.

101483. This article shall not apply to any of the following:

PART 5. OTHER

SEC. 303.8. The heading of Chapter 4 (commencing with Section 101800) of Part 4 of Division 101 of the Health and Safety Code is amended and renumbered to read:

CHAPTER 1. VOLUNTARY HEALTH FACILITY PHILANTHROPIC SUPPORT ACT

SEC. 303.9. Section 101800 of the Health and Safety Code is amended to read:

101800. This chapter shall be known and may be cited as the Voluntary Health Facility and Clinic Philanthropic Support Act.

SEC. 304. Section 101805 of the Health and Safety Code is amended to read:

101805. The Legislature finds and declares that, while there continues to be a need to focus on the deficiencies in the health care system and on corrective reform measures that might be taken, there is also need for focus on the enhancement of its strengths. Existing philanthropic support for health facilities and clinics is a strength that must be preserved and enhanced under any reform measure for all of the following reasons:

(a) Philanthropy imbues members of the community with a sense of pride in their voluntary nonprofit health facilities and clinics and creates a setting in which members of the community are willing to devote time and effort to improve health care available in the community in a way that government regulation could never replace.

(b) Philanthropy allows voluntary nonprofit institutions to conduct research and to engage in other innovative efforts to improve health care in California.

(c) Philanthropy provides required discretionary dollars for voluntary nonprofit institutions, that, in part, substitute for the absence of profits.

(d) Philanthropy allows hospitals to replace wornout and obsolete facilities when, in a period of high inflation, historical costs accumulated through depreciation are totally insufficient to provide for the replacement.

(e) Philanthropy pays for necessary expenditures that otherwise would have to be paid by patients or by government.

(f) Philanthropy may be discouraged by certain shortsighted actions of administrative agencies that, while purporting to serve a short-term purpose, seriously deter the vast benefits to the health care field inuring directly from philanthropy and voluntarism.

(g) Recent amendments to the federal tax laws to broaden the use of the standard deduction also have the effect of eliminating important incentives for philanthropy.

SEC. 304.1. Section 101815 of the Health and Safety Code is amended to read:

101815. For purposes of any state law, whether enacted before or on or after January 1, 1980, that in any manner provides for regulation, review, or reporting of the budget, rates, or revenues of health facilities, as defined in Section 1250, or clinics, as defined in Section 1204, including the provisions of Part 1.7 (commencing with Section 440), none of the following shall be treated directly, or indirectly, as revenues allocable to the cost of care provided by the health facility or clinic:

(a) A donor-designated or restricted grant, gift, endowment, or income therefrom, as defined in Section 405.423(b) of Title 42 of the Code of Federal Regulations, insofar as permitted by federal law.

(b) A grant or gift, or income from a grant or gift, that is not available for use as operating funds because of its designation by the governing board or entity of the health facility or clinic.

(c) A grant or similar payment that is made by a governmental entity and that is not available, under the terms of the grant or payment, for use as operating funds.

(d) Amounts attributable to the sale or mortgage of any real estate or other capital assets of the health facility or clinic that it acquired through a gift or grant, and that are not available for use as operating funds under the terms of the gift or grant or because of designation as provided in subdivision (b).

(e) A depreciation fund that is created by the health facility or clinic in order to meet a condition imposed by a third party for the third party's financing of a capital improvement of the health facility or clinic, provided the fund is used exclusively to make payments to the third party for the financing of the capital improvement.

(f) Funds used to defray the expense of fundraising.

SEC. 304.2. Section 101820 of the Health and Safety Code is amended to read:

101820. No state law shall be construed to discourage philanthropic support of health facilities and clinics, or to otherwise hinder the use of this support for purposes determined by the recipients to be in the best interests of the physicians and patients it serves.

However, in enacting this chapter and Section 14106.2 of the Welfare and Institutions Code, the Legislature does not intend to place any restrictions on cost containment measures relating to health facilities that may be enacted in the future.

SEC. 304.3. Section 102310 of the Health and Safety Code is amended to read:

102310. The local registrar of marriages shall carefully examine each certificate before acceptance for registration and, if it is incomplete or unsatisfactory, he or she shall require any further information to be furnished as may be necessary to make the record satisfactory before acceptance for registration.

The person performing the marriage ceremony shall also type or print his or her name and address on the certificate. The certificate shall not contain any reference to the race or color of parties married.

(a) Provide a planning and technical assistance program to carry out its responsibilities under this article.

(b) Provide guidelines for schools, school districts, and school district consortia to follow in the preparation of plans for

implementation of antitobacco use programs for schoolage populations. The guidelines shall:

(1) Require the applicant agency to select one or more model program designs and shall permit the applicant to modify the model program designs to take special local needs and conditions into account.

(2) Require the applicant agency to prepare for each target population to be served a description of the service to be provided, an estimate of the number to be served, an estimate of the success rate and a method to determine to what extent goals have been achieved.

(3) Require plan submissions to include a staffing configuration and a budget setting forth use and distribution of funds in a clear and detailed manner.

(c) Prepare model program designs and information for local schools, local school districts, consortia, and county offices of education to follow in establishing direct service programs to targeted populations. Model program designs shall, to the extent feasible, be based on studies and evaluations that determine which service delivery systems are effective in reducing tobacco use and are cost-effective. The State Department of Education shall consult with the department, and school districts with existing antitobacco programs in the preparation of model program designs and information.

implemented, many of the child day care facilities, community care facilities, and residential care facilities for the elderly, would be adversely affected due to the stringent requirements of this chapter.

(b) It is the intent of the Legislature to temporarily exempt child day care facilities, community care facilities, and residential care facilities for the elderly from the requirements of this chapter, pending the enactment of separate statutory provisions for these facilities that would contain health and safety standards appropriate to these facilities.

114465. For purposes of this article, the following definitions shall apply:

(a) "Child day care facilities" shall have the same meaning as defined in Section 1596.750.

(b) "Community care facilities" shall have the same meaning as defined in Section 1502.

(c) "Residential care facilities for the elderly" shall have the same meaning as defined in Section 1569.2.

114470. Child day care facilities, community care facilities, and residential care facilities for the elderly shall not be deemed to be either food establishments, as defined in Section 113780, or food facilities, as defined in Section 113785, and, therefore, shall be exempt from this chapter.

114475. (a) The State Department of Social Services, in cooperation with the State Department of Health Services, shall develop proposed food preparation provisions for child day care facilities, community care facilities, and residential care facilities for the elderly that would carry out the intent of this chapter to ensure the health and safety of individuals and also that would not adversely affect those facilities that are safely operated. In developing proposed food preparation provisions for child day care facilities, the State Department of Social Services shall consult with the State Department of Education.

(b) The State Department of Social Services shall submit a recommendation of the proposed food preparation provisions to the Legislature no later than January 1, 1991.

(b) Every person owning land in fee simple or in possession thereof under lease or contract of sale who knowingly permits the existence on the premises of any permanently inactive well, cathodic protection well, or monitoring well that constitutes a known or probable preferential pathway for the movement of pollutants, contaminants, or poor quality water, from above ground to below ground, or vertical movement of pollutants, contaminants, or poor quality water below ground, and that movement poses a threat to the quality of the waters of the state, shall be guilty of a misdemeanor.

(c) For purposes of this section, "well" includes any of the following:

(1) A "monitoring well" as defined by Section 13712 of the Water Code.

(d) A "permanently inactive well" is a well that has not been used for a period of one year, unless the person owning land in fee simple or in possession thereof under lease or contract of sale demonstrates an intent for future use for water supply, groundwater recharge, drainage, or groundwater level control, heating or cooling, cathodic protection, groundwater monitoring, or related uses. A well owner

shall provide evidence to the local health officer of an intent for future use of an inactive well by maintaining the well in a way that the following requirements are met:

(1) The well shall not allow impairment of the quality of water within the well and groundwater encountered by the well.

(2) The top of the well or well casing shall be provided with a cover, that is secured by a lock or by other means to prevent its removal without the use of equipment or tools, to prevent unauthorized access, to prevent a safety hazard to humans and animals, and to prevent illegal disposal of wastes in the well. The cover shall be watertight where the top of the well casing or other surface openings to the well are below ground level, as in a vault or below known levels of flooding. The cover shall be watertight if the well is inactive for more than five consecutive years. A pump motor, angle drive, or other surface feature of a well, when in compliance with the above provisions, shall suffice as a cover.

(3) The well shall be marked so as to be easily visible and located, and labeled so as to be easily identified as a well.

(4) The area surrounding the well shall be kept clear of brush, debris, and waste materials.

(e) At a minimum, permanently inactive wells shall be destroyed in accordance with standards developed by the Department of Water Resources pursuant to Section 13800 of the Water Code and adopted by the State Water Resources Control Board or local agencies in accordance with Section 13801 of the Water Code. Minimum standards recommended by the department and adopted by the state board or local agencies for the abandonment or destruction of groundwater monitoring wells or class 1 hazardous injection wells shall not be construed to limit, abridge, or supersede the powers or duties of the department, in accordance with Section 13801 of the Water Code.

(f) Nothing in this section is a limitation on the power of a city, county, or city and county to adopt and enforce additional penal provisions regarding the types of wells and other excavations described in subdivisions (a) and (b).

The board of supervisors shall order securely fenced, filled, or covered any abandoned mining shaft, pit, or other excavation on unoccupied land in the county whenever it appears to them, by proof submitted, that the excavation is dangerous or unsafe to man or beast. The cost of covering, filling, or fencing is a county charge.

115715. Every person who maliciously removes or destroys any covering or fencing placed around, or removes any fill placed in, any shaft, pit, or other excavation, as provided in this part, is guilty of a misdemeanor.

115720. This part is not applicable to any abandoned mining shaft, pit, well, septic tank, cesspool, or other abandoned excavation that contains a surface area of more than one-half acre.

127340. The Legislature finds and declares all of the following:

(a) Private not-for-profit hospitals meet certain needs of their communities through the provision of essential health care and other services. Public recognition of their unique status has led to favorable tax treatment by the government. In exchange, nonprofit hospitals assume a social obligation to provide community benefits in the public interest.

(b) Hospitals and the environment in which they operate have undergone dramatic changes. The pace of change will accelerate in response to health care reform. In light of this, significant public benefit would be derived if private not-for-profit hospitals reviewed

and reaffirmed periodically their commitment to assist in meeting their communities' health care needs by identifying and documenting benefits provided to the communities which they serve.

(c) California's private not-for-profit hospitals provide a wide range of benefits to their communities in addition to those reflected in the financial data reported to the state.

(d) Unreported community benefits that are often provided but not otherwise reported include, but are not limited to, all of the following:

(1) Community-oriented wellness and health promotion.

(2) Prevention services, including, but not limited to, health screening, immunizations, school examinations, and disease counseling and education.

(3) Adult day care.

(4) Child care.

(5) Medical research.

(6) Medical education.

(7) Nursing and other professional training.

(8) Home-delivered meals to the homebound.

(9) Sponsorship of free food, shelter, and clothing to the homeless.

(10) Outreach clinics in socioeconomically depressed areas.

(e) Direct provision of goods and services, as well as preventive programs, should be emphasized by hospitals in the development of community benefit plans.

127345. As used in this article, the following terms have the following meanings:

(a) "Community benefits plan" means the written document prepared for annual submission to the Office of Statewide Health Planning and Development that shall include, but shall not be limited to, a description of the activities that the hospital has undertaken in order to address identified community needs within its mission and financial capacity, and the process by which the hospital developed the plan in consultation with the community.

(b) "Community" means the service areas or patient populations for which the hospital provides health care services.

CHAPTER 4. FAMILY PHYSICIAN TRAINING PROGRAMS

Article 1. Song-Brown Family Physician Training Act

128200. (a) This article shall be known and may be cited as the Song-Brown Family Physician Training Act.

(b) The Legislature hereby finds and declares that physicians engaged in family practice are in very short supply in California. The current emphasis placed on specialization in medical education has resulted in a shortage of physicians trained to provide comprehensive primary health care to families. The Legislature hereby declares that it regards the furtherance of a greater supply of competent family physicians to be a public purpose of great importance and further declares the establishment of the program pursuant to this article to be a desirable, necessary and economical method of increasing the number of family physicians to provide needed medical services to the people of California. The Legislature further declares that it is to the benefit of the state to assist in increasing the number of competent family physicians graduated by colleges and universities of this state to provide primary health care services to families within the state.

The Legislature finds that the shortage of family physicians can be improved by the placing of a higher priority by public and private medical schools, hospitals, and other health care delivery systems in this state, on the recruitment and improved training of medical students and residents to meet the need for family physicians. To help accomplish this goal, each medical school in California is encouraged to organize a strong family practice program or department. It is the intent of the Legislature that the programs or departments be headed by a physician who possesses specialty certification in the field of family practice, and has broad clinical experience in the field of family practice.

The Legislature further finds that encouraging the training of primary care physician's assistants and primary care nurse practitioners will assist in making primary health care services more accessible to the citizenry, and will, in conjunction with the training of family physicians, lead to an improved health care delivery system in California.

Community hospitals in general and rural community hospitals in particular, as well as other health care delivery systems, are encouraged to develop family practice residencies in affiliation or association with accredited medical schools, to help meet the need for family physicians in geographical areas of the state with recognized family primary health care needs. Utilization of expanded resources beyond university-based teaching hospitals should be emphasized, including facilities in rural areas wherever possible.

It is the intent of the Legislature to provide for a program designed primarily to increase the number of students and residents receiving quality education and training in the specialty of family practice and as primary care physician's assistants and primary care nurse practitioners and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need. This program is intended to be implemented through contracts with accredited medical schools, programs that train primary care physician's assistants and programs that train primary care nurse practitioners, hospitals, and other health care delivery systems based on per-student or per-resident capitation formulas. It is further intended by the Legislature that the programs will be professionally and administratively accountable so that the maximum cost-effectiveness will be achieved in meeting the professional training standards and criteria set forth in this article and Article 2 (commencing with Section 128250).

128205. As used in this article, and Article 2 (commencing with Section 128250), the following terms mean:

(a) "Family physician" means a primary care physician who is prepared to and renders continued comprehensive and preventative health care services to families and who has received specialized training in an approved family practice residency for three years after graduation from an accredited medical school.

(b) "Associated" and "affiliated" mean that relationship that exists by virtue of a formal written agreement between a hospital or other health care delivery system and an approved medical school which pertains to the family practice training program for which state contract funds are sought. This definition shall include agreements that may be entered into subsequent to October 2, 1973, as well as those relevant agreements that are in existence prior to October 2, 1973.

(c) "Commission" means the Health Manpower Policy Commission.

(d) "Programs that train primary care physician's assistants" means a program that has been approved for the training of primary care physician assistants pursuant to Section 3513 of the Business and Professions Code.

(e) "Programs that train primary care nurse practitioners" means a program that is operated by a California school of medicine or nursing, or that is authorized by the Regents of the University of California or by the Trustees of the California State University, or that is approved by the Board of Registered Nursing.

128210. There is hereby created a state medical contract program with accredited medical schools, programs that train primary care physician's assistants, programs that train primary care nurse practitioners, hospitals, and other health care delivery systems to increase the number of students and residents receiving quality education and training in the specialty of family practice and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need for those services.

128215. There is hereby created a Health Manpower Policy Commission. The commission shall be composed of 10 members who shall serve at the pleasure of their appointing authorities:

(a) Eight members appointed by the Governor, as follows:

(1) One representative of the University of California medical schools, from a nominee or nominees submitted by the University of California.

(2) One representative of the private medical or osteopathic schools accredited in California from individuals nominated by each of these schools.

(3) One representative of practicing family physicians.

(4) One representative who is a practicing osteopathic physician or surgeon and who is board certified in either general or family practice.

(5) One representative of undergraduate medical students in a family practice program or residence in family practice training.

(6) One representative of trainees in a primary care physician's assistant program or a practicing physician's assistant.

(7) One representative of trainees in a primary care nurse practitioners program or a practicing nurse practitioner.

(8) One representative of the Office of Statewide Health Planning and Development, from nominees submitted by the office director.

(b) Two consumer representatives of the public who are not elected or appointed public officials, one appointed by the Speaker of the Assembly and one appointed by the Chairperson of the Senate Rules Committee.

(c) The Chief of the Health Professions Development Program in the Office of Statewide Health Planning and Development, or the chief's designee, shall serve as executive secretary for the commission.

128220. The members of the commission, other than state employees, shall receive compensation of twenty-five dollars ($25) for each day's attendance at a commission meeting, in addition to actual and necessary travel expenses incurred in the course of attendance at a commission meeting.

128225. The commission shall do all of the following:

(a) Identify specific areas of the state where unmet priority needs for primary care family physicians exist.

(b) Establish standards for family practice training programs and family practice residency programs, postgraduate osteopathic medical programs in family practice, and primary care physician assistants programs and programs that train primary care nurse practitioners, including appropriate provisions to encourage family physicians, osteopathic family physicians, primary care physician's assistants, and primary care nurse practitioners who receive training in accordance with this article and Article 2 (commencing with Section 128250) to provide needed services in areas of unmet need within the state. Standards for family practice residency programs shall provide that all the residency programs contracted for pursuant to this article and Article 2 (commencing with Section 128250) shall both meet the Residency Review Committee on Family Practice's "Essentials" for Residency Training in Family Practice and be approved by the Residency Review Committee on Family Practice. Standards for postgraduate osteopathic medical programs in family practice, as approved by the American Osteopathic Association Committee on Postdoctoral Training for interns and residents, shall be established to meet the requirements of this subdivision in order to ensure that those programs are comparable to the other programs specified in this subdivision. Every program shall include a component of training designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and shall be organized to prepare program graduates for service in those neighborhoods and communities. Medical schools receiving funds under this article and Article 2 (commencing with Section 128250) shall have programs or departments that recognize family practice as a major independent specialty. Existence of a written agreement of affiliation or association between a hospital and an accredited medical school shall be regarded by the commission as a favorable factor in considering recommendations to the director for allocation of funds appropriated to the state medical contract program established under this article and Article 2 (commencing with Section 128250).

For purposes of this subdivision, "family practice" includes the general practice of medicine by osteopathic physicians.

(c) Review and make recommendations to the Director of the Office of Statewide Health Planning and Development concerning the funding of family practice programs or departments and family practice residencies and programs for the training of primary care

physician assistants and primary care nurse practitioners that are submitted to the Health Professions Development Program for participation in the contract program established by this article and Article 2 (commencing with Section 128250). If the commission determines that a program proposal that has been approved for funding or that is the recipient of funds under this article and Article 2 (commencing with Section 128250) does not meet the standards established by the commission, it shall submit to the Director of the Office of Statewide Health Planning and Development and the Legislature a report detailing its objections. The commission may request the Office of Statewide Health Planning and Development to make advance allocations for program development costs from amounts appropriated for the purposes of this article and Article 2 (commencing with Section 128250).

(d) Establish contract criteria and single per-student and per-resident capitation formulas that shall determine the amounts to be transferred to institutions receiving contracts for the training of family practice students and residents and primary care physician's assistants and primary care nurse practitioners pursuant to this article and Article 2 (commencing with Section 128250), except as otherwise provided in subdivision (e). Institutions applying for or in receipt of contracts pursuant to this article and Article 2 (commencing with Section 128250) may appeal to the director for waiver of these single capitation formulas. The director may grant the waiver in exceptional cases upon a clear showing by the institution that a waiver is essential to the institution's ability to provide a program of a quality comparable to those provided by institutions that have not received waivers, taking into account the public interest in program cost-effectiveness. Recipients of funds appropriated by this article and Article 2 (commencing with Section 128250) shall, as a minimum, maintain the level of expenditure for family practice or primary care physician's assistant or family care nurse practitioner training that was provided by the recipients during the 1973–74 fiscal year. Funds appropriated under this article and Article 2 (commencing with Section 128250) shall be used to develop new programs or to expand existing programs, and shall not replace funds supporting current family practice training programs. Institutions applying for or in receipt of contracts pursuant to this article and Article 2 (commencing with Section 128250) may appeal to the director for waiver of this maintenance of effort provision. The director may grant the waiver if he or she determines that there is reasonable and proper cause to grant the waiver.

(e) Review and make recommendations to the Director of the Office of Statewide Health Planning and Development concerning the funding of special programs that may be funded on other than a capitation rate basis. These special programs may include the development and funding of the training of primary health care teams of family practice residents or family physicians and primary

care physician assistants or primary care nurse practitioners, undergraduate medical education programs in family practice, and programs that link training programs and medically underserved communities in California that appear likely to result in the location and retention of training program graduates in those communities. These special programs also may include the development phase of new family practice residency, primary care physician assistant programs, or primary care nurse practitioner programs.

The commission shall establish standards and contract criteria for special programs recommended under this subdivision.

(f) Review and evaluate these programs regarding compliance with this article and Article 2 (commencing with Section 128250). One standard for evaluation shall be the number of recipients who, after completing the program, actually go on to serve in areas of unmet priority for primary care family physicians in California.

(g) Review and make recommendations to the Director of the Office of Statewide Health Planning and Development on the awarding of funds for the purpose of making loan assumption payments for medical students who contractually agree to enter a primary care specialty and practice primary care medicine for a minimum of three consecutive years following completion of a primary care residency training program pursuant to Article 2 (commencing with Section 128250).

128230. When making recommendations to the Director of the Office of Statewide Health Planning and Development concerning the funding of family practice programs or departments, family practice residencies, and programs for the training of primary care physician assistants and primary care nurse practitioners, the commission shall give priority to programs that have demonstrated success in the following areas:

(a) Actual placement of individuals in medically underserved areas.

(b) Success in attracting and admitting members of minority groups to the program.

(c) Success in attracting and admitting individuals who were former residents of medically underserved areas.

(d) Location of the program in a medically underserved area.

(e) The degree to which the program has agreed to accept individuals with an obligation to repay loans awarded pursuant to the Minority Health Professions Education Fund.

128235. Pursuant to this article and Article 2 (commencing with Section 128250), the Director of the Office of Statewide Health Planning and Development shall do all of the following:

(a) Determine whether family practice, primary care physician assistant training programs proposals, and primary care nurse practitioner training program proposals submitted to the Health Manpower Policy Commission for participation in the state medical contract program established by this article and Article 2

(commencing with Section 128250) meet the standards established by the commission.

(b) Select and contract on behalf of the state with accredited medical schools, programs that train primary care physician assistants, programs that train primary care nurse practitioners, hospitals, and other health care delivery systems for the purpose of training undergraduate medical students and residents in the specialty of family practice. Contracts shall be awarded to those institutions that best demonstrate the ability to provide quality education and training and to retain students and residents in specific areas of California where there is a recognized unmet priority need for primary care family physicians. Contracts shall be based upon the recommendations of the commission and in conformity with the contract criteria and program standards established by the commission.

(c) Terminate, upon 30 days' written notice, the contract of any institution whose program does not meet the standards established by the commission or that otherwise does not maintain proper compliance with this part, except as otherwise provided in contracts entered into by the director pursuant to this article and Article 2 (commencing with Section 128250).

128240. The Director of the Office of Statewide Health Planning and Development shall adopt, amend, or repeal regulations as necessary to enforce this article and Article 2 (commencing with Section 128250), which shall include criteria that training programs must meet in order to qualify for waivers of single capitation formulas or maintenance of effort requirements authorized by Section 128250. Regulations for the administration of this chapter shall be adopted, amended, or repealed as provided in Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

Article 2. Health Education and Academic Loan Act

128250. This article shall be known and may be cited as the Health Education and Academic Loan Act.

128255. The Legislature finds and declares all of the following:

(a) Lower levels of reimbursement in rural and inner-city areas for certain critical primary care practices combined with increasing student costs deter medical students from entering the primary care specialties.

(b) Physicians typically begin their practices heavily in debt from student loans acquired to finance their education.

(c) Because of the lower levels of reimbursement and the burden of educational debts, the number of primary care physicians who choose to practice in California is insufficient to adequately meet the health needs of the state's population.

(d) Repayment of student loans for medical students as a means to encourage increased provision of primary care medical services will benefit all citizens of California.

128260. As used in this article, unless the context otherwise requires, the following definitions shall apply:

(a) "Commission" means the Health Manpower Policy Commission.

(b) "Director" means the Director of Statewide Health Planning and Development.

The director, with the advice and upon the recommendation of the commission, shall make loan assumption payments using the criteria developed pursuant to this section and Sections 128270 and 128275 any other criteria developed by the commission that are consistent with this section and Sections 128270 and 128275. The commission may not provide loan assumption assistance for a loan that is in default at the time of the application.

(b) The Office of Statewide Health Planning and Development, in consultation with the commission, may adopt, by regulation, rules and procedures necessary to administer the loan assumption program established pursuant to this section and Sections 128270 and 128275.

128270. To be eligible for loan assumption assistance, an applicant shall meet both of the following requirements:

(a) Be enrolled as a full-time student in an accredited California medical school and be a resident of California at the time of the application.

128275. (a) Each recipient of loan assumption assistance shall enter into a written contract with the commission, which shall be

(b) The contract shall include all of the following terms and conditions:

(1) An unlicensed applicant shall apply for a license to practice medicine in California at the earliest practicable opportunity.

(2) Within six months after licensure and the completion of all requirements for the primary care specialty, the applicant shall engage in the practice of primary care medicine.

Loan assumption assistance shall be provided only for the principal amount of the recipient's loan. If any recipient takes pregnancy or paternity leave or suffers temporary disability, the recipient shall perform an amount of service equal to the amount of service lost because of the pregnancy or paternity leave or temporary disability. Performance of that service by the recipient shall commence immediately upon his or her return to work following the leave or disability. Under a three-year term of service, 20 percent of the total grant shall be provided on behalf of the recipient upon completion of the first year of service; 30 percent shall be provided on behalf of the recipient upon completion of the second year of service; and 50 percent shall be provided to the recipient or to the lending institution on behalf of the recipient upon completion of three years of service as a primary care physician if the recipient received medical student loan deferment. If a recipient agrees to provide five years of service pursuant to this paragraph, 20 percent of the total grant shall be provided on behalf of the recipient upon completion of the first year of service; 10 percent shall be provided upon completion of the second year of service; 10 percent shall be provided upon completion of the third year of service; 10 percent shall be provided upon completion of the fourth year of service; and 50 percent shall be provided to the recipient or to the lending institution on behalf of the recipient upon completion of five years of service as a primary care physician if the recipient received medical student loan deferment.

(5) Those applicants who agree to practice in underserved areas shall practice full time in the medically underserved designated shortage area.

(6) The physician shall permit the commission to monitor his or her practice to determine compliance with the terms of the contract.

(7) The commission shall certify compliance with the terms of the contract for purposes of receipt by the physician of the loan assumption assistance for years subsequent to the initial year of loan assumption assistance.

(8) If the recipient dies or becomes totally or permanently disabled, the commission shall nullify the service obligation of the recipient and the commission shall repay the student loan in full.

(9) If the recipient is convicted of a felony or misdemeanor involving moral turpitude, commits an act of gross negligence in the performance of service obligations, or his or her license to practice is revoked or suspended by the appropriate licensing board, the commission may demand repayment of any funds expended as loan assumption assistance on behalf of the physician.

(10) Any recipient of loan assumption assistance who fails to fulfill the obligations for which he or she contracted shall pay to the commission the full amount received plus interest from the date of the original contract at the rate of 2 percent above the prime rate at the time of the breach. The director may recover all costs and attorney fees incurred as a result of collecting payments resulting from the breach.

(11) The loan assumption program provided by this section shall apply only to government loans, or those loans insured or made available by federal or state government.

(12) Not more than 10 percent of the funds obtained from alternative sources, as specified in Section 128290, may be used to cover the administrative costs incurred by the Office of Statewide Health Planning and Development to implement the loan assumption program.

128280. Each publicly funded medical school in California shall inform incoming medical students of all student loan, loan repayment, and medical student scholarship programs available to them. This information shall include, but need not be limited to, information concerning the National Health Service Corps program, the Minority Health Professions Education Foundation program, and the Loan Assumption Program created pursuant to this article.

128285. No requirement contained in this article shall apply to the University of California unless the Regents of the University of California, by resolution, make that requirement applicable.

(b) No state funds shall be used to implement this article.

(c) This article shall become operative only upon certification by the Director of the Office of Statewide Health Planning and Development that sufficient private funds have been made available from private sources to implement this article.

In lieu of review and approval by the statewide office, the law enforcement agency of a city, county, or city and county shall certify to the statewide office that the plans and construction are in full conformance with all applicable building standards, including, but not limited to, fire and life and safety standards, and the requirements of this chapter for the architectural, structural, mechanical, plumbing, and electrical systems.

(2) Notwithstanding Chapter 7 (commencing with Section 120975) of Part 4 of Division 105 of the Health and Safety Code, when a defendant has been charged by complaint, information, or indictment with a crime under Section 220, 261, 261.5, 262, 264.1, 286, 288, 288a, 288.5, 289, or 289.5, and is the subject of a police report alleging the commission of a separate, uncharged offense that could be charged under Section 220, 261, 261.5, 262, 264.1, 286, 288, 288a, 288.5, 289, or 289.5, or a minor is the subject of a petition filed in juvenile court alleging the commission of a crime under Section 220, 261, 261.5, 262, 264.1, 286, 288, 288a, 288.5, 289, or 289.5, and is the subject of a police report alleging the commission of a separate, uncharged offense that could be charged under Section 220, 261, 261.5, 262, 264.1, 286, 288, 288a, 288.5, 289, or 289.5, the court, at the request of the victim of the uncharged offense, may issue a search warrant for the purpose of testing the accused's blood with any HIV test, as defined in Section 120775 of the Health and Safety Code only

under the following circumstances: when the court finds that there is probable cause to believe that the accused committed the uncharged offense, and that there is probable cause to believe that blood, semen, or any other body fluid identified by the State Department of Health Services in appropriate regulations as capable of transmitting the human immunodeficiency virus has been transferred from the accused to the victim.

(3) (A) Prior to the issuance of a search warrant pursuant to paragraph (1), the court, where applicable and at the conclusion of the preliminary examination if the defendant is ordered to answer pursuant to Section 872, shall conduct a hearing at which both the victim and the defendant have the right to be present. During the hearing, only affidavits, counter affidavits, and medical reports regarding the facts that support or rebut the issuance of a search warrant under paragraph (1) shall be admissible.

(B) Prior to the issuance of a search warrant pursuant to paragraph (2), the court, where applicable, shall conduct a hearing at which both the victim and the defendant are present. During the hearing, only affidavits, counter affidavits, and medical reports regarding the facts that support or rebut the issuance of a search warrant under paragraph (2) shall be admissible.

To assist the victim of the crime to determine whether he or she should make this request, the prosecutor shall refer the victim to the local health officer for prerequest counseling to help that person understand the extent to which the particular circumstances of the crime may or may not have put the victim at risk of transmission of HIV from the accused, to ensure that the victim understands both the benefits and limitations of the current tests for HIV, to help the victim decide whether he or she wants to request that the accused be tested, and to help the victim decide whether he or she wants to be tested.

(2) The Department of Justice, in cooperation with the California District Attorneys Association, shall prepare a form to be used in providing victims with the notice required by paragraph (1).

However, a county shall not levy charges for the costs of support of a minor detained pursuant to Section 625

unless, at the detention hearing, the juvenile court determines that detention of the minor should be continued, the petition for the offense for which the minor is detained is subsequently sustained, or the minor agrees to a program of supervision pursuant to Section 654. The liability of these persons and estates shall be a joint and several liability.

(b) The county shall limit the charges it seeks to impose to the reasonable costs of support of the minor and shall exclude any costs of incarceration, treatment, or supervision for the protection of society and the minor and the rehabilitation of the minor. In evaluating a family's financial ability to pay under this section, the county shall take into consideration the family income, the necessary obligations of the family, and the number of persons dependent upon this income. Except as provided in paragraphs (1), (2), (3), and (4), "costs of support" as used in this section means only actual costs incurred by the county for food and food preparation, clothing, personal supplies, and medical expenses, not to exceed a combined maximum cost of fifteen dollars ($15) per day, except that:

(2) No cost for medical expenses shall be imposed by the county until the county has first exhausted any eligibility the minor may have under private insurance coverage, standard or medically indigent Medi-Cal coverage, and the Robert W. Crown California Children's Services Act (Article 5 (commencing with Section 123800) of Chapter 3 of Part 2 of Division 106 of the Health and Safety Code).

(3) In calculating the cost of medical expenses, the county shall not charge in excess of 100 percent of the AFDC fee for service average Medi-Cal payment for that county for that fiscal year as calculated by the State Department of Health Services; however, if a minor has extraordinary medical or dental costs that are not met

under any of the coverages listed in paragraph (2), the county may impose these additional costs.

(4) For those placements of a minor subject to this section in which an AFDC–FC grant is made, the district attorney shall seek an order pursuant to Section 11350 and the statewide child support guideline in effect in Article 2 (commencing with Section 4050) of Chapter 2 of Part 2 of Division 9 of the Family Code. (1) Preadmission screening shall be conducted by the Medi-Cal field offices which shall utilize the option of directly authorizing preadmission screening activities by Medi-Cal service providers, including, but not limited to, multipurpose senior services programs, adult day health care, home health agencies, or other comparable Medi-Cal service providers.

(2) The State Department of Health Services may delegate preadmission screening of general acute care hospital patients to

discharge planning units of general acute care hospitals and to multilevel facilities, as defined in paragraph (9) of subdivision (d) of Section 15432 of the Government Code, that agree to accept the delegation. The delegated preadmission screening shall be performed in accordance with criteria established by the State Department of Health Services, in consultation with representatives of general acute care hospitals and community-based services. Prior to implementation of the delegated preadmission screening program, orientation sessions regarding preadmission screening program procedures shall be conducted.

The State Department of Health Services shall work with general acute care hospitals and general acute care hospital association representatives to develop an acute care hospital reporting mechanism that would allow an independent review of the success of the delegated program. The review shall, at the minimum, include the number of home-and-community-based waiver services that were utilized to divert patients into the community. The State Department of Health Services shall report to the Legislature on the results of this review by March 31, 1989. The report shall include all of the following:

Where preadmission screening of acute care hospital patients has been delegated to discharge planning units, the Medi-Cal field office shall review and approve a determination to refer a patient to a nursing facility that is owned or operated by the referring hospital.

It is further the intent of the Legislature that the State Department of Health Services shall coordinate with the Multipurpose Senior Services Program or similar case management agencies, to the extent possible.

(e) All persons who are admitted to nursing homes for a short stay as a result of preadmission screening shall have a discharge plan, including projected length of stay and proposed discharge goal, that shall be reviewed at least monthly for up to four months until the medical status, the ability to perform activities of daily living, and the determination of service needs indicate referral to community-based services for care at home is appropriate.

All persons who are admitted to nursing homes for prolonged care as a result of preadmission screening shall be reviewed for their potential for community-based care during the process of reauthorization of prolonged care Treatment Authorization Request (TAR) and, if appropriate, be referred to community-based service.

All Medi-Cal recipients residing in nursing homes on a six-month or less Treatment Authorization Request (TAR) shall be postadmission screened within six months of the effective date of this section. All other Medi-Cal recipients residing in nursing homes shall be postadmission screened within 12 months of the effective date of this section. The State Department of Health Services shall give priority to qualified Multipurpose Senior Services Providers (MSSP) to conduct postadmission screening.

Contractors with approved utilization review plans approved by the State Department of Health Services that included an activity of this type through delegation or other acceptable means, shall be deemed to be in compliance with this section.

(j) The State Department of Health Services shall review each capitated contractor's arrangements for and provision of preadmission and postadmission screening during the annual medical audit of the contractor.

SEC. 475. Section 14126.40 of the Welfare and Institutions Code is amended to read:

14126.40. (a) To facilitate expeditious review by the department, an application for a new license shall include an estimated date of actual sale.

(b) A copy of the application for a new license shall be submitted to the Office of Statewide Health Planning and Development.

(c) The previous licensee of the facility shall send the department a copy of the final reports submitted to the Office of Statewide Health Planning and Development pursuant to Section 128735, and subdivision (b) of Section 128755 of the Health and Safety Code.

(d) If the director determines that a closeout audit of the facility is appropriate, the department shall conduct and complete the audit and issue a report within 60 days after a complete and usable cost report has been filed with the office and received by the department in accordance with subdivision (c).

SEC. 476. Section 14132.22 of the Welfare and Institutions Code, as amended by Chapter 537 of the Statutes of 1995, is amended to read:

14132.22. (a) (1) Transitional inpatient care services, as described in this section and provided by a qualified health facility, is a covered benefit under this chapter, subject to utilization controls and subject to the availability of federal financial participation. These services shall be available to individuals needing short-term medically complex or intensive rehabilitative services, or both.

(2) The department shall seek any necessary approvals from the federal Health Care Financing Administration to ensure that transitional inpatient care services, when provided by a general acute care hospital, will be considered for purposes of determining whether a hospital is deemed to be a disproportionate share hospital pursuant to Section 1396r-4(b) of Title 42 of the United States Code or any successor statute.

(3) Transitional inpatient care services shall be available to Medi-Cal beneficiaries who do not meet the criteria for eligibility for the subacute program provided for pursuant to Section 14132.25, but who need more medically complex and intensive rehabilitative services than are generally available in a skilled nursing facility, and who are clinically stable and no longer need the level of diagnostic and ancillary services provided generally in an acute care facility.

(b) For purposes of this section, "transitional inpatient care" means the level of care needed by an individual who has suffered an illness, injury, or exacerbation of a disease, and whose medical condition has clinically stabilized so that daily physician services and the immediate availability of technically complex diagnostic and invasive procedures usually available only in the acute care hospital are not medically necessary, and when the physician assuming the responsibility of treatment management of the patient in transitional care has developed a definitive and time-limited course of treatment. The individual's care needs may be medical, rehabilitative, or both. However, the individual shall fall within one of the two following patient groups:

(1) "Transitional medical patient," which means a medically stable patient with short-term transitional care needs, whose primary barrier to discharge to a residential setting is medical status rather than functional status. These patients may require simple rehabilitation therapy, but not a rehabilitation program appropriate for multiple interrelated areas of functional disability.

(2) "Transitional rehabilitation patient," which means a medically stable patient with short-term transitional care needs, whose primary barrier to discharge to a residential setting is functional status, rather than medical status, and who has the capacity to benefit from a rehabilitation program as determined by a physiatrist or physician otherwise skilled in rehabilitation medicine. These patients may have unresolved medical problems, but these problems must be sufficiently controlled to allow participation in the rehabilitation program.

(c) In implementing the transitional inpatient care program the department shall consider the differences between the two patient groups described in paragraphs (1) and (2) of subdivision (b) and shall assure that each group's specific health care needs are met.

(d) For the initial two years following the implementation of this program, transitional inpatient care services shall be made available only to qualifying Medi-Cal beneficiaries who are 18 years of age or older.

(e) For the initial two years following implementation of this program, transitional inpatient care services shall not be available to patients in acute care hospitals defined as small and rural pursuant to Section 124840 of the Health and Safety Code.

(f) (1) Transitional inpatient care services may be provided by general acute care hospitals that are licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code. General acute care hospitals may provide transitional inpatient care services in the acute care hospital, an acute rehabilitation center, or the distinct part skilled nursing unit of the acute care hospital. Licensed skilled nursing facilities, as defined in subdivision (c) of Section 1250 of the Health and Safety Code, may also provide the services described in subdivision (b).

(2) Costs of providing transitional inpatient care services in nonsegregated parts of the distinct part skilled nursing unit of the acute care hospital shall be determinable, in the absence of distinct and separate cost centers established for this purpose. Costs of providing transitional inpatient care services in nondistinct parts of the acute care hospital shall be determinable, in the absence of distinct and separate cost centers established for this purpose. A separate and distinct cost center shall be maintained or established for each unit in freestanding skilled nursing facilities in which the services described in subdivision (b) are provided, in order to identify and segregate costs for transitional inpatient care patients from costs for other patients who may be served within the parent facility.

(g) In order to participate as a provider in the transitional inpatient care program, a facility shall meet all applicable standards necessary for participation in the Medi-Cal program and all of the following:

(1) If the health facility is a freestanding nursing facility, it shall be located in close proximity to a general acute care hospital with which the facility has a transfer agreement in order to support the capability to respond to medical emergencies.

(2) The health facility shall demonstrate, to the department, competency in providing high quality care to all patients for whom the facility provides care, experience in providing high quality care to the types of transitional inpatient care patients the facility proposes to serve, and the ability to provide transitional inpatient care to patients pursuant to this chapter.

(3) The health facility shall enter into a provider agreement with the department for the provision of transitional inpatient care. The provider agreement shall specify whether the facility is authorized to serve transitional medical patients or transitional rehabilitation patients, or both, depending on the facility's demonstrated ability to meet standards specific to each patient group. Continuation of the provider agreement shall be contingent upon the facility's continued compliance with all the applicable requirements of this section and any other applicable laws or regulations.

(h) In determining a facility's qualifications for initial participation, an onsite review shall be conducted by the department. Subsequent review shall be conducted onsite as necessary, but not less frequently than annually. Initial and subsequent reviews shall be conducted by appropriate department personnel, who shall include a registered nurse and other health professionals where appropriate. The department shall develop written protocols for reviews.

(i) Transitional inpatient care services shall be available to patients receiving care in an acute care hospital. Under specified circumstances, as set forth in regulations, transitional inpatient care shall be available to patients transferring directly from a skilled

nursing facility level of care, a physician's office, a clinic, or from the emergency room of a general acute care hospital, provided they have received a comprehensive medical assessment conducted by a physician, and the physician determines, and documents in the medical record, that the patient has been clinically stable for the 24 hours preceding admission to the transitional inpatient care program.

(j) A health facility providing transitional inpatient care shall accept and retain only those patients for whom it can provide adequate, safe, therapeutic, and effective care, and as identified in its application for participation as a transitional inpatient care provider. The facility's determination to accept a patient into the transitional inpatient care unit shall be based on its preadmission screening process conducted by appropriate facility personnel.

(k) The department shall establish a process for providing timely, concurrent authorization and coordination, as required, of all medically necessary services for transitional inpatient care.

(*l*) The department shall adopt regulations specifying admission criteria and an admission process appropriate to each of the transitional inpatient care patient groups specified in subdivision (b). Patient admission criteria to transitional inpatient care shall include, but not be limited to, the following:

(1) Prior to admission to transitional inpatient care, the patient shall be determined to have been clinically stable for the preceding 24 hours by the attending physician and the physician assuming the responsibility of treatment management of the patient in the transitional inpatient care program.

(2) The patient shall be admitted to transitional inpatient care on the order of the physician assuming the responsibility of the management of the patient, with an established diagnosis, and an explicit time-limited course of treatment of sufficient detail to allow the facility to initiate appropriate assessments and services. No patient shall be transferred from an acute care hospital to a transitional inpatient care program that is in a freestanding nursing facility if the patient's attending physician documents in the medical record that the transfer would cause physical or psychological harm to the patient.

(3) (A) Medical necessity for transitional care shall include, but not be limited to, one or more of the following:

(i) Intravenous therapy.

(ii) Rehabilitative services.

(iii) Wound care.

(iv) Respiratory therapy.

(v) Traction.

(B) The department shall develop regulations further defining the services to be provided pursuant to clauses (i) to (v), inclusive, and the circumstances under which these services shall be provided.

(m) Registered nurses shall be assigned to the transitional inpatient care unit at all times and in sufficient numbers to allow for the ongoing patient assessment, patient care, and supervision of licensed and unlicensed staff. Participating facilities shall assure that staffing is adequate in number and skill mix, at all times, to address reasonably anticipated admissions, discharges, transfers, patient emergencies, and temporary absences of staff from the transitional care unit including, but not limited to, absences to attend meetings or inservice training. All licensed and certified health care personnel shall hold valid, current licensure or certification.

(n) Continued medical assessments shall be of sufficient frequency as to adequately review, evaluate, and alter plans of care as needed in response to patients' medical progress.

(o) The department shall develop a rate of reimbursement for transitional inpatient care services for providers as specified in subdivision (f). Reimbursement rates shall be specified in regulation and in accordance with methodologies developed by the department and may include the following:

(1) All inclusive per diem rates.

(2) Individual patient specific rates according to the needs of the individual transitional care patient.

(3) Other rates subject to negotiation with the health facility.

(p) Reimbursement at transitional inpatient care rates shall only be implemented when funds are available for this purpose pursuant to the annual Budget Act. Funds expended to implement this section shall be used by providers to assure safe, therapeutic and effective patient care by staffing at levels which meet patients' needs, and to ensure that these providers have the needed resources and staff to provide quality care to transitional inpatient care patients.

(q) (1) The department shall reimburse physicians for all medically necessary care provided to transitional inpatient care patients and shall establish Medi-Cal physician reimbursement rates commensurate with those for visits to nontransitional acute care patients in acute care hospitals.

(2) It is the intent of this subdivision to cover physician costs not included in the per diem rate.

(r) No later than January 1, 1999, the department shall evaluate, and make recommendations regarding, the effectiveness and safety of the transitional inpatient care program. The evaluation shall be developed in consultation with representatives of providers, facility employees, and consumers. The department may contract for all or a portion of the evaluation. The evaluation shall be for the purpose of determining the impact of the transitional inpatient care program on patient care, including functional outcomes, if applicable, on whether the care costs less than other alternatives, and whether it results in the deterioration of patient health and safety as compared to other placements. The evaluation shall also be for the purpose of determining the effect on patients other than those receiving

transitional inpatient care in participating facilities. The evaluation shall include:

(1) Data on patient mortality, patients served, length of stay, and subsequent placement or discharge.

(2) Data on readmission to acute care and emergency room transfers.

(3) Staffing standards in the facilities.

(4) Other outcome measures and indicia of patient health and safety otherwise required to be reported by federal or state law.

(s) The department shall develop regulations to amend Sections 51540 to 51556, inclusive, of Title 22 of the California Code of Regulations, to exclude the cost of transitional inpatient care services rendered in general acute care hospitals from the hospital's inpatient services reimbursement.

(t) The department may adopt emergency regulations as necessary to implement this section in accordance with the Administrative Procedures Act, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. The initial adoption of emergency regulations shall be deemed to be an emergency and considered by the Office of Administrative Law as necessary for the immediate preservation of public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this section shall remain in effect for no more than 180 days. If the department adopts emergency regulations to implement this section, the department shall obtain input from interested parties to address the unique needs of medically complex and intensive rehabilitative patients qualifying for transitional inpatient care. Notwithstanding the requirements of this section, the department shall, if it adopts emergency regulations to implement this section, address the following major subject areas:

(1) Patient selection and assessment criteria, including, but not limited to, preadmission screening, patient assessments, physician services, and interdisciplinary teams.

(2) Facility participation criteria and agreements, including but not limited to, facility licensing and certification history, demonstration to the department of a preexisting history in providing care to medically complex or intensive rehabilitative patients, data reporting requirements, demonstration of continued ability to provide high quality of care to all patients, nurse staffing requirements, ancillary services, and staffing requirements.

(u) This section shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, that is enacted on or before January 1, 2000, deletes or extends that date.

SEC. 477. Section 14132.77 of the Welfare and Institutions Code is amended to read:

14132.77. (a) (1) Any rural hospital may request to participate in a two-year pilot project to perform delegated acute inpatient

hospital treatment authorization review under the Medi-Cal program.

(2) Any hospital that elects to participate in the pilot project under this section shall enter into an agreement with the department to ensure the appropriateness of the treatments and services that it provides to a Medi-Cal beneficiary.

(3) Any rural hospital that elects to participate in a pilot project pursuant to this section shall remain in the project for not less than one year, unless it is removed by the department pursuant to subdivision (c).

(b) The department shall review, on a random basis, every six months, up to 25 percent of the Medi-Cal beneficiaries treated by each participating hospital. As long as a hospital participates in a pilot project authorized by this section, reviews required by this section shall not interfere with, or delay, the processing of the hospital's claims for payment. Consistent with subdivision (c), if the department finds that a hospital participating in a pilot project under this section is accumulating a significant overpayment, the department shall notify the provider.

(c) (1) (A) If the department determines, as a result of a review required by subdivision (b), that the hospital has provided treatment that cannot be approved by the department, the department shall take an immediate disallowance that shall require offsets against pending Medi-Cal payments and any direct payment that may be required by the department. The disallowance shall be based on full extrapolation of the sample to the universe of Medi-Cal days covered by the sample period.

(B) In addition to the requirements of subparagraph (A), if the department determines that the hospital has provided treatment that cannot be approved by the department for 3 percent or more of the Medi-Cal beneficiary days, the department shall take corrective action relative to the hospital's participation in the pilot project. The corrective action shall include at least one of the following actions:

(i) The revocation of the hospital's participation pursuant to subdivision (a).

(ii) An increased random review process.

(iii) Mandatory educational programs.

(2) After the random review required by subdivision (b), the hospital shall, through the reduction of the regularly scheduled periodic interim payment over a one-year period, pay the state an amount equal to the reimbursement received by the hospital for services for which approval has been denied and extrapolated pursuant to paragraph (1). This paragraph does not preclude any hospital from appealing a determination of the department under Article 5.3 (commencing with Section 14170). However, any issue under appeal shall not delay any disallowance or corrective action

taken by the department under paragraph (1) until the appeal is resolved.

(d) The department may reinstate any hospital's participation revoked pursuant to subdivision (c) if, after a period of three months, the hospital's requests for a treatment authorization are not denied in 3 percent or more of the Medi-Cal days.

(e) Six months after the conclusion of the first year of the pilot project, the department shall prepare a report with an evaluation of the project and shall submit it to the appropriate committees of the Legislature. The department shall include its determination as to whether the project should be extended, modified, or terminated in the report and the basis for any determinations made by the department.

(f) (1) As part of the pilot project implemented under this section, the department may, subject to federal approval, authorize the reimbursement of a participating rural hospital at a predetermined amount every two weeks or on some other basis determined to be appropriate by the department. Following every six-month period, the department shall immediately begin adjustment of any overpayment or underpayment, based on the amount paid to the provider as compared to the actual amount of claims approved by the department. Any hospital that is selected to participate in the pilot project under this section that elects to be paid for acute inpatient services under this subdivision shall be subject to the payment provisions of this section for the duration of the hospital's participation in the pilot project.

(2) The amount of reimbursement under paragraph (1) shall be based on the actual claims payment experience for each hospital for the immediately preceding period of six months and rate adjustments made in accordance with existing Medi-Cal reimbursement requirements.

(g) For purposes of this section, "rural hospital" means a small and rural hospital as defined in Section 124840 of the Health and Safety Code.

(h) The scope of the pilot project shall be subject to federal approval and the necessary resources made available from sources other than the General Fund or savings from program efficiencies that may be identified for this purpose.

(i) The department shall implement this section only upon receipt of all appropriate federal waivers.

SEC. 478. Section 14138 of the Welfare and Institutions Code is amended to read:

14138. (a) To the extent permitted by federal law, the department shall purchase vaccines and biological products in bulk from the Centers for Disease Control or any other sources at the lowest cost possible, for use by providers of services under this chapter and the Child Health and Disability Prevention program under Article 6 (commencing with Section 124025) of Chapter 3 of

Part 2 of Division 106 of the Health and Safety Code, in the immunization of eligible children.

(b) It is the intent of the Legislature that, to the maximum extent possible, any savings of General Fund moneys realized from the program established pursuant to this section shall be reinvested in programs that are most likely to increase access to, and the quality of, immunization services for children.

(c) In order to achieve maximum cost savings, the Legislature hereby determines that an expedited contract process for contracts under this section is necessary. Therefore, contracts under this section may be on a nonbid basis and shall be exempt from the provisions of the Public Contract Code.

(d) No part of this section shall be construed to require the department to undertake distribution of vaccines and biological products.

SEC. 479. Section 14139 of the Welfare and Institutions Code is amended to read:

14139. (a) The department shall expend, upon appropriation, any savings accrued from the establishment and implementation of a bulk purchase vaccine program to increase the participation of physicians and surgeons, public and community-based health clinics, and health care facilities as immunization providers under the Medi-Cal program and under the child health and disability prevention programs established pursuant to Article 6 (commencing with Section 124025) of Chapter 3 of Part 2 of Division 106 of the Health and Safety Code and to increase access to, and the quality of, immunization services for publicly insured and uninsured children, and to provide funding to counties to assist in the administration of local immunization programs. These funds shall supplement, not supplant, existing state and local funds.

(b) The department shall implement subdivision (a) at the earliest possible time after a bulk purchase program for child vaccines is implemented and savings from that program are realized.

(c) The department is encouraged to enlist the help of state and local medical, nursing, and other appropriate associations and societies to enhance private provider outreach programs, that shall include, but not be limited to, components emphasizing the purposes of the public vaccine program and discouraging the practice of sending Medi-Cal and child health and disability prevention program eligible children into county and other public clinics for immunizations.

SEC. 480. Section 14148.3 of the Welfare and Institutions Code is amended to read:

14148.3. The department shall seek federal approval to implement obstetrical case management for Medi-Cal eligible pregnant women when provided through the Child Health and Disability Prevention program authorized under Article 6

(commencing with Section 124025) of Chapter 3 of Part 2 of Division 106 of the Health and Safety Code.

SEC. 481. Section 14163 of the Welfare and Institutions Code, as amended by Chapter 198 of the Statutes of 1996, is amended to read:

14163. (a) For purposes of this section, the following definitions shall apply:

(1) "Public entity" means a county, a city, a city and county, the University of California, a local hospital district, a local health authority, or any other political subdivision of the state.

(2) "Hospital" means a health facility that is licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code to provide acute inpatient hospital services, and includes all components of the facility.

(3) "Disproportionate share hospital" means a hospital providing acute inpatient services to Medi-Cal beneficiaries that meets the criteria for disproportionate share status relating to acute inpatient services set forth in Section 14105.98.

(4) "Disproportionate share list" means the annual list of disproportionate share hospitals for acute inpatient services issued by the department pursuant to Section 14105.98.

(5) "Fund" means the Medi-Cal Inpatient Payment Adjustment Fund.

(6) "Eligible hospital" means, for a particular state fiscal year, a hospital on the disproportionate share list that is eligible to receive payment adjustment amounts under Section 14105.98 with respect to that state fiscal year.

(7) "Transfer year" means the particular state fiscal year during which, or with respect to which, public entities are required by this section to make an intergovernmental transfer of funds to the Controller.

(8) "Transferor entity" means a public entity that, with respect to a particular transfer year, is required by this section to make an intergovernmental transfer of funds to the Controller.

(9) "Transfer amount" means an amount of intergovernmental transfer of funds that this section requires for a particular transferor entity with respect to a particular transfer year.

(10) "Intergovernmental transfer" means a transfer of funds from a public entity to the state, that is local government financial participation in Medi-Cal pursuant to the terms of this section.

(11) "Licensee" means an entity that has been issued a license to operate a hospital by the department.

(12) "Annualized Medi-Cal inpatient paid days" means the total number of Medi-Cal acute inpatient hospital days, regardless of dates of service, for which payment was made by or on behalf of the department to a hospital, under present or previous ownership, during the most recent calendar year ending prior to the beginning of a particular transfer year, including all Medi-Cal acute inpatient

covered days of care for hospitals that are paid on a different basis than per diem payments.

(13) "Medi-Cal acute inpatient hospital day" means any acute inpatient day of service attributable to patients who, for those days, were eligible for medical assistance under the California state plan, including any day of service that is reimbursed on a basis other than per diem payments.

(14) "OBRA 1993 payment limitation" means the hospital-specific limitation on the total annual amount of payment adjustments to each eligible hospital under the payment adjustment program that can be made with federal financial participation under Section 1396r-4(g) of Title 42 of the United States Code as implemented pursuant to the Medi-Cal State Plan.

(b) The Medi-Cal Inpatient Payment Adjustment Fund is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, the fund shall be continuously appropriated to, and under the administrative control of, the department for the purposes specified in subdivision (d). The fund shall consist of the following:

(1) Transfer amounts collected by the Controller under this section, whether submitted by transferor entities pursuant to applicable provisions of this section or obtained by offset pursuant to subdivision (j).

(2) Any other intergovernmental transfers deposited in the fund, as permitted by Section 14164.

(3) Any interest that accrues with respect to amounts in the fund.

(c) Moneys in the fund, which shall not consist of any state general funds, shall be used as the source for the nonfederal share of payments to hospitals pursuant to Section 14105.98. Moneys shall be allocated from the fund by the department and matched by federal funds in accordance with customary Medi-Cal accounting procedures, and used to make payments pursuant to Section 14105.98.

(d) Except as otherwise provided in Section 14105.98 or in any provision of law appropriating a specified sum of money to the department for administering this section and Section 14105.98, moneys in the fund shall be used only for the following:

(1) Payments to hospitals pursuant to Section 14105.98.

(2) Except for the amount transferred pursuant to paragraph (3), transfers to the Health Care Deposit Fund as follows:

(A) In the amount of two hundred thirty-nine million seven hundred fifty-seven thousand six hundred ninety dollars ($239,757,690), for the 1994–95 and 1995–96 fiscal years.

(B) In the amount of two hundred twenty-nine million seven hundred fifty-seven thousand six hundred ninety dollars ($229,757,690) for the 1996–97 fiscal year and each fiscal year thereafter.

(C) Notwithstanding any other provision of law, the amount specified in this paragraph shall be in addition to any amounts transferred to the Health Care Deposit Fund arising from changes of any kind attributable to payment adjustment years prior to the 1993–94 payment adjustment year. These transfers from the fund shall be made in six equal monthly installments to the Medi-Cal local assistance appropriation item (Item 4260-101-001 of the annual Budget Act) in support of Medi-Cal expenditures. The first installment shall accrue in October of each transfer year, and all other installments shall accrue monthly thereafter from November through March.

(3) In the 1993–94 fiscal year, in addition to the amount transferred as specified in paragraph (2), fifteen million dollars ($15,000,000) shall also be transferred to the Medi-Cal local assistance appropriation item (Item 4260-101-001) of the Budget Act of 1993.

(e) For the 1991–92 state fiscal year, the department shall determine, no later than 70 days after the enactment of this section, the transferor entities for the 1991–92 transfer year. To make this determination, the department shall utilize the disproportionate share list for the 1991–92 fiscal year, which shall be issued by the department no later than 65 days after the enactment of this section, pursuant to paragraph (1) of subdivision (f) of Section 14105.98. The department shall identify each eligible hospital on the list for which a public entity is the licensee as of July 1, 1991. The public entity that is the licensee of each identified eligible hospital shall be a transferor entity for the 1991–92 transfer year.

(f) The department shall determine, no later than 70 days after the enactment of this section, the transfer amounts for the 1991–92 transfer year.

The transfer amounts shall be determined as follows:

(1) The eligible hospitals for 1991–92 shall be identified. For each hospital, the applicable total per diem payment adjustment amount under Section 14105.98 for the 1991–92 transfer year shall be computed. This amount shall be multiplied by 80 percent of the eligible hospital's annualized Medi-Cal inpatient paid days as determined from all Medi-Cal paid claims records available through April 1, 1991. The products of these calculations for all eligible hospitals shall be added together to determine an aggregate sum for the 1991–92 transfer year.

(2) The eligible hospitals for 1991–92 involving transferor entities as licensees shall be identified. For each hospital, the applicable total per diem payment adjustment amount under Section 14105.98 for the 1991–92 transfer year shall be computed. This amount shall be multiplied by 80 percent of the eligible hospital's annualized Medi-Cal inpatient paid days as determined from all Medi-Cal paid claims records available through April 1, 1991. The products of these calculations for all eligible hospitals with transferor entities as

licensees shall be added together to determine an aggregate sum for the 1991–92 transfer year.

(3) The aggregate sum determined under paragraph (1) shall be divided by the aggregate sum determined under paragraph (2), yielding a factor to be utilized in paragraph (4).

(4) The factor determined in paragraph (3) shall be multiplied by the amount determined for each hospital under paragraph (2). The product of this calculation for each hospital in paragraph (2) shall be divided by 1.771, yielding a transfer amount for the particular transferor entity for the transfer year.

(g) For the 1991–92 transfer year, the department shall notify each transferor entity in writing of its applicable transfer amount or amounts no later than 70 days after the enactment of this section.

(h) For the 1992–93 transfer year and subsequent transfer years, transfer amounts shall be determined in the same procedural manner as set forth in subdivision (f), except:

(1) The department shall use all of the following:

(A) The disproportionate share list applicable to the particular transfer year to determine the eligible hospitals.

(B) The payment adjustment amounts calculated under Section 14105.98 for the particular transfer year. These amounts shall take into account any projected or actual increases or decreases in the size of the payment adjustment program as are required under Section 14105.98 for the particular year in question, including any decreases resulting from the application of the OBRA 1993 payment limitation. Subject to the installment schedule in paragraph (5) of subdivision (i) regarding transfer amounts, the department may issue interim, revised, and supplemental transfer requests as necessary and appropriate to address changes in payment adjustment levels that occur under Section 14105.98. All transfer requests, or adjustments thereto, issued to transferor entities by the department shall meet the requirements set forth in subparagraph (E) of paragraph (5) of subdivision (i).

(C) Data regarding annualized Medi-Cal inpatient paid days for the most recent calendar year ending prior to the beginning of the particular transfer year, as determined from all Medi-Cal paid claims records available through April 1 preceding the particular transfer year.

(D) The status of public entities as licensees of eligible hospitals as of July 1 of the particular transfer year.

(E) (i) Except as provided in subparagraph (ii), for transfer amounts calculated by the department may be increased or decreased by a percentage amount consistent with the Medi-Cal State Plan.

(ii) For the 1995–96 transfer year, the nonfederal share of the secondary supplemental payment adjustments described in paragraph (9) of subdivision (y) of Section 14105.98 shall be funded as follows:

(I) Ninety-nine percent of the nonfederal share shall be funded by a transfer from the University of California.

(II) One percent of the nonfederal share shall be funded by transfers from those public entities that are the licensees of the hospitals included in the "other public hospitals" group referred to in clauses (ii) and (iii) of subparagraph (B) of paragraph (9) of subdivision (y) of Section 14105.98. The transfer responsibilities for this one percent shall be allocated to the particular public entities on a pro rata basis, based on a formula or formulae customarily used by the department for allocating transfer amounts under this section. The formula or formulae shall take into account, through reallocation of transfer amounts as appropriate, the situation of hospitals whose secondary supplemental payment adjustments are restricted due to the application of the limitation set forth in clause (v) of subparagraph (B) of paragraph (9) of subdivision (y) of Section 14105.98.

(III) All transfer amounts under this subparagraph shall be paid by the particular transferor entities within 30 days after the department notifies the transferor entity in writing of the transfer amount to be paid.

(2) For the 1993–94 transfer year and subsequent transfer years, transfer amounts shall be increased on a pro rata basis for each transferor entity for the particular transfer year in the amounts necessary to fund the nonfederal share of the total supplemental lump-sum payment adjustment amounts that arise under Section 14105.98. For purposes of this paragraph, the supplemental lump-sum payment adjustment amounts shall be deemed to arise for the particular transfer year as of the date specified in Section 14105.98. Transfer amounts to fund the nonfederal share of the payments shall be paid by the transferor entities for the particular transfer year within 20 days after the department notifies the transferor entity in writing of the additional transfer amount to be paid.

(3) The department shall prepare preliminary analyses and calculations regarding potential transfer amounts, and potential transferor entities shall be notified by the department of estimated transfer amounts as soon as reasonably feasible regarding any particular transfer year. Written notices of transfer amounts shall be issued by the department as soon as possible with respect to each transfer year. All state agencies shall take all necessary steps in order to supply applicable data to the department to accomplish these tasks. The Office of Statewide Health Planning and Development shall provide to the department quarterly access to the edited and unedited confidential patient discharge data files for all Medi-Cal eligible patients. The department shall maintain the confidentiality of that data to the same extent as is required of the Office of Statewide Health Planning and Development. In addition, the Office of Statewide Health Planning and Development shall provide to the department, not later than March 1 of each year, the data specified

by the department, as the data existed on the statewide data base file as of February 1 of each year, from all of the following:

(A) Hospital annual disclosure reports, filed with the Office of Statewide Health Planning and Development pursuant to Section 128735 of the Health and Safety Code, for hospital fiscal years that ended during the calendar year ending 13 months prior to the applicable February 1.

(4) For the 1993–94 transfer year and subsequent transfer years, the divisor to be used for purposes of the calculation referred to in paragraph (4) of subdivision (f) shall be determined by the department. The divisor shall be calculated to ensure that the appropriate amount of transfers from transferor entities are received into the fund to satisfy the requirements of Section 14105.98 for the particular transfer year. For the 1993–94 transfer year, the divisor shall be 1.742.

(5) For the 1993–94 fiscal year, the transfer amount that would otherwise be required from the University of California shall be increased by fifteen million dollars ($15,000,000).

(6) Notwithstanding any other provision of law, the total amount of transfers required from the transferor entities for any particular transfer year shall not exceed the sum of the following:

(A) The amount needed to fund the nonfederal share of all payment adjustment amounts applicable to the particular payment adjustment year as calculated under Section 14105.98. Included in the calculations for this purpose shall be any decreases in the program as a whole, and for individual hospitals, that arise due to the provisions of Section 1396r-4(f) or (g) of Title 42 of the United States Code.

(B) The amount needed to fund the transfers to the Health Care Deposit Fund, as referred to in paragraphs (2) and (3) of subdivision (d).

(7) (A) Except as provided in paragraph (2) of subdivision (j), and except for a prudent reserve not to exceed two million dollars ($2,000,000) in the Medi-Cal Inpatient Payment Adjustment Fund, any amounts in the fund, including interest that accrues with respect to the amounts in the fund, that are not expended, or estimated to be required for expenditure, under Section 14105.98 with respect to a particular transfer year shall be returned on a pro rata basis to the

transferor entities for the particular transfer year within 120 days after the department determines that the funds are not needed for an expenditure in connection with the particular transfer year.

(B) The department shall determine the interest amounts that have accrued in the fund from its inception through June 30, 1995, and, no later than January 1, 1996, shall distribute these interest amounts to transferor entities, as follows:

(i) The total amount transferred to the fund by each transferor entity for all transfer years from the inception of the fund through June 30, 1995, shall be determined.

(ii) The total amounts determined for all transferor entities under clause (i) shall be added together, yielding an aggregate of the total amounts transferred to the fund for all transfer years from the inception of the fund through June 30, 1995.

(iii) The total amount determined under clause (i) for each transferor entity shall be divided by the aggregate amount determined under clause (ii), yielding a percentage for each transferor entity.

(iv) The total amount of interest earned by the fund from its inception through June 30, 1995, shall be determined.

(v) The percentage determined under clause (iii) for each transferor entity shall be multiplied by the amount determined under clause (iv), yielding the amount of interest that shall be distributed under this subparagraph to each transferor entity.

(C) Regarding any funds returned to a transferor entity under subparagraph (A), or interest amounts distributed to a transferor entity under subparagraph (B), the department shall provide to the transferor entity a written statement that explains the basis for the particular return or distribution of funds and contains the general calculations used by the department in determining the amount of the particular return or distribution of funds.

(i) (1) For the 1991–92 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in eight equal installments. Except as provided below, the first installment shall accrue on July 25, 1991, and all other installments shall accrue on the fifth day of each month thereafter from August through February.

(2) Notwithstanding paragraph (1), no installment shall be payable to the Controller until that date which is 20 days after the department notifies the transferor entity in writing that the payment adjustment program set forth in Section 14105.98 has first gained federal approval as part of the Medi-Cal program. For purposes of this paragraph, federal approval requires both (i) approval by appropriate federal agencies of an amendment to the Medi-Cal State Plan, as referred to in subdivision (o) of Section 14105.98, and (ii) confirmation by appropriate federal agencies regarding the availability of federal financial participation for the payment adjustment program set forth in Section 14105.98 at a level of at least

40 percent of the percentage of federal financial participation that is normally applicable for Medi-Cal expenditures for acute inpatient hospital services.

(3) If any installment that would otherwise be payable under paragraph (1) is not paid because of the provisions of paragraph (2), then subparagraphs (A) and (B) shall be followed when federal approval is gained.

(A) All installments that were deferred based on the provisions of paragraph (2) shall be paid no later than 20 days after the department notifies the transferor entity in writing that federal approval has been gained, in an amount consistent with subparagraph (B).

(B) The installments paid pursuant to subparagraph (A) shall be paid in full, subject to an adjustment in amount pursuant to paragraph (5) of subdivision (f).

(4) All installments for the 1991–92 transfer year that arise in months after federal approval is gained shall be paid by the fifth day of the month or 20 days after the department notifies the transferor entity in writing that federal approval has been gained, whichever is later. These installments shall be subject to an adjustment in amount pursuant to paragraph (5) of subdivision (f).

(5) (A) Except as provided in subparagraphs (B) and (C), for the 1992–93 transfer year and subsequent transfer years, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in eight equal installments. The first installment shall be payable on July 10 of each transfer year. All other installments shall be payable on the fifth day of each month thereafter from August through February.

(B) For the 1994–95 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in five equal installments. The first installment shall be payable on October 5, 1994. The next four installments shall be payable on the fifth day of each month thereafter from November through February.

(C) For the 1995–96 transfer year, each transferor entity shall pay its transfer amount or amounts to the Controller, for deposit in the fund, in five equal installments. The first installment shall be payable on October 5, 1995. The next four installments shall be payable on the fifth day of each month thereafter from November through February.

(D) Except as otherwise specifically provided, subparagraphs (A) to (C), inclusive, shall not apply to increases in transfer amounts described in paragraph (2) of subdivision (h) or to additional transfer amounts described in subdivision (o).

(E) All requests for transfer payments, or adjustments thereto, issued by the department shall be in writing and shall include (i) an explanation of the basis for the particular transfer request or transfer activity, (ii) a summary description of program funding status for the particular transfer year, and (iii) the general calculations used by the

department in connection with the particular transfer request or transfer activity.

(6) A transferor entity may use any of the following funds for purposes of meeting its transfer obligations under this section:

(A) General funds of the transferor entity.

(B) Any other funds permitted by law to be used for these purposes, except that a transferor entity shall not submit to the Controller any federal funds unless those federal funds are authorized by federal law to be used to match other federal funds. In addition, no private donated funds from any health care provider, or from any person or organization affiliated with such a health care provider, shall be channeled through a transferor entity or any other public entity to the fund. The transferor entity shall be responsible for determining that funds transferred meet the requirements of this subparagraph.

(j) (1) If a transferor entity does not submit any transfer amount within the time period specified in this section, the Controller shall offset immediately the amount owed against any funds that otherwise would be payable by the state to the transferor entity. The Controller, however, shall not impose an offset against any particular funds payable to the transferor entity where the offset would violate state or federal law.

(2) Where a withhold or a recoupment occurs pursuant to the provisions of paragraph (2) of subdivision (r) of Section 14105.98, the nonfederal portion of the amount in question shall remain in the fund, or shall be redeposited in the fund by the department, as applicable. The department shall then proceed as follows:

(A) If the withhold or recoupment was imposed with respect to a hospital whose licensee was a transferor entity for the particular state fiscal year to which the withhold or recoupment related, the nonfederal portion of the amount withheld or recouped shall serve as a credit for the particular transferor entity against an equal amount of transfer obligations under this section, to be applied whenever the transfer obligations next arise. Should no such transfer obligation arise within 180 days, the department shall return the funds in question to the particular transferor entity within 30 days thereafter.

(B) For other situations, the withheld or recouped nonfederal portion shall be subject to paragraph (7) of subdivision (h).

(k) All amounts received by the Controller pursuant to subdivision (i), paragraph (2) of subdivision (h), or subdivision (o), or offset by the Controller pursuant to subdivision (j), shall immediately be deposited in the fund.

(*l*) For purposes of this section, the disproportionate share list utilized by the department for a particular transfer year shall be identical to the disproportionate share list utilized by the department for the same state fiscal year for purposes of Section 14105.98. Nothing on a disproportionate share list, once issued by the department, shall be modified for any reason other than mathematical or typographical

errors or omissions on the part of the department or the Office of Statewide Health Planning and Development in preparation of the list.

(m) Neither the intergovernmental transfers required by this section, nor any elective transfer made pursuant to Section 14164, shall create, lead to, or expand the health care funding or service obligations for current or future years for any transferor entity, except as required of the state by this section or as may be required by federal law, in which case the state shall be held harmless by the transferor entities on a pro rata basis.

(n) No amount submitted to the Controller pursuant to subdivision (i), paragraph (2) of subdivision (h), or subdivision (o), or offset by the Controller pursuant to subdivision (j), shall be claimed or recognized as an allowable element of cost in Medi-Cal cost reports submitted to the department.

(o) Whenever additional transfer amounts are required to fund the nonfederal share of payment adjustment amounts under Section 14105.98 that are distributed after the close of the particular payment adjustment year to which the payment adjustment amounts apply, the additional transfer amounts shall be paid by the parties who were the transferor entities for the particular transfer year that was concurrent with the particular payment adjustment year. The additional transfer amounts shall be calculated under the formula that was in effect during the particular transfer year. For transfer years prior to the 1993–94 transfer year, the percentage of the additional transfer amounts available for transfer to the Health Care Deposit Fund under subdivision (d) shall be the percentage that was in effect during the particular transfer year. These additional transfer amounts shall be paid by transferor entities within 20 days after the department notifies the transferor entity in writing of the additional transfer amount to be paid.

(p) (1) Ten million dollars ($10,000,000) of the amount transferred from the Medi-Cal Inpatient Payment Adjustment Fund to the Health Care Deposit Fund due to amounts transferred attributable to years prior to the 1993–94 fiscal year is hereby appropriated without regard to fiscal years to the State Department of Health Services to be used to support the development of managed care programs under the department's plan to expand Medi-Cal managed care.

(2) These funds shall be used by the department for both of the following purposes: (A) distributions to counties or other local entities that contract with the department to receive those funds to offset a portion of the costs of forming the local initiative entity, and (B) distributions to local initiative entities that contract with the department to receive those funds to offset a portion of the costs of developing the local initiative health delivery system in accordance with the department's plan to expand Medi-Cal managed care.

(3) Entities contracting with the department for any portion of the ten million dollars ($10,000,000) shall meet the objectives of the department's plan to expand Medi-Cal managed care with regard to traditional and safety net providers.

(4) Entities contracting with the department for any portion of the ten million dollars ($10,000,000) may be authorized under those contracts to utilize their funds to provide for reimbursement of the costs of local organizations and entities incurred in participating in the development and operation of a local initiative.

(5) To the full extent permitted by state and federal law, these funds shall be distributed by the department for expenditure at the local level in a manner that qualifies for federal financial participation under the medicaid program.

(b) A county may require that hospitals, physicians, dentists, and other providers receiving funds appropriated pursuant to this part participate in complying with this section, provided that:

(1) Hospitals that receive an allocation pursuant to paragraph (1) of subdivision (b) of Section 16946 and physicians who receive payment from the Physician Services Account of the emergency medical services fund established pursuant to Article 3.5 (commencing with Section 16951) shall not be required to participate in complying with subdivision (a) as a condition of receiving those allocations or payments.

(2) Only providers that contract with the county and receive funds disbursed from the Unallocated Account pursuant to Article 4 (commencing with Section 16960) or from the discretionary portion of the Physician Services Account pursuant to subdivision (b) of Section 16950, or from the discretionary portion of the Hospital Services Account pursuant to paragraph (2) of subdivision (b) of Section 16946 may be required to participate in complying with subdivision (a).

(c) Dental services provided pursuant to this section shall be at least equal in scope and frequency to dental services available to Medi-Cal eligible children of the same age.

(d) Counties shall implement this section in consultation and coordination with their child health disability prevention programs.

SEC. 498. Section 16996.2 of the Welfare and Institutions Code is amended to read:

16996.2. Inpatient hospital services shall be provided at no cost upon referral by a child health and disability prevention program provider, whether that provider is a physician, a county, or a primary care clinic, unless the child is eligible to receive care with no share of cost under the Medi-Cal program, is covered under another publicly funded program, or the services are payable under private insurance coverage.

SEC. 499. Section 17602 of the Welfare and Institutions Code is amended to read:

17602. (a) On or before the 27th day of the month, the Controller shall allocate to counties the amounts deposited and remaining unexpended and unreserved on the 15th day of the month in the Social Services Subaccount of the Sales Tax Account of the Local Revenue Fund, pursuant to schedules developed by the Department of Finance in conjunction with the appropriate state departments based on the estimated 1991–92 expenditures as contained in the Budget Act for programs set forth in subdivision (b), the Controller shall make monthly allocations to counties of the funds deposited into the Social Services Subaccount of the Sales Tax Account of the Local Revenue Fund. These allocations shall be made to the Social Services Account of the local health and welfare trust fund.

The programs to be funded in accordance with the schedule are those set forth in Sections 1794, 1904, 10101, 10101.1, 11322, 11322.2, 12306, 15200, 15204.2, and 18906.5 of this code, and Section 123940 of

the Health and Safety Code and the program set forth in Section 1806, as funded in the Governor's proposed budget. The schedule for the 1991–92 fiscal year shall be considered final on October 1, 1991.

(b) (1) For the 1991–92 fiscal year and every fiscal year thereafter, the Controller shall allocate an amount from the Social Services Subaccount to counties that equals the amount those counties receive pursuant to Sections 16265 to 16265.7, inclusive, of the Government Code in the 1990–91 fiscal year.

(2) Notwithstanding any other provision of this chapter, counties may use these funds as authorized by Section 16265.7 of the Government Code.

(c) (1) Pursuant to schedules developed by the Department of Finance, in conjunction with the Department of the Youth Authority, based on the estimated 1991–92 fiscal year expenditures as contained in the 1991–92 proposed Governor's Budget for programs impacted by the realignment and contained in the allocations to counties of the funds deposited into the Social Services Subaccount of the Sales Tax Account in the Local Revenue Fund. The programs set forth in Sections 894, 1794, and 1904 shall be funded in accordance with the schedules adopted pursuant to this subdivision.

(2) (A) Counties that receive allocations pursuant to Article 24.5 (commencing with Section 894) of Chapter 2 of Division 2, Article 5.5 (commencing with Section 1790) of Chapter 1 of Division 2.5 and Article 10 (commencing with Section 1900) of Chapter 1 of Division 2.5 shall receive the same allocation for the 1991–92 fiscal year that they received for the 1990–91 fiscal year.

(B) (i) Of the amount allocated to San Bernardino County under this section for the 1991–92 fiscal year, five hundred thousand dollars ($500,000) shall be designated for the Regional Youth Education Center.

(ii) Of the amount allocated to Los Angeles County under this section for the 1991–92 fiscal year, four hundred eighty-nine thousand four hundred eighty-six dollars ($489,486) shall be designated for the Sugar Ray Robinson Youth Foundation, and one hundred forty thousand eight hundred dollars ($140,800) shall be allocated for the John Rossi Youth Foundation, Inc.

(C) Funding allocated to counties under this section for the 1991–92 fiscal year for programs set forth in Article 2 (commencing with Section 1900) of Chapter 1 of Division 2.5 shall be allocated to previously funded youth services bureaus at the 1990–91 fiscal year level.

(d) Subject to the availability of funds from the 1990–91 fiscal year, the Counties of Butte, Colusa, El Dorado, Humboldt, Lake, Madera, Nevada, Placer, Riverside, Santa Cruz, and Yuba may be reimbursed for underallocated Child Welfare Services' Program costs from unused Child Welfare Services' Program funds to reflect Public Employees' Retirement System contributions credits in the 1991–92 fiscal year.

(e) For the 1992–93 fiscal year and fiscal years thereafter, the allocations by the Controller to each county and city and county shall equal the amounts received in the prior fiscal year by each county and city and county from the Sales Tax Account and the Sales Tax Growth Account for deposit into the social services account of the local health and welfare trust fund.

SEC. 500. Section 17605 of the Welfare and Institutions Code is amended to read:

17605. (a) For the 1992–93 fiscal year, the Controller shall deposit into the Caseload Subaccount of the Sales Tax Growth Account of the Local Revenue Fund, from revenues deposited into the Sales Tax Growth Account, an amount to be determined by the Department of Finance, that represent the sum of the shortfalls between the actual realignment revenues received by each county and each city and county from the Social Services Subaccount of the Local Revenue Fund in the 1991–92 fiscal year and the net costs incurred by each of those counties and cities and counties in the fiscal year for the programs described in Sections 10101, 10101.1, 11322, 11322.2, 12306, subdivisions (a), (b), (c), and (d) of Section 15200, and Sections 15204.2 and 18906.5. The Department of Finance shall provide the Controller with an allocation schedule on or before August 15, 1993, that shall be used by the Controller to allocate funds deposited to the Caseload Subaccount under this subdivision. The Controller shall allocate these funds no later than August 27, 1993.

(b) (1) For the 1993–94 fiscal year and fiscal years thereafter, the Controller shall deposit into the Caseload Subaccount of the Sales Tax Growth Account of the Local Revenue Fund, from revenues deposited into the Sales Tax Growth Account, an amount determined by the Department of Finance, in consultation with the appropriate state departments and the California State Association of Counties, that is sufficient to fund the net cost for the realigned portion of the county or city and county share of growth in social services caseloads, as specified in paragraph (2). The Department of Finance shall provide the Controller with an allocations schedule on or before March 15 of each year. The schedule shall be used by the Controller to allocate funds deposited into the Caseload Subaccount under this subdivision.

(2) For purposes of this subdivision, "growth" means the increase in the actual caseload expenditures for the prior fiscal year over the actual caseload expenditures for the fiscal year preceding the prior fiscal year for the programs described in Section 12306, subdivisions (a), (b), (c), and (d) of Section 15200, and Sections 10101, 15204.2 and 18906.5 of this code, and subdivision (b) of Section 123940 of the Health and Safety Code.

(3) The difference in caseload expenditures between the fiscal years shall be multiplied by the factors that represent the change in county or city and county shares of the realigned programs. These products shall then be added or subtracted, taking into account

whether the county's or city and county's share of costs was increased or decreased as a result of realignment, to yield each county's or city and county's allocation for caseload growth. Allocations for counties or cities and counties with allocations of less than zero shall be set at zero.

(c) On or before the 27th day of each month, the Controller shall allocate, to the local health and welfare trust fund social services account, the amounts deposited and remaining unexpended and unreserved on the 15th day of the month in the Caseload Subaccount, pursuant to the schedule of allocations of caseload growth described in subdivision (b). If there are insufficient funds to fully satisfy all caseload growth obligations, each county's or city and county's allocation for each program specified in subdivision (d) shall be prorated.

(d) Prior to allocating funds pursuant to subdivision (b), to the extent that funds are available from funds deposited in the Caseload Subaccount in the Sales Tax Growth Account in the Local Revenue Fund, the Controller shall allocate money to counties or cities and counties to correct any inequity or inequities in the computation of the child welfare services portion of the schedule required by subdivision (a) of Section 17602.

(e) The Department of Finance shall submit to the Controller, by March 1, 1994, a schedule specifying the amount of the allocations described in subdivision (d). This schedule shall include, but need not be limited to, adjustments resulting from retirement system credits and other anomalies that occurred in the 1989–90 fiscal year and the 1990–91 fiscal year.

SEC. 501. Section 18966 of the Welfare and Institutions Code, as amended by Chapter 880 of the Statutes of 1995, is amended to read:

18966. When a county board of supervisors designates a commission pursuant to Section 18965, the board of supervisors shall establish a county children's trust fund. The children's trust fund shall consist of the fees for birth certificates, collected pursuant to Section 103625 of the Health and Safety Code, grants, gifts, or bequests from private sources to be used for child abuse and neglect prevention and intervention programs, any funds appropriated by local governmental entities to the trust fund, and any funds appropriated to the county for the trust fund by the Legislature. The local registrar or county recorder may, however, retain a percentage, not to exceed 10 percent, of the surcharge collectible pursuant to subdivision (b) of Section 103625 of the Health and Safety Code, in order to defray the costs of collection.

The county treasurer shall transmit moneys collected from birth certificate fees for the county children's trust fund, pursuant to subdivision (b) of Section 103625 of the Health and Safety Code, collected with respect to the birth certificate of a child whose mother was a resident of another county at the time of the birth to the treasurer of the county of the mother's residence at the time of the

birth if the county to receive the funds has established a program pursuant to Article 5 (commencing with Section 18965) of Chapter 11 of Part 6 of Division 9 of the Welfare and Institutions Code and does not have a licensed health facility that provides maternity services within its jurisdiction.

SEC. 502. Section 18966.1 of the Welfare and Institutions Code is amended to read:

18966.1. (a) Any federal funds provided for child abuse prevention challenge grants to provide matching funds to states that have established children's trust funds shall be allocated to the counties' children's trust funds in the following manner:

(1) Counties that receive less than twenty thousand dollars ($20,000) per annum for their county children's trust funds from the fees on birth certificates collected pursuant to Section 103625 of the Health and Safety Code, shall be granted from federal matching funds that amount necessary to bring that income to the trust fund to twenty thousand dollars ($20,000) per year.

If the state's annual federal matching fund allocation is insufficient to provide each county children's trust fund with a minimum total annual funding level of twenty thousand dollars ($20,000), the Office of Child Abuse Prevention shall determine an allocation process for federal matching funds to ensure that each county children's trust fund receives a minimum level of annual funding from all sources.

(2) The remaining funds from the federal challenge grant shall then be distributed equally among all the counties, up to ten thousand dollars ($10,000) per county.

(3) If sufficient federal matching funds exist after each county children's trust fund is provided a total annual children's trust fund allocation of twenty thousand dollars ($20,000) and after each county children's trust fund receives a maximum annual allocation of ten thousand dollars ($10,000) in federal matching funds, the remaining federal matching funds shall be distributed to each county children's trust fund according to population.

(b) (1) Federal challenge grant funds shall be received by the Office of Child Abuse Prevention and allocated in the manner specified in subdivision (a).

(2) Boards of supervisors may establish criteria for determining which programs shall receive funding. Boards of supervisors may accept all program proposals, prioritize those proposals, and make the final decision as to which programs shall receive funds.

(c) Federal matching funds shall be allocated pursuant to subdivision (a) for counties that have not established a local children's trust fund and shall be transferred to that county's existing children's trust fund established by the Office of Child Abuse Prevention in the State Children's Trust Fund. Nothing in this section shall prevent a county that has not established a local children's trust fund from establishing a local children's trust fund.

(d) Receipt by a county of any federal funds available for the purposes set forth in this section shall be contingent upon the provision of assurances that the county will provide to the Office of Child Abuse Prevention all information necessary to meet federal reporting mandates. Those information needs shall be identified by the department at the time federal funds are allocated.

(e) Moneys received by a county children's trust fund from private voluntary contributions shall not be considered in the calculation of federal challenge grant allocations pursuant to subdivision (a).

SEC. 503. Section 18968 of the Welfare and Institutions Code is amended to read:

18968. In any county where the board of supervisors does not designate a commission to carry out the purposes of this article, pursuant to Section 18965, except for a percentage of the receipts necessary for purposes of collection, the amount collected for the surcharge upon birth certificates pursuant to Section 103625 of the Health and Safety Code shall be transferred by the local registrar or county recorder to the Treasurer for deposit in the State Children's Trust Fund.

SEC. 504. Section 18968.5 of the Welfare and Institutions Code is amended to read:

18968.5. Amounts collected for the surcharge upon birth certificates pursuant to Section 103625 of the Health and Safety Code that would have been transferred by the local registrar or county recorder to the Treasurer for deposit in the State Children's Trust Fund shall, instead, revert to the county children's trust fund when the board of supervisors designates a commission to carry out the purposes of this article, pursuant to Section 18965.

SEC. 505. Section 18969 of the Welfare and Institutions Code is amended to read:

18969. (a) There is hereby created in the State Treasury a fund which shall be known as the State Children's Trust Fund. The fund shall consist of funds received from a county pursuant to Section 18968, funds collected by the state and transferred to the fund pursuant to subdivision (b) of Section 103625 of the Health and Safety Code and Article 6 (commencing with Section 18711) of Chapter 17 of Part 10 of Division 2 of the Revenue and Taxation Code, grants, gifts, or bequests made to the state from private sources to be used for innovative and distinctive child abuse and neglect prevention and intervention projects and money appropriated to the fund for this purpose by the Legislature. The State Registrar may retain a percentage of the fees collected pursuant to Section 10605 of the Health and Safety Code, not to exceed 10 percent, in order to defray the costs of collection. The Franchise Tax Board may retain up to 5 percent of the taxpayer contributions to the fund made pursuant to Article 6 (commencing with Section 18711) of Chapter 17 of Part 10

of Division 2 of the Revenue and Taxation Code, to reimburse the board for the costs of administering that article.

(b) Notwithstanding Section 13340 of the Government Code, money in the State Children's Trust Fund is continuously appropriated without regard to fiscal years to the State Department of Social Services for the purpose of funding child abuse and neglect prevention and intervention programs. The department may not supplant any federal, state, or county funds with any funds made available through the State Children's Trust Fund. The department shall use no more than 5 percent of the funds appropriated pursuant to this section for administrative costs.

(c) The department may establish positions as needed for the purpose of implementing and administering child abuse and neglect prevention and intervention programs that are funded by the State Children's Trust Fund. However, the department shall use no more than 5 percent of the funds appropriated pursuant to this section for administrative costs.

(d) No children's trust fund money shall be used to supplant state General Fund money for any purpose.

(e) It is the intent of the Legislature that the State Children's Trust Fund provide for all of the following:

(1) The development of a public-private partnership by encouraging consistent outreach to the private foundation and corporate community.

(2) Funds for large-scale dissemination of information that will promote public awareness regarding the nature and incidence of child abuse and the availability of services for intervention. These public awareness activities shall include, but not be limited to, the production of public service announcements, well designed posters, pamphlets, booklets, videos, and other media tools.

(3) Research and demonstration projects that explore the nature and incidence and the development of long-term solutions to the problem of child abuse.

(4) The development of a mechanism to provide ongoing public awareness through activities that will promote the charitable tax deduction for the trust fund and seek continued contributions. These activities may include convening a philanthropic roundtable, developing literature for use by the State Bar for dissemination, and whatever other activities are deemed necessary and appropriate to promote the trust fund.

SEC. 506. Section 18970 of the Welfare and Institutions Code is amended to read:

18970. (a) The department shall expend funds appropriated to it pursuant to Section 18969 for innovative local child abuse and neglect prevention and intervention programs operated by private nonprofit organizations or public institutions of higher education with recognized expertise in fields related to child welfare. These projects shall be joined to formal evaluation components.

(b) These funds may also be used for evaluation, research, or dissemination of information concerning existing program models for the purpose of replication of successful models.

(c) The Office of Child Abuse Prevention and those local commissions designated by the county boards of supervisors shall collect and publish the following data relevant to the state and local children's trust funds:

(1) Descriptions of the types of programs and services funded by local and state children's trust funds and the target populations benefiting from these programs.

(2) The amount in each portion of the state and local trust fund as of June 30 each year, beginning June 30, 1987, as well as the amount disbursed in the preceding fiscal year.

(e) (1) Funds shall be expended from the moneys appropriated to the State Children's Trust Fund pursuant to Section 18969 of this code and Section 103590 of the Health and Safety Code to enable the Office of Child Abuse Prevention to annually collect and publish the data specified in subdivision (c).

(2) Funds may be expended from local children's trust funds established pursuant to Section 18966 to enable those local commissions designated by the county boards of supervisors in accordance with Section 18966 to annually collect and publish the data specified in subdivision (c).

SEC. 507. The Legislature finds and declares that any substantive changes made by Chapter 415 of the Statutes of 1995 were unintended and contrary to the express provisions of Sections 171 and 172 of Chapter 415 of the Statutes of 1995.

SEC. 508. The Legislature intends both of the following:

(a) When construing the effect of any of the provisions of Chapter 415 of the Statutes of 1995 from January 1, 1996, to the date this measure takes effect, that a court apply the provisions in a manner consistent with the changes to be made by this bill and Sections 171 and 172 of Chapter 415 of the Statutes of 1995.

(b) This bill makes substantive changes to the law solely to ensure that Chapter 415 of the Statutes of 1995 has only technical and nonsubstantive effect and to conform to Sections 171 and 172 of Chapter 415 of the Statutes of 1995.

SEC. 509. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution as a result of costs which may be incurred by a local agency or school district because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Moreover, no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution for certain costs because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the

program or level of service mandated by this act related to those costs.

Further, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Also, notwithstanding Section 17580 of the Government Code, unless otherwise specified in this act, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 510. Any section of any act, other than the act for the maintenance of the codes, enacted by the Legislature during the 1996 calendar year that takes effect on or before January 1, 1997, and that amends, amends and renumbers, amends and repeals, amends, repeals, and adds, repeals, or repeals and adds a section that is amended, or amended and renumbered, by this act, shall prevail over the amendment, or amendment and renumbering, of that section by this act whether that act is enacted prior to, or subsequent to, the enactment of this act. Section 110597, as proposed to be added to the Health and Safety Code by AB 2653, shall prevail over Section 110597, as proposed to be added to the Health and Safety Code by this act, whether AB 2653 is enacted prior to, or subsequent to, the enactment of this act, if AB 2653 is enacted by the Legislature during the 1996 calendar year, takes effect on or before January 1, 1997, and adds Section 110597 to the Health and Safety Code. Section 117924, as proposed to be added to the Health and Safety Code by SB 1966, shall prevail over Section 117924, as proposed to be added to the Health and Safety Code by this act, whether SB 1966 is enacted prior to, or subsequent to, the enactment of this act, if SB 1966 is enacted by the Legislature during the 1996 calendar year, takes effect on or before January 1, 1997, and adds Section 117924 to the Health and Safety Code.

SEC. 511. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to, as soon as possible, carry out the intent of the Legislature as expressed in Chapter 415 of the Statutes of 1995 to reorganize the public health portion of the Health and Safety Code with only technical and nonsubstantive effect, it is necessary that this act take effect immediately.

CHAPTER 1024

An act to amend Sections 1363, 1363.5, and 1367.10 of the Health and Safety Code, and to amend Sections 10123.12 and 10604 of the Insurance Code, relating to health insurance.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

Many health insurers and managed care plans in California are currently providing coverage for "subacute care" and/or transitional inpatient care provided in acute care hospitals and skilled nursing facilities.

Health care service plan enrollees and those insured under disability insurance policies as well as the providers directly caring for these patients should be able to obtain information regarding the coverage and use of subacute care or transitional inpatient care.

SEC. 2. Section 1363 of the Health and Safety Code is amended to read:

1363. (a) The commissioner shall require the use by each plan of disclosure forms or materials containing information regarding the benefits, services, and terms of the plan contract as the commissioner may require, so as to afford the public, subscribers, and enrollees with a full and fair disclosure of the provisions of the plan in readily understood language and in a clearly organized manner. The commissioner may require that the materials be presented in a reasonably uniform manner so as to facilitate comparisons between plan contracts of the same or other types of plans. Nothing contained in this chapter shall preclude the commissioner from permitting the disclosure form to be included with the evidence of coverage or plan contract.

The disclosure form shall provide for at least the following information, in concise and specific terms, relative to the plan, together with additional information as may be required by the commissioner, in connection with the plan or plan contract:

(1) The principal benefits and coverage of the plan, including coverage for acute care and subacute care.

(2) The exceptions, reductions, and limitations that apply to the plan.

(3) The full premium cost of the plan.

(4) Any copayment, coinsurance, or deductible requirements that may be incurred by the member or the member's family in obtaining coverage under the plan.

(5) The terms under which the plan may be renewed by the plan member, including any reservation by the plan of any right to change premiums.

(6) A statement that the disclosure form is a summary only, and that the plan contract itself should be consulted to determine governing contractual provisions.

(7) A statement as to when benefits shall cease in the event of nonpayment of the prepaid or periodic charge and the effect of nonpayment upon an enrollee who is hospitalized or undergoing treatment for an ongoing condition.

(8) To the extent that the plan permits a free choice of provider to its subscribers and enrollees, the statement shall disclose the nature and extent of choice permitted and the financial liability which is, or may be, incurred by the subscriber, enrollee, or a third party by reason of the exercise of that choice.

(9) A summary of the provisions required by subdivision (g) of Section 1373, if applicable.

(10) If the plan utilizes arbitration to settle disputes, a statement of that fact.

(11) A summary of, and a notice of the availability of, the process the plan uses to authorize or deny health care services under the benefits provided by the plan, pursuant to Section 1363.5.

(12) A description of any limitations on the patient's choice of primary care or specialty care physician based on service area and limitations on the patient's choice of acute care hospital care, subacute or transitional inpatient care, or skilled nursing facility.

(13) General authorization requirements for referral by a primary care physician to a specialty care physician.

(14) Conditions and procedures for disenrollment.

(b) All plans, solicitors, and representatives of a plan shall, when presenting any plan contract for examination or sale to an individual prospective plan member, provide the individual with a properly completed disclosure form, as prescribed by the commissioner pursuant to this section for each plan so examined or sold.

(c) In the case of group contracts, the completed disclosure form and evidence of coverage shall be presented to the contractholder upon delivery of the completed health care service plan agreement.

(d) Group contractholders shall disseminate copies of the completed disclosure form to all persons eligible to be a subscriber under the group contract at the time those persons are offered the plan. Where the individual group members are offered a choice of plans, separate disclosure forms shall be supplied for each plan available. Each group contractholder shall also disseminate or cause to be disseminated copies of the evidence of coverage to all subscribers enrolled under the group contract.

(e) In the case of conflicts between the group contract and the evidence of coverage, the provisions of the evidence of coverage shall be binding upon the plan notwithstanding any provisions in the

group contract which may be less favorable to subscribers or enrollees.

(f) In addition to the other disclosures required by this section, every health care service plan and any agent or employee of the plan shall, when presenting a plan for examination or sale to any individual purchaser or the representative of a group consisting of 25 or fewer individuals, disclose in writing the ratio of premium costs to health services paid for plan contracts with individuals and with groups of the same or similar size for the plan's preceding fiscal year. A plan may report that information by geographic area, provided the plan identifies the geographic area and reports information applicable to that geographic area.

SEC. 3. Section 1363.5 of the Health and Safety Code is amended to read:

1363.5. (a) A plan shall disclose or provide for the disclosure to the commissioner and providers under contract with the plan the process the plan uses to authorize or deny health care services under the benefits provided by the plan, including coverage for subacute care, transitional inpatient care, or care provided in skilled nursing facilities. A plan shall also disclose those processes to enrollees or persons designated by an enrollee upon request. The criteria used by plans to determine whether to authorize or deny health care services shall:

(1) Be developed with involvement from actively practicing health care providers.

(2) Be developed using sound clinical principles and processes.

(3) Be evaluated, and updated if necessary, at least annually.

(4) If used as the basis of a decision to deny services in a specified case under review, be disclosed to the provider or the enrollee, or both, in that specified case, upon request.

CHAPTER 1026

An act to amend Sections 1370, 1370.1, and 11105 of the Penal Code, and to amend Sections 6509 and 7325 of the Welfare and Institutions Code, relating to mentally disordered persons.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial or judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, or to any other available public or private treatment facility approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that

the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(2) Prior to making the order directing that the defendant be confined in a state hospital or other treatment facility or placed on outpatient status, the court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or committed to a state hospital or to any other treatment facility. No person shall be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee.

(3) When the court orders that the defendant be confined in a state hospital or other public or private treatment facility, the court shall provide copies of the following documents which shall be taken with the defendant to the state hospital or other treatment facility where the defendant is to be confined:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall select the hospital in accordance with the policies established by the State Department of Mental Health.

(6) (A) If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to a state hospital or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). Where either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may

present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, where the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c).

The court shall transmit a copy of its order to the community program director or a designee.

(2) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(c) (1) If, at the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, the defendant has not recovered mental competence, the defendant shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (2) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in paragraph (2) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee and shall notify the community program director or a designee of the outcome of the proceedings.

(3) Where the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) The criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee.

(e) If the criminal charge against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act, Part

1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

(f) As used in this chapter, "community program director" means the person, agency, or entity designated by the State Department of Mental Health pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, "secure treatment facility" shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

SEC. 1.5. Section 1370 of the Penal Code is amended to read:

1370. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent, the trial or judgment shall be suspended until the person becomes mentally competent.

(i) In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered, or to any other available public or private treatment facility approved by the community program director that will promote the defendant's speedy restoration to mental competence, or placed on outpatient status as specified in Section 1600.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and

convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the mentally disordered unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon the filing of a certificate of restoration to competence, the court shall order that the defendant be returned to court in accordance with Section 1372. The court shall transmit a copy of its order to the community program director or a designee.

(D) A defendant charged with a violent felony may not be delivered to a state hospital or treatment facility pursuant to this subdivision unless the state hospital or treatment facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(E) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(F) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1600, only if the court finds that the placement will not pose a danger to the health or safety of others.

(2) Prior to making the order directing that the defendant be confined in a state hospital or other treatment facility or placed on outpatient status, the court shall order the community program director or a designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be required to undergo outpatient treatment, or committed to a state hospital or to any other treatment facility. No person shall be admitted to a state hospital or other treatment facility or placed on outpatient status under this section without having been evaluated by the community program director or a designee.

(3) When the court orders that the defendant be confined in a state hospital or other public or private treatment facility, the court shall provide copies of the following documents which shall be taken with the defendant to the state hospital or other treatment facility where the defendant is to be confined:

(A) The commitment order, including a specification of the charges.

(B) A computation or statement setting forth the maximum term of commitment in accordance with subdivision (c).

(C) A computation or statement setting forth the amount of credit for time served, if any, to be deducted from the maximum term of commitment.

(D) State summary criminal history information.

(E) Any arrest reports prepared by the police department or other law enforcement agency.

(F) Any court-ordered psychiatric examination or evaluation reports.

(G) The community program director's placement recommendation report.

(H) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a treatment facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a treatment facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) When directing that the defendant be confined in a state hospital pursuant to this subdivision, the court shall select the hospital in accordance with the policies established by the State Department of Mental Health.

(6) (A) If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the community program director that the defendant be transferred to a public or private treatment facility approved by the community program director, order the defendant transferred to that facility. If the defendant is committed or transferred to a public or private treatment facility approved by the community program director, the court may, upon receiving the written recommendation of the community program director, transfer the defendant to a state hospital or to another public or private treatment facility approved by the community program director. In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code). Where either the defendant or the prosecutor chooses to contest either kind of order of transfer, a petition may be filed in the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing, the prosecuting attorney or the defendant may

present evidence bearing on the order of transfer. The court shall use the same standards as are used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the community program director or a designee.

(B) If the defendant is initially committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to each subsequent facility to which the defendant is transferred. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other treatment facility to which the defendant is confined shall make a written report to the court and the community program director for the county or region of commitment, or a designee, concerning the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, the outpatient treatment staff shall make a written report to the community program director concerning the defendant's progress toward recovery of mental competence. Within 90 days of placement on outpatient status, the community program director shall report to the court on this matter. If the defendant has not recovered mental competence, but the report discloses a substantial likelihood that the defendant will regain mental competence in the foreseeable future, the defendant shall remain in the state hospital or other treatment facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, where the defendant is confined in a treatment facility, the medical director of the hospital or person in charge of the facility shall report in writing to the court and the community program director or a designee regarding the defendant's progress toward recovery of mental competence. Where the defendant is on outpatient status, after the initial 90-day report, the outpatient treatment staff shall report to the community program director on the defendant's progress toward recovery, and the community program director shall report to the court on this matter at six-month intervals. A copy of these reports shall be provided to the prosecutor and defense counsel by the court. If the report indicates that there is no substantial likelihood that the defendant will regain mental competence in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c).

The court shall transmit a copy of its order to the community program director or a designee.

(2) Any defendant who has been committed or has been on outpatient status for 18 months and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the community program director or a designee.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. The court shall transmit a copy of its order to the community program director or a designee.

(4) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination.

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, a defendant who has not recovered mental competence shall be returned to the committing court. The court shall notify the community program director or a designee of the return and of any resulting court orders.

(2) Whenever any defendant is returned to the court pursuant to paragraph (1) or (2) of subdivision (b) or paragraph (1) of this subdivision and it appears to the court that the defendant is gravely disabled, as defined in paragraph (2) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for the defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county that ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the community program director or a designee and shall notify the community program director or a designee of the outcome of the proceedings.

(3) Where the defendant is confined in a treatment facility, a copy of any report to the committing court regarding the defendant's progress toward recovery of mental competence shall be provided by the committing court to the prosecutor and to the defense counsel.

(d) The criminal action remains subject to dismissal pursuant to Section 1385. If the criminal action is dismissed, the court shall transmit a copy of the order of dismissal to the community program director or a designee.

(e) If the criminal charge against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings that may be appropriate under the Lanterman-Petris-Short Act, Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

(f) As used in this chapter, "community program director" means the person, agency, or entity designated by the State Department of Mental Health pursuant to Section 1605 of this code and Section 4360 of the Welfare and Institutions Code.

(g) For the purpose of this section, "secure treatment facility" shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

SEC. 2. Section 1370.1 of the Penal Code is amended to read:

1370.1. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent and is developmentally disabled, the trial or judgment shall be suspended until the defendant becomes mentally competent.

(i) Except as provided in clause (ii) or (iii), the court shall consider a recommendation for placement, which recommendation shall be made to the court by the director of a regional center or designee. In the meantime, the mentally incompetent defendant shall be delivered by the sheriff or other person designated by the court to a state hospital for the care and treatment of the developmentally disabled or any other available residential facility approved by the director of a regional center for the developmentally disabled established under Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code as will promote the defendant's speedy attainment of mental competence, or be placed on outpatient status pursuant to the provisions of Section 1370.4 and Title 15 (commencing with Section 1600) of Part 2.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that

the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the developmentally disabled unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the developmentally disabled unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon becoming competent, the court shall order that the defendant be returned to the committing court pursuant to the procedures set forth in paragraph (2) of subdivision (a) of Section 1372 or by another person designated by the court.

(D) The court shall transmit a copy of its order to the regional center director or designee and to the Director of Developmental Services.

(E) As used in this section, "developmental disability" means a disability that originates before an individual attains age 18, continues, or can be expected to continue, indefinitely and constitutes a substantial handicap for the individual, and shall not include other handicapping conditions that are solely physical in nature. As defined by the Director of Developmental Services, in consultation with the Superintendent of Public Instruction, this term shall include mental retardation, cerebral palsy, epilepsy, and autism. This term shall also include handicapping conditions found to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, but shall not include other handicapping conditions that are solely physical in nature.

(2) Prior to making the order directing the defendant be confined in a state hospital or other residential facility or be placed on outpatient status, the court shall order the regional center director or designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to

whether the defendant should be committed to a state hospital or to any other available residential facility approved by the regional center director. No person shall be admitted to a state hospital or other residential facility or accepted for outpatient status under Section 1370.4 without having been evaluated by the regional center director or designee.

(3) When the court orders that the defendant be confined in a state hospital or other secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1), the court shall provide copies of the following documents which shall be taken with the defendant to the state hospital or other secure treatment facility where the defendant is to be confined:

(A) State summary criminal history information.

(B) Any arrest reports prepared by the police department or other law enforcement agency.

(C) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a residential facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) (A) If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the regional center director that the defendant be transferred to a residential facility approved by the regional center director, order the defendant transferred to that facility. If the defendant is committed or transferred to a residential facility approved by the regional center director, the court may, upon receiving the written recommendation of the regional center director, transfer the defendant to a state hospital or to another residential facility approved by the regional center director.

In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code.

The defendant or prosecuting attorney may contest either kind of order of transfer by filing a petition with the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the regional center director or designee.

(B) If the defendant is committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to the new facility. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(b) (1) Within 60 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other facility to which the defendant is committed or the outpatient supervisor where the defendant is placed on outpatient status shall make a written report to the committing court and the regional center director or a designee concerning the defendant's progress toward becoming mentally competent. If the defendant has not become mentally competent, but the report discloses a substantial likelihood the defendant will become mentally competent within the next 90 days, the court may order that the defendant shall remain in the state hospital or other facility or on outpatient status for that period of time. Within 150 days of a commitment made pursuant to subdivision (a) or if the defendant becomes mentally competent, the medical director of the hospital or person in charge of the facility or the outpatient supervisor shall report to the court and the regional center director or his or her designee regarding the defendant's progress toward becoming mentally competent. The court shall provide to the prosecutor and defense counsel copies of all reports under this section. If the report indicates that there is no substantial likelihood that the defendant has become mentally competent, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the regional center director or designee and to the Director of Developmental Services.

(2) Any defendant who has been committed or has been on outpatient status for six months, and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section

1369. The court shall transmit a copy of its order to the regional center director or designee and the Director of Developmental Services.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. A copy of this order shall be sent to the regional center director or designee and to the Director of Developmental Services.

(c) (1) (A) Any defendant committed after the effective date of the chapter adding this subparagraph who has not become mentally competent shall be returned to the committing court at the end of six months from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter. Any defendant committed prior to the effective date of the chapter adding this subparagraph who has not become mentally competent shall be returned to the committing court at the end of six months from the effective date of the chapter adding this subparagraph; at the end of three years from the date of commitment; or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint; whichever is shorter.

(B) The court shall notify the regional center director or designee and the Director of Developmental Services of that return and of any resulting court orders.

(2) In the event of dismissal of the criminal charges before the defendant becomes mentally competent, the defendant shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code), or to commitment and detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code. If it is found that the person is not subject to commitment or detention pursuant to the applicable provision of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code, the individual shall not be subject to further confinement pursuant to this article and the criminal action remains subject to dismissal pursuant to Section 1385. The court shall notify the regional center director and the Director of Developmental Services of any dismissal.

(d) Notwithstanding any other provision of this section, the criminal action remains subject to dismissal pursuant to Section 1385. If at any time prior to the maximum period of time allowed for proceedings under this article, the regional center director concludes that the behavior of the defendant related to the defendant's criminal offense has been eliminated during time spent in court-ordered programs, the court may, upon recommendation of the regional

center director, dismiss the criminal charges. The court shall transmit a copy of any order of dismissal to the regional center director and to the Director of Developmental Services.

(e) For the purpose of this section, "secure treatment facility" shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

SEC. 2.5. Section 1370.1 of the Penal Code is amended to read:

1370.1. (a) (1) (A) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced.

(B) If the defendant is found mentally incompetent and is developmentally disabled, the trial or judgment shall be suspended until the defendant becomes mentally competent.

(i) Except as provided in clause (ii) or (iii), the court shall consider a recommendation for placement, which recommendation shall be made to the court by the director of a regional center or designee. In the meantime, the court shall order that the mentally incompetent defendant be delivered by the sheriff or other person designated by the court to a state hospital or developmental center for the care and treatment of the developmentally disabled or any other available residential facility approved by the director of a regional center for the developmentally disabled established under Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code as will promote the defendant's speedy attainment of mental competence, or be placed on outpatient status pursuant to the provisions of Section 1370.4 and Title 15 (commencing with Section 1600) of Part 2.

(ii) However, if the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290, the prosecutor shall determine whether the defendant previously has been found mentally incompetent to stand trial pursuant to this chapter on a charge of a Section 290 offense, or whether the defendant is currently the subject of a pending Section 1368 proceeding arising out of a charge of a Section 290 offense. If either determination is made, the prosecutor shall so notify the court and defendant in writing. After this notification, and opportunity for hearing, the court shall order that the defendant be delivered by the sheriff to a state hospital or other secure treatment facility for the care and treatment of the developmentally disabled unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iii) If the action against the defendant who has been found mentally incompetent is on a complaint charging a felony offense specified in Section 290 and the defendant has been denied bail pursuant to subdivision (b) of Section 12 of Article I of the California Constitution because the court has found, based upon clear and convincing evidence, a substantial likelihood that the person's release would result in great bodily harm to others, the court shall order that the defendant be delivered by the sheriff to a state hospital for the care and treatment of the developmentally disabled unless the court makes specific findings on the record that an alternative placement would provide more appropriate treatment for the defendant and would not pose a danger to the health and safety of others.

(iv) The clerk of the court shall notify the Department of Justice in writing of any finding of mental incompetence with respect to a defendant who is subject to clause (ii) or (iii) for inclusion in his or her state summary criminal history information.

(C) Upon becoming competent, the court shall order that the defendant be returned to the committing court pursuant to the procedures set forth in paragraph (2) of subdivision (a) of Section 1372 or by another person designated by the court. The court shall further determine conditions under which the person may be absent from the placement for medical treatment, social visits, and other similar activities. Required levels of supervision and security for these activities shall be specified.

(D) The court shall transmit a copy of its order to the regional center director or designee and to the Director of Developmental Services.

(E) A defendant charged with a violent felony may not be placed in a facility or delivered to a state hospital, developmental center, or residential facility pursuant to this subdivision unless the facility, state hospital, developmental center, or residential facility has a secured perimeter or a locked and controlled treatment facility, and the judge determines that the public safety will be protected.

(F) For purposes of this paragraph, "violent felony" means an offense specified in subdivision (c) of Section 667.5.

(G) A defendant charged with a violent felony may be placed on outpatient status, as specified in Section 1370.4 or 1600, only if the court finds that the placement will not pose a danger to the health or safety of others.

(H) As used in this section, "developmental disability" means a disability that originates before an individual attains age 18, continues, or can be expected to continue, indefinitely and constitutes a substantial handicap for the individual, and shall not include other handicapping conditions that are solely physical in nature. As defined by the Director of Developmental Services, in consultation with the Superintendent of Public Instruction, this term shall include mental retardation, cerebral palsy, epilepsy, and autism.

This term shall also include handicapping conditions found to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, but shall not include other handicapping conditions that are solely physical in nature.

(2) Prior to making the order directing the defendant be confined in a state hospital, developmental center, or other residential facility or be placed on outpatient status, the court shall order the regional center director or designee to evaluate the defendant and to submit to the court within 15 judicial days of the order a written recommendation as to whether the defendant should be committed to a state hospital or developmental center or to any other available residential facility approved by the regional center director. No person shall be admitted to a state hospital, developmental center, or other residential facility or accepted for outpatient status under Section 1370.4 without having been evaluated by the regional center director or designee.

(3) When the court orders that the defendant be confined in a state hospital or other secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1), the court shall provide copies of the following documents which shall be taken with the defendant to the state hospital or other secure treatment facility where the defendant is to be confined:

(A) State summary criminal history information.

(B) Any arrest reports prepared by the police department or other law enforcement agency.

(C) Records of any finding of mental incompetence pursuant to this chapter arising out of a complaint charging a felony offense specified in Section 290 or any pending Section 1368 proceeding arising out of a charge of a Section 290 offense.

(4) When the defendant is committed to a residential facility pursuant to clause (i) of subparagraph (B) of paragraph (1) or the court makes the findings specified in clause (ii) or (iii) of subparagraph (B) of paragraph (1) to assign the defendant to a facility other than a state hospital or other secure treatment facility, the court shall order that notice be given to the appropriate law enforcement agency or agencies having local jurisdiction at the site of the placement facility of any finding of mental incompetence pursuant to this chapter arising out of a charge of a Section 290 offense.

(5) (A) If the defendant is committed or transferred to a state hospital or developmental center pursuant to this section, the court may, upon receiving the written recommendation of the executive director of the state hospital or developmental center and the regional center director that the defendant be transferred to a residential facility approved by the regional center director, order the defendant transferred to that facility. If the defendant is committed or transferred to a residential facility approved by the

regional center director, the court may, upon receiving the written recommendation of the regional center director, transfer the defendant to a state hospital or developmental center or to another residential facility approved by the regional center director.

In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code.

The defendant or prosecuting attorney may contest either kind of order of transfer by filing a petition with the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At the hearing the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the regional center director or designee.

(B) If the defendant is committed to a state hospital or secure treatment facility pursuant to clause (ii) or (iii) of subparagraph (B) of paragraph (1) and is subsequently transferred to any other facility, copies of the documents specified in paragraph (3) shall be taken with the defendant to the new facility. The transferring facility shall also notify the appropriate law enforcement agency or agencies having local jurisdiction at the site of the new facility that the defendant is a person subject to clause (ii) or (iii) of subparagraph (B) of paragraph (1).

(b) (1) Within 90 days of admission of a person committed pursuant to subdivision (a), the executive director or designee of the state hospital, developmental center, or other facility to which the defendant is committed or the outpatient supervisor where the defendant is placed on outpatient status shall make a written report to the committing court and the regional center director or a designee concerning the defendant's progress toward becoming mentally competent. If the defendant has not become mentally competent, but the report discloses a substantial likelihood the defendant will become mentally competent within the next 90 days, the court may order that the defendant shall remain in the state hospital, developmental center, or other facility or on outpatient status for that period of time. Within 150 days of an admission made pursuant to subdivision (a) or if the defendant becomes mentally competent, the executive director or designee of the hospital or developmental center or person in charge of the facility or the outpatient supervisor shall report to the court and the regional center

director or his or her designee regarding the defendant's progress toward becoming mentally competent. The court shall provide to the prosecutor and defense counsel copies of all reports under this section. If the report indicates that there is no substantial likelihood that the defendant has become mentally competent, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the regional center director or designee and to the executive director of the developmental center.

(2) Any defendant who has been committed or has been on outpatient status for 18 months, and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the regional center director or designee and the executive director of the developmental center.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. A copy of this order shall be sent to the regional center director or designee and to the executive director of the developmental center.

(4) At each review by the court specified in this subdivision, the court shall determine if the security level of housing and treatment is appropriate and may make an order in accordance with its determination.

(c) (1) (A) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, any defendant who has not become mentally competent shall be returned to the committing court.

(B) The court shall notify the regional center director or designee and the executive director of the developmental center of that return and of any resulting court orders.

(2) In the event of dismissal of the criminal charges before the defendant becomes mentally competent, the defendant shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code), or to commitment and detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code. If it is found that the person is not subject to commitment or detention pursuant to the applicable provision of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code, the individual shall not be subject to further confinement pursuant to this article and the criminal action remains subject to dismissal pursuant to Section 1385.

The court shall notify the regional center director and the executive director of the developmental center of any dismissal.

(d) Notwithstanding any other provision of this section, the criminal action remains subject to dismissal pursuant to Section 1385. If at any time prior to the maximum period of time allowed for proceedings under this article, the regional center director concludes that the behavior of the defendant related to the defendant's criminal offense has been eliminated during time spent in court-ordered programs, the court may, upon recommendation of the regional center director, dismiss the criminal charges. The court shall transmit a copy of any order of dismissal to the regional center director and to the executive director of the developmental center.

(e) For the purpose of this section, "secure treatment facility" shall not include, except for state mental hospitals, state developmental centers, and correctional treatment facilities, any facility licensed pursuant to Chapter 2 (commencing with Section 1250) of, Chapter 3 (commencing with Section 1500) of, or Chapter 3.2 (commencing with Section 1569) of, Division 2 of the Health and Safety Code, or any community board and care facility.

After hearing all the evidence, the court shall order that the person be committed to that placement that the court finds to be the most appropriate alternative. If the court finds that release of the person can be made subject to conditions that the court deems proper and adequate for the protection and safety of others and the welfare of the person, the person shall be released subject to those conditions.

The court, however, may commit a mentally retarded person who is not a resident of this state under Section 4460 for the purpose of transportation of the person to the state of his or her legal residence pursuant to Section 4461. (c) If the Department of Developmental Services decides that a change in placement is necessary, it shall notify in writing the court of commitment, the district attorney, and the attorney of record for the person and the regional center of its decision at least 15 days in advance of the proposed change in placement. The court may hold a hearing and (1) approve or disapprove of the change, or (2) take no action in which case the change shall be deemed approved. 11758.41. (a) It is the intent of the Legislature that the department, in consultation with narcotic treatment program providers, county alcohol and drug program administrators, and organizations advocating on behalf of Medi-Cal beneficiaries, no later than March 1, 1997, complete a review of existing state regulations for consistency and necessity to eliminate unnecessary costs for administration of narcotic treatment programs.

(b) Based on the review, described pursuant to subdivision (a), the department and the State Department of Health Services shall commence rulemaking proceedings, in order to adopt, amend, or repeal regulations, as needed.

SEC. 2. Section 11758.42 is added to the Health and Safety Code, to read:

11758.42. (a) For purposes of this chapter, "LAAM" means levoalphacetylmethadol.

(b) (1) The department shall establish a narcotic replacement therapy dosing fee for methadone and LAAM.

(2) In addition to the narcotic replacement therapy dosing fee provided for pursuant to paragraph (1), narcotic treatment programs shall be reimbursed for the ingredient costs of methadone or LAAM dispensed to Medi-Cal beneficiaries. These costs may be determined on an average daily dose of methadone or LAAM, as set forth by the department, in consultation with the State Department of Health Services.

(c) Reimbursement for narcotic replacement therapy dosing and ancillary services provided by narcotic treatment programs shall be based on a per capita uniform statewide monthly reimbursement rate for each individual patient, as established by the department, in consultation with the State Department of Health Services. The uniform statewide monthly reimbursement rate for ancillary services shall be based upon, where available and appropriate, and shall not exceed, for individual services or in the aggregate, the outpatient rates for the same or similar services under the fee-for-service Medi-Cal program. In establishing the uniform statewide monthly rate, the department shall also utilize the rate studies completed pursuant to Section 54 of Assembly Bill 3483 of the 1995–96 Regular Session of the Legislature. The uniform statewide monthly reimbursement rate shall be established after consultation with narcotic treatment program providers and county alcohol and drug program administrators.

(d) Reimbursement for narcotic treatment program services shall be limited to those services specified in state law and state and federal regulations governing the licensing and administration of narcotic treatment programs. These services shall include, but are not limited to, all of the following:

For purposes of this paragraph, these services include, but are not limited to, substance abuse services to pregnant and postpartum Medi-Cal beneficiaries.

(e) Reimbursement under this section shall be limited to claims for narcotic treatment program services at the uniform statewide monthly reimbursement rate for these services. These rates shall be exempt from the requirements of Section 14021.6 of the Welfare and Institutions Code.

(f) Reimbursement to narcotic treatment program providers shall be limited to the lower of either the uniform statewide monthly reimbursement rate, pursuant to subdivision (c), or the provider's usual and customary charge to the general public for the same or similar service.

(g) Reimbursement for narcotic treatment program services provided by narcotic treatment program providers shall, if the patient receives less than a full month of services, be prorated to the daily cost per patient, based on the annual cost per patient and a 365-day year. No program shall be reimbursed for services not rendered to or received by a patient of a narcotic treatment program.

(h) Reimbursement for narcotic treatment program services provided to substance abusers shall be administered by the department and counties electing to participate in the program. Utilization and payment for these services shall be subject to federal medicaid and state utilization and audit requirements.

Medi-Cal beneficiaries enrolled in managed care plans shall be referred to those plans for receipt of medically necessary medical treatment of concurrent diseases.

(b) Diagnosis and treatment of concurrent diseases of Medi-Cal beneficiaries not enrolled in managed care plans by a narcotic treatment program provider may be provided within the Medi-Cal coverage limits. (c) A county or a contractor for the provision of drug-Medi-Cal services shall notify the department, within 30 days of the receipt of the county allocation, of its intent to contract, as a component of the single state-county contract, for and provide certified services pursuant to Section 11758.42 for the proposed budget year. Included in this notification shall be an accurate and complete proposal budget, the structure of which shall be mutually agreed to by county alcohol and drug program administrators and the department, in the format provided by the department, for specific services, for a specific time period, estimated units of service, estimated rate per unit consistent with law and regulations, and total estimated cost for appropriate services.

(2) A county contracting for alcohol and drug services shall receive a single state-county contract for net negotiated amount and drug-Medi-Cal services.

(3) Contractors contracting for drug-Medi-Cal services shall receive a drug-Medi-Cal contract.

(e) (1) Upon receipt of a contract proposal pursuant to subdivision (c), a county and a contractor seeking to provide

reimbursable drug-Medi-Cal services and the department, may begin negotiations and the process for contract approval.

(2) If a county does not approve a contract by July 1, of the appropriate fiscal year, in accordance with subdivisions (b) to (d), inclusive, the county shall have 30 additional days in which to approve a contract. If the county has not approved the contract by the end of that 30-day period, the department shall contract directly for services within 30 days.

(3) Counties shall negotiate contracts only with providers certified to provide reimbursable drug-Medi-Cal services and who elect to participate in this program. Upon contract approval by the department, a county shall establish approved contracts with certified providers within 30 days following enactment of the annual Budget Act. A county may establish contract provisions to ensure interim funding pending the execution of final contracts, multiple-year contracts pending final annual approval by the department, and, to the extent allowable under the annual Budget Act, other procedures to ensure timely payment for services.

(f) (1) For counties and contractors providing drug-Medi-Cal services, pursuant to approved contracts, and that have accurate and complete claims, reimbursement for services from state General Fund moneys shall commence no later than 45 days following the enactment of the annual Budget Act for the appropriate state fiscal year.

(2) For counties and contractors providing drug-Medi-Cal services, pursuant to approved contracts, and that have accurate and complete claims, reimbursement for services from federal medicaid funds shall commence no later than 45 days following the enactment of the annual Budget Act for the appropriate state fiscal year.

(3) By July 1, 1997, the State Department of Health Services and the department shall develop methods to ensure timely payment of drug-Medi-Cal claims.

(4) The State Department of Health Services, in cooperation with the department, shall take steps necessary to streamline the billing system for reimbursable drug-Medi-Cal services, to assist the department in meeting the billing provisions set forth in this subdivision.

(g) The department shall submit a proposed interagency agreement to the State Department of Health Services by May 1 for the following fiscal year. Review and interim approval of all contractual and programmatic requirements, except final fiscal estimates, shall be completed by the State Department of Health Services by July 1. The interagency agreement shall not take effect until the annual Budget Act is enacted and fiscal estimates are approved by the State Department of Health Services. Final approval shall be completed within 45 days of enactment of the Budget Act.

(h) (1) A county or a provider certified to provide reimbursable drug-Medi-Cal services, who is contracting with the department, shall estimate the cost of those services by April 1 of the fiscal year covered by the contract, and shall amend current contracts, as necessary, by the following July 1.

(2) A county or a provider, except for a provider to whom subdivision (i) applies, shall submit accurate and complete cost reports for the previous state fiscal year by November 1, following the end of the state fiscal year. The department may settle cost for drug-Medi-Cal services, based on the cost report as the final amendment to the approved single state-county contract.

(i) Certified narcotic treatment program providers, who are exclusively billing the state or the county for services under Section 11758.42, shall submit accurate and complete performance reports for the previous state fiscal year, by November 1, following the end of that state fiscal year. A provider to whom this subdivision applies shall estimate its budgets using the uniform state monthly reimbursement rate. The format and content of the performance reports shall be mutually agreed to by the department, the County Alcohol and Drug Program Administrators Association of California, and representatives of the narcotic treatment providers.

The initial adoption of any emergency regulations implementing this act shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Emergency regulations adopted pursuant to this section shall remain in effect for no more than 180 days.

Service of a copy of the notice personally or by certified mail return receipt requested, or any other form of actual notice is equivalent to service by first-class mail.

The notice shall contain a statement regarding the nature of the hearing to be held and any change in the custody or status of the minor being recommended by the supervising agency. The notice to the foster parent shall indicate that the foster parent may attend all hearings or may submit any information he or she deems relevant to the court in writing.

(c) At least 10 calendar days prior to the hearing the probation officer shall file a supplemental report with the court regarding the services provided or offered to the parent or guardian to enable them to assume custody, the progress made, and, where relevant, the prognosis for return of the minor to the physical custody of his or her parent or guardian, and make his or her recommendation for disposition. If the recommendation is not to return the minor to a parent or guardian, the report shall specify why the return of the minor would be detrimental to the minor. The probation officer shall provide the parent or guardian with a copy of the report, including his or her recommendation for disposition, at least 10 calendar days prior to the hearing. In the case of a minor removed from the physical custody of his or her parent or guardian, the probation officer shall provide a summary of his or her recommendation for disposition to the counsel for the minor, any court-appointed child advocate, foster

parents, community care facility, or foster family agency having the physical custody of the minor at least 10 calendar days before the hearing.

(d) Prior to any hearing involving a minor in the physical custody of a community care facility or foster family agency that may result in the return of the minor to the physical custody of his or her parent or guardian, or in adoption or the creation of a legal guardianship, the facility or agency shall file with the court a report containing its recommendation for disposition. Prior to such a hearing involving a minor in the physical custody of a foster parent, the foster parent may file with the court a report containing his or her recommendation for disposition. The court shall consider the report and recommendation filed pursuant to this subdivision prior to determining any disposition.

(e) At the review hearing held six months after the initial dispositional hearing, the court shall order the return of the minor to the physical custody of his or her parents or guardians unless, by a preponderance of the evidence, it finds that the return of the child would create a substantial risk of detriment to the physical or emotional well-being of the minor. The probation department shall have the burden of establishing that detriment. The failure of the parent or guardian to participate regularly in any court-ordered treatment programs shall constitute prima facie evidence that return would be detrimental. In making its determination, the court shall review the probation officer's report, shall review and consider the report and recommendations of any child advocate appointed pursuant to Section 356.5, and shall consider the efforts or progress, or both, demonstrated by the parent or guardian and the extent to which he or she cooperated and availed himself or herself of services provided; shall make appropriate findings pursuant to subdivision (a) of Section 366; and where relevant, shall order any additional services reasonably believed to facilitate the return of the minor to the custody of his or her parent or guardian. The court shall also inform the parent or guardian that if the minor cannot be returned home by the next review hearing, a proceeding pursuant to Section 366.26 may be instituted. This section does not apply in a case where, pursuant to Section 361.5, the court has ordered that reunification services shall not be provided.

If the minor was removed initially under subdivision (g) of Section 300 and the court finds by clear and convincing evidence that the whereabouts of the parent are still unknown, or the parent has failed to contact and visit the child, the court may schedule a hearing pursuant to Section 366.26 within 120 days. If the court finds by clear and convincing evidence that the parent has been convicted of a felony indicating parental unfitness, the court may schedule a hearing pursuant to Section 366.26 within 120 days.

If the minor had been placed under court supervision with a previously noncustodial parent pursuant to Section 361.2, the court

shall determine whether supervision is still necessary. The court may terminate supervision and transfer permanent custody to that parent, as provided for by paragraph (1) of subdivision (a) of Section 361.2.

In all other cases, the court shall direct that any reunification services previously ordered shall continue to be offered to the parent or guardian, provided that the court may modify the terms and conditions of those services. If the child is not returned to his or her parent or guardian, the court shall determine whether reasonable services have been provided or offered to the parent or guardian which were designed to aid the parent or guardian in overcoming the problems which led to the initial removal and the continued custody of the minor. Evidence that the minor has been placed with a foster family that is eligible to adopt a minor, or has been placed in a preadoptive home, in and of itself, shall not be deemed a failure to provide or offer reasonable services. The court shall order that those services be initiated or continued.

(f) At the review hearing held 12 months after the initial dispositional hearing, the court shall order the return of the minor to the physical custody of his or her parent or guardian unless, by a preponderance of the evidence, it finds that return of the child would create a substantial risk of detriment to the physical or emotional well-being of the minor. The probation department shall have the burden of establishing that detriment. The court shall also determine whether reasonable services have been provided or offered to the parent or guardian which were designed to aid the parent or guardian to overcome the problems which led to the initial removal and continued custody of the minor. The failure of the parent or guardian to participate regularly in any court-ordered treatment programs shall constitute prima facie evidence that the return would be detrimental. In making its determination, the court shall review the probation officer's report and shall consider the efforts or progress, or both, demonstrated by the parent or guardian and the extent to which he or she cooperated and availed himself or herself of services provided. If the minor is not returned to a parent or guardian, the court shall specify the factual basis for its conclusion that the return would be detrimental. The court also shall make a finding pursuant to subdivision (a) of Section 366.

(g) If a minor is not returned to the custody of a parent or guardian at the hearing held pursuant to subdivision (f), the court shall do one of the following:

(1) Continue the case for up to six months for another review hearing, provided that the hearing shall occur within 18 months of the date the child was originally taken from the physical custody of his or her parent or guardian. The court shall continue the case only if it finds that there is a substantial probability that the minor will be returned to the physical custody of his or her parent or guardian within six months or that reasonable services have not been provided

to the parent or guardian. The court shall inform the parent or guardian that if the minor cannot be returned home by the next review hearing, a permanent plan shall be developed at that hearing. The court shall not order that a hearing pursuant to Section 366.26 be held unless there is clear and convincing evidence that reasonable services have been provided or offered to the parent or guardian.

(2) Order that the minor remain in long-term foster care, if the court finds by clear and convincing evidence, based upon the evidence already presented to it, that the minor is not a proper subject for adoption and has no one willing to accept legal guardianship.

(3) Order that a hearing be held within 120 days, pursuant to Section 366.26, if there is clear and convincing evidence that reasonable services have been provided or offered to the parents. Evidence that the minor has been placed with a foster family that is eligible to adopt a minor, or has been placed in a preadoptive home, in and of itself, shall not be deemed a failure to provide or offer reasonable services.

(h) In any case in which the court orders that a hearing pursuant to Section 366.26 shall be held, it shall also order the termination of reunification services to the parent. The court shall continue to permit the parent to visit the minor pending the hearing unless it finds that visitation would be detrimental to the minor.

(i) Whenever a court orders that a hearing pursuant to Section 366.26 shall be held, it shall direct the agency supervising the child and the licensed county adoption agency, or the State Department of Social Services when it is acting as an adoption agency in counties which are not served by a county adoption agency, to prepare an assessment regarding the likelihood that the minor will be adopted if parental rights are terminated. The assessment shall include:

(1) Current search efforts for an absent parent or parents.

(2) A review of the amount of and nature of any contact between the minor and his or her parents since the time of placement.

(3) An evaluation of the minor's medical, developmental, scholastic, mental, and emotional status and an analysis of whether any of the minor's characteristics would make it difficult to find a person willing to adopt the minor.

(4) A preliminary assessment of the eligibility and commitment of any identified prospective adoptive parent or guardian, particularly the caretaker, to include a social history including screening for criminal records and prior referrals for child abuse or neglect, the capability to meet the minor's needs, and the understanding of the legal and financial rights and responsibilities of adoption and guardianship.

(5) The relationship of the minor to any identified prospective adoptive parent or guardian, the duration and character of the relationship, the motivation for seeking adoption or guardianship, and a statement from the minor concerning placement and the

adoption or guardianship, unless the minor's age or physical, emotional, or other condition precludes his or her meaningful response, and if so, a description of the condition.

(j) This section shall apply to minors made dependents of the court pursuant to subdivision (c) of Section 360 on or after January 1, 1989.

(k) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 1999, deletes or extends that date.

SEC. 2. Section 366.21 of the Welfare and Institutions Code, as added by Section 3 of Chapter 540 of the Statutes of 1995, is amended to read:

366.21. (a) Every hearing conducted by the juvenile court reviewing the status of a dependent child shall be placed on the appearance calendar. The court shall advise all persons present at the hearing of the date of the future hearing, of their right to be present and represented by counsel.

(b) Except as provided in Section 366.23 and subdivision (a) of Section 366.3, notice of the hearing shall be mailed by the probation officer to the same persons as in the original proceeding, to the minor's parent or guardian, to the foster parents, community care facility, or foster family agency having physical custody of the minor in the case of a minor removed from the physical custody of his or her parent or guardian, and to the counsel of record if the counsel of record was not present at the time that the hearing was set by the court, by first-class mail addressed to the last known address of the person to be notified, or shall be personally served on those persons, not earlier than 30 days nor later than 15 days preceding the date to which the hearing was continued. Service of a copy of the notice personally or by certified mail return receipt requested, or any other form of actual notice is equivalent to service by first-class mail.

The notice shall contain a statement regarding the nature of the hearing to be held and any change in the custody or status of the minor being recommended by the supervising agency. The notice to the foster parent shall indicate that the foster parent may attend all hearings or may submit any information he or she deems relevant to the court in writing.

(c) At least 10 calendar days prior to the hearing the probation officer shall file a supplemental report with the court regarding the services provided or offered to the parent or guardian to enable them to assume custody, the progress made, and, where relevant, the prognosis for return of the minor to the physical custody of his or her parent or guardian, and make his or her recommendation for disposition. If the recommendation is not to return the minor to a parent or guardian, the report shall specify why the return of the minor would be detrimental to the minor. The probation officer shall provide the parent or guardian with a copy of the report, including his or her recommendation for disposition, at least 10 calendar days

prior to the hearing. In the case of a minor removed from the physical custody of his or her parent or guardian, the probation officer shall provide a summary of his or her recommendation for disposition to the counsel for the minor, any court-appointed child advocate, foster parents, community care facility, or foster family agency having the physical custody of the minor at least 10 calendar days before the hearing.

(d) Prior to any hearing involving a minor in the physical custody of a community care facility or foster family agency that may result in the return of the minor to the physical custody of his or her parent or guardian, or in adoption or the creation of a legal guardianship, the facility or agency shall file with the court a report containing its recommendation for disposition. Prior to such a hearing involving a minor in the physical custody of a foster parent, the foster parent may file with the court a report containing its recommendation for disposition. The court shall consider the report and recommendation filed pursuant to this subdivision prior to determining any disposition.

(e) At the review hearing held six months after the initial dispositional hearing, the court shall order the return of the minor to the physical custody of his or her parents or guardians unless, by a preponderance of the evidence, it finds that the return of the child would create a substantial risk of detriment to the physical or emotional well-being of the minor. The probation department shall have the burden of establishing that detriment. The failure of the parent or guardian to participate regularly in any court-ordered treatment programs shall constitute prima facie evidence that return would be detrimental. In making its determination, the court shall review the probation officer's report, shall review and consider the report and recommendations of any child advocate appointed pursuant to Section 356.5, and shall consider the efforts or progress, or both, demonstrated by the parent or guardian and the extent to which he or she cooperated and availed himself or herself of services provided; shall make appropriate findings pursuant to subdivision (a) of Section 366; and where relevant, shall order any additional services reasonably believed to facilitate the return of the minor to the custody of his or her parent or guardian. The court shall also inform the parent or guardian that if the minor cannot be returned home by the next review hearing, a proceeding pursuant to Section 366.26 may be instituted. This section does not apply in a case where, pursuant to Section 361.5, the court has ordered that reunification services shall not be provided.

If the minor was removed initially under subdivision (g) of Section 300 and the court finds by clear and convincing evidence that the whereabouts of the parent are still unknown, or the parent has failed to contact and visit the child, the court may schedule a hearing pursuant to Section 366.26 within 120 days. If the court finds by clear and convincing evidence that the parent has been convicted of a

felony indicating parental unfitness, the court may schedule a hearing pursuant to Section 366.26 within 120 days.

If the minor had been placed under court supervision with a previously noncustodial parent pursuant to Section 361.2, the court shall determine whether supervision is still necessary. The court may terminate supervision and transfer permanent custody to that parent, as provided for by paragraph (1) of subdivision (a) of Section 361.2.

In all other cases, the court shall direct that any reunification services previously ordered shall continue to be offered to the parent or guardian, provided that the court may modify the terms and conditions of those services.

If the child is not returned to his or her parent or guardian, the court shall determine whether reasonable services have been provided or offered to the parent or guardian which were designed to aid the parent or guardian in overcoming the problems which led to the initial removal and the continued custody of the minor. Evidence that the minor has been placed with a foster family that is eligible to adopt a minor, or has been placed in a preadoptive home, in and of itself, shall not be deemed a failure to provide or offer reasonable services. The court shall order that those services be initiated or continued.

(f) At the review hearing held 12 months after the initial dispositional hearing, the court shall order the return of the minor to the physical custody of his or her parent or guardian unless, by a preponderance of the evidence, it finds that return of the child would create a substantial risk of detriment to the physical or emotional well-being of the minor. The probation department shall have the burden of establishing that detriment. The court shall also determine whether reasonable services have been provided or offered to the parent or guardian which were designed to aid the parent or guardian to overcome the problems which led to the initial removal and continued custody of the minor. The failure of the parent or guardian to participate regularly in any court-ordered treatment programs shall constitute prima facie evidence that the return would be detrimental. In making its determination, the court shall review the probation officer's report and shall consider the efforts or progress, or both, demonstrated by the parent or guardian and the extent to which he or she cooperated and availed himself or herself of services provided. If the minor is not returned to a parent or guardian, the court shall specify the factual basis for its conclusion that the return would be detrimental. The court also shall make a finding pursuant to subdivision (a) of Section 366.

(g) If a minor is not returned to the custody of a parent or guardian at the hearing held pursuant to subdivision (f), the court shall do one of the following:

(1) Continue the case for up to six months for another review hearing, provided that the hearing shall occur within 18 months of

the date the child was originally taken from the physical custody of his or her parent or guardian. The court shall continue the case only if it finds that there is a substantial probability that the minor will be returned to the physical custody of his or her parent or guardian within six months or that reasonable services have not been provided to the parent or guardian. The court shall inform the parent or guardian that if the minor cannot be returned home by the next review hearing, a permanent plan shall be developed at that hearing. The court shall not order that a hearing pursuant to Section 366.26 be held unless there is clear and convincing evidence that reasonable services have been provided or offered to the parent or guardian.

(2) Order that the minor remain in long-term foster care, if the court finds by clear and convincing evidence, based upon the evidence already presented to it, that the minor is not a proper subject for adoption and has no one willing to accept legal guardianship.

(3) Order that a hearing be held within 120 days, pursuant to Section 366.26, if there is clear and convincing evidence that reasonable services have been provided or offered to the parents. Evidence that the minor has been placed with a foster family that is eligible to adopt a minor, or has been placed in a preadoptive home, in and of itself, shall not be deemed a failure to provide or offer reasonable services.

(h) In any case in which the court orders that a hearing pursuant to Section 366.26 shall be held, it shall also order the termination of reunification services to the parent. The court shall continue to permit the parent to visit the minor pending the hearing unless it finds that visitation would be detrimental to the minor.

(i) Whenever a court orders that a hearing pursuant to Section 366.26 shall be held, it shall direct the agency supervising the child and the licensed county adoption agency, or the State Department of Social Services when it is acting as an adoption agency in counties which are not served by a county adoption agency, to prepare an assessment which shall include:

(1) Current search efforts for an absent parent or parents.

(2) A review of the amount of and nature of any contact between the minor and his or her parents since the time of placement.

(3) An evaluation of the minor's medical, developmental, scholastic, mental, and emotional status.

(4) A preliminary assessment of the eligibility and commitment of any identified prospective adoptive parent or guardian, particularly the caretaker, to include a social history including screening for criminal records and prior referrals for child abuse or neglect, the capability to meet the minor's needs, and the understanding of the legal and financial rights and responsibilities of adoption and guardianship.

(5) The relationship of the minor to any identified prospective adoptive parent or guardian, the duration and character of the

relationship, the motivation for seeking adoption or guardianship, and a statement from the minor concerning placement and the adoption or guardianship, unless the minor's age or physical, emotional, or other condition precludes his or her meaningful response, and if so, a description of the condition.

(6) An analysis of the likelihood that the minor will be adopted if parental rights are terminated.

(j) This section shall apply to minors made dependents of the court pursuant to subdivision (c) of Section 360 on or after January 1, 1989.

(k) This section shall become operative January 1, 1999.

SEC. 3. Section 366.22 of the Welfare and Institutions Code, as amended by Section 4 of Chapter 540 of the Statutes of 1995, is amended to read:

366.22. (a) When a case has been continued pursuant to paragraph (1) of subdivision (g) of Section 366.21, the court, at the 18-month hearing, shall order the return of the minor to the physical custody of his or her parent or guardian unless, by a preponderance of the evidence, it finds that return of the child would create a substantial risk of detriment to the physical or emotional well-being of the minor. The probation department shall have the burden of establishing the detriment. The failure of the parent or guardian to participate regularly in any court-ordered treatment programs shall constitute prima facie evidence that return would be detrimental. In making its determination, the court shall review the probation officer's report and shall review and consider the report and recommendations of any child advocate appointed pursuant to Section 356.6 and shall consider the efforts or progress, or both, demonstrated by the parent or guardian and the extent to which he or she cooperated and availed himself or herself of services provided. If the minor is not returned to a parent or guardian, the court shall specify the factual basis for its conclusion that return would be detrimental.

If the minor is not returned to a parent or guardian at the 18-month hearing, the court shall develop a permanent plan. The court shall order that a hearing be held pursuant to Section 366.26 in order to determine whether adoption, guardianship, or long-term foster care is the most appropriate plan for the minor. However, if the court finds by clear and convincing evidence, based on the evidence already presented to it that the minor is not a proper subject for adoption and has no one willing to accept legal guardianship, the court may order that the minor remain in long-term foster care. The hearing shall be held no later than 120 days from the date of the 18-month hearing. The court shall also order termination of reunification services to the parent. The court shall continue to permit the parent to visit the minor unless it finds that visitation would be detrimental to the minor. The court shall determine whether reasonable services have been offered or provided to the parent or guardian. Evidence that

the minor has been placed with a foster family that is eligible to adopt a minor, or has been placed in a preadoptive home, in and of itself, shall not be deemed a failure to provide or offer reasonable services.

(b) Whenever a court orders that a hearing pursuant to Section 366.26 shall be held, it shall direct the agency supervising the child and the licensed county adoption agency, or the State Department of Social Services when it is acting as an adoption agency in counties which are not served by a county adoption agency, to prepare an assessment regarding the likelihood that the minor will be adopted if parental rights are terminated. The assessment shall include:

(1) Current search efforts for an absent parent or parents.

(2) A review of the amount of and nature of any contact between the minor and his or her parents or other members of his or her extended family since the time of placement. Although the extended family of each minor shall be reviewed on a case-by-case basis, "extended family" for the purposes of this paragraph shall include, but not be limited to, the minor's siblings, grandparents, aunts, and uncles.

(3) An evaluation of the minor's medical, developmental, scholastic, mental, and emotional status and an analysis of whether any of the minor's characteristics would make it difficult to find a person willing to adopt the minor.

(4) A preliminary assessment of the eligibility and commitment of any identified prospective adoptive parent or guardian, particularly the caretaker, to include a social history including screening for criminal records and prior referrals for child abuse or neglect, the capability to meet the minor's needs, and the understanding of the legal and financial rights and responsibilities of adoption and guardianship.

(5) The relationship of the minor to any identified prospective adoptive parent or guardian, the duration and character of the relationship, the motivation for seeking adoption or guardianship, and a statement from the minor concerning placement and the adoption or guardianship, unless the minor's age or physical, emotional, or other condition precludes his or her meaningful response, and if so, a description of the condition.

(c) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, which is enacted on or before January 1, 1999, deletes or extends that date.

SEC. 4. Section 366.22 of the Welfare and Institutions Code, as amended by Section 5 of Chapter 540 of the Statutes of 1995, is amended to read:

366.22. (a) When a case has been continued pursuant to paragraph (1) of subdivision (g) of Section 366.21, the court, at the 18-month hearing, shall order the return of the minor to the physical custody of his or her parent or guardian unless, by a preponderance of the evidence, it finds that return of the child would create a substantial risk of detriment to the physical or emotional well-being

of the minor. The probation department shall have the burden of establishing the detriment. The failure of the parent or guardian to participate regularly in any court-ordered treatment programs shall constitute prima facie evidence that return would be detrimental. In making its determination, the court shall review the probation officer's report and shall review and consider the report and recommendations of any child advocate appointed pursuant to Section 356.6 and shall consider the efforts or progress, or both, demonstrated by the parent or guardian and the extent to which he or she cooperated and availed himself or herself of services provided. If the minor is not returned to a parent or guardian, the court shall specify the factual basis for its conclusion that return would be detrimental.

If the minor is not returned to a parent or guardian at the 18-month hearing, the court shall develop a permanent plan. The court shall order that a hearing be held pursuant to Section 366.26 in order to determine whether adoption, guardianship, or long-term foster care is the most appropriate plan for the minor. (6) An analysis of the likelihood that the minor will be adopted if parental rights are terminated.

(c) This section shall become operative January 1, 1999.

(c) As part of the overall operation and administration, the laboratory director of a registered laboratory shall document the adequacy of the qualifications (educational background, training, and experience) of the personnel directing and supervising the laboratory and performing the laboratory test procedures and examinations. In determining the adequacy of qualifications, the laboratory director shall comply with any regulations adopted by the department that specify the minimum qualifications for personnel, in addition to any CLIA requirements relative to the education or training of personnel.

(d) As part of the overall operation and administration, the laboratory director of a licensed laboratory shall do all of the following:

(1) Ensure that all personnel, prior to testing biological specimens, have the appropriate education and experience, receive the appropriate training for the type and complexity of the services offered, and have demonstrated that they can perform all testing

operations reliably to provide and report accurate results. In determining the adequacy of qualifications, the laboratory director shall comply with any regulations adopted by the department that specify the minimum qualifications for, and the type of procedures that may be performed by, personnel in addition to any CLIA requirements relative to the education or training of personnel. Any regulations adopted pursuant to this section that specify the type of procedure that may be performed by testing personnel shall be based on the skills, knowledge, and tasks required to perform the type of procedure in question.

(2) Ensure that policies and procedures are established for monitoring individuals who conduct preanalytical, analytical, and postanalytical phases of testing to assure that they are competent and maintain their competency to process biological specimens, perform test procedures, and report test results promptly and proficiently, and, whenever necessary, identify needs for remedial training or continuing education to improve skills.

(3) Specify in writing the responsibilities and duties of each individual engaged in the performance of the preanalytic, analytic, and postanalytic phases of clinical laboratory tests or examinations, including which clinical laboratory tests or examinations the individual is authorized to perform, whether supervision is required for the individual to perform specimen processing, test performance, or results reporting, and whether consultant, supervisor, or director review is required prior to the individual reporting patient test results.

(e) The competency and performance of staff of a licensed laboratory shall be evaluated and documented by the laboratory director, or by a person who qualifies as a technical consultant or a technical supervisor under CLIA depending on the type and complexity of tests being offered by the laboratory.

(1) The procedures for evaluating the competency of the staff shall include, but are not limited to, all of the following:

(D) Direct observation of performance of instrument maintenance and function checks.

(E) Assessment of test performance through testing previously analyzed specimens, internal blind testing samples, or external proficiency testing samples.

(F) Assessment of problem solving skills.

(2) Evaluation and documentation of staff competency and performance shall occur at least semiannually during the first year an

individual tests biological specimens. Thereafter, evaluations shall be performed at least annually unless test methodology or instrumentation changes, in which case, prior to reporting patient test results, the individual's performance shall be reevaluated to include the use of the new test methodology or instrumentation.

(f) The laboratory director of each clinical laboratory of an acute care hospital shall be a physician and surgeon who is a qualified pathologist, except as follows:

(1) If a qualified pathologist is not available, a physician and surgeon or a clinical laboratory bioanalyst qualified as a laboratory director under subdivision (a) may direct the laboratory. However, a qualified pathologist shall be available for consultation at suitable intervals to ensure high quality service.

(2) If there are two or more clinical laboratories of an acute care hospital, those additional clinical laboratories that are limited to the performance of blood gas analysis, blood electrolyte analysis, or both may be directed by a physician and surgeon qualified as a laboratory director under subdivision (a), irrespective of whether a pathologist is available.

As used in this subdivision, a qualified pathologist is a physician and surgeon certified or eligible for certification in clinical or anatomical pathology by the American Board of Pathology or the American Osteopathic Board of Pathology.

(g) Subdivision (f) does not apply to any director of a clinical laboratory of an acute care hospital acting in that capacity on or before January 1, 1988.

CHAPTER 1030

An act to add Section 2077 to the Business and Professions Code, relating to physician assistants.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 2077 is added to the Business and Professions Code, to read:

2077. (a) Notwithstanding any other provision of law, a physician and surgeon may delegate various orthopaedic medical tasks to individuals who have completed training as orthopaedic physician assistants and who are working under the supervision and direction of a physician and surgeon. Those assistants who perform only those tasks which may under existing law be so delegated shall not be required to be licensed as physician assistants under Chapter 7.7 (commencing with Section 3500).

(b) As used in this section, "orthopaedic physician assistant" means an individual who meets all of the following requirements:

(1) Successful completion of training as an orthopaedic physician assistant from an approved California orthopaedic physician assistant's program in any year between 1971 and 1974, inclusive. As used in this section, "approved California orthopaedic physician assistant's program" means an orthopaedic physician assistant's course of training that has been accredited by the American Medical Association Council on Medical Education.

(2) Continuous experience as an orthopaedic physician assistant upon completion of the program described in paragraph (1), which may include experience in the United States Armed Services.

CHAPTER 1031

An act to amend Section 1954.53 of the Civil Code, relating to real property.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1954.53 of the Civil Code is amended to read:

1954.53. (a) Notwithstanding any other provision of law, an owner of residential real property may establish the initial rental rate for a dwelling or unit, except where any of the following applies:

(1) The previous tenancy has been terminated by the owner by notice pursuant to Section 1946 or has been terminated upon a change in the terms of the tenancy noticed pursuant to Section 827, except a change permitted by law in the amount of rent or fees.

(2) The owner has otherwise agreed by contract with a public entity in consideration for a direct financial contribution or any other forms of assistance specified in Chapter 4.3 (commencing with Section 65915) of Division 1 of Title 7 of the Government Code.

(3) The initial rental rate for a dwelling or unit whose initial rental rate is controlled by an ordinance or charter provision in effect on January 1, 1995, shall not until January 1, 1999, exceed the amount calculated pursuant to subdivision (c).

(b) Subdivision (a) applies to, and includes, renewal of the initial hiring by the same tenant, lessee, authorized subtenant, or

authorized sublessee for the entire period of his or her occupancy at the rental rate established for the initial hiring.

(c) The rental rate of a dwelling or unit whose initial rental rate is controlled by ordinance or charter provision in effect on January 1, 1995, shall, until January 1, 1999, be established in accordance with this subdivision. Where the previous tenant has voluntarily vacated, abandoned, or been evicted pursuant to paragraph (2) of Section 1161 of Code of Civil Procedure, an owner of residential real property may, no more than twice, establish the initial rental rate for a dwelling or unit in an amount that is no greater than 15 percent more than the rental rate in effect for the immediately preceding tenancy or in an amount that is 70 percent of the prevailing market rent for comparable units, whichever amount is greater.

The initial rental rate established pursuant to this subdivision shall not be deemed to substitute for or replace increases in rental rates otherwise authorized pursuant to law.

(d) Nothing in this section or any other provision of law shall be construed to preclude express establishment in a lease or rental agreement of the rental rates to be applicable in the event the rental unit subject thereto is sublet, and nothing in this section shall be construed to impair the obligations of contracts entered into prior to January 1, 1996.

Where the original occupant or occupants who took possession of the dwelling or unit pursuant to the rental agreement with the owner no longer permanently reside there, an owner may increase the rent by any amount allowed by this section to a lawful sublessee or assignee who did not reside at the dwelling or unit prior to January 1, 1996.

This subdivision shall not apply to partial changes in occupancy of a dwelling or unit where one or more of the occupants of the premises, pursuant to the agreement with the owner provided for above, remains an occupant in lawful possession of the dwelling or unit, or where a lawful sublessee or assignee who resided at the dwelling or unit prior to January 1, 1996, remains in possession of the dwelling or unit. Nothing contained in this section shall be construed to enlarge or diminish an owner's right to withhold consent to a sublease or assignment.

Acceptance of rent by the owner shall not operate as a waiver or otherwise prevent enforcement of a covenant prohibiting sublease or assignment or as a waiver of an owner's rights to establish the initial rental rate unless the owner has received written notice from the tenant that is party to the agreement and thereafter accepted rent.

(e) Nothing in this section shall be construed to affect any authority of a public entity that may otherwise exist to regulate or monitor the grounds for eviction.

(f) This section shall not apply to any dwelling or unit which contains serious health, safety, fire, or building code violations, excluding those caused by disasters, for which a citation has been

issued by the appropriate governmental agency and which has remained unabated for six months or longer preceding the vacancy.

SEC. 2. No reimbursement shall be made from the State Mandates Claims Fund pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code for costs mandated by the state pursuant to this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Part 7 (commencing with Section 17500) and any other provisions of law.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

(d) In connection with the acquisition authorized in subdivision (a), the Treasurer shall be the agent for the sale of any financing involving the issuance of bonds, certificates of participation, or other form of indebtedness that are payable from payments made in connection with any lease.

(e) The facilities to be acquired by the Director of General Services, as agent for the Health and Welfare Agency Data Center, shall be and remain under the jurisdiction and control of, and be maintained and operated by, the Health and Welfare Agency Data Center during the term of any lease executed as security for bonds or other evidence of indebtedness. (b) (1) The amount of revenue bonds, negotiable notes, commercial paper, and negotiable bond anticipation notes to be sold shall equal the cost of acquisition, including the amount necessary to pay financing costs, interest during construction, and a reasonable reserve. Acquisition costs shall not exceed twenty-four million dollars ($24,000,000).

(2) Notwithstanding Section 13332.11, the State Public Works Board may authorize the augmentation of the amount authorized pursuant to this subdivision by up to 10 percent of the amount specifically authorized.

(c) The net present value of the cost to acquire and operate the facilities authorized by subdivision (a) may not exceed the net present value of the cost to lease and operate an equivalent amount of comparable office space, including the present facilities, over the same time period. The Department of General Services shall

perform this analysis, and shall obtain interest rates, discount rates, and Consumer Price Index figures from the Treasurer.

(d) The State Public Works Board may borrow funds for project costs from the Pooled Money Investment Account pursuant to Sections 16312 and 16313. In the event the bonds authorized for the project are not sold, the Health and Welfare Agency Data Center shall commit a sufficient amount of its budget to repay any loans made for the project from the Pooled Money Investment Account.

CHAPTER 1033

An act to amend Section 22511.55 of, and to add Section 22511.58 to, the Vehicle Code, relating to vehicles.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 22511.55 of the Vehicle Code is amended to read:

22511.55. (a) (1) Any disabled person or disabled veteran may apply to the department for the issuance of a distinguishing placard. The placard may be used in lieu of the special identification license plate or plates issued under Section 5007 for parking purposes described in Section 22511.5 when suspended from the rear view mirror or, if there is no rear view mirror, when displayed on the dashboard of a vehicle. It is the intent of the Legislature to encourage the use of these distinguishing placards because they provide law enforcement officers with a more readily recognizable symbol for distinguishing vehicles qualified for the parking privilege. The placard shall be the size and color determined by the department, shall bear the International Symbol of Access adopted pursuant to Section 3 of Public Law 100-641, commonly known as the "wheelchair symbol." The department shall incorporate instructions for the lawful use of a placard, and a summary of the penalties for the unlawful use of a placard, into the identification card issued to the placard owner.

(2) (A) The department may establish procedures for the issuance and renewal of the placards. The placards shall have a fixed expiration date of June 30 every two years. Whenever any application for a placard is submitted to the department on or after January 1 of the year of expiration, the fee shall be for the current and subsequent renewal period.

(B) As used in this section, "year" means the period between the inclusive dates of July 1 through June 30.

(C) Prior to the end of each year, the department shall, for the most current three years available, compare its record of disability placards issued against the records of the Bureau of Vital Statistics of the State Department of Health Services, or its successor, and withhold any renewal notices that otherwise would have been sent, for any placard holders identified as deceased.

(3) The fee for an original application or renewal application is six dollars ($6).

(4) Except as provided in paragraph (5), no person is eligible for more than one placard at any time.

(5) Organizations and agencies involved in the transportation of disabled persons or disabled veterans may apply for a placard for each vehicle used for the purpose of transporting disabled persons or disabled veterans.

(b) Prior to issuing any disabled person or disabled veteran an original distinguishing placard, the department shall require the applicant to submit a certificate signed by the physician or surgeon substantiating the disability, unless the applicant's disability is readily observable and uncontested. The disability of any person who has lost, or has lost use of, one or more lower extremities or both hands, or who has significant limitation in the use of lower extremities, may also be certified by a licensed chiropractor. The blindness of any applicant shall be certified by a licensed physician or surgeon who specializes in diseases of the eye or a licensed optometrist. The physician or person certifying the qualifying disability shall provide a full description of the illness or disability on the form submitted to the department.

The department shall maintain in its records all information on an applicant's certification of permanent disability and shall make such information available to eligible law enforcement or parking control agencies upon a request pursuant to Section 22511.58.

(c) (1) Any person who has been issued a distinguishing placard pursuant to subdivision (a) may apply to the department for a substitute placard without recertification of eligibility, if that placard has been lost or stolen.

(2) The fee for a substitute placard issued pursuant to paragraph (1) is six dollars ($6).

(d) The distinguishing placard shall be returned to the department not later than 60 days after the death of the disabled person or disabled veteran to whom the placard was issued.

SEC. 2. Section 22511.58 is added to the Vehicle Code, to read:

22511.58. (a) Upon a request to the department by a local public law enforcement agency or local agency responsible for the administration or enforcement of parking regulations, the department shall make available to the requesting agency any information contained in a physician's certificate submitted to the department as part of the application for a disabled person's parking privileges, substantiating the disability of a person applying for or

who has been issued a parking placard pursuant to Section 22511.55. The department shall not provide the information specified in this subdivision to any private or other third-party parking citation processing agency.

(b) Local authorities may establish a review board or panel, which shall include a qualified physician or medical authority, for purposes of reviewing information contained in the applications for special parking privileges and the certification of qualifying disabilities for persons residing within the jurisdiction of the local authority. Any findings or determinations by a review board or panel under this section indicating that an application or certification is fraudulent or lacks proper certification may be transmitted to the department or other appropriate authorities for further review and investigation.

CHAPTER 1034

An act to amend Section 1765.1 of the Insurance Code, relating to insurance.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1765.1 of the Insurance Code is amended to read:

1765.1. (a) (1) Has established its financial stability, reputation, and integrity, for the class of insurance the broker proposes to place, by satisfactory evidence submitted to the commissioner through a surplus line broker.

(2) (A) Has capital and surplus that together total at least fifteen million dollars ($15,000,000). "Capital" shall be as defined in Section 36. "Surplus" shall be defined as assets exceeding the sum of liabilities for losses reported, expenses, taxes, and all other indebtedness and reinsurance of outstanding risks as provided by law and paid-in capital in the case of an insurer issuing or having outstanding shares of capital stock. The type of assets to be used in calculating capital and surplus shall be as follows: at least fifteen million dollars ($15,000,000) shall be in the form of cash, or securities of the same character and quality as specified in Sections 1170 to 1182, inclusive, or in readily marketable securities listed on regulated United States' national or

principal regional securities exchanges. The remaining assets shall be in the form just described, or in the form of investments of substantially the same character and quality as described in Sections 1190 to 1202, inclusive. In calculating capital and surplus under this section, the term "same character and quality" shall permit, but not require, the commissioner to approve assets maintained in accordance with the laws of another state or country. The commissioner shall be guided by any limitations, restrictions, or other requirements of this code or the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual in determining whether assets substantially similar to those described in Sections 1190 to 1202, inclusive, qualify. The commissioner shall retain the discretion to disapprove or disallow any asset that is not of a sound quality, or that he or she deems to create an unacceptable risk of loss to the insurer or to policyholders. Securities specifically valued by the National Association of Insurance Commissioners Securities Valuation Office shall be presumed readily marketable absent evidence to the contrary. Letters of credit will not qualify as assets in the calculation of surplus. If less than fifteen million dollars ($15,000,000), the commissioner has affirmatively found that the capital and surplus is adequate to protect California policyholders. The commissioner shall consider, on determining whether to make this finding, factors such as quality of management, the capital and surplus of any parent company, the underwriting profit and investment income trends, and the record of claims payment and claims handling practices of the nonadmitted insurer, or

(B) In the case of an "Insurance Exchange" created and authorized under the laws of individual states, maintains capital and surplus of not less than fifty million dollars ($50,000,000) in the aggregate. "Capital" shall be as defined in Section 36. "Surplus" shall be defined as assets exceeding the sum of liabilities for losses reported, expenses, taxes, and all other indebtedness and reinsurance of outstanding risks as provided by law and paid-in capital in the case of an insurer issuing or having outstanding shares of capital stock. The type of assets to be used in calculating capital and surplus shall be as follows: at least fifteen million dollars ($15,000,000) shall be in the form of cash, or securities of the same character and quality as specified in Sections 1170 to 1182, inclusive, or in readily marketable securities listed on regulated United States' national or principal regional securities exchanges. The remaining assets shall be in the form just described, or in the form of investments of substantially the same character and quality as described in Sections 1190 to 1202, inclusive. In calculating capital and surplus under this section, the term "same character and quality" shall permit, but not require, the commissioner to approve assets maintained in accordance with the laws of another state or country. The commissioner shall be guided by any limitations, restrictions, or other requirements of this code or the National Association of Insurance Commissioners' Accounting

Practices and Procedures Manual in determining whether assets substantially similar to those described in Sections 1190 to 1202, inclusive, qualify. The commissioner shall retain the discretion to disapprove or disallow any asset that is not of a sound quality, or that he or she deems to create an unacceptable risk of loss to the insurer or to policyholders. Securities specifically valued by the National Association of Insurance Commissioners Securities Valuation Office shall be presumed readily marketable absent evidence to the contrary. Letters of credit will not qualify as assets in the calculation of surplus. In the case of an Insurance Exchange which maintains funds for the protection of all Insurance Exchange policyholders, each individual syndicate seeking to accept surplus line placements of risks resident, located or to be performed in this state shall maintain minimum capital and surplus of not less than six million four hundred thousand dollars ($6,400,000). Each individual syndicate shall increase the capital and surplus required by this paragraph by one million dollars ($1,000,000) each year until it attains a capital and surplus of fifteen million dollars ($15,000,000). In the case of Insurance Exchanges which do not maintain funds for the protection of all Insurance Exchange policyholders, each individual syndicate seeking to accept surplus line placement of risks resident, located or to be performed in this state shall meet the capital and surplus requirements of subparagraph (A) of this paragraph.

(C) In the case of a syndicate that is part of a group consisting of incorporated individual insurers, or a combination of both incorporated and unincorporated insurers, that at all times maintains a trust fund of not less than one hundred million dollars ($100,000,000) in a qualified United States financial institution as security to the full amount thereof for the United States surplus line policyholders and beneficiaries of direct policies of the group, including all policyholders and beneficiaries of direct policies of the syndicate, and the full balance in the trust fund is available to satisfy the liabilities of each member of the group of those syndicates, incorporated individual insurers or other unincorporated insurers, without regard to their individual contributions to that trust fund, and the trust complies with the terms of and conditions specified in paragraph (1) of subdivision (b), the syndicate is excepted from the capital and surplus requirements of subparagraph (A) of paragraph (2). The incorporated members of the group shall not be engaged in any business other than underwriting as a member of the group and shall be subject to the same level of solvency regulation and control by the group's domiciliary regulator as are the unincorporated members.

(b) (1) In addition, to be eligible as a surplus line insurer, an insurer not domiciled in one of the United States or its territories shall have in force in the United States an irrevocable trust account in a qualified United States financial institution, for the protection of United States policyholders, of not less than five million four hundred

thousand dollars ($5,400,000) and consisting of cash, securities acceptable to the commissioner which are authorized pursuant to Sections 1170 to 1182, inclusive, readily marketable securities acceptable to the commissioner which are listed on a regulated United States national or principal regional security exchange, or clean and irrevocable letters of credit acceptable to the commissioner and issued by a qualified United States financial institution. The trust agreement shall be in a form acceptable to the commissioner. The funds in the trust account may be included in any calculation of capital and surplus, except letters of credit, which shall not be included in any calculation.

(2) In the case of a syndicate seeking eligibility under subparagraph (C) of paragraph (2) of subdivision (a), the syndicate shall, in addition to the requirements of that subparagraph, at a minimum, maintain in the United States a trust account in an amount satisfactory to the commissioner that is not less than the amount required by the domiciliary state of the syndicate's trust. The trust account shall comply with the terms and conditions specified in paragraph (1) of subdivision (b).

(3) In the case of a group of incorporated insurers under common administration that maintains a trust fund of not less than one hundred million dollars ($100,000,000) in a qualified United States financial institution for the payment of claims of its United States policyholders, their assigns, or successors in interest and that complies with the terms and conditions of paragraph (1) that has continuously transacted an insurance business outside the United States for at least three years, that is in good standing with its domiciliary regulator, whose individual insurer members maintain standards and financial condition reasonably comparable to admitted insurers, that submits to this state's authority to examine its books and bears the expense of examination, and that has an aggregate policyholder surplus of ten billion dollars ($10,000,000,000), the group is excepted from the capital and surplus requirements of subdivision (a).

(c) Has caused to be provided to the commissioner the following documents:

(1) The financial documents as specified below, each showing the insurer's condition as of a date not more than 12 months prior to submission:

(A) A copy of an annual statement, prepared in the form prescribed by the NAIC. For an alien insurer, in lieu of an annual statement, a licensee may submit a form as set forth by regulation and as prepared by the insurer, and, if listed by the IID, a copy of the complete information as required in the application for listing by the IID.

(B) A copy of an audited financial report on the insurer's condition that meets the standards of paragraph (D) for foreign insurers or paragraph (E) for alien insurers.

(C) If the insurer is an alien:

(i) A certified copy of the trust agreement referenced in subdivision (b).

(ii) A verified copy of the most recent quarterly statement or list of the assets in the trust.

(D) Financial reports filed pursuant to this section by foreign insurers shall conform to the following standards:

(i) Financial documents shall be certified.

(ii) An audited financial report shall constitute a supplement to the insurer's annual statement, as required by the annual statement instructions issued by the NAIC.

(iii) An audited financial report shall be prepared by an independent certified public accountant or accounting firm in good standing with the American Institute of Certified Public Accountants and in all states where licensed to practice; and be prepared in conformity with statutory accounting practices prescribed, or otherwise permitted, by the insurance regulator of the insurer's domiciliary jurisdiction.

(iv) An audited financial report shall include information on the insurer's financial position as of the end of the most recent calendar year, and the results of its operations, cash-flows, and changes in capital and surplus for the year then ended.

(v) An audited financial report shall be prepared in a form and using language and groupings substantially the same as the relevant sections of the insurer's annual statement filed with its domiciliary jurisdiction, and presenting comparatively the amounts as of December 31 of the most recent calendar year and the amounts as of December 31 of the preceding year.

(E) Financial reports filed pursuant to this section by alien insurers shall conform to the following standards:

(i) Except as provided in clause (ii) of subparagraph (C), financial documents should be certified, if certification of a financial document is not available, the document shall be verified.

(ii) Financial documents should be expressed in United States dollars, but may be expressed in another currency, if the exchange rate for the other currency as of the date of the document is also provided.

(iii) The responses provided pursuant to subparagraph (A) of paragraph (1) on the form submitted in lieu of an annual statement should follow the most recent ISI Guide to Alien Reporting Format, "Standard Definitions of Accounting Items." Responses that do not agree with a standard definition shall be fully explained in the form.

(iv) An audited financial report shall be prepared by an independent auditor licensed as such in the insurer's domiciliary jurisdiction or in any state.

(v) An audited financial report shall be prepared in accord with either (I) Generally Accepted Auditing Standards that prescribe Generally Accepted Accounting Principles, or (II) International

Accounting Standards as published and revised from time to time by the International Auditing Guidelines published by the International Auditing Practice Committee of the International Federation of Accountants; and shall include financial statement notes and a summary of significant accounting practices.

(F) The commissioner may accept, in lieu of a document described above, any certified or verified financial or regulatory document, statement, or report if the commissioner finds that it possesses reliability and financial detail substantially equal to or greater than the document for which it is proposed to be a substitute.

(G) If one of the financial documents required to be submitted under subparagraphs (A) and (B) is dated within 12 months of submission, but the other document is not so dated, the licensee may use the outdated document if it is accompanied by a supplement. The supplement must meet the same requirements which apply to the supplemented document, and must update the outdated document to a date within the prescribed time period, preferably to the same date as the nonsupplemented document.

(2) A certified copy of the insurer's license issued by its domiciliary jurisdiction, plus a certification of good standing, certificate of compliance, or other equivalent certificate, from either that jurisdiction or, if the jurisdiction issues no such certificates, from any state where it is licensed.

(3) Information on the insurer's agent in California for service of process, including the agent's full name and address. The agent's address must include a street address where the agent can be reached during normal business hours.

(4) The complete street address, mailing address, and telephone number of the insurer's principal place of business.

(5) A certified or verified explanation, report, or other statement, from the insurance regulatory office or official of the insurer's domiciliary jurisdiction, concerning the insurer's record regarding market conduct and consumer complaints; or, if such information cannot be obtained from that jurisdiction, then such other information as the licensee can procure to demonstrate a good reputation for payment of claims and treatment of policyholders.

(6) A verified statement, from the insurer or licensee, on whether the insurer or any affiliated entity is currently known to be the subject of any order or proceeding regarding conservation, liquidation, or other receivership; or regarding revocation or suspension of a license to transact insurance in any jurisdiction; or otherwise seeking to stop the insurer from transacting insurance in any jurisdiction. The statement shall identify any such proceeding by date, jurisdiction, and relief or sanction sought; and shall attach a copy of any such order.

(7) A certified copy of the most recent report of examination or an explanation if the report is not available.

(d) (1) Has provided any additional information or documentation required by the commissioner which is relevant to the financial stability, reputation, and integrity of the nonadmitted insurer. In making a determination concerning financial stability, reputation, and integrity of the nonadmitted insurer, the commissioner shall consider any analysis, findings, or conclusion made by the National Association of Insurance Commissioners (NAIC) in its review of the insurer for purposes of inclusion on or exclusion from the list of authorized nonadmitted insurers maintained by the NAIC. The commissioner may, but shall not be required to, rely on, adopt, or otherwise accept any analyses, findings, or conclusions of the NAIC, as the commissioner deems appropriate. In the case of a syndicate seeking eligibility under subparagraph (C) of paragraph (2) of subdivision (a), the commissioner may, but shall not be required to, rely on, adopt, or otherwise accept any analyses, findings, or conclusions of any state, as the commissioner deems appropriate, as long as that state, in its method of regulation and review, meets the requirements of paragraph (2).

(2) The regulatory body of the state shall regularly receive and review the following: (A) an audited financial statement of the syndicate, prepared by a certified or chartered public accountant; (B) an opinion of a qualified actuary with regard to the syndicate's aggregate reserves for payment of losses or claims and payment of expenses of adjustment or settlement of losses or claims; (C) a certification from the qualified United States financial institution that acts as the syndicate's trustee, respecting the existence and value of the syndicate's trust fund; and (D) information concerning the syndicate's or its manager's operating history, business plan, ownership and control, experience and ability, together with any other pertinent factors, and any information indicating that the syndicate or its manager make reasonably prompt payment of claims in this state or elsewhere. The regulatory body of the state shall have the authority, either by law or through the operation of a valid and enforceable agreement, to review the syndicate's assets and liabilities and audit the syndicate's trust account, and shall exercise that authority with a frequency and in a manner satisfactory to the commissioner.

(e) Has established that:

(1) All documents required by subdivisions (c) and (d) have been filed. Each of the documents appear after review to be complete, clear, comprehensible, unambiguous, accurate, and consistent.

(2) The documents affirm that the insurer is not subject in any jurisdiction to an order or proceeding that:

(A) Seeks to stop it from transacting insurance.

(B) Relates to conservation, liquidation, or other receivership.

(C) Relates to revocation or suspension of its license.

(3) The documents affirm that the insurer has actively transacted insurance for the three years immediately preceding the filing made

under this section, unless an exemption is granted. As used in this paragraph, "insurer" does not include a syndicate of underwriting entities. The commissioner may grant an exemption if the licensee has applied for exemption and demonstrates either of the following:

(A) The insurer meets the condition for any exception set forth in subdivision (a), (b), or (c) of Section 716.

(B) If the insurer has been actively transacting insurance for at least 12 months, and the licensee demonstrates that the exemption is warranted because the insurer's current financial strength, operating history, business plan, ownership and control, management experience, and ability, together with any other pertinent factors, make three years of active insurance transaction unnecessary to establish sufficient reputation.

(4) The documents confirm that the insurer holds a license to issue insurance policies (other than reinsurance) to residents of the jurisdiction that granted the license unless an exemption is granted. The commissioner may grant an exemption if the licensee has applied for an exemption and demonstrates that the exemption is warranted because the insurer proposes to issue in California only commercial coverage, and is wholly owned and actually controlled by substantial and knowledgeable business enterprises that are its policyholders and that effectively govern the insurer's destiny in furtherance of their own business objectives.

(5) The information filed pursuant to paragraph (5) of subdivision (c) or otherwise filed with or available to the commissioner, including reports received from California policyholders, shall indicate that the insurer makes reasonably prompt payment of claims in this state or elsewhere.

(6) The information available to the commissioner shall not indicate that the insurer offers in California a licensee products or rates that violate any provision of this code.

(f) Has been placed on the list of eligible surplus line insurers by the commissioner. The commissioner shall establish a list of all surplus line insurers that have met the requirements of subdivisions (a) to (e), inclusive, and shall publish a master list at least semiannually. Any insurer receiving approval as an eligible surplus line insurer shall be added by addendum to the list at the time of approval, and shall be incorporated into the master list at the next date of publication. If an insurer appears on the most recent list, it shall be presumed that the insurer is an eligible surplus line insurer, unless the commissioner or his or her designee has mailed or causes to be mailed notice to all surplus line brokers and special lines' surplus line brokers that the commissioner has withdrawn the insurer's eligibility. Upon receipt of notice, the surplus line broker or special lines' surplus line broker shall make no further placements with the insurer. Nothing in this subdivision shall limit the commissioner's discretion to withdraw an insurer's eligibility.

(g) (1) Except as provided by paragraph (2), whenever the commissioner has reasonable cause to believe, and determines after a public hearing, that any insurer on the list established pursuant to subdivision (f), (A) is in an unsound financial condition, (B) does not meet the eligibility requirements under subdivisions (a) to (e), inclusive, (C) has violated the laws of this state, or (D) without justification, or with a frequency so as to indicate a general business practice, delays the payment of just claims, the commissioner may issue an order removing the insurer from the list. Notice of hearing shall be served upon the insurer or its agent for service of process stating the time and place of the hearing and the conduct, condition, or ground upon which the commissioner would make his or her order. The hearing shall occur not less than 20 days, nor more than 30 days after notice is served upon the insurer or its agent for service of process.

(2) If the commissioner determines that an insurer's immediate removal from the list is necessary to protect the public or an insured or prospective insured of the insurer, or, in the case of an application by an insurer to be placed on the list which is being denied by the commissioner, the commissioner may issue an order pursuant to paragraph (1) without prior notice and hearing. At the time an order is served pursuant to this paragraph to an insurer on the list, the commissioner shall also issue and serve upon the insurer a statement of the reasons that immediate removal is necessary. Any order issued pursuant to this paragraph shall include a notice stating the time and place of a hearing on the order, which shall be not less than 20 days, nor more than 30 days after the notice is served.

(3) Notwithstanding paragraphs (1) and (2), in any case where the commissioner is basing a decision to remove an insurer from the list, or deny an application to be placed on the list, on the failure of the insurer or applicant to comply with, meet or maintain any of the objective criteria established by this section, or by regulation adopted pursuant to this section, the commissioner may so specify this fact in the order, and no hearing shall be required to be held on the order.

(4) Notwithstanding paragraphs (1) and (2), the commissioner may, without prior notice or hearing, remove from the list established pursuant to subdivision (f) any insurer which has failed or refused to timely provide documents required by this section, or any regulations adopted to implement this section. In the case of removal pursuant to this paragraph, the commissioner shall notify all surplus line brokers and special lines' surplus line brokers of the action.

(h) In addition to any other statements or reports required by this chapter, the commissioner may also address to any licensee a written request for full and complete information respecting the financial stability, reputation and integrity of any nonadmitted insurer with whom such licensee has dealt or proposes to deal in the transaction of insurance business. The licensee so addressed shall promptly furnish in written or printed form so much of the information

requested as he or she can produce together with a signed statement identifying the same and giving reasons for omissions, if any. After due examination of the information and accompanying statement, the commissioner may, if he or she believes it to be in the public interest, order the licensee in writing to place no further insurance business on property located or operations conducted within or on the lives of persons who are residents of this state with the nonadmitted insurer on behalf of any person. Any placement in the nonadmitted insurer made by a licensee after receipt of such order is a violation of this chapter. The commissioner may issue an order when documents submitted pursuant to subdivisions (c) and (d) do not meet the criteria of subdivisions (a) to (e), inclusive, or when the commissioner obtains documents on an insurer and the insurer does not meet the criteria of subdivisions (a) to (e), inclusive.

(i) The commissioner shall require, at least annually, the submission of records and statements as are reasonably necessary to ensure that the requirements of this section are maintained.

(j) The commissioner shall establish by regulation a schedule of fees to cover costs of administering and enforcing this chapter.

(k) (1) Insurance may be placed on a limited basis with insurers not on the list established pursuant to this section if all of the following conditions are met:

(A) The use of multiple insurers is necessary to obtain coverage for 100 percent of the risk.

(B) At least 80 percent of the risk is placed with admitted insurers or insurers that appear on the list of eligible nonadmitted insurers.

(C) The placing surplus line broker submits to the commissioner, or his or her designee, copies of all documentation relied upon by the surplus line broker to make the broker's determination that the financial stability, reputation, and integrity of the unlisted insurer or insurers, are adequate to safeguard the interest of the insured under the policy. This documentation, and any other documentation regarding the unlisted insurer requested by the commissioner, shall be submitted no more than 30 days after the insurance is placed with the unlisted insurer for the initial placement by that broker with the particular unlisted insurer, and annually thereafter for as long as the broker continues to make placements with the unlisted insurer pursuant to this paragraph.

(D) The insured has aggregate annual premiums for all risks other than workers' compensation or health coverage totaling no less than one hundred thousand dollars ($100,000).

(2) Insurance may not be placed pursuant to paragraph (1) if any of the following applies:

(A) The unlisted insurer has for any reason been objected to by the commissioner pursuant to Section 1765.1, removed from the list, or denied placement on the list.

(B) The insurance includes coverage for employer-sponsored medical, surgical, hospital, or other health or medical expense benefits payable to the employee by the insurer.

(C) The insurance is mandatory under the laws of the federal government, this state, or any political subdivision thereof, and includes any portion of limits of coverage mandated by those laws.

(D) The insured is a multiple employer welfare arrangement, as defined in Section 1002(40)(A) of Title 29 of the United States Code, or any other arrangement among two or more employers that are not under common ownership or control, which is established or maintained for the primary purpose of providing insurance benefits to the employees of two or more employers.

(E) Unlisted insurers represent a disproportionate portion of the lower layers of the coverage.

(3) Nothing in this section is intended to alter any duties of a surplus line broker pursuant to subdivision (b) of Section 1765 or other laws of this state to safeguard the interests of the insured under the policy in recommending or placing insurance with a nonadmitted insurer.

(4) Placements authorized by this subdivision are intended to provide sophisticated insurance purchasers with a means to obtain necessary commercial insurance coverage from nonadmitted insurers not listed by the commissioner in situations where it is not commercially possible to fully obtain that coverage from either admitted or listed insurers. This subdivision shall not be deemed to permit surplus line brokers to place with nonadmitted insurers common commercial or personal line coverages for insureds that can be placed with insurers that are admitted or listed pursuant to this section, whether the insured is an individual insured, or a group created primarily for the purpose of purchasing insurance.

(*l*) As used in this section:

(1) "Certified" means an originally signed or sealed statement, dated not more than 60 days before submission, made by a public official or other person, attached to a copy of a document, that attests that the copy is a true copy of the original, and that the original is in the custody of the person making the statement.

(2) "Domiciliary jurisdiction" means the state, nation, or subdivision thereof under the laws of which an insurer is incorporated or otherwise organized.

(3) "Domiciliary state of the syndicate's trust" means the state in which the syndicate's trust fund is principally maintained and administered for the benefit of the syndicate's policyholders in the United States.

(4) "IID" means the International Insurers Department.

(5) "Insurer" means (unless the context indicates otherwise) "nonadmitted" insurers that are either "foreign" or "alien" insurers, as those terms are defined in Sections 25, 27, and 1580, and syndicates whose members consist of individual incorporated insurers who are

not engaged in any business other than underwriting as a member of the group and individual unincorporated insurers, provided all the members are subject to the same level of solvency regulation and control by the group's domiciliary regulator. The term "insurer" includes all nonadmitted insurers selling insurance to or through purchasing groups as defined in the Liability Risk Retention Act of 1986 (15 U.S.C. Sec. 3901 et seq.) and the California Risk Retention Act of 1990 (Chapter 1.5 (commencing with Section 125) of Part 1 of Division 1), except insurers that are risk retention groups as defined by those acts.

(6) "ISI" means Insurance Solvency International.

(7) "Licensee" includes both surplus line brokers and special lines' surplus line brokers licensed pursuant to subdivision (b) of Section 1760.5 and Sections 1765, 1765.2, 1765.3, and 1765.4.

(8) "NAIC" means the National Association of Insurance Commissioners or its successor organization.

(9) "NAIIO" means the Nonadmitted Alien Insurer Information Office of the NAIC or its successor office.

(10) "State" means any state of the United States; the District of Columbia; a commonwealth, or a territory.

(11) "Verified" means a document or copy accompanied by an originally signed statement, dated not more than 60 days before submission, from a responsible executive or official who has authority to provide the statement and knowledge whereof he or she speaks, attesting either under oath before a notary public, or under penalty of perjury under California law, that the assertions made in the document are true.

(m) With respect to a nonadmitted insurer that is listed as an authorized surplus line insurer as of December 31, 1994, pursuant to Sections 2174.1 to 2174.14, inclusive, of Title 10 of the California Code of Regulations, this section shall not be effective until the subsequent expiration of the listing of that insurer. Nothing in the bill that amended this section during the 1994 portion of the 1993–94 Regular Session is intended to repeal or imply there is not authority to adopt, or to have adopted, or to continue in force, any regulation, or part thereof, with respect to surplus line insurance which is not clearly inconsistent with it.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative

on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 1035

An act to amend Section 655.5 of the Business and Professions Code, relating to clinical laboratory services.

[Approved by Governor September 27, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 655.5 of the Business and Professions Code is amended to read:

655.5. (a) It is unlawful for any person licensed under this division or under any initiative act referred to in this division, or any clinical laboratory, or any health facility when billing for a clinical laboratory of the facility, to charge, bill, or otherwise solicit payment from any patient, client, or customer for any clinical laboratory service not actually rendered by the person or clinical laboratory or under his, her or its direct supervision unless the patient, client, or customer is apprised at the first time of the charge, billing, or solicitation of the name, address, and charges of the clinical laboratory performing the service. The first such written charge, bill, or other solicitation of payment shall separately set forth the name, address, and charges of the clinical laboratory concerned and shall clearly show whether or not the charge is included in the total of the account, bill, or charge. This subdivision shall be satisfied if the required disclosures are made to the third-party payer of the patient, client, or customer. If the patient is responsible for submitting the bill for the charges to the third-party payer, the bill provided to the patient for that purpose shall include the disclosures required by this section. This subdivision shall not apply to a clinical laboratory of a health facility or a health facility when billing for a clinical laboratory of the facility nor to a person licensed under this division or under any initiative act referred to in this division if the standardized billing form used by the facility or person requires a summary entry for all clinical laboratory charges. For purposes of this subdivision, "health facility" has the same meaning as defined in Section 1250 of the Health and Safety Code.

(b) Commencing July 1, 1994, a clinical laboratory shall provide to each of its referring providers, upon request, a schedule of fees for services provided to patients of the referring provider. The schedule shall be provided within two working days after the clinical laboratory receives the request. For the purposes of this subdivision, a "referring provider" means any provider who has referred a

patient to the clinical laboratory in the preceding six-month period. Commencing July 1, 1994, a clinical laboratory that provides a list of laboratory services to a referring provider or to a potential referring provider shall include a schedule of fees for the laboratory services listed.

(c) It is also unlawful for any person licensed under this division or under any initiative act referred to in this division to charge additional charges for any clinical laboratory service that is not actually rendered by the licensee to the patient and itemized in the charge, bill, or other solicitation of payment. This section shall not be construed to prohibit any of the following:

(1) Any itemized charge for any service actually rendered to the patient by the licensee.

(2) Any summary charge for services actually rendered to a patient by a health facility, as defined in Section 1250 of the Health and Safety Code, or by a person licensed under this division or under any initiative act referred to in this division if the standardized billing form used by the facility or person requires a summary entry for all clinical laboratory charges.

(d) This section shall not apply to any person or clinical laboratory who or which contracts directly with a health care service plan licensed pursuant to Section 1349 of the Health and Safety Code, if the services are to be provided to members of the plan on a prepaid basis and without additional charge or liability on account thereof.

(e) A violation of this section is a public offense and is punishable upon a first conviction by imprisonment in the county jail for not more than one year, or by imprisonment in the state prison, or by a fine not exceeding ten thousand dollars ($10,000), or by both that imprisonment and fine. A second or subsequent conviction is punishable by imprisonment in the state prison.

(f) (1) Notwithstanding subdivision (e), a violation of this section by a physician and surgeon for a first offense shall be subject to the exclusive remedy of reprimand by the Medical Board of California if the transaction that is the subject of the violation involves a charge for a clinical laboratory service that is less than the charge would have been if the clinical laboratory providing the service billed a patient, client, or customer directly for the clinical laboratory service, and if that clinical laboratory charge is less than the charge listed in the clinical laboratory's schedule of fees pursuant to subdivision (b).

(2) Nothing in this subdivision shall be construed to permit a physician and surgeon to charge more than he or she was charged for the laboratory service by the clinical laboratory providing the service unless the additional charge is for service actually rendered by the physician and surgeon to the patient.

CHAPTER 1036

An act to amend Sections 1126 and 1127 of the Harbors and Navigation Code, relating to pilots.

[Approved by Governor September 28, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 1126 of the Harbors and Navigation Code is amended to read:

1126. (a) Every person who does not hold a license as a pilot or as an inland pilot issued pursuant to this division, and who pilots any vessel into or out of any harbor or port of the Bay of San Francisco, San Pablo, or Suisun, or who acts as a pilot for ship movements or special operations upon the waters of any of those bays, is guilty of a misdemeanor. In addition to the fines or other penalties provided by law, the court may order that person to pay to the pilot who is entitled to pilot the vessel the amount of pilotage fees collected. No fees shall be paid for pilotage if a state-licensed pilot refuses to join the vessel under paragraph (6) of subdivision (c).

(b) Any person may also be enjoined from engaging in the pilotage prescribed by subdivision (a) by a court of competent jurisdiction.

(c) This section does not apply to any of the following persons:

(1) The master of a vessel who has relieved the pilot to ensure the safe operation of the vessel.

(2) Persons piloting vessels pursuant to the valid regulatory authority of the Port of Sacramento or the Port of Stockton.

(3) Persons piloting vessels when a pilot is not available or is unable to reach the vessel.

(4) Persons piloting vessels sailing under an enrollment, as specified in Section 1127.

(5) Persons piloting vessels pursuant to Section 1179.

However, a vessel may not hire a pilot not licensed by the state until a representative of the vessel notifies the port agent or his or her designee that the vessel will hire a pilot not licensed by the state unless a state-licensed pilot offers to join the vessel immediately. The port agent or his or her designee shall notify the executive director of the board or his or her designee that this paragraph applies.

SEC. 2. Section 1127 of the Harbors and Navigation Code is amended to read:

1127. (a) The Legislature finds and declares that it is the policy of the state to ensure the safety of persons, property, and vessels using the waters of the Bays of San Francisco, San Pablo, and Suisun and

to avoid damage to those waters and surrounding ecosystems as a result of vessel collision or damage by providing competent, efficient, and regulated pilotage for vessels required by this division to secure pilotage services.

(b) Nothing in this section shall supersede, modify, or otherwise alter pilot practices that are not safety related, including, but not limited to, the determination of rates charged for pilot services or employer-employee relationships for individuals, agencies, or organizations involved in providing pilotage services between any port of the Bays of San Francisco, San Pablo, and Suisun and any other port of the United States that is in existence on December 31, 1995, or otherwise abridge the authority of local port or harbor districts relating to pilotage in effect on December 31, 1995.

(c) The board shall continue to regulate pilotage on waters of the state as provided in this division.

(d) Every vessel sailing under a coastwise license or appropriately endorsed registry and engaged in the coasting trade between any port of the Bays of San Francisco, San Pablo, and Suisun and any other port of the United States is exempt from all pilotage charges unless a pilot or inland pilot is actually employed. Every foreign vessel and every vessel bound between a foreign port and any port of the Bays of San Francisco, San Pablo, and Suisun, and every vessel sailing under a register between any port of the Bays of San Francisco, San Pablo, and Suisun and any other port of the United States, shall use a pilot or inland pilot holding a license issued pursuant to this division, except as otherwise provided by law.

(e) Subdivision (d) does not apply to a vessel that is less than 300 gross tons and is manufactured and used for private recreation.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

[Approved by Governor September 28, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 12159 of the Public Contract Code is amended to read:

12159. (a) If a recycled product, as defined in subdivision (a) of Section 12200, costs more than the same product made with virgin material, the state agency shall, if feasible, purchase fewer of those more costly products or apply the cost savings, if any, gained from buying other recycled products towards the purchase of those more costly products to meet the solid waste diversion goals of Section 41780.

(b) All state agencies shall, if feasible, establish purchasing practices which ensure the purchase of materials, goods, and supplies that may be recycled or reused. Each state agency shall initiate activities for the collection, separation, and recycling of recyclable materials and may appoint a recycling coordinator to assist in implementing this section.

SEC. 2. Section 40000 of the Public Resources Code is amended to read:

40000. The Legislature hereby finds and declares all of the following:

(a) In 1988, Californians disposed of over 38 million tons of solid waste, an amount which is expected to grow if existing solid waste policies are continued. This amounts to more than 1,500 pounds of waste per person living in the state, more than any other state in the country and over twice the per-capita rate of most other industrialized counties.

(b) Over 90 percent of California's solid waste currently is disposed of in landfills, some of which pose a threat to groundwater, air quality, and public health.

(c) While California will exhaust most of its remaining landfill space by the mid-1990's, there presently is no coherent state policy to ensure that the state's solid waste is managed in an effective and environmentally sound manner for the remainder of the 20th century and beyond.

(d) The amount of solid waste generated in the state coupled with diminishing landfill space and potential adverse environmental impacts from landfilling constitutes an urgent need for state and local agencies to enact and implement an aggressive new integrated waste management program.

(e) The reduction, recycling, or reuse of solid waste generated in the state will, in addition to preserving landfill capacity in California, serve to conserve water, energy, and other natural resources within this state, and to protect the state's environment.

SEC. 3. Section 40063 is added to the Public Resources Code, to read:

40063. At the request of a county with a population of less than 250,000, the board and the state water board may meet with the county to prioritize, through development and joint adoption of a five-year plan, state environmental concerns with regard to solid waste management in relation to the fiscal and staffing constraints on the county.

SEC. 4. Section 40507 of the Public Resources Code is repealed.

SEC. 5. Section 40507 is added to the Public Resources Code, to read:

40507. (1) The local agency will use feasible methods to properly reduce, collect, recycle, treat, and dispose of household hazardous waste generated within its jurisdiction.

(2) The local agency will devote reasonable expenditures to the safe reduction, collection, recycling, treatment, and disposal of household hazardous waste, relative to the other expenditures required by this division, and relative to the expenditures for household hazardous waste programs which were awarded grants of funds pursuant to Section 46401 as it read on January 1, 1993.

(3) The local agency will make all reasonable efforts to inform the public of, and to encourage public participation in, the household hazardous waste program.

(4) Regardless of the number of household hazardous waste collection events held each year by a local agency, or the actual number of households served, the collection program is available for use by all households within the jurisdiction of the local agency, and provides a safe alternative for all residents within the jurisdiction of the local agency to properly and safely dispose of household hazardous waste.

(c) (1) In determining whether a local agency meets the conditions for approval of a household hazardous waste element set forth in subdivision (b), the board shall consider the geographic size and population of the city or county and the quantity of household hazardous waste generated within the jurisdiction of the city or county.

(2) The board may provide an exemption from the requirements of subdivision (b) if a city, county, or a regional agency demonstrates, and the board concurs, that compliance with those requirements is not feasible due to the small geographic size of the city, county, or regional agency and the small quantity of solid waste generated within the city, county, or regional agency. (b) The city, county, or regional agency submits a plan of correction which demonstrates how the city, county, or regional agency will meet the requirements of Section 41780 before the time extension expires, which includes the source reduction, recycling, or

composting steps the city, county, or regional agency will implement, and which states how these programs will be funded.

(c) The city, county, or regional agency demonstrates that it is achieving the maximum feasible amount of source reduction, recycling, and composting of solid waste within its jurisdiction.

SEC. 10. Section 41821 of the Public Resources Code is repealed.

SEC. 11. Section 41821 is added to the Public Resources Code, to read:

SEC. 12. Section 41821.1 is added to the Public Resources Code, to read:

41821.1. Each year following the board's approval of a county or regional agency's siting element and summary plan, the county or regional agency shall submit a report to the board summarizing the adequacy of the siting element and summary plan. The report on the siting element shall discuss any changes in disposal capacity, disposal facilities, or any other relevant issues. The annual report shall be due on or before August 1 of the year following board approval of a county or regional agency's siting element and summary plan, and on or before August 1 in each subsequent year. Any revision made to an element or plan pursuant to this section shall be submitted to the board for review and approval or disapproval pursuant to the schedule established under this chapter.

SEC. 14. Section 42000 of the Public Resources Code is amended to read:

42000. The Legislature hereby finds and declares as follows:

(a) This division requires cities and counties to divert 25 percent of all solid waste from landfills and transformation facilities by 1995 and 50 percent by 2000. As of 1990, the overall diversion rate in the state was 12 percent.

(b) California's recycling and composting efforts need to increase greatly if local jurisdictions are to meet the 25 percent and the 50 percent diversion requirements.

(c) Market development is the key to increased, cost-effective recycling. Market development includes activities that strengthen demand by manufacturers and end-use consumers for recyclable materials collected by municipalities, nonprofit organizations, and private entities.

(d) Developing markets for recyclable materials creates opportunities that will reindustrialize California. The board estimates that the development of markets for recyclable materials may create over 20,000 jobs in California's manufacturing sector, an additional 25,000 jobs in the sorting and processing fields, and an unestimated number of jobs in other fields that may develop through full implementation of this division.

(e) The board is authorized to conduct individual market development activities, but is not presently required to implement a comprehensive plan that addresses the full range of market development needs.

SEC. 15. Section 42008 of the Public Resources Code is repealed.

SEC. 16. Section 42244 of the Public Resources Code is amended to read:

42244. The board shall evaluate compost, cocompost, and chemically fixed sewage sludge for use as solid waste landfill cover materials or for use as extenders for currently used cover material. Compost, cocompost, and chemically fixed sewage sludge products, when used as a substitute for or mixed with currently approved cover

material, shall possess all the physical characteristics required in the definition of a cover material.

(b) The State Department of Education, in cooperation with the board, shall develop and implement a teacher training and implementation plan, to guide the implementation of the integrated

waste management educational program, for the education of students, faculty, and administrators on the importance of source reduction, recycling, composting, and integrated waste management in the schools. The plan shall project the phased implementation of elementary, middle, and high school programs. The board shall use the plan and consult with the State Department of Education in developing its annual public information and education budget, and shall include sufficient funds for successful implementation.

(b) The board shall consult with the state water board, the State Air Resources Board, and the California Air Pollution Control Officers Association to ensure that the regulations do not conflict with any regulations adopted by the state water board and the State Air Resources Board or air pollution control districts and air quality management districts.

(c) The regulations adopted by the board pursuant to subdivision (a) shall establish monitoring and control standards, based on the potential of the waste to generate landfill gas, as determined by the board, and shall require owners and operators of disposal sites or disposal facilities to report monitoring data and to perform, or cause to be performed, site inventories and evaluations of disposal sites or disposal facilities for the subsurface migration of landfill gas.

(d) If an owner or operator of a disposal site or disposal facility is in compliance with requirements of the air pollution control district or the air quality management district within whose jurisdiction the disposal site or disposal facility is located, the owner or operator shall be deemed to be in compliance with this section and with any regulations adopted by the board pursuant to this section. or operator of the solid waste landfill has failed to implement the required closure and postclosure activities or corrective action activities.

(d) The owner or operator may request disbursement for expenditures to conduct closure, postclosure maintenance, or corrective actions from the financial assurance mechanism established for that activity. Requests for disbursement shall be granted by the board only if sufficient funds are remaining in the financial assurance mechanism to cover the remaining approved total costs of closure, postclosure maintenance, or corrective actions, as appropriate.

SEC. 35. Section 44002 of the Public Resources Code is amended to read:

(B) The owner or operator of the facility is actively engaging in good faith efforts, as determined by the enforcement agency, to obtain the new or modified solid waste facilities permit in an expeditious manner.

(C) An environmental impact report has been prepared and certified for the solid waste facility pursuant to Division 13 (commencing with Section 21000).

(D) During the time that the facility is operating without a solid waste facilities permit, the facility is otherwise operating in a manner that is in compliance with this division and with any conditions required for that compliance imposed by the enforcement agency.

(2) A stay granted by the enforcement agency pursuant to paragraph (1) shall be for not more than one year and may be extended by the enforcement agency for a period of time not to exceed one additional year, provided that the operator or proposed operator of the solid waste facility makes a continuing food faith effort, as determined by the enforcement agency, to obtain the solid

waste facilities permit and remains in compliance with paragraph (1).

(3) This subdivision shall become inoperative on January 1, 1999.

SEC. 40. Section 50000 of the Public Resources Code is amended to read:

50000. (a) Until an integrated waste management plan has been approved by the California Integrated Waste Management Board pursuant to Division 30 (commencing with Section 40000), no person shall establish a new solid waste facility or transformation facility or expand an existing solid waste facility or transformation facility which will result in a significant increase in the amount of solid waste handled at the facility without a certification by the enforcement agency that one of the following has occurred:

(1) The facility is identified and described in, or found to conform with, a county solid waste management plan which was in compliance with statutes and regulations in existence on December 31, 1989, adopted pursuant to former Title 7.3 (commencing with Section 66700) of the Government Code as that former statute read on December 31, 1989. The conformance finding with that plan shall be in accordance with the procedure for a finding of conformance which was set forth in the plan prior to January 1, 1990.

(2) The facility is identified and described in the most recent county solid waste management plan which has been approved by the county and by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county, except in those counties which have only two cities, in which case, the plan has been approved by the county and by the city which contains a majority of the population of the incorporated area of the county.

(3) Pursuant to the procedures in subdivision (b), the facility has been approved by the county and by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county, except in those counties which have only two cities, in which case, the facility has been approved by the county and by the city which contains a majority of the population of the incorporated area of the county.

(4) The facility is a material recovery facility and the site identification and description of the facility has been submitted to the task force created pursuant to Section 40950 for review and

comment, pursuant to the procedures set forth in subdivision (c). For purposes of this paragraph, "material recovery facility" means a transfer station which is designed to, and, as a condition of its permit, shall, recover for reuse or recycling at least 15 percent of the total volume of material received by the facility.

(5) The facility is identified and described in the countywide siting element which has been approved pursuant to Section 41721.

(b) (1) The review and approval of a solid waste facility or facility transformation facility which has not been identified or described in a county solid waste management plan shall be initiated by submittal by the person or agency proposing the facility of a site identification and description to the county board of supervisors.

(2) The county shall submit the site identification and description to each city within the county within 20 days from the date that the site identification and description is submitted to the county board of supervisors. The county and each city shall approve or disapprove by resolution the site identification and description within 90 days from the date that the site identification and description is initially submitted to the county or city. Each city shall notify the county board of supervisors of its decision within that 90-day period. If the county or a city fails to approve or disapprove the site identification and description within 90 days, the city or county shall be deemed to have approved the site identification and description as submitted.

(3) If a city or county disapproves the site identification and description, the city or county shall mail notice of its decision by first-class mail to the person or agency requesting the approval within 10 days of the disapproval by the city or county, stating its reasons for the disapproval.

(4) No county or city shall disapprove a proposed site identification and description for a new solid waste facility or transformation facility or an expanded solid waste facility or transformation facility which will result in a significant increase in the amount of solid waste handled at the facility unless it determines, based upon substantial evidence in the record, that there will be one or more significant adverse impacts within its boundaries from the proposed project.

(5) Within 45 days from the date of a decision by a city or county to disapprove a site identification and description, or a decision by the board not to concur in the issuance of a permit pursuant to Section 44009, any person may file with the superior court a writ of mandate for review of the decision. The evidence before the court shall consist of the record before the city or county which disapproved the site identification and description or the record before the board in its determination not to concur in issuance of the permit. Section 1094.5 of the Code of Civil Procedure shall govern the proceedings conducted pursuant to this subdivision.

(c) To initiate the review and comment by the task force required by paragraph (4) of subdivision (a) and subdivision (d), the person

or agency proposing the facility shall submit the site identification and description of the facility to the task force. Within 90 days after the site identification and description is submitted to the task force, the task force shall meet and comment on the facility in writing. Those comments shall include, but are not limited to, the relationship between the proposed new or expanded material recovery facility and the requirements of Section 41780. The task force shall transmit those comments to the applicant, to the county, and to all of the cities in the county.

(d) On or before February 1, 1991, each county, by vote of the board of supervisors and the majority of the cities in the county containing a majority of the population of the incorporated area of the county, except in those counties which have only two cities, in which case the vote is subject to approval of the city which contains a majority of the population of the incorporated area of the county, shall adopt two resolutions after holding a public hearing. One resolution shall address solid waste transfer facilities which are designed to, and, as a condition of their permits, shall, recover for reuse or recycling less than 15 percent of the total volume of material received by the facility and which serve more than one jurisdiction. The second resolution shall address solid waste transfer facilities which are designed to, and, as a condition of their permits, shall, recover for reuse or recycling less than 15 percent of the total volume of material received by the facility and which serve only one jurisdiction. These resolutions shall specify whether the facilities shall be subject to the review and approval process described in subdivision (b) or the review and comment process described in subdivision (c). If the resolutions required by this subdivision are not adopted on or before February 1, 1991, those facilities shall be subject to the review process described in subdivision (c).

For purposes of this subdivision, a facility serves only one jurisdiction if it serves only one city, only the unincorporated area of one county, or only one city and county.

SEC. 41. Section 50001 of the Public Resources Code is amended to read:

50001. (a) Except as provided by subdivision (b), after a countywide or regional agency integrated waste management plan has been approved by the California Integrated Waste Management Board pursuant to Division 30 (commencing with Section 40000), no person shall establish or expand a solid waste facility, as defined in Section 40194, in the county unless the solid waste facility meets one of the following criteria:

(1) The solid waste facility is a disposal facility or a transformation facility, the location of which is identified in the countywide siting element or amendment thereto, which has been approved pursuant to Section 41721.

(2) The solid waste facility is a facility which is designed to, and which as a condition of its permit, will recover for reuse or recycling

at least 5 percent of the total volume of material received by the facility, and which is identified in the nondisposal facility element or amendment thereto, which has been approved pursuant to Section 41800 or 41801.5.

(b) Solid waste facilities other than those specified in paragraphs (1) and (2) of subdivision (a) shall not be required to comply with the requirements of this section.

(c) The person or agency proposing to establish a solid waste facility shall prepare and submit a site identification and description of the proposed facility to the task force established pursuant to Section 40950. Within 90 days after the site identification and description is submitted to the task force, the task force shall meet and comment on the proposed solid waste facility in writing. These comments shall include, but are not limited to, the relationship between the proposed solid waste facility and the implementation schedule requirements of Section 41780 and the regional impact of the facility. The task force shall transmit these comments to the person or public agency proposing establishment of the solid waste facility, to the county, and to all cities within the county. The comments shall become part of the official record of the proposed solid waste facility.

(d) The review and comment by the local task force required by subdivision (c) for amendment to an element may be satisfied by the review required by subdivision (a) of Section 41734 for an amendment to an element.

CHAPTER 1040

An act to add Chapter 14 (commencing with Section 5956) to Division 6 of Title 1 of the Government Code, relating to governmental infrastructure financing.

[Approved by Governor September 28, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 14 (commencing with Section 5956) is added to Division 6 of Title 1 of the Government Code, to read:

CHAPTER 14. INFRASTRUCTURE FINANCING

5956. Local governmental agencies have experienced a significant decrease in available tax revenues to fund necessary infrastructure improvements. If local governmental agencies are going to maintain the quality of life that this infrastructure provides, they must find new funding sources. One source of new money is private sector investment capital utilized to design, construct, maintain, rebuild, repair, and operate infrastructure facilities. Unless private sector investment capital becomes available to study, plan, design, construct, develop, finance, maintain, rebuild, improve, repair, or operate, or any combination thereof, fee-producing infrastructure facilities, some local governmental agencies will be unable to replace deteriorating infrastructure. Further, some local governmental agencies will be unable to expand and build new infrastructure facilities to serve the increasing population.

5956.1. It is the intent of the Legislature that local governmental agencies have the authority and flexibility to utilize private investment capital to study, plan, design, construct, develop, finance, maintain, rebuild, improve, repair, or operate, or any combination thereof, fee-producing infrastructure facilities. Without the ability to utilize private sector investment capital to study, plan, design, construct, develop, finance, maintain, rebuild, improve, repair, or operate, or any combination thereof, fee-producing infrastructure facilities, the Legislature finds that some local governmental agencies will not be able to adequately, competently, or satisfactorily retrofit, reconstruct, repair, or replace existing infrastructure and will not be able to adequately, competently, or satisfactorily design and construct new infrastructure.

5956.2. It is the intent of the Legislature that this chapter be construed as creating a new and independent authority for local governmental agencies to utilize private sector investment capital to study, plan, design, construct, develop, finance, maintain, rebuild, improve, repair, or operate, or any combination thereof, fee-producing infrastructure facilities. To that end, this authority is intended to supplement and be independent of any existing authority and does not limit, replace, or detract from existing authority. This chapter may be used by local governmental entities when they deem it appropriate in the exercise of their discretion. It is the intent of the Legislature that this act create no new governmental entities.

5956.3. (a) For purposes of this chapter, "governmental agency" includes a city, county, city and county, including a chartered city or county, school district, community college district, public district, county board of education, joint powers authority, transportation commission or authority, or any other public or municipal corporation.

(b) For purposes of this chapter, "private entity" includes a person, business entity, combination of persons and business entities, or a combination of business entities.

5956.4. A governmental agency may solicit proposals and enter into agreements with private entities for the design, construction, or reconstruction by, and may lease to, private entities for the following types of fee-producing infrastructure projects:

(a) Irrigation.
(b) Drainage.
(c) Energy or power production.
(d) Water supply, treatment, and distribution.
(e) Flood control.
(f) Inland waterways.
(g) Harbors.
(h) Municipal improvements.
(i) Commuter and light rail.
(j) Highways or bridges.
(k) Tunnels.
(*l*) Airports and runways.
(m) Purification of water.
(n) Sewage treatment, disposal, and water recycling.
(o) Refuse disposal.
(p) Structures or buildings, except structures or buildings that are to be utilized primarily for sporting or entertainment events.

5956.5. Notwithstanding Chapter 10 (commencing with Section 4525) of Division 5, or Part 2 (commencing with Section 10100) or Part 3 (commencing with Section 20100) of Division 2 of the Public Contract Code, the governmental agency soliciting proposals and entering into agreements with private entities for the studying, planning, design, developing, financing, construction, maintenance, rebuilding, improvement, repair, or operation, or any combination thereof, by private entities for fee-producing infrastructure projects shall ensure that the contractor is selected pursuant to a competitive negotiation process. Projects may be proposed by the private entity and selected by the governmental agency at the discretion of the governmental agency. Projects may be proposed and selected individually or as part of a related or larger project. The competitive negotiation process shall utilize, as the primary selection criteria, the demonstrated competence and qualifications for the studying, planning, design, developing, financing, construction, maintenance, rebuilding, improvement, repair, or operation, or any combination thereof, of the facility. The selection criteria shall also ensure that the facility be operated at fair and reasonable prices to the user of the infrastructure facility services. The competitive negotiation process shall not require competitive bidding. The competitive negotiation process shall specifically prohibit practices that may result in unlawful activity including, but not limited to, rebates, kickbacks, or other unlawful consideration, and shall specifically prohibit

governmental agency employees from participating in the selection process when those employees have a relationship with a person or business entity seeking a contract under this section that would subject those employees to the prohibition of Section 87100. Other than these criteria and applicable provisions related to providing security for the construction and completion of the facility, the governmental agency soliciting proposals is not subject to any other provisions of the Public Contract Code or this code that relates to public procurements.

5956.6. (a) For purposes of facilitating projects, the agreements specified in Section 5956.4 may include provisions for the lease of rights-of-way in, and airspace over, property owned by a governmental agency, for the granting of necessary easements, and for the issuance of permits or other authorizations to enable the private entity to construct infrastructure facilities supplemental to existing government-owned facilities. Infrastructure constructed by a private entity pursuant to this chapter shall, at all times, be owned by a governmental agency, unless the governmental agency, in its discretion, elects to provide for ownership of the facility by the private entity during the term of the agreement. The agreement shall provide for the lease of those facilities to, or ownership by, the private entity for up to 35 years. In consideration therefor, the agreement shall provide for complete reversion of the privately constructed facility to the governmental agency at the expiration of the lease at no charge to the governmental agency. Subsequent to the expiration of the lease or ownership period, the governmental agency may continue to charge fees for use of the infrastructure facility. If, after the expiration of the lease or ownership period, the governmental agency continues to lease airspace rights to the private entity, it shall do so at fair market value.

(b) The agreement between the governmental agency and the private entity shall include, but need not be limited to, provisions to ensure the following:

(1) Compliance with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code). Neither the act of selecting a proposed project or a private entity, nor the execution of an agreement with a private entity, shall require prior compliance with the act. However, appropriate compliance with the act shall thereafter occur before project development commences.

(2) Security for the construction of the facility to ensure its completion, and contractual provisions that are necessary to protect the revenue streams of the project.

(3) Adequate financial resources of the private entity to design, build, and operate the facility, after the date of the agreement.

(4) Authority for the governmental agency to impose user fees for use of the facility in an amount sufficient to protect the revenue streams necessary for projects or facilities undertaken pursuant to

this chapter. User fee revenues shall be dedicated exclusively to payment of the private entity's direct and indirect capital outlay costs for the project, direct and indirect costs associated with operations, direct and indirect user fee collection costs, direct and indirect costs of administration of the facility, reimbursement for the direct and indirect costs of maintenance, and a negotiated reasonable return on investment to the private entity.

(5) As a precondition to the imposition or increase of a user fee, the governmental agency shall conduct at least one public hearing at which public testimony will be received regarding a proposed user fee revenue or increase in user fee revenues. The public hearing shall precede the action by the governmental agency to actually impose a user fee or to increase an existing user fee. The governmental agency shall consider the public testimony prior to imposing a new or increased user fee. The governmental agency shall provide the following notices and utilize the following procedures:

(A) Notice of the date, time, and place of the meeting, including a general explanation of the matter to be considered, shall be mailed at least 14 days prior to the meeting to any interested party who files a written request with the governmental agency for mailed notice of the meeting on new or increased fees or service charges. Any written request for mailed notices shall be valid for one year from the date on which it is filed unless a renewal request is filed prior to the expiration of the one-year period for which the written request was filed. The legislative body may establish a reasonable annual charge for sending notices based on the estimated cost of providing the service.

(B) At least 10 days prior to the meeting, the governmental agency shall make available to the public data that supports the amount of the fee or the increase in the fee.

(C) (i) At least 10 days prior to the meeting, the governmental agency shall publish a notice in a newspaper of general circulation in that agency's jurisdiction stating the date, time, and place of the meeting, including a general explanation of the matter to be considered.

(ii) Any costs incurred by the governmental agency in conducting the meeting or meetings required by this section may be recovered from fees charged for the services that are the subject of the fee.

(iii) For transportation projects specifically authorized by this chapter, at least 10 days prior to the meeting, the governmental agency shall publish for four consecutive times, a notice in the newspaper of general circulation in the affected area stating in no smaller that 10-point type a notice specifying the subject of the hearing, the date, time, and place of the meeting, and in at least 8-point type a general explanation of the matter to be considered.

(D) No local agency shall levy a new fee or service charge or increase an existing fee or service charge to an amount that exceeds the estimated amount required to provide the service for which the

fee or service charge is levied and a reasonable rate of return on investment, pursuant to paragraph (4). Any action by a local agency to levy a new fee or service charge or to approve an increase in an existing fee or service charge pursuant to this chapter shall be taken only by ordinance or resolution. The legislative body of a local agency shall not delegate the authority to adopt a new fee or service charge, or to increase a fee or service charge.

(6) Require that if the legislative body of the governmental agency determines that fees or service charges create revenues in excess of the actual cost for which the user fee revenues are dedicated and a reasonable rate of return on investment, pursuant to paragraph (4), those revenues shall either be applied to any indebtedness incurred by the private entity with respect to the project, be paid into a reserve account in order to offset future operation costs, be paid into the appropriate government account, be used to reduce the user fee or service charge creating the excess, or a combination of these sources.

(7) Require the private entity to maintain the facility in good operating condition at all times, including the time the facility reverts to the governmental agency.

(8) Preparation by the private entity of an annual audited report accounting for the income received and expenses to operate the facility. The private entity shall make that report available to any member of the public for a cost not to exceed the cost of reproduction of the report.

(9) Provision for a buyout of the private entity by the governmental entity in the event of termination or default before the end of the lease term.

(10) Provision for appropriate indemnity promises between the governmental agency and the private entity.

(11) Provision requiring the private entity to maintain insurance with those coverages and in those amounts that the governmental agency deems appropriate.

(12) In the event of a dispute between the governmental agency and the private entity, both parties shall be entitled to all available legal or equitable remedies.

5956.7. (a) The governmental agency may exercise any power possessed by it with respect to the development and construction of infrastructure projects pursuant to this chapter. Agreements for the maintenance and police services entered into pursuant to this chapter shall provide for full reimbursement for services rendered by the governmental agency in accordance with the terms and conditions specified in the agreement. The governmental agency may provide services for which it is reimbursed with respect to preliminary planning, environmental certification, and preliminary design of the infrastructure projects. The governmental agency may consult with legal, financial, and other consultants in the negotiation and development of the agreement. To the extent existing public

utility infrastructure is necessarily required to be modified, relocated, or removed in order for an infrastructure project authorized by this chapter to be constructed, the cost of modification, relocation, or removal of the existing infrastructure shall be borne by the private entity and included as a recoverable capital cost of the project. This cost shall not be construed to include costs of increasing the capacity, or upgrading, or improving the existing public utility infrastructure.

(b) The private entity's responsibility to modify, relocate, or remove existing public utility infrastructure shall not alter any agreements that may be in place between the governmental agency and any public utility regarding projects funded by the governmental agency.

(c) In the event of a dispute regarding the reimbursement required, a private entity may request an audit of the public utility's costs by a mutually acceptable certified public accountant. The result of the audit shall determine the actual costs. If the audit indicates that the public utility's actual costs were less than 95 percent of the cost claimed, the cost of the audit shall be borne by the public utility. If the audit indicates that the public utility's actual costs were 95 percent or more of the cost claimed, the cost of the audit shall be borne by the private entity.

5956.8. The plans and specifications for each project constructed pursuant to this chapter shall comply with all applicable governmental design standards for that particular infrastructure project. The private entity designing, constructing, operating, and maintaining infrastructure facilities pursuant to this chapter shall utilize private sector design and construction firms to design and construct the infrastructure facilities. However, a facility subject to this chapter and leased to a private entity shall, during the term of the lease, be deemed to be public property for purposes of identification, maintenance, enforcement of laws and for purposes of Division 3.6 (commencing with Section 810). All public works constructed pursuant to this chapter shall comply with Chapter 1 (commencing with Section 1720) of Part 7 of Division 2 of the Labor Code.

5956.9. In order to use the authority conferred by this chapter to the maximum extent, a governmental agency may use private infrastructure financing pursuant to this chapter as the exclusive revenue source or as a supplemental revenue source with federal or local funds. The governmental agency involved may be a local governmental agency or a combination of local governmental agencies. The governmental agency may work cooperatively with the California Infrastructure and Economic Development Board with regard to the design, construction, operation, and financing of privately financed facilities, but the projects will not be subject to the review or approval of that board.

5956.10. Notwithstanding any provision of this chapter, neither the state or any state agency may directly or indirectly use the authority in this chapter, nor may any governmental agency as defined in Section 5956.3, use the authority in this chapter, to design, construct, finance, or operate a state project. For purposes of this section, a state project includes any of the following:

(a) Toll roads on state highways.

(b) State water projects.

(c) State park and recreation projects.

(d) State financed projects.

These limitations shall not prohibit the state, any state agency, or any governmental agency as defined in Section 5956.3, from utilizing authorizations contained in other provisions of law.

[Approved by Governor September 28, 1996. Filed with Secretary of State September 29, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 22056 of the Financial Code is amended to read:

SEC. 2. Section 11126 of the Government Code is amended to read:

11126. (a) (1) Nothing in this article shall be construed to prevent a state body from holding closed sessions during a regular or special meeting to consider the appointment, employment, or dismissal of a public employee or to hear complaints or charges brought against that employee by another person or employee unless the employee requests a public hearing.

(2) As a condition to holding a closed session on the complaints or charges to consider disciplinary action or to consider dismissal, the employee shall be given written notice of his or her right to have a public hearing, rather than a closed session, and that notice shall be delivered to the employee personally or by mail at least 24 hours before the time for holding a regular or special meeting. If notice is

not given, any disciplinary or other action taken against any employee at the closed session shall be null and void.

(4) Following the public hearing or closed session, the body may deliberate on the decision to be reached in a closed session.

(b) For the purposes of this section, "employee" shall not include any person who is elected to, or appointed to a public office by, any state body. However, officers of the California State University who receive compensation for their services, other than per diem and ordinary and necessary expenses, shall, when engaged in that capacity, be considered employees. (2) Prevent an advisory body of a state body which administers the licensing of persons engaged in businesses or professions from conducting a closed session to discuss matters which the advisory body has found would constitute an unwarranted invasion of the privacy of an individual licensee or applicant if discussed in an open meeting, provided the advisory body does not include a quorum of the members of the state body it advises. Those matters may include review of an applicant's qualifications for licensure and an inquiry specifically related to the state body's enforcement program concerning an individual licensee or applicant where the inquiry occurs prior to the filing of a civil, criminal, or administrative disciplinary action against the licensee or applicant by the state body.

(3) Prohibit a state body from holding a closed session to deliberate on a decision to be reached in a proceeding required to be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 or similar provisions of law.

(4) Prevent any state body from holding a closed session to consider matters affecting the national security.

(5) Grant a right to enter any correctional institution or the grounds of a correctional institution where that right is not otherwise granted by law, nor shall anything in this article be construed to prevent a state body from holding a closed session when considering and acting upon the determination of a term, parole, or release of any individual or other disposition of an individual case, or if public disclosure of the subjects under discussion or consideration is expressly prohibited by statute.

For purposes of consideration of shareholder voting on corporate stocks held by the state body, closed sessions for the purposes of voting may be held only with respect to election of corporate directors, election of independent auditors, and other financial issues that could have a material effect on the net income of the corporation. For the purpose of real property investment decisions that may be considered in a closed session pursuant to this paragraph, a state body shall also be exempt from the provisions of paragraph 8 relating to the identification of real properties prior to the closed session.

(17) Prevent a state body, or boards, commissions, administrative officers, or other representatives that may properly be designated by law or by a state body, from holding closed sessions with its representatives in discharging its responsibilities under Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 as the sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits. A sum of not more than three hundred thousand dollars ($300,000) total, or one hundred thousand dollars ($100,000) annually, shall be expended for the purposes of implementing the pilot program. This subdivision shall be operative only if adequate funds for the pilot program are made available.

(f) This section shall remain in effect only until January 1, 2001, and as of that date is repealed, unless a later enacted statute which is chaptered prior to that date extends or deletes that date.

The board shall notify the person who furnished the information and any party who has requested the information pursuant to Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code of that determination by certified mail. If the board has determined that the information is not protected as a trade secret, this final notice shall also specify a date, not sooner than 15 days from the date of the date of mailing of the final notice, when the information shall be available to the public.

(d) Except as provided in subdivision (c), the board or an enforcement agency may release information submitted and designated as a trade secret only to the following public agencies under the following conditions:

(A) The owner or operator has prepared an initial estimate of closure and postclosure maintenance costs. The board shall adopt regulations that provide for an increase in the initial cost estimate to

(2) Submit to the regional water board, the local enforcement agency, and the board a plan for the closure of the solid waste landfill and a plan for the postclosure maintenance of the solid waste landfill.

(b) Notwithstanding subparagraph (C) of paragraph (1) of subdivision (a) or any other provision of law, if the owner or operator is a county with a population of 200,000 or less, as determined by the 1990 decennial census, the county shall not be required to make annual deposits in excess of the amount required by the federal act or any other applicable federal law, or by any board-approved formula which meets the requirements of the federal act.

(c) If not in conflict with federal law or regulations, a county or city may, with regard to a solid waste landfill owned or operated by the county or city, base its estimate of closure and postclosure maintenance costs on the costs of employing county or city employees or persons under contract with the county or city in performing closure and postclosure maintenance. However, even if, to meet federal requirements, the costs estimate is based on the most expensive costs of closure and postclosure maintenance performed by a third party, the county or city may, to effect cost savings, employ county or city employees or employ persons under contract to actually perform closure operations or postclosure maintenance operations.

(b) On and after the effective date of the federal regulations set forth in Subpart G (commencing with Section 258.70) of Part 258 of Title 40 of the Code of Federal Regulations, the evidence of financial ability required of an owner or operator of a solid waste landfill shall be adjusted to equal the estimated costs of closure and 30 years of postclosure maintenance in the approved plans. Revisions in the plans prior to closure shall be accompanied by corresponding revisions in cost estimates and financial assurances.

(4) The solid waste landfill receives less than an average of 12 inches of rainfall per year.

(5) The solid waste landfill is closed in compliance with all state closure testing requirements at the time of closure.

(b) The exemption in subdivision (a) from the requirement to submit a postclosure maintenance plan shall become inoperative on the effective date of the federal regulations set forth in Subpart F (commencing with Section 258.60) of Part 258 of Title 40 of the Code of Federal Regulations, and the exemption in subdivision (a) from the requirement to provide a fund for postclosure maintenance shall

become inoperative on the effective date of the federal regulations set forth in Subpart G (commencing with Section 258.70) of Part 258 of Title 40 of the Code of Federal Regulations.

SEC. 17. Section 44009 of the Public Resources Code is amended to read:

44009. (a) (1) The board shall, in writing, concur or object to the issuance, modification, or revision of any solid waste facilities permit within 60 days from the date of the board's receipt of any proposed solid waste facilities permit submitted under Section 44007 after consideration of the issues in this section.

(3) If the board fails to concur or object in writing within the 60-day period specified in paragraph (1), the board shall be deemed to have concurred in the issuance of the permit as submitted to it.

(b) Notwithstanding subdivision (a), the board is not required to concur in, or object to, and shall not be deemed to have concurred in, the issuance of a solid waste facilities permit for a disposal facility if the owner or operator is not in compliance with, as determined by the regional water board, an enforcement order issued pursuant to Chapter 5 (commencing with Section 13300) of Division 7 of the Water Code, or if all of the following conditions exist:

(1) Waste discharge requirements for the disposal facility issued by the applicable regional water board are pending review in a petition before the state water board.

(2) The petition for review of the waste discharge requirements includes a request for a stay of the waste discharge requirements.

(3) The state water board has not taken action on the stay request portion of the pending petition for review of waste discharge requirements.

(c) In objecting to the issuance, modification, or revision of any solid waste facilities permit pursuant to this section, the board shall, based on substantial evidence in the record as to the matter before the board, state its reasons for objecting. The board shall not object to the issuance, modification, or revision of any solid waste facilities permit unless the board finds that the permit is not consistent with the state minimum standards adopted pursuant to Section 43020, or is not consistent with Section 43040, 43600, 44007, 44010, 44017, 44150, or 44152 or Division 31 (commencing with Section 50000).

44106. (a) The enforcement agency shall develop a compliance schedule for a solid waste facility included in the inventory prepared pursuant to Section 44104. The compliance schedule shall ensure that diligent progress will be made to bring the solid waste facility into compliance.

(b) Except as provided in subdivision (d), if the solid waste facility is not in compliance with the schedule established by the enforcement agency, the enforcement agency may revoke the operating permit of the solid waste facility until the violations of state minimum standards are remedied. If a closed or abandoned disposal site is not in compliance within the one-year period, the unremedied condition is prima facie evidence of negligence; and, in any action for damages against the owner of the property for injury caused by the unremedied condition, the burden of proving that the injury was not caused by the unremedied condition shall be on the owner of the property.

(c) The enforcement agency may recover any costs incurred pursuant to this section by charging the fee authorized by Section 43213.

(d) The enforcement agency shall refer violations of a waste discharge requirement adopted under Section 13263 of the Water Code to the appropriate regional water board.

SEC. 19. Section 48670 of the Public Resources Code is amended to read:

The reports shall be submitted on or before the 45th day following each quarter, in the form and manner which the board may prescribe, and shall include copies of manifests or modified manifest receipts from used oil haulers. The board may delegate to the executive officer of the board the authority to accept reports submitted after the 45th day and to reduce, eliminate, or approve the amount of incentive fee to be paid due to the late submission of the report. The board may provide, by regulation, for a longer reporting period for industrial generators that generate less than 1,000 gallons of used oil annually.

Motor carriers of property that so elect shall comply with all requirements of Section 11501 of Title 49 of the United States Codes (P.L. 103-305 Section 601(c)) and with federal regulations promulgated pursuant thereto. Any carrier that does not pay a uniform business license tax fee shall not operate as a for-hire motor carrier.

(3) A seasonal permit may be issued to a motor carrier of property upon payment of fees indicated as safety fee and cargo theft interdiction fee, and one twelfth of the fee indicated as uniform business license tax fee, rounded to the next dollar, for each month the permit is valid. The original seasonal permit shall be valid for a period of not less than six months, and may be renewed upon payment of a five dollar ($5) fee, and one-twelfth of the fee indicated as a uniform business license tax fee for each additional month of operation.

Notwithstanding the above fee schedule, motor carriers of property with 10 or fewer trucks shall not pay fees higher than they would have paid under the fee structure in place as of January 1, 1996. Notwithstanding Section 34606 of the Vehicle Code, fees for these carriers shall not be subject to increase by the Department of Motor Vehicles.

(b) The Department of Motor Vehicles shall transfer funds deposited in the Motor Carriers Permit Fund as follows:

(1) Funds derived from Cargo Theft Interdiction Program Fees shall be transferred to the Motor Carriers Safety Improvement Fund.

(2) Funds derived from Uniform Business License Tax Fees shall be transferred to the General Fund.

(3) Funds derived from Safety Fees shall remain in the Motor Carriers Permit Fund and shall be available for appropriation by the Legislature to cover costs incurred by the Department of Motor Vehicles and the Department of the California Highway Patrol in regulating motor carriers of property pursuant to Division 14.85 (commencing with Section 34600) of the Vehicle Code.

(c) It is the intent of the Legislature that the fee schedule established in subdivision (a) shall not discriminate against small fleet or individual vehicle operators or result in a disproportionate share of those fees being assigned to small fleet or individual vehicle operators.

CHAPTER 2. MOTOR CARRIER SAFETY IMPROVEMENT FUND

7237. This chapter is enacted for the purpose of creating a special fund to cover the costs to the Department of the California Highway Patrol to deter commercial motor vehicle cargo thefts and provide security of highway carriers and cargoes throughout the state.

7238. All money or fees deposited in the Motor Carriers Safety Improvement Fund shall be available for appropriation by the Legislature to cover the costs to the Department of the California Highway Patrol to deter commercial motor vehicle cargo thefts and provide security of highway carriers and cargoes throughout the state.

SEC. 49. Section 1808.1 of the Vehicle Code is amended to read:

1808.1. (a) The prospective employer of a driver who drives any vehicle specified in subdivision (*l*) shall obtain a report showing the driver's current public record as recorded by the department. For purposes of this subdivision, a report is current if it was issued less than 30 days prior to the date the employer employs the driver. The report shall be reviewed, signed, and dated by the employer and maintained at the employer's place of business until receipt of the pull notice system report pursuant to subdivisions (b) and (c). These reports shall be presented upon request to any authorized representative of the Department of the California Highway Patrol during regular business hours.

(b) The employer of a driver who drives any vehicle specified in subdivision (*l*) shall participate in a pull notice system, which is a process for the purpose of providing the employer with a report showing the driver's current public record as recorded by the department, and any subsequent convictions, failures to appear, accidents, driver's license suspensions, driver's license revocations, or any other actions taken against the driving privilege or certificate, added to the driver's record while the employer's notification

request remains valid and uncanceled. As used in this section, participation in the pull notice system means obtaining a requester code and enrolling all employed drivers who drive any vehicle specified in subdivision (*l*) under that requester code.

(c) The employer of a driver of any vehicle specified in subdivision (*l*) shall, additionally, obtain a periodic report from the department at least every six months, except that an employer who enrolls more than 500 drivers in the pull notice system under a single requester code shall obtain a report at least every 12 months. The employer shall verify that each employee's driver's license has not been suspended or revoked, the employee's traffic violation point count, and whether the employee has been convicted of a violation of Section 23152 or 23153. The report shall be signed and dated by the employer and maintained at the employer's principal place of business. The reports shall be presented upon demand to any authorized representative of the Department of the California Highway Patrol during regular business hours.

(d) Upon the termination of a driver's employment, the employer shall notify the department to discontinue the driver's enrollment in the pull notice system.

(e) For the purposes of the pull notice system and periodic report process required by subdivisions (b) and (c), owners, other than owner-operators as defined in Section 3557 of the Public Utilities Code, and employers who drive vehicles described in subdivision (*l*), shall be enrolled as if they were employees. Family members and volunteer drivers who drive vehicles described in subdivision (*l*) shall also be enrolled as if they were employees.

(f) An employer who, after receiving any driving record pursuant to this section, employs or continues to employ as a driver any person against whom a disqualifying action has been taken regarding his or her driving privilege or required driver's certificate, is guilty of a public offense, and upon conviction thereof, shall be punished by imprisonment in the county jail for not more than six months, by a fine of not more than one thousand dollars ($1,000), or by both that fine and imprisonment.

(g) As part of its inspection of bus maintenance facilities and terminals required at least once every 13 months pursuant to subdivision (c) of Section 34501, the Department of the California Highway Patrol shall determine whether each transit operator, as defined in Section 99210 of the Public Utilities Code, is then in compliance with this section and Section 12804.6, and shall certify each operator found to be in compliance. No funds shall be allocated under Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code to a transit operator which the Department of the California Highway Patrol has not certified under this section.

(h) A request to participate in the pull notice system established by this section shall be accompanied by a fee determined by the

department to be sufficient to defray the entire actual cost to the department for the notification service. For the receipt of subsequent reports, the employer shall also be charged a fee established by the department pursuant to Section 1811. Any employer who qualifies under Section 1812 shall be exempt from any fee required under this section. Failure to pay the fee shall result in automatic cancellation of the employer's participation in the notification services.

(i) The department, as soon as feasible, may establish an automatic procedure to provide the periodic reports in subdivision (c) to employers on a regular basis without the need for individual requests.

(j) This section shall not be construed to change the definition of "employer," "employee," or "independent contractor" for any other purpose.

(k) The employer of a driver who is employed as a casual driver is not required to enter that driver's name in the pull notice system, as otherwise required by subdivision (a). However, the employer of a casual driver shall be in possession of a report of the driver's current public record as recorded by the department, prior to allowing a casual driver to drive any vehicle specified in subdivision (*l*). A report is current if it was issued less than six months prior to the date the employer employs the driver. As used in this subdivision, a driver is employed as a casual driver when the employer has employed the driver less than 30 days during the preceding six months. For purposes of this subdivision, "casual driver" does not include any driver who operates a vehicle that requires a passenger transportation endorsement.

(*l*) This section applies to any vehicle for the operation of which the driver is required to have a class 1, class 2, class A, or class B driver's license, a class C license with a hazardous materials endorsement, or a certificate issued pursuant to Section 2512, 12517, 12519, 12520, 12523, or 12523.5, or any passenger vehicle having a seating capacity of not more than 10 persons, including the driver, operated for compensation by a charter-party carrier of passengers or passenger stage corporation pursuant to a certificate of public convenience and necessity or a permit issued by the Public Utilities Commission.

SEC. 50. Section 1808.3 of the Vehicle Code is repealed.

SEC. 51. Section 34505.6 of the Vehicle Code is amended to read:

34505.6. (a) Upon determining that a motor carrier or motor carrier of property operating any vehicle described in subdivision (a), (b), (e), (f), (g), or (k) of Section 34500 or any motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, and operated on a public highway by a motor carrier or motor carrier of property, has done either of the following: (1) failed to maintain any vehicle used in transportation for compensation in a safe operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the

California Code of Regulations relative to motor carrier safety, and, in the department's opinion, that failure presents an imminent danger to public safety or constitutes a consistent failure as to justify a suspension, revocation, or denial of the motor carrier's motor carrier permit or operating authority or (2) failed to enroll all drivers in the pull notice system as required by Section 1808.1, the department shall recommend that the Department of Motor Vehicles or the Public Utilities Commission, as appropriate, deny, suspend, or revoke the carrier's motor carrier permit or operating authority. For interstate operators, the department shall recommend to the federal Highway Administration Office of Motor Carriers that appropriate administrative action be taken against the carrier. For purposes of this subdivision, two consecutive unsatisfactory compliance ratings for an inspected terminal assigned because the motor carrier failed to comply with the periodic report requirements of Section 1808.1 or the cancellation of the carrier's enrollment by the Department of Motor Vehicles for nonpayment of required fees is a consistent failure. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(b) Before transmitting a recommendation pursuant to subdivision (a), the department shall notify the carrier in writing of all of the following:

(1) That the department has determined that the carrier's safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension, revocation, or denial of the carrier's motor carrier permit by the Department of Motor Vehicles, suspension, revocation, of the motor carrier's operating authority by the California Public Utilities Commission, or administrative action by the federal Highway Administration Office of Motor Carriers.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required under this subdivision. If a review pursuant to this paragraph is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a).

(c) Upon receipt of a written recommendation from the department that a motor carrier permit or operating authority be suspended, revoked, or denied, the Department of Motor Vehicles or Public Utilities Commission, as appropriate, shall, pending a hearing in the matter pursuant to Section 34623, suspend the motor carrier permit or operating authority. The written recommendation shall specifically indicate compliance with subdivision (b).

SEC. 52. Section 34505.7 of the Vehicle Code is amended to read:

34505.7. (a) Upon determining that a private carrier of passengers, as defined in Section 4001 of the Public Utilities Code, has either (1) failed to maintain any vehicle of the carrier in a safe

operating condition or to comply with the Vehicle Code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, and, in the department's opinion, the failure presents an imminent danger to public safety or constitutes such a consistent failure as to justify a recommendation to the Public Utilities Commission, or (2) failed to enroll all drivers in the pull notice system as required by Section 1808.1, the department shall make a written recommendation to the Public Utilities Commission that the carrier's registration be suspended. Two consecutive unsatisfactory terminal ratings assigned for failure to comply with the periodic report requirements in Section 1808.1, or cancellation of an employer's enrollment by the Department of Motor Vehicles for nonpayment of fees, constitutes a consistent failure. The department shall retain a record, by operator, of every recommendation made pursuant to this section.

(b) Before transmitting a recommendation pursuant to subdivision (a), the department shall give written notice to the carrier of all of the following:

(1) That the department has determined that the carrier's safety record is unsatisfactory, furnishing a copy of any documentation or summary of any other evidence supporting the determination.

(2) That the determination may result in a suspension or revocation of the carrier's registration by the California Public Utilities Commission.

(3) That the carrier may request a review of the determination by the department within five days of its receipt of the notice required by this subdivision. If a review pursuant to this paragraph is requested by the carrier, the department shall conduct and evaluate that review prior to transmitting any notification pursuant to subdivision (a).

(c) Commercial vehicle inspection facilities along the border of Mexico, including those in Calexico and Otay Mesa, shall be staffed at all times by a California Highway Patrol inspector whenever those facilities are open to the public. The California Highway Patrol shall also assign, as staffing permits, a commercial inspector to control truck traffic entering the United States at the Tecate border crossing.

SEC. 53. Division 14.85 (commencing with Section 34600) is added to the Vehicle Code, to read:

DIVISION 14.85. MOTOR CARRIERS OF PROPERTY PERMIT ACT

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

34600. This division shall be known and may be cited as the Motor Carriers of Property Permit Act.

34601. (a) "Motor carrier of property" means:

(1) Any motor carrier as defined in Section 408 operating in California, whether intrastate, interstate, or a foreign carrier, who is required to obtain an identification number pursuant to Section 34507.5.

(2) Any person who operates one or more motortrucks of two or more axles that are more than 10,000 pounds gross vehicle weight rating.

(3) "Motor carrier of property" does not include household goods carriers, as defined in Section 5109 of the Public Utilities Code, persons providing only transportation of passengers, or a passenger stage corporation transporting baggage and express upon a passenger vehicle incidental to the transportation of passengers.

(b) For purposes of this chapter, "for-hire motor carrier or property" means a motor carrier of property as defined in subdivision (a) who transports property for compensation and any person, partnership, or corporation who transports property for compensation in any motortruck or motor vehicle not specified in subdivision (a).

(c) For purposes of this chapter, "private carrier" means a motor carrier of property, as defined in subdivision (a), who does not transport any goods or property for compensation.

34602. As used in this division, "fund" means the Motor Carriers Permit Fund.

34603. The Department of the California Highway Patrol, the Public Utilities Commission, and the State Board of Equalization shall furnish, upon request, whatever information from their records may be required to assist the department in the effective development and enforcement of this division.

34604. The department may adopt reasonable rules and regulations necessary to administer this division. The department may also adopt rules and regulations necessary to administer civil sanction proceedings and impose fines for failure to comply with Division 14.8 (commencing with Section 34500), or this division, or regulations adopted pursuant to this code.

34605. (a) The department may contract with the Office of Administrative Hearings to administer proceedings and impose fines for failure to comply with Division 14.8 (commencing with Section 34500), or this division, or regulations adopted pursuant to this code.

(b) The department and the California Highway Patrol may also contract with the Public Utilities Commission to administer this division in a manner described by the contract, or if permitted by the Department of Motor Vehicles, in a manner as existed on January 1, 1996. This temporary authority shall be terminated on December 31, 1997.

(c) All fees collected under this contract shall be deposited in the Motor Carriers Permit Fund created pursuant to subdivision (a) of Section 7236 of the Revenue and Taxation Code.

34606. The fee schedule set forth in Section 7236 of the Revenue and Taxation Code shall be reviewed by the Department of Motor Vehicles and may be lowered should revenue exceed the costs of the Department of Motor Vehicles and the California Highway Patrol to administer and enforce the provisions of this division. The department shall also adjust the uniform business license tax fee by the amounts as are necessary to produce an annual revenue that shall not exceed the amount collected under Section 4304 of the Public Utilities Code as it existed on June 30, 1996, for the period beginning on July 1, 1995, and ending on June 30, 1996.

CHAPTER 2. MOTOR CARRIER PERMITS

34620. (a) Except as provided in subdivision (b) and Section 34622, no motor carrier of property shall operate a motor vehicle on any public highway in this state unless it has complied with Section 34507.5 and has registered with the department its carrier identification authorized or assigned thereunder. The department shall issue a motor carrier permit upon the carrier's written request, compliance with Sections 34507.5, 34630, and 34640, and the payment of the fee required by this chapter.

(b) Motor carriers of property who were in compliance with the insurance requirements of this state on the day prior to the effective date of this section and continue to be in compliance with those requirements may continue to operate until directed by the department to obtain a motor carrier permit as required by subdivision (a). The department shall require all of those carriers to obtain permits pursuant to subdivision (a) on or before December 31, 1998.

34621. (a) The fee required by Section 7232 of the Revenue and Taxation Code shall be paid to the department upon initial application for a motor carrier permit and for annual renewal.

(b) Every application for an original or a renewal motor carrier permit shall contain all of the following information:

(1) The full name of the motor carrier; any fictitious name under which it is doing business; address, both physical and mailing; and business telephone number.

(2) Status as individual, partnership, owner, operator, or both, or corporation, and officers of corporation and all partners.

(3) Name, address, and driver's license number of owner or principal officer, California carrier number, number of commercial motor vehicles in fleet, interstate or intrastate operations, State Board of Equalization, federal Department of Transportation or Interstate Commerce Commission number, as applicable.

(4) Transporter or not a transporter of hazardous materials or petroleum.

(5) Business affiliations.

(6) Evidence of financial responsibility.

(7) Evidence of Workman's Compensation coverage, if applicable.

(8) Any other information necessary to enable the department to determine whether the applicant is entitled to a permit.

34622. This chapter does not apply to any vehicles exempt from vehicle registration fees.

34623. (a) The Department of the California Highway Patrol has exclusive jurisdiction for the regulation of safety of operation of motor carriers of property.

(b) The motor carrier permit of a motor carrier of property may be suspended for failure to either (1) maintain any vehicle of the carrier in a safe operating condition or to comply with this code or with regulations contained in Title 13 of the California Code of Regulations relative to motor carrier safety, if that failure is either a consistent failure or presents an imminent danger to public safety, or (2) enroll all drivers in the pull notice system as required by Section 1808.1. The department may, pending a hearing in the matter pursuant to subdivision (d), suspend a carrier's permit.

(c) A motor carrier whose motor carrier permit is suspended pursuant to subdivision (b) may obtain a reinspection of its terminal and vehicles by the Department of the California Highway Patrol by submitting a written request for reinstatement to the department and paying a reinstatement fee as required by Section 34623.5. The department shall deposit all reinstatement fees collected from carriers of property pursuant to this section in the fund. Upon receipt of the fee, the department shall forward a request to the Department of the California Highway Patrol, which shall perform a reinspection within a reasonable time. The department shall reinstate a carrier's motor carrier permit suspended under subdivision (b) upon notification by the Department of the Highway Patrol that the carrier's safety compliance has improved to the satisfaction of the Department of the California Highway Patrol, unless the permit is suspended for another reason or has been revoked.

(d) Whenever the department suspends the permit of any carrier pursuant to subdivision (b), the department shall furnish the carrier with written notice of the suspension and shall provide for a hearing within a reasonable time, not to exceed 21 days, after a written request is filed with the department. At the hearing, the carrier shall show cause why the suspension should not be continued. Following the hearing, the department may terminate the suspension, continue the suspension in effect, or revoke the permit. The department may revoke the permit of any carrier suspended pursuant to subdivision (b) at any time that is 90 days or more after its suspension if the carrier has not filed a written request for a hearing with the department or has failed to submit a request for reinstatement pursuant to subdivision (c).

(e) Notwithstanding any other provision of this code, no hearing shall be provided when the suspension of the motor carrier permit

is based solely upon the failure of the motor carrier to maintain satisfactory proof of financial responsibility as required by this code.

34623.5. Notwithstanding any other provision of this code, before a permit may be reissued after a suspension has been terminated, there shall, in addition to any other fees required by this code, be paid to the department a fee of one hundred fifty dollars ($150).

34624. (a) The department shall establish a classification of motor carrier of property known as owner-operators.

(b) As used in this section and in Sections 1808.1 and 34501.12, an owner-operator is a person who meets all of the following requirements:

(1) Holds a class A or class B driver's license or a class C license with a hazardous materials endorsement.

(2) Owns, leases, or otherwise operates not more than one power unit and not more than three towed vehicles.

(3) Is required to obtain a permit as a motor carrier of property by the department under this division.

(c) (1) As used in this section, "power unit" is a motor vehicle described in subdivision (a), (b), (g), (f), or (k) of Section 34500, or a motortruck of two or more axles that is more than 10,000 pounds gross vehicle weight rating, but does not include those vehicles operated by household goods carriers, as defined in Section 5109 of the Public Utilities Code or persons providing transportation of passengers. A "towed vehicle" is a nonmotorized vehicle described in subdivision (d), (e), (f), (g), or (k) of that section.

(2) As used in this section, subdivision (f) of Section 34500 includes those combinations where the gross vehicle weight rating of the towing vehicle exceeds 10,100 pounds, and subdivision (g) of Section 34500 includes only those vehicles transporting hazardous materials for which the display of placards is required pursuant to Section 27903, a license is required pursuant to Section 32000.5, or for which a hazardous waste hauler registration is required pursuant to Section 25163 of the Health and Safety Code.

(d) The department, upon suspending or revoking the driving privilege of an owner-operator shall also suspend the owner-operator's motor carrier permit, unless the owner-operator, within 15 days, shows good cause why the permit should not be suspended.

(e) This section shall not be construed to change the definition of "employer," "employee," or "independent contractor" for any other purpose.

CHAPTER 3. INSURANCE

34630. (a) A motor carrier permit shall not be granted to any motor carrier of property until there is filed with the department proof of financial responsibility in the form of a currently effective certificate of insurance, issued by a company licensed to write that

insurance in this state or by a nonadmitted insurer subject to Section 1763 of the Insurance Code, if the policy represented by the certificate meets the minimum insurance requirements contained in Section 34631.5. The certificate of insurance or surety bond shall provide coverage with respect to the operation, maintenance, or use of any vehicle for which a permit is required, although the vehicle may not be specifically described in the policy, or a bond of surety issued by a company licensed to write surety bonds in this state, or written evidence of self-insurance by providing the self-insured number granted by the department on a form approved by the department.

(b) Proof of financial responsibility shall be continued in effect during the active life of the motor carrier permit. The certificate of insurance shall not be cancelable on less than 30 days' written notice from the insurer to the department except in the event of cessation of operations as a permitted motor carrier of property.

(c) Whenever the department determines or is notified that the certificate of insurance or surety bond of a motor carrier of property will lapse or be terminated, the department shall suspend the carrier's permit effective on the date of lapse or termination unless the carrier provides evidence of valid insurance coverage pursuant to subdivision (a). If the carrier's permit is suspended, the carrier shall pay a reinstatement fee as set forth in Section 34623.5, and prior to conducting on-highway operations, present proof of financial responsibility pursuant to subdivision (a) in order to have the permit reinstated.

34631. The proof of financial responsibility required under Section 34630 shall be evidenced by the deposit with the department, covering each vehicle used or to be used under the motor carrier permit applied for, of one of the following:

(a) A certificate of insurance, issued by a company licensed to write insurance in this state, or by a nonadmitted insurer subject to Section 1763 of the Insurance Code, if the policies represented by the certificate comply with Section 34630 and the rules promulgated by the department pursuant to Section 34604.

(b) A bond of a surety company licensed to write surety bonds in the state.

(c) Evidence of qualification of the carrier as a self-insurer as provided for in subdivision (a) of Section 34630. However, any certificate of self-insurance granted to a motor carrier of property shall be limited to serve as proof of financial responsibility under paragraph (1) of subdivision (a) of Section 34631.5 minimum limits only and shall not be acceptable as proof of financial responsibility for the coverage required pursuant to paragraph (2) or (3) of subdivision (a) of Section 34631.5.

34631.5. (a) (1) Every motor carrier of property as defined in Section 34601 (except those subject to paragraph (2) or (3), shall provide and thereafter continue in effect adequate protection

against liability imposed by law upon those carriers for the payment of damages for personal bodily injuries (including death resulting therefrom) in the amount of not less than two hundred fifty thousand dollars ($250,000) on account of bodily injuries to or death of, one person, and protection against total liability of those carriers on account of bodily injuries to, or death of more than one person as a result of any one accident, but subject to the same limitation for each person, in the amount of not less than five hundred thousand dollars ($500,000) and protection in the amount of not less than one hundred thousand dollars ($100,000) for one accident resulting in damage to or destruction of property other than property being transported by the carrier for any shipper or consignee, whether the property of one or more than one claimant, or a combined single limit in the amount of not less than six hundred thousand dollars ($600,000) on account of bodily injuries to, or death of, one or more persons, or damage to or destruction of, property other than property being transported by the carrier for any shipper or consignee whether the property of one or more than one claimant in any one accident.

(2) Every intrastate motor carrier of property, as defined in Section 34601, who transports petroleum products in bulk, including waste petroleum and waste petroleum products, shall provide and thereafter continue in effect adequate protection against liability imposed by law upon the carrier for the payment of damages for personal bodily injuries (including death resulting therefrom) in the amount of not less than five hundred thousand dollars ($500,000) on account of bodily injuries to, or death of, one person; and protection against a total liability of those carriers on account of bodily injuries to, or death of more than one person as a result of any one accident, but subject to the same limitation for each person in the amount of not less than one million dollars ($1,000,000); and protection in an amount of not less than two hundred thousand dollars ($200,000) for one accident resulting in damage to or destruction to property other than property being transported by the carrier for any shipper or consignee, whether the property of one or more than one claimant; or a combined single limit in the amount of not less than one million two hundred thousand dollars ($1,200,000) on account of bodily injuries to, or death of, one or more person or damage to or destruction of property, or both, other than property being transported by the carrier for any shipper or consignee whether the property of one or more than one claimant in any one accident.

(3) Except as provided in paragraph (2), every motor carrier of property, as defined in 34601, that transports any hazardous material, as defined by Section 353, shall provide and thereafter continue in effect adequate protection against liability imposed by law on those carriers for the payment of damages for personal injury or death, and damage to or destruction of property, in amounts of not less than the minimum levels of financial responsibility specified for carriers of hazardous materials by the United States Department of

Transportation in Part 387 (commencing with Section 387.1) of Title 49 of the Code of Federal Regulations. The applicable minimum levels of financial responsibility required are as follows:

Commodity Transported:	Combined Single Limit Coverage
(a) Oil listed in Section 172.101 of Title 49 of the Code of Federal Regulations; hazardous waste, hazardous materials and hazardous substances defined in Section 171.8 of Title 49 of the Code of Federal Regulations and listed in Section 172.101 of Title 49 of the Code of Federal Regulations, but not mentioned in (c) or (d).	$1,000,000
(b) Hazardous waste as defined in Section 25117 of the Health and Safety Code and in Article 1 (commencing with Section 66261.1) of Chapter 11 of Division 4.5 of Title 22 of the California Code of Regulations, but not mentioned in (c) or (d).	$1,000,000
(c) Hazardous substances, as defined in Section 171.8 of Title 49 of the Code of Federal Regulations, or liquefied compressed gas or compressed gas, transported in cargo tanks, portable tanks, or hopper-type vehicle with capacities in excess of 3,500 water gallons.	$5,000,000
(d) Any quantity of class A or B explosives; any quantity of poison gas (Poison A); or highway route controlled quantity radioactive materials as defined in Section 173.403 of Title 49 of the Code of Federal Regulations.	$5,000,000

(4) The protection required under paragraphs (1), (2), and (3) shall be evidenced by the deposit with the department, covering each vehicle used or to be used in conducting the service performed by each motor carrier of property, an authorized certificate of public liability and property damage insurance, issued by a company licensed to write the insurance in the State of California, or by a nonadmitted insurer subject to Section 1763 of the Insurance Code.

(5) The protection required under paragraphs (1), (2), and (3) by every motor carrier of property engaged in interstate or foreign transportation of property in or through California, shall be

evidenced by the filing and acceptance of a department authorized certificate of insurance, or qualification as a self-insurer as may be authorized by law.

(6) A certificate of insurance, evidencing the protection, shall not be cancelable on less than 30 days' written notice to the department, the notice to commence to run from the date notice is actually received at the office of the department in Sacramento.

(7) Every insurance certificate or equivalent protection to the public shall contain a provision that the certificate or equivalent protection shall remain in full force and effect until canceled in the manner provided by paragraph (6).

(8) Upon cancellation of an insurance certificate or the cancellation of equivalent protection authorized by the Department of Motor Vehicles, the motor carrier permit of any motor carrier of property, shall stand suspended immediately upon the effective date of the cancellations.

(9) No carrier shall engage in any operation on any public highway of this state during the suspension of its permit.

CHAPTER 1045

An act to amend Sections 41906, 41912, and 51852 of, and to add Section 41907.5 to, the Education Code, relating to schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1996. Filed with Secretary of State September 30, 1996.]

The people of the State of California do enact as follows:

SECTION 1. Section 41906 of the Education Code is amended to read:

41906. In applying for state reimbursement for driver training expenses incurred in the school year 1968–69 and thereafter, school districts, county superintendents of schools, the California Youth Authority, and the State Department of Education shall certify to having met the requirements set forth in this article and, in addition, shall certify that all teachers used in the driver education or driver training programs are qualified instructors, as defined in Section 41907.

SEC. 2. Section 41907.5 is added to the Education Code, to read:

41907.5. (a) Any waiver granted by the Commission on Teacher Credentialing of the credentialing requirements specified in Section 41907 shall not extend beyond one year unless the individual to whom the waiver was granted demonstrates substantial progress toward meeting those credentialing requirements.

(b) This section shall be implemented only upon certification by the Commission on Teacher Credentialing that it has developed alternative routes to coursework requirements authorized pursuant to Section 44260.7, and that reasonable opportunities exist for prospective credentialholders to receive this coursework.

SEC. 3. Section 41912 of the Education Code is amended to read:

41912. (a) The Legislature finds and declares all of the following:

(1) To assist in reducing the number of fatalities involving youthful drivers, a minimum standard of six hours of behind-the-wheel driver training conducted by a public or private secondary school, or by a qualified instructor of a licensed private driving school, shall be established.

(2) According to the National Highway Traffic Safety Administration, traffic crashes are the number one killer of teenagers. Per mile driven, teenage drivers are involved in accidents four times as often as adults.

(3) According to the Center for Disease Control and Prevention, motor vehicle crashes are the leading cause of death among youths 16 to 20 years of age. Nationwide, about 6,000 youths 16 to 20 years of age, die each year in traffic accidents. Teenage drivers represent about 7 percent of the country's population, but account for about 17 percent of the victims of fatal crashes.

(4) According to the Department of Motor Vehicles, during 1993, 4,163 people were killed and 315,184 were injured in traffic accidents across the state.

(5) According to the National Safety Council, driver error causes 69 percent of all automobile collisions. Annually, 11,900,000 accidents occur nationwide resulting in 2,000,000 injuries and 42,000 fatalities. Automobile accidents cost one hundred sixty-seven billion dollars ($167,000,000,000) annually.

(6) The Department of Motor Vehicles has introduced the first major revision of the driver's license test since 1933, in recognition of a need to require first-time drivers to pass an examination representative of the complex driving conditions confronting motorists throughout the state. A minimum of six hours of behind-the-wheel driver training conducted by a public or private secondary school, or by a qualified instructor of a licensed private driving school, is required to prepare the first-time driver under 18 years of age to pass this examination.

(b) The expressed purpose of the Legislature is that highway accidents can and must be reduced through the education and training of drivers prior to licensing, and that this instruction properly belongs in the high school curriculum on a basis of having comparable standards of instruction, quality, teacher-pupil ratio and class scheduling in driver education as in other courses in the regular academic program. Only through a high quality program of driver instruction can the greatest potential in traffic accident prevention be realized. Further, the state has a responsibility to share in the reasonable costs of providing those courses.

SEC. 4. Section 51852 of the Education Code is amended to read:

51852. A course of instruction in the laboratory phase of driver education shall include, for each student enrolled in the class, instruction under one of the following plans:

(a) Plan One. A minimum of 12 hours allocated as follows:

(1) A minimum of six hours of on-street behind-the-wheel practice driving instruction in a dual-control automobile with a qualified instructor.

(2) Three hours in a dual-control automobile with a qualified instructor for the purpose of observation.

(3) Eighteen hours of instruction by a qualified instructor in a driving simulator approved by the department and on an off-street multiple-car driving range. The governing board of the district shall establish the proportion of time to be utilized in simulators and on the off-street multiple-car driving range.

(e) Plan Five.

(1) Competency-based driver training which means a program in which each student receives a minimum of three hours of on-street behind-the-wheel practice driving instruction, a minimum of one hour of behind-the-wheel pretesting, and a minimum of one hour of behind-the-wheel posttesting. The pretest and posttest for public school programs shall include basic skill evaluation by the instructor, as adopted by the Superintendent of Public Instruction pursuant to

paragraph (2). The one hour posttest shall be conducted by an instructor other than the instructor who conducted the three hours of behind-the-wheel practice driving instruction or the pretest. Each student shall receive at least one additional hour of either behind-the-wheel practice driving instruction or observation time.

(2) The Superintendent of Public Instruction shall adopt rules, regulations, and basic skill requirements for public school programs pursuant to this subdivision.

(3) Local district superintendents offering this program shall annually report to the Superintendent of Public Instruction, on a form developed by the State Department of Education, on student completion of instruction pursuant to paragraph (1).

(f) For purposes of this section, one hour means 60 minutes including passing time.

(g) Any deviation from the standard use of a simulator or off-street multiple-car driving range, or both, shall have prior approval by the Department of Education before the school district, county superintendent of schools, the California Youth Authority, or the Department of Education can be reimbursed for the students trained.

(h) Nothing in this section shall be construed to direct or restrict courses of instruction in the classroom phase or the laboratory phase of driver education offered by private elementary and secondary schools or to require the use of credentialed or certified instructors in the laboratory phase of driver education offered by private elementary and secondary schools, except that each student enrolled in a course shall satisfactorily complete a minimum of six hours of on-street behind-the-wheel driving instruction. This section shall not be construed to limit eligibility for a provisional driver's license for pupils who have completed driver education or driver training courses offered in private elementary or secondary schools.

(i) For the purposes of this section, private elementary or secondary schools are those subject to the provisions of Sections 33190 and 48222.

SEC. 5. Section 4 of this act shall become operative on July 1, 1996.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide protection to the motoring public, it is necessary that this act take effect immediately.

The amount of funds available for direct farm lending shall be determined by the executive director. In its capacity as a direct lender, the corporation may sell in the secondary market the guaranteed portion of each loan so as to raise additional funds for direct lending. The agency shall issue regulations governing these direct loans, including the maximum amount of these loans.

The corporation may use trust funds for loan repayment to the office if the corporation has exhausted a loan loss reserve created for this purpose. Interest and principal received by the office from the corporation shall be deposited into the same account from which the funds were originally borrowed.

pursuant to regulation. The program provided for in this subdivision shall be available in all geographic areas of the state.

SEC. 28. Section 14071 of the Corporations Code is amended to read:

14071. In furtherance of the purposes set forth in Section 14002, a corporation may do any one or more of the following activities, but only to the extent that the activities are authorized pursuant to the contract between the agency and corporation: guarantee, endorse, or act as surety on the bonds, notes, contracts, or other obligations of, or assist financially, any person, firm, corporation, or association, and may establish and regulate the terms and conditions with respect to any such loans or financial assistance and the charges for interest and service connected therewith, except that the corporation shall not make or guarantee any loan unless and until it determines:

(b) The loan proceeds shall be used exclusively in this state.

(c) The loan qualifies as a small business loan or an employment incentive loan.

(d) That the borrower has a minimum equity interest in the business as determined by the director.

(e) As a result of the loan, the jobs generated or retained demonstrate reasonable conformance to the regulations specifying employment criteria.

14076. The agency shall report annually to the Legislature on the financial status of the corporations and their portfolio of loans and surety bonds guaranteed.

(b) Any corporation that serves an area declared by the Governor or the President to be a disaster area on or after January 1, 1992, or the area affected by the state of emergency declared in Los Angeles on April 29, 1992, shall increase the portfolio of loan guarantees where the dollar amount of the loan is less than one hundred thousand dollars ($100,000), so that at least 15 percent of the dollar value of

loans guaranteed by the corporation is for those loans. The corporation shall comply with this requirement within one year of the date the disaster is declared, or January 1, 1995, whichever is later. Upon application of a corporation, the director may waive or modify the rule for the corporation if the corporation demonstrates that it made a good faith effort to comply and failed to locate lending institutions in the region that the corporation serves that are willing to make guaranteed loans in that amount.

SEC. 31. Section 14085 of the Corporations Code is amended to read:

14085. It shall be unlawful for the director or any person who is an officer, director, or employee of a corporation, or who is a member of a loan committee, or who is an employee of the office to:

(a) Ask for, consent, or agree to receive, any commission, emolument, gratuity, money, property, or thing of value for his or her own use, benefit, or personal advantage, for procuring or endeavoring to procure for any person, partnership, joint venture, association, or corporation, any loan, guarantee, financial, or other assistance from any corporation.

It shall be unlawful for the director or any person who is an officer or director of a corporation, or who is an employee of the office, to purchase or receive, or to be otherwise interested in the purchase or receipt, directly or indirectly, of any asset of a corporation, without paying to the corporation the fair market value of the asset at the time of the transaction.

Additional drainage space may be provided that is not necessarily attached to the sink. The sink compartments and drainage facilities shall be large enough to accommodate the largest utensil or piece of equipment to be cleaned therein. A one-compartment or two-compartment sink that is in use on January 1, 1996, may be continued in use until replaced. The enforcement officer may approve the continued use of a one-compartment or two-compartment sink even upon replacement if the installation of a three-compartment sink would not be readily achievable and where other approved sanitation methods are used.

(c) All food establishments in which multiservice consumer utensils are used shall clean the utensils in one of the following ways:

(1) Handwashing of utensils using a three-compartment metal sink with dual integral metal drainboards where the utensils are first washed by hot water and a cleanser until they are clean, then rinsed in clear, hot water before being immersed in a final warm solution meeting the requirements of Section 114060.

(e) All utensil washing equipment, except undercounter dish machines, shall be provided with two integral metal drainboards of adequate size and construction. One drainboard shall be attached at the point of entry for soiled items and one shall be attached at the point of exit for cleaned and sanitized items. Where an undercounter dish machine is used, there shall be two metal drainboards, one for soiled utensils and one for clean utensils, located adjacent to the machine. The drainboards shall be sloped and drained to an approved waste receptor. This requirement may be satisfied by using the drainboards appurtenant to sinks as required in subdivision (b) and paragraph (1) of subdivision (c), if the facilities are located adjacent to the machine.

(f) The handling of cleaned and soiled utensils, equipment, and kitchenware shall be undertaken in a manner that will preclude possible contamination of cleaned items with soiled items.

(g) All utensils, display cases, windows, counters, shelves, tables, refrigeration units, sinks, dishwashing machines, and other equipment or utensils used in the preparation, sale, service, and display of food shall be made of nontoxic, noncorrosive materials, shall be constructed, installed, and maintained to be easily cleaned, and shall be kept clean and in good repair.

(2) Equipment food-contact surfaces and utensils may be cleaned less frequently than every four hours if the utensils and equipment are used to prepare food in a refrigerated room, at or below 13 degrees Celsius (55 degrees Fahrenheit), and the utensils and equipment are cleaned at least every 24 hours.

(3) Equipment food-contact surfaces and utensils may be cleaned less frequently than every four hours if the enforcement agency approves the cleaning schedule utilized based on a consideration of the following factors:

(A) Characteristics of the equipment and its use.

(B) The type of food involved.

(C) The amount of food residue accumulation.

Dishwashing machines may be connected directly to the sewer immediately downstream from a floor drain or they may be drained through an approved indirect connection. Utensil washing sinks in use on January 1, 1996, that are directly plumbed may be continued in use. This section does not require utensil washing sinks to be indirectly plumbed when the local building official determines that the sink should be directly plumbed.

For purposes of apportionments, those pupils in any group home housing 25 or more children placed pursuant to Sections 362, 727, and 730 of the Welfare and Institutions Code or in any group home housing 25 or more children and operating one or more additional sites under a central administration for children placed pursuant to Section 362, 727, or 730 of the Welfare and Institutions Code shall be reported as

county group home and institutions pupils to the Superintendent of Public Instruction and shall be counted as juvenile court school pupils for purposes of apportionments.

(b) Notwithstanding any other provision of law, any county superintendent of schools operating juvenile court schools, county group home and institutions schools, or community schools, or any combination of these schools shall maintain an account in their general fund to be known as the juvenile court and community school account, and shall deposit all funds derived from the operation of juvenile court, county group home and institutions schools, and community schools into that account. Expenditures from the juvenile court and community school account shall be limited to the following:

(1) Those expenditures defined as direct costs of instructional programs by the California State School Accounting Manual, except that facility costs, including the costs of renting, leasing, purchasing, remodeling, constructing, or improving buildings and the costs of purchasing or improving land, shall be allowed as an instructional cost in the juvenile court and community school fund.

(2) Expenditures that are defined as documented direct support costs by the California State School Accounting Manual, however, costs charged for probation officers shall be limited to not more than the number of full-time equivalent probation officers paid for by the county office of education during the 1988–89 fiscal year.

At the end of any given school year the net ending balance in the juvenile court and community school account may be distributed to a reserved account for economic contingencies or to a reserved account for capital outlay, provided that the combined total transferred does not exceed 15 percent of the previous year's authorized expenditures as specified above and also provided that funds placed in the reserved accounts shall only be expended for juvenile court, county group home and institutions, or community school programs. The net ending balance, except for those funds placed in a capital outlay fund, shall not exceed the greater of 15 percent of the previous year's expenditures or twenty-five thousand dollars ($25,000). A county may accumulate over a period of two or more given school years a net ending balance in the capital outlay reserved account of more than 15 percent of the previous fiscal year's expenditures under provisions of a resolution of the governing board. Funds in the capital outlay reserve are to be

used for capital outlay only. The Superintendent of Public Instruction shall require an annual certification by county superintendents of schools beginning in the 1989–90 fiscal year that juvenile court, county group home and institutions, and community school funds have been expended as provided in this section and shall withhold from the subsequent year's apportionment an amount equal to any ending balance in the juvenile court and community school account in excess of the transfers to reserves for economic contingencies and capital outlay as described in this section.

The individualized review shall include representatives of the court, the county department of education, the county probation department, and either the school district of residence or, in cases in which the pupil resides in a group home or institution, the school district in which the group home or institution is located, and, in each case, the school district representative shall agree to the appropriateness of the proposed placement and pupils so placed shall have a probation officer assigned to their case.

(1) Possessing, selling, or otherwise furnishing a firearm. This subdivision does not apply to an act of possessing a firearm if the pupil had obtained prior written permission to possess the firearm from a certificated school employee, which is concurred in by the principal or the designee of the principal. This subdivision applies to an act of possessing a firearm only if the possession is verified by an employee of a school district.

SECTION 1. In amending Section 47 of the Civil Code by this act, it is the intent of the Legislature to abrogate the decision in Shahvar v. Superior Court (1994), 25 Cal. Dean Witter Organization, Inc., 60 Cal. App. 3d 573; Martin v. Kearney, 51 Cal. App. 3d 309; Ascherman v. Natanson, 23 Cal. App. 3d 861; and the Second Restatement of Torts, Section 586.

and unless the allegation or averment is material and relevant to the issues in the action.

(2) This subdivision does not make privileged any communication made in furtherance of an act of intentional destruction or alteration of physical evidence undertaken for the purpose of depriving a party to litigation of the use of that evidence, whether or not the content of the communication is the subject of a subsequent publication or broadcast which is privileged pursuant to this section. As used in this paragraph, "physical evidence" means evidence specified in Section 250 of the Evidence Code or evidence that is property of any type specified in Section 2031 of the Code of Civil Procedure.

The doctoral degree may be awarded jointly with the University of California, as provided in subdivision (c) and pursuant to Section 66904. The doctoral degree may also be awarded jointly with one or more independent institutions of higher education, provided that the proposed doctoral program is approved by the California Postsecondary Education Commission. Research, scholarship, and creative activity in support of its undergraduate and graduate instructional mission is authorized in the California State University and shall be supported by the state. The primary mission of the California State University is undergraduate and graduate instruction through the master's degree.

(c) The University of California may provide undergraduate and graduate instruction in the liberal arts and sciences and in the professions, including the teaching professions. It shall have exclusive jurisdiction in public higher education over instruction in the profession of law and over graduate instruction in the professions of medicine, dentistry, and veterinary medicine. The board shall require each county superintendent of schools who leases portable classrooms pursuant to Section 17717.2 to demonstrate that the portable classrooms are utilized solely for operation of a county community school.

(b) For the purposes of this chapter, the area of adequate school construction existing in an applicant school district does not include any of the following:

(1) Any portable classroom made available to the district under Chapter 25 (commencing with Section 17785).

The voluntary declaration of paternity shall be recognized as a basis for the establishment of an order for child custody, visitation, or child support.

SEC. 7. Section 7574 of the Family Code is repealed.

SEC. 8. Section 7574 is added to the Family Code, to read:

7574. (a) The voluntary declaration of paternity shall be executed on a form developed by the State Department of Social Services in consultation with the State Department of Health Services, the California Family Support Council, and child support advocacy groups.

SEC. 9. Section 7575 of the Family Code is repealed.

SEC. 10. Section 7575 is added to the Family Code, to read:

7575. (a) Either parent may rescind the voluntary declaration of paternity by filing a rescission form with the State Office of Vital Records within 60 days of the date of execution of the declaration by the attesting father or attesting mother, whichever signature is later, unless a court order for custody, visitation, or child support has been entered in an action in which the signatory seeking to rescind was a party. The State Department of Social Services shall develop a form to be used by parents to rescind the declaration of paternity and instruction on how to complete and file the rescission with the State Office of Vital Records. The form shall include a declaration under penalty of perjury completed by the person filing the rescission form that certifies that a copy of the rescission form was either hand delivered or mailed to the other person who signed the voluntary declaration of paternity. The form and instructions shall be written in simple, easy to understand language and shall be made available at the local family support office and the office of local registrar of births and deaths.

(b) (1) Notwithstanding Section 7573, if the court finds that the conclusions of all of the experts based upon the results of the blood tests performed pursuant to Chapter 2 (commencing with Section 7550) are that the man who signed the voluntary declaration is not the father of the child, the court may set aside the voluntary declaration of paternity.

(2) The notice of motion for blood tests under this section may be filed not later than two years from the date of the child's birth by either the mother or the man who signed the voluntary declaration as the child's father in an action to determine the existence or nonexistence of the father and child relationship pursuant to Section 7630 or in any action to establish an order for child custody, visitation, or child support based upon the voluntary declaration of paternity.

(3) The notice of motion for blood tests pursuant to this section shall be supported by a declaration under oath submitted by the moving party stating the factual basis for putting the issue of paternity before the court.

(c) (1) Nothing in this chapter shall be construed to prejudice or bar the rights of either parent to file an action or motion to set aside the voluntary declaration of paternity on any of the grounds described in, and within the time limits specified in, Section 473 of the Code of Civil Procedure and Chapter 10 (commencing with Section 2120) of Part 1 of Division 6. If the action or motion to set aside the voluntary declaration of paternity is for fraud or perjury, the act must have induced the defrauded parent to sign the voluntary declaration of paternity. If the action or motion to set aside a judgment is required to be filed within a specified time period under

Section 473 of the Code of Civil Procedure or Section 2122, the period within which the action or motion to set aside the voluntary declaration of paternity must be filed shall commence on the date that the court makes a finding of paternity based upon the voluntary declaration of paternity in an action for custody, visitation, or child support.

(2) The parent seeking to set aside the voluntary declaration of paternity shall have the burden of proof.

(3) Any order for custody, visitation, or child support shall remain in effect until the court determines that the voluntary declaration of paternity should be set aside, subject to the court's power to modify the orders as otherwise provided by law.

(4) Nothing in this section is intended to restrict a court from acting as a court of equity.

(5) If the voluntary declaration of paternity is set aside pursuant to paragraph (1), the court shall order that the mother, child, and alleged father submit to blood or genetic tests pursuant to Chapter 2 (commencing with Section 7550). If the court finds that the conclusions of all the experts, as disclosed by the evidence based upon the blood or genetic tests, are that the person who executed the voluntary declaration of paternity is not the father of the child, the question of paternity shall be resolved accordingly. If the person who executed the declaration as the father of the child is not excluded as a possible father, the question of paternity shall be resolved as otherwise provided by law. If the person who executed the declaration of paternity is ultimately determined to be the father of the child, any child support that accrued under an order based upon the voluntary declaration of paternity shall remain due and owing.

(6) The Judicial Council shall develop the forms and procedures necessary to effectuate this subdivision.

SEC. 11. Section 7576 of the Family Code is repealed.

SEC. 12. Section 7576 is added to the Family Code to read:

7576. The following provisions shall apply for voluntary declarations signed on or before December 31, 1996.

(a) Except as provided in subdivision (d), the child of a woman and a man executing a declaration of paternity under this chapter is conclusively presumed to be the man's child. The presumption under this section has the same force and effect as the presumption under Section 7540.

(b) A voluntary declaration of paternity shall be recognized as the basis for the establishment of an order for child custody or support.

(c) In any action to rebut the presumption created by this section, a voluntary declaration of paternity shall be admissible as evidence to determine paternity of the child named in the voluntary declaration of paternity.

(d) The presumption established by this chapter may be rebutted by any person by requesting blood or genetic tests pursuant to Chapter 2 (commencing with Section 7550). The notice of motion for

blood or genetic tests pursuant to this section shall be supported by a declaration under oath submitted by the moving party stating the factual basis for placing the issue of paternity before the court. The notice of motion for blood tests shall be made within three years from the date of execution of the declaration by the attesting father, or by the attesting mother, whichever signature is later. The two-year statute of limitations specified in subdivision (b) of Section 7541 is inapplicable for purposes of this section.

(e) A presumption under this chapter shall override all statutory presumptions of paternity except a presumption arising under Section 7540 or 7555.

SEC. 13. Section 7577 is added to the Family Code to read:

7577. (a) Notwithstanding Section 7573, a voluntary declaration of paternity that is signed by a minor parent or minor parents shall not establish paternity until 60 days after both parents have reached the age of 18 years or are emancipated, whichever first occurs.

(b) A parent who signs a voluntary declaration of paternity when he or she is a minor may rescind the voluntary declaration of paternity at any time up to 60 days after the parent reaches the age of 18 or becomes emancipated whichever first occurs.

(c) A voluntary declaration of paternity signed by a minor creates a rebuttable presumption of paternity until the date that it establishes paternity as specified in subdivision (a).

(d) A voluntary declaration of paternity signed by a minor shall be admissible as evidence in any civil action to establish paternity of the minor named in the voluntary declaration.

(e) A voluntary declaration of paternity that is signed by a minor shall not be admissible as evidence in a criminal prosecution for violation of Section 261.5 of the Penal Code.

SEC. 14. Section 7644 of the Family Code is amended to read:

7644. (a) Notwithstanding any other law, an action for child custody and support and for other relief as provided in Section 7637 may be filed based upon a voluntary declaration of paternity as provided in Chapter 3 (commencing with Section 7570) of Part 2.

(b) Except as provided in Section 7576, the voluntary declaration of paternity shall be given the same force and effect as a judgment of paternity entered by a court of competent jurisdiction. The court shall make appropriate orders as specified in Section 7637 based upon the voluntary declaration of paternity unless evidence is presented that the voluntary declaration of paternity has been rescinded by the parties or set aside as provided in Section 7575 of the Family Code.

(c) The Judicial Council shall develop the forms and procedures necessary to implement this section.

SEC. 15. Section 22825.14 of the Government Code is amended to read:

1357. As used in this article:

(a) "Dependent" means the spouse or child of an eligible employee, subject to applicable terms of the health care plan contract covering the employee, and includes dependents of guaranteed association members if the association elects to include dependents under its health coverage at the same time it determines its membership composition pursuant to subdivision (o).

The term includes sole proprietors or partners of a partnership, if they are actively engaged on a full-time basis in the small employer's business and included as employees under a health care plan contract of a small employer, but does not include employees who work on a part-time, temporary, or substitute basis. It includes any eligible employee as defined in this paragraph who obtains coverage through a guaranteed association. However, an eligible employee, any other person eligible for coverage through a guaranteed association pursuant to subdivision (o), or dependent shall not be considered a late enrollee if: (1) the individual meets all of the following: (A) he or she was covered under

another employer health benefit plan at the time the individual was eligible to enroll; (B) he or she certified at the time of the initial enrollment that coverage under another employer health benefit plan was the reason for declining enrollment, provided that, if the individual was covered under another employer health plan, the individual was given the opportunity to make the certification required by this subdivision and was notified that failure to do so could result in later treatment as a late enrollee; (C) he or she has lost or will lose coverage under another employer health benefit plan as a result of termination of employment of the individual or of a person through whom the individual was covered as a dependent, change in employment status of the individual or of a person through whom the individual was covered as a dependent, termination of the other plan's coverage, cessation of an employer's contribution toward an employee or dependent's coverage, death of the person through whom the individual was covered as a dependent, or divorce; and (D) he or she requests enrollment within 30 days after termination of coverage or employer contribution toward coverage provided under another employer health benefit plan; (2) the employer offers multiple health benefit plans and the employee elects a different plan during an open enrollment period; (3) a court has ordered that coverage be provided for a spouse or minor child under a covered employee's health benefit plan; (4) (A) in the case of an eligible employee as defined in paragraph (1) of subdivision (b), the plan cannot produce a written statement from the employer stating that the individual or the person through whom the individual was eligible to be covered as a dependent, prior to declining coverage, was provided with, and signed, acknowledgment of an explicit written notice in bold type specifying that failure to elect coverage during the initial enrollment period permits the plan to impose, at the time of the individual's later decision to elect coverage, an exclusion from coverage for a period of 12 months as well as a six-month preexisting condition exclusion, unless the individual meets the criteria specified in paragraph (1), (2), or (3); (B) in the case of an association member who did not purchase coverage through a guaranteed association, the plan cannot produce a written statement from the association stating that the association sent a written notice in bold type to all potentially eligible association members at their last known address prior to the initial enrollment period informing members that failure to elect coverage during the initial enrollment period permits the plan to impose, at the time of the member's later decision to elect coverage, an exclusion from coverage for a period of 12 months as well as a six-month preexisting condition exclusion unless the member can demonstrate that he or she meets the requirements of subparagraphs (A), (C), and (D) of paragraph (1) or paragraph (2) or (3); or (C) in the case of an employer or person who is not a member of an association, was eligible to purchase coverage through a guaranteed association, and

did not do so, and would not be eligible to purchase guaranteed coverage unless purchased through a guaranteed association, the employer or person can demonstrate that he or she meets the requirements of subparagraphs (A), (C), and (D) of paragraph (1), or paragraph (2) or (3), or that he or she recently had a change in status that would make him or her eligible and that application for enrollment was made within 30 days of the change.

Geographic regions established pursuant to this section shall, as a group, cover the entire state, and the area encompassed in a geographic region shall be separate and distinct from areas encompassed in other geographic regions. Geographic regions may be noncontiguous.

(B) In determining rates for small employers, a plan that does not operate statewide shall use no more than the number of geographic regions in the state than is determined by the following formula: the population, as determined in the last federal census, of all counties that are included in their entirety in a plan's service are divided by the total population of the state, as determined in the last federal census, multiplied by nine. The resulting number shall be rounded to the nearest whole integer. No region may be smaller than an area in which the first three digits of all its ZIP Codes are in common within a county and no county may be divided into more than two regions. The area encompassed in a geographic region shall be separate and distinct from areas encompassed in other geographic

regions. Geographic regions may be noncontiguous. No plan shall have less than one geographic area.

The requirement of 1,000 persons may be met if component chapters of a statewide association contracting separately with the same carrier cover at least 1,000 persons in the aggregate.

This subdivision applies regardless of whether a contract issued by a plan is with an association or a trust formed for, or sponsored by, an association to administer benefits for association members.

For purposes of this subdivision, an association formed by a merger of two or more associations after January 1, 1992, and otherwise meeting the criteria of this subdivision shall be deemed to have been in active existence on January 1, 1992, if its predecessor organizations had been in active existence on January 1, 1992, and for at least five years prior to that date and otherwise met the criteria of this subdivision.
