This bill would require the board to adopt an emergency regulation no later than January 15, 1999, revising the bloodborne pathogen standard, as specified. The bill would require the board to complete the regulation adoption process and would require the final regulation to be operative no later than August 1, 1999. The bill would specify that the board's emergency regulation would expire when the final regulation becomes operative or August 1, 1999, whichever first occurs. Because certain violations of these new requirements would be a misdemeanor, the bill would impose a state-mandated local program. The bill would require the Division of Occupational Safety and Health to create an advisory committee with prescribed membership to review the changes in the board's regulation mandated by the bill and to report thereon to the Legislature by December 31, 2002. The bill would require the division and the State Department of Health Services to jointly compile and make available a list of needleless systems and needles with engineered needle stick protection.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1000 (SB 262) Burton. Damages.

Existing law provides that any person who knowingly uses another's name, voice, signature, photograph, or likeness, in any manner, on or in products, merchandise, or goods, or for purposes of advertising or selling, or soliciting purchases of, products,

merchandise, goods or services, without that person's prior consent, or, in the case of a minor, the prior consent of his or her parent or legal guardian, is liable for any damages sustained by the person or persons injured as a result thereof. Existing law provides that, in addition, the person who violated these provisions is liable to the injured party or parties in an amount equal to the greater of \$750 or the actual damages suffered by him or her as a result of the unauthorized use, and any profits from the unauthorized use that are attributable to the use and are not taken into account in computing the actual damages.

This bill would provide that a person is liable, as specified, for a physical invasion of privacy when the defendant knowingly committed an act of trespass in order to physically invade the privacy of the plaintiff with the intent to capture any type of visual image, sound recording, or other physical impression of the plaintiff engaging in a personal or familial activity, as specified, and the physical invasion occurs in a manner that is offensive to a reasonable person. The bill would also provide that a person is liable, as specified, for a constructive invasion of privacy when the defendant attempted to capture, in a manner that is offensive to a reasonable person, any type of visual image, sound recording, or other physical impression of the plaintiff engaging in a personal or familial activity under circumstances in which the plaintiff had a reasonable expectation of privacy, through the use of a visual or auditory device if the image, recording, or other physical impression could not have been captured without an act of trespass unless a visual or auditory enhancing device was used.

Ch. 1001 (SB 705) Rainey. Human immunodeficiency virus.

(1) Existing law provides, except in the case of the removal of an afflicted person in a manner the least dangerous to the public health, that any person afflicted with any contagious, infectious, or communicable disease who willfully exposes himself or herself to another, and any person who willfully exposes another person afflicted with a disease of that nature, is guilty of a misdemeanor.

This bill would provide that any person who exposes another to the human immunodeficiency virus (HIV) by engaging in unprotected sexual activity, as defined, when the infected person knows at the time of the unprotected sex that he or she is infected with HIV, has not disclosed his or her HIV-positive status, and acts with the specific intent to infect the other person with HIV, is instead guilty of a felony punishable by imprisonment in the state prison for 3, 5, or 8 years. The bill would provide that evidence that the person had knowledge of his or her HIV-positive status shall not be sufficient to prove specific intent.

The bill would provide for the protection of the confidentiality of the identity of the victim in the above action.

(2) Existing law contains several provisions designed to protect the privacy of individuals who are the subject of blood testing for antibodies to the probable causative agent of acquired immune deficiency syndrome, including a provision making certain disclosures a misdemeanor, and provisions requiring written consent prior to testing a person's blood for evidence of antibodies to the probable causative agent of acquired immune deficiency syndrome.

This bill would require, notwithstanding those provisions, identifying information, as defined, and other records of the diagnosis, prognosis, testing, or treatment of any person relating to the human immunodeficiency virus to be disclosed in a criminal investigation for a violation of the provisions described in paragraph (1) if authorized by a court order. The bill would require a court, in deciding whether to issue an order, to weigh the public interest and the need for disclosure against any potential harm to the defendant, as prescribed, and upon issuance of an order, to impose safeguards against unauthorized disclosure, as prescribed. It would prohibit the court from ordering disclosure under this provision for any other type of proceeding.

By creating new crimes this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1002 (SB 844) Burton. Vehicles.

Existing law requires the Department of Motor Vehicles to issue special interest license plates, as specified, containing a distinct design or decal of participating organizations, to any person, to be displayed in lieu of regular license plates. Existing law prohibits the department from issuing any special interest license plate until the participating organization has received and submitted to the department not less than 5,000 applications for that particular plate within existing time limitations.

This bill would delete from the special interest license plates program the Monterey Bay National Marine Sanctuary, the Coachella Valley Mountain Conservancy and the Friends of the Desert Mountains, the Gene Chappie Heritage Network Act of 1992, the American Heritage Rodeo Foundation, and the firefighter personal vehicle special license plates, and would add a red ribbon special interest license plate that recognizes the impact of acquired immune deficiency syndrome (AIDS) on society to the special interest license plate program. The bill would require the additional funds collected by the issuance of red ribbon special interest license plates to be deposited in the AIDS Research Account, created by the bill, in the General Fund to be used, when appropriated, to fund AIDS research grants awarded by the University of California. The bill also would authorize the University of California, for the purpose of meeting the requirement that not less than 5,000 applications for the special interest license plate be received and submitted to the department, to contract with a private, nonprofit entity that is exempt from taxation under specified provisions of the Internal Revenue Code.

Ch. 1003 (SB 1520) Kopp. Jury fees: retention.

Existing law provides that nonrefundable jury fees, and jury and mileage fees which accrue by reason of a juror serving on more than one case in the same day, shall revert to the county and be deposited in the county general fund.

This bill would instead provide that those fees shall be transmitted to the Controller for deposit in the Trial Court Trust Fund. The bill would also revise the basis upon which a deposit of jury fees shall not be refunded, as specified.

Existing law provides that jury fees shall not be returned in the event the action or proceeding is dismissed or the trial by jury is waived after deposit of jury fees.

This bill would repeal that provision.

Ch. 1004 (AB 1935) Aroner. Trial court funding.

(1) Existing law provides that nonrefundable jury fees, and jury and mileage fees which accrue by reason of a juror serving on more than one case in the same day, shall revert to the county and be deposited in the county general fund.

This bill would instead provide that those fees shall be transmitted to the Controller for deposit in the Trial Court Trust Fund. The bill would also revise the basis upon which a deposit of jury fees shall not be refunded, as specified.

(2) Existing law requires specified court fees to be deposited upon collection in a special account in the county treasury and transmitted therefrom monthly to the Controller for deposit in the Trial Court Trust Fund.

This bill would revise the fees to which this provision applies.

(3) Existing law requires the trial courts to report to the Judicial Council, and the Judicial Council to report to the Legislature, regarding trial court coordination.

This bill would revise and recast those requirements.

(4) Existing law requires the Trial Court Budget Commission to prepare an allocation of trial court funding payments to the counties.

This bill would instead require the schedule to provide for trial court funding payments to the trial courts, and would revise related requirements.

(5) Existing law requires, for the purposes of funding trial court operations, that each board of supervisors establish in the county treasury a Trial Court Operations Fund, which will operate as a special revenue fund.

This bill would instead require that such a fund operate as an agency fund.

The bill would further authorize a county to lend money to its trial courts for emergency needs according to procedures adopted by the Judicial Council, as specified. The bill would limit obligations which may be incurred that are paid from funds distributed from the Trial Court Operations Fund, and would authorize the Judicial

Council to appoint a person or entity to manage the expenditures from the Trial Court Operations Fund with respect to specified courts. The bill would authorize individual trial courts to contract for county services, as specified.

(6) Existing law specifies the duties of the Task Force on Court Facilities.

This bill would revise the duties of the Task Force, as specified.

Ch. 1005 (SB 489) Alpert. Public records: confidential information.

(1) Under existing law, the California Public Records Act, requires that any public record be open to inspection at all times during the regular office hours of a state or local agency and provides that every person has a right to inspect any public record or writing, with specified exceptions. Existing law relating to public records also provides for the confidentiality of certain voter registration information and certain information relating to the victims of crime.

This bill would establish a program until January 1, 2005, under which an adult person, or a guardian on behalf of a minor or an incapacitated person, states that he or she is a victim of domestic violence, as defined, and fears for his or her safety, and designates the Secretary of State as the agent for service of process and receipt of mail. When the Secretary of State certifies the person as a program participant, his or her actual address is confidential. The bill would hold harmless the office of the Secretary of State from any liability in any action brought by any person injured or harmed as a result of the handling of first-class mail on behalf of program participants. The bill would also permit a program participant to vote in a confidential manner, as specified, and permit the participant to make marriage application information confidential. The bill would specify the grounds for termination of certification. This bill would make it a misdemeanor to make a false statement in an application, thereby creating a state-mandated local program.

(2) Existing law provides that the home address, telephone number, occupation, precinct number and prior registration information on a voter registration card is confidential. It prohibits that information from appearing on any computer terminal list, affidavit, duplicate affidavit, or other medium routinely available to the public at the county elections official's office.

This bill would, in addition, permit any person filing a new affidavit of registration or reregistration to have his or her address and telephone number appearing on the affidavit or any list, roster, or index prepared from the affidavit, declared confidential upon presentation of certification that the person is a participant in the address confidentiality of victims and domestic violence program.

This bill would impose a state-mandated local program by requiring that any person granted confidentiality pursuant to this bill be considered an absent voter for subsequent elections until the county elections official is notified otherwise by the Secretary of State or the voter.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

(4) This bill would appropriate \$227,023 to the Secretary of State for the costs of specified provisions of the bill for the 1998-99 fiscal year.

Ch. 1006 (AB 1102) Knox. Public employees retirement: sick leave.

(1) The State Teachers' Retirement Law provides for service credit at retirement for unused sick leave for persons who were members prior to July 1, 1980.

This bill would make that benefit applicable to any member who retires on or after January 1, 1999.

(2) The State Teachers' Retirement Law requires specified amounts to be annually transferred to the Supplemental Benefit Maintenance Account in the Teachers' Retirement Fund for the purpose of funding supplemental benefit payments.

This bill would repeal that provision and instead require a continuous appropriation to be annually made from the General Fund to that account in a specified amount for purposes of funding these supplemental payments. The bill would make a statement of legislative intent respecting the contractual obligation of those annual appropriations and would make related changes.

(3) The State Teachers' Retirement Law prescribes a 2% at age 60 service retirement formula.

The bill would provide that members with 30 or more years of credited service would receive an additional increase.

(4) The Public Employees' Retirement Law provides that state, school, and school safety members receive, at retirement, service credit for unused sick leave. The benefit is inapplicable to persons who became school or school safety members on or after July 1, 1980.

This bill would make that benefit applicable to school members who retire on or after January 1, 1999. The bill would require their employers to make additional contributions fixed and determined by the board of administration.

(5) The bill would provide that the State Teachers' Retirement Law provisions would become operative only if AB 2804 and AB 1150 are also enacted and become operative.

Ch. 1007 (SB 1587) Alpert. Public social services: drug courts.¹²

Under existing law, the State Department of Alcohol and Drug Programs is responsible for administering, coordinating, and funding a number of drug and alcohol treatment and prevention programs in conjunction with both state agencies and local governments. Existing law also provides that, subject to certain restrictions, criminal actions involving specified drug offenses may, upon a determination by the prosecutor, be referred to a deferred entry of judgment program, where upon successful completion of a drug court program, charges against a defendant may be dismissed.

This bill would establish a Drug Court Partnership program, administered by the State Department of Alcohol and Drug Programs, for the purpose of demonstrating the effectiveness of drug courts. The bill would establish a competitive grants program to which county alcohol and drug program administrators may submit grant requests as part of multiagency plans that identify the resources and strategies needed for effective drug court programs. The bill would establish specified components of these submitted plans, and define standards for the awarding of grants. The bill would require the department, together with the Judicial Council, to submit reports to the Legislature.

The bill would appropriate \$8,000,000 from the General Fund to the department to be expended for purposes of the Drug Court Partnership program. The bill would also declare the intent of the Legislature to fund the Drug Court Partnership program for specified fiscal years.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1008 (AB 1909) Wayne. Pollution control: financing authority.

Existing law establishes the California Pollution Control Financing Authority, with specified powers and duties, and authorizes the authority to approve financing for projects to prevent or reduce environmental pollution.

This bill would include projects to remediate environmental pollution, and projects for soil excavation and removal, and construction, operation, and maintenance of systems that extract, contain, or treat groundwater, soil vapor, gas, or leachate.

The bill would define pollution for purposes of the above provisions to include hazardous waste disposal, the release of hazardous materials, and the contamination of soil or groundwater resulting from the release of hazardous materials at sites with a reasonable potential for economically beneficial reuse.

The bill would also require the authority, in order to assist with the use of its financing powers to remediate contaminated real property, to prepare and submit to the Legislature by July 1, 1999, an analysis of specified matters relating to the financing powers of the authority.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 1009 (AB 823) Gallegos. Medi-Cal: managed care.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public assistance recipients and certain other low-income persons. Under existing law, Medi-Cal services may be provided to a beneficiary or eligible applicant by an individual provider, or through a prepaid managed health care plan, pilot project, or fee-for-service case management provider.

Under existing law, each beneficiary or eligible applicant shall be provided with information as to health care options, including certain provider information.

Under existing law, an applicant who chooses to enroll in a managed care plan, pilot project, or fee-for-services case management provider to indicate his or her choice of a primary care provider.

This bill would revise the existing provisions relating to provider information, including specifying the format in which the information shall be organized. This bill would authorize an applicant who chooses to enroll in a managed care plan, pilot project, or fee-for-services case management provider, to indicate a choice of clinic as well as of a primary care provider.

Ch. 1010 (AB 1092) Goldsmith. Subletting and Subcontracting Fair Practices Act: bidding practices.

The Subletting and Subcontracting Fair Practices Act requires the entity taking bids for the construction of any public work or improvement to specify that any person making a bid or offer to perform the work shall, in his or her bid or offer, set forth the name and location of the place of business of, and the portion of the work to be done by, each subcontractor who will perform work or labor or render service to the prime contractor in or about the work or improvement, or a subcontractor who, under subcontract to the prime contractor, specially fabricates and installs a portion of the work according to specifications, in an amount in excess of $\frac{1}{2}$ of 1% of the prime contractor's total bid, or in the case of bids or offers for the construction of streets or highways, including bridges, in an amount in excess of $\frac{1}{2}$ of 1% of the prime contractor's total bid or \$10,000, whichever is greater.

This bill would provide that any information requested by the entity taking bids concerning any subcontractor who the prime contractor is required to list, other than the subcontractor's name and location of business, may be submitted by the prime contractor up to 24 hours after the deadline established by that entity for receipt of bids by prime contractors. It would authorize a state or local agency to implement this provision at its option. It would additionally require the entity taking bids to set forth in the bid invitation a date and time for closing of submission of bids by prime contractors, which shall be extended by no less than 72 hours in the event that entity issues any material changes, additions, or deletions to the invitation later than 72 hours prior to the bid.

Ch. 1011 (SB 537) Greene. Genetic diseases: expanded newborn screening program.

Existing law, the Holden-Moscone-Garamendi Genetically Handicapped Person's Program, requires the Director of Health Services to establish and administer a program for the medical care of persons with genetically handicapping conditions, and requires the department to establish a rate structure for physician and surgeon reimbursement, and to establish an enrollment fee.

Existing law requires the State Department of Health Services to establish a genetic disease unit to promote a statewide program of information, testing, and counseling services and creates the continuously appropriated Genetic Disease Testing Fund for that purpose and into which fees obtained for the performance of these tests are deposited.

This bill would require the department to establish a program to provide extended newborn genetic screening services for persons who elect to have, and pay for, the additional screening, and would require the department to charge a fee not to exceed the costs of these additional screenings, that would be deposited into the Genetic Disease Testing Fund, thus constituting an appropriation.

The bill would authorize, for the fiscal year 1998-99, the sum of \$1,000,000 to be expended by the department from the unencumbered reserves of that fund for purposes of the program.

This bill would require the department to report to the Legislature by June 30, 2000, and would repeal all of its provisions on January 1, 2002.

Ch. 1012 (AB 3) Baca. Local agency military base recovery areas.

Under the Local Military Base Recovery Area Act, a local governing body may propose to the Trade and Commerce Agency an eligible area as the geographic area for a local agency military base recovery area (LAMBRA).

This bill would provide for specified loan priorities and contract preference points for businesses located in, or contracts performed at worksites within, a LAMBRA, as specified.

Under the act, the agency is limited to designating 5 LAMBRAs.

This bill would increase the number of LAMBRAs that may be designated to 8. The bill would also provide that not less than one LAMBRA shall be designated from each region.

Under existing law, for each taxable or income year beginning on or after January 1, 1995, and before January 1, 2003, a taxpayer under the Personal Income Tax Law or the Bank and Corporation Tax Law may claim certain tax incentives for activities conducted in a LAMBRA, including, among others, a tax credit for a specified portion of the wages paid to a qualified disadvantaged individual or a qualified displaced employee on wages paid or incurred by the taxpayer up to \$2,000,000 during a 5-year period, and an expense deduction for the costs of certain depreciable property, the minimum amount of which begins at \$5,000 and increases from year to year to \$10,000 in accordance with a specified schedule.

This bill would delete the January 1, 2003, limitation, and, for purposes of the tax credit for wages paid to a "qualified disadvantaged individual," revise and recast, as provided, that portion of the definition of a "qualified disadvantaged individual" that pertains to an individual's status upon commencement of employment. This bill also would, for purposes of the expense deduction for the costs of certain depreciable property, limit the credit to 40 percent of those costs, and would replace the current schedule setting forth the maximum amounts of the deduction with a new schedule that provides for a maximum amount that begins at \$100,000 and decreases from year to year to \$50,000.

Ch. 1013 (AB 1439) Granlund. Health care practitioners: identification: mental health: involuntary commitments.

(1) Existing law provides for the licensure and regulation of healing arts professionals, and defines the term "health care practitioner" for certain purposes.

This bill would require a health care practitioner to disclose his or her practitioner's credentials on a name tag while working, and would prohibit any person other than a registered nurse or a licensed vocational nurse from using the title "nurse," with certain exceptions.

(2) Existing law authorizes the involuntary detention for a period of 72 hours for evaluation of persons who are dangerous to self or others, or gravely disabled, as defined.

Under existing law, if a person is detained for 72 hours and has received an evaluation, he or she may be certified for not more than 14 days of intensive treatment related to his or her mental disorder or impairment by chronic alcoholism in accordance with specified requirements.

Under existing law, for a person to be certified for treatment, a notice of certification must be signed by 2 persons. When a physician or psychologist is not available, the 2nd person to sign this notice may be either a social worker or registered nurse.

This bill would expressly require the social worker to be a licensed clinical social worker.

Ch. 1014 (AB 2198) Washington. Children's services: alcohol- or drug-exposed and HIV positive children: placement.

Existing law provides for a demonstration project for the provision of placement services for children who are exposed to alcohol or drugs or who are HIV positive.

Existing law defines “eligible child” for purposes of these provisions, requires a participating county to recruit and train foster families for purposes of providing care to eligible children, and sets forth various requirements of a participating county with regard to the selection of foster homes, preparation of case plans, and submission of progress reports.

This bill would establish a program for special training and services to facilitate the adoption of children who are HIV positive or who have a condition or symptoms resulting from substance abuse by the mother and who are dependent children of the court or who have an adoption case plan and reside with a preadoptive or adoptive caregiver. The bill would specify that preadoptive parents trained by health care professionals may provide specialized in-home health care to children placed by the county pursuant to certain procedures.

The bill would appropriate \$1,000,000 from the General Fund to the State Department of Social Services to implement the program established pursuant to the bill.

Ch. 1015 (AB 682) Morrow. Health care service plans: 24-hour access.

Existing law generally requires a health care service plan, or its contracting medical providers, to provide 24-hour access for enrollees and providers to obtain timely authorization for medically necessary care for circumstances under which the enrollee has received emergency services and care and is stabilized, but the treating provider believes the enrollee may not be transferred or discharged safely.

This bill would delete that requirement for circumstances under which the provider believes the enrollee may not be transferred safely.

Existing law requires the Department of Corporations to adopt, by July 1, 1995, regulations, on an emergency basis, governing instances when an enrollee requires medical care following stabilization of an emergency condition. Existing law exempts from those requirements a provider with which a health care service plan has a contract that includes the provision of emergency services and care and necessary medical care. Willful violation of the law regulating health care service plans is a crime.

This bill would delete that exemption. By expanding the definition of a crime, the bill would impose a state-mandated local program. This bill would also require the department to adopt emergency regulations, by July 1, 1999, governing instances when an enrollee in the opinion of the treating provider requires necessary medical care following stabilization, as described, of an emergency medical condition.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1016 (SB 277) Maddy. Emergency medical services.

(1) Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for the licensure and regulation of health care service plans administered by the Commissioner of Corporations. Under existing law, willful violation of any of these provisions is punishable as either a felony or a misdemeanor.

Existing law requires a health care service plan to reimburse providers for emergency services and care provided to its enrollees until the care results in stabilization of the enrollee, except under certain conditions, and requires the health care service plan to assume responsibility for the care of the patient if there is a disagreement between the plan and the provider regarding the need for necessary medical care. Existing law exempts from these requirements both a provider with which the health care service plan has a contract that includes the provision of emergency services and care and necessary medical care and a health care service plan that has 3,500,000 enrollees and maintains a prior authorization system that includes the availability by telephone within 30 minutes of an emergency physician who is on duty at an emergency department of a general acute care hospital.

This bill would instead exempt from these requirements only a nonprofit health care service plan that has 3,500,000 enrollees and maintains a prior authorization system that includes the availability by telephone within 30 minutes of a practicing emergency room

physician. Since a willful violation of the provisions applicable to health care service plans is a crime, this bill, by changing the definition of a crime, would impose a state-mandated local program.

(2) Existing law authorizes each county to establish an Emergency Medical Services Fund to be available in each county for reimbursement of certain costs relating to emergency medical services pursuant to a prescribed schedule.

Existing law entitles a physician and surgeon with a gross billings arrangement with a hospital to receive reimbursement from the fund for services provided in that hospital if certain conditions are met, including, but not limited to, provision of the services in a basic or comprehensive general acute care hospital emergency department.

This bill would expand this reimbursement category to also include provision of services in a standby emergency department in a small and rural hospital, as defined. By expanding the scope of physicians and surgeons to whom the fund is required to provide reimbursement, this bill would impose a state-mandated local program.

This bill would incorporate changes to Section 1371.4 of the Health and Safety Code made by AB 682 if both this bill and AB 682 are chaptered and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 1017 (AB 2788) Thomson. Trial court funding.

Existing law specifies the amounts which a county is required to remit to the state for purposes of trial court funding, and makes various adjustments to those amounts in specified circumstances.

This bill would revise the amounts of certain remittances and would revise the conditions governing various adjustments, as specified.

The bill would appropriate \$16,559,000 for transfer from the General Fund to the Trial Court Trust Fund in augmentation of Item 0450-111-0001 of the Budget Act of 1998.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1018 (SB 687) Hughes. Health.¹³

The Budget Act of 1998 contains appropriations for breast cancer early detection services and for the Expanded Access to Primary Care Program.

This bill would appropriate \$13,218,000 for specified health purposes, including \$4,209,000 from the Health Education Account in the Cigarette and Tobacco Products Surtax Fund to augment that appropriation, \$9,200,000 from the General Fund to the State Department of Health Services to augment the Budget Act of 1998 appropriation to the State Department of Health Services for the Expanded Access to Primary Care Program, and \$1,800,000 from the General Fund to the State Department of Health Services for the provision of health care to children in the Children's Treatment Program.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1019 (AB 228) Migden. Solid waste: tires.

(1) Existing law, the California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, establishes an integrated waste management program. Existing law imposes civil and criminal penalties for directing or transporting waste tires to waste tire facilities that have not been issued a permit and provides for specified penalties to be deposited in the California Tire Recycling Management Fund, to be available for specified purposes.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would also impose criminal penalties for abandoning waste tires at an unauthorized facility, thereby imposing a state-mandated local program by creating a new crime.

The bill would permit the board to designate, in writing, a city, county, or city and county, upon request thereby, to exercise the enforcement authority granted to the board for violations concerning waste tire facilities. The bill would, if the action is brought by an attorney who represents the city, county, or city and county, permit the penalties collected to be retained by the designated city, county, or city and county. The bill would make related changes.

(2) This bill would incorporate additional changes in Sections 42825, 42835, and 42850 of the Public Resources Code, proposed by AB 2181, to be operative only if AB 2181 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1020 (AB 117) Escutia. Solid waste: tire fees.

Existing law, the California Integrated Waste Management Act of 1989, administered by the California Integrated Waste Management Board, establishes an integrated waste management program.

The existing California Tire Recycling Act, which is a part of the integrated waste management act, requires every person until June 30, 1999, who purchases a new tire from a retail seller of new tires to pay a fee of \$0.25 per tire to the seller. The tire recycling act authorizes the seller to retain 10% of that fee as reimbursement for any costs associated with the collection of the fee and requires the remainder to be remitted to the state on a quarterly basis for deposit in the California Tire Recycling Management Fund.

This bill would extend the operation of these fee provisions to January 1, 2001.

The bill would also require the board to submit a preliminary waste tire report, on specified matters relating to tire recycling, together with recommendations for legislation, to the Legislature and the Governor not later than May 1, 1999, with the assistance of a working group of affected parties convened by the board. The bill would require a final report on these matters to be submitted to the Legislature and the Governor not later than June 30, 1999.

Existing law requires the money in the fund, except for specified refunds, to be appropriated in the annual Budget Act to the board, for specified purposes with regard to tire recycling, enforcement, remedial action, studies, a shredding program, purchase preferences, waste hauler program, and the Farm and Ranch Solid Waste Cleanup and Abatement Grant Program.

This bill would declare the intent of the Legislature that the board, in expending money from the fund in the 1999–2000 fiscal year, emphasize the purposes of permitting, enforcement, and cleanup.

Ch. 1021 (SB 1847) Schiff. Transportation: Los Angeles County Metropolitan Transportation Authority: Pasadena Metro Blue Line Construction Authority.

(1) Existing law establishes the Los Angeles County Metropolitan Transportation Authority (hereafter the LACMTA) as the single successor agency to the Southern California Rapid Transit District and the Los Angeles County Transportation Commission. The LACMTA is responsible for most transit guideway projects in Los Angeles County and has specified duties and responsibilities with regard to transportation.

This bill would establish the Pasadena Metro Blue Line Construction Authority for the purpose of awarding and overseeing all design and construction contracts for completion of the Los Angeles-Pasadena Metro Blue Line light rail project from Union Station in the City of Los Angeles to Sierra Madre Villa Boulevard in the City of Pasadena and any mass transit guideway that may be planned east of Sierra Madre Villa Boulevard along the rail right-of-way extending to the City of Claremont.

The bill would require the construction authority to (a) conduct the financial studies and the planning and engineering necessary for completion of the project, (b) adopt an administrative code, including a specified code of conduct, not later than 60 days after establishment of the construction authority, for administration of the construction authority in accordance with laws relating to open meetings of public entities, contracting and procurement, contracting goals for minority and women business participation, and political reform, and (c) complete a detailed management, implementation, safety, and financial plan for the project and submit the plan to the Governor, the Legislature, and the California Transportation Commission not later than 90 days after establishment of the construction authority.

The bill would require that the construction authority be governed by a board consisting of 5 voting members and one nonvoting member, appointed to terms of 4 years. Three members would be appointed by the City Councils of the Cities of Los Angeles, Pasadena, and South Pasadena, with each city council appointing one member by a majority vote of the membership of that city council. One member would be appointed by the President of the Governing Board of the San Gabriel Valley Council of Governments, subject to confirmation by that board. One member would be appointed by the LACMTA. The nonvoting member would be appointed by the Governor.

The bill would permit the governing board to appoint an executive director to serve at the pleasure of the construction authority. The executive director would be authorized to appoint staff or retain consultants as necessary to carry out the duties of the construction authority. The bill would require that all contracts approved and awarded by the executive director be awarded in accordance with state law relating to procurement. The bill would require that the awards be based on price or competitive negotiation, or on both of those things.

The bill would require the LACMTA to identify and expeditiously enter into an agreement with the construction authority to hold in trust with the construction authority all real and personal property, and any other assets, accumulated in the planning, design, and construction of the project, including, but not limited to, rights-of-way, documents, third-party agreements, contracts, and design documents, as necessary for completion of the project.

The bill would require the LACMTA to return the unencumbered balance of all local funds currently programmed for completion of the project and that have been identified in the Restructuring Plan adopted by the LACMTA Board of Directors on May 13, 1998, to the construction authority for completion of the project. The bill would authorize the construction authority to receive allocations of state funds for the project, and would require the unencumbered balance of state funds that have been programmed or allocated to the LACMTA for completion of the project and have been identified in the Restructuring Plan adopted by the LACMTA Board of Directors on May 13, 1998, to be allocated to the construction authority for completion of the project. Any transfer of the specified funds would be subject to the terms of a specified memorandum of understanding entered into between the LACMTA and the commission.

The bill would require the construction authority to enter into a memorandum of understanding with the LACMTA that specifically addresses the ability of the LACMTA to review any significant changes in the scope of the design or construction, or both design and construction, of the project, as specified.

The bill would prohibit the construction authority from encumbering any future farebox revenue anticipated from the operation of the project.

The bill would prohibit the construction authority from encumbering the project with any obligation that is transferable to the LACMTA upon completion of the design and construction of the project, except as specified.

The bill would require the authority to be dissolved upon completion of the project. The LACMTA would assume responsibility for operating the project upon dissolution of the authority.

The bill would create a state-mandated local program by imposing these additional duties upon local governmental entities.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish

procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1022 (AB 2274) Leach. State Department of Education: reporting.¹⁴

(1) There is in existing law the State Department of Education with various powers and duties pertaining to education.

This bill would require the department, on an annual basis, to collect and summarize specified data pertaining to alternative education programs and to report the results to the State Board of Education, the Governor, the Department of Finance, the Legislative Analyst, the Assembly Committee on Education, and the Senate Committee on Education. The bill would require the Superintendent of Public Instruction to appoint an advisory committee, comprised as specified, to assist in the development of the data collection instrument, the data review process, and continued improvement of the data collection system.

The bill would appropriate \$100,000 from the General Fund to the State Department of Education in the 1998–99 fiscal year for the purposes of the bill.

The provisions of the bill would be repealed on January 1, 2002.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1023 (AB 2329) Firestone. Community colleges: contracts.

Under existing law, the Regents of the University of California and the Trustees of the California State University are not subject to laws governing contracts for the state procurement of materials, goods, supplies, or services, or for the acquisition of electronic data-processing and telecommunications goods and services, with certain exceptions. Under existing law, the trustees are required to develop policies and procedures that further expressed legislative policies for procurement without the involvement of the Department of Finance or the Department of General Services.

This bill would provide that the Board of Governors of the California Community Colleges is not subject to the laws described above, but would require the board to develop policies and procedures that further express legislative policies for procurement without the involvement of the Department of Finance or the Department of General Services.

Under existing law, Section 8 of Article XVI of the California Constitution (Proposition 98) sets forth a formula for computing the minimum amount of General Fund revenues that the state is required to appropriate for the support of school districts, as defined, and community college districts for each fiscal year.

The bill would authorize the Chancellor of the California Community Colleges to enter into a contract on behalf of one or more community college districts, subject to certain restrictions. The bill would require the chancellor to report to the Legislature and the Governor by January 1, 2001, on contracts entered into pursuant to these provisions and any resultant cost savings. The bill would authorize the chancellor to enter into a contract with a community college district whereby the district performs services or acts as a fiscal agent on behalf of the California Community Colleges when the funds for the contract or agreement are in satisfaction of the state obligation to provide funding pursuant to Section 8 of Article XVI of the California Constitution. The bill would authorize the Board of Governors of the California Community Colleges to adopt regulations to implement the provisions of this paragraph.

This bill would incorporate additional changes in Section 10430 of the Public Contract Code proposed by SB 412, to be operative if SB 412 and this bill are both enacted and become effective on or before January 1, 1999, and this bill is enacted last.

Ch. 1024 (AB 1291) Strom-Martin. State firefighters: memorandum of understanding.

(1) Existing law provides that if any provision of a memorandum of understanding reached between the state employer and a recognized employee organization

NOTE: Superior numbers appear as a separate section at the end of the digests.

representing state civil service employees requires the expenditure of funds or requires legislative action to permit its implementation, those provisions of the memorandum of understanding shall not become effective unless approved by the Legislature in the annual Budget Act.

This bill would approve provisions of a memorandum of understanding that require the expenditure of funds or legislative action to permit their implementation, entered into between the state employer and State Bargaining Unit 8, the CDF firefighters, and would provide that the provisions of any memorandum of understanding that require the expenditure of funds shall become effective even if the provisions of the memorandum of understanding are approved by the Legislature in legislation other than the annual Budget Act.

(2) Existing law contains various provisions relating to civil service and employer-employee relations between the state and its employees, and contains comparable provisions that apply to state employees in State Bargaining Unit 5, 6, or 16.

This bill would enact comparable provisions, with respect to appointments from a general reemployment list, reinstatements, probationary periods, involuntary transfers, layoffs, demotions, minor discipline, nonmerit statutory appeal hearings, and salary adjustments.

(3) Existing law, with specified exceptions, provides that all contracts entered into by any state agency for the hiring or purchase of a variety of goods and services, including equipment, supplies, textbooks, and repair or maintenance, are void unless approved by the Department of General Services. Existing law exempts contracts entered into by the Department of Personnel Administration for employee benefits, training services, or both, for state employees in State Bargaining Unit 16 from the requirement of Department of General Services approval.

This bill would exempt contracts entered into by the Department of Personnel Administration for employee benefits, occupational health and safety, training services, or any combination thereof, for state employees in State Bargaining Unit 8 from the requirement of Department of General Services approval. This bill would exempt these contracts from provisions of the Public Contract Code that relate to the state procurement of materials, supplies, equipment, and services.

(4) The Public Employees' Retirement Law, contains the State Peace Officers' and Firefighters' Defined Contribution Plan for state peace officer or firefighter members in State Bargaining Unit 6 to supplement the benefits provided under the Public Employees' Retirement System. Assembly Bill 2472 establishes the State Peace Officers' and Firefighters' Defined Contribution Plan Fund, which funds are continuously appropriated for payments of the plan.

This bill would include state peace officers or firefighter members in State Bargaining Unit 8 in that plan. The bill would increase the service allowance limitation from 80% to 85% for members of State Bargaining Unit 8 who retire on and after January 1, 1999, and would establish a new retirement option consisting of a partial distribution of the present value of the actuarial amount of retirement allowances for those members. To the extent that this bill would enlarge the class of beneficiaries who may receive distributions from the State Peace Officers' and Firefighters' Defined Contribution Plan Fund, this bill would make an appropriation.

(5) Existing law, the Public Employees' Medical and Hospital Care Act, provides health benefits plan coverage to public employees and annuitants meeting the eligibility requirements prescribed by the Board of Administration of the Public Employees' Retirement System.

This bill would revise the definition of "eligible employees" for the purposes of the act as it applies to state employees in State Bargaining Unit 8.

(6) Existing law, the State Employees' Dental Care Act, provides dental care plan coverage to public employees and annuitants meeting the eligibility requirements prescribed by the Board of Administration of the Public Employees' Retirement System. Existing law provides that notwithstanding particular provisions of the act, state employees in State Bargaining Unit 6 or 16 may receive a percentage of the employer's contribution payable for annuitants if the employees are credited with 10 years of state service.

This bill would also provide that state employees in State Bargaining Unit 8 may receive a percentage of the employer's contribution payable for annuitants if the employees are credited with 10 or more years of state service.

(7) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1025 (SB 1658) Peace. Health care service plans.

Under existing law, the Knox-Keene Health Care Service Plan Act of 1975, health care service plans are regulated by the Department of Corporations. Existing law sets forth definitions for purposes of these provisions, including a definition of a health care service plan.

This bill would provide that a specialized health care service plan shall be defined similarly to a health care service plan for purposes of these provisions and would add to the definition of a health care service plan that it includes any person who solicits or contracts with a subscriber or enrollee in this state to pay for, or reimburse the cost of, or who undertakes to arrange or arranges for, the provision of health care services that are to be provided wholly or in part in a foreign country in return for a prepaid or periodic charge paid by or on behalf of the subscriber or enrollee.

This bill would provide that if a health care service plan licensed under the laws of Mexico elects to operate a health care service plan in this state, the plan shall apply for licensure as a health care service plan under the Knox-Keene Health Care Service Plan Act of 1975 by filing an application for licensure in the form prescribed by the department and verified by an authorized representative of the applicant, paying a prescribed fee, and demonstrating compliance with designated requirements. Because a willful violation of health care service plan requirements is a crime, the bill would create a new crime, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1026 (AB 1899) Davis. Health care service plan: services.

Existing law, the Knox-Keene Health Care Service Plan Act of 1975, provides for licensure and regulation of health care service plans by the Commissioner of Corporations, and requires the commissioner to require each plan to use disclosure materials that provide, among other things, a description of any limitations on the patients choice of primary care or specialty care provider. Willful violation of those provisions is a crime.

Existing law requires that health care service plans provide coverage for certain services and treatments. Existing law requires a health care service plan, except a specialized health care service plan, to provide all basic health care services, defined to include, among other services, emergency health care services, including ambulance services and out-of-area coverage. The commissioner is authorized by rule to define the minimum scope of each basic health care service.

This bill would revise the definition of "basic health services" to provide that it includes ambulance and ambulance transport services provided through the "911" emergency response system.

Since willful violation of health care service plan requirements is a crime, the bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

This bill would incorporate amendments to Section 1345 of the Health and Safety Code contained in SB 1658, with these amendments to become operative only if both this bill and SB 1658 are chaptered and this bill is chaptered after SB 1658.

Ch. 1027 (AB 66) Baca. Local sales and use tax: jet fuel: place of sale and revenues.

The Bradley-Burns Uniform Local Sales and Use Tax Law authorizes counties and cities to impose sales and use taxes pursuant to the adoption of local ordinances including specified provisions. That law requires, in the case in which a retailer has more than one place of business in the state, that the places at which the sales of that retailer are consummated for purposes of a local sales tax be determined in accordance with rules and regulations prescribed and adopted by the State Board of Equalization. That law further requires that any local sales tax imposed pursuant to its provisions be administered by the State Board of Equalization, and that revenues collected by the board with respect to any such local tax be allocated by the board to the taxing local agency at least twice in every calendar quarter.

This bill would specify, for purposes of applying a local sales tax imposed under the Bradley-Burns Uniform Local Sales and Use Tax Law to any sale of jet fuel, that the point of sale of that fuel is the point of delivery of that fuel to the aircraft, if the principal negotiations for that sale are conducted in this state and the retailer of that fuel has more than one place of business in the state. This bill would also require, in the cases in which the point of sale of jet fuel is a multijurisdictional airport, as defined, that the tax revenue derived from those sales, except for those sales consummated at San Francisco International Airport or Ontario International Airport, be transmitted by the State Board of Equalization in specified shares to the city, county, or city and county in which the multijurisdictional airport is located, and to the city, county, or city and county that owns or operates the multijurisdictional airport or the county in which the owning or operating city is located. This bill would require that all the local sales tax revenues derived from sales of jet fuel that are consummated at the point of delivery to the aircraft at San Francisco International Airport be transmitted by the board one-half to the City and County of San Francisco and one-half to the County of San Mateo, and that the local sales tax revenues derived from sales of jet fuel that are consummated at the point of delivery to the aircraft at Ontario International Airport be transmitted by the board to the City of Ontario or the County of San Bernardino, in accordance with the taxing jurisdiction on behalf of which those revenues were collected. This bill would also make technical, nonsubstantive changes.

This bill would make legislative findings and declarations as to the necessity for a special statute, and would declare that this bill's provisions are severable.

This bill would take effect immediately as a tax levy, but its provisions would become operative on January 1, 1999.

Ch. 1028 (AB 473) Oller. Local government financing.

The Vehicle License Fee Law continuously appropriates revenues derived from the taxes imposed under its provisions, and provides for the allocation of those revenues pursuant to specified formulas to cities, cities and counties, and counties. The Motor Vehicle Fuel License Tax Law, Use Fuel Tax Law, and Diesel Fuel Tax Law each provide, as specified, for the transfer of revenues derived from taxes imposed under their provisions to the Highway Users Tax Account in the Transportation Tax Fund. Existing law continuously appropriates revenues in that account, and provides for specified apportionments of those revenues to cities, cities and counties, and counties.

This bill would appropriate \$147,000 to the Controller for allocation to counties that do not contain incorporated cities according to the proportion of the population of all the qualifying counties that the population of each of these counties represents, in order to equalize funding to those counties without affecting revenue allocations to cities.

Ch. 1029 (AB 698) Cardenas. Unclaimed property.

Existing law, known as the Unclaimed Property Law, provides for the escheat to the state of, among other property, certain personal property held or owing in the ordinary course of the holder's business. Existing law authorizes the Controller, or upon the request of the Controller, one of certain licensing or regulatory agencies, to examine the records of a holder of property of another to determine if the holder is in compliance with the Unclaimed Property Law. Existing law authorizes the Controller to bring an action to enforce specified provisions of the Unclaimed Property Law and provides for the

imposition of penalties and interest against holders who willfully fail to comply with the Unclaimed Property Law.

This bill would direct the Controller, after holding public hearings, to adopt guidelines as to the policies and procedures governing 3rd-party auditors who are hired by the Controller, and to establish guidelines, forms, and procedures for filing claims and for disputing or appealing a record examination.

Ch. 1030 (AB 835) R. Wright. State contracts: bidder preferences and incentives.

(1) Under existing law, in inviting bids for contracts for goods in excess of \$100,000, with a specified exception, the state is required to award a 5% preference to California based companies that certify under penalty of perjury that no less than 50% of the labor required to perform the contract is at a worksite or worksites located in a distressed area or within an enterprise zone. The 5% preference for a proposal for a services contract in excess of \$100,000 applies if the company certifies that the contract will be performed, at a worksite or worksite in a distressed area. In enterprise zones, the 5% preference for a proposal for a services contract in excess of \$100,000 applies only if the California based company certifies that not less than 90% of the labor required to perform the contract is accomplished at a worksite located in the zone.

Existing law also requires that a specified bidder who agrees to hire persons with a high risk of unemployment is entitled to additional preferences equal to a specified percentage of the work force hired during the period of contract performance up to a maximum of 15% for all preferences. Any business that requests and is given a preference by the state under a false certification and is awarded a contract may be ineligible to transact any business with the state for a period of not less than 3 months and not more than 24 months.

This bill would require the California-based company to demonstrate its eligibility for the 5% preference, as specified, and to certify under penalty of perjury the company's eligibility for any additional preference based on its hiring of persons with a high risk of unemployment. The bill would also require that the 5% preference for a services contract in excess of \$100,000 in a distressed area depend on whether the company demonstrates and certifies that not less than 90% of the labor hours required to perform the contract shall be accomplished at an identified worksite or worksites located in the distressed area.

By expanding the scope of the crime of perjury, this bill would impose a state-mandated local program.

The bill would also recast the maximum preference of 15% as a maximum preference and incentive and revise the sanction to prohibit any direct or indirect transaction of business with the state.

(2) Existing law requires the Department of General Services to report annually to the Legislature regarding small businesses that are awarded contracts under the Small Business Procurement and Contract Act.

This bill would revise the contents of this report and authorize a state agency to award a contract for goods, services, or information technology in an amount of \$2,500 up to \$49,999 to a small business, notwithstanding advertising and bidding requirements that would otherwise apply, as long as price quotations are obtained from 2 or more small businesses. The bill would institute similar authority for the acquisition of goods, services, or information technology if the estimated cost is less than \$2,500 or in a greater amount as established by the Director of General Services.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(4) The bill would also provide that specified provisions of this bill shall become effective only if AB 3 and this bill are chaptered and become operative on or before January 1, 1999.

Ch. 1031 (AB 1216) Kaloogian. School districts: parental, pupil, and teacher procedures.

Existing law grants pupils, parents, and guardians certain rights regarding the delivery of educational services. Existing law requires the governing board of each school district at the beginning of each school year to notify the parent or guardian of its minor pupils regarding the rights or the responsibilities of the parent or guardian under certain provisions of law, including the right to be excused from health, family life, and sex education instruction due to religious beliefs and the right to refuse a physical examination of pupils.

This bill would impose a state-mandated local program by requiring that all primary supplemental instruction materials and assessments be compiled and stored by the classroom instructor and made available promptly for inspection by a parent or guardian of a pupil, and by granting the parent or guardian the right to observe the instruction and other school related activities that involve his or her child, in a reasonable timeframe or in accordance with procedures determined by the governing board of the school district.

This bill would prohibit a pupil from being compelled to affirm or disavow any particular personally or privately held world view, religious doctrine, or political opinion. The bill would require that its provisions not be construed to affect a pupil's right or ability to obtain confidential medical care or confidential counseling relating to the diagnosis or treatment of a drug- or alcohol-related problem, or mental health treatment or counseling on an outpatient basis, without the consent of his or her parent or guardian. The bill would further require that its provisions not be construed to restrict the authority of school or law enforcement officials to investigate, or intervene in, cases of suspected child abuse. The bill would prohibit a pupil from being tested for a behavioral, mental, or emotional evaluation without the consent of his or her parent or guardian.

The bill would require the curriculum, including titles, descriptions, and instructional aims of every course offered by a public school, to be compiled at least once annually in a prospectus, thereby imposing a state-mandated local program. The bill would require the notice regarding the rights and responsibilities of parents or guardians to include notice of the availability of this prospectus, thereby imposing a state-mandated local program.

Existing law authorizes the governing board of a school district to provide a comprehensive educational counseling program for all pupils and requires confidentiality of information received while counseling a pupil 12 years of age or older, except as specified.

This bill would, notwithstanding provisions of law to the contrary, prohibit a school from requiring a pupil or a pupil's family to participate in any assessment, analysis, evaluation or monitoring of the quality or character of a pupil's home life, any form of parental screening or testing, any nonacademic home-based counseling program, parent training, or any prescribed family education service plan.

Existing law sets forth the rights and responsibilities of teachers.

The bill would provide that a teacher has the right to refuse to submit to any evaluation or survey conducted by the school district that addresses certain matters.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1032 (AB 1651) Ortiz. Childhood sexual abuse: time of commencing action: naming of defendant.

Existing law requires that an action for recovery of damages suffered as a result of childhood sexual abuse, as defined, be commenced within 8 years of the date the plaintiff attains the age of majority or within 3 years of the date the plaintiff discovers or reasonably should have discovered that the psychological injury or illness occurring after

the age of majority was caused by sexual abuse, whichever occurs later, and states that it applies to any action filed on or after January 1, 1991, and revives causes of action which had otherwise lapsed.

This bill would delineate the actions based upon childhood sexual abuse to which these provisions are applicable, and provide that certain of those actions may not be commenced on or after the plaintiff's 26th birthday.

Existing law provides that a complaint for childhood sexual abuse filed by a plaintiff 26 years of age or older at the time of filing may not be served upon the defendant or defendants until the court has reviewed the certificates of merit filed and has found, in camera, based solely on those certificates of merit, that there is reasonable and meritorious cause for the filing of the action; and at that time, the complaint may be served upon the defendant or defendants.

This bill would revise and recast that provision.

Existing law provides that, in actions for childhood sexual abuse in which the plaintiff is at least 26 years of age at the time the action is filed, the defendant or defendants may not be named except by "Doe" designation until there has been a showing of corroborative fact as to the charging allegations against any defendant alleged to have committed childhood sexual abuse against the plaintiff.

This bill would instead require that, in such an action, a defendant be named by "Doe" designation until there has been a showing of corroborative fact as to the charging allegations against that defendant.

Ch. 1033 (AB 1746) Escutia. Class size reduction.

Existing law establishes the Class Size Reduction Program to provide funding to school districts to reduce class size in kindergarten and grades 1 to 3, inclusive, to not more than 20 pupils per certificated teacher.

This bill would make an appropriation by providing that any unexpended and unencumbered funds appropriated for the purposes of class size reduction in the 1996-97 and 1997-98 fiscal years be made available on a one-time basis to assist school districts that meet certain requirements implement class size reduction, in an amount of \$40,000 per class, as described. To the extent the funds appropriated by this bill are allocated to a school district, as defined by existing law for purposes of Section 8 of Article XVI of the California Constitution, those funds may be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

Ch. 1034 (AB 1995) Leach. Livermore Valley Joint Unified School District: joint-use libraries.

Existing law requires each school district to provide school library services for pupils and teachers of the district by establishing and maintaining school libraries or by contractual arrangements with other public agencies, including, but not limited to, the affiliation with county and city libraries.

This bill would, notwithstanding provisions of law to the contrary, permit a contract for a joint-use library at a schoolsite owned by the Livermore Valley Joint Unified School District or at a site, within one mile of the schoolsite, owned by the district, the county, the city, or other appropriate entity having responsibility for the provision of public library services in that area, and would declare that it is in the interest of the state to authorize the Livermore Valley Joint Unified School District to enter into such a joint-use arrangement. The bill would require a joint-use facility constructed pursuant to those provisions to comply with all requirements applicable to school facilities.

This bill would make certain findings and declarations regarding the inapplicability of a general statute within the meaning of Section 16 of Article IV of the California Constitution.

Ch. 1035 (AB 2128) Takasugi. Issuance of bonds: securities.

(1) Under existing law, the Treasurer is responsible for developing and implementing a competitive process for selection of underwriters for negotiated offerings of bonds.

This bill would specifically exempt agreements entered into by the Treasurer in connection with the sale of any evidence of indebtedness from provisions that otherwise govern state contracts for services in general or consulting services.

(2) Existing law, the California Health Facilities Financing Authority Act, empowers the California Health Facilities Financing Authority to finance projects of health facilities that are operated by a city, county, city and county, district hospital, or private, nonprofit corporation or association. The act continuously appropriates funds in the California Health Facilities Financing Authority Fund to the authority to carry out the purposes of the act. The act also authorizes the authority to issue its negotiable revenue bonds in order to provide funds to achieve any of its purposes under the act. The total amount of revenue bonds authorized to be outstanding at any one time is limited to \$5,999,000,000.

This bill would repeal provisions that restrict the total amount of revenue bonds authorized to be outstanding at any one time.

This bill would also make conforming changes with regard to the authority's authorization to issue bonds for specified health facility projects and liability insurance coverage.

(3) The treasurer of a local agency is authorized to enter into contracts with depositories and their agents, as specified, to hold the funds of the local agency to ensure the safekeeping of those funds and to secure the moneys deposited with eligible securities in securities pools. The administrator of the Local Agency Security of the State of California is authorized to approve specified persons to act as an agent of depository.

This bill would require that an agent of depository not release any security held to secure a local agency deposit in a depository unless the administrator issues an order authorizing the release where either (a) a state or federal regulatory agency has taken possession of the depository, or (b) a conservator, receiver, or other legal custodian has been appointed for the depository.

(4) Existing law establishes a corporate instrumentality of the State of California, known as an industrial development authority, in each public agency for the purpose of undertaking projects through the issuance of bonds for the financing in acquiring, constructing, or rehabilitating facilities or property for one or more specified activities or uses, and for the purpose of carrying out and completing the projects. Authorities are not authorized to undertake projects through the issuance of bonds on or after January 1, 1999, with a specified exception.

This bill would extend this date to January 1, 2004. It would also delete from the list of permissible activities of uses land acquisition and development of property for use in automobile sales and service and related activities by industrial development authorities of cities with a population of less than 50,000 in Sacramento County.

(5) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1036 (AB 2142) Brown. Public utilities: telecommunications: truth in billing.

(1) The telecommunications Customer Service Act of 1993 requires the Public Utilities Commission to require telephone corporations to provide customers with sufficient information upon which to make informed choices among telecommunications services and providers, as specified.

This bill would prohibit a person or corporation from misrepresenting its association or affiliation with a telephone carrier when soliciting, inducing, or otherwise implementing the subscriber's agreement to purchase the products or services of the person or corporation, and having the charge for the product or service appear on the subscriber's telephone bill. The bill would specifically apply the penal provisions of the Public Utilities Act to these prohibitions, and the provisions set forth in SB 378 of the 1997-98 Regular Session, thereby expanding the scope of an existing crime and creating a state-mandated local program. The bill would prescribe related matters.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1037 (AB 2222) Hertzberg. Vehicles: speed limits: enforcement: radar.

Existing law defines a speed trap as, among other things, a particular section of a highway with a prima facie speed limit, as specified, that is not justified by an engineering and traffic survey conducted within 5 years prior to the date of an alleged violation, if enforcement of the speed limit involves the use of radar or any other electronic device that measures the speed of moving objects, except as specified. Existing law expressly excludes local streets and roads from the definition of a speed trap.

This bill would provide an alternative definition of "speed trap" that would require that the engineering and traffic survey have been conducted within either 7 or 10 years, as specified. The alternative definition would apply only when specified actions by the officer issuing a notice to appear and the prosecutor have occurred.

The bill would define "school zone", and would exclude a school zone from both the definition of speed trap in existing law and the alternative definition provided under the bill.

Ch. 1038 (AB 2621) Hertzberg. Local government reorganization.

Existing law establishes the Commission on Local Governance for the 21st Century, consisting of 15 members appointed by the Governor, the Assembly Committee on Rules, and the Senate Committee on Rules, as specified. Existing law requires the commission to report to the Legislature and the Governor on specified topics relating to local government on or before June 30, 1999. Existing law repeals the commission and related provisions of law on January 1, 2000.

This bill would specify that appointees shall serve until the date the commission is repealed, would extend the date for the report until December 31, 1999, and would provide that the commission shall remain in existence until July 1, 2000.

Ch. 1039 (AB 2809) Committee on Revenue and Taxation. Economic development areas: tax incentives.

The Personal Income Tax Law and the Bank and Corporation Tax Law allow a taxpayer to claim certain tax incentives for activities conducted in different types of economic development areas that include, among others, an enterprise zone, a Local Area Military Base Recovery Area (LAMBRA), a targeted tax rate area, or a Manufacturing Enhancement Area (MEA), including a credit in an amount equal to the specified percentage of wages paid by the taxpayer during the taxable or income year to a qualified employee employed in the applicable zone or area.

This bill would, for purposes of this credit as applied to these economic development areas, clarify the application of credit percentage and credit recapture provisions with respect to a seasonal employee, as defined. This bill would, for purposes of this credit as applied to a LAMBRA, specify certain procedures and factors with respect to the apportionment of income to a taxpayer.

The Personal Income Tax Law and the Bank and Corporation Tax Law allow a taxpayer to claim certain tax incentives for activities conducted in an enterprise zone, the Los Angeles Revitalization Zone (LARZ), a Local Agency Military Base Recovery Area (LAMBRA), or a targeted tax area (TTA), including a deduction for net operating losses.

This bill would specify that this deduction, as allowed with respect to activities conducted by a taxpayer in the LARZ, shall cease to be operative on December 1, 1998, rather than January 1, 1998. This bill would also make technical, nonsubstantive changes by recasting existing net operating loss deduction provisions with respect to activities that are conducted by a taxpayer in an enterprise zone, a LAMBRA, or a targeted tax area.

This bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of $\frac{2}{3}$ of the membership of each house of the Legislature.

This bill would incorporate additional changes to Sections 17053.34, 17053.47, 17053.74, 17276.2, 23622.7, 23622.8, 23634, and 24416.2 of the Revenue and Taxation Code, proposed by AB 2798, to be operative only if AB 2798 and this bill are both chaptered and become effective on or before January 1, 1999, and this bill is chaptered last.

This bill would incorporate additional changes in Sections 17053.46 and 23646 of the Revenue and Taxation Code, proposed by AB 3, to be operative only if AB 3 and this bill are both chaptered and become effective on or before January 1, 1999, and this bill is chaptered last. These changes would become operative on the operative date of AB 3.

This bill would make legislative findings and declarations as to the statewide public purpose that is served by its provisions.

This bill would take effect immediately as a tax levy, but would specify the retroactive application of certain of its provisions.

Ch. 1040 (SB 345) Polanco. Indian education centers.

(1) Existing law, which is presently inoperative, establishes within the State Department of Education a Bureau of Indian Education to study and identify the cultural and educational disadvantages affecting American Indian children in the existing public school system. Existing law also requires the Indian Coordinator to be in charge of the Bureau of Indian Education.

This bill would redesignate that bureau as the American Indian Education Unit and would additionally require that unit to provide administrative oversight of American Indian education programs established by the state. The bill would also redesignate the coordinator as the American Indian Education Unit Coordinator and would require the Superintendent of Public Instruction to appoint an American Indian Education Unit Coordinator to be responsible for the American Indian Education Unit.

(2) Existing law requires the Indian Coordinator to be responsible to the Superintendent of Public Instruction and to meet and consult with the Equal Educational Opportunity Commission.

This bill would repeal that provision.

(3) Under existing law, the Legislature is required to conduct a comprehensive review of certain education programs. These programs, as presently maintained, cease to be operative on various specified dates, unless the Legislature enacts legislation providing otherwise. If the Legislature does not enact that legislation, funding for the general purpose of the program may continue after the termination date, but relevant statutes and regulations are not operative. Under current law, the provisions governing California Indian education centers ceased to be operative January 1, 1997.

This bill would delete the January 1, 1997, inoperative date, establish a new inoperative date of January 1, 2002, and specify that all statutes and regulations relative to California Indian education centers that became inoperative on that date shall become operative on the date this act takes effect.

(4) This bill would require the Superintendent of Public Instruction to allocate any funds appropriated from the General Fund to the State Department of Education in the Budget Act of 1997, and each Budget Act thereafter, for the purposes of the California Indian education centers as specified, including for the purpose of establishing new California Indian education centers on the basis of unserved need, and for the purposes of transportation, educational technology, staff development, specified coordinated programs, and direct services at California Indian education centers.

(5) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1041 (SB 378) Peace. Public utilities: telephones.

Under existing law, the Public Utilities Commission is vested with regulatory authority over public utilities, including telephone corporations and other specified entities. Existing law requires a telephone corporation to comply with prescribed service and billing requirements.

This bill would require, until January 1, 2001, that a telephone bill contain only subscriber-authorized charges related to communications service, as specified. The bill, until January 1, 2001, would require bills for noncommunications-related goods and services to be billed separately from any telephone bill, but would permit those bills to be included within the same envelope as a telephone bill. The commission would be authorized to specify the kinds of noncommunications-related goods and services that may be billed in that manner. The bill would provide that the commission may only permit a subscriber's local telephone service to be disconnected for nonpayment of charges relating to specified telephone services. The bill would require a billing

telephone company to clearly identify, and use separate billing sections for, each entity that generates a charge on a subscriber's telephone bill. The bill would require any person, corporation, or billing agent, as defined, that charges subscribers for products or services on a telephone bill, and until January 1, 2001, on a bill for noncommunications-related goods and services that is included in an envelope with a telephone bill, to include in the bill the amount being charged for each product or service and to take other actions for the purpose of resolving a dispute concerning that charge. The bill would prescribe related matters.

The bill would make a related statement of legislative intent.

Ch. 1042 (SB 977) Sher. Renewable energy purchases: customer credits.

Existing law provides for customer credits to California retail customers located in the service territory of an investor-owned utility, as specified, who purchases qualifying renewable electric power, as specified.

This bill would further qualify eligibility requirements for these customer credits depending upon the dates of offerings and other factors.

Ch. 1043 (SB 1038) M. Thompson. Developmental disabilities.

Existing law, the Lanterman Developmental Disabilities Services Act (hereafter the act) requires the State Department of Developmental Services to contract with regional centers for the provision of various services and supports to persons with developmental disabilities.

This bill would appropriate the sum of \$5,057,000 from the General Fund to the department for the purpose of increasing the salary, wage, and benefits for direct care workers providing supported living services.

Existing law requires that the services and supports to be provided to each regional center client be determined pursuant to the development of an individual program plan.

Existing law requires that the plan be developed jointly with a planning team, as defined.

This bill would add to those members who may, where appropriate, be on a planning team, the authorized representative of a person with a developmental disability.

Existing law requires that the process for the development of an individual program plan include specified elements.

This bill would also require this planning process to include, when agreed to by the consumer, the parents, the legal guardian of a minor consumer, the conservator of an adult consumer, or the consumer's authorized representative, a review of the general health status of the adult or child.

Existing law permits a regional center, pursuant to vendorization or a contract, to purchase services and supports for a consumer from any individual or agency which the regional center and consumer or, where appropriate, his or her parents, legal guardian or conservator or authorized representative, will best accomplish all or any part of the consumer's individual program plan.

This bill would permit a regional center to vendorize a licensed facility for exclusive services to persons with developmental disabilities at a capacity equal to or less than the facility's licensed capacity.

Existing law permits a regional center to place a person with a developmental disability in a community living arrangement under certain circumstances.

Existing law provides that a person with a developmental disability who is placed in a community living arrangement has certain rights that are required to be brought to the person's attention by any means the director may designate by regulation.

This bill would require that these means be any means necessary to communicate these rights, and would require that, at a minimum, the Director of Developmental Services prepare, provide, and require to be clearly posted in all residential facilities and day programs a poster using simplified language and pictures that is designed to be more understandable by persons with cognitive disabilities and that the rights information shall also be available through the regional center to each residential facility and day program in alternative formats.

Existing law permits the department and regional centers to monitor services purchased for consumers with or without notice, except that monitoring without prior

notice is limited to situations where the department or regional center determines that the purpose of the visit would be thwarted if advance notice were given.

This bill would delete this limitation, and would, instead, require that not less than one monitoring visit to a licensed community care facility or family home agency home each year shall be unannounced.

Existing law requires the department to establish rates for out-of-home care of eligible persons with developmental disabilities residing in community care facilities, in accordance with an Alternative Residential Model, with these rates being required to include an adequate amount to care for basic living needs, as defined.

This bill would make various changes to these provisions, including a requirement that the department adopt regulations for the establishment of these rates. It would also impose requirements for the periodic updating of these reimbursement rates.

The bill would also require a regional center, whenever a minor child with a developmental disability requires an out-of-home living arrangement, as determined in the individual program plan, to make every effort to secure a living arrangement in reasonably close proximity to the family home. If a living arrangement in close proximity to the child's home cannot be secured, the regional center would, under specified circumstances, be required to undertake certain efforts aimed at either returning the child to his or her home or securing a living arrangement in close proximity to his or her own home.

The bill would permit a regional center to provide or secure an array of services and supports for adults with developmental disabilities living in their family's home that meet specific goals.

The bill would require the department to conduct a 3-year pilot project to provide funding to local self-determination programs that will enhance the ability of a consumer and his or her family to control the decisions and resources required to meet all or some of the objectives in his or her program plan.

This bill would reappropriate \$750,000 to the department from specified funds appropriated pursuant to the Budget Act of 1998 for these programs.

The bill would require regional centers and county mental health agencies to undertake various joint efforts with respect to persons dually diagnosed as mentally ill and developmentally disabled, and would require state agency participation in these cases when certain conditions exist. It would also require the department, by May 15 of each year, to provide specified information to the Legislature relating to persons with this dual diagnosis. Since the bill would impose specified duties upon county mental health agencies, it would impose a state-mandated local program.

The bill would state the intent of the Legislature with respect to the facilitation of joint meetings between system stakeholders.

Existing law permits regional center clients and persons acting on their behalf to have a fair hearing before an administrative law judge in order to appeal regional center decisions.

Existing law requires these administrative law judges to have training in the laws and regulations governing services to developmentally disabled individuals.

This bill would require these judges to have training related to the needs of persons with developmental disabilities, in accordance with specified requirements.

The bill would require the department to collect and maintain or cause to be collected and maintained copies of all redacted administrative hearing decisions issued under the act, and make copies available to the public upon request, at a cost per page not greater than that charged by the department for documents sought under the California Public Records Act.

Existing law provides that a fair hearing on a regional center decision shall be held at a time and place reasonably convenient to the claimant and the authorized representative.

This bill would require that the claimant or the authorized representative of the claimant and the regional center agree on the location of the fair hearing.

Existing law requires that a regional center or its designated representative monitor the care and services provided the consumer to ensure that care and services are provided in accordance with the individual program plan.

This bill would provide that a statement made by a regional center representative when discharging his or her obligation to monitor the provision of services and supports pursuant to the act shall be a privileged communication, unless a party to a judicial action demonstrates that the regional center representative made the disputed statement with knowledge of its falsity or with reckless disregard for the truth.

Existing law permits a regional center or its designee, if an adult person with a developmental disability or the parent, guardian, or conservator on behalf of a child, requests relocation, to provide assistance in locating and moving to another residence.

This bill would, instead, require the regional center, if requested by a consumer or, when appropriate, by the parent, legal guardian or conservator, or authorized representative, to schedule an individual program plan meeting.

This bill would require the State Department of Developmental Services to coordinate, or require each regional center to coordinate, a meeting within each regional center catchment area at least annually.

This bill would incorporate changes made to Section 4712 of the Welfare and Institutions Code by AB 2494, which would become operative only if both this bill and AB 2494 are chaptered and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1044 (SB 1488) Rainey. Transportation: North Lake Tahoe Transportation District.

The Local Transportation Authority and Improvement Act authorizes a county board of supervisors to create an authority within the county to implement specified provisions relating to local transportation. Among other things, the authority may impose a retail transactions and use tax ordinance in the county if the authority adopts a county transportation expenditure plan and voter approval of the ordinance is obtained.

This bill would authorize the creation of the North Lake Tahoe Transportation Authority within a specified territory and would authorize the authority to impose a retail transactions and use tax of not more than $\frac{1}{2}\%$ within that territory if (1) the tax ordinance imposing the tax is adopted by a majority vote of the authority's board of directors, (2) imposition of the tax is subsequently approved by a $\frac{2}{3}$ vote of the voters voting on the measure at a special election called for that purpose by the board, (3) a transportation expenditure plan is adopted, as specified, and (4) certain election requirements are met.

Ch. 1045 (SB 1582) Brulte. Government.

(1) Under existing law, the County of Merced is obligated to repay to the Controller the principal and interest on a loan made to the county for fire protection services rendered by the Department of Forestry and Fire Protection in the 1994–95 fiscal year.

This bill would authorize the County of Merced to pay back the loan by meeting the local match required to participate in specified programs to improve and expand adult and juvenile correctional facilities. The bill would provide that these payments and any other payments made pursuant to the conditions of the loan shall be paid by the county in annual installments of not less than 10% of the principal balance of the loan. The bill would provide that no further interest on the loan shall accrue after the operative date of the bill and any interest accrued to date would be waived.

The bill would provide that it shall become operative only if the county participates during the 1998–99 fiscal year or the 1999–2000 fiscal year in the specified programs to improve and expand correctional facilities.

(2) Existing law provides for various partnerships to enhance educational goals, including, but not limited to, the establishment and expansion of regional science resource centers in partnership with nonprofit agencies; regional social tolerance

resource centers in partnership with nonprofit agencies; regional Latino heritage resource centers in partnership with nonprofit agencies; and the California Academic Partnership Program.

This bill would enact the Academic Improvement and Achievement Act which would authorize local educational agencies to submit proposals to the Superintendent of Public Instruction to fund activities that will increase the percentage of pupils at qualifying high schools that meet the requirements for admission to the California State University and the University of California.

This bill would require the Superintendent of Public Instruction to develop an application inviting local educational agencies to apply to receive funds for qualifying schools, subject to an appropriation for the purposes of the bill. The bill would require funds to be equitably distributed throughout the state in a manner consistent with the purposes of the bill and that qualifying schools in rural, urban, and suburban areas have access to funds.

This bill would require the superintendent to recommend, and the State Board of Education to approve, a plan for the comprehensive evaluation of the program by July 1, 2003, and would require the State Board of Education to report to the Legislature regarding the program by December 31, 2003.

This bill would provide that it is the intent of the Legislature that these regional partnerships be funded by an appropriation in the annual Budget Act.

This bill would make these provisions inoperative on July 1, 2004, and would repeal them as of January 1, 2005.

(3) This bill would provide that certain of its provisions shall become operative only if this bill and AB 1292 of the 1997–98 Regular Session are both chaptered and take effect on or prior to January 1, 1999, and this bill is chaptered last, in which case certain provisions of AB 1292 would not become operative.

Ch. 1046 (SB 1641) Burton. Candlestick Park.

Existing law requires the Department of Parks and Recreation to retain in perpetuity, as a unit of the state park system, the state recreation area at Candlestick Point and authorizes the department to enter into an agreement with the City and County of San Francisco for the operation and maintenance by the city and county of all or any part of that unit.

This bill would repeal that provision and would instead allow the Director of Parks and Recreation and the State Lands Commission to enter into agreements with the city, on terms and conditions the director and the commission determine to be in the best interest of the state, to convey, to the city, no more than 20 acres of state property to be used for permanent public parking for a project approved by the voters of the city; and no more than 60 acres of state property to be used for intermittent public parking for the project, as specified. The bill would require the consideration for these conveyances to equal the fair market value of the property interests and would allow monetary consideration or specified actions to serve as consideration for those agreements, including the relinquishment of the city's reversionary rights over parcels conveyed to the state in 1983 for the formation of the state park.

The bill would make findings concerning the public trust for commerce, navigation, and fisheries, for purposes of Section 3 of Article X of the California Constitution, with regard to tidelands within the project area, and would allow the commission to sell those tidelands free of the public trust to the city. The bill would provide for the reservation of minerals and mineral rights, as specified.

The bill would allow an action to be brought to quiet title with regard to an agreement entered into pursuant to the bill.

Ch. 1047 (SB 1770) McPherson. School finance: revenue limits.

Existing law establishes a program to allocate supplemental grants to fund designated programs for school districts that are receiving less than average funding from state categorical education programs. Existing law requires each school district that received funding during the 1992–93 fiscal year from the supplemental grant program to request the Superintendent of Public Instruction to add, commencing with the 1993–94 fiscal year and each fiscal year thereafter, the funds received under that program in the

1992–93 fiscal year to the base revenue limit or to one or more of categorical programs, including, among others, home-to-school transportation.

Existing law provides that any action by a school district to change or maintain the 1993–94 designation of supplemental grant funds is considered a new designation that is applicable in the 1994–95 fiscal year and each fiscal year thereafter.

Existing law allowed school districts to change the designation of supplemental grant funds after August 3, 1995 until October 1, 1995, and provided that any action by a school district to change or maintain the designation of supplemental grant funds for the 1994–95 fiscal year is considered a new designation that is applicable in that 1995–96 fiscal year and each fiscal year thereafter. Existing law provides that, notwithstanding specified provisions of law, for purposes of computing the base revenue limit per unit of average daily attendance for the 1995–96 fiscal year of a school district, the base revenue limit per unit of average daily attendance of the school district for the 1994–95 fiscal year is increased by an amount equal to the amount of supplemental grant funds added to the total revenue limit in the 1994–95 fiscal year divided by the school district's revenue limit average daily attendance for the 1994–95 fiscal year.

This bill would, notwithstanding any other provision of law, authorize a school district that chose to designate home-to-school transportation as the program to which a supplemental grant was to be added, thereby increasing its home-to-school transportation allowance, to transfer into another of prescribed categorical education program accounts the amount that the school district's home-to-school transportation allowance for the 1996–97 fiscal year exceeded its approved home-to-school transportation costs for the 1995–96 fiscal year, not to exceed the amount of supplemental grant funding that was added to the home-to-school transportation allowance of the school district.

Ch. 1048 (SB 2085) Burton. State Teachers' Retirement System Cash Balance Plan.

The State Teachers' Retirement Law prescribes retirement benefits for eligible teachers in the public schools and the State Teachers' Retirement System Cash Balance Plan provides retirement benefits for other persons employed in instructional programs for less than 50% of the full-time equivalent by school employers who have elected to provide those benefits for those employees. The separate retirement programs and their separate retirement funds are both administered by the Teachers' Retirement Board.

This bill would merge those programs, would provide that both are included in the State Teachers' Retirement Law, and that they would both be known and cited as the State Teachers' Retirement Plan. The bill would provide that costs of administration be divided proportionately between the assets of the separate programs. The bill would provide that a prior loan from the Teachers' Retirement Fund to the Cash Balance Plan would be discharged by the creation of the State Teachers' Retirement Plan. The bill would delete the Cash Balance Fund and its various accounts, would require contributions, earnings, and any other amounts provided under that plan to be deposited in the Teachers' Retirement Fund and would provide that the Teachers' Retirement Fund is continuously appropriated for the payment of benefits under the Cash Balance Benefit Program. The bill would delete the Cash Balance Benefit Plan Expense Account and would authorize all administrative costs of the Cash Balance Benefit Program from the Teachers' Retirement Fund. The bill would make other related changes.

Ch. 1049 (SB 2174) Rainey. State Board of Equalization: records.

The California Public Records Act provides that except for exempt records, every state or local agency, upon request, shall make records available to any person upon payment of fees to cover costs.

Existing law generally prohibits members, employees, and agents of the State Board of Equalization from divulging or making known in any manner not provided by law specified information concerning the business affairs of companies reporting to the board.

This bill would specify that the act does not allow limitations on access to a public record based upon the purpose for which the record is being requested, if the record is otherwise subject to disclosure. It would also require, in light of the holding in State Board

of Equalization v. Superior Court (1992) 10 Cal.App.4th 1177, the State Board of Equalization to adopt regulations to establish procedures and guidelines to access public records, and to study and report to the Legislature by January 1, 2000, concerning the feasibility and cost of indexing its public records.

Ch. 1050 (AB 2794) Committee on Budget. Budget Act of 1998: augmentations.¹⁵

(1) Existing law, as set forth in the Budget Act of 1998, makes various appropriations for the support of state government for the 1998–99 fiscal year.

This bill would make certain appropriations for that purpose, in augmentation of the Budget Act of 1998. The appropriations that would be made by this bill include \$8,289,000 for local assistance to the Department of Parks and Recreation, \$1,700,000 to the State Water Resources Control Board, and \$5,619,000 for capital outlay to the State Coastal Conservancy.

(2) Under existing law, \$3,430,000 is reappropriated from the Proposition 98 Reversion Account to the Superintendent of Public Instruction. Of this amount, \$400,000 is for allocation on a one-time basis to the Santa Ana Unified School District for support of an arts and technology outreach program.

The bill would delete the \$400,000 appropriation for allocation to the Santa Ana Unified School District, would appropriate \$400,000 from the Proposition 98 Reversion Account to the Chancellor of the California Community Colleges for allocation to the Rancho Santiago Community College District for the IDEA Institute in Santa Ana, and would reappropriate \$240,000 from the Proposition 98 Reversion Account to two school districts for specified purposes.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1051 (SB 1574) Committee on Budget and Fiscal Review. State government: dredging projects, museum, job training, and transportation.¹⁶

(1) The existing Budget Act of 1998 makes appropriations for the support of government of the State of California for the 1998–99 fiscal year.

This bill would appropriate \$17,426,000 from the following sources for the following purposes:

(a) \$15,700,000 from the General Fund to the Department of Water Resources for local assistance, on a one-time basis, for specified dredging projects.

(b) \$1,000 from the General Fund to the California Arts Council for allocation to the Simon Wiesenthal Center-Museum of Tolerance, under certain conditions, to acquire a facility to conduct activities of the museum.

(c) \$1,250,000 from the General Fund to the Employment Development Department for certain job training purposes.

(d) \$475,000 from the Public Transportation Account to the Department of Transportation for allocation for local assistance to the Bay Area Rapid Transit District.

(2) The bill would state that these appropriations augment the appropriations made in the Budget Act of 1998.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1052 (AB 1241) Keeley. Marine resources.

(1) Existing law declares that the need to conserve, utilize, and manage the state's marine fish resources warrants exploring the feasibility of developing and implementing comprehensive fishery management plans. In this regard, existing law required the Department of Fish and Game, on or before June 30, 1995, to prepare a fishery management plan for the white seabass fishery as a pilot program. Existing law further required the department to prepare and submit to the Fish and Game Commission and the Legislature, on or before January 1, 1998, a report that evaluated the pilot program, and, among other things, recommended whether a permanent system of more comprehensive scientific marine fishery management planning should be pursued by the state.

This bill would enact the Marine Life Management Act of 1998. The bill would declare the intent of the Legislature that California's marine sport and commercial fisheries and the resources upon which they depend are important to the people of the State of

NOTE: Superior numbers appear as a separate section at the end of the digests.

California. In this regard, the bill would set forth a comprehensive plan for the management of marine life resources.

The bill would provide that fishery management plans shall form the primary basis for managing the state's sport and commercial marine fisheries and would require the commission, if funding is provided, to adopt a fishery management plan for the nearshore fishery on or before January 1, 2002. The bill would require the department, on or before September 1, 2001, to submit a master plan to the commission for its approval, specifying the process and resources necessary to prepare, adopt, and implement the fishery management plans.

The bill would specify the required contents of a fishery management plan and would require the department to submit fishery management plans to the commission for adoption or rejection, as specified. The bill would also require the Director of Fish and Game to report annually in writing to the commission on the status of sport and commercial marine fisheries managed by the state and identify those fisheries that do not meet the sustainability policies set forth in the bill.

The bill would require the department to conduct and support research relating to marine fisheries, as specified, and would require the commission to form a marine resources committee to report to the commission, as specified, and to make recommendations on all marine resource matters considered by the commission. In addition, the bill would require the department to establish a program for independent peer review of significant marine resources documents, as specified.

(2) Existing law provides, until April 1, 1999, that a pink shrimp permit shall be issued for a fee of \$285 and shall be issued only to an applicant who possessed a valid pink shrimp permit in the immediately preceding permit year.

This bill would extend those provisions until April 1, 2001.

(3) The bill would enact the Nearshore Fisheries Management Act, which would require, on and after April 1, 1999, any person taking, possessing aboard a boat, or landing any species of nearshore fish stocks, as defined, for commercial purposes to possess a valid nearshore fishing permit, as prescribed.

The act would authorize the commission to take specified actions to regulate nearshore fish stocks, including, among other things, the adoption of regulations the commission determines necessary to regulate nearshore fish stocks and fisheries. The act would require the department, on or before January 1, 2002, to submit to the commission a nearshore fisheries management plan, as specified.

The act would prohibit specified fish taken pursuant to a commercial fishing license from being possessed, sold, or purchased, unless the fish exceeds the minimum length specified in the bill for that purpose.

The act would require that any fees received by the department for convictions or violations of provisions of the act be deposited in the Fish and Game Preservation Fund to be used by the department to prepare, develop, and implement the nearshore fisheries management plan, and for other specified purposes.

(4) Existing law, until January 1, 1999, prohibits the use of more than 150 hooks on a vessel to take fish for commercial purposes in specified waters, and places other limitations on the use of hooks and fishing lines, as specified.

This bill would extend those provisions to January 1, 2004.

(5) Existing law makes a violation of the requirements, prohibitions, and regulations adopted under the bill a crime. The bill would therefore impose a state-mandated local program by creating new crimes.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(6) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the department and commission to pay all necessary expenses incurred in carrying out the Fish and Game Code and to pay the compensation and expenses of the commissioners and employees of the commission.

By imposing new duties on the department and the commission and by increasing the compensation payable to commissioners, the bill would make an appropriation.

Ch. 1053 (SB 1336) M. Thompson. Commercial fishing.

(1) Existing law requires any person who takes or lands fish for commercial purposes to obtain a commercial fishing license, as specified.

This bill would prohibit specified fish taken pursuant to a commercial fishing license from being possessed, sold, or purchased unless the fish exceeds the minimum length specified in the bill for that fish, as specified. The bill would authorize the Fish and Game Commission, by regulation, to modify those minimum size limits or to specify maximum size limits, as specified.

Existing law makes a violation of these provisions a crime. The bill would, thereby, impose a state-mandated local program by creating a new crime.

(2) The bill would declare that it would become operative only if AB 1241 of the 1997-98 Regular Session is enacted and becomes effective on or before January 1, 1999.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1054 (AB 1091) Committee on Judiciary. Dependent children.

Existing law prescribes the jurisdiction of the juvenile court in cases in which a child has been removed from the custody of a parent or guardian on the basis of abuse or neglect, and specifies the procedures for these cases. Existing law directs the probation officer to provide various services to these children and their families, and to provide information to, and carry out the orders of, the court in these matters, as specified. Existing law also provides that the Board of Supervisors may delegate to the county welfare department all or part of the duties of the probation officer concerning these children. Existing law provides that the term "probation officer" includes social workers to whom these duties have been delegated.

This bill would provide that the term "probation officer" or "social worker" includes probation officers and social workers, as specified, and would substitute the term "social worker" for "probation officer" in various provisions. The bill would also make other changes in terminology and technical changes.

Existing law specifies the procedures to be followed in the case of a minor who has been adjudged a dependent child of the court to determine the temporary placement of the child, or to permanently terminate parental rights or establish a legal guardianship for the minor. Existing law specifies different procedures and criteria in these cases depending upon whether the minor became a dependent child of the court prior to January 1, 1989, or on or after January 1, 1989.

This bill would make the criteria currently applicable to a child who became a dependent child of the court on or after January 1, 1989, applicable regardless of when the child became a dependent child of the juvenile court.

The bill would incorporate changes to various sections of the Welfare and Institutions Code, that are made by, or that are substantially similar to those made by, AB 1988, AB 2310, AB 2773, SB 1482, SB 1901, and SB 2091.

Ch. 1055 (SB 1901) McPherson. Guardianship: kinship guardians: financial aid program.

Existing law establishes procedures for juvenile court hearings to, among other things, establish legal guardianship of minors who are adjudged dependent children of the court. In these hearings, the court is required to read and consider a specified assessment prepared by the agency supervising the minor and the county adoption agency or the State Department of Social Services regarding eligibility and commitment of the prospective guardian.

This bill would provide that, if the proposed legal guardian is a relative, as defined, that assessment shall also consider all of a list of specified factors used, under existing law, to evaluate whether placement with a relative is appropriate.

Existing law provides that, once a guardianship is established for a minor who has been adjudged a dependent child of the court, the court may continue dependency jurisdiction over the minor or it may terminate that jurisdiction and retain jurisdiction

over the minor as a ward of the guardianship. Existing law also specifies that proceedings to terminate a guardianship of a dependent child shall be held in the juvenile court, except in a specified circumstance.

This bill would require the court (1) except in exceptional circumstances, to terminate its dependency jurisdiction over any child if the child has been placed, for a specified period, with a relative and the relative has been appointed the child's legal guardian, and (2) prior to a hearing to terminate a guardianship, to order the county department of social services or welfare department to prepare a report evaluating whether the guardianship could be safely continued with the provision of services, as specified.

Existing law provides aid to any minor who has been placed in foster care because he or she has been adjudged a dependent child or ward of the juvenile court or because of other specified circumstances.

This bill would establish, as of July 1, 1999, the Kinship Guardianship Assistance Payment program to provide financial assistance for children who, after being adjudged dependent children of the juvenile court, are placed in legal guardianship with a relative, as defined. The bill would direct the State Department of Social Services to establish, as specified, payment rates for, adopt emergency regulations to establish and administer, and apply for any necessary federal waivers to implement and any available federal funds for, the program. The bill also contains a related declaration of legislative intent.

This bill would allocate the costs of the program, less available federal funds, equally between the state and the counties and would continuously appropriate money from the General Fund for allocation to counties for the state's share of those costs.

Because this bill would create new duties for county agencies, it would impose a state-mandated local program.

This bill would incorporate changes to various sections of the Welfare and Institutions Code that are made by, or are substantially similar to those made by, AB 2773 and AB 1091, to become operative only if this bill and one or both of the other bills are enacted and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1056 (AB 2773) Committee on Human Services. Public social services: foster care, adoption, enforcement of support.

(1) Existing law requires the juvenile court to review, at least every 6 months, the status of any child who has been adjudged a dependent child of the juvenile court to, among other things, determine the appropriateness of the child's placement and to establish a permanent plan for the child. Under existing law, the court may continue the child's case for up to 18 months from the date the child was originally removed from the parent's or guardian's custody, if the court makes specified findings; however, at the 18-month hearing, the court is required to either return the child to a parent or guardian or order a hearing to be held to terminate parental rights and free the child for adoption, appoint a legal guardian, or make other specified plans for the child's permanent placement. In this context, existing law imposes duties upon probation officers to provide reunification and other specified services to children and their parents or guardians and to inform the court regarding those services and other matters relating to the child. Under existing law, a board of supervisors may delegate these duties to the county welfare department and "probation officer" is defined to include a social worker performing these duties. Existing law permits a foster parent having custody of the child to file a report with the court, prior to any review hearing, containing his or her recommendations for disposition.

This bill would permit the court (a) to continue the child's case for only 12 months before determining whether the child is or is not to be returned to a parent or guardian and, if the child is not to be returned, ordering the specified hearing, and (b) to continue

the case for an additional 6 months only if the court makes specified findings that there is a substantial probability that the child will be returned to the custody of the parent or guardian and safely maintained in the home within the extended time period. This bill would require social workers to perform those specified duties currently required to be performed by probation officers. The bill would also require the court to consider the safety of the child in making placement decisions and would specify that relative caregivers and certified foster parents, as specified, shall receive notice of the hearings and may file a report with the court containing recommendations for disposition.

(2) Existing law requires county welfare departments to prepare a written case plan for each child removed from the physical custody of the child's parent or guardian to ensure that the child receives protection and proper case management and that services are provided as appropriate. Existing law requires that the case plan be updated in conjunction with each status review hearing.

This bill would specify that the case plan shall ensure the safe and proper care of the child, that, in providing services, the child's health and safety are the paramount concerns, and that the services provided shall, among other things, facilitate the return of the child to a safe home or the permanent placement of the child. The bill would require the case plan, in specified circumstances, to include documentation of the reasons why termination of parental rights is not in the child's best interest. The bill would also require the case plan, when updated, to describe the services provided and their effectiveness.

(3) Existing law requires county welfare departments to provide permanent placement services to specified children in foster care.

This bill would require social workers to submit a recommendation to the court, subject to specified exceptions, to set a hearing for the purpose of terminating the rights of the child's parent or guardian for each child that has been in foster care for a specified period. The bill would also require county welfare departments to implement procedures for reviewing case plans, according to specified timeframes and would thereby create a state-mandated local program.

(4) Existing law prohibits the State Department of Social Services or a licensed adoption agency from denying a person the opportunity to become an adoptive parent based on race, color, or national origin. Existing law also establishes grievance procedures for recipients of public social services who are dissatisfied with the actions of the county relating to their application or receipt of those services.

This bill would additionally prohibit the department or a licensed adoption agency from denying to place a child for adoption because the prospective adoptive parents live outside the department's or agency's jurisdiction; but would specify those prospective adoptive parents who allege they have been denied, or experienced delay in, placement of a child for that reason shall be deemed recipients of public social services for purposes of the grievance procedures. The bill would also direct the department to establish a statewide exchange system that interjurisdictionally matches children with approved adoptive families, as defined, and would specify procedures and confidentiality requirements for use of the exchange.

(5) Existing law authorizes the State Department of Social Services to establish services incident to the relinquishment of children for adoption in any county that does not have a county adoption agency.

This bill would state the intent of the Legislature to conform state law to the federal Adoption and Safe Families Act of 1997, and to reinvest any incentive payments into the child welfare system in order to provide postadoption services to families who adopt foster children.

(6) Existing law permits a child declared a ward or dependent child of the juvenile court to retain any cash savings accumulated pursuant to the child's Independent Living Program case plan, as specified.

This bill would limit the amount of these accumulated savings to \$5,000.

(7) Existing law provides that files, documents, and other specified papers maintained by a public entity pursuant to a child and spousal support enforcement program established pursuant to federal law shall be confidential and may be disclosed only for specified actions or proceedings in connection with the federal program.

This bill would also permit disclosure of those documents to a county welfare department for specified purposes.

(8) Existing law provides that a birth parent who resides outside this state may relinquish a child to the State Department of Social Services or a licensed adoption agency for adoption by a written statement signed by the relinquishing parent before a notary.

This bill would require, in cases where the birth parent and the child reside outside this state, that the relinquishing parent receive specified counseling and advisement services in his or her state of residence prior to signing the relinquishment and would specify that the statement shall be signed before a specified licensed agency representative or before a licensed social worker.

(9) Existing law authorizes the State Department of Social Services to license private adoption agencies.

This bill would require the State Department of Social Services to deny or revoke the license of any private adoption agency unless the applicant or licensee demonstrates that they employ an executive director or a supervisor who has had at least 5 years of full-time social work employment, as specified.

(10) Existing law authorizes licensed county adoption agencies to contract with licensed private adoption agencies for specified services.

This bill would authorize those agencies to also contract with any out-of-state public or private licensed adoption agencies for those services that substantially meet standards and criteria established in California adoption regulations.

(11) The bill would make other related changes.

(12) Existing law requires the State Department of Social Services to adopt regulations for community care facilities licensed as group homes and for temporary shelter care facilities that care for dependent children, children placed by a regional center, or voluntary placements, who are younger than 6 years of age.

This bill would require the department to submit for public comment, regulations that apply to mother and infant programs serving children younger than 6 years of age who reside in a group home with a minor parent who is the primary caregiver of the child, including the requirement that when the minor parent is absent and the facility is providing direct care to children younger than 6 years of age who are dependents of the court there shall be one child care staff person for every 4 children of minor parents.

(13) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(14) The bill would appropriate \$330,000 for the purposes of the bill.

(15) This bill would incorporate additional changes in Section 8708 of the Family Code, proposed by AB 1444, to be operative only if AB 1444 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(16) This bill would incorporate additional changes in Section 1505 of the Health and Safety Code, proposed by AB 2686, to be operative only if AB 2686 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(17) This bill would incorporate additional changes in Section 361.3 of the Welfare and Institutions Code, proposed by SB 645, to be operative only if SB 645 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(18) This bill would incorporate additional changes in Section 361.5 of the Welfare and Institutions Code, proposed by SB 1901 or SB 2091, to be operative only if SB 1901 or SB 2091 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(19) This bill would incorporate additional changes in Section 366.21 of the Welfare and Institutions Code, proposed by SB 1901, to be operative only if SB 1901 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(20) This bill would incorporate additional changes in Section 366.22 of the Welfare and Institutions Code, proposed by SB 1901, to be operative only if SB 1901 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(21) This bill would incorporate additional changes in Section 366.26 of the Welfare and Institutions Code, proposed by AB 2310, to be operative only if AB 2310 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(22) This bill would incorporate additional changes in Section 366.3 of the Welfare and Institutions Code, proposed by SB 1482 and SB 1901, to be operative only if SB 1482 or SB 1901 and this bill are chaptered and become effective January 1, 1999, and this bill is chaptered last.

(23) This bill would incorporate additional changes in Section 10950 of the Welfare and Institutions Code, proposed by AB 1961, to be operative only if AB 1961 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

(24) This bill would incorporate additional changes in Section 11478.1 of the Welfare and Institutions Code, proposed by AB 2169, to be operative only if AB 2169 and this bill are both chaptered and become effective January 1, 1999, and this bill is chaptered last.

Ch. 1057 (AB 1812) Machado. Flood control: Stockton Metropolitan Area: water quality.¹⁷

(1) Existing law provides that for specified flood control projects authorized by the Legislature after January 1, 1987, and for small flood control projects authorized, as specified, by the Department of Water Resources after January 1, 1987, the state shall pay 70% of specified costs.

This bill would appropriate \$15,052,000 from the General Fund to the San Joaquin Flood Control Agency for the Stockton Metropolitan Area Flood Control Project.

(2) Existing law regulates the discharge of waste into the waters of the state.

This bill would appropriate \$15,000,000 to the Controller for allocation to a county of the 24th class for the purpose of constructing necessary house laterals and infrastructure for any unsewered municipality that is subject to an enforcement order of a regional water quality control board that prohibits the discharge of waste from individual sewage disposal systems, and that meets other specified conditions.

Ch. 1058 (AB 205) Machado. Speech-language pathologist.

(1) Existing law provides for the licensure of speech-language pathologists and prohibits the practice of speech-language pathology without a license. Existing law authorizes a speech-language pathology aide who meets the minimum requirements established by the Speech-Language Pathology and Audiology Examining Board to work directly under the supervision of a speech-language pathologist who is responsible for the extent, kind, and quality of services performed by the aide, consistent with the committee's designated standards and requirements.

This bill would authorize a speech-language pathology assistant, as defined, to assist in the provision of speech-language pathology under the direction and supervision of a speech-language pathologist who shall be responsible for the extent, kind, and quality of the services provided by the speech-language pathologist assistant. The bill would establish certain requirements for a speech-language pathologist who supervises a speech-language pathology assistant and who is employed or contracted for by a public school.

The bill would require the board to adopt regulations, would establish certain qualifications of a speech-language pathology assistant, and would provide procedures for a speech-language pathology aide with certain qualifications to make application for registration as a speech-language pathology assistant.

(2) Existing law authorizes the board to direct applicants to be examined for knowledge in whatever theoretical or applied fields of speech pathology or audiology as it deems appropriate.

This bill would prohibit, after January 1, 2001, the board from renewing any license or registration, unless the applicant certifies to the board that he or she has completed in the preceding 2 years not less than the minimum number of continuing professional development hours to be established by the board for the professional practice authorized by his or her license or registration. The bill would set forth continuing

NOTE: Superior numbers appear as a separate section at the end of the digests.

professional development requirements, require the board to prescribe the forms to be utilized for continuing professional development and establish exceptions from the requirements, and authorize the board to audit and require an applicant to maintain records of completion of required continuing professional development.

(3) Existing law requires a person engaging in the practice of speech-language pathology to pay a licensing fee, to be deposited in the Speech-Language Pathology and Audiology Examining Committee Fund, a continuously appropriated fund.

This bill would impose licensing fees upon a speech-language pathology assistant. The bill would also require the committee, by regulation, to fund the administration of the continuing professional development required by this bill as provided in (2) above through provider fees to be deposited in the fund. By increasing the source of moneys in a continuously appropriated fund, this bill would make an appropriation.

(4) Existing law provides that a violation of the provisions regulating a speech-language pathologist is subject to criminal sanction.

This bill would set forth prohibitions regarding the utilization of the title speech-language pathology assistant or a similar title and would prohibit a person who is not registered as a speech-language pathology assistant from performing the duties and functions of a speech-language pathology assistant, except as provided in the provisions regulating the practice of speech-language pathology. By expanding the class of persons subject to criminal sanction under these provisions, this bill would impose a state-mandated local program by changing the definition of a crime.

(5) Existing law requires that a continuum of program options be available to meet the needs of individuals with exceptional needs. Existing law requires that designated instruction and services be available when necessary for the educational benefit of pupils with exceptional needs to be provided by specified individuals. The designated services include, but are not limited to, language and speech development and remediation.

This bill would provide that these language and speech development and remediation services may be provided by a speech-language pathology assistant.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1059 (AB 830) Pringle. Education finance.

(1) Under existing law, \$3,430,000 is reappropriated from the Proposition 98 Reversion Account to the Superintendent of Public Instruction. Of this amount, \$400,000 is for allocation on an one-time basis to the Santa Ana Unified School District for support of an arts and technology outreach program.

This bill would delete the \$400,000 appropriation for allocation to the Santa Ana Unified School District, thus reducing the total appropriation in this provision to \$3,030,000.

(2) This bill would appropriate \$400,000 from the Proposition 98 Reversion Account to the Chancellor of the California Community Colleges for allocation to the Rancho Santiago Community College District for the IDEA Institute in Santa Ana.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1060 (AB 1671) Keeley. Fish and Game Preservation Fund: appropriation.

(1) Existing law continuously appropriates money in the Fish and Game Preservation Fund to the Department of Fish and Game to pay all necessary expenses incurred in carrying out the Fish and Game Code and any other law for the protection and preservation of birds, mammals, reptiles, and fish. Moneys are deposited in the fund from, among other sources, revenues collected by the department from license fees and commercial fishing landing taxes.

This bill would transfer \$7,000,000 from the General Fund to the Fish and Game Preservation Fund, thereby making an appropriation.

(2) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1061 (AB 2197) Washington. Infractions: penalties: community service.

Under existing law, persons convicted of infractions are subject to prescribed fines as punishment therefor. Under existing law, courts may impose reasonable conditions in lieu of fines that are necessary to secure justice, make amends to society and individuals injured by the defendant's breach of law, and to assist the reformation and rehabilitation of the defendant.

This bill would provide that upon a showing that payment of fines would be a hardship on the defendant or his or her family, a court may sentence the defendant to perform community service in lieu of the total fine to be imposed, as defined. The bill would provide that for purposes of this provision, this community service work would be valued at an hourly rate applicable to community service work performed by criminal defendants.

Ch. 1062 (AB 2229) Keeley. Birth certificates: certified copies: fees.

Under existing law, the board of supervisors of any county may impose a surcharge of up to \$3 on the fee for a certified copy of a birth certificate, either through December 31, 1998, or until any earlier date that the board finds the fee is no longer necessary for dependency mediation funding. Existing law provides that by providing for the December 31, 1998, expiration date on the surcharge, the Legislature intends that juvenile dependency mediation programs pursue ancillary funding sources after that date.

This bill would extend the December 31, 1998, expiration date on the surcharge to June 30, 1999, and would make a conforming change.

Ch. 1063 (AB 2410) Shelley. Motor vehicles: reacquisition agreements.

Existing law provides that certain contracts are null and void as against public policy, as specified.

This bill would provide that any automobile manufacturer, importer, or distributor who reacquires, or who assists a dealer or lienholder in reacquiring, a motor vehicle, whether by judgment, decree, arbitration award, settlement agreement, or voluntary agreement, shall be prohibited from either requiring, as a condition of the reacquisition of the motor vehicle, that a buyer or lessee who is a resident of this state agree not to disclose the problems with the vehicle experienced by the buyer or lessee or the nonfinancial terms of the reacquisition, or including, in any release or other agreement for signature by the buyer or lessee, a confidentiality clause, gag clause, or similar clause prohibiting the buyer or lessee from disclosing information to anyone about the problems with the vehicle, or the nonfinancial terms of the reacquisition of the vehicle; and would declare any such confidentiality clause, gag clause, or similar clause in such a release or other agreement to be null and void as against the public policy of this state.

Ch. 1064 (AB 2438) Murray. Health care service plans: maternal and child health services.

Existing law governing health care service plans and disability insurance imposes certain requirements relating to coverage for maternity benefits and access to obstetrician-gynecologists. The willful violation of the law relating to health care service plans is a crime.

This bill would require certain group and individual health care service plan contracts, except for specialized health care service plan contracts, and certain disability insurance policies, that are issued, amended, renewed, or delivered on or after January 1, 1999, to provide coverage for participation in the statewide prenatal testing program administered by the State Department of Health Services known as the Expanded Alpha Feto Protein program. The bill would also prohibit a health care service plan or a disability insurer from requiring participation in the program as a prerequisite to eligibility for or receipt of any other service. By expanding coverage responsibilities of health care service plans, this bill would impose a state-mandated local program by changing the definition of an existing crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1065 (AB 2495) Prenter. Runaway Youth and Families in Crisis Project.

Existing law provides various services and programs for runaway and homeless youth, as specified.

This bill would create the Runaway Youth and Families in Crisis Project by establishing pilot projects involving private, nonprofit organizations in the San Joaquin Central Valley, in the northern region of California, and in the southern region of California, for a period of no less than 3 years. The bill would require the Office of Criminal Justice Planning to prepare and disseminate a request for proposals to prospective grantees, as specified, establish specific criteria for grant awards, and would require applicants to identify measurable outcomes in their applications, including the number of clients to be served and the percentage to be successfully returned to the home of a parent or guardian or to an alternate living condition. Preference would be required to be given to organizations with existing facilities serving runaway youth or families in crisis for at least 3 years, among other factors. The bill would require organizations to contribute a local match of at least 15% in cash or in-kind contributions.

The bill would also authorize peace officers, as defined, to transport a runaway youth or youth in crisis to the nearest runaway shelter provided the youth agrees to the transportation, and would require projects to notify parents that their children are staying at the project site consistent with state and federal parent notification requirements.

This bill would provide for the project to be funded by an amount appropriated in the annual Budget Act, however, no applicant would be permitted to receive a grant greater than the total amount of funds appropriated in the Budget Act minus the 3% for the Office of Criminal Justice Planning, divided by the total number of counties participating in the project. The bill would further provide that the amount transferred each year to the Office of Criminal Justice Planning be used for the purpose of funding, monitoring, evaluating, and reporting to the Legislature on the results of the pilot projects, as specified.

Ch. 1066 (SB 896) Alpert. Education: physical education in public schools.

Existing law requires the State Department of Education to adopt rules and regulations that it deems necessary and proper to secure the establishment of courses in physical education in the elementary and secondary schools.

This bill would express findings, declarations, and the intent of the Legislature regarding physical activity in schools.

Existing law requires the governing board of each school district maintaining grades 5, 7, and 9 to administer a physical performance test designated by the State Board of Education to each pupil in those grades, and upon request of the State Department of Education, to submit the results to the department at least once every 2 years.

This bill would require the State Department of Education to compile the results of the physical performance test and to submit a report every 2 years, by December 31, to the Legislature and Governor that standardizes the data, tracks the development of high-quality fitness programs, and compares the performance of California's pupils with national performance, to the extent that funding is available.

Ch. 1067 (SB 1537) Rosenthal. Long-term care insurance.

Existing law requires every insurer that offers policies or certificates that are intended to be federally qualified long-term care insurance contracts to concurrently offer and market long-term care insurance policies or certificates that are not intended to be federally qualified.

This bill would require the Department of Insurance to adopt emergency regulations to require insurers offering both forms of policies to offer a holder of either form of policy a one-time opportunity to exchange the policy from one form into the other form, if a federal law is enacted, or the United States Department of the Treasury issues a decision, declaring that the benefits paid under long-term care insurance policies or certificates, that are not intended to be federally qualified, are either taxable or nontaxable as income.

The bill would provide for the emergency regulations to require insurers to allow exchanges to be made on a guaranteed issuance basis, but to allow insurers to lower or increase the premium, with the new premium based on the age of the policyholder at the time the holder was issued the previous policy, as specified. The bill would also provide for the exchange to be made by rider to a policy at the discretion of the department, and would also provide that policies may not be exchanged if the holder is receiving benefits under the policy or would immediately be eligible for benefits as a result of an exchange. These provisions would become inoperative on July 1, 2001, and would be repealed on January 1, 2002.

The bill would also require insurers to take certain actions to notify holders of these policies and certificates of the availability of the exchange option.

Existing law provides for the certification of insureds as chronically ill individuals by health care practitioners for purposes of long-term care insurance.

This bill would provide that those provisions apply only to a policy or certificate intended to be a federally qualified long-term care insurance contract.

Existing law requires an outline of coverage to be delivered to a prospective applicant for long-term care insurance at the time of initial solicitation, and requires that outline to include information regarding the toll-free telephone number of the Department of Insurance.

This bill would also require that outline to include information regarding the toll-free telephone number of the Health Insurance Counseling and Advocacy Program.

Existing law requires an insurer that replaces a long-term care policy or certificate that it has previously issued to recognize past insured status by granting premium credits, as specified.

This bill would provide that the cumulative premium credits allowed need not reduce the premium for the replacement policy or certificate to less than the premium of the original policy or certificate.

The bill would make other related changes.

Ch. 1068 (SB 1763) Costa. Oil and gas wells.

(1) Existing law regulates the drilling, operation, maintenance, and abandonment of oil or gas wells, as defined. Existing law defines "well" for purposes of these provisions and requires every person who acquires the right to operate a well to provide the State Oil and Gas Supervisor with, among other things, a bond or deposit for any well that has not produced oil or gas or that has not been used for injection, as specified. Existing law requires every person who engages in the drilling, redrilling, or deepening, or in other specified operations, to file with the supervisor an individual indemnity bond, in a specified amount, but allows a person to file a blanket indemnity bond in lieu of an individual indemnity bond for each operation. Existing law requires the operator of any well that does not produce oil or natural gas, or that has not been utilized for injection purposes, as specified, to file a specified indemnity or cash bond, a blanket indemnity or cash bond, or a fee, as specified. The fees are required to be deposited in the Hazardous and Idle-Deserted Well Abatement Fund, which is continuously appropriated to the Department of Conservation to mitigate certain hazardous or potentially hazardous conditions.

Under existing law, any person who violates the provisions regulating oil and gas conservation is guilty of a misdemeanor.

This bill would define "active observation well," "idle well," and "long-term idle well" for purposes of the oil and gas conservation provisions. The bill would require a person acquiring the right to operate a well to provide an indemnity bond for each idle well in a specified amount. The bill would increase the amount of the individual indemnity bond required to be provided by any operator who engages in drilling, or other specified activities, with regard to a well, and would also revise the amount of the blanket indemnity bond that may be provided in lieu of the individual bond. The bill would require the operator of an idle well not covered by an indemnity bond to file with the supervisor a specified annual fee for each idle well, provide a specified escrow account for each idle well, file a specified indemnity bond, or file a plan with the supervisor to provide for the management and elimination of all long-term idle wells. The bill would specify the provisions required to be included in that plan. Since the increased fees would

be deposited in the fund, the bill would make an appropriation, and since a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

(2) The Division of Oil and Gas in the Department of Conservation is prohibited from expending more than \$5,000,000 in any one fiscal year with regard to the regulation of hazardous or idle-deserted wells.

The bill would increase the amount which the division may expend for purposes of hazardous or idle-deserted wells to \$1,000,000, commencing with the 1999–2000 fiscal year, but would decrease that amount to \$500,000 commencing with the 2005–06 fiscal year.

The bill would require the department to submit specified reports to the Legislature on its progress in abandoning orphan wells.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1069 (SB 1897) C. Wright. Child welfare services.

Existing law provides for the Aid to Families with Dependent Children-Foster Care (AFDC-FC) program, under which, pursuant to a combination of federal, state, and county funds, aid on behalf of eligible children is paid to foster care providers.

Existing law permits any county, subject to the approval of the State Department of Social Services, to claim, on an annual basis, a portion of the state's share, and to the extent permitted, the federal share, of that county's AFDC-FC expenditures for specified children, provided the county conducts a family preservation program that provides certain services.

Existing law requires a county to fund a portion of certain AFDC-FC expenditures, in accordance with a specified formula, if those expenditures exceed the county's total projected AFDC-FC fund expenditures and other conditions are met.

This bill would authorize a participating county's share of expenditures in excess of the projected total to be reduced upon approval of the department in accordance with certain criteria relating to foster care placements of children in the homes of relatives. This authority would become inoperative on the date the director executes a declaration, which shall be retained by the director, that the department has established a kinship care program that is separate and distinct from the existing foster care program and that provides services uniquely suited to the needs of children being cared for by their kin, or on January 1, 2002, whichever is earlier.

Existing law, until July 1, 1997, permitted each county with a family preservation program in operation at least 3 consecutive years to request a permanent transfer of funds from certain General Fund moneys appropriated for out-of-home placement for certain children for purposes of providing family placement services.

This bill would permit any county that elects to continue to conduct a family preservation program to request a permanent transfer of funds from certain General Fund moneys, if the county's implementation of the family preservation program has been based upon a plan, approved by the department, that includes phased-in implementation. It would also permit a county, subject to the approval of the department, to receive upon its request, at any time after the permanent transfer of funds has been made, a supplemental permanent transfer of funds, subject to specified limits, to serve additional populations of eligible children who were not served during the initial phase of plan implementation.

Ch. 1070 (SB 2003) Knight. Veterinary medical board.

Existing law provides for a Veterinary Medical Board in the Department of Consumer Affairs, and requires the board, by means of examination, to ascertain the professional qualifications of all applicants for licensure to practice veterinary medicine in this state and to issue a license to every person whom it finds to be qualified. Under certain specified conditions, the board is authorized to waive the examination requirements and

to issue a license to an applicant to practice veterinary medicine subject to the applicant meeting certain requirements.

This bill would, instead, require until July 1, 2002, the board to waive the examination requirements and to issue a temporary license to an applicant to practice veterinary medicine under the supervision of another licensed California veterinarian, subject to the applicant meeting certain revised requirements, as specified.

Other provisions of the bill require certification that an applicant for licensure personally completed an examination concerning the statutes and regulations of the Veterinary Medicine Practice Act that is administered by mail.

A violation of the Veterinary Medicine Practice Act is a misdemeanor. In expanding the scope of an existing crime, the bill would impose a state-mandated local program. The bill would provide an exemption from the examination requirements of the provision described above to University of California veterinary medicine students who have successfully completed a course on veterinary law and ethics covering the California Veterinary Medicine Practice Act.

This bill would also provide for a temporary license valid for one year for applicants accepted into a qualifying internship or residency program meeting certain requirements.

Existing law requires the board to set and charge various examination and licensing fees, as specified. Revenue from those fees is deposited into the Veterinary Medical Board Contingent Fund, a continuously appropriated fund.

This bill would require the board to set and charge certain fees for the Veterinary Medicine Practice Act examination and the temporary license to be issued as described above. By increasing the source of funds for a continuously appropriated fund, the bill would make an appropriation.

In expanding the scope of an existing crime this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1071 (SB 2186) Knight. Veterans homes: lease of property: revenues.

Existing law authorizes the Director of General Services to lease or let any real property held by the Department of Veterans Affairs for a veterans home, and not needed for any direct or immediate purpose of the home, to any entity or person upon terms and conditions determined to be in the best interest of the home, as specified. Existing law also requires all money received in this connection to be deposited in the General Fund to the credit of, and to augment the current appropriation for the support of, the home.

This bill would require, notwithstanding these provisions or any other provision of law, a portion of the money received from the lease of real property for a golf course on the grounds of the Veterans Home of California, Yountville, commencing at the end of the first 12 months after the date the department no longer operates a driving range on that property, upon appropriation by the Legislature, to be made available annually to the administrator for special projects that provide a direct benefit to the members of the home, in an amount to be determined, as specified. The amount to be transferred would be equal to the revenue received by the post fund from the department-operated driving range in the highest revenue-producing year of the last 5 consecutive calendar years of operation less the amount deposited in the post fund pursuant to the lease of property for a golf course, adjusted for inflation in each succeeding year.

The bill also would make technical, nonsubstantive changes.

Ch. 1072 (AB 2196) Washington. Adoption of dependent children: contact with siblings.

Existing law provides that, when a child has been adjudged a dependent of the juvenile court, the juvenile court may, in specified circumstances, permanently terminate the rights of the parent or parents of the child and order that the child be placed for adoption.

In those cases, the petition for adoption of the child may be filed, and the adoption hearing may be held, in the juvenile court or in any other court as permitted by law.

This bill would authorize the court, in those adoption proceedings and with the consent of the adoptive parents, to include in the adoption order provisions relating to facilitation of postadoptive sibling contact. The bill would also authorize the adoptive parents or parents to terminate that sibling contact upon written notice to the court that continued contact poses a threat to the health, safety, or well-being of the child.

Existing law requires the State Department of Social Services or licensed county adoption agency to submit a full report of the facts of the case to the court in any adoption proceeding.

This bill would require that report to describe whether specified steps have been taken to facilitate ongoing sibling contact and the plan, if any, for facilitation of postadoptive sibling contact in those cases where the child has been declared a dependent of, and has been freed for adoption by, the juvenile court.

Existing law requires the responsible local agency to complete a case plan for each child receiving child welfare services. When the child has been removed from the home, the case plan must include a recommendation regarding the appropriateness of visitation between the child and the child's siblings. Existing law also requires the responsible local agency to make diligent efforts to maintain sibling contacts for dependent children in foster care unless the court determines that sibling interaction is detrimental to the child.

This bill would require, in cases where parental rights have been terminated and the child is to be placed for adoption, that the recommendation regarding sibling visitation be included in the child's case plan. The bill would also require, in those cases, that the licensed county adoption agency or the State Department of Social Services take specified steps to facilitate ongoing sibling contacts, except where the court determines that contact is detrimental to the child. By imposing these new duties on local agencies, the bill would create a state-mandated local program.

This bill would also incorporate additional changes in Section 16501.1 of the Welfare and Institutions Code proposed by AB 2773 and SB 933, to be operative only if one or more of those bills and this bill are enacted and become effective on or before January 1, 1999, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1073 (SB 627) Karnette. Elections: counting votes.

Existing law sets forth election day procedures for precinct boards and elections officials, and procedures for counting votes, including manual and automated counting, counting at the precinct and at central locations, the semiofficial and official canvass of votes, and snap tallies.

This bill would repeal and reenact many of those provisions in a renumbered, amended, and reorganized form. The bill would renumber numerous existing sections without substantive change. The bill also would make technical changes, and changes to conform terminology.

Existing elections law defines the term "ballot."

This bill would repeal, reenact, and recast that provision to reflect current terminology and the use of different voting systems.

This bill would define the terms "official canvass," "1% manual tally," and "semifinal official canvass" for the purposes of the bill.

Under existing law, if the county elections official refuses to register any qualified elector in the county, the elector may bring an action in superior court to compel the registration and as many persons may join as plaintiffs as have causes of action.

This bill would impose a state-mandated local program by applying the same rights and procedures to persons who claim to have registered to vote through any public agency designated as a voter registration agency under the federal National Voter Registration Act of 1993 but are denied registration by the county elections official.

Existing law establishes procedures for the defacing of unused ballots, and for the destruction of unused ballots.

This bill would repeal, reenact, and reorganize those procedures, and would provide that the ballots may be recycled, as specified.

Existing law requires that a write-in vote for a candidate be marked with a rubber stamp or marking device, permits the use of a pen or pencil in writing in the name of a candidate on a ballot, and specifies the use of a stamp or other marking device in marking a ballot.

This bill would repeal those provisions.

Existing law establishes procedures for segregating damaged ballots that are to be duplicated, establishes procedures for the examination and tallying of ballots and ballot cards in regard to write-in votes, and establishes procedures for canvassing absentee ballots.

This bill would repeal and reenact those provisions in a reorganized form, and would require the provisions of the reorganized chapter to apply to the processing of absentee ballots during the 29-day period prior to any election, during the semifinal official canvass, and during the official canvass. The bill also would establish procedures for processing absentee ballots to include opening absentee ballot envelopes, removing ballots, duplicating damaged ballots, and preparing the ballots to be machine read, and machine-reading the ballots.

Existing law requires that a copy of each computer election vote program for a statewide or special state election to fill vacancies be deposited with the Secretary of State, and specifies how the program is to be preserved.

This bill would repeal and reenact those provisions in a reorganized form relating to preparations for canvass by elections officials, and would establish additional procedures for the Secretary of State to follow for secure preservation of the computer program.

Existing law authorizes the Secretary of State to approve voting systems.

This bill would require the elections official, no later than 7 days prior to an election, to test the device that will be used to tabulate ballots to ensure the accuracy of the device. The bill also would require the Secretary of State, no later than January 1 of each even-numbered year, to review and amend administrative procedures, as necessary, for use with the voting systems approved by the Secretary of State. The bill also would require elections officials to adopt semifinal official canvass and official canvass procedures to conform to the applicable voting systems procedures that have been approved by the Secretary of State, and would require that the procedures be available for public inspection no later than 29 days prior to each election.

Existing law establishes general provisions for procedures for vote counting in precincts, and establishes manual vote counting as the default vote counting procedure for all elections.

This bill would repeal and reenact those provisions in a reorganized form. The bill would also restrict application of the reorganized provisions to only those elections where ballots are counted by hand.

Existing law establishes procedures for the return of supplies from the polls to elections officials, establishes procedures for snap tallies, establishes supplemental counting boards, and establishes procedures for vote counting in a central place.

This bill would repeal and reenact those provisions in a reorganized form. The bill also would repeal those provisions regarding preparation of tally sheets, the requirement of counting votes in public, and the manner of preparing returns, and would establish that the procedures for manual vote counts at a central place are the same as the procedures used for manual vote counts in the precincts.

Existing law establishes election return centers and requires the elections officials to tabulate, total, and make available to the public the results received as to the offices and measures voted upon, as specified.

This bill would repeal and reenact those provisions in reorganized form. The bill would also authorize multiple counting centers, the use of telephone, facsimile, or modem

transmission of results, and recast vote counting procedures to follow the vote counting procedures as specified for automatic vote counting in a central place.

Existing law establishes procedures for a semiofficial canvass.

This bill would repeal the term "semiofficial canvass" and instead would establish and define the term "semifinal official canvass," and would repeal and reenact the general provisions relating to the above-described canvass in a reorganized form. The bill also would repeal and reenact, in a reorganized form, with other provisions relating to automated vote counts in a central location, those provisions relating to counting procedures for elections using automated voting systems. The bill also would repeal and reenact provisions relating to the duplication of damaged ballot cards, and would repeal provisions relating to the duplication of absentee ballots onto punchcards, procedures for the processing, counting, and machine tabulation of absentee ballots, and a procedure relevant to the final canvass.

Existing law establishes procedures for the official canvass and for the canvass of write-in votes.

This bill would repeal and reenact those provisions in a reorganized form. The bill also would define the elements of the official canvass and provide procedures for marking write-in votes for various voting systems, as specified.

This bill would require that absentee and mail precinct ballots that are not included in the semifinal official canvass be processed and counted during the official canvass, as specified.

This bill would require that provisional ballots be processed and counted pursuant to procedures established for processing absentee ballots.

Existing law establishes procedures for a manual recount, after each election, of 1% of the precincts and one additional precinct for each race not included in the initial group of precincts, or, if 1% is less than one whole precinct, of one precinct, as specified, and requires the 1% manual recount to be accomplished within 15 days after the official canvass.

This bill would repeal and reenact those provisions, would recast the language of the provisions, would repeal the 15-day time limitation, and instead, would authorize the 1% tally to occur during the official canvass.

Existing law authorizes the recycling of unused ballots by elections officials, as specified, and requires elections officials to file an affidavit as to the number of ballots recycled.

This bill would repeal and reenact those provisions in a reorganized form with provisions relating to the destruction of ballots, and in addition, require that the above-described affidavit be filed no later than 30 days following the last day to certify the official results of the election. The bill also would permit, at the discretion of elections officials, recycling of the unused ballots up to 6 months following an election, or at the conclusion of an election contest proceeding, whichever is later.

Existing law requires any tape used in programming vote totals to be kept under lock and seal and, if there is a recanvass of votes, for the officer entrusted with the tape to submit an affidavit stating that the subject tapes are the true tapes used in the election and have not been altered.

This bill, in addition, would make those provisions applicable to any diskette, cartridge, or other magnetic or electronic storage medium used in programming the vote totals, and require storage of those media in a "secure place," rather than under lock and seal.

This bill would renumber various sections and make technical and conforming changes in terminology.

Existing law establishes that every person charged with the performance of any duty relating to elections, as specified, is guilty of a crime where that person willfully neglects or refuses to perform the duty.

This bill would impose a state-mandated local program by imposing additional duties on local elections officials, and by expanding the definition of a crime, in view of existing law that provides that the willful neglect of, or refusal to perform, the above-described duties is a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund

to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, with regard to certain mandates, no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 1074 (SB 1021) Burton. Public employees.

(1) The Public Employees' Retirement Law requires benefit adjustments as a result of specified federal limitations.

This bill would revise those provisions to reflect changes in the federal limitations.

(2) The State Teachers' Retirement Law, the Public Employees' Retirement Law, and the County Employees Retirement Law of 1937 prescribe reciprocal benefits for persons who change employment and receive service credit in those plans within specified periods of time.

This bill, in the case of certain full-time elective officers, would provide that the period of service in the full-time elective office would meet the reemployment requirement for those benefits, as specified.

(3) The Legislator's Retirement Law authorizes legislative statutory officers to receive credit for prior state service upon payment of specified contributions.

This bill would permit all members of that system to receive that credit upon payment of specified contributions.

This bill would state that it is to take effect immediately as an urgency statute.

Ch. 1075 (SB 2075) Polanco. Appliance and electronics service contracts.

The Electronic and Appliance Repair Dealer Registration Law provides for regulation by the Bureau of Electronic and Appliance Repair of service contracts relating to the maintenance or repair of appliances and electronic sets, defined to include televisions, radios, computer systems, video equipment, photocopiers, facsimile machines, and other related products.

This bill would provide, on or after January 1, 2000, that service contracts subject to regulation under these provisions include service contracts offered or issued by a person or affiliate of a person whose business is regulated by the Public Utilities Commission if specified conditions are met.

Existing law provides for an initial registration fee and an annual registration renewal fee for service contractors of not more than \$75 for each place of business.

This bill would provide, on or after January 1, 2000, for an initial registration fee established by the director in an amount not to exceed the actual and direct costs associated with the regulation of service contractors, but in no event to exceed a specified amount. It would also state legislative intent that the amount of the annual registration renewal fee be evaluated and set by the Legislature.

Existing law provides for the regulation of home protection contracts by the Department of Insurance, but excludes from regulation service contracts, guarantees, or warranties covering a home appliance, system, or component, under certain circumstances.

This bill would exempt service contracts offered or issued by a person or affiliate of a person whose business is regulated by the Public Utilities Commission if specified conditions, including regulation by the Bureau of Electronic and Appliance Repair, are met.

The bill would also require the Department of Consumer Affairs, in consultation with the Department of Insurance and other entities, to conduct a study relating to home service contracts, and to report to the Legislature on or before May 1, 1999. The bill would appropriate the sum of \$50,000 from the Electronic and Appliance Repair Fund, a special fund, to the Department of Consumer Affairs for those purposes.

Ch. 1076 (SB 2126) Committee on Public Employment and Retirement. State Teachers' Retirement System: benefits.

(1) The State Teachers' Retirement Law authorizes members to receive additional service credit upon payment of contributions.

This bill would require those payments to be made in not more than 120 monthly installments. The bill would authorize purchase of up to 5 years of nonqualified service, as defined.

(2) Existing law authorizes redeposited refunded accumulated contributions to be made in not more than 60 monthly installments.

This bill would authorize repayment in 120 monthly installments.

(3) Existing law authorizes purchase of out-of-state service and excludes that service from vesting requirements.

This bill would delete that exclusion, except as specified.

(4) The California School Finance Authority Act authorizes the Controller, upon receipt of a deficiency notice from any school district or county office of education, to make specified apportionments to trustees.

This bill would require the Controller to allocate apportionments to public credit providers, as defined, rather than the trustee if the bonds were subject to a credit enhancement agreement. The bill would authorize the State Teachers' Retirement System to provide credit enhancement for bonds, notes, certificates of participation, or other evidence of indebtedness of school employees.

(5) The bill would incorporate additional changes in Section 24201 of the Education Code proposed by SB 610, that would become operative only if SB 610 and this bill are both chaptered and became effective on or before January 1, 1999, and this bill is chaptered last.

Ch. 1077 (SB 610) O'Connell. Public employees retirement: reciprocity.

The State Teachers' Retirement Law provides that members of the Public Employees' Retirement System can utilize compensation earnable during service as a member of the State Teachers' Retirement System if they retire concurrently under both systems. The County Employees Retirement Law of 1937 also prescribes those reciprocal rights to members of the Public Employees' Retirement System.

This bill would extend reciprocal rights to persons who retire concurrently under the State Teachers' Retirement System and retirement systems established under the County Employees Retirement Law of 1937.

Existing law requires members to have at least 5 years of credited California service, if 5 of the final 6 years have been in this state, in order to retire and excludes service performed in other states for purposes of determining service based upon reciprocal service under other California retirement systems.

This bill would delete the California service requirement and the out-of-state service exclusion.

This bill would incorporate additional changes to Section 24201 of the Education Code made by SB 2126 contingent upon the prior enactment of SB 2126, as specified.

This bill would incorporate additional changes to Section 22134 of the Education Code made by AB 1102 contingent upon the prior enactment of AB 1102, as specified.

Ch. 1078 (SB 1064) Johnston. Education: pregnant and parenting pupils.

Existing law requires the Superintendent of Public Instruction to adopt rules and regulations for the effective administration of pregnant minors programs operated by schools and county superintendents of schools. Existing law authorizes the Superintendent of Public Instruction to enter into agreements with school districts, community college districts, or county superintendents of schools for the establishment and maintenance of programs for the care and development of infants, and the training of students in their roles as parents, as part of the high school program. Existing law provides for special school nutrition supplements for pregnant or lactating pupils.

This bill would repeal these provisions and state the intent of the Legislature to establish a comprehensive, continuous, and community-linked school-based program, to be known as the Cal-SAFE program, that focuses on youth development and dropout prevention for pregnant and parenting pupils and on child care and development services for their children. The bill would state the intent of the Legislature that the program target services to pupils most in need or least likely to access service on their

own if there are not enough resources to serve all eligible pupils. School districts and county superintendents of schools offering programs under the provisions repealed by this act, if they chose to participate in the Cal-SAFE program, would continue to provide the services offered under those programs and have priority for funding under the new program. The bill would require the State Department of Education to provide technical assistance to school districts and county superintendents of schools to facilitate their transition to the Cal-SAFE program. The bill would authorize school districts, county superintendents of schools, and consortiums of school districts or county superintendents of schools, or both, to establish and maintain a Cal-SAFE program.

This bill would specify the goals of the Cal-SAFE program and require demonstration of significant documented achievement of those goals to continue program funding past the first 3 years.

This bill would require the State Department of Education to identify and share information on best practices across program sites; to develop guidelines for implementing an effective Cal-SAFE program and for fiscal reporting and analysis; to develop procedures to monitor and evaluate the program; to report to the Joint Legislative Budget Committee and appropriate policy and fiscal committees of the Legislature commencing March 1, 2004, and every 5 years thereafter; and to coordinate with other state agencies that administer teen pregnancy and prevention programs.

This bill would require participating school districts and county offices of education to assess pupils and children served by a local Cal-SAFE program to determine the appropriate level and types of services to provide. Among the authorized services are parenting education and life skills classes, home-to-school transportation, academic support and youth development services, comprehensive health education, career counseling, peer support groups, family support and development services, child and domestic abuse prevention education, and other services. The bill would require participating agencies to provide child care and development program services located on or near the schoolsite for the children of teen parents enrolled in the Cal-SAFE program.

This bill would provide that, for the 1999–2000 fiscal year and each fiscal year thereafter, a school district, county superintendent of schools, or consortium of school districts or county superintendents of schools, or both, participating in the Cal-SAFE program, would be eligible for specified state funding for services provided under the program, as adjusted each year by an inflation factor. The bill would require these funds to be maintained in a separate account and expended only to provide specified supportive services for teen parents and child care and development services for the children of teen parents enrolled in the Cal-SAFE program.

This bill would also make conforming changes to related provisions of law.

Ch. 1079 (SB 1418) Rosenthal. Legal document assistants.

Existing law generally regulates unlawful detainer assistants, as defined, and, among other things, requires an unlawful detainer assistant, by the filing of an application, to register with the county clerk of the county in which he or she performs acts for which registration is required.

This bill would revise and recast these provisions to, in addition, apply to legal document assistants, as defined, so as to prohibit any self-help service for compensation after January 1, 2000, unless the legal document assistant is registered in the county in which the services are provided. This bill would prohibit a legal document assistant from providing service to a client who requires assistance that exceeds “self-help service” as defined. The bill would require the application for registration to be made under penalty of perjury, thereby expanding the scope of the crime of perjury and, consequently, imposing a state-mandated local program. The bill would require the denial of a certificate of registration for specified reasons and would provide for an appeal to the Director of Consumer Affairs. It would also require certain disclosures to consumers. This bill would repeal these changes on January 1, 2003, or upon a determination by the Director of Consumer Affairs that fewer than 200 legal document assistants have registered, whichever first occurs, and at that time would restore current law applicable exclusively to unlawful detainer assistants, with certain changes.

Existing law provides that the failure of a person who engages in acts of an unlawful detainer assistant to comply with certain provisions of existing law is a misdemeanor.

Since this bill would make the current penal provisions applicable to persons registered as legal document assistants, this bill would impose a state-mandated local program by increasing the scope of an existing crime. The bill would also impose a state-mandated local program by expanding the duties of the county clerk.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 1080 (SB 1737) McPherson. Bipartisan Commission on the Political Reform Act of 1974.

The Political Reform Act of 1974, an initiative measure, prescribes various limitations and reporting requirements respecting, among other things, political campaign contributions.

This bill would create a Bipartisan Commission on the Political Reform Act of 1974 with prescribed membership. The commission would be required to investigate and assess the effect of the Political Reform Act of 1974 on core political speech protected by the First Amendment to the United States Constitution, and on candidates for public office, campaign committees, the voters, state and local officials, and public employees, including the act's effect upon communications to and from public officials. The commission would be required to review any ballot measures affecting the Political Reform Act of 1974 and to assess the impact of independent expenditure committees. The commission would be required to report to the Legislature, by October 1, 1999, its findings and any recommendations to further the goals of the act. Commission members would receive \$100 per diem compensation for attendance at meetings. The bill would be repealed on January 1, 2000, unless extended by statute.

DIGEST OF STATUTE
ENACTED IN 1998

1997–98 FIRST EXTRAORDINARY SESSION

BILL CHAPTER

Ch. 9 (SB 8) Johannessen. Streambed alterations.

Existing law requires a governmental agency or public utility to submit prescribed plans and other information to the Department of Fish and Game and requires those entities and other persons to follow prescribed procedures concerning a project that will affect a river, stream, or lake designated by the department, except certain emergency work, including immediate emergency work necessary to protect life or property, and emergency projects to maintain, repair, or restore an existing highway that are carried out within the existing right-of-way of the highway.

This bill would define “emergency” for the purposes of those provisions. This bill would also exempt from those provisions work conducted outside of the existing right-of-way under specified circumstances.

DIGESTS OF RESOLUTIONS AND
PROPOSED CONSTITUTIONAL
AMENDMENTS
ADOPTED IN 1998

1997–98 REGULAR SESSION

RESOLUTION CHAPTERS

Res. Ch. 1 (SJR 33) Brulte. Transportation: Washington National Airport.

This measure would memorialize the President and the Congress of the United States to enact legislation to rename the Washington National Airport as the "Ronald Reagan Washington National Airport."

Res. Ch. 2 (ACR 83) Murray. National Eye Care Month.

This measure would declare the month of January 1998 National Eye Care Month.

Res. Ch. 3 (ACR 86) Machado. Boy Scouts of America: anniversary.

This measure would recognize the anniversary of the Boy Scouts of America on February 8, 1998, and would designate the week of February 8 through 14 as "Boy Scouts of America Week."

Res. Ch. 4 (SCR 61) Solis. College Awareness Month.

This measure would proclaim February 1998, as "College Awareness Month." This measure would urge California residents to encourage elementary and secondary school students to succeed in their academic endeavors so they may earn a college education and contribute to the economic, social, and political future of California.

Res. Ch. 5 (ACR 14) Ducheny. University of California Student Association.

This measure would commend the University of California Student Association on its 25th anniversary and extend to the association a standing invitation to share its recommendations with Members of the Legislature on issues affecting postsecondary education.

Res. Ch. 6 (AJR 44) Knox. United Nations: Israel.

This measure would memorialize the United Nations West European and Others Group to accept Israel as a temporary member of that regional group.

Res. Ch. 7 (ACR 90) Honda. Day of Remembrance.

This measure would declare February 19, 1998, as a Day of Remembrance in order to increase public awareness of the events surrounding the internment of Japanese Americans during World War II.

Res. Ch. 8 (ACR 95) Wayne. American Heart Month.

This measure would designate the month of February 1998 as American Heart Month.

Res. Ch. 9 (ACR 85) Wildman. 100th anniversary of Philippine Independence.

This measure would extend special congratulations to Filipino-American communities throughout California upon the occasion of the 100th anniversary of Philippine Independence from Spain and convey to these communities best wishes for continued success in the coming years.

Res. Ch. 10 (ACR 88) Mazzoni. Long-term care awareness.

This measure would proclaim that, henceforth, the month of May shall be designated as Long-Term Care Awareness Month and 1998 shall be designated as The Year of Long-Term Care Awareness.

Res. Ch. 11 (SJR 28) Kopp. NATO: Inclusion of Poland, Hungary, and the Czech Republic as members.

This measure would memorialize the President and Congress of the United States to take all actions necessary to support inclusion of the Republic of Poland, the Republic of Hungary, and the Czech Republic as full members of the North Atlantic Treaty Organization.

Res. Ch. 12 (ACR 104) Wayne. Jewish veterans.

This measure would proclaim the week of March 10 to 16 of every year as Jewish War Veterans of the United States of America Week.

Res. Ch. 13 (SCR 66) Lockyer. School administrators.

This measure would recognize the important role played by public school administrators in California, and would proclaim the week of March 1 through March 7, 1998, as the Week of the School Administrator, in honor of the many outstanding contributions and services provided by the administrative teams in California's public school districts.

Res. Ch. 14 (ACR 111) Strom-Martin. Adult education.

This measure would designate the week of March 16 through March 20, 1998, as California Adult Education Week, and would commend the students, classified staffs, teachers, and administrators of California's adult schools for their support of, and contributions to, the quality of public education in this state.

Res. Ch. 15 (ACR 115) Gallegos. Kidney Month.

This measure would proclaim March 1998 as Kidney Month.

Res. Ch. 16 (SCR 62) Solis. Women's History Month and International Women's Day.

This measure would designate the month of March 1998 as Women's History Month and would urge all Californians to join in the celebration of International Women's Day on March 8, 1998.

Res. Ch. 17 (SJR 34) Johannessen. Arlington National Cemetery.

This measure would memorialize the President and the Congress of the United States to take all necessary action in the future to ensure that the sacred military burial ground of Arlington National Cemetery is maintained for those currently eligible for burial there.

Res. Ch. 18 (ACR 89) Machado. National Boys and Girls Club Week.

This measure would proclaim April 19, 1998, through April 24, 1998, as National Boys and Girls Club Week.

Res. Ch. 19 (ACR 93) McClintock. Scottish Tartan Day.

This measure would declare April 6, 1998, and every April 6th thereafter as Scottish Tartan Day.

Res. Ch. 20 (ACR 103) Battin. Relative to child abuse and neglect.

This measure would acknowledge the Child Abuse Prevention Month Blue Ribbon Campaign as a positive effort to promote public awareness of child abuse and its prevention.

Res. Ch. 21 (ACR 120) Honda. National Sleep Awareness Week.

This measure would proclaim March 30, 1998, to April 5, 1998, as National Sleep Awareness Week.

Res. Ch. 22 (AJR 47) Knox. Israel: 50th anniversary.

This measure would provide that the Legislature acknowledges the 50th anniversary of independence for the State of Israel and looks forward to the celebration of the centurion in the Jewish calendar year 5808.

Res. Ch. 23 (AJR 52) R. Wright. Port Chicago disaster.

This measure would memorialize Congress and the President of the United States to act to vindicate the sailors unjustly blamed for, and the sailors convicted of mutiny following, the Port Chicago disaster, and to rectify any mistreatment by the military of those sailors.

Res. Ch. 24 (SCR 76) Johannessen. POW Recognition Day.

This measure would designate April 9, 1998, as POW Recognition Day in California.

Res. Ch. 25 (SJR 31) Johannessen. State Veterans Cemetery.

This measure would petition the President of the United States, the Congress, and the federal Department of Veterans Affairs to propose funding for the construction and operation of a State Veterans Cemetery in northern California.

Res. Ch. 26 (ACR 66) Olberg. John Wilkie Safety Roadside Rest Area.

This measure would redesignate the Fenner Safety Roadside Rest Area on Interstate Highway Route 40 the John Wilkie Safety Roadside Rest Area at Fenner.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers, consistent with signing requirements for the state highway system, showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 27 (ACR 80) Aguiar. State chaplains.

This measure would commend the 40 years of work and effort by the California state chaplains, and their professional association, the Associated Chaplains in California State Service, for its continued efforts to bring the various faith communities together and to assist the state departments in their mission to effect rehabilitation, guidance, and service to those entrusted to their care.

Res. Ch. 28 (ACR 127) Ortiz. Ovarian Cancer Awareness Month.

This measure would recognize April 1998 as Ovarian Cancer Awareness Month and would encourage the people of the state to educate themselves regarding that disease and its early detection.

Res. Ch. 29 (ACR 138) Poochigian. Armenian genocide remembrance.

This measure would designate April 24, 1998, as the "California Day of Remembrance of the Armenian Genocide of 1915-23."

Res. Ch. 30 (ACR 60) Baldwin. George R. Volland Memorial Bridge.

This measure would designate the Highway 54 overpass over Interstate Highway Route 5 in San Diego the George R. Volland Memorial Bridge.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers, consistent with signing requirements for the state highway system, showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 31 (ACR 114) Machado. Big Brothers Big Sisters Appreciation Week.

This measure would proclaim the week of April 19 to April 25, 1998, inclusive, as Big Brothers Big Sisters Appreciation Week in California.

Res. Ch. 32 (ACR 131) Baca. Tourette Syndrome Awareness Month.

This measure would declare April 1998 as Tourette Syndrome Awareness Month.

Res. Ch. 33 (ACR 136) Davis. California Holocaust Memorial Week.

This measure would designate the week of April 19 through April 25, 1998, as California Holocaust Memorial Week, and would urge Californians to observe these days of remembrance for the victims of the Holocaust in an appropriate manner.

Res. Ch. 34 (SCR 83) Hughes. Teenage Pregnancy Prevention Month.

This measure would designate May 1998 as Teenage Pregnancy Prevention Month. The measure would encourage the people of all communities to participate in appropriate ceremonies and activities during Teenage Pregnancy Prevention Month.

Res. Ch. 35 (SJR 32) M. Thompson. Veterans: smoking addiction.

This measure would memorialize the Congress to include, as part of current legislation regulating the tobacco industry, a diversion of sufficient funds to the United States Department of Veterans Affairs for the costs of compensation paid to veterans who suffer as a result of the smoking addiction acquired when they were in the United States Armed Forces.

Res. Ch. 36 (SJR 42) M. Thompson. Organic food.

This measure would urge President Clinton and the United States Department of Agriculture to redraft regulations proposed by the United States Department of Agriculture concerning organic food to reflect the recommendations of the National Organic Standards Board and ensure compatibility with the California Organic Foods Act of 1990.

Res. Ch. 37 (ACR 113) Wayne. Kids Watch.

This measure would acknowledge the work of the San Diego Neighborhood Watch Board of Advisors in creating the Kids Watch program.

Res. Ch. 38 (ACR 121) Wayne. Water resources: conservation.

This measure would designate the month of May of each year Water Awareness Month in order to promote an understanding of water conservation and make conservation a way of life.

Res. Ch. 39 (ACR 126) Wayne. Toxic Awareness Week.

This measure would declare May 10 to May 16, 1998, as Toxic Awareness Week.

Res. Ch. 40 (ACR 128) Machado. California Architecture Week.

This measure would proclaim the week of April 20 to April 26, inclusive, as California Architecture Week.

Res. Ch. 41 (AJR 65) Villaraigosa. Healthy Families Program.

This measure would memorialize the federal Health Care Financing Administration, and the Congress and the President of the United States, to preserve the state plan to implement the Healthy Families Program in its current approved form.

Res. Ch. 42 (AJR 66) Honda. Redress for World War II Japanese Latin American internees.

This measure would support the granting of an official apology and restitution to World War II Japanese Latin American internees pursuant to federal law.

Res. Ch. 43 (ACR 124) Baca. Cinco de Mayo.

This measure would call on all the people of California to celebrate and recognize May 5 as Cinco de Mayo.

Res. Ch. 44 (ACR 150) Papan. Russian contribution to ending World War II.

This measure would commemorate the contributions and impact of the Russian people in ending World War II and would honor these individuals on Victory in Europe Day (V-E Day), May 8, 1998. The measure also would memorialize, and would encourage all Californians to remember, the loss of Russian lives during World War II.

Res. Ch. 45 (SCR 60) Johannessen. Western Star Lodge No. 2.

This measure would request the Department of Transportation to grant to the Western Star Lodge No. 2 an encroachment permit authorizing a historical plaque dedicated to the Western Star Lodge No. 2 to be placed within the right-of-way of State Highway Route 299 in the Town of Shasta, Shasta County.

Res. Ch. 46 (SJR 35) Solis. Filipino veterans of the United States Armed Forces: full benefits.

This measure would memorialize the President and the Congress of the United States during the Second Session of the 105th Congress to take action necessary to grant full veterans benefits to Filipino veterans of the United States Armed Forces.

Res. Ch. 47 (ACR 118) Morrow. Juror Appreciation Week.

This measure would proclaim the week of May 10, 1998, to May 16, 1998, inclusive, and the 2nd full week in May, annually, to be Juror Appreciation Week.

Res. Ch. 48 (ACR 117) Machado. Hire-A-Veteran Week.

This measure would designate the week of May 3, 1998 to May 9, 1998, inclusive, as Hire-A-Veteran Week.

Res. Ch. 49 (ACR 119) Alby. National Multiple Sclerosis Society Month.

This measure would proclaim the month of May 1998 as National Multiple Sclerosis Society Month.

Res. Ch. 50 (ACR 135) Torlakson. California Fitness Month.

This measure would proclaim the month of May 1998 as California Fitness Month, and would encourage all Californians to enrich their lives through proper diet and exercise.

Res. Ch. 51 (ACR 137) Machado. State Parks Month.

This measure would proclaim May 1998, as State Parks Month.

Res. Ch. 52 (ACR 152) Thomson. California Nurses' Week.

This measure would designate the week of May 6 through May 12 as California Nurses' Week, and would urge residents of the state to honor nurses.

Res. Ch. 53 (SCR 87) Johannessen. Amyotrophic Lateral Sclerosis (ALS) Awareness Month.

This measure would proclaim the month of May 1998 as Amyotrophic Lateral Sclerosis Month. This measure would encourage Californians to join the Amyotrophic Lateral Sclerosis Association in its war against amyotrophic lateral sclerosis.

Res. Ch. 54 (ACR 109) Wildman. California Peace Officers Memorial Day: National Police Week.

This measure would proclaim May 8, 1998, as California Peace Officers Memorial Day, and the week of May 10 through May 16, 1998, as National Police Week in California and would urge all Californians to remember those individuals who gave their lives in the pursuit of public safety, and to express their appreciation for those who continue to dedicate themselves to making California a safer place in which to live and raise our families.

Res. Ch. 55 (ACR 110) Wayne. California Bike Commute Day.

This measure would proclaim Thursday, May 21, 1998, California Bike Commute Day throughout the state and would encourage all state agencies to participate through the use of existing transportation coordinators and programs.

Res. Ch. 56 (SCR 88) Polanco. Organ and Tissue Donor Awareness Month.

This measure would proclaim the month of April 1998 as Organ and Tissue Donor Awareness Month.

Res. Ch. 57 (ACR 122) Gallegos. California State University, Los Angeles.

This measure would acknowledge the significance of a forum held on May 7, 1998, at the California State University, Los Angeles to commemorate the contribution of the Chicano movement in advancing the civil and economic rights and opportunities of Chicano and other Latino Californians. This measure would also extend the Legislature's good wishes to the California State University, Los Angeles on the occasion of this event and the 50th anniversary of its founding.

Res. Ch. 58 (ACR 140) Wayne. Older Californians Month.

This measure would declare the month of May 1998 as Older Californians Month.

Res. Ch. 59 (ACR 154) Floyd. Memorial Day.

This measure would encourage all Californians to fully observe Memorial Day on May 25, 1998, by participating in appropriate programs and activities in recognition and thanks to those who perished to preserve our freedom.

Res. Ch. 60 (ACA 22) Pringle. Property taxation: transfer of base year value: environmental problems.

The California Constitution generally limits ad valorem taxes on real property to 1% of the full cash value of that property. For purposes of this limitation, "full cash value" is defined as the assessor's valuation of real property as shown on the 1975-76 tax bill under "full cash value" or, thereafter, the appraised value of that real property when purchased, newly constructed, or a change in ownership has occurred. As exceptions to this definition, the California Constitution provides, in certain circumstances, for the transfer of the base year value of a real property to a replacement property of equal or lesser value that is located in the same or a different county.

This measure would direct the Legislature to provide that, with respect to a qualified contaminated property, as defined, the base year value of the property may be transferred to a replacement property of equal or lesser value, as provided, that is located within the same or, in certain circumstances, a different county, and is acquired or newly constructed within a specified time period as a replacement for the qualified contaminated property. This bill would also direct the Legislature to provide alternatively, in the case in which the remediation of the environmental problems requires the destruction of, or results in substantial damage to, a structure located on the qualified contaminated property, that the term "new construction" does not include the repair or replacement of that structure, provided that the repaired or replacement structure is similar in size, utility, and function to the original structure. This measure would apply these provisions only to replacement property that is acquired or constructed on or after January 1, 1995, or to property repairs performed on or after that date.

Res. Ch. 61 (ACR 139) Baca. Reflex Sympathetic Dystrophy (RSD) Syndrome Awareness Month.

This measure would proclaim May 1998 as Reflex Sympathetic Dystrophy (RSD) Syndrome Awareness Month.

Res. Ch. 62 (ACR 153) Honda. Drowning Prevention Month.

This measure would recognize May 1998 as Drowning Prevention Month and urge all citizens to participate in appropriate activities being held in conjunction with this observance.

Res. Ch. 63 (ACR 112) Bustamante. Breast Cancer Awareness Month.

This measure would proclaim the month of October 1998 as Breast Cancer Awareness Month and would urge various public and private entities to reflect on the progress that has been made in advancing our knowledge about breast cancer and to publicly reaffirm the commitment to controlling and curing this disease.

Res. Ch. 64 (SCR 73) Kopp. Veterans Boulevard.

This measure would designate a specified segment of State Highway Route 1 in the City and County of San Francisco as Veterans Boulevard.

Res. Ch. 65 (SCR 79) O'Connell. California Highway Patrol Officers Britt T. Irvine and Rick B. Stovall.

This measure would dedicate the portion of State Highway Route 166 from Route 101 near Santa Maria to Route 33 in the Cuyama Valley to the memory of California Highway Patrol Officers Britt T. Irvine and Rick B. Stovall and would specify that this portion of Route 166 shall be known as the CHP Officers Irvine and Stovall Memorial Highway. The measure also would request the Department of Transportation to determine the cost of appropriate highway markers or signs showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate highway markers and signs.

Res. Ch. 66 (SCR 91) Monteith. Missing Children's Week.

This measure would designate the week of May 25th as "Missing Children's Week" in the State of California.

Res. Ch. 67 (ACR 144) Thomson. Camp Fire Boys and Girls.

This measure would congratulate the Camp Fire Boys and Girls and would recognize May 1998 as Camp Fire Boys and Girls Month.

Res. Ch. 68 (ACR 151) Thomson. California Mental Health Month.

This measure would proclaim May 1998 as Mental Health Month in California, to increase our understanding of mental illnesses, and the need for appropriate and equitable treatment services for all people who suffer from mental illness.

Res. Ch. 69 (ACR 158) Ducheny. National Drug Court Week.

This measure would declare the support of the Legislature for the celebration of National Drug Court Week in California from June 1 through June 7, 1998.

Res. Ch. 70 (SCR 95) Solis. Small Business Week.

This measure would request the Governor to proclaim the week of May 31, 1998, through June 6, 1998, as California Small Business Week, in conjunction with National Small Business Week.

Res. Ch. 71 (SCR 89) Johnston. America's Filipino Soldiers.

This measure would recognize the heroic deeds of the 1st and 2nd Filipino Infantry Regiments, United States Army, as "California's Own," and supports documentation of their story in the film "An Untold Triumph: America's Filipino Soldiers."

Res. Ch. 72 (ACR 160) Aroner. Affordable Housing Week.

This measure would proclaim the week of June 7, 1998, to June 14, 1998, as Affordable Housing Week and call upon all Californians to learn about and honor the contributions of affordable housing by participating in activities held to commemorate this observance.

Res. Ch. 73 (SJR 41) M. Thompson. Marine weather buoys.

This measure would memorialize the Congress to work together with the National Oceanic and Atmospheric Administration and the National Weather Service to enact legislation that would provide funding for the implementation of a permanent marine weather buoy system to protect marine safety, lives, and property, and to ensure that opportunities for marine economic and recreational activities are preserved.

Res. Ch. 74 (AJR 61) Ducheny. Federal naturalization process.

This measure would memorialize the Commissioner of the Immigration and Naturalization Service, the President, and the Congress of the United States to ensure that available resources are directed and any additional funds as needed are appropriated to eliminate, within 10 months, the current backlog in naturalization applications; to ensure that, without harm to the integrity of the naturalization process, all future applications will receive a determination within 6 months of their date of application; and to refrain from the consideration of any increase in naturalization fees until the present backlog is eliminated and resources are committed to ensure that future applications will be processed within 6 months of their date of application.

Res. Ch. 75 (ACR 87) Papan. American Flag Month.

This measure would declare the 30 days from June 14, 1998, to July 14, 1998, inclusive, as American Flag Month in the State of California.

Res. Ch. 76 (ACR 168) Cardoza. June is Dairy Month.

This measure would proclaim the month of June 1998, as "June is Dairy Month."

Res. Ch. 77 (ACA 30) Murray. Transportation: funding.

(1) The California Constitution requires the revenues from taxes imposed by the state on motor vehicle fuels for use in motor vehicles upon public streets and highways, over and above the costs of collection and refunds authorized by law, to be used for public streets and highways and exclusive public mass transit guideways purposes, as specified. Revenues from fees and taxes imposed by the state upon vehicles or their use or operation, over and above the costs of collection and any refunds authorized by law, are required to be used for those purposes and the administration and enforcement of laws

regulating the use, operation, or registration of vehicles used upon the public streets and highways.

The California Constitution authorizes the revenues specified above to be temporarily loaned to the State General Fund upon condition that amounts loaned be repaid to the funds from which they were borrowed.

This measure, instead, would authorize the loan of the specified revenues to the General Fund only if a condition is imposed requiring that repayment of any loan be made in full to the fund from which it was borrowed (a) during the same fiscal year in which the revenues were loaned, except as specified, or (b) within 3 fiscal years from the date on which the loan was made, and the Governor has proclaimed a state of emergency and declares that the emergency will result in a significant negative fiscal impact to the General Fund, or the projected aggregate amount of General Fund revenues for the current fiscal year, as projected by the Governor in a report to the Legislature in May of the current fiscal year, is less than the aggregate amount of General Fund revenues for the previous fiscal year as specified in the Governor's Budget as submitted in the current fiscal year.

The measure would require that any loan of the specified revenues to local transportation agencies, cities, counties, or cities and counties be repaid, with interest, as specified, to the fund from which it was borrowed, not later than 4 years after the date on which the loan was made.

(2) Existing law designates the Public Transportation Account in the State Transportation Fund a trust fund and requires that the funds in the account be available, when appropriated by the Legislature, only for transportation planning and mass transportation purposes, as specified by the Legislature.

This measure would authorize the loan of funds in the account to the General Fund only if the amount loaned is repaid in full to the account (a) during the same fiscal year in which the funds were loaned, except as specified, or (b) within 3 fiscal years from the date on which the loan was made, and the Governor has proclaimed a state of emergency and declares that the emergency will result in a significant negative fiscal impact to the General Fund, or the projected aggregate amount of General Fund revenues for the current fiscal year, as projected by the Governor in a report to the Legislature in May of the current fiscal year, is less than the aggregate amount of General Fund revenues for the previous fiscal year as specified in the Governor's Budget as submitted in the current fiscal year.

(3) Existing law authorizes a county board of supervisors to establish a local transportation fund in the county treasury for deposit of certain revenues derived from local sales and use taxes imposed under the Bradley-Burns Uniform Local Sales and Use Tax Law. The money in the fund is required to be used for specified local transportation purposes.

This measure would designate all local transportation funds as trust funds and would prohibit a local transportation fund created pursuant to law from being abolished.

The measure would require that money in a local transportation fund be allocated only for the purposes authorized under specified provisions relating to funding of local transportation, as those provisions existed on October 1, 1997. The measure would prohibit both the county and the Legislature from authorizing the expenditure of any of the money in a local transportation fund for any purposes other than those specified above.

Res. Ch. 78 (ACR 147) Murray. Child passenger safety.

This measure would encourage the judiciary, law enforcement, the public health and health care communities, passenger safety specialists, and child advocates to continue their diligent efforts to ensure the safety of California's children through enforcement and public education of our child passenger restraint laws and effective passenger safety practices.

Res. Ch. 79 (SCR 75) Kopp. Stepfamily Day.

This measure would proclaim September 16, 1998, as Stepfamily Day in California.

Res. Ch. 80 (AJR 51) Ducheny. Internal Revenue Service Reciprocal Refund Offset Program.

This bill would memorialize the President and the Congress to establish a program to offset or withhold federal tax refunds to satisfy legally enforceable, past due state tax obligations.

Res. Ch. 81 (SJR 43) Polanco. Credit unions.

This bill would memorialize the United States Senate and the President of the United States to support the enactment of and sign legislation to protect the rights of California residents to join credit unions.

Res. Ch. 82 (AJR 63) Prenter. Elk Hills Naval Petroleum Reserve.

This measure would memorialize the President and the Congress to approve the appropriation of specified funds from the sale of the Elk Hills Naval Petroleum Reserve for the benefit of retired members of the State Teachers' Retirement System.

Res. Ch. 83 (ACR 156) Gallegos. Year of Healthy Children.

This measure would proclaim the year 1998 the Year of Healthy Children and would urge state and local entities to work to support the efforts initiated during 1998 to improve the health of children in the state.

Res. Ch. 84 (ACR 157) Wayne. Fourth of July.

This measure would memorialize that July 4, 1998, be fully observed in this state as Independence Day.

Res. Ch. 85 (ACR 162) Wildman. Sober Graduation.

This measure would encourage parents, school teachers and administrators, law enforcement agencies, and community leaders to continue their efforts to provide Sober Graduation activities in 1998 to the maximum number of high school graduates, their friends, and school associates.

Res. Ch. 86 (ACR 167) Machado. California Pear Day.

This measure would declare August 12, 1998, California Pear Day.

Res. Ch. 87 (SCR 78) Rainey. High-occupancy vehicle lanes: study.

This measure would request the Department of Transportation, the Metropolitan Transportation Commission, and the Department of the California Highway Patrol to jointly conduct a study of a specified demonstration project involving a new high-occupancy vehicle lane on Interstate 80 and would require the Department of Transportation to make available to the public copies of the completed study. The bill also would request the departments, in consultation with regional transportation agencies, to develop statewide criteria and guidelines upon which to base future decisions involving HOV lanes and to develop a specified standardized review process.

Res. Ch. 88 (ACR 97) Baca. POW/MIA flag.

This measure would request all state agencies that fly the United States and California flags to fly the POW/MIA flag on specified holidays.

Res. Ch. 89 (AJR 60) Richter. 940th Air Refueling Wing.

This measure would memorialize the President and the Congress of the United States to endorse, support, and fund the 940th Air Refueling Wing as the next KC-135 unit to convert to KC-135R model aircraft.

Res. Ch. 90 (ACR 178) Pacheco. City of Riverside.

This measure would recognize and congratulate the City of Riverside for its achievement in being designated an All-America City and would join with the City of Riverside and all Californians in celebrating the receipt of this award.

Res. Ch. 91 (SCR 65) Kopp. California Law Revision Commission: studies.

Under existing law, the California Law Revision Commission is required to study, and is limited to studying, those topics approved for its study by concurrent resolution of the Legislature.

This measure would grant approval to the commission to continue its study of designated topics that the Legislature previously authorized or directed the commission to study.

Res. Ch. 92 (SCR 68) Ayala. World War II: Bataan Peninsula and Corregidor Island.

This measure would recognize and commend the valor of the men and women of the United States and the Philippines who served on the Bataan Peninsula and Corregidor Island during World War II.

Res. Ch. 93 (SCR 69) Rainey. Donald D. Doyle Highway.

This measure would designate a specified portion of Interstate Highway Route 680 the "Donald D. Doyle Highway," and would request the Department of Transportation to erect plaques and markers showing that designation if contributions from private sources are received to cover the costs.

Res. Ch. 94 (SCR 71) Hughes. Postsecondary education.

This measure would declare the intent of the Legislature that the Trustees of the California State University and the Regents of the University of California adopt a policy that ensures eligible community college transfer applicants of admission to a campus within the university system. This measure would also declare the intent of the Legislature that the California State University and the University of California report certain statistics in this regard annually to the California Postsecondary Education Commission.

Res. Ch. 95 (SCR 72) M. Thompson. Delbert A. Brown Memorial Bridge.

This measure would redesignate the Boyes Creek Viaduct, in Del Norte County, the Delbert A. Brown Memorial Bridge. The measure would specify the Legislature's intention that any signs designating the Delbert A. Brown Memorial Bridge also include appropriate references to Boyes Creek. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 96 (SCR 74) Johnson. Orange County Veterans Memorial Highway.

This measure would designate a portion of State Highway Route 133 in Orange County the Veterans Memorial Highway. The measure also would request the Department of Transportation to determine the cost of erecting a sign showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect that sign.

Res. Ch. 97 (SCR 80) Monteith. CHP Officer Alfred R. Turner Memorial Highway.

This measure would designate the 11.3-mile stretch of Interstate Highway Route 5 between State Highway Route 152 and State Highway Route 165 the CHP Officer Alfred R. Turner Memorial Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing the special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 98 (SCR 96) Kopp. Department of Transportation: 25th anniversary.

This measure would recognize the 25th anniversary of the creation of the Department of Transportation.

Res. Ch. 99 (SJR 36) Johannessen. Gasoline.

This measure would memorialize Congress to enact legislation that would permit California to promulgate and implement reformulated gasoline rules.

Res. Ch. 100 (ACR 84) Richter. Randy Jennings Memorial Bridge.

This measure would designate a specified new bridge on State Highway Route 162, in Butte County, the Randy Jennings Memorial Bridge. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing the special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 101 (SCR 67) Polanco. Joint Legislative Committee on Prison Construction and Operations.

This measure would reestablish the Joint Legislative Committee on Prison Construction and Operations to assume primary responsibility for providing legislative scrutiny over prison construction and operations, including investigation of inmate population management issues.

Res. Ch. 102 (SCR 70) M. Thompson. Sonoma County Veterans Memorial Highway.

This measure would designate a specified section of State Highway Route 101 in Sonoma County the Sonoma County Veterans Memorial Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 103 (SCR 81) Hayden. San Salvador: sister state relationship.

This measure would extend an invitation to the people of the State of San Salvador, El Salvador, to join California as a sister state.

Res. Ch. 104 (SCR 92) Peace. Proposed City of Chula Vista site for a future University of California campus.

This measure would resolve that the Legislature endorses a proposed City of Chula Vista site for possible future use as a University of California campus. The measure would express legislative intent that, upon receipt of the Chula Vista site, the University of California has 30 years during which to decide whether to locate a campus of the University of California on that site and that, if at the close of the 30-year period, no determination to locate a campus of the University of California on that site has been made, the University of California transfer title to the site back to the previous owners.

Res. Ch. 105 (ACR 146) Ducheny. Latino Legislative Caucus: 25th Anniversary.

This measure would recognize the Latino Legislative Caucus for its outstanding public service upon its 25th Anniversary and would commend the Latino Legislative Caucus for its many accomplishments since its formation in 1973.

Res. Ch. 106 (ACR 159) Cedillo. Lead poisoning.

This measure would designate the week of July 19, 1998, to July 25, 1998, as Lead Poisoning Prevention Week.

Res. Ch. 107 (ACR 105) Oller. Tom Taylor Bridge.

This measure would designate a specified new bridge on State Highway Route 26, in Calaveras County, the Tom Taylor Bridge. The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing the special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 108 (ACR 179) Perata. Domestic Violence Prevention Week.

This measure would designate the week of July 12 through July 19, 1998, as Domestic Violence Prevention Week.

Res. Ch. 109 (SCR 64) Alpert. International Year of the Ocean.

This measure would state the intent of the Legislature to join with other government agencies and organizations in designating 1998 as the International Year of the Ocean. The measure would also request the California Environmental Protection Agency and the Resources Agency to take actions to promote activities that support the International Year of the Ocean.

Res. Ch. 110 (SCR 90) Alpert. Safety of journalists in Mexico.

This measure would provide that the Legislature commends Mexican journalists for their courageous commitment to exposing the activities of powerful drug cartels, and that, in order to promote the safety of journalists on both sides of the border between California and Mexico, it is the desire of the Legislature that California law enforcement work in collaboration with Mexican law enforcement to develop mechanisms for full cooperation when either government is conducting an investigation into an attack on the press.

Res. Ch. 111 (ACR 165) Kaloogian. American Legislative Exchange Council.

This measure would congratulate the American Legislative Exchange Council on the occasion of its 25th anniversary and would express heartfelt gratitude to and commend the council for its exemplary record of public service to its constituent states and to the republic.

Res. Ch. 112 (ACR 177) Napolitano. Truck Driver Appreciation Week.

This measure would designate the week of August 9 through 15, 1998, as Truck Driver Appreciation Week.

Res. Ch. 113 (ACR 81) Scott. California State University: teacher preparation.

This measure would memorialize the Trustees of the California State University to report to the Legislature by January 30, 1999, regarding teacher preparation programs at California State University campuses.

Res. Ch. 114 (SJR 30) Karnette. Airline service.

This measure would request the President and the Congress of the United States to require the Federal Aviation Administration to mandate minimum service standards for domestic airlines, including, but not limited to, on-time performance, lost baggage, overbooking, overcrowded airplanes, and overcrowded terminals.

Res. Ch. 115 (SCR 82) Johannessen. Bill of Rights Day.

This measure would declare December 15, 1998, and every December 15 thereafter, as Bill of Rights Day, encourage all governmental bodies in the state to observe the day in a manner that brings to mind its meaning and importance, and declare that the Bill of Rights should be read in all public schools, government meetings, and courtrooms on that date and shall be read aloud, in its entirety, on the first legislative session day following that date in both houses of the Legislature.

Res. Ch. 116 (ACR 175) Ashburn. Valley Fever Awareness Month.

This measure would proclaim August 1998, as Valley Fever Awareness Month.

Res. Ch. 117 (AJR 56) Aguiar. Private activity bonds.

This measure would memorialize the President and the Congress of the United States to enact legislation to increase the federal cap on private activity bond authority.

Res. Ch. 118 (SCR 86) Hughes. School Safety Month and Yellow Ribbon Week.

Existing law and the California Constitution set forth various provisions relating to school safety.

This measure would designate October 1998 as School Safety Month and the week of January 11 through 15, 1999, as Yellow Ribbon Week.

Res. Ch. 119 (SCR 63) Solis. Domestic Violence Awareness Month.

This measure would proclaim the month of October 1998 as Domestic Violence Awareness Month.

Res. Ch. 120 (SCR 103) McPherson. Clean Water Day.

This measure would designate August 15, 1998, as Clean Water Day.

Res. Ch. 121 (SJR 38) M. Thompson. Lyme disease.

This measure would memorialize the federal Food and Drug Administration to accelerate its review of product licensing applications pending before the agency and quickly approve a Lyme disease vaccine. The measure would request the State Department of Health Services to begin tracking Lyme disease, to develop, in conjunction with the United States Centers for Disease Control and Prevention and community-based support groups, a Lyme disease education program, and to consider the creation of an advisory committee to recommend changes to existing law. The measure would also request the Department of Industrial Relations to begin to review current California Occupational Safety and Health Administration (Cal-OSHA) standards to ensure that those persons who work in occupations and geographical areas where exposure to the disease is likely are offered the vaccine by their employer.

Res. Ch. 122 (ACR 72) Baca. Parental notification.

This measure would strongly encourage the governing board of each school district to include in its annual required notice to the parents and guardians of the pupils enrolled in the school district an additional item of notification regarding the availability of a CD-ROM or other electronic medium containing information regarding registered sex offenders, as required by Megan's Law, as specified.

Res. Ch. 123 (ACR 82) Baca. American Diabetes Month.

This measure would designate the month of November as American Diabetes Month throughout the State of California, and would encourage and promote the effective detection, treatment, and eventual cure of this serious medical condition.

Res. Ch. 124 (ACR 100) Thomson. Vic Fazio Highway, Helen Madere Memorial Bridge, and Gary L. Hughes Memorial Interchange.

This measure would designate a specified portion of State Highway Route 113 the Vic Fazio Highway, the Rio Vista Bridge on State Highway Route 12 the Helen Madere Memorial Bridge, and the eastbound Interstate Highway Route 80 and State Highway Route 37 interchange the Gary L. Hughes Memorial Interchange.

The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing these special designations and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 125 (ACR 148) Cedillo. The Marine Private First Class Eugene A. Obregon Interchange.

This measure would designate the freeway interchange involving Interstate Highway Routes 5 and 10 and State Highway Routes 60 and 101, commonly referred to as the East Los Angeles Interchange, the Marine Private First Class Eugene A. Obregon Interchange. The measure also would request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 126 (ACR 163) House. Department of the California Highway Patrol.

This measure would commend D. O. Helmick, the Commissioner of the California Highway Patrol, for the outstanding efforts of the Department of the California Highway Patrol to ensure that Californians traveling the state's highways are safe.

The measure would also state the intent of the Legislature to continue providing full support to the department in furthering the development of technology to enhance the safety of commercial vehicles.

Res. Ch. 127 (ACR 166) Wayne. Fire Prevention Week.

This bill would recognize the week of October 4 through October 10, 1998, as Fire Prevention Week, and would encourage all Californians to honor the courageous members of the state's fire and emergency services by learning about fire dangers and preparing their families to react safely to fires when they occur.

Res. Ch. 128 (AJR 49) Morrow. National Historic Landmarks: Mission San Juan Capistrano.

This measure would memorialize the Secretary of the Interior to consider the nomination of Mission San Juan Capistrano for designation as a National Historic Landmark.

Res. Ch. 129 (AJR 67) Floyd. Persian Gulf War: depleted-uranium exposure.

This measure would memorialize the Congress of the United States to immediately investigate whether United States Armed Forces currently deployed in the Persian Gulf region have been trained regarding depleted-uranium safety measures, have been issued appropriate protective equipment, and have been provided with radiometers to detect depleted-uranium contamination.

This measure also would encourage the Congress to fund a nongovernmental organization or agency, with no ties to the Department of Defense and other specified agencies, to conduct a thorough investigation of all Persian Gulf War hazardous exposures, including depleted uranium, and to make recommendations to the Congress, as specified.

This measure also would encourage the Congress to provide all Gulf War veterans, their families, and civilians who have known or suspected exposures to depleted uranium, if they develop the known health effects of internal or external exposure to depleted uranium, with immediate medical care and disability benefits.

Res. Ch. 130 (AJR 70) Ortiz. Entry into the United States.

This measure would memorialize the Attorney General of the United States, the Commissioner of the Immigration and Naturalization Service, and the President and the Congress of the United States to urge the Immigration and Naturalization Service to parole Mai Thi Kim Nguyen into the United States based on compelling humanitarian reasons.

Res. Ch. 131 (AJR 72) Honda. Computer date failures.

This measure would memorialize the Congress to take immediate action giving Year 2000 computer date related issues the highest priority.

Res. Ch. 132 (SCR 93) Burton. California universities and colleges: labor codes of conduct.

This measure would urge all California universities and colleges and the Association of Collegiate Licensing Officers to adopt labor codes of conduct that are as rigorous as those adopted by Duke University.

Res. Ch. 133 (ACA 10) Runner. Local sales and use taxes: revenue sharing.

Under the California Constitution, the Legislature may authorize counties, cities and counties, and cities to enter into contracts to apportion between them the revenue derived from any sales or use tax imposed by them, as specified, upon authorization by a majority of those voting on the question in each jurisdiction at a specified election.

This bill would additionally authorize counties, cities and counties, and cities to enter into contracts to apportion between them the revenue derived from any sales or use tax imposed by them pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law, or any successor provisions, if the ordinance or resolution proposing each contract is approved by a $\frac{2}{3}$ vote of the governing body of each jurisdiction that is a party to the contract.

Res. Ch. 134 (ACR 98) Baca. Native Americans Awareness Day.

This measure would recognize the 4th Friday in September as Native Americans Awareness Day.

Res. Ch. 135 (ACR 169) Wayne. Neighborhood Watch Month.

This measure would designate the month of August 1998 as Neighborhood Watch Month.

Res. Ch. 136 (ACR 174) Strom-Martin. Women's rights movement.

This measure would call upon educators, government officials, and all California citizens to mark the 150th anniversary of the women's rights movement in the United States with appropriate programs, ceremonies, and activities.

Res. Ch. 137 (ACR 106) Oller. State ski industry.

This measure would commend the state ski industry for their service, dedication, and commitment to safety of the skiers of California.

Res. Ch. 138 (ACR 107) Oller. California State Gold Panning Championship.

This measure would proclaim and certify the California State Gold Panning Championship as an official state event.

Res. Ch. 139 (ACR 130) Oller. World Gold Panning Championships.

This measure would proclaim and certify the 1998 World Gold Panning Championships as an official state event.

Res. Ch. 140 (ACR 172) Cunneen. CHP Officer Scott M. Greenly Memorial Freeway.

This measure would designate the northbound and southbound portions of State Route 85 between Quito Road and Prospect Road in the City of Saratoga the "CHP Officer Scott M. Greenly Memorial Freeway."

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers.

Res. Ch. 141 (AJR 43) Baca. Cardiovascular disease.

This measure would memorialize the President and Congress of the United States to support the Women's Cardiovascular Diseases Research and Prevention Act before the Congress in order to provide funding to expand and intensify research, education, and outreach programs for heart disease.

Res. Ch. 142 (AJR 48) Richter. Income taxes: medical savings accounts.

This measure would memorialize the President and the Congress of the United States to remove the limitation on the number of persons who may have a medical savings account, to permit funds in a medical savings account to be used to pay premiums on any employee's health care medical plan or provide that those health care plan premiums be otherwise deductible, and to make the medical savings account provisions permanent.

Res. Ch. 143 (ACR 91) Papan. European American Heritage Month.

This measure would recognize the month of October 1998 as European American Heritage Month.

Res. Ch. 144 (SCR 85) Alpert. California art works exhibition.

This measure would resolve that a traveling exhibition of California art works be shown at appropriate selected venues within the state, that a public and private partnership be formed to carry out the intent of the measure, and that the required funding be secured through donations from supporting organizations and individuals. The measure would encourage specified state agencies to contribute their respective expertise and in-kind assistance to the partnership.

Res. Ch. 145 (SCR 99) Kelley. Quentin L. Kopp Freeway.

This bill would designate State Highway Route 380 in San Mateo County as the "Quentin L. Kopp Freeway." This measure also would request the Department of

Transportation to determine the cost of appropriate highway markers or signs showing that special designation and, upon receiving donations from nonstate sources concerning that cost, to erect appropriate highway markers and signs.

Res. Ch. 146 (SJR 39) M. Thompson. Health insurance for military retirees.

This measure would memorialize the Congress and the President to enact legislation that recognizes the importance that the United States government maintain its commitment to America's military retirees by providing lifetime health care for military retirees over the age of 65 years, legislation to require opening the Federal Employees Health Benefit Program to eligible uniformed services beneficiaries, and any other appropriate legislation that would address the concerns set forth in the measure.

Res. Ch. 147 (SJR 40) Lockyer. Salvaged vehicles.

This measure would memorialize the President and the Congress of the United States to ensure that legislation pertaining to salvaged vehicles includes specified provisions.

Res. Ch. 148 (SJR 45) Polanco. Federal transportation funding.

This measure would memorialize the Secretary of the United States Department of Transportation to provide full federal transportation funding, as specified, to ensure safe and cost-effective transportation into the 21st century through California's ports of entry into Mexico, including the timely completion of State Highway Routes 7 and 905.

Res. Ch. 149 (ACR 64) Knox. Clean fuel fleet vehicles.

This measure would request the Department of Transportation, the Department of the California Highway Patrol, and the Department of Motor Vehicles to immediately recognize and enforce the high occupancy vehicle lane access exemption created in federal regulation for fleet inherently low emission vehicles by the United States Environmental Protection Agency.

Res. Ch. 150 (ACR 92) Morrow. Historic U.S. Highway Route 101.

This measure would recognize the remaining sections of the original U.S. Highway Route 101 for their historical significance.

The measure would request the Department of Transportation, upon application by a local agency or private group to identify any former section of the original U.S. Highway Route 101 that is still a publicly maintained highway and is within the jurisdiction of the department, but is not designated as having formerly been part of the original U.S. Highway Route 101, to designate that section of highway as Historic U.S. Highway Route 101. The measure would request the department to determine the cost of appropriate highway markers or signs showing that special designation and, upon receiving donations from nonstate sources for that cost, to erect appropriate highway markers or signs on those former sections of the original U.S. Highway Route 101 that are part of the state highway system. The measure would also request the department to develop consistent signing standards for the placement of highway markers or signs, identifying sections of the highway, which may be used by cities or counties to designate the historical significance of those portions of the route.

Res. Ch. 151 (ACR 133) Strom-Martin. Korean War Veterans Memorial Bridge.

This measure would designate Bridge No. 10-0289, located 4.95 miles north of the Sonoma-Mendocino County line on State Highway Route 101, the Korean War Veterans Memorial Bridge. This measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources concerning that cost, to erect appropriate highway markers and signs.

Res. Ch. 152 (ACR 155) Lempert. Breastfeeding.

This measure would encourage the State of California and California employers to support and encourage the practice of breastfeeding, by striving to accommodate the needs of employees, and by ensuring that employees are provided with adequate facilities for breastfeeding and expressing milk for their children. The measure would

also memorialize the Governor to declare by executive order that all State of California employees be provided with adequate facilities for breastfeeding and expressing milk.

Res. Ch. 153 (ACR 161) Strom-Martin. George H. Cox Memorial Bridge.

This measure would designate the Bridgeville Bridge, #4-293, on State Highway Route 36, the George H. Cox Memorial Bridge.

The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 154 (ACR 171) Lempert. Military Servicewomen's Memorial Highway.

This measure would designate a specified segment of State Highway Route 101 as the Military Servicewomen's Memorial Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 155 (ACR 184) Aguiar. Pancreatic awareness month.

This measure would declare the month of August 1998 as Pancreatic Cancer Awareness Month.

Res. Ch. 156 (AJR 76) Papan. Just and peaceful resolution of the situation in Cyprus.

This measure would memorialize the President and Congress of the United States to continue their active support for finding a just and lasting solution to the situation in Cyprus within the framework of the parameters and principles set forth in House Concurrent Resolution No. 81 and Senate Concurrent Resolution No. 41, both of the 105th Congress, and United Nations Security Council Resolution 1092, adopted on December 23, 1996, regarding the situation in Cyprus.

Res. Ch. 157 (SCR 44) Calderon. Franchise tax apportionment.

This measure would direct the Legislative Analyst to investigate and report to the Legislature on or before December 15, 1998, regarding the treatment of sales of tangible personal property to the United States government differently from sales to all other parties in the state for purposes of a specified franchise tax apportionment formula.

Res. Ch. 158 (SCR 97) Kopp. Officer Dave Chetcuti Memorial Highway.

This measure would designate the portion of State Highway Route 101 that extends from the San Francisco International Airport to the Broadway-Burlingame exit as the Officer Dave Chetcuti Memorial Highway.

This measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 159 (ACR 20) Cardoza. University of California: Merced campus.

This measure would request the President of the University of California to report to the Legislature by January 1, 1999, regarding the next steps that will be undertaken to develop the Merced campus of the University of California, including, but not limited to, a timeline for appointment of a chancellor.

Res. Ch. 160 (ACR 176) Woods. Raymond A. Nachand Memorial Bridge.

This measure would designate Bridge No. 5-81 located over the Trinity River in Trinity County as the "Raymond A. Nachand Memorial Bridge."

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers.

Res. Ch. 161 (ACR 180) Oller. Historic U.S. Highway Route 40.

This measure would state that the remaining portions of former U.S. Highway Route 40 are recognized for their historic importance in the development of the state. The measure would request the Department of Transportation, upon application by an appropriate local governmental agency or agencies, to identify any section of former U.S. Highway Route 40 that is still a publicly maintained highway and that is of interest to the applicant, and to designate that section as "Historic U.S. Highway Route 40." The measure would request the department to determine the cost of appropriate highway markers or signs showing that special designation and, upon receiving donations from nonstate sources concerning that cost, to erect appropriate highway markers or signs on the portions of former U.S. Highway Route 40 that are part of the state highway system.

Res. Ch. 162 (AJR 58) Pringle. Income and bank and corporation taxes: research credit.

This measure would respectfully memorialize the President and the Congress of the United States to enact legislation to permanently extend the research development credit.

Res. Ch. 163 (AJR 71) Ortiz. Hmong Veterans' Naturalization Act of 1997.

This measure would memorialize the Congress and the President of the United States to enact, the Hmong Veterans' Naturalization Act of 1997 (H.R. 371).

Res. Ch. 164 (AJR 77) Granlund. Forest Tax Relief Act.

This measure would memorialize the President and the Congress of the United States to enact the "Forest Tax Relief Act," which would repeal legislation authorizing the United States Forest Service to implement a pilot program charging visitors of the Angeles, Cleveland, Los Padres, and San Bernardino national forests specified daily and yearly fees to park on national forest lands.

Res. Ch. 165 (ACR 142) Machado. Military Families Recognition Day.

This measure would designate Saturday, November 21, 1998, as Military Families Recognition Day.

Res. Ch. 166 (ACR 145) Machado. Physical Therapy Month.

This measure would proclaim October 1998 as Physical Therapy Month.

Res. Ch. 167 (ACR 190) Kaloogian. Workplace Fitness Month.

This measure would proclaim the month of October 1998 as Workplace Fitness Month in California, and would encourage all Californians to participate in regular exercise programs and physical activity, for healthier lives and improved work performance and satisfaction.

Res. Ch. 168 (SCR 98) Hurtt. State employee merit awards.

This measure would request that additional merit award payments, authorized by the Department of Personnel Administration, be made to specified individuals whose proposals have resulted in annual savings and net revenue gain to the state.

Res. Ch. 169 (SCR 101) Kopp. The 2001 I.A.A.F. World Championships in Track and Field.

This measure would express the support of the Legislature for the United States' bid to hold the 2001 I.A.A.F. World Championships in Track and Field at Stanford University and in San Jose. It would request the Secretary of Trade and Commerce to act as the primary point of contact for coordinating all state agencies in support of the 2001 I.A.A.F. World Championships in Track and Field, and to designate a deputy secretary of the agency to serve on the local organizing committee's advisory board. It would request the Governor to appoint a representative also to serve on the local organizing committee's advisory board.

Res. Ch. 170 (SCR 102) Costa. Richard Allen Flores Memorial Bridge, and Robert L. Binger Interchange.

This measure would designate the Lincoln Avenue overcrossing bridge in the community of Easton in the County of Fresno the Richard Allen Flores Memorial Bridge and the Shaw Avenue Interchange on State Highway Route 168 the Robert L. Binger Interchange.

The measure would also request the Department of Transportation to determine the costs of appropriate plaques and markers showing those special designations and, upon receiving donations from nonstate sources covering those costs, to erect appropriate plaques and markers.

Res. Ch. 171 (SCR 104) Brulte. William E. Leonard Interchange.

This measure would designate the freeway interchange, now under construction, at the juncture of Interstate Highway Route 15 and State Highway Route 210 in the County of San Bernardino the "William E. Leonard Interchange."

The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers.

Res. Ch. 172 (SCR 105) Watson. Newborn hearing screening.

This measure would establish the State Newborn Hearing Screening Intervention Task Force. This measure would encourage the department to seek the advice of the task force with regard to approaches for a system to screen all newborns and infants for hearing loss, allow the task force to monitor implementation of the program, consult with the State Department of Education, Office of Deaf and Hard of Hearing Education, in order that the department may provide local education agencies, with information on infants suspected or confirmed with hearing loss for the purpose of making services available to the family as required by federal law and develop a plan for presentation to the Legislature that would expand the program to effectively screen 95% of all infants born in general acute care hospitals.

Res. Ch. 173 (SCR 106) Schiff. The Honorable Frank K. Richardson.

This measure would commemorate the public service of former Justice Frank K. Richardson.

Res. Ch. 174 (ACR 99) Havice. Red Ribbon Week.

This measure would proclaim October 23 through October 30, 1998, as Red Ribbon Week, and encourage all Californians to help build a drug-free community and participate in drug prevention activities.

Res. Ch. 175 (ACR 183) Torlakson. Italian-American Wartime Internment Remembrance Week.

This measure would designate the second week of October of every year as "Italian-American Wartime Internment Remembrance Week."

Res. Ch. 176 (ACR 185) Washington. Arizona Boys Ranch.

Existing law provides for the placement of wards of the juvenile court at out-of-state residential facilities.

This measure would request the State Department of Social Services to work with counties to support other placement activities of wards from the Arizona Boys Ranch.

Res. Ch. 177 (ACR 186) Alquist. State personnel administration: Year 2000 Problem.

This measure would memorialize the state chief information officer and the Department of Information Technology to address issues relating to the administration by state departments and agencies of vacation credits of state employees who are working on Year 2000 projects.

Res. Ch. 178 (ACR 187) Papan. Oversized highway vehicles.

This measure would request the Commissioner of the California Highway Patrol to conduct a study to determine whether vehicles that are 80 inches or more in width and

80 inches or more in height, when driven in the left lane of multilane freeways, pose a visual hazard to motorists that is a causative factor in motor vehicle traffic accidents.

Res. Ch. 179 (ACR 188) Davis. Obesity Awareness Month.

This measure would designate the month of April 1999 as Obesity Awareness Month.

Res. Ch. 180 (ACR 189) Frusetta. Cowboy Appreciation Month.

This measure would proclaim September 1998, as Cowboy Appreciation Month.

Res. Ch. 181 (ACR 191) Alquist. Nonsteroidal Anti-Inflammatory Drugs Awareness Day.

This measure would proclaim November 17, 1998, as "Nonsteroidal Anti-Inflammatory Drugs Awareness Day."

Res. Ch. 182 (ACR 192) Runner. Aerospace development.

This measure would memorialize the President and CEO of the Lockheed Martin Corporation to choose California as the site for the development, production, and launch of VentureStar, the next generation commercial space launch vehicle, and for future commercial space activities.

Res. Ch. 183 (AJR 59) Baca. Reflex Sympathetic Dystrophy Syndrome.

This measure would urge the Congress of the United States to enact legislation to qualify automatically persons with Reflex Sympathetic Dystrophy Syndrome (RSDS) for Social Security disability benefits upon proper diagnosis and progression to a state of disability.

DIGEST OF RESOLUTION
ADOPTED IN 1998

1997–98 FIRST EXTRAORDINARY SESSION

RESOLUTION CHAPTER

Res. Ch. 2 (SCR 2) Burton. 1997-98 First Extraordinary Session: adjournment.

This measure would provide that the 1997-98 First Extraordinary Session of the Legislature shall adjourn sine die on August 31, 1998.

1998 DIGEST CHAPTERS SUPERIOR NUMBERS

- 1 [Ch. 94] I am signing Assembly Bill No. 2776 with a reduction.

This bill would appropriate monies from the General Fund to the State Board of Control for payment of a claim submitted by the Public Employees' Retirement System for back interest earnings on deferred employer retirement contributions claimed in the case Board of Administration et al. v. Wilson, etc.

However, this bill includes an appropriation in excess of what is needed to pay this claim. Therefore, I am reducing the appropriation contained in this bill by \$5,493,805 to reflect the actual amount owed for this claim as of July 7, 1998. The revised appropriation shall be \$333,040,706.

PETE WILSON, Governor

- 2 [Ch. 319] On this date I am signing Assembly Bill 1428. However, I am reducing the \$500,000 appropriation in Section 4 of this bill. This appropriation would be duplicative of that made by Assembly Bill 2284 and thus would over fund state operation activities for this program.

PETE WILSON, Governor

- 3 [Ch. 320] I am signing Senate Bill 1756, however, I am reducing the \$500,000 appropriation in Section 4 of this bill. This appropriation would be duplicative of that made by Assembly Bill 2284 and thus would over fund state operation activities for this program.

PETE WILSON, Governor

- 4 [Ch. 324] I object to the following appropriations contained in Assembly Bill 1656.

Item 0450-101-0932—For local assistance, State Trial Court Funding. I reduce this item from \$1,676,286,000 to \$1,666,286,000 by reducing:

(a) 10-Support for operation of the Trial Courts from \$1,517,580,000 to \$1,513,580,000,

(d) 45-Court Interpreters from \$46,411,000 to \$40,411,000,

and by revising Provision 4 and deleting Provision 5.

I am deleting the \$4,000,000 legislative augmentation to provide for increased juror compensation and a juror childcare pilot project. If lack of childcare is an impediment to jury service, a pilot can be conducted without additional state resources. In addition, there is no compelling evidence to suggest that a \$5 per day increase in juror compensation will make a difference in the number of persons willing to serve on a jury.

I am deleting the \$6,000,000 legislative augmentation to provide for an increased Minimum Service Level (MSL) of \$220 per day for compensation of court interpreters.

The Budget already increases the MSL to \$180 per day and funds interpreter coordinators. The Administrative Office of the Courts should assess the impact of these changes prior to additional increases.

I am revising Provision 4 to conform to this action.

"4. The funds appropriated in Schedule (d) shall be for payments for services of contractual court interpreters, certified court interpreters employed by the courts, and the following court interpreter coordinators: one each in counties of the 1st through the 15th classes, 0.5 each in counties of the 16th through the 31st classes, and 0.25 each in counties of the 32nd through 58th classes. Courts in counties with a population of 500,000 or less are encouraged, but not required, to coordinate interpreter services on a regional basis. For the purposes of this provision, "court interpreter coordinators" may be full- or part-time court employees, or those contracted by the court to perform these services.

The Judicial Council shall set statewide or regional rates and policies for payment of court interpreters, ~~not to be less than \$220 a day and~~ not to exceed the rate paid to interpreters in the federal court system. The Judicial Council shall adopt appropriate rules and procedures for the administration of these funds. The Judicial Council shall report to the Legislature and Director of the Department of Finance quarterly regarding expenditures from this schedule and projections for annual expenditures for the use of interpreters in the courts and the use and administration of these funds.”

I am deleting Provision 5, which would have required the Judicial Council to report anticipated cost increases resulting from contractual salary adjustments for trial court employees to the Legislature and the Department of Finance by October 1, 1998. The Task Force on Trial Court Employees has sufficient authority under Chapter 850, Statutes of 1997, to review any salary issues.

Item 0450-111-0001—For local assistance, State Trial Court Funding. I reduce this item from \$632,860,766 to \$622,860,766.

I am reducing this item to conform to the actions I have taken in Item 0450-101-0932.

Item 0540-001-0001—For support of Secretary for Resources. I reduce this item from \$11,386,000 to \$1,386,000 by reducing:

(a) 10-Administration of Resources Agency from \$13,244,000 to \$3,244,000, and by deleting Provision 1.

I am reducing this item by deleting the \$10,000,000 legislative augmentation for the River Parkway Program because of the Legislature’s failure to enact a balanced water resources plan, including meeting California’s future water needs, which is a higher priority. The Legislature should consider investing the State’s General Fund in this or similar ecosystem restoration projects only after a comprehensive, balanced plan has been adopted.

I am deleting Provision 1 to conform to this action.

Item 0550-005-0001—For support of the Secretary for the Youth and Adult Correctional Agency. I delete Provision 1.

I am deleting Provision 1 which would require the Commission on Correctional Peace Officers’ Standards and Training to contract for development and implementation of a mandatory cultural and ethnic diversity training program for staff, inmates and wards. This is a technical correction. While the Legislature considered providing funding for this program, ultimately no funding was approved. Therefore, this provisional language is inappropriate.

Item 0820-001-0001—For support of Department of Justice. I reduce this item from \$226,588,000 to \$226,438,000 by reducing:

(3) 25-Executive Programs from \$5,796,000 to \$5,646,000, and by deleting Provision 7.

I am deleting the \$150,000 legislative augmentation for support of the California Youth Violence Prevention Authority, which is proposed to be established within the Department of Justice by Senate Bill 822. While I am supportive of efforts to reduce juvenile crime, these issues can be addressed within the existing programs of State government without creating additional, unnecessary bureaucracy.

I am deleting Provision 7 to conform to this action.

Item 0820-101-0001—For local assistance, Department of Justice. I reduce this item from \$8,520,000 to \$6,270,000 by deleting:

(c) 50-Law Enforcement (\$900,000),

(d) 60-Criminal Justice Information Services (\$1,350,000), and by deleting Provision 3.

I am deleting the \$900,000 legislative augmentation for support of Sexual Assault Felony Enforcement Teams in Santa Clara County. The State currently provides funding for programs which assist in the prosecution and apprehension of sexual offenders, such as Vertical Prosecution of Statutory Rape and Sexual Predator Apprehension Teams. I would be willing to fund this program on a statewide basis, through a program similar to the Citizens Option for Public Safety program. However, I am not willing to fund such efforts on an individual county basis.

I am deleting Provision 3 to conform to this action.

I am deleting the \$1,350,000 legislative augmentation for allocation to local law enforcement agencies to reimburse their costs of providing the Department of Justice and the federal Immigration and Naturalization Service with final disposition of arrest information on citizenship applicants. Local law enforcement agencies, the courts, and district attorneys are required to forward all final dispositions of arrests to the Department of Justice for entry into the Automated Criminal History System. On an ongoing basis, the Department of Justice works with local government to facilitate this procedure which is currently in the process of being automated. In any case, providing the Department of Justice and the Immigration and Naturalization Service with information regarding the final disposition of arrests is a local responsibility.

Item 0840-001-0001—For support of State Controller. I reduce this item from \$61,793,000 to \$61,293,000 by reducing:

(b) 300000-Operating Expenses and Equipment from \$32,348,000 to \$31,848,000, and by deleting Provision 12.

I am deleting the \$500,000 legislative augmentation for the partial restoration of the 1997-98 legislative budget reduction to this Office. The State Controller's Office (SCO) has not provided sufficient information to justify the need for additional funds for technology upgrades.

I am deleting Provision 12 because it is unnecessarily restrictive. It would prohibit the SCO from releasing a Request for Proposal (RFP) for the Travel Expense Reimbursement System until all mission-critical systems are Year 2000 (Y2K) compliant. This language would unduly delay the development of this system, since it would take from 6 to 12 months after the release of the RFP for this system to commence. This time delay would push the system's implementation date beyond the budget year. The Department of Information Technology, as a condition for approval of this system, has already established adequate Y2K safeguards to be met prior to the award of a contract for the system by the SCO.

Item 0860-001-0001—For support of State Board of Equalization. I revise this item by deleting Provision 1.

I am deleting Provision 1 which would permit each member of the Board of Equalization to employ an additional Tax Counsel III, provided the additional position is funded within the member's existing office allocation. This language infringes on Executive Branch authority to effectively administer State government in that it is inconsistent with the Department of Personnel Administration's position allocation guidelines and other standard state procedures for allocating positions.

Item 1100-001-0001—For support of California Science Center. I reduce this item from \$11,097,629 to \$10,797,629 by reducing:

(a) 10-Education from \$11,281,000 to \$10,981,000.

I am deleting the legislative augmentation of \$300,000 for the Rosa Parks Learning Center. While I am supportive of computer literacy education, I am deleting this amount because of the need to fund higher competing priorities including a prudent reserve.

Item 1100-301-0001—For capital outlay, California Science Center.

I am sustaining the legislative augmentation of \$29,500,000 (\$10,000,000 General Fund and \$19,500,000 Federal Fund) for a new parking facility at the California Science Center (CSC) at Exposition Park. However, I am concerned about the funding and scope of the project. There is a need for a CSC visitor parking facility, especially in light of the efforts at Exposition Park to eliminate surface parking and provide additional park areas. As budgeted, the scope of the project exceeds the identified resources available for the project. Moving forward with the project as proposed would require additional resources as the cost of a 2,700-space facility with two levels below ground is estimated to be approximately \$40,000,000. This additional funding need exceeds the augmentation authority of the State Public Works Board. Therefore, I am directing the Department of Finance to fully review this project in conjunction with the CSC and the Department of General Services to establish a scope for the project which meets the CSC's needs and to determine an appropriate budget for the project. If this review results in the need for a scope change or additional funding, I am directing the CSC to pursue these changes through the normal administrative and budget processes, as appropriate.

Item 1111-001-0069—For transfer by the State Controller from the Barbering and Cosmetology Fund to the Consumer Affairs Fund (Item 1111-010-0702). I reduce this item from \$8,670,000 to \$8,669,000.

I am reducing this item by \$1,000 to conform to the deletion of Provision 6 in Item 1111-010-0702.

Item 1111-001-0582—For transfer by the State Controller from the High Polluter Repair or Removal Account to the Consumer Affairs Fund (Item 1111-010-0702). I reduce this item from \$65,282,000 to \$62,282,000.

I am reducing this item by \$3,000,000. The Legislature included this funding to implement Assembly Bill 2789. This bill would have exempted three areas of the State from the Enhanced Smog Check Program, and would have provided for the reimbursement of specified smog check equipment to smog check station owners who would no longer be required to utilize this equipment to perform smog inspections. This bill would have created inequities by shifting the burden of increased emission reductions from automobiles in those three areas stationary pollution sources and motorists elsewhere in the State. I am eliminating this funding to be consistent with my veto of Assembly Bill 2789.

I am revising Provision 1 to conform to this action.

“I. The funds appropriated by this item are scheduled as follows:

- (a) Education 98,000
- (b) Smog Quality Assurance and Engineering 4,692,000
- (c) Intake 1,526,000
- (d) Enforcement 3,086,000
- (e) Low Income Repair Assistance 20,000,000
- (f) Accelerated Vehicle Retirement 32,880,000
- (g) ~~Dynamometer Cost Mitigation 3,000,000~~”

Item 1111-010-0702—For support of Department of Consumer Affairs. I am deleting Provision 6 and reducing this item from \$190,553,000 to \$187,552,000 by reducing:

- (a) 01.01-Support for Department of Consumer Affairs-Administrative and Consumer Services; Bureau of Automotive Repair; Bureau of Electronic and Appliance Repair; Bureau of Home Furnishings and Thermal Insulation; Bureau of Security and Investigative Services; Arbitration Review Program; Cemetery Program; Funeral Program; Barbering and Cosmetology Program; Bureau of Private Postsecondary and Vocational Education; and Nursing Home Administrator's Program from \$216,256,000 to \$213,255,000.

I am deleting Provision 6, which would prohibit funds transferred pursuant to Item 1111-001-0069 (for the support of the Barbering and Cosmetology Program) from being used for the relocation of examination sites until a cost-benefit analysis has been provided to the Joint Legislative Budget Committee and the Department of Finance. By requiring the completion and issuance of a report prior to relocating an exam site, this language interferes with the ability of the Executive Branch to manage its programs. In addition, the preparation of this report could require the Department to redirect resources from mandated consumer protection activities.

I am reducing \$1,000 from this item to reflect savings that will be achieved from the veto of Provision 6. This action conforms to the reduction taken in Item 1111-001-0069.

I am also reducing \$3,000,000 from this item to conform to the reductions taken in Item 1111-001-0582.

Item 1730-001-0001—For support of Franchise Tax Board. I reduce this item from \$347,313,000 to \$347,054,000 by reducing:

- (a) 10-Tax Programs from \$341,826,000 to \$341,567,000.

I am reducing this item by \$259,000 and 4.7 positions to reflect the Board's revised cost estimate to administer the Renters' Tax Credit Program.

Item 1760-001-0666—For support of Department of General Services. I reduce this item from \$362,847,000 to \$362,846,000 by reducing:

- (a) Program support from \$469,483,000 to \$469,482,000, and by deleting Provision 12.

I am reducing this item by \$1,000 and deleting Provision 12 which would require the Department of General Services to increase the statistical data reported to the Legislature on small business participation in public contracts and would include information on ethnicity and gender of small business bidders. This provision is not currently required by statute and could be in violation of recent changes in the law. Compliance with its provision, therefore, would interfere with the ability of the Department to exercise its responsibilities in accordance with law.

I am reducing \$1,000 from this item to reflect savings that will be achieved based on vetoing Provision 12 of this item.

Item 1760-101-0022—For local assistance, Department of General Services. I reduce this item from \$79,018,000 to \$78,718,000.

I am deleting the \$300,000 legislative augmentation for implementation of an additional pilot project to test an alternate "311" number for non-emergencies in the City of Pasadena. While I am supportive of efforts to reduce 911 calls, this augmentation is not needed because funding is included in the Budget for other pilot sites. A fifth testing site would not yield any additional meaningful data to determine the effectiveness of 311 calls in reducing 911 traffic.

Item 1760-301-0942—For capital outlay, Department of General Services. I delete this item and Provision 1.

I am deleting this item, which provides \$2,945,000 for the New Governor's Mansion. This language contains a technical in that it does not allow for the purchase of an existing residence. The new Governor should have more flexibility in selecting an appropriate residence.

Item 2240-001-0001—For support of Department of Housing and Community Development. I revise this item by reducing:

- (b) 20-Community Affairs Program from \$12,268,000 to \$11,646,000,
- (l) Amount payable from the Self-Help Housing Fund (Item 2240-001-0813) from -\$188,000 to -\$116,000,
- (n) Amount payable from the Housing Rehabilitation Loan Fund (Item 2240-001-0929) from -\$2,569,000 to -\$2,239,000, and

(o) Amount payable from the Rental Housing Construction Fund (Item 2240-001-0938) from -\$898,000 to -\$678,000.

I revise this item to conform to the reductions taken in Items 2240-001-0813, 2240-001-0929, 2240-001-0938, 2240-103-0001, 2240-105-0001, and 2240-106-0001.

Item 2240-001-0813—For support of Department of Housing and Community Development. I reduce this item from \$188,000 to \$116,000.

I am reducing this item by \$72,000 to conform to the reduction in Item 2240-103-0001.

Item 2240-001-0929—For support of Department of Housing and Community Development. I reduce this item from \$2,569,000 to \$2,239,000.

I am reducing this item by \$330,000 to conform to the deletion of Item 2240-105-0001.

Item 2240-001-0938—For support of Department of Housing and Community Development. I reduce this item from \$898,000 to \$678,000.

I reduce this item by \$220,000 to conform to the deletion of Item 2240-106-0001.

Item 2240-101-0001—For local assistance, Department of Housing and Community Development. I reduce this item from \$4,629,000 to \$4,604,000 by reducing:

(a) 20-Community Affairs from \$103,629,000 to \$103,604,000.

I am deleting the \$25,000 legislative augmentation to fund the environmental ecosystem project at the Carmelitos Housing Project in Long Beach. The Department does not traditionally fund landscaping or recreational projects. Funding for such projects should come from other sources.

I am sustaining the \$200,000 legislative augmentation to the California Indian Assistance Program, which would provide technical assistance to California Indian tribes applying for increased federal funds under the Native American Housing Assistance and Self-Determination Act of 1996. State funding will be used to contract with private consultants to assist up to 20 tribes in preparing housing plans, which are required prior to the receipt of the federal funds. I am sustaining this funding with the intent that the Department of Housing and Community Development will assist those tribes that have limited economic resources.

Item 2240-103-0001—For local assistance, Department of Housing and Community Development, for transfer to the Self-Help Housing Fund (0813). I reduce this item from \$2,000,000 to \$1,000,000.

I am deleting the \$1,000,000 legislative augmentation for self-help housing, a program which provides technical assistance and education to families who help build their own homes. While this program has merit, it is my understanding that this augmentation would not be fully used in 1998-99. This program is currently funded at \$1,000,000 and no applications have been denied due to a lack of funds. Because there is a limited number of organizations capable of using these funds, it may be several years before the grant requests exceed the existing funding level.

Item 2240-103-0813—For local assistance, Department of Housing and Community Development. I reduce this item from \$2,928,000 to \$2,000,000 and delete provision 3.

I am reducing this item by \$928,000 to conform with the reduction taken in Item 2240-103-0001.

I am deleting Provision 3 to conform to this action.

Item 2240-104-0001—For local assistance, Department of Housing and Community Development, for transfer to the Farmworker Housing Grant Fund (0927). I delete this item and Provision 1.

I am deleting the \$6,000,000 legislative augmentation for the Farmworker Housing Grant Program. I am deleting this amount because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 1 to conform to this action.

Item 2240-105-0001—For local assistance, Department of Housing and Community Development, for transfer to the California Housing Rehabilitation Loan Fund (0938). I delete this item and Provisions 1 and 2.

I am deleting this item and the funding of \$15,000,000 for transfer from the General Fund for a new program to preserve low-cost housing. These funds are intended to acquire, rehabilitate, and preserve low-cost rental housing which may convert to market rent because of the termination of federal housing subsidies or the desire of owners to increase their income. State government should not be expected to replace federal housing subsidies in California which may be in jeopardy due to federal budget policy. By indicating a willingness to fund a replacement program, California would make it easier for Congress to further reduce the share of federal funds that our state receives. California is already allotted a disproportionately low share of these housing funds compared to other states. I am unwilling to commit new state funding for this purpose.

I am deleting Provisions 1 and 2 to conform to this action.

Item 2240-105-0929—For local assistance, Department of Housing and Community Development. I delete this item and Provision 1.

I am deleting this item to conform to the deletion of Item 2240-105-0001.

I am deleting Provision 1 to conform to this action.

Item 2240-106-0001—For local assistance, Department of Housing and Community Development, for transfer to the Rental Housing Construction Fund (0938). I delete this item and Provisions 1 and 2.

I am deleting this \$10,000,000 General Fund legislative augmentation to provide funding for the proposed Families Moving to Work Housing Program. This program is significantly more costly than other housing programs and will help a relatively limited number of CalWorks recipients. Furthermore, the program inappropriately diverts funds to local housing agencies which are due to the state as loan repayments.

I am deleting Provisions 1 and 2 to conform to this action.

Item 2240-107-0001—For local assistance, Department of Housing and Community Development, for transfer to the Emergency Housing Assistance Fund (0985). I delete this item and Provisions 1 and 2.

I am deleting the \$7,000,000 legislative augmentation to the Emergency Housing Assistance Program. Of this amount, \$2,000,000 was for additional grants to local governments and nonprofit organizations for support of emergency shelters for the homeless and \$5,000,000 was provided for construction of new emergency shelters. State support for this program has historically been funded at a \$2,000,000 level. Any expansion of emergency shelters for the homeless is a local government responsibility.

I am deleting Provisions 1 and 2 to conform with these actions.

Item 2600-101-0001—For local assistance, California Transportation Commission. I delete this item and Provisions 1, 2, 3, 4, and 5.

I am deleting the \$2,000,000 legislative augmentation for a local assistance grant to the North Coast Railroad Authority. I am not convinced that the North Coast Railroad Authority will be able to sustain a financially viable operation without substantially more support for capital improvements and maintenance from local government or the business community. Moreover, the appointment of a state-supported Special Rail Master to monitor the implementation of the Commission's recommendations for the allocation of these funds may give the appearance that the state has assumed a measure of responsibility for the successful operation of this rail line.

I am deleting Provisions 1, 2, 3, 4, and 5 to conform to this action.

Item 2660-001-0042—For support of Department of Transportation. I reduce this item from \$1,524,625,000 to \$1,524,365,000 by reducing:

(f) 20.70-Highway Transportation-Operations from \$137,000,000 to \$136,740,000, and deleting Provisions 8, 12 and 14.

The Legislature augmented this item by \$400,000 to fund the “floating vehicle” congestion management program in District 4. I am reducing this augmentation by \$260,000 because I am informed that \$140,000 is sufficient to fund this activity. Additionally, I am directing the Department of Transportation to continue the “floating vehicle” program until the implementation of electronic sensors in Bay Area roadways is completed in approximately two years.

I am deleting Provision 8 to conform to this action.

I am deleting Provision 12 which prohibits the Department of Transportation from spending any funds for right-of-way or for construction of the ‘Hatton Canyon Freeway’ on Highway 1, between Carmel River Bridge and State Route 68, except funds necessary to design the facility and obtain permits. This language duplicates existing law. The Department of Transportation already conducts environmental impact reports and obtains the necessary permits as part of its highway construction design and planning, prior to actual construction. This provision sets the undesirable precedent of project-specific legislating which is contrary to the provisions of the transportation funding reform bill I signed last year.

I am deleting Provision 14 which would require the Department of Transportation to enter into a noise and dust mitigation agreement with the City and County of San Francisco with regard to the Bay Bridge-West Anchorage Seismic Retrofit Project. The Department of Transportation already conforms its projects to the greatest extent possible to local noise ordinances. I have been informed that an Advisory Committee is in place consisting of local business owners in the Bay Bridge/West Anchorage area and that an agreement has been reached with all of the business owners except one.

Item 2660-101-0001—For local assistance, Department of Transportation. I reduce this item from \$3,600,000 to \$600,000 and delete Provision 2.

I am deleting the \$3,000,000 legislative augmentation to the California Institute for Smart Communities for the establishment of a competitive grant program because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 2 to conform to this action.

In the May Revision, I advised the Legislature that the principal and interest on the loan to the General Fund from the Public Transportation Account, made pursuant to Item 2660-023-046, Budget Act of 1993, was to be repaid in full because the Account is projected to be in deficit otherwise. The Legislature proposed a partial loan repayment of \$46,000,000 although it took no action in the Budget Bill in this regard. In my other actions in this Budget, I have deleted sufficient spending to make possible the full repayment of this debt. Therefore, I am directing the Department of Finance, under the authority of the original loan appropriation, to instruct the State Controller to repay from the General Fund the full amount of the principal and interest owed, which is estimated to be \$113,000,000.

Item 2720-001-0044—For support of Department of the California Highway Patrol. I revise this item by deleting Provisions 2 and 4.

The Legislature added Provision 2 stating its intent to appropriate \$54,000,000 for highway patrol officer salary increases. I am deleting this provision because it is inconsistent with current law regarding the establishment of employee salary increases, and prejudices the outcome of the normal collective bargaining process.

I am deleting Provision 4 which would prohibit the California Highway Patrol from spending any funds on a security fence around the Capitol Building. Capitol security continues to be a serious concern and all options to enhance security should remain

open. The CHP's ability to exercise its best judgment on providing security should not be limited.

Item 2720-495—Reversion, Department of California Highway Patrol. I delete this item.

I am deleting this item which would revert \$1,600,000 appropriated in 1997-98 for the construction of security improvements at the State Capitol to the General Fund as of June 30, 1998. While I recognize that a security fence has not received legislative support to date, Capitol security continues to be a concern. This action conforms with the action I have taken to delete Provision 4 in Item 2720-001-0044.

Item 2740-001-0001—For support, of Department of Motor Vehicles. I reduce this item from \$340,000 to \$60,000 and revise Provision 1.

I am reducing this item to delete \$280,000 and 1.9 personnel years for the Department of Motor Vehicles to lease and staff a full-time field office in the City of Tehachapi. While Tehachapi is a growing area, there are many areas in the state growing at a faster rate. The department uses an impartial, demographic-based methodology so determine the need for new field offices. This proposal should be subject to that process. Additionally, the General Fund is not the appropriate funding source for the department's field offices.

I am revising Provision 1 to conform to this action:

"1. Of the funds appropriated by this item \$60,000 is available for the Anatomical Donor Designation program and ~~\$280,000 is available for the Tehachapi field office.~~"

Item 2740-001-0044—For support of Department of Motor Vehicles. I revise this item from \$317,601,000 to \$317,251,000 by reducing:

- (a) 11-Vehicle/Vessel Identification and Compliance from \$329,305,000 to \$328,801,000,
- (b) 22-Driver Licensing and Personal Identification from \$162,877,000 to \$162,751,000,
- (i) Amount payable from the General Fund (Item 2740-001-0001) from -\$340,000 to -\$60,000,

and by deleting Provisions 2 and 6.

I am deleting the legislative augmentation of \$350,000 and 2.8 personnel years to modify the department's computer system to provide that, in cases in which a smog check certificate is the only outstanding registration requirement, vehicle registration stickers would be automatically mailed to the owner once the vehicle passes its smog check test. The Legislature expressed intent that this change be completed by January 1, 1999. The Department cannot guarantee completion of this project by that date due to other programming priorities including Year 2000 compliance efforts. Due to the unique software used in the department's data processing system, only existing staff can effectively do this work. I am directing the Department of Motor Vehicles to complete the programming as quickly as possible, consistent with the department's other urgent programming priorities.

I am deleting Provision 6 to conform to this action.

I am deleting Provision 2 which would require the Department of Motor Vehicles, prior to expending funds provided for the redesign of the vehicle registration database or the occupational license system, to certify to the Department of Information Technology and to the Joint Legislative Budget Committee that it has completed Phase II of its Business Process Reengineering study for these projects. This will unnecessarily delay the implementation of these two projects.

I am also revising the schedules in this item to conform to the action I have taken in Item 2740-001-0001.

Item 2740-101-0042—For local assistance, Department of Motor Vehicles. I revise this item by revising Provision 1.

I am revising Provision 1 of this item to delete language which limits the loans to counties to what they would have received under Chapter 587, Statutes of 1997 for the 1998–99 fiscal year. This language conflicts with Provision 4, which provides that counties that pass a resolution by September 1, 1998, may receive an amount not less than they would have received under that Chapter for the full calendar year in which the loan was made. I support the earliest possible implementation of automated fingerprinting equipment which will both expedite identification of persons arrested by law enforcement agencies as well as provide better service to schools and others in conducting background checks on prospective employees. Nevertheless, recognizing the late enactment of the Budget, it would be appropriate for the Legislature to extend the September 1, 1998 deadline in Provision 4 to October 1, 1998.

“1. The funds appropriated in this item shall be allocated to the Department of Motor Vehicles for disbursement to counties by the Controller in the form of loans in an amount ~~no greater than each county could have received under subdivision (b) of Section 9250.19 of the Vehicle Code for the 1998–99 fiscal year, which loans shall be~~ for the purpose of allowing local law enforcement agencies to upgrade automated mobile and fixed location fingerprint identification equipment.”

Item 2920-001-0001—For support of California Trade and Commerce Agency. I reduce this item from \$26,145,000 to \$25,945,000 by reducing:

(f) 60-Economic Research and Strategic Planning from \$1,487,000 to \$1,287,000.

I am deleting the \$200,000 augmentation to convene the Economic Strategy Panel to develop economic strategies for the state. Chapter 864, Statutes of 1993, required the Secretary of the Trade and Commerce Agency to convene this panel biennially and provide their report to the Legislature and the Governor. Their first report was funded through private sector funds, as well as in-kind contributions from the Agency and the Department of Education. No appropriation was made within the original legislation, and it is not clear why State funds are now needed to update this effort.

Item 2920-101-0001—For local assistance, California Trade and Commerce Agency. I reduce this item from \$30,957,000 to \$22,857,000 by reducing:

(a1) 10.10-Economic Development (Small Business Development Centers) from \$1,000,000 to \$500,000;

(a) 10.30-Economic Development (Strategic Technology Program) from \$23,467,000 to \$16,067,000;

(d) 20-International Trade and Investment from \$225,000 to \$25,000;

and by revising Provisions 1 and 2, and deleting Provision 3.

I am deleting the \$1,100,000 augmentation to provide grant funds to develop manufacturing technology for use in the private sector. It is premature to augment this relatively new program, which has an ongoing funding level of \$6,700,000, and has not yet been evaluated.

I am deleting the \$500,000 augmentation to Kern County for the creation of an alliance to promote military bases in the southwestern states. Although retention of these facilities is important to the economic health of the local regions surrounding the bases, the proposal is vague. The budget already contains \$245,000 to maintain the Office of Military Base Retention to coordinate base retention activities, including meeting with Pentagon officials, supporting local community efforts, and representing the entire state before the federal Base Closure and Realignment Commission. I am concerned that California taxpayer funds could be used to promote bases in other states to the detriment of bases in California.

I am deleting Provision 3 to conform to this action.

I am deleting the \$200,000 augmentation for the Bay Area World Trade Center because of the need to fund higher competing priorities including a prudent reserve.

I am reducing the \$8,500,000 augmentation provided to fund various grants administered through the California Space and Technology Alliance and the Western Commercial Space Center to \$2,200,000. Even with this reduction, the Budget contains twice the amount of grant funds than were provided in 1997–98. While I support the policy of assisting industries that have a high potential to provide job-creating economic development, I am not willing to commit a significant amount of state resources to a relatively new program without first having an evaluation of the economic benefits of projects funded to date.

Furthermore, the funds provided to both the California Space and Technology Alliance and the Western Commercial Space Center for program administration are excessive, and I am revising Provisions 1 and 2 to limit such expenses to ten percent of the grant funding.

“1. Of the amount appropriated by this item, the Trade and Commerce Agency shall allocate ~~\$6,300,000~~ *\$1,100,000* to implement the California Space Flight Competitive Grant Program administered by the California Space and Technology Alliance (CSTA) pursuant to subdivision (p) of Section 15333.3 of the Government Code. The CSTA may expend up to ~~\$875,000~~ *\$100,000* for program administration.”

“2. Of the amount appropriated by this item, the Trade and Commerce Agency shall allocate ~~\$2,200,000~~ *\$1,100,000* to implement the Highway to Space Competitive Grant Program administered by the Western Commercial Space Center (WCSC) pursuant to Section 15333.4 of the Government Code. The WCSC may expend up to ~~\$200,000~~ *\$100,000* for program administration.”

I am sustaining the Legislature’s \$900,000 augmentation for business incubator grants. However, I object to the intent that \$100,000 of this augmentation be provided for a specific business incubator at California State Polytechnic University, San Luis Obispo. While I do not object to the establishment of this specific project, it should compete on an equal basis with all other applicants for any available grant funds.

Item 2920-111-0001—For local assistance, California Trade and Commerce Agency. I revise this item by deleting Provisions 1 and 2.

The Legislature identified up to \$8,500,000 of the \$50,000,000 appropriated to the Infrastructure Bank for private technology development and up to \$1,500,000 for fiber optic network development. Specific limitations dilute competition for these funds and are contrary to the authorizing legislation. All projects should compete on an equal basis.

Item 2920-112-0001—For local assistance, California Trade and Commerce Agency, for transfer to the Job Creation Investment Fund. I delete this item.

I am deleting the \$6,500,000 augmentation for the Job Creation Investment Program. This program, which is part of California’s Welfare-to-Work strategy, has not yet distributed most of the \$5,000,000 it received in 1997–98 grant funds to assist counties in implementing local economic development programs. It would be premature, pending evaluation, to provide additional funding. In addition, the budget contains \$190,000,000 to fund Welfare-to-Work job creation efforts. This, and other funding available through the county block grant, is the main support for Welfare-to-Work job training and development.

Item 2920-112-0393—For local assistance, California Trade and Commerce Agency. I delete this item.

I am deleting this item to conform to the deletion of Item 2920-112-0001.

Item 2920-490—Reappropriation, Trade and Commerce Agency. I delete this item.

I am deleting this item which reappropriates \$140,000 from a 1997-98 appropriation intended to fund a particular project related to development of the commercial space industry. I object to this effort to circumvent the competitive process which will be used for other grants for this industry. I have sustained \$2,200,000 in Item 2920-101-0001 for this purpose.

Item 3125-101-0001—For local assistance, California Tahoe Conservancy. I reduce this item from \$2,400,000 to \$2,000,000 and revise Provision 2.

I am deleting the \$400,000 legislative augmentation for the Rocky Point Trail because of the need to fund higher competing priorities including a prudent reserve.

I am revising Provision 2 to conform to this action.

“2. Of the funds available in the Item, \$2,000,000 shall be available for soil erosion control grants and the amount of \$400,000 is available for construction of the Rocky Point bicycle and pedestrian trail .”

Item 3340-001-0001—For support of California Conservation Corps. I reduce this item from \$42,450,000 to \$32,450,000 by reducing:

(a) 10-Training and Work Program from \$49,561,000 to \$39,561,000, and by deleting Provision 5.

I am deleting the \$5,000,000 legislative augmentation to expand the California Conservation Corps to include CalWORKs recipients. The funding is unnecessary because counties already have the ability to contract with the State or local corps for services.

I am deleting the \$5,000,000 legislative augmentation for the construction of the Bay Trail Extension Project. I am deleting this amount because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 5 to conform to this action.

Item 3360-001-0001—For support of State Energy Resources Conservation and Development. I delete this item and Provision 1.

I am deleting the legislative augmentation of \$1,600,000 to fund an Environmental, Energy and Highway Research Test Track, because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 1 to conform to this action.

Item 3360-001-0465—For support of State Energy Resources, Conservation and Development Commission. I reduce this item from \$34,698,000 to \$32,898,000 by reducing:

(a) 10-Regulatory and Planning from \$19,065,000 to \$18,865,000,

(c) 30-Development from \$89,597,000 to \$86,397,000,

by deleting:

(fx) Amount payable from the General Fund (Item 3360-001-0001) (-\$1,600,000), and by deleting Provisions 1, 2 and 3.

I am deleting Provision 1, which provides customer credits for purchases of in-state renewable energy generation without regard to who owns or generates the electricity. Currently, investor-owned utilities, and not municipal utilities, contribute toward funding for the renewable energy generation customer credits. This provisional language would create an inequity because municipal utilities would be allowed to share in a benefit that is supported solely by investor-owned utilities.

I am deleting the legislative augmentation of \$1,600,000 for Solar Hot Water Heaters and Solar Electricity Program. This augmentation would appear to establish a new program and it is unclear what the purpose and objectives of the program would be. Furthermore, there are insufficient resources available in the Energy Resources Program Account.

I am deleting Provision 2 to conform to this action.

I am deleting the legislative augmentation of \$200,000 for the development and support of Consumer Electric Users Cooperatives because the Energy Commission can continue to provide assistance to their efforts within the current budget authorizations.

I am deleting Provision 3 to conform to this action.

I am revising this item to conform to the action I have taken in Item 3360-001-0001.

Item 3360-101-0497—For local assistance, State Energy Resources, Conservation and Development Commission. I revise this item by deleting Provision 3.

I am deleting Provision 3 which allows specified geothermal-related reservoir recharge projects to compete for Geothermal Resources Revolving Subaccount funds. This provisional language unnecessarily restricts the California Energy Commission's ability to allocate resources on a competitive basis to those projects which will best further the goals of the program.

Item 3480-002-0001—For support of the Department of Conservation. I delete this item and Provision 1.

I am deleting the \$934,000 legislative augmentation to fund seismic hazard maps for the San Francisco Bay Area because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 1 to conform to this action.

Item 3540-001-0001—For support of Department of Forestry and Fire Protection. I revise this item by reducing:

- (b) 300000-Operating expenses and equipment from \$140,862,000 to \$129,608,000,
- (p) Amount payable from the Forest Resources Improvement Fund (Item 3540-001-0928) from -\$19,486,000 to -\$8,232,000,

and by deleting Provision 4.

I am revising this item to conform to the actions I have taken in Item 3540-001-0928, as well as to conform to legislative action taken in that item.

I am deleting Provision 4 because this language is unnecessarily restrictive and would interfere with the ability of the Executive Branch to manage programs effectively. Moreover, this provision inappropriately nullifies existing law set forth in the Public Resources Code relative to the administration of the Z'berg-Nejedly Forest Practice Act.

Item 3540-001-0928—For support of Department of Forestry and Fire Protection. I reduce this item from \$11,065,000 to \$8,232,000 and delete Provisions 2 and 3.

I am reducing this item by \$2,833,000 by deleting the legislative augmentations for urban forestry grants (\$633,000) and forest improvement programs (\$2,200,000) because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provisions 2 and 3 to conform with the reductions I have made in this item.

Item 3540-101-0001—For local assistance, Department of Forestry and Fire Protection. I reduce this item from \$465,000 to \$400,000 by deleting:

- (a) Lake Nacimiento Fire and Rescue Boat (\$65,000)

I am deleting the \$65,000 legislative augmentation for the purchase of a fire and rescue boat for the Oak Shores Volunteer Fire Department at Lake Nacimiento because of the need to fund higher competing priorities including a prudent reserve.

Item 3540-301-0001—For capital outlay, Department of Forestry and Fire Protection. I reduce this item from \$32,286,000 to \$32,285,000 by reducing:

- (32) 30.60.035-Statewide: Construct Telecommunication Towers and Vaults, Phase 2-Preliminary plans, working drawings and construction from \$9,148,000 to \$9,147,000,

and by deleting Provision 4.

I am deleting Provision 4 which would require the Department of Forestry and Fire Protection to submit a master plan to the Legislature for the repair and replacement of

its communication towers and vaults and delays the initiation of the design process for 30 days after the submittal. This language is unnecessary as the Department has already submitted the master plan to the Legislature. Further, due to the critical public safety nature of these projects, further delays related to the projects should be avoided.

I am reducing \$1,000 from the item based on savings that will be achieved as a result of deleting Provision 4.

Item 3540-301-0928—For capital outlay, Department of Forestry and Fire Protection. I delete this item.

I am deleting the \$5,700,000 legislative augmentation for two acquisition projects from the Forest Resources Improvement Fund. This budget item does not provide sufficient legal authority to use these funds for land acquisition.

Item 3600-001-0001—For support of Department of Fish and Game. I reduce this item from \$21,013,000 to \$19,563,000.

I am reducing this item by \$400,000 for salmon restoration work to be performed by the California Conservation Corps. I am reducing this amount because of the Legislature's failure to enact a balanced water resources plan, including meeting California's future water needs, which is a higher priority. The Legislature should consider investing the State's General Fund in this or similar ecosystem restoration projects only after a comprehensive, balanced plan has been adopted.

I am reducing the legislative augmentation of \$700,000 and seven positions to \$400,000 and four positions to perform timber harvest plan activities because this is the appropriate level of resources, when teamed with the additional positions in the Department of Forestry and Fire Protection, the Department of Conservation, and the State Water Resources Control Board, to improve environmental review and enforcement of timber harvest plans.

I am reducing this item by \$750,000 for the Marine Life and Marine Reserve Management Program. Assembly Bill 2784 provides \$2,200,000 in a tidelands oil revenue allocation which is available to the department, upon appropriation by the Legislature, for this program. Consequently, this General Fund augmentation is not necessary. If Assembly Bill 2784 is enacted, expenditure of the \$2,200,000 for this program can be considered during the next budget cycle.

Item 3600-001-0200—For support of Department of Fish and Game. I revise this item by reducing:

(d) 55-Fisheries Management from \$87,705,000 to \$86,555,000,

(e) 60-Environmental Services from \$18,732,000 to \$18,432,000,

(j) Amount payable from the General Fund (Item 3600-001-0001) from -\$21,013,000 to -\$19,563,000,

and by deleting Provisions 5, 6, 7, 8 and 9.

I am deleting Provision 5 because it would prohibit the Department of Fish and Game from expending any funds on its proposed reorganization until certain criteria are met and reported to the Joint Legislative Budget Committee. The provisional language is unduly restrictive and infringes on the Executive Branch's ability to manage programs pursuant to existing law.

I am deleting Provisions 6, 7 and 8 which would restrict the Department of Fish and Game from using \$7,000,000 from the Salmon and Steelhead Trout Restoration Account for grants under certain circumstances. This provisional language is unnecessarily restrictive and infringes on the Executive Branch's ability to administer programs pursuant to existing law.

I am deleting Provision 9 to conform with action taken in Item 3600-001-0001.

I am revising this item to conform to the action I have taken in Item 3600-001-0001.

Item 3600-002-0001—For support of Department of Fish and Game. I reduce this item from \$3,320,000 to \$1,800,000 and delete Provision 2.

I am deleting the \$20,000 legislative augmentation to fund mosquito abatement activities in the Suisun Resource Conservation District. This is appropriately a local responsibility.

I am deleting Provision 2 to conform to this action.

In order to correct a technical error in this bill, I am reducing the appropriation in this item by \$1,500,000 because this amount should have been scheduled as reimbursements, and not as General Fund. This technical veto will conform with the Legislature's intent as stated in Provision 1 of this item. Provision 1 states that additional funding for the Upper Newport Bay Ecological Reserve dredging project is funded \$1,800,000 General Fund and \$1,500,000 reimbursements.

Item 3600-002-0140—For support of Department of Fish and Game. I reduce this item from \$786,000 to \$500,000 and delete Provision 2.

I am deleting the legislative augmentation of \$286,000 for the Sweetwater Reservoir Fishing Facility because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 2 to conform to this action.

Item 3600-002-0320—For support of Department of Fish and Game. I delete this item and Provision 1.

I am deleting the \$1,800,000 legislative augmentation to fund an Emergency Operations Center for Santa Barbara County. Consistent with my veto message last year, construction of this facility is a local, not a State, responsibility.

I am deleting Provision 1 to conform to this action.

Item 3600-101-0001—For local assistance, Department of Fish and Game. I revise this item by deleting Provision 1.

I am deleting Provision 1 to eliminate language limiting expenditures for Natural Community Conservation Plans (NCCP) to the approved plans in Orange and San Diego Counties. This language is unnecessarily restrictive and hinders the ability of the Executive Branch to achieve the goals of the NCCP program effectively under existing law. The NCCP enabling legislation and existing program authorities provide the necessary authority to implement the NCCP while providing an appropriate level of local control for this locally driven program.

Item 3600-101-0890—For local assistance, Department of Fish and Game. I revise this item by deleting Provision 1.

I am deleting Provision 1 to eliminate language limiting expenditures for Natural Community Conservation Plans (NCCP) to the approved plans in Orange and San Diego Counties. This language is unnecessarily restrictive and hinders the ability of the Executive Branch to achieve the goals of the NCCP program effectively under existing law. The NCCP enabling legislation and existing program authorities provide the necessary authority to implement the NCCP while providing an appropriate level of local control for this locally driven program.

Item 3600-301-0200—For capital outlay, Department of Fish and Game. I revise this item by deleting Provision 5.

I am deleting Provision 5 which prohibits the augmentation of funds for the Napa Sonoma Wildlife Area Water Control Structures project. This language is unduly restrictive and infringes on the ability of the Executive Branch to manage its capital outlay projects pursuant to existing statutes.

Item 3640-301-0001—For capital outlay, Wildlife Conservation Board. I reduce this item from \$39,938,000 to \$3,850,000 by reducing:

(1) 80.10.060-Acquisition and restoration for habitat or open space from \$39,938,000 to \$3,850,000,

by deleting Provision 1,

and by revising Provision 5.

I am deleting the following legislative augmentations specified in Provision 5:

\$500,000 for the Stough Canyon Nature Center; \$155,000 for the Newhall Bike Trail; \$450,000 for the Mid-Peninsula Trail; \$5,000,000 for the Rim of the Valley; \$1,000,000 for the Bombay Project in the Santa Cruz Greenbelt; and \$28,938,000 in unspecified project funding.

I am deleting \$7,105,000 in specified projects because of the need to fund higher competing priorities including a prudent reserve.

I am deleting \$28,983,000 for unspecified projects because of the Legislature's failure to enact a balanced water resources plan, including meeting California's future water needs, which is a higher priority. The Legislature should consider investing the State's General Fund in this or similar ecosystem restoration projects only after a comprehensive, balanced plan has been adopted.

I am revising Provision 5 to conform to this action.

"5. Of the funds appropriated by this item ~~\$10,955,000~~ \$3,850,000 is available to the Wildlife Conservation Board to fund the following:

- (a) \$250,000 for the North Bay Riparian Station
- (b) \$2,000,000 for the Mattole Redwoods acquisition
- (c) \$200,000 for the Cache Creek Nature Center
- ~~(d) \$500,000 for the Stough Canyon Nature Center~~
- (e) \$100,000 for the Sky Ranch acquisition
- ~~(f) \$155,000 for the Newhall Bike Trail~~
- (g) \$200,000 for the Clayton Ranch acquisition
- ~~(h) \$450,000 for the Mid-Peninsula Trail~~
- ~~(i) \$5,000,000 for the Rim of the Valley~~
- ~~(j) \$1,000,000 for the Bombay Project in the Santa Cruz Greenbelt~~
- (k) \$100,000 for habitat restoration on the Palos Verdes Peninsula
- (l) \$1,000,000 for the Inland Wetlands Conservation Program"

I am deleting Provision 1 to eliminate language limiting expenditures for Natural Community Conservation Plans (NCCP) to the approved plans in Orange and San Diego Counties. This language is unnecessarily restrictive and hinders the ability of the Executive Branch to achieve the goals of the NCCP program effectively under existing law. The NCCP enabling legislation and existing program authorities provide the necessary authority to implement the NCCP while providing an appropriate level of local control for this locally driven program.

Item 3640-301-0262—For capital outlay, Wildlife Conservation Board. I revise this item by revising Provision 4.

I am revising Provision 4 to eliminate language limiting expenditures for Natural Community Conservation Plans (NCCP) to the approved plans in Orange and San Diego Counties. This language is unnecessarily restrictive and hinders the ability of the Executive Branch to achieve the goals of the NCCP program effectively under existing law. The NCCP enabling legislation and existing program authorities provide the necessary authority to implement the NCCP while providing an appropriate level of local control for this locally driven program.

I am revising Provision 4 to conform to this action.

"4. Of the amount appropriated by this item, \$17,511,000 shall be available to the Wildlife Conservation Board to fund:

- (a) \$6,400,000 for land acquisition for the Natural Community Conservation Planning (NCCP) Program as defined in Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game Code, consistent with the requirements of the Natural Resources Infrastructure Fund and the Habitat Conservation Fund. ~~Expenditure of these funds shall be limited to projects that are part of approved NCCP plans in San Diego and Orange Counties.~~

- (b) \$1,000,000 for the Inland Wetlands Conservation Program pursuant to Section 1411 of the Fish and Game Code, and consistent with the requirements of the Unallocated Account (Cigarette and Tobacco Products Surtax Fund) and the Habitat Conservation Fund.
- (c) \$10,111,000 for wildlife habitat acquisition projects, consistent with the requirements of the Unallocated Account (Cigarette and Tobacco Products Surtax Fund), the Natural Resources Infrastructure Fund and the Habitat Conservation Fund.”

Item 3680-101-0516—For local assistance, Department of Boating and Waterways. I reduce this item from \$41,638,000 to \$39,138,000 by reducing:

(bx) 30-Beach Erosion Control from \$6,500,000 to \$4,000,000, and by deleting Provisions 4 and 5.

I am deleting the legislative augmentation of \$2,500,000 to fund beach erosion control projects. I am concerned that this appropriation could result in significant future costs to the State.

I am deleting Provision 5 to conform to this action.

I am deleting Provision 4 which would broaden the use of funds appropriated in Chapter 886, Statutes of 1997, for a grant to Redwood City for the disposal of abandoned vessels to now include enforcement measures for the prevention of future abandoned vessels. While this request may have merit, Redwood City, with the concurrence of the County of San Mateo, can compete for boating enforcement grant funds offered by the Department.

Item 3720-001-0001—For support of California Coastal Commission. I reduce this item from \$8,368,000 to \$7,387,000 by reducing:

- (a) 10-Coastal Management Program from \$10,558,000 to \$9,935,000.
- (c) 30.01-Administration from \$2,067,000 to \$1,709,000.

I am deleting the \$981,000 legislative augmentation for additional positions and to reestablish the North Coast Office because of the need to fund higher competing priorities including a prudent reserve.

Item 3760-001-0001—For support of the State Coastal Conservancy. I revise this item by deleting Provision 1.

I am deleting Provision 1 which limits expenditures for the Southern California Wetlands Clearinghouse to activities associated with acquisition, enhancement, or restoration of wetlands. Mitigation banks are an essential tool for funding wetland restoration activities. To the extent this language is intended to preclude the use of mitigation banks, this language is unnecessarily restrictive and could hinder the ability of the Executive Branch to achieve the goals of this program pursuant to existing law.

Item 3760-301-0001—For capital outlay, State Coastal Conservancy. I reduce this item from \$33,090,000 to \$25,871,000 by reducing:

(0.1) 80.93.015-Coastal Resource Development from \$20,000,000 to \$12,781,000, and by deleting Provision 3, and by revising Provision 4.

I am deleting the following legislative augmentations specified in Provision 4: \$5,000,000 for Bay Area Conservancy; \$219,000 for Imperial Beach; and \$2,000,000 for Montezuma Wetlands.

I am deleting \$2,219,000 for the Imperial Beach and Montezuma Wetlands projects, and \$5,000,000 for the Bay Area Conservancy because of the need to fund higher competing priorities including a prudent reserve.

I am sustaining \$500,000 for the South Spit restoration and enhancement project to assist local efforts. However, I note that this land use problem is essentially local in nature and additional State commitments are not warranted.

I am revising Provision 4 to conform to this action:

“4. The funds available in Schedule (0.1) are available for activities consistent with Division 21 (commencing with Section 31000) of the Public Resources Code for the following projects: Coast Dairies, \$5,000,000; ~~Bay Area Conservancy, \$5,000,000; Imperial Beach, \$219,000; Montezuma Wetlands \$2,000,000;~~ Bolinas Lagoon, \$500,000; Paradise Creek Education Park, \$700,000; Moss Landing, \$450,000; Estero Bay, \$2,500,000; Caspar State Beach, \$1,800,000; South Spit restoration and enhancement, \$500,000; and \$1,331,000 for unspecified projects.”

I am deleting Provision 3 which limits expenditures for the Southern California Wetlands Clearinghouse to acquisition, enhancement, or restoration of wetlands. Mitigation banks are an essential tool for funding wetland restoration activities. To the extent this language is intended to preclude their future use, this language is unnecessarily restrictive and could hinder the ability of the Executive Branch in the future to achieve the goals of this program pursuant to existing law.

Item 3790-001-0001—For support of Department of Parks and Recreation. I reduce this item from \$98,088,000 to \$97,995,000 and delete Provision 1.

I am deleting the \$93,000 legislative augmentation for the California Recreational Trails System because of the need to fund higher competing priorities including a prudent reserve.

I am deleting Provision 1 to conform to this action.

Item 3790-001-0392—For support of the Department of Parks and Recreation. I revise this item by reducing:

- (a) For the support of the Department of Parks and Recreation from \$225,519,000 to \$225,426,000,
- (c) Amount payable from the General Fund (Item 3790-001-0001) from $-\$98,088,000$ to $-\$97,995,000$,

and by deleting Provision 3.

I am revising this item to conform to the action I have taken in Item 3790-001-0001.

I am deleting Provision 3 which requires the Department to notify the Legislature at least 30 days prior to approving any changes in concessionaire operations such as changes in services and prices. This language is unnecessarily restrictive and would interfere with the ability of the Executive Branch to manage its programs which would result in increased costs to the State. The notification and 30-day wait would delay and greatly discourage program improvements and modifications for safety or visitor comfort.

Item 3790-101-0001—For local assistance, Department of Parks and Recreation. I delete this item.

I am deleting the \$7,500,000 legislative augmentation for local assistance grants through the Roberti-Z'berg-Harris Urban Open-Space and Recreation program because of the need to fund higher competing priorities including a prudent reserve.

Item 3790-102-0001—For local assistance, Department of Parks and Recreation. I reduce this item from \$44,727,000 to \$30,737,000 by reducing:

- (a) 80.25 Local Grants from \$44,727,000 to \$30,737,000
- by deleting \$8,400,000 for the following projects:
- (3) City of Anaheim: Support for the Boys and Girls Club (\$45,000)
 - (5) City of Bell Gardens: Bell Gardens Pool (\$200,000)
 - (7) City of Bellflower: Bellflower Recreational Park (\$100,000)
 - (8) City of Bellflower: Bellflower Skateboard Park (\$250,000)
 - (10) City of Cloverdale: Senior Center (\$350,000)
 - (11) City of Coachella: Restroom Facilities for 3 Parks (\$50,000)

- (13) City of Cypress: Completion of Roller Hockey Rink and Skateboard Park (\$120,000)
 - (20) City of Glendale: College View School Park (\$250,000)
 - (21) City of Half Moon Bay: Pilarcitos Creek Bike Trail (\$300,000)
 - (22) City of Healdsburg: Carson Warner Memorial Park (\$92,000)
 - (23) City of Hemet: Development of New Youth Baseball Fields (\$55,000)
 - (28.2) City of Lancaster: National Soccer Complex Restrooms (\$200,000)
 - (33) City of Lompoc: Alan Hancock Bikeway Extension (\$402,000)
 - (34) City of Los Angeles: Griffith Park Replumbing (\$1,500,000)
 - (38) City of Ojai: Parks Improvement (\$250,000)
 - (38.1) City of Ontario: De Anza Park Restroom and Storage Facilities (\$150,000)
 - (39) City of Ontario: Relighting of Ontario Ballfield (\$98,000)
 - (46) City of Richmond: Richmond Trail (\$40,000)
 - (53) City of San Diego: Alcott School Tot Lot (\$115,000)
 - (55) City of San Diego: Lake Murray Community Park Comfort Station (\$115,000)
 - (56) City of San Diego: Ocean Beach Tot Lot (\$80,000)
 - (57) City of San Diego: Sandburg Park Tot Lot Upgrade (\$135,000)
 - (59) County of San Diego: New Spring Valley Family Health Center (\$51,000)
 - (60) City of San Fernando: Las Palmas Youth/Senior Activity Center Demolition Tot Lot (\$800,000)
 - (63) City and County of San Francisco: Collingwood Park Acquisition (\$500,000)
 - (65) City and County of San Francisco: Glen Canyon Park (\$50,000)
 - (66) City and County of San Francisco: Golden Gate Park—Lakes Restoration (\$200,000)
 - (68) City and County of San Francisco: McClaren Park (\$100,000)
 - (69) City and County of San Francisco: Pine Lake Park (\$200,000)
 - (77) City of South San Francisco: Community Theater Renovation (\$300,000)
 - (78) City of South San Francisco: Multi-Use Park Planning (\$400,000)
 - (79) Templeton Community Services District: Gibson Park Youth (\$150,000)
 - (80) City of Turlock: Ella Johnson Community Center (\$322,000)
 - (82) City of West Hollywood: West Hollywood Park Pool (\$150,000)
 - (85) City of Willits: Willits Soccer Field (\$280,000)
- I am reducing \$4,390,000 for the following projects:
- (4) City of Artesia: Artesia Park from (\$350,000) to (\$200,000);
 - (16) East Bay Regional Park District: Arroyo del Valle Outdoor Education Center from (\$4,500,000) to (\$2,000,000);
 - (18) City of El Monte: El Monte Community Center from (\$500,000) to (\$100,000);
 - (54) City of San Diego: La Jolla Cove Erosion Project from (\$540,000) to (\$300,000);
 - (71) City of San Jose: Mexican Cultural Heritage Garden and Plaza from (\$500,000) to (\$100,000);
 - (72) City of San Jose: Vietnamese Cultural Garden from (\$500,000) to (\$100,000); and
 - (73.1) City of Sanger: Sanger Swimming Pool from (\$500,000) to (\$200,000).

I am deleting or reducing these projects because of the need to fund higher competing priorities including a prudent reserve.

I am also deleting \$200,000 for the Butte County: Courthouse Remodel (Schedule (8.1)). It is inappropriate to fund a county courthouse remodeling project with State funds.

I am also deleting \$1,000,000 for the City of San Jose: Guadalupe River Parkway-South Trail Project (Schedule (70)) in San Jose because of the Legislature's failure to enact a balanced water resources plan, including meeting California's future water needs, which is a higher priority. The Legislature should consider investing the State's

General Fund in this or similar ecosystem restoration projects only after a comprehensive, balanced plan has been adopted.

I am sustaining \$300,000 for the City of Pacifica: Milagra Creek Erosion Control Project (Schedule (41)) in Pacifica as I am supportive of this flood control effort. However, funding for this project appropriately belongs in the Department of Water Resources budget. Therefore, I direct the Department of Parks and Recreation and the Department of Water Resources to undertake an interagency agreement or other administrative steps necessary to utilize these funds for the intended purpose.

Item 3790-102-0140—For local assistance, Department of Parks and Recreation. I delete this item.

I am deleting the \$1,165,000 legislative augmentation for facility construction at the Bayview Terrace Elementary School-Joint Use Park Facility in San Diego and the \$50,000 legislative augmentation for the Palace of Fine Arts lagoon enhancement in San Francisco. These deletions are necessary to ensure that a prudent reserve is maintained in the California Environmental License Plate Fund.

Item 3790-302-0001—For capital outlay, Department of Parks and Recreation. I reduce this item from \$5,737,000 to \$4,560,000 by deleting:

- (1) 90.B2.205-Auburn State Recreation Area: Quarry Road Stabilization—Minor Project (\$47,000),
- (3) 90.FB.100-Pio Pico State Park: Restoration-Preliminary plans, working drawings, and construction (\$750,000),
- (7) 90.6U.205-Annadel State Park: ADA Compliant Restrooms-Minor Project (\$40,000), and
- (8) 90.99.205-San Luis Reservoir State Recreation Area: Los Banos Creek Bridge-Minor Project (\$340,000).

I am deleting \$427,000 in legislative augmentations for projects (1), (7) and (8) listed above because of the need to fund higher competing priorities including a prudent reserve.

I am deleting \$750,000 for the Pio Pico State Park Restoration (3) as there is a lack of funding in the Budget to restore other gubernatorial mansions.

I am sustaining funding for the Chino Hills State Park acquisition (Schedule (2)). However, the habitat benefits of this acquisition will not be realized without acquisition of another essential parcel. The State should sell the parcel acquired pursuant to the augmentation if the remainder of the wildlife corridor to the Cleveland National Forest cannot be protected.

Item 3810-001-0001—For support of the Santa Monica Mountains Conservancy. I delete this item and Provision 1.

I am deleting the \$50,000 legislative augmentation to provide reimbursements to local conservation corps to assist with Conservancy programs. The Conservancy has adequate resources to under take this program if it so chooses.

I am deleting Provision 1 to conform to this action.

Item 3810-011-0941—For support of Santa Monica Mountains Conservancy. I revise this item by reducing:

(a) 10-Santa Monica Mountains Conservancy from \$644,000 to \$594,000 and by deleting:

- (bx) Amount payable from the General Fund (Item 3810-001-0001) (-\$50,000).

I am revising this item to conform to the action I have taken in Item 3810-001-0001.

Item 3810-301-0001—For capital outlay, Santa Monica Mountains Conservancy. I delete this item and Provisions 1 and 2.

I am deleting this item because of the Legislature's failure to enact a balanced water resources plan, including meeting California's future water needs which is a higher

priority. The Legislature should consider investing the State's General Fund in this or similar ecosystem restoration projects only after a comprehensive, balanced plan has been adopted.

I am deleting Provisions 1 and 2 to conform to this action.

Item 3820-001-0001—For support of San Francisco Bay Area Conservation and Development Commission. I revise this item by deleting Provisions 1 and 2.

I am deleting Provisions 1 and 2 which would deny funding to establish or operate a wetland mitigation bank. Mitigation banks are an essential tool for funding wetland restoration activities. To the extent this language is intended to preclude the use of mitigation banks, this language is unnecessarily restrictive and infringes on the Executive Branch's ability to effectively achieve the goals of this program.

Item 3830-001-0001—For support of the San Joaquin River Conservancy. I delete this item and Provision 1.

I am deleting the \$50,000 legislative augmentation to provide reimbursements to local conservation corps to assist with Conservancy programs. The Conservancy has adequate resources to undertake this program if it so chooses.

I am deleting Provision 1 to conform to this action.

Item 3830-001-0140—For support of the San Joaquin River Conservancy. I revise this item by reducing:

(a) 10-San Joaquin River Conservancy from \$245,000 to \$195,000, and by deleting:

(c) Amount payable from the General Fund (Item 3830-001-0001) (-\$50,000).

I am revising this item to conform to the action I have taken in Item 3830-001-0001.

Item 3860-001-0001—For support of Department of Water Resources. I revise this item by deleting Provision 2.

I am deleting Provision 2 because it is unnecessarily restrictive and would interfere with the ability of the Executive Branch to manage its programs. The language would require specific legislative approval prior to any funds being expended on the development and implementation of an isolated transmission facility. This language would limit the authority of CALFED Bay-Delta to consider operational alternatives which may prove to be beneficial and less costly to the State.

Item 3860-102-0001—For local assistance, Department of Water Resources. I reduce this item from \$17,786,000 to \$1,215,000 by reducing:

(d) Salton Sea from \$1,500,000 to \$1,000,000, and by deleting:

(b) Dredging Projects (\$15,700,000),

(c) Middle Creek Marsh Restoration Project Feasibility Study (\$371,000), and by deleting Provision 1.

I am deleting the \$16,071,000 in legislative augmentations for the two local assistance projects listed above because of the need to fund higher competing priorities including a prudent reserve. Furthermore, in the case of the dredging projects for various ports and harbors, I note that ports and harbors receive operating revenue from port activity. These funds must be used for public trust purposes, which include the operation and development of the harbors and ports. Consequently, it is inappropriate to provide a subsidy for these enterprises.

I am deleting Provision 1 to conform to this action.

I am reducing the legislative augmentation of \$1,500,000 to \$1,000,000 to provide sufficient funds to match a like amount of federal funds from the U.S. Fish and Wildlife Service to improve management response to bird die-offs at the Salton Sea and to fund a joint research management committee.

Item 3860-301-0001—For capital outlay, Department of Water Resources. I reduce this item from \$27,460,000 to \$26,460,000 by deleting:

- (9.3) 30.95.285-Colusa Basin Drainage District, Flood Control Project (\$1,000,000).

I am deleting the \$1,000,000 legislative augmentation for the Colusa Basin Drainage District Flood Control Project. I am deleting this project because of the need to fund higher competing priorities including a prudent reserve.

Item 3900-001-0001—For support of State Air Resources Board. I delete Provision 1.

I am deleting Provision 1 because it would tie the expenditure of \$25,000,000 in this item to Assembly Bill 1368 and Senate Bill 1857 of the 1998 legislative session. I support provisions in these bills that would create a grant program to replace high-polluting diesel engines with low-emission alternatives; however, I do not support provisions that would allocate funds based on fixed percentages and create unnecessary new accounts. A rigid allocation system and a proliferation of new accounts would be counterproductive. Flexibility should exist to allocate funds on a cost-effective basis. The Air Resources Board advises the most cost-effective means currently available to reduce pollution from heavy-duty diesel engines is to encourage the purchase of newer technology. Therefore, it is my intent that the Air Resources Board, under existing statutory authority, use this \$25,000,000 to provide grants for the purchase of low-emission technology to reduce air pollution from diesel engines.

Item 3940-001-0001—For support of State Water Resources Control Board. I reduce this item from \$46,014,000 to \$40,264,000 by reducing:

- (a) 10-Water Quality from \$287,421,000 to \$281,671,000, and by deleting Provision 3.

I am deleting the \$5,750,000 legislative augmentation for various nonpoint source pollution prevention programs in coastal areas, and for research on recycled water quality, because of the Legislature's failure to enact a balanced water resources plan, including meeting California's future water needs, which is a higher priority. The Legislature should consider investing the State's General Fund in this or similar ecosystem restoration projects only after a comprehensive, balanced plan has been adopted.

I am deleting Provision 3 to conform to this action.

Item 3940-101-0001—For local assistance, State Water Resources Control Board. I reduce this item from \$4,525,000 to \$2,525,000 by deleting:

- (b) Lake County Sanitation District, Phase II of the Regional Wastewater Recycling Program: Clearlake Basin 2000 Project (\$2,000,000).

I am deleting the \$2,000,000 legislative augmentation for a grant to the Lake County Sanitation District for Phase II of the Regional Wastewater Recycling Program: Clearlake Basin 2000 Project. While I am supportive of water recycling programs, I am eliminating funding for this project because of the need to fund higher competing priorities including a prudent reserve.

Item 3960-001-0014—For support of Department of Toxic Substances Control. I delete Provision 1.

I am deleting Provision 1 which would declare legislative intent to deny funding for the initiative known as the Regulatory Structure Update and prohibit the use of any other appropriation in the Budget Act to fund the initiative. The Department informs me that the project is complete. Moreover, it would be an infringement on the Executive Branch's authority to effectively administer the program.

Item 4120-101-0001—For local assistance, Emergency Medical Services Authority. I reduce this item from \$4,697,000 to \$4,197,000.

I am reducing \$500,000 of the \$1,250,000 legislative augmentation for the California Poison Control System and sustaining \$750,000 to be matched with federal funds. This level of funding is sufficient for state support of the Poison Control System. Furthermore, I support continued efforts to seek support from stakeholders and those whose paying members use the system, such as health plans, insurance companies, hospitals and physicians' groups.

Item 4170-001-0001—For support of Department of Aging. I reduce this item from \$3,886,000 to \$3,709,000 by reducing:

- (d) 40-Special Projects from \$4,474,000 to \$4,112,000; and
- (g) Reimbursements from -\$1,984,000 to -\$1,799,000;

and by deleting Provision 1.

I am reducing the legislative augmentation of \$408,000 and 7.1 personnel years to increase staff to expand various community-based programs for the elderly by \$177,000 General Fund and \$185,000 in reimbursements and 3.6 personnel years. I already proposed a funding increase to expand elderly services in 1998-99 to unserved areas of the state, including \$584,000 (\$400,000 General Fund) and 6.5 positions for the Department of Aging. That staff is sufficient for the first year of this two-year effort. However, I am sustaining the legislative augmentation of \$231,000 and 3.5 personnel years for the Adult Day Health Care and Alzheimer's Day Care Resource Center programs. These positions will provide technical assistance in conjunction with the increased funding levels for these programs.

I am deleting Provision 1 to conform to this action.

Item 4170-101-0001—For local assistance, Department of Aging. I reduce this item from \$50,602,000 to \$40,459,000 by reducing:

- (d) 40-Special Projects from \$59,280,000 to \$44,183,000
- (e) Reimbursements from -\$20,380,000 to -\$15,426,000

and by deleting Provision 3.

I am reducing the \$17,314,000 (\$12,360,000 General Fund) legislative augmentation to expand various community-based programs for the elderly by \$10,143,000 General Fund and \$4,954,000 in reimbursements. I am supportive of efforts in this area and proposed a \$12,154,000 augmentation to expand senior programs by establishing 134 additional program sites in unserved areas of the state. This represents a 40-percent increase and recognizes the importance of these programs. I am sustaining the \$2,217,000 General Fund augmentation for the Adult Day Health Care and Alzheimer's Day Care Resource Center programs. This funding will provide additional resources to assist in the prevention of premature institutionalization and allow departmental staff to provide additional technical assistance to caregivers.

I am deleting Provision 3 to conform to this action.

Item 4180-001-0001—For support of Commission on Aging. I delete this item.

I am deleting the \$300,000 legislative augmentation for the activities of the Commission. The Budget provides sufficient funding for the Commission to perform its statutory responsibilities.

Item 4200-101-0001—For local assistance, Department of Alcohol and Drug Programs. I reduce this item from \$82,897,000 to \$67,296,000 by reducing:

- (a) 15-Alcohol and Other Drug Services Program from \$342,170,000 to \$326,569,000,

and by deleting Provisions 9, 10, and 12.

I am reducing \$1,000 of the \$5,000,000 legislative augmentation to expand treatment programs for youth, and I am deleting Provision 10 because the language is overly prescriptive.

I am deleting the \$8,000,000 legislative augmentation to expand the number of drug courts and related treatment services and I am deleting Provision 9. While I am

supportive of this drug intervention program, I would prefer to direct any increases to a program that uses the deferred entry of judgment process.

I am deleting the \$7,600,000 legislative augmentation to backfill providers' loss of income resulting from federal welfare reform changes to the provision of Food Stamps and General Assistance which were previously used to offset program costs. Drug treatment clients, no longer eligible for Food Stamps and General Assistance under federal welfare reform, could provide their share-of-cost through increased hours of work.

I am deleting Provision 12, which requires the Department of Alcohol and Drug Programs to convene a workgroup to examine and develop a system for coordinating the delivery of services to parolees. This language is an infringement of the Executive Branch's ability to manage its programs in the most appropriate manner permitted by law.

Item 4260-001-0001—For support of Department of Health Services. I reduce this item from \$182,437,000 to \$178,443,000 by reducing:

- (1) 10-Public and Environmental Health from \$265,689,000 to \$251,845,000;
- (2) 20-Health Care Services from \$398,174,000 to \$397,874,000;
- (24) Amount payable from the Health Education Account, Cigarette and Tobacco Products Surtax Fund (Item 4260-001-0231) from -\$37,415,000 to -\$27,415,000;
- (38) Amount payable from the Federal Trust Fund (Item 4260-001-0890) from -\$261,236,000 to -\$261,086,000;

and by deleting Provision 7.

I am deleting the \$794,000 legislative augmentation from the General Fund to support the Breast Cancer Early Detection Program. The Budget included increased funding from the Cigarette and Tobacco Products Surtax Fund for the program to fully address anticipated demand and provide enhancements to improve health outcomes, without any General Fund expense. This screening program should continue to be supported with special fund resources. In order to make special fund resources available for the priority screening services, I am also reducing a related augmentation in Item 4260-111-0236 from the Cigarette and Tobacco Products Surtax Fund for clinics. I would sign legislation which appropriates those Cigarette and Tobacco Products Surtax Funds for priority breast cancer screening services.

I am deleting the \$400,000 legislative augmentation from the General Fund for the Office of Border Health. The augmentation appears to be for purposes which duplicate other efforts of the state or federal government.

I am deleting the \$2,500,000 legislative augmentation from the General Fund for the Cancer Registry. The work done by the Cancer Registry is important, and the program already is complying with current law and providing quality services.

I am deleting the \$150,000 legislative augmentation from the General Fund for the Santa Susana Field Laboratory Oversight Panel. There has been no demonstration that this project is of sufficiently high priority to justify the use of State resources.

I am deleting the \$150,000 legislative augmentation from the General Fund for a study of Medi-Cal physician rates and deleting Provision 7, which would require such a study. It is not necessary for Budget Act language to require such a rate study. The role of the Department of Health Services under existing law includes responsibility for review and recommendation of adjustment of Medi-Cal physician rates. I am also reducing the Federal Trust Fund by \$150,000 in Item 4260-001-0890 to conform with this action.

I am deleting the \$10,000,000 legislative augmentation from Cigarette and Tobacco Products Surtax Fund litigation reserves for the State's anti-tobacco Media Campaign. These reserves were set aside for the Americans for Non-Smokers Rights II v. State of California case. Additional state exposure exists in the related and outstanding Just Say

No To Tobacco Dough Campaign et al. v. State of California case. Accordingly, these funds should be held in reserve until a settlement has been reached in both cases.

Item 4260-001-0231—For support of Department of Health Services. I reduce this item from \$37,415,000 to \$27,415,000 and delete Provision 1.

I am reducing this item by \$10,000,000 to conform to actions taken in Item 4260-001-0001.

I am also deleting Provision 1, which would establish advertisement approval time-lines and require disclosure of specified information to the Tobacco Education and Research Oversight Committee. This language is also unduly restrictive and an infringement on the Executive Branch's authority to administer the program pursuant to existing law.

Item 4260-001-0890—For support of Department of Health Services. I reduce this item from \$261,236,000 to \$261,086,000.

I am reducing this item by \$150,000 to conform with actions taken in item 4260-001-0001.

Item 4260-101-0001—For local assistance, Department of Health Services. I reduce this item from \$6,876,805,000 to \$6,827,941,000 by reducing:

- (a) 20.10.030-Benefits (Medical Care and Services) from \$15,954,495,000 to \$15,824,020,000,
- (b) 20.10.010-Eligibility (County Administration) from \$878,700,000 to \$878,300,000, and
- (e) Amount payable from the Federal Trust Fund (Item 4260-101-0890) from -\$10,125,351,000 to -\$10,043,340,000,

and deleting Provisions 14, 15 and 23.

I am deleting \$9,259,000 in specific legislative augmentations for Medi-Cal rate increases. These include \$1,209,000 for non-emergency transportation, \$1,800,000 for optometry services and reducing \$6,250,000 for hospital outpatient care. Rate increases in Medi-Cal should be considered where necessary to improve access or quality of care. There is little evidence of access to care or quality of care problems for services which are the subject of these proposed rate increases. In addition, I am deleting \$9,259,000 from the Federal Trust Fund 4260-101-0890 to conform to this action.

I am deleting the \$400,000 legislative augmentation for a pilot project to assist traditional providers, contracting with Los Angeles Care Health Plan, to secure low interest loans to purchase computer equipment and to support associated staff. The stated need for these loans is to make traditional health care providers competitive in the managed care environment. This augmentation is unnecessary as guaranteed loans are specifically available to traditional providers through the Small Business Expansion Fund administered by the Trade and Commerce Agency.

I am deleting the legislative augmentation of \$36,800,000 for pregnancy-related services to undocumented immigrants which would have provided funding for pending legislation to extend the state-only program of pregnancy-related services to persons not lawfully present in the United States beginning January 1, 1999, on a permanent basis. The State's ability to fund or terminate these services is currently the subject of litigation; therefore, I have included \$36,800,000 in the General Fund Reserve to cover the costs of these benefits until the current litigation reaches its conclusion.

I am deleting the \$2,405,000 legislative augmentation to conform to actions taken in Item 4300-101-0001 related to In-Home Respite and Day Programs in the Department of Developmental Services. In addition, I am deleting \$2,551,000 from the Federal Trust Fund 4260-101-0890 to conform to this action.

I am deleting the legislative augmentation of \$22,600,000 from the Federal Trust Fund 4260-101-0890 to conform to the action taken in Item 5180-101-0001 related to

funding for mental health services for CalWORKs recipients in the Department of Mental Health.

I am deleting the legislative augmentation of \$25,154,000 from the Federal Trust Fund 4260-101-0890 to conform to the action taken in Item 5180-151-0001 related to the expansion of the Adult Protective Services system in the Department of Social Services.

I am reducing the legislative augmentation of \$37,412,000 from the Federal Trust Fund 4260-101-0890 by \$22,447,000 to conform to the action taken in Item 5180-111-0001 regarding funding for Public Authorities in the Department of Social Services.

Provision 14 requires the Department of Health Services to convene a work group composed of specified individuals and representatives having a vested interest in long-term care to discuss and develop alternatives to the current cost-based rate-setting process. Provision 15 requires the Department of Health Services to provide an update on the status of the work group required in Provision 14 to the Legislature by January 15, 1999. I am deleting Provisions 14 and 15 because a work group comprised of interested representatives, including providers and advocates, has already convened to explore these related issues.

I am deleting Provision 23 to conform to my action taken in Item 4300-101-0001 regarding a new rate structure for In-Home Respite and Day Programs in the Department of Developmental Services.

Item 4260-101-0890—For local assistance, Department of Health Services. I reduce this item from \$10,125,351,000 to \$10,043,340,000, and delete Provision 2.

I am reducing this item by \$82,011,000 to conform to actions taken in Item 4260-101-0001.

I am deleting Provision 2 to conform to my action taken in Item 4300-101-0001 regarding a new rate structure for In-Home Respite and Day Programs in the Department of Developmental Services.

Item 4260-111-0001—For local assistance, Department of Health Services. I reduce this item from \$386,527,000 to \$340,012,000 by reducing:

- (c) 10.30.040-Chronic Diseases from \$195,426,000 to \$166,480,000;
- (e) 10.30.060-AIDS from \$205,548,000 to \$200,548,000;
- (f) 20.30-County Health Services from \$210,432,000 to \$202,732,000;
- (g) 20.40-Primary Care and Family Health from \$1,369,471,000 to \$1,336,528,000;
- (o) Amount Payable from the Health Education Account, Cigarette and Tobacco Products Surtax Fund (Item 4260-111-0231), from -\$64,304,000 to -\$41,773,000;
- (r) Amount Payable from the Unallocated Account, Cigarette and Tobacco Products Surtax Fund (Item 4260-111-0236), from -\$102,687,000 to -\$98,478,000;
- (t) Amount Payable from the Federal Trust Fund (Item 4260-111-0890) from -\$1,052,985,000 to -\$1,051,651,000;

and by deleting Provisions 5 and 7.

I am deleting the \$3,415,000 legislative augmentation from the General Fund to support the Breast Cancer Early Detection Program to conform with the action taken in Item 4260-001-0001. I will sign legislation appropriating specified Cigarette and Tobacco Products Surtax Funds for priority breast cancer screening services as I had originally proposed.

I am deleting the \$22,531,000 legislative augmentation for Competitive Grants from Cigarette and Tobacco Products Surtax Fund litigation reserves to conform with the actions taken in Items 4260-001-0001 and 4260-001-0231.

I am deleting the \$2,000,000 legislative augmentation from the General Fund intended to reinstate \$1,500,000 for three particular Alzheimer's disease research, diagnosis, and treatment centers which were unsuccessful in the competitive bid process

and fund \$500,000 for special projects. The Budget allocated funding through a competitive bid process to the most effective programs and did so in accordance with the advisory committee's policy directive to place a greater emphasis on research rather than treatment. These three centers can bid for available funding in the future. I am deleting Provision 5 to conform to this action.

I am deleting the \$400,000 legislative augmentation from the General Fund for the Women, Infants, and Children (WIC) Farmer's Market. The Budget includes approximately \$1.1 billion for the Supplemental Food Program for WIC, expanding nutritional programs by over \$100,000,000. Further, Chapter 294, Statutes of 1997, shifted authority for the Farmer's Market program to the Department of Health Services to enable continuation of the service without General Fund expense. For these reasons and the other major General Fund resources expended on new food assistance programs in this Budget, I am vetoing these funds. I am also reducing the Federal Trust Fund by \$933,000 in Item 4260-111-0890 to conform with this action.

I am deleting the \$4,200,000 legislative augmentation from the General Fund for the AIDS Drug Assistance Program. The program budget already reflects increased funding of \$11,400,000 General Fund, which provides resources to fully support anticipated caseload demand, more expensive therapeutic regimens and new drug costs. I continue to support full funding for the program; however, there is not an indicated need for this augmentation.

I am deleting the \$7,700,000 legislative augmentation from the General Fund for local communicable disease control and public health personnel including immunization, training, communicable disease control and public health surveillance staff. The Budget includes substantial increases in local funding for indigent health care through the Realignment Program. Additional immunization assistance will be provided through the Healthy Families Program and can also be provided in indigent health care programs. The Emerging Infectious Disease Initiative included in the Budget provides for expanded investigation and surveillance of infectious diseases and food safety programs.

I am deleting the \$23,000,000 legislative augmentation from the General Fund for the following clinical services programs: \$2,500,000 for rural health clinics, \$2,500,000 for Seasonal Agricultural and Migrant Worker clinics, and \$18,000,000 for Expanded Access to Primary Care clinics. The Budget includes substantial increases in state funding for the implementation of the Healthy Families Program which will ultimately extend health insurance coverage to an estimated 500,000 children. Thus, if these providers are a partner with a Healthy Families contractor, they are now able to bill for care to children who were formerly uninsured.

I am reducing the \$5,000,000 legislative augmentation from the Cigarette and Tobacco Products Surtax Fund for Expanded Access to Primary Care clinics by \$4,209,000. While this program has merit, I have proposed using these funds for breast cancer early detection services which are a higher priority for limited Cigarette and Tobacco Products Surtax Fund resources. I would sign legislation appropriating these funds for this priority.

I am deleting the \$401,000 legislative augmentation from the Federal Trust Fund for the Black Infant Health (\$151,000) and Comprehensive Perinatal Outreach (\$250,000) programs. Although these programs have merit, the augmentation is based on the assumption that availability of Maternal and Child Health block grant funds will be greater than anticipated. Until it is known if additional funds are available, it would be premature to allocate funds.

I am deleting the \$4,000,000 legislative augmentation from the General Fund for Adolescent Family Life Program (AFLP) provider rates. This augmentation represents a 34-percent rate increase, intended to bring AFLP rates into conformity with the CalLearn Program. However, the current rate differential exists because administrative

requirements are fewer for AFLP. Further, increasing AFLP rates would be premature until the Department of Health Services has performed a planned rate study and identified problems with access to services or quality of care.

I am deleting the \$800,000 legislative augmentation from the General Fund for anonymous HIV testing in family planning clinics. The Family Planning, Access, Care and Treatment Program and approximately 500 publicly funded testing sites through the Office of AIDS are fully funded to provide confidential HIV testing for any Californian seeking such services. In addition, funding should be provided through a normal competitive process rather than being targeted to specific providers.

I am deleting the \$1,000,000 legislative augmentation from the General Fund for breast cancer treatment services. The augmentation would provide treatment services for women regardless of income. This program would represent the first use of General Fund monies to provide breast cancer treatment services to women above entitlement-income thresholds for Medi-Cal. Therefore, the \$1,000,000 proposal likely would be insufficient to address the anticipated program costs or to keep pace with treatment demands if the program were so expanded. I am deleting Provision 7 to conform to this action.

Item 4260-111-0231—For local assistance, Department of Health Services. I reduce this item from \$64,304,000 to \$41,773,000.

I am reducing this item by \$22,531,000 to conform to actions taken in item 4260-111-0001.

Item 4260-111-0236—For local assistance, Department of Health Services. I reduce this item from \$102,687,000 to \$98,478,000.

I am reducing this item by \$4,209,000 to conform to actions taken in Item 4260-111-0001.

Item 4260-111-0890—For local assistance, Department of Health Services. I reduce this item from \$1,052,985,000 to \$1,051,651,000.

I am reducing this item by \$1,334,000 to conform to actions taken in Item 4260-111-0001.

Item 4280-101-0001—For local assistance, Managed Risk Medical Insurance Board. I reduce this item from \$38,597,000 to \$35,440,000 and delete Provisions 1, 3, 4 and 5.

I am deleting the legislative augmentations of \$3,057,000 to expand the Healthy Families Program to include children of families with incomes up to 250 percent of the federal poverty level and \$100,000 to expand the program to include children of legal immigrants arriving in the United States after August 22, 1996. It is premature to significantly modify or expand this new program until after completion of the startup of the program as originally enacted.

I am deleting Provision 1, related to outreach updates, to conform to the action taken in Item 4260-101-0001.

I am deleting Provisions 3 and 4 which would require the Managed Risk Medical Insurance Board (MRMIB) to convene quarterly work groups to discuss memorandums of understanding and related matters concerning the provision of mental health services and California Children's Services. These provisions are not necessary as MRMIB already convenes such work groups.

I am deleting Provision 5 which would require the Department of Health Services to solicit comments from interested parties on the crafting of a request for proposal for Rural Demonstration Projects. This provision is not necessary because the Department of Health Services already has released the draft to the interested parties.

Item 4280-101-0890—For local assistance, Managed Risk Medical Insurance Board. I reduce this item from \$75,026,000 to \$68,889,000.

I am reducing this item by \$6,137,000 to conform to actions taken in Item 4280-101-0001.

Item 4300-101-0001—For local assistance, Department of Developmental Services. I reduce this item from \$612,653,000 to \$612,552,000 by reducing:

10.10 Regional Centers

(b) 10.10.020-Purchase of Services from \$1,080,736,000 to \$1,075,678,000,

(e) Reimbursements from -\$723,564,000 to -\$718,608,000,

(h) Amount payable from Federal Trust Fund (Item 4300-101-0890) from -\$42,284,000 to -\$42,283,000,

and by deleting Provision 11.

I am deleting \$5,057,000 (\$101,000 General Fund and \$4,956,000 reimbursements) provided to increase the rates of Supported Living Services (SLS) providers. The actual rate paid for SLS is negotiated between the regional center and the provider. Sustaining an increase in funding for this program would discourage competitive rate negotiations.

I am deleting Provision 11 which would allow the Director of Finance to augment this Item by \$10,300,000 to implement a new rate structure for In-Home Respite and Day Programs as this augmentation will not be necessary in 1998-99. The Budget contains \$27,400,000 to increase rates in these programs using the existing rate system.

These deletions result in reductions of \$101,000 in this item, \$2,405,000 in Item 4260-101-0001 and \$2,551,000 in Item 4260-101-0890.

I am also deleting \$1,000 to conform to actions taken in Item 4300-101-0890.

Item 4300-101-0890—For local assistance, Department of Developmental Services. I reduce this item from \$42,284,000 to \$42,283,000.

I am deleting \$1,000 and Provision 4 of this item. This Provision would require the Bureau of State Audits to conduct an analysis of regional center operations and purchase-of-services expenditures for the Early Start Program. The regional center budget has been the subject of several audits and analyses in the past year, including an analysis by the Bureau of State Audits, with additional analyses to be completed in 1998-99. Consequently, another review by the Bureau of State Audits would be unnecessary and duplicative.

Item 4440-101-0001—For local assistance, Department of Mental Health. I reduce this item from \$60,206,000 to \$38,356,000 by reducing:

(a) 10.25-Community Services-Other Treatment from \$495,742,000 to \$467,742,000,

(b) 10.40-Community Services-Adult System of Care from \$8,222,000 to \$7,772,000,

(c) 10.47-Community Services-Children's Mental Health Services from \$40,354,000 to \$24,354,000,

(e) Reimbursements from -\$497,468,000 to -\$474,868,000,

and by deleting Provisions 4 and 5.

I am deleting the \$5,000,000 legislative augmentation to provide supportive housing for individuals with special needs because it is duplicative of existing support programs including health care, substance abuse treatment, education, and counseling which are currently provided through other State agencies.

I am deleting the \$400,000 legislative augmentation to enhance cultural competency in mental health services because current State law already requires that county mental health plans provide for culturally competent and age appropriate services. I am deleting Provision 5 to conform to this action.

I am deleting the \$450,000 legislative augmentation to provide additional training and development of Adult System of Care Agencies. Since this program has been shown to provide an effective system of mental health care while reducing costs, coun-

ties desiring to implement the program should use existing mental health realignment funds to contract with the Integrated Services Agencies or work with counties which have already implemented the program.

I am reducing \$16,000,000 of the \$20,000,000 legislative augmentation for the Children's System of Care. The remaining \$4,000,000 augmentation will allow for the incremental expansion of this program. I am also deleting Provision 4.

I am deleting the \$22,600,000 legislative augmentation in reimbursements for CalWORKs recipients to conform to actions taken in Item 5180-101-0001.

Item 4700-101-0001—For local assistance, Department of Community Services and Development. I am reducing this item from \$4,400,000 to \$3,050,000 by reducing:

(a) 40-Community Services from \$2,400,000 to \$1,050,000, and by deleting Provision 1.

I am deleting the \$1,350,000 legislative augmentation for the Adult Homeless Education program. This program has been previously funded in the Department of Education. The Department of Community Services and Development is not the appropriate state agency to administer this program.

I am deleting Provision 1 to conform to this action.

Item 5100-001-0001—For support of Employment Development Department. I reduce this item from \$24,872,000 to \$23,622,000 and delete Provision 1.

I am deleting the \$1,250,000 legislative augmentation for at-risk youth employment demonstration projects. The Budget contains \$816,100,000 for employment programs, of which \$342,500,000 is for youth employment projects. The projects for which the legislature has augmented this item should be evaluated and funded through the competitive grant process within these existing programs.

Item 5100-001-0870—For support of Employment Development Department. I revise this item by reducing:

- (a) 10-Employment and Employment Related Services from \$202,732,000 to \$201,482,000, and;
- (b) Amount payable from the General Fund (Item 5100-001-0001) from -\$24,872,000 to -\$23,622,000.

This action conforms to reductions taken in Item 5100-001-0001.

Item 5160-001-0001—For support of Department of Rehabilitation. I revise this item from \$43,662,000 to \$39,759,000 by reducing:

- (a) 10-Vocational Rehabilitation Services from \$286,639,000 to \$271,616,000,
- (c) 30-Support of Community Facilities from \$6,454,000 to \$5,751,000,
- (g) Amount payable from the Federal Trust Fund (Item 5160-001-0890) from -\$241,627,000 to -\$229,804,000,

and by deleting Provision 5.

I am reducing the \$3,200,000 legislative augmentation in this item and the corresponding federal match of \$11,823,000 in Item 5160-001-0890 for the Vocational Rehabilitation Program. This program is not an open-ended entitlement, and the Budget provides \$263,613,000 for the Department of Rehabilitation to serve clients in this program. Nonetheless, I understand that recent federal law changes might necessitate revision to the scope of this program, affecting the number of clients to be served. It would be premature to approve this augmentation before the Department of Rehabilitation and the Health and Welfare Agency have thoroughly analyzed those federal changes and their service delivery ramifications.

I am reducing the \$521,000 legislative augmentation to increase the incentive funds used to match private contributions for independent living services. The Budget includes \$479,000 base funding for the incentive funds component of this program, and I have included \$2,900,000 General Fund and \$6,400,000 federal funds in the Budget

for a population-based allocation for the Independent Living Centers. The Independent Living Centers, therefore, will continue to receive a total of \$9,779,000 for base funding.

I am reducing the \$182,000 legislative augmentation to backfill federal funds for three community organization projects. The federal funds were provided through the Department of Rehabilitation as seed money for the projects with the understanding that State funds would not be provided as a backfill, and other sources of funding would have to be sought to continue the projects.

I am deleting Provision 5 to conform to this action.

Item 5160-001-0890—For support of Department of Rehabilitation. I reduce this item from \$241,627,000 to \$229,804,000.

I am reducing this item by \$11,823,000 to conform to the action I have taken in Item 5160-001-0001.

Item 5180-001-0001—For support of the Department of Social Services. I reduce this item from \$100,513,000 to \$88,988,000 by reducing:

- (a) 16-Welfare Programs from \$83,333,000 to \$77,333,000;
- (b) 25-Social Services and Licensing from \$129,454,000 to \$123,747,000;
- (h) Amount payable from the Federal Trust Fund (Item 5180-001-0890) from -\$296,203,000 to -\$296,021,000;

and by deleting Provision 4.

I am deleting the \$6,000,000 legislative augmentation for the Temporary Emergency Food Assistance Program. The food purchases under this program traditionally have been 100 percent federally funded. Providing General Fund for this purpose could set a funding precedent for an expectation of future General Fund support. Federal funding for this program, along with the federal food stamp and the Women, Infants and Children programs are available. Further, I have agreed to support two new time-limited state food programs including establishment of a \$68,000,000 State food stamp program for legal immigrants. The continuing federal programs and the new state programs provide for a major increase in funding in 1998-99 which should address concerns in this area. I am deleting Provision 4 to conform to this action.

I am deleting the \$3,000,000 legislative augmentation to expand the current Home Visiting Pilot Program, which provides voluntary home-based support services in seven locations to families with newborns and children up to five years old who are at risk of child abuse or neglect. Without this augmentation, the pilot programs will continue while their programmatic and cost-effectiveness continues to be evaluated. While I support developing innovative programs that will assist parents in providing a safe home for their at-risk children, the quality and effectiveness of the service provided must first be documented through the pilot program's evaluation.

I am reducing the legislative augmentation of \$5,762,000 and 96.4 personnel years to provide comprehensive reviews of all community care facilities by \$2,525,000 General Fund and \$182,000 Federal Trust Fund and by 40.8 personnel years. The remaining positions and funding, in conjunction with funding already budgeted, will permit the department to conduct comprehensive reviews of those community care facilities with the most vulnerable clients.

Item 5180-001-0890—For support of Department of Social Services. I reduce this item from \$296,203,000 to \$296,021,000.

This action conforms to the reductions taken in Item 5180-001-0001.

Item 5180-101-0001—For local assistance, Department of Social Services. I reduce this item from \$2,518,667,000 to \$2,496,746,000.

- (a) 16.30-CalWORKs from \$5,568,477,000 to \$5,536,556,000
- (2) 16.30.020-Services from \$1,115,933,000 to \$1,084,012,000

(h) Amount payable from the Federal Trust Fund (Item 5180-101-0890) from -\$4,444,998,000 to -\$4,434,998,000 and by deleting Provisions 13 and 14.

I am deleting a \$10,000,000 Federal Trust Fund augmentation for transportation services for CalWORKs recipients. Although I am sensitive to concerns raised as to the adequacy of transportation services, county boards of supervisors may allocate CalWORKs funds from within the county block grant should additional transportation services be needed. Additionally, use of the federal Temporary Assistance for Needy Families (TANF) block grant for CalWORKs-eligible recipients would cause their five year federal TANF eligibility to be used even if the transit services were the only benefits provided.

I am deleting \$21,921,000 General Fund from this item, which was to match \$22,600,000 federal Medicaid funds from the Department of Health Services for mental health services for CalWORKs recipients. I have proposed to fully fund mental health services for CalWORKs recipients, but confine General Fund expenditures for CalWORKs, with only limited exceptions, to the \$2.9 billion state-county TANF Maintenance of Effort (MOE) requirement. The Legislature's action on CalWORKs mental health services violates federal guidelines for this amount to be considered as TANF MOE, and therefore, would require the State to spend General Fund above the TANF MOE requirement for a declining welfare caseload. This is unnecessary as the counties may allocate funds for mental health services from their block grant.

I am deleting Provision 13 which would require the California Department of Education and the Department of Social Services to report to the Legislature on a proposed child care fee schedule by December 15, 1998, for the purposes of adopting a schedule through legislation. This would create additional barriers to implementing a fee schedule, because the Superintendent of Public Instruction already has the statutory authority to implement a new fee schedule, and the report due date does not allow the departments sufficient time to effectively comply with this provisional language.

I am deleting Provision 14 which would authorize counties to use up to \$5,000,000 General Fund of county CalWORKs fiscal incentive payments to match California Conservation Corps funding to help CalWORKs recipients meet their work requirements. Counties already have the authority to use incentive funds for this purpose by contracting directly with the local corps. Therefore, the provision is unnecessary.

Item 5180-101-0890—For local assistance, Department of Social Services. I reduce this item from \$4,444,998,000 to \$4,434,998,000, and delete Provision 5.

I am reducing this item by \$10,000,000 and deleting Provision 5 to conform to the action I have taken in Item 5180-101-0001.

Item 5180-111-0001—For local assistance, Department of Social Services. I reduce this item from \$2,651,793,000 to \$2,625,993,000 by reducing:

- (b) 25.15-IHSS from \$1,418,541,000 to \$1,363,786,000;
- (1) 25.15.010-Services from \$1,296,025,000 to \$1,241,270,000; and
- (c) Reimbursements from -\$848,235,000 to -\$819,280,000.

I am deleting a \$25,800,000 legislative augmentation to fund increased operational costs for public authorities associated with In-Home Supportive Services (IHSS). Under current law, counties can establish a public authority for the administration of IHSS in that county, with any associated cost increases funded at county expense. This augmentation inappropriately provides state funds for costs negotiated by public authorities, thereby removing the cost containment mechanisms currently in place.

I am reducing reimbursements in this item by \$28,955,000 to conform to the action taken in this item and in Item 4260-101-0890.

Item 5180-111-0551—For transfer by the Controller from the Temporary Assistance for Needy Families Fund to the Federal Trust Fund. I reduce this item from (\$4,406,217,000) to (\$4,396,217,000).

I am reducing this item by \$10,000,000 to conform with actions taken in Item 5180-101-0001 and Item 5180-101-0890.

Item 5180-141-0001—For local assistance, Department of Social Services. I reduce this item from \$304,297,000 to \$300,297,000 by reducing:

(a) 16.80-County Administration from \$1,070,398,000 to \$1,062,398,000;

(d) Amount payable from the Federal Trust Fund (Item 5180-141-0890) from -\$839,803,000 to -\$835,803,000;

and by deleting Provision 8.

I am deleting a \$4,000,000 General Fund and \$4,000,000 Federal Trust Fund legislative augmentation for the Food Stamp Employment and Training (FSET) program. This augmentation was made to provide services to able-bodied adults without dependents between the ages of 18 and 50 who must work 20 hours per week to maintain federal food stamp eligibility. Although those persons can participate in FSET to meet the work requirements, they also can meet the work requirements through self-initiated community service. Therefore, this augmentation is not necessary.

I am deleting Provision 8 which prohibits the allocation of \$3,996,000 to counties for the administration of food stamp benefits unless federal administrative funding for food stamps is reduced pursuant to Public Law 105-185. Although the General Fund will be required to backfill for the eventual loss of federal funds, it is premature to propose a specific dollar amount to offset that expected deficiency. Additionally, counties have indicated immediate need for these funds due to increased costs resulting from welfare reform and changes in eligibility requirements.

Item 5180-141-0890—For local assistance, Department of Social Services. I reduce this item from \$839,803,000 to \$835,803,000.

I am reducing this item by \$4,000,000 to conform to actions taken in Item 5180-141-0001.

Item 5180-151-0001—For local assistance, Department of Social Services. I reduce this item from \$690,969,000 to \$656,990,000 by reducing:

(a) 25.25-Children's Services from \$1,301,308,000 to \$1,299,987,000,

(1) 25.25.010-Child Welfare Services from \$1,211,400,000 to \$1,210,079,000

(b) 25.35-Special Programs from \$164,511,000 to \$106,657,000,

(5) 20.35.050-County Services Block Grant from \$122,256,000 to \$64,402,000

(c) 25.45-Community Care Licensing from \$15,158,000 to \$14,879,000,

(d) Reimbursements from -\$80,725,000 to -\$55,571,000,

(f) Amount payable from the Federal Trust Fund (Item 5180-151-0890) from -\$709,132,000 to -\$708,811,000;

and by deleting Provision 9.

I am deleting a \$1,000,000 General Fund and a \$321,000 Federal Trust Fund legislative augmentation to expand the Options for Recovery Program to serve adoptive and pre-adoptive families with children up to age 18. Although this proposal is consistent with my Adoptions Initiative, it is not acceptable without including the provision related to respite care, which is an integral part of the existing program. I would be willing to sign properly structured legislation in this area. I am deleting Provision 9 to conform to this action.

I am deleting a \$32,700,000 General Fund legislative augmentation and \$25,154,000 in corresponding reimbursements to expand the Adult Protective Services Program. This maintains a \$20,000,000 General Fund augmentation included in my May Revision that more than doubles the State's efforts in this area and adequately recognizes the importance of this program.

I am deleting a \$279,000 augmentation to provide comprehensive visits of all community care facilities. Funding is provided in Item 5180-001-0001 for comprehensive reviews for those facilities with the most vulnerable clients which should address concerns in this area.

Item 5180-151-0890—For local assistance, Department of Social Services. I reduce this item from \$709,132,000 to \$708,811,000 and delete Provision 2.

I am deleting Provision 2 which would require \$350,000 of federal Child Abuse Prevention and Treatment Act (CAPTA) funds to be used for the Family Maintenance Healthcare Pilot Project in Los Angeles County. This pilot project appears to be meritorious; however, all federal CAPTA funds currently available for 1998–99 have been committed to other continuing child abuse and prevention projects. Los Angeles County should apply for funding in the next grant cycle.

I am reducing this item by \$321,000 to conform to actions taken in Item 5180-151-0001.

Item 5240-001-0001—For support of the Department of Corrections. I reduce this item from \$3,550,781,000 to \$3,534,681,000 by reducing:

- (a) 21-Institution Program from \$2,749,755,715 to \$2,744,755,715, and
 - (b) 31-Community Correctional Program from \$432,467,730 to \$421,367,730,
- and by deleting Provisions 10, 13, 15, 16, 17, and 19.

I am deleting the \$2,800,000 legislative augmentation to expand the Preventing Parolee Failure Program. While I am supportive of efforts to reduce recidivism among the state's parolee population, I am unable to support this augmentation because the efficacy and cost effectiveness of the Preventing Parolee Failure Program has not been demonstrated sufficiently to justify a program expansion.

I am deleting the \$2,000,000 legislative augmentation to implement a pilot program for drug addicted female offenders with children. The Budget provides \$13,700,000 to address barriers to parole success and to provide alternatives to reincarceration for both male and female parolees. The Budget also contains \$1,100,000 for the Pregnant and Parenting Women's Alternative Sentencing Program, which provides specialized services for female offenders.

I am deleting the \$4,800,000 legislative augmentation for parole casework services. While increased parole casework services may be desirable, the need for increased casework services has not been adequately demonstrated.

I am deleting Provision 10 which would restrict the transfer of more than five percent of the funding provided for the Preventing Parolee Failure Program and parole casework services in 1998–99. Since it is unknown what demands upon the parole system might arise, this provision is an inappropriate limitation of the Executive Branch's ability to manage its programs, and could jeopardize public safety.

I am deleting Provision 13 which would require the Department of Finance, in consultation with the Prison Industry Authority and the Legislative Analyst's Office, to develop a display in the 1999–2000 Governor's Budget of revenues and expenditures for the Prison Industry Authority, the Prison Industry Board, and the Prison Industries Revolving Fund. This provision inappropriately requires participation of legislative staff in decision-making with regard to the inclusion and manner of display of financial information in the annual Governor's Budget. Decisions regarding the Administration's proposed financial plan should remain a prerogative of the Administration.

I am deleting Provision 15 which would require the Department of Corrections to redirect \$257,000 from existing resources to continue to fund four positions authorized to ensure compliance with Title I of the Americans with Disabilities Act (ADA). The contradictory actions of the Legislature in deleting funding for ADA while requiring that funding be redirected from other programs to continue the function is inappropriate.

I am reducing this Item by \$5,000,000 and deleting Provision 16 which would require an allocation of \$5,000,000 be provided for (1) 1,000 additional drug treatment slots, including availability of aftercare treatment of at least 120 days for 50 percent of the in-prison program graduates from the proposed new program, and (2) a minimum of 120 days of aftercare treatment for 50 percent of the in-prison program graduates from existing drug treatment programs. The Department is currently in the process of expanding its drug treatment program by 1,120 slots. Further expansion of this program is premature.

I am deleting Provision 17 which would allow the use of funds for development of the Corrections Management Information System project only upon approval of the associated project feasibility study report by the Department of Information Technology and the Department of Finance, and if the scope of the approved version of the feasibility study report does not significantly differ from the report as submitted to the two agencies. This language potentially interferes with the ability of the Executive Branch to evaluate the project proposal by effectively precluding a change to the feasibility study as initially submitted. The provision is otherwise largely consistent with my existing policy. Accordingly, I am directing the Department of Corrections to not expend funds for the development of the Corrections Management Information System project prior to approval of the related feasibility study report by the Department of Information Technology and the Department of Finance.

I am reducing this Item by \$1,500,000 and deleting Provision 19 which would require an allocation of \$1,500,000 of funding be provided to develop, implement, and evaluate up to two pilot projects for a new parole model in Regions III and IV. The Department of Corrections is currently evaluating a new parole classification project. It would be premature to implement another related parole project prior to evaluation of the current project.

Item 5240-011-0678—For Transfer by the Controller from the Prison Industries Revolving Fund to the General Fund. I delete this Item.

I am deleting the \$8,000,000 transfer from the Prison Industries Revolving Fund to the General Fund. The Prison Industry Authority is a self-supporting organization which requires a sufficient reserve in its enterprise fund for cash management purposes. This transfer of funds would have reduced the Authority's reserve to an imprudent level.

Item 5240-301-0001—For capital outlay, Department of Corrections. I revise this item by deleting Provision 3.

I am deleting Provision 3 because the language is unnecessarily restrictive. This language would limit the State Public Works Boards' (SPWB) authority to approve a recognized deficit to no greater than 10 percent of the original construction cost estimates for selected mental health projects. Under current law, the SPWB can approve recognized deficits of up to 20 percent. This language could hamper the continuation of these court-ordered projects and would interfere with the ability of the Executive Branch to manage these projects pursuant to existing statutes.

Item 5430-104-0001—For local assistance, Board of Corrections. I delete this item and Provision 1.

I am deleting the \$1,200,000 legislative augmentation for support operations costs at the Northern California Regional Facility. The cost of ongoing operations for local juvenile facilities is appropriately a responsibility of local government.

I am deleting Provision 1 to conform to this action.

Item 5430-105-0001—For local assistance, Board of Corrections. I delete this item and Provisions 1, 2, and 3.

I am deleting the \$2,000,000 legislative augmentation for the Mental Illness Crime Reduction Grant program which would provide competitive statewide grants to counties for planning and developing alternative sanctions for adult mentally ill offenders. It appears that this is an appropriate responsibility of local government. In fact, if the intent is to reduce other county costs by offering these services, this should be a high priority use of community mental health resources allocated through Realignment funding.

I am deleting Provisions 1, 2, and 3 to conform to this action.

Item 5430-107-0001—For local assistance, Board of Corrections. I reduce this Item from \$30,000,000 to \$10,000,000 and revise Provision 1.

I am reducing the \$30,000,000 legislative augmentation for the Juvenile Crime Enforcement and Accountability Challenge Grant Program and Juvenile Female Offender Intervention Program by \$20,000,000. The Juvenile Crime Enforcement and Accountability Challenge Grant Program was established to evaluate alternative approaches to dealing with at-risk juveniles and delinquents. Grants for the existing Juvenile Challenge Grant program have recently been awarded and local program efforts are still in their early phases. I am approving \$10,000,000 to meet the most urgent needs, including efforts which could facilitate a reduction in the number of juveniles placed out of state.

In addition, I am revising Provision 1, which would direct funding to be provided for the Female Offender Intervention Program. Both male and female offenders would be served by the Challenge Grant Program, and I am not supportive of diverting funds that could be used for this program to fund a program that would exclusively target female offenders.

- “1. (a) ~~The funds appropriated by this item shall be available to support the Juvenile Crime Enforcement and Accountability Challenge Grant (Challenge Grant) Program, as modified and amended by Assembly Bill 2264 of the 1997–98 Regular Session, and the Juvenile Female Offender Intervention Program as established by Senate Bill 1657 of the 1997–98 Regular Session.~~
- (b) Of the funds appropriated by this item, up to 5 percent may be transferred, upon approval of the Department of Finance, to Item 5430-001-0001 to support the administration, including technical assistance and oversight, and evaluation of the implementation of grant awards pursuant to this provision.
- (c) Of the funds appropriated by this item, the Board of Corrections may award up to \$2,000,000 statewide, in individual grants not exceeding \$50,000, to counties to assist in developing and upgrading local action plans as necessary to compete for the Challenge Grant and Juvenile Female Offender Intervention Program grants, including the development of strategies to address out-of-home placement needs for delinquent youth pursuant to Section 602 of the Welfare and Institutions Code within the county or region where the county is located. The board may also award up to \$500,000 statewide, in individual grants not to exceed \$100,000, to extend program evaluation follow up activities for existing programs which demonstrate promise for program replication.
- ~~(d) Of the funds remaining, the board shall, on a statewide, competitive basis, award grants pursuant to subdivision (a) of this provision.~~
- ~~(e) Of the funds available for grant awards in subdivision (d), the board shall ensure that, on a statewide basis, an amount not less than 50 percent, or \$10,000,000, whichever is greater, is awarded to support strategies identified in county local action plans for female juvenile offenders pursuant to the Juvenile Female Offender Intervention Program.~~

- (f) When awarded grants pursuant to this provision, the board shall give priority to those grant applications submitted under subdivision (d); of this provision that support strategies identified in county local action plans for the development and implementation of out-of-home placement options for delinquent youth pursuant to Section 602 of the Welfare and Institutions Code.
- (g) Notwithstanding any other provision of law, funds appropriated by this item shall be allocated pursuant to this provision."

Item 6110-001-0001—For support of Department of Education. I reduce this item from \$35,895,400 to \$26,201,400 by reducing:

- (b) 20-Instructional Support from \$52,283,400 to \$49,703,400,
- (d) 41.00-Executive Management and Special Services from \$9,595,000 to \$1,595,000,
- (i) Amount payable from Federal Trust Fund (Item 6110-001-0890) from -\$90,890,000 to -\$89,054,000,

and by deleting:

- (gx) Unallocated (\$950,000),

and by revising Provision 22.

I am reducing the legislative augmentation of \$569,000 in Schedule (b) by \$369,000 and eliminating the 6.2 positions added for the Standardized Testing and Reporting (STAR) program. By sustaining \$200,000, I am providing funding for STAR at the current year level and providing \$175,000 for support to assist the advisory panel to the State Board in development of performance standards and the matrix test. Since there are unfunded positions in the assessments division, no additional position authority is needed.

I am making a further reduction to Schedule (b) by eliminating the \$100,000 legislative augmentation for administration of the Life Sciences and Conservation Education Program. This locally implemented program has never become operative; therefore, additional funding is not necessary.

In addition, I am making a further reduction to Schedule (b) of \$275,000 for administration of the Foster Youth Services Program. The Legislature provided a \$375,000 augmentation and one position for this purpose. While \$100,000 and an additional position is warranted, the proposed funding augmentation included excessive operating, training, and evaluation expenses, and I am therefore reducing this augmentation accordingly. I am revising the following provision to conform with this action:

- "22. Of the funds appropriated by this item, \$100,000 and one position are provided for administration of the Foster Youth Services Program ; ~~\$25,000 is provided for operating expenses; and \$250,000 is provided for training and evaluation of the program .~~"

I am also making a reduction of \$8,000,000 in Schedule (d) to reduce departmental executive management because of the need for the Legislature to consider how the provision of legal services to the Superintendent, the Department, and the Board of Education can be reorganized to be more efficient, to avoid conflicts, and to clarify certain staff reporting relationships. I am setting this amount aside to allow the enactment of legislation which would reallocate a portion of these funds to the Office of the Attorney General through the transfer of 11 or more legal counsel positions from the Department of Education's legal office because the Attorney General can represent the Department of Education more efficiently. Since the hourly reimbursement rate for the Department of Education's legal counsel is significantly higher than the rate for the Office of the Attorney General, a transfer of 11 positions or more from the Department's Legal Office to the Office of the Attorney General would provide more effective use of state resources. Such legislation would necessarily eliminate the exemption in Government Code section 11041(a) that currently authorizes the Department to employ litigation legal counsel outside of the Attorney General. The legislation could authorize

the Department to continue to have up to three positions necessary to provide house legal counsel. The legislation would need not affect the legal position dedicated to the State Board of Education which would continue to provide house legal counsel to the Board. Any such legislation shall also modify Education Code Section 33111 so that all the State Board of Education staff report directly, and have their work supervised by the State Board of Education pursuant to the bylaws adopted by the Board.

I am also deleting Schedule (gx), which provides a \$950,000 legislative augmentation for administration of new programs. It is unclear whether, or how much, funding would be necessary for any new program without analyzing specific requests which identify and justify the proposed workload for each of the programs. I am deleting Provision 19 and Provision 24 to conform with this action.

I am also revising the schedules in this item to conform to the actions I have taken in Item 6110-001-0890.

Item 6110-001-0890—For support of Department of Education. I reduce this item from \$90,890,000 to \$89,054,000.

I am deleting the legislative augmentation of \$736,000 and seven positions for the Complaint Resolution Program until the Department show it can streamline its operations and become more efficient through acceptable legislation.

I am deleting the legislative augmentation of \$650,000 and six positions for state operations costs for the Comprehensive School Reform Demonstration Program as a conforming action since I have deleted the \$15,650,000 legislative augmentation in Item 6110-136-0890 for the local assistance program.

While I am retaining the augmentation of \$450,000 from Goals 2000 for state operations, I am eliminating the 4.5 positions which were added for development of standards for an English Language Development Test. Since there are unfunded positions in this division, additional position authority is not needed. These funds, together with the sustained \$200,000 augmentation for state operations associated with testing, should be used to accomplish activities related to the Golden State Exam, the matrix test and performance standards, and other test-related tasks.

I am deleting Provision 7 (e) as a conforming action:

"7. Of the funds appropriated in this item, \$3,050,000 shall be for the administration of programs funded with federal Goals 2000 Educate America Act funds. Funds shall be allocated for the following purposes:

- (a) \$1,220,000 for general administration of the federal Goals 2000: Educate America Act funds and administration of local assistance grants and other programs using those federal funds. Of this amount \$120,000 shall be for the state operations costs necessary to manage the contract identified in Provision 7 (b) for the evaluation of the Class Reduction Program established pursuant to Chapter 6.10 (commencing with Sec. 52120) of Part 28 of the Education Code.
- (b) \$500,000 for a contract for an independent evaluation of the Class Size Reduction Program as required by Section 52128 of the Education Code. Funds shall not be released for this purpose until the State Department of Education has certified to the Department of Finance that matching funds have been secured from third party sources for the class size reduction evaluation activities.
- (c) \$500,000 shall be for an evaluation of the impact of the California Reading Initiative on the reading achievement of pupils in the public schools. The California Reading Initiative consists of all appropriations in the Budget Act or in any other measure, and all legislation, chaptered in 1996 or 1997 addressing pre-service and in-service training, instructional materials, credential requirements, or any other activities related to reading instruction. The State Department of Education shall develop a plan for the evaluation

and shall submit that plan to the State Board of Education for amendments and approval prior to initiating the evaluation.

- (d) \$500,000 is to support the California State University Center for Teaching Careers, established pursuant to Article 4 (commencing with Section 90530) of Chapter 11 of Part 55 of the Education Code.
- (e) ~~\$330,000 shall be available for development of standards for an English language development (ELD) test.~~ ”

Finally, I am deleting five positions and the \$450,000 legislative augmentation for the out-of-home placement issue. Special education compliance monitoring should be addressed comprehensively based on the outcome of studies proposed for this year.

I am deleting Provision 14 as a conforming action.

Item 6110-106-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$125,000,000 to \$50,000,000 and delete Provision 1.

I am deleting the \$75,000,000 augmentation for a remedial summer school program. This amount is set aside for restoration upon enactment of legislation for a comprehensive school accountability program addressing low-performing schools, social promotion, and remedial instruction.

I am deleting Provision 1 to conform to this action.

Item 6110-114-0001—For local assistance, Department of Education, (Proposition 98). I delete this item and Provisions 1 through 8.

I am deleting the legislative augmentation of \$37,096,000 to fund 14 school districts for additional 1995–96 claims for court-ordered desegregation programs. The Legislature has statutorily limited the State’s funding formula for this program, and there is no requirement to provide funds beyond that limitation.

Item 6110-118-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$50,000,000 legislative augmentation to increase minimum teacher salaries. Establishing teacher salary levels is a matter of local collective bargaining.

Item 6110-120-0001—For local assistance, Department of Education (Proposition 98). I delete this item.

I am deleting this \$1,250,000 augmentation for the Pupil Dropout Prevention Program. There is currently approximately \$19,000,000 available in the Mega-Item to fund this program. To the extent that additional funding is necessary, districts are able to redirect funds from other programs or local funding sources.

Item 6110-123-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$50,000,000 augmentation for low-performing schools. I am setting aside the amount in this item for restoration upon enactment of legislation for a comprehensive school accountability program addressing low-performing schools, social promotion, and remedial instruction.

Item 6110-131-0001—For local assistance, Department of Education. I delete this item and Provision 1.

I am deleting the \$30,000,000 legislative augmentation to fund college preparatory and related programs. I am supportive of efforts to encourage low-income students to pursue a college education and, therefore, have set aside this amount for restoration upon enactment of legislation for a program which addresses a broader spectrum of college preparation and skills development necessary to meet college entrance requirements, as well as a comprehensive school accountability program addressing low-performing schools, school promotion and remedial instruction.

I delete Provision 1 to conform to this action.

Item 6110-136-0890—For local assistance, Department of Education. I reduce this item from \$860,319,000 to \$844,669,000 by deleting:

(c) 20.60.022-Improve School Effectiveness-Comprehensive School Reform Demonstration Grant Program (\$15,650,000), and by deleting Provision 2.

I am deleting the \$15,650,000 augmentation in this schedule because the grants awarded pursuant this program would be used in efforts to develop local content and performance standards. This is in direct conflict with ongoing efforts to establish state-wide content and performance standards and to align teacher training and staff development, curriculum frameworks, instructional materials, and assessments to these standards. These efforts are all part of a comprehensive statewide effort to improve student achievement built on a foundation of rigorous state-adopted academic standards.

I am deleting Provision 2 to conform to this action.

Item 6110-142-0890—For local assistance, Department of Education. I reduce this item from \$57,692,000 to \$57,691,000 by reducing:

(a) 20.10.003-Reading Improvement from \$36,492,000 to \$36,491,000, and by revising Provision 3.

I am reducing Schedule (a) by \$1,000 for Reading Improvement because the scope of the activity was expanded beyond that which is appropriate. The Legislature added language to expand the purpose of my reading staff development proposal to include mathematics inservice training. The Budget already includes \$30,000,000 specifically for mathematics staff development training.

I am revising Provision 3 to conform to this action.

"3. Of the funds appropriated in schedule (a), ~~\$30,942,000~~ \$30,941,000 is available for the purchase of (1) ~~inservice training in math instruction which is consistent with the Math Program Advisory approved by the State Board of Education;~~ (2) age-level-appropriate reading materials that are connected to phonics-based reading instruction and (3) (2) inservice training in reading instruction for teachers of pupils in grades 4 to 12, inclusive. Funds shall be allocated to school districts pursuant to Section 44759.5 of the Education Code except that "number of pupils" in paragraphs (1) and (2) of subdivision (b) shall be deemed to be the number of pupils scoring below the fortieth percentile on the statewide assessment administered in 1998 pursuant to Article 4 (commencing with Section 60640) of Chapter 5 of Part 33 of the Education Code. Notwithstanding any provision of Chapter 3.46 of Part 25 of the Education Code, funds allocated pursuant to this provision may be expended for reading inservice training and reading materials, or just for inservice training. Funds expended for inservice training in reading instruction shall be expended in accordance with the following sections of Chapter 3.46 of Part 25 of the Education Code, except that where these sections read "4 to 8" they shall be deemed to read "4 to 12": Section 44758 (b), Section 44759 (a), (c), (d), (e) and (f), Section 44759.1, Section 44759.2, Section 44759.3, Section 44759.4, and Section 44759.6. Further, in order to conduct a program funded pursuant to this provision in any particular school in a school district, the governing board must certify that a phonics-based reading instructional program is being conducted in the school for pupils scoring below the twenty-fifth national percentile score on the statewide assessment, or that such a program shall begin in the school as soon as feasible upon completion of the training. The State Board of Education shall establish criteria governing the purchase by school districts of age-level-appropriate reading materials that are connected to phonics-based reading instruction."

Item 6110-161-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$2,062,858,000 to \$2,055,384,000 by reducing:

- (a) 20.60.050.003-Special education instruction from \$2,020,343,000 to \$2,012,869,000.

I am reducing this item by \$7,474,000. This legislative augmentation would backfill an Education Revenue Augmentation Fund reduction. County funds in excess of the minimum allocation are redirected to special education programs within the county. This augmentation would set an undesirable precedent to increase the State's share of funding for special education.

Item 6110-196-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$796,638,000 to \$793,638,000 by reducing:

- (b) 30.10.020-Child Care Services \$1,063,710,000 to \$1,060,710,000
- (6) 30.10.020.008-Special Program, Child Development, Resource and Referral from \$17,607,000 to \$14,607,000,

and by deleting Provision 16.

I am deleting the legislative augmentation of \$3,000,000 for child care resource and referral activity because the \$4,000,000 I have provided for this purpose is adequate.

I am deleting Provision 16, which would commit up to \$5,000,000 in future federal fund increases for enhancement of child care provider wages. Decisions on the use of these moneys should be made during deliberations on future budgets.

Item 6110-204-0001-For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$1,270,000 appropriation for the International Baccalaureate Program. This amount is set aside for restoration upon enactment of legislation for a program which addresses a larger spectrum of college preparation and skills development necessary to meet college entrance requirements, as well as a comprehensive school accountability program addressing low-performing schools, school promotion and remedial instruction.

Item 6110-226-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$9,481,000 to \$4,481,000 by reducing:

- (a) 20.60.020.001-Partnership Minigrants/Safe School Planning from \$5,951,000 to \$3,501,000,
- (b) 20.60.020.012-Conflict Resolution from \$380,000 to \$280,000, and
- (c) 20.60.020.013-School Community Violence Prevention from \$3,150,000 to \$700,000.

I am deleting a legislative augmentation of \$5,000,000 for the School/Law Enforcement Partnership Programs. While these are meritorious programs, the Budget provides \$10,000,000 for the new School/Community Policing program which is more likely to have an immediate impact on school safety.

Item 6110-232-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$88,900,000 to \$44,450,000.

I am reducing this item to provide half-year funding of \$44,450,000 for 9th Grade class size reduction. While I support this effort to expand the class size reduction program, the augmentation made by the Legislature is likely to exceed the need in the first year. Given the timing of this proposal, it can be expected that the program will not be implemented until the second semester of the current school year. Therefore, I am reducing this item to more accurately reflect the level of funding needed for this year.

I am revising Provision 1 to conform to this action.

- “1. The funds appropriated by this item are to expand the Morgan/Hart Class Size Reduction Program for grades 9 to 12, inclusive, pursuant to enactment of

legislation during the 1997–98 Regular Session that becomes operative on or before January 1, 1999.”

Item 6110-233-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$94,146,000 appropriation for Mega-Item growth and cost-of-living adjustments (COLA). I am setting aside the amount in this item for restoration upon enactment of legislation for a comprehensive remedial instruction program addressing low-performing schools, social promotion, and school accountability.

I am deleting Provision 1 to conform to this action.

Item 6110-294-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$10,000,000 augmentation to provide a set-aside for the purpose of funding legislative priorities pursuant to unspecified legislation enacted during the 1997–98 Regular Session. Establishing an appropriation without knowing the purpose of such is inappropriate.

Item 6120-221-0001—For local assistance, California State Library. I reduce this item from \$62,750,000 to \$38,870,000.

I am reducing \$23,880,000 of the \$43,880,000 legislative augmentation provided for the Public Library Foundation. I am supportive of additional funding for local public libraries. With this augmentation, I am increasing the program by 106 percent.

Item 6360-001-0001—For support of the Commission on Teacher Credentialing. I reduce this item from \$755,000 to \$665,000, and delete Provision 6:

(a) 10-Standards for Preparation and Licensing of Teachers from \$755,000 to \$665,000.

I am deleting the \$90,000 General Fund augmentation and one position to fund a review of out-of-state teacher credentialing requirements. I support efforts to streamline the credentialing process for qualified teachers from other states; however, credentialing activities are appropriately funded from the Teacher Credentials Fund.

I am deleting Provision 6 to conform to this action.

Item 6360-101-0001—For local assistance, Commission on Teacher Credentialing (Proposition 98). I reduce this item from \$34,628,000 to \$24,628,000 by reducing:

(a) 10-Standards for Preparation and Licensing of Teachers from \$34,628,000 to \$24,628,000.

I am deleting the \$10,000,000 legislative augmentation for the California School Paraprofessional Teacher Training Program. This program provides grants to assist non-certificated school employees, such as teacher aides, to become teachers and was established as a pilot program to assist individuals who have not completed their baccalaureate degrees to become teachers. I have provided \$22,000,000 for other programs which assist individuals who already possess baccalaureate degrees to obtain teaching credentials while serving as classroom teachers.

I am revising Provision 2 to conform to this action.

“2. Of the funds appropriated by this item, ~~\$11,478,000~~ \$1,478,000 shall be available for grants and subventions to school districts and county offices of education participating in the California School Paraprofessional Teacher Training Program pursuant to Article 6.5 (commencing with Section 69619) of Chapter 2 of Part 42 of the Education Code.”

Item 6420-001-0001—For support of California Postsecondary Education Commission. I reduce this item from \$3,579,000 to \$2,999,000 by reducing:

(a) 100000-Personal Services from \$2,576,000 to \$2,566,000.

(b) 300000-Operating Expenses and Equipment from \$1,343,000 to \$773,000.

I am deleting the \$80,000 legislative augmentation to provide funding for the Commission to conduct an eligibility analysis of individual high schools. The stated

need for the study is that the University of California may admit the top four percent of graduates from each high school. Such a study is premature because the University of California has not yet adopted such a policy, nor is it clear that such a policy would require this type of analysis.

I am deleting the legislative augmentation of \$500,000 for statewide and campus-based service learning centers which help students find community service placements and help faculty develop college course work around students' community service work. This funding would create an inefficient bureaucracy and is unnecessary because these activities are already being conducted.

Item 6440-001-0001—For support of University of California. I reduce this item from \$2,351,969,000 to \$2,339,418,000 by reducing:

(a) Support from \$2,251,827,000 to \$2,240,276,000,

(b) Charles R. Drew Medical Program from \$9,567,000 to \$8,567,000,

and by deleting Provisions 19 and 20.

I am reducing this item by \$6,750,000 for cooperative extension and a 0.4-percent salary increase for all non-faculty employees. The University is providing \$19,800,000 for a 2-percent salary increase for non-faculty by using funding within the higher education compact. The funds for the cooperative extension are reduced because of the need to fund higher competing priorities, including a prudent reserve.

I am reducing this item by \$1,000,000 for Drew Medical Center to renovate its eye clinic because of the need to fund higher competing priorities, including a prudent reserve.

I am deleting the \$400,000 legislative augmentation for the California Health Interview Survey. The survey will cost about \$7,500,000, most of which will be raised from local government, health insurers and others. The need and priority for state funding has not been established.

I am deleting Provision 19 to conform to this action.

I am deleting the \$1,400,000 legislative augmentation to establish a state-funded summer session for teacher preparation programs. This program would serve about 200 full-time equivalent (FTE) students. While I am supportive of this concept, especially the proposal for summer programs, I believe the University should establish this program within the \$43,600,000 in its budget for 6,000 new FTE students in 1998–99.

I am deleting the \$2,000,000 legislative augmentation to increase funding for non-agricultural research. This augmentation would partially restore budgetary reductions made in the early 1990s. Non-agricultural research has received a 27-percent a General Fund increase (\$24,000,000) since 1990–91.

I am deleting the \$1,000,000 legislative augmentation for the University of California, Los Angeles Academy for Integrated Standards. This academy would provide staff development for K–12 teachers, which has already been funded in the budget of the Department of Education.

I am reducing this item by \$1,000 and deleting Provision 20 which would encourage the University to incorporate service learning into its curricula. This provision is unnecessary because it addresses activities that are already being conducted.

Item 6440-001-0234—For support of the University of California. I reduce this item from \$18,661,000 to \$11,661,000 by reducing:

I am deleting the \$7,000,000 legislative augmentation from Cigarette and Tobacco Products Surtax Fund litigation reserves for the State's anti-tobacco Media Campaign. These reserves were set aside for the Americans for Non-Smokers Rights II v. State of California case. Additional state exposure exists in the related and outstanding Just Say No To Tobacco Dough Campaign et al. v. State of California case. Accordingly, these funds should be held in reserve until a settlement has been reached in both cases.

Item 6440-303-0574—For capital outlay, University of California. I reduce this item from \$103,169,000 to \$60,399,000 by reducing:

Los Angeles:

- (3) 99.04.305-Health Science Seismic Replacement Building 1-Working drawings and construction from \$22,141,000 to \$1,153,000.

I am reducing this legislative augmentation by \$20,988,000 by eliminating the construction phase of the project.

Riverside Campus:

- (4) 99.05.115-Entomology Buildings Seismic Replacement-Working drawings and construction from \$22,481,000 to \$699,000.

I am reducing this legislative augmentation by \$21,782,000 by eliminating the construction phase of the project.

I am supportive of providing \$2.5 billion in new bond funds for much-needed higher education capital outlay programs. The funding level which I am sustaining is supportable under a four-year program with this level of new bonds.

Item 6610-001-0001—For support of California State University. I reduce this item from \$2,111,659,000 to \$2,082,297,000 by reducing:

- (a) Support from \$2,856,018,000 to \$2,824,456,000,
 (c) Amount Payable from the Higher Education Fees and Income, CSU Fund (Item 6610-001-0498) from -\$616,475,000 to -\$614,275,000,

and by deleting Provisions 12 and 14.

I am deleting the \$17,800,000 legislative augmentation to fund ongoing building maintenance. Expenditures for this purpose should be funded from within the higher education compact.

I am deleting the \$1,000,000 legislative augmentation to provide funds for Assembly Bill 860, which would establish a program in which K-12 districts would form partnerships with higher education institutions for faculty-to-faculty training. This funding is unnecessary because these activities are already being conducted.

I am deleting Provision 12 to conform to this action.

I am deleting the \$200,000 legislative augmentation to provide funding for the Space Club at the University's San Luis Obispo campus. It is inappropriate for the State to provide funding for student clubs.

I am deleting the \$5,000,000 legislative augmentation to support state-funded summer sessions for teacher preparation programs. This funding would supplant student fee revenues and would not increase either student enrollment in teacher preparation programs or the number of teachers. I am deleting the \$2,200,000 amount payable from Higher Education Fees and Income Fund to conform with this action.

I am deleting the \$1,000,000 legislative augmentation to provide start-up costs for the San Diego South Bay Higher Education Center. Similar programs are funded from within existing resources, and it would set an undesirable precedent for the State to provide additional funding for this purpose.

I am deleting the \$240,000 legislative augmentation to develop a wireless multi-media communication system at the Pomona campus to serve as a model for commercial and private users because of the need to fund higher competing priorities, including a prudent reserve.

I am reducing this item by \$1,000 and deleting Provision 14 which would encourage the University to incorporate service learning into its curricula. This provision is unnecessary because it addresses activities that are already being conducted.

I am deleting the \$4,100,000 legislative augmentation which would match funds provided by the Federal Emergency Management Administration to repair a student dormitory on the University's San Francisco campus that was damaged in the 1989

Loma Prieta earthquake. State funding for this purpose is inappropriate because Verducci Hall is owned and operated by a campus auxiliary enterprise. Therefore State funding for this purpose is inappropriate.

I am deleting the \$21,000 legislative augmentation for the University's Chico campus to purchase a natural gas vehicle. Funding for this purpose should be provided from the campus's regular allotment for vehicles.

Item 6610-001-0498—For support of California State University. I reduce this item from \$616,475,000 to \$614,275,000.

I am deleting the \$2,200,000 legislative augmentation for a state-funded summer session for teacher preparation programs to conform to this action taken in Item 6610-001-0001.

Item 6610-303-0574—For capital outlay, California State University. I reduce this item from \$100,000,000 to \$56,244,000 by deleting:

- (.5) 06.48.315-Systemwide: Minor Capital Outlay Program-Preliminary plans, working drawings, construction, and equipment (\$1,078,000)
- (1) 06.50.058-CSU, Bakersfield: Business Public Administration Building-Preliminary plans, working drawings, and construction (\$8,338,000)
- (2) 06.52.097-CSU, Chico: Education/Classroom/Faculty Office Addition-Working drawings and construction (\$12,124,000)
- (5) 06.92.052-CSU, Stanislaus: Educational Services Building-Working drawings and construction (\$22,216,000)

I am reducing the legislative augmentation of \$100,000,000 for the University's capital outlay program by \$43,756,000. I am supportive of providing \$2.5 billion in new bond funds for much-needed higher education capital outlay programs. The new funding level which I am sustaining is supportable under a four-year program with this level of new bonds.

Item 6870-001-0001—For support of Board of Governors of the California Community Colleges. I reduce this item from \$10,830,000 to \$10,750,000 by reducing:

- (b) 20-Special Services and Operations from \$16,722,000 to \$16,642,000.

I reduce this item by \$80,000 which would provides one new position for the Economic Development Unit. Three new positions were provided in the Budget for this program. No compelling data have been provided to support the need for this additional position.

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges. I reduce this item from \$2,183,845,000 to \$2,126,804,000 by reducing:

- (a) 10.10.010-Apportionments from \$1,482,152,000 to \$1,462,212,000,
- (f) 20.10.010-Extended Opportunity Programs, and Services and Special Services from \$68,316,000 to \$66,316,000,
- (g) 20.10.020-Disabled Students from \$62,395,000 to \$52,295,000,
- (t) 20.30.050-Economic Development from \$33,073,000 to \$33,072,000,
- (w) 20.40.035-Instructional Equipment and Library Materials-Replacement from \$54,000,000 to \$44,000,000,

and by deleting:

- (y) 20.20.080-Full-Time Faculty (\$15,000,000),

and by revising Provision 17 and deleting Provision 24.

I am reducing schedule (a) of this item by \$1,000 and deleting Provision 24 which encourages community colleges to incorporate service learning into their curricula. This language could promote programs which may not be a high priority compared to remedial education, job related instruction and matriculation.

I am reducing schedule (a) of this item by \$8,939,000 which would provide community colleges with equalization funding. This money should go to other higher priority items that provide greater instructional benefits to students.

I am reducing schedule (a) of this item by \$11,000,000 which provides funding parity between community college Non-Credit Instruction and K-12 Adult Education. No compelling information has been provided to identify any deficiency in the quality of community college non-credit programs that would justify a rate increase.

I am reducing schedule (f) of this item by \$2,000,000 which provides funding for support services for the Community Assistance Resources for Education (CARE) program. Funds are available through the current CalWORKs program in community colleges and it is premature to augment this program prior to determining if the actual number of participants will increase.

I am reducing schedule (g) of this item by \$10,100,000 which provides funding for supportive services for disabled students. This action will sustain an augmentation of \$3,700,000. While I am supportive of this program, there is no information that would suggest an augmentation of this significance is necessary for program services.

I am reducing this item by \$1,000 and revising Provision 17 which intends funds be directed in schedule (t) to establish collaboratives with hospitals for nurse training programs. This language is unnecessary; colleges already have the discretionary ability to devote funds for this activity.

“17. (a) Of the funds appropriated in Schedule (t), \$15,000,000, as augmented by the Budget Act of 1997, is for the purpose of establishing incentives for expanded industry-driven cooperative education and work force training programs and centers that support California’s regional economies and are consistent with the needs identified in regional plans pursuant to Sections 15379.25 and 15363.10 of the Government Code.

These funds shall be expended for grants to districts as determined by the Board of Governors on a competitive basis to support economic development program centers and the participation of the California Community Colleges in industry-driven regional collaboratives. This grant funding shall be provided for the following purposes: (a) eligible economic development program activities pursuant to Section 15379.653 of the Government Code, and (b) ongoing development of regional plans, reconfiguration and designation of new regions, and the coordination of services centers.

No more than \$5,000,000 of the funds may be expended for purposes of (b) above and subdivisions (a) through (f) of Section 15379.653 of the Government Code above. Funds allocated to districts for purposes of subdivisions (g) and (i) of Section 15379.653 of the Government Code for performance-based training and student internships shall be matched by a minimum of one dollar of private business and industry funding for each one dollar of state funds. Funds allocated for purposes of subdivision (h) of Government Code Section 15379.653 for credit and noncredit instruction may be transferred to Schedules (c) or (a) to facilitate distribution, at the Chancellor’s discretion.

(b) Of the remaining funds in Schedule (t), \$4,000,000 shall be exclusively for augmenting the amount of funds allocated in the 1997-98 fiscal year by the Board of Governors for industry-driven regional education and training collaboratives. These funds shall only be available to continue existing programs awarded grants from the Budget Act of 1997, augment programs initiated from the Budget Act of 1997 funds, and award grants for new

programs meeting the requirements of the industry-driven regional collaboratives program through a new requests for applications process. These grants shall be made on a competitive basis and the award amounts shall not be restricted to any predetermined limit, but rather shall be funded on their individual merits.

- (c) Funds allocated by the Board of Governors under this provision shall not be used by community college districts to supplant existing courses or contract education offerings. The Chancellor shall ensure that funds are spent only for expanded services and shall implement accountability reporting for districts receiving these funds to ensure training, credit, and noncredit programs remain relevant to business needs. Programs that do not demonstrate continued relevance and support by business shall not be eligible for continued funding. The Board of Governors shall consider the level of involvement and financial commitments of business and industry as primary factors in making awards. The Board of Governors shall fully report the allocations and results of this program within the annual report of the Economic Development program pursuant to Section 15379.23 of the Government Code.

This report shall include a separate section to report on the results of the \$15,000,000 augmentation from the Budget Act of 1997 which identifies by center/district, region and industry cluster for the following 1) the allocations by category listed in Government Code Section 15379.653; 2) the increment of additional hours of contract, credit and noncredit education added; 3) the number of job placements; and 4) the amount of industry funds leveraged from participating businesses.

- (d) Of the total amount included in Schedule (t), any funds which become available within the program due to discontinuance or reduction of amounts allocated to previously funded centers or programs shall first be made available to any industry driven regional education and training collaborative to increase the level of subsidized training otherwise available, without any predetermined limitations imposed through the application announcement by the Chancellor and the Board of Governors.
- (e) ~~It is the intent of the Legislature that the expansion of funds provided in Schedule (t) of this item be considered for use to encourage community college districts to work to establish a collaborative or collaboratives between hospitals and community college districts to provide nursing training programs in an effort to meet the demand for specialized nurses. "~~

I am reducing schedule (w) of this item by \$10,000,000 which would provide funding for instructional equipment and library materials. This area has received substantial increases in prior years and funds are also provided in Senate Bill 1564.

I am deleting schedule (y) which would provide \$15,000,000 for full-time faculty because there is no evidence that this augmentation will result in a demonstrable increase in access to instructors or the quality of instruction or student services.

Item 6870-301-0574—For capital outlay, Board of Governors of the California Community Colleges. I reduce this item from \$140,386,000 to \$140,261,000 by deleting:

Compton Community College District
Compton College

- (4.5) 40.12.109-Child Development Center-Preliminary plans and working drawings (\$125,000).

I am deleting the legislative augmentation of \$125,000 for preliminary plans and working drawings for the Compton Community College District, Child Development Center project. While I am supportive of efforts in this area, funding for this project is premature as the project has circumvented the Chancellor's Office review and priority setting process. The circumvention of the established process undermines a rational approach to capital outlay where all projects are considered in relationship to competing needs for available resources.

Item 6870-302-0574—For capital outlay, Board of Governor's of the California Community Colleges. I reduce this item from \$57,536,000 to \$46,345,000 by deleting:

Butte-Glenn Community College District

Butte College

- (1) 40.05.105-Allied Health and Public Service-Preliminary plans and working drawings (\$1,280,000)

Grossmont-Cuyamaca Community College District

Cuyamaca College

- (4) 40.19.115-Remodel Vocational Technology N Building-Preliminary plans and working drawings (\$65,000)

Los Angeles Community College District

Los Angeles Valley College

- (5) 40.26.802-Ventilation System, Phase III-Preliminary plans and working drawings (\$169,000)

Merced Community College District

Merced College

- (6) 40.30.114-Interdisciplinary Academic Center-Preliminary plans and working drawings (\$633,000)

San Jose-Evergreen Community College District

San Jose City College

- (8) 40.50.201-Learning Resource Center-Preliminary plans and working drawings (\$974,000)

San Mateo Community College District

San Mateo College

- (9) 40.52.205-Seismic Upgrade-Preliminary plans, working drawings, and construction (\$3,650,000)

Sequoias Community College District

College of the Sequoias

- (10) 40.56.110-Multimedia Learning Resource Center-Preliminary plans and working drawings (\$994,000)

Southwestern Community College District

Southwestern College

- (11) 40.63.103-Learning Resource Center-Preliminary plans and working drawings (\$2,011,000)

Victor Valley Community College District

Victor Valley College

- (12) 40.66.115-Advanced Technology Building-Preliminary plans and working drawings (\$1,099,000)

Feather River Community College District

Feather River College

- (14) 40.73.104-Physical Plant Reconstruction-Preliminary plans, working drawings, and construction (\$316,000)

I am reducing the \$57,536,000 legislative augmentation by \$11,191,000 which reflects augmentations for 10 projects that have circumvented the annual review and

priority setting process. The circumvention of the established prioritization process undermines developing and maintaining a rational approach to capital outlay where all projects are considered in relationship to competing needs for available resources. However, I am sustaining \$46,345,000 for 3 projects which are fully supportable in cost and scope.

I am supportive of providing \$2.5 billion in new bond funds for much needed higher education capital outlay programs. The funding level which I am sustaining is supportable under a four-year program with this level of new bonds.

Item 7980-101-0001—For local assistance, Student Aid Commission. I reduce this item from \$368,768,000 to \$342,789,000 by reducing:

(a) 15-Financial Aid Grants Program from \$377,671,000 to \$351,692,000, and by revising Provision 7.

I am reducing this item by \$25,979,000 to provide an additional 12,880 new Cal Grant Awards. The \$15,121,000 provided will fund an additional 5,056 additional new Cal Grants. Under my Administration, General Fund expenditures for Cal Grants and other grant programs operated by the Commission have increased by \$187,000,000 to a total of \$344,000,000, or more than double the 1990-91 level. During this period, the number of new Cal Grant awards has increased by 17,445 or 56 percent, and the maximum grant for students attending independent institutions has grown from \$5,250 to \$9,036, which is a 72-percent increase.

I am revising Provision 7 to conform to this action.

“7. Notwithstanding any other provision of law, of the amount appropriated in Schedule (a), ~~\$41,100,000~~ \$15,121,000 shall be used to increase the number of new Cal Grant awards above the number awarded in 1997-98. These funds shall be used to provide approximately ~~6,440~~ 2,528 new Cal Grant A awards and ~~6,440~~ 2,528 new Cal Grant B awards; or a different number of awards as determined by the Student Aid Commission to be consistent with the funding provided in this item for new Cal Grant A and B awards.”

Item 8100-101-0001—For local assistance, Office of Criminal Justice Planning. I reduce this item from \$39,749,000 to \$38,254,000 by reducing:

(w) 50.30.700-Special Projects-Public Safety, from \$4,941,000 to \$4,366,000, and by deleting:

(wx) 50.30.704-MUNI Video Surveillance Program (\$920,000).

I am reducing the \$1,000,000 legislative augmentation to expand the CHOICE program in the County of San Diego by \$500,000. This program mentors young people on probation and adolescent foster children. While I am supportive of efforts to assist at-risk youth, I am reducing this augmentation because of the need to fund higher competing priorities, including a prudent reserve.

I am deleting the \$75,000 legislative augmentation for graffiti abatement in the community of Eagle Rock because of the need to fund higher competing priorities, including a prudent reserve.

I am deleting the \$920,000 legislative augmentation for the MUNI Video Surveillance Program, which would install video surveillance equipment in MUNI buses, and provide for the collection, review, and analysis of the video data. Such a program should be funded by the MUNI.

Item 8100-101-0890—For local assistance, Office of Criminal Justice Planning. I reduce this item from \$153,784,000 to \$153,284,000 by deleting:

(gx) 50.30.557-Special Projects-Residential Substance Abuse Treatment (\$500,000), and by deleting Provision 2.

I am deleting the \$500,000 legislative augmentation for the Northern California Regional Juvenile Detention Center in Humboldt County because the operation of this facility is appropriately a local responsibility. I am also deleting Provision 2, which states the Legislature's intent that this appropriation represent the first of three years of program funding to conform to this action.

Item 8200-001-0001—For support of Commission for Economic Development. I delete this item and Provision 1.

I am deleting the \$250,000 legislative augmentation to reestablish the Commission for Economic Development. My 1994-95 Governor's Budget proposed that funding for this commission, which was first established in 1972, be eliminated as part of an ongoing effort to downsize, streamline and make government more efficient. The Legislature agreed with that assessment by not funding the commission in that or any of the subsequent three fiscal years. I am not aware of any change in circumstance that would warrant the restoration of funding for this commission.

I delete Provision 1 to conform to this action.

Item 8260-102-0001—For local assistance, California Arts Council. I reduce this item from \$27,580,000 to \$24,176,000.

I am reducing this item by \$3,404,000 for various museums. Because of the need to fund higher competing priorities, including a prudent reserve, I am deleting funding for the Chabot Observatory, the New California Center, a Cultural Arts Center in the San Fernando Valley, the Los Angeles Police Museum, the Napa Valley Museum, the Randall, the San Francisco Art Commission, and the Mexican Museum. I am also reducing the appropriation for the Military Museum by \$585,000 from \$835,000 to \$250,000.

I am revising Provision 1 to conform to this action.

"1. Of the funds appropriated by this item, the following allocations shall be made: ~~\$250,000~~ ~~\$835,000~~ for the Military Museum; ~~\$300,000~~ for the Chabot Observatory; \$750,000 for the Discovery Science Center; \$120,000 for the Fender Museum in the City of Corona; \$750,000 for the Central Valley Learning Center; \$2,000,000 for the Hollywood Museum; \$500,000 for the National Steinbeck Center; ~~\$800,000~~ for the New California Center; \$475,000 for the Orange County Marine Institute; \$1,750,000 for the San Diego Natural History Museum; \$250,000 for the Maritime Museum of San Diego; \$2,000,000 for the Simon Weisenthal Museum; \$2,000,000 for the Skirball Museum in the City of Santa Monica; \$2,000,000 for the Great Central Valley History Museum; \$30,000 for the Children's Museum in the City of La Habra; ~~\$500,000~~ for a Cultural Arts Center in the San Fernando Valley; \$100,000 for the Turtle Bay Museum Complex; ~~\$500,000~~ for the Los Angeles Police Museum; \$50,000 for the Clarke Memorial Museum; ~~\$50,000~~ for the Napa Valley Museum; \$120,000 for the Antelope Valley Indian Museum; ~~\$264,000~~ for the Randall; ~~\$75,000~~ for the San Francisco Art Commission; \$100,000 for the Fine Arts Museums of San Francisco; \$481,000 for the Asian Art Museum; \$150,000 for the Edwards Air Force Base Historical Flight Museum; \$5,000,000 for the San Francisco Academy of Sciences; and \$5,000,000 for the Walt Disney Concert Hall at the Los Angeles Music Center; and ~~\$250,000~~ for the Mexican Museum."

Item 8260-103-0001—For local assistance, California Arts Council. I reduce this item from \$20,000,000 to \$6,000,000 by reducing:

(a) 15-California Arts Program from \$20,000,000 to \$6,000,000; deleting Provision 1; and revising Provision 2.

I am supportive of the State providing financial assistance for the arts. Given competing program needs, including a prudent reserve, an increase of \$20,000,000 in funding for this purpose is not justified. I am, therefore, reducing this item to \$6,000,000. The Budget I have signed will provide a 52-percent increase over the 1997-98 amount of funding for local art programs. I am deleting Provision 1 which specifies that \$2,000,000 shall be for the support of the Artists in Residence Program because it is unduly restrictive and would direct a disproportionate share of the appropriation to this program. I am also reducing the amount specified in Provision 2 for administrative costs of the Arts Council from \$800,000 to \$240,000 in proportion to the amount I am reducing from funding for the program.

I am revising Provision 2 to conform to this action.

“2. Of the funds appropriated by this item, up to ~~\$800,000~~ \$240,000 shall be used to defray the administrative and related expenses of the California Arts Council in performing its responsibilities under this item.”

Item 8350-001-0001—For support of Department of Industrial Relations. I reduce this item from \$125,858,000 to \$123,485,000 by reducing:

- (3) 30-Workers' Compensation Administration from \$93,254,000 to \$92,538,000;
- (5) 36-Commission on Health and Safety and Workers' Compensation from \$2,244,000 to \$2,119,000;
- (6) 40-Prevention of Industrial Injuries and Deaths of California Workers from \$64,728,000 to \$62,928,000;
- (8.2) 60.20-Division of Apprenticeship Standards for promotion, development, and administration of apprenticeship and other on-the-job training from \$3,886,000 to \$3,857,700;
- (19) Amount payable from the Workplace Health and Safety Revolving Fund (Item 8350-001-0222), from -\$2,257,000 to -\$2,132,000;
- (20) Amount payable from the Workers' Compensation Administration Revolving Fund (Item 8350-001-0223), from -\$18,202,000 to -\$18,059,000;
- (28) Amount payable from the Employment Training Fund (Item 8350-001-0514) from -\$2,808,000 to -\$2,779,700;

and by deleting:

- (8.1) 60.10-California Apprenticeship Council (\$0)

and by deleting Provisions 1, 2, 4, and 5.

I am deleting the \$716,000 legislative augmentation for the Audit Unit in the Division of Workers' Compensation. The Legislature augmented the budget by a total of \$716,000 (\$573,000 General Fund and \$143,000 Workers' Compensation Administration Revolving Fund) to fund nine additional positions to audit insurers and third-party administrators to ensure timely payment of benefits. The Commission on Health and Safety and Workers' Compensation (CHSWC) is currently reviewing the adequacy of the staffing for this unit, and therefore this augmentation is premature. I am also reducing Schedule 20 to conform with this action. These actions conform to the action taken in Item 8350-001-0223.

I am reducing the legislative augmentation of \$1,325,000 in Schedule 5 by \$125,000. This augmentation would provide funding for two positions in the CHSWC and for a contract to recommend revisions to the California Permanent Disability Rating Schedule. I am deleting \$125,000 and the two positions provided for the CHSWC because the need for additional staff has not been demonstrated. I am also reducing Schedule 19 by \$125,000 to conform with this action. Both of these actions conform with the action taken in Item 8350-001-0222.

I am deleting the \$1,800,000 legislative augmentation for the Targeted Industries Consultation Program. This program was intended to be self-supporting from assessments on employers with high rates of worker injuries. Adequate funding is already available within the Department of Industrial Relations to fund the program through the end of the 1998–99 fiscal year.

I am deleting Provision 1, which requires legislative authorization before implementing a change from the modal method of calculating prevailing wage rates. I am also deleting Provision 2, which restricts the transfer of funds from other sources for the purpose of implementing a change from the modal method of calculating prevailing wage rates. This language violates existing statutes which require the Director of the Department of Industrial Relations to set prevailing wages and unduly restricts the ability of the Executive Branch to carry out this statutory duty to set these rates.

I am deleting Provision 4, which appropriates \$28,300 for support of the California Apprenticeship Council on the condition that no funds shall be used for the costs of rulemaking proceedings to adopt or modify administrative regulations concerning apprenticeship. This language infringes upon the ability of the Executive Branch to operate this program in accordance with existing statutes. A separate appropriation is unnecessary since authority for the California Apprenticeship Council is contained within the Division of Apprenticeship Standards and funding will continue to be provided from this source. I am also deleting Schedule 8.1 to conform to this action. These actions conform to the action taken in Item 8350-001-0514.

In addition, I am deleting \$28,300 from both this item and Schedule 28 to correct a technical error in the Budget Bill. When the funds for the support on the California Apprenticeship Council were instead appropriated in Provision 2, the amount appropriated in this item was not reduced. This action conforms to the action taken in Item 8350-001-0514.

I am deleting Provision 5, in which the Legislature appropriates \$110,000 and one position for the Industrial Welfare Commission (IWC) to rescind Section 3 of Wage Orders 1, 4, 5, 7, and 9, and to staff the IWC's duties regarding the minimum wage. The Legislature eliminated full funding for the IWC in 1997–98, and this augmentation for 1998–99 fails to provide the IWC with the resources necessary to carry out its statutorily mandated responsibilities.

Item 8350-001-0222—For support of Department of Industrial Relations. I reduce this item from \$2,257,000 to \$2,132,000.

I am reducing the legislative augmentation of \$1,325,000 for the Commission on Health, Safety and Workers' Compensation (CHSWC) by \$125,000. This action conforms to the action taken in Item 8350-001-0001 regarding staffing for the CHSWC.

Item 8350-001-0223—For support of Department of Industrial Relations. I reduce this item from \$18,202,000 to \$18,059,000.

I am deleting the \$143,000 legislative augmentation to the Audit Unit in the Division of Workers' Compensation. This action conforms to the actions taken in Item 8350-001-0001 regarding the Audit Unit.

Item 8350-001-0514—For support of Department of Industrial Relations. I am reducing this item from \$2,808,000 to \$2,779,700, and deleting Provision 2.

I am deleting \$28,300 from this item to correct a technical error in the Budget Bill. When the funds for the support of the California Apprenticeship Council were appropriated in Provision 2, the amount appropriated in this item was not reduced. This action conforms to the action taken in Item 8350-001-0001 regarding the California Apprenticeship Council.

I am deleting Provision 2, which appropriates \$28,300 for support of the California Apprenticeship Council on the condition that no funds shall be used for the costs of rulemaking proceedings to adopt or modify administrative regulations concerning apprenticeship. This language infringes upon the ability of the Executive Branch to operate this program in accordance with existing law. This action also conforms to the action taken in Item 8350-001-0001 regarding the California Apprenticeship Council.

Item 8660-001-0462—For support of Public Utilities Commission. I revise this item by reducing:

(a) 10-Regulation of Utilities from \$92,499,000 to \$91,799,000,

(e) Reimbursements from -\$12,503,000 to -\$11,803,000, and by deleting Provisions 3, 4, and 8.

I am deleting the legislative augmentation of \$700,000 in reimbursements and 10 positions for administrative support for the Low-Income Governing Board and the California Board for Energy Efficiency. Bringing various utility surcharges and program support for those programs into the State Treasury is the subject of pending legislation. It is more appropriate to address the funding and staffing authority through that legislation.

I am deleting Provisions 3 and 4 to conform with this action.

I am deleting Provision 8 which would prohibit the Public Utilities Commission from enacting any natural gas industry restructuring decisions prior to January 1, 2000. This provision would change substantive law which is not tied to any specific appropriation in the Budget.

Item 8760-001-0001—For support of the Commission of the Californias. I delete this item.

I am deleting the \$250,000 augmentation to support the Commission of the Californias. Adequate funding for this commission is currently included in the budget for the Office of California/Mexico Affairs within the Trade and Commerce Agency.

Item 8800-001-0001—For support of Memberships in Interstate Organizations. I reduce this item from \$2,840,567 to \$2,806,817 by deleting:

(n) 95-Governmental Standards Accounting Board (\$33,750).

I am deleting the \$33,750 legislative augmentation for the Governmental Standards Accounting Board (GASB), to pay assessed unpaid dues. GASB appears largely to ignore the concerns of governmental participants, so that dues are not being utilized in the best interest of state and local governments or the taxpayers of California.

Item 8855-001-0001—For support of Bureau of State Audits. I reduce this item from \$10,922,000 to \$10,752,000 by reducing:

(a) 10-State Auditor from \$11,252,000 to \$11,082,000.

The Legislature augmented the Bureau of State Audits' budget by \$170,000 General Fund, and reimbursement authority of \$330,000 for the Bureau to collaborate and consult with the federal Department of Health and Human Services to determine which California Child Support Automation consortium systems are acceptable and compliant with federal standards. The reimbursements are federal funds collected through the Department of Social Services. The receipt of federal funds is contingent upon the state funding a portion of the study.

I support maximizing the collection of federal funds, however, I am deleting the \$170,000 General Fund legislative augmentation because the Bureau of State Audits can make existing General Fund resources available to match federal funds.

Item 8955-001-0001—For support of Department of Veterans Affairs. I am reducing this item from \$2,691,000 to \$2,690,000 by reducing:

(c) 30-Care of Sick and Disabled Veterans from \$755,000 to \$754,000, and by deleting Provision 1.

I am deleting Provision 1 which would require the Department of Veterans Affairs (DVA) to notify the Legislature regarding specific outcomes resulting from health and safety citations to veterans homes, and the results of home surveys conducted by the State Department of Health Services, as well as the findings of any other agency or entity. Legislative notification is reasonable in instances where a state or federal agency makes findings regarding veterans homes. However, I am concerned that requiring the DVA to respond to findings made by "any entity" places an unreasonable workload burden on the Department. This language could create a potential situation whereby the DVA would be required to notify the Legislature in instances where it is in receipt of frivolous or unsubstantiated findings and/or complaints. This reporting requirement is unduly restrictive and infringes upon the ability of the Executive Branch to manage its programs. In addition, the preparation of such reports would require the Department to redirect resources from other activities important to the operation of veterans homes. I am, therefore, directing the Department to notify the Legislature when a state or federal agency makes findings similar to those specified in this language.

I am reducing this item by \$1,000 to reflect savings that will be achieved from the veto of Provision 1.

Item 8960-011-0001—For support of Veterans' Home of California-Yountville. I delete Provision 4 of this item.

Provision 4 would require \$500,000 of the funds appropriated in this item to be made available for special projects that provide a direct benefit to the members of the Home, and requires the budget for expenditure of those funds to be reviewed and approved by the Administrator of the Home, the Secretary of Veterans Affairs, and the Allied Council. This language is unnecessary because the Home's budget for all expenditures is for the benefit of the members, as well as subject to review and approval by the Administrator and the Secretary. Further, allowing a non-state entity such as the Allied Council to exert approval authority over the Home's budgetary decisions would interfere with the ability of the Executive Branch to manage its programs according to normal statutory procedures.

Item 8966-301-0001—For capital outlay, Veterans' Home of California-Chula Vista. I delete this item and Provision 1.

I am deleting the \$200,000 legislative augmentation which would provide funds to complete an off-site utility connection for the Home's storm sewer system. Local funding of all off-site infrastructure, including connections, was part of the site selection criteria established by the Governor's Commission for a Southern California Veterans Home in the determination of siting the new facility. The City of Chula Vista should fund the cost of the connection consistent with the original agreement for siting the project in that locale.

Item 9210-104-0001—For local assistance, Local Government Financing. I delete this item.

I am deleting this \$40,000,000 augmentation for Los Angeles County to construct three comprehensive health care centers. The financing of these facilities is a local policy and funding responsibility.

Item 9210-105-0001—For local assistance, Local Government Financing. I delete this item and Provisions 1 and 2.

I am deleting this \$340,000 augmentation and budget bill language that would provide funding to the Los Angeles County Local Agency Formation Commission (LAFCO) for the costs it would incur related to Chapter 911, Statutes of 1997. Pursuant to Chapter 911, providing these funds would trigger the implementation of the Special Commission on Los Angeles Boundaries to study and report on Los Angeles County

reorganization issues including the detachment of the San Fernando Valley from the City of Los Angeles. The implementation of the special commission would result in General Fund costs to reimburse the special commission for its costs to study reorganizations and boundary changes in Los Angeles County and report its findings. I am concerned about providing state General Fund resources to address a regional concern when the need to look at land use issues and boundary changes is of statewide concern.

I am deleting Provisions 1 and 2 to conform to this action.

Item 9800-001-0001—For augmentation for Employee Compensation. I reduce this item from \$356,310,000 to \$140,834,000.

I am reducing this item by \$215,476,000 to provide the same level of funding for state employee compensation as I proposed in January. To date, agreements have been reached on state employee contract terms with only two bargaining units. As I indicated in January, I am providing funding for employee compensation subject to the collective bargaining process and tied to civil service reform.

Item 9800-001-0494—For augmentation for Employee Compensation. I reduce this item from \$172,673,000 to \$68,250,000.

I am reducing this item by \$104,423,000 to provide the same level of funding for state employee compensation as I proposed in January. To date, agreements have been reached on state employee contract terms with only two bargaining units. As I indicated in January, I am providing funding for employee compensation subject to the collective bargaining process and tied to civil service reform.

Item 9800-001-0988—For augmentation for Employee Compensation. I reduce this item from \$172,673,000 to \$68,250,000.

I am reducing this item by \$104,423,000 to provide the same level of funding for state employee compensation as I proposed in January. To date, agreements have been reached on state employee contract terms with only two bargaining units. As I indicated in January, I am providing funding for employee compensation subject to the collective bargaining process and tied to civil service reform.

Item 9800-011-0001—For augmentation for Employee Compensation (Proposition 98). I reduce this item from \$4,169,000 to \$1,648,000.

I am reducing this item by \$2,521,000 to provide the same level of funding for state employee compensation as I proposed in January. To date, agreements have been reached on state employee contract terms with only two bargaining units. As I indicated in January, I am providing funding for employee compensation subject to the collective bargaining process and tied to civil service reform.

SEC. 4.11—Federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA). I delete this control section.

This section would prohibit the use of any appropriated funds by either a state or local agency to implement the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 until implementing provisions are enacted into state law.

Current court judgments indicate that the Act is enforceable without state legislative action. In addition, this language restricts my authority and responsibility to implement federal law.

SEC. 11.65—State Office Consolidation Rental Rates. I delete this control section.

I am deleting Control Section 11.65 because it is unduly restrictive and interferes with normal executive branch discretion. The section is narrow in scope and recognizes only one component of state office consolidation issues while failing to address issues such as moving costs related to new facilities.

With the above deletions, revisions and reductions, I hereby approve Assembly Bill 1656.

PETE WILSON, Governor

- 5 [Ch. 326] On this date I am signing Assembly Bill No. 2784 with a deletion.

This bill would serve as the legislative vehicle for a number of statutory changes related to the implementation of the 1998 Budget Act for various environmental and natural resource programs. Among other things, this bill would establish guidance for the Department of Toxic Substance Control regarding proposed changes to the criteria and guidelines for identification of hazardous waste and management standards, including appropriating \$617,000 from the Hazardous Waste Control Account to the Department for the initiative known as the Regulatory Structure Update (RSU).

Although I am signing AB 2784, I am deleting Section 17 in its entirety. The appropriation is linked to unnecessarily restrictive language that is currently the subject of litigation. Furthermore, the Department informs me that the RSU project is complete, thus the appropriation contained in this Section is unnecessary.

PETE WILSON, Governor

- 6 [Ch. 327] On this date I am signing Assembly Bill 2594 with the deletion of \$4,000,000—appropriated for the Department of Youth Authority. This bill would revise provisions of the Repeat Offender Prevention Project (ROPP), a program designed to provide comprehensive juvenile intervention programs to reduce recidivism among juvenile offenders in participating counties. The bill would transfer responsibility for the program from the California Youth Authority to the Board of Corrections.

The 1998–99 Budget Act already contains \$4 million for the Board of Corrections to implement ROPP. Additional funding is both premature and misdirected as the Youth Authority will no longer remain responsible for administering ROPP.

PETE WILSON, Governor

- 7 [Ch. 330] I am signing Senate Bill No. 1564 with reductions.

This bill would make various changes to K–14 statutes to implement the 1998–99 Budget Act.

I am signing this bill, notwithstanding the implication in Section 51 that a deficit continues to exist in the financing of the school district revenue limits for the 1998–99 fiscal year, because such an implication is legally irrelevant in the light of the enactment of Education Code section 42238.8 (Stats. of 1997, Ch. 855, sec 6) last year. Section 51 provides that the Superintendent of Public Instruction shall apply the “same deficit factor” to school district revenue limits that was applied for the 1997–98 fiscal year on the assumption that those limits would be calculated on the basis of a formula unrelated to the funds actually received in the 1997–98 fiscal year. However, effective July 1, 1998, Education Code section 42238.8 required revenue limits for the 1998–99 and subsequent fiscal years to be calculated on the basis of funding received for the 1996–97 fiscal year. As a result of this change in law, no deficit in payment exists with regard to the revised revenue limits, and there is no need for the “deficit factor” referred to in Section 51 of this bill. Since Section 51’s mistaken assumption that a “deficit” in funding continues to exist does not materially change the level of funding for this fiscal year and should not affect the calculation of subsequent fiscal years, I am signing this bill because of the value of other parts of the legislation and the legal irrelevance of Section 51.

However, I am reducing the appropriations made in Sections 41, 45, 49, 50, 52, 53, 54, and 55 by a total of \$109,186,136. These appropriations are being reduced because I have specific concerns about the projects or because of the need to fund higher competing priorities including attaining a prudent reserve. The specific reductions are as follows:

I am reducing the appropriation in Section 41 from \$100,000,000 to \$20,000,000 for deferred maintenance because of the need to fund higher competing priorities including

attaining a prudent reserve. I am revising subdivision (a) of Section 41 to conform to this action.

“(a) Twenty million dollars (\$20,000,000) is hereby transferred from the General Fund to the State School Deferred Maintenance Fund for allocation by the State Allocation Board to school districts for high priority, critical needs projects, as defined by the board to mean projects that school districts were unable to complete with funds provided pursuant to Section 39619 of the Education Code, including, but not limited to, removal of underground storage tanks, roof maintenance and replacement, and projects required to ensure the health and safety of pupils. A school district is eligible to receive an allocation pursuant to this section if it has applied for and received all funds for which it is eligible under Section 39619 of the Education Code. A school district may not use funds allocated to it pursuant to this section to meet the local match required pursuant to Section 39619 of the Education Code.”

I am deleting Section 45 which appropriates \$12,500,000 for adult education and ROC/Ps for training CalWORKs eligible recipients. This appropriation is duplicative of a \$12,500,000 appropriation in Item 6110-156-0001 of the budget bill for the same purposes.

I am reducing the appropriation in Section 49 from \$79,500,000 to \$77,900,000 by reducing subdivision (b), which sets aside funds for joint-use library projects. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve. I am revising paragraph (1) of subdivision (b) of Section 49 to conform to this action.

“(1) Three million four hundred thousand dollars (\$3,400,000) for support of joint-use library projects in the following school districts, for one-time expenses, in accordance with the following:

(A) One million five hundred thousand dollars (\$1,500,000) to the National City School District for the Lincoln Acres joint-use library project between the Sweetwater Union High School District and the National City School District.

(B) One million dollars (\$1,000,000) to the Livermore Valley Joint Unified School District for a Youth Services and Adult Literacy joint-use library project between the Livermore Valley Joint Unified School District and the City of Livermore Public Library.

(C) Three hundred fifty thousand dollars (\$350,000) to the Freedom High School District for a joint-use library project with the Contra Costa County Public Library.

(D) Five hundred thousand dollars (\$500,000) to the Antelope Valley Union High School District for a joint-use library project between Antelope Valley Union High School and the Lancaster Elementary School District, the City of Lancaster, and the County of Los Angeles.

(E) Fifty thousand dollars (\$50,000) to the Miniarets Joint Union High School District for a joint-use library project between the Miniarets Joint Union High School District and the Shaver Lake Branch Library in Fresno County.”

I am reducing the appropriation in Section 50 for reimbursement of claims for voluntary desegregation programs in the 1993–94 and 1994–95 fiscal years and legislative augmentations for reimbursement of claims for court-ordered desegregation programs in the 1994–95 fiscal year from \$10,103,572 to \$2,652,829. Since desegregation claims are funded in the categorical mega-item according to an existing statutory formula, no

legal obligation exists to augment these programs. I am revising subdivision (a) to conform to this action.

“(a) (1) The sum of two million six hundred fifty two thousand eight hundred twenty nine dollars (\$2,652,829) is hereby appropriated from the General Fund to the State Controller, for reimbursement of claims received from the following school districts for costs of court-ordered desegregation programs pursuant to Section 42247 of the Education Code, in accordance with paragraph (2).

(2)

| Court-Ordered Desegregation School Districts | Reimbursement Claims for the 1993-94 fiscal year |
|---|---|
| Bakersfield City School District | 0 |
| Los Angeles Unified School District | 1,355,992 |
| Menlo Park City School District | 0 |
| Palo Alto Unified School District | 0 |
| Ravenswood City School District | 383 |
| Redwood City School District | 186 |
| San Bernardino Unified School District | 63,542 |
| San Diego Unified School District | 502,019 |
| San Francisco Unified School District | 728,981 |
| San Jose Unified School District | 0 |
| San Mateo County Office of Education | 0 |
| Santa Clara County Superintendent of Schools | 0 |
| Sequoia Union High School District | 1,726 |
| Stockton Unified School District | 0 |
| GRAND TOTAL | \$2,652,829 |

I am also deleting subdivision (c) to conform to this action.

I am reducing the reappropriation in Section 52 from \$78,425,000 to \$73,585,000 by making the following reductions:

I am reducing the reappropriation in subdivision (a) by \$1,500,000 for the Math Matters program. There is little evidence to suggest that Math Matters is adequately focused on mathematics teacher training that is based on the most recent Mathematics Program Advisory or on solid computational skills rather than diffuse conceptual skills. Further, although language has been included to prohibit the appropriation of the Math Matters funding unless the State Board of Education certifies that the program has been aligned to state content standards, it is questionable whether such alignment is feasible. Because the Math Matters program is already an established national program and has been operating in California for over four years, I believe that it would be inefficient to provide the comprehensive alignment necessary for a program of only \$1,500,000 when other aligned programs of a larger scale have been funded. I am revising subdivision (a) to conform to this action.

“(a) The sum of twenty eight million five hundred thousand (\$28,500,000) is hereby appropriated to the State Department of Education for allocation to school districts and county offices of education on a one-time basis for school-based mathematics staff development, including training in both content and pedagogy, as recommended in the

Mathematics Program Advisory approved by the State Board of Education, the State Department of Education, and the Commission on Teacher Credentialing. The amount appropriated by this subdivision is available to fund in equal amounts the math staff development programs proposed in Assembly Bill 1331 and Assembly Bill 2442 of the 1997-98 Regular Session."

I am deleting subdivision (j) which reappropriates \$740,000 to the Moorpark Unified School District for home-to-school transportation associated with their voluntary integration program. The school for which this funding is proposed has not yet been built. Standard practice for desegregation funding is to first implement the program prior to submitting a claim for reimbursement. It is inappropriate to provide advanced funding of this nature.

I am deleting subdivision (l) which reappropriates \$2,600,000 to a consortium of county offices of education for three-year grants to provide technical assistance to school districts in maximizing Medi-Cal reimbursements. This is duplicative of a \$2,600,000 reappropriation for the same purposes in the Department of Social Services trailer bill.

I am reducing the reappropriation in Section 53 from \$5,130,000 to \$3,430,000 by making the following reductions:

I am reducing subdivision (a) by \$90,000 for the Pasadena Unified School District for support of the Pasadena Youth Center because of the need to fund higher competing priorities including attaining a prudent reserve. I am revising subdivision (a) to conform to this action.

"Twenty thousand dollars (\$20,000) for allocation on a one-time basis to the Pasadena Unified School for the purchase of textbooks for a tutoring program."

I am deleting subdivision (d) which reappropriates \$180,000 to the San Luis Obispo County Office of Education for the purpose of support of the Port San Luis Marine Center. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am deleting subdivision (f) which reappropriates \$150,000 to the Temple City Unified School District for the purpose of support of the Temple City Arts Academy. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am deleting subdivision (h) which reappropriates \$200,000 to the Ventura Unified School District to fund the first phase of construction of a \$2,400,000 multi-purpose community stadium at Buena High School. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am deleting subdivision (i) which reappropriates \$500,000 to the Rio School District to partially fund construction of the Rio Del Valle Gymnasium/Community Complex. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am deleting subdivision (l) which reappropriates \$480,000 for planning grants to school districts engaged in community-wide master planning. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am deleting subdivision (o) which reappropriates \$100,000 to the San Diego City Unified School District for a homebased early intervention/parent involvement school readiness program. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am reducing the reappropriation in Section 54 from \$5,128,893 to \$4,053,500 by making the following reductions:

I am deleting subdivision (d) which reappropriates \$26,500 to the Alta-Dutch Flat Union School District to expand student bus service. Home-to-school transportation is

funded within the mega-item, and districts have discretion to move funding between mega-item programs based on local priorities. Additionally, districts were provided supplemental grant funds in prior years which could have been directed to home-to-school transportation needs.

I am reducing the reappropriation in subdivision (g) by \$500,000 for the Merced County Office of Education to establish pilot programs linking education, employability skills, and job opportunities for at-risk youth in Merced County. It is my understanding that this \$500,000 is to establish pilot programs in three other counties and that the \$150,000 remaining in this subdivision is sufficient to fund the pilot programs in Merced County. The \$500,000 augmentation is already included in the Trade and Commerce budget. I am revising subdivision (g) to conform to this action.

“One hundred fifty thousand dollars (\$150,000) for allocation, on a one-time basis, to the Merced County Office of Education. Funds appropriated in this item are for the purposes of establishing pilot programs linking education, employability skills, and job opportunities for at-risk youth in Merced County. Funded programs shall accomplish all of the following:

- (A) Work in collaboration with local school districts and businesses.
- (B) Provide at-risk youth tangible skills in career development, job attainment, leadership, and self-development linked to work-based activities.
- (C) Provide a followup component to participants after completion of the program.
- (D) Include a community service component.
- (E) Develop a career network for disadvantaged adolescents.”

I am deleting subdivision (i) which reappropriates \$75,000 to the ABC Unified School District to design and implement the Artesia Youth Academy program. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

I am deleting subdivision (j) which reappropriates \$473,893 to the Pasadena Unified School District for the repayment of funds withheld as a result of an audit of the district’s kindergarten and pre-kindergarten program in 1995–96. The Superintendent of Public Instruction and the Department of Finance have already determined that the district inappropriately claimed average daily attendance for apportionment funding, that the non-compliance in this case was not “minor and inadvertent,” and that the amount is owed to the State.

I am reducing the appropriation in Section 55 from \$70,000 to \$50,000 by deleting subdivision (b) which allocates \$20,000 for planning grants to school districts engaged in community-wide master planning program. I am taking this action because of the need to fund higher competing priorities including attaining a prudent reserve.

PETE WILSON, Governor

8 [Ch. 615] On this date I have signed Assembly Bill No. 1986 with a reduction.

This bill would appropriate \$245.5 million General Fund for the acquisition of the Headwaters Forest Preserve and related properties. This bill also specifies the conditions under which the funds could be encumbered, including specific requirements for the related Habitat Conservation Plan and implementation of a federal watershed study.

I am signing AB 1986, however, I am reducing the appropriation by a total of three million dollars (\$3,000,000) from Section 1(b), which allocates fifteen million dollars (\$15,000,000) to Humboldt County for economic assistance.

The remaining twelve million dollars (\$12,000,000) included in the bill plus the five million (\$5,000,000) allocated by federal government for economic development should provide adequate assistance to Humboldt County for this purpose.

PETE WILSON, Governor

9 [Ch. 793] On this date I have signed Assembly Bill No. 2216.

This bill would provide grants to school districts for fee assistance to economically disadvantaged students taking advanced placement examinations. However, I am reducing the appropriation from \$2.5 million to \$1.5 million to better reflect the expected demand for assistance. This level of funding will provide state subsidies for 37,500 economically disadvantaged students. Although enrollment of economically disadvantaged students in advanced placement courses will continue to grow over time, \$1.5 million will fully fund this program for 1998–99.

SEC. 5. (a) The sum of one million five hundred thousand dollars (\$1,500,000) is hereby appropriated from the General Fund to the State Department of Education for purposes of Section 52244 of the Education Code.

(b) For the purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by subdivision (a) shall be deemed to be “General Fund revenues appropriated for school districts,” as defined in subdivision (c) of Section 41202 of the Education Code, for the 1998–99 fiscal year, and included within the “total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B,” as defined in subdivision (e) of Section 41202 of the Education Code, for the 1998–99 fiscal year.

PETE WILSON, Governor

10 [Ch. 803] On this date I have signed Assembly Bill No. 1292.

This bill would enact the Academic Improvement and Achievement Act to provide grants to school districts working in partnership with colleges, businesses, and community organizations to improve student performance and increase college participation.

I am reducing the \$20 million local assistance appropriation because substantial partnership start-up activities required for program eligibility will limit the number of partnerships qualifying for funding during 1998–99. Additionally, the appropriation for the State Department of Education to administer this program and the college preparation programs enacted by AB 2216, AB 2363 and SB 1697 would exceed the department’s administrative costs.

Therefore, I am reducing the appropriation in paragraph (a) of Section 2 from \$20,000,000 to \$5,000,000, and I am reducing the appropriation in paragraph (b) of Section 2 from \$300,000 to \$160,000.

SEC. 2. (a) The sum of five million dollars (\$5,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to local education agencies for the purposes of, and in accordance with, Chapter 12 (commencing with Section 11020) of Part 7 of the Education Code.

(b) The sum of one hundred sixty thousand dollars (\$160,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction to administer the grants under Chapter 12 (commencing with Section 11020) of Part 7 of the Education Code, under SB 1697 of the 1997–98 Regular Session if that bill is enacted and takes effect on or before January 1, 1999, under AB 2216 of the 1997–98 Regular Session if that bill is enacted and takes effect on or before January 1, 1999, and under AB 2363 of the 1997–98 Regular Session if that bill is enacted and takes effect on or before January 1, 1999.

(c) For the purposes of making computations required by Section 8 of Article XVI of the California Constitution, the appropriation made in subdivision (a) shall be deemed to be "General Fund revenues appropriated for school districts," as defined in subdivision (c) of Section 41202 of the Education Code, and shall be deemed included within the "total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B," as defined in subdivision (e) of Section 41202 of the Education Code, for the year in which the funds are appropriated.

PETE WILSON, Governor

11 [Ch. 909] On this date I have signed Assembly Bill No. 48 with a deletion.

This bill would grant immunity from criminal prosecution to anyone who is subject to prosecution under the state's assault weapons law for conduct related to an SKS rifle, as defined, committed during a specified period in which there were conflicting administrative designations of that weapon. This bill would make the immunity provisions fully retroactive to anyone who is subject to prosecution or prosecuted and convicted of violating the assault weapons law.

I have deleted the \$1.3 million appropriation. The expenditure of these funds appears premature in light of the pending review of the entire assault weapons law now before the California Supreme Court.

PETE WILSON, Governor

12 [Ch. 1007] I am signing Senate Bill No. 1587 with a reduction.

This bill would require the Department of Alcohol and Drug Programs to establish the Drug Court Partnership Program and assess the cost-effectiveness of drug courts. This bill specifies the criteria to be used in awarding grants to develop and implement the program.

However, this bill includes an appropriation in excess of what is needed to maintain a two percent reserve. Therefore, I am reducing the appropriation contained in this bill by \$4,000,000. The revised appropriation shall be \$4,000,000.

PETE WILSON, Governor

13 [Ch. 1018] On this date I have signed Senate Bill No. 687.

This bill would appropriate funds for breast cancer early detection services, primary care clinics, and children's medical treatment.

I have reduced the appropriation in Section 1 (b) from \$7,209,000 to \$3,661,000, the amount needed to maintain the Expanded Access to Primary Care Program (EAPC) at its current level.

I have deleted the \$1,800,000 appropriation in Section 1 (c) for the Children's Treatment Program. This program has historically been funded with Proposition 99 revenues. As the Proposition 99 revenues continue to decline, the pressure to replace that revenue with General Fund will increase. Any decision to replace those Proposition 99 revenues should be considered as part of a broader policy discussion.

PETE WILSON, Governor

14 [Ch. 1022] I am signing Assembly Bill No. 2274 with a deletion.

This bill would require the State Department of Education to collect and summarize data on pupil achievement, outcomes, and characteristics for all alternative education programs in addition to data on their funding from various sources, and appropriate \$100,000 to the Department of Education for this purpose.

It is my understanding that this bill is in response to my veto of AB 792 (Havice), a 1997 bill that would have established a method to equalize continuation school funding. In my veto message for AB 729, I stated that we needed information on what

impact, if any, the different rates of continuation school funding are producing in student outcomes and achievement. The data collection described in this bill would address many of the concerns raised in my veto of AB 729 and could provide the basis for a meaningful evaluation of continuation school funding and effectiveness.

Although I am signing AB 2274, I am deleting Section 2 in its entirety, which includes the \$100,000 General Fund appropriation. The Department of Education should already be collecting the sort of information described in this bill as part of ongoing program evaluation and administration. But since they have failed to collect the most basic information on these programs, I will support this measure. However, I cannot support providing additional funding for the Department of Education to perform an activity that is already within their existing scope of responsibility.

PETE WILSON, Governor

15 [Ch. 1050] On this date I am signing Assembly Bill No. 2794 with a reduction.

This bill would appropriate \$18,913,000 General Fund and special funds for various programs as a supplement to the Budget Act of 1998 (Ch. #324, 1998) and appropriate \$240,000 from the Proposition 98 Reversion Account.

I am sustaining \$70,000 Section 4 (cx) for the La Mesa Community Center. I am reducing Section 28, (q) by \$20,000 leaving \$70,000 for support of the Pasadena Youth Center. I am deleting Section 2, Section 3, Section 4, Section 5, Section 6, Section 7, Section 8, Section 8.5, Section 9, Section 10, Section 11, Section 12, Section 13, Section 14, Section 15, Section 16, Section 17, Section 18, Section 19, Section 20, Section 21, Section 22, Section 23, Section 24, Section 25, Section 26, Section 27, Section 28 (a), (b), (c), (e), (g), (j), (k), (m), (n), (r) and Section 29.

Notwithstanding the merits of the augmentations, it is more critical that the State have a two percent reserve.

PETE WILSON, Governor

16 [Ch. 1051] On this date I am signing Senate Bill No. 1574 with a reduction.

This bill would make an appropriation for nine dredging projects, the Simon Wiesenthal Center-Museum, "at-risk" youth employment training programs, and for local assistance to the Bay Area Rapid Transit District (BART).

I am sustaining \$1,000 in Section (b) and \$1,250,000 in Section (c).

I am deleting \$15,700,000 in Section (a) and \$475,000 in Section (d).

Notwithstanding the merits of the projects, it is more critical that the State have a two percent reserve.

PETE WILSON, Governor

17 [Ch. 1057] I am signing Assembly Bill No. 1812 with a reduction.

This bill would appropriate monies from the General Fund to the San Joaquin Area Flood Control Agency for the Stockton Metropolitan Area Flood Control Project, and to San Luis Obispo County for house laterals and infrastructure improvements.

The appropriation for the San Joaquin Area Flood Control Agency exceeds the normal and customary State share of nonfederal costs. Therefore, I am reducing the appropriation contained in Section 1 by \$2,427,000 to reflect the proper amount. The revised appropriation shall be \$12,625,000. The \$12,000,000 provides 70 percent of the projected nonfederal share of \$17,000,000 for the flood control project, and the \$625,000 provides 50 percent of the projected non share of \$1,250,000 for environmental enhancements.

I am deleting section 2 of this bill. This section would have used public monies to fund improvements on private property (i.e., house laterals for connection to a sewer system). While numerous sewer collection system projects have been funded by the

State Water Resources Control Board (SWRCB) assistance programs, the costs of installation of the house laterals have always been paid for by the property owners. There is some question as to whether this appropriation is legal, or whether it would constitute a gift of public funds.

PETE WILSON, Governor

PREFACE

Digests

The Summary Digest consists of a short summary of each law enacted, and of each constitutional amendment, concurrent or joint resolution adopted by the Legislature in 1998.

The text of the Summary Digest is arranged numerically by chapter number.

Superior numbers following the title refer to a Governor's Message affecting that law. These are printed after the digests in the "Digest Chapters Superior Numbers" section.

Cross Reference Tables

Cross reference tables are arranged numerically by bill or resolution number and indicate the chapter number of each.

New General Laws

Lists new general laws passed in the years 1989–1998 which do not specifically amend, add to, or repeal any existing code or general law.

Index

A subject matter index to all measures, including constitutional amendments and resolutions, is included.

Statutory Record

This edition of the Summary Digest includes a statutory record for 1989–1998. Superior numbers following the *Effect* refer to a special condition affecting that section.

Cumulative statutory records for 10-year periods, 1979–1988, 1969–1978, 1959–1968 and 1949–1958, and for the 16-year period, 1933–1948, are published in separate volumes, which supplement the original statutory record, 1850–1932, published in 1933.

EFFECTIVE DATES

Regular Session

The 1997–98 Regular Session reconvened on January 5, 1998, and adjourned *sine die* on November 30, 1998. Statutes enacted in 1998, other than those taking immediate effect, will become effective January 1, 1999. In absence of other considerations, the provisions of a statute become operative on the date it takes effect. Digests indicate statutes taking immediate effect.

An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes *effective* on the date it is filed with the Secretary of State.

However, any statute may, by its own terms, delay the *operation* of its provisions until the happening of some contingency, until a specified time, or until a vote of the electors at a statewide election. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

A constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed *operative date*. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 1997–98 First Extraordinary Session reconvened on January 5, 1998, and adjourned *sine die* on September 1, 1998. Statutes enacted at an extraordinary session, other than those taking immediate effect, will become effective on the 91st day after adjournment. The 91st day after adjournment is December 1, 1998. Please refer to the preceding year's Statutes and Amendments to the Codes for statutes enacted prior to the reconvening date.

SUPPLEMENTS

| | |
|------------------------|---|
| CODIFIED SECTIONS | "S" denotes a placeholder for superior notes. This is not the latest amended form. |
| STATS OTHER THAN CODES | If the "S" has a superior note attached it is a placeholder for the superior note reference to an effect on a new or existing law. If the "S" does not have a superior note attached it is a reference to a budget augmentation, reappropriation, or reversion. |
| BUDGET | A reference to an augmentation, reappropriation, or reversion. This is not the latest amended form. |
