CONTENTS

EFFECTIVE DATES

Regular Session

The 1997–98 Regular Session reconvened on January 5, 1998, and adjourned *sine die* on November 30, 1998. Statutes enacted in 1998, other than those taking immediate effect, will become effective January 1, 1999.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

An initiative statute or referendum or a constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

Statutes Which Take Effect Immediately. An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

Operative Date. The provisions of a statute normally become operative on the date it takes effect. However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency or until a specified time. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative* date. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 1997–98 First Extraordinary Session reconvened on January 5, 1998, and adjourned *sine die* on September 1, 1998. Statutes enacted at an extraordinary session, other than those taking immediate effect, will become effective on the 91st day after adjournment. The 91st day after adjournment is December 1, 1998. Please refer to the preceding year's Statutes and Amendments to the Codes for statutes enacted prior to the recovening date.

CONSTITUTION OF THE STATE OF CALIFORNIA

1879

CONSTITUTION OF THE STATE OF CALIFORNIA*

AS AMENDED AND IN FORCE NOVEMBER 3, 1998

PREAMBLE

We, the People of the State of California, grateful to Almighty God for our freedom, in order to secure and perpetuate its blessings, do establish this Constitution.

ARTICLE I

DECLARATION OF RIGHTS

SECTION 1. [*Repealed November 5, 1974. See Section 1, below.*]

[*Inalienable Rights*]

SECTION 1. All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, and privacy. [*New section adopted November 5, 1974.*]

[*Liberty of Speech and of the Press—Newspersons' Refusal to Disclose Information Sources Not Adjudged in Contempt*]

SEC. 2. (a) Every person may freely speak, write and publish his or her sentiments on all subjects, being responsible for the abuse of this right. A law may not restrain or abridge liberty of speech or press.

(b) A publisher, editor, reporter, or other person connected with or employed upon a newspaper, magazine, or other periodical publication, or by a press association or wire service, or any person who has been so connected or employed, shall not be adjudged in contempt by a judicial, legislative, or administrative body, or any other body having the power to issue subpoenas, for refusing to disclose the source of any information procured while so connected or employed for publication in a newspaper, magazine or other periodical publication, or for refusing to disclose any unpublished information obtained or prepared in gathering, receiving or processing of information for communication to the public.

Nor shall a radio or television news reporter or other person connected with or employed by a radio or television station, or any person who has been so connected or employed, be so adjudged in contempt for refusing to disclose the source of any information procured while so connected or employed for news or news commentary purposes on radio or television, or for refusing to disclose any unpublished information obtained or prepared in gathering, receiving or processing of information for communication to the public.

* Adopted by the people on May 7, 1879. Certain spelling and capitalization variances reflect State Printer's style in effect at time of adoption of amendments.

As used in this subdivision, ''unpublished information'' includes information not disseminated to the public by the person from whom disclosure is sought, whether or not related information has been disseminated and includes, but is not limited to, all notes, outtakes, photographs, tapes or other data of whatever sort not itself disseminated to the public through a medium of communication, whether or not published information based upon or related to such material has been disseminated. [*As amended June 3, 1980.*]

[*Right to Assemble and to Petition*]

SEC. 3. The people have the right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good. [*New section adopted November 5, 1974.*]

SEC. 4. [*Repealed November 5, 1974. See Section 4, below.*]

[*Liberty of Conscience*]

SEC. 4. Free exercise and enjoyment of religion without discrimination or preference are guaranteed. This liberty of conscience does not excuse acts that are licentious or inconsistent with the peace or safety of the State. The Legislature shall make no law respecting an establishment of religion.

A person is not incompetent to be a witness or juror because of his or her opinions on religious beliefs. [*New section adopted November 5, 1974.*]

[*Due Process of Law—Use of Pupil School Assignment or Pupil Transportation*]

SEC. 7. (a) A person may not be deprived of life, liberty, or property without due process of law or denied equal protection of the laws; provided, that nothing contained herein or elsewhere in this Constitution imposes upon the State of California or any public entity, board, or official any obligations or responsibilities which exceed those imposed by the Equal Protection Clause of the 14th Amendment to the United States Constitution with respect to the use of pupil school assignment or pupil trans-

portation. In enforcing this subdivision or any other provision of this Constitution, no court of this State may impose upon the State of California or any public entity, board, or official any obligation or responsibility with respect to the use of pupil school assignment or pupil transportation, (1) except to remedy a specific violation by such party that would also constitute a violation of the Equal Protection Clause of the 14th Amendment to the United States Constitution, and (2) unless a federal court would be permitted under federal decisional law to impose that obligation or responsibility upon such party to remedy the specific violation of the Equal Protection Clause of the 14th Amendment of the United States Constitution.

Except as may be precluded by the Constitution of the United States, every existing judgment, decree, writ, or other order of a court of this State, whenever rendered, which includes provisions regarding pupil school assignment or pupil transportation, or which requires a plan including any such provisions shall, upon application to a court having jurisdiction by any interested person, be modified to conform to the provisions of this subdivision as amended, as applied to the facts which exist at the time of such modification.

In all actions or proceedings arising under or seeking application of the amendments to this subdivision proposed by the Legislature at its 1979–80 Regular Session, all courts, wherein such actions or proceedings are or may hereafter be pending, shall give such actions or proceedings first precedence over all other civil actions therein.

Nothing herein shall prohibit the governing board of a school district from voluntarily continuing or commencing a school integration plan after the effective date of this subdivision as amended.

In amending this subdivision, the Legislature and people of the State of California find and declare that this amendment is necessary to serve compelling public interests, including those of making the most effective use of the limited financial resources now and prospectively available to support public education, maximizing the educational opportunities and protecting the health and safety of all public school pupils, enhancing the ability of parents to participate in the educational process, preserving harmony and tranquility in this State and its public schools, preventing the waste of scarce fuel resources, and protecting the environment.

[*Privileges and Immunities*]

[*Bail—Release on Own Recognizance*]

SEC. 12. A person shall be released on bail by sufficient sureties, except for:

(a) Capital crimes when the facts are evident or the presumption great;

(b) Felony offenses involving acts of violence on another person, or felony sexual assault offenses on another person, when the facts are evident or the presumption great and the court finds based upon clear and convincing evidence that there is a substantial likelihood the person's release would result in great bodily harm to others; or

(c) Felony offenses when the facts are evident or the presumption great and the court finds based on clear and convinving evidence that the person has threatened another with great bodily harm and that there is a substantial likelihood that the person would carry out the threat if released.

Excessive bail may not be required. In fixing the amount of bail, the court shall take into consideration the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case.

A person charged with a felony by complaint subscribed under penalty of perjury and on file in a court in the county where the felony is triable shall be taken without unnecessary delay before a magistrate of that court. The magistrate shall immediately give the defendant a copy of the complaint, inform the defendant of the defendant's right to counsel, allow the defendant a reasonable time to send for counsel, and on the defendant's request read the complaint to the defendant. On the defendant's request the magistrate shall require a peace officer to transmit within the county where the court is located a message to counsel named by defendant.

A person unable to understand English who is charged with a crime has a right to an interpreter throughout the proceedings. [*New section adopted November 5, 1974.*]

The Legislature may provide for the deposition of a witness in the presence of the defendant and the defendant's counsel.

Persons may not twice be put in jeopardy for the same offense, be compelled in a criminal cause to be a witness against themselves, or be deprived of life, liberty, or property without due process of law. [*New section adopted November 5, 1974.*]

[*Trial by Jury*]

SEC. 16. Trial by jury is an inviolate right and shall be secured to all, but in a civil cause three-fourths of the jury may render a verdict. A jury may be waived in a criminal cause by the consent of both parties expressed in open court by the defendant and the defendant's counsel. In a civil cause a jury may be waived by the consent of the parties expressed as prescribed by statute.

[*Number of Jurors in Civil Trials*]

In civil causes the jury shall consist of 12 persons or a lesser number agreed on by the parties in open court. In civil causes other than causes within the appellate jurisdiction of the court of appeal the Legislature may provide that the jury shall consist of eight persons or a lesser number agreed on by the parties in open court.

[*Number of Jurors in Criminal Trials*]

In criminal actions in which a felony is charged, the jury shall consist of 12 persons. In criminal actions in which a misdemeanor is charged, the jury shall consist of 12 persons or a lesser number agreed on by the parties in open court. [*As amended June 2, 1998.*]

[*Constitutional Rights—Rights Reserved*]

In criminal cases the rights of a defendant to equal protection of the laws, to due process of law, to the assistance of counsel, to be personally present with counsel, to a speedy and public trial, to compel the attendance of witnesses, to confront the witnesses against him or her, to be free from unreasonable searches and seizures, to privacy, to not be compelled to be a witness against himself or herself, to not be placed twice in jeopardy for the same offense, and to not suffer the imposition of cruel or unusual punishment, shall be construed by the courts of this State in a manner consistent with the Constitution of the United States. This Constitution shall not be construed by the courts to afford greater rights to criminal defendants than those afforded by the Constitution of the United States, nor shall it be construed to afford greater rights to minors in juvenile proceedings on criminal causes than those afforded by the Constitution of the United States.

This declaration of rights may not be construed to impair or deny others retained by the people. [*As amended June 5, 1990. Initiative measure.*]

The people shall have the right to fish upon and from the public lands of the State and in the waters thereof, excepting upon lands set aside for fish hatcheries, and no land owned by the State shall ever be sold or transferred without reserving in the people the absolute right to fish thereupon; and no law shall ever be passed making it a crime for the people to enter upon the public lands within this State for the purpose of fishing in any water containing fish that have been planted therein by the State; *provided*, that the Legislature may by statute, provide for the season when and the conditions under which the different species of fish may be taken. [*Death Penalty*]

SEC. 27. All statutes of this State in effect on February 17, 1972, requiring, authorizing, imposing, or relating to the death penalty are in full force and effect, subject to legislative amendment or repeal by statute, initiative, or referendum.

The death penalty provided for under those statutes shall not be deemed to be, or to constitute, the infliction of cruel or unusual punishments within the meaning of Article 1, Section 6 nor shall such punishment for such offenses be deemed to contravene any other provision of this constitution. [*New section adopted November 7, 1972. Initiative measure.*]

[*"The Victims' Bill of Rights"*]

SEC. 28. (a) The People of the State of California find and declare that the enactment of comprehensive provisions and laws ensuring a bill of rights for victims of crime, including safeguards in the criminal justice system to fully protect those rights, is a matter of grave statewide concern.

The rights of victims pervade the criminal justice system, encompassing not only the right to restitution from the wrongdoers for financial losses suffered as a result of criminal acts, but also the more basic expectation that persons who commit felonious acts causing injury to innocent victims

will be appropriately detained in custody, tried by the courts, and sufficiently punished so that the public safety is protected and encouraged as a goal of highest importance.

Such public safety extends to public primary, elementary, junior high, and senior high school campuses, where students and staff have the right to be safe and secure in their persons.

To accomplish these goals, broad reforms in the procedural treatment of accused persons and the disposition and sentencing of convicted persons are necessary and proper as deterrents to criminal behavior and to serious disruption of people's lives.

(b) Restitution. It is the unequivocal intention of the People of the State of California that all persons who suffer losses as a result of criminal activity shall have the right to restitution from the persons convicted of the crimes for losses they suffer.

Restitution shall be ordered from the convicted persons in every case, regardless of the sentence or disposition imposed, in which a crime victim suffers a loss, unless compelling and extraordinary reasons exist to the contrary. The Legislature shall adopt provisions to implement this section during the calendar year following adoption of this section.

(c) Right to Safe Schools. All students and staff of public primary, elementary, junior high and senior high schools have the inalienable right to attend campuses which are safe, secure and peaceful.

(d) Right to Truth-in-Evidence. Except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, relevant evidence shall not be excluded in any criminal proceeding, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court. Nothing in this section shall affect any existing statutory rule of evidence relating to privilege or hearsay, or Evidence Code, Sections 352, 782 or 1103. Nothing in this section shall affect any existing statutory or constitutional right of the press.

(e) Public Safety Bail. A person may be released on bail by sufficient sureties, except for capital crimes when the facts are evident or the presumption great. Excessive bail may not be required. In setting, reducing or denying bail, the judge or magistrate shall take into consideration the protection of the public, the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case. Public safety shall be the primary consideration.

A person may be released on his or her own recognizance in the court's discretion, subject to the same factors considered in setting bail. However, no person charged with the commission of any serious felony shall be released on his or her own recognizance.

Before any person arrested for a serious felony may be released on bail, a hearing may be held before the magistrate or judge, and the prosecuting attorney shall be given notice and reasonable opportunity to be heard on the matter.

When a judge or magistrate grants or denies bail or release on a person's own recognizance, the reasons for that decision shall be stated in the record and included in the court's minutes.

(f) Use of Prior Convictions. Any prior felony conviction of any person in any criminal proceeding, whether adult or juvenile, shall subsequently be used without limitation for purposes of impeachment or enhancement of sentence in any criminal proceeding. When a prior felony conviction is an element of any felony offense, it shall be proven to the trier of fact in open court.

(g) As used in this article, the term ''serious felony'' is any crime defined in Penal Code, Section 1192.7(c). [*New section adopted June 8, 1982. Initiative measure.*]

[*Criminal Cases—Due Process of Law—Speedy and Public Trial*]

SEC. 29. In a criminal case, the people of the State of California have the right to due process of law and to a speedy and public trial. [*New section adopted June 5, 1990. Initiative measure.*]

[*Criminal Cases—Jointure-Hearsay Evidence—Discovery*]

SEC. 30. (a) This Constitution shall not be construed by the courts to prohibit the joining of criminal cases as prescribed by the Legislature or by the people through the initiative process.

(b) In order to protect victims and witnesses in criminal cases, hearsay evidence shall be admissible at preliminary hearings, as prescribed by the Legislature or by the people through the initiative process.

(c) In order to provide for fair and speedy trials, discovery in criminal cases shall be reciprocal in nature, as prescribed by the Legislature or by the people through the initiative process. [*New section adopted June 5, 1990. Initiative measure.*]

[*Prohibition Against Discrimination or Preferential Treatment*]

SEC. 31. (a) The State shall not discriminate against, or grant preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting.

(b) This section shall apply only to action taken after the section's effective date.

(c) Nothing in this section shall be interpreted as prohibiting bona fide qualifications based on sex which are reasonably necessary to the normal operation of public employment, public education, or public contracting.

(d) Nothing in this section shall be interpreted as invalidating any court order or consent decree which is in force as of the effective date of this section.

(e) Nothing in this section shall be interpreted as prohibiting action which must be taken to establish or maintain eligibility for any federal program, where ineligibility would result in a loss of federal funds to the State.

(f) For the purposes of this section, ''State'' shall include, but not necessarily be limited to, the State itself, any city, county, city and county, public university system, including the University of California, community college district, school district, special district, or any other political subdivision or governmental instrumentality of or within the State.

(g) The remedies available for violations of this section shall be the same, regardless of the injured party's race, sex, color, ethnicity, or national origin, as are otherwise available for violations of then-existing California antidiscrimination law.

(h) This section shall be self-executing. If any part or parts of this section are found to be in conflict with federal law or the United States Constitution, the section shall be implemented to the maximum extent that federal law and the United States Constitution permit. Any provision held invalid shall be severable from the remaining portions of this section. [*New section adopted November 5, 1996. Initiative measure.*]

The Legislature shall provide for primary elections for partisan offices, including an open presidential primary whereby the candidates on the ballot are those found by the Secretary of State to be recognized candidates throughout the nation or throughout California for the office of President of the United States, and those whose names are placed on the ballot by petition, but excluding any candidate who has withdrawn by filing an affidavit of noncandidacy. [*Former Section 4, as renumbered June 8, 1976.*]

(b) An initiative measure may be proposed by presenting to the Secretary of State a petition that sets forth the text of the proposed statute or amendment to the Constitution and is certified to have been signed by electors equal in number to 5 percent in the case of a statute, and 8 percent

in the case of an amendment to the Constitution, of the votes for all candidates for Governor at the last gubernatorial election.

(c) The Secretary of State shall then submit the measure at the next general election held at least 131 days after it qualifies or at any special statewide election held prior to that general election. The Governor may call a special statewide election for the measure.

(d) An initiative measure embracing more than one subject may not be submitted to the electors or have any effect.

(e) An initiative measure may not include or exclude any political subdivision of the State from the application or effect of its provisions based upon approval or disapproval of the initiative measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of that political subdivision.

(f) An initiative measure may not contain alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure. [*As amended June 2, 1998.*]

[*Referendum*]

SEC. 9. (a) The referendum is the power of the electors to approve or reject statutes or parts of statutes except urgency statutes, statutes calling elections, and statutes providing for tax levies or appropriations for usual current expenses of the State.

(b) A referendum measure may be proposed by presenting to the Secretary of State, within 90 days after the enactment date of the statute, a petition certified to have been signed by electors equal in number to 5 percent of the votes for all candidates for Governor at the last gubernatorial election, asking that the statute or part of it be submitted to the electors. In the case of a statute enacted by a bill passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, the petition may not be presented on or after January 1 next following the enactment date unless a copy of the petition is submitted to the Attorney General pursuant to subdivision (d) of Section 10 of Article II before January 1.

(c) The Secretary of State shall then submit the measure at the next general election held at least 31 days after it qualifies or at a special statewide election held prior to that general election. The Governor may call a special statewide election for the measure. [*As amended June 5, 1990.*]

[*Initiative and Referendum—Vote and Effective Date—Conflicts—Legislative Repeal or Amendment—Titling*]

SEC. 10. (a) An initiative statute or referendum approved by a majority of votes thereon takes effect the day after the election unless the

measure provides otherwise. If a referendum petition is filed against a part of a statute the remainder shall not be delayed from going into effect.

(b) If provisions of 2 or more measures approved at the same election conflict, those of the measure receiving the highest affirmative vote shall prevail.

(c) The Legislature may amend or repeal referendum statutes. It may amend or repeal an initiative statute by another statute that becomes effective only when approved by the electors unless the initiative statute permits amendment or repeal without their approval.

(d) Prior to circulation of an initiative or referendum petition for signatures, a copy shall be submitted to the Attorney General who shall prepare a title and summary of the measure as provided by law.

(e) The Legislature shall provide the manner in which petitions shall be circulated, presented, and certified, and measures submitted to the electors. [*Former Section 24 of Article IV, as renumbered June 8, 1976.*]

[*Initiative and Referendum—Cities or Counties*]

(b) A city or county initiative measure may not include or exclude any part of the city or county from the application or effect of its provisions based upon approval or disapproval of the initiative measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of the city or county or any part thereof.

(c) A city or county initiative measure may not contain alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure. [*As amended June 2, 1998.*]

[*Naming Individual or Private Corporation to Office or Duty Prohibited*]

SEC. 12. No amendment to the Constitution, and no statute proposed to the electors by the Legislature or by initiative, that names any individual to hold any office, or names or identifies any private corporation to perform any function or to have any power or duty, may be submitted to the electors or have any effect. [*Former Section 26 of Article IV, as renumbered June 8, 1976.*]

[*Recall Defined*]

SEC. 13. Recall is the power of the electors to remove an elective officer. [*New section adopted June 8, 1976.*]

[*Recall Petitions*]

SEC. 14. (a) Recall of a state officer is initiated by delivering to the Secretary of State a petition alleging reason for recall. Sufficiency of reason is not reviewable. Proponents have 160 days to file signed petitions.

(b) A petition to recall a statewide officer must be signed by electors equal in number to 12 percent of the last vote for the office, with signatures from each of 5 counties equal in number to 1 percent of the last vote for the office in the county. Signatures to recall Senators, members of the Assembly, members of the Board of Equalization, and judges of courts of appeal and trial courts must equal in number 20 percent of the last vote for the office.

(c) The Secretary of State shall maintain a continuous count of the signatures certified to that office. [*New section adopted June 8, 1976.*]

[*Recall Elections*]

SEC. 15. (a) An election to determine whether to recall an officer and, if appropriate, to elect a successor shall be called by the Governor and held not less than 60 days nor more than 80 days from the date of certification of sufficient signatures.

(b) A recall election may be conducted within 180 days from the date of certification of sufficient signatures in order that the election may be consolidated with the next regularly scheduled election occurring wholly or partially within the same jurisdiction in which the recall election is held, if the number of voters eligible to vote at that next regularly scheduled election equal at least 50 percent of all the voters eligible to vote at the recall election.

(c) If the majority vote on the question is to recall, the officer is removed and, if there is a candidate, the candidate who receives a plurality is the successor. The officer may not be a candidate, nor shall there be any candidacy for an office filled pursuant to subdivision (d) of Section 16 of Article VI. [*As amended November 8, 1994.*]

[*Legislature to Provide for Petitions, Etc.*]

curred. Another recall may not be initiated against the officer until six months after the election. [*New section adopted June 8, 1976.*]

[*Recall of Local Officers*]

SEC. 19. The Legislature shall provide for recall of local officers. This section does not affect counties and cities whose charters provide for recall. [*New section adopted June 8, 1976.*]

[*Terms of Elective Offices*]

SEC. 20. Terms of elective offices provided for by this Constitution, other than Members of the Legislature, commence on the Monday after January 1 following election. The election shall be held in the last even-numbered year before the term expires. [*New section adopted June 8, 1976.*]

ARTICLE III. [*Repealed November 7, 1972. See Article III, below.*]

ARTICLE III*

STATE OF CALIFORNIA

[*United States Constitution Supreme Law*]

SEC. 1. The State of California is an inseparable part of the United States of America, and the United States Constitution is the supreme law of the land. [*New section adopted November 7, 1972.*]

[*Boundaries of the State—Sacramento Seat of Government*]

SEC. 2. The boundaries of the State are those stated in the Constitution of 1849 as modified pursuant to statute. Sacramento is the capital of California. [*New section adopted November 7, 1972.*]

[*Separation of Powers*]

SEC. 3. The powers of state government are legislative, executive, and judicial. Persons charged with the exercise of one power may not exercise either of the others except as permitted by this Constitution. [*New section adopted November 7, 1972.*]

[*Administrative Agencies: Declaration Statute Unenforceable or Unconstitutional Prohibited*]

SEC. 3.5. An administrative agency, including an administrative agency created by the Constitution or an initiative statute, has no power:

(a) To declare a statute unenforceable, or refuse to enforce a statute, on the basis of it being unconstitutional unless an appellate court has made a determination that such statute is unconstitutional;

* New Article III adopted November 7, 1972.

(b) To declare a statute unconstitutional;
(c) To declare a statute unenforceable, or to refuse to enforce a statute on the basis that federal law or federal regulations prohibit the enforcement of such statute unless an appellate court has made a determination that the enforcement of such statute is prohibited by federal law or federal regulations. [*New section adopted June 6, 1978.*]

[*Salaries of Elected State Officers—Salaries of Judges*]

SEC. 4. (a) Except as provided in subdivision (b), salaries of elected state officers may not be reduced during their term of office. Laws that set these salaries are appropriations.

(b) Beginning on January 1, 1981, the base salary of a judge of a court of record shall equal the annual salary payable as of July 1, 1980, for that office had the judge been elected in 1978. The Legislature may prescribe increases in those salaries during a term of office, and it may terminate prospective increases in those salaries at any time during a term of office, but it shall not reduce the salary of a judge during a term of office below the highest level paid during that term of office. Laws setting the salaries of judges shall not constitute an obligation of contract pursuant to Section 9 of Article I or any other provision of law. [*As amended November 4, 1980.*]

[*Suits Against State*]

SEC. 5. Suits may be brought against the State in such manner and in such courts as shall be directed by law. [*New section adopted November 7, 1972.*]

[*Official State Language*]

SEC. 6. (a) Purpose.

English is the common language of the people of the United States of America and the State of California. This section is intended to preserve, protect and strengthen the English language, and not to supersede any of the rights guaranteed to the people by this Constitution.

(b) English as the Official Language of California.

English is the official language of the State of California.

(c) Enforcement.

The Legislature shall enforce this section by appropriate legislation. The Legislature and officials of the State of California shall take all steps necessary to insure that the role of English as the common language of the State of California is preserved and enhanced. The Legislature shall make no law which diminishes or ignores the role of English as the common language of the State of California.

(d) Personal Right of Action and Jurisdiction of Courts.

Any person who is a resident of or doing business in the State of California shall have standing to sue the State of California to enforce this section, and the Courts of record of the State of California shall have jurisdiction to hear cases brought to enforce this section. The Legislature may provide reasonable and appropriate limitations on the time and manner of suits brought under this section. [*New section adopted November 4, 1986. Initiative measure.*]

[*Retirement Benefits for Elected Constitutional Officers*]

SEC. 7. (a) The retirement allowance for any person, all of whose credited service in the Legislators' Retirement System was rendered or was deemed to have been rendered as an elective officer of the State whose office is provided for by the California Constitution, other than a judge and other than a Member of the Senate or Assembly, and all or any part of whose retirement allowance is calculated on the basis of the compensation payable to the officer holding the office which the member last held prior to retirement, or for the survivor or beneficiary of such a person, shall not be increased or affected in any manner by changes on or after November 5, 1986, in the compensation payable to the officer holding the office which the member last held prior to retirement.

(b) This section shall apply to any person, survivor, or beneficiary described in subdivision (a) who receives, or is receiving, from the Legislators' Retirement System a retirement allowance on or after November 5, 1986, all or any part of which allowance is calculated on the basis of the compensation payable to the officer holding the office which the member last held prior to retirement.

(c) It is the intent of the people, in adopting this section, to restrict retirement allowances to amounts reasonably to be expected by certain members and retired members of the Legislators' Retirement System and to preserve the basic character of earned retirement benefits while prohibiting windfalls and unforeseen advantages which have no relation to the real theory and objective of a sound retirement system. It is not the intent of this section to deny any member, retired member, survivor, or beneficiary a reasonable retirement allowance. Thus, this section shall not be construed as a repudiation of a debt nor the impairment of a contract for a substantial and reasonable retirement allowance from the Legislators' Retirement System.

(d) The people and the Legislature hereby find and declare that the dramatic increase in the retirement allowances of persons described in subdivision (a) which would otherwise result when the compensation for those offices increases on November 5, 1986, or January 5, 1987, are not benefits which could have reasonably been expected. The people and the Legislature further find and declare that the Legislature did not intend to

provide in its scheme of compensation for those offices such windfall benefits. [*New section adopted November 4, 1986.*]

[*California Citizens Compensation Commission*]

SEC. 8. (a) The California Citizens Compensation Commission is hereby created and shall consist of seven members appointed by the Governor. The commission shall establish the annual salary and the medical dental, insurance, and other similar benefits of state officers.

(b) The commission shall consist of the following persons:

(1) Three public members, one of whom has expertise in the area of compensation, such as an economist, market researcher, or personnel manager; one of whom is a member of a nonprofit public interest organization; and one of whom is representative of the general population and may include, among others, a retiree, homemaker, or person of median income. No person appointed pursuant to this paragraph may, during the 12 months prior to his or her appointment, have held public office, either elective or appointive, have been a candidate for elective public office, or have been a lobbyist, as defined by the Political Reform Act of 1974.

(2) Two members who have experience in the business community, one of whom is an executive of a corporation incorporated in this State which ranks among the largest private sector employers in the State based on the number of employees employed by the corporation in this State and one of whom is an owner of a small business in this State.

(3) Two members, each of whom is an officer or member of a labor organization.

(c) The Governor shall strive insofar as practicable to provide a balanced representation of the geographic, gender, racial, and ethnic diversity of the State in appointing commission members.

(d) The Governor shall appoint commission members and designate a chairperson for the commission not later than 30 days after the effective date of this section. The terms of two of the initial appointees shall expire on December 31, 1992, two on December 31, 1994, and three on December 31, 1996, as determined by the Governor. Thereafter, the term of each member shall be six years. Within 15 days of any vacancy, the Governor shall appoint a person to serve the unexpired portion of the term.

(e) No current or former officer or employee of this State is eligible for appointment to the commission.

(f) Public notice shall be given of all meetings of the commission, and the meetings shall be open to the public.

(g) On or before December 3, 1990, the commission shall, by a single resolution adopted by a majority of the membership of the commission, establish the annual salary and the medical, dental, insurance, and other similar benefits of state officers. The annual salary and benefits specified in that resolution shall be effective on and after December 3, 1990.

Thereafter, at or before the end of each of each fiscal year, the commission shall, by a single resolution adopted by a majority of the membership of the commission, adjust the annual salary and the medical, dental, insurance, and other similar benefits of state officers. The annual salary and benefits specified in the resolution shall be effective on and after the first Monday of the next December.

(h) In establishing or adjusting the annual salary and the medical, dental, insurance, and other similar benefits, the commission shall consider all of the following:

(1) The amount of time directly or indirectly related to the performance of the duties, functions, and services of a state officer.

(2) The amount of the annual salary and the medical, dental, insurance, and other similar benefits for other elected and appointed officers and officials in this State with comparable responsibilities, the judiciary, and, to the extent practicable, the private sector, recognizing, however, that state officers do not receive, and do not expect to receive, compensation at the same levels as individuals in the private sector with comparable experience and responsibilities.

(3) The responsibility and scope of authority of the entity in which the state officer serves.

(i) Until a resolution establishing or adjusting the annual salary and the medical, dental, insurance, and other similar benefits for state officers takes effect, each state officer shall continue to receive the same annual salary and the medical, dental, insurance, and other similar benefits received previously.

(j) All commission members shall receive their actual and necessary expenses, including travel expenses, incurred in the performance of their duties. Each member shall be compensated at the same rate as members, other than the chairperson, of the Fair Political Practices Commission, or its successor, for each day engaged in official duties, not to exceed 45 days per year.

(k) It is the intent of the Legislature that the creation of the commission should not generate new state costs for staff and services. The Department of Personnel Administration, the Board of Administration of the Public Employees' Retirement System, or other appropriate agencies, or their successors, shall furnish, from existing resources, staff and services to the commission as needed for the performance of its duties.

(*l*) "State officer," as used in this section, means the Governor, Lieutenant Governor, Attorney General, Controller, Insurance Commissioner, Secretary of State, Superintendent of Public Instruction, Treasurer, member of the State Board of Equalization, and Member of the Legislature. [*New section adopted June 5, 1990.*]

ARTICLE IV

LEGISLATIVE

[*Heading as amended November 8, 1966.*]

SECTION 1. [*Repealed November 8, 1966. See Section 1, below.*]

[*Legislative Power*]

SEC. 1. The legislative power of this State is vested in the California Legislature which consists of the Senate and Assembly, but the people reserve to themselves the powers of initiative and referendum. [*New section adopted November 8, 1966.*]

SEC. 1a. [*Renumbered Section 20 of Article XIII and amended November 8, 1966.*]

SEC. 1b. [*Repealed November 8, 1966.*]

SEC. 1c. [*Repealed November 8, 1966.*]

SEC. 1d. [*Repealed November 8, 1966.*]

[*Legislators—Limitation on Incumbency—Restriction of Retirement Benefits— Limitation of Staff and Support Services—Number of Terms*]

SEC. 1.5. The people find and declare that the Founding Fathers established a system of representative government based upon free, fair, and competitive elections. The increased concentration of political power in the hands of incumbent representatives has made our electoral system less free, less competitive, and less representative.

The ability of legislators to serve unlimited number of terms, to establish their own retirement system, and to pay for staff and support services at state expense contribute heavily to the extremely high number of incumbents who are reelected. These unfair incumbent advantages discourage qualified candidates from seeking public office and create a class of career politicians, instead of the citizen representatives envisioned by the Founding Fathers. These career politicians become representatives of the bureaucracy, rather than of the people whom they are elected to represent.

To restore a free and democratic system of fair elections, and to encourage qualified candidates to seek public office, the people find and declare that the powers of incumbency must be limited. Retirement benefits must be restricted, state-financed incumbent staff and support services limited, and limitations placed upon the number of terms which may be served. [*New section adopted November 6, 1990. Initiative measure.*]

[*Senate and Assembly—Membership—Elections—Number of Terms—Qualifications—Vacancies*]

SEC. 2. (a) The Senate has a membership of 40 Senators elected for 4-year terms, 20 to begin every 2 years. No Senator may serve more than 2 terms.

The Assembly has a membership of 80 members elected for 2-year terms. No member of the Assembly may serve more than 3 terms.

Their terms shall commence on the first Monday in December next following their election.

(b) Election of members of the Assembly shall be on the first Tuesday after the first Monday in November of even-numbered years unless otherwise prescribed by the Legislature. Senators shall be elected at the same time and places as members of the Assembly.

(c) A person is ineligible to be a member of the Legislature unless the person is an elector and has been a resident of the legislative district for one year, and a citizen of the United States and a resident of California for 3 years, immediately preceding the election.

(d) When a vacancy occurs in the Legislature the Governor immediately shall call an election to fill the vacancy. [*As amended November 6, 1990. Initiative measure.*]

[*Legislative Sessions—Regular and Special Sessions*]

SEC. 3. (a) The Legislature shall convene in regular session at noon on the first Monday in December of each even-numbered year and each house shall immediately organize. Each session of the Legislature shall adjourn sine die by operation of the Constitution at midnight on November 30 of the following even-numbered year.

(b) On extraordinary occasions the Governor by proclamation may cause the Legislature to assemble in special session. When so assembled it has power to legislate only on subjects specified in the proclamation but may provide for expenses and other matters incidental to the session. [*As amended June 8, 1976.*]

[*Legislators—Conflict of Interest—Prohibited Compensation—Earned Income*]

SEC. 4. (a) To eliminate any appearance of a conflict with the proper discharge of his or her duties and responsibilities, no Member of the Legislature may knowingly receive any salary, wages, commissions, or other similar earned income from a lobbyist or lobbying firm, as defined by the Political Reform Act of 1974, or from a person who, during the previous 12 months, has been under a contract with the Legislature. The Legislature shall enact laws that define earned income. However, earned income does not include any community property interest in the income of a spouse. Any Member who knowingly receives any salary, wages, commissions, or other similar earned income from a lobbyist employer, as defined by the

Political Reform Act of 1974, may not, for a period of one year following its receipt, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the Legislature, other than an action or decision involving a bill described in subdivision (c) of Section 12 of this article, which he or she knows, or has reason to know, would have a direct and significant financial impact on the lobbyist employer and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession.

[*Legislators—Travel and Living Expenses*]

(b) Travel and living expenses for Members of the Legislature in connection with their official duties shall be prescribed by statute passed by rollcall vote entered in the journal, two-thirds of the membership of each house concurring. A Member may not receive travel and living expenses during the times that the Legislature is in recess for more than three calendar days, unless the Member is traveling to or from, or is in attendance at, any meeting of a committee of which he or she is a member, or a meeting, conference, or other legislative function or responsibility as authorized by the rules of the house of which he or she is a member, which is held at a location at least 20 miles from his or her place of residence.

[*Legislators—Retirement*]

(c) The Legislature may not provide retirement benefits based on any portion of a monthly salary in excess of five hundred dollars ($500) paid to any Member of the Legislature unless the Member receives the greater amount while serving as a Member in the Legislature. The Legislature may, prior to their retirement, limit the retirement benefits payable to Members of the Legislature who serve during or after the term commencing in 1967.

When computing the retirement allowance of a Member who serves in the Legislature during the term commencing in 1967 or later, allowance may be made for increases in cost of living if so provided by statute, but only with respect to increases in the cost of living occurring after retirement of the Member. However, the Legislature may provide that no Member shall be deprived of a cost of living adjustment based on a monthly salary of five hundred dollars ($500) which has accrued prior to the commencement of the 1967 Regular Session of the Legislature. [*As amended June 5, 1990.*]

[*Legislators—Retirement*]

SEC. 4.5. Notwithstanding any other provision of this Constitution or existing law, a person elected to or serving in the Legislature on or after November 1, 1990, shall participate in the Federal Social Security (Retirement, Disability, Health Insurance) Program and the State shall pay

only the employer's share of the contribution necessary to such participation. No other pension or retirement benefit shall accrue as a result of service in the Legislature, such service not being intended as a career occupation. This Section shall not be construed to abrogate or diminish any vested pension or retirement benefit which may have accrued under an existing law to a person holding or having held office in the Legislature, but upon adoption of this Act no further entitlement to nor vesting in any existing program shall accrue to any such person, other than Social Security to the extent herein provided. [*New section adopted November 6, 1990. Initiative measure.*]

[*Legislators—Qualifications—Expulsion*]

SEC. 5. (a) Each house shall judge the qualifications and elections of its Members and, by rollcall vote entered in the journal, two thirds of the membership concurring, may expel a Member.

[*Legislators—Honoraria*]

(b) No Member of the Legislature may accept any honorarium. The Legislature shall enact laws that implement this subdivision.

[*Legislators—Gifts—Conflict of Interest*]

(c) The Legislature shall enact laws that ban or strictly limit the acceptance of a gift by a Member of the Legislature from any source if the acceptance of the gift might create a conflict of interest.

[*Legislators—Prohibited Compensation or Activity*]

(d) No Member of the Legislature may knowingly accept any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any state government board or agency. If a Member knowingly accepts any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any local government board or agency, the Member may not, for a period of one year following the acceptance of the compensation, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the Legislature, other than an action or decision involving a bill described in subdivision (c) of Section 12 of this article, which he or she knows, or has reason to know, would have a direct and significant financial impact on that person and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession. However, a Member may engage in activities involving a board or agency which are strictly on his or her own behalf, appear in the capacity of an attorney before any court or the Workers' Compensation Appeals Board, or act as an advocate without compensation or make an inquiry for information on behalf of a person be-

fore a board or agency. This subdivision does not prohibit any action of a partnership or firm of which the Member is a member if the Member does not share directly or indirectly in the fee, less any expenses attributable to that fee, resulting from that action.

[*Legislators—Lobbying*]

(e) The Legislature shall enact laws that prohibit a Member of the Legislature whose term of office commences on or after December 3, 1990, from lobbying, for compensation, as governed by the Political Reform Act of 1974, before the Legislature for 12 months after leaving office.

[*Legislators—Conflict of Interest*]

(f) The Legislature shall enact new laws, and strengthen the enforcement of existing laws, prohibiting Members of the Legislature from engaging in activities or having interests which conflict with the proper discharge of their duties and responsibilities. However, the people reserve to themselves the power to implement this requirement pursuant to Article II. [*As amended June 5, 1990. Subdivision (b) operative December 3, 1990.*]

SEC. 6. [*Repealed June 3, 1980. See Section 6, below.*]

[*Senatorial and Assembly Districts*]

SEC. 6. For the purpose of choosing members of the Legislature, the State shall be divided into 40 Senatorial and 80 Assembly districts to be called Senatorial and Assembly Districts. Each Senatorial district shall choose one Senator and each Assembly district shall choose one member of the Assembly. [*New section adopted June 3, 1980.*]

[*House Rules—Officers—Quorum*]

SEC. 7. (a) Each house shall choose its officers and adopt rules for its proceedings. A majority of the membership constitutes a quorum, but a smaller number may recess from day to day and compel the attendance of absent members.

[*Journals*]

(b) Each house shall keep and publish a journal of its proceedings. The rollcall vote of the members on a question shall be taken and entered in the journal at the request of 3 members present.

[*Public Proceedings—Closed Sessions*]

(c) (1) The proceedings of each house and the committees thereof shall be open and public. However, closed sessions may be held solely for any of the following purposes:

(A) To consider the appointment, employment, evaluation of performance, or dismissal of a public officer or employee, to consider or hear complaints or charges brought against a Member of the Legislature or

other public officer or employee, or to establish the classification or compensation of an employee of the Legislature.

(B) To consider matters affecting the safety and security of Members of the Legislature or its employees or the safety and security of any buildings and grounds used by the Legislature.

(C) To confer with, or receive advice from, its legal counsel regarding pending or reasonably anticipated, or whether to initiate, litigation when discussion in open session would not protect the interests of the house or committee regarding the litigation.

(2) A caucus of the Members of the Senate, the Members of the Assembly, or the Members of both houses, which is composed of the members of the same political party, may meet in closed session.

(3) The Legislature shall implement this subdivision by concurrent resolution adopted by rollcall vote entered in the journal, two-thirds of the membership of each house concurring, or by statute, and shall prescribe that, when a closed session is held pursuant to paragraph (1), reasonable notice of the closed session and the purpose of the closed session shall be provided to the public. If there is a conflict between a concurrent resolution and statute, the last adopted or enacted shall prevail.

[*Recess*]

(d) Neither house without the consent of the other may recess for more than 10 days or to any other place. [*As amended June 5, 1990. Subdivision (c) operative December 3, 1990.*]

[*Legislature—Total Aggregate Expenditures*]

SEC. 7.5. For each fiscal year thereafter, the total aggregate expenditures may not exceed an amount equal to that expended for those purposes in the preceding fiscal year, adjusted and compounded by an amount equal to the percentage increase in the appropriations limit for the State established pursuant to Article XIII B. [*New section adopted November 6, 1990. Initiative measure.*]

[*Bills and Statutes—30-day Waiting Period*]

SEC. 8. (a) At regular sessions no bill other than the budget bill may be heard or acted on by committee or either house until the 31st day after the bill is introduced unless the house dispenses with this requirement by rollcall vote entered in the journal, three fourths of the membership concurring.

[*Bills and Statutes—3 Readings*]

(b) The Legislature may make no law except by statute and may enact no statute except by bill. No bill may be passed unless it is read by title on 3 days in each house except that the house may dispense with this requirement by rollcall vote entered in the journal, two thirds of the membership concurring. No bill may be passed until the bill with amendments has been printed and distributed to the members. No bill may be passed unless, by rollcall vote entered in the journal, a majority of the membership of each house concurs.

[*Bills and Statutes—Effective Date*]

(c) (1) Except as provided in paragraphs (2) and (3) of this subdivision, a statute enacted at a regular session shall go into effect on January 1 next following a 90-day period from the date of enactment of the statute and a statute enacted at a special session shall go into effect on the 91st day after adjournment of the special session at which the bill was passed.

(2) A statute, other than a statute establishing or changing boundaries of any legislative, congressional, or other election district, enacted by a bill passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, shall go into effect on January 1 next following the enactment date of the statute unless, before January 1, a copy of a referendum petition affecting the statute is submitted to the Attorney General pursuant to subdivision (d) of Section 10 of Article II, in which event the statute shall go into effect on the 91st day after the enactment date unless the petition has been presented to the Secretary of State pursuant to subdivision (b) of Section 9 of Article II.

(3) Statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes shall go into effect immediately upon their enactment.

[*Bills and Statutes—Urgency Statutes*]

(d) Urgency statutes are those necessary for immediate preservation of the public peace, health, or safety. A statement of facts constituting the necessity shall be set forth in one section of the bill. In each house the section and the bill shall be passed separately, each by rollcall vote entered in the journal, two thirds of the membership concurring. An urgency statute may not create or abolish any office or change the salary, term, or duties of any office, or grant any franchise or special privilege, or create any vested right or interest. SEC. 10. (a) Each bill passed by the Legislature shall be presented to the Governor. It becomes a statute if it is signed by the Governor. The Governor may veto it by returning it with any objections to the house of origin, which shall enter the objections in the journal and proceed to reconsider it. If each house then passes the bill by rollcall vote entered in the journal, two thirds of the membership concurring, it becomes a statute.

(b) (1) Any bill, other than a bill which would establish or change boundaries of any legislative, congressional, or other election district, passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, that is not returned within 30 days after that date becomes a statute.

(2) Any bill passed by the Legislature before September 1 of the second calendar year of the biennium of the legislative session and in the possession of the Governor on or after September 1 that is not returned on or before September 30 of that year becomes a statute.

(3) Any other bill presented to the Governor that is not returned within 12 days becomes a statute.

(4) If the Legislature by adjournment of a special session prevents the return of a bill with the veto message, the bill becomes a statute unless the

Governor vetoes the bill within 12 days after it is presented by depositing it and the veto message in the office of the Secretary of State.

(5) If the 12th day of the period within which the Governor is required to perform an act pursuant to paragraph (3) or (4) of this subdivision is a Saturday, Sunday, or holiday, the period is extended to the next day that is not a Saturday, Sunday, or holiday.

(c) Any bill introduced during the first year of the biennium of the legislative session that has not been passed by the house of origin by January 31 of the second calendar year of the biennium may no longer be acted on by the house. No bill may be passed by either house on or after September 1 of an even-numbered year except statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes, and bills passed after being vetoed by the Governor.

(d) The Legislature may not present any bill to the Governor after November 15 of the second calendar year of the biennium of the legislative session.

(e) The Governor may reduce or eliminate one or more items of appropriation while approving other portions of a bill. The Governor shall append to the bill a statement of the items reduced or eliminated with the reasons for the action. The Governor shall transmit to the house originating the bill a copy of the statement and reasons. Until the budget bill has been enacted, the Legislature shall not send to the Governor for consideration any bill appropriating funds for expenditure during the fiscal year for which the budget bill is to be enacted, except emergency bills recommended by the Governor or appropriations for the salaries and expenses of the Legislature.

(d) No bill except the budget bill may contain more than one item of appropriation, and that for one certain, expressed purpose. Appropriations from the General Fund of the State, except appropriations for the public schools, are void unless passed in each house by rollcall vote entered in the journal, two thirds of the membership concurring.

SEC. 12. [*Repealed June 5, 1990.*]

[*Attorney General—Chief Law Officer*]

SEC. 13. Subject to the powers and duties of the Governor, the Attorney General shall be the chief law officer of the State. It shall be the duty of the Attorney General to see that the laws of the State are uniformly and adequately enforced. The Attorney General shall have direct supervision over every district attorney and sheriff and over such other law enforcement officers as may be designated by law, in all matters pertaining to the duties of their respective offices, and may require any of said officers to make reports concerning the investigation, detection, prosecution, and punishment of crime in their respective jurisdictions as to the Attorney General may seem advisable. Whenever in the opinion of the Attorney General any law of the State is not being adequately enforced in any county, it shall be the duty of the Attorney General to prosecute any violations of law of which the superior court shall have jurisdiction, and in such cases the Attorney General shall have all the powers of a district at-

The Legislature shall enact laws that define earned income. However, earned income does not include any community property interest in the income of a spouse. Any state officer who knowingly receives any salary, wages, commissions, or other similar earned income from a lobbyist employer, as defined by the Political Reform Act of 1974, may not, for a period of one year following its receipt, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the agency for which the state officer serves, other than an action or decision involving a bill described in subdivision (c) of Section 12 of Article IV, which he or she knows, or has reason to know, would have a direct and significant financial impact on the lobbyist employer and would not impact the public generally or a significant segment of the public in a similar manner. If a state officer knowingly accepts any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any local government board or agency, the state officer may not, for a period of one year following the acceptance of the compensation, make, participate in making, or in any way attempt to use his or her official position to influence an

action or decision before the state agency for which the state officer serves, other than an action or decision involving a bill described in subdivision (c) of Section 12 of Article IV, which he or she knows, or has reason to know, would have a direct and significant financial impact on that person and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, ''public generally'' includes an industry, trade, or profession. However, a state officer may engage in activities involving a board or agency which are strictly on his or her own behalf, appear in the capacity of an attorney before any court or the Workers' Compensation Appeals Board, or act as an advocate without compensation or make an inquiry for information on behalf of a person before a board or agency. This subdivision does not prohibit any action of a partnership or firm of which the state officer is a member if the state officer does not share directly or indirectly in the fee, less any expenses attributable to that fee, resulting from that action.

[*State Officers—Lobbying*]

(e) The Legislature shall enact laws that prohibit a state officer, or a secretary of an agency or director of a department appointed by the Governor, who has not resigned or retired from state service prior to January 7, 1991, from lobbying, for compensation, as governed by the Political Reform Act of 1974, before the executive branch of state government for 12 months after leaving office.

(b) (1) In counties in which there is no municipal court, judges of superior courts shall be elected in their counties at general elections except as otherwise necessary to meet the requirements of federal law. A judge of a trial court of record may, however, become eligible for election to other public office by taking a leave of absence without pay prior to filing a declaration of candidacy. Acceptance of the public office is a resignation from the office of judge.

(b) The Commission on Judicial Performance may disqualify a judge from acting as a judge, without loss of salary, upon notice of formal proceedings by the commission charging the judge with judicial misconduct or disability.

(c) The Commission on Judicial Performance shall suspend a judge from office without salary when in the United States the judge pleads guilty or no contest or is found guilty of a crime punishable as a felony under California or federal law or of any other crime that involves moral turpitude under that law. If the conviction is reversed, suspension terminates, and the judge shall be paid the salary for the judicial office held by the judge for the period of suspension. If the judge is suspended and the conviction becomes final, the Commission on Judicial Performance shall remove the judge from office.

(d) Except as provided in subdivision (f), the Commission on Judicial Performance may (1) retire a judge for disability that seriously interferes with the performance of the judge's duties and is or is likely to become permanent, or (2) censure a judge or former judge or remove a judge for action occurring not more than 6 years prior to the commencement of the judge's current term or of the former judge's last term that constitutes willful misconduct in office, persistent failure or inability to perform the judge's duties, habitual intemperance in the use of intoxicants or drugs, or conduct prejudicial to the administration of justice that brings the judicial office into disrepute, or (3) publicly or privately admonish a judge or former judge found to have engaged in an improper action or dereliction of duty. The commission may also bar a former judge who has been censured from receiving an assignment, appointment, or reference of work

A failure to comply with the time requirements of this section does not affect the validity of commission proceedings.

(h) Members of the commission, the commission staff, and the examiners and investigators employed by the commission shall be absolutely immune from suit for all conduct at any time in the course of their official duties. No civil action may be maintained against a person, or adverse employment action taken against a person, by any employer, public or private, based on statements presented by the person to the commission.

[*Taxation of Local Government Real Property*]

SEC. 11. (a) Lands owned by a local government that are outside its boundaries, including rights to use or divert water from surface or underground sources and any other interests in lands, are taxable if (1) they are located in Inyo or Mono County and (a) they were assessed for taxation to the local government in Inyo County as of the 1966 lien date, or in Mono County as of the 1967 lien date, whether or not the assessment was valid when made, or (b) they were acquired by the local government subsequent to that lien date and were assessed to a prior owner as of that lien date and each lien date thereafter, or (2) they are located outside Inyo or Mono County and were taxable when acquired by the local government. Improvements owned by a local government that are outside its boundaries are taxable if they were taxable when acquired or were constructed by the local government to replace improvements which were taxable when acquired.

(b) Taxable land belonging to a local government and located in Inyo County shall be assessed in any year subsequent to 1968 at the place where it was assessed as of the 1966 lien date and in an amount derived by multiplying its 1966 assessed value by the ratio of the statewide per capita assessed value of land as of the last lien date prior to the current lien date to $766, using civilian population only. Taxable land belonging to a local government and located in Mono County shall be assessed in any year subsequent to 1968 at the place where it was assessed as of the 1967 lien date and in an amount determined by the preceding formula except that the

1967 lien date, the 1967 assessed value, and the figure $856 shall be used in the formula. Taxable land belonging to a local government and located outside of Inyo and Mono counties shall be assessed at the place where located and in an amount that does not exceed the lower of (1) its fair market value times the prevailing percentage of fair market value at which other lands are assessed and (2) a figure derived in the manner specified in this Section for land located in Mono County.

If land acquired by a local government after the lien date of the base year specified in this Section was assessed in the base year as part of a larger parcel, the assessed value of the part in the base year shall be that fraction of the assessed value of the larger parcel that the area of the part is of the area of the larger parcel.

If a local government divests itself of ownership of land without water rights and this land was assessed in Inyo County as of the 1966 lien date or in Mono County as of the 1967 lien date, the divestment shall not diminish the quantity of water rights assessable and taxable at the place where assessed as of that lien date.

(c) In the event the Legislature changes the prevailing percentage of fair market value at which land is assessed for taxation, there shall be used in the computations required by Section 11(b) of this Article, for the first year for which the new percentage is applicable, in lieu of the statewide per capita assessed value of land as of the last lien date prior to the current lien date, the statewide per capita assessed value of land on the prior lien date times the ratio of the new prevailing percentage of fair market value to the previous prevailing percentage.

(d) If, after March 1954, a taxable improvement is replaced while owned by and in possession of a local government, the replacement improvement shall be assessed, as long as it is owned by a local government, as other improvements are except that the assessed value shall not exceed the product of (1) the percentage at which privately owned improvements are assessed times (2) the highest full value ever used for taxation of the improvement that has been replaced. For purposes of this calculation, the full value for any year prior to 1967 shall be conclusively presumed to be 4 times the assessed value in that year.

(e) No tax, charge, assessment, or levy of any character, other than those taxes authorized by Sections 11(a) to 11(d), inclusive, of this Article, shall be imposed upon one local government by another local government that is based or calculated upon the consumption or use of water outside the boundaries of the government imposing it.

(f) Any taxable interest of any character, other than a lease for agricultural purposes and an interest of a local government, in any land owned by a local government that is subject to taxation pursuant to Section 11(a) of this Article shall be taxed in the same manner as other taxable interests. The aggregate value of all the interests subject to taxation pursuant to Sec-

tion 11(a), however, shall not exceed the value of all interests in the land less the taxable value of the interest of any local government ascertained as provided in Sections 11(a) to 11(e), inclusive, of this Article.
(g) Any assessment made pursuant to Sections 11(a) to 11(d), inclusive, of this Article shall be subject to review, equalization, and adjustment by the State Board of Equalization, but an adjustment shall conform to the provisions of these Sections. [*New section adopted November 5, 1974.*]

[*Unsecured Property Tax Rate*]

SEC. 12. (a) Except as provided in subdivision (b), taxes on personal property, possessory interests in land, and taxable improvements located on land exempt from taxation which are not a lien upon land sufficient in value to secure their payment shall be levied at the rates for the preceding tax year upon property of the same kind where the taxes were a lien upon land sufficient in value to secure their payment.

(b) In any year in which the assessment ratio is changed, the Legislature shall adjust the rate described in subdivision (a) to maintain equality between property on the secured and unsecured rolls. [*As amended November 2, 1976.*]

Except as provided in subdivision (g) of Section 11, the county board of equalization, under such rules of notice as the county board may prescribe, shall equalize the values of all property on the local assessment roll by adjusting individual assessments.

County boards of supervisors shall fix the compensation for members of assessment appeals boards, furnish clerical and other assistance for those boards, adopt rules of notice and procedures for those boards as may be required to facilitate their work and to insure uniformity in the processing and decision of equalization petitions, and may provide for their discontinuance.

The Legislature shall provide for: (a) the number and qualifications of members of assessment appeals boards, the manner of selecting, appointing, and removing them, and the terms for which they serve, and (b) the procedure by which two or more county boards of supervisors may jointly create one or more assessment appeals boards. This property shall be subject to taxation to the same extent and in the same manner as other property.

No other tax or license charge may be imposed on these companies which differs from that imposed on mercantile, manufacturing, and other business corporations. This restriction does not release a utility company from payments agreed on or required by law for a special privilege or franchise granted by a government body.

The Legislature may authorize Board assessment of property owned or used by other public utilities.

ARTICLE XIII A*

[TAX LIMITATION]

[*Maximum Ad Valorem Tax on Real Property—Apportionment of Tax Revenues*]

SECTION 1. (a) The maximum amount of any ad valorem tax on real property shall not exceed One percent (1%) of the full cash value of such property. The one percent (1%) tax to be collected by the counties and apportioned according to law to the districts within the counties.

[*Exceptions to Limitation*]

(b) The limitation provided for in subdivision (a) shall not apply to ad valorem taxes or special assessments to pay the interest and redemption charges on (1) any indebtedness approved by the voters prior to July 1, 1978, or (2) any bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978, by two-thirds of the votes cast by the voters voting on the proposition. [*As amended June 3, 1986.*]

[*Valuation of Real Property—Appraised Value After 1975 Assessment—Replacement Dwelling*]

SEC. 2. (a) The ''full cash value'' means the county assessor's valuation of real property as shown on the 1975–76 tax bill under ''full cash value'' or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. All real property not already assessed up to the 1975–76 full cash value may be reassessed to reflect that valuation. For purposes of this section, ''newly constructed'' does not include real property that is reconstructed after a disaster, as declared by the Governor, where the fair market value of the real property, as reconstructed, is comparable to its fair market value prior to the disaster. Also, the term ''newly constructed'' does not include the portion of reconstruction or improvement to a structure, con-

structed of unreinforced masonry bearing wall construction, necessary to comply with any local ordinance relating to seismic safety during the first 15 years following that reconstruction or improvement.

However, the Legislature may provide that, under appropriate circumstances and pursuant to definitions and procedures established by the Legislature, any person over the age of 55 years who resides in property that is eligible for the homeowner's exemption under subdivision (k) of Section 3 of Article XIII and any implementing legislation may transfer the base year value of the property entitled to exemption, with the adjustments authorized by subdivision (b), to any replacement dwelling of equal or lesser value located within the same county and purchased or newly constructed by that person as his or her principal residence within two years of the sale of the original property. For purposes of this section, ''any person over the age of 55 years'' includes a married couple one member of which is over the age of 55 years. For purposes of this section, ''replacement dwelling'' means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, and any land on which it may be situated. For purposes of this section, a two-dwelling unit shall be considered as two separate single-family dwellings. This paragraph shall apply to any replacement dwelling that was purchased or newly constructed on or after November 5, 1986.

In addition, the Legislature may authorize each county board of supervisors, after consultation with the local affected agencies within the county's boundaries, to adopt an ordinance making the provisions of this subdivision relating to transfer of base year value also applicable to situations in which the replacement dwellings are located in that county and the original properties are located in another county within this State. For purposes of this paragraph, ''local affected agency'' means any city, special district, school district, or community college district that receives an annual property tax revenue allocation. This paragraph shall apply to any replacement dwelling that was purchased or newly constructed on or after the date the county adopted the provisions of this subdivision relating to transfer of base year value, but shall not apply to any replacement dwelling that was purchased or newly constructed before November 9, 1988.

The Legislature may extend the provisions of this subdivision relating to the transfer of base year values from original properties to replacement dwellings of homeowners over the age of 55 years to severely disabled homeowners, but only with respect to those replacement dwellings purchased or newly constructed on or after the effective date of this paragraph.

[*Full Cash Value Reflecting Inflationary Rate*]

(b) The full cash value base may reflect from year to year the inflationary rate not to exceed 2 percent for any given year or reduction as

shown in the consumer price index or comparable data for the area under taxing jurisdiction, or may be reduced to reflect substantial damage, destruction, or other factors causing a decline in value.

[*''Newly Constructed''*]

(c) For purposes of subdivision (a), the Legislature may provide that the term ''newly constructed'' does not include any of the following:

(1) The construction or addition of any active solar energy system.

(2) The construction or installation of any fire sprinkler system, other fire extinguishing system, fire detection system, or fire-related egress improvement, as defined by the Legislature, that is constructed or installed after the effective date of this paragraph.

(3) The construction, installation, or modification on or after the effective date of this paragraph of any portion or structural component of a single- or multiple-family dwelling that is eligible for the homeowner's exemption if the construction, installation, or modification is for the purpose of making the dwelling more accessible to a severely disabled person.

(4) The construction or installation of seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies, that are constructed or installed in existing buildings after the effective date of this paragraph. The Legislature shall define eligible improvements. This exclusion does not apply to seismic safety reconstruction or improvements that qualify for exclusion pursuant to the last sentence of the first paragraph of subdivision (a).

(5) The construction, installation, removal, or modification on or after the effective date of this paragraph of any portion or structural component of an existing building or structure if the construction, installation, removal, or modification is for the purpose of making the building more accessible to, or more usable by, a disabled person.

[*''Change in Ownership''*]

(d) For purposes of this section, the term ''change in ownership'' does not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action that has resulted in a judgment of inverse condemnation. The real property acquired shall be deemed comparable to the property replaced if it is similar in size, utility, and function, or if it conforms to state regulations defined by the Legislature governing the relocation of persons displaced by governmental actions. The provisions of this subdivision shall be applied to any property acquired after March 1, 1975, but shall affect only those assessments of that property that occur after the provisions of this subdivision take effect.

[*Disasters—Replacement Property*]

(e) (1) Notwithstanding any other provision of this section, the Legislature shall provide that the base year value of property that is substantially damaged or destroyed by a disaster, as declared by the Governor, may be transferred to comparable property within the same county that is acquired or newly constructed as a replacement for the substantially damaged or destroyed property.

(2) Except as provided in paragraph (3), this subdivision shall apply to any comparable replacement property acquired or newly constructed on or after July 1, 1985, and to the determination of base year values for the 1985–86 fiscal year and fiscal years thereafter.

(3) In addition to the transfer of base year value of property within the same county that is permitted by paragraph (1), the Legislature may authorize each county board of supervisors to adopt, after consultation with affected local agencies within the county, an ordinance allowing the transfer of the base year value of property that is located within another county in the State and is substantially damaged or destroyed by a disaster, as declared by the Governor, to comparable replacement property of equal or lesser value that is located within the adopting county and is acquired or newly constructed within three years of the substantial damage or destruction of the original property as a replacement for that property. The scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to this paragraph shall not exceed the scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to subdivision (a). For purposes of this paragraph, ''affected local agency'' means any city, special district, school district, or community college district that receives an annual allocation of ad valorem property tax revenues. This paragraph shall apply to any comparable replacement property that is acquired or newly constructed as a replacement for property substantially damaged or destroyed by a disaster, as declared by the Governor, occurring on or after October 20, 1991, and to the determination of base year values for the 1991–92 fiscal year and fiscal years thereafter.

(f) For the purposes of subdivision (e):

(1) Property is substantially damaged or destroyed if it sustains physical damage amounting to more than 50 percent of its value immediately before the disaster. Damage includes a diminution in the value of property as a result of restricted access caused by the disaster.

(2) Replacement property is comparable to the property substantially damaged or destroyed if it is similar in size, utility, and function to the property that it replaces, and if the fair market value of the acquired property is comparable to the fair market value of the replaced property prior to the disaster.

[*Real Property Transfers between Spouses*]

(g) For purposes of subdivision (a), the terms ''purchased'' and ''change in ownership'' do not include the purchase or transfer of real property between spouses since March 1, 1975, including, but not limited to, all of the following:

(1) Transfers to a trustee for the beneficial use of a spouse, or the surviving spouse of a deceased transferor, or by a trustee of such a trust to the spouse of the trustor.

(2) Transfers to a spouse that take effect upon the death of a spouse.

(3) Transfers to a spouse or former spouse in connection with a property settlement agreement or decree of dissolution of a marriage or legal separation.

(4) The creation, transfer, or termination, solely between spouses, of any coowner's interest.

(5) The distribution of a legal entity's property to a spouse or former spouse in exchange for the interest of the spouse in the legal entity in connection with a property settlement agreement or a decree of dissolution of a marriage or legal separation.

[*Real Property Transfers between Family Members*]

(h) (1) For purposes of subdivision (a), the terms ''purchased'' and ''change in ownership'' do not include the purchase or transfer of the principal residence of the transferor in the case of a purchase or transfer between parents and their children, as defined by the Legislature, and the purchase or transfer of the first one million dollars ($1,000,000) of the full cash value of all other real property between parents and their children, as defined by the Legislature. This subdivision shall apply to both voluntary transfers and transfers resulting from a court order or judicial decree.

(2) (A) Subject to subparagraph (B), commencing with purchases or transfers that occur on or after the date upon which the measure adding this paragraph becomes effective, the exclusion established by paragraph (1) also applies to a purchase or transfer of real property between grandparents and their grandchild or grandchildren, as defined by the Legislature, that otherwise qualifies under paragraph (1), if all of the parents of that grandchild or those grandchildren, who qualify as the children of the grandparents, are deceased as of the date of the purchase or transfer.

(B) A purchase or transfer of a principal residence shall not be excluded pursuant to subparagraph (A) if the transferee grandchild or grandchildren also received a principal residence, or interest therein, through another purchase or transfer that was excludable pursuant to paragraph (1). The full cash value of any real property, other than a principal residence, that was transferred to the grandchild or grandchildren pursuant to a purchase or transfer that was excludable pursuant to paragraph (1), and the full cash value of a principal residence that fails to qualify for exclu-

sion as a result of the preceding sentence, shall be included in applying, for purposes of subparagraph (A), the one million dollar ($1,000,000) full cash value limit specified in paragraph (1).

[*Contaminated Property*]

(i) (1) Notwithstanding any other provision of this section, the Legislature shall provide with respect to a qualified contaminated property, as defined in paragraph (2), that either, but not both, of the following shall apply:

(A) (i) Subject to the limitation of clause (ii), the base year value of the qualified contaminated property, as adjusted as authorized by subdivision (b), may be transferred to a replacement property that is acquired or newly constructed as a replacement for the qualified contaminated property, if the replacement real property has a fair market value that is equal to or less than the fair market value of the qualified contaminated property if that property were not contaminated and, except as otherwise provided by this clause, is located within the same county. The base year value of the qualified contaminated property may be transferred to a replacement real property located within another county if the board of supervisors of that other county has, after consultation with the affected local agencies within that county, adopted a resolution authorizing an intercounty transfer of base year value as so described.

(ii) This subparagraph applies only to replacement property that is acquired or newly constructed within five years after ownership in the qualified contaminated property is sold or otherwise transferred.

(B) In the case in which the remediation of the environmental problems on the qualified contaminated property requires the destruction of, or results in substantial damage to, a structure located on that property, the term ''new construction'' does not include the repair of a substantially damaged structure, or the construction of a structure replacing a destroyed structure on the qualified contaminated property, performed after the remediation of the environmental problems on that property, provided that the repaired or replacement structure is similar in size, utility, and function to the original structure.

(2) For purposes of this subdivision, ''qualified contaminated property'' means residential or nonresidential real property that is all of the following:

(A) In the case of residential real property, rendered uninhabitable, and in the case of nonresidential real property, rendered unusable, as the result of either environmental problems, in the nature of and including, but not limited to, the presence of toxic or hazardous materials, or the remediation of those environmental problems, except where the existence of the environmental problems was known to the owner, or to a related individual or entity as described in paragraph (3), at the time the real property was ac-

quired or constructed. For purposes of this subparagraph, residential real property is ''uninhabitable'' if that property, as a result of health hazards caused by or associated with the environmental problems, is unfit for human habitation, and nonresidential real property is ''unusable'' if that property, as a result of health hazards caused by or associated with the environmental problems, is unhealthy and unsuitable for occupancy.

(B) Located on a site that has been designated as a toxic or environmental hazard or as an environmental cleanup site by an agency of the State of California or the federal government.

(C) Real property that contains a structure or structures thereon prior to the completion of environmental cleanup activities, and that structure or structures are substantially damaged or destroyed as a result of those environmental cleanup activities.

(D) Stipulated by the lead governmental agency, with respect to the environmental problems or environmental cleanup of the real property, not to have been rendered uninhabitable or unusable, as applicable, as described in subparagraph (A), by any act or omission in which an owner of that real property participated or acquiesced.

(3) It shall be rebuttably presumed that an owner of the real property participated or acquiesced in any act or omission that rendered the real property uninhabitable or unusable, as applicable, if that owner is related to any individual or entity that committed that act or omission in any of the following ways:

(A) Is a spouse, parent, child, grandparent, grandchild, or sibling of that individual.

(B) Is a corporate parent, subsidiary, or affiliate of that entity.

(C) Is an owner of, or has control of, that entity.

(D) Is owned or controlled by that entity.

If this presumption is not overcome, the owner shall not receive the relief provided for in subparagraph (A) or (B) of paragraph (1). The presumption may be overcome by presentation of satisfactory evidence to the assessor, who shall not be bound by the findings of the lead governmental agency in determining whether the presumption has been overcome.

(4) This subdivision applies only to replacement property that is acquired or constructed on or after January 1, 1995, and to property repairs performed on or after that date.

[*Effectiveness of Amendments*]

(j) Unless specifically provided otherwise, amendments to this section adopted prior to November 1, 1988, shall be effective for changes in ownership that occur, and new construction that is completed, after the effective date of the amendment. Unless specifically provided otherwise, amendments to this section adopted after November 1, 1988, shall be ef-

fective for changes in ownership that occur, and new construction that is completed, on or after the effective date of the amendment. [*As amended November 3, 1998.*]

[*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit Annual Calculation—Review*]

SEC. 1.5. The annual calculation of the appropriations limit under this article for each entity of local government shall be reviewed as part of an annual financial audit. [*New section adopted June 5, 1990. Operative July 1, 1990.*]

[*Revenues in Excess of Limitation*]

SEC. 2. (a)(1) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be transferred and allocated, from a fund established for that purpose, pursuant to Section 8.5 of Article XVI.

(2) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years.

(b) In the event that the financial responsibility of providing services is transferred, in whole or in part, from an entity of government to a private entity, or the financial source for the provision of services is transferred, in whole or in part, from other revenues of an entity of government, to regulatory licenses, user charges or user fees, then for the year of such transfer the appropriations limit of such entity of government shall be decreased accordingly.

(c) (1) In the event an emergency is declared by the legislative body of an entity of government, the appropriations limit of the affected entity of government may be exceeded provided that the appropriations limits in the following three years are reduced accordingly to prevent an aggregate increase in appropriations resulting from the emergency.

(2) In the event an emergency is declared by the Governor, appropriations approved by a two-thirds vote of the legislative body of an affected entity of government to an emergency account for expenditures relating to that emergency shall not constitute appropriations subject to limitation. As used in this paragraph, ''emergency'' means the existence, as declared by the Governor, of conditions of disaster or extreme peril to the safety of persons and property within the State, or parts thereof, caused by such conditions as attack or probable or imminent attack by an enemy of the United States, fire, flood, drought, storm, civil disorder, earthquake, or volcanic eruption. ceeds of taxes, shall for purposes of this Article constitute appropriations subject to limitation in the year of contribution. Neither withdrawals from any such fund, nor expenditures of (or authorizations to expend) such withdrawals, nor transfers between or among such funds, shall for purposes of this Article constitute appropriations subject to limitation. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Prudent State Reserve*]

(c) ''Proceeds of taxes'' shall include, but not be restricted to, all tax revenues and the proceeds to an entity of government, from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues. With respect to any local government, ''proceeds of taxes'' shall include subventions received from the State, other than pursuant to Section 6, and, with respect to the State, proceeds of taxes shall exclude such subventions.

(d) ''Local government'' means any city, county, city and county, school district, special district, authority, or other political subdivision of or within the State.

(e) (1) ''Change in the cost of living'' for the State, a school district, or a community college district means the percentage change in California per capita personal income from the preceding year.

(2) ''Change in the cost of living'' for an entity of local government, other than a school district or a community college district, shall be either (A) the percentage change in California per capita personal income from the preceding year, or (B) the percentage change in the local assessment roll from the preceding year for the jurisdiction due to the addition of local nonresidential new construction. Each entity of local government shall select its change in the cost of living pursuant to this paragraph annually by a recorded vote of the entity's governing body.

(f) ''Change in population'' of any entity of government, other than the State, a school district, or a community college district, shall be determined by a method prescribed by the Legislature.

''Change in population'' of a school district or a community college district shall be the percentage change in the average daily attendance of the school district or community college district from the preceding fiscal year, as determined by a method prescribed by the Legislature.

''Change in population'' of the State shall be determined by adding (1) the percentage change in the State's population multiplied by the percentage of the State's budget in the prior fiscal year that is expended for other than educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges, and (2) the percentage change in the total statewide average daily attendance in kindergarten and grades one to 12, inclusive, and the community colleges, multiplied by the percentage of the State's budget in the prior fiscal year that is expended for educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges.

Any determination of population pursuant to this subdivision, other than that measured by average daily attendance, shall be revised, as necessary, to reflect the periodic census conducted by the United States Department of Commerce, or successor department.

(g) ''Debt service'' means appropriations required to pay the cost of interest and redemption charges, including the funding of any reserve or sinking fund required in connection therewith, on indebtedness existing or legally authorized as of January 1, 1979, or on bonded indebtedness thereafter approved according to law by a vote of the electors of the issuing entity voting in an election for that purpose.

(h) The ''appropriations limit'' of each entity of government for each fiscal year is that amount which total annual appropriations subject to limitation may not exceed under Sections 1 and 3. However, the ''appropriations limit'' of each entity of government for fiscal year 1978–79 is the total of the appropriations subject to limitation of the entity for that fiscal year. For fiscal year 1978–79, state subventions to local governments, exclusive of federal grants, are deemed to have been derived from the proceeds of state taxes.

(i) Except as otherwise provided in Section 5, ''appropriations subject to limitation'' do not include local agency loan funds or indebtedness funds, investment (or authorizations to invest) funds of the State, or of an entity of local government in accounts at banks or savings and loan associations or in liquid securities. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 9. ''Appropriations subject to limitation'' for each entity of government do not include:

(a) Appropriations for debt service.

(b) Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly.

(c) Appropriations of any special district which existed on January 1, 1978, and which did not as of the 1977–78 fiscal year levy an ad valorem tax on property in excess of 12½ cents per $100 of assessed value; or the appropriations of any special district then existing or thereafter created by a vote of the people, which is totally funded by other than the proceeds of taxes.

(d) Appropriations for all qualified capital outlay projects, as defined by the Legislature.

(e) Appropriations of revenue which are derived from any of the following:

(1) That portion of the taxes imposed on motor vehicle fuels for use in motor vehicles upon public streets and highways at a rate of more than nine cents ($0.09) per gallon.

(2) Sales and use taxes collected on that increment of the tax specified in paragraph (1).

(3) That portion of the weight fee imposed on commercial vehicles which exceeds the weight fee imposed on those vehicles on January 1, 1990. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit on or after July 1, 1990*]

SEC. 10.5. [*New section adopted June 5, 1990. Operative July 1, 1990.*]

[*Category Added or Removed from Appropriations Subject to Limitation—Severability*]

SEC. 11. If any appropriation category shall be added to or removed from appropriations subject to limitation, pursuant to final judgment of any court of competent jurisdiction and any appeal therefrom, the appropriations limit shall be adjusted accordingly. If any section, part, clause or phrase in this Article is for any reason held invalid or unconstitutional, the remaining portions of this Article shall not be affected but shall remain in full force and effect. [*Exceptions to Appropriations Subject to Limitation*]

SEC. 12. ''Appropriations subject to limitation'' of each entity of government shall not include appropriations of revenue from the Cigarette and Tobacco Products Surtax Fund created by the Tobacco Tax and Health Protection Act of 1988. No adjustment in the appropriations limit of any entity of government shall be required pursuant to Section 3 as a result of revenue being deposited in or appropriated from the Cigarette and Tobacco Products Surtax Fund created by the Tobacco Tax and Health Protection Act of 1988. [*New section adopted November 8, 1988. Initiative measure.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 13. ''Appropriations subject to limitation'' of each entity of government shall not include appropriations of revenue from the California Children and Families First Trust Fund created by the California Children and Families First Act of 1998. No adjustment in the appropriations limit of any entity of government shall be required pursuant to Section 3 as a result of revenue being deposited in or appropriated from the California Children and Families First Trust Fund. The surtax created by the California Children and Families First Act of 1998 shall not be considered General Fund revenues for the purposes of Section 8 of Article XVI. ARTICLE XIII C *

[VOTER APPROVAL FOR LOCAL TAX LEVIES]

SECTION 1. Definitions. As used in this article:

(a) ''General tax'' means any tax imposed for general governmental purposes.

(b) ''Local government'' means any county, city, city and county, including a charter city or county, any special district, or any other local or regional governmental entity.

(c) ''Special district'' means an agency of the State, formed pursuant to general law or a special act, for the local performance of governmental or proprietary functions with limited geographic boundaries including, but not limited to, school districts and redevelopment agencies.

(d) ''Special tax'' means any tax imposed for specific purposes, including a tax imposed for specific purposes, which is placed into a general fund. [*New section adopted November 5, 1996. Initiative measure.*]

* New Article XIII C adopted November 5, 1996. Initiative measure.

SEC. 2. Local Government Tax Limitation. Notwithstanding any other provision of this Constitution:

(a) All taxes imposed by any local government shall be deemed to be either general taxes or special taxes. Special purpose districts or agencies, including school districts, shall have no power to levy general taxes.

(b) No local government may impose, extend, or increase any general tax unless and until that tax is submitted to the electorate and approved by a majority vote. A general tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. The election required by this subdivision shall be consolidated with a regularly scheduled general election for members of the governing body of the local government, except in cases of emergency declared by a unanimous vote of the governing body.

(c) Any general tax imposed, extended, or increased, without voter approval, by any local government on or after January 1, 1995, and prior to the effective date of this article, shall continue to be imposed only if approved by a majority vote of the voters voting in an election on the issue of the imposition, which election shall be held within two years of the effective date of this article and in compliance with subdivision (b).

(d) No local government may impose, extend, or increase any special tax unless and until that tax is submitted to the electorate and approved by a two-thirds vote. A special tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 3. Initiative Power for Local Taxes, Assessments, Fees and Charges. Notwithstanding any other provision of this Constitution, including, but not limited to, Sections 8 and 9 of Article II, the initiative power shall not be prohibited or otherwise limited in matters of reducing or repealing any local tax, assessment, fee or charge. The power of initiative to affect local taxes, assessments, fees and charges shall be applicable to all local governments and neither the Legislature nor any local government charter shall impose a signature requirement higher than that applicable to statewide statutory initiatives. [*New section adopted November 5, 1996. Initiative measure.*]

ARTICLE XIII D*

[ASSESSMENT AND PROPERTY-RELATED FEE REFORM]

SECTION 1. Application. Notwithstanding any other provision of law, the provisions of this article shall apply to all assessments, fees and charges, whether imposed pursuant to state statute or local government charter authority. Nothing in this article or Article XIII C shall be construed to:

(a) Provide any new authority to any agency to impose a tax, assessment, fee, or charge.

(b) Affect existing laws relating to the imposition of fees or charges as a condition of property development.

(c) Affect existing laws relating to the imposition of timber yield taxes. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 2. Definitions. As used in this article:

(a) ''Agency'' means any local government as defined in subdivision (b) of Section 1 of Article XIII C.

(b) ''Assessment'' means any levy or charge upon real property by an agency for a special benefit conferred upon the real property. ''Assessment'' includes, but is not limited to, ''special assessment,'' ''benefit assessment,'' ''maintenance assessment'' and ''special assessment tax.''

(c) ''Capital cost'' means the cost of acquisition, installation, construction, reconstruction, or replacement of a permanent public improvement by an agency.

(d) ''District'' means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service.

(e) ''Fee'' or ''charge'' means any levy other than an ad valorem tax, a special tax, or an assessment, imposed by an agency upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property-related service.

(f) ''Maintenance and operation expenses'' means the cost of rent, repair, replacement, rehabilitation, fuel, power, electrical current, care, and supervision necessary to properly operate and maintain a permanent public improvement.

(g) ''Property ownership'' shall be deemed to include tenancies of real property where tenants are directly liable to pay the assessment, fee, or charge in question.

(h) ''Property-related service'' means a public service having a direct relationship to property ownership.

(i) ''Special benefit'' means a particular and distinct benefit over and above general benefits conferred on real property located in the district or

* New Article XIII D adopted November 5, 1996. Initiative measure.

to the public at large. General enhancement of property value does not constitute ''special benefit.'' [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 3. Property Taxes, Assessments, Fees and Charges Limited. (a) No tax, assessment, fee, or charge shall be assessed by any agency upon any parcel of property or upon any person as an incident of property ownership except:

(1) The ad valorem property tax imposed pursuant to Article XIII and Article XIII A.

(2) Any special tax receiving a two-thirds vote pursuant to Section 4 of Article XIII A.

(3) Assessments as provided by this article.

(4) Fees or charges for property-related services as provided by this article.

(b) For purposes of this article, fees for the provision of electrical or gas service shall not be deemed charges or fees imposed as an incident of property ownership. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 4. Procedures and Requirements for All Assessments. (a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property-related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.

(b) All assessments shall be supported by a detailed engineer's report prepared by a registered professional engineer certified by the State of California.

(c) The amount of the proposed assessment for each identified parcel shall be calculated and the record owner of each parcel shall be given written notice by mail of the proposed assessment, the total amount thereof chargeable to the entire district, the amount chargeable to the owner's particular parcel, the duration of the payments, the reason for the assessment and the basis upon which the amount of the proposed assessment was calculated, together with the date, time, and location of a public hearing on the proposed assessment. Each notice shall also include, in a conspicuous

place thereon, a summary of the procedures applicable to the completion, return, and tabulation of the ballots required pursuant to subdivision (d), including a disclosure statement that the existence of a majority protest, as defined in subdivision (e), will result in the assessment not being imposed.

(d) Each notice mailed to owners of identified parcels within the district pursuant to subdivision (c) shall contain a ballot which includes the agency's address for receipt of the ballot once completed by any owner receiving the notice whereby the owner may indicate his or her name, reasonable identification of the parcel, and his or her support or opposition to the proposed assessment.

(e) The agency shall conduct a public hearing upon the proposed assessment not less than 45 days after mailing the notice of the proposed assessment to record owners of each identified parcel. At the public hearing, the agency shall consider all protests against the proposed assessment and tabulate the ballots. The agency shall not impose an assessment if there is a majority protest. A majority protest exists if, upon the conclusion of the hearing, ballots submitted in opposition to the assessment exceed the ballots submitted in favor of the assessment. In tabulating the ballots, the ballots shall be weighted according to the proportional financial obligation of the affected property.

(f) In any legal action contesting the validity of any assessment, the burden shall be on the agency to demonstrate that the property or properties in question receive a special benefit over and above the benefits conferred on the public at large and that the amount of any contested assessment is proportional to, and no greater than, the benefits conferred on the property or properties in question.

(g) Because only special benefits are assessable, electors residing within the district who do not own property within the district shall not be deemed under this Constitution to have been deprived of the right to vote for any assessment. If a court determines that the Constitution of the United States or other federal law requires otherwise, the assessment shall not be imposed unless approved by a two-thirds vote of the electorate in the district in addition to being approved by the property owners as required by subdivision (e). [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 5. Effective Date. Pursuant to subdivision (a) of Section 10 of Article II, the provisions of this article shall become effective the day after the election unless otherwise provided. Beginning July 1, 1997, all existing, new, or increased assessments shall comply with this article. Notwithstanding the foregoing, the following assessments existing on the effective date of this article shall be exempt from the procedures and approval process set forth in Section 4:

(a) Any assessment imposed exclusively to finance the capital costs or maintenance and operation expenses for sidewalks, streets, sewers, water,

flood control, drainage systems or vector control. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.

(b) Any assessment imposed pursuant to a petition signed by the persons owning all of the parcels subject to the assessment at the time the assessment is initially imposed. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.

(c) Any assessment the proceeds of which are exclusively used to repay bonded indebtedness of which the failure to pay would violate the Contract Impairment Clause of the Constitution of the United States.

(d) Any assessment which previously received majority voter approval from the voters voting in an election on the issue of the assessment. Subsequent increases in those assessments shall be subject to the procedures and approval process set forth in Section 4. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 6. Property-Related Fees and Charges. (a) Procedures for New or Increased Fees and Charges. An agency shall follow the procedures pursuant to this section in imposing or increasing any fee or charge as defined pursuant to this article, including, but not limited to, the following:

(1) The parcels upon which a fee or charge is proposed for imposition shall be identified. The amount of the fee or charge proposed to be imposed upon each parcel shall be calculated. The agency shall provide written notice by mail of the proposed fee or charge to the record owner of each identified parcel upon which the fee or charge is proposed for imposition, the amount of the fee or charge proposed to be imposed upon each, the basis upon which the amount of the proposed fee or charge was calculated, the reason for the fee or charge, together with the date, time, and location of a public hearing on the proposed fee or charge.

(2) The agency shall conduct a public hearing upon the proposed fee or charge not less than 45 days after mailing the notice of the proposed fee or charge to the record owners of each identified parcel upon which the fee or charge is proposed for imposition. At the public hearing, the agency shall consider all protests against the proposed fee or charge. If written protests against the proposed fee or charge are presented by a majority of owners of the identified parcels, the agency shall not impose the fee or charge.

(b) Requirements for Existing, New or Increased Fees and Charges. A fee or charge shall not be extended, imposed, or increased by any agency unless it meets all of the following requirements:

(1) Revenues derived from the fee or charge shall not exceed the funds required to provide the property-related service.

(2) Revenues derived from the fee or charge shall not be used for any purpose other than that for which the fee or charge was imposed.

(3) The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel.

(4) No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question. Fees or charges based on potential or future use of a service are not permitted. Standby charges, whether characterized as charges or assessments, shall be classified as assessments and shall not be imposed without compliance with Section 4.

(5) No fee or charge may be imposed for general governmental services including, but not limited to, police, fire, ambulance or library services, where the service is available to the public at large in substantially the same manner as it is to property owners.
Reliance by an agency on any parcel map, including, but not limited to, an assessor's parcel map, may be considered a significant factor in determining whether a fee or charge is imposed as an incident of property ownership for purposes of this article. In any legal action contesting the validity of a fee or charge, the burden shall be on the agency to demonstrate compliance with this article.

(c) Voter Approval for New or Increased Fees and Charges. Except for fees or charges for sewer, water, and refuse collection services, no property-related fee or charge shall be imposed or increased unless and until that fee or charge is submitted and approved by a majority vote of the property owners of the property subject to the fee or charge or, at the option of the agency, by a two-thirds vote of the electorate residing in the affected area. The election shall be conducted not less than 45 days after the public hearing. An agency may adopt procedures similar to those for increases in assessments in the conduct of elections under this subdivision.

(d) Beginning July 1, 1997, all fees or charges shall comply with this section. [*New section adopted November 5, 1996. Initiative measure.*]

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress in-

surrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect unless it has been passed by a two-thirds vote of all the members elected to each house of the Legislature and until, at a general election or at a direct primary, it shall have been submitted to the people and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause to be printed. The Legislature may, at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with the State Allocation Board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending or coming before such board for the allocation and apportionment of funds to school districts for school construction purposes or purposes related thereto.

Notwithstanding any other provision of this constitution, or of any bond act to the contrary, if any general obligation bonds of the State heretofore or hereafter authorized by vote of the people have been offered for sale and not sold, the Legislature may raise the maximum rate of interest payable on all general obligation bonds authorized but not sold, whether or not such bonds have been offered for sale, by a statute passed by a two-thirds vote of all members elected to each house thereof.

The provisions of Senate Bill No. 763† of the 1969 Regular Session, which authorize an increase of the state general obligation bond maximum interest rate from 5 percent to an amount not in excess of 7 percent and

eliminate the maximum rate of interest payable on notes given in anticipation of the sale of such bonds, are hereby ratified. [*As amended June 2, 1970.*]

[*General Obligation Bond Proceeds Fund*]

SEC. 1.5. The Legislature may create and establish a ''General Obligation Bond Proceeds Fund'' in the State Treasury, and may provide for the proceeds of the sale of general obligation bonds of the State heretofore or hereafter issued, including any sums paid as accrued interest thereon, under any or all acts authorizing the issuance of such bonds, to be paid into or transferred to, as the case may be, the ''General Obligation Bond Proceeds Fund.'' Accounts shall be maintained in the ''General Obligation Bond Proceeds Fund'' of all moneys deposited in the State Treasury to the credit of that fund and the proceeds of each bond issue shall be maintained as a separate and distinct account and shall be paid out only in accordance with the law authorizing the issuance of the particular bonds from which the proceeds were derived. The Legislature may abolish, subject to the conditions of this section, any fund in the State Treasury heretofore or hereafter created by any act for the purpose of having deposited therein the proceeds from the issuance of bonds if such proceeds are transferred to or paid into the ''General Obligation Bond Proceeds Fund'' pursuant to the authority granted in this section; provided, however, that nothing in this section shall prevent the Legislature from re-establishing any bond proceeds fund so abolished and transferring back to its credit all proceeds in the ''General Obligation Bond Proceeds Fund'' which constitute the proceeds of the particular bond fund being re-established. [*New section adopted November 6, 1962.*]

SEC. 2. [*Repealed November 6, 1962. See Section 2, below.*]

[*Bond Issues—Submission by Constitutional Amendment Prohibited—Repeal of Certain Constitutional Provisions*]

SEC. 2. (a) No amendment to this Constitution which provides for the preparation, issuance and sale of bonds of the State of California shall hereafter be submitted to the electors, nor shall any such amendment to the Constitution hereafter submitted to or approved by the electors become effective for any purpose.

Each measure providing for the preparation, issuance and sale of bonds of the State of California shall hereafter be submitted to the electors in the form of a bond act or statute.

(b) The provisions of this Constitution enumerated in subdivision (c) of this section are repealed and such provisions are continued as statutes which have been approved, adopted, legalized, ratified, validated, and made fully and completely effective, by means of the adoption by the electorate of a ratifying constitutional amendment, except that the Legislature,

in addition to whatever powers it possessed under such provisions, may amend or repeal such provisions when the bonds issued thereunder have been fully retired and when no rights thereunder will be damaged.

(c) The enumerated provisions of this Constitution are: Article XVI, Sections 2, 3, 4, 4½, 5, 6, 8, 8½, 15, 16, 16.5, 17, 18, 19, 19.5, 20 and 21. [*New section adopted November 6, 1962.*]

[*Appropriations*]

SEC. 3. No money shall ever be appropriated or drawn from the State Treasury for the purpose or benefit of any corporation, association, asylum, hospital, or any other institution not under the exclusive management and control of the State as a state institution, nor shall any grant or donation of property ever be made thereto by the State, except that notwithstanding anything contained in this or any other section of the Constitution:

[*Federal Funds*]

(1) Whenever federal funds are made available for the construction of hospital facilities by public agencies and nonprofit corporations organized to construct and maintain such facilities, nothing in this Constitution shall prevent the Legislature from making state money available for that purpose, or from authorizing the use of such money for the construction of hospital facilities by nonprofit corporations organized to construct and maintain such facilities.

[*Institution for Support of Orphans or Aged Indigents*]

(2) The Legislature shall have the power to grant aid to the institutions conducted for the support and maintenance of minor orphans, or half-orphans, or abandoned children, or children of a father who is incapacitated for gainful work by permanent physical disability or is suffering from tuberculosis in such a stage that he cannot pursue a gainful occupation, or aged persons in indigent circumstances—such aid to be granted by a uniform rule, and proportioned to the number of inmates of such respective institutions.

cility and any other facility useful and convenient in the operation of the hospital and any original equipment for any such hospital or facility, or both.

No provision of this Constitution, including but not limited to, Section 1 of Article XVI and Section 14 of Article XI, shall be construed as a limitation upon the authority granted to the Legislature by this section. [*New section adopted November 5, 1974.*]

SEC. 4½. [*Repealed November 6, 1962.*]

[*Religious Institutions—Grants Prohibited*]

[*New section adopted November 5, 1974.*]

[*Gifts or Loans of Public Moneys or Pledging of Credit Prohibited—Stock of Corporations*]

SEC. 6. The Legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the State, or of any county, city and county, city, township or other political corporation or subdivision of the State now existing, or that may be hereafter established, in aid of or to any person, association, or corporation, whether municipal or otherwise, or to pledge the credit thereof, in any manner whatever, for the payment of the liabilities of any individual, association, municipal or other corporation whatever; nor shall it have power to make any gift or authorize the making of any gift, of any public money or thing of value to any individual, municipal or other corporation whatever; provided, that nothing in this section shall prevent the Legislature granting aid pursuant to Section 3 of Article XVI; and it shall not have power to authorize the State, or any political subdivision thereof, to subscribe for stock, or to become a stockholder in any corporation whatever; provided, further, that irrigation districts for the purpose of acquiring the control of any entire international water system necessary for its use and purposes, a part of which is situated in the United States, and a part thereof in a foreign country, may in the manner authorized by law, acquire the stock of any foreign corporation which is the owner of, or which holds the title to the part of such system

situated in a foreign country; provided, further, that irrigation districts for the purpose of acquiring water and water rights and other property necessary for their uses and purposes, may acquire and hold the stock of corporations, domestic or foreign, owning waters, water rights, canals, waterworks, franchises or concessions subject to the same obligations and liabilities as are imposed by law upon all other stockholders in such corporation; and

[*Insurance Pooling Arrangements*]

Provided, further, that this section shall not prohibit any county, city and county, city, township, or other political corporation or subdivision of the State from joining with other such agencies in providing for the payment of workers' compensation, unemployment compensation, tort liability, or public liability losses incurred by such agencies, by entry into an insurance pooling arrangement under a joint exercise of powers agreement, or by membership in such publicly-owned nonprofit corporation or other public agency as may be authorized by the Legislature; and

[*Aid to Veterans*]

Provided, further, that nothing contained in this Constitution shall prohibit the use of state money or credit, in aiding veterans who served in the military or naval service of the United States during the time of war, in the acquisition of, or payments for, (1) farms or homes, or in projects of land settlement or in the development of such farms or homes or land settlement projects for the benefit of such veterans, or (2) any business, land or any interest therein, buildings, supplies, equipment, machinery, or tools, to be used by the veteran in pursuing a gainful occupation; and

[*Disaster Assistance*]

Provided, further, that nothing contained in this Constitution shall prohibit the State, or any county, city and county, city, township, or other political corporation or subdivision of the State from providing aid or assistance to persons, if found to be in the public interest, for the purpose of clearing debris, natural materials, and wreckage from privately owned lands and waters deposited thereon or therein during a period of a major disaster or emergency, in either case declared by the President. And provided, still further, that notwithstanding the restrictions contained in this Constitution, the treasurer of any city, county, or city and county shall have power and the duty to make such temporary transfers

from the funds in custody as may be necessary to provide funds for meeting the obligations incurred for maintenance purposes by any city, county, city and county, district, or other political subdivision whose funds are in custody and are paid out solely through the treasurer's office. Such temporary transfer of funds to any political subdivision shall be made only upon resolution adopted by the governing body of the city, county, or city and county directing the treasurer of such city, county, or city and county to make such temporary transfer. Such temporary transfer of funds to any political subdivision shall not exceed 85 percent of the anticipated revenues accruing to such political subdivision, shall not be made prior to the first day of the fiscal year nor after the last Monday in April of the current fiscal year, and shall be replaced from the revenues accruing to such political subdivision before any other obligation of such political subdivision is met from such revenue. [*As amended November 2, 1982.*]

[*Controller's Warrants*]

SEC. 7. Money may be drawn from the Treasury only through an appropriation made by law and upon a Controller's duly drawn warrant. [*New section adopted November 5, 1974.*]

[*School Funding Priority*]

SEC. 8. (a) From all state revenues there shall first be set apart the moneys to be applied by the State for support of the public school system and public institutions of higher education.

(b) Commencing with the 1990–91 fiscal year, the moneys to be applied by the State for the support of school districts and community college districts shall be not less than the greater of the following amounts:

(1) The amount which, as a percentage of General Fund revenues which may be appropriated pursuant to Article XIII B, equals the percentage of General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986–87.

(2) The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall not be less than the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B. This paragraph shall be operative only in a fiscal year in which the percentage growth in California per capita personal income is less than or equal to the percentage growth in per capita General Fund revenues plus one half of one percent.

(3) (A) The amount required to ensure that the total allocations to school districts and community college districts from General Fund pro-

ceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall equal the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in per capita General Fund revenues.

(B) In addition, an amount equal to one-half of one percent times the prior year total allocations to school districts and community colleges from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment.

(C) This paragraph (3) shall be operative only in a fiscal year in which the percentage growth in California per capita personal income in a fiscal year is greater than the percentage growth in per capital General Fund revenues plus one half of one percent.

(c) In any fiscal year, if the amount computed pursuant to paragraph (1) of subdivision (b) exceeds the amount computed pursuant to paragraph (2) of subdivision (b) by a difference that exceeds one and one-half percent of General Fund revenues, the amount in excess of one and one-half percent of General Fund revenues shall not be considered allocations to school districts and community colleges for purposes of computing the amount of state aid pursuant to paragraph (2) or 3 of subdivision (b) in the subsequent fiscal year.

(d) In any fiscal year in which school districts and community college districts are allocated funding pursuant to paragraph (3) of subdivision (b) or pursuant to subdivision (h), they shall be entitled to a maintenance factor, equal to the difference between (1) the amount of General Fund moneys which would have been appropriated pursuant to paragraph (2) of subdivision (b) if that paragraph had been operative or the amount of General Fund moneys which would have been appropriated pursuant to subdivision (b) had subdivision (b) not been suspended, and (2) the amount of General Fund moneys actually appropriated to school districts and community college districts in that fiscal year.

(e) The maintenance factor for school districts and community college districts determined pursuant to subdivision (d) shall be adjusted annually for changes in enrollment, and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B, until it has been allocated in full. The maintenance factor shall be allocated in a manner determined by the Legislature in each fiscal year in which the percentage growth in per capita General Fund revenues exceeds the percentage growth in California per capita personal income. The maintenance factor shall be reduced each year by the amount allocated by the Legislature in that fiscal year. The minimum maintenance factor amount to be allocated in a fiscal year shall be equal to the product of General Fund rev-

enues from proceeds of taxes and one-half of the difference between the percentage growth in per capita General Fund revenues from proceeds of taxes and in California per capita personal income, not to exceed the total dollar amount of the maintenance factor.

(f) For purposes of this section, ''changes in enrollment'' shall be measured by the percentage change in average daily attendance. However, in any fiscal year, there shall be no adjustment for decreases in enrollment between the prior fiscal year and the current fiscal year unless there have been decreases in enrollment between the second prior fiscal year and the prior fiscal year and between the third prior fiscal year and the second prior fiscal year.

(h) Subparagraph (B) of paragraph (3) of subdivision (b) may be suspended for one year only when made part of or included within any bill enacted pursuant to Section 12 of Article IV. All other provisions of subdivision (b) may be suspended for one year by the enactment of an urgency statute pursuant to Section 8 of Article IV, provided that the urgency statute may not be made part of or included within any bill enacted pursuant to Section 12 of Article IV. [*As amended June 5, 1990. Operative July 1, 1990.*]

SEC. 8½. [*Repealed November 6, 1962.*]

[*Allocations to State School Fund*]

SECTION 8.5. (a) In addition to the amount required to be applied for the support of school districts and community college districts pursuant to Section 8, the Controller shall during each fiscal year transfer and allocate all revenues available pursuant to paragraph 1 of subdivision (a) of Section 2 of Article XIII B to that portion of the State School Fund restricted for elementary and high school purposes, and to that portion of the State School Fund restricted for community college purposes, respectively, in proportion to the enrollment in school districts and community college districts respectively.

(1) With respect to funds allocated to that portion of the State School Fund restricted for elementary and high school purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Superintendent of Public Instruction mutually determine that current annual expenditures per student equal or exceed the average annual expenditure per student of the 10 states with the highest annual expenditures per student for elementary and high schools, and that average class size equals or is less than the average class size of the 10 states with the lowest class size for elementary and high schools.

(2) With respect to funds allocated to that portion of the State School Fund restricted for community college purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Chancellor of the California Community Col-

leges mutually determine that current annual expenditures per student for community colleges in this State equal or exceed the average annual expenditure per student of the 10 states with the highest annual expenditure per student for community colleges.

(b) Notwithstanding the provisions of Article XIII B, funds allocated pursuant to this section shall not constitute appropriations subject to limitation.

(c) From any funds transferred to the State School Fund pursuant to subdivision (a), the Controller shall each year allocate to each school district and community college district an equal amount per enrollment in school districts from the amount in that portion of the State School Fund restricted for elementary and high school purposes and an equal amount per enrollment in community college districts from that portion of the State School Fund restricted for community college purposes.

(d) All revenues allocated pursuant to subdivision (a) shall be expended solely for the purposes of instructional improvement and accountability as required by law.

(e) Any school district maintaining an elementary or secondary school shall develop and cause to be prepared an annual audit accounting for such funds and shall adopt a School Accountability Report Card for each school. [*As amended June 5, 1990. Operative July 1, 1990.*]

No provision of this Constitution, including, but not limited to, Section 25 of Article XIII and Sections 1 and 2 of Article XVI, shall be construed as a limitation upon the authority granted to the Legislature pursuant to this section. Nothing herein contained shall authorize any public agency to operate any industrial or commercial enterprise. [*New section adopted November 7, 1972.*]

[*Energy Alternative Sources Facilities—Acquisition, Construction, Etc.—Revenue Bond Issuance*]

[*Parking Meter Revenues*]

SEC. 15. A public body authorized to issue securities to provide public parking facilities and any other public body whose territorial area includes such facilities are authorized to make revenues from street parking meters available as additional security. [*New section adopted November 5, 1974.*]

[*Taxation of Redevelopment Projects*]

SEC. 16. All property in a redevelopment project established under the Community Redevelopment Law as now existing or hereafter amended, except publicly owned property not subject to taxation by reason of that ownership, shall be taxed in proportion to its value as provided in Section 1 of this article, and those taxes (the word ''taxes'' as used herein includes, but is not limited to, all levies on an ad valorem basis upon land or real property) shall be levied and collected as other taxes are levied and collected by the respective taxing agencies.

The Legislature may provide that any redevelopment plan may contain a provision that the taxes, if any, so levied upon the taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called ''taxing agencies'') after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(a) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of those taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of that property by the taxing agency, last equalized prior to the effective date of the ordinance, shall be allocated to, and when collected shall be paid into, the funds of the respective taxing agencies as taxes by or for those taxing agencies on all other property are paid (for the

purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of the ordinance but to which that territory has been annexed or otherwise included after the ordinance's effective date, the assessment roll of the county last equalized on the effective date of that ordinance shall be used in determining the assessed valuation of the taxable property in the project on that effective date); and

(b) Except as provided in subdivision (c), that portion of the levied taxes each year in excess of that amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed or otherwise) incurred by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project. Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in the project as shown by the last equalized assessment roll referred to in subdivision (a), all of the taxes levied and collected upon the taxable property in the redevelopment project shall be paid into the funds of the respective taxing agencies. When the loans, advances, and indebtedness, if any, and interest thereon, have been paid, then all moneys thereafter received from taxes upon the taxable property in the redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

(c) That portion of the taxes identified in subdivision (b) which are attributable to a tax rate levied by a taxing agency for the purpose of producing revenues in an amount sufficient to make annual repayments of the principal of, and the interest on, any bonded indebtedness for the acquisition or improvement of real property shall be allocated to, and when collected shall be paid into, the fund of that taxing agency. This paragraph shall only apply to taxes levied to repay bonded indebtedness approved by the voters of the taxing agency on or after January 1, 1989.

The Legislature may also provide that in any redevelopment plan or in the proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed, or otherwise) by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes identified in subdivision (b), exclusive of that portion identified in subdivision (c), may be irrevocably pledged for the payment of the principal of and interest on those loans, advances, or indebtedness.

It is intended by this section to empower any redevelopment agency, city, county, or city and county under any law authorized by this section to exercise the provisions hereof separately or in combination with powers granted by the same or any other law relative to redevelopment agencies. This section shall not affect any other law or laws relating to the same or

a similar subject but is intended to authorize an alternative method of procedure governing the subject to which it refers.

The Legislature shall enact those laws as may be necessary to enforce the provisions of this section. [*As amended November 8, 1988.*]

SEC. 16.5. [*Repealed November 6, 1962.*]

[*State's Credit—Investment of Public Pension or Retirement Funds*]

SEC. 17. The State shall not in any manner loan its credit, nor shall it subscribe to, or be interested in the stock of any company, association, or corporation, except that the State and each political subdivision, district, municipality, and public agency thereof is hereby authorized to acquire and hold shares of the capital stock of any mutual water company or corporation when the stock is so acquired or held for the purpose of furnishing a supply of water for public, municipal or governmental purposes; and the holding of the stock shall entitle the holder thereof to all of the rights, powers and privileges, and shall subject the holder to the obligations and liabilities conferred or imposed by law upon other holders of stock in the mutual water company or corporation in which the stock is so held.

Notwithstanding any other provisions of law or this Constitution to the contrary, the retirement board of a public pension or retirement system shall have plenary authority and fiduciary responsibility for investment of moneys and administration of the system, subject to all of the following:

(a) The retirement board of a public pension or retirement system shall have the sole and exclusive fiduciary responsibility over the assets of the public pension or retirement system. The retirement board shall also have sole and exclusive responsibility to administer the system in a manner that will assure prompt delivery of benefits and related services to the participants and their beneficiaries. The assets of a public pension or retirement system are trust funds and shall be held for the exclusive purposes of providing benefits to participants in the pension or retirement system and their beneficiaries and defraying reasonable expenses of administering the system.

(b) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system solely in the interest of, and for the exclusive purposes of providing benefits to, participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system. A retirement board's duty to its participants and their beneficiaries shall take precedence over any other duty.

(c) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system with the care, skill, prudence, and diligence under the circumstances then pre-

vailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims.

(d) The members of the retirement board of a public pension or retirement system shall diversify the investments of the system so as to minimize the risk of loss and to maximize the rate of return, unless under the circumstances it is clearly not prudent to do so.

(b) When the superior and municipal courts within a county are unified, the judgeships in each municipal court in that county are abolished and the previously selected municipal court judges shall become judges of the superior court in that county. The term of office of a previously selected municipal court judge is not affected by taking office as a judge of the superior court. The 10-year membership or service requirement of Section 15 does not apply to a previously selected municipal court judge. Pursuant to Section 6, the Judicial Council may prescribe appropriate education and training for judges with regard to trial court unification.

(6) Matters of a type previously subject to rehearing by a superior court judge remain subject to rehearing by a superior court judge, other than the judge who originally heard the matter.

(7) Penal Code procedures that necessitate superior court review of, or action based on, a ruling or order by a municipal court judge shall be performed by a superior court judge other than the judge who originally made the ruling or order.

Eleventh—That if any provision of this measure or its application to any person or circumstance is held invalid, the invalidity does not affect other provisions or applications of this measure that can be given effect without the invalid provision or application, and to this end the provisions of this measure are severable.

PROPOSED LAW

Whereas, Career politicians dominating Congress have a conflict of interest which prevents them from enacting meaningful term limits and making Congress what the Founders intended, the branch of government closest to the People; and

Whereas, Career politicians, while refusing to heed the desire of the People for meaningful term limits, amassed a nearly five trillion dollar national debt by not only voting year after year to spend far more than they have taken in, but also by voting to dramatically increase their own pay; also provided lavish million-dollar pensions for themselves and granted themselves numerous other privileges at the expense of the People; and

Whereas, Such irresponsible actions on the part of career politicians have mortgaged the future of not only every American citizen, but also their children and grandchildren; and

Whereas, The abuse of power, the corruption, and the appearance of corruption brought about by political careerism is ultimately destructive to representative government by making Congress increasingly distant from the People; and

Whereas, The President of the United States is limited to two terms in office by the 22nd Amendment to the U.S. Constitution, and governors in 40 states are limited by state laws to two terms or less, and

Whereas, Voters have established term limits for more than 2,000 state legislators, as well as more than 17,000 local officials across the nation, including state legislators and statewide elective officeholders in California, and

Whereas, In 1992, the People of the State of California enacted, by an overwhelming majority, an amendment to the state law limiting service in the U.S. House of Representatives to three terms and in the U.S. Senate to two terms, which state-imposed congressional term limits were ruled unconstitutional by the U.S. Supreme Court, and

Whereas, Congress has ignored the desire of the People for meaningful term limits by refusing to pass an amendment instituting congressional term limits, and by proposing exceedingly long limits for its own members; and

Whereas, It is the People themselves, not Congress, who should set term limits; and

Whereas, The People have a sovereign right and a compelling interest in the creation and preserving of a citizen Congress that will more effectively protect their freedom and prosperity, which interest and right may not be as effectively served in any way other than that proposed by this initiative; and

Whereas, With foresight and wisdom our Founders, under Article V of the U.S. Constitution, did provide the People with a procedure by which to circumvent congressional self-interest, by which procedure the People may call a convention to propose amendments to the U.S. Constitution when two-thirds or 34 states expressly call for such a convention; and

Whereas, Amendments proposed by such a convention would become part of the U.S. Constitution upon the ratification of three-fourths of the states (38); and

Whereas, The People of the State of California desire to amend the U.S. Constitution to establish term limits on Congress to ensure representation in Congress by true citizen lawmakers;

Be it enacted by the People of the State of California:

SECTION 1. Article 1.2 (commencing with Section 10204.1) is added to Chapter 2 of Part 2 of Division 10 of the Elections Code, to read:

Article 1.2. The Congressional Term Limits Act

10204.1. It is the official position of the People of the State of California that our elected officials should vote to enact, by amendment to the U.S. Constitution, congressional term limits which are not longer than three terms in the U.S. House of Representatives, nor two terms in the U.S. Senate.

10204.2. It is the will of the People of the State of California that application be made to Congress on behalf of the People of California and the California Legislature that Congress adopt the following amendment to the U.S. Constitution:

Congressional Term Limits Amendment

Section A. No person may serve in the office of U.S. Representative for more than three terms, but upon ratification of the Term Limits Amendment no person who has held the office of U.S. Representative or who then holds the office may serve for more than two additional terms.

Section B. No person may serve in the office of U.S. Senator for more than two terms, but upon ratification of the Term Limits Amendment no person who has held the office of U.S. Senator or who then holds the office may serve more than one additional term.

Section C. This article shall have no time limit within which it must be ratified by the legislatures of three-fourths of the several states.

10204.3. The California Legislature, due to the desire of the People of the State of California to establish term limits on the Congress of the United States, is hereby instructed to make the following application to Congress, pursuant to its power under Article V of the U.S. Constitution:

"We, the People and Legislature of the State of California, due to our desire to establish term limits on the Congress of the United States, hereby make application to Congress, pursuant to our power under Article V of the U.S. Constitution, to call a convention for proposing amendments to the Constitution."

10204.4. Each state legislator is hereby instructed to use all of his or her delegated powers to pass the Article V application to Congress set forth in Section 10204.3, and to ratify, if proposed by Congress, the Congressional Term Limits Amendment set forth in Section 10204.2.

10204.5. (9) Failed to vote against any term limits amendment other than the proposed amendment set forth in Section 10204.2, if such an amendment was sent to the states for ratification.

(c) The information "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" as required by any of paragraphs (1) to (7), inclusive, of subdivision (b) shall not appear adjacent to the names of candidates for the State Senate or Assembly if the State of California has made the application to Congress for a convention for proposing amendments to the U.S. Constitution pursuant to this article and such application has not been withdrawn.

(d) The information "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" as required by either of paragraphs (8) and (9) of subdivision (b), shall not appear adjacent to the names of candidates for the State Senate or Assembly if the Congressional Term Limits Amendment set forth in Section 10204.2 has been submitted to the states for ratification and ratified by the California Legislature, or the proposed Congressional Term Limits Amendment set forth in Section 10204.2 has become part of the U.S. Constitution.

10204.8. The information "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" may not appear adjacent to the names of a candidate for Congress if the Congressional Term Limits Amendment set forth in Section 10204.2 is before the states for ratification or has become part of the U.S. Constitution.

10204.9. Notwithstanding any other provision of California law,

(a) A nonincumbent candidate for the office of U.S. Representative and U.S. Senator, State Senator, or Member of the Assembly shall be permitted to sign a "Term Limits Pledge" each time he or she files as a candidate for such an office. A candidate who declines to sign the "Term Limits Pledge" shall have "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS" printed adjacent to his or her name on the election ballot.

(b) Each time a nonincumbent candidate for U.S. Senator, U.S. Representative, State Senator, or Member of the Assembly files for candidacy, he or she shall be offered the "Term Limits Pledge," until such time as the U.S. Constitution has been amended to limit U.S. Senators to two terms in office and U.S. Representatives to three terms in office.

(c) The "Term Limits Pledge" that each nonincumbent candidate set forth above shall be offered is as follows:

"I support congressional term limits and pledge to use all of my legislative powers to enact the proposed Congressional Term Limits Amendment set forth in the Congressional Term Limits Act. If elected, I pledge to act and vote in such a way that the information "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" will not appear next to my name." The pledge form will provide a space for the signature of the candidate and the date signed.

(d) The Secretary of State shall be responsible to make an accurate determination as to whether a candidate for the state or federal legislature shall have placed adjacent to his or her name on the election ballot "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" or "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS."

(e) The Secretary of State shall consider timely submitted public comments prior to making the determination required in subdivision (d).

(f) The Secretary of State, in accordance with subdivision (d) shall determine and declare what information, if any, shall appear adjacent to the names of each incumbent state and federal legislator if he or she is to be a candidate in the next general election. In the case of U.S. Representatives and U.S. Senators, this determination and declaration shall be made not later than 13 months after a new Congress has been convened, and shall be based upon Congressional action in the first 12 months of the regular session following the most recent general election. In the case of incumbent state legislators, this determination and declaration shall be made not later than 13 months after a new Legislature has been convened, and shall be based upon state congressional action in the first 12 months of the regular session following the most recent general election.

(g) The Secretary of State shall determine and declare what information, if any, will appear adjacent to the names of nonincumbent candidates for Congress and the California Legislature, not later than five days after the deadline for filing for the office.

(h) If the Secretary of State makes the determination that "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" or "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS" may not be placed on the ballot adjacent to the name of a candidate for senator or representative for state or federal office, any elector shall appeal such decision within five days to the California Supreme Court as an original action or waive any right to appeal such decision; in which case the burden of proof shall be upon the Secretary of State to demonstrate by clear and convincing evidence that the candidate has met the requirements set forth in this article and therefore should not have the information "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" or "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS" printed on the ballot adjacent to the candidate's name.

(i) If the Secretary of State determines that "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" or "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS" shall be placed on the ballot adjacent to a candidate's name, the candidate shall appeal such decision within five days to the California Supreme Court as an original action or waive any right to appeal such decision; in which case the burden of proof shall be upon the candidate to demonstrate by clear and convincing evidence that he or she should not have the information "DISREGARDED VOTERS' INSTRUCTION ON TERM LIMITS" or "DECLINED TO PLEDGE TO SUPPORT TERM LIMITS" printed on the ballot adjacent to the candidate's name.

(j) The Supreme Court shall hear the appeal provided for in subdivision (h) and issue a decision within 120 days. The Supreme Court shall hear the appeal provided for in subdivision (i) and issue a decision not later than 61 days before the date of the election.

10204.10. At such time as the Congressional Term Limits Amendment set forth in Section 10204.2 has become part of the U.S. Constitution, this article automatically shall be repealed.

10204.11. Severability. If any portion, clause, or phrase of this act is for any reason held to be invalid or unconstitutional by a court of competent jurisdiction, the remaining portions, clauses, and phrases shall not be affected, but shall remain in full force and effect. The portions of this act shall supersede all inconsistent provisions of state law.

227. **English Language in Public Schools.**

[Submitted by the initiative and approved by electors June 2, 1998.]

PROPOSED LAW

SECTION 1. Chapter 3 (commencing with Section 300) is added to Part 1 of the Education Code, to read:

CHAPTER 3. ENGLISH LANGUAGE EDUCATION FOR IMMIGRANT CHILDREN

Article 1. Findings and Declarations

300. The People of California find and declare as follows:

(a) Whereas, The English language is the national public language of the United States of America and of the State of California, is spoken by the vast majority of California residents, and is also the leading world language for science, technology, and international business, thereby being the language of economic opportunity; and

(b) Whereas, Immigrant parents are eager to have their children acquire a good knowledge of English, thereby allowing them to fully participate in the American Dream of economic and social advancement; and

(c) Whereas, The government and the public schools of California have a moral obligation and a constitutional duty to provide all of California's children, regardless of their ethnicity or national origins, with the skills necessary to become productive members of our society, and of these skills, literacy in the English language is among the most important; and

(d) Whereas, The public schools of California currently do a poor job of educating immigrant children, wasting financial resources on costly experimental language programs whose failure over the past two decades is demonstrated by the current high drop-out rates and low English literacy levels of many immigrant children; and

(e) Whereas, Young immigrant children can easily acquire full fluency in a new language, such as English, if they are heavily exposed to that language in the classroom at an early age.

(f) Therefore, It is resolved that: all children in California public schools shall be taught English as rapidly and effectively as possible.

Article 2. English Language Education

305. Subject to the exceptions provided in Article 3 (commencing with Section 310), all children in California public schools shall be taught English by being taught in English. In particular, this shall require that all children be placed in English language classrooms. Children who are English learners shall be educated through sheltered English immersion during a temporary transition period not normally intended to exceed one year. Local schools shall be permitted to place in the same classroom English learners of different ages but whose degree of English proficiency is similar. Local schools shall be encouraged to mix together in the same classroom English learners from different native-language groups but with the same degree of English fluency. Once English learners have acquired a good working knowledge of English, they shall be transferred to English language mainstream classrooms. As much as possible,

current supplemental funding for English learners shall be maintained, subject to possible modification under Article 8 (commencing with Section 335) below.

306. The definitions of the terms used in this article and in Article 3 (commencing with Section 310) are as follows:

(a) "English learner" means a child who does not speak English or whose native language is not English and who is not currently able to perform ordinary classroom work in English, also known as a Limited English Proficiency or LEP child.

(b) "English language classroom" means a classroom in which the language of instruction used by the teaching personnel is overwhelmingly the English language, and in which such teaching personnel possess a good knowledge of the English language.

(c) "English language mainstream classroom" means a classroom in which the pupils either are native English language speakers or already have acquired reasonable fluency in English.

(d) "Sheltered English immersion" or "structured English immersion" means an English language acquisition process for young children in which nearly all classroom instruction is in English but with the curriculum and presentation designed for children who are learning the language.

(e) "Bilingual education/native language instruction" means a language acquisition process for pupils in which much or all instruction, textbooks, and teaching materials are in the child's native language.

Article 3. Parental Exceptions

310. The requirements of Section 305 may be waived with the prior written informed consent, to be provided annually, of the child's parents or legal guardian under the circumstances specified below and in Section 311. Such informed consent shall require that said parents or legal guardian personally visit the school to apply for the waiver and that they there be provided a full description of the educational materials to be used in the different educational program choices and all the educational opportunities available to the child. Under such parental waiver conditions, children may be transferred to classes where they are taught English and other subjects through bilingual education techniques or other generally recognized educational methodologies permitted by law. Individual schools in which 20 pupils or more of a given grade level receive a waiver shall be required to offer such a class; otherwise, they must allow the pupils to transfer to a public school in which such a class is offered.

311. The circumstances in which a parental exception waiver may be granted under Section 310 are as follows:

(a) Children who already know English: the child already possesses good English language skills, as measured by standardized tests of English vocabulary comprehension, reading, and writing, in which the child scores at or above the state average for his or her grade level or at or above the 5th grade average, whichever is lower; or

(b) Older children: the child is age 10 years or older, and it is the informed belief of the school principal and educational staff that an alternate course of educational study would be better suited to the child's rapid acquisition of basic English language skills; or

(c) Children with special needs: the child already has been placed for a period of not less than thirty days during that school year in an English language classroom and it is subsequently the informed belief of the school principal and educational staff that the child has such special physical, emotional,

psychological, or educational needs that an alternate course of educational study would be better suited to the child's overall educational development. A written description of these special needs must be provided and any such decision is to be made subject to the examination and approval of the local school superintendent, under guidelines established by and subject to the review of the local Board of Education and ultimately the State Board of Education. The existence of such special needs shall not compel issuance of a waiver, and the parents shall be fully informed of their right to refuse to agree to a waiver.

Article 4. Community-Based English Tutoring

315. In furtherance of its constitutional and legal requirement to offer special language assistance to children coming from backgrounds of limited English proficiency, the state shall encourage family members and others to provide personal English language tutoring to such children, and support these efforts by raising the general level of English language knowledge in the community. Commencing with the fiscal year in which this initiative is enacted and for each of the nine fiscal years following thereafter, a sum of fifty million dollars ($50,000,000) per year is hereby appropriated from the General Fund for the purpose of providing additional funding for free or subsidized programs of adult English language instruction to parents or other members of the community who pledge to provide personal English language tutoring to California school children with limited English proficiency.

316. Programs funded pursuant to this section shall be provided through schools or community organizations. Funding for these programs shall be administered by the Office of the Superintendent of Public Instruction, and shall be disbursed at the discretion of the local school boards, under reasonable guidelines established by, and subject to the review of, the State Board of Education.

Article 5. Legal Standing and Parental Enforcement

320. As detailed in Article 2 (commencing with Section 305) and Article 3 (commencing with Section 310), all California school children have the right to be provided with an English language public education. If a California school child has been denied the option of an English language instructional curriculum in public school, the child's parent or legal guardian shall have legal standing to sue for enforcement of the provisions of this statute, and if successful shall be awarded normal and customary attorney's fees and actual damages, but not punitive or consequential damages. Any school board member or other elected official or public school teacher or administrator who willfully and repeatedly refuses to implement the terms of this statute by providing such an English language educational option at an available public school to a California school child may be held personally liable for fees and actual damages by the child's parents or legal guardian.

Article 6. Severability

325. If any part or parts of this statute are found to be in conflict with federal law or the United States or the California State Constitution, the statute shall be implemented to the maximum extent that federal law, and the United States and the California State Constitution permit. Any provision held invalid shall be severed from the remaining portions of this statute.

Article 7. Operative Date

330. This initiative shall become operative for all school terms which begin more than sixty days following the date on which it becomes effective.

Article 8. Amendment

335. The provisions of this act may be amended by a statute that becomes effective upon approval by the electorate or by a statute to further the act's purpose passed by a two-thirds vote of each house of the Legislature and signed by the Governor.

Article 9. Interpretation

340. Under circumstances in which portions of this statute are subject to conflicting interpretations, Section 300 shall be assumed to contain the governing intent of the statute.

INITIATIVE CONSTITUTIONAL AMENDMENT

224. **State-Funded Design and Engineering Services.**

[Submitted by the initiative and rejected by electors June 2, 1998.]

PROPOSED AMENDMENT TO ARTICLE VII

SECTION 1. TITLE

This measure shall be known and may be cited as the Government Cost Savings and Taxpayer Protection Amendment.

SECTION 2. PURPOSE AND INTENT

It is the intent of the People of the State of California in enacting this measure that engineering, architectural, and similar services provided by the State and certain other entities be furnished at the lowest cost to taxpayers, consistent with quality, health, safety, and the public interest; that contracts for such services be awarded through a competitive bidding process, free of undue political influence; and that contractors be held fully responsible for the performance of their contracts.

SECTION 3. REQUIREMENTS FOR CONTRACTS FOR ENGINEERING, ARCHITECTURAL, AND SIMILAR SERVICES

Section 12 is added to Article VII of the Constitution, to read:

SEC. 12. (a) This section shall apply to contracts for engineering, architectural, landscape architectural, surveying, environmental, or engineering geology services awarded by the State of California or by any state agency to any public or private entity. As used in this section, "state agency" means every state office, officer, agency, department, division, bureau, board, and commission but does not include the University of California, the California State University and Colleges, and local public entities. "State agency" also includes a state agency acting jointly with another state agency or with a local public entity. As used in this section, "local public entity" means any city, county, city and county, including a chartered city or county, public or municipal corporation, school district, special district, authority, or other public entity formed for the

local performance of governmental and proprietary functions within limited boundaries. "Local public entity" also includes two or more local public entities acting jointly.

(b) This section shall also apply to contracts for services specified in subdivision (a) awarded by private entities or local public entities when the contract awarded by the public or private entity involves expenditure of state funds or involves a program, project, facility, or public work for which the State or any state agency has or will have ownership, liability, or responsibility for construction, operation, or maintenance. As used in this section, "state funds" means all money appropriated by the Legislature for expenditure by the State or a state agency and all money included in special funds that the State or a state agency controls.

(c) Prior to the award of any contract covered by this section, the Controller shall prepare and verify an analysis of the cost of performing the work using state civil service employees and the cost of the contract. In comparing costs, the cost of performing the work using state civil service employees shall include only the additional direct costs to the State to provide the same services as the contractor, and the cost of the contract shall include all anticipated contract costs and all costs to be incurred by the State, state agencies, and the contracting entity for the bidding, evaluation, and contract award process and for inspecting, supervising, verifying, monitoring, and overseeing the contract.

(d) The contract shall not be awarded if either of the following conditions is met: (1) the Controller's analysis concludes that state civil service employees can perform the work at less cost than the cost of the contract, unless the services are of such an urgent nature that public interest, health, or safety requires award of the contract; or (2) the Controller or the contracting entity concludes that the contract would not be in the public interest, would have an adverse impact on public health or safety, or would result in lower quality work than if state civil service employees performed the services.

(e) Except for contracts for which a delay resulting from the competitive bidding process would endanger public health or safety, every contract, including amendments, covered by this section that exceeds fifty thousand dollars ($50,000), adjusted annually to reflect changes in the appropriate consumer price index as determined by the Controller, shall be awarded through a publicized competitive bidding process involving sealed bids. Each contract shall be awarded to the lowest qualified bidder. If the contract cost based on the lowest qualified bid exceeds the anticipated contract costs the Controller estimated pursuant to subdivision (c), the Controller shall prepare and verify a revised analysis using the contract bid cost, and that revised analysis shall be used in applying subdivision (d).

(f) For every contract covered by this section, the contractor shall assume full responsibility and liability for its performance of the contract and shall defend, indemnify, and hold the State, the contracting entity, and their agents and employees harmless from any legal action resulting from the performance of the contract.

(g) This section shall not be applied in a manner that will result in the loss of federal funding to the contracting entity for contracts for services.

SECTION 4. SEVERABILITY

If any provision of this amendment or its application to any person or circumstance is held invalid, that invalidity shall not affect other provisions or applications of the amendment which can be given effect without the invalid

provision or application, and to this end the provisions of this amendment are severable.

SECTION 5. APPLICABILITY OF CURRENT LAW

Nothing in this amendment shall expand or restrict the State's constitutional authority, as determined by decisions of the California Supreme Court and California Courts of Appeal in effect on the effective date of this amendment, to enter into contracts with private or public entities.

SECTION 6. RELATIONSHIP TO OTHER MEASURES

To the extent that any other measure on the same subject shall be on the ballot at the same election, it is the intent of the voters that this measure be deemed, to the maximum extent possible, not to be in conflict with such other measure, but rather that this measure should be harmonized with the other measure.

[Submitted by the initiative and rejected by electors June 2, 1998.]

PROPOSED LAW

SECTION 1. The people of the State of California find and declare as follows:

(a) Contributions to political campaigns from foreign interests that have a specific financial stake in legislation and policy can have a corrupting or potentially corrupting effect on, or give the perception of corruption of, the electoral and governmental process.

(b) Contributions that are taken from individuals without their knowledge and complete consent create the public perception that individuals play an insignificant role in the political process.

(c) The financial strength of special interest groups or the methods used to collect funds by certain organizations should not permit them to exercise a disproportionate or controlling influence on the election of candidates to state and local office.

(d) Candidates are raising a larger percentage of their funds from special interests with a specific financial stake in matters before state and local government and a smaller percentage of their funds directly from individuals. This has caused the public perception that decisions of elected officials are being improperly influenced by monetary contributions and that individuals play an insignificant role in the process.

SEC. 2. In enacting this measure, it is the intent of the people of the State of California to accomplish the following purposes:

(a) To eliminate corruption, or the perception of corruption, of the electoral and governmental process by contributions from foreign interests.

(b) To ensure that contributions and expenditures in political campaigns are made with the knowledge and complete consent of the individuals who are making them.

(c) To ensure that individuals and interest groups have fair and equal opportunity to influence the electoral and governmental process.

(d) To restore public trust in governmental institutions and the electoral process.

[Approved by electors November 3, 1998.]

PROPOSED AMENDMENT TO SECTION 2 OF ARTICLE XIII A

SEC. 2. (a) The ~~full cash value~~ *"full cash value"* means the county assessor's valuation of real property as shown on the 1975–76 tax bill under "full cash value" or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. All real property not already assessed up to the 1975–76 full cash value may be reassessed to reflect that valuation. For purposes of this section, "newly constructed" does not include real property ~~which~~ *that* is reconstructed after a disaster, as declared by the Governor, where the fair market value of the real property, as reconstructed, is comparable to its fair market value prior to the disaster. Also, the term "newly constructed" ~~shall~~ *does* not include the portion of reconstruction or improvement to a structure, constructed of unreinforced masonry bearing wall construction, necessary to comply with any local ordinance relating to seismic safety during the first 15 years following that reconstruction or improvement.

However, the Legislature may provide that , under appropriate circumstances and pursuant to definitions and procedures established by the Legislature, any person over the age of 55 years who resides in property ~~which~~ *that* is eligible for the homeowner's exemption under subdivision (k) of Section 3 of Article XIII and any implementing legislation may transfer the base year value of the property entitled to exemption, with the adjustments authorized by subdivision (b), to any replacement dwelling of equal or lesser value located within the same county and purchased or newly constructed by that person as his or her principal residence within two years of the sale of the original property. For purposes of this section, "any person over the age of 55 years" includes a married couple one member of which is over the age of 55 years. For purposes of this section, "replacement dwelling" means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, and any land on which it may be situated. For purposes of this section, a two-dwelling unit shall be considered as two separate single-family dwellings. This paragraph shall apply to any replacement dwelling ~~which~~ *that* was purchased or newly constructed on or after November 5, 1986.

In addition, the Legislature may authorize each county board of supervisors, after consultation with the local affected agencies within the county's boundaries, to adopt an ordinance making the provisions of this subdivision relating to transfer of base year value also applicable to situations in which the replacement dwellings are located in that county and the original properties are located in another county within this State. For purposes of this paragraph, "local affected agency" means any city, special district, school district, or community college district ~~which~~ *that* receives an annual property tax revenue allocation. This paragraph shall apply to any replacement dwelling ~~which~~ *that* was purchased or newly constructed on or after the date the county adopted the provisions of this subdivision relating to transfer of base year value, but shall not apply to any replacement dwelling ~~which~~ *that* was purchased or newly constructed before November 9, 1988.

The Legislature may extend the provisions of this subdivision relating to the transfer of base year values from original properties to replacement dwellings of homeowners over the age of 55 years to severely disabled homeowners, but only with respect to those replacement dwellings purchased or newly constructed on or after the effective date of this paragraph.

(b) The full cash value base may reflect from year to year the inflationary rate not to exceed 2 percent for any given year or reduction as shown in the consumer price index or comparable data for the area under taxing jurisdiction, or may be reduced to reflect substantial damage, destruction , or other factors causing a decline in value.

(c) For purposes of subdivision (a), the Legislature may provide that the term "newly constructed" ~~shall~~ *does* not include any of the following:

(1) The construction or addition of any active solar energy system.

(2) The construction or installation of any fire sprinkler system, other fire extinguishing system, fire detection system, or fire-related egress improvement, as defined by the Legislature, ~~which~~ *that* is constructed or installed after the effective date of this paragraph.

(3) The construction, installation, or modification on or after the effective date of this paragraph of any portion or structural component of a ~~single or multiple family~~ *single- or multiple-family* dwelling ~~which~~ *that* is eligible for the homeowner's exemption if the construction, installation, or modification is for the purpose of making the dwelling more accessible to a severely disabled person.

(4) The construction or installation of seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies, ~~which~~ *that* are constructed or installed in existing buildings after the effective date of this paragraph. The Legislature shall define eligible improvements. This exclusion does not apply to seismic safety reconstruction or improvements ~~which~~ *that* qualify for exclusion pursuant to the last sentence of the first paragraph of subdivision (a).

(5) The construction, installation, removal, or modification on or after the effective date of this paragraph of any portion or structural component of an existing building or structure if the construction, installation, removal, or modification is for the purpose of making the building more accessible to, or more usable by, a disabled person.

(d) For purposes of this section, the term "change in ownership" ~~shall~~ *does* not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the

property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action ~~which~~ *that* has resulted in a judgment of inverse condemnation. The real property acquired shall be deemed comparable to the property replaced if it is similar in size, utility, and function, or if it conforms to state regulations defined by the Legislature governing the relocation of persons displaced by governmental actions. The provisions of this subdivision shall be applied to any property acquired after March 1, 1975, but shall affect only those assessments of that property ~~which~~ *that* occur after the provisions of this subdivision take effect.

(e) (1) Notwithstanding any other provision of this section, the Legislature shall provide that the base year value of property ~~which~~ *that* is substantially damaged or destroyed by a disaster, as declared by the Governor, may be transferred to comparable property within the same county that is acquired or newly constructed as a replacement for the substantially damaged or destroyed property.

(2) Except as provided in paragraph (3), this subdivision shall apply to any comparable replacement property acquired or newly constructed on or after July 1, 1985, and to the determination of base year values for the 1985–86 fiscal year and fiscal years thereafter.

(3) In addition to the transfer of base year value of property within the same county that is permitted by paragraph (1), the Legislature may authorize each county board of supervisors to adopt, after consultation with affected local agencies within the county, an ordinance allowing the transfer of the base year value of property that is located within another county in the State and is substantially damaged or destroyed by a disaster, as declared by the Governor, to comparable replacement property of equal or lesser value that is located within the adopting county and is acquired or newly constructed within three years of the substantial damage or destruction of the original property as a replacement for that property. The scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to this paragraph shall not exceed the scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to subdivision (a). For purposes of this paragraph, "affected local agency" means any city, special district, school district, or community college district that receives an annual allocation of ad valorem property tax revenues. This paragraph shall apply to any comparable replacement property that is acquired or newly constructed as a replacement for property substantially damaged or destroyed by a disaster, as declared by the Governor, occurring on or after October 20, 1991, and to the determination of base year values for the 1991–92 fiscal year and fiscal years thereafter.

(f) For the purposes of subdivision (e):

(1) Property is substantially damaged or destroyed if it sustains physical damage amounting to more than 50 percent of its value immediately before the disaster. Damage includes a diminution in the value of property as a result of restricted access caused by the disaster.

(2) Replacement property is comparable to the property substantially damaged or destroyed if it is similar in size, utility, and function to the property ~~which~~ *that* it replaces, and if the fair market value of the acquired property is comparable to the fair market value of the replaced property prior to the disaster.

(g) For purposes of subdivision (a), the terms "purchased" and "change in ownership" ~~shall~~ *do* not include the purchase or transfer of real property between spouses since March 1, 1975, including, but not limited to, all of the following:

(1) Transfers to a trustee for the beneficial use of a spouse, or the surviving spouse of a deceased transferor, or by a trustee of such a trust to the spouse of the trustor.

(2) Transfers to a spouse ~~which~~ *that* take effect upon the death of a spouse.

(3) Transfers to a spouse or former spouse in connection with a property settlement agreement or decree of dissolution of a marriage or legal separation.

(4) The creation, transfer, or termination, solely between spouses, of any coowner's interest.

(5) The distribution of a legal entity's property to a spouse or former spouse in exchange for the interest of the spouse in the legal entity in connection with a property settlement agreement or a decree of dissolution of a marriage or legal separation.

(h) (1) For purposes of subdivision (a), the terms "purchased" and "change in ownership" ~~shall~~ *do* not include the purchase or transfer of the principal residence of the transferor in the case of a purchase or transfer between parents and their children, as defined by the Legislature, and the purchase or transfer of the first ~~$1,000,000~~ *one million dollars ($1,000,000)* of the full cash value of all other real property between parents and their children, as defined by the Legislature. This subdivision shall apply to both voluntary transfers and transfers resulting from a court order or judicial decree.

(2) (A) Subject to subparagraph (B), commencing with purchases or transfers that occur on or after the date upon which the measure adding this paragraph becomes effective, the exclusion established by paragraph (1) also applies to a purchase or transfer of real property between grandparents and their grandchild or grandchildren, as defined by the Legislature, that otherwise qualifies under paragraph (1), if all of the parents of that grandchild or those grandchildren, who qualify as the children of the grandparents, are deceased as of the date of the purchase or transfer.

(B) A purchase or transfer of a principal residence shall not be excluded pursuant to subparagraph (A) if the transferee grandchild or grandchildren also received a principal residence, or interest therein, through another purchase or transfer that was excludable pursuant to paragraph (1). The full cash value of any real property, other than a principal residence, that was transferred to the grandchild or grandchildren pursuant to a purchase or transfer that was excludable pursuant to paragraph (1), and the full cash value of a principal residence that fails to qualify for exclusion as a result of the preceding sentence, shall be included in applying, for purposes of subparagraph (A), the one million dollar ($1,000,000) full cash value limit specified in paragraph (1).

(i) *(1) Notwithstanding any other provision of this section, the Legislature shall provide with respect to a qualified contaminated property, as defined in paragraph (2), that either, but not both, of the following shall apply:*

(A) (i) Subject to the limitation of clause (ii), the base year value of the qualified contaminated property, as adjusted as authorized by subdivision (b), may be transferred to a replacement property that is acquired or newly constructed as a replacement for the qualified contaminated property, if the replacement real property has a fair market value that is equal to or less than the fair market value of the qualified contaminated property if that property were not contaminated and, except as otherwise provided by this clause, is located within

the same county. The base year value of the qualified contaminated property may be transferred to a replacement real property located within another county if the board of supervisors of that other county has, after consultation with the affected local agencies within that county, adopted a resolution authorizing an intercounty transfer of base year value as so described.

(ii) This subparagraph applies only to replacement property that is acquired or newly constructed within five years after ownership in the qualified contaminated property is sold or otherwise transferred.

(B) In the case in which the remediation of the environmental problems on the qualified contaminated property requires the destruction of, or results in substantial damage to, a structure located on that property, the term "new construction" does not include the repair of a substantially damaged structure, or the construction of a structure replacing a destroyed structure on the qualified contaminated property, performed after the remediation of the environmental problems on that property, provided that the repaired or replacement structure is similar in size, utility, and function to the original structure.

(2) For purposes of this subdivision, "qualified contaminated property" means residential or nonresidential real property that is all of the following:

(A) In the case of residential real property, rendered uninhabitable, and in the case of nonresidential real property, rendered unusable, as the result of either environmental problems, in the nature of and including, but not limited to, the presence of toxic or hazardous materials, or the remediation of those environmental problems, except where the existence of the environmental problems was known to the owner, or to a related individual or entity as described in paragraph (3), at the time the real property was acquired or constructed. For purposes of this subparagraph, residential real property is "uninhabitable" if that property, as a result of health hazards caused by or associated with the environmental problems, is unfit for human habitation, and nonresidential real property is "unusable" if that property, as a result of health hazards caused by or associated with the environmental problems, is unhealthy and unsuitable for occupancy.

(B) Located on a site that has been designated as a toxic or environmental hazard or as an environmental cleanup site by an agency of the State of California or the federal government.

(C) Real property that contains a structure or structures thereon prior to the completion of environmental cleanup activities, and that structure or structures are substantially damaged or destroyed as a result of those environmental cleanup activities.

(D) Stipulated by the lead governmental agency, with respect to the environmental problems or environmental cleanup of the real property, not to have been rendered uninhabitable or unusable, as applicable, as described in subparagraph (A), by any act or omission in which an owner of that real property participated or acquiesced.

(3) It shall be rebuttably presumed that an owner of the real property participated or acquiesced in any act or omission that rendered the real property uninhabitable or unusable, as applicable, if that owner is related to any individual or entity that committed that act or omission in any of the following ways:

(A) Is a spouse, parent, child, grandparent, grandchild, or sibling of that individual.

(B) Is a corporate parent, subsidiary, or affiliate of that entity.

(C) Is an owner of, or has control of, that entity.

(D) Is owned or controlled by that entity.

PROPOSED LAW

CALIFORNIA CHILDREN AND FAMILIES FIRST INITIATIVE

SECTION 1. Title. This measure shall be known and may be cited as the "California Children and Families First Act of 1998."

SEC. 2. Findings and Declarations. The people find and declare as follows:

(a) There is a compelling need in California to create and implement a comprehensive, collaborative, and integrated system of information and services to promote, support, and optimize early childhood development from the prenatal stage to five years of age.

(b) There is a further compelling need in California to ensure that early childhood development programs and services are universally and continuously available for children until the beginning of kindergarten. Proper parenting, nurturing, and health care during these early years will provide the means for California's children to enter school in good health, ready and able to learn, and emotionally well developed.

(c) It has been determined that a child's first three years are the most critical in brain development, yet these crucial years have inadvertently been neglected. Experiences that fill the child's first three years have a direct and substantial

impact not only on brain development but on subsequent intellectual, social, emotional, and physical growth.

(d) The seminal Starting Points report by the Carnegie Corporation of New York concludes that "how children function from the preschool years all the way through adolescence, and even adulthood, hinges in large part on their experiences before the age of three."

(e) New research from many sources, including the Carnegie Corporation, the Baylor College of Medicine, and the White House Conference on Early Childhood Development, demonstrates that the capacity of a child's brain grows more during the first three years than at any other time.

(f) The Education Commission of the States' report on the results of neuroscience research associated with early childhood development states: "Too many infants are born with problems that hinder their start in life. Damage that occurs to the embryo during critical growth times may lead to irreversible disabilities."

(g) California taxpayers spend billions of dollars on public education each year, yet there are few programs designed specifically to help prepare children to enter school in good health, ready and able to learn, and emotionally well developed. Children who succeed in school are far more likely to engage in meaningful social, economic, and civic participation as adults and to avoid the use of tobacco and other addictive substances.

(h) Dollars spent now on well-coordinated programs that enable children to begin school healthy, ready and able to learn, and emotionally well developed will save billions of dollars in remedial programs, treatment services, social services, and our criminal justice system.

(i) The well-being of California's infants and children is endangered. Each year, tens of thousands of children are born exposed to tobacco, drugs, and alcohol. Cigarette smoking and other tobacco use by pregnant women and new parents represent a significant threat to the healthy development of infants and young children. Smoking is the leading preventable cause of death and disease in California.

(j) Studies published by the American Lung Association state: "Smoking during pregnancy accounts for an estimated 20 to 30 percent of low birth weight babies, up to 14 percent of preterm deliveries, and some 10 percent of all infant deaths. Maternal smoking has been linked to asthma among infants and young children."

(k) Research and studies demonstrate that low birth weight infants are particularly at risk for severe physical and developmental complications.

(*l*) Studies by the federal Environmental Protection Agency demonstrate an increased risk of sudden infant death syndrome (SIDS) in infants of mothers who smoke. The federal Environmental Protection Agency also estimates that secondhand smoke is responsible for between 150,000 and 300,000 lower respiratory tract infections in infants and children under 18 months of age annually, resulting in between 7,500 and 15,000 hospitalizations each year.

(m) The California Children and Families First Act of 1998 addresses these issues by facilitating the creation of a seamless system of integrated and comprehensive programs and services, and a funding base for the system with program and financial accountability, that will:

(1) Establish community-based programs to provide parental education and family support services relevant to effective childhood development. These services shall include education and skills training in nurturing and in avoidance

of tobacco, drugs, and alcohol during pregnancy. Emphasis will be on services not provided by existing programs and on the consolidation of existing programs and new services provided pursuant to this act into an integrated system from the consumer's perspective.

(2) Educate the public, using mass media, on the importance and the benefits of nurturing, health care, family support, and child care; and inform involved professionals and the general public about programs that focus on early childhood development.

(3) Educate the public, using mass media, on the dangers caused by smoking and other tobacco use by pregnant women to themselves and to infants and young children, and the dangers of secondhand smoke to all children.

(4) Encourage pregnant women and parents of young children to quit smoking.

(n) A 50-cent-per-pack increase in the state surtax on cigarettes and an equivalent increase in the state surtax on tobacco products to fund anti-smoking and early childhood development programs is necessary, appropriate, and in the public interest.

SEC. 3. Section 7 is added to Article XIII A of the Constitution, to read:

SEC. 7. Section 3 of this article does not apply to the California Children and Families First Act of 1998.

SEC. 4. Section 13 is added to Article XIII B of the Constitution, to read:

SEC. 13. "Appropriations subject to limitation" of each entity of government shall not include appropriations of revenue from the California Children and Families First Trust Fund created by the California Children and Families First Act of 1998. No adjustment in the appropriations limit of any entity of government shall be required pursuant to Section 3 as a result of revenue being deposited in or appropriated from the California Children and Families First Trust Fund. The surtax created by the California Children and Families First Act of 1998 shall not be considered General Fund revenues for the purposes of Section 8 of Article XVI.

SEC. 5. Division 108 (commencing with Section 130100) is added to the Health and Safety Code, to read:

DIVISION 108. CALIFORNIA CHILDREN AND FAMILIES FIRST PROGRAM

130100. There is hereby created a program in the state for the purposes of promoting, supporting, and improving the early development of children from the prenatal stage to five years of age. These purposes shall be accomplished through the establishment, institution, and coordination of appropriate standards, resources, and integrated and comprehensive programs emphasizing community awareness, education, nurturing, child care, social services, health care, and research.

(a) It is the intent of this act to facilitate the creation and implementation of an integrated, comprehensive, and collaborative system of information and services to enhance optimal early childhood development. This system should function as a network that promotes accessibility to all information and services from any entry point into the system. It is further the intent of this act to emphasize local decisionmaking, to provide for greater local flexibility in designing delivery systems, and to eliminate duplicate administrative systems.

(b) The programs authorized by this act shall be administered by the California Children and Families First Commission and by county children and families

first commissions. In administering this act, the state and county commissions shall use outcome-based accountability to determine future expenditures.

(c) This division shall be known and may be cited as the "California Children and Families First Act of 1998."

130105. The California Children and Families First Trust Fund is hereby created in the State Treasury.

(a) The California Children and Families First Trust Fund shall consist of moneys collected pursuant to the taxes imposed by Section 30131.2 of the Revenue and Taxation Code.

(b) All costs to implement this act shall be paid from moneys deposited in the California Children and Families First Trust Fund.

(c) The State Board of Equalization shall determine within one year of the passage of this act the effect that additional taxes imposed on cigarettes and tobacco products by this act has on the consumption of cigarettes and tobacco products in this state. To the extent that a decrease in consumption is determined by the State Board of Equalization to be the direct result of additional taxes imposed by this act, the State Board of Equalization shall determine the fiscal effect the decrease in consumption has on the funding of any Proposition 99 (the Tobacco Tax and Health Protection Act of 1988) state health-related education or research programs in effect as of November 1, 1998, and the Breast Cancer Fund programs that are funded by excise taxes on cigarettes and tobacco products. Funds shall be transferred from the California Children and Families First Trust Fund to those affected programs as necessary to offset the revenue decrease directly resulting from the imposition of additional taxes by this act. Such reimbursements shall occur, and at such times, as determined necessary to further the intent of this subdivision.

(d) Moneys shall be allocated and appropriated from the California Children and Families First Trust Fund as follows:

(1) Twenty percent shall be allocated and appropriated to separate accounts of the state commission for expenditure according to the following formula:

(A) Six percent shall be deposited in a Mass Media Communications Account for expenditures for communications to the general public utilizing television, radio, newspapers, and other mass media on subjects relating to and furthering the goals and purposes of this act, including, but not limited to, methods of nurturing and parenting that encourage proper childhood development, the informed selection of child care, information regarding health and social services, the prevention of tobacco, alcohol, and drug use by pregnant women, and the detrimental effects of secondhand smoke on early childhood development.

(B) Five percent shall be deposited in an Education Account for expenditures for programs relating to education, including, but not limited to, the development of educational materials, professional and parental education and training, and technical support for county commissions in the areas described in subparagraph (A) of paragraph (1) of subdivision (b) of Section 130125.

(C) Three percent shall be deposited in a Child Care Account for expenditures for programs relating to child care, including, but not limited to, the education and training of child care providers, the development of educational materials and guidelines for child care workers, and other areas described in subparagraph (B) of paragraph (1) of subdivision (b) of Section 130125.

(D) Three percent shall be deposited in a Research and Development Account for expenditures for the research and development of best practices and standards for all programs and services relating to early childhood development

established pursuant to this act, and for the assessment and quality evaluation of such programs and services.

(E) One percent shall be deposited in an Administration Account for expenditures for the administrative functions of the state commission.

(F) Two percent shall be deposited in an Unallocated Account for expenditure by the state commission for any of the purposes of this act described in Section 130100 provided that none of these moneys shall be expended for the administrative functions of the state commission.

(G) In the event that, for whatever reason, the expenditure of any moneys allocated and appropriated for the purposes specified in subparagraphs (A) to (F), inclusive, is enjoined by a final judgment of a court of competent jurisdiction, then those moneys shall be available for expenditure by the state commission for mass media communication emphasizing the need to eliminate smoking and other tobacco use by pregnant women, the need to eliminate smoking and other tobacco use by persons under 18 years of age, and the need to eliminate exposure to secondhand smoke.

(H) Any moneys allocated and appropriated to any of the accounts described in subparagraphs (A) to (F), inclusive, that are not encumbered or expended within any applicable period prescribed by law shall (together with the accrued interest on the amount) revert to and remain in the same account for the next fiscal period.

(2) Eighty percent shall be allocated and appropriated to county commissions in accordance with Section 130140.

(A) The moneys allocated and appropriated to county commissions shall be deposited in each local Children and Families First Trust Fund administered by each county commission, and shall be expended only for the purposes authorized by this act and in accordance with the county strategic plan approved by each county commission.

(B) Any moneys allocated and appropriated to any of the county commissions that are not encumbered or expended within any applicable period prescribed by law shall (together with the accrued interest on the amount) revert to and remain in the same local Children and Families First Trust Fund for the next fiscal period under the same conditions as set forth in subparagraph (A).

(e) All grants, gifts, or bequests of money made to or for the benefit of the state commission from public or private sources to be used for early childhood development programs shall be deposited in the California Children and Families First Trust Fund and expended for the specific purpose for which the grant, gift, or bequest was made. The amount of any such grant, gift, or bequest shall not be considered in computing the amount allocated and appropriated to the state commission pursuant to paragraph (1) of subdivision (d).

(f) All grants, gifts, or bequests of money made to or for the benefit of any county commission from public or private sources to be used for early childhood development programs shall be deposited in the local Children and Families First Trust Fund and expended for the specific purpose for which the grant, gift, or bequest was made. The amount of any such grant, gift, or bequest shall not be considered in computing the amount allocated and appropriated to the county commissions pursuant to paragraph (2) of subdivision (d).

130110. There is hereby established a California Children and Families First Commission composed of seven voting members and two ex officio members.

(a) The voting members shall be selected, pursuant to Section 130115, from persons with knowledge, experience, and expertise in early child development,

30131. Notwithstanding Section 30122, the California Children and Families First Trust Fund is hereby created in the State Treasury for the exclusive purpose of funding those provisions of the California Children and Families First Act of 1998 that are set forth in Division 108 (commencing with Section 130100) of the Health and Safety Code.

30131.1. The following definitions apply for purposes of this article:

(a) "Cigarette" has the same meaning as in Section 30003, as it read on January 1, 1997.

(b) "Tobacco products" includes, but is not limited to, all forms of cigars, smoking tobacco, chewing tobacco, snuff, and any other articles or products made of, or containing at least 50 percent, tobacco, but does not include cigarettes.

30131.2. (a) In addition to the taxes imposed upon the distribution of cigarettes by Article 1 (commencing with Section 30101) and Article 2 (commencing with Section 30121) and any other taxes in this chapter, there shall be imposed an additional surtax upon every distributor of cigarettes at the rate of twenty-five mills ($0.025) for each cigarette distributed.

(b) In addition to the taxes imposed upon the distribution of tobacco products by Article 1 (commencing with Section 30101) and Article 2 (commencing with Section 30121), and any other taxes in this chapter, there shall be imposed an additional tax upon every distributor of tobacco products, based on the wholesale cost of these products, at a tax rate, as determined annually by the State Board of Equalization, which is equivalent to the rate of tax imposed on cigarettes by subdivision (a).

30131.3. Except for payments of refunds made pursuant to Article 1 (commencing with Section 30361) of Chapter 6, reimbursement of the State Board of Equalization for expenses incurred in the administration and collection of the taxes imposed by Section 30131.2, and transfers of funds in accordance with subdivision (c) of Section 130105 of the Health and Safety Code, all moneys raised pursuant to the taxes imposed by Section 30131.2 shall be deposited in the California Children and Families First Trust Fund and are continuously appropriated for the exclusive purpose of the California Children and Families First Program established by Division 108 (commencing with Section 130100) of the Health and Safety Code.

30131.4. All moneys raised pursuant to taxes imposed by Section 30131.2 shall be appropriated and expended only for the purposes expressed in the California Children and Families First Act, and shall be used only to supplement existing levels of service and not to fund existing levels of service. No moneys in the California Children and Families First Trust Fund shall be used to supplant state or local General Fund money for any purpose.

30131.5. The annual determination required of the State Board of Equalization pursuant to subdivision (b) of Section 30131.2 shall be made based on the wholesale cost of tobacco products as of March 1, and shall be effective during the state's next fiscal year.

30131.6. The taxes imposed by Section 30131.2 shall be imposed on every cigarette and on tobacco products in the possession or under the control of every

dealer and distributor on and after 12:01 a.m. on January 1, 1999, pursuant to rules and regulations promulgated by the State Board of Equalization.

Notwithstanding the imposition of the taxes authorized by Section 30131.2 of the Revenue and Taxation Code as of January 1, 1999, this act shall take effect and become operative on the date that the Secretary of State certifies the results of the election at which this act was approved.

SEC. 8. Amendment. This act may be amended only by a vote of two-thirds of the membership of both houses of the Legislature. All amendments to this act shall be to further the act and must be consistent with its purposes.

SEC. 9. Liberal construction. The provisions of this act shall be liberally construed to effectuate its purposes of promoting, supporting, and improving early childhood development from the prenatal stage to five years of age.

SEC. 10. No conflict with other laws. The provisions of this act are intended to be in addition to and not in conflict with any other initiative measure that may be adopted by the people at the November 1998 election, and the provisions of this act shall be interpreted and construed so as to avoid conflicts with any such measure whenever possible.

SEC. 11. Severability. If any provision of this act, or part thereof, is for any reason held to be invalid or unconstitutional, the remaining provisions shall not be affected, but shall remain in full force and effect, and to this end the provisions of this act are severable.

The prohibition in this subdivision does not apply to federal, state, county, or municipal government employees or their duly authorized agents in the extraordinary case where the otherwise prohibited padded-jaw leghold trap is the only method available to protect human health or safety.

5. **Tribal-State Gaming Compacts. Tribal Casinos.**

[Submitted by the initiative and approved by electors November 3, 1998.]

PROPOSED LAW

SECTION 1. Title 16 (commencing with Section 98000) is added to the Government Code, to read:

TITLE 16. STATE-TRIBAL AGREEMENTS GOVERNING INDIAN GAMING

CHAPTER 1. THE TRIBAL GOVERNMENT GAMING AND ECONOMIC SELF-SUFFICIENCY ACT OF 1998

98000. This chapter shall be known and may be cited as "The Tribal Government Gaming and Economic Self-Sufficiency Act of 1998."

98001. (a) The people of the State of California find that, historically, Indian tribes within the state have long suffered from high rates of unemployment and inadequate educational, housing, elderly care, and health care opportunities, while typically being located on lands that are not conducive to economic development in order to meet those needs. Federal law provides a statutory basis for conducting licensed and regulated tribal government gaming on, and limited to, qualified Indian lands, as a means of strengthening tribal self-sufficiency through the creation of jobs and tribal economic development. Federal law also provides that certain forms of gaming, known as "class III gaming," will be the subject of an agreement between a tribe and the state (a "Tribal-State compact"), pursuant to which that gaming will be governed.

(b) The people of the state find that uncertainties have developed over various issues concerning class III gaming and the development of Tribal-State compacts between the state and tribes, and that those uncertainties have led to

delays and considerable expense. The Tribal-State compact terms set forth in Section 98004 (the "Gaming Compact"), including the geographic confinement of that gaming to certain tribal lands, the agreement and limitations on the kinds of class III gaming in which a tribe operating thereunder may be engaged, and the regulation and licensing required thereunder, are intended to resolve those uncertainties in an efficient and cost-effective way, while meeting the basic and mutual needs of the state and the tribes without undue delay. The resolution of uncertainty regarding class III gaming in California, the generation of employment and tribal economic development that will result therefrom, and the limitations on the growth of gaming in California that are inherent therein, are in the best and immediate interest of all citizens of the state. This chapter has been enacted as a matter of public policy and in recognition that it fulfills important state needs. All of the factors the state could consider in negotiating a Tribal-State compact under federal law have been taken into account in offering to tribes the terms set forth in the Gaming Compact.

(c) The people of the state further find that casinos of the type currently operating in Nevada and New Jersey are materially different from the tribal gaming facilities authorized under this chapter, including those in which the gaming activities under the Gaming Compact are conducted, in that the casinos in those states (1) commonly offer their patrons a broad spectrum of house-banked games, including but not limited to house-banked card games, roulette, dice games, and slot machines that dispense coins or currency, none of which games are authorized under this chapter; and (2) are owned by private companies, individuals, or others that are not restricted on how their profits may be expended, whereas tribal governments must be the primary beneficiaries of the gaming facilities under this chapter and the Gaming Compact, and are limited to using their gaming revenues for various tribal purposes, including tribal government services and programs such as those that address reservation housing, elderly care, education, economic development, health care, and other tribal programs and needs, in conformity with federal law.

98002. (a) The Governor is authorized to execute on behalf of this state a Gaming Compact containing the terms set forth in Section 98004, and shall do so as a ministerial act, without preconditions, within 30 days after receiving a request from a tribe, accompanied by or in the form of a duly enacted resolution of the tribe's governing body, to enter into such a compact.

(b) If any federally recognized tribe having jurisdiction over Indian lands in California requests that the Governor enter into negotiations for a Tribal-State compact under federal law, including but not limited to the Indian Gaming Regulatory Act (25 U.S.C. Sec. 2701 et seq.) (hereafter "IGRA"), on terms different than those prescribed in the Gaming Compact in Section 98004, the Governor shall enter into those negotiations pursuant to that federal law and without preconditions, and is authorized to reach agreement and execute that compact on behalf of the state, which authority shall not require action by the Legislature so long as the compact does not expand the scope of class III gaming permitted under a Gaming Compact under this chapter, create or confer additional powers on any agency of this state that are inconsistent with the terms of a Gaming Compact, or infringe upon the power of the Legislature to appropriate and authorize the expenditure of funds from the State Treasury. Any action by the Legislature that expands the scope of class III gaming permitted in any Tribal-State compact between the state and a tribe beyond that authorized

and permitted in the Gaming Compact set forth in Section 98004 may not be deemed to be in conflict with, or prohibited by, this chapter.

(c) The Governor is authorized and directed to execute, as a ministerial act on behalf of the state, any additional documents that may be necessary to implement this chapter or any Tribal-State compact entered into pursuant to this chapter. In the event that federal law regarding the process for entry into or approval of Tribal-State gaming compacts is changed in any way that would require a change in any procedure under this chapter in order for a Tribal-State gaming compact to become effective, this chapter shall be deemed amended to conform to and incorporate that changed federal law.

98003. Any state department or agency, or other subdivision of the state, providing gaming regulatory services to a tribe pursuant to the terms of this chapter, including a Gaming Compact entered into hereunder, is authorized to require and receive reimbursement from the tribe for the actual and reasonable costs of those services in accordance with a fee schedule to be agreed to by the tribe and the state that is based on what the state gaming agency reasonably charges other government agencies for comparable services. Any funds received from a tribe in reimbursement for those services are hereby continuously appropriated to that department, agency, or subdivision for those purposes. Any disputes concerning the reasonableness of any claim for reimbursement shall be resolved in accordance with the dispute resolution procedures set forth in the Gaming Compact.

98004. The State of California hereby offers to any federally recognized Indian tribe that is recognized by the Secretary of the Interior as having jurisdiction over Indian lands in California that are eligible for gaming under IGRA, and any such tribe may request, and enter into with the state, a Gaming Compact containing the following terms and conditions:

"TRIBAL-STATE GAMING COMPACT

Between the
[OFFICIAL NAME OF TRIBE],
a federally recognized Indian Tribe,
and the
STATE OF CALIFORNIA

This Tribal-State Gaming Compact is entered into on a government-to-government basis by and between the [Official Name of Tribe], a federally recognized sovereign Indian tribe (hereafter "Tribe"), and the State of California, a sovereign State of the United States (hereafter "State"), pursuant to the Indian Gaming Regulatory Act of 1988 (P.L. 100-497, codified at 18 U.S.C. Sec. 1166 et seq. and 25 U.S.C. Sec. 2701 et seq.) (hereafter "IGRA"), and any successor statute or amendments, and the Tribal Government Gaming and Economic Self-Sufficiency Act of 1998 (Chapter 1 (commencing with Section 98000) of Title 16 of the Government Code).

Section 1.0. PURPOSES AND OBJECTIVES. The terms of this Gaming Compact are designed and intended to: (a) Evidence the good will and cooperation of the Tribe and State in fostering a mutually respectful government-to-government relationship that will serve the mutual interests of the parties.

(b) Develop and implement a means of regulating class III gaming on the Tribe's Indian lands to ensure its fair and honest operation in accordance with IGRA, and, through that regulated class III gaming, enable the Tribe to develop self-sufficiency, promote tribal economic development, and generate jobs and

revenues to support the Tribe's government and governmental services and programs.

(c) Promote ethical practices in conjunction with that gaming, through the licensing and control of persons and entities employed in, or providing goods and services to, the Tribe's gaming operation and protecting against the presence or participation of persons whose criminal backgrounds, reputations, character, or associations make them unsuitable for participation in gaming, thereby maintaining a high level of integrity in government gaming.

In the event no agency is authorized to conduct this function, the State shall designate such an agency by statute. Sec. 4.0. SCOPE OF CLASS III GAMING

Sec. 4.1. Authorized and Permitted Class III Gaming. To the extent regarded as forms or types of class III gaming, the Tribe is hereby authorized and permitted to operate the following gaming activities under the terms and conditions set forth in this Gaming Compact:

(a) The operation of Tribal gaming terminals, provided that such devices shall meet the technical standards adopted pursuant to Section 8.1.15 and shall pay prizes solely in accordance with a players' pool prize system.

(b) The operation of any card games that were actually operated in any tribal gaming facility in California on or before January 1, 1998, and are not within class II of IGRA (which class II games are not affected by this Gaming Compact), provided that such non-class II card games shall pay prizes solely in accordance with a players' pool prize system.

(c) The operation of any lottery game, including, but not limited to, drawings, raffles, match games, and instant lottery ticket games.

(d) The simulcasting and offering of off-track betting on horse races, if offered in accordance with the terms and conditions of the Tribal-State compact between the State and the Sycuan Band of Mission Indians that existed on March 31, 1997 ("Sycuan compact"), the terms of which shall be adjusted for northern California racing if required by the geographic location of the Tribe, and which compact is hereby incorporated by reference on the effective date of this Gaming Compact, unless the Tribe elects to adopt the provisions of an existing compact pursuant to the next sentence. If the Tribe and the State have already entered into a compact governing off-track wagering, that compact, at the Tribe's option, may continue in full force and effect as the off-track wagering provisions intended by this section, or the Sycuan compact terms and conditions may be substituted therefor. The Tribe may notify the State, at the time the notice under Section 98002 of the Act is given, or at any later date as the Tribe may deem appropriate, of its election with regard to which off-track wagering compact it has elected to incorporate herein. With regard to any Tribal-State compact governing off-track wagering, including this Gaming Compact, if the State lacks jurisdiction under federal law to collect a license fee or other charge on wagers placed at a tribal facility, which fee or charge would ordinarily be collected on wagers at nontribal facilities, an amount equal to that fee or charge shall be deducted from any off-track wagers made at the Tribe's facility and shall be distributed to the Tribe.

Sec. 4.2. Authorized Gaming Facilities. The Tribe may establish and operate gaming facilities in which the gaming activities authorized under this Gaming Compact may be conducted, provided that the facilities are located on

Indian lands within California over which the Tribe has jurisdiction, and qualify under federal law as lands upon which gaming can lawfully be conducted. The Tribe may combine and operate in those gaming facilities any forms and kinds of gaming permitted under law, except to the extent limited under IGRA or the Tribe's gaming ordinance.

Sec. 5.0. TRIBAL, STATE, AND LOCAL TRUST FUNDS

Sec. 5.1. Conditional Obligation to Contribute to Trust Funds; Contribution Formula. (a) The parties acknowledge that the operation of Tribal gaming terminals authorized under this Gaming Compact is expected to occupy a unique place in gaming within the State that is material to the ability of the Tribe and other tribal governments operating under similar compacts to achieve the economic development and other goals intended by IGRA. The Tribe therefore agrees to make the contributions to the trust funds described in Sections 5.2, 5.3, and 5.4, only for as long as it and other tribes that have entered into Gaming Compacts are not deprived of that unique opportunity. Accordingly, in the event that any other person or entity, including, but not limited to, the California State Lottery, lawfully operates gaming devices within the State at any time after January 2, 1998, any and all obligations by the Tribe to make the trust fund contributions required under Sections 5.2, 5.3, and 5.4 shall immediately and permanently cease and terminate. For the purposes of this section only, no equipment or type of game played thereon or therewith that was offered by the California State Lottery or any race track in California prior to January 2, 1998, may be deemed to cause the cessation and termination of those trust fund contributions.

(b) The contributions due under Sections 5.2, 5.3, and 5.4 shall be determined and made on a calendar quarter basis, by first determining the total number of all Tribal gaming terminals operated by a Tribe during a given quarter ("Quarterly Terminal Base"). Notwithstanding anything in this Section 5.0 to the contrary, the Tribe shall have no obligation to make any contribution to any trust fund on the net win derived from the first 200 terminals in the Quarterly Terminal Base; shall contribute at one-half of the percentage rates specified in Sections 5.2, 5.3, and 5.4 on the net win derived from the next 200 terminals in the Quarterly Terminal Base; and shall contribute at the full percentage rates specified in the above sections on the net win derived from any additional terminals in the Quarterly Terminal Base. In making those computations, the total net win from all terminals in the Quarterly Terminal Base during a given quarter shall be included and evenly divided among all such terminals ("Average Terminal Net Win"), regardless of the actual performance or net win of any particular terminal. The Average Terminal Net Win shall be used as the basis for calculating the foregoing exclusions or reductions that are based on the number of terminals in the Quarterly Terminal Base.

Sec. 5.2. Nongaming Tribal Assistance Fund.

Sec. 5.2.1. The Tribe shall participate in a trust fund with all other tribes, if any, that enter into Gaming Compacts under Section 98004 of the Act, into which it shall deposit 2 percent of its net win from Tribal gaming terminals each calendar quarter. The trust fund shall be distributed on an equitable basis for education, economic development, cultural preservation, health care, and other tribal purposes to federally recognized tribes located in California that have not participated in any form of gaming within the 12-month period preceding the anticipated receipt of such trust funds.

Sec. 5.2.2. The trust shall have a board of 12 trustees, consisting of one representative from each of three federally recognized tribes in each federal judicial district in California, elected by nomination as set forth below and majority vote of those tribal representatives attending a meeting at which all federally recognized tribes in the district have been given at least 15 days' written notice to attend. Each such tribe shall have one vote. The State shall assist the trust fund in assuring that adequate notice is given to all tribes who are to be represented at the meeting. Two of the trustees from each district shall consist of representatives of tribes in the district that have entered into Gaming Compacts under the Act, and one trustee shall be from a nongaming tribe. If there are no tribes that fit into one category, the trustee positions shall be filled by the other category of tribes. Gaming tribes shall nominate and elect the gaming tribe representatives, and nongaming tribes shall nominate and elect the nongaming tribe representative. Trustees shall serve for two-year terms, and shall receive reimbursement for reasonable costs actually incurred to attend meetings and serve as a trustee that have been approved by the board of trustees.

Sec. 5.2.3. All contributions to the fund shall be combined on a statewide basis and shall be distributed from the trust fund on a quarterly basis statewide in accordance with a fair and equitable formula established by the trustees by majority vote. All moneys in the trust fund shall be distributed annually, less reasonable costs of administering the trust fund, which may not exceed 5 percent of the moneys contributed to the trust fund in each year, and pursuant to a budget approved by the board of trustees.

Sec. 5.2.4. The first meeting of the trustees shall take place within the earlier of 60 days after at least three Gaming Compacts have become effective in the applicable federal judicial district, or six months following the effective date of the first Gaming Compact in that district. Distributions that are due from the Tribe prior to the formal creation of the trust fund specified herein shall be held in trust by the Tribe for such purposes.

Sec. 5.2.5. Contributions to the fund from the Tribe shall be made on the 15th day of the month following the close of the second calendar quarter in which this Gaming Compact has been in effect, based on the net win in the first calendar quarter of operations under the Gaming Compact derived from all Tribal gaming terminals in the Quarterly Terminal Base, and on the 15th day of the month following the close of each calendar quarter thereafter (July 15, October 15, January 15, and April 15; hereafter "contribution dates") based on the second preceding calendar quarter net win. For example, if this Gaming Compact becomes effective on October 10, the first contribution will be due on April 15, based on the total net win from Tribal gaming terminals in the Quarterly Terminal Base for the calendar quarter ending December 31. The next contribution date will be July 15, for the quarter ending March 31, and so forth.

Sec. 5.3. Statewide Trust Fund.

Sec. 5.3.1. The Tribe shall participate in a trust fund with the other Gaming Compact tribes, if any, into which it shall deposit, on a quarterly basis on each contribution date, an amount equal to 3 percent of the net win from the Tribal gaming terminals in the Quarterly Terminal Base. Except as otherwise provided herein, the creation of the trust, board of trustees, and method for making contributions and distributions shall be identical to the manner in which contributions are made, trust funds are distributed, and the board of trustees is

created and administered under Section 5.2, provided that nongaming tribes may not be represented or vote for trustees on the board.

Sec. 5.3.2. For each quarter, the board of trustees shall determine, based on a formula, established with the approval of the State, that takes into account the population, ratio, and emergency medical needs of persons over 55 years of age in each county, a method for distributing annually all funds in the trust, except for reasonable administrative expenses (including said trustee costs) not to exceed 5 percent of the amounts contributed to the trust fund in each year, and pursuant to a budget approved by the board of trustees. The funds in trust shall be used solely to supplement emergency medical care resources within each county, including, but not limited to, those provided by any federally recognized tribes within the county, provided that, without increasing said 3 percent amount, one-half of 1 percent of the net win on which said contribution is based shall be used to establish or supplement programs within the county that address compulsive and addictive gambling.

Sec. 5.4. Local Benefits Grant Fund.

Sec. 5.4.1. The Tribe shall establish a trust fund into which it shall deposit, on a quarterly basis on each contribution date, an amount equal to 1 percent of the net win from Tribal gaming terminals in the Tribe's gaming operation.

Sec. 5.4.2. Within 60 days after commencing operations under this Gaming Compact, the Tribe shall invite discussion, on a government-to-government basis, with governmental representatives of any city or county within the boundaries of which the Tribe's gaming facilities are located. Those discussions shall address community needs that could be met by grants of funds from the trust to any such cities and counties. Any federally recognized tribes within the county that are also providing services to meet those community needs shall also be included in those discussions and shall be eligible for those grants. The procedure and criteria for receiving such funds shall be submitted in writing to, and approved by, a committee comprised of representatives of each of the eligible local community and tribal governments and the Tribe. The Tribe shall distribute annually all of such trust funds, less reasonable administrative costs of no more than 5 percent, in accordance with a distribution plan agreed upon by the committee that is fair and equitable. Funds not distributed in any year despite good faith efforts to do so shall be carried over to the following year.

Sec. 6.0. REGULATION OF GAMING

Sec. 6.1. Tribal Gaming Ordinance. All gaming activities conducted under this Gaming Compact shall at a minimum comply with a Tribal gaming ordinance duly adopted by the Tribe and approved in accordance with IGRA.

Sec. 6.2. Tribal Ownership, Management, and Control of Gaming Facility and Gaming Operation. All gaming operations and facilities authorized under this Gaming Compact shall be owned solely by the Tribe. The parties acknowledge that most tribal gaming operations and facilities within the State presently are controlled and conducted solely by a tribe, and that a goal of the Act is to enable all tribes to control and conduct their own gaming operations and facilities, provide tribal job training and employment, and achieve tribal self-sufficiency. Therefore, although the Tribe shall be entitled to contract for the management of the gaming facility and operation in accordance with IGRA, any such management contract shall provide that, to the extent permitted by law, members of the Tribe will be trained for and advanced to key management positions, and that a goal of the management contractor is to prepare the Tribe to assume the control and conduct of the operation and facility.

Sec. 6.3. Prohibition Regarding Minors. Tribal gaming facilities operated pursuant to this Gaming Compact shall be subject to the same minimum-age restrictions for patrons that currently apply to the California State Lottery. If alcoholic beverages are served in any area of a Tribal gaming facility operated pursuant to this Gaming Compact, prohibitions regarding age limits in that area shall be governed by applicable law.

Sec. 6.4. Licensing Requirements and Procedures.

Sec. 6.4.1. Summary of Licensing Principles. All persons in any way connected with the gaming operation or facility who are required to be licensed under IGRA and any others required to be licensed under this Gaming Compact, including, but not limited to, all gaming employees and gaming resource suppliers, must be licensed by the Tribal gaming agency. The Tribal gaming agency shall have the primary responsibility for licensing those persons and entities and for the regulation of the gaming operation and facility. The Tribal gaming agency shall also certify, through the use of experts and with participation by the State gaming agency if it so desires, that the gaming facility and any construction to be undertaken in regard thereto meet specified building and safety standards. The State gaming agency shall be provided with licensing application information and reports regarding facility inspections and compliance. The State gaming agency may review that information and object or refrain from objecting thereto. In the event that the State gaming agency fails to object to a gaming license application within 90 days after receipt of that information and notification that the Tribal gaming agency intends to issue a temporary or permanent license, the State gaming agency is deemed to have certified that it has no objection to that issuance, but the State gaming agency shall be free at any time to revoke that certification, or to request the Tribal gaming agency to suspend or revoke a gaming license. The dispute resolution processes between the State and the Tribe provided for herein shall be available to resolve disputes between the Tribe and the State regarding such requests and building and safety certifications. The parties intend that the licensing process provided for in this Gaming Compact shall involve joint cooperation between the Tribal gaming agency and the State gaming agency, as more particularly described herein.

Sec. 6.4.2. Gaming Facility. (a) The gaming facility authorized by this Gaming Compact shall be licensed by the Tribal gaming agency in conformity with the requirements of this Gaming Compact, the Tribal gaming ordinance, and IGRA. The license shall be reviewed and renewed, if appropriate, every two years thereafter. Verification that this requirement has been met shall be provided to the State gaming agency. The Tribal gaming agency's certification to that effect shall be posted in a conspicuous and public place in the gaming facility at all times.

(b) In order to protect the health and safety of all gaming facility patrons, guests, and employees, all gaming facilities of the Tribe constructed after the effective date of this Gaming Compact shall meet the building and safety codes of the Tribe, which, as a condition for engaging in that construction, shall amend its existing building and safety codes if necessary, or enact such codes if there are none, so that they meet the standards of either the building and safety codes of any county within the boundaries of which the site of the facility is located, or the Uniform Building Codes, including all uniform fire, plumbing, electrical, mechanical, and related codes then in effect, provided that nothing herein shall be deemed to confer jurisdiction upon any county or the State with respect to any reference to such building and safety codes.

(c) Any gaming facility in which gaming authorized by this Gaming Compact is conducted shall be licensed by the Tribal gaming agency prior to occupancy if it was not used for any gaming activities under IGRA prior to the effective date of this Gaming Compact, or, if it was so used, within one year thereafter. The issuance of this license shall be reviewed and renewed every two years thereafter. Inspections by qualified building and safety experts shall be conducted under the direction of the Tribal gaming agency as the basis for issuing or renewing any license hereunder. The Tribal gaming agency shall determine and certify that, as to new construction or new use for gaming, the facility meets the Tribe's building and safety code, or, as to facilities or portions of facilities that were used for the Tribe's gaming activities prior to this Gaming Compact, that the facility or portions thereof do not endanger the health or safety of occupants or the integrity of the gaming operation.

(d) The State gaming agency shall be given at least 30 days' notice of each inspection by those experts, and, after 10 days' notice to the Tribe, may accompany any such inspection. The Tribe agrees to correct any facility condition noted in an inspection that does not meet the standards set forth in subdivision (b). The Tribal gaming agency and State gaming agency shall exchange any reports of an inspection within 10 days after its completion, which reports shall also be separately and simultaneously forwarded by both agencies to the Tribal Chairperson. Upon certification by those experts that a facility meets applicable standards, the Tribal gaming agency shall forward the experts' certification to the State within 10 days of issuance. If the State objects to that certification, the Tribe shall make a good faith effort to address the State's concerns, but if the State does not withdraw its objection, the matter will be resolved in accordance with the dispute resolution provisions of Section 9.0.

Sec. 6.4.3. Suitability Standard Regarding Gaming Licenses. In reviewing an application for a gaming license, and in addition to any standards set forth in the Tribal gaming ordinance, the Tribal gaming agency shall consider whether issuance of the license is inimical to public health, safety, or welfare, and whether issuance of the license will undermine public trust that the Tribe's gaming operations, or tribal government gaming generally, are free from criminal and dishonest elements and would be conducted honestly. A license may not be issued unless, based on all information and documents submitted, the Tribal gaming agency is satisfied that the applicant is all of the following, in addition to any other criteria in IGRA or the Tribal gaming ordinance:

(a) A person of good character, honesty, and integrity.

(b) A person whose prior activities, criminal record, if any, reputation, habits, and associations do not pose a threat to the public interest or to the effective regulation and control of gambling, or create or enhance the dangers of unsuitable, unfair, or illegal practices, methods, or activities in the conduct of gambling or in the carrying on of the business and financial arrangements incidental thereto.

(c) A person who is in all other respects qualified to be licensed as provided in this Gaming Compact, IGRA, the Tribal gaming ordinance, and any other criteria adopted by the Tribal gaming agency or the Tribe, provided that any applicant who supplied services or equipment to a tribal gaming operation prior to the effective date of this Act, such as, but not limited to, a person who would be deemed to be a gaming employee or gaming resource supplier under this Gaming Compact, or any person who may have been deemed to have violated a law in the exercise of or protection of a tribe's sovereignty rights in connection

with fishing, hunting, protection of burial grounds, repatriation of remains or artifacts, or gaming, may not, for that reason, be deemed unsuitable. Nothing herein may be deemed to exempt any such applicant from otherwise qualifying for licensing or certification under this Gaming Compact.

Sec. 6.4.4. Gaming Employees. Every gaming employee shall obtain, and thereafter maintain, a valid Tribal gaming license, which shall be subject to biannual renewal, provided that in accordance with Section 6.4.9, those persons may be employed on a temporary or conditional basis pending completion of the licensing process.

Sec. 6.4.5. Gaming Resource Supplier. Any gaming resource supplier who provides, has provided, or is deemed likely to provide at least twenty-five thousand dollars ($25,000) in gaming resources in any 12-month period shall be licensed by the Tribal gaming agency prior to the sale, lease, or distribution, or further sale, lease, or distribution, of any such gaming resources to or in connection with the Tribe's operation or facility. These licenses shall be renewed at least every two years.

Sec. 6.4.6. Financial Sources. Any party extending financing, directly or indirectly, to the Tribe's gaming facility or gaming operation shall be licensed by the Tribal gaming agency prior to extending that financing. Licensing shall be effective for no more than two years before a renewal must be obtained, provided that, if a lender's gaming license is revoked or not renewed, reasonable arrangements may be made with regard to payment of any balance due to that lender so as to not impose undue hardship on the Tribe, provided that reasonable attempts shall be made to avoid ongoing conflicts with any licensing standard herein. A gaming resource supplier who provides financing in connection with the sale or lease of gaming resources obtained from that supplier may be licensed solely in accordance with licensing procedures applicable, if at all, to gaming resource suppliers. The Tribal gaming agency may, at its discretion, exclude, from the licensing requirements of this section, financing provided by a federally regulated or state-regulated bank, savings and loan, or other lending institution, a federally recognized tribal government or tribal entity thereof, or any agency of the federal, state, or local government.

Sec. 6.4.7. Processing Tribal Gaming License Applications. Each applicant for a Tribal gaming license shall submit the completed application along with the required information and an application fee, if required, to the Tribal gaming agency in accordance with the rules and regulations of that agency. At a minimum, the Tribal gaming agency shall require submission and consideration of all information required under IGRA, including Section 556.4 of Title 25 of the Code of Federal Regulations, for licensing primary management officials and key employees. For applicants who are business entities, these licensing provisions shall apply to the entity as well as: (i) each of its officers and directors; (ii) each of its principal management employees, including any chief executive officer, chief financial officer, chief operating officer, or general manager; (iii) each of its owners or partners, if an unincorporated business; (iv) each of its shareholders who owns more than 10 percent of the shares of the corporation, if a corporation; and (v) each person or entity (other than a financial institution that the Tribal gaming agency has determined does not require a license under the preceding section) that has provided financing in connection with any gaming authorized under this Gaming Compact, if that person or entity provided more than 10 percent of (a) the start-up capital, (b) the operating capital over a 12-month period, or (c) a combination thereof. For purposes of this section,

where there is any commonality of the characteristics identified in clauses (i) to (iv), inclusive, between any two or more entities, those entities may be deemed to be a single entity. Nothing herein precludes the Tribe or Tribal gaming agency from requiring more stringent licensing requirements.

Sec. 6.4.8. Background Investigations of Applicants. The Tribal gaming agency shall conduct or cause to be conducted all necessary background investigations reasonably required to determine that the applicant is qualified for a gaming license under the standards set forth in Section 6.4.3, and to fulfill all requirements for licensing under IGRA, the Tribal gaming ordinance, and this Gaming Compact. The Tribal gaming agency may not issue a license until a determination is made that those qualifications have been met. In lieu of completing its own background investigation, and to the extent that doing so does not conflict with or violate IGRA and the Tribal gaming ordinance, the Tribal gaming agency may rely on a State certification of nonobjection previously issued under a Gaming Compact involving another tribe, or a State gaming license previously issued to the applicant, to fulfill some or all of the Tribal gaming agency's background investigation obligation. An applicant for a Tribal gaming license shall be required to provide releases to the State gaming agency to make available to the Tribal gaming agency background information regarding the applicant. The State gaming agency shall cooperate in furnishing to the Tribal gaming agency that information, unless doing so would violate any agreement the State gaming agency has with a source of the information other than the applicant, or would impair or impede a criminal investigation, or unless the Tribal gaming agency cannot provide sufficient safeguards to assure the State gaming agency that the information will remain confidential.

Sec. 6.4.9. Temporary Licensing. Notwithstanding anything herein to the contrary, if the applicant has completed a license application in a manner satisfactory to the Tribal gaming agency, and that agency has conducted a preliminary background investigation, and the investigation or other information held by that agency does not indicate that the applicant has a criminal history or other information in his or her background that would either automatically disqualify the applicant from obtaining a license or cause a reasonable person to investigate further before issuing a license, or is otherwise unsuitable for licensing, the Tribal gaming agency may issue a temporary license and may impose such specific conditions thereon pending completion of the applicant's background investigation as the Tribal gaming agency in its sole discretion shall determine. Special fees may be required by the Tribal gaming agency to issue or maintain a temporary license. A temporary license shall remain in effect until suspended or revoked, or a final determination is made on the application. At any time after issuance of a temporary license, the Tribal gaming agency may suspend or revoke it in accordance with Sections 6.5.1 and 6.5.5, and the State gaming agency may request suspension or revocation in accordance with subdivision (d) of Section 6.5.6.

Sec. 6.5. Gaming License Issuance. Upon completion of the necessary background investigation (including any reliance in whole or in part on a State certification of nonobjection, or a State gaming license under Section 6.4.8), receipt and review of such further information as the Tribal gaming agency may require, and as to applicants who are not Tribal members, actual or constructive receipt by the Tribal gaming agency of a certificate of nonobjection by the State gaming agency, and payment of all necessary fees by the applicant, the Tribal gaming agency may issue a license on a conditional or unconditional

basis. Nothing herein shall create a property or other right of an applicant in an opportunity to be licensed, or in a license itself, both of which shall be considered to be privileges granted to the applicant in the sole discretion of the Tribal gaming agency.

Sec. 6.5.1. Denial, Suspension, or Revocation of Licenses. Any application for a gaming license may be denied, and any license issued may be revoked, if the Tribal gaming agency determines that the application is incomplete or deficient, the applicant is determined to be unsuitable or otherwise unqualified for a gaming license, or the State objects to the issuance of that license pursuant to subdivision (c) of Section 6.5.6. Pending consideration of revocation, the Tribal gaming agency may suspend a license in accordance with Section 6.5.5. All rights to notice and hearing shall be governed by Tribal law, as to which the applicant will be notified in writing along with notice of an intent to suspend or revoke the license.

Sec. 6.5.2. Renewal of Licenses; Extensions; Further Investigation. In the event a licensee has applied for renewal prior to expiration of a license and the Tribal gaming agency has, through no fault of the applicant, been unable to complete the renewal process prior to that expiration, the license shall be deemed to be automatically extended until formal action has been taken on the renewal application or a suspension or revocation has occurred. Applicants for renewal of a license shall provide updated material as requested, on the appropriate renewal forms, but, at the discretion of the Tribal gaming agency, may not be required to resubmit historical data previously submitted or that is otherwise available to the Tribal gaming agency. At the discretion of the Tribal gaming agency, an additional background investigation may be required at any time if the Tribal gaming agency determines the need for further information concerning the applicant's continuing suitability or eligibility for a license.

Sec. 6.5.3. Identification Cards. The Tribal gaming agency shall require that all persons who are required to be licensed shall wear, in plain view at all times while in the gaming facility, identification badges issued by the Tribal gaming agency. Identification badges must include information including, but not limited to, a photograph and an identification number, which is sufficient to enable agents of the Tribal gaming agency to readily identify the employees and determine the validity and date of expiration of their license.

Sec. 6.5.4. Fees for Tribal License. The fees for all tribal licenses shall be set by the Tribal gaming agency.

Sec. 6.5.5. Suspension of Tribal License. The Tribal gaming agency may summarily suspend the license of any employee if the Tribal gaming agency determines that the continued licensing of the person or entity could constitute a threat to the public health or safety or may be in violation of the Tribe's licensing standards. Any right to notice or hearing in regard thereto shall be governed by Tribal law.

Sec. 6.5.6. State Certification Process. (a) Except for enrolled members of a federally recognized California tribe, who shall be licensed exclusively by the Tribe, upon receipt of a completed license application and a determination by the Tribal gaming agency that it intends to issue the earlier of a temporary or permanent license, the Tribal gaming agency shall transmit to the State gaming agency a copy of all Tribal license application materials together with a set of fingerprint cards, a current photograph, and such releases of information, waivers, and other completed and executed forms as have been obtained by the Tribal gaming agency, unless the State gaming agency waives some or all

of those submissions, together with a notice of intent to license that applicant. Additional information may be required by the State gaming agency to assist it in its background investigation, provided that such State gaming agency requirement shall be no greater than that which is typically required of applicants for a State gaming license in connection with nontribal gaming activities and at a similar level of participation or employment. The State gaming agency and the Tribal gaming agency (together with Tribal gaming agencies under other Gaming Compacts) shall cooperate in developing standard licensing forms for Tribal gaming license applicants, on a statewide basis, that reduce or eliminate duplicative or excessive paperwork, which forms and procedures shall take into account the Tribe's requirements under IGRA and the expense thereof.

(b) Temporary License Objection. The State gaming agency shall notify the Tribal gaming agency as promptly as possible if it has an objection to the issuance of a temporary license, but the Tribal gaming agency may not be required to await objection or nonobjection by the State gaming agency in issuing a temporary license. Any objection shall be made in good faith, and shall be given prompt and thorough consideration in good faith by the Tribal gaming agency. Nothing herein prevents the State gaming agency from at any time requesting suspension or revocation of a temporary license pursuant to subdivision (d) of Section 6.5.6. Any dispute over the issuance of a temporary license shall be resolved in accordance with the procedures set forth in Section 9.0.

(c) Background Investigations of Applicants. Upon receipt of completed license application information from the Tribal gaming agency, the State gaming agency may conduct a background investigation to determine whether the applicant is suitable to be licensed in accordance with the standards set forth in Section 6.4.3. The State gaming agency and Tribal gaming agency shall cooperate in sharing as much background information as possible, both to maximize investigative efficiency and thoroughness and to minimize investigative costs. Upon completion of the necessary background investigation or other verification of suitability, the State gaming agency shall issue a notice to the Tribal gaming agency certifying that the State has no objection to the issuance of a license to the applicant by the Tribal gaming agency ("certification of nonobjection"), or that it objects to that issuance. If notice of objection is given, a statement setting forth the grounds for the objection shall be forwarded to the Tribal gaming agency together with the information upon which the objection was based, unless doing so would violate a confidentiality agreement or compromise a pending criminal investigation. If a notice of objection or a certificate of nonobjection is not received by the Tribal gaming agency within 90 days of the first receipt by the State gaming agency of the application information and intent to issue a temporary or permanent license, as provided herein, the State gaming agency shall be deemed to have issued a certificate of nonobjection.

(d) Grounds for Requesting Tribal License Revocation or Suspension or Denying State Certification of Nonobjection. The State gaming agency may revoke a State certification of nonobjection if it determines at any time that the applicant or license holder does not meet the standards for suitability set forth in Section 6.4.3. Upon the Tribal gaming agency's receipt of notice of that action, it shall immediately and in good faith consider the action of the State gaming agency and, if the circumstances warrant it, take action to suspend or revoke the licensee's Tribal license, unless within seven days of receipt of that notice it has notified the State gaming agency that good cause exists to defer taking

that action, including the need for further investigation. Disputes regarding the action taken or not taken in response to the State gaming agency request shall be resolved pursuant to Section 9.0. If at any time the State gaming agency becomes aware of information that would constitute good cause to deny or revoke the Tribal license of any person, including members of federally recognized Indian tribes in California who are exempt from the State review process, it shall convey that information to the Tribal gaming agency promptly after being made aware of that information, and may request that appropriate action be taken by the Tribal gaming agency as to that person.

Sec. 6.5. Licenses Required. A person may not be employed by, or act as a gaming resource supplier to, any gaming activity or facility of the Tribe unless that person, if required to be licensed, has obtained all licenses required hereunder.

Sec. 7.0. TRIBAL ENFORCEMENT OF GAMING COMPACT PROVISIONS

Sec. 7.1. On-Site Regulation. It is the responsibility of the Tribal gaming agency to conduct on-site gaming regulation and control in order to enforce the terms of this Gaming Compact, IGRA, and the Tribal gaming ordinance with respect to gaming operation and facility compliance, and to protect the integrity of the gaming activities, the reputation of the Tribe and the gaming operation for honesty and fairness, and the confidence of patrons that tribal government gaming in California meets the highest standards of regulation and internal controls. To meet those responsibilities, the Tribal gaming agency shall adopt regulations, procedures, and practices as set forth herein.

Sec. 7.2. Investigation and Sanctions. The Tribal gaming agency shall investigate any reported violation of this Gaming Compact and shall require the gaming operation to correct the violation upon such terms and conditions as the Tribal gaming agency determines are necessary. The Tribal gaming agency shall be empowered by the Tribal ordinance to impose fines or other sanctions within the jurisdiction of the Tribe against gaming licensees or other persons who interfere with or violate the Tribe's gaming regulatory requirements and obligations under IGRA, the Tribal gaming ordinance, or this Gaming Compact. The Tribal gaming agency shall report continued violations or failures to comply with its orders to the State gaming agency, provided that the continued violations and compliance failures have first been reported to the Tribe and no corrective action has been taken within a reasonable period of time.

Sec. 7.3. Assistance by State Gaming Agency. If requested by the Tribal gaming agency, the State gaming agency shall assist in any investigation initiated by the Tribal gaming agency and provide other requested services to ensure proper compliance with this Gaming Compact. The State shall be reimbursed for its reasonable costs of that assistance provided that it has received approval from the Tribe in advance for those expenditures.

Sec. 7.4. Access to Premises by State Gaming Agency; Notification; Inspections. Notwithstanding that the Tribe has the primary responsibility to administer and enforce the regulatory requirements, the State gaming agency shall have the right to inspect the Tribe's gaming facilities with respect to class III gaming activities only, and all gaming operation or facility records relating thereto, subject to the following conditions:

Sec. 7.4.1. Inspection of public areas of a gaming facility may be made at any time without prior notice during normal gaming facility business hours.

Sec. 7.4.2. Inspection of private areas of a gaming facility not accessible to the public may be made at any time during normal gaming facility business

hours, immediately after the State gaming agency's authorized inspector notifies the Tribal gaming agency and gaming facility management of his or her presence on the premises, presents proper identification, and requests access to the nonpublic areas of the gaming facility. The Tribal gaming agency, in its sole discretion, may require an employee of the gaming facility or the Tribal gaming agency to accompany the State gaming agency inspector at all times that the State gaming agency inspector is on the premises of a gaming facility. If the Tribal gaming agency imposes such a requirement, it shall require such an employee of the gaming facility or the Tribal gaming agency to be available at all times for those purposes.

Sec. 7.4.3. Inspection and copying of gaming operation records may occur at any time, immediately after notice to the Tribal gaming agency, during the normal hours of the facility's business office, provided that the inspection and copying of those records may not interfere with the normal functioning of the gaming operation or facility. Notwithstanding any other provision of the law of this State, all information and records, and copies thereof, that the State gaming agency obtains, inspects, or copies pursuant to this Gaming Compact shall be and remain the property solely of the Tribe, and may not be released or divulged for any purpose without the Tribe's prior written consent, except that the production of those records may be compelled by subpoena in a criminal prosecution or in a proceeding for violation of this Gaming Compact without the Tribe's prior written consent, and provided further that, prior to the disclosure of the contents of any such records, the Tribe shall be given at least 10 court days' notice and an opportunity to object or to require the redaction of trade secrets or other confidential information that is not relevant to the proceeding in which the records are to be produced.

Sec. 7.4.4. Whenever a representative of the State gaming agency enters the premises of the gaming facility for any such inspection, that representative shall immediately identify himself or herself to security or supervisory personnel of the gaming facility.

Sec. 7.4.5. Any person associated with the State gaming agency who is expected to have access to nonpublic areas of the gaming facility shall first be identified to the Tribal gaming agency as so authorized, and following a sufficient period of time for the Tribal gaming agency to conduct a reasonable inquiry into the person's character and background, and to grant approval to that person's presence, which approval may not be unreasonably withheld.

Sec. 8.0. RULES AND REGULATIONS FOR THE OPERATION AND MANAGEMENT OF THE TRIBAL GAMING OPERATION

Sec. 8.1. Adoption of Regulations for Operation and Management; Minimum Standards. In order to meet the goals set forth in this Gaming Compact and required of the Tribe by law, the Tribal gaming agency shall be vested with the authority to promulgate, at a minimum, rules and regulations governing the following subjects, and to ensure their enforcement in an effective manner:

Sec. 8.1.1. The enforcement of all relevant laws and rules with respect to the gaming operation and facility, and the power to conduct investigations and hearings with respect thereto and to any other subject within its jurisdiction.

Sec. 8.1.2. The physical safety of gaming operation patrons, employees, and any other person while in the gaming facility.

Sec. 8.1.3. The physical safeguarding of assets transported to, within, and from the gaming facility.

Sec. 8.1.4. The prevention of illegal activity from occurring within the facility or with regard to the gaming operation, including, but not limited to, the maintenance of employee procedures and a surveillance system as provided below.

Sec. 8.1.5. The detention of persons who may be involved in illegal acts for the purpose of notifying appropriate law enforcement authorities.

Sec. 8.1.6. The recording of any and all occurrences within the gaming facility that deviate from normal operating policies and procedures (hereafter "incidents"). The procedure for recording incidents shall (1) specify that security personnel record all incidents, regardless of an employee's determination that the incident may be immaterial (all incidents shall be identified in writing); (2) require the assignment of a sequential number to each report; (3) provide for permanent reporting in indelible ink in a bound notebook from which pages cannot be removed and in which entries are made on each side of each page; and (4) require that each report include, at a minimum, all of the following:

(a) The record number.

(b) The date.

(c) The time.

(d) The location of the incident.

(e) A detailed description of the incident.

(f) The persons involved in the incident.

(g) The security department employee assigned to the incident.

Sec. 8.1.7. The establishment of employee procedures designed to permit detection of any irregularities, theft, cheating, fraud, or the like.

Sec. 8.1.8. Maintenance of a list of persons barred from the gaming facility who, because of their past behavior, criminal history, or association with persons or organizations, pose a threat to the integrity of the gaming activities of the Tribe or to the integrity of regulated gaming within the State.

Sec. 8.1.9. The conduct of an audit of the gaming operation, not less than annually, by an independent certified public accountant, in accordance with the auditing and accounting standards for audits of casinos of the American Institute of Certified Public Accountants.

Sec. 8.1.10. Submission to and prior approval from the Tribal gaming agency of the rules and regulations of each class III game to be operated by the Tribe, and of any changes in those rules and regulations. No class III game may be played that has not received Tribal gaming agency approval.

Sec. 8.1.11. Maintenance of a copy of the rules, regulations, and procedures for each game as presently played, including, but not limited to, the method of play and the odds and method of determining amounts paid to winners. Information regarding the method of play, odds, payoff determinations, and player pool balances shall be visibly displayed or available to patrons in written form in the gaming facility. Betting limits applicable to any gaming station shall be displayed at that gaming station. In the event of a patron dispute over the application of any gaming rule or regulation, the matter shall be handled in accordance with the Tribal gaming ordinance and any rules and regulations promulgated by the Tribal gaming agency.

Sec. 8.1.12. Maintenance of a closed-circuit television surveillance system consistent with industry standards for gaming facilities of the type and scale operated by the Tribe, which system shall be approved by, and may not be modified without the approval of, the Tribal gaming agency. The Tribal gaming agency shall have current copies of the gaming facility floor plan and closed-

circuit television system at all times, and any modifications thereof first shall be approved by the Tribal gaming agency.

Sec. 8.1.13. Maintenance of a cashier's cage in accordance with industry standards for such facilities.

Sec. 8.1.14. A description of minimum staff and supervisory requirements for each gaming activity to be conducted.

Sec. 8.1.15. Regulations specific to technical standards for the operation of Tribal gaming terminals and other games authorized herein to be adopted by the Tribe, which technical specifications may be no less stringent than those approved by a recognized gaming testing laboratory in the gaming industry.

Sec. 8.2. Criminal Jurisdiction. Nothing in this Gaming Compact affects the criminal jurisdiction of the State under Public Law 280 (18 U.S.C. Sec. 1162) or IGRA, to the extent applicable, provided that no gaming activity conducted in compliance with this Gaming Compact and the Act may be deemed to be a civil or criminal violation of any law of the State. Except as otherwise provided herein, to the extent the State contends that a violation of this Gaming Compact or any law of the State regarding the regulation or conduct of gambling has occurred at or in relation to the Tribe's gaming operation or facility, the violation shall be treated solely as a civil matter to be resolved pursuant to Section 9.0.

Sec. 9.0. DISPUTE RESOLUTION PROVISIONS

Sec. 9.1. Voluntary Resolution; Reference to Other Means of Resolution. In recognition of the government-to-government relationship of the Tribe and the State, the parties shall make their best efforts to resolve disputes that occur under this Gaming Compact by good faith negotiations whenever possible. Therefore, without prejudice to the right of either party to seek injunctive relief against the other when circumstances require that immediate relief, the parties hereby establish a threshold requirement that disputes between the Tribe and the State first be subjected to a process of meeting and conferring in order to foster a spirit of cooperation and efficiency in the administration and monitoring of performance and compliance by each other with the terms, provisions, and conditions of this Gaming Compact, as follows:

(a) Either party shall give the other, as soon as possible after the event giving rise to the concern, a written notice setting forth the issues to be resolved.

(b) The parties shall meet and confer in a good faith attempt to resolve the dispute through negotiation not later than 10 days after receipt of the notice, unless both parties agree in writing to an extension of time.

(c) If the dispute is not resolved to the satisfaction of the parties within 20 days after the first meeting, then a party may seek to have the dispute resolved by an arbitrator in accordance with this section. "Dispute," for purposes of this subdivision, means any disagreement between the State gaming agency and the Tribal gaming agency in reference to the provisions of Sections 4.0 to 8.1.15, inclusive.

(d) Disagreements other than disputes as defined in subdivision (c) shall be resolved in federal district court and all applicable courts of appeal (or, if those federal courts lack jurisdiction, in any court of competent jurisdiction and its related courts of appeal). The disputes to be submitted to court action include, but are not limited to, any other dispute, including, but not limited to, claims of breach or failure to negotiate in good faith. In no event may the Tribe be precluded from pursuing any arbitration or judicial remedy against the State on the grounds that the Tribe has failed to exhaust its state administrative remedies.

Sec. 9.2. Arbitration Rules. Arbitration shall be conducted in accordance with the policies and procedures of the Commercial Arbitration Rules of the American Arbitration Association, and shall be held on the Tribe's reservation. Each side shall bear its own costs, attorneys' fees, and one-half the cost of the arbitration. Only one arbitrator may be named, unless the Tribe and the State agree otherwise. The decision of the arbitrator shall be binding.

Sec. 9.3. No Waiver or Preclusion of Other Means of Dispute Resolution. This section may not be construed to waive, limit, or restrict any remedy that is otherwise available to either party, nor may this section be construed to preclude, limit, or restrict the ability of the parties to pursue, by mutual agreement, any other method of dispute resolution, including, but not limited to, mediation or utilization of a technical advisor to the Tribal and State gaming agencies, provided that neither party is under any obligation to agree to such alternative method of dispute resolution.

Sec. 9.4. Limited Waiver of Sovereign Immunity. (a) In the event that a dispute is to be resolved in federal court or a court of competent jurisdiction as provided in Section 9.1, the State and the Tribe expressly consent to be sued therein and waive any immunity therefrom that they may have, provided that:

(1) The dispute is limited solely to issues arising under this Gaming Compact;

(2) Neither side makes any claim for monetary damages (that is, only injunctive, specific performance, or declaratory relief is sought); and

(3) No person or entity other than the Tribe and the State are parties to the action.

(b) In the event of intervention by any additional party into any such action without the consent of the Tribe and the State, the waivers of both the Tribe and State provided for herein shall be deemed to be revoked and void.

(c) The waivers and consents provided for under this Section 9.0 shall extend to any actions to compel arbitration, any arbitration proceeding herein, any action to confirm or enforce any arbitration award as provided herein, and any appellate proceedings emanating from a matter in which an immunity waiver has been granted. Except as stated herein, no other waivers or consents to be sued, either express or implied, are granted by either party.

Sec. 10.0. PUBLIC HEALTH, SAFETY, AND LIABILITY

Sec. 10.1. Compliance. For the purposes of this Gaming Compact, the Tribal gaming operation shall comply with and enforce standards no less stringent than the following with respect to public health and safety:

(a) Public health standards for food and beverage handling in accordance with United States Public Health Service requirements.

(b) Federal water quality and safe drinking water standards.

(c) The building and safety standards set forth in Section 6.4.

(d) A requirement that the Tribe carry no less than two million dollars ($2,000,000) in public liability insurance for patron claims, and that the Tribe provide reasonable assurance that those claims will be promptly and fairly adjudicated, and that legitimate claims will be paid, provided that nothing herein requires the Tribe to agree to liability for punitive damages or attorneys' fees.

(e) Tribal codes and other applicable federal law regarding public health and safety.

(f) The creation and maintenance of a system that provides redress for employee work-related injuries, disabilities, and unemployment through requiring insurance or self-insurance, or by other means, which system includes

the right to notice, hearings, and a means of enforcement and provides benefits comparable to those mandated for comparable workplaces under State law.

Sec. 10.2. Emergency Service Accessibility. The Tribal gaming operation shall ensure that it has made reasonable provisions for adequate emergency fire, medical, and related relief and disaster services for patrons and employees of the facility.

Sec. 10.3. Alcoholic Beverage Service. Standards for alcohol service shall be subject to applicable law.

Sec. 11.0. AMENDMENTS, DURATION, AND EFFECTIVE DATE

Sec. 11.1. Effective Date. This Gaming Compact shall constitute the agreement between the State and the Tribe pursuant to IGRA and may be amended and modified only under the provisions set forth herein. This Gaming Compact shall take effect upon publication of notice of approval by the United States Secretary of the Interior in the Federal Register in accordance with applicable federal law (25 U.S.C. Sec. 2710(d)(3)(B)).

Sec. 11.2. Voluntary Termination. Once effective, this Gaming Compact shall be in effect until terminated either by the written agreement of both parties or by the Tribe unilaterally upon 60 days' written notice to the Governor.

Sec. 12.0. AMENDMENTS; RENEGOTIATIONS

Sec. 12.1. The terms and conditions of this Gaming Compact may be amended at any time by the mutual and written agreement of both parties, and such amendment is approved hereby as part of the Act.

Sec. 12.2. In the event that federal or State law is changed or is interpreted, by enactment, a final court decision, a practice of the State gaming agency, or the inclusion of such gaming in a tribal-state compact, to permit gaming in California that is not now permitted to any person or entity for any purpose, or, if permitted, is being lawfully offered for the first time, this Gaming Compact shall be automatically amended to include that permitted or offered gaming, which shall be deemed to be included within the definition of "gaming activities" hereunder.

Sec. 12.3. This Gaming Compact is subject to renegotiation in the event the Tribe wishes to engage in forms of class III gaming other than those games authorized or automatically included herein and requests renegotiation for that purpose, provided that, except for a change in law or a court ruling that establishes the right of the Tribe to engage in other forms of gaming, no such renegotiation may be sought for 12 months following the effective date of this Gaming Compact.

Sec. 12.4. Process and Negotiation Standards. All requests to amend or renegotiate shall be in writing, addressed to the State gaming agency, and shall include the activities or circumstances to be negotiated together with a statement of the basis supporting the request. If the request meets the requirements of this section, the parties shall confer promptly and determine a schedule for commencing negotiations within 30 days of the request. Unless expressly provided otherwise herein, all matters involving negotiations or other amendatory processes under this section shall be governed, controlled, and conducted (a) in conformity with the provisions and requirements of IGRA, including those provisions regarding the obligation of the State to negotiate in good faith and the enforcement of that obligation in federal court, as to which obligation and actions in federal court the State hereby agrees and consents to be sued in that court system, and (b) in conformity with the authority of the Secretary of the Interior to adopt procedures for the Tribe's engagement in

class III gaming if no agreement in a Gaming Compact can be reached and the State has failed to negotiate in good faith. The Chairperson of the Tribe and the Governor of the State are hereby authorized to designate the person or agency responsible for conducting the negotiations, and shall execute any documents necessary as a result thereof.

Sec. 13.0. NOTICES. Unless otherwise indicated by this Gaming Compact, all notices required or authorized to be served shall be served by first-class mail at the following addresses:

State Capitol
Sacramento, California

Tribal Chairperson
[Formal Name of Tribe]

Sec. 14.0. SEVERABILITY. In the event that any section or provision of this Gaming Compact is held invalid, or its application to any particular activity is held invalid, it is the intent of the parties that the remaining sections of this Gaming Compact continue in full force and effect, provided that, in the event provisions must be added to this Gaming Compact in order to preserve the intentions of the parties in light of that invalidity, the parties shall promptly negotiate those provisions in good faith.

Sec. 15.0. CHANGES IN IGRA. This Gaming Compact is intended to meet the requirements of IGRA or any successor statute, as in effect on the date this Gaming Compact becomes effective. Subsequent changes to IGRA that diminish the rights of the State or the Tribe may not be applied retroactively to this Gaming Compact, except to the extent that federal law validly mandates that diminishment without the State's or the Tribe's respective consent.

Sec. 16.0. MISCELLANEOUS

Sec. 16.1. The parties agree that, in order to further the intent of the parties and the goals of the Act, and to implement this Gaming Compact in a manner consistent therewith, this Gaming Compact shall be amended by mutual consent, arrived at as the result of good faith negotiations, if necessary to clarify or effectuate the goals and intent of this Gaming Compact and the Act, to the extent that the goals and intent are not addressed, or are ambiguously or incompletely provided for herein, provided that nothing in this section may delay the effective date or implementation of this Gaming Compact.

Sec. 16.2. Any State agency or other subdivision of the State providing regulatory or other services to the Tribe pursuant to this Gaming Compact shall be entitled to reimbursement from the Tribe for the actual and reasonable cost of those services, and the Tribe shall promptly pay that reimbursement to that agency or subdivision upon receipt of itemized invoices therefor. Any disputes concerning the reasonableness of any claim for reimbursement shall be resolved in accordance with the dispute resolution procedures set forth in Section 9.0.

Sec. 16.3. This Gaming Compact sets forth the full and complete agreement of the parties and supersedes any prior agreements or understandings with respect to the subject matter hereof.

Governor

98005. The Gaming Compact offered in Section 98004 shall, to the extent permitted by law, be deemed agreed to, approved, and executed by the State of California in the event a request therefor is duly made by a federally recognized Indian tribe in accordance with Section 98002 and it is not executed by the Governor within the time prescribed in this chapter, provided that, in the event this provision is deemed to be unlawful or ineffective for any reason, or if the tribe in its discretion seeks to compel execution of the Gaming Compact through court action, the State of California hereby submits to the jurisdiction of the courts of the United States in any action brought against the state by any federally recognized Indian tribe asserting any cause of action arising from the state's refusal to execute the Gaming Compact offered in Section 98004 upon a tribe's request therefor. Without limiting the foregoing, the State of California also submits to the jurisdiction of the courts of the United States in any action brought against the state by any federally recognized California Indian tribe asserting any cause of action arising from the state's refusal to enter into negotiations with that tribe for the purpose of entering into a different Tribal-State compact pursuant to IGRA or to conduct those negotiations in good faith, the state's refusal to enter into negotiations concerning the amendment of a Tribal-State compact to which the state is a party, or to negotiate in good faith concerning that amendment, or the state's violation of the terms of any Tribal-State compact to which the state is or may become a party.

98006. The gaming authorized pursuant to this chapter, including, but not limited to, the gaming authorized pursuant to the Gaming Compact set forth in Section 98004, is not subject to any prohibition in state law now or hereafter enacted. Without limiting the foregoing, and notwithstanding any other provision of law, the following forms of gaming specifically are permitted and authorized to be conducted on Indian lands by a tribe that has entered into a Tribal-State compact with the state pursuant to this chapter, IGRA, or any other law:

(a) Any card games that were operated on any Indian reservation in California on or before January 1, 1998, provided that, with respect to card games that are not within class II of IGRA (which class II games are not affected by this chapter), those card games shall pay prizes solely in accordance with a players' pool prize system in which one or more segregated pools of funds that have been collected from player wagers are irrevocably dedicated to the prospective award of prizes in those card games or other lottery games, promotions, or contests and in which the house neither has acquired nor can acquire any interest. The tribe may set and collect a fee from players on a per play, per amount wagered, or time-period basis, and may seed the pools in the form of loans or promotional expenses, provided that the seeding is not used to pay prizes previously won.

(b) Any gaming or gambling device, provided that the devices do not dispense coins or currency and are not activated by handles, and prizes therefrom are awarded solely from one or more segregated pools of funds (1) that have been collected from player wagers, (2) that are irrevocably dedicated to the prospective award of prizes in such games or in other lottery games, contests, tournaments, or prize pool promotions, and (3) in which the house neither has acquired nor can acquire any interest. The tribe may set and collect a fee from players on a per play, per amount wagered, or time-period basis, and may seed the pools in the form of loans or promotional expenses, provided that the seeding is not used to pay prizes previously won. The introduction, possession, manufacture, repair, or transportation of gaming devices that are authorized by the terms of any Tribal-State gaming compact between the State of California and any federally

recognized Indian tribe exercising jurisdiction over Indian lands in California is lawful in this state.

(c) The operation of any lottery game, including, but not limited to, drawings, raffles, match games, and instant lottery ticket games.

98007. If any provision of this chapter or the application thereof to any person or circumstance is held invalid, that invalidity may not affect other provisions or applications of this chapter that can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

98008. The Governor is authorized and directed to execute any documents that may be necessary to implement this chapter.

98009. The provisions of the Gaming Compact set forth in Section 98004 are hereby incorporated into state law, and all gaming activities, including but not limited to gaming devices, authorized therein are expressly declared to be permitted as a matter of state law to any Indian tribe entering into the Gaming Compact in accordance with this chapter.

98010. Nothing in this chapter may be construed to limit the ability of a federally recognized Indian tribe to request that a Tribal-State compact be negotiated with the state on terms that are different from those set forth in the Gaming Compact under this chapter, or the ability of the state to engage in those negotiations and to reach agreement under IGRA. Nothing in this chapter may be construed to mean that, in offering the Gaming Compact to Indian tribes in California under Section 98004, and, except for assessments by the state as provided therein of such amounts as are necessary to defray its costs of regulating activities as provided under the Gaming Compact, (a) the state is imposing any tax, fee, charge, or other assessment upon an Indian tribe or upon any other person or entity authorized by an Indian tribe as a condition to engaging in a class III activity, or (b) the state is refusing to enter into Tribal-State compact negotiations based upon the lack of authority of the state, or of any political subdivision of the state, to impose such a tax, fee, charge, or other assessment.

98011. No amendment to the Gaming Compact as provided for therein or under this chapter requires further approval by the Legislature or the electorate.

98012. This chapter may be amended by a two-thirds vote of the Legislature, but only to further the purposes of this Act.

Article 2. Kindergarten Through 12th Grade School Facilities Fiscal Provisions

100425. (a) Bonds in the total amount of six billion seven hundred million dollars ($6,700,000,000), not including the amount of any refunding bonds issued in accordance with Section 100444, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

100427. The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee

on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers and duties imposed upon those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide the assistance to the committee as it may require. The Attorney General of the state is the legal adviser of the committee.

100430. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the 1998 State School Facilities Fund.

100432. Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100415 and 100420, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100434. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

100435. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100440, appropriated without regard to fiscal years.

100436. The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall

be deposited in the fund to be allocated by the board in accordance with this chapter.

100438. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

100440. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 1998 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

100442. All money deposited in the 1998 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100444. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100446. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

Chapter 3. Higher Education Facilities

Article 1. Program Provision

100450. The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, the Hastings College of the Law, the California State University, the California Community Colleges, and their respective off-campus centers. Each

of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the California Postsecondary Education Commission, the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs. Those studies demonstrate that the long-term and short-term needs total, in the aggregate, seven hundred fifty million dollars ($750,000,000) per year into the next century.

(d) Proceeds from the sale of bonds issued and sold pursuant to this chapter may be used to fund construction on existing or new campuses and off-campus centers, including the construction of buildings and the acquisition of related fixtures, the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings at the University of California, the Hastings College of the Law, the California State University and the California Community Colleges.

(e) The purposes of this article include assisting in meeting the capital outlay financing needs of California's public higher education system.

100455. (a) Two billion five hundred million dollars ($2,500,000,000) of the proceeds of bonds issued and sold pursuant to this part shall be deposited in the 1998 Higher Education Capital Outlay Bond Fund which is hereby established in the State Treasury. These funds shall be available for expenditure when appropriated.

(b) One billion two hundred fifty million dollars ($1,250,000,000) of the bonds described in subdivision (a), shall only be issued and sold pursuant to this chapter on or after July 1, 2000.

100457. (a) Of the amount of bonds issued and sold pursuant to subdivision (b) of Section 100455, one hundred sixty-five million dollars ($165,000,000) shall be allocated in the 2000–01 fiscal year to be available only for the following purposes:

(1) The development of new campuses of the University of California.

(2) The development of new campuses, small campuses with enrollments of less than 5,000 full-time equivalent students, and off-campus centers at the California State University and the California Community Colleges.

(b) The amount of the allocation of funds required pursuant to this section for the development of new campuses may be reduced by a future legislative act if the Legislature finds that state funds have been provided from sources other than the proceeds of bonds for capital outlay costs. The reduction shall be limited to the amount actually provided from sources other than bond proceeds.

100460. The Higher Education Facilities Finance Committee established pursuant to Section 67353 is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of providing funds to aid the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges.

Article 2. Higher Education Fiscal Provisions

100500. (a) Bonds in the total amount of two billion five hundred million dollars ($2,500,000,000), not including the amount of any refunding bonds issued in accordance with Section 100555, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense

Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

100510. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) For the purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 1998 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded pursuant to this chapter.

(c) The proceeds of the bonds issued and sold pursuant to this chapter shall be available for the purpose of funding aid to the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges, for the construction on existing or new campuses, and their respective off-campus centers, including the construction of buildings and the acquisition of related fixtures, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, for the equipping of new, renovated, or reconstructed facilities, which equipment shall have a useful life of at least 10 years, to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings.

100520. The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100525. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

100530. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100545, appropriated without regard to fiscal years.

100535. The board, as defined in subdivision (b) of Section 100510, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 100510, shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

100540. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

100545. (a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 1998 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, by the 2002–03 fiscal year, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

100550. All money deposited in the 1998 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold

shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100555. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100560. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

7. **Air Quality Improvement. Tax Credits.**

[Submitted by the initiative and rejected by electors November 3, 1998.]

PROPOSED LAW

CALIFORNIA AIR QUALITY IMPROVEMENT ACT

SECTION 1. This act shall be known and may be cited as the California Air Quality Improvement Act of 1998.

SEC. 2. Part 10 (commencing with Section 44475.1) is added to Division 26 of the Health and Safety Code, to read:

PART 10. CALIFORNIA AIR QUALITY IMPROVEMENT PROGRAM

CHAPTER 1. FINDINGS, DEFINITIONS, AND PURPOSES

44475.1. The people of the State of California hereby find and declare all of the following, and state that to achieve and implement these findings and declarations is the intent and purpose of this measure:

(a) Air quality standards have been adopted to protect public health and the quality of life in California. In the interest of protecting every Californian's health and quality of life, it is necessary that California public agencies improve air quality by offering incentives for meeting mandated air quality standards as expeditiously as possible.

(b) Californians are acting now, by enacting this part, to encourage innovative programs that will help pay for the improvements necessary to improve California's air quality.

(c) Using tax credits to pay for the incremental costs of improved air pollution control technology that is not otherwise required by law or regulation is a cost-effective way to improve public health and environmental quality.

(d) California must substantially reduce air pollution from existing heavy-duty trucks and buses; construction, marine, and farming equipment; engines; locomotives; vessels; wildfires; outdoor burning of agricultural waste and rice straw; wood smoke from inefficient stoves and fireplaces; and ambient ground-level air pollution. Unless these existing sources of air pollution are reduced, the air quality improvements accomplished through the gradually increased use of new cleaner vehicles and equipment will not be sufficient to clean up California's air quickly enough to protect public health.

(e) Public transportation improves air quality. It is appropriate to protect and maintain funding for public transportation.

(f) Advanced technologies, like fuel cells, with great potential for improving air quality and reducing energy consumption, deserve public support in order to enter the market. Voluntary, incentive-based programs are needed to introduce these technologies.

(g) Notwithstanding the enactment of this part, the existing authority and duty of the State Air Resources Board and air quality districts continues to be to adopt technologically feasible and cost-effective control measures to reduce emissions from all sources subject to the jurisdiction of the state board or the districts, including sources described in this part, in order to achieve state and federal air quality standards as expeditiously as possible and to gain the air quality improvements so urgently needed by all Californians.

44475.2. As used in this part, the following terms have the following meanings:

(a) "Agricultural waste" means any vegetative materials grown pursuant to agricultural practices that otherwise would be burned in an outdoor, unenclosed situation. "Agricultural waste" does not include waste from forests or waste from timber harvesting governed by the Z'berg-Nejedly Forest Practices Act of 1973 (Chapter 8 (commencing with Section 4511) of Part 2 of Division 4 of the Public Resources Code).

(b) "District" means a district as defined in Section 39025.

(c) "Emissions reduction" means the reduction or elimination of emissions as compared to a baseline emissions rate, and the reduction, elimination, or removal of pollutants from the atmosphere.

(d) "Emissions" means emissions of pollutants into the air.

(e) "Engine" means an engine or a motor.

(f) "Entitlement" means a contract, franchise, license, permit, or other authorization granted by a local public agency to a person providing an essential public service.

(g) "Heat exchanger" means equipment that transfers heat and provides cooling, including an air conditioner unit, radiator, refrigeration unit, or similar air cooling device.

(h) "Light rail" means an urban rail transit system that is powered from overhead catenary wires.

(i) "Local public agency" means a city, county, or city and county; a public transit or transportation district or other transportation agency; a school

district; or any other special-purpose district other than a district as defined in subdivision (b).

(j) "NO_x" means oxides of nitrogen regulated under state or federal law.

(k) "Person" means a person as defined in Section 19.

(l) "Pollutant" means any substance for which the state board or the United States Environmental Protection Agency has adopted an ambient air quality standard, or a precursor to a substance for which an ambient air quality standard has been adopted. For the purposes of this part only, this definition supersedes the definition of "air pollutant" in Section 39013.

(m) "Project" means a purchase, retrofit, repower, or operational change to cause an emissions reduction.

(n) "Repower" or "repowering" means replacing an engine with a cleaner engine. The term generally refers to replacing an older engine without pollution control with a new, emissions-certified engine, although repowering may include replacing an older emissions-certified engine with a newer engine certified to lower emissions standards.

(o) "Retrofit" means making modifications to an existing engine, emission control system, exhaust system, heat exchanger, or fuel system so that the retrofitted engine or equipment has significantly lower emissions than the original engine or equipment, or removes pollutants from the atmosphere.

(p) "State board" means the State Air Resources Board created pursuant to Part 2 (commencing with Section 39500) of this division.

(q) "Toxic air contaminant" means toxic air contaminant as defined in Section 39655.

(r) "Vessel" means every type of watercraft, as defined in subdivision (a) of Section 9840 of the Vehicle Code, that is not required to be registered pursuant to the Vehicle Code because that vessel has a valid marine document issued by the United States Bureau of Customs or any successor federal agency. "Vessel" does not mean a vessel of the United States, of any other state or political subdivision thereof, or of a municipality of another state. For the purpose of this part only, the definition in this subdivision supersedes the definition of "marine vessel" in Section 39037.1. The state board may expand this definition by regulation to include categories of vessels that are subject to registration pursuant to the Vehicle Code if the state board determines that making the tax credit available would be a cost-effective method of reducing emissions from those vessels.

Chapter 2. Administration of the Program

44475.5. (a) The state board shall administer this part, and shall adopt all necessary regulations to implement this part, which creates a program for awarding tax credits and issuing certificates pursuant to Section 17052 or 23630 of the Revenue and Taxation Code to provide incentives for reducing emissions. The state board shall adopt regulations for selecting projects pursuant to this part, consistent with the intent, purpose, and requirements of this part.

(b) The state board may delegate to any district, pursuant to regulation or a memorandum of understanding, all or a specific part of its authority to award tax credits pursuant to Sections 44475.23, 44475.25, 44475.26, 44475.28, 44475.29, 44475.30, and 44475.33. Any district that is delegated this authority shall comply with this part and the state board's regulations to ensure that the district awards tax credits consistently with the requirements of this part and applicable provisions of the Revenue and Taxation Code. All tax credit certificates shall be issued solely by the state board. The state board shall assure that districts comply with the limits on tax credits that may be awarded pursuant to Section

44475.57 and with the other provisions of this part. The state board may rescind its delegation on finding that a district has not met any of the requirements of this part.

(c) The state board may authorize districts to assist in implementing this part, including, but not limited to, conducting local inspections, monitoring, and promoting the tax credit program.

(d) Consistent with the allocation of tax credits in Section 44475.57, the state board may, in its regulations, establish priorities and criteria for the reduction of emissions based on the specific air quality attainment needs of each district.

(e) Any regulation required by this part shall be initially adopted no later than June 1, 1999, and may be amended by the state board from time to time thereafter.

(f) Notwithstanding any other provision of law, the state board, when adopting initial regulations pursuant to this part that are subject to the deadline specified in subdivision (e), may, after at least one public hearing, adopt the regulations without review by the Office of Administrative Law if the state board makes a finding that the deadlines created by this part necessitate the adoption of the regulations within exceptionally short time periods during which review by the Office of Administrative Law would be impracticable and would prevent the timely implementation of this part in accord with the expectations of the voters and taxpayers that the tax credits authorized by this part will be available in the 1998–99 fiscal year.

(g) Except as provided in subdivision (f), any other regulation or order of repeal adopted pursuant to this part shall be otherwise subject to review by the Office of Administrative Law pursuant to Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(h) The state board may use existing regulations to implement this part to the extent that they meet the requirements of this part.

44475.6. (a) The state board shall develop simple, standardized application packages for tax credits authorized by this part. The application packages shall include an application form, a brief description of the program, project eligibility criteria, the dollar value of tax credits available, descriptions of the selection criteria and evaluation process, specification of the documentation required, and a sample of the contract that applicants will be required to execute before being awarded a tax credit. The state board shall establish procedures to simplify and make understandable the application process for those seeking tax credits. The application package shall also explain how to obtain additional information about the program from the state board.

(b) Each applicant shall describe its project in sufficient detail, and submit any necessary information and supporting documentation not already in the possession of, or otherwise readily available to, the state board, for the state board properly to calculate the emissions reductions expected from the project and to evaluate the project using applicable project selection criteria. The applicant shall specify the dollar value of the tax credit needed for the applicant to undertake the project. An applicant may voluntarily provide any additional information about the emissions reduction potential of the project.

(c) The state board shall minimize the amount of information required to be submitted, and the amount of information required shall be related to the size, complexity, and uniqueness of the project. To minimize information required from applicants, the state board may rely on information from manufacturers,

distributors, suppliers, and installers; test data; and reasonable estimates of average emissions reductions.

(d) The first application packages shall be finalized and available for distribution by the state board not later than June 1, 1999.

(e) For categories of projects with substantially uniform emission and cost characteristics and large numbers of potential applicants, the state board shall establish standardized applications that simplify filing by those applicants.

44475.7. (a) Unless otherwise specified in this part, a manufacturer, distributor, supplier, installer, purchaser, or end user may apply for the tax credit authorized by this part. The state board may by regulation further define and clarify categories of eligible applicants.

(b) A tax credit for a single project may be awarded once and only to a single applicant, even though the project may have involved the participation of several potential applicants in the course of manufacturing, distributing, supplying, installing, and using the project. For each project for which a tax credit is awarded pursuant to this part, the state board shall specify in the certificate the California taxpayer awarded the tax credit.

(c) Notwithstanding subdivision (b), a conversion facility utilizing agricultural waste or rice straw shall be the only entity that may apply for a tax credit pursuant to Section 44475.30 or 44475.33, as the case may be.

(d) Notwithstanding any other provision of law, any tax credit awarded pursuant to this part may be used by any member of the taxpayer's unitary group.

44475.8. The state board shall require a manufacturer, installer, authorized dealer of the manufacturer, or distributor of vehicles or equipment eligible for a tax credit pursuant to this part to provide a reasonable warranty for the vehicles or equipment, if a warranty is reasonably necessary to protect the consumers or users of the vehicles or equipment.

44475.9. (a) No project is eligible under this part if it is required pursuant to the Federal Energy Policy Act of 1992, or by any local, state, or federal air quality statute, rule, or regulation in effect on the date the tax credit is to be awarded.

(b) Notwithstanding subdivision (a), the state board may award a tax credit for an otherwise qualified application even if the State Implementation Plan assumes that the project will occur, so long as the project is not required by a statute or regulation in effect on the date the tax credit is to be awarded.

(c) Emissions reductions resulting from a project awarded a tax credit pursuant to this part may not be used under any local, state, or federal emissions averaging or trading program to offset or reduce any emissions reduction obligation of any person effective at the time the tax credit was awarded. Emissions reductions resulting from a project awarded a tax credit pursuant to this part may not be banked under any local, state, or federal emissions banking program.

(d) Tax credits may not be awarded pursuant to this part for projects that are recipients of grants, loans, or other tax credits for the same costs paid for through any other government programs. However, in order to provide adequate incentives for projects, the state board may authorize the awarding of tax credits in combination with other government assistance programs if it determines that the recipient is a public agency and that the financial assistance was for a purpose other than emissions reduction, or if it determines that the dollar value of the tax credit that otherwise would be awarded pursuant to this part can be

reduced in proportion to the dollar value of the financial assistance provided by the other government program. This subdivision does not prohibit the awarding of tax credits for the operation or improvement of existing structures, facilities, vehicles, or equipment whose construction or purchase was undertaken with government financial assistance.

(e) Because other regulatory requirements apply to conversion facilities that utilize agricultural waste and rice straw, and are an effective substitute for the requirements of subdivisions (a) and (c), subdivisions (a) and (c) do not apply to projects for the utilization of agricultural waste or rice straw that meet the requirements of Section 44475.30 or 44475.33.

44475.10. (a) The state board shall develop standard-form long-term contracts for awarding tax credits for agricultural waste or rice straw conversion facilities that meet the requirements of Section 44475.30 or 44475.33 and for other categories of projects that the state board determines should be awarded tax credits pursuant to a long-term contract. If the facility or project is awarded a tax credit, the state board shall enter into a long-term contract with the applicant for the tax credit for the facility or project to assure stability for a term sufficient to encourage long-term presence in the market. The term of the long-term contract for agricultural waste or rice straw conversion facilities shall be for up to 10 years. The long-term contract shall specify the conditions applicable to the award of the tax credit and shall obligate the recipient of the tax credit to take the actions described in the application.

(b) The state board shall develop a simple contract for the award of tax credits for categories of projects for which a long-term contract is not necessary. The contract shall specify the conditions applicable to the award of the tax credit and shall obligate the recipient of the tax credit to take the actions described in the application.

(c) Once a tax credit certificate is issued, it may not be disallowed or revoked for the sole reason that the change in equipment, vehicles, or operations for which the tax credit had been awarded, is later required by statute or regulation.

44475.11. (a) This part does not require any person or local public agency to use the tax credit program established by this part. Any participation in the tax credit program shall be voluntary.

(b) The state board shall institute an outreach program to inform potential participants, technology suppliers and vendors, engine and equipment dealers and distributors, vehicle fleet operators, industry organizations and publications, local public agencies, rail and port organizations, and the public of the availability of tax credits pursuant to this part and of the requirements and objectives of the program. The state board shall vigorously recruit potential applicants and publish examples of successful projects.

44475.12. No later than June 1, 1999, and prior to the award of any tax credits pursuant to this part, the state board shall adopt regulations establishing procedures to monitor whether the emissions reductions for which tax credits were awarded are actually being achieved. Monitoring procedures may include a requirement, as part of the contract between the state board and the tax credit recipient, that the manufacturer, distributor, or installer of the relevant vehicle or equipment, or the recipient of the tax credit provide the state board with information about the project on an annual basis. The costs of monitoring may be included in the amount of the tax credit. Information required from tax credit recipients shall be minimized and the format for reporting the information shall be made simple and convenient. Monitoring requirements included in

a contract signed pursuant to the award of a tax credit may be changed only pursuant to an amendment to the contract that is agreed to by the state board and the person awarded the tax credit. The state board may revise the program monitoring procedures as appropriate to enhance program effectiveness and the enforcement of this section.

44475.13. The tax credits awarded pursuant to this part are not gifts of public funds to private parties, but, rather, are awarded in consideration of emissions reductions and benefits to public health and the environment that otherwise would not be realized in a timely manner, without regard to whether the ownership of the vehicles, engines, or equipment is public or private.

44475.14. Notwithstanding any other provision of law, the sum of four million three hundred fifty thousand dollars ($4,350,000) is hereby appropriated from the General Fund to the state board in each fiscal year, commencing with the 1998–99 fiscal year and concluding with the 2010–11 fiscal year, for the administration of this part, including allocations of funds to any district delegated responsibility under this part and allocations for the purposes of Section 42314.6. The program responsibility conferred by this part on the state board is entirely new and in addition to the existing responsibilities of the state board and the districts and may not be financed, wholly or partly, by the reduction or reallocation of funds appropriated to support those existing responsibilities.

Chapter 3. Project Eligibility Criteria

44475.15. (a) The state board shall establish a standard of cost-effectiveness for each category of project included in this chapter, expressed in dollars per ton of emissions reduced or pollutants removed from California's atmosphere, calculated pursuant to this section.

(b) The state board shall establish by regulation reasonable methodologies for evaluating project cost-effectiveness, taking into account the degree to which the emissions reductions can be quantified with certainty, the durability and reliability of emissions reductions, timeliness and availability of projects, a fair and reasonable discount rate or time value of public funds, and other factors necessary to achieve the intent and purposes of this part. Where applicable, these methodologies shall be consistent with cost-effectiveness methodologies already published or used by the state board. For projects in the same category that provide reductions of more than one pollutant or that reduce different pollutants, the state board shall establish methodologies for evaluating the total cost-effectiveness of the projects based on the relative public health and environmental importance of reducing each pollutant. The state board shall assess the emissions of toxic air contaminants from each project. Between projects that have similar cost-effectiveness in emissions reduction, the state board shall give preference to projects with greater reductions in emissions of toxic air contaminants.

(c) Subdivisions (a) and (b) do not apply to research and development projects as described in Section 44475.27, pilot and demonstration projects for which tax credits are authorized pursuant to subdivision (b) of Section 44475.57, or agricultural waste and rice straw utilization projects as described in Sections 44475.30 and 44475.33.

(d) Cost-effectiveness calculations shall be made by the state board as part of the evaluation of each application and may not be required as a part of the application for a tax credit. However, an applicant may voluntarily submit cost-effectiveness information. The cost-effectiveness calculations shall be based on the dollar value of the tax credits requested by the applicant, and the state board

and the applicant may not recalculate or revise the dollar value of tax credits from the amount requested in the application.

(e) The state board shall establish by regulation reasonable methodologies for evaluating project cost-effectiveness for projects eligible for a tax credit pursuant to Section 44475.30 or 44475.33, which shall be measured by the decrease in the number of tons of material diverted from agricultural waste or rice straw burning per dollar of tax credit, taking into account the degree to which the emissions reductions can be quantified with certainty, the durability and reliability of emission reductions, timeliness and availability of projects, a fair and reasonable discount rate or time value of public funds, and other factors necessary to achieve the intent and purposes of this part. Where applicable, these methodologies shall be consistent with cost-effectiveness methodologies already published or used by the state board. The state board shall give preference to projects that have the greatest decrease in number of tons of material from agricultural waste or rice straw burning per dollar of tax credit accepted by the agricultural waste or rice straw conversion facility receiving the tax credit and that maximize the reduction of outdoor, unenclosed burning of agricultural waste or rice straw. The state board shall take into account the incentives needed to transport the waste from farms to the facility.

(f) For categories of projects with substantially uniform emission and cost characteristics and large numbers of potential applicants, the state board shall establish standardized tax credit allocations based on estimates of average cost-effectiveness for all or a portion of the projects within a category that meet criteria specified by the state board. The standardized tax credit allocations shall meet the requirements of subdivision (b) and be designed to maximize the reduction in emissions from each category of projects consistent with the amount of tax credits allocated pursuant to Section 44475.57. Standardized tax credit allocations may not be established for research and development projects, as described in Section 44475.27, or for pilot and demonstration projects, as described in subdivision (b) of Section 44475.57.

(g) In calculating cost-effectiveness pursuant to this section, the state board may use reasonable estimates of emissions reductions in the absence of in-use or test data. In determining baseline emissions levels for vehicles or equipment, the state board shall use actual in-use emissions data whenever possible, but may use reasonable estimates of in-use emissions, or certification levels if sufficient in-use emissions data are not available. The state board shall accept and consider public comments in developing acceptable estimating methods for the purposes of this subdivision.

(h) Draft regulations implementing this section shall be issued no later than February 1, 1999.

44475.16. Commencing with the 1999–2000 biennium and no less frequently than every two years thereafter, the state board shall review technical data for stationary and portable equipment, engine, vehicle, and other technologies that are eligible for the award of tax credits to determine whether the criteria for projects eligible to be awarded tax credits should be revised to adjust the required amount of reduction in emissions compared with baseline equipment, engines, or vehicles certified as meeting prevailing emissions standards. After completing its review of available emission reduction technologies and their costs, the state board may revise the standard for cost-effectiveness by amending the regulations adopted pursuant to Section 44475.15 to improve the ability of the tax credits to serve as an incentive for the use of those technologies. A change in the standard

of cost-effectiveness made pursuant to this section may not require a change in, or affect the validity of, any contract already entered into by the state board or a district.

44475.17. The dollar value of a tax credit awarded pursuant to this part may be prorated by the state board to reflect an estimate of the amount of time the vehicle or equipment is actually operated in California, relative to its total estimated operating time. The state board may require owners or operators of vehicles or equipment awarded tax credits pursuant to this part to certify to the state board their compliance with this section, using fuel purchase receipts or other documentation required by the state board.

44475.20. (a) (1) To expedite the acquisition of cleaner buses and other heavy-duty fleet vehicles with cleaner engines that are owned by or used pursuant to a contract or other entitlement entered into with or granted by a local public agency, the local public agency or person providing an essential public service pursuant to the contract or other entitlement may apply to the state board for the award of a tax credit for the purchase or lease of buses or other heavy-duty fleet vehicles that emit substantially less pollutants than those vehicles whose emissions equal those allowable under current emissions standards as specified in paragraph (2). Up to 10 percent of the tax credits authorized for allocation pursuant to this section may be used to purchase or lease light rail vehicles. Tax credits may not be awarded for projects to acquire rights-of-way, install track, provide power systems, or acquire or construct any other infrastructure to support light rail transit.

(2) The state board shall establish the standard for cost-effectiveness, determined pursuant to Section 44475.15, to expedite the purchase or lease pursuant to this section of the cleanest vehicles that are feasible. The vehicles shall be able to meet normal safety and other requirements and practices for the intended use of the vehicles. To be eligible, each application for a tax credit shall document to the satisfaction of the state board an NO_x emissions reduction of at least 50 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 50 percent and no increase in NO_x emissions beyond a negligible amount, or a combined reduction in NO_x and particulate emissions of at least 60 percent.

(3) The state board shall award the tax credit to either the person selling or leasing the vehicles to the local public agency, the person selling the vehicles to the person that has the contract or other entitlement from the local public agency, or the person that has the contract or other entitlement from the local public agency.

(b) (1) To expedite the retrofit and repower of buses and other heavy-duty fleet vehicles owned by or used pursuant to a contract or other entitlement entered into with or granted by a local public agency, the local public agency or person providing an essential public service pursuant to the contract or other entitlement may apply to the state board for the award of a tax credit for the retrofit or repower of buses or other heavy-duty fleet vehicles to substantially reduce emissions of pollutants from those vehicles as specified in paragraph (2).

(2) The state board shall establish the standard for cost-effectiveness determined pursuant to Section 44475.15, to expedite pursuant to this section the cleanest feasible retrofit or repower of vehicles. The vehicles shall be able to meet normal safety and other requirements and practices for the intended use of the vehicles. Until June 30, 2004, each application for a tax credit shall document

to the satisfaction of the state board an NO_x emissions reduction of at least 40 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 20 percent and a decrease in NO_x emissions of at least 20 percent. On and after July 1, 2004, each application shall document to the satisfaction of the state board an NO_x emissions reduction of at least 50 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 50 percent and no increase in NO_x emissions beyond a negligible amount, or a combined reduction in NO_x and particulate emissions of at least 60 percent.

(3) The state board shall award the tax credit to either the person retrofitting or repowering the vehicles for the local public agency, or the person retrofitting or repowering the vehicles for the person that has the contract or other entitlement from the local public agency, or the person that has the contract or other entitlement from the local public agency.

(c) In awarding pilot and technology demonstration tax credits pursuant to this section and subdivision (b) of Section 44475.57, the state board shall give preference to projects that develop technologies that deliver substantial reductions in emissions of multiple pollutants and that offer the greatest likelihood of commercial viability.

44475.21. (a) (1) Notwithstanding subdivision (a) of Section 44475.11, to expedite the acquisition of cleaner state agency heavy-duty fleet vehicles, all state agencies authorized to purchase or lease heavy-duty fleet vehicles shall apply to the state board for tax credits, on behalf of vendors and lessors, for the purchase or lease of state vehicles that emit substantially less pollutants than those vehicles in the existing operating fleet of comparable vehicles whose emissions equal those allowable under current emissions standards that apply to those vehicles.

(2) The state board shall establish the standard for cost-effectiveness determined pursuant to Section 44475.15, to expedite pursuant to this section the purchase or lease of the cleanest vehicles that are feasible. The vehicles shall be able to meet normal safety and other requirements and practices for the intended use of the vehicles. To be eligible, each application for a tax credit shall document to the satisfaction of the state board an NO_x emissions reduction of at least 50 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 50 percent and no increase in NO_x emissions beyond a negligible amount, or a combined reduction in NO_x and particulate emissions of at least 60 percent.

(3) The state board shall award the tax credits to the persons selling or leasing the vehicles to the state agencies.

(b) (1) Notwithstanding subdivision (a) of Section 44475.11, to expedite the retrofit and repower of heavy-duty fleet vehicles operated by state agencies, state agencies shall apply to the state board for tax credits, on behalf of persons retrofitting or repowering state vehicles, to substantially reduce emissions of pollutants from those vehicles as specified in paragraph (2).

(2) The state board shall establish the standard for cost-effectiveness determined pursuant to Section 44475.15, to expedite pursuant to this section the cleanest feasible retrofit or repower of vehicles. The vehicles shall be able to meet normal safety and other requirements and practices for the intended use of the vehicles. Until June 30, 2004, each application for a tax credit shall document to the satisfaction of the state board an NO_x emissions reduction of at least 40 percent and no increase in particulate emissions beyond a negligible amount, or

a particulate emissions reduction of at least 20 percent and a decrease in NO_x emissions of at least 20 percent. On and after July 1, 2004, each application shall document to the satisfaction of the state board an NO_x emissions reduction of at least 50 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 50 percent and no increase in NO_x emissions beyond a negligible amount, or a combined reduction in NO_x and particulate emissions of at least 60 percent.

(3) The state board shall award the tax credits to the persons retrofitting or repowering the vehicles for state agencies.

44475.22. (a) The state board shall award tax credits to expedite the retrofit or repower of the vehicles and equipment described in subdivision (b).

(b) The following vehicles and equipment are eligible for a tax credit pursuant to this section:

(1) Motorized implements of husbandry, as defined in Division 16 (commencing with Section 36000) of the Vehicle Code, farm labor vehicles, and other motor vehicles, motorized equipment, and engines used in agricultural operations and not operated on highways.

(2) Buses that are not eligible for a tax credit pursuant to Section 44475.20 or 44475.21.

(3) Heavy-duty trucks with engines that have been certified under the heavy-duty engine standards of the state board or the United States Environmental Protection Agency.

(4) Motor vehicles, motorized equipment, and engines used in grading, excavation, and construction and not operated on highways.

(c) If certification of the retrofit kit or repower qualifications for a replacement engine is required by other provisions of law, the retrofit kit or repower qualifications shall be certified for sale and operation in California. The state board shall act on a certification application for a new retrofit kit or repower qualifications within one year after application by the manufacturer if at all feasible. Any certification otherwise required shall include certification for durability, which may be estimated based on reasonable criteria established by the state board.

(d) The reductions in emissions in each vehicle shall be as specified in this subdivision. Until June 30, 2004, each application for a tax credit shall document to the satisfaction of the state board an NO_x emissions reduction of at least 40 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 20 percent and a decrease in NO_x emissions of at least 20 percent. On and after July 1, 2004, each application for a tax credit shall document to the satisfaction of the state board an NO_x emissions reduction of at least 50 percent and no increase in particulate emissions beyond a negligible amount, or a particulate emissions reduction of at least 50 percent and no increase in NO_x emissions beyond a negligible amount, or a combined reduction in NO_x and particulate emissions of at least 60 percent.

44475.23. (a) To encourage conversion, retrofit, and repower of existing equipment at and near California ports that reduce emissions, the state board shall award tax credits for installing new, and retrofitting or repowering existing, engines and motorized equipment, or, pursuant to subdivision (b), changing operations of existing motorized equipment or vessels within a port.

(b) To the extent that operational changes in the speed or method of arriving at or departing from a port can be demonstrated to reduce emissions in a verifiable way, the state board may by regulation make those operational changes eligible

for a tax credit pursuant to this section. For operational changes, tax credits shall be awarded for a period of up to one year to the operator of the vessel on the basis of the cost-effectiveness of the operational change as determined pursuant to Sections 44475.15 and 44475.55.

44475.24. (a) To encourage the purchase of new, or the retrofit or repower of existing, locomotive engines and related equipment and to encourage operational changes that reduce emissions, the state board shall award tax credits based on the reduction of emissions resulting from the operational changes or the use of new, retrofit, or repowered locomotives or related equipment in California.

(b) The tax credit shall be awarded for the purchase of new, retrofit, or repowered locomotive engines and related equipment that are cleaner than comparable engines and equipment that meet existing federal standards.

(c) For operational changes in the use of existing locomotive engines and equipment, tax credits shall be awarded for a period of up to one year to the operator on the basis of cost-effectiveness of the operational change, as determined pursuant to Sections 44475.15 and 44475.55, and the operational changes shall be demonstrated to the satisfaction of the state board to reduce emissions in a verifiable way.

44475.25. (a) The purpose of this section is to reduce smoke and other visible emissions, particulates, and other emissions from hearth products, and to conserve energy.

(b) To expedite upgrading to clean burning and efficient hearth products and the retrofit of existing wood-fueled fireplaces and stoves, as described in subdivision (d), the state board shall award tax credits for the purchase of natural gas or propane-fueled hearth products; pellet-fueled hearth products; extremely clean, wood-fueled fireplace inserts, stoves, and built-in fireplaces; and extremely clean oil-fueled hearth products.

(c) A hearth product described in subdivision (d), when taken out of service and replaced by a hearth product described in subdivision (e), is eligible for a tax credit pursuant to this section.

(d) To qualify for the tax credit, the existing hearth product shall be taken out of service and traded in, and shall meet the following requirements:

(1) It is either a free-standing stove or fireplace insert or a "wood heater," as defined by the United States Environmental Protection Agency pursuant to the New Source Performance Standards for Residential Wood Heaters (40 C.F.R. Part 60, Subpart AAA), that is designed for the burning of cordwood or coal and was manufactured prior to 1988.

(2) It is still in usable condition.

(3) It will be disposed of to a metal recycler by the retailer offering the trade-in.

(e) To qualify for the tax credit, the new hearth product shall be one of the following types:

(1) An extremely clean wood-fueled stove, fireplace insert, or built-in fireplace that is certified by the United States Environmental Protection Agency.

(2) An extremely clean wood-fueled fireplace that meets the emissions standards established by the United States Environmental Protection Agency.

(3) A prefabricated wood-fueled fireplace that is a "nonaffected facility", as defined by the Environmental Protection Agency pursuant to 40 C.F.R. Part 60, Subpart AAA, and which demonstrates emissions at and below those approved by the Environmental Protection Agency.

(4) Any stove, fireplace, or built-in hearth product that is pellet-fueled.

(5) Any natural gas or propane-fueled stove, fireplace insert, or built-in fireplace with glass fronts for viewing the fire certified by the California Energy Commission as meeting one or more of the following test standards:

(A) Vented or direct vent gas room heater.

(B) Vented or direct vent gas wall furnace—gravity.

(C) Vented or direct vent gas wall heater—fan type.

(6) Any extremely clean oil-fueled hearth product that meets the federal efficiency standard for oil-fueled room heaters and provides a view of the fire.

(f) Hearth products described in paragraphs (1), (2), and (3) of subdivision (e) shall have at least a 10-year warranty for the combustion chamber and components affecting combustion emissions. At the discretion of the manufacturer, the warranty need not include paint, door gasket, glass window, and blower; abuse or misuse; or damage resulting from the use of inappropriate fuels, as determined by the manufacturer. If the product includes a catalytic converter, the warranty is not required to cover the catalytic converter, but the consumer of the product shall be given a spare catalytic converter at the time of sale.

(g) The state board shall give first priority to providing tax credits to accomplish the purposes of subdivision (c). If there is insufficient demand for tax credits pursuant to subdivision (c) in any fiscal year, the state board shall allocate the remaining tax credits from that fiscal year to the following two programs in the subsequent fiscal year:

(1) The conversion to, or replacement of existing wood-fueled fireplaces with, products listed in subdivision (e). Conversion of fireplaces by use of a wood, pellet, natural gas or propane, or oil-fueled insert shall include permanent conversion with an appropriate flue liner system listed by a nationally accredited third party recognized independent testing laboratory. The flue liner system shall connect from the hearth product to chimney termination.

(2) The installation of wood, pellet, natural gas or propane, or oil-fueled fireplaces or wood-fueled heaters in new construction if the hearth product meets the requirements of subdivision (e).

44475.26. The state board shall award tax credits for the purchase of new engines used in lawnmowers and other motorized landscaping or gardening equipment when the purchase is made in conjunction with trading in older, polluting two- and four-stroke engines used in lawnmowers and other landscaping or gardening equipment. The state board shall establish minimum standards to qualify for tax credits pursuant to this section to maximize emission reductions. The tax credit shall be sufficient to induce consumer participation in the program, but shall be awarded for less than the full cost of the new equipment. Tax credits may be awarded only if old equipment is traded in and taken out of service. The old equipment shall be disposed of to a recycler.

44475.27. The state board shall award tax credits for research on, and development and commercialization of, technologies that would facilitate emissions reductions from sources of pollutants described in this part and to persons who make contributions of money to publicly financed or nonprofit institutions to perform that research, development, and commercialization. Projects that are likely to reduce more than one pollutant and also improve energy efficiency shall be given highest priority. The technologies may include those subject to an experimental permit in California. To be eligible for the tax credit, the research, development, or commercialization shall have the potential to result in demonstrable public health or environmental benefits, or both.

44475.28. The state board shall award tax credits for the retrofit of existing, or the acquisition of new, stationary or portable equipment such as pumps and generators. New equipment shall have substantially lower emissions than required by current standards. Retrofit equipment shall emit substantially less emissions as a result of the retrofit. The tax credit shall be sufficient to induce consumer participation in the program, but shall be awarded for less than the full cost of the new equipment. The state board shall establish minimum standards to qualify for tax credits pursuant to this section to maximize emission reductions.

44475.29. To encourage the installation of equipment or devices to reduce ambient air pollution such as ozone from the atmosphere, the state board shall award tax credits for the installation or retrofitting of ambient air pollution destruction technology on heat exchangers. The state board shall establish reasonable methodologies for evaluating the cost-effectiveness of ambient air pollution destruction technology, taking into account the air quality benefits of ambient air pollution reductions considering population exposure.

44475.30. (a) The intent of this section is to reduce or eliminate smoke and other emissions resulting from the outdoor, unenclosed burning of agricultural waste. The state board shall award tax credits for agricultural waste conversion facilities that will either gasify the agricultural waste, convert it to usable chemicals or other products, or utilize it for the generation of electrical energy. The state board shall award tax credits to the facilities that utilize agricultural waste in an amount sufficient to cover, but not to exceed, the full reasonable cost of collection, sizing, delivery, and storage of this material. As provided in subdivision (c) of Section 44475.7, tax credits may be awarded only to the facilities described in this section. Tax credits may not be awarded for any land application of agricultural waste. In entering into a long-term contract for agricultural waste conversion projects, the state board may set a maximum tax credit per ton of agricultural waste delivered to the facility, and may establish different maximum amounts for different categories of agricultural waste. The state board shall calculate the full reasonable cost of collection, sizing, delivery, and storage of the agricultural waste to the closest operating facility. The amount of the tax credit shall be based on the tonnage of agricultural waste delivered to the facility and the amount of tax credit available for each ton.

(b) The state board shall develop criteria for selecting agricultural waste conversion projects based on the reduction or elimination of emissions from outdoor, unenclosed burning compared to the emissions at the agricultural waste conversion facility and associated transportation emissions. In ranking applications for tax credits to be awarded pursuant to this section, the state board shall first consider applications from those facilities using best available control technologies such as bag houses for particulate control and combustion technologies that minimize other emissions. The application for a tax credit pursuant to this section shall certify that the agricultural waste would otherwise have been burned outdoors, and not in any enclosure.

44475.31. To encourage the purchase of cleaner, new, heavy-duty trucks, motor vehicles, and engines of 50 horsepower or greater, the state board shall award tax credits for the purchase in California of a new heavy-duty truck, motor vehicle, or engine that has lower emissions than required by state or federal law on the basis of cost-effectiveness, as determined pursuant to Sections 44475.15 and 44475.55, subject to the following requirements:

(a) Applications for projects involving the purchase of new advanced technology engines or vehicles shall document to the satisfaction of the state

board an NO_x emissions reduction of at least 37.5 percent and no increase in particulate emissions beyond a negligible amount, or an NO_x emissions reduction of at least 25 percent and particulate emissions reduction of at least 25 percent compared to the emissions of a new engine or vehicle certified to the applicable baseline emissions standard for that engine or vehicle.

(b) On-road vehicles shall be greater than 14,000 pounds gross vehicle weight to be eligible for tax credits.

(c) All engines and vehicles shall be certified to the heavy-duty engine standards and test procedures specified by the state board.

(d) Engines and motor vehicles other than trucks shall be rated at 50 horsepower or more.

(e) For purposes of this section only, and notwithstanding Section 39033, "heavy-duty" means having a gross vehicle weight of greater than 14,000 pounds.

44475.32. To encourage the purchase of cleaner, new, off-road nonrecreational motor vehicles, and the replacement and retirement of older, more polluting, off-road nonrecreational motor vehicles, the state board shall award tax credits for the purchase of off-road nonrecreational motor vehicles in California on the basis of cost-effectiveness as determined pursuant to Sections 44475.15 and 44475.55. The state board shall establish minimum standards to qualify for tax credits to maximize emissions reductions. Only nonrecreational motor vehicles of less than 50 horsepower may qualify for tax credits pursuant to this section. The retired nonrecreational motor vehicle shall be disposed of to a recycler.

44475.33. (a) The intent of this section is to reduce or eliminate smoke and other emissions resulting from the outdoor, unenclosed burning of rice straw. The state board shall award tax credits for rice straw conversion facilities that will either gasify the rice straw, convert it to usable chemicals or other products (such as paper, livestock feed, or building materials), or utilize it for the generation of electrical energy. The state board shall award tax credits to facilities that utilize rice straw in an amount sufficient to cover, but not to exceed, the full reasonable cost of collection, delivery, sizing, and storage of the rice straw. As provided in subdivision (c) of Section 44475.7, tax credits may be awarded only to the facilities described in this section. Tax credits may not be awarded for any land application of rice straw. In entering into a long-term contract for rice straw conversion projects, the state board may set a maximum tax credit per ton of rice straw delivered to the facility. The state board shall calculate the full reasonable cost of collection, delivery, sizing, and storage of the rice straw to the closest operating facility. The amount of the tax credit shall be based on the tonnage of rice straw delivered to the facility and the amount of tax credit available for each ton.

(b) The state board shall develop criteria for selecting rice straw conversion projects based on the reduction or elimination of emissions from outdoor, unenclosed burning compared to the emissions at the rice straw conversion facility and associated transportation emissions. In ranking applications for tax credits to be awarded pursuant to this section, the state board shall first consider applications from those facilities using best available control technologies such as bag houses for particulate control and combustion technologies that minimize other emissions. The application for a tax credit pursuant to this section shall certify that rice straw otherwise would have ultimately been burned outdoors, and not in any enclosure, and that, consistent with the requirements

of subdivision (d) of Section 44475.9, awarding the tax credit will reduce air pollution by assisting in the implementation of Section 41865 and Chapter 4.5 (commencing with Section 39750) of Part 2.

CHAPTER 4. GENERAL PROGRAM REQUIREMENTS

44475.40. Before a tax credit may be awarded pursuant to this part, the state board shall approve the capability of the particular retrofit technology, vehicle, engine, equipment, or product to meet the criteria for each specified in Chapter 3 (commencing with Section 44475.15). Any certification of vehicles or equipment necessary for operation in California shall be pursuant to the applicable state or federal law.

44475.41. To maintain eligibility for a tax credit, any motor vehicle, vehicle, or implement of husbandry that is required by the Vehicle Code to be registered, and that has been awarded tax credits pursuant to this part, shall have in force at all times a valid registration for operation in California.

44475.42. Subject to the cost-effectiveness requirements of this part, the state board may award tax credits for up to the incremental costs of a project, including incrementally higher operating and lease costs as well as incremental capital costs, as well as for any necessary incentives to encourage the acquisition of new vehicles and equipment, the retrofitting of existing vehicles and equipment, or the adoption of innovative technologies by users.

44475.43. (a) The state board shall by regulation establish procedures to assure that any equipment or vehicles traded in pursuant to this part shall have a reasonable remaining service life, and that the equipment or vehicles are scrapped after trade-in or retirement and not rebuilt or resold. Equipment and vehicles that are traded in or retired shall be destroyed, and the metal parts shall be recycled.

(b) The state board may require evidence that the vehicles or equipment eligible for a tax credit pursuant to this part will have a reasonable expected useful life.

44475.44. The state board and the districts, as appropriate, shall take all appropriate and necessary actions to ensure that emissions reductions achieved pursuant to this part are credited by the United States Environmental Protection Agency to emissions reduction objectives in the State Implementation Plan.

44475.45. In addition to the requirements of Section 44475.16, after study of available emissions reduction technologies and after public notice and comment, the state board may reduce the minimum percentage NO_x and particulate reduction criteria for purchase, retrofits, and add-on equipment stated in Sections 44475.20, 44475.21, 44475.22, and 44475.31 if necessary to maximize emissions reductions from the purchase, retrofit, or repowering of vehicles and equipment pursuant to those sections.

44475.46. The state board may specify conditions of use and other terms with respect to the purchase of vehicles and equipment and the operation of equipment acquired pursuant to this part.

44475.47. The state board may consider ways to increase the flexibility and effectiveness of this program, especially with respect to increasing the usability of the tax credits authorized by this part, and may propose legislation to improve the program. This section does not authorize the Legislature to amend this part.

CHAPTER 5. AWARD OF TAX CREDITS

44475.50. The state board or district, as the case may be, has sole discretion to determine the sufficiency and completeness of any application and may

determine that an application for a tax credit is not in compliance with this part, and its intent and purposes, and may reject the application.

44475.51. The state board or district, as the case may be, shall expedite the processing of applications and awarding of tax credits to the greatest extent possible.

44475.52. (a) Consistent with the other requirements of this part, the state board shall adopt regulations to award tax credits to projects within each project category set forth in Section 44475.57. Consistent with the other requirements of this part, including, but not limited to, Section 44475.55, the state board may adopt selection criteria to allocate tax credits within each project category to projects with equivalent cost-effectiveness rankings.

(b) Within each category of tax credits listed in Section 44475.57, if equivalent applications are submitted, the state board or district shall first select the application from an applicant that did not receive a tax credit within that category in the previous quarter. This subdivision does not prevent the state board or a district from awarding long-term contracts for tax credits. For purposes of this subdivision, "equivalent applications" means applications that are equally cost-effective and equal with respect to other criteria required by this part or by regulations adopted pursuant to this part.

44475.53. The state board may award tax credits pursuant to this part for projects that conform with the requirements of this part and with applicable regulations of the state board, even if the projects are initiated after the effective date of this part, but before the regulations implementing this part are adopted.

44475.54. (a) The state board or district, as the case may be, shall evaluate each application for consistency with the content requirements of Section 44475.6 and the other requirements of this part and the regulations of the state board, shall determine the emissions reductions that will result from implementation of each project or category of projects using the methodology established pursuant to Section 44475.15, and shall apply the procedure for ranking projects set forth in Section 44475.55. The state board shall award tax credits to eligible applicants in accordance with the evaluations and determinations made pursuant to this section and Section 44475.55.

(b) Any project that does not meet the cost-effectiveness standard established by the state board pursuant to Section 44475.15, as determined by the state board or district in its sole discretion, shall not be eligible for a tax credit.

44475.55. In each calendar quarter, for any category of project specified in Section 44475.20 (public fleet vehicles), 44475.21 (state heavy-duty fleet vehicles), 44475.22 (retrofit), 44475.23 (ports), 44475.24 (locomotives), 44475.28 (stationary and portable equipment), 44475.29 (ambient air pollution destruction technology), 44475.30 (agricultural waste), 44475.31 (new heavy-duty vehicles), 44475.32 (off-road vehicles), or 44475.33 (rice straw) for which one or more applications meet the cost-effectiveness standard established by the state board, the state board shall rank the qualifying proposed projects in order from the most cost-effective to the least cost-effective. The state board shall award tax credits according to this ranking until all credits available for the particular category of project for that quarter have been awarded or no qualifying projects remain. If the state board is unable to rank two or more projects because they have similar cost-effectiveness in emissions reductions, the state board shall give preference to the project with greater reductions in emissions of toxic air contaminants, in accordance with the procedure in subdivision (b) of Section 44475.15. This section does not apply to projects included in the standardized tax

credit allocations established pursuant to subdivision (f) of Section 44475.15. In categories in which districts have been delegated authority to award tax credits, the districts shall cooperate with the state board in implementing this section.

44475.56. (a) Upon the determination of the state board to award a tax credit, the successful applicant shall execute a long-term or short-term contract, as the case may be, as provided in Section 44475.10.

(b) With respect to any tax credit that may be claimed in more than one taxable or income year, the state board shall allocate the entire dollar value of that tax credit to the fiscal year in which the applicant executed the contract. The applicant may thereafter claim portions of the unused amount of the tax credit in subsequent taxable or income years until the total amount of the tax credit is exhausted. The unused amount that may be claimed is not at any time subject to the operation of subdivision (b) of Section 44475.58.

(c) In lieu of the procedure authorized in subdivision (b), at the election of the applicant, the long-term contract may provide that the dollar value of the tax credit may be allocated in equal allotments to two or more fiscal years, up to a total of 10 fiscal years, designated by the applicant. A single long-term contract shall be entered into for multiyear allotments, but, at the time the contract is signed, the state board shall issue a separate tax credit certificate for each allotment. In any taxable or income year in which an allotment may be claimed, the applicant may elect to claim less than the full dollar value of the allotment and may thereafter claim the unused portion of that allotment in subsequent taxable or income years until the total amount of the allotment is exhausted. The unused portion of an allotment may be claimed in the same taxable or income year for which a new allotment is allocated. In any fiscal year in which subdivision (b) of Section 44475.58 is implemented, the dollar value of the allotment of the tax credit allocated to that fiscal year may not be reduced.

44475.57. (a) The state board shall award tax credits in each fiscal year in accordance with the following schedule:

(b) (1) The state board shall allocate up to 10 percent of the dollar value of tax credits authorized in each category listed in subdivision (a), except Section 44475.20, for pilot or technology demonstration projects that develop technologies to reduce pollutants from the source identified in each section. The state board shall award tax credits pursuant to this subdivision to the extent that qualified applications are received, up to the 10-percent limit specified in this paragraph.

(2) In implementing this subdivision, highest priority shall be given to projects that may substantially reduce emissions of more than one air pollutant and have the greatest likelihood of commercial viability. Projects that will meet such criteria as durability, safety, reliability, and reduction of actual in-use emissions also shall be given high priority. To be eligible for tax credits, advanced technologies shall have the potential to substantially reduce emissions of pollutants.

(3) This subdivision does not apply to Section 44475.27.

(4) Notwithstanding paragraph (1), the state board shall allocate up to 12 percent of the dollar value of tax credits authorized in subdivision (a) for pilot or technology demonstration projects undertaken pursuant to Section 44475.20 that develop technologies to reduce pollutants from the source identified in that section. The state board shall award tax credits pursuant to this paragraph to the extent that qualified applications are received, up to the 12-percent limit specified in this paragraph. The total dollar value of tax credits allocated by this paragraph from Section 44475.20 may be used for pilot and demonstration projects pursuant to the purposes of subdivision (a) of Section 44475.20.

44475.58. (a) (1) To the extent that applications have been submitted for eligible projects, the state board or district shall award tax credits pursuant to this part at least once per calendar quarter for each category of project specified in Chapter 3 (commencing with Section 44475.15).

(2) In any fiscal year for which there are insufficient qualified tax credit applications in a particular category set forth in the schedule in Section 44475.57, or in the event of a reduction in the tax credits allowed due to the operation of subdivision (b), the state board shall retain the tax credits not awarded pursuant to Section 44475.57 for award in that category for use in a subsequent fiscal year. In awarding tax credits retained from previous years, the state board shall seek to allocate the tax credits in equal allotments throughout the remaining years of the program, to reduce the impact of the award of the deferred tax credits in any single fiscal year.

(b) The Department of Finance may reduce the total amount of tax credits to be awarded in a fiscal year following a fiscal year in which General Fund receipts were lower than General Fund receipts in the previous fiscal year. The Department of Finance may also reduce the total amount of tax credits to be awarded within a fiscal year if General Fund receipts in that fiscal year are lower from July 1 to March 31 of that fiscal year compared to the same period in the previous fiscal year. In addition, the Department of Finance may reduce the total amount of tax credits to be awarded in each of the 1998–99 and 1999–2000 fiscal years if General Fund receipts did not increase, compared to the previous fiscal year, in an amount to equal the amount of tax credits to be awarded in each of those fiscal years. In the event of any reductions made by the Department of Finance pursuant to this subdivision, the state board shall allocate the reductions in the same proportion as the tax credits are allocated pursuant to Section 44475.57. Tax credits awarded as part of a long-term contract, or pursuant to

the carryover provisions set forth in Sections 17052 and 23630 of the Revenue and Taxation Code, may not be reduced.

44475.59. (a) An annual audit shall be performed to determine whether this part is being carried out in accordance with the intent, purposes, and requirements of this part. The audit shall include review of the administration of the program and expenses incurred pursuant to Section 44475.14, taking into account the costs of beginning the program. The Department of Finance shall contract with a private auditing firm to conduct the audit. On completion of the audit, the Department of Finance shall immediately report the results of the audit to the Governor, the Legislature, the state board, and the public. The state board shall report to the Governor, the Legislature, and the public its response to the results and recommendations of the audit within 90 days of completion of the audit. If the audit recommends a reduction in the cost of administering the program, the state board shall reduce its administrative costs or provide a written explanation to the Governor and the Legislature as to why the administrative expenses cannot be reduced.

(b) The first audit shall be for the 1998–99 fiscal year. The Legislature shall appropriate sufficient funds for each fiscal year from the General Fund to the Department of Finance to pay for the audit.

44475.60. The Franchise Tax Board shall calculate the aggregate amount of tax credits awarded by the state board and districts and claimed by taxpayers, as reported pursuant to subdivision (b) of Section 44475.62, and shall report that amount to the Controller, the Director of Finance, and the State Department of Education for each fiscal year. That amount shall represent the total amount of tax credits approved and claimed pursuant to this part for purposes of determining the amount of "General Fund revenues which may be appropriated pursuant to Article XIII B", as that phrase is used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, and in calculating moneys to be applied by the state for the support of school districts and community college districts. Notwithstanding any other provision of law, the amount of the tax credits shall be added to General Fund revenues otherwise considered in making those calculations required by Section 8. The Legislature may amend this section to better achieve its intent, which is to assure that this part does not diminish funding for school districts or community college districts to a level below what would be required absent the tax credits authorized by this part.

44475.61. Notwithstanding any other provision of law, tax credits approved pursuant to this part shall be considered "General Fund revenues which may be appropriated pursuant to Article XIII B", as that phrase is used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, and in calculating moneys to be applied by the state for the support of school districts and community college districts. Those tax credits shall be added to General Fund revenues otherwise considered in making those calculations required by Section 8. The Legislature may amend this section to better achieve its intent, which is to assure that this part does not diminish funding for school districts or community college districts to a level below what would be required absent the tax credits authorized by this part.

44475.62. (a) After the end of each quarter, the state board shall publish a list of all projects awarded tax credits under this program during the previous quarter by the state board and any participating district. The report shall include for each project a description of the project, the amount of annual emissions reductions estimated to result from the project, the number of vehicles or pieces

of equipment involved, the cost-effectiveness of the project, and other items considered relevant by the state board. The report shall be transmitted to the Governor, the Legislature, and the public.

(b) The state board shall furnish a list to the Franchise Tax Board after the end of each quarter, in the form and manner agreed upon by the Franchise Tax Board, containing the names, taxpayer identification numbers (including taxpayer identification numbers for each partner or shareholder, as applicable), a description of the tax credit awarded, and the total amount of credit approved for each person awarded a tax credit in that quarter.

44475.63. (a) In the event that the recipient of the tax credit or operator of the equipment, vehicles, locomotives, off-road nonrecreational motor vehicles, or vessels purchased or operated pursuant to the award of the tax credit violates the terms of the contract pursuant to which the tax credit was awarded, the state board may initiate an action to rescind the contract, invalidate the dollar value of any unused tax credit, and recover from the recipient an amount of money equal to the dollar value of the tax credit used, together with interest as computed on deficiency assessments.

(b) Any money recovered pursuant to this section shall be available for appropriation for the purposes of Section 44475.27, and for no other purpose.

(c) Any unused tax credit invalidated pursuant to this section shall be available for award in a subsequent fiscal year by the state board for the same category for which the tax credit originally was awarded.

(d) The state board shall notify the Franchise Tax Board of every action initiated pursuant to this section. The initiation of an action pursuant to this section does not preclude the imposition of any fine, forfeiture, or other penalty or undertaking an administrative enforcement action pursuant to any other provision of law or regulation.

44475.64. Personal services and consulting contracts entered into pursuant to this part are not subject to approval by the Department of General Services if the state board does all of the following:

(a) Designates a state board officer as responsible and directly accountable for the state board's contracting program.

(b) Establishes written policies and procedures and a management system ensuring that state board's contracting activities comply with applicable provisions of law and regulations and that it has demonstrated the ability to carry out these policies and procedures and to implement the management system.

(c) Establishes a plan for ensuring that contracting personnel are adequately trained in contract administration and contract management.

(d) Conducts an audit every two years of the contracting program and reports to the Department of General Services as the department may require.

(e) Establishes procedures for reporting to the Legislature on the contracting program.

CHAPTER 6. REPEAL

44475.70. Section 44475.57 shall continue in effect until January 1, 2011, and is repealed as of that date. The state board and districts may award no further tax credits after January 1, 2011, unless Section 44475.57 is reenacted and becomes effective on or after that date. The Legislature may reenact Section 44475.57 by majority vote. The reenacted section shall take effect on or after January 1, 2011.

SEC. 3. Section 17039 of the Revenue and Taxation Code is amended to read:

17039. (a) Notwithstanding any provision in this part to the contrary, for the purposes of computing tax credits, the term "net tax" means the tax imposed under either Section 17041 or 17048 plus the tax imposed under Section 17504 (relating to lump-sum distributions) less the credits allowed by Section 17054 (relating to personal exemption credits) and any amount imposed under paragraph (1) of subdivision (d) and paragraph (1) of subdivision (e) of Section 17560. Notwithstanding the preceding sentence, the "net tax" shall not be less than the tax imposed under Section 17504 (relating to the separate tax on lump-sum distributions), if any. Credits shall be allowed against "net tax" in the following order:

(1) Credits that do not contain carryover or refundable provisions, except those described in paragraphs (4) and (5).

(2) Any credit that is partially or totally denied under paragraph (1) shall be allowed to be carried over and applied to the net tax in succeeding taxable years, if the provisions relating to that credit include a provision to allow a carryover when that credit exceeds the net tax.

(d) Unless otherwise provided, any remaining carryover of a credit allowed by a section that has been repealed or made inoperative shall continue to be allowed to be carried over under the provisions of that section as it read immediately prior to being repealed or becoming inoperative.

(e) (1) Unless otherwise provided, if two or more taxpayers (other than husband and wife) share in costs that would be eligible for a tax credit allowed under this part, each taxpayer shall be eligible to receive the tax credit in proportion to his or her respective share of the costs paid or incurred.

(2) In the case of a partnership, the credit shall be allocated among the partners pursuant to a written partnership agreement in accordance with Section 704 of the Internal Revenue Code, relating to partner's distributive share.

(3) In the case of a husband and wife who file separate returns, the credit may be taken by either or equally divided between them.

(f) Unless otherwise provided, in the case of a partnership, any credit allowed by this part shall be computed at the partnership level, and any limitation on the expenses qualifying for the credit or limitation upon the amount of the credit shall be applied to the partnership and to each partner.

(g) (1) With respect to any taxpayer that directly or indirectly owns an interest in a business entity that is disregarded for tax purposes pursuant to Section 23038 and any regulations thereunder, the amount of any credit or credit carryforward allowable for any taxable year attributable to the disregarded business entity shall be limited in accordance with paragraphs (2) and (3).

(2) The amount of any credit otherwise allowed under this part, including any credit carryover from prior years, that may be applied to reduce the taxpayer's "net tax," as defined in subdivision (a), for the taxable year shall be limited

to an amount equal to the excess of the taxpayer's regular tax (as defined in Section 17062), determined by including income attributable to the disregarded business entity that generated the credit or credit carryover, over the taxpayer's regular tax (as defined in Section 17062), determined by excluding the income attributable to that disregarded business entity. No credit shall be allowed if the taxpayer's regular tax (as defined in Section 17062), determined by including the income attributable to the disregarded business entity, is less than the taxpayer's regular tax (as defined in Section 17062), determined by excluding the income attributable to the disregarded business entity.

(3) If the amount of a credit allowed pursuant to the section establishing the credit exceeds the amount allowable under this subdivision in any taxable year, the excess amount may be carried over to subsequent taxable years pursuant to subdivisions (c) and (d).

SEC. 4. Section 17052 is added to the Revenue and Taxation Code, to read:

17052. (a) For each taxable year beginning on or after January 1, 1999, there shall be allowed as a credit against the amount of "net tax," as defined in Section 17039, an amount equal to the tax credit awarded pursuant to Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code.

(b) The aggregate amount of tax credits granted to all taxpayers pursuant to this section and Section 23630 may not exceed two hundred eighteen million dollars ($218,000,000) for each fiscal year, plus the amount of tax credits that are retained pursuant to paragraph (2) of subdivision (a) of Section 44475.58 of the Health and Safety Code.

(c) In the case where the credit allowed by this section exceeds the "net tax," the excess may be carried over to reduce the "net tax" in the following year and succeeding years until the credit has been exhausted.

(d) The State Air Resources Board shall do all of the following:

(2) Issue tax credit certificates in an aggregate amount that shall not exceed the limit specified in subdivision (b).

(4) Provide the taxpayer with copies of the tax credit certificate.

(5) Obtain the taxpayer's identification number; or, in the case of an organization taxed as a partnership, the taxpayer's identification number of each partner; or, in the case of a Subchapter S corporation, the taxpayer's identification number of each shareholder.

(6) No later than 60 days following the close of each fiscal year within which the credit under this section is available, provide to the Legislature a report with respect to that fiscal year that includes all of the following:

(A) The number of tax credit certificates requested and issued.

(B) The types of taxpayers receiving the tax credit certificates.

(e) To be eligible for the tax credit, the taxpayer shall do all of the following:

(1) As part of the taxpayer's request for a tax credit, provide the State Air Resources Board with documents, as deemed necessary by the State Air

Resources Board, verifying that the requirements of this section and Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code have been met.

(2) Retain a copy of the tax credit certificate issued by the State Air Resources Board as specified in subdivision (d).

(3) Provide a copy of the tax credit certificate to the Franchise Tax Board upon request.

(4) Provide the State Air Resources Board with the taxpayer's identification number; or, in the case of an organization taxed as a partnership, the taxpayer identification numbers of each partner; or, in the case of a Subchapter S corporation, the taxpayer's identification number of each shareholder.

(5) If the taxpayer fails to comply with the requirements of this subdivision, no credit may be awarded to that taxpayer until the taxpayer complies.

(f) Any credit allowed pursuant to this section shall be in lieu of any other credit otherwise allowable pursuant to this part for the same purchase, retrofit, repower, or operational change that is the basis for the tax credit under this section. In addition, any deduction for the same purchase, retrofit, repower, or operational change that is the basis for the tax credit under this section shall be reduced, on a pro rata basis, by the part of the purchase, retrofit, repower, or operational change that was paid for by the credit awarded pursuant to this section.

SEC. 5. Section 23036 of the Revenue and Taxation Code is amended to read:

23036. (a) (1) The term "tax" includes any of the following:

(f) Unless otherwise provided, any remaining carryover from a credit that has been repealed or made inoperative shall continue to be allowed to be carried over under the provisions of that section as it read immediately prior to being repealed or becoming inoperative.

No credit shall be allowed if the taxpayer's regular tax (as defined in Section 23455), determined by including the income attributable to the disregarded business entity is less than the taxpayer's regular tax (as defined in Section 23455), determined by excluding the income attributable to the disregarded business entity.

(3) If the amount of a credit allowed pursuant to the section establishing the credit exceeds the amount allowable under this subdivision in any income year, the excess amount may be carried over to subsequent income years pursuant to subdivisions (d), (e), and (f).

SEC. 6. Section 23630 is added to the Revenue and Taxation Code, to read:

23630. (a) For each income year beginning on or after January 1, 1999, there shall be allowed as a credit against the amount of "tax," as defined in Section 23036, an amount equal to the tax credit awarded pursuant to Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code.

(b) The aggregate amount of tax credits granted to all taxpayers pursuant to this section and Section 17052 may not exceed two hundred eighteen million dollars ($218,000,000) for each fiscal year, plus the amount of tax credits that are retained pursuant to paragraph (2) of subdivision (a) of Section 44475.58 of the Health and Safety Code.

(4) Provide the taxpayer with copies of the tax credit certificate.

(5) Obtain the taxpayer's identification number; or, in the case of an organization taxed as a partnership, the taxpayer's identification number of each partner; or, in the case of a Subchapter S corporation, the taxpayer's identification number of each shareholder.

(A) The number of tax credit certificates requested and issued.

(B) The types of businesses receiving the tax credit certificates.

(e) To be eligible for the tax credit, the taxpayer shall do all of the following:

(1) As part of the taxpayer's request for a tax credit, provide the State Air Resources Board with documents, as deemed necessary by the State Air Resources Board, verifying that the requirements of this section and Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code have been met.

(5) If the taxpayer fails to comply with the requirements of this subdivision, no credit may be awarded to that taxpayer until the taxpayer complies.

(f) Any credit allowed pursuant to this section shall be in lieu of any other credit otherwise allowable pursuant to this part for the same purchase, retrofit, repower, or operational change that is the basis for the tax credit under this section. In addition, any deduction for the same purchase, retrofit, repower, or operational change that is the basis for the tax credit under this section shall be reduced, on a pro rata basis, by the part of the purchase, retrofit, repower, or operational change that was paid for by the credit awarded pursuant to this section.

(g) Notwithstanding any other provision of law, any tax credit awarded pursuant to this section may be used by any member of the taxpayer's unitary group.

SEC. 7. Section 42314.6 is added to the Health and Safety Code, to read:

42314.6. (a) Wildfires in California forests and wildlands release substantial emissions into the air. These emissions currently average almost 600,000 tons of pollutants annually. These emissions adversely affect public health and environmental quality. Emissions from wildfires not only adversely

affect air quality in areas where they occur but also are transported to other air basins.

(b) A study of an air quality market-based incentive program for prescribed burning projects is hereby authorized, and shall be paid for by an allocation of funds by the State Air Resources Board pursuant to Section 44475.14. The study shall consider policies, regulations, or standards which could be incorporated into air pollution control requirements that allow the sale, purchase, trade, or substitution of emissions reduction credits among sources of air pollution. As used in this section, "emissions reduction credits" means surplus emissions reductions that represent a net decrease in emissions from the level that otherwise would have been required by federal, state, or local pollution control requirements.

(c) The State Air Resources Board and the affected districts shall conduct the study to assess the feasibility of the program. The study shall be completed by January 1, 2001, and shall include the following:

(1) A methodology for establishing baselines for emissions from wildfire and from prescribed burning projects.

(2) The assessment and development of a methodology for calculating the emissions from prescribed burning projects to reduce anticipated emissions expected to occur from wildfires once the baselines are established.

(3) An assessment of emissions reduction techniques that can be applied to prescribed burning projects, and a methodology for calculating expected emissions reductions, including smoke management techniques that have the greatest potential to limit population exposure to smoke.

(d) The study shall consider the possibility of implementing the program on lands owned by, or where fire is managed by, the California Department of Forestry and Fire Protection, California Department of Fish and Game, the United States Forest Service, the United States Bureau of Land Management, the National Park Service, and the United States Fish and Wildlife Service.

(e) The study shall assume that the following requirements will be met by eligible projects:

(1) The project complies with federal, state, and district air pollution control requirements governing agricultural or nonagricultural burning.

(2) The project will result in cost-effective emissions reductions that satisfy federal and state market-based air pollution control requirements.

(3) The project will result in a net emissions reduction or air quality benefit when used to offset increased emissions from other sources.

(4) The purpose of the project is not to improve forest health, or to convert one ecosystem or habitat type to another ecosystem or habitat type.

(5) The project will meet any additional requirements that, as determined by the State Air Resources Board, will be necessary for this program to meet applicable state and federal requirements governing market-based incentive programs and emissions trading, including the development of technical calculation protocols and procedures that are specific to quantifying the emissions reduction benefits from prescribed burning projects. In estimating the potential emissions value of the credit, the study shall apply modeling data and actual or historic emissions data provided by the Department of Forestry and Fire Protection and approved by the State Air Resources Board.

(f) Because of the transportability of air pollutants generated by wildfires, the study shall consider whether emissions reduction credits for prescribed burning projects within any air basin could be used for offsets, and at what ratio

for nonattainment pollutants if within the same air basin, and at what ratio if between adjacent air basins if the State Air Resources Board determines that the upwind area contributes measurably to downwind area emissions.

(g) This section does not authorize any transaction involving emissions reduction credits, nor does it affect the application of existing law authorizing credits for reduced open field burning.

SEC. 8. Article 4 (commencing with Section 4495) is added to Chapter 7 of Part 2 of Division 4 of the Public Resources Code, to read:

Article 4. Prescribed Burning Projects: Air Pollution Reduction

4495. (a) All money recovered pursuant to Section 13009 of the Health and Safety Code for fire suppression costs and received in the fiscal year following the fiscal year in which the costs were incurred or in a subsequent fiscal year, all money recovered in the foreclosure of any lien for the abatement of fire and other hazards and nuisances pursuant to Article 7 (commencing with Section 4170) of Chapter 1, and any other money recovered, forfeited, or otherwise obtained pursuant to statute or any legal action to offset costs incurred in fire suppression shall be expended by the department to implement the prescribed burning elements of the California Fire Plan, as adopted by the State Board of Forestry, that reduce air pollution caused by wildland fires, forest fires, uncontrolled fires, and other wildfires. This subdivision does not apply to any money paid or credited to the department by another public agency in connection with the suppression of fire or the discharge of the department's responsibilities for fire prevention and fire hazard abatement.

(b) All money described in subdivision (a) shall be deposited in the Prefire Management Account, which is hereby created in the General Fund. Notwithstanding Section 13340 of the Government Code, all money in the account is hereby appropriated to the department without regard to fiscal years for expenditure for the purposes of this section.

(c) The department shall give preference to community conservation corps, as defined in Section 14507.5, in undertaking work financed pursuant to this section.

(d) Funds appropriated pursuant to this section shall be supplemental to other funds appropriated by the Legislature or obtained from other sources to implement the California Fire Plan, and may not displace those funds.

(e) Funds expended pursuant to this section may be spent only on the implementation of prescribed burns that are designed to reduce the generation of air pollution resulting from wildfires.

SEC. 9. Section 41202 of the Education Code is amended to read:

41202. The words and phrases set forth in subdivision (b) of Section 8 of Article XVI of the Constitution of the State of California shall have the following meanings:

(a) "Moneys to be applied by the State," as used in subdivision (b) of Section 8 of Article XVI of the California Constitution, means appropriations from the General Fund that are made for allocation to school districts, as defined, or community college districts. An appropriation that is withheld, impounded, or made without provisions for its allocation to school districts or community college districts, shall not be considered to be "moneys to be applied by the State."

(b) "General Fund revenues which may be appropriated pursuant to Article XIII B," as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI, means General Fund revenues that are the proceeds of taxes as defined

by subdivision (c) of Section 8 of Article XIII B of the California Constitution, including, for the 1986–87 fiscal year only, any revenues that are determined to be in excess of the appropriations limit established pursuant to Article XIII B for the fiscal year in which they are received. General Fund revenues for a fiscal year to which paragraph (1) of subdivision (b) is being applied shall include, in that computation, only General Fund revenues for that fiscal year that are the proceeds of taxes, as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution, and shall not include prior fiscal year revenues. Commencing with the 1995–96 fiscal year, and each fiscal year thereafter, "General Fund revenues that are the proceeds of taxes," as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution, includes any portion of the proceeds of taxes received from the state sales tax that are transferred to the counties pursuant to, and only if, legislation is enacted during the 1995–96 fiscal year the purpose of which is to realign children's programs. The amount of the proceeds of taxes shall be computed for any fiscal year in a manner consistent with the manner in which the amount of the proceeds of taxes was computed by the Department of Finance for purposes of the Governor's Budget for the Budget Act of 1986.

(c) *"General Fund revenues which may be appropriated pursuant to Article XIII B," as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI, includes tax credits approved pursuant to the California Air Quality Improvement Program, as set forth in Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code, and in calculating moneys to be applied by the state for the support of school districts and community college districts. Notwithstanding any other provision of law, those tax credits shall be added to General Fund revenues otherwise considered in making these calculations as required by Section 8.*

(d) "General Fund revenues appropriated for school districts," as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to school districts, as defined in Section 41302.5, regardless of whether those appropriations were made from the General Fund to the Superintendent of Public Instruction, to the Controller, or to any other fund or state agency for the purpose of allocation to school districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (1) of subdivision (b) of *Section 8 of* Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

~~(d)~~

(e) "General Fund revenues appropriated for community college districts," as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means one sum of appropriations made that are for allocation to community college districts, regardless of whether those appropriations were made from the General Fund to the Controller, to the Chancellor of the California Community Colleges, or to any other fund or state agency for the purpose of allocation to community college districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (1) of subdivision (b) of *Section 8 of* Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

~~(e)~~

(f) "Total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to school districts, as defined in Section 41302.5, and community college districts, regardless of whether those appropriations were made from the General Fund to the Controller, to the Superintendent of Public Instruction, to the Chancellor of the California Community Colleges, or to any other fund or state agency for the purpose of allocation to school districts and community college districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

~~(f)~~

(g) "General Fund revenues appropriated for school districts and community college districts, respectively" and "moneys to be applied by the state for the support of school districts and community college districts," as used in Section 8 of Article XVI of the California Constitution, shall include funds appropriated for the Child Care and Development Services Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6 and shall not include any of the following:

(1) Any appropriation that is not made for allocation to a school district, as defined in Section 41302.5, or to a community college district regardless of whether the appropriation is made for any purpose that may be considered to be for the benefit to a school district, as defined in Section 41302.5, or a community college district. This paragraph shall not be construed to exclude any funding appropriated for the Child Care and Development Services Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6.

(2) Any appropriation made to the Teachers' Retirement Fund or to the Public Employees' Retirement Fund except those appropriations for reimbursable state mandates imposed on or before January 1, 1988.

(3) Any appropriation made to service any public debt approved by the voters of this state.

~~(g)~~

(h) "Allocated local proceeds of taxes," as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for school districts as defined, those local revenues, except revenues identified pursuant to paragraph (5) of subdivision (h) of Section 42238, that are used to offset state aid for school districts in calculations performed pursuant to Sections 2558, 42238, and Chapter 7.2 (commencing with Section 56836) of Part 30.

~~(h)~~

(i) "Allocated local proceeds of taxes," as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for community college districts, those local revenues that are used to offset state aid for community college districts in calculations performed pursuant to Section 84700. In no event shall the revenues or receipts derived from student fees be considered "allocated local proceeds of taxes."

~~(i)~~

(j) For the purposes of calculating the 4 percent entitlement pursuant to subdivision (a) of Section 8.5 of Article XVI of the California Constitution, "the

total amount required pursuant to Section 8(b)" shall mean the General Fund aid required for schools pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution, and shall not include allocated local proceeds of taxes.

(k) The Legislature may not amend subdivision (c) except to better achieve the intent of that subdivision, which is to assure that the initiative measure that added that subdivision does not diminish funding for school districts and community college districts to a funding level below that required absent the tax credits authorized by that measure.

SEC. 10. Section 41204.2 is added to the Education Code, to read:

41204.2. Notwithstanding any other provision of law, for the purposes of applying paragraph (2) of subdivision (b) of Section 8 of Article XVI of the California Constitution, in the first fiscal year following approval of tax credits pursuant to the California Air Quality Improvement Program authorized by Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code, and for each fiscal year thereafter, the Director of Finance shall adjust the amount required to ensure that allocations to school districts and community college districts, respectively, are not less than those allocations in the prior fiscal year, to reflect revenue derived from approval of tax credits in that fiscal year pursuant to Part 10 (commencing with Section 44475.1) of Division 26 of the Health and Safety Code, and to ensure that the proportional net fiscal effect reflects the allocation of such revenue to school districts and community college districts consistent with the manner in which the amount of the proceeds of taxes was computed by the Department of Finance for purposes of the Governor's Budget in the immediately preceding fiscal year.

The Legislature may amend this section to better achieve its intent, which is to assure that the initiative measure that enacted this section does not diminish funding for school districts and community college districts to a funding level below that required absent the tax credits authorized by that measure.

SEC. 11. Section 29531 of the Government Code is amended to read:

29531. (a) The board of supervisors shall continuously appropriate the money in ~~such~~ *the local transportation* fund for expenditure for the purposes specified in this article *directly related to administration of the fund and the fund's revenue* and *the transportation and associated fund administration purposes specified* in Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code.

(b) The local transportation fund is a trust fund. Once the local transportation fund is created, it may not be abolished. The terms of the contract entered into pursuant to Section 29530 may not be modified in a manner inconsistent with the purposes and requirements of this section. Money in the fund or designated for transfer to the fund pursuant to Section 29530 may be allocated only to mass transportation, pedestrian and bicycle facilities, streets and roads, transportation planning, and fund administration purposes, as required by this article and by Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 of the Public Utilities Code. Neither the county nor the Legislature may divert any moneys in the fund from these purposes to another purpose.

SEC. 12. (a) Prior to January 1, 2011, the Legislature may amend Sections 17039 and 23036 of the Revenue and Taxation Code if the amendments do not delete or alter the tax credits authorized by Sections 17052 and 23630 of the Revenue and Taxation Code. Prior to January 1, 2011, except where specifically

authorized pursuant to this act, the Legislature may make no other amendments to this act and may not repeal or supersede any provision of this act.

(b) On and after January 1, 2011, the Legislature may amend or repeal any provision of this act if the amendments do not reduce or impair the ability of taxpayers to fully utilize tax credits after January 1, 2011, if the tax credits were awarded prior to January 1, 2011, and the taxpayers are eligible to use the carryover provisions of the Revenue and Taxation Code or use the tax credits pursuant to long-term contracts that meet the requirements of Section 44475.10 of the Health and Safety Code.

SEC. 13. It is the intent of the People of California in enacting this act that the operation of this act not reduce funding for school districts or community college districts.

SEC. 14. This act shall be liberally construed to further its purposes, especially with respect to being allowed to take effect.

SEC. 15. (a) This act shall take effect notwithstanding any other provision of law.

(b) It is the express intent of the People of California that this act shall take effect and become operative at 12:01 a.m. on November 4, 1998.

SEC. 16. If any provision of this act or the application thereof is held invalid, that invalidity does not affect other provisions or applications of the act that can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 17. It is the intent of the People of California in enacting this act that it be carried out in the most expeditious manner possible, and that all state and local officials implement this act to the fullest extent of their authority.

(3) Information on the quality of education in each public school is essential to identify low-performing schools that are not providing our children with the opportunity to achieve our high expectations.

(b) In enacting the Permanent Class Size Reduction and Educational Opportunities Act of 1998, it is the intent of the people of the State of California to accomplish all of the following:

(1) To give parents a significant role in improving the educational program at the schools attended by their children.

The commission, by regulation, may require that evidence of additional competence is a condition for instruction in particular subjects, including, but not limited to, foreign languages. The authorization shall be with the teacher's consent. However, the commission, by regulation, may provide that evidence of additional competence is necessary for instruction in particular subjects, including, but not limited to, foreign languages. The commission may establish and implement alternative requirements for additional authorizations to the multiple subject credential on the basis of specialized needs.

(c) "Specialist instruction" means any specialty requiring advanced preparation or special competence including, but not limited to, reading specialist, mathematics specialist, specialist in special education, or early childhood education, and such other specialties as the commission may determine.

9. **Electric Utilities. Assessments. Bonds.**

[Submitted by the initiative and rejected by electors November 3, 1998.]

PROPOSED LAW

THE UTILITY RATE REDUCTION AND REFORM ACT

SECTION 1. Findings and Declarations.

The People of California find and declare as follows:

The cost and dependability of California's electric utility service are threatened by a new law that was intended to reduce regulation of electric utility companies in this state.

Any change in the way electricity is sold should benefit all electric utility customers, including residential and small business customers, and should result in a fair and competitive marketplace.

Instead of creating a fully competitive market for electricity, the new law unfairly favors existing electric utility monopolies by forcing customers to pay

rates more than 40 percent higher than the market price in order to bail out utilities for their past bad investments.

As a result of this $28 billion bailout for electric utility companies, the average California household will pay more than $250 more per year for electricity than it would in a fully competitive market.

Residential and small business customers should not be required to bear the costs of bonds used by utility companies to pay for past bad investments.

It is against public policy for residential and small business customers to be required to pay for the imprudent and uneconomic decisions of electric utility companies to invest in nuclear power plants that the public did not want and that threaten the health and safety of this state.

Under the new law, deregulation of electric utility companies may result in marketing abuses that harm residential and small business customers. Such abuses may include the selling of information about these customers to other companies for profit.

Therefore, the People of California declare that it is necessary to protect residential and small business customers from unfair and unjustified taxes and surcharges that will force them to subsidize electric utility companies. It is also necessary to ensure that residential and small business customers directly benefit from deregulation of electric utility companies.

SEC. 2. Purpose.

The purpose of this chapter is to:

1. Reduce residential and small commercial electricity rates by 20 percent to assure that these customers receive a direct benefit from the transition to the competitive marketplace for electricity.

2. Prohibit taxes, surcharges, bond payments, or any other assessment from being added to electricity bills to pay off utility companies' past bad investments in nuclear power plants and other generation-related costs.

3. Prohibit bonds from being used to force residential and small business customers to pay for past bad investments by electric utility companies.

4. Provide for fair and public review of California Public Utilities Commission decisions related to electricity price and services.

5. Protect the privacy of utility customers and provide the information consumers need to obtain low cost and high quality electric service.

SEC. 3. Section 368.1 is added to the Public Utilities Code, to read:

368.1. (a) No later than January 1, 1999, electricity rates for residential and small commercial customers shall be reduced so that these customers receive rate reductions of at least 20 percent on their total electricity bill as compared to the rate schedules in effect for these customers on June 10, 1996.

(b) The rate reductions described in subdivision (a) shall be achieved through cutting payments to electric corporations for their nuclear and other uneconomic generation costs as described in Sections 367.1 and 367.2.

(c) No utility tax, bond payment, surcharge, or other assessment in any form may be levied against any electric utility customer to pay for the rate reductions described in subdivisions (a) and (b).

SEC. 4. Section 367.1 is added to the Public Utilities Code, to read:

367.1. (a) Effective immediately, costs for nuclear generation plants and related assets and obligations shall not be paid for by electric utility customers, except to the extent that these costs are recovered by the sale of electricity at competitive market prices as reflected in independent Power Exchange revenues or in contracts with the Independent System Operator.

(b) No utility tax, bond payment, surcharge, or other assessment in any form may be levied against any electric utility customer for the recovery of nuclear costs described in subdivision (a).

(c) This section does not apply to reasonable nuclear decommissioning costs as referenced in Section 379.

SEC. 5. Section 367.2 is added to the Public Utilities Code, to read:

367.2. (a) Effective immediately, costs for non-nuclear generation plants and related assets and obligations may not be recovered from electric utility customers under the cost recovery mechanism provided for by Sections 367 to 376, inclusive, except to the extent that those costs are recovered by the sale of electricity at competitive market rates from independent Power Exchange revenues or from contracts with the Independent System Operator, unless the electric utility first demonstrates to the satisfaction of the commission at a public hearing that failure to recover those costs would deprive it of the opportunity to earn a fair rate of return.

(b) This section does not apply to costs associated with renewable non-nuclear electricity generation facilities described in paragraph (3) of subdivision (c) of Section 381, or to costs associated with power purchases from qualifying facilities pursuant to the federal Public Utility Regulatory Policies Act of 1978 and related commission decisions.

SEC. 6. Section 840.1 is added to the Public Utilities Code, to read:

840.1. Notwithstanding current Sections 840 to 847, inclusive:

(a) No electric corporation, affiliate of an electric corporation, or any other financing entity may assess or collect any utility tax, bond payment, surcharge, or any other assessment authorized by a Public Utilities Commission financing order issued pursuant to Sections 840 to 847, inclusive, for the purpose of paying principal, interest, or other costs of any bonds authorized by those sections.

(b) The Public Utilities Commission may not issue any financing order pursuant to Sections 840 to 847, inclusive, after the effective date of this section.

(c) Any electric corporation, affiliate of an electric corporation, or other financing entity that is subject to a financing order issued under Section 841 that is determined by a court of competent jurisdiction to be enforceable notwithstanding subdivision (a) of this section, shall offset any utility tax, bond payment, surcharge, or other assessment described in subdivision (a) collected from any customer with an equal credit to be applied concurrently with the collection of the utility tax, bond payment, surcharge, or other assessment.

SEC. 7. Section 841.1 is added to the Public Utilities Code, to read:

841.1. Any underwriter or bond purchaser who purchases rate reduction bonds after November 24, 1997, issued pursuant to current Sections 840 to 847, inclusive, shall be deemed to have notice of the provisions of Sections 367.1, 367.2, 368.1, and 840.1.

SEC. 8. Section 1701.5 is added to the Public Utilities Code, to read:

1701.5. (a) Any action or proceeding of the Public Utilities Commission pursuant to Sections 367.1, 367.2, 368.1, and 840.1 shall require a public hearing where evidence is taken by, and discretion is vested in, the Public Utilities Commission.

(b) Any change to the amount of above-market costs for non-nuclear generation plants and related assets and obligations being recovered from utility customers shall be made only after the electrical corporation has provided notice to the public pursuant to Section 454.

(c) Any action or proceeding to attack, review, set aside, void, or annul a determination, finding, or decision of the Public Utilities Commission relating to electric restructuring under Chapter 2.3 (commencing with Section 330) and financing of transition costs as described in Article 5.5 (commencing with Section 840) of Chapter 4 shall be in accordance with Section 1094.5 of the Code of Civil Procedure. In any such action, the writ of mandate shall lie from the court of appeals to the Public Utilities Commission. The court may not exercise its independent judgment, but shall determine only whether the determination, finding, or decision of the Public Utilities Commission is supported by substantial evidence in light of the whole record.

SEC. 9. Section 394.15 is added to the Public Utilities Code, to read:

394.15. The confidentiality of residential and small commercial customer information shall be fully protected as provided by law. No entity providing electricity services, including an electric corporation, may provide information about a residential or small commercial customer to any third party without the express written consent of the customer.

SEC. 10. Section 393 is added to the Public Utilities Code, to read:

393. The Public Utilities Commission shall require each electric utility or electric service provider to provide information or materials with each utility bill issued to residential and small commercial customers as the commission determines are necessary to assist consumers in obtaining low-cost, high-quality electric service options, including electric service options that reduce environmental impacts such as those that rely on renewable energy sources, and to protect the consumers' interest in all matters concerning safe and dependable delivery of electric service.

SEC. 11. Section 330.1 is added to the Public Utilities Code, to read:

330.1. (a) "Utility tax," "bond payments," "surcharge," "assessment," or "involuntary payment" mean any charge that serves to permit an electric corporation to recover the value of uneconomic assets from ratepayers, and includes, but is not limited to, a "fixed transition amount," as defined by subdivision (d) of Section 840, and the "competition transition charge" that is the nonbypassable charge referred to in Sections 367 to 376, inclusive.

(b) For purposes of this section and Sections 367.1, 367.2, 368.1, 393, and 840.1, the terms "electric utility," "electric utility company," and "electric corporation" have the same meaning as the term "electrical corporation" as defined in Section 218.

SEC. 12. Section 367 of the Public Utilities Code is amended to read:

367. The commission shall identify and determine those costs and categories of costs for generation-related assets and obligations, consisting of generation facilities, generation-related regulatory assets, nuclear settlements, and power purchase contracts, including, but not limited to, restructurings, renegotiations or terminations thereof approved by the commission, that were being collected in commission-approved rates on December 20, 1995, and that may become uneconomic as a result of a competitive generation market, in that these costs may not be recoverable in market prices in a competitive market, and appropriate costs incurred after December 20, 1995, for capital additions to generating facilities existing as of December 20, 1995, that the commission determines are reasonable and should be recovered, provided that these additions are necessary to maintain the facilities through December 31, 2001. These uneconomic costs shall include transition costs as defined in subdivision (f) of Section 840, and shall be recovered from all customers or in the case of fixed transition amounts, from

the customers specified in subdivision (a) of Section 841, on a nonbypassable basis and shall:

(a) ~~Be amortized over a reasonable time period, including collection on an accelerated basis, consistent with not increasing rates for any rate schedule, contract, or tariff option above the levels in effect on June 10, 1996; provided that, the recovery shall not extend beyond December 31, 2001, except as follows:~~

~~(1) Costs associated with employee-related transition costs as set forth in subdivision (b) of Section 375 shall continue until fully collected; provided, however, that the cost collection shall not extend beyond December 31, 2006.~~

~~(2) Power purchase contract obligations shall continue for the duration of the contract. Costs associated with any buy-out, buy-down, or renegotiation of the contracts shall continue to be collected for the duration of any agreement governing the buy-out, buy-down, or renegotiated contract; provided, however, no power purchase contract shall be extended as a result of the buy-out, buy-down, or renegotiation.~~

~~(3) Costs associated with contracts approved by the commission to settle issues associated with the Biennial Resource Plan Update may be collected through March 31, 2002; provided that only 80 percent of the balance of the costs remaining after December 31, 2001, shall be eligible for recovery.~~

~~(4) Nuclear incremental cost incentive plans for the San Onofre nuclear generating station shall continue for the full term as authorized by the commission in Decision 96-01-011 and Decision 96-04-059; provided that the recovery shall not extend beyond December 31, 2003.~~

~~(5) Costs associated with the exemptions provided in subdivision (a) of Section 374 may be collected through March 31, 2002, provided that only fifty million dollars ($50,000,000) of the balance of the costs remaining after December 31, 2001, shall be eligible for recovery.~~

~~(6) Fixed transition amounts, as defined in subdivision (d) of Section 840, may be recovered from the customers specified in subdivision (a) of Section 841 until all rate reduction bonds associated with the fixed transition amounts have been paid in full by the financing entity.~~

~~(b)~~ Be based on a calculation mechanism that nets the negative value of all above market utility-owned generation-related assets against the positive value of all below market utility-owned generation related assets. For those assets subject to valuation, the valuations used for the calculation of the uneconomic portion of the net book value shall be determined not later than December 31, 2001, and shall be based on appraisal, sale, or other divestiture. The commission's determination of the costs eligible for recovery and of the valuation of those assets at the time the assets are exposed to market risk or retired, in a proceeding under Section 455.5, 851, or otherwise, shall be final, and notwithstanding Section 1708 or any other provision of law, may not be rescinded, altered or amended.

~~(c)~~

(b) Be limited in the case of utility-owned fossil generation to the uneconomic portion of the net book value of the fossil capital investment existing as of January 1, 1998, and appropriate costs incurred after December 20, 1995, for capital additions to generating facilities existing as of December 20, 1995, that the commission determines are reasonable and should be recovered, provided that the additions are necessary to maintain the facilities through December 31, 2001. All "going forward costs" of fossil plant operation, including operation and maintenance, administrative and general, fuel and fuel transportation costs, shall be recovered solely from independent Power Exchange revenues or from

contracts with the Independent System Operator, provided that for the purposes of this chapter, the following costs may be recoverable pursuant to this section:

(1) Commission-approved operating costs for particular utility-owned fossil powerplants or units, at particular times when reactive power/voltage support is not yet procurable at market-based rates in locations where it is deemed needed for the reactive power/voltage support by the Independent System Operator, provided that the units are otherwise authorized to recover market-based rates and provided further that for an electrical corporation that is also a gas corporation and that serves at least four million customers as of December 20, 1995, the commission shall allow the electrical corporation to retain any earnings from operations of the reactive power/voltage support plants or units and shall not require the utility to apply any portions to offset recovery of transition costs. Cost recovery under the cost recovery mechanism shall end on December 31, 2001.

(2) An electrical corporation that, as of December 20, 1995, served at least four million customers, and that was also a gas corporation that served less than four thousand customers, may recover, pursuant to this section, 100 percent of the uneconomic portion of the fixed costs paid under fuel and fuel transportation contracts that were executed prior to December 20, 1995, and were subsequently determined to be reasonable by the commission, or 100 percent of the buy-down or buy-out costs associated with the contracts to the extent the costs are determined to be reasonable by the commission.

~~(d)~~

(c) Be adjusted throughout the period through March 31, 2002, to track accrual and recovery of costs provided for in this subdivision. Recovery of costs prior to December 31, 2001, shall include a return as provided for in Decision 95-12-063, as modified by Decision 96-01-009, together with associated taxes.

~~(e)~~

(d) (1) Be allocated among the various classes of customers, rate schedules, and tariff options to ensure that costs are recovered from these classes, rate schedules, contract rates, and tariff options, including self-generation deferral, interruptible, and standby rate options in substantially the same proportion as similar costs are recovered as of June 10, 1996, through the regulated retail rates of the relevant electric utility, provided that there shall be a firewall segregating the recovery of the costs of competition transition charge exemptions such that the costs of competition transition charge exemptions granted to members of the combined class of residential and small commercial customers shall be recovered only from these customers, and the costs of competition transition charge exemptions granted to members of the combined class of customers, other than residential and small commercial customers, shall be recovered only from these customers.

(2) Individual customers shall not experience rate increases as a result of the allocation of transition costs. However, customers who elect to purchase energy from suppliers other than the Power Exchange through a direct transaction, may incur increases in the total price they pay for electricity to the extent the price for the energy exceeds the Power Exchange price.

(3) The commission shall retain existing cost allocation authority, provided the firewall and rate freeze principles are not violated.

SEC. 13. Section 368 of the Public Utilities Code is amended to read:

368. Each electrical corporation shall propose a cost recovery plan to the commission for the recovery of the uneconomic costs of an electrical

corporation's generation-related assets and obligations identified in Section 367. The commission shall authorize the electrical corporation to recover the costs pursuant to the plan if the plan meets the following criteria:

(a) The cost recovery plan shall set rates for each customer class, rate schedule, contract, or tariff option, at levels equal to the level as shown on electric rate schedules as of June 10, 1996, provided that rates for residential and small commercial customers shall be reduced so that these customers shall receive rate reductions of no less than 10 percent for 1998 continuing through 2002. These rate levels for each customer class, rate schedule, contract, or tariff option shall remain in effect until the earlier of March 31, 2002, or the date on which the commission-authorized costs for utility generation-related assets and obligations have been fully recovered. The electrical corporation shall be at risk for those costs not recovered during that time period. Each utility shall amortize its total uneconomic costs, to the extent possible, such that for each year during the transition period its recorded rate of return on the remaining uneconomic assets does not exceed its authorized rate of return for those assets. For purposes of determining the extent to which the costs have been recovered, any over-collections recorded in Energy Costs Adjustment Clause and Electric Revenue Adjustment Mechanism balancing accounts, as of December 31, 1996, shall be credited to the recovery of the costs.

(b) The cost recovery plan shall provide for identification and separation of individual rate components such as charges for energy, transmission, distribution, public benefit programs, and recovery of uneconomic costs. The separation of rate components required by this subdivision shall be used to ensure that customers of the electrical corporation who become eligible to purchase electricity from suppliers other than the electrical corporation pay the same unbundled component charges, other than energy, that a bundled service customer pays. No cost shifting among customer classes, rate schedules, contract, or tariff options shall result from the separation required by this subdivision. Nothing in this provision is intended to affect the rates, terms, and conditions or to limit the use of any Federal Energy Regulatory Commission-approved contract entered into by the electrical corporation prior to the effective date of this provision.

(c) In consideration of the risk that the uneconomic costs identified in Section 367 may not be recoverable within the period identified in subdivision (a) of Section 367, an electrical corporation that, as of December 20, 1995, served more than four million customers, and was also a gas corporation that served less than four thousand customers, shall have the flexibility to employ risk management tools, such as forward hedges, to manage the market price volatility associated with unexpected fluctuations in natural gas prices, and the out-of-pocket costs of acquiring the risk management tools shall be considered reasonable and collectible within the transition freeze period. This subdivision applies only to the transaction costs associated with the risk management tools and shall not include any losses from changes in market prices.

(d) ~~In order to ensure implementation of the cost recovery plan, the limitation on the maximum amount of cost recovery for nuclear facilities that may be collected in any year adopted by the commission in Decision 96-01-011 and Decision 96-04-059 shall be eliminated to allow the maximum opportunity to collect the nuclear costs within the transition cap period.~~

~~(e)~~ As to an electrical corporation that is also a gas corporation serving more than four million California customers, so long as any cost recovery plan adopted in accordance with this section satisfies subdivision (a), it shall also

provide for annual increases in base revenues, effective January 1, 1997, and January 1, 1998, equal to the inflation rate for the prior year plus two percentage points, as measured by the consumer price index. The increase shall do both of the following:

(1) Remain in effect pending the next general rate case review, which shall be filed not later than December 31, 1997, for rates that would become effective in January 1999. For purposes of any commission-approved performance-based ratemaking mechanism or general rate case review, the increases in base revenue authorized by this subdivision shall create no presumption that the level of base revenue reflecting those increases constitute the appropriate starting point for subsequent revenues.

(2) Be used by the utility for the purposes of enhancing its transmission and distribution system safety and reliability, including, but not limited to, vegetation management and emergency response. To the extent the revenues are not expended for system safety and reliability, they shall be credited against subsequent safety and reliability base revenue requirements. Any excess revenues carried over shall not be used to pay any monetary sanctions imposed by the commission.

~~(f)~~

(e) The cost recovery plan shall provide the electrical corporation with the flexibility to manage the renegotiation, buy-out, or buy-down of the electrical corporation's power purchase obligations, consistent with review by the commission to assure that the terms provide net benefits to ratepayers and are otherwise reasonable in protecting the interests of both ratepayers and shareholders.

~~(g) An example of a plan authorized by this section is the document entitled "Restructuring Rate Settlement" transmitted to the commission by Pacific Gas and Electric Company on June 12, 1996.~~

SEC. 14. Initiative Integrity.

(a) This act shall be broadly construed and applied in order to fully promote its underlying purposes, and to be consistent with the United States Constitution and the California Constitution. If any provision of this act conflicts directly or indirectly with any other provision of law, including but not limited to the cost recovery mechanism provided for by Sections 367 through 376 of the Public Utilities Code, or any other statute previously enacted by the Legislature, it is the intent of the voters that those other provisions shall be null and void to the extent that they are inconsistent with this act, and are hereby repealed.

(b) No provision of this act may be amended by the Legislature except (1) to further the purpose of that provision, by a statute passed in each house by rollcall vote entered in the journal, two thirds of the membership concurring, or (2) by a statute that becomes effective only when approved by the electorate. No amendment by the Legislature may be deemed to further the purposes of this act unless it furthers the purpose of the specific provision of this act that is being amended. In any judicial action with respect to any legislative amendment, the court shall exercise its independent judgment as to whether or not the amendment satisfies the requirements of this subdivision.

(c) If any provision of this act or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the act that can be given effect in the absence of the invalid provision or application. To this end, the provisions of this act are severable.

(d) It is the will of the People that any legal challenges to the validity of any provision of this act be acted upon by the courts on an expedited basis.

STATUTES OF CALIFORNIA

1997–98

REGULAR SESSION

1998 CHAPTERS

CHAPTER 1

An act to amend Section 42238.43 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 10, 1998. Filed with Secretary of State February 10, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 42238.43 of the Education Code is amended to read:

42238.43. (a) (1) For the 1996–97 fiscal year, the county superintendent of schools, in conjunction with the Superintendent of Public Instruction, shall compute an equalization adjustment for each school district in the county, so that no district's base revenue limit per unit of average daily attendance is less than the 1996–97 fiscal year statewide average base revenue limit for the appropriate size and type of district listed in subdivision (b).

(2) For purposes of this section, the district base revenue limit and the statewide average base revenue limit shall not include any amounts attributable to Section 45023.4, 46200, or 46201.

(b) Subdivision (a) shall apply to the following school districts, which shall be grouped according to size and type as follows:

District	ADA
Elementary	less than 101
Elementary	more than 100
High School	less than 301
High School	more than 300
Unified	less than 1,501
Unified	more than 1,500

(c) The equalization adjustment computed pursuant to this section shall only be funded from amounts appropriated for that purpose pursuant to Section 42238.42.

(d) (1) For the purposes of the computation made pursuant to paragraph (1) of subdivision (e) of Section 42238.42, the 1996–97 statewide average base revenue limits determined for the purposes of subdivision (a) and the fraction, if any, computed pursuant to paragraph (3) of subdivision (e) of Section 42238.42 by the Superintendent of Public Instruction for the 1996–97 second principal apportionment shall be final, and shall not be calculated as subsequent apportionments. In no event shall the fraction computed pursuant to paragraph (3) of subdivision (e) of Section 42238.42 exceed 1.00. If any iterations are required pursuant to paragraph (2)

of Section 42238.42, the Superintendent of Public Instruction shall recompute the 1996–97 statewide average base revenue limit to include any adjustments made by the immediately preceding iteration.

(2) (A) For the purposes of determining the size of a school district under subdivision (b), the Superintendent of Public Instruction shall use a school district's revenue limit average daily attendance for the 1996–97 fiscal year as determined pursuant to Section 42238.5 and Article 4 (commencing with Section 42280).

(B) Notwithstanding subparagraph (A), for the purposes of determining the size of a school district under subdivision (b) with respect to any elementary, high, or unified school district that was funded in the 1996–97 school year as a large elementary, high, or unified school district, as determined pursuant to subdivision (a) of Section 42238.5, the school district's actual revenue limit average daily attendance for the 1996–97 school year may be used. The actual revenue limit average daily attendance for the 1996–97 school year shall be used to calculate the 1996–97 revenue limit of a school district exercising the authority granted under this subparagraph. The governing board of a school district to which this subparagraph is applicable may exercise the authority granted under this subparagraph by enacting a resolution to that effect and transmitting a copy of that resolution to the Superintendent of Public Instruction on or before a date designated by the Superintendent of Public Instruction for that school year. After the Superintendent of Public Instruction receives the resolution, the superintendent shall make the necessary adjustments to the school district's revenue limit calculation.

SEC. 2. (a) Notwithstanding Section 54902, 54902.1, or 54903 of the Government Code, the boundary changes affecting the Rincon Valley Union Elementary School District and the City of Santa Rosa Elementary School District, both of which were reorganized with the approval of the Sonoma County Committee on School District Organization on November 5, 1997, and by order of the Sonoma County Board of Supervisors on December 16, 1997, shall become effective for assessment and taxation purposes for the 1998–99 fiscal year, if the statement and map or plat required by Section 54900 of the Government Code are filed with the assessor and the State Board of Equalization on or before January 31, 1998.

(b) Notwithstanding Section 54902, 54902.1, or 54903 of the Government Code, the unification of the Eureka City High School District and the Eureka City Elementary District, forming the Eureka Unified School District, with the approval of the voters on November 4, 1997, and by order of the Humboldt County Board of Supervisors on December 16, 1997, shall become effective for assessment and taxation purposes for the 1998–99 fiscal year, if the statement and map or plot required by Section 54900 of the

Government Code are filed with the assessor and the State Board of Equalization on or before January 31, 1998.

(c) This section shall become inoperative on February 1, 1998. This section shall remain in effect only until December 1, 1998, and as of that date is repealed. The inoperative date and repeal of this section shall not be construed to deprive any district of any substantial right that would have existed had the inoperative date and repeal not been effected.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

So that funds may be efficiently and equitably apportioned in February 1998 to certain school districts that were funded as large unified school districts in the 1996–97 school year but that were small unified school districts on the basis of actual 1996–97 school year average daily attendance and to allow the boundary and district changes described in Section 2 to be effective for assessment and taxation purposes for the 1998–99 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 2

An act to amend Section 14 of Chapter 7 of the 1997–98 First Extraordinary Session, relating to natural hazards, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 28, 1998. Filed with Secretary of State February 28, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 14 of Chapter 7 of the 1997–98 First Extraordinary Session, is amended to read:

Sec. 14. Sections 1, 2, 4, 7, 8, 9, 10, 11, and 12 of Chapter 7 of the 1997–98 First Extraordinary Session shall become operative on June 1, 1998.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide real estate licensees, local public entities, and state agencies additional time to prepare to comply with the requirements of Chapter 7 of the Statutes of the First Extraordinary Session of 1997, it is necessary that this bill take effect immediately.

CHAPTER 3

An act to add and repeal Section 42250.2 of the Education Code, relating to school facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 2, 1998. Filed with Secretary of State March 2, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 42250.2 is added to the Education Code, to read:

42250.2. (a) Notwithstanding any other provision of law, the State Allocation Board may waive the repayment requirement set forth in subdivision (c) of Section 42250.1 for the Amador County Unified School District if the State Allocation Board finds that there is hardship due to declining enrollment or no growth. The authority to waive provided by this section shall apply only to funds allocated in accordance with Section 42250.1 to the Amador County Unified School District during the 1993–94 and 1994–95 school years.

(b) This section shall remain in effect only until January 1, 2000, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2000, deletes or extends that date.

SEC. 2. Due to the unique circumstances of the Amador County Unified School District because of pupil enrollment demographics, the Legislature hereby finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution. This special legislation is, therefore, necessarily applicable only to the Amador County Unified School District.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the State Allocation Board to grant a repayment waiver to the Amador County Unified School District, which has suffered from declining enrollment, it is necessary for this act to take effect immediately.

CHAPTER 4

[Approved by Governor March 2, 1998. Filed with Secretary of State March 2, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Part 10.2 (commencing with Section 15710) of Division 3 of Title 2 of the Government Code is repealed.

SEC. 2. Section 63000 of the Government Code is amended to read:

63000. The Legislature finds and declares the following:

(a) Economic revitalization, future development, and a healthy climate for jobs in California will depend upon a well-conceived system of public improvements that are essential to the economic well-being of the citizens of the state and are necessary to maintain, as well as create, employment within the state for business.

(b) It is necessary for public policy to support the efforts of businesses attempting to expand, businesses seeking to locate in California, and local economic development organizations, public agencies, and new entrepreneurs by dedicating public fiscal resources to confront obstacles and barriers that impede economic growth.

(c) Existing mechanisms that coordinate federal, state, local, and private financial resources are inadequate to attract and sustain that level of private investment that is essential to a growth economy.

(d) In order to secure and enhance the economic well-being of Californians, promote economic development in the state, and provide a healthy climate for the creation of jobs, it is necessary for public policy to support the efforts of expanding businesses, businesses seeking to locate in California, local development organizations, public bodies, and new entrepreneurs to gain access to capital through current and potential operations of financial markets.

(e) The high cost and the lack of availability of industrial loans for small- and medium-size businesses is making it difficult for thousands of these enterprises to get established, to maintain their present employment levels, or to expand employment.

(f) The problem of access to capital is acute in the high technology industry clusters because companies must often finance large capital expenditures early in their development cycle, and cannot obtain

financing sufficient to cover the cost of those expenditures. Consideration should be given to industry clusters identified by the Economic Strategy Panel that may include the following:

(1) Health care technology.

(2) Multimedia.

(3) Environmental technology.

(4) Information technology.

(g) The high cost and limited availability of loans and capital has led a number of states to take action to remedy these conditions through concerted public and private investment programs that include efforts to do the following:

(1) Use the state's access to capital markets more effectively for economic development.

(2) Create financing pools to access national capital markets or help government sponsors and public-private economic development organizations obtain credit enhancement on their own.

(3) Facilitate credit enhancement for selected specific projects.

(4) Provide or arrange for loan insurance.

(5) Create and support secondary markets for loan portfolios of urban and rural economic development corporations and others.

(6) Improve access to international capital markets.

(7) Provide opportunities for public pension funds and other institutional investors to play a larger role in state economic development.

(8) Arrange for or provide subordinated debt for selected projects.

(9) Increase support for local infrastructure development.

(h) Local governments in California bear a primary responsibility for the business of promoting job creation and economic development efforts. California's continued reliance on autonomous local entities often fails to adequately consider regional impacts of business expansion. Projects of a regional nature need the benefit of a state coordinating function to augment and enhance local economic development and environmental efforts.

(i) The State of California has not embarked on a major infrastructure financing effort since the decade of the 1960's, despite persistent unemployment and soaring population growth.

(j) California's ability to compete in a global economy depends upon its capacity to implement policies that take maximum advantage of public and private resources at the local, regional, state, and national levels. These policies should be coordinated with any future legislative plan involving growth management strategies designed to make economic growth compatible with environmental protections. It is the intent of the Legislature in enacting this act to create a mechanism to finance projects needed to implement economic development and job creation and growth management strategies, and to provide a secure and stable funding source for

implementation of this act in order to meet critical economic, social, and environmental concerns.

(k) The State of California needs a financing entity structured with broad authority to issue bonds, provide guarantees, and leverage state and federal funds using techniques that will target public investment to facilitate economic development. The goal is to produce more private sector jobs with less public sector investment.

(*l*) The mechanisms for financing public improvements and private job creation strategies provided for in this act are in the public interest, serve a public purpose, and will promote the health, welfare, and safety of the citizens of the state.

(m) The public policies and responsibilities of the state, including all of the above purposes and functions, cannot be fully obtained without the use of financing assistance and can be most effectively furthered by the creation of the California Infrastructure and Economic Development Bank.

SEC. 3. Section 63001 of the Government Code is repealed.

CHAPTER 3. WELFARE-TO-WORK GRANT PROGRAM

10000. It is the intent of the Legislature, in enacting this chapter, to implement federal welfare-to-work grant program provisions provided for pursuant to the federal Balanced Budget Act of 1997 (Public Law 105-33).

10001. There is hereby appropriated from moneys in the Federal Trust Fund received from the United States Department of Labor pursuant to the federal welfare-to-work grant program, to the department the sum of one hundred sixty-one million eight hundred fifty-five thousand dollars ($161,855,000), for the 1997–98 fiscal year, in order to implement the federal welfare-to-work program. Moneys appropriated pursuant to this section shall be allocated by the department in accordance with this chapter and Public Law 105-33. The funds appropriated pursuant to this section shall be used to supplement and support activities to transition individuals eligible under the federal welfare-to-work program into self-sufficiency.

10002. To the extent permitted by federal law, the department shall do all of the following in implementing this chapter:

(a) Certify that each local welfare-to-work plan has been approved, as evidenced by signatures of the chairperson of the private industry council or the alternate local administrative entity designated by the Governor to administer the local welfare-to-work program, and the chief local elected official of the affected

jurisdiction, and by approval by the county board of supervisors at a public meeting.

(b) Certify that the plan demonstrates evidence of collaboration between local work force and development partners and local economic development organizations.

(c) Allow multiple private industry councils or the alternate administrative entities designated by the Governor, within a single county, to combine their welfare-to-work grant program plans into a single, countywide welfare-to-work grant program plan that is signed by all affected private industry councils or alternate local administrative entities and the chief local elected officials in the affected jurisdictions, and that includes an approval by the county board of supervisors at a public meeting. The combined welfare-to-work plan shall describe the overall approach to be taken in the county, the coordination efforts that have been made in developing the plan, any uniform agreements reached with the county welfare department, regarding referral and case management, and any common definitions that will be used by all private industry councils or alternate local administrative entities. All other requirements contained in the local welfare-to-work grant plan instructions shall be clearly delineated for each private industry council or alternate local administrative entity, including identification of the responsible entity's target population to be served, the activities that will be offered, performance goals, and expenditure and participant planning information.

(d) Certify that the private industry council or the alternate local administrative entity designated by the Governor, and the county welfare department, through a local joint planning process, have developed protocols for the identification and referral of clients and the provision of welfare-to-work services, as a condition for the receipt of those federal funds.

(e) Develop procedures to recapture unused funds and redistribute them to private industry councils or alternate local administrative entities designated by the Governor, which demonstrate a continued need for additional funds.

(f) Certify that the plan documents collaboration with the local lead agency responsible for coordination with the welfare-to-work job creation task force, established pursuant to paragraph (1) of subdivision (g) of Section 15365.55 of the Government Code.

10003. (a) Subject to subdivision (d), the department shall distribute 85 percent of the federal welfare-to-work grant funds to private industry councils or alternate local administrative entities designated by the Governor, according to the variables defined in the federal welfare-to-work program, and consistent with the following formula:

(1) A weight of 55 percent shall be given based on the relative number, as determined pursuant to federal law, by which the

population in the area below the poverty line exceeds 7.5 percent of the total population.

(2) A weight of 30 percent shall be based upon the relative number of adults residing in the plan's service area who are receiving assistance under a state program funded in part through the federal Temporary Assistance for Needy Families grant program or the federal Aid to Families with Dependent Children Program for at least 30 months.

(3) A weight of 15 percent shall be based upon the relative number, as determined pursuant to federal law, of unemployed individuals residing in the plan's service area.

(b) Changes in the allocation formula established pursuant to subdivision (a) that may be needed for subsequent fiscal years may be implemented by the department only after public hearings have been conducted regarding the proposed changes. Any change in that allocation formula may be implemented not sooner than 30 days after notification in writing to the chairperson of the committee in each house of the Legislature that considers appropriations, the chairpersons of the appropriate committees and subcommittees in each house of the Legislature that considers the State Budget, and the Chairperson of the Joint Legislative Budget Committee, or not sooner than whatever lesser time the Chairperson of the Joint Legislative Budget Committee or his or her designee, may in each instance determine.

(c) Subject to subdivision (d), the department, at the direction of the Governor, shall distribute the remaining 15 percent of federal welfare-to-work grant funds, less the amount necessary to administer the program, to state and local projects that will assist in moving eligible participants into unsubsidized employment. The Governor shall take into special consideration the needs of rural areas in distributing funds under this subdivision. Funds allocated pursuant to this subdivision shall be distributed to employers, private nonprofit organizations, and for-profit and public entities. Payments of these funds shall be contingent upon performance outcomes. Proposals submitted for state and local projects shall include, at a minimum, comments by the local private industry council or alternate local administrative entity, and the county welfare department, to ensure that grants that are approved will be consistent with local plans for moving eligible participants into unsubsidized employment.

(d) Not more than 15 percent of federal welfare-to-work funds may be retained by the department for the cost of state administration of the welfare-to-work program.

10004. (a) On April 1, 1999, and on April 1 of each year thereafter, the department shall submit an annual report to the Legislature on the effectiveness of the program provided for under this chapter and the status of the federal welfare-to-work grant program funds allotted to this state.

(b) The report shall include information from the prior year, as compiled by, each service delivery area, on all of the following:

The unit of general local government or each unit of general local government that is a member of a consortium described in Section 15025, and which shall be represented by the chief local elected official described in subsection (c) of Section 103 of the federal Job Training Partnership Act (29 U.S.C. Sec. 1513(c)), shall be liable to the department for all federal welfare-to-work funds distributed pursuant to Section 10003 that are not expended in accordance with this chapter and federal welfare-to-work grant program provisions.

SEC. 2. Section 10531 of the Welfare and Institutions Code is amended to read:

10531. Each county shall develop a plan consistent with state law that describes how the county intends to deliver the full range of activities and services necessary to move CalWORKs recipients from welfare to work. The plan shall be updated as needed. The plan shall describe:

(m) How the county will assist families that are transitioning off aid.

(o) Other elements identified by the director, in consultation with the steering committee under Section 10544.5, including elements related to the performance outcomes listed in Sections 10540 and 10541.

(d) (1) If the employment of any qualified disadvantaged individual, with respect to whom qualified wages are taken into account under subdivision (b) is terminated by the qualified taxpayer at any time during the first 270 days of that employment (whether or not consecutive) or before the close of the 270th calendar day after the day in which that qualified disadvantaged individual completes 90 days of employment with the qualified taxpayer, the tax imposed by this part for the taxable year in which that employment is terminated shall be increased by an amount equal to the credit allowed under subdivision (a) for that taxable year and all prior taxable years attributable to qualified wages paid or incurred with respect to that qualified disadvantaged individual.

The credit shall be applied first to the earliest taxable years possible.

(h) (1) The amount of credit otherwise allowed under this section, including prior year credit carryovers, that may reduce the

(i) If the taxpayer is allowed a credit pursuant to this section for qualified wages paid or incurred, only one credit shall be allowed to the taxpayer under this part with respect to any wage consisting in whole or in part of those qualified wages.

credit, if any, in succeeding years, until the credit is exhausted. The credit shall be applied first to the earliest income years possible.

(g) (1) The amount of credit otherwise allowed under this section, including prior year credit carryovers, that may reduce the "tax" for the income year shall not exceed the amount of tax that would be imposed on the qualified taxpayer's business income attributed to a Manufacturing Enhancement Area determined as if that attributed income represented all of the net income of the qualified taxpayer subject to tax under this part.

(3) The portion of any credit remaining, if any, after application of this subdivision, shall be carried over to succeeding income years, as if it were an amount exceeding the "tax" for the income year, as provided in subdivision (g).

(h) If the taxpayer is allowed a credit pursuant to this section for qualified wages paid or incurred, only one credit shall be allowed to the taxpayer under this part with respect to any wage consisting in whole or in part of those qualified wages.

CHAPTER 8

An act to add Sections 2541.1 and 2559.6 to the Business and Professions Code, relating to healing arts.

[Approved by Governor March 16, 1998. Filed with Secretary of State March 17, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 2541.1 is added to the Business and Professions Code, to read:

2541.1. (a) A spectacle lens prescription shall include all of the following:

(1) The dioptric power of the lens. When the prescription needed by the patient has not changed since the previous examination, the prescriber may write on the prescription form "copy lenses currently worn" instead.

(2) The expiration date of the prescription.

(3) The date of the issuance of the prescription.

(4) The name, address, telephone number, prescriber's license number, and signature of the prescribing optometrist or physician and surgeon.

(5) The name of the person to whom the prescription is issued.

(b) The expiration date of a spectacle lens prescription shall not be less than two to four years from the date of issuance unless the patient's history or current circumstances establish a reasonable probability of changes in the patient's vision of sufficient magnitude to necessitate reexamination earlier than two years, or presence or probability of visual abnormalities related to ocular or systemic disease indicates, the need for reexamination of the patient earlier than two years. In no circumstances shall the expiration date be shorter than the period of time recommended by the prescriber for reexamination of the patient. Establishing an expiration date that is not consistent with this section shall be regarded as unprofessional conduct by the board that issued the prescriber's certificate to practice.

(c) The prescriber of a spectacle lens shall orally inform the patient of the expiration date of a spectacle lens prescription at the time the prescription is issued. The expiration date of a prescription may be extended by the prescriber and transmitted by telephone,

electronic mail, or any other means of communication. An oral prescription for a spectacle lens shall be reduced to writing and a copy of that writing shall be sent to the prescriber prior to the delivery of the lenses to the person to whom the prescription is issued.

(d) A prescriber of a spectacle lens shall abide by the rules pertaining to spectacle lens prescriptions and eye examinations adopted by the Federal Trade Commission found in Part 456 of Title 16 of the Code of Federal Regulations.

(e) An expired prescription may be filled if all of the following conditions exist:

(1) The patient's spectacles are lost, broken, or damaged to a degree that renders them unusable.

(2) Upon dispensing a prescription pursuant to this subdivision, the person dispensing shall recommend that the patient return to the optometrist or physician and surgeon who issued the prescription for an eye examination and provide the prescriber with a written notification of the prescription that was filled.

SEC. 2. Section 2559.6 is added to the Business and Professions Code, to read:

2559.6. No spectacle lens prescription that is issued on or after January 1, 1999, shall be dispensed unless the prescription meets the requirements of Section 2541.1. No spectacle lens prescription shall be dispensed after the expiration date of the prescription unless authorized pursuant to subdivision (e) of Section 2541.1. A person violating this section shall not be guilty of a misdemeanor pursuant to Section 2558. A violation of this section shall be considered unprofessional conduct by the board that issued the dispenser's certificate to practice. A registered dispensing optician may defend this proceeding by establishing that the expiration date of the prescription was not established consistent with Section 2541.1. Nothing in this section shall be construed to authorize a registered dispensing optician to fill a prescription after the expiration date or to make any judgment regarding the appropriateness of the expiration date.

CHAPTER 9

An act to amend Sections 12206, 17058, and 23610.5 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor March 25, 1998. Filed with Secretary of State March 26, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 12206 of the Revenue and Taxation Code is amended to read:

12206. (a) (1) There shall be allowed as a credit against the "tax" (as defined by Section 12201) a state low-income housing tax credit in an amount equal to the amount determined in subdivision (c), computed in accordance with Section 42 of the Internal Revenue Code, except as otherwise provided in this section.

(2) "Taxpayer," for purposes of this section, means the sole owner in the case of a C corporation, the partners in the case of a partnership, and the shareholders in the case of an S corporation.

(3) "Housing sponsor," for purposes of this section, means the sole owner in the case of a C corporation, the partnership in the case of a partnership, and the S corporation in the case of an S corporation.

(b) (1) The amount of the credit allocated to any housing sponsor shall be authorized by the California Tax Credit Allocation Committee, or any successor thereof, based on a project's need for the credit for economic feasibility in accordance with the requirements of this section.

(A) The low-income housing project shall be located in California and shall meet either of the following requirements:

(i) The project's housing sponsor shall have been allocated by the California Tax Credit Allocation Committee a credit for federal income tax purposes under Section 42 of the Internal Revenue Code.

(ii) It shall qualify for a credit under Section 42(h)(4)(B) of the Internal Revenue Code.

(B) The California Tax Credit Allocation Committee shall not require fees for the credit under this section in addition to those fees required for applications for the tax credit pursuant to Section 42 of the Internal Revenue Code. The committee may require a fee if the application for the credit under this section is submitted in a calendar year after the year the application is submitted for the federal tax credit.

(2) (A) The California Tax Credit Allocation Committee shall certify to the housing sponsor the amount of tax credit under this section allocated to the housing sponsor for each credit period.

(B) In the case of a partnership or an S corporation, the housing sponsor shall provide a copy of the California Tax Credit Allocation Committee certification to the taxpayer.

(C) The taxpayer shall attach a copy of the certification to any return upon which a tax credit is claimed under this section.

(D) In the case of a failure to attach a copy of the certification for the year to the return in which a tax credit is claimed under this section, no credit under this section shall be allowed for that year until a copy of that certification is provided.

(E) All elections made by the taxpayer pursuant to Section 42 of the Internal Revenue Code shall apply to this section.

(F) No credit shall be allocated under this section to buildings located in a difficult development area or a qualified census tract as defined in Section 42 of the Internal Revenue Code for which the eligible basis of a new building or the rehabilitation expenditure of an existing building is 130 percent of that amount pursuant to Section 42(d)(5)(C) of the Internal Revenue Code, unless the committee reduces the amount of federal credit, with the approval of the applicant, so that the combined amount of federal and state credit shall not exceed the total credit allowable pursuant to this section and Section 42(b) of the Internal Revenue Code, computed without regard to Section 42(d)(5)(C) of the Internal Revenue Code.

(c) Section 42(b) of the Internal Revenue Code shall be modified as follows:

(1) In the case of any qualified low-income building that receives an allocation after 1989 and is a new building not federally subsidized, the term "applicable percentage" means the following:

(A) For each of the first three years, the percentage prescribed by the Secretary of the Treasury for new buildings that are not federally subsidized for the taxable year, determined in accordance with the requirements of Section 42(b)(2) of the Internal Revenue Code, in lieu of the percentage prescribed in Section 42(b)(1)(A) of the Internal Revenue Code.

(B) For the fourth year, the difference between 30 percent and the sum of the applicable percentages for the first three years.

(2) In the case of any qualified low-income building that receives an allocation after 1989 and that is a new building that is federally subsidized or that is an existing building that is "at risk of conversion," the term "applicable percentage" means the following:

(A) For each of the first three years, the percentage prescribed by the Secretary of the Treasury for new buildings that are federally subsidized for the taxable year.

(B) For the fourth year, the difference between 13 percent and the sum of the applicable percentages for the first three years.

(3) For purposes of this section, the term "at risk of conversion," with respect to an existing building means a building that satisfies all of the following criteria:

(A) The building is presently owned by a housing sponsor other than a qualified nonprofit organization.

(B) The building is a federally assisted building for which the low-income use restrictions will terminate or the mortgage on the building is eligible for incentives under Subtitle 13 of the Emergency Low Income Housing Assistance Act of 1987 or under Section 502(c) of the Housing Act of 1949, anytime in the two calendar years after the year of application to the California Tax Credit Allocation Committee, and the purchaser has received preliminary approval from the applicable federal agency for a maximum level of incentives through a plan of action.

(C) The person acquiring the building enters into a regulatory agreement that requires the building to be operated in accordance with the requirements of this section for a period equal to the greater of 55 years or the life of the building.

(D) The building satisfies the requirements of Section 42(e) of the Internal Revenue Code regarding rehabilitation expenditures, except that the provisions of Section 42(e)(3)(A)(ii)(I) shall not apply.

(d) The term "qualified low-income housing project" as defined in Section 42(c)(2) of the Internal Revenue Code is modified by adding the following requirements:

(1) The taxpayer shall be entitled to receive a cash distribution from the operations of the project, after funding required reserves, which, at the election of the taxpayer, is equal to:

(A) An amount not to exceed 8 percent of the lesser of:

(i) The owner equity which shall include the amount of the capital contributions actually paid to the housing sponsor and shall not include any amounts until they are paid on an investor note; or

(ii) Twenty percent of the adjusted basis of the building as of the close of the first income year of the credit period; or

(B) The amount of the cash-flow from those units in the building that are not low-income units. For purposes of computing cash-flow under this subparagraph, operating costs shall be allocated to the low-income units using the "floor space fraction," as defined in Section 42 of the Internal Revenue Code.

(C) Any amount allowed to be distributed under subparagraph (A) that is not available for distribution during the first five years of the compliance period may accumulate and be distributed any time during the first 15 years of the compliance period but not thereafter.

(2) The limitation on return shall apply in the aggregate to the partners if the housing sponsor is a partnership and in the aggregate to the shareholders if the housing sponsor is an S corporation.

(3) The housing sponsor shall apply any cash available for distribution in excess of the amount eligible to be distributed under paragraph (1) to reduce the rent on rent-restricted units or to increase the number of rent-restricted units subject to the tests of Section 42(g)(1) of the Internal Revenue Code.

(e) The provisions of Section 42(f) of the Internal Revenue Code shall be modified as follows:

(1) The term "credit period" as defined in Section 42(f)(1) of the Internal Revenue Code is modified by substituting "four income years" for "10 taxable years."

(2) The special rule for the first taxable year of the credit period under Section 42(f)(2) of the Internal Revenue Code shall not apply to the tax credit under this section.

(3) Section 42(f)(3) of the Internal Revenue Code is modified to read:

If, as of the close of any income year in the compliance period, after the first year of the credit period, the qualified basis of any building exceeds the qualified basis of that building as of the close of the first year of the credit period, the housing sponsor, to the extent of its tax credit allocation, shall be eligible for a credit on the excess in an amount equal to the applicable percentage determined pursuant to subdivision (c) for the four-year period beginning with the later of the income years in which the increase in qualified basis occurs.

(f) The provisions of Section 42(h) of the Internal Revenue Code shall be modified as follows:

(1) Section 42(h)(2) of the Internal Revenue Code shall not be applicable and instead the following provisions shall be applicable:

The total amount for the four-year credit period of the housing credit dollars allocated in a calendar year to any building shall reduce the aggregate housing credit dollar amount of the California Tax Credit Allocation Committee for the calendar year in which the allocation is made.

(2) Paragraphs (3), (4), (5), (6)(E)(i)(II), (6)(F), (6)(G), (6)(I), (7), and (8) of Section 42(h) of the Internal Revenue Code shall not be applicable.

(g) The aggregate housing credit dollar amount that may be allocated annually by the California Tax Credit Allocation Committee pursuant to this section, Section 17058, and Section 23610.5 shall be an amount equal to the sum of the following:

(1) (A) Except as provided in subparagraph (B), thirty-five million dollars ($35,000,000) for the 1997 calendar year, and each calendar year thereafter.

(B) Fifty million dollars ($50,000,000) for each of the calendar years 1998 and 1999.

(2) The unused housing credit ceiling, if any, for the preceding calendar years.

(3) The amount of housing credit ceiling returned in the calendar year. For purposes of this paragraph, the amount of housing credit dollar amount returned in the calendar year equals the housing credit dollar amount previously allocated to any project that does not become a qualified low-income housing project within the period required by this section or to any project with respect to which an allocation is canceled by mutual consent of the California Tax Credit Allocation Committee and the allocation recipient.

(h) The term "compliance period" as defined in Section 42(i)(1) of the Internal Revenue Code is modified to mean, with respect to any building, the period of 30-consecutive income years beginning with the first income year of the credit period with respect thereto.

(i) (1) Section 42(j) of the Internal Revenue Code shall not be applicable and the provisions in paragraph (2) shall be substituted in its place.

(2) The requirements of this section shall be set forth in a regulatory agreement between the California Tax Credit Allocation

Committee and the housing sponsor, which agreement shall be subordinated, when required, to any lien or encumbrance of any banks or other institutional lenders to the project. The regulatory agreement entered into pursuant to subdivision (f) of Section 50199.14 of the Health and Safety Code, shall apply, providing the agreement includes all of the following provisions:

(A) A term not less than the compliance period.

(B) A requirement that the agreement be filed in the official records of the county in which the qualified low-income housing project is located.

(C) A provision stating which state and local agencies can enforce the regulatory agreement in the event the housing sponsor fails to satisfy any of the requirements of this section.

(D) A provision that the regulatory agreement shall be deemed a contract enforceable by tenants as third-party beneficiaries thereto and which allows individuals, whether prospective, present, or former occupants of the building, who meet the income limitation applicable to the building, the right to enforce the regulatory agreement in any state court.

(E) A provision incorporating the requirements of Section 42 of the Internal Revenue Code as modified by this section.

(F) A requirement that the housing sponsor notify the California Tax Credit Allocation Committee or its designee and the local agency that can enforce the regulatory agreement if there is a determination by the Internal Revenue Service that the project is not in compliance with Section 42(g) of the Internal Revenue Code.

(G) A requirement that the housing sponsor, as security for the performance of the housing sponsor's obligations under the regulatory agreement, assign the housing sponsor's interest in rents that it receives from the project, provided that until there is a default under the regulatory agreement, the housing sponsor is entitled to collect and retain the rents.

(H) The remedies available in the event of a default under the regulatory agreement that is not cured within a reasonable cure period, include, but are not limited to, allowing any of the parties designated to enforce the regulatory agreement to collect all rents with respect to the project; taking possession of the project and operating the project in accordance with the regulatory agreement until the enforcer determines the housing sponsor is in a position to operate the project in accordance with the regulatory agreement; applying to any court for specific performance; securing the appointment of a receiver to operate the project; or any other relief as may be appropriate.

(j) (1) The committee shall allocate the housing credit on a regular basis consisting of two or more periods in each calendar year during which applications may be filed and considered. The committee shall establish application filing deadlines, the maximum percentage of federal and state low-income housing tax credit ceiling

which may be allocated by the committee in that period, and the approximate date on which allocations shall be made. If the enactment of federal or state law, the adoption of rules or regulations, or other similar events prevent the use of two allocation periods, the committee may reduce the number of periods and adjust the filing deadlines, maximum percentage of credit allocated, and the allocation dates.

(2) The committee shall adopt a qualified allocation plan, as provided in Section 42(m)(1) of the Internal Revenue Code. In adopting this plan, the committee shall comply with the provisions of Sections 42(m)(1)(B) and 42(m)(1)(C) of the Internal Revenue Code.

(3) Notwithstanding Section 42(m) of the Internal Revenue Code, the California Tax Credit Allocation Committee shall allocate housing credits in accordance with the qualified allocation plan and regulations, which shall include the following provisions:

(A) All housing sponsors, as defined by paragraph (3) of subdivision (a), shall demonstrate at the time the application is filed with the committee that the project meets the following threshold requirements:

(i) The housing sponsor shall demonstrate there is a need and demand for low-income housing in the community or region for which it is proposed.

(ii) The project's proposed financing, including tax credit proceeds, shall be sufficient to complete the project and that the proposed operating income shall be adequate to operate the project for the extended use period.

(iii) The project shall have enforceable financing commitments, either construction or permanent financing, for at least 50 percent of the total estimated financing of the project.

(iv) The housing sponsor shall have and maintain control of the site for the project.

(v) The housing sponsor shall demonstrate that the project complies with all applicable local land use and zoning ordinances.

(vi) The housing sponsor shall demonstrate that the project development team has the experience and the financial capacity to ensure project completion and operation for the extended use period.

(vii) The housing sponsor shall demonstrate the amount of tax credit that is necessary for the financial feasibility of the project and its viability as a qualified low-income housing project throughout the extended use period, taking into account operating expenses, a supportable debt service, reserves, funds set aside for rental subsidies, and required equity, and a development fee that does not exceed a specified percentage of the eligible basis of the project prior to inclusion of the development fee in the eligible basis, as determined by the committee.

(B) The committee shall give a preference to those projects satisfying all of the threshold requirements of subparagraph (A) if:

(i) The project serves the lowest income tenants at rents affordable to those tenants; and

(ii) The project is obligated to serve qualified tenants for the longest period.

(C) In addition to the provisions of subparagraphs (A) and (B), the committee shall use the following criteria in allocating housing credits:

(i) Projects serving large families in which a substantial number, as defined by the committee, of all residential units is comprised of low-income units with three and more bedrooms.

(ii) Projects providing single room occupancy units serving very low income tenants.

(iii) Existing projects that are "at risk of conversion," as defined by paragraph (4) of subdivision (c).

(iv) Projects for which a public agency provides direct or indirect long-term financial support for at least 15 percent of the total project development costs or projects for which the owner's equity constitutes at least 30 percent of the total project development costs.

(v) Projects that provide tenant amenities not generally available to residents of low-income housing projects.

(4) For purposes of allocating credits pursuant to this section, the committee shall not give preference to any project by virtue of the date of submission of its application except to break a tie when two or more of the projects have an equal rating.

(C) Any amount allowed to be distributed under subparagraph (A) that is not available for distribution during the first five years of the compliance period may be accumulated and distributed any time during the first 15 years of the compliance period but not thereafter.

(2) The limitation on return shall apply in the aggregate to the partners if the housing sponsor is a partnership and in the aggregate to the shareholders if the housing sponsor is an S corporation.

For purposes of this paragraph, the amount of housing credit dollar amount returned in the calendar year equals the housing credit dollar amount previously allocated to any project that does not become a qualified low-income housing project within the period required by this section or to any project with respect to which an allocation is canceled by mutual consent of the California Tax Credit Allocation Committee and the allocation recipient.

(h) The term "compliance period" as defined in Section 42(i)(1) of the Internal Revenue Code is modified to mean, with respect to any building, the period of 30 consecutive taxable years beginning with the first taxable year of the credit period with respect thereto.

(8) The remedies available in the event of a default under the regulatory agreement that is not cured within a reasonable cure period, include, but are not limited to, allowing any of the parties designated to enforce the regulatory agreement to collect all rents with respect to the project; taking possession of the project and operating the project in accordance with the regulatory agreement until the enforcer determines the housing sponsor is in a position to operate the project in accordance with the regulatory agreement; applying to any court for specific performance; securing the appointment of a receiver to operate the project; or any other relief as may be appropriate.

(B) The committee shall give a preference to those projects satisfying all of the threshold requirements of subparagraph (A) if:

(i) The project serves the lowest income tenants at rents affordable to those tenants; and

(ii) The project is obligated to serve qualified tenants for the longest period.

(C) In addition to the provisions of subparagraphs (A) and (B), the committee shall use the following criteria in allocating housing credits:

(B) The committee shall give a preference to those projects satisfying all of the threshold requirements of subparagraph (A) if:

(i) The project serves the lowest income tenants at rents affordable to those tenants; and

(ii) The project is obligated to serve qualified tenants for the longest period.

(C) In addition to the provisions of subparagraphs (A) and (B), the committee shall use the following criteria in allocating housing credits:

(i) Projects serving large families in which a substantial number, as defined by the committee of all residential units is comprised of low-income units with three and more bedrooms.

(ii) Projects providing single room occupancy units serving very low income tenants.

(iii) Existing projects that are "at risk of conversion," as defined by paragraph (4) of subdivision (c).

(v) Projects that provide tenant amenities not generally available to residents of low-income housing projects.

(4) For purposes of allocating credits pursuant to this section, the committee shall not give preference to any project by virtue of the date of submission of its application except to break a tie when two or more of the projects have an equal rating.

(5) Not less than 20 percent of the low-income housing tax credits available annually under this section, Section 12206, and Section 17058 shall be set aside for allocation to rural areas as defined in Section 50199.21 of the Health and Safety Code. Any amount of credit set aside for rural areas remaining on or after October 31 of any calendar year shall be available for allocation to any eligible project. (k) Section 42(*l*) of the Internal Revenue Code shall be modified as follows:

The term "secretary" shall be replaced by the term "California Franchise Tax Board."

(*l*) In the case where the state credit allowed under this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(m) A project that received an allocation of a 1989 federal housing credit dollar amount shall be eligible to receive an allocation of a 1990 state housing credit dollar amount, subject to all of the following conditions:

(1) The project was not placed in service prior to 1990.

(2) To the extent the amendments made to this section by the Statutes of 1990 conflict with any provisions existing in this section prior to those amendments, the prior provisions of law shall prevail.

(3) Notwithstanding paragraph (2), a project applying for an allocation under this subdivision shall be subject to the requirements of paragraph (3) of subdivision (j).

(n) The credit period with respect to an allocation of credit in 1989 by the California Tax Credit Allocation Committee of which any

(o) The provisions of Section 11407(a) of Public Law 101-508, relating to the effective date of the extension of the low-income housing credit, shall apply to calendar years after 1989.

(p) The provisions of Section 11407(c) of Public Law 101-508, relating to election to accelerate credit, shall not apply.

(q) (1) A corporation may elect to assign any portion of any credit allowed under this section to one or more affiliated corporations for each income year in which the credit is allowed. For purposes of this subdivision, "affiliated corporation" has the meaning provided in subdivision (b) of Section 25110, as that section was amended by Chapter 881 of the Statutes of 1993, as of the last day of the income year in which the credit is allowed, except that "100 percent" is substituted for "more than 50 percent" wherever it appears in the section, as that section was amended by Chapter 881 of the Statutes of 1993, and "voting common stock" is substituted for "voting stock" wherever it appears in the section, as that section was amended by Chapter 881 of the Statutes of 1993.

(2) The election provided in paragraph (1):

(A) May be based on any method selected by the corporation that originally receives the credit.

(B) Shall be irrevocable for the income year the credit is allowed, once made.

(C) May be changed for any subsequent income year if the election to make the assignment is expressly shown on each of the returns of the affiliated corporations that assign and receive the credits.

(r) Any unused credit may continue to be carried forward, as provided in subdivision (k), until the credit has been exhausted.

This section shall remain in effect on or after December 1, 1990, for as long as Section 42 of the Internal Revenue Code, pertaining to low-income housing credits, remains in effect.

(s) The amendments to this section made by the act adding this subdivision shall apply only to income years beginning on or after January 1, 1994, except that paragraph (1) of subdivision (q), as amended, shall apply to income years beginning on or after January 1, 1993.

SEC. 4. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall be operative for tax years, taxable years, or income years beginning on or after January 1, 1998.

(3) "Substantially complete" means that a notice and application contain all requirements as set forth in the regulations of the commissioner.

(b) Upon receipt of a notice of intention pursuant to Section 11010 and an application for issuance of a public report, the commissioner shall review the notice and application to determine if the notice and application are substantially complete, with respect to quantitative requirements. The commissioner shall notify the applicant in writing of that determination within 10 days of receipt of the notice and application.

(1) If the notice and application are not substantially complete with respect to the quantitative requirements pursuant to this subdivision, the notification shall specify the information needed to make the notice and application substantially complete. Upon receipt of any resubmittal of a notice and application, the commissioner shall notify the applicant in writing of that determination within 10 days of receipt of the notice and application.

(2) If the commissioner determines that the notice and application are substantially complete with respect to the quantitative requirements pursuant to this subdivision, the commissioner shall provide the applicant with a list of all deficiencies and substantive inadequacies necessary for the notice and application to be qualitatively complete, within 60 days of that determination, in the case of subdivisions specified in Section 11000.1 or 11004.5, and within 20 days of that determination, in the case of other subdivisions.

(c) Upon receipt of all documents, materials, writings, and other information submitted in response to the list in paragraph (2) of subdivision (b), the commissioner shall notify the applicant whether the notice and application are qualitatively complete within 30 days, in the case of subdivisions specified in Section 11000.1 or 11004.5, and within 20 days of receipt, in the case of other subdivisions. Upon receipt of any resubmittal of documents, materials, writings, and other information in response to a list of any remaining deficiencies and substantive inadequacies, the

commissioner shall provide notification within the time limits specified in this subdivision.

(d) The commissioner shall issue a public report within 15 days, in the case of a subdivision specified in Section 11000.1 or 11004.5, or 10 days, in the case of other subdivisions, after the notice and application are determined to be qualitatively and substantially complete, and submittal of recorded or filed instruments and evidence of financial arrangements required by the commissioner.

(e) The commissioner shall adopt regulations, in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, that define "substantially complete" and that list all the requirements necessary for a notice of intention and application to be considered "substantially complete."

(f) The commissioner may adopt emergency regulations, in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, to increase, as set forth below, those time periods specified in subdivisions (b), (c), and (d), upon a showing that the number of notices of intention and applications for a subdivision public report filed with the department for any immediately preceding six-month period has increased by more than 15 percent over the monthly average number of notices and applications filed for the base period commencing July 1, 1983, and ending June 30, 1986:

This section does not apply to filings made exclusively under Section 11010.1. Nothing in this section requires the commissioner to issue a public report where grounds for denial exist, provided that issuance of a public report shall not be denied for inadequate information if the cause thereof is the commissioner's failure to comply with this section.

Notwithstanding other provisions of this section, the commissioner shall not be required to issue a public report if grounds for denial exist under Section 11018 or 11018.5. However, the commissioner may not base the denial of a public report on the lack of adequate information

if the commissioner has not acted within the time periods prescribed in this section.

SEC. 3. Section 11010.4 of the Business and Professions Code is amended to read:

11010.4. The notice of intention specified in Section 11010 is not required for a proposed offering of subdivided land that satisfies all of the following criteria:

The commissioner shall hold the hearing within 20 days thereafter unless the party requesting the hearing requests a postponement. If the hearing is not held within 20 days after request for a hearing is received plus the period of the postponement or if a proposed decision is not rendered within 45 days after submission and an order adopting or rejecting the proposed decision is not issued within 15 days thereafter, the order of denial shall be rescinded and a public report issued.

SEC. 5. Section 11018.12 of the Business and Professions Code is amended to read:

11018.12. (a) The commissioner may issue a conditional public report for a subdivision specified in Section 11004.5 if the requirements of subdivision (e) are met, all deficiencies and substantive inadequacies in the documents that are required to make an application for a final public report for the subdivision substantially complete have been corrected, the material elements of the setup of the offering to be made under the authority of the conditional public report have been established, and all requirements for the issuance of a public report set forth in the regulations of the commissioner have been satisfied, except for one or more of the following requirements, as applicable:

(8) Other requirements the commissioner determines are likely to be timely satisfied by the applicant, notwithstanding the fact that the failure to meet these requirements makes the application qualitatively incomplete.

(b) The commissioner may issue a conditional public report for a subdivision not referred to or specified in Section 11000.1 or 11004.5 if the requirements of subdivision (e) are met, all deficiencies and substantive inadequacies in the documents that are required to make an application for a final public report for the subdivision substantially complete have been corrected, the material elements of the setup of the offering to be made under the authority of the conditional public report have been established, and all requirements for issuance of a public report set forth in the regulations of the commissioner have been satisfied, except for one or more of the following requirements, as applicable:

(3) A current preliminary report of a licensed title insurance company issued after filing of the final map and recording of the declaration covering all subdivision interests to be included in the public report has not been provided.

(4) Other requirements the commissioner determines are likely to be timely satisfied by the applicant, notwithstanding the fact that the failure to meet these requirements makes the application qualitatively incomplete.

(c) A decision by the commissioner to not issue a conditional public report shall be noticed in writing to the applicant within five business days and that notice shall specifically state the reasons why the report is not being issued.

(d) Notwithstanding the provisions of Section 11018.2, a person may sell or lease, or offer for sale or lease, lots or parcels in a subdivision pursuant to a conditional public report if, as a condition of the sale or lease or offer for sale or lease, delivery of legal title or other interest contracted for will not take place until issuance of a public report and provided that the requirements of subdivision (e) are met.

(e) (1) Evidence shall be supplied that all purchase money will be deposited in compliance with subdivision (a) of Section 11013.2 or subdivision (a) of Section 11013.4, and in the case of a subdivision referred to in subdivision (a), evidence is given of compliance with paragraphs (1) and (2) of subdivision (a) of Section 11018.5.

(2) A description of the nature of the transaction shall be supplied.

(3) Provision shall be made for the return of the entire sum of money paid or advanced by the purchaser if a subdivision public report has not been issued within six months of the date of issuance of the conditional public report or the purchaser is dissatisfied with the public report because of a change pursuant to Section 11012.

(f) A subdivider, principal, or his or her agent shall provide a prospective purchaser a copy of the conditional public report and a written statement including all of the following:

(1) Specification of the information required for issuance of a public report.

(2) Specification of the information required in the public report that is not available in the conditional public report, along with a statement of the reasons why that information is not available at the time of issuance of the conditional public report.

CHAPTER 12

An act to amend Section 19568 of, and to add Section 19617.6 to, the Business and Professions Code, relating to horse racing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 1, 1998. Filed with Secretary of State April 1, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 19568 of the Business and Professions Code is amended to read:

19568. (a) Every licensee conducting a horseracing meeting shall, each racing day, provide for the running of at least one race limited to California-bred horses, to be known as the "California-bred race." If, however, sufficient competition cannot be had among horses of that class on any day, the race, with the consent of the board, may be eliminated for that day and a substitute race provided.

(b) For thoroughbred and quarter horse racing only, the total amount distributed to horsemen and horsewomen for California-bred stakes races from the purse account, including overnight stakes, shall be not less than 10 percent of the total amount distributed for all stakes races from the purse account, including overnight stakes races, at that meeting of the racing association licensed to conduct live racing.

(c) It is the intent of the Legislature that the thoroughbred racing associations in this state, in conjunction with the official registering agency, and owners and trainers organizations meet and report to the board on the establishment of a coordinated California-bred restricted schedule of stakes races designed to showcase California-bred restricted stakes races and qualify registered California-bred horses for the California Cup and the California Cup Day races. It is also the intent of the Legislature that the report be submitted to the board by March 1, 1997, and annually thereafter at least 60 days prior to the start of the racing year.

SEC. 2. Section 19617.6 is added to the Business and Professions Code, to read:

19617.6. (a) Since the purpose of this chapter is to encourage agriculture and the breeding of horses in this state, a sum equal to 10 percent of the first money of each purse won by a registered California-bred horse at a harness racing meeting shall be paid by the licensee conducting the meeting to the owner of the horse. This section applies to any California-bred standardbred horse for all races except the California Standardbred Sires Stakes races, other stakes races designed for California-bred standardbred horses, and late closing events and series conducted at the harness racing meetings in California.

(b) Each licensee conducting a harness race meeting shall pay the sums required to be paid in subdivision (a) out of the amount deducted for purses pursuant to subdivision (b) of Section 19612, Section 19612.6, and subdivision (d) of Section 19616.1.

(c) Funds paid to owners of California-bred standardbred horses pursuant to this section shall be distributed by the licensed harness racing association no later than 30 calendar days after the conclusion of the racing meeting.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to eliminate a hardship to the horse racing industry at the earliest possible time because of the application of provisions of subdivision (b) of Section 19568 by the California Horse Racing Board to harness and quarter horse racing in addition to thoroughbred racing, it is necessary that this act take effect immediately.

CHAPTER 13

(c) Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy.

(d) Contained in or related to:

(3) Subject to the restrictions of Section 841.5 of the Penal Code and this subdivision, the current address of every individual arrested by the agency and the current address of the victim of a crime, where the requester declares under penalty of perjury that the request is made for a scholarly, journalistic, political, or governmental purpose, or that the request is made for investigation purposes by a licensed private investigator as described in Chapter 11.3 (commencing with Section 7512) of Division 3 of the Business and Professions Code, except that the address of the victim of any crime defined by Section 220, 261, 262, 264, 264.1, 273a, 273d, 273.5, 286, 288, 288a, 289, 422.6, 422.7, 422.75, or 646.9 of the Penal Code shall remain confidential. Address information obtained pursuant to this paragraph shall not be used directly or indirectly to sell a product or service to any individual or group of individuals, and the requester shall execute a declaration to that effect under penalty of perjury.

CHAPTER 14

An act to add Section 784 to, and to repeal Section 1464 of, the Civil Code, and to amend Section 336 of the Code of Civil Procedure, relating to real property.

[Approved by Governor April 6, 1998. Filed with Secretary of State April 7, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 784 is added to the Civil Code, to read:

784. "Restriction," when used in a statute that incorporates this section by reference, means a limitation on, or provision affecting, the use of real property in a deed, declaration, or other instrument, whether in the form of a covenant, equitable servitude, condition subsequent, negative easement, or other form of restriction.

SEC. 2. Section 1464 of the Civil Code is repealed.

SEC. 3. Section 336 of the Code of Civil Procedure is amended to read:

336. Within five years:

(a) An action for mesne profits of real property.

(b) An action for violation of a restriction, as defined in Section 784 of the Civil Code. The period prescribed in this subdivision runs from the time the person seeking to enforce the restriction discovered or, through the exercise of reasonable diligence, should have discovered the violation. A failure to commence an action for violation of a restriction within the period prescribed in this subdivision does not waive the right to commence an action for any other violation of the restriction and does not, in itself, create an implication that the restriction is abandoned, obsolete, or otherwise unenforceable. This subdivision shall not bar commencement of an action for violation of a restriction before January 1, 2001, and until January 1, 2001, any other applicable statutory or common law limitation shall continue to apply to that action.

CHAPTER 15

An act to amend Section 7051.3 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 6, 1998. Filed with Secretary of State April 7, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 7051.3 of the Revenue and Taxation Code is amended to read:

7051.3. (a) "Use tax direct payment permit" means a permit issued by the board that allows a taxpayer to self-assess and pay state and local use tax under Part 1 (commencing with Section 6001), Part 1.5 (commencing with Section 7200), and if otherwise applicable, Part 1.6 (commencing with Section 7251), and Part 1.7 (commencing with Section 7280) directly to the board.

(b) Every person seeking to pay use taxes directly to the board shall file an application for a use tax direct payment permit. An application for a use tax direct payment permit shall be made upon a form prescribed by the board and shall set forth the name under which the applicant transacts or intends to transact business, the location of the place or places of business where the applicant intends to make direct payment of use tax, and any other information that the board may require. An applicant for a use tax direct payment permit may register as a place to make direct payment of use tax, any of the places of business in this state that the applicant expects to be a place of first use for purchases subject to use tax, in accordance with the requirements of subdivision (d). The application shall be signed by the owner, if a natural person; in the case of an association or partnership, by a member or partner; and in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application.

(c) Pursuant to an application, a use tax direct payment permit shall be issued to any person who meets all of the following conditions:

(1) The applicant agrees to self-assess and pay directly to the board any use tax liability incurred under this section.

(2) The applicant certifies to the board either of the following:

(A) The applicant is the purchaser for its own use or is the lessee of tangible personal property at a cost of five hundred thousand dollars ($500,000) or more in the aggregate, during the calendar year immediately preceding the application for the permit.

(B) The applicant is a county, city, city and county, or redevelopment agency.

(d) Any person who holds a valid use tax direct payment permit shall self-assess and pay directly to the board use taxes due under this part, Part 1.5 (commencing with Section 7200), and if otherwise applicable, Part 1.6 (commencing with Section 7251), and Part 1.7 (commencing with Section 7280) for all purchases subject to use tax for which a use tax direct payment exemption certificate was issued, and shall report on the tax return required to be filed by Section 6452, the amount of local use tax applicable to each county, city, city and county, or redevelopment agency in which the first "use," as defined in Section 6009, occurs.

(e) The board shall allow any holder of a use tax direct payment permit to issue a use tax direct payment certificate to any registered retailer or seller subject to all of the following:

(1) The use tax direct payment certificate shall be in a form prescribed by the board, and shall be signed by, and bear the name, address, and permit number of, the holder of the use tax direct payment permit.

(2) Once a use tax direct payment certificate has been issued by a holder of a use tax direct payment permit, it shall remain effective until revised or withdrawn by the holder of the permit or until the retailer or seller has received actual notice that the permit has been revoked by the board.

(3) A use tax direct payment certificate relieves a person selling property from the duty of collecting use tax only if taken in good faith from a person who holds a use tax direct payment permit. A purchaser who issues a use tax direct payment certificate that is accepted in good faith by a seller or retailer of tangible personal property shall be the sole person liable for any sales tax and related interest and penalties with respect to any transaction that is subsequently determined by the board to be subject to sales tax and not use tax.

(4) Any person who holds a use tax direct payment permit and gives a use tax direct payment certificate to a seller or retailer shall, in addition to any applicable use tax liabilities, be subject to the same penalty provisions that apply to a seller or retailer.

(f) It is the intent of the Legislature that the board administer this part in a manner which assures that local use tax be received by the county, city, city and county, or redevelopment agency where the first use occurs.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the State Board of Equalization to avoid an expensive and imprecise process of allocating local revenue, it is necessary that this act take effect immediately.

(h) This section shall not invalidate any contract entered into prior to June 30, 1996, between a city, county, or city and county and a person or business entity for the purpose of retrieving or impounding shopping carts.

(i) Notwithstanding paragraph (2) of subdivision (b), a city, county, or city and county may impound a shopping cart that

otherwise meets the criteria set forth in paragraph (1) of subdivision (b) without complying with the three-day advance notice requirement provided that:

(1) The owner of the shopping cart, or his or her agent, is provided actual notice within 24 hours following the impound and that notice informs the owner, or his or her agent, as to the location where the shopping cart may be claimed.

(2) Any shopping cart so impounded shall be held at a location in compliance with subdivision (e).

(3) Any shopping cart reclaimed by the owner or his or her agent, within three business days following the date of actual notice as provided pursuant to paragraph (1), shall be released and surrendered to the owner or agent at no charge whatsoever, including the waiver of any impound and storage fees or fines that would otherwise be applicable pursuant to subdivision (d) or (f). SEC. 2. Section 22435.8 is added to the Business and Professions Code, to read:

This article shall not invalidate an ordinance of, or be construed to prohibit the adoption of an ordinance by, a city, county, or city and county, which ordinance regulates or prohibits the removal of shopping carts or laundry carts from the premises or parking area of a retail establishment except to the extent any provision of such an ordinance expressly conflicts with any provision of this article.

The campaign disclosure requirements applicable to local measures provided under Chapter 4 (commencing with Section 84100) of Title 9 of the Government Code shall apply to this election.

(E) Notwithstanding the other provisions of this paragraph, a hospital district shall not transfer any portion of its assets to a private nonprofit organization that is owned or controlled by a religious creed, church, or sectarian denomination in the absence of adequate consideration.

(3) If the district board has previously transferred less than 50 percent of the district's assets pursuant to this subdivision before any additional assets are transferred, the board shall hold a public hearing and shall make a public determination that the additional assets to be transferred will not, in combination with any assets previously transferred, equal 50 percent or more of the total assets of the district.

(4) The amendments to this subdivision made during the 1991–92 Regular Session, and the amendments made to this subdivision and to Section 32126 made during the 1993–94 Regular Session, shall only apply to transfers made on or after the effective dates of the acts amending this subdivision. The amendments to this subdivision made during those sessions shall not apply to any of the following:

(A) A district that has discussed and adopted a board resolution, prior to September 1, 1992, that authorizes the development of a business plan for an integrated delivery system.

(B) A lease agreement, transfer agreement, or both between a district and a nonprofit corporation that were in full force and effect as of September 1, 1992, for as long as that lease agreement, transfer agreement, or both remain in full force and effect.

(5) Notwithstanding paragraph (4), if substantial amendments are proposed to be made to a transfer agreement described in subparagraph (A) or (B) of paragraph (4), the amendments shall be fully discussed in advance of the district board's decision to adopt the amendments in at least two properly noticed open and public meetings in compliance with Section 32106 and the Ralph M. Brown Act, (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code).

(6) Notwithstanding paragraphs (4) and (5), a transfer agreement described in subparagraph (A) or (B) of paragraph (4) that provided for the transfer of less than 50 percent of a district's assets shall be subject to the requirements of subdivision (p) of Section 32121 when subsequent amendments to that transfer agreement would result in the transfer, in sum or by increment, of 50 percent or more of a district's assets to the nonprofit corporation.

(7) For purposes of this subdivision, a "transfer" means the transfer of ownership of the assets of a district. A lease of the real property or the tangible personal property of a district shall not be subject to this subdivision except as specified in Section 32121.4 and as required under Section 32126.

(8) Districts that request a special election pursuant to paragraph (1) or (2) shall reimburse counties for the costs of that special election as prescribed pursuant to Section 10520 of the Elections Code.

(9) Nothing in this section, including subdivision (j), shall be construed to permit a local district to obtain or be issued a single consolidated license to operate a separate physical plant as a skilled nursing facility or an intermediate care facility that is not located within the boundaries of the district.

(10) A transfer of any of the assets of a district to one or more nonprofit corporations to operate and maintain the assets shall not be required to meet paragraphs (1) to (9), inclusive, of this subdivision if all of the following conditions apply at the time of the transfer:

(A) The district has entered into a loan that is insured by the State of California under Chapter 1 (commencing with Section 129000) of Part 6 of Division 107.

(B) The district is in default of its loan obligations, as determined by the Office of Statewide Health Planning and Development.

(C) The Office of Statewide Health Planning and Development and the district, in their best judgment, agree the transfer of some or all of the assets of the district to a nonprofit corporation or corporations is necessary to cure the default, and will obviate the need for foreclosure. This cure of default provision shall be applicable prior to the office foreclosing on district hospital assets. After the office has foreclosed on district hospital assets, or otherwise taken possession in accordance with law, the office may exercise all of its powers to deal with and dispose of hospital property.

(D) The transfer and all arrangements necessary thereto are discussed in advance of the transfer in at least one properly noticed open and public meeting in compliance with the Ralph M. Brown Act, Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code and Section 32106. The meeting referred to in this paragraph shall be noticed and held within 90 days of notice in writing to the district by the office of an event of default. If the meeting is not held within this 90-day period, the district shall be deemed to have waived this requirement to have a meeting.

(11) If a transfer under paragraph (10) is a lease, the lease shall provide that the assets shall revert to the district at the conclusion of the leasehold interest. If the transfer is a sale, the proceeds shall be used first to retire the obligation insured by the office, then to retire any other debts of the district. After providing for debts, any remaining funds shall revert to the district.

(q) To contract for bond insurance, letters of credit, remarketing services, and other forms of credit enhancement and liquidity support for its bonds, notes, and other indebtedness and to enter into reimbursement agreements, monitoring agreements, remarketing agreements, and similar ancillary contracts in connection therewith.

(r) To establish, maintain, operate, participate in, or manage capitated health care plans, health maintenance organizations, preferred provider organizations, and other managed health care systems and programs properly licensed by the Department of Insurance or the Department of Corporations, at any location within or without the district for the benefit of residents of communities served by the district. However, that activity shall not be deemed to result in or constitute the giving or lending of the district's credit, assets, surpluses, cash, or tangible goods to, or in aid of, any person, association, or corporation in violation of Section 6 of Article XVI of the California Constitution.

Nothing in this section shall authorize activities that corporations and other artificial legal entities are prohibited from conducting by Section 2400 of the Business and Professions Code.

Any agreement to provide health care coverage that is a health care service plan, as defined in subdivision (f) of Section 1345, shall be subject to the provisions of Chapter 2.2 (commencing with Section 1340) of Division 2, unless exempted pursuant to Section 1343 or 1349.2.

A district shall not provide health care coverage for any employee of an employer operating within the communities served by the district, unless the Legislature specifically authorizes, or has authorized in this section or elsewhere, the coverage.

This section shall not authorize any district to contribute its facilities to any joint venture that could result in transfer of the facilities from district ownership.

(s) To provide health care coverage to members of the district's medical staff, employees of the medical staff members, and the dependents of both groups, on a self-pay basis.

(t) This section shall remain in effect only until January 1, 2001, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2001, deletes or extends that date.

SEC. 2. Section 32121 is added to the Health and Safety Code, to read:

32121. Each local district shall have and may exercise the following powers:

(a) To have and use a corporate seal and alter it at its pleasure.

(b) To sue and be sued in all courts and places and in all actions and proceedings whatever.

(c) To purchase, receive, have, take, hold, lease, use, and enjoy property of every kind and description within and without the limits of the district, and to control, dispose of, convey, and encumber the same and create a leasehold interest in the same for the benefit of the district.

(d) To exercise the right of eminent domain for the purpose of acquiring real or personal property of every kind necessary to the exercise of any of the powers of the district.

(e) To establish one or more trusts for the benefit of the district, to administer any trust declared or created for the benefit of the district, to designate one or more trustees for trusts created by the district, to receive by gift, devise, or bequest, and hold in trust or otherwise, property, including corporate securities of all kinds, situated in this state or elsewhere, and where not otherwise provided, dispose of the same for the benefit of the district.

(f) To employ legal counsel to advise the board of directors in all matters pertaining to the business of the district, to perform the functions in respect to the legal affairs of the district as the board may direct, and to call upon the district attorney of the county in which the greater part of the land in the district is situated for legal advice and assistance in all matters concerning the district, except that if that county has a county counsel, the directors may call upon the county counsel for legal advice and assistance.

(g) To employ any officers and employees, including architects and consultants, the board of directors deems necessary to carry on properly the business of the district.

(h) To prescribe the duties and powers of the health care facility administrator, secretary, and other officers and employees of any health care facilities of the district, to establish offices as may be appropriate and to appoint board members or employees to those offices, and to determine the number of, and appoint, all officers and employees and to fix their compensation. The officers and employees shall hold their offices or positions at the pleasure of the boards of directors.

(i) To do any and all things that an individual might do that are necessary for, and to the advantage of, a health care facility and a nurses' training school, or a child care facility for the benefit of employees of the health care facility or residents of the district.

(j) To establish, maintain, and operate, or provide assistance in the operation of, one or more health facilities or health services, including, but not limited to, outpatient programs, services, and facilities, retirement programs, services, and facilities, chemical dependency programs, services, and facilities, or other health care programs, services, and facilities and activities at any location within or without the district for the benefit of the district and the people served by the district.

"Health care facilities," as used in this subdivision, means those facilities defined in subdivision (b) of Section 32000.1 and specifically includes freestanding chemical dependency recovery units. "Health facilities," as used in this subdivision, may also include those facilities defined in subdivision (d) of Section 15432 of the Government Code.

(k) To do any and all other acts and things necessary to carry out this division.

(*l*) To acquire, maintain, and operate ambulances or ambulance services within and without the district.

(m) To establish, maintain, and operate, or provide assistance in the operation of, free clinics, diagnostic and testing centers, health education programs, wellness and prevention programs, rehabilitation, aftercare, and any other health care services provider, groups, and organizations that are necessary for the maintenance of good physical and mental health in the communities served by the district.

(n) To establish and operate in cooperation with its medical staff a coinsurance plan between the hospital district and the members of its attending medical staff.

(o) To establish, maintain, and carry on its activities through one or more corporations, joint ventures, or partnerships for the benefit of the health care district.

(p) (1) To transfer, at fair market value, any part of its assets to one or more nonprofit corporations to operate and maintain the assets. A transfer pursuant to this paragraph shall be deemed to be at fair market value if an independent consultant, with expertise in methods of appraisal and valuation and in accordance with applicable governmental and industry standards for appraisal and valuation, determines that fair and reasonable consideration is to be received by the district for the transferred district assets. Before the district transfers, pursuant to this paragraph, 50 percent or more of the district's assets to one or more nonprofit corporations, in sum or by increment, the elected board shall, by resolution, submit to the voters of the district a measure proposing the transfer. The measure shall be placed on the ballot of a special election held upon the request of the district or the ballot of the next regularly scheduled election occurring at least 88 days after the resolution of the board. If a majority of the voters voting on the measure vote in its favor, the transfer shall be approved. The campaign disclosure requirements applicable to local measures provided under Chapter 4 (commencing with Section 84100) of Title 9 of the Government Code shall apply to this election.

(2) To transfer, for the benefit of the communities served by the district, in the absence of adequate consideration, any part of the assets of the district, including without limitation real property, equipment, and other fixed assets, current assets, and cash, relating to the operation of the district's health care facilities to one or more nonprofit corporations to operate and maintain the assets.

(A) A transfer of 50 percent or more of the district's assets, in sum or by increment, pursuant to this paragraph shall be deemed to be for the benefit of the communities served by the district only if all of the following occur:

(i) The transfer agreement and all arrangements necessary thereto are fully discussed in advance of the district board decision to transfer the assets of the district in at least five properly noticed open and public meetings in compliance with the Ralph M. Brown Act, Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code, and Section 32106.

(ii) The transfer agreement provides that the hospital district shall approve all initial board members of the nonprofit corporation and any subsequent board members as may be specified in the transfer agreement.

(iii) The transfer agreement provides that all assets transferred to the nonprofit corporation, and all assets accumulated by the corporation during the term of the transfer agreement arising out of or from the operation of the transferred assets, are to be transferred back to the district upon termination of the transfer agreement, including any extension of the transfer agreement.

(iv) The transfer agreement commits the nonprofit corporation to operate and maintain the district's health care facilities and its assets for the benefit of the communities served by the district.

(v) The transfer agreement requires that any funds received from the district at the outset of the agreement or any time thereafter during the term of the agreement be used only to reduce district indebtedness, to acquire needed equipment for the district health care facilities, to operate, maintain, and make needed capital improvements to the district's health care facilities, to provide supplemental health care services or facilities for the communities served by the district, or to conduct other activities that would further a valid public purpose if undertaken directly by the district.

(B) A transfer of 33 percent or more but less than 50 percent of the district's assets, in sum or by increment, pursuant to this paragraph shall be deemed to be for the benefit of the communities served by the district only if both of the following occur:

(i) The transfer agreement and all arrangements necessary thereto are fully discussed in advance of the district board decision to transfer the assets of the district in at least two properly noticed open and public meetings in compliance with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code), and Section 32106.

(ii) The transfer agreement meets all of the requirements of clauses (ii) to (v), inclusive, of subparagraph (A).

(C) A transfer of 10 percent or more but less than 33 percent of the district's assets, in sum or by increment, pursuant to this paragraph shall be deemed to be for the benefit of the communities served by the district only if both of the following occur:

(i) The transfer agreement and all arrangements necessary thereto are fully discussed in advance of the district board decision to transfer the assets of the district in at least two properly noticed open and public meetings in compliance with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code), and Section 32106.

(ii) The transfer agreement meets all of the requirements of (iii) to (v), inclusive, of subparagraph (A).

(D) Before the district transfers, pursuant to this paragraph, 50 percent or more of the district's assets to one or more nonprofit corporations, in sum or by increment, the elected board shall, by resolution, submit to the voters of the district a measure proposing the transfer. The measure shall be placed on the ballot of a special election held upon the request of the district or the ballot of the next regularly scheduled election occurring at least 88 days after the resolution of the board. If a majority of the voters voting on the measure vote in its favor, the transfer shall be approved. The campaign disclosure requirements applicable to local measures provided under Chapter 4 (commencing with Section 84100) of Title 9 of the Government Code shall apply to this election.

(E) Notwithstanding the other provisions of this paragraph, a hospital district shall not transfer any portion of its assets to a private nonprofit organization that is owned or controlled by a religious creed, church, or sectarian denomination in the absence of adequate consideration.

(3) If the district board has previously transferred less than 50 percent of the district's assets pursuant to this subdivision, before any additional assets are transferred the board shall hold a public hearing and shall make a public determination that the additional assets to be transferred will not, in combination with any assets previously transferred, equal 50 percent or more of the total assets of the district.

(4) The amendments to this subdivision made during the 1991–92 Regular Session, and the amendments made to this subdivision and to Section 32126 made during the 1993–94 Regular Session, shall only apply to transfers made on or after the effective dates of the acts amending this subdivision. The amendments to this subdivision made during those sessions shall not apply to any of the following:

(A) A district that has discussed and adopted a board resolution, prior to September 1, 1992, that authorizes the development of a business plan for an integrated delivery system.

(B) A lease agreement, transfer agreement, or both between a district and a nonprofit corporation that were in full force and effect as of September 1, 1992, for as long as that lease agreement, transfer agreement, or both remain in full force and effect.

(5) Notwithstanding paragraph (4), if substantial amendments are proposed to be made to a transfer agreement described in subparagraph (A) or (B) of paragraph (4), the amendments shall be fully discussed in advance of the district board's decision to adopt the

amendments in at least two properly noticed open and public meetings in compliance with Section 32106 and the Ralph M. Brown Act, (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code).

(6) Notwithstanding paragraphs (4) and (5), a transfer agreement described in subparagraph (A) or (B) of paragraph (4) that provided for the transfer of less than 50 percent of a district's assets shall be subject to the requirements of subdivision (p) of Section 32121 when subsequent amendments to that transfer agreement would result in the transfer, in sum or by increment, of 50 percent or more of a district's assets to the nonprofit corporation.

(B) The district is in default of its loan obligations, as determined by the Office of Statewide Health Planning and Development.

(C) The Office of Statewide Health Planning and Development and the district, in their best judgment, agree the transfer of some or all of the assets of the district to a nonprofit corporation or corporations is necessary to cure the default, and will obviate the need for foreclosure. This cure of default provision shall be applicable prior to the office foreclosing on district hospital assets. After the office has foreclosed on district hospital assets, or otherwise taken possession in accordance with law, the office may exercise all of its powers to deal with and dispose of hospital property.

(D) The transfer and all arrangements necessary thereto are discussed in advance of the transfer in at least one properly noticed open and public meeting in compliance with the Ralph M. Brown Act, Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code and Section 32106. The meeting

referred to in this paragraph shall be noticed and held within 90 days of notice in writing to the district by the office of an event of default. If the meeting is not held within this 90-day period, the district shall be deemed to have waived this requirement to have a meeting.

(11) If a transfer under paragraph (10) is a lease, the lease shall provide that the assets shall revert to the district at the conclusion of the leasehold interest. If the transfer is a sale, the proceeds shall be used first to retire the obligation insured by the office, then to retire any other debts of the district. After providing for debts, any remaining funds shall revert to the district.

(q) To contract for bond insurance, letters of credit, remarketing services, and other forms of credit enhancement and liquidity support for its bonds, notes, and other indebtedness and to enter into reimbursement agreements, monitoring agreements, remarketing agreements, and similar ancillary contracts in connection therewith.

(r) To establish, maintain, operate, participate in, or manage capitated health care plans, health maintenance organizations, preferred provider organizations, and other managed health care systems and programs properly licensed by the Department of Insurance or the Department of Corporations, at any location within or without the district for the benefit of residents of communities served by the district. However, that activity shall not be deemed to result in or constitute the giving or lending of the district's credit, assets, surpluses, cash, or tangible goods to, or in aid of, any person, association, or corporation in violation of Section 6 of Article XVI of the California Constitution.

Nothing in this section shall authorize activities that corporations and other artificial legal entities are prohibited from conducting by Section 2400 of the Business and Professions Code.

Any agreement to provide health care coverage that is a health care service plan, as defined in subdivision (f) of Section 1345, shall be subject to the provisions of Chapter 2.2 (commencing with Section 1340) of Division 2, unless exempted pursuant to Section 1343 or 1349.2.

A district shall not provide health care coverage for any employee of an employer operating within the communities served by the district, unless the Legislature specifically authorizes, or has authorized in this section or elsewhere, the coverage.

This section shall not authorize any district to contribute its facilities to any joint venture that could result in transfer of the facilities from district ownership.

(s) To provide health care coverage to members of the district's medical staff, employees of the medical staff members, and the dependents of both groups, on a self-pay basis.

(t) This section shall become operative on January 1, 2001.

SEC. 3. Section 32126 of the Health and Safety Code is amended to read:

32126. (a) The board of directors may provide for the operation and maintenance through tenants of the whole or any part of any hospital acquired or constructed by it pursuant to this division, and for that purpose may enter into any lease agreement that it believes will best serve the interest of the district. Any lease for the operation of any hospital shall require the tenant or lessee to conform to and abide by Section 32128. No lease for the operation of an entire hospital shall run for a term in excess of 30 years. No lease for the operation of less than an entire hospital shall run for a term in excess of 10 years.

(b) Notwithstanding any other provision of law, a sublease, an assignment of an existing lease, or the release of a tenant or lessee from obligations under an existing lease in connection with an assignment of an existing lease shall not be subject to the requirements of subdivision (p) of Section 32121 so long as all of the following conditions are met:

(1) The sublease or assignment of the existing lease otherwise remains in compliance with subdivision (a).

(2) The district board determines that the total consideration that the district shall receive following the assignment or sublease, or as a result thereof, taking into account all monetary and other tangible and intangible consideration to be received by the district including, without limitation, all benefits to the communities served by the district, is no less than the total consideration that the district would have received under the existing lease.

(3) The existing lease was entered into on or before July 1, 1984, upon approval of the board of directors following solicitation and review of no less than five offers from prospective tenants.

(4) If substantial amendments are made to an existing lease in connection with the sublease or assignment of that existing lease, the amendments shall be fully discussed in advance of the district board's decision to adopt the amendments in at least two properly noticed open and public meetings in compliance with Section 32106 and the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code).

(c) This section shall remain in effect only until January 1, 2001, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2001, deletes or extends that date.

(1) The sublease or assignment of the existing lease otherwise remains in compliance with subdivision (a).

(2) The district board determines that the total consideration that the district shall receive following the assignment or sublease, or as a result thereof, taking into account all monetary and other tangible and intangible consideration to be received by the district including, without limitation, all benefits to the communities served by the district, is no less than the total consideration that the district would have received under the existing lease.

(3) The existing lease was entered into on or before July 1, 1984, upon approval of the board of directors following solicitation and review of no less than five offers from prospective tenants.

(4) If substantial amendments are made to an existing lease in connection with the sublease or assignment of that existing lease, the amendments shall be fully discussed in advance of the district board's decision to adopt the amendments in at least two properly noticed open and public meetings in compliance with Section 32106 and the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code).

(c) This section shall become operative on January 1, 2001.

CHAPTER 19

An act to amend Sections 6602, 6609.1, 6609.2, and 6609.3 of, to add Sections 6601.3, 6601.5, and 6602.5 to, and to add and repeal Section 6604.1 of, the Welfare and Institutions Code, relating to sexually violent predators, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 14, 1998. Filed with Secretary of State April 14, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 6601.3 is added to the Welfare and Institutions Code, to read:

6601.3. The Board of Prison Terms may order that a person referred to the State Department of Mental Health pursuant to subdivision (b) of Section 6601 remain in custody for no more than 45 days for full evaluation pursuant to subdivisions (c) to (h), inclusive, of Section 6601, unless his or her scheduled date of release falls more than 45 days after referral.

SEC. 2. Section 6601.5 is added to the Welfare and Institutions Code, to read:

6601.5. In cases where an inmate's parole or temporary parole hold pursuant to Section 6601.3 will expire before a probable cause hearing is conducted pursuant to Section 6602, the agency bringing the petition may request an urgency review pursuant to this section. Upon that request, a judge of the superior court shall review the petition and determine whether the petition states or contains sufficient facts that, if true, would constitute probable cause to believe that the individual named in the petition is likely to engage in sexually violent predatory criminal behavior upon his or her release. If the judge determines that the petition, on its face, supports a finding of probable cause, the judge shall order that the person be detained in a secure facility until a hearing can be held pursuant to Section 6602. The probable cause hearing provided for in Section 6602 shall be held within 10 calendar days of the date of the order issued by the judge pursuant to this section.

SEC. 3. Section 6602 of the Welfare and Institutions Code is amended to read:

6602. A judge of the superior court shall review the petition and shall determine whether there is probable cause to believe that the individual named in the petition is likely to engage in sexually violent predatory criminal behavior upon his or her release. The person named in the petition shall be entitled to assistance of counsel at the probable cause hearing. If the judge determines that there is not probable cause, he or she shall dismiss the petition and any person subject to parole shall report to parole. If the judge determines that

there is probable cause, the judge shall order that the person remain in custody in a secure facility until a trial is completed and shall order that a trial be conducted to determine whether the person is, by reason of a diagnosed mental disorder, a danger to the health and safety of others in that the person is likely to engage in acts of sexual violence upon his or her release from the jurisdiction of the Department of Corrections or other secure facility.

SEC. 4. Section 6602.5 is added to the Welfare and Institutions Code, to read:

6602.5. No person may be placed in a state hospital pursuant to the provisions of this article until there has been a determination pursuant to Section 6601.3 or 6602 that there is probable cause to believe that the individual named in the petition is likely to engage in sexually violent predatory criminal behavior.

The State Department of Mental Health shall identify each person for whom a petition pursuant to this article has been filed who is in a state hospital on or after January 1, 1998, and who has not had a probable cause hearing pursuant to Section 6602. The State Department of Mental Health shall notify the court in which the petition was filed that the person has not had a probable cause hearing. Copies of the notice shall be provided by the court to the attorneys of record in the case. Within 30 days of notice by the State Department of Mental Health, the court shall either order the person removed from the state hospital and returned to local custody or hold a probable cause hearing pursuant to Section 6602.

SEC. 5. Section 6604.1 is added to the Welfare and Institutions Code, to read:

6604.1. (a) The two-year term of commitment provided for in Section 6604 shall commence on the date upon which the court issues the initial order of commitment pursuant to that section. The two-year term shall not be reduced by any time spent in a secure facility prior to the order of commitment. For subsequent extended commitments, the term of commitment shall be from the date of the termination of the previous commitment.

(b) This section shall remain in effect only until January 1, 1999, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 1999, deletes or extends that date.

SEC. 6. Section 6609.1 of the Welfare and Institutions Code is amended to read:

6609.1. (a) When the State Department of Mental Health is considering a recommendation to the court for community outpatient treatment for any person committed as a sexually violent predator, it shall notify the sheriff or chief of police, or both, and the district attorney, who has jurisdiction over the community in which the person may be released. The notice shall be given at least 15 days prior to the department's submission of that recommendation to the court and shall include the name of the person who is scheduled to

be released and the community in which civil commitment was established.

(b) When the State Department of Mental Health is considering a recommendation not to pursue recommitment of any person committed as a sexually violent predator, it shall provide written notice of that release to the sheriff or police chief, or both, and to the district attorney, who has jurisdiction over the community in which civil commitment was established. The notice shall be made at least 15 days prior to the date on which the notification is to be forwarded from the department to the court that will consider the department's recommendation not to pursue the extension of the civil commitment.

Those agencies receiving the notice referred to in this subdivision shall have 15 days from receipt of the notice to provide written comment to the department regarding the impending release. Those comments shall be considered by the department, which may modify its decision regarding the community in which the person is scheduled to be released, based on those comments.

(c) If the court orders the immediate release of a sexually violent predator, the department shall notify the sheriff or chief of police, or both, and the district attorney, who has jurisdiction over the community in which the person is scheduled to be released at the time of release.

(d) The notice required by this section shall be made whether or not a request has been made pursuant to Section 6609.

(e) The time limits imposed by this section are not applicable where the release date of a sexually violent predator has been advanced by a judicial or administrative process or procedure that could not have reasonably been anticipated by the State Department of Mental Health and where, as the result of the time adjustments, there is less than 30 days remaining on the commitment before the inmate's release, but notice shall be given as soon as practicable. In no case shall notice required by this section to the appropriate agency be later than the day of release. If, after the 45-day notice is given to law enforcement and to the district attorney relating to an out-of-county placement, there is change of county placement, notice to the ultimate county of placement shall be made upon the determination of the county of placement.

SEC. 7. Section 6609.2 of the Welfare and Institutions Code is amended to read:

6609.2. (a) When any sheriff or chief of police is notified by the State Department of Mental Health of its intention to make a recommendation to the court concerning the disposition of a sexually violent predator pursuant to subdivision (a) or (b) of Section 6609.1, that sheriff or chief of police may notify any person designated by the sheriff or chief of police as an appropriate recipient of the notice.

(b) A law enforcement official authorized to provide notice pursuant to this section, and the public agency or entity employing

the law enforcement official, shall not be liable for providing or failing to provide notice pursuant to this section.

SEC. 8. Section 6609.3 of the Welfare and Institutions Code is amended to read:

6609.3. At the time a notice is sent pursuant to subdivision (a) or (b) of Section 6609.1, the sheriff, chief of police, or district attorney so notified shall also send a notice to persons described in Section 679.03 of the Penal Code who have requested a notice, informing those persons of the fact that the person who committed the sexually violent offense may be released, together with information identifying the court that will consider the conditional or unconditional release. When a person is approved by the court to be conditionally released, notice of the community in which the person is scheduled to reside shall also be given only if it is (1) in the county of residence of a witness, victim, or family member of a victim who has requested notice, or (2) within 25 miles of the actual residence of a witness, victim, or family member of a victim who has requested notice. If, after providing the witness, victim, or next of kin with the notice, there is any change in the release status or the community in which the person is to reside, the sheriff, chief of police, or district attorney shall provide the witness, victim, or next of kin with the revised information.

In order to be entitled to receive the notice set forth in this section, the requesting party shall keep the sheriff, chief of police, and district attorney who were notified under Section 679.03 of the Penal Code, informed of his or her current mailing address.

SEC. 9. The Legislature finds and declares that Section 3 of this act, which amends Section 6602 of the Welfare and Institutions Code, does not constitute a change in, but is declaratory of, existing law and consistent with current practice.

SEC. 10. The Legislature finds and declares that the provisions of Article 4 (commencing with Section 6600) of Chapter 2 of Part 2 of Division 6 of the Welfare and Institutions Code establish a civil mental health commitment for a period of two years for persons found to be sexually violent predators and that, consistent with a civil mental health commitment, credits that may reduce a term of imprisonment are not applicable. Accordingly, the Legislature finds and declares that Section 5 of this act, which adds Section 6604.1 to the Welfare and Institutions Code, does not constitute a change in, but is declaratory of, existing law.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide immediate protection to the public from sexually violent predators who will be released in the near future, it is necessary that this act take effect immediately.

CHAPTER 20

An act to amend Section 657 of the Business and Professions Code, to add Section 1371.22 to the Health and Safety Code, and to add Section 10126.5 to the Insurance Code, relating to health care, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 14, 1998. Filed with Secretary of State April 14, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 657 of the Business and Professions Code is amended to read:

657. (a) The Legislature finds and declares all of the following:

(1) Californians spend more than one hundred billion dollars ($100,000,000,000) annually on health care.

(2) In 1994, an estimated 6.6 million of California's 32 million residents did not have any health insurance and were ineligible for Medi-Cal.

(3) Many of California's uninsured cannot afford basic, preventative health care resulting in these residents relying on emergency rooms for urgent health care, thus driving up health care costs.

(4) Health care should be affordable and accessible to all Californians.

(5) The public interest dictates that uninsured Californians have access to basic, preventative health care at affordable prices.

(b) To encourage the prompt payment of health or medical care claims, health care providers are hereby expressly authorized to grant discounts in health or medical care claims when payment is made promptly within time limits prescribed by the health care providers or institutions rendering the service or treatment.

(c) Notwithstanding any provision in any health care service plan contract or insurance contract to the contrary, health care providers are hereby expressly authorized to grant discounts for health or medical care provided to any patient the health care provider has reasonable cause to believe is not eligible for, or is not entitled to, insurance reimbursement, coverage under the Medi-Cal program, or coverage by a health care service plan for the health or medical care provided. Any discounted fee granted pursuant to this section shall not be deemed to be the health care provider's usual, customary, or

reasonable fee for any other purposes, including, but not limited to, any health care service plan contract or insurance contract.

(d) "Health care provider," as used in this section, means any person licensed or certified pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code, or licensed pursuant to the Osteopathic Initiative Act, or the Chiropractic Initiative Act, or licensed pursuant to Chapter 2.5 (commencing with Section 1440) of Division 2 of the Health and Safety Code; and any clinic, health dispensary, or health facility, licensed pursuant to Division 2 (commencing with Section 1200) of the Health and Safety Code.

SEC. 2. Section 1371.22 is added to the Health and Safety Code, immediately following Section 1371.2, to read:

1371.22. If a contract between a health care service plan and a provider requires that the provider accept, as payment from the plan, the lowest payment rate charged by the provider to any patient or third party, this contract provision shall not be deemed to apply to, or take into consideration, any cash payments made to the provider by individual patients who do not have any private or public form of health care coverage for the service rendered by the provider, as described in subdivision (c) of Section 657 of the Business and Professions Code. This section shall apply to a provider contract that is issued, amended, or renewed on or after the effective date of this section.

SEC. 3. Section 10126.5 is added to the Insurance Code, immediately following Section 10126, to read:

10126.5. If a disability insurance policy between an insurer that covers hospital, medical, or surgical expenses and a provider requires that the provider accept, as payment from the insurer, the lowest payment rate charged by the provider to any patient or third party, this policy provision shall not be deemed to apply to, or take into consideration, any cash payments made to the provider by individual patients who do not have any private or public form of health care coverage for the service rendered by the provider, as described in subdivision (c) of Section 657 of the Business and Professions Code. This section shall apply to a provider contract that is issued, amended, or renewed on or after the effective date of this section.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to expedite the delivery of health care services to uninsured persons, it is necessary that this act take effect immediately.

[Approved by Governor April 14, 1998. Filed with Secretary of State April 15, 1998.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the purpose of Section 2 is to adopt an agreement pursuant to Section 3517 of the Government Code entered into by the state employer and recognized employee organizations to make any necessary statutory changes in health, retirement, salary, or other benefits.

SEC. 2. The provisions of the following memorandum of understanding, prepared pursuant to Section 3517.5 of the Government Code, and entered into by the state employer and State Bargaining Unit 6, California Correctional Peace Officers Association, and that requires the expenditure of funds, are hereby approved for the purposes of Section 3517.6 of the Government Code.

SEC. 3. Notwithstanding Section 3517.6 of the Government Code, the provisions of any memorandum of understanding that require the expenditure of funds shall become effective even if the provisions of the memorandum of understanding are approved by the Legislature in legislation other than the annual Budget Act.

SEC. 4. Section 18523.1 is added to the Government Code, to read:

18523.1. (a) Notwithstanding Section 18523, this section shall only apply to state employees in State Bargaining Unit 6.

(b) "Class" means a group of positions sufficiently similar with respect to duties and responsibilities that the same title may reasonably and fairly be used to designate each position allocated to the class and that substantially the same tests of fitness may be used and that substantially the same minimum qualifications may be required and that the same schedule of compensation may be made to apply with equity.

(c) The board may also establish "broadband" classes for which the same general title may be used to designate each position allocated to the class and which may include more than one level or more than one specialty area within the same general field or work.

In addition to the minimum qualifications for each broadband class, other job-related qualifications may be required for particular positions within the class. When the board establishes a broadband class, these levels and specialty areas shall be described in the class specification, and the board shall specify any instances in which these levels and speciality areas are to be treated as separate classes for purposes of applying other provisions of law.

SEC. 5. Section 18903 of the Government Code is amended to read:

18903. (a) (1) For each class there shall be maintained a general reemployment list consisting of the names of all persons who have occupied positions with probationary or permanent status in the class and who have been legally laid off or demoted in lieu of layoff.

(2) Notwithstanding paragraph (1), this paragraph shall apply to state employees in State Bargaining Unit 5 or 6. For each class there shall be maintained a general reemployment list consisting of the names of all persons who have occupied positions with probationary or permanent status in the class and who have been legally laid off, demoted in lieu of layoff, or transferred in lieu of layoff.

(b) Within one year from the date of his or her resignation in good standing, or his or her voluntary demotion, the name of an employee who had probationary or permanent status may be placed on the general reemployment list with the consent of the appointing power and the board. The general reemployment list may also contain the names of persons placed thereon by the board in accordance with other provisions of this part.

SEC. 6. Section 19056.5 of the Government Code is amended to read:

19056.5. (a) Notwithstanding any other provision in this part and except as provided in subdivision (b), if the appointment is to be made from a general reemployment list, the names of the three persons with the highest standing on the list shall be certified to the appointing power.

(b) Notwithstanding subdivision (a), this subdivision shall apply only to state employees in State Bargaining Unit 6. If the appointment is to be made from a general reemployment list, the name of the person with the highest standing on the list shall be certified to the appointing power.

SEC. 7. Section 19141 of the Government Code is amended to read:

19141. This section applies only to a permanent employee, or an employee who previously had permanent status and who, since that permanent status, has had no break in the continuity of his or her state service due to a permanent separation. As used in this section, "former position" is defined as in Section 18522, or, if the appointing power to which reinstatement is to be made and the employee agree, a vacant position in any department, commission, or state agency for which he or she is qualified at substantially the same level.

Within the periods of time specified below, an employee who vacates a civil service position to accept an appointment to an exempt position shall be reinstated to his or her former position at the termination either by the employee or appointing power of the exempt appointment, provided he or she (a) accepted the appointment without a break in the continuity of state service, and (b) requests in writing reinstatement of the appointing power of his or her former position within 10 working days after the effective date of the termination.

The reinstatement may be requested by the employee only within the following periods of time:

(a) At any time after the effective date of the exempt appointment if the employee was appointed under one of the following:

(1) Subdivision (a), (b), (c), (d), (e), (f), (g), or (m) of Section 4 of Article VII of the California Constitution.

(2) Section 2.1 of Article IX of the California Constitution.

(3) Section 22 of Article XX of the California Constitution.

(4) To an exempt position under the same appointing power as the former position even though a shorter period of time may be otherwise specified for that appointment.

(b) Within six months after the effective date of the exempt appointment if appointed under subdivision (h), (i), (k), or (*l*) of Section 4 of Article VII of the California Constitution.

(c) (1) Within four years after the effective date of an exempt appointment if appointed under any other authority.

An employee who vacates his or her civil service position to accept an assignment as a member, inmate, or patient helper under subdivision (j) of Section 4 of Article VII of the California Constitution shall not have a right to reinstatement.

An employee who is serving under an exempt appointment retains a right of reinstatement when he or she accepts an extension of that exempt appointment or accepts a new exempt appointment, provided the extension or new appointment is made within the specified reinstatement time limit and there is no break in the continuity of state service. The period for which that right is retained is for the period applicable to the extended or new exempt appointment as if that appointment had been made on the date of the initial exempt appointment.

When an employee exercises his or her right of reinstatement and returns to his or her former position, the service while under an exempt appointment shall be deemed to be time served in the former position for the purpose of determining his or her seniority and eligibility for merit salary increases.

If the termination of an exempt appointment is for a reason contained in Section 19997 and the employee does not have a right to reinstatement, he or she shall have his or her name placed on the

departmental and general reemployment lists for the class of his or her former position.

(2) Notwithstanding paragraph (1), this paragraph shall apply to state employees in State Bargaining Unit 5 or 6. Within four years after the effective date of an exempt appointment if appointed under any other authority.

An employee who vacates his or her civil service position to accept an assignment as a member, inmate, or patient helper under subdivision (j) of Section 4 of Article VII of the California Constitution shall not have a right to reinstatement.

An employee who is serving under an exempt appointment retains a right of reinstatement when he or she accepts an extension of that exempt appointment or accepts a new exempt appointment, provided the extension or new appointment is made within the specified reinstatement time limit and there is no break in the continuity of state service. The period for which that right is retained is for the period applicable to the extended or new exempt appointment as if that appointment had been made on the date of the initial exempt appointment.

When an employee exercises his or her right of reinstatement and returns to his or her former position, the service while under an exempt appointment shall be deemed to be time served in the former position for the purpose of determining his or her eligibility for merit salary increases.

If the termination of an exempt appointment is for a reason contained in Section 19997 and the employee does not have a right to reinstatement, he or she shall have his or her name placed on the departmental and general reemployment lists for the class of his or her former position.

SEC. 8. Section 19142 of the Government Code is amended to read:

19142. (a) Every person accepts and holds a position in the state civil service subject to mandatory reinstatement of another person.

(b) (1) Upon reinstatement of a person any necessary separations are effected under the provisions of Section 19997.3 governing layoff and demotion except that (A) an employee who is not to be separated from state service need not receive advance notification as provided in Section 19997.13, and (B) seniority shall not be counted as provided in Section 19997.3 when this would result in the layoff of the person who has the reinstatement right. Under such a circumstance, qualifying service in classes at substantially the same or higher salary level is the only state service that shall be counted for purposes of determining who is to be separated.

(2) Notwithstanding paragraph (1), this paragraph shall apply to state employees in State Bargaining Unit 5 or 6. Upon reinstatement of a person any necessary separations are effected under Section 19997.3 governing layoff and demotion except that an employee who

is not to be separated from state service need not receive advance notification as provided in Section 19997.13.

SEC. 9. Section 19170.1 is added to the Government Code, to read:

19170.1. (a) Notwithstanding Section 19170 for state employees in State Bargaining Unit 6, the board shall establish for each class the length of the probationary period. The probationary period which shall be served upon appointment shall be not less than six months nor more than two years.

(b) The board may provide by rule: (1) for increasing the length of individual probationary periods by adding thereto periods of time during which an employee, while serving as a probationer, is absent from his or her position; or (2) for requiring an additional period not to exceed the length of the original probationary period when a probationary employee returns after an extended period of absence and the remainder of the probationary period is insufficient to evaluate his or her current performance.

SEC. 10. Section 19702 of the Government Code is amended to read:

19702. (a) A person shall not be discriminated against under this part because of sex, race, religious creed, color, national origin, ancestry, marital status, physical disability, or mental disability. A person shall not be retaliated against because he or she has opposed any practice made an unlawful employment practice, or made a charge, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. For purposes of this article, "discrimination" includes harassment. This subdivision is declaratory of existing law.

(b) As used in this section, "physical disability" includes, but is not limited to, impairment of sight, hearing, or speech, or impairment of physical ability because of amputation or loss of function or coordination, or any other health impairment that requires special education or related services.

(c) As used in this section, "mental disability" includes, but is not limited to, any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.

(d) Notwithstanding subdivisions (b) and (c), if the definition of disability used in the Americans with Disabilities Act of 1990 (Public Law 101-336) would result in broader protection of the civil rights of individuals with a mental disability or physical disability, as defined in subdivision (b) or (c), then that broader protection shall be deemed incorporated by reference into, and shall prevail over conflicting provisions of, the definitions in subdivisions (b) and (c). The definitions of subdivisions (b) and (c) shall not be deemed to refer to or include conditions excluded from the federal definition of "disability" pursuant to Section 511 of the Americans with Disabilities Act of 1990 (42 U.S.C. Sec. 12211).

(e) If the board finds that a person has engaged in discrimination under this part, and it appears that this practice consisted of acts described in Section 243.4, 261, 262, 286, 288, 288a, or 289 of the Penal Code, the board, with the consent of the complainant, shall provide the local district attorney's office with a copy of its decision and order.

(f) (1) If the board finds that discrimination has occurred in violation of this part, the board shall issue and cause to be served on the appointing authority an order requiring the appointing authority to cause the discrimination to cease and desist and to take any action, including, but not limited to, hiring, reinstatement, or upgrading of employees, with or without backpay, and compensatory damages, which, in the judgment of the board, will effectuate the purposes of this part. Consistent with this authority, the board may establish rules governing the award of compensatory damages. The order shall include a requirement of reporting the manner of compliance.

(2) Notwithstanding paragraph (1), this paragraph shall apply only to state employees in State Bargaining Unit 6. If the board finds that discrimination has occurred in violation of this part, the board shall issue and cause to be served on the appointing authority an order requiring the appointing authority to cause the discrimination to cease and desist and to take any action, including, but not limited to, hiring, reinstatement, or upgrading of employees, with or without backpay, adding additional seniority, and compensatory damages, which, in the judgment of the board, will effectuate the purposes of this part. Consistent with this authority, the board may establish rules governing the award of compensatory damages. The order shall include a requirement of reporting the manner of compliance.

(g) Any person claiming discrimination within the state civil service may submit a complaint that shall be in writing and set forth the particulars of the alleged discrimination, the name of the appointing authority, the persons alleged to have committed the unlawful discrimination, and any other information that may be required by the board. The complaint shall be filed with the appointing authority or, in accordance with board rules, with the board itself.

(h) Complaints shall be filed within one year of the alleged unlawful discrimination or the refusal to act in accordance with this section, except that this period may be extended for not to exceed 90 days following the expiration of that year, if a person allegedly aggrieved by unlawful discrimination first obtained knowledge of the facts of the alleged unlawful discrimination after the expiration of one year from the date of its occurrence. Complaints of discrimination in adverse actions or rejections on probation shall be filed in accordance with Sections 19175 and 19575.

(i) When an employee of the appointing authority refuses, or threatens to refuse, to cooperate in the investigation of a complaint of discrimination, the appointing authority may seek assistance from the board. The board may provide for direct investigation or hearing

of the complaint, the use of subpoenas, or any other action which will effect the purposes of this section.

SEC. 11. Section 19786 of the Government Code is amended to read:

19786. (a) When a civil service employee has been reinstated after military service in accordance with Section 19780, and any question arises relative to his or her ability or inability for any reason arising out of the military service to perform the duties of the position to which he or she has been reinstated, the board shall, upon the request of the appointing power or of the employee, hear the matter and may on its own motion or at the request of either party take any and all necessary testimony of every nature necessary to a decision on the question.

(b) If the board finds that the employee is not able for any reason arising out of the military service to carry out the usual duties of the position he or she then holds, it shall order the employee placed in a position in which the board finds he or she is capable of performing the duties in the same class or a comparable class in the same or any other state department, bureau, board, commission, or office under this part and the rules of the board covering transfer of an employee from a position under the jurisdiction of one appointing power to a position under the jurisdiction of another appointing power, without the consent of the appointing powers, where a vacancy may be made available to him or her under this part and the rules of the board, but in no event shall the transfer constitute a promotion within the meaning of this part and the rules of the board.

(c) (1) If a layoff is made necessary to place a civil service employee in a position in the same class or a comparable class in accordance with this section, the layoff shall be made under Section 19997.3, provided that no civil service employee who was employed prior to September 16, 1940, shall be laid off as a result of the placing of an employee in the same class or a comparable class under this section.

(2) Notwithstanding paragraph (1), this paragraph shall apply to state employees in State Bargaining Unit 5 or 6. If a layoff is made necessary to place a civil service employee in a position in the same class or a comparable class in accordance with this section, the layoff shall be made under Section 19997.3.

(d) The board may order the civil service employee reinstated to the department, bureau, board, commission, or office from which he or she was transferred either upon request of the employee or the appointing power from which transferred. The reinstatement may be made after a hearing as provided in this section if the board finds that the employee is at the time of the hearing able to perform the duties of the position.

SEC. 12. Section 19798 of the Government Code is amended to read:

19798. In establishing order and subdivisions of layoff and reemployment, the board, when it finds past discriminatory hiring practices, shall by rule, adopt a process that provides that the composition of the affected work force will be the same after the completion of a layoff, as it was before the layoff procedure was implemented. This section does not apply to state employees in State Bargaining Unit 5 or 6.

SEC. 13. Section 19815.41 of the Government Code is amended to read:

19815.41. (a) Notwithstanding subdivision (e) of Section 19815.4, this section shall apply only to state employees in State Bargaining Unit 5 or 6.

(b) The director shall hold nonmerit statutory appeal hearings, subpoena witnesses, administer oaths, and conduct investigations in accordance with Department of Personnel Administration Rule 599.859 (b)(2).

(c) The director may, at his or her discretion, hold hearings, subpoena witnesses, administer oaths, or conduct investigations or appeals concerning other matters relating to the department's jurisdiction.

(d) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 14. Section 19816.2 of the Government Code is amended to read:

19816.2. Notwithstanding any other provision of this part, regulations and other provisions pertaining to the layoff or demotion in lieu of layoff of civil service employees that are established or agreed to by the department shall be subject to review by the State Personnel Board for consistency with merit employment principles as provided for by Article VII of the California Constitution. This section does not apply to state employees in State Bargaining Unit 5 or 6.

SEC. 15. Section 19817 of the Government Code is amended to read:

19817. This article applies only with respect to regulations that apply exclusively to state employees in State Bargaining Unit 5 or to state employees in State Bargaining Unit 6.

SEC. 16. Section 19818.7 is added to the Government Code, to read:

19818.7. (a) Notwithstanding Section 19818.6, this section shall apply only to state employees in State Bargaining Unit 6.

(b) The department shall administer the Personnel Classification Plan of the State of California including the allocation of every

position to the appropriate class in the classification plan. The allocation of a position to a class shall derive from and be determined by the ascertainment of the duties and responsibilities of the position and shall be based on the principle that all positions that meet the definition of a class pursuant to Section 18523.1 shall be included in the same class.

(c) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of the memorandum of understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

(d) A broadband project may not change the terms and conditions of employment covered by a memorandum of understanding entered into pursuant to the Ralph C. Dills Act (Chapter 10.3 (commencing with Section 3512) of Division 4 of Title 1), unless there is a written agreement with respect to the project between the department and the recognized employee organization representing the affected employees.

SEC. 17. Section 19818.11 is added to the Government Code, to read:

19818.11. (a) This section shall apply only to state employees in State Bargaining Unit 6.

The department may, directly or through agreement or contract with one or more agencies, conduct demonstration classification, compensation, and related projects. "Demonstration project", for the purposes of this section, means a project that uses alternative classification, compensation, and other personnel management policies and procedures to determine if a change would result in cost savings, improved efficiency, or both cost savings and improved efficiency in the existing personnel management system.

(b) Nothing in this section shall infringe upon or conflict with the merit principles as embodied in Article VII of the California Constitution.

(c) The establishment of a demonstration classification, compensation, or related project shall not be limited by the lack of specific authority in this division or by the existence of any statute or regulation that is inconsistent with actions to be taken in the demonstration project.

(d) Prior to implementation of a demonstration project, the department shall adopt regulations specifying the impact of the project on employee status, compensation, benefits, and rights with regard to transfer, layoff, promotion, and demotion. These regulations are not subject to the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), (Chapter 4 (commencing with Section 11370), Chapter 4.5 (commencing with Section 11400), and Chapter 5 (commencing with Section 11500) of

The department shall also evaluate each project at its conclusion and notwithstanding Section 7550.5, shall prepare and submit a summary of the evaluation to each house of the Legislature that includes a discussion of the following:

(2) The cost projections and methods by which savings, if any, may be calculated.

(3) A definitive mechanism by which the value and success, if any, of the demonstration project may be quantified as feasible. This mechanism shall include specific numerical objectives that must be met or exceeded if a demonstration project is to be judged successful.

(f) A demonstration project may not change the terms and conditions of employment covered by a memorandum of understanding entered into pursuant to the Ralph C. Dills Act (Chapter 10.3 (commencing with Section 3512) of Division 4 of Title 1), unless there is a written agreement with respect to the project between the department and the recognized employee organization representing the affected employees.

SEC. 18. Section 19841 of the Government Code is amended to read:

19841. (a) Notwithstanding Section 11030, whenever a state officer or employee is required by the appointing power because of a change in assignment, promotion, or other reason related to his or her duties to change his or her place of residence, the officer, agent, or employee shall receive his or her actual and necessary moving, traveling, lodging, and meal expenses incurred by him or her both before and after and by reason of the change of residence. The maximum allowances may be exceeded where the director determines that the change of residence will result in unusual and unavoidable hardship for the officer or employee, and in those cases the director shall determine the maximum allowances to be received by the officer or employee.

(b) If a change of residence reasonably requires the sale of residence or the settlement of an unexpired lease, the officer or employee may be reimbursed for any of the following expenses:

(1) The settlement of the unexpired lease to a maximum of one year. Upon the date of surrender of the premises by the employee who is the lessee, the rights and obligations of the parties to the lease shall be as determined by Section 1951.2 of the Civil Code.

(b) The department shall limit that determination to the time any transferred employees were employed in the specific function or a

function substantially similar while in the former agency and the seniority credits and accumulated sick leave and accumulated vacation shall not exceed that to which each employee would be entitled if he or she had been continuously employed by the State of California. This section is applicable to any function heretofore transferred to the state, whether by state action or otherwise, as well as to any future transfers of a function to the state, whether by state action or otherwise.

(b) (1) When a transfer under this section or Section 19050.5 reasonably requires an employee to change his or her place of residence, the appointing power shall give the employee, unless the employee waives this right, a written notice of transfer 60 days in advance of the effective date of the transfer. (B) The seniority credit to be granted for service in a class that has been abolished, combined, divided, or otherwise altered under the authority of Section 18802.

(C) The basis for determining the sequence of layoff whenever the class and subdivision of layoff includes employees whose service is less than full time.

(D) Any other matters as are necessary or advisable to the operation of this chapter.

(2) Notwithstanding paragraph (1), this paragraph shall apply to state employees in State Bargaining Unit 5 or 6. Layoff shall be made in accordance with the relative seniority of the employees in the class of layoff. In determining seniority scores, one point shall be allowed for each complete month of full-time state service regardless of when the service occurred. Department rules shall establish all of the following:

(A) The extent to which seniority credits may be granted for less than full-time service.

(B) The basis for determining the sequence of layoff whenever the class and subdivision of layoff includes employees whose service is less than full time.

(C) Any other matters as are necessary or advisable to the operation of this chapter.

(b) For professional, scientific, administrative, management, and executive classes, the department shall prescribe standards and methods by rule whereby employee efficiency shall be combined with seniority in determining the order of layoffs and the order of names on reemployment lists. These standards and methods may vary for different classes, and shall take into consideration the needs of state service and practice in private industry and other public employment.

SEC. 25. Section 19997.5 of the Government Code is amended to read:

19997.5. (a) Separations that are necessary by reason of reinstatement of an employee or employees after recognized military service as provided for in Section 19780 shall be made by layoff. In making these separations, the regular method of determining the order of layoff shall be used unless this would result in the layoff of an employee who has been reinstated in the class and subdivision of layoff under Section 19780, and in the retention of an employee who was appointed in the class and subdivision of layoff during the time such a reinstated employee was on military leave. Under these circumstances, seniority shall not be counted as provided in Section 19997.3. Instead, service in the subdivision of layoff that qualifies under Section 19997.3 for credit is the only state service that shall be counted.

Whenever such a layoff results in the demotion to a lower class of an employee who has been reinstated after recognized military service as provided in Section 19780, the resulting layoff, if any, in the lower class shall be made as though that reinstated employee had been in that lower class at the time he or she went on military leave.

Any layoff occurring within one year after reinstatement of an employee after recognized military service shall be presumed to have been necessary by reason of reinstatement of an employee or employees under Section 19780 unless the department determines that the reason for layoff is clearly not related to the reinstatement.

(b) Notwithstanding subdivision (a), this subdivision shall apply to state employees in State Bargaining Unit 5 or 6. Separations that are necessary by reason of reinstatement of an employee or employees after recognized military service as provided for in Section 19780 shall be made by layoff. In making these separations, the regular method of determining the order of layoff shall be used.

SEC. 26. Section 19997.6 of the Government Code is amended to read:

19997.6. (a) A veteran, except a veteran who was reinstated from military leave, shall in the event of layoff receive seniority credit for recognized military service if the veteran entered the state service

after discharge, the end of the national emergency, or the end of the state military emergency.

(b) Seniority credit for recognized military service shall be computed as if it were service in the class to which the employee was first given permanent civil service or exempt appointment after his or her entry into the state service following recognized military service.

(c) Seniority credit for recognized military service shall not exceed one years' credit if the veteran had no state service prior to entering the military service.

(d) This section shall become operative on July 1, 1993.

(e) Notwithstanding subdivisions (a), (c), and (d), this subdivision shall apply to state employees in State Bargaining Unit 5 or 6. For purposes of this subdivision, "recognized military service" means service in a military campaign or expedition for which a medal was authorized by the government of the United States in accordance with Section 300.1 of Title 12 of the California Code of Regulations.

19997.7. (a) Employees in the class under consideration, up to the number of positions to be abolished or discontinued, shall be laid off in the order as determined under this part. As between two or more of these employees who have the same score, veterans shall have preference in retention. Other ties shall be resolved according to department rule that shall take into consideration other matters of record before names are drawn by lot.

Whenever a demotion requires a layoff in the elected class, the seniority score for the demoted employee shall be recomputed in that class. The appointing power shall inform the

employee in the notice of layoff of the classes to which he or she has the right to demote. To be considered for demotion in lieu of layoff an employee must notify his or her appointing power in writing of his or her election not later than five calendar days after receiving notice of layoff.

(2) Notwithstanding paragraph (1), this paragraph shall apply to state employees in State Bargaining Unit 5 or 6. To be considered for demotion in lieu of layoff an employee must notify his or her appointing power in writing of his or her election not later than five calendar days after receiving notice of layoff.

(b) Demotions in lieu of layoff, and layoffs resulting therefrom, shall be governed by this article and shall be made within the subdivisions approved by the department for this purpose. These subdivisions need not be the same as those used to determine the area of layoff under Section 19997.2.

(c) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 29. Section 19997.11 of the Government Code is amended to read:

19997.11. (a) (1) The names of employees to be laid off or demoted shall be placed upon the reemployment list for the subdivision, if such a subdivision was designated, upon the departmental reemployment list and upon the general reemployment list, for the class from which the employees were laid off or demoted. The department may also place these names upon the general reemployment list for any other appropriate classes as the department determines.

The department shall also place such names upon the general reemployment list only for the entry level class within the employee's primary demotional pattern. This general reemployment list shall be a rule of one name.

(b) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

Notwithstanding Section 13340, this fund is continuously appropriated without regard to fiscal years for the purposes of this article.

(b) The cost of administering this article shall be paid solely from the members' individual accounts.

21078.2. (a) The contributions made by the employer, and the member if any, to the plan shall be credited to the member's individual account. (b) The member's individual account in this plan shall consist of the contributions made by the employer on his or her behalf, the contributions made by the member, if any, and any earnings attributed to investments made from the member's individual account.

(d) Member contributions, if any are made, shall be considered as contributions "picked up" by the employer, as specified by Section 414(h)(2) of Title 26 of the United States Code.

(e) The plan shall permit members to roll over contributions to or from another qualified plan, in accordance with federal requirements.

(f) The board may adopt rules and regulations, as it deems necessary, to ensure that the plan complies with the requirements imposed on defined contribution plans for governmental employers by Title 26 of the United States Code.

(g) The board shall have exclusive control over the administration and the investment of the fund. The board shall operate under the prudent person rule in its investment strategy and adopt all of the safeguards and diversity specified in Article 6 (commencing with Section 20190) of Chapter 2.

For employees in State Bargaining Unit 6, contracts entered into by the Department of Personnel Administration for employee benefits, occupational health and safety, or training services shall be exempt from the requirements set forth in Section 10295 and do not require the approval by the Department of General Services.

SEC. 35. (a) It is the intent of the Legislature that Section 19818.11 of the Government Code which permits the development and implementation of demonstration projects, also include provisions that address the ever increasing need to improve the delivery of health care benefits to employees located in rural areas of the state.

(b) The Legislature finds and declares both of the following:

(1) Historically, the delivery of health care in rural areas of the state has been costly, limited in coverage, and inconsistent.

(2) Participants in designing a demonstration project pursuant to Section 19818.11 of the Government Code should look toward achieving long-term, broad, and cost-effective coverage that can improve health care for both workers and their families.

SEC. 36. It is the intent of the Legislature that the Department of Personnel Administration shall endeavor to maintain appropriate compensation, benefits, and personnel policies under its statutory jurisdiction for supervisory correctional peace officers by considering factors that include, but are not limited to, the compensation, benefits, and personnel practices given to correctional peace officers in state government.

SEC. 37. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 22

An act to add Section 1367.695 to the Health and Safety Code, and to add Section 10123.84 to the Insurance Code, relating to health care coverage.

[Approved by Governor April 16, 1998. Filed with Secretary of State April 17, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1367.695 is added to the Health and Safety Code, immediately following Section 1367.69, to read:

1367.695. (a) The Legislature finds and declares that the unique, private, and personal relationship between women patients and their obstetricians and gynecologists warrants direct access to obstetrical and gynecological physician services.

(b) Commencing January 1, 1999, every health care service plan contract issued, amended, renewed, or delivered in this state, except a specialized health care service plan, shall allow an enrollee the option to seek obstetrical and gynecological physician services directly from a participating obstetrician and gynecologist or directly from a participating family practice physician and surgeon designated by the plan as providing obstetrical and gynecological services.

(c) In implementing this section, a health care service plan may establish reasonable provisions governing utilization protocols and the use of obstetricians and gynecologists, or family practice physicians and surgeons, as provided for in subdivision (b), participating in the plan network, medical group, or independent practice association, provided that these provisions shall be consistent with the intent of this section and shall be those customarily applied to other physicians and surgeons, such as primary care physicians and surgeons, to whom the enrollee has direct access, and shall not be more restrictive for the provision of obstetrical and gynecological physician services. An enrollee shall not be required to obtain prior approval from another physician, another provider, or the health care service plan prior to obtaining direct access to obstetrical and gynecological physician services, but the plan may establish reasonable requirements for the participating obstetrician and gynecologist or family practice physician and surgeon, as provided for in subdivision (b), to communicate with the enrollee's primary care physician and surgeon regarding the enrollee's condition, treatment, and any need for followup care.

(d) This section shall not be construed to diminish the provisions of Section 1367.69.

(e) The Department of Corporations shall report to the Legislature, on or before January 1, 2000, on the implementation of this section.

SEC. 2. Section 10123.84 is added to the Insurance Code, to read:

10123.84. (a) The Legislature finds and declares that the unique, private, and personal relationship between women patients and their obstetricians and gynecologists warrants direct access to obstetrical and gynecological physician services.

(b) Commencing January 1, 1999, every policy of disability insurance that covers hospital, medical, or surgical expenses, and that is issued, amended, delivered, or renewed in this state, shall allow a policyholder the option to seek obstetrical and gynecological physician services directly from an obstetrician and gynecologist or directly from a participating family practice physician and surgeon designated by the plan as providing obstetrical and gynecological services.

(c) In implementing this section, a disability insurer may establish reasonable provisions governing utilization protocols and the use of obstetricians and gynecologists or family practice physicians and surgeons, as provided for in subdivision (b), provided that these provisions shall be consistent with the intent of this section and shall be those customarily applied to other physicians and surgeons, including primary care physicians and surgeons, to whom the policyholder has direct access, and shall not be more restrictive for the provision of obstetrical and gynecological physician services. A policyholder shall not be required to obtain prior approval from another physician, another provider, or the insurer prior to obtaining direct access to obstetrical and gynecological physician services, but the insurer may establish reasonable requirements for the participating obstetrician and gynecologist or the family practice physician and surgeon, as provided in subdivision (b), to communicate with the policyholder's primary care physician regarding the policyholder's condition, treatment, and any need for followup care.

(d) This section shall not be construed to diminish the provisions of Section 10123.83.

(e) The Insurance Commissioner shall report to the Legislature, on or before January 1, 2000, on the implementation of this section.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative

on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 23

An act to amend Section 1363 of the Health and Safety Code, relating to health care service plans.

[Approved by Governor April 16, 1998. Filed with Secretary of State April 17, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1363 of the Health and Safety Code is amended to read:

1363. (a) The commissioner shall require the use by each plan of disclosure forms or materials containing information regarding the benefits, services, and terms of the plan contract as the commissioner may require, so as to afford the public, subscribers, and enrollees with a full and fair disclosure of the provisions of the plan in readily understood language and in a clearly organized manner. The commissioner may require that the materials be presented in a reasonably uniform manner so as to facilitate comparisons between plan contracts of the same or other types of plans. Nothing contained in this chapter shall preclude the commissioner from permitting the disclosure form to be included with the evidence of coverage or plan contract.

The disclosure form shall provide for at least the following information, in concise and specific terms, relative to the plan, together with additional information as may be required by the commissioner, in connection with the plan or plan contract:

(1) The principal benefits and coverage of the plan, including coverage for acute care and subacute care.

(2) The exceptions, reductions, and limitations that apply to the plan.

(3) The full premium cost of the plan.

(4) Any copayment, coinsurance, or deductible requirements that may be incurred by the member or the member's family in obtaining coverage under the plan.

(5) The terms under which the plan may be renewed by the plan member, including any reservation by the plan of any right to change premiums.

(6) A statement that the disclosure form is a summary only, and that the plan contract itself should be consulted to determine governing contractual provisions. On the first page of the disclosure form, a notice that conforms with all of the following conditions:

(A) States that the evidence of coverage discloses the terms and conditions of coverage and that the applicant has a right to view the evidence of coverage prior to enrollment. If the evidence of coverage is not combined with the disclosure form, the notice shall specify where the evidence of coverage can be obtained prior to enrollment.

(B) Includes a statement that the disclosure and the evidence of coverage should be read completely and carefully and that individuals with special health care needs should read carefully those sections that apply to them.

(C) Includes the plan's telephone number or numbers that may be used by an applicant to receive additional information about the benefits of the plan or a statement where the telephone number or numbers are located in the disclosure form.

(D) For individual contracts, and small group plan contracts as defined in Article 3.1 (commencing with Section 1357), the disclosure form shall state where the Health Plan Benefits and Coverage Matrix is located.

(E) Is printed in type no smaller than that used for the remainder of the disclosure form and is displayed prominently on the page.

(7) A statement as to when benefits shall cease in the event of nonpayment of the prepaid or periodic charge and the effect of nonpayment upon an enrollee who is hospitalized or undergoing treatment for an ongoing condition.

(8) To the extent that the plan permits a free choice of provider to its subscribers and enrollees, the statement shall disclose the nature and extent of choice permitted and the financial liability which is, or may be, incurred by the subscriber, enrollee, or a third party by reason of the exercise of that choice.

(9) A summary of the provisions required by subdivision (g) of Section 1373, if applicable.

(10) If the plan utilizes arbitration to settle disputes, a statement of that fact.

(11) A summary of, and a notice of the availability of, the process the plan uses to authorize or deny health care services under the benefits provided by the plan, pursuant to Section 1363.5.

(12) A description of any limitations on the patient's choice of primary care or specialty care physician based on service area and limitations on the patient's choice of acute care hospital care, subacute or transitional inpatient care, or skilled nursing facility.

(13) General authorization requirements for referral by a primary care physician to a specialty care physician.

(14) Conditions and procedures for disenrollment.

(b) (1) As of July 1, 1999, the commissioner shall require each plan offering a contract to an individual or small group to provide with the disclosure form for individual and small group plan contracts a uniform Health Plan Benefits and Coverage Matrix containing the plan's major provisions in order to facilitate comparisons between plan contracts. The uniform matrix shall include the following

category descriptions together with the corresponding copayments and limitations in the following sequence:

(A) Deductibles.
(B) Lifetime maximums.
(C) Professional services.
(D) Outpatient services.
(E) Hospitalization services.
(F) Emergency health coverage.
(G) Ambulance services.
(H) Prescription drug coverage.
(I) Durable medical equipment.
(J) Mental health services.
(K) Chemical dependency services.
(L) Home health services.
(M) Other.

(2) The following statement shall be placed at the top of the matrix in all capital letters in at least 10-point boldface type:

THIS MATRIX IS INTENDED TO BE USED TO HELP YOU COMPARE COVERAGE BENEFITS AND IS A SUMMARY ONLY. THE EVIDENCE OF COVERAGE AND PLAN CONTRACT SHOULD BE CONSULTED FOR A DETAILED DESCRIPTION OF COVERAGE BENEFITS AND LIMITATIONS.

(c) Nothing in this section shall prevent a plan from using appropriate footnotes or disclaimers to reasonably and fairly describe coverage arrangements in order to clarify any part of the matrix that may be unclear.

(d) All plans, solicitors, and representatives of a plan shall, when presenting any plan contract for examination or sale to an individual prospective plan member, provide the individual with a properly completed disclosure form, as prescribed by the commissioner pursuant to this section for each plan so examined or sold.

(e) In the case of group contracts, the completed disclosure form and evidence of coverage shall be presented to the contractholder upon delivery of the completed health care service plan agreement.

(f) Group contractholders shall disseminate copies of the completed disclosure form to all persons eligible to be a subscriber under the group contract at the time those persons are offered the plan. Where the individual group members are offered a choice of plans, separate disclosure forms shall be supplied for each plan available. Each group contractholder shall also disseminate or cause to be disseminated copies of the evidence of coverage to all subscribers enrolled under the group contract.

(g) In the case of conflicts between the group contract and the evidence of coverage, the provisions of the evidence of coverage shall be binding upon the plan notwithstanding any provisions in the

group contract which may be less favorable to subscribers or enrollees.

(h) In addition to the other disclosures required by this section, every health care service plan and any agent or employee of the plan shall, when presenting a plan for examination or sale to any individual purchaser or the representative of a group consisting of 25 or fewer individuals, disclose in writing the ratio of premium costs to health services paid for plan contracts with individuals and with groups of the same or similar size for the plan's preceding fiscal year. A plan may report that information by geographic area, provided the plan identifies the geographic area and reports information applicable to that geographic area.

(i) Subdivision (b) shall not apply to any coverage provided by a plan for the Medi-Cal program or the Medicare program pursuant to Title XVIII and Title XIX of the Social Security Act.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 24

An act to add Section 42283.2 to the Education Code, relating to schools.

[Approved by Governor April 27, 1998. Filed with Secretary of State April 28, 1998.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The Sierra Sands Unified School District is a large school district that serves pupils from a wide and varied geographic area. Within that district, Rand Elementary School has a pupil population of less than 30 pupils. Pupils, in kindergarten and grades 1 to 5, inclusive, who presently attend that school would have to travel long distances over hazardous terrain in order to attend other schools within the Sierra Sands Unified School District.

(b) In previous years the Sierra Sands Unified School District received considerable federal grants pursuant to Public Law 81-874, which subsidizes school districts serving military families. However, these federal grants have declined from one million six hundred thousand dollars ($1,600,000) in the 1974–75 fiscal year to eight hundred thirty-nine thousand dollars ($839,000) in the 1995–96 fiscal year, and are expected to decline even further to approximately seven hundred seventy-five thousand dollars ($775,000) in the 1996–97 fiscal year, and to continue to descend thereafter.

SEC. 2. Section 42283.2 is added to the Education Code, to read:

42283.2. (a) Notwithstanding any other provision of law, the Rand Elementary School shall be deemed a necessary small school, as defined in Section 42283. Notwithstanding any other provision of law, the Sierra Sands Unified School District is eligible to receive apportionments for the Rand Elementary School pursuant to Section 42282.

(b) If the amount of average daily attendance of the Rand Elementary School exceeds 100, then that school shall no longer be entitled to receive apportionments as a necessary small school.

SEC. 3. The Legislature finds and declares that, due to the unique fiscal circumstances of the Sierra Sands Unified School District that are set forth in Section 1 of this act, a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

CHAPTER 25

An act to amend Section 832.5 of the Penal Code, relating to peace officers.

[Approved by Governor April 29, 1998. Filed with Secretary of State April 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 832.5 of the Penal Code is amended to read:

832.5. (a) Each department or agency in this state that employs peace officers shall establish a procedure to investigate complaints by members of the public against the personnel of these departments or agencies, and shall make a written description of the procedure available to the public.

(b) Complaints and any reports or findings relating to these complaints shall be retained for a period of at least five years. All complaints retained pursuant to this subdivision may be maintained either in the officer's general personnel file or in a separate file designated by the department or agency as provided by department or agency policy, in accordance with all applicable requirements of

law. However, prior to any official determination regarding promotion, transfer, or disciplinary action by an officer's employing department or agency, the complaints described by subdivision (c) shall be removed from the officer's general personnel file and placed in separate file designated by the department or agency, in accordance with all applicable requirements of law.

(c) Complaints by members of the public that are determined by the peace officer's employing agency to be frivolous, as defined in Section 128.5 of the Code of Civil Procedure, or unfounded or exonerated, or any portion of a complaint that is determined to be frivolous, unfounded, or exonerated, shall not be maintained in that officer's general personnel file. However, these complaints shall be retained in other, separate files that shall be deemed personnel records for purposes of the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code) and Section 1043 of the Evidence Code.

(1) Management of the peace officer's employing agency shall have access to the files described in this subdivision.

(2) Management of the peace officer's employing agency shall not use the complaints contained in these separate files for punitive or promotional purposes except as permitted by subdivision (f) of Section 3304 of the Government Code.

(3) Management of the peace officer's employing agency may identify any officer who is subject to the complaints maintained in these files which require counseling or additional training. However, if a complaint is removed from the officer's personnel file, any reference in the personnel file to the complaint or to a separate file shall be deleted.

(d) As used in this section, the following definitions apply:

(1) "General personnel file" means the file maintained by the agency containing the primary records specific to each officer's employment, including evaluations, assignments, status changes, and imposed discipline.

(2) "Unfounded" means that the investigation clearly established that the allegation is not true.

(3) "Exonerated" means that the investigation clearly established that the actions of the peace officer that formed the basis for the complaint are not violations of law or department policy.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative

on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 26

An act to amend Section 10234 of the Business and Professions Code, relating to real estate.

[Approved by Governor April 29, 1998. Filed with Secretary of State April 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 10234 of the Business and Professions Code is amended to read:

10234. (a) Except as provided in subdivision (d), every real estate licensee who negotiates a loan secured by a trust deed on real property shall cause the trust deed to be recorded, naming as beneficiary the lender or his or her nominee (who shall not be the licensee or the licensee's nominee), with the county recorder of the county in which the real property is located prior to the time that any funds are disbursed, except when the lender has given written authorization for prior release.

(b) If funds are released on the lender's written authorization as described in subdivision (a), the trust deed shall be recorded, or delivered to the lender or beneficiary with a written recommendation that it be recorded forthwith, within 10 days following release.

(c) Every real estate licensee who sells, exchanges, or negotiates the sale or exchange of a real property sales contract or a promissory note secured by a trust deed on real property shall cause a proper assignment of the real property sales contract or trust deed to be executed and shall cause the assignment to be recorded, naming as assignee the purchaser or his or her nominee (who shall not be the licensee or the licensee's nominee), with the county recorder of the county in which the real property is located within 10 working days after the licensee or seller receives any funds from the buyer or after close of escrow; or shall deliver the real property sales contract or trust deed to the purchaser with a written recommendation that the assignment thereof be recorded forthwith.

(d) A trust deed may be recorded in the name of the real estate broker negotiating the loan if all of the following apply: (1) the lender or purchaser is any person or entity set forth in paragraph (1) of subdivision (c) of Section 10232, (2) the trust deed is recorded with the county recorder of the county in which the real property is located, and (3) the real property securing the loan as described in

the trust deed is not a dwelling as defined in Section 10240.2 or unimproved real property.

CHAPTER 27

An act relating to elections, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 29, 1998. Filed with Secretary of State April 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any provision of the Elections Code to the contrary, a special general election only to fill the vacancy in the 9th Senate District may be conducted more than 180 days following the proclamation of the Governor in order to consolidate the special general election with the November 3, 1998, statewide general election.

This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the special general election to fill the vacancy in the 9th Senate District may be consolidated with the November 3, 1998, statewide general election and thereby reduce the costs of that special general election, it is necessary that this act take immediate effect.

CHAPTER 28

An act relating to the Department of Corrections, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 29, 1998. Filed with Secretary of State April 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. The sum of six million five hundred fifty-eight thousand dollars ($6,558,000) is hereby appropriated from the General Fund to the Department of Corrections for minor capital outlay projects to implement the statewide Disability Placement

Program and facility modifications to provide accessibility for disabled inmates.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The Department of Corrections has developed a program, including facility modifications, needed to provide appropriate housing and programming opportunities for inmates with disabilities. Construction of these improvements will assist in avoiding potentially more expensive court-ordered alternatives. To provide the funding needed to ensure the expedited construction of these modifications and full implementation of this program, it is necessary for this act to take effect immediately.

CHAPTER 29

An act to amend Section 6062 of the Business and Professions Code, relating to the State Bar of California, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 29, 1998. Filed with Secretary of State April 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 6062 of the Business and Professions Code is amended to read:

6062. (a) To be certified to the Supreme Court for admission, and a license to practice law, a person who has been admitted to practice law in a sister state, United States jurisdiction, possession, territory, or dependency the United States may hereafter acquire shall:

(1) Be of the age of at least 18 years.

(2) Be of good moral character.

(3) Have passed the general bar examination given by the examining committee. However, if that person has been an active member in good standing of the bar of the admitting sister state or United States jurisdiction, possession, or territory for at least four years immediately preceding the filing of his or her application to take the general bar examination, he or she may elect to take the Attorneys' Examination rather than the general bar examination. Attorneys admitted less than four years and attorneys admitted four years or more in another jurisdiction but who are not active members in good standing of their admitting jurisdiction must take the general bar examination administered to general applicants not admitted as attorneys in other jurisdictions.

(4) Have passed an examination in professional responsibility or legal ethics as the examining committee may prescribe.

(b) To be certified to the Supreme Court for admission, and a license to practice law, a person who has been admitted to practice law in a jurisdiction other than in a sister state, United States jurisdiction, possession, or territory shall:

(1) Be of the age of at least 18 years.

(2) Be of good moral character.

(3) Have passed the general bar examination given by the examining committee.

(4) Have passed an examination in professional responsibility or legal ethics as the examining committee may prescribe.

(c) The amendments to this section made at the 1997–98 Regular Session of the Legislature shall be applicable on and after January 1, 1997, and do not constitute a change in, but are declaratory of, existing law.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to permit the practice of law in California by a class of qualified applicants who were inadvertently disenfranchised by a technical error in statutory drafting, and in order for the Committee of Bar Examiners to continue to certify all qualified candidates for admission to the practice of law, it is necessary that this bill take effect immediately.

CHAPTER 30

An act to amend Section 44977 of, and to add Section 44978.1 to, the Education Code, relating to school employees.

[Approved by Governor April 29, 1998. Filed with Secretary of State April 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 44977 of the Education Code is amended to read:

44977. (a) During each school year, when a person employed in a position requiring certification qualifications has exhausted all available sick leave, including all accumulated sick leave, and continues to be absent from his or her duties on account of illness or accident for an additional period of five school months, whether or not the absence arises out of or in the course of the employment of the employee, the amount deducted from the salary due him or her for any of the additional five months in which the absence occurs shall

not exceed the sum that is actually paid a substitute employee employed to fill his or her position during his or her absence or, if no substitute employee was employed, the amount that would have been paid to the substitute had he or she been employed. The school district shall make every reasonable effort to secure the services of a substitute employee.

(b) For purposes of subdivision (a):

(1) The sick leave, including accumulated sick leave, and the five-month period shall run consecutively.

(2) An employee shall not be provided more than one five-month period per illness or accident. However, if a school year terminates before the five-month period is exhausted, the employee may take the balance of the five-month period in a subsequent school year.

(c) The governing board of every school district shall adopt a salary schedule for substitute employees. The salary schedule shall indicate a salary for a substitute for all categories or classes of certificated employees of the district.

(d) Excepting in a district the governing board of which has adopted a salary schedule for substitute employees of the district, the amount paid the substitute employee during any month shall be less than the salary due the employee absent from his or her duties.

(e) When a person employed in a position requiring certification qualifications is absent from his or her duties on account of illness for a period of more than five school months, or when a person is absent from his or her duties for a cause other than illness, the amount deducted from the salary due him or her for the month in which the absence occurs shall be determined according to the rules and regulations established by the governing board of the district. The rules and regulations shall not conflict with rules and regulations of the State Board of Education.

(f) Nothing in this section shall be construed so as to deprive any district, city, or city and county of the right to make any reasonable rule for the regulation of accident or sick leave or cumulative accident or sick leave without loss of salary for persons acquiring certification qualifications.

(g) This section shall be applicable whether or not the absence from duty is by reason of a leave of absence granted by the governing board of the employing district.

SEC. 2. Section 44978.1 is added to the Education Code, to read:

44978.1. When a certificated employee has exhausted all available sick leave, including accumulated sick leave, and continues to be absent on account of illness or accident for a period beyond the five-month period provided pursuant to Section 44977, and the employee is not medically able to resume the duties of his or her position, the employee shall, if not placed in another position, be placed on a reemployment list for a period of 24 months if the employee is on probationary status, or for a period of 39 months if the employee is on permanent status. When the employee is medically

able, during the 24- or 39-month period, the certificated employee shall be returned to employment in a position for which he or she is credentialed and qualified. The 24-month or 39-month period shall commence at the expiration of the five-month period provided pursuant to Section 44977.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 31

An act to add Section 1374.16 to the Health and Safety Code, and to add Section 14450.5 to the Welfare and Institutions Code, relating to health care.

[Approved by Governor April 30, 1998. Filed with Secretary of State April 30, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1374.16 is added to the Health and Safety Code, to read:

1374.16. (a) Every health care service plan, except a specialized health care service plan, shall establish and implement a procedure by which an enrollee may receive a standing referral to a specialist. The procedure shall provide for a standing referral to a specialist if the primary care physician determines in consultation with the specialist, if any, and the plan medical director or his or her designee, that an enrollee needs continuing care from a specialist. The referral shall be made pursuant to a treatment plan approved by the health care service plan in consultation with the primary care physician, the specialist, and the enrollee, if a treatment plan is deemed necessary to describe the course of the care. A treatment plan may be deemed to be not necessary provided that a current standing referral to a specialist is approved by the plan or its contracting provider, medical group, or independent practice association. The treatment plan may limit the number of visits to the specialist, limit the period of time that the visits are authorized, or require that the specialist provide the

primary care physician with regular reports on the health care provided to the enrollee.

(b) Every health care service plan, except a specialized health care service plan, shall establish and implement a procedure by which an enrollee with a condition or disease that requires specialized medical care over a prolonged period of time and is life-threatening, degenerative, or disabling may receive a referral to a specialist or specialty care center that has expertise in treating the condition or disease for the purpose of having the specialist coordinate the enrollee's health care. The referral shall be made if the primary care physician, in consultation with the specialist or specialty care center if any, and the plan medical director or his or her designee determines that this specialized medical care is medically necessary for the enrollee. The referral shall be made pursuant to a treatment plan approved by the health care service plan in consultation with the primary care physician, specialist or specialty care center, and enrollee, if a treatment plan is deemed necessary to describe the course of care. A treatment plan may be deemed to be not necessary provided that the appropriate referral to a specialist or specialty care center is approved by the plan or its contracting provider, medical group, or independent practice association. After the referral is made, the specialist shall be authorized to provide health care services that are within the specialist's area of expertise and training to the enrollee in the same manner as the enrollee's primary care physician, subject to the terms of the treatment plan.

(c) The determinations described in subdivisions (a) and (b) shall be made within three business days of the date the request for the determination is made by the enrollee or the enrollee's primary care physician and all appropriate medical records and other items of information necessary to make the determination are provided. Once a determination is made, the referral shall be made within four business days of the date the proposed treatment plan, if any, is submitted to the plan medical director or his or her designee.

(d) Subdivisions (a) and (b) do not require a health care service plan to refer to a specialist who, or to a specialty care center that, is not employed by or under contract with the health care service plan to provide health care services to its enrollees, unless there is no specialist within the plan network that is appropriate to provide treatment to the enrollee, as determined by the primary care physician in consultation with the plan medical director as documented in the treatment plan developed pursuant to subdivision (a) or (b).

(e) For the purposes of this section, "specialty care center" means a center that is accredited or designated by an agency of the state or federal government or by a voluntary national health organization as having special expertise in treating the life-threatening disease or condition or degenerative and disabling disease or condition for which it is accredited or designated.

(f) As used in this section, a "standing referral" means a referral by a primary care physician to a specialist for more than one visit to the specialist, as indicated in the treatment plan, if any, without the primary care physician having to provide a specific referral for each visit.

SEC. 2. Section 14450.5 is added to the Welfare and Institutions Code, to read:

14450.5. (a) No contract between the department and a prepaid health plan that is contracting with, or that is governed, owned, or operated by, a county board of supervisors, shall be approved or renewed unless the standards set forth in Section 1374.16 of the Health and Safety Code are met. The treatment plan developed pursuant to Section 1374.16 of the Health and Safety Code shall be consistent with federal and state medicaid requirements. Nothing in Section 1374.16 of the Health and Safety Code is intended to alter or abrogate any other requirements of federal or state law with regard to medicaid.

(b) The requirements of this section shall apply to all managed care plan contracts entered into under any of the following:

(1) The act that added this subdivision.

(2) Any of the following provisions of Chapter 7 (commencing with Section 14000).

(A) Article 2.7 (commencing with Section 14087.3).

(B) Article 2.9 (commencing with Section 14088).

(C) Article 2.91 (commencing with Section 14089).

(3) Article 7 of Chapter 8 (commencing with Section 14490).

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 32

An act to amend Section 19617.7 of the Business and Professions Code, relating to horse racing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 5, 1998. Filed with Secretary of State May 5, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 19617.7 of the Business and Professions Code is amended to read:

19617.7. (a) The following definitions govern the construction of this section:

(1) "Breeder" means a person who is registered as the breeder of a California-bred quarter horse with the official registering agency and is named on the applicable Certificate of Registration issued by the American Quarter Horse Association.

(2) "Eligible earnings" means the following:

(A) In the case of breeder premiums, the annual amount earned by a California-bred quarter horse for finishing first or second in qualifying races.

(B) In the case of owners' awards, the annual amount earned by a California-bred quarter horse for finishing first or second in qualifying races.

(C) In the case of stallion awards, the annual amount earned by California-conceived or California-bred foals of an eligible quarter horse sire for finishing first or second in qualifying races.

(D) In order for earnings from a qualifying race to be considered as eligible earnings, a California-bred quarter horse shall be registered as such with the official registering agency before the entries were taken by the association for the qualifying race in which that horse earned purse money.

(E) For purposes of this paragraph, the maximum purse considered earned in any qualifying race within this state is two hundred thousand dollars ($200,000) for a win, and eighty thousand dollars ($80,000) for a second place finish.

(F) In determining the purse earned in any qualifying race that is a stakes race, the amount earned shall be based on the added money and other sources of the purse, such as nomination, entry, or starting fees, bonuses, and sponsor contributions, or any combination thereof.

(G) On or before February 1 of any year, the stallion owner shall verify with the official registering agency the eligibility of a stallion to receive the stallion award to which the owner is entitled.

(3) "Eligible quarter horse sire" means a quarter horse, or thoroughbred stallion, bred to a quarter horse mare, where the sire was continuously present in this state from February 1 to July 15, inclusive, of the calendar year in which the qualifying race was conducted, as well as from February 1 to July 15, inclusive, of the following calender year. If a sire dies in this state and stood his last season at stud in this state, he shall thereafter continue to be considered an eligible quarter horse sire. Notwithstanding any other provision of law, a quarter horse or thoroughbred stallion shall be considered an eligible quarter horse sire only if its owner has verified the stallion's eligibility with the official registering agency for stallion awards on or before February 1 of the calendar year immediately

following the calendar year for which the awards are being distributed.

(4) "Official registering agency" means the Pacific Coast Quarter Horse Racing Association.

(5) "Owner" means the person who is registered with the paymaster of purses on the date the qualifying race was conducted as the owner of the California-bred quarter horse earning purse money in that race.

(6) "Qualifying race" means all quarter horse races in this state.

(7) "Stallion owner" means the person who is the owner of the eligible quarter horse sire as of December 31 of the calendar year in which that sire's foals had eligible earnings or the person who owned the eligible quarter horse sire on the date that the sire died.

(b) Any association conducting a race meeting that includes quarter horse racing shall deposit with the official registering agency 0.2 of 1 percent of the total amount handled ontrack, and 0.4 of 1 percent of the total amount handled offtrack, in daily conventional and exotic parimutuel pools and a sum equal to 25 percent of those funds specified for purses in Sections 19612.1, 19612.2, 19614.2, 19616, and 19616.1 and the sums specified in Sections 19567 and 19617.5, resulting from quarter horse racing. The deposits shall be made at the following intervals:

(1) For any meeting of 20 racing days or less, the requisite deposit shall be made not later than seven days immediately following the last day of that meeting.

(2) For any meeting of more than 20 racing days, the initial deposit shall be made not later than 27 racing days after the commencement of that meeting and every 20 racing days thereafter, with a final deposit made not later than seven days following the last day of that meeting. The initial deposit for that meeting shall be based upon the applicable amount handled during the first 20 racing days of the meeting and deposits thereafter shall be based upon the applicable amount handled during the ensuing periods of 20 racing days with the last deposit being based upon the applicable amount handled from the end of the last 20-racing-day period for which a deposit has been made to the end of the meeting.

(c) After deducting a sum up to, but not to exceed, 10 percent of the total deposits made pursuant to subdivision (b) and the total deposits made pursuant to other provisions of this chapter, including Sections 19612.1, 19612.2, 19614.2, 19616, and 19616.1, to compensate the official registering agency for its administrative costs, the official registering agency shall distribute annually the balance of the deposits in the following manner:

(1) Sixty percent to the breeder fund from which breeder premiums are to be paid.

(2) Twenty-five percent to the owner fund from which owners' awards are to be paid.

(3) Fifteen percent to the stallion fund from which stallion awards are to be paid.

(d) The official registering agency shall make the following payments to the breeder, owner, and stallion owner to encourage agriculture and the breeding of high quality horses in this state:

(1) The breeder shall be paid a sum based on a prorated share, but not less than 10 percent, of first and second place earnings from qualified races by a California-bred quarter horse.

If the sum paid to the breeder is less than 10 percent of the purse paid for a first or second place finish in a qualifying race, the owners' award and stallion award pools shall respectively contribute 62.5 percent and 37.5 percent of the moneys necessary to the breeder premium pool to raise the breeder premium to 10 percent minimum. In calculating the 10 percent breeder premium, the maximum purse considered earned in any qualifying race within this state is two hundred thousand dollars ($200,000) for a first place finish, and eighty thousand dollars ($80,000) for a second place finish.

(2) The owner shall be paid an owners' award, a sum based on a prorated share of first and second place earnings from qualified races by a California-bred quarter horse.

(3) The stallion owner shall be paid a stallion award, a sum based on a prorated share of first and second place earnings from qualified races by a California-bred quarter horse.

Stallion awards shall not be made to the owner of a sire that has been out of the state for breeding purposes during the calendar year.

(4) The breeder premium, and owners' and stallion awards shall be paid not later than March 31 of the calendar year immediately following the calendar year for which the awards or premiums were earned. Any payments for awards or premiums that are uncashed on December 31 of the year issued, shall accrue to the following year for distribution on an equal basis. All uncashed payments for premiums and awards that have accumulated as of December 31, 1994, shall be paid to the 1995 awards program in accordance with subdivision (c).

(e) The amount remaining for distribution under this section, if any, after the payments are made under subdivision (d) shall be used for the payment of quarter horse breeder premiums and owners' and stallion awards on a prorated percentage based on the win and second place shares of the purse, exclusive of all purse money not derived from the parimutuel pools, to the breeders, owners, and owners of sires of quarter horses who have been officially placed first or second in one or more qualifying races.

(f) If there are insufficient funds to make all of the distributions in this section, there shall be no assessments made against any association to fund the deficiencies.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to eliminate a hardship to the quarter horse breeding industry and to encourage and promote the growth of that industry for the 1998 quarter horse racing season, it is necessary that this act take effect immediately.

CHAPTER 33

An act to amend Section 33452 of the Food and Agricultural Code, relating to agriculture.

[Approved by Governor May 5, 1998. Filed with Secretary of State May 5, 1998.]

The people of the State of California do enact as follows:

(b) This section does not apply to dairy goat farms.

CHAPTER 34

An act to amend Sections 47601, 47602, 47605, 47607, 47608, 47610, 47612, 47613, and 47616.5 of, and to add Sections 47604, 47604.3, 47604.5, 47605.5, 47613.5, 47613.7, 47614, and 47615 to, the Education Code, relating to charter schools.

The people of the State of California do enact as follows:

SECTION 1. Section 47601 of the Education Code is amended to read:

47601. It is the intent of the Legislature, in enacting this part, to provide opportunities for teachers, parents, pupils, and community members to establish and maintain schools that operate

independently from the existing school district structure, as a method to accomplish all of the following:

(a) Improve pupil learning.

(b) Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for pupils who are identified as academically low achieving.

(c) Encourage the use of different and innovative teaching methods.

(d) Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the schoolsite.

(e) Provide parents and pupils with expanded choices in the types of educational opportunities that are available within the public school system.

(f) Hold the schools established under this part accountable for meeting measurable pupil outcomes, and provide the schools with a method to change from rule-based to performance-based accountability systems.

(g) Provide vigorous competition within the public school system to stimulate continual improvements in all public schools.

SEC. 2. Section 47602 of the Education Code is amended to read:

47602. (a) (1) In the 1998–99 school year, the maximum total number of charter schools authorized to operate in this state shall be 250. In the 1999–2000 school year, and in each successive school year thereafter, an additional 100 charter schools are authorized to operate in this state each successive school year. The limits contained in this paragraph may not be waived pursuant to Section 33050 or any other provision of law.

(2) By July 1, 2003, the Legislative Analyst shall, pursuant to the criteria in Section 47616.5, report to the Legislature on the effectiveness of the charter school approach authorized under this part and recommend whether to expand or reduce the annual rate of growth of charter schools authorized pursuant to this section.

(b) No charter shall be granted under this part that authorizes the conversion of any private school to a charter school. No charter school shall receive any public funds for a pupil if the pupil also attends a private school that charges the pupil's family for tuition. The State Board of Education shall adopt regulations to implement this section.

SEC. 3. Section 47604 is added to the Education Code, to read:

47604. (a) Charter schools may elect to operate as, or be operated by, a nonprofit public benefit corporation, formed and organized pursuant to the Nonprofit Public Benefit Corporation Law (Part 2 (commencing with Section 5110) of Division 2 of Title 1) of the Corporations Code).

(b) The governing board of a school district that grants a charter for the establishment of a charter school formed and organized pursuant to this section shall be entitled to a single representative on the board of directors of the nonprofit public benefit corporation.

(c) It is the intent of the Legislature that an authority that grants a charter to a charter school to be operated by, or as, a nonprofit public benefit corporation shall not be liable for the debts or obligations of the charter school.

SEC. 4. Section 47604.3 is added to the Education Code, to read:

47604.3. A charter school shall promptly respond to all reasonable inquiries, including, but not limited to, inquiries regarding its financial records, from its chartering authority or from the Superintendent of Public Instruction and shall consult with the chartering authority or the Superintendent of Public Instruction regarding any inquiries.

SEC. 5. Section 47604.5 is added to the Education Code, to read:

47604.5. The State Board of Education, whether or not it is the authority that granted the charter, may, based upon the recommendation of the Superintendent of Public Instruction, take appropriate action, including, but not limited to, revocation of the school's charter, when the State Board of Education finds any of the following:

(a) Gross financial mismanagement that jeopardizes the financial stability of the charter school.

(b) Illegal or substantially improper use of charter school funds for the personal benefit of any officer, director, or fiduciary of the charter school.

(c) Substantial and sustained departure from measurably successful practices such that continued departure would jeopardize the educational development of the school's pupils.

SEC. 6. Section 47605 of the Education Code is amended to read:

47605. (a) (1) Except as set forth in paragraph (2), a petition for the establishment of a charter school within any school district may be circulated by any one or more persons seeking to establish the charter school. The petition may be submitted to the governing board of the school district for review after either of the following conditions are met:

(A) The petition has been signed by a number of parents or guardians of pupils that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation.

(B) The petition has been signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation.

(2) In the case of a petition for the establishment of a charter school through the conversion of an existing public school, that would not be eligible for a loan pursuant to subdivision (b) of Section 41365, the petition may be circulated by any one or more persons seeking to establish the converted charter school. The petition may be submitted to the governing board of the school district for review after the petition has been signed by not less than 50 percent of the

permanent status teachers currently employed at the public school to be converted.

(3) A petition shall include a prominent statement that a signature on the petition means that the parent or guardian is meaningfully interested in having his or her child, or ward, attend the charter school, or in the case of a teacher's signature, means that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition.

(b) No later than 30 days after receiving a petition, in accordance with subdivision (a), the governing board of the school district shall hold a public hearing on the provisions of the charter, at which time the governing board of the school district shall consider the level of support for the petition by teachers employed by the district, other employees of the district, and parents. Following review of the petition and the public hearing, the governing board of the school district shall either grant or deny the charter within 60 days of receipt of the petition, provided, however, that the date may be extended by an additional 30 days if both parties agree to the extension. In reviewing petitions for the establishment of charter schools pursuant to this section, the chartering authority shall be guided by the intent of the Legislature that charter schools are and should become an integral part of the California educational system and that establishment of charter schools should be encouraged. A school district governing board shall grant a charter for the operation of a school under this part if it is satisfied that granting the charter is consistent with sound educational practice. The governing board of the school district shall not deny a petition for the establishment of a charter school unless it makes written factual findings, specific to the particular petition, setting forth specific facts to support one, or more, of the following findings:

(1) The charter school presents an unsound educational program for the pupils to be enrolled in the charter school.

(2) The petitioners are demonstrably unlikely to successfully implement the program set forth in the petition.

(3) The petition does not contain the number of signatures required by subdivision (a).

(4) The petition does not contain an affirmation of each of the conditions described in subdivision (d).

(5) The petition does not contain reasonably comprehensive descriptions of all of the following:

(A) A description of the educational program of the school, designed, among other things, to identify those whom the school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling pupils to become self-motivated, competent, and lifelong learners.

(B) The measurable pupil outcomes identified for use by the charter school. "Pupil outcomes," for purposes of this part, means the

extent to which all pupils of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program.

(C) The method by which pupil progress in meeting those pupil outcomes is to be measured.

(D) The governance structure of the school, including, but not limited to, the process to be followed by the school to ensure parental involvement.

(E) The qualifications to be met by individuals to be employed by the school.

(F) The procedures that the school will follow to ensure the health and safety of pupils and staff. These procedures shall include the requirement that each employee of the school furnish the school with a criminal record summary as described in Section 44237.

(G) The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the general population residing within the territorial jurisdiction of the school district to which the charter petition is submitted.

(H) Admission requirements, if applicable.

(I) The manner in which annual, independent, financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.

(J) The procedures by which pupils can be suspended or expelled.

(K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

(L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.

(M) A description of the rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.

(N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.

(c) (1) Charter schools shall meet all statewide standards and conduct the pupil assessments required pursuant to Section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools.

(2) Charter schools shall on a regular basis consult with their parents and teachers regarding the school's educational programs.

(d) (1) In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of ethnicity, national origin, gender, or disability. Except as

provided in paragraph (2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or guardian, within this state, except that any existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school.

(2) (A) A charter school shall admit all pupils who wish to attend the school.

(B) However, if the number of pupils who wish to attend the charter school exceeds the school's capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the district. Other preferences may be permitted by the chartering authority on an individual school basis and only if consistent with the law.

(C) In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the charter school and, in no event, shall take any action to impede the charter school from expanding enrollment to meet student demand.

(e) No governing board of a school district shall require any employee of the school district to be employed in a charter school.

(f) No governing board of a school district shall require any pupil enrolled in the school district to attend a charter school.

(g) The governing board of a school district shall require that the petitioner or petitioners provide information regarding the proposed operation and potential effects of the school, including, but not limited to, the facilities to be utilized by the school, the manner in which administrative services of the school are to be provided, and potential civil liability effects, if any, upon the school and upon the school district. The petitioner or petitioners shall also be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cash-flow and financial projections for the first three years of operation.

(h) In reviewing petitions for the establishment of charter schools within the school district, the school district governing board shall give preference to petitions that demonstrate the capability to provide comprehensive learning experiences to pupils identified by the petitioner or petitioners as academically low achieving pursuant to the standards established by the State Department of Education under Section 54032.

(i) Upon the approval of the petition by the governing board of the school district, the petitioner or petitioners shall provide written notice of that approval, including a copy of the petition, to the State Board of Education.

(j) (1) If the governing board of a school district denies a petition, the petitioner may elect to submit the petition for the establishment of a charter school to either the county board of education or directly

to the State Board of Education. The county board of education or the State Board of Education, as the case may be, shall review the petition pursuant to subdivision (b). If the petitioner elects to submit a petition for establishment of a charter school to the county board of education and the county board of education denies the petition, the petitioner may file a petition for establishment of a charter school with the State Board of Education.

(2) A charter school for which a charter is granted by either the county board of education or the State Board of Education pursuant to this subdivision shall qualify fully as a charter school for all funding and other purposes of this part.

(3) If either the county board of education or the State Board of Education fails to act on a petition within 120 days of receipt, the decision of the governing board of the school district to deny a petition shall, thereafter, be subject to judicial review.

(4) The State Board of Education shall adopt regulations implementing this subdivision.

(k) (1) The State Board of Education may, by mutual agreement, designate its supervisorial and oversight responsibilities for a charter school approved by the State Board of Education to any local education agency in the county in which the charter school is located or to the governing board of the school district that first denied the petition.

(2) The designated local education agency shall have all monitoring and supervising authority of a chartering agency, including, but not limited to, powers and duties set forth in Section 47607, except the power of revocation, which shall remain with the State Board of Education.

(3) A charter school that has been granted its charter by the State Board of Education and elects to seek renewal of its charter shall, prior to expiration of the charter, submit its petition for renewal to the governing board of the school district that initially denied the charter. If the governing board of the school district denies the school's petition for renewal, the school may petition the State Board of Education for renewal of its charter.

(*l*) Teachers in charter schools shall be required to hold a Commission on Teacher Credentialing certificate, permit, or other document equivalent to that which a teacher in other public schools would be required to hold. These documents shall be maintained on file at the charter school and shall be subject to periodic inspection by the chartering authority. It is the intent of the Legislature that charter schools be given flexibility with regard to noncore, noncollege preparatory courses.

SEC. 7. Section 47605.5 is added to the Education Code, to read:

47605.5. A petition may be submitted directly to a county board of education in the same manner as set forth in Section 47605 for charter schools that will serve pupils for whom the county office of education would otherwise be responsible for providing direct

education and related services. Any denial of a petition shall be subject to the same process for any other county board of education denial of a charter school petition pursuant to this part.

SEC. 8. Section 47607 of the Education Code is amended to read:

47607. (a) (1) A charter may be granted pursuant to Sections 47605, 47605.5, and 47606 for a period not to exceed five years. A charter granted by a school district governing board , a county board of education or the State Board of Education, may be granted one or more subsequent renewals by that entity. Each renewal shall be for a period of five years. A material revision of the provisions of a charter petition may be made only with the approval of the authority that granted the charter. The authority that granted the charter may inspect or observe any part of the charter school at any time.

(2) Renewals and material revisions of charters shall be governed by the standards and criteria in Section 47605.

(b) A charter may be revoked by the authority that granted the charter under this chapter if the authority finds that the charter school did any of the following:

(1) Committed a material violation of any of the conditions, standards, or procedures set forth in the charter .

(2) Failed to meet or pursue any of the pupil outcomes identified in the charter .

(3) Failed to meet generally accepted accounting principles, or engaged in fiscal mismanagement.

(4) Violated any provision of law.

(c) Prior to revocation, the authority that granted the charter shall notify the charter public school of any violation of this section and give the school a reasonable opportunity to cure the violation, unless the authority determines, in writing, that the violation constitutes a severe and imminent threat to the health or safety of the pupils.

SEC. 9. Section 47608 of the Education Code is amended to read:

47608. All meetings of the governing board of the school district and the county board of education at which the granting, revocation, appeal, or renewal of a charter petition is discussed shall comply with the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Division 2 of Title 5 of the Government Code).

SEC. 10. Section 47610 of the Education Code is amended to read:

47610. A charter school shall comply with this part and all of the provisions set forth in its charter , but is otherwise exempt from the laws governing school districts except all of the following:

(b) As specified in Section 41365.

(c) All laws establishing minimum age for public school attendance.

SEC. 11. Section 47612 of the Education Code is amended to read:

47612. (a) The Superintendent of Public Instruction shall make all of the following apportionments to each charter school for each fiscal year:

(1) From funds appropriated to Section A of the State School Fund for apportionment for that fiscal year pursuant to Article 2 (commencing with Section 42238) of Chapter 7 of Part 24, an amount for each unit of regular average daily attendance in the charter school that is equal to the current fiscal year base revenue limit for the school district to which the charter petition was submitted. In no event shall average daily attendance in a charter school be generated by a pupil who is not a California resident. CHAPTER 36

An act to amend Sections 1562.3 and 1569.616 of the Health and Safety Code, relating to community care facilities.

[Approved by Governor May 12, 1998. Filed with Secretary of State May 13, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1562.3 of the Health and Safety Code is amended to read:

1562.3. (a) The State Director of Social Services, in consultation with the State Director of Mental Health and the State Director of Developmental Services, shall establish a training program to ensure that licensees, operators, and staffs of adult residential facilities have appropriate training to provide the care and services for which a license or certificate is issued. The training program shall be developed in consultation with provider organizations.

(b) (1) An administrator of an adult residential care facility shall successfully complete a department approved certification program pursuant to subdivision (c) prior to employment.

(2) In those cases where the individual is both the licensee and the administrator of a facility, the individual shall comply with both the licensee and administrator requirements of this section.

(3) Failure to comply with this section shall constitute cause for revocation of the license of the facility.

(4) The licensee shall notify the department within 30 days of any change in administrators.

(c) (1) The administrator certification program shall require a minimum of 35 hours of classroom instruction that provides training on a uniform core of knowledge in each of the following areas:

(A) Laws, regulations, and policies and procedural standards that impact the operations of the type of facility for which the applicant will be an administrator.

(B) Business operations.

(C) Management and supervision of staff.

(D) Psychosocial needs of the facility residents.

(E) Community and support services.

(F) Physical needs for facility residents.

(G) Use, misuse, and interaction of medication commonly used by facility residents.

(H) Resident admission, retention, and assessment procedures.

(I) Nonviolent crisis intervention for administrators.

(2) The requirement for 35 hours of classroom instruction pursuant to this subdivision shall not apply to persons who were employed as administrators prior to July 1, 1996. A person holding the position of administrator of an adult residential facility on June 30,

1996, shall file a completed application for certification with the department on or before April 1, 1998. In order to be exempt from the 35-hour training program and the test component, the application shall include documentation showing proof of continuous employment as the administrator of an adult residential facility between, at a minimum, June 30, 1994, and June 30, 1996. An administrator of an adult residential facility who became certified as a result of passing the department-administered challenge test, that was offered between October 1, 1996, and December 23, 1996, shall be deemed to have fulfilled the requirements of this paragraph.

(3) Unless an extension is granted to the applicant by the department, an applicant for an administrator's certificate shall, within 60 days of the applicant's completion of classroom instruction, pass the written test provided in this section.

(d) The department shall not begin the process of issuing a certificate until receipt of all of the following:

(1) A certificate of completion of the administrator training required pursuant to this chapter.

(2) The fee required for issuance of the certificate. A fee of one hundred dollars ($100) shall be charged by the department to cover the costs of processing the application for certification.

(3) Documentation from the applicant that he or she has passed the written test.

(4) Submission of fingerprints. The department and the Department of Justice shall expedite the criminal record clearance for holders of certificates of completion. The department may waive the submission for those persons who have a current clearance on file.

(e) It shall be unlawful for any person not certified under this section to hold himself or herself out as a certified administrator of an adult residential facility. Any person willfully making any false representation as being a certified administrator is guilty of a misdemeanor.

(f) (1) Certificates issued under this section shall be renewed every two years and renewal shall be conditional upon the certificate holder submitting documentation of completion of 40 hours of continuing education related to the core of knowledge specified in subdivision (c). For purposes of this section, an individual who is an adult residential facility administrator and who is required to complete the continuing education hours required by the regulations of the State Department of Developmental Services, and approved by the regional center, shall be permitted to have up to 24 of the required continuing education course hours credited toward the 40-hour continuing education requirement of this section. Community college course hours approved by the regional centers shall be accepted by the department for certification.

(2) Every licensee and administrator of an adult residential facility is required to complete the continuing education requirements of this subdivision.

(3) Certificates issued under this section shall expire every two years, on the anniversary date of the initial issuance of the certificate, except that any administrator receiving his or her initial certification on or after January 1, 1999, shall make an irrevocable election to have his or her recertification date for any subsequent recertification either on the date two years from the date of issuance of the certificate or on the individual's birthday during the second calendar year following certification. The department shall send a renewal notice to the certificate holder 90 days prior to the expiration date of the certificate. If the certificate is not renewed prior to its expiration date, reinstatement shall only be permitted after the certificate holder has paid a delinquency fee equal to three times the renewal fee and has provided evidence of completion of the continuing education required.

(4) To renew a certificate, the certificate holder shall, on or before the certificate expiration date, request renewal by submitting to the department documentation of completion of the required continuing education courses and pay the renewal fee of one hundred dollars ($100), irrespective of receipt of the department's notification of the renewal. A renewal request postmarked on or before the expiration of the certificate is proof of compliance with this paragraph.

(5) A suspended or revoked certificate is subject to expiration as provided for in this section. If reinstatement of the certificate is approved by the department, the certificate holder, as a condition precedent to reinstatement, shall submit proof of compliance with paragraphs (1) and (2) of subdivision (f) and shall pay a fee in an amount equal to the renewal fee, plus the delinquency fee, if any, accrued at the time of its revocation or suspension. Delinquency fees, if any, accrued subsequent to the time of its revocation or suspension and prior to an order for reinstatement, shall be waived for one year to allow the individual sufficient time to complete the required continuing education units and to submit the required documentation. Individuals whose certificates will expire within 90 days after the order for reinstatement may be granted a three-month extension to renew their certificates during which time the delinquency fees shall not accrue.

(6) A certificate that is not renewed within four years after its expiration shall not be renewed, restored, reissued, or reinstated except upon completion of a certification training program, passing any test that may be required of an applicant for a new certificate at that time, and paying the appropriate fees provided for in this section.

(7) A fee of twenty-five dollars ($25) shall be charged for the reissuance of a lost certificate.

(8) A certificate holder shall inform the department of his or her employment status within 30 days of any change.

(1) The administrator has had a license revoked, suspended, or denied as authorized under Section 1550.

(2) The administrator has been denied employment, residence, or presence in a facility based on action resulting from an administrative hearing pursuant to Section 1522 or Section 1558.

(h) (1) The department, in consultation with the Department of Mental Health and the Department of Developmental Services, shall establish, by regulation, the program content, the testing instrument, the process for approving certification training programs, and criteria to be used in authorizing individuals, organizations, or educational institutions to conduct certification training programs and continuing education courses. These regulations shall be developed in consultation with provider organizations, and shall be made available at least six months prior to the deadline required for certification. The department may deny vendor approval to any agency or person in any of the following circumstances:

(A) The applicant has not provided the department with evidence satisfactory to the department of the ability of the applicant to satisfy the requirements of vendorization set out in the regulations adopted by the department pursuant to subdivision (i).

(B) The applicant person or agency has a conflict of interest in that the person or agency places its clients in adult residential facilities.

(C) The applicant public or private agency has a conflict of interest in that the agency is mandated to place clients in adult residential facilities and to pay directly for the services. The department may deny vendorization to this type of agency only as long as there are other vendor programs available to conduct the certification training programs and conduct education courses.

(2) The department may authorize vendors to conduct the administrator's certification training program pursuant to provisions set forth in this section. The department shall conduct the written test pursuant to regulations adopted by the department.

(3) The department shall prepare and maintain an updated list of approved training vendors.

(4) The department may inspect certification training programs and continuing education courses to determine if content and teaching methods comply with regulations. If the department determines that any vendor is not complying with the intent of this section, the department shall take appropriate action to bring the program into compliance, which may include removing the vendor from the approved list.

(5) The department shall establish reasonable procedures and timeframes not to exceed 30 days for the approval of vendor training programs.

(6) The department may charge a reasonable fee, not to exceed one hundred fifty dollars ($150) every two years to certification program vendors for review and approval of the initial 35-hour training program pursuant to subdivision (c). The department may also charge the vendor a fee not to exceed one hundred dollars ($100) every two years for the review and approval of the continuing education courses needed for recertification pursuant to this subdivision.

(i) This section shall be operative upon regulations being adopted by the department, no later than July 1, 1996, to implement the administrator certification program as provided for in this section. If regulations are not adopted by the department, or are adopted after July 1, 1996, this section shall not become operative.

(j) The department shall establish a registry for holders of certificates that shall include, at a minimum, information on employment status and criminal record clearance.

An individual meeting the requirements of this paragraph shall not be required to take a written test.

(2) In those cases where the individual was both the licensee and administrator on or before July 1, 1991, the individual shall be

Those individuals exempted from the written test shall be issued a conditional certification that is valid only for the administrator of the facility for which the exemption was granted.

(A) As a condition to becoming an administrator of another facility the individual shall be required to pass the written test provided for in this section.

(B) As a condition to applying for a new facility license, the individual shall be required to pass the written test provided for in Section 1569.23.

(c) (1) The administrator certification program shall require a minimum of 40 hours of classroom instruction that provides training on a uniform core of knowledge in each of the following areas:

(A) Laws, regulations, and policies and procedural standards that impact the operations of residential care facilities for the elderly.

any false representation as being a certified administrator is guilty of a misdemeanor.

(f) (1) Certificates issued under this section shall be renewed every two years and renewal shall be conditional upon the certificate holder submitting documentation of completion of 40 hours of continuing education related to the core of knowledge specified in paragraph (1) of subdivision (c). If the certificate is not renewed prior to its expiration date, reinstatement shall only be permitted after the certificate holder has paid a delinquency fee equal to three times the renewal fee and has provided evidence of completion of the continuing education required.

(4) To renew a certificate, the certificate holder shall, on or before the certificate expiration date, request renewal by submitting to the department documentation of completion of the required continuing education courses and pay the renewal fee of one hundred dollars ($100), irrespective of receipt of the department's notification of the renewal. A renewal request postmarked on or before the expiration of the certificate is proof of compliance with this paragraph.

(5) A suspended or revoked certificate is subject to expiration as provided for in this section. If reinstatement of the certificate is approved by the department, the certificate holder, as a condition precedent to reinstatement, shall pay a fee in an amount equal to the renewal fee, plus the delinquency fee, if any, accrued at the time of its revocation or suspension.

CHAPTER 37

An act to amend Section 201.5 of the Labor Code, relating to employment, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 18, 1998. Filed with Secretary of State May 19, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 201.5 of the Labor Code is amended to read:

201.5. An employer who lays off an employee engaged in the production of motion pictures, whose unusual or uncertain terms of employment require special computation in order to ascertain the amount due, shall be deemed to have made immediate payment of wages within the meaning of Section 201 if the wages of the employee are paid by the next regular payday, as prescribed by Section 204, following the layoff. For purposes of this section, "layoff" means the termination of employment of an employee where the employee retains eligibility for reemployment with the employer. For purposes of this section, "discharge" means the unconditional termination of employment of an employee. However, if an employee is discharged, payment of wages shall be made within 24 hours after discharge excluding Saturdays, Sundays, and holidays. For purposes of this section, a payment required by this section may be mailed and the date of mailing is the date of payment.

The Legislature finds and determines that special provision must be made for the payment of wages on layoff and discharge of persons

engaged in the production of motion pictures because their employment at various locations is often far removed from the employer's principal administrative offices and the unusual hours of their employment in this industry is often geared to the completion of a portion of a picture which time of completion may have no relation to normal working hours.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to protect the financial security of employees in the motion picture industry at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 38

An act to amend Section 2881 of the Public Utilities Code, relating to telecommunications.

[Approved by Governor May 22, 1998. Filed with Secretary of State May 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 2881 of the Public Utilities Code is amended to read:

2881. (a) The commission shall design and implement a program whereby each telephone corporation shall provide a telecommunications device capable of serving the needs of individuals who are deaf or hearing impaired, together with a single party line, at no charge additional to the basic exchange rate, to any subscriber who is certified as an individual who is deaf or hearing impaired by a licensed physician and surgeon, audiologist, or a qualified state or federal agency, as determined by the commission, and to any subscriber that is an organization representing individuals who are deaf or hearing impaired, as determined and specified by the commission pursuant to subdivision (e). A licensed hearing aid dispenser may certify the need of an individual to participate in the program if that individual has been previously fitted with an amplified device by the dispenser and the dispenser has the individual's hearing records on file prior to certification.

(b) The commission shall also design and implement a program whereby each telephone corporation shall provide a dual-party relay system, using third-party intervention to connect individuals who are deaf or hearing impaired and offices of organizations representing individuals who are deaf or hearing impaired, as determined and specified by the commission pursuant to subdivision (e), with

persons of normal hearing by way of intercommunications devices for individuals who are deaf or hearing impaired and the telephone system, making available reasonable access of all phases of public telephone service to telephone subscribers who are deaf or hearing impaired. In order to make a dual-party relay system that will meet the requirements of individuals who are deaf or hearing impaired available at a reasonable cost, the commission shall initiate an investigation, conduct public hearings to determine the most cost-effective method of providing dual-party relay service to the deaf or hearing impaired when using a telecommunications device, and solicit the advice, counsel, and physical assistance of statewide nonprofit consumer organizations of the deaf, during the development and implementation of the system. The commission shall phase in this program, on a geographical basis, over a three-year period ending on January 1, 1987. The commission shall apply for certification of this program under rules adopted by the Federal Communications Commission pursuant to Section 401 of the Americans with Disabilities Act of 1990 (Public Law 101-336).

(c) The commission shall also design and implement a program whereby specialized or supplemental telephone communications equipment may be provided to subscribers who are certified to be disabled at no charge additional to the basic exchange rate. The certification, including a statement of medical need for specialized telecommunications equipment, shall be provided by a licensed physician and surgeon acting within the scope of practice of his or her license, or by a qualified state or federal agency as determined by the commission. The commission shall, in this connection, study the feasibility of, and implement, if determined to be feasible, personal income criteria, in addition to the certification of disability, for determining a subscriber's eligibility under this subdivision.

(d) The commission shall establish a rate recovery mechanism through a surcharge not to exceed one-half of 1 percent uniformly applied to a subscriber's intrastate telephone service, other than one-way radio paging service and universal telephone service, both within a service area and between service areas, to allow telephone corporations to recover costs as they are incurred under this section. The surcharge shall be in effect until January 1, 2001. The commission shall require that the programs implemented under this section be identified on subscribers' bills, and shall establish a fund and require separate accounting for each of the programs implemented under this section.

(e) The commission shall determine and specify those statewide organizations representing the deaf or hearing impaired which shall receive a telecommunications device pursuant to subdivision (a) or a dual-party relay system pursuant to subdivision (b), or both, and in which offices the equipment shall be installed in the case of an organization having more than one office. The commission shall

direct the telephone corporations subject to its jurisdiction to comply with its determinations and specifications in this regard.

(f) The commission shall annually review the surcharge level and the balances in the funds established pursuant to subdivision (d). Until January 1, 2001, the commission shall be authorized to make, within the limits set by subdivision (d), any necessary adjustments to the surcharge to ensure that the programs supported thereby are adequately funded and that the fund balances are not excessive. A fund balance which is projected to exceed six months' worth of projected expenses at the end of the fiscal year is excessive.

(g) The commission shall prepare and submit to the Legislature, on or before December 31, 1988, and annually thereafter, a report on the fiscal status of the programs established and funded pursuant to this section and Sections 2881.1 and 2881.2. The report shall include a statement of the surcharge level established pursuant to subdivision (d) and revenues produced by the surcharge, an accounting of program expenses, and an evaluation of options for controlling those expenses and increasing program efficiency, including, but not limited to, all of the following proposals:

(1) The establishment of a means test for persons to qualify for program equipment or free or reduced charges for the use of telecommunication services.

(2) If and to the extent not prohibited under Section 401 of the Americans with Disabilities Act of 1990 (Public Law 101-336), the imposition of limits or other restrictions on maximum usage levels for the relay service, which shall include the development of a program to provide basic communications requirements to all relay users at discounted rates, including discounted toll call rates, and, for usage in excess of those basic requirements, at rates which recover the full costs of service.

(3) More efficient means for obtaining and distributing equipment to qualified subscribers.

(4) The establishment of quality standards for increasing the efficiency of the relay system.

(h) In order to continue to meet the access needs of individuals with functional limitations of hearing, vision, movement, manipulation, speech, and interpretation of information, the commission shall perform ongoing assessment of, and if appropriate, expand the scope of the program to allow for additional access capability consistent with evolving telecommunications technology.

SEC. 2. It is the intent of the Legislature that the provisions of this act shall not increase the surcharges to fund the program implemented pursuant to subdivision (a) of Section 2881 of the Public Utilities Code.

CHAPTER 39

An act to amend Section 12463.3 of, and to add Section 53895.5 to, the Government Code, and to amend Section 33080.6 of, and to add Section 33672.7 to, the Health and Safety Code, relating to redevelopment.

SEC. 2. Section 53895.5 is added to the Government Code, to read:

53895.5. (a) An officer of a community redevelopment agency who fails or refuses to make and file his or her report within 20 days after receipt of a written notice of the failure from the Controller shall forfeit to the state:

(c) In the case of a community redevelopment agency that fails or refuses to make and file its report within 20 days after receipt of a written notice of the failure from the Controller in the third or more consecutive year, the Controller shall conduct or cause to be conducted an independent financial audit report consistent with the requirements of Section 33080.1 of the Health and Safety Code. The community redevelopment agency shall reimburse the Controller for the cost of complying with this subdivision. The community redevelopment agency shall not use any of the money in the Low and Moderate Income Housing Fund to reimburse the Controller.

(d) Upon the request of the Controller, the Attorney General shall prosecute an action for the forfeiture in the name of the people of the State of California.

(e) A community redevelopment agency that makes a forfeiture or payment pursuant to this section shall still file the report required pursuant to Section 53891.

SEC. 5. This act is intended to implement the recommendations of the Task Force on Redevelopment Agencies' Affordable Housing Reports, convened by the Chair of the Senate Committee on Housing and Land Use. The recommendations were contained in the report, "Timely, Accurate, and Reliable" issued by the task force on July 7, 1997.

SEC. 6. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 40

An act to amend Sections 33080, 33080.1, and 33080.3 of the Health and Safety Code, relating to redevelopment.

[Approved by Governor May 22, 1998. Filed with Secretary of State May 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 33080 of the Health and Safety Code is amended to read:

33080. (a) Every redevelopment agency shall file with the Controller within six months of the end of the agency's fiscal year a copy of the report required by Section 33080.1. In addition, each

(b) The redevelopment agency shall provide a copy of the report required by Section 33080.1, upon the written request of any person or any taxing agency. If the report does not include detailed information regarding administrative costs, professional services, or other expenditures, the person or taxing agency may request, and the redevelopment agency shall provide, that information. The person or taxing agency shall reimburse the redevelopment agency for all actual and reasonable costs incurred in connection with the provision of the requested information.

SEC. 2. Section 33080.1 of the Health and Safety Code is amended to read:

33080.1. Every redevelopment agency shall present an annual report to its legislative body within six months of the end of the agency's fiscal year. The annual report shall contain all of the following:

The audit report shall meet, at a minimum, the audit guidelines prescribed by the Controller's office pursuant to Section 33080.3 and also include a report on the agency's compliance with laws, regulations, and administrative requirements governing activities of the agency.

(2) However, the legislative body may elect to omit from inclusion in the audit report any distinct activity of the agency that is funded exclusively by the federal government and that is subject to audit by the federal government.

(b) A fiscal statement for the previous fiscal year that contains the information required pursuant to Section 33080.5.

(c) A description of the agency's activities in the previous fiscal year affecting housing and displacement that contains the information required by Sections 33080.4 and 33080.7.

(f) A description of the total number and nature of the properties that the agency owns and those properties the agency has acquired in the previous fiscal year.

(g) Any other information that the agency believes useful to explain its programs, including, but not limited to, the number of jobs created and lost in the previous fiscal year as a result of its activities.

SEC. 3. Section 33080.3 of the Health and Safety Code is amended to read:

33080.3. The Controller shall develop and periodically revise the guidelines for the content of the report required by Section 33080.1. The Controller shall appoint an advisory committee to advise in the development of the guidelines. The advisory committee shall include representatives from among those persons nominated by the department, the Legislative Analyst, the California Society of Certified Public Accountants, the California Redevelopment Association, and any other authorities in the field that the Controller deems necessary and appropriate.

SEC. 4. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 41

An act to repeal and add Section 5061 of the Business and Professions Code, relating to accountancy.

[Approved by Governor May 22, 1998. Filed with Secretary of State May 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 5061 of the Business and Professions Code is repealed.

SEC. 2. Section 5061 is added to the Business and Professions Code, to read:

5061. (a) Except as expressly permitted by this section, a person engaged in the practice of public accountancy shall not: (1) pay a fee or commission to obtain a client or (2) accept a fee or commission for referring a client to the products or services of a third party.

(b) A person engaged in the practice of public accountancy who is not performing any of the services set forth in subdivision (c) and who complies with the disclosure requirements of subdivision (d) may accept a fee or commission for providing a client with the products or services of a third party where the products or services of a third party are provided in conjunction with professional services provided to the client by the person engaged in the practice of public accountancy. Nothing in this subdivision shall be construed to permit the solicitation or acceptance of any fee or commission solely for the referral of a client to a third party.

(c) A person engaged in the practice of public accountancy is prohibited from performing services for a client for a commission or from receiving a commission from a client during the period in which the person also performs for that client any of the services listed below and during the period covered by any historical financial statements involved in those listed services:

(1) An audit or review of a financial statement.

(2) A compilation of a financial statement when that person expects, or reasonably might expect, that a third party will use the financial statement and the compilation report does not disclose a lack of independence.

(3) An examination of prospective financial information.

(d) A person engaged in the practice of public accountancy who is not prohibited from performing services for a commission, or from receiving a commission, and who is paid or expects to be paid a commission, shall disclose that fact to any client or entity to whom the person engaged in the practice of public accountancy recommends or refers a product or service to which the commission relates.

(e) The board shall adopt regulations to implement, interpret, and make specific the provisions of this section including, but not limited to, regulations specifying the terms of any disclosure required by subdivision (d), the manner in which the disclosure shall be made, and other matters regarding the disclosure that the board deems appropriate. These regulations shall require, at a minimum, that a disclosure shall comply with all of the following:

(1) Be in writing and be clear and conspicuous.

(2) Be signed by the recipient of the product or service.

(3) State the amount of the commission or the basis on which it will be computed.

(4) Identify the source of the payment and the relationship between the source of the payment and the person receiving the payment.

(g) This section shall not prohibit payments for the purchase of any accounting practice or retirement payments to individuals presently or formerly engaged in the practice of public accountancy or payments to their heirs or estates.

SEC. 3. By modifying the regulation of commissions in Section 5061 of the Business and Professions Code, it is not the intent of the Legislature in enacting this act to diminish in any manner the duties of certified public accountants to clients, nor to abrogate regulations of the State Board of Accountancy relating to objectivity.

CHAPTER 42

An act to amend Section 12302.3 of the Welfare and Institutions Code, relating to human services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 22, 1998. Filed with Secretary of State May 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 12302.3 of the Welfare and Institutions Code is amended to read:

12302.3. (a) Notwithstanding any other provision of this article, and in a manner consistent with the powers available to public authorities created under this article, the City and County of San Francisco may:

(1) Increase the wages of all in-home supportive services providers.

(2) Subject to the requirements of federal law, use county-only funds to fund county and state shares to meet federal financial participation requirements necessary to obtain any available Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396, et seq.) (Medicaid) personal care services reimbursement.

(3) Provide in-home supportive services workers with any wage increase the city and county may appropriate, as long as this amount is in accordance with the provisions of the Medi-Cal State Plan

Amendment 94-006, as approved by the federal Health Care Financing Administration. The county-only funds shall be used exclusively to increase workers wages and to pay any proportionate share of employer taxes and current benefits, and to pay for the cost of state and county administration of these activities as provided for in paragraph (5). Notwithstanding Section 12302.1, any wage increase for those workers employed under contract shall be passed through by the contractor to the workers, subject to the limitations specified in this paragraph. The state shall continue to provide payroll functions for all workers who are currently individual providers unless and until the in-home supportive services public authority is operational.

(4) Claim the administrative costs of the wage passthrough in accordance with the department's claiming requirements.

(5) In the event that federal financial participation is available for county-only payroll moneys, the following shall apply:

(A) If additional payroll costs will be incurred by the state due to the receipt and payment of federal funds, the department shall provide the city and county with a detailed estimate of the additional costs of the provision of payroll functions associated with the processing of federal funds. If the city and county elects to pay the additional costs, the department will provide these payroll functions. If the city and county does not elect to pay the additional costs, the department and the city and county may seek another, mutually satisfactory arrangement.

(B) In the event that federal financial participation is not available, the department shall continue to perform the existing payroll functions provided on July 28, 1995, at no additional cost to the city and county.

(b) (1) This section shall not be implemented with respect to any particular wage increase pursuant to subdivision (a) unless the department has obtained the approval of the State Department of Health Services for that wage increase prior to its execution to determine that it is consistent with federal law and to ensure federal financial participation for the services under Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396, et seq.).

(2) The Director of Health Services shall seek any federal waivers or approvals necessary for implementation of this section under Title XIX of the federal Social Security Act (42 U.S.C. Sec. 1396, et seq.).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to implement changes to social services programs contained in this act necessary for the protection of the health and

well-being of elderly and disabled persons, at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 43

An act to add Section 354.5 to the Code of Civil Procedure, relating to insurance for Holocaust victims, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 22, 1998. Filed with Secretary of State May 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature recognizes that thousands of Holocaust survivors and the heirs of Holocaust victims are residents or citizens of the State of California. The Legislature further recognizes and finds that these people have, too often, been deprived of their contractual entitlement to benefits under insurance policies issued by insurance companies operating in Europe prior to and during World War II. California has an overwhelming public policy interest in assuring that its residents and citizens who are claiming entitlement to proceeds under policies issued to Holocaust victims are treated reasonably and fairly and that those contractual obligations are honored.

(b) It is the specific intent of the Legislature to assure that Holocaust victims be permitted to have an expeditious, inexpensive, and fair forum in which to resolve their claims for benefits under these policies by allowing actions to be brought in California courts and subject to California law, irrespective of any contrary forum selection provision contained in the policies themselves. It is the finding of the Legislature that enforcement of forum selection provisions in those policies would work an undue, unreasonable, and unjust hardship on Holocaust victims who are residents of California and that those provisions are unenforceable with respect to the policies as to which this act applies.

(c) To the extent that the statute of limitations regarding contractual or tort claims arising from the denial of benefits under the policies is extended by this act, that extension of the limitations period is intended to be applied retroactively, irrespective of whether the claims were otherwise barred by any applicable statute of limitations under any other provision of law prior to the enactment of this act.

SEC. 2. Section 354.5 is added to the Code of Civil Procedure, to read:

354.5. (a) The following definitions govern the construction of this section:

(1) "Holocaust victim" means any person who was persecuted during the period of 1930 to 1945, inclusive, by Nazi Germany or its allies.

(2) "Related company" means any parent, subsidiary, reinsurer, successor in interest, managing general agent, or affiliate company of the insurer.

(3) "Insurer" means an insurance provider doing business in the state, or whose contacts in the state satisfy the constitutional requirements for jurisdiction, that sold life, annuities, dowry, educational, or casualty insurance covering persons or property to persons in Europe at any time between 1920 and 1945, directly or through a related company.

(b) Notwithstanding any other provision of law, any Holocaust victim, or heir or beneficiary of a Holocaust victim, who resides in this state and has a claim arising out of an insurance policy or policies purchased in Europe between 1920 and 1945 from an insurer described in paragraph (3) of subdivision (a) of this section, may bring a legal action to recover on that claim in any superior court of the state for the county in which the plaintiff or one of the plaintiffs resides, which court shall be vested with jurisdiction over that action until its completion or resolution.

(c) Any action brought by a Holocaust victim or the heir or beneficiary of a Holocaust victim, whether a resident or nonresident of this state, seeking proceeds of the insurance policies issued or in effect between 1920 and 1945 shall not be dismissed for failure to comply with the applicable statute of limitation, provided the action is commenced on or before December 31, 2010.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide just compensation to aging Holocaust victims, it is necessary that this act take effect immediately.

CHAPTER 44

An act to amend Sections 42290, 42291, 42292, 42293, and 42297 of, to add Sections 42290.5 and 42291.5 to, and to repeal Section 42298 of, the Public Resources Code, relating to solid waste, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 22, 1998. Filed with Secretary of State May 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 42290 of the Public Resources Code is amended to read:

42290. For purposes of this chapter, the following terms have the following meaning:

(a) "Manufacturer" means a person who manufactures plastic trash bags for sale in this state.

(b) (1) "Plastic trash bag" means a bag that is manufactured for intended use as a container to hold, store, or transport materials to be discarded, composted, or recycled, including, but not limited to, garbage bags, composting bags, lawn and leaf bags, can-liner bags, kitchen bags, compactor bags, and recycling bags.

(2) A plastic trash bag does not include a grocery sack or any other bag that is manufactured for intended use as a container to hold, store, or transport food.

(3) A plastic trash bag does not include any plastic bag that is used for the purpose of containing either of the following wastes:

(A) "Hazardous waste," as defined in Section 25117 of the Health and Safety Code.

(B) "Medical waste," as defined in Section 117690 of the Health and Safety Code.

(c) "Postconsumer material" means a finished product that would normally be disposed of as solid waste, having completed its intended end-use and product life cycle. "Postconsumer material" does not include manufacturing and fabrication scrap.

(d) "Regulated bag" means a plastic trash bag of 0.70 mil or greater thickness that is intended for sale in the state.

(e) "Wholesaler" means any person who purchases plastic trash bags from a manufacturer for resale in this state.

SEC. 2. Section 42290.5 is added to the Public Resources Code, to read:

42290.5. To encourage waste diversion of polyethylene from California landfills as well as to encourage California's postconsumer market development, it is the intent of the Legislature that any certification of postconsumer materials used for compliance with this chapter not be the same materials that are certified or used for compliance with any other state requirement or with any federal requirement that requires the use or reporting of postconsumer materials for plastic products.

SEC. 3. Section 42291 of the Public Resources Code is amended to read:

42291. (a) Until January 1, 1998, every manufacturer that manufactures plastic trash bags of 0.75 mil or greater thickness for sale in this state shall ensure that at least 30 percent of the material used in those plastic trash bags is recycled plastic postconsumer material.

(b) (1) On and after January 1, 1998, the manufacturer's required use of recycled plastic postconsumer material shall be determined pursuant to paragraph (2). Compliance by a manufacturer with either alternative shall be deemed to be compliance with this subdivision.

(2) Every manufacturer of regulated bags shall do one of the following:

(A) Ensure that its plastic trash bags intended for sale in this state contain a quantity of recycled plastic postconsumer material equal to at least 10 percent of the weight of the regulated bags.

(B) Ensure that at least 30 percent of the weight of the material used in all of its plastic products intended for sale in this state is recycled plastic postconsumer material.

(3) Beginning March 1, 1999, and annually thereafter, every manufacturer subject to this subdivision shall certify to the board that it has used the required amount of recycled plastic postconsumer material annually in compliance with paragraph (2).

(c) Any certification of postconsumer materials used for compliance with this chapter shall not include any materials that are certified or used for compliance with any other state or federal requirement that requires the use or reporting of postconsumer materials for any plastic products.

(d) If any manufacturer subject to this section is unable to obtain sufficient amounts of recycled plastic postconsumer material to comply with this section within a reporting period because of unavailability or because the available material did not meet recycled plastic postconsumer material quality standards adopted by the board, the manufacturer shall certify that fact to the board. Each manufacturer making that certification shall make a reasonable effort to identify available supplies of material before submitting certification to the board.

(e) The Legislature hereby finds and declares that although the changes made to this section by the act amending this section during the 1998 portion of the 1997–98 Regular Session become effective after January 1, 1998, it is the intent of the Legislature that the new requirements specified in subdivision (b) be effective as of January 1, 1998. The Legislature further finds that this change is requested by the manufacturers subject to this section and that the retroactive effect of these changes will not cause any hardship on any manufacturer subject to this section, or cause any manufacturer to be subject to regulatory action as a result of these changes, but rather, would instead have the effect of preventing hardship to the manufacturers regulated by this section.

SEC. 4. Section 42291.5 is added to the Public Resources Code, to read:

42291.5. Until January 1, 2001, for each pound of recycled plastic postconsumer material purchased from a source of recycled plastic postconsumer material in this state for use in the manufacture of

plastic trash bags, or other products manufactured with recycled plastic postconsumer material in compliance with this chapter, the board shall credit the manufacturer certifying pursuant to Section 42293 with having used 1.2 pounds of recycled plastic postconsumer material toward compliance with the requirements of Section 42291.

SEC. 5. Section 42292 of the Public Resources Code is amended to read:

42292. Each manufacturer shall obtain from its suppliers of recycled plastic postconsumer material for use in the manufacture of plastic trash bags, or other products manufactured with recycled plastic postconsumer material in compliance with this chapter, a statement identifying the quantity, source location, and proximate prior usage of, and the actual postconsumer material content of, each shipment of recycled plastic postconsumer material purchased by the manufacturer, and any other information that the board, may, by regulation, require the manufacturer to obtain from its suppliers, for purposes of inclusion in the annual report required by Section 42293.

SEC. 6. Section 42293 of the Public Resources Code is amended to read:

42293. (a) On or before March 1, 1999, and annually thereafter, each manufacturer subject to this chapter shall submit a report to the board certifying that it has complied with Section 42291 during the preceding calendar year, certifying the name and physical location of each of its suppliers of recycled plastic postconsumer material for use in the manufacture of plastic trash bags, or other products manufactured with recycled plastic postconsumer material in compliance with this chapter, and containing the information obtained pursuant to Section 42292 and any other information that the board may require by regulation. Any manufacturer that processes its own recycled plastic postconsumer material shall certify to the board that it is the supplier of the material.

(b) On or before October 1, 2001, the board shall survey manufacturers subject to this section and, notwithstanding Section 7550.5 of the Government Code, report back to the Legislature. The survey shall do all of the following:

(1) Identify the name and physical location of suppliers certified by manufacturers pursuant to subdivision (a).

(2) Identify the quantity of recycled plastic postconsumer material provided by suppliers within the state and the quantity of the material provided by suppliers outside the state.

(3) Provide recommendations regarding recycled plastic postconsumer material content requirements based on the availability of that material.

(4) Identify gauge thickness of all regulated bags.

(5) Determine national production versus production of a separate line for California.

SEC. 7. Section 42297 of the Public Resources Code is amended to read:

42297. (a) The board may adopt such regulations as it determines are necessary to more specifically define terms for purposes of the chapter and to otherwise implement this chapter.

(b) Annually on or before July 1, the board shall publish a list of any suppliers, manufacturers, or wholesalers who have failed to comply with this chapter.

(c) (1) Any supplier, manufacturer, or wholesaler, and any of its divisions, subsidiaries, or successors, who fails to comply with this chapter, shall be ineligible for the award of any state contract or subcontract, or for the renewal, extension, or modification of an existing contract or subcontract, until the board determines that it is in compliance with this chapter.

(2) No state agency shall solicit offers from, award contracts to, or renew, extend, or modify a current contract or subcontract with, any supplier, manufacturer, or wholesaler, or any of its divisions, subsidiaries, or successors, who fails to comply with this chapter until the board determines that it is in compliance with this chapter.

SEC. 8. Section 42298 of the Public Resources Code is repealed.

SEC. 9. Notwithstanding the repeal of Section 42298 of the Public Resources Code, as provided in Section 8 of this act, any variance issued by the California Integrated Waste Management Board on or before the effective date of this act shall remain in effect until December 31, 1998, and, for purposes of that variance, the variance shall exempt the variance holder from the requirements of Chapter 5.4 (commencing with Section 42290) of Part 3 of Division 30 of the Public Resources Code, as amended by this act, until December 31, 1998. Nothing in Chapter 5.4 (commencing with Section 42290) of Part 3 of Division 30 of the Public Resources Code, or in any variance issued before the effective date of this act, shall be construed as allowing that variance to continue in effect after December 31, 1998.

SEC. 10. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to encourage at the earliest possible time the recycling of plastic postconsumer material, thereby conserving resources and protecting public health and safety and the environment, it is necessary that this act take effect immediately.

CHAPTER 45

An act to amend Section 21701 of, and to add Section 21701.1 to, the Business and Professions Code, relating to self-service storage facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 28, 1998. Filed with
Secretary of State May 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 21701 of the Business and Professions Code is amended to read:

21701. For the purposes of this chapter, the following terms shall have the following meanings:

(a) "Self-service storage facility" means real property designed and used for the purpose of renting or leasing individual storage space to occupants who are to have access to the space for the purpose of storing and removing personal property or for storing individual storage containers provided to occupants who have exclusive use of the container for the purpose of storing and removing personal property, whether or not the individual storage containers are transported pursuant to Section 21701.1. Self-service storage facility does not include a garage or other storage area in a private residence. No occupant may use a self-service storage facility for residential purposes. A self-service storage facility is not a warehouse, nor a public utility, as defined in Section 216 of the Public Utilities Code. If an owner issues a warehouse receipt, bill of lading, or other document of title for the personal property stored, the owner and the occupant are subject to the provisions of Division 7 (commencing with Section 7101) of the Commercial Code, and the provisions of this chapter do not apply.

(b) "Owner" means the owner, operator, lessor, or sublessor of a self-service storage facility, his or her agent, or any other person authorized by him or her to manage the facility, or to receive rent from an occupant under a rental agreement, and no real estate license is required.

(c) "Occupant" means a person, or his or her sublessee, successor, or assign, who is entitled to the use of the storage space at a self-service storage facility under a rental agreement, to the exclusion of others.

(d) "Rental agreement" means any written agreement or lease which establishes or modifies the terms, conditions, rules, or any other provision concerning the use and occupancy of a self-service storage facility.

(e) "Personal property" means movable property not affixed to land, and includes, but is not limited to, goods, merchandise, furniture, and household items.

(f) "Last known address" means that address provided by the occupant in the latest rental agreement, or the address provided by the occupant in a subsequent written notice of a change of address.

SEC. 2. Section 21701.1 is added to the Business and Professions Code, to read:

21701.1. (a) The owner or operator of a self-service storage facility, or a household goods carrier, may, for a fee, transport individual storage containers to and from a self-service storage facility that he or she owns or operates. This transportation activity whether performed by an owner, operator, or carrier, shall not be deemed transportation for compensation or hire as a business of used household goods and is not subject to regulation under Chapter 7 (commencing with Section 5101) of Division 2 of the Public Utilities Code, provided all of the following requirements are met:

(1) The fee charged (A) to deliver an empty individual storage container to a customer and to transport the loaded container to a self-service storage facility, or (B) to return a loaded individual storage container from a self-service storage facility to the customer does not exceed one hundred dollars ($100).

(2) The owner, operator, or carrier, or any affiliate of the owner, operator, or carrier, does not load, pack, or otherwise handle the contents of the container.

(3) The owner, operator, or carrier is registered under Chapter 2 (commencing with Section 34620) of Division 14.85 of the Vehicle Code or holds a permit under Chapter 7 (commencing with Section 5101) of Division 2 of the Public Utilities Code.

(4) The owner, operator, or carrier has procured and maintained cargo insurance in the amount of at least twenty thousand dollars ($20,000) per shipment. Proof of cargo insurance coverage shall be maintained on file and presented to the Department of Motor Vehicles or Public Utilities Commission upon written request.

(5) The owner, operator, or carrier shall disclose to the customer in advance the following information regarding the container transfer service offered, in a written document separate from others furnished at the time of disclosure:

(A) A detailed description of the transfer service, including a commitment to use its best efforts to place the container in an appropriate location designated by the customer.

(B) The dimensions and construction of the individual storage containers used.

(C) The unit charge, if any, for the container transfer service, in addition to the storage charge or any other fees under the rental agreement.

(D) The availability of delivery or pickup by the customer of his or her goods at the self-service storage facility.

(E) The maximum allowable distance, measured from the self-service storage facility, for the initial pickup and final delivery of the loaded container.

(F) The precise terms of the company's right to move a container from the initial storage location at its own discretion, and a statement that the customer will not be required to pay additional charges with respect to that transfer.

(G) Conspicuous disclosure in bold text of the allocation of responsibility for the risk of loss or damage to the customer's goods, including any disclaimer of the company's liability, and the procedure for presenting any claim regarding loss or damage to the company.

The disclosure of terms and conditions required by this subdivision, and the rental agreement, shall be received by the customer a minimum of 72 hours prior to delivery of the empty individual storage container; however, the customer may, in writing, knowingly and voluntarily waive that receipt. The company shall record in writing and retain for a period of at least six months after the end of the rental the time and method of delivery of the information, any waiver made by the customer, and the times and dates of initial pickup and redelivery of the containerized goods.

(6) No later than the time the empty individual storage container is delivered to the customer, the company shall provide the customer with an informational brochure containing the following information about loading the container:

(A) Packing and loading tips to minimize damage in transit.

(B) A suggestion that the customer make an inventory of the items as they are loaded, and keep any other record (for example, photographs, videotape) that may assist in any subsequent claims processing.

(C) A list of items that are impermissible to pack in the container (for example, flammable items).

(D) A list of items that are not recommended to be packed in light of foreseeable hazards inherent in the company's handling of the containers, and in light of any limitation of liability contained in the rental agreement.

(b) Pickup and delivery of the individual storage containers shall be on a date agreed upon between the customer and the company. If the company requires the customer to be physically present at the time of pickup, the company shall in fact be at the customer's premises prepared to perform the service not more than four hours later than the scheduled time agreed to by the customer and company, and in the event of a preventable breach of that obligation by the company, the customer shall be entitled to receive a penalty of fifty dollars ($50) from the company and to elect rescission of the rental agreement without liability.

(c) No charge shall be assessed with respect to any movement of the container between self-service storage facilities by the company at its own discretion, nor for the delivery of a container to a customer's premises if the customer advises the company, at least 24 hours before the agreed time of container drop off, orally or in writing, that he or she is rescinding the request for service.

(d) For purposes of this chapter, "individual storage container" means a container that meets all of the following requirements:

(1) It shall be fully enclosed and locked.

(2) It contains not less than 100 and not more than 1,100 cubic feet.

(3) It is constructed out of a durable material appropriate for repeated use. A box constructed out of cardboard or a similar material shall not constitute an individual storage container for purposes of this section.

(e) Nothing in this section shall be construed to limit the authority of the Public Utilities Commission to investigate and commence an appropriate enforcement action pursuant to Chapter 7 (commencing with Section 5101) of Division 2 of the Public Utilities Code against any person transporting household goods in individual storage containers in a manner other than that described in this section.

SEC. 3. The amendment to Section 21701 of the Business and Professions Code contained in Section 1 of this act is intended to extend the coverage of the California Self-Service Storage Facility Act to real property designed to store individual storage containers. In making this change, it is not the intent of the Legislature to modify the landlord-tenant relationship that exists under current law between self-service storage facility owners and occupants. An owner of a self-service storage facility when renting or leasing individual storage spaces to occupants, who are to have access to the space for the purpose of storing or removing personal property, is a commercial landlord and does not have care, custody, or control of the occupants' stored personal property. Further, by adding Section 21701.1 to the Business and Professions Code, which describes the transportation activities that may be provided without a household goods carrier permit, the Legislature does not intend to limit the ability of an owner or operator of a self-service storage facility to otherwise transport household goods under the authority of a household goods carrier permit.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to clarify the application of the Household Goods Carriers Act, and to ensure appropriate protections for customers transporting goods in individual storage containers, it is necessary that this act take effect immediately.

CHAPTER 46

An act to amend Section 12005 of the Fish and Game Code, relating to wildlife, and making an appropriation therefor.

[Approved by Governor May 28, 1998. Filed with Secretary of State May 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the majority of individuals engaged in hunting activities comply with the statutes and regulations as set forth in the Fish and Game Code. It is the intent of the Legislature to enact legislation that will provide sufficient penalties, commensurate with the severity of the violation, for those individuals who are not representative of the sporting hunting body, but who knowingly engage in the selling of bear parts in the State of California.

The Legislature further finds and declares that the illegal sale of bear parts is a serious offense which warrants special consideration by law enforcement and the judiciary. In order to deter persons from engaging in the illegal trade of bear parts, the Legislature finds that setting a minimum penalty is necessary. The Legislature intends that any violation of Section 4758 of the Fish and Game Code be diligently pursued and fully adjudicated.

SEC. 2. Section 12005 of the Fish and Game Code is amended to read:

12005. (a) Notwithstanding Section 12000, and except as otherwise provided in subdivision (c), the punishment for each violation of Section 4758 shall include both of the following:

(1) A fine of two hundred fifty dollars ($250) for each bear part. As used in this paragraph, "bear part" means an individual part or group of like parts of any bear that the defendant knowingly and unlawfully sells, purchases, or possesses for sale. For the purposes of this paragraph, claws, paws, or teeth from a single bear that are knowingly purchased, sold, or possessed for sale with the intent that they be delivered to a single end user shall be considered a single part.

(2) An additional fine of not more than five thousand dollars ($5,000), imprisonment in the state prison or the county jail for not more than one year, or both the fine and imprisonment.

(b) If the conviction is for the possession of two bear gall bladders and probation is granted, or if the execution or imposition of sentence is suspended, it shall be a condition thereof that a minimum term of 30 days shall be served in the county jail.

(c) (1) The possession of three or more bear gall bladders is punishable by both of the following:

(A) The fine specified in paragraph (1) of subdivision (a).

(B) An additional fine of not more than ten thousand dollars ($10,000), imprisonment in the county jail for not more than one year, or both that fine and imprisonment.

(2) If probation is granted, or the execution or imposition of sentence is suspended, it shall be a condition thereof that a minimum term of three months shall be served in the county jail.

(d) Consecutive sentences shall be imposed for separate violations of this section.

SEC. 3. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 47

An act relating to health care, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 28, 1998. Filed with Secretary of State May 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares all of the following:

(a) The health care delivery system is undergoing rapid and dramatic change. Services are increasingly provided by a variety of managed care structures, including different types of health maintenance organizations (HMOs), preferred provider organizations (PPOs), and a growing array of hybrid models that have elements of traditional fee-for-service and indemnity systems while applying managed care's utilization management, gatekeeper, and case management techniques. Many consumers are confused about how managed care works or have problems navigating the health care system.

(b) The Center for Health Care Rights, an independent nonprofit consumer organization, has established a Pilot Health Care Consumers' Information and Assistance Program in the Sacramento area to help consumers in managed care. The pilot program's goals are to be an accessible source of information and help for health care consumers, collect needed information, and be an advocate to improve how the health care system works for all managed care consumers. The pilot program is independent from, but works in close collaboration with, existing health plans, providers, purchasers, insurance agents and brokers, consumer groups, and regulators. The pilot program is specifically working in partnership with the local

Health Insurance Counseling and Advocacy Program, which serves Medicare beneficiaries in target communities.

(c) The pilot program educates consumers about their rights and responsibilities. It also assists individuals with questions about their health plan, and those with specific problems, through hotline and in-person services. In addition, the pilot program will collect and analyze information, generated both by consumers' use of the pilot program and from other sources, that can identify the strengths and weaknesses of particular plans, provider groups, or delivery systems. The pilot program has the potential of informing health plans, providers, purchasers, consumers, regulators, and the Legislature about how independent support can be provided to consumers in managed care.

(d) Maintaining consumer confidence is a paramount concern in the operation of the pilot program. While one vehicle to protect these communications would be to establish attorney-client relationships with consumers served, the pilot program is not designed as a "legal" program and it would undercut its collaborative strategy and problemsolving orientation if assistance were required to be positioned in a legal context. Furthermore, it is critical that consumers using the pilot program are free from any retribution.

SEC. 2. (a) The Legislature recognizes that the Pilot Health Care Consumers' Information and Assistance Program (the pilot program), serving the greater Sacramento area, has the potential to provide needed education and assistance to individual consumers and provide the public with critical information about the health care system and how consumers can best be assisted. While the pilot program is not being supported with public funds, it serves an important public interest.

(b) No discriminatory, disciplinary, or retaliatory action shall be taken against any health facility, health care service plan, provider, or their employee, subscriber, enrollee, or agent of the subscriber or enrollee or any other recipient of health care services or individual assisting the recipient of health care services, if the communication is made to the pilot program regarding a grievance or complaint and is intended to assist the pilot program in carrying out its duties and responsibilities, unless the action was done maliciously or without good faith. This subdivision is not intended to allow for the unapproved release of confidential or proprietary information by an employee or contractor, or to otherwise infringe on the rights of the employer to supervise, discipline, or terminate an employee for other reasons.

(c) All communications between a representative of the pilot program and a subscriber or enrollee, or agent of the subscriber or enrollee, or any other recipient of health care services or any individual assisting the recipient of health care services, seeking assistance regarding a grievance or complaint, if reasonably related to the requirements of the representative's responsibilities for the

pilot program, and done in good faith, shall be privileged subject to Division 8 (commencing with Section 900) of the Evidence Code. The subscriber, enrollee, or other recipient of health care services shall be the holder of this privilege and may refuse to disclose, and may prevent others from disclosing, a communication described in this subdivision. Any communication described in this subdivision shall be a privileged communication within the meaning of Section 47 of the Civil Code, which shall serve as a defense to any civil action in libel or slander against any of the persons described in this subdivision.

(d) Any representative of the pilot program shall be exempt from being required to testify in court as to any communications described in subdivision (c) except as the court may deem necessary to fulfill the purposes of the pilot program.

(e) All records and files of the pilot program relating to any complaint or request for assistance regarding a subscriber or enrollee, or any other recipient of health care services, and their identity, shall remain confidential, and shall not be subject to discovery, unless disclosure is authorized by the subscriber or enrollee, or any other recipient of health care services, or his or her legal representative. No disclosures shall be made outside of the pilot program without the consent of the subscriber or enrollee, or any other recipient of health care services, that is the subject of the record or file, unless disclosure is made without disclosing the identity of that individual.

(f) Nothing in this section shall be construed to limit the authority and ability of the California Department of Aging or its contractors, or the direct service providers of the Health Insurance Counseling and Advocacy Program (HICAP), from accessing, monitoring, or reviewing case files and records developed by, or for, the HICAP component of this project. All case records and files of HICAP clients are, and shall remain, the property of HICAP, subject to case file and record retention and disposal requirements established by the Department of Aging. For the purposes of this section, "HICAP clients" are defined as those accepted, initiated, and undertaken on behalf of consumers and clients who are 60 years of age or older, Medicare beneficiaries regardless of age, or their legal representatives.

(g) This section shall remain in effect only until June 30, 2000, and as of that date is repealed, unless a later enacted statute, that is enacted before June 30, 2000, deletes or extends that date. Notwithstanding this date of repeal, the privileges and protections provided under this section shall continue to apply to any actions taken or materials collected after June 30, 2000, if they relate to communications or actions made on or before June 30, 2000.

(h) Nothing in this section shall be construed to limit the ability of the subscriber or enrollee, or any other recipient of health care services, to waive the privileges and protections provided by this

section for the purpose of providing information to a regulatory agency, including, but not limited to, the Department of Corporations and the Department of Insurance.

(i) Nothing in this section shall be construed to supercede the procedures set forth in Sections 1368, 1368.01, 1368.02, and 1368.03 of the Health and Safety Code, when the pilot program is providing assistance to a subscriber or enrollee in connection with a complaint against a health care service plan.

(j) For purposes of this section, a health care service plan, provider, subscriber, or enrollee shall have the same meaning as set forth in Section 1345 of the Health and Safety Code, an agent of a subscriber or enrollee shall have the same meaning as set forth in subdivision (b) of Section 1368 of the Health and Safety Code, and a health facility shall have the same meaning as set forth in Section 1250 of the Health and Safety Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to make confidentiality protections available immediately for communications between patients and representatives of a nonprofit pilot program to assist patients to resolve concerns about their health care plans, it is necessary that this act take effect immediately.

CHAPTER 48

An act to amend Sections 25017, 25101.1, 25102.1, 25202, 25230.1, 25608.1, and 25611 of, and to add Section 25009.1 to, the Corporations Code, relating to corporations.

[Approved by Governor May 28, 1998. Filed with Secretary of State May 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 25009.1 is added to the Corporations Code, to read:

25009.1. "Investment adviser" does not include persons excepted from the definition of "investment adviser" by Section 202(a)(11) of the Investment Advisers Act of 1940 (15 U.S.C. 80a-1 et seq., as amended), except that with regard to those persons the commissioner may investigate and bring enforcement actions with respect to fraud and deceit, including and without limitation fraud and deceit under Section 25235, and any rules of the commissioner adopted thereunder.

SEC. 2. Section 25017 of the Corporations Code is amended to read:

25017. (a) "Sale" or "sell" includes every contract of sale of, contract to sell, or disposition of, a security or interest in a security for value. "Sale" or "sell" includes any exchange of securities and any change in the rights, preferences, privileges, or restrictions of or on outstanding securities.

(b) "Offer" or "offer to sell" includes every attempt or offer to dispose of, or solicitation of an offer to buy, a security or interest in a security for value.

(c) Any security given or delivered with, or as a bonus on account of, any purchase of securities or any other thing constitutes a part of the subject of the purchase and is considered to have been offered and sold for value.

(d) A purported gift of assessable stock involves an offer and sale.

(e) Every sale or offer of a warrant or right to purchase or subscribe to another security of the same or another issuer, as well as every sale or offer of a security which gives the holder a present or future right or privilege to convert the security into another security of the same or another issuer, includes an offer and sale of the other security only at the time of the offer or sale of the warrant or right or convertible security; but neither the exercise of the right to purchase or subscribe or to convert nor the issuance of securities pursuant thereto is an offer or sale.

(f) The terms defined in this section do not include: (1) any bona fide secured transaction in or loan of outstanding securities; (2) any stock dividend payable with respect to common stock of a corporation solely (except for any cash or scrip paid for fractional shares) in shares of such common stock, if the corporation has no other class of voting stock outstanding; provided, that shares issued in any such dividend shall be subject to any conditions previously imposed by the commissioner applicable to the shares with respect to which they are issued; or (3) any act incident to a transaction or reorganization approved by a state or federal court in which securities are issued and exchanged for one or more outstanding securities, claims, or property interests, or partly in that exchange and partly for cash, and nothing in this division shall be construed to prohibit a court from applying the protections described in Section 25014.7 or 25140 and the regulations adopted thereunder when approving any transaction involving a rollup participant.

SEC. 3. Section 25101.1 of the Corporations Code is amended to read:

25101.1. The following securities are not subject to Sections 25110, 25120, and 25130:

(a) A security that is offered or sold in a transaction that is exempt from registration under Section 4(1) or 4(3) of the Securities Act of 1933 (15 U.S.C. 77r) pursuant to Section 18(b)(4)(A) of that act, if the issuer, other than a foreign (other country) issuer described in

subdivision (b), of the security files the required reports with the Securities and Exchange Commission pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934, (15 U.S.C. 78a et seq.).

(b) A security of a foreign (other country) issuer that avails itself of the exemption from registration under Section 12(g)(3) of the Securities Exchange Act of 1934 is subject to the qualification requirements of Sections 25110, 25120, and 25130, unless the issuer is a reporting company under the Securities Exchange Act of 1934 and files the required reports under Section 13 or 15(d) of that act.

SEC. 4. Section 25102.1 of the Corporations Code is amended to read:

25102.1. The following transactions are not subject to Sections 25110, 25120, and 25130:

(a) Any offer or sale of a security to a "qualified purchaser" as that term is defined by rule of the Securities and Exchange Commission pursuant to Section 18(b)(3) of the Securities Act of 1933 (15 U.S.C. 77r), and all the following requirements are met:

(1) A notice is filed with the commissioner prior to an offer in this state, along with any documents filed with the Securities and Exchange Commission in annual or periodic reports that the commissioner by rule or order deems appropriate.

(3) Payment of a notice filing fee provided for in subdivision (b) of Section 25608.1.

(b) Any offer and sale of a security with respect to a transaction that is exempt from registration under Section 4(4) of the Securities Act of 1933 pursuant to Section 18 (b) (4) (B) of that act.

(c) Any offer or sale of a security with respect to a transaction that is exempt from registration under the Securities Act of 1933 pursuant to Section 18(b)(4)(C) of that act.

(d) Any offer or sale of a security with respect to a transaction that is exempt from registration under the Securities Act of 1933 pursuant to Section 18(b)(4)(D) of that act, and all the following requirements are met:

(1) A notice in the form of a copy of the completed Form D (17 C.F.R. 239.500) filed with the Securities and Exchange Commission is filed with the commissioner within 15 days of the first sale in this state, along with documents filed with the Securities and Exchange Commission in annual or periodic reports that the commissioner by rule or order deems appropriate.

Also, for the purpose of this section only, "client" does not mean other investment advisers, broker-dealers, banks, savings and loan associations, trust companies, insurance companies, investment companies registered under the Investment Company Act of 1940, pension and profit-sharing trusts (other than self-employed individual retirement plans), or other institutional investors or governmental agencies or instrumentalities designated by rule or order of the commissioner.

25230.1. (c) No investment adviser representative, on behalf of an investment adviser subject to subdivision (a), may, in this state: offer or negotiate for the sale of investment advisory services of the investment adviser; determine which recommendations shall be made to, make recommendations to, or manage the accounts of, clients of the investment adviser; or determine the reports or analysis concerning securities to be published by the investment adviser, unless the investment adviser representative has complied with rules

that the commissioner may adopt for the qualification and employment of investment adviser representatives.

(d) Subdivision (a) does not prohibit the commissioner from investigating and bringing enforcement actions with respect to fraud or deceit, including and without limitation, fraud or deceit under Section 25235 and the rules of the commissioner adopted thereunder, against an investment adviser or an investment adviser representative.

25611. The commissioner may prepare and make available to interested persons lists of persons whose securities are qualified for trading purposes in this state, are exempt from qualification, or are not subject to qualification as the commissioner may determine to be necessary or desirable, and the commissioner may make reasonable charges for those lists to defray the expenses of preparation and dissemination.

SEC. 9. In enacting Section 2 of this act, the Legislature finds and declares that the Thompson-Killea Limited Partnership Act of 1992 added specified protections for limited partners in connection with rollup transactions, and that the courts may be reviewing rollup transactions through the court approval process without recognizing the availability of the important protections afforded to investors under the Corporate Securities Law of 1968. Therefore, the courts are encouraged to apply the protections described in Section 25014.7 or 25140 of the Corporations Code and any regulations adopted thereunder to ensure that these investor protections are not overlooked or avoided through the court approval process.

17052.10. (a) For each taxable year beginning on or after January 1, 1997, and before January 1, 2008, there shall be allowed as a credit against the amount of "net tax," as defined in Section 17039, an amount equal to fifteen dollars ($15) for each ton of rice straw, as defined in Section 18944.33 of the Health and Safety Code, that is grown within California and purchased during the taxable year by the taxpayer.

(b) The aggregate amount of tax credits granted to all taxpayers pursuant to this section and Section 23610 shall not exceed four hundred thousand dollars ($400,000) for each calendar year.

(c) In the case where the credit allowed by this section exceeds the "net tax," the excess may be carried over to reduce the "net tax" for the next 10 taxable years, or until the credit has been exhausted, whichever occurs first.

(d) No deduction shall be claimed for the purchase of rice straw for which a tax credit has been claimed pursuant to this section.

(e) No credit shall be claimed for the purchase of rice straw for which a tax credit has otherwise already been claimed pursuant to this part.

(f) The Department of Food and Agriculture shall do all of the following:

(1) Certify that the taxpayer has purchased the rice straw as specified in subdivision (a).

The certificates shall be issued on a "first come, first served" basis to reflect the chronological order that the taxpayer submitted a valid request to the Department of Food and Agriculture.

(3) Provide an annual listing to the Franchise Tax Board (preferably on computer readable form, and in a form or manner agreed upon by the Franchise Tax Board and the Department of

Food and Agriculture) of the qualified taxpayers who were issued certificates and the amount of rice straw purchased by each taxpayer.

(4) Provide the taxpayer with a copy of the certification to retain for his or her records.

(5) Obtain the taxpayer's identification number, and in the case of a partnership, the taxpayer identification numbers of all partners.

(j) In the case where the credit allowed by this section exceeds the "net tax," the excess may be carried over to reduce the "net tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(A) The net increase in the number of jobs shall be determined by subtracting the total number of full-time employees (defined as 2,000 paid hours per employee per year) the taxpayer employed in this state in the taxable year prior to commencing business operations in the LAMBRA from the total number of full-time employees the taxpayer employed in this state during the second taxable year after commencing business operations in the LAMBRA. For taxpayers who commence doing business in this state with their LAMBRA business operation, the number of employees for the taxable year prior to commencing business operations in the LAMBRA shall be zero. If the taxpayer has a net increase in jobs in the state, the credit shall be allowed only if one or more full-time employees is employed within the LAMBRA.

(D) Any property that is Section 1245 property, as defined in Section 1245(a)(3) of the Internal Revenue Code.

(d) In the case where the credit otherwise allowed under this section exceeds the "net tax" for the taxable year, that portion of the credit which exceeds the "net tax" may be carried over and added to the credit, if any, in succeeding years, until the credit is exhausted. The credit shall be applied first to the earliest taxable years possible.

(e) Any taxpayer who elects to be subject to this section shall not be entitled to increase the basis of the property as otherwise required by Section 164(a) of the Internal Revenue Code with respect to sales or use tax paid or incurred in connection with the purchase of qualified property.

(f) (1) The amount of credit otherwise allowed under this section and Section 17053.46, including any credit carryover from prior years, that may reduce the "net tax" for the taxable year shall not exceed the amount of tax that would be imposed on the taxpayer's business income attributed to a LAMBRA determined as if that attributable income represented all the income of the taxpayer subject to tax under this part.

(B) "The LAMBRA" shall be substituted for "this state."

(3) The portion of any credit remaining, if any, after application of this subdivision, shall be carried over to succeeding taxable years, as if it were an amount exceeding the "net tax" for the taxable year, as provided in subdivision (d).

(g) (1) If the qualified property is disposed of or no longer used by the taxpayer in the LAMBRA, at any time before the close of the second taxable year after the property is placed in service, the

amount of the credit previously claimed, with respect to that property, shall be added to the taxpayer's tax liability in the taxable year of that disposition or nonuse.

(2) At the close of the second taxable year, if the taxpayer has not increased the number of its employees as determined by paragraph (2) of subdivision (b), then the amount of the credit previously claimed shall be added to the taxpayer's net tax for the taxpayer's second taxable year.

(h) If the taxpayer is allowed a credit for qualified property pursuant to this section, only one credit shall be allowed to the taxpayer under this part with respect to that qualified property.

(i) This section shall remain in effect only until December 1, 2003, and as of that date is repealed. However, any unused credit may continue to be carried forward as provided in subdivision (d), until the credit is exhausted.

(5) "Qualified taxpayer" means a taxpayer that conducts a trade or business within a LAMBRA and, for the first two taxable years, has a net increase in jobs (defined as 2,000 paid hours per employee per year) of one or more employees in the LAMBRA.

(A) The net increase in the number of jobs shall be determined by subtracting the total number of full-time employees (defined as 2,000 paid hours per employee per year) the taxpayer employed in this state in the taxable year prior to commencing business operations in the LAMBRA from the total number of full-time employees the taxpayer employed in this state during the second taxable year after commencing business operations in the LAMBRA. For taxpayers who commence doing business in this state with their LAMBRA business operation, the number of employees for the taxable year prior to commencing business operations in the LAMBRA shall be zero. (C) Who is hired by the employer after the designation of the area in which services were performed as a LAMBRA.

(c) (1) For purposes of this section, both of the following apply:

(A) All employees of trades or businesses that are under common control shall be treated as employed by a single employer.

(B) The credit (if any) allowable by this section with respect to each trade or business shall be determined by reference to its proportionate share of the qualified wages giving rise to the credit.

The regulations prescribed under this paragraph shall be based on principles similar to the principles that apply in the case of controlled groups of corporations as specified in subdivision (e) of Section 23622.

(2) If an employer acquires the major portion of a trade or business of another employer (hereinafter in this paragraph referred to as the "predecessor") or the major portion of a separate unit of a trade or business of a predecessor, then, for purposes of applying this section (other than subdivision (d)) for any calendar year ending after that acquisition, the employment relationship between an employee and an employer shall not be treated as terminated if the employee continues to be employed in that trade or business.

for that taxable year and all prior taxable years attributable to qualified wages paid or incurred with respect to that employee.

(2) (A) Paragraph (1) shall not apply to any of the following:

(i) A termination of employment of an employee who voluntarily leaves the employment of the taxpayer.

(iv) A termination of employment of an individual due to a substantial reduction in the trade or business operations of the taxpayer.

(B) For purposes of paragraph (1), the employment relationship between the taxpayer and an employee shall not be treated as terminated by reason of a mere change in the form of conducting the trade or business of the taxpayer, if the employee continues to be employed in that trade or business and the taxpayer retains a substantial interest in that trade or business.

(3) Any increase in tax under paragraph (1) shall not be treated as tax imposed by this part for purposes of determining the amount of any credit allowable under this part.

(4) At the close of the second taxable year, if the taxpayer has not increased the number of its employees as determined by paragraph (5) of subdivision (b), then the amount of the credit previously claimed shall be added to the taxpayer's net tax for the taxpayer's second taxable year.

(e) In the case of an estate or trust, both of the following apply:

(1) The qualified wages for any taxable year shall be apportioned between the estate or trust and the beneficiaries on the basis of the income of the estate or trust allocable to each.

(2) Any beneficiary to whom any qualified wages have been apportioned under paragraph (1) shall be treated (for purposes of this part) as the employer with respect to those wages.

(f) The credit shall be reduced by the credit allowed under Section 17053.7. The credit shall also be reduced by the federal credit allowed under Section 51 of the Internal Revenue Code.

In addition, any deduction otherwise allowed under this part for the wages or salaries paid or incurred by the taxpayer upon which the credit is based shall be reduced by the amount of the credit, prior to any reduction required by subdivision (g) or (h).

(g) In the case where the credit otherwise allowed under this section exceeds the "net tax" for the taxable year, that portion of the credit that exceeds the "net tax" may be carried over and added to the credit, if any, in succeeding years, until the credit is exhausted. The credit shall be applied first to the earliest taxable years possible.

(h) (1) The amount of credit otherwise allowed under this section and Section 17053.45, including prior year credit carryovers, that may reduce the "net tax" for the taxable year shall not exceed the amount of tax that would be imposed on the taxpayer's business income attributed to a LAMBRA determined as if that attributed income represented all of the net income of the taxpayer subject to tax under this part.

(2) The amount of attributed income described in paragraph (1) shall be determined in accordance with the provisions of Chapter 17 (commencing with Section 25101) of Part 11, modified for purposes of this section as follows:

(A) Income shall be apportioned to a LAMBRA by multiplying total business income by a fraction, the numerator of which is the property factor plus the payroll factor, and the denominator of which is two.

(B) "The LAMBRA" shall be substituted for "this state."

(3) The portion of any credit remaining, if any, after application of this subdivision, shall be carried over to succeeding taxable years, as if it were an amount exceeding the "net tax" for the taxable year, as provided in subdivision (g).

(i) If the taxpayer is allowed a credit pursuant to this section for qualified wages paid or incurred, only one credit shall be allowed to the taxpayer under this part with respect to any wage consisting in whole or in part of those qualified wages.

(j) This section shall remain in effect only until December 1, 2003, and as of that date is repealed. However, any unused credit may continue to be carried forward as provided in subdivision (g), until the credit is exhausted.

SEC. 5. Section 17053.49 of the Revenue and Taxation Code is amended to read:

17053.49. (a) (1) A qualified taxpayer shall be allowed a credit against the "net tax," as defined in Section 17039, equal to 6 percent of the qualified cost of qualified property that is placed in service in this state.

(2) In the case of any qualified costs paid or incurred on or after January 1, 1994, and prior to the first taxable year of the qualified taxpayer beginning on or after January 1, 1995, the credit provided under paragraph (1) shall be claimed by the qualified taxpayer on the qualified taxpayer's return for the first taxable year beginning on or after January 1, 1995. No credit shall be claimed under this section on a return filed for any taxable year commencing prior to the qualified taxpayer's first taxable year beginning on or after January 1, 1995.

(b) (1) For purposes of this section, "qualified cost" means any cost that satisfies each of the following conditions:

(A) Except as otherwise provided in this subparagraph, is a cost paid or incurred by the qualified taxpayer for the construction, reconstruction, or acquisition of qualified property on or after January 1, 1994, and prior to the date this section ceases to be operative under paragraph (2) of subdivision (i). In the case of any qualified property constructed, reconstructed, or acquired by the qualified taxpayer (or any person related to the qualified taxpayer within the meaning of Section 267 or 707 of the Internal Revenue Code) pursuant to a binding contract in existence on or prior to January 1, 1994, costs paid pursuant to that contract shall be subject to allocation as follows: contract costs shall be allocated to qualified property based on a ratio of costs actually paid prior to January 1, 1994, and total contract costs actually paid. "Cost paid" shall include, without limitation, contractual deposits and option payments. To the extent of costs allocated, whether or not currently deductible or depreciable for tax purposes, to a period prior to January 1, 1994, the cost shall be deemed allocated to property acquired before January 1, 1994, and is thus not a "qualified cost."

(B) Except as provided in paragraph (2) of subdivision (d) and subparagraph (B) of paragraph (3) of subdivision (d), is an amount upon which the qualified taxpayer has paid, directly or indirectly, as a separately stated contract amount or as determined from the records of the qualified taxpayer, sales or use tax under Part 1 (commencing with Section 6001).

(C) Is an amount properly chargeable to the capital account of the qualified taxpayer.

(2) (A) For purposes of this subdivision, any contract entered into on or after January 1, 1994, that is a successor or replacement contract to a contract that was binding prior to January 1, 1994, shall be treated as a binding contract in existence prior to January 1, 1994.

(B) If a successor or replacement contract is entered into on or after January 1, 1994, and the subject of the successor or replacement contract relates both to amounts for the construction, reconstruction, or acquisition of qualified property described in the original binding contract and to costs for the construction, reconstruction, or acquisition of qualified property not described in the original binding contract, then the portion of those amounts described in the successor or replacement contract that were not described in the original binding contract shall not be treated as costs paid or incurred pursuant to a binding contract in existence on or prior to January 1, 1994, under subparagraph (A) of paragraph (1).

(3) (A) For purposes of this section, an option contract in existence prior to January 1, 1994, under which a qualified taxpayer (or any other person related to the qualified taxpayer within the meaning of Section 267 or 707 of the Internal Revenue Code) had an option to acquire qualified property, shall be treated as a binding

contract under the rules in paragraph (2). For purposes of this subparagraph, an option contract shall not include an option under which the option holder will forfeit an amount less than 10 percent of the fixed option price in the event the option is not exercised.

(B) For purposes of this section, a contract shall be treated as binding even if the contract is subject to a condition.

(c) (1) For purposes of this section, "qualified taxpayer" means any taxpayer engaged in those lines of business described in Codes 2011 to 3999, inclusive, of the Standard Industrial Classification (SIC) Manual published by the United States Office of Management and Budget, 1987 edition.

(2) In the case of any passthrough entity, the determination of whether a taxpayer is a qualified taxpayer under this section shall be made at the entity level and any credit under this section or Section 23649 shall be allowed to the passthrough entity and passed through to the partners or shareholders in accordance with applicable provisions of Part 10 (commencing with Section 17001) or Part 11 (commencing with Section 23001). For purposes of this paragraph, the term "passthrough entity" means any partnership or S corporation.

(3) The Franchise Tax Board may prescribe regulations to carry out the purposes of this section, including any regulations necessary to prevent the avoidance of the effect of this section through splitups, shell corporations, partnerships, tiered ownership structures, sale-leaseback transactions, or otherwise.

(d) For purposes of this section, "qualified property" means property that is described as either of the following:

(1) Tangible personal property that is defined in Section 1245(a) of the Internal Revenue Code for use by a qualified taxpayer in those lines of business described in Codes 2011 to 3999, inclusive, of the Standard Industrial Classification (SIC) Manual published by the United States Office of Management and Budget, 1987 edition, that is primarily used for any of the following:

(A) For the manufacturing, processing, refining, fabricating, or recycling of property, beginning at the point at which any raw materials are received by the qualified taxpayer and introduced into the process and ending at the point at which the manufacturing, processing, refining, fabricating, or recycling has altered tangible personal property to its completed form, including packaging, if required.

(B) In research and development.

(C) To maintain, repair, measure, or test any property described in this paragraph.

(D) For pollution control that meets or exceeds standards established by the state or by any local or regional governmental agency within the state.

(E) For recycling.

(2) The value of any capitalized labor costs that are directly allocable to the construction or modification of property described in paragraph (1).

(3) In the case of any qualified taxpayer engaged in manufacturing activities described in SIC Code 357 or 367, those activities related to biotechnology described in SIC Code 8731, those activities related to biopharmaceutical establishments only that are described in SIC Codes 2833 to 2836, inclusive, those activities related to space vehicles and parts described in SIC Codes 3761 to 3769, inclusive, those activities related to space satellites and communications satellites and equipment described in SIC Codes 3663 and 3812 (but only with respect to "qualified property" that is placed in service on or after January 1, 1996), or those activities related to semiconductor equipment manufacturing described in SIC Code 3559 (but only with respect to "qualified property" that is placed in service on or after January 1, 1997), "qualified property" also includes the following:

(A) Special purpose buildings and foundations that are constructed or modified for use by the qualified taxpayer primarily in a manufacturing, processing, refining, or fabricating process, or as a research or storage facility primarily used in connection with a manufacturing process.

(B) The value of any capitalized labor costs that are directly allocable to the construction or modification of special purpose buildings and foundations that are used primarily in the manufacturing, processing, refining, or fabricating process, or as a research or storage facility primarily used in connection with a manufacturing process.

(C) (i) For purposes of this paragraph, "special purpose building and foundation" means only a building and the foundation immediately underlying the building that is specifically designed and constructed or reconstructed for the installation, operation, and use of specific machinery and equipment with a special purpose, which machinery and equipment, after installation, will become affixed to or a fixture of the real property, and the construction or reconstruction of which is specifically designed and used exclusively for the specified purposes as set forth in subparagraph (A) ("qualified purpose").

(ii) A building is specifically designed and constructed or modified for a qualified purpose if it is not economical to design and construct the building for the intended purpose and then use the structure for a different purpose.

(iii) For purposes of clause (i) and clause (vi), a building is used exclusively for a qualified purpose only if its use does not include a use for which it was not specifically designed and constructed or modified. Incidental use of a building for nonqualified purposes does not preclude the building from being a special purpose building. "Incidental use" means a use which is both related and subordinate

to the qualified purpose. It will be conclusively presumed that a use is not subordinate if more than one-third of the total usable volume of the building is devoted to a use which is not a qualified purpose.

(iv) In the event an entire building does not qualify as a special purpose building, a taxpayer may establish that a portion of a building, and the foundation immediately underlying the portion, qualifies for treatment as a special purpose building and foundation if the portion satisfies all of the definitional provisions in this subparagraph.

(v) To the extent that a building is not a special purpose building as defined above, but a portion of the building qualifies for treatment as a special purpose building, then all equipment which exclusively supports the qualified purpose occurring within that portion and which would qualify as Internal Revenue Code Section 1245 property if it were not a fixture or affixed to the building shall be treated as a cost of the portion of the building which qualifies for treatment as a special purpose building.

(vi) Buildings and foundations which do not meet the definition of a special purpose building and foundation set forth above include, but are not limited to: buildings designed and constructed or reconstructed principally to function as a general purpose manufacturing, industrial, or commercial building; research facilities that are used primarily prior to or after, or prior to and after, the manufacturing process; or storage facilities that are used primarily prior to or after, or prior to and after, completion of the manufacturing process. A research facility shall not be considered to be used primarily prior to or after, or prior to and after, the manufacturing process if its purpose and use relate exclusively to the development and regulatory approval of the manufacturing process for specific biopharmaceutical products. A research facility which is used primarily in connection with the discovery of an organism from which a biopharmaceutical product or process is developed does not meet the requirements of the preceding sentence.

(4) Subject to the provisions in subparagraph (B) of paragraph (1) of subdivision (b), qualified property also includes computer software that is primarily used for those purposes set forth in paragraph (1) of this subdivision.

(5) Qualified property does not include any of the following:

(A) Furniture.

(B) Facilities used for warehousing purposes after completion of the manufacturing process.

(C) Inventory.

(D) Equipment used in the extraction process.

(E) Equipment used to store finished products that have completed the manufacturing process.

(F) Any tangible personal property that is used in administration, general management, or marketing.

(G) Any vehicle for which a credit is claimed pursuant to Section 17052.11 or 23603.

(e) For purposes of this section:

(1) "Biopharmaceutical activities" means those activities which use organisms or materials derived from organisms, and their cellular, subcellular, or molecular components, in order to provide pharmaceutical products for human or animal therapeutics and diagnostics. Biopharmaceutical activities make use of living organisms to make commercial products, as opposed to pharmaceutical activities which make use of chemical compounds to produce commercial products.

(2) "Fabricating" means to make, build, create, produce, or assemble components or property to work in a new or different manner.

(3) "Manufacturing" means the activity of converting or conditioning property by changing the form, composition, quality, or character of the property for ultimate sale at retail or use in the manufacturing of a product to be ultimately sold at retail. Manufacturing includes any improvements to tangible personal property that result in a greater service life or greater functionality than that of the original property.

(4) "Other biotechnology activities" means activities consisting of the application of recombinant DNA technology to produce commercial products, as well as activities regarding pharmaceutical delivery systems designed to provide a measure of control over the rate, duration, and site of pharmaceutical delivery.

(5) "Primarily" means tangible personal property used 50 percent or more of the time in an activity described in subdivision (d).

(6) "Process" means the period beginning at the point at which any raw materials are received by the qualified taxpayer and introduced into the manufacturing, processing, refining, fabricating, or recycling activity of the qualified taxpayer and ending at the point at which the manufacturing, processing, refining, fabricating, or recycling activity of the qualified taxpayer has altered tangible personal property to its completed form, including packaging, if required. Raw materials shall be considered to have been introduced into the process when the raw materials are stored on the same premises where the qualified taxpayer's manufacturing, processing, refining, or recycling activity is conducted. Raw materials that are stored on premises other than where the qualified taxpayer's manufacturing, processing, refining, fabricating, or recycling activity is conducted, shall not be considered to have been introduced into the manufacturing, processing, refining, fabricating, or recycling process.

(7) "Processing" means the physical application of the materials and labor necessary to modify or change the characteristics of property.

(8) "Refining" means the process of converting a natural resource to an intermediate or finished product.

(9) "Research and development" means those activities that are described in Section 174 of the Internal Revenue Code or in any regulations thereunder.

(10) "Small business" means a qualified taxpayer that meets any of the following requirements during the taxable year for which the credit is allowed:

(A) Has gross receipts of less than fifty million dollars ($50,000,000).

(B) Has net assets of less than fifty million dollars ($50,000,000).

(C) Has a total credit of less than one million dollars ($1,000,000).

(D) For taxable years beginning on or after January 1, 1997, is engaged in biopharmaceutical activities or other biotechnology activities that are described in Codes 2833 to 2836, inclusive, of the Standard Industrial Classification (SIC) Manual published by the United States Office of Management and Budget, 1987 edition, and has not received regulatory approval for any product from the United States Food and Drug Administration.

(f) The credit allowed under subdivision (a) shall apply to qualified property that is acquired by or subject to lease by a qualified taxpayer, subject to the following special rules:

(1) A lessor of qualified property, irrespective of whether the lessor is a qualified taxpayer, shall not be allowed the credit provided under subdivision (a) with respect to any qualified property leased to another qualified taxpayer.

(2) For purposes of paragraphs (2) and (3) of subdivision (b), "binding contract" shall include any lease agreement with respect to the qualified property.

(3) (A) For purposes of determining the qualified cost paid or incurred by a lessee in any leasing transaction that is not treated as a sale under Part 1 (commencing with Section 6001), the following rules shall apply:

(i) Except as provided by subparagraph (C) of this paragraph, subparagraphs (A) and (C) of paragraph (1) of subdivision (b) shall not apply.

(ii) Except as provided in subparagraph (B) and clause (iii), the "qualified cost" upon which the lessee shall compute the credit provided under this section shall be equal to the original cost to the lessor (within the meaning of Section 18031) of the qualified property that is the subject of the lease.

(iii) Except as provided in clause (iv), the requirement of subparagraph (B) of paragraph (1) of subdivision (b) shall be treated as satisfied only if the lessor has made a timely election under either Section 6094.1 or subdivision (d) of Section 6244 and has paid sales tax reimbursement or use tax measured by the purchase price of the qualified property (within the meaning of paragraph (5) of subdivision (g) of Section 6006). For purposes of this subdivision and

clause (iv), the amount of original cost to the lessor which may be taken into account under clause (ii) shall not exceed the purchase price upon which sales tax reimbursement or use tax has been paid under the preceding sentence or under clause (iv).

(iv) With respect to leases entered into between January 1, 1994, and the effective date of this clause, the lessor may elect to pay use tax measured by the purchase price of the property by reporting and paying the tax with the return of the lessor for the fourth calendar quarter of 1994. In computing the use tax under the preceding sentence, a credit shall be allowed under Part 1 (commencing with Section 6001) for all sales or use tax previously paid on the lease.

(B) For purposes of applying subparagraph (A) only, the following special rules shall apply:

(i) The original cost to the lessor of the qualified property shall be reduced by the amount of any original cost of that property that was taken into account by any predecessor lessee in computing the credit allowable under this section.

(ii) Clause (i) shall not apply in any case where the predecessor lessee was required to recapture the credit provided under this section pursuant to the provisions of subdivision (g).

(iii) For purposes of this section only, in any case where a successor lessor has acquired qualified property from a predecessor lessor in a transaction not treated as a sale under Part 1 (commencing with Section 6001), the original cost to the successor lessor of the qualified property shall be reduced by the amount of the original cost of the qualified property that was taken into account by any lessee of the predecessor lessor in computing the credit allowable under this section.

(C) In determining the original cost of any qualified property under this paragraph, only amounts paid or incurred by the lessor on or after January 1, 1994, and prior to the date this section ceases to be operative under paragraph (2) of subdivision (i), shall be taken into account. In the case of any qualified property constructed, reconstructed, or acquired by a lessor pursuant to a binding contract in existence on or prior to January 1, 1994, the allocation rule specified in subparagraph (A) of paragraph (1) of subdivision (b) shall apply in determining the original cost to the lessor of qualified property.

(D) Notwithstanding subparagraph (A), in the case of any leasing transaction for which the lessee is allowed the credit under this section and thereafter the lessee (or any party related to the lessee within the meaning of Section 267 or 318 of the Internal Revenue Code) acquires the qualified property from the lessor (or any successor lessor) within one year from the date the qualified property is first used by the lessee under the terms of the lease, the lessee's (or related party's) acquisition of the qualified property from the lessor (or successor lessor) shall be treated as a disposition by the lessee of the qualified property that was subject to the lease under subdivision (g).

(4) For purposes of determining the qualified cost paid or incurred by a lessee in any leasing transaction that is treated as a sale under Part 1 (commencing with Section 6001), the following rules shall apply:

(A) Subparagraph (A) of paragraph (1) of subdivision (b) shall be applied by substituting the term "purchase" for the term "construction, reconstruction, or acquisition."

(B) Subparagraph (C) of paragraph (1) of subdivision (b) shall apply.

(C) The requirement of subparagraph (B) of paragraph (1) of subdivision (b) shall be treated as satisfied at the time that either the lessor or the qualified taxpayer pays sales or use tax under Part 1 (commencing with Section 6001).

(5) (A) In the case of any leasing transaction described in paragraph (3), the lessor shall provide a statement to the lessee specifying the amount of the lessor's original cost of the qualified property and the amount of that cost upon which a sales or use tax was paid within 45 days after the close of the lessee's taxable year in which the credit is allowable to the lessee under this section.

(B) The statement required under subparagraph (A) shall be made available to the Franchise Tax Board upon request.

(g) No credit shall be allowed if the qualified property is removed from the state, is disposed of to an unrelated party, or is used for any purpose not qualifying for the credit provided in this section in the same taxable year in which the qualified property is first placed in service in this state. If any qualified property for which a credit is allowed pursuant to this section is thereafter removed from this state, disposed of to an unrelated party, or used for any purpose not qualifying for the credit provided in this section within one year from the date the qualified property is first placed in service in this state, the amount of the credit allowed by this section for that qualified property shall be recaptured by adding that credit amount to the net tax of the qualified taxpayer for the taxable year in which the qualified property is disposed of, removed, or put to an ineligible use.

(h) In the case where the credit allowed by this section exceeds the "net tax," the excess may be carried over to reduce the "net tax" in the following year, and succeeding years as follows:

(1) Except as provided in paragraph (2), for the seven succeeding years if necessary, until the credit is exhausted.

(2) In the case of a small business, for the nine succeeding years, if necessary, until the credit is exhausted.

(i) (1) This section shall remain in effect until the date specified in paragraph (2), on which date this section shall cease to be operative, and as of that date is repealed. However, any unused credit may continue to be carried forward, as provided in subdivision (h), until the credit is exhausted.

(2) (A) This section shall cease to be operative on January 1, 2001, or on January 1 of the earliest year thereafter, if the total employment

in this state, as determined by the Employment Development Department on the preceding January 1, does not exceed by 100,000 jobs the total employment in this state on January 1, 1994. The department shall report to the Legislature annually with respect to the determination required by the preceding sentence.

(B) For purposes of this paragraph, "total employment" means the total employment in the manufacturing sector, excluding employment in the aerospace sector.

(j) The amendments made by the act adding this subdivision shall be operative for taxable years beginning on or after January 1, 1997, except as provided in paragraph (3) of subdivision (d).

SEC. 6. Section 17053.66 of the Revenue and Taxation Code is amended to read:

17053.66. (a) For each taxable year beginning on or after January 1, 1995, and before January 1, 2000, there shall be allowed, as determined by the Department of Fish and Game, a credit against the "net tax," as defined in Section 17039. The credit amount shall be equal to the lesser of 10 percent of the qualified costs paid or incurred by the taxpayer for salmon and steelhead trout habitat restoration and improvement projects or an amount determined in subparagraph (B) of paragraph (2) of subdivision (f). The credit allowed by this section shall be claimed on the return for the taxable year in which the expense for the habitat restoration or improvement project was paid or incurred.

(b) The taxpayer shall be eligible to claim the credit only after application to and certification by the Department of Fish and Game that all of the following conditions are met:

(1) The salmon or steelhead trout habitat restoration or improvement project meets the objectives of the Salmon, Steelhead Trout, and Anadromous Fisheries Program Act (Chapter 8 (commencing with Section 6900) of Part 1 of Division 6 of the Fish and Game Code) and would aid in increasing the natural production of salmon and steelhead trout through improvement of stream and streambank conditions, improvement of land use practices, or changes in streamflow operations.

(2) The work to be undertaken is not otherwise required to be carried out pursuant to the Z'berg-Nejedly Forest Practice Act of 1973 (Chapter 8 (commencing with Section 4511) of Part 2 of Division 4 of the Public Resources Code), for mitigation of negative impacts to the environment caused by timber operations or required for mitigation of negative impacts on fish and wildlife habitat caused by a project pursuant to an approved environmental impact report or mitigated negative declaration required pursuant to the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(c) (1) Qualified costs are those costs paid or incurred by the taxpayer or partnership which are directly related to labor and materials which aid in increasing the natural production of salmon

and steelhead trout through improvement of stream and streambank conditions, improvement of land use practices, or changes in streamflow operations.

(2) Qualified costs do not include costs paid or incurred with respect to any of the following:

(A) Construction of office, storage, garage, or maintenance buildings.

(B) Drilling wells or installation of pumping equipment.

(C) Construction of permanent hatchery facilities, including raceways, water systems, or bird enclosures.

(D) Construction of permanent surface roadways or bridges.

(E) Any project requiring engineered design or certification by a registered engineer.

(3) Qualified costs shall be no greater than prevailing costs for similar work completed in the area where the project is proposed, and the project design and implementation shall follow Department of Fish and Game guidelines.

(d) For purposes of computing the credit provided by this section, the cost of any salmon or steelhead trout habitat restoration or improvement project eligible for the credit shall be reduced by the amount of any grant or cost-share payment provided by a public entity for that project. The Department of Fish and Game shall certify the amount of funding, if any, provided by the Department of Fish and Game for the project.

(e) The taxpayer shall do all of the following:

(1) (A) Submit an application for the restoration tax credit with a description of the proposed project in a format acceptable to the Department of Fish and Game.

(B) The application for the restoration tax credit shall include all information that is required by the Department of Fish and Game, pursuant to subdivision (b), as well as, but not limited to, all of the following:

(i) A project description of the habitat restoration or improvement work to be accomplished, including the location of the project.

(ii) If other than the project applicant, the name of the owner of the land where the project is to be carried out.

(iii) The estimated qualified cost to accomplish the project, as well as the project's overall estimated cost.

(iv) A statement that a reasonable attempt will be made to hire unemployed persons previously employed in the commercial fishing or forest products industries for implementation of the project.

(v) The tax identification number of each taxpayer allowed the credit.

(2) Obtain from the Department of Fish and Game certification that the project is approved, and the amount of credit allocation authorized, which shall not exceed the maximum amount of credit allocation set forth in subdivision (k).

(3) Notify the Department of Fish and Game in a form and manner specified by the department that the habitat restoration or improvement work was actually completed and the amount of qualified costs that were paid.

(4) Provide access, subject to prior notification by the Department of Fish and Game staff and permission by the taxpayer, to proposed project sites by the Department of Fish and Game staff for preproject and postproject evaluation, for project monitoring during all phases of implementation, and for verification that projects have been completed in accordance with department guidelines and recommendations. The Department of Fish and Game shall not include a project on its list of approved projects eligible for the tax credit that is submitted to the Franchise Tax Board unless these conditions are met.

(5) Retain a copy of and make the certification referred to in paragraph (3) of subdivision (f) available to the Franchise Tax Board upon demand.

(6) Calculate the credit amount, equal to the lesser of 10 percent of the taxpayer's actual qualified costs or the amount of credit allocation authorized to the taxpayer, as determined by the Department of Fish and Game.

(7) A partnership shall disclose in its partnership return for the taxable year all of the following:

(A) The name of each partner who received a distributive share of the credit.

(B) Each partner's social security number or identification number.

(C) Each partner's distributive share of the credit.

(f) The Department of Fish and Game shall do all of the following:

(1) Accept and review applications to determine if projects meet the conditions specified in subdivision (b).

(2) After all applications have been received for a calendar year, determine if 10 percent of the estimated costs for all approved projects exceeds the annual credit allocation. If the annual amount of credit allocation is exceeded, the amount of each taxpayer's credit allocation shall be calculated as follows:

(A) Divide the annual amount of credit allocation set forth in subdivision (j) by the total estimated qualified costs for all approved projects.

(B) Multiply each approved project's estimated qualified cost by the quotient of the calculation in subparagraph (A).

(C) If the annual amount of credit allocation is not exceeded, the amount of each credit allocation shall be 10 percent of the estimated qualified costs.

(3) Issue certificates to each taxpayer with an approved project that specifies the amount of credit allocated to the project.

(4) Provide an annual listing to the Franchise Tax Board (preferably on magnetic tape or other machine-readable form, and

in a form and manner agreed upon by the Franchise Tax Board and the Department of Fish and Game) of the taxpayers who were issued the certification, their respective tax identification numbers, and the allowable amount of the credit allocated to each taxpayer.

(g) The Department of Fish and Game shall have the authority to establish annual timeframes for the receipt of applications.

(h) The taxpayers' social security numbers or identification numbers obtained through the tax credit application and certification process shall be used exclusively for state tax administrative purposes.

(i) In the case where the credit allowed by this section exceeds the "net tax," the excess may be carried over to reduce the "net tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(j) For purposes of this section, the annual amount of credit allocation means the aggregate amount of tax credits which may be granted pursuant to this section and Section 23666 shall not exceed five hundred thousand dollars ($500,000) per year. The Department of Fish and Game shall not authorize any credit which would cause the total amount of credits authorized with respect to any calendar year under this section and Section 23666 to exceed five hundred thousand dollars ($500,000).

(k) The maximum credit amount which the Department of Fish and Game may authorize with respect to any taxable year to any taxpayer is fifty thousand dollars ($50,000).

(*l*) In the case of a partnership, the credit limitation specified in subdivision (k) shall apply with respect to the partnership and with respect to each partner.

(m) This section shall remain in effect only until December 1, 2000, and as of that date is repealed.

SEC. 7. Section 17268 of the Revenue and Taxation Code is amended to read:

17268. (a) For each taxable year beginning on or after January 1, 1995, and before January 1, 2003, a taxpayer may elect to treat the cost of any Section 17268 property as an expense that is not chargeable to the capital account. Any cost so treated shall be allowed as a deduction for the taxable year in which Section 17268 property is placed in service.

(b) In the case of a husband or wife filing separate returns for a taxable year in which a spouse is entitled to the deduction under subdivision (a), the applicable amount shall be equal to 50 percent of the amount otherwise determined under subdivision (a).

(c) (1) An election under this section for any taxable year shall meet both of the following requirements:

(A) Specify the items of Section 17268 property to which the election applies and the portion of the cost of each of those items that is to be taken into account under subdivision (a).

(B) Be made on the taxpayer's return of the tax imposed by this part for the taxable year.

(2) Any election made under this section, and any specification contained in that election, may not be revoked except with the consent of the Franchise Tax Board.

(d) (1) For purposes of this section, "Section 17268 property" means any recovery property that is Section 1245 property (as defined in Section 1245(a)(3) of the Internal Revenue Code) and that the taxpayer acquires by purchase for exclusive use in a trade or business conducted within a LAMBRA.

(2) For purposes of paragraph (1), "purchase" means any acquisition of property, but only if both of the following apply:

(A) The property is not acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under Section 267 or 707(b) of the Internal Revenue Code (but, in applying Section 267 (b) and Section 267 (c) of the Internal Revenue Code for purposes of this section, Section 267(c)(4) of the Internal Revenue Code shall be treated as providing that the family of an individual shall include only his or her spouse, ancestors, and lineal descendants).

(B) The basis of the property in the hands of the person acquiring it is not determined by either of the following:

(i) In whole or in part by reference to the adjusted basis of the property in the hands of the person from whom acquired.

(ii) Under Section 1014 of the Internal Revenue Code, relating to basis of property acquired from a decedent.

(3) For purposes of this section, the cost of property does not include that portion of the basis of the property that is determined by reference to the basis of other property held at any time by the person acquiring the property.

(4) This section shall not apply to estates and trusts.

(5) This section shall not apply to any property for which the taxpayer may not make an election for the taxable year under Section 179 of the Internal Revenue Code because of the provisions of Section 179(d) of the Internal Revenue Code.

(6) In the case of a partnership, the dollar limitation in subdivision (f) shall apply at the partnership level and at the partner level.

(7) This section shall not apply to any property described in Section 168(f) of the Internal Revenue Code, relating to property to which Section 168 of the Internal Revenue Code does not apply.

(e) For purposes of this section:

(1) "LAMBRA" means a local agency military base recovery area designated in accordance with the provisions of Section 7114 of the Government Code.

(2) "Taxpayer" means a taxpayer that conducts a trade or business within a LAMBRA and, for the first two taxable years, has a net increase in jobs (defined as 2,000 paid hours per employee per year) of one or more employees in the LAMBRA.

(A) The net increase in the number of jobs shall be determined by subtracting the total number of full-time employees (defined as 2,000 paid hours per employee per year) the taxpayer employed in this state in the taxable year prior to commencing business operations in the LAMBRA from the total number of full-time employees the taxpayer employed in this state during the second taxable year after commencing business operations in the LAMBRA. For taxpayers who commence doing business in this state with their LAMBRA business operation, the number of employees for the taxable year prior to commencing business operations in the LAMBRA shall be zero. If the taxpayer has a net increase in jobs in the state, the credit shall be allowed only if one or more full-time employees is employed within the LAMBRA.

(B) The total number of employees employed in the LAMBRA shall equal the sum of both of the following:

(i) The total number of hours worked in the LAMBRA for the taxpayer by employees (not to exceed 2,000 hours per employee) who are paid an hourly wage divided by 2,000.

(ii) The total number of months worked in the LAMBRA for the taxpayer by employees who are salaried employees divided by 12.

(C) In the case of a taxpayer who first commences doing business in the LAMBRA during the taxable year, for purposes of clauses (i) and (ii), respectively, of subparagraph (B) the divisors "2,000" and "12" shall be multiplied by a fraction, the numerator of which is the number of months of the taxable year that the taxpayer was doing business in the LAMBRA and the denominator of which is 12.

(f) The deduction allowable under subdivision (a) for any taxable year shall not exceed the following applicable amount for the taxable year of the designation of a LAMBRA and each taxable year thereafter:

Taxable year of designation	$ 5,000
1st taxable year thereafter	5,000
2nd taxable year thereafter	7,500
3rd taxable year thereafter	7,500
Each taxable year thereafter	10,000

(g) This section shall apply only to property that is used exclusively in a trade or business conducted within a LAMBRA.

(h) (1) Any amounts deducted under subdivision (a) with respect to property that ceases to be used in the trade or business within a LAMBRA at any time before the close of the second taxable year after the property was placed in service shall be included in income for that year.

(2) At the close of the second taxable year, if the taxpayer has not increased the number of its employees as determined by paragraph (2) of subdivision (e), then the amount of the deduction previously

claimed shall be added to the taxpayer's taxable income for the taxpayer's second taxable year.

(i) Any taxpayer who elects to be subject to this section shall not be entitled to claim for the same property the deduction under Section 179 of the Internal Revenue Code, relating to an election to expense certain depreciable business assets.

(j) This section shall remain in effect only until December 1, 2003, and as of that date is repealed.

SEC. 8. Section 17276 of the Revenue and Taxation Code is amended to read:

17276. Except as provided in Sections 17276.1 and 17276.2, the deduction provided by Section 172 of the Internal Revenue Code, relating to a net operating loss deduction, shall be modified as follows:

(a) (1) Net operating losses attributable to taxable years beginning before January 1, 1987, shall not be allowed.

(2) A net operating loss shall not be carried forward to any taxable year beginning before January 1, 1987.

(b) (1) Except as provided in paragraphs (2) and (3), the provisions of Section 172(b)(2) of the Internal Revenue Code, relating to the amount of carryovers, shall be modified so that 50 percent of the entire amount of the net operating loss for any taxable year shall not be eligible for carryover to any subsequent taxable year.

(2) In the case of a taxpayer who has a net operating loss in a taxable year beginning on or after January 1, 1994, and who operates a new business during that taxable year, each of the following shall apply to each loss incurred during the first three taxable years of operating the new business:

(A) If the net operating loss is equal to or less than the net loss from the new business, 100 percent of the net operating loss shall be carried forward as provided in paragraph (2) of subdivision (d).

(B) If the net operating loss is greater than the net loss from the new business, the net operating loss shall be carried over as follows:

(i) With respect to an amount equal to the net loss from the new business, 100 percent of that amount shall be carried forward as provided in paragraph (2) of subdivision (d).

(ii) With respect to the portion of the net operating loss which exceeds the net loss from the new business, 50 percent of that amount shall be a net operating loss carryover to each of the five taxable years following the taxable year of the loss.

(C) For purposes of Section 172(b)(2) of the Internal Revenue Code, the amount described in clause (ii) of subparagraph (B) shall be absorbed before the amount described in clause (i) of subparagraph (B).

(3) In the case of a taxpayer who has a net operating loss in a taxable year beginning on or after January 1, 1994, and who operates an eligible small business during that taxable year, each of the following shall apply:

(A) If the net operating loss is equal to or less than the net loss from the eligible small business, 100 percent of the net operating loss shall be carried forward to the taxable years specified in paragraph (1) of subdivision (d).

(B) If the net operating loss is greater than the net loss from the eligible small business, the net operating loss shall be carried over as follows:

(i) With respect to an amount equal to the net loss from the eligible small business, 100 percent of that amount shall be carried forward to each of the five taxable years following the taxable year of the loss.

(ii) With respect to the portion of the net operating loss that exceeds the net loss from the eligible small business, 50 percent of that amount shall be a net operating loss carryover to each of the five taxable years following the taxable year of the loss.

(C) For purposes of Section 172(b)(2) of the Internal Revenue Code, the amount described in clause (ii) of subparagraph (B) shall be absorbed before the amount described in clause (i) of subparagraph (B).

(4) In the case of a taxpayer who has a net operating loss in a taxable year beginning on or after January 1, 1994, and who operates a business that qualifies as both a new business and an eligible small business under this section, that business shall be treated as a new business for the first three taxable years of the new business.

(5) In the case of a taxpayer who has a net operating loss in a taxable year beginning on or after January 1, 1994, and who operates more than one business, and more than one of those businesses qualifies as either a new business or an eligible small business under this section, paragraph (2) shall be applied first, except that if there is any remaining portion of the net operating loss after application of clause (i) of subparagraph (B) of that paragraph, paragraph (3) shall be applied to the remaining portion of the net operating loss as though that remaining portion of the net operating loss constituted the entire net operating loss.

(6) For purposes of this section, the term "net loss" means the amount of net loss after application of Sections 465 and 469 of the Internal Revenue Code.

(c) Net operating loss carrybacks shall not be allowed.

(d) (1) Except as provided in paragraphs (2) and (3), for each taxable year beginning on or after January 1, 1987, Section 172(b)(1)(A)(ii) of the Internal Revenue Code, relating to years to which net operating losses may be carried, is modified to substitute "five taxable years" in lieu of "15 taxable years."

(2) In the case of a "new business," the "five taxable years" in paragraph (1) shall be modified to read as follows:

(A) "Eight taxable years" for a net operating loss attributable to the first taxable year of that new business.

(B) "Seven taxable years" for a net operating loss attributable to the second taxable year of that new business.

(C) "Six taxable years" for a net operating loss attributable to the third taxable year of that new business.

(3) For any carryover of a net operating loss for which a deduction is denied by Section 17276.3, the carryover period specified in this subdivision shall be extended as follows:

(A) By one year for a net operating loss attributable to taxable years beginning in 1991.

(B) By two years for a net operating loss attributable to taxable years beginning prior to January 1, 1991.

(4) The net operating loss attributable to taxable years beginning on or after January 1, 1987, and before January 1, 1994, shall be a net operating loss carryover to each of the 10 taxable years following the year of the loss if it is incurred by a taxpayer that is under the jurisdiction of the court in a Title 11 or similar case at any time during the income year. The loss carryover provided in the preceding sentence shall not apply to any loss incurred after the date the taxpayer is no longer under the jurisdiction of the court in a Title 11 or similar case.

(e) For purposes of this section:

(1) "Eligible small business" means any trade or business that has gross receipts, less returns and allowances, of less than one million dollars ($1,000,000) during the taxable year.

(2) Except as provided in subdivision (f), "new business" means any trade or business activity that is first commenced in this state on or after January 1, 1994.

(3) "Title 11 or similar case" shall have the same meaning as in Section 368(a)(3) of the Internal Revenue Code.

(4) In the case of any trade or business activity conducted by a partnership or S corporation, paragraphs (1) and (2) shall be applied to the partnership or S corporation.

(f) For purposes of this section, in determining whether a trade or business activity qualifies as a new business under paragraph (2) of subdivision (e), the following rules shall apply:

(1) In any case where a taxpayer purchases or otherwise acquires all or any portion of the assets of an existing trade or business (irrespective of the form of entity) that is doing business in this state (within the meaning of Section 23101), the trade or business thereafter conducted by the taxpayer (or any related person) shall not be treated as a new business if the aggregate fair market value of the acquired assets (including real, personal, tangible, and intangible property) used by the taxpayer (or any related person) in the conduct of its trade or business exceeds 20 percent of the aggregate fair market value of the total assets of the trade or business being conducted by the taxpayer (or any related person). For purposes of this paragraph only, the following rules shall apply:

(A) The determination of the relative fair market values of the acquired assets and the total assets shall be made as of the last day of the first taxable year in which the taxpayer (or any related person) first uses any of the acquired trade or business assets in its business activity.

(B) Any acquired assets that constituted property described in Section 1221(1) of the Internal Revenue Code in the hands of the transferor shall not be treated as assets acquired from an existing trade or business, unless those assets also constitute property described in Section 1221(1) of the Internal Revenue Code in the hands of the acquiring taxpayer (or related person).

(2) In any case where a taxpayer (or any related person) is engaged in one or more trade or business activities in this state, or has been engaged in one or more trade or business activities in this state within the preceding 36 months ("prior trade or business activity"), and thereafter commences an additional trade or business activity in this state, the additional trade or business activity shall only be treated as a new business if the additional trade or business activity is classified under a different division of the Standard Industrial Classification (SIC) Manual published by the United States Office of Management and Budget, 1987 edition, than are any of the taxpayer's (or any related person's) current or prior trade or business activities.

(3) In any case where a taxpayer, including all related persons, is engaged in trade or business activities wholly outside of this state and the taxpayer first commences doing business in this state (within the meaning of Section 23101) after December 31, 1993 (other than by purchase or other acquisition described in paragraph (1)), the trade or business activity shall be treated as a new business under paragraph (2) of subdivision (e).

(4) In any case where the legal form under which a trade or business activity is being conducted is changed, the change in form shall be disregarded and the determination of whether the trade or business activity is a new business shall be made by treating the taxpayer as having purchased or otherwise acquired all or any portion of the assets of an existing trade or business under the rules of paragraph (1) of this subdivision.

(5) "Related person" shall mean any person that is related to either the taxpayer under either Section 267 or 318 of the Internal Revenue Code.

(6) "Acquire" shall include any gift, inheritance, transfer incident to divorce, or any other transfer, whether or not for consideration.

(7) (A) For taxable years beginning on or after January 1, 1997, the term "new business" shall include any taxpayer that is engaged in biopharmaceutical activities or other biotechnology activities that are described in Codes 2833 to 2836, inclusive, of the Standard Industrial Classification (SIC) Manual published by the United States Office of Management and Budget, 1987 edition, and as further

amended, and that has not received regulatory approval for any product from the United States Food and Drug Administration.

(B) For purposes of this paragraph:

(i) "Biopharmaceutical activities" means those activities which use organisms or materials derived from organisms, and their cellular, subcellular, or molecular components, in order to provide pharmaceutical products for human or animal therapeutics and diagnostics. Biopharmaceutical activities make use of living organisms to make commercial products, as opposed to pharmaceutical activities which make use of chemical compounds to produce commercial products.

(ii) "Other biotechnology activities" means activities consisting of the application of recombinant DNA technology to produce commercial products, as well as activities regarding pharmaceutical delivery systems designed to provide a measure of control over the rate, duration, and site of pharmaceutical delivery.

(g) In computing the modifications under Section 172(d)(2) of the Internal Revenue Code, relating to capital gains and losses of taxpayers other than corporations, the exclusion provided by Section 18152.5 shall not be allowed.

(h) Notwithstanding any provisions of this section, a deduction shall be allowed to a "qualified taxpayer" as provided in Sections 17276.1 and 17276.2.

(i) The Franchise Tax Board may prescribe appropriate regulations to carry out the purposes of this section, including any regulations necessary to prevent the avoidance of the purposes of this section through splitups, shell corporations, partnerships, tiered ownership structures, or otherwise.

(j) The Franchise Tax Board may reclassify any net operating loss carryover determined under either paragraph (2) or (3) of subdivision (b) as a net operating loss carryover under paragraph (1) of subdivision (b) upon a showing that the reclassification is necessary to prevent evasion of the purposes of this section.

(k) The amendments made by the act adding this subdivision shall be operative for taxable years beginning on or after January 1, 1997.

SEC. 9. Section 19011 of the Revenue and Taxation Code is amended to read:

19011. (a) All payments required under this part, regardless of the income (or taxable) year to which the payments apply shall be remitted to the Franchise Tax Board by electronic funds transfer pursuant to Division 11 (commencing with Section 11101) of the Commercial Code, once any of the following conditions are met:

(1) With respect to any corporation, any installment payment of estimated tax made pursuant to Section 19025 or the payment made pursuant to Section 18604 with regard to an extension of time to file exceeds fifty thousand dollars ($50,000) in any income year beginning on or after January 1, 1991, or exceeds twenty thousand

dollars ($20,000) in any income year beginning on or after January 1, 1995.

(2) With respect to any corporation, the total tax liability exceeds two hundred thousand dollars ($200,000) in any income year beginning on or after January 1, 1991, or exceeds eighty thousand dollars ($80,000) in any income year beginning on or after January 1, 1995. For purposes of this section, total tax liability shall be the total tax liability as shown on the original return, after any adjustment made pursuant to Section 19051.

(3) A taxpayer submits a request to the Franchise Tax Board and is granted permission to make electronic funds transfers.

(b) A taxpayer required to remit payments to the Franchise Tax Board by electronic funds transfer may elect to discontinue making payments where the threshold requirements set forth in paragraphs (1) and (2) of subdivision (a) were not met for the preceding income (or taxable) year. The election shall be made in a form and manner prescribed by the Franchise Tax Board.

(c) Any taxpayer required to remit payment by electronic funds transfer pursuant to this section who makes payment by other means shall pay a penalty of 10 percent of the amount paid, unless it is shown that the failure to make payment as required was for reasonable cause and was not the result of willful neglect.

(d) Any taxpayer required to remit payments by electronic funds transfer pursuant to this section may request a waiver of those requirements from the Franchise Tax Board. The Franchise Tax Board may grant a waiver only if it determines that the particular amounts paid in excess of the threshold amounts established in this section were not representative of the taxpayer's tax liability. If a taxpayer is granted a waiver, subsequent remittances by electronic funds transfer shall be required only on those terms set forth in the waiver.

(e) The Franchise Tax Board shall accept remittances by electronic funds transfer pursuant to this section no later than January 1, 1993. Electronic funds transfer procedures, in addition to those described in subdivision (f), shall be as prescribed by the Franchise Tax Board. Payment is deemed complete on the date the electronic funds transfer is initiated, if settlement to the state's demand account occurs on or before the banking day following the date the transfer is initiated. If settlement to the state's demand account does not occur on or before the banking day following the date the transfer is initiated, payment is deemed to occur on the date settlement occurs.

(f) For purposes of this section:

(1) "Electronic funds transfer" means any transfer of funds, other than a transaction originated by check, draft, or similar paper instrument, that is initiated through an electronic terminal, telephonic instrument, or computer or magnetic tape, so as to order, instruct, or authorize a financial institution to debit or credit an

account. Electronic funds transfer shall be accomplished by an automated clearinghouse debit, automated clearinghouse credit, a Federal Reserve Wire Transfer (Fedwire), or by an international funds transfer.

(2) "Automated clearinghouse" means any federal reserve bank, or an organization established by agreement with the National Automated Clearing House Association, that operates as a clearinghouse for transmitting or receiving entries between banks or bank accounts and that authorizes an electronic transfer of funds between those banks or bank accounts.

(3) "Automated clearinghouse debit" means a transaction in which any department of the state, through its designated depository bank, originates an automated clearinghouse transaction debiting the taxpayer's bank account and crediting the state's bank account for the amount of tax. Banking costs incurred for the automated clearinghouse debit transaction by the taxpayer shall be paid by the state.

(4) "Automated clearinghouse credit" means an automated clearinghouse transaction in which the taxpayer, through its own bank, originates an entry crediting the state's bank account and debiting its own bank account. Banking costs incurred by the state for the automated clearinghouse credit transaction may be charged to the taxpayer.

(5) "Fedwire" means any transaction originated by the taxpayer and utilizing the national electronic payment system to transfer funds through federal reserve banks, pursuant to which the taxpayer debits its own bank account and credits the state's bank account. Electronic funds transfers may be made by Fedwire only if prior approval is obtained from the Franchise Tax Board and the taxpayer is unable, for reasonable cause, to make payments pursuant to paragraph (3) or (4). Banking costs charged to the taxpayer and to the state may be charged to the taxpayer.

(6) "International funds transfer" means any transaction originated by the taxpayer and utilizing the international electronic payment system to transfer funds, pursuant to which the taxpayer debits its own bank account and credits the state's bank account.

(7) In determining whether a payment or total tax liability exceeds the amounts established in subdivision (a), the income of all taxpayers whose income derived from, or attributable to, sources within this state is required to be determined by a combined report shall be aggregated and the total aggregate amount shall be considered to be the income of a single taxpayer for purposes of determining the payment or total tax liability of a single taxpayer.

SEC. 10. Section 19551 of the Revenue and Taxation Code is amended to read:

19551. (a) The Franchise Tax Board may permit the Commissioner of Internal Revenue of the United States, other tax officials of this state, the Multistate Tax Commission, the proper

officer of any state imposing an income tax or a tax measured by income or the authorized representative of that officer, or the tax officials of Mexico, if a reciprocal agreement exists, to inspect the income tax returns of any taxpayer, or may furnish to the commission, or the officer or the authorized representative thereof an abstract of the return or supply thereto information concerning any item of income contained in any return or disclosed by the report of any investigation of the income or return. The information shall be furnished to the Multistate Tax Commission, the federal or state officer or his or her representative, or the officials of Mexico for tax purposes only. Except when furnished pursuant to a written agreement, information furnished pursuant to this section shall be furnished only if the request is in the form of an affidavit under penalty of perjury stating that the purpose for the request relates to an investigation of the tax specified in the request and that the information will be used in the ordinary performance of the applicant's official duties.

(b) Notwithstanding subdivision (a), tax officials of political subdivisions of this state shall request information from the Franchise Tax Board by affidavit only. At the time a tax official makes the request, he or she shall provide the affected person with a copy of the affidavit and, upon request, make the information obtained available to that person.

(c) For purposes of this section, "reciprocal agreement" means a formal agreement to exchange information between national taxing officials of Mexico and taxing authorities of the State Board of Equalization, the Franchise Tax Board, and the Employment Development Department. Furthermore, the reciprocal agreement shall be limited to the exchange of information which is essential for tax administration purposes only. Taxing authorities of the State of California shall be granted tax information only on California residents. Taxing authorities of Mexico shall be granted tax information only on Mexican nationals.

SEC. 14. Section 23666 of the Revenue and Taxation Code is amended to read:

23666. (a) For each income year beginning on or after January 1, 1995, and before January 1, 2000, there shall be allowed, as determined by the Department of Fish and Game, a credit against the "tax," as defined in Section 23036. The credit amount shall be equal to the lesser of 10 percent of the qualified costs paid or incurred by the taxpayer for salmon and steelhead trout habitat restoration and improvement projects or an amount determined in

subparagraph (B) of paragraph (2) of subdivision (f). The credit allowed by this section shall be claimed on the return for the income year in which the expense for the habitat restoration or improvement project was paid or incurred.

(b) A taxpayer shall be eligible to claim the credit only after application to and certification by the Department of Fish and Game that all of the following conditions are met:

(1) The salmon or steelhead trout habitat restoration or improvement project meets the objectives of the Salmon, Steelhead Trout, and Anadromous Fisheries Program Act (Chapter 8 (commencing with Section 6900) of Part 1 of Division 6 of the Fish and Game Code) and would aid in increasing the natural production of salmon and steelhead trout through improvement of stream and streambank conditions, improvement of land use practices, or changes in streamflow operations.

(2) The work to be undertaken is not otherwise required to be carried out pursuant to the Z'berg-Nejedly Forest Practice Act of 1973 (Chapter 8 (commencing with Section 4511) of Part 2 of Division 4 of the Public Resources Code), for mitigation of negative impacts to the environment caused by timber operations or required for mitigation of negative impacts on fish and wildlife habitat caused by a project pursuant to an approved environmental impact report or mitigated negative declaration required pursuant to the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(c) (1) Qualified costs are those costs paid or incurred by the taxpayer which are directly related to labor and materials which aid in increasing the natural production of salmon and steelhead trout through improvement of stream and streambank conditions, improvement of land use practices, or changes in streamflow operations.

(2) Qualified costs do not include costs paid or incurred with respect to any of the following:

(A) Construction of office, storage, garage, or maintenance buildings.

(B) Drilling wells or installation of pumping equipment.

(C) Construction of permanent hatchery facilities, including raceways, water systems, or bird enclosures.

(D) Construction of permanent surface roadways or bridges.

(E) Any project requiring engineered design or certification by a registered engineer.

(3) Qualified costs shall be no greater than prevailing costs for similar work completed in the area where the project is proposed, and the project design and implementation shall follow the Department of Fish and Game guidelines.

(d) For purposes of computing the credit provided by this section, the cost of any salmon or steelhead trout habitat restoration or improvement project eligible for the credit shall be reduced by the

amount of any grant or cost-share payment provided by a public entity for that project. The Department of Fish and Game shall certify the amount of funding, if any, provided by the Department of Fish and Game for the project.

(e) The taxpayer shall do all of the following:

(1) (A) Submit an application for the restoration tax credit with a description of the proposed project in a format acceptable to the Department of Fish and Game.

(B) The application for the restoration tax credit shall include all information that is required by the Department of Fish and Game, pursuant to subdivision (b), as well as, but not limited to, all of the following:

(i) A project description of the habitat restoration or improvement work to be accomplished, including the location of the project.

(ii) If other than the project applicant, the name of the owner of the land where the project is to be carried out.

(iii) The estimated qualified cost to accomplish the project, as well as the project's overall estimated cost.

(iv) A statement that a reasonable attempt will be made to hire unemployed persons previously employed in the commercial fishing or forest products industries for implementation of the project.

The tax identification number of each taxpayer allowed the credit.

(2) Obtain from the Department of Fish and Game certification that the project is approved, and the amount of credit allocation authorized, which shall not exceed the maximum amount of credit allocation set forth in subdivision (k).

(3) Notify the Department of Fish and Game in a form and manner specified by the department that the habitat restoration or improvement work was actually completed and the amount of qualified costs that were paid.

(4) Provide access, subject to prior notification by the Department of Fish and Game staff and permission by the taxpayer, to proposed project sites by the Department of Fish and Game staff for preproject and postproject evaluation, for project monitoring during all phases of implementation, and for verification that projects have been completed in accordance with department guidelines and recommendations. The Department of Fish and Game shall not include a project on its list of approved projects eligible for the tax credit that is submitted to the Franchise Tax Board unless these conditions are met.

(5) Retain a copy of and make the certification referred to in paragraph (3) of subdivision (f) available to the Franchise Tax Board upon demand.

(6) Calculate the credit amount, equal to the lesser of 10 percent of the taxpayer's actual qualified costs or the amount of credit allocation authorized to the taxpayer, as determined by the Department of Fish and Game.

(f) The Department of Fish and Game shall do all of the following:

(1) Accept and review applications to determine if projects meet the conditions specified in subdivision (b).

(2) After all applications have been received for a calendar year, determine if 10 percent of the estimated costs for all approved projects exceeds the annual credit allocation. If the annual amount of credit allocation is exceeded, the amount of each taxpayer's credit allocation shall be calculated as follows:

(A) Divide the annual amount of credit allocation set forth in subdivision (j) by the total estimated qualified costs for all approved projects.

(B) Multiply each approved project's estimated qualified cost by the quotient of the calculation in subparagraph (A).

(C) If the annual amount of credit allocation is not exceeded, the amount of each credit allocation shall be 10 percent of the estimated qualified costs.

(3) Issue certificates to each taxpayer with an approved project that specifies the amount of credit allocated to the project.

(4) Provide an annual listing to the Franchise Tax Board (preferably on magnetic tape or other machine-readable form, and in a form and manner agreed upon by the Franchise Tax Board and the Department of Fish and Game) of the taxpayers who were issued the certification, their respective tax identification numbers, and the allowable amount of the credit allocated to each taxpayer.

(g) The Department of Fish and Game shall have the authority to establish annual timeframes for the receipt of applications.

(h) The taxpayers' identification numbers obtained through the tax credit application and certification process shall be used exclusively for state tax administrative purposes.

(i) In the case where the credit allowed by this section exceeds the "tax," the excess may be carried over to reduce the "tax" in the following year, and succeeding years if necessary, until the credit has been exhausted.

(j) For purposes of this section, the annual amount of credit allocation means the aggregate amount of tax credits which may be granted pursuant to this section and Section 17053.66 shall not exceed five hundred thousand dollars ($500,000) per year. The Department of Fish and Game shall not authorize any credit which would cause the total amount of credits authorized with respect to any calendar year under this section and Section 17053.66 to exceed five hundred thousand dollars ($500,000).

(k) The maximum credit amount which the Department of Fish and Game may authorize with respect to any income year to any taxpayer is fifty thousand dollars ($50,000).

(*l*) In the case of a partnership, the credit limitation specified in subdivision (k) shall apply with respect to the partnership and with respect to each partner.

(m) This section shall remain in effect only until December 1, 2000, and as of that date is repealed.

CHAPTER 52

An act to add Section 20324 to the Public Contract Code, relating to the Sacramento Regional Transit District.

[Approved by Governor May 28, 1998. Filed with Secretary of State May 29, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 20324 is added to the Public Contract Code, to read:

20324. Notwithstanding Section 20321, the Board of Directors of the Sacramento Regional Transit District may construct all or any part of the Folsom Corridor Light Rail Extension and Double Tracking Project using a design and construct approach. If the board elects to design and construct the project, it shall comply with all of the following procedures:

(a) A request for qualifications shall be prepared and submitted to an adequate number of sources, as determined by the district, to permit reasonable competition consistent with the nature and requirements of that portion of the extension the district elects to design and construct. In addition, notice of the request for qualifications shall be published at least once in a newspaper of general circulation, at least 10 days before the last date on which responses to the request for qualifications may be received. The request for qualifications shall identify the minimum standards that the district has determined shall be met or exceeded by a contractor to successfully design and construct the project described in this section. Those standards may include, but are not limited to, technical experience and capability, financial condition and capacity, organization, and personnel.

(b) All respondents determined by the district to meet or exceed the minimum standards set forth in the request for qualifications shall be considered prequalified. The district may repeat the prequalification process described in subdivision (a). If the district has prequalified at least three respondents, it may invite those prequalified to submit sealed bids for the project based upon plans and specifications previously prepared by the district. Only those who have been prequalified are eligible for award of a contract. Award shall be made to the prequalified bidder submitting the lowest responsible bid.

(c) The board may reject any and all bids and request new bids.

(d) The board shall not give any special preference in the design and construct bidding process authorized by this section to any contractor or consortium of contractors that worked on the initial designs of the Folsom Corridor Light Rail Extension and Double Tracking Project.

SEC. 2. The Legislature finds and declares that a general statute, within the meaning of Section 16 of Article IV of the California Constitution, cannot be made applicable to the Sacramento Regional Transit District, as set forth in Section 1 of this act, and therefore, this act is necessary.

CHAPTER 53

An act to amend Sections 14524, 14525, 14526, 14529, 14529.8, 14530.1, 65082, and 65086.5 of, and to repeal Section 14550 and Article 2 (commencing with Section 14555.1) of Chapter 4 of Division 3 of Title 2 of, the Government Code, to amend Section 99317 of the Public Utilities Code, and to amend Sections 188.5 and 188.10 of, and to repeal Section 164.1 of, the Streets and Highways Code, relating to transportation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 1, 1998. Filed with Secretary of State June 1, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 14524 of the Government Code is amended to read:

14524. (a) Not later than January 5, 1998, and July 15 of each odd-numbered year thereafter, the department shall submit to the commission a four-year estimate pursuant to Section 164 of the Streets and Highways Code, in annual increments, of all federal and state funds reasonably expected to be available during the following four fiscal years.

(b) The estimate shall specify the amount that may be programmed in each county for regional improvement programs pursuant to paragraph (2) of subdivision (a) of Section 164 of the Streets and Highways Code and shall identify any statutory restriction on the use of particular funds.

(c) For the purpose of estimating revenues, the department shall assume that there will be no changes in existing state and federal statutes. Federal funds that are only available to local government for demonstration projects shall not be included in the revenue estimate. Federal funds for demonstration projects available to the state, or to the state and local governments, shall be included in the revenue estimate.

(d) The method by which the estimate is determined shall be determined by the commission, in consultation with the department, transportation planning agencies, and county transportation commissions.

SEC. 2. Section 14525 of the Government Code is amended to read:

14525. (a) Not later than January 5, 1998, and August 15 of each odd-numbered year thereafter, the commission shall adopt a four-year estimate pursuant to Section 164 of the Streets and Highways Code, in annual increments, of all state and federal funds reasonably expected to be available during the following four fiscal years.

(b) The estimate shall specify the amount that may be programmed in each county for regional improvement programs under paragraph (2) of subdivision (a) of Section 164 of the Streets and Highways Code and shall identify any statutory restriction on the use of particular funds.

(c) For the purpose of estimating revenues, the commission shall assume that there will be no change in existing state and federal statutes. Federal funds that are only available to local government for demonstration projects shall not be included in the revenue estimate. Federal funds for demonstration projects available to the state, or to the state and local governments, shall be included in the revenue estimate.

(d) If the commission finds that legislation pending before the Legislature or the United States Congress may have a significant impact on the fund estimate, the commission may postpone the adoption of the fund estimate for no more than 90 days. Prior to March 1 of each even-numbered year, the commission may amend the estimate following consultation with the department, transportation planning agencies, and county transportation commissions to account for unexpected revenues or other unforeseen circumstances. In the event the fund estimate is amended, the commission shall extend the dates for the submittal of improvement programs as specified in Sections 14526 and 14527 and for the adoption of the state transportation improvement program pursuant to Section 14529.

SEC. 3. Section 14526 of the Government Code is amended to read:

14526. (a) Not later than March 1, 1998, and December 15 of each odd-numbered year thereafter, and after consulting with the transportation planning agencies, county transportation commissions, and transportation authorities, the department shall submit to the commission its interregional transportation improvement program consisting of all of the following:

(1) Projects to improve state highways, pursuant to subdivision (b) of Section 164 of the Streets and Highways Code.

(2) Projects to improve the intercity passenger rail system.

(3) Projects to improve interregional movement of people, vehicles, and goods.

(b) Projects may not be included in the interregional transportation improvement program without a project study report or major investment study.

(c) Major projects shall include current costs updated as of November 1 of the year of submittal and escalated to the appropriate year, and shall be consistent with, and provide the information required in, subdivision (b) of Section 14529.

(d) Projects included in the interregional transportation improvement program shall be consistent with the adopted regional transportation plan.

SEC. 4. Section 14529 of the Government Code is amended to read:

14529. (a) The state transportation improvement program shall include a listing of all capital improvement projects that are expected to receive an allocation of state transportation funds under Section 164 of the Streets and Highways Code, including revenues from transportation bond acts, from the commission during the following four fiscal years. It shall include, and be limited to, the projects to be funded with the following:

(1) Interregional improvement funds.

(2) Regional improvement funds.

(b) For each project, the program shall specify the allocation or expenditure amount and the allocation or expenditure year for each of the following project components:

(1) Completion of all permits and environmental studies.

(2) Preparation of plans, specifications, and estimates.

(3) The acquisition of rights-of-way, including, but not limited to, support activities.

(4) Construction and construction management and engineering, including surveys and inspection.

(c) Funding for right-of-way acquisition and construction for a project may be included in the program only if the commission makes a finding that the sponsoring agency will complete the environmental process and can proceed with right-of-way acquisition or construction within the four-year period. No allocation for right-of-way acquisition or construction shall be made until the completion of the environmental studies and the selection of a preferred alternative.

(d) The commission shall adopt and submit to the Legislature and the Governor, not later than June 1, 1998, and April 1 of each even-numbered year thereafter, a state transportation improvement program. The program shall cover a period of four years, beginning July 1 of the year it is adopted, and shall be a statement of intent by the commission for the allocation or expenditure of funds during those four years. The program shall include projects which are expected to receive funds prior to July 1 of the year of adoption, but for which the commission has not yet allocated funds.

(e) The projects included in the adopted state transportation improvement program shall be limited to those projects submitted or recommended pursuant to Sections 14526 and 14527. The total amount programmed in each fiscal year for each program category shall not exceed the amount specified in the fund estimate adopted under Section 14525.

(f) The state transportation improvement program is a resource management document to assist the state and local entities to plan and implement transportation improvements and to utilize available resources in a cost-effective manner. It is a document for each county and each region to declare their intent to use available state and federal funds in a timely and cost-effective manner.

(g) Prior to the adoption of the state transportation improvement program, the commission shall hold not less than one hearing in northern California and one hearing in southern California to reconcile any objections by any county or regional agency to the department's program or the department's objections to any regional program.

(h) The commission shall incorporate projects that are included in the regional transportation improvement program and are to be funded with regional improvement funds, unless the commission finds that the regional transportation improvement program is not consistent with the guidelines adopted by the commission or is not a cost-effective expenditure of state funds, in which case the commission may reject the regional transportation improvement program in its entirety. The finding shall be based on an objective analysis, including, but not limited to, travel forecast, cost, and air quality. The commission shall hold a public hearing in the affected county or region prior to rejecting the program, or not later than 60 days after rejecting the program. When a regional transportation improvement program is rejected, the regional entity may submit a new regional transportation improvement program for inclusion in the state transportation improvement program. The commission shall not reject a regional transportation improvement program unless, not later than 60 days after the date it received the program, it provided notice to the affected agency that specified the factual basis for its proposed action.

(i) A project may be funded with more than one of the program categories listed in Section 164 of the Streets and Highways Code.

(j) Notwithstanding any other provision of law, no local or regional matching funds shall be required for projects that are included in the state transportation improvement program.

(k) The commission may include a project recommended by a regional transportation planning agency or county transportation commission pursuant to subdivision (c) of Section 14527, if the commission makes a finding, based on an objective analysis, that the recommended project is more cost-effective than a project submitted by the department pursuant to Section 14526.

SEC. 5. Section 14529.8 of the Government Code is amended to read:

14529.8. (a) Funds may be allocated by the commission for each project element during the fiscal year that is identified in the state transportation improvement program and the funds shall be available for expenditure during that fiscal year and the following two fiscal years. Any funds not allocated, or allocated but not encumbered, during the period specified in this section, shall remain in the State Highway Account or Public Transportation Account, or be returned to that particular account, as the case may be.

(b) Upon a finding that an unforeseen and extraordinary circumstance beyond the control of the responsible agency has occurred that justifies an extension, the commission may extend the deadlines specified in subdivision (a). The deadline extensions shall not exceed the period of delay directly attributed to the extraordinary circumstance and in no event be more than 20 months. The commission shall not grant more than one extension.

SEC. 6. Section 14530.1 of the Government Code is amended to read:

14530.1. (a) The department, in cooperation with the commission, transportation planning agencies, and county transportation commissions and local governments, shall develop guidelines for the development of the state transportation improvement program and the incorporation of projects into the state transportation improvement program.

(b) The guidelines shall include, but not be limited to, all of the following:

(1) Standards for project deliverability.

(2) Standards for identifying projects and project components.

(3) Standards for cost estimating.

(4) Programming methods for increases and schedule changes.

(5) Objective criteria for measuring system performance and cost-effectiveness of candidate projects.

(c) The guidelines shall be submitted to the commission by February 1, 1999. After conducting at least one hearing in northern California and one in southern California, the commission shall adopt the guidelines by May 1, 1999.

(d) The guidelines shall be the complete and full statement of the policy, standards, and criteria that the commission intends to use in selecting projects to be included in the state transportation improvement program.

(e) The commission may amend the adopted guidelines after conducting at least one public hearing. The commission shall make a reasonable effort to adopt the amended guidelines prior to its adoption of the fund estimate pursuant to Section 14525. In no event shall the adopted guidelines be amended, or otherwise revised, modified, or altered during the period commencing 30 days after the adoption of the fund estimate pursuant to Section 14525 and before

the adoption of the state transportation improvement program pursuant to Section 14529.

SEC. 7. Section 14550 of the Government Code is repealed.

SEC. 8. Article 2 (commencing with Section 14555.1) of Chapter 4 of Division 3 of Title 2 of the Government Code is repealed.

SEC. 9. Section 65082 of the Government Code is amended to read:

65082. (a) (1) A four-year regional transportation improvement program shall be prepared, adopted, and submitted to the California Transportation Commission on or before January 5, 1998, and December 15 of each odd-numbered year thereafter, updated every two years, pursuant to Sections 65080 and 65080.5 and the guidelines adopted pursuant to Section 14530.1, to include regional transportation improvement projects and programs proposed to be funded, in whole or in part, in the state transportation improvement program.

(2) Major projects shall include current costs updated as of November 1 of the year of submittal and escalated to the appropriate year, and be listed by relative priority, taking into account need, delivery milestone dates, as defined in Section 14525.5, and the availability of funding.

(b) Except for those counties that do not prepare a congestion management program pursuant to Section 65088.3, congestion management programs adopted pursuant to Section 65089 shall be incorporated into the regional transportation improvement program submitted to the commission by December 15 of each odd-numbered year.

(c) Local projects not included in a congestion management program shall not be included in the regional transportation improvement program. Projects and programs adopted pursuant to subdivision (a) shall be consistent with the capital improvement program adopted pursuant to paragraph (5) of subdivision (b) of Section 65089, and the guidelines adopted pursuant to Section 14530.1.

(d) Other projects may be included in the regional transportation improvement program if listed separately.

(e) Unless a county not containing urbanized areas of over 50,000 population notifies the Department of Transportation by July 1 that it intends to prepare a regional transportation improvement program for that county, the department shall, in consultation with the affected local agencies, prepare the program for all counties for which it prepares a regional transportation plan.

(f) The requirements for incorporating a congestion management program into a regional transportation improvement program specified in this section do not apply in those counties that do not prepare a congestion management program in accordance with Section 65088.3.

(g) The regional transportation improvement program may include a reserve of county shares for providing funds in order to match federal funds.

SEC. 10. Section 65086.5 of the Government Code is amended to read:

65086.5. (a) To the extent that the work does not jeopardize the delivery of the projects in the adopted state transportation improvement program, the Department of Transportation may prepare a project studies report for capacity-increasing state highway projects that are not included in the state transportation improvement program. The project studies report shall include the project-related factors of limits, description, scope, costs, and the amount of time needed for initiating construction.

(b) Whenever project studies reports are performed by an entity other than the Department of Transportation, the department shall review and approve the report.

(c) The Department of Transportation may be requested to prepare a project studies report for a capacity-increasing state highway project which is being proposed for inclusion in a future state transportation improvement program. The department shall have 30 days to determine whether it can complete the requested report in a timely fashion. If the department determines that it cannot complete the report in a timely fashion, the requesting entity may prepare the report. Upon submission of a project studies report to the department by the entity, the department shall complete its review and provide its comments to that entity within 60 days from the date of submission. The department shall complete its review and final determination of a report which has been revised to address the department's comments within 30 days following submission of the revised report.

(d) The Department of Transportation, in consultation with representatives of cities, counties, and regional transportation planning agencies, shall prepare draft guidelines for the preparation of project studies reports by all entities. The guidelines shall address the development of reliable cost estimates. The department shall submit the draft guidelines to the California Transportation Commission not later than July 1, 1991. The commission shall adopt the final guidelines not later than October 1, 1991. Guidelines adopted by the commission shall apply only to project studies reports commenced after October 1, 1991.

SEC. 11. Section 99317 of the Public Utilities Code is amended to read:

99317. (a) Funds made available pursuant to subdivision (b) of Section 99315 shall be appropriated to the department for allocation, as directed by the commission, to fund public transit capital improvement projects that maintain or improve public transit service.

(b) Funds made available for capital outlay pursuant to subdivision (a) of Section 14031.6 of the Government Code and subdivision (a) of Section 99315 shall be appropriated to the department, as directed by the commission, solely for capital outlay improvements and rolling stock on intercity rail passenger routes.

(c) The Legislature may amend this section, by statute passed in each house of the Legislature by rollcall vote entered in the journal, two-thirds of the membership concurring, if the statute is consistent with, and furthers the purposes of, this section.

SEC. 12. Section 164.1 of the Streets and Highways Code is repealed.

SEC. 13. Section 188.5 of the Streets and Highways Code is amended to read:

188.5. (a) The Legislature finds and declares all of the following:

(1) The department has determined that in order to provide maximum safety for the traveling public and to ensure continuous and unimpeded operation of the state's transportation network, six state-owned toll bridges are in need of a seismic safety retrofit, and one state-owned toll bridge is in need of a partial retrofit and a partial replacement.

(2) The bridges identified by the department as needing seismic retrofit are the Benicia-Martinez Bridge, the Carquinez Bridge, the Richmond-San Rafael Bridge, the San Mateo-Hayward Bridge, the San Pedro-Terminal Island Bridge (also known as the Vincent Thomas Bridge), the San Diego-Coronado Bridge, and the west span of the San Francisco-Oakland Bay Bridge. The department has also identified the east span of the San Francisco-Oakland Bay Bridge as needing to be replaced. That replacement span will be safer, stronger, longer lasting, and more cost efficient to maintain than completing a seismic retrofit for the current east span.

(3) The south span of the Carquinez Bridge is to be replaced pursuant to Regional Measure 1, as described in subdivision (b) of Section 30917.

(4) The cost estimate to retrofit the state-owned toll bridges and to replace the east span of the San Francisco-Oakland Bay Bridge is two billion six hundred twenty million dollars ($2,620,000,000), eighty million dollars ($80,000,000) of which is for cable suspension pursuant to paragraph (1) of subdivision (b) of Section 31000, as follows:

(A) The Benicia-Martinez Bridge retrofit is one hundred one million dollars ($101,000,000).

(B) The north span of the Carquinez retrofit is eighty-three million dollars ($83,000,000).

(C) The Richmond-San Rafael Bridge retrofit is three hundred twenty-nine million dollars ($329,000,000).

(D) The San Mateo-Hayward Bridge retrofit is one hundred twenty-seven million dollars ($127,000,000).

(E) The San Pedro-Terminal Island Bridge retrofit is forty-five million dollars ($45,000,000).

(F) The San Diego-Coronado Bridge retrofit is ninety-five million dollars ($95,000,000).

(G) The west span of the San Francisco-Oakland Bay Bridge retrofit, as a lifeline bridge, is five hundred fifty-three million dollars ($553,000,000).

(H) Replacement of the east span of the San Francisco-Oakland Bay Bridge is one billion two hundred eighty-five million dollars ($1,285,000,000), which includes eighty million dollars ($80,000,000) for cable suspension.

(b) It is the intent of the Legislature that the following amounts from the following funds shall be allocated through the 2004-05 fiscal year, for the seismic retrofit or replacement of state-owned toll bridges:

(1) Six hundred fifty million dollars ($650,000,000) from the 1996 Seismic Retrofit Account in the Seismic Retrofit Bond Fund of 1996 for the seven state-owned toll bridges identified by the department as requiring seismic safety retrofit or replacement.

(2) One hundred forty million dollars ($140,000,000) in surplus revenues generated under the Seismic Retrofit Bond Act of 1996 that are in excess of the amount actually necessary to complete Phase Two of the state's seismic retrofit program. These excess funds shall be reallocated to assist in financing seismic retrofit of the state-owned toll bridges.

(3) Fifteen million dollars ($15,000,000) from the Vincent Thomas Toll Bridge Revenue Account.

(4) Eight hundred twenty-seven million dollars ($827,000,000) from the seismic retrofit surcharge imposed pursuant to Section 31010.

(5) Thirty-three million dollars ($33,000,000) from the San Diego-Coronado Toll Bridge Revenue Fund.

(6) Not less than seven hundred forty-five million dollars ($745,000,000) from the State Highway Account to be used toward the eight hundred seventy-five million dollars ($875,000,000) state contribution, to be achieved as follows:

(A) (i) Two hundred million dollars ($200,000,000) to be appropriated for the state-local transportation partnership program described in paragraph (7) of subdivision (d) of Section 164 for the 1998–99 fiscal year.

(ii) The remaining funds intended for that program and any program savings to be made available for toll bridge seismic retrofit.

(B) A reduction of not more than seventy-five million dollars ($75,000,000) in the funding level specified in paragraph (4) of subdivision (d) of Section 164 for traffic system management.

(C) Three hundred million dollars ($300,000,000) in accumulated savings by the department achieved from better efficiency and lower costs.

(7) Not more than one hundred thirty million dollars ($130,000,000) from the Transit Capital Improvement Program

funded by the Transportation Planning and Development Account in the State Transportation Fund to be used toward the eight hundred seventy-five million dollars ($875,000,000) state contribution. If the contribution in subparagraph (A) of paragraph (6) exceeds three hundred seventy million dollars ($370,000,000), it is the intent that the amount from the Transit Capital Improvement Program shall be reduced by an amount that is equal to that excess.

(8) The estimated cost of replacing the San Francisco-Oakland Bay Bridge listed in subparagraph (H) of paragraph (4) of subdivision (a) is based on the following assumptions:

(A) The new bridge will be located north adjacent to the existing bridge.

(B) The main span of the bridge will be in the form of a single tower cable suspension design.

Statistics based on the latest medical information shall be provided to pupils citing the failure and success rates of condoms and other contraceptives in preventing pregnancy.

(3) Course material and instruction shall stress that sexually transmitted diseases are serious possible hazards of sexual intercourse. Pupils shall be provided with statistics based on the latest medical information citing the failure and success rates of condoms in preventing AIDS and other sexually transmitted diseases.

(f) Any blood tested pursuant to subdivision (a) shall be subjected to appropriate confirmatory tests to ensure accuracy of the first test results, and under no circumstances shall test results be transmitted to the victim or the person who is tested unless any initially reactive test result has been confirmed by appropriate confirmatory tests for positive reactors.

(g) The local health officer shall be responsible for disclosing test results to the victim who requested the test and the person who was

tested. However, positive test results shall not be disclosed to the victim or the person who was tested without offering or providing professional counseling appropriate to the circumstances.

(h) The local health officer and the victim shall comply with all laws and policies relating to medical confidentiality, subject to the disclosure authorized by subdivisions (g) and (i).

(i) Any victim who receives information from the local health officer pursuant to subdivision (g) may disclose the information as he or she deems necessary to protect his or her health and safety or the health and safety of his or her family or sexual partner.

CHAPTER 58

An act to amend Section 1797.98a of, and to amend the heading of Chapter 2.5 (commencing with Section 1797.98a) of Division 2.5 of, the Health and Safety Code, relating to emergency medical services.

[Approved by Governor June 4, 1998. Filed with Secretary of State June 5, 1998.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares that in 1987 the State of California faced a crisis in emergency medical services, as trauma centers and emergency rooms were threatened with closure due to high volumes of nonpaying patients. In response to this crisis, Senator Ken Maddy introduced Senate Bill No. 12 (hereafter SB 12) to establish a new fund, The Emergency Medical Services

(EMS) Fund, based on revenues from penalty assessments, to partially cover the costs incurred for nonpaying patients by emergency physicians, on-call physicians, hospitals, trauma centers, and county emergency medical services systems. Under Senator Maddy's leadership, SB 12 moved through the legislative process and was signed into law.

(b) After enactment, SB 12 and the creation of the EMS Fund was widely recognized as a successful approach for dealing with the crisis in emergency medical services, and in 1988 the Legislature doubled the amount of revenues deposited into the EMS Fund.

(c) After the adoption of Proposition 99, the Tobacco Tax Initiative, the success of the EMS Fund was again recognized by the Legislature, which adopted the EMS Fund as a mechanism for disbursing tobacco tax revenues to physicians for nonpaying patients.

(d) Senator Ken Maddy again demonstrated leadership in furthering emergency medical care by authoring successful legislation, Senate Bill No. 2098 in 1990, and Senate Bill No. 946 in 1991, to further refine the administration of the EMS Fund in California and to make certain the moneys collected were disbursed appropriately. Over the 10 year period the EMS Fund has been in operation, Senator Ken Maddy has vigorously protected its existence, in order that emergency patients may continue to be well served in California's hospitals.

(e) Additionally, Senator Ken Maddy has been a recognized leader in other emergency medical services legislation. He was the author of the legislation establishing the emergency medical services patient transfer mechanisms, also contained in SB 12 of 1987, and he was the author of Senate Bill No. 534 in 1983, which authorized and governed the establishment of trauma centers in California.

(f) It is therefore appropriate, in recognition of Senator Ken Maddy and his efforts in authoring the original legislation to create the EMS Fund and in enhancing the fund's effectiveness during its 10 years of existence, that the EMS Fund be renamed the Maddy Emergency Medical Services Fund.

SEC. 2. The heading of Chapter 2.5 (commencing with Section 1797.98a) of Division 2.5 of the Health and Safety Code is amended to read:

CHAPTER 2.5. THE MADDY EMERGENCY MEDICAL SERVICES FUND

SEC. 3. Section 1797.98a of the Health and Safety Code is amended to read:

1797.98a. (a) The fund provided for in this chapter shall be known as the Maddy Emergency Medical Services (EMS) Fund.

(b) Each county may establish an emergency medical services fund, upon adoption of a resolution by the board of supervisors. The money in the fund shall be available for the reimbursements required by this chapter. The fund shall be administered by each county, except that a county electing to have the state administer its

medically indigent services program may also elect to have its emergency medical services fund administered by the state. Costs of administering the fund shall be reimbursed by the fund, up to 10 percent of the amount of the fund. All interest earned on moneys in the fund shall be deposited in the fund for disbursement as specified in this section. The fund shall be utilized to reimburse physicians and surgeons and hospitals for patients who do not make payment for emergency medical services and for other emergency medical services purposes as determined by each county. Fifty-eight percent of the balance of the money in the fund after costs of administration shall be distributed to physicians and surgeons for emergency services provided by all physicians and surgeons, except those physicians and surgeons employed by county hospitals, in general acute care hospitals that provide basic or comprehensive emergency services up to the time the patient is stabilized, 25 percent of the balance of the fund after costs of administration shall be distributed only to hospitals providing disproportionate trauma and emergency medical care services, and 17 percent of the balance of the fund after costs of administration shall be distributed for other emergency medical services purposes as determined by each county, including, but not limited to, the funding of regional poison control centers.

(c) The source of the money in the fund shall be the penalty assessment made for this purpose, as provided in Section 76000 of the Government Code.

CHAPTER 59

An act to amend Sections 27, 101, 112, 130, 149, 6710, 6732, 6787, 8706, and 8710 of, and to add Sections 6706.3, 6732.3, and 6732.4 to, the Business and Professions Code, to amend Section 26509 of the Government Code, and to amend Section 25208.9 of the Health and Safety Code, relating to professional engineers.

[Approved by Governor June 4, 1998. Filed with Secretary of State June 5, 1998.]

SECTION 1. Section 51745.6 of the Education Code is amended to read:

51745.6. (a) The ratio of average daily attendance for independent study pupils 18 years of age or less to school district full-time equivalent certificated employees responsible for independent study, calculated as specified by the State Department of Education, shall not exceed the equivalent ratio of pupils to full-time certificated employees for all other education programs operated by the school district. The ratio of average daily attendance for independent study pupils 18 years of age or less to county office of education full-time equivalent certificated employees responsible for independent study, to be calculated in a manner prescribed by the State Department of Education, shall not exceed the equivalent ratio of pupils to full-time certificated employees for all other educational programs operated by the high school or unified school district with the largest average daily attendance of pupils in that

county. The computation of those ratios shall be performed annually by the reporting agency at the time of, and in connection with, the second principal apportionment report to the Superintendent of Public Instruction.

(b) Only those units of average daily attendance for independent study that reflect a pupil-teacher ratio that does not exceed the ratio described in subdivision (a) shall be eligible for apportionment pursuant to Section 42238.5, for school districts, and Section 2558, for county offices of education. Nothing in this section shall prevent a school district or county office of education from serving additional units of average daily attendance greater than the ratio described in subdivision (a), except that those additional units shall not be funded pursuant to Section 42238.5 or Section 2558.

(c) The calculations performed for purposes of this section shall not include either of the following:

(1) The average daily attendance generated by special education pupils enrolled in special day classes on a full-time basis, or the teachers of those classes.

(2) The average daily attendance or teachers in necessary small schools that are eligible to receive funding pursuant to Article 4 (commencing with Section 42280) of Chapter 7 of Part 24.

(d) The pupil-teacher ratio described in subdivision (a) in a unified school district participating in the class size reduction program pursuant to Chapter 6.10 (commencing with Section 52120) may, at the school district's option, be calculated separately for kindergarten and grades 1 to 6, inclusive, and for grades 7 to 12, inclusive.

CHAPTER 61

An act to amend Sections 1048.1 and 1050 of the Penal Code, relating to criminal procedure.

[Approved by Governor June 4, 1998. Filed with Secretary of State June 5, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1048.1 of the Penal Code is amended to read:

1048.1. In scheduling a trial date at an arraignment in superior court involving murder, as defined in subdivision (a) of Section 187, an alleged sexual assault offense, as described in subdivisions (a) and (b) of Section 11165.1, or an alleged child abuse offense, as described in Section 11165.6, reasonable efforts shall be made to avoid setting that trial, as assigned to a particular prosecuting attorney, on the same day that another trial is set involving the same prosecuting attorney.

SEC. 2. Section 1050 of the Penal Code is amended to read:

1050. (a) The welfare of the people of the State of California requires that all proceedings in criminal cases shall be set for trial and heard and determined at the earliest possible time. To this end the Legislature finds that the criminal courts are becoming increasingly congested with resulting adverse consequences to the welfare of the people and the defendant. Excessive continuances contribute substantially to this congestion and cause substantial hardship to victims and other witnesses. Continuances also lead to longer periods of presentence confinement for those defendants in custody and the concomitant overcrowding and increased expenses of local jails. It is therefore recognized that the people, the defendant, and the victims and other witnesses have the right to an expeditious disposition, and to that end it shall be the duty of all courts and judicial officers and of all counsel, both for the prosecution and the defense, to expedite these proceedings to the greatest degree that is consistent with the ends of justice. In accordance with this policy, criminal cases shall be given precedence over, and set for trial and heard without regard to the pendency of, any civil matters or proceedings.

(b) To continue any hearing in a criminal proceeding, including the trial, (1) a written notice shall be filed and served on all parties to the proceeding at least two court days before the hearing sought to be continued, together with affidavits or declarations detailing specific facts showing that a continuance is necessary; and (2), within two court days of learning that he or she has a conflict in the scheduling of any court hearing, including a trial, an attorney shall notify the calendar clerk of each court involved, in writing, indicating which hearing was set first. A party shall not be deemed to have been served within the meaning of this section until that party actually has received a copy of the documents to be served, unless the party, after receiving actual notice of the request for continuance, waives the right to have the documents served in a timely manner. Regardless of the proponent of the motion, the prosecuting attorney shall notify the people's witnesses and the defense attorney shall notify the defense's witnesses of the notice of motion, the date of the hearing, and the witnesses' right to be heard by the court. The superior and municipal courts of a county may adopt rules, which shall be consistent, regarding the method of giving the notice or waiver of service required by this subdivision, where a continuance is sought because of a conflict between scheduled appearances in the courts of that county.

(c) Notwithstanding subdivision (b), a party may make a motion for a continuance without complying with the requirements of that subdivision. However, unless the moving party shows good cause for the failure to comply with those requirements, the court may impose sanctions as provided in Section 1050.5.

(d) When a party makes a motion for a continuance without complying with the requirements of subdivision (b), the court shall

hold a hearing on whether there is good cause for the failure to comply with those requirements. At the conclusion of the hearing the court shall make a finding whether good cause has been shown and, if it finds that there is good cause, shall state on the record the facts proved that justify its finding. A statement of the finding and a statement of facts proved shall be entered in the minutes. If the moving party is unable to show good cause for the failure to give notice, the motion for continuance shall not be granted.

(e) Continuances shall be granted only upon a showing of good cause. Neither the convenience of the parties nor a stipulation of the parties is in and of itself good cause.

(f) At the conclusion of the motion for continuance, the court shall make a finding whether good cause has been shown and, if it finds that there is good cause, shall state on the record the facts proved that justify its finding. A statement of facts proved shall be entered in the minutes.

(g) When deciding whether or not good cause for a continuance has been shown, the court shall consider the general convenience and prior commitments of all witnesses, including peace officers. Both the general convenience and prior commitments of each witness also shall be considered in selecting a continuance date if the motion is granted. The facts as to inconvenience or prior commitments may be offered by the witness or by a party to the case.

For purposes of this section, "good cause" includes, but is not limited to, those cases involving murder, as defined in subdivision (a) of Section 187, allegations that a violation of one or more of the sections specified in subdivision (a) of Section 11165.1 or Section 11165.6, or domestic violence as defined in Section 13700, has occurred and the prosecuting attorney assigned to the case has another trial, preliminary hearing, or motion to suppress in progress in that court or another court. A continuance under this paragraph shall be limited to a maximum of 10 additional court days.

(h) Upon a showing that the attorney of record at the time of the defendant's first appearance in the superior court is a Member of the Legislature of this state and that the Legislature is in session or that a legislative interim committee of which the attorney is a duly appointed member is meeting or is to meet within the next seven days, the defendant shall be entitled to a reasonable continuance not to exceed 30 days.

(i) A continuance shall be granted only for that period of time shown to be necessary by the evidence considered at the hearing on the motion. Whenever any continuance is granted, the court shall state on the record the facts proved that justify the length of the continuance, and those facts shall be entered in the minutes.

(j) Whenever it shall appear that any court may be required, because of the condition of its calendar, to dismiss an action pursuant to Section 1382, the court must immediately notify the Chairman of the Judicial Council.

(k) This section shall not apply when the preliminary examination is set on a date less than 10 court days from the date of the defendant's arraignment on the complaint, and the prosecution or the defendant moves to continue the preliminary examination to a date not more than 10 court days from the date of the defendant's arraignment on the complaint.

CHAPTER 62

(c) The introduction of the euro, the tendering of euros in connection with any obligation in compliance with subdivision (b), the determining of the value of any obligation in compliance with subdivision (b), or the calculating or determining of the subject or medium of payment of a contract, security, or instrument with reference to an interest rate or other basis that has been substituted

or replaced due to the introduction of the euro and that is a commercially reasonable substitute and substantial equivalent, shall neither have the effect of discharging or excusing performance under any contract, security, or instrument, nor give a party the right unilaterally to alter or terminate any contract, security, or instrument.

(d) This section shall be subject to any agreements between parties with specific reference to, or agreement regarding, the introduction of the euro.

(e) Notwithstanding the Commercial Code or any other law of this state, this section shall apply to all contracts, securities, and instruments, including contracts with respect to commercial transactions, and shall not be deemed to be displaced by any other law of this state.

(f) In the event of other currency changes, the provisions of this section with respect to the euro shall not be interpreted as creating any negative inference or negative presumption regarding the validity or enforceability of contracts, securities, or instruments denominated in whole or part in those other currencies.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

On January 1, 1999, the euro, the proposed currency of the European Union, is scheduled to become the currency of the member nations and their individual currencies will cease to exist. International contracts that are expressed in terms of existing national currencies must not become unenforceable or their enforcement delayed because of an assertion of a defense that the designated currencies no longer exist. For these reasons, the amendments to contract law made by this act are required to take effect immediately in order to assure continuity of contract.

CHAPTER 63

An act to amend Sections 87732 and 87734 of the Education Code, relating to education.

[Approved by Governor June 4, 1998. Filed with Secretary of State June 5, 1998.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares both of the following:

(1) All certificated employees in the California Community Colleges are entitled to due process as it pertains to their job performance.

(2) Job performance is a standard of accountability by which all such employees should be evaluated, and how that standard is defined should be addressed at the local level.

(b) It is, therefore, the intent of the Legislature that:

(1) Provisions of current law as they pertain to due process regarding the dismissal of certificated academic employees of community colleges shall not be altered as a result of this act.

(2) The current procedure of "peer evaluation" as a method of assisting employees to improve their job performance shall not automatically trigger a dismissal process in the case of a poor evaluation.

SEC. 2. Section 87732 of the Education Code is amended to read:

87732. No regular employee or academic employee shall be dismissed except for one or more of the following causes:

(a) Immoral or unprofessional conduct.

(b) Dishonesty.

(c) Unsatisfactory performance.

(d) Evident unfitness for service.

(e) Physical or mental condition that makes him or her unfit to instruct or associate with students.

(f) Persistent violation of, or refusal to obey, the school laws of the state or reasonable regulations prescribed for the government of the community colleges by the board of governors or by the governing board of the community college district employing him or her.

(g) Conviction of a felony or of any crime involving moral turpitude.

(h) Conduct specified in Section 1028 of the Government Code.

SEC. 3. Section 87734 of the Education Code is amended to read:

87734. The governing board of any community college district shall not act upon any charges of unprofessional conduct or unsatisfactory performance unless during the preceding term or half college year prior to the date of the filing of the charge, and at least 90 days prior to the date of the filing, the board or its authorized representative has given the employee against whom the charge is filed, written notice of the unprofessional conduct or unsatisfactory performance, specifying the nature thereof with specific instances of behavior and with particularity as to furnish the employee an opportunity to correct his or her faults and overcome the grounds for the charge. The written notice shall include the evaluation made pursuant to Article 4 (commencing with Section 87660), if applicable to the employee. "Unprofessional conduct" and "unsatisfactory performance," as used in this section, means, and refers only to, the unprofessional conduct and unsatisfactory performance particularly specified as a cause for dismissal in Section 87732 and does not include any other cause for dismissal specified in Section 87732.

SEC. 4. Nothing in this act shall be construed to limit or impair any obligation of, or any rights and duties created by, any contract entered into prior to January 1, 1999.

CHAPTER 64

An act to amend Section 8481 of the Education Code, relating to child care, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 9, 1998. Filed with Secretary of State June 9, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 8481 of the Education Code is amended to read:

8481. (a) Subject to appropriation in the annual Budget Act, for the purpose of the program in this article, the Superintendent of Public Instruction may allocate funds for the establishment of school-based schoolage before and after school programs that include homework and tutoring assistance, improve literacy skills, and provide recreational activities, as well as facilitate the transition from welfare to work by providing child care for schoolage children and potential employment for welfare recipients who are parents of children enrolled in schoolage child care programs.

(b) A before and after school program, whether public, private, or school district operated, in collaboration with other local governmental agencies, may apply to the State Department of Education for funding under this article. A before and after school program that receives funding pursuant to this article may participate in any other grant programs that fund literacy and technology activities.

(c) In order to achieve the goals of assisting children in learning, providing parents with employment and parenting skills, providing a safe environment for children, and helping prevent crime in neighborhoods, a program funded under this article shall be a collaborative effort with a school district, and may also include collaboration with any combination of the following: other school districts, community college districts, counties, cities, community-based organizations, not-for-profit organizations, the local agency that provides the Even Start Family and Head Start literacy programs or their equivalent programs, and the private sector.

(d) In selecting programs for funding under this article, the department shall use the standards set forth in Section 8463 and all of the following criteria:

(1) Programs shall have demonstrated experience in implementing quality before or after school child development programs.

(2) Programs shall demonstrate the inclusion of a strong literacy component.

(3) Programs shall demonstrate a working collaboration with entities listed in subdivision (c), including Even Start Family and Head Start literacy program providers, to the extent that these programs exist in the service area.

(e) Notwithstanding Section 8468, in allocating funds pursuant to this article, preference shall be given to programs that currently employ recipients of aid under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code, or any successor program, who are parents of children enrolled in the applicant programs or that have a demonstrated commitment to providing employment opportunities for those recipients of aid, or both.

(f) Funding received by a before and after school program pursuant to this article may be renewed and is contingent upon the following:

(1) Compliance with the requirement of subdivision (c), the criteria set forth in subdivision (d), and the priorities set forth in subdivision (e).

(2) A favorable evaluation completed by the State Department of Education pursuant to Section 8498.8 or an evaluation that meets the standards of the department. Outcomes shall include academic achievement determined by measurements such as test scores, grades, school attendance, and number of disciplinary actions.

(3) Programs shall demonstrate that they are receiving locally generated resources from other than federal and state sources, which may include in-kind contributions.

(g) (1) A program established under this section may employ parents of schoolage children who are participating in the program established pursuant to Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code, or any successor program, and may employ those parents in the schools attended by their own children. Parents employed pursuant to this subdivision may also participate in training programs at least six hours per week, in order to help them understand child development, learn parenting skills, and obtain skills for employment in either an educational or child care setting. Employment in the program may fulfill a participant's employment requirements under Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code.

(2) A program shall also be encouraged to hire older siblings of children in the program whose families receive aid under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code, or any successor program, to work in

either the program's literacy or recreation components. It is the intent of this subdivision that hiring teenagers from families that receive aid under this Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code, or any successor program, will provide an additional source of income for these families.

(3) All program participants shall be assessed before they work with children to determine their skills and literacy development and a criminal background check on each participant shall be completed before that participant begins to work with children. Participants shall be supervised by qualified staff.

(4) (A) Notwithstanding any other provision of law, but subject to subparagraph (B), programs operating under this article that use recipients of aid under Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code, or any successor program, may count those recipients as staff members for purposes of determining compliance with staffing ratio requirements.

(B) Teenage siblings used by programs operating under this article may not be included in computing compliance with staffing ratio requirements.

(5) Notwithstanding any other provision of law, programs operating under this section may extend their hours of operation beyond 20 hours per week.

(h) A program established pursuant to this section shall assist the children of recipients of aid under Article 3.2 (commencing with Section 11320) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code, or any successor program, and other children to complete homework, improve literacy skills, that shall include, but not be limited to, reading, writing, mathematics, and computer skills, and participate in recreational activities.

(i) Programs funded under this section shall provide training on how to work with children on reading, writing, listening, and speaking. This training shall be provided in collaboration with an Even Start Family or Head Start literacy program, or their equivalent programs.

(j) (1) Notwithstanding any other provision of law, commencing with the 1997–98 fiscal year, schoolsites shall be eligible for the funding of programs established pursuant to this section where a minimum of 70 percent of the children are eligible for free or reduced-cost meals through the school lunch program of the United States Department of Agriculture. Presumptive eligibility for a program established pursuant to this section shall apply to individual families of pupils attending an eligible schoolsite.

(2) Priority for enrollment in programs funded under this section shall be given in accordance with Section 8468.5.

(3) Notwithstanding any other provision of law, parent fees may not be assessed to parents or guardians whose children attend a program established pursuant to this section.

(k) Programs funded under this section shall be encouraged to take advantage of free snack programs administered by the United States Department of Agriculture.

(*l*) It is the intent of this article, by providing a safe, supervised after school environment for children, including those teens employed by a program, to reduce criminal activity among juveniles, and to strengthen parent-child relationships and communities by involving parents in their children's schoolwork and schools.

(m) Notwithstanding Section 8360.1 or any other provision of law, college courses in recreation, art, mathematics, and physical and social development that would enhance the education of schoolage children may be considered to meet course requirements in child development.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to effectively implement the program changes made by Section 1 of this act to Section 8481 of the Education Code at the earliest possible date so that pupils will have the benefit of those programs, it is necessary that this act take effect immediately.

8589.5. (a) Inundation maps showing the areas of potential flooding in the event of sudden or total failure of any dam, the partial or total failure of which the Office of Emergency Services determines, after consultation with the Department of Water Resources, would result in death or personal injury, shall be prepared and submitted as provided in this subdivision within six months after the effective date of this section, unless the time for submission of those maps is extended for reasonable cause by the Office of Emergency Services. The local governmental organization, utility, or other owner of any dam so designated shall submit to the Office of Emergency Services one map that shall delineate potential flood zones that could result in the event of dam failure when the reservoir is at full capacity, or if the local governmental organization, utility, or other owner of any dam shall determine it to be desirable, he or she shall submit three maps that shall delineate potential flood zones that could result in the event of dam failure when the reservoir is at full capacity, at median-storage level, and at normally low-storage level. After submission of copies of the map or maps, the Office of Emergency Services shall review the map or maps, and shall return any map or maps that do not meet the requirements of this subdivision, together with recommendations relative to conforming to the requirements. Maps rejected by the Office of Emergency Services shall be revised to conform to those recommendations and resubmitted. The Office of Emergency Services shall keep on file those maps that conform to the provisions of this subdivision. Maps approved pursuant to this subdivision shall also be kept on file with the Department of Water Resources. The owner of a dam shall submit final copies of those maps to the Office of Emergency Services that shall immediately submit identical copies to the appropriate public safety agency of any city, county, or city and county likely to be affected.

(b) Based upon a review of inundation maps submitted pursuant to subdivision (a) or based upon information gained by an onsite inspection and consultation with the affected local jurisdiction when the requirement for an inundation map is waived pursuant to subdivision (d), the Office of Emergency Services shall designate areas within which death or personal injury would, in its determination, result from the partial or total failure of a dam. The appropriate public safety agencies of any city, county, or city and

county, the territory of which includes any of those areas, shall adopt emergency procedures for the evacuation and control of populated areas below those dams. The Office of Emergency Services shall review the procedures to determine whether adequate public safety measures exist for the evacuation and control of populated areas below the dams, and shall make recommendations with regard to the adequacy of those procedures to the concerned public safety agency. In conducting the review, the Office of Emergency Services shall consult with appropriate state and local agencies.

Emergency procedures specified in this subdivision shall conform to local needs, and may be required to include any of the following elements or any other appropriate element, in the discretion of the Office of Emergency Services: (1) delineation of the area to be evacuated; (2) routes to be used; (3) traffic control measures; (4) shelters to be activated for the care of the evacuees; (5) methods for the movement of people without their own transportation; (6) identification of particular areas or facilities in the flood zones that will not require evacuation because of their location on high ground or similar circumstances; (7) identification and development of special procedures for the evacuation and care of people from unique institutions; (8) procedures for the perimeter and interior security of the area, including such things as passes, identification requirements, and antilooting patrols; (9) procedures for the lifting of the evacuation and reentry of the area; and (10) details of which organizations are responsible for these functions and the material and personnel resources required. It is the intent of the Legislature to encourage each agency that prepares emergency procedures to establish a procedure for their review every two years.

(c) "Dam," as used in this section, has the same meaning as specified in Sections 6002, 6003, and 6004 of the Water Code.

(d) Under certain exceptional conditions as follows, the Office of Emergency Services may waive the requirement for an inundation map:

(1) Where the effects of potential inundation in terms of death or personal injury, as determined through onsite inspection by the Office of Emergency Services in consultation with the affected local jurisdictions, can be ascertained without an inundation map; and

(2) Where adequate evacuation procedures can be developed without benefit of an inundation map.

(e) If development should occur in any exempted area after a waiver has been granted, the local jurisdiction shall notify the Office of Emergency Services of that development. All waivers shall be reevaluated every two years by the Office of Emergency Services.

(f) A notice shall be posted at the offices of the county recorder, county assessor, and county planning agency that identifies the location of the map, and of any information received by the county subsequent to the receipt of the map regarding changes to inundation areas within the county.

SEC. 9. Section 51179 of the Government Code is amended to read:

51179. (a) A local agency shall designate, by ordinance, very high fire hazard severity zones in its jurisdiction within 120 days of receiving recommendations from the director pursuant to subdivisions (b) and (c) of Section 51178. A local agency shall be exempt from this requirement if ordinances of the local agency, adopted on or before December 31, 1992, impose standards that are equivalent to, or more restrictive than, the standards imposed by this chapter.

(b) A local agency may, at its discretion, exclude from the requirements of Section 51182 an area identified as a very high fire hazard severity zone by the director within the jurisdiction of the local agency, following a finding supported by substantial evidence in the record that the requirements of Section 51182 are not necessary for effective fire protection within the area.

(c) A local agency may, at its discretion, include areas within the jurisdiction of the local agency, not identified as very high fire hazard severity zones by the director, as very high fire hazard severity zones following a finding supported by substantial evidence in the record that the requirements of Section 51182 are necessary for effective fire protection within the area.

(d) Changes made by a local agency to the recommendations made by the director shall be final and shall not be rebuttable by the director.

(e) The State Fire Marshal shall prepare and adopt a model ordinance that provides for the establishment of very high fire hazard severity zones.

(f) Any ordinance adopted by a local agency pursuant to this section that substantially conforms to the model ordinance of the State Fire Marshal shall be presumed to be in compliance with the requirements of this section.

(g) A local agency shall post a notice at the office of the county recorder, county assessor, and county planning agency identifying the location of the map provided by the director pursuant to Section 51178. If the agency amends the map, pursuant to subdivision (b) or (c) of this section, the notice shall instead identify the location of the amended map.

SEC. 10. Section 51183.5 of the Government Code, as added by Chapter 7 of the Statutes of 1997, First Extraordinary Session, is repealed.

SEC. 11. Section 51183.5 is added to the Government Code, to read:

51183.5. (a) A seller of real property that is located within a very high fire hazard severity zone, designated pursuant to this chapter, shall disclose to any prospective purchaser the fact that the property is located within a very high fire hazard severity zone, and is subject to the requirements of Section 51182.

(b) In all transactions that are subject to Section 1102 of the Civil Code, the disclosure required by subdivision (a) of this section shall be provided by either of the following means:

(1) The Local Option Real Estate Disclosure Statement as provided in Section 1102.6a of the Civil Code.

(2) The Natural Hazard Disclosure Statement as provided in Section 1102.6c of the Civil Code.

(c) Disclosure is required pursuant to this section only when one of the following conditions is met:

(1) The seller, or the seller's agent, has actual knowledge that the property is within a very high fire hazard severity zone.

(2) A map that includes the property has been provided to the local agency pursuant to Section 51178, and a notice is posted at the offices of the county recorder, county assessor, and county planning agency that identifies the location of the map and any information regarding changes to the map received by the local agency.

(d) If the map or accompanying information is not of sufficient accuracy or scale that a reasonable person can determine if the subject real property is included in a very high fire hazard zone, the seller shall mark "Yes" on the Natural Hazard Disclosure Statement. The seller may mark "No" on the Natural Hazard Disclosure Statement if he or she attaches a report prepared pursuant to subdivision (c) of Section 1102.4 of the Civil Code that verifies the property is not in the hazard zone. Nothing in this subdivision is intended to limit or abridge any existing duty of the seller or the seller's agents to exercise reasonable care in making a determination under this subdivision.

(e) Section 1102.13 of the Civil Code shall apply to this section.

(f) The specification of items for disclosure in this section does not limit or abridge any obligation for disclosure created by any other provision of law or that may exist in order to avoid fraud, misrepresentation, or deceit in the transfer transaction.

SEC. 12. Section 2621.9 of the Public Resources Code is amended to read:

2621.9. (a) A person who is acting as an agent for a seller of real property that is located within a delineated earthquake fault zone, or the seller, if he or she is acting without an agent, shall disclose to any prospective purchaser the fact that the property is located within a delineated earthquake fault zone.

(b) In all transactions that are subject to Section 1102 of the Civil Code, the disclosure required by subdivision (a) of this section shall be provided by either of the following means:

(1) The Local Option Real Estate Transfer Disclosure Statement as provided in Section 1102.6a of the Civil Code.

(2) The Natural Hazard Disclosure Statement as provided in Section 1102.6c of the Civil Code.

(c) Disclosure is required pursuant to this section only when one of the following conditions is met:

(1) The seller, or the seller's agent, has actual knowledge that the property is within a delineated earthquake fault zone.

(2) A map that includes the property has been provided to the city or county pursuant to Section 2622, and a notice has been posted at the offices of the county recorder, county assessor, and county planning agency that identifies the location of the map and any information regarding changes to the map received by the county.

(d) If the map or accompanying information is not of sufficient accuracy or scale that a reasonable person can determine if the subject real property is included in a delineated earthquake fault hazard zone, the agent shall mark "Yes" on the Natural Hazard Disclosure Statement. The agent may mark "No" on the Natural Hazard Disclosure Statement if he or she attaches a report prepared pursuant to subdivision (c) of Section 1102.4 of the Civil Code that verifies the property is not in the hazard zone. Nothing in this subdivision is intended to limit or abridge any existing duty of the seller or the seller's agents to exercise reasonable care in making a determination under this subdivision.

(e) For purposes of the disclosures required by this section, the following persons shall not be deemed agents of the seller:

(1) Persons specified in Section 1102.11 of the Civil Code.

(2) Persons acting under a power of sale regulated by Section 2924 of the Civil Code.

(f) For purposes of this section, Section 1102.13 of the Civil Code shall apply.

(g) The specification of items for disclosure in this section does not limit or abridge any obligation for disclosure created by any other provision of law or that may exist in order to avoid fraud, misrepresentation, or deceit in the transfer transaction.

SEC. 13. Section 2694 of the Public Resources Code is amended to read:

2694. (a) A person who is acting as an agent for a seller of real property that is located within a seismic hazard zone, as designated under this chapter, or the seller, if he or she is acting without an agent, shall disclose to any prospective purchaser the fact that the property is located within a seismic hazard zone.

(1) The Local Option Real Estate Transfer Disclosure Statement as provided in Section 1102.6a of the Civil Code.

(2) The Natural Hazard Disclosure Statement as provided in Section 1102.6c of the Civil Code.

(c) Disclosure is required pursuant to this section only when one of the following conditions is met:

(2) A map that includes the property has been provided to the city or county pursuant to Section 2622, and a notice has been posted at the offices of the county recorder, county assessor, and county planning agency that identifies the location of the map and any information regarding changes to the map received by the county.

(d) If the map or accompanying information is not of sufficient accuracy or scale that a reasonable person can determine if the subject real property is included in a seismic hazard zone, the agent shall mark "Yes" on the Natural Hazard Disclosure Statement. The agent may mark "No" on the Natural Hazard Disclosure Statement if he or she attaches a report prepared pursuant to subdivision (c) of Section 1102.4 of the Civil Code that verifies the property is not in the hazard zone. Nothing in this subdivision is intended to limit or abridge any existing duty of the seller or the seller's agents to exercise reasonable care in making a determination under this subdivision.

SEC. 14. Section 2696 of the Public Resources Code is amended to read:

2696. (a) The State Geologist shall compile maps identifying seismic hazard zones, consistent with the requirements of Section 2695. The maps shall be compiled in accordance with a time schedule developed by the director and based upon the provisions of Section 2695 and the level of funding available to implement this chapter.

(b) The State Geologist shall, upon completion, submit seismic hazard maps compiled pursuant to subdivision (a) to the board and all affected cities, counties, and state agencies for review and comment. Concerned jurisdictions and agencies shall submit all comments to the board for review and consideration within 90 days. Within 90 days of board review, the State Geologist shall revise the maps, as appropriate, and shall provide copies of the official maps to each state agency, city, or county, including the county recorder, having jurisdiction over lands containing an area of seismic hazard. The county recorder shall record all information transmitted as part of the public record.

(c) In order to ensure that sellers of real property and their agents are adequately informed, any county that receives an official map pursuant to this section shall post a notice within five days of receipt of the map at the office of the county recorder, county assessor, and

county planning agency, identifying the location of the map, any information regarding changes to the map, and the effective date of the notice.

SEC. 15. Section 4125 of the Public Resources Code is amended to read:

4125. (a) The board shall classify all lands within the state, without regard to any classification of lands made by or for any federal agency or purpose, for the purpose of determining areas in which the financial responsibility of preventing and suppressing fires is primarily the responsibility of the state. The prevention and suppression of fires in all areas that are not so classified is primarily the responsibility of local or federal agencies, as the case may be.

(b) On or before July 1, 1991, and every 5th year thereafter, the department shall provide copies of maps identifying the boundaries of lands classified as state responsibility pursuant to subdivision (a) to the county assessor for every county containing any of those lands. The department shall also notify county assessors of any changes to state responsibility areas within the county resulting from periodic boundary modifications approved by the board.

(c) A notice shall be posted at the offices of the county recorder, county assessor, and county planning agency that identifies the location of the map, and of any information received by the county subsequent to the receipt of the map regarding changes to state responsibility areas within the county.

SEC. 16. Section 4136 of the Public Resources Code is amended to read:

4136. (a) A seller of real property that is located within a state responsibility area determined by the board, pursuant to Section 4125, shall disclose to any prospective purchaser the fact that the property is located within a wildland area that may contain substantial forest fire risks and hazards and is subject to the requirements of Section 4291.

(b) Except for property located within a county that has assumed responsibility for prevention and suppression of all fires pursuant to Section 4129, the seller shall also disclose to any prospective buyer that it is not the state's responsibility to provide fire protection services to any building or structure located within the wildlands unless the department has entered into a cooperative agreement with a local agency for those purposes pursuant to Section 4142.

(c) In all transactions that are subject to Section 1102 of the Civil Code, the disclosures required by this section shall be provided by either of the following means:

(1) The Local Option Real Estate Disclosure Statement as provided in Section 1102.6a of the Civil Code.

(2) The Natural Hazard Disclosure Statement as provided in Section 1102.6c of the Civil Code.

(d) Disclosure is required pursuant to this section only when one of the following conditions is met:

(1) The seller, or the seller's agent, has actual knowledge that the property is within a wildland fire zone.

(2) A map that includes the property has been provided to the city or county pursuant to Section 4125, and a notice has been posted at the offices of the county recorder, county assessor, and county planning agency that identifies the location of the map and any information regarding changes to the map received by the county.

(e) If the map or accompanying information is not of sufficient accuracy or scale that a reasonable person can determine if the subject real property is included in a wildland fire zone, the agent shall mark "Yes" on the Natural Hazard Disclosure Statement. The agent may mark "No" on the Natural Hazard Disclosure Statement if he or she attaches a report prepared pursuant to subdivision (c) of Section 1102.4 of the Civil Code that verifies the property is not in the hazard zone. Nothing in this subdivision is intended to limit or abridge any existing duty of the seller or the seller's agents to exercise reasonable care in making a determination under this subdivision.

(f) For purposes of this section, Section 1102.13 of the Civil Code applies.

(g) The specification of items for disclosure in this section does not limit or abridge any obligation for disclosure created by any other provision of law or that may exist in order to avoid fraud, misrepresentation, or deceit in the transfer transaction.

SEC. 17. The Legislature finds and declares that state law requires several different state departments and agencies to conduct natural hazard mapping and information programs, based on their respective scientific and professional competencies. The Legislature finds and declares that city and county planning agencies sometimes have difficulty using the maps and information produced by state departments and agencies regarding natural hazards because the maps may be at different scales, use different projections, or are otherwise incompatible. The Legislature finds and declares that the lack of compatible maps sometimes makes it difficult for city and county planning agencies to make information regarding natural hazards readily available to landowners, their agents, and the public. Therefore, the Legislature finds and declares that there is a need for state officials to coordinate their natural hazard mapping and information programs to make them more effective. The Legislature encourages the Secretary of the Resources Agency to provide coordination and leadership among the state departments and agencies that conduct natural hazard mapping and information programs.

SEC. 18. The provisions of this act shall become operative on June 1, 1998, except that Sections 1, 3, 6, and 10 shall be operative upon the effective date of Chapter 7 of the Statutes of 1997, First Extraordinary Session.

SEC. 19. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act

contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SEC. 20. It is the intent of the Legislature that the provisions of this act shall supersede the provisions of Chapter 7 of the Statutes of 1997, First Extraordinary Session, in their entirety and, to that intent, the provisions of that chapter shall not become operative.

SEC. 21. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to resolve ambiguity regarding the effective date for important real estate disclosures and to ensure that comprehensive disclosure of information regarding risk of natural disaster hazards is made available to prospective homebuyers, it is necessary that this act take effect immediately.

CHAPTER 66

An act to amend Sections 832.3 and 832.4 of the Penal Code, relating to peace officers.

[Approved by Governor June 17, 1998. Filed with Secretary of State June 18, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 832.3 of the Penal Code is amended to read:

832.3. (a) Except as provided in subdivisions (b) and (e), any sheriff, undersheriff, or deputy sheriff of a county, any police officer of a city, and any police officer of a district authorized by statute to maintain a police department, who is first employed after January 1, 1975, shall successfully complete a course of training prescribed by the Commission on Peace Officer Standards and Training before exercising the powers of a peace officer, except while participating as a trainee in a supervised field training program approved by the Commission on Peace Officer Standards and Training. Each police chief, or any other person in charge of a local law enforcement agency, appointed on or after January 1, 1999, as a condition of continued employment, shall complete the course of training

pursuant to this subdivision within two years of appointment. The training course for a sheriff, an undersheriff, and a deputy sheriff of a county, and a police chief and a police officer of a city or any other local law enforcement agency shall be the same.

(b) For the purpose of standardizing the training required in subdivision (a), the commission shall develop a training proficiency testing program, including a standardized examination which enables (1) comparisons between presenters of the training and (2) development of a data base for subsequent training programs. Presenters approved by the commission to provide the training required in subdivision (a) shall administer the standardized examination to all graduates. Nothing in this subdivision shall make the completion of the examination a condition of successful completion of the training required in subdivision (a).

(c) Notwithstanding subdivision (c) of Section 84500 of the Education Code and any regulations adopted pursuant thereto, community colleges may give preference in enrollment to employed law enforcement trainees who shall complete training as prescribed by this section. At least 15 percent of each presentation shall consist of nonlaw enforcement trainees if they are available. Preference should only be given when the trainee could not complete the course within the time required by statute, and only when no other training program is reasonably available. Average daily attendance for these courses shall be reported for state aid.

(d) Prior to July 1, 1987, the commission shall make a report to the Legislature on academy proficiency testing scores. This report shall include an evaluation of the correlation between academy proficiency test scores and performance as a peace officer.

(e) (1) Any deputy sheriff described in subdivision (c) of Section 830.1 shall be exempt from the training requirements specified in subdivision (a) as long as his or her assignments remain custodial related.

(2) Deputy sheriffs described in subdivision (c) of Section 830.1 shall complete the training for peace officers pursuant to subdivision (a) of Section 832, and within 120 days after the date of employment, shall complete the training required by the Board of Corrections for custodial personnel pursuant to Section 6035, and the training required for custodial personnel of local detention facilities pursuant to Division 1 (commencing with Section 100) of Title 15 of the California Code of Regulations.

(3) Deputy sheriffs described in subdivision (c) of Section 830.1 shall complete the course of training pursuant to subdivision (a) prior to being reassigned from custodial assignments to duties with responsibility for the prevention and detection of crime and the general enforcement of the criminal laws of this state.

SEC. 2. Section 832.4 of the Penal Code is amended to read:

832.4. (a) Any undersheriff or deputy sheriff of a county, any police officer of a city, and any police officer of a district authorized

by statute to maintain a police department, who is first employed after January 1, 1974, and is responsible for the prevention and detection of crime and the general enforcement of the criminal laws of this state, shall obtain the basic certificate issued by the Commission on Peace Officer Standards and Training within 18 months of his or her employment in order to continue to exercise the powers of a peace officer after the expiration of the 18-month period.

(b) Every peace officer listed in subdivision (a) of Section 830.1, except a sheriff, elected constable, or elected marshal, or a deputy sheriff described in subdivision (c) of Section 830.1, who is employed after January 1, 1988, shall obtain the basic certificate issued by the Commission on Peace Officer Standards and Training upon completion of probation, but in no case later than 24 months after his or her employment, in order to continue to exercise the powers of a peace officer after the expiration of the 24-month period.

Deputy sheriffs described in subdivision (c) of Section 830.1 shall obtain the basic certificate issued by the Commission on Peace Officer Standards and Training within 24 months after being reassigned from custodial duties to general law enforcement duties.

In those cases where the probationary period established by the employing agency is 24 months, the peace officers described in this subdivision may continue to exercise the powers of a peace officer for an additional three-month period to allow for the processing of the certification application.

(c) Each police chief, or any other person in charge of a local law enforcement agency, appointed on or after January 1, 1999, as a condition of continued employment, shall obtain the basic certificate issued by the Commission on Peace Officer Standards and Training within two years of appointment.

SEC. 3. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 67

An act to amend Section 40458 of, and to repeal Section 44243.5 of, the Health and Safety Code, relating to air pollution, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 19, 1998. Filed with Secretary of State June 19, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 40458 of the Health and Safety Code is amended to read:

40458. (a) Rules 1501 and 1501.1 adopted by the south coast district are void.

(b) Rule 2202 adopted by the south coast district shall be amended in the following manner:

(1) The worksite employee threshold shall be raised to 250.

(2) Nothing in this section is intended to prevent an early replacement and repeal of Rule 2202. The south coast district shall replace Rule 2202 as soon as possible with alternative direct light-duty mobile source emission reduction measures, other than new vehicle emission standards or reformulated fuel standards.

SEC. 2. Section 44243.5 of the Health and Safety Code is repealed.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to implement necessary modifications to existing rideshare programs at the earliest possible time, thereby improving air quality in the state, it is necessary that this act take effect immediately.

CHAPTER 68

An act to add Sections 1363.01, 1367.20, and 1367.22 to the Health and Safety Code, relating to health care service plans.

[Approved by Governor June 19, 1998. Filed with Secretary of State June 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1363.01 is added to the Health and Safety Code, to read:

1363.01. (a) Every plan that covers prescription drug benefits shall provide notice in the evidence of coverage and disclosure form

to enrollees regarding whether the plan uses a formulary. The notice shall be in language that is easily understood and in a format that is easy to understand. The notice shall include an explanation of what a formulary is, how the plan determines which prescription drugs are included or excluded, and how often the plan reviews the contents of the formulary.

(b) Every plan that covers prescription drug benefits shall provide to members of the public, upon request, information regarding whether a specific drug or drugs are on the plan's formulary. Notice of the opportunity to secure this information from the plan, including the plan's telephone number for making a request of this nature, shall be included in the evidence of coverage and disclosure form to enrollees.

(c) Every plan shall notify enrollees, and members of the public who request formulary information, that the presence of a drug on the plan's formulary does not guarantee that an enrollee will be prescribed that drug by his or her prescribing provider for a particular medical condition.

SEC. 2. Section 1367.20 is added to the Health and Safety Code, to read:

1367.20. Every health care service plan that provides prescription drug benefits and maintains one or more drug formularies shall provide to members of the public, upon request, a copy of the most current list of prescription drugs on the formulary of the plan by major therapeutic category, with an indication of whether any drugs on the list are preferred over other listed drugs. If the health care service plan maintains more than one formulary, the plan shall notify the requester that a choice of formulary lists is available.

SEC. 3. Section 1367.22 is added to the Health and Safety Code, to read:

1367.22. (a) A health care service plan contract, issued, amended, or renewed on or after July 1, 1999, that covers prescription drug benefits shall not limit or exclude coverage for a drug for an enrollee if the drug previously had been approved for coverage by the plan for a medical condition of the enrollee and the plan's prescribing provider continues to prescribe the drug for the medical condition, provided that the drug is appropriately prescribed and is considered safe and effective for treating the enrollee's medical condition. Nothing in this section shall preclude the prescribing provider from prescribing another drug covered by the plan that is medically appropriate for the enrollee, nor shall anything in this section be construed to prohibit generic drug substitutions as authorized by Section 4073 of the Business and Professions Code. For purposes of this section, a prescribing provider shall include a provider authorized to write a prescription, pursuant to subdivision (a) of Section 4059 of the Business and Professions Code, to treat a medical condition of an enrollee.

(b) This section does not apply to coverage for any drug that is prescribed for a use that is different from the use for which that drug has been approved for marketing by the federal Food and Drug Administration. Coverage for different-use drugs is subject to Section 1367.21.

(c) Nothing in this section shall be construed to restrict or impair the application of any other provision of this chapter, including, but not limited to, Section 1367, which includes among its requirements that plans furnish services in a manner providing continuity of care and demonstrate that medical decisions are rendered by qualified medical providers unhindered by fiscal and administrative management.

(d) Nothing in this section shall prohibit a health care service plan from charging a subscriber or enrollee a copayment or a deductible for prescription drug benefits or from setting forth, by contract, limitations on maximum coverage of prescription drug benefits, provided that the copayments, deductibles, or limitations are reported to, and held unobjectionable by, the commissioner and set forth to the subscriber or enrollee pursuant to the disclosure provisions of Section 1363.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 69

An act to add Sections 1367.20 and 1367.24 to the Health and Safety Code, relating to health care service plans.

[Approved by Governor June 19, 1998. Filed with Secretary of State June 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 1367.20 is added to the Health and Safety Code, to read:

1367.20. Every health care service plan that provides prescription drug benefits and maintains one or more drug formularies shall

provide to members of the public, upon request, a copy of the most current list of prescription drugs on the formulary of the plan by major therapeutic category, with an indication of whether any drugs on the list are preferred over other listed drugs. If the health care service plan maintains more than one formulary, the plan shall notify the requester that a choice of formulary lists is available.

SEC. 2. Section 1367.24 is added to the Health and Safety Code, to read:

1367.24. (a) Every health care service plan that provides prescription drug benefits shall maintain an expeditious process by which prescribing providers may obtain authorization for a medically necessary nonformulary prescription drug. On or before July 1, 1999, every health care service plan that provides prescription drug benefits shall file with the department a description of its process, including timelines, for responding to authorization requests for nonformulary drugs. Any changes to this process shall be filed with the department pursuant to Section 1352. Each plan shall provide a written description of its most current process, including timelines, to its prescribing providers. For purposes of this section, a prescribing provider shall include a provider authorized to write a prescription, pursuant to subdivision (a) of Section 4040 of the Business and Professions Code, to treat a medical condition of an enrollee.

(b) Any plan that disapproves a request made pursuant to subdivision (a) by a prescribing provider to obtain authorization for a nonformulary drug shall provide the reasons for the disapproval in a notice provided to the enrollee. The notice shall indicate that the enrollee may file a grievance with the plan if the enrollee objects to the disapproval, including any alternative drug or treatment offered by the plan. The notice shall comply with subdivision (b) of Section 1368.02.

(c) The process described in subdivision (a) by which prescribing providers may obtain authorization for medically necessary nonformulary drugs shall not apply to a nonformulary drug that has been prescribed for an enrollee in conformance with the provisions of Section 1367.22.

(d) The process described in subdivision (a) by which enrollees may obtain medically necessary nonformulary drugs, including specified timelines for responding to prescribing provider authorization requests, shall be described in evidence of coverage and disclosure forms, as required by subdivision (a) of Section 1363, issued on or after July 1, 1999.

(e) Every health care service plan that provides prescription drug benefits shall maintain, as part of its books and records under Section 1381, all of the following information, which shall be made available to the commissioner upon request:

(1) The complete drug formulary or formularies of the plan, if the plan maintains a formulary, including a list of the prescription drugs

on the formulary of the plan by major therapeutic category with an indication of whether any drugs are preferred over other drugs.

(2) Records developed by the pharmacy and therapeutic committee of the plan, or by others responsible for developing, modifying, and overseeing formularies, including medical groups, individual practice associations, and contracting pharmaceutical benefit management companies, used to guide the drugs prescribed for the enrollees of the plan, that fully describe the reasoning behind formulary decisions.

(3) Any plan arrangements with prescribing providers, medical groups, individual practice associations, pharmacists, contracting pharmaceutical benefit management companies, or other entities that are associated with activities of the plan to encourage formulary compliance or otherwise manage prescription drug benefits.

(f) If a plan provides prescription drug benefits, the department shall, as part of its periodic onsite medical survey of each plan undertaken pursuant to Section 1380, review the performance of the plan in providing those benefits, including, but not limited to, a review of the procedures and information maintained pursuant to this section , and describe the performance of the plan as part of its report issued pursuant to Section 1380.

(g) The commissioner shall not publicly disclose any information reviewed pursuant to this section that is determined by the commissioner to be confidential pursuant to state law.

(h) Nothing in this section shall be construed to restrict or impair the application of any other provision of this chapter, including, but not limited to, Section 1367, which includes among its requirements that a health care service plan furnish services in a manner providing continuity of care and demonstrate that medical decisions are rendered by qualified medical providers unhindered by fiscal and administrative management. Subdivision (c) of Section 1367.24, which establishes an exemption if a drug has been prescribed in conformance with Section 1367.22, shall have no effect unless Section 1367.22 of the Health and Safety Code, as added by Assembly Bill 974 of the 1997–98 Regular Session, takes effect on or before July 1, 1999.

SEC. 4. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative

on the same date that the act takes effect pursuant to the California Constitution.

CHAPTER 70

[Approved by Governor June 19, 1998. Filed with Secretary of State June 22, 1998.]

The people of the State of California do enact as follows:

SECTION 1. Section 115825 of the Health and Safety Code is amended to read:

115825. (a) It is hereby declared to be the policy of this state that multiple use should be made of all public water within the state, to the extent that multiple use is consistent with public health and public safety.

(b) Except as provided in Sections 115840, 115840.5, and 115841, recreational uses shall not, with respect to a reservoir in which water is stored for domestic use, include recreation in which there is bodily contact with the water by any participant.

(c) This section shall remain in effect only until January 1, 2004, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2004, deletes or extends that date.

SEC. 3. Section 115840.5 is added to the Health and Safety Code, to read:

115840.5. (a) In the Modesto Reservoir, recreational uses shall not include recreation in which any participant has bodily contact with the water, unless both of the following conditions are satisfied:

before being used for domestic purposes. The disinfection shall include, but not be limited to, ozonation.

(2) The reservoir is operated in compliance with regulations of the department.

(b) The recreational use may be subject to additional conditions and restrictions adopted by the entity operating the water supply reservoir, if those conditions and restrictions do not conflict with regulations of the department, and are designed to further protect or enhance the public health and safety.

(c) The Modesto Irrigation District shall file, on or before January 1, 2002, with the Legislature, a report on the recreational uses at Modesto Reservoir and the water treatment program. The report shall include, but not be limited to, all of the following information:

(1) The estimated levels and types of recreational uses at the reservoir on a monthly basis.

(2) Levels of methyl tertiary butyl ether at various reservoir locations on a monthly basis.

(3) A summary of available monitoring in the Modesto Reservoir watershed for giardia and cryptosporidium.

(4) The sanitary survey of the watershed and water quality monitoring plan.

(5) An evaluation of recommendations relating to removal and inactivation of cryptosporidium and giardia as specified in the department water permit dated October 28, 1997.

(6) Annual reports provided to the department, as required pursuant to Sections I and IV of the department water permit dated October 28, 1997.

(7) An evaluation of the impact on source water quality due to recreational activities on the Modesto Reservoir, including any microbiological monitoring.

(8) A summary of any activities between the district and the county for operation of recreational uses and facilities in a manner that optimizes the water quality.

(9) The reservoir management plan and the operations plan.

(10) The annual water quality reports submitted to consumers each year.

(d) This section shall remain in effect only until January 1, 2004, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2004, deletes or extends that date.

SEC. 4. (a) The Legislature finds and declares that Section 3, which is applicable only to the Modesto Reservoir, is necessary because of the unique circumstances whereby recreational activities have continued at the reservoir while the Modesto Irrigation District has constructed a water treatment facility that has been authorized by the State Department of Health Services despite the requirements of Section 115825, and that the district will provide information to the Legislature regarding certain issues to ensure that continued recreational uses at the reservoir do not affect the

provision of domestic water to Modesto. It is therefore declared that a general law within the meaning of subdivision (b) of Section 16 of Article IV of the California Constitution cannot be made applicable, and that the enactment of this special law is necessary for recreation uses to continue at Modesto Reservoir during the study and reporting period.

(b) This section shall remain in effect only until January 1, 2004, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2004, deletes or extends that date.

(b) For each fiscal year commencing with 1991–92, there shall be Medi-Cal payment adjustment amounts paid to hospitals pursuant to this section. The amount of payments made and the eligible hospitals for each payment adjustment year shall be determined in accordance with the provisions of this section. The payments are intended to support health care services rendered by disproportionate share hospitals.

(c) For each fiscal year commencing with 1991–92, the department shall issue a disproportionate share list. The list shall be developed in accordance with subdivisions (e) and (f), and shall serve as a basis for payments under this section for the particular payment adjustment year.

(d) (1) Except as otherwise provided by this section, the payment adjustment amounts under this section shall be distributed

as a supplement to, and concurrent with, payments on all billings for Medi-Cal acute inpatient hospital services that are paid through Medi-Cal claims payment systems on or after July 1, 1991. In connection with those billings, the department shall pay payment adjustment amounts in accordance with subdivision (g), (h), (i), or (j), as applicable, to any hospital qualifying under subdivision (e). In addition, the department shall pay to each of those hospitals any supplemental lump-sum payment adjustment amounts that are payable, and shall adjust payment amounts, in accordance with applicable provisions of this section. The nonfederal share of all payment adjustment amounts shall be funded by amounts from the fund. The department shall obtain federal matching funds for the payment adjustment program through customary Medi-Cal accounting procedures.

(2) As a limitation to paragraph (1), all payment adjustment amounts under this section, which are due with respect to billings paid through Medi-Cal claims payment systems on or after July 1, 1991, shall be suspended until the time federal approval is first obtained for the payment adjustment program as part of the Medi-Cal program. For purposes of this paragraph, federal approval requires both (i) approval by appropriate federal agencies of an amendment to the Medi-Cal State Plan, as referred to in subdivision (o), and (ii) confirmation by appropriate federal agencies regarding the availability of federal financial participation for the payment adjustment program at a level of at least 40 percent of the percentage of federal financial participation that is normally applicable for Medi-Cal expenditures for acute inpatient hospital services. At the time federal approval is first obtained, the department shall proceed pursuant to subparagraphs (A) and (B) in connection with the suspended payment adjustment amounts.

(A) Except as provided by subdivision (*l*), or by any other subdivision of this section, any payment adjustment amounts which were suspended shall, within 60 days, be paid for all those billings paid through Medi-Cal claims payment systems during periods of time, on or after July 1, 1991, for which federal approval is first effective for the payment adjustment program.

(B) Payment adjustment amounts shall not be paid in connection with any Medi-Cal billings which were paid through Medi-Cal claims payment systems during any period of time for which federal approval is not effective for the payment adjustment program.

(3) As a limitation to paragraph (1), the amendments to this section enacted during calendar year 1993 shall not be implemented until the department has obtained any approvals that are necessary under federal law. Until such time as all necessary federal approvals are obtained, the payment adjustment program shall continue as though no amendments had been enacted during calendar year 1993. At such time as all necessary federal approvals have been obtained, the amendments enacted during calendar year 1993, shall be

implemented effective as of the earliest effective date permissible under federal law.

(4) As a limitation to paragraph (1), amendments to this section enacted during calendar year 1994 shall not be implemented until the department has obtained any approvals that are necessary under federal law. Until all necessary federal approvals are obtained, the payment adjustment program shall continue as though no amendments had been enacted during calendar year 1994. When all necessary federal approvals have been obtained, the amendments enacted during calendar year 1994 shall be implemented effective as of the earliest effective date permissible under federal law. Notwithstanding any other provision of law, on or after the date that federal approval is obtained the payments made prior to that date with respect to the 1994–95 payment adjustment year or subsequent payment adjustment years shall be deemed nonfinal payments for purposes of this section and Section 14163. Any of those amounts paid or payable prior to that date shall then be compared to the payments that would have been made pursuant to the program changes as approved by the federal government for all periods of time permissible under federal law, and the difference, if any, shall be paid or recouped by the department, as appropriate.

(5) As a limitation to paragraph (1), amendments to this section enacted during June 1996 shall not be implemented until the department has obtained any approvals that are necessary under federal law. Until all necessary federal approvals are obtained, the payment adjustment program shall continue as though no amendments had been enacted during June 1996. When all necessary federal approvals have been obtained, the amendments enacted during June 1996 shall be implemented effective as of the earliest effective date permissible under federal law. Notwithstanding any other provision of law, on or after the date that federal approval is obtained, the payments made prior to that date with respect to the 1995–96 payment adjustment year shall be deemed nonfinal payments for purposes of this section and Section 14163. Any of those amounts paid or payable prior to that date shall then be compared to the payments that would have been made pursuant to the program changes as approved by the federal government for all periods of time permissible under federal law, and the difference, if any, shall be paid or recouped by the department, as appropriate.

(6) As a limitation to paragraph (1), any amendment of this section enacted during the period August 1, 1996, to September 30, 1996, inclusive, shall not be implemented until the department has obtained any approvals that are necessary under federal law. Until all necessary federal approvals are obtained, the payment adjustment program shall continue as though no amendments had been enacted during the period August 1, 1996, to September 30, 1996, inclusive. When all necessary federal approvals have been obtained, the amendments enacted during the period August 1, 1996, to September

30, 1996, inclusive, shall be implemented effective as of the earliest effective date permissible under federal law. Notwithstanding any other provision of law, on or after the date that federal approval is obtained, the payments made prior to that date with respect to the 1996–97 payment adjustment year shall be deemed nonfinal payments for purposes of this section and Section 14163. Any of those amounts paid or payable prior to that date shall then be compared to the payments that would have been made pursuant to the program changes as approved by the federal government for all periods of time permissible under federal law, and the difference, if any, shall be paid or recouped by the department, as appropriate.

(7) As a limitation to paragraph (1), any amendment of this section enacted during the period September 1, 1997 to September 30, 1997, inclusive, shall not be implemented until the department has obtained any approvals that are appropriate under federal law. Until appropriate federal approvals are obtained, the payment adjustment program shall continue as though amendments had not been enacted during the period September 1, 1997 to September 30, 1997, inclusive. When appropriate federal approvals have been obtained, the amendments enacted during the period September 1, 1997 to September 30, 1997, inclusive, shall be implemented effective as of the earliest effective date permissible under federal law. Notwithstanding any other provision of law, on or after the date that federal approval is obtained, the payments made prior to that date with respect to the 1997–98 payment adjustment year shall be deemed nonfinal payments for purposes of this section and Section 14163. Any of those amounts paid or payable prior to that date shall then be compared to the payments that would have been made pursuant to the program changes as approved by the federal government for all periods of time permissible under federal law, and the difference, if any, shall be paid or recouped by the department, as appropriate.

(8) As a limitation to paragraph (1), any amendment of this section enacted during the 1998 calendar year shall not be implemented until the department has obtained any approvals that are appropriate under federal law. Until appropriate federal approvals are obtained, the payment adjustment program shall continue as though amendments had not been enacted during the 1998 calendar year. When appropriate federal approvals have been obtained, the amendments enacted during the 1998 calendar year shall be implemented effective as of the earliest effective date permissible under federal law. Notwithstanding any other provision of law, on or after the date that federal approval is obtained, the payments made prior to that date with respect to the particular payment adjustment year shall be deemed nonfinal payments for purposes of this section and Section 14163. Any of those amounts paid or payable prior to that date shall then be compared to the payments that would have been made pursuant to the program changes as

approved by the federal government for all periods of time permissible under federal law, and the difference, if any, shall be paid or recouped by the department, as appropriate.

(e) To qualify for payment adjustment amounts under this section, a hospital shall have been included on the disproportionate share list for the particular payment adjustment year. The list shall consist of those hospitals which satisfy both of the following requirements:

(1) The hospital shall meet the federal requirements for disproportionate share status set forth in subsection (d) of Section 1396r-4 of Title 42 of the United States Code.

(2) Either of the following shall apply:

(A) The hospital's medicaid inpatient utilization rate, as defined in Section 1396r-4(b)(2) of Title 42 of the United States Code, shall be at least one standard deviation above the mean medicaid inpatient utilization rate for hospitals receiving medicaid payments in the state.

(B) The hospital's low-income utilization rate shall exceed 25 percent.

(f) (1) For the 1991–92 payment adjustment year, a disproportionate share list shall be issued by the department no later than 65 days after the enactment of this section. For subsequent payment adjustment years, a tentative listing shall be prepared by the department at least 60 days before the beginning of the particular payment adjustment year, and a disproportionate share list shall be issued no later than five days after the beginning of the particular payment adjustment year. All state agencies shall take all necessary steps to supply the most recent data available to the department to meet these deadlines. The Office of Statewide Health Planning and Development shall provide to the department quarterly access to the edited and unedited confidential patient discharge data files for all Medi-Cal eligible patients. The department shall maintain the confidentiality of that data to the same extent as is required of the Office of Statewide Health Planning and Development. In addition, the Office of Statewide Health Planning and Development shall provide to the department no later than March 1 of each year, the data specified by the department, as the data existed on the statewide data base file as of February 1 of each year (except that for the 1991–92 payment adjustment year, the Office of Statewide Health Planning and Development shall provide data as it existed on the statewide data base file as of August 30, 1991), from all of the following:

(A) Hospital annual disclosure reports, filed with the Office of Statewide Health Planning and Development pursuant to Section 443.31 or 128735 of the Health and Safety Code, for hospital fiscal years which ended during the calendar year ending 13 months prior to the applicable February 1.

(B) Annual reports of hospitals, filed with the Office of Statewide Health Planning and Development pursuant to Section 439.2 or 127285 of the Health and Safety Code, for the calendar year ending 13 months prior to the applicable February 1.

(C) Hospital patient discharge data reports, filed with the Office of Statewide Health Planning and Development pursuant to subdivision (g) of Section 443.31 or 128735 of the Health and Safety Code, for the calendar year ending 13 months prior to the applicable February 1.

(D) Any other materials on file with the Office of Statewide Health Planning and Development.

(2) The disproportionate share list shall show all of the following:

(A) The name and license number of the hospital.

(B) Expressed as a percentage, the hospital's Medi-Cal utilization rate and low-income utilization rate as referred to in paragraph (2) of subdivision (e). The department shall determine these rates in accordance with paragraph (4).

(C) Based on the hospital's low-income utilization rate, the hospital's low-income number.

(3) The department shall determine a hospital's satisfaction of paragraph (1) of subdivision (e) based on the most recent annual data available, as it existed on the Office of Statewide Health Planning and Development statewide data base file as of February 1 of each year, and August 30 for the 1991–92 payment adjustment year, whether the data relates to operations under present or previous ownership.

(4) To determine a hospital's Medi-Cal inpatient utilization rate and low-income utilization rate for purposes of disproportionate share lists, the department shall utilize the same methodology, formulae, and data sources as set forth in connection with interim determinations in Attachment 4.19-A of the Medi-Cal state plan (effective on or about July 1, 1990), and as subsequently amended by Medi-Cal State Plan amendments relating to the payment adjustment program submitted to and approved by the federal Health Care Financing Administration, except that the following shall apply:

(A) The calculations shall not be interim, but shall be final for purposes of this section.

(B) To the extent permitted by federal law, the payment adjustment amounts provided to hospitals pursuant to this section shall not be included for any purpose in the calculations and determinations made pursuant to this section.

(C) Any other variation otherwise required by this section or by federal law.

(D) The data utilized by the department shall relate to the hospital under present and previous ownership. When there has been a change of ownership, a change in the location of the main hospital facility, or a material change in patient admission patterns

during the 24 months immediately prior to the payment adjustment year, and the change has resulted in a diminution of access for Medi-Cal inpatients at the hospital, all as determined by the department, the department shall, to the extent permitted by federal law, utilize current data that are reflective of the diminution of access, even if the data are not annual data.

(E) Unless expressly provided otherwise by this section, the hospital's low-income utilization rate shall be based on the most recent annual data available from annual hospital reports existing on the Office of Statewide Health Planning and Development data base file as of February 1 of each year.

(F) (i) If, for the 1994–95 payment adjustment year, some or all of the annual data elements available to the department from hospital reports filed with the Office of Statewide Health Planning and Development for purposes of computing hospital low-income utilization rates are different than in prior years due to changes in data reporting requirements of the Office of Statewide Health Planning and Development or changes in other state health care programs, the department shall take such steps as are necessary to obtain from hospitals appropriate data in order to clarify the annual data filed with the Office of Statewide Health Planning and Development. This shall be done by the department in order to ensure that low-income utilization rates are determined in a manner as equivalent as possible to the approach and methodology used for the 1991–92 payment adjustment year.

(ii) The efforts of the department to obtain and apply data for the purposes described in clause (i) shall include a survey to collect, from one or more hospitals, any data necessary to calculate the low-income utilization rates in accordance with clause (i). The purpose for the survey shall be to clarify the data already included by hospitals in their annual reports submitted to the Office of Statewide Health Planning and Development. The data requested by the department in the survey may include, among other things, information regarding the manner in which payments made to hospitals under this section were reported by the hospitals to the Office of Statewide Health Planning and Development. The data requested may also include information regarding the manner in which hospitals reported figures relating to charity care, bad debts, and amounts received in connection with state or local indigent care programs.

(iii) In connection with any survey conducted under clause (ii), the department may require that hospitals submit responses in accordance with a deadline established by the department, and that the responses be supported by a verification of a hospital representative. Should any hospital not respond on a timely basis in accordance with protocols established by the department, the department shall utilize prior year data, adjusted by the department in its discretion, to calculate the hospital's low-income utilization rate.

(G) Notwithstanding any other provision of law, all payment adjustment amounts, including per diem payment adjustment amounts and supplemental lump-sum payment adjustments, paid or payable to a hospital under this section, shall be recorded on an accrual basis of accounting in reports filed by the hospital with the Office of Statewide Health Planning and Development or the department.

(5) For purposes of payment adjustment amounts under this section, each disproportionate share list shall be considered complete when issued by the department pursuant to paragraph (1). Nothing on a disproportionate share list, once issued by the department, shall be modified for any reason, other than mathematical or typographical errors or omissions on the part of the department or the Office of Statewide Health Planning and Development in preparation of the list.

(6) No Medi-Cal State Plan amendment of the type referred to in paragraph (4) shall be valid if inconsistent with this section. For those Medi-Cal State Plan amendments of the type referred to in paragraph (4), to be initially submitted to the federal Health Care Financing Administration on or after the operative date of this paragraph, these amendments shall be provided to representatives of the hospital industry, including, but not limited to, the California Healthcare Association, as soon as possible, but in no event less than 30 days prior to submission of the amendment to the federal Health Care Financing Administration. If, in the public interest, the director determines that exigent circumstances necessitate that the 30-day requirement cannot be met, the director shall immediately in writing advise the Chairperson of the Senate Committee on Health and Human Services and the Assembly Committee on Health of the exigent circumstances and the department's timetable for providing the amendment to the hospital industry.

(g) For each Medi-Cal day of acute inpatient hospital service paid by or on behalf of the department during a payment adjustment year, regardless of dates of service, to a hospital on the applicable disproportionate share list, where that hospital, on the first day of the payment adjustment year, is a major teaching hospital, the hospital shall be paid the sum of all of the following amounts, except as limited by other applicable provisions of this section:

(1) A minimum payment adjustment of three hundred dollars ($300).

(2) The sum of the following amounts, minus three hundred dollars ($300):

(A) A ninety dollar ($90) payment adjustment for each percentage point, from 25 percent to 29 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(B) A seventy dollar ($70) payment adjustment for each percentage point, from 30 percent to 34 percent, inclusive, of the

hospital's low-income number as shown on the disproportionate share list.

(C) A fifty dollar ($50) payment adjustment for each percentage point, from 35 percent to 44 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(D) A thirty dollar ($30) payment adjustment for each percentage point, from 45 percent to 64 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(E) A ten dollar ($10) payment adjustment for each percentage point, from 65 percent to 80 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(3) If the sum calculated under paragraph (2) is less than zero, it shall be disregarded for payment purposes.

(h) For each Medi-Cal day of acute inpatient hospital service paid by or on behalf of the department during a payment adjustment year, regardless of dates of service, to a hospital on the applicable disproportionate share list, where that hospital, on the first day of the payment adjustment year, is a children's hospital, the hospital shall be paid the sum of four hundred fifty dollars ($450), except as limited by other applicable provisions of this section.

(i) For each Medi-Cal day of acute inpatient hospital service paid by or on behalf of the department during a payment adjustment year, regardless of dates of service, to a hospital on the applicable disproportionate share list, where that hospital, on the first day of the payment adjustment year, is an acute psychiatric hospital or an alcohol-drug rehabilitation hospital, the hospital shall be paid the sum of all of the following amounts, except as limited by other applicable provisions of this section:

(1) A minimum payment adjustment of fifty dollars ($50).

(2) The sum of the following amounts, minus fifty dollars ($50):

(A) A ten dollar ($10) payment adjustment for each percentage point, from 25 to 29 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(B) A seven dollar ($7) payment adjustment for each percentage point, from 30 to 34 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(C) A five dollar ($5) payment adjustment for each percentage point, from 35 to 44 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(D) A two dollar ($2) payment adjustment for each percentage point, from 45 to 64 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(E) A one dollar ($1) payment adjustment for each percentage point, from 65 to 80 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(3) If the sum calculated under paragraph (2) is less than zero, it shall be disregarded for payment purposes.

(j) For each Medi-Cal day of acute inpatient hospital service paid by or on behalf of the department during a payment adjustment year, regardless of dates of service, to a hospital on the applicable disproportionate share list, where that hospital does not meet the criteria for receiving payments under subdivision (g), (h), or (i) above, the hospital shall be paid the sum of all of the following amounts, except as limited by other applicable provisions of this section:

(1) A minimum payment adjustment of one hundred dollars ($100).

(2) If the hospital is an emergency services hospital at the time the payment adjustment is paid, a two hundred dollar ($200) payment adjustment.

(3) The sum of the following amounts minus one hundred dollars ($100), and minus an additional two hundred dollars ($200) if the hospital is an emergency services hospital at the time the payment adjustment is paid:

(A) A forty dollar ($40) payment adjustment for each percentage point, from 25 percent to 29 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(C) A thirty dollar ($30) payment adjustment for each percentage point, from 35 percent to 44 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(D) A twenty dollar ($20) payment adjustment for each percentage point, from 45 percent to 64 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(E) A fifteen dollar ($15) payment adjustment for each percentage point, from 65 percent to 80 percent, inclusive, of the hospital's low-income number as shown on the disproportionate share list.

(4) If the sum calculated under paragraph (3) is less than zero, it shall be disregarded for payment purposes.

(k) (1) For any particular payment adjustment year, no hospital may qualify for payments under more than one subdivision among subdivisions (g), (h), (i), and (j). If any hospital qualifies under more than one subdivision, the department shall determine which subdivision shall apply for payments.

(2) For each payment adjustment year beginning with 1992–93, the total applicable per diem payment adjustment amount calculated for each eligible hospital pursuant to subdivision (g), (h), (i), or (j) shall be adjusted by a percentage identical to the percentage increase in transfer amounts that the department has authorized for use

pursuant to paragraph (1) of subdivision (h) of Section 14163 for the particular fiscal year.

(3) If an eligible hospital ordinarily is paid by or on behalf of the department for Medi-Cal acute inpatient hospital services based on a payment methodology other than per diem payments, the eligible hospital shall receive payment adjustment amounts under subdivision (g), (h), (i), or (j) of this section based on its approved Medi-Cal days of acute inpatient hospital care, in the same fashion as all other eligible hospitals under this section.

(*l*) (1) (A) In determining Medi-Cal days of service for purposes of payment adjustments under this section, the department shall recognize all acute inpatient hospital days of service required to be taken into account under federal law.

(B) For the 1992–93 payment year, the department may consider the Medi-Cal days of service provided by the qualifying hospitals for Medi-Cal patients covered by the prepaid health plans contracting directly with the Medi-Cal program in achieving their maximum payments.

(C) For 1993–94 and subsequent payment years, the department may consider the Medi-Cal days of service provided by hospitals for Medi-Cal patients covered by the prepaid health plans contracting directly with the Medi-Cal program in determining the Medi-Cal utilization rate and the maximum days of payment. Additionally, the department may consider the days of service provided by the qualifying hospitals for Medi-Cal patients covered by the prepaid health plans contracting directly with the Medi-Cal program in achieving their maximum payments in those payment years.

(D) In order to meet the requirements of subparagraph (C), the Office of Statewide Health Planning and Development shall provide to the department quarterly access to all data elements on the edited and unedited confidential patient discharge data files, including Social Security account numbers. The department shall match these data with the department's Medi-Cal Eligibility Data System files to extract any data necessary to meet the requirements of subparagraph (C). The department shall maintain the confidentiality of all patient discharge data to the same extent as is required of the Office of Statewide Health Planning and Development.

(2) Notwithstanding paragraph (1), there shall be, for each eligible hospital, a maximum limit on the number of Medi-Cal acute inpatient hospital days for which payment adjustment amounts may be paid under this section with respect to each payment adjustment year. The maximum limit shall be that number of days that equals 80 percent of the eligible hospital's annualized Medi-Cal inpatient paid days, as determined from all Medi-Cal paid claims records available through April 1 preceding the beginning of the payment adjustment year.

(m) No payment rate for any service rendered by any hospital under the Medi-Cal selective provider contracting program shall be reduced as a result of this section.

(n) Notwithstanding any other provision of law, to the extent consistent with federal law, and except as provided by this section, no maximum payment limit shall be placed on the amount of Medi-Cal payment adjustments which may be made to disproportionate share hospitals. The payments made to disproportionate share hospitals pursuant to this section and Section 14105.99 shall not cause any other amounts paid or payable to a hospital to be deemed in excess of any applicable maximum payment limit.

(o) The department shall promptly seek any necessary federal approvals in order to implement this section, including any amendments. Pursuant to Section 1396r-4 of Title 42 of the United States Code, and related federal medicaid statutes and regulations, payment adjustment systems for inpatient hospital services rendered by disproportionate share hospitals shall be included in a state's medicaid plan. Therefore, the department shall, prior to the end of the calendar quarter during which this section is enacted or amended, submit for federal approval an amendment to the Medi-Cal State Plan in connection with the payment adjustment program.

(p) (1) The department shall compute, prior to the beginning of each payment adjustment year, the projected size of the payment adjustment program for the particular payment adjustment year. To do so, the department shall determine the projected total payment adjustment amount for each eligible hospital, and shall add these amounts together to determine the projected total size of the program. To the extent this projected total figure for the program exceeds the portion of the maximum state disproportionate share hospital allotment for California under federal law that the department anticipates will be available for the period in question, the department shall reduce the total per diem composite amounts of the various eligible hospitals in the fashion described below so that the allotment in question will not be exceeded.

(2) As an initial step, all total per diem composite amounts for the entire payment adjustment year shall be reduced proportionately not to exceed 2 percent of each total per diem composite amount.

(3) If the reductions authorized by paragraph (2) are insufficient to align the program with the federal allotment for California, then, to the extent permitted by federal law, the following shall apply:

(A) The adjusted total per diem composite amounts, as calculated under paragraph (2), shall remain in effect for each eligible hospital whose low-income number is 30 percent or more.

(B) The adjusted total per diem composite amounts, as calculated under paragraph (2), for all other eligible hospitals shall be further reduced proportionately to align the program with the federal

allotment, but in no event to a level that is less than 65 percent of the total per diem composite amount that would have been payable to the eligible hospital had no reductions taken place.

(4) If the steps set forth in paragraph (3) are not permissible under federal law, or are not adequate to align the program with the federal allotment, the adjusted total per diem composite amounts for all eligible hospitals for the entire payment adjustment year shall be further reduced proportionately to align the program with the federal allotment, but in no event to a level that would result in adjusted total per diem composite amounts that are less than 65 percent of the total per diem composite amounts that would have been payable had no reductions taken place.

(5) When all eligible hospitals have been reduced to the 65-percent level set forth in paragraphs (3) and (4), the adjusted total per diem composite amounts for all eligible hospitals shall be further reduced proportionately as necessary to align the program with the federal allotment.

(6) This subdivision shall not apply to the 1995–96 payment adjustment year.

(q) (1) If it is necessary to apply the provisions of paragraph (3) of subdivision (p) at any time, the department shall, as soon as practicable, evaluate why the insufficiency arose and identify the projected occurrence and duration of any future insufficiencies.
