The bill would also require that grant recipients submit a report, on or before June 30, 2004, to their local legislative bodies and to the department regarding the results of the expanded code enforcement efforts, and would require the department to summarize the results and transmit the reports to the Legislature by December 31, 2004.

This bill would also establish the Community Code Enforcement Pilot Program pursuant to which the Department of Housing and Community Development would award grants to communities that develop a code enforcement pilot program meeting specified criteria that would operate until December 31, 2003. The bill would require the pilot program administrators to evaluate the pilot programs and report that information to the department by June 30, 2004, and would require the department to report to the Legislature by December 31, 2004. These provisions would be repealed on January 1, 2005, unless extended by a later enacted statute.

This bill would require that \$2,250,000 appropriated in a specified item of the Budget Act of 2000 be used by the Department of Housing and Community Development for the Community Code Enforcement Pilot Program, and would authorize the department to use any funds not awarded pursuant to that program by December 31, 2001, for the matching grants to cities, counties, and cities and counties for local code enforcement efforts as described above.

This bill would provide that these provisions supersede Chapter 82 of the Statutes of 2000.

Ch. 665 (AB 2054) Torlakson. Balance of jobs and housing.

Existing law requires the Department of Housing and Community Development to prepare a guidebook for use by governmental agencies in planning and developing a housing supply to meet the need created by employment growth. Existing law requires a city or county to include a housing element in its general plan, and, for that purpose, prescribes criteria for determining the city or county share of the regional housing needs, including a requirement that the distribution of regional housing needs take into account, among other things, market demand for housing and employment opportunities.

This bill would revise the legislative findings and declarations with regard to the need for the Inter-Regional Partnership (IRP) State Pilot Project to Improve the Balance of Jobs and Housing, and would revise provisions related to the research and development phase of the IRP State Pilot Project, as proposed to be established by AB 2864.

The bill would create a special fund in the State Treasury, the Jobs-Housing Balance Improvement Account, for the purposes of making grants to local agencies, cities, counties, and cities and counties and transferring funds to the Rental Housing Construction Fund, and for related administrative expenses of the department pursuant to the Jobs-Housing Balance Improvement Program, as that program is proposed to be created by AB 2864, and would make other changes relating to administration of that program.

The bill would become operative only if AB 2864 is enacted and becomes effective on or before January 1, 2001.

Ch. 666 (SB 1572) Alarcon. Housing assistance: termination: notice.

Existing law, known as Section 8 of the United States Housing Act of 1937, and other provisions of federal law, provide for housing assistance payments pursuant to contract to aid low-income families, and authorize loans, insurance, and interest reduction payments to assist in the provision of housing. Section 8 requires the owner of an assisted dwelling unit to notify the tenant not less than 90 days prior to the termination, as defined, of the assistance contract. Existing law also generally prescribes the notice to be given by a landlord or tenant to terminate a tenancy. Existing law requires until January 1, 2002, at least 9 months advance notice, as specified, to tenants, to the city or county and public housing authority, and to the Department of Housing and Community Development when the above-described forms of federal financial assistance are to be terminated or prepaid with respect to a multifamily rental housing development.

Existing law requires until December 31, 2000, an owner to give specified entities an opportunity to purchase the development upon terms that represent a bona fide intention to sell.

This bill, instead of the 9-month notice period, would require specified notices at least 12 months and at least 6 months in advance of the termination to be sent to the tenant and affected public entities, as defined. The bill would revise the definition of termination to include a decision to terminate rental restrictions for an assisted housing development, and would revise various conditions that must be met regarding offers to purchase an assisted housing development.

This bill would extend the operation of those provisions until January 1, 2011, and would make related changes.

Ch. 667 (SB 1593) Burton. Housing programs.

(1) The existing Multifamily Housing Program requires the Department of Housing and Community Development to administer deferred payment loans to be used to pay for the eligible costs of housing development projects. The program requires loans to be provided to projects that meet specified requirements and criteria, such as the ability of the project to serve households at the lowest income levels. Existing law requires the department to report annually to the Governor and the Legislature on housing programs administered by the department.

This bill would require the department to include annually in that report to the Governor and the Legislature a specified report on the Multifamily Housing Program.

(2) Existing law establishes the Emergency Housing and Assistance Program and prohibits the program from conflicting with the federal Steward B. McKinney Homeless Assistance Act. It also requires the Department of Housing and Community Development to adopt regulations regarding the administration of the program and prohibits these provisions from being construed to preclude a provider of emergency shelter or transitional housing from restricting occupancy on the basis of sex.

This bill would define the term “Safe Haven” for purposes of the program. It would require providers of emergency shelter or transitional housing to provide adequate facilities within their range of services so that all members of a family may be housed together.

(3) Existing law requires the Department of Housing and Community Development to ensure that not less than 20% of the moneys in the Emergency Housing and Assistance Fund are allocated to nonurban counties during any given fiscal year. It authorizes the department to determine limits on the amount for capital developments and prohibits the department, or a designated local board, from granting more than \$500,000 to any eligible organization within a region.

This bill would, among other things, require, if the funds allocated to nonurban counties are not awarded by the end of a specified period, to be allocated subsequently to urban counties. It would also require the department to consider, by June 30, 2001, increasing its limits on the amount for operating grants and capital grants, as specified, prohibit a grant of more than \$1,000,000 to any eligible organization within a region in a funding round, and authorize eligible designated local boards to use a specified percentage, not to exceed 2%, of the grant award to defray administrative costs.

(4) The existing California Statewide Supportive Housing Initiative Act requires the State Department of Mental Health to award grants to local government or private nonprofit agencies for services to a target population that is defined to include adults with low incomes having one or more disabilities or individuals eligible for services provided under the Lanterman Developmental Disabilities Services Act and may include specified other groups or individuals. The act establishes a Supportive Housing Program Council to assist with the implementation of the act. The act also requires the department to award grants for up to a 3-year period and in an amount that does not exceed \$450,000 for a single project, and \$1,000,000 for an application from a single jurisdiction for several projects. The act prohibits more than 10% of the amount appropriated in a fiscal year for purposes of the act from being used for state administration of the act.

This bill would, among other things, revise the definition of target population to include veterans, include the Director of the California Tax Credit Allocation Committee on the council, extend the time period for specified grants to not exceed 15 years, and raise the maximum amounts for the grants to \$2,000,000 for a single project and \$3,000,000 for an application from a single jurisdiction for several projects. It would also authorize 10% of the amount appropriated for purposes of the act to be used for state administration of the act, notwithstanding the allocation of specified funds in the Budget Act of 2000. The bill would also require the State Department of Mental Health to prepare and provide annually to the Legislature a report relating to specified information.

Ch. 668 (AB 1961) Machado. Machineguns: definition.

Existing law prohibits a person, firm, or corporation from possessing, transporting, manufacturing, or selling a machinegun unless authorized to do so. A machinegun is defined to mean, in part, any weapon that shoots, or is designed to shoot, automatically, more than one shot, without manual reloading, by a single function of the trigger, and includes any frame receiver that can only be used with that weapon.

This bill would expand the above definition of a machinegun to include any weapon that can readily be restored to shoot, automatically, more than one shot. This bill would also include in the above definition any combination of parts from which a machinegun can be assembled if those parts are in the possession and control of the person. By expanding the definition of a machinegun, this bill would expand the scope of a crime and impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 669 (AB 2425) Corbett. Stalking.

(1) Under existing law, a person who willfully, maliciously, and repeatedly follows or harasses another person and makes a credible threat with the intent to place that person in reasonable fear for his or her safety, or the safety of his or her immediate family is guilty of either a misdemeanor or a felony. A person who commits that offense when there is a temporary restraining order, injunction, or any other court order in effect prohibiting the behavior proscribed by that offense against the same party is guilty of a felony, punishable by imprisonment in the state prison for 2, 3, or 4 years. A person who is convicted a 2nd or subsequent time of violating either of these 2 offenses is punishable by imprisonment in the state prison for 2, 3, or 4 years.

This bill would increase the punishment for a 2nd violation of the first offense described above by imprisonment in the state prison for 2, 3, or 5 years. This bill would also increase the penalty for anyone who is convicted of the first offense described above after having previously been convicted of specified offenses; including the willful infliction of corporal injury, the intentional and knowing violation of a court order, as specified, or making a threat to commit a crime as specified, to imprisonment in a county jail for not more than one year, or by a fine of \$1,000, or by both that fine and imprisonment, or by imprisonment in the state prison for 2, 3, or 5 years. By expanding the definition of a crime this bill would impose a state-mandated local program.

(2) Existing law requires the county sheriff to give notice of the release on bail of a person arrested for stalking. The notice must be directed to the domestic violence unit of the prosecuting agency of the county or city where the victim resides, and that agency is required to inform the county jail as to the specific person or persons who must be contacted.

This bill instead would require the sheriff or other designated county official in the county where the arrestee is incarcerated to designate a telephone number available for public inquiry regarding the bail or release status of the arrestee, as specified. The bill would specify that the designated county official is not required to establish a new telephone number, rather it is only required to specify on the victim resource card the telephone number that a victim should call to obtain this information. By imposing new duties on local officials, the bill would impose a state-mandated local program.

(3) Existing law requires that a prison inmate who has completed his or her term of imprisonment, be released into the community upon supervised parole for a specified period of time.

This bill would require the Department of Corrections, contingent upon a Budget Act appropriation, to ensure that any parolee convicted of the offense of stalking under the provisions stated in (1) who is deemed to pose a high risk of committing a repeat stalking offense be placed on an intensive and specialized parole supervision program for the period of parole. This bill would require the department to evaluate this parole program and make a report to the Legislature, as specified.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 670 (AB 2663) Thomson. Sustainable agriculture.

Existing law requires the Legislature to provide for a continuing sound and healthy agriculture in California and to encourage a productive and profitable agriculture. Existing law enumerates major principles of the state's agricultural policy.

This bill would state that it is the intent of the Legislature that programs at the University of California relating to sustainable agriculture practices be adequately funded and incorporated into appropriate programs of the state and university to maximize the access of California farmers and ranchers to the information. This bill would also request that the Regents of the University of California fulfill this intent of the Legislature. This bill would also include in the principles of the state's agricultural policy, maximizing the ability of farmers, ranchers, and processors to learn about practices that will enable them to achieve specified state agricultural policies.

Ch. 671 (SB 815) Chesbro. Courts: remittance and reimbursement.

(1) Existing law specifies certain amounts which a county is required to remit to the state for purposes of trial court funding.

This bill would revise those amounts with respect to Contra Costa, Del Norte, and San Bernardino Counties, except as specified.

(2) Existing law specifies the funds required to be repaid by Merced County pursuant to a loan for deferred fire protection contract costs, and provides that the amount of the local matching funds made to obtain certain juvenile correction funds in a specified year is deemed a payment for deferred fire protection contract costs.

This bill would extend the period of participation in the juvenile correction program deemed repayment on that loan.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 672 (SB 1681) Committee on Budget and Fiscal Review. Budget Act of 2000: augmentation and appropriation.¹⁰

Existing law, as set forth in the Budget Act of 2000, makes various appropriations for support of state government for the 2000–01 fiscal year. The Budget Acts of 1998 and 1999 also made various appropriations for support of state government for the 1998–1999 and 1999–00 fiscal years, respectively.

The bill would reappropriate funds appropriated in the Budget Act of 2000 to the Office of Emergency Services for the City of South San Francisco for a San Mateo County emergency shelter facility, to the office for the County of San Mateo for a South San Francisco emergency shelter facility.

The bill would provide that of certain funds appropriated to the State Coastal Conservancy, \$3,175,000 shall be expended for public access and \$3,000,000 shall be expended for the Southern California Wetlands Recovery Program.

The bill would eliminate funding appropriated to the State Coastal Conservancy for the Watts/Willowbrook Boys and Girls Club for completion of a club.

The bill would reappropriate funds appropriated to the State Coastal Conservancy for the Bay Area Ridge Trail for the Bay Area Ridge Trail Council for 14 trail-related projects in 7 bay area counties, to the conservancy for the Bay Area Ridge Trail for the Bay Area Ridge Trail Council for trail-related projects.

This bill would reappropriate funds appropriated to the State Coastal Conservancy for Cachuma RCD and Santa Ynez RCD and SB County Water Agency for salmonid habitat improvement, to the conservancy for Cachuma Conservation Release Board, Santa Ynez River Conservation District-Improvement District No. 1, and Santa Barbara County Water Agency for that purpose.

The bill would revise specified appropriations made to the Department of Transportation for local assistance.

The bill would reappropriate funds appropriated to the Department of Parks and Recreation for Delta Science Center for Marine and the Delta Aquatic Education and

NOTE: Superior numbers appear as a separate section at the end of the digests.

Interpretive Programs, to the department for the East Bay Regional Park District for those programs.

The bill would reappropriate funds appropriated to the Department of Parks and Recreation for the City of Huntington Beach for specified storm drain modification, to the department for the County of Orange for that purpose.

The bill would revise specified appropriations made to the Department of Parks and Recreation, payable from the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act of 2000.

The bill would reappropriate funds appropriated to the Department of Parks and Recreation for the Santa Monica Mountains Trust for Leo Carillo State Beach, as specified, to the department for the Nature Trust of Santa Monica Mountains for that purpose.

The bill would reappropriate funds appropriated to Department of Water Resources for Yolo County for the Community of Esparto-Flood control improvements, to the department for Yolo County for the Community of Esparto and the Community of Madison-Flood control improvements.

The bill would provide for specified appropriations made to the State Water Resources Control Board, to be available for expenditure during the 2000–01, 2001–02, and 2002–03 fiscal years.

The bill would provide that specified funds appropriated in the Budget Act of 2000 shall be allocated to Los Angeles County for People in Progress, Inc. to fund the county's local matching fund contribution requirement.

The bill would provide that specified funds appropriated in the Budget Act of 2000 shall be allocated to the Marin Brain Injury Network.

The bill would revise specified appropriations made to the University of California related to educational programs and outreach.

The bill would revise specified appropriations made to the California Arts Council for local assistance.

The bill would reappropriate funds appropriated to the Department of Veterans Affairs for the Santa Clarita Historical Veterans Memorial to the department for the City of Santa Clarita Historical Veterans Memorial.

The bill would reappropriate funds appropriated in the Budget Act of 1999 to the Department of Parks and Recreation for the City of Westminster for the purchase of passenger vans to serve Vietnamese seniors, to the department for the City of Santa Ana for the purchase of passenger vans to serve Vietnamese seniors.

The bill would reappropriate funds appropriated in the Budget Act of 1998 to the Department of Parks and Recreation for Bear Mountain Parks and Recreation District for repavement of basketball courts, to the department for Bear Mountain Parks and Recreation District for soccer fields.

The bill would reappropriate funds appropriated in the Budget Act of 1999 to the State Coastal Conservancy for Palo Corona Ranch to the conservancy for the acquisition of properties to protect the Big Sur region and the Monterey Bay seashore, as provided.

The bill would declare that it is take effect immediately as an urgency statute.

Ch. 673 (AB 1348) Runner. Business practices: trademark infringement.

(1) Existing law prescribes the grounds for civil action by the owner of a registered trademark in cases of trademark infringement.

This bill would add to those grounds for civil action, knowingly facilitating, enabling, or otherwise assisting a person to manufacture, use, distribute, display, or sell any goods or services bearing any reproduction, counterfeit, copy, or colorable imitation of a registered trademark, without the consent of the registrant. The bill would specify the actions that need to be done to establish that a person is presumed to have acted knowingly, including a requirement that the owner of the registered mark, an officer of a corporation that is the owner of the registered mark, or the legal counsel of the owner of the registered mark deliver to the

alleged offender a specified statement under penalty of perjury, thus creating a new crime and a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 674 (AB 1858) Romero. Consumer protection.

(1) Under the State Bar Act, all persons admitted and licensed to practice law in this state, other than justices and judges of courts of record during their term of office, are members of the State Bar. Existing law provides for the regulation of those engaged in the practice of law, including the means by which they solicit employment of their legal services, and authorizes the State Bar to bring a disciplinary action for a violation of these provisions.

This bill would require each member of the State Bar to include in all advertisements seeking employment of the member to provide services relating to immigration and naturalization, to include a statement that he or she is a member of the State Bar, licensed to practice law in this state. This bill would require a law firm or corporation to include in these advertisements a statement that all of its legal services are provided by an active member of the State Bar or under the supervision of an active member of the State Bar. This bill would specify that those required statements be in the same language as the advertisement. This bill would exempt from these requirements advertisements in telephone and business directories, as specified, that state only the name, address, and telephone number of the entity and would additionally exempt those members employed by public agencies or by nonprofit entities registered with the Secretary of State. This bill would make a violation of these requirements cause for discipline by the State Bar.

(2) Existing law regulates the practice of immigration consultants, defined as persons who provide nonlegal assistance or advice in an immigration matter. Existing law makes a violation of these provisions punishable as a crime and also provides for a civil penalty not to exceed \$10,000 to be assessed and collected in a civil action by any person injured by a violation of the provisions that govern the practice of immigration consultants.

This bill would increase the amount of the civil penalty to \$100,000 for each violation and would require an immigration consultant to include in any advertisement for services a statement that he or she is not an attorney, as specified. Because a failure to comply with this requirement would be punishable criminally as a violation of the provisions governing the practice of immigration consultants, this bill would expand an existing crime, thereby imposing a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 675 (SB 567) Speier. Vehicles: child passenger restraint system: seatbelts.

(1) Under existing law, it is unlawful for any parent or legal guardian, when present in a motor vehicle, as defined, to permit his or her child or ward who is less than 4 years of age or weighs less than 40 pounds to be transported on the highway in the vehicle without using a specified child passenger restraint system. Existing law specifies the fines for a violation of this prohibition, provides for the allocation of those fines that are collected in accordance with a specific schedule, and provides that the fines may be waived by the court if the defendant establishes that he or she is economically disadvantaged.

This bill, instead, would require any parent or legal guardian to secure the child or ward in that child passenger restraint system unless the child or ward is at least one of the following:

6 years of age or older or weighs 60 pounds or more. In addition, the bill would increase the fines for violating this provision.

The bill, in addition to the authority to waive the fines, would authorize the court to reduce the fines with respect to persons not previously convicted of the offense or the offense described in (2) below or persons convicted of second or subsequent offenses, as specified. The bill would require persons subject to a reduced or waived fine to attend and complete an education program, and would allow the court to require other persons convicted of the offense to attend the education program. The bill would make certain conforming changes.

(2) Under existing law, it is unlawful for any parent or legal guardian, when present in a motor vehicle, as defined, to permit his or her child or ward who is between 4 and 16 years of age and weighs 40 pounds or more to be transported on the highway in the vehicle without using a safety belt.

This bill, instead, would prohibit a parent or legal guardian, when present in a motor vehicle, from allowing his or her child or ward from being transported upon a highway without providing and properly using a child passenger restraint system or a safety belt if the child is 6 years of age but less than 16 years of age or is less than 6 years of age and weighs 60 pounds or more. The bill would authorize the court to reduce or waive the fine upon a second or subsequent conviction if the defendant establishes that he or she is economically disadvantaged and the court refers the defendant to an educational program, except as specified. The bill would allow the court to order any person who is convicted of violating the above to attend the educational program. The bill would also require fines collected for violating this prohibition to be allocated in accordance with a specified schedule. Because this would increase the duties imposed on local entities, this bill would impose a state-mandated local program.

(3) Existing law exempts from the requirements described in (1) and (2) above regarding the use of seatbelts and child passenger restraint systems on children, instances involving the transportation of children in emergencies.

This bill would limit the exemption to life-threatening emergencies and to children who are at least one year of age. The bill would thereby expand the scope of existing crimes, and would create a state-mandated local program.

The bill would make a corresponding change.

(4) Existing law authorizes a court to exempt from the child passenger restraint system requirements any child for whom it is determined that the use of the system would be impractical by reason of physical unfitness, medical condition, or size. The court is authorized to require proof of those conditions.

This bill, additionally, would authorize the court to require proof that an appropriate special needs child passenger restraint system is not available.

The bill would authorize a child weighing more than 40 pounds to be transported in the backseat of a vehicle while wearing only a lap safety belt when the backseat of the vehicle is not equipped with a combination lap and shoulder safety belt.

(5) Under existing law, every public or private hospital, clinic, or birthing center, is required, at the time of or before the discharge of a child under the age of 4 years, or weighing less than 40 pounds, to provide and discuss information on the law requiring child passenger restraint systems to the parents or the person to whom the child is released.

This bill would recast this requirement to require the information to be provided at the time of discharge of a child 6 years of age or less or weighing less than 60 pounds.

(6) The provisions of this bill revising the age and weight components described above would become operative on January 1, 2002.

(7) This bill would incorporate additional changes in Section 12810 of the Vehicle Code proposed by SB 1403, to become operative only if both bills are enacted and become operative on or before January 1, 2001, and this bill is enacted last.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for

making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 676 (SB 929) Polanco. Optometry.

(1) Existing law provides that a technician in the office of a physician or an optometrist may fit prescription lenses.

This bill would instead refer to an assistant and would set forth additional duties that an assistant may perform under the direct responsibility and supervision of an ophthalmologist or optometrist.

(2) Under existing law, the practice of optometry includes, among other things, the examination of the human eye or eyes, or its or their appendages, and the analysis of the human vision system, either subjectively or objectively, and the use of pharmaceutical agents for the sole purpose of the examination of the human eye or eyes for any disease or pathological condition. Existing law allows certified optometrists to diagnose and treat certain conditions of the human eye or its appendages, and use therapeutic pharmaceutical agents to do so. The State Board of Optometry, with the advice and consent of the Division of Allied Health Professionals of the Medical Board of California, is also authorized to designate the specific topical pharmaceutical agents to be used for these purposes.

This bill would provide that the practice of optometry also includes the prevention, diagnosis, treatment, management, and rehabilitation of disorders and dysfunctions of the visual system. This bill changes a number of the identified conditions that certified optometrists may diagnose and treat, and requires consultation or referral to an ophthalmologist under certain circumstances, as specified. This bill would also make changes to the list of topical pharmaceutical agents that may be used for these purposes, and requires optometrists to again refer or consult with ophthalmologists under certain circumstances, as specified. In any case where the bill requires an optometrist to consult with an ophthalmologist, the optometrist is required to maintain a written record in the patient's file and furnish a copy upon request by the consulting ophthalmologist, and this bill would specify that all collaborations, consultations, and referrals be made to an ophthalmologist located geographically appropriate to the patient. The bill would also provide for certification of optometrists to treat primary open angle glaucoma in patients over the age of 18 if certain requirements are met.

(3) Existing law provides for a Therapeutic Pharmaceutical Agent Advisory Committee within the State Board of Optometry to consist of 6 members, 3 of whom are appointed by the Medical Board of California, and 3 of whom are appointed by the State Board of Optometry, as specified.

This bill would abolish that committee.

(4) Existing law imposes education and training requirements in order for an optometrist to obtain certification for the use of therapeutic pharmaceutical agents and requires the board to issue a certificate to those applicants meeting the prescribed criteria. It requires certificate holders to complete a minimum of 50 hours of continuing education every 2 years if legislation is enacted that requires the licensure of optometrists on a 2-year renewal cycle, and requires, if legislation is not enacted, a minimum of 25 hours of continuing education every year.

This bill would require certificate holders to complete a minimum of 50 hours of continuing education every 2 years in order to renew their certification, with 35 of those hours being designated for training on particular conditions or diseases, as specified.

(5) This bill would also express the intent of the Legislature that the law governing the scope of the practice of optometry not be amended prior to January 1, 2009, and that no legislation to this effect be introduced prior to January 1, 2008, with parties interested in this matter to commence negotiations no later than January 1, 2007, on any proposed changes to the scope of this practice.

Ch. 677 (SB 1339) Figueroa. Pharmacy: quality assurance program.

The Pharmacy Law provides for the licensing and regulation of the practice of pharmacy under the jurisdiction of the California State Board of Pharmacy.

This bill, on and after January 1, 2002, would require every pharmacy to establish a quality assurance program that, at a minimum, documents medication errors attributable, in whole or in part, to that pharmacy or its personnel, as specified. This bill would provide that records generated and maintained for the quality assurance program are not subject to discovery in arbitration, civil actions, or other proceedings, except as specified. This bill would further provide that its provisions shall not prohibit a patient from accessing the patient's own prescription records.

Existing law generally makes it a misdemeanor to knowingly violate the Pharmacy Law. All other violations of that law are infractions unless otherwise indicated.

Because a violation of the bill's requirements regarding a quality assurance program would be a crime, the bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 678 (SB 1563) Leslie. Real property.

(1) Existing law, with respect to licensure under the Professional Land Surveyors' Act, authorizes the Board of Professional Engineers and Land Surveyors to prescribe by regulation reasonable educational or experience requirements but not to exceed 2 years of postsecondary education in land surveying for admission to the first division of the licensure examination.

This bill would require the board to prescribe by regulation reasonable educational or experience requirements to include 2 years of postsecondary education in land surveying, 2 years experience in land surveying, or a combination of one year of postsecondary education and one year of experience in land surveying for admission to the first division of the examination.

(2) Existing law requires every map or plat issued by a licensed land surveyor or registered civil engineer to show the bearing and length of lines, scale of map and north arrow, the name and legal designation of the property depicted, and the date or time period of the preparation of the map or plat.

This bill would delete the requirement that these items be included on each map or plat issued by a licensed land surveyor or registered civil engineer.

(3) Existing law requires the perpetuation by specified means of the location of monuments that control the location of boundaries and improvements or that provide survey control when a highway, right-of-way, or easement is improved, constructed, reconstructed, or relocated.

This bill would additionally impose this requirement when a highway, right-of-way, or easement is maintained or resurfaced and would specify that it applies only if the monument could be destroyed, damaged, covered, or otherwise obliterated as a result of these activities.

(4) Existing law provides for the filing of a record of survey, after the making of a field survey with the county surveyor, and the record of survey to thereafter be filed with the county recorder.

This bill would require the county recorder to provide the preparer of the map with the filing data, as defined, within 10 days of the filing if a postage-paid, self-addressed envelope or postcard was submitted by the preparer. The bill would also require the county surveyor to provide the preparer of a corner record with applicable filing data, as defined, within 20 days of a final filing if a postage-paid, self-addressed envelope or postcard was submitted by the preparer and the county surveyor's office does not maintain an electronic data base of filed corner records that is accessible to the public. The bill would also make certain clarifying changes in the act, and conforming changes in provisions of the Subdivision Map Act, as specified. The bill would impose a state-mandated local program because it requires local officials to provide a higher level of service.

(5) This bill would incorporate additional changes in Sections 8761 and 8771 of the Business and Professions Code proposed by SB 1863, to become operative only if both bills are enacted and become operative on or before January 1, 2001, and this bill is enacted last.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 679 (SB 1718) Sher. Warranties: new motor vehicles.

Existing law requires every manufacturer of consumer goods sold in this state, including motor vehicles, to maintain sufficient service and repair facilities to carry out the terms of its express warranties. Existing law further provides that if a manufacturer or its representative is unable to service or repair a new motor vehicle to conform to the applicable express warranties after a reasonable number of attempts, the manufacturer shall either promptly replace the vehicle or make restitution to the buyer, at the buyer's option. Existing law provides that it is rebuttably presumed that a reasonable number of attempts to conform a new motor vehicle to its warranty have been made if, within 18 months of delivery or 18,000 miles, whichever is first, (1) the same nonconformity has been subject to repair at least 4 times by the manufacturer or its agents and the manufacturer has been directly informed of the need for the repair at least once, or (2) the vehicle has been out of service because of repairs to nonconformities by the manufacturer or its agents for a cumulative total of more than 30 calendar days since delivery to the buyer.

The bill would additionally provide for the establishment of the presumption when a nonconformity that results in a condition likely to cause death or serious bodily injury if the vehicle is driven, has been subject to repair 2 or more times by the manufacturer or its agents and the buyer or lessee has at least once directly notified the manufacturer of the need for the repair. This bill would also make other related changes.

Existing law defines a new motor vehicle for the purposes of the above provisions to mean (1) a new motor vehicle used or bought primarily for personal, family, or household purposes or (2) a new motor vehicle used primarily for business and personal, family, or household purposes by a person or organization, as specified, to which not more than 5 vehicles are registered in this state.

This bill would revise the 2nd definition to include only a new motor vehicle with a gross vehicle weight under 10,000 pounds bought or used primarily for business purposes, as specified.

Ch. 680 (SB 1745) Burton. Landlord-tenant.

Existing law, with certain exceptions, requires 30 days' notice for a change in the terms of, or termination of, a month-to-month tenancy.

This bill would enact provisions operative only until January 1, 2006, that would revise the procedure for providing that notice and require an additional 30 days' notice for a proposed rent increase that, either in and of itself or when combined with all other rent increases in the 12 months prior to the effective date of the increase, is more than 10% of the

amount of rent charged to a tenant at any time during the 12 months prior to the effective date of the increase. The bill would also provide that if a statute, state or federal regulation, recorded regulatory agreement, or contract provides for a longer period of notice, the personal service or mailing of the notice shall be in accordance with the longer period.

Ch. 681 (SB 1828) Speier. Dangerous drugs and devices.

The Medical Practice Act provides that it is unprofessional conduct for a physician and surgeon to prescribe, dispense, or furnish dangerous drugs or dangerous devices, as defined, without a good faith prior examination and medical indication therefor. The Pharmacy Law provides for the regulation and licensing of pharmacists, and regulates the furnishing and dispensing of dangerous drugs or dangerous devices.

This bill would prohibit any person or entity from prescribing, dispensing, or furnishing dangerous drugs or dangerous devices on the Internet for delivery to any person in this state, except as specified. This bill would also prohibit, pursuant to the Pharmacy Law, any person or entity from dispensing or furnishing, or causing the dispensing or furnishing of, dangerous drugs or dangerous devices on the Internet for delivery to any person in this state without a prescription issued pursuant to a good faith prior examination under specified conditions.

This bill would permit either a fine of up to \$25,000 per occurrence pursuant to a citation issued by the board or a civil penalty of \$25,000 per occurrence to be enforced by the Attorney General. The bill would require the fines and civil penalties to be deposited into the Contingent Fund of the Medical Board of California or the Pharmacy Board Contingent Fund. Because these contingent funds are continuously appropriated funds, the bill would make an appropriation. For notifications made on and after January 1, 2002, this bill would provide for the Franchise Tax Board to collect the fine or the civil penalties from tax refunds or lottery winnings otherwise payable to violators. This bill would also require violations by nonresidents to be reported to the appropriate professional licensing authority.

Because a violation of these provisions would also be a crime, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 682 (SB 2013) Committee on Health and Human Services. Food Stamp Program: application form.

Existing law provides for the Food Stamp Program, under which each county distributes food stamps allocated to this state by the federal government to eligible households.

This bill would require the State Department of Social Services, in conjunction with affected stakeholder groups, and subject to federal approval, to develop and implement a simplified and shorter application form for nonassistance food stamp cases. It would require the form to be evaluated for use in specified multiprogram applications.

The bill would prohibit the department from requiring any county to implement use of the simplified form until the county has been allowed sufficient time to reprogram its automated systems for the purpose of implementing the form.

The bill would also require the department to provide information on implementation, including a simplified form, to the appropriate legislative committees on or before July 1, 2001.

Ch. 683 (SB 2123) Figueroa. Private patrol operators.

The Private Security Services Act provides, among other matters, for the licensure and regulation of private patrol operators by the Bureau of Security and Investigative Services within the Department of Consumer Affairs and makes a violation of its provisions a crime.

Under existing law, employees of those licensees who perform the function of a security guard or security patrol person are required, upon accepting employment, to apply to the bureau for registration and to submit to it fingerprint cards for the purpose of a background check. Existing law provides for the issuance of a temporary registration card, allowing an employee of a licensee to work until the bureau issues a registration card or denies the application for registration.

This bill would make the provisions authorizing and pertaining to the issuance of a temporary registration card inoperative on June 30, 2003.

This bill would require the application and fee to register an employee of a licensed private patrol operator to be submitted, as defined, on or before the same business day that the person is assigned to work, or, if that day is a weekend day or federal holiday, on the first business day immediately following the weekend or federal holiday and would prohibit a licensed private patrol operator from assigning an employee to work with a temporary registration card unless the registration application and fee were submitted in accordance with these time provisions. This bill would also require a licensed private patrol operator to certify proof of current and valid registration of each employee, as specified, and to certify, as specified, that the employee has submitted fingerprints to the bureau. This bill would provide for fines assessed by the Director of Consumer Affairs for the failure of a licensed private patrol operator to comply with these requirements.

Because this bill would expand the duties of a private patrol operator, the violation of which would be punishable as a misdemeanor, it would create a new crime and thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 684 (SB 1102) Murray. Peace officers: racial profiling training.

Existing law generally prescribes peace officer training conducted by the Commission on Peace Officer Standards and Training.

This bill would prohibit law enforcement officers from engaging in racial profiling. It would require every law enforcement officer in the state to participate in racial profiling training, with the curriculum developed by the Commission on Peace Officer Standards and Training, in collaboration with a 5-person panel as specified. By imposing additional training duties on local law enforcement entities, this bill would impose a state-mandated local program.

This bill would require a report by the Legislative Analyst to the Legislature, not later than July 1, 2002, regarding data collection in connection with racial profiling, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 685 (AB 1728) Villaraigosa. Gross income exclusion: reparations.

The Personal Income Tax Law allows various exclusions in computing the income that is subject to the taxes imposed by that law, including an exclusion for any amount received as compensation by a taxpayer pursuant to the German Act Regulating Unresolved Property Claims and any amount received by a taxpayer who is a Holocaust victim or the heir or beneficiary of a Holocaust victim as a result of a settlement of claims for any recovered asset.

This bill would additionally exempt any amounts received from the German Foundation known as Remembrance, Responsibility, and the Future, or any other source of humanitarian reparations made as reparations to persons who were required to perform slave or forced labor during World War II.

This bill would take effect immediately as a tax levy.

Ch. 686 (SB 1080) Sher. Toll bridges.

Existing law requires, for the purpose of implementing provisions regarding the use of exclusive or preferential use of highway lanes or highway access ramps by ultra low-emission vehicles (ULEV) and super ultra-low emission vehicles (SULEV), that the Department of Motor Vehicles make available for issuance distinctive decals, labels, or other identification for the described vehicles.

This bill would require, if the Metropolitan Transportation Commission, serving as the Bay Area Toll Authority, grants toll-free and reduced-rate passage on toll bridges under that commission's jurisdiction to any vehicle pursuant to law, the commission to grant the same toll-free and reduced-rate passage to vehicles displaying a valid ULEV or SULEV identifier issued pursuant to the above. To the extent that this would increase the level of service of the commission, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 687 (AB 943) Dutra. California Debt and Investment Advisory Commission.

(1) Existing law establishes a 9-member California Debt and Investment Advisory Commission and prescribes the duties of that commission, including the requirement that the commission collect, maintain, and provide comprehensive information on all state and all local debt authorization, sold and outstanding. It requires the commission to prepare an annual report compiling and detailing the total amount of outstanding state and local public debt and examining recent trends in the composition of that debt.

Existing law requires the treasurer or chief fiscal officer of a local agency to render annually a statement of investment policy to the legislative body of the local agency, as well as to any oversight committee. This officer is also required to render quarterly reports regarding the financial assets of the local agency to the legislative body, the chief executive officer, and the internal auditor.

This bill would additionally require each city, county, or city and county to submit copies of its 2nd and 4th quarterly reports, as well as the statement of investment policy, to the California Debt and Investment Advisory Commission. The bill would exempt a city from the reporting requirement if it has maintained 100% of its investment portfolio in the county treasury, the Local Agency Investment Fund, other specified investments, or a combination thereof, and would exempt a county or city and county that maintained 100% of its investment portfolio in the Local Agency Investment Fund, other specified investments, or a combination thereof. Any city, county, or city and county not required to submit a report would be required to file with the commission a certification that it is not subject to the reporting requirement. These reporting requirements would impose new duties on local agencies and therefore would impose a state-mandated local program.

This bill would require the commission to collect, maintain, and provide information on local agency investments of public funds and to receive local government investor portfolio

information. It would also require the commission to report to the Legislature by May 1, 2006, its activities since the inception of the local agency investment reporting program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 688 (AB 1669) Committee on Judiciary. Civil procedure.

Existing law sets forth the requirements of federal law that shall apply to the collection of consumer debts; sets forth the procedure for the transfer or consolidation of civil actions; exempts certain petitions for protective orders, restraining orders, and injunctions from filing fee requirements; sets forth procedures for the relief of good faith improvers of land; specifies the procedure for a change of name; establishes early mediation pilot programs in 4 superior courts; sets the time limits for discovery in civil actions; regulates supplemental demands for the inspection of documents in a civil action; prescribes the form of an oath, affirmation, declaration; and specifies the effect of an appeal in a proceeding under the Probate Code.

This bill would revise the provisions regarding the requirements of federal law that shall apply to the collection of consumer debts; the procedure for the transfer or consolidation of civil actions; the exemption of certain petitions for protective orders, restraining orders, and injunctions from filing fee requirements; the procedures for the relief of good faith improvers of land; the procedure for a change of name; provisions governing early mediation pilot programs in 4 superior courts; the time limits for discovery in civil actions; the authorization for supplemental demand for the inspection of documents in a civil action; the form of an oath, affirmation, declaration; and the effect of an appeal in a proceeding under the Probate Code. The bill would also incorporate changes to Section 1277 of the Code of Civil Procedure proposed by AB 205 and AB 2155, contingent upon their prior enactment.

Existing law establishes the California Tahoe Conservancy, to be repealed January 1, 2001, by which date the conservancy shall report to the Legislature, as specified, and exempts the conservancy from liability for injuries caused by a natural condition of unimproved land. Existing law also authorizes specified law enforcement officers to inspect vehicles and vehicle components to establish rightful ownership or possession.

This bill would extend the date by which the California Tahoe Conservancy shall be repealed and by which the conservancy shall report to the Legislature to January 1, 2006, and expand the exemption for the conservancy from liability for injuries caused by a natural condition of unimproved land.

The bill would also add district attorney investigators to the law enforcement officers authorized to inspect vehicles and vehicle components to establish rightful ownership or possession.

Ch. 689 (AB 1808) Wayne. Sentencing.

(1) Existing law relating to sentencing provides that, with limited exceptions, when any person is convicted of 2 or more felonies and a consecutive term of imprisonment is imposed, the aggregate term of imprisonment for all these convictions shall be the sum of the principal term, the subordinate term, as defined, and any additional term imposed for applicable enhancements. Existing law provides that the subordinate term includes enhancements in the case of a violent felony, but not generally in other cases.

This bill would provide that the "subordinate term" includes enhancements in all cases.

(2) Existing law relating to sentencing provides that the number of enhancements that may be imposed shall not be limited for specified sex offenses.

This bill would provide that an unlimited number of enhancements may be imposed for a broader number of sex offenses.

(3) Existing law provides that a judge or magistrate may, in furtherance of justice, order an action to be dismissed. Existing law provides that this provision does not authorize a judge to strike any prior conviction of a serious felony for purposes of enhancement of a sentence under a specified provision of law.

This bill would provide that if the court has the authority under the above provision to strike or dismiss an enhancement, the court may instead strike the additional punishment for that enhancement in the furtherance of justice. This bill would provide that this provision does not authorize the court to strike the additional punishment for any enhancement that cannot be stricken or dismissed under the above provision.

Ch. 690 (AB 2156) Pescetti. Public contracts: bidding requirements.

Existing law provides that no state agency, municipal corporation, district, nor public officer responsible for letting public work contracts shall limit the bidding to any one concern or product, except as provided. Specification of a certain product is allowed in those instances where the product is designated to match others in use on a particular public improvement, unless the specification lists at least 2 brands or trade names of comparable quality and is followed by the words "or equal" so that bidders may furnish any equal products. Existing law requires specifications to provide a period of time prior to the award of the contract for submission of data substantiating a request for a substitution of "an equal" item.

This bill instead would require, with respect to state agencies, specifications to provide a period of time for submission of data prior to or after the award of the contract. The bill would provide that if no time period is specified, data may be submitted for 35 days after the award of the contract.

Ch. 691 (SB 180) Sher. Retail food facilities inspection information.

Existing law, the California Uniform Retail Food Facilities Law, provides for the regulation of health and sanitation standards for retail food facilities by the State Department of Health Services. Violation of any of these provisions is a crime.

This bill would require the State Department of Health Services, in consultation with local environmental health officers, representatives of the retail food industry, and other interested parties, on or before January 1, 2002, to establish standardized procedures for local health agencies to report information regarding each food facility inspection, reinspection, date of last inspection, period of any closure, and the facility name and address. It would require the department, within 60 days after it has established the standardized procedures, to publish these procedures.

This bill would also require the department, on or before January 1, 2002, to establish a standardized food facility inspection format.

This bill would require each local health agency that reports food facility information on an Internet web site, commencing July 1, 2002, to provide food facility inspection information in accordance with these procedures. Furthermore, since a violation of the provisions applicable to retail food facilities is a crime, this bill would impose a state-mandated local program.

Existing law requires each food establishment, except produce stands and swap meet prepackaged food stands, to be fully enclosed, in a building meeting specified criteria. Existing law excludes dining areas or open-air barbecue facilities, and outdoor displays that meet specified requirements.

This bill would additionally exclude outdoor beverage bars, as defined, contiguous with a fully enclosed food establishment, as defined, under the constant and complete control of the operator of the food establishment from the above enclosure requirements.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 692 (SB 370) Burton. Abortion.

Existing provisions of the Penal Code make it a felony, except as provided in the Therapeutic Abortion Act, (1) for a person to commit specified acts with the intent to procure the miscarriage of the woman, (2) for a woman to solicit a person to commit those specified acts with the intent to procure a miscarriage, and (3) for a person who solicits a woman to submit to any of those specified acts with intent to procure a miscarriage. Existing law makes it a crime for a person to practice, or advertise or hold oneself out as practicing, medicine, as specified, when the person at the time of doing so does not have a valid, unrevoked, and unsuspended license to practice as a physician and surgeon or is not otherwise authorized by law.

This bill would repeal the Penal Code provisions. The bill would also specify that a person is subject to the above penal provisions when he or she performs or assists in performing an abortion and does not hold a valid, unrevoked and unsuspended license to practice as a physician and surgeon, or does not have a certificate obtained in accordance with some other law authorizing him or her to so act.

Ch. 693 (SB 383) Haynes. Property taxation: transfer of base year value.

Existing property tax law permits persons over 55 years of age and persons who are severely and permanently disabled, as specified, to transfer the property tax base year value of their home to a replacement home in the same county, and, if an ordinance so providing has been adopted, authorizes the transfer of the base year value to a replacement home in a different county.

This bill would preclude an escape assessment from being levied if a transfer of base year value has been erroneously granted pursuant to an expired ordinance authorizing intercounty transfers of base year value.

This bill would incorporate additional changes in Section 69.5 of the Revenue and Taxation Code, proposed by SB 1417, to be operative only if SB 1417 and this bill are both chaptered and become effective on or before January 1, 2001, and this bill is chaptered last. These changes would become operative on the effective date of SB 1417.

This bill would take effect immediately as a tax levy.

Ch. 694 (SB 423) Johnston. Life insurance: guaranteed living benefits.

Existing law provides for the licensing and regulation of life insurers by the Insurance Commissioner, and in that regard, provides that certain types of insurance policies may be issued and delivered in this state.

This bill would authorize a life insurer to deliver or issue for delivery variable contracts or riders to variable contracts containing guaranteed living benefits, as defined, under certain conditions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 695 (SB 1552) Alpert. Pupil Achievement: Public Schools Accountability Act of 1999.

(1) Existing law establishes the Public School Performance Accountability Program consisting of an Academic Performance Index, an Immediate Intervention/Underperforming Schools Program, and a High Achieving/Improving Schools Program. The Public School Performance Accountability Program requires the Superintendent of Public Instruction, with approval of the State Board of Education, to develop the Academic Performance Index (API), consisting of a variety of indicators, to be used to measure the performance of schools. A school selected to participate in the Immediate

NOTE: Superior numbers appear as a separate section at the end of the digests.

Intervention/Underperforming Schools Program is required to comply with certain requirements, including, but not limited to, completing an action plan to improve the academic achievement of the pupils enrolled at the school. Existing law requires the Superintendent of Public Instruction to annually publish API rankings, and requires the governing board of a school district to discuss the results at a regularly scheduled meeting.

Existing law appropriates \$96,150,000 from the General Fund to the Superintendent of Public Instruction for allocation to school districts that meet or exceed the requirements of the Governor's High Achieving/Improving Schools Program, for allocation and expenditure in the 2001–02 fiscal year.

This bill would make clarifying changes in those provisions pertaining to the indicators used to evaluate the performance of schools in the API. The bill would instead make that appropriation available for allocation and expenditure in the 2000–01 fiscal year, thereby making an appropriation.

The bill would provide that the action plan may propose to increase up to a full 12 months the amount of time for which certificated employees are contracted, if prescribed conditions are met.

(2) The High Achieving/Improving Schools Program requires, by January 31, 2002, each school district with schools participating in the Immediate Intervention/Underperforming Schools Program to submit to the Superintendent of Public Instruction an evaluation of the impact, costs, and benefits of the program.

This bill would instead require that evaluation to be submitted by November 30, subsequent to the first full year of action plan implementation by participating schools and on November 30 of each subsequent year. By imposing new duties on school districts regarding deadlines for submitting this evaluation, the bill would impose a state-mandated local program.

(3) The Immediate Intervention/Underperforming Schools Program requires the Superintendent of Public Instruction, with the approval of the State Board of Education, to invite schools that scored below the 50th percentile on the statewide achievement tests administered in the Spring of 1998 and 1999 to participate in that program. Under existing law, schools selected for participation in the program are required to be notified by the Superintendent of Public Instruction no later than September 1 of each year.

This bill would require, by September 15 of each year, the Superintendent of Public Instruction, with the approval of the State Board of Education, to identify schools that failed to meet their API growth targets and that have an API below the 50th percentile relative to all other public elementary, middle, and high schools and to invite those schools to participate in the program, and would prescribe various matters related to participation, including, awarding a \$50,000 planning grant to each school selected to participate on or before October 15, 2000, of each year.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(5) This bill would incorporate additional changes in Section 52057 of the Education Code, proposed by S.B. 961, to be operative only if S.B. 961 and this bill are both chaptered and become effective on or before January 1, 2001, and this bill is chaptered last.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 696 (SB 2083) Speier. Medi-Cal.

Existing law permits a special commission to be created in San Mateo County and any other county designated by the California Medical Assistance Commission, in order to, among other things, enter into contracts for the provision of health care services to the county's Medi-Cal recipients and to subscribers in the Healthy Families Program.

This bill would also authorize the Board of Supervisors of San Mateo County to authorize the commission to provide health care delivery systems for other eligible persons.

Existing law specifies that a member of a commission or advisory to the commission established pursuant to the authority described above shall not be deemed to be interested in a contract entered into by the commission for purposes of certain prohibitions applicable to specified public officers and employees in certain circumstances, including the situation in which a commission contract authorizes the member or the organization the member represents to provide services to Medi-Cal beneficiaries under the commission's programs.

This bill would expand that provision to apply to any contract that authorizes the member of the commission or advisory committee or an organization the member represents to provide services under the commission's programs.

Ch. 697 (SB 1046) Murray. Occupational therapy: licensure.

Existing law requires that any person representing himself or herself as an occupational therapist or as an occupational therapy assistant meet certain requirements and qualifications related to the practice of those vocations. Existing law makes it a crime for any person not meeting those requirements and qualifications to use in connection with the person's name a title indicating or implying that he or she is an occupational therapist or occupational therapy assistant.

This bill would repeal those provisions, operative January 1, 2003, and would instead enact regulatory provisions providing for the licensure of occupational therapists and the certification of occupational therapy assistants by the California Board of Occupational Therapy created by this measure. The authority for the board would become inoperative on July 1, 2006, and would be repealed on January 1, 2007.

This bill would make it a crime to practice occupational therapy or to hold oneself out as an occupational therapist or an occupational therapy assistant without a license or certificate, as the case may be, and by creating this new crime, this bill would impose a state-mandated local program.

This bill would also create the Occupational Therapy Fund, into which licensure fees would be deposited by the board, for appropriation by the Legislature. This bill would also authorize a \$1,000,000 loan from the General Fund to the Occupational Therapy Fund, to be repaid with interest over a period of 5 years. The bill would appropriate \$610,000 of the loan proceeds to the board for use, as specified, in the 2000-01 fiscal year.

This bill would incorporate additional changes in Section 101 of the Business and Professions Code proposed by SB 2031, to be operative if SB 2031 and this bill are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 698 (SB 2104) Morrow. Agricultural disasters.

The California Emergency Services Act requires the Governor to develop and coordinate implementation of the state emergency plan and those programs necessary for the mitigation of the effects of an emergency in this state.

This bill would require the Office of Emergency Services to develop and adopt by January 2002 a guidance document to the state emergency plan that would specify the response of the state and its political subdivisions to agriculture-related disasters.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 699 (AB 484) Kuehl. Film California First Program.

(1) Existing law establishes the Film California First Program, which authorizes the Trade and Commerce Agency to pay and reimburse the film costs, as defined, incurred by a public agency, as defined, according to specified procedures. Procedures and guidelines promulgated to clarify and make specific provisions of the program, or of any other film assistance program within the agency, are exempt from specified requirements of the Administrative Procedure Act for a specified period, and the agency is authorized to adopt emergency regulations for these purposes after that period.

This bill would revise the definitions of the terms “film costs” and “public agency” for purposes of the program, and would revise the procedures for state payment and reimbursement of those costs. It would provide that the exemption from specified provisions of the Administrative Procedure Act, and the authorization to adopt emergency regulations, shall apply instead to the procedures and guidelines promulgated by the California Film Commission within the agency, with respect to the act or to any other film assistance program within the commission.

(2) Existing law requires the California Film Commission to prepare an annual status report of the Film California First Program, to include specified information.

This bill would require instead that the commission prepare annual preliminary reports, to include specified information, to be submitted to the Joint Legislative Budget Committee, prior to the adoption of the annual Budget Act, and submit a final report to the committee no later than January 1, 2004. It would require the commission, in consultation with specified state agencies, to contract with an independent audit firm or qualified academic expert to prepare a report to be submitted to the committee no later than January 1, 2004.

Ch. 700 (SB 2061) Schiff. State Theatrical Arts Resources Partnership.

Existing law sets forth the duties of the Trade and Commerce Agency, and of the California Film Commission within the agency, in helping to maintain and improve the position of the state’s motion picture industry in the national and world markets.

This bill would establish the State Theatrical Arts Resources (STAR) Partnership within the commission. It would require the commission to collaborate with the Department of General Services and other appropriate state agencies in identifying surplus state properties that may be available for use under the partnership, to list available properties for the use of filmmakers and location scouts at an interactive web site, and to make those properties available for film and television movie production at a nominal fee. It would authorize the commission to initiate discussions with local film liaisons to help establish local STAR partnerships to identify local surplus or unused government property or assets that may be used for commercial motion picture production.

Ch. 701 (AB 1032) Thomson. Health coverage: federally recognized California Indian tribes.

Existing law creates the Access for Infants and Mothers Program, which is administered by the Managed Risk Medical Insurance Board, to provide coverage for perinatal and infant care to residents of this state meeting certain income and other eligibility requirements and paying certain subscriber contributions. Funding for the program is provided by the Perinatal Insurance Fund, a continuously appropriated fund.

This bill would provide that a member of a federally recognized California Indian tribe is a resident of this state for these purposes. This bill would authorize a federally recognized California Indian tribal government to make required subscriber contributions on behalf of a member of the tribe, as specified. Because this bill would result in an increase in revenues to the fund and an increase in expenditures from the fund, it would thereby make an appropriation.

Existing law creates the California Major Risk Medical Insurance Program, which is also administered by the board, to provide major risk health coverage to residents of this state who

are unable to secure adequate private health coverage because of preexisting medical conditions and who meet other eligibility requirements and pay certain subscriber contributions. Funding for the program is provided by the Major Risk Medical Insurance Fund, a continuously appropriated fund.

This bill would provide that a member of a federally recognized California Indian tribe is a resident of this state for these purposes. This bill would authorize a federally recognized California Indian tribal government to make required subscriber contributions on behalf of a member of the tribe. Because this bill would result in an increase in revenues to the fund and an increase in expenditures from the fund, it would thereby make an appropriation.

This bill would also make various legislative findings and declarations relative to the potential offer by health plans of health coverage to tribal members.

Ch. 702 (SB 1545) Costa. Housing: employee housing.

(1) The Employee Housing Act reserves to local jurisdictions specified planning and zoning requirements that include, among other things, the source of water supply and method of sewage disposal, except as specified.

This bill would impose specified processing requirements with respect to a building permit, grading permit, or other approval from a city or county building department for the rehabilitation of real property improvements that are or will be employee housing for agricultural employees, or from a city or county health department for the operation, construction, or repair of a water system or waste disposal system servicing employee housing for agricultural employees. The bill would also require the local building or health department to approve or deny a complete application or permit request within 60 calendar days and would provide that if the application or permit is not approved or denied within the 60-day period, the Department of Housing and Community Development may approve the application or permit request if it determines that the plans are consistent with all applicable building codes and health and safety requirements. It would also require the local building or health department to inspect the plans and improvements prior to and during rehabilitation and issue a certificate of completion if the work is consistent with the plans and all applicable codes and health and safety requirements.

Because the bill would increase the duties of local public officials, it would impose a state-mandated local program.

(2) Under the Employee Housing Act, if a civil action has not been filed by the enforcement agency within 34 days after receipt of the complaint has been denied, or within 34 days after the administrative complaint has been denied, and if the agency determines that the conditions alleged in the complaint continue to exist, the complainant may bring a civil action for injunctive or declaratory relief.

This bill would provide instead that a complainant may bring a civil action for injunctive relief if the enforcement agency has not filed a civil action within 21 days after receipt of the complaint.

(3) Under the Employee Housing Act, if a complainant alleges, and the court finds, that residents of the employee housing were in imminent peril as a result of serious violations of the act, the complainant is not required to wait more than 5 days for the enforcement agency to bring the civil action and the complainant is authorized to do so after 5 days and is entitled to all rights and remedies pursuant to the act.

This bill would delete the 5-day waiting period.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 703 (AB 877) Scott. Teacher credentialing: out-of-state teachers. ¹¹

Existing law requires out-of-state applicants to meet prescribed requirements for the preliminary multiple or single subject teaching credential.

This bill would eliminate those requirements and establish new requirements for the preliminary designated subjects teaching credential. The bill would require the Commission on Teacher Credentialing to issue a preliminary services credential with a specialization in administrative services or a professional services credential with a specialization in administrative services to an out-of-state trained administrator who meets prescribed requirements.

Existing law requires the commission to award a credential, permit, or certificate of eligibility to any applicant who holds or qualifies for an equivalent credential, permit, or certificate of eligibility awarded by a state that has established a reciprocity agreement with the commission.

This bill would eliminate this requirement.

Existing law requires the commission to conduct periodic reviews to determine whether any state has established teacher preparation standards that are at least comparable and equivalent to teacher preparation standards in California and initiate negotiations with those states to provide reciprocity in teacher credentialing. Existing law requires the commission to grant an appropriate credential to any applicant from another state who has completed teacher preparation that is at least comparable and equivalent to those standards in California, if certain circumstances exist.

This bill would revise the circumstances under which an out-of-state applicant may receive an appropriate teaching credential. The bill would require the commission to contract for reviews of certain standards of other states to allow out-of-state prepared teachers to meet specified California requirements for multiple subject and single subject teaching credentials based upon out-of-state teacher preparation determined by the commission to be comparable and equivalent to the preparation required in this state. The bill would require an initial review to commence in 2001 and supplemental reviews to be conducted every 3 years after the completion of the initial review.

Existing law requires the commission to issue a 5-year preliminary multiple subject teaching credential authorizing instruction in a self-contained classroom or a 5-year preliminary single subject teaching credential authorizing instruction in departmentalized classes to any applicant who has not been awarded a credential pursuant to a reciprocity agreement with another state and meets other prescribed requirements.

This bill would require the commission to issue these credentials to experienced out-of-state prepared teachers who meet prescribed requirements.

Existing law requires the commission to issue a professional clear multiple or single subject teaching credential or a 5-year preliminary specialist instruction credential authorizing instruction of pupils with disabilities to applicants who meet prescribed requirements.

This bill would modify the requirements which applicants must meet to obtain the credentials.

Existing law requires the commission to issue a 3-year preliminary multiple subject teaching credential authorizing instruction in a self-contained classroom or a 3-year preliminary single subject teaching credential authorizing instruction in departmentalized classes to qualified applicants who meet prescribed requirements.

This bill would delete this requirement.

Existing law authorizes any teacher from another state to be employed by a school district to provide instructional services if certain conditions are met. Existing law requires the

commission to grant a 5-year preliminary multiple or single subject teaching credential or education specialist credential to a teacher who meets certain requirements if the teacher has received an offer of employment from certain educational entities in this state.

This bill would revise the requirements and conditions for the issuance of the credentials.

This bill would also provide that coursework, programs, or degrees completed at an institution of higher education outside of the United States are acceptable toward certification when the commission or agency approved by the commission has determined that the coursework, programs, or degrees are equivalent to those offered by a regionally accredited institution in the United States. The bill would require the commission to issue a California multiple subject, single subject, or education specialist teaching credential to provide instructional services if certain conditions are met.

The bill would appropriate the sum of \$500,000 from the General Fund to the Commission on Teacher Credentialing for the purpose of contracting for periodic reviews to determine whether any state has established teacher preparation standards that are at least comparable and equivalent to teacher preparation standards in California.

This bill would incorporate additional changes in Section 44227 of the Education Code proposed by AB 2339, that would become operative only if AB 2339 and this bill are both chaptered and become effective on or before January 1, 2001, and this bill is chaptered last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 704 (SB 1703) Escutia. Child care.

Existing law provides the priority for state and federally subsidized child development services except as provided for in child care for recipients of the CalWORKs program.

Existing law requires the superintendent to submit to the Joint Legislative Budget Committee a report documenting the performance of child care and development programs.

The bill would appropriate the sum of \$42,000,000 to the State Department of Education for specified child care purposes. The bill would declare appropriations for these purposes to be General Fund revenues appropriated to school districts for the purposes of Section 8 of Article XVI of the California Constitution, and to be within the total allocations to school districts and community colleges from the General Fund proceeds of taxes appropriated pursuant to Article XIII B of the California Constitution.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 705 (SB 1837) Figueroa. Securities: viatical settlement contracts: commodities transactions.

The Corporate Securities Law of 1968 provides for the regulation of securities and issuers of securities subject to that law.

Existing law defines "viatical settlement" for the purposes of the Insurance Code to mean an agreement between a person owning a life insurance policy upon the life of a person with a catastrophic or life-threatening illness or condition and another person by which the policy owner receives compensation or anything of value less than the death benefits in return for an assignment, transfer, sale, devise, or bequest of the death benefits or ownership of the insurance policy, but excludes from this definition the assignment of a life insurance policy to certain financial institutions as collateral for a loan. Existing law provides for the regulation of viatical settlements and the licensing of persons entering into or soliciting those settlements by the Insurance Commissioner.

This bill, for the purposes of the Corporate Securities Law of 1968, would define "viatical settlement contract" and "life settlement contract" to mean an agreement for the purchase, sale, assignment, transfer, devise, or bequest of any portion of the death benefit or ownership of a life insurance policy or certificate that is less than the expected death benefit of the life insurance policy or certificate, but would exclude from this definition the assignment, transfer, sale, devise, or bequest of a death benefit, life insurance policy, or certificate of

insurance by an insured or an original owner, as specified, to a person licensed under the Insurance Code. It would also exclude from that definition the assignment of a life insurance policy to a financial institution as security for a loan and the exercise of accelerated benefits under the terms of a life insurance policy, as specified. This bill, for the purposes of the Corporate Securities Law of 1968, would define "security" to include a viatical settlement contract or a fractionalized or pooled interest in a viatical settlement contract and a life settlement contract or a fractionalized or pooled interest in a life settlement contract. This bill would also define "issuer" with respect to a viatical settlement contract for the purposes of that law.

Existing law provides that certain securities transactions are exempt from qualification by the Department of Corporations.

This bill would provide that offers or sales of viatical or life settlement contracts are exempt from qualification, as specified.

Existing law exempts from qualification by the Department of Corporations an offer or sale of any security issued pursuant to a stock purchase plan or agreement, or issued pursuant to a stock option plan or agreement when the stock purchase or option plan or agreement is exempt pursuant to specified federal law and specified regulations are met.

The bill would apply the exemptions to any security issued pursuant to a purchase or option plan or agreement by a limited liability company. The bill would apply the exemption from qualification to an offer or sale of a security issued pursuant to a purchase or option plan or agreement when the security meets the conditions for the exemption at the time of issuance or grant.

Existing law provides for the licensing of broker-dealers engaging in securities transactions. This bill would exempt agents engaging in transactions involving viatical or life settlement contracts from that requirement if the agents are licensed life agents.

Existing law provides for the enforcement of actions for violations of the Corporate Securities Act of 1968 provisions.

This bill would permit a viatical or life settlement contract to be cancelled or rescinded for any reason and within 7 calendar days of remitting consideration for the transaction to the issuer or the issuer's agent.

The California Commodity Law of 1990 prohibits a person from selling or purchasing, or offering to sell or purchase, any commodity under any commodity contract or under any commodity option unless the person is exempted from this prohibition. Among those exempted from the prohibition is a person who is a member of a contract market designated by the Commodity Futures Trading Commission or any clearinghouse thereof.

This bill would require that for the member to come within the exemption, the commodity transaction at issue must require membership in and be subject to the regulatory jurisdiction of that contract market.

Ch. 706 (SB 764) Committee on Insurance. Medicare supplement insurance.

(1) Existing law provides for the regulation of Medicare supplement insurance policies by the Insurance Commissioner, and for the regulation of Medicare supplement contracts issued by health care service plans by the Department of Managed Care. These provisions establish benefit standards for various coverage options offered by the policies and contracts, impose disclosure, marketing, and reporting requirements on insurers and health care service plans offering these policies and contracts, and provide for various other related regulations. The willful violation of the provisions governing health care service plans and the knowing or intentional violation of the provisions governing persons in the business of insurance are crimes.

This bill would repeal these provisions and enact other, similar provisions. Because the bill's provisions governing health care service plans and persons in the business of insurance

would change the definitions of crimes, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 707 (SB 1814) Speier. Insurance: Medicare supplement: rate guide.

(1) Existing law provides that each Medicare supplement contract currently available from an issuer shall be made available to any person who submits an application prior to or during the 6-month period after he or she reaches age 65 and who is enrolled for benefits under Medicare Part B, and prohibits discrimination in the pricing of a contract because of the health status or medical condition of an applicant.

This bill would exclude those applicants who are 64 years and younger and have End-Stage Renal Disease. The bill would permit an issuer of a Medicare supplement contract to treat applicants who are under 65 years of age and are eligible for Medicare Part B as a separate risk classification.

(2) Existing law provides that an individual enrolled in Medicare Part B by reason of disability is entitled to open enrollment, as specified, for 6 months after he or she reaches age 65.

This bill would change the eligibility to 6 months after the person first becomes eligible for Medicare Part B, and would provide for a one-time open enrollment period for all individuals eligible for Medicare by reason of disability who do not have End-Stage Renal Disease.

(3) Existing law guarantees an individual the issuance of a Medicare supplement policy or contract when the employee's welfare plan that provides health benefits that supplement the benefits under Medicare terminates, or the plan ceases to provide all of those supplemental health benefits to the individual.

This bill would make the individual eligible if the plan ceases to provide some, all, or substantially all of those supplemental health benefits to the individual and the employer no longer provides the individual with insurance that covers all of the payment for the Part B 20% coinsurance.

(4) Existing law guarantees an individual the issuance of a Medicare supplement policy or contract when the individual, upon first becoming eligible for benefits under Medicare Part A at age 65 years, enrolls in a Medicare+Choice plan under Medicare Part C, and disenrolls from the plan by not later than 12 months after the effective date of enrollment.

This bill would permit the individual to postpone enrollment in Medicare Part A or Part B while eligible for employer sponsored coverage.

(5) Existing law guarantees to specified eligible individuals the issuance of a Medicare supplement policy or contract that has a benefit package classified as plan A, B, C, or F offered by any issuer.

This bill would add at least one plan that includes coverage for prescription medications as a guaranteed plan, as specified.

(6) Existing law requires every insurer marketing Medicare supplement insurance coverage in this state to follow specified marketing practices relating to the sale of Medicare supplement insurance coverage.

This bill would require the Insurance Commissioner to annually prepare a rate guide, as specified, that would cover all the Medicare supplement insurance policies and Medicare supplement contracts sold by each company that sells Medicare supplement insurance in California.

(7) Existing law provides for the regulation of Medicare supplement contracts issued by health care service plans by the Department of Managed Care, effective no later than July 1,

2000, or earlier pursuant to an executive order of the Governor. A willful violation of the provisions governing Medicare supplement contracts is a crime.

Because a violation of this bill's requirements with respect to Medicare supplement contracts would be a crime, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(8) The changes to existing law described in (1), (2), (3), (4), (5), and (6) above would be accomplished by amending provisions of law added by Senate Bill 764 of the 1999–2000 Regular Session. These amended provisions would only become operative if Senate Bill 764 of the 1999–2000 Regular Session is enacted, becomes operative, and this bill is chaptered after Senate Bill 764. If these conditions are met, these provisions would become operative on January 1, 2001.

(9) This bill would also enact provisions requiring notice, effective September 30, 2000, to certain individuals whose health coverage will terminate effective January 1, 2001, that issuers of Medicare supplement policies are required to offer and allow those individuals to enroll in certain plans, if currently offered by the issuer, that include coverage for prescription medications. This requirement would be repealed on January 1, 2001.

(10) This bill would declare that it would take effect immediately as an urgency statute.

Ch. 708 (AB 303) Thomson. Groundwater.

Existing law declares that groundwater is a valuable natural resource in the state and should be managed to ensure its safe production and its quality. Existing law authorizes specified local agencies to adopt and implement groundwater management plans pursuant to specified provisions.

This bill would declare that additional study of groundwater resources is necessary to better understand how to manage groundwater effectively to ensure the safe production, quality, and proper storage of groundwater in the state.

The bill would enact the Local Groundwater Management Assistance Act of 2000. The bill would create the Local Groundwater Assistance Fund. The bill would authorize the money in the fund, upon appropriation by the Legislature, to be used by the Department of Water Resources to assist local public agencies by awarding grants to those agencies to conduct groundwater studies, or to carry out groundwater monitoring and management activities, or both. The bill would require the department to award grants based on the recommendations of a Technical Advisory Panel, the members of which would be required to be appointed by the Secretary of the Resources Agency. The bill would authorize the department to enter into contracts and to adopt regulations approved by the panel to carry out the grant program.

The bill would require the department to use prescribed funds appropriated in the Budget Act of 2000 for the purposes of the grant program, as specified.

The bill would make a related finding and declaration.

Ch. 709 (AB 1999) Dickerson. Conservation camps.

(1) Existing law establishes conservation camps, and provides for the transfer of inmates as specified to be housed and employed therein.

This bill would state findings and declarations of the Legislature regarding the benefits to the state of an expanded conservation camp program, and would direct the Department of Corrections to maximize the availability of conservation camp qualified inmates, subject to specified health and safety requirements. This bill would declare the intent of the Legislature to continue to expand the conservation camp program, and would direct the Secretary of the Resources Agency to provide by November 1, 2001, a report to the Legislature and

Governor on additional inmate and civilian conservation camp construction or expansion needs .

This bill would also require, subject to the appropriation of funds for this purpose in the annual Budget Act, the Department of Forestry and Fire Protection to reactivate a 20-person crew module at 17 specified conservation camps in order to provide necessary training, vehicles, and equipment, subject to the appropriation of funds for this purpose.

(2) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 710 (SB 141) Schiff. Park and recreation facilities.

Existing law provides for the Roberti-Z'berg-Harris Urban Open-Space and Recreation Program Act, administered by the Department of Parks and Recreation, which provides for annual grants to cities, counties, and districts for recreational purposes.

This bill would provide for the allocation to specified cities and a district of funds appropriated to the department for that purpose in the annual Budget Act, from a source other than a prescribed fund. The bill would require the department to allocate those funds using the same criteria, dollar rate, and procedures as it employs to allocate funds to certain local agencies eligible for funding under the block grant portion of the Roberti-Z'berg-Harris Urban Open-Space and Recreation Program Act.

Ch. 711 (SB 203) Solis. San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy.

Existing law provides for the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy with a governing board of 13 voting members and 7 nonvoting members.

This bill would add provisions clarifying the territory of the conservancy, would permit the conservancy to also be known as the Rivers and Mountains Conservancy, and would make changes to the names of entities represented on the board.

Ch. 712 (SB 553) Kelley. Urban water management plans.

(1) Existing law requires an urban water supplier, as defined, to prepare, adopt, and update an urban water management plan in accordance with specified requirements. Existing law requires the plan to include specified components, including a description of each water demand management measure that is being implemented, or scheduled for implementation.

This bill would revise the water demand management measures required to be described.

(2) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 713 (SB 666) Sher. Surface mining and reclamation: deposit of federal funds: expenditures.

The existing Surface Mining and Reclamation Act of 1975 establishes a state abandoned minerals and mineral materials mine reclamation program for the purpose of administering funds received by the state under the federal Surface Mining Control and Reclamation Act of 1977, or through amendments to specified federal general mining laws.

This bill would permit funds appropriated by the Legislature to be used for the state abandoned minerals and mineral materials mine reclamation program. The bill would make related conforming changes.

The bill would also, until January 1, 2003, permit the Director of Conservation to remediate or complete reclamation of abandoned mined lands that meet specified requirements and to make the costs of remediation a lien on the affected property.

Ch. 714 (SB 698) Peace. Conveyance of property: San Diego Unified Port District: City of San Diego.

Existing law authorizes the establishment of the San Diego Unified Port District for the acquisition, construction, maintenance, operation, development, and regulation of harbor works and improvements for the harbor of San Diego and for the promotion of commerce,

navigation, fisheries, and recreation. Existing law specifies the territory to be included within the district.

This bill would authorize the State Lands Commission to carry out an exchange of public trust lands within the Naval Training Center, San Diego, and require the commission to establish appropriate procedures for effectuating the exchange. The bill would authorize the commission, among other things, to receive and accept on behalf of the state any lands or interest in lands conveyed to the state by the San Diego Unified Port District or the City of San Diego, to convey to the San Diego Unified Port District or to the City of San Diego all of the right, title, and interest of the state in lands that are to be free of the public trust upon completion of the exchange of lands, and to convey to the San Diego Unified Port District or the City of San Diego all of the right, title, and interest of the state in lands that are to be subject to the public trust upon the completion of the exchange of lands.

Ch. 715 (SB 1087) Sher. Salmon and Steelhead Trout Restoration Account.

(1) Existing law provides for the Salmon and Steelhead Trout Restoration Account in the Resources Trust Fund and requires not less than 65% of the money in the account to be used for salmon habitat protection and restoration projects. Of that amount, existing law requires at least 75% to be used for watershed (upslope) and riparian area protection and restoration activities.

This bill would specify that those activities may include grants to remove substandard culverts, stream crossings, and bridges that constitute barriers to spawning of salmon and steelhead and passage of fish.

(2) Existing law requires up to 35% of the money in the account to be allocated for other specified uses, including California Forestry Incentive Program (CFIP) projects that meet CFIP guidelines.

This bill, instead, would include within the specified uses, fish and wildlife habitat improvements, as defined, that are authorized under the CFIP.

Ch. 716 (SB 761) Sher. Environmental quality.

(1) Existing law, the California Environmental Quality Act, requires the Office of Planning and Research to implement a public assistance and information program relative to implementation of the act.

This bill would require that program to establish and maintain a central repository for the collection, storage, retrieval, and dissemination of specified notices provided to the office, and to make the notices available through the Internet, as specified.

(2) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 717 (SB 1544) Sher. Market squid.

(1) Existing law generally regulates the taking of squid for commercial purposes, including, among other things, prescribing permit and licensing requirements, specifying time restrictions, imposing fees and penalties, and requiring the Fish and Game Commission to adopt regulations to protect the squid resource and manage the squid fishery at a sustainable level.

These provisions become inoperative on April 1, 2001, and are repealed on January 1, 2002, unless a later enacted statute that becomes operative on or before January 1, 2002, deletes or extends the dates on which they become inoperative and are repealed.

This bill would make those provisions inoperative on April 1, 2003, and would repeal them on January 1, 2004. Since a violation of some of these provisions is a misdemeanor under existing law, the bill would impose a state-mandated local program by extending a crime that otherwise would be repealed.

(2) Existing law requires the Department of Fish and Game to establish the fees for a commercial market squid vessel permit and for a commercial squid light boat owner's permit in an amount not to exceed the reasonable administrative costs, or \$2,500, whichever is less.

This bill would establish the fee in an amount of \$400.

(3) Existing law continuously appropriates the money in the Fish and Game Preservation Fund to the Department of Fish and Game and the commission to carry out the Fish and Game Code. Because this bill would extend existing duties imposed on the department and the commission, the bill would make an appropriation.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 718 (AB 2260) Shelley. School safety.

Under existing law, the Department of Pesticide Regulation has primary responsibility for enforcing pesticide laws and regulations. Existing law establishes and maintains various programs to promote health and prevent disease.

This bill would establish the Healthy Schools Act of 2000. The bill would require that the preferred method of managing pests at schoolsites be effective least toxic pest management practices and would further require that the state take the necessary steps, pursuant to specified provisions, to facilitate the adoption of effective least management practices at schoolsites. The bill would require each schoolsite to maintain records of all pesticide use at the schoolsite for a period of 4 years and make the records available to the public upon request, thus imposing a state-mandated local program. The bill would require that licensed and certified pest control operators include information on any school pesticide application that they perform as part of their otherwise applicable pesticide use reporting requirements.

The bill would require, on an annual basis, the school district designee to provide to all staff and parents or guardians of pupils enrolled at a school written notification addressing, among other things, expected pesticide use, thus imposing a state-mandated local program. The bill would require that the recipients be afforded the opportunity to register with the school district to receive information regarding individual pesticide applications. The bill would require the school district designee to post warning signs prior to application of pesticides at a schoolsite, thus imposing a state-mandated local program.

The bill would require the Department of Pesticide Regulation to promote and facilitate the voluntary adoption of integrated pest management programs as specified, maintain an internet website, and establish an integrated pest management training program. The bill would provide definitions of terms for the Healthy Schools Act of 2000.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 719 (AB 2016) Strom-Martin. Humboldt Bay Harbor District.¹²

Existing law establishes the State Lands Commission in the Resources Agency, consisting of the Controller, the Lieutenant Governor, and the Director of Finance, and prescribes the powers and duties of the commission.

This bill would appropriate \$1,580,000 from the General Fund to the State Lands Commission for allocation in the 2000–01 fiscal year to the Humboldt Bay Harbor District for the purpose of meeting local matching share requirements for federal navigation projects.

Ch. 720 (SB 1341) Burton. Water resources.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Under existing law, the Department of Water Resources operates the State Water Project and exercises specified water planning functions. Existing law requires the department to update The California Water Plan, which is a plan for the conservation, development, and use of the water resources of the state, every 5 years.

This bill would require the department to update The California Water Plan on or before December 31 2003, and every 5 years thereafter. The bill would require the department to provide written notice to interested persons of meetings of a prescribed advisory committee that assists the department in updating The California Water Plan. The bill would require the department to include in the California Water Plan a discussion of the potential for alternative water pricing policies, as prescribed.

The bill would require the department, as part of updating The California Water Plan, to conduct a study to determine the amount of water needed to meet the state's future needs and to recommend programs, policies, and facilities to meet those needs, as prescribed. The bill would require the department, by January 1, 2002, and one year prior to issuing each successive update to The California Water Plan, to release a preliminary draft of the assumptions and estimates upon which the study will be based. The bill would make related findings and declarations.

Ch. 721 (SB 221) Alpert. Oil spill prevention.

(1) Existing law, the Lempert-Keene-Seastrand Oil Spill Prevention and Response Act, prohibits the operation of a nontank vessel, as defined, of 300 gross registered tons or greater in the marine waters of the state unless the owner or operator prepares and submits an oil spill contingency plan to the administrator for oil spill response, in accordance with prescribed procedures and requirements, and the plan is approved. Existing law prohibits a nontank vessel, required to have a contingency plan, from entering marine waters of the state unless the owner or operator has provided to the administrator evidence of financial responsibility that demonstrates the ability to pay at least \$300,000,000 to cover damages caused by a spill, and the owner or operator has obtained a certificate of financial responsibility from the administrator for the vessel.

Existing law, operative until January 1, 2001, authorizes the administrator for oil spill response to establish a lower standard of financial responsibility for nontank barges and marine construction vessels, as defined, that is not less than the expected costs from a reasonable worst case oil spill into marine waters. Existing law defines the term "reasonable worst case spill" for purposes of those nontank barges and marine construction vessels. Existing law provides that after January 1, 2001, the law in effect before that date would again become operative.

This bill would delete the repeal of existing law and would revise the definition of the term "reasonable worst case spill" to apply only to the preparation of contingency plans. The bill would repeal the definitions of marine construction vessels and nontank barge and would revise the definition of nontank vessel to mean a vessel of over 300 gross tons other than a tanker or barge, as those terms are defined in existing law.

The bill would also, until January 1, 2003, authorize the administrator to establish a lower standard of financial responsibility for nontank vessels that have a carrying capacity of 6500 barrels of oil or less or 7500 barrels of oil or less under specified circumstances. The bill would prohibit the administrator from setting a standard that is less than the expected cleanup costs and damages from an oil spill into marine waters.

(2) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 722 (AB 1772) Robert Pacheco. County waterworks districts.

The County Waterworks District Law specifically authorizes a county waterworks district to borrow funds from specified public entities and prohibits a district from deferring a loan repayment for more than 10 years.

This bill would authorize a county waterworks district to contract with any state agency to finance any district improvement if the term of the contract does not exceed 30 years. The bill would require a contract between the district and a state agency that creates an indebtedness or liability that exceeds the district's annual revenue to be repaid with revenue derived from the imposition of standby charges.

Ch. 723 (AB 2300) Florez. Joint powers authority.

(1) Existing law establishes procedures for a public agency to bring an action in superior court for the judicial validation of specified matters.

This bill would allow an answering party to file an action within 30 days after the dismissal of a validating action by the public agency and would prohibit the issuance of bonds after the dismissal unless the bonds are preauthorized pursuant to the bill.

(2) Existing law authorizes public agencies to enter into joint exercise of power agreements to jointly exercise any power common to the contracting agencies and to issue bonds pursuant to the Marks-Roos Local Bond Pooling Act of 1985. Among other conditions for the issuance of bonds, existing law requires that the local agency, within whose boundaries the capital public improvement to be financed by the bonds is to be located, publish notice of a hearing in a newspaper of general circulation.

This bill would impose those conditions on the authorization rather than the issuance of bonds, would exclude certain bond issuances from this requirement, and would also require that a notice containing prescribed information be sent by certified mail at least 5 days prior to the hearing to the Attorney General and the California Debt and Investment Advisory Commission.

(3) Existing law establishes a judicial procedure for court validation of matters undertaken by a public agency.

This bill would require that, in an action for validation filed by a joint powers authority with respect to the Marks-Roos Local Bond Pooling Act of 1985, the Attorney General and the Treasurer shall be served a copy of the complaint and answer filed by the respective parties. The bill would provide that the Attorney General and the Treasurer are interested persons for purposes of such an action. The bill would require that a resolution adopted by an authority authorizing bonds or the issuance of bonds be sent to the Attorney General and the California Debt and Investment Advisory Commission and would authorize the Attorney General and Treasurer to bring an action to determine the validity of bonds or the issuance of bonds under the act.

(4) Existing law designates the Treasurer as an elected representative of the state to approve the issuance of bonds, notes, or other evidences of indebtedness, issued by or on behalf of the state, to the extent this approval is required by federal tax law.

This bill would designate the Attorney General as that representative if the Treasurer is unavailable and the Governor or his or her designee requests this approval.

Ch. 724 (AB 2033) Torlakson. Joint powers agreements.

Existing law authorizes public agencies to enter into joint exercise of power agreements to jointly exercise any power common to the contracting agencies and to issue bonds pursuant to the Marks-Roos Local Bond Pooling Act of 1985. Among other conditions for the issuance of bonds, existing law requires that the local agency, within whose boundaries the capital public improvement to be financed by the bonds is to be located, publish notice of a hearing in a newspaper of general circulation.

This bill would require that a copy of the resolution be sent by certified mail to the Attorney General and the California Debt and Investment Advisory Commission not later than 5 days after the adoption of the resolution authorizing, issuing, or accepting the benefit of bonds.

This bill would become operative only if AB 2300 is enacted and becomes operative.

Ch. 725 (AB 1813) Wildman. School facilities: site contamination funding: hazardous substance contracts.

(1) Existing law authorizes the State Allocation Board to provide 50% of the costs of the evaluation of hazardous substances at a site to be acquired by a school district and costs relating to removal of the hazardous substances, not to exceed a prescribed amount, and to provide funding for up to 100% of those costs by a school district eligible for financial hardship assistance, not to exceed a prescribed amount. Existing law further authorizes a school district that meets environmental hardship criteria, as specified, to apply to the board for site acquisition funding prior to approval of construction plans by the Division of the State Architect and State Department of Education.

This bill would provide that site acquisition funding for a school district that meets environmental hardship criteria is subject to the prescribed funding limits for the evaluation and removal of hazardous substances at sites to be acquired by a school district, and may not result in an increase in those funding limits to a school district.

(2) Existing law authorizes the Department of Toxic Substances Control to prequalify bidders for remedial or removal actions taken pursuant to the Carpenter-Presley-Tanner Hazardous Substance Account Act, by adopting and applying a uniform system of rating bidders.

Existing law requires a state agency head to select professional services of private architectural, landscape architectural, engineering, environmental, land surveying, or construction project management firms pursuant to specified procedures. Existing law imposes specified requirements upon state agencies expending funds for capital outlay projects.

This bill would, notwithstanding those provisions, authorize the department to advertise and award contracts for engineering, architectural, environmental, landscape architectural, construction project management, or land surveying services pursuant to the hazardous substance act or the law regulating hazardous waste, if the contract is individually in an amount equal to, or less than, \$1,000,000. The bill would specify procedures for the selection and ranking of prequalified firms and would authorize the department to adopt regulations to implement those procedures.

Ch. 726 (AB 2573) Briggs. Used oil.

(1) Existing law requires used oil to be managed as a hazardous waste until it has been shown to meet specified purity standards or is excluded from regulation as a hazardous waste because it is a recyclable material.

This bill would exclude, from that hazardous waste management requirement, dielectric fluid removed from specified oil-filled electrical equipment, if the dielectric fluid is filtered and replaced onsite or is managed in a specified manner and in accordance with the applicable requirements of the federal regulations governing used oil.

(2) This bill would incorporate additional changes in Section 25250.4 of the Health and Safety Code proposed by SB 1924, to be operative only if that bill and this bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 727 (AB 2886) Kuehl. Water quality.

(1) Existing law authorizes a California regional water quality control board to undertake or contract for corrective action and to enter into oral contracts, if a situation relating to a petroleum underground storage tank requires prompt action by that board to protect human health or the environment.

This bill would authorize the Department of General Services, at the request of the State Water Resources Control Board (the board) or a regional board, to enter into those contracts on behalf of the board or a regional board and acting as the agent of the board or a regional board. The bill would make additional, related changes.

(2) Existing law authorizes the board to expend the money in the Underground Storage Tank Cleanup Fund for prescribed purposes, including the payment of the costs of the regional board or local agency for corrective action pursuant to specified provisions of law.

This bill would instead authorize the board to expend those funds to pay for the costs of corrective action pursuant to those provisions.

(3) The Porter-Cologne Water Quality Control Act (the act) prescribes water quality requirements to be carried out by the regional boards and the board and requires the analysis of any material required by the act to be performed by a laboratory with a prescribed accreditation. The act prohibits any person or public entity of the state from contracting with a laboratory for environmental analyses for which the department requires registration or accreditation, unless the laboratory holds a valid certificate of registration or accreditation.

This bill would require the analysis of any material required by the act to be performed by a laboratory with specified certification or accreditation and prohibit those entities from contracting with a laboratory for environmental analyses for which the State Department of Health Services requires certification or accreditation, unless the laboratory holds a valid certification or accreditation.

(4) The act requires the State Water Resources Control Board, in conjunction with the State Department of Health Services and a panel of experts established by the state board, to develop on or before September 30, 2000, source investigation protocols for use in conducting source investigations of storm drains that produce exceedences of bacteriological standards established pursuant to specified provisions of law. Existing law requires the state board to report to the Legislature, on or before March 1, 2001, on the methods by which it intends to conduct source investigations of storm drains that produce exceedences of bacteriological standards.

This bill would extend the date for developing those source investigation protocols to June 30, 2001, and would extend the date for reporting on the methods of conducting source investigations of storm drains to December 1, 2001.

(5) The act provides that a remediating agency, as defined, that has implemented an approved remediation plan shall not be deemed to be responsible for the discharge of abandoned mine waste, as prescribed. Under the act, the term "remediating agency" does not include any person or entity that is not a public agency, that, before implementing an approved remediation plan, had a direct financial interest in, or participated in, specified mining operations.

This bill would modify that provision to exempt any person or entity that is not a public agency, that, before implementing an approved remediation plan, owns or has owned a property interest, other than a security interest, in the abandoned mined lands being remediated, or is or has been legally responsible for, or had a direct financial interest in, or participated in, those specified mining operations. The bill would provide that the provision, as modified, clarifies, and is declaratory of, existing law.

(6) The act, until January 1, 2001, establishes an enforcement scheme with respect to minor violations of the act.

This bill would delete that repeal date, thereby continuing indefinitely that enforcement scheme.

(7) The bill would authorize the board to require a person who is submitting a report relating to a program administered by the board, to the board, a regional board, or a local agency, to submit the report in electronic format, as prescribed. The bill would require the board to adopt emergency regulations implementing an electronic submission program for the submission of reports required pursuant to existing law relating to underground storage tanks, as prescribed. The bill would require the board to prepare and submit to the Legislature a prescribed report and, except as otherwise provided, would prohibit a state agency from requiring before July 1, 2003, the electronic submission of certain reports in an electronic format other than the electronic format prescribed by the bill's provisions.

(8) The Water Replenishment District Act authorizes an operator of a water-producing facility, under certain circumstances, to make groundwater extractions that are not subject to any replenishment assessment if the board of a water replenishment district determines that there is a groundwater contamination problem. The act authorizes the board to require the submission of certain test results from a board-approved laboratory.

This bill would authorize the board to require the submission of test results from a laboratory holding a valid certification or accreditation.

Ch. 728 (SB 89) Escutia. Environmental quality: minority and low-income populations.

Existing law establishes the Office of Planning and Research as the coordinating agency in state government for environmental justice programs. Existing law defines "environmental justice" to mean the fair treatment of people of all races, cultures, and incomes with respect to the development, adoption, implementation, and enforcement of environmental laws and policies.

This bill would require the Secretary for Environmental Protection, on or before January 15, 2002, to convene a Working Group on Environmental Justice, composed of various representatives, as specified, to assist the California Environmental Protection Agency in developing an interagency environmental justice strategy. The bill would require the working group to take various actions relating to the development and implementation of environmental justice strategies.

The bill would require the secretary, on or before January 15, 2002, to convene an advisory committee to assist the working group by providing recommendations and information to, and serving as a resource for, the working group. The bill would also require the secretary, not later than January, 1 2006, and every 3 years thereafter, to prepare and submit to the Governor and the Legislature a report on the implementation of the body of law of which this bill would be a part.

Ch. 729 (SB 1300) Sher. Air pollution.

(1) Existing law requires the State Air Resources Board to inventory sources of air pollution within the air basins of the state and determine the kinds and quantity of air pollutants, including the contribution of natural sources, as specified.

This bill would require the inventory to also include the contribution of mobile sources and area sources of emissions, as specified.

(2) Existing law required the state board, not later than June 30, 1997, to develop, and adopt in a public hearing, a methodology for use by air pollution control districts and air quality management districts to calculate the value of credits issued for emission reductions from stationary, mobile, indirect, and areawide sources, as provided. Existing law requires the state board to periodically update the methodology as it applies to future transactions.

This bill would also require the state board to periodically review each district's emission reduction and credit trading programs to ensure that the programs comply with the methodology. The bill would require the state board to annually prepare and submit a report to the Legislature and the Governor that summarizes the actions taken by the state board to implement those provisions.

(3) Existing law provides for the establishment of county air pollution control districts, and requires that a county district be established in every county, unless the entire county is included within the Antelope Valley Air Quality Management District, the Bay Area Air Quality Management District, the Mojave Desert Air Quality Management District, the South Coast Air Quality Management District, the San Joaquin Valley Air Quality Management District, if that district is created, a regional district, or a unified district.

This bill would add the Sacramento Metropolitan Air Quality Management District to the list of districts set forth above.

(4) Existing law establishes procedures for the selection of members of the governing boards of county air pollution control districts. Existing law requires that the members of the governing boards who are mayors or city council members be selected by the city selection committee and that the members of governing boards who are county supervisors be selected by the county.

This bill would further require that, in a county district where the county and cities have agreed that each city shall be represented on the board, each city shall select its own representative.

(5) Existing law requires every district board to establish a system by which all reductions in the emission of air contaminants that are to be used to offset certain future increases in the emission of air contaminants shall be banked prior to use to offset future increases in emissions.

This bill would exempt any district from that requirement that is not required to prepare and submit a plan for the attainment of state ambient air quality standards if specified conditions apply to that district. The bill would also exempt those districts from a requirement that a district grant emission reduction credits without any discount or reduction in the quantity of the emissions reduced at the source.

(6) Existing law requires a district to prepare a written analysis in making prescribed findings. Existing law authorizes a district to comply with the requirement for an analysis by preparing an alternative analysis demonstrating that the proposed new or amended rule or regulation does not impose a new emission limit or standard, make an existing emission limit or standard more stringent, or impose new or more stringent monitoring, reporting, or recordkeeping requirements, or that the proposed new or amended rule or regulation is a verbatim adoption or incorporation by reference of a prescribed standard or measure.

This bill, instead, would authorize a district to comply with the requirement for an analysis by finding that the proposed new or amended rule or regulation falls within one of the categories specified above.

(7) Existing law requires that, whenever a district intends to propose the adoption, amendment, or repeal of a rule or regulation that will significantly affect air quality or emissions limitations, the district, to the extent data are available, shall perform an assessment of the socioeconomic impacts, as defined, of the adoption, amendment, or repeal of the rule or regulation.

This bill would provide that, to the extent that information on the socioeconomic impact of a regulation is required to be developed by a district pursuant to other specified law, that information may be used or referenced in the assessment.

(8) Existing law requires reductions in emissions to be calculated with respect to the actual level of emissions that existed in each district during 1990, as determined by the state board. Existing law also required reductions in emissions occurring after December 31, 1990, including, but not limited to, reductions in emissions resulting from measures adopted prior to December 31, 1990, to be included in this calculation.

This bill would limit the scope of this provision to each district that is designated nonattainment for a state ambient air quality standard but is designated attainment for the federal air quality standard for the same pollutant. The bill would also specify the procedure for calculating reductions in emissions for each district that is designated nonattainment for both state and federal ambient air quality standards for a single pollutant.

(9) Existing law requires a district to review and revise its attainment plan every 3 years to, among other things, incorporate specified new data or projections into the plan relating to emission reductions.

This bill would revise and expand the data and projection requirements, as provided. Because this provision would add to the duties of air pollution control districts, it would constitute a state-mandated local program.

(10) Existing law establishes a procedure for the selection of the membership of the governing board of the Sacramento Metropolitan Air Quality Management District.

This bill would add to that procedure provisions relating to appointments to the governing board to represent a single city within the district. The bill would also provide that specified provisions relating to the appointment and compensation of officers and employees of county districts shall not be applicable to the Sacramento district.

(11) Existing law requires the state board to adopt additional performance standards to ensure that systems for the control of gasoline vapors resulting from motor vehicle fueling operations do not cause excessive gasoline liquid spillage when used in a proper manner. Existing law also requires the state board to adopt procedures for determining the compliance of any system designed for the control of gasoline vapor emissions during gasoline marketing operations, as specified, and provides for the certification of gasoline vapor control systems that meet prescribed requirements.

This bill would additionally provide that the state board shall adopt performance standards to prevent excessive evaporative emissions from liquid retained in the dispensing nozzle or vapor return hose between refueling events, and certify only those gasoline vapor control systems that meet specified requirements.

(12) The existing Carl Moyer Memorial Air Standards Attainment Program authorizes the state board to make grants for the purchase of low-emission, heavy-duty engines for vehicles, equipment, vessels, and locomotives. Existing law allows the administration of the program to be delegated to air pollution control districts and air quality management districts, and requires the state board to reserve funds for any district that adopts an eligible program, and that offers matching funds at a specified ratio.

This bill would allow the state board to adjust the ratio of matching funds required from a district, if it determines that an adjustment is necessary in order to maximize the use of, or the air quality benefits provided by, the program.

(13) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandate, this bill would provide that, if the commission on state mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to those statutory provisions.

Ch. 730 (SB 1824) Kelley. Certified unified program agencies: counties.

(1) Existing law requires the Secretary for Environmental Protection to adopt implementing regulations and implement a unified hazardous waste and hazardous materials management regulatory program. A city or local agency that meets specified requirements is authorized to apply to the secretary to implement the unified program, and every county is required to apply to the secretary to be certified to implement the unified program. Each certified unified program agency (CUPA) is required to institute a single fee system to fund the implementation of the unified fee system. Existing law requires the secretary, if no local agency has been certified in a county by January 1, 2000, to determine the methods by which the unified program shall be implemented and to select any combination of specified implementation methods.

This bill would require a city or other local agency that is implementing the provisions regulating the handling of hazardous materials or the storage of hazardous substances in underground storage tanks, and that wishes to administer the unified program, to request the secretary to include the agency in that implementation structure.

The bill would, as of July 1, 2001, establish the Rural CUPA Reimbursement Account in the General Fund and would authorize the secretary to expend the money in the account to make specified allocations to a county that implements the unified program pursuant to one

of those methods. The bill would require such a county to set the fees under the single fee system so that the fee amounts collected and the amount allocated by the secretary are sufficient to pay the necessary costs incurred by the county in implementing the unified program.

The bill would impose a state-mandated local program by imposing new duties upon counties with regard to the implementation of the unified program.

The bill would require the agency, by February 15, 2001, to submit a report to the Legislature recommending a funding source for unified program agencies that are implementing the unified program but have a limited number of entities regulated under the unified program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 731 (SB 1906) Sher. Beverage containers: enforcement.

(1) The existing California Beverage Container Recycling and Litter Reduction Act requires a distributor of specified beverage containers to pay a redemption payment to the Department of Conservation, for each beverage container, as defined, sold or transferred, for deposit in the California Beverage Container Recycling Fund and provides for an increase in that payment, as specified. The money in the fund is continuously appropriated to the department to pay refund values, processing payments, and for other purposes. "Beverage" is defined, for purposes of the act, to include, among other things, carbonated and noncarbonated water, noncarbonated soft drinks and sport drinks, specified noncarbonated fruit drinks, coffee and tea drinks, and carbonated fruit drinks, if those products are sold in plastic, glass, bimetal, or aluminum containers in liquid, ready-to-drink form and intended for human consumption. Milk, medical food, and infant formula are excluded from that definition of beverage. The act requires beverage manufacturers to indicate a specified message on every beverage container sold or offered for sale by that beverage manufacturer. A violation of the act is a crime and the penalties for violations of the act are deposited in the fund.

This bill would additionally include, in that definition of beverage, vegetable juice in beverage containers of 16 ounces or less, thereby making an appropriation. The bill would also define the terms "infant formula," "noncarbonated soft drink," and "medical food" for purposes of that definition of beverage.

The bill would exempt any beverage container included within the coverage of the act on January 1, 2001, from specified labeling requirements, until January 1, 2002.

(2) Existing law excludes from the act any program involving the collection and payment of deposits for beverage containers sold, used, or consumed at national parks and monuments, military installations, or any other property owned by and under the jurisdiction of the United States.

This bill would provide that the act applies to a national park or monument, military installation, or any other property owned by, and under the jurisdiction of, the United States, to the extent permitted by federal law, with regard to a beverage container not otherwise subject to a program involving the collection and payment of deposits for beverage containers. The bill would define the term "a program involving the collection and payment of deposits" for this purpose. The bill would state that these changes do not constitute a change in, but are declaratory of, existing law.

(3) The existing act authorizes the department to pay a quality glass incentive payment to curbside recycling programs.

This bill would specify that payment is to be made to operators of curbside recycling programs. The bill would repeal that authority on January 1, 2003.

(4) The existing act requires the department to register the operators of curbside programs. The act also authorizes the department to take disciplinary action against, among others, any certificateholder.

This bill would provide that a registered operator of a curbside program is deemed a certificateholder for purposes of the act.

(4.5) Existing law authorizes the department to conduct an audit or investigation during the 2-year period before the onset of the audit or investigation.

This bill would, after January 1, 2002, increase the amount of time for which the department may conduct an audit to a 3-year period.

(5) The existing act requires the department to provide a report to the Legislature on or before January 1, 2002, on the impact of a statewide public education and information campaign and to make recommendations for any future campaigns.

This bill would require that the report and recommendations be made on or before July 1, 2002.

(6) Existing law requires the processor to pay a dropoff or collection program, or other specified program, the refund value, certain administrative costs, and the processing payment for each empty beverage container received by the processor. Existing law requires the department to certify recycling centers and processors for purposes of the act, and authorizes the department to issue a certificate as a probationary certificate that is limited to a period of one year.

This bill would require the department to certify dropoff and collection programs, and would require the Director of Conservation to adopt, by regulation, requirements and standards for certification. The bill would prohibit a certified dropoff or collection program from receiving refund values or processing payments on an empty beverage container that was received from a noncertified recycler or on other specified beverage containers not subject to the act.

The bill would revise the provisions for the issuance of a probationary certificate, including authorizing the issuance of a probationary certificate for up to 2 years.

(7) Existing law imposes criminal and civil penalties for specified violations of the act, including submission of false or fraudulent claims for payment. Existing law authorizes the department to take disciplinary action against any certificate holder, officer, director, or managing employee.

The bill would specify procedures for the assessment of civil penalties, and would require the department to take into account specified factors when assessing these penalties. The bill would additionally authorize the department to take disciplinary action against any party responsible for, directing, contributing to, participating in, or otherwise influencing the operations of a certified or registered facility or program and would revise the disciplinary actions the department is authorized to take against that party.

This bill would include, as actions subject to criminal penalties, the redemption of out-of-state containers, as defined.

The bill would authorize the department to issue a cease and desist order when a person is engaged in recycling activity that violates the act, any regulation adopted pursuant to the act, or an order issued under the act. The bill would prescribe procedures for requesting a hearing regarding such an order and would require the Attorney General, upon request of the department, to petition the superior court for the issuance of a preliminary or permanent injunction, if a person fails to comply with the cease and desist order issued by the department.

The bill would prohibit any person from paying, claiming, or receiving any refund value, processing payment, handling fee, or administrative fee for imported beverage container material, previously redeemed containers, rejected containers, line breakage, or other ineligible material. The bill would also prohibit any person from redeeming or attempting to redeem those containers or materials, returning previously redeemed containers to the

marketplace for redemption, or bringing these containers or materials to the marketplace for redemption, as specified.

The bill would require any person importing more than a specified amount of beverage container material into the state to report the material and provide an opportunity for inspection.

The bill would prohibit any person from falsifying documents required pursuant to the act or the regulations adopted by the department. The bill would authorize the department to adopt emergency regulations to implement these prohibitions, and would provide that these emergency regulations are not to be repealed by the Office of Administrative Law and are to remain in effect until revised by the Director of Conservation.

(8) The bill would require the department, by March 1, 2001, after consulting with the recycling industry, to submit a report to the Legislature as to any recommended changes to the act regarding enforcement.

(9) Since a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

(10) The bill also would repeal obsolete provisions, and delete nonconforming cross-references.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 732 (SB 1924) O'Connell. Hazardous waste recycling: used oil.

(1) Existing law defines "recycled oil" for purposes of the provisions regulating the handling of used oil and provides specified standards of purity for recycled oil. Existing law exempts used oil that meets specified requirements from regulation by the Department of Toxic Substances Control and requires used oil to be managed as a hazardous waste, unless the used oil meets specified requirements. Existing law requires a used oil recycler to test all recycled oil, as specified. A violation of the laws regulating used oil is a crime.

This bill would revise the definition of "recycled oil" and the conditions under which used oil is exempt from regulation under the hazardous waste control laws for purposes of those provisions. This bill would revise the conditions under which a used oil recycler is required to test recycled oil.

The bill would also correct erroneous references. Since a violation of the bill's requirements would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(3) This bill would incorporate additional changes in Section 25250.4 of the Health and Safety Code proposed by AB 2573, to be operative only if that bill and this bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 733 (SB 2203) Committee on Environmental Quality. Environmental laboratories.

(1) Existing law requires laboratories that perform analyses for pesticide residues in food to obtain certification by the State Department of Health Services and permits these laboratories to also apply for accreditation under the National Environmental Laboratory Accreditation Program (NELAP) if it chooses to meet standards adopted by the National Environmental Laboratory Accreditation Conference (NELAC) and become eligible for recognition by other states and agencies that require or accept NELAP accreditation.

This bill would permit these laboratories to apply for NELAP accreditation in lieu of certification in certain circumstances.

(2) Existing law requires the department to adopt regulations governing the application criteria for acceptance and approval of approved 3rd-party laboratory accrediting organizations (ATPLAOs) in accordance with specified criteria.

This bill would delete this requirement and instead would authorize the department to contract with ATPLAOs in accordance with the criteria developed by NELAC or other federal agencies .

(3) Existing law requires a laboratory to pay a specified certification fee to the department at the time of application and annually thereafter.

This bill would revise this fee schedule.

(4) Existing law requires laboratories certified or applying for certification in certain fields of testing relating to pesticides in food to pay to the department a fee of \$400 for the preparation and handling of each proficiency testing sample set.

This bill would instead require laboratories, commencing January 1, 2002, to pay a fee directly to the designated proficiency testing provider for the costs of each proficiency testing sample set and the proficiency testing study.

Ch. 734 (SB 2049) Perata. Naval Air Station Alameda Public Trust Exchange Act.

Existing law grants to the City of Alameda all the right, title, and interest of the State of California, in and to all the salt marsh, tide, and submerged lands within the boundaries of the city in trust for prescribed uses and upon express conditions.

This bill would enact the Naval Air Station Alameda Public Trust Exchange Act, the purpose of which would be to facilitate the productive reuse of lands comprising the former Naval Air Station (NAS) Alameda in a manner that will further the purposes of the public trust for commerce, navigation, and fisheries. The bill would authorize the State Lands Commission to carry out an exchange of public trust lands within the NAS property, in accordance with the requirements of the bill, and would require the commission to establish appropriate procedures for effectuating the exchange.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 735 (AB 2117) Wayne. Watershed protection.

Existing law provides for a watershed protection program, and provides funds to assist in implementing watershed plans to reduce flooding, control erosion, improve water quality, and improve aquatic and terrestrial species habitats, to restore natural systems of groundwater recharge, native vegetation, waterflows, and riparian zones, to restore the beneficial uses of waters of the state in watersheds, and to provide matching funds for federal grant programs.

This bill would require the Secretary of the Resources Agency and the State Water Resources Control Board to select 3 watershed protection projects in order to evaluate the existing collaborative and cooperative mechanism between the Resources Agency, the Environmental Protection Agency, federal agencies, local agencies, landowners, and environmental groups to determine whether the process can be streamlined for the preparation and implementation of comprehensive watershed management plans that protect and improve water quality.

Ch. 736 (AB 1948) Dickerson. Watersheds.

Existing law provides various mechanisms for funding the restoration, maintenance, and management of watersheds.

This bill would require the Secretary of the Resources Agency to compile a report detailing major funding sources made available for watershed projects within the state since 1995, including specified information concerning, among other things, funding sources, performance measures, and the management and administration of funds. The bill would require the secretary to update the report every 3 years. The bill would require the secretary to make the report and the updated reports available on the Internet and to provide copies of

those reports to the Legislature and the Governor, as prescribed. The bill would provide that the bill shall become operative only if AB 2117 of the 1999–2000 Regular Session is enacted and becomes effective on or before January 1, 2001.

Ch. 737 (AB 2581) Maldonado. Oil and gas conservation.

(1) Existing law generally regulates the drilling and operation of wells. Existing law requires the owner or operator of any well, before commencing the work of drilling the well, to file with the State Oil and Gas Supervisor or the district deputy a written notice of intention to commence drilling, and prohibits the commencement of drilling until approval is given by the supervisor or the district deputy.

This bill would apply that provision solely to the operator of the well. This bill would also permit the supervisor to deny approval if an operator has failed to pay a civil penalty or remedy a violation it is required to remedy. The bill would require the Department of Conservation, in consultation with representatives of the oil industry and insurers, to report to the Governor and the Legislature on or before July 1, 2001, on options for insuring the existence of blowout insurance for persons engaged in drilling or redrilling exploratory oil and gas wells in areas where abnormally high or unknown subsurface gradients exist.

(2) Existing law requires any operator of an oil or gas well, or a class II commercial wastewater disposal well, who engages in the drilling, redrilling, deepening, or in any operation permanently altering the casing, of any well, to file with the State Oil and Gas Supervisor an indemnity bond, but permits the operator, with the approval of the supervisor, to make certain deposits in lieu of the bond.

This bill would require as one of several alternatives that the operator of a class II commercial wastewater disposal well not covered by an indemnity bond pay the supervisor a fee. Under existing law, all fees received by the supervisor under these provisions are deposited in the Hazardous and Idle-Deserted Well Abatement Fund, a continuously appropriated fund. By providing for an increase in the fees in a continuously appropriated fund, the bill would make an appropriation.

(3) Existing law permits the supervisor or district deputy to order the reabandonment of any previously abandoned well if the supervisor or the district deputy has reason to question the integrity of the previous abandonment.

This bill would prescribe the circumstances in which the operator responsible for plugging and abandoning a deserted well is not responsible for the reabandonment of the well.

(4) Existing law makes any person who violates the provisions governing the drilling and operation of wells subject to a civil penalty.

This bill would permit the supervisor to seek a court order directing that production from the well operations be discontinued until the violation is remedied and the civil penalty has been paid. This bill would also require the supervisor to consider, among other things, when determining the amount of the civil penalty, the pervasiveness of the violation.

(5) Existing law permits the supervisor or district deputy to order the plugging and abandonment of any deserted well, and specifies the circumstances in which a rebuttable presumption of desertion arises.

This bill would additionally provide that the rebuttable presumption of desertion arises if an operator has failed to maintain the access road to a well site passable to oilfield and emergency vehicles.

(6) Existing law permits the supervisor to postpone for a period not to exceed 10 days a hearing on an appeal from an order directing that an unreasonable waste of gas be discontinued or refrained from to the extent stated in the order.

This bill would permit the supervisor to postpone that hearing for a period not to exceed 30 days.

Ch. 738 (AB 1807) Longville. California Environmental Quality Act: Department of Transportation.

(1) Under the existing California Environmental Quality Act (CEQA), if a lead agency determines that an environmental impact report is required, the lead agency is immediately required to send notice of that determination to each responsible agency, and those public agencies having jurisdiction by law over natural resources affected by the project. Existing law then requires those agencies to participate in the environmental review process, as specified.

Under this bill, if the lead agency determines that an environmental impact report is required, the lead agency would also be required to send notice to the Office of Planning and Research.

Existing law requires that transportation information resulting from a specified reporting or monitoring program required to be adopted by a public agency be submitted to the transportation planning agency in the region when the project has impacts that are of statewide, regional, or areawide significance.

This bill would also require the submission of the transportation information to the Department of Transportation under those circumstances.

By imposing new duties on local lead agencies, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 739 (AB 2825) Battin. Biomass facilities: grant program.

(1) Chapter 144 of the Statutes of 2000 enacted the Central Valley Agricultural Biomass-to-Energy Incentive Grant Program, which permits air districts, as defined, to apply to the Trade and Commerce Agency to receive grants to provide incentives to facilities that convert qualified agricultural biomass, as defined, to fuel. Under existing law, specified terms are defined for purposes of the program.

This bill would revise the name of the program to the "Agricultural Biomass to Energy Incentive Grant Program." The bill would also revise the definition of the term "facility" to delete the requirement that the facility convert qualified agricultural biomass from the Central Valley, and to include only those facilities that do not produce electricity for sale to a public utility, as specified, and would revise the definition of the term "qualified agricultural biomass" to include only that qualified agricultural biomass that the State Air Resources Board determines has been historically open-field burned in the geographic jurisdiction of the air district from which the agricultural residues are derived for purposes of that program.

(2) This bill would repeal provisions in AB 2752, if that measure is chaptered, that require a lead agency to minimize any significant impact of a project on the free exercise of Native American religion.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 740 (SB 2202) Committee on Environmental Quality. Solid waste management: diversion: reports.

(1) The existing California Integrated Waste Management Act of 1989, which is administered by the California Integrated Waste Management Board, establishes an integrated waste management program. Under existing law, the act requires each city, county, city and county, and regional agency, if any, to develop a source reduction and recycling element of an integrated waste management plan containing specified components. For the first revision of the element, those entities are required to divert, by January 1, 2000, from disposal or transformation, 50% of the solid waste through source reduction, recycling, and composting subject to the element, except as specified.

This bill would require the first and each subsequent revision to provide for this diversion on and after January 1, 2000, and would require the board by July 1, 2001, to develop a model revised source reduction and recycling element. The bill would require the board to provide local jurisdictions and private businesses with information, tools, and mathematical models to assist with meeting or exceeding the diversion requirement.

(2) Existing law requires a city, county, or regional agency to submit an annual report to the board summarizing its progress in diverting solid waste from disposal. The report is required to include, among other things, information relevant to compliance with the solid waste diversion requirements.

This bill would authorize a city, county, or regional agency to include, in the report, information about existing and new programs that are not part of the original or modified source reduction and recycling element. The bill would also authorize those entities to include information regarding any factor that the jurisdiction believes affects the accuracy of the waste reduction calculations in the report to accurately reflect the changes in the amount of solid waste that is actually disposed, and information regarding certain programs that are being undertaken by the jurisdiction. The bill would authorize a jurisdiction to also provide the board, in the report, an estimate that jurisdiction believes reflects that jurisdiction's annual reduction or increase in the disposal of solid waste. The bill would require the board to adopt procedures for requiring additional information in the report and conferring with jurisdiction regarding the implementation of a diversion program or the calculations of the annual disposal reduction.

(3) Existing law requires a county or regional agency to submit an annual report to the board summarizing the adequacy of the siting element and summary plan.

This bill would require the board to adopt procedures to authorize a jurisdiction to submit an abbreviated version of the report if the board determines that jurisdiction meets specified conditions.

(4) Existing law requires a community service district that provides solid waste handling services or that implements source reduction and recycling programs to provide the city, county, or regional agency in which it is located information on the programs implemented by the district and the amount of waste disposed and diverted within the district. Existing law authorizes a city or county to form a regional agency with another city or county for purposes of complying with the act.

This bill would, as of July 1, 2001, revise the information that a district is required to provide, and would require a district to comply with the source reduction and recycling element and household hazardous waste element of the jurisdiction in which the district is located. The bill would authorize a district to impose a fee, in a specified manner, for the costs of complying with these requirements. The bill would impose a state-mandated local program by imposing new duties upon local agencies.

The bill would authorize the imposition of penalties upon a district in proportion to the districts' responsibility for its failure to implement those elements.

This bill would allow a regional agency to authorize such a district to be included as a member of the regional agency.

(5) Existing law requires disposal facility operators and recycling and composting facilities to submit periodic tracking information to counties.

This bill would require the board to submit a report to the Legislature by January 1, 2002, evaluating the implementation of the periodic tracking survey requirements.

(6) Existing law authorizes the board to issue an order of compliance with a specific schedule for achieving compliance, if the board finds that the city, county, or regional agency has failed to implement its source reduction and recycling element or its household hazardous waste element.

This bill would require the board to issue a notice of intent, pursuant to a specified procedure, at least 30 days before the board holds a hearing to issue an order of compliance.

(7) Existing law, which is repealed on January 1, 2001, requires all state agencies to purchase specified recycled products, including rerefined automotive lubricants, recycled antifreeze fluid, recycled solvent, and recycled paint, instead of nonrecycled products, whenever the recycled products are available at the same cost, or at a lower cost, than the total costs of the nonrecycled products.

This bill would delete the provision repealing those provisions on January 1, 2001, thereby continuing those requirements indefinitely.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 741 (SB 1298) Bowen. Air emissions: distributed generation.

(1) Existing law requires the State Air Resources Board to consider and adopt specified findings before adopting rules or regulations that would affect the operation of existing powerplants. Under existing law, except as specified, any person who violates any statute, rule, regulation, permit, or order of the state board or of an air pollution control district or an air quality management district relating to air quality, as provided, is guilty of a misdemeanor and is subject to a fine, imprisonment, or both.

This bill would require the state board, on or before January 1, 2003, to adopt a certification program and uniform emission standards for electrical generation that are exempt from district permitting requirements, and would require that those standards reflect the best performance achieved in practice by existing electrical generation technologies.

The bill would require the state board, on or before January 3, 2003, to issue guidance to districts on the permitting or certification of electrical generation technologies under their regulatory jurisdiction, as prescribed.

Since a violation of the regulations adopted pursuant to the bill would be a crime, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 742 (AB 2317) Ducheny. Environmental protection: California-Mexico border.

Existing law contains various provisions to protect the environment and makes moneys available for that purpose.

This bill would create the California Border Environmental and Public Health Protection Fund. The money in that fund would be available, upon appropriation, to the Secretary for Environmental Protection to assist local governments in implementation of projects to identify and resolve environmental and public health problems that directly threaten the health or environmental quality of California residents or sensitive natural resources of the California border region, to provide technical assistance, to provide funds for equipment and labor costs associated with emergency abatement of environmental and public health problems imposed on residents of California due to cross-border impacts of pollutants originating from Baja California, and to provide analytical and scientific equipment and services needed by border area public agencies to identify and monitor the sources of environmental and public health threats posed by the cross-border transmission of environmental pollutants and toxics. The bill would require the secretary, upon request, to make information available concerning the fund. These provisions would only be operative during those fiscal years for which funds are appropriated in the annual Budget Act to implement the bill or are otherwise made available, as specified.

Ch. 743 (AB 1608) Strom-Martin. School districts: class size reduction.

Existing law establishes the Class Size Reduction Program to provide funding to school districts to reduce class size in kindergarten and grades 1 to 3, inclusive, to not more than 20 pupils per certificated teacher. Existing law establishes 2 options under which a school district may apply for class size reduction funding. Under either Option One or Option Two, to qualify for funding under the program, each class in the program is required to be maintained with an annual average class size of not more than 20 pupils for the instructional time that qualifies the class for funding pursuant to the program. Existing law requires a school district to certify in its application to receive funding under the program that a certificated teacher has been hired by the school district and is providing direct instructional services to each class selected for class size reduction, and that there are not more than 20 pupils for each class.

The bill would, notwithstanding those provisions, allow a school district that maintains only one school that serves pupils in kindergarten and grades 1 to 3, inclusive, with no more than 2 classes per participating grade level and an annual average class size of not more than 20 pupils to determine average class size by calculating the total number of pupils enrolled in all grade levels in a school that will participate in the Class Size Reduction Program divided by the total number of classes in the school. The bill would make related changes in those provisions pertaining to the certification required to be provided in the funding application.

Ch. 744 (AB 886) Zettel. Reading training programs.¹³

Existing law establishes various programs that relate to reading development for elementary pupils, including the Reading Initiative Program, the Comprehensive Reading Leadership Program, and the Back to Basics Summer School Reading Program. Under existing law, the adopted course of study for grades 1 to 6, inclusive, is required to include instruction in the skill of reading.

This bill would appropriate \$600,000 to the Superintendent of Public Instruction to fund reading training programs in the Oakland Unified School District and the Lakeside Union Elementary School District.

This bill would make certain findings and declarations regarding the inapplicability of a general statute within the meaning of Section 16 of Article IV of the California Constitution.

This bill would make certain findings and declarations regarding the nature of the appropriation pursuant to this bill for the purposes of computations required by Section 8 of Article XVI of the California Constitution, and related findings and declarations.

Ch. 745 (AB 2307) Davis. Children: foster care.

Existing law provides for child welfare services, which are public social services directed toward, among other purposes, protecting and promoting the welfare of all children, including those in foster care placement.

This bill would state the intent of the Legislature that preferential consideration be given to placement of children in foster care with a relative, and would require each community college district with a foster care education program to make available orientation and training to a relative caretaker of a foster child and would specify the course curriculum. The bill would also require a county to inform a relative caregiver of the availability of training and orientation programs when the child is placed with a relative caregiver and would state the intent of the Legislature that the county make every reasonable effort to forward the names and addresses of relative caregiver families who choose to receive the training and orientation information to the appropriate community colleges providing the training and orientation programs. By increasing the responsibilities of counties and community college districts in the implementation of the program, this bill would result in a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for

NOTE: Superior numbers appear as a separate section at the end of the digests.

making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 746 (AB 2337) Ducheny. Community college finance. ¹⁴

Existing law requires the Chancellor of the California Community Colleges, in calculating each community college district's revenue level for each fiscal year, to subtract, among other things, local property tax revenue specified by law for general operating support, exclusive of bond interest and redemption, from the total revenues owed.

The bill would appropriate \$5,406,836 from the General Fund for support of the Board of Governors of the California Community Colleges, for purposes of augmenting a specified item of the Budget Act of 2000, of which \$2,100,000 would be required to be expended to provide part-time faculty office hours and \$3,306,836 to provide apprenticeships.

Ch. 747 (SB 1469) Costa. School buildings: relocatable buildings.

Existing law, the Field Act, requires that an owned relocatable building that is to be used for school purposes is subject to certain provisions requiring approval of plans and relating to the structural safety of school buildings. The Field Act provides that, notwithstanding those provisions, that an owned or leased relocatable building that does not meet those requirements may be used as a school building through September 30, 1997, if certain conditions are met, including that the relocatable building was in use for classroom purposes on or before September 30, 1997. The Field Act also requires any relocatable building that has received a certification of compliance from the Department of General Services as required by those provisions to be reinspected for structural integrity by the Division of the State Architect by December 31, 2002.

This bill would delete the condition that required the relocatable building to be in use for classroom purposes on or before September 30, 1997, and would add the condition that the relocatable building be manufactured and in use for classroom purposes on or before May 1, 2000. The bill would require the governing board of a school district to certify, for each relocatable building used as a school building pursuant to these provisions, that commencing September 30, 2007, the relocatable building is no longer being used as a school building. The bill would make other conforming changes in those provisions.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 748 (AB 2313) Correa. Education: gifted and talented pupils.

(1) Under existing law, the Gifted and Talented Pupil Program authorizes school districts that provided a mentally gifted minor program in the 1978–79 school year to participate in that program. Under existing law, the Superintendent of Public Instruction is required to apportion funds to eligible school districts in a specified manner that apportions funds to each participating school district based on a different dollar amount per pupil depending on the number of participating pupils in the program.

This bill would delete those provisions and add provisions that revise the method of apportioning funds for the gifted and talented program so that each participating school district receives a per-pupil amount based on average daily attendance, determined as specified. The bill would also remove certain restrictions on the use of funds for gifted and talented pupil programs.

(2) Under existing law, the Superintendent of Public Instruction is required to meet certain requirements in administering the Gifted and Talented Program, including giving priority in technical assistance to those districts receiving the greatest increase in funds.

This bill would delete that requirement.

(3) Under existing law, the governing boards of school districts that provide gifted and talented programs may establish programs consisting of special day classes, part-time grouping, enrichment activities, cluster grouping, independent study, acceleration, postsecondary education opportunities, and other program approaches authorized by the governing board of the school district. Existing law provides that if the school district provides any of these programs, it must provide them for a specified amount of time each week.

This bill would instead require that programs for gifted and talented pupils be planned and organized as an integrated differentiated learning experience within the regular school day, and may be augmented with other differentiated activities related to the core curriculum.

(4) Existing law requires the governing board of each school district providing gifted and talented programs to conduct an annual assessment of the program and to develop procedures that ensure the ongoing participation of parents of gifted and talented pupils in the planning and evaluation of those programs.

This bill would delete those provisions. The bill would instead require a school district, each time it submits an application for renewal of its GATE authorization, to submit a program assessment, in accordance with criteria adopted by the State Board of Education.

Ch. 749 (SB 871) Escutia. Class Size Reduction Program: facilities-related costs.

Existing law establishes the Class Size Reduction Program to provide funding to school districts to reduce class size in kindergarten and grades 1 to 3, inclusive, to not more than 20 pupils per certificated teacher.

Existing law establishes 2 options under which a school district may apply to the Superintendent of Public Instruction for funds from the program. Under Option One, a school district that provides a reduced class size for all pupils in each classroom for the full regular schoolday for each grade level may receive an apportionment equal to \$800 per pupil. Under Option Two, a school district that provides a reduced class size for all pupils in each classroom for at least $\frac{1}{2}$ of the instructional minutes offered per day at each grade level may receive an apportionment equal to \$400 per pupil.

Existing law permits a school district applying to implement the program in the 1998–99 school year to request that a portion of the maximum operating funds for which the district would be eligible if the district met the requirements of Option One be used for facilities-related costs necessary for the establishment of new classes.

This bill would revise these provisions to permit a school district applying to implement the program in the 2000–01 and 2001–02 school years to make a similar request.

Ch. 750 (SB 1360) Hayden. Los Angeles Unified School District.

Existing law, until January 1, 2001, authorizes the Los Angeles Unified School District's Director of the Internal Audit and Special Investigations Unit to subpoena witnesses, administer oaths or affirmations, take testimony, and compel the production of all information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence deemed material and relevant to any inquiry or investigation undertaken by the director in the performance of his or her duties. Existing law requires the director to submit a report to the Legislature by July 1, 2000, and a final report by December 1, 2000, regarding the use and effectiveness of the subpoena power.

This bill would extend those provisions and the inspector general's authority to conduct investigations to January 1, 2005, and would revise the name of that unit to the Office of the Inspector General and the title of the director to the inspector general. The bill would authorize the inspector general to compel the production of data and documentary evidence deemed material, relevant, and that reasonably relate to an inquiry or investigation when he or she has a reasonable suspicion that a law, regulation, rule, or district policy has been or is being materially violated.

The bill would require the inspector general to submit annual interim reports to the Legislature by July 1 of each succeeding year through 2004 and would extend submission of the final report to December 1, 2004. The bill would specify the subject matters to be addressed in the reports.

The bill would provide that, with certain exceptions, any disclosure of information by the inspector general or that office that was acquired pursuant to a subpoena of the private books, documents, or papers of the person subpoenaed, is punishable as a misdemeanor, thereby creating a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 751 (SB 1602) Dunn. Year-round school grants: teaching station.

Existing law requires the Superintendent of Public Instruction to allocate funding for the year-round school grant program pursuant to a prescribed schedule relating to the percentage by which the number of excess pupils reflects an increase in the capacity of the schoolsite.

This bill would require the superintendent to comply with prescribed provisions of the Leroy F. Greene School Facilities Act of 1998 in making these calculations, and would exclude one classroom for the first 800 pupils at a schoolsite, or 2 classrooms for schoolsites with over 800 pupils, from the definition of "teaching station" for purposes of determining existing school building capacity if certain conditions are met.

Ch. 752 (SB 1721) Hayden. California State University.

Existing law establishes the California State University, and authorizes the operation of its various campuses under the administration of the Trustees of the California State University.

This bill would authorize the Trustees of the California State University to establish an African American Political Institute and an Institute for Central American Studies at California State University, Northridge, and a Center for Portuguese Studies at California State University, Stanislaus, with nonpublic funds or with other funds that the California State University, Northridge, and the California State University, Stanislaus are authorized to expend for, and make available for, these purposes, respectively. The provisions enacted by the bill would be repealed as of January 1, 2010.

Ch. 753 (SB 1795) Alpert. School facilities: joint-use project.

Existing law, the Leroy F. Greene School Facilities Act of 1998, (hereafter the Greene Act of 1998) establishes a program in which the State Allocation Board is required to provide state per-pupil funding, including hardship funding, for new school facilities construction and school facilities modernization to applicant school districts. Existing law requires the State Allocation Board to apportion funds only upon compliance with prescribed requirements relating to seismic safety approvals and with certification of the availability of local matching funds. Pursuant to existing law, on and after November 4, 1998, the board may only approve and fund school facilities projects under the Greene Act of 1998.

This bill would, notwithstanding these provisions, authorize the board to fund joint-use projects to construct libraries, multipurpose rooms, and gymnasiums if certain conditions are met and would authorize the board to adopt related funding priority regulations.

Ch. 754 (SB 1256) Polanco. Hepatitis C. ¹⁵

Existing law, the Hepatitis C Education, Screening, and Treatment Act, requires the State Department of Health Services to make available protocols and guidelines developed by the National Institutes of Health and California legislative advisory committees on hepatitis C for educating physicians and health professionals and training community service providers. Existing law further provides that these guidelines may include education programs for specified high-risk individuals.

This bill would provide that these guidelines may also include outreach programs and would expand the categories of high-risk individuals for which these programs are targeted.

This bill would require the Secretary of Veterans Affairs to report to the Legislature on or before March 1, 2001, regarding the use of funds earmarked by the federal Veteran's Administration to regional offices in California to educate, screen, and treat veterans with the hepatitis C virus. It would also require the Director of Corrections and Director of Health Services to perform various functions and duties with respect to providing outreach to, and testing of, certain targeted groups and would appropriate \$2,000,000 from the General Fund to the State Department of Health Services for these purposes.

The bill would require the Director of Health Services to include hepatitis C counseling, education, and testing, as appropriate, into local state-funded programs, and urge local public health officials to make hepatitis C virus screening available for uninsured individuals upon request.

Ch. 755 (AB 1613) Lempert. Regional open-space district: County of Santa Barbara.

Existing law permits proceedings for the formation of a regional park and open-space or regional open-space district in specified counties in the state to be initiated by resolution of the county board of supervisors adopted after a noticed hearing, and specifies the contents of the resolution.

This bill, in addition, would permit the formation of a regional open-space district in Santa Barbara County to be initiated by resolution of the county board of supervisors after a noticed hearing. The bill would specify the contents of the resolution, including a requirement to call an election, as prescribed.

Ch. 756 (AB 1855) Lowenthal. Redevelopment.

(1) The Community Redevelopment Law requires redevelopment agencies to use not less than 20% of taxes allocated to the agency for low- and moderate-income housing, as specified. These funds may be used outside of the project area upon a finding by the agency and the legislative body of the community that it will benefit the project area.

This bill would expressly authorize the Contra Costa County Redevelopment Agency to use these funds outside of a project area only upon a resolution by the agency and the board of supervisors, anywhere within county boundaries, including within the incorporated limits of the City of Walnut Creek, determining that it will benefit the project area. In addition, the agency may only use these funds within the incorporated limits of the City of Walnut Creek if the agency and the board of supervisors make specified findings and the agency complies with certain requirements.

(2) The Community Redevelopment Law, until January 1, 2001, requires that when dwelling units housing persons and families of low or moderate income are destroyed or removed from the housing market as part of a redevelopment project, an equal number of replacement units shall be rehabilitated, developed, or constructed, as specified. That law sets forth numerous duties of the redevelopment agency with respect to these replacement units, including the responsibilities of the agency regarding long-term affordability standards, and contains alternate provisions, to become effective on January 1, 2001, relating to low- and moderate-income replacement units that do not expressly provide for certain options available under the provisions in effect until January 1, 2001, including acquiring housing outside the project area under certain conditions, aggregating new or substantially rehabilitated dwelling units in one or more project areas, acquiring certain long-term affordability covenants, and permitting certain sales of owner-occupied low- and moderate-income units.

This bill would extend the provisions that would be repealed on January 1, 2001 to January 1, 2002, and would provide that the alternate provisions relating to low- and moderate-income replacement units are operative on January 1, 2002.

Ch. 757 (AB 2079) Granlund. Preneed funeral arrangements.

The Funeral Directors and Embalmers Law provides for the licensing and regulation of funeral directors and embalmers by a program under the supervision and control of the Director of Consumer Affairs. A violation of these provisions is a crime.

Existing law regulates agreements relating to preneed funeral arrangements, under which a consumer pays a funeral establishment in advance for services, property, or merchandise not immediately required. Under these provisions, the money or securities are held in trust, and income from the corpus of the trust may be used for certain purposes, including the payment of a reasonable annual fee for administering the trust, including a trustee fee, which is to be determined by the Funeral Directors and Embalmers Program.

This bill would delete the requirement for the annual administration fee to be determined by the Funeral Directors and Embalmers Program. This bill would provide that the annual fee for trust administration may be recovered by withdrawals from accumulated trust income, provided that the total withdrawals for this purpose shall not exceed the amount determined by the Cemetery and Funeral Bureau of the Department of Consumer Affairs, but not to exceed the total amount of posted trust income in the immediate 12 preceding months. This bill would make other related changes.

Because a violation of the bill's provisions would be a crime, this bill would impose a state-mandated local program by changing the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 758 (AB 2230) Wiggins. Architectural and engineering services contracts.

Under existing law, special provisions govern contracts between state agencies or departments and persons or entities providing architectural, engineering, land surveying, environmental, or construction project management services. These provisions specify negotiation procedures and establish deadlines for contract formation.

This bill would provide that any contract subject to the above provisions shall provide that retained moneys may be paid into an escrow account held by a state or federally chartered bank in this state, if the estimated amount of money to be retained by the state agency or department under the contract is greater than \$10,000.

Ch. 759 (AB 2304) Davis. State contracts: personal and consulting services.

Existing law establishes various procedures for the procurement of state goods and services, including consulting services and personal services.

This bill would consolidate the provisions regulating consulting services and personal services.

This bill would revise these provisions with respect to covered contracts and notice by electronic media or the Internet and would make various technical changes.

Ch. 760 (AB 2557) Margett. Payment bonds: public works.

Existing law requires every original contractor who is awarded a public works contract by a state entity involving an expenditure in excess of \$5000 or by any other public entity involving an expenditure in excess of \$25,000 to file a payment bond. Existing law requires that payment bond to be in a sum equal to (1) 100% of the total amount payable by the terms of the contract when that amount does not equal or exceed \$5 million, (2) 50% of the total amount payable when that amount is not less than \$5 million and not more than \$10 million, or (3) 25% of the total amount payable when that amount exceeds \$10 million.

This bill would delete those provisions and instead require that the payment bond be in a sum equal to 100% of the total amount payable by the terms of the contract for all public works contracts.

Ch. 761 (AB 2838) Hertzberg. Local agency formation commissions.

(1) Under existing law, the Cortese-Knox Local Government Reorganization Act of 1985, the local agency formation commission in each county is required to review and approve or disapprove proposals for changes of organization or reorganization of cities and districts within the county. If a proposal is approved, further proceedings, including a hearing and an election if required, are conducted by the county or other public agency designated as the conducting authority.

This bill would rename the act as the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000, delete references in the act to the conducting authority, and transfer its duties and powers to the commission.

(1.5) Under existing law, an action to reorganize school districts may be initiated by a petition filed with the county superintendent of schools signed by 25% of the registered voters in the territory to be reorganized. Following the receipt of a petition signed by at least 10% of the qualified electors of a school district for unification or other organization, the county committee on school district organization is required to hold a public hearing.

This bill would require the county committee to provide written notice to the commission before initiating proceedings to consider any reorganization plan under either provision. The bill would also require the county committee to hold a public hearing on receipt of a resolution of a local agency, as specified, for consideration of unification or other reorganization.

(2) Under the act, noncontiguous territory may not be annexed to a city. However, statutory exceptions permit particular cities to annex noncontiguous territory that constitutes a state correctional facility or a state correctional training facility.

This bill would delete these exceptions and authorize any city to annex that noncontiguous territory upon approval of the local agency formation commission.

(3) Existing law authorizes a city or district to provide new or extended services by contract or agreement outside its jurisdictional boundaries if it receives written approval from the commission but provides that this approval requirement does not apply to contracts or agreements solely involving 2 or more public agencies.

This bill would permit this exception where the public service to be provided is an alternative to or substitute for public services already being provided, as specified. This bill would also require the executive officer, within 30 days of receipt of a request for approval by a city or district to extend services outside its jurisdictional boundary, to determine whether the request is complete and acceptable for filing and, if not, to transmit that determination to the requester, specifying the parts that are incomplete. When the request is deemed complete, the executive officer would be required to place the request on the agenda of the next commission meeting.

(4) Existing law specifies how required notice shall be published, posted, or mailed with respect to the proceedings of a local agency formation commission.

This bill would provide that required notice shall also be given in electronic format on a website provided by the commission to the extent that the commission maintains a website. The bill would require the commission to establish and maintain, or otherwise provide access to, notices and provide other commission information for the public through an Internet website, thereby imposing a state-mandated local program.

This bill would require the commission to provide written notice of a proposed reorganization that may affect school attendance for a district to the countywide school district and each school superintendent whose district would be affected.

This bill would additionally require the commission to provide mailed notice to all registered voters and owners of property within 300 feet of the exterior boundary of the property that is the subject of a commission hearing.

(5) Existing law defines "landowner" or "owner of land" for purposes of the act as any person shown as the owner of land on the last equalized assessment roll except where that person is no longer the owner.

This bill would change that definition to any person shown as the owner of land on the most recent assessment roll being prepared by the county at the time the commission adopts a resolution of application except where that person is no longer the owner, and would make related changes.

(6) Existing provisions of the act require that notices of hearings of a local agency formation commission be published at least 15 days prior to the date of the hearing.

This bill would change that period to at least 20 days prior to the date of the hearing.

(7) Existing law declares the intent of the Legislature that each commission establish policies and exercise its powers to encourage efficient urban development and consideration of preserving open-space lands.

This bill would declare the intent of the Legislature that each commission establish written policies and procedures not later than January 1, 2002. The bill would require the policies and procedures to include lobbying disclosure and reporting requirements and forms to be used for submittals to the commission.

(8) The act establishes the purposes of a local agency formation commission, such as discouraging urban sprawl and encouraging orderly formation and development of local agencies.

This bill would add to those purposes preserving open-space and agricultural lands and efficiently providing government services. The bill would also require a commission, when formation of a new governmental entity is proposed, to make a determination as to whether existing agencies can feasibly provide the needed service or services in a more efficient and accountable manner. The bill would require a commission to apply various factors when reviewing and approving or disapproving proposals that may convert open-space lands to other uses.

(9) The act establishes procedures for the selection of the 5 members of a local agency formation commission.

This bill would increase the number of members to 7 and would revise the selection procedures.

Existing law provides that the commission for Los Angeles County consists of 7 members.

This bill would increase that membership to 9 members.

(10) Existing law sets forth the various powers and duties of a local agency formation commission in reviewing and approving or disapproving proposals for changes of organization or reorganization. Among other things, a commission may require as a condition to annexation that a city prezone the territory to be annexed.

This bill would provide that a commission shall require that rezoning, and would require that approval of the annexation be consistent with the planned and probable use of the property based upon the review of the general plan and rezoning designations.

This bill would also authorize a commission to enter into an agreement with the commission of an adjoining county to determine procedures for considering proposals that may affect the adjoining county. The bill would also authorize a commission to review the consistency of a proposal within a city's general plan when a proposed action would require the extension of critical services.

This bill would authorize a commission to require the disclosure of contributions, expenditures, and independent expenditures made in support of or opposition to a proposal and to require lobbying disclosure and reporting requirements for persons who attempt to influence pending decisions by commission members, staff, or consultants, would prescribe how disclosure is to be made, and would require a commission to hold public hearings to discuss the adoption of policies and procedures governing disclosure, thereby imposing a state-mandated local program.

(11) Existing law requires the county board of supervisors to provide for necessary quarters, facilities, supplies, and the usual and necessary operating expenses of a local agency formation commission. The commission is required to submit an estimate of operating expenses to the board.

This bill would repeal that requirement and provide that the commission expenses shall be provided by the county, the cities, and the special districts. The bill would require that the estimate be submitted to the cities and the counties and would require the commission to adopt a budget following a noticed public hearing, thereby imposing a state-mandated local program.

(12) Existing law authorizes a local agency formation commission to establish a schedule of fees for the costs of proceedings under the Cortese-Knox Local Government Reorganization Act of 1985, including a fee for checking the sufficiency of any petition filed with the executive officer of the commission.

This bill would require the signatures on a petition to be verified by the county elections official. The bill would provide that the costs of verification shall be provided for in the same manner and by the same agencies that bear those costs for an initiative petition in the same jurisdiction.

The bill would also authorize a commission to waive a fee in the public interest and to request a loan from the Controller for petition proceedings for an incorporation, as specified.

(13) Existing law authorizes a local agency formation commission to appoint an executive officer and legal counsel.

This bill would require a commission to appoint an executive officer and legal counsel, would authorize the commission to appoint staff, and would provide for alternatives if there is a conflict of interest on a matter before the commission.

(14) Existing law requires a local agency formation commission to develop and determine the sphere of influence of each local governmental agency within the county and periodically review and update the adopted sphere of influence.

This bill would require the review and update not less than once every 5 years. For that update and review the bill would require a commission to conduct a service review of municipal services provided in the county. The bill would require a commission to make certain determinations concerning functions and services provided by existing districts before approving any special district sphere of influence or any sphere of influence that includes a special district.

(15) Existing law requires a local agency formation commission to develop, determine, and adopt a sphere of influence for each local governmental agency that provides facilities or services related to development no later than January 1, 1985.

This bill instead would require the commission to develop and determine the sphere of influence of each local governmental agency and update that sphere of influence not less than once every 5 years and would provide a procedure until January 1, 2007, for city and county representatives to reach agreement on the scope of the proposed or revised sphere of influence. The bill would authorize the commission to review and approve a proposal that extends services into unserved, unincorporated areas and to review the creation of new service providers, as specified.

(15.5) Existing law authorizes certain local agencies to establish sewer and water supply facilities on designated lands related to the development of certain territory within the Norton Air Force Base Redevelopment Project Area, as specified.

This bill would provide that a determination of a city's sphere of influence that includes any of that redevelopment project area shall not preclude any other local agency from providing facilities or services related to development, as specified.

(16) Under the act, a local agency formation commission may adopt regulations affecting the functions and services of special districts. As long as those regulations are in effect, the special districts must be represented on the commission.

This bill would repeal this representation requirement and would provide that if the commission has special district representation prior to January 1, 2001, a majority of the independent special districts may require the commission to repeal previously adopted regulations that limit the exercise of powers of special districts.

(17) Existing law creates the Special Commission on Los Angeles Boundaries with specified duties and implements that commission only to the extent that funds are appropriated in the annual Budget Act.

This bill would repeal these provisions.

(18) Existing law defines a special reorganization as a reorganization that includes the detachment of territory from a city or city and county and the incorporation of that entire detached territory as a city.

This bill would specify that proceedings for a special reorganization shall be conducted in accordance with the procedures otherwise prescribed for incorporation of a city.

The bill would also require that expenditures and contributions for political purposes related to a change of organization or reorganization proposal be disclosed and reported in the manner provided for local initiative measures.

(19) Existing law specifies the percentages of registered voters or landowners who must sign petitions for various changes or organization.

This bill would revise these percentages for city consolidations, city annexations, city detachments, district detachments or annexations, district dissolutions, district mergers, or the establishment of a district as a subsidiary district of a city.

(20) Existing law requires that commission review of a reorganization proposal include, but not be limited to, specified factors.

This bill would add to those factors the ability of the newly formed or receiving entity to provide services, the timely availability of adequate water supplies, the extent to which the proposal will assist the receiving entity in achieving its fair share of the regional housing needs, and information from landowners or relating to existing land use designations.

This bill would also require a commission, in considering a proposal including the formation of a new government, to make a determination of the efficiency of existing agencies in providing the needed service or services. The bill would authorize the commission to consider regional growth goals and policies established by local elected officials.

(21) Existing law provides that in any order approving a change of organization or reorganization, the commission may make approval conditional on any of specified factors.

This bill would authorize a condition prohibiting an agency being dissolved from taking certain actions unless an emergency situation exists.

(22) This bill would require the Office of Planning and Research, in consultation with the Controller, to convene a task force of representatives from local agencies and commissions to create statewide guidelines for the incorporation process.

(23) Existing law authorizes any person or affected agency to file a written request to amend or reconsider a commission resolution making determinations.

This bill would require the request to state new or different facts or applicable new law to warrant reconsideration of the resolution.

(24) Existing law requires the conducting authority to consider certain factors if a proposed change of organization is a district annexation.

This bill would require a commission to consider these factors for a city detachment or a district annexation, other than a special reorganization, would add as a factor any resolution objecting to the action that may be filed by an affected agency, and would require the commission to give great weight to such a resolution.

(25) Existing law requires, in the event of a jurisdictional change that would affect the service area or responsibility of one or more special districts, that the board of supervisors negotiate any exchange of property taxes on behalf of the district or districts.

This bill would require the board, prior to entering into negotiation, to consult with the affected districts, with notice to the district board members and executive officer, and adequate opportunity for comment.

(26) This bill would incorporate additional changes in specified sections of the Government Code proposed by AB 1495 and AB 2779, that would become operative if

either or both of those bills and this bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

(27) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 762 (AB 185) Hertzberg. Local government reorganization.

Existing law authorizes a local agency formation commission to review proposals for organization and reorganization of municipal entities, including proposals to incorporate cities. A commission is required, after a hearing, to adopt a resolution making determinations approving or disapproving a proposal, with or without conditions.

This bill would require that, if a commission approves a proposal for a special reorganization that includes the incorporation of a city with a population of more than 1,000,000, the resolution shall specify that the legislative body of the city shall consist of an even number of members, with at least 12 elected by districts. It also would require the commission to establish initial boundaries for those districts and to specify in the resolution that the mayor, who shall be a voting member of the council, shall be elected on a citywide basis.

Ch. 763 (SB 128) Polanco. State property.

(1) Existing law authorizes the Director of General Services, with the consent of the state agency concerned, to sell, convey, or exchange surplus real property belonging to the state at fair market value under specified circumstances.

This bill would authorize the director, with approval of the Director of the Department of Transportation, to sell, lease, or exchange the real property located at 120 South Spring Street in the City of Los Angeles, including structures thereon totaling approximately 395,000 square feet.

(2) Existing law prohibits a state or local government agency, in connection with competitive bidding for a public building or construction contract, from requiring a bidder to obtain a surety bond or insurance in connection with the project from a particular surety or insurance company, agent, or broker, and authorizes use of owner-controlled or wrap-up insurance on a "construction or renovation project" for which the total cost exceeds \$50,000,000 if the agency meets certain conditions and certifies that it has made certain determinations.

This bill would clarify that law by authorizing owner-controlled or wrap-up insurance for a construction or renovation program, rather than project, for which the costs exceed \$50,000,000.

Ch. 764 (SB 329) Peace. San Diego Regional Government Efficiency Commission.

Under existing law, there are a number of agencies involved with transportation and infrastructure issues in the County of San Diego.

This bill would enact the San Diego Regional Government Efficiency Commission Act, make related findings and declarations, create an 11-member San Diego Regional Government Efficiency Commission, require the commission to submit to the Legislature a plan and draft legislation for the consolidation of regional agencies within the San Diego region, and grant specified powers to the commission. The bill would state that legislation implementing the commission's plan shall not become operative unless a ballot proposition containing that proposal is approved by the voters, as specified. The bill would state that if

that proposition is approved, at an election conducted in March 2002, the operative date of the legislation shall be July 1, 2002, and if the proposition is approved at an election conducted in November 2002, the operative date of the legislation shall be January 1, 2003. The bill would require the County of San Diego to conduct that election in either March 2002 or November 2002.

By imposing a new program and other duties on local governmental entities this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 765 (SB 762) Hughes. Real estate fraud: recording fees.

Existing law provides that in addition to other recording fees, upon the adoption of a resolution by the county board of supervisors, a fee of up to \$2 shall be paid at the time of recording of every real estate instrument, as defined. The fees collected, after deduction of any actual and necessary administrative costs incurred by the county, are required to be placed in the Real Estate Fraud Prosecution Trust Fund to be distributed by the county chief administrative officer, as determined by a Real Estate Fraud Prosecution Trust Fund Committee, to district attorneys and local law enforcement agencies for the purpose of determining, investigating, and prosecuting real estate fraud crimes.

This bill would provide that the amount deducted for actual and necessary administration costs pursuant to those provisions shall not exceed 10% of the fees paid.

Ch. 766 (SB 766) Escutia. Redevelopment: City of South Gate.

(1) Existing law relating to community redevelopment requires a redevelopment agency that undertakes any action to remedy or remove a release of hazardous substances on, under, or from property within a redevelopment project area to amend its redevelopment plan and to comply with other requirements.

This bill would exempt the adoption of a redevelopment plan for a specified area of the City of South Gate from various requirements and would require the city to create a citizens' advisory committee to advise the redevelopment agency on development of the project area, thereby imposing a state-mandated local program. The bill would provide that it would not preclude the city or its redevelopment agency from using a prior environmental impact report prepared for the project area pursuant to regulations under the California Environmental Quality Act.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 767 (SB 1144) Johannessen. Public works: local agencies.

Under the Local Agency Public Construction Act, the Cities of West Sacramento and Davis may provide for an alternative bidding procedure for the design and construction of

projects with a cost not exceeding \$50,000,000. These cities must comply with certain criteria in the alternative bidding procedure, including that the contract be awarded to the lowest responsible bidder. These provisions will be repealed on January 1, 2001.

This bill would instead require that the contract be awarded to the lowest responsible bidder that meets the design, aesthetic, and quality standards of the city council. The bill would also extend the repeal date of these provisions to January 1, 2003.

Ch. 768 (SB 1535) Costa. Farm products processors: licensing.

(1) Existing law sets forth procedures governing the licensure by the Department of Food and Agriculture of farm products processors and their agents. Existing law requires that applicants for a processor's license sign a notice that the department may obtain criminal record information during the course of licensing investigation, as specified.

This bill would authorize the above-described notice to be signed by the applicant's designated representative.

(2) Existing law prescribes misdemeanors for specified violations involving processors of farm products and produce dealers.

This bill would authorize the department to recover specified investigative costs with respect to any of these violations. This bill would permit a person responsible for investigative costs as imposed by the provisions of this bill to obtain an audit of the department's investigative costs, as specified.

(3) Existing law prohibits, except as provided, a licensee, as defined, from employing a person as an agent, where that person has had a specified license revoked, or committed violations of specified provisions of the Food and Agricultural Code. Violation of these provisions is punishable as a misdemeanor.

This bill would, in addition, expand the prohibition to the employment, by the licensee, of any person who previously was an agent, and who meets the prohibitory criteria. By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

(4) Existing law makes it a misdemeanor for a person licensed as a farm products processor or as a produce dealer to fail, neglect, or refuse to remit to the director any assessments that are levied on producers pursuant to provisions of law relating to state commissions that aid the marketing of specified products.

This bill would include additional commissions that would be subject to this misdemeanor provision. By expanding the scope of an existing crime, the bill would impose a state-mandated local program.

(5) This bill would also incorporate additional amendments to Sections 55901, 55922, 56631, and 56652 of the Food and Agricultural Code proposed by AB 2630, to be operative if AB 2630 and this bill are both enacted.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 769 (SB 1538) Knight. Military base reuse.

(1) Existing law specifies a single reuse entity for certain specified military bases subject to closure pursuant to the federal Defense Base Closure and Realignment Act and also specifies a procedure for the recognition of a single local reuse entity for any military base that is closed in the state. Existing law also requires that this entity be recognized as the planning authority for the base by all state agencies and provides that it is the only entity that is eligible for specified state benefits for use on the base. These provisions are repealed as of January 1, 2001.

This bill would extend the operation of these provisions to January 1, 2007.

(2) Existing law establishes the California Defense Retention and Conversion Council in the Trade and Commerce Agency until January 1, 2007, and provides that the council consists of specified members, including a nonvoting representative from each branch of the United States Armed Forces within California, appointed by the Governor. Existing law also requires the members to elect a chairperson of the council and provides that, at the request of a council member, the council may review specified actions or programs by state agencies that may affect military base retention and reuse.

This bill would require the military representatives to be flag officers, or their designees, from each branch of the United States Armed Forces representing a mission or installation in California to serve as liaisons to the council, and would require that the Secretary of Trade and Commerce serve as the chairperson of the council. The bill would require a majority vote of the council, in addition to the request of a council member, to review specified actions or programs by state agencies.

Ch. 770 (SB 1778) Johnston. State property: surplus.

(1) Existing law requires each state agency, on or before December 31 of each year, to make a review of all proprietary state lands, with specified exceptions, over which it has jurisdiction, to determine what, if any, land is in excess of its foreseeable needs and report thereon in writing to the Department of General Services. Existing law transfers to the department jurisdiction of all land reported as excess. Existing law requires the department, when authority to sell or otherwise dispose of lands declared excess is granted, to sell the land or otherwise dispose of the property pursuant to the authorization, upon any terms and conditions and subject to any reservations and exemptions as the department may deem to be for the best interests of the state.

This bill would authorize the Director of General Services, with the approval of the State Public Works Board, to sell, exchange, lease, or transfer for current market value or for any lesser consideration authorized by law, specified parcels in Solano County and in San Bernardino County, and to convey for less than fair market value a specified parcel in Sonoma County. The bill would exempt any sale, exchange, lease or transfer of property described by this bill from the California Environmental Quality Act and would except and reserve to the state specified mineral rights.

(2) Existing law authorizes the director, with approval of the State Public Works Board, to sell, exchange, lease, or transfer for current market value or lesser consideration specified parcels in Fresno, Los Angeles, and Santa Clara Counties.

This bill would delete the authority to dispose of that parcel in Los Angeles County.

(3) Existing law authorizes the Director of General Services to enter into negotiations with the City of Concord on behalf of the Military Department for the exchange of real property based on current market value.

This bill would authorize the Director of General Services, in consultation with the Military Department, to convey to Plumas County certain real property for public recreational use only at no cost, except to reimburse the Department of General Services for costs related to the transfer. It would also authorize the director, in consultation with the Military Department, to convey to Plumas County real property currently being used by Plumas County as a waste disposal transfer site at no cost, except to reimburse the Department of General Services for costs related to the transfer.

(4) This bill would also authorize the Director of Parks and Recreation, with approval of the Director of General Services, to exchange real property at the Ahjumawi Lava Springs State Park with the Pacific Gas and Electric Company for real property of equal or greater value.

Ch. 771 (SB 1815) McPherson. Central Coast Veterans Cemetery.

Existing law provides for the burial of veterans and veterans' widows and widowers, and the care of veterans' graves.

This bill would require the Department of Veterans Affairs, in voluntary cooperation with the Monterey County Board of Supervisors, to develop a master plan for a state-owned and state-operated Central Coast Veterans Cemetery to be located on the grounds of the former Fort Ord in Monterey County. The bill also would establish the Central Coast Veterans Cemetery Master Development Fund.

The bill would appropriate \$140,000 from the General Fund to the Central Coast Veterans Cemetery Master Development Fund for the master development plan of the cemetery, as specified.

The bill would require the department to research and prepare a State Cemetery Grant to be filed with the federal Department of Veterans Affairs for an amount representing 100% of the estimated cost for designing, developing, constructing, and equipping the cemetery.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 772 (SB 2041) Chesbro. Public utilities: Mare Island Utility District.

(1) Existing federal law required the closure of federal installations including Mare Island Naval Shipyard. Existing law designates the City of Vallejo as the local reuse entity and authorizes a Mare Island redevelopment plan. The Municipal Utility District Act authorizes the establishment of a utility district and provides, among other things, for its powers, organization, issuance of bonds, and incurring debt.

This bill would until January 1, 2011, establish the Mare Island Utility District, as defined, within this former federal facility.

The bill would provide for the composition of the 5-member board of directors for the district and require the district to commence operations upon the appointment of the directors. The bill would authorize transfer of the district's operation to specified governmental entities. The bill would prescribe the organization and powers of the district. The bill would also provide that the district would be indemnified from liability for environmental damage to the extent provided by an agreement between the City of Vallejo and the United States Navy. This bill would establish new duties for local agencies, thereby imposing a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 773 (SB 2060) Speier. Vehicles: dealers: licenses.

(1) Existing law makes it unlawful for a vehicle dealer, as defined, to, among other things, fail to include in a newspaper advertisement of a vehicle for sale that certain charges will be added to the advertised total price at the time of sale.

This bill would expand this prohibition to include advertisements in magazines, direct mail publications, circulars, or handbills, and advertisements on any web page of a lessor-retailer's or dealer's Internet web site, as defined, that displays the price of a vehicle offered for sale. The bill would thus impose a state-mandated local program by expanding the definition of an existing crime. These provisions would become operative on July 1, 2001.

(2) The bill would incorporate changes in Section 11713.1 of the Vehicle Code proposed by this bill and AB 1912 to be operative only if both bills are enacted and this bill is enacted last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 774 (SB 2147) O'Connell. Department of the California Highway Patrol: museum.

Existing law provides that within the Business, Transportation and Housing Agency there is the Department of the California Highway Patrol which is under the control of a civil executive officer known as the Commissioner of the California Highway Patrol.

This bill would authorize the commissioner to plan and construct a California Highway Patrol Museum on the department's academy grounds in the City of West Sacramento. The bill would provide for a museum board of directors, and would require the construction to be funded entirely with private contributions, with no public funds to be used, except for eligible federal funds.

The bill would provide for maintenance that would be performed by the department, as specified. The bill would require the commissioner to submit a prescribed report to the Joint Legislative Budget Committee, as specified. The bill would provide that the project shall not be considered a public work, shall not be subject to any review or approvals by the Department of General Services, and shall be subject to prevailing wage laws.

The bill would specify that the museum shall be known as the CHP Commissioner Dwight O. "Spike" Helmick Museum.

Ch. 775 (SB 1049) Murray. State contracts: small businesses.

Existing law authorizes a state agency to award a contract for the acquisition of goods, services, or information technology that has an estimated value of greater than \$2,500, but less than \$50,000, to a small business, as long as the agency obtains price quotations from 2 or more small businesses.

This bill instead would authorize the award of the contract to a small business under these provisions if the contract has an estimated value of greater than \$5,000, but less than \$100,000.

Ch. 776 (AB 2890) Committee on Consumer Protection, Governmental Efficiency and Economic Development. Public contracts.

Under existing law, a state agency may award a contract for goods, services, or information technology that has an estimated value between \$2,500 and \$50,000 by obtaining quotations from at least 2 small businesses. For these contracts, a state agency does not have to comply with bidding and contract award requirements that govern contracts of greater value.

This bill would make corrective changes to these provisions, to clarify that contracts with a value greater than \$2,500 and less than \$50,000 do not have to comply with various provisions that generally govern public contracts.

Existing law generally governs the state procurement of materials, supplies, equipment, and services, and the acquisition of electronic data-processing and telecommunications goods and services.

This bill would make various technical and clarifying changes to these provisions and would delete outdated provisions.

This bill would incorporate additional changes in Section 14838.5 of the Government Code, proposed by SB 1049, to be operative only if SB 1049 and this bill are both chaptered and become effective on or before January 1, 2001, and this bill is chaptered last.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 777 (AB 750) Dutra. Spinal cord injury.

Existing law establishes various health research grant programs.

This bill would establish the Spinal Cord Injury Research Fund for the award of grants to conduct basic neurological research into the cure for spinal cord injuries and their effects. This bill would continuously appropriate the fund to the University of California to administer the grants. This program would be operative until January 1, 2006. This bill would be implemented only to the extent that funds are appropriated for its purposes.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 778 (SB 639) McPherson. Gambling: charitable raffles.

Existing law generally prohibits lotteries, but provides for the operation of the California State Lottery and authorizes bingo games to be conducted for charitable purposes pursuant to local ordinances. The California Constitution, as amended by initiative, also empowers the Legislature to authorize private, nonprofit, eligible organizations, as defined, to operate raffles to provide funding for beneficial and charitable works, subject to specified requirements.

This bill would implement that latter authority, and would provide that a raffle conducted by an eligible organization, as defined, for the purpose of directly supporting specified beneficial or charitable purposes in California, or financially supporting another private, nonprofit, eligible organization that performs those purposes, is not prohibited if, among other requirements, each ticket is sold with a detachable coupon or stub with identifying numbers, the draw is conducted in California under the supervision of a natural person who is 18 years of age or older, and at least 90% of the gross receipts generated from the sale of raffle tickets are used to benefit or provide support for beneficial or charitable purposes, as defined. The bill would limit the use of raffle funds to purposes in California. This bill would provide that an eligible organization is a private, nonprofit organization that has been qualified to conduct business in California for at least one year prior to conducting a raffle and is exempt from taxation pursuant to specified provisions of California law. The bill would provide that any person receiving compensation in connection with the operation of a raffle shall be an employee of the eligible organization that is conducting it, that in no event may compensation be paid from dedicated funds, and that no person or entity shall hold a financial interest in the conduct of a raffle except the eligible organization itself and other eligible organizations receiving funds as described. The bill would provide that an employee of an eligible organization who is a direct seller of raffle tickets shall not be treated as an employee for workers' compensation purposes or unemployment insurance purposes if certain requirements are met. The bill would provide that no raffle may be conducted by means of, or otherwise utilize, any gaming machine, apparatus, or device, and would provide that no raffle may be advertised, operated, or conducted, nor may raffle tickets be sold, traded, or redeemed, over the Internet, or within an operating racetrack inclosure or satellite wagering facility, or within a gambling establishment, as specified. This bill would also provide that no eligible organization shall conduct or participate in a raffle without first having obtained and thereafter maintained a registration from the Department of Justice, as specified. This bill would authorize the department to issue regulations to enforce these provisions, to assess an annual registration fee of \$10 to be deposited in the General Fund to cover the actual costs of establishing and operating this registration system, and would require the department to maintain a data base of registrants, with specified exemptions, and conduct specified proceedings in compliance with the Administrative Procedure Act.

This bill would require the Department of Justice to conduct a study and report to the Legislature by December 31, 2003, on specified issues concerning the impact of these provisions on raffles.

These provisions would become operative on July 1, 2001.

Ch. 779 (SB 1887) Vasconcellos. Horse racing: impact fees.

(1) Existing law authorizes agreements between racing associations and satellite wagering facilities concerning the transmission of signal, the inclusion of wagers in the appropriate parimutuel pool, and the payment of supplemental impact fees apart from the deductions and distributions from the amount handled specified under the Horse Racing Law. Existing law provides that nothing in these provisions shall be construed to require an association or fair to execute an agreement concerning these fees, and that notwithstanding these provisions, no impact fee or charge shall be paid by the operator of a satellite wagering

facility that was also licensed at any time during the prior year to conduct a live racing meeting in the northern zone.

This bill would expand this exclusion to include any satellite wagering facility in the northern zone that was licensed at any time prior to January 1, 2000.

(2) Existing law also provides that on-track license fees applicable to associations conducting thoroughbred racing in the northern zone shall be reduced by 0.3%, and that the amount thereby retained shall be paid to the association in the form of a commission.

This bill would also provide that specified on-track license fees applicable to wagers made within the inclosures of thoroughbred racing associations in the Counties of Alameda and San Mateo shall be permanently reduced, beginning in 2001, by an additional sum equal to the actual amount of impact fees respectively received by each association from the Santa Clara County Fair in 2000.

Ch. 780 (AB 2735) Cox. Birth certificates.

Under existing law, the State Registrar is required to amend or revise a birth certificate under certain circumstances.

This bill would permit an individual, or the parent, legal guardian, or conservator, of a minor or incompetent person, to apply to the State Registrar for the establishment and issuance of a new birth certificate and the sealing of the original, upon finding that the birthing hospital or local registrar made a gender error when completing the original birth certificate, or upon the filing of sworn affidavits by the attending physician and the mother or father or a relative who was at least 5 years old at the time of the applicant's birth that the applicant's gender was different from that indicated on the original birth certificate. This bill would require the applicant to pay to the State Registrar a \$19 fee for the establishment of a new record of birth under these circumstances. The bill would authorize the fee amount to be adjusted annually, in accordance with specified provisions.

This bill would specify the duties of the State Registrar, as well as local registrars and county recorders in this regard. By imposing new duties on local registrars and county recorders, the bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 781 (AB 885) Jackson. Onsite sewage treatment systems.

Existing law authorizes a California regional water quality control board to prohibit, under specified circumstances, the discharge of waste from individual disposal systems or community collection and disposal systems that use subsurface disposal.

This bill would require the State Water Resources Control Board, on or before January 1, 2004, and in consultation with the State Department of Health Services, the California Coastal Commission, the California Conference of Directors of Environmental Health, counties, cities, and other interested parties, to adopt, specified regulations or standards for the permitting and operation of prescribed onsite sewage treatment systems that meet certain requirements.

The bill would require each regional board to incorporate the state board's regulations or standards into the appropriate regional water quality control plans.

The bill would make a statement of legislative intent relating to assistance to private property owners with onsite sewage treatment systems.

Ch. 782 (AB 1781) Robert Pacheco. State beaches: County of Los Angeles: deed restrictions.

Existing law requires the Director of Parks and Recreation, upon the adoption of a specified resolution by the County of Los Angeles, to grant to the County of Los Angeles, in trust for the people of California, all of the rights, title, and interest of the State of California in specified state beach property. Existing law prohibits any new project for new or expanded noncommercial development on that beach property from exceeding an estimated cost limitation for each project of \$250,000, as adjusted. Existing law requires that limitation to be specified in each deed.

This bill would exempt noncommercial projects necessary to bring public accessways and public facilities into compliance with the Americans with Disabilities Act of 1990, as amended, from the estimated cost limitation. The bill would require the director to execute an amendment to any deed conveying the state beach property to incorporate the exemptions provided by the bill.

The bill would also limit the use of public funds for shoreline protective works at specified beaches to those determined by the County of Los Angeles to be necessary for the protection of public infrastructure or a public facility.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 783 (AB 2282) Davis. Public records: resolution of enforcement actions.

Existing law provides that public records are open to inspection at all times during the office hours of the state or local agency and every person has a right to inspect any public record, except as specifically provided. Existing provisions of the Governor's Reorganization Plan No. 1 of 1991 establish the California Environmental Protection Agency consisting of the State Air Resources Board, the California Integrated Waste Management Board, the State Water Resources Control Board and each California regional water quality control board, the Department of Pesticide Regulation, and the Department of Toxic Substances Control.

This bill would require, on and after April 1, 2001, every final enforcement order issued by the California Environmental Protection Agency and various boards and departments within the agency, under any provision of law that is administered by one of these entities, to be displayed for at least one year on the entity's Internet website, if the order is a public record that is not otherwise exempt from disclosure.

This bill would specify when an order is final for purposes of the bill and would require the agency to oversee the implementation of the bill.

Ch. 784 (AB 2365) Honda. Transportation funding.

(1) The Santa Clara Valley Transportation Authority Act has been renamed to reflect the name change from the Santa Clara County Transit District. The act authorizes the continuation of the authority and the operation of a transit system. The act creates a 12-member board of directors that has the power to manage the transit system. The act authorizes the adoption of a retail transaction and use tax ordinance provided that it is approved by the voters at a special election.

The bill would authorize the authority to administer and implement an adopted countywide transportation expenditure plan funded by revenues from a retail transaction and use tax, as prescribed. The bill would set forth examples of projects authorized by the plan. The bill would require that the authority consult with specified state and local agencies. The bill would also state that this bill does not vary the terms of the cooperative agreement dated July 1, 1999, between the authority and Santa Clara County relating to the construction of transportation projects using specified funds, and the cooperative agreement is controlling in the case of any conflict between the agreement and this bill.

(2) The bill would make an appropriation by requiring that amounts appropriated under certain items of appropriation in the Budget Act of 2000 be used for specified transportation purposes.

Ch. 785 (SB 2001) Poochigian. Local planning: public notice.

(1) The Planning and Zoning Law provides that whenever a hearing is held for a permit or modification of a permit for a drive-through facility, the local agency shall incorporate, where necessary, notice procedures to the blind, aged, and disabled communities, as specified. Existing law also requires that whenever notice of a public hearing is required regarding the adoption of a general or specific plan, specified procedures are to be followed.

This bill would require that these notice procedures also be incorporated whenever a local agency considers the adoption or amendment of policies or ordinances affecting drive-through facilities. By imposing new duties on local agencies, including charter cities, the bill would create a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 786 (SB 1109) Burton. Vessels.

Existing law provides that when a pilot for the Bays of San Francisco, San Pablo, and Suisun goes aboard a vessel, the pilot becomes a servant of the vessel and its owner and operator. Existing law also provides that nothing exempts the vessel or its owner or operator from liability to persons or property for damage or loss caused by the vessel or its operation on the ground that the vessel was piloted by a pilot or that the damage or loss was incurred as a result of the pilot's error, omission, fault, or neglect.

This bill would prohibit the rates and charges for pilotage services from including the cost of primary marine insurance, except as specified in the bill. The bill would require a pilot for the Bays of San Francisco, San Pablo, and Suisun to arrange to have available, upon written notice, trip insurance, with specified coverage limits, naming as insureds the pilot, any organization to which the pilot belongs, and their officers and employees, that insures the named insureds against any civil claim relating to acts or omissions of the insureds in connection with providing pilotage services, except willful misconduct.

The bill would require a vessel or its owner, operator, or demise or bareboat charterer hiring a pilot for the Bays of San Francisco, San Pablo, and Suisun to either pay for trip insurance, as specified, or to defend, indemnify, and hold harmless a pilot and any organization of pilots to which the pilot belongs, and their employees and officers, from specified liability resulting from an act, omission, or negligence of the pilot, other than willful misconduct, and to defend the pilot, as specified.

Ch. 787 (SB 1404) Committee on Transportation. Government.

(1) The Outdoor Advertising Act regulates the placement of advertising displays adjacent to and within specified distances of highways that are part of the national system of interstate and defense highways and federal-aid highways. The act, except as specified, prohibits any advertising display from being placed or maintained on property adjacent to a section of a freeway that has been landscaped if the advertising display is designed to be viewed primarily by persons traveling on the main-traveled way of the landscaped freeway. The act defines relevant terms.

This bill would define additional terms as used in the act, amend certain definitions, and delete a definition. The bill would prohibit any advertising display that is visible from a state highway, rather than a bonus segment, as defined, if the display is flashing, intermittent, or involves moving light or lights. The bill would provide that all message centers, as defined, meet certain requirements, and would delete message centers from certain exemptions

allowing advertising displays meeting certain requirements to be placed within 660 feet of an interstate or a primary highway if in a business area. The bill would provide that advertising displays may not impair the vision of travelers as measured by values established in the Vehicle Code.

To the extent that these changes would expand the scope of an existing crime, the bill would impose a state-mandated local program.

(2) Existing law regulates on-premises advertising displays and regulates any structure, housing, sign, device, figure, statuary, painting, display, message placard, or other contrivance, or any part thereof, that has been designed, constructed, created, intended, or engineered to have a useful life of 15 years or more, and intended or used to advertise, or to provide data or information in the nature of advertising, for specified purposes.

This bill would define “message center” and would provide that on-premise message center displays that are visible to traffic from any interstate or primary highway are required to meet certain conditions.

(3) Existing law requires certain funds in the Public Transportation Account in the State Transportation Fund to be appropriated by the Legislature to the Controller for allocation to transportation planning agencies, county transportation commissions, and the San Diego Metropolitan Transit Development Board for specified transit purposes. The Controller is required, not later than January 10th of each year, to send to each of those entities an estimate of the amount of funds to be allocated to the entity under these provisions during the next fiscal year.

This bill would change the date specified above to January 31st.

(4) Existing law requires the California Transportation Commission to relinquish to any city or county any portion of any state highway within the city or county that has been deleted from the state highway system by legislative enactment. These relinquishments become effective upon the first day of the next calendar or fiscal year, whichever first occurs after the effective date of the legislative enactment.

This bill would authorize the commission to relinquish to the City of Arroyo Grande a specified portion of State Highway Route 227, upon terms and conditions the commission finds to be in the best interests of the state, including that the city maintain within its jurisdiction signs directing motorists to the continuation of Route 227. The relinquishment would become effective immediately following recordation by the county recorder of the relinquishment resolution containing the commission’s approval of the terms and conditions of the relinquishment. The portion of Route 227 relinquished as specified would cease to be a state highway on the effective date of the relinquishment.

(5) Existing law provides for the vacation of a public street, highway, or public service easement in accordance with specified procedures.

This bill would correct a statutory cross reference set forth in those provisions.

(6) Existing law requires the Department of Motor Vehicles to prepare and publish a printed summary describing the penalties for noncompliance with provisions relating to the state’s compulsory financial responsibility law, and include the summary with specified motor vehicle registration and driver license documents.

This bill would make changes in the notice to conform to changes in the compulsory financial responsibility law.

(7) Existing law excludes violations as a pedestrian or while operating a bicycle from the requirement that court clerks report Vehicle Code violations to the Department of Motor Vehicles.

This bill would also exclude violations while operating a motorized scooter.

(8) Existing law requires the Department of Motor Vehicles to, in cooperation with parking citation processing agencies, develop a plan to establish a pilot program by which parking penalties and administrative fees may be collected without regard to whether a vehicle is transferred.

This bill would delete that requirement.

(9) Existing law requires the Department of Motor Vehicles to issue identification cards and authorizes the cancellation of the identification cards under certain circumstances.

This bill would authorize the department to refuse to issue or renew an identification card to any person if the department determines that the person has knowingly used a false or fictitious name in any application, if the department determines that the person has impersonated another in making an application, or if the department determines that the person has knowingly made a false statement, knowingly concealed a material fact, or otherwise committed any fraud on any application. The bill would also authorize the department to declare an identification card invalid on any of these same grounds. The bill would also require the holder of an invalid card to surrender the card to the department and a violation of this provision would be punishable as an infraction thereby imposing a state-mandated local program.

(10) Existing law specifies that upon application for an original class C or M driver's license, or for the renewal of a class C or M driver's license, there shall be paid to the Department of Motor Vehicles a fee of \$12 for a license that will expire on the 4th birthday of the applicant following the date of the application. Existing law also specifies that upon application for an original driver's license, or for the renewal of a driver's license or for a license to operate a different class of vehicle, there shall be paid to the department a fee of \$15 for a license that will expire on the 5th birthday of the applicant following the date of the application.

This bill would provide that the \$12 fee is for the issuance of an original 4-year class C or M driver's license and the \$15 fee is for a renewal 5-year class C or M driver's license or a change in vehicle class.

(11) Existing law prohibits specified vehicles from being driven on a highway in excess of 55 miles per hour and also prohibits a commercial motor vehicle from being operated on a highway at a speed exceeding an established maximum speed limit by 15 miles per hour or more and declares that a violation of this provision is punishable as a misdemeanor and is a serious traffic violation, as defined.

This bill would make a technical, nonsubstantive change in these provisions.

(12) The Motor Carriers of Property Permit Act provides for the regulation of certain for-hire motor carriers of property by the Department of Motor Vehicles and the Department of the California Highway Patrol. The act refers to certain obsolete statutory provisions and definitions relating to specified motor carriers.

This bill would delete the obsolete statutory references and definitions.

(13) Existing law requires an application for refund from the Department of Motor Vehicles for an erroneous or excessive collection of fees or penalties to be presented to the department in writing within three years from the date of payment of the erroneous or excessive fee or penalty.

This bill would delete the requirement that the application be in writing, and, instead, would require that the application be in a format prescribed by the department.

(14) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 788 (SB 2178) McPherson. Transportation: State Highway Route 17 bus feeder service: funding.

Existing law prohibits the Department of Transportation from providing funding to Amtrak for the purpose of entering into a contract with a motor carrier of passengers for the intercity transportation of passengers by motor carrier over regular routes unless prescribed conditions are met, including a requirement that service be provided only for passengers on trips where the passengers have had prior movement by rail or will have subsequent movement by rail, evidenced by a combination rail and bus one-way or roundtrip ticket.

This bill, until a specified date, would exempt from the specified requirement service provided for disabled passengers who rely substantially on the use of wheelchairs and travel by motor carrier over any regular route that operates on a specified portion of Route 17.

The bill would require the department to encourage certain transportation entities to develop and execute a memorandum of understanding that addresses long-term solutions to the transportation needs of passengers traveling by bus on the specified route .

The bill would declare that it is take effect immediately as an urgency statute.

Ch. 789 (SB 1819) Dunn. Motor vehicle franchises: restriction.

(1) Existing law prohibits any motor vehicle manufacturer, manufacturer branch, distributor, or distributor branch that is licensed under the Vehicle Code from engaging in certain conduct involving a dealer having a franchise for the sale of new vehicles or vehicle parts including prohibiting those manufacturers, branches, and distributors from competing with a dealer, as specified, or engaging in unfair discrimination in favor of any dealership owned or controlled by those entities.

This bill would allow these manufacturers, branches, and distributors or any entity that is controlled by a manufacturer, branch, or distributor to compete under specified limited circumstances and would specify conduct that constitutes unfair discrimination.

The bill would also require every manufacturer, branch, and distributor that owns or operates a dealership, as specified, to give written notice to the board each time a manufacturer, branch, or distributor assumes operation of a dealership or acquires or divests itself of an ownership interest in a dealership.

Because a violation of these provisions would be a crime, the bill would impose a state-mandated local program.

The bill would also set forth legislative findings and declarations regarding independent, franchised new motor vehicle dealers.

(2) This bill would incorporate changes to Section 11713.3 of the Vehicle Code made by AB 1912 if both this bill and AB 1912 are chaptered and this bill is chaptered last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 790 (SB 1832) Chesbro. Forest legacy program.

Existing law contains a finding and declaration by the Legislature that the forest resources and timberlands of the state are among the most valuable of the natural resources of the state and that there is great concern throughout the state relating to their utilization, restoration, and protection.

This bill would enact the California Forest Legacy Program Act of 2000, pursuant to which the California Forest Legacy Program would be established to conserve private forest lands. The bill would permit the Department of Forestry and Fire Protection to acquire conservation easements of eligible properties according to criteria contained in the bill. The bill would also permit federal and state agencies, local governments, and nonprofit land trust organizations to hold conservation easements acquired pursuant to the program. The provisions of the bill would be repealed on January 1, 2007, unless a later enacted statute deletes or extends that date.

Ch. 791 (AB 1703) Florez. High-speed rail service.

(1) Existing law establishes the High-Speed Rail Authority with specified membership appointed by the Governor, the Senate Committee on Rules, and the Speaker of the Assembly. Existing law requires the authority to, among other things, direct the development and implementation of intercity high-speed rail service that is fully integrated with the state's existing intercity rail and bus network. Existing law provides for the termination of the

authority on June 30, 2001, unless a specified financial plan is approved by the Legislature or the voters.

This bill would extend the termination date of the authority until December 31, 2003, unless the Legislature repeals those provisions or provides for a different termination date and would provide for the expiration of the terms of the members of the authority, as prescribed.

(2) Existing law requires the authority to prepare a plan for the construction and operation of a high-speed train network and to submit the plan to either the Legislature and the Governor for approval by the enactment of a statute or to the voters for approval. The authorization and responsibility for planning, construction, and operation of high-speed passenger train service at speeds exceeding 100 miles per hour is exclusively granted to the authority.

This bill would continue the authority to prepare the plan only upon an appropriation in the Budget Act for that purpose, and would limit the submission of the plan to the Legislature and the Governor.

This bill would increase the speed described above from 100 miles per hour to 125 miles per hour.

Ch. 792 (AB 2599) Cardenas. Cervical Cancer Community Awareness Campaign.

Under existing law, the State Department of Health Services is responsible for the administration and oversight of various programs for the prevention and treatment of diseases.

This bill would require the department to conduct the Cervical Cancer Community Awareness Campaign with specified objectives, including the study of and research regarding cervical cancer in relation to women in the state. The bill would require the department to adopt regulations to implement the Cervical Cancer Community Awareness Campaign. However, the bill would specify that the campaign shall not be implemented unless and until funds are appropriated for that purpose in the annual Budget Act.

Existing law provides for the Cancer Research Fund, from which funds are available upon appropriation by the Legislature, for various cancer research programs.

This bill would establish the Cervical Cancer Fund in the State Treasury to be expended by the department upon appropriation by the Legislature for the Cervical Cancer Community Awareness Campaign required under the bill.

Ch. 793 (AB 1873) Wiggins. School-to-career opportunities.¹⁶

Existing law provides for the allocation of certain federal Job Training Partnership Act funds to the Superintendent of Public Instruction for distribution to school districts, county offices of education, community college districts, and other entities for adult education, regional occupational programs, and other related programs serving welfare recipients, as specified. Existing law requires the Superintendent of Public Instruction to use 30% of certain funds available under the federal Job Training Partnership Act to support the work-based learning component of a school-to-career program.

This bill would make legislative findings and declarations regarding the importance of preparing pupils for an economy that demands strong academic and career skills. The bill would create the Interagency Partnership for School-to-Career Programs as a formal collaboration among the Secretary for Education, the State Department of Education, the Chancellor's Office of the California Community Colleges and the Health and Human Services Agency, for the purpose of administering a grant program to local entities who meet certain requirements.

The bill would appropriate \$5,000,000 from the General Fund to the Office of the Secretary for Education for the purposes of those provisions. To the extent that funds appropriated by this bill are allocated to a school district or a community college district, those funds would be applied toward the minimum funding requirements for school districts

NOTE: Superior numbers appear as a separate section at the end of the digests.

and community college districts imposed by Section 8 of Article XVI of the California Constitution.

Ch. 794 (SB 269) Ortiz. Local public health administration: state aid.¹⁷

Under existing law, state aid is provided to local health departments for purposes of public health administration, including for communicable disease control and community and public health surveillance activities. Under existing law, allocation of these funds is made to the administrative bodies of qualifying local health jurisdictions described as public health administrative organizations, and includes a basic allotment of \$100,000 per local health jurisdiction or \$0.212426630 per capita, whichever is greater.

This bill would enact the “Public Health Improvement Act of 1999,” which would make the allocation of these funds subject to the availability of funds in the annual Budget Act or some other act, appropriate \$4,935,000 from the General Fund for this purpose, provide for a specified allocation of the funds appropriated, and would state related legislative intent.

Ch. 795 (SB 962) Escutia. Public assistance payments by direct deposit.

Existing law requires the State Department of Social Services to provide for the delivery of public assistance payments.

Existing law specifies that any person entitled to the receipt of public assistance payments may authorize payment to be directly deposited by electronic funds transfer into that person’s account in a financial institution, and requires each county treasurer to make an agreement with one or more financial institutions participating in the Automated Clearing House pursuant to the local rules, and to establish a program for the direct deposit by electronic funds transfer of payments to any person entitled to public assistance benefits and who authorizes the direct deposit of funds into the person’s account in a financial institution.

Existing law limits that requirement to counties in which the board of supervisors has adopted a resolution to implement an electronically based system for delivering public assistance payments.

This bill would impose that requirement upon each county that offers a program for direct deposit by electronic funds transfer to its employees. By imposing the requirement of providing benefits through electronic funds transfer to those counties, this bill would result in a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 796 (AB 556) Davis. Drugs and devices: conformity to federal law.

Existing law, the Sherman Food, Drug, and Cosmetic Law, contains provisions regarding the designation, labeling, and advertisement of drugs and devices, as defined, for sale in the state. Under existing law, a violation of any of these provisions is punishable as a misdemeanor.

This bill would conform these provisions to the federal Food and Drug Administration Modernization Act of 1997 with regard to the regulation of products subject to the federal Food and Drug Administration jurisdiction.

Since a violation of the provisions applicable to the sale of drugs and devices is a crime, this bill would impose a state-mandated local program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 797 (AB 1846) Lowenthal. Senior housing.

Existing law contains various provisions that require building standards and accessibility guidelines to ensure that public buildings and accommodations are open and available to persons with disabilities.

Existing law requires the California Department of Aging, among other things, to administer the Mello-Granlund Older Californians Act which establishes various programs that serve older individuals, including aging information and education programs.

This bill would establish the Senior Housing Information and Support Center within the department, for the purpose of providing information and training relating to specified subjects, including housing options and home modification alternatives designed to support independent living, and available innovative resources and senior services.

This bill would also require the department, in consultation with the California Commission on Aging, to enter into a contract with an entity for the development of information and materials relating to the concept of "aging in place" and the benefits of home modification for seniors.

This bill would require the department to distribute these materials to area agencies on aging and other appropriate entities.

This bill would provide that implementation of the bill would be subject to appropriations contained in the Budget Act.

Ch. 798 (AB 1941) Strom-Martin. Palm Drive Health Care District.

Existing law, the Local Health Care District Law, authorizes the board of directors of a local health care district to issue revenue bonds pursuant to the Revenue Bond Law of 1941, but limits the amount of those bonds to 50% of the average of the district's gross revenues for the preceding 3 years.

This bill would instead authorize the Board of Directors of the Palm Drive Health Care District, on or before January 1, 2004, by resolution adopted by a vote of $\frac{4}{5}$ of the membership of the board, to issue bonds of not more than a maximum of 50% of the average of the Palm Drive Hospital's gross revenues for the 1997-98, 1998-99, and 1999-2000 fiscal years, pursuant to the Revenue Bond Law of 1941, to provide funds for the acquisition, construction, improvement, financing, or refinancing of enterprises.

The bill would also require a district that leases or transfers its assets to a corporation in accordance with specified provisions to act as an advocate for the community to the operating corporation, and to annually report to the community on the progress made in meeting the community's health needs.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 799 (AB 2037) Corbett. Children: alcohol or drug exposed or HIV positive.

Existing law requires the State Department of Social Services to conduct a demonstration project to provide certain services to children who are alcohol or drug exposed, as defined, or who are human immunodeficiency virus (HIV) positive, as defined. To be eligible to receive services under the project, a child has to be aged newborn to 36 months.

This bill would increase the age of eligibility to 60 months if funds are available within the existing appropriation for counties maintaining a program for a minimum of 3 years, or, for other counties, if funds for this purpose are available through the California Children and Families Program.

Ch. 800 (AB 2080) Granlund. Medi-Cal: long-term care services.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

Existing law provides that when a patient in a nursing facility who is on non-Medi-Cal status converts to Medi-Cal coverage, any security deposit paid to the facility by the patient or on his or her behalf, as a condition of admission to the facility, shall be returned and the obligations and responsibilities of the patient or responsible party shall be null and void.

This bill would, instead, designate a patient as a resident, and would provide that these obligations shall, during the time period the resident is covered by the Medi-Cal program, be limited to the obligations and responsibilities provided for under the Medi-Cal program.

Existing law also permits a facility to require, as a condition of admission, that where the patient has an agent, the agent sign or cosign the admissions agreement and agree to distribute to the facility, promptly when due, the share of cost and any other charges not paid for by the Medi-Cal program which the patient and his or her agent has agreed to pay.

This bill would require a resident and his or her agent to pay a facility the share of cost for which the resident is responsible under the Medi-Cal program.

The bill would authorize the resident or agent to apply for a hearing, if the resident or agent disputes the amount of share of cost owed to a facility.

Existing law provides that the amount of the agent's financial obligation under these provisions is limited to the amount of the funds received but not distributed to the facility.

This bill would provide an exception to this provision.

Existing law provides that any agent who willfully violates the above-described provisions is guilty of a misdemeanor.

Because the bill would change the definition of a crime, the bill would constitute a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 801 (AB 2276) Cedillo. Health facilities.

Existing law provides for the regulation of nonprofit public benefit corporations.

This bill would require the Attorney General to prepare a plan for an evaluation of whether additional standards for charitable care and community benefits should be established for private, not-for-profit corporations that operate or control a general acute care hospital, as defined. The Attorney General would be required to submit the plan to the appropriate committees of the Legislature by March 1, 2001.

Existing law, the Cedillo-Alarcon Community Clinic Investment Act of 2000, which will take effect on January 1, 2001, authorizes the California Health Facilities Financing Authority to award grants to any eligible participating primary care clinic for purposes of financing capital outlay projects and requires the authority to develop selection criteria and a process for awarding these grants.

This bill would authorize the authority to adopt emergency regulations to implement that act.

Ch. 802 (AB 2394) Firebaugh. Healing arts: cultural and linguistic competency.

Existing law includes provisions generally applying to the licensure and certification of all healing arts practitioners.

This bill would establish the Task Force on Culturally and Linguistically Competent Physicians and Dentists, chaired by the State Director of Health Services and the Director of Consumer Affairs, and would specify the task force's duties, including, among other things, developing recommendations for a continuing education program that includes language proficiency standards of a foreign language to meet linguistic competency, and identifying

the key cultural elements necessary to meet cultural competency, and reporting to the Legislature and to licensing boards within 2 years of its establishment.

This bill would establish a subcommittee of the task force and would require the subcommittee to submit a report to the task force by March 1, 2001, to be forwarded to the Legislature with any additional comments by April 1, 2001, on the feasibility of establishing a pilot program that would allow Mexican and Caribbean licensed physicians and dentists to practice in nonprofit community health centers in California's medically underserved communities. This bill would specify that the Medical Board of California and the Dental Board of California shall pay the state administrative costs associated with the task force and its subcommittee.

Ch. 803 (AB 2427) Kuehl. Genetic diseases: genetic screening.

The Hereditary Disorders Act requires the State Department of Health Services to establish a program to provide genetic screening services. The department is required to charge a fee and deposit the fee into the Genetic Disease Testing Fund, which is continuously appropriated for certain purposes.

This bill would provide that fees would be established and adjusted by the Director of Health Services. This bill would expand the purposes for which the moneys in the fund may be expended, thereby making an appropriation. This bill would also state the Legislature's findings regarding the maintenance of genetic screening programs.

Existing law requires the department to establish a program for genetic disease testing and authorizes the department to provide facilities to and contract with qualified laboratories. Existing law requires the department to charge a fee for additional screening and lists the additional genetic conditions that may be tested for under the program.

This bill would instead require the department to establish a program for the development and evaluation of genetic disease testing. It would permit the department to charge a fee for developmental screening and would delete the list of genetic conditions that may be tested for under the program.

Existing law requires the department to report to the Legislature regarding program progress by June 30, 2000.

This bill would require the department to report to the Legislature on or before January 1, 2002. This bill would also appropriate \$3,900,000 to the department from the Genetic Disease Testing Fund to fund the cost of the trial of the program and a followup report.

Ch. 804 (AB 2668) Battin. Medi-Cal: long-term care services: persons with developmental disabilities.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which basic health care services are provided to qualified low-income services. Among those services covered under the Medi-Cal program are services provided in long-term health care facilities.

This bill would provide for coverage of services provided to individuals with developmental disabilities residing in certain types of long-term health care facilities.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 805 (SB 1865) Perata. Air pollution: civil and criminal penalties.

(1) Existing law requires the State Air Resources Board, air pollution control districts, and air quality management districts to adopt regulations for classifying and enforcing minor violations, and required the state board to report to the Legislature, on or before January 1, 2000, on the implementation of the regulations. Existing law also provides for the repeal of these provisions on January 1, 2001.

This bill would extend the date for repeal of those provisions to January 1, 2006, and would require a report to the Legislature on actions taken by the state board on or before January 1, 2005. The bill would impose a state-mandated local program by requiring air

pollution control districts and air quality management districts to submit information to the state board for purposes of that report.

(2) Existing law provides that any person who emits an air contaminant that causes actual injury, detriment, nuisance, or annoyance to a considerable number of people is guilty of a misdemeanor and subject to a fine, imprisonment, and a civil penalty.

This bill would increase the fine and the maximum time for imprisonment for a violation that causes actual injury.

(3) Existing law provides that any person who negligently emits an air contaminant in violation of any rule, regulation, permit, or order of the state board or a district pertaining to emissions, to be subject to a fine, imprisonment, and a civil penalty.

This bill would increase the maximum fine.

This bill would also provide that any person who negligently emits an air contaminant that causes injury, detriment, nuisance, or annoyance to a considerable number of persons that also causes great bodily injury, as defined, to, or death of, any person is guilty of a misdemeanor and subject to a fine, imprisonment, and a civil penalty.

(4) Existing law provides that any person who emits an air contaminant in violation of any rule, regulation, permit, or order of the state board or a district pertaining to emissions, and who knew of the emission and failed to correct the violation within a reasonable period of time is subject to a fine, imprisonment, and a civil penalty.

This bill would increase the maximum fine and penalty.

This bill would also provide that any person who owns or operates any source of an air contaminant that causes injury, detriment, nuisance, or annoyance to a considerable number of persons that also causes great bodily injury, as defined, to, or death of, any person and who knew of the emission and failed to take corrective action within a reasonable time is guilty of a misdemeanor and subject to a specified fine and penalty.

(5) Existing law provides that any person who willfully and intentionally emits an air contaminant in violation of any rule, regulation, permit, or order of the state board or a district pertaining to emissions is subject to a specified fine, imprisonment, and penalty.

This bill would expand that provision to include any person who willfully and intentionally or with reckless disregard for the risk of great bodily injury or death, emits an air contaminant that results in great bodily injury or death. This bill would also increase the maximum allowable fine and civil penalty. The bill would also provide that any person who emits an air contaminant that causes injury, detriment, nuisance, or annoyance to a considerable number of persons, that results in any unreasonable risk of, or that causes great bodily injury to, or death of, any person, and who does so willfully, intentionally, or with reckless disregard for the risk is guilty of a misdemeanor and subject to a specified fine and penalty.

This bill would also provide for a higher maximum allowable penalty for corporate violators.

(6) Existing law provides that the recovery of a civil penalty for an air quality violation precludes criminal prosecution, and that the filing of a criminal complaint requires the dismissal of any civil action for the same offense.

This bill would exempt from that requirement any portion of a civil action requesting injunctive relief.

(7) Existing law provides specified circumstances for a court to consider in determining the amount of civil penalty to assess a violator of specified air pollution provisions.

This bill would require that a court consider the same circumstances when considering the amount of criminal fine to impose on a violator of specified air pollution provisions.

(8) Existing law provides that any person who knowingly, and with intent to deceive, falsifies any document required to be kept pursuant to any rule, regulation, permit, or order of the state board or a district pertaining to emissions is subject to a civil penalty.

This bill would increase the maximum allowable civil penalty, and would provide that the person is guilty of a misdemeanor and subject to a fine and imprisonment.

This bill would create additional crimes and would expand the scope of existing crimes, thereby imposing state-mandated local programs.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 806 (SB 1970) Costa. Economic poisons: regulation.

(1) Existing law provides for presentation of evidence to the Director of the Department of Food and Agriculture, for purposes of convening a hearing by a trial board in regard to the neglect, incompetence, or misconduct in office of a county agricultural commissioner, as specified.

This bill would, instead, authorize presentation of the evidence to the Secretary of Food and Agriculture or the Director of the Department of Pesticide Regulation, for the above-specified conduct. The secretary would be authorized to convene the trial board when the alleged offenses come under the jurisdiction of the Department of Food and Agriculture and the director would convene the trial board when the alleged offenses come under the jurisdiction of the Department of Pesticide Regulation.

(2) Existing law provides that, except as provided, the director may, after investigation and hearing, adopt regulations to govern the possession, sale, or use of any pesticide which the director finds necessary, as specified.

This bill would revise procedures relating to adopting regulations.

(3) Existing law authorizes the levy of civil penalties for specified violations and provides the person charged with a violation with the opportunity to review the director's evidence and present evidence on his or her behalf at the hearing.

This bill would revise this procedure by authorizing the person to review the evidence prior to the hearing.

(4) Existing law provides for the levying of civil penalties for specified violations regarding pesticides. Those penalties are imposed by a county agricultural commissioner after a hearing by that commissioner.

This bill would provide that it is unlawful to refuse or neglect to pay a civil penalty levied as described above.

Additionally, this bill would authorize the director to initiate and maintain enforcement actions for violations committed in multiple jurisdictions or in other specified cases, or to refer those violations to the district attorney or the Attorney General. In cases where the director takes enforcement action, the director would be authorized to impose a fine up to \$5,000 for each violation after a noticed hearing. Procedures for judicial review of the director's decision would also be provided. The director's authority under these provisions would only apply prospectively to violations occurring on or after January 1, 2001, and would only remain in effect until January 1, 2006, unless a later enacted statute deletes or extends that date.

(5) Existing law provides for the refusal, revocation, or suspension of a permit regarding the use of pesticides for specified violations.

This bill would, in addition, provide for the refusal, revocation, or suspension of a permit regarding the use of pesticides, as specified, for the failure to pay a civil penalty or comply with a final, lawful order from an agricultural commissioner.

Ch. 807 (SB 2165) Sher. Waste discharge requirements.

(1) The Porter-Cologne Water Quality Control Act prescribes certain civil penalties, including specified mandatory minimum penalties, for violations of specified waste discharge requirements set forth in that act or the Clean Water Act.

This bill would revise these provisions. The bill would prescribe circumstances under which the mandatory minimum penalty requirements would not apply. Certain exceptions would remain in effect only until January 1, 2002. The bill would require the assessment of a mandatory minimum penalty of \$3,000 for the first serious violation, as defined, and each additional serious violation in any period of 6 consecutive months, as defined, except that if no serious violation has occurred in the prior 6 months, the bill would authorize the State Water Resources Control Board or a regional water quality control board, in lieu of assessing the penalty applicable to the first serious violation, to require the discharger to spend an amount equal to the penalty for a supplemental environmental project or to develop a pollution prevention plan.

The bill would also require the assessment of a mandatory minimum penalty of \$3,000 for 4 or more violations of prescribed waste discharge requirements that occur in any period of 6 consecutive months, except as specified.

(2) The act authorizes the state board, a regional board, or a publicly owned treatment works to require a discharger to complete and implement a pollution prevention plan if certain requirements are met.

This bill would extend that authority to those public entities if a discharger is subject to a cease and desist order or a time schedule order.

Ch. 808 (AB 1358) Shelley. Child support enforcement.

Existing law, as revised in 1999, provides for the implementation and administration of procedures for the enforcement of child support obligations and sets forth the duties and functions of specified state and local entities for this purpose.

Existing law requires each county to maintain a local child support agency for the purpose of establishing, modifying, and enforcing child support obligations. Existing law provides for the transfer of child support collection duties from the district attorney to the local child support agency by January 1, 2003.

This bill would make conforming changes to provisions governing the entities authorized to enforce the collection of child support by deleting references to the district attorney and instead adding references to the local child support agency. The bill would make technical changes. The bill would also require local child support agencies to delete specified criminal history information from a file when the agency closes a child support enforcement case. By imposing additional duties on local employees, the bill would impose a state-mandated local program.

Existing law requires a court, when ordering a party to pay an amount for support or modifying an order thereof, to include an earnings assignment order for support requiring the employer of the obligor to pay the obligee that portion of the obligor's earning due the obligee.

This bill would provide that an earnings assignment for support would be issued, and would be effective and enforceable, notwithstanding the absence of the name, address, or other identifying information regarding the obligor's employer.

Existing law prohibits the release of information, including the disclosure of the whereabouts of one party or the child to another party, or to the attorney of any other party, if a protective order has been issued by a court or administrative agency, a good cause claim has been approved or is pending, or the public agency responsible for establishing paternity or enforcing support has reason to believe that the release of the information may result in physical or emotional harm to the party or the child.

This bill would require, when a local child support agency is prohibited from releasing information for the reasons stated above, that the information be omitted from any pleading

or document to be submitted to the court. The bill would provide for the release of this information only upon an order of the court.

Existing law requires each county to maintain a local child support agency that is responsible for establishing, modifying, and enforcing support obligations.

This bill would authorize attorneys employed within the local child support agency to direct, control, and prosecute civil actions and proceedings in the name of the county in support of child support activities on behalf of the Department of Child Support Services and the local agency.

Under existing law, after a support order, including a temporary support order and an order for medical support only, has been entered in an action, the parent who requested or who is receiving support enforcement services of the local child support agency becomes a party to the action.

This bill would require the local child support agency, once both parents are parties to an action in cases where Title IV-D services are currently being provided, to mail the nonmoving party in the action, within 5 days of receipt, all pleadings relating solely to the support issue in the action that have been served on the local child support agency by the moving party. The bill would create a rebuttable presumption that service upon the child support agency constitutes valid service on the moving party, and where this procedure is used to effectuate service on the nonmoving party, the pleadings shall be served on the local child support agency 30 days prior to the hearing.

Existing law requires the local child support agency or the Attorney General to provide written notice to recipients of child support enforcement services of the initial date and time, and purpose of every hearing in a civil action for paternity or support.

This bill would require, once the parent who has requested or who is receiving support enforcement services becomes a party to the action, the local child support agency or Attorney General to serve on a parent all pleadings relating to support that have been served on the local child support agency by the other parent and for the pleading to be accompanied by a notice.

The bill would also provide that, commencing July 1, 2000, the Department of Child Support Services shall pay only those county claims for federal or state reimbursement which are filed with the department within 9 months of the end of the calendar quarter in which the costs are paid, except as specified.

This bill would incorporate additional changes in Section 699.510 of the Code of Civil Procedure proposed by AB 2405, to be operative if this bill and AB 2405 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 3751.5 of the Family Code proposed by AB 2130, to be operative if this bill and AB 2130 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 11552 of the Government Code proposed by SB 150, to be operative if this bill and SB 150 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 12419.3 of the Government Code proposed by AB 2906, to be operative if this bill and AB 2906 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 26746 of the Government Code proposed by AB 1768, to be operative if this bill and AB 1768 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 11105 of the Penal Code proposed by SB 2161, to be operative if this bill and SB 2161 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 13300 of the Penal Code proposed by SB 2161, to be operative if this bill and SB 2161 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 809 (AB 2130) Corbett. Family health insurance coverage.

Existing law requires an insurer, in any case in which health insurance is provided to a child pursuant to a court or administrative order, to provide information about the coverage to both parents or the person having custody of the child and to the district attorney upon request, as specified.

This bill would require the insurer to include in that information the health insurance membership or identification card regarding the child, the evidence of coverage and disclosure form, and any other information provided to the covered parent about the child's health care coverage to the noncovered parent having custody of the child or any other person having custody of the child and the district attorney upon request. The bill would require the insurer upon being provided one of several specified documents, to notify in writing the covered parent and the noncovered parent or person having custody of the child any time the child's health care coverage is terminated. The bill would require an insurer to provide the noncovered parent or person having custody of the child information about the health insurance coverage for the child when the noncovered parent or person having custody of the child requests the information either by telephone or in writing.

Ch. 810 (SB 265) Speier. Health care coverage: federally eligible defined individuals.

Existing law provides for the licensure and regulation of health care service plans by the Department of Managed Care, and provides that a willful violation of these provisions is a crime. Existing law also provides for the licensure and regulation of disability insurers by the Department of Insurance.

This bill would prohibit a health care service plan or disability insurer providing coverage under an individual plan contract or individual insurer benefit plan from declining to offer coverage to, or denying enrollment of, a federally eligible defined individual, or imposing any preexisting condition exclusion with respect to the coverage. This bill would require each plan and insurer to fairly and affirmatively offer, market, and sell to federally eligible defined individuals certain plan contracts and benefit plans that are sold to individuals or to associations that include individuals in each service area served by the plan or insurer.

The bill would impose various requirements relating to coverage required to be offered to federally eligible defined individuals and to associated premiums.

Because a willful violation of the bill's requirements with respect to health care service plans would be a crime, this bill would impose a state-mandated local program by expanding the definition of a crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 811 (SB 745) Escutia. Mental health: contracts: disputes.

Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Services, pursuant to which medical benefits are provided to public

assistance recipients and certain other low-income persons. Existing law further provides that the State Department of Mental Health shall implement managed mental health care for Medi-Cal beneficiaries through fee-for-service or capitated rate contracts with mental health plans.

This bill would require the State Department of Mental Health to require any mental health plan that provides Medi-Cal services to enter into a memorandum of understanding containing specified requirements with any Medi-Cal managed care plan that provides Medi-Cal health services to some of the same Medi-Cal recipients served by the mental health plan.

The bill would require the establishment of a procedure to ensure access to outpatient mental health services, as required by the Early Periodic Screening and Diagnostic Treatment program standards, for any child in foster care who has been placed outside his or her county of adjudication. The imposition of these requirements on counties of adjudication would create a state-mandated local program.

This bill would further require the State Department of Health Services to ensure that coverage is provided for necessary prescription medications and related medically necessary medical services that are prescribed by a local mental health plan provider, and that are within the Medi-Cal scope of benefits, but are excluded from coverage under the above-described requirements applicable to the State Department of Mental Health.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 812 (SB 898) Dunn. Long-term care renewal provisions.

Existing law provides that every individual long-term care insurance policy shall contain a renewal provision that is either guaranteed renewable or noncancelable.

This bill would also require group long-term care policies and certificates to be either guaranteed renewable or noncancelable.

This bill would require approval of the Insurance Commissioner before individual or group long-term care insurance may be offered, sold, issued, or delivered in this state, and would specify the duties of insurers and the commissioner in this regard. This bill would limit premium increases for these policies, as specified. The bill would enact other related provisions. These provisions would apply to policies and certificates issued on or after July 1, 2002, as specified.

This bill would also require premium rate schedules and new policy forms to be filed with the commissioner by January 1, 2002, for all group long-term care policies to be sold on or after January 1, 2003, and for all previously approved individual long-term care policies to be sold on or after January 1, 2003, unless the deadline is extended by the commissioner.

Ch. 813 (SB 1742) Hughes. Adult abuse.

Existing law provides for misdemeanor and felony sanctions, including imprisonment and fines, for offenses involving the abuse of an elder or dependent adult, depending upon the circumstances.

Existing law provides for various procedures for the protection of elders and dependent adults by the public guardian and by programs implemented by the State Department of Social Services.

Existing law authorizes a public guardian who is authorized to take possession or control of property to issue a written certification to that effect, and would require a financial

institution or other person to provide the public guardian with information concerning property of a proposed ward or conservatee and surrender property of that person to the public guardian that is subject to loss, injury, waste, or misappropriation.

This bill would authorize certain peace officers to issue a declaration that an elder person, as defined, is substantially unable to manage his or her financial resources or to resist fraud or undue influence, there exists a significant danger that the elder person will lose all or a portion of his or her property as a result of fraud or misrepresentation or the mental incapacity of the elder person, there is probable cause to believe a crime is being committed against that person, the crime is connected to his or her inability to manage his or her financial resources or to resist fraud or undue influence, and he or she suffers from that inability as a result of deficits in one or more mental functions. Upon receipt of the declaration, the public guardian would be authorized to rely on the information contained in the declaration to take immediate possession and control of the property of the elder person. The bill would authorize the public guardian to issue a certification of that fact, which certification would require financial institutions and other persons to submit information about, and possession of, property of the victim. This bill would also establish a process whereby a person identified as a victim in a declaration may bring an ex parte petition in the superior court for an order quashing the certification.

The bill would also require the public guardian to seek individuals to manage the estate of the elder person, under certain circumstances and in accordance with specified criteria.

Ch. 814 (SB 1748) Perata. Mental health services programs.

Existing law requires the State Department of Mental Health to administer various mental health programs.

This bill would specify the representatives of the task force funded by the Budget Act of 2000 to address and identify options for meeting the staffing needs of state and county health, human services, and criminal justice agencies, and would require the task force, among other things, to study the shortage of mental health workers in publicly funded mental health services and develop recommendations for expansion of their services, including the establishment of regional training centers that would perform prescribed functions. It would require the department to provide staffing for the task force and would also require the task force to issue a progress report to the Legislature on its findings on or before May 1, 2001, and to issue a final report to the Legislature on or before May 1, 2002.

The bill would require the department to establish a grant program for students in California colleges and universities that offer graduate school programs leading to certain degrees in order to attract students into employment in publicly funded mental health services. It would also require the department to offer forgivable loans to current full-time employees of counties and to full-time employees of nonprofit agencies whose services are funded primarily through county mental health contracts and who meet other specified criteria.

Ch. 815 (SB 1807) Vasconcellos. Addiction: treatment.

Existing law provides that it is the policy of the state to encourage each county and city and county to make use, whenever applicable, of testing procedures to determine addiction to controlled substances or the absence thereof, and to foster research in means of detecting the existence of addiction to controlled substances and in medical methods and procedures for that purpose.

This bill would, in addition, make a legislative finding and declaration that licensed physicians, experienced in the treatment of addiction, should be allowed and encouraged to treat addiction by all appropriate means.

Under existing law, the State Department of Alcohol and Drug Programs is responsible for licensing narcotic treatment programs to use replacement narcotic therapy in the treatment of addicted persons whose addiction was acquired or supported by the use of a narcotic drug

or drugs, not in compliance with a physician and surgeon's legal prescription. The department is authorized to license narcotic treatment programs on an inpatient or outpatient basis, or both.

This bill would require the department to establish a program for the operation and regulation of office-based opiate treatment programs that would either be affiliated and associated with a primary licensed narcotic treatment program or hold a primary narcotics treatment program license.

Existing law authorizes the court to defer the entry of judgment of defendants who plead guilty to certain drug offenses and to dismiss the criminal charges if the defendant successfully completes a deferred entry of judgment program. Existing law also authorizes the court to suspend criminal proceedings without a guilty plea for designated defendants under a preguilty plea drug court program.

Existing law requires that all referrals for deferred entry of judgment granted by the court be only to programs certified by the county drug program administrator.

This bill would authorize any person who is participating in a deferred entry of judgment program or a preguilty plea program to also participate in a licensed methadone or levoalphacetylmethadol (LAAM) program if certain conditions are met.

Ch. 816 (SB 1875) Speier. Health facilities and clinics: medication-related errors.

Existing law generally regulates the licensure of health facilities and clinics, as defined, and prescribes the duties of the State Department of Health Services in this regard. Under existing law, any person who violates provisions regulating health facilities, or who willfully or repeatedly violates any rule or regulation adopted thereunder is guilty of a misdemeanor.

This bill would make it a condition of licensure that these facilities, with certain exceptions, implement a formal plan, on or before January 1, 2005, to eliminate or substantially reduce medication-related errors in the facility.

Since a violation of the provisions applicable to health facilities is a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 817 (SB 1896) Ortiz. Community care facilities: small family homes.

Existing law provides for the licensure and regulation of community care facilities, residential care facilities for persons with chronic life-threatening illness, and residential care facilities for the elderly by the State Department of Social Services.

Existing law requires the State Fire Marshal to enforce all laws and ordinances, any rules and regulations adopted under the Health and Safety Code, and building standards adopted by the State Fire Marshal and published in the State Building Standards Code relating to fire prevention and protection.

This bill would require the department and the Office of the State Fire Marshal each, in consultation with the State Department of Developmental Services, to promulgate departmental regulations consistent with the regulatory requirements of the California Building Standards Code for fire and life safety for the respective occupancy classifications into which the State Department of Social Services' community care licensing classifications fall.

The bill would prohibit the imposition by a local fire official of fire safety requirements stricter than specified state and local requirements, with respect to facilities that care for 6 or fewer clients.

Existing law prohibits a residential care facility for the elderly from admitting or retaining a resident who is bedridden, other than for a temporary illness or for recovery from surgery. Bedridden is defined for purposes of this provision.

This bill would provide that a bedridden person may be admitted to, and remain in, residential care facilities for the elderly that secure and maintain an appropriate fire clearance and would require that a fire clearance be issued to a facility in which a bedridden person resides if the fire safety requirements are met or alternative methods of protection are approved. The bill would revise the definition of bedridden.

The bill also would define bedridden for purposes of the regulation of community care facilities and residential care facilities for persons with chronic life-threatening illness and would provide a similar authorization for bedridden persons to be admitted to and remain in these facilities.

Ch. 818 (SB 1932) Solis. Taxpayer contributions: California Lung Disease and Asthma Research Fund.

Provisions relating to the administration of personal income taxes allow individual taxpayers to contribute amounts in excess of their tax liability for the support of specified funds.

This bill would additionally allow taxpayers to designate on their tax returns that a specified amount in excess of their tax liability be transferred to the California Lung Disease and Asthma Research Fund, which would be created by this bill. However, the bill would provide that a voluntary contribution designation for this fund shall not be added on the tax return until another voluntary contribution designation is removed.

This bill would provide that all money contributed to the fund pursuant to these provisions would be subject to appropriation by the Legislature, as specified.

This bill would also provide that these voluntary contribution provisions are repealed on January 1 of the fifth taxable year following the taxable year the fund first appears on the tax return. The provisions are repealed for taxable years beginning on or after January 1 of the calendar year in which the Franchise Tax Board estimates by September 1 that the contributions made on returns filed in that calendar year will be less than \$250,000, and an adjusted amount for subsequent taxable years.

Ch. 819 (SB 1992) Chesbro. Care facilities.

Existing law provides for the licensure and regulation of community care facilities, residential care facilities for persons with a chronic, life-threatening illness, residential care facilities for the elderly, and child day care facilities administered by the department. Existing law provides criminal sanctions for a violation of these provisions.

Existing law requires the department or any other approving authority to perform a criminal record check on an applicant for a license or special permit to operate or manage a community care facility, residential care facility for persons with a chronic, life-threatening illness, residential care facility for the elderly, child day care facility, or for a license, special permit, or certificate for a foster family home or certified family home, and on other persons, including nonclients, who reside in these facilities, staff, and employees. Existing law requires that an application be denied, unless an exemption is granted, if it is found that the applicant or any of the other designated persons has been convicted of or arrested for prescribed crimes.

The bill would revise and add to the persons exempt from the criminal record check requirements. The bill would add to the offenses for which an exemption is prohibited and would add to the crimes for which the department is required to immediately terminate, remove, or bar a person from the facility.

Existing law requires the department to cease processing an application for licensure under these provisions if the subject of the criminal record check is awaiting trial for a crime other than a minor traffic violation.

This bill, instead, would authorize, rather than require, the department to cease processing pursuant to this provision.

Existing law specifies procedures for the use of live-scan technology to implement a statewide electronic fingerprinting system that includes live-scan sites at the district offices of the Community Care Licensing Division of the department.

This bill would authorize the department to expand the number of live-scan terminals into offices of other governmental entities and nonprofit organizations.

Existing law also provides for the registration of child care providers.

This bill would make technical, nonsubstantive changes to these provisions.

Ch. 820 (SB 2077) Ortiz. Continuing care contracts: retirement communities: elderly.

Existing law contains provisions relating to supervision of life care contracts, also known as continuing care contracts, including requirements governing continuing care communities and contracts.

This bill would revise and recast these provisions, including changes to the definitions used in these provisions, rights of continuing care community residents, requirements for the obtaining of a certificate of authority for a continuing care community, and continuing care contract requirements.

Existing law creates the Continuing Care Provider Fee Fund, which is continuously appropriated to the State Department of Social Services for purposes of administering continuing care retirement community provisions. The fund consists of fees paid to the department pursuant to these provisions.

This bill would make various changes in provisions relating to the establishment of fees, including requirements pertaining to the establishment of fees for changes in continuing care provider organizations, thus increasing payments to the fund and thereby constituting an appropriation.

This bill would also establish liquid reserve requirements that providers shall be required to meet, and would authorize the department to increase liquid reserve requirements in certain circumstances. The bill would establish refund reserve requirements for certain providers.

This bill would, until January 1, 2005, establish requirements for the department to implement a trial program, and report to the Legislature, on assessing long-term care provider solvency. The trial program would require each provider to obtain an actuarial study and file it with the department, except under specified circumstances.

Existing continuing care provisions specify that any entity that sells deposit subscriptions that either proposes to promise to provide care without having a current and valid permit to sell these subscriptions or fails to place any consideration into an escrow account is guilty of a misdemeanor.

This bill would provide that these misdemeanors relate to any entity that accepts deposits, rather than any entity that sells deposit subscriptions.

Because the bill would change the definition of a crime, it would constitute a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 821 (SB 1342) Burton. Forensic testing: post conviction.

Existing law authorizes the defendant in a criminal case to file a motion for a new trial upon specified grounds including, but not limited to, the discovery of new evidence that is material to the defendant, and which could not, with reasonable diligence, have been discovered and produced at the trial.

This bill would grant to a defendant who was convicted of a felony and currently serving a term of imprisonment, the right to make a written motion under specified conditions for

the performance of forensic DNA testing. The bill would require that the motion include an explanation of why the applicant's identity was or should have been a significant issue in the case, how the requested DNA testing would raise a reasonable probability that the verdict or sentence would have been more favorable if the DNA testing had been available at the trial resulting in the judgment of conviction, and a reasonable attempt to identify the evidence to be tested and the type of DNA testing sought. The motion would also have to include the results of any previous DNA tests and the court would be required to order the party in possession of those results to provide access to the reports, data and notes prepared in connection with the DNA tests to all parties. The bill would also provide that the cost of DNA testing ordered under this act would be borne by either the state or by the applicant if, in the interests of justice the applicant is not indigent and possesses the ability to pay.

The bill would also require, except as otherwise specified, the appropriate governmental entity to preserve any biological material secured in connection with a criminal case for the period of time that any person remains incarcerated in connection with that case. These provisions would remain in effect until January 1, 2003. By increasing the duties of local officials this bill would impose a state-mandated local program.

Ch. 822 (SB 1818) Speier. DNA data base.

Existing law establishes the DNA and Forensic Identification Data Base and Data Bank and requires the Department of Justice to be responsible for the management and administration of the data base and data bank identification program. The program includes DNA samples for offenders of specified sex offenses and violent felonies.

This bill would require the Department of Justice to develop a DNA data base for all cases involving the report of an unidentified deceased person or a high-risk missing person, as defined, and to match and compare samples of recovered unidentified deceased persons with those of reported missing persons. The data base would be comprised of DNA data from genetic markers that are appropriate solely for human identification but have no capability to predict biological function. The department would be required to compare DNA samples taken from the remains of unidentified deceased persons with DNA samples taken from the parents or appropriate relatives of high-risk missing persons, and then to return the evidence to the local coroner after taking a sample of the remains for DNA analysis.

The bill would require the responsible investigating law enforcement agency to inform the parents or other appropriate relatives that they may give a voluntary sample for DNA testing and may collect a DNA sample from a personal article of the missing person if available. The investigating agency may not wait any longer than 30 days after a report is made of a missing person under high-risk circumstances to inform the parents or relatives of their right to give a sample. All samples and DNA extracted from a living person would be required to be destroyed after a positive identification is made and a report issued. The bill would make all DNA samples confidential and would authorize disclosure only to specified persons for the purpose of investigating and prosecuting crime. The bill would impose a \$2 fee increase on death certificates issued by local government agencies or the state to fund the "Missing Persons DNA Data Base," to remain in effect until January 1, 2006, or until federal funding for the operation of the data base becomes available before that date. The bill would provide that the provisions of the bill relating to funding would remain in effect only until January 1, 2006, and as of that date would be repealed, unless a later enacted statute, enacted before January 1, 2006, deletes or extends that date. The death certificate fee increase would begin on and the funds would be directed to the Missing Persons DNA Data Base Fund beginning on January 1, 2001. The funding for the first year would be used to develop the data base and laboratory infrastructure and the department's protocols and personnel. The department would be required to begin case analysis in 2002. By increasing the duties of local officials, this bill would impose a state-mandated local program.

Additionally, this bill would make persons who collect, process or store DNA or samples used for DNA testing, as specified, and who violate the provisions of the bill relating to

disposal or confidentiality, liable to the DNA donor for civil damages of \$5,000 plus attorney's fees and costs. This bill also would make it a misdemeanor for a person who collects, processes, or stores DNA or samples used for DNA testing to violate the disposal and confidentiality requirements, punishable by imprisonment in a county jail. By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 823 (AB 2814) Machado. DNA testing.

(1) Existing law requires persons convicted of specified offenses to provide 2 specimens of blood, a saliva sample, and a thumb and palm print impression for law enforcement identification analysis. Included in this group is a person who has been sentenced to death, to imprisonment for life without the possibility of parole, or any life or indeterminate term of imprisonment, and who is confined in a specified facility and has been convicted in California of a specified qualifying offense or a similar crime under the laws of the United States or any other state that would constitute one of the specified qualifying offenses.

This bill would amend the above provision relating to persons confined in a specified facility to include a person who has been adjudicated a ward of the court in California, or a person who has been convicted or had a disposition rendered in any other court, including any state, federal, or military court, of an offense which, if committed or attempted in this state would have been punishable as one of the specified offenses. The bill also would provide that a biological sample taken from a person who has not been convicted, during the course of a criminal investigation, may only be compared to samples taken from that specific investigation unless a court order authorizes a comparison with samples taken during another criminal investigation.

(2) Existing law requires the Department of Justice DNA Laboratory to review its data bank to determine whether it contains DNA profiles from persons who are no longer suspects in a criminal case. Evidence accumulated pursuant to these provisions from any crime scene with respect to a particular person must be stricken from the data bank when it is determined that the person is no longer a suspect.

This bill would require the Department of Justice DNA Laboratory to purge the file of a person who is no longer a suspect in a criminal investigation within 2 years of the date of the filing of the information or indictment or when the laboratory receives notice that the suspect was acquitted or the charges against the suspect were dropped.

The bill would also make all evidence and forensic samples containing biological material retained by the Department of Justice DNA Laboratory exempt from any law requiring disclosure to the public or the return of the specimens.

Ch. 824 (SB 1368) Brulte. Child abandonment: newborns.

Existing law makes it a crime for a parent of a minor child, without lawful excuse, to not furnish necessary clothing, food, shelter, or medical or remedial care for the child, or to refuse, without lawful excuse, to accept the child in his or her home or provide alternate shelter. Existing law also makes it a crime for a parent of a child under the age of 14 years to desert the child with intent to abandon, or for any person to knowingly or willfully

abandon or, having the ability to refuse to do so, fail to maintain his or her child under the age of 14 years.

This bill would provide that no parent or other person having lawful custody of a minor child 72 hours old or younger may be prosecuted for a violation of the above crimes if he or she voluntarily surrenders physical custody of the child to any employee on duty at a public or private hospital emergency room, or any additional location designated by the board of supervisors. The bill would require each such hospital or other designated entity to designate the employees required to take custody of these children.

This bill also would require the employees designated as specified above to take physical custody of a minor 72 hours old or younger if the parent or other person having lawful custody of the child voluntarily surrenders physical custody of the child to that person. The bill would require the person taking physical custody of such a child to provide a medical screening examination and any necessary medical care to the child, and to provide the person surrendering custody a specified medical information questionnaire. The bill would require the person taking physical custody of such a minor to place a coded identification ankle bracelet on the child, and to notify child protective services or the county agency providing child welfare services of that fact as soon as possible but in no event later than 48 hours after taking custody of the child; and would require that agency to assume temporary custody of the child, as specified, and to immediately notify the State Department of Social Services. The bill would authorize a person who surrenders custody to reclaim custody of a child, as specified, from the agency taking custody under the bill within 14 days of the surrender of custody and the filing of a petition to declare the child a dependent child of the juvenile court by means of the coded identification ankle bracelet. The bill would require the filing of a petition to adjudge such a child a dependent child of the court and would provide that such a child qualifies to be adjudged a dependent child of the court on the basis of such a surrender if not reclaimed within 14 days, would authorize the termination of the dependency proceedings under specified circumstances, and would make corresponding changes. The bill would also specify the duty of a hospital when a person who has surrendered custody requests return of the child that is still in the custody of the hospital prior to the filing of such a petition. The bill would require the department to instruct counties as to the process to be used to ensure that each child, physical custody of whom has been voluntarily surrendered, is determined to be eligible for Medi-Cal benefits for a specified period of time.

The bill would specify that no person or entity that accepts a surrendered child shall be subject to civil, criminal, or administrative liability for accepting the child and caring for the child in the good faith belief that action is required or authorized by the bill, including, but not limited to, instances where the child is older than 72 hours or the person surrendering the child did not have lawful physical custody of the child. However, the bill would also specify that it does not confer immunity from liability for personal injury or wrongful death, including, but not limited to, injury resulting from medical malpractice.

The bill would repeal these provisions on January 1, 2006, unless that date is extended or deleted by later enacted legislation. The bill would also require the State Department of Social Services to file specified reports with the Legislature regarding the effect of the bill.

The bill would impose a state-mandated local program by requiring new duties of local public entities and employees.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 825 (SB 1177) Perata. Health care.

The Knox-Keene Health Care Service Plan Act of 1975 provides for the regulation and licensure of health care service plans by the Department of Managed Care and includes provisions pertaining to the payment of provider claims by a health care service plan and to the resolution of claims disputes. Under these provisions, interest at the rate of 10% per annum accrues if an uncontested provider claim is not reimbursed by the plan within a prescribed time period. Under existing law, the director of the department is required to administer and enforce the act and is provided with certain powers in this respect, including the power to conduct investigations affecting the interests of plans, subscribers, enrollees, and the public. The willful violation of the provisions of the Knox-Keene Health Care Service Plan Act of 1975 is a crime.

This bill would prohibit a health care service plan from engaging in an unfair payment pattern, as defined, in its reimbursement of a provider, would authorize the director to investigate a report of this conduct, and would permit a provider to report this conduct to the department. This bill would authorize the director, upon a final determination that a plan has engaged in an unfair payment pattern, to impose sanctions on the plan. This bill would additionally increase the interest rate on an uncontested provider claim that is not paid by the plan within a prescribed time period to 15% per annum and would impose a \$10 charge on a plan that fails to automatically include this interest amount in its payment to a provider.

This bill would require a health care service plan to ensure its dispute resolution mechanism is available to noncontracting providers and to submit an annual report to the Department of Managed Care regarding this mechanism. This bill would additionally require the department, on or before July 1, 2001, to adopt regulations pertaining to the dispute resolution mechanism utilized by health care service plans.

This bill would also provide for a plan to report to the department instances of a provider engaging in an unfair billing pattern. This bill would require the department to make recommendations to the Legislature and Governor by July 1, 2001, regarding a system to respond to unfair billing patterns.

Because this bill would specify additional forms of prohibited conduct under the Knox-Keene Health Service Plan Act of 1975, the violation of which would be punishable as a criminal offense, the bill would create new crimes, and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 826 (SB 2132) Dunn. County health services: tobacco tax.

The Tobacco Tax and Health Protection Act of 1988 (Proposition 99) was adopted by the voters at the general election held on November 8, 1988, imposing a tax on the distribution of cigarettes in addition to the tax imposed pursuant to the Cigarette Tax Law as of the effective date of the adoption of Proposition 99, and imposing a tax on the distribution of certain tobacco products pursuant to a specified formula. Existing law provides for the establishment of the Cigarette and Tobacco Products Surtax Fund, containing certain accounts, including the Hospital Services Account, the Physician Services Account, the Health Education Account, the Research Account, the Public Resources Account, and the Unallocated Account, and requiring that money in those accounts be used for specified purposes.

This bill would appropriate \$24,803,000 from the fund for the 2000–01 fiscal year, and would provide for the allocation of \$22,324,000 of that amount through the California Healthcare for Indigents Program (CHIP) and \$2,479,000 of that amount through the Rural Health Services (RHS) program. The bill would limit the use of those funds to the reimbursement of uncompensated hospital emergency services.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 827 (AB 1455) Scott. Health care service plans.

The Knox-Keene Health Care Service Plan Act of 1975 provides for the regulation and licensure of health care service plans by the Department of Managed Care and includes provisions pertaining to the payment of provider claims by a health care service plan and to the resolution of claims disputes. Under these provisions, interest at the rate of 10% per annum accrues if an uncontested provider claim is not reimbursed by the plan within a prescribed time period. Under existing law, the director of the department is required to administer and enforce the act and is provided with certain powers in this respect, including the power to conduct investigations affecting the interests of plans, subscribers, enrollees, and the public. The willful violation of the provisions of the Knox-Keene Health Care Service Plan Act of 1975 is a crime.

This bill would prohibit a health care service plan from engaging in an unfair payment pattern, as defined, in its reimbursement of a provider and would authorize the director to investigate a report of this conduct, and would permit a provider to report this conduct to the department. This bill would authorize the director, upon a final determination that a plan has engaged in an unfair payment pattern, to impose sanctions on the plan. This bill would additionally increase the interest rate on an uncontested provider claim that is not paid by the plan within a prescribed time period to 15% per annum and would impose a \$10 charge on a plan that fails to automatically include this interest amount in its payment to a provider.

This bill would require a health care service plan to ensure its dispute resolution mechanism is available to noncontracting providers and to submit an annual report to the Department of Managed Care regarding this mechanism. This bill would additionally require the department, on or before July 1, 2001, to adopt regulations pertaining to the dispute resolution mechanism utilized by health care service plans.

This bill would also provide for a plan to report to the department instances of a provider engaging in an unfair billing pattern. This bill would require the department to make recommendations to the Legislature and Governor by July 1, 2001, regarding a system to respond to unfair billing patterns.

Because this bill would specify additional forms of prohibited conduct under the Knox-Keene Health Service Plan Act of 1975, the violation of which would be punishable as a criminal offense, it would create new crimes, and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 828 (AB 2611) Gallegos. Health facilities: emergency services.

Existing law provides for the regulation of hospitals.

This bill would require the Senate Office of Research to conduct a comprehensive study of the hospital emergency room department on-call coverage issue in California, to convene a working group of affected California stakeholders, and to report to the Legislature by January 1, 2002, with recommendations to address the California hospital emergency room on-call issues.

Ch. 829 (AB 2167) Gallegos. Tissue donations.

The Uniform Anatomical Gift Act establishes general requirements and procedures for the donation of body parts.

This bill would establish responsibility for the oversight and implementation of the Uniform Anatomical Gift Act in the State Department of Health Services, and would require the department to adopt regulations for certain related purposes.

Existing law contains provisions relating to the licensing and regulation of tissue banks.

Existing law creates the Tissue Bank License Fund, into which tissue bank license fees are deposited, the moneys in which may be used for purposes of administering tissue bank provisions.

The bill would require the department, by January 1, 2003, to submit a report to the Legislature relating to tissue donations and distribution.

This bill would appropriate \$250,000 to the department from the Tissue Bank License Fund for preparation of this report.

Ch. 830 (AB 2397) Maddox. Anatomical gifts.

(1) Existing law provides that the coroner shall have the right to retain tissues of the body removed at the time of autopsy as may, in the opinion of the coroner, be necessary or advisable for scientific investigation unless certain conditions are met. Existing law further provides that these tissues may be submitted by the coroner to specified entities for training, educational, or research purposes.

This bill would provide that a coroner shall also have the right to retain tissues of the body acquired during a coroner's investigation. It would authorize a coroner to release parts of the body, as defined, to the entities specified for scientific investigation and training either upon the consent of the decedent or other authorized person, or after a reasonable effort has been made to locate and inform authorized persons of their option to consent or object to the release, and one of those persons consents or that effort has been unsuccessful. It would also specify the actions that would constitute a reasonable effort for purposes of these provisions.

(2) Existing law, the Uniform Anatomical Gift Act, authorizes the coroner or medical examiner or local public health officer to release and permit the removal of a part from a body within that official's custody for transplantation, therapy, or reconditioning when certain requirements are met. One of these requirements is that a reasonable effort has been made to locate and inform authorized persons of their option to make, or object to making, an anatomical gift, and specifies that a reasonable effort shall be deemed to have been made when a search for the persons has been underway for at least 12 hours.

This bill would specify the actions that a search would include for purposes of these provisions.

(3) Existing law provides that if an anatomical gift is made to a designated donee, the document of gift, or a copy, may be delivered to the donee and may be deposited in any hospital, procurement organization, or registry office that accepts it for safekeeping or for facilitation of procedures after death.

This bill would instead authorize the deposit of the document of gift in any hospital, accredited medical or dental school, college, or university, or, in the event that the gift is for transplantation or therapy only, to a procurement organization.

(4) Existing law provides that if a donee accepts an anatomical gift of an entire body, the donee, subject to the terms of the gift, may allow embalming and use of the body in funeral services.

The bill would require the donee, upon request of specified persons, to return the cremated remains of the donor at no cost to the person requesting the remains, and would make it a crime for a person to knowingly return the cremated remains of a person other than the donor to a person requesting the remains. By creating a new crime, this bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 831 (SB 1293) Chesbro. Alcoholic beverages: Napa County wine.

Under existing law, the Department of Alcoholic Beverage Control regulates the licensing, enforcement, and administration of the alcoholic beverage control laws.

This bill would provide that no wine that is produced, bottled, labeled, offered for sale, or sold in this state may use, in a brand name or otherwise, on any label, packaging material or advertising, the name "Napa," any viticultural area appellation entirely within Napa County, or any similar name, as specified, unless the wine meets certain federal regulatory standards for appellation of origin in Napa County.

Ch. 832 (AB 2140) Keeley. Regional transportation plans.

Existing law requires designated transportation planning agencies to prepare and adopt a regional transportation plan that includes a policy element, an action element, and a financial element. Existing law requires the plan to be directed at achieving a coordinated and balanced regional transportation system.

This bill would revise the requirements for the policy and financial elements of the transportation plan and would limit those revised requirements to transportation planning agencies with populations that exceed 200,000 persons.

The bill would authorize those agencies, except as specified, to prepare at least one alternative planning scenario, and would list the requirements for that alternative planning scenario.

Ch. 833 (AB 2522) Shelley. Vehicles: pedestrians; bicyclists.

(1) Existing law, the California Bicycle Transportation Act, declares that it is the intent of the Legislature to establish a bicycle transportation system to, among other things, achieve the functional commuting needs of the public.

The bill would establish the Pedestrian Safety Account in the State Transportation Fund to be available, upon appropriation, for allocation by the Department of Transportation to local governmental agencies approved for grants to undertake pedestrian safety improvement projects, including projects designed to improve facilities for pedestrians and bicyclists in areas where need has been demonstrated by high pedestrian injuries or fatalities.

(2) Existing law requires the driver of a vehicle to yield the right-of-way to a pedestrian crossing the roadway within any marked crosswalk or within any unmarked crosswalk at an intersection, except as specified.

This bill would prohibit any person from unnecessarily stopping a vehicle in a manner that causes the vehicle to block a marked or unmarked crosswalk or sidewalk. The bill would thereby create a new crime and impose a state-mandated local program. The bill would also impose specified fines for certain violations that result in bodily injury to anyone other than the driver.

The bill would require the department to include at least one question in each test of an applicant's knowledge and understanding of the provisions of the Vehicle Code, as administered by the department, to verify that the applicant has read and understands the rights of pedestrians.

The bill would impose a mandatory penalty of \$100 for a first conviction of violating a specified provision that prohibits the driver of a vehicle from overtaking and passing a vehicle that has stopped at a marked or unmarked crosswalk to permit a pedestrian to cross the roadway.

This bill would prohibit the removal of existing marked crosswalks without giving the public proper notice and opportunity to be heard, thereby imposing a state-mandated local program.

(3) Existing law authorizes the use of automated enforcement systems at official traffic control signals and requires any city using the systems to provide warning notices prior to issuing citations.

This bill would provide that the authorization to use automated enforcement systems does not include the use of photo radar for speed enforcement purposes by any jurisdiction.

(4) Existing law requires the Director of Motor Vehicles to prescribe rules and regulations for driving schools and for traffic violator schools regarding, among other things, the conduct of courses of education including the curriculum.

This bill would require the curriculum in those schools to include the rights and duties of motorists as they pertain to pedestrians and the rights and duties of pedestrians as they pertain to traffic laws and traffic safety.

(5) Existing law requires the adopted course of study for grades 7 to 12, inclusive, to include, among other courses, automobile driver education.

This bill would require the automobile driver education component to include the rights and the duties of a motorist as they pertain to pedestrians and the rights and duties of pedestrians as they relate to traffic laws and traffic safety. Because this would increase the level of service required of school districts, the bill would impose a state-mandated local program.

(6) The Budget Act of 2000 (Ch. 52, Stats. 2000) made available \$8,000,000 that was appropriated for a competitive grant program to fund local pedestrian safety and intersection traffic control measures pursuant to enabling legislation enacted during the 1999–2000 Regular Session.

This bill would transfer those funds to the Pedestrian Safety Account described above.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 834 (SB 1772) Brulte. Highways: Bicycle Transportation Account: funds.

Existing law requires that the amount of \$1,000,000 during each of the calendar years 1998, 1999, and 2000, \$2,000,000 during each of the calendar years 2001 and 2002, \$3,000,000 during the calendar year 2003, and \$5,000,000 during the calendar year 2004, and annually thereafter be transferred from the Highway Users Tax Account in the Transportation Tax Fund to the Bicycle Lane Account in the State Transportation Fund. Money in the Bicycle Lane Account is continuously appropriated for specified purposes.

This bill, commencing on July 31, 2001, and on the last day of each month after that date, to and including June 30, 2006, would increase the amount required to be transferred to the Bicycle Lane Account to \$600,000 per month. The bill would require that after June 30, 2006, the sum of \$416,667 per month be transferred to the account, on the last day of each month after that date. The bill would thereby make an appropriation by increasing the amount transferred to a continuously appropriated fund.

Ch. 835 (SB 648) Ortiz. Venereal disease: chlamydia: treatment of partner.

Existing law requires the State Department of Health Services to investigate conditions affecting the prevention and control of venereal diseases, as defined, and approved procedures for prevention and control, and to disseminate educational information relating to venereal disease.

This bill would revise the definition of venereal disease to include chlamydia. It would authorize a physician and surgeon who diagnoses a sexually transmitted chlamydia infection in an individual patient to prescribe, dispense, furnish, or otherwise provide prescription

antibiotic drugs to that patient's male sexual partner or partners without examination of that patient's partner or partners, and would authorize the department to adopt regulations to implement this provision. The bill would also authorize certain other qualified health professionals to dispense, furnish, or otherwise provide prescription antibiotic drugs to the partner or partners of a patient with a diagnosed sexually transmitted chlamydia infection without examination of the patient's sexual partner or partners.

The Medical Practice Act provides that the prescribing, dispensing, or furnishing of dangerous drugs, as defined, without a good faith prior examination and medical indication therefor constitutes unprofessional conduct. Existing law sets forth exceptions to this provision.

This bill would provide that a licensee acting in accordance with provisions of the bill with regard to a prescription for antibiotic drugs has not committed unprofessional conduct under this provision.

Existing law specifies the circumstances under which a physician assistant is authorized to administer or provide medication to a patient or transmit orally, or in writing, an order to a person who may lawfully furnish the medication or medical device.

This bill would add to these circumstances the activities of a physician assistant with regard to a prescription for antibiotic drugs in accordance with the provisions of this bill.

Ch. 836 (SB 1554) Committee on Business and Professions. Healing arts.

(1) The Medical Practice Act provides for the regulation of the practice of podiatry by the California Board of Podiatric Medicine and includes provisions pertaining to the conduct of the meetings of this board.

This bill would require the board to disclose certain information to the public concerning its licensees. This bill would clarify that the president of the board may call meetings of the board and any committee thereof and would delete provisions specifying that subcommittee meetings are not required to be advertised. This bill would also delete an obsolete provision pertaining to certificates to practice podiatric medicine by reciprocity.

(2) The Psychology Licensing Law provides for the licensing and regulation of licensed psychologists by the Board of Psychology.

This bill would modify various licensing provisions. This bill would make permanent certain provisions now in effect only until January 1, 2001, relating to unprofessional conduct by licensees with respect to sexual abuse or sexual relations with patients or former patients. This bill would provide civil and criminal penalties with respect to licensees and health care facilities who fail or refuse to comply with a request for medical records of a patient. The bill would thereby impose a state-mandated local program by creating new crimes. This bill would make various other related changes.

(3) The Pharmacy Law provides for, among other matters, the licensing and regulation by the California State Board of Pharmacy of the conduct of pharmacies, wholesalers, medical device retailers, and veterinary food-animal drug retailers, as defined. Existing law provides for the summary suspension or revocation of a license to conduct a pharmacy if a person who is licensed to conduct a wholesaler, medical device retailer, or veterinary food-animal retailer willfully fails to notify the board of the termination of employment of a pharmacist or exempt person and continues to operate that location in the absence of a pharmacist or exempt person, as specified.

This bill would provide in these circumstances for the summary suspension or revocation of the license to conduct a wholesaler, medical device retailer, or veterinary food-animal drug retailer.

(4) The Pharmacy Law makes it a crime for a person, by himself or herself, or through others, to permit the dispensing of prescriptions except by a pharmacist or any person or entity exempt under that law.

This bill would revise these provisions to make it a crime for those persons to permit the furnishing of dangerous drugs or devices, as defined, except by a pharmacist or an exempt

person or entity. By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

(5) This bill would make various other technical and clarifying changes.

(6) This bill would incorporate changes in Section 2960 of the Business and Professions Code proposed by AB 1144, to become operative only if that bill is enacted, as specified, and becomes effective on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 4331 of the Business and Professions Code proposed by AB 1791, to become operative only if that bill is enacted, as specified, and becomes effective on or before January 1, 2001, and this bill is enacted last.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 837 (AB 1496) Olberg. Home medical device retail facilities.

The Pharmacy Law provides for the licensure and regulation of medical device retailers, and the Sherman Food, Drug, and Cosmetic Law provides, generally, for the regulation by the State Department of Health Services of foods, drugs, devices, and cosmetics. These laws make the violation of their provisions crimes.

This bill would delete provisions from the Pharmacy Law governing the licensure and regulation of medical device retailers and provide instead for the licensure and regulation of home medical device retail facilities, as defined, by the State Department of Health Services effective July 1, 2001. This bill would create the Drug and Device Safety Fund into which moneys, as specified, collected by the department in connection with home medical device retail facilities would be deposited for its use upon appropriation by the Legislature.

Because a violation of the bill's provisions pertaining to the Sherman Food, Drug, and Cosmetic Law would be a criminal offense, this bill would create a new crime, thereby imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 838 (SB 876) Escutia. Waste and used tires.

(1) Existing law contains varying definitions of "waste tire" for purposes of the law governing major and minor waste tire facility permits and other laws governing tire hauler registration.

This bill would conform those definitions, and would specify that the term "waste tire" includes a repairable tire, a scrap tire, and an altered waste tire, but does not include a tire derived product, crumb rubber, or a used tire.

The bill would define the term "used tire," for purposes of those laws, as a tire that is no longer mounted on a vehicle but is still suitable for use as a vehicle tire. The bill would require that a used tire meet specified requirements and be stored in a rack or a stack, but not in a pile, in a specified manner. The bill would additionally define the terms "altered waste tire," "baled tire," "crumb rubber," "new or used motor vehicle," "repairable tire," "tire derived product," and "scrap tire" and would revise the definition of the term "minor waste tire facility."

(2) Existing law authorizes the board to suspend, deny, or revoke a waste tire facility permit, if the applicant or holder has taken specified actions.

This bill would revise the procedures for the suspension, denial, or revocation of a waste tire facility permit, including authorizing the board to suspend, deny, or revoke a waste tire facility permit for a period of up to 3 years, for a period of from 3 to 5 years, or for a period of more than 5 years, depending upon the nature of the violations.

(3) Existing law requires any person who stores, stockpiles, or accumulates waste tires in a specified manner, to clean up those waste tires or abate the effects thereof, or in the case of threatened pollution or nuisance, as defined, take other necessary remedial action, upon the order of the board. If a person fails to comply with such order, the Attorney General is required, at the request of the board, to petition the superior court for an injunction to require compliance with that order.

This bill would additionally require the district attorney or county counsel to file such a petition and would require that the Attorney General, the district attorney, or the county counsel file the petition within 45 days of the discovery of the failure to comply with the board's order, at the request of the board, thereby creating a state-mandated local program by imposing new duties upon a district attorney or county counsel.

(4) Existing law requires every person who engages in the transportation of waste tires to hold a valid waste tire hauler registration, and requires any person engaged in the transportation of waste tires to follow specified requirements. Existing law exempts persons who haul waste tires from registration, if specified conditions are met.

This bill would additionally subject persons who haul used tires to those waste tire hauler requirements and would make conforming changes. The bill would additionally exempt from the registration requirements a person who has received a specified authorization from the enforcement agency or who complies with any additional conditions for exemption, as approved by the California Integrated Waste Management Board.

(5) Under existing law, the board is authorized to suspend, deny, or revoke a waste tire hauler registration. Existing law also provides that a person who violates the tire hauler requirements is subject to a civil penalty of up to \$10,000 for each violation and the board is authorized to impose an administrative penalty of up to \$1,000 for each violation.

This bill would revise the conditions for the suspension, denial or revocation of a waste and used tire hauler registration.

This bill would provide for the imposition of civil penalties for certain false statements or misrepresentations, increase the maximum amount of the civil penalty that may be imposed for a violation to \$25,000 for each violation, and increase the maximum amount of the administrative penalty that the board is authorized to impose to \$5,000 for each violation.

(6) Existing law requires the board to develop a waste tire manifest system for registered waste tire haulers that requires a manifest to accompany each shipment of waste tires from the point of origin to the processing, collection, storage, or disposal facility.

This bill would repeal those provisions and would instead require any person generating waste or used tires that are transported or submitted for transportation to submit a California Uniform Waste and Used Tire Manifest to the waste and used tire hauler and to submit copies of the manifest to the board. The bill would require a waste and used tire hauler to possess that manifest while transporting waste or used tires and would require the operator of a waste or used tire facility to submit a copy of the manifest to the board and the generator. The board would be required to develop and implement a system for auditing manifests, including continuously conducting random sampling and matching of manifests.

(7) Existing law requires every person who purchases a new tire from a retail seller of new tires to pay a fee of 25¢ per tire to the seller. Existing law authorizes the retail seller to retain 10% of the fee as reimbursement for any costs associated with the collection, and requires the seller to remit the remainder to the state for deposit in the California Tire Recycling Management Fund. Under existing law, these provisions are repealed on January 1, 2001.

This bill, instead, would require a person who purchases a new tire to pay a California tire fee, would increase the fee to \$1 per tire, until December 31, 2006, and would decrease the fee, after that date, to 75¢ per tire. The bill would authorize the retailer to retain 3% of the fee as reimbursement for any costs associated with the collection. The bill would require the fee to be separately stated and would impose a civil penalty upon a person or business that knowingly, or with reckless disregard, makes a false statement or representation in connection with the collection of this fee. The bill would revise the definition of the term

“new tire” for purposes of the fee, to include a new tire sold with a new or used motor vehicle. The bill would also authorize the board to impose an administrative penalty for a violation of the laws relating to tire recycling. This bill would delete the repeal of the provisions imposing this fee.

(8) This bill would require the board to adopt a 5-year plan and update that plan every 2 years, to establish goals and priorities for the waste tire program and each program element. The bill would require the board to also submit, on or before July 1, 2001, and every two years thereafter, the plan to the appropriate policy and fiscal committees of the Legislature.

The bill would require the Department of Transportation to submit an annual report, by January 1, to the Legislature and the board, on the use of waste tires in transportation and civil engineering projects.

The bill would also require the State Air Resources Board to submit an annual report, by January 1, to the Governor, the Legislature, and the board, on the air emissions from tire burning facilities.

(9) Under existing law, the money in the tire recycling fund is authorized to be expended by the board, upon appropriation in the annual Budget Act, for specified purposes concerning tire recycling, the disposal of used tires, and for a program pursuant to which grants are made to cities and counties for purposes of cleaning up and abating the effects of solid waste illegally disposed of on farm or ranch property.

This bill would require that funding for the waste tire program be appropriated consistent with the 5-year plan, as adopted and updated by the board.

This bill would limit the purposes for which the money could be expended, for purposes of the grant program, to the cleanup, abatement, or other remedial action related to the disposal of used whole tires.

The bill would require the board to provide funding to a local agency designated by the board as the enforcement authority for the storage of waste and used tires. The bill would additionally authorize up to \$150,000 be expended from the fund to the Office of Environmental Health Hazard Assessment for a report regarding the toxicity of tire fires. This bill would require that not less than \$6,500,000 be expended annually, for 6 years, for cleanup, abatement, removal, and other remedial action related to tire stockpiles throughout the state.

(10) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 839 (AB 878) Cardenas. Health: youth pregnancies: Community Challenge Grant Program.

Existing law establishes the Community Challenge Grant Program, administered by the State Department of Health Services, in order to provide community challenge grants to reduce the number of teenage and unwed pregnancies. The provisions of this program are operative until July 1, 2000, and would be repealed on January 1, 2001.

This bill would delete the repeal of these provisions, thereby extending the Community Challenge Grant Program indefinitely, but would limit implementation of the program to the extent that funds are appropriated in the Budget Act.

Ch. 840 (AB 2078) Granlund. Elections: unlawful expenditures.

Under existing law, public funds may not be expended to support or oppose a ballot measure or candidate.

This bill would specifically provide that an officer, employee, or consultant of a local agency, as defined, may not expend or authorize the expenditure of any of the funds of the local agency to support or oppose the approval or rejection of a ballot measure, or the election or defeat of a candidate, by the voters. Membership dues paid by a local agency to a professional association are not included as a prohibited expenditure.

Ch. 841 (AB 2194) Gallegos. Temporary health facility licensing.

Existing law provides for the licensing of various health facilities by the State Department of Health Services, and gives the Office of Statewide Planning and Development various regulatory duties with respect to these facilities.

Existing law provides that the building standards published in the State Building Standards Code by the Office of Statewide Health Planning and Development, and the regulations adopted by the State Department of Health Services shall prescribe standards of adequacy, safety, and sanitation of the physical plant, of staffing with duly qualified licensed personnel, and of services of health facilities.

Existing law requires that the regulations shall permit program flexibility by the use of alternate concepts, methods, procedures, techniques, equipment, personnel qualifications, or conducting of pilot projects as long as statutory requirements are met and the use has the prior written approval of the department or the office, as applicable.

Existing law, the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983, establishes certain seismic safety standards hospitals are required to meet.

This bill would provide for the waiver of a general acute care hospital from certain standards relative with respect to relocating services on an interim basis as part of its approval plan for compliance with the act.

This bill would require the State Department of Health Services to establish the Alfred E. Alquist Hospital Facilities Seismic Safety Act Unit, and would specify the purposes for which the unit shall be established relative to the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1983.

This bill would appropriate \$145,000 from the General Fund to the department for the establishment of the Alfred E. Alquist Hospital Facilities Seismic Safety Act Unit.

Ch. 842 (AB 2547) Hertzberg. Health facilities.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

Existing law generally defines a disproportionate share hospital as a hospital that has disproportionately higher costs, volume, or services related to the provision of services to Medi-Cal or other low-income patients than the statewide average. Under existing law, an eligible disproportionate share hospital may receive supplemental Medi-Cal reimbursement to defray a portion of the debt service cost for an eligible capital project.

This bill would provide that the Los Angeles County University of Southern California Medical Center capital project that met initial eligibility criteria for supplemental reimbursement may develop and submit revised final plans for a revised capital project and shall qualify for supplemental reimbursement for the revised capital project if it meets specified criteria. It would permit the revised capital project plan to provide for specified types of changes from the original project plan.

This bill would require the state and Los Angeles County to complete a report assessing the health care needs of the county, as specified, and to implement jointly agreed-upon recommendations, to the extent that they do not require statutory authorization.

Because Los Angeles County is required to complete a prescribed report, it would create a state-mandated local program.

No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or

school district are the result of a program for which legislative authority was requested by that local agency or school district, within the meaning of Section 17556 of the Government Code and Section 6 of Article XIII B of the California Constitution.

Ch. 843 (AB 2594) Cox. Insurance fraud.

Existing law relative to insurance fraud generally provides that it is a crime for healing arts practitioners to receive money or other consideration for, or to engage in various related activities with respect to, the referral of patients, clients, or customers to any person, with certain exceptions, as specified. Similar provisions in the Insurance and Penal Codes apply to persons engaged in the processing, presenting, or negotiation of claims and to persons in general. Existing law specifies varying criminal penalties for these various offenses, generally providing for a fine of up to \$10,000 or one year in jail or prison, or both the fine and imprisonment, as specified.

This bill would instead provide, upon a first conviction, for a fine of up to \$50,000 for these related public offenses and the possibility of one year in jail or prison, or both the fine and imprisonment. This bill would provide for a 2nd or subsequent conviction to be punishable by imprisonment in the state prison or by that imprisonment and a \$50,000 fine.

Existing law authorizes certain peace officers to submit a written request to an insurer for relevant information that the insurer may have relating to insurance fraud.

This bill would correct certain erroneous cross-references in that authorization provision.

Ch. 844 (AB 2616) Margett. Health insurance: payment of claims.

Existing law regulates providers and certain insurers that cover hospital, medical, and surgical expenses with respect to the reimbursement by insurers of claims of providers. These provisions, among other matters, specify that a claim is reasonably contested if the insurer has not received a completed claim and all information necessary to determine payer liability for the claim or has not been granted reasonable access to information concerning provider services.

This bill would prohibit these insurers from requesting information that is not reasonably necessary to determine liability for the payment of a claim and would require them to pay providers the cost, as specified, of duplicating all information they request in connection with a contested claim.

Existing law regulates the provision of insurance to senior citizens and exempts various classes of insurance from the laws regulating insurance for senior citizens, including, until January 1, 2001, disability policies or certificates that are sold through direct response methods of delivery.

This bill would extend the duration of that exemption to January 1, 2002.

Ch. 845 (SB 168) Speier. Health care service plans: immunizations for children: reimbursement of physicians.

Existing law provides for the licensing and regulation of health care service plans by the Department of Managed Care. Existing law requires every health care service plan that covers hospital, medical, or surgical expenses on a group basis to provide certain preventative health care benefits for children, including immunizations. A willful violation of the provisions governing health care service plans is a crime.

This bill would generally prohibit a risk-based contract between a health care service plan and a physician or physician group that is issued, amended, delivered, or renewed in this state on or after January 1, 2001, from including a provision that requires a physician or a physician group to assume financial risk for the acquisition costs of required immunizations for children as a condition of accepting the risk-based contract. This bill would provide that a physician or physician group shall not be required to assume financial risk for immunizations that are not part of the current contract. This bill would require plans to reimburse physicians or physician groups for immunizations that are not part of the current

contract at not less than a specified amount, until the contract is renegotiated. This bill would prohibit a health care service plan from including the acquisition costs associated with required immunizations for children in the capitation rate of a physician who is individually capitated. This bill would enact other related provisions. Because a willful violation of the bill's requirements would be a crime, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 846 (SB 1192) Polanco. Medi-Cal disproportionate share hospitals: Contra Costa County Regional Medical Center.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

Existing law generally defines a disproportionate share hospital as a hospital that has disproportionately higher costs, volume, or services related to the provision of services to Medi-Cal or other low-income patients than the statewide average. Under existing law, an eligible disproportionate share hospital may receive supplemental Medi-Cal reimbursement to defray a portion of the debt service cost for an eligible capital project.

The bill would permit Contra Costa County Regional Medical Center to construct or renovate, or both, at the former Los Medanos Medical Center site, and would permit this construction or renovation, or both, to be considered eligible for supplemental reimbursement if the site meets certain conditions. The bill would provide that this medical center shall also qualify for supplemental reimbursement for the revised capital project if specified eligibility requirements are met.

Ch. 847 (SB 1338) Figueroa. Health: youth pregnancies: Community Challenge Grant Program: evaluation.

Existing law establishes the Community Challenge Grant Program, administered by the State Department of Health Services, in order to provide community challenge grants to reduce the number of teenage and unwed pregnancies. The provisions of this program require the department to conduct a statewide evaluation of the program and submit its findings to the Legislature on or before January 1, 1999.

This bill would revise the required contents of the statewide evaluation, and would delete the January 1, 1999, deadline for submission to the Legislature, requiring instead that the department submit its findings to the Legislature within 6 months of the completion of each grant cycle. It would provide, however, that the evaluation would be performed only when funds are appropriated in the annual Budget Act for this purpose. The bill would provide that it shall become operative only if AB 878 of the 1999–2000 Regular Session is enacted.

Ch. 848 (SB 1471) Schiff. Health care liens.

Existing law provides for the regulation of health care service plan contracts by the Department of Managed Care and for the regulation of health insurance policies issued by disability insurers regulated by the Department of Insurance, as specified.

This bill would provide that no lien asserted by a licensee of the Department of Managed Care or the Department of Insurance, and no lien of a medical group or an independent practice association, to the extent it asserts or enforces a lien, for the recovery of money paid or payable to or on behalf of an enrollee or insured for medical services provided under a health care service plan contract or disability insurance policy, may exceed specified amounts. These provisions would not apply to a lien made against a workers' compensation claim, against a 3rd party for Medi-Cal benefits, and for hospital services, as specified. The

bill would declare that it would not create any lien right that does not currently exist at law and would not make a lien that arises out of an employee benefit plan or fund enforceable if preempted by federal law. The bill would prohibit its provisions from being admitted into evidence or given in an instruction in any civil action between an enrollee or insured and a 3rd party.

Ch. 849 (SB 1746) Figueroa. Health care service plans: termination of provider: notification: enrollee.

Existing law provides for the regulation and licensing of health care service plans by the Department of Managed Care. A willful violation of the provisions governing health care service plans is a crime.

Existing law requires a health care service plan 30 days prior to termination of a contract with a medical group or individual practice association to provide affected enrollees with a written notice of the change. Existing law permits the plan when terminating a contractual arrangement with an individual provider within a medical group or individual practice association to have that group or association notify the enrollees who are patients of that provider.

This bill would specify the method for delivering written notice, and the procedure to follow if the written notice is returned as undeliverable. The bill would require the notice to provide instructions for enrollees to choose a new "primary care provider" and would define that term. The bill would permit an enrollee to self-refer under specified conditions. The bill would exempt from these requirements a health care service plan contract that provides benefits through preferred provider contractual arrangements, if the plan does not require the enrollee to choose a primary care provider.

Because a violation of this bill's requirements with respect to a health care service plan would be a crime, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 850 (SB 1801) Speier. Health facilities: seismic building standards.

Existing law requires, after January 1, 2008, any general acute care hospital building that is determined to be a potential risk of collapse or pose a significant risk of loss of life to be used only for nonacute care hospital purposes. Existing law authorizes the Office of Statewide Health Planning and Development to grant a delay in meeting this deadline if the hospital owner demonstrates that compliance will result in a loss of health care capacity that may not be provided by other general acute care hospitals within a reasonable proximity.

This bill would authorize the office to extend the January 1, 2008, deadline for certain hospital buildings of a general acute care hospital, if the hospital agrees that, on or before January 1, 2013, designated services shall be provided by moving into an existing conforming building, relocating to a newly-built building, or continuing in the building as retrofitted where the buildings are in compliance with designated structural and nonstructural performance categories. The bill would require the office to establish a schedule of interim work progress deadlines that hospitals would be required to meet to be eligible for the deadline extension.

Ch. 851 (SB 2006) Leslie. Health facilities: seismic building standards.

Under existing law, after January 1, 2008, general acute care hospital buildings that are determined to pose certain risks are required to be improved or only used for nonacute care hospital service, and after January 1, 2030, all acute care inpatient hospital buildings that are not in substantial compliance with certain seismic safety regulations and standards

developed by the Office of Statewide Health Planning and Development are required to be demolished, replaced, or changed to nonacute use or seismically retrofitted so that they are in substantial compliance.

This bill would authorize any hospital, with regard to a general acute care hospital building located in Seismic Zone 3, to request an exemption from certain nonstructural requirements if the hospital building complies with certain year 2002 nonstructural requirements. The bill would require the office to grant the exemption if certain conditions are met.

Ch. 852 (SB 2046) Speier. Health care: prescription drug coverage.

(1) Existing law provides for the regulation and licensing of health care service plans by the Department of Managed Care. A willful violation of the provisions governing health care service plans is a crime. Existing law provides for the regulation of policies of disability insurance by the Insurance Commissioner.

Existing law prohibits a health care service plan contract, and specified disability insurance policies, from limiting or excluding coverage for a drug on the basis that the drug is prescribed for a use different than the use for which the drug has been approved for marketing by the federal Food and Drug Administration (off-label use) if specified conditions are met, including that the drug prescribed is for the treatment of a life-threatening condition.

This bill would modify that specific condition by also including a drug that is prescribed for a chronic and seriously debilitating condition. This bill would define "chronic and seriously debilitating." The bill would require the drug be medically necessary for the chronic and seriously debilitating condition.

The bill would require, for health care service plans, that if the drug for a life-threatening or chronic and seriously debilitating condition is not on the plan's formulary, that the procedures relating to the use of nonformulary prescription drugs instead be followed. The bill would specify that the requirement for coverage for off-label drug use not be construed to prohibit the use of specified mechanisms as a means of appropriately controlling the utilization of the off-label use of prescription drugs for life-threatening and chronic and seriously debilitating conditions. The bill would permit a plan subscriber or insured to use the Independent Medical Review System to review a denial of coverage by either a health care service plan or a disability insurer of a request for the off-label use of a prescription drug for treating a life-threatening or chronic and seriously debilitating condition when the basis for the denial is that the use of the drug is experimental or investigational.

Because a violation of this bill's requirements with respect to coverage under a health care service plan contract would be a crime, this bill would impose a state-mandated local program by creating a new crime.

(2) Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

The Medi-Cal program provides for a special methodology of reimbursement of disproportionate share hospitals for the provision of inpatient hospital services, and provides for the supplemental reimbursement of eligible disproportionate share providers for funding capital projects.

Existing law further authorizes a distinct part of an acute care hospital providing specified services and meeting certain requirements to receive, in addition to the rate of payment that the facility would otherwise receive for skilled nursing services, supplemental reimbursement for capital projects under specified conditions. One of those conditions is that for a new capital project to be eligible for the supplemental reimbursement, the final plans for the project must have been submitted to the appropriate review agency before July 1, 2001.

This bill would extend the time for submission of the final plans to the appropriate review agency until January 1, 2003.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 853 (SB 2076) Polanco. Political Reform Act of 1974.

Existing provisions of the Political Reform Act of 1974 (the act) require candidates, committees, and slate mailer organizations to file specified statements and reports with the Fair Political Practices Commission (the commission). The act requires a committee to file a statement of organization with the commission, including, among other things, the disposition of surplus funds that will be made in the event of dissolution. The act specifies that an amendment shall be filed within 10 days of any change in the information contained in the statement and that the filing officer must be notified by telegram or personal delivery if certain information is changed.

This bill would instead require that, if the committee is controlled by a candidate for his or her election, the statement of organization shall include specified campaign contribution account information. The bill would also provide that the filing officer also may be notified by facsimile transmission or, if the filing officer is capable of receiving the notification in such a manner, online transmission.

Existing provisions of the act require committees that have as their principal activity the support of or opposition to a ballot measure to identify themselves as such.

This bill would instead impose that requirement on committees that are primarily formed to support or oppose a ballot measure.

The act requires elected officers, candidates, and committees to file campaign statements each year if they have made contributions or independent expenditures, including payments to a slate mailer organization, during the 6-month period before the closing of the statements. Under the act, each campaign statement is required to contain specified information pertaining to contributions, including, among other things, the total amount of contributions received during the period covered by the campaign statement and the total amount of contributions received during the period covered by the campaign statement from persons who have given a cumulative amount of \$100 or more. The act requires expenditures made by an agent or independent contractor on behalf of a candidate or committee to be reported as if it was made by the candidate or committee. In addition to those campaign statements, elected officers, candidates, and committees are required to file preelection statements, as specified.

This bill would require the disclosure of detailed information regarding any personal loan of \$100 or more. The bill would limit the reporting of expenditures by agents or independent contractors made on behalf of candidates or committees to expenditures of \$500 or more. The bill would make additional changes to those reporting requirements.

The act requires an individual who intends to be a candidate for elective office to file a statement of intent with the Secretary of State before soliciting or receiving any contribution or loan.

This bill would provide that an individual who intends to be a candidate for elective state office shall file the statement of intent with the Secretary of State and require that an individual who intends to be a candidate for any other office file the statement of intent with the same filing officer and in the same location as he or she would file the original campaign statement.

The Political Reform Act of 1974, an initiative measure, provides that the Legislature may amend the act to further the act's purposes with a $2/3$ vote of each house and compliance with specified procedural requirements.

This bill, which would declare that it furthers the purposes of the act, would therefore require a $2/3$ vote.

Ch. 854 (SB 2175) Burton. California Peace Officer Memorial Foundation: contributions: income tax return.

Under existing law regulating the administration of personal income taxes and bank and corporation taxes, individual taxpayers are allowed to contribute amounts in excess of their tax liability for the support of specified funds or accounts, including, among others, the California Firefighters' Memorial Fund and the California Peace Officer Memorial Foundation. Existing law provides for the repeal of the contribution provisions for these funds on January 1, 2006, or on January 1 of any calendar year that the Franchise Tax Board estimates the minimum contribution amount will be less than a prescribed amount.

This bill would instead make those check-off provisions inoperative in any calendar year, after the 2006 repeal date has been deleted, in which the Franchise Tax Board makes the required estimate.

The bill would become operative for returns filed in 2001 for taxable years beginning on and after January 1, 2000.

Ch. 855 (SB 1695) Ortiz. Public Employees' Retirement System: benefits.

Existing law, the Public Employees' Retirement Law, provides alternative death benefits for the survivors of designated state and local members of the Public Employees' Retirement System who attained the minimum age for voluntary service retirement prior to their death before retirement.

This bill would authorize contracting agencies to elect to provide alternative death benefits for local firefighter members credited with 20 years or more of service.

Ch. 856 (SB 2136) Dunn. Health care providers: multiple audits.

Existing law requires the Department of Managed Care to conduct periodically an onsite medical survey of the health delivery system of each health care plan. Existing law requires the director, to avoid duplication, and to the extent feasible, to employ reviews of providers conducted by professional standards review organizations. Existing law required a working group, as specified, to recommend ways to reduce duplicative audits of providers by health plans and to report, as specified, its findings and recommendations, on or before January 1, 2000.

This bill would repeal the provisions relating to the working group. The bill would require the Advisory Committee on Managed Care, in the Department of Managed Care, after having sought comment from a broad and balanced range of interested parties, to recommend to the Director of the Department of Managed Care standards for a uniform medical quality audit system, which would be required to include a single periodic medical quality audit. The bill would require the recommendations to include a list of those private sector accreditation organizations, if any, that have standards comparable to the recommended system, and the capability and expertise to accredit, audit, or credential providers. The bill would authorize the director to approve private sector accreditation organizations as qualified organizations to perform single periodic medical quality audits.

The bill would require the Director of the Department of Managed Care to adopt regulations on a uniform medical quality audit system on or before January 1, 2002.

Ch. 857 (AB 2903) Committee on Health. Health care coverage: telephone medical advice services.

(1) Existing law provides for the regulation and licensing of health care service plans by the Department of Managed Care.

This bill would rename the Department of Managed Care as the Department of Managed Health Care. This bill would make various conforming changes.

(2) Existing law prohibits the department's director and designated staff members from holding interests, as specified, in a health care service plan during their association with the department.

This bill would specify that this provision does not prohibit these personnel, as well as any employee of the department, from obtaining as an enrollee or subscriber health care services from a health care service plan.

(3) Under existing law, a group health care service plan that provides coverage for outpatient prescription drug benefits is required to include coverage for contraceptive methods unless a religious employer, as defined, requests a contract without this particular coverage. Existing law specifies that this provision, exempting coverage for contraceptive methods if requested by a religious employer, shall not be construed to deny an enrollee coverage and timely access to contraceptive methods.

This bill would delete this construction provision.

(4) Existing law provides, effective January 1, 2001, for the establishment of an Independent Medical Review System to review grievances involving a disputed health care service under a health care service plan and under a disability insurance contract. Under existing law, a disputed health care service is defined, for provisions pertaining to health care service plans, as excluding services provided by a specialized health care service plan unless the service is provided pursuant to a contract with a health care service plan, and for provisions pertaining to disability insurance contracts, this term is defined as excluding services provided by a group policy of vision-only or dental-only coverage unless the service is provided pursuant to a contract with a disability insurer.

This bill would specifically require that the health care service plan and the disability insurer cover hospital, medical, or surgical benefits in order for the services they provide through a contract with a specialized health care service plan or a group or individual policy of vision-only or dental-only coverage, respectively, to be included within the definition of a disputed health care service, subject to the Independent Medical Review System.

This bill additionally authorizes the Insurance Commissioner to contract with the Department of Managed Health Care to administer the Independent Medical Review System as it applies to disability insurers.

(5) This bill would make technical changes to various provisions pertaining to the regulation of health care service plans and disability insurers.

(6) Existing law provides for the registration of telephone medical advice services with the Telephone Medical Advice Services Bureau of the Department of Consumer Affairs, and prohibits, effective January 1, 2000, an in-state or out-of-state business entity from providing those services to a patient at a California address unless the person is registered. These provisions do not apply to healing arts professionals licensed under the Business and Professions Code who provide telephone medical advice that is incidental to their primary focus of their medical advice activities in their professional practice.

This bill instead would limit the application of these and related provisions to a business entity that employs, or contracts or subcontracts with, the full-time equivalent of 5 or more persons functioning as health care professionals, as defined, whose primary function is to provide telephone medical advice, as specified. This bill would revise various registration provisions and would authorize the director of the department to exempt from fees certain telephone advice services that serve charity or medically indigent patients, as specified. This bill would make other related changes.

(7) Existing law requires health care service plans and certain disability insurers to provide or authorize a 2nd opinion by an appropriately qualified health professional if requested by an enrollee or insured, and defines “appropriately qualified health care professional” for these purposes to mean a primary care physician or a specialist who is acting within his or her scope of practice and who possesses a certain clinical background, as specified. A willful violation of the provisions governing health care service plans is a crime.

This bill would instead define “appropriately qualified health care professional” for these purposes to mean a primary care physician, specialist, or other licensed health care provider who meets these requirements. Because a willful violation of the bill’s requirements with

respect to a health care service plan would be a crime, this bill would impose a state-mandated local program by changing the definition of a crime.

(8) Chapter 525 of the Statutes of 1999, which created the Department of Managed Care, which this bill would rename the Department of Managed Health Care, amended various code sections relative to the assumption of responsibility from the Department of Corporations with regard to health care service plans. However, that chapter contained language deferring to other bills chaptered in 1999 in order to not chapter out those bills.

This bill would enact the changes made by various code sections contained in Chapter 525 of the Statutes of 1999 that did not become law due to that deferral provision.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 858 (AB 2899) Committee on Health. Medi-Cal.

(1) The Pharmacy Law provides that an order entered on the chart or medical record of a hospital patient shall be considered a prescription if specified conditions are met, including that the practitioner authorized by law to prescribe drugs signs the order, if he or she is present when the drugs are given, and if not present at that time, signs the order on his or her next visit to the hospital.

This bill would additionally authorize in the latter circumstance the attending physician responsible for the patient's care at the time the drugs are given to the patient to sign the order.

(2) Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

This bill would make technical changes to existing law relating to the Medi-Cal program.

Ch. 859 (AB 1515) Margett. Vehicles: license plates: motorcycles.

(1) Existing law specifies the dimensions for license plates issued for motor vehicles, other than motorcycles.

This bill would additionally specify the size of the number and letter characters and the minimum spacing between characters on motor vehicle license plates.

The bill would specify the dimensions of a motorcycle license plate, and the character size and minimum spacing between characters on those plates.

This bill would provide that any special interest license plate issued for display on a motorcycle is subject to the same fees that are collected for the issuance and retention of special interest license plates on other vehicles.

(2) Existing law requires the Department of Motor Vehicles to issue special interest license plates containing a distinctive design or decal of a participating organization, to any person, to be displayed in lieu of regular license plates.

This bill would prohibit the department, if it permits the issuance of special interest license plates for display on motorcycles, from approving any design that incorporates either or both a full or partial graphic design appearing behind the license plate number configuration or symbols with the license plate number configuration.

(3) This bill would incorporate additional changes in Section 5101 of the Vehicle Code proposed by SB 2084, to be operative only if this bill and SB 2084 are enacted and become effective on or before January 1, 2001, each bill amends Section 5101 of the Vehicle Code, and this bill is enacted last.

(4) This bill would incorporate additional changes in Section 5103 of the Vehicle Code proposed by SB 2084, to be operative only if this bill and SB 2084 are enacted and become effective on or before January 1, 2001, each bill amends Section 5103 of the Vehicle Code, and this bill is enacted last.

Ch. 860 (AB 2908) Committee on Transportation. Transportation.

(1) Existing law provides that skateboarding, roller skating, or roller blading in any public transportation system facility, vehicle, or parking structure is an infraction, punishable by a fine and community service, as prescribed.

This bill would also make bicycle riding in a public transportation system facility, vehicle, or parking structure an infraction punishable by a fine and community service, as specified, except as otherwise provided. By creating a new crime, the bill would impose a state-mandated local program.

(2) Existing law requires the Department of Transportation to submit a report to the Governor, the Legislature, and the Federal Aviation Administration relating to a specified flying prototype aircraft instrument display system project.

This bill would delete the provision requiring submission of the specified report.

(3) Existing law prohibits any person or public entity from submitting an application to a federal agency to purchase, acquire, or operate an airport owned by the United States within this state, until the Department of Transportation has completed its evaluation and issued a recommendation under a specified provision of existing law relating to determining the future need for the airport.

This bill would delete the provision in existing law prohibiting submission of the specified application under the specified circumstances.

The bill would authorize, instead of require, the department to evaluate the future need for an airport under certain circumstances and would delete a specified deadline for completion of the evaluation.

(4) Existing law prescribes the allocation of funds from the Public Transportation Account and the State Highway Account, both in the State Transportation Fund.

This bill would require that certain funds that were allocated from these accounts to the North Coast Railroad Authority for specific track repair and rolling stock acquisitions also be available for expenditure on any form of track improvement project, track rehabilitation project, or rolling stock acquisition project nominated by the authority, as specified. The bill thereby would make an appropriation.

(5) Existing law requires the Department of Transportation to submit to the Legislature specified annual reports relating to airspace and land acquisitions.

This bill would delete the provisions requiring submission of those specified reports.

(6) Existing law authorizes any member of the county board of supervisors who is regularly issued a county-owned vehicle and is in a county of over 20,000 square miles in area to apply to the Department of Motor Vehicles for regular series license plates for that vehicle, if a request for that issuance is also made by the county board of supervisors.

This bill would extend that authority to any county auditor, controller, treasurer, or tax collector who is regularly issued a county-owned vehicle and is in a county of over 20,000 square miles in area.

(7) Existing law requires the Department of the California Highway Patrol to recommend that the Public Utilities Commission suspend or revoke the permit of a household goods carrier, as defined, or for interstate operators, to recommend to the federal Highway Administration Office of Motor Carriers that appropriate administrative action be taken against a carrier, when the carrier has failed to maintain any pertinent vehicle in a safe operating condition or to comply with regulations relative to motor carrier safety, as specified, failed to enroll all drivers in a required pull-notice system, as defined, or failed to submit any application or pay any fees required through a specified inspection program within the required timeframes.

This bill would make the above provision applicable to a household goods carrier transporting used office, store, or institution furniture and fixtures under its household goods carrier permit issued under specified provisions of the Public Utilities Code. The bill would change the reference in the above provision from the federal Highway Administration Office of Motor Carriers to the Federal Motor Carrier Safety Administration.

(8) Existing law prohibits any vehicle on a highway from exceeding a length of 40 feet, except, among others, an articulated bus or articulated trolley coach that does not exceed a length of 60 feet, plus a folding device for carrying bicycles that may be attached to the front of the bus or trolley coach and may extend no more than 30 inches from the front of the bus or trolley coach.

This bill would authorize the specified folding device to extend not more than 36 inches from the front body of the bus or trolley coach.

(9) Existing law limits the length of vehicles and combinations of vehicles coupled together. Under existing law, extensions of not more than 18 inches are not included in measuring the length of a vehicle or combinations of vehicles under described circumstances.

This bill would modify the circumstances for the application of the 18-inch extension exception.

(10) Existing law generally prohibits any combination of vehicles coupled together, including any attachments, from exceeding a total length of 65 feet. A combination of vehicles designed and used to transport motor vehicles or boats that consists of a motortruck and a stinger-steered semitrailer is exempt from that prohibition and is authorized a length of up to 70 feet, under certain conditions, and 75 feet under other conditions. A motortruck that is used in combination with a semitrailer solely for transporting motor vehicles or boats is exempt from that prohibition if the semitrailer does not exceed 48 feet or 53 feet in length and the combination is operated on certain federal highways or on routes identified by the Department of Transportation or local authorities.

This bill would include within those exemptions a motortruck and semitrailer combination that meets the specified requirements and is used to transport trailers or camper units.

(11) Existing law authorizes the arresting officer to either give a person 10 days' notice to appear in court or take the person before a magistrate when the person is arrested for prescribed offenses.

This bill would expand those offenses to include a violation of operating a motorized scooter while under the influence of an alcoholic beverage or any drug.

(12) This bill would incorporate additional changes in Section 35400 of the Vehicle Code proposed by AB 2175, to become operative if both bills are enacted and become effective on or before January 1, 2001.

(13) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 861 (SB 2084) Polanco. Transportation.

(1) The Vehicle License Fee Law provides that the annual amount of the license fee for any vehicle is 2% of the market value of the vehicle, as specified. Also, provisions of existing law provide that the Legislature shall reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

The California Constitution authorizes the Legislature to classify personal property for differential taxation or for exemption by means of a statute approved by a $\frac{2}{3}$ vote of the membership of each house.

This bill would enact the Commercial Vehicle Registration Act of 2001 (the act). The bill would remove trailers and semitrailers from the Vehicle License Fee Law. Pursuant to this constitutional authorization, this bill would exempt from personal property taxation, a commercial motor vehicle or commercial trailer or semitrailer, as specified.

(2) Existing law prohibits a person from driving, moving, or leaving standing upon a highway, or in an offstreet public parking facility, any motor vehicle, trailer, semitrailer, pole

or pipe dolly, logging dolly, or auxiliary dolly unless it is registered and the appropriate fees have been paid under the Vehicle Code.

This bill would require that any commercial motor vehicle, singly or in combination, that operates with a declared gross vehicle weight, as defined, that exceeds 10,000 pounds be registered with the department. This bill would require a person submitting an application for registration of a commercial motor vehicle to declare the combined gross weight of all units when applying for registration with the department. The bill would also require the commercial motor vehicle's registered owner or the owner's designee to complete a form provided by the department and to be issued a license plate.

(3) Existing law provides that a fleet owner may make a certain declaration on a single form for all commercial motor vehicles registered in the fleet owner's name.

This bill would delete fleet owners from this provision and instead make the provision applicable to registered owners, lessors, or designees.

(4) Existing law provides for the issuance of identification plates for certain vehicles, including tow dollies.

The bill would delete tow dollies from that identification plates program and other provisions.

The bill would require, upon the implementation of the permanent trailer identification plate program, which shall commence on December 31, 2001, that specified trailers, including tow dollies, be assigned permanent trailer identification plates and be issued an identification certificate which shall be available for inspection by a peace officer. This bill would require the department to assess a service fee, not to exceed \$20, upon assigning a permanent trailer identification plate. This bill would require that an applicant for renewal of permanent trailer identification plates pay a \$25 annual fee. The bill would make corresponding changes.

(5) Under existing law, the registered owner or lessee of a fleet of vehicles consisting of motor vehicles or commercial trailers, as specified, or passenger automobiles is authorized to apply to the department for permanent license plates or decals and registration cards.

This bill would delete commercial trailers from that program, would limit the program to motor vehicles, would allow participation in the program to continue in the program for 5 years after implementation of the act even though those participants are out of compliance with the act, and would make related changes.

(6) Existing law allows the Reciprocity Commission to enter into agreements that provide exemption of regulatory fees that are, or may be imposed, by the Public Utilities Commission.

This bill would include regulatory fees that are, or may be imposed, by the department within the above provision.

(7) Existing law requires an application for a transfer of registration of commercial motor vehicles, as specified, to include a specified declaration by the owner to the department.

This bill would require, additionally, that an application for a transfer of a commercial motor vehicle that exceeds 10,000 pounds declared gross vehicle weight, include a notification, made by the new registered owner, or that owner's designee, of the declared gross vehicle weight of the commercial motor vehicle, singly or in combination.

(8) Existing law requires the department, upon the application for transfer of ownership of a fleet of vehicles apportionately registered to permit registration in the new owners name without reassessing the registration, weight, and vehicle license fees, if the application of the new ownership is for the same fleet interstate operation as the previous owner.

This bill would require the new owner, lessee, or their designee, to certify the declared gross vehicle weight of the vehicle or vehicles on a single form for all commercial motor vehicles registered in the fleet owner's or lessee's name and would impose related duties on the department.

(9) Existing law authorizes local governments to impose additional registration or renewal registration fees on vehicles, as specified.

This bill would exempt trailers and semitrailers from these provisions and would impose those additional fees on the owners of all commercial motor vehicles, as specified.

(10) Under existing law, the fee for a foreign trip permit issued for a commercial trailer meeting the registration requirements of a foreign jurisdiction is \$5.

This bill would delete that fee.

(11) Existing law requires, in addition to any other registration fee, the payment of fees for the registration of any commercial vehicle based on its unladen weight.

This bill would set forth an additional schedule. The existing schedule, as revised, would apply to any commercial vehicle singly, or in combination, that operates with a declared gross vehicle weight of 10,000 pounds or less, including pickup trucks. The new schedule of fees would apply to the registration of commercial motor vehicles, operated either singly or in combination, with a declared gross vehicle weight of 10,001 pounds or more. The new schedule would not include pickup truck weight fees. The bill would revise the definition of "farm trailers" to conform to the weight changes made by the bill.

The bill provides a schedule of fines for persons who violate any declared gross vehicle weight limitations provided for in the bill.

The bill would require that, upon the operation of a commercial motor vehicle at a greater gross vehicle weight than had been reported to and registered by the department, a new registration application be made to the department.

(12) The bill would require the Department of the California Highway Patrol, after consultation with representatives from the Department of Transportation, the Board of Equalization, the Department of Motor Vehicles, and the commercial vehicle industry, to provide, on or before an unspecified date, recommendations to the Legislature for actions to be taken to ensure compliance with the provisions of the bill.

(13) The bill would require the Department of Motor Vehicles, in consultation with the Department of the California Highway Patrol, the Department of Transportation, the Board of Equalization, and the commercial vehicle industry, to review and report on or before January 1, 2003, and annually thereafter, to the Legislature its findings and, if applicable, make any recommendation as to the necessary adjustments in the fee schedule, to ensure that revenue neutrality is obtained and maintained for all affected entities and funds. This bill would require the Controller, in consultation with the Department of Motor Vehicles and the Department of Finance, to recalculate the distribution of motor vehicle license fees paid by commercial vehicles pursuant to the gross vehicle weight fee schedule and transfer those sums, as specified. This bill would provide that the scheduled disbursement of motor vehicle license fee revenues is not subject to the existing law limitation that General Fund revenues may not be continuously appropriated beyond a certain date. This bill would create special funds in the General Fund which would be continuously appropriated for allocation to each county, city, and city and county in the same manner as those funds were received pursuant to specified provisions of the Vehicle License Fee Law. The bill would appropriate \$3,520,809 to the Department of Motor Vehicles from the Motor Vehicle Account in the State Transportation Fund for purposes of implementing the bill.

Because violations of certain of the above fee, weight, and declaration requirements would be a crime under existing law, the bill would impose a state-mandated local program by creating new crimes.

(14) This bill would incorporate additional changes in Section 5101 of the Vehicle Code proposed by AB 1515, to be operative only if this bill and AB 1515 are enacted and become effective on or before January 1, 2001, each bill amends Section 5101 of the Vehicle Code, and this bill is enacted last.

This bill would incorporate additional changes in Section 5103 of the Vehicle Code proposed by AB 1515, to be operative only if this bill and AB 1515 are enacted and become effective on or before January 1, 2001, each bill amends Section 5103 of the Vehicle Code, and this bill is enacted last.

This bill would incorporate additional changes in Section 9250.7 of the Vehicle Code proposed by SB 1333, to be operative only if this bill and SB 1333 are enacted and become effective on or before January 1, 2001, each bill amends Section 9250.7 of the Vehicle Code, and this bill is enacted last.

This bill would incorporate additional changes in Section 9250.14 of the Vehicle Code proposed by AB 2227, to be operative only if this bill and AB 2227 are enacted and become effective on or before January 1, 2001, each bill amends Section 9250.14 of the Vehicle Code, and this bill is enacted last.

This bill would incorporate additional changes in Section 9400 of the Vehicle Code proposed by AB 2749, to be operative only if this bill and AB 2749 are enacted and become effective on or before January 1, 2001, each bill amends Section 9400 of the Vehicle Code, and this bill is enacted last.

(15) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(16) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 862 (AB 1843) Ackerman. Bank and corporation taxes: income year.

The Bank and Corporation Tax Law, in general, imposes a franchise tax measured by the net income from California sources of the preceding calendar or fiscal year, which is referred to as the "income year." The calendar or fiscal year for which the tax is imposed for the privilege of doing business in this state is referred to as the "taxable year."

This bill would, for calendar or fiscal years beginning on or after January 1, 2000, delete references to "income year," and instead define "taxable year" as the calendar or fiscal year upon the basis of which the net income is computed.

Ch. 863 (AB 2892) Committee on Revenue and Taxation. Income and bank and corporation taxes: federal conformity: clarifications.

The Personal Income Tax Law, the Bank and Corporation Tax Law, and related administrative laws provide specified conformity to federal income tax law with respect to information returns and returns of individuals and fiduciaries.

This bill would provide additional conformity to those federal provisions, consolidate filing requirement provisions, delete obsolete provisions, and make related clarifying and technical changes.

Ch. 864 (AB 2895) Committee on Revenue and Taxation. Personal income and bank and corporation taxes: credits.

Under existing law, a taxpayer under the Personal Income Tax or the Bank and Corporation Tax Law may claim certain tax incentives for activities conducted in a local agency military base recovery area (LAMBRA), including, among others, a tax credit for a specified portion of the wages paid to a qualified disadvantaged individual or a qualified displaced employee.

The Personal Income Tax Law and the Bank and Corporation Tax Law provide a credit against the taxes imposed by those laws to a qualified taxpayer for hiring a qualified disadvantaged individual for employment in a Manufacturing Enhancement Area.

This bill would require, for qualified disadvantaged individuals or qualified displaced employees hired on or after January 1, 2001, the taxpayer to obtain from the Employment Development Department or specified agencies a certification that the individual or employee meets the eligibility requirements for these programs. The bill would also require the taxpayer to retain a copy of the certification and provide it upon request to the Franchise Tax Board.

Ch. 865 (SB 1445) Kelley. Manufacturing enhancement areas.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Existing law requires the Trade and Commerce Agency, in accordance with certain criteria, to designate an applicant jurisdiction or combination of jurisdictions as a manufacturing enhancement area in which certain tax incentives are to apply. The Personal Income Tax Law and the Bank and Corporation Tax Law specify, as tax incentives for a trade or business operating within a manufacturing enhancement area, credits against the taxes imposed under those laws to a qualified taxpayer for hiring a qualified disadvantaged individual for employment in a manufacturing enhancement area.

This bill would require the Trade and Commerce Agency to approve a proposal to expand a manufacturing enhancement area, by no more than a specified 200 acre site, if the agency finds that the additional territory proposed to be included in the manufacturing enhancement area meets certain criteria and certain other conditions are met. This bill would also include agricultural production and crop preparation services for market among those trades or businesses that may, if eligible, claim those tax credits applicable to a manufacturing enhancement area.

This bill would make legislative findings and declarations as to the necessity for a special statute.

Ch. 866 (SB 1946) McPherson. Kinship support services.¹⁸

Existing law requires the State Department of Social Services to conduct a Kinship Support Services Program that is a grants-in-aid program providing startup and expansion funds for local kinship support services programs that provide community-based family support services to kinship caregivers and the children placed in their homes by the juvenile court or who are at risk of dependency or delinquency. Under existing law, the counties participating in the program must meet specified requirements, including the requirement that 40% or more of dependent children in the county be in relative care placements.

This bill would prescribe a priority for county participation in the program.

The bill would provide, however, that a county shall not become ineligible for grant funds due to a reduction in the percentage of relative care placements.

The bill would also require the department to contract for a study of the cost and benefits, and the effectiveness, of the Kinship Support Services Program.

This bill would appropriate \$2,775,000 from the General Fund to the department to fund the Kinship Support Services Program, including the study required by the bill, and would appropriate \$225,000 from the General Fund to the department to fund specified technical assistance to be provided to the program.

Ch. 867 (SB 1988) Speier. Insurance fraud.

(1) The Automotive Repair Act provides for the licensing and regulation of automotive repair dealers, including auto body repair shops, by the Bureau of Automotive Repair in the Department of Consumer Affairs.

This bill would require the bureau to undertake a pilot program under which the bureau would inspect insured vehicles that have undergone auto body repair for the purpose of identifying work that has not been done according to specifications in the final invoice. This bill would require the pilot program to be completed by June 30, 2003, and would require a report to the Legislature by September 1, 2003. The bill would appropriate \$100,000 from the Vehicle Inspection and Repair Fund to the Department of Consumer Affairs for allocation to the Bureau of Automotive Repair for the implementation of this pilot program.

(2) The Medical Practice Act, the Chiropractic Act, and the State Bar Act provide for the licensing and regulation of physicians, chiropractors, and attorneys, respectively. Under these and other related insurance fraud provisions, certain activities involving the engaging of runners, cappers, steerers, or other persons to procure patients or clients are a crime, and with respect to physicians and attorneys, are grounds for disciplinary action.

This bill would increase the penalties for these violations, as specified, thereby imposing a state-mandated local program. This bill would require a person licensed under the Medical

NOTE: Superior numbers appear as a separate section at the end of the digests.

Practice and Chiropractic Acts to have his or her license to practice the profession revoked for a period of 10 years upon the 2nd conviction or upon conviction of multiple counts, as specified, of certain insurance fraud offenses. This bill would provide that engaging in any conduct prohibited under specified provisions related to false or fraudulent insurance claims or statements shall constitute cause for disbarment or suspension of an attorney from the State Bar. This bill would require the applicable licensing boards to investigate a licensee against whom an information or indictment has been filed that alleges a violation of specified provisions prohibiting conduct involving false or fraudulent insurance claims or statements, if the district attorney does not otherwise object to initiating an investigation. This bill would also require a business organization that holds itself out to the public as an organization practicing medicine, or that a reasonably informed person would believe is engaged in the practice of medicine, to be owned and operated only by physicians, with certain exceptions, as specified. This bill would also require a district attorney to notify the State Board of Chiropractic Examiners whenever a chiropractor is charged with a felony, as specified.

(3) Existing law provides for the licensing and regulation of insurers by the Insurance Commissioner. Existing law provides for the funding of various activities relating to insurance fraud through assessments on insurers, including an assessment of \$1,000 annually per insurer to fund the costs of administration and operation of the Bureau of Fraudulent Claims in the Department of Insurance.

This bill would increase that assessment to \$1,300. This bill would require insurers that issue automobile liability or collision policies to inspect a statistical sampling of the vehicles for which claims are approved for auto body repairs to determine whether the work paid for was appropriately done, as specified. This bill would require an insurer issuing auto policies to provide each insured with an Auto Body Repair Consumer Bill of Rights developed by the department containing specified elements. This bill would authorize the Insurance Commissioner to declare a region of the state as an auto insurance fraud crisis area, which declaration would be in effect for no more than 2 years unless extended by the commissioner, thereby providing for various steps to be taken by insurers with regard to the payment of auto insurance claims. This provision of the bill would remain in effect only until January 1, 2006, unless extended. This bill would also provide for a doubling of fines applicable to certain insurance fraud offenses committed in an auto insurance fraud crisis area.

(4) This bill would enact other related provisions. This bill would state the intent of the Legislature with respect to this act, which would be known as the Anti-Auto Theft and Insurance Fraud Act of 2000.

(5) This bill would require the provisions relating to the powers and duties of the State Board of Chiropractic Examiners, which was created by an initiative statute, to be submitted to the voters for approval consistent with that initiative statute.

(6) This bill would provide that the changes proposed by this bill to Section 650 of the Business and Professions Code, Section 750 of the Insurance Code, and Section 549 of the Penal Code shall not become operative if AB 2594 is also enacted and becomes operative, on or before January 1, 2001, as specified, and that bill also amends those sections.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 868 (SB 2127) Schiff. Drinking water: hexavalent chromium: study.

Existing law makes various provisions for the prevention of disease and the promotion of health, and imposes various requirements on the State Department of Health Services in this regard.

This bill would require the department to determine the levels of hexavalent chromium (chromium-6) in the drinking water supplied by the public water systems in the San Fernando Basin aquifer and, in consultation with the Office of Environmental Health Hazard

Assessment, assess the exposures and risks to the public due to the levels of hexavalent chromium determined. The bill would require the department to report its findings to the Governor and the Legislature, no later than January 1, 2002.

Ch. 869 (SB 2180) Committee on Health and Human Services. Adult day health care: licensing.

(1) Existing law establishes the Long-Term Care Committee within the California Department of Aging. The duties of the committee are to act as an advisory body to the department and advise the Director of the California Department of Aging on development of community-based long-term care programs.

Existing law requires the committee to review and make recommendations on guidelines to evaluate community need to be adopted by the director.

This bill, instead, would require the department to prepare guidelines to evaluate community need to be adopted by the local planning council.

(2) Existing law requires the committee to review county adult day health care plans.

This bill would require the department, rather than the committee, to review county adult day health care plans.

(3) Existing law requires the committee to review and make recommendations to the director on individual proposals for startup funds and original licensure of proposed adult day health care centers. Existing law authorizes the committee to conduct onsite inspections to evaluate a proposed provider or facility. Existing law provides the criteria upon which the review is to be based.

This bill would delete these provisions.

(4) Existing law requires the director to make recommendations to the Licensing and Certification Division in the State Department of Health Services on licensure.

This bill would specify criteria the director is required to use in making the recommendation.

(5) Existing law establishes requirements for the issuance by the department and continued maintenance of provisional and regular licenses for the operation of adult day health care centers, as well as requiring a center to be approved by the department for eligibility certification as an adult day health care center under Medi-Cal.

This bill would revise these licensing and certification requirements.

This bill would also permit the appeal of actions taken by the department under these provisions.

Ch. 870 (SB 2182) Committee on Health and Human Services. Environmental health: food.

Existing law, the Sherman Food, Drug, and Cosmetic Law, contains various provisions regarding the packaging, labeling, and advertising of food, drugs, and cosmetics. Violation of any of these provisions is a crime.

Existing law defines "food" for purposes of these provisions.

This bill would expand the definition of food to include any article defined as food pursuant to the Federal Food, Drug, and Cosmetic Act. It would also define "infant formula" and "medical food" for purposes of the above state law provisions. By expanding the definition of a crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 871 (AB 96) Shelley. Retirement benefits.

Existing provisions of the Public Employees' Retirement Law define "local safety member," for purposes of prescribing benefits and contribution rates, to include, among

others, county peace officers. County peace officers are defined as specified employees of a sheriff's office of a contracting agency. Existing law prohibits contracts or contract amendments from providing retirement benefits to some, but not all, members in specified local membership classifications, including county peace officers. Existing law also prohibits provision of different retirement benefits for any subgroup within those same membership classifications.

This bill would create a new local membership classification, designated "local sheriff," that would, subject to contract amendment, apply to specified employees of the sheriff's office in San Francisco County. The bill would provide that persons in the local sheriff classification would no longer be included in the county peace officer classification. The bill would also amend the definition of local safety members to include persons in the local sheriff classification.

Ch. 872 (AB 1889) Cedillo. State funds: unionization.

Nothing in existing law prohibits recipients of state funds from using the funds to discourage unionization.

This bill would prohibit a state contractor that receives \$50,000 or more under a state contract, during the term of the contract, including any extension or renewal, from assisting, promoting, or deterring union organizing, as defined, in this state and would prohibit state funds from being used to reimburse those activities. The bill would also prohibit a grant recipient, state contractor, public employer, or private employer who receives state funds and meets other requirements from using state funds to assist, promote, or deter union organizing. The bill would prohibit an employer who conducts business on state property pursuant to a contract or concession agreement with the state or a state agency to use the state property to hold a meeting with any employees or supervisors if the purpose of the meeting is to assist, promote, or deter union organizing. The bill would impose civil penalties for a violation of the above provisions. The bill would make an employee of a public employer that receives state funds personally liable to the state for knowingly authorizing a use of state funds to assist, promote, or deter union organizing.

The bill would require specified recipients of state funds to comply with certification and recordkeeping requirements relating to the use of state funds. The bill would provide that it does not apply to an expenditure made prior to January 1, 2001, or to a grant or contract awarded prior to January 1, 2001, except as specified.

Ch. 873 (AB 2086) Reyes. Farm labor vehicles: unsafe operation.

(1) Existing law prohibits any person from operating a farm labor vehicle, as defined, except to take the vehicle unladen to a repair shop, after notice by the Department of the California Highway Patrol to the owner that the vehicle is in an unsafe condition or is not equipped as required by the Vehicle Code, or any regulations adopted thereunder, until the vehicle and its equipment have been made to conform with the requirements of that code, or any regulations adopted thereunder, and approved by the department.

This bill would prohibit a person from operating a farm labor vehicle, except as may be necessary to return the unladen vehicle or combination of vehicles to the residence or place of business of the owner or driver, or to a garage, after notice by the department to the owner that the vehicle is in an unsafe condition or is not equipped as required by the Vehicle Code, as prescribed. The bill would make it a misdemeanor for any person to operate a farm labor vehicle in violation of this provision while the vehicle is in a condition that presents an immediate safety hazard, as defined. To the extent that this bill would change the definition of a crime, the bill would impose a state-mandated local program. The bill would require a violation of these provisions be punished by a fine of not less than \$1,000 and not more than \$5,000, or both that fine and a sentence of confinement for not more than 6 months in the county jail. The bill would prohibit the suspension of any part of the fine.

The bill would make it a misdemeanor for any person to operate a farm labor vehicle in a condition that presents an immediate safety hazard, or in violation of specified provisions of the Vehicle Code. The bill thereby would impose a state-mandated local program by creating a new crime. The bill would require that a violation of these provisions be punished by a fine of not less than \$1,000 and not more than \$5,000, or both that fine and a sentence of confinement for not more than 6 months in the county jail. The bill would prohibit the suspension of any part of the fine.

The bill would authorize any member of the Department of the California Highway Patrol to impound a farm labor vehicle operated in violation of these provisions, as prescribed, and would provide for its release from impoundment under specified conditions.

The bill would provide that a farm labor vehicle is subject to forfeiture as a nuisance if it is driven on a highway in violation of the specified provisions and has been impounded by the department as specified above for a second or subsequent time. The bill would specify the procedure to be followed for vehicle forfeiture.

The bill would make conforming changes.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 874 (AB 2383) Keeley. Public employee health benefits: covered employees: retiree health benefits.

(1) Existing law, the Public Employees' Medical and Hospital Care Act, defines "employee" for purposes of eligibility for benefits under the act and excludes from that definition specified officers and employees who are employed less than half time. Employee contributions under the act are deposited in the Public Employees' Health Care Fund, a continuously appropriated fund.

This bill would make the provisions of that act applicable to specified employees of a school or agency, as defined, at the option of its governing body, and would define annuitants for purposes of these provisions. By expanding eligibility for benefits under the act, the bill would increase the contributions to a continuously appropriated fund, thereby making an appropriation.

(2) Existing law, the Teachers' Retirement Law, provides that the State Teachers' Retirement System shall develop a program to provide health care benefits for members, beneficiaries, children, and dependent parents, as defined.

This bill would require the Teachers' Retirement Board to report to the Legislature, on or before April 1, 2001, on a prescription drug program and a health benefits program for retired members, as specified, and would authorize the Public Employees' Retirement System to submit a proposal to administer a health benefits program for retired members of the State Teachers' Retirement System and their dependents.

Ch. 875 (AB 2481) Romero. Apprentice employment: apprenticeship standards.

(1) Existing law requires contractors on public works who employ journeymen or apprentices to contribute to a fund to administer certain apprenticeship programs, as specified. Existing law also requires the California Apprenticeship Council to make prescribed grants to apprenticeship programs at the end of each fiscal year.

This bill would revise and recast the provisions prescribing grants to apprenticeship programs. The bill would also provide that contributions be deposited into the Apprenticeship Training Contribution Fund, a continuously appropriated fund, which the bill would create. By providing for the deposit of moneys into a continuously appropriated fund, the bill would make an appropriation.

(2) Under existing law, a contractor or subcontractor that employs apprentices on a public work in a contract for 50 or more working days, must comply with various conditions

relating to that employment, including payment of the prevailing wage and employing apprentices only in the craft or trade for which they are registered. Existing law provides penalties for knowing violations of these provisions. If the Administrator of Apprenticeship determines that there has been a knowing violation, the administrator is required to deny the violator the right to bid on any public works contract for specified periods of time.

This bill would delete the reference to days thereby making those provisions applicable regardless of the length of the contract.

This bill would instead impose the above penalties on a contractor or subcontractor that is determined by the Chief of the Division of Apprenticeship Standards to have knowingly committed a serious violation of the provisions governing employment of apprentices on public works. These penalties may be reduced if the chief determines that they would be disproportionate to the severity of the violation. The bill would also provide that the chief has discretion as to whether to suspend a violator's right to bid on or be awarded or perform work as a subcontractor on any public works contracts. The bill would also make related, technical, and clarifying changes.

(3) Existing law provides for apprenticeship programs within the Division of Apprenticeship Standards in the Department of Industrial Relations. Existing law also requires the division, on or before January 1, 2001, to establish and validate minimum standards for the competency and training of electricians, as defined, through a system of testing and certification; establish fees necessary to implement those requirements; and establish and adopt regulations for enforcement.

This bill instead would require those standards, fees, and regulations to be established on or before July 1, 2001. The bill would also make a clarifying change.

Ch. 876 (AB 2509) Steinberg. Employment: remedies for employment law violations.

Existing law authorizes the Labor Commissioner to conduct administrative hearings and issue orders, decisions, and awards for recovery of wages, penalties, and other demands for compensation properly before the Division of Labor Standards Enforcement or the commissioner. Existing law requires these awards for unpaid wages to accrue interest at a specified adjusted annual rate determined under the tax laws.

This bill would instead require this rate to be the same as the legal rate of interest payable upon a contract obligation in default where the contract does not otherwise specify the rate of interest.

Existing law provides that any order, decision, or award made by the Labor Commissioner in these administrative proceedings may be appealed by filing an action in the municipal or superior court.

This bill would require employers filing such an appeal to post a prescribed undertaking and would provide for disposition thereof.

Under existing law, an employer in the building and construction industry is liable for a penalty of up to 30 days' wages and fringe benefits to any employee paid by a check, draft, or voucher that is drawn on a nonexistent account or that is dishonored for insufficient funds if the instrument is presented for payment within 30 days of receipt. This penalty does not apply if the employer can establish that the violation was unintentional.

This bill would make this penalty applicable to all employers, as specified, and would make related conforming and technical, nonsubstantive changes.

Under existing law, the prevailing party, with certain exceptions, is entitled to an award of attorney's fees in an action brought for nonpayment of wages, fringe benefits, or health and welfare or pension fund contributions.

This bill would add an express exception for employee actions to recover underpayment of the minimum wage or specified overtime wages, in which a prevailing employee but not the employer is expressly authorized to recover attorney's fees. The bill would also require the court, in an action to recover unpaid wages, to award interest, as specified.

Under existing law, employers are required to provide employees semimonthly, with payment of wages, an itemized statement listing gross wages, total hours worked by employees paid by the hour, specified deductions, net wages, and certain other information. Violation of these requirements is a misdemeanor. Under existing law, an employee suffering injury as a result of the employer's knowing or intentional failure to comply with this requirement is entitled to recover the greater of actual damages or \$100, plus costs and reasonable attorney's fees.

This bill would provide that total hours need not be disclosed for salaried employees exempt from payment of overtime compensation. The bill would impose a state-mandated local program by requiring disclosure of the number of piece-rate units and the applicable piece rate for employees paid on that basis and by requiring disclosure of all applicable hourly rates and the number of hours worked by the employee at each rate. The bill would revise the liability of employers for knowing or intentional noncompliance with this disclosure requirement to entitle an aggrieved employee to recover the greater of actual damages or penal damages of \$50 for the initial pay period in which a violation occurs and \$100 per employee for each subsequent pay period in which the violation occurs up to \$4,000, plus costs and reasonable attorney's fees.

Existing law authorizes the Industrial Welfare Commission to adopt orders respecting wages, hours, and working conditions.

This bill would require any employer that requires any employee to work during a meal or rest period mandated by an order of the commission to pay the employee one hour's pay for each workday that the meal or rest period is not provided.

Existing law prohibits employers from receiving or deducting gratuities intended for employees from wages otherwise payable. Violation is a misdemeanor. Under existing law, this prohibition is not applicable to an employee that has a guaranteed wage or salary that is at least the higher of the federal or state minimum wage.

This bill would delete the above exemption, thereby imposing a state-mandated local program. As so revised, the bill would make these provisions applicable to amounts paid by patrons directly to a dancer subject to specified orders of the commission. The bill would also impose a state-mandated local program by requiring employers to remit to their employees gratuities paid by credit card, without deduction for credit card fees, not later than the next regular payday following the date the credit card payment is authorized by the patron.

Existing law requires employers to keep specified payroll records.

This bill would require these payroll records to identify the number of piece-rate units earned by employees and any applicable piece rate paid to employees.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 877 (AB 2707) Florez. Farm labor contractors.

Under existing law, the Division of Labor Standards Enforcement in the Department of Industrial Relations, under the direction of the Labor Commissioner, enforces and administers the licensing and supervision of farm labor contractors. The division is required to maintain offices in specified locations, including Fresno.

This bill would specifically require the Labor Commissioner to ensure that the office maintained in Fresno has suitable facilities and sufficient personnel for the examination and licensing of farm labor contractors and for the processing of complaints against farm labor contractors or any agent of a farm labor contractor.

Ch. 878 (AB 2860) Kuehl. Talent services.

Under existing law, agreements for defined advance-fee talent service are subject to prescribed requirements, and persons in the business of providing advance-fee talent service

are subject to specified record-keeping requirements and record inspection by, and record copying at the request of, the Labor Commissioner, the Attorney General, district attorneys, city attorneys, and their representatives. Existing law requires a copy of these statutory provisions to be posted in the offices of every person in the business of providing advance-fee talent service.

This bill would revise the definition of advance-fee talent service.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 879 (SB 683) Perata. Employment relations: state.

The Ralph C. Dills Act provides that once an employee organization is recognized as the exclusive representative of an appropriate unit, it may enter into an agreement with the state employer providing for organizational security in the form of maintenance of membership or fair share fee deduction. The act provides that fair share fee deductions shall continue for 3 years from the effective date of the agreement or the duration of the agreement, whichever comes first.

The California Public Employment Relations Board has determined that arbitration clauses do not continue in effect after the expiration of a collective bargaining agreement with limited exceptions.

This bill would require the parties to the agreement to continue to give effect to the provisions of an expired memorandum of understanding, including provisions that supersede existing law, provisions relating to arbitration, no strike provisions, agreements covered in the Fair Labor Standards Act, or the deduction of fair share fees, if the Governor and the recognized employee organization have not agreed to a new memorandum of understanding and have not reached an impasse in negotiations. The bill would also provide that if the parties reach an impasse in negotiations, the state employer may implement any or all of its last, best, and final offer. It would require any proposal in this offer that, if implemented, would conflict with existing statutes or require the expenditure of funds to be presented to the Legislature for approval. The bill would provide that implementation of the last, best, and final offer would not relieve the parties of the obligation to bargain in good faith and reach agreement if any circumstances change.

This bill would provide that fair share fee deductions shall continue until the effective date of a successor agreement or implementation of the state's last, best, and final offer, whichever occurs first.

Ch. 880 (SB 1694) Ortiz. Public employees' retirement: membership election.

Under existing law, members of the State Teachers' Retirement System or the Public Employees' Retirement System, who become employed by any of a list of other public employers to perform service that requires membership in a different public retirement system, may elect to be excluded from membership in that different system and continue to have their service subject to their existing system.

This bill would make this election available to (1) members of the State Teachers' Retirement System who become employed by the state to perform that type of service and who meet specified criteria and (2) members of the Public Employees' Retirement System employed by the State Department of Education who are subsequently employed to perform service subject to coverage by the State Teachers' Retirement System.

Ch. 881 (SB 1999) Burton. Public work.

Existing law defines public works and establishes certain requirements that must be met by persons who enter into contracts for public works. Those requirements include provisions generally known as the prevailing wage laws. The prevailing wage laws require that all workers employed on public works be paid the general prevailing rate of per diem wages, as determined by the Director of Industrial Relations.

This bill would revise the definition of public works by providing that “construction” includes work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work. By requiring local government entities to comply with the provisions affecting public works, including the prevailing wage laws, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 882 (AB 448) Floyd. Retirement.

Existing law, the Public Employees’ Retirement Law, with respect to contract members of the Public Employees’ Retirement System, prohibits contracts or contract amendments from providing retirement benefits to some, but not all, members in specified local membership classifications, and from providing different retirement benefits for any subgroup, including, but not limited to, bargaining units or unrepresented groups, within those membership classifications.

This bill would provide that where a memorandum of understanding entered prior to August 11, 1988, provided a different retirement benefit formula for a subgroup of employees in a member classification, the contracting agency may, pursuant to a memorandum of understanding, amend its contract to provide the same retirement formula applicable to that subgroup to all or part of the contracting agency’s other employees in the same member classification.

Existing law authorizes the Board of Administration of the Public Employees’ Retirement System to establish a plan for classified school employees who are excluded from membership in the Public Employees’ Retirement System because the employees serve on less than a full-time basis. All development and administration costs of that plan are required to be paid by employees and plan participants.

This bill would revise this latter provision to require that all development and administration costs of the plan shall be paid by school employers and members, as determined by the board.

Existing law, the County Employees Retirement Law of 1937, authorizes adoption of various formulae for calculation of retirement allowances and provides that a member’s allowance shall be calculated under any one formula only for the period of time that the formula was in effect in the county.

This bill would authorize counties or districts, subject to approval by the county board of supervisors, to provide service retirement allowances for general members based on an alternative 2% at age 55 formula, as specified.

Ch. 883 (AB 2043) Maddox. Workers’ compensation: injuries.

Under existing law, a person injured in the course of employment is generally entitled to receive workers’ compensation on account of that injury. Existing law provides that, in the case of certain firefighting and law enforcement personnel, the term “injury” includes various medical conditions that are developed or manifested during a period while the person is in that service, and establishes a disputable presumption in this regard.

This bill would provide that in the case of certain local firefighting and law enforcement personnel, the term “injury” also includes meningitis that develops or manifests itself during a period while the person is in that service.

This bill would make other technical changes.

Ch. 884 (AB 2297) Calderon. Insurance: workers' compensation: renewal notice.

Existing law requires a notice of nonrenewal at least 30 days, but not more than 120 days, in advance of the end of the policy period of a policy of workers' compensation except for 6 specified situations, including when the insurer has made a written offer to the insured to renew the policy at a premium rate increase of less than 25%. Existing law does not define the term "premium rate."

This bill would require an insurer, if the premium rate charged on a workers' compensation policy is to be increased by 25% or more, to provide the policyholder with written notice of a renewal offer not less than 30 days before the policy renewal date. The bill would define the term "premium rate" for purposes of the renewal notification requirements.

Existing law provides for an advisory organization, as defined, to provide the Insurance Commissioner with advisory pure premium rates for workers' compensation insurance and for employers liability insurance incidental thereto and written in connection therewith.

This bill would require that within 60 days of receiving an advisory pure premium rate filing the Insurance Commissioner hold a public hearing, and within 30 days of its conclusion, approve, disapprove, or modify the proposed rate.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 885 (AB 2410) Machado. Wages: state employees.

Existing law prescribes requirements respecting employer payment of wages, including timely payment thereof, that are applicable to all employers, other than the state, counties, cities, and other municipal corporations. These provisions of existing law also prescribe penalties for violations, make certain violations misdemeanors, and provide for enforcement by the Division of Labor Standards of the Department of Industrial Relations and by district attorneys and city prosecutors, as specified.

This bill would delete specified exemptions for the state as an employer from these provisions.

Ch. 886 (SB 1327) Escutia. Employees: inspection of personnel records by employees.

(1) Existing law requires employers to make employee personnel files available for inspection by employees, and prescribes procedures for that inspection. Existing law exempts from this requirement, public employers, the state or any state agency, and specified public school districts. Other existing law requires public school districts, community colleges, cities, counties, or local agencies to also make personnel records available to employees, and prescribes various procedures for this inspection, depending on who the employer is.

This bill would harmonize the law applicable to all of the above employers with regard to inspection of personnel files. The bill would require an employer to make the contents of personnel files available to an employee at reasonable intervals and reasonable times, as provided, but would exempt from inspection, records relating to the investigation of a criminal offense, letters of reference, and specified ratings and reports.

This bill would also provide that, with respect to a public school district or a community college, information of a derogatory nature shall not be entered into an employee's personnel records unless the employee is given an opportunity to review and comment on that information. The bill would exempt public safety officers and employees of state agencies from its provisions. By imposing new duties on local agencies, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 887 (SB 1820) Burton. Workers' compensation: cancer: peace officers and safety officers.

Existing workers' compensation law provides that in the case of active firefighting members of certain state and local fire departments and in the case of certain peace officers, a compensable injury includes cancer that develops or manifests itself during the period while the firefighter or peace officer demonstrates that he or she was exposed, while in the service of the public agency, to a known carcinogen, as defined, and that the carcinogen is reasonably linked to the disabling cancer. Existing law establishes a presumption that the cancer in these cases is presumed to arise out of and in the course of employment, unless the presumption is controverted by evidence that the primary site of the cancer has been established and that the carcinogen to which the member has demonstrated exposure is not reasonably linked to the disabling cancer.

This bill would extend the application of these provisions to additional categories of peace officers, as specified.

Ch. 888 (AB 1834) Havice. Water Replenishment District of Southern California.

(1) The Water Replenishment District Act authorizes the formation of water replenishment districts and grants specified powers and duties to those districts.

This bill would make legislative findings and declarations and a statement of legislative intent relating to the Water Replenishment District of Southern California.

The bill would require the State Auditor to perform an audit with regard to operations and management of the district, as specified. The bill would prohibit the district from incurring indebtedness on or after January 1, 2001. The bill would authorize the district to increase a specified water replenishment assessment only to reflect increases in the Consumer Price Index, as prescribed. The bill would require the district to pay for any capital project undertaken by the district with existing reserves or with funds generated from the imposition of the water replenishment assessment. The bill would require the formation of a technical advisory commission for the purposes of evaluating projects proposed by the district, as specified. The bill would repeal these provisions on January 1, 2003.

The bill would impose additional requirements on the district in connection with competitive bidding.

By imposing requirements on the district, the bill would create a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(3) The bill would become operative only if SB 1979 of the 1999–2000 Regular Session is enacted and becomes operative on or before January 1, 2001.

Ch. 889 (AB 1944) Wayne. Williamson Act.

(1) Existing law, the Williamson Act, provides that a landowner and a city or county may enter into a mutually beneficial contract to restrict the use of agricultural land by creating an agricultural preserve. The act defines a compatible use as any use determined by the county or city administering the preserve or by the act to be compatible with the agricultural,

recreational, or open-space use of land within the preserve and subject to the contract. The act provides that certain conditions and restrictions for compatible uses do not apply to uses that are expressly specified within the contract prior to June 7, 1994, and that constituted a compatible use under the act when the contract was signed or amended.

This bill would provide that a compatible use is expressly specified within the contract only if it is specifically enumerated within the 4 corners of the Williamson Act contract without reference to other documents.

(2) Existing law permits the county board of supervisors or city council to grant tentative approval for cancellation of a contract if it finds that the cancellation is either consistent with the purposes of the act or in the public interest.

This bill would require the board or council to mail a notice to the Director of Conservation of its acceptance of the landowner application for tentative cancellation. The bill would require the director to submit his or her comments on the proposed cancellation to the board or council.

Ch. 890 (AB 2939) Committee on Natural Resources. Air resources.

Existing law contains a comprehensive plan to protect and enhance the ambient air quality of the state.

This bill would make technical changes to those provisions, including correcting erroneous cross-references and deleting obsolete provisions.

This bill would incorporate additional changes in Section 41865 of the Health and Safety Code proposed by AB 2889 to become operative only if both bills are enacted, as specified, and become operative on or before January 1, 2001, and this bill is enacted last.

Ch. 891 (SB 1888) Hayden. Public contracts: sweatshop labor.

Under existing law, state agencies must provide in every contract for procurement that no equipment, materials, or supplies provided under the contract are produced by forced labor, convict labor, or indentured labor under penal sanction. This prohibition does not apply to procurement related to a public works contract.

This bill would require the prohibition to also include abusive forms of child labor or exploitation of children in sweatshop labor, as defined, and would state the intent of the Legislature to adopt a procurement policy prohibiting procurement of materials produced with the use of these forms of labor.

Ch. 892 (SB 1959) Lewis. Workers' compensation insurance: reinsurance bonds.

Existing law provides for the regulation of insurers by the Insurance Commissioner. Existing law provides that every insurer desiring to reinsure the injury, disablement, or death portions of policies of workers' compensation insurance under the class of disability insurance shall maintain on file with the commissioner a bond, or a cash deposit in lieu of a bond, in favor of the commissioner as trustee for the beneficiaries of awards of compensation against the insurer, to the extent of that reinsurance. Existing law requires that the amount of the bond be based on the aggregate of the present values at 6% interest of determined and estimated future payments upon compensation claims.

This bill would require an insurer or reinsurer desiring to have the ability to undertake that reinsurance to notify the commissioner of its intent to do so, and would impose a late fee for a failure to notify the commissioner. This bill would require the commissioner to establish a list of all insurers or reinsurers authorized to undertake that reinsurance, as specified. The bill would provide that if the reinsurer fails to maintain a bond or cash deposit as required, the commissioner may disallow all or a portion of any reserve credits claimed by the ceding insurers. This bill would also allow the computation of the amount of the bond to be based either on the aggregate of the present values at 6% interest or at the rate of the reinsurance company's investment yield as determined by the NAIC Insurance Regulatory System Ratio Number 5 for Property and Casualty Companies, whichever is lower, of determined and

estimated future payments upon compensation claims, as specified. This bill would state it is not to be construed to alter or affect the deposit obligations of former self-insured employers as provided in a specified provision of the Labor Code.

Ch. 893 (SB 1960) Burton. Public school employee labor relations.

(1) Under existing law, public school employees have the right to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employer-employee relations. Pursuant to that existing law, public school employees also may enter into an organizational security arrangement under which they either have the right to refuse to join or participate in the activities of employee organizations or the right to join the recognized employee organization or pay the organization a service fee. Existing law, subject to certain limitations, provides that organizational security is within the scope of representation and defines "organizational security" in accordance with those rights. Existing law provides that an organizational security arrangement, to be effective, must be agreed upon by both parties to the agreement, and authorizes the public employer, when the issue is being negotiated, to require that the organizational security arrangement be severed from the remainder of the proposed agreement and cause that arrangement to be voted upon separately by all members in the appropriate negotiating unit.

This bill would delete those provisions pertaining to the effectiveness of the organizational security arrangement. The bill would instead require public school employees who are in a unit for which an exclusive representative has been selected to be required, as a condition of continued employment, either to join the recognized employee organization or to pay the organization a fair share service fee, and would make conforming changes in related provisions.

The bill would establish a procedure for employees to petition for the rescission or reinstatement of this form of arrangement, would provide that the cost of conducting the rescission election would be borne by the Public Employment Relations Board and that the cost of a reinstatement election would be borne by the petitioning party, and would require the election for reinstatement to be conducted at the worksite by secret ballot.

The bill would also provide that if the arrangement is rescinded, employees could choose to negotiate either of the 2 forms of organizational security permitted under existing law. The bill would require the employer to remain neutral in an election to rescind that arrangement and would prohibit the employer from participating in any such election conducted under those provisions unless required to do so by the Public Employee Labor Relations Board. By requiring the employer to participate in the election if required to do so by the board, the bill would impose a state-mandated local program.

(2) Existing law requires employees of the California State University and employees of the University of California, other than faculty of the University of California who are eligible for membership in the Academic Senate, to either join the employee organization or to pay the organization a fair share service fee. Existing law establishes a procedure for employees to petition for rescission or reinstatement of this form of organizational security, and provides that the cost of conducting an election to rescind or reinstate that organizational security arrangement be borne by the petitioning party.

This bill would instead require the Public Employment Relations Board to bear the cost of conducting an election to rescind that arrangement.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 894 (SB 1979) Escutia. Water replenishment districts.

(1) The Water Replenishment District Act provides for the formation of water replenishment districts and grants specified authority to those districts.

This bill would revise provisions regarding the constructing, leasing, purchasing, or contracting for a capital improvement project. The bill would impose requirements regarding district contracts, a reserve for the purchase of water, audited financial statements, and estimated reserve funds. The bill would require the district to apply the estimated yearend balance in excess of a prescribed amount to a replenishment assessment rate reduction or to the purchase of water in the succeeding fiscal year.

By imposing additional duties on a water replenishment district, the bill would impose a state-mandated local program. The bill would provide that its provisions shall only become operative if AB 1834 is enacted and becomes effective on or before January 1, 2001.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 895 (AB 674) Wiggins. Personal services contracts: janitorial and housekeeping services.

Existing law permits state agencies to enter into personal services contracts when certain conditions are met.

Existing law requires a state agency that enters into a personal services contract for certain types of workers to include provisions for employee benefits that are valued at least 85% of the state employer cost of providing comparable benefits to state employees performing similar duties. The types of workers covered by this requirement include persons that provide janitorial and housekeeping services, custodians, food service workers, laundry workers, window cleaners, and security guards.

This bill would recast these provisions and would permit contractors to comply with these provisions by a cash payment to employees, as specified.

The bill would permit the Department of General Services and the Department of Personnel Administration to adopt guidelines and regulations to implement these requirements.

Ch. 896 (AB 1733) Wildman. State Teachers' Retirement System: postretirement earnings.

Under the State Teachers' Retirement Law, the service retirement allowance of a retired member is generally required to be reduced if the member's postretirement compensation from specified activities exceeds a certain dollar amount.

This bill would, until January 1, 2008, eliminate the postretirement earnings limitation for retired members who return to work after retirement and who, for one year, have not performed any creditable service, as specified; increase that limitation, as specified, for other retired members; and make related findings and declarations. On January 1, 2008, existing law would be restored, except that the amount of allowable postretirement compensation would be increased.

Ch. 897 (AB 2456) R. Wright. State teachers' retirement: retirement option program.

The State Teachers' Retirement Law prescribes service retirement benefits for members of the Defined Benefit Program of the State Teachers' Retirement Plan which benefits are paid in the form of a monthly allowance.

This bill would establish a Retirement Option Program that would allow members of the Defined Benefit Program to elect to receive a lump-sum payment and a reduced monthly allowance, as specified. The bill would direct the board of administration of the system to implement the program no later than January 1, 2002, except as specified. The bill's provisions would be repealed on January 1, 2011.

Ch. 898 (SB 28) Peace. Primary elections.

(1) Existing law governing partisan primary elections, until 1996, provided for what is commonly known as a "closed" partisan primary, in which only persons who are registered members of a political party may vote the ballot of that political party. Those provisions were amended by the adoption of Proposition 198, an initiative statute approved by the voters at the March 26, 1996, direct primary election. The amendments made by Proposition 198 changed the primary system to what is known as a "blanket" primary, in which all registered voters may vote for any candidate for each public office, regardless of political affiliation and without a declaration of political faith or allegiance.

On June 26, 2000, the United States Supreme Court in *California Democratic Party v. Jones*, ruled that the state's "blanket" primary system established by Proposition 198 is unconstitutional because it violates a political party's First Amendment right of association.

This bill would repeal the amendments made by Proposition 198, and would reenact provisions similar to those in effect prior to 1996 providing for a "closed" partisan primary, but authorizing persons who decline to state a party affiliation to vote the ballot of a political party if authorized by the rules of that party, duly noticed to the Secretary of State, as provided. This bill would make certain conforming changes.

(2) Existing law requires specified information on a printed application that is distributed to voters for requesting an absent voter ballot.

This bill would further require the application to inform the voter that if he or she is not affiliated with a political party, the voter may request an absentee ballot for a particular political party for the primary election, if that political party has adopted a party rule, duly noticed by the Secretary of State, authorizing that vote. The bill would require the application to contain a check-off box allowing the voter to make that request.

This bill would impose a state-mandated local program by imposing new duties on local elections officials in implementing its provisions.

(3) The bill would incorporate additional provisions to Section 13300 of the Elections Code to take effect if this bill and AB 1094 are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 899 (AB 1094) Hertzberg. Voter registration.

Under existing law, a person duly registered as a voter in any precinct in California who moves from the district within 28 days prior to an election shall, for the purpose of that

election, be entitled to vote in the precinct from which the person moved until the close of the polls on the date of that election.

This bill would change that period to 14 days.

Under existing law, a person may not be registered as a voter except by affidavit of registration. Existing law requires that the affidavit be mailed or delivered to the county elections official. Existing law provides that a properly executed registration is deemed effective upon receipt of the affidavit by the county elections official no later than the 29th day prior to an election, unless specified circumstances apply.

This bill would provide for a 15-day period instead of a 29-day period relative to receipt of an affidavit of registration and would also make other technical changes to this provision.

Under existing law, generally, the county elections official is required to accept affidavits of registration at all times except during the 28 days immediately preceding any election.

This bill would provide for a 14-day period instead of a 28-day period.

Under existing law, the county elections official or his or her deputy is required accept an affidavit of registration executed as part of a voter registration card in the forthcoming election if the affidavit is executed on or before the 29th day prior to the election, under specified conditions.

This bill would provide for a 15-day period instead of a 29-day period.

Under existing law, in lieu of executing a new affidavit of registration for a change of address within the county, the county elections official is required to accept a notice or letter of the change of address signed by a voter as he or she is registered for a forthcoming election and is required to change the address on the voter's affidavit of registration if the notification is executed on or before the 29th day prior to the election under specified conditions.

This bill would provide for either a 14-day period or a 15-day period, determined by method of delivery, instead of a 29-day period.

Under existing laws, if a county elections official receives an affidavit of registration that does not include portions of the information for which space is provided, the county elections official or registrar of voters is required to apply a rebuttable presumption that if no execution date is shown, the affidavit was executed on or before the 29th day prior to the election, provided that (1) the affidavit is received by the county elections official on or before the 29th day prior to the election, (2) the affidavit is received by mail by the county elections official no later than the fourth day after the 29th day prior to the election, or (3) the affidavit is postmarked on or before the 29th day prior to the election and received by mail by the county elections official.

This bill would provide for a 15-day period instead of a 29-day period.

Under existing law, upon receipt of a properly executed affidavit of registration or address correction notice or letter, as specified, the county elections official is required to send the voter a voter notification by nonforwardable, first-class mail, address correction requested that informs the voter, among other things, that the voter may vote in any election held 29 or more days after the date shown on the reverse side of the notification.

This bill would provide for a 15-day period instead of a 29-day period.

Existing law requires each county elections official to send to the Secretary of State, in a format described by the Secretary of State, a summary statement of the number of voters in the county with specified information. Existing law requires each county that uses data processing equipment to store the information set forth in the affidavit of registration to send to the Secretary of State one copy of the magnetic tape file with the information requested by the Secretary of State and each county that does not use data processing storage to send to the Secretary of State one copy of the index setting forth that information. Existing law requires the summary statements and the magnetic tape file copy or the index to be sent not less than 10 days prior to the primary election, with respect to voters registered before the 28th day prior to the primary election and not less than 10 days prior to the general election, with respect to voters registered before the 28th day prior to the general election.

This bill would provide for seven-day and 14-day time periods instead of 10-day and 29-day periods.

Existing law requires the Secretary of State to mail ballot pamphlets to voters, in those instances in which the county clerk uses data processing equipment to store the information set forth in the affidavits of registration, before the election at which measures contained in the ballot pamphlet are to be voted on.

This bill would provide that this requirement applies unless a voter has registered fewer than 29 days before the election.

Proposition 198, an initiative statute approved by the voters at the March 26, 1996, direct primary election, among other things, required each county elections official to prepare sample ballots for each voter entitled to vote at the primary and to mail these ballots not more than 40 nor less than 10 days before the election. On June 26, 2000, the United States Supreme Court in *California Democratic Party v. Jones*, ruled the provisions of Proposition 198 unconstitutional.

This bill would implement the court's holding by instead requiring the sample ballot of the party to which the voter belongs, as evidenced by his or her registration, to be mailed to each voter entitled to vote at the primary who registered at least 29 days prior to the election, not more than 40 nor less than 10 days before the elections. This bill would also require that a nonpartisan sample ballot be mailed to each voter who is not registered as intending to affiliate with any of the parties participating in the primary elections. The bill would impose a state-mandated local program by imposing new duties on local election officials.

Existing law requires the appropriate elections official, for each election, to cause to be printed at least as many copies of the form of ballot provided for use in each voting precinct as there are voters in the precinct, designated as "sample ballot," and mailed, postage prepaid, to each voter not more than 40 nor less than 21 days before the election.

This bill would require the sample ballot to be mailed to voters who registered at least 29 days prior to the election and a notice of the polling place with specified information to voters who registered after the 29th day prior to the election and who is eligible to participate in the election.

This bill would incorporate additional provisions to Section 13300 of the Elections Code to take effect if this bill and SB 28 are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 900 (AB 522) Wayne. Natural Heritage Preservation Tax Credit Act of 2000.

Chapter 113 of the Statutes of 2000 enacted the Natural Heritage Preservation Tax Credit Act of 2000 which authorizes the donation of property, meeting specified criteria, to the state, any local government, or any designated nonprofit organization in return for a tax credit on a portion of the value of the property.

This bill would make various technical changes to that act. The bill would also incorporate provisions into that act relating to public access to the donated property, and would authorize the city, county, or city and county in which the property is located to request the Director of Finance to disapprove the acceptance of the property and would require the director to provide a written explanation of his or her decision.

Ch. 901 (SB 739) Solis. Local public employees: agency shop arrangement and the Public Employment Relations Board.

(1) Under the Meyers-Milias-Brown Act, an agency shop agreement may be negotiated between a public agency and a recognized public employee organization.

This bill would additionally authorize an agency shop arrangement without a negotiated agreement upon a signed petition by 30% of the employees in the applicable bargaining unit requesting an agency shop agreement and majority approval of the employees voting in a secret ballot election on the issue. The bill would provide that the petition may be filed only after good faith negotiations, not to exceed 30 days, have taken place between the parties in an effort to reach an agreement. The bill would require the Division of Conciliation of the Department of Industrial Relations to conduct an election that may not be held more frequently than once a year, if the parties cannot agree within a prescribed time period on the selection of a neutral person or entity to conduct the election.

(2) Existing law establishes the Public Employment Relations Board in state government as a means of resolving disputes and enforcing the statutory duties and rights of employers and employees under the Educational Employment Relations Act, the Higher Education Employer-Employee Relations Act, and the Ralph C. Dills Act.

This bill would expand the jurisdiction of the Public Employment Relations Board to include resolving disputes and enforcing the statutory duties and rights of employers and employees under the Meyers-Milias-Brown Act and would specifically include resolving disputes alleging violation of rules and regulations adopted by a public agency, other than the County of Los Angeles and the City of Los Angeles, pursuant to the Meyers-Milias-Brown Act that are consistent with the act concerning unit determinations, representations, recognition, and elections. The bill would provide that implementation of this provision is subject to the appropriation of funds for this purpose in the annual Budget Act and that the provision becomes operative on July 1, 2001.

(3) Existing law provides that in the absence of local procedures for resolving disputes on the appropriateness of a unit of representation, upon the request of any of the parties, the dispute is to be submitted to the Division of Conciliation of the Department of Industrial Relations.

This bill would require any dispute under rules adopted by a public agency on the appropriateness of a unit, exclusive or majority representation, and election procedures, upon request of a party, to be submitted to the board for resolution. The board would make its determinations based on the rules adopted by the public agency.

(4) The act specifies that nothing in its provisions affects the rights of a public employee to authorize a dues deduction from his or her salary or wages pursuant to specified provisions of law.

This bill would additionally require a public employer to deduct the payment of dues or service fees to a recognized employee organization as required by an agency shop arrangement between the recognized employee organization and the public employer. It would also provide that agency fee obligations shall continue in effect as long as the employee organization is the recognized bargaining representative, notwithstanding the expiration of any agreement between the public employer and the recognized employee organization.

(5) The provisions of this bill would not apply to any recognized employee organization representing peace officers, as defined in a specified provision of existing law.

Ch. 902 (SB 1910) Dunn. State peace officer/firefighter supervisors.

Existing law provides for management compensation incentives for state employees to, among other things, enable the state to attract and retain highly qualified managerial employees.

This bill would make findings and declarations that a minimum supervisory compensation differential is necessary to compensate state peace officer/firefighter members who are supervisors within the departments and boards of the Youth and Adult Correctional Agency. The bill would require the Department of Personnel Administration to provide specified legislative committees with a report, on or before March 31, 2001, regarding the adjustments necessary to implement that differential and the impacts on the budgets of the affected

departments and boards. The bill would declare the Legislature's intent to consider funding those adjustments in the Budget Act of 2001.

Under the existing Public Employees' Retirement Law, the normal rate of contribution for state peace officer/firefighter members is 8% of compensation in excess of \$238 per month.

This bill would decrease that rate for state peace officer/firefighter members who are supervisors within the boards and departments of the Youth and Adult Correctional Agency to 8% of compensation in excess of \$863 per month. The bill would appropriate \$500,000 from the General Fund to the Director of Finance for allocation by Executive order to the boards and departments affected by this provision.

Ch. 903 (AB 1396) Aroner. Local government finance.

Existing property tax law requires the county auditor, in each fiscal year, to allocate property tax revenue to local jurisdictions in accordance with specified formulas and procedures, and generally requires that each jurisdiction be allocated an amount equal to the total of the amount of revenue allocated to that jurisdiction in the prior fiscal year, subject to certain modifications, and that jurisdiction's portion of the annual tax increment, as defined. Existing property tax law also reduces the amounts of ad valorem property tax revenue that would otherwise be annually allocated to the county, cities, and special districts pursuant to these general allocation requirements by requiring, for purposes of determining property tax revenue allocations in each county for the 1992-93 and 1993-94 fiscal years, that the amounts of property tax revenue deemed allocated in the prior fiscal year to the county, cities, and special districts be reduced in accordance with certain formulas. It requires that the revenues not allocated to the county, cities, and special districts as a result of these reductions be transferred to the Educational Revenue Augmentation Fund in that county for allocation to school districts, community college districts, and the county office of education.

This bill would, with reference to these allocation and transfer provisions, appropriate \$212,000,000 for local fiscal relief. The bill would require \$100,000,000 to be allocated to counties, and then among the local agencies in each county, in accordance with specified requirements and formulas applied to reduction and transfer amounts implemented for the 1999-2000 fiscal year. This bill would, of the remaining \$112,000,000, allocate \$10,000,000 among counties in accordance with population, \$100,000,000 among counties and cities in accordance with population, and \$2,000,000 among independent recreation and park and library special districts on the basis of reduction and transfer amounts for those districts for the 1999-2000 fiscal year.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 904 (AB 2463) Wiggins. Retirement: retiree health benefits.

Existing law, the Public Employees' Medical and Hospital Care Act, provides that an annuitant, as defined, who meets specified criteria and who was enrolled in a specified health benefits plan at the time of becoming an annuitant, may continue his or her enrollment in that health benefits plan without discrimination as to premium rates or benefit coverage. Under the act, if the governing board of a contracting agency so elects, eligible family members of a deceased employee of a contracting agency who are enrolled on the date of the employee's death may continue their enrollment in a health benefits plan, and the contracting agency is required to make specified premium payments with respect to them. Contributions and premiums paid under the act are deposited in the Public Employees' Health Care Fund, a continuously appropriated special fund.

This bill would permit an eligible annuitant who was not so enrolled, and specified survivors of annuitants who were not so enrolled, to enroll within 60 days of retirement or death of the annuitant, respectively, or during any future open enrollment period, without discrimination as to premium rates or benefit coverage, as specified. The bill would authorize contracting agencies to elect to allow eligible family members of a deceased employee of the contracting agency, who were not enrolled on the date of death, to enroll following the

employee's death, as specified. By expanding the eligibility for benefits under the act, the bill would increase contributions to a continuously appropriated special fund, thereby making an appropriation.

Ch. 905 (AB 2544) Calderon. San Gabriel Basin Water Quality Authority Act.

(1) The San Gabriel Basin Water Quality Authority Act authorizes the San Gabriel Water Basin Quality Authority to plan, finance, and implement groundwater remediation activities, as prescribed. The act requires the board of the authority to be composed of seven members.

This bill would require the appointment of two additional producer members, as defined, and their alternates, pursuant to specified procedures and would prescribe their terms of office.

(2) The act provides for the authority to assume a limited status function under certain circumstances and, except for provisions relating to the disposition of the property and assets of the authority, repeals the act on July 1, 2002. The act requires the board to commence procedures to institute a limited status function if the board makes specified determinations.

This bill, instead, would extend the repeal date to July 1, 2005. The bill would, in addition, require the board to commence procedures to institute a limited function status if the board determines that it has secured funding to comply with specified requirements.

(3) The act requires the Los Angeles Regional Water Quality Control Board to report to the Legislature on or before January 1, 1997, on the progress of the authority with regard to prescribed actions of the authority.

This bill would, instead, require the State Water Resources Control Board, in consultation with the Los Angeles Regional Water Quality Control Board, to report to the Legislature on or before January 1, 2004, and would require the report to contain recommendations for improving the progress of the authority.

(4) The act prohibits any person from serving as a member of the authority if that person receives 10% or more of his or her income from any person or entity subject to regulation by the authority, as specified.

This bill would provide for a specified exception to that prohibition with regard to a producer member.

(5) The act generally requires all actions of the board to be approved by an affirmative vote of a majority of all of its members.

This bill would require, for specified actions, an affirmative vote of a majority of all of the members, including one city member, one producer member, and one water district member.

(6) The act authorizes the authority to impose an annual pumping right assessment, not to exceed \$5 per acre-foot, to pay for administrative costs and authorizes the authority to impose an annual pumping right assessment, not to exceed \$20 per acre-foot, for other purposes.

This bill would repeal the authority to impose the \$5 charge. The bill would, instead, authorize the authority to impose an annual pumping right assessment, not to exceed \$13 per acre-foot, for those other purposes, including the payment of administrative costs.

(7) The act authorizes the authority to exempt a producer from the annual pumping right assessment in connection with pumping from a contaminated well, as specified.

This bill would require the board of the authority to annually consider exemptions when it adopts the authority's budget.

(8) By imposing requirements on the authority, the bill would impose a state-mandated local program.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 906 (SB 402) Burton. Employer-employee relations: law enforcement officers and firefighters.

Existing law provides that employees of the fire departments and fire services of the counties, cities, cities and counties, districts, and other political subdivisions of the state have the right to self-organization, to form, join, or assist labor organizations, and to present grievances and recommendations regarding wages, salaries, hours, and working conditions to the governing body, but do not have the right to strike or to recognize a picket line of a labor organization while in the course of the performance of their official duties.

This bill would provide that if an impasse has been declared after the representatives of an employer and firefighters or law enforcement officers have exhausted their mutual efforts to reach agreement over economic issues as defined within the scope of arbitration, and the parties are unable to agree to the appointment of a mediator, or if a mediator is unable to effect settlement of a dispute between the parties, the employee organization may request, by written notification to the employer, that their differences be submitted to an arbitration panel. Each party would designate one member of the panel, and those members would designate the chairperson of the panel pursuant to specified procedures.

The arbitration panel would meet with the parties within 10 days after its establishment or any additional periods to which the parties agree, make inquiries and investigations, hold hearings, and take any other action, including further mediation, that the panel deems appropriate. Five days prior to the commencement of the arbitration panel's hearings, each of the parties would be required to submit a last best offer of settlement on the disputed issues as a package. The panel would decide the disputed issues separately, or, if mutually agreed, by selecting the last best offer package that most nearly complies with specified factors. There would then be a waiting period of 5 days prior to public disclosure, or a longer period if agreed to, during which the parties could mutually amend the decision. At the end of that period, the arbitration panel's decision, as amended by the parties, would be disclosed, and would be binding upon the parties.

This bill would provide that unless otherwise agreed to by the parties, the costs of the arbitration proceeding and the expenses of the arbitration panel, except those of the employer representative, shall be borne by the employee organization.

The bill would define employer to include any entity, except the State of California, acting as an agent of a local agency.

Ch. 907 (SB 1741) Bowen. Telecommunications: technology-specific area codes.

Under federal law, the Federal Communications Commission has delegated authority to the Public Utilities Commission to regulate area codes within the state subject to specific guidelines. The guidelines prohibit an area code based on specific technology and require 10 digit dialing for all telephone calls within and between all area codes covered by an area code overlay.

This bill would require the Public Utilities Commission to request authority from the Federal Communications Commission to require telephone corporations to establish technology-specific area codes based on wireless and data communications and to permit 7 digit dialing within that technology-specific area code and the underlying preexisting area code or codes. The bill would require the Public Utilities Commission to use any authority so granted unless it makes a specified finding. The bill would also prohibit the Public Utilities Commission from approving new area code splits or overlays unless a telephone utilization study has been performed and all reasonable telephone number conservation measures have been implemented. The bill would also prohibit the commission from implementing any authority granted by the Federal Communications Commission in a manner that impairs number portability.

Ch. 908 (SB 1611) Bowen. Juveniles: juvenile justice commissions and juvenile court orders.

(1) Existing law provides for the establishment in each county of a juvenile justice commission, which has the duty of investigating the administration of juvenile justice in the county or region it serves. Existing law further provides that a juvenile justice commission may inquire into operations of group homes serving wards or dependent children of the juvenile court and report its findings. Existing law provides that a commission, in conducting its inquiry of a group home, may not review confidential records of minors and others.

This bill would provide that a juvenile justice commission conducting an inquiry of a group home may review court or case records of a child provided it keeps the identities of minors named in those records confidential. This bill would also provide that a juvenile justice commission may review the financial records of a group home, but may not review personnel records of employees or the records of donors to the group home.

(2) Existing law provides that juvenile court case files are generally confidential, but authorizes inspection by certain people, including court personnel, the minor's parents or guardian, and the superintendent of the minor's school district, among others.

This bill would also authorize a county juvenile justice commission to inspect juvenile court case files, and would provide that a juvenile justice commission shall maintain the confidentiality of these files, as specified.

(3) Existing law provides that when a child is adjudged a dependent of the court, the court may make any and all reasonable orders for the care, supervision, custody, and support of the child. Existing law further provides that, in order to promote coordination and cooperation among government agencies, the court may join in juvenile court proceedings a government agency that the court has determined has failed to provide legally obligated services to a child, after giving notice and an opportunity to be heard. When an agency is joined, a court may not impose duties upon an agency beyond those mandated by law.

This bill would provide that, subject to the above described prohibition, a juvenile court may also join a private service provider, as defined, that the court determines has failed to meet such legal obligations.

(4) This bill would incorporate additional changes in Section 362 of the Welfare and Institutions Code proposed by AB 2921, to be operative if this bill and AB 2921 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

(5) This bill would incorporate additional changes to Section 827 of the Welfare and Institutions Code proposed by SB 1716, to be operative if this bill and SB 1716 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 909 (AB 1987) Steinberg. Dependent children: siblings.

Existing law provides that a child who has been, or who is at substantial risk of being, abused or neglected is within the jurisdiction of the juvenile court which may adjudge the child to be a dependent child of the court and make a determination regarding the appropriate placement of the child. Existing law requires local agencies, the State Department of Social Services, and the court to take specified actions to facilitate sibling contact. Existing law requires that a social study or evaluation prepared for the juvenile court regarding a dependent child contain specified information.

This bill would require that the report or evaluation, and specified supplemental reports, include a factual discussion of whether the child has any siblings under the jurisdiction of the court and other issues related to whether it would be appropriate to keep the siblings together. The bill would also require a court to consider these issues where the court has ordered the removal of the child from the physical custody of his or her parents, and to consider the nature of the relationship between the child and his or her siblings under the court's jurisdiction when the court reviews the status of a dependent child in foster care. The bill would require the suspension of interaction between siblings where a court determines by clear and convincing evidence, rather than a preponderance of evidence, that sibling

interaction is detrimental to a child or children. The bill would provide that where dependent children who are siblings are not placed together, the social worker shall explain why the siblings are not placed together and shall ensure that siblings are informed of significant life events that occur within the extended family, except as specified. The bill would revise the definition of a sibling for these purposes and delete references to half-siblings. By imposing additional duties on local employees the bill would impose a state-mandated local program.

The bill would also authorize any person, including a child who is a dependent child, to petition the court to assert a relationship as a sibling to a child who is, or is the subject of a petition for adjudication as, a dependent child, and to request visitation with the child, placement with or near the child, consideration when determining or implementing the case plan, or make any other request for an order, as specified. This bill would permit a court to appoint a guardian ad litem for a dependent child to file a petition in this regard. In addition, the bill would require the State Department of Social Services to make recommendations to increase the available sibling placement resources, to develop other, related recommendations, and to submit those recommendations to the Legislature by November 1, 2001, as specified.

The bill would incorporate additional changes in Section 358.1 of the Welfare and Institutions Code proposed by SB 2157, in Section 361.2 of the Welfare and Institutions Code proposed by SB 1954, and in Section 366.3 of the Welfare and Institutions Code proposed by AB 686 and AB 2921, to take effect, respectively, if this bill and one or both of the other bills amending each respective section is enacted and this bill is enacted last, as specified.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 910 (AB 2921) Committee on Human Services. Minors: adoption: dependent children.

(1) Existing law requires that, when the parental rights of a birth parent are terminated, the State Department of Social Services or licensed adoption agency responsible for the adoptive placement of the child, shall send written notice to the birth parent encouraging the birth parent to keep the department or agency informed of the birth parent's current address in order to permit a response to any inquiry concerning the medical or social history made by or on behalf of the child.

This bill would require the written notice to also inform the birth parent of an adopted person's right, upon attaining the age of 21 years, to request from the department or licensed adoption agency the name and address of the adoptee's birth parent or parents, and to give the birth parent or parents the opportunity to indicate whether or not to disclose this information.

Existing law authorizes written kinship adoption agreements providing for continuing contact between the adopting parent or parents, birth relatives including the birth parent or parents, and the child, provided the court finds this to be in the best interests of the child at the time the adoption petition is granted. These agreements are only authorized where the adopting parent is a specified relative of the child or a relative of the child's half sibling.

This bill would change all references to kinship adoption agreements to postadoption contact agreements, would authorize nonrelative adopting parents to enter into such an agreement, and would require the court to additionally find that such an agreement was entered into voluntarily by the above-specified persons. The bill would limit the terms of any

postadoption contact agreement to the sharing of information about the child unless the child has an existing relationship with the birth relative. The bill would prohibit a prospective adoptive parent or birth relative, including a birth parent, of a child who is the subject of juvenile court proceedings, from being required by juvenile court order to enter into a postadoption contact agreement or into mediation or other negotiations intended to develop a postadoption contact agreement. The bill would require that a copy of any postadoption contact agreement be attached to the petition.

Existing law provides that the department and any licensed adoption agency may furnish information relating to an adoption petition to the juvenile court, county welfare department, public welfare agency, or private welfare agency if the child's welfare will be promoted.

This bill would expand these provisions to include the furnishing of information with respect to a child in the custody of the department or licensed adoption agency to the above entities, and would specify additional specified persons to whom the information may be released. The bill would prohibit the department or a licensed adoption agency from releasing information that would identify persons who receive, or have received, adoption services with specified exceptions. The bill would require employees of the department and licensed adoption agencies to release any information, including identifying information, requested by the department at Sacramento for the purposes of recordkeeping, monitoring, evaluation, and regulation of adoption services. The bill would make other related changes.

By imposing new duties on local officials, the bill would create a state-mandated local program.

(2) Existing law requires that the juvenile court must conduct specified periodic hearings reviewing the status of dependent children who have been placed in foster care.

This bill, among other things, would revise and reorganize certain of these provisions relating to the effect of certain circumstances upon a determination of failure to provide or offer required reasonable services; specify that references in these provisions to "guardians" are to "legal guardians;" and eliminate certain duplicative provisions.

(3) This bill would incorporate additional changes in Section 362 of the Welfare and Institutions Code proposed by SB 1611, to be operative if this bill and SB 1611 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill also would incorporate additional changes in Section 366.3 of the Welfare and Institutions Code proposed by AB 1987, to be operative if this bill and AB 1987 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 911 (AB 686) Aroner. Dependent children: termination of jurisdiction.

(1) Existing law provides that a child who has been abused or neglected may be adjudged a dependent child of the juvenile court. Existing law specifies procedures for terminating that jurisdiction.

This bill would require the county welfare department to ensure that the child is present in court at any hearing to terminate jurisdiction over that child, unless the child does not wish to appear or cannot be located, as specified. The bill also would require the department to submit a report verifying that specified information, documents, and services have been provided to the child. The bill would also authorize the court to continue jurisdiction if the court finds that the county welfare department has not provided the information, documents, and services, and that termination of jurisdiction would be harmful to the child's best

interests, as specified. The bill would require the Judicial Council to develop and implement standards, and to develop and adopt forms for purposes of these provisions. By imposing new duties on local employees, the bill would impose a state-mandated local program.

(2) Existing law authorizes the juvenile court to direct any and all reasonable orders to the parents or guardians of a child who is the subject of dependency proceedings or a minor who is the subject of delinquency proceedings that the court deems necessary and proper, as specified.

This bill would revise those provisions to specifically authorize the court to direct the parents or guardians to ensure the child's or the minor's regular school attendance and to make reasonable efforts to obtain appropriate educational services necessary to meet the needs of the child or the minor.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 912 (SB 667) Sher. Hazardous substances: response actions: orphan sites: brownfield loans.

(1) Under existing law, the Site Designation Committee in the California Environmental Protection Agency is authorized to designate an administering agency for oversight of a remedial action to a hazardous substance release. Any agency, including the administering agency, is authorized to request the committee to convene an advisory team to provide the administering agency with guidance in overseeing the site investigation and remedial action. Existing law requires the administering agency to supervise the site investigation and remedial action conducted by the responsible party and, upon determining that the site investigation and remedial action has been satisfactorily completed, to issue a certificate of completion to the responsible party. Existing law prohibits an agency that has jurisdiction over hazardous materials releases from taking action against the responsible party for the site for which a certificate of completion is issued, except if specified conditions apply to the site.

This bill would specify the procedures for requesting the convening of an advisory committee, and would prescribe the functions and duties of the advisory committee. The bill would provide that the administering agency is the sole agency responsible for determining if any of those conditions apply to a hazardous materials release site for which a certificate of completion has been issued, and would specify related matters.

(2) The Carpenter-Presley-Tanner Hazardous Substance Account Act, which was repealed on January 1, 1999, with certain exceptions, and subsequently reenacted on May 26, 1999, with certain revisions, imposes liability for hazardous substance removal or remedial actions and requires the Department of Toxic Substances Control to adopt, by regulation, criteria for the selection and for the priority ranking of hazardous substance release sites for removal or remedial action under the act. The act authorizes the department to expend the funds in the Toxic Substances Control Account in the General Fund, upon appropriation by the Legislature, to pay for, among other things, removal and remedial actions related to the release of hazardous substances.

This bill would revise the definitions of the terms "operation and maintenance," "preliminary endangerment assessment," "response action," and "state account," and would define the terms "agency," "phase I environmental assessment," and "secretary" for purposes of the act.

(3) The act requires the department or the appropriate California regional water quality control board to direct a responsible party who is required to comply with operation and

maintenance requirements to demonstrate and maintain financial assurance, in a specified manner, except as specified.

This bill would exclude from the financial assurance requirement a responsible party that is a federal, state, or local government entity.

(4) The act requires the department to publicly revise, at least annually, a listing of sites subject to the act and to categorize and place the sites on one of 3 lists.

This bill would instead require the department to assign each site to one of 2 tiers, based upon specified criteria and the extent that the deferral of a response action would result in specified costs or risks. The department would be required to expend any funds appropriated to the department for a response action, and to take a response action, in conformance with the assignment of sites to those priority tiers, except as specified. The bill would provide that the department or, if appropriate, the regional board, is the state agency with the sole responsibility for ensuring that required action to a release at a listed site is carried out in compliance with the act.

(5) The act requires the department and the regional board to provide specified information to the affected community and to develop a public participation work plan. The act requires the department and the State Water Resources Control Board to create 2 community service offices, by July 1, 2000, to perform specified duties.

This bill would require the department or the regional board to inform the public of the existence of a listed site and its intention to conduct a response action at the site. The bill would require the department or regional board to develop a public participation plan and would make conforming changes.

(6) The act exempts, from various contracting requirements, a removal or remedial action taken or contracted by the department under specified emergency conditions or when there is an imminent or substantial endangerment to the public health or welfare of the environment.

This bill would additionally exempt such a removal action from the requirement that the Department of General Services approve contracts for the hiring or purchase of equipment, supplies, materials, or services, the construction, alteration, improvement, repair or maintenance of property, and the performance of work or services in cooperation with any person or public body.

(7) Under existing law, the administrator of the Orphan Share Reimbursement Trust Fund in the State Treasury is authorized to expend the money in that fund, upon appropriation by the Legislature, for specified purposes, including the reimbursement of the orphan share of a site, as defined. Under existing law, these provisions establishing the fund and the related provisions do not become operative until the operative date of a statute that becomes operative on or after January 1, 2000, creates a position in state government known as the Administrator of the Orphan Share Reimbursement Trust Fund to be appointed by the Governor and subject to confirmation by the Senate, and either appropriates funds to implement those provisions or establishes a revenue source for the fund, or both.

This bill would revise the conditions for the operation of the orphan fund act. The bill would make other technical changes to the orphan fund act.

(8) Existing law transferred \$85,000,000 from a prescribed item of the Budget Act of 2000 to the Cleanup Loans and Environmental Assistance to Neighborhoods Account, which is established in the General Fund, and appropriated \$500,000 from that account to the department for program development related to the redevelopment of contaminated properties known as brownfields for the 2000–01 fiscal year.

This bill would require the department, with the approval of the Secretary for Environmental Protection, to establish the Investigating Site Contamination Program to provide loans to conduct preliminary endangerment assessments of brownfields and underutilized property, as defined, and the Cleanup Loans and Environmental Assistance to Neighborhoods Program (CLEAN), to provide loans to finance the performance of actions necessary to respond to the release or threatened release of hazardous material on an eligible

property. The bill would specify procedures for the approval of, and repayment of, a loan under these programs.

The bill would repeal and reenact the Cleanup Loans and Environmental Assistance to Neighborhoods Account in the General Fund and would continuously appropriate the money in the account to the department to provide loans under those programs, except that the bill would provide that the department and the agency may expend funds in the account for administration only upon the appropriation of funds for that purpose.

The bill would transfer the \$85,000,000 in the existing account to the account established by this bill. This bill would appropriate \$2,000,000 from that account to the Department of Toxic Substances Control to implement the loan programs.

The bill would require the secretary to submit a report to the Joint Legislative Budget Committee and specified policy committees, and to post the report on the agency's Internet web site, once every 2 years regarding the loan programs.

(9) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 913 (AB 2805) Papan. Financial institutions.

The Banking Law provides for the regulation of banks in California and sets forth various definitions of terms relevant to those regulations.

This bill would define, until November 30, 2004, the term "small bank" for purposes of the Banking Law.

This bill would require the California Research Bureau to provide an annual report, until November 30, 2004, to the Legislature addressing the disposition of all state funds, the names of financial institutions receiving state funds, including the geographic location and use of the funds, and the percentage of funds remaining in California and invested out of state.

This bill would also require the California Research Bureau to complete a study by December 31, 2001, examining, among other things, the present geographical and socioeconomic disposition of California's state funds, the efforts made by state agencies in investing state funds to ensure the funds receive the best rates, and the feasibility and social benefits of mandating that a set percentage of California's public funds be used in California.

Existing law requires that banks, savings and loan associations, and credit unions deposit specified securities with the Treasurer in order to be eligible to receive and retain demand or time deposits of state funds.

This bill would add specified letters of credit issued by the Federal Home Loan Bank of San Francisco to the list of securities that may be received as security for demand and time deposits of state funds.

Existing law establishes the Capital Access Loan Program for the purpose of improving small businesses' access to capital from financial institutions in order to meet environmental standards imposed on businesses. Existing law defines various terms relevant to the program.

This bill would expand the definition of "financial institution" for purposes of the program.

This bill would incorporate additional changes in Section 44559.1 of the Health and Safety Code proposed by SB 1986, to become operative only if those bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 914 (AB 779) Torlakson. Pollution.

Existing law contains legislative findings regarding the necessity that the state, in cooperation with the federal government, use all practical means and measures to control, remediate, and eliminate pollution hazards to the environment, including developing new and alternative processes and facilities that provide for the disposal of waste products, as provided.

Existing law authorizes the California Pollution Control Financing Authority to finance various pollution control projects to control and eliminate pollution hazards to the environment.

This bill would authorize the authority, until January 1, 2007, to provide grants and loans to assist California neighborhoods suffering from high poverty or unemployment levels, or from low-income levels, to assist cities and counties in developing and implementing growth policies and programs that reduce pollution hazards and the degradation of the environment, or in promoting infill development to revitalize these communities. The bill would require the authority to fund these grants and loans from any funds available to the authority or set aside for the authority's administrative expenses. The bill would limit to \$2,500,000 the amount that may be awarded in grants and loans. The bill would authorize the authority to charge reasonable application and project fees to reimburse the authority for costs incurred in administering the applications for grants and loans authorized by the bill.

The bill also would require the authority, commencing in 2002, and annually thereafter, to submit a report to the Legislature regarding the program.

This bill would incorporate additional changes in Sections 44501, 44502, 44520, and 44526 of the Health and Safety Code proposed by SB 1986, to become operative only if both bills are enacted and become operative on or before January 1, 2001, and this bill is enacted last.

Ch. 915 (SB 1986) Costa. Pollution.

(1) Existing law contains legislative findings regarding the necessity that the state, in cooperation with the federal government, use all practical means and measures to control, remediate, and eliminate pollution hazards to the environment, including developing new and alternative processes and facilities that provide for the disposal of waste products, as provided.

Existing law authorizes the California Pollution Control Financing Authority to finance various pollution control projects to control and eliminate pollution hazards to the environment and defines the term "pollution" for purposes of these financing provisions.

This bill would revise the definition of the term "pollution" for purposes of these provisions, to include the presence of asbestos or lead paint, and would define the term "brownfield site" for purposes of those provisions. The bill would authorize the authority to provide a loan to any city, county, school district, redevelopment agency, financial institution, any for-profit or not-for-profit organization, or any participating party, to assist in financing the costs of performing or obtaining site assessments, remedial action plans and reports, and technical assistance, or the cleanup, remediation, or development of brownfield sites, as specified.

The bill also would require the authority, commencing in 2002, and annually thereafter, to submit a report to the Legislature regarding the program.

(2) Existing law establishes the Capital Access Loan Program, which is administered by the authority, and defines the term "qualified business," for purposes of that program, as a small business concern that meets specified criteria. The authority is required to include specified terms in any contract that the authority enters into with a financial institution participating in the program, including that the business receiving a loan has operations that affect the environment, as specified.

This bill would revise the definition of the term "qualified business" to specify that a business concern that meets the criteria is a qualified business regardless of whether the small business concern has operations that affect the environment and would delete the requirement that the authority's contract with a financial institution include such a condition.

(3) This bill would incorporate additional changes in Sections 44501, 44502, 44520, and 44526 of the Health and Safety Code proposed by AB 779, to become operative only if both bills are enacted and become operative on or before January 1, 2001, and this bill is enacted last.

(4) This bill would incorporate additional changes to Section 44559.1 of the Health and Safety Code, proposed by AB 2805, to become operative only if both bills are enacted and become operative on or before January 1, 2001, and this bill is enacted last.

Ch. 916 (AB 1241) Rod Pacheco. Crime prevention: child abuse reporting.

(1) Existing law establishes the Child Abuse and Neglect Reporting Act (CANRA), which requires specified persons who have knowledge of or observe a child in their professional capacity or within the scope of their employment, whom the person knows or reasonably suspects has been the victim of child abuse to report the known or suspected instance of child abuse to a child protective agency, as defined. While the definition of child abuse includes specified forms of child abuse and neglect, the provisions of CANRA refer only to child abuse.

This bill would reorganize and recast the list of specified persons who are required to report as described above and designate those persons as mandated reporters, as defined. The bill would also reorganize other provisions of CANRA that reference those persons required to report, as specified. In addition, the bill would amend the provisions of CANRA to apply to child abuse and neglect.

(2) Existing law under CANRA defines "child abuse" to mean specified forms of abuse and neglect including a physical injury that is inflicted by other than accidental means on a child by another person.

This bill would recast the terms "child abuse" and "child abuse or neglect."

(3) Existing law under CANRA defines a child protective agency as a police or sheriff's department, a county probation department, or a county welfare department, and requires that reports of suspected child abuse or neglect be made to those agencies.

This bill would delete the term "child protective agency" from the definitional and functional provisions of the act and would specify the designated agencies authorized to receive reports of child abuse and neglect. The bill would also require any of those agencies to accept a report of suspected child abuse or neglect whether made by a mandated reporter or another person, or a referral from another agency, even if the agency to whom the report is made lacks jurisdiction to investigate the case, unless that agency immediately transfers the call to the appropriate agency as specified. By increasing the duties of local officials, this bill would impose a state-mandated local program.

(4) Existing law under CANRA imposes mandatory child abuse reporting duties on firefighters, animal control officers, and humane society officers, but exempts those individuals from those reporting requirements if that individual has not received specified training in the identification and reporting of child abuse.

This bill would delete that exemption.

(5) Existing law under CANRA requires any person in a specified category designated as a mandated reporter, who has knowledge of or observes a child, in his or her professional capacity or within the scope of his or her employment, whom he or she knows or reasonably suspects has been the victim of child abuse, to report the known or suspected instance of child abuse to a child protective agency as specified. The CANRA specifies that the pregnancy of a minor does not, in and of itself, constitute a basis of reasonable suspicion of abuse. The CANRA also authorizes the specified mandated reporters to report a known or suspected instance of child abuse to a child protective agency when he or she has knowledge of or reasonably suspects that mental suffering has been inflicted on a child or that the child's emotional well-being is endangered.

This bill would recast these provisions by requiring that a mandated reporter make a report to a specified agency whenever the mandated reporter, in his or her professional capacity or within the scope of his or her employment, has knowledge of or observes a child whom that reporter knows or reasonably suspects has been the victim of child abuse or neglect.

(6) Existing law under CANRA requires that a telephone report of a known or suspected instance of child abuse include specified information regarding the caller, the child, and the abuse.

This bill would recast this provision and specify additional information to be included in the report while requiring the report to be made, even if the information is incomplete.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 917 (AB 1338) Reyes. Farm labor contractors: licenses.

Existing law prescribes various fines and penalties for farm labor contractors who violate provisions of the law applicable to farm labor contractors.

This bill would authorize the Labor Commissioner to establish and maintain a Farm Labor Contractor Special Enforcement Unit, as specified, to enforce provisions of law relating to farm workers, as provided.

Existing law requires farm labor contractors to deposit a surety bond in the sum of \$10,000, as a condition to obtain a license from the Labor Commissioner. The contractor is permitted to give a deposit in lieu of a bond.

This bill would require a farm labor contractor to deposit a surety bond in specified amounts based on the size of the person's payroll, as provided. Farm labor contractors would no longer be permitted to give a deposit instead of a bond.

Existing law requires farm labor contractors to pay a \$350 annual license fee.

This bill would increase the licensing fee to \$500.

Existing law provides that \$25 of the annual licensing fee be deposited into a separate account, funds from which are to be disbursed by the Labor Commissioner to persons damaged by licensees.

This bill would designate the Farmworker Remedial Account as the separate account, make an appropriation by increasing to \$50 the amount of the licensing fee deposited into that account, provide that all other license fees be deposited in the State Treasury and credited to the General Fund.

Existing law requires the Labor Commissioner to annually submit a list of licensees to the Department of the California Highway Patrol.

This bill would require that lists of licensees be submitted on a quarterly basis.

Existing law requires contractors to furnish growers with a payroll list of all of all the contractor's employees working for the grower.

This bill would require contractors to furnish growers with additional payroll records reflecting the hours worked by employees and the wage paid.

Existing law requires that applicants for a farm labor contractor's license take an oral or written examination or both.

This bill would require applicants to take only a written examination and answer 85% of the questions correctly in order to obtain a license. This bill would further require that licensees participate annually in 8 hours of continuing education courses approved by the Labor Commissioner, in consultation with specified public officers and agencies.

Ch. 918 (AB 1684) Committee on Information Technology. Public contracts.

Existing law authorizes the Department of General Services to contract with suppliers to obtain materials, supplies, equipment, and services.

This bill would make various corrective and clarifying changes to these provisions, including revising provisions that authorize the department to assist local government entities in procuring various goods and services. The bill would also revise provisions governing the department's acquisition of information technology.

Existing law relating to state agency procurement generally requires all written contracts for the sale or hiring of materials, supplies, or equipment in an amount of \$10,000 or more, and all other purchases or hiring of the same in an amount of \$10,000 or more, to be made or entered into with the lowest responsible bidder meeting specifications.

This bill would instead make that provision applicable to the acquisition or lease of goods, increase the specified dollar amount to \$25,000, and make conforming changes in related provisions.

This bill would revise the notice requirements where a contract or purchase order is not to be awarded to the lowest bidder by eliminating the requirement that the notice be by telegram.

Ch. 919 (AB 1789) Zettel. Sentencing: great bodily injury: child.

Existing law requires imposition of an enhanced penalty of 3 years upon a person who personally inflicts great bodily injury upon a person other than an accomplice during the commission or attempted commission of a felony. Imposition of an enhanced penalty of 5 years is required if the person personally inflicts great bodily injury on another person who is 70 years of age or older other than an accomplice during the commission or attempted commission of a felony.

This bill would require under the above provision, imposition of an enhanced penalty of 4, 5, or 6 years upon a person who personally inflicts great bodily injury on a child under the age of 5 years in the commission or attempted commission of a felony. By imposing an additional penalty that must be pled and proven, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 920 (AB 1883) Lowenthal. Workers' compensation: disability benefits for airport law enforcement officers and harbor and port police.

Existing workers' compensation law provides that certain peace officers, firefighters, and other specified state and local public employees are entitled to a leave of absence without loss of salary while disabled by injury or illness arising out of and in the course of employment. This leave of absence is in lieu of temporary disability payments or maintenance allowance payments otherwise payable.

This bill would extend this provision to specified airport law enforcement officers, harbor and port police officers, wardens, and special officers.

This bill would incorporate additional changes in Section 4850 of the Labor Code proposed by AB 1124 and SB 2081, to become operative only if those bills are enacted, as specified, and become operative on or before January 1, 2001, and this bill is enacted last.

Ch. 921 (AB 2464) Kuehl. Child custody: modification.

Existing law provides that when a child is adjudged a dependent child of the juvenile court any issue regarding custodial rights between his or her parents shall be solely determined by the juvenile court as long as the child remains a dependent of the juvenile court.

This bill would provide that any order made by the juvenile court regarding the custody of, or visitation with, a child who is a dependent of the juvenile court at the time the juvenile court terminates its jurisdiction shall be a final judgment and shall remain in effect after that jurisdiction is terminated. The bill would prohibit modification of the order in proceedings

governed by the Family Code provisions relating to custody unless the court finds that there has been a significant change of circumstances since the juvenile court issued the order and modification of the order is in the best interest of the child.

Ch. 922 (AB 2562) Brewer. Property taxation: disabled veterans' exemption.

Existing property tax law provides, pursuant to the authorization of the California Constitution, for the exemption from property taxation of specified amounts of the assessed value of the home of a disabled veteran, or a veteran's spouse in the case in which the person has, as a result of a service-connected disease or injury, died while on active duty in military service. Existing property tax law generally requires a claiming affidavit for the disabled veterans' exemption to be filed no later than the February 15 following the relevant lien date. It also provides for partial exemptions, each applicable as provided and contingent upon an affidavit being no later than the December 10 following the lien date, of the lesser of either certain amounts of assessed value or 80% of the full value of the real property to which the exemption is to be applied.

This bill would revise and recast current partial exemption provisions to require the cancellation or refund of either 90% or 85% of those taxes, including any interest and penalties, levied on that portion of the property's assessed value that would have been exempted under a timely exemption claim, depending upon whether a claim is filed either within a specified period ending with the December 10 following the lien date or after that period. This bill would also make technical, nonsubstantive changes with respect to the application of the exemption to the 2nd installment of taxes on the secured property tax roll.

This bill would, in the case in which the subject real property was acquired after the property tax lien date, also require the cancellation or refund of those taxes levied on the full exemption amount, provided an appropriate affidavit is filed on or before the next property tax lien date.

This bill would also provide for the termination of a disabled veterans' exemption upon the subject property being transferred to a 3rd party that is not eligible for that exemption.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

This bill would take effect immediately as a tax levy.

Ch. 923 (AB 2894) Committee on Revenue and Taxation. Taxation: State Board of Equalization.

The Sales and Use Tax Law provides an exemption for certain sales or leases of aircraft, and provides certain rebuttable presumptions in that connection.

This bill would clarify the rebuttable presumptions applicable to those sales or leases.

The Sales and Use Tax Law requires any person whose estimated sales and use tax liability averages \$20,000 or more per month to remit amounts due by an electronic funds transfer and permits others to do so.

This bill would clarify the rebuttable presumptions applicable to those sales and leases.

The Sales and Use Tax Law requires any person whose estimated sales and use tax liability averages \$20,000 or more per month to remit amounts due by an electronic funds transfer and permits others to do so.

This bill would extend these procedures to various other taxes administered by the board. This bill would, for purposes of various taxes administered by the board, also eliminate a so-called float period on certain tax payments, reduce the manual processing of checks, eliminate certain prepayment forms, provide an alternative payment method, modify

procedures for sales and use taxes where a purchaser issues a specified certificate, and make various clarifying and technical changes.

The bill would incorporate changes to various sections of the Revenue and Taxation Code made by AB 2898 to become operative if both bills are chaptered and this bill is chaptered last.

Ch. 924 (AB 2935) Committee on Information Technology. Government records.

(1) Existing law provides that whenever a mortgage or deed of trust presented for recordation contains a reference to provisions in a fictitious mortgage or deed preceded by a statement to the effect that it is not to be recorded, the county recorder shall record only the mortgage or deed of trust portion of the document and shall not be liable for failure to record the portion with instructions not to record.

This bill would delete that provision.

(2) Existing law provides generally that all escheated property delivered to the Controller shall be sold by the Controller to the highest bidder at public sale in a city that affords the most favorable market for the property.

This bill would also authorize the Controller to conduct the sale of that property by electronic media if in his or her judgment it is cost effective.

(3) Existing law authorizes the county treasurer to destroy certain certificates of the auditor delivered to the treasurer when money is paid into the treasury under certain circumstances and to enter records of receipt and expenditure of money paid out or received by photography, entry into an electronic data processing system, or other methods.

This bill would authorize the recording and preservation of documents by the county treasurer by the application of other information technology.

(4) Existing law requires documents required to be recorded by the county recorder to contain an original signature or signatures.

This bill would authorize facsimile signatures to be accepted on liens recorded by a government agency, as specified.

Ch. 925 (SB 1562) Burton. Mitigation of projects through wetlands restoration.

(1) The California Environmental Quality Act (CEQA) requires a lead agency, as defined, to prepare, or cause to be prepared, and certify the completion of, an environmental impact report on a project that it proposes to carry out or approve that may have a significant effect on the environment. Existing law declares that it is the policy of the state that public agencies should not approve projects as proposed if there are feasible alternatives or feasible mitigation measures available that would substantially lessen the significant environmental effect of the project.

This bill would require the lead agency to include a detailed statement of mitigation, with specified analyses, in an environmental impact report for a specified airport project, if the environmental impact report identifies as a proposed mitigation the payment of funds to one or more public agencies to mitigate the impacts of the project for which the lead agency of the airport project prepared the document, and the agencies propose to use the funds for that purpose. The bill would require the lead agency of the airport project to make the approval of the project and the payment of funds for mitigation measures contingent upon a specified agreement between the lead agency of the airport project and the public agency.

The bill would also require the lead agency, if the project includes more than one acre of fill in the San Francisco Bay, to include in the environmental impact report an analysis of a form of joint management of the airport by the city and county and the Oakland International Airport, as an alternative to the project. By imposing these requirements on a lead agency, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay

the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district are the result of a program for which legislative authority was requested by that local agency or school district, within the meaning of Section 17550 of the Government Code and Section 6 of Article XIII B of the California Constitution.

Ch. 926 (SB 1716) Ortiz. Child custody proceedings: allegations of sexual abuse.

Existing law specifies sanctions that may be imposed if the court determines that an accusation of child abuse or neglect made during a child custody proceeding is false and other conditions exist, as specified.

This bill would, when allegations of child sexual abuse, as defined, are made in those proceedings, authorize the court to take reasonable, temporary steps to protect the child's safety, as specified; authorize the court to request the local child welfare services agency to conduct an investigation; and require the child welfare agency to report back to the court regarding its investigation.

Existing law requires supervising and associate counselors and mediators, persons who supervise or administer Family Court Services evaluation or mediation programs, and court-connected or private child custody evaluators, as defined, to have specified training in domestic violence, including child abuse.

This bill would direct the Judicial Council to develop standards for training in the nature of child sexual abuse. This bill would provide that on or after January 1, 2005, court connected and private custody evaluators shall not engage in evaluating, investigating, or mediating child custody issues unless they have completed child sexual abuse training.

Existing law requires the court to consider specified factors in determining the best interest of a child in proceedings concerning child custody or visitation. Those factors include a history of abuse by one parent against the other or against the child and, when allegations of that abuse are made, the court may require substantial independent corroboration of the allegations, as specified.

This bill would require, in any contested proceeding, where the court has appointed a child custody evaluator and the court determines there are serious allegations of child sexual abuse, that the allegations be investigated by an evaluator who would be required to consult with both child welfare services and law enforcement. The bill would require the order appointing a child custody evaluator to authorize the evaluator to have access to all juvenile court records pertaining to the child who is the subject of the evaluation, and would require any records or information gained therefrom to remain confidential, except as specified. The bill would define "serious allegations of child sexual abuse" for these purposes, would establish minimum standards for the investigation, and require the evaluator to submit a specified confidential report to the court and to serve it on the parties or their attorneys. This bill would also provide that if the court orders an investigation the court shall consider whether the best interest of the child requires that a temporary order be issued that limits visitation with the parent against whom the allegations have been made to situations in which a 3rd person is present or whether visitation will be suspended or denied. This bill would also make related conforming changes.

Existing law restricts the inspection of juvenile case files, except by specified persons or entities.

This bill would include among those specified persons a judge assigned to a family law case with issues concerning custody or visitation, or both, a family court mediator, and a child custody evaluator, as specified.

This bill would incorporate additional changes to Section 827 of the Welfare and Institutions Code proposed by SB 1611, to be operative if this bill and SB 1611 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

The bill would impose a state-mandated local program by imposing additional duties on local officials.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 927 (SB 1889) Figueroa. Internet: licensee information.

Existing law requires specified consumer boards and the Department of Real Estate to disclose information regarding the status of the licenses of their licensees on the Internet. Existing law excludes disclosing a licensee's home address unless it is also his or her business address.

This bill would require specified entities in the Department of Consumer Affairs that issue licenses to disclose information regarding the status of the licenses of their licensees on the Internet. This bill would require those entities to disclose the addresses of record of licensees, and would require those entities and the Department of Real Estate to allow the licensees to provide a post office box number or other alternative address, instead of a home address. Those entities would also be authorized to require licensees to provide a physical business address or residence address, as specified.

Ch. 928 (SB 1950) Lewis. Military leave.

Under existing law, a public employee who is a member of the reserve corps of the Armed Forces of the United States or of the National Guard or the Naval Militia is entitled to a temporary military leave of absence for active military training, if certain requirements are met. The employee is entitled to receive his or her pay as a public employee for the first 30 days of the leave period, not to exceed 30 days in one fiscal year. Inactive duty training does not qualify for paid leave.

This bill would revise these provisions in conformity with recent changes in federal law to provide that inactive duty training also qualifies for paid leave.

This bill would authorize, but not require, a local public agency to provide paid leave for inactive duty training.

This bill would authorize a public agency to provide pay for a period of more than 30 calendar days for active duty training.

Ch. 929 (SB 2081) Alarcon. Workers' compensation: disability benefits.

Existing workers' compensation law provides that certain peace officers, firefighters, and other specified state and local public employees are entitled to a leave of absence without loss of salary while disabled by injury or illness arising out of and in the course of employment. This leave of absence is in lieu of temporary disability payments or maintenance allowance payments otherwise payable.

This bill would extend this provision to peace officers of the Los Angeles Unified School District.

This bill would incorporate additional changes in Section 4850 of the Labor Code proposed by AB 1124 and AB 1883, to become operative only if those bills are enacted, as specified, and become operative on or before January 1, 2001, and this bill is enacted last.

Ch. 930 (SB 2157) Schiff. Postadoption contact agreements.

Under existing law, when an adoption petition is granted and the adopting parent is a relative of the child or a relative of the child's half-sibling, a written agreement, designated as a "kinship adoption agreement," may be executed to permit continuing contact between

the birth relatives and the child, as specified. Existing law also requires the State Department of Social Services or licensed adoption agency, whichever is a party to or joins in the petition for adoption, to submit a report addressing the facts of an adoption case; where there is a kinship adoption agreement, the report must also address whether the kinship adoption agreement is in the best interest of the child. A licensed adoption agency includes licensed county adoption agencies for purposes of these provisions.

This bill would instead designate those agreements as “postadoption contact agreements.” The bill would make these provisions applicable regardless of whether the adopting parent is a relative of the child or a relative of the child’s half-sibling. The bill would require that a postadoption contact agreement be attached to and filed with the petition for adoption. The bill would also provide that the terms of a postadoption contact agreement shall be limited to the sharing of information about the child unless the child has an existing relationship with the birth relative. By authorizing agreements in additional cases, the instances in which local adoption agencies would be required to consider the effect of these agreements in connection with the adoption reports would be increased, thus creating a state-mandated local program.

Existing law provides that a child may be adjudged a dependent child of the juvenile court on the basis of abuse or neglect. Before determining the appropriate disposition of a dependent child, existing law requires the court to receive in evidence a specified social study that includes a discussion of, among other things, whether the parent has been advised of his or her right to participate in adoption planning.

This bill would require the social study to also contain a specified discussion regarding the parent’s option to enter into a postadoption contact agreement, thereby imposing new duties on local personnel and creating a state-mandated local program.

The bill would direct the Judicial Council to adopt specified rules of court and forms by July 1, 2001, and direct the State Department of Social Services to adopt specified regulations by July 1, 2001.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 931 (AB 994) R. Wright. Telephone rates: telephone bills: rural telephone cooperatives.

(1) Existing law, until January 1, 2001, requires the Public Utilities Commission to develop, implement, and maintain a program to establish a fair and equitable local rate structure designed to reduce any disparity in rates charged by small independent telephone corporations serving rural and small metropolitan areas, and a program to provide for transfer payments to telephone corporations serving areas where the cost of providing services exceeds rates charged by providers, as determined by the commission. Existing law also requires the Legislative Analyst, not later than February 1, 2000, to conduct a review of the state’s universal telephone service program and report to the Governor and the Legislature as specified.

This bill would extend the operative date of those provisions until January 1, 2005 and would require the Legislative Analyst to conduct the review not later than February 1, 2001.

(2) Existing law governing the contents of a telephone bill requires persons, corporations, or billing agents that transmit telephone bills to include information concerning the nature of the charges, dispute resolution, and complaint procedures. Until January 1, 2001, this includes a bill for noncommunications-related products and services included in an envelope

with a telephone bill. Other existing law, operative January 1, 2001, does not contain the latter provision regarding bills for noncommunications-related goods and services.

This bill would extend the operative date of the operative provision to July 1, 2001, and would correspondingly delay the operative date of that later operative provision to July 1, 2001. The bill would require the commission to open a proceeding to adopt certain consumer protection rules. Since a violation of a rule or order of the commission is a crime, this bill would impose a state-mandated local program by creating new crimes.

The bill would make related legislative findings and declarations.

(3) Under existing law, the commission regulates public utilities, including telephone corporations and other specified entities.

This bill would require the commission, on or before January 1, 2002, to prepare and submit to the Governor and the Legislature a report on the feasibility of establishing rural telephone cooperatives or other alternative service configurations, as defined, to promote rural telephone service, including voice and data transmission service, in the state, as prescribed.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 932 (AB 1002) R. Wright. Natural gas: consumption surcharge.

(1) The Public Utilities Act and other existing law requires electrical and gas corporations to create certain public purpose programs, including assistance to low-income customers and low-income weatherization. The act authorizes the Public Utilities Commission to allow the inclusion of expenses for research and development in rates to be charged by, among other utilities, gas corporations.

This bill, except as specified, would require the commission to establish a surcharge on all natural gas consumed in this state to fund certain low-income assistance programs, cost-effective energy efficiency and conservation activities, and public interest research and development, as prescribed. The bill would require a public utility gas corporation, as described, to collect the surcharge from natural gas consumers, as specified. The money from the surcharge would be deposited in the Gas Consumption Surcharge Fund, which fund the bill would create, for continuous appropriation to specified entities, as prescribed. Because a violation of the act is a crime, this bill would impose a state-mandated local program by creating a new crime. The bill would make legislative findings and declarations, relating to the surcharge.

The bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of $\frac{2}{3}$ of the membership of each house of the Legislature.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 933 (AB 1233) Aroner. CalWORKs program.

Existing federal law provides for allocation of federal funds through the federal Temporary Assistance for Needy Families (TANF) block grant program to eligible states. Existing law provides for the CalWORKs program for the allocation of federal funds received through the TANF program, under which each county provides cash assistance and other benefits to qualified low-income families.

Existing law requires certain participants in the CalWORKs program to participate in certain welfare-to-work activities, including grant-based on-the-job training with a diversion of all or a portion of the grant to the participant's employer.

This bill would establish specified limitations on the grant-based on-the-job training grant diversion and would revise requirements for CalWORKs recipient and employer participation in the program.

Existing law provides that certain amounts are exempt from the calculation of income of the family for purposes of determining eligibility for benefits under the CalWORKs program.

This bill would provide that grant-based on-the-job training wages would not be excluded from the determination of income of the family for those purposes.

This bill, by revising employer participation requirements under the CalWORKs program, would increase county responsibilities in implementing the CalWORKs program, and would result in a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 934 (SB 2199) Hayden. Slavery era insurance policies.

Existing law requires an insurer doing business in this state that sold certain policies of insurance directly or through a related company to persons in Europe between 1920 and 1945 to provide certain information to the Insurance Commissioner for entry into the Holocaust Era Insurance Registry, as specified.

This bill would require the commissioner to request and obtain information from insurers doing business in this state regarding any records of slaveholder insurance policies issued by any predecessor corporation during the slavery era, which policies provided coverage to slaveholders for damage to or death of their slaves. This bill would require insurers to research and report on these policies, and would require the commissioner to make this information available to the public and the Legislature. This bill would state that descendants of slaves are entitled to full disclosure.

Ch. 935 (AB 2036) Nakano. School administrators: evaluation of certificated employees.¹⁹

Under existing law, a person may not be employed as principal of a school of 6 or more certificated employees unless he or she holds a valid school administration credential and a teaching credential or a services credential with a specialization in pupil personnel, health, clinical or rehabilitative, or librarian services. Existing law requires the governing board of each school district to establish and define job responsibilities for certificated noninstructional personnel, including, but not limited to, supervisory and administrative personnel, whose responsibilities cannot be evaluated appropriately under the provisions relating to the evaluation of certificated employees.

This bill would appropriate \$1,000,000 from the General Fund to the State Department of Education for purposes of awarding grants to school districts, county offices of education, and charter schools to provide specified administrator training. The amount of the grants would be limited to \$400 per administrator scheduled to receive the training.

The bill would require the Superintendent of Public Instruction to administer the grant program and to implement, where necessary, actions of the State Board of Education governing the implementation of the program.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

Ch. 936 (AB 2076) Shelley. State Energy Resources Conservation and Development Commission: fuel supply.

Existing law requires the State Energy Resources and Conservation and Development Commission to develop contingency plans to deal with possible shortages of electrical energy or fuel supplies to protect public health, safety, and welfare.

This bill would require the commission to examine the feasibility of operating a strategic fuel reserve and to examine and recommend an appropriate level of reserves. If the commission finds that it would be feasible to operate such a reserve, the bill would require the commission to report this finding to the Legislature and request specific statutory authority and funding for establishment of a reserve. The bill would also require the commission to develop and adopt recommendations on a California Strategy to Reduce Petroleum Dependence.

Ch. 937 (AB 2433) R. Wright. Adoption of children.

(1) Existing law requires, if a mother relinquishes or consents to, or proposes to relinquish and consent to, the adoption of a child who does not have a presumed father, or who otherwise becomes the subject of an adoption proceeding, and the alleged father has not in writing denied paternity, waived his right to notice, or voluntarily consented to adoption, the agency or person to whom the child has been or is to be relinquished, or the mother or the person having legal custody of the child, to file a petition to terminate the father's parental rights, except as specified.

This bill would additionally provide that the prospective adoptive parent may file a petition to terminate the father's parental rights, as specified.

(2) Existing law provides the signing of an adoption placement agreement shall satisfy requirements including, if a parent is not located in this state, the adoption placement agreement shall be signed before an adoption service provider or a notary or other person authorized to perform notarial acts in the state where the birth parent is located.

This bill would revise that provision to state that if the birth parent is not located in this state or country, the adoption placement agreement shall be signed before an adoption service provider or a notary or other person authorized to perform notarial acts in the state or country where the birth parent is located. The bill would expressly specify that these provisions do not apply to intercountry adoptions.

(3) Existing law provides a list of persons who may petition the court to adopt a child, which list includes, among others, a grandparent, aunt, uncle, first cousin, or sibling.

This bill would expand that list to include any relative of the child, as specified.

(4) Under existing law, a birth parent or parents may revoke a consent to adoption within 90 days after signing.

This bill would specify procedures whereby the birth parent or parents may void the revocation and reinstate the consent. By increasing the duties of local employees, this bill would create a state-mandated local program.

(5) Existing law provides that an action to vacate, set aside, or nullify an order of adoption based on fraud shall be commenced within 5 years after entry of the order.

This bill would shorten that period to 3 years.

(6) The bill would make related, technical changes.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 938 (AB 2688) Committee on Agriculture. Fairs: expenditure reporting.

Existing law generally requires state and local agencies to conform to specified contracting procedures, and imposes specified reporting requirements in connection with the expenditure of state funds. Existing law authorizes the Department of Food and Agriculture to develop an alternative contracting procedure, however, for specified local purchases by district agricultural associations, county and citrus fruit fairs, and the California Exposition and State Fair, individually or cooperatively.

This bill would state findings and declarations of the Legislature with regard to expenditure reporting requirements applicable to district agricultural associations and county and citrus fruit fairs, and would authorize the Secretary of Food and Agriculture to develop, in consultation with the Department of General Services, an alternative expenditure reporting procedure from the State Administrative Manual applicable to those fairs with annual reportable expenditures of not more than \$1,000,000. The bill would provide that this alternative procedure shall, at a minimum, maintain an audit trail and protect the ability of state auditors to confirm the proper use of state funds.

Ch. 939 (AB 2794) Havice. California Community Colleges Economic Development Program.

The existing California Community Colleges Economic Development Program, which is codified in the Government Code, is repealed on January 1, 2001.

This bill would repeal the program in the Government Code and would enact and revise certain provisions of the program in the Education Code. The bill would repeal the program on January 1, 2003, unless a later enacted statute deletes or extends that date.

Ch. 940 (SB 1310) Vasconcellos. Outstanding warrants.

(1) Existing law generally authorizes the Controller to offset any amount due a state agency from a person or entity against any amount owing the person or entity, as specified. Existing law authorizes the Controller to offset any amount due a city or county from a person or entity for specified reasons against any amount owing the person or entity by a state agency on a claim for a tax refund or from lottery winnings. Existing law furthermore requires the Controller, to the extent possible, to offset any amount overdue and unpaid for a fine, penalty, assessment, bail, vehicle parking penalty, or court-ordered reimbursement for court-related services from a person or entity, against any amount owing the person or entity by a state agency on a claim for a tax refund or from lottery winnings.

This bill would provide that the Department of Justice, in consultation with the Controller, the Franchise Tax Board, and the California Lottery Commission, shall examine ways to enhance the use and effectiveness of the above provisions through integration with the Department of Justice's Wanted Persons System and shall report the findings and recommendations to the Legislature on or before January 1, 2002. The bill would provide that this provision shall remain in effect only until January 1, 2003.

(2) Existing law provides for the issuance of an arrest warrant under specified circumstances.

This bill would provide, in addition, that (a) on or after June 30, 2001, upon the issuance of an arrest warrant the issuing law enforcement agency may enter the warrant information into the Department of Justice's Wanted Persons System; and (b) any state or local governmental agency shall, upon request, provide to the Department of Justice, a court, or any California law enforcement agency the address of any person represented by the department, the court, or the law enforcement agency to be a person for whom there is an outstanding arrest warrant. The bill would add a related provision that would require the

Franchise Tax Board, upon the request of the Department of Justice, a court, or any California law enforcement agency, to provide the address of any person represented to be a person for whom there is an outstanding arrest warrant. By imposing new duties on local agencies, this bill would impose a state-mandated local program on local government.

(3) Existing law generally provides that fines, state or local penalties, forfeitures, restitution fines, restitution orders, or any other amounts imposed by a superior or municipal court of the State of California upon a person or any other entity that is due and payable in an amount totaling no less than \$250, in the aggregate, for criminal offenses, may, no sooner than 90 days after payment of that amount becomes delinquent, be referred by the county or the state to the Franchise Tax Board for collection, as specified. Existing law also provides that for the period January 1, 1995, to December 31, 1997, inclusive, for purposes of a manageable implementation and evaluation of this debt collection program, the Franchise Tax Board may limit referrals to nine counties. Existing law requires the Franchise Tax Board to report to committees of the Legislature, as specified, the results of the debt collection program on or before April 1, 2001, and provides that the provisions relating to the debt collection program shall be repealed as of January 1, 2002.

This bill would revise these provisions to instead provide that for the period January 1, 2001, to December 31, 2002, inclusive, the Franchise Tax Board may limit referrals under the debt collection program to 17 counties; the above report required of the Franchise Tax Board would specifically address the feasibility and advisability of expanding the debt collection program so that it may accept referrals from all 58 counties in the state; the term “obligor” would be replaced by the term “debtor,” and the repeal date of the provisions relating to the debt collection program would be extended to January 1, 2003. The bill would also require the Department of Justice, in consultation with the Franchise Tax Board, to examine ways to enhance the use and effectiveness of these debt collection provisions through integration with the Department of Justice’s Wanted Persons System and to report the findings and recommendations to the Legislature on or before January 1, 2002.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that no reimbursement shall be made from the State Mandates Claims Fund for costs mandated by the state pursuant to this act, but would recognize that local agencies and school districts may pursue any available remedies to seek reimbursement for these costs.

Ch. 941 (SB 1364) Johnston. Genetics: test disclosure.

Existing law, the Confidentiality of Medical Information Act, imposes prohibitions on the disclosure of the results of a test for a genetic characteristic contained in an applicant’s or enrollee’s medical records by a health care service plan.

This bill would specify, for those prohibitions, a definition for the term “genetic characteristic,” that is the same as the definition contained in existing provisions regarding health care service plans.

Existing law requires the State Department of Health Services to recommend appropriate criteria and standards for licensing genetic counselors, and requires the department to consult with a group of medical experts representing medical professional organizations during the process of developing and recommending the criteria and standards.

This bill, instead, would require that standards for hereditary disorders programs established by the department include licensure of master level genetic counselors and doctoral level clinical geneticists. The bill would also require that counseling services for hereditary disorders be provided by a physician or other appropriately trained licensed health care professional.

The bill would prohibit any person from using the title of genetic counselor unless the person has applied for and obtained a license from the department. The bill would specify licensing requirements with regard to a genetic counselor.

Existing law authorizes the department to charge a fee for genetic disease testing of children and requires that all moneys collected be deposited in the Genetic Disease Testing Fund, a continuously appropriated special fund.

This bill would authorize the department to charge fees for licensing activities required under the bill and would require the fees collected to be deposited in the Genetic Disease Testing Fund. Because this bill would provide for new fees to be deposited into the Genetic Disease Testing Fund, a continuously appropriated special fund, this bill would make an appropriation.

Ch. 942 (SB 1387) Hughes. Compton Unified School District and Compton Community College District.²⁰

(1) Existing law, until January 1, 2001, authorizes the Compton Unified School District to identify low-performing schools in the district and make pupils in kindergarten and grades 1 to 12, inclusive, in those schools eligible for extended school year instruction.

This bill would extend the date of repeal of this existing law to January 1, 2002. The bill would remove a requirement that the Legislative Analyst evaluate or contract to evaluate the effectiveness of the extended year program and require the State Department of Education, in conjunction with the Legislative Analyst, to contract for the independent evaluation, as specified. The bill would provide that the Compton Unified School District would be responsible for all costs related to the independent evaluation, thereby imposing a state-mandated local program.

(2) The bill would appropriate \$3,000,000 from the General Fund to the Compton Community College District to complete a technology building. To the extent that funds appropriated by this bill are allocated to a school district or a community college district, those funds would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 943 (SB 1712) Polanco. Universal telephone service.

The Moore Universal Telephone Service Act requires the Public Utilities Commission to establish a class of lifeline service necessary to meet minimum residential communications needs and establish rates and charges for that service.

This bill would require the commission, on or before February 1, 2001, to initiate an investigation to examine the current and future definitions of universal service, seeking input from a wide cross section of providers, users, state agencies, and convergent industries and reporting findings and recommendations, consistent with specified principles, to the Legislature. The bill would make related legislative findings and declarations.

Ch. 944 (AB 2415) Migden. Health care: Healthy Families Program: Medi-Cal: eligibility.

Existing law prohibits denying a child eligibility for the Healthy Families Program who is a qualified alien, as defined in federal law, who is otherwise eligible for participation in the

NOTE: Superior numbers appear as a separate section at the end of the digests.

program. Existing law does not require federal participation for qualified aliens in the 1999–2000 and 2000–01 budget years, but does for participation in subsequent fiscal years.

This bill would delete the requirement that eligibility for qualified aliens is dependent on federal participation.

Existing law continuously appropriates money from the Healthy Families Fund for purposes of implementation of the Healthy Families Program.

This bill would limit implementation to the extent provided in the annual Budget Act.

Ch. 945 (AB 2900) Gallegos. Medi-Cal: eligibility.

Existing law establishes the Medi-Cal program, administered by the State Department of Health Services, under which health care services are provided to qualified low-income persons.

Existing federal law contains various federal requirements and optional provisions that govern the Medi-Cal program.

This bill would, to the extent that federal financial participation is available, require the department to implement a federal option to extend continuous eligibility to children 19 years of age and younger, as described.

Because each county is required to administer Medi-Cal eligibility requirements, the bill would, by expanding Medi-Cal eligibility, impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 946 (AB 1015) Gallegos. Healthy Families: eligibility.

Existing law establishes the Healthy Families Program to arrange for the provision of health care services to children from low-income households. The program is administered by the Managed Risk Medical Insurance Board and is operated with federal financial participation under a federal program entitled the State Children's Health Insurance Program.

Existing law continuously appropriates funds in the Healthy Families Fund to the board for purposes of the Healthy Families Program.

This bill would require the board, commencing July 1, 2001, to the extent federal financial participation is available and funds are appropriated specifically for this purpose, to expand eligibility under the Healthy Families Program to parents of uninsured children eligible under that program. It would provide that no appropriation would be made for this purpose from the Healthy Families Fund.

Ch. 947 (AB 50) Migden. Public Employees' Retirement System: postretirement death benefits.

The Public Employees' Retirement Law prescribes postretirement death benefits with respect to state members in the amount of \$2,000 and with respect to school members and specified local members in the amount of \$600 or, under certain conditions, in the amount of \$2,000, \$3,000, \$4,000, or \$5,000.

This bill would provide that the postretirement death benefit with respect to school members who die on or after January 1, 2001, shall be \$2,000 or, under certain conditions, \$3,000, \$4,000, or \$5,000, and would make related technical changes.

This bill would incorporate additional changes to Section 20618 of the Government Code proposed by SB 528 to take effect if this bill and that bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would also incorporate additional changes to Sections 21622, 21623, and 21623.5 of the Government Code proposed by SB 1998 to take effect if this bill and that bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 948 (AB 321) Wildman. Eminent domain: valuation.

(1) Existing law renders inadmissible as evidence, and prohibits as a basis for an opinion as to the value of property, in an eminent domain or inverse condemnation proceeding, the price or other terms and circumstances of an acquisition of property or a property interest if the acquisition was for a public use for which the property could have been taken by eminent domain. Existing law exempts from this provision the price or other terms and circumstances of an acquisition of property appropriated to a public use or a property interest so appropriated if the acquisition was for the same public use for which the property could have been taken by eminent domain.

This bill would revise the above-described exemption to apply to the price or other terms and circumstances if the proceeding relates to the valuation of all or part of a water system.

Ch. 949 (AB 632) Romero. Public postsecondary education: student residency requirements.

Existing law establishes the segments of public postsecondary education in the state, including the University of California, the California State University, and the California Community Colleges. Existing law prescribes requirements for the classification of the residency of the students at public institutions of postsecondary education, and generally requires that students who are classified as nonresidents of the state pay nonresident tuition.

This bill would require that, notwithstanding any other provision of law, a student holding an emergency permit authorizing service in the public schools of the state, who is employed by a school district in a full-time position requiring certification qualifications for the academic year in which the student enrolls at an institution in courses necessary to fulfill teacher credential requirements, is entitled to resident classification only for the purpose of determining the amount of tuition and fees for no more than one year, as prescribed.

The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 950 (AB 642) Lempert. Wetlands mitigation banking.

Existing provisions of the Keene-Nejedly California Wetlands Preservation Act require the Department of Parks and Recreation and the Department of Fish and Game to prepare a wetlands priority plan and authorize the departments to acquire interests in wetlands and to enter into operating agreements with cities, counties, and districts for the management and control of wetlands or interests in wetlands acquired under that act.

This bill would require the Department of Fish and Game, on or before January 1, 2002, to establish a data base of all existing and operating wetlands mitigation banks that sell credits to the public in California and to provide a report to the Legislature with a description and the status of each existing wetlands mitigation bank site in operation as of January 1, 2001, and each bank site approved thereafter, including specified information.

The bill would provide that implementation of its provisions would be subject to an appropriation of sufficient funds, as specified.

Ch. 951 (AB 707) House. Educational employees.

(1) Existing law requires the Commission on Teacher Credentialing to issue a 2-year services credential with a specialization in pupil personnel services, solely for the purpose of counseling deaf and hearing-impaired pupils, to any prelingually deaf candidate, provided the applicant has met certain requirements. Existing law exempts prelingually deaf applicants from the basic skills proficiency test requirement.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would specifically make the above provisions applicable to a prelingual deaf person with a 2-year services credential with a specialization in pupil personnel services, solely for the purpose of counseling deaf and hearing-impaired pupils as a school psychologist.

(2) Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state. Existing law provides procedures for the filling of vacancies in the classified service of community college districts.

This bill would authorize the governing board of a community college district to exempt designated senior classified administrative employees, as defined, who are hired on or after January 1, 2001, from these procedures. The bill would specify procedures for the filling of vacancies occurring in positions that are exempted under this bill.

Ch. 952 (AB 988) Hertzberg. Local coastal program: City of Malibu.

(1) The existing California Coastal Act of 1976 imposes certain restrictions on development in the coastal zone of the state and requires each local government located within the coastal zone to prepare a local coastal program.

This bill would require the California Coastal Commission, on or before January 15, 2002, to submit to the City of Malibu an initial draft of the land use portion of the local coastal program for the City of Malibu portion of the coastal zone. The bill would require the commission, on or before September 15, 2002, after public hearing and consultation with the City of Malibu, to adopt a local coastal program for that area within the City of Malibu portion of the coastal zone. The bill would require the City of Malibu, subsequent to the certification of the local coastal program, to immediately assume coastal development permitting authority, pursuant to the act, thereby imposing a state-mandated local program. The bill would provide that, notwithstanding specified requirements for the review and approval of development projects, once the City of Malibu assumes coastal development permitting authority pursuant to provisions of the bill, no application for a coastal development permit shall be deemed approved if the city fails to take timely action to disapprove or deny the application.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 953 (AB 1398) Papan. Public utilities: water corporations: judicial review.

(1) Existing law authorizes any aggrieved party to petition the court of appeal or the Supreme Court, within specified time limits, to a review of a decision of the Public Utilities Commission. Existing law also provides that, until January 1, 2001, a review of commission decisions pertaining solely to water corporations are only by petition for writ of review in the Supreme Court, except that review of complaint or enforcement proceedings may be in the court of appeal or the Supreme Court.

This bill would indefinitely extend the provision related to review of decisions pertaining to water corporations.

(2) Existing law provides that no new or additional evidence may be introduced upon review of a commission by the court. In a complaint or enforcement proceeding, or in a ratemaking or licensing decision of specific application that is addressed to particular parties, the review by the court does not extend further than to determine, on the basis of the entire record whether certain events occurred. Existing law also provides that, until January 1, 2001, this standard of review does not apply to ratemaking or licensing decisions of specific application addressed solely to water corporations.

This bill would indefinitely extend this exemption from the standard of review for specified decisions relating solely to water corporations.

(3) Existing law provides that, except for a specified review process, review by a court does not extend further than to determine, on the basis of the entire record whether any of the following occurred: abuse of discretion, violation of procedure required by law, lack of jurisdiction, not factual support, fraud, or a constitutional violation. Existing law also provides, until January 1, 2001, in reviewing decisions pertaining solely to water corporations, the review extends no further than to determine whether the commission has regularly pursued its authority, including a determination whether the order or decision under review violates any right of the petitioner under the United States Constitution or the California Constitution.

This bill would indefinitely extend this standard of review for water corporations.

(4) Existing law provides that, until January 1, 2001, the Supreme Court will grant expedited consideration to any petition alleging that the court of appeal has assumed jurisdiction to review a commission decision pertaining solely to a water corporation over which the court of appeal has no jurisdiction.

This bill would indefinitely extend that provision.

Ch. 954 (AB 1646) Steinberg. Public works: payments.

(1) Existing law regulating public works contracts requires the awarding body of a public works contract to withhold and retain from payments to the contractor all wages and penalties that have been forfeited pursuant to the contract or existing law. The awarding body is required to transfer all wages and penalties retained, to the Labor Commissioner for disbursement pursuant to specified provisions whenever a contractor fails to bring a suit against the awarding body for recovery of wages and penalties withheld within 90 days after the completion of the contract and formal acceptance of the job.

This bill would require the awarding body to report promptly any suspected violations of the laws regulating public works contracts to the Labor Commissioner and to retain all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner.

(2) Existing law authorizes the contractor to bring suit for the limited purpose of recovery of the penalties or forfeitures withheld. Existing law permits the Division of Labor Standards Enforcement to intervene in a contractor's suit for recovery of amounts withheld, provides for the deposit of wages for workers who cannot be located into the Industrial Relations Unpaid Wages Fund, and provides for the deposit of penalties into the General Fund. Existing law, until January 1, 2003, requires a contractor to withhold moneys due a subcontractor in an amount sufficient to pay the wages that are the subject of a claim filed with the Division of Labor Standards Enforcement, as directed by the division, if the body awarding the public works contract has not withheld sufficient moneys to pay the wage claims. Existing law requires the contractor to pay those moneys to the subcontractor after receipt of notification that the claim has been resolved, or to pay those moneys to the awarding body, under specified circumstances. Existing law also authorizes the Division of Labor Standards Enforcement to maintain an action for wages and penalties, if, as provided, there are insufficient amounts due a contractor to pay those wages and penalties.

This bill would repeal these provisions and instead would require the Labor Commissioner to issue a civil wage and penalty assessment to the contractor or subcontractor, or both, if the Labor Commissioner determines after investigation that there has been a violation of the laws regulating public works contracts. The bill would permit an affected contractor or subcontractor to obtain review of a civil wage and penalty assessment by transmitting a written request for a hearing to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment and would require an impartial hearing officer, until January 1, 2005, and then an administrative law judge appointed by the Director of Industrial Relations, to commence a hearing within 90 days of receipt of the

request. The bill would permit an affected contractor or subcontractor to obtain review of the decision of the director, until January 1, 2005, and then an administrative law judge by filing a petition for a writ of mandate to the superior court within 45 days after service of the decision. The bill would provide for liquidated damages in an amount equal to the amount of unpaid wages, as specified. The bill would also authorize informal settlement meetings.

The bill would provide that the contractor and subcontractor are jointly and severally liable for all amounts due pursuant to a final order or a judgment on that final order, but would require the Labor Commissioner to collect amounts due from the subcontractor before pursuing the claim against the contractor. The bill would require that the wage claim be satisfied from the amounts collected prior to those amounts being applied to penalties and that the money be prorated among all workers if an insufficient amount is recovered to pay each worker in full. The bill would require wages for workers who cannot be located to be placed in the Industrial Relations Unpaid Wage Fund, a continuously appropriated fund, and penalties to be paid into the General Fund.

(3) Existing law requires any political subdivision that enforces the laws regulating public works contracts and any court collecting fines or penalties that result from enforcement actions by political subdivisions to deposit penalties or forfeitures withheld from any contract payment in the General Fund of the political subdivision. Existing law authorizes a contractor to appeal an enforcement action by a political subdivision to the Director of Industrial Relations.

The bill would repeal and recast this provision to apply to any awarding body that enforces the laws regulating public works contracts in accordance with specified provisions of existing law. The bill would require such an awarding body to provide written notice of the withholding of contract payments to the contractor and subcontractor, as specified. The withholding of contract payments would be reviewable in the same manner as a civil penalty order of the Labor Commissioner.

(4) Existing law provides that per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, travel, and subsistence pay, apprenticeship or other training programs, and similar purposes. Existing law requires the representative of any craft, classification, or type of worker needed to execute a public works contract entered into with the state to file with the Department of Industrial Relations, fully executed copies of the collective bargaining agreements for the particular craft, classification, or type of work involved for the purposes of determining the per diem wages.

This bill would specify the employer contributions, costs, and payments that employer payments may include and would provide that employer payments not required to be provided by state or federal law are a credit against the obligation to pay the general prevailing rate of wages. However, credits for employer payments would not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing. This bill would expand the requirement that copies of collective bargaining agreements be filed with the Department of Industrial Relations to apply to representatives of any craft, classification, or type of worker needed to execute a public works contract entered into with a public entity other than the state. The bill would revise the filing requirements to permit, if the collective bargaining agreement has not been formalized, the temporary filing of a typescript of the final draft accompanied by a statement under penalty of perjury as to its effective date. Because this bill would impose additional duties on local agency employers, expand the scope of the existing crime of perjury, and provide that a violation of these provisions is a misdemeanor, this bill would impose a state-mandated local program.

(5) This bill provides that it would become operative on July 1, 2001.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

NOTE: Superior numbers appear as a separate section at the end of the digests.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 955 (AB 1785) Villaraigosa. Hate violence.

(1) Existing law requires the State Board of Education to revise as specified, the state curriculum frameworks and guidelines and the moral and civic education curricula to include human relations education, with the aim of fostering an appreciation of people of different ethnicities.

This bill instead would require the State Board of Education to revise the state curriculum frameworks and guidelines and the moral and civic education curricula to include human relations education, with the aim of fostering an appreciation of the diversity of California's population and discouraging the development of discriminatory attitudes and practices.

(2) Existing law states the Legislature's intent relating to school safety and violence prevention and that schoolsites receiving funds accomplish specified goals.

This bill would state the Legislature's additional intent that public schools have access to supplemental resources to combat bias based on membership in specified groups or classifications, and to prevent and respond to acts of hate violence and bias related incidents. The bill would also state additional goals for schoolsites receiving funds to include programs and curricula relating to bias, stereotyping, and discrimination as specified.

(3) Existing law empowers the Commission on Teacher Credentialing to issue a certificate that authorizes the holder of the certificate to provide various services to limited-English-proficient pupils. Minimum requirements are specified for issuance of that certificate.

This bill would add a course in human relations as a prerequisite to obtaining the above credential and would define culture and cultural diversity to mean an understanding of human relations as specified.

(4) Existing law requires that school districts report on crimes committed on school grounds, as specified. Existing law requires the State Department of Education, in consultation with the Department of Justice and a representative selection of school districts, to develop a standard school crime reporting form. Existing law requires the department to identify guidelines for reporting, and documentation for validating, the incidents of each crime description included on the standard school crime reporting forms, as specified.

This bill would require the department to specifically include reporting of hate motivated incidents and hate crimes, as defined, on the standard school crime reporting form. This bill would also require the department to establish reporting guidelines and documentation for validation criteria for hate crimes, as defined. By increasing the reporting duty of school districts, this bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 956 (AB 1897) Davis. Identity theft: remedies.

Existing law provides that every person who willfully obtains personal identifying information about another person without that person's consent, and uses that information for any unlawful purpose, including to obtain or attempt to obtain credit, goods, services, or

medical information in the name of that person, is guilty of a crime punishable by imprisonment in a county jail not to exceed one year, a fine not to exceed \$1,000, or both, or by imprisonment in the state prison, a fine not to exceed \$10,000, or both. Existing law also provides when a person is convicted of using that information to commit a separate crime, that court record shall reflect that the person whose identity was falsely used to commit the crime did not commit the crime. Existing law also provides that if a consumer submits to a credit reporting agency a copy of a valid police report pursuant to these provisions, the consumer credit reporting agency shall promptly and permanently block reporting any information that the consumer alleges appears on his or her credit report as a result of that violation so that the information cannot be reported. Existing regulations of the Department of Motor Vehicles also provide that a person may apply for a new driver's license or identification card number in the event of fraudulent use by another, upon submission of a police report and specified supporting information.

This bill would provide that a person who has learned or reasonably suspects that his or her personal identifying information has been used by another to commit a crime, may initiate a law enforcement investigation by contacting the local law enforcement agency with jurisdiction over his or her actual residence, which shall take a police report of the matter, provide the complainant with a copy of that report, and either begin an investigation of the facts or, if the suspected crime was committed in a different jurisdiction, refer the matter to the law enforcement agency where the crime or suspected crime was committed for an investigation of the facts. This bill would also provide that a person who reasonably believes that he or she is the victim of identity theft may petition a court for an expedited judicial determination of his or her factual innocence order certifying that he or she is a victim of identity theft, where the perpetrator of the identity theft was arrested for or convicted of a crime under the victim's identity, or where the victim's identity has been mistakenly associated with a record of criminal conviction. The bill would specify the sort of information to be used in making this determination, would direct the court to issue an order certifying that the petitioner is factually innocent where it finds that the petition is meritorious and there is no reason to believe the petitioner committed the offense. The bill would direct the Judicial Council to develop a form for use in connection with these proceedings, and would authorize courts to vacate determinations of factual innocence if a petition or supporting information is found to contain any material misrepresentation or fraud.

The bill would impose a state-mandated local program by requiring a higher level of service from local law enforcement.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 957 (AB 1901) Steinberg. Housing: construction: prevailing wages.

The existing Multifamily Housing Program administered by the Department of Housing and Community Development requires a project sponsor to agree to set and maintain affordable rent levels for assisted units in order to be eligible to receive a loan. Also, provisions of AB 2870, which has been enacted and will become operative January 1, 2001, to be known as the Downtown Rebound Program, require the department to make grants and loans for specified urban housing projects, subject to specified restrictions.

This bill would additionally require project sponsors under both of those programs to agree to pay prevailing wages with respect to construction, as specified. The bill would

require the department to require, as a condition of loan closing, a signed certification that prevailing wages have been or will be paid.

Ch. 958 (AB 1954) Jackson. Armories: homeless shelter.

(1) Existing law requires the Military Department to make certain state armories available to specified cities and counties for use by homeless persons from December 1 through March 15 each year for emergency shelter purposes as a temporary measure to allow adequate time for governmental entities to make other homeless shelter arrangements. The Budget Act of 1999 and other uncodified provisions augmenting that act appropriated specified amounts to the Military Department and the Department of Housing and Community Development for use, as specified, for temporary shelter and emergency housing and assistance at armories or alternative facilities.

This bill would revise the list of armories to be made available, as specified, require those armories to be made available from October 15 through April 15, authorize the Adjutant General to use alternate armories as necessary to meet the operational needs of the Military Department, and authorize any county or city to use any armory within its jurisdiction subject to the approval of the Adjutant General. The bill would authorize the Adjutant General, subject to an appropriation in the annual Budget Act, to increase or decrease the number of days of operation among the armories to meet cold weather demands. The bill would require the Adjutant General to periodically report to counties on the availability of funded shelter days.

(2) Existing law also provides that any county or city electing to use state armories for homeless persons shall obtain a license from the Military Department. Under existing law, each county that obtains a license from the Military Department is also required to establish a local shelter advisory committee on or before November 1, 1997.

This bill would delete the November 1, 1997, deadline from the requirement that each county that obtains a license from the Military Department establish a local shelter and advisory committee.

Ch. 959 (AB 1931) Scott. Hate violence.

Existing law requires at the request of the Superintendent of Public Instruction that the State Board of Education adopt policies directed toward creating a school environment free from discriminatory attitudes, practices, and acts of hate violence and that the state board revise, as needed, curriculum to include human relations education with the aim of fostering an appreciation of people of different ethnicities.

This bill would require, subject to funds being appropriated therefor in the Budget Act of 2000, the State Department of Education to provide regional training to assist school district personnel in the identification and determination of hate violence on school campuses. The bill would establish a grant program for school districts to enable pupils and teachers to participate in educational programs focused on fostering ethnic sensitivity, overcoming racism and prejudice, and countering hatred and intolerance.

This bill would, subject to funds being appropriated therefor in the Budget Act of 2000, allocate \$150,000 to contract for the services of an organization with the experience to provide regional training programs throughout the state to assist school district personnel in the identification and determination of hate violence on school campuses, and allocate \$2,000,000 for the purpose of providing grants on a competitive basis, as specified, to school districts and county offices of education to enable pupils and teachers to participate in educational programs focused on fostering ethnic sensitivity, overcoming racism and prejudice, and countering hatred and intolerance.

Ch. 960 (AB 1945) Lowenthal. School development plans.

Existing law authorizes school districts to establish school development plans for staff development. Existing law requires that staff development activities included in school

development plans assist personnel at the local schoolsite to, among other things, improve the school and classroom environments, including working relationships with parents and other community members.

This bill would also require staff development activities included in school development plans to assist personnel at the local schoolsite to develop tolerance programs, as described.

Ch. 961 (AB 1955) Migden. Judges' retirement: extended service incentive program.

The Judges' Retirement Law prescribes retirement benefits for judges, as defined, who were first elected or appointed to judicial office before November 9, 1994.

This bill would establish the Extended Service Incentive Program to provide enhanced retirement benefits for those judges who continue in service beyond retirement age, as specified, and direct the board of administration of the Public Employees' Retirement System to implement the program no later than July 1, 2001, except as specified. The bill would also direct the Board of Administration of the Public Employees' Retirement System and the Judicial Council to report to the Legislature, by January 1, 2006, regarding the costs and effects of the program, as specified.

Ch. 962 (AB 1965) Leach. Information practices: State Board of Equalization.

The Information Practices Act prohibits the distribution of an individual's name and address for commercial purposes, sale, or rental by a state agency, unless specifically authorized by law. The act does not prohibit the release of only names and addresses of persons possessing licenses to engage in professional occupations or of persons who are registered with, or are holding licenses or permits issued by, the State Board of Equalization.

This bill would prohibit the State Board of Equalization from releasing the names and addresses of individuals who are registered with, or are holding licenses or permits issued by, the State Board of Equalization except to the extent necessary to verify resale certificates or to administer the tax and fee provisions of the Revenue and Taxation Code. The bill would provide that its provisions do not prohibit the release by the State Board of Equalization to, or limit the use by, any federal or state agency, or local government, of any data collected by the board that is otherwise authorized by law.

Ch. 963 (AB 2098) Migden. State Energy Resources Conservation and Development Commission.

Existing law requires the State Energy Resources Conservation and Development Commission to develop contingency plans to deal with possible shortages of electrical energy or fuel supplies to protect public health, safety, and welfare.

This bill would require the commission to study the feasibility of financing, constructing, and maintaining a new pipeline or expanding the capacity of existing pipelines to transport motor vehicle fuel and its components from the Gulf Coast to California. The bill would require the study to be submitted to the Legislature and the Attorney General by January 31, 2002.

Ch. 964 (AB 2286) Davis. Wetlands.

The existing Keene-Nejedly California Wetlands Preservation Act required the Department of Parks and Recreation and the Department of Fish and Game to conduct a joint study by January 15, 1978, to identify the wetlands of the state that require acquisition and preservation and authorized those departments to enter into operating agreements with local entities for the management and control of wetlands.

This bill would require the Resources Agency to update all of the state's existing wetlands inventory resources in order to prepare a restoration, management, and acquisition study to accomplish specified goals, including identification of restoration and enhancement opportunities in the state for wetlands in public ownership; identification of a means of protecting and enhancing existing wetlands in public ownership; identification of

opportunities for voluntary public-private partnerships for wetlands restoration, enhancement, and management on private lands; identification of the wetlands in the state that are not currently in public ownership; identification of additional recreational benefits that can be provided on existing, restored, or newly created wetlands in public ownership; provision of a basis for the inclusion of wetlands data in the California Continuing Resources Investment Strategy Project (CCRISP); identification of wetlands on lands owned by federal agencies in California; and identification of these instances where lead agencies have adopted mitigation measures pursuant to the California Environmental Quality Act (CEQA) or a habitat conservation plan, or that utilize or reference wetlands resources located on lands owned by the United States Department of Defense.

The bill would require the study to be submitted to the Legislature by January 1, 2003. The bill would also authorize the California Coastal Conservancy to enter into an operating agreement with a local entity for the management and control of wetlands.

Ch. 965 (AB 2316) Mazzoni. Children of incarcerated women: study.

Existing law establishes the California Institution for Women for the punishment, treatment, supervision, custody, and control of females convicted of felonies. The Department of Corrections is required to establish and implement a community treatment program for women sentenced to state prison who have one or more children under the age of 6 years. In operating the program, the department is required to make its prime concern the establishment of a safe and wholesome environment for the participating children.

This bill would require the California Research Bureau in the California State Library, pursuant to specified guidelines, to conduct a study of the children of women who are incarcerated in state prisons.

The bill would require the bureau to convene an advisory group to assist in designing and administering the study. This bill would declare that the costs of the measure would be paid from money appropriated for its purposes in the State Budget and would authorize payment of travel and per diem expenses to members of the advisory panel. This bill would also require certain local agencies and school districts to permit the California Research Bureau to have reasonable access to certain records, as specified.

Ch. 966 (AB 2331) Floyd. Public employees: compensation earnable.

Under the County Employees Retirement Law of 1937, retirement benefits for members of county and district retirement systems are calculated, in part, based upon a member's compensation earnable, as defined. Subject to specified conditions, compensation earned while the member was a member of the Public Employees' Retirement System or a retirement system of another county is included in the calculation of compensation earnable for that purpose, provided that the period between active memberships in the respective retirement systems does not exceed 90 days, except as specified.

This bill would further provide that compensation earned while a member of the State Teachers' Retirement System or a retirement system of any other public agency of the state that has established reciprocity with the Public Employees' Retirement System shall also be included in that calculation, subject to those specified conditions. It would also make related changes.

Ch. 967 (AB 2351) Zettel. Weapons: manufacture, import, and sale.

(1) Existing law, commencing January 1, 2001, makes it a misdemeanor to manufacture or cause to be manufactured, import into the state for sale, keep for sale, offer or expose for sale, give, or lend any unsafe handgun, except as specified.

Existing law, commencing January 1, 2001, additionally requires every person licensed to manufacture firearms pursuant to federal law who manufactures firearms in this state and every person who imports into the state for sale, keeps for sale, or offers or exposes for sale any firearm to certify under penalty of perjury that every model, kind, class, style, or type of

pistol, revolver, or other firearm capable of being concealed upon the person that he or she manufactures or imports, keeps, or exposes for sale is not a prohibited unsafe handgun.

This bill would exempt from these requirements certain pistols that are used in official Olympic-style international shooting competition, as specified.

(2) Existing law defines the term “assault weapon” by, among other things, designating a list of specified semiautomatic firearms and providing descriptive definitions concerning the capacity and function of the weapon.

The bill additionally would specify that the definition of “assault weapon” does not include certain pistols that are used in official Olympic-style international shooting competition, as specified.

Ch. 968 (AB 2403) Maddox. Residential mortgage lending.

Existing law, the California Residential Mortgage Lending Act, prohibits a licensee from engaging in certain acts regarding the disbursement of mortgage loan proceeds, the amount of the closing fees charged, and other matters.

This bill would prohibit a licensee from requiring a borrower to pay interest on a mortgage loan for a period in excess of one day prior to the recording of the mortgage, with certain exceptions based on the day agreed to for the recording.

Existing law sets annual assessments to be paid to the commissioner by licensees based on a pro rata share of total administrative costs to operate the program and a percentage of the income of each licensee. Existing law requires licensees to pay the cost of all nonroutine examinations by the commissioner.

This bill would remove obsolete portions of the assessment provisions. This bill would revise the time and method for determining the annual assessments to be paid by licensees. This bill would require licensees to pay the cost of all examinations by the commissioner.

Ch. 969 (AB 2459) Wiggins. Courts.

Existing law requires the Judicial Council to adopt appropriate rules for budget submission, budget management, and reporting of revenues and expenditures by each court.

This bill would require the Judicial Council to adopt rules to provide for reasonable public access to budget allocation and expenditure information at the state and local level, and ensuring that trial courts, upon written request, provide information in a timely manner regarding the administration of the courts, including specified financial information. The bill would make a technical, clarifying change to that provision.

Ch. 970 (AB 2513) Shelley. Prevailing wage requirements: violations.

Under existing law, whenever a contractor or subcontractor performing a public works project is found by the Labor Commissioner to be either in violation of certain provisions of law relating to payment of prevailing wages, with intent to defraud, or in willful violation of those provisions of law, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest is ineligible to bid on or to receive a public works contract for specified periods of time.

This bill would delete the requirement that a contractor or subcontractor have a substantial interest in one of the above-listed entities in order for the entity to be ineligible to bid or contract, and instead would render ineligible an entity in which an ineligible contractor has any interest.

Ch. 971 (AB 2559) Cardoza. Personnel records: peace officers.

Under existing law, peace officer personnel records and other specified records, or information from those records, are confidential and may not be disclosed in a criminal or civil proceeding except by discovery pursuant to specified provisions of law.

This bill would make the above prohibition against disclosure of peace officer personnel records and information from those records except as specified, applicable to the department or agency that employs the peace officer.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Ch. 972 (AB 2665) Ackerman. Crime prevention: criminal record reporting.

(1) Existing law authorizes a human resource agency or an employer to request from the Department of Justice records of all convictions or any arrest for which the person is released on bail or on his or her own recognizance pending trial, involving any sex crimes, drug crimes, or crimes of violence, as defined. Existing law requires the department to furnish records to a requester if, among other things, the subject of the request has a total of 3 or more felony or misdemeanor convictions within the immediately preceding 10-year period or if the subject has a felony or misdemeanor conviction within 10 years of the employer's request, as specified, for any of a number of specified violations, provided that the subject of the request has a total of 3 or more felony or misdemeanor convictions within the immediate preceding 10-year period.

This bill would also require that records be furnished if the subject of the request for criminal records has been incarcerated for any of the convictions within the 10-year period following the convictions or, in the case of a felony conviction that is over 10 years old, if the subject was incarcerated within 10 years of the employer's request.

(2) Existing law requires the Department of Justice to secure any criminal record of a person to determine whether the person has been convicted within the last 10 years of a sex offense against a minor or of a violation of other specified crimes, including any felony, if, for purposes of the In-Home Supportive Services program, an employer of the person requests the determination and submits fingerprints of the person to the department. Likewise, under existing law, if it is found that the person has been convicted within the last 10 years of these offenses, the department is required to notify the employer of that fact or provide a statement of the fact that no criminal record is found.

This bill would additionally require that the department secure a criminal record or notify the employer if the person was incarcerated within the last 10 years for these offenses.

Ch. 973 (AB 2749) Pescetti. Cargo Theft Interdiction Program Fees.

(1) The Motor Carriers of Property Permit Fee Act authorizes the collection of, among other things, a Cargo Theft Interdiction Program Fee from all motor carriers of property, as defined. The fee is collected on a graduated scale based on fleet size. The fee is deposited as a credit in the Motor Carriers Permit Fund that was created by the act. The Cargo Theft Interdiction Program Fees are transferred to the Motor Carriers Safety Improvement Fund. These funds are available for appropriation by the Legislature to cover the costs to the Department of the California Highway Patrol to deter commercial motor vehicle cargo thefts and provide for security of highway carriers and cargoes.

This bill would remove the Cargo Theft Interdiction Program Fee from collection under the Motor Carriers of Property Permit Fee Act, and would impose the fee as a flat fee of \$3, as specified, on each motor vehicle required to pay a weight fee as part of vehicle registration with prescribed exemptions. The theft interdiction fee would be transferred directly to the Motor Carriers Safety Improvement Fund.

(2) This bill would incorporate additional changes in Section 9400 of the Vehicle Code proposed by SB 2084, to be operative only if this bill and SB 2084 are enacted and become effective on or before January 1, 2001, each bill amends Section 9400 of the Vehicle Code, and this bill is enacted last.

Ch. 974 (AB 2683) Bock. Victims of crimes: witnesses.

Existing law provides for the indemnification of victims and derivative victims of specified types of crimes for specified types of losses incurred as a direct result of the crime. Claims are required to be filed within one year of the date of the crime or after the victim attains 18 years of age, whichever is later, except that that time period may be extended for good cause for up to 3 years, as specified, and may be additionally extended beyond 3 years under certain circumstances. Indemnification is made under these provisions from the

Restitution Fund, which is continuously appropriated to the State Board of Control for these purposes.

Existing law requires that when an individual who is in custody under the jurisdiction of the Department of Corrections, who is either serving a determinate prison sentence or whose parole has been revoked, has been identified as a possible sexually violent predator, that individual is entitled to a trial to determine whether, by reason of a diagnosed mental disorder, he or she is a danger to the health and safety of others in that he or she is likely to engage in acts of sexual violence upon his or her release from the jurisdiction of the Department of Corrections or other secure facility.

This bill would authorize the board to grant an additional extension for good cause for an individual who is called to testify in a proceeding against a defendant as a victim or derivative victim of prior acts of the defendant, and for a victim of a sexually violent offense who is called to testify in the trial of a person identified as a possible sexually violent predator under these provisions subject to specified conditions.

By extending the period of time for which moneys from a continuously appropriated fund may be made available, this bill would make an appropriation.

This bill would additionally prohibit reimbursement of any expense that is submitted more than 3 years after it is incurred by the victim or derivative victim.

Ch. 975 (AB 2720) Olberg. Political Reform Act of 1974: Bipartisan California Commission on Internet Political Practices.

Existing law, the Political Reform Act of 1974, among other things, requires the disclosure of campaign contributions and expenditures.

This bill would create the Bipartisan California Commission on Internet Political Practices consisting of 13 members, to examine the issues, including disclosure, posed by political activity on the Internet. The members of the commission would be appointed by the Governor, the Senate Committee on Rules, the Minority Floor Leader of the Senate, the Speaker of the Assembly, the Minority Floor Leader of the Assembly, the Secretary of State, and the Chairperson of the Fair Political Practices Commission, as specified.

This bill would require the commission to examine the various issues posed by campaign activity on the Internet in relation to the goals and purposes of the Act, and make recommendations for appropriate legislative action, if any.

This bill would require the commission to report its findings and recommendations to the Legislature not later than December 1, 2001. It would provide that the committee would cease to exist on January 1, 2002.

This bill would appropriate \$220,000 from the General Fund to the Controller for allocation to the Bipartisan California Commission on Internet Political Practices for the purposes of the bill.

Ch. 976 (AB 2629) Cox. Professional engineers and surveyors.

The Professional Engineers Act and the Professional Land Surveyors' Act provide for the licensing and regulation of engineers and land surveyors, respectively, by the Board for Professional Engineers and Land Surveyors and authorize the board to discipline professional engineers and licensed land surveyors. Under existing law, a violation of the regulatory provisions of those acts is a misdemeanor.

This bill would revise the provisions relating to reproving, revoking, or suspending a professional engineers' certificate or licensed land surveyor's license. The bill would also require, with certain exceptions, that professional engineering services and land surveying services be undertaken only after the execution of a written contract, which includes a contract in electronic form, containing specified terms and conditions.

Because a violation of the bill's provisions requiring a specified written contract and providing for rules and regulations of professional conduct would create a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 977 (AB 2869) Machado. Credit cards: marketing information.

Existing law requires a credit card issuer to provide written notice to all persons who are holders of the issuer's credit cards if the issuer discloses marketing information, as defined, concerning a consumer which discloses the consumer's identity to any person, except specified 3rd parties. The notice is required to describe the cardholder's right to prohibit this disclosure. Existing law specifies the methods of satisfying this requirement.

This bill would revise the requirements for the written notice to provide that it must include both a preprinted form and reference a toll-free telephone number which a card holder may use to exercise the right to prohibit disclosure.

This bill would also, operative April 1, 2002, recast this provision to, among other things, require that a credit card issuer provide the notice before the issuer discloses the information and, if the information is disclosed, at least once per year, as specified. The bill would also revise the definition of marketing information, as specified, and exempt communications to a corporate subsidiary or affiliate of the card issuer that are not used for marketing purposes from the disclosure prohibition, except as specified.

Ch. 978 (SB 1607) Figueroa. Consumer credit reporting agencies.

Existing law governs the collection and disclosure of consumer credit reports. A consumer credit reporting agency must disclose the recipients of any consumer credit report regarding a consumer which the agency has furnished under specified circumstances. A consumer credit reporting agency must also make specified disclosures of, or provide notice regarding, information contained in a consumer credit report upon request of the consumer.

This bill, operative July 1, 2001, would require a consumer credit reporting agency to disclose specified information, including the consumer's credit score and an explanation of the credit score, as defined, and the key factors, as defined, under specified circumstances. This bill would permit a consumer credit reporting agency to charge a reasonable fee for providing credit score information. This bill would also require a person using a credit score in connection with a loan secured by residential real property, as defined, to provide to a consumer a copy of those same disclosures required above along with a specified notice to the loan applicant except as specified. This bill would provide that a person is not obliged to explain the information provided. This bill would further provide that any contractual provisions that prohibit the disclosure of a credit score by a person who makes or arranges loans or a consumer credit reporting agency are void, and that a lender shall not have liability for disclosure of credit scores under any contractual provision. This bill would provide that a person using an automated underwriting system may satisfy its requirements in a specified way. The bill would also make related changes.

Ch. 979 (AB 2759) Committee on Governmental Organization. Department of Alcoholic Beverage Control: director: licensees: tied-house restrictions.

(1) Under existing law, the director of the Department of Alcoholic Beverage Control is required to be a member of the Governor's Council, and entering upon the duties of the office, is required to execute an official bond to the state for \$25,000.

This bill would remove those requirements.

(2) Existing law allows a person in possession of a stock of lawfully acquired alcoholic beverages following the revocation or voluntary surrender of, or failure to renew, an alcoholic beverage license to sell that stock to licensees, as authorized by the Department of Alcoholic Beverage Control.

This bill would instead allow a wholesaler or manufacturer to accept the return of beer under similar circumstances and credit the retailer, as provided.

(3) Under existing law, the Department of Alcoholic Beverage Control is authorized to place reasonable restrictions upon retail licensees or any licensee in the exercise of retail privileges in various situations. Existing law permits the department to place reasonable restrictions on these licensees if the department adopts conditions requested by a local governing body.

This bill would permit the department in that situation to place reasonable restrictions on these licensees at the time of transfer of a license under specified circumstances.

(4) Existing law permits replacement off-sale and beer licenses for use at abandoned premises that were licensed within the past 12 months.

This bill, instead, would permit replacement off-sale and beer licenses for use at abandoned premises that were licensed and operated within the past 90 days.

(5) Existing law provides that limitations on the number of licensed premises shall not apply to premises located on land owned by the State of California.

This bill would provide additionally that those limitations on the number of licensed premises shall not apply to premises located on land owned by and leased from the State of California.

(6) Existing law requires an applicant for an on-sale or off-sale license in a census tract having an undue concentration of licenses, as defined by departmental rule or regulation, to have a notice of the application published, as specified.

This bill instead would refer to an undue concentration of licenses, as defined by a particular statute.

(7) Existing provisions of the Alcoholic Beverage Control Act known as “tied-house” restrictions generally prohibit an on-sale alcoholic beverage licensee from having an ownership interest in an alcoholic beverage manufacturer. Existing law allows as an exception to those provisions a holder of no more than 8 on-sale licenses to hold not more than 16.67% of the stock of a corporation that holds beer manufacturer licenses that are located in Sacramento, Placer, El Dorado, Marin, or Napa County.

This bill would remove El Dorado and Marin Counties, and add Contra Costa and San Joaquin Counties to the authorized locations.

“Tied-house” restrictions, also prohibit a manufacturer, winegrower, manufacturer’s agent, California winegrower’s agent, rectifier, distiller, bottler, importer, or wholesaler from furnishing, giving, or lending any money or other thing of value to any person engaged in operating, owning, or maintaining any on-sale or off-sale licensed premises.

Existing law provides that for purposes of the off-sale provisions, the listing of the names, addresses, telephone numbers or E-mail addresses, or both, or website addresses, of 2 or more unaffiliated off-sale retailers selling the products produced, distributed or imported by a nonretail industry member, defined as a manufacturer, winegrower, or distiller of alcoholic beverages, in response to a direct inquiry from a consumer received by telephone, by mail, by electronic Internet inquiry or in person does not constitute a thing of value or prohibited inducement to the listed off-sale retailer, if specified conditions are met.

This bill would extend these provisions to on-sale licensees, and would include within the definition of a nonretail industry member an agent of a manufacturer, winegrower, or distiller of alcoholic beverages, and a wholesaler of distilled spirits or wine.

Existing law generally prohibits a manufacturer of alcoholic beverages and a winegrower from paying, crediting, or compensating a retailer for advertising or paying or giving anything of value for the privilege of placing a sign or advertisement with a retail licensee.

Under existing law, the holder of a beer manufacturer’s license or a winegrower’s license is permitted to purchase advertising space and time from or on behalf of an on-sale retail licensee under certain conditions, if the on-sale licensee owns a specified facility.

This bill would extend that authorization to a distilled spirits manufacturer and a distilled spirits manufacturer’s agent. The bill would permit specified manufacturers to purchase

advertising space and time from a retail licensee who is the owner, manager, agent, assignee, or major tenant of a certain sized arena in Los Angeles County.

The bill would include a theme or amusement park and the adjacent retail, dining, and entertainment area located in the City of Los Angeles or Los Angeles County within the enumerated facilities permitted to be owned by an on-sale licensee for purposes of the purchase of advertising time and space.

(8) This bill would also make it a misdemeanor for an on-sale retail licensee subject to the provisions of the bill, to solicit or coerce a holder of a distilled spirits license to purchase that advertising space or time.

By creating a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 980 (AB 2777) Granlund. Alcoholic beverages: licensees: advertising: tied-house restrictions.

The Alcoholic Beverage Control Act contains limitations on sales commonly known as “tied-house” restrictions, which generally prohibit a manufacturer, winegrower, manufacturer’s agent, California winegrower’s agent, rectifier, distiller, bottler, importer, or wholesaler from furnishing, giving, or lending any money or other thing of value to any person engaged in operating, owning, or maintaining any on-sale or off-sale licensed premises.

Existing law provides that for purposes of the off-sale provisions, the listing of the names, addresses, telephone numbers or E-mail addresses, or both, or website addresses, of 2 or more unaffiliated off-sale retailers selling the products produced, distributed or imported by a nonretail industry member, defined as a manufacturer, winegrower, or distiller of alcoholic beverages, in response to a direct inquiry from a consumer received by telephone, by mail, by electronic Internet inquiry or in person does not constitute a thing of value or prohibited inducement to the listed off-sale retailer, if specified conditions are met.

This bill would extend these provisions to on-sale licensees, and would include within the definition of a nonretail industry member an agent of a manufacturer, winegrower, or distiller of alcoholic beverages, and a wholesaler of distilled spirits or wine.

Existing law generally prohibits a manufacturer of alcoholic beverages and a winegrower from paying, crediting, or compensating a retailer for advertising or paying or giving anything of value for the privilege of placing a sign or advertisement with a retail licensee. It authorizes, as an exception, the holder of a beer manufacturer’s or winegrower’s license to purchase advertising space and time from, or on behalf of, an on-sale retail licensee, subject to specified conditions.

This bill would also permit a distilled spirits manufacturer or a distilled spirits manufacturer’s agent to purchase the advertising space and time from, or on behalf of, an on-sale retail licensee subject to the existing conditions. The bill would permit specified manufacturers to purchase advertising space and time from a retail licensee who is the owner, manager, agent, assignee, or major tenant of a certain sized arena in Los Angeles County.

Existing law makes it a misdemeanor for a licensee, subject to the provisions of the bill, to violate existing provisions relating to the purchase of that advertising space or time.

This bill would impose a state-mandated local program by expanding the licensees subject to these criminal provisions.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 981 (AB 1263) Thomson. Telecommunications: “911” calls.

Existing law requires the Public Utilities Commission to require that every facilities-based cellular service provider provide access for end users on its system to the local emergency telephone services described in a specified provision of the Warren-911-Emergency Assistance Act, that they utilize the “911” code as the primary access number for those services, and that “911” calls from cellular units be routed to the nearest appropriate Department of the California Highway Patrol communications center. Existing law requires the commission to require that every cellular service provider include in its tariffs a provision to the effect that there shall be no airtime or similar usage charge for calls placed from a cellular unit to the emergency telephone services system.

This bill would require that a provider of commercial mobile radio service, as defined in specified federal law, provide access for end users of that service to the local emergency telephone systems described in the act, that “911” be the primary access number for those services, and that user validation not be required. The bill would require that a provider of commercial mobile radio service not charge any airtime, access, or similar usage charge for any “911” call placed from a commercial mobile radio service telecommunications device to a local emergency telephone system. The bill would provide that a “911” call from a commercial mobile radio service telecommunications device may be routed to a public safety answering point other than the Department of the California Highway Patrol only if the alternate routing meets specified requirements.

Ch. 982 (AB 2799) Shelley. Public records: disclosure.

(1) The California Public Records Act provides that any person may receive a copy of any identifiable public record from any state or local agency upon payment of fees covering direct costs of duplication or a statutory fee if applicable. The act provides that it shall not be construed to permit an agency to obstruct the inspection or copying of public records and requires any notification of denial of any request for records pursuant to the act to set forth the names and titles or positions of each person responsible for the denial. The act also requires computer data to be provided in a form determined by the agency.

This bill would provide that nothing in the act shall be construed to permit an agency to delay or obstruct the inspection or copying of public records. This bill would delete the requirement that computer data be provided in a form determined by the agency and would require any agency that has information that constitutes an identifiable public record not otherwise exempt from disclosure that is in an electronic format to make that information available in an electronic format when requested by any person. The bill would require the agency to make the information available in any electronic format in which it holds the information, but would not require release of a record in the electronic form in which it is held if its release would jeopardize or compromise the security or integrity of the original record or any proprietary software in which it is maintained. Because these requirements would apply to local agencies as well as state agencies, this bill would impose a state-mandated local program.

Regarding payment of fees for records released in an electronic format, the bill would require that the requester bear the cost of programming and computer services necessary to produce a record not otherwise readily produced, as specified.

(2) The act requires the agency to justify withholding any record by demonstrating that the record in question is exempt under express provisions of the act or that, on the facts of the particular case, the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

This bill would require a response to a written request for public records that includes a denial of the request in whole or in part to be in writing. By imposing this new duty on local public officials, the bill would create a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for

making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 983 (SB 57) Hayden. Santa Monica Bay Restoration Project.

Under existing law, the Santa Monica Bay is included in the federal Clean Water Act National Estuary Program.

This bill would create within the California Environmental Protection Agency the Santa Monica Bay Restoration Project, with specified objectives. The bill would require the Secretary for Environmental Protection, in consultation with the Secretary of the Resources Agency, and in coordination with the Santa Monica Bay Restoration Project, to make recommendations to the Legislature by December 1, 2001, as to the most efficient and environmentally sound measures to coordinate state policies to restore and enhance Santa Monica Bay.

Ch. 984 (SB 129) Peace. Personal information: collection and disclosure.

Existing law, the Public Records Act, governs public access to records maintained by state and local public agencies, as specified.

Existing law, the Information Practices Act of 1977, requires state and local agencies, among other things, to maintain in its records only that personal information, as defined, which is relevant and necessary to its governmental purpose; to maintain its sources of information; to maintain accurate, relevant, and complete records; to disclose personal information only under specified circumstances; to maintain records regarding the disclosure of personal information and to allow individuals access to those records pertaining to them, except as specified, to provide for the amendment of those records. The act also establishes civil remedies for its enforcement.

Existing law also prohibits bookkeeping services from disclosing records containing personal information or information regarding a business entity without express written consent, and prohibits video rental services from disclosing personal information without express written consent, except as specified; and provides for civil actions to enforce these provisions.

Existing law also regulates the activities of consumer credit reporting agencies, users of consumer credit reports, and furnishers of consumer credit information, and establishes civil remedies for enforcement.

This bill would establish within the Department of Consumer Affairs the Office of Privacy Protection, the purpose of which would be to protect the privacy of individuals' personal information by identifying consumer problems and facilitating development of fair information practices, as specified. The bill would require the office to inform the public of potential options for protecting the privacy of, and avoiding the misuse of, personal information, as specified, and to make recommendations to organizations for privacy policies, as specified, among other things. The bill would require each state department or state agency to designate a position therein, the duties of which would include, but not be limited to, responsibility for the privacy policy within the department or agency. The bill would require the Director of the Department of Consumer Affairs, commencing in January 2003, to report to the Legislature on an annual basis, as specified.

Ch. 985 (SB 335) Hayden. Driver's license: age: fees.

(1) Existing law requires the Director of Motor Vehicles to establish standards and develop criteria for the approval of driver improvement courses specifically designed for the safe driving needs of drivers who are 55 years of age or older.

This bill would require the Department of Motor Vehicles to develop a program to foster a positive atmosphere that is conducive to encouraging drivers, to succeed in passing any visual tests or written or behind-the-wheel driving tests administered by the department.

The bill would require the department to prepare a report listing all restricted driver's licenses issued during the 2001 calendar year. The report would be required to contain a category describing the condition that required issuance of the restricted license, would be organized by that category, and would describe the restriction that was imposed in each case. The bill would require the department to submit the report to the Legislature on or before January 31, 2002.

The bill would require the department to implement a component in its training and development program for test administrators that encourages sensitivity to the issues of youth and aging.

The bill would require the department to establish a task force to analyze potential sources of funding and modes of transportation for persons who have lost their driver's licenses due to a failure to pass a visual test or a written or behind-the-wheel driving test. The department would be required to prepare and submit a report on the findings of the task force to the Legislature not later than July 1, 2001.

(2) Under existing law, the Department of Motor Vehicles is prohibited from issuing a driver's license to, or renewing a driver's license of, certain listed persons.

This bill would include in that listing persons whose best corrected visual acuity is 20/200 or worse in that person's better eye, as specified. The bill would prohibit a person from using a bioptic telescopic or similar lens to meet the visual acuity standards.

(3) Existing law allows the department to require an examination deemed by the department to be appropriate of an applicant for renewal of a driver's license based on records of accidents and convictions of that applicant or based on evidence of the applicant's condition, and specifies that the age of an applicant-licensee, by itself, does not constitute evidence of a condition requiring an examination of the applicant's driving ability.

This bill would require the department, on or before June 1, 2001, to evaluate the effects of physical conditions, ailments, or other factors on the ability to safely operate a motor vehicle. The bill would require the department to include in its evaluation indicators and predictors relating to the impairment of the ability to drive safely, including driving records. The bill would require the department to consider input from any interested party and to submit the results of its evaluation to the Legislature on or before July 15, 2001.

(4) Existing law requires the department, before issuing or renewing a driver's license, to check the records of the department for, among other things, convictions of traffic violations and traffic accidents.

This bill would additionally require the department to check its records for filed reports and notices described in (5) and (6).

(5) Under existing law, the department is required to reexamine a driver upon receipt of a notice issued by a traffic officer requesting reexamination based upon a driver's exhibition of incapacity.

This bill would impose that same requirement on the department upon receipt of a report from a local health officer indicating that the driver suffers from disorders characterized by lapses of consciousness, and would specify that the reexamination include a behind-the-wheel driving test.

(6) Existing law authorizes the department to conduct an investigation to determine whether the privilege of any person to operate a motor vehicle should be suspended or revoked or whether terms or conditions of probation should be imposed upon receiving information or upon a showing by its records, as specified. In addition to the investigation, existing law allows the department to require the reexamination of the licensee.

This bill would require the department to reexamine a driver upon the receipt of a report from certain family members stating that the driver cannot safely operate a motor vehicle, as specified.

(7) The bill would provide that the provisions of (3) to (6), inclusive, above shall remain in effect only until January 1, 2011, and as of that date would be repealed unless a later enacted statute that is enacted before January 1, 2011, deletes or extends that date.

(8) This bill would set forth legislative findings and declarations.

Ch. 986 (SB 573) Alarcon. Teachers.

(1) Existing law requests the Regents of the University of California to jointly develop with the Trustees of the California State University and the independent colleges and universities, the California Professional Development Institutes. Existing law requires the institutes to be offered at sites widely distributed throughout the state in order to provide maximum access.

This bill would provide that the sites for the institutes shall include programs offered through instructor-led, interactive online courses, in accordance with existing state law. The bill would require each institute to accommodate at least 5% of the participants through existing state approved, online instructor-led courses, programs, or both.

(2) Existing law authorizes the Commission on Teacher Credentialing to issue or renew emergency teaching or specialist permits if the applicant possesses a baccalaureate degree, fulfills certain subject matter requirements, and passes the state basic skills proficiency test and the commission approves the justification for the emergency permit submitted by the school district in which the applicant is to be employed. Existing law requires the holder of an emergency permit to participate in ongoing training, coursework, or seminars designed to prepare the individual to become a fully credentialed teacher or other educator in the subject area in which he or she is assigned to teach or serve.

Existing law, the California Pre-Internship Teaching Program, authorizes the Commission on Teacher Credentialing, as resources are available to school districts, to issue a pre-intern teaching certificate instead of an emergency multiple subjects permit to an individual who meets the minimum requirements set by the commission and, when resources remain after funding pre-interns pursuing a multiple subject emergency credential, to issue a pre-intern teaching certificate instead of an emergency single subject permit to an individual who is employed by a school district approved by the commission and meets the minimum requirements set by the commission.

Existing law establishes the California Beginning Teacher Support and Assessment System for, among other purposes, providing an effective transition into the teaching career for first-year and second-year teachers, improving the educational performance of pupils through improved training, information, and assistance for new teachers, ensuring the professional success and retention of new teachers, and ensuring that an individual induction plan is in place for each participating beginning teacher and is based on an ongoing assessment of the development of the beginning teacher.

This bill would authorize the Los Angeles County Office of Education to design and implement a one-year telecommunications-based pilot project for the purpose of offering an intensive professional growth program for teachers in hard to staff schools. The pilot project would demonstrate the efficacy of using an interactive, online, telecommunications-based learning model that supports the Beginning Teacher Support and Assessment Program and the California Pre-Internship Teaching Program.

The bill would provide that first-year and second-year elementary school teachers who are employed in hard to staff schools and eligible to participate in the Beginning Teacher Support and Assessment Program or the California Pre-Internship Teaching Program are eligible to apply to participate in the pilot project. Participants would receive academic credit. If the county office designs and implements the project, the bill would require the Los Angeles County Office of Education, in partnership with the California State University system, to develop the content of the professional development offered by the pilot project. The bill would similarly require the Los Angeles County Office of Education if it implements the

project, to contract for an independent extensive evaluation of the pilot project and to submit a report of the evaluation to the Legislature before continuing or expanding the program.

The bill would appropriate \$1,000,000 to the Los Angeles County Office of Education for the purposes of implementing the one-year telecommunications-based pilot project.

Ch. 987 (SB 577) Peace. Corrections: cadet training.

Existing law requires the Department of Corrections to use the training academy at Galt and the Department of the Youth Authority to use the training academy at Stockton.

Existing law also requires each new cadet who attends an academy after July 1, 2000, to complete a specified course of training before he or she may be assigned to a post or job as a peace officer.

This bill, instead, would apply this provision to each new cadet who attends an academy after July 1, 2001, and, in addition, would require the Department of Corrections and the Department of the Youth Authority to provide 16 weeks of training to each correctional peace officer cadet, and a minimum of 2 weeks of training to each newly appointed first line supervisor. The training would be required to be completed by the cadet prior to his or her assignment to a post or position as a correctional peace officer.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 988 (SB 857) Peace. Judges' Retirement System: benefits.

The Judges' Retirement Law prescribes rights and benefits of a former spouse of a judge when the community property interests of the parties in the system are divided between them by the court in proceedings for legal separation or dissolution of marriage.

This bill would provide that, in dissolution or separation proceedings involving a retired judge, when the community property interests of the parties in the retirement allowance are divided as specified, the former spouse shall be entitled to receive a lifetime benefit, as specified, and to designate a beneficiary for any unpaid allowance payable at the time of his or her death. The bill would make those benefits available prospectively to a former spouse of a judge who retired or died prior to January 1, 2001, if the former spouse notifies the system prior to January 1, 2002.

Ch. 989 (SB 1242) Ortiz. Building standards: tactile signage.

(1) Existing law requires that buildings, structures, and facilities, occupied 50% or more, that are leased, rented, contracted, sublet, or hired for periods exceeding 2 years by any municipal, county, or state division of government or special district be made accessible to and usable by persons with disabilities.

This bill would require that buildings, structures, and facilities that are leased, rented, contracted, sublet, or hired by any municipal, county, or state division of government or any special district be made accessible to, and usable by, persons with disabilities, thereby requiring a higher level of service from local governments and imposing a state-mandated local program.

(2) Existing law provides that where state funds are utilized for a public building or facility or local funds are utilized for a school or community college building or facility, no contract may be awarded until the Department of General Services has issued written approval stating that the plans and specifications comply with the intent of provisions governing access to public buildings by physically handicapped persons. Existing law requires that filing fees for the application for approval be deposited into the Access for Handicapped Account, which is continuously appropriated for use by the Department of General Services without regard to fiscal years.

This bill would rename the account as the Disability Access Account, would require the Department of General Services to develop regulations that ensure that braille, tactile, or visual signage for elevators, rooms, spaces, functions, and directional information is installed, and would authorize the department to use the account for the purposes set forth

in existing law. This bill would expand the purposes for which the account may be used to include amending building regulations, as specified, to ensure that the scope and application of accessibility requirements comply with specified state and federal standards, and would thereby make an appropriation. The bill would also provide that expenditures from the account for these purposes shall terminate on December 31, 2004.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 990 (SB 1305) Figueroa. Employer indemnification: interest.

Existing law requires an employer to indemnify his or her employees for all that the employee necessarily expends or loses in direct consequence of the discharge of the employee's duties or as a result of obeying the employer's directions.

This bill would require that awards for reimbursement of expenditures by a court, or by the Division of Labor Standards Enforcement, carry interest at the same rate as judgments in civil actions, accruing from the date the necessary expenditures or losses were incurred by the employee.

This bill would define necessary expenditures to include all reasonable costs, including attorney's fees incurred by the employee enforcing the rights granted by this section.

This bill would provide that it is not intended to establish the right of the Division of Labor Standards Enforcement to be awarded costs and attorney's fees.

Ch. 991 (SB 1455) Schiff. Santa Monica Mountains Conservancy.

(1) Existing law establishes the Santa Monica Mountains Conservancy within the Resources Agency, composed of 8 voting members and 2 ex officio members.

This bill would remove the Director of the National Park Service or an employee designated by the director as a voting member, and would add the Superintendent of the Santa Monica Mountains National Recreation Area, or his or her designee, and the Superintendent of the Angeles District of the Department of Parks and Recreation, or his or her designee, as voting members of the conservancy.

The bill would require that 3 Members of the Senate, appointed by the Senate Committee on Rules, and 3 Members of the Assembly, appointed by the Speaker of the Assembly, meet with the conservancy on a regular basis and participate in its activities to the extent that such participation is not incompatible with their respective positions as Members of the Legislature.

(2) Existing law also provides for the Santa Monica Mountains Conservancy Advisory Committee consisting of 23 members, whose duties are to propose and review projects for conservancy action and report to the conservancy regarding the conformity of the projects with the plan approved for the area by the United States Secretary of the Interior, review proposed amendments to the plan and provide opportunities for public participation.

This bill would increase the number of members of the advisory committee to 26, including one member to be appointed by the City Council of Sierra Madre, one member to be appointed by the City Council of South Pasadena, and one member to be appointed by the Board of Supervisors of Los Angeles County, thereby imposing a state-mandated local program.

(3) Existing law provided that, commencing July 1, 1995, it was the intent of the Legislature that no money be appropriated from the General Fund for the support of the conservancy, and that other funding sources should be utilized on and after that date for the

support of the conservancy, including, but not limited to, the Santa Monica Mountains Conservancy Fund, special funds, donations, and local funding sources, and required the conservancy to reduce operations to compensate for loss of General Fund support or seek additional non-General Fund sources of revenue.

This bill would delete those provisions.

(4) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 992 (SB 1462) Perata. Rodeos: humane care of rodeo animals.

Existing law requires any traveling circus or carnival that intends to perform in this state to notify, at least 14 days prior to its first performance, each entity that provides animal control services for a city, county, or city and county in which the traveling circus or carnival intends to perform of its intent to perform within that jurisdiction and of its schedule of performances. A violation of this notice requirement is a fine of \$500 to \$2,000 for a first violation and a fine of \$1,500 to \$5,000 for a subsequent violation.

This bill would similarly require the management of any professionally sanctioned or amateur rodeo, as defined, that intends to perform in any city, county, or city and county to ensure that there is a veterinarian licensed to practice in this state present at all times during the performances of the rodeo or on-call, as specified. The attending or on-call veterinarian would have complete access to the site of any event in the rodeo that uses animals. The attending or on-call veterinarian would be authorized, for good cause, to declare any animal unfit for use in any rodeo event. The bill would provide for treatment, and specified duties of the veterinarian and rodeo management, with respect to injured animals or animals in holding chutes. A violation would be an infraction that is punishable by fines, as specified above. By creating new crimes, this bill would impose a state-mandated local program upon local governments.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 993 (AB 553) Cardenas. Parks and recreation: concession contracts.

Existing law, with respect to concession contracts entered into on and after October 1, 1994, authorizes the Director of Parks and Recreation, if the director determines that it is in the best interests of the state, upon giving notice to the State Parks and Recreation Commission, in lieu of the process for awarding certain concession contracts, to award contracts authorizing occupancy of any portion of the state park system for a period of more than 2 years to the best responsible person or entity submitting a proposal for a concession contract, and requires that the Department of Parks and Recreation's standards for "best responsible person or entity submitting a proposal" require the person or entity submitting a proposal to demonstrate a history of compliance with applicable federal or state labor laws, including, but not limited to, laws relating to wages, hours, and working conditions, and the right of employees to organize and participate in collective bargaining.

This bill would delete that requirement pertaining to the department's standards for "best responsible person or entity submitting a proposal." The bill would, until January 1, 2005, authorize the Department of Finance to delegate to the department the right to exercise the same authority granted to the Division of the State Architect and the Real Estate Services

Division in the Department of General Services to plan, design, construct, and administer contracts and professional services for legislatively approved capital outlay projects, but would permit the Department of Finance, until that date, to revoke, at any time, in whole or in part, any such authority granted to the department with respect to project planning, design, construction and administration of contracts and professional services.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 994 (SB 1520) Schiff. Secondhand dealers: coin dealers: reporting.

Existing law requires secondhand dealers and coin dealers, on forms either approved or provided at actual cost by the Department of Justice, to report daily all tangible personal property purchased, taken in trade or pawn, accepted for sale on consignment, or for auctioning, to the chief of police or sheriff. That report, unless otherwise agreed upon by the parties, is required to be submitted by mail. A violation of these reporting requirements, as well as other provisions that regulate the secondhand and coin dealer businesses, is a crime.

This bill would require the department, in consultation with local law enforcement agencies, to develop clear and comprehensive descriptive categories for this property and to develop, also in consultation with these agencies as well as with representatives of the secondhand and coin dealer businesses, a format that secondhand and coin dealers would be required to use to electronically report these property transactions. This bill would exempt from this electronic reporting requirement a coin dealer who engages in less than 10 transactions each week each consisting of not more than one item, as defined, in which he or she purchases, takes in trade or pawn, or accepts for sale, consignment, or auction tangible personal property. The bill would require these coin dealers to report by mail or facsimile transmission these transactions under the categories and on a form developed for this purpose by the Attorney General.

Because this bill would specify particular reporting methods for secondhand and coin dealers, it would expand the scope of an existing crime and would thereby impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 995 (SB 1620) Kelley. Veterinary medicine: continuing education.

The Veterinary Medicine Practice Act requires persons licensed by the Veterinary Medical Board to apply biennially for renewal of their licenses or registrations, and, commencing January 1, 2002, requires the board to issue renewed licenses only to applicants who have completed a minimum of 36 hours of approved continuing education in the preceding 2 years, as specified. Under this act, applicants for license renewal, reinstatement, or relicensure are required to maintain records of the completion of continuing education coursework for a period specified by the board, but not to exceed 6 years, and these records are subject to audit by the board. Under the act, revenue from fees set by the board is deposited into the Veterinary Medical Board Contingent Fund, a continuously appropriated fund.

The act also provides for the establishment by the board of an organization or group that is responsible for approving this continuing education instruction and authorizes the board to adopt regulations necessary for the implementation of these provisions.

This bill would delete the requirement that the continuing education instruction for license renewal be approved. The bill would also delete the provisions relating to the establishment of the approval organization or group and those provisions authorizing the board to promulgate regulations pertaining to it.

This bill would require that continuing education hours be earned by attending courses sponsored or cosponsored by designated entities and would require applicants to maintain

records of the completion of continuing education coursework for a period of 4 years. This bill would require the applicant to provide the board with certain information relating to any continuing education courses questioned during the audit. The bill would authorize the board to impose an application fee, not exceeding \$200, upon continuing education providers for approval. By increasing the source of funds for a continuously appropriated fund, the bill would make an appropriation.

Ch. 996 (SB 1632) Poochigian. Education resources.

(1) Existing law, the Classroom Instructional Improvement and Accountability Act, requires a school accountability report card to include certain assessments of school conditions.

This bill would require the State Department of Education to develop and recommend for adoption a standardized template for the school accountability report card, as specified, and definitions for the elements required to be included in the school accountability report card.

The bill would require the State Department of Education to annually post the viewable template on the Internet. The bill would require that the template be designed so that it can be downloaded and data may be entered electronically by schools or districts.

The bill would also require the Secretary for Education to review the data elements provided by school districts via the school accountability report card to determine the extent to which the data elements may be incorporated into the Academic Performance Index. The bill would authorize the Superintendent of Public Instruction to recommend additional data elements for inclusion in the Academic Performance Index to be included, as specified.

(2) The bill would appropriate \$330,000 from the General Fund to the Superintendent of Public Instruction according to a specified schedule.

(3) The bill would state that the Legislature finds and declares that the bill furthers the purposes of the Classroom Instructional Improvement and Accountability Act.

(4) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 997 (SB 1805) Escutia. Market conduct examinations.

Existing law provides for the licensing and regulation of insurers by the Insurance Commissioner. Existing law provides that the commissioner has the power to examine and investigate into the affairs of every person engaged in the business of insurance in this state, generally known as a market conduct examination in order to determine whether the person has been or is engaged in any unfair method of competition or in any prohibited unfair or deceptive act or practice. Existing law also provides that the commissioner has the power to examine the business and affairs of an insurer relative to its financial condition and ability to fulfill its obligations, and compliance with all laws applicable to its insurance transactions. Existing law provides that certain information obtained or produced by the department with respect to insurer examinations and investigations is confidential and not subject to disclosure, except as specified.

This bill would require the commissioner, if he or she suspends or terminates an examination that includes an examination of claims practices, to send a copy of the complete file to the State Bureau of Audits, and would require the State Auditor to audit the file and make a determination on the propriety of the termination or suspension.

This bill, notwithstanding any other provision of law, would require the commissioner to make information concerning the resolution of market conduct examinations and the contents of every adopted report of an examination that pertains to unfair or deceptive business practices, as defined, available for public inspection and on the department's web site, as specified. This bill would require the information to be maintained in a current up-to-date condition. This bill would require all identifying and privileged information regarding individual policyholders to be redacted from the information or reports available to the public. The bill would permit an insurer to furnish comments regarding an adopted report of an examination, as specified, for publishing on the web site.

Ch. 998 (SB 1857) Burton. Courts: judges.

Existing law sets forth the number of judges for the superior court of each county and for each division of each district of the court of appeal. Existing law also establishes specific municipal court districts in Kern County, and the number of judges within these districts. Existing law also provides that there are 40 additional judicial positions in the superior and municipal courts to be allocated statewide in accordance with a report of the Judicial Council and appropriations by the Legislature.

This bill would increase the number of judges in the superior courts in the Counties of Alameda, Butte, Contra Costa, Fresno, Kern, Los Angeles, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Joaquin, San Luis Obispo, Sonoma, Ventura, and Yolo, and in the superior court in the City and County of San Francisco. This bill would increase the number of divisions and judges in the First and Second Appellate District of the Court of Appeal. This bill would also increase the number of judges in the Third, Fourth, Fifth, and Sixth Appellate Districts of the Court of Appeal. This bill would also repeal the provision providing for 40 additional judicial provisions.

By imposing additional costs on the counties as a result of the increased number of judges, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 999 (SB 1869) Solis. Power of attorney.

Existing law provides that a power of attorney may not be construed to grant authority to an attorney-in-fact to make or revoke a gift of the principal's property in trust or otherwise unless expressly authorized in the power of attorney. Existing law also provides that a printed form of a durable power of attorney that is distributed for use by a person who does not have the advice of legal counsel shall contain a specified warning statement.

This bill would revise the above-described warning statement to include a provision indicating that the person executing the durable power of attorney must specifically authorize his or her agent to receive a gift. This bill would also add a provision to the warning statement that provides notice to the person accepting an appointment under a power of attorney that describes his or her fiduciary and other legal responsibilities under the appointment and the limitations thereon, as specified.

Ch. 1000 (SB 1935) Costa. Commercial feed: licenses.

Existing law requires each person, except as specified, to obtain a license from the Secretary of the Department of Food and Agriculture for each location where commercial feed is manufactured, distributed, sold, or stored for sale. Violation of these provisions is an infraction or a misdemeanor, as specified.

This bill would, in addition, require persons who do not have a permanent place of business but who manufacture, distribute, sell, or store feed to obtain a license from the secretary. The bill would eliminate the requirement that licensees have a permanent place of business. By expanding the scope of an existing crime, this bill would impose a state-mandated local program.

Existing law provides that the license application fee is \$50, that the license renewal fee is \$50, and that the penalty for late renewal of the license is \$20.

This bill would increase those fees to \$100, \$100, and \$40, respectively.

Existing law establishes a tonnage tax with a maximum rate of 10¢.

This bill would increase the maximum tonnage tax rate to 15¢.

Since these increased fees would be deposited into the continuously appropriated Food and Agriculture Fund, the increase would result in an appropriation.

Existing law requires each licensed structural pest control operator to notify the county agricultural commissioner prior to operating a structural pest control business in the county. Existing law permits a fee to be required at the time of this notification. Existing law provides that the board of supervisors may establish reasonable fees for the registration required for any person to engage for hire in the business of pest control, as specified.

This bill would require payment of both of these fees to be due by a date designated by the county agricultural commissioner.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1001 (SB 1944) Solis. Domestic violence.

(1) Existing law permits the admission of expert testimony regarding battered women's syndrome in criminal actions, as specified.

This bill would provide that the expert testimony on the nature and effect of physical, emotional, or mental abuse on the beliefs, perceptions, or behavior of victims of domestic violence is admissible, and would specify that the definition of "abuse" as used by these provisions includes the crimes of battery, rape of a spouse, infliction of corporal punishment on a person with whom he or she has a domestic relationship or a child, intentional violation of a protective order, issuance of terrorist threats, as defined, and annoying a person by means of a telephone or electronic communications.

(2) Existing law provides that a court may issue specified protective orders for up to 3 years, subject to termination or modification upon the motion or stipulation of a party, and provides that these orders may be renewed either for 3 years or permanently. Existing law also provides that no filing fee shall be charged for a petition or response, or for a paper seeking the modification or enforcement of specified protective orders.

This bill would provide that there is no filing fee for an application or other pleading or specified order that seeks to obtain, modify, or enforce a protective order or other specified order when the request for the other order is necessary to obtain or give effect to a protective order.

(3) Existing law, known as the "hearsay rule," provides that, at a hearing, evidence of a statement that was made other than by a witness while testifying at the hearing and that is offered to prove the truth of the matter stated is inadmissible. Existing law also provides exceptions to the hearsay rule to permit the admission of specified kinds of evidence.

This bill would create a new exception to the hearsay rule for evidence of a statement made by a declarant who meets specified criteria to a physician, nurse, or paramedic.

This bill would make technical changes to other provisions of law.

Ch. 1002 (SB 1998) Committee on Public Employment and Retirement. Public employees' retirement and health benefit programs: death benefits and technical changes.

(1) The Bagley-Keene Open Meeting Act generally requires all meetings of a state body to be open and public. Under the act, a state body or its designated representative is not prevented from holding closed sessions with its representatives in discharging the responsibilities of the state body under the Meyers-Milias-Brown Act as the sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits. The Meyers-Milias-Brown Act governs local government employer-employee relations.

This bill would extend the above described provision to closed sessions of a state body or its designated representatives when discharging responsibilities of the state body under the Ralph C. Dills Act, which governs state employer-employee relations; the Bill of Rights for

State Excluded Employees; and the Educational Employment Relations Act, which governs public school employer-employee relations.

(2) Under the Public Employees' Retirement Law, local safety members subject to the 2% at age 50 benefit formula pay contributions equal to 9% of compensation, as defined, and those members subject to the 3% at age 55 benefit formula pay contributions equal to 8% of compensation. Member contributions are deposited in the Public Employees' Retirement Fund, a continuously appropriated special fund.

This bill would provide that local safety members subject to either the 3% at age 50 or the 3% at age 55 benefit formula shall pay contributions equal to 9% of compensation. The bill would make an appropriation by increasing the amount of employee contributions to the Public Employees' Retirement Fund. Operation of these provisions would be contingent upon the enactment of SB 528, as specified.

(3) Under the existing Public Employees' Retirement Law, a member may designate a beneficiary to receive benefits payable upon the member's death, provided that the designation is not in derogation of the community property rights of the member's spouse.

This bill would provide that, if the member is unmarried and has attained retirement age, that designation may not be in derogation of the rights of the member's unmarried, dependent, minor children.

(4) The existing Public Employees' Retirement Law prescribes various options for preretirement death benefits payable to the surviving spouse or children, or both, of a member, which benefits are generally based on the amount the member would have received had the member retired on the date of death. Existing law defines "surviving spouse" for purposes of one of those options.

This bill would provide that, if the member designated a beneficiary, those preretirement death benefits shall be based on a specified amount derived from the nonmember spouse's community property interest in the member's contributions and service credit. The bill would also expand the definition of "surviving spouse" for purposes of one of those options, as specified.

(5) The Public Employees' Retirement Law, the Judges' Retirement System II Law, and the Public Employees' Medical and Hospital Care Act establish retirement, health, and other benefits plans and programs for specified public employees.

This bill would make technical and conforming changes and repeal obsolete provisions of those laws.

(6) The Budget Act of 2000 appropriates funds for the state's contribution for the cost of health and dental benefits for annuitants and prescribes the maximum monthly amounts for the annuitants' contribution.

This bill would increase the state's contribution, as specified, thereby making an appropriation, and increase the maximum annuitant's contribution, as specified.

(7) The bill would incorporate additional changes to Sections 21622, 21623, and 21623.5 of the Government Code proposed by AB 50 to take effect if this bill and that bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1003 (SB 2002) Committee on Judiciary. Commercial law: secured transactions.

Existing provisions of the Uniform Commercial Code govern security interests in personal property and fixtures, as well as certain sales of accounts, contract rights, and chattel paper. These provisions will, pursuant to Chapter 991 of the Statutes of 1999, be repealed and replaced with new provisions concerning these subjects, to be operative on July 1, 2001. However, because Chapter 991 of the Statutes of 1999 contains a provision deferring to other bills passed by the Legislature during the 1999 calendar year, certain existing provisions relating to fees charged by the Secretary of State, which were enacted as Chapter 1000 of the Statutes of 1999, were not repealed because they were the subject of legislation in 1999, and

those existing provisions will duplicate and be inconsistent with the new provisions enacted by Chapter 991 of the Statutes of 1999 as of July 1, 2001.

This bill would repeal those existing duplicate provisions as of July 1, 2001, and would reenact the new provisions previously enacted by Chapter 991 of the Statutes of 1999 to incorporate the changes of Chapter 1000 of the Statutes of 1999, thereby reconciling both chapters. This bill would make other technical, conforming, and clarifying changes.

Ch. 1004 (SB 2011) Escutia. Senior housing.

The Unruh Civil Rights Act prohibits business establishments from discriminating on the basis of sex, color, race, religion, ancestry, national origin, or disability, or in the sale or rental of housing based on age. The act makes an exception for housing designed to meet the needs of senior citizens, as specified, and defines, for purposes of these provisions, for all counties other than Riverside County, a senior citizen housing development as a residential development, substantially rehabilitated, or substantially renovated for senior citizens consisting of (a) at least 70 dwelling units built before January 1, 1996, or 150 dwelling units built on or after January 1, 1996, in a metropolitan statistical area with a population of at least 100 dwelling units in a metropolitan statistical area with a population of at least 1,000 residents per square mile or 1,000,000 total residents, (b) at least 100 dwelling units in a metropolitan statistical area with a population not to exceed 999 residents per square mile and not to exceed 399,999 total residents, or (c) at least 35 dwelling units. The act, with respect to Riverside County, defines a senior citizen housing development to mean a residential development developed with more than 20 units as a senior community by its developer, zoned as a senior community by local governmental entities, or characterized or qualified as a senior community, as specified.

This bill would revise the definition of senior citizen housing development for all counties except the County of Riverside to mean a residential development that has at least 35 dwelling units. The bill would revise the definition of senior citizen housing development for the County of Riverside to mean a residential development developed with more than 20 units as a senior community by its developer and zoned as a senior community by local governmental entities, or characterized or qualified as a senior community, as specified.

The bill would also require on July 1, 2001, that a person who proposes to create a senior citizen housing development include in a required application for a public report in connection with the offering for sale or lease of subdivided lands a statement of the restrictions on occupancy that would be applicable in the development. The bill would make conforming changes.

The bill would also incorporate further changes to Sections 51.3, 51.4, and 51.11 of the Civil Code proposed by SB 1382, contingent upon its prior enactment.

Ch. 1005 (SB 2029) Figueroa. Contractors' State License Board.

(1) The Contractors' State License Law provides for the creation of the Contractors' State License Board with 13 members. Under existing law, these and other related provisions will become inoperative on July 1, 2001, and will be repealed on January 1, 2002.

This bill would require the board to conduct various studies and reviews, and to report to the Department of Consumer Affairs and the Legislature by October 1, 2001. This bill would increase the membership on the Contractors' State License Board to 15, as specified, and would enact other related provisions. The provisions affecting the board's existence would become inoperative on July 1, 2003.

(2) Under existing law, the board, with the approval of the Director of Consumer Affairs, is required to appoint a registrar of contractors who, among other matters, is responsible for reviewing and investigating complaints regarding licensed contractors filed with the board.

This bill would require the board to establish as a goal, the improvement of its disciplinary system, as specified, and would require the director to appoint a Contractors' State License Board Enforcement Program Monitor no later than January 31, 2001, whose duties would

include monitoring and evaluating the board's disciplinary system and reporting his or her findings, as specified, to the board, the Department of Consumer Affairs, and the Legislature. This bill would make the provisions that pertain to the enforcement program monitor inoperative on January 31, 2003.

(3) Existing law requires home construction contracts and home improvement contracts, as defined, to be in writing and to contain specified provisions.

This bill would additionally require those contracts as well as estimates for home improvement work to contain provisions pertaining to the general liability insurance coverage of the contractor party to those contracts.

Ch. 1006 (SB 2030) Figueroa. Engineers and land surveyors.

(1) Existing law establishes within the Department of Consumer Affairs the Board for Professional Engineers and Land Surveyors that is empowered to adopt rules and regulations governing the regulation and the registration and licensure of engineers and land surveyors. Under existing law, the provisions creating the board and enumerating some of its powers will become inoperative on July 1, 2001, and will be repealed on January 1, 2002.

This bill would change these dates, making these provisions become inoperative on July 1, 2002, and repealing these provisions on January 1, 2003.

(2) Existing law provides for the licensing and regulation of engineers and land surveyors. Existing law permits the Board for Professional Engineers and Land Surveyors to determine the scope of practice for electrical and mechanical engineers.

This bill would delete that authority, and would describe the scope of practice of those 2 branches of engineering.

This bill would require the department to review certain engineering branch title acts to determine whether to eliminate or convert any of them to practice acts and report its findings and recommendations to the Legislature by September 1, 2001.

(3) Existing law makes a violation of the regulatory provisions of the Professional Engineers Act and the Professional Land Surveyor's Act a misdemeanor.

This bill would make practicing as a professional engineer or a land surveyor with a suspended certificate a misdemeanor. This bill would also make representing oneself as a professional land surveyor, licensed land surveyor, or land surveyor, without having been licensed or certified, or acting as a manager, proprietor, or agent in a place of business performing land surveying work, except as specifically permitted, a misdemeanor.

(4) Under existing law, a registered civil engineer is not responsible for damages caused by subsequent changes to or uses of civil engineering plans, specifications, or reports that the registered civil engineer signed if he or she did not authorize the subsequent changes or uses and the engineering service he or she provided was not also a proximate cause of the damage.

This bill would apply these provisions to electrical and mechanical engineers so that they would not be responsible for damages caused, respectively, by subsequent changes to or uses of electrical or mechanical plans, specifications, or reports that they had signed if they did not authorize the subsequent changes or uses, and the engineering service they provided was not also a proximate cause of the damage.

(5) Existing law generally requires registration by the Board for Professional Engineers and Land Surveyors within the Department of Consumer Affairs in order to lawfully practice in this state as a civil, electrical, or mechanical engineer. Under existing law, an exemption from this registration requirement is made for a nonresident person, firm, partnership, or corporation who is legally qualified in another state to practice civil engineering and only offers to, but does not practice, civil engineering in this state and who meets other specified requirements.

This bill would extend this same registration exemption to a nonresident person, firm, partnership, or corporation who is legally qualified in another state to practice electrical or mechanical engineering and only offers to, but does not practice, electrical or mechanical engineering in this state.

(6) Under existing law, the examinations administered by the board for registration as a professional engineer and for licensure as a professional land surveyor consist of 2 divisions, the 2nd of which includes questions to test the applicant's knowledge of state laws and the board's rules and regulations. Existing law requires that these questions be based upon information contained in a pamphlet prepared and distributed by the board to the applicants.

This bill would delete the requirement that the 2nd division of the examinations be based upon the information contained in this pamphlet.

(7) Under existing law, the board may issue to applicants who are legally qualified to practice as a professional engineer or as a land surveyor in another state or country a temporary authorization, for a period of 60 consecutive days, to practice as a professional engineer or a professional land surveyor for a specific project in this state. Under existing law, the board may extend the temporary authorization for a period not to exceed 120 consecutive days.

This bill would make the duration of the temporary authorization a period not to exceed 180 days upon its issuance; would require the applicant to pass the second division portion of the registration or licensure examination that covers state laws and the board's rules and regulations; would require the applicant to notify the board of the approximate commencement date and duration of the specific project for which the temporary authorization to practice is requested; and would specify that the applicant is required to demonstrate to the board knowledge in his or her particular profession as it relates to the specific project for which the temporary authorization to practice is sought.

(8) Under existing law, the board is authorized to take disciplinary action against registered professional engineers and licensed land surveyors for specified acts of misconduct. Existing law also authorizes the board to issue to applicants who have passed the first division of the examination for registration as a professional engineer or licensure as a land surveyor, an engineer-in-training certificate or a land surveyor-in-training certificate, respectively. Under existing law, the engineer-in-training certificate becomes invalid upon the holder being registered with the board as a professional engineer.

This bill would authorize the board to receive and investigate complaints concerning persons holding these certificates and to take disciplinary action against them for specified acts of misconduct. This bill would also make the land surveyor-in-training certificate invalid upon the holder being licensed by the board as a land surveyor.

(9) Existing law prohibits any person who is not licensed under the provisions of the Professional Land Surveyors Act from using specified professional titles and makes a violation of this provision a crime.

This bill would additionally prohibit an unlicensed person from using any combination or abbreviation of the words in these professional titles. By adding this provision, this bill would expand the scope of an existing crime and thereby impose a state-mandated local program.

(10) Existing law provides a "good samaritan" immunity with respect to liability in negligence for personal injury, wrongful death, or property damage for an engineer, who voluntarily and without compensation provides structural inspection services at the scene of a declared national, state, or local emergency caused by earthquake at the request of certain public officials. This bill would expand this immunity to also apply to declared emergencies involving flood, riot, or fire.

(11) Existing law regulates the use of certain professional titles relative to engineering and land surveying.

This bill would make various changes to these provisions.

(12) Existing law exempts an architect who holds an appropriate certificate from registration under the Professional Engineers' Act insofar as he or she is practicing architecture.

This bill in this regard would provide that an architect may not use various professional engineering titles, unless he or she holds a license issued by the board.

(13) Existing law specifies various violations under both acts that are misdemeanors. This bill would make various changes to these provisions.

(14) Existing law requires that 5 of the 13 board members be registered under this chapter. This bill would require that one of those members be from a local public agency and that one be from a state agency.

(15) Existing law requires a person who wants to use the title “structural engineer” to submit an application to the board and pay a fee.

This bill would require an applicant to have successfully passed a written national examination and a supplemental California specific examination.

This bill would make other related changes.

Because a violation of certain provisions of this bill would be a crime, this bill would impose a state-mandated local program by expanding the definition of a crime.

(16) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1007 (SB 2032) Figueroa. Shorthand reporting.

Existing law establishes a Court Reporters Board of California which is responsible for regulating the practice of those engaged in shorthand reporting. Existing law also establishes the Transcript Reimbursement Fund to provide shorthand reporting services to low-income litigants by reimbursing applicants for the cost, as specified, of preparing transcripts. The moneys in the fund are derived from excess moneys in the Court Reporters’ Fund and are continuously appropriated. Under existing law, the provisions creating the fund, the board, and enumerating some of the board’s powers will become inoperative on July 1, 2001, and will be repealed January 1, 2002.

This bill would extend the operation of these provisions until July 1, 2005, would repeal them on January 1, 2006, and would make related changes.

By extending the operation of the Transcript Reimbursement Fund, a continuously appropriated fund, this bill would make an appropriation.

This bill would also incorporate additional changes in Sections 8030.4 and 8030.6 of the Business and Professions Code proposed by SB 449, to be operative only if that bill and this bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1008 (SB 2072) Speier. Department of Motor Vehicles: records.

Under existing law, any registration or driver’s license record of a person may be suppressed from any other person, except as specified, if the person requesting the suppression submits verification acceptable to the Department of Motor Vehicle that he or she has reasonable cause to believe that he or she is the subject of stalking, or that there exists a threat of death or great bodily injury to his or her person involving domestic violence.

Under existing law, suppression of a record occurs for one year after approval by the department and, not less than 60 days prior to that one year date, the department is required to notify the person of the expiration. Existing law allows the suppression to be continued for a period determined by the department if the person submits verification acceptable to the department that the person continues to have reasonable cause to believe that he or she is the subject of stalking.

This bill would provide that the suppression of records may be continued for 2 additional periods of one year each if a letter is submitted to the department stating that the person continues to have a reasonable cause to believe that he or she is the subject of stalking or that there exists a threat of death or great bodily injury. The bill would further allow the suppression of the record to be continued at the end of the second one-year period by submitting verification acceptable to the department.

Ch. 1009 (SB 2090) Murray. Shorthand reporters.

(1) Existing law provides for a comprehensive scheme for the regulation of the practice of shorthand reporting, defined as the making by means of written symbols or abbreviations in shorthand or machine shorthand of a verbatim record of any oral court proceeding, deposition, or proceeding before any grand jury, referee, or court commissioner and the accurate transcription thereof.

This bill would additionally define the practice for those purposes to include making a verbatim record of any court ordered hearing and would specify that nothing within this definition requires the use of a certified shorthand reporter when not otherwise required by law.

(2) Under existing law, the Court Reporters Board in the Department of Consumer Affairs specifies the course of study for a court reporting program and requires schools providing this program to immediately notify it of the discontinuance or pending discontinuance of the school or program.

This bill would specify that a school is required to offer all components of the minimum prescribed course of study established by the board and to immediately notify the board, and any student who is to be enrolled after this notice is sent, of the discontinuance or pending discontinuance of its court reporting program or any component of the program. This bill would also require the school to discontinue the court reporting program in its entirety within 2 years of sending this notice to the board, unless this period is extended by the board, as specified.

(3) Because a violation of any of the provisions regulating the practice of shorthand reporters is a misdemeanor, this bill would impose a state-mandated local program by creating a new crime.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1010 (SB 2140) Burton. Trial court employees.

Existing law governs the trial court employee personnel system.

This bill would establish a new trial court employee personnel system, as specified, governing, among other things, the authority to hire trial court personnel, and to regulate their classification and compensation, labor relations, personnel selections and advancement, employment protection, retirement, and personnel files. The bill would also require the California Law Revision Commission to recommend to the Legislature on or before January 1, 2002, amendments to the codes to remove related, obsolete provisions. The bill would impose a state-mandated local program by requiring new duties of trial courts. It also would make an appropriation by providing for additional eligibility for membership in the Public Employees' Retirement System, thus increasing employer and employee contributions to the Public Employees' Retirement Fund, a continuously appropriated special fund.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1011 (SB 2153) Schiff. Civil proceedings: referees: arbitrators.

(1) Existing law provides for the appointment of a referee to hear and determine, among other things, discovery motions and disputes relevant to discovery in a civil action. Existing law also authorizes a party to file a peremptory challenge to a person appointed as a referee on specified grounds.

This bill would require that a motion to disqualify a referee appointed to hear and determine discovery matters be made either (1) within 10 days after notice of the appointment, or, if the party has not yet appeared in the action, within 10 days after the appearance, or (2) at least 5 days before the date set for the hearing, if the referee assigned is known at least 10 days before the date set for the hearing and the discovery referee has been assigned only for limited discovery purposes. The bill would also require the order appointing a discovery referee to indicate whether the referee is being appointed for all discovery purposes in the action.

The bill would incorporate additional changes to Section 639 of the Code of Civil Procedure made by AB 2912 to become operative only if both bills are enacted and this bill is enacted last.

(2) Existing law, effective only until January 1, 2001, permits persons admitted to the bar of any other state to represent a party in an arbitration proceeding in this state, or to render legal services in this state in connection with an arbitration proceeding in another state; requires out-of-state attorneys representing a party in a California arbitration proceeding to serve upon the arbitrator, the State Bar of California, the parties, and counsel a certificate containing specified information prior to the first scheduled hearing in the arbitration; and permits any party to an arbitration arising under certain collective bargaining agreements to be represented by any person.

This bill would extend these provisions until January 1, 2006.

Ch. 1012 (SB 2166) Sher. Consumer credit.

Existing law authorizes a consumer credit reporting agency to furnish consumer credit reports only under specified circumstances.

This bill would make clarifying changes to these provisions.

Existing law prohibits credit reporting agencies from providing consumer credit reports containing certain items of information, and specifically prohibits a consumer reporting agency from including medical information in a consumer credit report provided for employment or credit purposes.

This bill would also prohibit a consumer reporting agency from including medical information in a consumer credit report provided for insurance purposes.

Ch. 1013 (AB 996) Papan. Mortgages and deeds of trust.

Existing law provides that when any mortgage has been satisfied, the mortgagee, or its assignee, shall execute and record, or cause to be recorded, a certificate of discharge, except as specified. Existing law also provides that when an obligation secured by a deed of trust has been satisfied, the beneficiary, or its assignee, shall execute a full reconveyance and record or cause it to be recorded, except as specified.

This bill would define the phrases "cause to be recorded" and "cause it to be recorded" for the purposes described above to include, but not be limited to, sending by certified mail with the United States Postal Service or by a courier service, as specified, the full reconveyance or certificate of discharge in a recordable form, together with payment for all required fees, in an envelope addressed to the county recorder's office in which the deed of trust or mortgage is recorded. The bill would require the county recorder to stamp and record the full reconveyance or certificate of discharge within 2 business days from the day of receipt, if received in recordable form with all required fees. This bill would further provide that fulfilling these provisions would entitle the trustee to the benefit of a specified evidentiary presumption. The bill would further provide that these provisions only apply to a mortgage or an obligation secured by a deed of trust satisfied on or after January 2, 2001.

Because this bill would increase the duties of local officials, it would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1014 (AB 2863) Committee on Budget. Claims against the state: appropriation.

Existing law requires the State Board of Control to report to the Legislature when there is no sufficient appropriation available for the payment of a claim against the state allowed by the board.

This bill would appropriate \$1,438,365.38 from various funds to the Executive Officer of the State Board of Control to pay claims accepted by the State Board of Control in accordance with a schedule that identifies the funds and accounts from which payments are to be made.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1015 (SB 2148) Polanco. Financial institutions.

Existing law, the Banking Law, regulates all banks in the state. Existing law, the Industrial Loan Law, regulates industrial loan companies, including premium finance agencies that provide insurance premium financing.

This bill would change the name of "industrial loan company" to "industrial bank", except in the case of a premium finance agency, and would make industrial banks subject to the Banking Law, as revised, which would permit industrial banks to engage in all the activities of a commercial bank, including engaging in the trust business. This bill would make related changes to provisions governing former industrial loan companies. However, existing provisions of the Industrial Loan Law would continue to govern industrial loan companies that act as premium finance agencies and that provide insurance premium financing. These entities would not be governed by the Industrial Bank Law.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1016 (AB 2491) Jackson. Victims of crimes: indemnification.²¹

(1) Existing law establishes the State Board of Control in state government, with specified members and duties that include, among other things, the indemnification of victims of crime and payment of claims against the state.

This bill would rename the State Board of Control the California Victim Compensation and Government Claims Board, and would specify that any reference in statute or regulation to the State Board of Control shall be construed to refer to the California Victim Compensation and Government Claims Board.

(2) Existing law authorizes the board to delegate authority to designated staff persons and local victim witness centers, to grant and disburse emergency awards to victims or derivative victims of crimes who meet specified criteria.

This bill instead would authorize the board to delegate this authority to designated staff persons and local agencies, including, but not limited to, district attorneys, probation departments, and local victim witness centers.

(3) Existing law requires that an application for an emergency award notify the applicant that he or she must either complete a regular application for assistance within one year of the date of the crime or certify that he or she does not anticipate claiming reimbursements in addition to those claimed in the application for an emergency award. If an applicant certifies that no expenses will be claimed beyond those claimed in the emergency award, the board

NOTE: Superior numbers appear as a separate section at the end of the digests.

is required to subsequently verify the emergency award application upon receipt of information the board may require, including statements signed by the applicant authorizing release of information to the board necessary for the verification, and authorizing a lien in favor of the board against any recovery by the applicant as a result of any injury to the victim.

This bill would repeal the option of certification by an applicant that he or she does not anticipate claiming additional reimbursements.

(4) Existing law prescribes criteria for the board to make cash payments payable from the Restitution Fund, a continuously appropriated fund, in prescribed amounts to victims or derivative victims for specified losses or expenses, including loss of wages or support.

This bill would recast the criteria for payments relating to loss of wages and support and would increase the maximum amount of certain cash payments and of total awards to victims, as specified. By providing for increased payments from a continuously appropriated fund, this bill would make an appropriation.

(5) Existing law, until January 1, 2004, requires the board to conduct a pilot program to provide reimbursement for grief, mourning, and bereavement services provided by a person certified as a child life specialist, and to report to the Legislature by January 31, 2003, on this pilot program.

This bill would delete an incorrect code reference and add references to specified provisions of law that provide bases for determining whether a child life specialist would be disqualified from being employed by a school district.

(6) Existing law requires a court to order restitution in criminal and juvenile court cases, as specified, in an amount sufficient to reimburse the victim for economic losses, including lost wages, to the extent possible.

This bill would specify that lost wages include commissions and base wages, and make conforming changes.

(7) This bill would require until January 1, 2005, the board to enter into an interagency agreement with the University of California, San Francisco, upon adoption of a resolution by the Regents of the University of California, and upon appropriation of funds for that purpose, to establish a victims of crime recovery center at the San Francisco General Hospital to demonstrate the effectiveness of providing comprehensive and integrated services to victims of crime, subject to conditions set forth by the board. It would require the board to report to the Legislature on the effectiveness of the center no later than May 1, 2004.

The bill would appropriate \$2.45 million from the Restitution Fund to the board for the implementation of the interagency agreement.

(8) This bill would incorporate additional changes in Section 1202.4 of the Penal Code proposed by SB 1802, that would become operative only if SB 1802 and this bill are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would also incorporate additional changes in Section 730.6 of the Welfare and Institutions Code proposed by SB 1943, that would become operative only if SB 1943 and this bill are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1017 (AB 2514) Thomson. Agricultural biomass and rice straw.²²

Existing law establishes the Rice Straw Demonstration Project Fund, and requires the State Air Resources Board to administer a demonstration program for the development of new rice straw technologies through the awarding of grants.

This bill would create the Agricultural Biomass Utilization Account in the Department of Food and Agriculture Fund, to be administered by the Department of Food and Agriculture in consultation with the state board and the California Integrated Waste Management Board.

The bill would appropriate \$10,000,000 from the General Fund to the account for the purposes of providing incentives for businesses that utilize agricultural biomass. The account would also include any moneys secured by the Secretary of Food and Agriculture for those purposes. The \$10,000,000 appropriated from the General Fund, minus

NOTE: Superior numbers appear as a separate section at the end of the digests.

administrative costs of up to 7%, would be required to be utilized to provide grants to persons that utilize rice straw for various purposes.

Ch. 1018 (SB 1771) Sher. Greenhouse gas emission reductions: climate change.

(1) Existing law imposes various emission limitations for the control of vehicular and nonvehicular air pollution. The State Air Resources Board is designated by state law as the air pollution control agency for all purposes set forth in federal law.

This bill would require the Secretary of the Resources Agency to establish the California Climate Action Registry as a public benefit nonprofit corporation, that would record and register voluntary greenhouse gas emission reductions made by California entities after 1990. The bill would require the registry to perform various functions, including adopting standards for verifying emissions reductions, adopting a list of approved auditors that would verify emissions reductions, referring entities to approved firms to verify emissions reductions, establishing emissions reduction goals, designing and implementing efficiency improvement plans, maintaining a record of all emissions baselines and reductions, and recognizing, publicizing, and promoting entities that participate in the registry.

The bill would also establish responsibilities for the State Energy Resources Conservation and Development Commission to develop a process to identify and qualify third-party organizations approved to provide technical assistance and advice in monitoring greenhouse gas emissions, setting industry-specific emissions reduction targets, and developing and implementing efficiency improvement programs.

(2) Existing law requires the commission, among other things, to analyze the environmental consequences of trends in the consumption of energy. Existing law also requires the commission to have conducted a study on or before June 1, 1990, regarding the manner in which global warming trends may affect California's energy supply and demand, economy, environment, agriculture, and water supplies.

This bill would require the commission, in consultation with the state board, the Department of Forestry and Fire Protection, the Department of Transportation, the State Water Resources Control Board, the California Integrated Waste Management Board, and any other state agencies with jurisdiction over matters affecting climate change, to update, by January 1, 2002, the inventory of greenhouse gas emissions from all sources located in the state, as identified in a specified report, and to acquire and develop data and information on global climate change and provide state, regional, and local agencies, utilities, business, industry, and other energy and economic sectors with information on the costs, technical feasibility, and demonstrated effectiveness of methods for reducing or mitigating the production of greenhouse gases from in-state sources.

The bill would require the commission to update its inventory every 5 years, and report on the updated inventory to the Governor and the Legislature.

The bill would require the commission to conduct at least one public workshop prior to finalizing each updated inventory. The bill would require the commission to post its report and inventory on the commission's web page on the Internet. The bill would also require the commission to convene an interagency task force consisting of state agencies with jurisdiction over matters affecting climate change to ensure policy coordination for those activities, and to establish a climate change advisory committee, as provided, to make recommendations to the commission on the most equitable and efficient ways to implement international and national climate change requirements, as provided.

Ch. 1019 (SB 1794) Ortiz. Rice straw burning.

Existing law requires the State Air Resources Board to provide cost-sharing grants for the development of demonstration projects for new rice straw technologies. Existing law establishes the Rice Straw Demonstration Project Fund for the purpose of providing the grants. Existing law provides for the grants to be authorized and allocated during the

1997–98 and 1998–99 fiscal years and requires the projects to demonstrate technical and economic feasibility.

This bill would change the name of the fund to the Rice Straw Demonstration Project Grant Fund and would provide for the grants to be authorized and allocated during the 2000–01, 2001–02, and 2002–03 fiscal years. The bill would additionally require the projects to demonstrate cost-effectiveness and mitigation of environmental impacts. The bill would not become operative until moneys are deposited in the fund by the Legislature or any other entity.

Ch. 1020 (AB 820) Committee on Public Employees, Retirement and Social Security. Teachers' retirement.

Existing law establishes the State Teachers' Retirement System to provide retirement benefits to participating teachers.

(1) Under existing law, if a member whose accumulated retirement contributions have been refunded again becomes a member or another specified condition exists, or if a nonmember spouse is awarded a separate account and accumulated contributions have been previously refunded to the member, the member or nonmember spouse may elect to redeposit those contributions with regular interest from the date of refund to the date of payment.

This bill would authorize the member or nonmember spouse, effective July 1, 2001, to redeposit a portion of the refunded contributions, as specified, and make additional changes with respect to the division of accounts between a member and a nonmember spouse.

(2) Existing law provides that a member, prior to retirement, may elect one of several options for a modified retirement allowance payable for the life of the member and the member's designated option beneficiary, as specified.

This bill would, effective July 1, 2001, authorize a retired member, who was unmarried at the time of retirement and who did not elect one of the options, to make such an election if he or she marries after retirement, and to designate the member's new spouse as the option beneficiary, subject to specified conditions.

(3) Under the Teachers' Retirement Law, the Cash Balance Benefit Program provides a retirement plan for persons who perform creditable service, as defined, on a part-time basis. If an employer elects to provide the benefits of the program, and an eligible employee elects to participate, the employer and employee make contributions to the program, as specified, which are deposited in the Teachers' Retirement Fund, a continuously appropriated special fund. Under existing law, a part-time employee who performs creditable service for multiple employers may elect to participate in the program only if all of his or her employers provide benefits under the program.

This bill would repeal that provision with respect to multiple employers. The bill would also authorize persons who provide trustee service, as defined, to elect to participate in the program and, upon that election, would require those persons and their employers to make contributions, as specified, thereby making an appropriation.

(4) Existing law prohibits a member from receiving credit under the Defined Benefit Program for service for which the member is entitled to receive a retirement benefit from another retirement system, as specified.

This bill would provide that that prohibition would not apply to any retirement benefit received from a qualified defined contribution plan.

Ch. 1021 (AB 2700) Lempert. State teachers' retirement: Defined Benefit Supplement Program.

(1) Existing law establishes the Defined Benefit Program in the Teachers' Retirement Plan that provides retirement and disability benefits to members of the program. If Chapter 74 of the Statutes of 2000 becomes effective, it will establish the Defined Benefit Supplement Program for members of the Defined Benefit Program, pursuant to which members and

employers will receive supplemental retirement, disability, final, or termination benefits, payable in a lump-sum or annuity, as specified.

This bill would make technical and conforming changes relating to the Defined Benefit Supplement Program and would make an appropriation of \$600,000 from the Teachers' Retirement Fund to the Teachers' Retirement Board for the administrative costs of implementing the program. These provisions would become operative only if Chapter 74 of the Statutes of 2000 becomes effective on January 1, 2001.

(2) Existing law authorizes the Teachers' Retirement Board to audit the records of any public agency as the board determines necessary.

This bill would authorize the board to excuse certain adverse audit findings occurring prior to January 1, 2002, and relating to changes in the law that will become operative on that date. The bill would make other technical changes that would become operative on specified dates subject to certain increases in school funding.

(3) The bill would incorporate additional changes to Sections 22652 and 22662 of the Education Code proposed by AB 820 to take effect if this bill and that bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

(4) The bill would reappropriate to the board, for specified administrative costs, unexpended funds previously appropriated to the board in 1999.

Ch. 1022 (AB 25) Mazzoni. Pupils: age of admission.

Existing law requires that a child be admitted to a kindergarten at the beginning of a school year, or at any time later in the same year, if the child will have his or her 5th birthday on or before December 2 of that school year. Existing law requires that a child be admitted to the 1st grade of an elementary school during the first month of a school year if the child will have his or her 6th birthday on or before December 2 of that school year.

This bill would establish a voluntary Kindergarten Readiness Pilot Program that would, commencing with the 2001-02 school year, require participating school districts to, with certain exceptions, offer kindergarten enrollment only to children who will have their 5th birthday on or before September 1 of that year, and to offer 1st grade enrollment only to children who will have their 6th grade enrollment on or before September 1 of that school year.

This bill would require the Superintendent of Public Instruction to provide funding to compensate school districts for the costs of the kindergarten readiness program and services, and to compensate school districts for any loss of revenue due to the reduced enrollment related to participation in the program.

The bill would require the State Allocation Board to adopt regulations to ensure that participating school districts are not adversely affected with regard to access to state funding for school facilities due to loss of enrollment based upon participation in this program.

This bill would exempt kindergarten readiness programs from prescribed provisions of law relating to school finance, child care and development programs, and seismic safety. The bill would authorize the State Board of Education to adopt regulations for administration of these provisions, and would require the Superintendent of Public Instruction, by June 1, 2002, to contract for an independent evaluation of the program. The bill would require the independent evaluator to report to the Legislature, the Governor, the Superintendent of Public Instruction, the State Board of Education, and the Secretary for Education. The bill would require the initial report to be filed by June 1, 2005, the interim report to be filed by January 1, 2007, and the final report to be filed by January 1, 2008.

This bill would appropriate \$100,000 to the Superintendent of Public Instruction for a statewide public information campaign to notify school districts and parents of the availability and goals of the program.

The funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

This bill would become inoperative on June 1, 2010, and, on January 1, 2011, would be repealed.

Ch. 1023 (AB 1416) Wesson. Gambling establishments.

(1) Existing law, the Gambling Control Act, provides for the regulation, oversight, and licensure of gambling establishments, and the owners and employees thereof, by the California Gambling Control Commission and the Division of Gambling Control. Existing law prohibits a list of specified gambling games or any banking or percentage game played with cards, dice, or any device, for money, checks, credit, or any representative of value, and provides that any person who offers for play or participates in these games is guilty of a misdemeanor and is punishable as specified.

This bill would authorize gambling establishments to operate controlled games utilizing a player-dealer position, as defined, and to contract with a 3rd party for the provision of proposition player services subject to specified conditions and regulatory requirements.

(2) Existing law generally requires voter approval of an amendment to a local ordinance that would result in the expansion of gambling, as defined, but exempts licensed gambling establishments with 5 or fewer tables from this restriction. Existing law also provides that until January 1, 2001, no local jurisdiction that had not authorized legal gaming prior to January 1, 1996, shall do so, and that no gaming ordinance in effect on that date may be amended to expand gaming. Existing law extends this moratorium until January 1, 2003, with respect to the Counties of Alameda, Contra Costa, Los Angeles, San Mateo, and Santa Clara.

This bill would provide that the above restriction shall apply in all counties until January 1, 2007, and would additionally provide that until January 1, 2007, neither the commission nor the division shall issue a license for a gambling establishment that was not licensed to operate on December 31, 1999, unless an application to operate that establishment was on file with the division prior to September 1, 2000.

(3) Existing law provides that every person who deals, plays, carries on, opens, or conducts, or who plays or bets at or against any banking game is guilty of a misdemeanor and is punishable as specified.

This bill would provide that “banking game” or “banked game,” as used in the above prohibition and in the Gambling Control Act, does not include any game where the rules provide that the player-dealer position systematically and continuously rotates amongst the participants, the player-dealer is able to only win or lose a fixed and limited wager, and prohibits the house, another entity, a player or an observer from maintaining or operating as a bank during the play of the game. By changing the definition of a crime, this bill would impose a state-mandated local program.

(4) Existing law generally requires gambling establishments to be open to the public, but authorizes a private club to continue to operate, provided it meets specified criteria, until July 1, 2000, or until the ownership or operation of the club changes from that of January 1, 1998, whichever occurs first.

This bill would extend that date until November 30, 2003. This bill would also provide that prior to issuing a license to a private club, the division shall ensure that the ownership of the gambling establishment has not changed since January 1, 1998, and that the operation has not been leased to any third party.

(5) This bill would provide that if any of its provisions, or the application thereof, are held invalid, that these provisions are severable from the remainder of the provisions.

(6) This bill would make various technical changes to the act to implement these provisions, as well as technical, nonsubstantive changes, as specified. Because this bill would impose new regulatory requirements, violations of which would be punishable as misdemeanors, this bill would impose a state-mandated local program.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(8) This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1024 (SB 1354) Poochigian. Algebra instruction.

Under existing law, the adopted course of study for grades 7 to 12, inclusive, is required to offer courses in specified areas of study, including mathematics. Existing law also specifies that graduation from high school requires, among other things, completion of 2 courses in mathematics.

This bill would specify that the adopted course of study for grades 7 to 12, inclusive, include, as part of mathematics instruction, algebra. The bill would also specify that commencing with the 2003–04 school year, for high school graduation, at least one or a combination of the 2 required mathematics courses meet or exceed the rigor of content standards for Algebra I that are adopted by the State Board of Education. The requirements on school districts to ensure that the additional course of study requirements are carried out would impose a state-mandated local program. The bill would express legislative intent that any modification to coursework required by the bill shall result in neither additional classes nor additional costs.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1025 (AB 816) Committee on Public Employees, Retirement and Social Security. State Teachers' Retirement System.

(1) The Teachers' Retirement Law authorizes a member of the Defined Benefit Program to designate, or change the designation of, a beneficiary to receive benefits payable under the program, except as specified.

This bill would additionally authorize an option beneficiary to designate a death beneficiary to receive those benefits.

(2) The Teachers' Retirement Law prescribes enhanced retirement benefits for members with 30 years or more of credited service. That law also prescribes retirement benefits for members who retire following reinstatement from retirement.

This bill would provide that a member who retires on or after January 1, 1999, following reinstatement from retirement with 30 years or more of total credited service shall be entitled to those enhanced retirement benefits, as specified.

(3) The Teachers' Retirement Law defines various terms for purposes of calculating and providing retirement benefits under the Defined Benefit Program and the Cash Balance Benefit Program, provides a specified membership option to employees of a community college district who have been previously or are subsequently employed by the Board of Governors of the California Community Colleges, prescribes reporting and payment requirements for specified employing agencies, specifies eligibility requirements for service retirement, prescribes allowances payable to designated beneficiaries under specified preretirement options, prescribes minimum annual allowances payable to a retired member, an option beneficiary, or a surviving spouse receiving specified death benefits, and authorizes the transfer and disbursement of funds from the Teachers' Retirement Fund.

This bill would make technical changes to those and other provisions.

(4) Existing law provides that all employees of a charter school who perform creditable service shall be entitled to have that service covered under the Defined Benefit Program of the Teachers' Retirement Plan, if the school elects to make that plan available.

This bill would require a charter school that elects to make that or another plan available to inform all applicants for employment of the retirement options for employees of the school, as specified.

(5) The bill would make and incorporate additional changes to Sections 23300, 24415, and 24417 of the Education Code to take effect if this bill and AB 1509 are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1026 (SB 1505) Burton. State Teachers' Retirement System: minimum benefits.

The Teachers' Retirement Law establishes minimum annual retirement allowance amounts that are payable to retired members, option beneficiaries, and surviving spouses who were receiving an allowance on January 1, 2000, and also provides for additional distributions to restore the purchasing power of retirement allowances to specified levels.

This bill would additionally make those minimum allowance amounts applicable to retired members, option beneficiaries, and surviving spouses who are receiving an allowance on January 1, 2001, and who meet other specified criteria, increase those minimum allowance amounts for certain other retired members, and provide that those benefits shall be initially paid on or before September 1, 2001, except as specified. The bill would also provide for additional distributions to restore the purchasing power of those minimum allowance amounts provided for in the bill, in existing law, and in AB 429, as specified.

Ch. 1027 (AB 429) Correa. State Teachers' Retirement System: supplemental benefits.

Under the State Teachers' Retirement Law, retired members and nonmember spouses, disabled members, and beneficiaries of the Defined Benefit Program, as defined, receive monthly allowances that are subject to supplementary increases to preserve their purchasing power.

This bill would increase the monthly allowance amounts payable to retired members and nonmember spouses, disabled members, and beneficiaries according to a specified schedule, payable commencing on or before July 1, 2001, and provide for additional supplemental increases to those benefits to preserve their purchasing power, as specified.

Ch. 1028 (AB 821) Committee on Public Employees, Retirement and Social Security. Retirement.

Existing law provides for the payment of retirement benefits to various school employees under the State Teachers' Retirement System. Under existing law, the retirement benefits are computed based upon various factors, including the employee's final compensation. Under existing law, for those school employees, "final compensation" means the highest average annual compensation earnable by a member during any period of 3 consecutive school years.

This bill would change that definition of "final compensation" for members with 25 or more years of credited service to, instead, mean the highest average annual compensation earnable by the member during a consecutive 12-month period of employment, as specified.

Ch. 1029 (AB 1933) Strom-Martin. State Teachers' Retirement System: benefits.

The Teachers' Retirement Law provides that members with 30 or more years of credited service receive increases in their retirement allowance.

This bill would provide additional increases, as specified, for those members who have 30 or more years of credited service prior to 2011 and who retire for service on or after January 1, 2001.

Ch. 1030 (AB 2177) Committee on Public Employees, Retirement and Social Security. School employees' retirement: contributions.

(1) Under the Public Employees' Retirement Law, a member's service retirement allowance is calculated as a percentage of the member's final compensation for each year of credited service; however, compensation and hours for overtime are excluded for purposes of that calculation. Overtime is defined under existing law for these purposes as service performed in excess of the normal hours of work for full-time employees, as specified.

This bill would provide that, for school members, overtime shall be service in excess of 40 hours of work per week.

(2) The Public Employees' Retirement Law defines compensation earnable for the purposes of that law.

This bill would provide an alternative definition of compensation earnable for school members and would require a school employer who fails or refuses to report an employee's compensation earnable to pay administrative costs, as specified.

(3) Under the Public Employees' Retirement Law, member contribution rates and service retirement benefits are reduced by specified amounts if the member's service is included in the federal system.

This bill would delete both of those reductions with respect to school members whose service is included in the federal system. By increasing the contributions of those members, the bill would make an appropriation to the Public Employees' Retirement Fund, a continuously appropriated special fund.

(4) Under the Public Employees' Retirement Law, specified employees of the California State University police department are classified as state peace officer/firefighter members and, as such, are subject to a member contribution rate of 8% of compensation in excess of \$238 per month.

This bill would provide that, if not in conflict with a memorandum of understanding between the Trustees of the California State University and the recognized employee organization, those members shall be subject to a contribution rate of 8% of compensation in excess of \$863 per month.

(5) Existing law defines "scope of representation" for purposes of employer-employee relations of the California State University to mean wages, hours of employment, and other terms and conditions of employment.

This bill would add to that definition any retirement benefits available to a state member under the Public Employees' Retirement Law.

(6) This bill would incorporate additional changes to Section 20677 of the Government Code proposed by AB 2642 to take effect if this bill and that bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

(7) This bill would incorporate additional changes to Section 21354.1 of the Government Code proposed by SB 1396 to take effect if this bill and that bill are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1031 (AB 2621) Rod Pacheco. Preretirement death benefits.

The Public Employees' Retirement Law provides for a preretirement special death benefit that is calculated, in part, as a fraction of the deceased member's final compensation at the time of the injury or disease causing death. Under that law, children of deceased members who are eligible for the special death benefit lose that eligibility upon adoption.

This bill would provide that, for purposes of calculating or recalculating the special death benefit, as specified, the deceased member's final compensation shall be deemed to increase when the compensation is increased for his or her final job classification and membership category, as specified. The bill would also delete the provision that terminates a child's eligibility for benefits upon adoption and would restore those benefits, as specified, for children whose eligibility was previously terminated due to adoption.

Ch. 1032 (SB 1435) Johnston. Teachers' health benefits: Medicare premiums.

Existing law requires the State Teachers' Retirement System to develop a health care benefits program for members of the Defined Benefit Program and related persons, subject to appropriation of funds and further legislative authorization, as specified.

This bill would recast that provision to delete that requirement and to instead provide that development of any health care benefits programs shall be subject to appropriation of funds and further legislative authorization, as specified.

The bill would also establish the Teachers' Health Benefits Fund, a continuously appropriated special trust fund in the State Treasury, and provide that moneys from that fund shall be used to pay the premiums associated with Medicare Part A for members of the Defined Benefit Program who retired prior to January 1, 2001, and meet specified criteria. The bill would authorize the Teachers' Retirement Board to additionally pay from the fund those premiums for certain members who retire on or after January 1, 2001, subject to certain findings by the board based on an actuarial valuation of the payment program, as specified. The bill would provide that a certain portion of the employer contributions to the Teachers' Retirement Fund shall instead be deposited into the Teachers' Health Benefits Fund for purposes of the payment program and would appropriate \$500,000 from that fund to the board for administration of the bill's provisions.

Ch. 1033 (AB 2904) Committee on Insurance. Low-cost automobile insurance.

Existing law requires motorists to demonstrate financial responsibility by one of various means, including an automobile liability insurance policy. Existing law requires certain insurers to participate in a pilot program for the Counties of Los Angeles and San Francisco to offer, until January 1, 2004, a low-cost automobile insurance policy. Existing law requires the low-cost policy to provide lower limits for liability coverage than normally required, and provides that the low-cost policy may only be purchased by persons residing in those counties who meet eligibility requirements relating to household income, age, and licensing and driving experience.

This bill would provide that a person who meets the income requirements and who claims that he or she meets the licensing and driving experience requirements of the pilot program based entirely or partially on experience obtained outside the United States or Canada shall be entitled to a rebuttable presumption that he or she is qualified to purchase a policy under the pilot program if he or she has been licensed to drive pursuant to a license obtained in the United States or Canada for at least the previous 18 months and meets the licensing and driving experience criteria for that time period.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1034 (AB 2275) Correa. Transportation: construction projects: quality control.

Existing law requires the Department of Transportation to plan, design, construct, operate, and maintain those transportation systems that the Legislature has made, or may make, the responsibility of the department, except as specified.

This bill would authorize the department to verify that all construction projects performed under its jurisdiction meet or exceed standards and specifications included in the projects. The bill would provide that, unless a contract provides that a contractor or service provider will perform quality control under the contract, the department may assign qualified state employees or other personnel to perform all inspection and testing required under existing law, regulation, or policy on any project performed under its jurisdiction that requires the inspection of construction activity or material, including, but not limited to, commercial and fabricated material.

This bill would authorize the department to adopt and enforce a policy requiring inspection of construction activity or material in the absence of any other law or regulation requiring that inspection.

This bill would require that any contractor or service provider who performs quality control inspections and tests as part of a contract with the department be certified on a prescribed random basis by qualified state employees or organizations certified by the department pursuant to applicable law, regulation, or policy.

This bill would prohibit any person, firm, corporation, partnership, or association from willfully concealing, altering, misrepresenting, or distorting or attempting to do the same as to the findings of any laboratory or subcontractor that provides quality control inspection services to a contractor under these provisions. The department would be required to take prescribed courses of action against violators including disqualifying violators for a period of one to 3 years from bidding, working, or being awarded public contracts that are under the jurisdiction of the department. The bill would authorize the department to promulgate rules and regulations for the administration and enforcement of these provisions and provide for the definition of terms.

Ch. 1035 (SB 1403) Committee on Transportation. Transportation.

(1) Existing law provides for the issuance of a low-cost automobile liability insurance policy in the County of Los Angeles and the City and County of San Francisco, as specified.

This bill would make technical, clarifying, and conforming changes to certain of these and related provisions. The bill would, until January 1, 2004, provide that the low-cost insurance provisions meet statutory liability insurance requirements.

(2) Existing law creates the San Diego Metropolitan Transit Development Board in San Diego County with specified transportation powers. Under existing law, contracts let by the board for the purchase of supplies, equipment, and materials in excess of \$10,000 are required to be awarded to the lowest responsible bidder, as specified.

This bill would increase from \$10,000 to \$50,000 the amount of a contract let by the board that would be required to be awarded to the lowest responsible bidder and make a related change.

(3) Under existing law, a violation of an ordinance, rule, or regulation enacted by the San Diego Metropolitan Transit Development Board relating to the nonpayment of a fare or prohibiting unauthorized operation or manipulation of transit facilities owned or controlled by the board is a crime, as specified.

This bill would expand those provisions to include nonpayment of a fare on any transit vehicle, and to include transit facilities, or stations used by the board in addition to those owned or controlled by the board, thereby imposing a state-mandated local program by enlarging the scope of a crime.

(4) Existing law makes references to a specific division within the Department of Motor Vehicles that engages in investigations and audits, and designates certain personnel within the department as peace officers for specified purposes.

This bill would correct obsolete references to the investigation and audit division including the language of a statutory notice in certain conditional sales contracts and would make other technical and clarifying changes.

(5) Existing law requires a specified time period in which to register a motor vehicle last registered in a foreign jurisdiction.

This bill would reference a statutory exception to that time period.

(6) Existing law references federal law in certain vehicle ownership, registration, and titling circumstances.

This bill would correct obsolete references to federal law.

(7) Existing law requires a driver of any vehicle approaching a railroad crossing to stop at a specified distance from the rail and not proceed until certain conditions exist. Existing law also prohibits a driver from proceeding through, around, or under a closed railroad crossing gate.

This bill would apply those provisions to a pedestrian, thereby expanding an existing crime, and imposing a state-mandated local program.

(8) Existing law requires the Department of Motor Vehicles to require any applicant for a driver's license to submit to an examination appropriate to the type of motor vehicle or combination of motor vehicles that the applicant desires to drive, in accordance to specified classifications. Under existing law, until January 1, 2001, a class C driver's license authorizes the driving of any 2-axle vehicle with a gross vehicle weight rating of 26,000 pounds or less, if it is operated by a farmer, an employee of a farmer, or an instructor credentialed in agriculture as part of an instructional program in agriculture at the high school, community college, or university level, is used exclusively in the conduct of agricultural operations, and is not used in the capacity of a for-hire carrier or for compensation. Existing law, until January 1, 2001, provides that a class C driver's license authorizes the driving of certain combination vehicles when towing a boat trailer, as specified. Existing law, operative on January 1, 2001, does not contain these provisions for class C driver's licenses.

This bill would delete the provisions limiting the authority to drive the above described farm and agricultural-related vehicles until January 1, 2001, thereby continuing indefinitely the authority of a class C driver's licenseholder to drive those vehicles. The bill would also delete the provisions limiting the driving of the above described combination vehicles when towing a boat trailer, subject to further limiting the provision of towing a boat trailer to a singular motor vehicle over 4,000 pounds unladen. The provisions relating to the towing of a boat trailer would be repealed on January 1, 2004. The bill would require the Department of the California Highway Patrol to compile traffic collision data on vehicles towing boat trailers, as specified, and report its findings to the Legislature on or before April 1, 2003.

(9) Existing law requires that when the load or a part of the vehicle extends four feet or more beyond the bed or body of the vehicle, specified warning lights or flags shall be attached to the load or projecting part of the vehicle.

This bill would specify that the required warning lights or flag be attached if the load or part of the vehicle extends to the rear four feet or more beyond the rear of the vehicle.

(10) Existing law provides an exemption for persons engaged in the business of a registration service for persons who provide registration services to permanent fleet registration and international registration plan vehicle owners.

This bill would delete that exemption.

(11) Existing law requires employers enrolled in the Employer Pull Notice (EPN) program with less than 500 employees to obtain a driving record every 6 months of their employees who drive specified commercial motor vehicles and employers with more than 500 employees are required to do so every 12 months.

This bill would allow all employers enrolled in the EPN program to obtain driving records of their drivers every 12 months instead of every 6 months.

(12) Existing law requires all drivers to have evidence of financial responsibility with them at all times and defines evidence of financial responsibility.

This bill would add an evidence form issued by a charitable risk pool department to the current list of evidence of financial responsibility.

(13) Existing law defines financial responsibility for purposes of a driver or owner of a vehicle involved in an accident.

This bill would establish that evidence of coverage provided by a charitable risk pool is also acceptable evidence of financial responsibility during an accident.

(14) Existing law describes the different methods for establishing proof of financial responsibility.

This bill would provide that another acceptable form of evidence of financial responsibility is evidence of a liability policy, issued by a charitable risk pool. This bill would establish the minimum limits of an automobile policy issued by a charitable risk pool.

(15) Existing law provides that upon application for or renewal of registration of a motor vehicle, the applicant must submit evidence of financial responsibility.

This bill would provide that an evidence form issued by a charitable risk pool to nonprofit organizations is an acceptable form of proof of financial responsibility.

(16) Existing law provides for the issuance of a provisional driver's license to persons at least 16 but under 18 years of age.

This bill would reorganize these provisions for clarification and consistency. The bill would also revise related provisions concerning sanctions for violating driving restrictions applicable to persons with provisional driver's licenses. By establishing a new crime this bill would impose a state-mandated local program.

(17) Existing law declares the Legislature's intent, commencing July 1, 1991, to allocate \$10,000,000 annually for 10 years to the Environmental Enhancement and Mitigation Demonstration Program Fund to be used for making grants to local, state, and federal agencies and nonprofit entities that undertake projects to mitigate the adverse environmental effects of existing and future transportation facilities. However, existing law requires the Department of Transportation to extend the completion date to June 30, 2002, for specified environmental enhancement and mitigation projects.

This bill would include a specific project of the East Bay Regional Park District within the listing of projects that the completion date has been extended to June 30, 2002.

(18) Under existing law, the Department of Transportation has full possession and control of all state highways and all property and rights in property acquired for state highway purposes.

This bill would authorize the City of Napa to transfer to the Department of Transportation, at no cost to the department, any property acquired by the city for completion of the Trancas Interchange Project in that city that is no longer required for completion of the project, if the city and the department enter into an agreement providing that (1) after completion of the project, the department shall combine the properties on the east side of State Highway Route 29 with any excess property acquired by the city and the state for the project and shall market and sell the combined package for a fair market price in accordance with established real estate practices; and (2) the department shall segregate all net proceeds from the sale of the combined properties, and the department shall use those proceeds to defray the costs of the project.

(19) This bill would incorporate additional changes in Section 4000.37 of the Vehicle Code proposed by SB 1996, to be operative only if this bill and SB 1996 are enacted and become effective on or before January 1, 2001, each bill amends Section 4000.37 of the Vehicle Code, and this bill is enacted last.

(20) This bill would incorporate additional changes in Section 12810 of the Vehicle Code proposed by SB 567, to become operative only if both bills are enacted and become effective on or before January 1, 2001, each bill amends Section 12810 of the Vehicle Code, and this bill is enacted last.

(21) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1036 (AB 2708) Wesson. State deposits.

Existing law governs the deposit of funds belonging to or in the custody of the state and local agencies in eligible banks, savings and loans associations, and credit unions.

This bill would revise the definitions of an eligible bank, savings and loan association, and credit union to include receipt of an overall rating of not less than "satisfactory" in the financial institution's most recent evaluation by the appropriate federal financial supervisory agency of its record of meeting the credit needs of the state's communities pursuant to federal law.

Ch. 1037 (SB 799) Ortiz. Grant Joint Union High School District.

(1) Existing law authorizes the governing board of any school district to accept interdistrict transfers. Existing law provides for voluntary desegregation programs and

authorizes any successor to the Grant Joint Union High School District to be funded for such a program.

This bill would impose a state-mandated local program by requiring any school district that succeeds the Grant Joint Union High School District to accept, subject to schoolsite capacity, pupils in grades 7 to 12, inclusive, who apply to transfer to that school district from any other school district that succeeds the Grant Joint Union High School District and to provide home-to-school transportation for pupils who transfer to the school district at no cost to the pupils. The bill would require any school district that succeeds the Grant Joint Union High School District to use, for home-to-school transportation, the funding made available pursuant to the voluntary desegregation programs and would establish priorities for use of the funding.

This bill would also impose a state-mandated local program by requiring any school district that succeeds the Grant Joint Union High School District to guarantee that any person formerly employed by the Grant Joint Union High School District who becomes an employee of a school district that succeeds the Grant Joint Union High School District would retain all seniority that the employee earned in the Grant Joint Union High School District.

(2) This bill would declare that, due to the unique circumstances applicable to the Grant Joint Union High School District, a general statute within the meaning of certain provisions of the California Constitution cannot be made applicable and a special statute is necessary.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1038 (SB 1737) Hayden. Postsecondary education: University of California: colloquium.

Existing law establishes a statewide system of public postsecondary education that includes, among other segments, the various campuses of the University of California, which is administered by the Regents of the University of California.

This bill would request the Regents of the University of California to assemble a colloquium of scholars to draft a research proposal to analyze the economic benefits of slavery that accrued to owners and the businesses, including insurance companies and their subsidiaries, that received those benefits. The bill would require the State Library to participate in this effort, if its resources allow. The bill would also request the regents to make recommendations to the Legislature regarding the colloquium's findings by January 1, 2002.

Ch. 1039 (AB 2246) Wayne. Customer records: personal information: disposal.

Existing law does not regulate the disposal by businesses of records containing the personal information of customers.

This bill would require a business to ensure the privacy of a customer's personal information, as defined, contained in records by destroying, or arranging for the destruction of the records by shredding, erasing, or otherwise modifying the customer record to make information therein unreadable or undecipherable through any means. Any customer injured by a business' violation of these provisions would be entitled to institute a civil action to recover damages, obtain injunctive relief, or seek other remedies.

Ch. 1040 (SB 1388) Peace. Electrical power facilities.

(1) The Warren-Alquist State Energy Resources Conservation and Development Act requires the State Energy Resources Conservation and Development Commission to certify

sufficient sites and related facilities that are required to provide a supply of electric power sufficient to accommodate projected demand for power statewide. The act requires that the commission forward an application for certification of a power facility to local governmental agencies having land use and related jurisdiction in the area of the proposed site and related facility, and requires those local agencies to review the application and submit comments, as prescribed. The act requires the commission to transmit a copy of the application to each federal and state agency having jurisdiction or special interest in matters pertinent to the proposed site and related facilities and to the Attorney General.

This bill would require local and state agencies having jurisdiction or special interest in matters pertinent to the proposed site and related facilities to provide their comments and recommendations on the project within 180 days of the date of filing of an application.

(2) The act requires that the commission prepare a written decision after a public hearing on an application for certification, containing specified information, including, with respect to a geothermal site and related facility, findings on whether there are sufficient commercial quantities of geothermal resources available to operate the proposed facility for its planned life. The act prohibits the commission from certifying any geothermal site and related facility unless it finds that the geothermal field dedicated to the proposed powerplant is reasonably capable of providing geothermal resources in sufficient commercial quantities to supply the powerplant over its planned life.

This bill would delete the above provisions relating to certifying geothermal sites and related facilities.

(3) The Public Utilities Act requires the Public Utilities Commission to implement specified provisions of the restructuring of the electrical industry in the state.

This bill would require the commission to conduct a pilot study of certain customers of each electrical corporation to determine the relative value to ratepayers of information, rate design, and metering innovations using specified approaches. The commission would be required to report initial results of the study to the Legislature on or before March 31, 2002, and results for a specified electrical corporation 15 months after a certain rate level is no longer in effect. The bill would require the commission and the Electricity Oversight Board to facilitate efforts to obtain federal authorization to recover certain expenses of electrical corporations related to reconfiguration, replacement, or expansion of transmission facilities. The bill would authorize the commission to periodically review and adjust depreciation schedules and rates authorized for an electric plant that is under the jurisdiction of the commission and owned by electrical corporations and to periodically review and adjust depreciation schedules and rates authorized for a gas plant that is under the jurisdiction of the commission and owned by gas corporations. Because a violation of the act is a crime, this bill would impose a state-mandated local program.

(4) The bill would make legislative findings and declarations with regard to the reliability and cost of electricity service and the need for an electricity consumer infrastructure that will provide electricity consumption information to customers.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1041 (SB 1939) Alarcon. Public utilities: electric power: irrigation districts.

(1) Existing law requires each local publicly owned utility to establish a nonbypassable usage based charge to fund investments in specified public purpose programs, including providing services for low-income electricity customers. The charge is required to be not less than the lowest expenditure of the 3 largest electrical corporations in California based on a percentage of revenue.

This bill would require a local publicly owned electric utility that has not implemented programs servicing low-income electricity customers to perform a needs assessment, and

establish low-income services, as prescribed, thereby imposing a state-mandated local program. Because a violation of this provision would be a crime, this bill would impose a state-mandated local program by creating a new crime. The bill would set forth certain related legislative findings.

(2) The Irrigation District Law generally requires a member of the board of directors of an irrigation district to be a voter and a freeholder of the district and a resident of the division that the director represents at the time of nomination or appointment and during the director's entire term. That law authorizes an irrigation district that is governed under that law to sell, dispose of, and distribute electric power for use outside its boundaries.

This bill would remove that requirement that a director be a freeholder of the district, and would instead require each director to be a voter and a landowner in the district and a resident of the division he or she represents at the time of his or her nomination or appointment and throughout his or her term, except as provided.

The bill would prohibit a district from constructing, leasing, acquiring, or operating facilities for the purpose of serving retail electric customers located in the service territory of an electrical corporation or a local publicly owned electric utility unless the district provides to the customers of the electric corporation or local publicly owned utility certain programs and services that are comparable to those of the current distribution service providers, and would require the district to certify by ordinance certain matters. Because this bill would increase the duties of local entities, it would impose a state-mandated local program. The bill would provide that these restrictions would not become operative if AB 2638 is enacted and becomes operative.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Ch. 1042 (AB 2638) Cardoza. Public utilities: electrical power: irrigation districts.

The Irrigation District Law authorizes an irrigation district that is governed under that law to sell, dispose of, and distribute electric power for use outside its boundaries. Other existing law authorizes the Public Utilities Commission to establish rates for public utilities regulated by the commission.

The bill would, with specified exceptions, authorize an electrical corporation to discount its noncommodity rates if a customer receives a bona fide offer for electric service from an irrigation district, as specified. The bill would prohibit an irrigation district that offers electric service to retail customers as of January 1, 1999, from distributing or transmitting electricity to retail customers without the approval of the commission, as specified, and would require a district to comply with certain requirements. The commission would be required to make a determination as to various matters before granting approval. The bill would provide specific exemptions from these requirements.

The bill would prohibit electric transmission or distribution service by an electrical corporation to retail customers in specified areas, from January 1, 2001, to December 31, 2025, as prescribed. The bill would exempt the Modesto Irrigation District from specified provisions of the Cortese-Knox Local Government Reorganization Act of 1985.

Ch. 1043 (AB 918) Keeley. Public utilities: net energy metering.

Existing law requires electric service providers, as defined, to develop a standard contract or tariff for net energy metering and to make this contract available to eligible customer-generators, as defined. Existing law defines net energy metering as measuring the difference between the electricity supplied through the electric grid and the electricity generated by an eligible customer-generator and fed back to the electric grid over a 12-month period. Existing law requires that the compensation owed to eligible customer-generators be based on the average retail price per kilowatt-hour for the eligible customer-generator's rate class.

This bill would exempt an electric corporation that provides distribution service for direct transactions from the obligation to provide net energy metering to a customer, if the customer participates in direct transactions with an electric supplier that does not offer net energy metering. The bill would authorize an electric corporation that provides distribution service for direct transactions to recover from the electric service provider of a customer that participates in direct transactions the incremental costs of metering and billing service related to net energy metering, in an amount set by the Public Utilities Commission.

The bill would also establish formulas for the calculation of net monthly consumption for eligible customer-generators taking service employing baseline, over baseline, and time of use rates. The bill would also require that moneys owed to the electric service provider and credits owed to the customer-generator be carried forward until the end of each 12-month period. Under the bill, if the electric service provider providing net metering to a customer-generator ceases providing that electrical service to that customer during any 12-month period, and the customer-generator enters into a new net metering contract or tariff with a new electric service provider, the 12-month period, with respect to that new electric service provider, would commence on the date on which the new electric service provider first supplies electric service to the customer-generator.

Ch. 1044 (SB 552) Kelley. County water authorities.

The County Water Authority Act provides for the formation of county water authorities and grants to those authorities specified power, including the authority to use its water, works, facilities, improvements, and property to provide, generate, and deliver hydroelectric power. The act authorizes an authority to sell hydroelectric power to entities engaged in the sale of electric power at retail.

This bill would authorize an authority to sell hydroelectric power to entities engaged in the sale of electric power at wholesale.

Ch. 1045 (AB 2698) Florez. Williamson Act: Kern County.

Existing law, the Williamson Act, authorizes a county or city, upon petition by a landowner, to cancel any contract if a city or county makes specified findings and the landowner pays a cancellation fee. The act also requires an action or proceeding which, on the grounds of alleged noncompliance with the requirements of the act, seeks to attack, review, set aside, void, or annul a decision of a county board of supervisors or a city council to cancel a contract to be commenced within 180 days from the date of the board or council order on a petition for cancellation.

This bill would require this action or proceeding to commence within 30 days from the date that the Energy Resources and Conservation Development Commission issues its determination on an electric generation project if the cancellation relates to proposed electric generation projects that are located in the southern half of Kern County with a specified capacity, and for which applications were accepted as data adequate by the Energy Resources and Conservation Development Commission during the month of January 2000. This requirement would become inoperative on December 31, 2001.

This bill would declare that it is to take effect immediately as an urgency measure.

Ch. 1046 (AB 2705) Committee on Agriculture. Agricultural industry energy program.

Under existing law, there is a loan program to assist low-income fishing fleet operators reduce their energy costs and conserve fuel by providing low-interest loans to those operators. Prior acts have also appropriated federal oil overcharge funds in the Petroleum Violation Escrow Account to the State Energy Resources Conservation and Development Commission for a farm energy assistance program.

This bill would require funds from loan repayments and interest on loans made by the commission pursuant to an agriculture energy assistance program to be deposited in the Energy Technologies Research, Development, and Demonstration Account, and upon appropriation, to be available for loans and technical assistance. The bill would authorize an amount up to 20% of the annual appropriation to be made available for technical assistance. The bill would provide that the loans have a repayment period of not more than 7 years, and bear interest at a rate not less than 2% below the rate earned by moneys in the Pooled Money Investment Account.

Existing law establishes a state program managed by the Department of Food and Agriculture and the commission to assist in the development of solar technology in agriculture.

This bill would repeal that provision.

Ch. 1047 (AB 1856) Kuehl. Harassment: liability of employees.

Under existing provisions of the California Fair Employment and Housing Act, employers, labor organizations, apprenticeship and employment training programs, other persons, their agents, and supervisors, are civilly liable for harassment of an employee, an applicant for employment, or a person providing services under a contract, as defined, on the basis of race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation.

This bill would expressly provide that employees of any entity covered by these provisions are personally liable for prohibited harassment perpetrated by the employee.

Ch. 1048 (SB 2025) Burton. State civil service: persons with disabilities: administrative proceedings.

(1) The State Civil Service Act prohibits discrimination against a person because of sex, race, religious creed, color, national origin, ancestry, marital status, physical disability, or mental disability. Under the California Fair Employment and Housing Act, it is an unlawful employment practice, unless based upon a bona fide occupational qualification, or except where based upon applicable security regulations established by the United States or the state, to engage in specified discriminatory employment practices, including hiring, promotion, and termination on the same bases as the State Civil Service Act, but the California Fair Employment and Housing Act also includes sexual orientation as one of the bases. The State Civil Service Act also establishes state policies and prescribes requirements for employing individuals with a disability in state service.

This bill would apply the definitions contained in the California Fair Employment and Housing Act pertaining to unlawful practices to the State Civil Service Act.

(2) Under the State Civil Service Act, the State Personnel Board is responsible for the Limited Examination and Appointment Program, which is an alternative to the traditional civil service examination and appointment process to facilitate the hiring of persons with disabilities in state service.

This bill would apply the definition of "disability" in the California Fair Employment and Housing Act to the Limited Examination and Appointment Program. This bill would specify that this definition of "disability" is superseded by the definition of that term in the federal Americans with Disabilities Act of 1990 if broader civil rights protection would thereby be produced for persons with mental or physical disabilities.

(3) Existing law authorizes a court to inquire into the validity of any final administrative order or decision made as the result of a proceeding in which a hearing is required to be given and other requirements are to be met.

This bill would, in any proceeding brought pursuant to the above described provisions for the purpose of inquiring into the validity of any final administrative order or decision by the State Personnel Board, require an award of costs or attorney's fees to the petitioner to be borne by the real party in interest and not the State Personnel Board, unless there is no real party in interest.

Ch. 1049 (AB 2222) Kuehl. Civil rights: disability.

Under the California Fair Employment and Housing Act it is an unlawful employment practice for an employer or employment agency to refuse to hire or employ a person or otherwise discriminate because of specified personal characteristics, including a mental or physical disability or medical condition. The act defines mental disability for its purposes to include any mental or psychological disorder, as specified, and defines physical disability to include, among other things, any physiological disease, disorder, condition, disfigurement, or loss that affects specified body systems and limits an individual's ability to participate in major life activities. The act defines "medical condition" to include any health impairment related to or associated with a diagnosis of cancer for which a person has been rehabilitated or cured.

This bill would revise these definitions of mental and physical disability and medical condition. The bill would apply these revised definitions to provisions prohibiting discrimination in public accommodations, business transactions, access to public places, and employment in the state civil service system.

This bill would also make it an unlawful employment practice, with specified exceptions, for an employer or employment agency to make any medical, psychological, or disability-related inquiry of any job applicant or, with regard to an employee, to make such an inquiry unless it is job-related and consistent with business necessity. The bill would also make it an unlawful employment practice for an employer or other entity covered by the act to fail to engage in a timely, good faith, interactive process to determine effective reasonable accommodations, if any, at the request of an employee or applicant with a known disability.

Existing law requires state agencies to implement affirmative action employment programs for persons with disabilities and, with certain exceptions, declares it to be the policy of the state to make reasonable accommodation, as defined, to the known physical and mental limitations of an otherwise qualified applicant or employee who is an individual with a disability.

This bill would delete the definition of "reasonable accommodation" set forth in these provisions.

The bill would also make legislative findings and declarations.

This bill would incorporate the changes in Section 12926 of the Government Code proposed by both this bill and AB 2142, if this bill and AB 2142 are both chaptered and this bill is chaptered last. This bill would incorporate the changes in Section 12940 of the Government Code proposed by both this bill and AB 1856 if this bill and AB 1856 are both chaptered and this bill is chaptered last.

Ch. 1050 (SB 1194) Sher. Electrical restructuring: public benefit programs.

(1) Under the Public Utilities Act, the Public Utilities Commission, until December 31, 2001, and in certain instances until March 31, 2002, requires electrical corporations to identify a separate rate component to fund cost-effective energy efficiency and conservation activities, public interest research and development, and development of renewable resources technology. This rate component is a nonbypassable element of local distribution and collected on the basis of usage. Existing law requires specified electrical corporations to collect specific amounts to support each of these programs. Existing law also requires the

State Energy Resources Conservation and Development Commission (Energy Commission) to transfer funds collected for these programs to specified funds. Existing law also provides that funds expended for production incentives for new in-state renewable electricity generation technology facilities are limited to facilities that are operational prior to January 1, 2002.

This bill would extend the production incentives for renewable electricity to January 1, 2007, if the Energy Commission makes specified findings. This bill would restate the policy of the state that each electrical corporation operate its electric distribution grid in a safe, reliable, efficient, and cost-effective manner and that electric corporations continue to make prudent investments in their distribution grids. The bill would also require the Public Utilities Commission and the Energy Commission to continue to administer energy efficiency programs, as defined, following prescribed guidelines.

The bill would extend the collection of this nonbypassable system benefit charge to support these programs through January 1, 2012, and would require the funds to be deposited in specified accounts until appropriation by the Legislature. The bill would require named electrical corporations to collect specific dollar amounts for each of the programs beginning on January 1, 2002. The bill would also require the Governor, on or before January 1, 2004, to appoint an independent review panel that, on or before January 1, 2005, would be required to report to the Legislature and the Energy Commission on, among other things, the benefits secured for residential customers. The bill would also require the Energy Commission to report to the Legislature on renewable energy and research and development, develop and submit to the Legislature certain investment plans, and recommend allocations among specified projects. The bill would make related findings and declarations. Because a violation of the act is a crime, this bill would impose a state-mandated local program by expanding an existing crime.

This bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of $\frac{2}{3}$ of the membership of each house of the Legislature.

(2) Existing law authorizes the Public Utilities Commission to utilize enforcement provisions against electric service providers as if those providers were public utilities, including having their registration suspended or revoked for specified acts of misconduct.

This bill would include in those acts of misconduct the misrepresentation of a material fact by an applicant in obtaining a registration as an electric service provider.

The bill would require the commission to require any electric service provider whose registration is revoked pursuant to the above misrepresentation provision to refund all of the customer credit funds that the electric service provider received from the Energy Commission. The bill would require all customer credit funds refunded to be deposited in the Renewable Resource Trust Fund, a continuously appropriated fund, for redistribution by the Energy Commission pursuant to existing law, thereby making an appropriation by depositing funds in a continuously appropriated fund.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1051 (AB 995) R. Wright. Electric restructuring: public benefit programs.

(1) Under the Public Utilities Act, the Public Utilities Commission, until December 31, 2001, and in certain instances until March 31, 2002, requires electrical corporations to identify a separate rate component to fund cost-effective energy efficiency and conservation activities, public interest research and development, and development of renewable resources technology. This rate component is a nonbypassable element of local distribution and collected on the basis of usage. Existing law requires specified electrical corporations to

collect specific amounts to support each of these programs. Existing law also requires the State Energy Resources Conservation and Development Commission (Energy Commission) to transfer funds collected for these programs to specified funds. Existing law also provides that funds expended for production incentives for new in-state renewable electricity generation technology facilities are limited to facilities that are operational prior to January 1, 2002.

This bill would extend the production incentives for renewable electricity to January 1, 2007, if the Energy Commission makes specified findings. This bill would restate the policy of the state that each electrical corporation operate its electric distribution grid in a safe, reliable, efficient, and cost-effective manner and that electric corporations continue to make prudent investments in their distribution grids. The bill would also require the Public Utilities Commission and the Energy Commission to continue to administer energy efficiency programs, as defined, following prescribed guidelines.

This bill would extend the collection of this nonbypassable system benefit charge to support these programs through January 1, 2012, and would require the funds to be deposited in specified accounts until appropriation by the Legislature. The bill would require named electrical corporations to collect specific dollar amounts for each of the programs beginning on January 1, 2002. The bill would also require the Governor, on or before January 1, 2004, to appoint an independent review panel that, on or before January 1, 2005, would be required to report to the Legislature and the Energy Commission on, among other things, the benefits secured for residential customers. The bill would also require the Energy Commission to report to the Legislature on renewable energy and research and development, develop and submit to the Legislature investment plans, and recommend allocations among specified projects. The bill would make related findings and declarations. Because a violation of the act is a crime, this bill would impose a state-mandated local program by expanding an existing crime.

This bill would result in a change in state taxes for the purpose of increasing state revenues within the meaning of Section 3 of Article XIII A of the California Constitution, and thus would require for passage the approval of $\frac{2}{3}$ of the membership of each house of the Legislature.

(2) Existing law authorizes the Public Utilities Commission to utilize enforcement provisions against electric service providers as if those providers were public utilities, including having their registration suspended or revoked for specified acts of misconduct.

This bill would include in those acts of misconduct the misrepresentation of a material fact by an applicant in obtaining a registration as an electric service provider.

The bill would require the commission to require any electric service provider whose registration is revoked pursuant to the above misrepresentation provision to refund all of the customer credit funds that the electric service provider received from the Energy Commission. The bill would require all customer credit funds refunded to be deposited in the Renewable Resource Trust Fund, a continuously appropriated fund, for redistribution by the Energy Commission pursuant to existing law, thereby making an appropriation by depositing funds in a continuously appropriated fund.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1052 (AB 2898) Committee on Revenue and Taxation. Taxation: State Board of Equalization.

The State Board of Equalization administers various taxes.

This bill would make various changes to several of those taxes, including, among other things, providing additional relief of sales or use tax liability for an innocent spouse, providing for a crime and fines for disclosure of specified information, providing for the

suspension of certain periods of limitations for a person who is financially disabled, extending the managed audit program, and would make various technical and clarifying changes to administrative provisions.

The bill would incorporate changes to various sections of the Revenue and Taxation Code made by AB 2894 to become operative if both bills are chaptered and this bill is chaptered last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1053 (AB 2114) Longville. Motor vehicle and diesel fuel taxes.

Existing law imposes a license tax upon distributors for the privilege of distributing motor vehicle and diesel fuel, at the rate of 18¢ per gallon for each gallon of fuel distributed.

The bill would revise and recast the provisions of the Motor Vehicle Fuel License Tax Law and the Aircraft Jet Fuel License Tax Law to be similar to the provisions of the Diesel Fuel Tax Law which would affect the application of the penal provisions of those laws, thus imposing a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1054 (SB 1863) Committee on Business and Professions. Professions and vocations.

(1) Existing law provides for the licensing and regulation of architects and landscape architects by the California Architects Board. Existing law provides that it is a misdemeanor for any person to engage in the practice of architecture or landscape architecture and other associated activities without a license. Existing law authorizes the board to issue a temporary landscape architect certificate to a person from another state meeting certain qualifications. Existing law also provides for a written landscape architect examination in order to obtain a license, which examination may be waived by the board if the applicant is licensed in another state and has passed a uniform national examination as well as a written examination in that state, as specified.

This bill would increase the fines applicable to a violation of these provisions and would delete the provisions relating to the issuance of a landscape architect temporary certificate. This bill would allow the board to waive the requirement for the landscape architect written examination if an applicant has passed an equivalent written examination or meets a certain certification, and passes a California supplemental examination, if that supplemental examination is required of all California applicants. This bill would make other related changes.

(2) Existing law provides for the licensing and regulation of professional engineers and land surveyors by the Board for Professional Engineers and Land Surveyors.

This bill would make various changes relating to the requirements governing a map or plat issued by a licensed land surveyor or registered civil engineer and the requirements relating to the filing of a corner record or record of survey. This bill would clarify that the seal of a licensee may not be used if the licensee's registration has expired, or has been suspended or revoked.

(3) Under existing law, the California Board of Accountancy regulates those engaged in the practice of public accounting and requires, among other matters, that an applicant for a certified public accountant license pass an examination, as specified.

This bill would authorize the board to take specified actions against any individual it suspects has committed particular acts in connection with applying for or taking a licensing examination, as defined, including incidents of cheating or subverting an examination.

(4) This bill would incorporate additional changes in Section 149 of the Business and Professions Code proposed by AB 2889, to become operative only if both bills are enacted and become operative on or before January 1, 2001, and this bill is enacted last.

(5) This bill would incorporate additional changes in Section 205 of the Business and Professions Code to become operative only if AB 2888 is also enacted and becomes operative on or before January 1, 2001.

(6) This bill would make other related changes.

Ch. 1055 (AB 2889) Committee on Consumer Protection, Governmental Efficiency and Economic Development. State government: Trade and Commerce Agency and professions and vocations.

Existing law established the Trade and Commerce Agency in state government as the successor to the Department of Commerce and provides that the work of the agency is to be divided into specified offices.

This bill would make conforming changes to reflect that the Trade and Commerce Agency is the successor to the Department of Commerce.

Existing law establishes the California Board of Accountancy in the Department of Consumer Affairs for the purpose of regulating public accountants.

This bill would make conforming changes to correct references in various provisions of existing law to reflect the establishment of this board.

This bill would incorporate additional changes in Section 149 of the Business and Professions Code proposed by SB 1863, to become operative only if both bills are enacted, as specified, and become operative on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 84040 of the Education Code proposed by AB 2388, to become operative only if both bills are enacted, as specified, and become operative on or before January 1, 2001, and this bill is enacted last.

This bill would incorporate additional changes in Section 41865 of the Health and Safety Code proposed by AB 2939, to become operative only if both bills are enacted, as specified, and become operative on or before January 1, 2001, and this bill is enacted last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1056 (SB 1136) Vasconcellos. Technology.

(1) Existing law establishes the Trade and Commerce Agency and describes the duties of the Secretary of Trade and Commerce. Existing law establishes various offices and programs within the Trade and Commerce Agency, including the Competitive Technology Advisory Committee.

This bill would rename the Trade and Commerce Agency the Technology, Trade, and Commerce Agency, and establish additional duties for its secretary. It would also, among other things, establish the Division of Science, Technology, and Innovation within the Technology, Trade, and Commerce Agency to administer specified existing offices and programs, would provide that the division is under the supervision of a Deputy Secretary of Science, Technology, and Innovation, and would specify his or her duties. The bill would repeal the Competitive Technology Advisory Committee and would establish the California Research and Development Council and the Small Business Competitiveness Council, as specified.

(2) Existing law provides for various programs for the development of spaceport capacity in the state, and authorizes the existence of the California Spaceport Authority in this regard.

This bill would require the authority to designate spaceports based upon applications by various entities, including special districts, and would define various terms for this purpose.

(3) Existing law sets forth the authority and duties of airport districts in developing airports and air navigation facilities. Existing law, to take effect January 1, 2001, authorizes airport districts to provide and maintain spaceports and landing places for space reentry traffic, and defines various terms for this purpose.

This bill would specify that an airport district may not exercise authority for the development of spaceports unless it has been designated as a spaceport by the California Spaceport Authority.

Ch. 1057 (SB 541) Johnston. Education: pregnant and parenting teens.

Existing law states the intent of the Legislature to establish a comprehensive, continuous, community-linked, and school-based program, to be known as the Cal-SAFE Program, that focuses on youth development and dropout prevention for pregnant and parenting pupils and on child care and development services for their children. Among the goals of the program are that pupils who receive services for one or more years will earn a high school diploma or its equivalent and that their children will have enhanced school readiness.

This bill would add as alternatives to these goals that pupils will demonstrate progress towards completion of education goals and their children will demonstrate progress towards meeting their assessed developmental goals.

Existing law requires that a school district or county superintendent of schools that receives program funding ensure that enrolled pupils retain their right to participate in the regular school or educational alternative programs.

This bill would instead require that a school district or county superintendent of schools ensure that enrolled pupils retain their right to participate in any comprehensive school or educational alternative programs.

Existing law requires a funded agency to provide child care and development program services located on or near the schoolsite for children of teen parents enrolled in the Cal-SAFE program and requires the child care site to be available as a laboratory for parenting or related courses that are offered by the funded agency to pupils whether or not they are enrolled in the Cal-SAFE program.

This bill would delete the provision that the child care site be available as a laboratory for pupils whether or not they are enrolled in the Cal-SAFE program and would instead give priority to the site as a laboratory to pupils who are enrolled in the Cal-SAFE program.

Existing law establishes eligibility requirements for enrollment in the program.

This bill would prohibit denial of initial or continuous enrollment if the pupil has had multiple pregnancies or has more than one child or if the pupil's eligibility status changed from pregnant to parenting.

Existing law requires reimbursement pursuant to the Cal-SAFE program for providing child care services to pupils enrolled in a summer school program or a school program operating more than 180 days to be based on the pupil's hours of attendance.

This bill would instead require eligibility for child care services for these pupils to be determined by the parent's hours of enrollment and only for those hours necessary to further the completion of the parent's educational program. The bill would require reimbursements for child care to be reduced on a pro rata basis if funding is insufficient to cover the full costs of Cal-SAFE child care.

Existing law establishes the Child Care Facilities Revolving Fund to provide funding for the purchase of new relocatable child care facilities for lease to school districts and contracting agencies that provide child care and development services. Existing law makes certain child care and development programs eligible to receive a loan for the renovation and repair of facilities or to lease relocatable facilities.

This bill would make school districts and county offices of education that operate a Cal-SAFE program eligible to apply for and receive funding from the Child Care Facilities Revolving Fund and would make child care and development programs conducted pursuant to the Cal-SAFE program eligible for the loan program.

The bill would make other technical changes.

Ch. 1058 (AB 2907) Committee on Education. Education. ²³

(1) Existing law provides for vocational education, skill training, instruction, and training.

This bill would change the term “vocational” to “career technical” in certain sections of the Education Code and require that each reference to vocational education, skill training, instruction, or training in the Education Code be deemed to be a reference to career technical education, skill training, instruction, or training.

(2) Existing law requires the Superintendent of Public Instruction to establish, in the 1994–95 fiscal year, in a specified region, the Migrant Family Day Care Program as a 3-year pilot program for the purpose of serving the special needs of migrant children from the time of birth to the time of their enrollment in kindergarten.

This bill would repeal those obsolete provisions.

(3) Under existing law, the Child Care Facilities Revolving Fund is established in the State Treasury to provide funding for the purchase of new relocatable child care facilities for lease to school districts and contracting agencies who provide child care and development services. The money in the fund is continuously appropriated for those purposes. Existing law requires the Superintendent of Public Instruction, by November 1, 1997, to submit a plan specifying the application procedures, allowable use of the fund, and form of the agreement.

This bill would also allow the money in that fund to be used for the renovation, repair, or improvement of an existing building to make the building suitable for licensure for child care and development services. By expanding the purposes for which the money in this continuously appropriated fund may be allocated, the bill would make an appropriation. The bill would extend to November 30, 2000, the date by which the Superintendent of Public Instruction is required to submit the plan.

(4) Existing law, the State School Building Aid Law, 1949, provides for the allocation of funds to school districts for providing additional schoolhouse facilities. Under that act payment or reimbursement to school districts is made in a specified manner.

This bill would delete those provisions pertaining to payment and reimbursement.

(5) Existing law, the State School Building Aid Law of 1952, provides for the allocation of funds to school districts for the purpose of providing new schoolhouse facilities, and requires a complete detailed report of expenditure of funds allocated under that act to be made to the State Allocation Board annually to the Legislature.

This bill would delete that reporting requirement.

(6) Existing law, the Urban School Construction Aid Law of 1968, authorizes the apportionment of funds to urban school districts for the sole purpose of reconstructing or replacing existing substandard buildings constructed prior to 1943, and requires a complete detailed report of the expenditure of funds allocated under that act to be made annually by the State Allocation Board to the Legislature.

This bill would delete that reporting requirement.

(7) Existing law states the intent of the Legislature to utilize, as the basis for future reorganization of districts in each county, the organization of districts as they existed on January 1, 1981, and the master plan for school district organization in each county, which was developed and approved under certain provisions as they existed prior to January 1, 1981, or any approved updated version of the master plan not inconsistent with other provisions of law.

This bill would remove the intent to use the master plan for school districts as a basis for future reorganization of school districts and replace it with the intent to use local educational needs and concerns as the basis for future reorganization of districts in each county.

(8) Existing law prescribes the procedures for an action to reorganize one or more districts, and requires the county superintendent of schools, within 20 days after any petition for reorganization is filed, to examine the petition, and, if he or she finds it to be sufficient

as required by law, transmit the petition to the county committee on school district organization and to the State Board of Education.

This bill would instead require the county superintendent of schools to transmit that petition within 30 days of making that finding. The bill would make other technical and clarifying changes in related provisions.

(9) Existing law requires each county committee on school district organization, at the direction of the State Board of Education, to formulate plans and recommendations for the organization of the districts in the county or any portion of the county, including, if appropriate, a portion of one or more adjacent counties. In accordance with those requirements, the county committee is required to adopt a tentative recommendation following which action it is required to hold on one or more public hearings in the area proposed for reorganization prior to submitting a final recommendation for unification or other reorganization to the State Board of Education. Existing law requires that public hearing to be held when notice is sent to the governing board of each school district involved at least 10 days prior to the hearing and other requirements regarding posting the notice of the hearing have been met.

This bill would make a technical change regarding the notice requirements.

(10) Existing law requires the county superintendent of schools, within 20 days of receiving notification that the State Board of Education approves the plans and recommendations for the unification or other reorganization of school districts, to call an election to be conducted at the next available regular election.

This bill requires the election to be called within 35 days after receiving the notification.

(11) Existing law authorizes any county superintendent of schools or consortium of school districts to apply to the State Board of Education to establish a pilot project to assist selected school districts to recruit and select administrative personnel, and prescribes the purposes for which these pilot projects may be established, including, among others, gathering and organizing information regarding effective techniques for selecting and evaluating management personnel.

This bill would delete those provisions.

(12) Existing law authorizes the governing board of any school district to accept interdistrict transfers, and requires that any application for transfer under those provisions be submitted by the pupil's parent or guardian to the school district of choice that has elected to accept transfer pupils pursuant to specified provisions prior to January 1 of the school year preceding the school year for which the pupil is to be transferred. Those provisions prohibit the submission of an application after January 1, 1999.

This bill would delete the provisions prohibiting the submission of an application after January 1, 1999.

(13) Existing law requires the State Department of Education to develop a testing program to be utilized at a kindergarten grade level to determine which pupils have a potential for developing learning disability problems. Existing law requires the department to develop and implement a pilot program to determine the effectiveness and feasibility of implementing that testing program.

This bill would delete the requirement to develop and implement that pilot program.

(14) Existing law requires the State Department of Education to select 6 school districts maintaining any of grades 7 to 12, inclusive, to participate in pilot projects in applied academic areas and programs, commencing in May 1991 and continuing throughout April 1994.

This bill would delete those obsolete provisions.

(15) Existing law requires the Superintendent of Public Instruction to establish college admissions test preparation pilot projects for eligible school districts in accordance with certain requirements. Existing law requires that a college admissions test preparation pilot project meet specified goals, including, among others, the identification of students from groups underrepresented in admissions to public postsecondary educational institutions

eligible to participate in the pilot projects. Existing law states the intent of the Legislature that the governing board of each school district operating an approved college admissions test preparation pilot project enter into agreements with college admissions test sponsors for the purpose of establishing and maintaining test preparation activities for the benefit of students, teachers, counselors, and parents.

This bill would repeal those provisions.

(16) Existing law requires the Superintendent of Public Instruction to conduct a pilot program for the 1993–94, 1994–95, and 1995–96 fiscal years to authorize school districts, special education local plan areas, and county offices to establish an alternative dispute resolution process.

This bill would repeal those provisions.

(17) Existing law requires the State Department of Education to award and administer grants for projects directed at the prevention of tobacco use among schoolage children.

Under existing law, the department is required to allocate funds for administering this grant program to county offices of education, and, in particular, is required to allocate \$25,000 to counties with less than 25,000 units of average daily attendance. If funds for this purpose are insufficient, the Superintendent of Public Instruction is required to prorate available funds among participating county offices of education with more than 25,000 units of average daily attendance.

This bill would, with respect to the allocation of funds for counties with less than 25,000 units of average daily attendance, require, if funds for that purpose are insufficient, the Superintendent of Public Instruction to prorate available funds among participating county offices of education ensuring that all county offices of education receive a minimum of \$25,000, and would make clarifying changes in related provisions.

(18) This bill would make technical and clarifying changes in other provisions of the Education Code.

(19) Existing law authorizes the State Personnel Board and its executive officer to prescribe rules governing the temporary assignment or loan of employees between agencies for not to exceed 2 years for certain purposes. Existing law allows a temporary assignment or loan between educational agencies to be extended for up to 2 additional years upon a finding by the Superintendent of Public Instruction or the Chancellor of the California Community Colleges, and with the approval of the Executive Officer of the State Personnel Board, that the extension is necessary in order to substantially complete work on an educational improvement project.

This bill would additionally allow the temporary assignment of any local educator who is performing the duties of a nonrepresented classification while on loan to a state education agency to be extended for as many successive 2-year intervals as necessary by the Superintendent of Public Instruction or the Chancellor of Community Colleges with the concurrence of the local education agency.

(20) Under existing law, whenever there is consideration of an area within a development for a public schoolsite, the advisory agency or subdivision approval is required to give the State Department of Education written notice of the proposed site. If the site is within the distance of an airport runway as defined in specified provisions, the State Department of Education is required to notify the State Department of Transportation, and the State Department of Education is required to investigate the proposed site and to submit to the advisory agency and school district a written report and its recommendations concerning the site. Existing law prohibits the governing board of the school district from acquiring title to the property until the report of the State Department of Education is received. If that report does not favor the acquisition of the property for a schoolsite, the governing board is prohibited from acquiring title to the property until 30 days after the department's report has been read at a public hearing duly called after 10 days' notice published once in a newspaper, as specified, within the county in which the property is located.

This bill would delete those provisions that prohibit the governing board of a school district from acquiring title to the property until the report of the State Department of Education has been received and would delete those other requirements regarding the reading of the report at a public hearing and the posting of public notice of that hearing. The bill would also make conforming changes in those provisions.

(21) Existing law provides for a method of determining revenue limits for each school district. Under existing law, a local educational agency's fiscal year average daily attendance may not be computed pursuant to that method if the average daily attendance of a local education agency is adjusted by the Superintendent of Public Instruction pursuant to any audit or review conducted by a governmental agency.

This bill would instead require a local agency's prior fiscal year average daily attendance to be reduced by an amount equal to any average daily attendance disallowed in the current year by an audit or review.

(22) Existing law requires the Superintendent of Public Instruction to allocate a certain amount of money for supplemental summer school programs in each school district for which the prior fiscal year enrollment was less than 500 units of average daily attendance and meets other criteria.

This bill would delete "units of average daily attendance" from this provision.

(23) Existing law establishes the Education Technology Grant Program to provide one-time grants to school districts and charter schools for the purposes of acquiring computers for instructional purposes at public schools. The Office of the Secretary of Education administers the program.

This bill would authorize the Secretary for Education to adopt emergency regulations governing the method of allocating program funds for the 2000–01 fiscal year.

(24) Existing law authorizes a joint powers authority to issue bonds in order to (1) purchase obligations of local agencies or make loans to local agencies to finance the local agencies' unfunded actuarial pension liability or to purchase or make loans to finance the purchase of delinquent assessments or taxes or (2) acquire any or all right, title, or interest of a local agency in and to the enforcement and collection of delinquent and uncollected property taxes, assessments, and other receivables placed for collection on the property tax rolls and makes the authority described in (2) inoperative through June 30, 2001.

This bill would instead require the amount of property tax receipts to be reported in a fiscal year for certain school districts that participate in a joint powers authority using financing through the authority described above to be equal to 100% of the district's allocable share of the taxes levied for the fiscal year on its behalf. The bill would require 100% of the school district's allocable share of delinquent taxes levied for the fiscal year to be paid by the joint powers authority to the county auditor and distributed to school districts by the county auditor.

(25) Existing law, the Budget Act of 2000, as approved by the Governor, appropriates \$3,469,000 to the State Department of Education for local assistance and contains a provision that \$4,000,000 of the funds appropriated by that budget item is for expansion and growth.

This bill would delete the provision regarding expansion and growth.

(26) Existing law, the Budget Act of 2000, appropriates \$7,022,000 to the State Department of Education for local assistance and contains a provision that states that \$7,022,000 is available for matching federal Workforce Investment Act funds.

This bill would delete the provision making the funds available for matching funds and would instead require the Superintendent of Public Instruction to allocate those funds to adult schools, Regional Occupational Centers and Programs, school districts operating high schools, and county offices of education that operate alternative programs for high school youth.

(27) Existing law appropriates \$337,373,000 for purposes of Regional Occupational Centers and Programs and authorizes the direct apportionment to joint powers authorities of revenue limits funds for those centers and programs.

This bill would delete this authorization.

(28) Existing law appropriates \$118,650,000 for local assistance to the State Department of Education.

This bill would require these funds to be allocated for purposes of teacher recruitment and retention as specified in Chapter 70 of the Statutes of 2000.

(29) Existing law, the Budget Act of 2000, provides that specified amounts shall revert to the Proposition 98 Reversion Account.

This bill would add to the items that would revert to the Proposition 98 Reversion Account.

(30) Existing law, Chapter 72 of the Statutes of 2000, appropriates \$32,852,000 from the General Fund to the Superintendent of Public Instruction for allocation to various purposes.

This bill would increase the appropriation to \$33,352,000 by adding a \$500,000 allocation to the Los Angeles Unified School District for the renovation of the San Fernando Middle School Auditorium. The bill would reappropriate \$100,000 to the Hispanic Media Education Group for an evaluation of the Cada Cabeza Es Un Mundo Latino-Chicano High School Dropout Prevention Program.

(31) The bill would, notwithstanding any other provision of law, modify the formula for average daily attendance for the Compton Unified School District for the 1999–2000 fiscal year.

(32) This bill would incorporate additional changes in Section 42238 of the Education Code, proposed by AB 2907, to be operative only if AB 2907 and this bill are both chaptered and become effective January 1, 2001, and this bill is chaptered last.

Ch. 1059 (AB 505) R. Wright. Administrative procedures.

(1) The Administrative Procedure Act governs the procedure for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law.

This bill, which would be known as the Small Business Regulatory Reform Act of 2000, would revise various provisions of the act with respect to the duties of the office and state agencies in the adoption, amendment, or repeal of regulations, including, among other things, the following:

(a) Requiring the office to establish a unique identification numbering system for each regulatory action for identification and tracking purposes.

(b) Requiring the office to post specified information on its website.

(c) Authorizing a state agency to extend the time period for public comment in specified circumstances.

(d) Revising the information that a state agency is required to submit with the notice of the proposed action.

(e) Revising the procedures a state agency must use to make a determination of whether a proposed administrative regulation or proposed amendment to an administrative regulation has the potential for significant, statewide adverse economic impact directly affecting California business enterprises.

(f) Revising the notification procedures for notifying interested persons of the proposed adoption, amendment, or repeal of a regulation.

(g) Imposing additional requirements on state agencies issuing regulations in order to make the regulatory process more user friendly and improve communications between the parties in the regulatory process.

(h) Requiring each state agency to designate at least one person to serve as a small business liaison.

(i) Defining “proposed action” and “cost impact” under the rulemaking provisions of the Administrative Procedure Act.

(2) Existing law requires that a California Small Business Advocate be established in the Trade and Commerce Agency and provides for the appointment of the advocate by the Governor.

This bill would recodify and recast these provisions to require that the Office of Small Business Advocate be established in the Office of Planning and Research in the Governor's office. The bill would revise the duties of the California Small Business Advocate, who is also the director of the Office of Small Business Advocate, to include counseling small businesses regarding the relationship of small business to state government. The bill would also establish a Governor's Small Business Reform Task Force chaired by the director. It would require the task force to, among other things, hold hearings, conduct a study of specified problems of small business, and report its findings and recommendations to the Governor and the Legislature on or before May 1, 2002.

(3) This bill would incorporate additional changes in Sections 11346.2, 11346.5, and 11346.8 of the Government Code proposed by AB 1822, that would become operative if both bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last. This bill would also make the operation of some of its provisions contingent upon the enactment of AB 1822.

Ch. 1060 (AB 1822) Wayne. Administrative Procedure Act.

The Administrative Procedure Act generally sets forth the requirements for the adoption, publication, review, and implementation of regulations by state agencies.

This bill would make various revisions in the act, as follows:

(1) Provide for the use of electronic communication in the delivery and publication of notices and rulemaking documents, but provide that electronic communication is not to be the exclusive means by which the documents are published or distributed.

(2) Authorize state agencies to consult with interested persons before initiating regulatory action.

(3) Revise the provisions governing preliminary determinations made by a state agency with respect to certain notices of proposed actions to specify that the determinations may be made on the basis of the agency's initial determination.

(4) Specify that certain findings required with regard to report requirements for businesses be included in a rulemaking notice.

(5) Revise provisions requiring the use of plain English with regard to regulations affecting small businesses, to apply to all regulations, and to revise the definition of the term "plain English" for these purposes.

(6) Require oral testimony to be allowed at public hearings on proposed regulations, subject to reasonable limitations.

(7) Revise the manner in which a state agency may respond to repetitive or irrelevant comments in its statement of reasons for adopting, amending, or repealing a regulation.

(8) Revise provisions governing the availability and content of the rulemaking file.

(9) Revise certain rulemaking requirements to apply to a proposed repeal of a regulation as well as a proposed adoption or amendment of a regulation.

(10) Create an exception to the rulemaking requirements of the act for a regulation that establishes criteria or guidelines to be used by the staff of a state agency in performing an audit, investigation, examination, or inspection, settling a commercial dispute, negotiating a commercial arrangement, or in the defense, prosecution, or settlement of a case, subject to specified conditions.

(11) Create an exception to the rulemaking requirements of the act for a state agency rule that is the only legally tenable interpretation of a provision of law.

(12) Revise provisions of the act relating to standards for demonstrating the necessity of a proposed regulation by a state agency.

(13) Specify that the period for review of a proposal to make an emergency regulation permanent is 30 working days, rather than 30 days.

(14) Provide for judicial review of an order of repeal of a regulation as well as a regulation, and expand the types of evidence that a court may consider as part of the review proceeding.

(15) Change the name of the California Regulatory Code Supplement to the California Code of Regulations Supplement.

(16) Revise the format required for State Water Resources Control Board policies, plans, and guidelines submitted to the Office of Administrative Law.

(17) Require a state agency under specified circumstances to deliver notice of its decision not to proceed with a proposed action to the Office of Administrative Law for publication in the California Regulatory Notice Register.

(18) Make various technical or clarifying changes.

(19) Incorporate additional changes in Sections 11344.1, 11346.2, 11346.5, and 11346.8 of the Government Code proposed by AB 505, that would become operative if both bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1061 (AB 2479) Kuehl. Cruelty to animals.

Existing law punishes every person who mistreats, injures, or causes the death of any animal, as specified. Existing law makes it a misdemeanor for any person who operates a pet shop, as defined, to fail to maintain the premises and pet animals in a designated manner.

This bill would require any person who operates a live animal market, as defined, to treat the animals that are sold for human consumption in accordance with various requirements. This bill would provide that any person who fails to comply with these provisions shall first receive a written warning, and that a 2nd and subsequent violation would be an infraction, punishable by a fine of not less than \$250 and not more than \$1,000. However, a fine paid for a 2nd violation would be deferred for 6 months if a course is available that is administered by a state or local agency on the state law and local ordinances relating to live animal markets. If the defendant successfully completes that course within 6 months of entry of judgment, the fine would be waived. The state or local agency would be authorized to charge the participant a fee to take the course, not to exceed \$100. Because it creates a new crime, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1062 (AB 238) Honda. Importation: bullfrogs and turtles: local regulation.

Under existing law, no live aquatic plant or animal may be imported into this state without the prior written approval of the Department of Fish and Game pursuant to regulations adopted by the Fish and Game Commission.

This bill would permit a city, county, or city and county to adopt an ordinance that provides for the regulation of the disposition of bullfrogs and turtles imported for sale in live animal markets for use as food. The bill would authorize the State Department of Health Services and the Department of Fish and Game to consult with a city, county, or city and county for the purposes of carrying out these provisions, and would make related legislative findings.

The bill would become operative only if AB 2479 of the 1999–2000 Regular Session is enacted and becomes operative on or before January 1, 2001.

Ch. 1063 (AB 803) Torlakson. Vehicles: driving under the influence: persons under 21 years of age.

(1) Existing law makes it unlawful for a person under the age of 21 years who has 0.05% or more, by weight, of alcohol in his or her blood to drive a vehicle. Existing law requires any person found to have violated this provision to participate in an alcohol education program.

This bill would require a court to order a person who is at least 18 years of age and has been convicted of a first violation of the provision specified above to attend, at minimum, the educational component of a licensed driving-under-the-influence program. For a second or subsequent violation, this bill would require the court to order the person, in addition to any penalties, to attend a licensed driving-under-the-influence program.

This bill would, if the department suspends or revokes the driving privilege of a person convicted of a first violation of the specified provision and the person was at least 18 years of age at the time of the violation, prohibit the department from reinstating that privilege until the department receives proof that the person has completed, at a minimum, the educational component of the licensed driving-under-the-influence program, as specified.

The bill would, if the department suspends or revokes the driving privilege of a person convicted of a violation of the specified provision and the person was at least 18 years of age at the time of the violation and the violation occurs after a conviction of violating specified provisions, prohibit the department from reinstating that privilege until the department receives proof that the person has completed, at a minimum, a 30-hour driving-under-the-influence program.

The bill would make other, conforming changes in existing law.

(2) This bill would incorporate additional changes in Section 11836 of the Health and Safety Code proposed by AB 2227 to be operative only if both bills are enacted and become effective on or before January 1, 2001, each bill affects Section 11836 of the Health and Safety Code, and this bill is enacted last.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1064 (AB 2227) Torlakson. Driving under the influence: alcohol and drug programs: ignition interlock device.

(1) Under existing law, the State Department of Alcohol and Drug Programs is granted the sole authority to issue, deny, suspend, or revoke the license of a driving-under-the-influence (DUI) program. Existing law defines programs to mean specified entities that have been initially recommended by a county board of supervisors and that are subsequently licensed to provide specified alcohol or drug services.

This bill would clarify that the programs are limited to the county in which the particular board of supervisors has provided the recommendation. The bill would also authorize a board of supervisors to limit its recommendations to those programs that provide services for persons convicted of a first DUI offense or services for persons convicted of a 2nd or subsequent DUI offense, or both services. The bill would provide that if a county board of supervisors fails to provide these recommendations, the department would determine the program or programs to be licensed in that county.

The bill would authorize a county board of supervisors to place one or more limitations on the service to be provided by a driving-under-the-influence program or the area the program may operate within the county, after determining a need and when it recommends a program to the department, as described.

The provisions of the bill described in (1) would become operative on January 1, 2001 and would apply only to the initial recommendation to the department for licensure of a program by the county. The provisions of the bill described in (1) would not become operative if AB 803 is enacted after this bill.

(2) Existing law requires the State Department of Alcohol and Drug Programs to approve all fee schedules for a driving-under-the-influence program.

This bill would authorize the programs to request an increase in the fee or fees in accordance with a specified procedure.

This bill would require the State Department of Alcohol and Drug Programs to adopt regulations for satellite offices of driving-under-the-influence programs. The bill would define the term "satellite offices."

(3) Existing law, in addition to the other fees imposed for the registration of a vehicle, imposes, with certain exceptions, an additional fee of \$1, and continuously appropriates the money to fund local programs relating to vehicle theft crimes. However, in any county with a population of 200,000 or less, the money is also required to be expended for the prosecution of crimes involving driving while under the influence of alcohol or drugs, or both, or vehicular manslaughter, or any combination of those crimes. These provisions are to be repealed as of January 1, 2005.

This bill would increase from 200,000 to 250,000 the population of counties that are required to expend the money for the prosecution of the additional vehicle offenses specified above.

(4) Existing law requires the Department of Motor Vehicles to certify or cause to be certified ignition interlock devices.

This bill would require the Department of Motor Vehicles to ensure that these devices continue to meet certification requirements, as prescribed.

(5) Existing law prohibits a person from operating a motor vehicle at anytime when that person's driving privileges have been suspended for reckless driving or other specified reasons, including failure to submit to a chemical test.

This bill would require that a person whose driving privileges are suspended based on one of these provisions, but who was originally subject to suspension based on driving under the influence of an alcoholic beverage or drug, but pled not guilty or no contest to one of these offenses, to be subject to ignition interlock device requirements, as prescribed, upon conviction of the specified offense.

(6) Existing law authorizes a court-mandated use of certified ignition interlock devices upon conviction of driving under the influence of an alcoholic beverage or drug.

This bill would require the court to provide notice of the terms of the use of the ignition interlock device to the Department of Motor Vehicles. The bill would also expand the authority of the court to require the device as prescribed. The bill would define a specified term. This bill would impose a state-mandated local program by increasing the duties of the courts.

(7) This bill would incorporate additional changes in Section 11836 of the Health and Safety Code proposed by AB 803, to be operative only if this bill and AB 803 are enacted and become effective on or before January 1, 2001, each bill affects Section 11836 of the Health and Safety Code, and this bill is enacted last.

(8) This bill would incorporate additional changes in Section 9250.14 of the Vehicle Code proposed by SB 2084, to be operative only if this bill and SB 2084 are enacted and become effective on or before January 1, 2001, each bill amends Section 9250.14 of the Vehicle Code, and this bill is enacted last.

(9) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(10) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1065 (AB 2414) Firebaugh. Disease management organizations.

The Confidentiality of Medical Information Act generally restricts the disclosure of medical information by various persons and entities, the violation of which is a crime punishable as a misdemeanor. Under these provisions, a health care provider or a health care service plan may disclose medical information to a disease management entity contracting with a health care service plan to monitor or administer care of enrollees for a covered benefit, provided that the disease management services and care are authorized by a treating physician.

This bill would prohibit a disease management organization, as defined, from engaging in certain activities without prior physician authorization.

This bill would authorize disclosure of medical information by a health care provider or a health care service plan to a disease management organization that is in compliance with the above-referenced physician authorization requirement. This bill would prohibit a disease management organization from soliciting or offering for sale any products or services to an enrollee of a health care service plan while providing disease management services unless, as specified, the enrollee elects to obtain information about those products and services. This bill would enact other related provisions.

Because this bill would authorize the disclosure of medical information to a disease management organization subject to a specified condition, the noncompliance with which would constitute a violation of the Confidentiality of Medical Information Act, this bill would impose a state-mandated local program by expanding the scope of an existing crime.

This bill would incorporate additional changes to Section 56.10 of the Civil Code proposed by SB 1903 and SB 2094, to be operative if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1066 (SB 1903) Speier. Medical information: requests for disclosure.

Existing law, the Confidentiality of Medical Information Act, provides that, except in specified circumstances, medical information, as defined, may not be disclosed by providers of health care, health care service plans, or contractors, as defined, without the patient's written authorization. Existing law also prohibits a provider of health care, health care service plan, or contractor from intentionally sharing, selling, or otherwise using any medical information not necessary to provide health care services to the patient, except as specified. Existing law also prohibits a provider of health care, a health care services plan, or a contractor from further disclosing medical information to any person or entity that is not engaged in providing direct health care services, as specified. A violation of the act resulting in economic loss or personal injury to a patient is a misdemeanor and subjects the violating party to liability for specified damages and administrative fines and penalties. For purposes of the act, "providers of health care" includes corporations organized for the primary purpose of maintaining medical information, as specified.

This bill would make the provisions prohibiting sharing, selling, or using medical information for purposes other than provision of health care services applicable to corporations and their subsidiaries and affiliates. The bill would also require a valid authorization for the release of medical information to a person or entity not otherwise authorized by law to obtain such information. Violation of these requirements resulting in economic loss would be a misdemeanor. By creating new crimes, the bill would create a state-mandated local program. The bill would also require specified corporations and entities that maintain medical profiles, summaries, or information, except as specified, to provide the patient with a copy thereof at no charge, upon request.

Existing law provides that an adult patient shall be entitled to inspect his or her patient records upon written request to the health care provider.

This bill would authorize an adult patient to prepare a specified addendum to his or her patient records and require the health care provider to attach that addendum to the patient's records. The bill would also specify that the health care provider shall not be liable for the receipt and inclusion, in and of itself, of the contents of a patient's addendum in the patient's records, as specified.

This bill would incorporate additional changes to Section 56.10 of the Civil Code proposed by AB 2414 and SB 2094, to be operative if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1067 (SB 2094) Committee on Insurance. Health care.

Existing law provides for the regulation and licensing of health care service plans by the Department of Managed Care. Existing law provides for the regulation and licensing of disability insurers by the Department of Insurance.

The Confidentiality of Medical Information Act limits the disclosure of medical information by a provider of health care, a health care service plan, or a contractor relative to a patient, as specified.

This bill would make technical changes to various provisions of that act and other health care-related provisions by correcting erroneous section references and making other related conforming and clarifying changes.

This bill would incorporate additional changes to Section 56.10 of the Civil Code proposed by AB 2414 and SB 1903, to be operative if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1068 (AB 1836) Bates. Coroner's reports.

(1) Under existing law, a provider of health care, health care service plan, or contractor, as defined, may disclose medical information, as defined, to the county coroner in the course of an investigation by the coroner's office.

This bill instead would require the disclosure when requested by a coroner in the course of an investigation by the coroner's office, in specified circumstances, and would authorize disclosure in other circumstances.

(2) Existing law requires the coroner, when seeking a confidential communication of a deceased person concerning medical information that is privileged, as specified, to provide notice to the decedent's personal representative to provide the records to the presiding judge of the superior court. If the personal representative objects in writing to the disclosure, the presiding judge is required to examine the records in camera to determine whether the records must be disclosed as provided.

This bill would require that the coroner seeking those confidential communications give notice to the person who has the right to control disposition of the decedent's remains if there is no personal representative.

(3) This bill would repeal the new provisions described above on January 1, 2003.

(4) Existing law requires the coroner, in all cases in which a person has died under circumstances that afford a reasonable ground to suspect that the death has been occasioned by criminal means, to notify the law enforcement agency having jurisdiction over the criminal investigation. The report is required to state all information received by the coroner relating to the death.

This bill would specify that the information in the report shall include all medical information that is directly related to the death, as specified.

This bill would incorporate additional changes to Section 56.10 of the Civil Code proposed by AB 2414, SB 1903, and SB 2094, to be operative if this bill and one or more of the other bills are enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1069 (SB 1732) Burton. Health care providers: preferred rates.

Existing law, operative on and after July 1, 2000, with respect to contracts providing for the payment of preferred reimbursement rates by payors for health care services rendered by health care providers, imposes certain disclosure and related requirements on contracting agents, as defined, who sell, lease, assign, transfer, or convey a list of contracting providers and their contracted preferred reimbursement rates to other payors or contracting agents, and also imposes certain requirements on payors who seek to pay a preferred reimbursement rate, as specified.

This bill would recast and revise these provisions.

Ch. 1070 (AB 83) Cardenas. Business licenses and fees: employment relationship.

Existing law authorizes cities, including chartered cities, in the exercise of their police power and for the purpose of regulation, to license any kind of business not prohibited by law transacted and carried on within the limits of their jurisdictions, and to fix the rates of the license fee and provide for its collection, according to specified criteria.

This bill would prohibit any city, including a charter city, city and county, or county, from requiring an employee to obtain a business license or home business occupation permit for, or imposing a business tax or registration fee based on income earned for services performed for an employer by the employee in an employment relationship, as specified.

This bill would become operative only if AB 1992 is enacted and becomes effective on or before January 1, 2001.

Ch. 1071 (AB 1147) Honda. Flood control.

(1) Existing law provides for state cooperation with the federal government in the construction of specified flood control projects. Existing law provides that, in order for flood control projects to be eligible for state funds, a project is required to be authorized by the Legislature before it is authorized by Congress.

This bill would repeal that requirement. The bill would require a flood management project that receives financial assistance under The State Water Resources Law of 1975 or The Flood Control Law of 1946 to meet prescribed requirements prior to state authorization. The bill would revise requirements relating to the payment of prescribed nonfederal costs for projects authorized by the Legislature on or after January 1, 2002, and for specified small flood management projects for which prescribed findings are made on or after January 1, 2002. The bill would require the Reclamation Board or the Department of Water Resources to review each flood control project prior to authorization for the purpose of determining whether the project's hydraulic impacts are mitigated, as required by the California Environmental Quality Act. The bill would require a local agency, prior to receiving prescribed payments or reimbursements for flood control costs for projects authorized on or after January 1, 2001, to enter into an agreement with the department or Reclamation Board with regard to liability, as prescribed.

(2) The bill would adopt and authorize a specified flood protection project for the Upper Guadalupe River in the County of Santa Clara, at an estimated cost to the state of the sum that may be appropriated by the Legislature for state cooperation, upon the recommendation and advice of the department, in an amount that the bill would prohibit from exceeding 60% of the nonfederal costs of the project, as prescribed. The bill would authorize the department

to pay 50% of the nonfederal capital costs of the recreation and fish and wildlife enhancement features of the project. The bill would require the Santa Clara Valley Water District to carry out the project and to give prescribed assurances to the Secretary of the Army, thereby imposing a state-mandated local program.

(3) The bill would adopt and authorize prescribed projects for flood control in the City of Sacramento and the Counties of Sacramento and Sutter at an estimated cost to the state of the sum that may be appropriated by the Legislature for state participation upon the recommendation and the advice of the department or the Reclamation Board.

(4) The bill would adopt and authorize specified projects for flood protection and integrated resource management in the Colusa Basin in accordance with prescribed documents, at an estimated cost to the state of the sum that may be appropriated by the Legislature for state participation, upon the recommendation and advice of the department or the board. The bill would authorize the state, local public agencies, and other entities to cooperate with appropriate federal agencies with regard to the planning, design, environmental compliance, financing, and construction of those projects.

The bill would prohibit the expenditure of state funds for those projects unless specified requirements are met.

The bill would authorize the board, if required by the Secretary of the Interior, to give assurances satisfactory to the Secretary of the Interior that the local cooperation will be furnished by the state in connection with the flood control and fish, wildlife, and recreational enhancement features of the projects, if the local agency, by binding agreement with the board, has agreed to assume certain obligations.

(5) The bill would adopt and authorize the project for flood control in the Los Angeles County Drainage Area (LACDA), known as the LACDA project, in accordance with the approval of the Congress of the United States and prescribed documents, at an estimated cost to the state of the sum that may be appropriated by the Legislature for state cooperation, upon the recommendation and advice of the department, in an amount that the bill would prohibit from exceeding 60% of the nonfederal costs of the project. The bill would make the authorization of the project contingent upon the adoption of a specified plan and a prescribed determination. The bill would require the district to give prescribed assurances that the required local cooperation will be furnished in connection with the project and to carry out the project, thereby imposing a state-mandated local program.

(6) The bill would authorize a project for flood control on the Tule River, Success Reservoir Enlargement Project, in accordance with a prescribed report by the Chief of Engineers of the United States Army Corps of Engineers, at an estimated cost to the state of the sum that may be appropriated by the Legislature for state cooperation, upon the recommendation and advice of the Reclamation Board. The bill would authorize the parties to the Tule River Improvement Joint Powers Agreement, in lieu of the Reclamation Board, to carry out the design and construction of the Success Reservoir Enlargement Project and to give prescribed assurances to the Secretary of the Army in connection with that project.

(7) The bill would adopt and authorize the project for flood protection along the Feather River and Yuba River in accordance with a prescribed report prepared by the United States Army Corps of Engineers, upon the recommendation, advice, and approval of the Reclamation Board, as prescribed.

(8) The bill would authorize the project for flood control on the San Lorenzo River, in accordance with a prescribed final report, and as authorized by a prescribed federal act, at an estimated cost to the state of the sum that may be appropriated for state cooperation by statute, upon the recommendation and advice of the department. The bill would require the City of Santa Cruz to carry out the project and to give prescribed assurances to the Secretary of the Army in connection with the project, thereby imposing a state-mandated local program. The bill would make state funding contingent on the provision of funds for the project in either the annual Budget Act or a general obligation bond act. The bill would prescribe related matters.

(9) The bill would authorize a project for flood control on the Santa Ana River at Norco Bluffs in accordance with a prescribed report by the Chief of Engineers of the United States Army Corps of Engineers, at an estimated cost to the state of the sum that may be appropriated for state cooperation by the Legislature, upon the recommendation and advice of the Department of Water Resources. The bill would require the Riverside County Flood Control and Water Conservation District to carry out the project and to give prescribed assurances to the Secretary of the Army in connection with the project, thereby imposing a state-mandated local program. The bill would prescribe related matters.

(10) The bill would authorize a project for habitat restoration at Gunnerson Pond, in accordance with a prescribed report by the Chief of Engineers of the United States Army Corps of Engineers, at an estimated cost to the state of the sum that may be appropriated for state cooperation by the Legislature, upon the recommendation and advice of the department, in an amount that the bill would prohibit from exceeding 60% of the nonfederal costs of the project. The bill would authorize the department to pay 50% of the nonfederal capital costs of the recreation and fish and wildlife enhancement features of the project. The bill would require the Riverside County Flood Control and Water Conservation District to carry out the project and to give prescribed assurances to the Secretary of the Army in connection with the project, thereby imposing a state-mandated local program. The bill would prescribe related matters.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(12) The bill would make related findings and declarations.

Ch. 1072 (AB 2061) Lowenthal. Zero-emission vehicles: alternative diesel fuel.

(1) Existing law contains various provisions relative to air pollution control.

This bill would create a grant program for the purchase and lease of zero-emission vehicles, as defined, in the state, to be developed and administered by the State Air Resources Board, in conjunction with the State Energy Resources Conservation and Development Commission. The program would provide grants to specified recipients in an amount equal to 90% of the incremental cost above \$1,000 of an eligible new zero-emission light-duty car or truck, as defined.

This bill would appropriate \$18,000,000 from the General Fund to the State Air Resources Board for allocation for the purposes of the bill.

(2) Existing law authorizes the State Air Resources Board, among other things, to adopt and implement motor vehicle fuel specifications for the control of air contaminants and the sources of air pollution.

This bill would appropriate \$500,000 from the General Fund to the State Air Resources Board for allocation for grants to air pollution control districts and air quality management districts for fiscal years 2000–01, 2001–02, and 2002–03. The bill would require districts receiving grants to use these funds to offset the incremental operating costs of alternative diesel fuel, as defined, and as used in heavy-duty vehicles and equipment, as specified.

(3) The bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1073 (AB 2207) Baldwin. Pupils: gifted and talented.

Existing law authorizes the governing board of any school district to authorize pupils, with parental permission, who would benefit from advanced scholastic or vocational work to attend community college as special part-time students. Existing law authorizes a pupil's parent or guardian to petition the governing board of the school district to authorize the pupil to attend community college as a special full-time student. Existing law authorizes the governing board of a community college to admit the special part-time or full-time student to any community college under its jurisdiction.

This bill would require the governing board of a school district that denies a request for special part-time or full-time enrollment at a community college for a pupil who is identified as highly gifted to issue its written recommendation and the reasons for the denial within 60 days. The bill would require the written recommendation and denial to be issued at the next regularly scheduled board meeting that falls at least 30 days after the request has been submitted, thereby imposing a state-mandated local program. The bill would require the governing board of a school district to grant a request for special part-time or full-time enrollment for a pupil identified as highly gifted unless the board finds either that the transfer of the pupil would result in a severe hardship at the pupil's school or that the pupil's level of emotional or social development would prevent the pupil from making a satisfactory adjustment. The bill would authorize the parents or guardians of a pupil identified as highly gifted to file an appeal with the county board of education if the request is denied.

The bill would require the governing board of a community college that denies a request for a special part-time or full-time enrollment in community college for a pupil who is identified as highly gifted to record its findings and reasons for the denial in writing within 60 days, thereby imposing a state-mandated local program.

Existing law defines "gifted and talented pupil."

The bill would add a definition of a "highly gifted pupil."

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1074 (AB 2639) Calderon. Insurance: insurance brokers.

Existing law provides that an insurance broker is a person who, for compensation and on behalf of another person, transacts insurance, other than life insurance, with, but not on behalf of, an insurer.

This bill would require an application for insurance submitted by an insurance broker to show that the person is acting as an insurance broker, and would make a presumption, for licensing purposes only, that the person is so acting if certain conditions exist.

Ch. 1075 (SB 225) Rainey. Booking fees: annual appropriation.

Existing law authorizes a county to impose, among other fees with respect to criminal justice services, a booking fee upon other local agencies and colleges and universities for county costs incurred in processing or booking persons arrested by employees of those entities and brought to county facilities for booking or detention. Existing law continuously appropriates up to \$50,000,000 annually from the General Fund to the Controller commencing with the 1999–2000 fiscal year for allocation to cities for reimbursement for actual booking and processing costs paid to counties.

This bill would include qualified special districts, as defined, and a city that has entered into a specified memorandum of understanding with its county, within the allocation of those funds. The bill would authorize those qualified special districts and cities to apply for reimbursement from the Controller for the 1999–2000 fiscal year by specified dates. By expanding the purposes of an existing appropriation, this bill would constitute an appropriation.

This bill would incorporate additional changes in Section 29550.4 of the Government Code proposed by AB 2219, that would become operative only if AB 2219 and this bill are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

This bill would declare that it is to take effect immediately as an urgency statute.

Ch. 1076 (AB 2219) Battin. Booking fees: state reimbursement.

Existing law authorizes a county to impose, among other fees with respect to criminal justice services, a booking fee upon other local agencies and colleges and universities for county costs incurred in processing or booking persons arrested by employees of those entities and brought to county facilities for booking or detention.

Existing law continuously appropriates up to \$50,000,000 annually from the General Fund to the Controller for allocation to cities for reimbursement for actual booking and processing costs paid to counties. Any city that does not pay booking or processing fees to a county or any city that contracts with a county for the payment of those fees is ineligible for that reimbursement.

This bill would provide that any city that pays booking and processing fees to another city is eligible for state reimbursement for those fees. The bill would prescribe criteria for that reimbursement. By making the annual appropriation available for a new purpose, this bill would make an appropriation.

This bill would incorporate additional changes in Section 29550.4 of the Government Code proposed by SB 225, that would become operative only if SB 225 and this bill are both enacted and become effective on or before January 1, 2001, and this bill is enacted last.

Ch. 1077 (SB 1146) Burton. Motor vehicles: pollution control devices.

Existing law authorizes the State Air Resources Board to adopt and implement emissions standards for new motor vehicles to control emissions from those vehicles.

This bill would require the state board, for all 1994 and later model-year motor vehicles that are equipped with on board diagnostic systems and that are certified in accordance with specified test procedures, to adopt regulations that would require motor vehicle manufacturers to take specified actions to make available information relating to motor vehicle emissions monitoring and testing, and diagnostic systems, as prescribed. The bill would provide for the imposition of reasonable business conditions as a condition of the disclosure of information determined to be a trade secret, and would authorize a court to issue a protective order concerning that information.

The bill would require the executive officer of the state board, if he or she obtains credible evidence of a motor vehicle manufacturer's failure to comply with any of the requirements imposed by those regulations, to issue a notice to comply to the manufacturer and would require the manufacturer to submit a compliance plan, as specified. The bill would require an administrative hearing to be conducted by a hearing officer if the manufacturer contests the notice to comply or the executive officer rejects the compliance plan within a specified time period. The bill would require the motor vehicle manufacturer to correct the violation within 30 days from the date of a specified finding by the hearing officer or be subject to a civil penalty in an amount not to exceed \$25,000 per day per violation.

Ch. 1078 (SB 1571) Costa. Water.

(1) The Costa-Machado Water Act of 2000 (A) authorizes, for purposes of financing a safe drinking water, water quality, flood protection, and water reliability program, the issuance of bonds in the amount of \$1,970,000,000, and (B) provides for the use of certain bond funds, and funds repaid to the state pursuant to specified loan contracts, for prescribed programs established under that act.

This bill would make technical, nonsubstantive changes in those provisions.

(2) The Irrigation District Law generally defines "voter" for the purposes of provisions governing irrigation districts to mean a voter, as defined in the Elections Code, who is a resident of an irrigation district. The district law generally requires the directors on the board of an irrigation district to be a voter, a landowner in the district, and resident in the division of the district that the director represents. The district law provides for the abolishment of divisions pursuant to specified procedures.

This bill would revise those provisions, for the purposes of the James Irrigation District and the Corcoran Irrigation District, and provide that every owner of real property in those districts, but no others, may vote at district elections, as specified. The bill would provide that any person who is a voter and landowner, as specified, in the James Irrigation District may be a director on the board of that district. The bill would authorize the board of the James Irrigation District to abolish the divisions of that district for the general district election to be held in 2001, as well as for district elections held after that date, as prescribed. By imposing requirements on those districts, and the applicable county in connection with the conduct of district elections, the bill would impose a state-mandated local program.

The bill would provide that those provisions are operative as long as the district does not provide certain services for domestic purposes and would require the district to notify the Secretary of State 30 days prior to commencing to provide any of those services.

(3) The Fresno Metropolitan Flood Control Act authorizes the Fresno Metropolitan Flood Control District to borrow money and incur indebtedness to construct, repair, operate, or maintain improvements required as a result of declared emergencies or disasters. The act authorizes the district to borrow from the state or the federal government moneys provided for the performance of local responsibilities required in conjunction with state or federal flood control, drainage, or water conservation projects.

This bill would modify the latter provision to authorize the district to borrow from the state or the federal government moneys provided for the performance of work or local responsibilities in conjunction with state or federal flood control, drainage, water conservation, or water quality projects.

(4) The Bergeson-Peace Infrastructure and Economic Development Bank Act establishes the California Infrastructure and Economic Development Bank for the purpose of funding specified types of infrastructure development projects, including public development facilities, that are defined to include sewage collection and treatment facilities and water treatment and distribution facilities. The act authorizes the bank to issue revenue bonds for prescribed purposes. The Porter-Cologne Water Quality Control Act creates the State Water Pollution Control Revolving Fund and continuously appropriates money in the fund to finance the construction of publicly owned treatment works and other activities allowed by the Clean Water Act.

This bill would authorize the bank to issue taxable or tax-exempt revenue bonds for deposit into the State Water Pollution Control Revolving Fund in accordance with prescribed provisions. By providing for the deposit of additional funds into a continuously appropriated fund, the bill would make an appropriation.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1079 (SB 1758) Peace. California Infrastructure and Economic Development Bank.

(1) Existing law creates the California Infrastructure and Economic Development Bank and authorizes the bank to make loans and provide other assistance to public and private entities to carry out various types of projects. Existing law requires the bank to establish criteria, priorities, and guidelines for the selection of projects to receive assistance from the bank. Existing law, for the purposes of these provisions, defines "public development facilities" to include property that is related to providing drainage and flood control services.

This bill would revise that term to include property that is related to providing water supply services.

(2) Existing law, for the purposes of the provisions described in (1) above, defines "sponsor" as any subdivision of the state or local government that has, or proposes to

acquire, an interest in a project and that makes an application to the bank for financial assistance.

This bill would revise this definition to apply to any subdivision of the state or local government that makes an application to the bank for financial assistance. It would provide that this definition shall not be construed to require that an applicant have an ownership interest in the project.

Ch. 1080 (SB 1101) Murray. Transportation: Los Angeles County Metropolitan Transportation Authority: transportation zones.

(1) Existing law requires the Los Angeles County Metropolitan Transportation Authority to establish retirement benefits for employees in a bargaining unit represented by a labor organization in accordance with a collective bargaining agreement.

This bill would include in this requirement employees in any organizational unit of the authority that is in a bargaining unit represented by a labor organization.

The bill also would require retirement benefits for employees of the authority and any organizational unit of the authority in a bargaining unit represented by a labor organization that was created on or after January 1, 1999, for the purpose of representing managerial employees or supervisory employees, to be established pursuant to a collective bargaining agreement between the authority or any organizational unit of the authority and that labor organization.

(2) Existing law authorizes the authority, as the successor entity to the Los Angeles County Transportation Commission, to establish transportation zones, as defined, only in those areas where the authority determines by a majority vote that the authority or the included municipal operator cannot otherwise provide adequate and responsive local transportation services in a cost-effective manner. Existing law also requires the authority to establish organizational units, including an organizational unit with the operating responsibilities of the Southern California Rapid Transit District relating to exclusive public mass transit guideway projects and the operation of bus routes.

This bill, as to any transportation zone, as defined, approved on or after January 1, 1999, that assumes any of the operating responsibilities of the district, as specified above, on or after that date, would require the transportation zone to assume and be bound by the terms and conditions of employment set forth in any collective bargaining agreements between the authority and any labor organizations affected by the creation of the transportation zone as well as the duties, obligations, and liabilities arising from, or relating to, labor obligations imposed by state or federal law upon the authority, except as specified.

The bill would require, for a period of 4 years, commencing with the date of transfer of service by the authority to the transportation zone, or at the expiration date of any collective bargaining agreement that is in effect during that 4-year period, whichever is later, that employees of the transportation zone, together with like employees of the authority, constitute appropriate collective bargaining units. Upon expiration of the specified period, employees of the transportation zone, at the option of the transportation zone, would be authorized to constitute appropriate collective bargaining units that are independent of the collective bargaining units of the authority.

The bill would require the authority to retain, for the period specified above, the power of final approval of labor contracts negotiated by it and the transportation zone with those labor organizations representing collective bargaining units consisting of both employees of the authority and the employees of the transportation zone. Upon expiration of the specified period, the authority would have no final approval power over any labor contract negotiated between the transportation zone and a labor organization representing the employees of the transportation zone.

The bill would require the transportation zone to maintain, as a cosponsor with the authority, any retirement system established and maintained as specified, until participation in the retirement system or retirement benefits is modified under the collective bargaining

process. The transportation zone would be authorized to appoint at least one member to the retirement board of the retirement system.

The bill would require the transportation zone to maintain the health care provisions contained in any assumed collective bargaining agreement, until those provisions are modified through the collective bargaining process. The bill would provide that the transportation zone may not be held liable for financial obligations to any health care provider that arose prior to the direct transfer of employees from the authority to the transportation zone.

The bill would specify that the transportation zone is not an organizational unit of the authority.

To the extent the provisions of this bill would impose additional duties and responsibilities upon local governmental entities, the bill would impose a state-mandated local program.

(3) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1081 (SB 1823) Committee on Elections and Reapportionment. Elections: ballot materials.

(1) Existing law requires that the specifications of the election order for a school district election or community college district election include the authority for calling the election, the authority for the specification of the election order, and the signature of the officer creating the specifications of the election order.

This bill would require that the specifications of the election order for a school district election on a measure include the wording of the measure as it will appear on the ballot. By adding to the duties of local elections officials, this provision would create a state-mandated local program.

(2) Existing law specifies the methods for political parties to qualify to participate in primary elections.

This bill would require political parties to have their qualifications to participate in primary elections reviewed by the Secretary of State, as specified, following each gubernatorial election.

(3) Existing law requires candidates for judicial office to file with elections officials, in duplicate, a written declaration of his or her intention to be a candidate.

This bill would delete the requirement that these declarations be filed in duplicate, but would retain the filing requirement.

(4) Existing law requires that ballot arguments submitted for ballot measures in county, municipal, and school district elections be accompanied by the name of the author of the argument.

This bill would require that ballot arguments submitted for ballot measures in county, municipal, and school district elections be accompanied by the signature of the author of the argument.

(5) Existing law requires that the sample ballot sent in connection with a bond election include a statement of a bond measure's potential impact on tax rates.

This bill would require that this statement be submitted to elections officials within 88 days prior to the election.

(6) Existing law specifies that the procedures for determining the order of candidate names on ballots be conducted 4 times every 2 years.

This bill would require that this procedure be conducted 5 times every 2 years.

(7) Existing law requires the Secretary of State to prepare detailed maps following the enactment of any redistricting plan.

This bill, instead, would require appropriate committees of the Legislature to prepare those maps. The bill would require the maps to be provided to the Secretary of State for distribution, as specified, and to the county elections officials for the conduct of elections, as provided.

(8) Existing law requires that members of the State Board of Equalization be residents of the district from which they are elected for at least one year before their election or appointment.

This bill would repeal the one-year residency requirement.

(9) Existing law requires that superior court judges be residents of the county of the court to which they are elected or appointed.

This bill would repeal that residency requirement.

(10) This bill would make additional technical changes to existing law relating to electoral procedures.

(11) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1082 (SB 2054) Committee on Governmental Organization. Horse racing.

(1) Existing law, the Horse Racing Law, provides for the operation of live horse racing in this state and for wagering thereon, and for the operation of satellite wagering facilities, subject to regulation and oversight by the California Horse Racing Board as specified.

This bill would amend the Horse Racing Law by deleting obsolete provisions, correcting erroneous and outdated cross-references, and making numerous other technical, nonsubstantive changes.

(2) Existing law, operative on January 1, 1999, defines breakage in the context of parimutuel wagering on horse races to mean the odd cents by which the amount payable on each dollar wagered exceeds a multiple of 10¢.

This bill would make technical, nonsubstantive changes to this provision and would delete related obsolete provisions.

(3) Existing law requires the board to make an annual report to the Governor and the Legislature of its proceedings in the preceding fiscal year, which includes, among other things, a tabulation of injuries, fatalities, and accident rates and an evaluation of specified worker safety improvements.

This bill would require the board to also include a report on the state of the business of horse racing in its annual report.

(4) Existing law generally provides that no application to conduct a race meeting shall be granted unless the applicant has deposited a surety bond in the amount of \$100,000 or greater, as determined by the board, sufficient to ensure payment of employee wages and benefits including health, welfare, and pension plans. Existing law provides that this requirement does not apply to any person or association that was licensed to operate a horse racing meeting prior to January 1, 1986, which conducted a racing meeting in each of the immediate 3 previous consecutive calendar years.

This bill would make this exception applicable to any person or association that was licensed to operate a horse racing meeting prior to January 1, 2001, that conducted a racing meeting in each of the immediate 3 previous consecutive calendar years.

(5) Existing law requires the board to establish safety standards governing various specified matters, including the track surface, rails, gates, access and egress, lighting, equipment, communications, and veterinary, medical, and ambulance services. Existing law also provides that no license shall be issued to conduct a horse racing meeting unless the track has been inspected within 30 days prior to the date of application and approved by the board with respect to these standards. The bill would additionally provide that no license shall be issued to conduct a racing meeting unless the board determines that the proposed licensee is in substantial compliance with its rules and regulations and with the requirements of the Horse Racing Law.

(6) Existing law provides that in any city with a population in excess of 2.75 million persons, no track shall be established in any flood control basin with specified attributes until the city council has called a special election on whether the people in the surrounding area approve of the establishment of that track. Existing law specifies the precincts and vote requirement for this election.

This bill would delete this provision.

(7) Existing law establishes a stewards' committee to advise the board with respect to matters relating to stewards and racing officials.

This bill would eliminate this committee.

(8) Existing law provides for the allocation of up to 100 racing days for the purpose of conducting an Appaloosa invitational meeting, which may only be held at a racing facility leased from Cal Expo, a district agricultural fair, or a county fair.

This bill would delete these provisions, and references thereto.

(9) Existing law establishes maximum allocation of racing days and weeks applicable to Appaloosa and Arabian racing.

This bill would delete these provisions, and would also delete a redundant authorization for the allocation of 4-day racing weeks to quarter horse associations.

(10) Existing law refers to the California Veterinary Diagnostic Laboratory System and the Equine Drug Testing Laboratory.

This bill would amend various provisions to instead refer to the Animal Health and Food Safety Laboratory and the Kenneth L. Maddy Equine Analytical Chemistry Laboratory, respectively. This bill would also amend various provisions to reflect that the Kenneth L. Maddy Equine Analytical Chemistry Laboratory has been constructed.

(11) Existing law provides that any racing association in this state may authorize betting systems located outside of this state to accept wagers on races it conducts or disseminates, subject to specified requirements, including a requirement that if the wagers accepted by the 2 entities are combined in a single parimutuel pool, the breakage thereby generated shall be allocated between the entities on the basis of a distribution calculation approved by the board. Existing law provides that the board shall report to the Department of Finance whenever it approves a calculation for distribution pursuant to these provisions, and the projected impact of the calculation, if any, on state revenues.

This bill would delete this reporting requirement.

Ch. 1083 (SB 1957) Burton. Alcoholic beverages.

The Alcoholic Beverage Control Act licenses and regulates beer manufacturers and wholesalers.

This bill would provide that no sale or distribution agreement between a beer manufacturer and beer wholesaler shall be terminated solely for a beer wholesaler's failure to meet a sales goal or quota that is not commercially reasonable under the prevailing market conditions.

This bill also would provide that a beer manufacturer who unreasonably withholds consent or unreasonably denies approval of a sale, transfer, or assignment of any ownership interest in a beer wholesaler's business with respect to that manufacturer's brand or brands, shall be liable in damages to the beer wholesaler, as specified.

Ch. 1084 (SB 1724) Dunn. Confidential records: tax records.

(1) Existing law prohibits a business entity that performs bookkeeping services from disclosing the contents of any record, as specified, and provides a civil remedy to recover the actual damages, which in no case shall be less than \$500, for the violation of this provision as well as attendant court costs and reasonable attorneys' fees.

This bill would prohibit, subject to specified exceptions, the unrelated use, as defined, and the disclosure, including internal disclosures and those made to subsidiaries or affiliates, of information obtained from a tax return or submitted by a consumer, including that obtained through an electronic medium, in connection with a financial or other business-related transaction. This bill would additionally require the disposal of this information in a designated manner for confidentiality purposes and would provide that this provision is inoperative if AB 2246 of the 1999–2000 Regular Session is enacted and becomes operative on or before January 1, 2001. This bill would make a violation of its provisions subject to the civil remedy described in existing law and would specify that each violation constitutes a separate cause of action for which damages are recoverable under that remedy.

(2) Existing law provides for the regulation of tax preparers and makes a violation of specified provisions a crime, including one that prohibits any individual or business from disclosing information obtained in the business of preparing or assisting in the preparation of a federal or state income tax return, as defined, unless, among other specified circumstances, the taxpayer has consented to the disclosure. This bill would specify that each violation of the provisions regulating the practice of tax preparers constitutes a separate offense.

This bill would expand the definition of the business of preparing or assisting in preparing tax returns to include a person who files a return by electronic transmittal directly to the Franchise Tax Board or the Internal Revenue Service and would additionally prohibit those engaged in the business from disclosing either internally or to subsidiaries or affiliates, as defined, information obtained in the course of that business. This bill would specify that the information prohibited from disclosure by these provisions includes that obtained through an electronic medium and would require that a consent for disclosure by the taxpayer specify to whom the information will be disclosed and how the information will be used.

This bill would make it a crime to dispose of information obtained in the business of preparing or assisting to prepare returns in a manner in which the identity of the taxpayer may be determined, as specified, and would provide that this provision is inoperative if AB 2246 of the 1999–2000 Regular Session is enacted and becomes operative on or before January 1, 2001.

(3) Under existing law, any return and other specified, related documents filed with the Franchise Tax Board using electronic technology are required to be in a form prescribed by the board.

This bill would prohibit the board from approving for electronic filing any proprietary filing software or electronic tax preparation forms that require a taxpayer to consent to the disclosure of specified information as a condition of access to that software or to those forms.

(4) Because this bill would enlarge the type of prohibited disclosures and would make it a crime to fail to dispose of certain information in a specified manner, the bill would both create a new crime and expand the definition of an existing crime, thereby imposing a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Ch. 1085 (SB 1362) Poochigian. Disabled veterans' exemption.

Existing property tax law provides, pursuant to the authorization of the California Constitution, for the exemption from property taxation of the home of a disabled veteran, or

a veteran's spouse in the case in which the veteran has, as a result of a service-connected disease or injury, died while on active duty in military service. Existing property tax law specifies an exemption amount of \$40,000 and increases that amount to \$100,000 in the case in which the disabled veteran is completely disabled. Existing law increases these amounts to \$60,000 and \$150,000, respectively, if the exemption claimant's income does not exceed an amount stated in a specified statute. Existing law also repeals the higher exemption amounts with regard to totally disabled veterans as of January 1, 2001.

This bill would, for purposes of an income threshold, substitute an income level of \$40,000 for the amount specified by a certain statute. This bill would provide for the annual adjustment of that income level for inflation for the 2002 assessment year and each assessment year thereafter. This bill would also require the exemption to be in the amount of \$100,000, or in the amount of \$150,000 if the claimant's income does not exceed the adjusted income threshold.

Existing property tax law generally requires an affidavit for the disabled veterans' exemption to be filed no later than the February 15 following the relevant lien date. It also provides for partial exemptions, each applicable as provided and contingent upon an affidavit being no later than the December 10 following the lien date, of the lesser of either certain amounts of assessed value or 80% of the full value of the real property to which the exemption is to be applied.

This bill would, subject to limitations periods, as set forth in a specified statute, revise and recast current partial exemption provisions to require the cancellation or refund of either 90% or 85% of those taxes, including any interest and penalties, levied on that portion of the property's assessed value that would have been exempted under a timely exemption claim, depending upon whether a claim is filed either within a specified period ending with the December 10 following the lien date, or after that period. This bill would also make technical, nonsubstantive changes to provisions regarding the application of the exemption to the 2nd installment of taxes on the secured property tax roll.

This bill would, if the exemption would have been available but for the claimant not having received a disability rating from the United States Department of Veterans Affairs, require the refund or cancellation of taxes on that portion of the assessed value of the property that would have been exempt under a timely and appropriate affidavit, provided a claimant meets certain filing requirements.

This bill would, in the case in which the subject real property was only acquired after the property tax lien date, also require the cancellation or refund of those taxes levied on the full exemption amount or a prorated amount, provided an appropriate affidavit is filed on or before the next property tax lien date.

This bill would also provide for the termination of a disabled veterans' exemption upon that subject property being transferred to a 3rd party that is not eligible for that exemption.

This bill would incorporate additional changes in Section 205.5 of the Revenue and Taxation Code, proposed by SB 2195, to be operative only if SB 2195 and this bill are both chaptered and become effective on or before January 1, 2001, and this bill is chaptered last.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

This bill would take effect immediately as a tax levy.

Ch. 1086 (SB 2195) Soto. Property taxation: veterans' exemption.

Existing property tax law provides, pursuant to the authorization of the California Constitution, for the exemption from property taxation of the home of a disabled veteran, or a veteran's spouse in the case in which the veteran has, as a result of a service-connected

disease or injury, died while on active duty in military service. Existing property tax law specifies an exemption amount of \$40,000 and increases that amount to \$100,000 in the case in which the disabled veteran is completely disabled. Existing law increases these amounts to \$60,000 and \$150,000, respectively, if the exemption claimant's income does not exceed an amount stated in a specified statute. Existing law also repeals the higher exemption amounts with regard to totally disabled veterans as of January 1, 2001.

This bill would remove this repeal date.

Section 2229 of the Revenue and Taxation Code requires the Legislature to reimburse local agencies annually for certain property tax revenues lost as a result of any exemption or classification of property for purposes of ad valorem property taxation.

This bill would provide that, notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made and the state shall not reimburse local agencies for property tax revenues lost by them pursuant to the bill.

The bill would incorporate changes to Section 205.5 of the Revenue and Taxation Code made by SB 1362 to become operative only if both bills are chaptered and this bill is chaptered last.

This bill would take effect immediately as a tax levy.

Ch. 1087 (SB 2012) Speier. California Public Broadcasting Act of 1975: emergency broadcasting grants.²⁴

The California Public Broadcasting Act of 1975 provides for, among other things, the distribution of funds and the making of grants to public broadcasting stations by the California Broadcasting Commission for specified purposes.

This bill would additionally require the Office of Emergency Services to solicit applications for grant funds appropriated by the Legislature for the purposes of the bill and to allocate the funds for the purchase and installation of equipment to eligible public broadcasting stations that meet specified criteria, including entering into a permanent agreement with the office to dedicate, as necessary, a broadcast channel for the provision of emergency information, and the broadcasting of that information, and certifying that it has a plan to address the needs of significant linguistic minorities in its service area.

This bill would appropriate \$5,000,000 from the General Fund to the office for the purposes of the bill.

Ch. 1088 (SB 87) Escutia. Medi-Cal: eligibility.

Existing law provides for the Medi-Cal program, administered by the State Department of Health Services, under which qualified low-income persons are provided with health care services.

Existing law creates various bases for the establishment of Medi-Cal eligibility.

This bill would make changes in Medi-Cal eligibility criteria and procedures in instances when eligibility on one basis has terminated. The bill would provide for the transfer of a Medi-Cal beneficiary's benefits to an appropriate transitional Medi-Cal program, under specified circumstances. It would also provide for eligibility redetermination procedures when a Medi-Cal beneficiary's circumstances change so as to affect his or her eligibility generally, and specifically in cases in which the CalWORKs benefits of Medi-Cal beneficiaries have been terminated.

Because each county is required to administer Medi-Cal eligibility determination provisions, the bill would constitute a state-mandated local program.

The bill would require that the foregoing provisions be implemented not later than July 1, 2001, but only to the extent that federal financial participation is available.

The bill would require the department, in consultation with specified parties, to conduct a study of the feasibility of adopting a mechanism whereby, to the extent federal financial participation is available, a Medi-Cal managed care plan shall be notified whenever the eligibility of a Medi-Cal beneficiary is being redetermined.

NOTE: Superior numbers appear as a separate section at the end of the digests.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Ch. 1089 (SB 1524) Figueroa. Insurance: fines and penalties.

Existing law requires the Insurance Commissioner to require from every insurer in the state full compliance with the provisions of the Insurance Code.

This bill would require that any fines, penalties, fees, and costs resulting from any matter involving compliance with or enforcement of any provisions of the Insurance Code or other laws involving any entity subject to the jurisdiction of the commissioner, be deposited in the appropriate fund as provided by law.

This bill would also provide that any funds ordered, or allocated by a settlement, to be used for public outreach shall be subject to specified limitations. It would also authorize certain individuals, a city attorney, a district attorney, or the Attorney General to bring a legal action against the commissioner to enforce these provisions. It would require a court to order the commissioner to pay damages out of nonpublic funds to any prevailing party in any enforcement action arising out of a violation of the bill's provisions.

Ch. 1090 (SB 1899) Burton. Northridge earthquake of 1994.

Existing law sets forth the statutes of limitations for various causes of action, as specified.

This bill would provide that, notwithstanding any other provision of law or contract, certain insurance claims for damages arising out of the Northridge earthquake of 1994 which are barred as of the effective date of this bill solely because the applicable statute of limitations has or had expired are hereby revived and a cause of action thereon may be commenced provided that the action is commenced within one year of the effective date of the bill. The bill would set forth related provisions.

Ch. 1091 (SB 2107) Speier. Insurance: settlement agreements: administrative.

Existing law permits the Insurance Commissioner to impose penalties for various violations of provisions of the Insurance Code. Existing law permits the Insurance Commissioner to settle administrative actions brought to enforce the provisions of the Insurance Code or other laws that impose the duty upon the commissioner to regulate the business of insurance in this state.

This bill would specify the extent of the authority of the commissioner in the settlement with an insurer of an administrative action.

Ch. 1092 (AB 2018) Thomson. Controlled substances: Schedule II: triplicate prescription.

(1) Existing law provides that no person shall prescribe a controlled substance, nor shall any person fill, compound, or dispense such a prescription unless it complies with specified requirements, one of which is that prescriptions for Schedule II controlled substances shall be prepared in triplicate. The Department of Justice is required to issue these triplicate prescriptions in serially numbered groups of not more than 100 forms to any practitioner authorized to write a prescription for Schedule II controlled substances. Existing law also limits the number of prescription blank groups issued to an individual prescriber by the Department of Justice.

This bill would revise the distribution requirements applicable to prescription blanks for Schedule II controlled substances and would revise the information required in a prescription for a Schedule II controlled substance. The bill would authorize a pharmacist to fill a

NOTE: Superior numbers appear as a separate section at the end of the digests.

prescription for a controlled substance classified in Schedule II containing an error or errors, provided the pharmacist notifies the prescriber of the error or errors and the prescriber approves any correction. The prescriber would be required to fax or mail a corrected prescription to the pharmacist within 7 days of the prescription being dispensed.

(2) Existing law provides that in general a violation of any of the provisions relating to the prescription of controlled substances is a misdemeanor. By creating new crimes and extending the operation of criminal provisions, this bill would impose a state-mandated local program on local government.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

**DIGESTS OF RESOLUTIONS AND PROPOSED
CONSTITUTIONAL AMENDMENT
ADOPTED IN 2000**

1999–2000 REGULAR SESSION

RESOLUTION CHAPTERS

Res. Ch. 1 (SCR 44) Vasconcellos. California Science and Technology Week.

This measure would designate the week of November 14 to 20, 1999, inclusive, as California Science and Technology Week.

Res. Ch. 2 (SCR 42) Murray. Sister state: Western Cape Province, South Africa.

This measure would, on behalf of the people of the State of California, extend an invitation to the people of the Western Cape Province, South Africa, to join California as a sister state, and to commit to the development of programs to foster social, economic, educational, scientific, and cultural exchanges in order to strengthen economic ties, and improve international understanding and goodwill between the two states.

Res. Ch. 3 (ACR 74) Lowenthal. Relative to the Year of the Child.

This measure would declare the year 2000 to be the Year of the Child.

Res. Ch. 4 (ACR 99) Dickerson. Department of Corrections: firefighters: fire season of 1999.

This measure would honor the dedicated firefighters of the Department of Corrections for their efforts during the "Fire Sieges of 1999."

Res. Ch. 5 (ACR 100) Dickerson. Office of Emergency Services: firefighters: fire season of 1999.

This measure would honor the dedicated firefighters of the Office of Emergency Services for their efforts during the "Fire Sieges of 1999."

Res. Ch. 6 (ACR 101) Dickerson. California National Guard: fire support professionals: fire season of 1999.

This measure would honor the dedicated fire support professionals of the California National Guard for their efforts during the "Fire Sieges of 1999."

Res. Ch. 7 (ACR 102) Dickerson. California Department of Forestry and Fire Protection: firefighting professionals: fire season of 1999.

This measure would honor the dedicated firefighting professionals of the California Department of Forestry and Fire Protection for their efforts during the "Fire Sieges of 1999."

Res. Ch. 8 (ACR 103) Dickerson. California Conservation Corps: firefighters: fire season of 1999.

This measure would honor the dedicated firefighters of the California Conservation Corps for their efforts during the "Fire Sieges of 1999."

Res. Ch. 9 (ACR 104) Dickerson. California Youth Authority: firefighters: fire season of 1999.

This measure would honor the dedicated firefighters of the California Youth Authority for their efforts during the "Fire Sieges of 1999."

Res. Ch. 10 (AJR 38) Kaloogian. Human rights: Sudan.

This measure would condemn the National Islamic Front government for its genocidal war in southern Sudan, call for the end of the practice of slavery, urge Congress to adopt the Sudan Peace Act, and commend the Sudanese people who continue to resist that persecution.

Res. Ch. 11 (SCR 54) Burton. Legislature: adjournment.

This measure would adjourn the Senate and Assembly to meet for a session in the former State Capitol in Benicia.

Res. Ch. 12 (ACR 82) Aroner. Officer James Williams Memorial Overpass.

This measure would designate the overpass on the Interstate 580 freeway at 38th Avenue in Oakland the "Officer James Williams Memorial Overpass."

The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers.

Res. Ch. 13 (ACR 113) Romero. Voter Registration Week.

This measure would proclaim the week of January 31, 2000, to February 7, 2000, inclusive, as Voter Registration Week.

Res. Ch. 14 (ACR 114) Wiggins. Charles M. Schulz Day.

This measure would proclaim February 13, 2000, as "Charles M. Schulz Day" on the occasion of the last original publication of the comic strip "Peanuts" in newspapers worldwide.

Res. Ch. 15 (ACR 116) Wesson. Rosa Parks Day.

This measure would proclaim Rosa Park's birthday, Friday, February 4, 2000, and the first Monday following February 4 of each subsequent year, as Rosa Parks Day in California.

Res. Ch. 16 (ACR 33) Havice. Crime Victims' Rights Week.

This measure would recognize the week of April 9 through 15, 2000, as Crime Victims' Rights Week in California.

Res. Ch. 17 (SCR 59) Burton. Mental health reform.

This measure would establish, until November 30, 2000, the Joint Committee on Mental Health Reform, for the purpose of identifying promising strategies and policy recommendations relating to mental health treatment. The measure would provide membership and funding specifications for the committee. The measure would require the committee to submit a report to the Legislature by May 1, 2000, on the committee's activities and recommendations.

Res. Ch. 18 (ACR 118) Dutra. Vandalism and graffiti.

This measure would state that the Legislature sends its support and condolences to Congregation Beth Torah, the students, faculty and administration of Washington High School, and the community of Fremont for the acts of vandalism and anti-Semitic and racist graffiti on their properties. This measure would also state that the Legislature denounces these acts and resolves to combat hatred, promote unity, and assist in bringing those responsible for these crimes to justice.

Res. Ch. 19 (ACR 13) R. Wright. Black History Month.

This measure would recognize February 2000 as Black History Month, urge all citizens to join in celebrating the accomplishments of African-Americans during Black History Month, and encourage the people of California to recognize the many talents, achievements, and contributions that African-Americans make to their communities.

Res. Ch. 20 (ACR 107) R. Wright. Dr. Martin Luther King, Jr. Day.

This measure would honor the late Reverend Dr. Martin Luther King, Jr., and commemorate Dr. Martin Luther King, Jr. Day.

Res. Ch. 21 (SCR 22) Solis. College Awareness Month.

This measure would proclaim February 2000 to be "College Awareness Month." This measure would urge California residents to encourage elementary and secondary school

pupils to succeed in their academic endeavors so they may earn a college education and contribute to the economic, social, and political future of California.

Res. Ch. 22 (SCR 63) Johannessen. Department of Parks and Recreation.

This measure would commend the Department of Parks and Recreation for the maintenance of the Benicia State Capitol Building and for their assistance in facilitating the legislative session held there on February 16, 2000.

Res. Ch. 23 (SCR 64) Burton. Commemoration of the First Legislature.

This measure would memorialize the one hundred fiftieth anniversary of the First Session of the California Legislature.

Res. Ch. 24 (SCR 65) Burton. San Francisco Bar Pilots.

This measure would honor the former and current members of the San Francisco Bar Pilots for their important role, throughout California's history, in the enhancement of maritime commerce, protection of cargoes, and safeguarding the fragile environment of the bays and rivers on which they have served.

Res. Ch. 25 (ACR 120) Thomson. City of Benicia: commendations.

This measure would commend the City of Benicia for hosting the Legislature's celebration of California's sesquicentennial at the Benicia State Capitol.

Res. Ch. 26 (ACR 121) Villaraigosa. Sesquicentennial Anniversary of California's Admission into the Union.

This measure would officially honor the sesquicentennial anniversary of California's statehood, and would encourage the people of the state to celebrate with events paying tribute to California's history.

Res. Ch. 27 (ACR 125) Villaraigosa. California Neighborhood and Community Parks Month.

This measure would proclaim the month of March 2000 as California Neighborhood and Community Parks Month, and would encourage the people of this state to reflect upon the positive benefits that our local and regional parks provide every person in California.

Res. Ch. 28 (ACR 31) Machado. National Boys and Girls Club Week.

This measure would designate April 9, 2000, through April 15, 2000, as National Boys and Girls Club Week.

Res. Ch. 29 (ACR 129) Strom-Martin. Spay Day 2000.

This measure would declare February 29, 2000, to be Spay Day, and would request that Californians observe that day by having their dogs or cats spayed or neutered or by contributing to organizations that provide spay or neuter services.

Res. Ch. 30 (ACR 43) Havice. Law Enforcement Appreciation Week.

This measure would proclaim May 14 through May 20, 2000, as Law Enforcement Appreciation Week in California and would encourage all Californians to join in this observance to commend our law enforcement officers for their professionalism and commitment to the citizens of California.

Res. Ch. 31 (ACR 95) Leonard. Federal decennial census.

This measure would request all state residents to make themselves available to be counted during the 2000 federal decennial census.

Res. Ch. 32 (ACR 108) Wayne. Parent Teacher Association Month.

This measure would designate the month of February as “Parent Teacher Association Month.”

Res. Ch. 33 (ACR 112) Torlakson. California Fitness Month.

This measure would proclaim the month of March 2000 as California Fitness Month, and would encourage all Californians to enrich their lives through proper diet and exercise.

Res. Ch. 34 (SCR 61) Alpert. California Girls and Women in Sports Week.

This measure would recognize female athletes, coaches, officials, and sports administrators for their important contribution in promoting the value of sports in the achievement of full human potential and would proclaim February 6 to 12, 2000, inclusive, as California Girls and Women in Sports Week.

Res. Ch. 35 (SCR 69) Chesbro. Adult education.

This measure would designate the week of March 6 through March 10, 2000, as California Adult Education Week, and would commend the administrators, teachers, classified staff, and students of California’s adult schools for their support of, and contributions to, the quality of public education in this state.

Res. Ch. 36 (ACR 83) Lempert. Civilian Women Volunteers All Wars Memorial Freeway.

This measure would designate that portion of State Highway Route 101 between the Ralston Avenue Exit in Belmont, California, to State Highway Route 92, the Civilian Women Volunteers All Wars Memorial Freeway.

The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers, consistent with signing requirements for the state highway system, showing that special designation and upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 37 (ACR 141) Cedillo. Domestic Worker Appreciation Day.

This measure would declare March 30, 2000, to be Domestic Worker Appreciation Day.

Res. Ch. 38 (SCR 4) Solis. Women’s History Month and International Women’s Day.

This measure would designate the month of March 2000 as Women’s History Month and would urge all Californians to join in the celebration of International Women’s Day on March 8, 2000.

Res. Ch. 39 (SCR 68) Monteith. Lupus Alert Day.

This measure would designate April 1, 2000, as Lupus Alert Day, and would urge all citizens to become involved in the search for a cure for this chronic and debilitating disease by supporting the Lupus Foundation of America.

Res. Ch. 40 (ACR 147) Correa. Red Cross Month.

This measure would recognize the month of March 2000 as Red Cross Month.

Res. Ch. 41 (SCR 55) Johannessen. POW Recognition Day.

This measure would designate April 9, 2000, as POW Recognition Day in California.

Res. Ch. 42 (SCR 56) Johannessen. 50th anniversary of the start of the Korean War.

This measure would commemorate the 50th anniversary of the start of the Korean War.

Res. Ch. 43 (ACR 62) Havice. Sober Graduation Month.

This measure would designate May 31, 2000, to June 30, 2000, inclusive, as Sober Graduation Month and would request Californians to join the Department of the California Highway Patrol in supporting the Sober Graduation Program.

Res. Ch. 44 (SCR 70) Burton. Senator Ken Maddy.

This measure would memorialize the late Senator Ken Maddy and would direct the Joint Committee on Rules to establish a suitable commemoration upon the grounds of the Capitol Park.

Res. Ch. 45 (ACR 44) Havice. California Peace Officers' Memorial Day.

This measure would honor California peace officers and commemorate Friday, May 5, 2000, as California Peace Officers' Memorial Day.

Res. Ch. 46 (ACR 137) Dutra. Child Internet Safety Week.

This measure would declare the first week of April 2000 as Child Internet Safety Week.

Res. Ch. 47 (ACR 154) Wesson. Safety Seat Checkup Week.

This measure would declare the week of April 2 to 8, 2000, inclusive, to be Safety Seat Checkup Week.

Res. Ch. 48 (ACR 152) Strom-Martin. California Earth Day.

This measure would declare April 22, 2000, as "California Earth Day," would reaffirm the Legislature's commitment to the fundamental principles of environmental laws, and would encourage the state's residents to promote the goals of Earth Day 2000.

Res. Ch. 49 (ACR 122) Torlakson. Mentor Appreciation Day.

This measure would designate May 1 of each year as Mentor Appreciation Day.

Res. Ch. 50 (ACR 134) Shelley. Census Day in California.

This measure would recognize April 1, 2000, as Census Day in California.

Res. Ch. 51 (ACR 124) Havice. Gold Star Mothers Week.

This measure would designate the last Monday in May, and the week following, as Gold Star Mothers Week in honor of the heroic sacrifices of our fallen men and women and of the sacrifices made by their loving parents.

Res. Ch. 52 (ACR 142) Battin. Child abuse and neglect.

This measure would acknowledge the month of April 2000, as Child Abuse Prevention Month and its concomitant "Safe At Home" Campaign as a positive effort to promote public awareness of child abuse and its prevention.

Res. Ch. 53 (ACR 143) Corbett. California Earthquake Preparedness Month.

This measure would declare the month of April to be Earthquake Preparedness Month and urge all Californians to engage in appropriate earthquake safety related activities during that month.

Res. Ch. 54 (ACR 151) Villaraigosa. Cesar E. Chavez.

This measure would recognize March 31, 2000, as the anniversary of Cesar E. Chavez's birth.

Res. Ch. 55 (SCR 57) Rainey. Missing children.

This measure would designate May 25, 2000, as Missing Children's Day and the month of May as Missing Children's Month.

Res. Ch. 56 (SCR 72) Escutia. National Arthritis Awareness Day.

This measure would declare that the Legislature understands the extent of, and sympathizes with, the severity of the impact of arthritis on California, and would recognize that Thursday, May 18, 2000, is National Arthritis Awareness Day.

Res. Ch. 57 (SJR 19) Solis. Education: federal funding.

This measure would request the President and the Congress of the United States to enact legislation that would eliminate the existing hold-harmless provisions currently in effect under the federal Title I of the federal Elementary and Secondary Education Act of 1965 and to make changes to the funding formula used by those provisions so that all children receive their fair share of funding under that act.

Res. Ch. 58 (ACR 119) Havice. Merchant Marine Remembrance Week.

This measure would designate June 12 to June 18, 2000, as Merchant Marine Remembrance Week and would encourage all Californians to join in this observance.

Res. Ch. 59 (ACR 157) Wayne. California SAFE KIDS Week.

This measure would declare the week of May 6 through May 13, 2000, as California SAFE KIDS Week, in support of the activities of the National SAFE KIDS Campaign during National SAFE KIDS Week, and would encourage Californians to participate in the state and local activities planned for the observance of that week around the theme "Get into the Game."

Res. Ch. 60 (SCR 62) Poochigian. Armenian genocide remembrance.

This measure would designate April 24, 2000, as the California Day of Remembrance of the Armenian Genocide of 1915–23.

Res. Ch. 61 (ACR 153) Davis. California Holocaust Memorial Week.

This measure would designate the week of April 30 through May 6, 2000, as California Holocaust Memorial Week, and would urge Californians to observe these days of remembrance for the victims of the Holocaust in an appropriate manner.

Res. Ch. 62 (ACR 159) Hertzberg. Israel's independence.

This measure would congratulate Israel on 52 years of statehood.

Res. Ch. 63 (ACR 123) Wayne. Stroke Awareness Month.

This measure would designate May 2000 as Stroke Awareness Month.

Res. Ch. 64 (SCR 75) Lewis. Friedreich's Ataxia Awareness Day.

This measure would proclaim May 20, 2000, as Friedreich's Ataxia Awareness Day.

Res. Ch. 65 (AJR 47) Cedillo. Ryan White CARE Act.

This measure would urge the Congress and the President of the United States to expeditiously reauthorize the Ryan White Comprehensive AIDS Resources Emergency (CARE) Act.

Res. Ch. 66 (AJR 50) Baugh. United Colors of Benetton.

This measure would condemn as inappropriate and insensitive to the families of the victims the practice by the international retail corporation, United Colors of Benetton, of glamorizing death row inmates through its advertising campaign for the purpose of selling Benetton's products. This measure would encourage the citizens of California to express to Benetton, in whatever manner they deem most effective, their opinion of the inappropriate and insensitive death row marketing campaign, and would provide for the transmittal of the resolution to the President and Vice President of the United States, to specified Senators and Representatives, to the Presidents of the United States and California Chambers of

Commerce, the Chairman of the New York Stock Exchange, and the Chairman of the Board of Benetton.

Res. Ch. 67 (AJR 39) Washington. Homelessness.

This measure would support a comprehensive national plan to end homelessness and urge the President of the United States, Congress, and other relevant federal agencies to develop and implement a comprehensive plan to end homelessness. This measure would also request the President of the United States to convene a National Commission on Homelessness to develop a comprehensive strategic plan for addressing homelessness nationwide.

Res. Ch. 68 (SCR 78) Escutia. Physical Education Week.

This measure would recognize the importance and value of a sound standards-driven physical education experience for all California pupils and proclaim the week of May 1 through May 7, 2000, as "California Physical Education Week."

Res. Ch. 69 (SJR 26) Kelley. Mission Creek and Desert Hot Springs Aquifers.

This measure would memorialize the President and the Congress of the United States to enact legislation to make available necessary funds to implement groundwater protection measures for the Mission Creek and Desert Hot Springs Aquifers.

Res. Ch. 70 (AJR 53) Jackson. Gun control.

This measure would respectfully memorialize the Congress and the President of the United States to enact commonsense gun legislation including laws that will limit handgun purchases, require background checks, reinstate a specified waiting period, require child safety locks, and ban specified weapons. This bill would also direct the Chief Clerk of the Assembly to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Res. Ch. 71 (ACR 161) Nakano. Asian and Pacific Islander American Heritage Month.

This measure would commend Asian and Pacific Islander Americans for their accomplishments and service to the state, and would recognize May 2000 as Asian and Pacific Islander American Heritage Month.

Res. Ch. 72 (AJR 54) Alquist. East Timorese refugees.

This measure would request the President and the Congress of the United States to employ diplomatic and other resources to persuade the Indonesian government to expedite the return of all East Timorese refugees in Indonesia who wish to return home.

Res. Ch. 73 (ACR 130) Havice. School crossing guards.

This measure would designate the week of September 4, 2000, as "School Crossing Guards Week."

Res. Ch. 74 (ACR 158) Reyes. Cinco de Mayo.

This measure would call on the people of California to join in celebrating Cinco de Mayo, the historic date of May 5, 1862, as a day to honor the valiant spirit of the brave Mexicanos who defended the town of Puebla and the Mexican Americans of today who have fought and died for the freedom of the United States of America and would declare the week of May 1 through May 7 as Cinco de Mayo Week.

Res. Ch. 75 (SCR 81) Karnette. Day of the Teacher.

This measure would proclaim May 10, 2000, to be Day of the Teacher and would urge Californians to observe that day.

Res. Ch. 76 (AJR 55) Runner. Hemophilia relief.

This measure would memorialize the President and Congress of the United States to fully fund the Ricky Ray Hemophilia Relief Fund, and would urge the President and Congress of the United States to withhold the appropriation of funds to programs that have not clearly disclosed to the consumer the risks of infection for a product the program manufactures or distributes.

Res. Ch. 77 (ACR 131) Villaraigosa. Mattel Children's Hospital.

This measure would declare the Mattel Children's Hospital at the University of California, Los Angeles, to be one of the preeminent children's hospitals in the United States.

Res. Ch. 78 (ACR 128) Machado. California Veterans Day: November 11, 2000.

This measure would designate November 11, 2000, as California Veterans Day, 2000, to promote the recognition and appreciation of the great service and sacrifices made by California's veterans in order to secure our liberty.

Res. Ch. 79 (ACR 144) Ducheny. Veterans Week.

This measure would designate the week of November 5 to November 11, inclusive, of each year as "Veterans Week."

Res. Ch. 80 (ACR 155) Maddox. End of Vietnam Conflict.

This measure would commemorate the 25th anniversary of the end of the Vietnam Conflict and the many extraordinary contributions to American society made by Vietnamese-Americans, and would urge all Californians to participate in appropriate observances of these events.

Res. Ch. 81 (AJR 43) Alquist. Bone and Joint Health Decade: musculoskeletal conditions.

This measure would designate the years 2000 to 2010 as the Bone and Joint Health Decade.

This measure would memorialize the President and Congress of the United States to support the Bone and Joint Health Decade to reduce the suffering caused by bone and joint diseases and promote research in the area.

Res. Ch. 82 (AJR 64) Kuehl. Islamic Republic of Iran: show trials.

This measure would condemn the arrest and show trials of 13 Jewish men and boys of Shiraz and Isfahan, urge the government of the United States to take all possible diplomatic, political, and economic measures to protest the show trials, including refusing to resume diplomatic relations with Iran, and would urge the Islamic Republic of Iran to impose no punishment or penalty on the 13 Jews, and to immediately and unconditionally release them.

Res. Ch. 83 (ACA 12) Papan. Legislature: retirement.

Existing law provides that Members of the Legislature elected or serving after November 1, 1990, shall participate only in the federal Social Security System and in no other pension or retirement program.

This measure would authorize those members to elect also to participate in the Public Employees' Retirement System.

Res. Ch. 84 (SCR 73) Vasconcellos. California Science and Technology Week.

This measure would designate the 2nd week in November, commencing in the year 2000, and every year thereafter, as California Science and Technology Week.

Res. Ch. 85 (SCR 80) Speier. Prostate Cancer Awareness Month.

This measure would proclaim the month of June 2000 as Prostate Cancer Awareness Month.

NOTE: Superior numbers appear as a separate section at the end of the digests.

Res. Ch. 86 (ACR 136) Oller. American flag.

This measure would encourage all homeowner associations and landlords to obey the law and allow residents and tenants to exercise their lawful right to display the flag of the United States.

Res. Ch. 87 (AJR 40) Wildman. Special education: federal funding.

This measure would memorialize the President and Congress of the United States to provide the full federal share of funding for special education programs to the states so that this state and other states will not be required to take funding from other vital state and local programs to fund this underfunded federal mandate.

Res. Ch. 88 (AJR 59) Cox. Sacramento airports.

This measure would memorialize the President and the Congress to take whatever measures are appropriate and necessary to facilitate the designation of Sacramento County International Airport and Mather Airport as a Port of Entry, and pursue the locating of customs, immigration, and agricultural services at those airports.

Res. Ch. 89 (ACR 97) Oller. Mission bell: Capitol Park.

This measure would request the Department of General Services to place a mission bell historic trail marker and mission bell in the vicinity of the monument to Father Junipero Serra in Capitol Park, together with a plaque recognizing the efforts of the California Federation of Women's Clubs (CFWC) in restoring the mission bells throughout the state and the contributions of the Sutter District of the CFWC to obtain the placement of a mission bell historic trail marker and mission bell in Capitol Park.

Res. Ch. 90 (ACR 166) Cox. Fibromyalgia Awareness Month.

This measure would declare June 2000 to be Fibromyalgia Awareness Month, and would encourage the observance of this event in communities throughout the state.

Res. Ch. 91 (SCR 77) Hughes. School safety.

Existing law and the California Constitution set forth various provisions relating to school safety.

This measure would designate October 2000 as School Safety Month and the week of January 15 to 19, 2001, inclusive, as Yellow Ribbon Week.

Res. Ch. 92 (SCR 79) Escutia. Stroke Awareness Month.

This measure would designate May 2000 as Stroke Awareness Month.

Res. Ch. 93 (ACR 110) Leonard. CHP Officer Reuben F. Rios, Sr., Memorial Freeway.

This measure would designate a prescribed segment of the northbound and southbound portions of Interstate Highway Route 15 as the "CHP Officer Reuben F. Rios, Sr., Memorial Freeway." The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers designating that specified portion of Interstate Highway Route 15 and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 94 (ACR 115) Nakano. Los Angeles County Vietnam Veterans Memorial Highway.

This measure would designate that portion of State Highway Route 1 located in Los Angeles County as the "Los Angeles County Vietnam Veterans Memorial Highway." The measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving

donations from nonstate sources covering that cost, to erect those plaques and markers and signs.

Res. Ch. 95 (ACR 138) Oller. CHP Officer Glenn Carlson Memorial Bypass.

This measure would designate the State Highway Route 267 bypass as the CHP Officer Glenn Carlson Memorial Bypass. The measure would also request that the Department of Transportation determine the cost of appropriate plaques and markers, consistent with the signing requirements of the state highway system, showing this designation, and upon receiving donations from nonstate sources, to erect those plaques and markers.

Res. Ch. 96 (ACR 140) House. Agua Fria Historical Monument.

This measure would request the Department of Transportation to grant, without charge, an encroachment permit authorizing an appropriate historical monument and plaque dedicated to the community of Agua Fria to be placed within the right-of-way of State Highway Route 140, in Mariposa County, at a site that is located near the junction of State Highway Route 140 and Agua Fria Road.

Res. Ch. 97 (ACR 149) Aanestad. Post No. 1747 of the Veterans of Foreign Wars of the United States Memorial Highway.

This measure would designate a specified portion of State Highway Route 70 the Post No. 1747 Veterans of Foreign Wars of the United States Memorial Highway.

The measure would request the Department of Transportation to determine the cost of erecting appropriate signs or markers, designating that specified portion of State Highway Route 70 the Post No. 1747 Veterans of Foreign Wars of the United States Memorial Highway, and, upon receiving donations from nonstate sources covering that cost, to erect those signs or markers.

Res. Ch. 98 (ACR 150) Aanestad. Blue Star Memorial Highway.

This measure would request the Department of Transportation to grant to the Kelly Ridge Garden Club of California Garden Clubs, Inc., without charge, an encroachment permit that will authorize an appropriate marker to be placed at the roadside rest stop on scenic State Highway Route 70 by the Feather River in Belden, California.

The measure would also designate the portion of State Highway Route 70, between the Cities of Marysville and Hallelujah Junction, as a Blue Star Memorial Highway.

The measure would request the department to erect appropriate plaques and markers, consistent with signing requirements for the state highway system, showing that special designation upon receiving donations that have been previously collected from nonstate sources covering that cost.

Res. Ch. 99 (ACR 168) Ashburn. Valley Fever Awareness Month.

This measure would proclaim August 2000 as Valley Fever Awareness Month.

Res. Ch. 100 (AJR 45) Longville. Export facilitation: commercial satellites.

This measure would memorialize the President and Congress of the United States to review the backlog in the licensing process for the export of satellites, launch vehicles, their components and related technical information and dedicate adequate resources to address any problems in order to ensure that the space industry maintains its competitive position in the informational marketplace.

Res. Ch. 101 (AJR 46) Longville. Commercial space transportation: federal indemnification.

This measure would memorialize the President and the Congress of the United States to protect the leadership role our state and nation have in the commercial launching of private

sector satellites and to ensure continued growth in market share by continuing federal indemnification of licensed launches and reentries until January 1, 2006.

Res. Ch. 102 (AJR 58) Firebaugh. Brownfield sites cleanup.

This measure would memorialize the President and the Congress of the United States to authorize the use of tax-exempt private activity bonds to finance the assessment, acquisition, and remediation of brownfield sites.

Res. Ch. 103 (ACR 98) Baugh. U.S. Submarine Veterans of WWII Memorial Highway.

This measure would designate a specified portion of State Highway Route 1 between Long Beach and Huntington Beach as the U.S. Submarine Veterans of WWII Memorial Highway.

The measure would request the Department of Transportation to determine the cost of erecting appropriate signs or markers showing that special designation, and, upon receiving donations from nonstate sources covering that cost, to erect those signs or markers.

Res. Ch. 104 (ACR 133) Torlakson. Traffic congestion.

This measure would request the Department of the California Highway Patrol to organize a California Traffic Relief Panel, consisting of the Commissioner of the California Highway Patrol, as Chair, the Chair of the Senate Committee on Transportation, the Chair of the Assembly Committee on Transportation, the Director of Transportation, a representative of a Certified Unified Program Agency selected by the Commissioner of the California Highway Patrol, a representative of a congestion management agency selected by the Commissioner of the California Highway Patrol, a representative of a regional transportation planning agency selected by the Commissioner of the California Highway Patrol, a representative of an air quality management district selected by the Commissioner of the California Highway Patrol, and, when conducting symposiums in northern California, as specified, a representative of the California State Automobile Association, and, when conducting symposiums in southern California, as specified, a representative of the Automobile Club of Southern California to conduct a series of townhall symposiums to identify local traffic congestion problems and solutions.

Res. Ch. 105 (SCR 58) Kelley. Doctor June McCarroll Memorial Freeway.

This measure would dedicate the portion of Interstate Highway Route 10 near Indio in Riverside County between the Jefferson Street and Indio Boulevard interchange and the junction with State Highway Route 86 to the memory of Doctor June McCarroll, and would specify that this portion of Interstate Highway Route 10 shall be known as the "Doctor June McCarroll Memorial Freeway." This measure also would request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 106 (ACR 61) Alquist. Extended Opportunity Programs and Services (EOPS).

This measure would commend the staff, students, and community supporters of the EOPS program of the California Community Colleges on its 30th anniversary and the Cooperative Agencies Resources for Education (CARE) program on its 17th year of operation.

Res. Ch. 107 (ACR 105) Havice. Red Ribbon Week.

This measure would proclaim October 23 through October 31, 2000, as Red Ribbon Week and would encourage all Californians to help build drug-free communities.

Res. Ch. 108 (ACR 106) Battin. Senator David G. Kelley Highway.

This measure would, on and after the date on which David G. Kelley ceases his service in the Legislature, designate the portion of State Highway Route 86 that is between 82nd Avenue and 66th Avenue in the County of Riverside as the Senator David G. Kelley Highway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost and upon the designation of that highway, to erect appropriate plaques and markers.

Res. Ch. 109 (ACR 117) Machado. Neighborhood Watch Month.

This measure would designate the month of August 2000 as Neighborhood Watch Month.

Res. Ch. 110 (ACR 163) House. Lane usage: Department of the California Highway Patrol.

This measure would urge the Department of the California Highway Patrol to pursue, on a high priority basis, the enforcement of all the laws relating to proper use of lanes by large commercial vehicles and other restricted vehicles and would direct the department to provide an estimate, by January 15, 2001, of the uniformed field strength of officers that the department needs to effectively accomplish the enforcement of these laws.

Res. Ch. 111 (ACR 170) Maldonado. Salmon and Steelhead Awareness Month.

This measure would declare October of each year Salmon and Steelhead Awareness Month, commencing October 2000.

Res. Ch. 112 (AJR 62) Honda. Law Enforcement Protection and Tribal Courts: California Indian tribes.

This measure requests the expeditious appropriation and allocation of adequate funding for California tribal governments for the planning, establishment, and ongoing operation of tribal law enforcement and judicial systems in California, in order to ensure that per capita spending for California tribes at least equals the national average per capita funding for tribal law enforcement and judicial systems outside of California.

Res. Ch. 113 (AJR 65) Scott. NASA: Budget for fiscal year 2001.

This measure would commend the actions of the members of the United States House of Representatives from California to restore full programming for the National Aeronautics and Space Administration (NASA) for fiscal year 2001 and would strongly encourage all members of the United States Congress to actively support NASA funding for fiscal year 2001 in an amount sufficient to fully support and sustain scheduled projects.

Res. Ch. 114 (SCR 60) Rainey. Officer John Paul Monego Memorial Freeway.

This measure would designate that portion of Interstate Highway Route 680 between Alcosta Boulevard and the intersection with Interstate Highway Route 580 the "Officer John Paul Monego Memorial Freeway."

This measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing that special designation, and, upon receiving donations from nonstate sources sufficient to cover that cost, to erect those plaques and markers.

Res. Ch. 115 (SCR 90) Chesbro. Local Health Center Week.

This measure would proclaim the week of August 20 to August 26, 2000, as Local Health Center Week in Mendocino and Lake Counties.

Res. Ch. 116 (SJR 25) Solis. Filipino veterans of World War II: veterans' benefits.

This measure would memorialize the President and the Congress of the United States to take action necessary to honor our country's moral obligation to provide Filipino veterans with the military benefits that they deserve, including, but not limited to, holding related hearings, and acting favorably on legislation pertaining to the granting of full veterans' benefits to Filipino veterans of the United States Armed Forces.

Res. Ch. 117 (SJR 32) Haynes. Telephone Tax Repeal.

This measure would urge the United States Senate to swiftly pass, and the President to sign, the Phone Tax Repeal Act.

Res. Ch. 118 (ACR 109) Cardenas. Election voting information.

This measure would request the County Clerk or elections official of each county in California, on or before December 18, 2000, to prepare and submit a report to the Secretary of State summarizing specified information on the number of voters casting ballots during each hour that the polls are open at the November 7, 2000, general election. This measure would request the Secretary of State to compile this information and report to the Legislature.

Res. Ch. 119 (ACR 132) Firebaugh. California Phase 3 Reformulated Gasoline.

This measure would urge the State Air Resources Board to conduct public hearings in the Los Angeles Air Basin and in the San Francisco East Bay Area to discuss the impacts that the California Phase 3 Reformulated Gasoline regulations may have on air quality, public health, and on the price and supply of gasoline, and to receive public input regarding the proposed regulations.

Res. Ch. 120 (ACR 139) Oller. John C. Begovich Memorial Highway.

This measure would designate a portion of State Highway Route 49, as prescribed, as the John C. Begovich Memorial Highway. The measure request that the Department of Transportation determine the cost of appropriate plaques and markers showing this designation and upon receiving donations from nonstate sources, to erect those plaques and markers.

Res. Ch. 121 (AJR 42) Alquist. Relative to Medicare prescription drug benefit.

This measure would memorialize Congress to enact and implement the Voluntary Medicare Prescription-Drug Benefit contained in the President's Fiscal Year 2001 Budget.

Res. Ch. 122 (ACR 135) Wesson. State employee merit awards.

This measure would request that merit award payments, authorized by the Department of Personnel Administration, be made to specified individuals whose proposals have resulted in annual savings and net revenue gain to the state.

Res. Ch. 123 (ACR 145) Cardenas. Diabetes Awareness Month.

This measure would designate November 2000 as Diabetes Awareness Month.

Res. Ch. 124 (ACR 165) Thompson. Ronald Packard Parkway.

This measure would designate a specified portion of State Highway Route 78 as the "Ronald Packard Parkway." The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers so designating that portion of State Highway Route 78 and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 125 (ACR 172) Havice. Schools: pedestrian safety.

This measure would designate October 4, 2000, as Walk to School Day 2000 and would encourage all Californians to actively participate and promote pedestrian safety, education, and a healthy lifestyle.

Res. Ch. 126 (ACR 181) Hertzberg. California History Month.

This measure would designate the month of September as California History Month.

Res. Ch. 127 (AJR 56) Longville. Daylight saving time.

This measure would memorialize the President and the Congress to enact legislation to allow states the opportunity to choose year-round daylight saving time, in addition to standard time or the current system of “traditional” daylight saving time.

Res. Ch. 128 (AJR 57) Longville. High-level radioactive waste and spent nuclear fuel: transportation.

This measure would memorialize the President and the Congress to take appropriate action necessary to direct the United States Department of Energy not to transport shipments of high-level radioactive waste and spent nuclear fuel from other states through California to the proposed Yucca Mountain repository and, with regard to high-level radioactive waste and spent nuclear fuel originating in the state, to create appropriate procedures to minimize the risk of an accident and to provide emergency response assistance to local communities.

Res. Ch. 129 (AJR 67) Papan. Disaster relief: insurance requirements.

This measure would urge the Congress of the United States to direct the Federal Emergency Management Agency not to proceed with its proposed public assistance insurance requirements, or to modify its proposed regulations, as specified.

Res. Ch. 130 (SCR 71) Hayden. Salmon resources.

This measure would request the Department of Fish and Game to evaluate and report to the Legislature the full range of environmental impacts and potential benefits of salmon farming, including, but not limited to, changes in local habitat, increased concentration of disease-causing organisms, potential damage to the genetic diversity of targeted organisms, reduced impacts on harvesting wild stocks, and the beneficial traits that may enhance the long-term sustainability of our wild salmon resource. The measure would also request the National Marine Fisheries Service to ensure that proper environmental assessments are completed and that transgenic salmon are prevented from threatening wild stocks of salmon.

Res. Ch. 131 (SCR 76) Vasconcellos. Elias Cortez and the Department of Information Technology staff.

This measure would commend, congratulate, and express gratitude to Elias Cortez, the Director of Information and Technology, and his staff for his and their profound, critical, and lasting contribution to the continued well-being of our state and our citizens. The measure would encourage Mr. Cortez to direct his talents, wisdom, knowledge, collaborative nature, and dedicated staff toward the challenges that the state and the people of California face as the state ventures further into the age of information technology.

Res. Ch. 132 (SCR 88) Alpert. Education Master Plan.

This measure would continue the existing Joint Committee to Develop a Master Plan for Education—Kindergarten through University until November 30, 2002.

Res. Ch. 133 (SCR 89) Vasconcellos. Office of Student Regent of the University of California.

This measure would recognize, commend, and celebrate the contributions of the Office of Student Regent of the University of California and the 26 students who have held that office. The measure would commend the University of California for its commitment to the inclusion of students as equal partners in the shared governance of the university.

Res. Ch. 134 (SCR 92) Haynes. Riverside County Deputy Sheriff Eric Andrew Thach Memorial Freeway.

This measure would designate the portion of State Highway Route 215 between Murrieta Hot Springs Road and McCall Boulevard in the County of Riverside as the Riverside County Deputy Sheriff Eric Andrew Thach Memorial Freeway.

The measure would also request the Department of Transportation to determine the cost of appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 135 (SCR 97) Burton. Alfred Zampa Memorial Bridge.

This measure would designate the westbound span of the Carquinez Bridge as the Alfred Zampa Memorial Bridge in honor and recognition of Alfred "Al" Zampa. The measure also would request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 136 (SJR 27) Polanco. California-Latin America air service.

This measure would request that the federal government assure the State of California that the next air transport agreements between the United States and Brazil and Argentina include direct, nonstop service between California and those countries.

Res. Ch. 137 (SJR 34) Perata. Home Front National Historic Park.

This measure would request the Congress and the President of the United States to enact legislation that would establish the Rosie the Riveter/World War II Home Front National Historical Park.

Res. Ch. 138 (ACR 8) Battin. California Hispanic Heritage Month.

This measure would declare September 15 to October 15, 2000, to be California Hispanic Heritage Month, and would encourage the observance of this event in communities throughout the state.

Res. Ch. 139 (ACR 156) Frusetta. Television violence.

This measure would urge the entertainment industry to think seriously about the impact that violence has on the healthy development of children.

Res. Ch. 140 (ACR 160) Ducheny. California Children's Day.

This bill would proclaim the 3rd Sunday in September as California Children's Day and encourage observance of that day by having adults spend time with children in specified activities.

Res. Ch. 141 (ACR 162) House. Pearl Harbor.

This measure commemorates Americans who gave their lives or were wounded in the attack on Pearl Harbor during World War II.

Res. Ch. 142 (ACR 173) Olberg. CHP Officer Larry J. Jaramillo Memorial.

This measure would request the Department of Transportation to grant, without charge, encroachment permits authorizing appropriate memorials, funded by nonstate sources, to be placed within the rights-of-way of northbound and southbound State Highway Route 395 at milepost marker 66.0 to honor California Highway Patrol Officer Larry J. Jaramillo.

Res. Ch. 143 (ACR 174) Olberg. CHP Officer Kenneth L. Archer and Officer Robert G. Carey Memorial.

The measure would request the Department of Transportation to grant, without charge, encroachment permits authorizing appropriate memorials, funded by nonstate sources, to be placed within the rights-of-way of State Highway Route 58 at milepost marker 18.3 to honor the memory of California Highway Patrol Officers Archer and Carey.

Res. Ch. 144 (ACR 175) Campbell. California Family Month.

This measure would recognize November 2000 as California Family Month.

Res. Ch. 145 (ACR 177) Honda. Confucius Day.

This resolution would designate September 28, of each year as Confucius Day, and on that day the state would recognize and honor teachers for their dedication and hard work.

Res. Ch. 146 (ACR 179) Torlakson. California State University.

This measure would request the Trustees of the California State University to conduct a thorough and comprehensive study of the educational needs of Alameda and Contra Costa Counties, including consideration of the expansion of programs and services, and the need for establishing a separate university at the Contra Costa campus of the California State University, Hayward. The measure also would request the trustees to conduct a needs assessment for the expansion of programs and services at that campus, including the specific elements required by the California Postsecondary Education Commission. The measure would request that the needs assessment incorporate a detailed survey including, among other things, a population projection, industry and income profiles, and an analysis of the educational needs of the area served by the Contra Costa campus. The measure would also request that the trustees review the results of the needs assessment and survey and forward the results of that review by May 1, 2001, to the California Postsecondary Education Commission for review.

Res. Ch. 147 (ACR 180) Cardoza. CHP Officers Walter Frago and Roger Gore, Memorial Freeway.

This measure would designate a prescribed section of State Highway Route 99 as the "CHP Officer Walter Frago and Roger Gore Memorial Freeway." The measure would request the Department of Transportation to determine the cost of appropriate plaques and markers designating that specified section of State Highway Route 99 and, upon receiving donations from nonstate sources covering that cost, to erect appropriate plaques and markers.

Res. Ch. 148 (ACR 183) Firebaugh. Jalisco, Mexico: sister state relationship/Relación de hermandad con el Estado de Jalisco, México.

This measure would extend an invitation to the people of the State of Jalisco, Mexico, to join with California in a sister state relationship/relación de hermandad con el Estado de Jalisco, México.

Res. Ch. 149 (ACR 184) Hertzberg. Demonstration Projects under the State Children's Health Insurance Program.

This measure would urge the Managed Risk Medical Insurance Board to apply for a demonstration project under the State Children's Health Insurance Program.

Res. Ch. 150 (ACR 185) Battin. Native American tribal rights.

This measure would reaffirm state recognition of the sovereign status of federally recognized Indian tribes as separate and independent political communities within the United States, encourage all state agencies, when engaging in activities or developing policies affecting Native American tribal rights or trust resources, to do so in a knowledgeable, sensitive manner that is respectful of tribal sovereignty, and encourage all state agencies to continue to reevaluate and improve the implementation of laws affecting Native American tribal rights.

Res. Ch. 151 (AJR 49) Bock. Filipino veterans of the United States Armed Forces: full benefits.

This measure would memorialize the President and the Congress of the United States during the Second Session of the 106th Congress to take action necessary to grant full veterans benefits to Filipino veterans of the United States Armed Forces.

Res. Ch. 152 (AJR 69) Aanestad. National forest lands.

This measure would request that the United States Forest Service and other federal land management agencies implement a cohesive strategy to reduce the overabundance of forest fuels and would request the United States Departments of Agriculture and Interior to immediately draft a national prescribed fire strategy for public lands.

Res. Ch. 153 (AJR 77) Keeley. Electricity rates.

This measure would direct the Electricity Oversight Board, working with the Public Utilities Commission, to petition the Federal Energy Regulatory Commission to modify the Independent System Operator tariffs to require that the prices in the energy and ancillary services markets are just and reasonable, as prescribed. The measure would require the Public Utilities Commission, in consultation with the board, to investigate the most effective mechanisms to protect consumers from price volatility, energy exports, and unreasonably high prices caused by an uncompetitive market. The measure would direct the commission, by September 21, 2000, to issue a prescribed order.

Res. Ch. 154 (SCR 82) Chesbro. California State University.

This measure would request the Trustees of the California State University to conduct an initial needs analysis with respect to the possible establishment of joint and collaborative programs in Crescent City utilizing the existing facilities of the College of the Redwoods, and the purpose of which would be to continue to offer education programs at the upper division and graduate levels.

Res. Ch. 155 (SCR 85) Chesbro. Jeffrey Lynn Azuar Memorial Highway.

This measure would designate the section of Interstate Highway Route 80 that passes through Vallejo, from the Carquinez Bridge to Columbus Parkway, the Jeffrey Lynn Azuar Memorial Highway. The measure also would request the Department of Transportation to determine the cost for appropriate plaques and markers showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those plaques and markers.

Res. Ch. 156 (SCR 91) Polanco. Joint Legislative Committee on Prison Construction and Operations.

This measure would reestablish the Joint Legislative Committee on Prison Construction and Operations to assume primary responsibility for providing legislative scrutiny over prison construction and operations, including investigation of inmate population management issues.

Res. Ch. 157 (SCR 94) Vasconcellos. Former California Congressman Norman Y. Mineta.

This measure would honor former California Congressman Norman Y. Mineta for his long and distinguished record of public service and professional achievement and congratulate him on his recent appointment by President Clinton to become Secretary of Commerce for the United States of America.

Res. Ch. 158 (SCR 96) Karnette. Intermodal freight access.

This measure would request the Department of Transportation, in cooperation with the Business, Transportation and Housing Agency, the Trade and Commerce Agency, the California Transportation Commission, and other appropriate parties, to prepare a proposal for a "Global Gateways Development Program" to enhance intermodal freight access. The

measure would further encourage the department to consult and utilize information compiled by the California Transportation Commission, among other sources, in response to a specified resolution of the Senate, and would request a progress report and a final report to the Legislature.

Res. Ch. 159 (SCR 98) Ortiz. Joe Serna, Jr. Building.

This measure would concur with the Sacramento City Council in officially dedicating the City of Sacramento building located at 1001 I Street in Sacramento as the “Joe Serna, Jr. Building” in memory of Sacramento’s late mayor.

Res. Ch. 160 (SCR 99) Brulte. Sonny Bono Memorial Interchange.

This measure would designate the Nason Street Interchange as the Sonny Bono Memorial Interchange in honor and recognition of Sonny Bono. The measure also would request the Department of Transportation to determine the cost for appropriate signs showing this special designation and, upon receiving donations from nonstate sources covering that cost, to erect those signs.

Res. Ch. 161 (SCR 100) Chesbro. Americans with Disabilities Act.

This measure would recognize the 10th anniversary of the Americans with Disabilities Act.

Res. Ch. 162 (SJR 30) Speier. Federal Pain Relief Promotion Act.

This measure would urge the defeat by Congress or the veto of the President of the proposed federal Pain Relief Promotion Act.

Res. Ch. 163 (SJR 31) Figueroa. Blood centers: reimbursement.

This measure would request the Governor to urge the federal government to ensure that adequate reimbursement measures be implemented for all mandated safety initiatives imposed on blood centers.

Res. Ch. 164 (SJR 35) Knight. National Training Center: Fort Irwin, California: Land Acquisition Project.

This measure would memorialize Congress and the President to act promptly with regard to the expansion of the National Training Center at Fort Irwin, California.

Res. Ch. 165 (SJR 38) Costa. Importation of Argentine citrus.

This measure would memorialize the federal government to approve legislation that would prohibit implementation of a rule permitting importation of citrus from specified regions of Argentina, pending review and risk assessment.

Res. Ch. 166 (SJR 39) Knight. Air quality: East Kern County.

This measure would support the State Air Resources Board’s proposal to exclude east Kern County from the San Joaquin Planning Area for air quality purposes.

2000 DIGEST CHAPTERS SUPERIOR NUMBERS

1 [Ch. 52] I object to the following appropriations contained in Assembly Bill 1740.

Item 0450-101-0932—For local assistance, State Trial Court Funding. I am deleting Provisions 6 and 9.

I am deleting Provision 6, which would require that any funds for salary increases for trial court judicial officers only be distributed to those trial courts that are unified to the fullest extent of the law.

I am also deleting Provision 9, which would require that funding for new trial court judicial officers shall be provided to those courts that are unified to the fullest extent of the law.

The 56th and final eligible county has recently unified, and this language is no longer necessary.

Item 0505-001-0001—For support of Department of Information Technology. I delete Provision 2.

I am deleting Provision 2 which would require \$500,000 of the funds appropriated in this item to be used to conduct a study that will research, analyze, and report on the lack of access to advanced technologies among low-income and minority communities, otherwise known as the “digital divide”. While a study of this issue may be meritorious, I am deleting this language because when it was added, \$500,000 was available for this purpose. However, this item no longer contains resources for this study. Additionally, several national studies have been conducted on this issue.

Item 0505-101-0001—For local assistance, Department of Information Technology. I reduce this item from \$190,000 to \$150,000 by deleting:

(a) Sacramento Police Department—Racial Profiling Technology (\$40,000)

Consistent with my action in Item 2720-101-0001, which provides \$5,000,000 for grants to local law enforcement agencies that collect racial profiling data, I am deleting the \$40,000 legislative augmentation to the Sacramento Police Department for Racial Profiling Technology. Since it is my intention that the grant funds be used to offset a portion of local agency costs to report data to the Highway Patrol, the additional funding provided in this item is unnecessary.

Item 0530-001-0001—For support of Secretary for California Health and Human Services Agency. I reduce this item from \$2,274,000 to \$1,874,000 by reducing:

(a) 10-Secretary for California Health and Human Services Agency from \$3,272,000 to \$2,872,000,

and by revising Provision 1.

I am deleting \$400,000 and 0.9 personnel years of the \$600,000 and 0.9 personnel years legislative augmentation to implement Chapter 990, Statutes of 1999 (SB 480) and conduct a study regarding universal health care coverage options. While these resources were added for the purpose of conducting an additional study, Chapter 990 does not require such a study. Instead, Chapter 990 requires the Agency to examine and use the results of an existing University of California study, meet with interested parties, and report back to the Legislature on options regarding universal health care coverage. Given that Chapter 990 contained no appropriation and requires no additional study, \$200,000 is sufficient funding for the Agency to complete the required tasks.

I am revising the language in the item to conform to this action.

“1. Of the amount appropriated in this item, ~~\$500,000~~ \$200,000 shall be used to ~~conduct a study pursuant to Division 25 (commencing with Section 25000) of the Welfare and Institutions Code,~~ to develop options for achieving universal health care coverage. The Secretary of the California Health and Human Services Agency may utilize an interagency agreement, or conduct a competi-

tive process, for allocating all or any portion of these funds. These funds may be leveraged to obtain additional federal funds, grant moneys or foundation assistance, including in-kind support. It is the intent of the Legislature for the Secretary to utilize recommendations as contained in the report prepared by the Universal Health Care Technical Advisory Committee, dated April 2000, where applicable and deemed appropriate by the Secretary.”

Item 0540-001-0001—For support of Secretary for Resources. I reduce this item from \$11,781,000 to \$7,781,000 by reducing:

(a) 10-Administration of Resources Agency from \$13,673,000 to \$9,673,000 and revising Provision 1.

I am reducing the \$8,000,000 legislative augmentation by \$4,000,000 for projects associated with removing the Auburn Dam diversion tunnel. While I am supportive of restoring the American River, closure of the tunnel is primarily a federal responsibility. It is premature to fully fund a state contribution toward the closure until the federal government has made clear its plans for and commitment to restoration of the river.

I am revising Provision 1 as follows:

“1. Of the funds appropriated in this item, ~~\$8,000,000~~ \$4,000,000 may be allocated by the Secretary for Resources for the joint restoration, with the U.S. Bureau of Reclamation, of the natural stream channel of the North Fork of the American River to its previous free-flowing condition, in conjunction with the U.S. Bureau of Reclamation’s closure of the Auburn Dam diversion tunnel for the purpose of restoring navigable flows and installation of a permanent, midchannel instream diversion and a pumping station for the Placer County Water Agency. Notwithstanding any other provision of law, these funds shall be available for expenditure during the 2000–01, 2001–02, and 2002–03 fiscal years.”

Item 0540-101-0001—For local assistance, Secretary for Resources. I reduce this item from \$4,007,000 to \$3,397,000 by revising:

- (2) Special Projects (Baldwin Hills) from \$860,000 to \$250,000 by deleting:
 (b) Baldwin Hills Conservancy (100,000); and
 (c) Baldwin Hills Planning Fund (510,000).

I am deleting the legislative augmentation of \$610,000 for these two projects. I have sustained \$250,000 for support of the Baldwin Hills Conservancy if it is created by legislation during the 1999–2000 Regular Session.

Item 0540-102-0005—For local assistance, Secretary for Resources. I deleted this item.

These legislative augmentations would over subscribe the allocation to the Resources Agency from the 2000 Safe Neighborhood Parks, Clean Water, Clean Air and Coastal Protection Bond Fund. Specifically, I am deleting the funding for all of the projects related to the San Gabriel and Lower Los Angeles River and Mountains area (sub-schedules (l), (m), (n) and (o) because, while these projects are meritorious, funding for these projects is premature. The newly established San Gabriel and Lower Los Angeles River and Mountains Conservancy has not yet had an opportunity to develop an implementation plan of priority projects for the region. Further, I believe it is important that project selection include community participation in order to keep faith with the voters to allow community groups to have a role in project selection.

Item 0552-001-0001—For support of Office of the Inspector General. I reduce this item from \$10,348,000 to \$10,248,000 and delete Provision 1.

I am deleting the \$100,000 legislative augmentation to contract with independent social science researchers to study the incidence of violence in State prisons and Youth Authority institutions in order to fund higher competing priorities.

I am deleting Provision 1 to conform to this action.

Item 0555-001-0001—For support of Secretary for Environmental Protection. I reduce this item from \$4,477,000 to \$4,177,000.

I am deleting the \$300,000 legislative augmentation for the California Border Environmental Education Program. This augmentation would provide technical assistance and training for government officials and community-based organizations on environmental issues at the Mexican border, and fund minor capital outlay projects for emergency situations. The Administration's California-Mexico Border Initiative already provides \$2.8 million to address environmental pollution at the Mexican border, including approximately \$306,000 for technical assistance and training.

Item 0555-001-0028—For support of Secretary for Environmental Protection. I delete this item.

I am deleting the \$700,000 legislative augmentation to develop and implement a geographical information management system for Unified Program data tracking. I believe it would be premature to fund this information technology project prior to an approved feasibility study report. If a feasibility study for a geographical information management system is completed and approved, funding for development and implementation costs could be considered in a future budget.

I am deleting Provision 1 to conform to this action.

Item 0555-001-0044—For support of Secretary for Environmental Protection. I revise this item by reducing:

(b) 20-Special Environmental Programs from (\$5,424,000) to (\$4,724,000);

(4) 20.25-Information Technology from \$746,000 to \$46,000;

(d) Amount payable from the General Fund (Item 0555-001-0001) from -\$4,477,000 to -\$4,177,000;

and by deleting:

(bx) 20.55-California Border Environmental Education Program (\$300,000);

(ex) Amount payable from the Unified Program Account (Item 0555-001-0028) (\$700,000).

I am revising this item to conform to the actions taken in Items 0555-001-0001 and 0555-001-0028.

Item 0650-011-0001—For support of the Office of the Secretary for Education. I reduce this item from \$6,453,000 to \$6,273,000 by reducing:

(a) Office of the Secretary for Education from \$6,463,000 to \$6,283,000.

I am reducing this item by \$180,000 and two positions which I proposed to support the expansion of the Academic Volunteer and Mentor Service Program. The expansion of the Program was not supported by the Legislature; thus these positions are no longer necessary.

Item 0690-103-0001—For support of the Office of Emergency Services. I reduce this item from \$7,685,350 to \$6,935,350 and revise Provision 1.

I am deleting funding for the East County Fire Protection District's fire rescue equipment. I am also reducing the appropriation for the San Mateo County emergency shelter facility from \$500,000 to \$250,000. While these projects may be meritorious, I am reducing or deleting the funding for them to fund higher competing priorities. I am revising Provision 1 as follows:

"1. The funds appropriated in this item are for various grants for emergency projects or emergency equipment as follows:

(a) Hanford Fire Department: 3 automated external defibrillators	13,000
(b) City of San Diego: East County Fire Protection District fire truck	169,500
(c) East County Fire Protection District: Wildland Type III fire engine	169,850
(d) East County Fire Protection District: fire rescue equipment	500,000

(e) City of South San Francisco: San Mateo County emergency shelter facility	500,000	250,000
(f) City and County of San Francisco Offices of Emergency Services: Conversion of 911 Building into a community resource computer learning center		700,000
(g) City of Long Beach: Fire safety house and tow vehicle		63,000
(h) City of Signal Hill: Emergency operation center		250,000
(i) Walnut Grove Fire District: Fire truck		250,000
(j) Ceres Fire Department: Breathing apparatus		40,000
(k) City of Dinuba: Fire safety equipment		30,000"

Item 0750-001-0001—For support of the Office of the Lieutenant Governor. I reduce this item from \$2,571,000 to \$1,829,000.

I am deleting the \$532,000 legislative augmentation for the Commission for Economic Development. Funding for this commission was eliminated in 1995, and has not since been funded because other state agencies are now responsible for these activities.

I am reducing the legislative augmentation to establish a San Diego office by \$210,000 from \$265,000 to \$55,000. Currently, the Lt. Governor has three offices, which are located in Sacramento, Los Angeles, and Fresno. Although I believe the existing offices provide the Lt. Governor sufficient flexibility in accomplishing existing duties, I am sustaining \$55,000 for related operational needs.

Item 0845-001-0217—For support of Department of Insurance. I reduce this item from \$123,590,000 to \$122,399,000 by reducing:

(c) 20-Fraud Control from \$29,967,000 to \$28,776,000.

I am deleting the \$1,191,000 legislative augmentation for the Employment Misrepresentation Task Force. I believe there is insufficient justification for additional efforts by the Department of Insurance in this area at this time.

Item 0845-101-0217—For local assistance, Department of Insurance. I reduce this item from \$32,416,000 to \$31,903,000.

I am deleting the \$513,000 legislative augmentation for local assistance for the Employment Misrepresentation Task Force to conform to my previous action regarding Item 0845-001-0217. There is not sufficient justification for additional efforts by the Department of Insurance in this area at this time.

Item 1100-001-0001—For support of California Science Center. I revise this item by deleting Provision 2.

I am deleting Provision 2, which would require the Secretary of State and Consumer Services to represent the state's interests in any lease negotiations for Exposition Park. This provision is unnecessarily restrictive and interferes with the Executive Branch's ability to manage its programs. I also note that the state's interests are already protected by Section 4102 of the Food and Agricultural Code which provides that the California Science Center may lease, let, or grant licenses for the use of a stadium or any arena, pavilion, or other building, with the approval of the State and Consumer Services Agency. Additionally, Provision 1 of this item protects the interests of the state since it requires (1) the Director of General Services to approve any contract, permit, or lease agreement that reduces state revenues or increases state costs by \$25,000 or more, and (2) a written, 30-day notification of the intent to approve such an agreement to the Chairperson of the Joint Legislative Budget Committee.

Item 1111-002-0960—For support of the Bureau for Private Postsecondary and Vocational Education, Department of Consumer Affairs. I reduce this item from \$2,400,000 to \$400,000 by reducing:

(a) 27.30-Student Tuition Recovery Program from \$2,400,000 to \$400,000.

I am revising this item to conform to the action I have taken in Item 1111-003-0001.

Item 1111-003-0001—For transfer to the Student Tuition Recovery Fund. I delete this item and Provisions 1 and 2.

I am deleting the \$2,000,000 legislative augmentation. Existing law provides for a special assessment upon private post-secondary institutions for deposit in the Student Tuition Recovery Fund (STRF) to pay student tuition reimbursement claims in the event the STRF does not have sufficient resources for payment of the claims. A General Fund augmentation to this fund would inappropriately relieve the institutions of their statutory responsibility to students and could set an undesirable precedent for General Fund payment of any future judgments against the STRF.

I am deleting Provisions 1 and 2, and revising Item 1111-002-0960 to conform to this action.

Item 1111-102-0001—For local assistance, Bureau of Automotive Repair, Department of Consumer Affairs. I delete this item.

I am deleting the \$2,000,000 legislative augmentation for smog check remote sensing. Smog check remote sensing is more appropriately funded by the Vehicle Inspection and Repair Fund, and the budget already provides sufficient funding from that source for those purposes.

Item 1760-001-0001—For support of Department of General Services. I reduce this item from \$24,690,000 to \$24,290,000 and delete Provision 3.

I am deleting the legislative augmentation of \$400,000 for the public school construction businesses process review. Chapter 401, Statutes of 1998, authorizing statute for the School Facilities Program, recently streamlined the cumbersome and complex Lease-Purchase School Construction Program in an effort to allow local districts more flexibility to build schools as efficiently as possible. It would be premature to initiate actions related to further program modifications until the program has been operational for a sufficient length of time to warrant effective evaluation.

I am deleting Provision 3 to conform to this action.

Item 1760-001-0666—For support of Department of General Services. I revise this item by reducing:

- (a) Program support from \$591,547,000 to \$591,147,000, and
- (c) Amount payable from the General Fund (Item 1760-001-0001) from -\$24,690,000 to -\$24,290,000.

I am revising this item to conform to the action taken in Item 1760-001-0001.

Item 1760-491—Reappropriation, Department of General Services. I delete Provision 1.

I am revising this Item by deleting Provision 1, which declares the intent of the Legislature not to reappropriate funding for the projects listed in this Item and states that the Department of General Services should identify new eligible projects for which any unexpended funds could be used. This language is an infringement on the Executive Branch's budget development process and restricts my authority to prepare a budget that reflects my spending priorities within available fiscal resources.

Item 2240-107-0001—For transfer by the Controller to the Housing Rehabilitation Loan Fund (0929). I reduce this item from \$288,000,000 to \$213,000,000 and revise Provision 1.

I am reducing the legislative augmentation for the Multifamily Housing Program by \$75,000,000, sustaining \$188,000,000 for the program and revising Provision 1 accordingly. This represents more than twice the amount of funding for multifamily housing than I proposed, even though the total for all housing augmentations now matches the \$500 million proposed in the May Revision. New multifamily housing funds will assist in the development of 5,200 to 7,200 rental units for low- and very low-income Californians.

I am deleting all but the first sentence of Provision 1 to eliminate \$19,000,000 that the Legislature set aside within the Multifamily Housing Program for low-income housing that is at risk of converting to market rate rents as federal loans or subsidies expire. This language is unnecessary since the multifamily housing funds can already be used to preserve such at-risk units.

“1. Of the amount transferred by this item ~~\$263,000,000~~ \$188,000,000 shall be utilized for the purposes of the Multifamily Housing Program as set forth in Chapter 6.7 (commencing with Section 50675) of Part 2, Division 31 of the Health and Safety Code. ~~\$19,000,000 of the funds identified in this provision shall be reserved for projects which are at risk of conversion to market rate rents as a result of prepayment of their federally insured or federally held mortgage or termination of their federal subsidy program; as those terms are set forth in paragraphs (4) and (5) of subdivision (a) of Section 65863.10 of the Government Code. In regard to the preservation funds, these may be used for innovative programs that leverage private funding and that result in the preservation of housing units at a relatively low cost per unit. The Legislature encourages the Department of Housing and Community Development to investigate methods of using the funds on a revolving basis.~~”

Item 2400-001-0933—For support of Department of Managed Care. I reduce this item from \$36,827,000 to \$33,017,000 by reducing:

(a) 30-Health Plan Program from \$36,827,000 to \$33,017,000; and by deleting Provision 2.

I am reducing the legislative augmentation for consumer education and outreach by \$3,000,000, because it is premature to fund a large marketing campaign during the Department’s first year of operations. I am sustaining \$2,000,000 of this augmentation to develop and begin implementing a targeted education program to inform health plan enrollees of the Department’s existence and purpose and how to reach the Department. These activities will be evaluated to determine the level and types of educational efforts required for the next year and on an ongoing basis.

I am reducing by \$250,000 the legislative augmentation for consulting services to develop the report card for health care organizations required by Chapter 525, Statutes of 1999. I am sustaining \$500,000 of the augmentation to develop the report card structure and complete the initial report. This amount should be sufficient for the first year of this program.

I am also reducing by \$560,000 the legislative augmentation for consumer call center services and for consultants to assist with design and development of the Office of Patient Advocate. Consistent with my May Revision proposal, I am sustaining \$140,000 of the augmentation to handle any temporary surges in consumer calls during the Department’s initial year. The Patient Advocate should take the lead in organizing the Office of Patient Advocate, in accordance with the legislation creating the office.

I am also signing AB 2877, the omnibus health care trailer bill, which includes sections addressing the industry assessments that fund the activities of the Department. However, these assessment provisions are inconsistent with what I proposed in the May Revision, because AB 2877 effectively eliminates any cap on assessments. Therefore, I request that the Legislature pass subsequent legislation to establish an assessment cap more consistent with my May Revision proposal. The assessment cap must allow the Department to provide increased consumer services without creating an unreasonable financial burden on the managed care system. I am also deleting Provision 2 of this item to conform to my signing AB 2877.

Item 2660-001-0042—For support of Department of Transportation. I reduce this item from \$1,994,470,000 to \$1,988,601,000 by reducing:

(d) 20.40 Highway Transportation—Program Development from \$103,711,000 to \$102,842,000, and

(f) 20.70 Highway Transportation—Operations from \$143,273,000 to \$138,273,000.

I am deleting the augmentation of \$869,000 and 10 positions for the Bicycle Transportation Program. In January, I proposed \$415,000 and 4 positions to centralize the operations that assist local agencies in the planning and construction of bicycle pathways. The Legislature augmented this program without a compelling rationale and also decentralized operations among the districts. In deleting this augmentation, I am returning the responsibility of this function to Caltrans' headquarters to coordinate new bicycle transportation planning efforts on a statewide basis.

I am deleting the augmentation of \$5,000,000 for the Freeway Service Patrol, which supports patrols of tow truck drivers that provide services free-of-charge to motorists along 1,200 miles of freeways in the more congested areas of the State. Although this increase is characterized as a one-time request, this augmentation may commit Caltrans to higher on-going service and funding levels. I agree that the current Freeway Service Patrol provides valuable assistance to motorists and helps reduce traffic congestion; however, the need for more funds at this time has not been demonstrated.

Item 2660-012-0001—For transfer by the Controller to the Abandoned Railroad Account, State Transportation Fund. I delete this item and Provision 1.

I am deleting the legislative augmentation of \$5,000,000 that would have provided a transfer from this item to the Abandoned Railroad Account within the State Transportation Fund. The Legislature's action would restrict the use of the funds to acquiring land for non-motorized purposes (such as pedestrian or bicycle paths), while ignoring the original intent of the Account, which was to provide funding to acquire inactive railroad rights-of-way for public transit use. The State already provides \$1 million for bike trails in 2000-01, which is scheduled to increase in increments pursuant to Chapter 644, Statutes of 1997, to \$5 million by 2004-05. In addition, existing federal programs, such as the Transportation Enhancement Activities Program or the State's Environmental Enhancement and Mitigation Program, would be a more appropriate source of funding available to local agencies for bike paths or trails.

I am deleting Provision 1 to conform to this action.

Item 2660-101-0001—For local assistance of Department of Transportation. I reduce this item from \$77,992,500 to \$75,082,500 by reducing:

(a) 30-Mass Transportation from \$72,549,000 to \$71,249,000;
by deleting:

(6) Southern California Regional Rail Authority (\$400,000);

(8) San Francisco Muni Nextbus Program (\$300,000); and

(b) 20-Highway Transportation from \$1,633,500 to \$1,383,500;
by deleting:

(1) City of Rio Vista Traffic Signals (\$150,000);

(6) City of Isla Vista, Sidewalks (\$100,000); and

(bx) 10-Aeronautics from \$310,000 to \$200,000;

by reducing:

(1) Burbank-Glendale-Pasadena Airport Authority from (\$310,000) to (\$200,000)

(c) 500010-Special Projects from \$3,500,000 to \$2,250,000;

by deleting:

(3) City of Roseville Pedestrian/Bicycle Bridge (\$250,000);

(4) City of Lakewood Pavement Improvement Project (\$700,000); and by reducing \$300,000 from the following subschedule:

(5) Watsonville High School, Bridge from (\$1,500,000) to (\$1,200,000).

I am reducing this item by \$2,310,000 to fund higher competing priorities, including \$71,000,000 for transportation projects I proposed in the January Budget to assist two

of the State's most congested areas—Los Angeles and the Silicon Valley. Additional high priority projects are proposed for funding through my Traffic Congestion Relief Plan.

As a technical correction to this item, I am reducing Program 30—Mass Transportation by an additional \$600,000 to record a legislative change not reflected in the program total. Program 30 initially contained \$600,000 for the Orinda School Safety Program. The Legislature decided that this issue was best budgeted within another department, and the issue was removed without adjusting the program funding total accordingly.

Item 2660-102-0001—For local assistance, Department of Transportation. I delete this item and Provision 1.

I am deleting the legislative augmentation of \$12 million from the General Fund for the Bay Area Water Transit Authority to fund the environmental impact reports and design functions specified in Chapter 1011, Statutes of 1999, to purchase ferries and appropriate infrastructure to establish a high-speed water transit system for San Francisco Bay. In signing this chapter, I stated that the General Fund should not be used for this project. For this reason, I proposed \$12 million for the Bay Area Water Transit Authority from the Public Transportation Account in my January Budget, and I continue to support this phase of the project from that source. Therefore, I request that the Legislature pass a bill this year that provides \$12 million for the Authority from the Public Transportation Account.

The Public Transportation Account will receive about \$45 million in new funds annually from the State Highway Account as I proposed in January and can clearly support the initial planning efforts of the Authority.

I am deleting Provision 1 to conform to this action.

Item 2720-001-0044—For support of Department of the California Highway Patrol. I reduce this item from \$914,917,000 to \$901,085,000 by reducing:

- (a) 10-Traffic Management from \$878,517,000 to \$867,486,000;
- (b) 20-Regulation and Inspection from \$98,812,000 to \$96,011,000;

and revising Provision 1.

I am reducing the \$14,500,000 legislative augmentation for 146 additional CHP motorcycle officers to address traffic congestion in urban areas by \$6,451,000 for 65 officers, and sustaining \$8,049,000 of the augmentation for 81 officers. In addition to these funds, the Budget provides \$1,690,000 for an additional 15 motorcycle officers to provide concentrated congestion relief efforts. I believe a total of 96 additional CHP motorcycle officers will provide sufficient staffing to implement this program on the state's most congested highways.

I am revising Provision 1 to conform to this action.

- "1. Of the funds appropriated in this item, ~~\$14,500,000~~ \$8,049,000 shall be used for the support of approximately ~~146~~ 81 motorcycle officers, including equipment and support staff, to improve freeway safety and efficiency in congested areas. The officers shall be deployed in 15 selected operational areas. The operational areas shall be selected, and may be modified as necessary, by the Commissioner of the Highway Patrol, who shall ensure that the areas reflect a geographically diverse group of the state's most congested freeways. The officers shall perform normal freeway patrol activities, but shall be deployed so as to maximize their patrol during normal commute hours. The Department of the California Highway Patrol shall monitor the impact of these additional officers on various safety and efficiency factors, including collision rates, the number of moving violations, average traffic speed, and other factors. The department shall provide an interim report by January 1, 2001, and a final report by January 1, 2002, to the Legislature on the project. The report shall (a) assess the impact of the additional officers on the various safety and efficiency factors and (b) provide

recommendations as to whether and how the programs should be continued or expanded.”

I am reducing the \$10,433,000 legislative augmentation for 123 additional CHP officers to improve traffic safety, enhance motorist services, and provide additional assistance to allied agencies in rural areas by \$4,580,000 and 54 officers, and sustaining \$5,853,000 of the augmentation for 69 officers. I believe that 69 additional CHP officers will provide a substantial increase in service capacity in rural areas.

I am revising Provision 2 to conform to this action.

“2. Of the funds appropriated in this item, ~~\$10,400,000~~ \$5,853,000 shall be used for the support of approximately ~~123~~ 69 officers, including equipment, to improve traffic safety, enhance motorist services, and provide additional assistance to allied agencies. The officers shall be deployed on routes in unincorporated areas selected by the Commissioner of the Highway Patrol. The Department of the California Highway Patrol shall monitor the impact of these additional officers on traffic safety, including collision rates, motorist services, response times, allied agency services, and other factors. The department shall provide a report by January 1, 2003, to the Legislature on the project. The report shall (a) assess the impact of the additional officers on the various safety and efficiency factors and (b) provide recommendations as to whether and how the program should be continued or expanded.”

I am deleting the \$2,801,000 legislative augmentation for 20 additional CHP officers for farm labor vehicle inspections and safety enforcement. In my January Budget, I proposed \$1,750,000 and 10 officers for farm labor vehicle inspection and safety certification. CHP will use these officers in many areas of the state based on seasonal needs and will train other officers throughout the state to help in this program. This program has only been in operation a few months. The need for additional resources should be evaluated based on more experience with this new program before staffing is expanded. I am directing the CHP to monitor the progress of this program and to reassess the need for additional staff.

Item 2720-101-0001—For local assistance, Department of the California Highway Patrol. I sustain this item.

I am sustaining the \$5,000,000 legislative augmentation for grants to local law enforcement agencies that collect racial profiling data. These funds are to encourage local agencies to report data to the Highway Patrol by offsetting some of the local agencies' costs, but not to establish an entitlement for any particular level of reimbursement. I am directing the CHP to allocate these funds to local agencies on a pro rata basis to offset a portion of their costs.

Item 2740-001-0044—For support of Department of Motor Vehicles. I delete Provision 1.

I am deleting Provision 1 that relates to preparations to procure a replacement of all the department's main database applications. The provision restricts the availability of \$988,000 for the project to no sooner than 30 days after the Legislature receives from the Department of Information Technology (DOIT) a report that evaluates the Department of Motor Vehicles' efforts to replace its occupational licensing, vehicle registration, and driver license database systems. DOIT has already reviewed this project; additional reviews at this stage of the project would result in unnecessary delays. This project is already scheduled to be reviewed again in the fall of 2000 and the fall of 2001 before any additional funding will be committed.

Item 2920-101-0001—For local assistance, Trade and Commerce Agency. I reduce this item from \$44,732,000 to \$43,432,000 by reducing:

- (a) 10.09-Economic Development (Office of Military Base Retention) from \$800,000 to \$400,000;

- (b) 10.30-Economic Development (Strategic Technology Program) from \$27,248,000 to \$26,598,000; and
- (d) 10.50-Economic Development (Small Business Development Centers) from \$3,434,000 to \$3,184,000.

I am deleting \$1,300,000 in legislative augmentations to this item to fund higher competing priorities. Specifically, I am deleting: \$200,000 for Project Sirius: China Lake Naval Air Station; \$200,000 to support the Southwest Defense Alliance; \$650,000 for the City of Clovis Research and Technology Park; and \$250,000 for the Central Valley Business Incubator.

Item 3340-001-0001—For support of California Conservation Corps. I reduce this item from \$37,071,000 to \$35,071,000 by reducing:

- (a) 10-Training and Work Program from \$44,944,000 to \$42,944,000.

I am deleting the \$2,000,000 legislative augmentation for emergency response training for corpsmembers. An augmentation of this nature should be considered in the future as a component of a multi-faceted approach to re-define the mission of the CCC.

Item 3340-102-0005—For local assistance, California Conservation Corps. I delete this item.

I am deleting this item because there is insufficient information about these projects to determine if they qualify under the provisions of the 2000 Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act. The project proponents are encouraged to participate in the California Conservation Corps' grant selection process and compete, along with the State's other local conservation corps groups, for bond funding.

Item 3340-301-0001—For capital outlay, California Conservation Corps. I reduce this item from \$1,335,000 to \$1,290,000 by reducing:

- (4.6) 20.10.150-Delta Service District Relocation/Construction-Study from \$100,000 to \$55,000.

I am reducing the legislative augmentation to fund a site search and study for a residential facility at the Stockton Multi-Campus Regional Center by \$45,000. The Department of General Services has indicated that \$55,000 will be sufficient to perform the site search and study.

Item 3480-001-0001—For support of Department of Conservation. I delete Provision 4.

I am deleting Provision 4 because it prohibits the expenditure of funds for the North Coast Watershed Assessment unless Assembly Bill 717 or similar legislation is enacted during the 1999–00 Regular Session. Although I am deleting this language, I wish to express my commitment to work with the Legislature during the remainder of this Session on the development of a watershed proposal to address logging-related impacts to salmon and water quality.

I have taken conforming actions in Items 3540-001-0928, 3600-001-0001, 3860-001-0001, and 3940-001-0001.

Item 3480-101-0001—For local assistance, Department of Conservation. I revise this item by deleting Provision 2(d).

I am deleting Provision 2(d) which would require the Department to receive and evaluate grant applications for resource conservation district needs other than for watershed coordinators. The criteria used for the evaluation of grant applications and the award of watershed coordinator grants to resource conservation districts will be made available to the Legislature.

Item 3480-101-0005—For local assistance, Department of Conservation. I reduce this item from \$25,000,000 to \$5,000,000.

I am reducing the \$25,000,000 legislative augmentation for California Farmland Conservancy grants by \$20,000,000. This augmentation over allocates the fund and is

premature. This reduction represents a more realistic rate of expenditure for this program in Fiscal Year 2000–01.

Item 3540-001-0001—For support of Forestry and Fire Protection. I reduce this item from \$335,288,000 to \$332,318,000 by reducing:

- (a) 100000-Personal Services from \$342,195,000 to \$340,114,000;
- (b) 300000-Operating Expenses and Equipment from \$202,662,000 to \$201,773,000;

and by deleting Provision 4.

I am sustaining the \$4,580,000 legislative augmentation to fund the reactivation of inmate conservation camps in those areas of the State that have the most critical need for expanded wildland fire suppression. I am directing the Department of Forestry and Fire Protection to develop a plan, to be approved by the Department of Finance, before these resources can be expended. I am also reducing the number of new positions related to this expansion to two positions.

I am deleting the \$750,000 legislative augmentation for new firefighter uniforms because it is not a priority at this time. I am also deleting the \$2,000,000 legislative augmentation to increase the Department's staffing level to four firefighters on 25 percent of the State's engines because a needs assessment and workload analysis have not been presented to justify this expansion. In addition, this appears to represent a significant policy expansion with emphasis on structural fire protection, which is not the main mission of the Department. Expanded staffing levels also could create significant capital outlay costs for training and housing of additional firefighters.

I am sustaining \$2,490,000 for additional staff for the Department's Training Academy on a limited-term basis to meet immediate needs. This augmentation is necessary to respond to a higher than normal number of retirements expected in the next few years. Because this situation is temporary, it is my intention to continue this level of funding only through 2002–03.

I am deleting the \$220,000 legislative augmentation to fund the reactivation of one fire crew at the Delta Conservation Camp. This item provides a \$4,580,000 augmentation for expansion of the conservation camp program statewide. Reactivation of a fire crew at the Delta Conservation Camp may be accomplished with this funding if the Department determines this to be a high priority wildland fire suppression need.

I am deleting Provision 4 to conform with this action.

Item 3540-001-0928—For support of Department of Forestry and Fire Protection. I delete Provision 3.

I am deleting Provision 3 because it prohibits the expenditure of funds for the North Coast Watershed Assessment unless Assembly Bill 717 or similar legislation is enacted during the 1999–00 Regular Session. Although I am deleting this language, I wish to express my commitment to work with the Legislature during the remainder of this Session on the development of a watershed assessment proposal to address logging-related impacts to salmon and water quality.

I have taken conforming actions in Items 3480-001-0001, 3600-001-0001, 3860-001-0001, and 3940-001-0001.

Item 3540-102-0005—For local assistance, Department of Forestry and Fire Protection. I reduce this item from \$9,308,000 to \$1,425,000 by reducing:

- (a) Grants from \$9,308,000 to \$1,425,000, by reducing \$7,383,000 from the following subschedules:
 - (1) City and County of San Francisco: Tree Corps for planting and maintaining trees in San Francisco from (\$500,000) to (\$100,000);
 - (2) City and County of San Francisco: Friends of the Urban Forest from (\$500,000) to (\$100,000);

- (3) City of Milpitas: Neighborhood and Streetscape beautification from (\$1,250,000) to (\$100,000);
- (4) City of Los Angeles: Greening along Burbank-Chandler Bikeway, including trees, landscaping, irrigation, and fencing from (\$2,000,000) to (\$100,000);
- (5) Sacramento County: Mather Urban Forest Tree Planting Project from (\$150,000) to (\$100,000);
- (6) Los Angeles County: Fox Field Urban Forestry Project from (\$150,000) to (\$100,000);
- (7) City of Palmdale: Urban Forestry Tree Planting Project from (\$200,000) to (\$100,000);
- (8) City of Victorville: Urban Forestry Planting Project (\$200,000) to (\$100,000);
- (9) City of San Jose: Urban Forestry Planting Project from (\$200,000) to (\$100,000);
- (12) City of Tehachapi: Tree planting from (\$300,000) to (\$100,000);
- (13) City of Calexico: Tree planting from (\$750,000) to (\$100,000);
- (14) County of Stanislaus: Tree planting from (\$887,000) to (\$100,000);
- (15) County of Orange: Tree planting from (\$1,000,000) to (\$100,000); and
- (16) Merced County: O'Bannion Park in Dos Palos from (\$696,000) to (\$100,000);

and by deleting \$500,000 for the following subschedule:

- (10) City and County of San Francisco: Friends of the Urban Forest for tree planting (\$500,000).

I am deleting \$500,000 for the City and County of San Francisco: Friends of the Urban Forest for tree planting (subschedule (10)) because it appears to duplicate the project shown in subschedule (2) above. I am reducing each of the remaining projects to \$100,000 to reserve bond funds for other urban forestry proposals to be evaluated on a statewide basis based on merit compared to other eligible projects. This reduction is necessary in order to keep faith with the voters to ensure that organizations throughout the state can compete for funding for this popular program.

Item 3540-302-0001—For capital outlay, Department of Forestry and Fire Protection. I sustain this item.

I am sustaining the \$500,000 legislative augmentation for the acquisition of land for the Alma Helitack Base. Notwithstanding the total amount available in this budget for acquisition of a site for this project, only the amount up to the appraised value of a site as approved by the Department of General Services may be expended. Any amount in excess of the appraised value would be considered a gift of public funds which is prohibited by Section 6 of Article XVI of the California Constitution.

Item 3600-001-0001—For support of Department of Fish and Game. I am reducing this item from \$88,670,000 to \$65,062,000 and deleting Provisions 2 and 3.

I am reducing the \$25,258,000 legislative augmentation to \$2,000,000 and eliminating 170.5 positions. My May Revision plan reflects a deliberative analysis of the critical base funding needs of the Department, which resulted in an augmentation of \$25 million. With the \$2,000,000 I am sustaining, General Fund resources for various baseline programs will have been increased by 75 percent.

I am also deleting the \$350,000 legislative augmentation to the Department's Marine Wildlife Veterinary Care and Research Center to expand its sea otter research. There is no analytical basis for the augmentation nor is it clear how this project is prioritized along with other competing needs within the Department. I am deleting Provision 3 to conform with my action.

Lastly, I am deleting Provision 2 because it prohibits the expenditure of funds for the North Coast Watershed Assessment unless AB 717 or similar legislation is enacted

during the 1999–00 Regular Session. Although I am deleting the language, I wish to express my commitment to work with the Legislature during the remainder of this Session on the development of a watershed assessment proposal to address logging-related impacts to salmon and water quality.

I have taken conforming actions in Items 3480-001-0001, 3540-001-0928, 3860-001-0001, and 3940-001-0001.

Item 3600-001-0200—For support of Department of Fish and Game. I revise this item by reducing:

- (a) 20-Biodiversity Conservation Program from \$117,144,000 to \$109,798,000;
- (b) 25-Hunting, Fishing & Public Use from \$44,471,000 to \$44,452,000;
- (c) 30-Management of Department Lands and Facilities from \$39,513,000 to \$38,065,000;
- (d) 40-Conservation Education & Enforcement from \$66,081,000 to \$51,643,000;
- (e) 50-Spill Prevention and Response from \$23,480,000 to \$23,123,000;
- (f) 70.01-Administration from \$34,644,000 to \$34,144,000;
- (g) 70.02-Distributed Administration from –\$34,644,000 to –\$34,144,000; and
- (i) Amount payable from the General Fund (Item 3600-001-0001) from –\$88,670,000 to –\$65,062,000.

I am revising this item to conform to the actions I have taken in Item 3600-001-0001.

Item 3600-101-0001—For local assistance, Department of Fish and Game. I reduce this item from \$14,431,000 to \$13,481,000 by reducing:

- (b) Grants from \$1,450,000 to \$500,000 by deleting \$950,000 for the following subschedule:
 - (1) County of Orange: East Bluff Slopes Stabilization (\$350,000)
 - (3) Wetlands and Wildlife Care Center of Orange County: Improvements to Animal Hospital (\$600,000).

While these projects may be meritorious, I am reducing this item to fund higher competing priorities.

Item 3600-101-0005—For local assistance, Department of Fish and Game. I delete this item.

I am deleting the \$6,150,000 legislative augmentations because these projects would over subscribe the funding available to the Department of Fish and Game from the 2000 Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Fund. Additionally, most projects are not eligible for funding under the provisions of the 2000 Park Bond.

Item 3640-303-0001—For capital outlay, Wildlife Conservation Board. I reduce this item from \$2,600,000 to \$1,000,000 by reducing:

- (a) 80.10.600—Wildlife Conservation Board Projects from \$2,600,000 to \$1,000,000 and deleting the following projects:
 - (1) City of Laguna Niguel (\$600,000)
 - (3) Puente Hills landfill: Native habitat preservation (\$1,000,000)

I am deleting these projects to fund higher competing priorities.

Item 3640-304-0005—For capital outlay, Wildlife Conservation Board. I delete this item and Provisions 1 and 2.

I am deleting this legislative augmentation because it would over subscribe funding available to the Wildlife Conservation Board (WCB) from the 2000 Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Fund. I am also eliminating all of the specified projects included in this item. I believe that the Board should conduct a deliberative process to identify and negotiate projects that are in the best interest of the people and natural resources of this State. I encourage the proponents of these projects to participate in this process. Further, while many of these

projects may be meritorious, I am unable to determine at this time whether all projects have been evaluated for their fish and wildlife values, whether appraisals have been completed, or whether there are willing sellers. I look forward to evaluating these projects through the WCB process.

I am also deleting Provisions 1 and 2 to conform to my action in this item.

Item 3680-001-0516—For support of Department of Boating and Waterways. I sustain this item.

I am sustaining the \$500,000 legislative augmentation for wave modeling equipment. However, none of these funds shall be encumbered or expended until the Scripps Institution of Oceanography completes a plan, to be approved by the Resources Agency and the Department of Finance, detailing how the equipment to be acquired with these funds will be used.

Item 3680-101-0001—For local assistance, Department of Boating and Waterways. I sustain this item.

I am sustaining the legislative augmentation of \$10,000,000 for beach erosion control project grants. The funds appropriated in this item shall be for one-time expenditures. A priority for use of the funds shall be research to determine what actions would prevent beach erosion.

Item 3680-102-0001—For local assistance, Department of Boating and Waterways. I reduce this item from \$580,000 to \$230,000 by reducing:

(1) Grants from \$580,000 to \$230,000 by deleting the following subschedule:

(b) City of Huntington Beach: Reconstruction of Warner Dock (\$350,000)

I am reducing this item to fund higher competing priorities.

Item 3720-001-0001—For support of California Coastal Commission. I reduce this item from \$11,517,000 to \$11,463,000 by reducing:

(a) 10-Coastal Management Program from \$14,307,000 to \$14,253,000

I am deleting the \$54,000 legislative augmentation to provide interpretation services to non-English speakers during the Commission's monthly public hearings. While this augmentation may have merit, in the past the Commission has provided translation services within its existing resources on an as-needed basis. I believe this approach is appropriate.

Item 3720-101-0001—For local assistance, California Coastal Commission. I reduce this item from \$1,210,000 to \$650,000 by reducing:

(b) Grants from \$710,000 to \$150,000 by deleting \$560,000 for the following subschedules:

(2) Coastal Conservancy: Coastal Acquisition—Wetlands (\$160,000)

(3) City of Huntington Beach: Beach Maintenance Facility (\$400,000)

To the extent that additional funds are needed to acquire coastal wetlands, I believe such funds should be appropriated directly to the State Coastal Conservancy to fund its longstanding efforts in the acquisition of coastal wetlands.

Item 3760-301-0005—For capital outlay, State Coastal Conservancy. I delete Provision 3.

I am deleting Provision 3 because this language is unnecessarily restrictive in that it precludes the State Coastal Conservancy from expending newly appropriated funds for the Salmon Habitat Restoration Program prior to 20 days following submission of a report to the Legislature identifying criteria, priorities, and process by which the funds will be allocated. The State Coastal Conservancy and the Department of Fish and Game are working together on their salmon habitat restoration efforts; therefore, this language is unnecessary.

Item 3760-302-0001—For capital outlay, State Coastal Conservancy. I reduce this item from \$4,640,000 to \$4,050,000 by reducing:

- (a) 80.97.030-Conservancy Programs \$4,640,000 to \$4,050,000, by reducing \$590,000 for the following subsections:
 - (3) City of Imperial Beach: Repay loan from State Coastal Conservancy for wetlands purchase from (\$140,000) to (\$50,000); and
 - (4) Rural/Coastal: Grants to rural, coastal communities to assist in their efforts to identify sources of river and stream sewage effluent, and to develop plans for the remediation of contamination problems from (\$1,500,000) to (\$1,000,000).

I am reducing the \$140,000 legislative augmentation to \$50,000 to the City of Imperial Beach. I believe this represents the appropriate level of state participation for this local agency obligation.

Although the rural/coastal grants may be meritorious, I am reducing the funding to a level that can be implemented in 2000–01.

Item 3760-302-0005—For capital outlay, State Coastal Conservancy. I reduce this item from \$154,882,000 to \$104,927,000 by reducing:

- (1) 80.00.023-San Francisco Bay Area Conservancy Program from \$6,160,000 to \$2,000,000, by deleting \$4,160,000 for the following subsections:
 - (B) San Francisco Bay Joint Venture: Bay Point restoration project (\$160,000);
 - (C) San Francisco Bay Joint Venture: Martinez Regional Shoreline-marsh restoration (\$2,000,000);
 - (D) San Francisco Bay Joint Venture: Lower Walnut Creek restoration-Walnut Creek (\$1,000,000);
 - (E) San Francisco Bay Joint Venture: Big Break Regional Shoreline-Oakley (\$1,000,000);
- (2) 80.97.030-Conservancy Programs from \$148,722,000 to \$102,927,000 by deleting \$42,795,000 for the following subsections:
 - (D) City of Mountain View: Stevens Creek Trail (\$550,000);
 - (E) City of San Jose: Coyote-Alamitos Trail-Planning, design, and environmental documentation (\$400,000);
 - (F) Midpeninsula Open Space District: To fund improvements to selected trail easements (\$450,000);
 - (G) Richardson Bay: Audubon Center-Trail Restoration (\$95,000);
 - (K) Muir Heritage Land Trust: Acquire land to link the Carquinez Strait Regional Shoreline Park to Briones Regional Park and the East Bay Municipal Utility District watershed lands (\$1,500,000);
 - (L) East Bay Regional Park District: Development of a rustic group camp and trail access for the Round Valley Regional Preserve (\$130,000);
 - (M) East Bay Regional Park District: Develop a trail connection for the Delta de Anza Regional Trail (\$1,820,000);
 - (N) East Bay Regional Park District: West Contra Costa Shoreline Trail-Completion of a major section of the San Francisco Bay Trail in West Contra Costa County connecting communities of Richmond, Pinole, Hercules and Rodeo (\$2,000,000);
 - (O) East Bay Regional Park District: Briones/Las Trampas Trail Corridor-To complete scenic trails and wildlife corridors on Lafayette and Burton Ridges (\$1,000,000);
 - (P) Muir Heritage Trust: Pacheco Marsh, 140 acres (Carquinez Straits), Burton Ridge 27 acres, Lafayette, Gustin 80 acres/Franklin Ridge in Martinez (\$750,000);
 - (V) Santa Barbara County: Bridle Ridge-conservation easement (\$3,000,000);

- (X) Santa Barbara County: J.J. Hollister property acquisition of watershed (\$4,000,000);
 - (Y) Santa Barbara County: Elwood Bluffs-Acquisition (\$5,000,000);
 - (DX) City of Nipomo: Guadalupe Nipomo Dunes Preserve (\$10,000,000);
 - (FX) County of San Luis Obispo: Preservation of the Monterey Pine Forest in Cambria (\$3,000,000);
 - (GX) Solano County: Lynch Canyon (\$240,000);
 - (JX) Port of San Diego, National City, City of Chula Vista: Sweetwater River Wetland Restoration-removal of riprap and reestablishment of wetland habitat (\$5,000,000);
 - (KX) City of Seal Beach: Sand replenishment at Surfside-Sunset (\$3,700,000);
 - (QX) State Coastal Conservancy: Coastal acquisition-wetlands (\$160,000);
- and by reducing \$3,000,000 from the following subschedule:
- (U) State Coastal Conservancy: Gaviota Coast property and conservation easement acquisition from \$5,000,000 to \$2,000,000.

Although these projects may be meritorious, I am deleting and reducing the funding because this funding level over subscribes various allocations to the State Coastal Conservancy from the 2000 Safe Neighborhood, Clean Water, Clean Air, and Coastal Protection Bond Fund. Additionally, based on an evaluation by the Conservancy, these projects do not meet the Conservancy's criteria for funding.

Also, I am reducing the \$5,000,000 legislative augmentation for the Gaviota Coast property and conservation easement acquisition because substantial funds remain unspent from the \$5 million General Fund legislative augmentation that I sustained in the 1999 Budget Act. These funds, when combined with a reduced level of \$2 million as sustained in the 2000 Budget Act, reflect an appropriate level of state funding for the project.

Lastly, the Budget Bill contains a technical error in subschedule (TX); the project name is reflected as "San Francisco Bay *rail* Project." Therefore, I am including a statement that clarifies the intent of my action to sustain the \$7,500,000 legislative augmentation for the "San Francisco *Trail* Project."

Item 3780-001-0001—For support of Native American Heritage Commission. I reduce this item from \$393,000 to \$318,000.

I am reducing this item by a one-time \$75,000 legislative augmentation to study the Commission's ability to review, monitor, and track all relevant environmental documents. There is no analytical basis for the level of proposed augmentation, and it is unclear what would be achieved with these funds.

Item 3790-001-0001—For support of Department of Parks and Recreation. I reduce this item from \$145,589,000 to \$120,439,000:

I am reducing this item by the legislative augmentation of \$10,000,000 and 293 limited term, seasonal positions. When I announced my plan to reduce fees at state parks effective July 1, 2000, it was expected that attendance at all state parks would increase. In anticipation of increased attendance, my May Revision plan included \$10,600,000 and 101.5 positions. This level of funding was determined to be appropriate to accommodate the increased number of visitors while still maintaining facilities and protecting natural and cultural resources.

I am also reducing this item by the legislative augmentation of \$15,000,000 and 177 positions for ongoing maintenance. The Budget already includes a \$3,000,000 augmentation proposed in January which is the appropriate level of funding for this program at this time.

Lastly, I am deleting the \$150,000 legislative augmentation for portable bathroom facilities and staffing for Caspar State Beach. Although this project may be meritorious, I am deleting the funding for it at this time to fund competing projects with higher priorities.

Item 3790-001-0392—For support of Department of Parks and Recreation. I revise this item by reducing:

(a) For support of the Department of Parks and Recreation from \$277,845,000 to \$252,695,000;

(d) Amount payable from the General Fund (Item 3790-001-0001) from -\$145,589,000 to -\$120,439,000;

and by revising Provision 1.

I am revising the schedules in this item to conform to the actions taken in Item 3790-001-0001.

In addition, I am revising Provision 5 to conform to this action:

“5. Of the funds appropriated in Schedule (dx) of this item, ~~\$400,000~~ \$250,000 shall be used for the following projects: (a) ~~\$250,000~~ for oversight and maintenance of the California State Mining and Mineral Museum Association in Mariposa. (b) ~~\$150,000~~ for portable bathroom facilities and staffing at Caspar State Beach.”

Item 3790-101-0001—For local assistance, Department of Parks and Recreation. I reduce this item from \$111,687,094 to \$75,290,000 by reducing:

(a) Grants from \$111,687,094 to \$75,290,000 by deleting \$20,527,605 for the following subschedules:

- (3) City of San Luis Obispo: Bob Jones bike trail (\$600,000);
- (4) Rio Caledonia Adobe (\$500,000);
- (9) City of Huntington Beach: Replace beach rail at Huntington Beach State Park (\$300,000);
- (10) City of Pico Rivera: Summer Youth Employment and Training Program (\$40,000);
- (48) City of Manhattan Beach: New playground equipment to replace old-Polliwog Regional Park (\$300,000);
- (78) City of San Jose: Guadalupe River Parkway (\$240,000);
- (79) City of Oakland: Studio One Recreation Center (\$500,000);
- (83) City of San Diego: Old Town San Diego marketing plan (\$75,000);
- (91) Lakeport Senior Activity Center: Building purchase for program providing recreational activities for seniors (\$100,000);
- (103) City of Anaheim: Maxwell Park expansion (\$510,000);
- (109) Friends of San Leandro Creek Environmental Education Center and Natural History Museum: Funds for project (\$1,500,000);
- (121) City of San Diego: La Mirada Joint Use Facility/multipurpose field design (\$300,000);
- (136) City of Pomona: Creation of the Ralph Welch Park (\$200,000);
- (138) City of Chino: Expansion of the 7th Street Community Theater (\$350,000);
- (147) City of San Francisco: Restoration of the Tori Gate and Pagoda located in the Japanese Tea Garden (Golden Gate Park) (\$500,000);
- (165) The Bay Center Coalition: Construction of the Bay Center (Environmental learning resource center) (\$1,000,000);
- (167) San Francisco Beautification Fund: Creation of the “Lefty” Gordon Park on Ocean Avenue in San Francisco (\$300,000);
- (171) County of San Mateo: Fitzgerald marine reserve visitor center improvements (\$250,000);
- (182) San Mateo County: Police Activities League (\$160,000);
- (187) City of Los Alamitos: Improvements to the USA Water Polo National Aquatics Center (\$490,000);
- (190) Western Center for Archeology and Paleontology: Operation and maintenance costs (\$1,000,000);

- (191) City of Tehachapi: Rebuild Beekay Theater (\$250,000);
 - (192) Barstow Parks and Recreation District: Swimming pool for Barstow Parks and Veterans Home (\$200,000);
 - (193) Los Angeles County: Construction of community center in Lake Los Angeles (\$3,500,000);
 - (194) Tehachapi Parks and Recreation District: Development of an aquatic facility (\$1,200,000);
 - (198) Camarillo Ranch Foundation: Preserve, restore, and maintain the Camarillo Ranch (\$492,605);
 - (203) Kern County: Boron Chamber of Commerce expansion project (\$100,000);
 - (208) Inyo County: Pleasant Valley Campground Project (\$180,000);
 - (209) Jurupa Area Recreation and Park District: Paramount Park Rehabilitation (\$180,000);
 - (211) Inyo County: Diaz Lake Campground Project (\$200,000);
 - (214) City of Lafayette: Pedestrian bridge (\$250,000);
 - (215) City of Brentwood: PAL Program Building (\$250,000);
 - (217) City of Yucaipa: Dunlap Park site (\$350,000);
 - (218) City of Norco: Ingalls Regional Equestrian Park (\$350,000);
 - (222) City of Walnut: Community Sports Complex (\$1,000,000);
 - (224) Tulare County: Auditorium restoration project (\$200,000);
 - (238) City of Artesia: Artesia Youth Academy for after school enrichment programs for at risk youth (\$50,000);
 - (241) Foothill Citizens for a Community College: Development of the Sierra Foothills Regional Educational Center (\$1,970,000);
 - (244) Tehachapi Parks and Recreation District: Youth Center-Old Post Office (\$300,000);
 - (247) Manila Dune Public Access (\$250,000);
 - (249) Lakeport Senior Activity Center: Building purchase for program providing recreational activities for seniors (\$100,000);
 - (250) Monterey Park: Expansion of Langley Senior Center (\$350,000); and
 - (251) Martinez Police Activities League: purchase computer and a van (\$100,000)
- and by reducing \$15,869,489 from the following schedules:
- (1) City of Whittier: The Greenway Trail from \$2,000,000 to \$500,000;
 - (11) City of Whittier: Parnell Park restoration from \$250,000 to \$150,000;
 - (49) Marjaree Mason Center: General repairs and maintenance from \$250,000 to \$150,000;
 - (51) Rotary Playland at Roeding Park in Fresno: Repair and construct new rides for the park from \$250,000 to \$150,000;
 - (52) Southeast Fresno: Construction costs for a park located in Kings Canyon and Huntington Avenue areas from \$447,360 to \$250,000;
 - (53) City of Reedley: Second phase of the Reedley Rail Trail Parkway from \$400,000 to \$200,000;
 - (55) City of San Gabriel: Expand Asian Youth Center with the addition of a second floor from \$500,000 to \$400,000;
 - (58) East Los Angeles: Build a community facility in the City Terrace neighborhood of East LA for senior citizens, Creative Thinking Program and facility for community meetings and other events from \$250,000 to \$200,000;
 - (64) Sacramento Boys and Girls Club from \$750,000 to \$350,000;
 - (65) City of Sacramento: Construction of the Sacramento Youth Sports Complex from \$700,000 to \$500,000;

- (77) City of Los Angeles: Blythe Street Park Expansion from \$1,650,000 to \$1,000,000;
- (80) Mission Trails Regional Park Foundation: Mission Trails Regional Park-Equestrian and ranger station from \$1,550,000 to \$1,000,000;
- (85) City of San Diego: San Diego Maritime Museum from \$500,000 to \$450,000;
- (87) City of Carson: Del Amo Neighborhood Park from \$1,400,000 to \$900,000;
- (92) Greater Vallejo Recreation District: Children's Wonderland from \$500,000 to \$300,000;
- (93) City of Santa Rosa: Construction of 25,000 square feet youth center in Southwest Community Park from \$500,000 to \$400,000;
- (96) Greater Vallejo Recreation District: North Vallejo Community Center expansion from \$500,000 to \$300,000;
- (98) City of Bakersfield: Construction of the Greenfield Multipurpose public use facility from \$1,497,129 to \$1,000,000;
- (133) Langley Senior Center in Monterey Park: Expansion of the Langley Senior Center from \$350,000 to \$250,000;
- (137) City of Ontario: Expand the De Anza Community Center from \$900,000 to \$500,000;
- (140) City of San Bernardino: Refurbish an existing building in order to create a Multicultural Center from \$500,000 to \$300,000;
- (142) City of Pomona: Renovation of Washington Park Community Center and Pool from \$300,000 to \$150,000;
- (144) City of Daly City: Construction of Mid-Peninsula Boys and Girls Club from \$1,000,000 to \$750,000;
- (148) City of Pacifica: Supplement the cost of permanently repairing the historic Pacific Pier in Pacifica from \$650,000 to \$500,000;
- (185) City of Redding: Construct recreation and sports complex from \$10,000,000 to \$3,000,000;
- (204) Jurupa Area Recreation and Park District: Memorial Park Swimming Pool from \$100,000 to \$50,000;
- (206) Jurupa Area Recreation and Park District: Memorial Park Athletic Field from \$170,000 to \$85,000;
- (207) Jurupa Area Recreation and Park District: Memorial Park Community Center from \$175,000 to \$85,000;
- (216) Riverside Park and Recreation District: Janet Goeske Senior Center from \$300,000 to \$200,000;
- (219) City of Highland: Highland Community Park construction from \$400,000 to \$300,000;
- (220) City of San Diego: Rancho Bernardo Community Aquatic Center from \$500,000 to \$250,000;
- (221) City of Redlands: Redlands Sports Complex development from \$1,000,000 to \$750,000;
- (229) City of Lakewood: Mae Boyar Park improvements from \$750,000 to \$500,000;
- (230) Western Center for Archeology and Paleontology: Construction from \$3,000,000 to \$2,250,000.

Although these projects may be meritorious, I am deleting or reducing the funding to fund competing projects with higher priorities. Additionally, some of the local parks and recreation projects may qualify for funding through the various grant programs

established in the 2000 Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Act. I encourage the project proponents to seek funding from those programs.

I am deleting the \$40,000 legislative augmentation in subsection (10) for the City of Pico Rivera: Summer Youth Employment and Training Program. While I am supportive of efforts in this area, I am sustaining part of a legislative augmentation in the Employment Development Department since the budgets in the Employment Development Department and the Department of Education provide substantial state and federal funds for youth employment programs. These programs provide training and services for economically disadvantaged youth to prepare them with the skills necessary to obtain unsubsidized employment, to complete secondary or post-secondary education, to gain entrance to military service, or to obtain qualified apprenticeship.

I am deleting the \$500,000 legislative augmentation in subsection (147) for the City of San Francisco: Restoration of the Tori Gate and Pagoda located in the Japanese Tea Garden (Golden Gate Park) because I believe it would be more appropriate for this project to be funded from the Park Bond allocation set aside for projects located within Golden Gate Park. The 2000–01 Budget includes \$13.5 million in expenditure authority from the Golden Gate Park allocation.

I am deleting the legislative augmentation in subsection (241) Foothill Citizens for a Community College of \$1,970,000 for the acquisition of land, purchase of portable classrooms, computers, and infrastructure improvements for the Sierra Foothills Regional Education Center. This funding is intended to assist a non-profit organization in establishing a state regional community college center in the Sierra foothills. While I am committed to increasing access to all segments of higher education, this augmentation has been made by the Legislature without regard to the existing review process by the California Postsecondary Education Commission. Constructing or acquiring sites for higher education enrollment needs should be developed in the context of overall priorities, cost standards, guidelines, instructional purposes, enrollment related needs, and scope standards. Further, projects should secure the appropriate programmatic and site review and approval prior to receiving state funds, and funding should be allocated to the Chancellor's Office of the California Community Colleges rather than directly to non-profit organizations.

I am deleting the legislative augmentations in subsections (182), (249), (250), and (251) as technical vetoes because these appropriations duplicate appropriations made elsewhere in the Budget.

Item 3790-101-0005—For local assistance, Department of Parks and Recreation. I reduce this item from \$64,730,000 to \$64,085,000 by reducing:

- (a) 80.25-Recreational Grants from \$64,730,000 to \$64,085,000 by reducing \$645,000 from the following subschedule:
 - (10) City and County of San Francisco: Golden Gate Park from (\$14,169,000) to (\$13,524,000).

I have sustained three legislative augmentations in Item 3790-102-0005 (7) totaling \$645,000. I am reducing the appropriation in this item by \$645,000 to conform to my actions in Item 3790-102-0005 (7) and to prevent the 2000 Safe Neighborhood Parks, Clean Water, Clean Air and Coastal Protection Bond Fund from being over subscribed.

Item 3790-102-0005—For local assistance, Department of Parks and Recreation. I reduce this item from \$211,760,000 to \$79,580,000 by reducing:

- (a) 80.25-Recreational Grants from \$211,760,000 to \$79,580,000:
 - (1) Competitive grants (non-project specific) from (\$80,005,000) to (\$1,740,000) by deleting \$77,865,000 for the following:
 - (a) California Heritage Program, State Office of Historic Preservation (\$10,000,000);

- (b) Riparian habitat acquisition (\$10,000,000);
 - (d) Murray-Hayden Urban Parks and Youth Service Program (\$50,000,000);
 - (e) Museums and Wildlife Education Facilities (\$7,865,000);
- and by reducing \$400,000 from the following:
- (c) Non-motorized Trails Grants from (\$2,140,000) to (\$1,740,000);
- (2) Specific Projects from (\$18,000,000) to (\$10,836,000) by deleting \$6,000,000 for the following:
 - (a) State Beach restoration (\$1,000,000);
 - (b) Dinosaur Archaeological Site (\$5,000,000);
- and by reducing \$1,164,000 from the following:
- (c) Folsom Zoo from (\$2,000,000) to (\$1,889,000);
 - (d) California Science Center-African-American Museum at Exposition Park from (\$3,000,000) to (\$2,834,000);
 - (e) California Science Center School from (\$7,000,000) to (\$6,113,000);
- (3) Local Agencies operating park units (\$26,400,000) by deleting the following:
 - (a) East Bay Regional Park District: Planning for East Bay Shoreline Project (\$200,000);
 - (b) County of San Mateo: Restore the grassland and riparian area of the San Bruno Mountain State and County Park (\$200,000);
 - (c) Kenneth Hahn State Recreation Area, Ballona Creek: Acquisition and enhancement of land for Ballona Creek and surrounding wetlands (\$350,000);
 - (d) City of Albany: Albany Landfill-environmental and aquatic habitat restoration, Eastshore State Park (\$650,000);
 - (e) County of San Mateo: Construct visitor center at San Bruno Mountain State and County Park (\$1,600,000);
 - (f) Completion of Rim Trail in Kenneth Hahn State Recreation Area: Design landscaping along ridgeline and Five Point Visitor center (\$2,500,000);
 - (g) East Bay Regional Park District: Complete the community planning process, provide design services, and construct public park improvements in the East Bay Shoreline Project (\$7,400,000);
 - (h) East Bay Regional Park District: Robert Crown Beach: Lagoon improvement, dredging to prevent further siltation of the lagoon near the Crab Cove area of the State Beach (\$450,000);
 - (i) East Bay Regional Park District: Lake Del Valle State Recreation Area: Provide additional recreational vehicle hook-ups, upgrade the campground electrical system and renovate restrooms at the State Recreation Area (\$500,000);
 - (j) East Bay Regional Park District: Robert Crown Beach: State Park Shoreline renovation at McKay Ave. in Alameda to remove and replace concrete rubble shoreline with rock along public shoreline pathway (\$800,000);
 - (k) East Bay Regional Park District: Robert Crown Beach: McKay Street: Paving renovation and improvements to public entry to the State Beach (\$850,000);
 - (l) East Bay Regional Park District: Robert Crown Beach: Beach sand replenishment and/or replacement to provide direct water access to the urban communities in the Alameda, Oakland and East Bay area (\$3,500,000);

- (m) East Bay Regional Park District: Eastshore State Park: Complete community planning process, provide design services and construct public park improvements (\$7,400,000);
- (5) Murray-Hayden Grants from (\$50,016,000) to (\$47,233,000) by deleting \$80,000 for the following:
 - (aa) City of Whittier (\$80,000);
 and by reducing \$2,703,000 from the following:
 - (a) City and County of San Francisco: Coleman Children and Youth Community Center in Excelsior District-capital outlay from (\$150,000) to (\$142,000);
 - (b) City and County of San Francisco: Youth Mural Art Project in Bayview-Hunters Point and Youth Stewardship Program from (\$200,000) to (\$189,000);
 - (c) City of Richmond: Richmond Natatorium, to enable seismic retrofit of the Natatorium from (\$400,000) to (\$378,000);
 - (d) City of La Puente: Construction of the Youth Learning/Activity Center from (\$400,000) to (\$378,000);
 - (e) City of Glendale: South Glendale mini-park development from (\$400,000) to (\$378,000);
 - (f) City of Los Angeles: Ed Vincent Park from (\$400,000) to (\$378,000);
 - (g) City of San Ysidro: Capital outlay for joint-use community activity park from (\$400,000) to (\$378,000);
 - (h) Sacramento Boys and Girls club: Construction of Boys and Girls Club facility in South Sacramento from (\$500,000) to (\$473,000);
 - (i) City of Huntington Park: Regional Community Youth Center from (\$520,000) to (\$492,000);
 - (j) City of Los Angeles: Blythe Street Pocket Park from (\$550,000) to (\$520,000);
 - (k) City of Fontana: Center city park acquisition from (\$750,000) to (\$709,000);
 - (l) City of Fresno: Construction costs for a park located on Kings Canyon and Huntington Avenue Areas from (\$750,000) to (\$709,000);
 - (m) City of Los Angeles: Renovation of Brand Park from (\$1,000,000) to (\$946,000);
 - (n) Boys and Girls Club of Hayward: Construction of 20,000-square-foot facility from (\$1,000,000) to (\$946,000);
 - (o) County of Los Angeles: San Pedro Park Improvement and Acquisition from (\$1,000,000) to (\$946,000);
 - (p) City of Los Angeles: Juntos Park: outdoor development at a recently acquired parcel to serve as a new park from (\$1,500,000) to (\$1,419,000);
 - (q) City of Los Angeles: Community Build Youth Center from (\$2,000,000) to (\$1,892,000);
 - (r) City of Fresno: Acquisition of the Palm Lakes Golf Course for the operation of Fresno Junior Golf serving disadvantaged youth from (\$250,000) to (\$236,000);
 - (s) City of Buena Park: Community park enhancements of deteriorated facilities from (\$250,000) to (\$236,000);
 - (t) City of Garden Grove: Village Green Park improvements from (\$650,000) to (\$615,000);
 - (u) City of Westminster: Youth Activity Center Program Expansions from (\$750,000) to (\$709,000);

- (v) City of La Puente: Youth Learning/Activity Center from (\$750,000) to (\$709,000);
- (w) City of Lancaster: Whit B. Carter Park Development Project from (\$1,000,000) to (\$946,000);
- (x) City of Anaheim: Maxwell Park Expansion Project from 15 to 21 acres from (\$1,100,000) to (\$1,041,000);
- (y) City of Los Angeles: Soccer Complex from (\$322,000) to (\$305,000);
- (z) City and County of San Francisco: India Basin: Shoreline Park from (\$400,000) to (\$378,000);
- (ax) City of Oakland: West Oakland Playgrounds from (\$600,000) to (\$568,000);
- (bx) City of Los Angeles: Hansen Dam Bluffs from (\$700,000) to (\$662,000);
- (cx) County of Los Angeles: Ted Watkins Park from (\$825,000) to (\$780,000);
- (dx) Santa Monica Mountains Conservancy: Compton-Slauson Natural Park from (\$1,000,000) to (\$946,000);
- (ex) City of Oakland: Sanborn Park from (\$1,500,000) to (\$1,419,000);
- (fx) City of Oakland: Union Point Park from (\$1,500,000) to (\$1,419,000);
- (gx) City of San Diego: North Chollas Park from (\$2,000,000) to (\$1,892,000);
- (hx) City of Maywood: Los Angeles River Parkway from (\$2,500,000) to (\$2,365,000);
- (ix) Santa Monica Mountains Conservancy: Arroyo Seco/Confluence Park from (\$5,000,000) to (\$4,730,000);
- (jx) City of San Diego: Paradise Park Project from (\$34,000) to (\$32,000);
- (kx) City of Lemon Grove: Berry Street Park from (\$40,000) to (\$38,000);
- (kx1) City of Imperial Beach Sports Park from (\$95,000) to (\$90,000);
- (lx) County of San Diego: Lamar Street Park from (\$225,000) to (\$213,000);
- (mx) City of East Palo Alto: Youth Center from (\$250,000) to (\$236,000);
- (mx1) City of San Diego: Boys and Girls Clubs of San Diego: Construction of Linda Vista Teen Center from (\$300,000) to (\$284,000);
- (nx) City of Chula Vista: Greg Rogers Park from (\$300,000) to (\$284,000);
- (ox) City of East Palo Alto: Bell Street Park from (\$350,000) to (\$331,000);
- (px) City of East Palo Alto: Martin Luther King-Jack Ferrell Park from (\$350,000) to (\$331,000);
- (px1) City of Stanton: Stanton Park from (\$500,000) to (\$473,000);
- (qx) City of Huntington Park: Bonelli Regional Youth Center from (\$400,000) to (\$378,000);
- (rx) City of Huntington Park: Westside Park from (\$500,000) to (\$473,000);
- (sx) City of Los Angeles: Tree People Two from (\$500,000) to (\$473,000);
- (tx) City of San Diego: Bay Terrace School Joint Use Facility from (\$500,000) to (\$473,000);
- (ux) County of San Diego: Bancroft Park acquisition from (\$500,000) to (\$473,000);
- (vx) YMCA of San Diego County: Border View expansion from (\$500,000) to (\$473,000);
- (wx) City of Oakland: Studio Recreational Center in North Oakland from (\$500,000) to (\$473,000);
- (xx) City of Stockton: Van Buskirk Community Center: gymnasium construction from (\$750,000) to (\$709,000);

- (yx) City of Fontana: Center City park acquisition from (\$750,000) to (\$709,000);
- (yx1) Columbia Boys and Girls Club: Renovation of building in Tenderloin for after school programs from (\$850,000) to (\$804,000);
- (zx) Cities of Bell and Cudahy: Bell Elementary Park from (\$1,000,000) to (\$946,000);
- (ay) City of Pico Rivera: Rio Honda Park from (\$1,000,000) to (\$946,000);
- (by) City of Los Angeles: Blythe Street expansion from (\$1,000,000) to (\$946,000);
- (cy) City of Baldwin Park: Teen Center from (\$1,000,000) to (\$946,000);
- (dy) City of Los Angeles: South Central Sports Center from (\$1,300,000) to (\$1,230,000);
- (ey) City of Los Angeles: Antes Columbus Club Youth Center from (\$1,345,000) to (\$1,272,000);
- (fy) Los Angeles Conservation Corps: Youth Center from (\$2,000,000) to (\$1,892,000);
- (gy) City of Whittier: Children's wading pool reconstruction at Friends Park to comply with current standards from (\$80,000) to (\$76,000);
- (6a) Urban and cultural centers, zoos, museums (\$17,540,000) by deleting the following:
 - (a) City of Los Angeles: Cabrillo Marine Aquarium (\$500,000);
 - (b) San Joaquin County: Micke Grove Zoo: east end exhibit: compliance with American Zoological Society Standards (\$500,000);
 - (c) City of Long Beach: Aquarium of the Pacific (\$1,400,000);
 - (d) City and County of San Francisco: San Francisco Zoo (\$1,000,000);
 - (e) Ararat Eskijian Museum: Project to preserve Armenian history and heritage (\$25,000);
 - (f) City of Laguna Hills: Display items of local paleontological importance (\$150,000);
 - (g) City of Rocklin Historical Transportation and Granite Industry Museum (\$200,000);
 - (h) Central Sierra Historical Society Museum of the Central Valley (\$250,000);
 - (i) City of Morgan Hill: Construction of facilities for wildlife and education (\$500,000);
 - (j) Kern County: Build and equip the San Joaquin Valley Discovery Center in the Kern County Museum in Bakersfield (\$1,500,000);
 - (k) Western Center for Archeology and Paleontology: Construction of the Western Center for Archeology and Paleontology (\$2,015,000);
 - (l) Western Center for Archeology and Paleontology: Construction for the Western Center for Archeology and Paleontology (\$4,500,000);
 - (m) Kern County: Build and equip the San Joaquin Valley Discovery Center in the Kern County Museum in Bakersfield (\$5,000,000);
- (6b) Marine Sanctuary from (\$500,000) to (\$472,000) by reducing \$28,000 from the following:
 - (n) Wildlife Conservation Board: O'Neill Sea Odyssey facilities improvements from (\$500,000) to (\$472,000).

I am deleting and reducing the funding for the above projects to ensure that the various allocations in the 2000 Safe Neighborhood Parks, Clean Water, Clean Air and Coastal Protection Bond Fund are not over subscribed, and that the projects are consistent with the intent and provisions of the 2000 Park Bond.

Specifically, the legislative augmentations for various competitive grants in subschedule (1) are essentially reduced to the level in the May Revision because the

Department of Parks and Recreation needs further opportunity to prepare for the implementation of these grant programs. I am sustaining, however \$1,740,000 for the non-motorized trails grant program, which the Department indicates can be implemented in 2000-01.

Legislative augmentations for subschedules (2a) and (2b) are being deleted because they are duplicative of my May Revision. Further, I am reducing subschedules (2c), (2d) and (2e) to ensure there are sufficient funds in those allocations to meet various bond and program costs.

I am deleting all legislative augmentations in subschedule (3) because those grants only provide funding to five of 40 locally operated State park units. I believe it is more appropriate for the Department to determine the priority use of those bond funds.

I am sustaining all legislative augmentations made from the non-competitive Murray-Hayden allocation of the 2000 Park Bond [subschedule (5)]. To ensure that there are sufficient funds in those allocations to meet various bond and program costs associated with this grant program, I am reducing each legislative augmentation by approximately 5.4 percent.

I am deleting subschedule (6a) because (1) this allocation of the bond is over subscribed, (2) there is insufficient information to determine the merits and benefits of these projects in comparison to other similar projects statewide, and (3) several of these projects do not qualify under this allocation.

I am reducing subschedule (6b) to ensure that there are sufficient funds in that allocation to meet various bond and program costs necessary to implement this grant.

Lastly, I am sustaining the legislative augmentations in subschedules (4) and (6c) with the understanding that the Department will determine if these projects are eligible for funding under the provisions of the 2000 Park Bond.

Item 3790-103-0005—For local assistance, Department of Parks and Recreation. I reduce this item from \$388,000,000 to \$366,522,000 by reducing:

Grants (per capita) from \$388,000,000 to \$366,522,000.

I am reducing this item by \$21,478,000 to ensure that there are sufficient funds in that allocation to meet various bond and program costs necessary to implement and administer this grant over a multiple number of years.

Item 3790-104-0005—For local assistance, Department of Parks and Recreation. I delete this item and Provision 1.

I am deleting the \$200,000,000 legislative augmentation for Roberti-Z'berg-Harris grants because it is premature. Funding will not be allocated until the results of the federal 2000 census are known. Moreover, program complexities warrant a more deliberative process. I am, however, sustaining the per capita bond grant program to begin the allocation of grants to local entities for park and recreation purposes.

I am deleting Provision 1 to conform to this action.

Item 3790-302-0001—For capital outlay, Department of Parks and Recreation. I reduce this item from \$2,350,000 to \$1,200,000 by deleting:

(1) 90.EC.401-Kenneth B. Hahn State Recreation Area: Expansion-Study (150,000),
and by deleting Provision 1;
and by reducing:

(2) 90.KX.100-Acquiring and restoring space to house the Office of Historic Preservation from \$2,200,000 to \$1,200,000.

I am deleting the \$150,000 legislative augmentation to fund additional study work on the Kenneth B. Hahn State Recreation Area Master Plan from funds that were appropriated by the Budget Act of 1999. I direct the Department of Parks and Recreation to fund any additional and necessary study work out of its existing appropriation for master plan development of this State Recreational Area.

I am deleting Provision 1 to conform to this action.

I am reducing the \$2,200,000 legislative augmentation for the acquisition and restoration of office space to house the Office of Historic Preservation to \$1,200,000 to fund higher competing priorities.

Item 3790-302-0005—For capital outlay, Department of Parks and Recreation. I reduce this item from \$141,568,000 to \$25,594,000 by reducing:

- (20) 90.6L.100-Tomales Bay State Park for acquisition and easements from \$5,000,000 to \$1,200,000;
- (43) 90.9H.121-Colonel Allensworth SHP restoration from \$8,000,000 to \$4,000,000;

and by deleting \$108,174,000 for the following projects:

- (1) 90.6F.200-Angel Island Immigration Facility (\$15,000,000);
- (2) 90.E4.200-Chino Hills and Citrus State Historic Park Visitor Center (\$2,600,000);
- (3) 90.RS.200-State Park Playground Upgrades (\$650,000);
- (4) 90.FK.200-Poppy Reserve (\$250,000);
- (5) 90.AN.100-Empire Mine (\$2,500,000);
- (6) 90.8J.100-Colombia State Historic Park (\$250,000);
- (7) 90.RS.417-Redwood Acquisition (\$10,000,000);
- (8) 90.CO.200-Henry Coe State Park Trails and Access (\$500,000);
- (10) 90.6E.100-Pacifica State Beach: Linda Mar State Beach (\$1,000,000);
- (12) 90.GL.100-Verduga Mountains: Restroom, office, contact station, signs, fencing, trails (\$2,000,000);
- (14) 90.EC.103-Improvements to the 5-mile Ballona Creek Trail and Bikeway: public access, staging areas, landscaping, fencing, lighting, and paving (\$2,100,000);
- (18) 90.KY.100-Granite Rock acquisition, Monterey County at Fort Ord Dunes State Park (\$3,500,000);
- (19) 90.KV.103-Los Angeles River: smaller Chinatown Yards project, 6 acres adjacent to river and contiguous to Elysian Park (\$3,770,000);
- (21) 90.FU.100-California Citrus State Historic Park: Improvements project (\$154,000);
- (23) 90.SN.100-Mount Diablo State Park: Rock City Picnic Area (\$275,000);
- (24) 90.HA.106-Anza Borrego Desert State Park: Land Acquisition to expand and rehabilitate existing facilities (\$400,000);
- (26) 90.SN.403-Mount Diablo State Park: Acquisition to preserve 46 acres of land adjacent to Mount Diablo with red-legged frog habitat (\$525,000);
- (27) 90.9J.100-Kings Beach State Recreation Area: Facility Improvements Project (\$1,000,000);
- (28) 90.8U.103-Folsom Lake SRA: Visitor Center Project (\$1,000,000);
- (29) 90.GI.100-Red Rock Canyon State Park: Trail Rehabilitation Project (\$1,000,000);
- (30) 90.E4.100-Providence Mountains SRA: Facility Rehabilitation Project (\$1,000,000);
- (31) 90.3I.100-Shasta SHP: McGlaughlin House Visitor Center (\$1,230,000);
- (33) 90.CO.102-Acquisition of Conservation Easements on the Silacci Ranch adjacent to Henry W. Coe State Park (\$1,500,000);
- (35) 90.H6.100-Cuyamaca Rancho State Park: Green Valley Falls Campground Rehabilitation (\$2,000,000);
- (36) 90.GG.103-Silverwood Lake SRA: Construct New Visitor Center (\$2,200,000);

- (37) 90.3V.100-Bidwell Mansion SHP: Mansion Restoration Project (\$2,255,000);
- (38) 90.GG.102-Silverwood Lake SRA: Rehabilitate Miller Canyon Day Use Area (\$2,500,000);
- (40) 90.CO.103-Acquisition of Conservation Easements in Santa Clara and Stanislaus Counties adjacent to the Henry W. Coe State Park (\$8,000,000);
- (41) 90.GY.100-Purchase Headlands Reserve adjacent to Doheny State Beach (\$18,000,000);
- (42) 90.FB.103-Pio Pico SHP: Restoration Project to provide vital services and facilities for urban youth (\$1,500,000);
- (44) 90.93.100-City of Woodland: Woodland Opera House SHP (\$75,000);
- (45) 90.68.100-Solano County: Benicia State Recreation Area (\$205,000);
- (46) 90.68.100-Solano County: Benicia State Recreation Area (\$205,000);
- (50) 90.5N.103-Mt. Diablo State Park: Facilities Rehabilitation (\$2,000,000);
- (51) 90.GY.100-Coal Canyon acquisition (\$9,000,000);
- (52) 90.5P.100-San Bruno Mountain State Park—San Bruno Mountain, addition (\$405,000);
- (53) 90.G3.100-Antelope Valley Indian Museum: Cultural Artifact Preservation Project (\$500,000);
- (54) 90.8G.100-Marshall Gold Discovery SHP: Gold Discovery Museum (\$1,625,000);
- (55) 90.72.102-John Marsh Home (\$5,000,000); and
- (56) 90.5Y.100-Candlestick Point SRA Volunteer Building (\$500,000)

I am reducing the legislative augmentation for the Tomales Bay State Park acquisition and the Colonel Allensworth SHP restoration project to more accurately reflect the level of effort needed for these two projects.

While consistent with the Safe Neighborhood Parks, Clean Water, Clean Air, and Coastal Protection Bond Fund, I am deleting subschedules 1 through 8 because these proposals are in need of further development and are not yet ready for implementation.

I am deleting the remaining projects because they have not been reviewed by the Department against other competing priority park system needs.

Item 3790-491—Reappropriation, Department of Parks and Recreation. I revise this item by deleting schedule (183) for City of Westminster (\$125,000).

I am deleting the reappropriation for the City of Westminster: Little Saigon Cultural Heritage Museum, Item 3790-101-0001, Budget Act of 1999. Although this project may be meritorious, I am deleting this reappropriation to fund higher competing priorities.

Item 3820-001-0001—For support of San Francisco Bay Conservation and Development Commission. I reduce this item from \$4,967,000 to \$3,807,000 by reducing:

- (a) 10-Bay Conservation and Development from \$5,676,000 to \$4,516,000

I am deleting the \$1,160,000 legislative augmentation, including eight positions and four temporary help personnel years, for the Commission's regulatory and planning programs. My proposed budget for the Commission included an augmentation of \$379,000 to expedite the review of the Bay Plan, augment the enforcement program, and enhance the review of permit applications based on workload information provided by the Commission.

Item 3860-001-0001—For support of Department of Water Resources. I reduce this item from \$194,860,000 to \$193,860,000 by reducing:

- (a) 10-Continuing Formulation of the California Water Plan from \$67,279,000 to \$66,279,000;

and by deleting Provision 5.

I am deleting the legislative augmentation of \$1,000,000 and 4.2 personnel years for a more extensive update of the Department's publication titled "California's Ground-

water” Bulletin 118. The budget already includes \$1,000,000 for the second of three years’ funding to complete this project.

I am deleting Provision 5 to conform to the actions taken in Items 3480-001-0001, 3540-001-0928, 3600-001-0001, and 3940-001-0001.

Item 3860-101-0001—For local assistance, Department of Water Resources. I reduce this item from \$79,360,000 to \$51,200,000 by reducing:

- (b) Flood Control Subventions from \$68,000,000 to \$40,300,000;
 - (c) Grants from \$1,360,000 to \$900,000;
- by deleting \$460,000 for the following project:

- (1) City of Whittier: Flomar Drainage Project (460,000).

I am reducing the legislative augmentations to this item by \$28,160,000 to fund higher competing priorities. I am sustaining \$40,300,000 for local flood control subventions which will allow payment of all claims through June 30, 2001.

Item 3860-101-6006—For local assistance, Department of Water Resources. I delete Provision 1.

I delete Provision 1 which allocates \$300,000 to the Fresno Metropolitan Flood Control District. The proposed use of the allocation is not eligible for funding through the local flood control subvention program.

Item 3910-101-0005—For local assistance, California Integrated Waste Management Board. I reduce this item from \$10,635,000 to \$2,558,000 by reducing:

- (1) 11-Waste Reduction and Management from \$10,635,000 to \$2,558,000, by deleting:

- (b) Special Projects (8,077,000)

- (1) County of Yolo, Town of Clarksburg: Restore and rehabilitate a playground (125,000);
- (2) City of San Diego: Ocean Beach Recreation Center Tot Lot upgrade for ADA compliance (175,000);
- (3) City of Glendale: Public parks ADA compliance (200,000);
- (4) City of San Francisco: Playground upgrades to meet ADA standards (500,000);
- (5) County of Plumas: Play area for youth and ADA compliance (150,000);
- (6) City of El Centro: City Parks playground equipment enhancements (125,000);
- (7) City of Orange: Replacement of tot lots and ADA compliance (75,000);
- (8) Fair Oaks Recreation and Park District: Bannister Park ADA compliance and improvements (50,000);
- (9) City of Willows: Play equipment pathway from recycled materials and ADA compliance (20,000);
- (10) County of Tuolumne: Patterson field play area for kids (25,000);
- (11) City of Anaheim: Play equipment replacement at Peter Marshall, Pearson, Boysen, and Rio Vista Parks (230,000);
- (12) City of Covina: Replace playground and ADA compliance (100,000);
- (13) Fulton-El Camino Recreation and Park District: District playground improvements and ADA compliance (50,000);
- (14) Elk Grove Community Services Center: Clarence Frank Baker Park playground equipment and ADA compliance (50,000);
- (15) Cordova Recreation and Park District: Play structure replacements and ground surface improvements at Larchmont-Rossmoor, Lincoln Village, Hensley and Rosswood Parks (50,000);

- (16) Fulton-El Camino Recreation and Park District: Improvements to area playgrounds and ADA compliance (50,000);
- (17) Elk Grove Community Services District: King Park Tot Lot improvements and ADA compliance (50,000);
- (18) Elk Grove Community Services District: Johnson Park Tot Lot improvements and ADA compliance (50,000);
- (19) Elk Grove Community Services District: Caterino Park Tot Lot and hardscape improvements (75,000);
- (20) City of Palmdale: Replacement of playground equipment at Courson, Manzanita and Pelona Vista Parks (100,000);
- (21) City of Santa Ana: Sand Point Park—Refurbish playground equipment (50,000);
- (22) City of Santa Ana: Santa Anita Park—Renovation and purchase playground equipment (75,000);
- (23) City of Santa Ana: Morrison Park equipment replacement (50,000);
- (24) National City: Installation of ADA approved playground for Kimball Park (50,000);
- (25) East Bay Regional Park District: Camp Ohloine ADA improvements (600,000);
- (26) City of Stockton: City park playground facility upgrade to meet current state requirements (300,000);
- (27) Manhattan Beach: Polliwog Regional Park—New playground equipment (300,000);
- (28) City of Reedley: Mueller Park—Repairs to damaged playground (20,000);
- (29) City of Fresno: Roeding Regional Park playground improvements (75,000);
- (30) City of Tulare: Cecil Berkeley activity center—construction of play structure (20,000);
- (31) City of Lakeport: Westside Community Park—Phase I improvements (250,000);
- (32) City of Watsonville: Playground upgrades and rehabilitation (500,000);
- (33) City of Salinas: Playground upgrades and rehabilitation (500,000);
- (34) City of Ceres: Playground upgrades (887,000);
- (35) City of Fresno: Tree planting (150,000);
- (36) City of San Bernardino: New children's park construction (750,000);
- (37) City of San Bernardino: Purchase new equipment for children's tot lots throughout city and install new tot lot (310,000);
- (38) City of Escondido: Construction of a regional, universal accessible playground in Kit Carson Park (250,000);
- (39) City of Tulare: Construction of a play structure adjacent to the Cecil Berkeley Activity Center (20,000);
- (40) Kern County: Bring Wofford Heights up to ADA standards (60,000);
- (41) Kern County: Bring Mountain Mesa up to ADA standards (60,000);
- (42) Kern County: Bring Scodie Parks up to ADA standards (60,000);
- (43) Livermore Area Recreation and Park District: Karl Wente Neighborhood Park—Renovation of playground equipment (120,000);
- (44) Livermore Area Recreation and Park District: Maitland Henry Neighborhood Park—Renovation of playground equipment (110,000);
- (45) Livermore Area Recreation and Park District: Watenburger Neighborhood Park—Renovation of playground equipment (60,000);
- (46) Livermore Area Recreation and Park District: Ravenswood Neighborhood Park—Renovation of playground equipment (100,000);

(47) Livermore Area Recreation and Park District: Summit Neighborhood Park—Renovation of playground equipment (100,000)

I am deleting the \$8,077,000 legislative augmentation to fund various projects for the purchase of safe playground equipment made from recycled materials. Because the Park Bond only provides \$7,000,000 for the grant program, this augmentation would significantly oversubscribe the program's allocation. Furthermore, it is unclear whether these projects would meet the program's 50 percent local matching requirement, and in the case of the Fresno tree planting project [subschedule (35)], the project is not related to the purchase of safe playground equipment made from recycled materials. Since the Budget already provides \$2,813,000 for the grant program, I believe that qualifying and meritorious projects should be funded through the competitive grant process to be established by the Integrated Waste Management Board.

Item 3930-001-0001—For support of Department of Pesticide Regulation. I reduce this item from \$19,441,000 to \$14,241,000 by reducing:

(b) 17-Enforcement, Environmental Monitoring, and Data Management from \$36,963,000 to \$31,763,000, and by deleting Provisions 2, 3, 4, 5, and 6.

I am deleting the \$5,200,000 legislative augmentation for the University of California Sustainable Agriculture Research Program. The Department already administers a \$1.5 million Pest Management Alliance Program, which funds alternative pest management strategies.

I am deleting Provisions 2, 3, 4, 5, and 6 to conform to this action.

Item 3940-001-0001—For support of State Water Resources Control Board. I reduce this item from \$103,347,000 to \$87,197,000 by reducing:

(a) 10-Water Quality from \$405,339,000 to \$389,189,000; and by deleting Provisions 3 and 4.

I am deleting the following legislative augmentations: \$7,500,000 for University of California total maximum daily load (TMDL) education and research programs, \$2,000,000 for organophosphate TMDL development, and \$2,500,000 for ambient water quality monitoring. I am also reducing the following legislative augmentations: \$1,000,000 of the \$5,000,000 for total maximum daily load development and \$2,500,000 of the \$7,500,000 for storm water management. I am sustaining over \$25,500,000 in the budget for these water quality activities, including \$13,900,000 in new funding. I believe that this significant increase in funding will ensure that the highest priority water quality issues are addressed.

I am deleting the \$500,000 legislative augmentation for storm drain pollutant research by the Southern California Water Research Project to fund higher competing water quality priorities.

I am deleting the \$150,000 legislative augmentation for a study of white croaker fish off the Palos Verdes Shelf. Since the State already has conducted a white croaker fish study, established fish closure boundaries, and received \$3,100,000 in federal funds to enforce the existing fish closure, there is no need for another study.

I am deleting Provision 3 to conform to this action.

I am deleting Provision 4 to conform to actions taken in Items 3480-001-0001, 3540-001-0928, 3600-001-0001, and 3860-001-0001. Although I am deleting this language, I wish to express my commitment to work with the Legislature during the remainder of this session on development of a watershed assessment proposal to address logging-related impacts to salmon and water quality.

Item 3940-101-0001—For local assistance, State Water Resources Control Board. I reduce this item from \$27,155,000 to \$13,365,000 by reducing:

(1.5) Special projects from \$27,155,000 to \$13,365,000;

by deleting \$5,890,000 for the following projects:

- (c) Yucaipa: Water recycling project development and implementation (\$4,000,000);
- (g) Orange County: Top Rate water quality laboratory establishment (\$1,240,000);
- (o) County of Amador: Newton Copper Mine Passivation Technology Pilot Project (\$250,000);
- (q) City of Los Angeles Department of Water and Power: Pacoima Community-based Watershed Management Plan (\$200,000); and
- (r) City of Seal Beach: Boardwalk and Flood Protection Wall Improvement Project (\$200,000);

and by reducing \$7,900,000 for the following projects:

- (a) San Diego: Rose and Tecolote Creek water quality improvement from (\$5,000,000) to (\$2,000,000);
- (b) County of Orange: Urban runoff action plan from (\$4,750,000) to (\$1,000,000);
- (e) County of Siskiyou: McCloud Sewer System replacement project from (\$2,000,000) to (\$1,000,000); and
- (n) City of Santa Rosa: Santa Rosa Creek restoration from (\$250,000) to (\$100,000).

I am deleting and reducing the funding for these projects because of the need to fund higher competing priorities, and in addition, in the case of Yucaipa: Water recycling project development and implementation [subschedule (c)], because this project should be addressed through the Water Resources Control Board's normal application, review, and selection process for funding water recycling and other water quality projects. This budget contains over \$50 million of General Fund augmentations for various water quality, coastal protection, and urban runoff programs. Additional, there are special fund and Proposition 13 Water Bond resources available for these purposes.

Item 3980-001-0001—For support of Office of Environmental Health Hazard Assessment. I reduce this item from \$12,877,000 to \$12,777,000 by reducing:

- (a) 10-Health Risk Assessment from \$17,163,000 to \$17,063,000.

I am deleting the \$100,000 legislative augmentation to evaluate the health and environmental risks of genetically modified organisms. The National Academy of Sciences already has evaluated genetic modification, and additional evaluation by the Office of Environmental Health Hazard Assessment is not an effective use of funds at this time.

Item 4110-001-0001—For support of Area Boards on Developmental Disabilities. I revise this item by reducing:

- (a) 10-Area Board Services from \$7,725,000 to \$7,623,000; and
- (b) Reimbursements from -\$7,585,000 to -\$7,483,000.

I am reducing by \$102,000 the \$283,000 legislative augmentation provided for the Client's Rights Advocacy program because the full amount of the augmentation is not needed to meet workload and contractual obligations.

Item 4120-101-0001—For local assistance, Emergency Medical Services Authority. I reduce this item from \$9,707,000 to \$7,207,000.

I am deleting the \$2,500,000 legislative augmentation for the California Poison Control System. The base budget of \$4,000,000 General Fund and existing federal matching funds fully support the Poison Control System. Consistent with Budget Act language, I am requesting the Director of the Emergency Medical Services Authority to continue to seek this federal fund match to the General Fund dollars appropriated for the California Poison Control System. Such a match was obtained in the current year and should be available again in the budget year. I also support continued efforts to

seek support from stakeholders and others who benefit from the system, such as health plans, insurance companies, hospitals, and physicians' groups.

Item 4140-101-0001—For local assistance, Office of Statewide Health Planning and Development. I reduce this item from \$9,535,000 to \$8,235,000 by reducing:

(b) 30-Health Professions Development (Family Physician Training) from \$7,935,000 to \$6,635,000;

and by deleting provisions 2, 3, 4, and 5.

I am deleting the \$800,000 legislative augmentation for the proposed Physician Assistant Recruitment/Training Program for international medical graduates. I believe that such a program would be duplicative of programs already in place in the Office of Statewide Health Planning and Development, including the Song-Brown program. Existing physician assistant programs funded by Song-Brown currently accept international medical graduates on a competitive basis, and there is no demonstrated need for a separate program.

I am deleting the \$500,000 legislative augmentation for the proposed California Health Service Corps Loan Repayment Program that would provide the match required from medical care and dental service practice sites under an existing federal program, in response to claims that some sites are unable to afford this match. I believe that these sites should be required to make an investment in the health professionals they attract through this program by providing the local match required for participation. Additionally, there is currently insufficient information regarding the number of practice sites that are reportedly unable to provide the match and why these sites are not able to make the match.

Additionally, I am deleting Provisions 2, 3, 4, and 5 to conform to the actions in this item.

Item 4170-001-0001—For support of Department of Aging. I reduce this item from \$8,052,090 to \$7,297,090 by reducing:

(c) 30-Supportive Services and Centers from \$6,312,000 to \$5,696,000;

(d) 40-Special Projects from \$6,325,090 to \$6,103,090; and

(g) Reimbursements from -\$3,060,000 to -\$2,977,000;

and by revising Provision 4.

For community-based programs for seniors, I am sustaining the legislative augmentations of \$371,090 for the Multipurpose Senior Services Program and \$75,000 for the Health Insurance Counseling and Advocacy Program to meet the increased demand for these worthwhile services. I am, however, deleting the augmentations of \$216,000 and 3.8 personnel years for the Ombudsman Program, \$61,000 and 0.9 personnel years for the Linkages Program, and \$161,000 (\$78,000 General Fund and \$83,000 reimbursements) and 1.9 personnel years for the Adult Day Health Care Program. This conforms with action taken in Item 4170-101-0001.

I am also reducing, by \$400,000, the legislative augmentation of \$750,000 for support of my Long-Term Care Innovation Grants Initiative. Of that \$750,000, \$375,000 was for program evaluation and \$375,000 was for technical assistance. I am reducing the amount for the evaluation by \$275,000 since many of the programs will not start until late in the fiscal year. I am reducing the amount for technical assistance by \$125,000, leaving a more appropriate level of funding for the anticipated workload.

Finally, I am revising Provision 4 to conform to the action in this item.

“4. Of the funds appropriated in this item, up to ~~\$375,000~~ \$100,000 shall be used to contract for an evaluation of the programs funded through the Long-Term Care Innovation Grants Program funded by this act. At a minimum, the evaluation shall assess the effectiveness of the grantees at enabling program participants to remain in their homes rather than enter long-term care facilities, with an emphasis on the programs' ability to provide a good quality of life outside of an institutionalized setting. The department shall provide copies of the report to

the fiscal and policy committees of the Legislature by March 1, 2002. In addition, ~~\$375,000~~ \$250,000 shall be used to fund technical assistance, distribution of information, and support of regional conferences to assist in proposal and grant planning and information sharing about effective grant programs.”

Item 4170-101-0001—For local assistance, Department of Aging. I reduce this item from \$66,352,000 to \$55,377,000 by reducing:

- (a) 10-Nutrition from \$69,393,000 to \$68,814,000;
- (c) 30-Supportive Services and Centers from \$59,192,000 to \$55,389,000; and
- (d) 40-Special Projects from \$34,140,000 to \$27,547,000;

and by deleting Provisions 3, 5, 8, and 10, and revising Provision 12.

I am sustaining the legislative augmentations of \$3,321,000 for the Multipurpose Senior Services Program and \$1,190,000 for the Health Insurance Counseling and Advocacy Program. Of the \$4,105,000 augmentation for the Linkages program, I am sustaining \$1,499,000 and deleting \$2,606,000. Additionally, I am deleting a total of \$7,369,000, which the legislature augmented for community-based programs for seniors. These reductions include: \$2,803,000 for the Long-Term Care Ombudsman Program, \$1,644,000 for the Adult Day Health Care Planning and Development Grants Program, \$781,000 for the Foster Grandparent Program, \$781,000 for the Senior Companion Program, \$781,000 for the Information and Assistance Program, and \$579,000 for the Home-Delivered Meals Program.

I am also deleting the legislative augmentation of \$1,000,000 for the construction of a new senior center in the City of Laguna Beach in order to fund higher competing priorities.

This budget includes significant augmentations I have proposed for seniors’ programs. My Aging with Dignity Initiative, which includes augmentations for community-based programs for seniors as well as long-term care facilities, was adopted by the Legislature and contains over \$270 million in new General Fund monies. Of this amount, \$15.2 million of one-time funding is in the Department of Aging to support Long-Term Care Innovation Grants to implement and expand community-based adult care alternatives to nursing homes. I am challenging private foundations to sustain these grants at much higher levels for the next 10 years.

I am deleting Provisions 3, 5, 8, and 10 to conform to this action.

I am also revising Provision 12 to conform to the action in this item.

“12. Of the funds appropriated in this item, ~~\$4,105,000~~ \$1,499,000 shall be used to expand the Linkages Program; ~~\$2,803,000~~ shall be used to expand the Ombudsman Program; ~~\$781,000~~ shall be used to expand the Foster Grandparent Program; ~~\$781,000~~ shall be used to expand the Senior Companion Program; ~~\$579,000~~ shall be used to expand the Home-Delivered Meals Program; and ~~\$781,000~~ shall be used to expand the Information and Assistance Program. Included in this funding are administrative costs for participating Area Agencies on Aging.”

Item 4180-001-0001—For support of Commission on Aging. I delete this item.

I am deleting the legislative augmentation of \$235,000 and 2.8 personnel years for the Commission on Aging. I believe that the current budget for the Commission is sufficient for the accomplishment of its mandated tasks. Further, I continue to believe that the varied non-General Fund sources that contribute to the Commission are the appropriate funding sources.

Item 4200-101-0001—For local assistance, Department of Alcohol and Drug Programs. I reduce this item from \$63,428,000 to \$56,828,000 by reducing:

- (a) 15-Alcohol and Other Drug Services Program from \$384,893,000 to \$378,293,000;

and by deleting Provision 3.

I am deleting the \$4,300,000 legislative augmentation to expand the Adolescent Treatment Program begun under Chapter 866, Statutes of 1998 (AB 1784). The Budget contains over \$420 million in state and federal funds for local drug and alcohol treatment programs including approximately \$20 million for youth treatment and prevention services. Of this amount, \$20.9 million in federal carryover funds has been reserved for youth substance abuse prevention and treatment. I am also sustaining \$5,700,000 for discretionary substance abuse treatment services for youth. Given the existing base budget and the augmentations I am sustaining, which represent more than a doubling of funding for youth services, I am deleting this \$4,300,000.

I am also deleting Provision 3 to conform to this action.

I am reducing by \$2,300,000 the \$10,000,000 legislative augmentation for expansion of alcohol and drug treatment programs for adults. While I am supportive of efforts in this area, I cannot support all of this augmentation as the Budget includes \$420 million for substance abuse and treatment, the majority of which is already used for adult prevention, intervention, and treatment services. I am sustaining the \$7,700,000 to allow the counties to expand services based on local priorities and needs.

Item 4260-001-0001—For support of Department of Health Services. I reduce this item from \$260,472,000 to \$253,233,000 by reducing:

- (1) 10-Public and Environmental Health from \$306,172,000 to \$300,872,000;
- (2) 20-Health Care Services from \$466,633,320 to \$464,139,000; and
- (43) Amount payable from the Federal Trust Fund (Item 4260-001-0890) from -\$296,294,320 to -\$295,739,000.

I am deleting the \$113,000 legislative augmentation and three positions to develop rate models for disabled and elderly persons who are eligible for Medicare and Medi-Cal. This proposal is overly prescriptive as it requires commitment of rate development staff to a narrowly defined, specialized area which may not represent the highest priority at any given point in time. I am also deleting \$113,000 from the Federal Trust Fund, Item 4260-001-0890, to conform with this action.

I am deleting the \$547,000 legislative augmentation and six positions for unannounced hospital inspections. The Budget includes \$47.6 million (General Fund) for the licensing and certification of health facilities, including hospitals. The Department of Health Services (DHS) already investigates complaints involving serious threat of imminent danger of death or serious bodily harm, and is currently developing criteria for evaluation of nurse-patient ratios as required by AB 394, Chapter 945, Statutes of 1999. It is premature to require additional inspection staff at this time.

I am deleting the \$2,000,000 legislative augmentation for the California Health Interview Survey. The 1999-00 Budget Act contained language specifying that no more than \$2,000,000, including federal funds, was to be used for this purpose. The Department of Health Services was also directed to seek any additional funding required for this survey from other non-state sources. Therefore, it is current policy that funding from other sources, including foundations, is to be sought. The initial General Fund augmentation provided in 1999-00 was intended as start-up to be used to match outside sources of funding.

I am deleting the \$239,000 legislative augmentation and five positions for California Children's Services credentialing and increased county and provider site reviews. The Department of Health Services is currently staffed to provide oversight and enforcement of this program. In addition, the department currently performs site reviews and is clearing an existing backlog. Therefore, the additional positions are not necessary.

I am also deleting the \$222,000 from the Federal Trust Fund, Item 4260-001-0890 to conform with this action.

I am deleting the \$3,000,000 legislative augmentation and 11 positions for asthma intervention grants, education, and technical assistance. The Budget contains a \$2.1 million augmentation to provide treatment to asthmatic children under age 6. In addi-

tion, recent significantly increased local resources from health account realignment funds, Proposition 10 and the Master Tobacco Settlement should provide the resources for this program to be funded at the local level, if deemed a priority. Lastly, expansions in the Medi-Cal and Healthy Families Programs should provide increased access to care for all children, including those with asthma.

I am also deleting the \$6,000,000 legislative augmentation in Item 4260-111-0001 to conform with this action.

While I am sustaining the \$2,550,000 legislative augmentation to the California Cancer Registry, I am deleting the six positions added by the Legislature for this purpose. The current staffing level is sufficient to continue thorough and accurate cancer data collection.

I am deleting the \$103,000 legislative augmentation and one position to expand the American Indian Infant Health Initiative. The Budget currently includes \$424,000 to promote the health of American Indian infants. The proposed General Fund augmentation would constitute a 94.3 percent increase and would establish a precedent of providing General Fund for a program that has been funded exclusively by federal funds.

I am also deleting \$297,000 legislative augmentation in Item 4260-111-0001 to conform with this action.

I am deleting the \$238,000 legislative augmentation and six positions for California Children's Services treatment authorization requests and case management assistance. The Budget contains a \$567,000 augmentation and nine positions for this purpose. This augmentation and additional positions are commensurate with the increase in workload, and will provide effective case management and service delivery.

I am also deleting the \$220,320 from the Federal Trust Fund, in Item 4260-001-0890 to conform with this action.

I am deleting the \$180,000 legislative augmentation and two positions to expand the Children's Dental Disease Prevention Program, to conform to the action taken in Item 4260-111-0001.

I am deleting the \$169,000 legislative augmentation and two positions for administrative activities associated with the community-based clinic programs, to conform with the action taken in Item 4260-111-0001.

I am deleting the one-time \$300,000 legislative augmentation for compliance and enforcement of the Safe Needle Law (Chapter 999, Statutes of 1998 [AB 1208]). The Safe Needle Law requires the DHS to compile and make available a list of needle-less systems and needles with engineered needle stick protection. The DHS has complied with the law by compiling a list of these devices. This augmentation is for an educational component to advise health practitioners on better practices. Educational materials on needle-less systems and needles engineered with needle stick protection are currently available. The Administration has not seen workload data to justify this effort. Additionally, while the appropriation was provided on a one-time basis, DHS advises that the need to educate health practitioners would be ongoing. Thus, ongoing General Fund costs would result.

I am deleting the \$150,000 legislative augmentation for a baby abandonment study. Although this program may have merit, considerable research has been conducted in this area, and further research should be considered as part of legislative efforts currently being developed.

I am deleting the \$200,000 legislative augmentation to the Granada Hills Community Hospital for the Maternity Services Expansion Program. While I am supportive of maternity health services, the Medi-Cal, Healthy Families, and Access for Infants and Mothers (AIM) programs already provide comprehensive prenatal and perinatal care to low-income California residents.

Item 4260-001-0890—For support of Department of Health Services. I reduce this item from \$296,294,320 to \$295,739,000.

I am reducing this item by \$555,320 to conform with actions taken in Item 4260-001-0001.

Item 4260-101-0001—For local assistance, Department of Health Services. I reduce this item from \$9,236,793,000 to \$9,193,054,000 by reducing:

- (a) 20.10.030-Benefits (Medical Care and Services) from \$21,004,224,000 to \$20,934,334,000;
- (b) 20.10.010-Eligibility (County Administration) from \$1,223,185,000 to \$1,205,185,000;
- (e) Amount payable from the Federal Trust Fund (Item 4260-101-0890) from -\$13,213,096,000 to -\$13,168,945,000;

and by deleting Provisions 13,15,16, 18 and 19.

I am deleting the \$5,359,000 General Fund legislative augmentation for long-term care rate increases for intermediate care facilities for the developmentally disabled. I am supportive of the services provided by these facilities; however, the budget already contains \$13,424,000 General Fund for an 8.9 percent average rate increase for these facilities. In addition, I am deleting \$5,359,000 from the Federal Trust Fund, Item 4260-101-0890, to conform to this action.

I am deleting the \$2,950,000 legislative augmentation for transfer to the Emergency Services and Supplemental Payments Fund to be allocated by the California Medical Assistance Commission for the first year of a two-year pediatric nurse intern program. Although I have sustained a one-time \$12,000,000 General Fund appropriation for equipment and capital improvements for Children's Hospitals, I do not support appropriations to this fund that are not of a one-time nature. Contributions to this special fund, which are then matched by federal funds, should continue to be made by the public hospitals themselves, not by the State. In addition, I am deleting \$2,950,000 from the Federal Trust Fund, Item 4260-101-0890, and am deleting Provision 13, to conform to this action.

I am deleting the \$1,000,000 legislative augmentation for increased Medi-Cal outpatient rates for hospitals qualifying for federally defined critical access hospital status. The intent is to enable Medi-Cal to match the higher Medicare reimbursement rate for those hospitals. The May Revision includes \$2,000,000 to double the funding of the existing program of supplemental payments to small and rural hospitals, many of which are the same hospitals intended to benefit from this legislative augmentation. Further, any attempt to tie Medi-Cal rates to those under the Medicare program would reduce the State's rate-setting flexibility and create a General Fund pressure to provide increased rates to all other providers. In addition, I am deleting \$1,000,000 from the Federal Trust Fund, Item 4260-101-0890, to conform to this action.

I am reducing by \$2,630,000 the \$5,542,000 legislative augmentation to increase reimbursement rates for Medi-Cal pap smears. Rate increases included in the May Revision already provide a 53 percent increase, which is sufficient to maintain access to these important services. I am deleting \$2,630,000 from the Federal Trust Fund, Item 4260-101-0890, to conform with this action.

I am deleting the \$9,347,000 legislative augmentation to increase Medi-Cal dental rates. These rates have increased significantly more than other Medi-Cal rates as a result of the Clark lawsuit. Therefore, the average 6.8 percent rate increase included in the May Revision is sufficient. I am also deleting \$9,347,000 from the Federal Trust Fund, Item 4260-101-0890, to conform with this action.

I am deleting the \$9,000,000 legislative augmentation for processing Healthy Families and Medi-Cal applications through a single point-of-entry. Although I support processes that will simplify these two programs and contribute to increased enrollment, this proposal is the most costly and complex means possible of interpreting the

Medi-Cal mail-in application requirement, and would add a new and unnecessary layer of state administration and contracted services. Further, this proposal would actually delay the Healthy Families Program application approval. I am also deleting \$9,000,000 from the Federal Trust Fund, Item 4260-101-0890 and deleting Provision 19 to conform with this action.

I am deleting the \$7,500,000 legislative augmentation to provide a \$25 facility fee for each special care center visit provided to Medi-Cal eligible children under the California Children's Services (CCS) program. The budget includes \$5 million to increase rates for services provided to CCS children receiving care in these centers, including those who are Medi-Cal eligible. In addition, I am sustaining augmentations which result in a 39 percent CCS physician rate increase. I am deleting \$7,500,000 from the Federal Trust Fund, Item 4260-101-0890, to conform with this action.

I am reducing by \$5,193,000 the \$13,519,000 legislative augmentation to conform to actions taken in Item 4300-101-0001 related to In-Home Respite and Day Programs in the Department of Developmental Services. In addition, I am reducing \$5,482,000 from the Federal Trust Fund, Item 4260-101-0890, to conform to this action.

I am reducing by \$760,000 the \$2,584,000 legislative augmentation to conform to the action taken in Item 4300-101-0001 related to supported living services rates. In addition, I am reducing \$800,000 from the Federal Trust Fund, Item 4260-101-0890, to conform with this action.

I am deleting the \$83,000 legislative augmentation of the Federal Trust Fund, Item 4260-101-0890, to conform to the action taken in Item 4170-001-0001 regarding increased administrative costs associated with the Adult Day Health Care program in the Department of Aging.

I am deleting Provision 15 which would require the Department of Health Services (DHS) to implement a simplified appeals system for denied emergency room Medi-Cal claims. This language is unnecessary as DHS has already begun the process of implementing a simplified claims appeals process.

I am deleting Provision 16 which would require DHS to conduct a second, more comprehensive evaluation of the Transitional Inpatient Care Program. The first evaluation of this program was completed in January 2000. A second evaluation of this program would result in unnecessary administrative costs to DHS. It is already proven that this program allows Medi-Cal to purchase this level of care from hospitals at a savings of over \$15 million General Fund annually.

I am sustaining the \$10,700,000 General Fund one-time legislative augmentation for distinct part nursing facilities, but am deleting Provision 18 because it would require a significant and unacceptable departure from existing rate methodology, a public notice process, a change in the state's Medicaid plan, and approval by the federal government of that change. Instead, I am directing the Department of Health Services (DHS) to allocate these funds, not as a change in the rate of payment, but as a one-time, lump-sum supplemental payment, on or about February 1, 2001, to each distinct part nursing facility which receives the maximum rate for the 2000-01 rate year, distributed in proportion to each such facility's 1999 distinct part nursing facility Medi-Cal patient days.

Item 4260-101-0890—For local assistance, Department of Health Services. I reduce this item from \$13,213,096,000 to \$13,168,945,000.

I am reducing this item to conform to the action I have taken in Item 4260-101-0001.

Item 4260-111-0001—For local assistance, Department of Health Services. I reduce this item from \$498,973,000 to \$450,978,000 by reducing:

- (4) 10.30.030-Childhood Lead Poison Prevention from \$8,500,000 to \$2,500,000;
- (5) 10.30.040-Chronic Diseases from \$139,486,000 to \$139,466,000;
- (6) 10.30.050-Communicable Disease Control from \$67,984,000 to \$66,604,000;
- (7) 10.30.060-AIDS from \$252,537,000 to \$245,537,000;

- (8) 20.30-County Health Services from \$130,399,000 to \$95,318,000;
 - (9) 20.40-Primary Care and Family Health from \$1,480,882,000 to \$1,448,965,000;
 - (15) Amount payable from the Hospital Services Account, Cigarette and Tobacco Products Surtax Fund (Item 4260-111-0232) from -\$79,680,000 to -\$70,665,000;
 - (16) Amount payable from the Physician Services Account, Cigarette and Tobacco Products Surtax Fund (Item 4260-111-0233) from -\$9,166,000 to -\$6,838,000;
 - (17) Amount payable from the Unallocated Account, Cigarette and Tobacco Products Surtax Fund (Item 4260-111-0236) from -\$67,517,000 to -\$45,457,000;
- and by deleting Provisions 7 and 9.

I am deleting the \$350,000 legislative augmentation for continuation and expansion of the California Children's Services Assistance to Children At Home Demonstration Project. Although preliminary outcomes of this program have been positive, I cannot support expansion of the pilot project until a complete evaluation of the program can be conducted and its cost effectiveness demonstrated.

I am deleting the \$440,000 legislative augmentation to provide the varicella vaccine to public health clinics for children not eligible under state-funded health care programs. Although I recognize the importance of disease prevention, the State currently provides the varicella vaccine to children enrolled in Medi-Cal and the Healthy Families Program. In addition, recent increased local funding in excess of \$1.1 billion from the Children and Families Commission, local realignment health account funds, and the Master Tobacco Settlement should provide resources to fund this program at the local level.

I am deleting the \$340,000 legislative augmentation to assist county health departments to monitor parolees with tuberculosis. This augmentation could be funded using local resources. In 2000-01, local realignment funds are estimated to increase by \$93.6 million. In addition, the Master Tobacco Settlement awards local government in California an additional \$389 million. These funds may be used for any public health purpose deemed a local priority. Further, the Medi-Cal program has been expanded and will improve access to care.

I am deleting the \$1,000,000 legislative augmentation for an expansion of the HIV/AIDS partner counseling and referral pilot program. The Budget provides \$1.4 million for continuation of the five-county pilot program begun in 1999-00. While I am supportive of the pilot programs, expansion of this program should be delayed until an analysis of the existing pilot is available and the effectiveness of the program is determined.

I am reducing \$6,000,000 of the \$8,000,000 legislative augmentation for HIV/AIDS health outreach, education, and prevention for communities of color. The Budget currently includes \$3.6 million for these activities. This \$2,000,000 augmentation, when combined with all other HIV/AIDS augmentations, results in a Budget which contains increases of \$12.7 million. These augmentations and the existing base level of funding result in total HIV/AIDS program expenditures in excess of \$325 million. This provides significant resources to fight the spread of the disease.

I am deleting the \$600,000 legislative augmentation to provide the Hepatitis A vaccine to public health clinics for individuals not eligible under state-funded programs. The State currently provides the Hepatitis A vaccine to individuals enrolled in Medi-Cal and the Healthy Families Program. In addition, recent increased local funding in excess of \$1.1 billion from varied fund sources provide the resources for this program to be funded at the local level.

I am also deleting Provision 9 to conform with this action.

I am deleting the \$6,000,000 legislative augmentation for asthma intervention grants, education, and technical assistance to conform with actions taken in Item 4260-001-0001.

I am deleting the \$297,000 legislative augmentation to expand the American Indian Infant Health Initiative to conform with actions taken in Item 4260-001-0001.

I am deleting the \$9,528,000 legislative augmentation for local public health subvention. The 2000-01 Budget provides \$1.6 million for this purpose. In 2000-01, local realignment health education funds are estimated to increase by \$93.6 million. In addition, the 1998 Master Tobacco Settlement awards local governments in California an additional \$389 million. These funds may be used for any public health purpose deemed a local priority. Further, the Medi-Cal and Healthy Families programs have been expanded and will improve access to care, and reduce the demand on local public health programs.

I am also deleting Provision 7 to conform with this action.

I am reducing this item by \$24,803,000. My January Budget proposal directed this augmentation to emergency room physicians and hospital services. Because the Legislature did not adopt the proposed enabling trailer bill language, I am deleting the augmentation. However, I am reserving these funds and will sign legislation authorizing their expenditure for emergency services as originally proposed.

To conform with this action, I am also reducing Item 4260-111-0232 by \$9,015,000; Item 4260-111-0233 by \$2,328,000; and Item 4260-111-0236 by \$13,460,000.

I am deleting the \$15,000,000 one-time legislative augmentation for community-based clinic dental infrastructure grants. These grants are to be allocated specifically for the purchase of dental equipment and to renovate or expand dental facilities. For each of the last three years, the budget included \$3 million for the Rural Demonstration Project. These funds were provided for local infrastructure, including equipment. In addition, I have sustained a \$50 million legislative augmentation for the California Health Facilities Financing Authority. These funds will provide grants for capital outlay needs including those of dental programs of local community and free clinics. Additionally, this proposal could be funded using local resources if deemed a local priority.

I am deleting the \$1,500,000 legislative augmentation for the Indian Health Clinic Program. The Budget Act of 1999 provided a \$2 million General Fund augmentation to Indian Health Clinics, increasing the base from \$3.8 million to \$5.8 million. The May Revision provides an additional 10 percent increase (\$587,000 General Fund). Including the amount provided in the May Revision, the program has increased by 65 percent since 1998. In addition, expanded Medi-Cal and Healthy Families services will improve access to health care for all Californians, including Native Americans, and mitigate the need for further categorical program expansion.

I am reducing by \$1,750,000 the \$3,400,000 legislative augmentation for the Children's Dental Disease Prevention Program. This augmentation would provide dental sealants, increase reimbursements to providers from \$4.50 to \$10 per child in the program, and would expand the program from its current 300,000 to 475,000 children. I am sustaining \$1,650,000 which would provide funding for increased rates at the current caseload of 300,000 children. However, the remaining \$1,750,000 would constitute a state-funded program expansion that could be funded using local resources including increased local realignment health account funds of \$93.6 million, the recent Master Tobacco Settlement awards of \$389 million, and Proposition 10 funds of \$573 million.

I am also deleting \$180,000 in Item 4260-001-0001 to conform with this action.

I am deleting the \$3,000,000 legislative augmentation for community-based clinic programs. The Legislature accepted my proposal of a ten percent rate increase for community-based clinics, and provided funding for a caseload expansion of

27.2 percent. Expanded Medi-Cal and Healthy Families services will improve access to health care for all Californians, and mitigates the need for further program expansion. In addition, in 2000–01, local realignment health account funds are estimated to increase by \$93.6 million and the recent Master Tobacco Settlement awards local government in California an additional \$389 million. These funds may be used for any public health purpose deemed a local priority.

I am also deleting the legislative augmentation of \$169,000 and two positions in Item 4260-001-0001 to conform to this action.

I am also deleting the legislative augmentation of \$8,600,000 in Item 4260-111-0236 to conform to this action.

I am deleting the \$10,000 legislative augmentation for the San Diego County Alzheimer's Association Program and the \$10,000 legislative augmentation for the Orange County Alzheimer's Association Program. I am supportive of additional Alzheimer's education efforts, and the Budget includes \$2.4 million for a one-time public education campaign on state-of-the-art best practices in the clinical care of Alzheimer's disease.

I am deleting the \$100,000 legislative augmentation for the Vietnamese Community of Orange County, Inc. Although this project is meritorious, I am vetoing this legislative augmentation in order to fund higher competing priorities.

I am deleting the \$50,000 legislative augmentation for the Maternal Outreach Management System, Santa Ana. I am supportive of outreach, education, and support for soon-to-be mothers; however, the Medi-Cal, Healthy Families, and Access for Infants and Mothers (AIM) programs already provide comprehensive prenatal and perinatal care to California residents.

I am deleting the \$250,000 legislative augmentation to the Santa Barbara County Public Health Department for dental clinic equipment. In this budget, I have sustained a \$50 million legislative augmentation for the California Health Facilities Financing Authority. These funds will provide grants for capital outlay needs of local community and free clinics, including dental programs. Additionally, this proposal could be funded using local resources if deemed a local priority.

I am deleting the \$750,000 legislative augmentation to the Southern Inyo Hospital for seismic retrofitting. I am deleting this legislative augmentation to fund higher competing priorities.

I am deleting the \$20,000 legislative augmentation to La Clinica de la Raza for community outreach. While community outreach for clinical services may have merit, expanded Medi-Cal and Healthy Families services already include substantial outreach efforts.

I am deleting the \$1,000,000 legislative augmentation to the County of San Mateo for the establishment of the East Palo Alto Family Clinic. While this program may have merit, expanded Medi-Cal and Healthy Families services will improve access to care for low-income Californians, including family clinical services. I am sustaining \$50 million in this budget for a new primary care clinic grant program under the California Health Facilities Financing Authority.

Item 4260-111-0232—For local assistance, Department of Health Services. I reduce this item from \$79,680,000 to \$70,665,000.

I am reducing this item by \$9,015,000 to conform to the actions taken in Item 4260-111-0001.

Item 4260-111-0233—For local assistance, Department of Health Services. I reduce this item from \$9,166,000 to \$6,838,000.

I am reducing this item by \$2,328,000 to conform with the action taken in Item 4260-111-0233.

Item 4260-111-0236—For local assistance, Department of Health Services. I reduce this item from \$67,517,000 to \$45,457,000.

I am reducing this item by \$22,060,000 to conform with actions taken in Item 4260-111-0001.

Item 4260-117-0001—For transfer by the Controller from the General Fund to the Human Leukocyte Antigen Testing Fund (1002). I delete this item.

I am deleting the \$1,500,000 legislative augmentation for transfer to a newly established fund for blood collection and human leukocyte antigen typing for use in bone marrow transplantation. Human leukocyte antigen typing is currently available through some blood banks or donor centers. In addition, some health plans cover human leukocyte antigen testing for use in bone marrow transplantation. Also, providing widespread coverage of human leukocyte antigen typing may not be warranted, as bone marrow treatments are considered experimental in some cases. Lastly, providing one-time General Fund resources for this program could create pressure for ongoing General Fund resources when the initial funds are depleted.

Item 4260-117-1002—For local assistance, Department of Health Services. I delete this item.

I am deleting the \$1,500,000 legislative augmentation for blood collection and human leukocyte antigen typing to conform with the action taken in Item 4260-117-0001.

Item 4280-112-0236—For transfer by the Controller upon notification from the Department of Finance from the Unallocated Account, Cigarette and Tobacco Products Surtax Fund to the Major Risk Medical Insurance Fund. I reduce this item from (\$10,000,000) to (\$5,000,000) and delete Provision 1.

I am reducing the one-time legislative augmentation for the Major Risk Medical Insurance Program to maintain its current enrollment level and to partially fund coverage of persons on the waiting list. As Proposition 99 is a declining revenue source, reserves will be needed for other high priority programs, including the growing Access for Infants and Mothers program. Further, the Legislature and the insurance industry should work together over the next year to develop market-based solutions to providing coverage to persons with resources but reduced access to private health insurance.

I am deleting Provision 1 to conform to this action.

Item 4300-003-0001—For support of Department of Developmental Services, for Developmental Centers. I delete Provisions 5 and 6 and sustain Provisions 7 and 8.

I am deleting Provision 5, which would require the Department of Developmental Services (DDS) to terminate the janitorial contracts currently in effect at the five developmental centers and rebid the contracts to include health benefits for the contract janitorial workers. The language for this item also requires DDS to use \$2 million of its existing developmental center funding to provide these health benefits. The language in Provision 5 is unnecessary because the department already has authority to amend existing contracts to add health benefits for janitors. Further, the language requires DDS to use its existing funding to provide health benefits to its developmental center janitors. This Budget provides a total of \$6 million, to be allocated by the Department of Finance, to fund health benefits for contract janitorial services on a statewide basis. Language is also included which authorizes augmentation of the amounts appropriated for this purpose. Thus, Provision 5 is unnecessary.

I am also deleting Provision 6, which would require the Department of Developmental Services to rescind the Mitigated Negative Declaration it approved on February 9, 1999, for the project known as the Facility and Security Improvements to Accommodate New Forensic and Specialized Behavior Programs at Lanterman Developmental Center. This rescission, related to facility and security improvements at

Lanterman, would negate the ruling of the court in the State's favor regarding the placement of specific client categories at this facility and expose the state to attorneys' fees.

I am sustaining Provision 7, which prohibits placement of forensic clients at Lanterman Developmental Center, as the State does not intend to place any forensic patients at Lanterman Developmental Center.

I am also sustaining Provision 8, which limits the type and number of behaviorally disturbed developmentally disabled clients that may be housed at Lanterman Developmental Center and is consistent with the type and number of clients associated with this project.

Item 4300-101-0001—For local assistance, Department of Developmental Services, for Regional Centers. I reduce this item from \$999,955,000 to \$980,834,000 by reducing:

- (b) 10.10.020-purchase of Services from \$1,523,639,000 to \$1,489,483,000;
- (f) Reimbursements from -\$856,393,000 to -\$844,158,000; and
- (h) Amount payable from Developmental Disabilities Services Account (Item 4300-101-0496) from -\$3,800,000 to -\$1,000,000.

I am reducing the legislative augmentation of \$41,918,000 by \$27,546,000 (\$16,871,000 General Fund and \$10,675,000 reimbursements) for rate increases for day program and in-home respite care providers. The 2000-01 Budget provides \$66,300,000 (\$33,800,000 General Fund) for a 10 percent increase in wages for Day Program and In-Home Respite Care workers. In addition, my proposal included a 5 percent rate increase for the administrative cost of wage increases, which was omitted by the Legislature. Thus, this Budget provides for an approximate overall 8.5 percent rate increase. Funding for the administrative cost is necessary to ensure that the wages are increased as authorized, and to ensure that services are not reduced to fund the administrative costs of increased wages.

I am reducing the \$12,954,000 legislative augmentation for rate increases for supported living services (SLS) providers by \$3,810,000 (\$2,250,000 General Fund and \$1,560,000 reimbursements) to bring the rate increases for these caregivers into parity with increases provided to caregivers providing similar services to developmentally disabled clients, such as Day Program and In-Home Respite providers. The remaining augmentation, combined with the 3 percent increase for SLS providers included in the 2000-01 budget, will provide a rate increase for SLS providers commensurate with increases for other caregivers which average 10 percent for salaries and wages and 5 percent for the administrative cost of the increases.

I am deleting the \$2,800,000 Developmental Disabilities Services Account legislative augmentation provided for Affordable Housing Projects. Although this project may be meritorious, I am deleting the legislative augmentation for the program because it would deplete the fund. Further, this augmentation was not provided on a one-time basis, and no future source of funding has been identified to continue the project beyond 2000-01. The level of funding proposed in my Budget would allow the program to continue to provide eligible services to the developmentally disabled for approximately five years.

Item 4300-101-0496—For local assistance, Department of Developmental Services. I reduce this item from \$3,800,000 to \$1,000,000.

I am reducing this item by \$2,800,000 to conform to actions taken in Item 4300-101-0001.

Item 4300-490—Reappropriation, Department of Developmental Services. I revise this item by deleting Provision 2.

I am deleting Provision 2. I believe this language is unnecessarily restrictive and would have required that \$4,000,000 in unexpended funds for the purchase of services

for regional center clients be reappropriated and transferred to the Department of Health Services for the California Birth Defects Monitoring Program to research causes of autism, cerebral palsy, and mental retardation. Typically, this item is used to reappropriate unexpended purchase of service funds for use in the following year to expand the services available for regional center clients. This transfer would make less money available for the developmentally disabled. Although the proposed research is meritorious, I do not concur with the means adopted by the Legislature to fund the research. I have sustained a \$30 million augmentation in the budget for the University of California (UC) Medical Investigation Neurodevelopmental Disorder (MIND) Institute, which provides research into brain development and genetic causes of developmental disorders. I am requesting the UC to use \$4,000,000 of this \$30 million augmentation to contract with an appropriate organization to continue the research started regarding the causes of autism, cerebral palsy, and mental retardation.

Item 4440-001-0001—For support of Department of Mental Health. I reduce this item from \$31,943,000 to \$29,925,000 by reducing:

(a) 10-Community Services from \$34,465,000 to \$31,714,000;

(e) Reimbursements from -\$11,039,000 to -\$10,306,000;

and by deleting Provision 4.

I am deleting the \$150,000 General Fund legislative augmentation related to the Early Intervention Program to conform to my action taken in Item 4440-101-0001.

I am deleting the \$70,000 (\$35,000 General Fund and \$35,000 reimbursements) legislative augmentation and one position for Early and Periodic Screening, Diagnosis, and Treatment Technical Assistance; \$2,092,000 (\$1,394,000 General Fund and \$698,000 reimbursements) legislative augmentation and six positions for mental health managed care accountability and oversight; and \$139,000 General Fund legislative augmentation and two positions for state oversight of county Children's System of Care programs. Given the high vacancy rates, which led to a reduction of 50 positions in the Department of Mental Health, additional positions are not needed. The department is already charged with oversight responsibility and the provision of technical assistance for all mental health programs. The department may also redirect positions if necessary.

I am deleting the \$300,000 General Fund legislative augmentation for an independent evaluation of the Mental Health Rehabilitation Center (MHRC) model. The Department of Mental Health is already required to complete an evaluation of the MHRC model. In addition, the department has the necessary expertise and sufficient resources to complete the required evaluation. Therefore, this augmentation is unnecessary and would duplicate current efforts.

I am deleting Provision 4 because it directs the Departments of Mental Health and Health Services to establish a long-term care mental health innovation workgroup to develop options and recommendations for improving existing models of community-based long-term care without providing any resources with which to accomplish this task. More importantly, county mental health directors are free to seek input regarding program improvements as needed.

Item 4440-011-0001—For support of State Hospitals, Department of Mental Health. I reduce this item from \$400,789,000 to \$400,066,000 by reducing:

(b) 20.20-Long-Term Care Services-Penal Code and Judicially Committed from \$401,897,000 to \$401,174,000.

I am reducing this item by \$723,000 to adjust for State Hospital population changes. These funds are not needed because the number of State-supported patients is lower than the estimated level. This reduction corrects an error in the level of funding provided for State Hospital population.

Item 4440-101-0001—For local assistance, Department of Mental Health. I reduce this item from \$181,210,000 to \$144,960,000 by reducing:

(a) 10.25 Community Services—Other Treatment from \$829,760,000 to \$793,510,000; and by deleting Provision 5.

The Budget sent to me included a Mental Health Initiative totaling approximately \$214 million (\$201 million General Fund) of which \$123 million (\$111 million General Fund) was proposed in the May Revision of my budget. I am sustaining \$155 million (\$151 million General Fund) of this amount for new and/or expanded programs which are included in the budget to meet specific over-arching mental health goals. Priority for funding has been given to programs that have proven effective in preventing institutionalization and hospitalization, and in reducing crime and meeting other goals and objectives these programs are designed to achieve. I am sustaining \$155 million for the establishment and expansion of various programs, including: Mentally Ill Offender Crime Reduction Grants (\$50 million in the Board of Corrections); Integrated Services to Homeless Adults (\$35 million); Supportive Housing programs (\$25.1 million); statewide expansion and full funding for the Children's System of Care (\$15.5 million); expansion and enhancement of substance abuse prevention and treatment services to youth and adults (\$13.4 million in the Department of Alcohol and Drug Programs); establishment of local crisis intervention and stabilization assistance services (\$6 million); Caregiver Resource Centers (\$3 million); and dual diagnosis programs for underserved populations (\$2 million).

Including the base budget of approximately \$863 million for these programs, a total of over \$1 billion is provided in the 2000–01 Budget. This represents an overall increase of 19 percent. However, the increases provided are significant and vary by program, as follows: 15 percent overall increase for programs within the Department of Alcohol and Drug Programs, with youth programs receiving a 43 percent increase; a 28 percent increase for programs within the Department of Mental Health; and a 122 percent increase for crime reduction programs within the Board of Corrections. I am sustaining the augmentations described above; I am vetoing \$50 million General Fund as indicated below.

I am deleting the \$2,850,000 legislative augmentation to establish an Early Intervention Program. This new program would provide mental health services for infants and toddlers from birth to age three. Counties are charged with providing mental health services to residents and have been provided funding for these services through Realignment. To the extent new categorical programs are established, the responsibility for funding such programs shifts back to the State. The establishment of new categorical programs and the shift of funding responsibility back to the State for these categorical programs, circumvents the basic principles underlying Realignment, complicates program operations and administration, and reduces the counties' flexibility and responsibility to prioritize programs and determine appropriate funding levels to best meet the needs of individual local jurisdictions. Further, under my mental health proposal, the Children's System of Care (CSOC) is now fully funded statewide. If counties desire to provide these services to children from birth to age three, these services can be provided through existing Realignment or CSOC funding. Therefore, I am deleting this augmentation.

I am deleting the \$8,000,000 legislative augmentation for Alternative Residential Treatment Models for Adults. Currently, counties are fiscally responsible for clients placed in Institutes for Mental Disease and Mental Health Rehabilitation Centers. Although the Legislature included funding for these pilot projects, implementing alternative residential models would create an expectation of funding for such programs on a statewide basis, likely costing significantly more than the amount provided. Therefore, I am deleting this augmentation.

I am deleting the \$3,000,000 legislative augmentation for Community Treatment Facilities (CTFs). This augmentation would fund, as a State-only cost, a CTF supplemental rate of up to \$2,500 per child per month in addition to the amounts paid monthly per child as determined by the Department of Social Services' rate classification level (RCL) system. The RCL system is used to determine the amount paid to a facility based on numerous factors including basic sustenance costs plus the costs for services provided by the facility such as various therapeutic services.

Potential CTF providers are seeking an additional amount, \$2,500 per child per month, in addition to the RCL payment. Until a CTF is activated and actually serving clients, no basis will exist to ascertain whether the additional payment is necessary to meet the needs of the child. Therefore, I am deleting this augmentation.

I am reducing by \$6,900,000 the \$42,500,000 legislative augmentation for Integrated Services for Homeless Adults. I proposed \$6,900,000 in Substance Abuse and Mental Health Services Administration (SAMHSA) federal block grant funds for this program. The Legislature replaced the federal funds with \$6,900,000 from the General Fund. I am supportive of efforts in this area, but I believe that federal funds should also be used when available for this purpose. Therefore, I am deleting the General Fund augmentation, which replaced the federal funding I proposed, and am directing the Department of Mental Health to submit a Section 28.00 application to request federal funding reduced from other programs to be used for this program. This action conforms to my action taken on the related federal funds in Item 4440-101-0890. I am deleting the \$5,500,000 legislative augmentation for suicide prevention, education, and gatekeeper training. This augmentation would establish a new program to provide local suicide prevention services. Counties are charged with providing mental health services to residents and have been provided funding for these services through Realignment. To the extent new categorical programs are established, the responsibility for funding such programs reverts to the State. The creation of new categorical programs and the shift of funding responsibility back to the State for these categorical programs, circumvents the basic principles underlying Realignment, complicates program operations and administration, and reduces the counties' flexibility and responsibility to prioritize programs and determine appropriate funding levels to best meet the needs of individual local jurisdictions. If counties desire to provide this training, the program can be implemented and supported through existing resources. Therefore, I am deleting this augmentation.

I am deleting the \$10,000,000 legislative augmentation for the Respite Assistance Program. This augmentation would provide resources for local respite assistance services and could constitute a new state-funded entitlement program. Counties are charged with providing mental health services to residents and have been provided funding for these services through Realignment. To the extent new categorical programs are established, the responsibility for funding such programs reverts to the State. The creation of new categorical programs and the shift of funding responsibility back to the State for these categorical programs, circumvents the basic principles underlying Realignment, complicates program operations and administration, and reduces the counties' flexibility and responsibility to prioritize programs and determine appropriate funding levels to best meet the needs of individual local jurisdictions. If counties desire to provide respite assistance programs, such programs can be implemented and supported through existing resources.

I am deleting Provision 5, which would require development of a plan for mental health program quality improvement to conform to action taken in Item 4440-001-0001.

I am sustaining \$30,000 for the Armenian Relief Society psychological outreach program. However, I am sustaining this augmentation on a one-time basis, to fund the program only through June 30, 2001.

Item 4440-101-0890—For local assistance, Department of Mental Health. I reduce this item from \$48,114,000 to \$40,214,000 by reducing:

(a) 10.25-Community Services-Other Treatment from \$44,264,000 to \$36,364,000.

I am deleting the \$4,900,000 legislative augmentation for Client and Family Empowerment Challenge Grants. I proposed to use these Substance Abuse and Mental Health Services Administration (SAMHSA) federal funds to augment integrated services for homeless adults, a program that has proven to be successful and cost-effective. The Legislature, instead, used the federal funds to establish Client and Family Empowerment Challenge Grants, a new program without specific details and goals. This program would fund local services and could create an expectation of establishing a new statewide, State-funded program. Counties are charged with providing mental health services to residents and have been provided funding for these services through Realignment. Counties currently have funding and the authority to create local programs, such as this, at county discretion. Further, under my mental health proposal, the Children's System of Care, which also provides services to children and their families, is fully funded. If counties desire to provide these services, such services can be implemented and supported through existing resources. Therefore, I am deleting this augmentation and setting aside the funds for other purposes, as noted below.

I am also deleting the \$3,000,000 legislative augmentation for the Older Adult Pilot Program. I proposed \$2,015,000 for this purpose based on my assessment of what would be reasonable for a new pilot program, given planning and contracting lead times. I believe the \$2,015,000 I proposed is reasonable; therefore, I am deleting this augmentation and setting aside the funds for other purposes.

I am directing the Department of Mental Health to submit a Section 28.00 application to request that the entire \$7,900,000 in federal funds, made available by the above deletions, be used for integrated services for homeless adults.

Item 4440-102-0001—For local assistance, Department of Mental Health (Proposition 98) for early mental health services. I reduce this item from \$20,000,000 to \$15,000,000 and delete Provision 1.

I am deleting the \$5,000,000 legislative augmentation for the Early Mental Health Initiative. There is currently \$15,000,000 for this program allocated to public elementary schools. While this augmentation would serve to expand the program, this increase would cause a permanent increase in the Proposition 98 base. Therefore, I am deleting the augmentation.

Consistent with the funding reduction, I am also deleting Provision 1, which would have expanded the program to 4th through 6th grade.

Item 4700-101-0001—For local assistance, Department of Community Services and Development. I reduce this item from \$13,450,000 to \$13,000,000 by reducing:

(b) 47-Naturalization Services from \$7,450,000 to \$7,000,000.

I am deleting the \$400,000 legislative augmentation for the Los Angeles County Department of Community Senior Services and the \$50,000 legislative augmentation for the Coastside Opportunity Center in San Mateo County. Both of these programs provide naturalization services to legal immigrants. The department's base budget, however, already includes \$7,000,000 General Fund for assistance to organizations that provide naturalization services. In addition, the California Department of Education budget includes federal funding of \$12.3 million for adult education literacy classes, including English as a Second Language, which provide citizenship and naturalization services for legal immigrants. Lastly, school districts have the flexibility to use a portion of the \$574 million in Proposition 98 funds available for adult education programs to provide English and citizenship classes, consistent with local needs and priorities.

Item 5100-001-0001—For support of Employment Development Department. I reduce this item from \$30,776,000 to \$30,585,000 and delete Provision 2.

I am reducing this item by \$25,000 to conform to the action I have taken in Item 5100-001-0870 relating to the North American Free Trade Agreement and Trade Adjustment Assistance programs.

I am also reducing this item by \$166,000 and deleting Provision 2 to conform to the action I have taken in Item 5100-001-0870 relating to Operation Youth Educational Services in Los Angeles County.

Item 5100-001-0869—For support of state programs under the Job Training Partnership Act and the Workforce Investment Act, Employment Development Department. I delete Provision 4.

I am deleting Provision 4, which would allocate \$10 million of Workforce Investment Act discretionary funds to local Workforce Investment Boards for summer youth programs. I believe this Provision interferes with the Administration's ability to target funds for needed planning or local employment activities, and it is my intent that the California Workforce Investment Board have maximum input over the use of discretionary Workforce Investment Act funds. Furthermore, since 2000-01 will be the first year under the Workforce Investment Act, I have a heightened concern that it may be premature to establish uses of these discretionary funds until the Board can determine how the funds can best serve the State workforce. Lastly, California will receive \$8.5 million more for California youth programs in 2000-01 under the Workforce Investment Act than it did in 1999-00 under the Job Training Partnership Act.

Item 5100-001-0870—For support of Employment Development Department. I revise this item by reducing:

- (a) 10-Employment and Employment Related Services from \$211,537,000 to \$211,346,000; and
- (h) Amount payable from the General Fund (Item 5100-001-0001) from -\$30,776,000 to -\$30,585,000;

and by revising Provision 3.

I am sustaining \$75,000 of the \$100,000 General Fund legislative augmentation for support of the Employment Development Department to evaluate the North American Free Trade Agreement and Trade Adjustment Assistance programs. The evaluation may be useful to the federal government in improving these programs.

I am, however, deleting \$25,000 of this \$100,000 General Fund augmentation requiring new state initiatives concerning trade-related worker training and job placement. This language is an infringement on the Executive Branch's budget development process and restricts my authority to prepare a budget which reflects my spending priorities within available fiscal resources.

I am also deleting the \$166,000 General Fund legislative augmentation for Operation Youth Educational Services in Los Angeles County because this organization could seek funding from its local Workforce Investment Board. That Board can provide U.S. Department of Labor Welfare-to-Work grants and federal Workforce Investment Act funding for local employment programs such as this.

I am also deleting position authority for two positions added by the Legislature for use in implementing the Caregiver Training Initiative that I proposed. I believe that sufficient salary savings exists within the department's budget so that additional position authority is not needed. Therefore, I am deleting the new position authorizations and sustaining the \$140,000 required to fund two positions elsewhere in the department that are currently vacant and unfunded and which can be transferred to support this program. By taking this action, the legislative augmentation will enhance the success of this Administration initiative without adding new position authority to the department's budget.

I am revising Provision 3 to conform to this action.

“3. The Department shall submit to the Legislature, on or before April 1, 2001, a report that evaluates the state’s current North American Free Trade Agreement and trade assistance programs and that appraises the Legislature of opportunities relative to new strategic partnerships, improving measurement of program outcomes and tracking of program beneficiaries, improving identification and mapping of populations and sectors of the state economy that are impacted by trade, and improving outreach and services to those populations and sectors of the state economy. ~~This report shall also propose new state initiatives that build local capacity for the identification of trade impacted communities, worker training, and on-the-job training, and job placement.”~~

Item 5100-101-0001—For local assistance, Employment Development Department. I reduce this item from \$2,360,000 to \$1,000,000 by reducing:

(1) 67-At-Risk Youth Demonstration Project from \$2,000,000 to \$1,000,000; and by deleting:

(2) 70-Employment Programs (\$360,000).

I am sustaining \$1,000,000 of the \$2,000,000 legislative augmentation for the California Youthbuild Program on a one-time basis only. While I am supportive of efforts in this area, I am sustaining only a portion of this augmentation because the budgets of the Employment Development Department and the California Department of Education provide substantial state and federal funds for youth employment programs. These programs provide training and services for economically disadvantaged youth to prepare them with the skills necessary to obtain unsubsidized employment, to complete secondary or post-secondary education, to gain entrance to military service, or to obtain qualified apprenticeship.

I am deleting the \$250,000 legislative augmentation for the Los Angeles Opportunities Industrialization Center. I believe that this project should continue to be funded at the local, rather than the state, level.

I am also deleting the \$110,000 legislative augmentation for the Sacramento County Blind Jobs Initiative. The Department of Rehabilitation currently offers programs such as the Vocational Rehabilitation Services Program, the Orientation Center for the Blind, and the Business Enterprise Program, which provide funding to enable the visually impaired to take advantage of employment opportunities throughout the state, including Sacramento County. Furthermore, the Department of Rehabilitation is a mandatory participant in federal Workforce Investment Act One-Stop Centers, including a Center in Sacramento, where visually impaired job applicants can receive additional employment services.

Item 5100-102-0001—For local assistance, Employment Development Department. I sustain this item.

I am sustaining the \$2,000,000 legislative augmentation for employment programs for seasonal farm workers. Prior to the expenditure of any of these funds, however, the Director of the Employment Development Department must review all existing or newly available funding sources for employment services programs and all discretionary funding sources and determine whether these funds could be used for this effort. If so, these non-General Fund resources must be used prior to the expenditure of any General Fund resources. The General Fund may only be used after the Health and Human Services Agency demonstrates to the Director of Finance that no other funding is available.

Item 5120-001-0001—For support of California Workforce Investment Board. I delete this item and Provision 1.

I am deleting the \$700,000 legislative augmentation for the performance-based accountability system for California workforce preparation programs. Currently, these

costs are reimbursed by participating entities through Interagency Agreements with the Employment Development Department. The \$700,000 General Fund augmentation, in lieu of using Interagency Agreements and reimbursements from participating agencies, creates a new General Fund cost without completing additional tasks. Consequently, I am deleting this augmentation.

I am deleting Provision 1 to conform to this action.

Item 5160-001-0001—For support of Department of Rehabilitation. I reduce this item from \$47,037,000 to \$46,682,000 by reducing:

- (a) 10-Vocational Rehabilitation Services from \$317,135,000 to \$315,469,000; and
- (h) Amount payable from the Federal Trust Fund (Item 5160-001-0890) from -\$267,370,000 to -\$266,059,000.

I am deleting \$1,666,000 (\$355,000 General Fund and \$1,311,000 Federal Trust Fund) of the \$1,811,000 (\$386,000 General Fund and \$1,425,000 Federal Trust Fund) legislative augmentation in this item for a 20 percent wage pass-through for the Work Activity Program, because the budget already includes the required 4.4 percent statutory rate increase for this program. However, I am sustaining \$145,000 (\$31,000 General Fund and \$114,000 Federal Trust Fund) of the augmentation to provide for an overall 6.0 percent increase.

A conforming reduction is made to Item 5160-101-0001, which contains a local assistance augmentation for this same purpose.

Item 5160-001-0890—For support of Department of Rehabilitation. I reduce this item from \$267,370,000 to \$266,059,000.

I am reducing this item by \$1,311,000 to conform to the action taken in Item 5160-001-0001.

Item 5160-101-0001—For local assistance, Department of Rehabilitation. I reduce this item from \$105,542,000 to \$100,098,000 by reducing:

- (b) 20-Habilitation Services from \$112,955,000 to \$107,422,000;
- (c) 30-Support of Community Facilities from \$13,508,000 to \$12,758,000; and
- (d) Reimbursements from -\$13,246,000 to -\$12,407,000.

I am deleting \$5,533,000 (\$4,694,000 General Fund and \$839,000 reimbursements) of the \$6,014,000 (\$5,102,000 General Fund and \$912,000 reimbursements) legislative augmentation in this item for a wage pass-through for the Work Activity Program. This conforms to my action in Item 5160-001-0001.

I am also deleting \$750,000 of the \$3,000,000 General Fund legislative augmentation for Independent Living Centers (ILCs) to provide assistive technology services. This augmentation is related to Chapter 493, Statutes of 1999 (AB 873), which I signed with the understanding that it simply added assistive technology services to the list of services that ILCs shall provide to clients when those services are necessary and that assessments would first have to be conducted to determine that necessity. As the ILCs must first assess clients, the entire augmentation to provide services will not be needed during 2000-01. Therefore, I am sustaining \$2,250,000 in one-time funding to allow ILCs to perform these assistive technology assessments of their clients and to begin providing services as they are found necessary, with future funding to be determined following the conclusion of the assessments.

Item 5180-001-0001—For support of Department of Social Services. I reduce this item from \$97,905,000 to \$95,532,000 by reducing:

- (a) 16-Welfare Programs from \$72,486,000 to \$71,316,000;
- (b) 25-Social Services and Licensing from \$140,734,000 to \$139,446,000;
- (h) Amount payable from the Federal Trust Fund (Item 5180-001-0890) from -\$307,512,000 to -\$307,427,000;

and by revising Provision 7 and by deleting Provision 8.

I am sustaining \$1,000,000 of the \$2,000,000 one-time General Fund legislative augmentation for the Emergency Food Assistance Program for local food bank programs. This will provide one-year funding for the expansion of refrigeration space and the purchase of vehicles and other equipment that would be used directly for the purchase, delivery, or distribution of food.

I am revising provision 7 to conform to this action.

“7. Of the amount appropriated in this item, ~~\$2,000,000~~ \$1,000,000 shall be allocated on a one-time basis to local food bank programs to expand refrigeration space, purchase vehicles, or purchase other equipment that would be directly used for the purchase, delivery, or distribution of food products or for other uses that would allow food banks to increase the amount of food they can receive and distribute. The allocation process for this funding shall be developed by the Department of Social Services. It is the intent of the Legislature that the department formulate guidelines for allowing food banks to use funds over two fiscal years, under appropriate circumstances. To achieve this, the funds in this provision shall be available for expenditure by the department until June 30, 2002.”

I am deleting the \$1,288,000 General Fund legislative augmentation to provide more frequent licensing visits to family child care homes. I am taking this action because no analysis has been done to determine the need for or impact of increased visits, and therefore this proposal is premature. Furthermore, the Department of Social Services reports it cannot perform these duties without new positions.

I am deleting Provision 8 to conform to this action.

I am deleting the legislative augmentation of \$85,000 General Fund and \$85,000 Federal Trust Fund and one position to provide administrative support and an evaluation of a pilot program that would provide supplemental child care payments to relative and foster care providers to conform to actions taken in Item 5180-101-0001.

Item 5180-001-0890—For support of Department of Social Services. I reduce this item from \$307,512,000 to \$307,427,000.

I am reducing this item to conform to the actions taken in Item 5180-001-0001.

Item 5180-101-0001—For local assistance, Department of Social Services. I reduce this item from \$2,591,719,000 to \$2,588,995,000 by reducing:

- (a) 16.30-CalWORKs from \$5,392,314,000 to \$5,356,898,000;
 - (1) 16.30.010-Assistance from \$3,188,040,000 to \$3,170,624,000;
 - (2) 16.30.020-Services from \$1,085,150,000 to \$1,067,150,000;
- (b) 16.40-Foster Care from \$907,165,000 to \$904,441,000;
- (i) Amount payable from the Federal Trust Fund (Item 5180-101-0890) from -\$3,961,398,000 to -\$3,925,982,000;

I am deleting the \$2,724,000 General Fund legislative augmentation for supplemental child care payments to relative and foster care providers and directing that the Department of Social Services not select sites to implement a pilot program to provide those payments. Foster care providers are paid a monthly rate for the care and supervision of the child placed with them. Given that a portion of the foster care rate is for the purpose of providing daily supervision of the foster child, the proposed child care supplement is duplicative.

I am deleting the \$18,000,000 Federal Trust Fund legislative augmentation to provide a \$50 monthly work expense supplement to wage-based community service employment participants. Providing work expense supplements to this population would reduce their incentive to move from community service employment to non-subsidized employment. In addition, counties currently may use performance incentive funds or their services allocation to pay work specific expenses for wage-based community service employment participants or other CalWORKs recipients if they determine that these reimbursements are needed to assist CalWORKs recipients move

from welfare to work. The Budget already includes \$1.0 billion for CalWORKs county performance incentives and employment services.

I am deleting the \$17,416,000 Federal Trust Fund legislative augmentation to exempt the value of one automobile from consideration under the CalWORKs asset limit. This exemption would expand CalWORKs program eligibility and result in additional grant and county administration costs. The Budget already includes \$5.6 billion to provide CalWORKs grants and services in the Department of Social Services and other state agencies.

Item 5180-101-0890—For local assistance, Department of Social Services. I reduce this item from \$3,961,398,000 to \$3,925,982,000.

I am reducing this item to conform to actions taken in Item 5180-101-0001.

Item 5180-151-0001—For local assistance, Department of Social Services. I reduce this item from \$709,678,000 to \$699,776,000 by reducing:

- (a) 25.25-Children's Services from \$1,667,750,000 to \$1,653,973,000;
 - (1) 25.25.010-Child Welfare Services from \$1,534,146,000 to \$1,523,735,000;
 - (3) 25.25.030-Child Abuse Prevention from \$34,790,000 to \$31,424,000;
- (b) 25.35-Special Programs from \$145,885,000 to \$145,711,000;
 - (2) 25.35.020-Access Assistance for the Deaf from \$5,978,000 to \$5,804,000;
- (c) 25.45-Community Care Licensing from \$19,397,000 to \$19,185,000;
- (f) Amount payable from the Federal Trust Fund (Item 5180-151-0890) from $-\$1,057,320,000$ to $-\$1,053,059,000$;

and by revising Provision 7 and by deleting Provision 13.

I am deleting a \$5,700,000 General Fund and \$3,961,000 Federal Trust Fund legislative augmentation to increase the number of social workers, pending a review of the child welfare services budget methodology. I am supportive of efforts in this area and already have included in the Budget \$221.1 million (\$108.6 million General Fund) in augmentations above the level supported by the current workload standards. Given this significant investment above the base program, and as it is unlikely that counties will be able to recruit additional social workers above this funding level, an additional augmentation is unnecessary. The amount of funding I proposed in the May Revision Child Welfare Services Initiative will allow counties statewide to hire an additional 500 social workers.

I am revising Provision 7 to conform to this action.

"7. Of the amount appropriated in this item, ~~\$135,593,000~~ \$125,932,000 shall be provided to counties to fund additional child welfare service activities and shall be allocated based on child welfare services caseload and county unit costs. However no county shall receive less than \$100,000. These funds shall be expressly targeted for emergency response, family reunification, family maintenance and permanent placement services and shall be used to supplement, and shall not be used to supplant, child welfare services funds. A county is not required to provide a match of the funds received pursuant to this provision if the county appropriates the required full match for the county's child welfare services program exclusive of the funds received pursuant to this provision. These funds are available only to counties that have certified that they are fully utilizing the Child Welfare Services/Case Management System (CWS/CMS) or have entered into an agreed upon plan with the State Department of Social Services outlining the steps that will be taken to achieve full utilization. [The] department shall reallocate any funds that counties choose not to accept under this provision, to other counties based on the allocation formula specified in this provision.

The department, in collaboration with the County Welfare Directors Association and representatives from labor groups representing social workers, shall develop the definition of full utilization of the CWS/CMS, the method for

measuring full utilization, the process for the state and counties to work together to move counties toward full utilization, and measurements of progress toward full utilization.”

I am deleting the \$450,000 General Fund legislative augmentation for the Grandparent Respite Program pilot. This proposal seeks to establish an ongoing program with funds that are available only on a one-time basis. Further, counties already may fund respite care services either from their child welfare services program or from one of the existing specialized care programs. Therefore, establishing a pilot program for this purpose is unnecessary.

I am deleting the \$3,366,000 General Fund legislative augmentation to expand the Juvenile Crime Prevention Program. If counties wish to start up new program sites, they could undertake this effort using existing base funding such as Comprehensive Youth Services Act funding, as established by Chapter 270, Statutes of 1997. Counties have approximately \$168 million of this funding available for similar purposes. Further, for new program sites that meet the requirements for Temporary Assistance for Needy Families funding, counties collectively have approximately \$1.1 billion in unspent discretionary incentive funding that has been appropriated through 1999-00, and will receive an additional \$250 million in performance incentives in 2000-01.

I am deleting the \$174,000 General Fund augmentation for a three percent cost-of-living adjustment for Access Assistance for the Deaf. This augmentation represents a general three percent program augmentation, rather than a true provider rate increase. In the Budget Act of 1998, the program received a \$2.5 million augmentation to expand services to all 58 counties for a total program funding level of \$5.8 million. This represented a 75 percent baseline increase over prior year funding levels.

I am deleting the \$212,000 General Fund legislative augmentation to provide more frequent licensing visits to family child care homes and Provision 13, which specifies the use of the funds, to conform to the action taken in Item 5180-001-0001.

I am sustaining a \$200,000 legislative redirection of county Independent Living Program (ILP) funds for support of the current activities of the California Youth Connection (CYC); however, there is no justification to support additional funding. Therefore, I am deleting \$300,000 Federal Trust Fund, which the Legislature redirected for support of an expanded CYC. Further, in consultation with stakeholders, the department currently is developing statewide ILP standards to be followed by county programs. This redirection for CYC expansion would foreclose options for the counties in implementing and/or expanding their programs based on the new standards.

Item 5180-151-0890—For local assistance, Department of Social Services. I reduce this item from \$1,057,320,000 to \$1,053,059,000 and delete Provision 2.

I am reducing this item by \$4,261,000 to conform to the action taken in Item 5180-151-0001.

I am deleting Provision 2, which would have required the Department of Social Services to redirect \$560,000 from county allocations for the Independent Living Program (ILP) to establish a financial assistance program to facilitate the educational goals of former foster youth. I am supportive of efforts in this area and provided \$3.5 million General Fund to establish the Stipends for Emancipated Youth program. This program will provide stipends to ILP youth for additional one-time needs such as assisting with finding affordable housing, college textbooks, employment searches, emergency personal needs, and transportation vouchers. Further, in consultation with stakeholders, the department currently is developing statewide ILP standards to be followed by county programs. This redirection would foreclose options for the counties in implementing and/or expanding their programs based on the new standards.

Item 5240-001-0001—For support of Department of Corrections. I reduce this item from \$3,994,703,000 to \$3,984,093,000 by reducing:

- (a) 21-Institution Program from \$2,980,012,000 to \$2,979,762,000;

(b) 22-Health Care Services Program from \$585,480,000 to \$585,080,000;
(c) 31-Community Correctional Program from \$525,856,000 to \$515,896,000;
and by deleting Provisions 11, 12, 13, 14, 15, 17, 18, 19, 21, 23, and 25, and by revising Provision 24.

I am deleting \$400,000 included to contract for a study of the performance of the Department's health care delivery system and associated information technology system needs, to be submitted to the Legislature by March 1, 2001. The Department is currently undertaking various evaluations and studies focused on different aspects of the health care program. This study would potentially overlap with these efforts. Also, it is not clear that a study as comprehensive as proposed could be successfully accomplished within the level of resources provided, potentially undermining the helpfulness of any findings and recommendations.

I am deleting Provision 11 to conform to this action.

I am deleting Provision 12, which prohibits the Department of Corrections from adopting regulations that require individuals to send packages to inmates via the services of third-party vendors. I believe this provision is unduly restrictive. Furthermore, this provision would hinder the Department's ability to make administrative decisions necessary to reduce the flow of drugs and other illegal contraband in mailed packages to prison inmates in an efficient and economical fashion, and may negatively effect the security and safety of inmates and staff.

I am deleting Provision 13, which requires the Department of Corrections to ensure that all posted first and second supervisory positions are fully staffed. I believe this provision may have an adverse affect on the Department's flexibility to manage its personnel and programs.

I am deleting the \$960,000 legislative augmentation to provide funding to increase the daily rate paid for 500 contracted re-entry work furlough beds. The Department of Corrections currently contracts for re-entry work furlough beds with different vendors and at varied rates that have been determined through a competitive bid process. There is no evidence to indicate that the current funding level is insufficient to attract qualified bidders or that there is a need to increase the daily rate for this 500-bed re-entry work furlough program expansion. Therefore, I believe the legislative augmentation is unnecessary at this time.

I am deleting Provision 14 to conform to this action.

I am deleting Provision 15, which requires the Department of Corrections to notify the Chairperson of the Joint Legislative Budget Committee and both fiscal committees, on a quarterly basis, of any payment over \$100,000 made to an individual or organization to settle a lawsuit or satisfy a legal judgment. I believe this provision is unnecessary because I have already directed state agencies to provide this type of information to the Legislature.

I am deleting Provision 17, which requires the Department of Corrections to revert any unexpended special repair project funds. I believe this provision would unduly impede the flexibility of the Department in managing its facilities in a manner that best protects the safety of staff and inmates.

I am deleting the \$250,000 legislative augmentation for conducting psychological evaluations of correctional officers promoting to supervisory positions. I believe that the benefits of the proposed augmentation do not justify the cost.

I am deleting Provision 18 to conform to this action.

I am deleting Provision 19, which requires the Department of Corrections to report, in consultation with the Department of Health Services, to the Legislature within 60 days of the enactment of the 2000 Budget Act regarding the safety of using the Secure 1000 technology. This provision would also require the Department to suspend its use of the Secure 1000 technology during this 60-day period. Suspending the use of the

Secure 1000 technology could allow the passage of contraband into prisons, which could pose a public safety and security risk for visitors, staff, and inmates. I will, however, direct the Department to evaluate the potential impact of the Secure 1000 technology on the health of those exposed to the equipment.

I am deleting the \$1,000,000 legislative augmentation for a Global Positioning System pilot project. While I am supportive of efforts to increase public safety through increased supervision of parolees, the benefits of this technology in enhancing public safety are unknown.

I am deleting Provision 21 to conform to this action.

I am deleting the \$2,200,000 legislative augmentation to provide enhanced services for parolees assisted through the Transitional Case Management Program for mentally disordered offenders. This augmentation represents partial funding for a significantly more costly program that would provide mental health services for the duration of the period the offender is under state parole supervision. The budget I submitted already includes \$2,600,000 to provide up to 90 days of case management and mental health services for mentally ill parolees. After 90 days, case management efforts are transitioned to a long-term case manager in the community. Since appropriate care and treatment efforts for mentally ill parolees are transitioned to community caregivers, this augmentation is unnecessary and duplicative. In addition to the funding noted above, the budget includes \$50,000,000 for Mentally Ill Offender Crime Reduction grants for award to local governments to expand or establish programs that reduce crime and criminal justice costs related to mentally ill offenders.

I am deleting Provision 23 to conform to this action.

I am also deleting \$2,800,000 of the \$4,800,000 legislative augmentation for an expansion of the Preventing Parolee Crime Program. This action will leave an adequate level of funding for parolee services to protect the public's safety and reduce recidivism.

I am revising Provision 24 as follows to conform to this action:

- “24. (a) Of the funds appropriated in this item, ~~\$4,400,000~~ \$1,900,000 shall be available to expand the Preventing Parolee Crime Program. For the purpose of reducing recidivism, priority for services provided through these funds shall be given to parolees who have two serious or violent felony convictions.
- (b) Of the funds appropriated in this item, ~~\$400,000~~ \$100,000 shall be available for administration and evaluation of targeting Preventing Parolee Crime Program funds for parolees who have two serious or violent felony convictions. The Department of Corrections shall report to the Legislature, by January 1, 2003 on the effectiveness of this program.”

I am deleting the \$3,000,000 legislative augmentation to increase funding for parole casework services to assist parolees in transitioning back into the community. While I am supportive of such efforts to assist parolees, the Department of Corrections budget already includes sufficient funding to expand parole services in the budget year.

I am deleting Provision 25 to conform to this action.

As part of this budget, I am approving \$10,000,000 in funding for expanding the Department's basic correctional officer academy from 10 weeks to 16 weeks consistent with the Commission on Correctional Peace Officer Standards and Training report. However, I am directing the Department to prepare a plan outlining how the funds will be used to expand the academy. Specifically, this plan shall identify the resources needed to provide adequate support for the expansion as well as any capital improvements necessary to accommodate additional correctional officer cadets attending the academy. This plan shall be submitted to the Department of Finance for review and approval prior to any expenditure of funds for this purpose.

Item 5240-005-0001—For support of Department of Corrections. I am revising this item by deleting Provision 1.

I am deleting Provision 1, which authorizes the transfer of \$19,582,000 to Item 5240-001-0001, only after the Director of Corrections provides documentation outlining the proposed reductions contained in the Department's initial administrative restructuring plan. The information being requested represents working documents for use in preparing the Administration's budget and, as such, is privileged.

Item 5240-102-0001—For local assistance, Department of Corrections. I delete this item and Provision 1.

I am deleting the \$300,000 legislative augmentation provided to Tulare County for the purpose of funding portable inmate housing units. I am vetoing this item to fund higher competing priorities.

I am deleting Provision 1 to conform to this action.

Item 5240-301-0001—For capital outlay, Department of Corrections. I reduce this item from \$98,763,000 to \$98,638,000 by deleting:

(18.5) 61.09.512-CMF, Vacaville: New Medical Exam Facility-preliminary plans and working drawings (\$125,000);

and by deleting Provisions 4 and 5.

I am deleting the \$125,000 legislative augmentation for the New Medical Exam Facility at California Medical Facility, Vacaville. While this project may be meritorious, I am deleting the funding because it is premature. I understand that the department has not yet completed an evaluation of solutions for this facility.

I am deleting Provision 4 of this item, which limits the future cost of construction on the Folsom State Prison Pretreatment system to the current estimated construction cost, because the language is unnecessarily restrictive.

I am also deleting Provision 5 of this item, which restricts the use of Inmate Day Labor on major capital outlay projects because the language is also unnecessarily restrictive. It limits the Administration's ability to select the fastest or most cost-effective construction delivery method. In addition, I do not support limiting the department's ability to keep inmates employed in productive jobs.

Item 5430-001-0001—For support of Board of Corrections. I reduce this item from \$2,306,000 to \$2,056,000 by reducing:

(a) 11-Corrections Planning and Programs from \$784,000 to \$534,000; and by deleting Provision 1.

I am deleting the \$250,000 legislative augmentation for a statewide Global Positioning System pilot project. While I am supportive of efforts to enhance public safety through increased supervision of probationers, the benefits of this technology in improving public safety are unproven.

I am deleting Provision 1 to conform to this action.

Item 5430-103-0001—For local assistance, Board of Corrections. I revise this item by deleting Provision 5.

I am deleting Provision 5, which would require the Board of Corrections to give priority for grant awards to counties that would have received funding, had an additional \$10,000,000 been available, under the Budget Act of 1999. I am deleting this provision because it would unduly impinge upon the ability of the Board of Corrections to award grants for the most meritorious proposals. Deleting this provision will allow the Board of Corrections to award grants for those proposals that have the most beneficial impact upon reducing the involvement of mentally ill offenders in the criminal justice system.

Item 5430-117-0001—For local assistance, Board of Corrections. I delete this item and Provision 1.

I am deleting the \$7,500,000 legislative augmentation to fund the DISARM (Developing Increased Safety through Arms Recovery Management) program, which would provide local assistance funding to local law enforcement agencies to more actively enforce compliance with court-ordered conditions of probation prohibiting the possession of weapons. I am deleting the funds because this is a new and not well-defined program. However, I am supportive of the basic concept. Therefore, I am directing the Board of Corrections to evaluate the effectiveness of similar programs in other states and make recommendations relating to the potential implementation of such a program in California, including the appropriate funding level.

I am deleting Provision 1 to conform to this action.

Item 5430-122-0001—For local assistance, Board of Corrections. I reduce this item from \$1,000,000 to \$200,000.

I am reducing this legislative augmentation for the City of Lodi Police for remodeling a police station by \$800,000. I am reducing this item to fund higher competing priorities.

Item 5430-123-0001—For local assistance, Board of Corrections. I delete this item and Provision 1.

I am deleting the \$1,000,000 legislative augmentation provided to the Galt Police Department to remodel a police station. I am deleting this item to fund higher competing priorities.

I am deleting Provision 1 to conform to this action.

Item 5430-125-0001—For local assistance, Board of Corrections. I reduce this item from \$1,200,000 to \$500,000.

I am reducing this legislative augmentation for the City of Citrus Heights Police Service Center by \$700,000. I am reducing this item to fund higher competing priorities.

Item 5440-002-0001—For support of the Board of Prison Terms. I delete this item and Provision 1.

I am deleting the \$1,250,000 legislative augmentation and Provision 1 that specifies that this funding is only available to provide services for parolees with developmental disabilities, serious mental illnesses, or substance abuse problems. Funding for this purpose is already included within the funding appropriated to the Department of Corrections. This augmentation, consequently, is unnecessary.

I am directing the Youth and Adult Correctional Agency to coordinate efforts between the Board of Prison Terms and the Department of Corrections to ensure that individual parolees identified by the Board as being suitable for treatment or other services, and subsequent to a determination that such parolees do not constitute a likely danger to the public, receive such treatment or services within the financial resources appropriated to the Department of Corrections for such purposes.

Item 5460-001-0001—For support of Department of the Youth Authority. I reduce this item from \$287,088,000 to \$280,099,000 by reducing:

- (a) 20-Institutions and Camps from \$305,671,000 to \$300,182,000;
 - (b) 30-Parole Services from \$48,242,000 to \$46,957,000;
 - (c) 40-Education Services from \$12,383,000 to \$12,318,000;
 - (d) 50.01-Administration from \$26,997,000 to \$26,197,000;
 - (e) 50.02-Distributed Administration from -\$24,783,000 to -\$24,133,000;
- and by deleting Provisions 4, 5, 6, 7, 8 and 9.

The Legislature augmented this item by \$1,000,000 and 12.0 personnel years to lengthen the basic cadet academy from 10 weeks to 16 weeks, consistent with the Commission on Correctional Peace Officers' Standards and Training report. I believe there is a need for additional training of Youth Authority personnel. However, I am reducing the \$1,000,000 legislative augmentation by \$650,000 and 12.0 personnel

years to reflect the actual level of resources required to accomplish the academy expansion by March 1, 2001. I am deleting the \$2,764,000 legislative augmentation and 25.2 personnel years to provide additional mental health, sex offender, and drug treatment services to Youth Authority wards and parolees. The need for the level of services assumed in the augmentation is unclear. In addition, the ongoing costs of the programs as proposed will be significant. I will, however, consider signing legislation that clearly identifies treatment needs, authorizes effective programs scaled to address the actual level of need, and provides the level of resources necessary to fund a more finely-tuned and cost-effective program.

I am deleting Provisions 5, 6, 7, 8, and 9 to conform to this action.

The Legislature augmented this item by \$3,575,000 and 50.2 personnel years to enhance institution and parole staffing levels. I support adequate staffing for these functions. However, the need for these increases is unclear at this time. I am, therefore, deleting this augmentation. I am directing the new Director of the Youth Authority to evaluate the Department's staffing during the course of reviewing its operations and programs.

I am deleting Provision 4 which requires the Youth Authority to develop an analysis of the Ombudsperson Program in a report to be submitted to the Legislature on or before March 1, 2001. Because the Ombudsperson Program will not be implemented until the fiscal year 2000-01, an analysis of program results by March 1, 2001, would be premature.

Item 6110-001-0001—For support of Department of Education. I reduce this item from 47,682,000 to 46,246,000 by reducing:

- (a) 10-Instruction from \$54,104,320 to \$52,484,000;
- (b) 20-Instructional Support from \$66,935,000 to \$65,599,000;
- (c) 30-Special Programs from \$40,493,680 to \$40,427,000;
- (i) Amount payable from Federal Trust Fund (Item 6110-001-0890) from -\$107,564,000 to -\$105,977,000;

and by revising Provision 18 and deleting Provision 31.

I am reducing Schedule (a) by \$133,320, Schedule (c) by \$66,680, and three positions to conform to my action to delete the local assistance augmentation for the Migrant Education Even Start Program. The effect of these reductions is to eliminate the legislative augmentation of \$200,000 and three positions to support the expansion of the program.

I am reducing Schedule (b) by \$500,000 to eliminate the legislative augmentation for establishment of a clearinghouse for digital audio and other accessible products and services at the Department of Education, and provide referral services for pupils who are visually impaired. The Superintendent of Public Instruction is already required by statute to make certain materials and information available throughout the State, and to provide specific services to various student populations. This augmentation appears to be for this same purpose, which should be a higher priority for the Superintendent's existing resources than other, more discretionary programs. Additionally, this augmentation would result in pressure on the General Fund in future years to support this activity. I am also deleting Provision 31 to conform to this action.

I am reducing Schedule (b) by \$100,000 and two positions. My action would sustain a \$50,000 augmentation in the Budget Act for the purpose of distributing funding pursuant to the Education Block Grants established in the 2000 Omnibus Education Trailer Bill (SB 1667, Alpert).

I am reducing Schedule (b) by \$496,000 and three positions to eliminate the legislative augmentation for the Department of Education to develop an Environmental Education Unit. The budget I proposed contains funding from the Environmental License Plate Fund and one position to address environmental education issues at the Department of Education.

I am reducing Schedule (b) by \$75,000 for the \$145,000 in legislative augmentations for charter school workloads in the School Fiscal Services Division to \$70,000. The Legislature approved one position for increased workload due to the augmentation of the Charter School Revolving Loan Fund, and a second position for increased workload regarding charter school apportionments. My budget already includes two new positions for apportionment unit workload increases, including those related to the increased number of charter schools. The workload prescribed for the two additional positions does not justify both augmentations. Therefore, I am sustaining only one additional position, which should be sufficient to address the activities contemplated in both of the augmentations.

I am reducing Schedule (b) for the \$215,000 General Fund legislative augmentation provided for the Department of Education by \$65,000 because the implementation of school district reporting of expulsions and suspensions related to hate crimes would create a state mandate. I am sustaining \$150,000 to contract for training programs to assist school personnel in identifying school violence. As the Tolerance Education Program is not currently established in statute, I am willing to sign legislation to establish the program provided such legislation does not create a reimbursable state mandate. This augmentation, in conjunction with the legislative augmentation of \$2,000,000 for Tolerance Education in Item 6110-485, which I have also sustained, is to be used to reduce hate crimes and increase tolerance of diverse populations.

I am reducing both Schedule (b) and Schedule (i) by \$100,000 to conform to my reduction of federal funding for an expanded evaluation of the Public Schools Accountability Act in Item 6110-001-0890. I am also revising Provision 18 of this item as follows to conform to these actions:

- “18. Of the amount appropriated in this item, \$250,000 is provided for the purpose of contracting with an independent consultant for an evaluation of the implementation of the Public Schools Accountability Act, as established by Chapter 3, First Extraordinary Session, Statutes of 1999. This evaluation shall also include an assessment of the following: (1) The extent to which enrollment in alternative schools, as defined in Chapter 3X of the First Extraordinary Session of 1999, has increased since the enactment of the Public Schools Accountability Act; (2) the extent to which any enrollment increases were a result of the act and the schools' attempts to improve their performance by encouraging low-performing pupils to attend alternative schools; and (3) the growth in school achievement in alternative schools as measured by the alternative accountability system, compared to the regular schools these pupils would have otherwise attended. The reporting and delivery deadlines for the evaluation of these questions shall be the same as for the overall evaluation of the Public Schools Accountability Act.

I am reducing Schedules (a) and (i) by \$1,487,000 to conform to the actions taken in Item 6110-001-0890.

Item 6110-001-0890—For support of Department of Education. I reduce this item from \$107,564,000 to \$105,977,000 and revising Provision 7.

I am reducing the legislative augmentation of \$1,756,000 and 25 positions by \$1,487,000 and 22 positions. The effect of this action is to approve \$269,000 and 3 positions which, in addition to the \$1,649,000 and 19 positions I previously proposed, provide sufficient additional staff in the Department of Education's Special Education Division to monitor school districts and bring the State into compliance with federal law. This reduction is consistent with justifiable workload received from the department to complete the additional verification reviews required as part of its monitoring activities.

I am revising Provision 7 to reflect two technical revisions. The first corrects the total in this provision from \$4,790,000 to \$4,623,000, and the second deletes the language

in subdivision (g). This language for the parental involvement programs established by Chapter 734 of the Statutes of 1999 was inadvertently maintained in the Budget Bill after the funding was redirected by the Legislature.

I am deleting the \$100,000 legislative augmentation to expand the evaluation of the Public Schools Accountability Act to include the effects of that act on alternative schools. The implementation of the alternative accountability system required by the Public Schools Accountability Act makes a study of this issue irrelevant. I am revising subdivision (i) of Provision 7 to conform to this action, as follows:

“(i) Of the funds appropriated in this item, ~~\$250,000 in prior-year carryover funds shall be available on a one-time basis to the State Department of Education; as follows:~~

- 1) ~~\$100,000 for the purpose of contracting with an independent consultant for an evaluation for the implementation of the Public Schools Accountability Act, as established by Chapter 3 of the First Extraordinary Session of the Statutes of 1999. These funds are to be used in conjunction with the funds referenced in Provision 18 of Item 6110-001-0001.~~
- 2) ~~\$150,000 is for the purpose of providing evaluation reports to the Legislature concerning categorical flexibility pilot projects, pursuant to legislation in the 1999–2000 Regular Session, enacted on or before January 1, 2001.”~~

Item 6110-105-0001—For local assistance, Department of Education. I revise this item by deleting Provision 5.5.

I am deleting Provision 5.5 as a technical correction to conform with action taken by the budget conference committee, which eliminated funding for equalization and rate increases from the final budget.

Item 6110-115-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$150,089,000 to \$148,741,000 by reducing:

(kkk) 10.10.019.097-Visalia Unified School District from \$2,000,000 to \$1,352,000;

and by deleting:

(jjj) 10.10.019.094-Alameda Unified School District from (\$700,000).

I am reducing this item by \$1,348,000. A deletion of \$700,000 is at the request of the Alameda Unified School District. The district has withdrawn its proposal to participate in the program. The remaining reduction of \$648,000 is a technical adjustment for the Visalia Unified School District to account for the elimination of one-time program costs beginning in 2000–01.

Item 6110-123-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$156,700,000 to \$156,699,000 by reducing:

(b) 20.60.030.032-High Achieving/Improving School Program from \$131,150,000 to \$131,149,000,

and by deleting Provision 3.

I am reducing \$1,000 from this item to reflect savings that will result from my action to delete Provision 3 of this item. The English Language Development test is designed as a diagnostic tool to gauge the progress of pupils in their acquisition of English language skills, and to facilitate their proper placement in instructional programs. Because it is not a comparative measure of academic achievement, the inclusion of this test in the Academic Performance Index would be inappropriate. Further, redesigning and developing this test for the proposed purpose would result in multi-million dollar test development costs, is duplicative of the uses of the Standardized Testing and Reporting (STAR) and SABE2 examinations, and could undermine the results of those exams.

Item 6110-134-0001—For local assistance, Department of Education (Proposition 98). I delete Provision 1.

I am deleting Provision 1 of this Item, which requires the Department of Education to compute alternative Academic Performance Index scores for schools that lack such scores for the purpose of determining their eligibility to receive funds from the Teaching As A Priority Block Grant.

This provision conflicts with existing law, which stipulates that the Superintendent of Public Instruction, with the approval of the State Board of Education, shall develop a methodology by which to calculate alternative Academic Performance Index scores for all schools that lack such scores, including those with fewer than 100 students.

Item 6110-141-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$2,500,000 General Fund legislative augmentation provided in this item for the Migrant Education Even Start Program. This program will remain funded with \$5,000,000 in federal funds. While I believe this program is meritorious, the State should not provide General Fund for the expansion of a federally funded program. Instead, I am setting these funds aside to provide resources for subsequent legislation that will appropriate one-time funds for facilities to support the expansion of general child care and migrant centers.

Item 6110-141-0890—For local assistance, Department of Education. I reduce this item from \$112,448,000 to \$109,448,000 by reducing the legislative augmentation for federal funds carryover to the Migrant Education Mini-Corps Program from \$5,000,000 to \$2,000,000. The remaining \$2,000,000 augmentation, when combined with the funding I provided in my budget, will provide 16 percent more program funding than is provided in the current year.

I am revising Provision 1 as follows to conform to this action:

“1. Of the funds appropriated in this item, ~~\$10,100,000~~ \$7,100,000 is for the California Mini-Corps Program. That amount includes ~~\$5,000,000~~ \$2,000,000 from current year carryover funds, which are to be allocated on a one-time basis.”

Item 6110-151-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$7,269,000 to \$3,469,000.

I am reducing \$3,800,000 of the \$4,000,000 legislative augmentation for this program. AB 1746 in the current legislative session would expand the responsibility of Indian Education Centers to include recovery programs for pupils that have dropped out of comprehensive schools. The Budget Act already includes significant funding for remedial education for all pupils. Doubling the existing funding provided to these Centers in order to enable them to provide the proposed service would result in significant ongoing General Fund pressure in future years. However, this meritorious program warrants a modest expansion.

Item 6110-178-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$3,000,000 legislative augmentation and Provision 1 of this item for the Outdoor Science Programs authorized by Chapter 958, Statutes of 1999. When I signed the bill authorizing this program last year, I noted in the signing message that the funding for this program authorized by Chapter 78, Statutes of 1999, was one-time in nature. I also requested districts to present a plan for alternate funding sources for this program; however no plan for alternative funding has been provided.

Item 6110-196-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$1,179,706,000 to \$1,140,205,000 by reducing:

(b) 30.10.020-Child Care Services from \$1,613,182,000 to \$1,573,681,000, and by reducing the following subschedules:

(1) 30.10.020.001-Special Program, Child Development, General Child Development Programs from \$559,640,000 to \$524,640,000;

(3) 30.10.020.004-Special Program, Child Development, Migrant Day Care from \$31,280,000 to \$26,780,000;

(4) 30.10.020.007-Special Program, Child Development, Alternative Payment Program from \$194,253,000 to \$194,252,000;

and by deleting Provision 11(b) and revising Provisions 1(b) and 15.

I am reducing the \$75,000,000 legislative augmentation for general child care provided in Schedule (b) (1) to \$40,000,000 and the \$7,500,000 provided in schedule (b)(3) for migrant day care services to \$3,000,000, for a total reduction of \$39,500,000. I am setting these funds aside, along with \$2.5 million vetoed from item 6110-141-0001, for subsequent legislation to fund one-time child care programs.

I am revising Provision 1(b) and 15 as follows to conform to the reductions in half-year expansions noted above with the intention of funding full-year annualized costs of \$86 million for these program in the subsequent budget. Together with the other sustained augmentations in this item, including the \$33 million additional rate increase for direct-contracted programs and the \$15 million augmentation noted below, this budget will reflect my objective of sustaining a \$134 million General Fund increase for assisting non-CalWORKS, low income families' access to high quality child care without creating higher ongoing costs in the subsequent budget.

“1. (b) Of the amount appropriated in Schedule (b)(1) of this item, ~~\$75,000,000~~ *\$40,000,000* is for the purpose of providing half-year expansion of full-day, general child care for children ages 0–five years old.”

“15. Of the amount appropriated in Schedule (b)(3) of this item, ~~\$7,500,000~~ *\$3,000,000* is for the half-year costs of expansion of migrant day care services. ~~The amount must be used in conjunction with the \$2,500,000 for the Migrant Education Even Start (MEES) program appropriated in Item 6110-141-0001. The State Department of Education shall develop a Request for Applications that will combine the requirements of the two programs into a single program that shall be called the Migrant Even Start Child Development Program.”~~

I am sustaining the \$15,000,000 legislative augmentation in schedule (b)(11) related to the retention of child care workers in order to make this funding available for subsequent legislation to be negotiated between the Legislature and the Administration that I will be able to sign. I have previously stated my concerns with the introduction of state subsidies into a profession that is subject to local market forces, and with the creation of a costly new state responsibility that would grow over time.

I am deleting Provision 11(b) and reducing schedule (b)4 of this item by \$1,000 to reflect the state savings that would result by not performing the survey of Alternative Payment Providers (APPs) required by this provision. This provision fails to set forth any remedy that would protect the state's fiscal interests in cases where APPs are directing a significant number of children into state contracted centers. The requirement to quantify the extent of duplicated activities is not meaningful; the substantive issue is that the rates paid to both the APP and the state funded center include the cost of each entity providing many of the same services. I would not expect the services to be duplicated. Rather, APPs would receive a windfall of administrative funds in these cases. Absent any requirement to redirect the duplicative administrative funding to increase child care slots, this provision conflicts with my priorities for use of state funds. I am directing my Administration to look more closely at this issue as part of the current child care policy review effort, and I plan to adjust future child care funding as appropriate, based on the findings of the review. In the meantime, I encourage the Department to determine the frequency of occurrence as contemplated by the provision and use its administrative discretion to reduce funding to APPs engaging in this practice to the extent the savings would allow access to additional children. Alternatively, I would support shifting the slots from APP administration to direct contracting so that the state's limited child care funding assures maximum access by needy families.

I am retaining Provision 18 with the understanding that the 25% non-subsidized child rule applies without exception to all Alternative Payment Providers (APPs), including those participating in CalWORKs child care programs, and that the regulations required to be developed by this provision be promulgated on an expedited basis. This rule has not been applied consistently to all programs for which reimbursements are tied to private child care market rates. Absent any obligation to establish rates within the reach of non-subsidized families, the state could be subject to price gouging. In order to assure the state's fiscal interests are not compromised, I expect the State Department of Education to enforce the rule for all APPs and to promulgate the regulations required by Provision 18 as soon as possible, including submission to Department of Finance for certification of fiscal impact, pursuant to the Administrative Procedures Act.

Item 6110-199-0001—For local assistance, Department of Education (Proposition 98). I delete this item and Provision 1.

I am deleting the \$5,000,000 legislative augmentation and Provision 1 of this item for the Beginning Administrator/Beginning Counselor Training Programs. This new program may be meritorious, and I will consider it in the future. However, I am deleting this item at this time to focus on improving the quality of classroom teachers.

Item 6110-201-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$2,000,000 to \$1,000,000 by reducing:

(a) 30.20-Child Nutrition from \$2,800,000 to 1,800,000, and deleting Provision 2.

I am deleting the \$1,000,000 General Fund legislative augmentation for the provision of start-up grants for the Summer Food Service Program and the After School Snack Program. The funding previously provided for Start-up grants has been underutilized. Further, the Summer Food Service Program is currently eligible for start-up grants. While the After School Snack Program is a worthwhile effort, the need for startup grants and the eligibility criteria should be carefully examined. This issue should be reviewed through the normal budget and legislative processes and considered next year. I am deleting Provision 2 to conform to this action.

Item 6110-228-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$133,287,000 to \$72,087,000 and delete Provision 4.

I am deleting the \$61,200,000 legislative augmentation for the provision of school safety block grants to elementary, middle, and junior high schools. I am concerned about the well being and safety of California children of all ages, and signed legislation last year that requires schools to develop safety plans. This budget includes \$1.8 billion to increase discretionary funding beyond the statutory COLA and \$425 million for block grants; these resources are all available for K-12 school safety purposes based on local school district priorities. Therefore, this augmentation is unnecessary.

I am deleting Provision 4 to conform to this action.

Item 6110-240-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$12,583,000 to \$12,550,000 by reducing:

(c) 20.70-Instructional Support: Assessments from \$1,083,000 to \$1,050,000.

I am deleting the \$33,000 legislative augmentation for a cost-of-living adjustment (COLA) for the International Baccalaureate program. This program provides start-up grants to facilitate the establishment of new International Baccalaureate programs within schools. Providing a COLA for a one-time grant program is inappropriate. In addition, the funding provided for this program has been underutilized; thus, an augmentation for this program appears to be unwarranted.

Item 6110-242-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from \$125,000 to \$33,000.

I am reducing this legislative augmentation by \$92,000. The Budget Act already provides \$117,000 for student leadership activities through the California Association of Student Councils. The effect of my action is to increase funding for this program in the 2000–01 fiscal year to a total of \$150,000.

Item 6110-485—Reappropriation, (Proposition 98) Department of Education. I revise this item by Item from \$257,135,000 to \$232,835,000 by reducing Schedule (a) of this item by \$3,700,000 and deleting Schedule (p).

I am reducing Schedule (a) by \$3,700,000 for voluntary desegregation claims because the Alameda Unified and Delano Unified School Districts have withdrawn their proposals for program participation in the current-year. I am eliminating Schedule (p) and the reappropriations of \$20,600,000 for Adult Education and Regional Occupational Centers and Programs. The budget provides an increase of \$48.3 million (\$31.3 million for adult education and \$17.0 million for Regional Occupational Centers and Programs) for growth and COLA for these programs, as well as a \$425 million block grant that is available to these programs. Furthermore, adequate justification for the proposal has not been provided, particularly since Adult Education has not historically fully expended its existing budget.

I am revising the Schedule (a) and deleting Schedule (p) to conform to these actions.

“(a) ~~\$ 5,700,000~~ 2,000,000 for transfer to Section A of the State School Fund for reimbursement by the Controller of voluntary desegregation claims from ~~Alameda Unified School District (\$700,000); Delano Unified School District (\$3,000,000); and~~ Visalia Unified School District (\$2,000,000) to provide one-time funding for 1999–00 costs received pursuant to Sections 42247 and 42249 of the Education Code.”

Item 6120-011-0001—For support of California State Library. I reduce this item from \$18,051,000 to \$17,857,000 by reducing:

(a) 10-State Library Services from \$16,264,000 to \$16,070,000, and by deleting Provision 1.

I am reducing this item by eliminating the legislative augmentations for the California Research Bureau of \$69,000 to perform a study (pursuant to pending legislation) of women in prison who have children, and \$125,000 to provide support to the Joint Committee on the Education Masterplan.

However, I am sustaining the legislative augmentation of \$250,000 for the California Research Bureau for a contract with outside researchers to address public policy issues. Additionally, the budget provides a \$500,000 increase and 6 positions for the bureau, which will enable it to address the highest priority research objectives statewide. These funds could be used for the above proposed activities if deemed a high priority.

Item 6120-140-0001—For local assistance, California State Library. I reduce this item from \$2,005,000 to \$1,005,000 and revising Provision 1.

I am reducing \$1,000,000 of the \$2,005,000 legislative augmentation for local library projects in order to fund higher competing priorities. Additionally, state funding for the Yuba County Library project, the City of Folsom Library site acquisition, the Canyon Country Library Project, and the City of Downey Library expansion project may be eligible for funding from the Library Construction and Renovation Bond Act of 2000 (Proposition 14).

I am revising Provision 1 to conform to this action:

“1. Funds appropriated in this item are for the purpose of funding local assistance projects at local public libraries. These funds are to be allocated on a one-time basis only, as follows:

(a) ~~Of the funds appropriated in this item; \$200,000 is for the purpose of funding renovation and improvements at Yuba County Library.~~

- (b) Of the funds appropriated in this item, \$69,000 is for the purpose of funding various items at Ventura County Library.
- (c) Of the funds appropriated in this item \$18,000 is for the purpose of funding Spanish language children's books at Ojai Valley Library.
- (d) Of the funds appropriated in this item, \$50,000 is for the purpose of funding an internet library catalog website at El Segundo Library.
- (e) ~~Of the funds appropriated in this item, \$500,000 is for the purpose of funding library site acquisition for the City of Folsom.~~
- (f) Of the funds appropriated in this item \$15,000 is for the purpose of funding the public library in the City of Covina.
- (g) ~~Of the funds appropriated in this item, \$200,000 is for the purpose of funding the Canyon Country Library Project in Santa Clarita.~~
- (h) Of the funds appropriated in this item, \$18,000 is for the purpose of funding a roof replacement for the Dinuba Library in Tulare County.
- (i) ~~Of the funds appropriated in this item, \$100,000 is for the purpose of funding the City of Downey Library expansion.~~
- (j) Of the funds appropriated in this item \$600,000 is for the purpose of funding three bookmobiles at the Los Angeles County Library.
- (k) Of the funds appropriated in this item \$185,000 is for local grants for local library access programs for telephonic reading systems for deaf and print disabled people.
- (l) Of the funds appropriated in this item, \$50,000 is for publicizing the Fred Korematsu Film Project through the use of a direct outreach and education program.

Item 6120-221-0001—For local assistance, California State Library. I reduce this item from \$72,170,000 to \$56,870,000.

I am deleting the \$15,300,000 legislative augmentation provided for the Public Library Foundation. I am very supportive of funding for local public libraries and see them as a key component to increasing literacy, which is why base funding for the program increased by 46 percent last year. Moreover, the budget provides increased funding of approximately \$17,700,000 for the California State Library. The total includes \$10,000,000 to increase literacy by local libraries through the English Language and Literacy Intensive Program, \$4,500,000 to support priority local assistance projects (expansions totaling \$2,600,000 for the Transaction Based Reimbursement and Families for Literacy Program(s), and California Newspaper Project), staffing and equipment (totaling \$1,900,000 for California Research Bureau staffing, manuscript handling, modular furniture, and more), and \$3,200,000 for competitive local assistance literacy grants targeted to reach children up to age 5 and their caregivers. Lastly, the voters recently authorized a \$350 million bond for the construction of new public libraries or the renovation of existing public libraries (Proposition 14). These funds will all greatly expand access to quality library services in California.

Item 6360-001-0407—For support of the California Commission on Teacher Credentialing. I reduce this item from \$17,157,395 to \$17,042,665 by reducing:

- (a) 10-Standards for Preparation and Licensing of Teachers from \$17,157,395 to \$17,042,665, and by deleting Provision 4.

I am deleting the \$114,730 legislative augmentation for two positions to assist with the additional workload associated with reducing from 75 days to 30 days the timeframe in which the Commission must process teacher credential applications and renewals.

I am deleting Provision 4, which requires the Commission to reduce from 75 days the 30 days the timeframe in which teacher credential applications and renewals are processed. I am taking this action because I believe the current 75-day timeframe is

sufficient, and because I do not believe that two additional positions will be sufficient to allow the Commission to reduce credential application and renewal processing times to 30 days.

Item 6360-001-0408—For support of the California Commission on Teacher Credentialing. I reduce this item from \$10,164,000 to \$10,159,000 by reducing:

- (a) 10-Standards for Preparation and Licensing of Teachers from \$10,164,000 to \$10,159,000.

I am deleting the \$5,000 legislative augmentation for one new position to compile reports detailing the number and types of teaching credentials issued each year.

These funds are unnecessary, as the additional \$85,000 in proposed funding for this position that was contained in Item 6360-001-0407 was eliminated by the Legislature.

Item 6360-003-0001—For transfer by the Controller to the Test Development and Administration Account (0408). I delete this item and Provision 1.

I am deleting this item, which would provide \$4,000,000 General Fund for the Commission to absorb the cost of not charging applicants to take the California Basic Educational Skills Test. While I appreciate the rationale behind this proposal, I do not believe this represents a sufficiently high priority for the use of General Fund monies among all competing priorities. Additionally, this Budget includes \$1,650,000 General Fund to pay the \$55 cost of a teaching credential for 30,000 first-time teaching credential applicants.

Item 6360-003-0408—For support of the California Commission on Teacher Credentialing. I delete this item and Provision 1.

I am deleting this item to conform to the action taken in 6360-003-0001.

Item 6440-001-0001—For support of University of California. I reduce this item from \$3,054,876,000 to \$3,040,866,000 by reducing:

- (a) Support from \$2,924,026,000 to \$2,910,016,000, and revising Provision 40 and deleting Provisions 23, 27, 29, 36, 37, 38, 42, and 43.

I am deleting the \$1,000,000 legislative augmentation for UC San Francisco-Fresno Leukemia research. Although this additional augmentation may be meritorious, I believe the University can utilize other fund sources for this research if it is a high priority. I am deleting Provision 23 to conform to this action.

I am deleting the \$250,000 legislative augmentation to complement UC Riverside's American Indian History Program. Although this additional augmentation may be meritorious, I am deleting the funding because I believe there are other fund sources UC Riverside could utilize for this purpose if it is a high priority. I am deleting Provision 27 to conform to this action.

I am deleting the \$1,000,000 augmentation for the University to perform an evaluation of the statutory responsibilities of the Resources Agency. I am deleting this augmentation because these funds were restored to the Agency's budget by the Legislature. I am deleting Provision 29 to conform to this action.

I am deleting the \$380,000 legislative augmentation for undergraduate outreach for Latino students at UCLA Medical School. Targeted outreach, of the form proposed here, is currently under review by the California Supreme Court. UC has indicated that it would be inappropriate to implement this program prior to a Supreme Court decision as to whether such programs are legally permissible. I am deleting Provision 36 to conform to this action.

I am deleting the \$380,000 legislative augmentation for the Policy and International Affairs Outreach and Graduate Fellowship Program. Although this additional augmentation may be meritorious, I believe the University can utilize other fund sources for this purpose if it is a high priority. I am deleting Provision 37 to conform to this action.

I am deleting the \$1,000,000 legislative augmentation for the UCLA Ocean Discovery Center. Although this additional augmentation may be meritorious, I believe

the University can use other fund sources for this Center if it is a high priority. I am deleting Provision 38 to conform to this action.

I am reducing the \$36,000,000 legislative augmentation for the M.I.N.D. Institute by \$6,000,000. Of the sustained \$30,000,000, \$28,000,000 is one-time funds. I am requesting the University to use \$4,000,000 of this augmentation for the M.I.N.D. Institute to contract with an appropriate organization to continue the research begun by the March of Dimes to identify genetic markers for autism and mental retardation that can lead to diagnosis and prevention of these conditions prior to birth. I am revising Provision 40 to conform to this action.

“40. Of the amount appropriated in Schedule (a), ~~\$40,000,000~~ \$34,000,000 is to fund the Medical Investigation of Neurodevelopmental Disorders (MIND) Institute, including \$28,000,000 in one-time funds.”

I am deleting the \$200,000 legislative augmentation for research through the California Policy Research Center. Although this additional augmentation may be meritorious, I believe the University can utilize other fund sources for this research if it is a high priority. I am deleting Provision 42 to conform to this action.

I am reducing the \$22,800,000 legislative augmentation to provide an additional two percent employee compensation pool for non-senate academic employees and other non-faculty employees by \$3,800,000. The sustained \$19,000,000 should be sufficient to increase this pool by approximately 1.5 percent. I am revising Provision 43 to conform to this action.

“43. Of the amount appropriated in Schedule (a), ~~\$22,800,000~~ \$19,000,000 is for the University to provide an additional \pm 1.5 percent employee compensation pool for nonsenate academic employees and other nonfaculty employees.”

Item 6440-301-0001—For capital outlay, University of California. I revise this item by deleting Provision 4.

I am sustaining the \$4,000,000 augmentation for the preliminary plans for the Veterinary Medicine Alterations and Replacement Facility project that was added by the Legislature. The Davis campus has requested this project based on accreditation problems for the veterinary medicine program that are specifically related to deficient facilities. As such, I am directing the Department of Finance to ensure that these funds are used for a project that addresses accreditation requirements and not for other program enhancements.

I am deleting Provision 4, which expresses legislative intent that the Board of Regents of the University of California (UC) accept a proposed gift of 1,100 acres of land for the potential development of a campus at Chula Vista. This language would impose ongoing liability on the University and the State for maintaining and securing this site. In the absence of any established programmatic need for the site, any determination that an additional UC campus is necessary in this area or any other area of the state, and without the requisite approval of the California Postsecondary Education Commission for a new campus, acceptance of this land would not be appropriate.

Item 6440-301-0574—For capital outlay, University of California. I revise this item by deleting Provision 6.

I am deleting Provision 6, which requires the University of California (UC) to give priority to proposals from developers with labor peace agreements when choosing a developer for the hotel and conference center project at the UC Davis campus. This provision is inappropriately placed in state budget language because this center is not a state-funded project. In addition, this language is unnecessary because UC has resolved the underlying labor issues for the center.

Item 6440-302-0574—For capital outlay, University of California. I revise this item by deleting Provision 7.

I am deleting Provision 7, which prohibits the expenditure of \$15,723,000 in construction funds for the Seismic Replacement Building 1 project on the Berkeley campus prior to January 1, 2001 unless the University of California (UC) amends a Memorandum of Understanding (MOU) held between UC and the City of Berkeley to include an agreement to minimize community impacts from the project. The decision to not sustain this language has been difficult. While I am supportive of addressing local community concerns related to State construction projects, my primary concern is to ensure the safety of the UC students, faculty, and the public.

Item 6610-001-0001—For support of California State University. I reduce this item from \$2,404,639,000 to \$2,398,139,000 by reducing:

(a) Support from \$3,185,735,000 to \$3,179,235,000, and revising Provision 21 and deleting Provisions 22, 26, and 27.

I am reducing the \$5,000,000 legislative augmentation to fund the CSU Los Angeles Performing Arts Center by \$1,000,000. The sustained \$4,000,000 will provide the state share of this project. Any additional funding needed must be provided by local entities that would benefit from the use of this facility. I am revising Provision 21 to conform to this action.

“21. Of the amount appropriated in Schedule (a), ~~\$5,000,000~~ \$4,000,000 in one-time funds shall be used to fund the CSU Los Angeles Performing Arts Center.”

I am reducing the \$15,000,000 legislative augmentation to increase capacity in various academic programs by \$5,000,000. Although I am very supportive of increasing enrollment in the programs targeted by this augmentation, I believe that it is the responsibility of the California State University to fund the types of activities outlined in the provisional language. I am, therefore, requesting the California State University to use the sustained \$10,000,000 for one-time expenditures, such as instructional equipment, that will enhance the effectiveness and, therefore, the enrollment in these programs. I am deleting Provision 22 to conform to this action.

I am deleting the \$200,000 legislative augmentation for CSU San Jose to plan an Education Collaborative. Although this additional augmentation may be meritorious, I believe the University can redirect resources for this project if it is a high priority. I am deleting Provision 26 to conform to this action.

I am deleting the \$300,000 legislative augmentation to establish a Central American Studies Research Institute at CSU Northridge. Although this additional augmentation may be meritorious, I believe the University can redirect resources for this purpose if it is a high priority. I am deleting Provision 27 to conform to this action.

Item 6610-301-0001—For capital outlay, California State University. I reduce this item from \$27,034,000 to \$22,034,000 by reducing:

(4.1) 06.80.153-San Diego: Otay Mesa Off-Campus Center—Acquisition from \$3,000,000 to \$1,000,000;

(6) 06.98.104-Pomona: Center for Animal and Veterinary Science Education, Phase 1A—Preliminary plans, working drawings, construction and equipment from \$5,000,000 to \$2,000,000.

I am reducing the \$5,000,000 legislative augmentation to \$2,000,000 for Phase 1A of the Center for Animal and Veterinary Science Education at CSU, Pomona. These funds will only be available for expenditure if the CSU Board of Trustee's approve the project and a project proposal is submitted to and approved by the Department of Finance. The project proposal submitted to the Department of Finance must identify and demonstrate the programmatic need for the project. The project proposal must include, but not be limited to, annual program enrollment information and full time equivalents served, the deficiencies in current space that preclude program activities, project cost, and scope.

While I am sustaining \$1,000,000 for the Otay Mesa Off-Campus Center acquisition, these funds will only be available for expenditure if both the CSU and the California Community Colleges (CCC) receive approval for the joint off-campus center from the California Postsecondary Education Commission (CPEC) and if a joint off-campus center proposal is approved by the Department of Finance (DOF) following the CPEC approval of a needs study. The proposal submitted to the DOF must identify and demonstrate the programmatic need for the campus center, the annual enrollment and full time equivalents served, the costs of the center both during development and once fully developed, and the full scope and cost of the acquisition and construction proposal for the center. The submittal to DOF must demonstrate that the center will meet the programmatic needs of both segments and additionally substantiate that the space needs for the new center cannot be accommodated at existing campuses in the San Diego area.

Item 6870-001-0001—For support of Board of Governor's of the California Community Colleges. I reduce this item from \$13,207,000 to \$12,451,000 by reducing: (b) 20-Special Services and Operations from \$18,050,000 to 17,294,000.

I am deleting the legislative augmentation of \$666,000 and eliminating nine new positions to support the proposed Noncredit Courses (\$136,000), Human Resource Infrastructure Program (\$372,000), and High Cost Programs (\$158,000) to conform to actions taken by the Legislature or me to remove related funding from the Community Colleges' local assistance item.

I am deleting the legislative augmentation of \$90,000 for one new position in the Telecommunication and Technology Infrastructure Program. Although I am supportive of enhancing technology within the community colleges, and the budget provides \$16.3 million for that purpose, the budget also provides an increase of approximately \$1 million for the Chancellor's office to adequately meet increased workload demands.

Item 6870-101-0001—For local assistance, Board of Governors of the California Community Colleges (Proposition 98). I reduce this item from \$2,706,014,000 to \$2,608,731,000 by reducing:

- (a) 10.10.010-Apportionments from \$1,648,654,000 to \$1,603,654,000;
- (b) 10.10.020-Basic Skills, CalWORKs, and Apprenticeships from \$41,606,000 to \$41,342,000;
- (c) 10.10.030-Growth for Apportionments from \$135,871,000 to \$116,263,000;
- (e) 20.10.005-Student Financial Aid Administration from \$7,356,000 to \$7,273,000;
- (f) 20.10.010-Extended Opportunity Program and Services and Special Services from \$86,258,000 to \$85,467,000;
- (g) 20.10.020-Disabled Students from \$76,049,000 to \$75,370,000;
- (h) 20.10.040-Fund for Student Success from \$18,518,000 to \$16,218,000;
- (m) 20.10.070-Matriculation from \$72,066,000 to \$71,308,000;
- (q) 20.20.055-Part-Time Faculty Office Hours from \$7,500,000 to \$2,500,000;

and by deleting

- (ux) 20.30.040-High Cost Programs (\$10,000,000);
- (wx) 20.30.091-Noncredit Courses (\$12,800,000);

and by revising Provisions 2, 3, 8, and 10 and by deleting Provision 19.5.

I am deleting the legislative augmentation of \$12,800,000 in schedule (wx) for noncredit courses. While sequencing noncredit courses and providing additional support for noncredit students may have merit, the budget already includes an increase of over \$10 million for growth and COLA in noncredit programs. Furthermore, the \$155 million augmentation for the Partnership for Excellence provides resources for districts to expand any program deemed to most effectively increase student outcomes.

I am deleting Provision 19.5 and the legislative augmentation of \$10,000,000 in schedule (ux) for High Cost Programs. I am supportive of high-demand programs, including nursing, and the budget includes \$45 million, an increase of \$11 million, for the Economic Development Program. Colleges can use these funds at local discretion to best meet health care and other industry workforce needs.

I am deleting the legislative augmentation of \$45,000,000 in schedule (a) for equalization, as the proposal does not appear to be the most cost-effective means for improving student outcomes. Furthermore, funding equalization as proposed on an FTES and program improvement basis would have an inverse relationship, resulting in limited effectiveness at achieving the intended purpose.

I am revising Provision 2 as follows:

“2. Of the funds appropriated in Schedule (a), Apportionments, up to \$100,000 is for a maintenance allowance, pursuant to regulations adopted by the board of governors. Up to \$500,000 is to reimburse colleges for the costs of federal aid repayments related to assessed fees for fee waiver recipients. This reimbursement only applies to students who completely withdraw from college before the census date. ~~\$37,500,000 is to provide equalization of district apportionments on a FTES basis and \$7,500,000 is to provide equalization of district apportionments on a program improvement basis.~~

I am deleting the legislative augmentation of \$2,300,000 in schedule (h) for the Puente Project. My proposed budget included an increase of \$1,000,000, which more than doubles this very worthwhile program and provides sufficient funding to increase access to services at 35 additional colleges.

I am revising Provision 10(c) as follows:

“(c) Up to ~~\$4,244,000~~ \$1,944,000 is for the Puente Project. \$944,000 continues the 1999–2000 level of funding to support 40 colleges and is available if these funds are matched by \$100,000 of private funds and the participating community colleges and University of California campuses maintain their 1995–96 support level for the Puente Project. \$1,000,000 shall be used to expand the Puente Project to at least an additional 35 colleges. These funds will be subject to the same local match agreement as existing programs. These funds are not required to be allocated on a temporary basis and may be allocated on a permanent basis to support a Puente Project that meets the conditions of the Puente Project contract agreement. All funding shall be allocated directly to participating districts in accordance with their participation agreement.”

I am reducing the \$38,700,000 legislative augmentation for growth in schedules (b), (c), (e), (f), (g) and (m) by \$22,183,000, thereby retaining a total of 3.5% growth in apportionments. Data indicate that funding growth at 3.5% will provide sufficient resources to ensure that students have access to community colleges.

I am revising Provisions 3 and 8 to conform to this action as follows (the revised language also includes a technical correction to strike reference to two augmentations, \$5,400,000 for books and \$2,400,000 for discretionary program expansion, previously proposed by the Legislature, but not included in the enrolled budget bill, for Extended Opportunity Programs and Services):

“3. Notwithstanding any other provision of law, ~~\$25,017,000~~ \$24,753,000 of the funds appropriated in Schedule (b) shall be for allocation to community college districts in the 2000–01 fiscal year for the purposes of funding FTES in courses in basic skills, including English-as-a-second-language courses and work force preparation courses for newly legalized immigrants, to the extent the total FTES claimed by a district for the 2000–01 fiscal year exceeds the level of total FTES funded for that district in the 2000–01 fiscal year. The Chancellor of the California Community Colleges shall develop criteria for allocating these funds.”

“8. Of the funds appropriated in Schedule (f), ~~\$82,933,000~~ \$74,461,000 is for Extended Opportunity Programs and Services in accordance with Article 8 (commencing with Section 69640) of Chapter 2 of Part 42 of the Education Code. Of this amount \$6 million represents an augmentation and may only be allocated to serve 10,000 additional students over the number served in the 1999–2000 fiscal year. Funds provided in this item for Extended Opportunity Programs and Services (EOPs) shall be available to students on all campuses within the California Community College system, including those students on new campuses or in new districts. ~~\$11,125,000~~ \$11,006,000 is for funding, at all colleges, the Cooperative Agencies Resources for Education (CARE) program in accordance with Article 4 (commencing with Section 79150) of Chapter 9 of Part 48 of the Education Code. The board of governors shall allocate funds on a priority basis and to local programs on the basis of need for student services.”

I am deleting the \$5,000,000 legislative augmentation for the part-time faculty office hours program. The budget contains a \$2,500,000 base budget for this program approved last year. While I am supportive of fair wages and employment conditions for part-time faculty, I am concerned that this augmentation does not contain any assurance of improvements in the quality of instruction or student outcomes. Additionally, I am not supportive of the reduced local match requirement contained in the education trailer bill. Furthermore, any action pertaining to faculty office hours may be premature until the completion of a study of the CCC’s part-time faculty employment, salary, and compensation patterns, as required by Chapter 738/99 (AB 420).

Item 6870-301-0574—For capital outlay, Board of Governors of the California Community Colleges. I reduce this item from \$307,277,000 to \$304,342,000 by deleting:

Long Beach Community College District

Long Beach City College (Liberal Arts College)

(29) 40.25.116-Child Development Center—Construction (\$2,935,000)

I am deleting funding for this project to provide the Chancellor’s Office of the California Community Colleges and the Long Beach Community College District the opportunity to redesign the project in accordance with State guidelines that were developed and implemented shortly after the project had been initiated. Compliance with these guidelines will ensure the completion of a facility that will fully address programmatic needs.

Item 7980-001-0001—For support of Student Aid Commission. I reduce this item from \$10,797,000 to \$10,547,000 by reducing:

(a) 15-Financial Aid Grants Program from \$10,843,000 to \$10,593,000.

I am deleting the \$250,000 legislative augmentation for first-year administrative costs of providing financial aid incentives for students to attend public colleges and universities during the summer session. I am deleting this augmentation because there is no indication that the Commission would incur additional workload as a result of students attending summer session.

Item 7980-101-0001—For local assistance, Student Aid Commission. I reduce this item from \$571,216,000 to \$519,916,000 by reducing:

Schedule (a) Financial Aid Grants Program from \$580,780,000 to \$529,480,000, and revising Provision 6.

I am deleting the \$11,500,000 legislative augmentation to increase the maximum Cal Grant awards to cover one-half of campus-based fees for recipients attending the California State University and the University of California.

I am reducing the \$45,300,000 legislative augmentation to increase the Cal Grant B subsistence award for all recipients by \$36,000,000. The sustained \$9,300,000 is sufficient to increase this award by approximately ten percent to \$1,548.

I am reducing the \$3,400,000 legislative augmentation to increase the maximum Cal Grant C award for all recipients by \$2,800,000. The sustained \$600,000 is sufficient to increase this award by approximately ten percent to \$2,592. I am also making a technical correction to Provision 6, which incorrectly states that this legislative augmentation applies only to new recipients. The legislative action was to provide the increase to all recipients.

I am reducing the \$1,200,000 legislative augmentation to increase the maximum Cal Grant C book and supply award for all recipients by \$1,000,000. The sustained \$200,000 is sufficient to increase this award by ten percent to \$576.

I am revising Provision 6 to conform to the above actions.

“6. Notwithstanding any other provision of law, of the amount appropriated in Schedule (a), ~~\$11,500,000 shall be used to increase the maximum Cal Grant A; Cal Grant B; Cal Grant C; and Cal Grant F awards to cover approximately one-half of campus-based fees for all recipients attending the California State University and the University of California; \$45,300,000 \$9,300,000 shall be used to increase the Cal Grant B subsistence award for all recipients to \$2,322 \$1,548; \$3,400,000 \$600,000 shall be used to increase the maximum Cal Grant C award for new recipients to \$3,659 \$2,592; and \$1,200,000 \$200,000 shall be used to increase the Cal Grant C book and supply award for all recipients to \$810 \$576.~~ These funds are contingent on the enactment of legislation that becomes effective on before January 1, 2001, revising the program to reflect the level of benefits anticipated by this provision. If legislation is enacted that requires some lesser amount than provided in this provision, the Director of Finance shall determine the appropriate amount to be reverted to the General Fund, and shall certify the amount to the Controller’s office.”

Item 8100-101-0001—For local assistance, Office of Criminal Justice Planning. I reduce this item from \$194,492,000 to \$189,038,000 by reducing:

(6) 50.20.352-Youth Emergency Telephone Referral from \$388,000 to \$338,000, (22.1)50.30.700-Special Projects-Public Safety, from \$155,999,000 to \$150,595,000;

I am reducing this item by \$50,000 by deleting the legislative augmentation for outreach programs for the California Youth Crisis Line. This program is currently funded by the Office of Criminal Justice Planning, and receives funding for outreach in its funding allocation. Any additional funding for this program should be sought through the normal competitive process.

I am reducing this item by \$1,700,000 by deleting the legislative augmentation for the Child Trauma Reduction Program. SB 2183 is a measure pending in the Legislature that creates this pilot program and contains an appropriation for administration. There is insufficient information to justify an augmentation to the budget for this purpose.

I am reducing this item by \$1,025,000 by deleting the following legislative augmentations in order to fund higher competing priorities:

\$500,000 for a staging area for police services for the City of La Mirada;

\$425,000 for the Orange County District Attorney’s Office Immigrant Outreach Program;

\$100,000 for the City of Anaheim Forensics Laboratory Project.

I am reducing this item by \$100,000 for the legislative augmentation for the Stand-off Chemical Agent Detector from \$600,000 to \$500,000 in order to fund higher competing priorities.

I am reducing this item by \$338,000 by deleting the following legislative augmentations for gang prevention programs. Other funds are currently available within this

budget for purposes such as these, including funds that will be made available for the Juvenile Justice Initiative:

\$130,000 for the Orange County Community Services Department: Gang Prevention/Intervention Program;

\$93,000 for the City of Long Beach Civil Injunction Against Violent Street Gangs Program;

\$65,000 for the City of Long Beach Gang Intervention Prevention Program;

\$50,000 for the City of Bellflower's Alternative to Gangs Program.

I am reducing this item by \$241,000 by deleting the following legislative augmentations to purchase equipment for local law enforcement. I note that the budget includes \$75 million to address one-time local law enforcement equipment needs through grants allocated on a per capita basis:

\$100,000 for a mobile command post for the Ventura Police Department;

\$51,000 for equipment for the Ventura Police Department;

\$50,000 for equipment for the City of Santa Paula Police Department;

\$30,000 for equipment for the City of Bellflower Sheriff Substation; and

\$10,000 for equipment for the Town of Danville Police Bike Patrol.

I am deleting \$2,000,000 for the legislative augmentation for the City of Garden Grove Public Safety Building Upgrades. This is a local responsibility and should be locally funded based on local priorities.

Item 8100-101-0597—For local assistance, Office of Criminal Justice Planning. I reduce this item from \$3,683,000 to \$3,433,000 by reducing:

(a) 50.30.562-High Technology Theft Apprehension and Prosecution Program from \$3,683,000 to \$3,433,000.

I am reducing the legislative augmentation for the Prosecution of High Technology Crime education grants from \$500,000 to \$250,000 in order to fund higher competing priorities.

I am revising this item to conform with the action taken in Item 8100-112-0001.

Item 8100-112-0001—For transfer by the Controller to the High Technology Theft Apprehension and Prosecution Program Trust Fund. I reduce this item from \$3,465,000 to \$3,215,000.

I am reducing this legislative augmentation for the Prosecution of High Technology Crime education grants from \$500,000 to \$250,000 in order to fund higher competing priorities.

Item 8140-001-0001—For support of the State Public Defender. I reduce this item from \$11,694,000 to \$11,589,000 by reducing:

(a) 10-State Public Defender from \$11,694,000 to \$11,589,000;

and by deleting Provision 2.

I am deleting the \$105,000 legislative augmentation for the State Public Defender to prepare a report and make recommendations by October 1, 2000, on the safeguards that exist in California to ensure that the innocent are not executed, primarily investigating the impact of waiting for appellate counsel, and the amount of funding provided for investigation of cases at the appellate level. There is no evidence to suggest that a problem exists in California related to indigent inmates not receiving proper counsel in capital cases during the appellate and habeas corpus process.

I am deleting Provision 2 to conform to this action.

Item 8260-001-0001—For support of California Arts Council. I reduce this item from \$3,166,000 to \$2,616,000 by reducing:

(b) 10-Artists in Residence from \$982,595 to \$938,000;

(c) 20-Organizational Support Grants from \$1,413,025 to \$1,168,000;

(d) 25-Performing Arts Touring/Presenting Program from \$367,775 to \$350,000;

(e) 30-Special Initiatives Program from \$123,640 to \$88,000;

- (f) 40-Statewide Projects from \$644,965 to \$538,000, and
- (ix) 70-Cultural Institutions Program from \$350,000 to \$250,000.

To conform with the deletion of the \$7,050,000 legislative augmentation for the expansion of core programs in the local assistance item, I am deleting the \$450,000 legislative augmentation that would have provided administrative support for the expansion of the core programs.

To conform with my action regarding Item 8260-103-0001, I am reducing the amount available for support costs by \$100,000 from \$350,000 to \$250,000.

Item 8260-101-0001—For local assistance, California Arts Council. I reduce this item from \$40,215,000 to \$27,665,000 by reducing:

- (b) 10-Artists in Residence from \$4,404,000 to \$3,705,000;
- (c) 20-Organizational Support Grants from \$19,810,000 to \$10,473,000;
- (d) 25-Performing Arts Touring/Presenting Program from \$1,121,000 to \$842,000;
- (e) 30-Special Initiatives Program from \$1,059,000 to \$500,000;
- (f) 40-Statewide Projects from \$4,352,000 to \$2,676,000;

and revising Provisions 3 and 4.

I am reducing the \$7,500,000 legislative augmentation for the Multicultural Arts Development Program to \$2,000,000. While this program is potentially worthwhile, I believe that \$2,000,000 is adequate at this time for this program.

I am also reducing the amount specified in Provision 4 for administrative costs from \$225,000 to \$100,000 to conform to the grant reduction.

I am revising Provisions 3 and 4 to conform to these actions.

“3. Of the funds appropriated in Schedule (c), ~~\$7,500,000~~ \$2,000,000 is for the Multicultural Arts Development program. These funds shall be for culturally specific organizations or artists who have a demonstrated commitment to cultural art. This funding shall be limited to organizations that have traditionally not received significant grants from the California Arts Council.”

“4. Of the ~~\$7,500,000~~ \$2,000,000 appropriated for the Multicultural Arts Development program, up to ~~\$225,000~~ \$100,000 can be used for state operations for the cost of administering the grants and transferred to Item 8260-001-0001.”

I am also deleting the \$7,050,000 legislative augmentation for the expansion of existing core programs. This amount, when combined with the \$450,000 appropriation in Item 8260-001-0001, would have added \$7,500,000 to the budget. Funding for core programs has increased from approximately \$14,000,000 in 1997–98 to approximately \$20,000,000 in my proposed 2000–01 Budget. Also included in the Budget is \$10,000,000 for the new Arts in Education Program, which provides an approximately 50 percent increase in competitive grant programs. Over the past few years, I have provided a significant increase in arts program funding.

Item 8260-103-0001—For local assistance, California Arts Council. I reduce this item from \$45,795,400 to \$31,235,400 by deleting or reducing allocations for various projects in this item. I am also revising Provisions 5 and 9 to conform with this action.

Although these projects may be meritorious, I am reducing or deleting the funding for them to fund higher competing priorities.

I am revising Provision 5 to conform to this action.

“5. Of the funds appropriated in this item ~~\$40,795,400~~ \$26,235,400 shall be for the following projects:

- (1) City of La Habra: Outreach Program at the Children’s Museum of La Habra ~~410,000~~ 250,000
- (2) Natural History Museum of Los Angeles County 1,000,000
- (3) New Conservatory Theatre: Children’s Safe School Arts Project 50,000
- (4) San Francisco Mexican Museum: Construction of a permanent facility 500,000

- (5) National Maritime Museum Association: Maritime Educational Program for Northern California schoolchildren 250,000
- (6) City of San Francisco: DeYoung Museum 4,500,000
- (7) Bayview Opera House: Renovation and structural improvements 400,000
- (8) Filipino American National Heritage Society, Sacramento: Documentary "An Untold Triumph" 25,000
- (9) Kids Write Plays Program 65,000
- (10) Armenian Film Foundation 78,400
- (11) San Mateo and Los Angeles County Offices of Education: Civil Rights Project "Sojourn to the Past" 350,000

- (76) Legion of Valor Museum in Fresno: Creation of archival system for the purpose of establishing a permanent database of original citations 150,000
 (77) Latino Museum of History, Art, and Culture 1,000,000”

I am revising Provision 9 to conform with this action.

“9. Of the funds appropriated in Schedule (ix) of Item 8260-001-0001, ~~\$350,000~~ \$250,000 shall be used by the California Arts Council to defray its expenses for support and related expenses for performing its responsibilities under this item. The council may enter into an interagency agreement to obtain personnel services relating to the review and approval of capital outlay expenditure plans.”

Item 8320-001-0001—For support of Public Employment Relations Board. I reduce this item from \$5,835,000 to \$4,435,000 by reducing:

- (a) 11-Public Employment Relations from \$5,847,000 to \$4,447,000.

I am deleting the \$1,400,000 legislative augmentation, which would provide resources to expand the Public Employment Relations Board’s jurisdiction to include resolving disputes and enforcing statutory duties and rights of employers and employees for local governments. I do not believe that state oversight of local government collective bargaining is necessary at this time.

Item 8350-001-0001—For support of Department of Industrial Relations. I reduce this item from \$147,385,000 to \$146,385,000 by reducing:

- (6) 40-Prevention of Industrial Injuries and Deaths of California Workers, from \$74,479,930 to \$73,979,930;
 (7) 50-Enforcement and Promulgation of Laws Relating to Wages, Hours, and Conditions of Employment, and Licensing and Adjudication, from \$40,338,850 to \$39,838,850;

and by deleting Provisions 3 and 4.

I am deleting the legislative augmentation of \$500,000 and 7 positions for the enforcement of labor law and regulations related to the janitorial and building maintenance industry. I am also deleting the legislative augmentation of \$500,000 and 7 positions for enforcement of health and safety laws and regulations related to farm laborers. The budget includes \$4.1 million for the Joint Enforcement Strike Force and the Targeted Industries Partnership Program to enforce Labor Code requirements, including those relating to the janitorial and building maintenance industry. Additionally, the budget includes over \$73 million to enforce health and safety requirements in the workplace, including those affecting the agricultural industry. I am also deleting Provisions 3 and 4. Provision 3 would direct \$500,000 of the amount appropriated in this item to the Division of Labor Standards and Enforcement for the purposes of enforcing labor laws and regulations related to the janitorial and building maintenance industry. Provision 4 would direct \$500,000 of the amount appropriated in this Item to the Division of Occupational Safety and Health for the purposes of enforcing health and safety laws and regulations related to farm laborers. I am deleting these provisions to conform to my previous action to delete funding for these programs.

I am sustaining the \$150,000 legislative augmentation for the Young Worker Health and Safety Network on a one-time basis. I expect that pending legislation establishing a statewide young worker health and safety resource network (AB 1599) will be amended consistent with my action on this issue.

Item 8570-001-0001—For support of Department of Food and Agriculture. I reduce this item from \$71,782,000 to \$64,732,000 by reducing:

- (a) 11-Agricultural Plant and Animal, Pest and Disease Prevention from \$78,997,000 to \$71,947,000,
 and deleting Provisions 4, 5, 6, 7, 8, and 9.

I am deleting the \$3,000,000 legislative augmentation for facility replacement and improvements for the Center for Agroecology and Sustainable Food Systems at the University of California, Santa Cruz. The need targeted by this augmentation has not been identified in the campus's five or ten year infrastructure plan as a priority.

In the overall context of higher education capital outlay needs, the State has limited resources to address all identified needs. Current and future resources should not be allocated on an ad hoc basis, rather, allocated to projects that have been developed in the context of the Administration's overall priorities with regard to appropriate project costs and guidelines, instructional purposes, enrollment related needs, scope standards, and having secured the appropriate programmatic and site review and approvals.

I am deleting Provision 7 to conform to this action.

I am deleting the \$3,750,000 legislative augmentation that would have provided grants to the University of California Small Farm Center (\$750,000), the Center for Biological Control at the University of California, Berkeley (\$1,750,000), the Center for Biological Control at the University of California, Riverside (\$750,000), and the Center for Agroecology and Sustainable Food Systems at the University of California, Santa Cruz (\$500,000). While there may be merit to some of these proposals, there is insufficient information to justify funding at this time.

I am deleting Provisions 4, 5, 6, 8, and 9 to conform to this action.

I am also deleting the \$300,000 legislative augmentation for a report regarding the use of Genetically Modified Organisms (GMOs). It is unclear what would specifically be accomplished with this level of funding.

Item 8570-101-0001—For local assistance, Department of Food and Agriculture. I reduce this item from \$20,590,000 to \$10,590,000 by reducing:

(a) 11-Agricultural Plant and Animal, Pest and Disease Prevention from \$19,015,000 to \$10,515,000;

(b) 31-Assistance to Fairs and County Agricultural Activities from \$2,908,000 to \$1,408,000;

and by deleting Provision 2.

I am deleting the \$8,500,000 legislative augmentation to the County High Risk Pest Exclusion Program. I believe that the \$5,500,000 I proposed, along with additional unclaimed gas taxes that may be available for this purpose pursuant to Chapter 890, Statutes of 1999, and the \$17 million from unclaimed gas taxes for other county agricultural programs, provides a sufficient level of state support for pest exclusion activities, which are largely county responsibilities. I am deleting the \$1,500,000 legislative augmentation and Provision 2, which appropriates funds to the 50th Agriculture Fair District for the new fairgrounds exhibit hall. Although this project may be meritorious, I am deleting this funding to fund higher competing priorities.

Item 8620-001-0001—For support of the Fair Political Practices Commission. I revise this item.

I am sustaining the \$460,000 General Fund legislative augmentation to support the development and implementation of a public education unit which will provide a central location for public access to state and local laws regulating political activities. However, I am reducing the number of personnel years from 4.8 personnel years to 1.8 because I believe there are sufficient vacant positions that can be re-directed to meet the workload demands of this new program.

Item 8940-001-0001—For support of Military Department. I reduce this item from \$28,099,000 to \$27,099,000 by reducing:

(a) 10-Army National Guard from \$39,294,000 to \$38,294,000.

I am deleting the \$1,000,000 legislative augmentation to fund deferred maintenance projects at armories and other facilities. The California National Guard is emerging into a new force, restructuring its organization for the 21st Century. Under this struc-

turing, the National Guard has added combat support and combat service support units (non-combat), while reducing the size of and modernizing its combat infantry division. The Military Department is currently preparing a comprehensive plan to address its overall capital outlay and special repairs/deferred maintenance needs, in light of its new organization and mission. Therefore, providing additional resources at this time would be premature.

Item 8965-001-0001—For support of Veterans Home of California, Barstow. I reduce this item from \$12,413,000 to \$12,412,000 by reducing:

(a) 30-Care of Sick and Disabled Veterans from \$20,903,000 to \$20,902,000, and by deleting Provision 4.

I am reducing this item by \$1,000 and deleting Provision 4, which would require the Department of Veterans Affairs to submit to the Legislature by April 1, 2001, an evaluation of the Behavior Management pilot program at the Barstow Veterans Home. The pilot program is proposed for a trial period of 24 months, yet this language requires a complete evaluation 10 months into the program. While I do not object an evaluation of this program, this language is premature.

Item 9100-102-0001—For local assistance, Tax Relief. I delete this item and Provision 1.

I am deleting the \$1,700,000,000 legislative augmentation as a technical change, since tax relief will be provided through a budget trailer bill rather than the Budget Act.

I am deleting Provision 1 to conform to this action.

Item 9210-104-0001—For local assistance, Local Government Financing. I reduce this item from \$12,150,000 to \$10,800,000 and by revising Provision 1.

“1. The funds appropriated in this item are for the following:

- (a) City of San Diego—Point Loma Fire Station #22, new apparatus bay and remodeling ~~750,000~~ 400,000
- (b) Orange County—Orange County Coroner 10,000,000
- (c) Imperial County—Consolidation of fire department, sheriff’s office and the Heber Utility District 400,000
- (d) ~~City of Belmont—Renovation and rehabilitation of the Belmont police station 1,000,000”~~

I am reducing this item to fund higher competing priorities.

Item 9210-105-0001—For local assistance, Local Government Financing. I reduce this item from \$4,898,167 to \$3,548,167 and by revising Provision 1.

“1. The funds appropriated in this item are for the following:

- (a) City of Santa Ana—Santa Ana Zoo Commissary 40,000
- (b) City of Antioch—Capital improvements 282,167
- (c) City of Rialto—Imaging system 65,000
- (d) San Bernardino County Registrar of Votes—Creation of remote early voting sites 100,000
- (e) Santa Barbara County—Expand Cascade Casa de La Raza Family Service Center 100,000
- (f) Mendocino County—Mobile spay/neuter, disaster preparedness, and pet adoption van 100,000
- (g) Marin County—Construction of a permanent detoxification facility 250,000
- (h) San Joaquin County—Mary Graham Children’s Complex for abused children ~~2,650,000~~ 1,500,000
- (i) City of Downey—Animal shelter renovation for the Southeast Area Animal Control Agency 561,000
- (j) City of Avalon—Purchase of storm water diverters 300,000
- (k) ~~City of Azusa—Fund an economic impact study on traffic change 200,000~~
- (l) City of Santa Clarita—Diapers recycling facility 250,000”

I am reducing this item to fund higher competing priorities. In addition, the funding for the Santa Barbara County: Expand Casa de La Raza Family Service Center project is one-time in nature.

Item 9800-001-0001—For Augmentation for Employee Compensation. I revise this item by deleting Provision 3.

I am deleting Provision 3, which states legislative intent that funds available in this item shall be available to address salary compaction issues within the Department of Corrections. This language is an infringement on the Department of Personnel Administration's authority to collectively bargain salary issues.

SEC. 3.60—Contribution to Public Employees' Retirement Benefits. I delete provision (d) of this control section.

Provision (d) of this section would direct the California Public Employees' Retirement System (CalPERS) to offset the State's 2000–01 retirement contribution by the amount the State overpaid in 1999–00.

I am deleting this provision since CalPERS already refunded the overpayment to the State.

With the above deletions, revisions and reductions, I hereby approve Assembly Bill 1740.

GRAY DAVIS, Governor

- 2 [Ch. 71] I am signing Senate Bill 1667. However, I am deleting Section 41, reducing the appropriations made in Section 42 by a total of \$17,566,000, and reducing the appropriations made in Section 43 by a total of \$3,626,000. These appropriations are being eliminated because I have specific concerns with the projects. The specific reductions are as follows:

I am deleting Section 41 of this bill, which appropriates \$8.9 million for county office of education equalization. This augmentation is being eliminated because the 2000–01 Budget continues discretionary funding increases from previous years for county offices of education and provides an increase of \$48,000,000 in discretionary funding by eliminating the county offices of education deficit factor.

I am also reducing Section 42 of this bill from \$32,852,000 to \$15,286,000. The specific reductions are as follows:

I am reducing the appropriation in Section 42 by eliminating paragraph (6) of subdivision (a), which allocates \$300,000 to the San Francisco Unified School District for expansion of arts education in grades K–5. Grants for this purpose are available on a competitive basis through the Department of Education, and I am therefore deleting this appropriation to fund higher competing priorities.

I am reducing the appropriation in Section 42 by reducing paragraph (7) of subdivision (a) from \$500,000 to \$400,000, to the Culver City Unified School District to repair the track at Culver City High School, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (8) of subdivision (a), which allocates \$10,000 to the Los Angeles Unified School District for a school-based/school-linked health program at the Maclay Middle School. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (9) of subdivision (a), which allocates \$10,000 to the Los Angeles Unified School District for a school-based/school-linked health program at the Pacoima Middle School. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (11) of subdivision (a), which allocates \$20,000 to the Manhattan Beach Unified School District for

the purchase of equipment for teaching aids to reduce diversity intensity and increase cultural awareness at Mira Costa High School, to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (15) of subdivision (a), which allocates \$100,000 to Liggett Elementary for establishment of a Parent Education Center. Grants are already available for this purpose through the Department of Education, pursuant to the Parental Involvement Program established pursuant to Chapter 734 of the Statutes of 1999. Additional, support for this purpose should be provided from local resources.

I am reducing the appropriation in Section 42 by eliminating paragraph (18) of subdivision (a), which allocates \$200,000 to the Sunnyvale Elementary School District for Project H.E.L.P. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (19) of subdivision (a), which allocates \$250,000 to the Lamont Elementary School District for portable classrooms. Funding for this purpose should be sought through the State Allocation Board process.

I am reducing the appropriation in Section 42 by eliminating paragraph (22) of subdivision (a), which allocates \$450,000 to the Los Angeles Unified School District for the San Fernando High School Health Clinic. I am reducing this appropriation in order to fund competing higher priorities.

I am sustaining the appropriation of \$500,000 in paragraph (23) of subdivision (a) of Section 42 for the Baldwin Park Unified School District's Drama, Reading, English, and Mathematics (DREAM) project, on a one-time basis only, thus any future support for this project should be provided from local resources.

I am reducing the appropriation in Section 42 by reducing paragraph (24) of subdivision (a) from \$500,000 to \$200,000, to the Montebello Unified School District for natural gas powered delivery trucks, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (25) of subdivision (a), which allocates \$150,000 to the Elk Grove Unified School District for a Japanese language academy. I am deleting this appropriation to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (26) of subdivision (a), which allocates \$500,000 to the Oakland Unified School District for a reading training program. The Budget Bill already includes significant funding for reading staff development, reading programs, and remedial instruction in reading, and I am therefore unable to support this request.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (27) of subdivision (a), from \$350,000 to \$200,000 for allocation to the Burbank Unified School District to continue a literacy program on a one-time basis only, thus any future support for this project should be provided from local resources.

I am sustaining the appropriation of \$300,000 in paragraph (28) of subdivision (a) of Section 42 for the Temple City Unified School District's Arts Academy, on a one-time basis only, future support for this project should be provided from local resources.

I am reducing the appropriation in Section 42 by eliminating paragraph (29) of subdivision (a), which allocates \$400,000 to the Alum Rock Union Elementary School District for a mathematics/science center that would provide training and science/mathematics supplies to teachers. The 2000-01 Budget already contains \$246 million for the Staff Development Day Buy-Out program and \$108 million for a variety of Professional Development Institutes, including institutes in elementary mathematics and algebra, to help improve teacher's skills and expertise in classroom instruction.

I am reducing the appropriation in Section 42 by eliminating paragraph (30) of subdivision (a), which allocates \$50,000 to the Santa Monica Malibu Unified School District for an after school youth program at Malibu High School. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (32) of subdivision (a), which allocates \$200,000 to the Tahoe-Truckee Unified School District for the North Tahoe Youth Center. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (34) of subdivision (a), which allocates \$675,000 to the Los Alamitos Unified School District for reimbursement for class size reduction costs. Funding for this purpose should be sought through the class size reduction facilities program.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (35) of subdivision (a), from \$10,000,000 to \$5,000,000 for allocation to the Alvard Unified School District for construction costs associated with the Center for Primary Education. The balance of funding required for this project should be sought through the School Facilities Program or from local resources.

I am reducing the appropriation in Section 42 by eliminating paragraph (36) of subdivision (a), which allocates \$900,000 to the Riverside County Office of Education for the purpose of screening and diagnosing pupils for Scotopic Sensitivity Syndrome, to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (37) of subdivision (a), which allocates \$500,000 to the Saugus Union Elementary School District for costs associated with testing air quality in portable classrooms. As indoor air quality in portable classrooms is an important issue, the Budget provides \$1 million to the Air Resources Board and the State Department of Health Services for purposes of conducting a comprehensive study and review of the environmental health conditions, including air quality, in portable classrooms.

I am reducing the appropriation in Section 42 by eliminating paragraph (38) of subdivision (a), which allocates \$275,000 to the Inyo County Office of Education for facilities costs. Funding for this project may be available through the School Facilities Program.

I am reducing the appropriation in Section 42 by eliminating paragraph (39) of subdivision (a), which allocates \$500,000 to the Calaveras Unified School District for swimming pool renovations, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (40) of subdivision (a), which allocates \$27,000 to the Alta-Dutch Flat Union Elementary School District for Afternoon Transportation Services, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (43) of subdivision (a), which allocates \$469,000 to the Mariposa Unified School District for declining ADA. As current law provides sufficient provisions to cushion the loss of ADA for school districts, I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (44) of subdivision (a), from \$568,000 to \$285,000 for the Chatom Union Elementary School District. The original augmentation included funding for declining ADA and for the purchase of school buses. As current law provides sufficient provisions to cushion the loss of ADA for school districts, I am reducing this appropriation maintaining only the funding for the purchase of school buses.

I am reducing the appropriation in Section 42 by eliminating paragraph (45) of subdivision (a), which allocates \$3,700,000 to the Clovis Unified School District for

the Central Valley Applied Agriculture and Technology Center. I am deleting this appropriation to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (47) of subdivision (a), which allocates \$112,000 to the Alameda County Office of Education for the Smart Kids, Safe Kids program. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (48) of subdivision (a), which allocates \$475,000 to the Millbrae Elementary School District for declining ADA. As current law provides sufficient provisions to cushion the loss of ADA for school districts, I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (52) of subdivision (a), which allocates \$160,000 to the Soledad Enrichment Charter School for Operation Y.E.S. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (55) of subdivision (a), from \$5,000,000 to \$3,700,000 for the Clovis and Fresno Unified School Districts for the Center for Advanced Research and Technology. I am reducing this appropriation to fund higher competing priorities.

I am also reducing Section 43 of this bill by \$3,626,000, from \$8,576,000 to \$4,950,000. The specific reductions are as follows:

I am reducing the appropriation in Section 43 by eliminating paragraph (1) of subdivision (a) which allocates \$575,000 for preliminary plans, working drawings and construction for the Santa Clarita Community College District, College of the Canyons Welding Technology and Manufacturing Technology Lab. Funding for this project is premature as the project has circumvented the Chancellor's Office review and priority setting process, and has not been identified by the District as a priority on their five-year capital outlay plan.

I am reducing the appropriation in Section 43 by eliminating paragraph (2) of subdivision (a) which allocates \$551,000 for the working drawings phase of the Victor Valley Community College District, Victor Valley College Advanced Technology Building. Funding for this project is premature as the funding of previous phases was predicated upon the commitment of the District that funding for subsequent phases would not be sought until the 2001–2002 fiscal year.

I am reducing the appropriation in Section 43 by eliminating paragraph (4) of subdivision (a), which allocates \$1,500,000 to the Copper Mountain Community College District for transition and technology costs. Copper Mountain will be fully operational as a district and receive local assistance apportionment funding in the 2000–01 fiscal year. Therefore, the need for additional district-specific funding is unclear.

I am reducing the appropriation in Section 43 by reducing the allocation in paragraph (7) for the acquisition of land for the future construction of the Los Angeles Community College District (LACCD), Los Angeles City College Satellite Center from \$4,000,000 to \$3,000,000. In addition, I am restricting expenditure of the remaining \$3,000,000. The Los Angeles Community College District has not yet demonstrated the programmatic necessity of a satellite center. Prior to the expenditure of these funds the LACCD and the California Community College (CCC) must receive the requisite approvals for the satellite center from the California Postsecondary Education Commission (CPEC). Further, the need for a satellite center must be justified and demonstrated to the Department of Finance (DOF). The proposal submitted to the DOF must identify and demonstrate the programmatic need for the satellite center, the annual enrollment and full time equivalents served, the costs of the center both during development and once fully developed, and the full scope and cost of the acquisition

and construction proposal for the center. The submittal to DOF must demonstrate that the center will meet the programmatic needs of both the district and the CCC and additionally substantiate that the space needs for the new center cannot be accommodated in existing facilities and campuses in the district. Finally, the funds will only be available for expenditure upon certification from the seller that the site is an environmentally clean site and that the owner will accept liability for any hazardous waste on the site or ground water contamination. Current and future resources should not be allocated on an ad hoc basis, rather, allocated to projects that have been developed in the context of the Administration's overall priorities, cost standards, guidelines, instructional purposes, enrollment related needs, and scope standards and secured the appropriate programmatic and site review and approval.

GRAY DAVIS, Governor

- 3 [Ch. 91] I am signing Assembly Bill No. 2928, a comprehensive transportation funding measure which incorporates most of the proposals I made for almost \$5 billion in congestion relief, transportation system connectivity and goods movement projects. The bill also provides over \$1.4 billion in additional funds over five years for local street and road maintenance, transit operations and State Transportation Improvement Program projects.

However, I am reducing or eliminating certain appropriations made in Section 6 of the bill, which adds Chapter 4.5 (commencing with Article 5, Section 14556.40) to Part 5.3 of Division 3 of Title 2 of the Government Code, by a total of \$93,800,000. These expenditures are being eliminated because I have specific concerns about the projects and their priority for inclusion in this plan, and about the precedent these projects would set with respect to state expenditures. Additionally, I am requesting that the Legislature enact subsequent legislation to correct certain technical defects in this bill and modify the financing of the program to have less of an impact on the State General Fund in future years.

I am reducing the expenditures in Chapter 4.5, Article 5, Section 14556.40, Subsection (a) of the Government Code by eliminating or reducing the following paragraphs:

Paragraph (120) is eliminated, which allocates \$1,500,000 to Yuba County for the Yuba Airport runway extension and associated improvements. This project is not a congestion relief project affecting most travelers in the area.

Paragraph (125) is eliminated, which allocates \$5,000,000 to the Orange County Transportation Authority for the Route 57 toll road environmental impact report and study for expansion project. The franchise agreement for this project prohibits use of state funds in this fashion.

Paragraph (130) is eliminated, which allocates \$3,500,000 to the City of Garden Grove for the Route 22; connector to the interchange with I-405. Over \$206 million for Route 22 is already included in paragraph (70).

Paragraph (131) is eliminated, which allocates \$800,000 to the town of Apple Valley for the Bear Valley Road closure project and Kasota Road safety redesign. Funding for this project may be available in the State Highway Operations and Preservation Program and through local street and road funding.

Paragraph (132) is eliminated, which allocates \$7,000,000 to Los Angeles County for the Fairway Drive grade separation project in the San Gabriel Valley. This project already has access to several funding sources through the Alameda Corridor East Project.

Paragraph (136) is eliminated, which allocates \$3,500,000 to City of Palmdale for the widening of Avenue S; between Route 14 and Route 138. This project does not appear to provide significant congestion relief or to fit other priorities for use of these funds.

Paragraph (137) is eliminated, which allocates \$5,500,000 to City of Lancaster for improvements to the Fox Field Industrial Corridor. This project does not appear to provide significant congestion relief or to fit other priorities for use of these funds.

Paragraph (138) is reduced by \$3,000,000 to \$4,000,000, which allocates funds to the Cross Valley Rail Corridor Joint Powers Authority for the upgrade of railroad track from Visalia to Huron. This project mainly funds improvements to rail lines that will be used by short line freight rail. Although I recognize that this project may provide significant local goods movement capacity, I expect local and railroad funds to provide the majority of funding.

Paragraph (142) is reduced by \$1,500,000 to \$2,000,000 for the City of West Hollywood for the repair, maintenance, and mitigation of Santa Monica Boulevard. A portion of this project appears to be eligible for the street and road maintenance funding provided in this measure.

Paragraph (143) is eliminated, which allocates \$1,900,000 to the Capital Corridor Joint Powers Authority for the expansion of intercity rail service between San Jose, Oakland, and the Sacramento region. Such service cannot be implemented this year, and the ongoing operating costs should be funded from the Public Transportation Account in due course.

Paragraph (144) is reduced by \$45,000,000 to \$5,000,000 for the Golden Gate Bridge Highway and Transportation District for the seismic retrofit of the Golden Gate Bridge. It is my understanding that other funding sources are available, and Caltrans will be working with the District to assist in securing federal funding for this project.

Paragraph (147) is eliminated, which allocates \$7,000,000 to the Imperial Valley Association of Governments for the reconstruction of the I-8/Imperial Avenue interchange. This project does not appear to provide significant congestion relief or to fit other priorities for use of these funds.

Paragraph (155) is eliminated, which allocates \$8,600,000 to the City of Chula Vista to acquire right-of-way, build, and operate a 10-mile limited access toll facility from San Miguel Road to Otay Mesa Road and conduct a due diligence review, including an independent appraisal of the feasibility of acquisition by a public agency of the Route 125 franchise agreement authorized under Section 143 of the Streets and Highways Code. I do not support state funding for the acquisition of a private toll road franchise.

Additionally, I am taking identical actions on the same projects as listed in SB 406, a measure that corrects certain provisions of this bill.

GRAY DAVIS, Governor

- 4 [Ch. 92] I am signing Senate Bill No. 406, which corrects certain provisions of AB 2928, a comprehensive transportation funding measure which incorporates most of the proposals I made for almost \$5 billion in congestion relief, transportation system connectivity and goods movement projects. This bill contains the same list of project funding allocations, with a few modifications, as is contained in AB 2928. I am taking identical veto actions on projects in this bill that I took when signing AB 2928.

I am reducing or eliminating certain appropriations made in Section 6 of the bill, which adds Chapter 4.5 (commencing with Article 5, Section 14556.40) to Part 5.3 of Division 3 of Title 2 of the Government Code, by a total of \$93,800,000. These expenditures are being eliminated because I have specific concerns about the projects and their priority for inclusion in this plan, and about the precedent these projects would set with respect to state expenditures. Additionally, I am requesting that the Legislature enact subsequent legislation to correct certain technical defects in this bill and modify the financing of the program to have less of an impact on the State General Fund in future years.

I am reducing the expenditures in Chapter 4.5, Article 5, Section 14556.40, subsection (a) of the Government Code by eliminating or reducing the following paragraphs:

Paragraph (120) is eliminated, which allocates \$1,500,000 to Yuba County for the Yuba Airport runway extension and associated improvements. This project is not a congestion relief project affecting most travelers in the area.

Paragraph (125) is eliminated, which allocates \$5,000,000 to the Orange County Transportation Authority for the Route 57 toll road environmental impact report and study for expansion project. The franchise agreement for this project prohibits use of state funds in this fashion.

Paragraph (130) is eliminated, which allocates \$3,500,000 to the City of Garden Grove for the Route 22; connector to the interchange with I-405. Over \$206 million for Route 22 is already included in Paragraph (70).

Paragraph (131) is eliminated, which allocates \$800,000 to the town of Apple Valley for the Bear Valley Road closure project and Kasota Road safety redesign. Funding for this project may be available in the State Highway Operations and Preservation Program and through local street and road funding.

Paragraph (132) is eliminated, which allocates \$7,000,000 to Los Angeles County for the Fairway Drive grade separation project in the San Gabriel Valley. This project already has access to several funding sources through the Alameda Corridor East Project.

Paragraph (136) is eliminated, which allocates \$3,500,000 to City of Palmdale for the widening of Avenue S; between Route 14 and Route 138. This project does not appear to provide significant congestion relief or to fit other priorities for use of these funds.

Paragraph (137) is eliminated, which allocates \$5,500,000 to City of Lancaster for improvements to the Fox Field Industrial Corridor. This project does not appear to provide significant congestion relief or to fit other priorities for use of these funds.

Paragraph (138) is reduced by \$3,000,000 to \$4,000,000, which allocates funds to the Cross Valley Rail Corridor Joint Powers Authority for the upgrade of railroad track from Visalia to Huron. This project mainly funds improvements to rail lines that will be used by short line freight rail. Although I recognize that this project may provide significant local goods movement capacity, I expect local and railroad funds to provide the majority of funding.

Paragraph (142) is reduced by \$1,500,000 to \$2,000,000 for the City of West Hollywood for the repair, maintenance, and mitigation of Santa Monica Boulevard. A portion this project appears to be eligible for the street and road maintenance funding provided in this measure.

Paragraph (143) is eliminated, which allocates \$1,900,000 to the Capital Corridor Joint Powers Authority for the expansion of Intercity rail service between San Jose, Oakland, and the Sacramento region. Such service cannot be implemented this year, and the ongoing operating costs should be funded from the Public Transportation Account in due course.

Paragraph (144) is reduced by \$45,000,000 to \$5,000,000 for the Golden Gate Bridge Highway and Transportation District for the seismic retrofit of the Golden Gate Bridge. It is my understanding that other funding sources are available, and Caltrans will be working with the District to assist in securing federal funding for this project.

Paragraph (147) is eliminated, which allocates \$7,000,000 to the Imperial Valley Association of Governments for the reconstruction of the I-8/Imperial Avenue interchange. This project does not appear to provide significant congestion relief or to fit other priorities for use of these funds.

Paragraph (155) is eliminated, which allocates \$8,600,000 to the City of Chula Vista to acquire right-of-way, build, and operate a 10-mile limited access toll facility from San Miguel Road to Otay Mesa Road and conduct a due diligence review, including an

independent appraisal of the feasibility of acquisition by a public agency of the Route 125 franchise agreement authorized under Section 143 of the Streets and Highways Code. I do not support state funding for the acquisition of a private toll road franchise.

GRAY DAVIS, Governor

- 5 [Ch. 100] I am signing Assembly Bill No. 2885; however, I am deleting the allocation and the funding for the juvenile justice programs contained in this measure.

This bill appropriates \$242,600,000 General Fund to provide funding for continuation of the Citizens' Option for Public Safety (COPS) program and to establish and fund local juvenile justice programs. From this \$242,600,000 appropriation, the bill allocates (1) \$121,300,000 for the COPS program (5.15 percent, \$12,500,000 to district attorneys; 5.15 percent, \$12,500,000 to counties for jail operations; and 39.7 percent, \$96,300,000 to local agencies for front-line law enforcement), and (2) \$121,300,000 to counties for juvenile justice programs. The provisions of this bill would sunset on January 1, 2005, and states legislative intent to appropriate at least \$242,600,000 in fiscal years 2001-02, 2002-03, and 2003-04 for the purposes of funding the provisions of this measure.

The COPS program has provided supplemental funding to counties, cities, and special police protection districts for local law enforcement services in order to enhance public safety. This bill would provide statutory authority to continue this worthy program through 2003-04. I support continuing the COPS program and providing the full funding at the \$121,300,000 level allocated under the provisions of this measure.

With respect to the juvenile justice provisions in the bill, while I am supportive of programs that reduce juvenile crime and delinquency, the programmatic justification for the juvenile justice programs in the bill is insufficient to support the General Fund appropriation for this purpose. In addition, given the lack of information regarding the components of the juvenile justice programs, the benefits of these programs as currently configured are unclear. Therefore, I am deleting the \$121,300,000 intended to fund the juvenile justice programs.

I would be supportive of subsequent legislation that would appropriate \$71,300,000 General Fund for proven juvenile justice programs and which contains the following components: (1) provisions specifying the funding in the measure would not be for the purpose of supplanting existing local funding, (2) provisions delineating a mechanism for the programs being funded to be measured and assessed for both expenditures and success, and (3) provisions specifying the criteria and standards for the use of the funds. Additionally, this subsequent bill should also include a \$9,210,000 General Fund appropriation for the Turning Point Academy program that was inadvertently left out of the Budget Bill.

In Section 2, paragraph (b)(4) of the bill, I am deleting the following:

“(4) Fifty percent to the county or city and county to develop and implement a comprehensive multiagency plan that provides for a continuum of responses to juvenile crime and delinquency and demonstrates a collaborative and integrated approach for implementing a system of swift, certain, and graduated responses for at-risk youth and juvenile offenders. This plan shall be developed by the local juvenile justice coordinating council in each county and city and county pursuant to Section 749.22 of the Welfare and Institutions Code and approved by the county board of supervisors, and in the case of a city and county, the plan shall also be approved by the mayor.

(A) The SLESF shall only allocate funding pursuant to this paragraph upon the submission by the local juvenile justice coordinating council of a local action plan to the county board of supervisors and the Board of Corrections.

(B) The local action plan shall identify ways for improving and marshaling existing resources to reduce the incidence of juvenile crime and delinquency in priority areas and the greater community. The plan shall also maximize the provision of collaborative and integrated services and shall specify strategies for all elements of response, including, but not limited to, prevention, intervention, suppression, and incapacitation to provide a continuum for addressing the identified juvenile crime problem. The plan shall also identify strategies for addressing gang and gender specific issues. The plan shall also identify outcome measures to help determine the effectiveness of the program which shall include, but not be limited to, the following:

- (1) The rate of juvenile arrests per 100,000 of population.
- (2) The rate of successful completion of probation.
- (3) The rate of successful completion of restitution and court-ordered community service responsibilities.”

In Section 3, paragraph (a) of the bill, I am deleting the following:

“, and (4)”

In Section 3, paragraph (c) of the bill, I am deleting the following:

“(3) The costs of any capital project or construction project funded from moneys allocated pursuant to paragraph (4) of subdivision (b) of Section 30061.”

In Section 3, paragraph (d)(1) of the bill, I am deleting the following:

“, or (4)”

In Section 3, paragraph (e) of the bill, I am deleting the following:

“, and juvenile justice”

In Section 4, paragraph (h) of the bill, I am deleting the following:

“(h) In addition to the report specified in subdivision (c), each local juvenile justice coordinating council shall, beginning August 15, 2002, and annually thereafter, report to the county board of supervisors and the Board of Corrections, in a format specified by the board, on the effectiveness of programs funded pursuant to this chapter. The Board of Corrections shall compile the local reports and, beginning March 1, 2004, make an annual report to the Legislature on the statewide effectiveness of the comprehensive multiagency local action plans.”

GRAY DAVIS, Governor

6 [Ch. 127] I am signing Assembly Bill No. 2866; however, I am concerned about several provisions contained in this measure.

First, I am deleting Section 10 of this measure, because it contains an appropriation. This section would authorize the Board of Control to enter into an interagency agreement with the University of California, San Francisco, to establish a victims of crime recovery center, as a pilot project until June 30, 2004, at San Francisco General Hospital; and to establish supplemental mental health rates for eligible victims. By providing for new and expanded uses of a continuously appropriated fund, Section 10 of this bill would make an appropriation.

Consistent with my strong support for victims’ rights, I sustained a total of \$525,000 in the 2000 Budget Act for one-time start-up costs for the victims of crime recovery center. However, I am concerned Section 10 would fund services that are normally not reimbursed and at rates that are twice the current level. The enhanced mental health reimbursement rates, funded by the Restitution Fund, which is continuously appropriated to the Board of Control, could set a potentially costly precedent that could ulti-

mately have a negative impact on the Restitution Fund and the ability to fund services to victims on a statewide basis.

I am also deleting Section 36 to conform with this action.

Second, I am concerned about provisions included in this measure that would require an assessment of rail transportation in California and recommendations for projects. While I do not object to assessing the potential for greater connectivity of the passenger rail system with other passenger travel modes, improved public safety, and mitigating congestion on rail corridors providing passenger service, I am concerned with the bill's implication that the State should propose projects to support private freight rail capital needs.

While I recognize that movement of goods has a strong tie to the state's ability to support commerce, I also recognize that private, for-profit companies that operate freight railroads are substantially capable of funding their own capital and operating needs. I am directing the Department of Transportation to limit its rail recommendations to those which are the proper subject of state funding, prioritizing them in context of the state's other pressing transportation needs. Furthermore, I would support legislation directing the University of California to conduct the private rail assessment.

In contrast to the sweeping request for project recommendations in this bill, the Traffic Congestion Relief Plan I proposed contains funding for priority freight rail-related capital projects which will relieve congestion on highways and streets. Funds proposed for the publicly-owned North Coast Rail Authority will restore service thereby reducing the burden on Route 101. Funds proposed for an eastern extension of the Alameda Corridor project are based on the expectation that the freight rail company that participates in the Alameda Corridor project will contribute substantial funding, commensurate with the benefits it will obtain, while government funding is used substantially to reduce the conflicts between rail operations and street and highway traffic.

GRAY DAVIS, Governor

- 7 [Ch. 395] I am signing Assembly Bill 398, which establishes the San Francisco Baylands Restoration Program Account in the State Wildlife Restoration Fund and appropriates General Fund revenues to the Account for the purpose of acquiring and restoring San Francisco Bay wetlands and habitat which may include the Cargill Salt property.

However, in signing this measure, I am reducing the appropriation from \$30 million to \$25 million. I feel that this appropriation is sufficient to show the State's good faith in working with the federal government to make a joint purchase of these historic wetlands upon completion of an independent appraisal.

GRAY DAVIS, Governor

- 8 [Ch. 402] On this date I have signed AB 649 with a reduction.

This bill would appropriate funding for various programs agreed to during collective bargaining. However, the appropriation in this bill for the special fund deficiency is in excess of the amount needed to fund the employee compensation increases agreed to through collective bargaining. Therefore, I am reducing the special fund appropriation contained in this bill by \$17,000,000 to reflect the actual amount needed to fund the employee compensation increases. The revised appropriation shall be \$30,600,000.

GRAY DAVIS, Governor

9 [Ch. 597] On this date I signed Assembly Bill 2558 with a reduction.

AB 2558 would establish a 3-year neighborhood-based pilot program administered by the California Commission on Improving Life through Services (CILTS), to promote the involvement of senior volunteers in working with children and school staff.

While I am supportive of incorporating senior volunteerism into state volunteer efforts coordinated by CILTS, the program outlined in this bill merits further study. Therefore, I am directing CILTS to (1) prepare a review of existing programs that engage seniors in service, (2) identify new and promising entrepreneurial strategies that take advantage of the unique characteristics of this new generation of seniors, (3) identify priorities which a senior volunteer force can best impact, and (4) propose a structure for investment of any future financial resources which maximizes public and private funding and social impact. I expect this study to be completed within six months. Therefore, I am reducing the appropriation contained in the bill by \$900,000 to reflect the amount needed to conduct this review. The revised appropriation shall be \$100,000.

GRAY DAVIS, Governor

10 [Ch. 672] Senate Bill 1681 makes various changes to the Budget Act.

I am signing Senate Bill 1681. However, I am deleting Section 24.5, which adds Provision 6 to Item 4200-101-0001. The Budget Act of 2000 includes an appropriation of \$250,000 for People in Progress, Inc. Current statute requires counties of more than 100,000 population to provide 10 percent county matching funds for State-funded alcohol and drug programs and services. This provision would allow Los Angeles County to forgo the 10 percent county match related to the appropriation for the People in Progress, Inc. and require the State to pay the match. The section would treat Los Angeles differently from the other counties that must continue to provide the required match and could establish an unfavorable precedent and demands from other counties for similar treatment. Such demands could create potentially significant General Fund costs in the future. I, therefore, believe this section is inappropriate, potentially costly, and contrary to long-standing public policy.

GRAY DAVIS, Governor

11 [Ch. 703] On this date I have signed Assembly Bill No. 877 with a reduction.

This bill would make specified changes to the requirements governing the issuance of a California teaching credential to teachers who have been trained in other states, and the issuance of a professional services credential to school administrators who have been trained in other states. It would also authorize the Commission on Teacher Credentialing to contract for studies of teacher and administrator training requirements in other states.

The appropriation in this bill, however, is in excess of the amount needed for these studies. Therefore, I am reducing the appropriation contained in this bill by \$150,000 to reflect the actual amount needed to conduct the studies of teacher and administrator training requirements in other states. The revised appropriation shall be \$350,000.

GRAY DAVIS, Governor

12 [Ch. 719] On this date I have signed Assembly Bill No. 2016 with a reduction.

This bill would appropriate funding to the Humboldt Bay Harbor district to be used for navigation improvement and safety projects. Normally I oppose such local expenditures, however, the northern region of the state is experiencing unique economic difficulties. This bill would provide one-time economic relief for one of the major regions of the state with an economy that is not thriving. Therefore, I am signing this measure and reducing the appropriation to \$580,000.

GRAY DAVIS, Governor

13 [Ch. 744] On this date I have signed Assembly Bill No. 886 with a reduction.

This bill would appropriate \$600,000 to fund reading training programs: \$500,000 for the Oakland Unified School District and \$100,000 for the Lakeside Union Elementary School District.

However, there are three school districts in California with the name "Lakeside Union Elementary School District," and it is unclear which of these districts would receive the funding. I am therefore deleting the \$100,000 appropriation from the bill.

GRAY DAVIS, Governor

14 [Ch. 746] On this date I have signed Assembly Bill 2337 with a deletion.

This bill would appropriate \$5,407,000 Proposition 98 General Fund to the Board of Governors of the California Community Colleges for Apprenticeship programs and to augment the Part-Time Faculty Office Hours Program.

However, I am deleting the augmentation of \$2.1 million for the Part-Time Faculty Office Hours Program. As indicated in the Budget Act, I am not supportive of the reduced local match requirement contained in Chapter 71, Statutes of 2000. I am willing to consider additional funding for this program only if the matching requirement is restored to a 1:1 ratio.

GRAY DAVIS, Governor

15 [Ch. 754] On this date I have signed Senate Bill 1256 with a reduction.

This bill requires (1) the State Department of Health Services to develop and implement a public education and outreach program to raise awareness of Hepatitis C, (2) an annual report to the Legislature by the California Department of Corrections on the prevalence of Hepatitis C in correctional facilities, and (3) a report to the Legislature by the Department of Veterans Affairs regarding the use of funds earmarked by the federal Veterans Administration to regional offices in CA to education, screen and treat veterans with the Hepatitis C virus.

This bill addresses a growing public health concern, with as many as 500,000 Californians affected by the virus. This problem is particularly acute among veterans, with 20% of veterans tested nationally since 1998 testing positive for Hepatitis C. For this reason, I am directing the Department of Health Services to allocate at least 50% of the funds made available by this bill to outreach, education and testing efforts targeted at veterans. I am also reducing the appropriation contained in the bill by \$500,000. The revised appropriation shall be \$1,500,000.

GRAY DAVIS, Governor

16 [Ch. 793] I am signing Assembly Bill 1873 but with a reduction in the appropriation from \$5 million General Fund to \$2 million General Fund.

This bill would appropriate \$5 million from the General Fund to award local School-to-Career partnerships through a competitive grant process.

This program, while meritorious, should appropriately be shouldered by the non-profit and private sectors. I expect the non-profit and private sectors to exceed this amount in matching funds between now and June 30, 2001. If they do not, I will not continue allocating funds toward this program.

GRAY DAVIS, Governor

17 [Ch. 794] I am signing Senate Bill No. 269 with a reduction. This bill would set a funding allocation methodology for local communicable disease control and public health surveillance activities which are important public health functions. I included \$1.6 million in the Budget Act of 2000 for local public health activities. Therefore, I am reducing the appropriation from \$4.9 million to \$1 million to be allocated on a proportional basis according to the formula in the bill.

GRAY DAVIS, Governor

18 [Ch. 866] I am signing Senate Bill 1946, which, among its provisions, would specify that a county shall not become ineligible for Kinship Support Service Program (KSSP) grant funds due to a reduction in the percentage of relative care placements. However, I am deleting section 2 and 3 of the bill, which would provide a \$3 million General Fund appropriation to augment funding for those counties currently eligible to participate in the program in addition to funding an evaluation of the program. Funding for these purposes should be considered in the context of other priorities during the development of the annual state budget.

GRAY DAVIS, Governor

19 [Ch. 935] I am signing Assembly Bill No. 2036. However, I am deleting the \$1 million General Fund appropriation to the State Department of Education to administer the grant program proposed by this bill.

This bill would establish a grant program, to be administered by the Superintendent of Public Instruction, that would provide training to school administrators to assist them in evaluating the performance of certified school employees.

The cost of the grant program was not included in the 2000 Budget Act. I will consider an appropriation to fund the grant program among competing priorities during the annual budget process.

GRAY DAVIS, Governor

20 [Ch. 942] I am signing Senate Bill No. 1387, however, I am deleting the \$3 million appropriation to the Compton Community College District for the completion of a technology building.

This bill would prolong the extended school year program in the Compton Unified School District by one year and require the State Department of Education, in conjunction with the Legislative Analyst's Office, to provide for an evaluation of the program. This bill would also provide \$3 million to the Compton Community College District for the completion of a technology building.

Extending the Compton Unified School District's longer school year program would allow what appears to be a successful program to continue. This additional year will provide the ability to document the program's success.

The \$3 million appropriation for the Compton Community College District appears to lack support. I understand a similar request was reviewed by the California Community College Chancellor's Office, which determined that the costs were unsupported for a state-funded project.

GRAY DAVIS, Governor

21 [Ch. 1016] I am reducing the appropriation from the Restitution Fund in Section 13 of Assembly Bill No. 2491 from \$2.45 million to \$1 million to the California Victim Compensation and Government Claims Board, formerly known as the Board of Control, to enter into an interagency agreement with the University of California, San Francisco, to establish a victims recovery center at San Francisco General Hospital. This will allow for an evaluation of the victims recovery center prior to the provision of additional resources to fully fund this four year pilot project.

I am very supportive of the expansion of benefits to victims of crime pursuant to the remaining provisions of this bill. This bill will provide approximately \$9 million of payments to victims on an annual basis.

GRAY DAVIS, Governor

22 [Ch. 1017] This bill would create a \$10 million account administered by the Department of Food and Agriculture to provide incentives for businesses that use rice straw for agricultural biomass projects. I have reduced the appropriation from \$10 million to \$2 million.

This measure will help California utilize agricultural biomass as a means of avoiding landfill use, preventing air pollution, and enhancing environmental quality. It will help to create hundreds of direct and indirect jobs in Northern California communities with historically high levels of unemployment. AB 2514 will foster alternative uses for rice straw and create new markets for recycled rice straw products.

GRAY DAVIS, Governor

23 [Ch. 1058] I am signing Assembly Bill 2907. However, I am reducing certain specified appropriations to maintain my actions taken regarding SB 1667 (Chapter 71/2000), and because I have specific concerns with the additional project proposed to be added pursuant to paragraph 56 of subdivision (a). The language below conforms to my action regarding SB 1667, and also makes this additional reduction:

I am reducing the appropriation made by Section 42 of Chapter 71 of the Statutes of 2000, as proposed to be amended by this Section 129 of this bill, from \$33,352,000 to \$15,761,000. The specific reductions are as follows:

I am reducing the appropriation in Section 42 by eliminating paragraph (6) of subdivision (a), which allocates \$300,000 to the San Francisco Unified School District for expansion of arts education in grades K-5. Grants for this purpose are available on a competitive basis through the Department of Education, and I am therefore deleting this appropriation to fund higher competing priorities.

I am reducing the appropriation in Section 42 by reducing paragraph (7) of subdivision (a) from \$500,000 to \$400,000, to the Culver City Unified School District to repair the track at Culver City High School, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (8) of subdivision (a), which allocates \$10,000 to the Los Angeles Unified School District for a school-based/school-linked health program at the Maclay Middle School. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (9) of subdivision (a), which allocates \$10,000 to the Los Angeles Unified School District for a school-based/school-linked health program at the Pacoima Middle School. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (11) of subdivision (a), which allocates \$20,000 to the Manhattan Beach Unified School District for the purchase of equipment for teaching aids to reduce diversity intensity and increase cultural awareness at Mira Costa High School, to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (15) of subdivision (a), which allocates \$100,000 to Liggett Elementary for establishment of a Parent Education Center. Grants are already available for this purpose through the Department of Education, pursuant to the Parental Involvement Program established pursuant to Chapter 734 of the Statutes of 1999. Additional, support for this purpose should be provided from local resources.

I am reducing the appropriation in Section 42 by eliminating paragraph (18) of subdivision (a), which allocates \$200,000 to the Sunnyvale Elementary School District for Project H.E.L.P. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (19) of subdivision (a), which allocates \$250,000 to the Lamont Elementary School District for portable classrooms. Funding for this purpose should be sought through the State Allocation Board process.

I am reducing the appropriation in Section 42 by eliminating paragraph (22) of subdivision (a), which allocates \$450,000 to the Los Angeles Unified School District for the San Fernando High School Health Clinic. I am reducing this appropriation in order to fund competing higher priorities.

I am sustaining the appropriation of \$500,000 in paragraph (23) of subdivision (a) of Section 42 for the Baldwin Park Unified School District's Drama, Reading, English, and Mathematics (DREAM) project, on a one-time basis only, thus any future support for this project should be provided from local resources.

I am reducing the appropriation in Section 42 by reducing paragraph (24) of subdivision (a) from \$500,000 to \$200,000, to the Montebello Unified School District for natural gas powered delivery trucks, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (25) of subdivision (a), which allocates \$150,000 to the Elk Grove Unified School District for a Japanese language academy. I am deleting this appropriation to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (26) of subdivision (a), which allocates \$500,000 to the Oakland Unified School District for a reading training program. The Budget Bill already includes significant funding for reading staff development, reading programs, and remedial instruction in reading, and I am therefore unable to support this request.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (27) of subdivision (a), from \$350,000 to \$200,000 for allocation to the Burbank Unified School District to continue a literacy program on a one-time basis only, thus any future support for this project should be provided from local resources.

I am sustaining the appropriation of \$300,000 in paragraph (28) of subdivision (a) of Section 42 for the Temple City Unified School District's Arts Academy, on a one-time basis only, future support for this project should be provided from local resources.

I am reducing the appropriation in Section 42 by eliminating paragraph (29) of subdivision (a), which allocates \$400,000 to the Alum Rock Union Elementary School District for a mathematics/science center that would provide training and science/mathematics supplies to teachers. The 2000-01 Budget already contains \$246

million for the Staff Development Day Buy-Out program and \$108 million for a variety of Professional Development Institutes, including institutes in elementary mathematics and algebra, to help improve teacher's skills and expertise in classroom instruction.

I am reducing the appropriation in Section 42 by eliminating paragraph (30) of subdivision (a), which allocates \$50,000 to the Santa Monica Malibu Unified School District for an after school youth program at Malibu High School. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (32) of subdivision (a), which allocates \$200,000 to the Tahoe-Truckee Unified School District for the North Tahoe Youth Center. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (34) of subdivision (a), which allocates \$675,000 to the Los Alamitos Unified School District for reimbursement for class size reduction costs. Funding for this purpose should be sought through the class size reduction facilities program.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (35) of subdivision (a), from \$10,000,000 to \$5,000,000 for allocation to the Alvard Unified School District for construction costs associated with the Center for Primary Education. The balance of funding required for this project should be sought through the School Facilities Program or from local resources.

I am reducing the appropriation in Section 42 by eliminating paragraph (36) of subdivision (a), which allocates \$900,000 to the Riverside County Office of Education for the purpose of screening and diagnosing pupils for Scotopic Sensitivity Syndrome, to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (37) of subdivision (a), which allocates \$500,000 to the Saugus Union Elementary School District for costs associated with testing air quality in portable classrooms. As indoor air quality in portable classrooms is an important issue, the Budget provides \$1 million to the Air Resources Board and the State Department of Health Services for purposes of conducting a comprehensive study and review of the environmental health conditions, including air quality, in portable classrooms.

I am reducing the appropriation in Section 42 by eliminating paragraph (38) of subdivision (a), which allocates \$275,000 to the Inyo County Office of Education for facilities costs. Funding for this project may be available through the School Facilities Program.

I am reducing the appropriation in Section 42 by eliminating paragraph (39) of subdivision (a), which allocates \$500,000 to the Calaveras Unified School District for swimming pool renovations, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (40) of subdivision (a), which allocates \$27,000 to the Alta-Dutch Flat Union Elementary School District for Afternoon Transportation Services, in order to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (43) of subdivision (a), which allocates \$469,000 to the Mariposa Unified School District for declining ADA. As current law provides sufficient provisions to cushion the loss of ADA for school districts, I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (44) of subdivision (a), from \$568,000 to \$285,000 for the Chatom Union Elementary School District. The original augmentation included funding for declining ADA and for the purchase of school buses. As current law provides sufficient provisions to cushion

the loss of ADA for school districts, I am reducing this appropriation maintaining only the funding for the purchase of school buses.

I am reducing the appropriation in Section 42 by eliminating paragraph (45) of subdivision (a), which allocates \$3,700,000 to the Clovis Unified School District for the Central Valley Applied Agriculture and Technology Center. I am deleting this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (47) of subdivision (a), which allocates \$112,000 to the Alameda County Office of Education for the Smart Kids, Safe Kids program. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (52) of subdivision (a), which allocates \$160,000 to the Soledad Enrichment Charter School for Operation Y.E.S. I am reducing this appropriation in order to fund competing higher priorities.

I am reducing the appropriation in Section 42 by reducing the amount in paragraph (55) of subdivision (a), from \$5,000,000 to \$3,700,000 for the Clovis and Fresno Unified School Districts for the Center for Advanced Research and Technology reducing this appropriation to fund higher competing priorities.

I am reducing the appropriation in Section 42 by eliminating paragraph (56) of subdivision (a), which allocates \$500,000 to the Los Angeles Unified School District for the renovation of the San Fernando Middle School auditorium. I am reducing this appropriation because available information indicates the bill incorrectly identifies the intended recipient of these funds. Resources for this purpose should be provided on a priority basis by the appropriate local entities.

GRAY DAVIS, Governor

24 [Ch. 1087] I am signing Senate Bill 1012. However, I am reducing the appropriation from \$5 million to \$2 million.

This bill authorizes grants to public television stations and radio broadcast stations to be administered by the Office of Emergency Services (OES), to purchase and install digital broadcasting equipment. I sustained \$5 million in the 2000 Budget Act for this purpose, and I understand there is a \$5 million federal appropriation for this purpose pending congressional action.

Therefore, I am reducing the appropriation contained in this bill to \$2 million in anticipation of approval of federal funds to facilitate the conversion to digital broadcasting.

GRAY DAVIS, Governor

NOTE: Superior numbers appear as a separate section at the end of the Statutory Record.

1999-2000 Superior Numbers

- * Effective immediately.
- 1 Operative January 1, 2000.
- 2 Repeal operative January 1, 2000.
- 3 Contingent effect.
- 4 Inoperative July 1, 2001.
- 5 Repeal operative January 1, 2002.
- 6 Operative for taxable years beginning on or after January 1, 1998.
- 7 Repeal operative August 7, 1999.
- 8 Operative January 1, 2002.
- 9 Paragraphs (1) to (3), inclusive, of subdivision (b) shall not become operative unless and until the Regents of the University of California adopt a resolution within the meaning of Sections 92851, 92856, and 99221 of the Education Code.
- 10 Operative when Los Angeles County Board of Supervisors, by resolution adopted by majority vote, makes provisions of this section applicable in the county.
- 11 Inoperative July 31, 1999.
- 12 Inoperative July 1, 1999.
- 13 Repeal deleted by amendment.
- 14 Inoperative January 1, 2001.
- 15 Repeal operative July 1, 1999.
- 16 Operative July 1, 1999.
- 17 Operative pursuant to the provisions of Sec. 25390.9 of the Health and Safety Code, as added by Ch. 23, Stats. 1999.
- 18 Repeal operative January 1, 2005.
- 19 Repeal operative January 1, 2004.
- 20 Repeal operative January 1, 2003.
- 21 Inoperative July 1, 2002.
- 22 Operative January 1, 2004.
- 23 In effect until the effective date of the Budget Act of 2000 or June 30, 2000, whichever occurs later.
- 24 Repeal operative January 1, 2001.
- 25 Operative January 1, 2001.
- 27 Repeal operative on June 30, 2000, or on the day following the execution of the transfers required under Sections 4, 5, and 6 of Chapter 85 of the Statutes of 1999, whichever date is first.
- 28 Operative on June 30, 2000, or on the day following the execution of the transfers required under Sections 4, 5, and 6 of Chapter 85 of the Statutes of 1999, whichever date is first.
- 29 Not operative unless an amendment to the California Constitution is placed on the ballot by the Legislature and is approved by the statewide electorate during the 2000 calendar year, that would do as specified in Sec. 11 of act.
- 30 Any section of any act enacted by the Legislature during the 1999 calendar year that takes effect on or before January 1, 2000, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 1999 calendar year and takes effect on or before January 1, 2000, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

- 31 Inoperative June 30, 2000.
- 32 Operative only if an appropriation is made for its purposes in the Budget Act of 1999, or in another statute enacted during the first calendar year of the 1999-2000 Regular Session, and shall be funded exclusively with funds appropriated thereby.
- 33 Effective only until the effective date of the Budget Act of 2000 or July 1, 2000, whichever occurs later.
- 34 Operative January 1, 2003.
- 35 Operative July 1, 2002.
- 36 Inoperative date deleted by amendment.
- 37 See Governor's Item Veto Message.
- 38 Repeal operative January 1, 2010.
- 39 Repeal operative July 1, 2000.
- 40 This section prevails over the same-numbered section as added to the Water Code by Ch. 92, Stats. 1999.
- 41 Repealed as of the date the relinquishment authorized under subd. (b) becomes effective.
- 42 Subdivision (m), paragraph (1) shall become inoperative when the State Department of Health Services has obtained all necessary federal approvals pursuant to Welfare and Institutions Code Section 14132.95, subdivision (j), paragraph (3).
- 43 Repeal operative January 1, 2006.
- 44 Operative March 1, 2000.
- 45 Inoperative July 1, 2000.
- 46 Subdivision (b), paragraph (1) shall become inoperative January 1, 2005.
- 47 The changes to subdivision (c) made by the act adding this subdivision shall apply to each taxable year beginning on or after January 1, 1999.
- 48 Inoperative on the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of Route 19 located between Gardendale Street and Telegraph Boulevard within the city.
- 49 Operative January 1 following the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of route 19 located between Gardendale Street and Telegraph Boulevard within the city.
- 50 Operative as of the effective date of the relinquishment by the California Transportation Commission to the City of Downey of the portion of Route 19 located between Gardendale Street and Telegraph Boulevard within the city, pursuant to subdivision (c) of Section 319, as that section read on the day before it was repealed pursuant to the act that added this section during the 1999-2000 Regular Session.
- 51 Operative November 1, 2000.
- 52 Repeal operative on effective date of a final judgment based on a claim under California or United States Constitution holding that evidence that is relevant, reliable, and material may not be considered for purposes of a judicial determination of factual innocence under this section.
- 53 In the event that the Department of Finance determines that the program operated under the authority of the waiver described in subd. (aa), para. (2) is no longer cost-effective, subd. (aa) shall become inoperative on the first day of the first month following the issuance of a 30-day notification of that determination in writing by the Department of Finance to the chairperson in each house that considers appropriations, the chairpersons of the committees, and the appropriate subcommittees in each house that considers the State Budget, and the Chairperson of the Joint Legislative Budget Committee.
- 54 Inoperative date repealed.

- 55 Not operative in any county until the time the board of retirement, by a majority vote, makes this section applicable in the county.
- 56 Operative July 1, 2000.
- 57 Termination date repealed.
- 58 Repeal operative January 1, 2006. However, if, in any calendar year the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 9.5 (Sec. 18805 et seq.)) made on returns filed in that calendar year will be less than \$250,000, or the adjusted amount specified in RTC 18808(c), as may be applicable, then this section is repealed with respect to taxable years beginning on and after January 1 of the calendar year.
- 59 Inoperative date for para. (9) of subd. (b) deleted by amendment.
- 60 Repeal operative January 1, 2005. However, if the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 3 (Sec. 18721 et seq.)) made on returns filed in that calendar year will be less than \$250,000 for taxable years beginning in 2001, or the adjusted amount specified in RTC 18724(c) for any subsequent taxable year, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
- 61 The changes made to RTC 23305.5 by this act shall apply to taxable years beginning on or after January 1, 1997.
- 62 Inoperative June 30, 2003.
- 63 Operative January 1, 2005.
- 64 The provisions of this act shall become operative on the first day of the first calendar quarter commencing more than 90 days after the effective date of this act.
- 65 Repeal operative January 1, 2005. If, in any calendar year, the Franchise Tax Board estimates by September 1 that contributions described in this article (RTC Art. 6 (Sec. 18761 et seq.)) made on returns filed in that calendar year will be less than \$250,000 for taxable years beginning in 2000, or the adjusted amount specified in RTC 18766(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on and after January 1 of that calendar year.
- 66 Inoperative not later than 60 days from the date the Director of Transportation receives notice from the United States Secretary of Transportation that future operation of this section will result in a reduction of the state's share of federal highway funds pursuant to Section 131 of Title 23 of the United States Code.
- 67 Operative on January 1 immediately following the date the Secretary of State receives the notice required under paragraph (2) of this section.
- 68 Repeal operative January 1, 2008.
- 69 Operative January 1, 2008.
- 70 Inoperative July 1, 2004.
- 71 Amendments to section not implemented until July 1, 2001, unless otherwise authorized by the Department of Information Technology pursuant to Executive Order D-3-99.
- 72 Repeal operative January 1 of the fifth taxable year following the first appearance of the Birth Defects Research Fund on the tax return or January 1, 2007, whichever occurs first. If, in any calendar year after the first taxable year the Birth Defects Research Fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions described in this article made on returns filed in that calendar year will be less than two hundred fifty thousand dollars (\$250,000), or the adjusted amount specified in subd. (c), RTC Sec. 18865 for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
- 73 Inoperative July 1, 2003.

- 74 Repeal operative June 30, 2005.
- 75 Repeal operative January 1, 2007.
- 76 Operative January 1, 2001, with respect to any cash register or other machine or device that electronically prints receipts for credit card transactions that is first put into use on or after January 1, 2001; operative January 1, 2004, with respect to any cash register or other machine or device that electronically prints receipts for credit card transactions that is in use before January 1, 2001.
- 77 Inoperative January 1, 2000.
- 78 Repeal operative January 1 of an unspecified year.
- 79 Inoperative July 1, 2005.
- 80 Operative January 1, 2006.
- 81 Operative July 1, 2005.
- 82 Not operative.
- 84 The changes made to subdivision (b) during the 1999 portion of the 1999-2000 Regular Session of the Legislature shall be operative in any fiscal year only if funds are appropriated for purposes of those changes in the annual Budget Act or in another measure.
- 85 The changes made to subdivision (a) during the 1999 portion of the 1999-2000 Regular Session of the Legislature shall be operative in any fiscal year only if funds are appropriated for purposes of those changes in the annual Budget Act or in another measure.
- 86 The change made to subdivision (c) during the 1999 portion of the 1999-2000 Regular Session of the Legislature shall be operative in any fiscal year only if funds are appropriated for purposes of that change in the annual Budget Act or in another measure.
- 87 Operative only if there is an appropriation in the Budget Act to fund the provisions of this act.
- 88 Operative by voter approval of the Veterans' Homes Bond Act of 2000, as set forth in Section 2 of this act (M&VC Ch. 2 (Sec. 1100 et seq.)), at the March 7, 2000, statewide primary election, Prop. 16.
- 89 Approved by voters at March 7, 2000, election, Prop. 16.
- 90 Approved by voters at March 7, 2000, election, Prop. 12.
- 92 Operative in the County of San Diego when the board of supervisors adopts a resolution declaring this section operative.
- 93 Operative only if the federal waiver identified under Section 14495.10 of the Welfare and Institutions Code is approved by the federal Health Care Financing Administration.
- 94 Paragraphs (2) and (3) of subdivision (b) inoperative January 1, 2001.
- 95 Repeal operative July 1, 2003.
- 96 Operative July 1, 2001.
- 98 Inoperative July 1, 2006.
- 99 Subdivision (g) operative January 1, 2001.
- 100 Operative January 1, 2007.
- 101 Clause (iv), of subparagraph (B), of paragraph (4), of subdivision (d), of this section shall be operative for the 1999-2000 fiscal year only to the extent that moneys are appropriated for purposes of that clause in the Budget Act of 1999 by an appropriation that specifically references that clause.
- 103 In effect as long as Section 42 of the Internal Revenue Code, relating to low-income housing credits, remains in effect.
- 104 Operative June 1, 2001.
- 105 Subdivision (l) operative January 1, 2001.
- 106 Applicable to taxable years beginning on or after January 1, 1999.
- 107 Operative only when funds are specifically appropriated for the purposes of the California YouthBuild Act.

- 110 Prevails over and supersedes Chapter 461, Statutes of 1999, Reg. Sess., with regard to this section.
- 111 Repeal operative January 1, 2011.
- 112 This act shall become effective on January 1, 2000, and shall become operative on the date that the Governor, by executive order, establishes the Department of Managed Care or July 1, 2000, whichever occurs first.
- 113 Inoperative date for subdivision (p) deleted by amendment.
- 114 Any section of any act enacted by the Legislature during the 1999 calendar year that takes effect on or before January 1, 2000, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
- 115 Operative as of the date of approval by the governing board of the Los Angeles Unified School District of the contract to provide air-conditioning to 150 schools within the district.
- 116 Subdivision (a), paragraph (2) is repealed on January 1, 2005.
- 117 Operative only for as long as Fam C Sec. 17704 requires participating counties to report data to the department.
- 118 Operative July 1, 1998.
- 119 Paragraph (1) subd. (a) inoperative January 1, 2000. Paragraph (2) subd. (a) operative January 1, 2000.
- 120 Paragraph (1) subd. (c) inoperative January 1, 2000. Paragraph (2) subd. (c) operative January 1, 2000.
- 121 Applicable on and after the property tax lien date on January 1, 2000.
- 122 Subdivision (e) of this section shall become operative on July 1, 2000, and shall be implemented only to the extent that funds are appropriated for its purposes in the Budget Act.
- 123 Approved by voters at March 7, 2000, election, Prop. 13.
- 124 This section shall remain in effect only until the operative date of the independent review process established by Chapter 533 of the Statutes of 1999, and as of that date is repealed.
- 127 Not operative unless the Board of Administration of the Public Employees' Retirement System adopts a resolution that does both of the following: (A) employs, for the June 30, 1998, valuation, 95 percent of the market value of assets of the state employer as the actuarial value of the assets; and (b) amortizes the June 30, 1998, excess assets over a period of 20 years, beginning July 1, 1999.
- 129 Subdivision (a) shall only become operative upon a determination by the Director of Finance that funds are available to make an adjustment pursuant to subdivision (h) of EDC Sec. 60640.
- 130 Repeal operative August 1, 2000.
- 131 Inoperative on the date that the director executes a declaration stating that Section 11265.2 of the Welfare and Institutions Code, as added by the act adding this subdivision, is fully implemented statewide, and shall be repealed on January 1 of the year following the year in which it becomes inoperative.
- 132 Paragraph (2) of subdivision (a) inoperative January 1, 2004.
- 133 Inoperative July 1, 2000, and repealed January 1, 2001, if all of the events described in Section 901 of the Pajaro River Watershed Flood Prevention Authority Act (Stats. 1999, Ch. 963) occur.
- 134 Applicable to taxable years beginning on or after January 1, 1998.
- 135 Applicable to income years beginning on or after January 1, 1998.
- 136 Applicable to taxable or income years beginning on or after January 1, 1998.

- 137 The amendments made to subdivision (a) shall apply to all income years for which the Franchise Tax Board may propose an assessment or allow a claim for refund.
- 138 Subdivision (h) shall remain operative until January 1, 2005, and as of that date shall be repealed.
- 139 Subdivision (m) shall remain operative only until January 1, 2005.
- 140 Operative on January 1 of the year following the year in which it becomes inoperative.
- 142 Inoperative January 1, 2005, or on such earlier date as the Board of Administration of the Public Employees' Retirement System makes a formal determination that HMOs are no longer the most cost-effective health care plans offered by the board.
- 143 Repealed as of January 1 following the Secretary of State's submittal to the Legislature of the report regarding the special handling fee charged for preclearance documents and expedited filings provided for in Gov. C. Sec. 12208.
- 144 Any section of any act enacted by the Legislature during the 1999 calendar year that takes effect on or before January 1, 2000, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of Sections 3 to 18, inclusive, of this act shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 1999 calendar year and takes effect on or before January 1, 2000, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
- 145 Repeal operative December 31, 2002.
- 146 Inoperative April 1, 2005.
- 147 Subdivision (e) of this section shall be operative only until January 1, 2003.
- 148 Inoperative February 1, 2000.
- 149 Inoperative June 30, 2001.
- 152 Repealed on January 1 of the fifth taxable year following the notification required under subd. (a) of Sec. 18821, RTC, unless a later enacted statute, which is enacted before that date, deletes that date. However, if, in any calendar year, beginning in the year 2001, the Franchise Tax Board estimates by September 1 that contributions described in Art. 11, Ch. 3, Pt. 10.2, Div. 1 (Sec. 18821 et seq.) RTC, made on returns filed in that calendar year will be less than \$250,000 then this section is repealed with respect to taxable years beginning on and after January 1 of that calendar year.
- 153 Subdivision (c) of this section inoperative December 31, 2001.
- 154 Subd. (b), paragraph (10) shall be operative only to the extent that funds for purposes of paragraph (10) are appropriated in the annual Budget Act.
- 155 Repeal operative April 1, 2000.
- 156 Operative December 31, 2003.
- 157 Not operative until the State Mining and Geology Board approves the County of Yolo implementing ordinance governing in-channel noncommercial extraction activities carried out pursuant to the Cache Resource Management Plan and notifies the Secretary of State in writing of that approval.
- 160 Rejected by voters at March 7, 2000, election, Prop. 15.
- 161 Repealed as of January 1 following the Secretary of State's submittal to the Legislature of the report regarding the special handling fee charged for preclearance documents and expedited filings provided for in Gov. C. Sec. 12182.
- 162 Second paragraph of subdivision (l) operative January 1, 2001.
- 163 Subparagraph (A) shall become inoperative on October 1, 2002.
- 164 Applicable to the entire 1999-2000 fiscal year, regardless of the effective date of act.

- 165 Approved by voters at March 7, 2000, election, Prop. 14.
- 166 This section shall prevail over Section 1874.8 of the Insurance Code as added by Chapter 884 of the Statutes of 1999 to the extent that it provides for the allocation and distribution of funds under the program established to target organized fraud activity.
- 167 Section 1874.8 of the Insurance Code as added by Chapter 885 of the Statutes of 1999 shall prevail to the extent that it provides for the allocation and distribution of funds under the program established to target organized fraud activity.
- 168 Section is inoperative if federal approval is not obtained for its implementation. Section shall also become immediately inoperative in the event there is a final judicial determination by any court of appellate jurisdiction or a final determination by the administrator of the federal Health Care Financing Administration that the supplemental reimbursement provided in this section must be made to any facility not described therein.
- 169 Amendments not operative unless the Board of Administration of the Public Employees' Retirement System adopts a resolution that does both of the following: (A) employs, for the June 30, 1998, valuation, 95 percent of the market value of assets of the state employer as the actuarial value of the assets; and (B) amortizes the June 30, 1998, excess assets over a period of 20 years, beginning July 1, 1999.
- 170 Rejected by voters at March 7, 2000, election, Prop. 30.
- 171 Rejected by voters at March 7, 2000, election, Prop. 31.
- 173 Amendments made to this section by the act adding subdivision (e) shall apply to income years beginning on or after January 1, 1999.
- 174 Inoperative January 1, 2006.
- 175 Operative July 1, 2003.
- 181 Proposed by Chapter 629, Statutes of 1998.
- 182 Proposed by Chapter 760, Statutes of 1998.
- 183 Proposed by Chapter 800, Statutes of 1998.
- 184 Proposed by Chapter 409, Statutes of 1998.
- 185 Operative upon passage of the "Smaller Classes, Safer Schools and Financial Accountability Act", approved by voters at November 7, 2000, general election, Prop. 39.
- 186 Approved by voters at November 7, 2000, election, Prop. 32.
- 187 Repeal operative July 1, 2005.
- 188 Effective January 1, 2003.
- 189 Inoperative June 30, 2010.
- 190 Subdivision (b) to (f), inclusive, shall be inoperative from the operative date of Subdivision (g) to June 30, 2001, inclusive.
- 191 Inoperative January 1, 2002.
- 192 Operative January 1, 2011.
- 193 Inoperative July 31, 2004.
- 194 Repeal operative July 1, 2001.
- 195 Operative June 30, 2001.
- 196 Inoperative June 30, 2006.
- 197 Inoperative September 1, 2003.
- 198 Inoperative June 30, 2004.
- 199 Repeal operative December 1, 2005.
- 200 Effective only until the effective date of the Budget Act of 2001 or June 30, 2001, whichever occurs first.
- 201 Paragraph (2) of subdivision (a) inoperative January 1, 2005.
- 202 Paragraph (1) of subdivision (d) operative for the 2000–01 fiscal year and each year thereafter unless otherwise provided in paragraphs (2), (3), (4), and (5).

- 203 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2000 calendar year and takes effect on or before January 1, 2001, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
- 204 Paragraph (4) of subdivision (b), subdivision (c), and paragraph (3) of subdivision (d) shall become inoperative, and are repealed as of December 31, 2001.
- 205 Repeal operative December 31, 2003.
- 206 Inoperative April 10, 2005.
- 207 Repeal operative July 1, 2006.
- 208 Repeal operative December 31, 2005.
- 210 Approved by voters at November 7, 2000, election, Prop. 34.
- 211 This section shall become effective with regard to the March 31 holiday only when the Department of Personnel Administration notifies the Legislature that the language contained in this section has been agreed to by all exclusive representatives, and the Department of Personnel Administration authorizes this holiday to be applied to employees designated as excluded from the Ralph C. Dills Act (Ch. 10.3 (Sec. 3512 et seq.), Div. 4, Title 1 of the Government Code), and the necessary statutes are amended to reflect this change.
- 214 Subdivision (e) of this section inoperative January 1, 2004.
- 215 Not operative in any county until such time as the board of supervisors shall, by resolution adopted by majority vote, make the provisions of this section applicable in that county.
- 216 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals any one or more of the sections affected by this act shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2000 calendar year and takes effect on or before January 1, 2001, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
- 217 Repeal operative January 1, 2003, except that the binding commitments in paragraph (5) of subdivision (e) shall remain in effect after that date.
- 218 Operative March 31, 2002.
- 219 Subdivision (d) operative only if the director executes a declaration, that shall be retained by the director, stating that the surety bonds described in this paragraph are commercially offered throughout the state and by more than one vendor.
- 220 Subdivision (a) operative only if the director executes a declaration, that shall be retained by the director, stating that the surety bonds described in this paragraph are commercially offered throughout the state and by more than one vendor.
- 222 Inoperative June 1, 2002.
- 224 Subdivision (c) of this section inoperative January 1, 2003.
- 225 Subdivision (g) shall become inoperative on January 1, 2007.
- 227 Inoperative on the date that all encumbrances incurred for the projects funded under paragraph (3) of subdivision (c) have been liquidated or on June 30, 2006, whichever date is later, and as of the January 1 immediately following that date is repealed.

- 228 Inoperative April 1, 2006.
- 229 Section not operative until (1) the City of Watsonville and the County of Santa Cruz both have housing elements in their respective general plans certified by the Department of Housing and Community Development and unless (2) either the City of Watsonville or the County of Santa Cruz takes any official action to amend or repeal the supermajority voting requirements as contained in the Memorandum of Understanding.
- 230 Effective retroactively to January 1, 2000.
- 231 Repeal operative January 1 of the fifth taxable year following the first appearance of the California Lung Disease and Asthma Research Fund on the tax return. If, in any calendar year after the first taxable year the fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions made on returns filed in that calendar year will be less than \$250,000, or the adjusted amount specified in RTC Sec. 18835(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
- 232 Operative January 1, 2010.
- 233 Inoperative on (1) January 1, 2004, or (2) the date of adoption of an accreditation or designation by an agency of the state or federal government or by a voluntary national health organization of an HIV or AIDS specialist, whichever date is earlier.
- 234 Operative on January 1, 2004, or the January 1 following the date of adoption of an accreditation or designation by an agency of the state or federal government or by a voluntary national health organization of an HIV or AIDS specialist, whichever date is earlier.
- 235 Operative on (1) January 1, 2004, or (2) the date of adoption of an accreditation or designation by an agency of the state or federal government or by a voluntary national health organization of an HIV or AIDS specialist, whichever date is earlier.
- 236 The amendments to this section made by Stats. 2000, Ch. 442, prevail over the amendments made by this act.
- 238 The provisions of this act shall become operative on the first day of the first month commencing more than 90 days after the effective date of this act.
- 240 Repeal operative on one of the following dates, whichever comes first: (1) January 1, 2002; (2) The date that all motor carriers of passengers that operate regular service on the route described in subdivision (a) of this section operate only vehicles on that route that are fully accessible to disabled passengers who rely substantially on the use of wheelchairs; (3) The date that the memorandum of understanding described in Section 14035.57 is executed by all parties listed in that section.
- 241 Subdivision (d) inoperative on July 1, 2003.
- 242 Section is effective until such time as Gov. C. Sec. 3502.5 is amended to provide that a 30-percent or greater showing of interest by means of a petition requires an election regarding an agency shop, and a vote at that election of 50 percent plus one of those voting secures an agency shop arrangement, and as of that date is repealed.
- 243 Operative only if Gov. C. Sec. 3502.5 is amended to provide that a 30-percent or greater showing of interest by means of a petition requires an election regarding an agency shop, and a vote at that election of 50 percent plus one of those voting secures an agency shop arrangement.
- 244 Repeal operative January 2, 2006.
- 245 Subdivisions (b) and (d) operative July 1, 2001.
- 246 Operative September 1, 2001.

- 248 Repealed on the effective date of legislation implementing the San Diego Regional Government Efficiency Commission's plan for consolidation of regional agencies.
- 249 Section in effect only until January 1, 2006, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 2006, deletes or extends that date, or unless tax-increment moneys have, prior to that date, been received by the joint powers agency, in which case the date of repeal of this section shall be extended until the time that the joint powers agency shall expend these funds in accordance with this section.
- 250 Paragraph (4) of subdivision (d) inoperative July 1, 2004.
- 251 Operative upon submission to, and approval by, the voters at the next statewide election.
- 252 Repeal operative January 1 of the third taxable year following the first appearance of the National World War II Veterans Memorial Trust Fund on the tax return. If, in any calendar year after the first taxable year the fund appears on the tax return, the Franchise Tax Board estimates by September 1 that contributions made on returns filed in that calendar year will be less than \$250,000, or the adjusted amount specified in RTC Sec. 18704(c) for subsequent taxable years, as may be applicable, then this section is repealed with respect to taxable years beginning on or after January 1 of that calendar year.
- 253 Operative April 1, 2001.
- 255 Inoperative September 30, 2004.
- 256 Inoperative if federal approval is not obtained for implementation of this section.
- 257 Inoperative April 1, 2003.
- 258 Repeal operative January 31, 2003.
- 259 Operative three months after Contractors' State License Board adopts regulations referenced in paragraph (1) of subdivision (a) of this section.
- 260 This section supersedes Section 50898.2 of the Health and Safety Code, as added by Chapter 83 of the Statutes of 2000, which section shall not become operative.
- 262 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act.
- 263 Subdivision (c) of this section inoperative January 1, 2004.
- 265 Operative when moneys are appropriated for deposit in the Rice Straw Demonstration Project Grant Fund, created pursuant to H & S C Sec. 39751, by the Legislature, or when moneys are transferred to that fund by any other entity.
- 267 Subparagraph (B) of paragraph (1) of subdivision (d) operative January 1, 2002.
- 268 The amendments made to Section 17052.2 of the Revenue and Taxation Code by this act shall apply to taxable years beginning on or after January 1, 2000.
- 269 Operative July 1, 2002, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001-02 fiscal year is equal to or greater than 3.5 percent. Otherwise this section shall become operative July 1, 2003.
- 270 Inoperative July 1, 2002, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001-02 fiscal year is equal to or greater than 3.5 percent. Otherwise section shall become inoperative July 1, 2003.
- 273 Section shall be operative as long as the district does not provide water, drainage services, electricity, flood control services, or sewage disposal services for domestic purposes for residents of the district, and shall become inoperative if the district commences to provide any of those services.

- 274 Inoperative July 1, 2003, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001-02 fiscal year is equal to or greater than 3.5 percent. Otherwise section shall become inoperative July 1, 2004.
- 275 Operative July 1, 2003, if the revenue limit cost-of-living adjustment computed by Superintendent of Public Instruction for the 2001-02 fiscal year is equal to or greater than 3.5 percent. Otherwise section shall become operative July 1, 2004.
- 279 This section shall become operative upon the appropriation of sufficient funds in the Budget Act to implement this section.
- 280 Operative until January 1, 2004, and repealed as of that date.
- 281 Operative only during those fiscal years for which funds are appropriated in the annual Budget Act to implement this part, or are made available from contributions or donations from the sources identified in PRC Section 71101.
- 282 Subdivisions (b), (c), and (d) inoperative January 1, 2007.
- 283 Subdivision (d) not operative.
- 284 Inoperative June 1, 2010.
- 285 Inoperative April 1, 2002.
- 286 Operative April 1, 2002.
- 287 Any section of any act enacted by the Legislature during the 2000 calendar year that takes effect on or before January 1, 2001, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2000 calendar year and takes effect on or before January 1, 2001, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.
- 288 Inoperative November 30, 2004.
- 289 Operative for those years in which there is an appropriation from the General Fund in the Budget Act.
- 290 Operative pursuant to the provisions of Sec. 25390.9 of the Health and Safety Code, as amended by Ch. 912, Stats. 2000.
- 291 Operative only until the operative date of Chapter 861 of the Statutes of 2000.
- 292 Operative upon the operative date of Chapter 861 of the Statutes of 2000.
- 293 Operative for vehicle registrations that expire on or after December 31, 2001.
- 294 Effective July 1, 2001.
- 295 Conditional operation provision repealed.

APPENDIX

COUNTY, CITY, AND CITY AND COUNTY CHARTERS
AND CHARTER AMENDMENTS

as transmitted by the Secretary of State for inclusion in the official statutes in
accordance with Section 3, Article XI, of the California Constitution as amended
by vote of electors on November 5, 1974.

CHARTER AMENDMENTS—2000

Charter Chapter Number	City—County	Date of Election	Date of Filing
1	City of Modesto.....	Nov. 2, 1999	Jan. 26, 2000
2	County of Los Angeles.....	March 7, 2000	April 3, 2000
3	City of Oakland.....	March 7, 2000	April 21, 2000

17	City of Chico.....	Nov. 7, 2000	Dec. 28, 2000

Charter Chapter 1—City of Modesto

Amendments to the Charter of the City of Modesto

[Filed with the Secretary of State January 26, 2000.]

SECTION 603. VICE MAYOR.

At the first Council meeting in January of each year, or sooner if required, the City Council shall elect one of its members, other than the Mayor, to serve as Vice Mayor during the ensuing calendar year. The member of the Council so elected shall serve as Vice Mayor until a successor is elected as provided above.

The Vice Mayor shall act as Mayor during the absence or inability of the Mayor to act. In the case of the temporary absence or disability of both the Mayor and the Vice Mayor, the Council shall designate one of its members to act as Mayor Pro Tempore.

SECTION 1307. PUBLIC WORK TO BE DONE BY CONTRACT.

Every project involving an expenditure of City moneys of more than the amount which the City Council shall establish by ordinance, for the construction or improvement of public buildings, works, drains, sewers, utilities, parks, playgrounds, and streets (exclusive of projects for resurfacing, maintenance and repair of streets, or any park or parks playground project otherwise subject to the public bidding requirements of this section that involves any donated labor and/or material) shall be let by contract to the lowest responsible bidder after notice by publication in the official newspaper by one or more insertions, the first of which shall be at least seven (7) days before the time for opening bids.

All bids shall be accompanied by either a certified or cashier's check, or a bidder's bond executed by a corporate surety authorized to engage in such business in California, made payable to the City. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to therein, or if no amount be so specified then in an amount not less than ten (10) percent of the aggregate amount of the bid. If the successful bidder neglects or refuses to enter into the contract, within the time specified in the notice inviting bids or specifications referred to therein, the amount the person's bidder's security shall be declared forfeited to the City and shall be collected and paid into its general fund and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

The Council may reject any and all bids presented and may readvertise in its discretion.

The Council after rejecting bids, or if no bids are received, may declare and determine that, in its opinion, based on estimates approved by the City Manager the work in question may be performed better or more economically by the City with its own employees and after the adoption of a resolution to this effect by at least five (5) affirmative votes of the Council may proceed to have said work done in the manner stated, without further observance of the provisions of this section. Such contracts likewise may be let without advertising for bids, if such work shall

be deemed by the City Council to be of urgent necessity for the preservation of life, health or property and shall be authorized by resolution passed by at least five (5) affirmative votes of the Council and containing a declaration of the facts constituting such urgency.

Nothing in this section shall be construed to apply to the acquisition or purchase of electricity, electric power or electric energy by the City for any use or purpose.

Certified to be a true copy by Carmen Sabatino, Mayor, and Jean Zahr, City Clerk.

Date of Municipal Election: November 2, 1999.

Charter Chapter 2—County of Los Angeles

Amendment to the Charter of the County of Los Angeles

[Filed with the Secretary of State April 3, 2000.]

Section 33 of Article IX of the Charter of the County of Los Angeles is amended to add the following:

(i) In each County agency and department: The positions, if any, of Chief Deputies, and of assistants or deputies next in line of authority to Chief Deputies.

Section 33.9 is added to Article IX of the Charter of the County of Los Angeles to read as follows:

Sec. 33.9. Notwithstanding any other provision of this Charter, any person holding a permanent classified position which is removed from the classified service and placed in the unclassified service under the provisions of Section 33(i), shall continue to have the same rights as if his or her position had not been placed in the unclassified service.

Certified to be a true copy by Gloria Molina, Chair of the Board of Supervisors, and Violet Varona-Lukens, Clerk.

Date of Election: March 7, 2000.

Charter Chapter 3—City of Oakland

Amendments to the Charter of the City of Oakland

[Filed with the Secretary of State April 21, 2000.]

Article IV of the Charter of the City of Oakland is amended at section 404(a) and (b) to read:

(a) The Board of Education shall consist of ten District School Directors. Seven District School Directors shall be nominated and elected by the qualified

electors of their respective districts for a term of four years. The elected District School Directors shall be elected at the times and in the manner in this Charter provided for members of the Council and shall be required to have the same qualifications. The elected School Directors' Districts shall have the same boundaries as the seven Council Districts. Three School District Directors shall be appointed by the Mayor for two-year terms commencing on May 1, 2000. The appointed Directors shall be residents of the City of Oakland and shall have the same powers and duties as elected Directors.

Effective May 1, 2004 (1) the office of appointed Director shall be abolished, (2) the Board of Education shall consist of seven District School Directors, elected in accordance with the provisions of this section 404, and (3) the provisions of this section pertaining to Mayoral appointment of Directors shall be null and void.

The provisions of the Education Code of the State of California shall apply as to matters not provided for in this Charter.

(b) Notwithstanding any other provisions of this section, the respective terms of office of the elected Directors of the Board of Education shall be as follows:

(1) Directors elected or appointed to serve terms beginning in 1985 shall serve in office until 11:00 a.m. on the Monday following January 1, in 1991.

(2) Directors elected or appointed to serve terms beginning in 1987 shall serve in office until 11:00 a.m. on the Monday following January 1, in 1993.

(3) At the 1990 General Municipal Election, District School Director seats in Districts 2, 4, and 6 shall be filled for 4-year terms.

(4) At the 1992 General Municipal Election, District School Director seats in Districts 1, 3, 5, and 7 shall be filled for 4-year terms thereafter.

Notwithstanding any other provisions of the Education or Elections Code or any other law:

(1) the three appointed Directors' qualifications shall be determined by the Mayor and may include, but shall not be limited to the following: (i) a Director who is an educator; (ii) a Director who is skilled in financial matters; and (iii) a Director who is a student or a recent graduate of the Oakland Unified School District; and

(2) appointed Directors shall serve at the pleasure of the Mayor.

Certified to be a true copy by Jerry Brown, Mayor, and Ceda Floyd, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 4—City of Lemoore

Charter of the City of Lemoore

[Filed with the Secretary of State April 24, 2000.]

PREAMBLE

We, the people of the City of Lemoore, hereby declare our intent to restore to our Community home rule, rooted in historic principles of self-governance. We are committed to the belief that local government has the closest relationship with the people governed, and are firm in the conviction that the fiscal and policy independence of our local government will best provide for the safety, health and welfare of the citizens of Lemoore. Therefore, we do hereby exercise the right granted by the Constitution of the State of California to enact and adopt this Charter.

Article I. Municipal Affairs

The City shall have full power and authority to make, adopt, exercise and enforce all legislation, laws and regulations and to take all actions relating to municipal affairs, without limitation, which may be lawfully made, adopted, exercised, taken or enforced under the Constitution of the State of California. As regards municipal affairs, this Charter shall supersede all laws inconsistent therewith.

Article II. Continuance of Existing Laws

All ordinances, resolutions, rules and policies of the City in effect as of the effective date of this Charter shall continue in effect until repealed, modified or amended by the City Council.

Article III. Contracting

The City Council may, by ordinance or resolution, establish geographic boundaries and other guidelines and restrictions, including but not limited to, local bidding preferences, in public works and other City contracts. The City shall not pay nor require the payment of federal or state prevailing wages in public works projects except when mandated by applicable law.

Article IV. Construction and Interpretation

The language contained in this Charter is intended to be permissive rather than exclusive or limiting, and shall be liberally and broadly interpreted and construed in favor of the City's home rule powers and its control over municipal revenues and affairs. If any provision of this Charter is found by a court of law to be invalid, the remaining provisions of the Charter shall continue in full force and effect.

Certified to be a true copy by Ed Martin, Mayor, and Helen Murray, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 5—City and County of San Francisco

***Amendments to the Charter of the City and
County of San Francisco***

[Filed with the Secretary of State April 24, 2000.]

Section 4.113 is amended to read as follows:

SEC. 4.113. RECREATION AND PARK COMMISSION.

The Recreation and Park Commission shall consist of seven members appointed by the Mayor, pursuant to Section 3.100, for four-year terms. Members may be removed by the Mayor only pursuant to Section 15.105.

Pursuant to the policies and directives set by the Commission and under the direction and supervision of the General Manager, the Recreation and Park Department shall manage and direct all parks, playgrounds, recreation centers and all other recreation facilities, avenues and grounds under the Commission's control or placed under its jurisdiction thereafter, unless otherwise specifically provided in this Charter.

The Department shall promote and foster a program providing for organized public recreation of the highest standard.

The Department shall issue permits for the use of all property under the Commission's control, pursuant to the policies established by the Commission.

As directed by the Commission, the Department shall administer the Park, Recreation and Open Space Fund pursuant to Section 16.107 of this Charter.

The Department shall have the power to construct new parks, playgrounds, recreation centers, recreation facilities, squares and grounds, and to erect and maintain buildings and structures on parks, playgrounds, squares, avenues and grounds, except as follows:

1. No building or structure, except for nurseries, equipment storage facilities and comfort stations, shall be erected, enlarged or expanded in Golden Gate Park or Union Square Park unless such action has been approved by a vote of two-thirds of the Board of Supervisors;

2. No park land may be sold or leased for non-recreational purposes, nor shall any structure on park property be built, maintained or used for non-recreational purposes, unless approved by a vote of the electors. However, with permission of the Commission and approval by the Board of Supervisors, subsurface space under any public park, square or playground may be used for the operation of a public automobile parking station under the authority of the Department of Parking and Traffic, provided that the Commission determines that such a use would not be, in any material respect or degree, detrimental to the original purpose for which a park, square or playground was dedicated or in contravention of the conditions of any grant under which a park, square or playground might have been received. The revenues derived from any such use, less the expenses incurred by the Department of Parking and Traffic in operating these facilities, shall be credited to Recreation and Park Department funds.

3. The Commission shall have the power to lease or rent any stadium or, recreation field under its jurisdiction for athletic contests, exhibitions and other special events and may permit the lessee to charge an admission fee.

Section 16.107 is repealed in its entirety.

Section 16.107 is added to read as follows:

SEC. 16.107 PARK, RECREATION AND OPEN SPACE FUND.

(a) Establishment of Fund. There is hereby established the Park, Recreation and Open Space Fund (“Fund”) to be administered by the Recreation and Park Department (“Department”) as directed by the Recreation and Park Commission (“Commission”). Monies therein shall be expended or used solely by the Department, subject to the budgetary and fiscal provisions of the Charter, to provide enhanced park and recreational services and facilities.

(b) Annual Set-aside. The City will continue to set aside from the annual tax levy, for a period of thirty years starting with the fiscal year 2000–2001, an amount equivalent to an annual tax of two and one-half cents (\$0.025) for each one hundred dollars (\$100) assessed valuation. Revenues obtained thereby shall be in addition to, and not in place of, any sums normally budgeted for the Department and, together with interest, shall be deposited into the Park, Recreation and Open Space Fund.

The Controller shall set aside and maintain such an amount, together with any interest earned thereon, in the Fund, and any amount unspent or uncommitted at the end of the fiscal year shall be carried forward to the next fiscal year and, subject to the budgetary and fiscal limitations of this Charter, shall be appropriated then or thereafter for the purposes specified in this Section.

(c) Enhanced Revenue and Efficiency Incentives for the Department. It is the policy of the City and County of San Francisco to give the Department greater incentives to improve operational efficiencies and to increase revenue. Increases in revenues and savings shall be dedicated as follows:

1. Actual net increases in Department-generated revenues, compared to the previous fiscal year, shall be dedicated to capital and/or facility maintenance improvements to park and recreational facilities;

2. New revenues from outside sources, such as grant or foundation support, shall be used only for enhancement of park and recreational programs, including, but not limited to, capital and/or facility maintenance improvements; and

3. Overall Department expenditure savings shall be retained by the Department to be dedicated to one-time expenditures.

The City shall implement its efforts to increase revenues in a manner consistent with the City’s policy of charging City residents a lower fee than that charged nonresidents for the use and enjoyment of Department property.

(d) Revenue Bond Authority. Notwithstanding the limitations set forth in Sections 9.107, 9.108, and 9.109 of this Charter, the Commission may request, and upon recommendation of the Mayor the Board of Supervisors may authorize, the issuance of revenue bonds or other evidences of indebtedness, or the incurrence

of other obligations, secured by the Park, Recreation and Open Space Fund for acquisition, construction, reconstruction, rehabilitation and/or improvement of real property and/or facilities and for the purchase of equipment.

(e) **Fund Expenditures on Commission Property.** Any real property acquired with monies from the Fund, including the proceeds of obligations issued pursuant to subsection (d), above, shall be placed under the jurisdiction of the Commission within the meaning of Section 4.113. Fund expenditures to improve, construct, reconstruct or rehabilitate real property shall be limited to property under the jurisdiction of the Commission or property under the jurisdiction of another City department or public agency and subject to an agreement with the Department for its use, management and maintenance.

(f) **Use and Allocation of the Fund.** Each year, the Commission shall adopt a budget for the allocation and expenditure of the Fund in compliance with the budget and fiscal provisions of the Charter, which shall be adopted by the Commission only after a written determination by the Planning Department of conformity with the City's General Plan.

The annual budget for allocation of the Fund that is adopted by the Commission and submitted by the Mayor to the Board of Supervisors shall include:

1. Allocations for after-school recreation programs, urban forestry, community gardens, volunteer programs, and a significant natural areas management program in the amounts allocated for each of those programs from the Park and Open Space Fund in the Department's fiscal year 1999–2000 budget, to the extent that such programs are not so funded in the Department's operating budget or in the budget of another City department.

2. An allocation necessary to ensure that 3% of the monies to be deposited in the Fund during the upcoming fiscal year pursuant to subsection (b), above, be available at the start of the fiscal year as an undesignated contingency reserve.

3. An allocation of not less than 5% of the monies to be deposited in the Fund during the upcoming fiscal year pursuant to subsection (b), above. These monies shall be dedicated to the acquisition of real property identified in the Capital Plan discussed in subsection (g), below. Any portion of these monies that remains unspent or uncommitted at the end of any fiscal year shall be carried forward, with interest thereon, to the next fiscal year for the purposes set forth herein. The 5% allocation need not be included in the budget submitted to the Board of Supervisors for an upcoming fiscal year to the extent that the total City expenditure for acquisition of property to be placed under the jurisdiction of the Commission for the period commencing with fiscal year 2000–01 and ending with the close of the immediately preceding fiscal year exceeds an amount equal to 5% of the total amount appropriated, or to be appropriated, to the Fund for the period commencing with fiscal year 2000–01 and ending with the close of the upcoming fiscal year.

Prior to the adoption of the annual budget by the Recreation and Park Commission, the Department, in conjunction with the Citizens Advisory Committee

discussed in subsection (h), below, shall conduct two public hearings in the evenings or on weekends to permit the public to comment on the Department's full budget and programming allocations.

(g) Planning and Reporting Measures. The Commission shall adopt several long-term plans that include, but are not limited to, the following:

1. Strategic Plan. By December 1, 2000, the Department shall prepare, for Commission consideration and approval, a five-year Strategic Plan, to be updated annually, that establishes or reaffirms the mission, vision, goals and objectives for the Department. This Strategic Plan will be used to guide the Department's work over the next five years.

2. Capital Plan. By December 1, 2000, the Department shall prepare, for Commission consideration and approval, a five-year Capital Plan, to be updated annually, for the development, renovation, replacement and maintenance of capital assets, and the acquisition of real property. In its Capital Plan the Department shall propose specific properties to be acquired for open space, recreation facilities, significant natural areas, and other recreational purposes and shall prioritize capital and maintenance improvements and provide budgets associated with such improvements. Capital and acquisition projects will be designated by the Department based upon needs identified by the Department and the community. Capital projects will include the planning, design and construction of projects that rehabilitate, restore or replace existing facilities or that develop new facilities. Acquisition projects will include, but will not be limited to, purchase, lease, exchange, eminent domain, license or any other vehicle giving the City a right, whether revocable or not, to use real property, or any interest therein, or any improvement or development rights thereon, for recreational purposes, including, but not limited to, protection of natural resources, development of community gardens and development of urban trails, provided that, notwithstanding anything herein to the contrary, no acquisition of less than fee simple title may be for a term of less than ten years.

3. Operational Plan. By December 1, 2001, the Department shall prepare, for Commission consideration and approval, a five-year Operational Plan, to be updated annually, detailing proposed improvements to the Department's services and responsiveness to customer needs. The annual Operational Plan will serve as a tool for improving the operational efficiency of the Department and will include measurable performance standards for the Department. The Department shall prepare the initial Operational Plan after conducting a performance audit of Departmental operations. Thereafter, the Department will conduct periodic performance audits.

The Commission shall establish a community input process, which may include the Citizens Advisory Committee discussed in section (h), below, through which citizens of the City and County of San Francisco will provide assistance to the Commission as it develops criteria and establishes the plans required by this subsection. Prior to the adoption of each five-year plan, the Department shall conduct

at least five hearings in locations distributed geographically throughout the City to receive and to consider the public's comments upon the plan. The Commission shall ensure that at least two of these hearings are held in the evenings or on weekends for the public's convenience.

The Department shall report annually, as a part of the City's budget process, to the Mayor and to the Board of Supervisors, on the status of the plans and on the status of Department goals, objectives and capital project timelines for the current fiscal year, as well as provide reports on performance measures required by this Section.

(h) Citizens Advisory Committee. The Board of Supervisors shall establish, by ordinance, a Citizens Advisory Committee.

(i) Environmental and Design Guidelines. The Commission shall adopt written environmental and design guidelines for new facilities, parks, and open spaces and the renovation or rehabilitation of existing facilities, parks, and open spaces. These guidelines shall be consistent with any applicable standards of the Art and Planning Commissions.

(j) Capital Projects. Notwithstanding the provisions of Section 3.104 of this Charter, the Commission shall have the authority to prepare and approve the plans, specifications and estimates for all contracts and orders, and to award, execute and manage all contracts and orders, for capital projects on real property under its jurisdiction or management. Capital projects supported by the Fund, other than those projects identified by the Department as long-term projects, must be fully constructed within three years of the initial budget allocation for those projects. Long-term projects must be fully constructed within five years of the initial budget allocation. Any exceptions to this provision must be authorized by a two-thirds vote of the Commission.

The Recreation and Park Department and the Department of Public Works ("DPW") shall establish a committee to develop a written, capital implementation program, for the consideration of both Departments, that will govern DPW's involvement in capital projects undertaken by the Recreation and Park Department. In developing this program, the committee shall consider the Capital Plan discussed in subsection (g), above, staffing levels in both Departments, and the availability of other resources.

(k) Unspent Funds. All unspent funds in the Park and Open Space Fund on June 30, 2000 shall continue to be held for the use and benefit of the Department. These monies shall be expended in a manner consistent with the general purposes for which they were originally appropriated.

In addition to the requirements set forth by this Section, all expenditures from the Fund shall be subject to the budget and fiscal provisions of the Charter.

Appendix A8.425 is amended to read as follows:

A8.425 PERSONS COVERED

Each plan may make provision for the participation in the benefits of the system by the dependents of members, retired city and county employees, temporary

city and county employees, such other dependents of deceased and retired city and county employees as the board of supervisors may authorize by ordinance, teachers and other employees of the San Francisco Unified School District retired under the San Francisco City and County Employees' Retirement System and resigned employees of the city and county and resigned teachers and employees of the school district whose resignations occur after June 15, 1955, and within 30 days immediately prior to the date on which, but for their resignations, they would have become retired members of the said retirement system, on whose relinquishment of retirement allowances as permitted by the charter occurs after such date and resigned employees of the San Francisco Unified School District not otherwise included. A resigned employee or teacher is one whose employment has terminated other than by retirement, discharge or death or who has relinquished retirement allowances. The purpose of empowering the health service board to make provision for the participation in the benefits of the system to the aforementioned resigned teachers and employees of the San Francisco Unified School District is to enable them, subject to the health service board's exercise of its power, to participate in the benefits of the system after transferring to the State Teachers' Retirement System from the San Francisco City and County Employees' Retirement System. The purpose of empowering the health service board to make provision for participation in the benefits of the system by the aforementioned resigned employees of the city and county and other resigned employees of San Francisco Unified School District is to permit the health service board to have power to treat them the same as it treats resigned teachers and employees of the San Francisco Unified School District.

As used in this section, and for the purpose of this section, the terms "city and county employees" and "employees of the city and county" shall include officers and employees of the Parking Authority of the City and County of San Francisco.

In addition to "the average contributions" in Subsection (b) of Section A8.428, the board of supervisors may provide by ordinance for additional funds from the city and county to pay the full cost of any plan for medical benefits adopted under Sections A8.422 or A8.423 for current members of the board of supervisors. The board of supervisors may also provide by ordinance for the continuation in any plan by former supervisors who agree to and do pay the full cost of such benefit.

Appendix A8.501 is repealed in its entirety.

A8.502 is amended to read as follows:

A8.502 RETIREMENT OF ELECTIVE OFFICERS

Elective officers, including members of the board of supervisors in office on and after July 1, 2000, but excepting members of all other boards and commissions and any elective officers who are members of the Public Employees' Retirement System, shall be members of the San Francisco City and County Employees' Retirement System under the miscellaneous plan in effect on the date such officer assumes office. Time during which said members have rendered service as

elective officers shall be included under Subsection (g) of Section A8.509, Section A8.584-7 or the miscellaneous plan in effect on the date such officer assumes office, in addition to other time now so included. Contributions required to provide benefits based on service rendered as an elective officer prior to the effective date of membership in the retirement system, shall be paid to the retirement system in a manner consistent with contributions required of miscellaneous members for temporary service as provided in this charter and the administrative code.

Certified to be a true copy by Tom Ammiano, President of the Board of Supervisors, and Gloria L. Young, Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 6—City of Woodlake

Charter of the City of Woodlake

[Filed with the Secretary of State May 8, 2000.]

WOODLAKE CITY CHARTER

ARTICLE IV—TAXES AND FINANCING

FINAL CHARTER

JUNE 22, 1999

Preamble:

The citizens of Woodlake enact this Charter to preserve and enhance the quality of life in our community. It is our intention to provide local control of our municipal government, to assure economic and fiscal independence and to promote the public health, safety, welfare and morals of our community to the extent permissible under the constitution and laws of the United States and the State of California.

ARTICLE I

NAME AND BOUNDARIES

Section 1.1 Name

The municipal corporation now existing and known as the City of Woodlake shall remain and shall continue to exist as a municipal corporation under the name “City of Woodlake”, but as a California Constitution Home Rule Charter City.

Section 1.2 Boundaries

The boundaries of the City shall be as now established, and may be changed in the future as provided by State law, by this Charter, or by ordinance.

Section 1.3 Public Participation

The City Council shall encourage communication with representative neighborhood groups throughout the City to encourage citizen participation, to seek advice and input and to provide information to the public relative to City matters and affairs.

ARTICLE II POWERS, DUTIES AND OBLIGATIONS OF THE CITY

Section 2.1 Municipal Affairs

The City Council may adopt and enforce all ordinances, resolutions, rules and regulations in respect to municipal affairs, subject only to restrictions and limitations provided in this Charter, the United States and California Constitutions and applicable laws, and decisions of courts with competent jurisdiction. As regards municipal affairs, and all powers granted herein and hereby, this Charter shall supersede all laws inconsistent therewith.

Section 2.2 Powers of the City

The City shall have all powers legally permissible for a City to have under the United States and California Constitutions and laws as fully and as completely as though those powers were specifically enumerated in this Charter.

Section 2.3 General Law Powers

Nothing in this Charter shall be construed to prevent or restrict the City from exercising any and all rights, powers and privileges heretofore or hereafter granted or prescribed by the General Laws of the State of California. All general law powers of cities in California are hereby declared to be possessed by the City.

Section 2.4 Intergovernmental Powers

The City may exercise and perform any of its functions and may participate in the financing thereof, jointly or in cooperation, by agreement or otherwise, with any one or more cities or agencies of the State of California, or any governmental jurisdiction or non-profit corporation thereof, or the United States or any of its agencies or instrumentalities.

Section 2.5 Residual Powers

The citizens of the City of Woodlake hereby reserve to themselves through and to their City government all residual powers as may be made available to them by and under the United States and California State Constitutions.

Section 2.6 Utilities and Enterprises

The City shall have the power to acquire, develop, engage in and operate and manage any and all utilities and enterprises which the City Council shall deem appropriate for a public purpose. The City of Woodlake shall be responsible for the maintenance, repair and/or replacement of all City owned and operated utilities which are located within the public right-of-way except those which may require modification or enlargement as a result of new development or other demand changes not caused or initiated by actions of the city government. Property owners or residents will be responsible for the maintenance and repair of utility lines located outside the city right-of-way.

Section 2.7 Duties and Obligations of the City Council

The City Council shall have the power and it shall be the duty, obligation and responsibility of the Council to develop and implement plans and programs and to provide financial and physical resources sufficient to accomplish the duties and obligations set out in the Charter.

Section 2.8 Liberal Interpretation

The powers of the City under this Charter shall be construed liberally in favor of the City, and the specific mention of particular powers in the Charter shall not be construed as limiting, in any way, any of the powers granted by this Charter.

ARTICLE III GOVERNANCE AND ORGANIZATION

Section 3.1 Governing Body

The City shall have a council composed of five Council members, elected by the voters of the City, at large, for four-year terms, as provided by ordinance. The City Council shall be the legislative and governing body of the city. The Council shall select a Mayor and Vice Mayor from its membership, as provided by ordinance.

Section 3.2 Eligibility

No person shall be eligible to hold the office of Council member unless he/she is a legally registered voter and resident of the City.

Section 3.3 Regular Election

The regular election of Council members shall be held on the same date as the County of Tulare consolidated General Election in even numbered years, unless such date is changed by ordinance.

Section 3.4 Elections

Unless otherwise provided by ordinance, all elections shall be held in accordance with the provisions of the California Elections Code governing municipal elections.

Section 3.5 Exercise of City Council Powers

A. Method of Action. The City Council shall conduct its business by ordinance as set forth in the Government Code, by resolution of the Council or by motion and a majority vote of the Council.

B. Rules of Procedure. The City Council shall, by ordinance, make provision for its rules, the setting of meetings dates and times, determination of quorum, filling of Council vacancies, notice of meetings, agendas, keeping of minutes and records of actions, voting and other necessary rules of procedure, decorum and the governance of its proceedings.

Section 3.6 Powers and Duties of the City Council

A. Powers. All powers of the City shall be vested in the City Council, except as otherwise provided by State law or this Charter, and the Council shall provide for the performance of all duties and obligations imposed on the City by law or this Charter.

B. Duties of the City Council. The City Council shall make policy for the City and be responsible to the people of Woodlake for, but not limited to the following duties and responsibilities:

1. Considering ordinances and resolutions and adopting those which it determines to be necessary for the governance, proper administration and adequate financing of the City;

2. Appoint and provide oversight of the City Administrator and all matters pertaining to his/her duties;
3. Carrying out all provisions of this Charter, City ordinances and applicable State and Federal laws and regulations;
4. Conducting reviews and taking actions that assure the effective governance and financing of the City;
5. Perform such other duties as may, by State law, ordinance or resolution or this Charter, be assigned to the City or the Council

Section 3.7 Compensation of City Council Members

Nothing in this Charter shall be construed as authorization to allow the payment of salaries to Council Members in any amount other than as permitted for the payment of salaries of Council Members of general law cities of the same size as Woodlake.

ARTICLE IV TAXES AND FINANCING

Section 4.1 Tax Limit

No City tax shall be imposed or increased in rate by the City Council without an affirming vote of the Woodlake voters as required by State law and applicable provisions of the California State Constitution.

Section 4.2 Franchise of Public Utilities and Enterprises

The City Council shall have the power, by ordinance, to grant a franchise to utilize the public streets, rights-of-way and air rights by any public utility, enterprise or activity not owned by the City, provided an annual franchise fee is paid to the City equal to the costs incurred by the City in alleviating the damage done to those rights-of-way during the term of the franchise, and to defray and mitigate any inconvenience suffered by the traveling public.

Section 4.3 Debt Financing

The City Council may, by ordinance, issue all manner of securities and incur all manner of indebtedness, provided, however, general obligation debt of the City shall, at no time, exceed the amount allowed by State law and applicable provisions of the California State Constitution.

Section 4.4 Purchasing and Contracting

A. Purchasing and Contracting. The City Council shall, by ordinance, provide for a purchasing and construction contract award system which assures the greatest possible competition in the acquisition of goods, supplies, materials, equipment and in awarding construction projects, which are clearly described, by specification, at the lowest responsible price. The City Council may, however, provide exceptions to such competitive processes in the case of an emergency, for the purchase of non-competitive items, in securing specialized or professional services or to secure copy righted or patented products. The City Council may, by ordinance, make reasonable provisions for purchase or contracting incentives in favor of local merchants, suppliers or contractors.

B. Open Market Purchases. The City Council shall, provide for the rejection of bids for the purchase of supplies, materials, services and contract construction when written findings are made that the subject purchase or bid project does not satisfy the best interests of the City of Woodlake. Under those circumstances, the City Council may proceed to contract to have such work done or supplies, materials and services acquired directly in the open market, without further observance of the foregoing provisions of this Section.

C. Direct Public Work. The City Council shall have the power, by ordinance, to provide a complete procedure whereby the City may perform public improvements works and repairs for other public entities.

D. Maintenance of City Properties. Nothing in this section shall be construed to require the care, repair or maintenance of streets, City-owned utilities or properties to be let to or by contract.

E. Nonpayment of Prevailing Wages on Public Works Projects. To the maximum extent allowed by law, the City shall not be required or obligated to pay prevailing wage rates on public works or construction projects, except where required to do so by virtue of the source of funds utilized for the project and/or when, at the determination of the City Council, the Project is deemed to be a matter of statewide concern.

ARTICLE V GENERAL PROVISIONS AND TRANSITION

Section 5.1 Violations

The City Council shall, by ordinance, categorize and provide for penalties for misdemeanors and infractions within the general laws. Further, the City Council shall provide for fines, penalties, enforcement of City ordinances, infractions and regulations, and for willful violations of this Charter.

Section 5.2 Enforcement

Violations of City ordinance or of provisions of this Charter may be prosecuted in the name of the people of the State of California or redressed by civil action. Compliance with any mandated duty prescribed in this Charter may be had through civil action or, if appropriate, criminal proceedings.

Section 5.3 Forfeiture of Office

Notwithstanding the criminal and civil procedures and penalties provided for herein, a Council Member shall forfeit office pursuant to this Charter if a court of law has found, after the judgment has become final and all appeals exhausted, that the Council Member has willfully violated this Charter or any provision thereof, or willfully failed to carry out any provision of this Charter.

Section 5.4 Amendment

This Charter may be amended by majority vote of the City's voters. Amendments to this Charter may be framed and proposed by Council ordinance, voter initiative, or by a Charter Commission.

Section 5.5 Transition

All City ordinances, resolutions, orders, rules, regulations and agreements which are in force when this Charter becomes effective shall remain in effect until repealed, except, to the extent they are inconsistent, disagree in any material respect with, or interfere with the effective operation of this Charter or of ordinances adopted pursuant thereto.

Section 5.6 Continuity

A. Rights. The City shall continue to own, possess and control all rights and property of every kind and nature owned, possessed or controlled on the effective date of this Charter, and shall be subject to all its debts, obligations and liabilities.

B. Officers and Employees. On the effective date of this Charter all present officers and employees of the City shall retain their respective offices and employment as provided by ordinance. The City Administrator and City department heads shall serve at the pleasure of the Appointing Authority. Nothing herein shall prohibit the appropriate Appointing Authority from entering into a written employment agreement with an “at will” employee, subject to the approval of the City Council. The City Administrator shall be responsible for the appointment of all city employees except for the City Attorney and City Clerk who will be appointed by the City Council.

C. Non-Interference with Court Orders. Nothing herein shall be construed to interfere with or to modify any order or decision of any court of competent jurisdiction, provided, however this Charter shall in all respects supersede any such court order or decision which does not apply specifically to home rule Charter Cities under provisions of the Constitution of the State of California.

Section 5.7 Severability

If any provision of this Charter is held to be invalid the other provisions of this Charter shall not be affected thereby. If the application of this Charter or any of its provision to any person or circumstance is held invalid the application of this Charter and its provisions or circumstances shall not be effected thereby.

Certified to be a true copy by Paul Gomez, Mayor, and Ruth Gonzalez, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 7—City of Bakersfield

Amendment to the Charter of the City of Bakersfield

[Filed with the Secretary of State May 8, 2000.]

The section on Civil Service for the Fire Department of the Charter of the City of Bakersfield is amended to read as follows:

CIVIL SERVICE FOR THE FIRE DEPARTMENT**Deputy Chief of the Fire Department**

Section (195) 13. In case of absence, disability or death of the Chief of the Fire Department, a Deputy Chief of the Fire Department shall assume charge of the Fire Department and shall be vested with all of the powers of the Chief of the Fire Department during the time he or she shall be in charge of such Department.

Certified to be a true copy by Pamela A. McCarthy, City Clerk.

Date of Municipal Election: March 7, 2000.

 Charter Chapter 8—City of Stockton
Amendments to the Charter of the City of Stockton

[Filed with the Secretary of State May 8, 2000.]

Article IV of the Charter of the City of Stockton is hereby repealed and a new Article IV enacted which shall be as follows:

Charter Article IV**The City Council****SECTION 400. Powers.**

The City Council shall be the governing body of the municipality. All powers of the City shall be vested in the Council subject to the provisions of this Charter, the Constitution of the State of California and the Constitution of the United States. The Council may establish the method or methods by which any of such powers may be exercised.

SECTION 401. Membership.

The Council shall consist of seven (7) members, six (6) Councilmembers and the Mayor, each of whom shall have the right to vote on all matters coming before the Council.

SECTION 402. Meetings.

The Council shall call and hold regular and special meetings in such manner and at such time and place within the City of Stockton as it may prescribe.

SECTION 403. Open Sessions.

All legislative sessions of the Council, whether regular or special, shall be open to the public except for sessions closed to the public as permitted by law. The public shall have access to the minutes and records of sessions open to the public at all reasonable times in accordance with applicable law.

SECTION 404. Quorum.

A majority of the members of the Council shall constitute a quorum for the transaction of business. Every member when present, must vote upon all propositions.

SECTION 405. Appointees.

The Council shall select the City Manager, City Attorney, City Clerk, City Auditor, and such other positions as may be provided for elsewhere in this Charter and such professional, technical and clerical employees to or for its own body as it may deem necessary; provided, however, that the Council shall not appoint to any position any business associate or any person related to the City Manager or any member of the Council by blood or marriage within the third degree, except that the foregoing prohibition against nepotism may be waived by a vote of at least two-thirds (2/3) of the members of the Council if the Council finds that the proposed appointment is in the interest of the City. All such appointees shall serve at the pleasure of the Council in the unclassified service; and shall serve under such terms and conditions, salaries and benefits as are required of and received by other similar unclassified employees.

SECTION 406. Investigations.

The Council or any committee thereof duly authorized by the Council to do so, may investigate the financial transactions, and the official acts and conduct of any office or department of the City government. In conducting such investigations, the Council or any committee thereof shall have the authority to subpoena witnesses, administer oaths and require the production of evidence. Subpoenas may be issued in the name of the City and be attested by the City Clerk. Disobedience of any such subpoena or order shall be deemed contempt and shall be punishable as provided by the general laws of this State.

SECTION 407. Qualifications of Members.

The Council shall be the judge of the election and qualifications of its members. Except as otherwise provided in this Charter, the Council shall determine its rules of procedure. It may punish or expel any member for violation of its rules.

SECTION 408. Interference with City Manager.

Neither the Council nor any of its members nor the Mayor shall interfere with the execution by the City Manager of his or her powers and duties, nor in any manner dictate the appointment or removal of any City officers or employees whom the City Manager is empowered to appoint except as expressly provided in Charter Section 406. However, the Mayor and Councilmembers may express their views and fully and freely discuss with the City Manager anything pertaining to the appointment and removal of such officers and employees.

Except for the purpose of inquiries and investigations under Charter Section 406, the Council, its members and the Mayor shall deal with City officers and employees who are subject to the direction and supervision of the City Manager, City Attorney, City Clerk or City Auditor, solely through the City Manager, City Attorney, City Clerk or City Auditor, respectively, and neither the Council nor

its members nor the Mayor shall give orders to any of the subordinates of those appointees, either publicly or privately, except as otherwise provided in this Charter.

SECTION 409. Statement of Policy.

The Council shall adopt a written Statement of Policy for each City department which is under the administration of the City Manager. Said Statement of Policy shall set forth the broad goals, objectives and aspirations to be accomplished by that department.

When the position of the head of such a department becomes vacant, the Council shall review and, if necessary, amend the previously approved Statement of Policy. The Mayor and Councilmembers shall adopt a set of questions which are intended to elicit responses from each prospective appointee concerning the goals, objectives and aspirations in the Statement of Policy.

For purposes of this section, the term “department” shall mean any department specified in Charter Section 405 as well as any department created by the Council pursuant to Charter Section 411.

Prior to appointing any department head, the City Manager shall submit to the Mayor and Councilmembers, for their review, the responses to the Mayor and Councilmembers’ questions submitted by the proposed appointee. This section shall not apply to the appointment of any “acting” department head to serve in an interim capacity.

SECTION 410. Compensation.

Each member of the Council, including the Mayor, shall be paid as compensation for his or her services as a member of the Council, for each calendar month during which he or she is a member of the Council, a monthly salary together with appropriate benefits, which shall be established by ordinance adopted pursuant to and in accordance with the provisions hereinafter set forth in this Section. No salary shall be established for any member of the Council, including the Mayor, except as provided in this Section.

Between March 1st and April 30th of every odd-numbered year, the Council Salary Setting Commission shall recommend to the Council the amount of monthly salary and the benefits which it deems appropriate for the members of the Council, including the Mayor, for the two-year period commencing July 1 of that odd-numbered year. The amount recommended for each Councilmember shall be the same. The amount recommended for the Mayor may exceed that of the other members of the Council, however the amount received by the Mayor shall be not less than the amount received by the Chairman of the Board of Supervisors of the County of San Joaquin. The monthly salaries and benefits shall be in an amount which takes into account the time devoted to the office of Councilmember, the full time nature of the office of Mayor and shall be commensurate with salaries and benefits then being paid for other public or private positions having similar part time and/or full time duties, responsibilities and obligations.

No recommendation shall be made except upon the affirmative vote of three (3) members of the Commission. Failure of the Commission to make a recommendation in any year within the time prescribed shall be deemed to mean a recommendation that no changes be made.

Each biennial recommendation, together with the reasons therefor, shall be made in writing. Before it submits any such recommendation to the Council, the Commission shall conduct at least one public hearing on the matter. When such a recommendation has been submitted to the Council, it shall not thereafter be amended by the Commission.

The Council shall, by ordinance, which shall be subject to the referendum provisions of this Charter, adopt the salaries as recommended by the Commission, or in some lesser amount, but in no event may it increase the amount.

Salaries established by ordinance adopted pursuant to the provisions of this Section shall remain in effect until amended by a subsequent ordinance adopted pursuant to the provisions of this Section.

The compensation being paid to the Councilmembers as of the effective date of this section shall continue until established as required by this section.

SECTION 411. City Offices.

The City Council may establish City departments in addition to those created by this Charter and may prescribe the functions, powers and duties of all departments, except that no department established by this Charter may be abolished. No function assigned by this Charter to a particular department may be discontinued or assigned to any other unless this Charter specifically so provides.

Article VI of the Charter of the City of Stockton is hereby repealed and a new Article VI enacted which shall be as follows:

Charter Article VI Elective Officers

SECTION 600. Nomination and Election of the Mayor and Councilmembers.

The six Councilmembers and the Mayor shall be nominated and elected as herein provided.

SECTION 601. Councilmembers.

The six (6) Councilmembers shall be nominated from districts, and shall be elected by the qualified electors of the City at large.

(a) The voters of each district shall nominate two (2) candidates for Councilmember at the primary municipal election. The two (2) candidates must be residents of the districts from which they are nominated.

(b) The voters of the entire City shall elect the Councilmember for each district at the general municipal election. The Councilmember from each district must be one (1) of the two (2) candidates nominated from the district at the primary municipal election.

(c) All Councilmembers shall be elected to a term of four (4) years beginning on January 1 of the year following their election.

(d) Each member of the Council must reside in and be a qualified elector of the district from which said member is nominated and elected or appointed for a period of not less than thirty (30) days prior to the filing of his nomination papers or his appointment. The term of office of any Councilmember who has been elected and whose term of office has not expired shall not be affected by any change in the boundaries of the district from which he or she was elected.

(e) Any member of the Council moving from his district during his term shall automatically forfeit his office, the same to be refilled by the Council from the electors of the district. Absence from five (5) consecutive regular meetings, unless excused by resolution of the Council, shall operate to vacate the seat of any member so absent.

(f) If a vacancy shall occur in the office of any Councilmember, the Council shall appoint a person to fill such a vacancy. The vacancy in the Council shall be filled by the Council from the electors of the district in which the vacancy occurs. Such person shall hold office until December 31st next following the next general election, and at such election a person shall be elected to hold office for the remainder of any unexpired term. If at any municipal election held under the provisions of this Charter, a Councilmember is not nominated or elected from a district by reason of a tie vote among any of the candidates therefor, then the Council shall select by lot one (1) of the persons receiving such tie vote to fill such nomination or office.

(g) Notwithstanding the provisions of this Section, if the City Clerk fails to adjust the boundaries in the year following the adoption of this Section or thereafter in the year following the year in which the decennial Federal census is taken, or if the boundaries adjusted by the City Clerk are held invalid, each Councilmember to be elected at the next election and at any succeeding election shall be elected by and from the City at large. Councilmembers shall continue to be so elected until the Clerk makes a valid adjustment of the boundaries of the districts.

SECTION 602. Mayor.

The Mayor shall be elected by the qualified electors of the City at large and shall hold such office for a term of four (4) years beginning on January 1 of the year following the Mayor's election and until a successor is elected and qualified.

(a) The voters of the entire City shall elect the Mayor at the primary municipal election; provided, however, that should no candidate for the office of Mayor receive at the primary municipal election a majority of the votes cast for all candidates for said office, the two (2) candidates receiving the highest number of votes cast for any such candidates shall thereby qualify as candidates for the office of Mayor at the runoff election to be held at the general municipal election.

(b) The Mayor must reside in and be a qualified elector of the City for a period of not less than thirty (30) days prior to the filing of nomination papers or appointment.

(c) Moving from the City during the term shall automatically forfeit the office. Absence from five (5) consecutive regular meetings, unless excused by resolution of the Council, shall operate to vacate the office.

(d) Any vacancy shall be refilled by the Council from the electors of the City. Any person so appointed shall hold office until December 31 next following the next general election, and at such election a person shall be elected to hold office for the remainder of any unexpired term.

SECTION 603. Surety Bond.

The Mayor and each Councilmember shall, before entering upon the duties of office, give and execute to the City a bond for an amount not less than five thousand (\$5,000.00) dollars. The City Council may by resolution increase the amount of the bond requirement. The City of Stockton will pay the costs of acceptable surety bonds. Every bond shall contain the conditions that the principal will well, truly, honestly, and faithfully perform the duties of office. The bonds of the Mayor and the several Councilmembers must be approved by the City Attorney, and the approval of the official bonds must be endorsed thereon. All bonds when approved shall be filed with the City Clerk. State law requirements which are not inconsistent with this Charter shall apply to bonds issued under the provisions of this Section.

SECTION 604. Oath of Office.

Every officer of the City, before entering upon the duties of his office, shall take the oath of office as provided for in the constitution of this State and shall file the same with the City Clerk.

SECTION 605. Holding Other Office.

No member of the Council shall hold any other City office or City employment during the term for which he or she was elected to the Council; provided and excepting, however, that a member of the Council may become a member of any advisory, administrative or governing body of any special district, entity, organization or committee when such is authorized by State law or where the offices are not incompatible.

SECTION 606. Term Limits.

No person elected as either Mayor or Councilmember shall be eligible to serve, or serve, as either Mayor or Councilmember for more than two (2) terms; but such service prior to January 1, 1989 shall not disqualify any person for further service as either Mayor or Councilmember.

Article XI of the Charter of the City of Stockton is hereby repealed and a new Article XI enacted which shall be as follows:

Charter Article XI
The Mayor

SECTION 1100. Mayor.

There shall be a Mayor of the City of Stockton, elected pursuant to Section 602 of this Charter, who shall be the seventh member of the Council. The Mayor shall devote his or her full time to the Office of Mayor.

SECTION 1101. Political Leader.

It is the intent of this Article that the Mayor shall be the political leader within the community by providing guidance and leadership to the Council, by expressing and communicating to those he or she serves the City's policies and programs and by assisting the Council in the informed, vigorous and effective exercise of its powers.

SECTION 1102. Powers and Duties.

The Mayor shall have the following powers and duties:

(a) To review with the City Manager, City Attorney and City Clerk prior to each Council meeting the items on the Council's agenda and to add matters thereto;

(b) To make recommendations to the Council on matters of policy and programs which require Council decision;

(c) To make recommendations to the City Manager on matters of policy and programs;

(d) To direct those officials appointed by the Council to prepare and provide information to the Council on matters of policy and programs which require Council decision;

(e) To request budgetary and any other information from those officials appointed by the Council that the Mayor determines is necessary for the conduct of the Mayor's duties;

(f) To appoint, with the advice and consent of the Council, a Chairman, a Vice-Chairman, one regular member and one alternate member to each standing, special and ad hoc committee of the Council;

(g) To appoint, with the advice and consent of the Council, such advisory boards; commissions and ad hoc committees as may be necessary or desirable to advise and assist in the work of the City Council;

(h) To appoint such other advisory boards and ad hoc committees as may be necessary or desirable to advise and assist in the work of the Mayor; provided, however, that the members of such advisory boards or ad hoc committees shall not receive any compensation;

(i) To address, not less than annually, the citizens of the City concerning the current status of City affairs and articulating the policy plans which the Mayor proposes for the City during the ensuing year;

(j) To inform the citizens, at other times during the year, of any matters of policy or programs which the Mayor believes are for the welfare of the community;

(k) To recommend adjustments to the City Budget and to propose the modification or curtailment of any city service. If the Mayor recommends any increases in the City Budget, the Mayor shall recommend the method of financing such expenditures. If the Mayor proposes the modification or curtailment of any city service, the Mayor shall provide specific recommendations and the reasons for such proposal;

(l) To preside at meetings of the Council and to vote as a member of the Council without power of veto;

(m) To preserve order at all Council meetings, to remove or cause the removal of any person from any meeting of the Council for disorderly conduct, to enforce the rules of the Council and to determine the order of business under the rules of the Council;

(n) To select and appoint such professional, technical and clerical employees to the office of Mayor as may be necessary or desirable to advise and assist in the work of the Mayor; provided, however, that the Mayor shall not appoint to any position any business associate or any person related to him or her or to the City Manager or to any member of the Council by blood or marriage within the third degree, except that the foregoing prohibition against nepotism may be waived by a vote of at least two-thirds (2/3) of the members of the Council if the Council finds that the proposed appointment is in the interest of the City. All such appointees shall serve at the pleasure of the Mayor in the unclassified service; and shall serve under such terms and conditions, salaries and benefits as are similar to other unclassified employees;

(o) To exercise such other powers and perform such other duties as may be prescribed by the Council, provided the same are not inconsistent with this Charter.

Nothing in this Section shall be construed in any way as an infringement or limitation on the powers and duties of the City Manager as Chief Administrative Officer and head of the administrative branch of the City government as prescribed in other sections of this Charter. Except as otherwise provided in this Charter, the Mayor shall possess only such authority over the City Manager and the administrative branch as he or she possesses as one member of the Council.

SECTION 1103. Vice Mayor.

The Mayor shall nominate one (1) of the Councilmembers to serve as Vice Mayor.

(a) The term of the Vice Mayor shall commence upon ratification of the nomination by the Council and shall continue until the December 31 following the next general municipal election.

(b) During the temporary absence or disability of the Mayor, the Vice Mayor shall act as Mayor. In case of the temporary absence or disability of both the Mayor and the Vice Mayor, the Council shall elect one (1) of its members to be Mayor pro tempore. In case of vacancy in the office of the Mayor, the Vice Mayor shall act as Mayor until such vacancy can be filled as provided in this Charter.

Article XI-A is hereby added to the Charter of the City of Stockton and shall be as follows:

Charter Article XI-A
Public Information Office

SECTION 1150. Public Information Office.

A Public Information Office is hereby established.

SECTION 1151. Public Information Officer.

The Public Information Office shall be administered by a Public Information Officer appointed by the Mayor who shall serve at his or her pleasure. The Public Information Officer shall be under the direction and supervision of the Mayor.

SECTION 1152. Functions and Duties.

The Public Information Officer shall gather and disseminate to the public and to the news media, in a timely manner, accurate and complete information concerning the policies of the Council and other information regarding the City and the general region in which it is located.

Article XII of the Charter of the City of Stockton is hereby repealed and a new Article XII enacted which shall be as follows:

**Charter Article XII
The City Manager**

SECTION 1200. Nomination.

The Mayor shall nominate one (1) or more candidates for Council consideration for appointment to the position of City Manager. The City Manager shall be appointed by the Council for an indefinite term and shall not be removed from office except by a vote of a majority of the members of the Council; provided, however, that the City Manager shall not be removed from office within twelve (12) months from the date his or her duties are assumed, except for incompetence, malfeasance, misfeasance, or neglect of duty. In the case of removal within the said period, the City Manager may demand that written charges be made and a public hearing be held thereon before the Council prior to the date on which removal shall take effect; the decision and action on such a hearing shall be final, and pending such a hearing, the Council may suspend the City Manager from duty. The Council shall designate a qualified person to perform the duties of the City Manager in the event of the absence or disability of the City Manager, or in case there is a vacancy in such office. Whenever a vacancy occurs in the office of City Manager, the Mayor shall immediately initiate a procedure for the selection of a City Manager.

SECTION 1201. Chief Administrative Officer.

The City Manager shall be the chief administrative officer of the City. He or she shall be responsible to the Council for the efficient administration of all the affairs of the City placed in his or her charge by or under this Charter. Without limiting the foregoing general grant of powers, responsibilities and duties, the City Manager shall have the following powers and duties:

(a) Except as otherwise provided elsewhere in this Charter, the City Manager shall appoint all officers and employees of the City; and, when he or she deems it necessary for the good of the service, the City Manager may, subject to the above-mentioned limitations, suspend without pay, demote, discharge, remove or discipline any City officer or employee whom under this Charter is appointed by the City Manager; provided, however, that the City Manager shall not appoint to any position any business associate or any person related to him or her or to any

member of the City Council by blood or marriage within the third degree, except that the foregoing prohibition against nepotism may be waived by a vote of at least two-thirds (2/3) of the members of the City Council if the City Council finds that the proposed appointment is in the interest of the City.

(b) Except as otherwise provided elsewhere by this Charter, the City Manager shall direct and supervise the administration of all departments, offices and agencies of the City;

(c) The City Manager shall attend all regular and special meetings of the Council, other than closed executive sessions where the City Manager or another Council appointee is the subject of discussion, and to take part in its discussions, but not to vote. If the City Manager is unable to attend any regular or special meeting of the Council, he or she shall notify the Council in writing of such inability and set forth his or her reasons for non-attendance;

(d) The City Manager shall be responsible for the faithful execution of all laws, provisions of this Charter, and acts of the Council which are subject to enforcement by the City Manager or by officers who are under the City Manager's direction and supervision;

(e) The City Manager shall prepare and submit the annual budget to the Council in accordance with the provisions of Article XIX of this Charter;

(f) The City Manager shall recommend to the Council for adoption such measures and ordinances as the City Manager may deem necessary or expedient;

(g) The City Manager may make and execute contracts and authorize expenditures of less than twenty thousand (\$20,000) dollars, or in such amounts as are established pursuant to Section 2002 of this Charter, on behalf of the City;

(h) The City Manager shall submit an annual report on the finances and administrative activities of the City as of the end of the preceding fiscal year to the Council at a public meeting to be held within thirty days following receipt of the Annual Financial Statement. The annual report, which shall be personally certified by the City Manager to be accurate and complete, shall contain a statement indicating:

(1) Whether the revenues budgeted for the preceding fiscal year were actually received, and an explanation concerning any material differences between the total revenues budgeted and the revenues actually received;

(2) The extent to which expenditures budgeted actually were incurred, and an explanation for any material variance between budgeted expenditures and actual expenditures;

(3) The amount of the financial reserves of the city;

(4) All other information which, in the opinion of the City Manager, is necessary to provide an accurate and complete picture of the fiscal status and condition of the city. The report shall be in a form which is susceptible to confirmation by audit. It shall be made available to the public in the Office of the City Clerk.

(i) The City Manager shall make such other reports as the Council from time to time may request concerning the operations of City departments, offices and

agencies subject to his or her direction and supervision; shall keep the Council fully advised as to the financial condition and future needs of the City; and make such recommendations to the Council concerning the affairs of the City as he or she deems desirable or as requested by Council;

(j) The City Manager shall appoint such advisory boards and committees as may be necessary or desirable to advise and assist in the work of the City Manager; provided, however, that the members of such boards shall not receive any compensation.

(k) The City Manager shall exercise such other powers, and shall perform such other duties, as are specified in this Charter or as authorized or required by the Council.

Article XV of the Charter of the City of Stockton is hereby repealed and a new Article XV enacted which shall be as follows:

Charter Article XV
City Auditor

SECTION 1500. Appointment of City Auditor.

The City Council shall appoint the City Auditor who shall serve at its pleasure. The City Auditor shall be certified according to standards comparable to a Certified Public Accountant or a Certified Internal Auditor at time of appointment.

SECTION 1501. Powers and Duties.

The City Auditor shall have the following powers and duties:

(a) Conduct or cause to be conducted annual post audits of all the fiscal transactions and accounts kept by or for the City. Such audits shall include but not be limited to the examination and analysis of fiscal procedures and the examination, checking and verification of accounts and expenditures. The audits shall be conducted in accordance with generally accepted auditing standards and accordingly shall include tests of the accounting records and other auditing procedures as may be considered necessary under the circumstances. The audits shall include the issuance of suitable reports of examination so the Council and the public will be informed as to the adequacy of the financial statements of the City.

(b) Conduct performance audits, as assigned by Council. A “performance audit” means a post audit which determines with regard to the purpose, functions and duties of the audited agency all of the following:

(1) Whether the audited department, office or agency, is managing or utilizing its resources, including public funds, personnel, property, equipment and space in an economical and efficient manner.

(2) Causes of inefficiencies or uneconomical practices, including inadequacies in management information systems, internal and administrative procedures, organizational structure, use of resources, allocation of personnel, purchasing policies and equipment.

(3) Whether the desired results are being achieved.

(4) Whether objectives established by the Council or other authorizing body are being met.

(c) Conduct special audits and investigations, as assigned by Council. “Special audits and investigations” mean assignments of limited scope, intended to determine:

- (1) The accuracy of information provided to the Council.
- (2) The costs and consequences of recommendations made to the Council.
- (3) Other information concerning the performance of City Departments, Offices or Agencies as requested by the Council.

(d) The City Auditor shall have access to, and authority to examine any and all documents including but not limited to books, accounts, internal memoranda, writings and tapes, reports, vouchers, correspondence files and other records, bank accounts, money and other property of any City department, office or agency, whether created by the Charter or otherwise, with the exception of the office of any elected official.

It is the duty of any officer, employee or agent of the City having control of such records to permit access to, and examination thereof, upon the request of the City Auditor or his or her authorized representative. It is also the duty of any such officer, employee or agent to fully cooperate with, and to make full disclosure of all pertinent information.

(e) Prepare and submit to the Council quarterly reports of the City Auditor’s activities and findings in the immediately preceding three calendar months, together with any recommendations to improve the administration of the City.

(f) Perform other auditing functions, consistent with other provisions of this Charter, and prepare and submit such other reports, as may be assigned by the Council.

SECTION 1502. Power of Appointment.

The City Auditor may appoint and prescribe the duties of the professional, technical and clerical employees employed in the Office of the City Auditor; provided, however, that the City Auditor shall not appoint to any position any business associate or any person related to him or her or to the City Manager or to any member of the Council by blood or marriage within the third degree, except that the foregoing prohibition against nepotism may be waived by a vote of at least two-thirds (2/3) of the members of the Council if the Council finds that the proposed appointment is in the interest of the City. All such appointees shall serve at the pleasure of the City Auditor in the unclassified service; and shall serve under such terms and conditions, salaries and benefits as are similar to other unclassified employees;

Neither the Council nor any of its members shall in any manner dictate the appointment or removal of any such officer or employee whom the City Auditor is empowered to appoint, but the Council may express its views and fully and freely discuss with the City Auditor anything pertaining to the appointment and removal of such officers and employees.

Article XIX of the Charter of the City of Stockton is hereby repealed and a new Article XIX enacted which shall be as follows:

Charter Article XIX
Budget and Fiscal Affairs—Fiscal Authority

SECTION 1900. Powers.

The City of Stockton shall have the power to make and enforce all ordinances and regulations in respect to the conduct of the fiscal affairs of the City, subject only to the restrictions and limitations provided in this Charter, the Constitution of the State of California, and the Constitution of the United States.

SECTION 1901. Fiscal Year.

The fiscal year of the City of Stockton shall commence upon the first day of July of each year or such other time as may be fixed by ordinance.

SECTION 1902. Taxes.

The City shall, by ordinance, provide a system for the assessment, levy and collection of all City taxes.

SECTION 1903. Capital Improvement Program.

At least ninety (90) days prior to the beginning of each fiscal year, or at such earlier time as the Council may specify, the City Manager shall prepare and shall submit to the Council a Capital Improvement Program for the five (5) fiscal years immediately following the fiscal year within which such Program is submitted to the Council. On or before the day that he or she submits such Program to the Council, the City Manager shall also file a copy of the Program with the Planning Commission of the City. Such Capital Improvement Program shall include:

- (a) A clear summary of its contents;
- (b) A list of all capital improvements which are proposed to be undertaken during the five fiscal years immediately following the fiscal year within which such Program is submitted to the Council with appropriate supporting information as to the necessity of such improvements;
- (c) Cost estimates, methods of financing and recommended time schedules for each such improvement; and
- (d) Such other information as the City Manager may deem desirable.

SECTION 1904. Action on Capital Improvement Program.

Upon receipt of the copy of the Capital Improvement Program prepared by the City Manager, the Planning Commission shall consider the Program and, within thirty (30) days from and after the date a copy of such Program was filed with the Commission, shall submit to the Council a written report setting forth its findings of consistency or inconsistency of the Program with the General Plan of the City.

The Council shall hold a public hearing on the Capital Improvement Program as submitted by the City Manager within thirty (30) days of the receipt of the Planning Commission's report. Copies of the Capital Improvement Program as submitted by the City Manager, and copies of such reports as may have been submitted by the Commission, shall be filed and available for inspection by the public in the office of the City Clerk for at least ten (10) days prior to said public hearing. The notice of public hearing shall state the time and place of hearing and the times and place when and where copies of the Capital Improvement Program as

submitted by the City Manager and the report of the Planning Commission will be available for inspection by the public. At the time and place so advertised or at any time or place to which such public hearing shall from time to time be adjourned, the Council shall hold a public hearing on the Capital Improvement Program as submitted by the City Manager at which time interested persons desiring to be heard shall be given reasonable opportunity to be heard.

Upon conclusion of such hearing, the Council shall adopt a Capital Improvement Program for the five (5) fiscal years covered by the City Manager's proposed Capital Improvement Program with such amendments as it may deem desirable. Upon its adoption and until adoption of a new budget and a new five (5) year Capital Improvement Program, such Capital Improvement Program, as adopted by the Council, shall serve as a general guide to the Council and to the City administration in the planning and scheduling of capital improvements. From time to time, however, the Council may authorize such departures therefrom as it may deem necessary or desirable.

SECTION 1905. Submission of Economic Forecasts and Mayor's Budget Message.

Each Council Appointee shall, on or before December 15 of each year, submit to the Mayor and to the Council a five (5) year economic forecast of expenditures and revenues for each City department, office or agency under his or her administration.

The Mayor shall, on or before January 15 of each year, prepare and deliver to the Council the Mayor's Proposed Budget Priorities and Direction.

Each Council Appointee shall, on or before February 1 of each year, prepare and deliver to the Mayor and to the Council a Capital and Operating Mid-Year Report for each City department, office or agency under his or her administration.

The Mayor shall, on or before February 15 of each year prepare and deliver to the Council the Mayor's Budget Message which shall include:

(a) A statement of the fiscal priorities which the City should adopt for the ensuing fiscal year; and

(b) Which City services, departments, offices or agencies the Mayor proposes to be expanded or reduced.

The Council shall hold a public hearing to consider the Mayor's Budget Message and to make any additions or revisions the Council deems advisable.

Upon close of the public hearing, the Council shall approve the Mayor's Budget Message as presented, or as revised.

SECTION 1906. Draft Budget.

At least forty-five (45) days prior to the beginning of each fiscal year, or at such earlier time as the Council may specify, the City Manager shall submit to the Mayor and to the Council a draft budget for the ensuing fiscal year, together with an accompanying report.

The draft budget shall provide a complete financial plan of all City funds and activities for the ensuing fiscal year and, except as required by law or this Charter,

shall be in such form as the Council may require or, in the absence of Council requirements, in such form as the City Manager deems desirable. It shall begin with a clear general summary of its contents; shall show in detail all estimated income, including the amount proposed to be raised by property taxation, estimated unencumbered balances of funds to be carried over from the preceding year, estimated unencumbered available reserves, and all proposed expenditures, including debt service, for the ensuing year. The total of proposed expenditures shall not exceed the total of estimated income, estimated unencumbered balances of funds to be carried over from the preceding year and unencumbered available reserves.

In addition to complying with the requirements of this section, the draft budget shall accurately reflect the recommendations and priorities specified in the Mayor's Budget Message as adopted by the Council.

The report of the City Manager accompanying the draft budget shall specify the budget allocations which implement each component included within the Mayor's Budget Message as adopted by the Council.

SECTION 1907. Mayor's Final Budget Modifications and Adoption of the Budget.

At least thirty (30) days prior to the new fiscal year, the Mayor shall submit to the Council the Mayor's Final Budget Modifications to the draft budget.

Following receipt of the Mayor's Final Budget Modifications, the Council shall proceed to consider the same together with the draft budget; but the Council shall not adopt a budget, either as proposed by the City Manager or as revised by the Mayor's Final Budget Modifications, until after the Council shall have held a public hearing in accordance with the provisions of this section.

Copies of the draft budget as submitted by the City Manager together with the Mayor's Final Budget Modifications and any revisions or changes as shall have been approved and recommended by the Council shall be filed and available for inspection by the public in the office of the City Clerk for at least ten (10) days prior to said hearing. The notice of hearing shall state the time and place of the hearing and the times and place where copies of the draft budget together with the Mayor's Final Budget Modifications and revisions or changes as shall have been approved and recommended by the Council will be available for public inspection.

Following the public hearing, the Council shall adopt the budget with such amendments, if any, as it may deem desirable. Such amendments may add or increase programs or amounts or may delete or decrease programs or amounts except expenditures required by law or for debt service, provided that no amendment to the budget shall increase proposed expenditures to an amount greater than the total estimated income plus unencumbered available reserves and estimated unencumbered balances of funds carried over from the preceding fiscal year.

SECTION 1908. Appropriations.

After adoption of the budget, the various amounts proposed for the operation of each of the offices, departments and agencies of the City during the budget year and for other purposes or objects named in the budget shall be deemed appropriated. The budget may be amended from time to time during the fiscal year.

In the event the Council shall fail to adopt the budget by the beginning of the fiscal year, the various amounts proposed in the draft budget shall be deemed appropriated until the Council adopts a budget for the fiscal year.

No part of any appropriation shall be transferred from one fund to another fund unless authorized by the City Council.

No member of the Council, officer, department or agency of the City, during any budget year, shall expend or incur any obligation to expend money for any class or category of expenditure not authorized by or in excess of the amounts appropriated in the budget.

Except as otherwise provided in this Charter or where the Council may have, by resolution, provided for the continuance of an appropriation beyond the end of the fiscal year, all appropriations approved by the City Council shall lapse at the end of the fiscal year to the extent they shall not have been expended or encumbered.

SECTION 1909. Control of Expenditures by City Manager.

The several items of expenditure appropriated each fiscal year being based on estimated receipts, income or revenues which may not be fully realized, it shall be incumbent upon the City Manager to establish a schedule of allotments, monthly or quarterly or as he or she may otherwise determine, under which the sums appropriated to the several departments, offices and agencies shall be expended. The City Manager shall revise revenue estimates from time to time, and may revise allotments at any time.

SECTION 1910. Annual Financial Statement.

At the conclusion of each fiscal year, a comprehensive Annual Financial Statement shall be prepared in sufficient detail to show the financial condition of the City's funds for the preceding year. Such Annual Financial Statement shall be prepared in accordance with generally accepted accounting principles.

SECTION 1911. Annual Audit.

As soon as practical after the close of the fiscal year, an Annual Audit shall be made of all accounts of the City. Such audit shall be made by a firm of certified public accountants selected by the City Council. The audit shall be made in accordance with generally accepted audit standards for audits of public agencies.

SECTION 1912. Council Salary Setting Commission.

There shall be, and there is hereby established, a Council Salary Setting Commission. The following provisions shall be applicable thereto:

(a) **Membership:** The Council Salary Setting Commission shall consist of five (5) members appointed by the Civil Service Commission. Members must be qualified electors of the City at all times during their term of office.

(b) Terms of Office: Except as provided herein below, the regular term of office of each member of the Council Salary Setting Commission shall be four (4) years. The initial members of the Council Salary Setting Commission shall be appointed by the Civil Service Commission during the month of June 2000. Two (2) of the members so appointed shall be appointed for a term expiring on December 31, 2002. Three (3) of the members so appointed shall be appointed for a term expiring on December 31, 2004. Commencing in December 2002, the Civil Service Commission shall, during the month of December of each even-numbered year, make appointments to fill the offices of the members whose terms are expiring at the end of such even-numbered years. Such appointments shall be for regular terms of four (4) years commencing on the first day of January of the following odd-numbered year and expiring on the thirty-first day of December of the second even-numbered year thereafter.

(c) Vacancies: The Civil Service Commission may remove a member from office at any time for misconduct, inefficiency or willful neglect in the performance of the duties of his or her office providing it first states in writing the reasons for such removal and gives such member an opportunity to be heard before the Civil Service Commission in his or her own defense. If a vacancy occurs before the expiration of a member's term, the Civil Service Commission shall appoint a qualified person to fill such vacancy for the remainder of the unexpired term of such member.

(d) Powers and Duties: The Council Salary Setting Commission shall biennially make recommendations respecting salaries for members of the Council, including the Mayor, as provided in Charter Section 410.

Article XXV of the Charter of the City of Stockton shall be amended by adding thereto SECTION 2542 which shall be as follows:

SECTION 2542. Appointments from Classified Service to Unclassified Service.

In the event an employee of the City, who holds a Classified Civil Service position is appointed to a position in the Unclassified Service, should subsequently be removed or resign from the Unclassified Service, he or she shall have the right, if he or she has not been guilty of conduct bringing discredit, as that term is presently or hereafter defined in Government Code Section 19572, upon the City, to be employed forthwith in a position consonant with his or her former classification in the Classified Service without loss of any rights or privileges and upon the same terms and conditions as if he or she had remained in said classification.

Article XXVII of the Charter of the City of Stockton shall be amended by adding thereto SECTION 2703 which shall be as follows:

SECTION 2703. Definitions.

Unless the provisions of the context otherwise require, as used in this Charter:

(a) "Shall" is mandatory and "may" is permissive;

(b) “City” is the City of Stockton and “department,” “board,” “commission,” “agency,” “officer,” or “employee” is a department, board, commission, agency, officer or employee, as the case may be, of the City of Stockton;

(c) “Council” is the Council of the City of Stockton;

(d) A “Councilmember” means any one of the members of the Council, excluding the Mayor;

(e) “County” is the County of San Joaquin;

(f) “State” is the State of California;

(g) “Newspaper of general circulation within the City” is defined by Section 6000 of the Government Code of the State of California;

(h) The masculine gender includes the feminine and neuter;

(i) “Council Appointees” are the City Manager, the City Attorney, the City Clerk, and the City Auditor;

(j) “Unclassified Service” are employees not subject to Civil Service;

(k) The terms “electors,” “qualified electors” and “voters” are voters duly registered and qualified to vote in the next municipal election of the City of Stockton.

Certified to be a true copy by Katherine Gong Meissner, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 9—City of Chula Vista

Amendments to the Charter of the City of Chula Vista

[Filed with the Secretary of State May 12, 2000.]

Section 302 is amended to read as follows:

Sec. 302. Compensation for Councilmembers.

The four Councilmembers shall receive, as compensation for their services, forty percent (40%) of the salary of the Mayor. They shall receive reimbursement on order of the City Council for Council-authorized travel and other expenses when on official duty of the City. In addition, each Councilmember shall receive the sum of fifty dollars (\$50.00) per month which amount shall be deemed to be reimbursement of other out-of-pocket expenditures and costs imposed in serving the office. The City Council may also provide, by resolution, for the payment to Councilmembers of an allowance of a sum certain per month to reimburse them for the additional demands and expenses made upon and incurred by them in serving as Councilmembers.

Section 304 is amended to read as follows:

Sec. 304. Presiding Officer, Mayor.

(a) Mayor. There shall be elected at the general municipal election a Mayor who shall hold office for a term of four years and until a successor is elected and qualified.

(b) Duties. The Mayor shall be a member of the City Council and shall perform all the functions and have all of the powers and rights of a duly elected Councilmember. In addition to said powers and duties, the Mayor shall have the power and duty:

(1) to report to the City Council annually and from time to time on the affairs of the City and to recommend for its consideration such matters as deemed expedient, and

(2) to be the official head of the City for all political and ceremonial purposes and to be recognized by the courts for the purpose of serving civil process, for the signing of all legal instruments and documents, and by the Governor for emergency purposes, and

(3) in the time of public danger or emergency, the Mayor, with the consent of the Council, and for such period as the Council may fix, to take command of the police, maintain order and enforce the law, and

(4) to assume the primary, but not the exclusive responsibility, for interpreting to the people the policies, programs and needs of the City government and for informing the people of any major change in policy or program. The Mayor may represent the City in any and all matters involving other governmental agencies, provided that no act, promise, commitment or agreement entered into or committed by the Mayor shall be binding upon the City of Chula Vista unless duly authorized or ratified by the City Council, and

(5) to represent the City in all regional public agencies which require an elected City official, unless otherwise determined by the City Council, and

(6) to supervise the operation of the Mayor/Council office and personnel assigned thereto, and

(7) to perform such other duties consistent with the office as may be prescribed by this Charter or delegated to the Mayor or imposed on the Mayor by the City Council if not inconsistent with the provisions of this Charter, and

(8) to exercise the full-time function as Mayor of the City during the usual business hours that the offices of the City are open, and such other hours and times as shall be necessary to discharge in full the duties imposed upon the Mayor.

(c) Compensation. The Mayor shall receive an annual salary of thirty-seven thousand two hundred dollars (\$37,200.00) per year and shall receive reimbursement on order of the Council for Council-authorized travel and other expenses when on official duty out of the City, and in addition, shall receive the sum of fifty dollars (\$50.00) per month, which amount shall be deemed to be reimbursement of other out-of-pocket expenditures. The City Council may also provide, by resolution, for the payment to the Mayor of an allowance of a sum certain per month, as reimbursement for the additional demands and expenses made upon and incurred by the Mayor.

The salary provided herein may be annually increased beyond said amount by a resolution of the City Council in an amount not to exceed the All Urban Consumers/All Items Components of the San Diego Metropolitan Area U (Broader

Base) Consumer Price Index, or beyond said increased amount, by a vote of the people.

(d) Mayor Pro Tempore. The City Council shall designate one of its members as Mayor Pro Tempore, who shall serve in such capacity at the pleasure of the City Council. The Mayor Pro Tempore shall perform the duties of the Mayor during the Mayor's absence or disability.

Certified to be a true copy by Shirley Horton, Mayor, and Susan Bigelow, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 10—City of Chula Vista

Amendments to the Charter of the City of Chula Vista

[Filed with the Secretary of State May 12, 2000.]

Section 1009 is amended to read as follows:

Sec. 1009. Contracts on Public Works.

In the construction, reconstruction, or repair of public buildings, streets, drains, sewers, parks, playgrounds and other public works, the furnishing of supplies, materials, equipment or contractual services for same shall be done by written contract approved as to form and legality by the City Attorney.

Every project involving an expenditure of fifty thousand dollars (\$50,000.00) or more for the construction, reconstruction, improvement or repair of public buildings, streets, drains, sewers, utilities, parks and playgrounds and other public works, and the furnishing of supplies, materials, equipment or contractual services for same shall be done by written contract except as otherwise provided in this chapter, and the Council, upon the recommendation of the City Manager, shall let said contract to the lowest responsible bidder after notice by publication in the official newspaper for sealed bids for the work contemplated by one or more insertions, the first of which shall be at least ten days before the time for opening bids. If the cost of said public works project is more than the sum of twenty-five thousand dollars (\$25,000.00) but less than fifty thousand dollars (\$50,000.00), the City Council may let said contract without advertising for bids after the City Manager or his designated agent has secured competitive prices from interested contractors; which shall be considered by the Council before said contract is let.

If the project involves the expenditure of twenty five thousand dollars (\$25,000.00) or less, the City Manager may cause such written contract to be let without advertising for bids. However, except in emergencies, the City Engineer or the Purchasing Agent shall obtain informal bids. The project shall be awarded to the lowest responsible bidder whose bid is determined to be, in all respects, most advantageous to the public interest. The City Engineer may solicit such bids personally, by telephone or by mail, and shall submit to the Purchasing Agent

and the City Manager a written account of the procedures used and the bids thus obtained. A copy of said informal bidding procedure shall be filed in the Office of the City Clerk as a public record.

The City Council may, however, declare and determine that, in its opinion, based upon estimates approved by and the recommendations of the City Manager, said projects may be excepted from the requirements of this section because the work in question may be performed better or more economically by the City with its own employees, and by a resolution to this effect, adopted by at least four affirmative votes of the Council, order the performance of any such construction, reconstruction, improvement or repair by appropriate City forces.

All bids of more than fifty thousand dollars (\$50,000.00) shall be accompanied by either a certified or cashier's check, or a bidder's bond executed by a corporate surety authorized to engage in such business in California, made payable to the City. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to therein, or if no amount be so specified, then in an amount not less than ten percent (10%) of the aggregate amount of the bid. If the successful bidder neglects or refuses to enter into the contract within the time specified in the notice inviting bids or specifications referred to therein, the amount of his bidder's security shall be declared forfeited to the City and shall be collected and paid into its general fund and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

The City Council shall be competent to award any contract by comparison of bids on the basis of several factors including timely completion. Such an award shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties, and provided, further, that for any contract awarded solely or partially on a specified time for completion, the Council shall not extend such time limits unless such extension be recommended by the City Manager and the head of the Department concerned.

The City Council may reject any and all bids presented and may readvertise in its discretion. The City Council may waive any defects in any bid to the extent it finds at a public hearing held for that purpose that it is necessary to do so for the benefit of the public.

Contracts may likewise be let without advertising for bids if such work shall be deemed by the City Council to be of urgent necessity for the preservation of life, health or property, and shall be authorized by resolution passed by at least four affirmative votes of the Council and containing a declaration of the facts constituting such urgency; provided, however, that nothing in this section shall prevent the City Manager from taking any and all means necessary to make emergency repairs in the event of immediate need arising from any calamity or disaster.

Notwithstanding any provisions of this Charter to the contrary, the City may employ a design-build process for the construction, reconstruction or repair of public works. A "design-build process" shall mean a process in which the design and construction of a project are procured from a single entity. Prior to employing

the design-build process, the City shall establish, by ordinance, specific procedures and standards to be used to solicit, qualify, evaluate and select design-build proposals by competitive bid or negotiation process.

Certified to be a true copy by Shirley Horton, Mayor, and Susan Bigelow, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 11—City of Santa Clara

Amendments to the Charter of the City of Santa Clara

[Filed with the Secretary of State May 10, 2000.]

1. City of Santa Clara City Charter Sections 600.1, 601, 700.1, 1306, 1306.5, 1307, 1308, 1315, 1316, 1700, 1701 and 1702 are repealed.

2. Section 700.2 is amended to read as set forth after paragraph 3, herein, and is renumbered as Section 700.1.

3. City of Santa Clara City Charter Sections 600, 600.01, 700, 701, 704, 704.1, 704.2, 704.3, 704.4, 705, 708, 709, 800, 801, 802, 803, 806, 807, 808, 812, 813, 900, 902, 904, 905, 906, 908, 911, 912, 1003, 1004, 1007, 1009, 1011, 1013, 1101, 1102, 1107, 1301, 1302, 1311, 1312, 1313, 1317, 1319 and 1800 are amended to read as follows:

Section 600 City elected officers.

No person shall be eligible to hold any elective office in the City including Mayor, City Council, Chief of Police Department and City Clerk, unless he or she is a resident and a qualified registered elector of the City.

The elective officers of the City shall consist of a City Council composed of seven members, the Chief of the Police Department and the City Clerk. The members of the City Council, (which includes the office of the Mayor), the Chief of the Police Department and the City Clerk shall be elected from the City at large at the times and in the manner provided in this Charter. Except as otherwise herein provided, a person elected to an office for other than an unexpired term, shall serve a term of four years, and shall serve until a successor is elected and qualified. The term shall commence on the date the City Council certifies the canvass of the election returns submitted to it by the County Registrar of Voters.

The person receiving the most votes cast for a particular City office shall be declared duly elected. Ties shall be broken as provided from time to time by ordinance.

The office of Mayor shall be separately voted upon and is a separate office. The person elected at any election to the office designated "Mayor" shall be deemed elected, both as a Mayor and as a member of the Council. Although the Mayor is a Council member, his or her election does not change the number of Council members from seven.

No person shall be a candidate for both Mayor and a City Council seat at the same election. However, an incumbent member of the City Council may run for the elective office of Mayor, and the Mayor may run for the separate office of Mayor or other City Council office. However, at no time shall a member of the Council, including the Mayor, hold more than one City elective office. Except as otherwise provided elsewhere in this Charter, no incumbent member of the City Council while serving in such office with an unexpired term of more than six months shall be a candidate for any numbered Council seat other than the one which he or she holds.

Section 600.01 Municipal elections.

Commencing with the year 2000, a regular election shall be held in the City of Santa Clara on the first Tuesday following the first Monday in November of even numbered years. The regular election shall be held for the election of each municipal elective officer whose term of office regularly expires at that time, and for such other purposes as the Council may prescribe. Each such regular election shall be known as the general municipal election of the City, and shall be in lieu of all others previously so called. All other municipal elections that may be called under the authority of this Charter, or the California Elections Code, shall be known as special elections.

Section 700 Term—Method of holding elections.

Except as specifically provided otherwise in this Charter with respect to City elections, the provisions of the State Elections Code, as amended from time to time, are hereby adopted. The City expressly reserves its rights with respect to the conduct of city elections pursuant to Section 5 of Article XI of the California Constitution. Any changes made by the City Council in the City elections procedure shall be by ordinance and shall not be in conflict with any other sections of this Charter.

There are hereby reserved to the electors of the City, the powers of the initiative and referendum and of the recall of municipal elective officers. No primary election shall be held for municipal officers. No error, omission or defect in the notice of elections shall be cause to invalidate any election held under the provisions of this Charter.

Section 700.1 Elections—Designation of seats.

For purposes of City Council elections, each Council office shall be designated by an appropriate descriptive designation, as follows: The Council seat which on the effective date of this Section is occupied by the Mayor shall continue to be designated as “Mayor”; each of the other six seats, respectively, shall be designated as “Council Member Seat No. 2”, “Council Member Seat No. 3”, “Council Member Seat No. 4”, “Council Member Seat No. 5”, “Council Member Seat No. 6” and “Council Member Seat No. 7” respectively, and shall continue to be designated by the respective designation. The designation so given to each such office shall thereafter be used in all election, nomination papers, certificates of election,

and other election papers pertaining or referring to such office, and to designate incumbency in such office.

Section 701 Term limits—Mayor and Council Members.

A member of the Council shall not serve more than two consecutive elective terms as such, and shall be ineligible for reelection or appointment to fill a vacancy in the Council until two years after such service. The office of elected Mayor, to be filled from the City at large, is a separate office from the Council and solely for the purpose of this term limit disqualification, is not a Council office nor the Council. Consequently, time served in such office of elected Mayor is not time served on the Council and time served on the Council is not time served in such office of elected Mayor.

Section 704 Presiding officer—Mayor.

The Mayor shall be the Presiding officer. The Mayor shall have a voice and vote in all its proceedings. He/she shall be the official head of the City for all ceremonial purposes. He/she shall perform such other duties as may be prescribed by this Charter or as may be imposed by the City Council consistent with his/her office.

Section 704.1 Mayor—Limitation of terms.

No person who has been elected to the office of Mayor for two successive four-year terms shall be eligible to run for election to the office of Mayor, nor to serve as such, for any additional successive term; but the above shall not disqualify any person from running for election to the office of Mayor, nor from further service as Mayor, for any term or terms which are not successive, nor for any parts of terms which are not successive.

Section 704.2 Mayor—Political position.

The Mayor shall be the political leader within the community by providing guidance and leadership to the City Council, by expressing and explaining to the community the City's policies and programs and by assisting the City Council in the informed, vigorous and effective exercise of its powers. Political leadership shall be concerned with the general development of the community and the general level of City services and activity programs.

Section 704.3 Mayor—Powers and duties.

The Mayor shall have the following powers and duties:

(a) The Mayor shall have the power to make recommendations to the City Council on matters of policy and programs which require City Council decision; provided, that if he/she recommends any increases in the City budget, he/she shall recommend the method of financing such expenditure; and provided, further, that if he/she proposes curtailment of service, such recommendations and his/her reason therefor shall be specific. He/she may also, on his/her own account, inform the community on matters of policy or program which he/she believes the welfare of the community make necessary.

(b) The Mayor shall preside at meetings of the City Council and shall have the vote as a member of the City Council. He/she shall have no veto power.

(c) The Mayor shall have authority to preserve order at all City Council meetings, to remove or cause the removal of any person from any meeting of the City Council for disorderly conduct, to enforce the rules of the City Council and to determine the order of business under the rules of the City Council.

(d) The Mayor shall exercise such other powers and perform such other duties as may be prescribed by the City Council, provided that the same are not inconsistent with this Charter.

Nothing in this section shall be construed in any way as an infringement or limitation on the powers and duties of the City Manager as Chief Administrative Officer and head of the administrative branch of the City government as prescribed in other sections of this Charter. Except as otherwise herein provided, the Mayor shall possess only such authority over the City Manager and the administrative branch as he/she possesses as one member of the City Council.

Section 704.4 Mayor—Vacancy.

The office of Mayor shall become and be deemed vacant immediately upon the incumbent ceasing to be a member of the City Council.

Section 705 Vice Mayor.

The City Council shall designate one of its members as Vice Mayor. The Vice Mayor shall perform the duties of the Mayor during his/her absence or disability. The Vice Mayor shall serve in such capacity at the pleasure of the City Council.

Section 708 Special meetings.

Special meetings may be called at any time by the Mayor, or by four members of the City Council pursuant to the provisions of the Brown Act, specifically Government Code Section 54956, as amended from time to time.

Section 709 Place of meeting.

All meetings of the City Council shall be held at the locations authorized by the Ralph M. Brown Act (commencing with Government Code Section 54950) as it now reads or is hereafter amended.

Section 800 Appointment.

A City Manager shall be chosen by the City Council on the basis of his/her executive and administrative qualifications. No City Council member shall receive such an appointment during the term for which he/she shall have been elected, nor within two years thereafter.

Section 801 Compensation.

The City Manager shall be paid a salary commensurate with his/her responsibilities as chief administrative officer of the City, which salary shall be established by ordinance or resolution.

Section 802 Powers and duties.

The City Manager shall be chief executive officer and the head of the administrative branch of the City government. He/she shall be responsible to the City Council for the proper administration of all affairs of the City and to that end, subject to the personnel provisions of this Charter, he/she shall have power and shall be required to:

(a) Appoint and remove, subject to the Civil Service provisions of this Charter, all officers and employees of the City, except as otherwise provided by this Charter, and except as he/she may authorize the head of a department or office to appoint and remove subordinates in such department or office. No person related to the City Manager by blood or by marriage shall be eligible for office or employment in the City.

(b) Prepare the budget annually and submit it to the City Council and be responsible for its administration after adoption.

(c) Manage the City-owned water and power departments in a business-like manner, charging equitable rates for the services furnished and building up the properties so as to conserve their value and increase their capacity as needed by the City.

(d) Prepare and submit to the City Council as of the end of the fiscal year a complete report on the finances and administrative activities of the City for the preceding year.

(e) Keep the City Council advised of the financial condition and future needs of the City and make such recommendations as may seem to him/her desirable.

(f) Make investigations into the affairs of this City, or any department or division thereof, or any contract, or the proper performance of any obligation to the City.

(g) Submit to the City Council at each meeting for its approval, the list of all claims and bills approved for payment by him/her.

(h) Perform such other duties as may be prescribed by this Charter or required by him/her by the City Council, not inconsistent with this Charter.

Section 803 Rules and regulations.

The City Manager may prescribe such general rules and regulations as he/she may deem necessary or expedient for the general conduct of the administrative offices and departments of the City under his/her jurisdiction.

Section 806 Removal of the City Manager.

The City Council shall appoint the City Manager for an indefinite term and may remove him/her by a majority vote of the entire Council. At least thirty (30) days before such removal shall become effective, the City Council shall by a majority vote of the entire Council, adopt a preliminary resolution stating the reasons for his/her removal. The City Manager may reply in writing and may request a public hearing, which shall be held not earlier than fifteen (15) days nor later than thirty (30) days after the filing of such request. After such public hearing, if one be requested, and after full consideration, the City Council by majority vote of the entire Council may adopt a final resolution of removal. By the preliminary resolutions, the City Council may suspend the City Manager from duty but shall in any case cause to be paid him/her forthwith any unpaid balance of his/her salary and his/her salary for the next calendar month following adoption of the preliminary resolution.

Section 807 Prohibition against Councilmanic interference.

Neither the City Council nor any of its members shall order or request the appointment of any person to an office or employment or his/her removal therefrom, by the City Manager, or by any of the department heads in the administrative service of the City. Except for the purpose of inquiry, the City Council and its members shall deal with the administrative service under the City Manager solely through the City Manager and neither the City Council nor any member shall give orders to any subordinates of the City Manager, either publicly or privately.

Any City Council Member violating the provisions of this section, or voting for a resolution or ordinance in violation of this section shall be guilty of a misdemeanor and, upon conviction, shall cease to be a Council Member.

Section 808 Ordinances.

The enacting clause of every ordinance shall be "Be it ordained by the City of Santa Clara as follows:" No ordinance shall be finally adopted by the Council on the day of its introduction, nor within five days thereafter, nor at any time other than a regular meeting, nor until its publication as required in Section 812. However, ordinances calling elections and ordinances carrying out the provisions of elections need not be published prior to adoption. In case an ordinance is amended before its final adoption and after its publication, it shall in like manner be republished as required in Chapter Section 812, at least one day before its adoption as amended; provided, however, that where such amendment is made for the correction of clerical errors or omissions of form only, then such ordinances need not be given a first reading or a republication as corrected.

Section 812 Publication of ordinances.

The City Clerk shall cause each ordinance to be published at least once, in an official newspaper at least three days before its adoption.

As an alternative to the publication of the complete text of the ordinance as specified hereinabove, the City Clerk shall cause each proposed ordinance to be posted at least three days prior to its adoption in three public places in the City. At least three days prior to the ordinance adoption, the City Clerk shall cause a single publication in an official newspaper to occur, setting forth the title of the ordinance, the date of its introduction, a summary of the ordinance, and a list of the public places where copies of the full text of the ordinance are posted or available.

Section 813 Codification of ordinances.

Any or all properly enacted and unrepealed ordinances of the City may be compiled, consolidated, revised and indexed, including such restatements and substantive changes as are necessary for clarity in a comprehensive City Code.

A City Code may be adopted by reference by the passage of an ordinance in the same manner as other ordinances of the City. The City Code itself need not be published in the manner required for other ordinances. Prior to its adoption, not less than three copies of the Code shall be filed in the City Clerk's Office, for examination by the public. After the Code has been adopted, ordinances may be

amendatory or revisory of the Code. Sections of the Code shall not be revised or amended by reference but readopted and published at length as revised or amended.

Section 900 Officers to be appointed by the City Council and by the City Manager.

In addition to the City Manager, the City Council shall appoint and affix the compensation for the City Attorney and City Auditor who shall serve at the pleasure of the City Council and may be removed by motion of the City Council adopted by at least four affirmative votes.

All other officers and department heads of the City shall be appointed by the City Manager and shall serve at the pleasure of the City Manager at compensation fixed by the City Council.

Section 902 Appointive officers; duties.

Each appointive officer shall perform the duties imposed upon him/her by this Charter, by ordinance, or resolution and, if under jurisdiction of the City Manager, shall perform such other duties relating to his/her office as may be required of him/her by the City Manager.

Section 904 Director of Finance.

There shall be a Department of Finance; the head of which shall be the Director of Finance, who as determined by the City Council, shall be, or be appointed by, the City Manager. The Director of Finance under the supervision of the City Manager shall have charge of the administration of the financial affairs of the City, including the financial affairs of the City-owned public utilities, and he/she shall have power and be required to:

- (a) Compile the budget expense and capital estimates for the City Manager.
- (b) Supervise and be responsible for the disbursement of all monies and have control over all expenditures which have been budgeted;
- (c) Maintain a general accounting system for the City government and of its offices, departments and agencies; keep books for, prescribe the financial forms to be used by and exercise financial budgetary control over each office, department or agency;
- (d) Submit to the City Council, through the City Manager, a monthly statement of all receipts and disbursements in sufficient detail to show the exact financial condition of the City.
- (e) Prepare for the City Manager, as of the end of each fiscal year, a complete financial statement and report.
- (f) Collect all taxes, special assessments, utility charges, license fees and other revenues of the City for whose collection the City is responsible except City taxes collected by the County and as provided in Section 1306, and receive all money receivable by the City from the State or Federal government, or from any court, or from any office, department or agency of the City;
- (g) Receive and have custody of all monies receivable by the City from any source;

(h) Deposit all monies received in such depositories as may be designated by resolution of the City Council or, if no resolution be adopted, by the City Manager, and in compliance with all the provisions of the State Constitution and laws of the State governing the handling, depositing and securing of public funds; and

(I) Have custody of all investments and invested funds of the City government, or in possession of such government in a fiduciary capacity, and have the safe-keeping of all bonds and notes of the City and the receipt and delivery of City bonds and notes for transfer, registration or exchange.

Section 905 City Engineer and Department of Public Works.

(a) City Engineer. The City Engineer shall be a Registered Professional Engineer in the State of California, and he/she shall have the power and be required to:

(1) Supervise and be responsible for all City engineering work, including the preparation of engineering maps, surveys, and designs.

(2) Perform such other duties as the City Council may from time to time prescribe, either by ordinance or resolution.

(3) On vacating the office, surrender to his/her successor all maps, plans, field notes and other records and memoranda belonging to the City and pertaining to his/her office and the work thereof.

(b) Director of Public Works and Utilities. The Director of Public Works and Utilities, who may be the City Engineer, shall, under the supervision of the City Manager, be in charge of the administration of such departments of the City, including engineering and utilities, as are or may be from time to time designated by the City Council.

Section 906 Chief of the Police Department.

The Chief of Police shall have power and be required to:

(a) Preserve the public peace;

(b) Execute and return all process issued to him/her by legal authority; and

(c) Exercise all the powers that are now or may hereafter be conferred upon sheriffs and other police officers by the laws of the State.

Section 908 City Attorney.

There shall be a City Attorney who shall have the power and be required to:

(a) Represent and advise the City Council and all City officers in all matters of law pertaining to their offices;

(b) Represent and appear for the City and any City officer or employee or former City officer or employee, in any or all actions and proceedings in which the City or any such officer or employee in or by reason of his/her official capacity, is concerned or is a party, but the City Council shall have control of all legal business and proceedings and may employ other attorneys to take charge of any litigation or matter or to assist the City Attorney therein;

(c) Attend all meetings of the City Council and give his/her advice or opinion in writing whenever requested to do so by the City Council, or by any of the boards or officers of the City;

(d) Approve the form of all bonds given to and all contracts made by the City, endorsing his/her approval thereon in writing;

(e) Prepare any and all proposed ordinances or resolutions for the City, and amendments thereto;

(f) Prosecute on behalf of the people all criminal cases for violation of this Charter and of City ordinances; and

(g) On vacating the office, surrender to his/her successor, all books, papers, files, and documents pertaining to the City's affairs.

To be eligible for appointment as City Attorney, the appointee shall have been admitted to practice as an attorney at law before the Supreme Court of the State of California, and shall have been engaged in the active practice of law for at least four years immediately prior to his/her appointment.

Section 911 Official bonds.

The City Council shall fix by ordinance the amounts and terms of the official bonds of all officials or employees who are required by this Charter or by ordinance to give such bonds. All bonds shall be executed by responsible corporate surety, shall be approved as to form by the City Attorney, and shall be filed with the City Clerk, except the City Clerk's bond which shall be filed with the City Manager. Premiums on official bonds shall be paid by the City.

In all cases wherein an officer or employee of the City is required to furnish a faithful performance bond, there shall be no personal liability upon, or right to recover against, his/her superior officer, or the bond of the latter, for any wrongful act or omission of the former, unless such superior officer was a party to, or conspired in, such wrongful act or omission.

Section 912 Oath of office.

Each member of the City Council, of every board and commission, and each officer and department head, before entering upon the discharge of the duties of his/her office shall take, subscribe to and file with the City Clerk the following oath of affirmation: "I do solemnly swear (or affirm) that I will support and defend the Constitution of the United States and the Constitution of the State of California against all enemies, foreign and domestic; that I will bear true faith and allegiance to the Constitution of the United States and the Constitution of the State of California; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties upon which I am about to enter."

Section 1003 Meetings; Chair.

As soon as practicable, following the first day of July of every year, each of such boards and commissions shall organize by electing one of its members to serve as presiding officer at the pleasure of such board or commission. Each board or commission shall hold regular meetings as required by ordinance of the City Council, and such special meetings as it may require. All proceedings shall be open to the public unless the nature of any proceeding is such that in the opinion of such board or commission the public interest would be best served by closing

a particular proceeding to the public, and the reasons therefor are declared in any action closing such proceeding. Upon conclusion of any such proceeding any final action which is to be taken by such board or commission, with respect to such proceedings, shall be taken in open meeting.

The affirmative or negative vote of a majority of the entire membership of such board or commission shall be necessary for it to take action. Each board or commission shall keep a record of its proceedings and transactions. Each board or commission may prescribe its own rules and regulations which shall be consistent with this Charter and copies of which shall be kept on file in the office of the City Clerk where they shall be available for public inspection. It shall have the same power as the City Council to compel the attendance of witnesses, to examine them under oath and to compel the production of evidence before it.

Section 1004 Compensation, vacancies.

The members of boards and commissions shall serve without compensation for their services as such, but may receive reimbursement for necessary traveling and other expenses when on official duty on order of the City Council.

Except as otherwise herein provided, any vacancies in any board or commission from whatever cause arising, shall be filled by appointment by the City Council. Upon a vacancy occurring leaving an unexpired portion of a term, any appointment to fill such vacancy shall be for the unexpired portion of such term. If a member of a board or commission absents himself/herself from three regular meetings of such board or commission, consecutively, unless with permission of such board or commission expressed in its official minutes, or is convicted of a crime involving moral turpitude, or ceases to be a qualified elector of the City, his/her office shall be vacant and shall be so declared by the City Council.

Section 1007 Planning Commission—Duties and powers.

The Planning Commission shall have power and be required to:

(a) After a public hearing thereon, recommend to the City Council the adoption, amendment, or repeal of the General Plan or any part thereof for the physical development of the city;

(b) Exercise such functions with respect to land subdivisions, planning, and zoning as may be prescribed by ordinance; and

(c) Exercise such planning, zoning, environmental or other function as now or may be hereafter authorized by the State of California in so far as they do not conflict with the provisions of this Charter.

Section 1009 Parks and Recreation Commission—Powers and duties.

The Parks and Recreation Commission shall have power and be required to:

(a) Act in advisory capacity to the City Council in all matters pertaining to parks, recreation, playgrounds and entertainment;

(b) Consider the annual budget of the Parks and Recreation Department during the process of its preparation and make recommendations with respect thereto to the City Manager and the City Council; and

(c) Assist in the planning and supervision of a recreation program for the inhabitants of the city, promote and stimulate public interest therein and to that end, solicit to the fullest extent possible the cooperation of school authorities and other public and private agencies interested therein.

Section 1011 Civil Service Commission—Powers and duties.

(a) The Civil Service Commission is charged with the duty of providing qualified persons for appointment to the service of the City. All appointments in the public service shall be made for the good of that service, and solely upon merit and fitness, as established by appropriate test, without regard to partisan politics, race, color or religious belief.

(b) Act as Board of Review to hear petitions by civil service employees, and applicants for civil service positions, and to grant or deny such petitions.

(c) Perform such other duties as may be required by the civil service rules and regulations.

Section 1013 Board of Library Trustees—Powers and duties.

The Board of Library Trustees shall have charge of the administration of the Santa Clara Free Public Library and shall have power and be required to:

(a) Make and enforce such by-laws, rules and regulations as it may deem necessary for the administration and protection of the City library;

(b) Approve or disapprove the appointment of a librarian who shall be the department head;

(c) Accept into the library fund and administer money, personal property or real estate donated to the City or otherwise acquired for library purposes subject to the approval of the City Council;

(d) Contract with school, county or other governmental agencies to render or receive library services or facilities, subject to the approval of the City Council.

Section 1101 Classified service.

The civil service of the City shall be divided into the unclassified and classified service.

(a) The unclassified service shall comprise the following offices and positions:

- (1) All elective officers;
- (2) City Manager;
- (3) City Attorney;
- (4) City Clerk;
- (5) City Auditor;

(6) The head of each department, including but not limited to, the Director of Finance, Director of Public Works and Utilities, City Engineer, Chief of the Police Department, Chief of the Fire Department;

(7) The Assistant City Manager, Assistant City Attorney, and Assistant Department Heads, whenever so designated by the City Council;

- (8) All members of boards and commissions;

(9) Persons employed for a temporary or special purpose, for a period not to exceed six months in any one calendar year, if the City Manager certifies that such employment is temporary and that the work shall not be performed by employees in the classified service;

(10) Persons employed to render professional, scientific, technical or expert service of an occasional and exceptional character;

(11) Volunteer members of the Fire Department and Police Reserve; and,

(12) The City Council by ordinance may divide or separate any department of the City into divisions and by ordinance may provide that the employee selected to be the head of any such division shall be in the unclassified service.

(b) The classified service shall comprise all positions not specifically included in this section in the unclassified service.

Section 1102 Appointments from classified to the unclassified service.

In the event an officer or employee of the City holding a position in the classified service is appointed to a position in the unclassified service, and should subsequently be removed therefrom, he/she shall revert to his/her former position in the classified service without loss of any rights or privileges and upon the same terms and conditions as if he/she had remained in said position continuously. Should such person be eligible for retirement under the retirement system at the time of such subsequent removal, upon recommendation of the City Manager, he/she shall be retired in lieu of being restored to his/her former position.

Section 1107 Prohibitions.

No person shall wilfully or corruptly make any false statement, certificate, mark, rating or report in regard to any application, test, certification, or appointment held or made under the personnel provision of this Charter or in any manner commit or attempt any fraud preventing the impartial execution of such personnel provisions or rules and regulations made hereunder.

Any person who by himself/herself or with others wilfully or corruptly violates any of the provisions of this Article shall be guilty of a misdemeanor and shall upon conviction thereof be punished by a fine of not more than one thousand dollars (\$1,000.00), or by imprisonment for a term not exceeding one year, or by both such fine and imprisonment. Any person convicted hereunder shall be ineligible for a period of five years for employment in the City service and shall, if he/she is an officer or employee of the City, immediately forfeit his/her office or position.

Section 1301 Annual budget; preparation by the City Manager.

At such date as he/she shall determine, the City Manager shall obtain from each office, department or agency of the City, estimates of revenue and expenditure for such office, department or agency, detailed in such manner as may be prescribed by the City Manager. In preparing the proposed budget, the City Manager shall review the estimates, shall hold conferences thereon with the head of such office, department or agency, respectively, and may revise the estimates as he/she may deem advisable.

Section 1302 Budget—Submission to City Council.

At least thirty-five (35) days prior to the beginning of each fiscal year, or at such prior date thereto determined by the City Council, the City Manager shall submit to the City Council the proposed budget as prepared by him/her. After reviewing the same and making such revisions as it may deem advisable, the City Council shall determine the time for the holding of a public hearing thereon and shall cause to be published a notice thereof not less than ten days prior to said hearing, by at least one insertion in an official newspaper.

Copies of the proposed budget shall be available for inspection by the public in the office of the City Clerk at least ten days prior to said hearing.

Section 1311 General fund.

The City Council shall maintain a General Fund for the purpose of accounting for the general government revenue and the expenditures of the various City departments resulting from the provision of general government services.

City Council shall maintain a General Contingency Reserve Fund. A reserve shall be built up in this fund from any available sources including any excess of revenues over expenditures in the General Fund during any fiscal year.

Council may establish reserve accounts in the General Contingency Reserve Fund as needed to segregate monies for particular purposes. Transfers may be made by the City Council from the General Contingency Reserve Fund to any other fund or funds, of such sum or sums as may be required for the purposes Council deems appropriate.

Section 1312 Capital project funds.

Capital Project funds shall be created and maintained as necessary to segregate and account for specific capital improvement project transactions and appropriations shall be included in the Capital Improvement Project Budget.

Section 1313 Department funds.

The City Council shall maintain separate accounting records for the collection of revenues and disbursement of expenditures that are related to specific functions as determined by federal, state, other agency laws or City Charter provisions and regulations or as determined by Council action. These specific functions include, but are not limited to: the various City utilities whose operations are funded by user charges; grant programs; and trust funds established by bequest. Separate funds or accounts shall be maintained such that proper reporting can be made at any time.

Section 1317 Actions against city.

No suit or action for money or damages, whether sounding in tort, contract or some other theory, may be brought against the City, or any board, commission, agency or officer, agent or employee thereof, until a claim has been filed with the City, and either the City acts on the claim or it is deemed denied by operation of law. The procedures prescribed by State law governing the presentations, consideration and enforcement of claims against cities and its officers, agents and employees shall apply to the presentation, consideration and enforcement of

claims against the City. Claims for money or damages which are excepted from or not covered by State law may be governed by the procedures established by City ordinance.

Section 1319 Independent audit.

The Council shall employ, at the beginning of each fiscal year, an independent certified public accountant who shall audit the books, records and accounts of all officers and employees of the City who receive, administer or disburse public funds, and such other officers, employees, departments and agencies as the Council may direct. Such audit shall be made at such times as may be prescribed by the City Council but shall be at least annually.

As soon as practicable after the end of the fiscal year, a final audit and report shall be submitted by such independent accountant to the Council, the City Manager and the City Attorney. Three (3) copies of the audit shall be placed on file in the City Clerk's office where they shall be available for public inspection.

Section 1800 Definitions.

Unless the provision or the context otherwise requires, as used in the Charter:

- (a) "Shall" is mandatory; and "may" is permissive.
- (b) "City" is the City of Santa Clara and "department," "board," "commission," "agency," or "employee," is a department, board, commission, agency, officer or employee as the case may be, of the City of Santa Clara.
- (c) The masculine and feminine gender include the neuter.

Section 701.1 is added to the Charter to read as follows:

Section 701.1 Qualifications for Chief of the Police Department.

Candidates for the office of Chief of Police shall meet the minimum eligibility and qualification requirements imposed by state law upon candidates for the office of Sheriff.

Section 702 is amended to read as follows:

Section 702 Compensation.

Commencing on July 1, 2000, each member of the City Council, other than the Mayor, shall receive as compensation the sum of six hundred dollars (\$600) per month. The Mayor shall receive as compensation the sum of one thousand dollars (\$1,000) per month.

Commencing on July 1, 2001, and annually on July 1 thereafter, the compensation of the Council and Mayor shall increase by a percentage equal to the percentage increase in the preceding calendar year's annual average of the Consumer Price Index as determined by the United States Department of Labor, Bureau of Consumers (CPI-U), San Francisco, Oakland, San Jose subgroup—all items, or successor index. However, the compensation increase shall in no event exceed five percent (5%) per year. The CPI base index year for the adjustment shall be calendar year 1999.

If a member of the City Council, including the Mayor, does not attend all meetings of the City Council or study sessions called on order of the City Council and held during the month, the compensation to him/her for such month shall

be reduced by the sum of twenty-five dollars (\$25.00) for each meeting or study session not attended unless he/she is absent with the consent of or on order of the City Council.

Absence from five consecutive regular meetings, unless excused by resolution of the City Council, shall operate to vacate the seat of any member of the City Council so absent.

Certified to be a true copy by Judy Nadler, Mayor, and J.E. Boccignone, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 12—City of Pasadena

Amendments to the Charter of the City of Pasadena

[Filed with the Secretary of State December 5, 2000.]

The Charter of the City of Pasadena is amended as follows: Article VII, Board of Education, is amended by revising Section 701 and by adding a new Section 710; Article XV, The Fire and Police Retirement System, is amended by revising Sections 1502, 1506, and by repealing Section 1509.13. The above-referenced sections, as ratified by the People on November 7, 2000, read as follows:

Section 701. ESTABLISHMENT OF A BOARD OF EDUCATION. The control, management and administration of the public elementary and secondary schools of the City of Pasadena and such territory that is now or may hereafter be annexed thereto for school purposes, in accordance with the Constitution and general laws of the State of California, is hereby vested in a Board of Education consisting of seven members holding offices 1, 2, 3, 4, 5, 6 and 7 respectively. The initial election for offices 6 and 7 shall occur in 2001, along with the election for offices 1, 3 and 5, and the initial term of office 6 shall be two years. The Board of Education is hereby vested with all the powers and charged with all the duties provided under state law for city boards of education.

Section 710. ANNUAL ADDRESS BY PRESIDENT OF THE BOARD OF EDUCATION. In September of each year, the President of the Board of Education shall address the public on the state of the Pasadena Unified School District to articulate its goals and objectives for the school year and to report to the people on the progress of the District in achieving its prior goals and objectives, including the financial state of the schools.

Section 1502. RETIREMENT BOARD. The Retirement System shall be managed by a Retirement Board hereby created, which shall be the successor to and have the powers and duties of the Fire and Police Pension Board of the City of Pasadena, heretofore created and effective and now by this Article superseded by the Retirement Board. The Retirement Board shall consist of one member of the legislative body of the city to be selected by and to serve at the pleasure of the

said legislative body, two qualified electors of the City of Pasadena not connected with the government thereof, to be appointed by the legislative body, and two members elected under the supervision of the Retirement Board from the active or retired members of the Retirement System. One of such two members shall be a member or retiree of the Fire Department and one a member or retiree of the Police Department, and the election of each of such two members shall be confined to the group from which the member must be chosen. The term of office of the four members, other than the member appointed from the legislative body of the City, shall be four years, one term expiring each year, provided that immediately after the election of the two members from the Fire and Police Departments, they shall draw lots for terms of one, two, three and four years respectively. The members of the Retirement Board shall serve without compensation. The Retirement Board shall appoint a secretary to hold office at its pleasure, and when necessary employ a consulting actuary.

The Retirement Board shall have the sole power and authority under such general ordinances as may be adopted by the legislative body to hear and determine all facts pertaining to applications for and awards of any benefits under the Retirement System, or any matters pertaining to the administration thereof. Said Retirement Board shall have exclusive control of the administration and investment of such fund or funds as may be established and all investments shall be subject to the same terms, limitations and restrictions as are imposed by the Constitution and laws of the State upon the investment of the Public Employees' Retirement System Funds, as now enacted or hereafter amended.

Disbursement of retirement funds shall be made upon demands duly audited in the manner prescribed in this Charter for disbursement of public funds. The City Treasurer shall be the custodian of any such retirement funds, subject to the control of the Retirement Board as to the administration and investment of said funds.

Section 1506. POST RETIREMENT SERVICE WITHOUT LOSS OF BENEFITS OR REINSTATEMENT. A retired person may serve without reinstatement from retirement or loss or interruption of benefits provided by this system as follows:

- (A) As a member of the Fire and Police Retirement Board; or
- (B) Upon employment by the City to a position of a limited duration and requiring specialized skills or during an emergency to prevent stoppage of public business. Such an appointment shall not exceed a total of 960 hours in any calendar year; or
- (C) Upon appointment to a volunteer position as a member of a City commission, board or committee, or election to a City office.

Section 1509.13 SERVICE RETIREMENT; COMPULSORY AT AGE 60.

Section 1509.13 is repealed.

Certified to be a true copy by Bill Bogaard, Mayor, and Jane L. Rodriguez, City Clerk.

Date of Municipal Election: November 7, 2000.

Charter Chapter 13—City of Oakland

Amendment to the Charter of the City of Oakland

[Filed with the Secretary of State December 13, 2000.]

Article II is amended at Sections 205 and 206 to read:

Section 205. Vacancies, Filling Of. All vacancies occurring in the office of Councilmember shall be filled by special election within 120 days of a vacancy. An extension of up to 60 days may be allowed for the express purpose of consolidating the special election with the next Municipal Election.

The candidate receiving the highest number of votes at the special election shall be declared the winner and thereafter sworn into office as soon as legally possible.

Whenever the period of vacancy in a Councilmember's term of office equals or exceeds 120 days the vacancy may be temporarily filled by appointment through a majority vote of the remaining Councilmembers provided the appointee is not a candidate for the office which created the vacancy and provided the appointment does not exceed 128 days or go beyond the date the new incumbent is sworn in, whichever is shortest.

Alternative legal voting procedures shall be used to the greatest extent feasible to increase voter participation in special elections including but not limited to mail ballot voting, electronic voting, preference voting and extended voting period.

Section 206. Vacancy, What Constitutes. An office of Councilmember shall be declared vacant by the Council when the person elected or appointed thereto fails to qualify within ten days after his term is to begin, dies, resigns, ceases to be a resident of the City or of the district from which he was nominated, absents himself continuously from the City for a period of more than thirty days without permission from the Council, absents himself from any ten consecutive regular meetings except on account of his illness or when absent from City by permission of the Council, is convicted of a felony, is judicially determined to be an incompetent, is permanently disabled as to be unable to perform the duties of his office, forfeits his office under any provision of this Charter, or is removed from office by judicial procedure. A finding of disability shall require the affirmative vote of at least six members of the Council after considering competent medical evidence bearing on the physical or mental capability of the Councilmember.

When a Councilmember successfully runs for another office for which the Councilmember will take office prior to the end of the Councilmember's term, the Councilmember's office shall be declared vacant on the date final election results are declared for the new office.

Certified to be a true copy by Ignacio De La Fuente, President of the City Council, and Ceda Floyd, City Clerk.

Date of Municipal Election: March 7, 2000.

Charter Chapter 14—City of Santa Maria

Charter of the City of Santa Maria

[Filed with the Secretary of State December 12, 2000.]

PREAMBLE

We, the people of the City of Santa Maria, declare our intent to restore our community to the historic principles of self-governance inherent in the doctrine of home-rule. We are sincerely committed to the belief that local government has the closest affinity to the people governed, and firm in the conviction that the economic and fiscal independence of our local government will promote the health, safety, and welfare of all the citizens of this City. We do hereby exercise the express right granted by the Constitution of the State of California to enact and adopt this Charter for the City of Santa Maria.

ARTICLE I. MUNICIPAL AFFAIRS

Section 100. Municipal Affairs.

The City shall have full power and authority to adopt, make, exercise, and enforce all legislation, laws, and regulations and to take all actions relating to municipal affairs which may be lawfully adopted, made, exercised, taken or enforced under the Constitution of the State of California. Without limiting in any manner the foregoing power and authority, each of the powers, rights, and responsibilities described in this Charter is hereby declared to be a municipal affair, the performance of which is unique to the benefit and welfare of the citizens of the City of Santa Maria.

ARTICLE II. GENERAL LAWS

Section 200. General Law Powers.

In addition to the power and authority granted by the terms of this Charter and the Constitution of the State of California, the City shall have the power and authority to adopt, make, exercise and enforce all legislation, laws and regulations and to take all actions and to exercise any and all rights, powers, and privileges heretofore or hereafter established, granted or prescribed by any law of the State of California or by any other lawful authority. In the event of any conflict between the provisions of this Charter and the provisions of the general laws of the State of California, the provisions of this Charter shall control.

ARTICLE III. AMENDMENTS

Section 300. Amendment to Charter, Revised or Repealed.

This Charter, and any of its provisions, may be amended by a majority vote of its electors voting on the question. Amendment or repeal may be proposed by initiative or by the governing body.

ARTICLE IV. INTERPRETATION

Section 400. Construction and Interpretation.

The language contained in this Charter is intended to be permissive rather than exclusive or limiting and shall be liberally and broadly construed in favor of the exercise by the City of its power to govern with respect to any matter which is a municipal affair.

Section 401. Severability.

If any provision of this Charter should be held by a court of competent jurisdiction to be invalid, void, or otherwise unenforceable, the remaining provisions shall remain enforceable to the fullest extent permitted by law.

ARTICLE V. REVENUE RETENTION

Section 500. Reductions Prohibited.

Any revenues accrued to and/or collected by the City shall not be subject to subtraction, retention, attachment, withdrawal or any other form of involuntary reduction by any other level of government.

Section 501. Mandates Limited.

No person, whether elected or appointed, acting on behalf of the City, shall be required to perform any function which is mandated by any other level of government, unless and until funds sufficient for the performance of such function are provided by said mandating authority.

ARTICLE VI. COST SAVINGS AND EFFICIENCIES

Section 600. Public Works Contracts.

The City shall have the power to establish standards, procedures, rules or regulations to regulate all aspects of the bidding, award and performance of any public works contract, including, but not limited to, the compensation rates to be paid for the performance of such work, and the establishment of local preferences.

Section 601. Purchasing.

The City shall have the power to establish standards, procedures, rules, or regulations related to the purchasing of goods, property, or services, including, but not limited to, the establishment of local preferences.

Section 602. Public Financing.

The City shall have the power to establish standards, procedures, rules, or regulations related to any public financing.

Section 603. Utility Franchises.

The City shall have the power to adopt ordinances providing for the acquisition, development, or operation by the City of any utility, or any ordinance providing for the granting of a franchise, license, permit, or easements to any utility which proposes to use or is using City streets, highways, or other rights-of-way.

Certified to be a true copy by Donald E. Lahr, Mayor, and Stephanie Swarner, City Clerk.

Date of Municipal Election: November 7, 2000.

Charter Chapter 15—City of Newport Beach

Amendment to the Charter of the City of Newport Beach

[Filed with the Secretary of State December 15, 2000.]

Section 423 is added to read:

Section 423. Protection from Traffic and Density. Voter approval is required for any major amendment to the Newport Beach General Plan. A “major amendment” is one that significantly increases the maximum amount of traffic that allowed uses could generate, or significantly increases allowed density or intensity. “Significantly increases” means over 100 peak hour trips (traffic), or over 100 dwelling units (density), or over 40,000 square feet of floor area (intensity); these thresholds shall apply to the total of: 1) Increases resulting from the amendment itself, plus 2) Eighty percent of the increases resulting from other amendments affecting the same neighborhood and adopted within the preceding ten years. “Other amendments” does not include those approved by the voters. “Neighborhood” shall mean a Statistical Area as shown in the Land Use Element of the General Plan, page 89, in effect from 1988 to 1998, and new Statistical Areas created from time to time for land subsequently annexed to the City.

“Voter approval is required” means that the amendment shall not take effect unless it has been submitted to the voters and approved by a majority of those voting on it. Any such amendment shall be submitted to a public vote as a separate and distinct ballot measure notwithstanding its approval by the city council at the same time as one or more other amendments to the City’s General Plan. The city council shall set any election required by this Section for the municipal election next following city council approval of the amendment, or, by mutual agreement with the applicant for the amendment, may call a special election for this purpose with the cost of the special election shared by the applicant and the City as they may agree. In any election required by this Section, the ballot measure shall be worded such that a YES vote approves the amendment and a NO vote rejects the amendment; any such election in which the ballot measure is not so worded shall be void and shall have no effect.

This section shall not apply if state or federal law precludes a vote of the voters on the amendment.

Certified to be a true copy by John E. Noyes, Mayor, and LaVonne M. Harkless, City Clerk.

Date of Municipal Election: November 7, 2000.

Charter Chapter 16—City of Roseville

Amendments to the Charter of the City of Roseville

[Filed with the Secretary of State December 28, 2000.]

Section 1.05 of Article I is reserved.

Sec. 1.05. Reserved.

Section 2.02 of Article II is amended to read as follows:

Sec. 2.02. Elective officers.

The electors of the city shall elect a council of five (5) members, at large, for a four (4) year term of office. The council shall constitute the legislative and governing body of the city and shall have authority, except as otherwise provided in this charter, to exercise all powers of the city, and to adopt such ordinances and resolutions as may be proper in the exercise thereof. Two (2) and three (3) council members shall be elected alternately at the General Municipal Election each even-numbered year. No council member shall serve more than two (2) consecutive four (4) year terms, commencing as of a date subsequent to April 9, 1974.

Section 2.03 of Article II is amended to read as follows:

Sec. 2.03. Assumption of office by, meeting of council, and seating of mayor and mayor pro tempore.

The council shall assume office, subject to the qualifying provisions of this charter, from and after twelve o'clock noon on the second Monday next succeeding the day of their election. The council shall hold its first meeting at that time. The council member who received the highest number of votes in the latest election shall be seated as mayor pro tempore. The mayor pro tempore's term of office shall commence upon his or her assumption of office and continue until the election, qualification and assumption of office of his or her successor following the next general municipal election. Upon the termination of a council member's term of office as mayor pro tempore, he or she shall be seated as mayor. The mayor's term of office shall commence upon his or her assumption of office and continue until the assumption of his or her successor following the next general municipal election.

Section 2.06 of Article II is amended to read as follows:

Sec. 2.06. City attorney.

The council shall select a city attorney to serve at its pleasure. The pleasure of the council in selecting or discharging the city attorney shall be exercised by at least three affirmative votes. The city attorney shall be selected on the basis of his training, experience and other administrative qualifications for the office, without regard to his political or religious preferences or his place of residence at the time of his selection. The attorney shall act as legal advisor to and counsel for the council and manager in matters relating to their official duties. The attorney shall represent the city in litigations in which the city is interested; shall provide written legal opinion on official matters when requested by the council or manager; shall review for legal correctness contracts, bonds, franchises and other instruments in

which the city is concerned, and perform such other duties as may be prescribed by ordinance, by administrative code, or otherwise by law. The attorney may appoint and remove deputy or assistant attorneys, which deputies and assistants shall serve at the attorney's pleasure, provided that recruitment of such attorneys shall be through the merit system.

Section 2.07 of Article II is amended to read as follows:

Sec. 2.07. City manager.

The council shall select a chief administrative officer of the city government who shall be entitled city manager, and who shall serve at the pleasure of the council. The pleasure of the council in selecting or discharging the city manager shall be exercised by at least three affirmative votes. If a vacancy occurs in this position, the council shall select a manager within a reasonable amount of time. The manager shall be selected on the basis of his training, experience and other administrative qualifications for the office, without regard to his political or religious preferences or his place of residence at the time of selection. No councilmember shall be eligible for the position of manager within two (2) years after the expiration of his latest councilmanic term.

Section 2.08 of Article II is amended to read as follows:

Sec. 2.08. Temporary manager or attorney.

The council may designate a qualified administrative officer of the city to assume the duties and authority of manager in circumstances in which the manager will be absent from the city or it is anticipated that the manager will be disabled for a period of three months or more. The manager shall appoint an acting manager in those cases where the manager will be absent from the city or it is anticipated that the manager will be disabled for a shorter period than three months.

The council may designate a qualified attorney at law to assume the duties and authority of the city attorney in circumstances in which the city attorney will be absent from the city or it is anticipated that the city attorney will be disabled for a period of three months or more. The city attorney shall appoint an acting city attorney in those cases where the city attorney will be absent from the city or it is anticipated that the city attorney will be disabled for a shorter period than three months.

Section 2.12 of Article II is amended to read as follows:

Sec. 2.12. Treasurer.

The city treasurer shall have such duties as may be prescribed by the manager and shall be responsible for the custody of all moneys and evidences of value belonging to the city, or held in trust by the city. He shall receive and give a receipt for all money due the city including that which may be collected by other city officials or employees. He shall keep, deposit and disburse all city funds in accordance with law. He shall have such powers and duties in regard to the collection, custody, and disbursements of funds belonging to other political subdivisions of the state as may be conferred upon him by law. The council may contract for the provision of some or all of the foregoing services by third parties.

Section 2.13 of Article II is amended to read as follows:

Sec. 2.13. Clerk.

The city clerk shall be responsible to and have such duties as may be prescribed by the manager and shall attend and keep a permanent journal of proceedings at all meetings of the council. He shall record and certify all council ordinances and resolutions. He shall be custodian of the city seal and official city records, the custody of which is not otherwise provided for by council, ordinance, or administrative order of the manager. He shall be the chief elections official of the city in all elections, including consolidated elections and shall prescribe and may furnish the forms for all petitions provided for by this charter. He shall have the power to administer oaths of office.

Section 2.14 of Article II is amended to read as follows:

Sec. 2.14. Boards and commissions.

The council shall by ordinance create a planning commission and a library board, and may create or may abolish such other boards and commissions with respect to specific municipal functions as it may deem necessary. The council shall in each case prescribe the number, manner of appointment, length of term, and duties of members of such boards and commissions who shall serve without compensation but may be reimbursed for necessary expenses incurred in the performance of their official duties. In all cases, except that of the Personnel Board, the council shall provide for an appeal by any interested or aggrieved person from the decision of any board or commission to the council. The council's decision shall be final. All members of such boards and commissions shall be residents of the City at the time of their appointment and during their term of office. Boards and commissions existing at the time this charter is approved by the legislature shall continue to serve until action is taken by the council as provided for in this charter.

Section 2.15 of Article II is amended to read as follows:

Sec. 2.15. Administrative organization.

Within the framework established by this charter, the administrative organization of the city shall be set forth in administrative directives which shall be developed by the manager. Administrative offices may be created or eliminated by the council only upon recommendation by the manager.

Section 3.04 of Article III is amended to read as follows:

Sec. 3.04. Financial interests prohibited.

City officers shall not be financially interested in any contract made by them in their official capacity, or by any body or board of which they are members; and shall not be purchasers at any sale, or vendors at any purchase, made by them in their official capacity. It is the intent of the foregoing to incorporate by reference, as though set forth in full herein, the provisions of Article 4 of Title 1, commencing with Section 1090 of the California Government Code.

Section 3.05 of Article III is amended to read as follows:

Sec. 3.05. Compensation of council members and mayor.

a. The City Council may enact an ordinance providing that each member of the City Council shall receive a salary, the amount of which shall be determined by the following schedule:

1. If the City's population is between 50,000, and 75,000 persons, inclusive, the salary shall be five hundred dollars (\$500) per month for each council member, and the mayor shall receive an additional amount of fifty dollars (\$50) per month.

2. If the City's population exceeds 75,000 persons, the salary shall be six hundred dollars (\$600) per month for each councilmember and the mayor shall receive an additional fifty dollars (\$50) per month.

b. Council members may, upon order of the City Council, be reimbursed for reasonable and necessary expenses actually incurred in the service of the City.

Section 3.07 of Article III is reserved.

Sec. 3.07. Reserved.

Section 3.09 of Article III is amended to read as follows:

Sec. 3.09. Councilmanic vacancies.

The provisions of Section 1770 of the Government Code of the State of California as they now exist or may hereafter be amended shall govern the existence of a vacancy. Any vacancy on the council shall be filled by a majority vote of the remaining councilmen within thirty days after the vacancy occurs. If the council fails, for any reason, to fill such vacancy within said thirty-day period, it shall forthwith call an election for the earliest possible date to fill such vacancy. A person appointed by the council to fill a vacancy shall hold office until the general municipal election and until his successor qualifies. The candidates receiving the most votes shall serve the longer, if any, of the unexpired terms, and in case of ties, the terms shall be fixed by lot. A councilman elected to fill a vacancy shall hold office for the remainder of the unexpired term.

Section 4.02 of Article IV is amended to read as follows:

Sec. 4.02. Special meetings.

Special meetings may be called by the clerk on the written request of the mayor or any three councilmen by providing each councilman with twenty-four hours' written notice served personally or left at his usual place of residence. Business transacted at any special meeting shall be limited to the subjects recited in the notice of such meeting.

Section 4.03 of Article IV is amended to read as follows:

Sec. 4.03. Meetings to be public.

Except for closed sessions permitted by general state law, all council meetings shall be open to the public and citizens shall have a reasonable opportunity to be heard.

Section 4.06 of Article IV is amended to read as follows:

Sec. 4.06. Council rules.

The council shall determine its own rules and order of business subject to the following provisions. There shall be a journal of proceedings or minutes of all council meetings approved by the council and signed by the mayor and clerk

and to which the public shall have access at all reasonable times. Within seven (7) days after any regular or special council meeting, a synopsis of the actions taken by the city council at the meeting shall be posted on a bulletin board in the city hall, and within thirty (30) days after any regular or special council meeting, minutes of the meeting shall be prepared by the Clerk and presented to the City Council for its approval.

A vote upon all ordinances and resolutions shall be taken individually by an affirmative and negative vote and entered upon the journal, except that where the vote is unanimous it shall be necessary only to so state.

Section 5.02 of Article V is amended to read as follows:

Sec. 5.02. Enactment, amendment and repeal of ordinances.

Ordinances may be enacted, amended or repealed by the affirmative vote of not less than three (3) councilmembers, except that when an ordinance is given immediate effect, Section 5.03 of this charter shall govern. Unless by the affirmative vote of not less than three (3) councilmembers, no office shall be created or abolished, no tax or assessment be imposed, no street, alley or public ground be vacated, no real estate or any interest therein be sold or disposed of, nor any vote of the council be reconsidered or rescinded nor any money appropriated except as otherwise provided by this charter. Except in the case of ordinances which are declared to be urgency ordinances, no ordinance shall be finally passed by the council until two (2) weeks after the meeting at which the ordinance is introduced. Introduction of an ordinance shall require the affirmative vote of not less than three (3) councilmembers. At least the title and a summary of the ordinance as introduced shall be published in a newspaper of general circulation in the city at least one week before the final passage, either separately or as part of any published proceedings of the council. No ordinance shall be amended by reference to its number and title only, but the section or sections of the ordinance amended shall be re-enacted and shall be either published or posted as provided in Section 5.04 of this charter. An ordinance may be repealed in total by reference to its number and title only and publication of the action may be similarly limited.

Section 5.07 of Article V is reserved.

Sec. 5.07. Reserved.

Section 5.10 of Article V is reserved.

Sec. 5.10. Reserved.

Section 6.02 of Article VI is amended to read as follows:

Sec. 6.02. Procedure for holding elections.

Unless otherwise provided by ordinances hereafter enacted or this Charter, all elections shall be held in accordance with the provisions of the Elections Code of the State of California, as the same now exist or may hereafter be amended, for the holding of elections in cities, insofar as the same are not in conflict with this charter. The City Clerk shall be the chief elections official of the city in all elections, including consolidated elections. Any local or special election may be conducted by mail, provided that all of the following conditions are met:

- (a) The City Council authorizes the use of mail ballots for the election.
- (b) The election does not occur on the same date as a statewide direct primary election or statewide general election.
- (c) The election is not a special election to fill a vacancy in a statewide office or the office of Representative in the United States Congress, State Senator, or Member of the Assembly.
- (d) At least one polling place for the election shall be provided, the location of which shall be determined by the City Clerk.

Section 7.02 of Article VII is amended to read as follows:

Sec. 7.02. Budget Procedure.

The manager shall prepare and shall recommend a budget for the ensuing fiscal year to the council on or before the first regular meeting in June. The budget document shall present a comprehensive financial plan for the ensuing fiscal year, including at least the following information:

A. Statements of the bonded and other indebtedness of the city, including the debt redemption and interest requirements, the debt authorized and unissued, and the condition of sinking funds.

B. Estimates of all proposed expenditures for each department and office of the city, showing in addition the expenditures for the last preceding fiscal year, appropriations and anticipated expenditures for the current fiscal year, and reasons for recommended departures from the current expenditure pattern.

C. Detailed estimates of all anticipated revenue sources of the city, with a comparative statement of the amounts received by the city from each of such sources for the last preceding fiscal year and the amounts expected to be received for the current fiscal year.

D. A statement of the estimated balance or deficit, as of the end of the current fiscal year, for all funds.

E. Such other supporting schedules as the council may request or are otherwise required by law.

Section 7.03 of Article VII is amended to read as follows:

Sec. 7.03. Budget review; hearings and adoption.

After review of the budget recommended by the manager, the council shall make such revisions as it may deem advisable at a noticed public meeting and shall set the time for holding a public hearing thereon. Not less than ten (10) days prior to said public hearing, the council shall cause to be published a notice thereof in a newspaper of general circulation in the city. Copies of the proposed budget shall be available for public inspection in the office of the clerk for a period of at least ten (10) days prior to said hearing.

Section 7.06 of Article VII is amended to read as follows:

Sec. 7.06. Appropriations; transfers.

From the effective date of the budget, the several amounts stated therein as proposed expenditures shall be and become appropriated to the several departments, offices and agencies for the respective objects and purposes therein named. All

appropriations shall lapse at the end of the fiscal year to the extent that they shall not have been expended or lawfully encumbered, except as provided later in this section and in Section 7.08.

No money shall be drawn from the city treasury nor shall any obligation for the expenditure of money incurred, except pursuant to the budget appropriation. The council may, by ordinance adopted by the affirmative vote of at least three (3) members, transfer any unencumbered appropriation balance or any portion thereof, from one department, fund or agency to another, or appropriate available revenue not included in the budget.

Section 7.07 of Article VII is reserved.

Sec. 7.07. Reserved.

Section 7.075 of Article VII is amended to read as follows:

Sec. 7.075. Utility reserve fund.

The Council shall annually set aside from the income of each of its revenue producing public utilities the following amounts and in the following order, to wit: First: An amount fully sufficient for the payment of principal, interest, reserve fund and sinking fund requirements of any revenue bonds or general obligation bonds secured in whole or in part from such utility revenues, the proceeds of which bonds have been applied to the acquisition, construction or completion of such public utilities. Second: An amount sufficient to pay or provide for the payment of maintenance and operation of such public utilities, including a reserve for maintenance and operation.

Thereafter the City Council may set aside an amount, from any surplus moneys remaining, to create and maintain a separate utility reserve fund for each public utility. The amount to be set aside in such separate utility reserve fund shall not exceed a sum which, according to the estimate of the City Manager and approved by the Council, shall be sufficient to meet normal depreciation of such public utility. Such utility reserve funds, if established, shall be used for the replacement, betterment and extension of each of said public utilities and, in addition, may be used for the payment of the principal of and interest on, or retirement prior to maturity of, any revenue bonds of the City or any general obligation bonds secured in whole or in part from such public utility revenues, the proceeds of which bonds have been applied to the acquisition, construction or completion of any such utility, if and to the extent that other funds are not then available for such payment.

Section 7.095 of Article VII is amended to read as follows:

Sec. 7.095. Utility User's Tax.

The provisions contained in Chapter 4.32 of the Roseville Municipal Code, relating to the Utility User's Tax, are hereby ratified and are incorporated herein as of the date of voter approval hereof. All Utility Users Tax Revenue received shall be budgeted and appropriated solely for police, fire, parks and recreation or library services.

Section 7.12 of Article VII is amended to read as follows:

Sec. 7.12. Advertisement and sale of bonds.

All bonds to be sold by the city and payable from the city's general fund or any of its enterprise funds shall be advertised for sale at least once in a newspaper of general circulation in the city and in such financial journals as may be deemed necessary to stimulate competitive bidding, at least fifteen (15) days before the bond sale in the manner required by state law. The provisions of this section shall not be interpreted to require public bidding in the event such bonds are sold to a public financing authority.

Section 7.24 of Article VII is amended to read as follows:

Sec. 7.24. Approval of contracts by attorney.

All contracts shall be approved as to legal form by the city attorney.

Section 8.01 of Article VIII is amended to read as follows:

Sec. 8.01. Personnel board.

A personnel board consisting of five (5) resident and qualified voters shall be appointed by the city council for four-year overlapping terms of office. Vacancies shall be filled by the council by appointment for the unexpired portion of the term. A member of the personnel board shall be removed from office by the city council only for malfeasance, misfeasance or nonfeasance and after charges have been filed and such member has been given a reasonable opportunity to defend himself in an open public hearing before the council. The board shall provide for its own organization and rules for conduct of meetings; provided, that all meetings shall comply with the public meeting requirements of state law. Three (3) members shall constitute a quorum. Members of the board shall serve without pay, but shall be entitled to actual and reasonable expenses incurred outside of the city in the performance of their duties.

No member of the personnel board shall serve more than two (2) consecutive terms.

Reappointment of incumbents to the personnel board shall be for four-year terms in accordance with this section.

Section 8.02 of Article VIII is amended to read as follows:

Sec. 8.02. Powers and duties of the personnel board.

The personnel board shall have the power and shall be required:

a. To advise the council and administrative officials on all matters relating to personnel administration in the city service.

b. To investigate and pass upon the complaint of an employee or group of employees alleging unfair treatment resulting from a management decision, or lack of decision; concerning the interpretation of city rules or regulations governing personnel practices or working conditions within the control of the department head; in which case, the decision of the board, with regard to the interpretation of said rules or regulations, shall be binding upon the appointing authority.

c. To investigate and pass upon the claim of any person that his application for employment or promotion has not been processed and considered pursuant to the provisions of this charter and the personnel rules governing the classified

service; in which case, the decision of the board shall be binding on the appointing authority.

d. To hear appeals from any action of suspension, reduction in rank or pay, or discharge of any employee in the classified service and to report its findings and decisions in writing to the appointing authority; such findings and decisions shall be final and binding on the appointing authority.

e. To subpoena witnesses and administer oaths.

Section 8.06 of Article VIII is amended to read as follows:

Sec. 8.06. Special services.

The council, upon recommendation of the manager may contract with other political subdivisions of the state, or with any state department, or with an experienced private agency for the furnishing of personnel, fiscal or other consultative services.

Section 8.07 of Article VIII is amended to read as follows:

Sec. 8.07. Classified and unclassified services.

The employments in the city service are hereby divided into the classified and unclassified service. The unclassified service shall consist of (a) officers elected by the people and persons appointed to fill vacancies in elective offices; (b) the members of boards and commissions as provided by this charter; (c) the manager, assistant manager, attorney, deputy, associate or assistant attorneys, and the heads of one or more departments as provided for in this charter; (d) persons employed in a professional or scientific capacity to conduct or complete a special inquiry, investigation, examination or project, not to exceed thirty-six (36) months full-time employment or equivalent without a break of at least three (3) months; (e) persons employed for a temporary, seasonal or special purpose for a period not to exceed nine (9) months full-time employment or the equivalent thereof in any twelve (12) month period without a break in employment of at least three (3) months; (f) reserve firefighters and reserve police officers and (g) disaster service workers whether recruited or conscripted. The classified service shall comprise all positions not specifically included in the unclassified service.

Section 9.01 of Article IX is amended to read as follows:

Sec. 9.01. When franchises are required.

No person, firm or corporation shall exercise any franchise right or privilege in the city for furnishing its inhabitants with transportation, communication, terminal facilities, water, light, heat, gas, power, television, cable television or any other public utility or service, except insofar as he or it may be entitled to do so by direct authority to the Constitution of the State of California or of the United States, unless he or it shall have obtained a grant therefore in accordance with the provisions of this article of this charter and in accordance with the procedure prescribed by ordinance. Nothing contained in this article shall be construed to invalidate any lawful franchise heretofore granted or to necessitate the obtaining of a new franchise for a use which a franchise holder shall have in a valid unexpired franchise. Nothing contained in this article shall be construed to apply to

the city, or any department thereof, when furnishing any public utility or service, except that for purposes of accounting for the value of the occupation of public right of way, City-owned utilities may pay an in-lieu of franchise fee not to exceed four percent (4%) of total operating and capital expenditures to the City's general fund. All in lieu of franchise fee revenue received shall be budgeted and appropriated solely for police, fire, parks and recreation or library services.

Section 9.04 of Article IX is amended to read as follows:

Sec. 9.04. Authority and procedure in granting franchises.

The council shall, by ordinance, prescribe the terms and conditions under which franchises will be granted, subject to the provisions of this charter, and the detailed procedure for granting franchises. Such ordinance shall provide:

- a. For the publication of notice of franchise applications;
- b. For protests against the granting of such franchises;
- c. For the holding of public hearings on such applications;
- d. For the publication of the ordinance granting the franchise in the manner provided for in Section 5.04 of this charter.

Section 9.06 of Article IX is amended to read as follows:

Sec. 9.06. Reservation of privilege; bids.

No franchise shall be granted without reserving to the city adequate consideration for the privilege conferred.

The council may grant a franchise by ordinance or may, in its discretion, advertise for bids for the sale of a franchise upon a basis, not in conflict with the provisions of this charter to be set out in the advertisement for bids and notice of sale; provided, that no bidding shall be had or required upon any renewal of a franchise, surrender of existing franchise or parts thereof, or in settlement of litigation between the grantee and the city.

Section 10.01 of Article X is amended to read as follows:

Sec. 10.01. General powers respecting utilities.

The city shall possess all the powers granted to cities by state law to construct, condemn and purchase, purchase, acquire, add to, maintain, and operate, either within or outside its corporate limits, including, but not by way of limitation, public utilities for supplying water, light, heat, power, gas, transportation, sewage and refuse collections, treatment and disposal services, or any of them, to the municipality and the inhabitants thereof; and also to sell and deliver any of the utility services above mentioned outside its corporate limits, to the extent permitted by state law. Each city-owned utility shall be financially self-sufficient, and shall fully compensate the city general fund for all goods, services, real property and rights to use or operate on or in city-owned real property.

Section 10.02 of Article X is amended to read as follows:

Sec. 10.02. Rates; collection of utility charges.

The council shall have the power to classify and to fix and, from time to time to revise such rates and charges as it may deem advisable for supplying the inhabitants of the city and others with such utility services as the city may provide. For

non-residential electric utility customers, the council may, by ordinance, delegate the power to fix such rates and charges to the City Manager, upon such terms and conditions as the council deems advisable. The council shall, by ordinance, provide for the collection of all public utility charges made by the city, and the attendant exercise, on behalf of the city, of all actions or remedies permitted by law.

Section 10.03 of Article X is amended to read as follows:

Sec. 10.03. Disposal of utility plants and property.

The city shall not sell, exchange, lease, or in any way alienate or dispose of the property, easements, or other equipment, privileges, or assets which are essential parts of any utility which it may acquire, unless and except the proposition for such purpose shall first have been submitted and approved by a majority vote of the electors voting thereon at a general or special municipal election. All contracts, negotiations, licenses, grants, leases, or other forms of transfer in violation of this provision shall be void and of no effect as against the city. The provisions of this section shall not, however, be interpreted to preclude the sale, exchange, or other disposal to the advantage of the city, of parts of a utility's property and assets which are not essential to continued effective utility service and the disposal of which will not prejudice municipal interests. The provisions of this section shall also not be interpreted to preclude the sale, exchange, or other disposal to the advantage of the city, of parts of a utility's property and assets which sale, exchange or transfer is made pursuant to a plan of finance approved by the City Council for the purpose of acquiring, constructing, extending, replacing or maintaining municipally owned utilities and does not adversely affect the continued effective utility service or prejudice municipal interests.

Article XI. Reserved

Section 12.06 of Article XII is amended to read as follows:

Charter Chapter 17—City of Chico

Amendments to the Charter of the City of Chico

[Filed with the Secretary of State December 28, 2000.]

Subsection C of Section 611 of Article VI. THE COUNCIL. is amended to read as follows:

Subsection C of Section 611 Same—Adoption and publication.

C. Every ordinance must be published in full or in summary, as authorized by State law; once in the official newspaper of the city; or in such other form as it

may be sent to the voters. One copy of every ordinance introduced shall be posted by the clerk within twenty-four hours after introductory reading on the public bulletin board in the municipal building of the city, and another copy thereof shall be available in the council chambers during each meeting at which said ordinance is considered by the council for review by all persons interested therein.

Section 700 is amended to read as follows:

Section 700 Qualification.

There shall be a city manager who shall be the chief administrator of the city. The city manager shall be appointed by the council and shall serve at its pleasure. The city manager shall not be removed from office except by the affirmative vote of at least four (4) members of the council. The city manager shall be chosen on the basis of executive and administrative qualifications. The city manager need not be a resident of the city or state at the time of appointment.

Certified to be a true copy by Deborah R. Presson, City Clerk.

Date of Municipal Election: November 7, 2000.
