Charter Chapter 2—City of San Ramon

Charter of the City of San Ramon

[Filed with the Secretary of State April 13, 1998.]

PREAMBLE

The City of San Ramon was incorporated as a general law city in 1983 by residents seeking the right to manage local affairs. The authority of general law cities has diminished as a result of increasing State mandates and involvement in local matters. In order to reclaim the local autonomy sought through incorporation and to preserve the right of the people to present grievances to the most responsive level of government, we, the citizens of San Ramon, enact this Charter.

ARTICLE I

Acceptance of Home Rule

Except as restricted by this Charter, the City shall have all powers allowable under the Constitution of the State of California to adopt ordinances, establish rules, grant franchises, structure City government, and in every way to govern the municipal affairs of the City. Municipal affairs encompass all matters of local concern as determined by the City Council consistent with the meaning of “municipal affairs” under the constitutional, statutory, and judicially defined law of the State of California.

Nothing in this Charter is intended to restrict the City in exercising any right, power or authority granted under the general laws of the State of California. However, the provisions of this Charter shall prevail in the event of any conflict with general law.

ARTICLE II

Structure of City Government

The City shall continue to be governed by a Council of five members, elected at large. The City Council shall appoint a City Manager and a City Attorney. The City Manager, as the chief administrative officer of the City, shall appoint all department heads other than the City Attorney. Involvement in administrative matters by the Council or by any individual Councilmember shall occur only by direction of the City Manager.

ARTICLE III

Selection of Mayor

The Mayor shall be selected annually from among the members of the City Council and shall serve as Mayor for a period of one year. The City Council, by ordinance, shall establish a selection process based upon rotation with the objective that no Councilmember serve as Mayor more than once during any term to which the Councilmember has been elected or appointed. No Councilmember shall be denied selection as Mayor if otherwise entitled under the adopted rotation system.

ARTICLE IV

Public Contracting

The City Council, by ordinance, shall establish the procedures, including any competitive bidding requirements, to be followed by the City in awarding public contracts of any nature, including those for construction of public works.

ARTICLE V

Continuation of Existing Law

All ordinances, resolutions, rules and regulations of the City in effect as of the effective date of this Charter shall continue in effect until repealed or amended.

ARTICLE VI

Interpretation

The provisions of this Charter shall be interpreted broadly to favor the exercise of home rule. If any provision is found by a court to be invalid, the remaining provisions of the Charter shall remain in full force and effect.

Charter Chapter 10—City of Sacramento

Amendments to the Charter of the City of Sacramento

[Filed with the Secretary of State September 17, 1998.]

Section 6 of Article XIX is added to the Charter to read as follows:

§ 600 Declaration of Policy. It is hereby declared to be the policy of the City of Sacramento that strikes by fire fighters are not in the public interest and should be prohibited, and that a method should be adopted for peacefully and equitably resolving disputes that might otherwise lead to such strikes.

§ 601 Prohibition Against Strikes. If any fire fighter employed by the City of Sacramento wilfully engages in a strike against the City, said employee shall be dismissed from his or her employment and may not be reinstated or returned to City employment except as a new employee. No officer, board, council or commission shall have the power to grant amnesty to any employee charged with engaging in a strike against the City.

§ 602 Obligation to Negotiate in Good Faith. The City, through its duly authorized representatives, shall negotiate in good faith with a recognized employee organization, which primarily represent fire fighters, on all matters relating to the wages, hours, and other terms and conditions of City employment, including the establishment of procedures for the resolution of grievances concerning the interpretation or application of a negotiated agreement. Unless and until an agreement is reached through negotiations between authorized representatives of the City and a recognized employee organization, which primarily represents fire fighters, for the non-management and non-confidential members of the fire department or a determination is made through the impartial arbitration procedure hereinafter provided, no existing benefit, term or condition of employment for said non-management or non-confidential fire department employees shall be altered, eliminated or changed.

§ 603 Impasse Resolution Procedures.

(a) All disputes or controversies pertaining to wages, hours or terms and conditions of employment for non-management and non-confidential employees which remain unresolved after good faith negotiations between the City and a recognized fire department employee organization, which primarily represents fire fighters, shall be submitted to a three-member Board of Arbitrators upon the declaration of an impasse by the City or by the recognized employee organization involved in the dispute.

(b) Representatives designated by the City and representatives of the recognized employee organization involved in the dispute shall each select and appoint one arbitrator to the Board of Arbitrators within three (3) days after either party has notified the other, in writing, that it desires to proceed to arbitration. The third member of the Arbitration Board shall be selected by agreement between the City and the employee organization, and shall serve as the neutral arbitrator and Chairperson of the Board. In the event that the City and the recognized employee organization involved in the dispute cannot agree upon the selection of the neutral arbitrator within ten (10) days from the date that either party has notified the other that it has declared an impasse, either party may then request the State Mediation and Conciliation Service of the State of California Department of Industrial Relations to provide a list of seven (7) persons who are qualified and experienced as labor arbitrators. If the City and the employee organization cannot agree within three (3) days after receipt of such list on one of seven (7) persons to act as the neutral arbitrator, they shall alternately strike names from the list of nominees until one name remains and that person shall then become the neutral arbitrator and Chairperson of the Arbitration Board.

(c) Any arbitration proceeding convened pursuant to this Article shall be conducted in conformance with, subject to, and governed by Title 9 of Part 3 of the California Code of Civil Procedure. The Arbitration Board shall hold public hearings, receive evidence from the parties and cause a transcript of the proceedings to be prepared. The Arbitration Board, in the exercise of its discretion, may meet privately with the parties and mediate or mede-arb issues in dispute. The Arbitration Board may also adopt such other procedures that are designed to encourage an agreement between the parties, expedite the arbitration hearing process, or reduce the costs of the arbitration process.

(d) In the event no agreement is reached prior to the conclusion of the arbitration hearings, the Arbitration Board shall direct each of the parties to submit, within such time limit as the Arbitration Board may establish, a last offer of settlement on each of the remaining issues in dispute. The Arbitration Board shall decide each issue by majority vote by selecting whichever last offer of settlement on that issue it finds most nearly conforms to those factors traditionally taken into consideration in the determination of wages, hours, benefits and terms and conditions of public and private employment, including, but not limited to the following: changes in the average consumer price index for goods and services; the wages, hours, benefits and terms and conditions of employment of employees performing similar services to the extent that such can be reasonably done, including comparable classifications in public employment in the Sacramento metropolitan area, and in the three California cities next larger and the three California cities next smaller in population than Sacramento; and the financial condition of the City of Sacramento and its ability to meet the costs of the decision of the Arbitration Board.

(e) After reaching a decision, the Arbitration Board shall mail or otherwise deliver a true copy of its decision to the parties. The decision of the Arbitration Board shall not be publicly disclosed and shall not be binding until ten (10) days after it is delivered to the parties. During that ten (10) day period the parties shall meet privately, attempt to resolve their differences, and by mutual agreement amend or modify the decision of the Arbitration Board. At the conclusion of the ten (10) day period, which may be extended by mutual agreement between the parties, the decision of the Arbitration Board, as it may be modified or amended by the parties, shall be publicly disclosed and shall be binding on the parties. The City and the employee organization shall take whatever action is necessary to carry out and effectuate the arbitration award. No other actions by the City Council or by the electorate to confirm or approve the decision of the Arbitration Board shall be permitted or required.

(f) The expenses of any arbitration proceeding convened pursuant to this Article, including the fee for the services of the chairperson of the Arbitration Board and the costs of preparation of the transcript of the proceedings shall be borne equally by the parties. All other expenses which the parties may incur individually are to be borne by the party incurring such expenses.

SECTION 95. VOTER APPROVAL OF CERTAIN ARBITRATED LABOR CONTRACTS.

(a) Notwithstanding any other provision of the Charter, in the event a ballot measure is approved at the June 2, 1998, primary election to amend this Charter to require any labor contracts to be submitted to binding arbitration, the results of such arbitration as to certain contract provisions shall be binding only to the extent that those provisions, as designated herein, are approved by the majority of the voters voting in a county-wide election in which the question of approval or disapproval is placed in accordance with the requirements of this section.

(b) In the event of arbitration resulting from a Charter amendment described in subdivision (a) of this section, the Board of Supervisors shall cause provisions of a contract approved by the arbitrator(s) to be submitted to the voters only as follows:

(2) If in the sole and absolute discretion of the Board of Supervisors, any portion of the arbitration panel's decision would, absent diversion of funds deemed necessary by the Board for other County programs or services, require a tax increase to fund the decision, that portion only of the panel's decision must, prior to implementation, be submitted to the electorate in accordance with this section;

If neither the Sheriff nor the Board of Supervisors makes requisite findings within ten (10) days of receipt of notice of the arbitration panel's decision, no voter approval shall be required and the contract shall become effective in accordance with other provisions of this Charter.

(d) Upon approval of provisions of a contract by the voters, those provisions shall become effective no later than thirty (30) days from the date election results are certified by the Registrar of Voters.

(e) Upon disapproval of provisions of a contract by the voters, the decision of the arbitrator(s) as to those issues shall be null and void and the County and

affected collective bargaining unit(s) may resume the bargaining process in the same manner as though arbitration on those issues had not yet occurred.

Section 401. **NUMBER AND TERM.** There shall be a City Council consisting of a Mayor and seven Councilmembers. The seven Councilmembers shall be nominated and elected by district as provided in this Charter. The term of office of the Mayor or Councilmembers shall be four years, beginning at 12 o'clock noon on the first Monday in May next following their election and until their respective successors are elected and qualify.

Section 402. **ELIGIBILITY.** The Mayor and each Councilmember shall be a qualified elector of the City. Each Councilmember shall be a resident of the district from which the Member is elected or appointed.

Section 403. **VACANCY DEFINED.** If the Mayor shall cease to be a resident of the City or if any Councilmember shall cease to be a resident of the district, respectively, from which elected or appointed, or if either the Mayor or any Councilmember shall be absent without permission of the City Council from all regular City Council meetings within a period of 60 consecutive days from the

last regular meeting attended, shall resign, shall be adjudged legally incompetent or shall be otherwise barred from holding office by reason of state or federal law, that office shall thereupon be declared vacant by a majority vote of the City Council.

Section 404. VACANCY-APPOINTMENT. If a vacancy occurs in the office of Mayor, the Vice Mayor shall assume the duties of the office of Mayor until the office shall be filled at the next general municipal election. The assumption of the duties of the Mayor shall not require that the Vice Mayor relinquish his or her seat as a Councilmember elected or appointed from a district. If a vacancy occurs among any other members of the City Council, the remaining members shall within 75 days after such occurrence appoint a qualified resident voter of the unrepresented district who shall hold office until the office is filled at the next general municipal election. If the City Council cannot agree on one person to fill the vacancy, the replacement shall be chosen by lot.

Nothing herein provided shall limit the power of the City Council to provide by ordinance for the continuity of City Government in the event of war, enemy-caused disaster or common accident in which a majority of the members of the City Council are killed, missing or injured so as to be unable to perform their duties.

Section 405. COMPENSATION. Pursuant to an ordinance adopted by the City Council authorizing the formation of a Committee on City Councilmembers' Compensation ("the Committee"), each member of the City Council shall nominate one person to the Committee, subject to the approval of the City Council. The duties of the Committee shall be to study, take public input, and make recommendations regarding the compensation paid to members of the City Council and benefits to which the members of the City Council are entitled including, but not limited to, insurance, expense allowances and reimbursement.

Each member of the Committee shall be an elector of the City. In making their nominations, City Councilmembers shall consider persons recommended by representatives of the fields of higher education, labor, business, and organizations reflecting the diversity of the City. No person shall be eligible for membership on the Committee who is, or within five years prior to his or her appointment was, an officer or employee of the City; or who has, within five years prior to his or her appointment, had any personal or business-related contractual relation with the city.

The nominee of the Mayor shall act as temporary chair of the Committee, with the power to fix the time and place of the Committee's first meeting. At such meeting, the Committee shall elect a Chair and a Vice-Chair, and shall adopt such rules as it deems necessary to conduct its business. The provisions of the Ralph M. Brown Act shall govern the conduct of meetings of the Committee. Records of the Committee shall be maintained as public records as provided by State law. The Committee shall gather such information as it deems necessary to complete its duties, and prior to making its recommendation, shall hold at least

one duly-noticed public hearing for the purpose of seeking public input. The City Manager shall provide office space, staff assistance and supplies for the work of the Committee. Committee members shall serve without compensation, other than reimbursement for reasonable expenses pursuant to City ordinance.

Not later than October 1 of the year the Committee is appointed, the Committee shall submit to the City Council a report adopted by a majority of the members of the Committee recommending either that no change be made in the compensation paid to members of the City Council, or that change, either an increase or a decrease, be made and the amount thereof. If such report is not timely submitted, or is not adopted by a majority of the members of the Committee, the Committee's recommendation shall be deemed to be a recommendation for no change. The Committee shall cease to exist thirty (30) days after its report is submitted to the City Council.

The City Council may take no action on the recommendation, or it may, by ordinance, adjust the compensation paid to members of the City Council by an amount not to exceed the recommendations of the Committee. No action which increases the compensation of City Council in excess of the level recommended by the Committee may be taken without a vote of the people. Any ordinance adopted pursuant to a recommendation of the Committee shall be adopted by a 2/3 majority vote and shall be subject to referendum as provided in this Charter. Once compensation has been initially established as provided in this section, no increase in the annual compensation shall be greater than five percent for each calendar year following the operative date of the most recent change for the compensation. No more than one ordinance establishing the compensation of City Council members may be adopted in any two calendar year period. Any compensation and benefits fixed as a result of this Section shall constitute full compensation for the services of the City Council member and the maximum benefits provided to the City Council member by the City.

Until such time as the City Council adopts an ordinance as provided herein, Councilmembers shall continue to receive the compensation in effect as of the effective date of the Section.

Section 406. THE MAYOR. The Mayor shall be nominated and elected by the voters of the City at large for a term of four years beginning with the municipal elections to be conducted in 1999. Section 506. **ACTION BY CITY COUNCIL.** No action of the City Council, including the adoption of ordinances, resolutions and motions, shall be valid unless it receives the affirmative vote of five members.

Section 509. **SIGNATURE AND CERTIFICATION.** Every ordinance adopted by the City Council shall be signed by the Mayor or, in his or her absence, by the Vice Mayor, or shall be signed by five members of the City Council and shall be certified by the City Clerk.

Charter Chapter 15—City of San Diego

Amendments to the Charter of the City of San Diego

[Filed with the Secretary of State December 4, 1998.]

Section 90.3 of the Charter of The City of San Diego is Amended (by Addition) to read as follows:

SEC. 90.3 VOTER APPROVAL FOR MAJOR PUBLIC PROJECTS CONFERRING SIGNIFICANT PRIVATE BENEFIT.

(a) The City may not enter into the agreements necessary for financing, development, and construction of a major public project that confers a significant private benefit, unless that project is submitted to a vote at a municipal election and a majority of those voting in that election approve the project.

(b) For purposes of this section 90.3:

(1) the term “major public project” means any capital improvement for which the expenditure of City funds is proposed, other than capital improvements for water, sewer or other public infrastructure, and for which the City’s total cost is in excess of an amount equal to ten percent (10%) of the City’s General Fund budget for the fiscal year in which the project is proposed to be approved by the electorate;

(2) the term “cost” means the amount paid to directly develop or construct the project, and does not include costs related to financing or interest;

(3) the term “significant private benefit” means that one or more identifiable private individuals or entities will have the exclusive use of any portion of the proposed capital improvement, pursuant to any type of agreement, for more than ten percent (10%) of the days during any calendar year that the proposed capital improvement is available for use, for the purpose of generating federal or state taxable income for such private individual or entity;

(4) the term “City funds” means funds authorized to be spent pursuant to an appropriation in the City’s annual budget and derived through any type of financing mechanism, including cash, loans, revenue bonds, lease revenue bonds or certificates of participation, but not including funds generated by a financing mechanism in which the City acts solely as a conduit, and where all costs and financial risks associated with the financing, development and construction are the responsibility of individuals or entities other than the City; and

(5) the term “identifiable private individuals or entities” means those individuals or entities which can be clearly identified, prior to the development of a project, as the party or parties who will ultimately use, rent, lease, or operate the facility for their own benefit. Not included within this definition are private individuals, business interests, groups, trades, associations or any other private entity that may derive private benefit indirectly as a result of the major public project.

(c) Nothing in this section supersedes or nullifies the application of the voter approval requirements of section 90 of this Charter, governing any major public project financed by the City’s issuance of general obligation bonds.

(d) Any major public project that has been submitted to a vote at a municipal election and has been approved by a majority of those voting in that election on or before the effective date of this section shall be deemed to have complied with and fulfilled the requirements of this section.

Section 94 of the Charter of The City of San Diego is Amended to read as follows:

SEC. 94 CONTRACTS.

In the construction, reconstruction or repair of public buildings, streets, utilities and other public works, when the expenditure therefor shall exceed the sum established by ordinance of the City Council, the same shall be done by written contract, except as otherwise provided in this Charter, and the Council, on the recommendation of the Manager or the head of the Department in charge if not under the Manager’s jurisdiction, shall let the same to the lowest responsible and

reliable bidder, not less than ten days after advertising for one day in the official newspaper of the City for sealed proposals for the work contemplated. If the cost of said public contract work is of a lesser amount than the figure established by ordinance of the City Council, the Manager may let said contract without advertising for bids, but not until the Purchasing Agent of the City shall have secured competitive prices from contractors interested, which shall be taken under consideration before said contract is let. The Council may, however, establish by ordinance an amount below which the Manager may order the performance of any construction, reconstruction or repair work by appropriate City forces without approval by Council. When such Council approval is required, the Manager's recommendation shall indicate justification for the use of City forces and shall indicate whether the work can be done by City forces more economically than if let by contract.

In case of a great public calamity, such as extraordinary fire, flood, storm, epidemic or other disaster the Council may, by resolution passed by a vote of two-thirds of the members elected to the Council, determine and declare that the public interest or necessity demands the immediate expenditure of public money to safeguard life, health or property, and thereupon they may proceed, without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of any sum required in such emergency, on hand in the City treasury and available for such purpose. All contracts before execution shall be approved as to form and legality by the City Attorney.

Each bidder shall furnish with his bid such security or deposit insuring the execution of the contract by him as shall be specified by the Council or as provided by general law.

For contracts exceeding \$100,000.00, the Council shall require each contractor to insure the faithful performance of his contract by delivering to the City a surety bond in an amount specified by the Council, executed by a surety company authorized to do business in the State of California; provided, however, that in all contracts the Council shall require the retention of sufficient payments, under the contract to insure the protection of the City against labor or material liens.

The Council, on the recommendation of the Manager, or the Head of the Department not under the jurisdiction of the Manager, may reject any and all bids and readvertise for bids. The Council may provide that no contract shall be awarded to any person, firm or corporation if prison or alien labor is to be employed in performing such contract, or if the wage schedule for employees engaged in performing such contract is based on more than eight hours of labor per day. Any contract may be let for a gross price or on a unit basis and may provide for liquidated damages to the City for every day the contract is uncompleted beyond a specified date. It shall be competent in awarding any contract to compare bids on the basis of time completion, provided that when any award has been made in consideration, in whole or in part, of the relative time estimates of bidders for the completion of the work, the performance in accordance with such

time limits shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties, and provided further, that for any contract awarded solely or partially on a specified time for completion the Council shall not extend such time limits unless such extension be recommended by the Manager and the Head of the Department concerned. No officer, whether elected or appointed, of The City of San Diego shall be or become directly or indirectly interested in, or in the performance of, any contract with or for The City of San Diego, or in the purchase or lease of any property, real or personal, belonging to or taken by said City or which shall be sold for taxes or assessments or by virtue of legal process or suit of said City. Any person wilfully violating this section of the Charter shall be guilty of a misdemeanor and shall immediately forfeit his office and be thereafter forever barred and disqualified from holding any elective or appointive office in the service of the City. No officer, whether elected or appointed, shall be construed to have an interest within the meaning of this section unless the contract, purchase, lease, or sale shall be with or for the benefit of the office, board, department, bureau or division with which said officer is directly connected in the performance of his duties and in which he or the office, board, department, bureau or division he represents exercises legislative, administrative or quasi-judicial authority in the letting of or performance under said contract, purchase, lease or sale.

All contracts entered into in violation of this Section shall be void and shall not be enforceable against said City; provided, however, that officers of this municipality may own stock in public utility service corporations and the City permitted to contract for public utility service when the rates for such service are fixed by law or by virtue of the Public Utilities Commission of the State of California; and provided further, that no officer shall be prohibited from purchasing the services of any utility whether publicly or privately owned, whether or not the rates are fixed by law or by the Public Utilities Commission of the State of California; and provided further, that in designating any bank as a depository for the funds of said City, any officer interested as a stockholder or otherwise in such bank shall not be deemed to have an interest in such City contract within the meaning of this section, and in each of the cases enumerated herein such contracts shall be valid and enforceable obligations against the municipality.

Section 94.1 of the Charter of The City of San Diego is Amended (by Addition) to read as follows:

SEC. 94.1 JOB ORDER CONTRACTS.

Notwithstanding any provisions of this Charter to the contrary, the City is not prohibited from awarding public works contracts on a unit cost basis for all necessary labor, materials, and equipment provided such contracts are secured on a competitive basis as otherwise required by this Charter. The City Council shall establish by ordinance guidelines for the award and use of such unit cost contracts, and may set an amount below which the City Manager may award such contracts.

Section 94.2 of the Charter of The City of San Diego is Amended (by Addition) to read as follows:

SEC. 94.2 DESIGN-BUILD CONTRACTS.

Notwithstanding any provisions of this Charter to the contrary, the City is not prohibited from awarding contracts for the combined design and construction of public works pursuant to a process of competitive negotiation, provided the process of competitive negotiation is conducted as may otherwise be required by this Charter or the Municipal Code. The City Council shall establish by ordinance guidelines for the award, use, and evaluation of such design-build contracts, and may set an amount below which the City Manager may award such contracts.

Section 94.3 of the Charter of The City of San Diego is Amended (by Addition) to read as follows:

SECTION 94.3 BOND REIMBURSEMENT PROGRAM.

Nothing in this charter shall prohibit the City Council from creating a program by ordinance to reimburse contractors for all or a portion of the premium paid by a contractor for a surety bond required under Section 94 of this Charter. If it creates a bond reimbursement program, the Council shall by ordinance establish eligibility criteria for contractors, levels and thresholds of reimbursement, the process for seeking reimbursement, and other requirements for operation of, and participation in, the program.

Charter Chapter 16—City of Los Angeles

Amendments to the Charter of the City of Los Angeles

[Filed with the Secretary of State December 10, 1998.]

The Charter of the City of Los Angeles is hereby amended as follows: Article XVIII by adding Section 190.52 and Article XXXV by adding Sections 536.4 and 541, all as detailed below:

Section 1. The Los Angeles City Charter is hereby amended by adding Section 190.52, thereto, to read as follows:

Section 190.52. Authority of City Council to Establish Domestic Partner Benefits by Ordinance.

Operative on the effective date of this section, the City Council may by ordinance provide survivor benefits for domestic partners of System Members, subject to such conditions of entitlement as set forth in any ordinance adopted in accordance with the provisions of this section, which includes the authority to expand the definition of qualified surviving spouse for purposes of this Article to include a domestic partner. Ordinances adopted pursuant to this section must be approved

by not less than two-thirds of the membership of the Council, subject to the veto of the Mayor and readoption by the Council in the same manner as other ordinances requiring a two-thirds vote. No such ordinance may be finally adopted by the Council until the expiration of at least thirty days after its first presentation to the Council, nor until after a public hearing has been held thereon. As a further condition to the adoption of such ordinance, it shall be required that the Council be advised in writing by an enrolled actuary as to the cost of the benefits so provided.

Section 2. The Los Angeles City Charter is hereby amended by adding Section 536.4, thereto, to read as follows:

Section 536.4. Authority of City Council to Establish Domestic Partner Benefits by Ordinance.

Operative on the effective date of this section, the City Council may by ordinance provide survivor benefits for domestic partners of Plan Members, subject to such conditions of entitlement as set forth in any ordinance adopted in accordance with the provisions of this section, which includes the authority to expand the definition of qualified surviving spouse for purposes of this Article to include a domestic partner. Ordinances adopted pursuant to this section must be approved by not less than two-thirds of the membership of the Council, subject to the veto of the Mayor and readoption by the Council in the same manner as other ordinances requiring a two-thirds vote. No such ordinance may be finally adopted by the Council until the expiration of at least thirty days after its first presentation to the Council, nor until after a public hearing has been held thereon. As a further condition to the adoption of such ordinance, it shall be required that the Council be advised in writing by an enrolled actuary as to the cost of the benefits so provided.

Section 3. The Los Angeles City Charter is hereby amended by adding Section 541, thereto, to read as follows:

Section 541. Authority of City Council to Establish Pension Benefits by Ordinance in Connection with Mergers and Contracts for Fire and Police Services.

Operative on the effective date of this section, the City Council may by ordinance establish pension benefits for persons who leave the employment of an Outside Agency (hereby defined to be any governmental entity other than the Fire or Police Departments of the City of Los Angeles) to become Department Members of the Fire or Police Department pursuant to a merger or contract for fire or police services which is authorized by action of the City Council (hereinafter Transferring Employees). The authority given to the Council to establish pension benefits herein is specifically limited as follows:

1. The Council may not provide service credit to a Transferring Employee for service performed prior to becoming a Department Member if the Transferring Employee is receiving or will be entitled in the future to receive pension benefits from another pension plan based upon such prior period of service.

2. Any ordinance adopted pursuant to this section which provides for a Transferring Employee to receive service credit for prior service must prescribe a mechanism for funding the costs attributable to this prior service which may include, but is not limited to, the transfer of assets from another pension plan and/or reimbursements of costs from the Outside Agency.

Except as limited above, this section grants the Council broad authority to enact ordinances necessary for the provision and funding of pension benefits for Transferring Employees. This includes, but is not limited to, the authority to provide Transferring Employees with benefits other than those provided in this Article, whether by contracting for coverage with a non-City pension plan, by providing for alternative benefits to be administered by the Board of Pension Commissioners, or by such other means as the Council shall so determine, as well as the authority to provide for the transfer of pension assets and liabilities in connection with mergers and contracts. Should it be necessary for the City to assume responsibility for the provision of pension benefits to persons other than the Transferring Employees in order to facilitate such a merger or contract, then the Council's authority pursuant to this section shall include the authority to provide benefits to such other persons provided that the future annual costs attributable due to the provision of benefits to such additional persons shall be clearly identified by the actuary as required below and further provided that any ordinance including the provision of benefits to such additional persons must prescribe a mechanism for funding the cost of these benefits which may include, but is not limited to, the transfer of assets from another pension plan and/or reimbursements from the Outside Agency.

Ordinances adopted pursuant to this section must be approved by not less than two-thirds of the membership of the Council, subject to the veto of the Mayor and readoption by the Council in the same manner as other ordinances requiring a two-thirds vote. No such ordinance may be finally adopted by the Council until the expiration of at least thirty days after its first presentation to the Council, nor until a public hearing has been held thereon. As a further condition to the adoption of such ordinance, it shall be required that the Council be advised in writing by an enrolled actuary as to the cost of the benefits so provided.

We, the undersigned, do hereby certify the foregoing to be the full, true and correct version of the original final text of Charter Amendment FF approved by a majority vote of the qualified electors of the City of Los Angeles at the Special Election consolidated with the State's General Election on November 3, 1998.

Upon consideration of such consolidation, annexation or joint powers agreement, but prior to final approval, the Council shall request that the Civil Service Commission establish the qualifications, fitness requirements and background standards for the prospective employees and establish the method of determining that the prospective employees meet those qualifications, requirements and standards. The Commission shall also establish the appropriate employment classifications, length of probationary periods, and seniority for layoff and examination purposes for the prospective employees. The Council may establish terms and conditions of employment in addition to those provided elsewhere in the Charter, and in addition to or different from those provided by ordinance, by memorandum of understanding or otherwise.

Those employees who are determined by the Civil Service Commission to have met the qualifications, requirements and standards established by the Commission, and who meet all other legally applicable requirements, shall become employees of the City upon final approval of the consolidation, annexation or joint powers agreement.

If the duties of any officer or employee of any municipality or any special assessment or other special district conflict with the duties of any officer of the City, then that officer or employee shall become an employee of the City in a position subordinate to the officer of the City.

Such audits may include financial, compliance, efficiency and economy, and program results auditing. The Auditor shall consult with the Mayor, City Council, and City Manager regarding the selection of audit entities, but the final decision of what to audit shall remain with the Auditor. The Auditor shall furnish the City Council with a planned audit schedule by the beginning of each fiscal year. The Auditor may modify the audit schedule as necessary and will notify the City Council of such modifications.

The Auditor shall have unrestricted access to employees, officials, records and reports, and as necessary, require all branches, departments, and officials of government to produce documents, files, and other records and information.

Audit reports completed by the Auditor shall be provided to the Council and made available to the public. The Auditor shall retain workpaper files concerning all audit reports issued for at least three years.

Funds sufficient to carry out the responsibilities specified herein shall be provided (subject to available resources).

Payment by the City, excepting redemption of bonds and interest coupons, shall be made only upon vouchers certified by the head of the appropriate department and approved by the City Manager, and by means of warrants on the City Treasury, or by checks drawn upon deposits maintained in a bank or banks, issued by the Auditor and countersigned by the City Manager. The Auditor shall examine all payrolls, bills and other claims and demands against the City, and shall issue no warrant or check for payment unless he finds the claim is in proper form, correctly computed and duly certified; that it is justly and legally due and payable; that a budget appropriation has been made therefore which has not been exhausted, or that the payment has been otherwise legally authorized; and that there is money

available to make payment. He may require any claimant to make oath as to the validity of the claim. He may investigate any claim, and for such purpose may examine witnesses under oath; and if he finds it fraudulent, erroneous or otherwise invalid, he shall not issue a warrant or check therefore. No suit shall be brought on any claim for money against the City or of any officer, board or commission of the City until a demand for the same has been presented and rejected in whole or in part. If rejected in part, suit may be brought to recover the whole. Nor shall suit be brought against the City or any officer, board or commission thereof upon any claim or demand which has been approved and audited; provided that nothing therein shall be construed so as to deprive the holder of any demand of his right to resort to writ of mandamus or other proceeding against the City Council or any officer, board or commission to compel him or it to act upon such claim or demand, or pay the same when audited.

B. The first paragraph of Article V, Section 19 is amended to read as follows:
Section 19. Salaries.

The Councilmembers shall receive remuneration for the performance of their official duties at the rate of up to \$1,800 per month, and the Mayor shall receive up to \$2,850 per month, effective the Council term beginning in December 1998. Such amount shall be adjusted upward by the increase in the cost of living for the San Francisco Bay Area as verified by official United States economic reports. Either the Mayor or any Councilmember may, at his or her sole discretion, reduce the remuneration paid himself or herself. In any such case, the difference between the reduced amount actually paid to such Mayor or Councilmember and the amount of remuneration authorized by this Article shall be appropriated as part of the budget of the Mayor or Councilmember taking the voluntary reduction in remuneration and such differential may be expended for any purpose otherwise authorized for the expenditure of sums so budgeted. If the Mayor or any member of the Council is absent from one or more regular meetings of the Council during any calendar month, unless excused by the Council in order to attend to official business of the City, or unless excused by the Council as a result of illness from attending no more than two regular meetings in any calendar year, he or she shall be paid for each regular meeting attended during such month in an amount equal to the total monthly remuneration divided by the number of regular meetings held during such month.

Section 9. Election.

The candidate receiving the highest number of votes for the offices, respectively, of Mayor, Auditor and Councilmembers of the City shall be elected to such offices, provided that such candidate receives at least 45% of the votes cast for each such office. Article III. City Powers.

Sec. 301. Powers of the City.

(b) Change of District Boundaries. If a member of the Council ceases to be a resident of the district from which the member (or, in the case of an appointee, a predecessor) was nominated solely because of a change in the boundaries of any district as in this Charter provided, the member shall not lose office during that term by reason of such change.

(a) The office of a Councilmember shall become vacant upon the member's death, resignation, removal from office or forfeiture of office in any manner authorized by law.

(c) Filling of Vacancies. A vacancy in the Council shall be filled for the remainder of the unexpired term, if any, at the next regular election following not less than sixty (60) days upon the occurrence of the vacancy. The Council by a majority vote of all its remaining members shall appoint a qualified person to fill the vacancy until the person elected to serve the remainder of the unexpired term takes office. If the Council fails to do so within thirty (30) days following the occurrence of the vacancy, the City Clerk shall call a special election to fill the vacancy, to be held not sooner than ninety (90) days and not later than 120 days following the occurrence of the vacancy, and to be otherwise governed by law. Sec. 404. Compensation and Expenses.

(a) Compensation. Compensation for the members of the City Council shall be established by ordinance in accordance with provisions of Section 36516(a) of the State of California Government Code as such provisions now exist or thereafter may be amended. The Mayor's compensation shall be twice that of the other Councilmembers. But no reduction in compensation for any such office shall affect the compensation of any person who holds the office at the time such question is voted upon, during the remainder of the Councilmember's existing term of office. Compensation of the Mayor and Councilmembers may be increased each calendar year by an amount equal to the inflationary change listed in the Consumer Price Index (CPI-U) for the metropolitan Los Angeles - Anaheim - Riverside area published annually by the United States Bureau of Labor Statistics.

(b) Expenses. The Councilmembers shall be entitled to reimbursement for their necessary expenses incurred in the performance of their official duties in connection with authorized city business. The maximum expense that a Councilmember or the Mayor can incur during a year of their term shall be the amounts in effect at the time this section becomes effective, adjusted annually for inflation based upon the Los Angeles/Long Beach consumer price index. These amounts may be changed by majority vote of the electors of the City voting on such change at any City election at which the question of such change may be submitted by the Council or pursuant to the power of initiative.

(c) Expense Reports. Councilmembers shall submit all receipts from each transaction and also monthly expense reports listing the date of the transaction, vendor, cost, description of the item or service purchased and purpose of the purchase. Article XI. Financial Procedures.

Sec. 1101. Fiscal Year.

The fiscal year of the City shall begin on the first day of July and end on the next following last day of June.

Sec. 1102. Preparation of Proposed Annual Budget.

On such date in each year as determined by the City Manager, each department, agency, board and commission shall submit to the City Manager through the Director of Finance written estimates of the necessary expenditures and estimates of revenues expected to accrue to the City during the next fiscal year. The City Manager, with the advice and assistance of the Director of Finance, shall review such estimates, hold conferences thereon with each department, agency, board or commission, and may revise any estimates.

Sec. 1103. Submission of Budget and Budget Message.

At least 45 days prior to the beginning of each fiscal year, the City Manager shall submit to the Council a proposed budget for the next fiscal year and an accompanying budget message.

Sec. 1104. Budget Message.

The City Manager's message shall explain the budget in both fiscal and in work program terms. It shall outline the proposed financial policies of the City, describe the important features of the budget, indicate any major changes from the preceding year in financial policies, expenditures, and revenues, together with the reasons for such changes, summarize the City's debt position, and include such other information as the City Manager deems necessary.

Sec. 1105. Budget.

The budget shall provide a complete financial plan of all City operating funds and activities for the next fiscal year and shall be in such form as the City Manager

deems desirable or the Council may require. The budget shall contain a clear general summary of its contents; show all revenues in detail and by fund totals; and show all proposed expenditures, including debt service, by department and by fund. It shall also contain comparative figures for actual and estimated revenues and expenditures of the current fiscal year and revenues and expenditures of the preceding year. It shall further contain:

(a) Proposed goals, objectives and expenditures presented for each fund by organizational unit, program, or activity, and the method of financing such expenditures; and

(b) Proposed capital expenditures during the next fiscal year for each fund and the method of financing.

Sec. 1106. Council Action on Budget.

(a) Notice and Hearing. To achieve wide dissemination of information to the residents, the Council shall publish a general summary of the budget in one or more general circulation newspapers. The Council is encouraged to publish the summary in additional media including foreign language newspapers and electronic media. The message shall include:

(1) Times and places where copies of the budget message are available for inspection by the public, and

(2) Time and place, not less than two (2) weeks after such publication, for a public hearing on the budget.

(b) Modification Before Adoption. After the public hearing, the Council may adopt the budget with or without modification. Any modification may add or increase programs or amounts, or delete or decrease programs or amounts, except restricted program amounts, and except expenditures required by law or for debt service. However, no modification shall increase the total authorized expenditures to any amount greater than total estimated revenue plus the carried forward fund balance.

(c) Adoption. The Council shall adopt the budget on or before the last day of each fiscal year. To implement the adopted budget, the Council shall concurrently adopt an appropriation resolution making appropriations by department or major organizational unit in the General Fund and by fund total for all other funds. If the Council fails to adopt the budget by this date the amounts appropriated for current operation for the prior fiscal year shall be deemed adopted for the current fiscal year on a month to month basis, with all items in it prorated accordingly, until such time as the Council adopts a budget for the current fiscal year.

Sec. 1107. Amendments after Adoption.

(a) Supplemental Appropriations. If during the fiscal year the City Manager determines that there are available revenues in excess of those estimated in the budget, the Council by resolution may make supplemental appropriations for the year up to the amount of such excess.

(b) Reduction of Appropriations. If during the fiscal year it appears probable to the City Manager that the revenues or fund balances will be insufficient to

finance the expenditures for which appropriations have been authorized, the City Manager, after evaluation, shall report to the Council without undue delay, indicating the estimated amount of deficit, any remedial action taken by the City Manager and recommendations for any further action. The Council shall then take such further action as deemed necessary to prevent or reduce any deficit.

(c) Transfer of Appropriations. At any time during the fiscal year the Council may by resolution transfer part or all of the unencumbered appropriation balance from one department or major organizational unit to the appropriation for another department or major organizational unit within the same fund.

(d) Limitation. No appropriations for debt service may be reduced or transferred below the amount required for debt service, and no appropriation may be reduced below any amount required by law to be appropriated or by more than the amount of the unencumbered balance.

Sec. 1108. Lapse of Appropriations.

Every appropriation, except an appropriation for a capital improvement expenditure, shall lapse at the close of the fiscal year. Encumbered funds may be carried to the next fiscal year by resolution as recommended by the City Manager and adopted by the Council. An appropriation for a capital improvement expenditure shall continue in force, with written justification, until expended, revised or repealed. The purpose of any such appropriation shall be deemed abandoned if three (3) years pass without any disbursement from or encumbrance of the appropriation.

Sec. 1109. Overspending of Appropriations Prohibited.

No payment shall be made or obligation incurred except in accordance with appropriations duly made, or in the case of an emergency situation only with written City Manager authorization. A violation of this provision may be cause for removal of any person who knowingly authorized or made such payment or incurred such obligation.

Except where prohibited by law, however, nothing in this Charter shall be construed to prevent the making or authorizing of payments or making of contracts for capital improvements to be financed wholly or partly by the issuance of bonds, or to prevent the making of any contract or lease providing for payments beyond the end of the fiscal year, but only if such action is made or approved by resolution of the Council.

Sec. 1110. Capital Improvement Program.

(a) Submission to City Council. The City Manager shall prepare and submit to the Council a five (5) year or longer capital improvement program no later than the final date for submission of the operating budget.

(b) Contents. The capital improvement program shall include:

- (1) Clear general summary of the contents;
- (2) List of all capital improvements proposed to be undertaken during the next five (5) fiscal years, with appropriate supporting information of the necessity of each;

(3) Cost estimates and recommended time schedules for each improvement or other capital expenditure;

(4) Method of financing each capital project; and

(5) Estimated annual cost of operating and maintaining the facilities to be constructed or acquired.

The above shall be revised and extended each year for capital improvements still pending or in process of construction or acquisition.

Sec. 1111. City Council Action on Capital Improvement Program.

(a) Notice and Hearing. To achieve wide dissemination of information to the residents, the Council shall publish a general summary of the capital improvement program in one or more general circulation newspapers. The Council is encouraged to publish the summary in additional media including foreign language newspapers and electronic media. The message shall include:

(1) Times and places where copies of the capital improvement program are available for inspection by the public, and

(2) Time and place, not less than two (2) weeks after such publication, for a public hearing on the capital improvement program.

(b) Adoption. The Council by resolution shall adopt the capital improvement program with or without amendment after the public hearing, and on or before the last day of the fiscal year.

Sec. 1112. Public Records.

(b) Certificates of Participation and Similar Debt Instruments. The City may issue Certificates of Participation and similar debt instruments not to exceed five (5) percent of the total assessed valuation of real and personal property in the City for purposes of City taxation when authorized by the affirmative vote of not less than five-sevenths (5/7) of the total membership of the Council. Additionally, the sum of interest and principal payments of these current year obligations charged to the General Fund may not exceed twenty percent (20%) of the previous year's revenue of the General Fund.

(c) Debt Limit. The total indebtedness authorized by subsections (a) and (b) above shall not exceed fifteen (15) percent of the total assessed valuation of real and personal property in the City for purposes of City taxation. Additionally, the sum of the interest and principle payments of all obligations (referenced in (a) and (b) above) charged to any fund may not exceed 30 percent of the previous year's revenue of that fund.

Sec. 1114. Demands.

All monetary demands, except liability demands, against the City must be in writing, and must specify the date, nature and amount of each item. Each such demand shall be presented to the Director of Finance for examination and auditing. If the amount is legally due and payable and an unexhausted appropriation balance at the fund level remains against which the amount may be properly charged, the Director of Finance shall approve such demand and make payment. Otherwise the Director of Finance shall refer the demand to the City Manager for resolution.

Sec. 1115. City Taxes.

All proposed, increased or extended City taxes imposed on all taxpayers shall not be effective unless and until approved by affirmative vote of a majority of the electors voting on the issue.

Sec. 1116. Independent Audit.

The Council shall provide for an independent annual audit of all City accounts and may provide for more frequent audits as necessary. Such audits shall be public records and made by a certified public accountant or firm of such accountants who have no personal interest, direct or indirect, in the fiscal affairs of the City or any of its employees. The Council may designate such accountant or firm annually for a period not exceeding three (3) years, but the designation for any particular fiscal year shall be made no later than thirty (30) days after the beginning of such fiscal year.

Such bonds shall be proposed either by initiative or by the affirmative vote of five-sevenths (5/7) of the total membership of the Council. Said bond shall be issued if authorized by the affirmative vote of a majority of those electors voting on the question of incurring such indebtedness at any election at which such question is submitted to the electors of the City.

(b) The Council may issue and sell authorized bonds, may fix the terms and conditions thereof, and may make, fix and establish such covenants, conditions, terms and provisions as necessary or desirable to facilitate the issuance and sale of the bonds or for the protection and security of the bondholders.

(c) Bonds issued pursuant to this article shall not be general obligations of the City but shall be payable, principal and interest, solely from revenues or other special funds specifically pledged to that purpose.

Article XIII. Contracts and Purchasing.

Sec. 1301. In General.

Except as otherwise provided in this Charter, the City shall not be bound by any contracts unless made in writing and authorized by the Council. The Council shall adopt all necessary requirements to implement this section.

The City Manager shall establish a centralized purchasing system for the City. The Council shall adopt all necessary requirements to implement this section.

Sec. 1303. Competitive Bidding.

The Council shall adopt all necessary requirements to set limits for competitive bidding.

Sec. 1304. Illegal Interest in Contracts.

No member of the Council or other officer or department head of the City shall have any financial interest in any contract, sale or transaction to which the City is a party if having such interest constitutes a violation of the State law pertaining to interest in contracts. Any such person having any such prohibited interest shall be guilty of a misdemeanor, and upon conviction thereof, in addition to such penalties as may be imposed by the court, such person shall forfeit his office. Any contract, sale or transaction in which there shall be any such prohibited interest shall become void at the option of the City when so declared by resolution of the Council.

Sec. 1305. Split Bidding Prohibited.

It shall be expressly forbidden to split or separate into smaller projects or job tasks any requirements for goods and services for the purpose of evading the competitive bidding limits as set by the Council.

Article XIV. Franchises.

Section 1401. Requirement and Granting of Franchises.

Any person or organization furnishing the City or its inhabitants with any public utility product or service, or traversing any portion of the City for the transmitting or conveying of any such product or service elsewhere, or using or occupying public streets, alleys, ways or places within the City for any purpose, shall be required by ordinance to have a franchise from the City.

The Council may grant a franchise to any person or organization, whether operating under an existing franchise or not, and may set the terms and conditions of any such grant, including the compensation to be paid to the City.

The Council may also provide the method of and procedure for the application for the granting of any such franchise and any other terms and conditions of such grants as specified in Section 1402.

Section 1402. Procedure.

Such resolution shall provide for a public hearing.

(b) Notice and Hearing. To achieve wide dissemination of information to residents, the Council shall publish a general summary of the proposed franchise in one (1) or more general circulation newspapers. The Council is encouraged

to publish the general summary in additional media including foreign language newspapers and electronic media. The message shall include:

Section 1403. Terms of Franchise.

Every franchise shall state the term for which it is granted, which shall not exceed ten (10) years unless approved by five-sevenths (5/7) of the total membership of the Council. Section 1404. Eminent Domain.

No franchise, or grant of a franchise, shall in any way, or to any extent, impair or affect the right of the City to acquire the property of the possessor by purchase or condemnation, and nothing therein contained shall be construed to contract away or to modify or abridge, either for a term or in perpetuity, the City's right of eminent domain with respect to the property of the possessor of any franchise. Every franchise granted by the City is granted upon the condition, whether expressed in the grant or not, that such franchise shall not be given any value before any court or other public authority in any proceeding of any character in excess of any amount actually paid by the grantee to the City at the time of the grant.

 Charter Chapter 19—City of Salinas

Amendments to the Charter of the City of Salinas

[Filed with the Secretary of State December 16, 1998.]

Section 120 is added to read as follows:

**IMPARTIAL ARBITRATION FOR
FIRE DEPARTMENT EMPLOYEE DISPUTES**

(a) IMPARTIAL ARBITRATION—DECLARATION OF POLICY. It is hereby declared to be the policy of the City of Salinas that strikes by firefighters are not in the public interest and should be prohibited, and that a method should be adopted for peacefully and equitably resolving disputes that might otherwise lead to such strikes.

(b) **PROHIBITION AGAINST STRIKES.** No City of Salinas firefighter shall willfully engage in a strike against the City. Any such employee against whom the City brings charges of failing to report for work as part of a strike shall be subject to dismissal from his or her employment in the event the charges are sustained upon conclusion of the proceedings that are required by law for the imposition of disciplinary action upon said employee.

(c) **OBLIGATION TO NEGOTIATE IN GOOD FAITH.** The City, through its duly authorized representatives, shall negotiate in good faith with a recognized employee organization which represents members of the City of Salinas Fire Department on all matters relating to the wages, hours, and other terms and conditions of City employment, including the establishment of procedures for the resolution of grievances concerning the interpretation or application of any negotiated agreement. Unless and until agreement is reached through negotiations between the City and a recognized employee organization for a fire department bargaining unit, or a determination is made through the arbitration procedure hereinafter provided, no existing benefit or condition of employment for said fire department employees shall be eliminated or changed.

(d) **IMPASSE RESOLUTION PROCEDURES.** All disputes or controversies pertaining to wages, hours, or terms and conditions of employment which remain unresolved after good faith negotiations between the City and the recognized employee organization involved in the dispute shall be submitted to a three-member Board of Arbitrators upon the declaration of an impasse by the City or by the recognized employee organization.

Representatives designated by the City and representatives of the recognized employee organization involved in the dispute shall each appoint one arbitrator to the Board of Arbitrators within three (3) days after either party has notified the other, in writing, that it desires to proceed to arbitration. The third member of the Arbitration Board shall be selected by agreement between the two arbitrators selected by the City and the employee organization, and shall serve as the neutral arbitrator and Chairperson of the Board. In the event that the arbitrators selected by the City and the employee organization cannot agree upon the selection of the third arbitrator within ten (10) days from the date that either party has notified the other that it has declared an impasse, then either party may request the State of California Mediation and Conciliation Service to provide a list of seven (7) persons who are qualified and experienced as labor arbitrators. If the arbitrators selected by the City and the employee organization cannot agree within three (3) days after receipt of such list on one of the seven (7) to act as the third arbitrator, they shall alternately strike names from the list of nominees until one name remains and that person shall then become the third arbitrator and chairperson of the Arbitration Board.

Any arbitration convened pursuant to this article shall be conducted in conformance with, subject to, and governed by Title 9 of Part 3 of the California Code of Civil Procedure. The Arbitration Board shall hold public hearings, receive

evidence from the parties and cause a transcript of the proceedings to be prepared. The Arbitration Board, in the exercise of its discretion, may meet privately with the parties and mediate or mede-arb issues in dispute. The Arbitration Board may also adopt such other procedures that are designed to encourage an agreement between the parties, expedite the arbitration hearing process, or reduce the costs of the arbitration process.

At the conclusion of the arbitration hearings, the Arbitration Board shall direct each of the parties to submit, within such time limit as the Board may establish, a last offer of settlement on each of the issues in dispute. The Arbitration Board shall decide each issue by majority vote by selecting whichever last offer of settlement on that issue it finds most nearly conforms with those factors traditionally taken into consideration in the determination of wages, hours, and other terms and conditions of public and private employment, including, but not limited to, changes in the average consumer price index for goods and services, the wages, hours, and other terms and conditions of employment of other employees performing similar services, and the financial condition of the City and its ability to meet the cost of the award.

After reaching a decision, the Arbitration Board shall mail or otherwise deliver a true copy of its decision to the parties. The decision of the Arbitration Board shall not be publicly disclosed and shall not be binding until ten (10) days after it is delivered to the parties. During that ten day period the parties may meet privately, attempt to resolve their differences, and by mutual agreement amend or modify any of the decisions of the Arbitration Board. At the conclusion of the ten (10) day period, which may be extended by mutual agreement between the parties, the decision of the Arbitration Board, incorporating any amendments or modifications agreed to by the parties, shall be publicly disclosed and shall be binding upon the parties. The City and the recognized employee organization shall take whatever action is necessary to carry out and effectuate the final Arbitration Board award (incorporating any amendments or modifications agreed to by the parties as provided above).

The expenses of any arbitration convened pursuant to this article, including the fee for the services of the Chairperson of the Arbitration Board shall be borne equally by the parties. All other expenses which the parties may incur individually are to be borne by the party incurring such expenses.

Charter Chapter 21—City and County of San Francisco

***Amendments to the Charter of
the City and County of San Francisco***

[Filed with the Secretary of State December 18, 1998.]

Section 4.133 is amended to read as follows:

SEC. 4.133. TAXI COMMISSION.

(a) The Taxi Commission shall consist of seven members, appointed by the Mayor. The appointments shall include a member from the senior or disabled

communities, a driver who does not hold a taxicab medallion, a manager in a taxicab company (either a medallion holder or a company representative), a member from the hospitality industry, a member from the labor community, a member from the neighborhoods, and a member of the general public not affiliated with any of the other enumerated categories.

Pursuant to Government Code Section 87103, individuals appointed to the Commission under this Section are intended to represent and further the interest of the particular industries, trades, or professions specified herein. Accordingly, it is found that for purposes of persons who hold such office, the specified industries, trades, or professions are tantamount to and constitute the public generally within the meaning of Government Code Section 87103.

The commissioners appointed to take office upon the effective date of this Charter section shall by lot classify their terms so that the terms of three of the commissioners shall expire at noon on the first anniversary of such date, and the terms of the remaining four commissioners shall expire at noon on the second anniversary of the effective date. On the expiration of these and successive terms of office, the appointments shall be made for two-year terms.

Members may be removed by the Mayor only pursuant to Section 15.105. Vacancies occurring in the offices of members, either during or at the expiration of a term, shall be filled by the Mayor.

(b) Effective March 1, 1999, the Commission shall succeed to all powers and responsibilities relating to taxicabs and other motor vehicles for hire, other than criminal enforcement, now vested in the Police Commission, the Police Department or the Chief of Police. The Taxi Commission may be assigned additional duties and functions by ordinance or pursuant to Section 4.132.

(c) All costs associated with the operations of the Taxi Commission, and such officers and employees as are necessary for the Commission to operate and administer the department and are authorized pursuant to the budgetary and fiscal provisions of the Charter, shall be recovered from permit, license and other fees charged to permit-holders, applicants, and other persons by the Commission. The Board of Supervisors shall set fees sufficient to offset the costs of the Commission's operations and any such officers and employees. Notwithstanding the above, the Board of Supervisors may continue to offer reduced fees to operators who participate in the City's Paratransit Program, and offset the reduction in revenues with a contribution from the General Fund.

Section 16.120 is added to read as follows:

SEC. 16.120. CUSTOMER SERVICE PLAN.

Each department of the City and County shall adopt an annual Customer Service Plan, in a format to be determined by the Board of Supervisors by ordinance. The Board may excuse a department from particular requirements of the ordinance where compliance would be inappropriate or impractical. Each department shall file its Customer Service Plan with the Board of Supervisors no later than February 1st of each year, along with a report on how the department met the previous year's Plan, if any.

Section A8.559-1 is amended to read as follows:

A8.559-1 DEFINITIONS

The following words and phrases as used in this section, Section 8.559 and Sections 8.559-2 through 8.559-13, unless a different meaning is plainly required by the context, shall have the following meanings:

“Retirement allowance,” “death allowance” or “allowance,” shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

“Compensation,” as distinguished from benefits under the Workers’ Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the police department, but excluding remuneration paid for overtime.

For retirement purposes, any increase in compensation attached to a rank which is based solely upon the possession of a POST certificate, compared to the equivalent rank without a POST certificate, shall be subject to the following limitations:

(a) for possession of the intermediate POST certificate, no more than 4% shall be included in compensation,

(b) for possession of the advanced POST certificate, no more than an additional 2% over the maximum provided in subsection (a), above, shall be included in compensation,

These limits shall apply to any pay increments which are solely attributable to the possession of a POST certificate, including but not limited to premiums or special ranks which may be established in the future and which are solely attributable to the possession of a POST certificate.

“Compensation earnable” shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him or her during such period, it being assumed that during any absence, he or she was in the rank or position held by him or her at the beginning of the absence, and that prior to becoming a member of the police department, he or she was in the rank or position first held by him or her in such department.

“Benefit” shall include “allowance,” “retirement allowance,” “death allowance” and “death benefit.”

“Final compensation” shall mean the monthly compensation earnable by a member at the time of his or her retirement, or death before retirement, as the case may be, at the rate of remuneration attached at that time to the rank or position which said member held, provided that said member has held said rank or position for at least one year immediately prior to said retirement or death; and provided,

further, that if said member has not held said rank or position for at least one year immediately prior to said retirement or death, “final compensation,” as to such member, shall mean the monthly compensation earnable by such member in the rank or position next lower to the rank or position which he or she held at the time of retirement or death at the rate of remuneration attached at the time of said retirement or death to said next lower rank or position; provided, however, that in the case of a member’s death before retirement as the result of a violent traumatic injury received in the performance of his or her duty, “final compensation,” as to such member shall mean the monthly compensation earnable by such member at the rate of remuneration attached on the date he receives such injury to the rank or position held by such member on that date.

For purposes of calculation of final compensation, any increase in pay solely attributable to possession of a POST certificate shall be included only if the member possesses the qualifying POST certificate for a period of not less than four (4) years prior to his or her retirement date; provided, however, that should a member possess the qualifying POST certificate for a period of time less than four (4) years prior to retirement, final compensation shall be calculated based upon the monthly compensation in the next lower rank not requiring possession of the qualifying POST certificate.

For the purpose of Sections 8.559 through 8.559-13, the terms “member of the police department,” “member of the department,” or “member” shall mean any officer or employee of the police department, excluding such officers and employees as are members of the retirement system under Section 8.565 or Section 8.568 of the charter, who was or shall be subject to the charter provisions governing entrance requirements of members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on July 1, 1975, regardless of age, or employed after said date at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform the duties now performed under the titles of criminologist, photographer, police patrol driver, police motor boat operator, woman protective officer, police woman or jail matron.

Any police service performed by such members of the police department outside the limits of the city and county and under orders of a superior officer or any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

“Retirement system” or “system” shall mean San Francisco City and County Employees’ Retirement System as created in Section 8.500 of the charter.

“Retirement board” shall mean “retirement board” as created in Section 3.670 of the charter.

“Charter” shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter gender, and singular numbers shall include the plural and the plural the singular.

“Interest” shall mean interest at the rate adopted by the retirement board.

Section A8.586-1 is amended to read as follows:

A8.586-1 Definitions

The following words and phrases as used in this section, Section 8.586 and Sections 8.586-2 through 8.586-14, unless a different meaning is plainly required by the context, shall have the following meanings:

“Retirement allowance,” “death allowance” or “allowance,” shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

“Compensation,” as distinguished from benefits under the Workers’ Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the police department, but excluding remuneration paid for overtime.

Subject to the requirement that it be payable in cash and that overtime be excluded, “compensation” for pension purposes may be defined in a collective bargaining agreement. Provided, however, that for retirement purposes, any increase in compensation attached to a rank which is based solely upon the possession of a POST certificate, compared to the equivalent rank without a POST certificate, shall be subject to the following limitations:

(a) for possession of the intermediate POST certificate, no more than 4% shall be included in compensation,

(b) for possession of the advanced POST certificate, no more than an additional 2% over the maximum provided in subsection (a), above, shall be included in compensation,

These limits shall apply to any pay increments which are solely attributable to the possession of a POST certificate, including but not limited to premiums or special ranks which may be established in the future and which are solely attributable to the possession of a POST certificate.

“Compensation earnable” shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him or her during such period, it being assumed that during any absence, he or she was in the rank or position held by him or her at the beginning of the absence, and that prior to becoming a member of the police department, he or she was in the rank or position first held by him or her in such department.

“Benefit” shall include “allowance,” “retirement allowance,” “death allowance” and “death benefit.”

“Final compensation” shall mean the average monthly compensation earnable by a member during any one year of credited service in which his or her average compensation is the highest.

For purposes of calculation of final compensation, any increase in pay solely attributable to possession of a POST certificate shall be included only if the member possesses the qualifying POST certificate for a period of not less than four (4) years prior to his or her retirement date; provided, however, that should a member possess the qualifying POST certificate for a period of time less than four (4) years prior to retirement, final compensation shall be calculated based upon the monthly compensation in the next lower rank not requiring possession of the qualifying POST certificate.

For the purpose of Sections 8.586 through 8.586-14, the terms “member of the police department,” “member of the department,” or “member” shall mean any officer or employee of the police department employed after November 1, 1976 who was or shall be subject to the charter provisions governing entrance requirements of members of the uniformed force of said department and said terms shall further mean persons employed after November 1, 1976 at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform duties now performed under the titles of criminologist, photographer, police woman or jail matron; provided, however, that said terms shall not include any person who has not satisfactorily completed such course of training as may be required by the police department prior to assignment to active duty with said department.

“Retirement system” or “system” shall mean San Francisco City and County Employees’ Retirement System as created in Section 8.500 of the charter.

“Retirement board” shall mean “retirement board” as created in Section 3.670 of the charter.

“Charter” shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter gender, and singular numbers shall include the plural and the plural the singular.

“Interest” shall mean interest at the rate adopted by the retirement board.

Section A8.586-2 is amended to read as follows:

A8.586-2 Service Retirement

Any member of the police department who completes at least five (5) years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under Section 8.586-10, may retire for service at his or her option. A member retired after meeting the service and age requirements in the sentence next preceding, shall receive a retirement allowance equal to the larger of (a) two percent of final compensation for each of the first twenty five (25) years of service, then three percent of final compensation for each year of service rendered in excess of twenty-five (25) years or (b) the percent of final compensation (as defined in Section 8.586-1) set forth opposite his or her age at retirement, taken to

the preceding completed quarter year, for each year of service, as computed under Section 8.586-10:

| Retirement Age | Percent for Each Year of Credited Service |
|----------------|--|
| 50 | 2.000 |
| 50.25 | 2.035 |
| 50.5 | 2.070 |

| 53.25 | 2.455 |
| 53.5 | 2.490 |
| 53.75 | 2.525 |
| 54 | 2.560 |
| 54.25 | 2.595 |
| 54.5 | 2.630 |
| 54.75 | 2.665 |
| 55 | 2.700 |

In no event, however, shall such a retirement allowance exceed seventy five (75) percent of a member's final compensation.

Section A8.586-3 is amended to read as follows:

A8.586-3 Retirement for Incapacity

Any member of the police department who becomes incapacitated for the performance of his or her duty by reason of any bodily injury received in, or illness caused by the performance of his or her duty, shall be retired. If he or she is not qualified for service retirement, he or she shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in Section 8.586-1, as his percentage of disability is determined to be. The percentage of disability shall be as determined by the

Workers' Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five affirmative votes, adjust the percentage of disability as determined by said appeals board; and provided, further, that such retirement allowance shall be in an amount not less than 50 percent nor more than 90 percent of the final compensation of said member, as defined in Section 8.586-1. Said allowance shall be paid to him or her until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years had he or she lived and rendered service without interruption in the rank held by him or her at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in Section 8.586-1, he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation.

If, at the time of retirement because of disability, he or she is qualified as to age and service for retirement under Section 8.586-2, he or she shall receive an allowance equal to the retirement allowance which he or she would receive if retired under Section 8.586-2, but not less than 50 percent of said final compensation. Any member of the police department who becomes incapacitated for performance of his or her duty by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least 10 years of service in the aggregate, computed as provided in Section 8.586-10, shall be retired upon an allowance of 1-1/2 percent of the final compensation of said member as defined in Section 8.586-1 for each year of service, provided that said allowance shall not be less than 33-1/3 percent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the police commission or by said member or his or her guardian. If his or her disability shall cease, his or her retirement allowance shall cease and he or she shall be restored to the service in the rank he or she occupied at the time of his or her retirement.

Section A8.586-4 is amended to read as follows:

A8.586-4 Death Allowance

If a member of the police department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his or her duty, a death allowance, in lieu of any allowance, payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but he or she had not retired, the allowance payable shall be equal to three-fourths of the retirement allowance which the member would have received if he or she had been retired for service on the date of death, but such

allowance shall not be less than 50 percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, had he or she lived and rendered service without interruption in the rank held by him or her at death, and after said date the allowance payable shall be equal to three-fourths of the retirement allowance said member would have received if retired for service on said date, based on the final compensation he or she would have received prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation. If he or she had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to three-fourths of the retirement allowance of the member, except that if he or she was a member under Section 8.586 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died.

If there be no surviving wife entitled to an allowance hereunder, or if she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children under the age of 18 years, but leave a parent or parents dependent upon him or her for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

Section A8.586-5 is amended to read as follows:

A8.586-5 Payment to Surviving Dependents

Upon the death of a member of the police department resulting from any cause other than an injury received in, or illness caused by performance of duty,

(a) if the death occurred after qualification for service retirement under Section 8.586-2, or after retirement service or because of disability which result from any cause other than an injury received in, or illness caused by performance of duty one-half of the retirement allowance to which the member would have been entitled if he or she had retired for service at the date of death or one-half of the

retirement allowance as it was at his or her death, as the case may be, shall be continued throughout his or her life or until remarriage to his surviving wife, or

(b) if his or her death occurred after the completion of at least 25 years of service in the aggregate but prior to the attainment of the age of 50 years, one-half of the retirement allowance to which he or she would have been entitled under Section 8.586-2 if he or she had attained the age of 50 years on the date of his or her death shall be continued throughout life or until remarriage to his surviving wife, or

(c) if his or her death occurred after retirement for disability by reason of injury received in or illness caused by performance of duty, three-fourths of his or her retirement allowance as it was at his or her death shall be continued throughout life or until remarriage to his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date on which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died, or

(d) if his or her death occurred after completion of at least 10 years of service in the aggregate, computed as provided in Section 8.586-10, an allowance in an amount equal to the retirement allowance to which the member would have been entitled pursuant to Section 8.586-3 if he or she had retired on the date of death because of incapacity for performance of duty shall be paid throughout life or until remarriage to his surviving wife. If there be no surviving wife entitled to an allowance hereunder, or if she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children, under age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death if he or she had not retired, or unless she was married to the member at least one year prior to his or her retirement if he or she had retired.

As used in this section and Section 8.556-4 “surviving wife” shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member, but whose remarriage has been ter-

minated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section 8.586-8, in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the eligible child or children may make such election, and if there be no such children, the dependent parent or parents may make such election. “Qualified for service retirement,” “qualification for service retirement” or “qualified as to age and service for retirement,” as used in this section and other sections to which persons who are members under Section 8.586 are subject, shall mean completion of 25 years of service and attainment of age 50, said service to be computed under Section 8.586-10.

Section A8.586-6 is amended to read as follows:

A8.586-6 Adjustment of Allowances

Every retirement or death allowance payable to or on account of any member under Section 8.586 shall be adjusted in accordance with the provisions of Subsection (b) of Section 8.526 of this charter.

Section A8.586-7 is amended to read as follows:

A8.586-7 Adjustment for Compensation Payments

That portion of any allowance payable because of the death or retirement of any member of the police department which is provided by contributions of the city and county, shall be reduced in the manner fixed by the board of supervisors, by the amount of any benefits other than medical benefits, payable by the city and county to or on account of such person, under any workers’ compensation law or any other general law and because of the injury or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in, or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under such law and shall be in satisfaction and discharge of the obligation of the city and county to pay such benefits.

Section A8.586-8 is amended to read as follows:

A8.586-8 Death Benefit

If a member of the police department shall die, before retirement from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause if no allowance shall be payable under Section 8.586-4 or 8.586-5 preceding, a death benefit shall be paid to his or her estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his or her estate or designated beneficiary the amount of which and the conditions for the payment of which shall be determined in the manner

prescribed by the board of supervisors for the death benefit of other members of the retirement system.

Section A8.586-9 is amended to read as follows:

A8.586-9 Refunds and Redeposits

Should any member of the police department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his or her contributions, with interest credited thereon, shall be refunded to him or her subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he or she shall again become a member of the department, he or she shall redeposit in the retirement fund the amount refunded to him or her. Should a member of the police department become an employee of any other office or department, his or her accumulated contribution account shall be adjusted by payments to or from him or her as the case may be to make the accumulated contributions credited to him or her at the time of change equal to the amount which would have been credited to him or her if he or she had been employed in said other office or department at the rate of compensation received by him or her in the police department and he or she shall receive credit for service for which said contributions were made, according to the charter section under which his or her membership in the retirement system continues.

Section A8.586-10 is amended to read as follows:

A8.586-10 Computation of Service

The following time shall be included in the computation of the service to be credited to a member of the police department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contributions for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposit upon re-entry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the police or fire department under Section 8.586 or 8.588, respectively.

(b) Time prior to November 2, 1976, during which said member was entitled to receive compensation while a member of the police or fire department under any other section of the charter, provided that accumulated contributions on account of such service previously refunded are redeposited with interest from the date of refund to the date of redeposit, at times and in the manner fixed by the retirement board; and solely for the purpose of determining qualification for retirement under Section 8.586-3 for disability not resulting from injury received in or illness caused by performance of duty, time during which said member serves and receives compensation because of services rendered in other offices and departments.

(c) Time during which said member is absent from a status included in Subsection (a) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in Section 8.520 of

the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the city and county contributed or contributes on his or her account.

Section A8.586-11 is amended to read as follows:

A8.586-11 Sources of Funds

All payments provided for members under Section 8.586 shall be made from funds derived from the following sources, plus interest earned on said funds:

(a) There shall be deducted from each payment of compensation made to a member under Section 8.586 a sum equal to seven percent of such payment of compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his or her estate or beneficiary as provided in Sections 8.586-8, 8.586-9 and 8.586-10.

(b) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in Subsection (a) of this Section 8.586-11, to provide the benefits payable to members under Section 8.586. Such contributions of the city and county to provide the portion of the benefits hereunder shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to persons who are members under Section 8.586, said percentage to the ratio of the value on November 2, 1976, or at the later date of a periodical actuarial valuation and investigation into the experience under the system, of the benefits thereafter to be paid to or on account of members under Section 8.586 from contributions of the city and county, less the amount of such contributions plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members after said date, to the value on said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system. Said actuarial valuation shall be made every even-numbered year and said investigation into the experience under the system shall be made every odd-numbered year.

(c) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and

other contingencies, the contributions of both members and the city and county held by the system to provide benefits for members under Section 8.586, shall be a part of the fund in which all other assets of said system are included.

Section A8.586-12 is amended to read as follows:

A8.586-12 Right to Retire

Upon the completion of the years of service set forth in Section 8.586-2 as requisite to retirement, a member of the police department shall be entitled to retire at any time thereafter in accordance with the provisions of said Section 8.586-2, and except as provided in the following paragraph, nothing shall deprive said member of said right.

Any member of the police department convicted of a crime involving moral turpitude committed in connection with his or her duties as a member of the police department shall, upon termination of his or her employment pursuant to the provisions of this charter, forfeit all rights to any benefits under the retirement system except refund of his or her accumulated contributions; provided, however, that if such member is qualified for service retirement by reason of service and age under the provisions of Section 8.586-2, he or she shall have the right to elect, without right of revocation and within 90 days of the termination of his or her employment, whether to withdraw all of his or her accumulated contributions or to receive as his or her sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his or her accumulated contributions at the time of such termination of employment.

Section A8.586-13 is amended to read as follows:

A8.586-13 Limitation on Employment During Retirement

(a) Except as provided in Section 8.511 of this charter and in Subsection (b) of this section, no person retired as a member under Section 8.586 for service or disability and entitled to receive a retirement allowance under the retirement system shall be employed in any capacity by the city and county, nor shall such person receive any payment for services rendered to the city and county after retirement.

(b) (1) Service as an election officer or juror, or in the preparation for or giving testimony as an expert witness for or on behalf of the city and county before any court or legislative body shall be affected by the provisions of Subsection (a) of this section.

(2) The provisions of Subsection (a) shall not prevent such retired person from serving on any board or commission of the city and county and receiving the compensation for such office, provided said compensation does not exceed \$100 per month.

(3) If such retired person is elected or appointed to a position or office which subjects him or her to membership in the retirement system under Section 8.586, he or she shall re-enter membership under Section 8.586 and his or her retirement allowance shall be canceled immediately upon his/her re-entry. The provisions of Subsection (a) of this section shall not prevent such person from receiving

the compensation for such position or office. The rate of contributions of such member shall be the same as that for other members under Section 8.586. Such member's individual account shall be credited with an amount which is the actuarial equivalent of his or her annuity at the time of his or her re-entry, but the amount thereof shall not exceed the amount of his/her accumulated contributions at the time of his or her retirement. Such member shall also receive credit for his/her service as it was at the time of his or her retirement.

(c) Notwithstanding any provision of this charter to the contrary, should any person retired for disability engage in a gainful occupation prior to attaining the age of 55 years, the retirement board shall reduce that part of his or her monthly retirement allowance which is provided by contributions of the city and county to an amount which, when added to the amount of the compensation earnable, at the time he or she engages in the gainful occupation, by such person if he or she held the position which he or she held at the time of his or her retirement, or, if that position has been abolished, the compensation earnable by the member if he or she held the position from which he or she was retired immediately prior to its abolishment.

Section A8.586-14 is amended to read as follows:

A8.586-14 Conflicting Charter Provisions

Any section or part of any section in this charter, insofar as it should conflict with the provisions of Sections 8.586 through 8.586-13 or with any part thereof, shall be superseded by the contents of said sections. In the event that any word, phrase, clause or section of said sections shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

Section A8.586-15 is amended to read as follows:

A8.586-15 Vesting

Notwithstanding any provisions of this charter to the contrary should any member of the police department who is a member of the Retirement System under Charter Section 8.586 with five years of credited service, cease to be so employed, through any cause other than death or retirement, he or she shall have the right to elect, without right of revocation and within 90 days after termination of said service, to allow his or her accumulated contributions including interest to remain in the retirement fund and to receive a retirement benefit, calculated at termination, defined as that proportion of the normal service retirement benefit that his or her accrued service credit bears to 25 years, payable beginning at age 50.

Section A8.588-10 is amended to read as follows:

A8.588-10 Computation of Service

The following time shall be included in the computation of the service to be credited to a member of the fire department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contributions for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposit upon re-entry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the police or fire department under Section 8.586 or 8.588, respectively.

(b) Time prior to November 2, 1976, during which said member was entitled to receive compensation while a member of the police or fire department under any other section of the charter, provided that accumulated contributions on account of such service previously refunded are redeposited with interest from the date of refund to the date of redeposit, at times and in the manner fixed by the retirement board; and solely for the purpose of determining qualification for retirement under Section 8.588-3 for disability not resulting from injury received in or illness caused by performance of duty, time during which said member serves and receives compensation because of services rendered in other offices and departments.

(c) Time during which said member earned compensation as a paramedic with the department of public health, provided that the accumulated contributions on account of such service are transferred to his or her 8.588 account or, if previously refunded, are redeposited with interest from the date of refund to the date of redeposit, at times and in the manner fixed by the retirement board. The retirement board shall require that a waiver be executed by said member so that any paramedic service covered by Section 8.588 is not also covered by other pension provisions in this charter.

(d) Time during which said member is absent from a status included in Subsection (a) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in Section 8.520 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the city and county contributed or contributes on his or her account.

Such notification shall automatically cause the reconsideration of the ordinance by the Council at its regular meeting next following the sixth day after the aforesaid final adoption of the ordinance. Beginning with the 2000 Municipal Election, the City Attorney shall be nominated and elected in the same manner, and for the same term, and at the same election, as the Councilmember-at-large, and shall not be removable by the Mayor. Charter Chapter 23—City of Santa Monica

Amendments to the Charter of the City of Santa Monica

[Filed with the Secretary of State December 18, 1998.]

SECTION 1. Article XXI is added to the City Charter of the City of Santa Monica to read as follows:

ARTICLE XXI

Article 34 Voter Authorization

Section 2100. Definition of Terms and Interpretation.

(a) The term “City of Santa Monica” shall include the City, its housing authority, redevelopment agency, and other City agencies.

(b) The term “housing unit,” shall mean a residential dwelling designed for human occupation, and shall include but not be limited to apartments, condominiums, townhouses, single family homes, duplexes, mobile home spaces, and trailer spaces.

(c) The term “low rent housing unit” shall mean a housing unit that is located within a low rent housing project.

(d) The terms “develop,” “construct,” “acquire,” and “low rent housing projects” shall be interpreted in accordance with Article XXXIV of the California Constitution, Government Code Section 37000 et seq., and any successor legislation thereto.

(e) The provisions of this Article shall be interpreted to maximize affordable housing production and to promote economic diversity in the community.

Section 2110. Article XXXIV Authorization

Commencing with the 1998–1999 fiscal year, and each fiscal year thereafter, the City of Santa Monica is authorized to develop, construct, or acquire low rent housing units equal in number to no more than one-half of one percent (1/2 of 1%) of the total number of housing units existing in the City as of the last day of the previous fiscal year. If the City does not exhaust the authorization conferred by this Section in any fiscal year, the authority remaining for that year may be carried over and added to the number of units otherwise allowed in subsequent fiscal years for a maximum of three (3) additional years. For purposes of determining whether the City has exhausted its authorization for a given fiscal year, units shall be counted against the authorization either when the City grants planning approval or when the City makes a binding funding commitment for a low rent housing unit, whichever occurs first.

Section 2120. Annual Report

Commencing with the 1999–2000 fiscal year, at the beginning of each fiscal year, City staff shall issue a report to the City Council concerning the following matters:

(a) The total number of affordable housing units subject to Article XXXIV which received City planning approval or funding commitments in the previous fiscal year.

(b) The total number of housing units existing in the City as of the last day of the previous fiscal year. As of June 30, 1998, a total of 48,573 housing units existed in the City. Based on permit data reports generated by the City, this number shall be adjusted each fiscal year by adding the number of newly constructed housing units that have received final City approval for the occupancy of the housing unit and subtracting the number of housing units that have been demolished during that same period.

(c) The number of affordable housing units which were authorized pursuant to Section 2110 of this Article in previous fiscal years, but which have not already been counted against the annual authorization and which have not been carried over for more than three (3) subsequent fiscal years.

(d) The total number of affordable housing units that are authorized for the current fiscal year, including the housing unit authorization that may be carried over from previous fiscal years.

Section 2130. Scope of authorization

(a) The housing authorized under this article shall be in addition to any other Article XXXIV authorization granted by the registered voters of the City before or after the adoption of this article.

(b) Any low rent housing project authorized by this article may be funded in any manner.

(c) This article in no way restricts or limits the City's authority to develop or assist in the development of housing that is not subject to Article XXXIV.

SECTION 2. If any section, subsection, sentence, clause, or phrase of this Charter Amendment is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Charter Amendment. The voters of the City of Santa Monica hereby declare that they would have passed this Charter Amendment and each and every section, subsection, sentence, clause, or phrase not declared invalid or unconstitutional without regard to whether any portion of the Charter Amendment would be subsequently declared invalid or unconstitutional.

(b) Public Works Projects

When the expenditure required for a specific “public works project” (hereinafter defined), excluding the cost of any materials, supplies or equipment which City may have acquired or may separately acquire therefor, will exceed the greater of Fifty Thousand Dollars (\$50,000.00) or the amount which a general law city of the State of California may legally expend for a “public project” (as defined by State law) without a contract let to a lowest responsible bidder after notice, it shall be let to the lowest responsible bidder after notice.

For purposes of this Section, “public works project” shall mean a project for the construction, erection, improvement or demolition of any public building, street, bridge, drain, ditch, canal, dam, tunnel, sewer, water system, fire alarm system, electrical traffic control system, street lighting system, parking lot, park or playground. “Public works project” shall not mean or include maintenance of any of public works project, or any repairs incidental to such maintenance, or the planting, care or maintenance of trees, shrubbery or flowers.

2. All bids, including such bidder’s security as may be required, shall be presented under sealed cover.

3. If the successful bidder fails to execute the contract within the time specified in the notice inviting bids or in the specifications referred to therein, the amount of the security required, if any, may be declared forfeited to the City and may be collected and paid into its General Fund, and all bonds so forfeited may be prosecuted and the amount thereof collected and paid into such fund.

4. All bids shall be publicly opened, and the aggregate bid of each bidder declared at a time and place specified in the notice inviting bids.

5. The Council shall have the right to waive any informalities or minor irregularities in bids or bidding.

(d) Apprenticeship Program

Nothing herein shall preclude the City from including in any contract provisions that require contractor participation in an apprenticeship program for at-risk youth.

(e) Selection of Lowest Responsible Bidder

If no bids are received, the Council may readvertise, or may acquire the materials, supplies or equipment for which no bids are received, or have the “public works project” for which no bids are received done, without further complying with this Section.

1. If two or more bids are the same and the lowest, the Council may accept the one it chooses.

2. In its discretion, the Council may reject any or all bids presented. If it rejects all bids, the Council may, in its discretion, readvertise.

3. If, after rejecting all bids for any supplies, materials or equipment, the Council finds and declares that the bids were excessive, it may have such supplies, materials or equipment purchased at a lower price without further complying with this Section.

4. If, after rejecting all bids for any “public works project” and after readvertising for bids, the Council finds and declares that the bids were excessive, it may have such “public works project” done by City employees without further complying with this Section.

(f) Section Not Applicable

The provisions of this Section shall not apply to any of the following:

1. the purchase or acquisition of any supplies, materials or equipment from any public or governmental body or agency or from any public utility which is either publicly owned or is regulated by the Public Utilities Commission of the State of California;

3. any public work done for the City by any public or governmental body or agency;

4. any public work done by any public utility which is either publicly owned or is regulated by the Public Utilities Commission of the State of California where such work involves any property of such public utility or is otherwise of direct concern to both the City and such public utility;

5. any public work done by a subdivider, developer or owner of real property in connection with the subdivision or development by him or her of any real property, notwithstanding the fact that such may be subject to entire or partial reimbursement from the City;

6. work involving highly technical or professional skill where the peculiar technical or professional skill or ability of the person selected to do such work is an important factor in his or her selection;

7. expenditures deemed by the Council to be of urgent necessity for the preservation of life, health or property, provided the same are authorized by resolution

of the Council adopted by the affirmative vote of at least eight (8) members of the Council and containing a declaration of the facts constituting the urgency; and

8. situations where solicitation of bids would for any reason be an idle act.

Only full-time officers and employees shall be eligible to vote at such elections, and no officer or employee shall be permitted to vote for more than one person at any one election. Said nomination elections shall be conducted by the City Clerk in accordance with an election procedure prepared by the City Clerk and approved by the Council.

(c) **VACANCIES.** The City Council shall adopt an ordinance setting forth rules relating to vacancies before expiration of a term of office and removal of a member from office.

(d) **OATH AND DECLARATION.** The members of the Civil Service Commission, in addition to the oath of office required by law, shall make under oath and file in the office of the City Clerk the following declaration: "I am opposed to appointment to public service as a reward for political activity and will execute and perform the powers and duties of the office of Civil Service Commissioner in the spirit of this declaration."
