EFFECTIVE DATES

Regular Session

The effective date of a joint or concurrent resolution is the date it is filed with the Secretary of State.

An initiative statute or referendum or a constitutional amendment proposed by the Legislature and adopted by the people takes effect the day after the election unless the measure provides otherwise.

Statutes Which Take Effect Immediately. An urgency statute, and a statute calling an election, providing for a tax levy, or making an appropriation for the usual current expenses of the state may take effect immediately. Such a statute becomes effective on the date it is filed with the Secretary of State.

Operative Date. The provisions of a statute normally become operative on the date it takes effect. However, any statute may, by its own terms, delay the operation of its provisions until the happening of some contingency or until a specified time. Also, a later statute or a general provision in a particular code may delay the operation of a statute to a time after its effective date.

Extraordinary Sessions

An urgency statute enacted at a special session of the Legislature takes effect immediately, as outlined above, and the same rules apply with respect to a delayed operative date. A nonurgency statute takes effect on the 91st day after adjournment of the special session at which the bill was passed. The effective date of a concurrent resolution is the date it is filed with the Secretary of State.

The 2001–02 Second Extraordinary Session reconvened on January 7, 2002, and adjourned sine die on May 9, 2002. The 91st day after adjournment is August 8, 2002. Please refer to the preceding year’s Statutes and Amendments to the Codes for statutes enacted prior to the reconvening date.

CONSTITUTION OF THE STATE OF CALIFORNIA*

AS AMENDED AND IN FORCE NOVEMBER 5, 2002

PREAMBLE

We, the People of the State of California, grateful to Almighty God for our freedom, in order to secure and perpetuate its blessings, do establish this Constitution.

ARTICLE I

DECLARATION OF RIGHTS

Section 1. [Repealed November 5, 1974. See Section 1, below.]

[Inalienable Rights]

Section 1. All people are by nature free and independent and have inalienable rights. Among these are enjoying and defending life and liberty, acquiring, possessing, and protecting property, and pursuing and obtaining safety, happiness, and privacy. [New section adopted November 5, 1974.]

[Liberty of Speech and of the Press—Newspersons’ Refusal to Disclose Information Sources Not Adjudged in Contempt]

Sec. 2. (a) Every person may freely speak, write and publish his or her sentiments on all subjects, being responsible for the abuse of this right. A law may not restrain or abridge liberty of speech or press.

(b) A publisher, editor, reporter, or other person connected with or employed upon a newspaper, magazine, or other periodical publication, or by a press association or wire service, or any person who has been so connected or employed, shall not be adjudged in contempt by a judicial, legislative, or administrative body, or any other body having the power to issue subpoenas, for refusing to disclose the source of any information procured while so connected or employed for publication in a newspaper, magazine or other periodical publication, or for refusing to disclose any unpublished information obtained or prepared in gathering, receiving or processing of information for communication to the public.

Nor shall a radio or television news reporter or other person connected with or employed by a radio or television station, or any person who has been so connected or employed, be so adjudged in contempt for refusing to disclose the source of any information procured while so connected or employed for news or news commentary purposes on radio or television, or for refusing to disclose any unpublished information obtained or prepared in gathering, receiving or processing of information for communication to the public.

* Adopted by the people on May 7, 1879. Certain spelling and capitalization variances reflect State Printer’s style in effect at time of adoption of amendments.
As used in this subdivision, “unpublished information” includes information not disseminated to the public by the person from whom disclosure is sought, whether or not related information has been disseminated and includes, but is not limited to, all notes, outtakes, photographs, tapes or other data of whatever sort not itself disseminated to the public through a medium of communication, whether or not published information based upon or related to such material has been disseminated. [As amended June 3, 1980.]

[Right to Assemble and to Petition]

SEC. 3. The people have the right to instruct their representatives, petition government for redress of grievances, and assemble freely to consult for the common good. [New section adopted November 5, 1974.]

SEC. 4. [Repealed November 5, 1974. See Section 4, below.]

[Liberty of Conscience]

SEC. 4. Free exercise and enjoyment of religion without discrimination or preference are guaranteed. This liberty of conscience does not excuse acts that are licentious or inconsistent with the peace or safety of the State. The Legislature shall make no law respecting an establishment of religion.

A person is not incompetent to be a witness or juror because of his or her opinions on religious beliefs. [New section adopted November 5, 1974.]

SEC. 5. [Repealed November 5, 1974. See Section 5, below.]

[The Military]

SEC. 5. The military is subordinate to civil power. A standing army may not be maintained in peacetime. Soldiers may not be quartered in any house in wartime except as prescribed by law, or in peacetime without the owner’s consent. [New section adopted November 5, 1974.]

SEC. 6. [Repealed November 5, 1974. See Section 6, below.]

[Slavery Prohibited]

SEC. 6. Slavery is prohibited. Involuntary servitude is prohibited except to punish crime. [New section adopted November 5, 1974.]

[Due Process of Law—Use of Pupil School Assignment or Pupil Transportation]

SEC. 7. (a) A person may not be deprived of life, liberty, or property without due process of law or denied equal protection of the laws; provided, that nothing contained herein or elsewhere in this Constitution imposes upon the State of California or any public entity, board, or official any obligations or responsibilities which exceed those imposed by the Equal Protection Clause of the 14th Amendment to the United States Constitution with respect to the use of pupil school assignment or pupil trans-
portation. In enforcing this subdivision or any other provision of this Constitution, no court of this State may impose upon the State of California or any public entity, board, or official any obligation or responsibility with respect to the use of pupil school assignment or pupil transportation, (1) except to remedy a specific violation by such party that would also constitute a violation of the Equal Protection Clause of the 14th Amendment to the United States Constitution, and (2) unless a federal court would be permitted under federal decisional law to impose that obligation or responsibility upon such party to remedy the specific violation of the Equal Protection Clause of the 14th Amendment of the United States Constitution.

Except as may be precluded by the Constitution of the United States, every existing judgment, decree, writ, or other order of a court of this State, whenever rendered, which includes provisions regarding pupil school assignment or pupil transportation, or which requires a plan including any such provisions shall, upon application to a court having jurisdiction by any interested person, be modified to conform to the provisions of this subdivision as amended, as applied to the facts which exist at the time of such modification.

In all actions or proceedings arising under or seeking application of the amendments to this subdivision proposed by the Legislature at its 1979–80 Regular Session, all courts, wherein such actions or proceedings are or may hereafter be pending, shall give such actions or proceedings first precedence over all other civil actions therein.

Nothing herein shall prohibit the governing board of a school district from voluntarily continuing or commencing a school integration plan after the effective date of this subdivision as amended.

In amending this subdivision, the Legislature and people of the State of California find and declare that this amendment is necessary to serve compelling public interests, including those of making the most effective use of the limited financial resources now and prospectively available to support public education, maximizing the educational opportunities and protecting the health and safety of all public school pupils, enhancing the ability of parents to participate in the educational process, preserving harmony and tranquility in this State and its public schools, preventing the waste of scarce fuel resources, and protecting the environment.

[Privileges and Immunities]

(b) A citizen or class of citizens may not be granted privileges or immunities not granted on the same terms to all citizens. Privileges or immunities granted by the Legislature may be altered or revoked. [As amended November 6, 1979.]

[Bail—Release on Own Recognizance]

SEC. 12. A person shall be released on bail by sufficient sureties, except for:

(a) Capital crimes when the facts are evident or the presumption great;

(b) Felony offenses involving acts of violence on another person, or felony sexual assault offenses on another person, when the facts are evident or the presumption great and the court finds based upon clear and convincing evidence that there is a substantial likelihood the person’s release would result in great bodily harm to others; or

(c) Felony offenses when the facts are evident or the presumption great and the court finds based on clear and convincing evidence that the person has threatened another with great bodily harm and that there is a substantial likelihood that the person would carry out the threat if released.

Excessive bail may not be required. In fixing the amount of bail, the court shall take into consideration the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case.

A person may be released on his or her own recognizance in the court’s discretion. [As amended November 8, 1994.]
SEC. 13. [Repealed November 5, 1974. See Section 13, below.]

SEC. 14. [Repealed November 5, 1974. See Section 14, below.]

[Felony Defendant Before Magistrate—Prosecutions]

SEC. 14. Felonies shall be prosecuted as provided by law, either by indictment or, after examination and commitment by a magistrate, by information.

A person charged with a felony by complaint subscribed under penalty of perjury and on file in a court in the county where the felony is triable shall be taken without unnecessary delay before a magistrate of that court. The magistrate shall immediately give the defendant a copy of the complaint, inform the defendant of the defendant’s right to counsel, allow the defendant a reasonable time to send for counsel, and on the defendant’s request read the complaint to the defendant. On the defendant’s request the magistrate shall require a peace officer to transmit within the county where the court is located a message to counsel named by defendant.

A person unable to understand English who is charged with a crime has a right to an interpreter throughout the proceedings. [New section adopted November 5, 1974.]

[Felony—Prosecution by Indictment]

SEC. 14.1. If a felony is prosecuted by indictment, there shall be no postindictment preliminary hearing. [New section adopted June 5, 1990. Initiative measure.]

The defendant in a criminal cause has the right to a speedy public trial, to compel attendance of witnesses in the defendant’s behalf, to have the assistance of counsel for the defendant’s defense, to be personally present with counsel, and to be confronted with the witnesses against the defendant. The Legislature may provide for the deposition of a witness in the presence of the defendant and the defendant’s counsel.
Persons may not twice be put in jeopardy for the same offense, be compelled in a criminal cause to be a witness against themselves, or be deprived of life, liberty, or property without due process of law. [New section adopted November 5, 1974.]

[Trial by Jury]

Sec. 16. Trial by jury is an inviolate right and shall be secured to all, but in a civil cause three-fourths of the jury may render a verdict. A jury may be waived in a criminal cause by the consent of both parties expressed in open court by the defendant and the defendant’s counsel. In a civil cause a jury may be waived by the consent of the parties expressed as prescribed by statute.

[Number of Jurors in Civil Trials]

In civil causes the jury shall consist of 12 persons or a lesser number agreed on by the parties in open court. In civil causes other than causes within the appellate jurisdiction of the court of appeal the Legislature may provide that the jury shall consist of eight persons or a lesser number agreed on by the parties in open court.

[Number of Jurors in Criminal Trials]

In criminal actions in which a felony is charged, the jury shall consist of 12 persons. In criminal actions in which a misdemeanor is charged, the jury shall consist of 12 persons or a lesser number agreed on by the parties in open court. [As amended June 2, 1998.]

Sec. 19. [Repealed November 5, 1974. See Section 19, below.]

for possession by the condemnor following commencement of eminent
domain proceedings upon deposit in court and prompt release to the owner
of money determined by the court to be the probable amount of just com-

[Constitutional Rights—Rights Reserved]

SEC. 24. Rights guaranteed by this Constitution are not dependent on
those guaranteed by the United States Constitution.

In criminal cases the rights of a defendant to equal protection of the
laws, to due process of law, to the assistance of counsel, to be personally
present with counsel, to a speedy and public trial, to compel the attendance
of witnesses, to confront the witnesses against him or her, to be free from
unreasonable searches and seizures, to privacy, to not be compelled to be
a witness against himself or herself, to not be placed twice in jeopardy for
the same offense, and to not suffer the imposition of cruel or unusual pun-
ishment, shall be construed by the courts of this State in a manner con-
sistent with the Constitution of the United States. This Constitution shall
not be construed by the courts to afford greater rights to criminal defend-
ants than those afforded by the Constitution of the United States, nor
shall it be construed to afford greater rights to minors in juvenile proceed-
ings on criminal causes than those afforded by the Constitution of the
United States.
This declaration of rights may not be construed to impair or deny others retained by the people. [As amended June 5, 1990. Initiative measure.]

[Right to Fish]

Section 25. The people shall have the right to fish upon and from the public lands of the State and in the waters thereof, excepting upon lands set aside for fish hatcheries, and no land owned by the State shall ever be sold or transferred without reserving in the people the absolute right to fish thereupon; and no law shall ever be passed making it a crime for the people to enter upon the public lands within this State for the purpose of fishing in any water containing fish that have been planted therein by the State; provided, that the Legislature may by statute, provide for the season when and the conditions under which the different species of fish may be taken. [New section adopted November 8, 1910.]

Sec. 26. [Renumbered Section 1 of Article II June 8, 1976. See Section 26, below.]

[Constitution Mandatory and Prohibitory]

Sec. 26. The provisions of this Constitution are mandatory and prohibitory, unless by express words they are declared to be otherwise. [Former Section 28, as renumbered June 8, 1976.]

Sec. 26a. [Repealed November 8, 1949.]

[Death Penalty]

Sec. 27. All statutes of this State in effect on February 17, 1972, requiring, authorizing, imposing, or relating to the death penalty are in full force and effect, subject to legislative amendment or repeal by statute, initiative, or referendum.

The death penalty provided for under those statutes shall not be deemed to be, or to constitute, the infliction of cruel or unusual punishments within the meaning of Article 1, Section 6 nor shall such punishment for such offenses be deemed to contravene any other provision of this constitution. [New section adopted November 7, 1972. Initiative measure.]

["The Victims' Bill of Rights"]

Sec. 28. (a) The People of the State of California find and declare that the enactment of comprehensive provisions and laws ensuring a bill of rights for victims of crime, including safeguards in the criminal justice system to fully protect those rights, is a matter of grave statewide concern.

The rights of victims pervade the criminal justice system, encompassing not only the right to restitution from the wrongdoers for financial losses suffered as a result of criminal acts, but also the more basic expectation that persons who commit felonious acts causing injury to innocent victims
will be appropriately detained in custody, tried by the courts, and sufficiently punished so that the public safety is protected and encouraged as a goal of highest importance.

Such public safety extends to public primary, elementary, junior high, and senior high school campuses, where students and staff have the right to be safe and secure in their persons.

To accomplish these goals, broad reforms in the procedural treatment of accused persons and the disposition and sentencing of convicted persons are necessary and proper as deterrents to criminal behavior and to serious disruption of people’s lives.

(b) Restitution. It is the unequivocal intention of the People of the State of California that all persons who suffer losses as a result of criminal activity shall have the right to restitution from the persons convicted of the crimes for losses they suffer.

Restitution shall be ordered from the convicted persons in every case, regardless of the sentence or disposition imposed, in which a crime victim suffers a loss, unless compelling and extraordinary reasons exist to the contrary. The Legislature shall adopt provisions to implement this section during the calendar year following adoption of this section.

(c) Right to Safe Schools. All students and staff of public primary, elementary, junior high and senior high schools have the inalienable right to attend campuses which are safe, secure and peaceful.

(d) Right to Truth-in-Evidence. Except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, relevant evidence shall not be excluded in any criminal proceeding, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court. Nothing in this section shall affect any existing statutory rule of evidence relating to privilege or hearsay, or Evidence Code, Sections 352, 782 or 1103. Nothing in this section shall affect any existing statutory or constitutional right of the press.

(e) Public Safety Bail. A person may be released on bail by sufficient sureties, except for capital crimes when the facts are evident or the presumption great. Excessive bail may not be required. In setting, reducing or denying bail, the judge or magistrate shall take into consideration the protection of the public, the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case. Public safety shall be the primary consideration.

A person may be released on his or her own recognizance in the court’s discretion, subject to the same factors considered in setting bail. However, no person charged with the commission of any serious felony shall be released on his or her own recognizance.
Before any person arrested for a serious felony may be released on bail, a hearing may be held before the magistrate or judge, and the prosecuting attorney shall be given notice and reasonable opportunity to be heard on the matter.

When a judge or magistrate grants or denies bail or release on a person’s own recognizance, the reasons for that decision shall be stated in the record and included in the court’s minutes.

(f) Use of Prior Convictions. Any prior felony conviction of any person in any criminal proceeding, whether adult or juvenile, shall subsequently be used without limitation for purposes of impeachment or enhancement of sentence in any criminal proceeding. When a prior felony conviction is an element of any felony offense, it shall be proven to the trier of fact in open court.

(g) As used in this article, the term “serious felony” is any crime defined in Penal Code, Section 1192.7(c). [New section adopted June 8, 1982. Initiative measure.]

[Criminal Cases—Due Process of Law—Speedy and Public Trial]

Sec. 29. In a criminal case, the people of the State of California have the right to due process of law and to a speedy and public trial. [New section adopted June 5, 1990. Initiative measure.]

[Criminal Cases—Jointure-Hearsay Evidence—Discovery]

Sec. 30. (a) This Constitution shall not be construed by the courts to prohibit the joining of criminal cases as prescribed by the Legislature or by the people through the initiative process.

(b) In order to protect victims and witnesses in criminal cases, hearsay evidence shall be admissible at preliminary hearings, as prescribed by the Legislature or by the people through the initiative process.

(c) In order to provide for fair and speedy trials, discovery in criminal cases shall be reciprocal in nature, as prescribed by the Legislature or by the people through the initiative process. [New section adopted June 5, 1990. Initiative measure.]

[Prohibition Against Discrimination or Preferential Treatment]

Sec. 31. (a) The State shall not discriminate against, or grant preferential treatment to, any individual or group on the basis of race, sex, color, ethnicity, or national origin in the operation of public employment, public education, or public contracting.

(b) This section shall apply only to action taken after the section’s effective date.

(c) Nothing in this section shall be interpreted as prohibiting bona fide qualifications based on sex which are reasonably necessary to the normal operation of public employment, public education, or public contracting.
(d) Nothing in this section shall be interpreted as invalidating any court order or consent decree which is in force as of the effective date of this section.

(e) Nothing in this section shall be interpreted as prohibiting action which must be taken to establish or maintain eligibility for any federal program, where ineligibility would result in a loss of federal funds to the State.

(f) For the purposes of this section, “State” shall include, but not necessarily be limited to, the State itself, any city, county, city and county, public university system, including the University of California, community college district, school district, special district, or any other political subdivision or governmental instrumentality of or within the State.

(g) The remedies available for violations of this section shall be the same, regardless of the injured party’s race, sex, color, ethnicity, or national origin, as are otherwise available for violations of then-existing California antidiscrimination law.

(h) This section shall be self-executing. If any part or parts of this section are found to be in conflict with federal law or the United States Constitution, the section shall be implemented to the maximum extent that federal law and the United States Constitution permit. Any provision held invalid shall be severable from the remaining portions of this section.

In the case of a statute enacted by a bill passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, the petition may not be presented on or after January 1 next following the enactment date unless a copy of the petition is submitted to the Attorney General pursuant to subdivision (d) of Section 10 of Article II before January 1.

(b) If provisions of 2 or more measures approved at the same election conflict, those of the measure receiving the highest affirmative vote shall prevail.

(c) The Legislature may amend or repeal referendum statutes. It may amend or repeal an initiative statute by another statute that becomes effective only when approved by the electors unless the initiative statute permits amendment or repeal without their approval.

(d) Prior to circulation of an initiative or referendum petition for signatures, a copy shall be submitted to the Attorney General who shall prepare a title and summary of the measure as provided by law.

(e) The Legislature shall provide the manner in which petitions shall be circulated, presented, and certified, and measures submitted to the electors. [Former Section 24 of Article IV, as renumbered June 8, 1976.]

[Naming Individual or Private Corporation to Office or Duty Prohibited]

Sec. 12. No amendment to the Constitution, and no statute proposed to the electors by the Legislature or by initiative, that names any individual to hold any office, or names or identifies any private corporation to perform any function or to have any power or duty, may be submitted to the electors or have any effect. [Former Section 26 of Article IV, as renumbered June 8, 1976.]
SEC. 13. Recall is the power of the electors to remove an elective officer. [New section adopted June 8, 1976.]

[Recall Petitions]
SEC. 14. (a) Recall of a state officer is initiated by delivering to the Secretary of State a petition alleging reason for recall. Sufficiency of reason is not reviewable. Proponents have 160 days to file signed petitions.

(b) A petition to recall a statewide officer must be signed by electors equal in number to 12 percent of the last vote for the office, with signatures from each of 5 counties equal in number to 1 percent of the last vote for the office in the county. Signatures to recall Senators, members of the Assembly, members of the Board of Equalization, and judges of courts of appeal and trial courts must equal in number 20 percent of the last vote for the office.

(b) A recall election may be conducted within 180 days from the date of certification of sufficient signatures in order that the election may be consolidated with the next regularly scheduled election occurring wholly or partially within the same jurisdiction in which the recall election is held, if the number of voters eligible to vote at that next regularly scheduled election equal at least 50 percent of all the voters eligible to vote at the recall election.

(c) If the majority vote on the question is to recall, the officer is removed and, if there is a candidate, the candidate who receives a plurality is the successor. The officer may not be a candidate, nor shall there be any candidacy for an office filled pursuant to subdivision (d) of Section 16 of Article VI. [As amended November 8, 1994.]

[Boundaries of the State—Sacramento Seat of Government]

SEC. 2. The boundaries of the State are those stated in the Constitution of 1849 as modified pursuant to statute. Sacramento is the capital of California. [New section adopted November 7, 1972.]

[Separation of Powers]

SEC. 3. The powers of state government are legislative, executive, and judicial. Persons charged with the exercise of one power may not exercise either of the others except as permitted by this Constitution. [New section adopted November 7, 1972.]

[Administrative Agencies: Declaration Statute Unenforceable or Unconstitutional Prohibited]

SEC. 3.5. An administrative agency, including an administrative agency created by the Constitution or an initiative statute, has no power:

(a) To declare a statute unenforceable, or refuse to enforce a statute, on the basis of it being unconstitutional unless an appellate court has made a determination that such statute is unconstitutional;

(b) To declare a statute unconstitutional;

(c) To declare a statute unenforceable, or to refuse to enforce a statute on the basis that federal law or federal regulations prohibit the enforcement of such statute unless an appellate court has made a determination that the enforcement of such statute is prohibited by federal law or federal regulations. [New section adopted June 6, 1978.]

Salaries of Elected State Officers—Salaries of Judges

SEC. 4. (a) Except as provided in subdivision (b), salaries of elected state officers may not be reduced during their term of office. Laws that set these salaries are appropriations.

(b) Beginning on January 1, 1981, the base salary of a judge of a court of record shall equal the annual salary payable as of July 1, 1980, for that office had the judge been elected in 1978. The Legislature may prescribe increases in those salaries during a term of office, and it may terminate prospective increases in those salaries at any time during a term of office, but it shall not reduce the salary of a judge during a term of office below the highest level paid during that term of office. Laws setting the salaries of judges shall not constitute an obligation of contract pursuant to Section 9 of Article I or any other provision of law. [As amended November 4, 1980.]

Suits Against State

SEC. 5. Suits may be brought against the State in such manner and in such courts as shall be directed by law. [New section adopted November 7, 1972.]

Official State Language

SEC. 6. (a) Purpose.

English is the common language of the people of the United States of America and the State of California. This section is intended to preserve, protect and strengthen the English language, and not to supersede any of the rights guaranteed to the people by this Constitution.

(b) English as the Official Language of California.

English is the official language of the State of California.

(c) Enforcement.

The Legislature shall enforce this section by appropriate legislation. The Legislature and officials of the State of California shall take all steps necessary to insure that the role of English as the common language of the
State of California is preserved and enhanced. The Legislature shall make no law which diminishes or ignores the role of English as the common language of the State of California.

(d) Personal Right of Action and Jurisdiction of Courts.

Any person who is a resident of or doing business in the State of California shall have standing to sue the State of California to enforce this section, and the Courts of record of the State of California shall have jurisdiction to hear cases brought to enforce this section. The Legislature may provide reasonable and appropriate limitations on the time and manner of suits brought under this section. [New section adopted November 4, 1986. Initiative measure.]

[Retirement Benefits for Elected Constitutional Officers]

SEC. 7. (a) The retirement allowance for any person, all of whose credited service in the Legislators’ Retirement System was rendered or was deemed to have been rendered as an elective officer of the State whose office is provided for by the California Constitution, other than a judge and other than a Member of the Senate or Assembly, and all or any part of whose retirement allowance is calculated on the basis of the compensation payable to the officer holding the office which the member last held prior to retirement, or for the survivor or beneficiary of such a person, shall not be increased or affected in any manner by changes on or after November 5, 1986, in the compensation payable to the officer holding the office which the member last held prior to retirement.

(b) This section shall apply to any person, survivor, or beneficiary described in subdivision (a) who receives, or is receiving, from the Legislators’ Retirement System a retirement allowance on or after November 5, 1986, all or any part of which allowance is calculated on the basis of the compensation payable to the officer holding the office which the member last held prior to retirement.

(c) It is the intent of the people, in adopting this section, to restrict retirement allowances to amounts reasonably to be expected by certain members and retired members of the Legislators’ Retirement System and to preserve the basic character of earned retirement benefits while prohibiting windfalls and unforeseen advantages which have no relation to the real theory and objective of a sound retirement system. It is not the intent of this section to deny any member, retired member, survivor, or beneficiary a reasonable retirement allowance. Thus, this section shall not be construed as a repudiation of a debt nor the impairment of a contract for a substantial and reasonable retirement allowance from the Legislators’ Retirement System.

(d) The people and the Legislature hereby find and declare that the dramatic increase in the retirement allowances of persons described in subdivision (a) which would otherwise result when the compensation for
those offices increases on November 5, 1986, or January 5, 1987, are not benefits which could have reasonably been expected. The people and the Legislature further find and declare that the Legislature did not intend to provide in its scheme of compensation for those offices such windfall benefits. [New section adopted November 4, 1986.]

[California Citizens Compensation Commission]

SEC. 8. (a) The California Citizens Compensation Commission is hereby created and shall consist of seven members appointed by the Governor. The commission shall establish the annual salary and the medical dental, insurance, and other similar benefits of state officers.

(b) The commission shall consist of the following persons:

(1) Three public members, one of whom has expertise in the area of compensation, such as an economist, market researcher, or personnel manager; one of whom is a member of a nonprofit public interest organization; and one of whom is representative of the general population and may include, among others, a retiree, homemaker, or person of median income. No person appointed pursuant to this paragraph may, during the 12 months prior to his or her appointment, have held public office, either elective or appointive, have been a candidate for elective public office, or have been a lobbyist, as defined by the Political Reform Act of 1974.

(2) Two members who have experience in the business community, one of whom is an executive of a corporation incorporated in this State which ranks among the largest private sector employers in the State based on the number of employees employed by the corporation in this State and one of whom is an owner of a small business in this State.

(3) Two members, each of whom is an officer or member of a labor organization.

(c) The Governor shall strive insofar as practicable to provide a balanced representation of the geographic, gender, racial, and ethnic diversity of the State in appointing commission members.

(d) The Governor shall appoint commission members and designate a chairperson for the commission not later than 30 days after the effective date of this section. The terms of two of the initial appointees shall expire on December 31, 1992, two on December 31, 1994, and three on December 31, 1996, as determined by the Governor. Thereafter, the term of each member shall be six years. Within 15 days of any vacancy, the Governor shall appoint a person to serve the unexpired portion of the term.

(e) No current or former officer or employee of this State is eligible for appointment to the commission.

(f) Public notice shall be given of all meetings of the commission, and the meetings shall be open to the public.

(g) On or before December 3, 1990, the commission shall, by a single resolution adopted by a majority of the membership of the commission,
establish the annual salary and the medical, dental, insurance, and other similar benefits of state officers. The annual salary and benefits specified in that resolution shall be effective on and after December 3, 1990.

Thereafter, at or before the end of each fiscal year, the commission shall, by a single resolution adopted by a majority of the membership of the commission, adjust the annual salary and the medical, dental, insurance, and other similar benefits of state officers. The annual salary and benefits specified in the resolution shall be effective on and after the first Monday of the next December.

(h) In establishing or adjusting the annual salary and the medical, dental, insurance, and other similar benefits, the commission shall consider all of the following:

(1) The amount of time directly or indirectly related to the performance of the duties, functions, and services of a state officer.

(2) The amount of the annual salary and the medical, dental, insurance, and other similar benefits for other elected and appointed officers and officials in this State with comparable responsibilities, the judiciary, and, to the extent practicable, the private sector, recognizing, however, that state officers do not receive, and do not expect to receive, compensation at the same levels as individuals in the private sector with comparable experience and responsibilities.

(3) The responsibility and scope of authority of the entity in which the state officer serves.

(i) Until a resolution establishing or adjusting the annual salary and the medical, dental, insurance, and other similar benefits for state officers takes effect, each state officer shall continue to receive the same annual salary and the medical, dental, insurance, and other similar benefits received previously.

(j) All commission members shall receive their actual and necessary expenses, including travel expenses, incurred in the performance of their duties. Each member shall be compensated at the same rate as members, other than the chairperson, of the Fair Political Practices Commission, or its successor, for each day engaged in official duties, not to exceed 45 days per year.

(k) It is the intent of the Legislature that the creation of the commission should not generate new state costs for staff and services. The Department of Personnel Administration, the Board of Administration of the Public Employees’ Retirement System, or other appropriate agencies, or their successors, shall furnish, from existing resources, staff and services to the commission as needed for the performance of its duties.

(l) “State officer,” as used in this section, means the Governor, Lieutenant Governor, Attorney General, Controller, Insurance Commissioner,
Secretary of State, Superintendent of Public Instruction, Treasurer, member of the State Board of Equalization, and Member of the Legislature.  [New section adopted June 5, 1990.]

ARTICLE IV

LEGISLATIVE

[Heading as amended November 8, 1966.]

SECTION 1. [Repealed November 8, 1966. See Section 1, below.]

[Legislative Power]

SEC. 1. The legislative power of this State is vested in the California Legislature which consists of the Senate and Assembly, but the people reserve to themselves the powers of initiative and referendum. [New section adopted November 8, 1966.]

SEC. 1a. [Renumbered Section 20 of Article XIII and amended November 8, 1966.]

SEC. 1b. [Repealed November 8, 1966.]

SEC. 1c. [Repealed November 8, 1966.]

SEC. 1d. [Repealed November 8, 1966.]

[Legislators—Limitation on Incumbency—Restriction of Retirement Benefits—Limitation of Staff and Support Services—Number of Terms]

SEC. 1.5. The people find and declare that the Founding Fathers established a system of representative government based upon free, fair, and competitive elections. The increased concentration of political power in the hands of incumbent representatives has made our electoral system less free, less competitive, and less representative.

The ability of legislators to serve unlimited number of terms, to establish their own retirement system, and to pay for staff and support services at state expense contribute heavily to the extremely high number of incumbents who are reelected. These unfair incumbent advantages discourage qualified candidates from seeking public office and create a class of career politicians, instead of the citizen representatives envisioned by the Founding Fathers. These career politicians become representatives of the bureaucracy, rather than of the people whom they are elected to represent.

To restore a free and democratic system of fair elections, and to encourage qualified candidates to seek public office, the people find and declare that the powers of incumbency must be limited. Retirement benefits must be restricted, state-financed incumbent staff and support services limited, and limitations placed upon the number of terms which may be served. [New section adopted November 6, 1990. Initiative measure.]
SEC. 2. (a) The Senate has a membership of 40 Senators elected for 4-year terms, 20 to begin every 2 years. No Senator may serve more than 2 terms.

The Assembly has a membership of 80 members elected for 2-year terms. No member of the Assembly may serve more than 3 terms.

Their terms shall commence on the first Monday in December next following their election.

(b) Election of members of the Assembly shall be on the first Tuesday after the first Monday in November of even-numbered years unless otherwise prescribed by the Legislature. Senators shall be elected at the same time and places as members of the Assembly.

(c) A person is ineligible to be a member of the Legislature unless the person is an elector and has been a resident of the legislative district for one year, and a citizen of the United States and a resident of California for 3 years, immediately preceding the election.

(d) When a vacancy occurs in the Legislature the Governor immediately shall call an election to fill the vacancy. [As amended November 6, 1990. Initiative measure.]

SEC. 3. (a) The Legislature shall convene in regular session at noon on the first Monday in December of each even-numbered year and each house shall immediately organize. Each session of the Legislature shall adjourn sine die by operation of the Constitution at midnight on November 30 of the following even-numbered year.

(b) On extraordinary occasions the Governor by proclamation may cause the Legislature to assemble in special session. When so assembled it has power to legislate only on subjects specified in the proclamation but may provide for expenses and other matters incidental to the session. [As amended June 8, 1976.]

SEC. 4. (a) To eliminate any appearance of a conflict with the proper discharge of his or her duties and responsibilities, no Member of the Legislature may knowingly receive any salary, wages, commissions, or other similar earned income from a lobbyist or lobbying firm, as defined by the Political Reform Act of 1974, or from a person who, during the previous 12 months, has been under a contract with the Legislature. The Legislature shall enact laws that define earned income. However, earned income does not include any community property interest in the income of a spouse. Any Member who knowingly receives any salary, wages, commissions, or other similar earned income from a lobbyist employer, as defined by the
Political Reform Act of 1974, may not, for a period of one year following its receipt, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the Legislature, other than an action or decision involving a bill described in subdivision (c) of Section 12 of this article, which he or she knows, or has reason to know, would have a direct and significant financial impact on the lobbyist employer and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, “public generally” includes an industry, trade, or profession.

[Legislators—Travel and Living Expenses]

(b) Travel and living expenses for Members of the Legislature in connection with their official duties shall be prescribed by statute passed by rollecall vote entered in the journal, two-thirds of the membership of each house concurring. A Member may not receive travel and living expenses during the times that the Legislature is in recess for more than three calendar days, unless the Member is traveling to or from, or is in attendance at, any meeting of a committee of which he or she is a member, or a meeting, conference, or other legislative function or responsibility as authorized by the rules of the house of which he or she is a member, which is held at a location at least 20 miles from his or her place of residence.

[Legislators—Retirement]

(c) The Legislature may not provide retirement benefits based on any portion of a monthly salary in excess of five hundred dollars ($500) paid to any Member of the Legislature unless the Member receives the greater amount while serving as a Member in the Legislature. The Legislature may, prior to their retirement, limit the retirement benefits payable to Members of the Legislature who serve during or after the term commencing in 1967.

When computing the retirement allowance of a Member who serves in the Legislature during the term commencing in 1967 or later, allowance may be made for increases in cost of living if so provided by statute, but only with respect to increases in the cost of living occurring after retirement of the Member. However, the Legislature may provide that no Member shall be deprived of a cost of living adjustment based on a monthly salary of five hundred dollars ($500) which has accrued prior to the commencement of the 1967 Regular Session of the Legislature. [As amended June 5, 1990.]

[Legislators—Retirement]

Sec. 4.5. Notwithstanding any other provision of this Constitution or existing law, a person elected to or serving in the Legislature on or after November 1, 1990, shall participate in the Federal Social Security (Retirement, Disability, Health Insurance) Program and the State shall pay
only the employer’s share of the contribution necessary to such participation. No other pension or retirement benefit shall accrue as a result of service in the Legislature, such service not being intended as a career occupation. This Section shall not be construed to abrogate or diminish any vested pension or retirement benefit which may have accrued under an existing law to a person holding or having held office in the Legislature, but upon adoption of this Act no further entitlement to nor vesting in any existing program shall accrue to any such person, other than Social Security to the extent herein provided. [New section adopted November 6, 1990. Initiative measure.]**

**Legislators—Qualifications—Expulsion**

SEC. 5. (a) Each house shall judge the qualifications and elections of its Members and, by rollcall vote entered in the journal, two thirds of the membership concurring, may expel a Member.

**Legislators—Honoraria**

(b) No Member of the Legislature may accept any honorarium. The Legislature shall enact laws that implement this subdivision.

**Legislators—Gifts—Conflict of Interest**

(c) The Legislature shall enact laws that ban or strictly limit the acceptance of a gift by a Member of the Legislature from any source if the acceptance of the gift might create a conflict of interest.

**Legislators—Prohibited Compensation or Activity**

(d) No Member of the Legislature may knowingly accept any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any state government board or agency. If a Member knowingly accepts any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any local government board or agency, the Member may not, for a period of one year following the acceptance of the compensation, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the Legislature, other than an action or decision involving a bill described in subdivision (c) of Section 12 of this article, which he or she knows, or has reason to know, would have a direct and significant financial impact on that person and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, “public generally” includes an industry, trade, or profession. However, a Member may engage in activities involving a board or agency which are strictly on his or her own behalf, appear in the capacity of an attorney before any court or the Workers’ Compensation Appeals Board, or act as an advocate without compensation or make an inquiry for information on behalf of a person be-
before a board or agency. This subdivision does not prohibit any action of a partnership or firm of which the Member is a member if the Member does not share directly or indirectly in the fee, less any expenses attributable to that fee, resulting from that action.

[Lobbying]

(e) The Legislature shall enact laws that prohibit a Member of the Legislature whose term of office commences on or after December 3, 1990, from lobbying, for compensation, as governed by the Political Reform Act of 1974, before the Legislature for 12 months after leaving office.

[Conflict of Interest]

(f) The Legislature shall enact new laws, and strengthen the enforcement of existing laws, prohibiting Members of the Legislature from engaging in activities or having interests which conflict with the proper discharge of their duties and responsibilities. However, the people reserve to themselves the power to implement this requirement pursuant to Article II.

[As amended June 5, 1990. Subdivision (b) operative December 3, 1990.]

Each Senatorial district shall choose one Senator and each Assembly district shall choose one member of the Assembly. [New section adopted June 3, 1980.]

[House Rules—Officers—Quorum]

SEC. 7. (a) Each house shall choose its officers and adopt rules for its proceedings. A majority of the membership constitutes a quorum, but a smaller number may recess from day to day and compel the attendance of absent members.

[Journals]

(b) Each house shall keep and publish a journal of its proceedings. The rollcall vote of the members on a question shall be taken and entered in the journal at the request of 3 members present.

[Public Proceedings—Closed Sessions]

(c) (1) The proceedings of each house and the committees thereof shall be open and public. However, closed sessions may be held solely for any of the following purposes:

(A) To consider the appointment, employment, evaluation of performance, or dismissal of a public officer or employee, to consider or hear complaints or charges brought against a Member of the Legislature or other
public officer or employee, or to establish the classification or compensation of an employee of the Legislature.

(B) To consider matters affecting the safety and security of Members of the Legislature or its employees or the safety and security of any buildings and grounds used by the Legislature.

(C) To confer with, or receive advice from, its legal counsel regarding pending or reasonably anticipated, or whether to initiate, litigation when discussion in open session would not protect the interests of the house or committee regarding the litigation.

(2) A caucus of the Members of the Senate, the Members of the Assembly, or the Members of both houses, which is composed of the members of the same political party, may meet in closed session.

(3) The Legislature shall implement this subdivision by concurrent resolution adopted by rollcall vote entered in the journal, two-thirds of the membership of each house concurring, or by statute, and shall prescribe that, when a closed session is held pursuant to paragraph (1), reasonable notice of the closed session and the purpose of the closed session shall be provided to the public. If there is a conflict between a concurrent resolution and statute, the last adopted or enacted shall prevail.

(d) Neither house without the consent of the other may recess for more than 10 days or to any other place. [As amended June 5, 1990. Subdivision (c) operative December 3, 1990.]

[Legislature—Total Aggregate Expenditures]

Sec. 7.5. In the fiscal year immediately following the adoption of this Act, the total aggregate expenditures of the Legislature for the compensation of members and employees of, and the operating expenses and equipment for, the Legislature may not exceed an amount equal to nine hundred fifty thousand dollars ($950,000) per member for that fiscal year or 80 percent of the amount of money expended for those purposes in the preceding fiscal year, whichever is less. For each fiscal year thereafter, the total aggregate expenditures may not exceed an amount equal to that expended for those purposes in the preceding fiscal year, adjusted and compounded by an amount equal to the percentage increase in the appropriations limit for the State established pursuant to Article XIII B. [New section adopted November 6, 1990. Initiative measure.]

[Bills and Statutes—30-day Waiting Period]

Sec. 8. (a) At regular sessions no bill other than the budget bill may be heard or acted on by committee or either house until the 31st day after the bill is introduced unless the house dispenses with this requirement by rollcall vote entered in the journal, three fourths of the membership concurring.
(b) The Legislature may make no law except by statute and may enact no statute except by bill. No bill may be passed unless it is read by title on 3 days in each house except that the house may dispense with this requirement by rollcall vote entered in the journal, two thirds of the membership concurring. No bill may be passed until the bill with amendments has been printed and distributed to the members. No bill may be passed unless, by rollcall vote entered in the journal, a majority of the membership of each house concurs.

(c) (1) Except as provided in paragraphs (2) and (3) of this subdivision, a statute enacted at a regular session shall go into effect on January 1 next following a 90-day period from the date of enactment of the statute and a statute enacted at a special session shall go into effect on the 91st day after adjournment of the special session at which the bill was passed.

(2) A statute, other than a statute establishing or changing boundaries of any legislative, congressional, or other election district, enacted by a bill passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, shall go into effect on January 1 next following the enactment date of the statute unless, before January 1, a copy of a referendum petition affecting the statute is submitted to the Attorney General pursuant to subdivision (d) of Section 10 of Article II, in which event the statute shall go into effect on the 91st day after the enactment date unless the petition has been presented to the Secretary of State pursuant to subdivision (b) of Section 9 of Article II.

(3) Statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes shall go into effect immediately upon their enactment.

(d) Urgency statutes are those necessary for immediate preservation of the public peace, health, or safety. A statement of facts constituting the necessity shall be set forth in one section of the bill. In each house the section and the bill shall be passed separately, each by rollcall vote entered in the journal, two thirds of the membership concurring. An urgency statute may not create or abolish any office or change the salary, term, or duties of any office, or grant any franchise or special privilege, or create any vested right or interest. [As amended June 5, 1990.]
SEC. 8.5. An act amending an initiative statute, an act providing for the issuance of bonds, or a constitutional amendment proposed by the Legislature and submitted to the voters for approval may not do either of the following:

(a) Include or exclude any political subdivision of the State from the application or effect of its provisions based upon approval or disapproval of the measure, or based upon the casting of a specified percentage of votes in favor of the measure, by the electors of that political subdivision.

(b) Contain alternative or cumulative provisions wherein one or more of those provisions would become law depending upon the casting of a specified percentage of votes for or against the measure. [New section adopted June 2, 1998.]

SEC. 9. [Repealed November 8, 1966. See Section 9, below.]

SEC. 9. A statute shall embrace but one subject, which shall be expressed in its title. If a statute embraces a subject not expressed in its title, only the part not expressed is void. A statute may not be amended by reference to its title. A section of a statute may not be amended unless the section is re-enacted as amended. [New section adopted November 8, 1966.]

SEC. 10. (a) Each bill passed by the Legislature shall be presented to the Governor. It becomes a statute if it is signed by the Governor. The Governor may veto it by returning it with any objections to the house of origin, which shall enter the objections in the journal and proceed to reconsider it. If each house then passes the bill by rollcall vote entered in the journal, two thirds of the membership concurring, it becomes a statute.

(b) (1) Any bill, other than a bill which would establish or change boundaries of any legislative, congressional, or other election district, passed by the Legislature on or before the date the Legislature adjourns for a joint recess to reconvene in the second calendar year of the biennium of the legislative session, and in the possession of the Governor after that date, that is not returned within 30 days after that date becomes a statute.

(2) Any bill passed by the Legislature before September 1 of the second calendar year of the biennium of the legislative session and in the possession of the Governor on or after September 1 that is not returned on or before September 30 of that year becomes a statute.

(3) Any other bill presented to the Governor that is not returned within 12 days becomes a statute.

(4) If the Legislature by adjournment of a special session prevents the return of a bill with the veto message, the bill becomes a statute unless the
Governor vetoes the bill within 12 days after it is presented by depositing it and the veto message in the office of the Secretary of State.

(5) If the 12th day of the period within which the Governor is required to perform an act pursuant to paragraph (3) or (4) of this subdivision is a Saturday, Sunday, or holiday, the period is extended to the next day that is not a Saturday, Sunday, or holiday.

(c) Any bill introduced during the first year of the biennium of the legislative session that has not been passed by the house of origin by January 31 of the second calendar year of the biennium may no longer be acted on by the house. No bill may be passed by either house on or after September 1 of an even-numbered year except statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes, and bills passed after being vetoed by the Governor.

(d) The Legislature may not present any bill to the Governor after November 15 of the second calendar year of the biennium of the legislative session.

(e) The Governor may reduce or eliminate one or more items of appropriation while approving other portions of a bill. The Governor shall append to the bill a statement of the items reduced or eliminated with the reasons for the action. The Governor shall transmit to the house originating the bill a copy of the statement and reasons. Items reduced or eliminated shall be separately reconsidered and may be passed over the Governor’s veto in the same manner as bills. [As amended June 5, 1990.]

SEC. 11. If recommended expenditures exceed estimated revenues, the Governor shall recommend the sources from which the additional revenues should be provided.

(b) The Governor and the Governor-elect may require a state agency, officer or employee to furnish whatever information is deemed necessary to prepare the budget.
(c) The budget shall be accompanied by a budget bill itemizing recommended expenditures. The bill shall be introduced immediately in each house by the persons chairing the committees that consider appropriations. The Legislature shall pass the budget bill by midnight on June 15 of each year. Until the budget bill has been enacted, the Legislature shall not send to the Governor for consideration any bill appropriating funds for expenditure during the fiscal year for which the budget bill is to be enacted, except emergency bills recommended by the Governor or appropriations for the salaries and expenses of the Legislature.

(d) No bill except the budget bill may contain more than one item of appropriation, and that for one certain, expressed purpose. Appropriations from the General Fund of the State, except appropriations for the public schools, are void unless passed in each house by rollcall vote entered in the journal, two thirds of the membership concurring.

(e) The Legislature may control the submission, approval, and enforcement of budgets and the filing of claims for all state agencies. [As amended June 4, 1974, and November 5, 1974.]

a vacancy in office by appointment until a successor qualifies.

(b) Whenever there is a vacancy in the office of the Superintendent of
Public Instruction, the Lieutenant Governor, Secretary of State, Controller,
Treasurer, or Attorney General, or on the State Board of Equalization, the
Governor shall nominate a person to fill the vacancy who shall take office
upon confirmation by a majority of the membership of the Senate and a
majority of the membership of the Assembly and who shall hold office for
the balance of the unexpired term. In the event the nominee is neither con-
firmed nor refused confirmation by both the Senate and the Assembly
within 90 days of the submission of the nomination, the nominee shall take
office as if he or she had been confirmed by a majority of the Senate and
Assembly; provided, that if such 90-day period ends during a recess of the
Legislature, the period shall be extended until the sixth day following the

1976.]

Sec. 6. [Repealed November 8, 1966. See Section 6, below.]

[Reprieves—Pardons—Commutations]

SEC. 8. (a) Subject to application procedures provided by statute, the Governor, on conditions the Governor deems proper, may grant a reprieve, pardon, and commutation, after sentence, except in case of impeachment. The Governor shall report to the Legislature each reprieve, pardon, and commutation granted, stating the pertinent facts and the reasons for granting it. The Governor may not grant a pardon or commutation to a person twice convicted of a felony except on recommendation of the Supreme Court, 4 judges concurring.

(b) No decision of the parole authority of this State with respect to the granting, denial, revocation, or suspension of parole of a person sentenced to an indeterminate term upon conviction of murder shall become effective for a period of 30 days, during which the Governor may review the decision subject to procedures provided by statute. The Governor may only affirm, modify, or reverse the decision of the parole authority on the basis of the same factors which the parole authority is required to consider. SEC. 12. [Repealed June 5, 1990.]

[Attorney General—Chief Law Officer]

SEC. 13. Subject to the powers and duties of the Governor, the Attorney General shall be the chief law officer of the State. It shall be the duty of the Attorney General to see that the laws of the State are uniformly and adequately enforced. The Attorney General shall have direct supervision over every district attorney and sheriff and over such other law enforcement officers as may be designated by law, in all matters pertaining to the duties of their respective offices, and may require any of said officers to make reports concerning the investigation, detection, prosecution, and punishment of crime in their respective jurisdictions as to the Attorney General may seem advisable. Whenever in the opinion of the Attorney General any law of the State is not being adequately enforced in any county, it shall be the duty of the Attorney General to prosecute any violations of law of which the superior court shall have jurisdiction, and in such cases the Attorney General shall have all the powers of a district attorney. When required by the public interest or directed by the Governor, the Attorney General shall assist any district attorney in the discharge of the duties of that office. [As amended November 5, 1974.]

[State Officers—Conflict of Interest—Prohibited Compensation—Earned Income]

SEC. 14. (a) To eliminate any appearance of a conflict with the proper discharge of his or her duties and responsibilities, no state officer may knowingly receive any salary, wages, commissions, or other similar earned income from a lobbyist or lobbying firm, as defined by the Political Reform Act of 1974, or from a person who, during the previous 12 months, has been under a contract with the state agency under the jurisdiction of the state officer. The Legislature shall enact laws that define earned income. However, earned income does not include any community property interest in the income of a spouse. Any state officer who knowingly receives any salary, wages, commissions, or other similar earned income from a lobbyist employer, as defined by the Political Reform Act of 1974,
may not, for a period of one year following its receipt, vote upon or make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the agency for which the state officer serves, other than an action or decision involving a bill described in subdivision (c) of Section 12 of Article IV, which he or she knows, or has reason to know, would have a direct and significant financial impact on the lobbyist employer and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, “public generally” includes an industry, trade, or profession.

[State Officers—Honoraria]
(b) No state officer may accept any honorarium. The Legislature shall enact laws that implement this subdivision.

[State Officers—Gifts—Conflict of Interest]
(c) The Legislature shall enact laws that ban or strictly limit the acceptance of a gift by a state officer from any source if the acceptance of the gift might create a conflict of interest.

[State Officers—Prohibited Compensation or Activity]
(d) No state officer may knowingly accept any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any state government board or agency. If a state officer knowingly accepts any compensation for appearing, agreeing to appear, or taking any other action on behalf of another person before any local government board or agency, the state officer may not, for a period of one year following the acceptance of the compensation, make, participate in making, or in any way attempt to use his or her official position to influence an action or decision before the state agency for which the state officer serves, other than an action or decision involving a bill described in subdivision (c) of Section 12 of Article IV, which he or she knows, or has reason to know, would have a direct and significant financial impact on that person and would not impact the public generally or a significant segment of the public in a similar manner. As used in this subdivision, “public generally” includes an industry, trade, or profession. However, a state officer may engage in activities involving a board or agency which are strictly on his or her own behalf, appear in the capacity of an attorney before any court or the Workers’ Compensation Appeals Board, or act as an advocate without compensation or make an inquiry for information on behalf of a person before a board or agency. This subdivision does not prohibit any action of a partnership or firm of which the state officer is a member if the state officer does not share directly or indirectly in the fee, less any expenses attributable to that fee, resulting from that action.
State Officers—Lobbying

(e) The Legislature shall enact laws that prohibit a state officer, or a secretary of an agency or director of a department appointed by the Governor, who has not resigned or retired from state service prior to January 7, 1991, from lobbying, for compensation, as governed by the Political Reform Act of 1974, before the executive branch of state government for 12 months after leaving office.

beginning the Monday after January 1 following their election, except that
a judge elected to an unexpired term serves the remainder of the term. In
creating a new court of appeal district or division the Legislature shall pro-
vide that the first elective terms are 4, 8, and 12 years.

(b) Judges of superior courts shall be elected in their counties at general
elections except as otherwise necessary to meet the requirements of fed-
eral law. In the latter case the Legislature, by two-thirds vote of the mem-
bership of each house thereof, with the advice of judges within the affected
court, may provide for their election by the system prescribed in subdivi-
dion (d), or by any other arrangement. The Legislature may provide that an
unopposed incumbent’s name not appear on the ballot.

(c) Terms of judges of superior courts are six years beginning the Mon-
day after January 1 following their election. A vacancy shall be filled by
election to a full term at the next general election after the second January 1 following the vacancy, but the Governor shall appoint a person to fill the vacancy temporarily until the elected judge’s term begins.

(d) (1) Within 30 days before August 16 preceding the expiration of the judge’s term, a judge of the Supreme Court or a court of appeal may file a declaration of candidacy to succeed to the office presently held by the judge. (2) The Governor shall fill vacancies in those courts by appointment. A judge of a trial court of record may, however, become eligible for election to other public office by taking a leave of absence without pay prior to filing a declaration of candidacy. Acceptance of the public office is a resignation from the office of judge.

A judicial officer may not receive fines or fees for personal use.

A judicial officer may not earn retirement service credit from a public teaching position while holding judicial office. [As amended November 8, 1988.]

[Judges—Discipline]

SEC. 18. (a) A judge is disqualified from acting as a judge, without loss of salary, while there is pending (1) an indictment or an information charging the judge in the United States with a crime punishable as a felony
under California or federal law, or (2) a petition to the Supreme Court to review a determination by the Commission on Judicial Performance to remove or retire a judge.

(b) The Commission on Judicial Performance may disqualify a judge from acting as a judge, without loss of salary, upon notice of formal proceedings by the commission charging the judge with judicial misconduct or disability.

(c) The Commission on Judicial Performance shall suspend a judge from office without salary when in the United States the judge pleads guilty or no contest or is found guilty of a crime punishable as a felony under California or federal law or of any other crime that involves moral turpitude under that law. If the conviction is reversed, suspension terminates, and the judge shall be paid the salary for the judicial office held by the judge for the period of suspension. If the judge is suspended and the conviction becomes final, the Commission on Judicial Performance shall remove the judge from office.

(d) Except as provided in subdivision (f), the Commission on Judicial Performance may (1) retire a judge for disability that seriously interferes with the performance of the judge’s duties and is or is likely to become permanent, or (2) censure a judge or former judge or remove a judge for action occurring not more than 6 years prior to the commencement of the judge’s current term or of the former judge’s last term that constitutes willful misconduct in office, persistent failure or inability to perform the judge’s duties, habitual intemperance in the use of intoxicants or drugs, or conduct prejudicial to the administration of justice that brings the judicial office into disrepute, or (3) publicly or privately admonish a judge or former judge found to have engaged in an improper action or dereliction of duty. The commission may also bar a former judge who has been censured from receiving an assignment, appointment, or reference of work from any California state court. Upon petition by the judge or former judge, the Supreme Court may, in its discretion, grant review of a determination by the commission to retire, remove, censure, admonish, or disqualify pursuant to subdivision (b) a judge or former judge. When the Supreme Court reviews a determination of the commission, it may make an independent review of the record. If the Supreme Court has not acted within 120 days after granting the petition, the decision of the commission shall be final.

(e) A judge retired by the commission shall be considered to have retired voluntarily. A judge removed by the commission is ineligible for judicial office, including receiving an assignment, appointment, or reference of work from any California state court, and pending further order of the court is suspended from practicing law in this State. The State Bar may in-
stitute appropriate attorney disciplinary proceedings against any judge who retires or resigns from office with judicial disciplinary charges pending.

(f) A determination by the Commission on Judicial Performance to admonish or censure a judge or former judge of the Supreme Court or remove or retire a judge of the Supreme Court shall be reviewed by a tribunal of 7 court of appeal judges selected by lot.

(g) No court, except the Supreme Court, shall have jurisdiction in a civil action or other legal proceeding of any sort brought against the commission by a judge. Any request for injunctive relief or other provisional remedy shall be granted or denied within 90 days of the filing of the request for relief. A failure to comply with the time requirements of this section does not affect the validity of commission proceedings.

(h) Members of the commission, the commission staff, and the examiners and investigators employed by the commission shall be absolutely immune from suit for all conduct at any time in the course of their official duties. No civil action may be maintained against a person, or adverse employment action taken against a person, by any employer, public or private, based on statements presented by the person to the commission.

(i) The Commission on Judicial Performance shall make rules implementing this section, including, but not limited to, the following:

(1) The commission shall make rules for the investigation of judges. The commission may provide for the confidentiality of complaints to and investigations by the commission.

(2) The commission shall make rules for formal proceedings against judges when there is cause to believe there is a disability or wrongdoing within the meaning of subdivision (d).

(j) When the commission institutes formal proceedings, the notice of charges, the answer, and all subsequent papers and proceedings shall be open to the public for all formal proceedings instituted after February 28, 1995.

(k) The commission may make explanatory statements.

(l) The budget of the commission shall be separate from the budget of any other state agency or court.

(m) The Supreme Court shall make rules for the conduct of judges, both on and off the bench, and for judicial candidates in the conduct of their campaigns. These rules shall be referred to as the Code of Judicial Ethics. [As amended November 8, 1994. Operative March 1, 1995.]

Subordinate Judicial Officers—Discipline

SEC. 18.1. The Commission on Judicial Performance shall exercise discretionary jurisdiction with regard to the oversight and discipline of subordinate judicial officers, according to the same standards, and subject to review upon petition to the Supreme Court, as specified in Section 18.
No person who has been found unfit to serve as a subordinate judicial officer after a hearing before the Commission on Judicial Performance shall have the requisite status to serve as a subordinate judicial officer.

This section does not diminish or eliminate the responsibility of a court to exercise initial jurisdiction to discipline or dismiss a subordinate judicial officer as its employee. [New section adopted June 2, 1998.]

**SEC. 18.5.** (a) Upon request, the Commission on Judicial Performance shall provide to the Governor of any State of the Union the text of any private admonishment, advisory letter, or other disciplinary action together with any information that the Commission on Judicial Performance deems necessary to a full understanding of the commission’s action, with respect to any applicant whom the Governor of any State of the Union indicates is under consideration for any judicial appointment.

(b) Upon request, the Commission on Judicial Performance shall provide the President of the United States the text of any private admonishment, advisory letter, or other disciplinary action together with any information that the Commission on Judicial Performance deems necessary to a full understanding of the commission’s action, with respect to any applicant whom the President indicates is under consideration for any federal judicial appointment.

[Elected Officials—Disqualification for Libelous or Slanderous Campaign Statements]

A libelous or slanderous statement shall be deemed to have been made by a person within the meaning of this section if that person actually made the statement or if the person actually or constructively assented to, authorized, or ratified the statement.

"Federal office," as used in this section means the office of United States Senator and Member of the House of Representatives; and to the extent that the provisions of this section do not conflict with any provision of federal law, it is intended that candidates seeking the office of United States Senator or Member of the House of Representatives comply with this section.

(b) In order to determine whether libelous or slanderous statements were a major contributing cause in the defeat of an opposing candidate, the trier of fact shall make a separate, distinct finding on that issue. If the trier of fact finds that libel or slander was a major contributing cause in the defeat of an opposing candidate and that the libelous or slanderous statement was made with knowledge that it was false or with reckless disregard of
whether it was false or true, the person holding office shall be disqualified 
from or shall forfeit that office as provided in subdivision (d). The findings 
required by this section shall be in writing and shall be incorporated as part 
of the judgment.

(c) In a case where a person is disqualified from holding office or is re-
quired to forfeit an office under subdivisions (a) and (b), that disqualifi-
cation or forfeiture shall create a vacancy in office, which vacancy shall be 
filled in the manner provided by law for the filling of a vacancy in that par-
ticular office.

d) Once the judgment of liability is entered by the trial court and the 
time for filing a notice of appeal has expired, or all possibility of direct 
attack in the courts of this State has been finally exhausted, the person 
shall be disqualified from or shall forfeit the office involved in that elec-
tion and shall have no authority to exercise the powers or perform the du-
ties of the office.

(e) This section shall apply to libelous or slanderous statements made 
on or after the effective date of this section. [New section adopted June 5, 
1984.]

or to any beneficiary or survivor of such a person, which exceeds the 
higher of (1) the salary receivable by the person currently serving in the 
office in which the retired person served or (2) the highest salary that was 
received by the retired person while serving in that office.

(b) The Judges’ Retirement System shall not pay any unmodified re-
tirement allowance or its actuarial equivalent to any person who on or after 
January 1, 1987, entered for the first time any judicial office subject to the 
Judges’ Retirement System or to any beneficiary or survivor of such a per-
ton, which exceeds the higher of (1) the salary receivable by the person 
currently serving in the judicial office in which the retired person served 
or (2) the highest salary that was received by the retired person while serv-
ing in that judicial office.

(c) The Legislature may define the terms used in this section.

(d) If any part of this measure or the application to any person or cir-

aplications which reasonably can be given effect without the invalid pro-
vision or application. [As amended November 6, 1990. Initiative measure.]

[Taxation of Local Government Real Property]

SEC. 11. (a) Lands owned by a local government that are outside its
boundaries, including rights to use or divert water from surface or under-
ground sources and any other interests in lands, are taxable if (1) they are
located in Inyo or Mono County and (a) they were assessed for taxation to
the local government in Inyo County as of the 1966 lien date, or in Mono
County as of the 1967 lien date, whether or not the assessment was valid
when made, or (b) they were acquired by the local government subsequent
to that lien date and were assessed to a prior owner as of that lien date and
each lien date thereafter, or (2) they are located outside Inyo or Mono
County and were taxable when acquired by the local government. Im-
provements owned by a local government that are outside its boundaries
are taxable if they were taxable when acquired or were constructed by the
local government to replace improvements which were taxable when ac-
(i)
(b) Taxable land belonging to a local government and located in Inyo
County shall be assessed in any year subsequent to 1968 at the place where
it was assessed as of the 1966 lien date and in an amount derived by mul-
tiplying its 1966 assessed value by the ratio of the statewide per capita as-
sessed value of land as of the last lien date prior to the current lien date to
$766, using civilian population only. Taxable land belonging to a local
government and located in Mono County shall be assessed in any year
subsequent to 1968 at the place where it was assessed as of the 1967 lien
date and in an amount determined by the preceding formula except that the
1967 lien date, the 1967 assessed value, and the figure $856 shall be used
in the formula. Taxable land belonging to a local government and located
outside of Inyo and Mono counties shall be assessed at the place where lo-
cated and in an amount that does not exceed the lower of (1) its fair market
value times the prevailing percentage of fair market value at which other
lands are assessed and (2) a figure derived in the manner specified in this
Section for land located in Mono County.

If land acquired by a local government after the lien date of the base
year specified in this Section was assessed in the base year as part of a
larger parcel, the assessed value of the part in the base year shall be that
fraction of the assessed value of the larger parcel that the area of the part
is of the area of the larger parcel.

If a local government divests itself of ownership of land without water
rights and this land was assessed in Inyo County as of the 1966 lien date
or in Mono County as of the 1967 lien date, the divestment shall not di-
minish the quantity of water rights assessable and taxable at the place
where assessed as of that lien date.

(c) In the event the Legislature changes the prevailing percentage of
fair market value at which land is assessed for taxation, there shall be used
in the computations required by Section 11(b) of this Article, for the first
year for which the new percentage is applicable, in lieu of the statewide
per capita assessed value of land as of the last lien date prior to the current
lien date, the statewide per capita assessed value of land on the prior lien
date times the ratio of the new prevailing percentage of fair market value
to the previous prevailing percentage.

(d) If, after March 1954, a taxable improvement is replaced while
owned by and in possession of a local government, the replacement im-
provement shall be assessed, as long as it is owned by a local government,
as other improvements are except that the assessed value shall not exceed
the product of (1) the percentage at which privately owned improvements
are assessed times (2) the highest full value ever used for taxation of the
improvement that has been replaced. For purposes of this calculation, the
full value for any year prior to 1967 shall be conclusively presumed to be 4 times the assessed value in that year.

(e) No tax, charge, assessment, or levy of any character, other than those taxes authorized by Sections 11(a) to 11(d), inclusive, of this Article, shall be imposed upon one local government by another local government that is based or calculated upon the consumption or use of water outside the boundaries of the government imposing it.

(f) Any taxable interest of any character, other than a lease for agricultural purposes and an interest of a local government, in any land owned by a local government that is subject to taxation pursuant to Section 11(a) of this Article shall be taxed in the same manner as other taxable interests. The aggregate value of all the interests subject to taxation pursuant to Section 11(a), however, shall not exceed the value of all interests in the landless the taxable value of the interest of any local government ascertained as provided in Sections 11(a) to 11(e), inclusive, of this Article.

(g) Any assessment made pursuant to Sections 11(a) to 11(d), inclusive, of this Article shall be subject to review, equalization, and adjustment by the State Board of Equalization, but an adjustment shall conform to the provisions of these Sections. [New section adopted November 5, 1974.]

[Unsecured Property Tax Rate]

SEC. 12. (a) Except as provided in subdivision (b), taxes on personal property, possessory interests in land, and taxable improvements located on land exempt from taxation which are not a lien upon land sufficient in value to secure their payment shall be levied at the rates for the preceding tax year upon property of the same kind where the taxes were a lien upon land sufficient in value to secure their payment.

(b) In any year in which the assessment ratio is changed, the Legislature shall adjust the rate described in subdivision (a) to maintain equality between property on the secured and unsecured rolls. [As amended November 2, 1976.]

Two or more county boards of supervisors may jointly create one or more assessment appeals boards which shall constitute the county board of equalization for each of the participating counties.

Except as provided in subdivision (g) of Section 11, the county board of equalization, under such rules of notice as the county board may prescribe, shall equalize the values of all property on the local assessment roll by adjusting individual assessments.

County boards of supervisors shall fix the compensation for members of assessment appeals boards, furnish clerical and other assistance for those boards, adopt rules of notice and procedures for those boards as may be required to facilitate their work and to insure uniformity in the processing and decision of equalization petitions, and may provide for their discontinuance.

The Legislature shall provide for: (a) the number and qualifications of members of assessment appeals boards, the manner of selecting, appointing, and removing them, and the terms for which they serve, and (b) the procedure by which two or more county boards of supervisors may jointly create one or more assessment appeals boards. In the event a property tax is levied by the State, however, the effects of unequalized local assessment levels, to the extent any remain after such adjustments, shall be corrected for purposes of distributing this tax by equalizing the assessment levels of locally and state-assessed properties and varying the rate of the state tax inversely with the counties' respective assessment levels. [New section adopted November 5, 1974.]

This property shall be subject to taxation to the same extent and in the same manner as other property.

No other tax or license charge may be imposed on these companies which differs from that imposed on mercantile, manufacturing, and other business corporations. This restriction does not release a utility company from payments agreed on or required by law for a special privilege or franchise granted by a government body.

The Legislature may authorize Board assessment of property owned or used by other public utilities.

The Board may delegate to a local assessor the duty to assess a property used but not owned by a state assessee on which the taxes are to be paid by a local assessee. [New section adopted November 5, 1974.]

In the case of an insurer transacting title insurance in this State, the “basis of the annual tax” is, in respect to each year, all income upon business done in this State, except:

1. Interest and dividends.

3. Profits from the sale or other disposition of investments.
4. Income from investments.

The provisions of this paragraph (3) of subdivision (f) shall not apply as to personal income taxes, nor as to ad valorem taxes on real or personal property nor as to special purpose obligations or assessments heretofore imposed by another state or foreign country in connection with particular
kinds of insurance, other than property insurance; except that deductions,
from premium taxes or other taxes otherwise payable, allowed on account
of real estate or personal property taxes paid shall be taken into consid-
eration in determining the propriety and extent of retaliatory action under
this paragraph (3) of subdivision (f).

For the purposes of this paragraph (3) of subdivision (f) the domicile of
an alien insurer, other than insurers formed under the laws of Canada, shall
be that state in which is located its principal place of business in the United
States.

In the case of an insurer formed under the laws of Canada or a province
thereof, its domicile shall be deemed to be that province in which its head
office is situated.

The provisions of this paragraph (3) of subdivision (f) shall also be ap-
licable to reciprocals or interinsurance exchanges and fraternal benefit
societies.

(4) The tax on ocean marine insurance.

(5) Motor vehicle and other vehicle registration license fees and any
other tax or license fee imposed by the State upon vehicles, motor vehicles
or the operation thereof.

derived from its principal business as attorney in fact.

A corporate or other attorney in fact of each exchange shall annually
compute the amount of tax that would be payable by it under prevailing
law except for the provisions of this section, and any management fee due
from each exchange to its corporate or other attorney in fact shall be re-
duced pro tanto by a sum equivalent to the amount so computed.

(g) Every insurer transacting the business of ocean marine insurance in
this State shall annually pay to the State a tax measured by that proportion
of the underwriting profit of such insurer from such insurance written in
the United States, which the gross premiums of the insurer from such in-
surance written in this State bear to the gross premiums of the insurer from
such insurance written within the United States, at the rate of 5 per cen-
tum, which tax shall be in lieu of all other taxes and licenses, state, county
and municipal, upon such insurer, except taxes upon real estate, and such
other taxes as may be assessed or levied against such insurer on account of
any other class of insurance written by it. The Legislature shall define the
terms “ocean marine insurance” and “underwriting profit,” and shall pro-
vide for the assessment, levy, collection and enforcement of the ocean ma-
rine tax.

(h) The taxes provided for by this section shall be assessed by the State
Board of Equalization.
(i) The Legislature, a majority of all the members elected to each of the two houses voting in favor thereof, may by law change the rate or rates of taxes herein imposed upon insurers.

(j) This section is not intended to and does not change the law as it has previously existed with respect to the meaning of the words “gross premiums, less return premiums, received” as used in this article. [As amended June 8, 1976.]

[Local Government Tax Sharing]

Sec. 29. (a) The Legislature may authorize counties, cities and counties, and cities to enter into contracts to apportion between them the revenue derived from any sales or use tax imposed by them that is collected for them by the State. Before the contract becomes operative, it shall be authorized by a majority of those voting on the question in each jurisdiction at a general or direct primary election.

(b) Notwithstanding subdivision (a), on and after the operative date of this subdivision, counties, cities and counties, and cities may enter into contracts to apportion between them the revenue derived from any sales or use tax imposed by them pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law, or any successor provisions, that is collected for them by the State, if the ordinance or resolution proposing each contract is approved by a two-thirds vote of the governing body of each jurisdiction that is a party to the contract. [As amended November 3, 1998.]

[Tax Liens—Presumption of Payment of Taxes]

Sec. 30. Every tax shall be conclusively presumed to have been paid after 30 years from the time it became a lien unless the property subject to the lien has been sold in the manner provided by the Legislature for the payment of the tax. [New section adopted November 5, 1974.]

[Power to Tax]

[New section adopted November 3, 1992. Operative January 1, 1993. Initiative measure.]

Sec. 35. (a) The people of the State of California find and declare all of the following:

(1) Public safety services are critically important to the security and well-being of the State’s citizens and to the growth and revitalization of the State’s economic base.

(2) The protection of the public safety is the first responsibility of local government and local officials have an obligation to give priority to the provision of adequate public safety services.

(3) In order to assist local government in maintaining a sufficient level of public safety services, the proceeds of the tax enacted pursuant to this section shall be designated exclusively for public safety.

(b) In addition to any sales and use taxes imposed by the Legislature, the following sales and use taxes are hereby imposed:

(1) For the privilege of selling tangible personal property at retail, a tax is hereby imposed upon all retailers at the rate of \( \frac{1}{2} \) percent of the gross receipts of any retailer from the sale of all tangible personal property sold at retail in this State on and after January 1, 1994.

(2) An excise tax is hereby imposed on the storage, use, or other consumption in this State of tangible personal property purchased from any retailer on and after January 1, 1994, for storage, use, or other consumption in this State at the rate of \( \frac{1}{2} \) percent of the sales price of the property.

ARTICLE XIII A*

TAX LIMITATION

[Maximum Ad Valorem Tax on Real Property—Apportionment of Tax Revenues]

SECTION 1. (a) The maximum amount of any ad valorem tax on real property shall not exceed One percent (1%) of the full cash value of such property. The one percent (1%) tax to be collected by the counties and apportioned according to law to the districts within the counties.

[Exceptions to Limitation]

(b) The limitation provided for in subdivision (a) shall not apply to ad valorem taxes or special assessments to pay the interest and redemption charges on any of the following:

1. Indebtedness approved by the voters prior to July 1, 1978.
2. Bonded indebtedness for the acquisition or improvement of real property approved on or after July 1, 1978, by two-thirds of the votes cast by the voters voting on the proposition.
3. Bonded indebtedness incurred by a school district, community college district, or county office of education for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, approved by 55 percent of the voters of

the district or county, as appropriate, voting on the proposition on or after the effective date of the measure adding this paragraph. This paragraph shall apply only if the proposition approved by the voters and resulting in the bonded indebtedness includes all of the following accountability requirements:

(A) A requirement that the proceeds from the sale of the bonds be used only for the purposes specified in Article XIII A, Section 1(b)(3), and not for any other purpose, including teacher and administrator salaries and other school operating expenses.

(B) A list of the specific school facilities projects to be funded and certification that the school district board, community college board, or county office of education has evaluated safety, class size reduction, and information technology needs in developing that list.

(C) A requirement that the school district board, community college board, or county office of education conduct an annual, independent performance audit to ensure that the funds have been expended only on the specific projects listed.

(D) A requirement that the school district board, community college board, or county office of education conduct an annual, independent financial audit of the proceeds from the sale of the bonds until all of those proceeds have been expended for the school facilities projects.

(c) Notwithstanding any other provisions of law or of this Constitution, school districts, community college districts, and county offices of education may levy a 55 percent vote ad valorem tax pursuant to subdivision (b). [As amended November 7, 2000. Initiative measure.]

[Valuation of Real Property—Appraised Value After 1975 Assessment—Replacement Dwelling]

SEC. 2. (a) The “full cash value” means the county assessor’s valuation of real property as shown on the 1975–76 tax bill under “full cash value” or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. All real property not already assessed up to the 1975–76 full cash value may be reassessed to reflect that valuation. For purposes of this section, “newly constructed” does not include real property that is reconstructed after a disaster, as declared by the Governor, where the fair market value of the real property, as reconstructed, is comparable to its fair market value prior to the disaster. Also, the term “newly constructed” does not include the portion of reconstruction or improvement to a structure, constructed of unreinforced masonry bearing wall construction, necessary to comply with any local ordinance relating to seismic safety during the first 15 years following that reconstruction or improvement.
However, the Legislature may provide that, under appropriate circumstances and pursuant to definitions and procedures established by the Legislature, any person over the age of 55 years who resides in property that is eligible for the homeowner’s exemption under subdivision (k) of Section 3 of Article XIII and any implementing legislation may transfer the base year value of the property entitled to exemption, with the adjustments authorized by subdivision (b), to any replacement dwelling of equal or lesser value located within the same county and purchased or newly constructed by that person as his or her principal residence within two years of the sale of the original property. For purposes of this section, “any person over the age of 55 years” includes a married couple one member of which is over the age of 55 years. For purposes of this section, “replacement dwelling” means a building, structure, or other shelter constituting a place of abode, whether real property or personal property, and any land on which it may be situated. For purposes of this section, a two-dwelling unit shall be considered as two separate single-family dwellings. This paragraph shall apply to any replacement dwelling that was purchased or newly constructed on or after November 5, 1986.

In addition, the Legislature may authorize each county board of supervisors, after consultation with the local affected agencies within the county’s boundaries, to adopt an ordinance making the provisions of this subdivision relating to transfer of base year value also applicable to situations in which the replacement dwellings are located in that county and the original properties are located in another county within this State. For purposes of this paragraph, “local affected agency” means any city, special district, school district, or community college district that receives an annual property tax revenue allocation. This paragraph shall apply to any replacement dwelling that was purchased or newly constructed on or after the date the county adopted the provisions of this subdivision relating to transfer of base year value, but shall not apply to any replacement dwelling that was purchased or newly constructed before November 9, 1988.

The Legislature may extend the provisions of this subdivision relating to the transfer of base year values from original properties to replacement dwellings of homeowners over the age of 55 years to severely disabled homeowners, but only with respect to those replacement dwellings purchased or newly constructed on or after the effective date of this paragraph.

[Full Cash Value Reflecting Inflationary Rate]

(b) The full cash value base may reflect from year to year the inflationary rate not to exceed 2 percent for any given year or reduction as shown in the consumer price index or comparable data for the area under taxing jurisdiction, or may be reduced to reflect substantial damage, destruction, or other factors causing a decline in value.
(c) For purposes of subdivision (a), the Legislature may provide that the term “newly constructed” does not include any of the following:

(1) The construction or addition of any active solar energy system.

(2) The construction or installation of any fire sprinkler system, other fire extinguishing system, fire detection system, or fire-related egress improvement, as defined by the Legislature, that is constructed or installed after the effective date of this paragraph.

(3) The construction, installation, or modification on or after the effective date of this paragraph of any portion or structural component of a single- or multiple-family dwelling that is eligible for the homeowner’s exemption if the construction, installation, or modification is for the purpose of making the dwelling more accessible to a severely disabled person.

(4) The construction or installation of seismic retrofitting improvements or improvements utilizing earthquake hazard mitigation technologies, that are constructed or installed in existing buildings after the effective date of this paragraph. The Legislature shall define eligible improvements. This exclusion does not apply to seismic safety reconstruction or improvements that qualify for exclusion pursuant to the last sentence of the first paragraph of subdivision (a).

(5) The construction, installation, removal, or modification on or after the effective date of this paragraph of any portion or structural component of an existing building or structure if the construction, installation, removal, or modification is for the purpose of making the building more accessible to, or more usable by, a disabled person.

(d) For purposes of this section, the term “change in ownership” does not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action that has resulted in a judgment of inverse condemnation. The real property acquired shall be deemed comparable to the property replaced if it is similar in size, utility, and function, or if it conforms to state regulations defined by the Legislature governing the relocation of persons displaced by governmental actions. The provisions of this subdivision shall be applied to any property acquired after March 1, 1975, but shall affect only those assessments of that property that occur after the provisions of this subdivision take effect.

(e) (1) Notwithstanding any other provision of this section, the Legislature shall provide that the base year value of property that is substantially
damaged or destroyed by a disaster, as declared by the Governor, may be transferred to comparable property within the same county that is acquired or newly constructed as a replacement for the substantially damaged or destroyed property.

(2) Except as provided in paragraph (3), this subdivision shall apply to any comparable replacement property acquired or newly constructed on or after July 1, 1985, and to the determination of base year values for the 1985–86 fiscal year and fiscal years thereafter.

(3) In addition to the transfer of base year value of property within the same county that is permitted by paragraph (1), the Legislature may authorize each county board of supervisors to adopt, after consultation with affected local agencies within the county, an ordinance allowing the transfer of the base year value of property that is located within another county in the State and is substantially damaged or destroyed by a disaster, as declared by the Governor, to comparable replacement property of equal or lesser value that is located within the adopting county and is acquired or newly constructed within three years of the substantial damage or destruction of the original property as a replacement for that property. The scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to this paragraph shall not exceed the scope and amount of the benefit provided to a property owner by the transfer of base year value of property pursuant to subdivision (a). For purposes of this paragraph, “affected local agency” means any city, special district, school district, or community college district that receives an annual allocation of ad valorem property tax revenues. This paragraph shall apply to any comparable replacement property that is acquired or newly constructed as a replacement for property substantially damaged or destroyed by a disaster, as declared by the Governor, occurring on or after October 20, 1991, and to the determination of base year values for the 1991–92 fiscal year and fiscal years thereafter.

(f) For the purposes of subdivision (e):

(1) Property is substantially damaged or destroyed if it sustains physical damage amounting to more than 50 percent of its value immediately before the disaster. Damage includes a diminution in the value of property as a result of restricted access caused by the disaster.

(2) Replacement property is comparable to the property substantially damaged or destroyed if it is similar in size, utility, and function to the property that it replaces, and if the fair market value of the acquired property is comparable to the fair market value of the replaced property prior to the disaster.
[Real Property Transfers between Spouses]

(g) For purposes of subdivision (a), the terms “purchased” and “change in ownership” do not include the purchase or transfer of real property between spouses since March 1, 1975, including, but not limited to, all of the following:

1. Transfers to a trustee for the beneficial use of a spouse, or the surviving spouse of a deceased transferor, or by a trustee of such a trust to the spouse of the trustor.
2. Transfers to a spouse that take effect upon the death of a spouse.
3. Transfers to a spouse or former spouse in connection with a property settlement agreement or decree of dissolution of a marriage or legal separation.
4. The creation, transfer, or termination, solely between spouses, of any coowner’s interest.
5. The distribution of a legal entity’s property to a spouse or former spouse in exchange for the interest of the spouse in the legal entity in connection with a property settlement agreement or a decree of dissolution of a marriage or legal separation.

[Real Property Transfers between Family Members]

(h) (1) For purposes of subdivision (a), the terms “purchased” and “change in ownership” do not include the purchase or transfer of the principal residence of the transferor in the case of a purchase or transfer between parents and their children, as defined by the Legislature, and the purchase or transfer of the first one million dollars ($1,000,000) of the full cash value of all other real property between parents and their children, as defined by the Legislature. This subdivision shall apply to both voluntary transfers and transfers resulting from a court order or judicial decree.

2. (A) Subject to subparagraph (B), commencing with purchases or transfers that occur on or after the date upon which the measure adding this paragraph becomes effective, the exclusion established by paragraph (1) also applies to a purchase or transfer of real property between grandparents and their grandchild or grandchildren, as defined by the Legislature, that otherwise qualifies under paragraph (1), if all of the parents of that grandchild or those grandchildren, who qualify as the children of the grandparents, are deceased as of the date of the purchase or transfer.

(B) A purchase or transfer of a principal residence shall not be excluded pursuant to subparagraph (A) if the transferee grandchild or grandchildren also received a principal residence, or interest therein, through another purchase or transfer that was excludable pursuant to paragraph (1). The full cash value of any real property, other than a principal residence, that was transferred to the grandchild or grandchildren pursuant to a purchase or transfer that was excludable pursuant to paragraph (1), and the full cash value of a principal residence that fails to qualify for exclu-
sion as a result of the preceding sentence, shall be included in applying, for purposes of subparagraph (A), the one million dollar ($1,000,000) full cash value limit specified in paragraph (1).

[Contaminated Property]

(i) (1) Notwithstanding any other provision of this section, the Legislature shall provide with respect to a qualified contaminated property, as defined in paragraph (2), that either, but not both, of the following shall apply:

(A) (i) Subject to the limitation of clause (ii), the base year value of the qualified contaminated property, as adjusted as authorized by subdivision (b), may be transferred to a replacement property that is acquired or newly constructed as a replacement for the qualified contaminated property, if the replacement real property has a fair market value that is equal to or less than the fair market value of the qualified contaminated property if that property were not contaminated and, except as otherwise provided by this clause, is located within the same county. The base year value of the qualified contaminated property may be transferred to a replacement real property located within another county if the board of supervisors of that other county has, after consultation with the affected local agencies within that county, adopted a resolution authorizing an intercounty transfer of base year value as so described.

(ii) This subparagraph applies only to replacement property that is acquired or newly constructed within five years after ownership in the qualified contaminated property is sold or otherwise transferred.

(B) In the case in which the remediation of the environmental problems on the qualified contaminated property requires the destruction of, or results in substantial damage to, a structure located on that property, the term "new construction" does not include the repair of a substantially damaged structure, or the construction of a structure replacing a destroyed structure on the qualified contaminated property, performed after the remediation of the environmental problems on that property, provided that the repaired or replacement structure is similar in size, utility, and function to the original structure.

(2) For purposes of this subdivision, "qualified contaminated property" means residential or nonresidential real property that is all of the following:

(A) In the case of residential real property, rendered uninhabitable, and in the case of nonresidential real property, rendered unusable, as the result of either environmental problems, in the nature of and including, but not limited to, the presence of toxic or hazardous materials, or the remediation of those environmental problems, except where the existence of the environmental problems was known to the owner, or to a related individual or entity as described in paragraph (3), at the time the real property was ac-
quired or constructed. For purposes of this subparagraph, residential real property is “uninhabitable” if that property, as a result of health hazards caused by or associated with the environmental problems, is unfit for human habitation, and nonresidential real property is “unusable” if that property, as a result of health hazards caused by or associated with the environmental problems, is unhealthy and unsuitable for occupancy.

(B) Located on a site that has been designated as a toxic or environmental hazard or as an environmental cleanup site by an agency of the State of California or the federal government.

(C) Real property that contains a structure or structures thereon prior to the completion of environmental cleanup activities, and that structure or structures are substantially damaged or destroyed as a result of those environmental cleanup activities.

(D) Stipulated by the lead governmental agency, with respect to the environmental problems or environmental cleanup of the real property, not to have been rendered uninhabitable or unusable, as applicable, as described in subparagraph (A), by any act or omission in which an owner of that real property participated or acquiesced.

(3) It shall be rebuttably presumed that an owner of the real property participated or acquiesced in any act or omission that rendered the real property uninhabitable or unusable, as applicable, if that owner is related to any individual or entity that committed that act or omission in any of the following ways:

(A) Is a spouse, parent, child, grandparent, grandchild, or sibling of that individual.

(B) Is a corporate parent, subsidiary, or affiliate of that entity.

(C) Is an owner of, or has control of, that entity.

(D) Is owned or controlled by that entity.

If this presumption is not overcome, the owner shall not receive the relief provided for in subparagraph (A) or (B) of paragraph (1). The presumption may be overcome by presentation of satisfactory evidence to the assessor, who shall not be bound by the findings of the lead governmental agency in determining whether the presumption has been overcome.

(4) This subdivision applies only to replacement property that is acquired or constructed on or after January 1, 1995, and to property repairs performed on or after that date.

GOVERNMENT SPENDING LIMITATION

[Total Annual Appropriations]

SEC. 1. The total annual appropriations subject to limitation of the State and of each local government shall not exceed the appropriations limit of the entity of government for the prior year adjusted for the change in the cost of living and the change in population, except as otherwise provided in this article. [As amended June 5, 1990. Operative July 1, 1990.]

[Appropriations Limit Annual Calculation—Review]

SEC. 1.5. The annual calculation of the appropriations limit under this article for each entity of local government shall be reviewed as part of an annual financial audit. [New section adopted June 5, 1990. Operative July 1, 1990.]

[Revenues in Excess of Limitation]

SEC. 2. (a)(1) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be transferred and allocated, from a fund established for that purpose, pursuant to Section 8.5 of Article XVI.

(2) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years.

(b) All revenues received by an entity of government, other than the State, in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the entity in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years. [As amended June 5, 1990. Operative July 1, 1990.]

[Appropriations Limit—Adjustments]

SEC. 3. The appropriations limit for any fiscal year pursuant to Sec. 1 shall be adjusted as follows:

(a) In the event that the financial responsibility of providing services is transferred, in whole or in part, whether by annexation, incorporation or

otherwise, from one entity of government to another, then for the year in which such transfer becomes effective the appropriations limit of the transferee entity shall be increased by such reasonable amount as the said entities shall mutually agree and the appropriations limit of the transferor entity shall be decreased by the same amount.

(b) In the event that the financial responsibility of providing services is transferred, in whole or in part, from an entity of government to a private entity, or the financial source for the provision of services is transferred, in whole or in part, from other revenues of an entity of government, to regulatory licenses, user charges or user fees, then for the year of such transfer the appropriations limit of such entity of government shall be decreased accordingly.

(c) (1) In the event an emergency is declared by the legislative body of an entity of government, the appropriations limit of the affected entity of government may be exceeded provided that the appropriations limits in the following three years are reduced accordingly to prevent an aggregate increase in appropriations resulting from the emergency.

(2) In the event an emergency is declared by the Governor, appropriations approved by a two-thirds vote of the legislative body of an affected entity of government to an emergency account for expenditures relating to that emergency shall not constitute appropriations subject to limitation. As used in this paragraph, “emergency” means the existence, as declared by the Governor, of conditions of disaster or extreme peril to the safety of persons and property within the State, or parts thereof, caused by such conditions as attack or probable or imminent attack by an enemy of the United States, fire, flood, drought, storm, civil disorder, earthquake, or volcanic eruption. [Contingency, Emergency, Unemployment, Etc., Funds—Contributions—Withdrawals—Transfers]

ceeds of taxes, shall for purposes of this Article constitute appropriations subject to limitation in the year of contribution. Neither withdrawals from any such fund, nor expenditures of (or authorizations to expend) such withdrawals, nor transfers between or among such funds, shall for purposes of this Article constitute appropriations subject to limitation. [New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.]

[Prudent State Reserve]

SEC. 5.5. Prudent State Reserve. The Legislature shall establish a prudent state reserve fund in such amount as it shall deem reasonable and necessary. [Mandates of New Programs or Higher Levels of Service—State Subvention—Exceptions]

SEC. 6. Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse such local government for the costs of such program or increased level of service, except that the Legislature may, but need not, provide such subvention of funds for the following mandates:

(a) Legislative mandates requested by the local agency affected;

(b) Legislation defining a new crime or changing an existing definition of a crime; or

(c) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975. [New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.]

[Bonded Indebtedness]

SEC. 7. Nothing in this Article shall be construed to impair the ability of the State or of any local government to meet its obligations with respect to existing or future bonded indebtedness. [New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.]

[Definitions]

SEC. 8. As used in this article and except as otherwise expressly provided herein:

(a) “Appropriations subject to limitation” of the State means any authorization to expend during a fiscal year the proceeds of taxes levied by or for the State, exclusive of state subventions for the use and operation of local government (other than subventions made pursuant to Section 6) and
further exclusive of refunds of taxes, benefit payments from retirement, unemployment insurance, and disability insurance funds.

(b) “Appropriations subject to limitation” of an entity of local government means any authorization to expend during a fiscal year the proceeds of taxes levied by or for that entity and the proceeds of state subventions to that entity (other than subventions made pursuant to Section 6) exclusive of refunds of taxes.

(c) “Proceeds of taxes” shall include, but not be restricted to, all tax revenues and the proceeds to an entity of government, from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues. With respect to any local government, “proceeds of taxes” shall include subventions received from the State, other than pursuant to Section 6, and, with respect to the State, proceeds of taxes shall exclude such subventions.

(d) “Local government” means any city, county, city and county, school district, special district, authority, or other political subdivision of or within the State.

(e) (1) “Change in the cost of living” for the State, a school district, or a community college district means the percentage change in California per capita personal income from the preceding year.

(2) “Change in the cost of living” for an entity of local government, other than a school district or a community college district, shall be either (A) the percentage change in California per capita personal income from the preceding year, or (B) the percentage change in the local assessment roll from the preceding year for the jurisdiction due to the addition of local nonresidential new construction. Each entity of local government shall select its change in the cost of living pursuant to this paragraph annually by a recorded vote of the entity’s governing body.

(f) “Change in population” of any entity of government, other than the State, a school district, or a community college district, shall be determined by a method prescribed by the Legislature.

“Change in population” of a school district or a community college district shall be the percentage change in the average daily attendance of the school district or community college district from the preceding fiscal year, as determined by a method prescribed by the Legislature.

“Change in population” of the State shall be determined by adding (1) the percentage change in the State’s population multiplied by the percentage of the State’s budget in the prior fiscal year that is expended for other than educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges, and (2) the percentage change in the total statewide average daily attendance in kindergarten and grades one to 12, inclusive, and the community colleges, multiplied by the percentage of
the State’s budget in the prior fiscal year that is expended for educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges.

Any determination of population pursuant to this subdivision, other than that measured by average daily attendance, shall be revised, as necessary, to reflect the periodic census conducted by the United States Department of Commerce, or successor department.

(g) “Debt service” means appropriations required to pay the cost of interest and redemption charges, including the funding of any reserve or sinking fund required in connection therewith, on indebtedness existing or legally authorized as of January 1, 1979, or on bonded indebtedness thereafter approved according to law by a vote of the electors of the issuing entity voting in an election for that purpose.

(h) The “appropriations limit” of each entity of government for each fiscal year is that amount which total annual appropriations subject to limitation may not exceed under Sections 1 and 3. However, the “appropriations limit” of each entity of government for fiscal year 1978–79 is the total of the appropriations subject to limitation of the entity for that fiscal year. For fiscal year 1978–79, state subventions to local governments, exclusive of federal grants, are deemed to have been derived from the proceeds of state taxes.

(i) Except as otherwise provided in Section 5, “appropriations subject to limitation” do not include local agency loan funds or indebtedness funds, investment (or authorizations to invest) funds of the State, or of an entity of local government in accounts at banks or savings and loan associations or in liquid securities. [As amended June 5, 1990. Operative July 1, 1990.]

Exceptions to Appropriations Subject to Limitation

SEC. 9. “Appropriations subject to limitation” for each entity of government do not include:

(a) Appropriations for debt service.
(b) Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly.
(c) Appropriations of any special district which existed on January 1, 1978, and which did not as of the 1977–78 fiscal year levy an ad valorem tax on property in excess of 12½ cents per $100 of assessed value; or the appropriations of any special district then existing or thereafter created by a vote of the people, which is totally funded by other than the proceeds of taxes.
(d) Appropriations for all qualified capital outlay projects, as defined by the Legislature.
Appropriations of revenue which are derived from any of the following:

(1) That portion of the taxes imposed on motor vehicle fuels for use in motor vehicles upon public streets and highways at a rate of more than nine cents ($0.09) per gallon.

(2) Sales and use taxes collected on that increment of the tax specified in paragraph (1).

(3) That portion of the weight fee imposed on commercial vehicles which exceeds the weight fee imposed on those vehicles on January 1, 1990. [As amended June 5, 1990. Operative July 1, 1990.]

SEC. 10.5. For fiscal years beginning on or after July 1, 1990, the appropriations limit of each entity of government shall be the appropriations limit for the 1986–87 fiscal year adjusted for the changes made from that fiscal year pursuant to this article, as amended by the measure adding this section, adjusted for the changes required by Section 3. [New section adopted June 5, 1990. Operative July 1, 1990.]

[Category Added or Removed from Appropriations Subject to Limitation—Severability]

The surtax created by the California Children and Families First Act of 1998 shall not be considered General Fund revenues for the purposes of Section 8 of Article XVI. [New section adopted November 3, 1998. Initiative measure.]

ARTICLE XIII C *

VOTER APPROVAL FOR LOCAL TAX LEVIES

SECTION 1. Definitions. As used in this article:
(a) “General tax” means any tax imposed for general governmental purposes.
(b) “Local government” means any county, city, city and county, including a charter city or county, any special district, or any other local or regional governmental entity.
(c) “Special district” means an agency of the State, formed pursuant to general law or a special act, for the local performance of governmental or proprietary functions with limited geographic boundaries including, but not limited to, school districts and redevelopment agencies.
(d) “Special tax” means any tax imposed for specific purposes, including a tax imposed for specific purposes, which is placed into a general fund. [New section adopted November 5, 1996. Initiative measure.]

SEC. 2. Local Government Tax Limitation. Notwithstanding any other provision of this Constitution:
(a) All taxes imposed by any local government shall be deemed to be either general taxes or special taxes. Special purpose districts or agencies, including school districts, shall have no power to levy general taxes.
(b) No local government may impose, extend, or increase any general tax unless and until that tax is submitted to the electorate and approved by a majority vote. A general tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. The election required by this subdivision shall be consolidated with a

regularly scheduled general election for members of the governing body of the local government, except in cases of emergency declared by a unanimous vote of the governing body.

(c) Any general tax imposed, extended, or increased, without voter approval, by any local government on or after January 1, 1995, and prior to the effective date of this article, shall continue to be imposed only if approved by a majority vote of the voters voting in an election on the issue of the imposition, which election shall be held within two years of the effective date of this article and in compliance with subdivision (b).

(d) No local government may impose, extend, or increase any special tax unless and until that tax is submitted to the electorate and approved by a two-thirds vote. A special tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. [New section adopted November 5, 1996. Initiative measure.]

Sec. 3. Initiative Power for Local Taxes, Assessments, Fees and Charges. Notwithstanding any other provision of this Constitution, including, but not limited to, Sections 8 and 9 of Article II, the initiative power shall not be prohibited or otherwise limited in matters of reducing or repealing any local tax, assessment, fee or charge. The power of initiative to affect local taxes, assessments, fees and charges shall be applicable to all local governments and neither the Legislature nor any local government charter shall impose a signature requirement higher than that applicable to statewide statutory initiatives. [New section adopted November 5, 1996. Initiative measure.]

ARTICLE XIII D*

ASSESSMENT AND PROPERTY-RELATED FEE REFORM

Sec. 1. Application. Notwithstanding any other provision of law, the provisions of this article shall apply to all assessments, fees and charges, whether imposed pursuant to state statute or local government charter authority. Nothing in this article or Article XIII C shall be construed to:

(a) Provide any new authority to any agency to impose a tax, assessment, fee, or charge.

(b) Affect existing laws relating to the imposition of fees or charges as a condition of property development.

(c) Affect existing laws relating to the imposition of timber yield taxes. [New section adopted November 5, 1996. Initiative measure.]

Sec. 2. Definitions. As used in this article:

(a) “Agency” means any local government as defined in subdivision (b) of Section 1 of Article XIII C.

(b) “Assessment” means any levy or charge upon real property by an agency for a special benefit conferred upon the real property. “Assessment” includes, but is not limited to, “special assessment,” “benefit assessment,” “maintenance assessment” and “special assessment tax.”

(c) “Capital cost” means the cost of acquisition, installation, construction, reconstruction, or replacement of a permanent public improvement by an agency.

(d) “District” means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service.

(e) “Fee” or “charge” means any levy other than an ad valorem tax, a special tax, or an assessment, imposed by an agency upon a parcel or upon a person as an incident of property ownership, including a user fee or charge for a property-related service.

(f) “Maintenance and operation expenses” means the cost of rent, repair, replacement, rehabilitation, fuel, power, electrical current, care, and supervision necessary to properly operate and maintain a permanent public improvement.

(g) “Property ownership” shall be deemed to include tenancies of real property where tenants are directly liable to pay the assessment, fee, or charge in question.

(h) “Property-related service” means a public service having a direct relationship to property ownership.

(i) “Special benefit” means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.” [New section adopted November 5, 1996. Initiative measure.]

Sec. 3. Property Taxes, Assessments, Fees and Charges Limited. (a) No tax, assessment, fee, or charge shall be assessed by any agency upon any parcel of property or upon any person as an incident of property ownership except:

(1) The ad valorem property tax imposed pursuant to Article XIII and Article XIII A.

(2) Any special tax receiving a two-thirds vote pursuant to Section 4 of Article XIII A.

(3) Assessments as provided by this article.

(4) Fees or charges for property-related services as provided by this article.

(b) For purposes of this article, fees for the provision of electrical or gas service shall not be deemed charges or fees imposed as an incident of property ownership. [New section adopted November 5, 1996. Initiative measure.]
SEC. 4. Procedures and Requirements for All Assessments. (a) An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the property-related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and an agency shall separate the general benefits from the special benefits conferred on a parcel. Parcels within a district that are owned or used by any agency, the State of California or the United States shall not be exempt from assessment unless the agency can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit.

(b) All assessments shall be supported by a detailed engineer’s report prepared by a registered professional engineer certified by the State of California.

(c) The amount of the proposed assessment for each identified parcel shall be calculated and the record owner of each parcel shall be given written notice by mail of the proposed assessment, the total amount thereof chargeable to the entire district, the amount chargeable to the owner’s particular parcel, the duration of the payments, the reason for the assessment and the basis upon which the amount of the proposed assessment was calculated, together with the date, time, and location of a public hearing on the proposed assessment. Each notice shall also include, in a conspicuous place thereon, a summary of the procedures applicable to the completion, return, and tabulation of the ballots required pursuant to subdivision (d), including a disclosure statement that the existence of a majority protest, as defined in subdivision (e), will result in the assessment not being imposed.

(d) Each notice mailed to owners of identified parcels within the district pursuant to subdivision (c) shall contain a ballot which includes the agency’s address for receipt of the ballot once completed by any owner receiving the notice whereby the owner may indicate his or her name, reasonable identification of the parcel, and his or her support or opposition to the proposed assessment.

(e) The agency shall conduct a public hearing upon the proposed assessment not less than 45 days after mailing the notice of the proposed assessment to record owners of each identified parcel. At the public hearing, the agency shall consider all protests against the proposed assessment and tabulate the ballots. The agency shall not impose an assessment if there is a majority protest. A majority protest exists if, upon the conclusion of the hearing, ballots submitted in opposition to the assessment exceed the bal-
lots submitted in favor of the assessment. In tabulating the ballots, the ballots shall be weighted according to the proportional financial obligation of the affected property.

(f) In any legal action contesting the validity of any assessment, the burden shall be on the agency to demonstrate that the property or properties in question receive a special benefit over and above the benefits conferred on the public at large and that the amount of any contested assessment is proportional to, and no greater than, the benefits conferred on the property or properties in question.

(g) Because only special benefits are assessable, electors residing within the district who do not own property within the district shall not be deemed under this Constitution to have been deprived of the right to vote for any assessment. If a court determines that the Constitution of the United States or other federal law requires otherwise, the assessment shall not be imposed unless approved by a two-thirds vote of the electorate in the district in addition to being approved by the property owners as required by subdivision (e). [New section adopted November 5, 1996. Initiative measure.]

SEC. 5. Effective Date. Pursuant to subdivision (a) of Section 10 of Article II, the provisions of this article shall become effective the day after the election unless otherwise provided. Beginning July 1, 1997, all existing, new, or increased assessments shall comply with this article. Notwithstanding the foregoing, the following assessments existing on the effective date of this article shall be exempt from the procedures and approval process set forth in Section 4:

(a) Any assessment imposed exclusively to finance the capital costs or maintenance and operation expenses for sidewalks, streets, sewers, water, flood control, drainage systems or vector control. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.

(b) Any assessment imposed pursuant to a petition signed by the persons owning all of the parcels subject to the assessment at the time the assessment is initially imposed. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.

(c) Any assessment the proceeds of which are exclusively used to repay bonded indebtedness of which the failure to pay would violate the Contract Impairment Clause of the Constitution of the United States.

(d) Any assessment which previously received majority voter approval from the voters voting in an election on the issue of the assessment. Subsequent increases in those assessments shall be subject to the procedures and approval process set forth in Section 4. [New section adopted November 5, 1996. Initiative measure.]
SEC. 6. Property-Related Fees and Charges. (a) Procedures for New or Increased Fees and Charges. An agency shall follow the procedures pursuant to this section in imposing or increasing any fee or charge as defined pursuant to this article, including, but not limited to, the following:

(1) The parcels upon which a fee or charge is proposed for imposition shall be identified. The amount of the fee or charge proposed to be imposed upon each parcel shall be calculated. The agency shall provide written notice by mail of the proposed fee or charge to the record owner of each identified parcel upon which the fee or charge is proposed for imposition, the amount of the fee or charge proposed to be imposed upon each, the basis upon which the amount of the proposed fee or charge was calculated, the reason for the fee or charge, together with the date, time, and location of a public hearing on the proposed fee or charge.

(2) The agency shall conduct a public hearing upon the proposed fee or charge not less than 45 days after mailing the notice of the proposed fee or charge to the record owners of each identified parcel upon which the fee or charge is proposed for imposition. At the public hearing, the agency shall consider all protests against the proposed fee or charge. If written protests against the proposed fee or charge are presented by a majority of owners of the identified parcels, the agency shall not impose the fee or charge.

(b) Requirements for Existing, New or Increased Fees and Charges. A fee or charge shall not be extended, imposed, or increased by any agency unless it meets all of the following requirements:

(1) Revenues derived from the fee or charge shall not exceed the funds required to provide the property-related service.

(2) Revenues derived from the fee or charge shall not be used for any purpose other than that for which the fee or charge was imposed.

(3) The amount of a fee or charge imposed upon any parcel or person as an incident of property ownership shall not exceed the proportional cost of the service attributable to the parcel.

(4) No fee or charge may be imposed for a service unless that service is actually used by, or immediately available to, the owner of the property in question. Fees or charges based on potential or future use of a service are not permitted. Standby charges, whether characterized as charges or assessments, shall be classified as assessments and shall not be imposed without compliance with Section 4.

(5) No fee or charge may be imposed for general governmental services including, but not limited to, police, fire, ambulance or library services, where the service is available to the public at large in substantially the same manner as it is to property owners. Reliance by an agency on any parcel map, including, but not limited to, an assessor’s parcel map, may be considered a significant factor in determin-
ing whether a fee or charge is imposed as an incident of property ownership for purposes of this article. In any legal action contesting the validity of a fee or charge, the burden shall be on the agency to demonstrate compliance with this article.

(c) Voter Approval for New or Increased Fees and Charges. Except for fees or charges for sewer, water, and refuse collection services, no property-related fee or charge shall be imposed or increased unless and until that fee or charge is submitted and approved by a majority vote of the property owners of the property subject to the fee or charge or, at the option of the agency, by a two-thirds vote of the electorate residing in the affected area. The election shall be conducted not less than 45 days after the public hearing. An agency may adopt procedures similar to those for increases in assessments in the conduct of elections under this subdivision.

(d) Beginning July 1, 1997, all fees or charges shall comply with this section. [New section adopted November 5, 1996. Initiative measure.]

A complete system of workers’ compensation includes adequate provisions for the comfort, health and safety and general welfare of any and all workers and those dependent upon them for support to the extent of relieving from the consequences of any injury or death incurred or sustained by workers in the course of their employment, irrespective of the fault of any party; also full provision for securing safety in places of employment; full provision for such medical, surgical, hospital and other remedial treatment as is requisite to cure and relieve from the effects of such injury; full provision for adequate insurance coverage against liability to pay or furnish compensation; full provision for regulating such insurance coverage in all its aspects, including the establishment and management of a state compensation insurance fund; full provision for otherwise securing the payment of compensation; and full provision for vesting power, authority and jurisdiction in an administrative body with all the requisite governmental functions to determine any dispute or matter arising under such legislation, to the end that the administration of such legislation shall accomplish substantial justice in all cases expeditiously, inexpensively, and without incumbrance of any character; all of which matters are expressly declared to be the social public policy of this State, binding upon all departments of the state government.

The Legislature may combine in one statute all the provisions for a complete system of workers’ compensation, as herein defined.
The Legislature shall have power to provide for the payment of an award to the State in the case of the death, arising out of and in the course of the employment, of an employee without dependents, and such awards may be used for the payment of extra compensation for subsequent injuries beyond the liability of a single employer for awards to employees of the employer.

ARTICLE XVI
PUBLIC FINANCE

[Heading as amended November 5, 1974.]

[State Indebtedness—Limitation—Two-thirds Vote to Submit Bond Law—Submission of Law to Electors]

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress insurrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect unless it has been passed by a two-thirds vote of all the members elected to each house of the Legislature and until, at a general election or at a direct primary, it shall have been submitted to the people and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause
to be printed. The Legislature may, at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with the State Allocation Board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending or coming before such board for the allocation and apportionment of funds to school districts for school construction purposes or purposes related thereto.

Notwithstanding any other provision of this constitution, or of any bond act to the contrary, if any general obligation bonds of the State heretofore or hereafter authorized by vote of the people have been offered for sale and not sold, the Legislature may raise the maximum rate of interest payable on all general obligation bonds authorized but not sold, whether or not such bonds have been offered for sale, by a statute passed by a two-thirds vote of all members elected to each house thereof.

The provisions of Senate Bill No. 763† of the 1969 Regular Session, which authorize an increase of the state general obligation bond maximum interest rate from 5 percent to an amount not in excess of 7 percent and eliminate the maximum rate of interest payable on notes given in anticipation of the sale of such bonds, are hereby ratified. [As amended June 2, 1970.]

[General Obligation Bond Proceeds Fund]

SEC. 1.5. The Legislature may create and establish a “General Obligation Bond Proceeds Fund” in the State Treasury, and may provide for the proceeds of the sale of general obligation bonds of the State heretofore or hereafter issued, including any sums paid as accrued interest thereon, under any or all acts authorizing the issuance of such bonds, to be paid into or transferred to, as the case may be, the “General Obligation Bond Proceeds Fund.” Accounts shall be maintained in the “General Obligation Bond Proceeds Fund” of all moneys deposited in the State Treasury to the credit of that fund and the proceeds of each bond issue shall be maintained as a separate and distinct account and shall be paid out only in accordance with the law authorizing the issuance of the particular bonds from which the proceeds were derived. The Legislature may abolish, subject to the conditions of this section, any fund in the State Treasury heretofore or hereafter created by any act for the purpose of having deposited therein the proceeds from the issuance of bonds if such proceeds are transferred to or paid into the “General Obligation Bond Proceeds Fund” pursuant to the authority granted in this section; provided, however, that nothing in this

section shall prevent the Legislature from re-establishing any bond proceeds fund so abolished and transferring back to its credit all proceeds in the “General Obligation Bond Proceeds Fund” which constitute the proceeds of the particular bond fund being re-established. [New section adopted November 6, 1962.]

SEC. 2. [Repealed November 6, 1962. See Section 2, below.]

[New section adopted November 5, 1974.]
Gifts or Loans of Public Moneys or Pledging of Credit Prohibited—Stock of Corporations

SEC. 6. The Legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the State, or of any county, city and county, city, township or other political corporation or subdivision of the State now existing, or that may be hereafter established, in aid of or to any person, association, or corporation, whether municipal or otherwise, or to pledge the credit thereof, in any manner whatever, for the payment of the liabilities of any individual, association, municipal or other corporation whatever; nor shall it have power to make any gift or authorize the making of any gift, of any public money or thing of value to any individual, municipal or other corporation whatever; provided, that nothing in this section shall prevent the Legislature granting aid pursuant to Section 3 of Article XVI; and it shall not have power to authorize the State, or any political subdivision thereof, to subscribe for stock, or to become a stockholder in any corporation whatever; provided, further, that irrigation districts for the purpose of acquiring the control of any entire international water system necessary for its use and purposes, a part of which is situated in the United States, and a part thereof in a foreign country, may in the manner authorized by law, acquire the stock of any foreign corporation which is the owner of, or which holds the title to the part of such system situated in a foreign country; provided, further, that irrigation districts for the purpose of acquiring water and water rights and other property necessary for their uses and purposes, may acquire and hold the stock of corporations, domestic or foreign, owning waters, water rights, canals, waterworks, franchises or concessions subject to the same obligations and liabilities as are imposed by law upon all other stockholders in such corporation; and

Such temporary transfer of funds to any political subdivision shall be made only upon resolution adopted by the governing body of the city, county, or city and county directing the treasurer of such city, county, or city and county to make such temporary transfer. Such temporary transfer of funds to any political subdivision shall not exceed 85 percent of the anticipated revenues accruing to such political subdivision, shall not be made prior to the first day of the fiscal year nor after the last Monday in April of the current fiscal year, and shall be replaced from the revenues accruing to such political subdivision before any other obligation of such political subdivision is met from such revenue. [As amended November 2, 1982.]

[Controller’s Warrants]

Sec. 7. Money may be drawn from the Treasury only through an appropriation made by law and upon a Controller’s duly drawn warrant. [New section adopted November 5, 1974.]

[School Funding Priority]

Sec. 8. (a) From all state revenues there shall first be set apart the moneys to be applied by the State for support of the public school system and public institutions of higher education.
(b) Commencing with the 1990–91 fiscal year, the moneys to be applied by the State for the support of school districts and community college districts shall be not less than the greater of the following amounts:

1. The amount which, as a percentage of General Fund revenues which may be appropriated pursuant to Article XIII B, equals the percentage of General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986–87.

2. The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall not be less than the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B. This paragraph shall be operative only in a fiscal year in which the percentage growth in California per capita personal income is less than or equal to the percentage growth in per capita General Fund revenues plus one half of one percent.

3. (A) The amount required to ensure that the total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes shall equal the total amount from these sources in the prior fiscal year, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment and adjusted for the change in per capita General Fund revenues.

(B) In addition, an amount equal to one-half of one percent times the prior year total allocations to school districts and community colleges from General Fund proceeds of taxes appropriated pursuant to Article XIII B and allocated local proceeds of taxes, excluding any revenues allocated pursuant to subdivision (a) of Section 8.5, adjusted for changes in enrollment.

(C) This paragraph (3) shall be operative only in a fiscal year in which the percentage growth in California per capita personal income in a fiscal year is greater than the percentage growth in per capital General Fund revenues plus one half of one percent.

(c) In any fiscal year, if the amount computed pursuant to paragraph (1) of subdivision (b) exceeds the amount computed pursuant to paragraph (2) of subdivision (b) by a difference that exceeds one and one-half percent of General Fund revenues, the amount in excess of one and one-half percent of General Fund revenues shall not be considered allocations to school districts and community colleges for purposes of computing the amount of state aid pursuant to paragraph (2) or 3 of subdivision (b) in the subsequent fiscal year.
(d) In any fiscal year in which school districts and community college districts are allocated funding pursuant to paragraph (3) of subdivision (b) or pursuant to subdivision (h), they shall be entitled to a maintenance factor, equal to the difference between (1) the amount of General Fund moneys which would have been appropriated pursuant to paragraph (2) of subdivision (b) if that paragraph had been operative or the amount of General Fund moneys which would have been appropriated pursuant to subdivision (b) had subdivision (b) not been suspended, and (2) the amount of General Fund moneys actually appropriated to school districts and community college districts in that fiscal year.

(e) The maintenance factor for school districts and community college districts determined pursuant to subdivision (d) shall be adjusted annually for changes in enrollment, and adjusted for the change in the cost of living pursuant to paragraph (1) of subdivision (e) of Section 8 of Article XIII B, until it has been allocated in full. The maintenance factor shall be allocated in a manner determined by the Legislature in each fiscal year in which the percentage growth in per capita General Fund revenues exceeds the percentage growth in California per capita personal income. The maintenance factor shall be reduced each year by the amount allocated by the Legislature in that fiscal year. The minimum maintenance factor amount to be allocated in a fiscal year shall be equal to the product of General Fund revenues from proceeds of taxes and one-half of the difference between the percentage growth in per capita General Fund revenues from proceeds of taxes and in California per capita personal income, not to exceed the total dollar amount of the maintenance factor.

(f) For purposes of this section, “changes in enrollment” shall be measured by the percentage change in average daily attendance. However, in any fiscal year, there shall be no adjustment for decreases in enrollment between the prior fiscal year and the current fiscal year unless there have been decreases in enrollment between the second prior fiscal year and the prior fiscal year and between the third prior fiscal year and the second prior fiscal year.

(h) Subparagraph (B) of paragraph (3) of subdivision (b) may be suspended for one year only when made part of or included within any bill enacted pursuant to Section 12 of Article IV. All other provisions of subdivision (b) may be suspended for one year by the enactment of an urgency statute pursuant to Section 8 of Article IV, provided that the urgency statute may not be made part of or included within any bill enacted pursuant to Section 12 of Article IV. [As amended June 5, 1990. Operative July 1, 1990.]

Sec. 8½. [Repealed November 6, 1962.]

Section 8.5. (a) In addition to the amount required to be applied for the support of school districts and community college districts pursuant to Section 8, the Controller shall during each fiscal year transfer and allocate all revenues available pursuant to paragraph 1 of subdivision (a) of Section 2 of Article XIII B to that portion of the State School Fund restricted for elementary and high school purposes, and to that portion of the State School Fund restricted for community college purposes, respectively, in proportion to the enrollment in school districts and community college districts respectively.

(1) With respect to funds allocated to that portion of the State School Fund restricted for elementary and high school purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Superintendent of Public Instruction mutually determine that current annual expenditures per student equal or exceed the average annual expenditure per student of the 10 states with the highest annual expenditures per student for elementary and high schools, and that average class size equals or is less than the average class size of the 10 states with the lowest class size for elementary and high schools.

(2) With respect to funds allocated to that portion of the State School Fund restricted for community college purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Chancellor of the California Community Colleges mutually determine that current annual expenditures per student for community colleges in this State equal or exceed the average annual expenditure per student of the 10 states with the highest annual expenditure per student for community colleges.

(b) Notwithstanding the provisions of Article XIII B, funds allocated pursuant to this section shall not constitute appropriations subject to limitation.

(c) From any funds transferred to the State School Fund pursuant to subdivision (a), the Controller shall each year allocate to each school district and community college district an equal amount per enrollment in school districts from the amount in that portion of the State School Fund restricted for elementary and high school purposes and an equal amount per enrollment in community college districts from that portion of the State School Fund restricted for community college purposes.

(d) All revenues allocated pursuant to subdivision (a) shall be expended solely for the purposes of instructional improvement and accountability as required by law.

(e) Any school district maintaining an elementary or secondary school shall develop and cause to be prepared an annual audit accounting for such funds and shall adopt a School Accountability Report Card for each school. [As amended June 5, 1990. Operative July 1, 1990.]

SEC. 15. A public body authorized to issue securities to provide public parking facilities and any other public body whose territorial area includes such facilities are authorized to make revenues from street parking meters available as additional security. [New section adopted November 5, 1974.]

SEC. 16. All property in a redevelopment project established under the Community Redevelopment Law as now existing or hereafter amended, except publicly owned property not subject to taxation by re-
son of that ownership, shall be taxed in proportion to its value as provided in Section 1 of this article, and those taxes (the word "taxes" as used herein includes, but is not limited to, all levies on an ad valorem basis upon land or real property) shall be levied and collected as other taxes are levied and collected by the respective taxing agencies.

The Legislature may provide that any redevelopment plan may contain a provision that the taxes, if any, so levied upon the taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(a) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of those taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of that property by the taxing agency, last equalized prior to the effective date of the ordinance, shall be allocated to, and when collected shall be paid into, the funds of the respective taxing agencies as taxes by or for those taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of the ordinance but to which that territory has been annexed or otherwise included after the ordinance's effective date, the assessment roll of the county last equalized on the effective date of that ordinance shall be used in determining the assessed valuation of the taxable property in the project on that effective date); and

(b) Except as provided in subdivision (c), that portion of the levied taxes each year in excess of that amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed or otherwise) incurred by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project. Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in the project as shown by the last equalized assessment roll referred to in subdivision (a), all of the taxes levied and collected upon the taxable property in the redevelopment project shall be paid into the funds of the respective taxing agencies. When the loans, advances, and indebtedness, if any, and interest thereon, have been paid, then all moneys thereafter received from taxes upon the taxable property in the redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.
(c) That portion of the taxes identified in subdivision (b) which are attributable to a tax rate levied by a taxing agency for the purpose of producing revenues in an amount sufficient to make annual repayments of the principal of, and the interest on, any bonded indebtedness for the acquisition or improvement of real property shall be allocated to, and when collected shall be paid into, the fund of that taxing agency. This paragraph shall only apply to taxes levied to repay bonded indebtedness approved by the voters of the taxing agency on or after January 1, 1989.

The Legislature may also provide that in any redevelopment plan or in the proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed, or otherwise) by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes identified in subdivision (b), exclusive of that portion identified in subdivision (c), may be irrevocably pledged for the payment of the principal of and interest on those loans, advances, or indebtedness.

It is intended by this section to empower any redevelopment agency, city, county, or city and county under any law authorized by this section to exercise the provisions hereof separately or in combination with powers granted by the same or any other law relative to redevelopment agencies. This section shall not affect any other law or laws relating to the same or a similar subject but is intended to authorize an alternative method of procedure governing the subject to which it refers.

The Legislature shall enact those laws as may be necessary to enforce the provisions of this section. [As amended November 8, 1988.]

Notwithstanding any other provisions of law or this Constitution to the contrary, the retirement board of a public pension or retirement system shall have plenary authority and fiduciary responsibility for investment of moneys and administration of the system, subject to all of the following:
(a) The retirement board of a public pension or retirement system shall have the sole and exclusive fiduciary responsibility over the assets of the public pension or retirement system. The retirement board shall also have sole and exclusive responsibility to administer the system in a manner that will assure prompt delivery of benefits and related services to the participants and their beneficiaries. The assets of a public pension or retirement system are trust funds and shall be held for the exclusive purposes of providing benefits to participants in the pension or retirement system and their beneficiaries and defraying reasonable expenses of administering the system.

(b) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system solely in the interest of, and for the exclusive purposes of providing benefits to, participants and their beneficiaries, minimizing employer contributions thereto, and defraying reasonable expenses of administering the system. A retirement board’s duty to its participants and their beneficiaries shall take precedence over any other duty.

(c) The members of the retirement board of a public pension or retirement system shall discharge their duties with respect to the system with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with these matters would use in the conduct of an enterprise of a like character and with like aims.

(d) The members of the retirement board of a public pension or retirement system shall diversify the investments of the system so as to minimize the risk of loss and to maximize the rate of return, unless under the circumstances it is clearly not prudent to do so.

(e) The retirement board of a public pension or retirement system, consistent with the exclusive fiduciary responsibilities vested in it, shall have the sole and exclusive power to provide for actuarial services in order to assure the competency of the assets of the public pension or retirement system.

(f) With regard to the retirement board of a public pension or retirement system which includes in its composition elected employee members, the number, terms, and method of selection or removal of members of the retirement board which were required by law or otherwise in effect on July 1, 1991, shall not be changed, amended, or modified by the Legislature unless the change, amendment, or modification enacted by the Legislature is ratified by a majority vote of the electors of the jurisdiction in which the participants of the system are or were, prior to retirement, employed.

(g) The Legislature may by statute continue to prohibit certain investments by a retirement board where it is in the public interest to do so, and provided that the prohibition satisfies the standards of fiduciary care and loyalty required of a retirement board pursuant to this section.
(h) As used in this section, the term “retirement board” shall mean the board of administration, board of trustees, board of directors, or other governing body or board of a public employees’ pension or retirement system; provided, however, that the term “retirement board” shall not be interpreted to mean or include a governing body or board created after July 1, 1991 which does not administer pension or retirement benefits, or the elected legislative body of a jurisdiction which employs participants in a public employees’ pension or retirement system. [As amended November 3, 1992. Initiative measure.]

Sec. 18. (a) No county, city, town, township, board of education, or school district, shall incur any indebtedness or liability in any manner or for any purpose exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters of the public entity voting at an election to be held for that purpose, except that with respect to any such public entity which is authorized to incur indebtedness for public school purposes, any proposition for the incurrence of indebtedness in the form of general obligation bonds for the purpose of repairing, reconstructing or replacing public school buildings determined, in the manner prescribed by law, to be structurally unsafe for school use, shall be adopted upon the approval of a majority of the voters of the public entity voting on the proposition at such election; nor unless before or at the time of incurring such indebtedness provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and provide for a sinking fund for the payment of the principal thereof, on or before maturity, which shall not exceed forty years from the time of contracting the indebtedness.

(b) Notwithstanding subdivision (a), on or after the effective date of the measure adding this subdivision, in the case of any school district, community college district, or county office of education, any proposition for the incurrence of indebtedness in the form of general obligation bonds for the construction, reconstruction, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, shall be adopted upon the approval of 55 percent of the voters of the district or county, as appropriate, voting on the proposition at an election. This subdivision shall apply only to a proposition for the incurrence of indebtedness in the form of general obligation bonds for the purposes specified in this subdivision if the proposition meets all of the accountability requirements of paragraph (3) of subdivision (b) of Section 1 of Article XIII A.

(c) When two or more propositions for incurring any indebtedness or liability are submitted at the same election, the votes cast for and against each proposition shall be counted separately, and when two-thirds or a ma-
majority or 55 percent of the voters, as the case may be, voting on any one of those propositions, vote in favor thereof, the proposition shall be deemed adopted. [As amended November 7, 2000. Initiative measure.]

Each member, at the time of his initial appointment, shall be a resident of a different county from the one in which either of the other members resides. The members of the board may be removed from office by the Governor, and the Legislature shall have the power, by a majority vote of all members elected to each house, to remove any member from office for dereliction of duty or corruption or incompetency.

When any person aggrieved thereby appeals from a decision of the department ordering any penalty assessment, issuing, denying, transferring, suspending or revoking any license for the manufacture, importation, or sale of alcoholic beverages, the board shall review the decision subject to such limitations as may be imposed by the Legislature. In such cases, the board shall not receive evidence in addition to that considered by the department. Review by the board of a decision of the department shall be limited to the questions whether the department has proceeded without or in excess of its jurisdiction, whether the department has proceeded in the manner required by law, whether the decision is supported by the findings, and whether the findings are supported by substantial evidence in the light of the whole record. In appeals where the board finds that there is relevant evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the department it may enter an order remanding the matter to the department for reconsideration in the light of such evidence. In all other appeals the board shall enter an order either affirming or reversing the decision of the department. When the order reverses the decision of the department, the board may direct the reconsideration of the matter in the light of its order and may direct the department to take such further action as is specially enjoined upon it by law, but the order shall not limit or control in any way the discretion vested by law in the department. Orders of the board shall be subject to judicial review upon petition of the director or any party aggrieved by such order.

A concurrent resolution for the removal of either the director or any member of the board may be introduced in the Legislature only if five Members of the Senate, or 10 Members of the Assembly, join as authors.
Licenses—Regulation—Fees

Until the Legislature shall otherwise provide, the privilege of keeping, buying, selling, serving, and otherwise disposing of alcoholic beverages in bona fide hotels, restaurants, cafes, cafeterias, railroad dining or club cars, passenger ships, and other public eating places, and in bona fide clubs after such clubs have been lawfully operated for not less than one year, and the privilege of keeping, buying, selling, serving, and otherwise disposing of beers on any premises open to the general public shall be licensed and regulated under the applicable provisions of the Alcoholic Beverage Control Act, insofar as the same are not inconsistent with the provisions hereof, and excepting that the license fee to be charged bona fide hotels, restaurants, cafes, cafeterias, railroad dining or club cars, passenger ships, and other public eating places, and any bona fide clubs after such clubs have been lawfully operated for not less than one year, for the privilege of keeping, buying, selling, or otherwise disposing of alcoholic beverages, shall be the amounts prescribed as of the operative date hereof, subject to the power of the Legislature to change such fees.

The State Board of Equalization shall assess and collect such excise taxes as are or may be imposed by the Legislature on account of the manufacture, importation and sale of alcoholic beverages in this State.

The Legislature may authorize, subject to reasonable restrictions, the sale in retail stores of alcoholic beverages contained in the original packages, where such alcoholic beverages are not to be consumed on the premises where sold; and may provide for the issuance of all types of licenses necessary to carry on the activities referred to in the first paragraph of this section, including, but not limited to, licenses necessary for the manufacture, production, processing, importation, exportation, transportation, wholesaling, distribution, and sale of any and all kinds of alcoholic beverages.

The Legislature shall provide for apportioning the amounts collected for license fees or occupation taxes under the provisions hereof between the State and the cities, counties and cities and counties of the State, in such manner as the Legislature may deem proper.

All constitutional provisions and laws inconsistent with the provisions hereof are hereby repealed.

The provisions of this section shall be self-executing, but nothing herein shall prohibit the Legislature from enacting laws implementing and not inconsistent with such provisions.

This amendment shall become operative on January 1, 1957. [As amended November 6, 1956. Operative January 1, 1957.]

5096.610. The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Fund, which is hereby created. Except as provided in subdivision (a) of Section 5096.650, the money in the fund shall be available for appropriation by the Legislature, in the manner set forth in this chapter, for acquisition and development projects, in accordance with the following schedule:

(a) The sum of two hundred twenty-five million dollars ($225,000,000) for acquisition and development of the state park system.

(b) The sum of eight hundred thirty-two million five hundred thousand dollars ($832,500,000) for local assistance programs for the acquisition and development of neighborhood, community, and regional parks and recreation areas.

(c) The sum of one billion two hundred seventy-five million dollars ($1,275,000,000) for land, air, and water conservation programs, including acquisition for those purposes.

(d) The sum of two hundred sixty-seven million five hundred thousand dollars ($267,500,000) for the acquisition, restoration, preservation, and interpretation of California’s historical and cultural resources.

Article 3. State Parks

5096.615. The two hundred twenty-five million dollars ($225,000,000) allocated pursuant to subdivision (a) of Section 5096.610 shall be available for appropriation by the Legislature to the department for the acquisition and development of the state park system. It is the intent of the Legislature that first priority for funding shall be for development projects to complete and expand visitor facilities and for restoration projects. Not more than 50 percent of the funds provided by this section may be used for acquisition.

Article 4. Local Assistance Programs

5096.620. The eight hundred thirty-two million five hundred thousand dollars ($832,500,000) allocated pursuant to subdivision (b) of Section 5096.610 shall be available for appropriation by the Legislature for local assistance programs, in accordance with the following schedule:

(a) The sum of three hundred fifty million dollars ($350,000,000) to the department for grants, in accordance with Section 5096.621, and on the basis of population, for the acquisition and development of neighborhood, community, and regional parks and recreation lands and facilities in urban and rural areas.

(b) The sum of two hundred million dollars ($200,000,000) to the department for grants, in accordance with the Roberti-Z’berg-Harris Urban Open-Space and Recreation Program Act (Chapter 3.2 (commencing with Section 5620)).

(c) The sum of twenty-two million five hundred thousand dollars ($22,500,000) on a per capita basis in accordance with subdivision (g) of Section 5096.621.

(d) The sum of two hundred sixty million dollars ($260,000,000) to the department for grants for urban and special need park programs in accordance with Section 5096.625.

5096.621. (a) Sixty percent of the total funds available for grants pursuant to subdivision (a) of Section 5096.620 shall be allocated to cities and to districts...
other than a regional park district, regional park and open-space district, or regional open-space district. Each city’s and district’s allocation shall be in the same ratio as the city’s or district’s population is to the combined total of the state’s population that is included in incorporated areas and unincorporated areas within the district, except that each city or district shall be entitled to a minimum allocation of two hundred twenty thousand dollars ($220,000). In any instance in which the boundary of a city overlaps the boundary of such a district, the population in the area of overlapping jurisdiction shall be attributed to each jurisdiction in proportion to the extent to which each operate and manage parks and recreational areas and facilities for that population. In any instance in which the boundary of a city overlaps the boundary of such a district, and in the area of overlap the city does not operate and manage parks and recreational areas and facilities, all grant funds shall be allocated to the district.

(b) Each city and each district subject to subdivision (a) whose boundaries overlap shall develop a specific plan for allocating the grant funds in accordance with the formula specified in subdivision (a). If, by April 1, 2003, the plan has not been agreed to by the city and district and submitted to the department, the director shall determine the allocation of the grant funds among the affected jurisdictions.

(c) Forty percent of the total funds available for grants pursuant to subdivision (a) of Section 5096.620 shall be allocated to counties and regional park districts, regional park and open-space districts, or regional open-space districts formed pursuant to Article 3 (commencing with Section 5500) of Chapter 3.

(d) Each county’s allocation under subdivision (a) shall be in the same ratio as the county’s population, except that each county shall be entitled to a minimum allocation of one million two hundred thousand dollars ($1,200,000).

(e) In any county that embraces all or part of the territory of a regional park district, regional park and open-space district, or regional open-space district, whose board of directors is not the county board of supervisors, the amount allocated to the county shall be apportioned between that district and the county in proportion to the population of the county that is included within the territory of the district and the population of the county that is outside the territory of the district.

(f) For the purpose of making the calculations required by this section, population shall be determined by the department, in cooperation with the Department of Finance, on the basis of the most recent verifiable census data and other verifiable population data that the department may require to be furnished by the applicant city, county, or district.

(g) Of the funds appropriated in subdivision (c) of Section 5096.620, twelve million five hundred thousand dollars ($12,500,000) shall be allocated to a city with an urban population greater than three million five hundred thousand in a county of the first class, and ten million dollars ($10,000,000) shall be allocated to a county of the first class.

(h) The Legislature finds and declares that it intends all recipients of funds pursuant to subdivision (a) of Section 5096.620 to use those funds to supplement local revenues, in existence on the effective date of the act adding this chapter during the 2001–02 Regular Session, that are being used for parks or other projects eligible for funds under this chapter. To receive any allocation pursuant to subdivision (a) of Section 5096.620, the recipient may not reduce the amount of funding otherwise available to be spent on parks or other projects eligible for funds under this chapter in their jurisdiction. One-time allocations that have
been expended for parks or other projects, but which are not available on an ongoing basis, may not be considered when calculating a recipient's annual expenditures. For purposes of this subdivision, the Controller may request fiscal data from recipients for the preceding three fiscal years. Each recipient shall furnish the data to the Controller not later than 120 days after receiving the request from the Controller.

5096.624. (a) The director shall prepare and adopt criteria and procedures for evaluating applications for grants allocated pursuant to subdivisions (a) to (c), inclusive, of Section 5096.620. Individual applications for funds shall be submitted to the department for approval as to their conformity with the requirements of this chapter. The application shall be accompanied by certification that the project for which the grant is requested is consistent with the park and recreation element of the applicable city or county general plan or the district park and recreation plan, as the case may be, and will satisfy a high priority need.

(b) To utilize available grant funds as effectively as possible, overlapping or adjoining jurisdictions and applicants with similar objectives are encouraged to combine projects and submit a joint application. An applicant may allocate all or a portion of its per capita share for a regional or state project.

(c) The director shall annually forward a statement of the total amount to be appropriated in each fiscal year for projects approved for grants pursuant to this article to the Director of Finance for inclusion in the Budget Bill. A list of eligible jurisdictions and the amount of grant funds to be allocated to each shall also be made available by the department.

(d) Funds appropriated pursuant to this article shall be encumbered by the recipient within three years from the date the appropriation is effective. Regardless of the date of encumbrance of the granted funds, the recipient is expected to complete all funded projects within eight years of the effective date of the appropriation.

5096.625. The funds provided in subdivision (d) of Section 5096.620 shall be available as grants for public agencies and non-profit organizations for the acquisition and development of new parks, botanical gardens, nature centers, and other community facilities in park poor communities. The funds may be expended pursuant to Section 5004.5, and Chapter 1.55 (commencing with Section 5095), if Senate Bill 359 of the 2001–02 Regular Session of the Legislature is enacted on or before January 1, 2003, and Chapter 3.3 (commencing with Section 5640), if Assembly Bill 1481 of the 2001–02 Regular Session of the Legislature is enacted on or before January 1, 2003, or pursuant to any other applicable statutory authorization. Not less than fifty million dollars ($50,000,000) of the funds provided in subdivision (d) of Section 5096.620 shall be expended for competitive grants consistent with the requirements of subdivision (b) of Section 5096.348. Ten million dollars ($10,000,000) of the funds provided in subdivision (d) of Section 5096.620 shall be available for development of Central Park in the City of Rancho Cucamonga. Five million dollars ($5,000,000) of the funds provided in subdivision (d) of Section 5096.620 shall be available for allocation to the City of Los Angeles for park and recreation or community facilities at or adjacent to the Hansen Dam recreation area. Five million dollars ($5,000,000) of the funds provided in subdivision (d) of Section 5096.620 shall be available for allocation to the City of Los Angeles for the Sepulveda Basin recreational parkland.

5096.629. In making grants of funds allocated pursuant to subdivision (d) of Section 5096.620, priority shall be assigned to projects that include a
commitment for a matching contribution. Contributions may be in the form of money from a nonstate source; gifts of real property, equipment, and consumable supplies; volunteer services; free or reduced-cost use.

5096.633. Any grant funds appropriated pursuant to this article that have not been expended by the grant recipient prior to July 1, 2011, shall revert to the fund and be available for appropriation by the Legislature for one or more of the local assistance programs specified in Section 5096.620 that the Legislature determines to be the highest priority statewide.

Article 5. Land, Air, and Water Conservation

5096.650. The one billion two hundred seventy-five million dollars ($1,275,000,000) allocated pursuant to subdivision (c) of Section 5096.610 shall be available for the acquisition and development of land, air, and water resources in accordance with the following schedule:

(a) Notwithstanding Section 13340 of the Government Code, the sum of three hundred million dollars ($300,000,000) is continuously appropriated to the Wildlife Conservation Board for the acquisition, development, rehabilitation, restoration, and protection of habitat that promotes the recovery of threatened and endangered species, that provides corridors linking separate habitat areas to prevent habitat fragmentation, and that protects significant natural landscapes and ecosystems such as old growth redwoods and oak woodlands and other significant habitat areas; and for grants and related state administrative costs pursuant to the Wildlife Conservation Law of 1947 (Chapter 4 (commencing with Section 1300) of Division 2 of the Fish and Game Code). Eligible projects shall meet the requirements of Section 16727 of the Government Code and shall be consistent with Section 43023.5 of the Health and Safety Code, if Assembly Bill 1390 of the 2001–02 Regular Session of the Legislature is enacted on or before January 1, 2003. In making grants pursuant to subdivisions (a) and (b) of Section 5096.650, priority shall be given to projects that include a commitment for a matching contribution. Contributions may be in the form of money, property, or services.

Article 5. Historical and Cultural Resources Preservation

5096.652. (a) The two hundred sixty-seven million five hundred thousand dollars ($267,500,000) allocated pursuant to subdivision (d) of Section 5096.610 shall be available for appropriation by the Legislature for the acquisition, development, preservation, and interpretation of buildings, structures, sites, places, and artifacts that preserve and demonstrate culturally significant aspects of California’s history and for grants for these purposes. Eligible projects include, but are not limited to, those which preserve and demonstrate the following:

1. Culturally significant aspects of life during various periods of California history including architecture, economic activities, art, recreation, and transportation.

2. Unique identifiable ethnic and other communities that have added significant elements to California’s culture.

3. California industrial, commercial, and military history including the industries, technologies, and commercial activities that have characterized
California’s economic expansion and California’s contribution to national defense.

(4) Important paleontologic, oceanographic, and geologic sites and specimens.

(b) Thirty-five million dollars ($35,000,000) of the funds available pursuant to this section shall be allocated to a city for the development, rehabilitation, preservation, restoration, and interpretation of resources at a city park of historical and cultural significance that is over 1,000 acres and that serves an urban area with a population that is greater than 750,000 in northern California.

(c) Two million five hundred thousand dollars ($2,500,000) of the funds available pursuant to this section shall be allocated to the County of Los Angeles for the El Pueblo Cultural and Performing Arts Center.

5096.665. Bonds in the total amount of two billion six hundred million dollars ($2,600,000,000), not including the amount of any refunding bonds issued in accordance with Section 5096.677, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes set forth in Section 5096.610 and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable. Pursuant to this section, the Treasurer shall sell the bonds authorized by the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act Finance Committee created pursuant to subdivision (a) of Section 5096.667 at any different times that are necessary to service expenditures appropriated pursuant to this chapter.

5096.666. The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter by this reference as though set forth in full in this chapter.

5096.667. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this chapter, the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act Finance Committee is hereby created. For purposes of this chapter, the California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act Finance Committee is “the committee” as that term is used in the State General Obligation Bond Law. The committee consists of the Controller, the Director of Finance, and the Treasurer, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the Secretary of the Resources Agency is designated the “board.”

5096.668. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter to carry out Section 5096.610 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively,
and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

5096.670. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

5096.671. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 5096.672, appropriated without regard to fiscal years.

5096.672. For purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized to be sold for the purpose of carrying out this chapter. Any amount withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

5096.673. Pursuant to Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, the cost of bond issuance shall be paid out of the bond proceeds. These costs shall be shared proportionally by each program funded through this bond act.

5096.674. Actual costs incurred in connection with administering programs authorized under the categories specified in Section 5096.610 shall be paid from the funds authorized by this act.

5096.675. The secretary may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, including other authorized forms of interim financing that include, but are not limited to, commercial paper, in accordance with Section 16312 of the Government Code, for purposes of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The secretary shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

5096.676. All money deposited in the fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

5096.677. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state of the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds to refund any bonds originally issued under this chapter or any previously issued refunding bonds.
5096.678. Notwithstanding any provision of this chapter or the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or to take any other action with respect to the investment and use of bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

5096.679. (a) The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not “proceeds of taxes” as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

(b) Funds provided pursuant to this chapter, and any appropriation or transfer of those funds, shall not be deemed to be a transfer of funds for the purposes of Chapter 9 (commencing with Section 2780) of Division 3 of the Fish and Game Code.

5096.681. Except for funds continuously appropriated by this chapter, all appropriations of funds pursuant to Section 5096.610 for purposes of the program shall be included in the Budget Bill for the 2002–03 fiscal year, and each succeeding fiscal year, for consideration by the Legislature, and shall bear the label “California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Program Fund.” The Budget Bill section shall contain separate items for each project, each class of project, or each element of the program for which an appropriation is made.

5096.683. The Secretary shall provide for an annual audit of expenditures from this chapter.

PROPOSED LAW

SECTION 1. Article 3 (commencing with Section 19230) is added to Chapter 3 of Division 19 of the Elections Code, to read:

(Shelley-Hertzberg Act)

19230. This article shall be known and may be cited as the Voting Modernization Bond Act of 2002 (Shelley-Hertzberg Act).

19231. The State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), except as otherwise provided herein, is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds
authorized to be issued by this article, and the provisions of that law are included in this article as though set out in full.

19232. As used in this article, the following words have the following meanings:

(a) “Board” means the Voting Modernization Board, established pursuant to Section 19235.

(b) “Bond” means a state general obligation bond issued pursuant to this article adopting the provisions of the State General Obligation Bond Law.

(c) “Bond act” means this article authorizing the issuance of state general obligation bonds and adopting the State General Obligation Bond Law by reference.

(d) “Committee” means the Voting Modernization Finance Committee, established pursuant to Section 19233.

(e) “Fund” means the Voting Modernization Fund, created pursuant to subdivision (b) of Section 19234.

(f) “Voting system” means any voting machine, voting device, or vote-tabulating device that does not utilize prescored punch card ballots.

19233. (a) The Voting Modernization Finance Committee is hereby established for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this article.

(b) The committee consists of the Controller, the Director of Finance, and the Treasurer, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(c) For purposes of this article, the Voting Modernization Finance Committee is “the committee” as that term is used in the State General Obligation Bond Law.

19234. (a) The committee may create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of not more than two hundred million dollars ($200,000,000), exclusive of refunding bonds, in the manner provided herein for the purpose of creating a fund to assist counties in the purchase of updated voting systems.

(b) The proceeds of bonds issued and sold pursuant to this article shall be deposited in the Voting Modernization Fund, which is hereby established.

(c) A county is eligible to apply to the board for fund money if it meets all of the following requirements:

(1) The county has purchased a new voting system after January 1, 1999, and is continuing to make payments on that system on the date that this article becomes effective.

(2) The county matches fund moneys at a ratio of one dollar ($1) of county moneys for every three dollars ($3) of fund moneys.

(3) The county has not previously requested fund money for the purchase of a new voting system. Applications for expansion of an existing system or components related to a previously approved application shall be accepted.

(d) Fund moneys shall only be used to purchase systems certified by the Secretary of State, pursuant to Division 19 (commencing with Section 19001), and in no event shall fund moneys be used to purchase a voting system that utilizes prescored punch card ballots.

(e) Any voting system purchased using bond funds that does not require a voter to directly mark on the ballot must produce, at the time the voter votes his
or her ballot or at the time the polls are closed, a paper version or representation of the voted ballot or of all the ballots cast on a unit of the voting system. The paper version shall not be provided to the voter but shall be retained by elections officials for use during the 1 percent manual recount or other recount or contest.

19234.5. The Legislature may amend subdivisions (c) and (d) of Section 19234 and Section 19235 by a statute, passed in each house of the Legislature by rollcall vote entered in the respective journals, by not less than two-thirds of the membership in each house concurring, if the statute is consistent with, and furthers the purposes of, this article.

19235. The Voting Modernization Board is hereby established and designated the “board” for purposes of the State General Obligation Bond Law, and for purposes of administering the Voting Modernization Fund. The board consists of five members, three selected by the Governor, and two selected by the Secretary of State. The board shall have the authority to reject any application for fund money it deems inappropriate, excessive, or that does not comply with the intent of this article. A county whose application is rejected shall be allowed to submit an amended application.

19236. (a) All bonds authorized by this article, when duly sold and delivered as provided herein, constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. The bonds issued pursuant to this article shall be repaid within 10 years from the date they are issued.

(b) There shall be collected annually, in the same manner and at the same time as other state revenue is collected, a sum of money, in addition to the ordinary revenues of the state, sufficient to pay the principal of, and interest on, these bonds as provided herein. All officers required by law to perform any duty in regard to the collection of state revenues shall collect this additional sum.

(c) On the dates on which funds are remitted pursuant to Section 16676 of the Government Code for the payment of the then maturing principal of, and interest on, the bonds in each fiscal year, there shall be returned to the General Fund all of the money in the fund, not in excess of the principal of, and interest on, any bonds then due and payable. If the money so returned on the remittance dates is less than the principal and interest then due and payable, the balance remaining unpaid shall be returned to the General Fund out of the fund as soon as it shall become available, together with interest thereon from the dates of maturity until returned, at the same rate of interest as borne by the bonds, compounded semiannually. This subdivision does not grant any lien on the fund or the moneys therein to holders of any bonds issued under this article. However, this subdivision shall not apply in the case of any debt service that is payable from the proceeds of any refunding bonds. For the purposes of this subdivision, “debt service” means the principal (whether due at maturity, by redemption, or acceleration), premium, if any, or interest payable on any date to any series of bonds.

19237. Notwithstanding Section 13340 of the Government Code, there is hereby continuously appropriated from the General Fund, for purposes of this article, a sum of money that will equal both of the following:

(a) That sum annually necessary to pay the principal of, and the interest on, the bonds issued and sold as provided herein, as that principal and interest become due and payable.
(b) That sum necessary to carry out Section 19238, appropriated without regard to fiscal years.

19238. For the purposes of this article, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of a sum of money not to exceed the amount of the unsold bonds that have been authorized by the committee to be sold pursuant to this article. Any sums withdrawn shall be deposited in the fund. All moneys made available under this section to the board shall be returned by the board to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from the sale of bonds for the purpose of carrying out this article.

19239. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this article. The amount of the request shall not exceed the amount of unsold bonds which the committee has, by resolution, authorized to be sold for the purpose of carrying out this article. The board shall execute whatever documents are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this article.

19240. Upon request of the board, supported by a statement of its plans and projects approved by the Governor, the committee shall determine whether to issue any bonds authorized under this article in order to carry out the board’s plans and projects, and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out these plans and projects progressively, and it is not necessary that all of the bonds be issued or sold at any one time.

19241. (a) The committee may authorize the Treasurer to sell all or any part of the bonds authorized by this article at the time or times established by the Treasurer.

(b) Whenever the committee deems it necessary for an effective sale of the bonds, the committee may authorize the Treasurer to sell any issue of bonds at less than their par value, notwithstanding Section 16754 of the Government Code. However, the discount on the bonds shall not exceed 3 percent of the par value thereof.

19242. Out of the first money realized from the sale of bonds as provided herein, there shall be redeposited in the General Obligation Bond Expense Revolving Fund, established by Section 16724.5 of the Government Code, the amount of all expenditures made for the purposes specified in that section, and this money may be used for the same purpose and repaid in the same manner whenever additional bond sales are made.

19243. Any bonds issued and sold pursuant to this article may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 2 of Title 2 of the Government Code. The approval of the voters for the issuance of bonds under this article includes approval for the issuance of bonds issued to refund bonds originally issued or any previously issued refunding bonds.

19244. Notwithstanding any provision of the bond act, if the Treasurer sells bonds under this article for which bond counsel has issued an opinion to the effect that the interest on the bonds is excludable from gross income for purposes of federal income tax, subject to any conditions which may be designated, the Treasurer may establish separate accounts for the investment of bond proceeds
and for the earnings on those proceeds, and may use those proceeds or earnings
to pay any rebate, penalty, or other payment required by federal law or take any
other action with respect to the investment and use of bond proceeds required
or permitted under federal law necessary to maintain the tax-exempt status of
the bonds or to obtain any other advantage under federal law on behalf of the
funds of this state.

19245. The Legislature hereby finds and declares that, inasmuch as the
proceeds from the sale of bonds authorized by this article are not “proceeds
of taxes” as that term is used in Article XIII B of the California Constitution,
the disbursement of these proceeds is not subject to the limitations imposed by
Article XIII B.

45. **Legislative Term Limits. Local Voter Petitions.**

[Submitted by the initiative and rejected by electors March 5, 2002.]

PROPOSED AMENDMENT OF ARTICLE II

SECTION 1. Preamble

Term limits have reinvigorated the political process by promoting full
participation and bringing a breath of fresh air to California government. The
people recognize that in some instances a few specially skilled and popular
lawmakers have been unable to complete important legislative programs for
their districts before they must leave office. In recognition of these special cases,
the people of California seek an opportunity by petition to extend some specific
district representatives’ terms in office by a maximum of four years.

SEC. 2. Section 21 is added to Article II of the California Constitution, to
read:

SEC. 21. **Local Legislative Option.** Local legislative option is the power
of the voters residing in an Assembly or Senate district to exercise an option to
allow their term-limited state legislator to stand for re-election for an extended
term(s) in office, not to exceed a total of four years, notwithstanding Article IV,
Section 2(a) of this Constitution.

(a) Local legislative option may be exercised only one time per lawmaker.

SEC. 3. Section 22 is added to Article II of the California Constitution, to
read:

SEC. 22. (a) Exercise of the local legislative option is initiated by
delivering to the Secretary of State a petition invoking the right of the people to
re-elect a legislator who would otherwise be ineligible for re-election by reason
of Article IV, Section 2(a). Proponents have 90 days to circulate petitions and
must submit petitions for verification at least 30 business days prior to the first
day candidates may file declarations of intention to become a candidate for
legislative office.
(b) A petition invoking local legislative option must be signed by electors of the district equal in number to 20 percent of the ballots cast for that office in the last general election for which the local legislative option is sought.

(c) Only electors registered to vote in the district in which the legislator is serving at the time the petition is filed, or following a redistricting, in the district in which the local legislative option is sought, may sign the petition.

(d) Legislators permitted to run under this section may run only in the district in which they are currently serving, or if that district is changed pursuant to redistricting, then in the successor district whose lines include the larger portion of the former district.

(e) Local voters may exercise this option to extend the time that a legislator would otherwise be permitted to serve by a period of four years.

(f) The petition must be in substantially the following form:

We the undersigned registered voters of the ___ Assembly [or Senate] district hereby invoke our right pursuant to Article II, Section 21 of the California Constitution to vote for or against [here list the legislator by name] at the next election(s) for that office, but not to exceed a total of four years. Our reasons are as follows: [here set forth reasons in no more than 200 words]

(g) Petitions shall be submitted to local election officers who shall certify the signatures to the Secretary of State in the same fashion as initiative petitions are certified. As soon as sufficient valid signatures are certified, the Secretary of State shall so advise local election officials, who shall place the name of the certified legislator on the ballot in the same fashion as if he or she were not subject to Article IV, Section 2(a).

Each municipal court district shall have no fewer than 40,000 residents; provided that each county shall have at least one municipal court district: The number of residents shall be determined as provided by statute.

(b) On the operative date of this subdivision; all existing justice courts shall become municipal courts; and the number, qualifications, and compensation of judges, officers, attaches, and employees shall continue until changed by the Legislature: Each judge of a part-time municipal court is deemed to have agreed to serve full time and shall be available for assignment by the Chief Justice for the balance of time necessary to comprise a full-time workload:

Third—That Section 6 of Article VI is amended to read:
SEC. 6. (a) The Judicial Council consists of the Chief Justice and one other judge of the Supreme Court, three judges of courts of appeal, five judges of superior courts, five judges of municipal courts, two nonvoting court administrators, and such any other nonvoting members as determined by the voting membership of the council, each appointed by the Chief Justice for a 3-year three-year term
pursuant to procedures established by the council; 4 four members of the State Bar appointed by its governing body for 3-year three-year terms; and one member of each house of the Legislature appointed as provided by the house.

Vacancies in the memberships on the Judicial Council otherwise designated for municipal court judges shall be filled by judges of the superior court in the case of appointments made when fewer than 10 counties have municipal courts:

(b) Council membership terminates if a member ceases to hold the position that qualified the member for appointment. A vacancy shall be filled by the appointing power for the remainder of the term.

(c) The council may appoint an Administrative Director of the Courts, who serves at its pleasure and performs functions delegated by the council or the Chief Justice, other than adopting rules of court administration, practice and procedure.

(d) To improve the administration of justice the council shall survey judicial business and make recommendations to the courts, make recommendations annually to the Governor and Legislature, adopt rules for court administration, practice and procedure, and perform other functions prescribed by statute. The rules adopted shall not be inconsistent with statute.

(e) The Chief Justice shall seek to expedite judicial business and to equalize the work of judges. The Chief Justice may provide for the assignment of any judge to another court but only with the judge’s consent if the court is of lower jurisdiction. A retired judge who consents may be assigned to any court.

(f) Judges shall report to the council as the Chief Justice directs concerning the condition of judicial business in their courts. They shall cooperate with the council and hold court as assigned.

Fourth—That Section 8 of Article VI is amended to read:

SEC. 8. Except as provided in subdivisions (b) and (c), all terms are for 4 four years. No member shall serve more than 2 two four-year terms, or for more than a total of 10 years if appointed to fill a vacancy. A vacancy in the membership on the Commission on Judicial Performance otherwise designated for a municipal court judge shall be filled by a judge of the superior court in the case of an appointment made when fewer than 10 counties have municipal courts.

(b) Commission membership terminates if a member ceases to hold the position that qualified the member for appointment. A vacancy shall be filled by the appointing power for the remainder of the term. A member whose term has expired may continue to serve until the vacancy has been filled by the appointing power. Appointing powers may appoint members who are already serving on the commission prior to March 1, 1995, to a single 2-year two-year term, but may not appoint them to an additional term thereafter.

(c) To create staggered terms among the members of the Commission on Judicial Performance, the following members shall be appointed, as follows:
(1) Two members appointed by the Supreme Court to a term commencing March 1, 1995, shall each serve a term of 2 years and may be reappointed to one full term.

(6) All other members shall be appointed to full 4-year terms commencing March 1, 1995.

Fifth—That Section 10 of Article VI is amended to read:

SEC. 10. The Supreme Court, courts of appeal, superior courts, and their judges have original jurisdiction in habeas corpus proceedings. Those courts also have original jurisdiction in proceedings for extraordinary relief in the nature of mandamus, certiorari, and prohibition. The appellate division of the superior court has original jurisdiction in proceedings for extraordinary relief in the nature of mandamus, certiorari, and prohibition directed to the superior court in cases subject to its appellate jurisdiction.

Superior courts have original jurisdiction in all other causes except those given by statute to other trial courts.

The court may make such any comment on the evidence and the testimony and credibility of any witness as in its opinion is necessary for the proper determination of the cause.

Sixth—That Section 15 of Article VI is amended to read:

SEC. 15. A person is ineligible to be a judge of a court of record unless for 5 years immediately preceding selection to a municipal court or 10 years immediately preceding selection to other courts, the person has been a member of the State Bar or served as a judge of a court of record in this State. A judge eligible for municipal court service may be assigned by the Chief Justice to serve on any court.

Seventh—That Section 16 of Article VI is amended to read:

SEC. 16. (a) Judges of the Supreme Court shall be elected at large and judges of courts of appeal shall be elected in their districts at general elections at the same time and places as the Governor. Their terms are 12 years beginning the Monday after January 1 following their election, except that a judge elected to an unexpired term serves the remainder of the term. In creating a new court of appeal district or division the Legislature shall provide that the first elective terms are 4, 8, and 12 years.

(b) In counties in which there is no municipal court, judges of superior courts shall be elected in their counties at general elections except as otherwise necessary to meet the requirements of federal law. In the latter case the Legislature, by two-thirds vote of the membership of each house thereof, with the advice of judges within the affected court, may provide for their election by the system prescribed in subdivision (d), or by any other arrangement. The
Legislature may provide that an unopposed incumbent’s name not appear on the ballot.

(2) In counties in which there is one or more municipal court districts, judges of superior and municipal courts shall be elected in their counties or districts at general elections. The Legislature may provide that an unopposed incumbent’s name not appear on the ballot.

(c) Terms of judges of superior courts are 6 six years beginning the Monday after January 1 following their election. A vacancy shall be filled by election to a full term at the next general election after the second January 1 following the vacancy, but the Governor shall appoint a person to fill the vacancy temporarily until the elected judge’s term begins.

(d) (1) Within 30 days before August 16 preceding the expiration of the judge’s term, a judge of the Supreme Court or a court of appeal may file a declaration of candidacy to succeed to the office presently held by the judge. If the declaration is not filed, the Governor before September 16 shall nominate a candidate. At the next general election, only the candidate so declared or nominated may appear on the ballot, which shall present the question whether the candidate shall be elected. The candidate shall be elected upon receiving a majority of the votes on the question. A candidate not elected may not be appointed to that court but later may be nominated and elected.

(2) The Governor shall fill vacancies in those courts by appointment. An appointee holds office until the Monday after January 1 following the first general election at which the appointee had the right to become a candidate or until an elected judge qualifies. A nomination or appointment by the Governor is effective when confirmed by the Commission on Judicial Appointments.

(3) Electors of a county, by majority of those voting and in a manner the Legislature shall provide, may make this system of selection applicable to judges of superior courts.

Eighth—That Section 23 of Article VI is amended to read:

SEC. 23. (a) The purpose of the amendments to Sections 1, 4, 5, 6, 8, 10, 11, and 16, of this article, and the amendments to Section 16 of Article I, approved at the June 2, 1998, primary election is to permit the Legislature to provide for the abolition of the municipal courts and unify their operations within the superior courts. Notwithstanding Section 8 of Article IV, the implementation of, and orderly transition under, the provisions of the measure adding this section may include urgency statutes that create or abolish offices or change the salaries, terms, or duties of offices, or grant franchises or special privileges, or create vested rights or interests, where otherwise permitted under this Constitution.

(b) When the superior and municipal courts within a county are unified, the judgeships in each municipal court in that county are abolished and the previously selected municipal court judges shall become judges of the superior court in that county. The term of office of a previously selected municipal court judge is not affected by taking office as a judge of the superior court. The 10-year membership or service requirement of Section 15 does not apply to a previously selected municipal court judge. Pursuant to Section 6, the Judicial Council may prescribe appropriate education and training for judges with regard to trial court unification.

(c) Except as provided by statute to the contrary, in any county in which the superior and municipal courts become unified, the following shall occur automatically in each preexisting superior and municipal court:

(1) Previously selected officers, employees, and other personnel who serve the court become the officers and employees of the superior court.
(2) Preexisting court locations are retained as superior court locations.
(3) Preexisting court records become records of the superior court.
(4) Pending actions, trials, proceedings, and other business of the court become pending in the superior court under the procedures previously applicable to the matters in the court in which the matters were pending.
(5) Matters of a type previously within the appellate jurisdiction of the superior court remain within the jurisdiction of the appellate division of the superior court.
(6) Matters of a type previously subject to rehearing by a superior court judge remain subject to rehearing by a superior court judge, other than the judge who originally heard the matter.
(7) Penal Code procedures that necessitate superior court review of, or action based on, a ruling or order by a municipal court judge shall be performed by a superior court judge other than the judge who originally made the ruling or order.
(d) This section shall remain in effect only until January 1, 2007, and as of that date is repealed.

PROPOSED LAW

AFTER SCHOOL EDUCATION AND SAFETY PROGRAM ACT OF 2002

SECTION 1. This act shall be known, and may be cited, as the “After School Education and Safety Program Act of 2002.”
SEC. 2. The people find and declare all of the following:
(a) Studies by law enforcement and nonprofit organizations show that the after school hours between 3 p.m. and 6 p.m. on school days are the peak hours for children to become victims of violent crimes or to commit violent crimes themselves. The after school hours are also the peak hours for drug and alcohol use and car accidents involving children.
(b) Research shows after school programs have a major positive impact on society by making our streets safer, and reducing risk taking behavior such as alcohol, tobacco and drug use by teenagers.
(c) Studies by the University of California Los Angeles and the University of California Irvine of existing after school programs in California show the after school programs have a major positive impact on the education of our children by increasing school attendance, reducing suspensions, and improving standardized test scores.
(d) After school programs save taxpayer money by reducing crime, reducing health costs associated with drug and alcohol use, cutting grade repetition, and reducing the need for remedial education.
(e) After school programs help working families by providing their children a safe, educationally enriching place to go after school when there is no parent at home.

(f) School buildings, playgrounds, and other school facilities are a huge taxpayer investment, and they can and should be better utilized during before and after school hours, especially for after school programs for California’s children.

(g) The After School Learning and Safe Neighborhoods Partnerships Program has successfully provided incentive grants for after school and nonschoolday programs that have proven to increase academic performance and to improve behavior of children, especially children at risk.

(h) Only a small portion of elementary and middle schools in California currently operate an after school program. With approximately 50 percent of California’s children having either a single working parent, or two parents who both work, after school programs have become a necessity, not a luxury.

(i) Although new funding of after school programs is extremely important, revenues guaranteed by law for our public school system pursuant to Proposition 98 should first be fully appropriated and therefore not be used to increase the funding of these after school programs. The new funding for after school programs will therefore be funded above the legally required educational funding.

(j) And because there are essential, noneducation state programs that need continued funding, increasing funding for these after school programs should occur only after substantial growth in state revenues not guaranteed for education purposes.

SEC. 3. Therefore the people enact the After School Education and Safety Program Act to encourage schools and school districts to use school facilities and other appropriate locations to provide a safe and educationally enriching place for children in grades K through 9 to be when they are not in school and to accomplish the following specific purposes:

(a) To rename the After School Learning and Safe Neighborhoods Partnerships Program the After School Education and Safety Program (ASESP), but not to change its program operations under existing law and to continue to require a 50 percent match of local funding.

(b) To expand ASESP funding to a level sufficient to:
   (1) First, fund all existing before and after school and nonschoolday grants.
   (2) Second, make available universal after school incentive grants to every public (including charter) elementary, middle, and junior high school in California making an acceptable application.
   (3) Third, increase funding for before and after school programs beyond current appropriations when more state revenue is available.

(c) To give priority for increased state funding to schools with predominately low-income students from funds available once every eligible school has the opportunity to receive an initial universal after school grant.

(d) To add computer training, fine arts, and physical fitness programs to the educational/literacy and enrichment/recreational components of existing law.

(e) To solicit local law enforcement input in program development.

(f) To fund the expansion of state grants to schools for this program only out of growth in state revenues, instead of new taxes, and only after state revenues that are otherwise legally guaranteed to fund education programs have already been fully appropriated.
(g) To appropriate four hundred sixty-five million dollars ($465,000,000) for new program expenditures above the existing statutory appropriation of eighty-five million dollars ($85,000,000) for a total of five hundred fifty million dollars ($550,000,000), much of which will be offset from savings expected from reduced costs in crime and education.

(h) To make sure this new four hundred sixty-five million dollar ($465,000,000) appropriation is not an undue burden on other state programs, to provide a trigger to increase the eighty-five million dollar ($85,000,000) appropriation in the 2004–05 fiscal year or later when and only if state revenues have grown sufficiently over the highest of the 2000–01, 2001–02, 2002–03, or 2003–04 fiscal years to provide more than one billion five hundred million dollars ($1,500,000,000) in new appropriations not guaranteed for education purposes.

(i) To ensure each school gets the highest quality program possible, provide 1½ percent of the appropriation for the program for technical assistance and program evaluation.

SEC. 4. The heading of Article 22.5 (commencing with Section 8482) of Chapter 2 of Part 6 of the Education Code is amended to read:

Article 22.5. Before and After School Learning and Safe Neighborhoods Partnerships Program

After School Education and Safety Program

SEC. 5. Section 8482 of the Education Code is amended to read:

8482. There is hereby established the After School Education and Safety Program. All references to it by its prior name, the Before and After School Learning and Safe Neighborhoods Partnerships Program, in this article and other state law shall now identify it by its new name. The purpose of this program is to create incentives for establishing locally driven before and after school enrichment programs both during schooldays and summer, intersession, or vacation days that partner public schools and communities to provide academic and literacy support and safe, constructive alternatives for youth. The term public school includes charter schools.

SEC. 6. Section 8482.3 of the Education Code is amended to read:

8482.3. (a) The Before and After School Learning and Safe Neighborhoods Partnerships Program After School Education and Safety Program shall be established to serve pupils in kindergarten and grades 1 to 9, inclusive, at participating public elementary, middle, junior high, and charter school sites.

(b) A program may operate a before school component of a program, an after school component, or both the before and after school components of a program, on one or multiple school sites. If a program operates at multiple school sites, only one application shall be required for its establishment.

(c) Each component of a program established pursuant to this article shall consist of the following two components:

(1) An educational and literacy component whereby tutoring or homework assistance is provided in one or more of the following areas: language arts, mathematics, history and social science, computer training, or science.

(2) A component whereby educational enrichment, which may include, but need not be limited to, fine arts, recreation, physical fitness, and prevention activities, is provided.
(d) Applicants for programs established pursuant to this article may include any of the following:
   (1) A local education agency, including a charter school.
   (2) A city, county, or nonprofit organization in partnership with, and with the approval of, a local education agency or agencies.
(e) Applicants for grants pursuant to this article shall ensure that each of the following requirements is fulfilled, if applicable:
   (1) The application documents the commitments of each partner to operate a program on that schoolsite site or schoolsites sites.
   (2) The application has been approved by the school district and the principal of each participating school for each schoolsite or other site.
   (3) Each partner in the application agrees to share responsibility for the quality of the program.
   (4) The application designates the public agency or local education agency partner to act as the fiscal agent. For purposes of this section, “public agency” means only a county board of supervisors or, where the city is incorporated or has a charter, a city council.
   (5) Applicants agree to follow all fiscal reporting and auditing standards required by the State Department of Education.

SEC. 7. Section 8482.5 of the Education Code is amended to read:
8482.5. (a) Priority for funding programs established pursuant to this article, except those established pursuant to subdivision (c) of Section 8482.55, shall be given to schools where a minimum of 50 percent of the pupils in elementary schools and 50 percent of the pupils in middle and junior high schools are eligible for free or reduced-cost meals through the school lunch program of the United States Department of Agriculture.
(b) Every program established pursuant to this article shall be planned through a collaborative process that includes parents, youth, and representatives of participating public schools, governmental agencies, such as city and county parks and recreation departments, local law enforcement, community organizations, and the private sector.

SEC. 8. Section 8482.55 is added to the Education Code, to read:
8482.55. (a) To accomplish the purposes of the After School Education and Safety Program, commencing with the fiscal year beginning July 1, 2004, and for each fiscal year thereafter, all grants made pursuant to this article shall be awarded as set forth in this section.
(b) Grants made to public schools pursuant to this article for the 2003–04 fiscal year shall continue to be funded in each subsequent fiscal year at the 2003–04 fiscal year level before any other grants are funded under this article, provided such schools continue to make application for such grants and are otherwise qualified pursuant to this article. Receipt of a grant at the 2003–04 fiscal year level made pursuant to this subdivision shall not affect a school’s eligibility for additional grant funding as permitted in subdivisions (c) and (d) up to the maximum grants permitted in Sections 8483.7 and 8483.75.
(c) Every public elementary, middle, and junior high school in the state shall be eligible to receive a three year renewable incentive grant for after school programs to be operated during the regular school year, as provided in subparagraph (A) of paragraph (1) of subdivision (a) of Section 8483.7. Except as provided in this subdivision, grants for after school programs made pursuant to this subdivision shall be subject to all other sections of this article. Grants for after school programs made pursuant to this subdivision shall not exceed fifty
thousand dollars ($50,000) for each regular school year for each elementary school or seventy-five thousand dollars ($75,000) for each regular school year for each middle or junior high school. Notwithstanding subdivision (a) of Section 8482.5 and except as provided in subdivision (f), every public elementary, middle, and junior high school in the state shall have equal priority of funding for grants for after school programs made pursuant to this subdivision. Receipt of a grant for an after school program made pursuant to this subdivision shall not affect a school’s eligibility for additional grant funding as permitted in subdivision (d) up to the maximum grants permitted in Sections 8483.7 and 8483.75. Grants made pursuant to this subdivision shall be funded after grants made pursuant to subdivision (b) and before any grants made pursuant to subdivision (d). Grants made pursuant to this subdivision shall be referred to as “After School Education and Safety Universal Grants.”

(d) All funds remaining from the appropriation provided in Section 8483.5 after award of grants pursuant to subdivisions (b) and (c) shall be distributed pursuant to Sections 8483.7 and 8483.75. Grants for programs made pursuant to this subdivision shall be subject to all other sections of this article. Priority for grants for programs made pursuant to this subdivision shall be established pursuant to subdivision (a) of Section 8482.5 and Section 8483.3.

(e) No school shall receive grants in excess of the amounts provided in Sections 8483.7 and 8483.75.

(f) In the event that in any fiscal year the appropriation made pursuant to Section 8483.5 shall be insufficient to fund all eligible schools who make application for After School Education and Safety Universal Grants pursuant to subdivision (c), priority for After School Education and Safety Universal Grants shall be established pursuant to subdivision (a) of Section 8482.5 and Section 8483.3.

SEC. 9. Section 8483.25 is added to the Education Code, to read:

8483.25. The State Department of Education shall provide notice to all schools eligible for grants under this article of the availability of such grants as well as the process for making application.

SEC. 10. Section 8483.5 of the Education Code is amended to read:

8483.5. (a) It is the intent of the Legislature that a minimum of eighty-five million dollars ($85,000,000) be appropriated for the program established pursuant to this article, through the annual Budget Act. Of the funds appropriated for the program, current grant recipients have priority for receiving continued funding for the same purposes for which they previously received an award. This subdivision shall be in effect only until June 30, 2004.

(b) Commencing with the fiscal year beginning July 1, 2004, and for each fiscal year thereafter, there shall be continuously appropriated to the State Department of Education from the General Fund for the program established pursuant to this article an amount not to exceed five hundred fifty million dollars ($550,000,000) that is the greater of (1) an amount equal to the appropriation from the General Fund for the program established pursuant to this article for the immediately preceding fiscal year, or (2) an amount equal to the sum of (A) the appropriation from the General Fund for the program established pursuant to this article for fiscal year 2003–04 and (B) the amount by which the state’s non-guaranteed General Fund appropriations for the current fiscal year exceed the sum of (i) the amount of the state’s non-guaranteed General Fund appropriations for the base year plus (ii) one billion five hundred million dollars ($1,500,000,000). Nothing in this section prohibits the Legislature from
appropriating funds for the program established pursuant to this article in excess of this continuous appropriation.

(c) For purposes of this section, the term “state’s non-guaranteed General Fund appropriations” shall mean those General Fund appropriations of the state in a fiscal year other than those appropriations guaranteed to be applied by the state for the support of school districts and community college districts pursuant to Sections 8 and 8.5 of Article XVI of the California Constitution. For purposes of this section, the “base year” is the fiscal year during the period July 1, 2000 through June 30, 2004 for which the state’s non-guaranteed General Fund appropriations are the highest as compared to any other fiscal year during such period.

(d) Notwithstanding subdivision (b), in any fiscal year in which the Legislature has legal authority pursuant to paragraph (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution to reduce the moneys applied by the state for the support of school districts and community college districts for the current fiscal year as compared to the moneys applied by the state for the support of school districts and community colleges during the immediately preceding fiscal year, the continuous appropriation pursuant to subdivision (b) shall be reduced for that fiscal year by the same percentage by which the moneys applied by the state for the support of school districts and community college districts in the current fiscal year is less than the moneys applied by the state for the support of school districts and community college districts during the immediately preceding fiscal year.

(e) All funds expended pursuant to this article shall be used only for the purposes expressed in this article. Except for funds expended pursuant to subdivision (b) of Section 8482.55, all funds expended pursuant to this article shall be used to supplement and not supplant existing levels of service.

SEC. 11. Section 8483.55 is added to the Education Code, to read:
8483.55. From the funds appropriated pursuant to subdivision (b) of Section 8483.5, the State Department of Education may spend 1½ percent to cover evaluation costs and to provide training and support to ensure quality program implementation, development, and sustainability and may pay its costs of awarding and monitoring grants.

SEC. 12. Section 8483.6 is added to the Education Code, to read:
8483.6. Notwithstanding subdivision (f) of Section 41202, in any fiscal year commencing with the fiscal year beginning July 1, 2004, that portion of any continuous appropriation made by Section 8483.5 for the program established pursuant to this article which is in excess of the amount appropriated for the program established pursuant to this article for the immediately preceding fiscal year shall not be appropriated until the Legislature has appropriated sums sufficient to fully fund the requirements of Sections 8 and 8.5 of Article XVI of the California Constitution for that year and shall be appropriated in addition to the sums required by, and shall not be considered towards fulfilling the funding requirements of, Sections 8 and 8.5 of Article XVI of the California Constitution for that fiscal year.

SEC. 13. Section 8484.6 of the Education Code is amended to read:
8484.6. (a) Programs established pursuant to this article may be conducted upon the grounds of a community park or recreational area if the park or recreational area is adjacent to the schoolsite facility, or other site as approved by the State Department of Education in the grant application process. Offsite programs shall align the educational and literacy component of the program with
participating pupils’ regular school programs. No program located off school grounds shall be approved unless safe transportation is provided to the pupils enrolled in the program. Any reference to schoolsite as a physical location in this article shall mean schoolsite or other site as provided by this section.

(b) An offsite program conducted pursuant to this section shall comply with all statutory and regulatory requirements that are applicable to similar programs conducted on the schoolsite.

SEC. 14. Except for Sections 8482.55, 8483.5, and 8483.6 of the Education Code, the After School Education and Safety Program Act of 2002 may be amended to further its purpose by statute, passed in each house by a majority vote of the membership concurring and signed by the Governor. Section 8482.55 of the Education Code may be amended to further the purpose of the After School Education and Safety Program Act of 2002 by statute, passed in each house by a two-thirds vote of the membership concurring and signed by the Governor. Sections 8483.5 and 8483.6 of the Education Code may not be amended by the Legislature.

SEC. 15. The provisions of this act are severable. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

The bond proceeds shall be deposited in the Water Security, Clean Drinking Water, Coastal and Beach Protection Fund of 2002 created by Section 79510. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of and interest on the bonds as they become due and payable.

79581. The bonds authorized by this division shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all provisions of that law shall apply to the bonds and to this division and are hereby incorporated in this division by this reference as though fully set forth in this division.

79582. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this division, the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 Finance Committee is hereby created. For purposes of this division, the Water Security, Clean Drinking Water, Coastal and Beach Protection Act of 2002 Finance Committee is “the committee” as that term is used by the State General Obligation Bond Law. The committee shall consist of the Controller, the Director of Finance, and the Treasurer, or their designated representatives. The Treasurer shall serve as chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of this chapter and the State General Obligation Bond Law, the secretary is designated as “the board.”

79583. The committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this division in order to carry out the actions specified in this division and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

79584. There shall be collected annually in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds maturing each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do so and perform each and every act that is necessary to collect that additional sum.

79585. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund, for purposes of this division, an amount that will equal the total of the following:

79586. For the purposes of carrying out this division, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized to be sold for the purpose of carrying out this division. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, plus the interest that the amounts would have earned in the Pooled Money Investment Account, from money received from the sale of bonds that would otherwise be deposited in that fund.

79587. All money derived from premium and accrued interest on bonds sold shall be reserved and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

79588. Any bonds issued or sold pursuant to this division may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of the bonds shall include approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.

79589. The people of California hereby find and declare that inasmuch as the proceeds from the sale of bonds authorized by this division are not “proceeds of taxes” as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitation imposed by that article.

SEC. 2. If any provision of this act or the application thereof is held invalid, that invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

53526. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

53530. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this part. C) Twenty-five million dollars ($25,000,000) shall be used for matching grants to local housing trust funds pursuant to enabling legislation.

D) Fifteen million dollars ($15,000,000) shall be used for student housing through the Multifamily Housing Program, subject to the following provisions:

i) The department shall give first priority for projects on land owned by a University of California or California State University campus. Second priority shall be given to projects located within one mile of a University of California or California State University campus that is suffering from a severe shortage of housing and limited availability of developable land as determined by the department. Those determinations shall be set forth in the Notice of Funding Availability and shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Title 2 of the Government Code.

(F) If the enabling legislation for any program specified in this paragraph fails to be enacted into law in the 2001–02 Regular Session of the Legislature, the specified allocation for that program shall be void and the funds shall revert for general use in the Multifamily Housing Program.

(2) One hundred ninety-five million dollars ($195,000,000) shall be transferred to the Emergency Housing and Assistance Fund to be expended for the Emergency Housing and Assistance Program authorized by Chapter 11.5 (commencing with Section 50800) of Part 2.

The criteria for selecting projects should give priority to supportive housing for people with disabilities who would otherwise be at high risk of homelessness where the applications represent collaboration with programs that meet the needs of the person’s disabilities. The department may provide for higher per-unit loan limits as reasonably necessary to provide and maintain rents affordable to those individuals and households. For purposes of this paragraph, “supportive housing” means housing with no limit on length of stay, that is occupied by the target population, as defined in subdivision (d) of Section 53260, and that is linked to onsite or offsite services that assist the tenant to retain the housing, improve his or her health status, maximize his or her ability to live, and, when possible, work in the community.

(4) Two hundred million dollars ($200,000,000) shall be transferred to the Joe Serna, Jr. Farmworker Housing Grant Fund to be expended for farmworker housing programs authorized by Chapter 3.2 (commencing with Section 50517.5) of Part 2, except for the following:

(A) Twenty-five million dollars ($25,000,000) shall be used for projects that serve migratory agricultural workers as defined in subdivision (i) of Section 7602 of Title 25 of the California Code of Regulations.

(B) Twenty million dollars ($20,000,000) shall be used for developments that also provide health services to the residents. Recipients of these funds shall be required to provide ongoing monitoring of funded developments to ensure compliance with the requirements of the Joe Serna, Jr. Farmworker Housing Grant Program. Projects receiving funds through this allocation shall be ineligible for funding through the Joe Serna, Jr. Farmworker Housing Grant Program.

(C) Any funds not encumbered for the purposes set forth in this paragraph within 30 months of availability shall revert for general use in the Joe Serna, Jr. Farmworker Housing Grant Program.

(5) Two hundred five million dollars ($205,000,000) shall be transferred to the Self-Help Housing Fund. Notwithstanding Section 13340 of the Government Code and Section 50697.1, these funds are hereby continuously appropriated without regard to fiscal years to the department to be expended for the purposes
of the CalHome Program authorized by Chapter 6 (commencing with Section 50650) of Part 2, except for the following:

(A) Seventy-five million dollars ($75,000,000) shall be transferred to the Building Equity and Growth in Neighborhoods Fund to be used for the Building Equity and Growth in Neighborhoods (BEGIN) Program pursuant to enabling legislation.

(B) Five million dollars ($5,000,000) shall be used to provide grants to cities, counties, cities and counties, and nonprofit organizations to provide grants for lower income tenants with disabilities for the purpose of making exterior modifications to rental housing in order to make that housing accessible to persons with disabilities. For the purposes of this subparagraph, “exterior modifications” includes modifications that are made to entryways or to common areas of the structure or property. The program provided for under this subparagraph shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Title 2 of the Government Code.

(C) Ten million dollars ($10,000,000) shall be expended for construction management under the California Self-Help Housing Program pursuant to subdivision (b) of Section 50696.

(D) Any funds not encumbered for the purposes set forth in this paragraph within 30 months of availability shall revert for general use in the CalHome Program.

(E) If the enabling legislation for any program specified in this paragraph fails to be enacted into law in the 2001–02 Regular Session of the Legislature, the specified allocation for that program shall be void and the funds shall revert for general use in the CalHome Program.

(6) Five million dollars ($5,000,000) shall be transferred to the Housing Rehabilitation Loan Fund to be expended for capital expenditures in support of local code enforcement and compliance programs. This allocation shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Title 2 of the Government Code. If the moneys allocated pursuant to this paragraph are not expended within three years after being transferred, the department may, in its discretion, transfer the moneys to the Housing Rehabilitation Loan Fund to be expended for the Multifamily Housing Program.

(7) Two hundred ninety million dollars ($290,000,000) shall be transferred to the Self-Help Housing Fund. Notwithstanding Section 50697.1, these funds are hereby continuously appropriated to the agency to be expended for the purposes of the California Homebuyer’s Downpayment Assistance Program authorized by Chapter 11 (commencing with Section 51500) of Part 3, except for the following:

(A) Fifty million dollars ($50,000,000) shall be transferred to the School Facilities Fee Assistance Fund as provided by subdivision (a) of Section 51453 to be used for the Homebuyer Down Payment Assistance Program of 2002 established by Section 51451.5.

(B) Eighty-five million dollars ($85,000,000) shall be transferred to the California Housing Loan Insurance Fund to be used for purposes of Part 4 (commencing with Section 51600).

(C) Twelve million five hundred thousand dollars ($12,500,000) shall be reserved for downpayment assistance to low-income first-time homebuyers who, as documented to the agency by a nonprofit organization certified and funded to provide homeownership counseling by a federally funded national nonprofit
corporation, is purchasing a residence in a community revitalization area targeted by the nonprofit organization and who has received homeownership counseling from the nonprofit organization.

(D) Twenty-five million dollars ($25,000,000) shall be used for down payment assistance pursuant to Section 51505. After 18 months of availability, if the agency determines that the funds set aside pursuant to this section will not be utilized for purposes of Section 51505, these funds shall be available for the general use of the agency for the purposes of the California Homebuyer’s Down Payment Assistance Program, but may also continue to be available for the purposes of Section 51505.

(E) Funds not utilized for the purposes set forth in subparagraphs (B) and (C) within 30 months shall revert for general use in the California Homebuyer’s Down Payment Assistance Program.

(8) One hundred million dollars ($100,000,000) shall be transferred to the Jobs Housing Improvement Account to be expended as capital grants to local governments for increasing housing pursuant to enabling legislation. If the enabling legislation fails to become law in the 2001–02 Regular Session of the Legislature, the specified allocation for this program shall be void and the funds shall revert for general use in the Multifamily Housing Program as specified in paragraph (1) of subdivision (a).

(b) No portion of the money allocated pursuant to this section may be expended for project operating costs, except that this section does not preclude expenditures for operating costs from reserves required to be maintained by or on behalf of the project sponsor.

(c) The Legislature may, from time to time, amend the provisions of law related to programs to which funds are, or have been, allocated pursuant to this section for the purpose of improving the efficiency and effectiveness of the program, or for the purpose of furthering the goals of the program.

(d) The Bureau of State Audits shall conduct periodic audits to ensure that bond proceeds are awarded in a timely fashion and in a manner consistent with the requirements of this part, and that awardees of bond proceeds are using funds in compliance with applicable provisions of this part.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

100627. The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject
of this chapter and, as that committee, shall have the powers granted to, and
duties imposed upon, those committees by the Joint Rules of the Senate and the
Assembly. The Director of Finance shall provide assistance to the committee
as it may require. The Attorney General of the state is the legal adviser of the
committee.

100630. (a) The bonds authorized by this chapter shall be prepared,
executed, issued, sold, paid, and redeemed as provided in the State General
Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of
Division 4 of Title 2 of the Government Code), and all of the provisions of that
law, except Section 16727 of the Government Code, apply to the bonds and to
this chapter and are hereby incorporated into this chapter as though set forth in
full within this chapter.

(b) For purposes of the State General Obligation Bond Law, the State
Allocation Board is designated the “board” for purposes of administering the
2002 State School Facilities Fund.

100632. Upon request of the State Allocation Board from time to time,
supported by a statement of the apportionments made and to be made for
the purposes described in Sections 100615 and 100620, the State School
Building Finance Committee shall determine whether or not it is necessary or
desirable to issue bonds authorized pursuant to this chapter in order to fund the
apportionments and, if so, the amount of bonds to be issued and sold. Successive
issues of bonds may be authorized and sold to fund those apportionments
progressively, and it is not necessary that all of the bonds authorized to be issued
be sold at any one time.

100634. There shall be collected each year and in the same manner and
at the same time as other state revenue is collected, in addition to the ordinary
revenues of the state, a sum in an amount required to pay the principal of, and
interest on, the bonds each year. It is the duty of all officers charged by law with
any duty in regard to the collection of the revenue to do and perform each and
every act that is necessary to collect that additional sum.

100635. Notwithstanding Section 13340 of the Government Code, there
is hereby appropriated from the General Fund in the State Treasury, for the
purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on,
bonds issued and sold pursuant to this chapter, as the principal and interest
become due and payable.

(b) The sum necessary to carry out Section 100640, appropriated without
regard to fiscal years.

100636. The State Allocation Board may request the Pooled Money
Investment Board to make a loan from the Pooled Money Investment Account
or any other approved form of interim financing, in accordance with Section
16312 of the Government Code, for the purpose of carrying out this chapter. The
amount of the request shall not exceed the amount of the unsold bonds that the
committee, by resolution, has authorized to be sold for the purpose of carrying
out this chapter. The board shall execute any documents required by the Pooled
Money Investment Board to obtain and repay the loan. Any amounts loaned shall
be deposited in the fund to be allocated by the board in accordance with this
chapter.

100638. Notwithstanding any other provision of this chapter, or of the
State General Obligation Bond Law, if the Treasurer sells bonds pursuant to
this chapter that include a bond counsel opinion to the effect that the interest
on the bonds is excluded from gross income for federal tax purposes, subject to
designated conditions, the Treasurer may maintain separate accounts for the
investment of bond proceeds and for the investment earnings on those proceeds.
The Treasurer may use or direct the use of those proceeds or earnings to pay any
rebate, penalty, or other payment required under federal law or take any other
action with respect to the investment and use of those bond proceeds required
or desirable under federal law to maintain the tax-exempt status of those bonds
and to obtain any other advantage under federal law on behalf of the funds of
this state.

100640. For the purposes of carrying out this chapter, the Director of
Finance may authorize the withdrawal from the General Fund of an amount
not to exceed the amount of the unsold bonds that have been authorized by the
State School Building Finance Committee to be sold for the purpose of carrying
out this chapter. Any amounts withdrawn shall be deposited in the 2002 State
School Facilities Fund consistent with this chapter. Any money made available
under this section shall be returned to the General Fund, plus an amount equal
to the interest that the money would have earned in the Pooled Money Investment
Account, from proceeds received from the sale of bonds for the purpose of
carrying out this chapter.

100642. All money deposited in the 2002 State School Facilities Fund, that
is derived from premium and accrued interest on bonds sold shall be reserved
in the fund and shall be available for transfer to the General Fund as a credit to
expenditures for bond interest.

100644. The bonds may be refunded in accordance with Article 6 (com-
mencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the
Government Code, which is a part of the State General Obligation Bond Law.
Approval by the voters of the state for the issuance of the bonds described in this
chapter includes the approval of the issuance of any bonds issued to refund any
bonds originally issued under this chapter or any previously issued refunding
bonds.

100646. The Legislature hereby finds and declares that, inasmuch as the
proceeds from the sale of bonds authorized by this chapter are not “proceeds of
taxes” as that term is used in Article XIII B of the California Constitution, the
disbursement of these proceeds is not subject to the limitations imposed by that
article.

100740. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.
100745. (a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the Hastings College of the Law, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

100750. All money deposited in the 2002 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100755. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100760. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not “proceeds of taxes” as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.
MEASURES DEFEATED

INITIATIVE STATUTES

51. **Transportation. Distribution of Existing Motor Vehicle Sales and Use Tax.**

[Submitted by the initiative and rejected by electors November 5, 2002.]

**PROPOSED LAW**

SECTION 1. The People of the State of California find and declare all of the following:

(a) Traffic congestion threatens to strangle economic growth in many parts of California. It threatens our safety, reduces productivity, impairs family life, restricts the movement of people, goods, and services, and is a source of endless frustration to motorists and other travelers.

(b) There are more than 1,000 unsafe school buses that do not meet federal safety standards operating in California today. There are an additional 6,500 school buses that are so old that they expose our children to toxic air pollution. By providing funds to school districts for school bus replacement, the districts will be able to take more children to and from school, reducing the trips parents need to make. This will provide cleaner air and reduce traffic congestion.

(c) Reducing highway bottlenecks will reduce traffic congestion.

(d) Public transportation can reduce traffic congestion by giving people an alternative to driving.

(e) The existing state share of the sales tax paid on the sale and lease of motor vehicles is an appropriate source of revenue to pay for transportation-related improvements because the purchasers and lessees of motor vehicles will directly benefit from all the programs financed by this act.

(f) Assuring the wider availability of public transportation for those who cannot drive due to age, disability, or economic circumstance is good public policy, and will promote economic development and individual self-sufficiency.

(g) Transportation-related accidents are a significant cause of death, injury, and property damage. Children walking and taking bicycles to school must have safe walkways, paths, and bikeways. By making roads safer for pedestrians, bicyclists, and motorists, economic loss will be reduced, and the health and safety of Californians will be improved.

(h) By promoting the continued and expanded use of railroads for the more efficient movement of passengers and freight, traffic congestion and air pollution will be reduced.

(i) Air pollution generated by transportation is a serious health threat to most people in California. Technologies exist and are being developed that can reduce this air pollution, and they urgently need financial support for their implementation. Water pollution generated from roadway runoff and transportation related development must also be controlled, to reduce contamination of drinking water supplies and coastal waters.

(j) The impact of transportation on the natural environment can be severe, and it is appropriate to use public revenues that are related to transportation
to reduce or eliminate these impacts through an environmental enhancement program similar to the Environmental Enhancement and Mitigation Program.

(k) Providing security for passengers using public transportation is a necessary part of our transportation infrastructure, encouraging ridership, protecting public safety, and expanding transportation options.

(l) It is the intent of the people in adopting this measure that it not result in reduced funding for public education. The voters recognize that the General Fund revenues that are counted for the purpose of determining the minimum guaranteed funding for schools and community college districts under Section 8 of Article XVI of the California Constitution cannot be decreased by statute.

(m) This measure may be known and cited as the Traffic Congestion Relief and Safe School Bus Act.

SEC. 2. Section 7105 is added to the Revenue and Taxation Code, to read:

7105. (a) All of the following shall occur on a quarterly basis:

(1) The State Board of Equalization, in consultation with the Department of Finance and the Department of Motor Vehicles, shall estimate the amount that is transferred to the General Fund under subdivision (b) of Section 7102 that is attributable to revenue collected for the sale and lease of new and used motor vehicles. For purposes of this section, “sale and lease” does not include rental of motor vehicles.

(2) The State Board of Equalization shall inform the Controller, in writing, of the amount estimated under paragraph (1).

(3) Upon receipt of the notice required under paragraph (2), the Controller shall transfer thirty percent (30%) of the amount estimated under paragraph (1) from the General Fund to the Traffic Congestion Relief and Safe School Bus Trust Fund (hereinafter referred to as the “fund”), which is hereby established in the State Treasury.

(b) Notwithstanding Section 13340 of the Government Code, the following percentages and specified amounts of the money in the fund shall be continuously appropriated to the Controller without regard to fiscal years, and shall be transferred by the Controller to the following accounts, which are hereby established in the fund:

(1) Sixteen percent (16%) to the Congestion Bottleneck Account, for transfer by the Controller to the California Transportation Commission, to be expended as follows:

(A) (i) To the Traffic Congestion Relief Fund for the projects listed in Section 14556.40 of the Government Code. Any money transferred under this paragraph and not expended during the fiscal year during which it was transferred shall revert to the Congestion Bottleneck Account and shall be available for reallocation in accordance with subparagraph (B).

(ii) The California Transportation Commission may adjust the total amount to be allocated to each project listed in Section 14556.40 of the Government Code pursuant to the authority conferred in subdivision (f) of Section 14556.20 of the Government Code. Money shall be transferred quarterly to the Traffic Congestion Relief Fund from the Congestion Bottleneck Account in such amounts as are needed in the aggregate for reimbursing each applicant the cost of the current phase of the project, in accordance with the schedule of allocations for each project approved by the California Transportation Commission pursuant to Section 14556.20 of the Government Code. Applicants, including the Department of Transportation, for grants from the Traffic Congestion Relief Fund shall demonstrate in the application that they have made the maximum effort to seek...
local, private, and federal funds to assist in the completion of these projects. If only a study or a specific part or phase of a project is authorized for a project listed in subdivision (a) of Section 14556.40 of the Government Code, only the study or the specific part or phase shall be financed, and no other part or phase of the project shall be financed from this account. Grants shall be made pursuant to this paragraph only for studies for projects listed in paragraphs (6), (12), (15), (22), (25), (114), (121), and (154) of subdivision (a) of Section 14556.40 of the Government Code.

(iii) Prior to making the allocations pursuant to clause (i), the commission shall allocate two million dollars ($2,000,000) per year from the account for a competitive local assistance program for the preparation of alternative planning scenarios pursuant to Section 65080.3 of the Government Code. Only regional transportation planning agencies may apply for grants, and grants shall be awarded on the basis of compliance with Section 65080.3 of the Government Code.

(B) (i) Any money reverted to the Congestion Bottleneck Account under subparagraph (A) shall be reallocated by the commission for expenditure on state, regional, or local highway and street projects that improve the flow of traffic within an existing publicly owned roadway by adding high-occupancy vehicle or high-occupancy toll lanes where none is present, or accomplishing other, similar traffic flow improvement projects, such as truck climbing lanes, within existing roadways.

(ii) All money expended pursuant to this subparagraph (B) shall be expended within the city limits of cities, or within urbanized parts of counties that have population densities of not less than 1,000 persons per square mile.

(iii) Sixty percent (60%) of the money reallocated pursuant to this subparagraph (B) shall be expended in County Group 2 and forty percent (40%) shall be expended in County Group 1.

The Controller may withhold payment to public agencies that do not comply with the request for information or provide incomplete data.

(iv) The Controller may perform audits to ensure compliance with clause (ii) when deemed necessary. Any public agency that has not complied with clause (ii) shall reimburse the state for the money it received during that fiscal year. Any money withheld or returned as a result of a failure to comply with clause (ii) shall be reallocated to the other eligible public agencies whose expenditures are in compliance.

(v) If a public agency fails to comply with the requirements of clause (ii) in a particular fiscal year, the public agency may expend during that fiscal year and the following fiscal year a total amount that is not less than the total amount required to be expended for those fiscal years for purposes of complying with clause (ii).

(C) (i) Notwithstanding the requirements of subparagraphs (A) and (B), one-half of one percent (.5%) of the account shall be allocated each fiscal year as a first priority by the Controller to the State Coastal Conservancy, for a grant to a nonprofit organization one of whose principal purposes is to support and improve the Golden Gate National Recreation Area, for expenditure (including by contract with public and private transportation agencies and companies) to provide improved transportation services to transit-dependent neighborhoods, community groups, and schools to the programs of the Crissy Field Center, and for transportation services between the Center and other locations in the National Recreation Area. The grant may be also used for acquisition and maintenance of vehicles needed to provide these services, for information and education about the services, and for management and administration of the programs authorized by this clause (i).

(ii) Notwithstanding the requirements of subparagraphs (A) and (B), one-half of one percent (.5%) of the account shall be allocated each fiscal year as a first priority by the Controller to the State Coastal Conservancy, for a grant to a nonprofit organization one of whose principal purposes is to improve the Golden Gate National Recreation Area, for expenditure on projects for operation and maintenance of, and improvements and enhancements to, public access, transit services, congestion relief, and bicycle and pedestrian safety. The grant may also be used for improvements and enhancements of shoreline and other natural areas that have been impacted by highways within the National Recreation Area, project administration, and management of the program authorized by this clause (ii).

(iii) Notwithstanding the requirements of subparagraphs (A) and (B), one million dollars ($1,000,000) per year shall be allocated each fiscal year as a first priority by the Controller to the Department of Parks and Recreation, for a grant to a nonprofit organization one of whose principal purposes is to support the California State Railroad Museum for general operating support of the Railroad Technology Museum at the Historic Southern Pacific Shops at Sacramento.

(ii) Money in the Transit Capital Account shall be allocated by the California Transportation Commission directly to regional transportation planning agencies in accordance with the computations of county shares required by Section 188.8 of the Streets and Highways Code for expenditure as part of an existing program or programs developed pursuant to the laws governing the State Transportation Improvement Program, or as part of a new program or programs developed by a regional transportation planning agency. Sixty percent (60%) of the remaining money in the Transit Capital Account shall be expended in County Group 2 and forty percent (40%) shall be expended in County Group 1. This calculation shall be made after expenditures from the account for projects listed in subparagraph (D).

(B) Money allocated under this paragraph may not be used to construct administrative headquarters or other facilities that do not directly serve rail and bus transit users.

(C) The regional transportation planning agencies shall allocate the money based on dollars per new rider and other cost-effectiveness criteria, to be adopted by the commission as guidelines or regulations, that prioritize projects that reduce vehicle miles traveled or slow the rate of growth in vehicle miles traveled. Regulations or guidelines adopted under this subparagraph shall not be subject to review or approval of the Office of Administrative Law or subject to any other requirement of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

(D) Notwithstanding the limitations in subparagraph (A) and subparagraph (C), money in the Transit Capital Account shall first be allocated to the following projects:

(i) To the Sacramento Regional Transit District, ten million dollars ($10,000,000) per year during the 2003–04 to 2012–13, inclusive, fiscal years for the extension of light rail service from downtown Sacramento to Sacramento International Airport.

(ii) To the Tahoe Transportation District, six million dollars ($6,000,000) per year during the 2003–04 to 2005–06, inclusive, fiscal years for the design and purchase of alternatively fueled boats, fueling stations, infrastructure, and dock improvements, for the initiation and implementation of waterborne transportation service on Lake Tahoe. The district shall coordinate its efforts with the Tahoe Metropolitan Planning Organization. All land-based facilities for this project shall be located in California. The district shall undertake this project only if the Tahoe Regional Planning Agency determines that the project
reduces traffic congestion and reliance on the private automobile, taking into account reduction in vehicle miles traveled, and air and water pollution in the Lake Tahoe Basin, in addition to fulfilling the requirements of the Tahoe Regional Planning Compact and the Regional Plan for Lake Tahoe. Up to five percent (5%) of the total amount may be used to plan the project. The district may seek matching state and federal grants for the service. Up to three hundred thousand dollars ($300,000) of the total amount may be used for development of a parking management plan for the Lake Tahoe Basin, including parking for the waterborne transportation passengers. The district may use up to eight million dollars ($8,000,000) of the total amount for the establishment of a dedicated, permanent operating reserve. Annually the interest from this reserve shall be used to pay for part of the operation of the service. The district may contract for the operation of the waterborne transportation service.

(iii) To the State Coastal Conservancy, one million dollars ($1,000,000) per year during the 2003–04 to 2005–06 inclusive, fiscal years, for a grant to a nonprofit organization one of whose principal purposes is to improve and sustain historic Fort Mason in San Francisco, for improvements to the vintage E/F Line rail transit service in San Francisco. Such improvements may include, but are not limited to, planning and implementation of an extension of the line to the San Francisco Maritime National Historic Park and Fort Mason Center, vintage vehicle rehabilitation and restoration, passenger stop enhancements, and improvements to related facilities. This money may also be used by the nonprofit organization for project administration and management of the program authorized by this subparagraph.

(iv) To the Department of Parks and Recreation, seven million dollars ($7,000,000) for the 2003–04 fiscal year, for a grant to a nonprofit organization one of whose principal purposes is to support the California State Railroad Museum and its Railroad Technology Museum, to construct the Railroad Technology Museum at the Historic Southern Pacific Shops at Sacramento.

(v) To the Los Angeles County Metropolitan Transportation Authority, seven million five hundred thousand dollars ($7,500,000) per year during the 2003–04 to 2012–13, inclusive, fiscal years to construct a tunnel under Exposition Boulevard to accommodate light rail, buses, and other motor vehicles at least from State Route 110 to west of Vermont Avenue. This project will enhance pedestrian safety for students and visitors to museums, classrooms, and activity centers in Exposition Park and adjacent University Park, as well as contribute to transit and transportation efficiency in this historic district.

(vi) To the Port of Oakland, five million dollars ($5,000,000) per year during the 2003–04 to 2012–13, inclusive, fiscal years for public transportation projects and related environmental projects, including acquisition and development of public transportation facilities, waterfront park and trail improvements, bicycle and pedestrian pathways and related restoration projects at Lake Merritt, and related infrastructure, along or connecting to the Oakland waterfront, extending from the Howard Terminal in the Jack London District area, to and including San Leandro Bay and the Lake Merritt Channel, provided that such projects are consistent with the Estuary Policy Plan (a portion of the Oakland General Plan), as may be amended; and for public transportation and environmental projects related to developments along Hegenberger Road between the Coliseum Bay Area Rapid Transit station and the Oakland International Airport, including projects specifically related to the BART to Airport Connector.

Two-thirds of this money shall be spent for the acquisition, construction, and equipping of the California State chartered Oakland School for the Arts so as to serve the above-described transit-oriented development.

The remainder of the money shall be spent for the planning and construction of transportation-related improvements in the vicinity of the Oakland City Hall consistent with the 17th Street and San Pablo Parking Study and the Central Business District Study for transportation infrastructure. Permissible projects include: bus parking, commuter van pooling parking, bicycle parking, improved BART access, area parking management, parking structures, and environmental mitigations.

(4) (A) Two percent (2%) to the Senior and Disabled Transportation Account, for allocation by the Controller as grants to transportation planning entities in accordance with the designations made in Section 29532 of the Government Code and Section 99214 of the Public Utilities Code to be used to provide transportation to seniors and people with disabilities otherwise unable to drive or take regularly scheduled public transportation. Twenty percent (20%) of the grants annually awarded pursuant to the program authorized by this paragraph shall be awarded to cities, counties, cities and counties, and other public agencies on a matching fund or service basis. If sufficient matching contributions are not available to use twenty percent (20%) of the grants, the remaining money shall be used for grants to public agencies that cannot provide matching contributions.

(B) (i) To be eligible for a grant pursuant to this paragraph (4), a public agency applying for a grant pursuant to this paragraph shall annually expend for senior and disabled transportation purposes an amount not less than the annual average of its expenditures from its general fund during the 1996–97, 1997–98, and 1998–99 fiscal years, as reported to the Controller pursuant to Section 99243 of the Public Utilities Code, and as increased by the Consumer Price Index. For purposes of this subparagraph, in calculating a public agency's annual general fund expenditures and its average general fund expenditures for the 1996–97, 1997–98, and 1998–99 fiscal years, any unrestricted money that the public agency may expend at its discretion shall be considered expenditures from the general fund.

(ii) For any public agency created on or after July 1, 1996, the Controller shall calculate an annual average of expenditure for the part of the period from July 1, 1996, to December 31, 2000, inclusive, that the public agency was in existence. For any public agency created after 2000, the Controller may select an appropriate period of analysis.

(iii) For purposes of clause ii, the Controller may request fiscal data from public agencies in addition to data provided pursuant to Section 99243 of the Public Utilities Code, for the 1996–97, 1997–98, 1998–99, or any other fiscal years. Each public agency shall furnish the data to the Controller not later than 120 days after receiving the request. The Controller may withhold payment to public agencies that do not comply with the request for information or provide incomplete data.

(iv) The Controller may perform audits to ensure compliance with clause ii when deemed necessary. Any public agency that has not complied with clause ii shall reimburse the state for the money it received during that fiscal year. Any
money withheld or returned as a result of a failure to comply with clause ii shall be reallocated to the other eligible public agencies whose expenditures are in compliance.

(v) If a public agency fails to comply with the requirements of clause ii in a particular fiscal year, the public agency may expend during that fiscal year and the following fiscal year a total amount that is not less than the total amount required to be expended for those fiscal years for purposes of complying with clause ii.

(5) (A) (i) Four percent (4%) to the Rail Grade Separations Account, for allocation by the California Transportation Commission pursuant to a priority list developed by the Public Utilities Commission in accordance with the requirements of this paragraph, to be used for projects to separate rail lines from streets, roads, and highways.

(ii) Except for the projects in subparagraph (D), money in the account shall be transferred for expenditure by the California Transportation Commission only in a fiscal year in which at least $15 million ($15,000,000) is also allocated to rail grade separation projects pursuant to Section 190 of the Streets and Highways Code. In a fiscal year in which at least $15 million ($15,000,000) is not also allocated to rail grade separation projects pursuant to Section 190 of the Streets and Highways Code, the money that would otherwise be transferred to the account in that fiscal year shall be transferred instead to the Transit Capital Account established by paragraph (3) of subdivision (b).

(B) First priority for use of the money allocated from the account shall be for grade separation projects across existing heavy rail lines, based on the amount of traffic congestion that would be relieved by the grade separation. High priority shall be given to projects on rail lines that serve ports, since these projects reduce the need for truck traffic by making rail lines safer.

(C) Money allocated from the account shall be used to accommodate bicycles and pedestrians in grade separation projects, and projects that accommodate only bicycles and pedestrians are eligible to receive funding pursuant to this paragraph.

(D) Notwithstanding the restrictions in subparagraphs (A), (B), and (C), money in the account shall first be allocated to the following projects:

(i) To the Southern California Regional Rail Authority, ten million dollars ($10,000,000) per year during the 2003–04 to 2006–07, inclusive, fiscal years for grade separations at Sand Canyon Road and Harvard Avenue. Design and construction shall be carried out by the jurisdictions within which each project is located.

(ii) To the City of San Bernardino, seven million five hundred thousand dollars ($7,500,000) per year during the 2003–04 to 2006–07, inclusive, fiscal years for the following grade separation improvements associated with the Norton Air Force Base Intermodal Goods Movement Facility: Tippecanoe Avenue south of Central Avenue; Waterman Avenue south of Central Avenue; Mill Street west of Waterman Avenue; and E Street south of Rialto Avenue.

(6) (A) Ten percent (10%) to the Transportation Impacts Mitigation Trust Fund, to be allocated by the Resources Agency in accordance with Section 164.57 of the Streets and Highways Code.

(i) At least one million dollars ($1,000,000) shall be expended in each fiscal year by the Resources Agency on facilities that assist wildlife in safely crossing transportation corridors, in order to increase motorist safety, reduce traffic congestion, and promote connectivity among wildlife populations. Sixty percent
(60%) of the money for wildlife crossings authorized by this subparagraph shall be expended in County Group 2 and forty percent (40%) shall be expended in County Group 1.

(ii) At least one million dollars ($1,000,000) shall be expended in or near urban or urbanizing areas in the region comprised of Orange, Riverside, San Bernardino, and San Diego Counties, each fiscal year by the Department of Food and Agriculture in accordance with subdivision (f) of Section 164.57 of the Streets and Highways Code.

(B) Notwithstanding subparagraph (A) and the restrictions of Section 164.57 of the Streets and Highways Code, the following amounts shall first be allocated from the trust fund:

(i) To the City of Irvine, ten million dollars ($10,000,000) per year during the 2003–04 to 2014–15, inclusive, fiscal years for the creation of a wildlife corridor and related trail systems connecting the Laguna Coast Wilderness Park and Crystal Cove State Park to the Orange County Central Park and Nature Preserve; and for infrastructure, landscaping, forestation, and recreational improvements for the Orange County Central Park and Nature Preserve, to mitigate the effects of Interstates 5 and 405 and other roads that interfere with wildlife migration in this area; and for bicycle and pedestrian crossings of streets and flood control improvements relating to transportation facilities, and other improvements along the Jeffrey Open Space Spine.

(ii) To the County of Riverside, six million dollars ($6,000,000) per year for the Western Riverside County Habitat Conservation Plan Implementation Program. First priority for the expenditure of this money shall be for land acquisition. The purpose of these expenditures is to acquire wildlife habitat to mitigate the effect of transportation and transportation-related development in Riverside County. During the 2003–04 to 2012–13, inclusive, fiscal years, not more than one million dollars ($1,000,000) may be expended for operations and maintenance of the lands acquired by the program. Commencing with the 2014–15 fiscal year, and during each subsequent fiscal year, up to five million dollars ($5,000,000) may be expended for operations and maintenance of the lands acquired by the program.

(iii) To the San Joaquin River Conservancy, five hundred thousand dollars ($500,000) per year, to be expended by the conservancy and at the direction of the conservancy for the acquisition of land, development of facilities, and the operation and maintenance thereof. Of this amount, the conservancy shall grant not less than twenty-five percent (25%) each year to nonprofit organizations in Fresno and Madera Counties one of whose principal purposes is conservation of and education about the San Joaquin River for projects that meet the requirements of this subparagraph. These expenditures are necessary because of the impacts of state highways and freeways such as State Routes 99 and 41, and other transportation corridors on the environment on and near the San Joaquin River.

(iv) To the Santa Monica Mountains Conservancy, eight million dollars ($8,000,000) each fiscal year, to be expended by the conservancy, and at the direction of the conservancy, by any joint powers agency of which the conservancy is a member, on projects that meet the requirements of this subparagraph and Section 164.57 of the Streets and Highways Code, including the operation and maintenance of the land acquired and facilities constructed pursuant to this subparagraph. Notwithstanding any other provision of law, one million dollars ($1,000,000) of the amount specified in this subparagraph shall annually be used for the acquisition and improvement of natural parks within the heavily
urbanized area of Los Angeles County. These expenditures are necessary because of the impacts of state highways and freeways such as Interstate 10, U.S. 101, State Routes 134 and 1, and many other state and local roads that have negatively impacted the environmental quality of the Santa Monica Mountains, and other lands that are to be preserved by the conservancy and its public agency partners.

(v) (I) To the County of Sacramento, one million dollars ($1,000,000) per year for the acquisition of land, development, and operation and maintenance of the American River Parkway, including trails, to promote greater use of the parkway. The parkway’s Jedediah Smith Memorial Trail (off-street) is a recreation resource of regional, state, and national significance, and is a major east-west, 23-mile long transportation corridor for commuter bicyclists. Use of the parkway by bicyclists and other recreational users is an important part of Sacramento County’s strategy to reduce public exposure to air pollution and toxic air contaminants by supporting bicycling, including the provision of bicycle circulation infrastructure for commuter and recreational travel. Improved levels of maintenance and enhanced public safety services in the parkway will promote increased use of the parkway by people traveling to and from work, school, and other destinations served by U.S. 50, Interstate 80, and other local arterials.

(II) To be eligible to receive an allocation pursuant to this subparagraph, the County of Sacramento shall annually expend from its general fund for the American River Parkway, an amount not less than the annual average of its expenditures from its general fund during the 1999–2000, 2000–01, and 2001–02 fiscal years as reported to the Controller, and as increased by the Consumer Price Index. In calculating the county’s annual general fund expenditures for the 1999–2000, 2000–01, and 2001–02 fiscal years, any unrestricted money that the county may expend at its discretion shall be considered expenditures from the general fund. The Controller may request fiscal data from the county for the fiscal years identified. The county shall furnish the data to the Controller not later than 120 days after receiving the request. The Controller may withhold payment to the county if it does not comply with the request for information or provides incomplete data. The Controller may perform audits to ensure compliance when deemed necessary. If the county does not comply, the county shall reimburse the state for the money it received during that fiscal year.

(vi) The following projects will mitigate the impact of transportation projects on wildlife corridors in Riverside County:

(I) To the County of Riverside, three million dollars ($3,000,000) per year for the San Timoteo Park project, including San Timoteo Creek and Canyon and adjacent land in the canyons and hills between Loma Linda and Beaumont. First priority for the expenditure of this money shall be for land acquisition. In a year in which no land can be acquired, the allocations shall be used to operate and maintain the lands acquired for the San Timoteo Park project.

(II) To the City of Riverside, one million dollars ($1,000,000) per year for the La Sierra/Norco Hills project between the cities of Riverside and Norco, including acquisition of land for habitat and a wildlife corridor connection to the Santa Ana River, and adjacent Santa Ana River Trail improvements. First priority for the expenditure of this money shall be for land acquisition, and second priority shall be for Santa Ana River Trail improvements. In years when no land can be acquired, and no trail improvements are needed, the money shall be used to operate and maintain the La Sierra/Norco Hills habitat area and the Santa Ana River Trail in the City of Riverside.
(vii) To the State Coastal Conservancy, two million dollars ($2,000,000) per year during the 2003–04 to 2004–05 inclusive, fiscal years, for a grant to a nonprofit organization one of whose principal purposes is to improve the Golden Gate National Recreation Area, for transportation improvements and related enhancements at or near oceanfront and bay shoreline sites in the National Recreation Area. Such improvements may include, but are not limited to, bicycle and pedestrian projects, transportation safety projects, park entrance projects, transit access projects, parking improvements that reduce the impact of motor vehicles on the visitor experience, visitor facilities, and beach and shoreline restoration of natural areas that have been impacted by roadways.

(viii) To the City of Laguna Woods, two million dollars ($2,000,000) for the 2003–04 fiscal year, for the acquisition of land within the city or within the sphere of influence of the city near or adjacent to the Laguna Coast Wilderness Park, and for the development of trails connecting to the park. The purpose of these funds is to reduce the impact of nearby transportation facilities on wildlife corridors.

(ix) To the State Coastal Conservancy, three million five hundred thousand dollars ($3,500,000) for the 2003–04 fiscal year, for a grant to a nonprofit organization one of whose principal purposes is the restoration of the San Diego River, for acquisition of land and the restoration of habitat along the river. The purpose of these funds is to mitigate the impact of transportation facilities such as State Route 67, Interstate 5, and other roads on the San Diego River.

(x) To the Department of Parks and Recreation, five million dollars ($5,000,000) per year during the 2003–04 to 2013–14 fiscal years, inclusive, for the acquisition of coastal wetlands resources located in Los Angeles County within the coastal zone, as defined in Section 30103 of the Public Resources Code, and within the Ballona Creek watershed to offset the effects of transportation improvements and road construction within the coastal zone in Los Angeles County.

(xi) To the City of Sacramento, two million dollars ($2,000,000) per year during the 2003–04 to 2004–05, inclusive, fiscal years, for the Downtown to the Riverfront Reconnection, to be developed on air rights over Interstate 5. The decking project, aimed at mitigating the impact of Interstate 5, will create open space and support the revitalization of the waterfront.

(xii) To the State Coastal Conservancy, one million dollars ($1,000,000) for the 2003–04 fiscal year, for a grant to a nonprofit organization one of whose principal purposes is the restoration and enhancement of bicycle paths, pedestrian trails, and related signage and lighting, and the acquisition and upgrade of pedestrian and bicycle access points to and along La Ballona Creek in the incorporated and unincorporated areas of Los Angeles County.

(xiii) To the State Coastal Conservancy, five hundred thousand dollars ($500,000) for the 2003–04 fiscal year, for a grant to a nonprofit organization in coastal Southern California to instruct schoolage children and the general public about non-point source pollution from automobiles, trucks, and other motor vehicles that enters the watersheds and storm drains leading to the ocean. The grant shall be used to acquire one or more Mobil Ocean and Traveling Discovery Center vehicles. Vehicles acquired with this money shall certify to the lowest achievable emission levels for criteria pollutants.

(xiv) To the Coachella Valley Mountains Conservancy, two million dollars ($2,000,000) each fiscal year, to be expended directly by the conservancy or
through grants from the conservancy to public agency partners, joint powers agencies, or nonprofit conservation organizations for the acquisition of land and the operation and maintenance thereof. The acquisitions shall assist in the local implementation of the Coachella Valley Multiple Species Habitat Conservation Plan/Natural Community Conservation Plan, and help implement the Conservancy’s mission to protect mountainous and natural community conservation lands in and surrounding the Coachella Valley. These expenditures are necessary because of the impacts of state and federal highways such as Interstate 10, and related interchange projects, State Routes 62, 74, 86, and 111 and many other state and local roads that have negatively impacted the environmental quality of the Coachella Valley.

(xv) To the State Coastal Conservancy, one million dollars ($1,000,000) for the 2003–04 fiscal year, for a grant to a nonprofit organization one of whose principal purposes is the preservation of the San Dieguito River, for the acquisition of land and the restoration of habitat along the San Dieguito River, and for the development of trails. These expenditures are to mitigate the effect of transportation and transportation-related development in and near the San Dieguito River Valley.

(xvi) To the Wildlife Conservation Board, ten million dollars ($10,000,000) for the 2003–04 fiscal year, for the acquisition of “natural lands” in the watershed of the Sacramento River with outstanding spring run and other salmon and steelhead populations, water rights important to the salmon and steelhead populations, important archaeological resources, and diverse wildlife populations. For the purposes of this subparagraph, acquisition shall be fee simple purchases and permanent conservation easements. For purposes of this subparagraph the “natural lands” shall be lands that include at least five miles of frontage on a major tributary of the Sacramento River and include 5,000 contiguous acres or more, and that are also large enough to substantially protect the watershed of a major tributary of the Sacramento River that meet the requirements of this subparagraph. This acquisition is to compensate for the damage done to salmon populations and archaeological resources in the Sacramento Valley by such transportation facilities as Interstate 5, State Routes 99 and 70, and other major roads and highways.

(xvii) (I) To the County of Sacramento, one million five hundred thousand dollars ($1,500,000) per year for expenditure in the area along the State Route 16, Scott Road, Deer Creek, and Cosumnes River corridors, and particularly the area north of State Route 16 lying west of the Amador and El Dorado County line, south of White Rock Road, and east of the westerly boundary of the East County Open Space study area as defined in 2001 by the Sacramento County Board of Supervisors and including the Sloughhouse area generally; and the area south of Highway 16 lying west of the Amador County line and north of Meiss Road, to be more specifically delineated by the Board of Supervisors. The money shall be expended within Sacramento County for the primary purpose of mitigating the impacts of transportation activities elsewhere in the county and the region, such as air, noise, and water pollution, by maintaining as much land as possible within the study area and associated corridors in a predominantly rural, scenic, and open space character through the use of cost-effective, incentive-driven cooperative programs with area landowners (with highest priority given to farmers and ranchers), and assisting with appropriate protection and improvement of the area’s roads and corridors to provide for their safe use and enjoyment by local and non-local users, consistent with continuing
their rural and scenic character. The money allocated by this subparagraph shall be expended pursuant to a program developed and approved by the Board of Supervisors.

(II) At least seventy-five percent (75%) of the money allocated pursuant to subclause (I) shall be expended in any 10-year period for the purpose of funding long-term contractual open space stewardship, management, and enhancement agreements with willing landowners to actively maintain and improve one or more mutually determined and preferably conjunctive open space values of the property, including, but not limited to, farming, ranching, wildlife habitat and related biological values, oaks and oak woodlands, riparian corridors, watersheds, historic and cultural resources, viewsheeds, and where mutually deemed appropriate, public access and recreation. Stewardship agreements shall cover a minimum of 320 acres and shall not include land owned in fee by a governmental agency or a tax-exempt nonprofit organization qualified under Section 501(c)(3) of the United States Internal Revenue Code. A proposed stewardship agreement program may be developed by the Sloughhouse Resource Conservation District for consideration for approval by the Board of Supervisors. Compensation for landowners pursuant to stewardship agreements shall be established by mutual consent, including, but not limited to, consideration of the length and terms of the agreement, the public interest value of the resources or activities covered, and the labor, services, and investment expected of the landowner. Where relevant and appropriate, costs shall generally be less than or competitive with costs typically incurred by public agencies using public employees to perform similar functions.

(III) Up to twenty-five percent (25%) of the money allocated pursuant to subclause (I) over any 10-year period may be used for safety improvements on Scott Road, including improvements to minimize the need to close Scott Road because of flooding, that are consistent with its rural and scenic character, for assisting in the maintenance, rehabilitation and reuse of the historic bridges over the Cosumnes River, and for preserving, restoring, and interpreting historic and cultural resources, particularly in the State Route 16 and Cosumnes River corridors and the Sloughhouse area.

(7) Two percent (2%) to the Transportation Water Quality Account, to be allocated by the State Water Resources Control Board for expenditure pursuant to Section 164.58 of the Streets and Highways Code.

(8) (A) Three percent (3%) to the Air Quality Account for allocation by the State Air Resources Board to the Carl Moyer Memorial Air Quality Standards Attainment Program established under Chapter 9 (commencing with Section 44275) of Part 5 of Division 26 of the Health and Safety Code, and any other additional transfers as provided in subparagraph (B). Each air district (as defined in Section 39025 of the Health and Safety Code) shall be eligible for grants of not less than one hundred thousand dollars ($100,000) per year. Any district with a population less than 150,000 shall not be required to provide matching funds.

(B) If the State Air Resources Board determines that money is no longer needed for the Carl Moyer Memorial Air Quality Standards Attainment Program, seventy-five percent (75%) of the money that would otherwise be deposited in the Air Quality Account shall be transferred to the Bicycle Efficiency Account and twenty-five percent (25%) shall be transferred to the Pedestrian Account, to be used for the purposes of those accounts.
(9) Two percent (2%) to the Bicycle Efficiency Account, to be allocated by the Department of Transportation for bicycle projects pursuant to Section 894.5 of the Streets and Highways Code.

(10) One percent (1%) to the Pedestrian Account, to be allocated by the Department of Transportation for projects to facilitate pedestrian utilization and pedestrian safety projects pursuant to Section 894.5 of the Streets and Highways Code and to accommodate paratransit needs at school bus stops.

(11) (A) Four percent (4%) to the Intercity and Commuter Rail Capital and Operations Account, to be allocated by the California Transportation Commission to the Department of Transportation and to public agencies operating commuter rail services, to be used for the operation of intercity and commuter rail service, to acquire rolling stock, to rehabilitate rail service, to construct new rail lines and stations, consolidate existing rail lines, and to improve existing lines to benefit passenger rail service.

(B) Forty percent (40%) of the money allocated by subparagraph (A) shall be allocated to commuter rail, to provide improved service that generally parallels congested segments of freeway corridors. Sixty percent (60%) of the money allocated by subparagraph (A) shall be allocated to intercity rail, with highest priority given to service that generally parallels congested freeway corridors. The calculation required by this paragraph shall be made after the expenditures required by subparagraph (C) have been made.

(C) (i) Notwithstanding the requirements of subparagraph (B), first priority for the expenditure of the money allocated pursuant to this paragraph (11) shall be an allocation of fifteen million dollars ($15,000,000) per year during the 2003–04 to 2010–11, inclusive, fiscal years to the Department of Transportation, for the following project to reduce traffic congestion on the Interstate 10 and other highway corridors, and to improve highway and rail passenger safety. The project shall include capital outlay for intercity passenger rail service from Los Angeles via Fullerton and Colton, to Palm Springs and Indio, including the following components: two trainsets each consisting of at least five cars and one locomotive; track and signal improvements to facilitate passenger rail trains serving Palm Springs through Indio; one passenger rail station at Ramon Road in the mid-Valley section of the Coachella Valley; one passenger rail station near Jackson Street in the east Valley section of the Coachella Valley in Indio; and improvements to the rail passenger station currently located in Palm Springs. Passenger rail stations shall include platforms, passenger stations, any necessary parking and tunnels, and other station amenities. First priority for expenditure shall be the development of passenger rail stations for this service. The city or Indian reservation within which each station is located may elect to manage the design and construction of these stations, subject to the design and financial approval of the Department of Transportation.

(ii) The Department of Transportation shall contract with a national rail passenger service provider to operate this intercity service and shall seek support for the operation of this service from all federal funding sources, including, but not limited to, the United States Department of Transportation.

(12) (A) Two percent (2%) to the Rural Transportation Account, to be allocated by the Controller directly to transit operators in counties with a population of less than 250,000 as follows: Fifty percent (50%) in the manner as provided for allocation of State Transit Assistance funds pursuant to Sections 99314 and 99314.3 of the Public Utilities Code, except that money shall be allocated directly to transit operators by the Controller, and fifty percent (50%) to
transportation planning agencies for allocation to transit operators in the same manner as provided for allocation of State Transit Assistance funds pursuant to Section 99313 of the Public Utilities Code, except that this money shall be allocated by the transportation planning agency only to transit operators and not for other purposes, to be used to improve the mobility of people living in rural areas who cannot drive motor vehicles.

(B) First priority for expenditure of the money in the account shall be to serve persons with disabilities and other health problems, seniors, students, and persons with low incomes who do not drive motor vehicles.

(13) Three percent (3%) to the Transit Oriented Development Account, to be allocated by the Secretary of the Business, Transportation, and Housing Agency on the basis of population to regional transportation planning agencies for capital outlay projects to develop public use facilities associated with rail and bus transit stations, in accordance with the competitive grant program established under Section 13984 of the Government Code. Sixty percent (60%) of the grants shall be made in County Group 2 and forty percent (40%) shall be made in County Group 1.

(14) One percent (1%) to the Bicycle and Pedestrian Safety Law Enforcement Account, to be allocated by the Controller as follows:

(A) Two-thirds to the Office of Criminal Justice Planning for grants to state and local law enforcement agencies to increase enforcement of speed limit and other traffic safety laws along heavily used pedestrian and bicycle routes. The highest priority for grants shall be for routes financed under the Safe Routes to School Program established under Section 2333.5 of the Streets and Highways Code. The Office of Criminal Justice Planning may adopt guidelines or regulations to implement this paragraph. The guidelines or regulations are not subject to the review and approval of the Office of Administrative Law or subject to any other requirement of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. Sixty percent (60%) of the grants shall be made in County Group 2 and forty percent (40%) shall be made in County Group 1.

The highest priority for grants shall be for schools along routes financed under the Safe Routes to School Program established under Section 2333.5 of the Streets and Highways Code. The State Department of Education may adopt guidelines or regulations to implement this paragraph. The guidelines or regulations are not subject to the review and approval of the Office of Administrative Law or subject to any other requirement of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code. Sixty percent (60%) of the grants shall be made in County Group 2 and forty percent (40%) shall be made in County Group 1. School districts receiving money pursuant to this subparagraph shall consult with bicycling and law enforcement organizations about the implementation of these programs.

(15) (A) Eight percent (8%) to the Safe and Clean School Bus Account, for allocation by the State Department of Education for grants to any public school district, county office of education, state-operated school, or Joint Powers Authority for the purpose of purchasing or leasing new school buses, as defined in Section 39830 of the Education Code, in the following order of

Second priority shall be to replace currently certified California school buses manufactured prior to January 1, 1987, that do not meet current pollution control standards. Third priority shall be to replace currently certified California school buses manufactured on or after January 1, 1987, and to increase fleet size. The State Department of Education shall develop and use a life cycle cost formula to determine the life cycle and cost of any new school buses leased or purchased under this program. Grants shall be made on a competitive basis, and the criteria for awarding grants shall be determined in consultation with the State Air Resources Board.

(B) Grants shall be made only for the purchase or lease of new buses that certify to the lowest achievable emissions levels for criteria pollutants. Public school districts, county offices of education, state-operated schools, or joint powers authorities with an average daily attendance of fewer than 500 students or located in a region certified by the California Energy Commission to be without fuels necessary to meet this requirement, may request relief from this requirement. Grants may include funding for refueling infrastructure.

(C) Public school districts, county offices of education, state-operated schools, or joint powers authorities shall pay ten percent (10%) of the cost of each new or leased bus up to the amount of ten thousand dollars ($10,000), but matching funds may be obtained from other agencies or applicable programs. Grant recipients shall present documented proof to the State Department of Education that buses built prior to 1977 and replaced under this program shall be destroyed and that school buses manufactured prior to January 1, 1987, and replaced under this program shall be removed from school bus service, and shall not be re-registered within the State of California. (16) Five percent (5%) to the Traffic Safety Improvement Account, for allocation by the California Transportation Commission to the Department of Transportation and the regional transportation planning agencies, for grants for projects that improve highway safety, to be allocated strictly on the basis of the potential of the project to reduce motorist, bicyclist, and pedestrian fatalities and injuries. First priority shall be given to projects that improve safety on the street and highway segments that have the highest rate of injuries and fatalities. The commission shall give priority to projects that are cost-effective. The Office of Traffic Safety shall advise the commission on the development of this program. The commission may adopt regulations or guidelines to implement this paragraph. Any regulations or guidelines adopted to implement this paragraph shall not be subject to the review or approval of the Office of Administrative Law and shall not be subject to any other requirement of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code.

Money allocated as a grant or expended by a state agency under this section may be used as matching contributions to meet the requirements of any local, state, or federal transportation program.

If the recipient of money under this section fails to comply with the terms of the grant the agency making the grant may initiate an action to rescind the grant, and recover the money granted to the recipient, together with interest as computed on deficiency assessments.

Any money recovered under this subdivision shall be deposited in the account from which it was awarded and shall be available for appropriation for the purposes of the account from which it was awarded, and for no other purpose.

The initiation of an action pursuant to this subdivision does not preclude the imposition of any fine, forfeiture, or other penalty, or the undertaking of an administrative enforcement action pursuant to any other provision of law or regulation.

The Controller may transfer money from the fund for purposes expressly authorized in this section, and for the limited purposes set forth in Section 13985 of the Government Code and for investment in the Pooled Money Investment Account, and for no other purposes. Notwithstanding any other provision of law, money deposited in the Pooled Money Investment Account shall be available for immediate allocation or reallocation as provided in this section and may not be loaned to, or borrowed by, any other special fund or the General Fund. All interest earned from investment in the Pooled Money Investment Account shall be deposited in the fund and shall be used solely for the purposes of the fund and shall be allocated in accordance with this section.

In the event of damage to transportation facilities in California due to an earthquake occurring subsequent to the effective date of this measure, the Governor may utilize money from the fund to match federal funds to repair damage to those facilities from that earthquake for up to 12 months after the date of the earthquake. No funds allocated pursuant to this subdivision shall be used to supplant federal funds otherwise available in the absence of state financial relief.

No money in the fund may be used for debt service for general obligation bonds issued for transportation purposes pursuant to Chapter 17 (commencing with Section 2701) of Division 3 of the Streets and Highways Code, or bonds issued pursuant to Chapter 6 (commencing with Section 99690) of Part 11.5 of Division 10 of the Public Utilities Code, or for any existing or future general obligation bonds that the state authorizes or issues.

Notwithstanding any other provision of law, except as provided by this section and Section 13985 of the Government Code, money deposited into the fund shall not be transferred to or revert to the General Fund, but shall remain in the fund until allocated or reallocated as provided in this section.

Money in the fund shall not be used to replace money that was previously planned, programmed, or approved by a local or regional transportation entity or a city, county, or city and county for public transportation purposes.

Expenditures made pursuant to this section may include the costs directly related to the mitigation of a project financed pursuant to this section. No expenditure shall be made of any money made available pursuant to this section for any mitigation costs required by federal or state law or a local ordinance for any project that was not financed pursuant to this section.

Emissions reductions resulting from the part of a project financed under this section may not be used under any local, state, or federal emissions
averaging or trading program to offset or reduce any emissions reduction obligation that is in effect at the time the project is financed. Emissions reductions resulting from the part of a project financed under this section may not be banked under any local, state, or federal emissions banking program.

(l) All money allocated by this section shall be disbursed quickly and efficiently. All forms for applications for grants of money from state agencies shall be clear, simple, understandable, and as short as possible. All applications for grants shall be processed quickly and approved or rejected within 180 days of submission, and within 90 days on projects of less than five million dollars ($5,000,000). Unsuccessful applicants shall be given guidance as to how to change their applications to gain approval. This guidance may also be provided in a way that allows applicants to change pending applications before they are subjected to approval or rejection.

(m) Not later than December 31 of each year, each state and local agency receiving money from the fund shall publish a list of all projects approved under this section during the preceding fiscal year. The report shall include for each project a description of the project, the cost of the project, the amount of annual reductions in air emissions or water pollution estimated to result from the project, if any, and the effect of the project on traffic congestion, if any. The report shall be transmitted to the Governor and the Legislature, and shall be available to the public, including through the Internet.

(n) Any project that receives money from the fund shall by appropriate signage at the project site and through publicity inform the public about the use of money from the fund. The signage shall indicate that the source of the money was a voter-approved initiative, passed in 2002. The Secretary of the Business, Transportation, and Housing Agency shall develop regulations to implement this section. (2) Ninety-five percent (95%) of the money in the Bicycle Efficiency Account shall be allocated by the Controller on a per capita basis to the regional transportation planning agencies for bicycle projects that primarily benefit bicycle commuters or students traveling to K–12 schools, colleges, or universities, rather than recreational users; and on the basis of whether the project increases the efficiency or safety of bicycle travel.

(3) Regional transportation planning agencies may expend this money for the following purposes:

(C) Signage and stenciling to indicate the right of bicyclists to use the roadway.

(D) Bicycle parking devices; racks, carriages and other means of storing bicycles on buses, trains or ferries; facilities to improve bicycle parking, bicycle

(E) Marking, adjusting, or replacing traffic signal actuation devices, such as inductive loops, to improve detection of bicycles.

(F) Implementation of training programs and instructional materials intended to teach bicyclists how to operate their bicycles as vehicles on public roadways and to inform the general public about the needs, rights, and responsibilities of bicyclists.

(G) Other projects intended to directly benefit bicycle commuters or students using public highways.

(4) Regional transportation planning agencies may spend up to twenty percent (20%) of the money received pursuant to paragraph (2) on the planning, design, maintenance, right-of-way acquisition or construction of paved multi-use paths meeting the standards for Class I bikeway if the bikeways are primarily used to reduce trips that would be otherwise taken in motor vehicles. A bikeway funded wholly or in part under paragraph (2) is not a trail for the purposes of Section 831.4 of the Government Code.

Repair of an existing sidewalk is not eligible for funding pursuant to this subdivision.

(3) A rural walkway project shall be eligible for funding only if it is along a road that is heavily used by pedestrians or bicycling children on a suggested route to school, or if the project is in support of public transit use and is within one-third mile of a transit stop in a rural area.

(4) High priority for funding for pedestrian projects shall be given to projects that are eligible for the “Safe Routes to School” construction program established under Section 2333.5.

(c) If a regional transportation planning agency does not encumber money received for bicycle or pedestrian projects pursuant to this section within seven years, the money shall be returned to the account from which it came, and shall be redistributed in accordance with this section.

The assessed valuation of taxable tangible property, for purposes of this computation, shall be that most recently used for countywide tax levies as reported to the Controller by the State Board of Equalization. If an incorporation or annexation is legally completed following the base sum computation, the new city’s assessed valuation shall be deducted from the county’s assessed valuation, the estimate of which may be provided by the State Board of Equalization.

(C) The difference between the base sum for each county and the amount apportioned to the county shall be apportioned to the cities of that county in the proportion that the population of each city bears to the total population of all the cities in the county. Populations used for determining apportionment of money under Section 2107 are to be used for purposes of this section.

(b) The Legislature may amend this section, but any statute that attempts, or has the effect of, reducing, in whole or part, the amount of money required to be allocated to the Bicycle Transportation Account pursuant to paragraph (2) of subdivision (a) shall be void and without force or effect.

(h) “Allocated local proceeds of taxes,” as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for community college districts, those local revenues that are used to offset state aid for community college districts in calculations performed pursuant to Section 84700. (j) The Legislature may amend paragraph (2) of subdivision (b) to better achieve its intent, which is to ensure that the initiative measure that amended this section does not diminish funding for school districts or community college districts to a level that is below that which would be required had the initiative measure that amended this section not been approved.

SEC. 22. If any provision of this act or the application thereof is held invalid, the invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 23. (a) It is the intent of the People of the State of California in approving this act that, should any statute or amendment to the California Constitution be approved on November 5, 2002, that could prevent this act from taking effect, the People intend that this act go into effect, regardless of the
passage of any such statute or constitutional amendment, and regardless of the number of votes received by any measure on the November 5, 2002, ballot.

(b) This act shall take effect notwithstanding any other provision of law.

(c) It is the express intent of the voters that this act shall take effect and become operative at 12:01 a.m. on November 5, 2002.

(d) It is the express intent of the voters that this act shall take effect and become operative even if the California Constitution is amended at the November 5, 2002, election to prohibit or restrict the enactment of new taxation.

(e) Notwithstanding any other provision of this section, Section 2 of this act shall take effect on January 1, 2003.

SEC. 24. (a) This act shall be liberally construed to further its purposes, especially with respect to being allowed to take effect.

(b) Any conflict between a provision in this act and any other provision of law in existence prior to the effective date of this act shall be resolved in favor of the provision in this act.

(c) The act shall be implemented in the most expeditious manner. All state and local officials shall implement this act to the fullest extent of their authority.

(d) Any person has standing to enforce any provision of this act.

(e) Money appropriated, expended, or transferred pursuant to this measure shall not be deemed to be a transfer of funds for the purposes of Chapter 9 (commencing with Section 2780) of Division 3 of the Fish and Game Code.

52. Election Day Voter Registration. Voter Fraud Penalties.

[Submitted by the initiative and rejected by electors November 5, 2002.]

PROPOSED LAW

ELECTION DAY VOTER REGISTRATION ACT OF 2002

ARTICLE 1. TITLE

SECTION 1. This measure shall be known and may be cited as the “Election Day Voter Registration Act of 2002.”

ARTICLE 2. FINDINGS AND PURPOSES

SEC. 2. The people of the State of California hereby find and declare:

(1) It should be the policy of this state to ensure that every legally eligible voter who wants to vote has the chance to do so.

(2) Voter turnout in California is on the decline. In fact, the California 2000 Presidential election had the lowest voter turnout since the election of 1924. As the largest and most diverse state in the nation, California should modify its laws for the purpose of increasing voter turnout and should take all reasonable steps to achieve that purpose. States that currently allow Election Day Voter Registration lead the nation in voter turnout.

(3) The purposes of the Election Day Voter Registration Act are to:

(a) establish procedures that enable eligible voters to register and vote on Election Day;

(b) give every legally eligible voter the opportunity to vote; and

(c) increase protections against voter fraud.
(4) The Election Day Voter Registration Act increases penalties for vote fraud and voter registration fraud.

(5) It provides additional time for elections officials to prepare voter rolls and materials for Election Day.

ARTICLE 3. ELECTION DAY VOTER REGISTRATION

SEC. 3. Article 4.5 (commencing with Section 2170) is added to Chapter 2 of Division 2 of the Elections Code, to read:

Article 4.5. Election Day Registration and Voting

2170. In addition to other methods of voter registration provided by this code, any elector who is otherwise qualified to vote under this code and Section 2 of Article II of the California Constitution may register or reregister to vote in accordance with the following provisions upon presentation of proof of current residence address:

(a) An elector may register to vote, or may reregister if the reregistration is based on a change of legal name or place of residence, on election day at the polling place in his or her precinct. The elections official shall provide voter registration forms for use in registration at all voting locations.

(b) An elector may register or reregister to vote beginning 28 days prior to the election and continuing through election day at any office of the county elections official in the county in which the voter resides. If the voter is currently registered within the county and has moved within that county, he or she must only complete a new affidavit of registration.

2171. (a) A person who registers or reregisters to vote on the day of the election, upon showing proof of current residence and executing an affidavit of registration that certifies under penalty of perjury that the information contained in the affidavit is true and correct, may cast a ballot as provided in Article 4 (commencing with Section 14270) of Chapter 3 of Division 14.

(b) For purposes of this section, proof of current residence for a voter attempting to vote at the polling place at which he or she is entitled to vote based on his or her current residence address shall consist of:

1. A current, valid California driver’s license or California identification card that includes the name and current residence address of the voter; or

2. Any two documents from the categories listed below, except that no more than one document per category listed in subparagraphs (L) and (M) shall be used, both of which shall contain the name and current residence address of the voter:

(A) Military identification.
(B) College or university fee card or student identification.
(C) Lease agreement.
(D) Mortgage statement.
(E) Property tax statement.
(F) Income tax return.
(G) Utility bill.
(H) Credit card bill.
(I) Bank statement.
(J) Preprinted check or bank deposit slip.
(K) Vehicle registration.
(L) Mail addressed to the voter at his or her current residence address.
(M) Sworn written statement given in the presence of a poll worker at the polling place from a registered voter in the precinct stating that he or she knows
and can identify the person who is attempting to vote, and attesting to the name
and residence address of the person attempting to vote.

(c) The elections official shall send a voter notification form after the date
of the election to any person who is properly registered or reregistered to vote
pursuant to this section, and the voter shall be registered for future elections at
the address at which the voter is so registered or reregistered. The affidavit of
registration of any person whose voter notification form is returned by the post
office as undeliverable shall be processed in accordance with the procedures set
forth in Section 2221.

2172. A person who resides in an all-mail ballot precinct or in a jurisdiction
holding an all-mail ballot election who wishes to register or reregister to
vote within 28 days of the election or on election day may do so pursuant to
subdivision (b) of Section 2170.

2173. The elections official shall compile a list or index of voters who
registered or reregistered to vote pursuant to this article. After the canvass of the
votes for the election, the elections official shall review the names on the list or
index and cancel any duplicate voter registrations that may exist. If it appears
that any voter whose name appears on the list or index may have committed
fraud within the meaning of Section 18560 of the Elections Code, the elections
official shall immediately notify in writing both the district attorney and the
Secretary of State.

2174. (a) Each polling place shall have a separate area dedicated to
election day voter registration. At least one precinct board member in each
polling place shall be trained prior to the election in election day registration
and voting procedures and shall be assigned to conduct election day voter
registration. New registration or reregistration under this act shall be conducted
in a manner that does not interfere with or delay the voting of persons previously
registered to vote.

(b) The elections official shall provide training to any persons who will be
conducting election day registration or reregistration. Students who meet the
requirements of Section 12302 may also conduct election day registration or
reregistration provided they undergo the training provided for that purpose and
are approved by the elections official.

2175. (a) Each polling place shall provide in a conspicuous location in the
area designated for voter registration a poster that includes all of the following
information:

(1) A statement that the law provides for election day registration and/or
reregistration.

(2) A description of the types of documents that may be used to demonstrate
proof of current residence.

(3) A statement that registration documents are signed under penalty of
perjury and that any fraudulent statement made in connection with registering
to vote may subject the person to criminal prosecution.

(b) In addition to the poster specified by subdivision (a), the same information
will be available in written form for distribution at the polling place in any
languages in which the ballot and voter registration materials are required to
be available.

(c) The Secretary of State and each elections official shall educate voters
about election day registration, and shall include information about the
availability of election day registration in all existing voter education efforts. Information about election day voter registration will be available in languages other than English as required by current law relating to registration and voting materials.

ARTICLE 4. INCREASED PENALTIES FOR FRAUD

SEC. 4. In order to minimize the possibility of fraudulent registration or voting activity, the penalties for engaging in such activity, or conspiring to engage in such activity, shall be increased. The following Elections Code provisions are hereby amended to increase the penalties as indicated:

18001. Upon a conviction for any crime punishable by imprisonment in any jail or prison, in relation to which no fine is herein prescribed, the court may impose a fine on the offender not exceeding one thousand dollars ($1,000) in cases of misdemeanors or ten thousand dollars ($10,000) in cases of felonies, in addition to the imprisonment prescribed.

SEC. 5. NEW PENALTIES FOR CONSPIRACY TO COMMIT FRAUD.
Section 18561.1 is added to the Elections Code, to read:

18561.1. If two or more persons conspire to commit the following acts they are guilty of a felony punishable by imprisonment in state prison for three, four, or five years:

(a) Not being entitled to vote at an election, fraudulently votes or fraudulently attempts to vote at an election.

(b) Being entitled to vote at an election, votes more than once or attempts to vote more than once.

(c) Procures, assists, counsels, or advises another person to vote at an election, knowing that the person is not entitled to vote.

(d) Procures, assists, counsels, or advises another person otherwise entitled to vote at an election to vote more than once.

(e) Pays, lends, contributes, offers or promises any money or other valuable consideration to another person to vote at an election for any particular candidate.

(f) Attempts to pay, lend, contribute, offer or promise any money or other valuable consideration to another person to vote at an election for any particular candidate.

ARTICLE 5. CLOSE OF REGISTRATION OTHER THAN 28-DAY PERIOD PRIOR TO ELECTION DAY REGISTRATION AND ELECTION DAY; OTHER CONFORMING CHANGES TO ELECTIONS CODE

SEC. 6. This act changes the current 15-day close of registration to 29 days, except in cases of voter registration in accordance with the provisions of this act occurring in the 28-day period prior to the election and on election day. The following provisions of the Elections Code are amended to effectuate this change:

SEC. 7. Section 321 of the Elections Code is amended to read:

321. “Elector” means any person who is a United States citizen 18 years of age or older and a resident of an election precinct the State of California at least 29 days prior to an election.

SEC. 8. Section 2035 of the Elections Code is amended to read:

SEC. 9. Section 2100 of the Elections Code is amended to read:

2100. No person shall be registered except as provided in this chapter except, or as provided in Article 4.5 (commencing with Section 2170) of Chapter 2 of Division 2, or upon the production and filing of a certified copy of a judgment of the superior court directing registration to be made.

SEC. 10. Section 2102 of the Elections Code is amended to read:

2102. (a) A person may not be registered as a voter except by affidavit of registration. The affidavit shall be mailed or delivered to the county elections official and shall set forth all of the facts required to be shown by this chapter. A properly executed registration shall be deemed effective upon receipt of the affidavit by the county elections official if received on or before the 15th 29th day prior to an election to be held in the registrant’s precinct, or during the 28 days prior to the election or on election day in accordance with Article 4.5 (commencing with Section 2170) of Chapter 2 of Division 2. A properly executed registration shall also be deemed effective upon receipt of the affidavit by the county elections official if any of the following apply:

(1) The affidavit is postmarked on or before the 15th 29th day prior to the election and received by mail by the county elections official.

(2) The affidavit is submitted to the Department of Motor Vehicles or accepted by any other public agency designated as a voter registration agency pursuant to the National Voter Registration Act of 1993 (42 U.S.C. Sec. 1973gg) on or before the 15th 29th day prior to the election.

(3) The affidavit is delivered to the county elections official by means other than those described in paragraphs paragraph (1) or (2) on or before the 15th 29th day prior to the election.

(b) For purposes of verifying signatures on a recall, initiative, or referendum petition or signatures on a nomination paper or any other election petition or election paper, a properly executed affidavit of registration shall be deemed effective for verification purposes if both (a) (1) the affidavit is signed on the same date or a date prior to the signing of the petition or paper, and (b) (2) the affidavit is received by the county elections official on or before the date on which the petition or paper is filed.

(c) Notwithstanding any other provision of law to the contrary, the affidavit of registration required under this chapter may not be taken under sworn oath, but the content of the affidavit shall be certified as to its truthfulness and correctness, under penalty of perjury, by the signature of the affiant.

SEC. 11. Section 2107 of the Elections Code is amended to read:

2107. (a) Except as provided in subdivision (b), the county elections official shall accept affidavits of registration at all times except during the 14 28 days immediately preceding any election, when registration shall cease for that election as to electors residing in the territory within which the election is to be held except as provided in Article 4.5 (commencing with Section 2170) of Chapter 2 of Division 2. Transfers of registration for an election may be made from one precinct to another precinct in the same county at any time when registration is in progress in the precinct to which the elector seeks to transfer.

(b) The county elections official shall accept an affidavit of registration executed as part of a voter registration card in the forthcoming election if the
affidavit is executed on or before the 15th 29th day prior to the election, and if any of the following apply:

(1) The affidavit is postmarked on or before the 15th 29th day prior to the election and received by mail by the county elections official.

(2) The affidavit is submitted to the Department of Motor Vehicles or accepted by any other public agency designated as a voter registration agency pursuant to the National Voter Registration Act of 1993 (42 U.S.C. Sec. 1973gg) on or before the 29th day prior to the election.

SEC. 12. Section 2119 of the Elections Code is amended to read:

2119. (a) In lieu of executing a new affidavit of registration for a change of address within the county the county elections official shall accept a notice or letter of the change of address signed by a voter as he or she is registered.

(b) The county elections official shall accept a notification for the forthcoming election and shall change the address on the voter’s affidavit of registration accordingly if the notification is executed on or before the 15th 29th day prior to the election and if any of the following apply:

(1) The notification is postmarked on or before the 15th 29th day prior to the election and received by mail by the county elections official.

(2) The notification is submitted to the Department of Motor Vehicles or accepted by any other public agency designated as a voter registration agency pursuant to the National Voter Registration Act of 1993 (42 U.S.C. Sec. 1973gg) on or before the 29th day prior to the election.

(3) The notification is delivered to the county elections official by means other than those described in paragraphs (2) (1) and (2) on or before the 14th 29th day prior to the election.

SEC. 13. Section 2154 of the Elections Code is amended to read:

2154. In the event that the county elections official receives an affidavit of registration that does not include portions of the information for which space is provided, the county elections official shall apply the following rebuttable presumptions:

(a) If no middle name or initial is shown, it shall be presumed that none exists.

(b) If no party affiliation is shown, it shall be presumed that the affiant has no party affiliation.

(c) If no execution date is shown, it shall be presumed that the affidavit was executed on or before the 15th 29th day prior to the election, provided that (1) the affidavit is received by the county elections official on or before the 15th 29th day prior to the election, or (2) the affidavit is postmarked on or before the 15th 29th day prior to the election and received by mail by the county elections official.

(d) If the affiant fails to identify his or her state of birth within the United States, it shall be presumed that the affiant was born in a state or territory of the United States if the birthplace of the affiant is shown as “United States,” “U.S.A.,” or other recognizable term designating the United States.

SEC. 14. Section 2155 of the Elections Code is amended to read:
2155. Upon receipt of a properly executed affidavit of registration or address correction notice or letter pursuant to Section 2119, Article 2 (commencing with Section 2220), or the National Voter Registration Act of 1993 (42 U.S.C. Sec. 1973gg), the county elections official shall send the voter a voter notification by nonforwardable, first-class mail, address correction requested. The voter notification shall be substantially in the following form:

VOTER NOTIFICATION

You are registered to vote. This card is being sent as a notification of:

1. Your recently completed affidavit of registration,

Your name will appear on the index kept at the polls.

(Signature of Voter)

SEC. 15. Section 9094 of the Elections Code is amended to read:

9094. (a) The Secretary of State shall mail ballot pamphlets to voters, in those instances in which the county clerk elections official uses data processing equipment to store the information set forth in the affidavits of registration, before the election at which measures contained in the ballot pamphlet are to be voted on unless a voter has registered fewer than 29 days before the election provided the voter has registered more than 28 days prior to the election. The mailing shall commence not less than 40 days before the election and shall be completed no later than 21 days before the election for those voters who registered on or before the 60th day before the election. The Secretary of State shall mail one copy of the ballot pamphlet to each registered voter at the postal address stated on the voter’s affidavit of registration, or the Secretary of State may mail only one ballot pamphlet to two or more registered voters having the same surname and the same postal address.

(b) In those instances in which the county clerk elections official does not utilize data processing equipment to store the information set forth in the affidavits of registration, the Secretary of State shall furnish ballot pamphlets to the county clerk elections official not less than 45 days before the election at which measures contained in the ballot pamphlet are to be voted on and the county clerk shall mail ballot pamphlets to voters, on the same dates and in the same manner provided by subdivision (a).

(c) The Secretary of State shall provide for the mailing of ballot pamphlets to voters registering after the 60th day before the election and before the 28th day before the election, by either: (I) mailing in the manner as provided in subdivision (a), or (2) requiring the county clerk elections official to mail ballot pamphlets to those voters registering in the county after the 60th day before the election and before the 28th day before the election pursuant to the provisions of this section. The second mailing of ballot pamphlets shall be completed no later
than 10 days before the election. The county clerk elections official shall mail a ballot pamphlet to any person requesting a ballot pamphlet. Three copies, to be supplied by the Secretary of State, shall be kept at every polling place, while an election is in progress, so that they may be freely consulted by the voters, including voters registering or reregistering on election day in accordance with Article 4.5 (commencing with Section 2170) of Chapter 2 of Division 2.

SEC. 16. Section 13303 of the Elections Code is amended to read:

13303. (a) For each election, each appropriate elections official shall cause to be printed, on plain white paper or tinted paper, without watermark, at least as many copies of the form of ballot provided for use in each voting precinct as there are voters in the precinct. These copies shall be designated “sample ballot” upon their face and shall be identical to the official ballots used in the election, except as otherwise provided by law. A sample ballot shall be mailed, postage prepaid, not more than 40 nor less than 21 days before the election to each voter who is registered at least 29 days prior to the election.

(b) The elections official shall send notice of the polling place to each voter with the sample ballot. Only official matter shall be sent out with the sample ballot as provided by law.

(c) The elections official shall send notice of the polling place to each voter who registered after the 29th day prior to the election and is eligible to participate in the election. The notice shall also include information as to where the voter can obtain a sample ballot and a ballot pamphlet prior to the election; a statement indicating that those documents will be available at the polling place at the time of the election; and the address of the Secretary of State’s website and, if applicable, of the county website where a sample ballot may be viewed.

ARTICLE 6. FUNDING FOR ADDITIONAL ELECTION DAY PERSONNEL

SEC. 17. Section 2131 is added to the Elections Code, to read:

2131. (a) The Election Day Registration Fund is hereby established in the State Treasury. The fund is a special fund created for the purpose of assisting elections officials in implementing the provisions of this act, including, but not limited to, training and providing additional personnel to conduct registration on election days, providing additional voter registration materials and expanding voter outreach programs.

(b) Notwithstanding Section 13340 of the Government Code, the sum of six million dollars ($6,000,000), adjusted annually to reflect increases in the cost of living, shall be continuously appropriated from the General Fund to the Election Day Registration Fund without regard to fiscal year for the purposes of this act.

(c) On July 1 of each year the State Controller shall transfer from the General Fund to the Election Day Registration Fund the sum of six million dollars ($6,000,000), along with any cost-of-living increases. Notwithstanding Section 13340 of the Government Code, all funds in the Election Day Registration Fund shall be continuously appropriated to the Secretary of State without regard to fiscal year to be expended for the purposes of the act.

(d) Funds deposited in the Election Day Registration Fund are not otherwise subject to appropriation by the Legislature and, notwithstanding any other provision of law, may be expended by the Secretary of State without regard to fiscal year and shall not revert to any other fund. Notwithstanding any other
provision of law, interest earned by the fund shall accrue only to the fund and may be expended only for the purposes of the act.

(e) Moneys deposited in the Election Day Registration Fund shall be distributed annually by the Secretary of State to counties to cover the costs of implementing the provisions of this act, including the cost of providing and training additional personnel to conduct election day voter registration, creating additional voter registration materials and expanding voter outreach programs. Such moneys shall be allocated using a fair and equitable distribution formula that gives priority to the actual expenses of providing the additional personnel required by this act. All funds transferred to the Election Day Registration Fund shall be distributed to the counties for use as specified in this act; no part of these funds shall be used by the Secretary of State to administer the allocation process.

(f) Elections officials receiving moneys from the Election Day Registration Fund shall submit an annual report to the Secretary of State which identifies how those moneys were used, including the number of personnel added to conduct voter registration and a description of any voter outreach efforts implemented as a result of the funding.

ARTICLE 7.

SEC. 18. LIBERAL CONSTRUCTION. The provisions of this act shall be liberally construed to effectuate its purpose of allowing and facilitating voter registration and voter reregistration on election day.

ARTICLE 8.

SEC. 19. AMENDMENTS. This act may be amended to further its purpose by statute, passed in each house, two-thirds of the Legislature concurring, and signed by the Governor. For purposes of this section, a statute will not be deemed to further the purposes of the act if it eliminates or creates significant impediments to election day registration or reregistration. However, it is not the intent of this section to preclude changes in registration procedure that are the result of changes in technology, provided those changes are intended to facilitate the registration process and increase the number of eligible voters who register to vote. Notwithstanding the above, any of the sections contained in Article 5 of this act may be amended by statute, passed by majority vote of each house, and signed by the Governor.

ARTICLE 9.

SEC. 20. SEVERABILITY. In the event that any section or provision of this act, or the application thereof to any person or circumstances, is held invalid, it is the intent of the voters that the remaining sections of the act continue in full force and effect, and to this end the provisions of the act are severable.

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the purpose of this act is to adopt an agreement pursuant to Section 3517 of the Government Code entered into by the state employer and State Bargaining Unit 6, the California Correctional Peace Officers Association.

SEC. 2. The provisions of the memorandum of understanding prepared pursuant to Section 3517.5 of the Government Code and entered into by the state employer and State Bargaining Unit 6, the California Correctional Peace Officers Association, and that require the expenditure of funds, are hereby approved for the purposes of Section 3517.6 of the Government Code.

SEC. 3. The provisions of the memorandum of understanding approved by Section 2 of this act that are scheduled to take effect on or after July 1, 2001, and that require the expenditure of funds shall not take effect unless funds for these provisions are specifically appropriated by the Legislature. If funds for these provisions are not specifically appropriated by the Legislature, the state employer and the affected employee organization shall meet and confer to renegotiate the affected provisions.

In any case where the provisions of Section 19997.2, 19997.3, 19997.8, 19997.9, 19997.10, 19997.11, 19997.12, 19997.13, or 19997.14 are in conflict with the provisions of a memorandum of understanding, the terms of the memorandum of understanding shall be controlling unless the State Personnel Board finds those terms to the inconsistent with merit employment principles as provided for by Article VII of the California Constitution. Where this finding is made, the provisions of the Government Code shall prevail until those affected sections of the memorandum of understanding are renegotiated to resolve the inconsistency. If any provision of the memorandum of understanding requires the expenditure of funds, those provisions of the memorandum of understanding shall not become effective unless approved by the Legislature in the annual Budget Act. If any provision of the memorandum of understanding requires legislative action to permit its implementation by amendment of any section not cited above, those provisions of the memorandum of understanding shall not become effective unless approved by the Legislature.

SEC. 7. Section 18903 of the Government Code is amended to read:

18903. (a) For each class there shall be maintained a general reemployment list consisting of the names of all persons who have
occupied positions with probationary or permanent status in the class and who have been legally laid off or demoted in lieu of layoff.

(b) Within one year from the date of his or her resignation in good standing, or his or her voluntary demotion, the name of an employee who had probationary or permanent status may be placed on the general reemployment list with the consent of the appointing power and the board. The general reemployment list may also contain the names of persons placed thereon by the board in accordance with other provisions of this part.

SEC. 8. Section 19056.5 of the Government Code is amended to read:

19056.5. Notwithstanding any other provision in this part, if the appointment is to be made from a general reemployment list, the names of the three persons with the highest standing on the list shall be certified to the appointing power.

SEC. 9. Section 19141 of the Government Code is amended to read:

19141. (a) This section applies only to a permanent employee, or an employee who previously had permanent status and who, since that permanent status, has had no break in the continuity of his or her state service due to a permanent separation. As used in this section, "former position" is defined as in Section 18522, or, if the appointing power to which reinstatement is to be made and the employee agree, a vacant position in any department, commission, or state agency for which he or she is qualified at substantially the same level.

(b) Within the periods of time specified below, an employee who vacates a civil service position to accept an appointment to an exempt position shall be reinstated to his or her former position at the termination either by the employee or appointing power of the exempt appointment, provided he or she (1) accepted the appointment without a break in the continuity of state service, and (2) requests in writing reinstatement of the appointing power of his or her former position within 10 working days after the effective date of the termination.

(c) The reinstatement may be requested by the employee only within the following periods of time:

(1) At any time after the effective date of the exempt appointment if the employee was appointed under one of the following:

(A) Subdivision (a), (b), (c), (d), (e), (f), (g), or (m) of Section 4 of Article VII of the California Constitution.
(B) Section 2.1 of Article IX of the California Constitution.
(C) Section 22 of Article XX of the California Constitution.
(D) To an exempt position under the same appointing power as the former position even though a shorter period of time may be otherwise specified for that appointment.
(2) Within six months after the effective date of the exempt appointment if appointed under subdivision (h), (i), (k), or (l) of Section 4 of Article VII of the California Constitution.

(3) Within four years after the effective date of an exempt appointment if appointed under any other authority.

(d) An employee who vacates his or her civil service position to accept an assignment as a member, inmate, or patient helper under subdivision (j) of Section 4 of Article VII of the California Constitution shall not have a right to reinstatement.

(e) An employee who is serving under an exempt appointment retains a right of reinstatement when he or she accepts an extension of that exempt appointment or accepts a new exempt appointment, provided the extension or new appointment is made within the specified reinstatement time limit and there is no break in the continuity of state service. The period for which that right is retained is for the period applicable to the extended or new exempt appointment as if that appointment had been made on the date of the initial exempt appointment.

(f) When an employee exercises his or her right of reinstatement and returns to his or her former position, the service while under an exempt appointment shall be deemed to be time served in the former position for the purpose of determining his or her seniority and eligibility for merit salary increases.

(g) If the termination of an exempt appointment is for a reason contained in Section 19997 and the employee does not have a right to reinstatement, he or she shall have his or her name placed on the departmental and general reemployment lists for the class of his or her former position.

SEC. 10. Section 19142 of the Government Code is amended to read:

19142. (a) Every person accepts and holds a position in the state civil service subject to mandatory reinstatement of another person.

(b) Upon reinstatement of a person any necessary separations are effected under the provisions of Section 19997.3 governing layoff and demotion except that (A) an employee who is not to be separated from state service need not receive advance notification as provided in Section 19997.13, and (B) seniority shall not be counted as provided in Section 19997.3 when this would result in the layoff of the person who has the reinstatement right. Under that circumstance, qualifying service in classes at substantially the same or higher salary level is the only state service that shall be counted for purposes of determining who is to be separated.

SEC. 11. Section 19170.1 of the Government Code is repealed.

SEC. 12. Section 19173.4 of the Government Code is repealed.
SEC. 13. Section 19175.7 of the Government Code is repealed.
SEC. 14. Section 19771 of the Government Code is amended to read:

19771. (a) Upon presentation of a copy of orders for active duty in the Armed Forces, the National Guard, or the Naval Militia, the appointing power shall grant a military leave of absence for the period of active duty specified in the orders, but not to exceed four years for a permanent, probationary, or exempt employee, or for the remainder of a limited-term employee’s appointment or a temporary employee’s appointment.

(b) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions may not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 15. Section 19774 of the Government Code is amended to read:

19774. (a) Employee members of reserve military units and the National Guard required to attend scheduled reserve drill periods or perform other inactive duty reserve obligations shall be granted military leave of absence without pay as provided by federal law.

(b) Notwithstanding subdivision (a) or any other provision of law, employee members may, at their option, elect to use vacation time or accumulated compensatory time off to attend scheduled reserve drill periods or perform other inactive duty reserve obligations.

(c) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions may not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 16. Section 19786 of the Government Code is amended to read:

19786. (a) When a civil service employee has been reinstated after military service in accordance with Section 19780, and any question arises relative to his or her ability or inability for any reason arising out of the military service to perform the duties of the position to which he or she has been reinstated, the board shall, upon the request of the appointing power or of the employee, hear the matter and may on its own motion or at the request of either party take any and all necessary testimony of every nature necessary to a decision on the question.

(c) If a layoff is made necessary to place a civil service employee in a position in the same class or a comparable class in accordance with this section, the layoff shall be made under Section 19997.3, provided that no civil service employee who was employed prior to September 16, 1940, shall be laid off as a result of the placing of an employee in the same class or a comparable class under this section.

(d) The board may order the civil service employee reinstated to the department, bureau, board, commission, or office from which he or she was transferred either upon request of the employee or the appointing power from which transferred. Total compensation shall include base salary, educational incentive pay, physical performance pay, longevity pay, and retirement contributions made by the employer on behalf of the employee.

(2) The state and the exclusive representative shall jointly survey annually and calculate the estimated average total compensation based on projected average total compensation for the above-named departments as of July 1 of the year in which the survey is conducted. The state and the exclusive representative shall utilize the survey methodology outlined in the “Description of Survey Process Pursuant to Government Code 19827 Regarding the Recruitment and Retention of California Highway Patrol Officers” dated July 1, 2001, and maintained as a permanent agreement between the state and the exclusive representative.

(3) Any increase in total compensation resulting from this section shall be implemented through a memorandum of understanding negotiated pursuant to the Ralph C. provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

(b) When determining compensation for state excluded sworn classifications of the California Highway Patrol, it is the policy of the state to consider total compensation for corresponding ranks within jurisdictions specified in subdivision (a), as well as other factors, including internal comparisons.

SEC. 24. Section 19841 of the Government Code is amended to read:

19841. (a) Notwithstanding Section 11030, whenever a state officer or employee is required by the appointing power because of a change in assignment, promotion, or other reason related to his or her duties to change his or her place of residence, the officer, agent, or employee shall receive his or her actual and necessary moving, traveling, lodging, and meal expenses incurred by him or her both before and after and by reason of the change of residence. The maximum allowances for these expenses shall be as follows: the costs of packing, transporting, and unpacking 11,000 pounds of household effects, traveling, lodging, and meal expenses for 60 days while locating a permanent residence, storage of household effects for 60 days, and additional miscellaneous allowances not in excess of two hundred dollars ($200). The maximum allowances may be exceeded where the director determines that the change of residence will result in unusual and unavoidable hardship for the officer or employee, and in those cases the director shall determine the maximum allowances to be received by the officer or employee.

(b) If a change of residence reasonably requires the sale of a residence or the settlement of an unexpired lease, the officer or employee may be reimbursed for any of the following expenses:

(1) The settlement of the unexpired lease to a maximum of one year. Upon the date of surrender of the premises by the employee who is the lessee, the rights and obligations of the parties to the lease shall be as determined by Section 1951.2 of the Civil Code.

understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

Granting of seniority credit under this section is subject to review by the State Personnel Board pursuant to Section 19816.2.

(b) The department shall limit that determination to the time any transferred employees were employed in the specific function or a function substantially similar while in the former agency and the seniority credits and accumulated sick leave and accumulated vacation shall not exceed that to which each employee would be entitled if he or she had been continuously employed by the State of California. This section is applicable to any function heretofore transferred to the state, whether by state action or otherwise, as well as to any future transfers of a function to the state, whether by state action or otherwise.

SEC. 26. Section 19994.1 of the Government Code is amended to read:

(b) When a transfer under this section or Section 19050.5 reasonably requires an employee to change his or her place of residence, the appointing power shall give the employee, unless the employee waives this right, a written notice of transfer 60 days in advance of the effective date of the transfer. Unless the employee waives this right, the appointing power shall provide to the employee 60 days prior to the effective date of the transfer a written notice setting forth in clear and concise language the reasons why the employee is being transferred.

(c) If this section is in conflict with a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the memorandum of understanding requires the expenditure of funds, it shall not become effective unless approved by the Legislature in the annual Budget Act.

(a) When there are two or more employees in a class and an involuntary transfer is required to a position in the same class, or an appropriate class as designated by the State Personnel Board, in a location that reasonably requires an employee to change his or her place of residence, the department may determine the methods by which employees in the class or classes involved are to be selected for transfer. These methods may include seniority and other considerations.

(b) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 28. Section 19997 of the Government Code is amended to read:

19997. Whenever it is necessary because of lack of work or funds, or whenever it is advisable in the interests of economy, to reduce the staff of any state agency, the appointing power may lay off employees pursuant to this article and department rule. All layoff provisions and procedures established or agreed to under this article shall be subject to State Personnel Board review pursuant to Section 19816.2.

SEC. 29. Section 19997.3 of the Government Code is amended to read:

19997.3. (a) Layoff shall be made in accordance with the relative seniority of the employees in the class of layoff. In determining seniority scores, one point shall be allowed for each complete month of full-time state service regardless of when the service occurred. Department rules shall establish all of the following:

1. The extent to which seniority credits may be granted for less than full-time service.

2. The seniority credit to be granted for service in a class that has been abolished, combined, divided, or otherwise altered under the authority of Section 18802.

3. The basis for determining the sequence of layoff whenever the class and subdivision of layoff includes employees whose service is less than full time.

4. Any other matters as are necessary or advisable to the operation of this chapter.

(b) For professional, scientific, administrative, management, and executive classes, the department shall prescribe standards and methods by rule whereby employee efficiency shall be combined with seniority in determining the order of layoffs and the order of names on reemployment lists. These standards and methods may vary for different
classes, and shall take into consideration the needs of state service and practice in private industry and other public employment.

(c) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding incurs either present or future costs, or requires the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

19997.5. (a) Separations that are necessary by reason of reinstatement of an employee or employees after recognized military service as provided for in Section 19780 shall be made by layoff. In making these separations, the regular method of determining the order of layoff shall be used unless this would result in the layoff of an employee who has been reinstated in the class and subdivision of layoff under Section 19780, and in the retention of an employee who was appointed in the class and subdivision of layoff during the time that a reinstated employee was on military leave. Under these circumstances, seniority shall not be counted as provided in Section 19997.3. Instead, service in the subdivision of layoff that qualifies under Section 19997.3 for credit is the only state service that shall be counted.

Whenever such a layoff results in the demotion to a lower class of an employee who has been reinstated after recognized military service as provided in Section 19780, the resulting layoff, if any, in the lower class shall be made as though that reinstated employee had been in that lower class at the time he or she went on military leave.

Any layoff occurring within one year after reinstatement of an employee after recognized military service shall be presumed to have been necessary by reason of reinstatement of an employee or employees
under Section 19780 unless the department determines that the reason for layoff is clearly not related to the reinstatement.

(b) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions may not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 32. Section 19997.6 of the Government Code is amended to read:

19997.6. (a) A veteran, except a veteran who was reinstated from military leave, shall in the event of layoff receive seniority credit for recognized military service if the veteran entered the state service after discharge, the end of the national emergency, or the end of the state military emergency.

(b) Seniority credit for recognized military service shall be computed as if it were service in the class to which the employee was first given permanent civil service or exempt appointment after his or her entry into the state service following recognized military service.

(c) Seniority credit for recognized military service shall not exceed one year’s credit if the veteran had no state service prior to entering the military service.

(d) This section shall become operative on July 1, 1993.

19997.7. (a) Employees in the class under consideration, up to the number of positions to be abolished or discontinued, shall be laid off in the order as determined under this part. As between two or more of these employees who have the same score, veterans shall have preference in retention. Other ties shall be resolved according to department rule that shall take into consideration other matters of record before names are drawn by lot.

(b) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions may not become effective unless approved by the Legislature in the annual Budget Act.

SEC. 34. Section 19997.8 of the Government Code is amended to read:

maximum salary in which he or she had served under permanent or probationary status, or (2) a class in the same line of work as the class of layoff, but of lesser responsibility, if a class is designated by the department. Whenever a demotion requires a layoff in the elected class, the seniority score for the demoted employee shall be recomputed in that class. The appointing power shall inform the employee in the notice of layoff of the classes to which he or she has the right to demote. To be considered for demotion in lieu of layoff an employee shall notify his or her appointing power in writing of his or her election not later than five calendar days after receiving notice of layoff.

(b) Demotions in lieu of layoff, and layoffs resulting therefrom, shall be governed by this article and shall be made within the subdivisions approved by the department for this purpose. These subdivisions need not be the same as those used to determine the area of layoff under Section 19997.2.

(c) If the provisions of this section are in conflict with the provisions of a memorandum of understanding reached pursuant to Section 3517.5, the memorandum of understanding shall be controlling without further legislative action, except that if the provisions of a memorandum of understanding require the expenditure of funds, the provisions shall not become effective unless approved by the Legislature in the annual Budget Act.

the reason or reasons for the layoff. An employee to be laid off may elect
to accept this layoff prior to the effective date thereof.

(b) If the provisions of this section are in conflict with the provisions
of a memorandum of understanding reached pursuant to Section 3517.5,
the memorandum of understanding shall be controlling without further
legislative action, except that if the provisions of a memorandum of
understanding require the expenditure of funds, the provisions shall not
become effective unless approved by the Legislature in the annual
Budget Act.

[Approved by Governor January 23, 2002. Filed with Secretary of State January 24, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Section 1203.097 of the Penal Code is amended to read:

1203.097. (a) If a person is granted probation for a crime in which the victim is a person defined in Section 6211 of the Family Code, the terms of probation shall include all of the following:

(1) A minimum period of probation of 36 months, which may include a period of summary probation as appropriate.

(2) A criminal court protective order protecting the victim from further acts of violence, threats, stalking, sexual abuse, and harassment, and, if appropriate, containing residence exclusion or stay-away conditions.

(3) Notice to the victim of the disposition of the case.

(4) Booking the defendant within one week of sentencing if the defendant has not already been booked.

(5) A minimum payment by the defendant of two hundred dollars ($200) to be disbursed as specified in this paragraph. If, after a hearing in court on the record, the court finds that the defendant does not have the ability to pay, the court may reduce or waive this fee.

One-third of the moneys deposited with the county treasurer pursuant to this section shall be retained by counties and deposited in the domestic violence programs special fund created pursuant to Section 18305 of the Welfare and Institutions Code, to be expended for the purposes of Chapter 5 (commencing with Section 18290) of Part 6 of Division 9 of the Welfare and Institutions Code. The remainder shall be transferred, once a month, to the Controller for deposit in equal amounts in the Domestic Violence Restraining Order Reimbursement Fund and in the Domestic Violence Training and Education Fund, which are hereby created, in an amount equal to two-thirds of funds collected during the preceding month. Moneys deposited into these funds pursuant to this section shall be available upon appropriation by the Legislature and shall be distributed each fiscal year as follows:

(A) Funds from the Domestic Violence Restraining Order Reimbursement Fund shall be distributed to local law enforcement or other criminal justice agencies for state-mandated local costs resulting
from the notification requirements set forth in subdivision (a) of Section 6385 of the Family Code, based on the annual notification from the Department of Justice of the number of restraining orders issued and registered in the state domestic violence restraining order registry maintained by the Department of Justice, for the development and maintenance of the domestic violence restraining order data bank system.

(B) Funds from the Domestic Violence Training and Education Fund shall support a statewide training and education program to increase public awareness of domestic violence and to improve the scope and quality of services provided to the victims of domestic violence. Grants to support this program shall be awarded on a competitive basis and be administered by the State Department of Health Services, in consultation with the statewide domestic violence coalition, which is eligible to receive funding under this section.

(6) Successful completion of a batterer’s program, as defined in subdivision (c), or if none is available, another appropriate counseling program designated by the court, for a period not less than one year with periodic progress reports by the program to the court every three months or less and weekly sessions of a minimum of two hours class time duration. The defendant shall attend consecutive weekly sessions, unless granted an excused absence for good cause by the program for no more than three individual sessions during the entire program, and shall complete the program within 18 months, unless, after a hearing, the court finds good cause to modify the requirements of consecutive attendance or completion within 18 months.

(7) (A) (i) The court shall order the defendant to comply with all probation requirements, including the requirements to attend counseling, keep all program appointments, and pay program fees based upon the ability to pay.

(ii) The terms of probation for offenders shall not be lifted until all reasonable fees due to the counseling program have been paid in full, but in no case shall probation be extended beyond the term provided in subdivision (a) of Section 1203.1. If the court finds that the defendant does not have the ability to pay the fees based on the defendant’s changed circumstances, the court may reduce or waive the fees.

(B) Upon request by the batterer’s program, the court shall provide the defendant’s arrest report, prior incidents of violence, and treatment history to the program.

(8) The court also shall order the defendant to perform a specified amount of appropriate community service, as designated by the court. The defendant shall present the court with proof of completion of community service and the court shall determine if the community service has been satisfactorily completed. If sufficient staff and
resources are available, the community service shall be performed under the jurisdiction of the local agency overseeing a community service program.

(9) If the program finds that the defendant is unsuitable, the program shall immediately contact the probation department or the court. The probation department or court shall either recalendar the case for hearing or refer the defendant to an appropriate alternative batterer’s program.

(10) (A) Upon recommendation of the program, a court shall require a defendant to participate in additional sessions throughout the probationary period, unless it finds that it is not in the interests of justice to do so, states its reasons on the record, and enters them into the minutes. In deciding whether the defendant would benefit from more sessions, the court shall consider whether any of the following conditions exist:

(i) The defendant has been violence free for a minimum of six months.

(ii) The defendant has cooperated and participated in the batterer’s program.

(iii) The defendant demonstrates an understanding of and practices positive conflict resolution skills.

(iv) The defendant blames, degrades, or has committed acts that dehumanize the victim or puts at risk the victim’s safety, including, but not limited to, molesting, stalking, striking, attacking, threatening, sexually assaulting, or battering the victim.

(v) The defendant demonstrates an understanding that the use of coercion or violent behavior to maintain dominance is unacceptable in an intimate relationship.

(vi) The defendant has made threats to harm anyone in any manner.

(vii) The defendant has complied with applicable requirements under paragraph (6) of subdivision (c) or subparagraph (C) to receive alcohol counseling, drug counseling, or both.

(viii) The defendant demonstrates acceptance of responsibility for the abusive behavior perpetrated against the victim.

(B) The program shall immediately report any violation of the terms of the protective order, including any new acts of violence or failure to comply with the program requirements, to the court, the prosecutor, and, if formal probation has been ordered, to the probation department. The probationer shall file proof of enrollment in a batterer’s program with the court within 30 days of conviction.

(C) Concurrent with other requirements under this section, in addition to, and not in lieu of, the batterer’s program, and unless prohibited by the referring court, the probation department or the court may make provisions for a defendant to use his or her resources to enroll in a chemical dependency program or to enter voluntarily a licensed
chemical dependency recovery hospital or residential treatment program that has a valid license issued by the state to provide alcohol or drug services to receive program participation credit, as determined by the court. The probation department shall document evidence of this hospital or residential treatment participation in the defendant’s program file.

(11) The conditions of probation may include, in lieu of a fine, but not in lieu of the fund payment required under paragraph (5), one or more of the following requirements:

(A) That the defendant make payments to a battered women’s shelter, up to a maximum of five thousand dollars ($5,000).

(B) That the defendant reimburse the victim for reasonable expenses that the court finds are the direct result of the defendant’s offense.

For any order to pay a fine, to make payments to a battered women’s shelter, or to pay restitution as a condition of probation under this subdivision, the court shall make a determination of the defendant’s ability to pay. Determination of a defendant’s ability to pay may include his or her future earning capacity. A defendant shall bear the burden of demonstrating lack of his or her ability to pay. Express findings by the court as to the factors bearing on the amount of the fine shall not be required. In no event shall any order to make payments to a battered women’s shelter be made if it would impair the ability of the defendant to pay direct restitution to the victim or court-ordered child support. When the injury to a married person is caused in whole or in part by the criminal acts of his or her spouse in violation of this section, the community property shall not be used to discharge the liability of the offending spouse for restitution to the injured spouse, as required by Section 1203.04, as operative on or before August 2, 1995, or Section 1202.4, or to a shelter for costs with regard to the injured spouse, until all separate property of the offending spouse is exhausted.

(12) If it appears to the prosecuting attorney, the court, or the probation department that the defendant is performing unsatisfactorily in the assigned program, is not benefiting from counseling, or has engaged in criminal conduct, upon request of the probation officer, the prosecuting attorney, or on its own motion, the court, as a priority calendar item, shall hold a hearing to determine whether further sentencing should proceed. The court may consider factors, including, but not limited to, any violence by the defendant against the former or a new victim while on probation and noncompliance with any other specific condition of probation. If the court finds that the defendant is not performing satisfactorily in the assigned program, is not benefiting from the program, has not complied with a condition of probation, or has engaged in criminal conduct, the court shall terminate the defendant’s participation in the program and shall proceed with further sentencing.
(b) If a person is granted formal probation for a crime in which the victim is a person defined in Section 6211 of the Family Code, in addition to the terms specified in subdivision (a), all of the following shall apply:

(1) The probation department shall make an investigation and take into consideration the defendant’s age, medical history, employment and service records, educational background, community and family ties, prior incidents of violence, police report, treatment history, if any, demonstrable motivation, and other mitigating factors in determining which batterer’s program would be appropriate for the defendant. This information shall be provided to the batterer’s program if it is requested. The probation department shall also determine which community programs the defendant would benefit from and which of those programs would accept the defendant. The probation department shall report its findings and recommendations to the court.

(2) The court shall advise the defendant that the failure to report to the probation department for the initial investigation, as directed by the court, or the failure to enroll in a specified program, as directed by the court or the probation department, shall result in possible further incarceration. The court, in the interests of justice, may relieve the defendant from the prohibition set forth in this subdivision based upon the defendant’s mistake or excusable neglect. Application for this relief shall be filed within 20 court days of the missed deadline. This time limitation may not be extended. A copy of any application for relief shall be served on the office of the prosecuting attorney.

(3) After the court orders the defendant to a batterer’s program, the probation department shall conduct an initial assessment of the defendant, including, but not limited to, all of the following:

(A) Social, economic, and family background.
(B) Education.
(C) Vocational achievements.
(D) Criminal history.
(E) Medical history.
(F) Substance abuse history.

(H) Verbal consultation with the victim, only if the victim desires to participate.
(I) Assessment of the future probability of the defendant committing murder.

(4) The probation department shall attempt to notify the victim regarding the requirements for the defendant’s participation in the batterer’s program, as well as regarding available victim resources. The victim also shall be informed that attendance in any program does not guarantee that an abuser will not be violent.
(c) The court or the probation department shall refer defendants only to batterer’s programs that follow standards outlined in paragraph (1), which may include, but are not limited to, lectures, classes, group discussions, and counseling. The probation department shall design and implement an approval and renewal process for batterer’s programs and shall solicit input from criminal justice agencies and domestic violence victim advocacy programs.

(1) The goal of a batterer’s program under this section shall be to stop domestic violence. A batterer’s program shall consist of the following components:

(A) Strategies to hold the defendant accountable for the violence in a relationship, including, but not limited to, providing the defendant with a written statement that the defendant shall be held accountable for acts or threats of domestic violence.

(B) A requirement that the defendant participate in ongoing same-gender group sessions.

(C) An initial intake that provides written definitions to the defendant of physical, emotional, sexual, economic, and verbal abuse, and the techniques for stopping these types of abuse.

(D) Procedures to inform the victim regarding the requirements for the defendant’s participation in the intervention program as well as regarding available victim resources. The victim also shall be informed that attendance in any program does not guarantee that an abuser will not be violent.

(E) A requirement that the defendant attend group sessions free of chemical influence.

(F) Educational programming that examines, at a minimum, gender roles, socialization, the nature of violence, the dynamics of power and control, and the effects of abuse on children and others.

(G) A requirement that excludes any couple counseling or family counseling, or both.

(H) Procedures that give the program the right to assess whether or not the defendant would benefit from the program and to refuse to enroll the defendant if it is determined that the defendant would not benefit from the program, so long as the refusal is not because of the defendant’s inability to pay. If possible, the program shall suggest an appropriate alternative program.

(I) Program staff who, to the extent possible, have specific knowledge regarding, but not limited to, spousal abuse, child abuse, sexual abuse, substance abuse, the dynamics of violence and abuse, the law, and procedures of the legal system.

(J) Program staff who are encouraged to utilize the expertise, training, and assistance of local domestic violence centers.
(K) A requirement that the defendant enter into a written agreement with the program, which shall include an outline of the contents of the program, the attendance requirements, the requirement to attend group sessions free of chemical influence, and a statement that the defendant may be removed from the program if it is determined that the defendant is not benefiting from the program or is disruptive to the program.

(L) A requirement that the defendant sign a confidentiality statement prohibiting disclosure of any information obtained through participating in the program or during group sessions regarding other participants in the program.

(M) Program content that provides cultural and ethnic sensitivity.

(N) A requirement of a written referral from the court or probation department prior to permitting the defendant to enroll in the program. The written referral shall state the number of minimum sessions required by the court.

(O) Procedures for submitting to the probation department all of the following uniform written responses:
   (i) Proof of enrollment, to be submitted to the court and the probation department and to include the fee determined to be charged to the defendant, based upon the ability to pay, for each session.
   (ii) Periodic progress reports that include attendance, fee payment history, and program compliance.
   (iii) Final evaluation that includes the program’s evaluation of the defendant’s progress, using the criteria set forth in paragraph (4) of subdivision (a) and recommendation for either successful or unsuccessful termination or continuation in the program.

(P) A sliding fee schedule based on the defendant’s ability to pay. The batterer’s program shall develop and utilize a sliding fee scale that recognizes both the defendant’s ability to pay and the necessity of programs to meet overhead expenses. An indigent defendant may negotiate a deferred payment schedule, but shall pay a nominal fee, if the defendant has the ability to pay the nominal fee. Upon a hearing and a finding by the court that the defendant does not have the financial ability to pay the nominal fee, the court shall waive this fee. The payment of the fee shall be made a condition of probation if the court determines the defendant has the present ability to pay the fee. The fee shall be paid during the term of probation unless the program sets other conditions. The acceptance policies shall be in accordance with the scaled fee system.

(2) The court shall refer persons only to batterer’s programs that have been approved by the probation department pursuant to paragraph (5). The probation department shall do both of the following:

(A) Provide for the issuance of a provisional approval, provided that the applicant is in substantial compliance with applicable laws and
regulations and an urgent need for approval exists. A provisional approval shall be considered an authorization to provide services and shall not be considered a vested right.

(B) If the probation department determines that a program is not in compliance with standards set by the department, the department shall provide written notice of the noncompliant areas to the program. The program shall submit a written plan of corrections within 14 days from the date of the written notice on noncompliance. A plan of correction shall include, but not be limited to, a description of each corrective action and timeframe for implementation. The department shall review and approve all or any part of the plan of correction and notify the program of approval or disapproval in writing. If the program fails to submit a plan of correction or fails to implement the approved plan of correction, the department shall consider whether to revoke or suspend approval and, upon revoking or suspending approval, shall have the option to cease referrals of defendants under this section.

(3) No program, regardless of its source of funding, shall be approved unless it meets all of the following standards:

(A) The establishment of guidelines and criteria for education services, including standards of services that may include lectures, classes, and group discussions.

(B) Supervision of the defendant for the purpose of evaluating the person’s progress in the program.

(C) Adequate reporting requirements to ensure that all persons who, after being ordered to attend and complete a program, may be identified for either failure to enroll in, or failure to successfully complete, the program or for the successful completion of the program as ordered. The program shall notify the court and the probation department in writing within the period of time and in the manner specified by the court of any person who fails to complete the program. Notification shall be given if the program determines that the defendant is performing unsatisfactorily or if the defendant is not benefiting from the education, treatment, or counseling.

(D) No victim shall be compelled to participate in a program or counseling, and no program may condition a defendant’s enrollment on participation by the victim.

(4) In making referrals of indigent defendants to approved batterer’s programs, the probation department shall apportion these referrals evenly among the approved programs.

(5) The probation department shall have the sole authority to approve a batterer’s program for probation. The program shall be required to obtain only one approval but shall renew that approval annually.

(A) The procedure for the approval of a new or existing program shall include all of the following:
(i) The completion of a written application containing necessary and pertinent information describing the applicant program.

(ii) The demonstration by the program that it possesses adequate administrative and operational capability to operate a batterer’s treatment program. The program shall provide documentation to prove that the program has conducted batterer’s programs for at least one year prior to application. This requirement may be waived under subparagraph (A) of paragraph (2) if there is no existing batterer’s program in the city, county, or city and county.

(iii) The onsite review of the program, including monitoring of a session to determine that the program adheres to applicable statutes and regulations.

(iv) The payment of the approval fee.

(B) The probation department shall fix a fee for approval not to exceed two hundred fifty dollars ($250) and for approval renewal not to exceed two hundred fifty dollars ($250) every year in an amount sufficient to cover its cost in administering the approval process under this section. No fee shall be charged for the approval of local governmental entities.

(C) The probation department has the sole authority to approve the issuance, denial, suspension, or revocation of approval and to cease new enrollments or referrals to a batterer’s program under this section. The probation department shall review information relative to a program’s performance or failure to adhere to standards, or both. The probation department may suspend or revoke any approval issued under this subdivision or deny an application to renew an approval or to modify the terms and conditions of approval, based on grounds established by probation, including, but not limited to, either of the following:

(i) Violation of this section by any person holding approval or by a program employee in a program under this section.

(ii) Misrepresentation of any material fact in obtaining the approval.

(6) For defendants who are chronic users or serious abusers of drugs or alcohol, standard components in the program shall include concurrent counseling for substance abuse and violent behavior, and in appropriate cases, detoxification and abstinence from the abused substance.

(7) The program shall conduct an exit conference that assesses the defendant’s progress during his or her participation in the batterer’s program.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one
million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to protect victims of domestic violence and promote rehabilitation of batterers, it is necessary that this act take effect immediately.

CHAPTER 4

An act to repeal and add Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game Code, relating to natural community conservation planning, and making an appropriation therefor.

[Approved by Governor February 2, 2002. Filed with Secretary of State February 4, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10 (commencing with Section 2800) of Division 3 of the Fish and Game Code is repealed.

SEC. 2. Chapter 10 (commencing with Section 2800) is added to Division 3 of the Fish and Game Code, to read:

CHAPTER 10. NATURAL COMMUNITY CONSERVATION PLANNING ACT

2800. This chapter shall be known, and may be cited, as the Natural Community Conservation Planning Act.

2801. The Legislature finds and declares all of the following:

(a) The continuing population growth in California will result in increasing demands for dwindling natural resources and result in the continuing decline of the state’s wildlife.

(b) There is a need for broad-based planning to provide for effective protection and conservation of the state’s wildlife heritage while continuing to allow appropriate development and growth.

(c) Natural community conservation planning is an effective tool in protecting California’s natural diversity while reducing conflicts between protection of the state’s wildlife heritage and reasonable use of natural resources for economic development.

(d) Natural community conservation planning promotes coordination and cooperation among public agencies, landowners, and other private interests, provides a mechanism by which landowners and development proponents can effectively address cumulative impact concerns, promotes conservation of unfragmented habitat areas, promotes multispecies and multihabitat management and conservation, provides one option for identifying and ensuring appropriate mitigation that is roughly proportional to impacts on fish and wildlife, and promotes the conservation of broad-based natural communities and species diversity.

(e) Natural community conservation planning can provide for efficient use and protection of natural and economic resources while promoting greater sensitivity to important elements of the state’s critical natural diversity.
(f) Natural community conservation planning is a voluntary and effective planning process that can facilitate early coordination to protect the interests of the state, the federal government, and local public agencies, landowners, and other private parties.

(g) Natural community conservation planning is a mechanism that can provide an early planning framework for proposed development projects within the planning area in order to avoid, minimize, and compensate for project impacts to wildlife.

(h) Natural community conservation planning is consistent with, and will support, the fish and wildlife management activities of the department in its role as the trustee for fish and wildlife within the state.

(i) The purpose of natural community conservation planning is to sustain and restore those species and their habitat identified by the department that are necessary to maintain the continued viability of those biological communities impacted by human changes to the landscape.

(j) Natural community conservation planning is a cooperative process that often involves local, state, and federal agencies and the public, including landowners within the plan area. The process should encourage the active participation and support of landowners and others in the conservation and stewardship of natural resources in the plan area during plan development using appropriate measures, including incentives.

2802. The Legislature further finds and declares that it is the policy of the state to conserve, protect, restore, and enhance natural communities. It is the intent of the Legislature to acquire a fee or less than fee interest in lands consistent with approved natural community conservation plans and to provide assistance with the implementation of those plans.

2805. The definitions in this section govern the construction of this chapter:

(a) “Adaptive management” means to use the results of new information gathered through the monitoring program of the plan and from other sources to adjust management strategies and practices to assist in providing for the conservation of covered species.

(b) “Changed circumstances” are reasonably foreseeable circumstances that could affect a covered species or geographic area covered by the plan.

(c) “Conserve,” “conserving,” and “conservation” mean to use, and the use of, methods and procedures within the plan area that are necessary to bring any covered species to the point at which the measures provided pursuant to Chapter 1.5 (commencing with Section 2050) are not necessary, and for covered species that are not listed pursuant to Chapter 1.5 (commencing with Section 2050), to maintain or enhance
the condition of a species so that listing pursuant to Chapter 1.5 (commencing with Section 2050) will not become necessary.

(d) “Covered species” means those species, both listed pursuant to Chapter 1.5 (commencing with Section 2050) and nonlisted, conserved and managed under an approved natural community conservation plan and that may be authorized for take.

(e) “Department assurance” means the department’s commitment pursuant to subdivision (f) of Section 2820.

(f) “Monitoring program” means a program within an approved natural community conservation plan that provides periodic evaluations of monitoring results to assess the adequacy of the mitigation and conservation strategies or activities and to provide information to direct the adaptive management program. The monitoring program shall, to the extent practicable, also be used to meet the monitoring requirements of Section 21081.6 of the Public Resources Code. A monitoring program includes all of the following:

(1) Surveys to determine the status of biological resources addressed by the plan, including covered species.

(2) Periodic accountings and assessment of authorized take.

(3) Progress reports on all of the following matters:
   (A) Establishment of habitat reserves or other measures that provide equivalent conservation of covered species and providing funding where applicable.
   (B) Compliance with the plan and the implementation agreement by the wildlife agencies, local governments, and landowners who have responsibilities under the plan.
   (C) Measurements to determine if mitigation and conservation measures are being implemented roughly proportional in time and extent to the impact on habitat or covered species authorized under the plan.
   (D) Evaluation of the effectiveness of the plan in meeting the conservation objectives of the plan.
   (E) Maps of land use changes in the plan area that may affect habitat values or covered species.

(4) A schedule for conducting monitoring activities.

(g) “Natural community conservation plan” or “plan” means the plan prepared pursuant to a planning agreement entered into in accordance with subdivision (a) of Section 2810. The plan shall identify and provide for those measures necessary to conserve and manage natural biological diversity within the plan area while allowing compatible and appropriate economic development, growth, and other human uses.

(h) “Person” has the same meaning as defined in Section 711.2.

(i) “Plan participant,” prior to approval of a natural community conservation plan and execution of an implementation agreement,
means a signatory to the planning agreement. Upon approval of a natural community conservation plan and execution of an implementation agreement, plan participants and any local agency that is a signatory to the implementing agreement are the permittees.

(j) “Unforeseen circumstances” means changes affecting one or more species, habitat, natural community, or the geographic area covered by a conservation plan that could not reasonably have been anticipated at the time of plan development, and that result in a substantial adverse change in the status of one or more covered species.

(k) “Wildlife” has the same meaning as defined in Section 711.2.

(l) “Wildlife agencies” means the department and one or both of the following:

(1) United States Fish and Wildlife Service.

(2) National Marine Fisheries Service.

2809. Any person, or any local, state, or federal agency, independently, or in cooperation with other persons, may undertake natural community conservation planning.

2810. (a) The department may enter into an agreement with any person or public entity for the purpose of preparing a natural community conservation plan, in cooperation with a local agency that has land use permit authority over the activities proposed to be addressed in the plan, to provide comprehensive management and conservation of multiple wildlife species, including, but not limited to, those species listed pursuant to Article 2 (commencing with Section 2070) of Chapter 1.5. The agreement shall include a provision specifying the amount of compensation, if any, payable to the department pursuant to Section 2829.

(b) The agreement shall meet all of the following conditions:

(1) The agreement shall be binding upon the department, other participating federal, state, and local agencies, and participating private landowners.

(2) The agreement shall define the geographic scope of the conservation planning area.

(3) The agreement shall identify a preliminary list of those natural communities, and the endangered, threatened, candidate, or other species known, or reasonably expected to be found, in those communities, that are intended to be the initial focus of the plan.

(4) The agreement shall identify preliminary conservation objectives for the planning area.

(5) The agreement shall establish a process for the inclusion of independent scientific input to assist the department and plan participants, and to do all of the following:

(A) Recommend scientifically sound conservation strategies for species and natural communities proposed to be covered by the plan.
(B) Recommend a set of reserve design principles that addresses the needs of species, landscapes, ecosystems, and ecological processes in the planning area proposed to be addressed by the plan.

(C) Recommend management principles and conservation goals that can be used in developing a framework for the monitoring and adaptive management component of the plan.

(D) Identify data gaps and uncertainties so that risk factors can be evaluated.

(6) The agreement shall require coordination with federal wildlife agencies with respect to the federal Endangered Species Act (16 U.S.C. Sec. 1531 et seq.).

(7) The agreement shall encourage concurrent planning for wetlands and waters of the United States.

(8) The agreement shall establish an interim process during plan development for project review wherein discretionary projects within the plan area subject to Division 13 (commencing with Section 21000) of the Public Resources Code that potentially conflict with the preliminary conservation objectives in the planning agreement are reviewed by the department prior to, or as soon as possible after the project application is deemed complete pursuant to Section 65943 of the Government Code and the department recommends mitigation measures or project alternatives that would help achieve the preliminary conservation objectives. As part of this process, information developed pursuant to paragraph (5) of subdivision (b) of Section 2810 shall be taken into consideration by the department and plan participants. Any take of candidate, threatened, or endangered species that occurs during this interim period shall be included in the analysis of take to be authorized under an approved plan. Nothing in this paragraph is intended to authorize take of candidate, protected, or endangered species.

(9) The agreement shall establish a process for public participation throughout the plan development and review pursuant to Section 2815.

(c) The approval of the planning agreement is not a project pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code.

(d) Prior to department approval of the planning agreement, the public shall have 21 calendar days to review and comment on the proposed planning agreement.

2815. The department shall establish, in cooperation with the parties to the planning agreement, a process for public participation throughout plan development and review to ensure that interested persons, including landowners, have an adequate opportunity to provide input to lead agencies, state and federal wildlife agencies, and others involved in preparing the plan. The public participation objectives of this section may be achieved through public working groups or advisory
committees, established early in the process. This process shall include all of the following:

(a) A requirement that draft documents associated with a natural community conservation plan that are being considered for adoption by the plan lead agency shall be available for public review and comment for at least 60 days prior to the adoption of that draft document. Preliminary public review documents shall be made available by the plan lead agency at least 10 working days prior to any public hearing addressing these documents. The review period specified in this subdivision may run concurrently with the review period provided for any document required by the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) that is associated with the natural community conservation plan. This subdivision shall not be construed to limit the discretion of a public agency to revise any draft documents at a public hearing.

(b) A requirement to make available in a reasonable and timely manner all draft plans, memoranda of understanding, maps, conservation guidelines, species coverage lists, and other planning documents associated with a natural community conservation plan that are subject to public review.

(c) A requirement that all public hearings held during plan preparation or review for approval are complementary to, or integrated with, those hearings otherwise provided by law.

(d) An outreach program to provide access to information for persons interested in the plan, including landowners, with an emphasis on obtaining input from a balanced variety of affected public and private interests, including state and local governments, county agricultural commissioners, agricultural organizations, landowners, conservation organizations, and the general public.

2820. (a) The department shall approve a natural community conservation plan for implementation after making the following findings, based upon substantial evidence in the record:

1) The plan has been developed consistent with the process identified in the planning agreement entered into pursuant to Section 2810.

2) The plan integrates adaptive management strategies that are periodically evaluated and modified based on the information from the monitoring program and other sources, which will assist in providing for the conservation of covered species and ecosystems within the plan area.

3) The plan provides for the protection of habitat, natural communities, and species diversity on a landscape or ecosystem level through the creation and long-term management of habitat reserves or other measures that provide equivalent conservation of covered species appropriate for land, aquatic, and marine habitats within the plan area.
(4) The development of reserve systems and conservation measures in the plan area provides, as needed for the conservation of species, all of the following:

(A) Conserving, restoring, and managing representative natural and seminatural landscapes to maintain the ecological integrity of large habitat blocks, ecosystem function, and biological diversity.

(B) Establishing one or more reserves or other measures that provide equivalent conservation of covered species within the plan area and linkages between them and adjacent habitat areas outside of the plan area.

(C) Protecting and maintaining habitat areas that are large enough to support sustainable populations of covered species.

(D) Incorporating a range of environmental gradients (such as slope, elevation, aspect, and coastal or inland characteristics) and high habitat diversity to provide for shifting species distributions due to changed circumstances.

(E) Sustaining the effective movement and interchange of organisms between habitat areas in a manner that maintains the ecological integrity of the habitat areas within the plan area.

(5) The plan identifies activities, and any restrictions on those activities, allowed within reserve areas that are compatible with the conservation of species, habitats, natural communities, and their associated ecological functions.

(6) The plan contains specific conservation measures that meet the biological needs of covered species and that are based upon the best available scientific information regarding the status of covered species and the impacts of permitted activities on those species.

(7) The plan contains a monitoring program.

(8) The plan contains an adaptive management program.

(9) The plan includes the estimated timeframe and process by which the reserves or other conservation measures are to be implemented, including obligations of landowners and plan signatories and consequences of the failure to acquire lands in a timely manner.

(10) The plan contains provisions that ensure adequate funding to carry out the conservation actions identified in the plan.

(b) A natural community conservation plan approved pursuant to this section shall include an implementation agreement that contains all of the following:

(1) Provisions defining species coverage, including any conditions of coverage.

(2) Provisions for establishing the long-term protection of any habitat reserve or other measures that provide equivalent conservation of covered species.
(3) Specific terms and conditions, which, if violated, would result in the suspension or revocation of the permit, in whole or in part. The department shall include a provision requiring notification to the plan participant of a specified period of time to cure any default prior to suspension or revocation of the permit in whole or in part. These terms and conditions shall address, but are not limited to, provisions specifying the actions the department shall take under all of the following circumstances:

(A) If the plan participant fails to provide adequate funding.

(B) If the plan participant fails to maintain the rough proportionality between impacts on habitat or covered species and conservation measures.

(C) If the plan participant adopts, amends, or approves any plan or project without the concurrence of the wildlife agencies that is inconsistent with the objectives and requirements of the approved plan.

(D) If the level of take exceeds that authorized by the permit.

(4) Provisions specifying procedures for amendment of the plan and the implementation agreement.

(5) Provisions ensuring implementation of the monitoring program and adaptive management program.

(6) Provisions for oversight of plan implementation for purposes of assessing mitigation performance, funding, and habitat protection measures.

(7) Provisions for periodic reporting to the wildlife agencies and the public for purposes of information and evaluation of plan progress.

(8) Mechanisms to ensure adequate funding to carry out the conservation actions identified in the plan.

(9) Provisions to ensure that implementation of mitigation and conservation measures on a plan basis is roughly proportional in time and extent to the impact on habitat or covered species authorized under the plan. These provisions shall identify the conservation measures, including assembly of reserves where appropriate and implementation of monitoring and management activities, that will be maintained or carried out in rough proportion to the impact on habitat or covered species and the measurements that will be used to determine if this is occurring.

(c) If a plan participant does not maintain the proportionality between take and conservation measures specified in the implementation agreement and does not either cure the default within 45 days or enter into an agreement with the department within 45 days to expeditiously cure the default, the department shall suspend or revoke the permit, in whole or in part.

(d) Any data and reports associated with the monitoring program required by this section shall be available for public review. The entity
managing the plan shall also conduct public workshops on an annual basis to provide information and evaluate progress toward attaining the conservation objectives of the plan.

(e) To the extent provided pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code and any guidelines adopted pursuant thereto, if the impacts on one or more covered species and its habitat are analyzed and mitigated pursuant to a program environmental impact report for a plan adopted pursuant to this chapter, a plan participant that is a lead agency or a responsible agency under that division shall incorporate in the review of any subsequent project in the plan area the feasible mitigation measures and alternatives related to the biological impacts on covered species and their habitat developed in the program environmental impact report.

(f) The department may provide assurances for plan participants commensurate with long-term conservation assurances and associated implementation measures pursuant to the approved plan.

1) When providing assurances pursuant to this subdivision, the department’s determination of the level of assurances and the time limits specified in the implementation agreement for assurances may be based on localized conditions and shall consider all of the following:

(A) The level of knowledge of the status of the covered species and natural communities.

(B) The adequacy of analysis of the impact of take on covered species.

(C) The use of the best available science to make assessments about the impacts of take, the reliability of mitigation strategies, and the appropriateness of monitoring techniques.

(D) The appropriateness of the size and duration of the plan with respect to quality and amount of data.

(E) The sufficiency of mechanisms for long-term funding of all components of the plan and contingencies.

(F) The degree of coordination and accessibility of centralized data for analysis and evaluation of the effectiveness of the plan.

(G) The degree to which a thorough range of foreseeable circumstances are considered and provided for under the adaptive management program.

(H) The size and duration of the plan.

2) If there are unforeseen circumstances, additional land, water, or financial compensation or additional restrictions on the use of land, water, or other natural resources shall not be required without the consent of plan participants for a period of time specified in the implementation agreement, unless the department determines that the plan is not being implemented consistent with the substantive terms of the implementation agreement.
2821. Concurrent with the approval by the department of a final natural community conservation plan, the department shall do both of the following:

(a) Establish a list of species that are authorized for take pursuant to Section 2835 and the department shall make specific findings to support coverage pursuant to Section 2820. For purposes of determining whether a species should receive coverage under a plan, the department shall use, in addition to the standards required for the adoption of a plan, one or more of the following criteria:

(1) Coverage is warranted based upon regional or landscape level consideration, such as healthy population levels, widespread distribution throughout the plan area, and life history characteristics that respond to habitat-scale conservation and management actions.

(2) Coverage is warranted based on regional or landscape level considerations with site specific conservation and management requirements that are clearly identified in the plan for species that are generally well-distributed, but that have core habitats that must be conserved.

(3) Coverage is warranted based upon site specific considerations and the identification of specific conservation and management conditions for species within a narrowly defined habitat or limited geographic area within the plan area.

(b) Find that the mitigation measures specified in the plan and imposed by the plan participants are consistent with subdivision (d) of Section 2801.

2822. The department may seek injunctive relief against any plan participant, person, or entity to enforce this chapter.

2823. The department shall suspend or revoke any permit, in whole or in part, issued for the take of a species subject to Section 2835 if the continued take of the species would result in jeopardizing the continued existence of the species.

2825. The department may adopt regulations for the development and implementation of natural community conservation plans consistent with this chapter.

2826. Nothing in this chapter exempts a project proposed in a natural community conservation planning area from Division 13 (commencing with Section 21000) of the Public Resources Code or otherwise alters or affects the applicability of that division.

2827. To the extent practicable, implementation of natural community conservation plans shall use the services of either the California Conservation Corps or local community conservation corps.

2828. Nothing in this chapter prohibits a local government from exercising any power or authority granted to it pursuant to state law to acquire land or water to implement a plan.
2829. (a) The department may be compensated for the actual costs incurred in participating in the preparation and implementation of natural community conservation plans. These costs may include consultation with other parties to agreements authorized by Section 2810, providing and compiling wildlife and wildlife habitat data, reviewing and approving the final plan, monitoring implementation of the plan, and other activities necessary to the preparation and implementation of a plan.

(b) The department may be compensated for those expenses identified in subdivision (a) according to a schedule in the agreement authorized by Section 2810.

2830. Nothing in this chapter prohibits the taking or the incidental take of any identified species if the taking is authorized by the department pursuant to any of the following:

(a) A natural community conservation plan or amended plan approved by the department prior to January 1, 2002. Any permits, plans, implementation agreements, and amendments to those permits, plans, or implementation agreements described in this section are deemed to be in full force and effect as of the date approved or entered into by the parties insofar as they authorize the take of identified species pursuant to an approved natural community conservation plan and shall be governed solely by former Chapter 10 (commencing with Section 2800) as it read on December 31, 2001.

(b) Any natural community conservation plan, or subarea plan, approved, or amended on or after January 1, 2002, for which a planning or enrollment agreement meets any of the following criteria, which shall be solely governed in accordance with former Chapter 10 (commencing with Section 2800) as it read on December 31, 2001:

1. The natural community conservation plan was entered into between the department and plan participants prior to January 1, 2001, and is carried out pursuant to Rule 4(d) for the California Gnatcatcher (Federal Register Volume 58, December 10, 1993), including the southern subregion of Orange County.

2. The natural community conservation plan was prepared pursuant to the planning agreement for the San Diego Multiple Species Conservation Plan.

3. The natural community conservation plan was prepared pursuant to the planning agreement for the San Diego Multiple Habitat Conservation Plan.

(c) Any programmatic natural community conservation plan approved by the department on or before January 1, 2002.

(d) Any natural community conservation plan developed pursuant to a planning or enrollment agreement executed on or before January 1, 2001, and for which the department finds that the plan has been
developed using a public participation and scientific analysis process substantially in conformance with the intent of paragraph (5) of subdivision (b) of Section 2810 and Section 2815.

(e) Any natural community conservation plan developed pursuant to a planning agreement executed on or before January 1, 2002, and which the department finds is in substantial compliance with Section 2820.

2835. At the time of plan approval, the department may authorize by permit the taking of any covered species whose conservation and management is provided for in a natural community conservation plan approved by the department.

CHAPTER 5

An act to amend Section 19775.17 of, and to add Section 19775.18 to, the Government Code, relating to state employees, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor February 13, 2002. Filed with Secretary of State February 13, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Section 19775.17 of the Government Code is amended to read:

19775.17. (a) In addition to the benefits provided pursuant to Sections 19775 and 19775.1, a state employee who, as a member of the California National Guard or a United States military reserve organization, is ordered to active duty by Presidential determination that it is necessary to augment the active forces for any operational mission, or when in time of national emergency declared by the President or otherwise authorized by law, shall have the benefits provided for in subdivision (b).

(b) Any state employee to which subdivision (a) applies, while on active duty, shall receive from the state, for the duration of the event as authorized pursuant to Sections 12302 and 12304 of Title 10 of the United States Code, but not to exceed 180 calendar days, as part of his or her compensation both of the following:

(1) The difference between the amount of his or her military pay and allowances and the amount the employee would have received as a state employee, including any merit raises that would otherwise have been granted during the time the individual was on active duty. The amount an employee, as defined in Section 18526, would have received as a state employee, including any merit raises that would otherwise have been
granted during the time the individual was on active duty, shall be
determined by the Department of Personnel Administration.

(2) All benefits that he or she would have received had he or she not
served on active duty unless the benefits are prohibited or limited by
vendor contracts.

(c) Any individual receiving compensation pursuant to subdivision
(b) who does not reinstate to state service following active duty, shall
have that compensation treated as a loan payable with interest at the rate
earned on the Pooled Money Investment Account. This subdivision shall
not apply to compensation received pursuant to Section 19775.

(d) Benefits provided under paragraph (1) of subdivision (b) shall
only be provided to a state employee who was not eligible to participate
in a federally sponsored income protection program for National Guard
personnel or military reserve personnel, or both, called into active duty,
as determined by the Department of Personnel Administration. For a
state employee eligible to participate in a federally sponsored income
protection program, and whose monthly salary as a state employee was
higher than the sum of his or her military pay and allowances and the
maximum allowable benefit under the federally sponsored income
protection program, the state employee shall receive the amount payable
under paragraph (1) of subdivision (b), but that amount shall be reduced
by the maximum allowable benefit under the federally sponsored
income protection program. For individuals who elected the federally
sponsored income protection program, the state shall reimburse for the
cost of the insurance premium for the period of time on active duty, not
to exceed 180 calendar days.

(e) For purposes of this section, "state employee" means an
employee as defined in Section 18526 or an officer or employee of the
legislative, executive, or judicial department of the state.

(f) This section shall not apply to any state employee entitled to
additional compensation or benefits pursuant to Section 19775.16 or
Section 19775.18 of this code, or Section 395.08 of the Military and
Veterans Code.

SEC. 2. Section 19775.18 is added to the Government Code, to read:
19775.18. (a) In addition to the benefits provided pursuant to
Sections 19775 and 19775.1, a state employee who, as a member of the
California National Guard or a United States military reserve
organization, is ordered to active duty on and after September 11, 2001,
as a result of the War on Terrorism, shall have the benefits provided for
in subdivision (b).

(b) Any state employee to which subdivision (a) applies, while on
active duty, shall receive from the state, for the duration of the event
known as the War on Terrorism, as authorized pursuant to Sections
12302 and 12304 of Title 10 of the United States Code, but not to exceed
365 calendar days, as part of his or her compensation both of the following:

(1) The difference between the amount of his or her military pay and allowances and the amount the employee would have received as a state employee, including any merit raises that would otherwise have been granted during the time the individual was on active duty. The amount an employee, as defined in Section 18526, would have received as a state employee, including any merit raises that would otherwise have been granted during the time the individual was on active duty, shall be determined by the Department of Personnel Administration.

(2) All benefits that he or she would have received had he or she not served on active duty unless the benefits are prohibited or limited by vendor contracts.

(c) Any individual receiving compensation pursuant to subdivision (b) who does not reinstate to state service following active duty, shall have that compensation treated as a loan payable with interest at the rate earned on the Pooled Money Investment Account. This subdivision shall not apply to compensation received pursuant to Section 19775.

(d) Benefits provided under paragraph (1) of subdivision (b) shall only be provided to a state employee who was not eligible to participate in a federally sponsored income protection program for National Guard personnel or military reserve personnel, or both, called into active duty, as determined by the Department of Personnel Administration. For a state employee eligible to participate in a federally sponsored income protection program, and whose monthly salary as a state employee was higher than the sum of his or her military pay and allowances and the maximum allowable benefit under the federally sponsored income protection program, the state employee shall receive the amount payable under paragraph (1) of subdivision (b), but that amount shall be reduced by the maximum allowable benefit under the federally sponsored income protection program. For individuals who elected the federally sponsored income protection program, the state shall reimburse for the cost of the insurance premium for the period of time on active duty, not to exceed 365 calendar days.

(e) For purposes of this section, "state employee" means an employee as defined in Section 18526 or an officer or employee of the legislative, executive, or judicial department of the state.

(f) This section shall not apply to any state employee entitled to additional compensation or benefits pursuant to Section 19775.16 or Section 19775.17 of this code, or Section 395.08 of the Military and Veterans Code.

(g) This section shall not apply to any active duty served after the close of the War on Terrorism.
SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide benefits to state employees who have been called to serve on active duty for the War on Terrorism as soon as possible, it is necessary that this act take effect immediately.

[Approved by Governor February 15, 2002. Filed with Secretary of State February 19, 2002.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:
(a) The prevention of workplace injuries and illnesses is an essential component of California’s workers’ compensation system.
(b) The provision of loss control services by insurers is an important tool in preventing injuries.
(c) The development and use of injury and illness prevention education programs also help reduce unnecessary injuries and illnesses.
(d) The certification program funded by the Loss Control Certification Fund is ineffective and should be redirected to more useful injury prevention programs.
(e) All existent funding available in, and all current fees used to maintain, the Loss Control Certification Fund should be used to
establish the Loss Control Ombudsperson Fund and the Workers’ Occupational Safety and Health Education Fund.

SEC. 2. Section 9109 of the Commercial Code is amended to read:

9109. (a) Except as otherwise provided in subdivisions (c) and (d), this division applies to each of the following:

(1) A transaction, regardless of its form, that creates a security interest in personal property or fixtures by contract.
(2) An agricultural lien.
(3) A sale of accounts, chattel paper, payment intangibles, or promissory notes.
(4) A consignment.
(5) A security interest arising under Section 2401 or 2505, or under subdivision (3) of Section 2711, or subdivision (5) of Section 10508, as provided in Section 9110.
(6) A security interest arising under Section 4210 or 5118.

(b) The application of this division to a security interest in a secured obligation is not affected by the fact that the obligation is itself secured by a transaction or interest to which this division does not apply.

(c) This division does not apply to the extent that any of the following conditions is satisfied:

(1) A statute, regulation, or treaty of the United States preempts this division.
(2) Another statute of this state expressly governs the creation, perfection, priority, or enforcement of a security interest created by this state or a governmental unit of this state. These statutes include statutes that provide for pledges, liens, or security interests to secure bonds or other obligations (including, without limitation, leases) of this state or a governmental unit, whether the statute is of general application like Sections 5450 and 5451 of the Government Code, or is specific to particular types of obligations of this state or of governmental units or to particular governmental units.
(3) A statute of another state, a foreign country, or a governmental unit of another state or a foreign country, other than a statute generally applicable to security interests, expressly governs creation, perfection, priority, or enforcement of a security interest created by the state, country, or governmental unit.
(4) The rights of a transferee beneficiary or nominated person under a letter of credit are independent and superior under Section 5114.

(d) This division does not apply to any of the following:

(1) A landlord’s lien, other than an agricultural lien.
(2) A lien, other than an agricultural lien, given by statute or other rule of law for services or materials, but Section 9333 applies with respect to priority of the lien.

(7) An assignment of a single account, payment intangible, or promissory note to an assignee in full or partial satisfaction of a preexisting indebtedness.

(8) Any loan made by an insurance company pursuant to the provisions of a policy or contract issued by it and upon the sole security of the policy or contract.

(9) An assignment of a right represented by a judgment, other than a judgment taken on a right to payment that was collateral.

(10) A right of recoupment or setoff, provided that both of the following sections apply:

    (A) Section 9340 applies with respect to the effectiveness of rights of recoupment or setoff against deposit accounts.

    (B) Section 9404 applies with respect to defenses or claims of an account debtor.

(11) The creation or transfer of an interest in or lien on real property, including a lease or rents thereunder, except to the extent that provision is made for each of the following:

    (A) Liens on real property in Sections 9203 and 9308.

    (B) Fixtures in Section 9334.

    (C) Fixture filings in Sections 9501, 9502, 9512, 9516, and 9519.

(15) Transition property, as defined in Section 840 of the Public Utilities Code, except to the extent that the provisions of this division are referred to in Article 5.5 (commencing with Section 840) of Chapter 4 of Part 1 of Division 1 of the Public Utilities Code.
(16) A claim or right of an employee or employee’s dependents to receive workers’ compensation under Division 1 (commencing with Section 50) or Division 4 (commencing with Section 3200) of the Labor Code.

SEC. 2.5. Section 1871 of the Insurance Code is amended to read:

1871. The Legislature finds and declares as follows:

(a) The business of insurance involves many transactions that have the potential for abuse and illegal activities. There are numerous law enforcement agencies on the state and local levels charged with the responsibility for investigating and prosecuting fraudulent activity. This chapter is intended to permit the full utilization of the expertise of the commissioner and the department so that they may more effectively investigate and discover insurance frauds, halt fraudulent activities, and assist and receive assistance from federal, state, local, and administrative law enforcement agencies in the prosecution of persons who are parties in insurance frauds.

(b) Insurance fraud is a particular problem for automobile policyholders; fraudulent activities account for 15 to 20 percent of all auto insurance payments. Automobile insurance fraud is the biggest and fastest growing segment of insurance fraud and contributes substantially to the high cost of automobile insurance with particular significance in urban areas.

(c) Prevention of automobile insurance fraud will significantly reduce the incidence of severity and automobile insurance claim payments and will therefore produce a commensurate reduction in automobile insurance premiums.

(d) Workers’ compensation fraud harms employers by contributing to the increasingly high cost of workers’ compensation insurance and self-insurance and harms employees by undermining the perceived legitimacy of all workers’ compensation claims.

(e) Prevention of workers’ compensation insurance fraud may reduce the number of workers’ compensation claims and claim payments thereby producing a commensurate reduction in workers’ compensation costs. Prevention of workers’ compensation insurance fraud will assist in restoring confidence and faith in the workers’ compensation system, and will facilitate expedient and full compensation for employees injured at the workplace.

(f) The actions of employers who fraudulently underreport payroll or fail to report payroll for all employees to their insurance company in order to pay a lower workers’ compensation premium result in significant additional premium costs and an unfair burden to honest employers and their employees.

(g) The actions of employers who fraudulently fail to secure the payment of workers’ compensation as required by Section 3700 of the
Labor Code harm employees, cause unfair competition for honest employers, and increase costs to taxpayers.

(h) Health insurance fraud is a particular problem for health insurance policyholders. Although there are no precise figures, it is believed that fraudulent activities account for billions of dollars annually in added health care costs nationally. Health care fraud causes losses in premium dollars and increases health care costs unnecessarily.

SEC. 2.7. Section 1871.4 of the Insurance Code is amended to read:

1871.4. (a) It is unlawful to do any of the following:

(1) Make or cause to be made any knowingly false or fraudulent material statement or material representation for the purpose of obtaining or denying any compensation, as defined in Section 3207 of the Labor Code.

(2) Present or cause to be presented any knowingly false or fraudulent written or oral material statement in support of, or in opposition to, any claim for compensation for the purpose of obtaining or denying any compensation, as defined in Section 3207 of the Labor Code.

(3) Knowingly assist, abet, conspire with, or solicit any person in an unlawful act under this section.

(4) Make or cause to be made any knowingly false or fraudulent statements with regard to entitlement to benefits with the intent to discourage an injured worker from claiming benefits or pursuing a claim.

For the purposes of this subdivision, “statement” includes, but is not limited to, any notice, proof of injury, bill for services, payment for services, hospital or doctor records, X-ray, test results, medical-legal expense as defined in Section 4620 of the Labor Code, other evidence of loss, injury, or expense, or payment.

(5) Make or cause to be made any knowingly false or fraudulent material statement or material representation for the purpose of obtaining or denying any of the benefits or reimbursement provided in the Return-to-Work Program established under Section 139.48 of the Labor Code.

(6) Make or cause to be made any knowingly false or fraudulent material statement or material representation for the purpose of discouraging an employer from claiming any of the benefits or reimbursement provided in the Return-to-Work Program established under Section 139.48 of the Labor Code.

(b) Every person who violates subdivision (a) shall be punished by imprisonment in county jail for one year, or in the state prison, for two, three, or five years, or by a fine not exceeding fifty thousand dollars ($50,000) or double the value of the fraud, whichever is greater, or by both imprisonment and fine. Restitution shall be ordered, including restitution for any medical evaluation or treatment services obtained or
provided. The court shall determine the amount of restitution and the person or persons to whom the restitution shall be paid.

(c) Any person who violates subdivision (a) and who has a prior felony conviction of that subdivision, of former Section 556, of former Section 1871.1, or of Section 548 or 550 of the Penal Code, shall receive a two-year enhancement for each prior conviction in addition to the sentence provided in subdivision (b).

The existence of any fact that would subject a person to a penalty enhancement shall be alleged in the information or indictment and either admitted by the defendant in open court, or found to be true by the jury trying the issue of guilt or by the court where guilt is established by plea of guilty or nolo contendere or by trial by the court sitting without a jury.

(d) This section shall not be construed to preclude the applicability of any other provision of criminal law that applies or may apply to any transaction.

SEC. 3. Section 1872.83 of the Insurance Code is amended to read:

1872.83. (a) The commissioner shall ensure that the Bureau of Fraudulent Claims aggressively pursues all reported incidents of probable workers’ compensation fraud, as defined in Sections 11760 and 11880, in subdivision (a) of Section 1871.4, and in Section 549 of the Penal Code, and forwards to the appropriate disciplinary body the names, along with all supporting evidence, of any individuals licensed under the Business and Professions Code who are suspected of actively engaging in fraudulent activity. The Bureau of Fraudulent Claims shall forward to the Insurance Commissioner or the Director of Industrial Relations, as appropriate, the name, along with all supporting evidence, of any insurer, as defined in subdivision (c) of Section 1877.1, suspected of actively engaging in the fraudulent denial of claims.

(b) To fund increased investigation and prosecution of workers’ compensation fraud, and of willful failure to secure payment of workers’ compensation, in violation of Section 3700.5 of the Labor Code, there shall be an annual assessment as follows:

(1) The aggregate amount of the assessment shall be determined by the Fraud Assessment Commission, which is hereby established. The commission shall be composed of seven members consisting of two representatives of organized labor, two representatives of self-insured employers, one representative of insured employers, one representative of workers’ compensation insurers, and the President of the State Compensation Insurance Fund, or his or her designee.

The Governor shall appoint members representing organized labor, self-insured employers, insured employers, and insurers. The term of office of members of the commission shall be four years, and a member shall hold office until the appointment of a successor. The President of the State Compensation Insurance Fund shall be an ex officio, voting
member of the commission. Members of the commission shall receive one hundred dollars ($100) for each day of actual attendance at commission meetings and other official commission business, and shall also receive their actual and necessary traveling expenses incurred in the performance of commission duties. Payment of per diem and travel expenses shall be made from the Workers’ Compensation Fraud Account in the Insurance Fund, established in paragraph (4), upon appropriation by the Legislature.

(2) In determining the aggregate amount of the assessment, the Fraud Assessment Commission shall consider the advice and recommendations of the Bureau of Fraudulent Claims and the commissioner.

(3) The aggregate amount of the assessment shall be collected by the Director of Industrial Relations pursuant to Section 62.6 of the Labor Code. The Fraud Assessment Commission shall annually advise the Director of Industrial Relations, not later than March 15, of the aggregate amount to be assessed for the next fiscal year.

(4) The amount collected, together with the fines collected for violations of the unlawful acts specified in Sections 1871.4, 11760, and 11880, Section 3700.5 of the Labor Code, and Section 549 of the Penal Code, shall be deposited in the Workers’ Compensation Fraud Account in the Insurance Fund, which is hereby created, and may be used, upon appropriation by the Legislature, only for enhanced investigation and prosecution of workers’ compensation fraud and of willful failure to secure payment of workers’ compensation as provided in this section.

(c) For each fiscal year, the total amount of revenues derived from the assessment pursuant to subdivision (b) shall, together with amounts collected pursuant to fines imposed for unlawful acts described in Sections 1871.4, 11760, and 11880, Section 3700.5 of the Labor Code, and Section 549 of the Penal Code, not be less than three million dollars ($3,000,000). Any funds appropriated by the Legislature pursuant to subdivision (b) that are not expended in the fiscal year for which they have been appropriated, and that have not been allocated under subdivision (f), shall be applied to satisfy for the immediately following fiscal year the minimum total amount required by this subdivision. In no case may that money be transferred to the General Fund.

(d) After incidental expenses, at least 40 percent of the funds to be used for the purposes of this section shall be provided to the Bureau of Fraudulent Claims of the Department of Insurance for enhanced investigative efforts, and at least 40 percent of the funds shall be distributed to district attorneys, pursuant to a determination by the commissioner with the advice and consent of the bureau and the Fraud Assessment Commission, as to the most effective distribution of moneys for purposes of the investigation and prosecution of workers’
compensation fraud cases and cases relating to the willful failure to secure the payment of workers’ compensation. Each district attorney seeking a portion of the funds shall submit to the commissioner an application setting forth in detail the proposed use of any funds provided. A district attorney receiving funds pursuant to this subdivision shall submit an annual report to the commissioner with respect to the success of his or her efforts. Upon receipt, the commissioner shall provide copies to the bureau and the Fraud Assessment Commission of any application, annual report, or other documents with respect to the allocation of money pursuant to this subdivision. Both the application for moneys and the distribution of moneys shall be public documents. Information submitted to the commissioner pursuant to this section concerning criminal investigations, whether active or inactive, shall be confidential.

(e) If a district attorney is determined by the commissioner to be unable or unwilling to investigate and prosecute workers’ compensation fraud claims or claims relating to the willful failure to secure the payment of workers’ compensation, the commissioner shall discontinue distribution of funds allocated for that county and may redistribute those funds according to this subdivision.

(1) The commissioner shall promptly determine whether any other county could assert jurisdiction to prosecute the fraud claims or claims relating to the willful failure to secure the payment of workers’ compensation that would have been brought in the nonparticipating county, and if so, the commissioner may award funds to conduct the prosecutions redirected pursuant to this subdivision. These funds may be in addition to any other fraud prosecution funds or claims relating to the willful failure to secure the payment of workers’ compensation prosecution otherwise awarded under this section. Any district attorney receiving funds pursuant to this subdivision shall first agree that the funds shall be used solely for investigating and prosecuting those cases of workers’ compensation fraud or claims relating to the willful failure to secure the payment of workers’ compensation that are redirected pursuant to this subdivision and submit an annual report to the commissioner with respect to the success of the district attorney’s efforts. The commissioner shall keep the Fraud Assessment Commission fully informed of all reallocations of funds under this paragraph.

(2) If the commissioner determines that no district attorney is willing or able to investigate and prosecute the workers’ compensation fraud claims or claims relating to the willful failure to secure the payment of workers’ compensation arising in the nonparticipating county, the commissioner, with the advice and consent of the Fraud Assessment Commission, may award to the Attorney General some or all of the funds previously awarded to the nonparticipating county. Before the
commissioner may award any funds, the Attorney General shall submit to the commissioner an application setting forth in detail his or her proposed use of any funds provided and agreeing that any funds awarded shall be used solely for investigating and prosecuting those cases of workers’ compensation fraud or claims relating to the willful failure to secure the payment of workers’ compensation that are redirected pursuant to this subdivision. The Attorney General shall submit an annual report to the commissioner with respect to the success of the fraud prosecution efforts of his or her office.

(3) Neither the Attorney General nor any district attorney shall be required to relinquish control of any investigation or prosecution undertaken pursuant to this subdivision unless the commissioner determines that satisfactory progress is no longer being made on the case or the case has been abandoned.

(4) A county that has become a nonparticipating county due to the inability or unwillingness of its district attorney to investigate and prosecute workers’ compensation fraud or the willful failure to secure the payment of workers’ compensation shall not become eligible to receive funding under this section until it has submitted a new application that meets the requirements of subdivision (d) and the applicable regulations.

(f) If in any fiscal year the Bureau of Fraudulent Claims does not use all of the funds made available to it under subdivision (d), any remaining funds may be distributed to district attorneys pursuant to a determination by the commissioner in accordance with the same procedures set forth in subdivision (d).

(g) The commissioner shall adopt rules and regulations to implement this section in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). Included in the rules and regulations shall be the criteria for redistributing funds to district attorneys and the Attorney General. The adoption of the rules and regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health, and safety, or general welfare.

(h) The department shall report on an annual basis to the Legislature and the Fraud Assessment Commission on the activities of the Bureau of Fraudulent Claims and district attorneys supported by the funds provided by this section.

The annual report shall include, but is not limited to, all of the following information for the department and each district attorney’s office:

(1) All allocations, distributions, and expenditures of funds.

(2) The number of search warrants issued.
(3) The number of arrests and prosecutions, and the aggregate number of parties involved in each.

(4) The number of convictions and the names of all convicted fraud perpetrators.

(5) The estimated value of all assets frozen, penalties assessed, and restitutions made for each conviction.

(6) Any additional items necessary to fully inform the Fraud Assessment Commission and the Legislature of the fraud-fighting efforts financed through this section.

(i) In order to meet the requirements of subdivision (g), the department shall submit a biannual information request to those district attorneys who have applied for and received funding through the annual assessment process under this section.

(j) Assessments levied or collected to fight workers’ compensation fraud and insurance fraud are not taxes. Those funds are entrusted to the state to fight fraud and the willful failure to secure the payment of workers’ compensation by funding state and local investigation and prosecution efforts. Accordingly, any funds resulting from assessments, fees, penalties, fines, restitution, or recovery of costs of investigation and prosecution deposited in the Insurance Fund shall not be deemed “unexpended” funds for any purpose and, if remaining in that account at the end of any fiscal year, shall be applied as provided in subdivision (f) and to offset or augment subsequent years’ program funding.

(k) The Bureau of State Audits shall evaluate the effectiveness of the efforts of the Fraud Assessment Commission, the Bureau of Fraudulent Claims, the Department of Insurance, and the Department of Industrial Relations, as well as local law enforcement agencies, including district attorneys, in identifying, investigating, and prosecuting workers’ compensation fraud and the willful failure to secure payment of workers’ compensation. The report shall specifically identify areas of deficiencies. Included in this report shall be recommendations on whether the current program provides the appropriate levels of accountability for those responsible for the allocation and expenditure of funds raised from the assessment provided in this section. The Bureau of State Audits shall submit a report to the Chairperson of the Senate Committee on Labor and Industrial Relations and the Chairperson of the Assembly Committee on Insurance on or before May 1, 2004.

SEC. 4. Section 11721 of the Insurance Code is amended to read:

11721. An insurer desiring to write workers’ compensation insurance shall maintain or provide occupational safety and health loss control consultation services pursuant to Section 6354.5 of the Labor Code.

SEC. 5. Section 11734 of the Insurance Code is amended to read:
11734. (a) Every workers’ compensation insurer shall adhere to a uniform experience rating plan filed with the commissioner by a rating organization designated by the commissioner and subject to his or her disapproval.

(b) The commissioner shall designate a rating organization to assist him or her in gathering, compiling, and reporting relevant statistical information, and to develop a classification system. An insurer may develop its own classification system upon which a rate may be made or adopt the classification system developed by the designated rating organization; provided, however, that any classification system developed by an insurer must be filed with the commissioner 30 days prior to its use. The commissioner shall disapprove a classification system filed by an insurer pursuant to this section if the insurer fails to demonstrate that the data thereby produced can be reported consistent with the uniform statistical plan or the classification system developed by the rating organization. Every workers’ compensation insurer shall record and report its workers’ compensation experience to the designated rating organization as set forth in the uniform statistical plan approved by the commissioner.

(c) The designated rating organization shall develop and file manual rules, subject to the approval of the commissioner, reasonably related to the recording and reporting of data pursuant to the uniform statistical plan, uniform experience rating plan, and any classification systems that may be in effect. Every workers’ compensation insurer shall adhere to the approved manual rules and experience rating plan in writing and reporting its business. No insurer shall agree with any other insurer or with a rating organization to adhere to manual rules that are not reasonably related to the recording and reporting of data pursuant to the uniform statistical plan or classification system developed by the rating organization.

(d) The designated rating organization shall also develop and file with the commissioner a weekly premium per employee for each classification used or proposed for use by that organization. The weekly premium shall be developed by applying the proposed rate for each classification to the state average weekly wage. For the purpose of this section, “state average weekly wage” means the average weekly wage paid by employers to employees covered by unemployment insurance as reported by the United States Department of Labor for California for the 12 months ending March 31 of the calendar year preceding the year in which the injury occurred.

SEC. 6. Section 11737 of the Insurance Code is amended to read:

11737. (a) The commissioner may disapprove a rate if the insurer fails to comply with the filing requirements under Section 11735.
(b) If the commissioner believes that rates may violate any of the requirements of this article, he or she shall call a hearing prior to any disapproval. The commissioner shall disapprove a rate if he or she finds that the rate would, if continued in use, tend to impair or threaten the solvency of an insurer or tend to create a monopoly in the market pursuant to Section 11732.

(c) Every insurer or rating organization shall provide within this state reasonable means whereby any person aggrieved by the application of its filings may be heard on written request to review the manner in which the rating system has been applied in connection with the insurance afforded or offered. If the insurer or rating organization fails to grant or reject the request within 30 days, the applicant may proceed in the same manner as if the application had been rejected. Any party affected by the action of the insurer or rating organization on the request may, within 30 days after written notice of the action, appeal to the commissioner who, after a hearing held within 60 days from the date on which the party requests the appeal, or longer upon agreement of the parties and not less than 10 days’ written notice to the appellant and to the insurer or rating organization, may affirm, modify, or reverse that action. If the commissioner has information on the subject from which the appeal is taken and believes that a reasonable basis for the appeal does not exist or that the appeal is not made in good faith, the commissioner may deny the appeal without a hearing. The denial shall be in writing and shall set forth the basis for the denial and shall be served on all parties.

(d) If the commissioner disapproves a rate, the commissioner shall issue an order specifying in what respects it fails to meet the requirements of this article and stating when within a reasonable period thereafter that rate shall be discontinued for any policy issued or renewed after a date specified in the order. The order shall be issued within 30 days after the close of the hearing or within any reasonable time extension as the commissioner may fix. The order may include a provision for premium adjustment for the period after the effective date of the order for policies in effect on that date.

(e) Whenever an insurer has no legally effective rates as a result of the commissioner’s disapproval of rates or other act, the commissioner shall on request of the insurer specify interim rates for the insurer that are adequate to protect the interests of all parties and may order that a specified portion of the premiums be placed in an escrow account approved by him or her. When new rates become legally effective, the commissioner shall order the escrowed funds or any overcharge in the interim rates to be distributed appropriately, except that refunds of less than ten dollars ($10) per policyholder shall not be required.

(f) Notwithstanding any other provision of law, an insurer may increase rates on policies with inception dates prior to January 1, 2003,
in an amount no greater than the pure premium rate increase approved by the commissioner reflecting the cost of the change in benefit levels authorized by the act adding this subdivision.

SEC. 6.5. Section 11741 is added to the Insurance Code, to read:

11741. (a) Notwithstanding any other provision of this code or the Labor Code, the commissioner shall not have the authority to disapprove a rate, discount, or credit established by any insurer for any policy issued to an employer for coverage of employees participating in a program established in accordance with Section 3201.5 of the Labor Code.

(b) The Department of Insurance shall report to the Legislature on or before December 31, 2005, regarding the adequacy of rates charged by insurers under subdivision (a) between January 1, 2003, to December 31, 2004, inclusive. Insurers shall supply the Department of Insurance with any and all necessary requested information in order for the Department of Insurance to prepare and provide the report set forth in this section.

(c) This section shall not apply to policies issued or renewed on or after January 1, 2007.

(d) This section shall remain in effect only until January 1, 2007, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2007, deletes or extends that date.

SEC. 7. Section 11770 of the Insurance Code is amended to read:

11770. The State Compensation Insurance Fund is continued in existence, to be administered by its board of directors for the purpose of transacting workers’ compensation insurance, and insurance against the expense of defending any suit for serious and willful misconduct, against an employer or his or her agent, and insurance to employees and other persons of the compensation fixed by the workers’ compensation laws for employees and their dependents. Any appropriation made therefrom or thereto before the effective date of this code shall continue to be available for the purposes for which it was made.

The board of directors of the State Compensation Insurance Fund is composed of five members, one of whom shall be from organized labor, appointed by the Governor. The Governor shall appoint the chairperson who shall serve at the pleasure of the Governor. The term of office of the members of the board, other than that of the director, the Speaker of the Assembly, and the President pro Tempore of the Senate, shall be five years and they shall hold office until the appointment and qualification of their successors. The term of office of the first additional member appointed pursuant to amendment of this section effective January 1, 1990, shall expire on January 15, 1995.
Commencing January 15, 1991, the terms of office of other members shall be extended to five years as each four-year term expires, so that one member’s term of office expires January 15 of each year. Each member shall receive his or her actual and necessary traveling expenses incurred in the performance of his or her duty as a member and, with the exception of the ex officio members, one hundred dollars ($100) for each day of his or her actual attendance at meetings of the board. In order to qualify for membership on the board, each member other than the ex officio members shall have been a policyholder or the employee or member of a policyholder in the State Compensation Insurance Fund for one year immediately preceding the appointment, and must continue in this status during the period of his or her membership.

The rules and regulations shall require the assessment to be paid by self-insurers to be expressed as a percentage of indemnity paid during the most recent year for which information is available, and the assessment to be paid by insured employers to be expressed as a percentage of premium. In no event shall the assessment paid by insured employers be considered a premium for computation of a gross premium tax or agents’ commission.

SEC. 22. Section 90.3 is added to the Labor Code, to read:

90.3. (a) It is the policy of this state to vigorously enforce the laws requiring employers to secure the payment of compensation as required by Section 3700 and to protect employers who comply with the law from
those who attempt to gain a competitive advantage at the expense of their workers by failing to secure the payment of compensation.

(b) In order to ensure that the laws requiring employers to secure the payment of compensation are adequately enforced, the Labor Commissioner shall establish and maintain a program for targeting employers in industries with the highest incidence of unlawfully uninsured employers. The industries and employers shall be identified from data from the Uninsured Employers’ Fund, the Employment Development Department, the rating organizations licensed by the Insurance Commissioner pursuant to Article 3 (commencing with Section 11750) of Chapter 3 of Part 3 of Division 2 of the Insurance Code, and any other sources deemed likely to lead to the identification of unlawfully uninsured employers. All state departments and agencies and any rating organization licensed by the Insurance Commissioner pursuant to Article 3 (commencing with Section 11750) of Chapter 3 of Part 3 of Division 2 of the Insurance Code shall cooperate with the Labor Commissioner and on reasonable request provide information and data in their possession reasonably necessary to carry out the program.

(c) As part of the program, the Labor Commissioner shall establish procedures for ensuring that employers with payroll but with no record of workers’ compensation coverage are contacted and, if no valid reason for the lack of record of coverage is shown, inspected on a priority basis.

(d) The Labor Commissioner shall annually report to the Legislature, not later than March 1, concerning the effectiveness of the program. The report shall include, but not be limited to, all of the following:

1. The number of unlawfully uninsured employers identified pursuant to the program.
2. The number of employers matched to records of insurance coverage.

SEC. 23. Section 90.5 of the Labor Code is amended to read:

90.5. (a) It is the policy of this state to vigorously enforce minimum labor standards in order to ensure employees are not required or permitted to work under substandard unlawful conditions or for employers that have not secured the payment of compensation, and to protect employers who comply with the law from those who attempt to gain a competitive advantage at the expense of their workers by failing to comply with minimum labor standards.

(b) In order to ensure that minimum labor standards are adequately enforced, the Labor Commissioner shall establish and maintain a field
enforcement unit, which shall be administratively and physically separate from offices of the division that accept and determine individual employee complaints. The unit shall have offices in Los Angeles, San Francisco, San Jose, San Diego, Sacramento, and any other locations that the Labor Commissioner deems appropriate. The unit shall have primary responsibility for administering and enforcing those statutes and regulations most effectively enforced through field investigations, including Sections 226, 1021, 1021.5, 1193.5, 1193.6, 1194.5, 1197, 1198, 1771, 1776, 1777.5, 2651, 2673, 2675, and 3700, in accordance with the plan adopted by the Labor Commissioner pursuant to subdivision (c). Nothing in this section shall be construed to limit the authority of this unit in enforcing any statute or regulation in the course of its investigations.

(c) The Labor Commissioner shall adopt an enforcement plan for the field enforcement unit. The plan shall identify priorities for investigations to be undertaken by the unit that ensure the available resources will be concentrated in industries, occupations, and areas in which employees are relatively low paid and unskilled, and those in which there has been a history of violations of the statutes cited in subdivision (b), and those with high rates of noncompliance with Section 3700.

(d) The Labor Commissioner shall annually report to the Legislature, not later than March 1, concerning the effectiveness of the field enforcement unit. The report shall include, but not be limited to, all of the following:

1. The enforcement plan adopted by the Labor Commissioner pursuant to subdivision (c), and the rationale for the priorities identified in the plan.
2. The number of establishments investigated by the unit, and the number of types of violations found.
3. The amount of wages found to be unlawfully withheld from workers, and the amount of unpaid wages recovered for workers.
4. The amount of penalties and unpaid wages transferred to the General Fund as a result of the efforts of the unit.

SEC. 33. Section 129 of the Labor Code is amended to read:

129. (a) To make certain that injured workers, and their dependents in the event of their death, receive promptly and accurately the full measure of compensation to which they are entitled, the administrative director shall audit insurers, self-insured employers, and third-party administrators to determine if they have met their obligations under this code. Each audit subject shall be audited at least once every five years. The audit subjects shall be selected and the audits conducted pursuant to subdivision (b). The results of audits of insurers shall be provided to the Insurance Commissioner, and the results of audits of self-insurers and third-party administrators shall be provided to the Director of Industrial Relations. Nothing in this section shall restrict the authority of the Director of Industrial Relations or the Insurance Commissioner to audit their licensees.

(b) The administrative director shall schedule and conduct audits as follows:

1. A profile audit review of every audit subject shall be conducted once every five years and on additional occasions indicated by target audit criteria. The administrative director shall annually establish a profile audit review performance standard that will identify the poorest performing audit subjects.

2. A full compliance audit shall be conducted of each profile audited subject failing to meet or exceed the profile audit review performance standard. The full compliance audit shall be a comprehensive and detailed evaluation of the audit subject’s performance. The administrative director shall annually establish a full compliance audit performance standard that will identify the audit subjects that are performing satisfactorily. Any full compliance audit subject that fails to meet or exceed the full compliance audit performance standard shall be audited again within two years.

3. A targeted profile audit review or a full compliance audit may be conducted at any time in accordance with target audit criteria adopted by the administrative director. The target audit criteria shall be based on information obtained from benefit notices, from information and assistance officers, and from other reliable sources providing factual information that indicates an insurer, self-insured employer, or third-party administrator is failing to meet its obligations under this division or Division 4 (commencing with Section 3200) or the regulations of the administrative director.
(c) If, as a result of a profile audit review or a full compliance audit, the administrative director determines that any compensation, interest, or penalty is due and unpaid to an employee or dependent, the administrative director shall issue and cause to be served upon the insurer, self-insured employer, or third-party administrator a notice of assessment detailing the amounts due and unpaid in each case, and shall order the amounts paid to the person entitled thereto. The notice of assessment shall be served personally or by registered mail in accordance with subdivision (c) of Section 11505 of the Government Code. A copy of the notice of assessment shall also be sent to the affected employee or dependent.

If the amounts are not paid within 30 days after service of the notice of assessment, the employer shall also be liable for reasonable attorney’s fees necessarily incurred by the employee or dependent to obtain amounts due. The administrative director shall advise each employee or dependent still owed compensation after this 30-day period of his or her rights with respect to the commencement of proceedings to collect the compensation owed. Amounts unpaid because the person entitled thereto cannot be located shall be paid to the Workers’ Compensation Administration Revolving Fund. The Director of Industrial Relations shall promulgate rules and regulations establishing standards and procedures for the payment of compensation from moneys deposited in the Workers’ Compensation Administration Revolving Fund whenever the person entitled thereto applies for compensation.

(d) A determination by the administrative director that an amount is or is not due to an employee or dependent shall not in any manner limit the jurisdiction or authority of the appeals board to determine the issue.

(e) Annually, commencing on April 1, 1991, the administrative director shall publish a report detailing the results of audits conducted pursuant to this section during the preceding calendar year. The report shall include the name of each insurer, self-insured employer, and third-party administrator audited during that period. For each insurer, self-insured employer, and third-party administrator audited, the report shall specify the total number of files audited, the number of violations found by type and amount of compensation, interest and penalties payable, and the amount collected for each violation. The administrative director shall also publish and make available to the public on request a list ranking all insurers, self-insured employers, and third-party administrators audited during the period according to their performance measured by the profile audit review and full compliance audit performance standards.

These reports shall not identify the particular claim file that resulted in a particular violation or penalty. Except as required by this subdivision or other provisions of law, the contents of individual claim files and
auditor’s working papers shall be confidential. Disclosure of claim information to the administrative director pursuant to an audit shall not waive the provisions of the Evidence Code relating to privilege.

(f) A profile audit review of the adjustment of claims against the Uninsured Employers Fund by the claims and collections unit of the Division of Workers’ Compensation shall be conducted at least every five years. The results of this profile audit review shall be included in the report required by subdivision (e).

SEC. 34. Section 129.5 of the Labor Code is amended to read:

129.5. (a) The administrative director may assess an administrative penalty against an insurer, self-insured employer, or third-party administrator for any of the following:

(1) Failure to comply with the notice of assessment issued pursuant to subdivision (c) of Section 129 within 15 days of receipt.

(2) Failure to pay when due the undisputed portion of an indemnity payment, the reasonable cost of medical treatment of an injured worker, or a charge or cost implementing an approved vocational rehabilitation plan.

(3) Failure to comply with any rule or regulation of the administrative director.

(b) The administrative director shall promulgate regulations establishing a schedule of violations and the amount of the administrative penalty to be imposed for each type of violation. The schedule shall provide for imposition of a penalty of up to one hundred dollars ($100) for each violation of the less serious type and for imposition of penalties in progressively higher amounts for the most serious types of violations to be set at up to five thousand dollars ($5,000) per violation. The administrative director is authorized to impose penalties pursuant to rules and regulations which give due consideration to the appropriateness of the penalty with respect to the following factors:

(1) The gravity of the violation.

(2) The good faith of the insurer, self-insured employer, or third-party administrator.

(3) The history of previous violations, if any.

(4) The frequency of the violations.

(5) Whether the audit subject has met or exceeded the profile audit review performance standard.

(6) Whether a full compliance audit subject has met or exceeded the full compliance audit performance standard.

(7) The size of the audit subject location.

(c) The administrative director shall assess penalties as follows:

(1) If, after a profile audit review, the administrative director determines that the profile audit subject met or exceeded the profile audit
review performance standard, no penalties shall be assessed under this section, but the audit subject shall be required to pay any compensation due and penalties due under subdivision (d) of Section 4650 as provided in subdivision (c) of Section 129.

(2) If, after a full compliance audit, the administrative director determines that the audit subject met or exceeded the full compliance audit performance standards, penalties for unpaid or late paid compensation, but no other penalties under this section, shall be assessed. The audit subject shall be required to pay any compensation due and penalties due under subdivision (d) of Section 4650 as provided in subdivision (c) of Section 129.

(3) If, after a full compliance audit, the administrative director determines that the audit subject failed to meet the full compliance audit performance standards, penalties shall be assessed as provided in a full compliance audit failure penalty schedule to be adopted by the administrative director. The full compliance audit failure penalty schedule shall adjust penalty levels relative to the size of the audit location to mitigate inequality between total penalties assessed against small and large audit subjects. The penalty amounts provided in the full compliance audit failure penalty schedule for the most serious type of violations shall not be limited by subdivision (b), but in no event shall the penalty for a single violation exceed forty thousand dollars ($40,000).

(d) The notice of penalty assessment shall be served personally or by registered mail in accordance with subdivision (c) of Section 11505 of the Government Code. The notice shall be in writing and shall describe the nature of the violation, including reference to the statutory provision or rule or regulation alleged to have been violated. The notice shall become final and the assessment shall be paid unless contested within 15 days of receipt by the insurer, self-insured employer, or third-party administrator.

(e) In addition to the penalty assessments permitted by subdivisions (a), (b), and (c), the administrative director may assess a civil penalty, not to exceed one hundred thousand dollars ($100,000), upon finding, after hearing, that an employer, insurer, or third-party administrator for an employer has knowingly committed or performed with sufficient frequency so as to indicate a general business practice any of the following:

(1) Induced employees to accept less than compensation due, or made it necessary for employees to resort to proceedings against the employer to secure compensation.

(2) Refused to comply with known and legally indisputable compensation obligations.
(3) Discharged or administered compensation obligations in a dishonest manner.

(4) Discharged or administered compensation obligations in a manner as to cause injury to the public or those dealing with the employer or insurer.

Any employer, insurer, or third-party administrator that fails to meet the full compliance audit performance standards in two consecutive full compliance audits shall be rebuttably presumed to have engaged in a general business practice of discharging and administering its compensation obligations in a manner causing injury to those dealing with it.

Upon a second or subsequent finding, the administrative director shall refer the matter to the Insurance Commissioner or the Director of Industrial Relations and request that a hearing be conducted to determine whether the certificate of authority, certificate of consent to self-insure, or certificate of consent to administer claims of self-insured employers, as the case may be, shall be revoked.

(f) An insurer, self-insured employer, or third-party administrator may file a written request for a conference with the administrative director within seven days after receipt of a notice of penalty assessment issued pursuant to subdivision (a) or (c). Within 15 days of the conference, the administrative director shall issue a notice of findings and serve it upon the contesting party by registered or certified mail. Any amount found due by the administrative director shall become due and payable 30 days after receipt of the notice of findings. The 30-day period shall be tolled during any appeal. A writ of mandate may be taken from the findings to the appropriate superior court upon the execution by the contesting party of a bond to the state in the principal sum that is double the amount found due and ordered by the administrative director, on the condition that the contesting party shall pay any judgment and costs rendered against it for the amount.

(g) An insurer, self-insured employer, or third-party administrator may file a written request for a hearing before the Workers' Compensation Appeals Board within seven days after receipt of a notice of penalty assessment issued pursuant to subdivision (e). Within 30 days of the hearing, the appeals board shall issue findings and orders and serve them upon the contesting party in the manner provided in its rules. Any amount found due by the appeals board shall become due and payable 45 days after receipt of the notice of findings. Judicial review of the findings and order shall be had in the manner provided by Article 2 (commencing with Section 5950) of Chapter 7 of Part 4 of Division 4. The 45-day period shall be tolled during appellate proceedings upon execution by the contesting party of a bond to the state in a principal sum that is double the amount found due and ordered by the appeals board.
on the condition that the contesting party shall pay the amount ultimately
determined to be due and any costs awarded by an appellate court.

(h) Nothing in this section shall create nor eliminate a civil cause of
action for the employee and his or her dependents.

(i) All moneys collected under this section shall be deposited in the
State Treasury and credited to the Workers’ Compensation
Administration Revolving Fund.

SEC. 44. Section 3550 of the Labor Code is amended to read:
3550. (a) Every employer subject to the compensation provisions of this division shall post and keep posted in a conspicuous location frequented by employees, and where the notice may be easily read by employees during the hours of the workday, a notice that states the name of the current compensation insurance carrier of the employer, or when such is the fact, that the employer is self-insured, and who is responsible for claims adjustment.

(b) Failure to keep any notice required by this section conspicuously posted shall constitute a misdemeanor, and shall be prima facie evidence of noninsurance.

(c) This section shall not apply with respect to the employment of employees as defined in subdivision (d) of Section 3351.

(d) The form and content of the notice required by this section shall be prescribed by the administrative director, after consultation with the Commission on Health and Safety and Workers’ Compensation, and shall advise employees that all injuries should be reported to their employer. SEC. 46. Section 3552 of the Labor Code is repealed.

SEC. 47. Section 3722 of the Labor Code is amended to read:

3722. (a) At the time the stop order is issued and served pursuant to Section 3710.1, the director shall also issue and serve a penalty assessment order requiring the uninsured employer to pay to the director, for deposit in the State Treasury to the credit of the Uninsured Employers Fund, the sum of one thousand dollars ($1,000) per employee employed at the time the order is issued and served, as an additional penalty for being uninsured at that time.

(b) At any time that the director determines that an employer has been uninsured for a period in excess of one week during the calendar year preceding the determination, the director may issue and serve a penalty assessment order requiring the uninsured employer to pay to the director, for deposit in the State Treasury to the credit of the Uninsured Employers Fund, the greater of (1) twice the amount the employer would have paid in workers’ compensation premiums during the period the employer was uninsured, determined according to subdivision (c), or (2) the sum of one thousand dollars ($1,000) per employee employed during the period the employer was uninsured. A penalty assessment issued and served by the director pursuant to this subdivision shall be in lieu of, and not in addition to, any other penalty issued and served by the director pursuant to subdivision (a).

(c) If the employer is currently insured, or becomes insured during the period during which the penalty under subdivision (b) is being determined, the amount an employer would have paid in workers’ compensation premiums shall be calculated by prorating the current premium for the number of weeks the employer was uninsured. If the employer is uninsured at the time the penalty under subdivision (b) is being determined, the amount an employer would have paid in workers’ compensation premiums shall be calculated by applying the weekly premium per employee calculated according to subdivision (d) of Section 11734 of the Insurance Code to the number of weeks the employer was uninsured. Each employee of the uninsured employer shall be assumed to be assigned to the governing classification for that employer as determined by the director after consultation with the Insurance Commissioner. If the employer contends that the assignment of the governing classification is incorrect, or that any employee should be assigned to a different classification, the employer has the burden to prove that the different classification should be utilized.

(d) If upon the filing of a claim for compensation under this division the Workers’ Compensation Appeals Board finds that any employer has not secured the payment of compensation as required by this division
and finds the claim either noncompensable or compensable, the appeals board shall mail a copy of their findings to the uninsured employer and the director, together with a direction to the uninsured employer to file a verified statement pursuant to subdivision (e).

After the time for any appeal has expired and the adjudication of the claim has become final, the uninsured employer shall be assessed and pay as a penalty either of the following:

1. In noncompensable cases, two thousand dollars ($2,000) per each employee employed at the time of the claimed injury.

2. In compensable cases, ten thousand dollars ($10,000) per each employee employed on the date of the injury.

(e) In order to establish the number of employees the uninsured employer had on the date of the claimed injury in noncompensable cases and on the date of injury in compensable cases, the employer shall submit to the director within 10 days after service of findings, awards, and orders of the Workers’ Compensation Appeals Board a verified statement of the number of employees in his or her employ on the date of injury. If the employer fails to submit to the director this verified statement or if the director disputes the accuracy of the number of employees reported by the employer, the director shall use any information regarding the number of employees as the director may have or otherwise obtains.

(f) Except for penalties assessed under subdivision (b), the maximum amount of penalties which may be assessed pursuant to this section is one hundred thousand dollars ($100,000). Payment shall be transmitted to the director for deposit in the State Treasury to the credit of the Uninsured Employers Fund.

(g) (1) The Workers’ Compensation Appeals Board may provide for a summary hearing on the sole issue of compensation coverage to effect the provisions of this section.

(2) In the event a claim is settled by the director pursuant to subdivision (e) of Section 3715 by means of a compromise and release or stipulations with request for award, the appeals board may also provide for a summary hearing on the issue of compensability.

SEC. 48. Section 3762 of the Labor Code is amended to read:

3762. (a) Except as provided in subdivisions (b) and (c), the insurer shall discuss all elements of the claim file that affect the employer’s premium with the employer, and shall supply copies of the documents that affect the premium at the employer’s expense during reasonable business hours.

(b) The right provided by this section shall not extend to any document that the insurer is prohibited from disclosing to the employer under the attorney-client privilege, any other applicable privilege, or
(c) An insurer, third-party administrator retained by a self-insured employer pursuant to Section 3702.1 to administer the employer’s workers’ compensation claims, and those employees and agents specified by a self-insured employer to administer the employer’s workers’ compensation claims, are prohibited from disclosing or causing to be disclosed to an employer, any medical information, as defined in subdivision (b) of Section 56.05 of the Civil Code, about an employee who has filed a workers’ compensation claim, except as follows:

(1) Medical information limited to the diagnosis of the mental or physical condition for which workers’ compensation is claimed and the treatment provided for this condition.

(2) Medical information regarding the injury for which workers’ compensation is claimed that is necessary for the employer to have in order for the employer to modify the employee’s work duties.

SEC. 49. Section 3820 of the Labor Code is amended to read:

3820. (a) In enacting this section, the Legislature declares that there exists a compelling interest in eliminating fraud in the workers’ compensation system. The Legislature recognizes that the conduct prohibited by this section is, for the most part, already subject to criminal penalties pursuant to other provisions of law. However, the Legislature finds and declares that the addition of civil money penalties will provide necessary enforcement flexibility. The Legislature, in exercising its plenary authority related to workers’ compensation, declares that these sections are both necessary and carefully tailored to combat the fraud and abuse that is rampant in the workers’ compensation system.

(b) It is unlawful to do any of the following:

(1) Willfully misrepresent any fact in order to obtain workers’ compensation insurance at less than the proper rate.

(2) Present or cause to be presented any knowingly false or fraudulent written or oral material statement in support of, or in opposition to, any claim for compensation for the purpose of obtaining or denying any compensation, as defined in Section 3207.

(3) Knowingly solicit, receive, offer, pay, or accept any rebate, refund, commission, preference, patronage, dividend, discount, or other consideration, whether in the form of money or otherwise, as compensation or inducement for soliciting or referring clients or patients to obtain services or benefits pursuant to Division 4 (commencing with Section 3200) unless the payment or receipt of consideration for services other than the referral of clients or patients is lawful pursuant to Section 650 of the Business and Professions Code or expressly permitted by the Rules of Professional Conduct of the State Bar.
(4) Knowingly operate or participate in a service that, for profit, refers or recommends clients or patients to obtain medical or medical-legal services or benefits pursuant to Division 4 (commencing with Section 3200).

(5) Knowingly assist, abet, solicit, or conspire with any person who engages in an unlawful act under this section.

(c) For the purposes of this section, "statement" includes, but is not limited to, any notice, proof of injury, bill for services, payment for services, hospital or doctor records, X-ray, test results, medical-legal expenses as defined in Section 4620, or other evidence of loss, expense, or payment.

(d) Any person who violates any provision of this section shall be subject, in addition to any other penalties that may be prescribed by law, to a civil penalty of not less than four thousand dollars ($4,000) nor more than ten thousand dollars ($10,000), plus an assessment of not more than three times the amount of the medical treatment expenses paid pursuant to Article 2 (commencing with Section 4600) and medical-legal expenses paid pursuant to Article 2.5 (commencing with Section 4620) for each claim for compensation submitted in violation of this section.

(e) Any person who violates subdivision (b) and who has a prior felony conviction of an offense set forth in Section 1871.1 or 1871.4 of the Insurance Code, or in Section 549 of the Penal Code, shall be subject, in addition to the penalties set forth in subdivision (d), to a civil penalty of four thousand dollars ($4,000) for each item or service with respect to which a violation of subdivision (b) occurred.

(f) The penalties provided for in subdivisions (d) and (e) shall be assessed and recovered in a civil action brought in the name of the people of the State of California by any district attorney.

(g) In assessing the amount of the civil penalty the court shall consider any one or more of the relevant circumstances presented by any of the parties to the case, including, but not limited to, the following: the nature and seriousness of the misconduct, the number of violations, the persistence of the misconduct, the length of time over which the misconduct occurred, the willfulness of the defendant’s misconduct, and the defendant’s assets, liabilities, and net worth.

(h) All penalties collected pursuant to this section shall be paid to the Workers’ Compensation Fraud Account in the Insurance Fund pursuant to Section 1872.83 of the Insurance Code. All costs incurred by district attorneys in carrying out this article shall be funded from the Workers’ Compensation Fraud Account. It is the intent of the Legislature that the program instituted by this article be supported entirely from funds produced by moneys deposited into the Workers’ Compensation Fraud Account from the imposition of civil money penalties for workers’ compensation fraud collected pursuant to this section. All moneys
claimed by district attorneys as costs of carrying out this article shall be paid pursuant to a determination by the Fraud Assessment Commission established by Section 1872.83 of the Insurance Code and on appropriation by the Legislature.

SEC. 50. Section 3822 is added to the Labor Code, to read:

3822. The administrative director shall, on an annual basis, provide to every employer, claims adjuster, third party administrator, physician, and attorney who participates in the workers’ compensation system, a notice that warns the recipient against committing workers’ compensation fraud. The notice shall specify the penalties that are applied for committing workers’ compensation fraud. The Fraud Assessment Commission, established by Section 1872.83 of the Insurance Code, shall provide the administrative director with all funds necessary to carry out this section.

SEC. 51. Section 4061 of the Labor Code is amended to read:

4061. (a) Together with the last payment of temporary disability indemnity, the employer shall, in a form prescribed by the administrative director pursuant to Section 138.4, provide the employee one of the following:

(1) Notice either that no permanent disability indemnity will be paid because the employer alleges the employee has no permanent impairment or limitations resulting from the injury or notice of the amount of permanent disability indemnity determined by the employer to be payable. The notice shall include information concerning how the employee may obtain a formal medical evaluation pursuant to subdivision (c) if he or she disagrees with the position taken by the employer. The notice shall be accompanied by the form prescribed by the Industrial Medical Council for requesting assignment of a panel of qualified medical evaluators, unless the employee is represented by an attorney. If the employer determines permanent disability indemnity is payable, the employer shall advise the employee of the amount determined payable and the basis on which the determination was made and whether there is need for continuing medical care.

(2) Notice that permanent disability indemnity may be or is payable, but that the amount cannot be determined because the employee’s medical condition is not yet permanent and stationary. The notice shall advise the employee that his or her medical condition will be monitored until it is permanent and stationary, at which time the necessary evaluation will be performed to determine the existence and extent of permanent impairment and limitations for the purpose of rating permanent disability and to determine the need for continuing medical care, or at which time the employer will advise the employee of the amount of permanent disability indemnity the employer has determined to be payable. If an employee is provided notice pursuant to this
paragraph and the employer later takes the position that the employee has no permanent impairment or limitations resulting from the injury, or later determines permanent disability indemnity is payable, the employer shall in either event, within 14 days of the determination to take either position, provide the employee with the notice specified in paragraph (1).

(b) Each notice required by subdivision (a) shall describe the administrative procedures available to the injured employee and advise the employee of his or her right to consult an information and assistance officer or an attorney. It shall contain the following language:

“Should you decide to be represented by an attorney, you may or may not receive a larger award, but, unless you are determined to be ineligible for an award, the attorney’s fee will be deducted from any award you might receive for disability benefits. The decision to be represented by an attorney is yours to make, but it is voluntary and may not be necessary for you to receive your benefits.”

(c) If the parties do not agree to a permanent disability rating based on the treating physician’s evaluation or the assessment of need for continuing medical care, and the employee is represented by an attorney, the employer shall seek agreement with the employee on a physician to prepare a comprehensive medical evaluation of the employee’s permanent impairment and limitations and any need for continuing medical care resulting from the injury. If no agreement is reached within 10 days, or any additional time not to exceed 20 days agreed to by the parties, the parties may not later select an agreed medical evaluator. Evaluations of an employee’s permanent impairment and limitations obtained prior to the period to reach agreement shall not be admissible in any proceeding before the appeals board. After the period to reach agreement has expired, either party may select a qualified medical evaluator to conduct the comprehensive medical evaluation. Neither party may obtain more than one comprehensive medical-legal report, provided, however, that any party may obtain additional reports at their own expense.

(d) If the parties do not agree to a permanent disability rating based on the treating physician’s evaluation, and if the employee is not represented by an attorney, the employer shall not seek agreement with the employee on a physician to prepare an additional medical evaluation. The employer shall immediately provide the employee with a form prescribed by the medical director with which to request assignment of a panel of three qualified medical evaluators. The employee shall select a physician from the panel to prepare a medical evaluation of the employee’s permanent impairment and limitations and any need for continuing medical care resulting from the injury.
For injuries occurring on or after January 1, 2003, except as provided in subdivision (b) of Section 4064, the report of the qualified medical evaluator and the reports of the treating physician or physicians shall be the only admissible reports and shall be the only reports obtained by the employee or the employer on the issues subject to this section.

(e) If an employee obtains a qualified medical evaluator from a panel pursuant to subdivision (d) or pursuant to subdivision (b) of Section 4062, and thereafter becomes represented by an attorney and obtains an additional qualified medical evaluator, the employer shall have a corresponding right to secure an additional qualified medical evaluator.

(f) The represented employee shall be responsible for making an appointment with an agreed medical evaluator.

(g) The unrepresented employee shall be responsible for making an appointment with a qualified medical evaluator selected from a panel of three qualified medical evaluators. The evaluator shall give the employee, at the appointment, a brief opportunity to ask questions concerning the evaluation process and the evaluator’s background. The unrepresented employee shall then participate in the evaluation as requested by the evaluator unless the employee has good cause to discontinue the evaluation. For purposes of this subdivision, “good cause” shall include evidence that the evaluator is biased against the employee because of his or her race, sex, national origin, religion, or sexual preference or evidence that the evaluator has requested the employee to submit to an unnecessary medical examination or procedure. If the unrepresented employee declines to proceed with the evaluation, he or she shall have the right to a new panel of three qualified medical evaluators from which to select one to prepare a comprehensive medical evaluation. If the appeals board subsequently determines that the employee did not have good cause to not proceed with the evaluation, the cost of the evaluation shall be deducted from any award the employee obtains.

(h) Upon selection or assignment pursuant to subdivision (c) or (d), the medical evaluator shall perform a comprehensive medical evaluation according to the procedures promulgated by the Industrial Medical Council under paragraphs (2) and (3) of subdivision (j) of Section 139.2 and summarize the medical findings on a form prescribed by the Industrial Medical Council. The comprehensive medical evaluation shall address all contested medical issues arising from all injuries reported on one or more claim forms prior to the date of the employee’s initial appointment with the medical evaluator. If, after a comprehensive medical evaluation is prepared, the employer or the employee subsequently objects to any new medical issue, the parties, to the extent possible, shall utilize the same medical evaluator who prepared the previous evaluation to resolve the medical dispute.
(i) Except as provided in Section 139.3, the medical evaluator may obtain consultations from other physicians who have treated the employee for the injury whose expertise is necessary to provide a complete and accurate evaluation.

(j) The qualified medical evaluator who has evaluated an unrepresented employee shall serve the comprehensive medical evaluation and the summary form on the employee, employer, and the administrative director. The unrepresented employee or the employer may submit the treating physician’s evaluation for the calculation of a permanent disability rating. Within 20 days of receipt of the comprehensive medical evaluation, the administrative director shall calculate the permanent disability rating according to Section 4660 and serve the rating on the employee and employer.

(k) Any comprehensive medical evaluation concerning an unrepresented employee which indicates that part or all of an employee’s permanent impairment or limitations may be subject to apportionment pursuant to Sections 4663 or 4750 shall first be submitted by the administrative director to a workers’ compensation judge who may refer the report back to the qualified medical evaluator for correction or clarification if the judge determines the proposed apportionment is inconsistent with the law.

(l) Within 30 days of receipt of the rating, if the employee is unrepresented, the employee or employer may request that the administrative director reconsider the recommended rating or obtain additional information from the treating physician or medical evaluator to address issues not addressed or not completely addressed in the original comprehensive medical evaluation or not prepared in accord with the procedures of the Industrial Medical Council promulgated under paragraph (2) or (3) of subdivision (j) of Section 139.2. This request shall be in writing, shall specify the reasons the rating should be reconsidered, and shall be served on the other party. If the administrative director finds the comprehensive medical evaluation is not complete or not in compliance with the required procedures, the administrative director shall return the report to the treating physician or qualified medical evaluator for appropriate action as the administrative director instructs. Upon receipt of the treating physician’s or qualified medical evaluator’s final comprehensive medical evaluation and summary form, the administrative director shall recalculate the permanent disability rating according to Section 4660 and serve the rating, the comprehensive medical evaluation, and the summary form on the employee and employer.

(m) If a comprehensive medical evaluation from the treating physician or an agreed medical evaluator or a qualified medical evaluator selected from a three-member panel resolves any issue so as
to require an employer to provide compensation, the employer shall commence the payment of compensation or promptly commence proceedings before the appeals board to resolve the dispute. If the employee and employer agree to a stipulated findings and award as provided under Section 5702 or to compromise and release the claim under Chapter 2 (commencing with Section 5000) of Part 3, or if the employee wishes to commute the award under Chapter 3 (commencing with Section 5100) of Part 3, the appeals board shall first determine whether the agreement or commutation is in the best interests of the employee and whether the proper procedures have been followed in determining the permanent disability rating. The administrative director shall promulgate a form to notify the employee, at the time of service of any rating under this section, of the options specified in this subdivision, the potential advantages and disadvantages of each option, and the procedure for disputing the rating.

(n) No issue relating to the existence or extent of permanent impairment and limitations or the need for continuing medical care resulting from the injury may be the subject of a declaration of readiness to proceed unless there has first been a medical evaluation by a treating physician or an agreed or qualified medical evaluator. With the exception of an evaluation or evaluations prepared by the treating physician or physicians, no evaluation of permanent impairment and limitations or need for continuing medical care resulting from the injury shall be obtained prior to service of the comprehensive medical evaluation on the employee and employer if the employee is unrepresented, or prior to the attempt to select an agreed medical evaluator if the employee is represented. Evaluations obtained in violation of this prohibition shall not be admissible in any proceeding before the appeals board. However, the testimony, records, and reports offered by the treating physician or physicians who treated the employee for the injury and comprehensive medical evaluations prepared by a qualified medical evaluator selected by an unrepresented employee from a three-member panel shall be admissible.

SEC. 52. Section 4062 of the Labor Code is amended to read:

4062. (a) If either the employee or employer objects to a medical determination made by the treating physician concerning the permanent and stationary status of the employee’s medical condition, the employee’s preclusion or likely preclusion to engage in his or her usual occupation, the extent and scope of medical treatment, the existence of new and further disability, or any other medical issues not covered by Section 4060 or 4061, the objecting party shall notify the other party in writing of the objection within 20 days of receipt of the report if the employee is represented by an attorney or within 30 days of receipt of the report if the employee is not represented by an attorney. These time
limits may be extended for good cause or by mutual agreement. If the employee is represented by an attorney, the parties shall seek agreement with the other party on a physician, who need not be a qualified medical evaluator, to prepare a report resolving the disputed issue. If no agreement is reached within 10 days, or any additional time not to exceed 20 days agreed upon by the parties, the parties may not later select an agreed medical evaluator. Evaluations obtained prior to the period to reach agreement shall not be admissible in any proceeding before the appeals board. After the period to reach agreement has expired, the objecting party may select a qualified medical evaluator to conduct the comprehensive medical evaluation. Neither party may obtain more than one comprehensive medical-legal report, provided, however, that any party may obtain additional reports at their own expense. The nonobjecting party may continue to rely on the treating physician’s report or may select a qualified medical evaluator to conduct an additional evaluation.

(b) If the employee is not represented by an attorney, the employer shall not seek agreement with the employee on a physician to prepare the comprehensive medical evaluation. The employer shall immediately provide the employee with a form prescribed by the medical director with which to request assignment of a panel of three qualified medical evaluators. The employee shall select a physician from the panel to prepare a comprehensive medical evaluation. For injuries occurring on or after January 1, 2003, except as provided in subdivision (b) of Section 4064, the evaluation of the qualified medical evaluator selected from a panel of three and the reports of the treating physician or physicians shall be the only admissible reports and shall be the only reports obtained by the employee or employer on issues subject to this section in a case involving an unrepresented employee.

(c) Upon completing a determination of the disputed medical issue, the physician selected under subdivision (a) or (b) to perform the medical evaluation shall summarize the medical findings on a form prescribed by the Industrial Medical Council and shall serve the formal medical evaluation and the summary form on the employee, employer, and administrative director. The medical evaluation shall address all contested medical issues arising from all injuries reported on one or more claim forms prior to the date of the employee’s initial appointment with the medical evaluator. If, after a medical evaluation is prepared, the employer or the employee subsequently objects to any new medical issue, the parties, to the extent possible, shall utilize the same medical evaluator who prepared the previous evaluation to resolve the medical dispute.

(d) No disputed medical issue specified in subdivision (a) may be the subject of a declaration of readiness to proceed unless there has first been
an evaluation by the treating physician or an agreed or qualified medical evaluator.

(e) With the exception of a report or reports prepared by the treating physician or physicians, no report determining disputed medical issues set forth in subdivision (a) shall be obtained prior to the expiration of the period to reach agreement on the selection of an agreed medical evaluator under subdivision (a). Reports obtained in violation of this prohibition shall not be admissible in any proceeding before the appeals board. However, the testimony, records, and reports offered by the treating physician or physicians who treated the employee for the injury shall be admissible.

SEC. 53. Section 4062.9 of the Labor Code is amended to read:

4062.9. (a) For injuries occurring on or after January 1, 2003, in cases where an additional comprehensive medical evaluation is obtained under Section 4061 or 4062, if the employee has been treated by his or her personal physician, or by his or her personal chiropractor, as defined in Section 4601, who was predesignated prior to the date of injury as provided under Section 4600, the findings of the personal physician or personal chiropractor are presumed to be correct. This presumption is rebuttable and may be controverted by a preponderance of medical opinion indicating a different level of disability. However, the presumption shall not apply where both parties select qualified medical examiners.

(b) The administrative director, in consultation with the Industrial Medical Council, shall develop, not later than January 1, 2004, and periodically revise as necessary thereafter, educational materials to be used to provide treating physicians and chiropractors with information and training in basic concepts of workers’ compensation, the role of the treating physician, the conduct of permanent and stationary evaluations, and report writing.

SEC. 54. Section 4064 of the Labor Code is amended to read:

4064. (a) The employer shall be liable for the cost of each reasonable and necessary comprehensive medical-legal evaluation obtained by the employee pursuant to Sections 4060, 4061, and 4062. Each comprehensive medical-legal evaluation shall address all contested medical issues arising from all injuries reported on one or more claim forms.

(b) For injuries occurring on or after January 1, 2003, if an unrepresented employee obtains an attorney after the evaluation pursuant to subdivision (d) of Section 4061 or subdivision (b) of Section 4062 has been completed, the employee shall be entitled to the same reports at employer expense as an employee who has been represented from the time the dispute arose and those reports shall be admissible in any proceeding before the appeals board.
(c) Subject to Section 4906, if an employer files an application for adjudication and the employee is unrepresented at the time the application is filed, the employer shall be liable for any attorney’s fees incurred by the employee in connection with the application for adjudication.

(d) The employer shall not be liable for the cost of any comprehensive medical evaluations obtained by the employee other than those authorized pursuant to Sections 4060, 4061, and 4062. However, no party is prohibited from obtaining any medical evaluation or consultation at the party’s own expense. In no event shall an employer or employee be liable for an evaluation obtained in violation of subdivision (b) of Section 4060. All comprehensive medical evaluations obtained by any party shall be admissible in any proceeding before the appeals board except as provided in subdivisions (d) and (m) of Section 4061 and subdivisions (b) and (e) of Section 4062.

SEC. 55. Section 4065 of the Labor Code is repealed.

SEC. 56. Section 4067 of the Labor Code is amended to read:

4067. If the jurisdiction of the appeals board is invoked pursuant to Section 5803 upon the grounds that the effects of the injury have recurred, increased, diminished, or terminated, a formal medical evaluation shall be obtained pursuant to this article.

When an agreed medical evaluator or a qualified medical evaluator selected by an unrepresented employee from a three-member panel has previously made a formal medical evaluation of the same or similar issues, the subsequent or additional formal medical evaluation shall be conducted by the same agreed medical evaluator or qualified medical evaluator, unless the workers’ compensation judge has made a finding that he or she did not rely on the prior evaluator’s formal medical evaluation, any party contested the original medical evaluation by filing an application for adjudication, the unrepresented employee hired an attorney and selected a qualified medical evaluator to conduct another evaluation pursuant to subdivision (b) of Section 4064, or the prior evaluator is no longer qualified or readily available to prepare a formal medical evaluation, in which case Sections 4061 or 4062, as the case may be, shall apply as if there had been no prior formal medical evaluation.

(1) Taking a complete history.

(2) Reviewing and summarizing prior medical records.

(3) Composing and drafting the conclusions of the report.
(b) The report shall disclose the date when and location where the evaluation was performed; that the physician or physicians signing the report actually performed the evaluation; whether the evaluation performed and the time spent performing the evaluation was in compliance with the guidelines established by the Industrial Medical Council or the administrative director pursuant to paragraph (5) of subdivision (j) of Section 139.2 or Section 5307.6 and shall disclose the name and qualifications of each person who performed any services in connection with the report, including diagnostic studies, other than its clerical preparation. If the report discloses that the evaluation performed or the time spent performing the evaluation was not in compliance with the guidelines established by the Industrial Medical Council or the administrative director, the report shall explain, in detail, any variance and the reason or reasons therefor.

(c) If the initial outline of a patient’s history or excerpting of prior medical records is not done by the physician, the physician shall review the excerpts and the entire outline and shall make additional inquiries and examinations as are necessary and appropriate to identify and determine the relevant medical issues.

(d) No amount may be charged in excess of the direct charges for the physician’s professional services and the reasonable costs of laboratory examinations, diagnostic studies, and other medical tests, and reasonable costs of clerical expense necessary to producing the report. Direct charges for the physician’s professional services shall include reasonable overhead expense.

(e) Failure to comply with the requirements of this section shall make the report inadmissible as evidence and shall eliminate any liability for payment of any medical-legal expense incurred in connection with the report.

(h) Knowing failure to comply with the requirements of this section shall subject the physician to contempt pursuant to the judicial powers vested in the appeals board.

SEC. 63. Section 4644 of the Labor Code is amended to read:

4644. (a) The liability of the employer for vocational rehabilitation services shall terminate when any of the following events occur:

(1) An employee who has received notice of potential eligibility to participate in a rehabilitation plan under Section 4637 declines vocational rehabilitation services in the form and manner prescribed by the administrative director.

(2) A qualified injured worker completes a vocational rehabilitation plan except as otherwise provided in subdivisions (c) and (d).

(3) The qualified injured worker unreasonably failed to complete a vocational rehabilitation plan.

(4) An employee has not requested vocational rehabilitation services within 90 days of the notification that the employee is medically eligible for vocational rehabilitation services. The liability of the employer for vocational rehabilitation services shall not terminate under this paragraph unless the employer, not earlier than 45 days nor later than 70 days after the employee’s receipt of the notice required by Section 4637, reminds the employee of his or her right to vocational rehabilitation services or until the 21st day after the employee receives the reminder notification. The reminder notification shall be in writing, in the form and manner prescribed by the administrative director, and shall be served by certified mail. The provisions of this paragraph shall not apply if the employee shows he or she was unable to comprehend the consequences of failing to timely request vocational rehabilitation services, or that, because of conditions beyond the control of the employee, the employee was unable to exercise his or her right to accept or decline vocational rehabilitation services.
(5) The employer offers, and the employee accepts or rejects, in the form and manner prescribed by the administrative director, modified work lasting at least 12 months, provided that an employer who offers modified work that is available for the 12-month period required by this paragraph meets the requirements of this paragraph even if the employee voluntarily quits prior to the end of that 12-month period.

(6) The employer offers and the employee accepts or rejects, in the form and manner prescribed by the administrative director, alternative work meeting all of the following conditions:
   (A) The employee has the ability to perform the essential functions of the job provided.
   (B) The job provided is in a regular position lasting at least 12 months. An employer who offers alternative work that is available for the 12-month period required by this paragraph meets the requirements of this paragraph even if the employee voluntarily quits prior to the end of the 12-month period.
   (C) The job provided offers wages and compensation that are within 15 percent of those paid to the employee at the time of injury.
   (D) The job is located within reasonable commuting distance of the employee’s residence at the time of injury.

(7) The employer offers, and the employee accepts, in the form and manner prescribed by the administrative director, work not meeting the conditions of paragraph (5) or (6) provided that the work lasts at least 12 months. The employee shall be required to reject the offer, in the form and manner prescribed by the administrative director, in order for the employee to be eligible for vocational rehabilitation services. An employer who offers work that is available for the 12-month period meets the requirements of this paragraph, even if the employee voluntarily quits prior to the end of that 12-month period.

(8) The employee and employer have agreed to self-directed vocational rehabilitation that is approved as set forth in Section 4646.

(b) Nothing in this article shall preclude the deferral or interruption of vocational rehabilitation services upon agreement of the employee and employer or, if no agreement can be reached, upon a good cause determination by the administrative director.

(c) (1) Except as provided in this section, vocational rehabilitation plans prepared pursuant to Section 4638 shall be limited to one plan per injured worker. The plans shall be completed within an 18-month period after approval of the plan. The plan shall not include a period of job placement exceeding 60 days unless the plan is exclusively utilizing transferable skills and experience for direct placement activities. In these cases, the period of job placement may be up to 90 days.
(2) The employee shall be entitled to one additional vocational rehabilitation plan only if the original plan is determined to be inappropriate due to one of the following:

(A) The employee’s disability has deteriorated to the point where the worker is unable to meet the physical demands of the first plan.

(B) The first plan is disrupted due to circumstances beyond the control of the employee.

(C) Failure by the employer to provide timely service required by this article and the vocational rehabilitation plan when the plan has not been completed.

The cost of the original and the additional plan plus all other vocational rehabilitation costs shall not exceed the overall cap and the counselor fee cap established in subdivision (c) of Section 139.5.

(d) Notwithstanding subdivision (c), an employee may apply to the rehabilitation unit for approval of a second vocational rehabilitation plan which exceeds the overall cap provided for in subdivision (c) of Section 139.5 if all of the following conditions are met:

(1) The employee has a permanent disability rating of 25 percent or greater. In reaching this determination, the rehabilitation unit shall consider any treating physicians’ reports.

(2) The first plan cannot be completed due to circumstances beyond the control of the employee. Those circumstances include the deterioration of the employee’s disability to the point where the worker cannot meet the requirements of the first plan.

(3) The rehabilitation unit finds that a second plan is necessary to provide the employee the opportunity for suitable gainful employment. Approval for circumstances other than a change in the employee’s disability must be based on objective and verifiable facts pursuant to rules promulgated by the administrative director.

However, in no case shall the cost solely attributable to the second plan exceed the overall cap and the counseling fee cap contained in subdivision (c) of Section 139.5.

(e) Notwithstanding subdivision (c), an employee may receive a second vocational rehabilitation plan that exceeds the overall cap provided for in subdivision (c) of Section 139.5 if the rehabilitation unit finds that the employee cannot complete the plan because the school or other training facility has closed or the worker has a sudden and unexpected change in disability that renders the plan inappropriate or other similar circumstances.

(f) Notwithstanding paragraph (2) of subdivision (a), if a qualified injured worker returns to modified or alternative work with the same employer or to work with a different employer as a result of direct job placement assistance and that employment terminates, other than for cause, within 12 months of the date the employee was employed at the
modified or alternative work, and if that work is unavailable in the labor market, the employer shall be liable, subject to Section 4642, for additional vocational rehabilitation services, provided that the employer’s liability for vocational rehabilitation services shall terminate if the employee voluntarily quits prior to the end of that 12-month period. To qualify for additional vocational rehabilitation services, the employee shall demonstrate an inability to compete for suitable gainful employment with his or her existing skills.

(g) An employer shall not be liable to provide vocational rehabilitation services at a location outside the state, unless upon agreement of the employer and the employee, or a determination by the Division of Workers’ Compensation that those services are more cost effective than similar services provided in the state.

SEC. 64. Section 4646 of the Labor Code is amended to read:

4646. (a) Settlement or commutation of prospective vocational rehabilitation services shall not be permitted under Chapter 2 (commencing with Section 5000) or Chapter 3 (commencing with Section 5100) of Part 3 except as set forth in subdivision (b), or upon a finding by a workers’ compensation judge that there are good faith issues that, if resolved against the employee, would defeat the employee’s right to all compensation under this division.

(b) The employer and a represented employee may agree to settle the employee’s right to prospective vocational rehabilitation services with a one-time payment to the employee not to exceed ten thousand dollars ($10,000) for the employee’s use in self-directed vocational rehabilitation. The settlement agreement shall be submitted to, and approved by, the administrative director’s vocational rehabilitation unit upon a finding that the employee has knowingly and voluntarily agreed to relinquish his or her rehabilitation rights. The rehabilitation unit may only disapprove the settlement agreement upon a finding that receipt of rehabilitation services is necessary to return the employee to suitable gainful employment.

(c) Prior to entering into any settlement agreement pursuant to this section, the attorney for a represented employee shall fully disclose and explain to the employee the nature and quality of the rights and privileges being waived.

SEC. 65. Section 4651 of the Labor Code is amended to read:

4651. (a) No disability indemnity payment shall be made by any written instrument unless it is immediately negotiable and payable in cash, on demand, without discount at some established place of business in the state.

Nothing in this section shall prohibit an employer from depositing the disability indemnity payment in an account in any bank, savings and loan association or credit union of the employee’s choice in this state,
provided the employee has voluntarily authorized the deposit, nor shall it prohibit an employer from electronically depositing the disability indemnity payment in an account in any bank, savings and loan association, or credit union, that the employee has previously authorized to receive electronic deposits of payroll, unless the employee has requested, in writing, that disability indemnity benefits not be electronically deposited in the account.

(b) It is not a violation of this section if a delay in the negotiation of a written instrument is caused solely by the application of state or federal banking laws or regulations.

(c) On or before July 1, 2004, the administrative director shall present to the Governor recommendations on how to provide better access to funds paid to injured workers in light of the requirements of federal and state laws and regulations governing the negotiability of disability indemnity payments. The administrative director shall make specific recommendations regarding payments to migratory and seasonal farmworkers. The Commission on Health and Safety and Workers’ Compensation and the Employment Development Department shall assist the administrative director in the completion of this report.

SEC. 66. Section 4658 of the Labor Code is amended to read:

4658. (a) For injuries occurring prior to January 1, 1992, if the injury causes permanent disability, the percentage of disability to total disability shall be determined, and the disability payment computed and allowed, according to paragraph (1). However, in no event shall the disability payment allowed be less than the disability payment computed according to paragraph (2).

5401. (a) Within one working day of receiving notice or knowledge of injury under Section 5400 or 5402, which injury results in lost time beyond the employee’s work shift at the time of injury or which results in medical treatment beyond first aid, the employer shall provide, personally or by first-class mail, a claim form and a notice of potential eligibility for benefits under this division to the injured employee, or in the case of death, to his or her dependents. As used in this subdivision, “first aid” means any one-time treatment, and any followup visit for the purpose of observation of minor scratches, cuts, burns, splinters, or other minor industrial injury, which do not ordinarily require medical care. This one-time treatment, and followup visit for the purpose of observation, is considered first aid even though provided by a physician or registered professional personnel. “Minor industrial injury” shall not include serious exposure to a hazardous substance as defined in subdivision (i) of Section 6302. The claim form shall request the injured employee’s name and address, social security number, the time and address where the injury occurred, and the nature of and part of the body affected by the injury. Claim forms shall be available at district offices of the Employment Development Department and the division. Claim forms may be made available to the employee from any other source.

(b) Insofar as practicable, the notice of potential eligibility for benefits required by this section and the claim form shall be a single document and shall instruct the injured employee to fully read the notice of potential eligibility. The form and content of the notice and claim form shall be prescribed by the administrative director after consultation with the Commission on Health and Safety and Workers’ Compensation. The notice shall be easily understandable and available in both English and Spanish. The content shall include, but not be limited to, the following:

For names of workers’ compensation attorneys, call the State Bar of California at [telephone number of the State Bar of California’s legal specialization program, or its equivalent].

(c) The completed claim form shall be filed with the employer by the injured employee, or, in the case of death, by a dependent of the injured employee, or by an agent of the employee or dependent. Except as provided in subdivision (d), a claim form is deemed filed when it is personally delivered to the employer or received by the employer by first-class or certified mail. A dated copy of the completed form shall be provided by the employer to the employer’s insurer and to the employee, dependent, or agent who filed the claim form.

(d) The claim form shall be filed with the employer prior to the injured employee’s entitlement to late payment supplements under subdivision (d) of Section 4650, or prior to the injured employee’s request for a medical evaluation under Section 4060, 4061, or 4062. Filing of the claim form with the employer shall toll, for injuries occurring on or after January 1, 1994, the time limitations set forth in Sections 5405 and 5406 until the claim is denied by the employer or the injury becomes presumptively compensable pursuant to Section 5402. For purposes of this subdivision, a claim form is deemed filed when it is personally delivered to the employer or mailed to the employer by first-class or certified mail.

SEC. 78. Section 5405 of the Labor Code is amended to read:

(a) Except as provided in subdivisions (b) and (d), the hearing shall be held not less than 10 days, and not more than 60 days, after the date a declaration of readiness to proceed, on a form prescribed by the court administrator, is filed. If a claim form has been filed for an injury occurring on or after January 1, 1990, and before January 1, 1994, an application for adjudication shall accompany the declaration of readiness to proceed.

(b) The court administrator shall establish a priority calendar for issues requiring an expedited hearing and decision. A hearing shall be held and a determination as to the rights of the parties shall be made and filed within 30 days after the declaration of readiness to proceed is filed if the issues in dispute are any of the following:

1. The employee’s entitlement to medical treatment pursuant to Section 4600.

2. The employee’s entitlement to, or the amount of, temporary disability indemnity payments.

3. The employee’s entitlement to vocational rehabilitation services, or the termination of an employer’s liability to provide these services to an employee.

4. The employee’s entitlement to compensation from one or more responsible employers when two or more employers dispute liability as among themselves.

5. Any other issues requiring an expedited hearing and determination as prescribed in rules and regulations of the administrative director.
(c) The court administrator shall establish a priority conference calendar for cases in which the employee is represented by an attorney and the issues in dispute are employment or injury arising out of employment or in the course of employment. The conference shall be conducted by a workers’ compensation administrative law judge within 30 days after the declaration of readiness to proceed. If the dispute cannot be resolved at the conference, a trial shall be set as expeditiously as possible, unless good cause is shown why discovery is not complete, in which case status conferences shall be held at regular intervals. The case shall be set for trial when discovery is complete, or when the workers’ compensation administrative law judge determines that the parties have had sufficient time in which to complete reasonable discovery. A determination as to the rights of the parties shall be made and filed within 30 days after the conference.

(d) The court administrator shall report quarterly to the Governor and to the Legislature concerning the frequency and types of issues which are not heard and decided within the period prescribed in this section and the reasons therefor.

(e) (1) In all cases, a mandatory settlement conference shall be conducted not less than 10 days, and not more than 30 days, after the filing of a declaration of readiness to proceed. If the dispute is not resolved, the regular hearing shall be held within 75 days after the declaration of readiness to proceed is filed.

(2) The settlement conference shall be conducted by a workers’ compensation administrative law judge or by a referee who is eligible to be a workers’ compensation administrative law judge or eligible to be an arbitrator under Section 5270.5. At the mandatory settlement conference, the referee or workers’ compensation administrative law judge shall have the authority to resolve the dispute, including the authority to approve a compromise and release or issue a stipulated finding and award, and if the dispute cannot be resolved, to frame the issues and stipulations for trial. The appeals board shall adopt any regulations needed to implement this subdivision. The presiding workers’ compensation administrative law judge shall supervise settlement conference referees in the performance of their judicial functions under this subdivision.

(3) If the claim is not resolved at the mandatory settlement conference, the parties shall file a pretrial conference statement noting the specific issues in dispute, each party’s proposed permanent disability rating, and listing the exhibits, and disclosing witnesses. Discovery shall close on the date of the mandatory settlement conference. Evidence not disclosed or obtained thereafter shall not be admissible unless the proponent of the evidence can demonstrate that it was not available or
could not have been discovered by the exercise of due diligence prior to the settlement conference.

(f) In cases involving the Director of the Department of Industrial Relations in his or her capacity as administrator of the Uninsured Employers Fund, this section shall not apply unless proof of service, as specified in paragraph (1) of subdivision (d) of Section 3716 has been filed with the appeals board and provided to the Director of Industrial Relations, valid jurisdiction has been established over the employer, and the fund has been joined.

(g) Except as provided in subdivision (a) and in Section 4065, the provisions of this section shall apply irrespective of the date of injury.

5814. When payment of compensation has been unreasonably delayed or refused, either prior to or subsequent to the issuance of an award, the full amount of the order, decision, or award shall be increased by 10 percent. Multiple increases shall not be awarded for repeated delays in making a series of payments due for the same type or specie of benefit unless there has been a legally significant event between the delay and the subsequent delay in payments of the same type or specie of benefits. The question of delay and the reasonableness of the cause therefor shall be determined by the appeals board in accordance with the facts. This delay or refusal shall constitute good cause under Section 5803 to rescind, alter, or amend the order, decision, or award for the purpose of making the increase provided for herein.

SEC. 82. Section 5814.5 of the Labor Code is amended to read:

5814.5. When the payment of compensation has been unreasonably delayed or refused subsequent to the issuance of an award by an employer that has secured the payment of compensation pursuant to Section 3700, the appeals board shall, in addition to increasing the order, decision, or award pursuant to Section 5814, award reasonable attorneys’ fees incurred in enforcing the payment of compensation awarded.

(b) The program of an insurer for furnishing loss control consultation services shall be adequate to meet minimum standards prescribed by this section. Required loss control consultation services shall be adequate to identify the hazards exposing the insured to, or causing the insured, significant workers’ compensation losses, and to advise the insured of steps needed to mitigate the identified workers’ compensation losses or
exposures. The program of an insurer for furnishing loss control consultation services shall provide all of the following:

(1) A workplace survey, including discussions with management and, where appropriate, nonmanagement personnel with permission of the employer.

(2) A review of injury records with appropriate personnel.

(3) The development of a plan to improve the employer’s health and safety loss control experience, which shall include, where appropriate, modifications to the employer’s injury and illness prevention program established pursuant to Section 6401.7. At the time that an insurance policy is issued and annually thereafter, and again when notified by Cal-OSHA that an insured employer has been identified as a targeted employer pursuant to Section 6314.1, the insurer shall provide each insured employer with a written description of the consultation services together with a notice that the services are available at no additional charge to the employer. These notices to the employer shall appear in at least 10-point bold type.

(c) The insurer shall not charge any fee in addition to the insurance premium for safety and health loss control consultation services.

(d) Nothing in this section shall be construed to require insurers to provide loss control services to places of employment that do not pose significant preventable hazards to workers.

(e) The director shall establish an insurance loss control services coordinator position in the Department of Industrial Relations. The coordinator shall provide information to employers about the availability of loss control consultation services and respond to employers’ questions and complaints about loss control consultation services provided by their insurer. The coordinator shall notify the insurer of every complaint concerning loss control consultation services. If the employer and the insurer are unable to agree on a mutually satisfactory solution to the complaint, the coordinator shall investigate the complaint. Whenever the coordinator determines that the loss control consultation services provided by the insurer are inadequate or inappropriate, he or she shall recommend to the employer and the insurer the actions required to bring the loss control program into compliance. If the employer and the insurer are unable to agree on a mutually satisfactory solution to the complaint, the coordinator shall forward his or her recommendations to the director. The cost of providing the coordinator services shall be paid out of the Workers’ Occupational Safety and Health Education Fund created by subdivision (a) of Section 6354.7. However, no more than 20 percent of that fund may be expended for this purpose each year.

6354.7. (a) The Workers’ Occupational Safety and Health Education Fund is hereby created as a special account in the State Treasury. Proceeds of the fund may be expended, upon appropriation by the Legislature, by the Commission on Health and Safety and Workers’ Compensation for the purpose of establishing and maintaining a worker occupational safety and health training and education program and insurance loss control services coordinator. The director shall levy and collect fees to fund these purposes from insurers subject to Section 6354.5. However, the fee assessed against any insurer shall not exceed the greater of one hundred dollars ($100) or 0.0286 percent of paid workers’ compensation indemnity claims as reported for the previous calendar year to the designated rating organization for the analysis required under subdivision (b) of Section 11759.1 of the Insurance Code. All fees shall be deposited in the fund.

(b) The commission shall establish and maintain a worker safety and health training and education program. The purpose of the worker occupational safety and health training and education program shall be to promote awareness of the need for prevention education programs, to develop and provide injury and illness prevention education programs for employees and their representatives, and to deliver those awareness and training programs through a network of providers throughout the state. The commission may conduct the program directly or by means of contracts or interagency agreements.

(c) The commission shall establish an employer and worker advisory board for the program. The advisory board shall guide the development of curricula, teaching methods, and specific course material about occupational safety and health, and shall assist in providing links to the target audience and broadening the partnerships with worker-based organizations, labor studies programs, and others that are able to reach the target audience.

(d) The program shall include the development and provision of a needed core curriculum addressing competencies for effective participation in workplace injury and illness prevention programs and on joint labor-management health and safety committees. The core curriculum shall include an overview of the requirements related to injury and illness prevention programs and hazard communication.

(e) The program shall include the development and provision of additional training programs for any or all of the following categories:

(1) Industries on the high hazard list.

(2) Hazards that result in significant worker injuries, illnesses, or compensation costs.

(3) Industries or trades where workers are experiencing numerous or significant injuries or illnesses.
(4) Occupational groups with special needs, such as those who do not speak English as their first language, workers with limited literacy, young workers, and other traditionally underserved industries or groups of workers. Priority shall be given to training workers who are able to train other workers and workers who have significant health and safety responsibilities, such as those workers serving on a health and safety committee or serving as designated safety representatives.

(f) The program shall operate one or more libraries and distribution systems of occupational safety and health training material, which shall include, but not be limited to, all material developed by the program pursuant to this section.

(g) The advisory board shall annually prepare a written report evaluating the use and impact of programs developed.

(h) The payment of administrative costs incurred by the commission in conducting the program shall be made from the Workers’ Occupational Safety and Health Education Fund.

It is the intent of the Legislature that all reimbursement expended by the Administrative Director of the Division of Workers’ Compensation for the administration of the workers’ compensation Return-to-Work Program established in Section 139.48 of the Labor Code shall be funded from the funds collected in the annual premium tax, collected under Section 12201 of the Revenue and Taxation Code, which is directly attributable to the compensation benefit rates and amounts set forth in the Revenue and Taxation Code.

SEC. 87. It is the intent of the Legislature that nothing in this act shall be interpreted to require any change in the administration, alternative dispute resolution component, or medical treatment component, of any program approved pursuant to Section 3201.5 of the Labor Code prior to January 1, 2003.

SEC. 88. The provisions of this act are severable. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

SEC. 89. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction,
within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.

CHAPTER 12

An act to add Chapter 7 (commencing with Section 52075) to Part 5 of Division 31 of the Health and Safety Code, relating to housing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 11, 2002. Filed with Secretary of State March 11, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 52075) is added to Part 5 of Division 31 of the Health and Safety Code, to read:
52075. (a) Subject to the limitations of this chapter, any city or county may, in addition to any other power conferred by this part, issue revenue bonds as provided in Chapter 4 (commencing with Section 52030) for the purpose of financing the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing and for the provision of capital improvements in connection with and determined necessary to that multifamily rental housing.

(b) For this purpose, the term "home mortgage," as used in Chapter 4 (commencing with Section 52030), and as defined by Section 52013, shall be further defined to include construction loans and mortgage loans to housing sponsors to finance the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing and for the provision of capital improvements in connection with and determined necessary to the multifamily rental housing.

(c) To the extent possible, Chapter 4 (commencing with Section 52030) shall be construed in a manner that enables a city or county to comply with the purpose and requirements of this chapter.

52075.1. As used in this chapter "city or county" include any city and county.

52076. Subject to the limitations prescribed in this chapter, a city or county may make, or undertake commitments to make, construction loans and mortgage loans to housing sponsors to finance the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing. For this purpose, the city or county shall enter into regulatory contracts and other agreements with housing sponsors receiving loans under this chapter to assure all requirements of this chapter are satisfied.

52077. Subject to the limitations prescribed in this chapter, a city or county may purchase, or undertake, directly or indirectly through lending institutions, commitments to purchase, construction loans and mortgage loans originated in accordance with a financing agreement with the city or county to finance the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing and may make loans to lending institutions under terms and conditions which, in addition to other provisions determined by the city or county, shall require the lending institutions to use the net proceeds of the loans for the making, directly or indirectly, of construction loans or mortgage loans to finance the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing.
52078. For the purposes of this chapter, a city or county shall have the power to issue its bonds to defray, in whole or in part, the costs of studies and surveys, insurance premiums, underwriting fees, legal, accounting, and marketing services incurred in connection with the issuance and sale of bonds, including bond and mortgage reserve accounts; trustee, custodian, and rating agency fees, and any other costs which are reasonably related to the foregoing.

52079. A city or county may, in conjunction with the financing of multifamily rental housing pursuant to this chapter, finance the acquisition, construction, rehabilitation, refinancing, or development of commercial property for lease, subject to all of the following conditions:
   (a) No more than 10 percent of the proceeds of any revenue bonds issued pursuant to this chapter may be used to develop the commercial property for lease.
   (b) The commercial property developed will be located on the same parcel or on a parcel adjacent to a multifamily rental housing development.
   (c) As a condition of the financing, any lease payments collected in excess of payments necessary for debt service, operating expenses and any required reserves related to that property, shall be used to reduce rents on units reserved for occupancy by lower income households and very low income households in a multifamily rental housing development.

52080. (a) (1) A multifamily rental housing development financed, or for which financing has been extended or committed pursuant to this chapter from the proceeds of sale of each bond issue, shall at all times during the qualified project period meet the requirement of subparagraph (A) or (B), whichever is elected by the issuer at the time of issuance of the issue for each development:
   (A) Twenty percent or more of the residential units in the development shall be occupied by individuals whose income is 50 percent or less of area median income.
   (B) Forty percent or more of the residential units in the development shall be occupied by individuals whose income is 60 percent or less of area median income.

   As used in this section, “qualified project period,” “income,” and “area median income” shall have the meanings specified in, and shall be determined in accordance with the provisions of, subsection (d) of Section 142 of the Internal Revenue Code of 1986, as amended, and United States Treasury regulations and rulings promulgated pursuant thereto.

   With respect to a development for which the issuer has elected to meet the requirement of subparagraph (A), the rental payments paid by the occupants of the units meeting the requirement of subparagraph (A)
(excluding any supplemental rental assistance from the state, the federal government, or any other public agency to those occupants or on behalf of those units) shall not exceed 30 percent of 50 percent of area median income. With respect to a development for which the issuer has elected to meet the requirement of subparagraph (B), the rental payments paid by the occupants of the units meeting the requirement of subparagraph (B) (excluding any supplemental rental assistance from the state, the federal government, or any other public agency to those occupants or on behalf of those units) shall not exceed 30 percent of 60 percent of area median income.

(2) The governing body shall ensure that the local agency issuing permits for the acquisition, construction, rehabilitation, refinancing, or development of the multifamily rental housing development shall consider opportunities to contribute to the economic feasibility of the units and to the provision of units for very low income households through concessions and inducements including, but not limited to, the following:

(A) Reductions in construction and design requirements.
(B) Reductions in setback and square footage requirements and the ratio of vehicular parking spaces that would otherwise be required.
(C) Granting density bonuses.
(D) Providing expedited processing of permits.
(E) Modifying zoning code requirements to allow mixed use zoning.
(F) Reducing or eliminating fees and charges for filing and processing applications, petitions, permits, planning services, water and sewer connections, and other fees and charges.
(G) Reducing or eliminating requirements relating to monetary exactions, dedications, reservations of land, or construction of public facilities.
(H) Other financial incentives or concessions for the multifamily rental housing development which result in identifiable cost reductions, as determined by the governing body. The governing body shall ensure that the local agency issuing permits for the development considers its responsibilities under this section and makes a good faith effort to enhance the feasibility of the project and to provide housing for lower income households and very low income households.

(3) The governing body shall not permit a selection criteria to be applied to certificate holders under Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f) that is more burdensome than the criteria applied to all other prospective tenants.

(4) It is the intent of the Legislature that the governing body finance projects that assist in meeting the urgent need for providing shelter for lower income households, very low income households, and persons and families of low or moderate income. To that end, the quality of materials
and the amenities provided should not be excessive so as to hinder the prospect of achieving the stated goal.

(5) It is the intent of the Legislature that the governing body finance projects that assist in meeting the urgent need for providing housing for families. To that end, developments with three- and four-bedroom units affordable to larger families shall have priority over competing developments.

(b) As a condition of financing pursuant to this chapter, the housing sponsor shall enter into a regulatory agreement with the city or county providing that units reserved for occupancy by lower income households remain available on a priority basis for occupancy until the bonds are retired. As a condition of financing provided by bonds issued on or after January 1, 1991, the housing sponsor shall enter into a regulatory agreement with the city or county providing that units reserved for occupancy by lower income households remain available on a priority basis for occupancy for the qualified project period. The regulatory agreement shall contain a provision making the covenants and conditions of the agreement binding upon successors in interest of the housing sponsor. The regulatory agreement shall be recorded in the office of the county recorder of the county in which the multifamily rental housing development is located. The regulatory agreement shall be recorded in the grantor-grantee index to the name of the property owner as grantor and to the name of the city or county as grantee.

(c) The governing body shall ensure that units occupied by lower income households are of comparable quality and offer a range of sizes and number of bedrooms comparable to the units that are available to other tenants.

(d) (1) The city or county shall give priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees or other local fees for multifamily rental developments which incorporate innovative and energy-efficient techniques that reduce development or operating costs and that have the lowest feasible per unit cost, as determined by the city or county, based on efficiency of design or the elimination of improvements that are not required by applicable building standards.

(2) The city or county shall give equal priority to processing construction loans and mortgage loans or may take other steps such as reducing loan fees or other local fees on multifamily rental housing developments that do any of the following:
   (A) Utilize federal housing or development assistance.
   (B) Utilize redevelopment funds or other local financial assistance, including, but not limited to, contributions of land.
   (C) Are sponsored by a nonprofit housing organization.
(D) Provide a significant number of housing units, as determined by the city or county, as part of a coordinated jobs and housing plan adopted by the city or county.

(E) Exceeds the ratios specified in subparagraph (A) or (B) of paragraph (1) of subdivision (a) or restricts the occupancy for these units for the longest period beyond the required minimum number of years.

(e) (1) New and existing rental housing developments may be syndicated after prior written approval of the governing body. The governing body shall grant that approval only after the city or county determines that the terms and conditions of the syndication comply with this section.

(2) The terms and conditions of the syndication shall not reduce or limit any of the requirements of this chapter or regulations adopted or documents executed pursuant to this chapter. No requirements of the city or county shall be subordinated to the syndication agreement. A syndication shall not result in the provision of fewer assisted units, or the reduction of any benefits or services, than were in existence prior to the syndication agreement.

(f) At the option of the city or county, the amendments to this subdivision made by Chapter 907 of the Statutes of 1983 may be made applicable to any multifamily rental housing development financed by the issuance, on or after September 3, 1982, of bonds authorized by this chapter.

(g) Following the expiration or termination of the qualified project period, except in the event of foreclosure and redemption of the bonds, deed in lieu of foreclosure, eminent domain, or action of a federal agency preventing enforcement, units required to be reserved for occupancy pursuant to subdivision (a) and financed with proceeds of bonds issued on or after January 1, 1991, shall remain available to any eligible household occupying a reserved unit at the date of expiration or termination, at a rent not greater than the amount set forth by subdivision (a), until the earliest of any of the following occur:

(1) The household’s income exceeds 140 percent of the maximum eligible income specified in subdivision (a).

(2) The household voluntarily moves or is evicted for “good cause.” “Good cause” for the purposes of this section, means the nonpayment of rent or allegation of facts necessary to prove major, or repeated minor, violations of material provisions of the occupancy agreement which detrimentally affect the health and safety of other persons or the structure, the fiscal integrity of the development, or the purposes or special programs of the development.

(3) Thirty years after the date of the commencement of the qualified project period.
(4) The sponsor pays the relocation assistance and benefits to tenants as provided in subdivision (b) of Section 7264 of the Government Code.

(h) During the three years prior to expiration of the qualified project period, the sponsor shall continue to make available to eligible households reserved units that have been vacated to the same extent that nonreserved units are made available to noneligible households.

(i) This section shall not be construed to require a city or county to monitor the sponsor’s compliance with the provisions of subdivision (g).

(j) The requirements of subdivisions (g) to (i), inclusive, shall be contained in a regulatory agreement required pursuant to subdivision (b).

(k) Notwithstanding Section 1461 of the Civil Code, the provisions of this section shall run with the land and may be enforced either in law or in equity by any resident, local agency, entity, or by any other person adversely affected by an owner’s failure to comply with this section.

52080.5. (a) (1) When refunding revenue bonds for multifamily housing which were previously issued pursuant to Section 52080, the city, county, or city and county shall ensure that rental units required, by this chapter or by applicable federal law at the time the original bonds were issued, to be reserved for occupancy for low- and very low income households shall remain occupied by, or made available to, those persons at least until the later of the following:

(A) The date originally so required.

(B) As long as any bonds remain outstanding with respect to the development.

(2) For bonds previously issued to finance a development where all of the units, other than management units, are, at the time of the refunding, subsidized by a housing assistance payments contract for new construction and substantial rehabilitation pursuant to Section 8 of the United States Housing Act of 1937 (42 U.S.C. Sec. 1437f), subparagraph (B) of paragraph (1) shall refer to a period of time until the termination of the contract.

(b) The city, county, or city and county may determine that the period set forth in paragraph (1) of subdivision (a) shall not apply to the refunding of previously issued revenue bonds for which there is a mandatory redemption or acceleration as a result of default under the terms of the existing loan agreement or other security documents.

52081. For purposes of this article, “housing sponsor” means a person as defined in Section 52016.

52085. The primary purpose of this chapter is to meet the multifamily rental housing needs of persons and families of low or moderate income. The exercise of the powers granted by this division shall be in all respects for the benefit of the people of this state and for their health and welfare. Therefore, any bonds issued by a city, county,
or city and county pursuant to this chapter, their transfer, and the income therefrom shall at all times be free from taxation by the state or any political subdivision or other instrumentality of the state, excepting inheritance and gift taxes.

52086. Two or more cities in the same county, or a county and one or more cities within the county, or two or more counties, may enter into an agreement to join or cooperate with one another in the exercise jointly, or otherwise, of any or all of their powers for the purpose of financing multifamily rental housing development pursuant to this chapter.

52087. The same notice requirements specified in Section 65863.10 of the Government Code shall apply to multifamily rental housing that receives financial assistance pursuant to this chapter.

Article 2. State Assistance

52090. This article constitutes an alternative method for cities and counties to issue bonds for making construction loans and mortgage loans for multifamily rental housing developments pursuant to the provisions of this chapter.

52090.5. The agency and any city or county may enter into an agreement which provides that the agency may sell bonds authorized pursuant to Chapter 4 (commencing with Section 52030) for the city or county and operate a program with the proceeds of the sale for the purpose of providing funds for construction loans and mortgage loans for multifamily rental housing developments within the city or county and for the provision of capital improvements in connection with and determined necessary to the multifamily rental housing.

52091. Any agreement made pursuant to Section 52090.5 shall contain all of the following provisions:

(a) Limitations on the maximum amount of bonds to be issued by a city or county.

(b) A requirement that all bonds and any prospectus in connection with the bonds contain a legend condition to the following effect: "Neither the faith and credit of the State of California or the agency nor the taxing power of the state is pledged to the payment of principal or interest on this bond."

(c) A requirement that the agency approve the bond counsel selected by the city or county.

(d) The designation of criteria for multifamily rental housing developments eligible for financing; the number of units which shall be available for occupancy by persons of low income, which shall not be less than 20 percent of the total units; the amount to be allocated to a bond reserve fund; and, any other matters which the agency finds necessary or desirable.
(e) That the agency shall make construction loans and mortgage loans for multifamily rental housing developed within the city or county.

(f) That the agency shall supervise all construction and management of multifamily rental housing developments financed pursuant to this chapter on behalf of the city or county, and with the same powers and duties under this chapter, to ensure that all requirements of this part are met.

52091.5. Bonds issued pursuant to this article shall not be deemed bonds of the agency for the purposes of any limitations contained in Section 51350.

52092. The agency shall adopt uniform regulations for administration of local programs under this article. Local programs conducted by the agency under this article shall be administered in a manner consistent with this chapter.

Article 3. Miscellaneous

52095. Whenever a complaint is received concerning a violation of the restrictions imposed pursuant to Section 52080, the city or county shall investigate promptly and make a report to the complaining party on whether the violation existed and whether it persists, and if it persists, what action the city or county will take to remedy the violation. When the city or county determines that a violation exists, whether determined upon an investigation of a complaint or on its own motion, the city or county shall take all appropriate action, including necessary legal action, to promptly eliminate the violation.

Notwithstanding any provision of this section, any person aggrieved by a violation may seek a judicial remedy without regard to whether a complaint has been made to the city or county or whether the city or county is then taking any action to remedy the violation.

Article 4. Application to Chartered Cities

52097. Except as otherwise provided in this article, this chapter shall not be construed to limit or otherwise restrict the authority of chartered cities to issue bonds for the purpose of financing the acquisition, construction, rehabilitation, refinancing, or development of multifamily rental housing or for the provision of capital improvements in connection with and determined necessary to that multifamily rental housing. For purposes of this article, certificates of participation in any form of obligation of a city, county, or city and county shall be considered to be bonds.

52097.1. The maximum aggregate amount of bonds that may be issued pursuant to this chapter, charter provision, or ordinance for the
purposes specified in Section 52097 shall not exceed two billion two hundred fifty million dollars ($2,250,000,000) in any calendar year.

52097.5. (a) Multifamily rental housing development financed, or for which financing has been extended or committed, pursuant to this chapter from the proceeds of sale of each bond issue shall at all times during the qualified project period meet the requirement of paragraph (1) or (2), whichever is elected by the issuer at the time of issuance of the issue for each development:

(1) Twenty percent or more of the residential units in the development shall be occupied by individuals whose income is 50 percent or less of area median income.

(2) Forty percent or more of the residential units in the development shall be occupied by individuals whose income is 60 percent or less of area median income.

As used in this subdivision, “qualified project period,” “income,” and “area median income” shall have the meanings specified in, and shall be determined in accordance with the provisions of, subsection (d) of Section 142 of the Internal Revenue Code of 1986, as amended, and United States Treasury regulations and rulings promulgated pursuant thereto.

(b) With respect to a development for which the issuer has elected to meet the requirement of paragraph (1) of subdivision (a), the rental payments paid by the occupants of the units meeting the requirement of paragraph (1) of subdivision (a) (excluding any supplemental rental assistance from the state, the federal government, or any other public agency to those occupants or on behalf of those units) shall not exceed 30 percent of 50 percent of area median income.

CHAPTER 13

An act to amend Section 11106 of the Health and Safety Code, relating to controlled substances, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 21, 2002. Filed with Secretary of State March 21, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Section 11106 of the Health and Safety Code is amended to read:

11106. (a) (1) (A) Any manufacturer, wholesaler, retailer, or any other person or business entity in this state who sells, transfers, or otherwise furnishes any substance specified in subdivision (a) of Section 11100 to a person or business entity in this state or any other state or who obtains from a source outside of the state any substance specified in subdivision (a) of Section 11100 on or after January 1, 2002, shall submit an application to, and obtain a permit for the conduct of that business from, the Department of Justice. For any substance added to the list set forth in subdivision (a) of Section 11100 on or after January 1, 2002, the Department of Justice may postpone the effective date of the requirement for a permit for a period not to exceed six months from the listing date of the substance.

(B) An intracompany transfer does not require a permit if the transferor is a permittee. Transfers between company partners or between a company and an analytical laboratory do not require a permit if the transferor is a permittee and a report as to the nature and extent of
the transfer is made to the Department of Justice pursuant to Section 11100 or 11100.1.

(C) This paragraph shall not apply to any manufacturer, wholesaler, retailer, or other person who is licensed by either the State Department of Health Services or the California State Board of Pharmacy, and is also registered with the federal Drug Enforcement Administration of the United States Department of Justice.

(2) Except as provided in paragraph (3), no permit shall be required of any manufacturer, wholesaler, retailer, or other person for the sale, transfer, furnishing, or obtaining of any product which contains ephedrine, pseudoephedrine, norpseudoephedrine, or phenylpropanolamine and which is lawfully sold, transferred, or furnished over the counter without a prescription or by a prescription pursuant to the federal Food, Drug, and Cosmetic Act (21 U.S.C. Sec. 301 et seq.) or regulations adopted thereunder.

(3) A permit shall be required for the sale, transfer, furnishing, or obtaining of preparations in solid or liquid dosage form containing ephedrine, pseudoephedrine, norpseudoephedrine, or phenylpropanolamine, unless (A) the transaction involves the sale of ephedrine, pseudoephedrine, norpseudoephedrine, or phenylpropanolamine products by retail distributors as defined by this article over the counter and without a prescription, or (B) the transaction is made by a person or business entity exempted from the permitting requirements of this subdivision under paragraph (1).

(b) (1) The department shall provide application forms, which are to be completed under penalty of perjury, in order to obtain information relating to the identity of any applicant applying for a permit, including, but not limited to, the business name of the applicant or the individual name, and if a corporate entity, the names of its board of directors, the business in which the applicant is engaged, the business address of the applicant, a full description of any substance to be sold, transferred, or otherwise furnished or to be obtained, the specific purpose for the use, sale, or transfer of those substances specified in subdivision (a) of Section 11100, the training, experience, or education relating to this use, and any additional information requested by the department relating to possible grounds for denial as set forth in this section, or by applicable regulations adopted by the department.

(2) The requirement for the specific purpose for the use, sale, or transfer of those substances specified in subdivision (a) of Section 11100 does not require an applicant or permittee to reveal their chemical processes that are typically considered trade secrets and proprietary business information.

(c) Applicants and permittees shall authorize the department, or any of its duly authorized representatives, as a condition of being permitted,
to make any examination of the books and records of any applicant, permittee, or other person, or visit and inspect the business premises of any applicant or permittee during normal business hours, as deemed necessary to enforce this chapter.

(d) An application may be denied, or a permit may be revoked or suspended, for reasons which include, but are not limited to, the following:

(1) Materially falsifying an application for a permit or an application for the renewal of a permit.

(2) If any individual owner, manager, agent, representative, or employee for the applicant who has direct access, management, or control for any substance listed under subdivision (a) of Section 11100, is or has been convicted of a misdemeanor or felony relating to any of the substances listed under subdivision (a) of Section 11100, any misdemeanor drug-related offense, or any felony under the laws of this state or the United States.

(3) Failure to maintain effective controls against the diversion of precursors to unauthorized persons or entities.

(4) Failure to comply with this article or any regulations of the department adopted thereunder.

(5) Failure to provide the department, or any duly authorized federal or state official, with access to any place for which a permit has been issued, or for which an application for a permit has been submitted, in the course of conducting a site investigation, inspection, or audit; or failure to promptly produce for the official conducting the site investigation, inspection, or audit any book, record, or document requested by the official.

(6) Failure to provide adequate documentation of a legitimate business purpose involving the applicant’s or permittee’s use of any substance listed in subdivision (a) of Section 11100.

(7) Commission of any act which would demonstrate actual or potential unfitness to hold a permit in light of the public safety and welfare, which act is substantially related to the qualifications, functions, or duties of a permitholder.

(8) If any individual owner, manager, agent, representative, or employee for the applicant who has direct access, management, or control for any substance listed under subdivision (a) of Section 11100, willfully violates or has been convicted of violating, any federal, state, or local criminal statute, rule, or ordinance regulating the manufacture, maintenance, disposal, sale, transfer, or furnishing of any of those substances.

(e) Notwithstanding any other provision of law, an investigation of an individual applicant’s qualifications, or the qualifications of an applicant’s owner, manager, agent, representative, or employee who has
direct access, management, or control of any substance listed under subdivision (a) of Section 11100, for a permit may include review of his or her summary criminal history information pursuant to Sections 11105 and 13300 of the Penal Code, including, but not limited to, records of convictions, regardless of whether those convictions have been expunged pursuant to Section 1204.5 of the Penal Code, and any arrests pending adjudication.

(f) The department may retain jurisdiction of a canceled or expired permit in order to proceed with any investigation or disciplinary action relating to a permittee.

(g) The department may grant permits on forms prescribed by it, which shall be effective for not more than one year from the date of issuance and which shall not be transferable. Applications and permits shall be uniform throughout the state, on forms prescribed by the department.

(h) Each applicant shall pay at the time of filing an application for a permit a fee determined by the department which shall not exceed the application processing costs of the department.

(i) A permit granted pursuant to this article may be renewed one year from the date of issuance, and annually thereafter, following the timely filing of a complete renewal application with all supporting documents, the payment of a permit renewal fee not to exceed the application processing costs of the department, and a review of the application by the department.

(j) Selling, transferring, or otherwise furnishing or obtaining any substance specified in subdivision (a) of Section 11100 without a permit is a misdemeanor or a felony.

(k) (1) No person under 18 years of age shall be eligible for a permit under this section.

(2) No business for which a permit has been issued shall employ a person under 18 years of age in the capacity of a manager, agent, or representative.

(l) (1) An applicant, or an applicant’s employees who have direct access, management, or control of any substance listed under subdivision (a) of Section 11100, for an initial permit shall submit with the application two sets of 10-print fingerprint cards for each individual acting in the capacity of an owner, manager, agent, or representative for the applicant, unless the applicant’s employees are exempted from this requirement by the Department of Justice. These exemptions may only be obtained upon the written request of the applicant.

(2) In the event of subsequent changes in ownership, management, or employment, the permittee shall notify the department in writing within 15 calendar days of the changes, and shall submit two sets of 10-print
fingerprint cards for each individual not previously fingerprinted under this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

To ensure fundamental fairness to those permittees and other businesses and individuals who have been legally conducting business with respect to specified substances prior to their inclusion in a list of substances for which a permit to conduct business must be first obtained, this act must go into immediate effect. Furthermore, because the enactment of this bill would afford the Department of Justice the authority to allow for a transition period to ensure that all affected parties are provided with proper notice of statutory changes that may entail criminal liability; provide the Department of Justice with the time needed to process applications in a timely manner; and as a result ensure that there would be no disruption in commerce or adverse business impact, this bill must go into immediate effect.

(f) Beginning January 1, 2005, the department shall monitor the implementation of each facility’s plan upon licensure visits.

(g) The department may work with the facility’s health care community to present an annual symposium to recognize the best practices for each of the procedures and systems listed under subdivision (d).

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 16

An act relating to public contracts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 25, 2002. Filed with Secretary of State March 25, 2002.]

The people of the State of California do enact as follows:

SECTION 1. This act is known and may be cited as “The 2012 Olympic Games Act.”

SEC. 2. For purposes of this act:

(a) “Endorsing Municipality” means the City and County of San Francisco, which has authorized a bid by a local organizing committee for selection of the municipality as the site of the Games.
(b) “Games” means the 2012 Olympic Games.
(c) “Games support contract” means a Joinder Undertaking, a Joinder Agreement, or a similar contract executed by the Governor and containing terms permitted or required by this act.
(d) “Joinder Agreement” means an agreement entered into by:
   (1) The Governor on behalf of this state and a site selection organization setting out representations and assurances by the state in connection with the selection of a site in this state for the location of the Games.
   (2) An Endorsing Municipality and a site selection organization setting out representations and assurances by the Endorsing Municipality in connection with the selection of a site in this state for the location of the Games.
(e) “Joinder Undertaking” means an agreement entered into by:
   (1) The Governor on behalf of this state and a site selection organization that the state will execute a Joinder Agreement in the event that the site selection organization selects a site in this state for the Games.
   (2) An Endorsing Municipality and a site selection organization that the Endorsing Municipality will execute a Joinder Agreement in the event that the site selection organization selects a site in this state for the Games.
(f) “Local organizing committee” means a nonprofit corporation, or its successor in interest, that:
   (1) Has been authorized by an Endorsing Municipality to pursue an application and bid on the applicant’s behalf to a site selection organization for selection as the site for the Games.
   (2) With the authorization of an Endorsing Municipality, has executed an agreement with a site selection organization regarding a bid to host the Games.
(g) “Site selection organization” means the United States Olympic Committee, or the International Olympic Committee, or both.

SEC. 3. The Legislature finds and declares all of the following:
(a) The purpose of this act is to provide assurances required by a site selection organization sponsoring the Games.
(b) The Bay Area Sports Organizing Committee (BASOC) has submitted a bid to the United States Olympic Committee to host the 2012 Olympic Games in the San Francisco Bay area, with the City and County of San Francisco as the official candidate city.
(c) Hosting the 2012 Olympic Games in the San Francisco Bay area is expected to generate billions of dollars for the regional economy. BASOC has developed a self-sufficient bid for privately financed Games, that is based on realistic and conservative revenue scenarios. BASOC has budgeted over $32 million to reimburse security and other
service costs provided by local regional governments during the 2012 Olympic Games.

d) BASOC plans to build over 2,500 new units of transit-accessible, high density infill, energy self-sufficient housing for the Olympic Village, serving as a model of environmentally responsible, sustainable development for the region. BASOC has committed to sports and recreational opportunities for young people throughout the San Francisco Bay area by planning to endow a foundation for youth programs with excess revenues from the 2012 Olympic Games.

e) BASOC has involved athletes, sports professionals, environmentalists, business and financial experts, nonprofit organizations, youth service leaders, and individuals who represent the entire diversity of the San Francisco Bay area in its bid and board of directors.

f) San Francisco is one of four bid cities throughout the country to be selected as a finalist by the United States Olympic Committee (USOC) to be the United States Candidate City for the 2012 summer Olympic Games. BASOC has submitted a bid to the USOC on behalf of San Francisco to host sporting events for the 2012 Olympic Games in San Francisco, San Jose, Oakland, Palo Alto, Sacramento, Monterey, and several other bay area cities and counties. The USOC requires that all bid states, bid cities, and bid committees execute certain agreements including the Joinder Agreement, which must be executed on or before November 30, 2002.

(g) BASOC expects that if San Francisco is chosen as the host city, and once the Games have concluded, there will be net revenue exceeding expenses that can be devoted to legacy programs for youth and citizens of San Francisco and the San Francisco Bay area and that BASOC has committed to providing those programs in its bid.

SEC. 4. (a) The Governor may agree, in accordance with law and subject to Sections 6 and 7 of this act, in a Joinder Undertaking entered into with a site selection organization that:

(1) The Governor will execute a Joinder Agreement if the Site Selection Organization selects a site in this state for the Games.

(2) The state will refrain, during the period, or any portion thereof, between the execution of the Joinder Undertaking and the IOC’s award of the Games to a host city, from becoming a party to or approving or consenting to any act, contract, commitment, or other action contrary to, or which might affect, any of the obligations stipulated in the Joinder Agreement.

(3) The Governor may agree that any dispute in connection with the Joinder Undertaking arising during the period between the execution of the Joinder Undertaking and the IOC’s award of the Games to a host city
shall be definitively settled as provided in the Candidate City Agreement.

(b) The Governor may agree in a Joinder Agreement that the state will, in accordance with law and subject to Sections 6 and 7 of this act, do the following:

1. Provide or cause to be provided any or all of the state government funding, facilities, and other resources specified in the local organizing committee’s bid to host the Games.

2. The state will be jointly liable, solely by means of the funding mechanism established by Sections 6 and 7 of this act, with the local organizing committee for:
   A. Obligations of the local organizing committee to a site selection organization, including obligations indemnifying the site selection organization against claims of and liabilities to third parties arising out of or relating to the Games.
   B. Any financial deficit relating to the local organizing committee or the Games.

3. The state’s joint liability shall not exceed the amount of funds appropriated to the Olympic Games Trust Fund established in Section 6 of this act. Any liability above this amount shall be the responsibility of the local organizing committee.

4. Acknowledge that the local organizing committee will be bound by a series of agreements with the site selection organization known as the Candidature Agreements as set forth in the Joinder Agreement.

(c) The Governor may agree to execute a Joinder Undertaking, a Joinder Agreement, other Games support contracts, and other contracts or agreements related to the conduct of the Games only if the Governor determines both of the following:

1. The state’s assurances and obligations under the undertaking, agreement, or contract are reasonable.

2. Any financial commitments of the state under this section, or any contract or agreement related to the conduct of the Games, including, but not limited to, any Games support contract and all financial obligations of the state otherwise arising out of this act will be satisfied exclusively by recourse to the Olympic Games Trust Fund, as applicable.

(d) Before executing a Games support contract, the Governor shall execute an agreement with the applicable local organizing committee requiring, if a site selection organization selects a site for the Games in this state, that the local organizing committee repay the state any funds expended by the state under this act from any surplus of the local organizing committee’s funds remaining after the presentation of the Games and after the payment of the expenses and obligations incurred by the local organization committee.
(e) A Games support contract may contain any additional provisions the Governor requires in order to carry out the purposes of this act.

SEC. 5. The Governor may develop a plan acceptable to the site selection organization for exercising appropriate oversight of the conduct of the local organizing committee and monitoring performance of the local organizing committee’s obligations under the Candidature Agreement, and will certify at least annually to the site selection organization that in the course of exercising that oversight and monitoring that performance, nothing, other than matters specifically described in that certification, has come to the state’s attention that would indicate either of the following:

(a) That the conduct of the local organizing committee to the date of certification has departed materially from the requirements of the site selection organization regarding the conduct of the local organizing committee.

(b) That the local organizing committee has failed to perform, or act in accordance with, its obligations under the Candidature Agreement.

SEC. 6. (a) There is hereby established in the State Treasury a special fund to be known as the “Olympic Games Trust Fund.”

(b) The state may choose to fund the Olympic Games Trust Fund in any manner it considers appropriate, and at such time or times the state determines necessary. It is the intent of this Legislature that the funding mechanism for the fund will be determined on or about the time of the selection of the Endorsing Municipality as the host city by the International Olympic Committee.

(c) The funds in the trust fund may be used only for the sole purpose of fulfilling the obligations of the state under a Games support contract to provide adequate security as described in Section 7.

(d) No additional state funds shall be deposited into the Olympic Games Trust Fund once the Director of Finance determines that the account has achieved, or is reasonably expected to otherwise accrue, a sufficient balance to provide adequate security, acceptable to the site selection organization, to demonstrate the state’s ability to fulfill its obligations under a Games support contract, or any other agreement, to indemnify and insure up to two hundred fifty million dollars ($250,000,000) of any net financial deficit and general liability resulting from the conduct of the Games.

(e) If an Endorsing Municipality is selected by the site selection organization as the host city for the Games, the Olympic Games Trust Fund shall be maintained until a determination by the Department of Finance is made that the state’s obligations under a Games support contract, or any other agreement, to indemnify and insure against any net financial deficit and general liability resulting from the conduct of the Games are satisfied and concluded, at which time the trust fund shall be
terminated. If a municipality in the State of California is not selected by the United States Olympic Committee as the United States candidate city to host the Games, or if the municipality is not selected by the International Olympic Committee as the host city for the Games, the Olympic Games Trust Fund shall be immediately terminated.

(f) Upon the termination of the Olympic Games Trust Fund, all sums earmarked, transferred, or contained in the fund, along with any investment earnings retained in the fund, shall immediately revert to the General Fund.

SEC. 7. (a) Any moneys deposited, transferred, or otherwise contained in the Olympic Games Trust Fund established in Section 6 shall be, upon appropriation by the Legislature, used for the sole purpose of obtaining adequate security, acceptable to the United States Olympic Committee and the International Olympic Committee, to demonstrate the state’s ability to fulfill its obligations under a Games support contract to indemnify and insure up to two hundred fifty million dollars ($250,000,000) of any general liability and net financial deficit resulting from the conduct of the Games. The security may be provided by moneys contained in the trust fund as provided in Section 6 of this act, or by insurance coverage, letters of credit, or other acceptable secured instruments purchased or secured by the moneys, or by any combination thereof. In no event may the liability of the state under all Games support contracts, any other agreements related to the conduct of the Games, and all financial obligations of the state otherwise arising under this act, exceed two hundred fifty million dollars ($250,000,000) in the aggregate.

(b) Obligations authorized by this act shall be payable solely from the Olympic Games Trust Fund. Neither the full faith and credit nor the taxing power of the state are or may be pledged for any payment under any obligation authorized by this act.

SEC. 8. The state shall be the payer of last resort with regard to any net financial deficit as defined in this act. The security provided pursuant to this act may not be accessed to cover any general liability and net financial deficit indemnified by the state under the Games support contract until:

(a) The security provided by the local organizing committee is fully expended and exhausted.

(b) Any security provided by any other person or entity is fully expended and exhausted.

(c) The limits of available insurance policies covering any general liability obligation and the net financial deficit, or any expense or liability used in determining the net financial deficit, have been fully expended and exhausted.
(d) Payment has been sought by the local organizing committee from all third parties owing moneys or otherwise liable to the local organizing committee.

SEC. 9. The local organizing committee shall list the state as an additional insured on any policy of insurance purchased by the local organizing committee to be in effect in connection with the preparation for and conduct of the Games.

SEC. 10. The local organizing committee may not engage in any conduct that reflects unfavorably upon this state, the Endorsing Municipality, or the Games, or that is contrary to law or to the rules and regulations of the United States Olympic Committee and the International Olympic Committee.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to meet deadlines for the bid process for the 2012 Olympic Games, it is necessary that this act go into immediate effect.

The local law enforcement agency shall remove the person’s registration from its files within 30 days of receipt of notification. If the documentary or other evidence submitted is insufficient to establish the person’s claim, the department shall, within 60 days of receipt of those documents, notify the person that his
or her claim cannot be established, and that the person shall continue to register pursuant to this section. The department shall provide, upon the person's request, any information relied upon by the department in making its determination that the person shall continue to register pursuant to this section. Any person whose claim has been denied by the department pursuant to this clause may petition the court to appeal the department's denial of the person's claim.

The official shall at the same time forward a current photograph of the person to the Department of Justice.

(2) The official in charge of the place of confinement or hospital shall give one copy of the form to the person and shall send one copy to the Department of Justice and one copy to the appropriate law enforcement agency or agencies having jurisdiction over the place the person expects to reside upon discharge, parole, or release. If the conviction that makes the person subject to this section is a felony conviction, the official in charge shall, not later than 45 days prior to the scheduled release of the person, send one copy to the appropriate law enforcement agency or agencies having local jurisdiction where the person expects to reside upon discharge, parole, or release; one copy to the prosecuting agency
that prosecuted the person; and one copy to the Department of Justice. The official in charge of the place of confinement or hospital shall retain one copy.

(c)  (1) Any person who is convicted in this state of the commission or attempted commission of any of the offenses specified in subdivision (a) and who is released on probation, shall, prior to release or discharge, be informed of the duty to register under this section by the probation department, and a probation officer shall require the person to read and sign any form that may be required by the Department of Justice, stating that the duty of the person to register under this section has been explained to him or her. (2) Any person who is convicted in this state of the commission or attempted commission of any of the offenses specified in subdivision (a) and who is granted conditional release without supervised probation, or discharged upon payment of a fine, shall, prior to release or discharge, be informed of the duty to register under this section in open court by the court in which the person has been convicted, and the court shall require the person to read and sign any form that may be required by the Department of Justice, stating that the duty of the person to register under this section has been explained to him or her. If the court finds that it is in the interest of the efficiency of the court, the court may assign the bailiff to require the person to read and sign forms under this section. The court shall obtain the address where the person expects to reside upon release or discharge and shall report within three days the address to the Department of Justice. The court shall give one copy of the form to the person, send one copy to the Department of Justice, and forward one copy to the appropriate law enforcement agency or agencies having local jurisdiction where the person expects to reside upon his or her discharge, parole, or release.

(d)  (1) Any person who, on or after January 1, 1986, is discharged or paroled from the Department of the Youth Authority to the custody of which he or she was committed after having been adjudicated a ward of the juvenile court pursuant to Section 602 of the Welfare and Institutions Code because of the commission or attempted commission of any offense described in paragraph (3) shall be subject to registration under the procedures of this section.
(2) Any person who is discharged or paroled from a facility in another state that is equivalent to the Department of the Youth Authority, to the custody of which he or she was committed because of an offense which, if committed or attempted in this state, would have been punishable as one or more of the offenses described in paragraph (3), shall be subject to registration under the procedures of this section.

(3) Any person described in this subdivision who committed an offense in violation of any of the following provisions shall be required to register pursuant to this section:

(A) Assault with intent to commit rape, sodomy, oral copulation, or any violation of Section 264.1, 288, or 289 under Section 220.

Department of the Youth Authority officials shall transmit the required forms and information to the Department of Justice.

(5) All records specifically relating to the registration in the custody of the Department of Justice, law enforcement agencies, and other agencies or public officials shall be destroyed when the person who is required to register has his or her records sealed under the procedures set forth in Section 781 of the Welfare and Institutions Code. This subdivision shall not be construed as requiring the destruction of other criminal offender or juvenile records relating to the case that are maintained by the Department of Justice, law enforcement agencies, the juvenile court, or other agencies and public officials unless ordered by a court under Section 781 of the Welfare and Institutions Code.

(e) (1) On or after January 1, 1998, upon incarceration, placement, or commitment, or prior to release on probation, any person who is required to register under this section shall preregister. The preregistering official shall be the admitting officer at the place of incarceration, placement, or commitment, or the probation officer if the person is to be released on probation. The preregistration shall consist of both of the following:

(B) The fingerprints and a current photograph of the person.
(C) Any person who is preregistered pursuant to this subdivision is required to be preregistered only once.

(2) A person described in paragraph (2) of subdivision (a) shall register, or reregister if the person has previously registered, upon release from incarceration, placement, or commitment, pursuant to paragraph (1) of subdivision (a). The registration shall consist of all of the following:

(A) A statement in writing signed by the person, giving information as shall be required by the Department of Justice and giving the name and address of the person’s employer, and the address of the person’s place of employment if that is different from the employer’s main address.

(E) Copies of adequate proof of residence, which shall be limited to a California driver’s license, California identification card, recent rent or utility receipt, printed personalized checks or other recent banking documents showing that person’s name and address, or any other information that the registering official believes is reliable. If the person has no residence and no reasonable expectation of obtaining a residence in the foreseeable future, the person shall so advise the registering official and shall sign a statement provided by the registering official stating that fact. Upon presentation of proof of residence to the registering official or a signed statement that the person has no residence, the person shall be allowed to register. If the person claims that he or she has a residence but does not have any proof of residence, he or she shall be allowed to register but shall furnish proof of residence within 30 days of the day he or she is allowed to register.

(3) Within three days thereafter, the preregistering official or the registering law enforcement agency or agencies shall forward the statement, fingerprints, photograph, and vehicle license plate number, if any, to the Department of Justice.

(f) (1) If any person who is required to register pursuant to this section changes his or her residence address or location, whether within the jurisdiction in which he or she is currently registered or to a new jurisdiction inside or outside the state, the person shall inform, in writing within five working days, the law enforcement agency or agencies with which he or she last registered of the new address or location. The law enforcement agency or agencies shall, within three days after receipt of
this information, forward a copy of the change of address or location information to the Department of Justice. The Department of Justice shall forward appropriate registration data to the law enforcement agency or agencies having local jurisdiction of the new place of residence or location.

(2) If the person’s new address is in a Department of the Youth Authority facility or a state prison or state mental institution, an official of the place of incarceration, placement, or commitment shall, within 90 days of receipt of the person, forward the registrant’s change of address information to the Department of Justice. The agency need not provide a physical address for the registrant but shall indicate that he or she is serving a period of incarceration or commitment in a facility under the agency’s jurisdiction. This paragraph shall apply to persons received in a Department of the Youth Authority facility or a state prison or state mental institution on or after January 1, 1999. The Department of Justice shall forward the change of address information to the agency with which the person last registered.

(3) If any person who is required to register pursuant to this section changes his or her name, the person shall inform, in person, the law enforcement agency or agencies with which he or she is currently registered within five working days. The law enforcement agency or agencies shall forward a copy of this information to the Department of Justice within three days of its receipt.

(2) Except as provided in paragraphs (5) and (7), any person who is required to register under this section based on a felony conviction or juvenile adjudication who willfully violates any requirement of this section or who has a prior conviction or juvenile adjudication for the offense of failing to register under this section and who subsequently and willfully violates any requirement of this section is guilty of a felony and shall be punished by imprisonment in the state prison for 16 months, or two or three years.

If probation is granted or if the imposition or execution of sentence is suspended, it shall be a condition of the probation or suspension that the person serve at least 90 days in a county jail. The penalty described in this paragraph shall apply whether or not the person has been released on parole or has been discharged from parole.

(3) Any person determined to be a mentally disordered sex offender or who has been found guilty in the guilt phase of trial for an offense for which registration is required under this section, but who has been found
not guilty by reason of insanity in the sanity phase of the trial, or who has had a petition sustained in a juvenile adjudication for an offense for which registration is required under this section pursuant to subdivision (d), but who has been found not guilty by reason of insanity, who willfully violates any requirement of this section is guilty of a misdemeanor and shall be punished by imprisonment in a county jail not exceeding one year. For any second or subsequent willful violation of any requirement of this section, the person is guilty of a felony and shall be punished by imprisonment in the state prison for 16 months, or two or three years.

(4) If, after discharge from parole, the person is convicted of a felony or suffers a juvenile adjudication as specified in this subdivision, he or she shall be required to complete parole of at least one year, in addition to any other punishment imposed under this subdivision. A person convicted of a felony as specified in this subdivision may be granted probation only in the unusual case where the interests of justice would best be served. When probation is granted under this paragraph, the court shall specify on the record and shall enter into the minutes the circumstances indicating that the interests of justice would best be served by the disposition.

(5) Any person who has ever been adjudicated a sexually violent predator, as defined in Section 6600 of the Welfare and Institutions Code, and who fails to verify his or her registration every 90 days as required pursuant to subparagraph (E) of paragraph (1) of subdivision (a), shall be punished by imprisonment in the state prison, or in a county jail not exceeding one year.

(6) Except as otherwise provided in paragraph (5), and in addition to any other penalty imposed under this subdivision, any person who is required pursuant to subparagraph (C) of paragraph (1) of subdivision (a) to update his or her registration every 60 days and willfully fails to update his or her registration is guilty of a misdemeanor and shall be punished by imprisonment in a county jail not exceeding six months. Any subsequent violation of this requirement that persons described in subparagraph (C) of paragraph (1) of subdivision (a) shall update their registration every 60 days is also a misdemeanor and shall be punished by imprisonment in a county jail not exceeding six months.

(7) Any person who fails to provide proof of residence as required by subparagraph (E) of paragraph (2) of subdivision (e), regardless of the offense upon which the duty to register is based, is guilty of a misdemeanor punishable by imprisonment in a county jail not exceeding six months.

(8) Any person who is required to register under this section who willfully violates any requirement of this section is guilty of a continuing offense.
(h) Whenever any person is released on parole or probation and is required to register under this section but fails to do so within the time prescribed, the parole authority, the Youthful Offender Parole Board, or the court, as the case may be, shall order the parole or probation of the person revoked. For purposes of this subdivision, “parole authority” has the same meaning as described in Section 3000.

(i) Except as provided in subdivisions (m) and (n) and Section 290.4, the statements, photographs, and fingerprints required by this section shall not be open to inspection by the public or by any person other than a regularly employed peace officer or other law enforcement officer.

(j) In any case in which a person who would be required to register pursuant to this section for a felony conviction is to be temporarily sent outside the institution where he or she is confined on any assignment within a city or county including firefighting, disaster control, or of whatever nature the assignment may be, the local law enforcement agency having jurisdiction over the place or places where the assignment shall occur shall be notified within a reasonable time prior to removal from the institution. This subdivision shall not apply to any person who is temporarily released under guard from the institution where he or she is confined.

(k) As used in this section, “mentally disordered sex offender” includes any person who has been determined to be a sexual psychopath or a mentally disordered sex offender under any provision which, on or before January 1, 1976, was contained in Division 6 (commencing with Section 6000) of the Welfare and Institutions Code.

(l) (1) Every person who, prior to January 1, 1997, is required to register under this section, shall be notified whenever he or she next reregisters of the reduction of the registration period from 14 to five working days. This notice shall be provided in writing by the registering agency or agencies. Failure to receive this notification shall be a defense against the penalties prescribed by subdivision (g) if the person did register within 14 days.

(2) Every person who, as a sexually violent predator, as defined in Section 6600 of the Welfare and Institutions Code, is required to verify his or her registration every 90 days, shall be notified wherever he or she next registers of his or her increased registration obligations. This notice shall be provided in writing by the registering agency or agencies. Failure to receive this notice shall be a defense against the penalties prescribed by paragraph (5) of subdivision (g).

(m) (1) When a peace officer reasonably suspects, based on information that has come to his or her attention through information provided by any peace officer or member of the public, that a child or other person may be at risk from a sex offender convicted of a crime listed in paragraph (1) of subdivision (a) of Section 290.4, a law
enforcement agency may, notwithstanding any other provision of law, provide any of the information specified in paragraph (4) of this subdivision about that registered sex offender that the agency deems relevant and necessary to protect the public, to the following persons, agencies, or organizations the offender is likely to encounter, including, but not limited to, the following:

(A) Public and private educational institutions, day care establishments, and establishments and organizations that primarily serve individuals likely to be victimized by the offender.

(B) Other community members at risk.

(2) The law enforcement agency may authorize persons and entities who receive the information pursuant to paragraph (1) to disclose information to additional persons only if the agency does the following:

(6) For purposes of this section, “likely to encounter” means both of the following:

(A) That the agencies, organizations, or other community members are in a location or in close proximity to a location where the offender lives or is employed, or that the offender visits or is likely to visit on a regular basis.

(B) The types of interaction that ordinarily occur at that location and other circumstances indicate that contact with the offender is reasonably probable.

(7) For purposes of this section, “reasonably suspects” means that it is objectively reasonable for a peace officer to entertain a suspicion, based upon facts that could cause a reasonable person in a like position, drawing when appropriate on his or her training and experience, to suspect that a child or other person is at risk.

(8) For purposes of this section, “at risk” means a person is or may be exposed to a risk of becoming a victim of a sex offense committed by the offender.

(F) For purposes of subparagraphs (B) to (D), inclusive, an arrest as a juvenile or an adjudication as a ward of the juvenile court within the meaning of Section 602 of the Welfare and Institutions Code for any of the offenses described in those subparagraphs is to be considered in determining whether an offender is a high-risk sex offender.

(G) Notwithstanding subparagraphs (A) to (D), inclusive, an offender shall not be considered to be a high-risk sex offender if either of the following apply:

(i) The offender’s most recent conviction or arrest for an offense described in subparagraphs (B) to (D), inclusive, occurred more than five years prior to the high-risk assessment by the Department of Justice, excluding periods of confinement.

Four times each year, the department shall provide to each chief of police and sheriff in the state, and to any other designated law enforcement entity upon request, the following information regarding each identified high-risk sex offender: full name; known aliases; gender; race; physical description; photograph; date of birth; and crimes resulting in classification under this section.

(3) The Department of Justice and any designated law enforcement entity to which notice has been given pursuant to paragraph (2) may cause to be made public, by whatever means the agency deems necessary to ensure the public safety, based upon information available to the agency concerning a specific person, including, but not limited to, the information described in paragraph (2); the offender’s address, which shall be verified prior to publication; description and license plate number of the offender’s vehicles or vehicles the offender is known to drive; type of victim targeted by the offender; relevant parole or probation conditions, such as one prohibiting contact with children; dates of crimes resulting in classification under this section; and date of release from confinement; but excluding information that would identify the victim.

disclose that information in the manner and to the extent authorized by the law enforcement entity.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of
Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

CHAPTER 18

An act relating to the Glassy-winged Sharpshooter, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 6, 2002. Filed with Secretary of State April 8, 2002.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares the following:

(a) California is the leading producer of wine in the United States, accounting for 91 percent of the total United States wine production and 72 percent of total wine sales.

(b) The Glassy-winged Sharpshooter is a potent vector for Pierce’s disease that has the potential to harm California’s multibillion dollar wine industry by transmitting the bacterium Xylella Fastidiosa. This bacterium destroys wine grape plants by shutting down the plant’s ability to take up water and nutrients.

(c) To date, the Glassy-winged Sharpshooter and the resulting Pierce’s disease have destroyed millions of dollars of California’s most productive wine and table grapevines. This has resulted in rural unemployment and severely threatens local rural economies.

SEC. 2. The sum of seven million one hundred forty thousand dollars ($7,140,000) in federal funds made available to the Department of Food and Agriculture pursuant to Public Law 106-224, and pursuant to regulations and guidelines adopted thereunder, to compensate grape growers for vine losses resulting from Pierce’s disease spread by the Glassy-winged Sharpshooter, are hereby appropriated to the Department of Food and Agriculture Fund for distribution via individual grants in accordance with criteria established by the department, consistent with federal guidelines. The department may retain not more than 5 percent of the federal allocation to cover administrative expenses directly related to the program, including department overhead and third-party verifications.
Funds appropriated pursuant to this section shall be available for expenditure by the department until December 31, 2002.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to restore rural economic stability to grape production areas of California at the earliest possible time, it is necessary for this act to take effect immediately as an urgency statute.

CHAPTER 19

An act to add Section 68130.7 to the Education Code, and to amend Section 1 of Chapter 814 of the Statutes of 2001, relating to public postsecondary education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 6, 2002. Filed with Secretary of State April 8, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 814 of the Statutes of 2001 is amended to read:

Sec. 1. (a) The Legislature hereby finds and declares all of the following:

(1) There are high school pupils who have attended elementary and secondary schools in this state for most of their lives and who are likely to remain, but are precluded from obtaining an affordable college education because they are required to pay nonresident tuition rates.

(2) These pupils have already proven their academic eligibility and merit by being accepted into our state’s colleges and universities.

(3) A fair tuition policy for all high school pupils in California ensures access to our state’s colleges and universities, and thereby increases the state’s collective productivity and economic growth.

(4) This act, as enacted during the 2001–02 Regular Session, allows all persons, including undocumented immigrant students who meet the requirements set forth in Section 68130.5 of the Education Code, to be exempt from nonresident tuition in California’s colleges and universities.

(5) This act, as enacted during the 2001–02 Regular Session, does not confer postsecondary education benefits on the basis of residence within the meaning of Section 1623 of Title 8 of the United States Code.
(b) It is the intent of the Legislature that this act will have no impact on the ability of California’s public colleges and universities to assess nonresident tuition on students who are not within the scope of this act.

SEC. 2. Section 68130.7 is added to the Education Code, to read:

68130.7. If a state court finds that Section 68130.5, or any similar provision adopted by the Regents of the University of California, is unlawful, the court may order, as equitable relief, that the administering entity that is the subject of the lawsuit terminate any waiver awarded under that statute or provision, but no money damages, tuition refund or waiver, or other retroactive relief, may be awarded. In any action in which the court finds that Section 68130.5, or any similar provision adopted by the Regents of the University of California, is unlawful, the California Community Colleges, the California State University, and the University of California are immune from the imposition of any award of money damages, tuition refund or waiver, or other retroactive relief.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for this act to take effect in time for the commencement of the 2002–03 academic year, it is necessary for it to take effect immediately.

CHAPTER 20

An act to amend Section 13246 of, and to add Section 13191.3 to, the Water Code, relating to water, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 6, 2002. Filed with Secretary of State April 8, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Section 13191.3 is added to the Water Code, to read:

13191.3. (a) The state board, on or before July 1, 2003, shall prepare guidelines to be used by the state board and the regional boards for the purpose of listing and delisting waters and developing and implementing the total maximum daily load (TMDL) program and total maximum daily loads pursuant to Section 303(d) of the federal Clean Water Act (33 U.S.C. Sec. 1313(d)).

(b) For the purposes of preparing the guidelines, the state board shall consider the consensus recommendations adopted by the public advisory group convened pursuant to Section 13191.
(c) The guidelines shall be finalized not later than January 1, 2004.  
SEC. 2. Section 13246 of the Water Code is amended to read:  
13246. (a) The state board shall act upon any water quality control  
plan not later than 60 days from the date the regional board submitted  
the plan to the state board, or 90 days from the date of resubmission of  
the plan.  
(b) When the state board is acting upon a water quality control plan  
that is being amended solely for an action related to a regional board’s  
total maximum daily load submittal, not including submittals related to  
listing, the state board shall not exceed the 60-day timeline, inclusive of  
the time spent sending the submittal back to the regional board, unless  
one of the following circumstances exists:  
(1) The proposed amendment is for an exceedingly complex total  
maximum daily load. In order to determine if a total maximum daily load

The board shall, at a public hearing held in September in each year that the Legislature appropriates funds for purposes of this chapter, consider and determine each submitted request within 60 days of receipt, pursuant to the decision of a majority of a quorum present. The board shall consider these written requests separate and apart from the process applicable to proposed allocations of the county general fund.

(2) In the case of a city, the city council shall appropriate existing and anticipated moneys exclusively to fund frontline municipal police services, in accordance with written requests submitted by the chief of police of that city or the chief administrator of the law enforcement agency that provides police services for that city. These written requests shall be acted upon by the city council in the same manner as specified in paragraph (1) for county appropriations.

(e) Funds received pursuant to subdivision (b) shall be expended or encumbered in accordance with this chapter no later than June 30 of the following fiscal year. A local agency that has not met this requirement shall remit unspent SLESF moneys to the Controller for deposit into the General Fund.

(f) In the event that a county, a city, a city and county, or a qualifying special district does not comply with the requirements of this chapter to receive an SLESF allocation, the Controller shall revert those funds to the General Fund.

SEC. 2. Section 30063 of the Government Code is amended to read:

The treasurer of the county and each city shall provide a monthly SLESF investment report to either the police chief or the county sheriff and district attorney, as applicable.

The Controller shall make a copy of the summarized reports available to the Governor, the Legislature, and the Legislative Analyst’s office.

(e) By March 1 of each year, the Legislative Analyst’s office shall report to the Legislature on the types of expenditures made by local law enforcement agencies in the previous fiscal year pursuant to this chapter, and, to the extent feasible, on the effects of those expenditures on law enforcement and public safety.

CHAPTER 26

An act to amend Sections 50802.5, 51455, 51479, and 53130 of, to add Sections 50675.13, 50675.14, 51451.5, 51453, and 51505 to, and to add Part 11 (commencing with Section 53500) to Division 31 of, the Health and Safety Code, relating to financing housing programs by providing the funds necessary therefor through the issuance and sale of bonds of the State of California and by providing for the handling and disposition of those funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 22, 2002. Filed with Secretary of State April 22, 2002.]

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) Approximately 220,000 housing units need to be produced in California each year to meet demand. Yet only four times in the last 20 years has the production target been reached.

(2) While the national homeownership rate has reached a record high, the rate in California is 10 percent below the national average, and ranks 48th in the nation.

(3) There is an extreme shortage of rental housing in California, particularly for lower income renters. Rental housing construction is primarily at the high end of the rental market. The statewide rental vacancy rate is fourth lowest in the nation.

(4) Over one-third of all renter families statewide pay over half their incomes in rent. Over one-half of all low-income renter families pay over half their incomes in rent, while almost three out of four very low income renter families pay over half their incomes in rent. It requires 106 hours per week at a minimum wage job to afford the average two-bedroom unit in California.
(5) One out of every eight housing units statewide is in substandard condition, and one of every eight metropolitan California rentals is overcrowded. Threats to resident safety and displacement and costs of repairs and rehabilitation can be mitigated with more effective local housing code enforcement and compliance activities. Moreover, increased availability of public funds to help finance rehabilitation and repairs will result in the preservation of existing housing rather than replacement of that housing at higher construction costs.

(6) The Department of Housing and Community Development estimates that there are over 360,000 homeless individuals in California, and other data discloses that one-third of the homeless population, and the segment increasing most rapidly, are families with children.

(7) More than 147,000 rental units built in this state prior to 1980 under the Section 236, Section 221(d)(3), and Section 8 programs of the United States Department of Housing and Urban Development and the Section 515 program of the federal Farmers Home Administration are at risk of conversion to higher rent housing or condominium units. Loss of this housing stock will displace thousands of elderly, disabled, and struggling families with no place to go.

(8) The basic housing goal for state government pursuant to subdivision (b) of Section 50003 of the Health and Safety Code is to provide a decent home and suitable living environment for every California family.

(b) The Legislature further finds and declares all of the following:

(1) There is an urgent need to provide affordable housing to meet the increasingly unfulfilled housing needs of this state.

(2) There is an immediate need to reaffirm the commitment to the official housing policy of the state and provide sufficient financial resources to meet this commitment over a reasonable period of time.

(3) There is a critical need to provide financial assistance to do all of the following:

(A) Purchase, construct, and rehabilitate emergency shelters and transitional housing for homeless families and individuals.

(B) Construct rental housing for families and individuals, including the special housing needs of seniors, the disabled, and farmworkers.

(C) Preserve and rehabilitate affordable homes and rental housing.

(D) Provide home purchase assistance for first-time homebuyers.

SEC. 1.5. Section 50675.13 is added to the Health and Safety Code, to read:

50675.13. (a) If the Housing and Emergency Shelter Trust Fund Act of 2002 is approved by the voters, with respect to funds appropriated pursuant to paragraph (1) of subdivision (a) of Section 53533, the department shall award reasonable priority points for projects to prioritize any of the following:
(1) Infill development.

(2) Adaptive reuse in existing developed areas served with public infrastructure.

(3) Projects in proximity to public transit, public schools, parks and recreational facilities, or job centers.

(b) The department may utilize other factors in rural areas to promote infill development.

SEC. 1.6. Section 50675.14 is added to the Health and Safety Code, to read:

50675.14. If the Housing and Emergency Shelter Trust Fund Act of 2002 is approved by the voters, with respect to funds appropriated to the Multifamily Housing Program pursuant to paragraph (3) of subdivision (a) of Section 53533, the department shall consider, commencing in the second year of the funding, the feasibility and appropriateness of modifying its regulations to increase the use of funds by small projects. In doing this, the department shall consider its operational needs and prior history of funding supportive housing facilities.

SEC. 1.7. Section 50802.5 of the Health and Safety Code is amended to read:

50802.5. (a) The department shall issue a notice or notices of funding availability to potential applicants and designated local boards, as applicable, as soon as possible after funding becomes available for the Emergency Housing and Assistance Program. Each notice of funding availability shall indicate the amounts and types of funds available under this program.

(b) A designated local board, or the department in the absence of a designated local board, shall solicit, receive, and select among applications for grants pursuant to this chapter from eligible organizations through an open, fair, and competitive process. These applications shall be ranked and selected by a designated local board, or by the department in the absence of a designated local board.

(c) Notwithstanding subdivision (b), the department may restrict a designated local board from selecting any application requesting a grant for capital developments if the amount requested by the application exceeds the limits determined by the department, and the department determines that the designated local board is not qualified to evaluate the application. The department shall establish criteria for distinguishing between a designated local board that may be so restricted and a designated local board that would not be so restricted. A designated local board may appeal to the director, or to the director’s designee, any decision made by the department pursuant to this subdivision. The department, by June 30, 2001, shall consider increasing the maximum grant limits to three hundred thousand dollars ($300,000) for operating grants and five hundred thousand dollars ($500,000) for capital grants.
(d) The department, or the designated local board, as applicable, shall not grant more than one million dollars ($1,000,000) to any eligible organization within a region in a funding round even if the eligible organization has filed multiple applications.

(e) The department shall determine requirements of the grant contract and shall contract directly with the grant recipient. The department shall not delegate this function to the designated local boards. Eligible designated local boards may use a percentage of the regional award funds to defray administrative costs. The department shall establish this percentage, which shall not exceed 2 percent.

(f) The designated local board shall regulate the performance of any grant contract within their region, subject to department oversight and requirements established by the department.

(g) The department shall not perform a secondary rating or ranking review on those grant applications that have been solicited, received, and selected by a designated local board according to a local ranking criterion that has been approved by the department.

(h) Notwithstanding any other provision of this chapter, if the Housing and Emergency Shelter Trust Fund Act of 2002 is approved by the voters, funds allocated pursuant to paragraph (2) of subdivision (a) of Section 53533 shall be administered by the department in a manner consistent with the restrictions and authorizations contained in provision 3 of Item 2240-105-0001 of the Budget Act of 2000, except that any appropriations in that item shall not apply. The competitive system used by the department shall incorporate priorities set by the designated local boards and their input as to the relative merits of submitted applications from within the designated local board’s county in relation to those priorities.

In addition, the funding limitations contained in this section shall not apply to the appropriation in that budget item.

SEC. 2. Section 51451.5 is added to the Health and Safety Code, to read:

51451.5. The Homebuyer Down Payment Assistance Program of 2002 is hereby established, to provide assistance in the amount of the applicable school facility fee on affordable housing developments. The Homebuyer Down Payment Assistance Program of 2002 shall, with funds provided by the Housing and Emergency Shelter Trust Fund Act of 2002 (Part 11 (commencing with Section 53500)), provide the following assistance:

(5) The sales price of the eligible residential structure does not exceed 175 percent of the median sales price of residential structures in the county during the average of the previous five years.

(b) Downpayment assistance to the purchaser of any newly constructed residential structure in a development project in the aggregate amount of school facility fees paid pursuant to one, all, or any combination of subdivision (b) of Section 65995, Section 65995.5, or Section 65995.7 of the Government Code for the eligible residential structure if all of the following conditions are met:

PART 11. HOUSING AND EMERGENCY SHELTER TRUST FUND ACT OF 2002

CHAPTER 1. GENERAL PROVISIONS

53500. This part shall be known and may be cited as the Housing and Emergency Shelter Trust Fund Act of 2002.

53501. As used in this part, the following terms have the following meanings:

(a) “Committee” means the Housing Finance Committee created pursuant to Section 53524.

(b) “Fund” means the Housing and Emergency Shelter Trust Fund created pursuant to Section 53520.

CHAPTER 2. HOUSING AND EMERGENCY SHELTER TRUST FUND

53520. The proceeds of bonds issued and sold pursuant to this part shall be deposited in the Housing and Emergency Shelter Trust Fund, which is hereby created. Money in the fund shall be allocated and utilized in accordance with Chapter 4 (commencing with Section 53533).

CHAPTER 3. FISCAL PROVISIONS

53521. Bonds in the total amount of two billion one hundred million dollars ($2,100,000,000) exclusive of refunding bonds, or so much thereof as is determined necessary and feasible by the committee in order to effectuate this part or to conduct an effective sale, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid legally and binding obligation of the state, and the full faith and credit of the state is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

53522. Any bonds issued and sold pursuant to this part may be refunded by the issuance of refunding bonds in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code. Approval by the electors of the state for the issuance of bonds described in this chapter shall include the approval of the issuance of any bonds issued to refund any bonds originally issued or any previously issued refunding bonds.
53523. (a) The bonds authorized by this part shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code) and all of the other provisions of that law apply to the bonds and to this part and are hereby incorporated in this part as though set forth in full in this part.

(b) Pursuant to the State General Obligation Bond Law, the cost of bond issuance shall be paid out of the bond proceeds. These costs shall be shared proportionally by each program funded through this chapter.

53524. (a) Solely for the purpose of authorizing the issuance and sale, pursuant to the State General Obligation Bond Law, of the bonds authorized by this part, the Housing Finance Committee is hereby created. For purposes of this part, the Housing Finance Committee is “the committee” as that term is used in the State General Obligation Bond Law. The committee consists of the Controller, the Treasurer, the Director of Finance, the Secretary of the Business, Transportation and Housing Agency, the Director of Housing and Community Development, and the Executive Director of the California Housing Finance Agency, or their designated representatives. The Treasurer shall serve as the chairperson of the committee. A majority of the committee may act for the committee.

(b) For purposes of the State General Obligation Bond Law, the department is designated the “board” for programs administered by the department, and the agency is the “board” for programs administered by the agency.

53525. Upon request of the board stating that funds are needed for the purposes of this chapter, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this part in order to carry out the actions specified in Chapter 4 (commencing with Section 53533) and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

53526. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

53527. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund, for the purposes of this part, an amount that will equal the total of the following:
(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this part, as the principal and interest become due and payable.

(b) The sum necessary to carry out the provisions of Section 53528, appropriated without regard to fiscal years.

53528. For the purposes of carrying out this part, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized by the committee to be sold for the purpose of carrying out this part. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund from money received from the sale of bonds for the purpose of carrying out this part.

53529. Notwithstanding any other provision of this part, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this part that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes under designated conditions, the Treasurer may maintain separate accounts for the bond proceeds invested and the investment earnings on those proceeds, and may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law, or take any other action with respect to the investment and use of those bond proceeds, as may be required or desirable under federal law in order to maintain the tax exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

53530. The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purposes of carrying out this part. The amount of the request shall not exceed the amount of unsold bonds that the committee has by resolution authorized to be sold for the purpose of carrying out this part. The board shall execute any documents that are required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this part.

53531. All money deposited in the fund that is derived from premiums and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

53532. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this part are not "proceeds of taxes" as that term is used in Article XIII B of the
California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

CHAPTER 4. ALLOCATION OF HOUSING BOND REVENUES

53533. (a) Money deposited in the fund from the sale of bonds pursuant to this part shall be allocated for expenditure in accordance with the following schedule:

This funding shall be in addition to any applicable per-unit or project loan limits and may be in the form of a grant. Service providers shall ensure that services are available to project residents on a priority basis over the general public.

Those determinations shall be set forth in the Notice of Funding Availability and shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Title 2 of the Government Code.

(ii) All funds shall be matched on a one-to-one basis from private sources or by the University of California or California State University. For the purposes of this subparagraph, “University of California” includes the Hastings College of the Law.
(iii) Occupancy for the units shall be restricted to students enrolled on a full-time basis in the University of California or California State University.

(iv) Income eligibility pursuant to the Multifamily Housing Program shall be established by verification of the combined income of the student and his or her family.

This allocation shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Title 2 of the Government Code. If the moneys allocated pursuant to this paragraph are not expended within three years after being transferred, the department may, in its discretion, transfer the moneys to the Housing Rehabilitation Loan Fund to be expended for the Multifamily Housing Program.

(7) Two hundred ninety million dollars ($290,000,000) shall be transferred to the Self-Help Housing Fund. SECTION 1. Section 1776 of the Labor Code, as amended by Section 2 of Chapter 804 of the Statutes of 2001, is amended to read:

1776. (a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following:

(1) The information contained in the payroll record is true and correct.

(2) The employer has complied with the requirements of Sections 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee’s payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

(c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division.
(d) A contractor or subcontractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request.

The court may award restitution to an employee for unpaid wages and may award the joint labor management committee reasonable attorney’s fee and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer’s misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this chapter.

(f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division
7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section.

In awarding any contract for public work, the awarding body shall cause to be inserted in the contract a stipulation to this effect. The awarding body shall take cognizance of all violations of this article committed in the course of the execution of the contract, and shall report them to the Division of Labor Standards Enforcement.

(a) If the failure of the employing unit to file a return or report within the time required by this division and authorized regulations or if any part of the deficiency for which an assessment is made is due to fraud or an intent to evade this division or authorized regulations, a penalty of 50 percent of the amount of contributions assessed shall be added to the assessment. This penalty is in addition to the penalties provided pursuant to Sections 1126 and 1127.

(b) An additional penalty of 50 percent of the amount of contributions assessed shall be added to any assessment that includes a penalty under subdivision (a), if the employer paid wages and failed to provide information returns as required under Section 13050 of this code or Section 6041A of the Internal Revenue Code. This penalty shall be in addition to any penalties under Section 1126 or 1127.

1177.5. (a) If the director determines that an overpayment has been made to the department by an employing unit or the School Employees Fund because of a reason specified in this subdivision, and the amount of the overpayment has been reimbursed to the state by the federal government pursuant to the federal Workforce Investment Act of 1998, then the director shall credit the employing unit or the School Employees Fund with the amount of that overpayment, provided that the director determines that the overpayment was made because of one of the following:

(b) No overpayment described in subdivision (a) shall be refunded to an employing unit or to the School Employees Fund.

Electronic funds transfers shall be accomplished by an automated clearinghouse debit, an automated clearinghouse credit, Fedwire, or by other specific electronic funds transfer methods approved in advance by the department.

(b) “Automated clearinghouse” means any federal reserve bank, or an organization established in agreement with the National Automated Clearing House Association, that operates as a clearinghouse for transmitting or receiving entries between banks and/or bank accounts and which authorizes an electronic transfer of funds between those banks or bank accounts.

(c) “Automated clearinghouse debit” means a transaction in which the state, through its designated depository bank, originates an automated clearinghouse transaction debiting the employer’s bank account and crediting the state’s bank account for the amount of tax. Banking costs incurred for the automated clearinghouse debit transaction shall be paid by the state.

(d) “Automated clearinghouse credit” means an automated clearinghouse transaction in which the employer through its own bank, originates an entry crediting the state’s bank account and debiting its own bank account. Banking costs incurred for the automated clearinghouse credit transaction charged to the employer and to the state shall be paid by the employer.

(e) “Fedwire” means any transaction originated by the employer and utilizing the national electronic payment system to transfer funds through the federal reserve banks, pursuant to which the employer debits its own bank account and credits the state’s bank account. Banking costs incurred for the Fedwire transaction charged to the employer and to the state shall be paid by the employer.

(f) “Banking day” means any day other than a Saturday, Sunday, or banking holiday as recognized by the Internal Revenue Service.

(g) “Settlement date” means the date on which an exchange of funds with respect to an entry is reflected on the books of the Federal Reserve Bank.

purposes of this section, the “cumulative average payment” may also be defined as a single annual deposit, when only one payment is made during the 12-month period ending June 30.

SEC. 17. Section 13028 of the Unemployment Insurance Code is amended to read:

13028. (a) For purposes of this division (and so much of Part 10 (commencing with Section 17001) and Part 10.2 (commencing with Section 18401) of Division 2 of the Revenue and Taxation Code as relates to this division) pensions, annuities, and other deferred income, as described in Section 3405 of the Internal Revenue Code, are wages and subject to withholding under this division. Amounts withheld shall be treated as if the amounts are withheld by an employer for a payroll period and only amounts withheld shall be reported to the department pursuant to Section 1088 and Section 13021.

(b) If an individual makes an election under Section 3405(a)(2) or Section 3405(b)(2) of the Internal Revenue Code not to have tax withheld, that election shall apply to withholding under this division, unless the individual elects, with the consent of the payer, to have those payments subject to withholding under this division. If an individual has not made an election under Section 3405(a)(2) or Section 3405(b)(2) of the Internal Revenue Code, that individual may elect to exclude those payments from withholding under this division. Elections provided in this subdivision shall be made pursuant to regulations of the director.

(c) Where Section 3405 of the Internal Revenue Code provides that tables or other computational procedures shall be prescribed by the Secretary of the Treasury, for the purposes of this division, any of the following amounts may be withheld, upon election of the payer:

(1) An amount determined by the method prescribed under Section 13020.

(2) A designated dollar amount as requested by the payee.

(3) Ten percent of the amount of federal withholding computed pursuant to Section 3405 of the Internal Revenue Code.

(d) Where the amount of withholding computed pursuant to subdivision (c) is less than ten dollars ($10) per month, the payer shall not be required to withhold that amount.

(e) This section shall not apply to pensions, annuities, and other deferred income of payees with addresses outside this state, as shown on the most current records of the payer.

(f) The department shall, in consultation with the affected payers and payees, issue regulations to implement this section.

Those regulations shall provide for delay (but not beyond July 1, 1987) of the application of this section with respect to any payer or class of payers until that time as the payers are able to comply without undue
hardship with the requirements of this section. In that case, no retroactive compliance shall be required.

SEC. 18. Section 13050 of the Unemployment Insurance Code is amended to read:

13050. (a) Every employer or person required to deduct and withhold from an employee a tax under Section 986, 3260, or 13020, or who would have been required to deduct and withhold a tax under Section 13020 (determined without regard to Section 13025) if the employee had claimed no more than one withholding exemption, shall furnish to each employee in respect of the remuneration paid by the person to the employee during the calendar year, on or before January 31 of the succeeding year, or, if his or her employment is terminated before the close of the calendar year, on the day on which the last payment of remuneration is made, a written statement showing all of the following:

(1) The name of the person.
(2) The name of the employee, and his or her social security or identifying number if wages have been paid.
(3) The total amount of wages subject to personal income tax, as defined by Section 13009.5.
(4) The total amount deducted and withheld as tax under Section 13020.

(7) The total amount of elective deferrals (within the meaning of Section 402(g)(3) of the Internal Revenue Code) and compensation deferred pursuant to Section 457 of the Internal Revenue Code.

(b) The statement required to be furnished pursuant to this section in respect of any remuneration shall be furnished at other times, shall contain other information, and shall be in a form, as the department may by authorized regulations prescribe.

(c) (1) A duplicate of any statement made pursuant to this section and in accordance with authorized regulations prescribed by the department shall, when required by the regulations, be filed with the department.
(2) Effective January 1, 1995, this subdivision shall apply only to those employers exempted under subdivision (h) of Section 1088 or subdivision (k) of Section 13021 from the requirements to report individual amounts withheld on the report of wages and to file the annual reconciliation return for the 1995 calendar year only. This subdivision shall remain in effect only until March 1, 1996, and on that date is repealed, unless a later enacted statute that is enacted before March 1, 1996, deletes or extends that date.
(d) If, during any calendar year, any person makes a payment of third-party sick pay to an employee, that person shall, on or before January 15 of the succeeding year, furnish a written statement to the employer in respect of whom the payment was made showing all of the following:

1. The name and, if there is withholding under this division, the social security number of that employee.
2. The total amount of the third-party sick pay paid to that employee during the calendar year.
3. The total amount, if any, deducted and withheld from that sick pay under this division. For purposes of the preceding sentence, the term “third-party sick pay” means any sick pay, as defined in subdivision (b) of Section 13028.6, which does not constitute wages for purposes of this division, determined without regard to subdivision (a) of Section 13028.6.

(A) For purposes of Chapter 10 (commencing with Section 2101) of Part 1 of Division 1, the statements required to be furnished by this subdivision shall be treated as statements required under this section to be furnished to employees.

(B) Every employer who receives a statement under this subdivision with respect to sick pay paid to any employee during any calendar year shall, on or before January 31 of the succeeding year, furnish a written statement to that employee showing all of the information shown on the statement furnished under this subdivision.

(e) The Franchise Tax Board shall be allowed access to the information filed with the department pursuant to this section.

SEC. 19. Section 13052.5 of the Unemployment Insurance Code is amended to read:

13052.5. (a) In addition to the penalty imposed by Section 19183 of the Revenue and Taxation Code (relating to failure to file information returns), if any person, or entity fails to report amounts paid as remuneration for personal services as required under Section 13050 of this code or Section 6041A of the Internal Revenue Code on the date prescribed thereof (determined with regard to any extension of time for filing), that person or entity may be liable for a penalty determined under subdivision (b).

(b) For purposes of subdivision (a), the amount determined under this subdivision is the maximum rate under Section 17041 of the Revenue and Taxation Code multiplied by the unreported amounts paid as remuneration for personal services.

(c) The penalty imposed by subdivision (a) shall be assessed against that person or entity required to file a return under Section 13050 of this code or Section 6041A of the Internal Revenue Code.
(d) Sections 1221 and 1222 of the Unemployment Insurance Code shall not apply to assessments imposed by this section.

(e) The penalty imposed under this section shall be in lieu of the penalty imposed under Section 19175 of the Revenue and Taxation Code. In the event that a penalty is imposed under both this section and Section 19175 of the Revenue and Taxation Code, only the penalty imposed under this section shall apply.

(f) The penalty imposed by this section may be assessed in lieu of, or in addition to, the penalty imposed by Section 13052 with respect to the failure to furnish a withholding statement to an employee.

CHAPTER  31

An act to amend Sections 18944.30, 18944.31, 18944.33, 18944.35, and 18944.40 of, and to add Section 18944.41 to, the Health and Safety Code, relating to building standards, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 25, 2002. Filed with Secretary of State April 26, 2002.]

The people of the State of California do enact as follows:

SECTION 1. Section 18944.30 of the Health and Safety Code is amended to read:

18944.30. The Legislature finds and declares all of the following:

(a) There is an urgent need for low-cost, energy-efficient housing in California.

(b) The cost of conventional lumber-framed housing has risen due to a shortage of construction-grade lumber.

(c) Straw is an annually renewable source of cellulose that can be used as an energy-efficient substitute for stud-framed wall construction.

(d) The state has mandated that the burning of rice straw be greatly reduced.

(e) As a result of the mandated burning reduction, growers are experimenting with alternative straw management practices. Various methods of straw incorporation into the soil are the most widely used alternatives. The two most common methods are nonflood incorporation and winter flood incorporation. Economically viable off-farm uses for rice straw are not yet available.

(f) Winter flooding of rice fields encourages the natural decomposition of rice straw and provides valuable waterfowl habitat. According to the Central Valley Habitat Joint Venture component of the North American Waterfowl Management Plan, in California’s Central Valley, over 400,000 acres of enhanced agricultural lands are needed to restore the depleted migratory waterfowl populations of the Pacific flyway. Flooded rice fields are a key and integral part of the successful restoration of historic waterfowl and shorebird populations.

(g) Winter flooding of rice fields provides significant waterfowl habitat benefits and should be especially encouraged in areas where there
is minimal potential to impact salmon as a result of surface water diversions.

(h) An economically viable market for rice straw bales could result from the use of rice straw bales in housing construction.

(i) Practicing architects and engineers have determined that the statutory guidelines established by Chapter 941 of the Statutes of 1995 contain specific requirements that they believe are either unnecessary or detrimental. Some of the requirements are considered costly and severely restrict the development of straw-bale housing.

(j) Statutory guidelines for the use of straw-bale housing would significantly benefit energy conservation, natural resources, low-cost housing, agriculture, and fisheries in California.

(k) Tests and experience with straw-bale construction demonstrate that it is a strong, durable, and thermally superior building system that deserves a larger role in modern construction.

SEC. 2. Section 18944.31 of the Health and Safety Code is amended to read:

18944.31. (a) Notwithstanding any other provision of law, the guidelines established by this chapter shall apply to the construction of all structures that use baled straw as a loadbearing or nonloadbearing material within any city or county that adopted the guidelines established by Chapter 941 of the Statutes of 1995 prior to January 1, 2002. This requirement shall not preclude the city or county from making changes or modifications to the guidelines pursuant to subdivision (b). Notwithstanding any other provision of law, the guidelines established by this chapter shall not become operative in a city or county that has not adopted the guidelines prior to January 1, 2002, unless and until the legislative body of the city or county makes an express finding that the application of these guidelines within the city or county is reasonably necessary because of local conditions and the city or county files a copy of that finding with the department.

(b) A city or county may, by ordinance or regulation, make any changes or modifications in the guidelines contained in this chapter as it determines are reasonably necessary because of local conditions, provided the city or county files a copy of the changes or modifications and the express findings for the changes or modifications with the department. No change or modification of that type shall become effective or operative for any purpose until the finding and the change or modification has been filed with the department.

(c) Nothing in this chapter shall be construed as increasing or decreasing the authority to approve or disapprove of alternative construction methods pursuant to the State Housing Law, Part 1.5 (commencing with Section 17910) or the California Building Standards Code, Title 24 of the California Code of Regulations.
It is the intent of the Legislature that the statutory guidelines of this chapter serve as an interim measure pending the evaluation of straw bales as a construction material through the normal processes used for the testing and listing of building materials, the determination of construction standards, and the adoption of those materials and construction standards into the California Building Standards Code.

SEC. 3. Section 18944.33 of the Health and Safety Code is amended to read:

18944.33. For the purposes of this chapter, the following terms are defined as follows:

(a) “Bales” means rectangular compressed blocks of straw, bound by strings or wire.
(b) “Department” means the Department of Housing and Community Development.
(c) “Flakes” means slabs of straw removed from an untied bale. Flakes are used to fill small gaps between the ends of stacked bales.
(d) “Laid flat” refers to stacking bales so that the sides with the largest cross-sectional area are horizontal and the longest dimension of this area is parallel with the wall plane.
(e) “Laid on edge” refers to stacking bales so that the sides with the largest cross-sectional area are vertical and the longest dimension of this area is horizontal and parallel with the wall plane.
(f) “Loadbearing” refers to plastered straw-bale walls that bear the dead and live loads of the roof and any upper floor.
(g) “Nonloadbearing” refers to plastered straw-bale walls that bear only their own weight, such as infill panels within some type of post and beam structure.
(h) “Plaster” means lime, gypsum, lime cement, or cement plasters, as defined by the California Building Standards Code, or earthen plaster with fiber reinforcing.
(i) “Straw” means the dry stems of cereal grains left after the seed heads have been substantially removed.

SEC. 4. Section 18944.35 of the Health and Safety Code is amended to read:

18944.35. (a) Bales shall be rectangular in shape.
(b) Bales used within a continuous wall shall be of consistent height and width to ensure even distribution of loads within wall systems.
(c) Bales shall be bound with ties of either polypropylene string or baling wire. Bales with broken or loose ties shall not be used unless the broken or loose ties are replaced with ties which restore the original degree of compaction of the bale.
(d) The moisture content of bales, at the time of installation, shall not exceed 20 percent of the total weight of the bale. Moisture content of bales shall be determined through the use of a suitable moisture meter,
designed for use with baled rice straw or hay, equipped with a probe of sufficient length to reach the center of the bale, and used to determine the average moisture content of five bales randomly selected from the bales to be used.

(e) Bales in loadbearing walls shall have a minimum calculated dry density of 7.0 pounds per cubic foot. The calculated dry density shall be determined after reducing the actual bale weight by the weight of the moisture content.

(f) Where custom-made partial bales are used, they shall be of the same density, same string or wire tension, and, where possible, use the same number of ties as the standard size bales.

(g) Bales of various types of straw, including wheat, rice, rye, barley, oats, and similar plants, shall be acceptable if they meet the minimum requirements of this chapter for density, shape, moisture content, and ties.

SEC. 5. Section 18944.40 of the Health and Safety Code is amended to read:

18944.40. (a) Straw-bale walls, when covered with plaster, drywall, or stucco, shall be deemed to have the equivalent fire resistive rating as wood-frame construction with the same wall-finishing system.

(b) Minimum bale wall thickness shall be 13 inches.

(c) Buildings with loadbearing bale walls shall not exceed one story in height without substantiating calculations and design by a civil engineer or architect licensed by the state, and the bale portion of the loadbearing walls shall not exceed a height-to-width ratio of 5.6:1 (for example, the maximum height for a wall that is 23 inches thick would be 10 feet 8 inches).

(d) The ratio of unsupported wall length to thickness, for loadbearing walls, shall not exceed 15.7:1 (for example, for a wall that is 23 inches thick, the maximum unsupported length allowed is 30 feet).

(e) The allowable vertical load (live and dead load) on top of loadbearing bale walls plastered with cement or lime cement plaster on both sides shall not exceed 800 pounds per linear foot, and the resultant load shall act at the center of the wall. Straw-bale structures shall be designed to withstand all vertical and horizontal loads, and the resulting overturning and base shear, as specified in the latest edition of the California Building Standards Code. Straw-bale walls plastered with cement or lime cement plaster on both sides shall be capable of resisting in-plane lateral forces from wind or earthquake of 360 pounds per linear foot.

(f) Foundations shall be designed in accordance with the California Building Standards Code to accommodate the load created by the bale wall plus superimposed live and dead loads. Supports for bale walls shall
extend to an elevation of at least six inches above adjacent ground at all points, and at least one inch above floor surfaces.

(g) (1) Bale walls shall be anchored to supports to resist lateral forces, as approved by the civil engineer or architect. This may be accomplished with one-half inch reinforcing bars embedded in the foundation and penetrating the bales by at least 12 inches, located along the center line of the bale wall, spaced not more than two feet apart. Other methods as determined by the engineer or architect may also be used.

(2) Nonbale walls abutting bale walls shall be attached by means of one or more of the following methods or by means of an acceptable equivalent:

(A) Wooden dowels of \(\frac{5}{8}\) inch minimum diameter and of sufficient length to provide 12 inches of penetration into the bale, driven through holes bored in the abutting wall stud, and spaced to provide one dowel connection per bale.

(B) Pointed wooden stakes, a minimum of 12 inches in length and 1\(\frac{1}{2}\) inches by 3\(\frac{1}{2}\) inches at the exposed end, fully driven into each course of bales, as anchorage points.

(C) Bolted or threaded rod connection of the abutting wall, through the bale wall, to a steel nut and steel or plywood plate washer, a minimum of 6 inches square and a minimum thickness of \(\frac{3}{16}\) of an inch for steel and \(\frac{1}{2}\) inch for plywood, in a minimum of three locations.

(3) (A) Bale walls and roof bearing assemblies shall be anchored to the foundation where necessary, as determined by the civil engineer or architect, by means of methods that are adequate to resist uplift forces resulting from the design wind load. There shall be a minimum of two points of anchorage per wall, spaced not more than 6 feet apart, with one located within 36 inches of each end of each wall.

(B) With loadbearing bale walls, the dead load of the roof and ceiling systems will produce vertical compression of the walls. Regardless of the anchoring system used to attach the roof bearing assembly to the foundation, prior to installation of wall finish materials, the nuts, straps, or cables shall be retightened to compensate for this compression.

(h) (1) A moisture barrier shall be used between the top of the foundation and the bottom of the bale wall to prevent moisture from migrating through the foundation so as to come into contact with the bottom course of bales. This barrier shall consist of one of the following:

(A) Cementitious waterproof coating.

(B) Type 30 asphalt felt over an asphalt emulsion.

(C) Sheet metal flashing, sealed at joints.

(D) Another building moisture barrier, as approved by the building official.
(2) All penetrations through the moisture barrier, as well as all joints in the barrier, shall be sealed with asphalt, caulking, or an approved sealant.

(3) There shall also be a drainage plane between the straw and the top of the foundation, such as a one inch layer of pea gravel.

   (i) (1) For non-loadbearing walls, bales may be laid either flat or on edge. Bales in loadbearing bale walls shall be laid flat and be stacked in a running bond, where possible, with each bale overlapping the two bales beneath it. Overlaps shall be a minimum of 12 inches. Gaps between the ends of bales which are less than 6 inches in width may be filled by an untied flake inserted snugly into the gap.

   (2) Bale wall assemblies shall be held securely together by rebar pins driven through bale centers as described in this chapter, or equivalent methods as approved by the civil engineer or architect.

(3) The first course of bales shall be laid by impaling the bales on the rebar verticals and threaded rods, if any, extending from the foundation. When the fourth course has been laid, vertical #4 rebar pins, or an acceptable equivalent long enough to extend through all four courses, shall be driven down through the bales, two in each bale, located so that they do not pass through the space between the ends of any two bales. The layout of these rebar pins shall approximate the layout of the rebar pins extending from the foundation. As each subsequent course is laid, two pins, long enough to extend through that course and the three courses immediately below it, shall be driven down through each bale. This pinning method shall be continued to the top of the wall. In walls seven or eight courses high, pinning at the fifth course may be eliminated.

(4) Alternative pinning method to the method described in paragraph (3): when the third course has been laid, vertical #4 rebar pins, or an acceptable equivalent, long enough to extend through all three courses, shall be driven down through the bales, two in each bale, located so that they do not pass through the space between the ends of any two bales. The layout of these rebar pins shall approximate the layout of the rebar pins extending from the foundation. As each subsequent course is laid, two pins, long enough to extend through that course and the two courses immediately below it, shall be driven down through each bale. This pinning method shall be continued to the top of the wall.

(5) Only full-length bales shall be used at corners of loadbearing bale walls.

(6) Vertical #4 rebar pins, or an acceptable alternative, shall be located within one foot of all corners or door openings.

(7) Staples, made of #3 or larger rebar formed into a “U” shape, a minimum of 18 inches long with two 6-inch legs, shall be used at all corners of every course, driven with one leg into the top of each abutting corner bale.
(j) (1) All loadbearing bale walls shall have a roof bearing assembly at the top of the walls to bear the roof load and to provide the means of connecting the roof structure to the foundation. The roof bearing assembly shall be continuous along the tops of loadbearing bale walls.

(2) An acceptable roof bearing assembly option shall consist of two double 2-inch by 6-inch, or larger, horizontal top plates, one located at the inner edge of the wall and the other at the outer edge. Connecting the two doubled top plates, and located horizontally and perpendicular to the length of the wall, shall be 2-inch by 6-inch cross members, spaced no more than 72 inches center to center, and as required to align with the threaded rods extending from the anchor bolts in the foundation. The double 2-inch by 6-inch top plates shall be face-nailed with 16d nails staggered at 16-inch o.c., with laps and intersections face-nailed with four 16d nails. The crossmembers shall be face-nailed to the top plates with four 16d nails at each end. Corner connections shall include overlaps nailed as above or an acceptable equivalent, such as plywood gussets or metal plates. Alternatives to this roof bearing assembly option shall provide equal or greater vertical rigidity and provide horizontal rigidity equivalent to a continuous double 2 by 4 top plate.

(3) The connection of roof framing members to the roof plate shall comply with the appropriate sections of the California Building Standards Code.

(k) All openings in loadbearing bale walls shall be a minimum of one full bale length from any outside corner, unless exceptions are approved by an engineer or architect licensed by the state to practice. Wall or roof load present above any opening shall be carried, or transferred, to the bales below by one of the following:

(1) A frame, such as a structural window or door frame.

(2) A lintel, such as an angle-iron cradle, wooden beam, or wooden box beam. Lintels shall be at least twice as long as the opening is wide and extend a minimum of 24 inches beyond either side of the opening. Lintels shall be centered over openings.

(3) A roof bearing assembly designed to act as a rigid beam over the opening.

(l) (1) All weather-exposed bale walls shall be protected from water damage. No vapor impermeable barrier may be used on bale walls, and the civil engineer or architect may design the bale walls without any membrane barriers between straw and plaster, except as specified in this section, in order to allow natural transpiration of moisture from the bales and to secure a structural bond between plaster and straw.

(2) Bale walls shall have special moisture protection provided at all horizontal surfaces exposed to the weather. This moisture protection shall be installed in a manner that will prevent water from entering the wall system.
(m) (1) Interior and exterior surfaces of bale walls shall be protected from mechanical damage, flame, animals, and prolonged exposure to water. Bale walls adjacent to bath and shower enclosures shall be protected by a moisture barrier.

(2) Cement stucco shall be reinforced with galvanized woven wire stucco netting or an equivalent, as approved by the building official. The reinforcement shall be secured by attachment through the wall at a maximum spacing of 24 inches horizontally and 16 inches vertically, unless substantiated otherwise by a civil engineer or architect.

(3) Where bales abut other materials, the plaster or stucco shall be reinforced with galvanized expanded metal lath, or an acceptable equivalent, extending a minimum of 6 inches onto the bales.

(4) Earthen and lime-based plasters may be applied directly onto bale walls without reinforcement, except where applied over materials other than straw.

(n) (1) All wiring within or on bale walls shall meet all provisions of the California Electrical Code. Type “NM” or “UF” cable may be used, or wiring may be run in metallic or nonmetallic conduit systems.

(2) Electrical boxes shall be securely attached to wooden stakes driven a minimum of 12 inches into the bales, or an acceptable equivalent.

(o) Water or gas pipes within bale walls shall be encased in a continuous pipe sleeve to prevent leakage within the wall. Where pipes are mounted on bale walls, they shall be isolated from the bales by a moisture barrier.

(p) Bales shall be protected from rain and other moisture infiltration at all times until protected by the roof of the structure.

Interest on all funds deposited in the county fund shall be retained in that fund.

(c) Funds may be expended from the county fund by the recipient school district for qualifying school facilities expenditures set forth in Sections 17072.35 and 17074.25.

SEC. 5. Section 17070.51 of the Education Code is amended to read:

17070.51. (a) If any certified eligibility or funding application related information is found to have been falsely certified by school districts, architects or design professionals, hereinafter referred to as a material inaccuracy, the Office of Public School Construction shall notify the board.
(b) The board shall impose the following penalties if an apportionment and fund release has been made based upon information in the project application or related materials that constitutes a material inaccuracy.

(1) Pursuant to a repayment schedule approved by the board of no more than five years, the school district shall repay to the board, for deposit into the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as the case may be, an amount proportionate to the additional funding received as a result of the material inaccuracy including interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to the Chapter 4 (commencing with Section 16720), of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater.

(2) The board shall prohibit the school district from self-certifying certain project information for any subsequent applications for project funding for a period of up to five years following the date of the finding of a material inaccuracy or until the district’s repayment of the entire amount owed under paragraph (1). Although a school district that is subject to this paragraph may not self-certify, the school district shall not be prohibited from applying for state funding under this chapter. The board shall establish an alternative method for state or independent certification of compliance that shall be applicable in these cases. The process shall include, but shall not be limited to, procedures for payment by the school district of any increased costs associated with the alternative certification process.

(c) For school districts found to have provided material inaccuracies when a funding apportionment has occurred, but no fund release has been made, the board shall direct its staff to reduce the apportionment as necessary to reflect the actual nature of the project and to disregard the inaccurate information or material, and paragraph (2) of subdivision (b) shall apply.

(d) For those school districts found to have provided material inaccuracies when no funding apportionment or fund release has been made, the inaccurate information or materials shall not be considered, and paragraph (2) of subdivision (b) shall apply. The project may continue if the application, minus the inaccurate materials, is still complete.

SEC. 6. Section 17070.65 of the Education Code is amended to read:

17070.65. From any moneys in one of the funds established pursuant to Section 17070.40, as appropriate, and approved for this purpose in the annual Budget Act, the board shall make available to the Director of General Services the amounts that the board determines
necessary for the Department of General Services to provide the assistance, pursuant to this chapter, required pursuant to Section 15504 of the Government Code to facilitate the construction, modernization, reconstruction, or alteration of, or addition to, school buildings.

SEC. 7. Section 17070.70 of the Education Code is amended to read:

17070.70. (a) Title, including, but not limited to, any leasehold interest as set forth in subdivision (c), to all property acquired, constructed, or improved with funds made available under this chapter shall be held by the school district to which the board grants the funds. Title, as defined solely for the purpose of a school district’s eligibility to receive funds from the board pursuant to this chapter shall include an order for prejudgment possession issued by a court in an eminent domain proceeding.

(b) The applicant school district shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to, school buildings.

(c) Notwithstanding Section 17009.5, construction or modernization funds made available pursuant to this chapter may be expended upon property that is leased to the applicant school district only if the project qualified for and received approval by the board, prior to November 4, 1998, pursuant to Article 4 (commencing with Section 17055), of Chapter 12.

SEC. 8. Section 17070.95 is added to the Education Code, to read:

17070.95. As a part of its application for large construction and modernization projects, a school district shall certify, in consultation with the career technical education advisory committee established pursuant to Section 8070, that it has considered the need for vocational and career technical facilities to adequately meet its program needs consistent with Section 51224, subdivision (b) of Section 51225.3, and Section 52336.1. The board shall adopt regulations necessary for administration of this section.

SEC. 9. Section 17071.33 of the Education Code is amended to read:

17071.33. (a) For the purposes of determining existing school building capacity, the calculation shall be adjusted as required for first priority status pursuant to Section 17017.7 as that calculation would have been made under the policies of the board in effect immediately preceding September 1, 1998.

(b) Notwithstanding subdivision (a), with respect to a high school district, the existing school building capacity shall be calculated without regard to multitrack year-round school considerations.

SEC. 10. Section 17071.75 of the Education Code is amended to read:
17071.75. After a one-time initial report of existing school building capacity has been completed, a school district’s ongoing eligibility for new construction funding shall be determined by making all of the following calculations:

(a) Each school district that applies to receive funding for new construction shall calculate enrollment projections for the fifth year beyond the fiscal year in which the application is made. Projected enrollment shall be determined by utilizing the cohort survival enrollment projection system, as defined and approved by the board. The board may supplement the cohort survival enrollment projection by the number of unhoused pupils that are anticipated as a result of dwelling units proposed pursuant to approved and valid tentative subdivision maps.

(b) Add the number of pupils that may be adequately housed in the existing school building capacity of the applicant district as determined pursuant to Article 2 (commencing with Section 17071.10) to the number of pupils for which facilities were provided from any state or local funding source after the existing school building capacity was determined pursuant to Article 2 (commencing with Section 17071.10). For this purpose, the total number of pupils for which facilities were provided shall be determined using the pupil loading formula set forth in Section 17071.25.

(c) Subtract the number of pupils pursuant to subdivision (b) from the number of pupils determined pursuant to subdivision (a).

(d) The calculations required to establish eligibility under this article shall result in a distinction between the number of existing unhoused pupils and the number of projected unhoused pupils.

(e) Apply the increase or decrease resulting from the difference between the most recent report made pursuant to Section 42268, and the report used in determining the school district’s baseline capacity pursuant to subdivision (a) of Section 17071.25.

(f) For a school district with fewer than 2,501 units of average daily attendance, the eligibility determined pursuant to this section shall be fixed for a period of three years from the date of the approval of eligibility by the board.

SEC. 11. Section 17072.10 of the Education Code is amended to read:

17072.10. (a) The board shall determine the applicant’s maximum total new construction grant eligibility by multiplying the number of unhoused pupils calculated pursuant to Article 3 (commencing with Section 17071.75) in each school district with an approved application for new construction, by the per-unhoused-pupil grant as follows:

(1) Five thousand two hundred dollars ($5,200) for elementary school pupils.
(2) Five thousand five hundred dollars ($5,500) for middle school pupils.

(3) Seven thousand two hundred dollars ($7,200) for high school pupils.

(b) The board shall annually adjust the per-unhoused-pupil apportionment to reflect construction cost changes, as set forth in the statewide cost index for class B construction as determined by the board.

(c) The board may adopt regulations to be effective until July 1, 2000, that adjust the amounts identified in this section for qualifying individuals with exceptional needs, as defined in Section 56026. The regulations shall be amended after July 1, 2000, in consideration of the recommendations provided pursuant to Section 17072.15.

(d) The board may establish a single supplemental per-unhoused-pupil grant in addition to the amounts specified in subdivision (a) based on the statewide average marginal difference in costs in instances where a project requires multilevel school facilities due to limited acreage. The district’s application shall demonstrate that a practical alternative site is not available.

(e) For a school district having an enrollment of 2,500 or less for the prior fiscal year, the board may approve a supplemental apportionment of up to seven thousand five hundred dollars ($7,500) for any new construction project assistance. The amount of the supplemental apportionment authorized pursuant to this subdivision shall be adjusted in 2001 and every year thereafter by an amount equal to the percentage adjustment for class B construction.

SEC. 12. Section 17072.25 of the Education Code is amended to read:

17072.25. (a) The board shall adopt regulations to develop a mechanism to rank approved applications for new construction funding. This mechanism shall be used to determine the priority of approved applications when either of the following conditions are met:

(1) The total state funds necessary for funding all approved projects pursuant to this chapter exceed the total state funds in the fund for allocation pursuant to this chapter.

(2) The actual amount of unallocated proceeds of state bonds available on or after July 1, 2000, for new construction for the purposes of this chapter is at three hundred million dollars ($300,000,000).

(b) The ranking mechanism shall allocate priority points based upon the percentages of currently and projected unhoused pupils relative to the total population of the applicant district or attendance area and the total number of currently and projected unhoused pupils in an applicant district or attendance area.

(c) The board may award priority points based on other factors that in its judgment result in the most equitable distribution of resources.
among applicants. The additional factors may not constitute greater than a 10-percent weight in the overall priority ranking.

(d) This section shall apply only to projects funded with the proceeds of state bonds approved by the voters prior to January 1, 2002.

SEC. 13. Section 17074.10 of the Education Code is amended to read:

17074.10. (a) The board shall determine the total funding eligibility of a school district for modernization funding by multiplying the following amounts by each pupil of that grade level housed in permanent school buildings that are at least 25 years old or portable classrooms that are at least 20 years old, and that have not been previously modernized with state funding:

(1) Two thousand two hundred forty-six dollars ($2,246) for each elementary pupil.

(2) Two thousand three hundred seventy-six dollars ($2,376) for each middle school pupil.

(3) Three thousand one hundred ten dollars ($3,110) for each high school pupil.

(b) The board shall annually adjust the factors set forth in subdivision (a) according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the board.

(c) The board may adopt regulations to be effective until July 1, 2000, that adjust the amounts identified in this section for qualifying individuals with exceptional needs, as defined in Section 56026. The regulations shall be amended after July 1, 2000, in consideration of the recommendations provided pursuant to Section 17072.15.

(d) It is the intent of the Legislature that the amounts provided pursuant to this article for school modernization do not include funding for administrative and overhead costs.

(e) For a school district having an enrollment of 2,500 or less for the prior fiscal year, the board may approve a supplemental apportionment of up to two thousand five hundred dollars ($2,500) for any modernization project assistance. The amount of the supplemental apportionment shall be adjusted in 2001 and every year thereafter by an amount equal to the percentage adjustment for class B construction.

SEC. 14. Section 17074.15 of the Education Code is amended to read:

17074.15. (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state’s 80-percent share, and the school district has provided its 20-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section
17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 20-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application filed on or before March 15, 2002, regardless of the source of state bond funding.

SEC. 15. Section 17074.16 is added to the Education Code, to read:

17074.16. (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state’s 60-percent share, and the school district has provided its 40-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 40-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application that was filed after March 15, 2002.

SEC. 16. Section 17074.26 is added to the Education Code, to read:

17074.26. The board shall adopt regulations to adjust the per-pupil amounts set forth in Section 17074.14 for modernization projects for school buildings that are 50 years old or older based upon the higher costs associated with modernizing older buildings.

SEC. 17. Section 17075.10 of the Education Code is amended to read:

17075.10. (a) A school district may apply for hardship assistance in cases of extraordinary circumstances.

(b) A school district applying for hardship state funding under this article shall comply with either paragraph (1) or (2).

(1) Demonstrate both of the following:
(A) That due to extreme financial, disaster-related, or other hardship the school district has unmet need for pupil housing.

(B) That the school district is not financially capable of providing the matching funds otherwise required for state participation, that the district has made all reasonable efforts to impose all levels of local debt capacity and development fees, and that the school district is, therefore, unable to participate in the program pursuant to this chapter except as set forth in this article.

(2) Demonstrate that due to unusual circumstances that are beyond the control of the district, excessive costs need to be incurred in the construction of school facilities.

(c) The board shall review the increased costs that may be uniquely associated with urban construction and shall adjust the per-pupil grant for new construction, or modernization, hardship applications as necessary to accommodate those costs. The board shall adopt regulations setting forth the standards, methodology, and a schedule of allowable adjustments, for the urban adjustment factor established pursuant to this subdivision.

SEC. 18. Section 17075.15 of the Education Code is amended to read:

17075.15. (a) From funds available from any bond act for the purpose of funding facilities for school districts with a financial hardship, the board may provide other construction, modernization, or relocation assistance as set forth in this chapter or Chapter 14 (commencing with Section 17085) to the extent that severe circumstances may require, and may adjust or defer the local financial participation, as pupil health and safety considerations require to the extent that bond act funds are provided for this purpose.

(b) The board shall adopt regulations for determining the amount of funding that may be provided to a district, and the eligibility and prioritization of funding, under this article.

(c) The regulations shall define the amount, and sources, of financing that the school district could reasonably provide for school facilities as follows:

(1) Unencumbered funds available in all facility accounts in the school district including, but not limited to, fees on development, redevelopment funds, sale proceeds from surplus property, funds generated by certificates of participation for facility purposes, bond funds, federal grants, and other funds available for school facilities, as the board may determine.

(2) The board may exclude from consideration all funds encumbered for a specific capital outlay purpose, a reasonable amount for interim housing, and other funds that the board may find are not reasonably available for the project.
(d) Further, the regulations shall also specify a method for determining required levels of local effort to obtain matching funds. The regulations shall include consideration of at least all of the following factors:

(1) Whether the school district has passed a bond measure within the two-year period immediately preceding the application for funding under this article, the proceeds of which are substantially available for use in the project to be funded under this chapter, but remains unable to provide the necessary matching share requirement.

(2) Whether the school district has a current outstanding bonded indebtedness, which shall include general obligation bonds, Mello-Roos bonds, school facility improvement district bonds, certificates of participation, and other debt instruments upon which the school district is paying a debt service, of at least 60 percent of the school district’s total bonding capacity, as determined by the board.

(3) Whether the total bonding capacity, as defined in Section 15102 or 15106, as applicable, is five million dollars ($5,000,000) or less, in which case, the school district shall be deemed eligible for financial hardship.

(4) Whether the application for funding under this article is from a county superintendent of schools.

(5) Whether the school district submits other evidence of substantial local effort acceptable to the board.

(6) The value of any unused local general obligation debt capacity, and developer fees added to the needs analysis to reflect the district’s financial hardship, available for the purposes of school facilities financing.

SEC. 19. Section 17076.10 of the Education Code is amended to read:

17076.10. (a) A school district that has received any funds pursuant to this chapter shall submit a summary report of expenditure of state funds and of district matching funds annually until all state funds and district matching funds are expended, and shall then submit a final report to the board. The board may require an audit of these reports or other district records to ensure that all funds received pursuant to this chapter are expended in accordance with program requirements.

(b) If the board finds that a participating school district has made no substantial progress towards increasing its pupil capacity or modernizing its facilities within 18 months of the receipt of any funding pursuant to this chapter, the board shall rescind the apportionment in an amount equal to the unexpended funds.

(c) If the board, after the review of expenditures or audit has been conducted pursuant to subdivision (a), determines that a school district failed to expend funds in accordance with this chapter, the department
shall notify the school district of the amount that must be repaid to the
1998 State School Facilities Fund, the 2002 State School Facilities
Fund, or the 2004 State School Facilities Fund, as the case may be,
within 60 days. If the school district fails to make the required payment
within 60 days, the department shall notify the Controller and the school
district in writing, and the Controller shall deduct an amount equal to the
amount received by the school district under this subdivision, from the
school district’s next principal apportionment or apportionments of state
funds to the school district, other than basic aid apportionments required
by Section 6 of Article IX of the California Constitution. Any amounts
obtained by the Controller shall be deposited into the 1998 State School
Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State
School Facilities Fund, as appropriate.

(d) If a school district has received an apportionment, but has not met
the criteria to have funds released pursuant to Section 17072.32 or
17074.15 within a period established by the board, but not to exceed 18
months, the board shall rescind the apportionment and deny the district’s
application.

SEC. 20. The heading of Article 10 (commencing with Section
17077.10) of Chapter 12.5 of Part 10 of the Education Code, as added
by Chapter 981 of the Statutes of 1999, is amended and renumbered to
read:

Article 10.5. Energy Efficiency

SEC. 21. Section 17077.10 of the Education Code, as added by
Chapter 981 of the Statutes of 1999, is amended and renumbered to read:

17077.30. (a) As part of the requirements for submission of an
application to the State Allocation Board for funding pursuant to this
chapter for any new construction or modernization project, the applicant
school district may, at the time of submission of the final drawings to the
Division of the State Architect, certify that an energy analysis and report
has been prepared that sets forth the utility savings that would be
generated if the facilities were designed, constructed, and equipped, with
the energy efficiency and renewable technologies that would make the
facilities exceed the minimum building energy-efficiency standards
mandated for new public buildings pursuant to the latest edition of the
California Building Standards Code through the use of energy efficiency
and renewable energy technologies.

(b) The energy analysis and report shall include a verifiable life-cycle
cost analysis for each proposed energy conservation measure and
renewable energy that may include, but need not be limited to,
photovoltaic parking lot and security lighting, and solar swimming pool
and domestic water heating, showing a return on investment of less than 15 years.

(c) The cost of the energy analyses and reports shall not exceed:
   (1) Seven thousand five hundred dollars ($7,500) per project for elementary schools.
   (2) Ten thousand dollars ($10,000) per project for middle schools.
   (3) Fifteen thousand dollars ($15,000) per project for high schools.

(d) An applicant school district may count the following funds or expenditures toward meeting the local matching funds requirement under this chapter:
   (1) The amount from any local sources actually expended on the project by the applicant school district for an energy audit.
   (2) The amount actually applied to the project from any incentive, grant, or rebate, received by the applicant school district from a program funded pursuant to Section 381 of the Public Utilities Code.

SEC. 22. Section 17077.35 is added to the Education Code, to read:
17077.35. (a) An applicant school district may include plan design and other project components that seek school facility energy efficiency approaching the ultimate goal of school facility energy self-sufficiency, and may seek a grant adjustment for the state’s share of the increased costs associated with those components.

(b) Energy efficiency components that are eligible for inclusion into a project pursuant to this section include, but are not limited to, conservation, load reduction technologies, peakload shifting, solar water heating technologies as described in subparagraph (A) of paragraph (2) of subdivision (b) of Section 25619 of the Public Resources Code and as rated and certified by the Solar Rating and Certification Corporation, the use of ground source temperatures for heating and cooling, photovoltaics, and technologies that meet the emerging technology eligibility criteria established by the State Energy Resources Conservation and Development Commission pursuant to Section 383.5 of the Public Utilities Code. A project that received funding from the renewable energy program administered by the State Energy Resources Conservation and Development Commission is not eligible for a grant adjustment under this section.

(c) In order to be eligible for the grant adjustment pursuant to this section, the building proposed for the project, including the energy-efficiency and renewable energy measures utilized pursuant to this section, shall exceed the nonresidential building energy-efficiency standards specified in Part 6 (commencing with Section 100) of Title 24 of the California Code of Regulations by an amount not less than 15 percent for new construction projects and not less than 10 percent for modernization projects, and shall be shown to provide sufficient energy savings to return the cost of the initial investment in the project over a
period not to exceed seven years. The applicant shall certify that the cost for the project exceeds the amount of funding otherwise available to the applicant under this chapter.

(d) The board shall provide an applicant for a new construction or modernization project with a grant adjustment to provide an increase not to exceed 5 percent of its state grants authorized by Sections 17072.10 and 17074.10 for the state’s share of costs associated with design and other plan components related to school facility energy efficiency as set forth in this article.

SEC. 23. Article 10.6 (commencing with Section 17077.40) is added to Chapter 12.5 of Part 10 of the Education Code, to read:

Article 10.6. Joint-use Facilities

17077.40. (a) With funds made available for the purposes of this article, the board may provide a grant to fund joint-use projects to construct facilities on kindergarten to grade 12, inclusive, schoolsites.

(b) A school district may apply to the board for funding under this article for a project that meets any of the following criteria:

(1) The joint-use project is a part of an application for new construction funding under this chapter, and is for the purpose of providing facilities to be used for a kindergarten to grade 12/higher education collaborative effort for any of the following purposes:
   (A) To improve pupil academic achievement.
   (B) To provide teacher education.
   (C) To provide childcare facilities.

(2) The joint-use project is part of an application for new construction funding under this chapter, and will increase the size or extra cost associated with the joint use of the proposed multipurpose room, gymnasium, childcare facility, or library beyond that necessary for school use.

(3) The joint-use project is for a kindergarten to grade 12/higher education collaborative effort to improve academic achievement or provide teacher education, or a multipurpose room, gymnasium, library, or childcare facility, and the project will be located at a school that does not have the type of facility for which funds are requested or the existing facility is inadequate.

17077.42. In order to be approved for a grant under this article, the applicant district shall demonstrate that it has complied with all of the following:

(a) The school district has entered into a joint-use agreement with a governmental agency, public community college, public college or public university, or a nonprofit organization approved by the board.
(b) The joint-use agreement specifies the method of sharing capital and operating costs, specifies relative responsibilities for the operation and staffing of the facility, and specifies the manner in which the safety of the pupils will be ensured.

c) The joint-use partner has agreed to provide matching funds for 50 percent of the eligible costs under this article.

d) The school district demonstrates that the facility will be used to the maximum extent possible for both school and community purposes, or both school and higher education purposes, as applicable.

e) (1) The project application qualifies for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40 and the school district has received all approvals necessary for apportionment under this chapter.

(2) The project qualifies for funding under paragraph (3) of subdivision (b) of Section 17077.40 and the school district has completed preliminary plans for the project and has received State Department of Education approval of the plans.

17077.45. (a) The board shall establish standards for determining the amount of the supplemental grant funding to be made available for each project under this article. For a project application qualifying for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40, the supplemental grant shall be in the form of an adjustment to the per-pupil eligibility of the project. For a project application qualifying under paragraph (3) of subdivision (b), the supplemental grant may be provided without regard to the existence of per-pupil eligibility pursuant to this chapter, and may be expressed on per-square-foot cost basis, on a per-pupil cost basis, or on a per-project cost basis.

(b) Notwithstanding any other provision of this chapter, project costs may exceed the board’s standards established pursuant to subdivision (a) only if the excess is paid completely by local or joint-use partner sources.

c) On July 1 of each year the board shall apportion to qualifying applicant school districts those funds that it determines are available for the purpose of this article. The board shall not release funds to a qualifying applicant until the project plans have received all approval required pursuant to this chapter, including, but not limited to, the approval of the Division of the State Architect. If the project does not receive all necessary plan approvals within one year of the date of the apportionment, the board shall rescind the apportionment.

d) If the total funding for the purposes of this article is not sufficient to fund all of the joint-use projects for funding under this article, the board shall fund projects eligible under paragraphs (1), (2), and (3) of subdivision (b) of Section 17077.40 in that order. The board may establish other priority standards within that order, as necessary.
(e) Except as expressly provided in this article, projects funded pursuant to this article shall comply with all other requirements of this chapter, except for Article 11 (commencing with Section 17078.10), which shall apply only to projects under this article if they also qualify for funding under Article 11 (commencing with Section 17078.10).

SEC. 24. Article 11 (commencing with Section 17078.10) is added to Chapter 12.5 of Part 10 of the Education Code, to read:

Article 11. Critically Overcrowded School Facilities

17078.10. (a) There is hereby established the Critically Overcrowded School Facilities Program to be administered by the board.

(b) For the purposes of this article, “preliminary application” means an application for a preliminary apportionment pursuant to this article.

(c) For the purposes of this article, “preliminary apportionment” means an apportionment made for eligible applicants with critically overcrowded schools in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter.

(d) For the purposes of this article, “final apportionment” has the same meaning as “apportionment” as set forth in subdivision (a) of Section 17070.15.

(e) There is hereby established the 2002 Critically Overcrowded School Facilities Account within the 2002 State School Facilities Fund, and the 2004 Critically Overcrowded School Facilities Account within the 2004 State School Facilities Fund, for the purposes of this article. Funds reserved for the purposes of this article shall be placed in those accounts, as appropriate, and shall be available exclusively for projects eligible under this article until the funds are made available for other purposes of this chapter pursuant to Section 17078.30.

17078.15. (a) Unless this article expressly provides otherwise, the provisions contained in the other articles of this chapter shall apply with equal force to a project funded under this article. This article shall control over the provisions of this chapter contained in other articles only to the extent that this article expressly conflicts with those provisions.

(b) This article shall apply only to a project that is otherwise eligible under this chapter and that meets both of the following criteria:

(1) The project meets the criteria set forth in Section 17078.18.

(2) The project is to be funded from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election, or the 2004 direct primary election or the 2004 statewide general election, as the case may be, that were expressly reserved in the bond act or acts for the purposes set forth in this article.
(c) The state share of project costs and the state per-unhoused-pupil new construction apportionments for programs eligible under this article shall be equal to the share and amounts otherwise provided by the board pursuant to this chapter, including, but not limited to, any applicable adjustments or supplements otherwise authorized pursuant to this chapter.

(d) A school district that elects to utilize per-unhoused-pupil eligibility pursuant to this chapter to support a project pursuant to this article, shall not simultaneously utilize that same eligibility to support any other application pursuant to this chapter.

17078.18. Projects funded under this article shall meet all of the following criteria:

(a) The project is a new construction project to build new pupil capacity to relieve overcrowding.

(b) The proposed school facility shall be located in the proposed general location, as set forth in Section 17078.22, of the school or schools that have the conditions and pupils that establish the eligibility pursuant to this article as set forth in subdivision (c).

(c) At least 75 percent of the projected pupil occupancy of the project facilities shall come from a source school or source schools that have a site pupil population density greater than 115 pupils per acre in grades kindergarten to six, inclusive, or a site pupil population density greater than 90 pupils per acre in grades seven to 12, inclusive, as determined by the Superintendent of Public Instruction using enrollment data from the California Basic Educational Data System for the 2001–02 school year. For source schools with grades that include a combination of kindergarten to six, inclusive, and seven to 12, inclusive, the controlling source schoolsite pupil population density shall be the one applicable to the grade levels in which the majority of the pupils are enrolled at the source school.

17078.20. (a) The board shall disseminate information to school districts regarding the availability of funding pursuant to this article and the appropriate deadlines for applications.

(b) Applicants for funding pursuant to this article shall submit preliminary applications to the board.

(c) The preliminary applications shall be submitted by May 1, 2003, for projects to be funded with the proceeds of bonds approved by the voters at the November 5, 2002, statewide general election.

(d) Preliminary applications shall be accepted by the board during the period between 60 days before and 120 days after, the 2004 direct primary election, or the 2004 statewide general election, as appropriate for projects to be funded with the proceeds of bonds approved by the voters at the 2004 direct primary election.
(e) If funds are insufficient to fully fund all of the preliminary applicants, the board shall apportion first to those projects that would house pupils from source schools with the highest pupil density levels relative to the State Department of Education standards.

17078.22. (a) The preliminary applications shall do all of the following:

(1) Establish per-unhoused-pupil eligibility as set forth in Article 3 (commencing with Section 17071.75).

(2) Identify the unhoused pupil population that the proposed project will serve by determining the number of pupils to be served and the likely source school or schools from which the pupils population will be drawn.

(3) Identify the proposed general location of the needed new facilities pursuant to any of the following:

(A) Within that portion of the attendance area from which one or more elementary schools that would be a source of the per-pupil eligibility for the proposed facility draws its enrollment, or within a one-mile radius of a source school, or within a one-mile radius of any one of the source schools if there are more than one, whichever is greater.

(B) Within the attendance area of a high school, middle school, or junior high school that would be a source of the per-pupil eligibility for the proposed facility or within a three-mile radius of a source school, or within a three-mile radius of any one of the source schools if there are more than one, whichever is greater.

(4) Estimate the total facility cost on a per-pupil basis and estimate the total site acquisition and development costs pursuant to the regulations adopted pursuant to subdivision (c) of Section 17078.24.

(b) The State Department of Education may grant a variance from the distance maximums set forth in paragraph (3) of subdivision (a) if the school district demonstrates to the satisfaction of the department that the variance is necessary in order to adequately provide facilities for the identified source school pupils.

17078.24. (a) On the basis of the preliminary application and upon confirmation by the board of the applicant’s eligibility, the board shall in a timely manner make a preliminary apportionment for applicants under this article exclusively from funds reserved expressly for the purposes of this article.

(b) Preliminary apportionments for site development and acquisition included in the preliminary application pursuant to subdivision (a) of Section 17078.22 shall be based either on the preliminary appraisal, if available, or on the median costs of appropriately sized parcels within the qualifying area, as determined by the board.

(c) Preliminary apportionments shall include the total estimated state costs of the project, including, but not limited to, site acquisition and
development costs related to evaluations and elimination of hazardous materials, an inflation factor, any applicable excess cost allowances, and hardship costs, if any. The board shall adopt regulations establishing standards and methods for setting these costs and for making related estimates.

17078.25. (a) Within the maximum time period set forth in Section 17078.30, the applicant shall have a period of up to four years from the date of the preliminary apportionment in which to complete the application for final apportionment.

(b) The applicant may request a single one-year extension of the period set forth in subdivision (a). The board shall grant the request for the single one-year extension if it determines that the applicant has made substantial progress towards completing the requirements for filing an application for final apportionment. The board may grant only one one-year extension for the project and may only grant the extension if granting the extension would not, in total, cause the project to exceed the maximum time period set forth in Section 17078.30.

(c) The board shall adopt regulations setting forth standards for determining the existence of substantial progress within the meaning of subdivision (b).

(d) The governing board of a school district shall report annually to the State Allocation Board regarding the progress made toward completing the requirements for filing an application for final apportionment, and shall annually hold, at a regularly scheduled meeting of the governing board, a public hearing pursuant to the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Division 2 of Title 5 of the Government Code) to discuss, and to receive public comment regarding, the report.

(e) In its first annual report the governing board of the school district shall certify that the State Department of Education has determined in writing that there is at least one approvable site within the proposed general location of the proposed facility identified pursuant to paragraph (3) of subdivision (a) of Section 17078.22, or within the variance location authorized pursuant to subdivision (b) of Section 17078.22.

(f) If the applicant for the one-year extension pursuant to subdivision (b) has not made substantial progress to complete the application process within the allotted time period, the preliminary apportionment shall be rescinded and shall be utilized by the board for funding of other projects that have received a preliminary apportionment pursuant to this article, or at the expiration of the maximum time allowed pursuant to Section 17078.30, the board shall use the funds for any other new construction purpose of this chapter.

17078.27. (a) Upon completion of the preliminary process authorized pursuant to this article, and when a preliminary applicant has
complied with the conditions set forth in this chapter for a final apportionment, including, but not limited to, Section 17070.50, the board shall adjust the preliminary apportionment as set forth in subdivision (b) and as necessary to reflect the current eligible grant amounts for final apportionments pursuant to this chapter consistent with regulations adopted pursuant to subdivision (c) of Section 17078.24. The board shall then convert the adjusted preliminary apportionment to a final apportionment and proceed to completion of the project in the same manner as for any project funded under provisions of this chapter other than this article.

(b) The board may adjust for cost increases only if uncommitted funds reserved expressly for the purposes of this article remain available for those purposes.

17078.30. (a) (1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (c) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(b) (1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (d) of Section 17078.20 shall thereafter be
available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

SEC. 25. Section 17088.2 of the Education Code is amended to read:

17088.2. Notwithstanding any provision of law to the contrary, including, but not limited to, Section 17587, the board may transfer any funds within the State School Building Aid Fund that are in excess of the amounts needed by the board for the maintenance of portable buildings or for the purchase of new portable buildings, for that fiscal year, to any of the following, as appropriate:

(a) The 1998 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

(b) The 2002 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

(c) The 2004 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

Nothing in this section shall be construed to allow a school district to perform work with its own forces in excess of the limitations set forth in Sections 17595 and 17599. In calculating the cost of any project of reconstruction or alteration of, or addition to, any school building for the purpose of determining the applicability of the rules and regulations adopted pursuant to this article and building standards published in Title 24 of the California Code of Regulations, the Department of General Services shall not include, as an element of that cost, any expenses of air-conditioning equipment or insulation materials for that building, or of installing the equipment or materials.

(2) In the alternative, for a leased or purchased building, a school district may comply with this section by complying with Section 17280.5.

(b) Whenever repairs due to fire damage, not including any damage caused by wind or earthquake, must be made to any school building previously approved by the Department of General Services, the approved plans and specifications used in the original work under then existing rules, regulations, and building standards may be used without modification, providing all other provisions of this article are carried out.
(c) Notwithstanding any other provision of law, no school district shall be authorized to construct or reconstruct any school building, regardless of the source of funding, unless and until the governing board of the district, by resolution, has indicated the agreement of the district that any school building construction or reconstruction that exceeds those construction costs and allowable area standards or any allowable building area computed for an attendance area pursuant to Section 17041 shall, in the event of the district’s subsequent application for state funding for school facility construction, be deducted from the allowable building area for which the district would otherwise have been eligible, which restriction shall not be subject to waiver or exception as otherwise may be provided by law.

(d) If it is determined that, for any reason, a school district failed to comply with the requirement of this section, the district shall not be eligible for any additional building area pursuant to Section 17049 and may be denied any time priority established for the particular project pursuant to Section 17016.

(b) The advisory committee shall convene by August 19, 2002, and shall study and report on whether a regulatory process may be developed that will allow the State Architect to determine whether a building not originally constructed in compliance with the Field Act, as defined in Section 17281, and its implementing regulations either meets, or can be retrofitted to meet, the equivalent pupil safety performance standard as a building constructed according to the Field Act and its implementing regulations. If the advisory committee finds that the regulatory process may be developed, the advisory committee, shall include within its report the facts and rationale supporting the finding and the essential steps required in that regulatory process. The advisory committee shall report its findings to the Seismic Safety Commission by December 31, 2002.

(c) By January 8, 2003, and after reviewing the advisory committee’s findings, the Seismic Safety Commission shall make a determination as to whether the regulatory process described in subdivision (b) may be developed, and shall report that determination to the Governor and the Legislature.

(d) If the Seismic Safety Commission determines that the regulatory process may be developed, the State Architect shall draft regulations to establish that regulatory process and to delineate the required
retrofitting, deconstructive testing, continuous inspection procedures, and other necessary certifications and requirements that must be completed for a building to ensure it meets the equivalent pupil safety performance standard as a building constructed according to the Field Act and its implementing regulations. The State Architect shall promulgate the regulations on or before April 1, 2003, as emergency regulations in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(e) Notwithstanding any law, a leased or purchased building that is determined to have the equivalent pupil safety performance standard as a building constructed according to the Field Act and implementing regulations is hereby deemed to be in full compliance with the safety requirements of a school building as set forth in Section 17280, and is hereby deemed to be in full compliance with the Field Act.

The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

100627. The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers granted to, and duties imposed upon, those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide assistance to the committee as it may require. The Attorney General of the state is the legal adviser of the committee.

100630. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the “board” for purposes of administering the 2002 State School Facilities Fund.

100632. Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100615 and 100620, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of
bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100634. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

100635. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100640, appropriated without regard to fiscal years.

100636. The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

100638. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.
100640. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2002 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

100642. All money deposited in the 2002 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100644. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100646. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not “proceeds of taxes” as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.
