of those interests to publicly release all information relative to the personal accounts of Jews that have remained dormant since World War II, and all information regarding financial transactions between the Nazi German government, financial institutions and governmental officials, and the members of the Swiss Bankers Association for the same period.

Res. Ch. 91 (ACR 4) Perata. Tobacco products: advertisement.

This measure would concur with the Federal Trade Commission's May 28, 1997, decision regarding R.J. Reynolds Tobacco Company, and would oppose the marketing or promotion of tobacco products to minors.

Res. Ch. 92 (SCR 17) Watson. Foster care.

This measure would request the State Department of Social Services to seek the input of foster youth across the state to advise the department on approaches to improving the foster care system. This measure would encourage the department, in consultation with county independent living programs, to identify methods of making transitional housing services available to an increased number of foster youth.

Res. Ch. 93 (SJR 6) Solis. Filipino veterans of World War II: veterans' benefits.

This measure would memorialize the President and the Congress of the United States to take action necessary to honor our country's moral obligation to provide Filipino veterans with the military benefits that they deserve, including, but not limited to, holding related hearings, and acting favorably on legislation pertaining to the granting of full veterans' benefits to Filipino veterans of the United States Armed Forces.

Res. Ch. 94 (ACR 2) Floyd. Relative to maintenance and repair of the California Veterans' Cemetery at Yountville.

This measure would memorialize the Secretary of Veterans Affairs and the Administrator of the Veterans' Home of California, Yountville, to take every action necessary to ensure satisfactory remedial repairs and maintenance of the cemetery grounds, as well as the upkeep, repair, and beautification of the cemetery and gravesites.

Res. Ch. 95 (SCR 20) Solis. Domestic Violence Awareness Month.

This measure would proclaim the month of October 1997 as Domestic Violence Awareness Month.

Res. Ch. 96 (SCR 27) Kopp. Residential care facilities.

This measure would create the Care Facilities Task Force consisting of representatives from local government and social service groups to analyze issues related to funding, dispersal, and oversight of residential care facilities. The measure would require the Legislative Analyst to organize the prescribed task force, with the first meeting scheduled no later than one month after the resolution becomes effective.

The measure would require the task force to submit a report to the Governor and the Legislature on or before January 31, 1998.

Res. Ch. 97 (SCR 42) Kopp. Implementation of the Agreement on Mutual Cooperation.

This measure would state the request of the Senate and Assembly of the State of California that the "Agreement on Mutual Cooperation" (officially known as the "Agreement of Friendship and Partnership between the State of California, USA, and the Russian Soviet Federative Socialist Republic, USSR") be put into full effect without further delay after first amending it, as specified.

Res. Ch. 98 (SJR 25) Solis. Job Creation and Infrastructure Restoration Act and Jobs 2000 Act of 1997.

This measure would affirm the Legislature's endorsement of the federal Job Creation and Infrastructure Restoration Act of 1997, including the Jobs 2000 Act of 1997, and would urge the United States Congress to pass the act at once, to meet the urgent demands of the welfare, job, and infrastructure crisis across the nation.

Res. Ch. 99 (SJR 26) Kopp. Aircraft Repair Station Safety Act of 1997.

This measure would memorialize the Congress of the United States to enact the Aircraft Repair Station Safety Act of 1997.

Res. Ch. 100 (ACR 32) Cardoza. State Collection of Arthropods.

This measure would designate the Plant Pest Diagnostics Center of the Division of Plant Industry of the Department of Food and Agriculture as the official repository for the collection of arthropods in the State of California to be known as the State Collection of Arthropods. The measure would also request the department to determine the cost of appropriate plaques and markers showing the special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 101 (ACR 63) Prenter. Reserve peace officers.

This measure would encourage all Californians to join with the Legislature in commending reserve peace officers for their service, dedication, and commitment to the citizens of California.

Res. Ch. 102 (SCR 3) Kopp. California Law Revision Commission: studies.

Under existing law, the California Law Revision Commission is required to study, and is limited to studying, those topics approved for its study by concurrent resolution of the Legislature.

This measure would grant approval to the commission to continue its study of designated topics that the Legislature previously authorized or directed the commission to study, and would delete 3 topics that previously were approved by the Legislature for study by the commission.

Res. Ch. 103 (SCR 23) Polanco. Minority enrollment in medical schools.

This measure would request the University of California medical schools to report to the Regents of the University of California and to the California Postsecondary Education Commission the current status of ethnic minority enrollment in their respective schools, as specified. The measure also would request the commission, to the extent sufficient nonstate funds are available and in consultation with the California Research Bureau and the Office of Statewide Health Planning and Development, to develop recommendations for innovative strategies and incentive programs that will encourage physicians and other health care professionals to practice in geographic areas where health needs are underserved, as specified, and to issue a report to the Governor and the Legislature no later than June 30, 1998.

Res. Ch. 104 (SCR 38) Alpert. Women in military service for America.

This measure would commend the achievements of women in the military and recognize the construction of the Women in Military Service for America Memorial in Arlington, Virginia.

Res. Ch. 105 (SCR 39) Johnston. Cloning of humans.

This measure would urge the State Director of Health Services to establish a panel to advise the Legislature and the Governor on human cloning and, by December 31, 2001, to make recommendations to them as to how to proceed.

Res. Ch. 106 (SCR 43) Leslie. Stephen P. Teale Highway: Amador County Veterans Memorial Bridge.

This measure would designate the portion of State Highway Route 26 between the communities of Mokelumne Hill and West Point in Calaveras County the Stephen P. Teale Highway, designate Bridge 26-17 on State Highway Route 49 the Amador County Veterans Memorial Bridge, and designate the portion of State Highway Route 89 between the City of Truckee and Tahoe City the 10th Mountain Division Memorial Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing these special designations and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 107 (SCR 48) McPherson. Thomas M. Sanders Memorial Bridge.

This measure would dedicate the State Highway Route 1 bridge at Burns Creek in the Big Sur area of Monterey County to the memory of Thomas M. Sanders.

This measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers, consistent with signing requirements for the state highway system, showing that dedication and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 108 (SCR 54) Lockyer. Employment: overtime compensation.

Existing law establishes the Industrial Welfare Commission and authorizes the commission to adopt rules, orders, and regulations governing the hours and conditions of employment in the various occupations, trades, and industries in which employees are employed in California. Existing law also provides that 8 hours of labor constitutes a day's work, as specified.

This measure would declare that the action of the commission in amending certain wage orders to eliminate the requirement to pay overtime compensation for work in excess of 8 hours per day is in conflict with the intent of the Legislature, exceeds the commission's authority, eliminates certain employee protections, and reduces the number of employees subject to other specified provisions of law.

Res. Ch. 109 (SJR 27) Kopp. World Exposition, EXPO 2000.

This measure would express legislative support for the participation of the United States, and individual states, in the World Exposition, EXPO 2000, in Hannover, Germany, and would respectfully memorialize the President and Congress of the United States to initiate any actions and appropriate any funds needed to ensure the ability of the United States, the individual states, or both, to participate in EXPO 2000. The measure would further express legislative intent and interest in ensuring that the State of California, jointly with private and nonprofit entities, be represented at EXPO 2000.

Res. Ch. 110 (SJR 29) Vasconcellos. Cryptographic products: export controls.

This measure would memorialize the President and Congress of the United States to take immediate action to revise current federal export controls on American cryptographic products.

Res. Ch. 111 (ACR 12) Cunneen. State Highway Route 85.

This measure would state that it is the intent of the Legislature that the median barrier on State Highway Route 85 between the City of Cupertino and the City of San Jose in Santa Clara County be dedicated to those persons who lost their lives as a result of median crossover vehicle accidents, indicated by a plaque stating the name of each person and the date of the accident, located on the Dent Street pedestrian overpass in San Jose for view by pedestrians.

The measure would also request the Department of Transportation to determine the cost of an appropriate plaque, indicating these names and dates and, upon receiving donations from nonstate sources covering that cost, to erect that plaque.

Res. Ch. 112 (ACR 57) Goldsmith. Kumeyaay Highway.

This measure would designate a specified section of Interstate Highway Route 8 in San Diego County as the "Kumeyaay Highway," and would request the Department of Transportation to erect plaques and markers showing the designation if contributions from private sources are received to cover the costs.

Res. Ch. 113 (AJR 32) Kuykendall. Allied Hmong-Lao veterans.

This measure would memorialize the President and Congress of the United States to recognize the sacrifices and services rendered to our country by the Hmong-Lao veterans who served in the special guerrilla units that were allied with, and operating in support of, the military forces of the United States during the Vietnam War by granting those veterans and their families full United States citizenship.

Res. Ch. 114 (ACR 74) Kaloogian. Workplace Fitness Month.

This measure would proclaim the month of October 1997 as Workplace Fitness Month in California, and would encourage all Californians to participate in regular exercise programs and physical activity, for healthier lives and improved work performance and satisfaction.

Res. Ch. 115 (AJR 36) Machado. Child passenger restraint systems.

This measure would memorialize the President and Congress of the United States to work together to promote and support practical methods of encouraging automobile manufacturers to address problems relating to child passenger restraint systems, as prescribed.

Res. Ch. 116 (SCR 26) Committee on Public Employment and Retirement. State employee merit awards.

This measure would request that additional merit award payments, authorized by the Department of Personnel Administration, be made to specified individuals whose proposals have resulted in annual savings and net revenue gain to the state.

Res. Ch. 117 (SCR 46) Karnette. Cancer awareness: William "Walkin' Willie" Croker.

This measure would commend William "Walkin' Willie" Croker for his efforts to promote the need for cancer screening.

Res. Ch. 118 (SCR 49) Hughes. School Safety Month and Yellow Ribbon Week.

Existing law and the California Constitution set forth various provisions relating to school safety.

This measure would designate October 1997 as School Safety Month and the week of January 12 through 16, 1998, as Yellow Ribbon Week.

Res. Ch. 119 (SCR 52) O'Connell. National Lymphoma Awareness Week.

This measure would designate the week of October 12 through October 18, 1997, as National Lymphoma Awareness Week and recognize the work of the Lymphoma Research Foundation of America.

Res. Ch. 120 (SCR 53) Watson. Dr. George Washington Carver Day.

This measure would designate January 5th as "Dr. George Washington Carver Day," in honor and celebration of his many accomplishments and contributions to the people of California, the United States, and the world.

Res. Ch. 121 (ACR 26) Gallegos. Business Watch.

This measure would designate the month of November 1997, as Business Watch Month, and would commend Business Watch for its successful programs in fighting crime.

Res. Ch. 122 (ACR 58) Ortiz. Nutrition.

This measure would request that the Governor develop a comprehensive, coordinated food and nutrition policy for California by creating a Blue Ribbon Task Force on Food and Nutrition Policy, composed of members and experts from representative governmental agencies and voluntary organizations, that addresses the problems associated with poor diet and diet-related diseases, builds upon the Blueprint for Coordinated Food and Nutrition Policy, and considers all policy options and the cost effectiveness and benefits to individuals of federal food, nutrition, and health programs.

The measure would also request the Blue Ribbon Task Force to make a report to the Governor and the Legislature no later than December 31, 1998.

Res. Ch. 123 (ACR 68) Morrissey. Mexican independence.

This measure would call on all the people of California to join the people of Mexico and Californians of Mexican heritage in celebrating Mexican independence on the anniversary of the popular uprising of September 16, 1810.

Res. Ch. 124 (AJR 4) Floyd. Antipersonnel landmines.

This measure would encourage the leaders of the United States to work with our allies and other nations toward the creation of an international ban on the manufacture, stockpiling, sale, and the use of antipersonnel landmines, and to urge the President and Congress of the United States to make permanent the current moratorium on the export of antipersonnel landmines.

Res. Ch. 125 (AJR 13) Havice. Social security: Medicare: balanced budget amendment.

This measure would memorialize the President and Congress of the United States to continue efforts to ensure that social security and Medicare are not threatened, to protect older Americans from harm and stress, to stop efforts to hurt the income security of older Americans, and to ensure that older Americans continue to receive all that they are entitled to and deserve.

Res. Ch. 126 (AJR 18) Shelley. Convention on the Elimination of All Forms of Discrimination Against Women.

This measure would commend the efforts of the National Committee on the United Nations to promote the universal adoption of the United Nations Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW), would urge the United States Senate to ratify CEDAW, and would declare that the Assembly of the State of California shall work to ensure the elimination of discrimination against women and girls in the State of California.

Res. Ch. 127 (ACR 21) Woods. Small School District Week.

Existing law defines small school districts for the purpose of computing apportionments.

This measure would recognize the uniqueness of small school districts by designating the 3rd week of September as Small School District Week.

Res. Ch. 128 (ACR 76) Wayne. Breast Cancer.

This measure would designate the month of October as Breast Cancer Awareness Month and would designate Monday, October 20, 1997, as Breast Exam and Mammography Awareness Day. The measure would emphasize that the public education efforts conducted during the month of October should be part of an ongoing, year round effort to raise public awareness across the state and would recognize that the only effective means of protecting women against breast cancer is to make breast cancer research a priority and fund critically needed research into the cause, cure, and prevention of breast cancer.

Res. Ch. 129 (ACR 77) Thomson. Mental Illness Awareness Week.

This measure would declare the week from October 5, 1997, through October 11, 1997, Mental Illness Awareness Week.

Res. Ch. 130 (AJR 37) Ortiz. Ovarian cancer research.

This measure would memorialize the President and Congress of the United States to support House Bill No. 953 by Representative Patsy Mink, the Ovarian Cancer Research and Information Amendments of 1997.

Res. Ch. 131 (AJR 39) Thomson. Intermodal Surface Transportation Efficiency Act.

This measure would respectfully memorialize the Congress of the United States to enact Legislation to reauthorize the Intermodal Surface Transportation Efficiency Act in a manner that accomplishes prescribed objectives.

Res. Ch. 132 (SCR 50) Johannessen. 50th anniversary of the United States Air Force.

This measure would commemorate the 50th anniversary of the United States Air Force since its inception as an independent arm of the United States Armed Forces on September 18, 1947. The measure would recognize the Air Force's historical antecedents and its many achievements in the two World Wars, between the wars, the Korean War,

Vietnam, and the Space Program, including, among other things, the Air Force's pioneering achievements in aeromedical research, the development of the Strategic Air Command (SAC), and the United States Air Force's intercontinental ballistic missile program.

Res. Ch. 133 (SCR 55) Mountjoy. Gladys Sargent.

This measure would dedicate a memorial bench in honor of Gladys Sargent for her tireless efforts to protect California's animal population.

Res. Ch. 134 (SCR 59) Solis. Relative to Mother Teresa.

This measure would honor the memory of Mother Teresa, and would encourage the people of California to reflect upon her integrity, her humility, and her philanthropy.

Res. Ch. 135 (ACR 78) Bordonaro. Highways: Willard H. Murray Freeway: Jack O'Connell Highway.

This measure would designate a portion of State Highway Route 91 the Willard H. Murray Freeway and a portion of State Highway Route 46 the Jack O'Connell Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing those special designations and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 136 (AJR 38) Bustamante. Asian and Pacific Islander American civil rights.

This measure would express support for a full, fair, and complete investigation of legal and ethical violations during the 1996 campaigns, and would memorialize the President and the Congress to condemn all prejudice against Asian and Pacific Islander Americans, and to publicly support political and civic participation by these persons throughout the United States.

DIGEST OF RESOLUTION
ADOPTED IN 1997

1997–98 FIRST EXTRAORDINARY SESSION

RESOLUTION CHAPTER

Res. Ch. 1 (AJR 1) Oller. Federal flood relief: transportation funds.

This measure would urge the Federal Highway Administrator to immediately release all of the requested transportation funds for which California is eligible as a result of damage from floods.

1997 DIGEST CHAPTERS SUPERIOR NUMBERS

- 1 [Ch. 10] On this date I have signed Assembly Bill No. 169, however, I am reducing the allocation provided in Section 1(a)(1) of this bill for staffing for the Department of Forestry and Fire Protection from \$1,962,000 to \$1,100,000, or by \$862,000, to more accurately reflect the staffing needs of the Department based on the enactment date of this bill. Indeed, the original figure of \$1,962,000 was based upon an enactment of this measure in March.

PETE WILSON, Governor

- 2 [Ch. 282] I object to the following appropriations contained in Assembly Bill 107.

Item 0250-001-0001—For support of Judiciary. I reduce this item from \$186,358,500 to \$185,858,500 by reducing:

(b) 20-Courts of Appeal from \$125,061,000 to \$124,561,000.

This veto is necessary to conform the Budget Act with the Legislature's action to eliminate \$500,000 in funding for the Document Management System.

Item 0450-111-0001—For local assistance, State Trial Court Funding. I reduce this item from \$196,588,000 to \$191,488,000.

This veto is necessary to conform the Budget Act with the Legislature's action taken in this item to eliminate increased funding for court security and to change the proposed distribution of specific fines and penalties to cities. This results in a net reduction to this Item of \$5,100,000.

Item 0505-001-0001—For support of the Department of Information Technology. I delete Provision 5.

I am deleting Provision 5 which would require the Department of Information Technology to work with the Department of General Services (DGS) to develop recommendations for improving current state contracting practices for information technology projects. This is necessary because the DGS has already developed recommendations for procurement reform which are included in pending legislation which would enact the California Acquisition Reform Act of 1997.

Item 0690-101-0320—For local assistance, Office of Emergency Services. I delete this item.

I am deleting the \$200,000 legislative augmentation to fund preliminary plans and working drawings for an Emergency Operations Center for Santa Barbara County. Construction of this facility is a local, not a state, responsibility.

Item 0820-001-0001—For support of Department of Justice. I reduce this item from \$203,256,000 to \$203,056,000 by reducing:

(g) 50-Law Enforcement from \$171,709,000 to \$171,509,000, and by deleting Provisions 5 and 6.

I am deleting the \$200,000 legislative augmentation for support of narcotic information networks because it is unnecessary. I have been informed that federal funds previously provided through a federal grant award to the Department of Justice for the narcotic information networks are now provided to local agencies. Local agencies are, in turn, availing themselves of the information contained in the system and are reimbursing the Department of Justice to maintain the networks.

I am deleting Provisions 5 and 6 to conform to this action.

Item 0860-001-0001—For support of State Board of Equalization. I reduce this item from \$182,197,000 to \$181,289,000 by reducing:

(a) 100000-Personal Services from \$214,795,000 to \$214,339,000, and
(b) 300000-Operating Expenses and Equipment from \$77,330,000 to \$76,878,000, and by deleting Provision 1.

I am deleting the \$908,000 augmentation for Insurance Tax collection and auditing activities because the Legislature did not pass the necessary authorizing legislation. I recognize the need for increased resources for these purposes and will support legislation to provide funding to the Department of Insurance.

I am deleting Provision 1 and identical language in Item 1760-001-0666, which requires approval of the Board of Equalization of any contract for janitorial and property management services for the building they occupy in Sacramento. This language is an infringement on the ability of the Executive Branch to efficiently manage all state buildings, which includes the State Board of Equalization headquarters building. This language is also inconsistent with current law which provides for service contracts to be competitively bid.

Item 1100-001-0001—For support of California Science Center. I reduce this item from \$8,529,000 to \$8,329,000 by reducing:

(c) 40.01-Administration from \$1,238,000 to \$1,038,000, and by deleting Provision 3.

I am deleting the \$200,000 legislative augmentation for a study on Exposition Park. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I delete Provision 3 to conform to this action.

Item 1111-101-0001—For local assistance, Department of Consumer Affairs. I delete this item and Provision 1.

I am deleting the \$1,510,000 legislative augmentation for the Verdugo Hills of Peace Cemetery. This item would appropriate funds for allocation to the City of Los Angeles when the city assumes receivership of this cemetery and conservatorship of the cemetery's endowment care fund. This appropriation would set an undesirable precedent by using General Fund moneys to address the financial problems of local cemeteries.

Item 1760-001-0002—For support of Department of General Services. I delete Provision 1.

Provision 1 authorizes the Department of General Services to exchange with the City of Los Angeles, in whole or in part, approximately 20 acres of land located in the City of Los Angeles within the area bounded by Santa Fe Avenue, the Los Angeles River, Olympic Boulevard and Washington Boulevard.

I am deleting Provision 1 because the language restricts the Department of General Services' options for disposing of this property which was designated surplus in Chapter 695, Statutes of 1992. This property was purchased with General Obligation Bond funds approved by the voters to build and expand youth and adult correctional facilities. The property is in the process of being sold and the proceeds from the sale of this property should be returned to the 1986 Prison Construction General Obligation Bond Fund, from which the funds were appropriated.

Item 1760-001-0666—For support of Department of General Services. I delete Provision 11.

Provision 11 prohibits any funds from being expended for any property services described in a three-party contract between the Board of Equalization, the Department of General Services and a private vendor for property services to the Capitol Square Building at 450 N Street occupied by the Board of Equalization, except under a contract approved by vote of the members of the Board of Equalization.

I am deleting Provision 11 because this language impedes on the ability of the Department of General Services to efficiently manage this building, as the Department would not have sufficient resources to pay for administering maintenance contracts

necessary to operate and maintain the building. Under current law, the Department of General Services is authorized to administer and maintain the buildings under its care as well as to charge an appropriate fee for these services.

I am also revising this item to conform to the action I have taken in Item 1760-001-0001.

Item 1760-492—Reappropriation, for capital outlay, Department of General Services. I revise this item by deleting Provision 2.

I am deleting Provision 2 which would have reappropriated funds for the working drawings and construction phase of the Hazard Mitigation and Demolition of the Legislative Office Building Annex project. The most recent project schedule indicates the funds will not be necessary in 1997–98.

Item 1880-001-0001—For support of State Personnel Board. I delete Provision 1.

Provision 1 requires the State Personnel Board to remain in its existing building at 801 Capitol Mall and prohibits funds appropriated in this item from being used to relocate the State Personnel Board staff or functions from this location. This language interferes with the ability of the Executive Branch to manage its programs and deploy staff in the most appropriate manner. In addition, the language is unnecessary because the Administration's previous plan to relocate the State Personnel Board has been revised and no funds have been appropriated to relocate the Board.

Item 2100-001-0081—For support of Department of Alcoholic Beverage Control.

I am sustaining the legislative augmentation of \$2,000,000 to this item and the \$500,000 augmentation in Item 2100-101-0081 for the Grant Assistance to Law Enforcement (GALE) program. The augmentation will provide for 18 additional field investigator positions and 6 associated support positions. I will, however, be vetoing Assembly Bill 783 which was intended to provide a permanent funding source for this augmentation by redirecting fine revenues from the General Fund to the Alcohol Beverage Control Fund. It is clear, however, that, as desirable as added enforcement resources are, the program level contained in this augmentation cannot be sustained without sufficient additional revenues to maintain it. In order to continue the added level of enforcement, I am amenable to legislation to provide added revenues to the fund without affecting the State General Fund.

Item 2240-003-0001—For support of Department of Housing and Community Development. I delete this item.

I am deleting this item and the funding of \$150,000 which provides a transfer of funds from the State General Fund to the Rental Housing Construction Fund to fund support costs for the Urban Predevelopment Loan Program. I delete this item in conformance with my action on Item 2240-105-0001.

Item 2240-003-0938—For support of the Department of Housing and Community Development. I delete this item.

I am deleting this item and the funding of \$150,000 which provides for support costs, funded from the Rural Housing Construction Fund, for the Urban Predevelopment Loan Program. I delete this item in conformance with my action on Item 2240-105-0001.

Item 2240-105-0001—For local assistance, Department of Housing and Community Development. I delete this item.

I am deleting this item and the funding of \$1,000,000 for transfer from the General Fund to the Rental Housing Construction Fund. These funds were intended to renew funding for the Urban Predevelopment Loan Program which has not been funded since 1992–93. I am not convinced of the need to reestablish this program and am therefore unwilling at this time to commit new state funding for this purpose.

Item 2240-105-0938—For local assistance, Department of Housing and Community Development. I delete this item and Provision 1.

I delete this item in conformance with my action on Item 2240-105-0001.

Item 2600-001-0046—For support of California Transportation Commission. I delete Provision 1.

I am deleting Provision 1 which requires the California Transportation Commission to notify the Joint Legislative Budget Committee and the Chairperson of the fiscal committee of each house that considers budget appropriations before allocating funding for the working drawing phase of traffic management centers.

This language is inconsistent with statutes governing the process for managing and allocating funds for highway capital outlay whereby the California Transportation Commission programs transportation projects and allocates transportation funding. Additionally, the language does not fit the Commission's allocation process since the Commission does not allocate funding based on construction phases but rather on a project-by-project basis. Finally, this language may result in project delays and would infringe on the Executive Branch's ability to effectively manage the program.

Item 2660-001-0042—For support of the Department of Transportation. I revise this item by reducing:

- (i) 30-Mass Transportation from \$76,166,000 to \$72,568,000, and
- (q) Amount payable from the Transportation Planning and Development Account, State Transportation Fund (Item 2660-001-0046) from (–\$85,843,000) to (–\$82,245,000),

and by deleting Provision 7.

I am deleting Provision 7 which requires the Department of Transportation to redirect \$600,000 to pay for a Bureau of State Audits performance review of the Department's capital outlay support, information technology, telecommunications, financial analysis, and planning projections. The purposes and objectives of the proposed audit are unspecified, lacking in focus, and appear to duplicate the work of SRI International which issued a report covering similar topics in early 1994. The redirection of \$600,000 from the Department's support budget for this audit constitutes an unallocated reduction to the Department, which reduces resources available to implement the recommendations of the SRI report. For these reasons, I question the value of initiating another performance review of the department at this time.

I am revising the schedules in this item to conform to the action I have taken in Item 2660-001-0046.

Item 2660-001-0046—For support of Department of Transportation. I reduce this item from \$85,843,000 to \$82,245,000 and delete Provisions 5 and 7.

I am reducing this item by \$1,548,000 which would fund intercity passenger rail route services operated under contract by the National Passenger Railroad Corporation for the operation of a fifth and sixth train on the Capitol Corridor. In addition, I am also reducing this item by \$550,000 for extending service between Sacramento and Stockton.

While I support these two proposals for service expansion, they are premature as negotiations with the Union Pacific railroad regarding necessary signalization and track improvements for a fifth and sixth Capitol Corridor train have not concluded, and these improvements will not be in place in time to begin service in 1997–98. Similarly, the track improvements which are needed to make the connection for the Sacramento-to-Stockton extension are not complete. Negotiations with the railroads that control these tracks have not been concluded, and this service cannot begin in 1997–98. Thus, there is little likelihood that these funds could be spent in 1997–98.

As a conforming action, I am deleting Provision 7.

I am deleting the \$1,500,000 augmentation to expand intercity passenger rail route services between the counties of Los Angeles, Riverside, and San Bernardino to the Coachella Valley on weekends for a nine-month period in conjunction with the Southern California Regional Rail Authority's existing operations. There is no market analysis of this route to determine whether it represents a viable route for investing Transportation Planning and Development Account resources. In addition, this augmentation sets the precedent of the State providing intercity rail funding to transit agencies for local rail operations.

As a conforming action, I am deleting Provision 5.

Item 2720-011-0042—For support of the California Highway Patrol. I revise this item by deleting Provision 1.

I am deleting Provision 1 which would state Legislative intent to limit future State Highway Account funding of the Commercial Motor Vehicle Inspection Program to 40 percent. Existing law does not place any limits or restrictions on the use of State Highway Account funds for support of the Commercial Vehicle Inspection Program within the California Highway Patrol. The funding source for this program is an appropriate subject to be addressed annually in the budget process and should not be limited.

Item 2780-001-0683—For support of Stephen P. Teale Data Center. I revise this item by revising Provision 1.

I am revising Provision 1 of this item to delete language that would unnecessarily restrict the provision from applying to expenditures related to payment of services provided by private law firms. Because of the irregularity and unpredictability of the need for such legal services, this provision interferes with the ability of the Executive Branch to engage legal representation as required.

"1. Notwithstanding any other provision of law, the Director of Finance may authorize expenditures for the Stephen P. Teale Data Center in excess of the amount appropriated not sooner than 30 days after notification in writing of the necessity therefor is provided to the chairpersons of the fiscal committees in each house of the Legislature and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the chairperson of the committee, or his or her designee, may in each instance determine. ~~However, no expenditure authorized by this provision may be applied, directly or indirectly, to pay for services provided by a private sector law firm.~~"

Item 2920-001-0001—For support of California Trade and Commerce Agency. I revise this item by deleting Provisions 1 and 4.

The Legislature adopted Provision 1 to appropriate an additional \$30,000 for Program 10, Economic Development, contingent upon Agency notification to the Legislature of having compiled and published information relating to state assistance available to businesses. I am deleting this provision because it is an inappropriate way to establish priorities in the budget. Although this proposal may have merit, it is not of comparable priority to the Agency's existing business assistance activities.

I am deleting Provision 4 which directs the Trade and Commerce Agency to allocate \$100,000 of the funding in Program 20, the International Trade and Investment Program, subject to obtaining matching funds from private sources, for the state's participation in the 1998 exposition in Lisbon, Portugal. Within the funding for the International Trade and Investment Program are resources for the Trade and Commerce Agency to be represented at various domestic and international trade shows and expositions. The decision as to which shows and expositions to participate in is determined on a priority basis, based on an evaluation of the potential for generating increased trade or tourism to the state.

Item 2920-101-0001—For local assistance, California Trade and Commerce Agency. I revise this item by deleting Provision 3.

The Legislature adopted Provision 3 directing the Trade and Commerce Agency to allocate up to \$125,000 of the funds appropriated in this item for economic development to the California Council of Science and Technology to conduct a study on how the state organizes and conducts its research and development in science and technology and to recommend the best ways to deliver this technology to the state's industrial base. I am deleting this provision because there is no clear link between academic research and the development matching grant programs of the Trade and Commerce Agency. In addition, the Agency has typically been able to leverage its funding for strategic technology projects to obtain additional funds from federal and private sources. Although the project designated in this language would be eligible to compete on a priority basis for funding administered by the Agency, it is not likely that it would qualify for federal matching funds. I am not willing to sacrifice the potential to fund higher priority projects to specify the particular project in this language.

Item 3360-001-0381—For support of the State Energy Resources, Conservation and Development Commission. I revise this item by deleting Provisions 1 and 2.

I am deleting Provision 1 because this language is unnecessary and duplicative. Chapter 854, Statutes of 1996, already requires enactment of administrative and expenditure criteria before expenditure of funds.

I am deleting Provision 2 because Control Section 2.0 of this Act limits the funds contained in this item to expenditure only during the 1997–98 fiscal year, making this language unnecessary.

Item 3360-001-0382—For support of State Energy Resources, Conservation and Development Commission. I revise this item by deleting Provisions 1 and 2.

I am deleting Provisions 1 and 2 which would allocate funds appropriated by this item, specify future allocation of funds, and all revenues to four sub-funds. I am deleting this language because it appears to restrict the ability of the Commission to manage its operations.

Item 3480-001-0001—For support of Department of Conservation. I revise this item by reducing:

- (c) 30-Land Resource Protection from \$2,345,000 to \$2,308,000, and
- (k) Amount payable from the California Environmental License Plate Fund (Item 3480-001-0140) from –\$92,000 to –\$55,000.

I am revising this item to conform to the action I have taken in Item 3480-001-0140.

Item 3480-001-0140—For support of Department of Conservation. I reduce this item from \$92,000 to \$55,000.

I am reducing this item by \$37,000 which the Legislature added for farmland mapping in Mendocino County. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 3540-001-0001—For support of Department of Forestry and Fire Protection. I reduce this item from \$263,306,000 to \$262,825,000 by reducing:

- (a) 100000-Personal services from \$308,273,000 to \$308,241,000,
- (b) 300000-Operating expenses and equipment from \$121,869,000 to \$121,288,000, and
- (h) Amount payable from the California Environmental License Plate Fund (Item 3540-001-0140) from –\$926,000 to –\$794,000.

I am deleting the \$481,000 legislative action that transferred the establishment of a centralized training facility for an urban search and rescue program from the Office of Emergency Services (OES), as I proposed in the budget, to the Department of Forestry and Fire Protection (CDF). The Legislature inappropriately moved this program

activity to CDF. This responsibility properly belongs with OES which currently establishes all required standards for training, equipment, and operational tactics for urban search and rescue teams. Additionally, OES is responsible for the coordination and management of the eight urban search and rescue task forces that make up the State's urban search and rescue system. I will support legislation to restore the funding for this program in OES. I am revising this item to conform to the action I have taken in Item 3540-001-0140.

Item 3540-001-0140—For support of Department of Forestry and Fire Protection. I reduce this item from \$926,000 to \$794,000 and delete Provisions 1 and 2.

I am deleting the legislative augmentation of \$100,000 for research on the pine pitch canker fungus. The Department of Forestry and Fire Protection is already an active participant, along with the federal government, local governments and commercial growers, of the Pine Pitch Task Force which is attempting to address the spread of this disease. It is not clear that this augmentation is needed at this time given the work of the Task Force.

I am also deleting the legislative augmentation of \$32,000 to provide permanent funding for the Red Mountain Fire Lookout. After extensive evaluation by the Department of Forestry and Fire Protection, it has been determined that fire lookouts are no longer critical to firefighting efforts as they have become a secondary notification source due to increased populations moving into wildland areas and modern technology, such as cellular phones. Consequently, it is not an efficient use of the Department's limited firefighting resources to staff these lookouts. Moreover, the California Environmental License Plate Fund does not appear to be an appropriate funding source for the permanent support of fire lookout stations.

I am deleting Provisions 1 and 2 to conform to these actions.

Item 3600-001-0140—For support of Department of Fish and Game. I reduce this item from \$11,643,000 to \$11,146,000, and delete Provisions 2 and 3 and revise Provision 4.

I am deleting the legislative augmentation of \$170,000 and 1.9 personnel years for enforcement and management at South Spit in Humboldt County to handle illegal encampment and refuse/debris problems. This is a local enforcement problem and it would be inappropriate for the State to fund this local responsibility. Moreover, the State does not have jurisdiction over this property. In addition, it is unclear if this project qualifies as an appropriate use of California Environmental License Plate Funds.

I am deleting the legislative augmentation of \$177,000 and 1.9 personnel years for two biologists at Clear Lake and other lakes and reservoirs that are accessible from major urban areas. It is unclear if there is sufficient workload for the additional positions. Workload needs should be evaluated in the context of the department's statewide staffing needs and priority programs as well as availability of funds.

I delete Provisions 2 and 3 to conform to the above actions.

I am reducing the legislative augmentation of \$300,000 by \$150,000 to fund the levee construction work at the Pine Creek Unit-Expansion #3. Construction of this levee would provide future flood protection between a department managed habitat area and private property at Pine Creek. Because the property is managed for riparian habitat purposes and would provide habitat benefits, it would be appropriate to use other available special funds for this purpose. As such, I am directing the Department and the Wildlife Conservation Board to identify funding for the remaining \$150,000.

I revise Provision 4 to conform to this action.

“From funds appropriated by this item, the Department of Fish and Game shall make disbursements, not to exceed ~~\$300,000~~ \$150,000, to owners of real property located near the Department's Pine Creek Unit-Expansion #3, in the County of Glenn, for purposes of the construction of a levee to protect against future flooding of those prop-

erties resulting from the failure of the adjacent levee owned by the Department of Fish and Game. A memorandum of agreement shall be executed between the Department of Fish and Game and all the owners of the real property adjoining the proposed levee. The memorandum shall include provisions requiring the maintenance of the levee by the owners of the real property.”

Item 3600-001-0200—For support of Department of Fish and Game. I revise this item by reducing:

- (a) 10-Enforcement of Laws and Regulations from \$34,826,000 to \$34,656,000,
- (c) 35-Wildlife and Natural Heritage Management from \$46,137,000 to \$45,987,000,
- (d) 55-Fisheries Management from \$72,604,000 to \$72,427,000, and
- (k) Amount payable from the California Environmental License Plate Fund (Item 3600-001-0140) from -\$11,643,000 to -\$11,146,000.

I revise this item to conform to the action I have taken in Item 3600-001-0140.

Item 3640-101-0262—For local assistance, Wildlife Conservation Board. I delete this item and Provision 1.

I am deleting the \$250,000 legislative augmentation for a local assistance grant to the City of La Canada-Flintridge for the Cherry Canyon acquisition. This project is not of a sufficient priority to justify the use of limited state resources. This action conforms with action taken in the Department of Parks and Recreation (Item 3790-101-0262).

I delete Provision 1 to conform to the action taken in this item.

Item 3640-101-0545—For local assistance, Wildlife Conservation Board. I delete this item and Provision 1.

I am deleting the \$1,500,000 legislative augmentation for a local assistance grant to the City of Sacramento to acquire lands for a parkway along the Sacramento River. The needs at that location have not been prioritized relative to other qualifying projects along the Sacramento River. Additionally, provisional language requires that the acquisitions be made from willing sellers. The total costs for acquisition appear to be substantial because of the requirement of willing sellers; setting aside resources for this purpose with that requirement does not appear to be prudent.

I am also deleting Provision 1 to conform to the action taken in this item.

Item 3680-101-0516—For local assistance, Department of Boating and Waterways. I reduce this item from \$45,162,000 to \$44,612,000 by reducing:

- (b) 20-Boating Operations from \$9,225,000 to \$8,725,000,
- (c) 30-Beach Erosion Control from \$4,473,000 to \$3,423,000, and by deleting:
- (e) Amount payable from the Renewable Resources Investment Fund (Item 3680-101-0940) (-\$1,000,000).

I am deleting the legislative augmentation of \$50,000 for the County of Santa Cruz, East Cliff Drive Beach Erosion Repair project. The January Budget included \$960,000 for this project, which has been sustained by the Legislature. It is unclear why there is a need for an additional contribution from the State. While I am supportive of this project, as noted by the inclusion of \$960,000, this project is not of sufficiently high priority to justify a further augmentation using limited state resources, and by deleting:

Redwood City: Disposal of Abandoned Vessels \$500,000.

I am reducing this item by \$500,000 for the above mentioned local assistance grant to Redwood City. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I delete Provisions 4 and 6 to conform with actions taken in Item 3680-101-0940.

I revise this item to conform to the actions taken in Item 3680-101-0940.

Item 3680-101-0940—For local assistance, Department of Boating and Waterways. I delete this item and Provision 1.

I am deleting the legislative augmentation of \$700,000 for the U.S. Navy Aircraft Carrier Homeporting Project for the San Diego Association of Governments. While the project may have merit, state funding of \$4 million has been appropriated over the past two years with the understanding that the State would contribute 25 percent of the total costs. To date, the entire \$4 million has been paid and the State's commitment is complete. I understand that there has been a recent decrease in the project costs. As such, the need for this augmentation is unclear since it represents a significant increase in the State's current commitment.

I am deleting the legislative augmentation of \$300,000 to fund a sand replenishment program. While the program may have merit, I am concerned that this appropriation could result in significant future costs to the state as the sand continues to migrate to the ocean floor.

I am also deleting Provision 1 to conform to the action in this item.

Item 3760-301-0383—For capital outlay, State Coastal Conservancy. I revise this item by deleting Provision 3.

I am deleting Provision 3 because it permits the Conservancy to give priority to the Pier 98 Wetlands Enhancement and Public Access Project in the San Francisco Bay. While this provision is permissive, it would create an expectation that the project will be undertaken without regard to its merit and readiness relative to other eligible projects. Deletion of this provision does not prevent the Conservancy from undertaking the project, but does allow the Conservancy to evaluate the project according to its established review process.

Item 3760-301-0545—For capital outlay, River Parkway Subaccount. I reduce this item from \$8,000,000 to \$7,000,000 by deleting:

(5) 80.97.094—River Parkway Program, Guadalupe River (\$1,000,000).

I am deleting this project because its priority has not been evaluated relative to other river parkway projects throughout the state.

Item 3790-101-0140—For local assistance, Department of Parks and Recreation. I reduce this item from \$1,310,000 to \$760,000 by reducing:

(1) 80.25 Local Grants from \$1,310,000 to \$760,000, and by deleting:

(b) City of San Diego: Coast to Crest Trail (\$200,000),

(c) City of Bellflower: West Branch Greenway Trail (\$250,000),

(e) City of Tracy: Park Improvements (\$20,000).

I am reducing the aforementioned legislative augmentations by \$470,000. These projects are not of sufficiently high priority to justify the use of limited state resources from the California Environmental License Plate Fund. In addition, the local assistance grant to the City of Tracy for park improvements is for the purchase of a graffiti abatement machine. While this project may have merit, this is an not an appropriate use of California Environmental License Plate Funds,

and by deleting:

(f) City of Redondo Beach: Wilderness Park Improvements (\$80,000).

I am deleting this legislative augmentation of \$80,000. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 3790-101-0235—For local assistance, Department of Parks and Recreation. I reduce this item from \$4,548,000 to \$1,830,000 by reducing:

(1) 80.25 Local Grants from \$4,548,000 to \$1,830,000,

by deleting:

(e) City of Glendale: Glendale Memorial Park (\$250,000),

(j) City of Sylmar: Wilson Canyon Equestrian Improvements (\$15,000),

(k) City and County of San Francisco: MLK, Jr. Community Center Pool (\$250,000),

(m) City of Oakland: Sanborn Park (\$148,000).

I am deleting the \$663,000 in legislative augmentations for the four local assistance grants listed above. These projects are not of sufficient priority to justify the use of limited resources,

and by deleting:

(a) City of Santa Maria: United Youth Center (\$1,000,000),

(g) City of San Diego: Cadman Community Park Tot Lot (\$105,000),

(h) City of San Diego: Gershwin Neighborhood Park Tot Lot (\$125,000),

(n) City of Maywood: Regional Park (\$500,000),

(o) City of Clearlake: Senior Center (\$250,000),

(cc) National City: El Toyon Park Improvements (\$75,000).

For Schedules 1(a), 1(g), 1(h), 1(n), 1(o), and 1(cc), I am reducing this item by \$2,055,000. These amounts are set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 3790-101-0262—For local assistance, Department of Parks and Recreation. I revise this item by deleting:

(2) 80.25.056 City of Canada-Flintridge: Cherry Canyon Acquisition (\$250,000),

(3) Reimbursements from (-\$250,000),

and by deleting Provision 3.

I am deleting the \$250,000 legislative augmentation for local assistance for the City of Canada-Flintridge: Cherry Canyon Acquisition, to be reimbursed from the Wildlife Conservation Board, Habitat Conservation Fund. This project is not of a sufficient priority to justify the use of limited state resources.

I delete Provision 3 to conform to this action.

Item 3790-101-0383—For local assistance, Department of Parks and Recreation. I reduce this item from \$4,181,000 to \$1,010,000 by deleting:

(1) 80.25 Local Grants from \$4,181,000 to \$1,010,000,

(b) City and County of San Francisco: Esprit Park Acquisition (\$500,000),

(c) Sunrise PRD: Robert Frost Park (\$100,000),

(d) Regional Parks Foundation: MLK Jr. Freedom Center (\$174,000),

(e) City of Los Angeles: Japanese American National Museum (\$500,000),

(f) City of Calabasas: Agoura Hills/Calabasas Community Center (\$400,000),

(h) Pittsburg Historical Society: Purchase New Museum Building (\$75,000),

(j) City of Pomona: Harrison Park (\$90,000),

(n) City of El Monte: Teen Center (\$250,000),

(q) City of San Bernardino: Nunez Park Improvements (\$150,000),

(w) City of San Diego: Bay Terrace Community Park (\$100,000),

(y) City of Mammoth Lakes: Lodestar Bike Trail (\$225,000).

While I am supportive of efforts in this area, these projects are not of sufficiently high priority to justify the use of limited state resources. Additionally, the City of Mammoth Lakes Lodestar Bike Trail is a reappropriation of Environmental Enhancement and Mitigation Demonstration Program Funds, which have been reappropriated in the CalTrans budget (Item 2660-491). As such, this augmentation is not necessary, and by deleting:

(g) Linden Unified School District: Renovation of Swimming Pool (\$25,000),

(m) City of San Diego: Regional Teen Center (\$250,000),

(o) City of San Jose: Vietnamese Cultural Heritage Garden (\$100,000),

(s) Youth Garden Alliance: Community Garden in Mendocino County (\$32,000),

(u) City of Merced: Sports Complex (\$200,000).

For Schedule 1(g), 1(m), 1(o), 1(s), 1(u), I am reducing this item by \$607,000. These amounts are set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 3790-491—Reappropriation, Department of Parks and Recreation. I delete this item.

0140-California Environmental License Plate Fund

(1) Item 3790-101-140(2), Budget Act of 1987, as reappropriated by Item 3790-491, Budget Act of 1991, 50.20.140 Sacramento County-Dry Creek Parkway Acquisition for purposes of open space and recreation.

I am deleting this item which reappropriates \$400,000 to the County of Sacramento. These funds have already been reappropriated twice for revised projects. This current reappropriation is not consistent with the intent or scope of the initial and subsequent appropriations. Because the projects for which the funds were initially intended have not been realized, the funds should revert back to the fund of origin and this project should compete for funding along with other projects.

Item 3860-001-0001—For support of Department of Water Resources. I revise this item by reducing:

(a) 10-Continuing Formulation of the California Water Plan from \$55,411,000 to \$55,261,000,

(kk) Amount payable from Local Projects Subaccount (Item 3860-001-0543) from -\$650,000 to -\$500,000.

I revise this item to conform to the action I have taken in Item 3860-001-0543.

Item 3860-001-0543—For support of Department of Water Resources. I reduce this item from \$650,000 to \$500,000.

I am reducing this item by \$150,000 by deleting the legislative augmentation for the Success Reservoir Feasibility Study. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 3900-001-0044—For support of State Air Resources Board. I revise this item by reducing:

(b) 25-Stationary Source from \$39,256,000 to \$36,756,000,

(f) Amount payable from the Air Pollution Control Fund (Item 3900-001-0115) from -\$9,836,000 to -\$7,336,000,

and by deleting Provision 1.

Provision 1 would require the Air Resources Board to expend \$50,000 of limited Air Pollution Control Fund resources on comparing air monitoring sampling technologies for methyl bromide. The budget already includes \$17,800,000 for air monitoring activities, and it is not necessary to earmark funding for this purpose at the expense of other worthwhile programs.

I am revising this item to conform to the action I have taken in Item 3900-001-0115.

Item 3900-001-0115—For support of Air Resources Board. I reduce this item from \$9,836,000 to \$7,336,000.

I am deleting the \$2,500,000 legislative augmentation for increased levels of air pollution control activities. The \$2,500,000 to fund these activities would have been raised through increased fees on California businesses. No companion legislation to the budget has been enacted to authorize such fees. Consequently, since no funding will be available, I am deleting the augmentation.

Item 3900-101-0001—For local assistance, State Air Resources Board. I delete this item to make a technical correction to the Budget Bill.

This veto is necessary to conform the Budget Act with the Legislature's action taken in Item 3900-101-0044, which denied a proposal to shift subvention funding to the General Fund.

Item 3910-001-0387—For support of California Integrated Waste Management Board. I delete Provision 4.

I am deleting Provision 4 because it is unnecessarily restrictive. It would require the California Integrated Waste Management Board to target certain programs for reduction should revenues in the Integrated Waste Management Account fall short of projections. The Board should have greater flexibility to determine the means of coping with any revenue shortfall in the Account.

Item 3930-001-0001—For support of Department of Pesticide Regulation. I revise this item by deleting Provisions 2 and 3.

In order to correct technical errors in the Budget Bill, I am deleting Provisions 2 and 3, which would specify the use of \$150,000 for pesticide use reporting, and \$1,500,000 for alternative pesticide research, respectively. Both of these provisions were considered by the Legislature and rejected, but inadvertently left in the Budget Bill. This veto will conform the Budget Act to the action taken by the Legislature.

Item 3930-001-0106—For support of Department of Pesticide Regulation. I revise this item by deleting Provisions 2 and 3.

In order to correct technical errors in the Budget Bill, I am deleting Provisions 2 and 3, which would make Department of Pesticide Regulation Fund moneys available for all departmental activities, and earmark \$500,000 for high-priority risk assessments, respectively. Both of these provisions were considered by the Legislature and rejected, but inadvertently left in the Budget Bill. This veto will conform the Budget Act to the action taken by the Legislature.

Item 3930-101-0106—For local assistance, Department of Pesticide Regulation. I revise this item by deleting Provision 2.

In order to correct a technical error in the Budget Bill, I am deleting Provision 2, which would make Department of Pesticide Regulation Fund moneys available for all departmental activities. This provision was considered by the Legislature and rejected, but inadvertently left in the Budget Bill. This veto will conform the Budget Act to the action taken by the Legislature.

Item 3940-001-0001—For support of State Water Resources Control Board. I revise this item by reducing:

(a) 10-Water Quality from \$339,493,000 to \$338,923,000,
and by deleting:

(gg) Amount payable from the California Environmental License Plate Fund (Item 3940-001-0140) (-\$570,000),
and by deleting Provision 2.

Provision 2 would authorize the State Water Resources Control Board (Water Board) to augment its Water Quality Program by \$600,000 from the General Fund to implement coastal nonpoint source abatement grants after the Water Board submits a plan to the Legislature to implement the Nonpoint Source Management Program's Technical Advisory Committee recommendations. The budget already contains over \$7 million to implement nonpoint source abatement activities. Moreover, the grant program has not been analyzed and prioritized for funding with other worthwhile programs. Consequently, I am deleting Provision 2.

I am revising this item to conform to action I have taken in Item 3940-001-0140.

Item 3940-001-0140—For support of State Water Resources Control Board. I delete this item and Provisions 1 and 2.

This item is intended to augment funding for various coastal water quality activities. I am deleting this item because the budget already contains over \$1.4 million for coastal water quality activities. Moreover, this augmentation has not been analyzed and prioritized for funding with other worthwhile programs.

I delete Provisions 1 and 2 to conform to this action.

Item 3940-001-0282—For support of State Water Resources Control Board. I revise this item by deleting Provisions 1 and 2.

Provision 1 would direct the State Water Resources Control Board to allocate the funds in this item to the regional water quality boards. Provision 2 would condition the expenditure of \$450,000 on providing a report to the Legislature on (1) overlapping and duplicative monitoring and water quality planning activities, and (2) a plan to meet current statutory requirements for toxic cleanup of bay estuaries.

I am deleting Provision 1 because I believe the Board should have the flexibility to allocate funds to programs to effectively achieve its goals.

I am deleting Provision 2 because the Board is completing the Enclosed Bays and Estuaries Plan, which is focused on establishing water quality standards that will protect the beneficial uses of bays and estuaries. The Board indicates that this is the only effort underway related to developing water quality standards for bays and estuaries, and does not overlap or duplicate other water quality planning efforts. There is no need for the language in Provision 2, which could actually cause delays in the progress that is being made in developing water quality standards by diverting staff to the preparation of the report.

Item 3940-101-0383—For local assistance, State Water Resources Control Board. I delete this item.

I am deleting the \$280,000 legislative augmentation to reimburse the Yucaipa Valley Water District (Water District) for disputed audit repayments. This augmentation is premature because the Water District has not received a final audit determination, and has not exhausted various administrative appeals. Further, there is an audit risk inherent with the receipt of any government funding that an entity receives as a condition of spending the funds.

I am also deleting the \$175,000 legislative augmentation to pay the Spring Valley Lake Association (Association) for expenses incurred for cleaning up a leaking underground storage tank after the Association's contractor had gone bankrupt and failed to leave needed documentation to support the Association's additional cleanup costs from the Underground Storage Tank Cleanup Fund (Cleanup Fund). If the Association could justify its claim, the Cleanup Fund would be the appropriate funding source.

Item 3960-001-0001—For support of Department of Toxic Substances Control. I reduce this item from \$18,731,000 to \$17,416,000, and delete Provision 3.

I am deleting the \$1,315,000 legislative augmentation for the Railroad Accident Prevention and Immediate Deployment (RAPID) program. The RAPID program should be supported by fees and reimbursements, rather than the General Fund. After this action, \$685,000 in fee and reimbursement funding will still be available to support the RAPID program in 1997-98. I fully support the purpose and objectives of the program and am willing to increase the available funding in future years from fee revenues. Although statutory authorization for RAPID fees has expired, I hope that my action in this item will spur interest in enactment of legislation that authorizes fees for the ongoing support of the RAPID program.

I am deleting Provision 3 to conform to this action.

Item 3960-001-0014—For support of Department of Toxic Substances Control. I revise this item by reducing:

- (a) 12-Site Mitigation from \$87,658,000 to \$86,343,000, and
- (h) Amount payable from General Fund (Item 3960-001-0001) from -\$18,731,000 to -\$17,416,000.

I am revising this item to conform to action I have taken in Item 3960-001-0001.

Item 4200-101-0890—For local assistance, Department of Alcohol and Drug Programs. I am sustaining the Legislature's action in this item with the following comments:

In the January Budget I had proposed that these funds be used to provide critically needed treatment services to substance abusing parents and their infants. The treatment, along with hospital protocols for early identification, would have gone far in preventing the abuse and neglect of newborn infants. The Legislature instead designated these funds to be used by the Department of Social Services for substance abuse treatment of CalWORKs recipients. While moving recipients to work and providing the necessary services to facilitate their ability to work is a high priority, numerous programs and funds are already available to serve adult populations; services to infants, however, are woefully inadequate. It is my hope that the Legislature will recognize the needs of our youngest victims and appropriate funding to provide these critically needed services.

Item 4260-101-0001—For local assistance, Department of Health Services. I reduce this item from \$6,957,490,000 to \$6,955,495,000 by reducing:

- (a) 20.10.030-Benefits (Medical Care and Services) from \$16,043,445,000 to \$16,041,700,000,
- (b) 20.10.010-Eligibility (County Administration) from \$887,047,000 to \$884,947,000, and
- (e) Amount payable from the Federal Trust Fund (Item 4260-101-0890) from -\$10,100,419,000 to -\$10,098,569,000, and deleting Provisions 14, 20, 25 and 26.

I am reducing the legislative augmentation of \$15,910,000 for pregnancy related services by \$1,745,000 and deleting Provision 26, which would have extended the state-only program of pregnancy-related services to persons not lawfully present in the United States. Legal residents and citizens should have first priority in the use of limited resources for health care. Further, the availability of free prenatal care for illegal immigrants encourages unlawful entry into California. In order to provide sufficient time to process necessary regulatory changes, I am retaining funding to reflect termination of the program on October 1, 1997.

I am reducing the \$400,000 legislative augmentation by \$250,000 for expansion of outreach and simplification of eligibility to increase utilization of Transitional Medi-Cal for persons discontinued from AFDC due to employment or increased earnings. The remaining funds will allow the Department of Health Services to simplify eligibility forms and provide additional notification to beneficiaries.

I am deleting Provision 14, which would express intent to reduce the amount of required fund transfers to the Health Care Deposit Fund by an additional \$25,000,000 in the 1998-99 fiscal year. This language is an infringement on the Executive Branch's budget development process and restricts my authority to prepare a balanced budget reflecting my spending priorities.

I am deleting Provision 20, which would require a detailed and extensive report concerning specified managed care enrollment problems, because it is unnecessary, and would be required by an unrealistic due date of August 22, 1997.

I am deleting Provision 25, which would require the Department of Health Services to consider the "ripple effect" when estimating the impact of minimum wage increases on nursing home costs. Existing law already requires the department to consider costs of operating nursing facilities when establishing Medi-Cal rates. Therefore this language is unnecessary.

Item 4260-101-0890—For local assistance, Department of Health Services. I reduce this item from \$10,100,419,000 to \$10,098,569,000.

I am reducing this item by \$1,850,000 to conform to actions taken in Item 4260-101-0001.

Item 4260-111-0001—For local assistance, Department of Health Services. I reduce this item from \$341,623,000 to \$310,023,000 by reducing:

(e) 10.30.060-AIDS from \$170,169,000 to \$168,569,000,

(g) 20.40-Primary Care and Family Health from \$1,259,418,000 to \$1,229,418,000, and deleting Provisions 4(g), 4(h) and 4(i).

I am deleting the \$1,600,000 legislative augmentation to continue confidential testing for AIDS and other sexually transmitted diseases through family planning clinics. This augmentation is not needed because the budget already provides adequate funding to ensure access to such testing through the Family PACT program or the confidential HIV testing program. In addition, funding should be provided through the normal competitive allocation process rather than being targeted to specific providers.

I am also deleting the \$30,000,000 legislative augmentation for the following indigent health care programs: \$6,500,000 for rural health clinics, \$7,000,000 for increased services in Expanded Access to Primary Care clinics, and \$16,500,000 to augment the California Health Care for Indigent program. While these programs have merit, I am sustaining other health related augmentation to provide increased access and services. In addition, two of these programs are funded by the Cigarette and Tobacco Products Surtax Fund, a declining revenue source. An augmentation from the General Fund would establish the precedent that these programs will be maintained at a certain funding level.

I am sustaining a \$2,000,000 legislative augmentation for rural health clinics, a 45 percent increase to the base funding for this program and a \$3 million augmentation for the Seasonal Agricultural and Migrant Workers Community Clinics, which more than doubles the program.

I am deleting Provision 4(g) which would require an interim evaluation of the teen pregnancy prevention program's male involvement intervention project grants and the media campaign by January 1, 1998. These are multi-year programs for which evaluations are already planned and funded, and will be available June 30, 1998, and June 30, 1999, respectively.

I am deleting Provision 4(h) which would require the Department of Health Services to prepare a statewide comprehensive plan for teen pregnancy prevention programs. Current teen pregnancy prevention efforts include a media campaign, the Male Involvement Intervention grants and the Community Challenge Grant program. All are multi-year programs and each program has a funded evaluation component. It is premature to develop a statewide comprehensive pregnancy prevention plan in advance of the evaluations of the State's current programs.

I am deleting Provision 4(i) which would require reporting information on children eligible for the California Children's Services program who are also enrolled in Medi-Cal managed care treatment plans. This language requires the provision of data which will not be available because the Legislature deleted all funding for a case management tracking system which would have collected these data.

Item 4260-111-0231—For local assistance, Department of Health Services. I delete Provision 1.

I am deleting Provision 1 which would require an evaluation of the effectiveness of a smoking cessation program which received a \$5,000,000 appropriation in 1996-97. This program serves only Medi-Cal recipients. This provision is unnecessary because evaluations of all the State's anti-tobacco education programs are already required and funded by the Proposition 99-tobacco tax funds included in this item.

Item 4700-101-0001—For local assistance, Department of Community Services and Development. I reduce this item from \$7,000,000 to \$2,000,000 by deleting:

(b) 40.80-Citizenship Education (\$5,000,000).

I am deleting the \$5,000,000 legislative augmentation to provide citizenship services to legal immigrants. I recognize the importance of citizenship services and support

funding for naturalization assistance through a reappropriation of \$3 million federal funds to the Department of Community Services and Development and an appropriation of \$12.6 million in federal adult education funds to the California Department of Education. These funds are in addition to the approximately \$19 million in Proposition 98 funds spent annually by school districts for citizenship classes. These resources should meet the needs for naturalization assistance and citizenship education.

Item 5100-001-0870—For support of Employment Development Department. I revise this item by deleting Provisions 5, 6, and 7.

Provision 5 would require the Employment Development Department (EDD) to give priority for federal funding of One-Stop Career Centers to areas of the state with high welfare caseloads. While I have no objection to the intent of this language, it is inconsistent with the conditions of the federal grant and would place the state out of compliance for receipt of the grant.

Provision 6 would require the EDD to conduct a statewide survey to determine why employers do not use the current job match system and report to the Legislature by January 1, 1998. Under this system, EDD screens job applicants to determine whether an appropriate match exists between the job listings and the applicant. This language is not necessary, as the department is implementing a new system of job identification and listings which will provide job seekers direct access to job listings on the Internet and computers in EDD field offices and the lobbies of county welfare offices. As information on the new job identification and listing system is available, it will be provided to the Legislature.

Provision 7 would require the EDD to submit a budget proposal for 1998–99 to provide local planners with data related to welfare-to-work activities. This language is not necessary as the department currently is piloting the California Career and Training Information System to develop data systems to assist local planners, economic developers and employers. This language also is an infringement on the Executive Branch's budget development process.

Item 5160-001-0001—For support of Department of Rehabilitation. I revise this item by deleting Provision 4.

I am deleting Provision 4 which would require the Department of Rehabilitation to reallocate any federal funds identified as underutilized or inappropriately matched through audits of transitional programs. This language is unnecessary because the Department already has the authority to reallocate unmatched or undermatched federal funds and is using this authority to maximize the use of federal funds.

Item 5180-001-0001—For support of Department of Social Services. I revise this item from \$71,920,000 to \$67,120,000 by reducing:

- (a) 10-Welfare Program Operations from \$83,978,000 to \$79,446,000,
- (b) 20-Social Services Programs from \$35,032,000 to \$34,900,000,
- (c) 30-Community Care Licensing from \$72,682,000 to \$72,546,000,
- (d) and by deleting Provisions 8, 11 and 16.

I am deleting Provision 8 which would reduce the DSS state operations budget by \$100,000 if a report on Child Welfare Services outcome measures is not submitted to the Legislature by March 1, 1998. The development of these measures is an important, but complex effort that will require significant resources, although no additional resources have been provided to carry out this effort. The Legislature has already reduced the department's state operations budget by \$5.7 million and additional reductions will only make it more difficult for the department to effectively manage its programs and complete this report in a timely manner. Nonetheless, given the importance of this issue, I am directing the department to prepare this report.

I am deleting a \$4,400,000 legislative augmentation for the Temporary Emergency Food Assistance Program. I am sustaining a \$2 million augmentation in the Department of Community Services and Development for expansion of the community food and nutrition program. This, along with the creation of a limited state program for food stamps for children and elderly legal immigrants, should address concerns in this area. I delete Provision 11 to conform to this action.

I am deleting a \$400,000 legislative augmentation to reimburse the Bureau of State Audits for an audit of selected departmental divisions. The scope of the audit is broad and unfocused, and thus unlikely to result in findings that can be used to affect specific management or operational improvements. In addition, the audit is premature given the fiscal, programmatic, and managerial changes facing the department that will result from implementation of welfare reform. I delete Provision 16 to conform to this action.

Item 5180-001-0279—For support of the Department of Social Services. I delete Provision 1.

I am deleting Provision 1 which would require specific positions in the Department to recruit and retain child care providers. While these activities are important and necessary, to restrict the responsibilities of these positions unnecessarily infringes upon the Executive Branch's flexibility to operate its programs in a responsive manner.

Item 5180-111-0001—For local assistance, Department of Social Services. I reduce this item from \$2,046,923,000 to \$2,021,923,000.

(a) 10.08-SSI/SSP from \$2,046,923,000 to \$2,021,923,000.

I am deleting a \$17,000,000 legislative augmentation to create a State Assistance Program to provide cash grants to legal immigrants who arrived in this country after August 22, 1996 and, under federal law, are ineligible for SSI/SSP benefits. It is inappropriate for the State to create state-only cash grant entitlement programs when the control of immigration is solely a federal responsibility.

I am also deleting an \$8,000,000 legislative augmentation to continue SSI/SSP benefits to disabled children who are now federally ineligible because of recent changes in federal law which eliminated individual functional assessment and maladaptive behavior from program eligibility criteria. This change in law appears appropriate and I see no compelling argument to create a new state-only program for this population.

Item 5180-151-0001—For local assistance, Department of Social Services. I revise this item by reducing:

(b) 20.05-Employment Services from \$553,912,000 to \$551,412,000,

(1) Amount payable from the Federal Trust Fund (5180-151-0890) from -\$1,093,900,000 to -\$1,091,400,000.

I am deleting a \$2,500,000 Federal Trust Fund legislative augmentation which would provide for a three-year Microenterprise Demonstration Project for "at-risk" individuals and recipients of CalWORKs benefits. California's welfare reform law takes effect January 1, 1998; given the efforts counties will undertake to develop welfare to work plans it is unlikely that funding will be necessary in 1997-98.

Item 5180-151-0890—For local assistance, Department of Social Services. I reduce this item from \$1,093,900,000 to \$1,091,400,000.

I am reducing this item by \$2,500,000 to conform to actions taken in Item 5180-151-0001.

Item 5240-001-0001—For support of the Department of Corrections. I reduce this item from \$3,407,986,911 to \$3,407,656,911 by reducing:

(a) 21-Institution Program from \$2,634,268,850 to \$2,634,264,850,

(b) 22-Health Care Services Program from \$461,821,778 to \$461,695,778, and

(c) 31-Community Correctional Program from \$407,994,266 to \$407,794,266 and by deleting Provisions 10, 12, 13, 14, 15, 16, 17, 19, 20, 23, 24, 25, 27 and 29.

I am deleting \$1,000 and Provision 10. Provision 10 requires the Department of Corrections (CDC) to prepare a comprehensive management and program evaluation of the Health Care Services Division. It further requires the Department of Corrections to annually report to the Legislature on the status of the implementation of the health care delivery system, identify the cost of the health care delivery system, and summarize the results of any evaluations conducted.

Requiring CDC to prepare a comprehensive management and program evaluation would cause a significant redirection of funding from ongoing programs which the Legislature intends to continue in future years. The funding for the Health Care Services Division is required under court rulings which define the level of health care that must be provided to inmates. The redirection of this funding could inhibit the ability of the Department of Corrections to act in accordance with these court rulings.

I am deleting Provision 12 which specifies that any funds for the Law Enforcement Automated Data System (LEADS) project may not be encumbered prior to approval of a feasibility report by the Department of Information Technology and subsequent to 30 day notification to the Joint Legislative Budget Committee. This provision is duplicative of existing policies and therefore is unnecessary.

I am deleting Provision 13 which requires the Department of Information Technology to recommend to the Legislature and the Director of Finance whether the LEADS Program should be transferred from the Department of Corrections to the Department of Justice. This provision is intrusive upon the operation of the CDC and interferes with the ability of the Executive Branch to manage its programs.

I am deleting Provision 14 which requires approval of a feasibility report for the Correctional Management Information System Project prior to the expenditure of funds. Current Administration policy requires a feasibility report for a project, and approval by the Department of Information Technology prior to project initiation. Therefore, these provisions are duplicative and unnecessary.

I am reducing this Item by \$1,000 and deleting Provision 15 which requires the use of an independent validation and verification contractor for the Correctional Management Information System Project. The department has planned for adequate independent validation and verification services and therefore this provision would result in an unnecessary cost.

I am deleting Provision 16 which requires approval of a feasibility report of the Corrections Automated Materials Management System prior to expenditure of funds for this project. This provision would unduly restrict the ability of the Executive Branch to administer this project.

I am reducing this Item by \$1,000 and deleting Provision 17 which would require the CDC to prepare an investigations activity report concerning the conduct of internal affairs investigations by the Office of Internal Affairs for the 1997-98 Fiscal Year. It is not evident that this report would provide information of sufficient value to justify the costs, and completion of this report would require CDC to redirect resources from other high priority programs. I am, however, directing CDC to provide summary data concerning the outcome of internal affairs investigations to the Legislature.

I am reducing this Item by \$1,000 and deleting Provision 19 which would require the CDC to prepare a report that identifies at least 5,000 additional beds at existing institutions, and includes a cost benefit analysis of constructing and occupying these beds. While I am supportive of efforts to provide adequate prison capacity, I am unable to support this provision because it is not clear that this report would contribute to correcting the inmate housing situation, or that the information contained within the report would justify the cost.

I am reducing this Item by \$1,000 and deleting Provision 20 which would require the CDC to develop a pilot program placing 3rd strike offenders, whose 3rd strike was non-violent, in Level III rather than Level IV facilities, and placing selected level III

inmates in Level II facilities. The CDC is currently reviewing its policies regarding inmate classification. Until such a review is completed, the pilot program required by this language is premature and could endanger the safety of both staff and inmates.

I am deleting Provision 23 which would require the CDC to reimburse the Bureau of State Audits for a workload/staffing audit of CDC headquarters at a cost not to exceed \$500,000. This provision would redirect funds from other priority programs which could jeopardize the safety of staff and inmates.

I am deleting the following augmentations: \$200,000 for reimbursement to the Bureau of State Audits for the costs of conducting a comprehensive performance review of the CDC's various community correctional programs; and \$125,000 for reimbursement to the Bureau of State Audits for the costs of conducting an investigative review of the CDC's procurement of medical services. If sufficiently important, these audits should be funded within existing funding available to the Bureau of State Audits.

I am deleting Provisions 24 and 25 to conform to this action.

I am deleting Provision 27 which requires the CDC to prepare a feasibility study report (FSR) on the Disability Placement Plan (DPP). This Provision requires approval of the FSR by the Department of Information Technology and subsequent 30 day notification to the Joint Legislative Budget Committee prior to expenditure of any funds appropriated in this item for specified software and hardware relating to the DPP. Current Administration policy requires a feasibility study report, and approval by the Department of Information Technology prior to project initiation. Therefore, this language is duplicative and unnecessary.

I am deleting Provision 29 which would require the CDC to reimburse the Bureau of State Audits up to \$250,000 per audit for audits conducted at the CDC's institutions and camps. This action would unduly restrict funds needed for implementation of currently mandated programs, including direct services for inmates.

Item 5240-011-0678—For transfer by the Controller from the Prison Industries Revolving Fund to the General Fund. I delete this item.

I am deleting the \$8,000,000 for transfer from the Prison Industries Revolving Fund to the General Fund. The Prison Industry Authority is a self-supporting organization which requires a reserve in order to operate its enterprise fund. This transfer of funds would have reduced the Authority's reserve to an imprudent level.

Item 5240-301-0660—For capital outlay, State Public Works Board. I reduce this item from \$19,944,000 to \$19,569,000 by deleting:

- (4) 61.08.028-California Institution for Men, Chino: Cold Freezer Addition-Construction (\$375,000).

Legislative reductions to my proposed budget eliminated the preconstruction funds (preliminary plans and working drawings) for this project without prejudice to the merits of the project. The construction funds provided in this item for the project are, therefore, unnecessary.

Item 5430-295-0001—For local assistance, Board of Corrections. I reduce this item from \$1,847,000 to \$682,000 by deleting:

- (2) 98.01.091.379-Mandates: Domestic Violence Diversion (Ch. 913, Stats. 1979). (\$1,165,000)

I am reducing this item by \$1,165,000 because, as of June 30, 1997, the Domestic Violence Diversion mandate imposed by Chapter 913, Statutes of 1979 is no longer in effect. Therefore these funds, which were intended to reimburse local agencies for the costs of performing mandated services, are no longer needed.

Item 5460-001-0001—For support of the Department of the Youth Authority. I revise this item by deleting Provision 4.

I am deleting Provision 4 which would require the Youth Authority to reimburse the Bureau of State Audits up to \$150,000 per audit for audits conducted at the Youth Authority's institutions and camps. This action would unduly restrict funds needed for implementation of currently mandated programs including direct services for wards.

Item 5460-301-0660—For capital outlay, Department of the Youth Authority. I reduce this item from \$8,382,000 to \$7,882,000 by deleting:

- (5) 60.67.095-Heman G. Stark/Youth Training School: Additional Free Venture Work Space—Construction (\$500,000).

Legislative reductions to my proposed budget eliminated the preconstruction funds (preliminary plans and working drawings) for this project without prejudice to the merits of the project. The construction funds provided in this item for the project cannot be used and are therefore unnecessary.

Item 6110-001-0001—For support of Department of Education. I reduce this item from \$32,489,000 to \$28,789,000 by reducing:

- (b) 20-Instructional Support from \$53,086,000 to \$49,789,000,
- (c) 30-Special Programs from \$35,704,000 to \$35,404,000,
- (d) 41.00-Executive Management and Special Services from \$9,603,000 to \$7,603,000, and
- (i) Amount payable from Federal Trust Fund (Item 6110-001-0890) from -\$92,035,000 to -\$90,138,000.

I am making an unspecified reduction to Schedule (b) of \$900,000 related to department workload reductions associated with the elimination of the current voluntary Pupil Testing Incentive Program. This program is proposed to be replaced in legislation I have sponsored which would enact a mandatory testing program for all pupils in grades 2 through 11. I am making a further unspecified reduction to Schedule (b) of \$800,000 for the pupil assessments program. This amount is set aside for restoration upon enactment of legislation which meets my requirement for a mandatory testing program for all pupils in grades 2 through 11. I am revising Provision 8 to conform to this action.

- “8. Of the funds appropriated in this item, ~~\$2,428,086~~ \$728,086 is for the purposes of a pupil testing program. ~~Of this amount, \$300,000 is available only to fund education consultant-level positions to develop the statewide test and upon certification by the State Board of Education to the Director of Finance that the content and performance standards, as defined in Section 60603 of the Education Code, for language arts and mathematics have been adopted pursuant to Section 60605 of the Education Code.~~”

I am also making an unspecified reduction in Schedule (d) for the department's Legal Office of \$2,000,000. I will consider restoration of these funds only after the department has taken all necessary steps for the establishment of the State Board of Education's remaining legal and other staff positions, including the drafting of acceptable duty statements by September 12, 1997. The release of funds when appropriated would be contingent upon the determination by the Department of Finance that these conditions have been satisfactorily met.

I am also revising the schedules in this item to conform to the actions I have taken in Item 6110-001-0890.

Item 6110-001-0890—For support of Department of Education. I reduce this item from \$92,035,000 to \$90,138,000.

I am reducing this item by \$1,442,000 (and 14 positions) to eliminate the augmentation for state support of the proposed Low-Performing Schools Program. I am directing the Department of Finance to work with the Legislature to craft an acceptable

proposal for this program. In any case, this support augmentation, however, would be unnecessary because the department's support budget already has a \$300,000 set-aside reserved for a similar low performing school program which has yet to be implemented and should be available for support of a new program.

I am reducing the \$2,000,000 augmentation by \$300,000 by for evaluations of programs administered by local education agencies. This reduction is being set aside for subsequent legislation which appropriates these funds in augmentation of the Donated Computers Program. I am revising Provision 7(k) of this item to conform to this action.

“(k) ~~\$2,000,000~~ \$1,700,000 to support the evaluation of programs administered by school districts and county offices of education:

- (1) By November 30, 1997, the Superintendent of Public Instruction (SPI) shall recommend, and the State Board of Education (SBE) shall approve, a list of the programs that shall be evaluated during the 1997-98 fiscal year. The SBE may approve the whole list or make changes to the list, including rejecting programs or adding new programs to the list. The SPI shall identify the reasons that each of programs was chosen for evaluation, the primary objectives of each evaluation, the basic evaluation methodology, and the approximate cost of each evaluation. Except as specified by paragraph (3) of this provision, funds may not be spent prior to approval by the SBE of the list. To be eligible for funding, an evaluation must do the following:
 - (A) Focus on major program or policy areas that are of significant interest to educators, have statewide implications, and have not been adequately evaluated.
 - (B) Include a rigorous evaluation methodology that provides a high level of statistical confidence in the results. When feasible, an evaluation shall establish a control group in order to directly measure the impact of program services. When appropriate, an evaluation also shall assess the impact of services on different groups of pupils and, if possible, under different types of school conditions.
 - (C) Include a program to disseminate findings and conclusions to educators and policymakers. The program should include reports, summaries, seminars, and training sessions to ensure that the lessons learned from the evaluation are used to maximum advantage.
- (2) The State Department of Education (SDE) shall develop and implement a plan for garnering matching sources of funding for proposed evaluations from third-party sources. The SDE shall submit a report to the SBE on its progress in implementing the plan by May 1, 1998.
- (3) The SDE may use up to five percent of the funds identified in this provision to administer the program of evaluation described in this subdivision and to develop and implement the plan required in paragraph (2). The SBE shall forward a proposed budget and workplan for expenditure of the funds that are subject to this provision to the Department of Finance by October 1, 1997.”

I am reducing this item by \$100,000 for the administrative costs of establishing the Pre-Internship Teaching Program. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am deleting Provision 7(h) to conform to this action.

I am reducing this item by \$55,000 for administrative costs of expanding the Paraprofessional Teacher Training Program. This amount is set aside for restoration upon

enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am deleting Provision 7(i) to conform to this action.

Item 6110-113-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$44,870,000 to \$14,470,000 by deleting:

(c) 20.70.030.006-Pupil testing program (\$30,400,000).

I am deleting the funds which have been set aside in this schedule for the new mandatory testing program for all pupils in grades 2 through 11. This amount is set aside for restoration upon enactment of legislation which meets my requirements for this testing program. Were these funds to remain in the budget without accompanying legislation, there is no assurance that the funds would not be used for continued support of the existing voluntary pupil testing incentive program, which I propose to be replaced.

I am revising Provision 1 to conform to this action.

“1. The funds appropriated in this item shall be for the pupil testing program authorized by Chapter 5 (commencing with Section 60600), Chapter 6 (commencing with Section 60800) of Part 33 of the Education Code, and Sections 4 and 5 of Chapter 975 of the Statutes of 1995, as amended by Chapters 69 and 920 of the Statutes of 1996 ; and for the pupil testing program authorized under Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 of the Education Code, as that article is amended by legislation enacted during the 1997–98 Regular Session.”

Item 6110-142-0890—For local assistance, Department of Education, Goals 2000. I reduce this item from \$89,184,000 to \$81,900,000 by reducing:

(a) 20.10.003-Reading Improvement from \$56,384,000 to \$56,000,000, and by deleting:

(b) 20.10.003.005-Teaching Apprentice (\$5,400,000),

(c) 20.10.003.009-Bilingual Teacher Training (\$1,500,000),

and by revising Provision 2 and deleting Provisions 4 and 5.

I am reducing Schedule (a) by \$384,000 for Reading Staff Development which was funded for a broader level of activity than I believe is appropriate. The Legislature augmented this schedule by \$384,000 and expanded the purpose of the Administration's reading proposal to include staff development in all subject areas, not just reading, for teachers hired to achieve class size reduction. I believe that sufficient funding already exists to support the general staff development of teachers hired to achieve class size reduction. Due to this and my commitment to strengthen reading instruction in the primary and intermediate grades, I am reducing the item by \$384,000.

I am revising Provision 2 to conform to this action.

“2. Of the funds appropriated in Schedule (a), and except as otherwise specified by this provision, ~~\$52,384,000~~ \$52,000,000 is available only to provide inservice training in reading instruction to teachers who teach reading in one or more of kindergarten or grades 1 to 8, inclusive, paraprofessionals, and schoolsite administrators, pursuant to Chapter 3.45 (commencing with Section 44755) of Part 25 of the Education Code, as that chapter is amended by legislation enacted in the 1997–98 Regular Session. ~~These funds may also be used to fund staff development for teachers who are hired to achieve class size reduction.~~”

I am also eliminating the \$5,400,000 in Schedule (b) for the establishment of the Pre-Internship Teaching Program. The amount of \$2,000,000 is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am deleting Provision 4 to conform to this action.

I am also eliminating the \$1,500,000 in Schedule (c) for the Bilingual Teacher Training Program. I believe it would be fiscally imprudent to initiate this program with funding from the Federal Goals 2000 Program. Funding from Goals 2000 will be substantially less in future years, which could result in significant pressure for the use of Proposition 98 General Funds.

I am deleting Provision 5 to conform to this action.

Item 6110-151-0001—For local assistance, Department of Education (Proposition 98). I delete this item.

I am deleting the \$500,000 augmentation for Indian Education Centers. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 6110-161-0890—For local assistance, Department of Education. I reduce this item from \$331,040,000 to \$329,040,000 by reducing:

- (d) 10.60.050.020-IDEA, direct and indirect instructional services approved in the State Plan from \$13,366,000 to \$11,366,000, and delete Provision 13.

I am reducing this schedule to eliminate the \$2,000,000 legislative augmentation for a new special education mediation process. I have seen no justification for this new program, and it is my understanding that it is not required under either state or federal law. I would note that this increase was funded through a shift from another schedule which provides the federal share of the entitlement formula for local assistance and serves to offset the amount of Proposition 98 funds needed for this purpose.

I am deleting Provision 13 to conform to this action. (I would note that this provision contains a technical error; the augmentation of \$2,000,000 was incorrectly shown as \$200,000,000.)

Item 6110-187-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$119,344,000 to \$99,521,000 by deleting the following schedules:

- (0.5) 10.10.004-School Apportionments, for Regional Occupational Centers/Programs, for transfer to Schedule (a) of Item 6110-105-0001 (\$7,553,000), and
- (4.5) 10.50.010.000-Adult Education, for transfer to Schedule (a) of Item 6110-156-0001 (\$12,270,000).

I am reducing this item by \$19,823,000 to eliminate the cost-of-living adjustment of \$7,553,000 for Regional Occupational Centers/Programs and \$12,270,000 for the Adult Education Program. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 6110-196-0001—For local assistance, Department of Education (Proposition 98). I delete Provision 21.

I am deleting Provision 21 which would authorize the department to make available up to \$6,000,000 of the funds appropriated in the Extended Day Care Program (Schedule (b) (8) of this item) for literacy and recreation child care programs pursuant to legislation enacted during the 1997-98 Regular Session. Notwithstanding the merits of these programs, I cannot support a redirection of this magnitude from the existing program at this time.

Item 6110-201-0001—For local assistance, Department of Education (Proposition 98), Program 30.20-Child Nutrition. I reduce this item from \$1,500,000 to \$1,000,000.

I am deleting the augmentation of \$500,000 which would increase funding for start-up grants for the School Breakfast and Summer Food Service Programs. I am reducing this to a level that is more consistent with the anticipated demand for start-up grants in this program.

Item 6110-230-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$2,486,740,000 to \$2,363,695,000, and delete Provision 11.

I am reducing this item by \$123,045,000 to eliminate the cost-of-living adjustment and enrollment growth funding. I am also deleting Provision 11. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

Item 6110-485—Reappropriation, Department of Education (Proposition 98). I reduce this item from \$58,264,000 to \$57,264,000 by deleting schedule (d) of this item, which allocates \$1,000,000 for a joint use Library Revitalization Project of the Edison School within the Glendale Unified School District. The benefits of this project will be limited to the local level and there is not a compelling statewide interest in this project. This project could be funded through various one-time appropriations that are available to districts if it is a high priority at the local level.

Item 6360-001-0407—For support of Commission on Teacher Credentialing. I revise this item by reducing:

(a) 10-Standards for Preparation and Licensing of Teachers from \$12,883,000 to \$12,728,000,

and by deleting:

(d) Reimbursements (–\$155,000),

and by deleting Provisions 5 and 6.

These actions conform to actions taken in Item 6110-001-0890 to reduce \$100,000 for the administrative costs of establishing the Pre-Intern Teaching Program and \$55,000 for the administrative costs of expanding the Paraprofessional Teacher Training Program.

I am deleting Provisions 5 and 6 to conform to this action.

Item 6360-101-0001—For local assistance, Commission on Teacher Credentialing (Proposition 98). I reduce this item from \$5,828,000 to \$3,828,000 by reducing:

(a) 10-Standards for Preparation and Licensing of Teachers from \$5,828,000 to \$3,828,000,

and by revising Provision 2.

I am reducing this item by \$2,000,000 for expansion of the Paraprofessional Teacher Training Program. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

“2. Of the funds appropriated by this item, ~~\$3,478,000~~ \$1,478,000 shall be available for grants and subventions to school districts and county offices of education participating in the California School Paraprofessional Teacher Training Program pursuant to Article 6.5 (commencing with Section 69619) of Chapter 2 of Part 42 of the Education Code.”

Item 6360-101-0407—For local assistance, Commission on Teacher Credentialing. I delete this item and Provision 1.

This action conforms to action taken in Item 6110-142-0890 regarding the \$5,400,000 augmentation for establishing the Pre-Internship Teaching Program.

Item 6440-001-0001—For support of University of California. I reduce this item from \$2,034,983,000 to \$2,033,730,000 by reducing:

(a) Support from \$1,947,352,000 to \$1,946,099,000;

and by deleting Provisions 16, 17, 18, 19, 23, 24, 25 and 26;

and by revising Provision 13.

I am reducing this item by \$1,000,000 for additional outreach funding, which was to be matched with an equal amount of private funding. This item is set aside for restoration in the amount of \$500,000, contingent upon the restoration of \$500,000 in the

budget of the California Student Aid Commission for the proposed Digital Arts Cal Grant program.

I delete Provision 24 to conform to this action.

I am deleting the \$250,000 legislative augmentation for the Nurse Midwifery Program at UC San Francisco. This funding would backfill for the loss of federal grant funds, which would set an undesirable precedent.

I delete Provision 25 to conform to this action.

I am revising Provision 13 which would earmark some of the University's new student outreach funds for the Health, Environment, and Police Science Academy. This language would constitute an appropriation for a program that, unlike the other programs in this provision, exists on one campus only.

"13. Of the funds appropriated in Schedule (a), \$2,000,000 shall be expended for student outreach, including \$500,000 for student outreach in the Central Valley, ~~\$50,000 for the Health, Environment, and Police Sciences Academy (HEP)~~, \$500,000 for Early Academic Outreach Program (EAOP), Puente Project, Mathematics, Engineering, and Science Achievement (MESA), and up to \$200,000 for planning and development costs associated with establishing an outreach high school on the San Diego campus and other campuses of the University of California to serve students from low-income and underrepresented communities."

I am deleting Provision 16 which would prohibit the University from using state funds for outside legal services associated with collective bargaining. This provision is unnecessarily restrictive and limits the flexibility of the University to manage its fiscal affairs.

I am reducing this item by \$1,000 and deleting Provision 17 which would require the University to report to the Legislature on funds expended on Public Employer Relations Board cases. I am deleting this provision because the report is both unnecessary and burdensome.

I am reducing this item by \$1,000 and deleting Provision 18 which would require the University to report to the Legislature on the financial condition of each of its academic medical centers. The report is unnecessary and burdensome.

I am reducing this item by \$1,000 and deleting Provision 19 which would require the University to report on the impact of any UC hospital mergers on employees. I am deleting this provision because the report is unnecessary and burdensome.

I am deleting Provision 23 which specifies that \$75,211,000 in the university's base budget is to be spent on building maintenance. This provision would infringe on the authority of the University to manage its fiscal affairs.

I am deleting Provision 26 which would specify that any reductions to the items are to be prorated equally between all programs. This provision is an infringement on the separation of powers in that it impinges upon my authority to veto legislative appropriations.

Item 6440-301-0001—For capital outlay, University of California. I delete this item and Provision 1.

I am deleting the \$500,000 legislative augmentation to fund preliminary plans for the proposed University of California San Francisco-Fresno Medical Center. The State has limited resources to address higher education capital outlay needs. Therefore, these resources should be allocated to projects identified by the segments as their highest priority needs. The University has not identified this project as a priority. Further, the cost of projects of this nature should be shared with local government or private agencies that receive significant benefits from the facility.

I delete Provision 1 to conform to this action.

Item 6440-301-0658—For capital outlay, University of California. I reduce this item from \$149,974,000 to \$149,724,000 by deleting the following schedule:

- (18.1) 99.05.115-Western Center For Archaeology and Paleontology-Feasibility Study (\$250,000),
and deleting Provisions 3, 4, and 5.

The State has limited resources to address higher education capital outlay needs. Therefore, these resources should be allocated to those projects identified by the segments as their highest priority.

I am deleting the \$250,000 legislative augmentation for the Western Center For Archaeology and Paleontology-Feasibility Study because the project is not a higher educational instructional facility and does not have specific ties to the university. Further, this project is an inappropriate use of bond funds.

I am deleting Provision 5 to conform to this action.

I am deleting both Provisions 3 and 4 because the language is unnecessarily restrictive. Provision 3 would prevent the University from proceeding with Phase I of the UC Hall Seismic Replacement Project at the existing San Francisco campus until an environmental study and all utilities and roads are completed on the new Mission Bay site. This requirement is not consistent with standard practice which is project site-specific rather than campus-wide. Further, the language would delay the project significantly. Provision 4 would prohibit augmentation for the York Hall Improvements Project at the San Diego campus beyond the funding level budgeted in 1997-98. This language places unnecessary limitations on the project.

Item 6440-490—Reappropriation, University of California. I delete Provision 4.

I am deleting Provision 4 which would specify that any carryover funds resulting from prior year compensation funding that was unused due to unsuccessful collective bargaining be available in 1997-98 for the compensation and benefits of the same employees. This language infringes on the authority of the Executive Branch by intruding into the collective bargaining process and by limiting the flexibility of UC to manage its internal operations.

Item 6610-001-0001—For support of California State University. I reduce this item from \$1,826,333,000 to \$1,823,833,000 by reducing:

- (a) Support from \$2,566,479,000 to \$2,563,979,000,
and by deleting Provision 8.

I am deleting the \$2,500,000 legislative augmentation designated to support the university's long-range Integrated Technology Strategy. Technology projects are more appropriately funded from within the higher education compact.

I am deleting Provision 8 which would specify that \$44,918,000 in the University's base budget is to be spent on building maintenance. This provision is unnecessarily restrictive and limits the flexibility of the University to manage its fiscal affairs.

Item 6610-301-0658—For capital outlay, California State University. I reduce this item from \$129,453,000 to \$128,846,000 by reducing:

- (0.5) 06.48.313-CSU, Channel Islands, Camarillo Site: Cost Benefit and Feasibility Studies from \$1,607,000 to \$1,000,000.

I am deleting the \$607,000 legislative augmentation for the cost benefit and feasibility studies, because there is no substantiation for this additional funding. The California State University estimated that the funding required for cost benefit and feasibility studies related to the Camarillo site would be \$1,000,000. While I support the studies, there is no documentation to support the necessity of the augmentation.

Item 6870-001-0001—For support of Board of Governors of the California Community Colleges. I reduce this item from \$9,803,000 to \$9,603,000 by reducing:

- (dd) Unallocated from \$500,000 to \$300,000.

I am reducing the \$500,000 legislative augmentation by \$200,000 to the Chancellor's office support budget. The Chancellor will retain \$600,000 for various initiatives including welfare reform.

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges. I reduce this item from \$1,852,838,000 to \$1,829,038,000 by reducing,

- (a) 10.10.010-Appportionments from \$1,323,201,000 to \$1,314,601,000,
- (i) 20.30.010-Faculty and Staff Development from \$10,233,000 to \$5,233,000,
- (k) 20.30.050-Economic Development from \$34,073,000 to \$29,073,000,

and by deleting:

- (w) 20.20.060-Health Services Fee Waiver Backfill (\$2,000,000),
- (x) 20.20.070-Student Senate (\$200,000),
- (y) 20.20.080-Full-time faculty (\$1,000,000),
- (z) 20.20.055-Part-time faculty office hours (\$2,000,000),

and by deleting Provision 21.

I am reducing schedule (i) of this item by \$5,000,000 which would provide funding for faculty and staff development. This activity is discretionary and colleges may already devote funds to this area if it is a high local priority.

I am reducing schedule (k) of this item by \$5,000,000 which would provide funding for the Economic Development Program. This is a technical correction to conform to the amount included by the Legislature in the control language adopted with this augmentation.

I am deleting schedule (w) which would provide funding for the Health Services Fee Waiver Backfill. The health services fee is one of several locally determined campus based fees. If the State were to begin paying this fee, it could be viewed as a precedent which would lead to all campus based fees becoming State obligations.

I am deleting schedule (x) which would provide funding for the Student Senate. This augmentation inappropriately shifts a state operations cost historically funded through the Chancellor's Office to Proposition 98.

I am deleting schedule (y) which would provide funding to increase the proportion of full-time faculty. This is a lower priority because there is no requirement that this augmentation will result in a demonstrable increase access to instructors or the quality of instruction or student services.

I am deleting schedule (z) which would provide funding for the part-time faculty office hours program. This amount is set aside for restoration upon enactment of legislation to ensure that this program is structured appropriately, and upon enactment of legislation which meets my requirements for mandatory testing program for all pupils in grades 2 through 11.

I am reducing schedule (a) of this item by \$8,600,000 which would provide funding for equalization. This amount is set aside for restoration upon enactment of legislation which meets my requirements for mandatory testing program for all pupils in grades 2 through 11

Item 6870-301-0658—For capital outlay, Board of Governors of the California Community Colleges. I reduce this item from \$158,608,000 to \$156,703,000 by deleting:

Glendale Community College District

Glendale College

- (31.1) 40.18.121-Science Building Renovation-Preliminary plans and working drawings (\$420,000),

San Jose—Evergreen Community College District

San Jose City College

- (71.5) 40.50.201-Library Addition-Preliminary plans and working drawings (\$765,000), and

Sonoma County Community College District
 Santa Rosa Junior College

(82.1) 40.61.400-Windsor Criminal Justice Center, Phase 1-Preliminary plans and working drawings (\$720,000).

I am deleting these legislative augmentations in the amount of \$1,905,000 because they circumvent the established procedures for evaluating and prioritizing the California Community College's capital outlay projects.

In order to develop and maintain a consistent approach to a capital outlay program, all projects should be considered in relationship to competing needs for available resources. The State has limited resources to address education capital outlay needs. Therefore these resources should be allocated to projects identified by the segments as their highest priority needs. The circumvention of the established prioritization process undermines this approach.

Item 6870-301-0660—For capital outlay, State Public Works Board, payable for the Public Buildings Construction Fund. I reduce this item from \$2,023,000 to \$1,416,000 by deleting:

San Antonio Community College District
 San Antonio Community College

(1.5) 40.33.107-Performing Arts Center—Construction (\$607,000)

I am deleting this legislative augmentation in the amount of \$607,000. This project was previously augmented by \$1,947,000, at which time the District agreed to fund an additional \$715,000 from local resources. Even if the District had not agreed to contribute local resources, state funding would not have been provided as these costs represent items that are ineligible for state funds.

Item 8260-101-0001—For local assistance, California Arts Council. I reduce this item from \$10,049,000 to \$9,831,000 by reducing:

- (a) 10-Artists in Residence from \$2,073,000 to \$2,003,000,
- (b) 20-Organizational Grants from \$6,101,000 to \$6,010,000,
- (c) 25-Performing Arts Touring/Presenting Program from \$540,000 to \$492,000, and
- (d) 40-Statewide Projects from \$1,770,000 to \$1,761,000.

I am reducing the \$318,000 legislative augmentation to \$100,000. While I am supportive of the arts, I do not believe these programs are of sufficiently high priority to justify providing the entire augmentation approved by the Legislature.

Item 8350-001-0001—For support of Department of Industrial Relations. I reduce this item from \$118,099,000 to \$118,049,000 by reducing:

- (3) 30-Workers' Compensation Administration from \$92,238,000 to \$90,973,000,
- (5) 36-Commission on Health and Safety and Worker's Compensation from \$1,068,000 to \$921,000,
- (7) 50-Enforcement and Promulgation of Laws Relating to Wages, Hours, and Conditions of Employment, and Licensing and Adjudication from \$25,871,000 to \$25,821,000,
- (11) 94.01-Administration from \$16,544,000 to \$16,234,000,
- (12) 94.02-Distributed Administration from -\$16,544,000 to -\$16,234,000,
- (19) Amount payable from the Workplace Health and Safety Revolving Fund (Item 8350-001-0222) from -\$1,068,000 to -\$921,000, and
- (20) Amount payable from the Worker's Compensation Administration Revolving Fund (Item 8350-001-0223) from -\$18,864,000 to -\$17,599,000.

I am deleting the legislative augmentation of \$50,000 and one position provided as support to enable the Industrial Welfare Commission to mail out potential wage orders. Given that the Legislature acted to eliminate all funding for the Commission in a separate action, this augmentation fails to provide the Commission with even the basic

resources necessary to carry out its statutorily mandated responsibilities. I would, however, consider a legislative proposal that provides sufficient resources to enable the Commission to carry out its statutory mandates and meet the needs of over 13 million California workers.

I am revising this item to conform to the actions I have taken in Item 8350-001-0222 and Item 8350-001-0223.

Item 8350-001-0222—For support of Department of Industrial Relations. I reduce this item from \$1,068,000 to \$921,000 and delete Provision 2.

I am deleting the legislative augmentation of \$147,000 and two personnel years provided to the Commission on Health and Safety and Worker's Compensation to address additional workload because the need for additional positions has not been demonstrated.

I am deleting Provision 2 which would require the Commission on Health, Safety, and Workers' Compensation to hold meetings of various advisory committees, to consult with these committees, and to distribute potential study requests as specified. While the commission should make appropriate use of advisory committees, the rigid guidelines specified in this provision unnecessarily interfere in the operation of the Commission.

Item 8350-001-0223—For support of Department of Industrial Relations. I reduce this item from \$18,864,000 to \$17,599,000 and delete Provision 1:

I am eliminating the \$1,265,000 and fifteen and one-half positions provided for implementation of a Workers' Compensation Information System. While I am supportive of efforts to develop an information system to assist the Department in the management and evaluation of California's workers' compensation system, it is inappropriate for the Legislature to fund the project solely from employer assessments.

I delete Provision 1 to conform to this action.

Item 8660-001-0462—For support of Public Utilities Commission.

While I am sustaining the legislative augmentation of \$1,106,000 and 16.1 personnel years for consumer protection workload related to Senate Bill 477, which I have signed, I am concerned that no workload data have been provided to the Department of Finance to substantiate this specific level of augmentation to the Public Utilities Commission's budget. I expect that the Commission will submit this substantiation to the Department of Finance for evaluation during development of the 1998-99 budget.

Item 8855-001-0001—For support of Bureau of State Audits. I revise this item by reducing:

- (a) 10-State Auditor from \$11,016,000 to \$9,616,000, and
- (b) Reimbursements from -\$1,910,000 to -\$510,000.

I am revising this item to conform to the actions I have taken in Item 5180-001-0001, Item 5240-001-0001 and Item 5460-001-0001 to reduce reimbursements from the Departments of Social Services, Corrections and Youth Authority, respectively, for specified audits of their activities and programs.

Item 8940-001-0001—For support of Military Department. I reduce this item from \$20,140,000 to \$19,140,000 by reducing:

- (e) 35-Military Support to Civil Authority from \$3,076,000 to \$2,076,000, and by deleting Provision 3.

I am eliminating the \$1 million Legislative augmented to this item for the Emergency Shelter Program, which makes armories throughout the state available to the homeless during the winter months. This program was established with state funding in 1994 as a temporary measure. The Military Department has developed an administrative solution which provides additional time for communities that have not developed long-term homeless programs to complete and implement their long-range plans. The solution minimizes the impact on the National Guard, provides a reasonable

degree of safety and security for our community and requires counties and cities to pay for all armory expenses. As such, no augmentation to the program is required.

I am deleting Provision 3, which states legislative intent to make another \$1,000,000 appropriation for this program in the 1998–99 fiscal year.

Item 8960-011-0001—For support of Veterans' Home of California-Yountville. I reduce this item from \$25,414,000 to \$25,264,000 by reducing:

- (a) 30-Care of Sick and Disabled Veterans from \$54,553,000 to \$54,403,000, and delete Provisions 4 and 5.

I am reducing this item by \$150,000. The Legislature augmented this item by \$250,000 to provide funding for the improvement and maintenance of the Yountville veteran's cemetery. While I am unable to approve the entire augmentation, the improvement and maintenance of the veteran's cemetery merits additional funding. Therefore, I am directing the Yountville Veterans' Home to expend the remaining \$100,000 for cemetery improvements.

I am deleting Provision 4, which would require a determination to be made regarding the success of the Barstow Veterans' Home information system prior to the Yountville Veterans' Home expending \$3,606,000 for a similar system. This language is no longer necessary because the funding for the Yountville Home's information system was deleted by the Legislature.

I am deleting Provision 5, which would authorize the Yountville Veterans' Home to pursue a deficiency augmentation pursuant to Section 27.00 of this act. This language is unnecessary since the Section 27.00 applies to the Home without this provision.

SEC. 7.00—Competitive Bidding, Conflict-of-Interest Criteria. I delete this control section.

This section would prohibit paid or otherwise employed consultants who advised state agencies in the development of a procurement from bidding on or being awarded a contract for that procurement. If an individual, company or other entity provides services or products without compensation or other consideration to a state agency as a means of promoting those services or products, it would be prohibited from bidding or being awarded a contract if that individual, company, or other entity is the sole bidder on the contract.

I am deleting Control Section 7.00 because it would unduly restrict state agencies' flexibility in procuring the best goods and services for technology projects. Technology acquisition projects often require the State to share its risks in developing a project solution with the private sector in order to obtain the most cost-effective solutions. The Administration has proposed legislation to address conflict-of-interest laws regarding procurement practices for telecommunications and technology projects, without unduly limiting the ability of the state to proceed with such projects at minimum cost.

SEC. 10.00—Outside Legal Counsel. I delete this control section.

This section would limit attorney fees for outside counsel to \$125 per hour, except for counsel requiring specialized legal skills. This section would also require the Department of Finance to review and approve or deny all contracts for legal services that provide for payment of a fee over \$125 per hour.

I am deleting Control Section 10.00 because it could restrict the ability of the State to obtain the best possible outside legal counsel.

SEC. 10.10—Reduction in Outside Counsel Costs of State Agencies and Departments. I delete this control section.

This section authorizes reductions to General Fund appropriations for state departments for outside counsel services to reflect savings related to an increase in the availability of legal services from the Attorney General. This section also requires the Director of Finance to reduce state agencies' appropriations to reflect the savings resulting from the provision of legal services by the Attorney General and to report to

the Joint Legislative Budget Committee and the Legislative fiscal committees on or before March 1, 1998 on the reductions implemented.

I am deleting Control Section 10.10 because it would require substantial effort on the part of state agencies and the Department of Finance without generating significant additional savings.

SEC. 11.25—Electrical Restructuring. I delete this control section.

I am deleting Control Section 11.25 because it is technically incorrect and is unnecessary and duplicative. Chapter 854, Statutes of 1996, sufficiently addresses administrative and expenditure criteria for these programs and funds.

With the above deletions, revisions and reductions, I hereby approve Assembly Bill 107.

PETE WILSON, Governor

- 3 [Ch. 299] On this date I am signing Assembly Bill 1578 with the following reductions.

I am reducing the appropriations made in Sections 40 and 41 by a total of \$14,869,000. Of this amount, \$4,645,000 is being eliminated because I have specific concerns about the projects or they are more appropriately a local responsibility. The remaining reductions, totaling \$10,224,000 are being reduced until legislation is enacted which meets my requirements for a mandatory testing program for all pupils in grades 2 to 11. The specific reductions are as follows:

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (t) which allocates \$50,000 to the Pasadena Unified School District for a one-time comprehensive child cared needs assessment of the Pasadena area. This project could be funded through various one-time appropriations that are available to the district if it is a high priority at the local level.

I am reducing Section 41 by eliminating subdivision (v) which allocates \$100,000 to the Los Angeles Unified School District (LAUSD) for drug awareness programs for pupils in grades 4, 5, and 6. The 1997 Budget Act already includes almost \$44 million for the statewide Safe and Drug Free Schools Program, which is intended, among other things, for drug prevention and intervention purposes. This should be funded with local resources such as the more than \$500 million general purpose increase which will be allocated pursuant to legislation enacted in 1996.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (w) which allocates \$500,000 to the Riverside Community College for planning for a new library. The benefits of this project will be limited to local level and could be funded through various one-time appropriations that are available to community colleges if it is a high priority at the local level.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (y) which allocated \$300,000 for Homework Help Centers. The benefits of these projects will be limited to the local level and could be funded through various one-time appropriations that are available to local educational agencies if they are a high priority at the local level.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (z) which allocates \$175,000 to the La Canada Unified School District for a joint use library project. The benefits of this project will be limited to the local level and could be funded through various one-time appropriations that are available to districts if it is a high priority at the local level.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (ff) which allocated \$45,000 to the South Bay Union High School District to purchase science kit materials for students. Providing science kits is a normal expense for school

districts. This project could be funded through the regular school apportionments or various one-time appropriations that are available to the district.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (ll) which allocated \$200,000 to the Mathematics Instruction Pilot Program in Inglewood Unified School District to enhance instruction in mathematics. This program should not commence until the State Board of Education study to assess methods to strengthen math instruction in grades K–12 is complete. In addition, the pilot project could result in unfunded General Fund costs to the California Department of Education and, although it is characterized as “one-time”, I believe future augmentations would be needed since it is doubtful that meaningful results could be obtained within one year.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (pp) which allocates \$400,000 to fund four community policing and school safety projects over a three-year period. The 1997 Budget Act provides over \$51 million, which may be used for similar school safety purposes. While I am supportive of efforts in this area, districts should use local resources or other one-time funds.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (qq) which allocates \$2,000,000 to the California Collaborative for Improving Academic Preparation. This program would provide direct student services to increase the college enrollment rates of educationally underserved students through collaboration of school districts, postsecondary education institutions, businesses and community groups. This program would be a duplication of existing academic preparation programs for which a total of \$4 million in augmentations for UC and CSU outreach programs has been provided over the two year period 1996–97 and 1997–98.

I delete Section 40 which would reappropriate the unexpended balance for the Low Performing Schools Program from the 1997–98 appropriation for the Community Day School Program. Subdivision (tt) of Section 41 contains an additional appropriation of \$3,000,000 as a set-aside for Low Performing School Program and the additional funding provided through Section 40 is not needed.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (uu) which allocates \$450,000 for the Middle College High Schools Program, to serve at-risk students on community college campuses. The 1997 Budget Act provides \$8.7 million for Community Colleges in the Fund for Student Success Program, for competitive grants to increase student success based on an analysis of student outcomes. The Fund for Student Success may be used to provide grants for Middle College High School Program. Therefore, this appropriation is duplicative and unnecessary.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (vv) which allocates \$200,000 to the Summer Mathematics Institute Pilot Program to be operated by the Santa Clara County Superintendent of Schools, which would establish a model for teaching mathematics to pupils with math difficulties in grades 6 through 8. I believe that this program should not commence until the State Board of Education study to assess methods to strengthen math instruction in grades K–12 is complete. In addition, the pilot project could result in unfunded General Fund costs to the California Department of Education and, although it is characterized as “one-time” future augmentations would be needed since it is doubtful that meaningful results could be obtained within one year.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (xx) which allocates \$125,000 to Project YES. There is no indication of how the centers would sustain themselves financially after the three year period of state support and there is no provision for an evaluation. If the proposal is funded, the State would be expected to provide additional funds totaling \$1 million over the two year period from 1998–99 through 1999–00.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (aaa) which allocates \$100,000 to the Bellflower Unified School District Education Career Options Program. The staffing component of the request is ongoing in nature and without continued state funding, it is unclear how these positions would be funded in future years. District funds could be made available for this program if it is a high local priority.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (s) which allocates \$750,000 for the African-American Museum. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (u) which allocates \$500,000 for the Critical Hours Pilot Program. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (bb) which allocates \$50,000 to the Lodi Unified School District for a Job Shadowing Program. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (cc) which allocates \$250,000 to the Napa Valley Unified School District for technology. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (gg) which allocates \$10,000 to establish and fund an extended learning program after school and on Saturdays for children and adults at the Telfair Elementary School. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (kk) which allocates \$1,500,000 for Indian Education Centers. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (nn) which allocates \$1,000,000 for playground safety grants. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (rr) which allocates \$800,000 for Limited English Proficient Test Development. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11. I have asked the Office of Child Development and Education to work with the Legislature to resolve some program concerns I have with the bill as currently drafted.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (ss) which allocates \$2,273,000 for school libraries. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (ww) which allocates \$1,646,000 to the San Joaquin County Office of Education. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (zz) which allocates \$100,000 to the St. Helena Unified School District for establish-

ment of an agricultural center. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (bbb) which allocates \$395,000 to the Lompoc Unified School District for the Cabrillo High School Aquarium. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (ccc) which allocates \$450,000 to the Burbank Unified School District for technology modernization at John Muir Middle School. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

I am reducing the appropriation in Section 41 of this bill by eliminating subdivision (fff) which allocates \$500,000 for the New California Center. This amount is set aside for restoration upon enactment of legislation which meets my requirements for a mandatory testing program for all pupils in grades 2 through 11.

PETE WILSON, Governor

- 4 [Ch. 300] I have this date signed Assembly Bill 1586.

I am deleting Section 10 of this bill which would create the Agriculture Employee Relief Fund and require unpaid wages collected from an employer found guilty of unfair labor practices be deposited into the fund when the worker eligible to receive these wages cannot be located after two years.

The Agricultural Labor Relations Board (ALRB) indicates that the balance of the undisbursed wages is \$142,364 as of August 11, 1997. Thus, Section 10 of this bill would appropriate \$142,364 to the Agricultural Employee Relief Fund.

The ALRB suggests that its current practice regarding the handling of unpaid wage settlements has resulted in General Fund savings due to decreased litigation expenses. Further, based on the size and volatility of payments, which have been as low as \$4,493 in fiscal year 1993-94 and zero in fiscal year 1994-95, it does not appear cost-effective to create and administer this special fund.

PETE WILSON, Governor

- 5 [Ch. 825] On this date I am signing Assembly Bill 287.

This bill would make various appropriations and changes to the Education Code as recommended by the California Department of Education.

I am reducing Section 41 by \$600,000 to reduce funding for the Pupil Testing Incentive program that is not needed to close out the program in 1997-98 or support the new STAR testing program.

PETE WILSON, Governor

- 6 [Ch. 886] On this date I have signed AB 1188.

Assembly Bill No. 1188 would restore funding for various departments that was vetoed from the Budget Act of 1997 pending enactment of legislation for a mandatory testing program for all pupils in grades 2 through 11.

I am signing AB 1188, however, I am reducing the appropriations by a total of \$6,054,000 because these projects are not a sufficient priority to justify their funding.

I am eliminating the \$37,000 appropriation made in Section 2 from the Environmental License Plate Fund to the Department of Conservation for farmland mapping in Mendocino County.

I am eliminating the \$80,000 appropriation made in Section 4 from the Environmental License Plate Fund to the Department of Parks and Recreation to fund a grant to the City of Redondo Beach to refurbish ponds and paths in Wilderness Park.

I am reducing the appropriations made in Section 5 by a total of \$750,000 from the Public Resources Account of the Cigarette and Tobacco Products Surtax Fund to the Department of Parks and Recreation. Subsection (d) would appropriate \$500,000 to the City of Maywood to acquire land for a regional park and recreation facility. Subsection (e) would appropriate \$250,000 to the City of Clearlake for the construction of a new senior center.

I am reducing the appropriations made in Section 6 by a total of \$132,000 from the Natural Resources Infrastructure Fund to the Department of Parks and Recreation. Subsection (c) would appropriate \$100,000 to the City of San Jose for the Vietnamese Cultural Heritage Garden. Subsection (d) would appropriate \$32,000 to the Youth Garden Alliance for a community garden in Mendocino County.

I am eliminating the \$2,000,000 appropriation made in subsection (a) of Section 14 from the General Fund to the Commission on Teacher Credentialing (Proposition 98) to fund expansion of the California School Paraprofessional Teacher Training Program.

I am eliminating the \$55,000 appropriation made in subsection (b) of Section 14 from the Federal Trust Fund to the Teacher Credentials Fund to fund the costs of the Commission on Teacher Credentialing in administering the California School Paraprofessional Teacher Training Program.

I am eliminating the \$3,000,000 appropriation made in Section 16 from the Air Pollution Control Fund to the State Air Resources Board to fund stationary source air pollution control activities. This section is duplicative of Section 32 of AB 1571, and is therefore, unnecessary.

PETE WILSON, Governor

- 7 [Ch. 889] On this date I have signed Assembly Bill No. 1587 with the following reductions.

AB 1587 would restore funding, for various K-12 projects, pending enactment of legislation for a mandatory testing program for all pupils in grades 2 through 11.

I am signing AB 1587, however, I am reducing the appropriations by a total of \$1,010,000. Previously these funds were vetoed from AB 1578 (Chapter 299, Statutes of 1997). The specific reductions are as follows:

I am reducing Section 1 by eliminating subdivision (e) which allocates \$10,000 to the Los Angeles Unified School District for an extended learning program at the Telfair Elementary School. This project should be funded at the local district level with one-time funds.

I am reducing Section 1 by eliminating subdivision (g) which allocates \$1,000,000 to be allocated to school districts for upgrading playground facilities. Districts have received sufficient one-time revenues to fund this need from local resources.

PETE WILSON, Governor

- 8 [Ch. 928] To the Members of the California Assembly:

Assembly Bill No. 1571 makes various appropriations for a number of governmental programs which would amend the Budget Act of 1997.

I am signing Assembly Bill No. 1571, however, I am reducing the appropriations made to various sections by a total of \$38,987,000.

The specific reductions are as follows:

SECTION 7 and Section 8 (b) Renovation of the Solano County Courthouse

I am deleting Section 7 and subdivision (b) of Section 8 of this bill.

I am deleting the \$50,000 legislative augmentation from the General Fund for the renovation of the Solano County Courthouse. Under current law, and the trial court funding restructuring proposal, court facility costs remain the responsibility of the county.

SECTION 10 Verdugo Hills of Peace Cemetery

I am deleting Section 10 of this bill.

Section 10 would appropriate \$1,510,000 from the General Fund to the Department of Consumer Affairs for allocation to the City of Los Angeles when the city assumes receivership of the Verdugo Hills of Peace Cemetery and conservatorship of the cemetery's endowment care fund. This appropriation would set an undesirable precedent by using General Fund moneys to address the financial problems of local cemeteries.

SECTION 12 House Migrant Farmworkers

I am deleting Section 12 of this bill which would have appropriated \$2,500,000 from the General Fund for migrant farm workers.

I am deleting this section because this project is lower on the priority listing for funding than other projects. In addition, to fund it with state funds now would be to forego federal funding that is expected to be allocated by the Rural Development Agency within the next few years.

SECTION 13 Funding for Commercial Space Projects

I am reducing this Section from \$3,531,000 to \$3,271,000 by reducing:

(b) Manufacturing Technology Program from \$2,000,000 to \$1,740,000.

I am reducing the General Fund legislative augmentation to the Manufacturing Technology Program to \$1,740,000, which, together with the \$5,000,000 I have already approved in the Budget Act of 1997, will be sufficient to maximize available federal matching funds while continuing to require local matching efforts.

SECTION 15 Job Creation Investment Fund

I am deleting Section 15 of this bill.

I am deleting the \$5,000,000 General Fund transfer to the Job Creation Investment Fund and the subsequent appropriation from this fund. I believe this new program, which provides planning grants to counties for their economic development programs, is adequately funded by the \$5,000,000 in the Budget Act of 1997. Future funding for this program will be evaluated during the budget process, as more becomes known about what local governments propose to do and how the state can support economic development efforts which appear most promising.

SECTION 17 Soil Survey in Humboldt and Del Norte Counties

I am deleting Section 17 of this bill.

I am deleting the \$95,000 legislative augmentation from the Natural Resources Infrastructure Fund to fund a grant to the Humboldt County Resource Conservation District to conduct a soil survey in Humboldt and Del Norte Counties. This augmentation has not been analyzed and prioritized for funding with other worthwhile programs.

SECTION 18 Red Mountain Fire Lookout

I am deleting Section 18 of this bill.

I am deleting the \$32,000 legislative augmentation from the Natural Resources Infrastructure Fund to provide permanent funding for the Red Mountain Fire Lookout. After extensive evaluation, it has been determined that fire lookouts are no longer critical to firefighting efforts as they have become a secondary notification source due to

increased populations moving into wildland areas and modern technology, such as cellular telephones. Consequently, it is not an efficient use of the Department of Forestry and Fire Protection's firefighting resources to staff these lookouts. This action is consistent with my previous veto of this augmentation in the Budget Act of 1997.

SECTION 19 Natural Resources Infrastructure Fund

I am deleting Section 19 of this bill.

I am deleting the \$260,000 legislative augmentation from the Natural Resources Infrastructure Fund for the following projects:

(a) \$100,000 for support of recreational opportunities for anglers within the northern portion of Region 3. This project should be analyzed and prioritized for funding along with other worthwhile projects. In addition, it is unclear if this project qualifies as an appropriate use of the Natural Resources Infrastructure Fund. This action is consistent with my previous veto of this augmentation in the Budget Act of 1997.

(b) \$160,000 for management and maintenance costs of the South Spit of Humboldt Bay. The State does not have jurisdiction over this property and, therefore, management and maintenance activities should be handled by local government. In addition, it is unclear if this project qualifies as an appropriate use of the Natural Resources Infrastructure Fund. This action is consistent with my previous veto of this augmentation in the Budget Act of 1997.

SECTION 20 Natural Resources Infrastructure Fund

I am reducing this Section from \$1,600,000 to \$600,000 by deleting:

(b) \$1,000,000 appropriation to the Wildlife Conservation Board from the Natural Resources Infrastructure Fund for the acquisition of the Mattole River Headwaters. This acquisition has not been analyzed and prioritized for funding along with other worthwhile projects.

SECTION 24 1996 Safe, Clean, Reliable Water Supply Fund

I am deleting Section 24 of this bill.

I am deleting the \$1,000,000 legislative augmentation for the Guadalupe River Parkway project from the River Parkway Subaccount of the 1996 Safe, Clean, Reliable Water Supply Fund (Proposition 204), consistent with my earlier vetoes in the Budget Act of 1997. Its priority has not been evaluated relative to other river parkway projects throughout the State.

SECTION 25 Apportionment of Local Grants

I am deleting Section 25 of this bill.

I am deleting the \$1,000,000 legislative augmentation from the General Fund by deleting:

(a) City and County of San Francisco: Esprit Park Acquisition (\$500,000)

(b) City of San Jose: Mexican Heritage Corporation and Plaza project (\$500,000)

These projects have not been analyzed and prioritized for funding with other worthwhile programs.

SECTION 27 City of El Monte

I am reducing this Section from \$500,000 to \$250,000 by deleting:

(b) City of El Monte: Teen Center (\$250,000)

I am deleting the \$250,000 legislative augmentation from the Public Resources Account because this project is not of sufficiently high priority to justify the use of limited state resources.

SECTION 28 Glendale Memorial Park

I am reducing this Section from \$750,000 to \$500,000 by deleting:

(2) City of Glendale: Glendale Memorial Park (\$250,000)

I am deleting the \$250,000 legislative augmentation from the Natural Resources Infrastructure Fund because this project is not of sufficiently high priority to justify the use of limited state resources. Further, no information was provided to substantiate the need for funding this project. This action is consistent with my previous veto of this augmentation in the Budget Act of 1997.

SECTION 33 Nonpoint Source Abatement Grants

I am deleting Section 33 of this bill.

I am deleting the \$600,000 legislative augmentation from the General Fund to implement coastal nonpoint source abatement grants. In determining the program activities best suited to meet its program mission, the department has determined that it gets more results from every dollar spent on its existing programs than it would receive on dollars spent on a grant program. For this reason the \$7,000,000 currently contained in the budget to implement nonpoint source abatement activities does not contain a grant component and I believe it would not be prudent to introduce such a program at this time.

SECTION 34 Water Quality Monitoring Activities

I am deleting Section 34 of this bill.

I am deleting the \$420,000 legislative augmentation from the California Environmental License Plate Fund to fund an inventory of existing water quality monitoring activities in coastal watersheds and the preparation of a report identifying the development of a comprehensive coastal monitoring program. Funding for this activity is already provided in AB 1581, which I recently signed.

SECTION 37 Cleanup of Residual Waste Oil

I am deleting Section 37 of this bill.

This provision would appropriate \$250,000 from the General Fund to the Department of Toxic Substances Control (DTSC) to fund the cleanup of residual waste oil underneath properties in the town of Nipomo.

DTSC is in the process of completing a site investigation, in conjunction with the US EPA, to determine the extent of the contamination, the potential risk posed to the residents of that area, and a search for the parties potentially responsible for the contamination. Until those issues have been resolved, it would be premature to commit additional state money to fund any costs associated with the cleanup of this particular site.

SECTION 38 Battered Women's Shelters

I am deleting Section 38 of this bill.

I am deleting the \$325,000 legislative augmentation of the General Fund for a specific battered women's shelter in Turlock. The 1997 Budget Act contains \$14,000,000 for shelters including a \$2,000,000 General Fund augmentation to expand shelter services. Each site has an opportunity to submit a request to the State for funding through the Request for Application selection process. This process provides funding for 116 shelters statewide. In light of this competitive process, it would be inappropriate to provide an appropriation to a specific shelter.

SECTION 39 Department of Community Services

I am deleting Section 39 of this bill.

I am deleting the \$3,000,000 legislative augmentation from the General Fund to the Department of Community Services and Development to provide citizenship services to legal immigrants. The Budget contains \$12,600,000 in federal adult education funds appropriated to the California Department of Education for this purpose, an approximate \$5,000,000 increase over the prior year. These funds, in addition to the approximately \$19,000,000 in Proposition 98 funds spent annually by school districts for citizenship classes should meet the needs for naturalization assistance and citizen education.

SECTION 40 Teen Center in Guerneville

I am deleting Section 40 of this bill.

I am deleting the \$100,000 legislative augmentation from the General Fund for a teen center in Guerneville to provide for a youth facility and recreational activities. This project has not been analyzed and prioritized for funding with other competing programs.

SECTION 41 Adult Protective Services

I am reducing this section from \$5,000,000 to \$1,000,000.

I am reducing by \$4,000,000 the legislative augmentation from the General Fund for adult protective services for counties. This is a valuable program that the Administration supports; however, given limited resources and other high priority General Fund demands, I am unable to sustain the entire augmentation at this time. I will, however, review program needs and assess additional funding possibilities for this purpose during the development and prioritization of 1998–99 Governor's Budget.

SECTION 42 Microenterprise Demonstration Project

I am deleting Section 42 of this bill.

I am deleting the \$1,000,000 legislative augmentation from the Federal Trust Fund for a three-year Microenterprise Demonstration project for "at-risk" individuals and recipients of CalWORKs benefits. California's welfare reform law takes effect January 1, 1998. Given the efforts counties will undertake to develop welfare-to-work plans, it is unlikely that funding will be necessary in 1997–98. Nevertheless, I am requesting the Trade and Commerce Agency to convene representatives from financial institutions to address methods that would facilitate local microenterprise development.

SECTION 43(a)(2) Middle College High Schools

I am reducing the appropriation in Section 43 by deleting paragraph (2) of subdivision (a) which allocates \$450,000 from the General Fund to establish new middle college high schools. The 1997 Budget Act provides \$8,700,000 for community colleges in the Fund for Student Success, for competitive grants to increase student success based on an analysis of student outcomes. The Fund for Student Success may be used to provide grants for the Middle College High School Program. Therefore, I believe this appropriation is duplicative and unnecessary.

SECTION 43(a)(4) Inglewood Unified School District Mathematics Pilot Project

I am reducing the appropriation in Section 43 of this bill by deleting paragraph (4) of subdivision (a) which allocates \$200,000 from the General Fund to the Mathematics Instruction Pilot Program in the Inglewood Unified School District to enhance instruction in mathematics. This program should not commence until the State Board of Education study to assess methods to strengthen math instruction in grades K–12 is complete. In addition, the pilot project could result in unfunded General Fund costs to the California Department of Education and, although it is characterized as "one-time," I believe future augmentations would be needed since it is doubtful that meaningful results could be obtained within one year.

SECTION 43(a)(5) Santa Clara COE Summer Mathematics Institute Pilot Project

I am reducing the appropriation in Section 43 of this bill by deleting paragraph (5) of subdivision (a) which allocates \$200,000 from the General Fund to the Summer Mathematics Institute Pilot Program to be operated by the Santa Clara County Superintendent of Schools, which would establish a model for teaching mathematics to pupils with math difficulties in grades 6 through 8. I believe that this program should not commence until the State Board of Education study to assess methods to strengthen math instruction in grades K–12 is complete. In addition, the pilot project could result in unfunded General Fund costs to the California Department of Education and,

although it is characterized as "one-time," I believe future augmentations would be needed since it is doubtful that meaningful results could be obtained within one year.

SECTION 43(a)(6) Action-Agua Dulce and San Marino Unified School District's Technology

I am reducing the appropriation in Section 43 of this bill by deleting paragraph (6) of subdivision (a) which allocates \$50,000 from the General Fund for the Action-Agua Dulce Unified School District and the San Marino Unified School District on a one-time basis for computers and infrastructure. The benefits for these projects will be limited to the local level and could be funded through various one-time appropriations or competitive technology grant programs that are available to local school districts.

SECTION 43(a)(9) San Francisco Unified School District Technology for High Schools

I am reducing the appropriation in Section 43 of this bill by deleting paragraph (9) of subdivision (a) which allocates \$2,000,000 from the General Fund for the San Francisco Unified School District on a one-time basis for computers, infrastructure and staff development for fourteen high schools. The benefits for this project will be limited to the local level and could be funded through various one-time appropriations available to local school districts or through the multi-year, billion dollar Digital High School initiative I recently signed into law.

SECTION 43(a)(11) South Bay Union School District Science Kit Materials

I am reducing the appropriation in Section 43 of this bill by deleting paragraph (11) of subdivision (a) which allocates \$45,000 from the General Fund to the South Bay Union High School to purchase science kit materials for students. Providing science kits is a normal expense for school districts. This project could be funded through the regular school apportionments or various one-time appropriations that are available to the district.

SECTION 43(a)(13) Glendale Unified School District Joint Use Library

I am reducing the appropriation in Section 43 by deleting paragraph (13) of subdivision (a) which allocates \$1,000,000 from the General Fund to reimburse the Glendale Unified School District for costs incurred in modernizing facilities in connection with a joint use library revitalization project of the Edison School/Pacific Park Model Neighborhood Community. Although joint use library projects should be encouraged as a way to increase the efficiency in the use of public facilities, this particular project has recently received a \$1,000,000 grant from the State Allocation Board. Therefore, the allocation in this bill would be duplicative.

SECTION 45 Homework Help Centers: Liberty USD, Palmdale SD and Antioch USD

I am deleting Section 45 of this bill.

I am deleting the \$150,000 legislative augmentation from the General Fund for Homework Help Centers. The benefits of these projects will be limited to the local level and could be funded through various one-time appropriations that are available to local educational agencies if they are a high priority at the local level.

SECTION 46 Support for California Postsecondary Education Commission's Comprehensive Database

I am deleting Section 46 of this bill.

I am deleting the \$200,000 legislative augmentation from the General Fund to the California Postsecondary Education Commission to further support its comprehensive database. The Budget Act of 1997 already contains an augmentation to support additional storage space and processing costs associated with the California Postsecondary Education Commission's comprehensive database.

SECTION 48 California State University General Support

I am reducing this section from \$7,500,000 to \$2,500,000.

I am deleting \$5,000,000 of this legislative augmentation from the General Fund for support of the California State University for the university's long range technology needs and for enrollment impaction and management. Due to competing priorities for the General Fund, I am unable to support these augmentations to the California State University budget at this time. However, I am retaining funds for the system's Economic Improvement Initiative.

SECTION 50(c) Staff Development Funding

I am reducing this Section from \$12,100,000 to \$8,100,000 by deleting:

Subdivision (c) which allocates \$4,000,000 from the General Fund to augment the Faculty and Staff Development categorical line item of the community colleges local assistance budget which is intended for the purpose of assisting districts to train faculty in the use of technology. As noted in my veto message to a similar legislative augmentation included in the 1997 Budget Act, staff development is a discretionary activity and colleges may already devote funds to this area if it is a high local priority. Additionally, the budget already includes a \$5,000,000 augmentation for this intended purpose through the Telecommunications and Technology Infrastructure program which will provide greater assurances that training funds will be effectively utilized to complement recent and future investments in technology.

SECTION 51 San Jose City College Library

I am deleting Section 51 of this bill.

I am deleting the \$765,000 legislative augmentation from the General Fund for the San Jose City College Library project, consistent with my earlier veto in the 1997 Budget Act. I am deleting this project because it circumvents the established procedures for evaluating and prioritizing the California Community College's capital outlay projects.

The State has limited resources to address education capital outlay needs. Therefore, all projects must be considered in relationship to competing needs for available resources, and these resources should be allocated to the highest priority projects as identified by the segments. The circumvention of the established prioritization process undermines this approach.

SECTION 52 Office of Criminal Justice Planning

I am deleting Section 52 of this bill.

I am deleting the \$25,000 legislative augmentation from the General Fund to the Office of Criminal Justice Planning for the purpose of funding a graffiti abatement program in the City of Tracy. This money will be used by the City to purchase a graffiti abatement machine. While this project may have merit, funding for this equipment is essentially a local responsibility and should be funded on a priority basis from local resources.

SECTION 57 Department of Justice

I am revising Section 57 by reducing the appropriation by \$2,000,000.

I am reducing the \$5,000,000 legislative appropriation from the General Fund to the Department of Justice by \$2,000,000 to fund provisions in Section 5 of Assembly Bill 1612. These funds will be used to purchase and install livescan electronic fingerprint terminals to be located statewide in order to facilitate securing criminal background checks prior to employing or certifying individuals to work in public or private schools. I am supportive of Assembly Bill 1612 and the funding necessary to implement its provisions. However, based upon information provided by the Department of Justice, the provisions of Assembly Bill 1612 and its companion legislation, Assembly Bill 1610, can be fully implemented with an appropriation of only \$3,000,000 from the

General Fund because there is adequate revenue from the fee supported Fingerprint Fee Account to fund the remaining costs associated with the enactment of these two bills. Therefore, I am reducing this appropriation by \$2,000,000.

SECTION 58 Special Commissions on Los Angeles Boundaries

I am deleting Section 58 of this bill.

I am deleting the \$250,000 legislative augmentation from the General Fund for the proposed Special Commission on Los Angeles Boundaries that would be established in Assembly Bill 62. I am concerned about providing limited state General Fund resources to address a regional concern when the need to look at land use issues and boundary changes is of statewide concern. For this reason, I signed Assembly Bill 1484 which includes a \$250,000 appropriation for the proposed Commission on Local Governance for the 21st Century that will review statutes and policies related to reorganizations and boundary changes of local governments.

PETE WILSON, Governor

9 [Ch. 930] On this day I have signed Senate Bill No. 172.

This bill would create the Abandoned Watercraft Abatement Fund (AWAF), establish a grant program for the removal of abandoned vessels, provide a \$500,000 grant to Redwood City, and make changes in the law related to abandoned vessels or wrecked property on public waterways.

I am deleting the appropriation contained in Section 11 which would appropriate a \$500,000 grant to the City of Redwood City for the clean up of abandoned, wrecked, or dismantled vessels. This amount has been appropriated in AB 1188 (Lempert).

PETE WILSON, Governor

10 [Ch. 931] On this day I have signed Assembly Bill No. 920.

This bill would appropriate \$275,000 from the General Fund to the State Auditor to conduct an assessment of the needs of existing forensic science laboratories and report its findings to the Legislature by January 1, 1999. I have deleted the appropriation provided for in Section 2 of this bill.

This audit can be completed within the existing appropriation of General Fund resources (\$10.1 million) made to the State Auditor and should be made a priority of the Joint Legislative Audit Committee.

PETE WILSON, Governor

INDEX TO STATUTES ENACTED AND
MEASURES ADOPTED IN 1997

1997-98 REGULAR SESSION
1997-98 FIRST EXTRAORDINARY SESSION

A

ABALONE

- commercial fishing, 787
- recovery and management plan, 787
- sportfishing, 787

ABALONE ADVISORY COMMITTEE, RECREATIONAL

- appointment, etc., 787

ABC UNIFIED SCHOOL DISTRICT

- policing and mentoring for school safety pilot program, community, 935

ACADEMIC CONTENT AND PERFORMANCE STANDARDS, COMMISSION
FOR THE ESTABLISHMENT OF

- reading content and performance standards in schools: submission, 299

ACCOUNTANCY, STATE BOARD OF

- financial report requirements, 921

ACCOUNTANTS AND ACCOUNTING

- partnerships, limited liability accountancy: insurance requirements, 387
- permits, 921

- public accounting firms, nonlicensee owners of, 921

ACQUIRED IMMUNE DEFICIENCY SYNDROME. See AIDS (ACQUIRED
IMMUNE DEFICIENCY SYNDROME).

ACTS. See SHORT TITLES.

ACUPUNCTURISTS AND ACUPUNCTURE

- advertising, 98
- unlicensed practice of acupuncture: penalty, 400
- workers' compensation provisions, 98

ADMINISTRATIVE LAW AND PROCEDURE

- adjudication process—
 - hearings: alternative procedures, 220
 - quasi-public entities, 220
 - written communications: identification of client, etc., 192
- agricultural commissions: administrative actions, 726
- exposition and state fair, california, 694
- political reform act violations: administrative actions, 179
- rules and regulations: exposition and state fair, california, 694

ADMINISTRATORS, COUNTY PUBLIC

- consolidation of office with county coroner and sheriff: riverside county, 703

ADOPTION

- birth parent counseling, 559
- counselors, marriage, family, and child, 559
- fees, 185
- juvenile court, dependent children of the, 510, 793
- payments for adoptions, 185
- service providers, adoption, 559

ADVERTISING

- drugs and devices: prohibited representations, suggestions, etc., 516
- nongovernmental entities: implications re government connection, 249
- outdoor advertising—
 - displays—
 - development projects, 471
 - fees, 152
 - on-premises advertising displays: placement, etc., 471
 - permit renewal or revocation: removal and destruction of displays, 152, 473

NOTE: Citations are to chapter numbers; resolution chapters are indicated in *italics*. First Extraordinary Session chapter or resolution numbers are followed by (IX).

ADVERTISING—Continued

- outdoor advertising—continued
 - displays—continued
 - relocation, 473
 - removal, 152

tobacco and tobacco products. See TOBACCO AND TOBACCO PRODUCTS.
 veterinary medicine: false or misleading advertising, 642

AEROSOL CANS, PRODUCTS, ETC.

paint, aerosol: volatile organic compound emissions, 568, 689

AEROSPACE INDUSTRY

- air force, united states: recognition of contributions to aerospace and aeromedical research, programs, etc., 132
- commercial space development: funding, 928
- insurance, spacecraft, 436
- space flight grant programs, 938
- space program, highway to: establishment, etc., 938

AFRICAN AMERICANS

- black history month, 7
- black music month, 53

AGED PERSONS

abuse—

- abduction, liability re, 663
 - caretakers, abuse by: sentence enhancements, 698
 - civil compromise: disallowance, 243
 - death caused by caretaker abuse, 698
 - fiduciary abuse, 724
 - care and case management services, etc., 216
 - community-based services: providers, etc., 216
 - conservatorships for elderly persons, 663
 - health care, supportive care, etc., live-in, 72
 - housing, rental: development, construction, rehabilitation, etc., 580
 - in-home supportive services. See PUBLIC SOCIAL SERVICES—*in-home supportive services.*
 - long-term care programs, state administered, 269

 water service, agricultural, 734
 wildlife habitats, 528

AID TO FAMILIES WITH DEPENDENT CHILDREN

alternative assistance programs, 606
 eligibility: controlled substance offenses, 283, 284
 employment assistance: greater avenues for independence (gain) program: welfare-
 to-work services, etc., 270
 foster care. See FOSTER CARE.
 payments—
 rental payments, direct, 627
 voucher payments, etc., 283, 284
 work opportunity and responsibility to kids (calworks), recast as california, 270

AIDS (ACQUIRED IMMUNE DEFICIENCY SYNDROME)

hiv—
 breast milk, human: reactive donors, 511
 insurance application or enrollment request, life or disability, 496
 minors: demonstration projects re exposure, etc., 606
 sperm or tissue donors, 511
 testing—
 funding, etc., 294
 insurance application or enrollment request, life or disability, 496

AIDS (ACQUIRED IMMUNE DEFICIENCY SYNDROME)—Continued

hiv—continued

treatments, drug—

client assistance provisions, etc., 294

manufacturer rebates, etc., 294

vaccine research and development grant program, 294

AIR POLLUTION

agricultural operations: odors: waste disposal, 745, 788

basin, sacramento valley air, 145

burning—

administrative burning: vegetative materials on rice research facilities, 745

american flags, unserviceable, 538

nonagricultural burning, 538

rice straw, 745

compost operations, facilities, etc.: odors: exemption from prohibition, 788

consumer products: volatile organic compound emissions, 568, 689

disinfectants: volatile organic compound emissions, 689

districts. See DISTRICTS; and name of particular district.

electric utility restructuring, air emission effects of, 796

mobile sources—

emission reduction requirements, credits, etc., 418, 802, 803

trailers, refrigerated, 418

motor vehicles—

emissions: standards, reduction requirements, etc., 802, 803

fees, 802, 804

foreign commercial vehicles, 86

fuel, motor vehicle: methyl tertiary butyl ether (mtbe), 816

gross polluters, 802, 803, 804

inspection programs, smog check stations, etc.—

biennial inspections: exemptions, 801, 802, 803

certificates of compliance or noncompliance, 801, 802, 803

enhanced vehicle inspection and maintenance program, 802, 803

evaluation of inspection program, 802, 803

exempt vehicles, 801, 802, 803

profiles of motor vehicles, statistical and emissions: development, etc., 802

referee services, 803, 804

repairs—

assistance to low-income owners of high polluters, 802, 803, 804

cost limits, waivers, etc., 803, 804

extensions, economic hardship, 803, 804

subsidy program, repair, 803, 804

replacement of existing vehicle inspection and maintenance program, 802, 803

test-only stations, 803

light-duty vehicles, retirement of high-emitting, 802

mobile sources. See subheading, *mobile sources*.

remote sensing: identification of gross polluters, 803

repairs. See subheading, *motor vehicles-inspection programs, smog check stations, etc.*

rideshare programs. See subheading, *motor vehicles-rip reduction, transportation control, etc.*

smog check programs. See subheading, *motor vehicles-inspection programs, smog check stations, etc.*

NOTE: Citations are to chapter numbers; resolution chapters are indicated in *italics*. First Extraordinary Session chapter or resolution numbers are followed by (IX).

- AIR POLLUTION—Continued

PREFACE

Digests

The Summary Digest consists of a short summary of each law enacted, and of each concurrent or joint resolution adopted by the Legislature in 1997.

The text of the Summary Digest is arranged numerically by chapter number.

Superior numbers following the title refer to a Governor's Message affecting that law. These are printed after the digests in the "Digest Chapters Superior Numbers" section.

Cross Reference Tables

Cross reference tables are arranged numerically by bill or resolution number and indicate the chapter number of each.

New General Laws

Lists new general laws passed in the years 1989–1997 which do not specifically amend, add to, or repeal any existing code or general law.

Index

A subject matter index to all measures, including resolutions, is included.

Statutory Record

This edition of the Summary Digest includes a statutory record for 1989–1997. Superior numbers following the *Effect* refer to a special condition affecting that section.

Cumulative statutory records for 10-year periods, 1979–1988, 1969–1978, 1959–1968 and 1949–1958, and for the 16-year period, 1933–1948, are published in separate volumes, which supplement the original statutory record, 1850–1932, published in 1933.

EFFECTIVE DATES

Regular Session

The 1997–98 Regular Session convened on December 2, 1996, and the interim study recess commenced on September 13, 1997. Statutes enacted in 1997, other than those taking immediate effect, will become effective January 1, 1998. In absence of other considerations, the provisions of a statute become operative on the date it takes effect. Digests indicate statutes taking immediate effect.

An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency, until a specified time, or until a vote of the electors at a statewide election. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

A constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative date*. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 1997–98 First Extraordinary Session convened in the Assembly on January 14, 1997, and in the Senate on January 13, 1997. This Extraordinary Session had not been adjourned prior to publication of this Summary Digest; please refer to the succeeding year's Summary Digest.

Abbreviation for Resolution Chapters is an "R" followed by the Resolution Chapter number in the Chapter column.

SUPPLEMENTS

CODIFIED SECTIONS	"S" denotes a placeholder for superior notes. This is not the latest amended form.
STATS OTHER THAN CODES	If the "S" has a superior note attached it is a placeholder for the superior note reference to an effect on a new or existing law. If the "S" does not have a superior note attached it is a reference to a budget augmentation, reappropriation, or reversion.
BUDGET	A reference to an augmentation, reappropriation, or reversion. This is not the latest amended form.
