Section 9. The San Francisco Charter is hereby amended, by amending Section C3.699-13, to read as follows:

**SEC. C3.699-13. INVESTIGATIONS AND ENFORCEMENT PROCEEDINGS.**

The commission shall conduct investigations in accordance with this subdivision of alleged violations of this charter and city ordinances relating to campaign finance, lobbying, conflicts of interest and governmental ethics.

(a) Investigations.

If the commission, upon the receipt of a sworn complaint of any person or its own initiative, has reason to believe that a violation of this charter or city ordinances relating to campaign finance, lobbying, conflicts of interest or governmental ethics has occurred, the commission immediately shall forward the complaint or information in its possession regarding the alleged violation to the district attorney and city attorney. Within ten working days, after receipt of the complaint or information, the district attorney and city attorney shall inform the commission in writing regarding whether the district attorney or city attorney has initiated or intends to pursue an investigation of the matter. If the commission, upon the sworn complaint or on its own initiative, determines that there is sufficient cause to conduct an investigation, it shall investigate alleged violations of this charter or city ordinances relating to campaign finance, lobbying, conflicts of interest and governmental ethics. A complaint filed with the commission shall be investigated only if it identifies the specific alleged violations which form the basis for the complaint and the commission determines that the complaint contains sufficient facts to warrant an investigation.

Within 14 days after receiving notification that neither the district attorney nor city attorney intends to pursue an investigation, the commission shall notify in writing the person who made the complaint of the action, if any, the commission has taken or plans to take on the complaint, together with the reasons for such action or non-action. If no decision has been made within 14 days, the person who made the complaint shall be notified of the reasons for the delay and shall subsequently receive notification as provided above.

The investigation shall be conducted in a confidential manner. Records of any investigation shall be considered confidential information to the extent permitted by state law. Any member or employee of the commission or other person who, prior to a determination concerning probable cause, discloses information about any preliminary investigation, except as necessary to conduct the investigation, shall be deemed guilty of official misconduct. The unauthorized release of confidential information shall be sufficient grounds for the termination of the employee or removal of the commissioner responsible for such release.

(b) Findings of Probable Cause.

No finding of probable cause to believe that a provision of this charter or city ordinances relating to campaign finance, lobbying, conflicts of interest or governmental ethics has been violated shall be made by the commission unless, at least 21 days prior to the commission's consideration of the alleged violation, the person alleged to have committed the violation is notified of the alleged violation by service of process or registered mail with return receipt requested, is provided with a summary of the evidence, and is informed of his or her right to be present in person and to be represented by counsel at any proceeding of the commission held for the purpose of considering whether probable cause exists for believing

the person committed the violation. Notice to the alleged violator shall be deemed made on the date of service, the date the registered mail receipt is signed, or, if the registered mail receipt is not signed, the date returned by the post office. A proceeding held for the purpose of considering probable cause shall be private to the extent permitted by state law unless the alleged violator files with the commission a written request that the proceeding be public.

(c) Administrative Orders and Penalties.

(i) When the commission determines there is probable cause for believing a provision of this charter or city ordinance has been violated, it may hold a public hearing to determine if such a violation has occurred. When the commission determines on the basis of substantial evidence presented at the hearing that a violation has occurred, it shall issue an order which may require the violator to:

- (1) Cease and desist the violation;
- (2) File any reports, statements or other documents or information required by law; and/or
- (3) Pay a monetary penalty to the general fund of the city of up to five thousand dollars (\$5,000) for each violation or three times the amount which the person failed to report properly or unlawfully contributed, expended, gave or received, whichever is greater. Penalties that are assessed but uncollected after 60 days shall be referred to the bureau of delinquent revenues for collection.

In addition, with respect to city officers other than those identified in Section 8.107 of this charter, when the commission determines on the basis of substantial evidence presented at the hearing that a violation has occurred, the commission may recommend to the appointing officer that the officer be removed from office.

When the commission determines that no violation has occurred, it shall publish a declaration so stating.

(d) In addition to any other penalty that may be imposed by law, any person who violates any provision of this charter or of a city ordinance relating to campaign finance, lobbying, conflicts of interest or governmental ethics, or who causes any other person to violate any such provision, or who aids and abets any other person in such violation, shall be liable under the provisions of this section.

Section 10. The San Francisco Charter is hereby amended, by amending Section C3.699-14, to read as follows:

**SEC. C3.699-14. COMMISSION FUNDING.**

The Ethics Commission may impose fees related to the administration and enforcement of ordinances and provisions of this charter related to campaign finance, lobbying, campaign consultants and governmental ethics. The fees shall become effective 30 days after their approval by the commission unless the board of supervisors, by a vote of two-thirds of all of its members, disapproves the fees within this 30 day period.

Section 11. The San Francisco Charter is hereby amended, by repealing Section C3.699-15.

Section 12. The San Francisco Charter is hereby amended, by amending Section 6.102, to read as follows:

SEC. 6.102. CITY ATTORNEY.

The City Attorney shall:

1. Represent the City and County in legal proceedings with respect to which it has an interest; provided that any elected officer, department head, board or commission may engage counsel other than the City Attorney for legal advice regarding a particular matter where the elected officer, department head, board or commission has reason to believe that the City Attorney may have a prohibited financial conflict of interest under California law or a prohibited ethical conflict of interest under the California Rules of Professional Conduct with regard to the matter, subject to the following limitations and conditions.

The elected officer, department head, board or commission shall first present a written request to the City Attorney for outside counsel. The written request shall specify the particular matter for which the elected officer, department head, board or commission seeks the services of outside counsel, a description of the requested scope of services and the potential conflict of interest that is the basis for the request. Within five working days after receiving the written request for outside counsel, the City Attorney shall respond in writing to the elected officer, department head, board or commission, either consenting or not consenting to the provision of outside counsel. If the City Attorney does not consent to the provision of outside counsel, the City Attorney shall state in the written response why he or she believes that there is no conflict of interest regarding the particular matter.

If the elected officer, department head, board or commission continues to believe there are adequate grounds for outside counsel despite the City Attorney's response that there is no conflict of interest, the elected officer, department head, board or commission may, within thirty days after receiving the City Attorney's response, refer the issue of whether the City Attorney has a prohibited conflict of interest regarding a particular matter to a retired judge or justice of the state courts of California for resolution. If the elected officer, department head, board or commission and City Attorney cannot agree on a retired judge to hear the matter, the retired judge shall be selected at random by an alternative dispute resolution provider. If the matter is referred to a retired judge, the elected officer, department head, board or commission, subject to the budgetary and fiscal provisions of the Charter, shall be entitled to retain outside counsel to represent it solely on the issue of whether the City Attorney has a conflict of interest regarding the particular matter.

In deciding whether the City Attorney has a conflict of interest regarding a particular matter, the retired judge shall be bound by and apply the applicable substantive law and Rules of Professional Conduct as if he or she were a court of law. To the extent practicable, the retired judge shall hear the matter within 15

days after its assignment to the retired judge, and within 15 days after the hearing, shall issue a written opinion stating the basis for the decision. The retired judge, but not the City Attorney or elected officer, department head, board or commission, shall have the power to subpoena witnesses and documents in this proceeding.

The retired judge may request that the City Attorney secure written advice from the California Fair Political Practices Commission, the State Bar of California, or the California Attorney General on the question of whether the City Attorney has a conflict of interest regarding the particular matter. Upon such a request by the retired judge, the City Attorney shall secure such written advice. The retired judge may consider, but is not bound by, written advice so secured. The decision of the retired judge shall be final for the limited purpose of determining whether or not the elected officer, department head, board or commission may retain outside counsel for the particular matter.

If the retired judge decides that the City Attorney does not have a conflict of interest regarding the particular matter, the City Attorney shall continue to be the legal adviser to the elected officer, department head, board or commission for such matter. If the retired judge decides that the City Attorney has a conflict of interest regarding a particular matter, the elected officer, department head, board or commission shall be entitled to retain outside counsel for legal advice regarding the particular matter, and the City Attorney shall thereupon cease to advise the elected officer, department head, board or commission on such matter. Any such finding of a conflict of interest shall not affect the City Attorney's role as legal advisor to the elected officer, department head, board or commission on all other matters.

If at any time after the retention of outside counsel, the City Attorney believes that there is no longer a conflict of interest, the City Attorney shall state in writing to the elected officer, department head, board or commission why he or she believes that there is no longer a conflict of interest. Within five working days after receiving the written statement from the City Attorney, the elected officer, department head, board or commission shall respond in writing, either agreeing or disagreeing that there is no longer a conflict of interest. If the elected officer, department head, board or commission agrees that there is no longer a conflict of interest regarding a particular matter, the elected officer, department head, board or commission shall cease employing outside counsel for legal advice regarding the matter, and the City Attorney shall serve as legal adviser to the elected officer, department head, board or commission regarding that matter. If the elected officer, department head, board or commission states in its written response that it believes the conflict of interest still exists, the City Attorney may, within ten working days after receiving the response of the elected officer, department head, board or commission, elect to refer the issue of whether the conflict of interest regarding the particular matter continues to exist to the same retired judge who originally heard the matter, if available. The same procedures as established herein shall apply thereafter.

In selecting outside counsel for any purpose described in this Section, the elected officer, department head, board or commission shall give preference to engaging the services of a city attorney's office, a county counsel's office or other public entity law office with an expertise regarding the subject-matter jurisdiction of the elected officer, department head, board or commission. If the elected officer, department head, board or commission concludes that private counsel is necessary, that attorney must be a member in good standing with the Bar of California who has at least five years' experience in the subject-matter jurisdiction of the elected officer, department head, board or commission. (d) Within 60 days following publication of the decennial federal census in the year 2000 and every decennial federal census after that, the Director of Elections shall report to the Board of Supervisors on whether the existing districts continue to meet the requirements of federal and state law and the criteria for drawing districts lines set in the Charter.

The criteria for drawing districts lines are:

Districts must conform to all legal requirements, including the requirement that they be equal in population. Population variations between districts should be limited to 1 percent from the statistical mean unless additional variations, limited to 5 percent of the statistical mean, are necessary to prevent dividing or diluting the voting power of minorities and/or to keep recognized neighborhoods intact; provided, however, that the redistricting provided for herein shall conform to the rule of one person, one vote, and shall reflect communities of interest within the city and county. Census data, at the census block level, as released by the United States Census Bureau, statistically adjusted by the Bureau to correct the unadjusted census counts for any measured undercount or overcount of any subset of the population according to the bureau's Accuracy and Coverage Evaluation or other sampling method, shall be used in any analysis of population requirements and application of the rule of one person one vote. In the event such adjusted census data, at the census block level, are not released by the Bureau, population data, at the census block level, adjusted by the California Department of Finance for any measured undercount or overcount may be used.

If it is determined that the districts are in compliance with all legal requirements, including the requirement that they be equal in population, the current districts as drawn will be valid for the next decade. If it is determined that any of the districts are not in compliance, the Board of Supervisors by ordinance shall convene and fund a nine-member Elections Task Force. Three members shall be appointed by the Board of Supervisors, three members shall be appointed by the Mayor, and three members shall be appointed by the Director of Elections, unless an Elections Commission is created in which case the appointments designated to the Director of Elections shall be made by the Elections Commission. Task Force shall be appointed by January 8, 2002, and following the publication of each decennial federal census thereafter, shall be appointed within sixty days after issuance of a report by the Director of Elections to the Board of Supervisors that the districts are not in compliance, pursuant to this subsection.

Members of the Task Force previously appointed by the Director of Elections shall serve on the Task Force until the Elections Commission, if established, appoints three members to the Task Force, whereupon, the terms of the members appointed by the Director of Elections shall expire.

The Director of Elections shall serve *ex officio* as a non-voting member. The Task Force shall be responsible for redrawing the district lines in accordance with the law and the criteria established in this Section, and shall make such adjustments as appropriate based on public input at public hearings.

The Task Force shall complete redrawing district lines before the fifteenth day of April of the year in which the first election using the redrawn lines will be conducted. The Board of Supervisors may not revise the district boundaries established by the Task Force.

If the Task Force determines that the adjusted population data to which this subsection refers are not available a sufficient period of time before the fifteenth day of April in order to use the adjusted population data in redrawing the district lines for the following supervisorial election, and the adjusted population data demonstrate more than a five percent variance from the figures used in redrawing the district lines for that supervisorial election, the Task Force shall by the fifteenth day of April immediately preceding the next supervisorial election redraw the district lines for that supervisorial election in accordance with the provisions of this section. The procedures for redrawing supervisorial lines following the publication of every subsequent decennial federal census shall follow the procedures established by this Section.

The City Attorney shall remove the description of district lines found in this subsection from the Charter after the Elections Task Force has completed redrawing the district lines as set forth above. Following each redrawing of the district lines thereafter, the City Attorney shall cause the redrawn district lines to be published in an appendix to this Charter.

(e) Each member of the board of supervisors, commencing with the general municipal election in November, 2000, shall be elected by the electors within a

supervisory district, and must have resided in the district in which he or she is elected for a period of not less than 30 days immediately preceding the date he or she files a declaration of candidacy for the office of supervisor, and must continue to reside therein during his or her incumbency, and upon ceasing to be such resident shall be removed from office.

(f) Notwithstanding any provisions of this section or any other section of the charter to the contrary, the respective terms of office of the members of the board of supervisors who shall hold office on the eighth day of January, 2001, shall expire at 12 o'clock noon on said date and the 11 persons elected as members of the board of supervisors at the general election in 2000 shall succeed to said offices on said eighth day of January, 2001. At that time, the clerk of the board of supervisors shall determine by lot whether the supervisors elected from the even- or odd-numbered supervisory districts at the general municipal election in 2000 shall have terms of office expiring at noon on the eighth day of January, 2003, and which shall have terms of office expiring at noon on the eighth day of January, 2005; commencing, however, with the general municipal election in November, 2002, the terms of office of the supervisors elected from the even- or odd-numbered supervisory districts, as the case may be, shall be for a term of four years and shall continue as such thereafter. Those members of the board of supervisors elected at the general election in 1998, and those elected at the general election in 2000 who only serve an initial two-year term, shall not be deemed to have served a full term for purposes of the term limit established in Section 2.101.

Section 1. Section 9.107 of the San Francisco Charter is hereby amended to read as follows:

**SEC. 9.107. REVENUE BONDS.**

The Board of Supervisors is hereby authorized to provide for the issuance of revenue bonds. Revenue bonds shall be issued only with the assent of a majority of the voters upon any proposition for the issuance of revenue bonds, except that no voter approval shall be required with respect to revenue bonds:

1. Approved by three-fourths of all the Board of Supervisors if the bonds are to finance buildings, fixtures or equipment which are deemed necessary by the Board of Supervisors to comply with an order of a duly constituted state or federal authority having jurisdiction over the subject matter;

2. Approved by the Board of Supervisors prior to January 1, 1977;

3. Approved by the Board of Supervisors if the bonds are to establish a fund for the purpose of financing or refinancing for acquisition, construction or rehabilitation of housing in the City and County;

4. Authorized and issued by the Port Commission for any Port-related purpose and secured solely by Port revenues, or authorized and issued for any Airport related purpose and secured solely by Airport revenues;

5. Issued for the purposes of assisting private parties and not-for-profit entities in the financing and refinancing of the acquisition, construction, reconstruction or equipping of any improvement for industrial, manufacturing, research and devel-

opment, commercial and energy uses or other facilities and activities incidental thereto, provided the bonds are not secured or payable from any monies of the City and County or its commissions.

6. Issued for the purpose of the reconstruction or replacement of existing water facilities or electric power facilities or combinations of water and electric power facilities under the jurisdiction of the Public Utilities Commission, when authorized by resolution adopted by a three-fourths affirmative vote of all members of the Board of Supervisors.

7. Approved and authorized by the Board of Supervisors and secured solely by an assessment imposed by the City.

8. Issued to finance or refinance the acquisition, construction, installation, equipping, improvement or rehabilitation of equipment or facilities for renewable energy and energy conservation.

Except as expressly provided in this Charter, all revenue bonds may be issued and sold in accordance with state law or any procedure provided for by ordinance.

Charter Chapter 7—City of Los Angeles

***Amendments to the Charter of the City of Los Angeles***

[Filed with the Secretary of State April 14, 2002.]

The Charter of the City of Los Angeles is hereby amended as follows:

Sec. 1. Section 401 of the Charter of the City of Los Angeles is amended to read:

Sec. 401. Election Days—City of Los Angeles and Board of Education.

For City offices and elections of the Board of Education, primary nominating elections shall be held on the first Tuesday after the first Monday in March in every odd-numbered year, and general municipal elections shall be held on the third Tuesday in May in every odd-numbered year. However, if holding the election on that day would conflict with a significant event or occurrence, and the Council finds that holding the election on that day would substantially reduce voter participation, the Council may set the election on a specific alternate day not earlier than the previous Tuesday nor later than the subsequent Tuesday from the regularly scheduled election day. The Council may set the alternate day only if it finds that holding the election on such alternate day would not substantially reduce voter participation. Any action setting an alternate election day must be adopted by the Council by resolution no later than six months before the date on which the affected election would otherwise take place.

Sec. 2. Section 404 of the Charter of the City of Los Angeles is amended to read:

Sec. 404. Returns of Election.

The returns of every election shall be delivered to the City Clerk, who shall, within 21 days after any election, canvass the returns and certify them to the Council, who shall declare the result and order the issuance of certificates of nomination or election as appropriate. The Council shall be the judge of the qualifications of all of the elected officers. When any municipal election is consolidated with any state or county election, after the Board of Supervisors or Registrar of Voters of Los Angeles County has canvassed the returns and certified the result of the canvass of all municipal questions submitted at the election to the Council, the Council shall declare the result. Any act in relation to the conduct of the election required by the Charter to be performed by an officer or employee of the City may be performed by the proper officer or employee of the county.

Sec. 3. Subsections (a) and (b) of Section 421 of the Charter of the City of Los Angeles are amended to read:

(a) Form and Timing. Each candidate for nomination to any elected office shall sign and file with the City Clerk a sworn Declaration of Intention to become a candidate for the office designated in the Declaration. The Declaration of Intention must be made on a form furnished by the City Clerk, and shall include an affidavit by the candidate that he or she possesses all necessary legal qualifications to be a candidate for the designated office. The Declaration of Intention shall be filed not earlier than 120 days, nor later than 115 days prior to the primary nominating election.

(b) Restrictions; Withdrawal. A candidate may not file a Declaration of Intention to become a candidate for more than one office at the same primary nominating election. Prior to the issuance of a Nominating Petition, a candidate may withdraw the Declaration of Intention to become a candidate for the office designated therein by filing a written statement with the City Clerk. In that case, a candidate may file a new Declaration of Intention to become a candidate for another office not later than 115 days prior to the primary nominating election.

Sec. 4. Subsection (b) of Section 422 of the Charter of the City of Los Angeles is amended to read:

(b) Filing and Certification. Nominating Petitions shall be filed with the City Clerk not more than 115 days and not less than 90 days prior to the primary nominating election. No Nominating Petition shall be filed with the City Clerk until any filing fee requirement has been satisfied. The City Clerk shall examine the Nominating Petition, and determine whether it contains the requisite number of signatures of qualified registered voters, in accordance with procedures contained in the City Election Code. When the City Clerk has completed the examination of the petition, the Clerk shall prepare a dated certificate showing the result of the examination.

#### Charter Chapter 8—City of Huntington Beach

### *Amendments to the Charter of the City of Huntington Beach*

[Filed with the Secretary of State April 22, 2002.]

#### SECTION 1. Property Rights Protection Measure:

The City Charter of the City of Huntington Beach is hereby amended to add a new Section 803 to read as follows:

#### Section 803. PROPERTY RIGHTS PROTECTION MEASURE.

(a) The City shall not enact or enforce any measure which mandates the price or other consideration payable to the owner in connection with the sale, lease,

rent, exchange or other transfer by the owner of real property. Any such measure is hereby repealed.

(b) The word “mandates” as used in subsection (a) includes any measure taken by ordinance, resolution, administrative regulation or other action of the City to establish, continue, implement or enforce any control or system of controls on the price or other terms on which real property in the city may be offered, sold, leased, rented, exchanged or otherwise transferred by its owner. The words “real property” as used in subsection (a) refer to any parcel of land or site, either improved or unimproved, on which a dwelling unit or residential accommodation is or may be situated for use as a home, residence or sleeping place.

(c) This Section 803 shall not apply to:

(1) any real property which contains serious health, safety, fire or building code violations, excluding those caused by disasters, for which a civil or criminal citation has been issued by the City and remains unabated for six months or longer;

(2) any real property owned by a public entity, and real property where the owner has agreed by contract with the public entity, including the City and any of its related agencies, to accept a financial contribution or other tangible benefit including without limitation, assistance under the Community Redevelopment Law;

(3) any planning or zoning power of the City as relates to the use, occupancy or improvement of real property and to any real property which the City or any of its related agencies may acquire by eminent domain, purchase, grant or donation;

(4) any power of the City to require a business license for the sale or rental of real property, whether for regulation or general revenue purposes;

(5) any dwelling unit or accommodation in any hotel, motel or other facility when the transient occupancy of that dwelling unit or accommodation is subject to a transient occupancy tax; or

(6) to impair the obligation of any contract entered into prior to the enactment of this Section 803 or otherwise required by State law.

**SECTION 2.** Title of Proposal to Amend the City Charter:

The proposal to amend the City Charter of the City of Huntington Beach to add a new Section 803 shall be known as the “Property Rights Protection Measure”.

**SECTION 3.** Findings and Statement of Purpose of Property Rights Protection Measure:

There is strong and convincing practical evidence which shows that price controls on the sale or rental of any residential accommodation does nothing to preserve or maintain affordable housing. In fact the evidence in Southern California appears to show that rent control destroys affordable housing and accelerates development pressures to turn older properties into new and higher density commercial and so-called “up-scale” housing. To pick just one of many examples—in the City of Santa Monica with its rent control regulations Santa Monica has seen

a decline in the number of family households with children which is larger than any other comparable city in Southern California without rent control. Under rent control, Santa Monica's elderly population (age 65 or over) declined by 1.7 percent between 1980 and 1990, whereas the elderly population of Los Angeles County rose by more than 15% over the same decade. The elderly population increased over this period in every comparable city without rent control in Southern California.

The result of social experimentation with rent control in Southern California produces the following conclusion: rent control does not provide more or better affordable housing for anyone—especially the elderly and young families.

The imposition of rent control forces some property owners to change the use of their property and this change of use often can result in more development and pressures which cause the destruction of existing neighborhoods. Unnecessary and complicated government interference in private property transactions and homeownerships and rental decisions produces wasteful lawsuits and imposes needless costs on all taxpayers.

We the people find that the best means to assure that our community and neighborhoods are preserved is to protect property rights and to allow owners to make their own decisions about the price and other terms on which they can sell or lease their residential property.

**SECTION 4. Severability:**

If any provision of Section 803 of the City Charter of the City of Huntington Beach, or the application to any person or circumstance is held invalid by a court of competent jurisdiction, such invalidity shall not affect other provisions or applications of Section 803 which can be given effect without the invalid provision or application, and to this end, the provisions of Section 803 are declared to be severable.

**Section 617. INFRASTRUCTURE FUND.**

(a) All revenue raised by vote of the electors or imposed by vote of the City Council on or after March 5, 2002, by a measure which states that the revenue to be raised is for the purpose of infrastructure, as said term is defined in this para-

graph, shall be placed in a separate fund entitled “Infrastructure Fund.” The term “Infrastructure” shall mean long-lived capital assets that normally are stationary in nature and normally can be preserved for significantly greater number of years. They include storm drains, storm water pump stations, alleys, streets, highways, curbs and gutters, sidewalks, bridges, street trees, landscaped medians, parks, beach facilities, playgrounds, traffic signals, streetlights, block walls along arterial highways, and all public buildings and public ways. Monies in said Fund shall be utilized only for direct costs relating to infrastructure improvements or maintenance, including construction, design, engineering, project management, inspection, contract administration and property acquisition. Expenditures for infrastructure improvements and maintenance, subsequent to 2001, shall not be reduced below 15% of general fund revenues based on a five- (5) year rolling average.

D. “Employee” means any individual employed by a PAB in Port related employment.

E. “Person” includes any natural person, corporation, partnership, limited liability company, joint venture, sole proprietorship, association, trust or any other entity.

F. “Valid collective bargaining agreement” as used herein means a collective bargaining agreement entered into between the person and a labor organization lawfully serving as the exclusive collective bargaining representative for such person’s employees.

G. “Port Aviation or Port Maritime business” means any business that principally provides services related to maritime or aviation business related services or whose business is located in the maritime or aviation division areas as defined by the Port.

## 2. Exemptions from Coverage

In addition to the above exemption for workforces of fewer than 20 workers, the following persons shall also be exempt from coverage under this Section:

A. An Employee, who is (1) under twenty-one (21) years of age and (2) employed by a nonprofit entity for after-school or summer employment or for training for a period not longer than ninety (90) days, shall be exempt.

B. An Employee who spends less than 25 percent of his work time on Port-related employment.

C. A person who employs not more than 20 employees per pay period.

## 3. Payment of Minimum Compensation to Employees

Port-Assisted Businesses shall provide compensation to each Employee of at least the following:

### A. Minimum Compensation

The minimum compensation shall be wages and health benefits totaling at least the rate of the living wage ordinance of the City of Oakland

### B. Credit for Health Benefits

The PAB shall receive a credit against the minimum wage required by this Section for health benefits in the amount provided by and in accordance with the living wage ordinance of the City of Oakland.

## 4. Notifying Employees of their Potential Right to the Federal Earned Income Credit

Each PAB shall inform each Employee who makes less than twelve dollars (\$12.00) per hour of his or her possible right to the federal Earned Income Credit (“EIC”) under Section 2 of the Internal Revenue Code of 1954, 26 U.S.C. §32, and shall make available the forms required to secure advance EIC payments from the business. These forms shall be provided to the eligible Employees in English (and other languages spoken by a significant number of such Employees) within thirty (30) days of employment under this Section and as required by the Internal Revenue Code.

### 5. Preventing Displacement of Workers

Each PAB, which is to replace a prior PAB shall offer employment to the Service Employees of the prior PAB, if, these Employees worked for the prior PAB for at least 90 calendar days. Such Employees may not be terminated by the new PAB during the first 90 workdays except for just cause. The new PAB may operate at lower staffing levels than its predecessor but in such event, shall place the prior Employees on a preferential reinstatement list based on seniority. For purposes of this Section, a PAB “replaces” another if it (1) assumes all or part of the lease, contract or subcontract of a prior employer or obtains a new lease, contract, or sublease, and (2) offers employment which Employees of the prior PAB can perform. In the case of a replacement connected to the new PAB relocating from another location, in staffing decisions the new PAB may recognize seniority from its prior locations in addition to the seniority of the prior PAB’s workforce. “Service Employees” means all employees except manager, supervisors, professionals, paraprofessionals, confidential and office employees.

### 6. Waiver

A. A PAB who contends it is unable to pay all or part of the living wage must provide a detailed explanation in writing to the Port Executive Director who may recommend a waiver to the Port board. The explanation must set for the reasons for its inability to comply, including a complete cost accounting for the proposed work to be performed with the financial assistance sought, including wages and benefits to be paid all employees, as well as an itemization of the wage and benefits paid to the five highest paid individuals employed by the PAB. The PAB must also demonstrate that the waiver will further the public interests in creating training positions which will enable employees to advance into permanent living wage jobs or better and will not be used to replace or displace existing positions or employees or to lower the wages of current employees.

B. The Port Board will grant a waiver only upon a finding and determination that the PAB has demonstrated the necessary economic hardship and that waiver will further the public interests in providing training positions which will enable employees to advance into permanent living wage jobs or better. However, no waiver will be granted if the effect of the waiver is to replace or displace existing positions or employees or to lower the wages of current employees.

C. Such waivers are disfavored, and will be granted only where the balance of competing interests weighs clearly in favor of granting the waiver. If waivers are to be granted, partial waivers are favored over blanket waivers. Moreover, any waiver shall be granted for no more than one year. At the end of the year the PAB may reapply for a new waiver which may be granted subject to the same criteria for granting the initial waiver.

D. Any party who objects to the grant of a waiver by the Port Board may appeal such decision to the City/Port Liaison Committee, who may reject such waiver.

### 7. Retaliation and Discrimination Barred; no Waiver of Rights

A. A PAB shall not discharge, reduce the compensation of or otherwise discriminate against any person for making a complaint to the Port, participating in

any of its proceedings, using any civil remedies to enforce his or her rights, or otherwise asserting his or her rights under this Section.

B. Any waiver by an individual of any of the provisions of this Section shall be deemed contrary to public policy and shall be void and unenforceable, except that Employees shall not be barred from entering into a written valid collective bargaining agreement waiving a provision of this Section if such waiver is set forth in clear and unambiguous terms. Any request to an individual by a PAB to waive his or her rights under this Section shall constitute a violation of this Section.

#### 8. Enforcement

A. Each PAB shall maintain for each person in Port-related employment a record of his or her name, pay rate and, if the PAB claims credit for health benefits, the sums paid by the PAB for the Employee's health benefits. The PAB shall submit a copy of such records to the Port at least by March 31st, June 30th, September 30th and December 31st of each year, unless the PAB has employed less than 20 persons during the preceding quarter, in which case the PAB need only submit a copy of such records every December 31st. Failure to provide a copy of such records within five days of the due date will result in a penalty of five hundred dollars (\$500.00) per day. Each PAB shall maintain a record of the name, address, job classification, hours worked, and pay and health benefits received of each person employed, and shall preserve them for at least three years.

B. If a PAB provides health benefits to persons in Port-related employment but does not pay for them on a per-hour basis, then upon the PAB's request, the amount of the hourly credit against its wage obligation shall be the Port's reasonable estimate of the PAB's average hourly cost to provide health benefits to its Employees in Port-related employment. The PAB shall support its request with such documentation as is reasonably requested by the Port or any interested party, including labor organizations in such industry.

C. Each PAB shall give written notification to each current Employee, and to each new Employee at the time of hire, of his or her rights under this Section. The notification shall be in the form provided by the Port in English, Spanish and other languages spoken by a significant number of the Employees, and shall also be posted prominently in areas at the work site where it will be seen by all Employees.

D. Each PAB shall permit access to work sites and relevant payroll records for authorized Port representatives for the purpose of monitoring compliance with this Section, investigating employee complaints of noncompliance and evaluating the operation and effects of this Section, including the production for inspection and copying of its payroll records for any or all persons employed by the PAB. Each PAB shall permit a representative of the labor organizations in its industry to have access to its workforce at the Port during non-working time and in non-work areas for the purpose of ensuring compliance with this Section.

E. Notwithstanding any provisions in Article VI of this Charter to the contrary, the City Manager may develop rules and regulations for the Port's activities in (1)

Port review of contract documents to insure that relevant language and information are included in the Port's RFP's, agreements and other relevant documents, (2) Port monitoring of the operations of the contractors, subcontractors and financial assistance recipients to insure compliance including the review, investigation and resolution of specific concerns or complaints about the employment practices of a PAB relative to this section, and (3) provision by the Port of notice and hearing as to alleged violations of this section.

#### 9. Private Rights of Action

A. Any person claiming a violation of this Section may bring an action against the PAB in the Municipal Court or Superior Court of the State of California, as appropriate, to enforce the provisions of this Section and shall be entitled to all remedies available to remedy any violation of this Section, including but not limited to back pay, reinstatement or injunctive relief. Violations of this Section are declared to irreparably harm the public and covered employees generally.

B. Any employee proving a violation of this Section shall recover from the PAB treble his or her lost normal daily compensation and fringe benefits, together with interest thereon, and any consequential damages suffered by the employee.

C. The Court shall award reasonable attorney's fees, witness fees and costs to any plaintiff who prevails in an action to enforce this Section.

D. No criminal penalties shall attach for any violation of this Section, nor shall this Section give rise to any cause of action for damages against the Port of the City.

E. No remedy set forth in this Section is intended to be exclusive or a prerequisite for asserting a claim for relief to enforce any rights hereunder in a court of law. This Section shall not be construed to limit an employee's right to bring a common law cause of action for wrongful termination.

#### 10. Severability

If any provision or application of this Section is declared illegal, invalid or inoperative, in whole or in part, by any court of competent jurisdiction, the remaining provisions and portions thereof and applications not declared illegal, invalid or inoperative shall remain in full force or effect. The courts are hereby authorized to reform the provisions of this Section in order to preserve the maximum permissible effect of each subsection herein. Nothing herein may be construed to impair any contractual obligations of the Port. This Section shall not be applied to the extent it will cause any loss of federal or state funding of Port activities.

## Charter Chapter 18—City and County of San Francisco

***Amendments to the Charter of the City and  
County of San Francisco***

[Filed with the Secretary of State May 1, 2002.]

Section 1. The San Francisco Charter is hereby amended, by amending Section 13.101, to read as follows:

**SEC. 13.101. TERMS OF ELECTIVE OFFICE.**

Except in the case of an appointment or election to fill a vacancy, the term of office of each elected officer shall commence at 12:00 noon on the eighth day of January following the date of the election.

Subject to the applicable provisions of Section 13.102, the elected officers of the City and County shall be elected as follows:

At the general municipal election in 1995 and every fourth year thereafter, a Mayor, a Sheriff and a District Attorney shall be elected.

At the statewide general election in 1996 and every fourth year thereafter, four members of the Board of Education and four members of the Governing Board of the Community College District shall be elected.

At the general municipal election in 1997 and every fourth year thereafter, a City Attorney and a Treasurer shall be elected.

At the statewide primary election in 1998 and every fourth year thereafter, an Assessor-Recorder and Public Defender shall be elected.

At the statewide general election in 1998 and every fourth year thereafter, three members of the Board of Education and three members of the Governing Board of the Community College District shall be elected.

The election and terms of office of members of the Board of Supervisors shall be governed by Section 13.110.

Section 2. The San Francisco Charter is hereby amended, by repealing current Section 13.102.

Section 3. The San Francisco Charter is hereby amended, by adding a new Section 13.102, to read as follows:

**SEC. 13.102. INSTANT RUNOFF ELECTIONS.**

(a) For the purposes of this section: (1) a candidate shall be deemed “continuing” if the candidate has not been eliminated; (2) a ballot shall be deemed “continuing” if it is not exhausted; and (3) a ballot shall be deemed “exhausted,” and not counted in further stages of the tabulation, if all of the choices have been eliminated or there are no more choices indicated on the ballot. If a ranked-choice ballot gives equal rank to two or more candidates, the ballot shall be declared exhausted when such multiple rankings are reached. If a voter casts a ranked-choice ballot but skips a rank, the voter’s vote shall be transferred to that voter’s next ranked choice.

(b) The Mayor, Sheriff, District Attorney, City Attorney, Treasurer, Assessor-Recorder, Public Defender, and members of the Board of Supervisors shall be

elected using a ranked-choice, or “instant runoff,” ballot. The ballot shall allow voters to rank a number of choices in order of preference equal to the total number of candidates for each office; provided, however, if the voting system, vote tabulation system, or similar or related equipment used by the City and County cannot feasibly accommodate choices equal to the total number of candidates running for each office, then the Director of Elections may limit the number of choices a voter may rank to no fewer than three. The ballot shall in no way interfere with a voter’s ability to cast a vote for a write-in candidate.

(c) If a candidate receives a majority of the first choices, that candidate shall be declared elected. If no candidate receives a majority, the candidate who received the fewest first choices shall be eliminated and each vote cast for that candidate shall be transferred to the next-ranked candidate on that voter’s ballot. If, after this transfer of votes, any candidate has a majority of the votes from the continuing ballots, that candidate shall be declared elected.

(d) If no candidate receives a majority of votes from the continuing ballots after a candidate has been eliminated and his or her votes have been transferred to the next-ranked candidate, the continuing candidate with the fewest votes from the continuing ballots shall be eliminated. All votes cast for that candidate shall be transferred to the next-ranked continuing candidate on each voter’s ballot. This process of eliminating candidates and transferring their votes to the next-ranked continuing candidates shall be repeated until a candidate receives a majority of the votes from the continuing ballots.

(e) If the total number of votes of the two or more candidates credited with the lowest number of votes is less than the number of votes credited to the candidate with the next highest number of votes, those candidates with the lowest number of votes shall be eliminated simultaneously and their votes transferred to the next-ranked continuing candidate on each ballot in a single counting operation.

(f) A tie between two or more candidates shall be resolved in accordance with State law.

(g) The Department of Elections shall conduct a voter education campaign to familiarize voters with the ranked-choice or “instant runoff,” method of voting.

(h) Any voting system, vote tabulation system, or similar or related equipment acquired by the City and County shall have the capability to accommodate this system of ranked-choice or “instant run-off” balloting.

(i) Ranked-choice, or “instant runoff,” balloting shall be used for the general municipal election in November 2002 and all subsequent elections. If the Director of Elections certifies to the Board of Supervisors and the Mayor no later than July 1, 2002 that the Department of Elections will not be ready to implement ranked-choice balloting in November 2002, then the City shall begin using ranked-choice, or “instant runoff,” balloting at the November 2003 general municipal election.

If ranked-choice, or “instant runoff,” balloting is not used in November of 2002, and no candidate for any elective office of the City and County, except the Board of Education and the Governing Board of the Community College District,

receives a majority of the votes cast at an election for such office, the two candidates receiving the most votes shall qualify to have their names placed on the ballot for a runoff election held on the second Tuesday in December of 2002.

Certified to be a true copy by Tom Ammiano, President of the Board of Supervisors, and Gloria L. Young, Clerk of the Board of Supervisors.

Date of Election: March 5, 2002.

Charter Chapter 19—City and County of San Francisco

***Amendments to the Charter of the City and  
County of San Francisco***

[Filed with the Secretary of State May 1, 2002.]

**A8.526-1 SUPPLEMENTAL COST OF LIVING BENEFIT**

Starting on July 1, 1997, the Retirement Board shall establish in the Retirement Fund a Reserve Account. Funds in this Reserve Account shall be used to provide supplemental cost of living benefit adjustments to retirement allowances in addition to cost of living adjustments now provided for in the Charter. Funds placed in this Reserve Account shall consist of all earnings of the Retirement Fund in the previous fiscal year which are in excess of the expected earnings on the actuarial value of the assets. The expected earnings are the earnings projected by the actuarial assumption for return on assets that were in place for that fiscal year. The maximum amount of funds to be placed in this Reserve Account shall not exceed the amount of funds projected to be necessary to fund benefits provided pursuant to this section for that fiscal year and the following two fiscal years. The funds in this Reserve Account shall be used solely to provide supplemental cost of living benefit adjustments as follows:

(a) On July 1, 1997 and July 1 of each succeeding year, if there are sufficient funds in this Reserve Account, each retirement allowance or death allowance payable on account of a member who died, including retirement allowances subject to change when the salary rate of a member is changed, shall be increased by an amount equal to three percent (3%) of the allowance, less the amount of any cost of living adjustment provided pursuant to Section 8.526 and less the amount of any cost of living adjustment, payable in that fiscal year, which is the result of a change in the salary of the member.

(b) On July 1, 1997, if there are sufficient funds in this Reserve Account, each retirement allowance payable to or account of a member who was retired on or before December 31, 1979 as a member under Sections 8.507 or 8.509 or 8.584 shall be increased by a monthly amount equal to \$3 for each complete year of retirement. In computing years of retirement, the Retirement System shall count completed fiscal years between the member's effective date of retirement and June 30, 1997.

(c) On and after June 30, 2003, any supplemental cost of living benefit adjustment, once paid to a member, shall not be reduced thereafter.

(d) On and after June 30, 2003, the Reserve Account set forth in this section shall be used to finance only the increase in the supplemental cost of living benefit adjustments for the next ensuing fiscal year as set forth in subsection (a). If there are insufficient funds in the Reserve Account to pay the increase in the supplemental cost of living benefit adjustments for the next ensuing fiscal year, then the increase in the supplemental cost of living benefit adjustments for that fiscal year shall not be paid. However, any excess earnings as defined in this section shall be accumulated until an amount sufficient to make one fiscal year's increase in the supplemental cost of living benefit adjustments is reached.

Certified to be a true copy by Tom Ammiano, President of the Board of Supervisors, and Gloria L. Young, Clerk of the Board of Supervisors.

Date of Election: March 5, 2002.

Charter Chapter 20—City and County of San Francisco

***Amendments to the Charter of the City and  
County of San Francisco***

[Filed with the Secretary of State May 1, 2002.]

**SEC. 4.105. PLANNING COMMISSION.**

**GENERAL.** The Planning Commission shall consist of seven members nominated and appointed pursuant to this section. Four of the members shall be nominated by the Mayor, and three of the members shall be nominated by the President of the Board of Supervisors. Charter Section 4.101 shall apply to these appointments, with particular emphasis on the geographic diversity of City neighborhoods. Vacancies shall be filled by the appointing officer.

Each nomination of the Mayor and the President of the Board of Supervisors is subject to approval by the Board of Supervisors, and shall be the subject of a public hearing and vote within 60 days. If the Board fails to act on the nomination within 60 days of the date the nomination is transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed approved. The appointment shall become effective on the date the Board adopts a motion approving the nomination or after 60 days of the date the nomination is transmitted to the Clerk of the Board of Supervisors.

Members may be removed by the appointing officer only pursuant to Section 15.105.

In order to stagger the terms, three members shall initially serve two-year terms, and four members shall initially serve four-year terms. The initial two and four-year terms of office shall be instituted as follows:

1. The respective terms of office of members of the Planning Commission who hold office on the first day of July, 2002 shall expire at 12 o'clock noon on that

date, and the four members appointed by the Mayor and the three members appointed by the President of the Board of Supervisors shall succeed to said offices at that time.

2. The clerk of the Board of Supervisors shall determine by lot which two of the four Mayoral appointees shall serve an initial two-year term, and which one of the three appointees of the President of the Board of Supervisors shall serve an initial two-year term. The remaining appointees shall serve four-year terms. All subsequent terms shall be four years.

The Commission shall provide the Mayor with at least three qualified candidates for Director of Planning, selected on the basis of administrative and technical qualifications, with special regard for experience, training and knowledge in the field of city planning.

The Commission may contract with consultants for such services as it may require subject to the fiscal provisions of this Charter.

**GENERAL PLAN.** The Commission shall periodically recommend to the Board of Supervisors for approval or rejection proposed amendments to the General Plan. If the Board of Supervisors fails to act within 90 days of receipt, the proposed General Plan or amendments shall be deemed approved. The General Plan which will initially consist of the Master Plan in effect immediately prior to the effective date of this Charter shall consist of goals, policies and programs for the future physical development of the City and County that take into consideration social, economic and environmental factors. In developing their recommendations, the Commission shall consult with commissions and elected officials, and shall hold public hearings as part of a comprehensive planning process. The Planning Department, in consultation with other departments and the City Administrator, shall periodically prepare special area, neighborhood and other plans designed to carry out the General Plan, and periodically prepare implementation programs and schedules which link the General Plan to the allocation of local, state and federal resources. The Planning Department may make such other reports and recommendations to the Mayor, Board of Supervisors and other offices and governmental units as it may deem necessary to secure understanding and a systematic effectuation of the General Plan.

In preparing any plans, the Planning Department may include plans for systems and areas within the Bay Region which have a planning relationship with the City and County.

**REFERRAL OF CERTAIN MATTERS.** The following matters shall, prior to passage by the Board of Supervisors, be submitted for written report by the Planning Department regarding conformity with the General Plan:

1. Proposed ordinances and resolutions concerning the acquisition or vacation of property by, or a change in the use or title of property owned by, the City and County;
2. Subdivisions of land within the City and County;
3. Projects for the construction or improvement of public buildings or structures within the City and County;

4. Project plans for public housing, or publicly assisted private housing in the City and County;
5. Redevelopment project plans within the City and County; and
6. Such other matters as may be prescribed by ordinance.

The Commission shall disapprove any proposed action referred to it upon a finding that such action does not conform to the General Plan. Such a finding may be reversed by a vote of two-thirds of the Board of Supervisors.

All such reports and recommendations shall be issued in a manner and within a time period to be determined by ordinance.

**PERMITS AND LICENSES.** All permits and licenses dependent on, or affected by, the City Planning Code administered by the Planning Department shall be approved by the Commission prior to issuance. The Commission may delegate this approval function to the Planning Department.

**ENFORCEMENT.** The Planning Department shall administer and enforce the City Planning Code.

**ZONING AMENDMENTS.** The Commission may propose for consideration by the Board of Supervisors ordinances regulating or controlling the height, area, bulk, set-back, location, use or related aspects of any building, structure or land. An ordinance proposed by the Board of Supervisors concerning zoning shall be reviewed by the Commission. Applications for the reclassification of property may be made by interested parties and must be reviewed by the Commission.

Notwithstanding the Commission's disapproval of a proposal from the Board of Supervisors or the application of interested parties, the Board of Supervisors may adopt the proposed ordinance; however, in the case of any proposal made by the application of interested parties, any such adoption shall be by a vote of not less than two-thirds of the Board of Supervisors.

No application of interested parties proposing the same or substantially the same ordinance as that disapproved by the Commission or by the Board of Supervisors shall be resubmitted to or reconsidered by the Commission within a period of one year from the effective date of final action upon the earlier application.

**ZONING ADMINISTRATOR.** The director of planning shall appoint a Zoning Administrator from a list of qualified applicants provided pursuant to the Civil Service provisions of the Charter. The Zoning Administrator shall be responsible for the determination of all zoning variances. The administrator shall have the power to grant only those variances that are consistent with the general purpose and the intent of the zoning ordinance, and in accordance with the general and specific rules of the zoning ordinance, subject to such conditions and safeguards as the Zoning Administrator may impose. The power to grant variances shall be applied only when the plain and literal interpretation and enforcement of the zoning ordinance would result in practical difficulties, unnecessary hardships or where the results would be inconsistent with the general purpose of the zoning ordinance. Decisions of the Zoning Administrator regarding zoning variances may be appealed to the Board of Appeals.

Before any such variance may be granted, there shall appear, and the Zoning Administrator shall specify in his or her findings, the facts in each case which shall establish:

(a) That there are exceptional or extraordinary circumstances or conditions applying to the property involved or to the intended use of the property that do not apply generally to the property or class of uses in the same district or zone;

(b) That owing to such exceptional or extraordinary circumstances the literal enforcement of the zoning ordinance would result in practical difficulty or unnecessary hardship not created by or attributable to the applicant or the owner of the property;

(c) That such variance is necessary for the preservation and enjoyment of a substantial property right of the applicant, possessed by other property in the same zone and vicinity;

(d) That the granting of the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such zone or district in which the property is located; and

(e) That the granting of such variance will be in harmony with the general purpose and intent of the zoning ordinance and will not adversely affect the general plan.

The determination of the Zoning Administrator shall be final except that appeals therefrom may be taken, as hereinafter provided, to the Board of Appeals, exclusively and notwithstanding any other provisions of this Charter, by any person aggrieved or by any office, agency, or department of the City and County. An appeal from a determination of the Zoning Administrator shall be filed with the Board of Appeals within ten days from the date of such determination. Upon making a ruling or determination upon any matter under his or her jurisdiction, the Zoning Administrator shall thereupon furnish a copy thereof to the applicant and to the Director of Planning. No variance granted by the Zoning Administrator shall become effective until ten days thereafter. An appeal shall stay all proceedings in furtherance of the action appealed from.

**CONDITIONAL USE.** The Commission shall have the power to hear and decide conditional use applications. An appeal may be taken to the Board of Supervisors from a decision of the Commission to grant or deny a conditional use application. The Board of Supervisors may disapprove the decision of the Commission by a vote of not less than two-thirds of the members of the Board.

**SEC. 4.106. BOARD OF APPEALS.**

(a) The Board of Appeals shall consist of five members nominated and appointed pursuant to this section. Three of the members shall be appointed by the Mayor, and two of the members shall be appointed by the President of the Board of Supervisors. Charter Section 4.101 shall apply to these appointments. Vacancies shall be filled by the appointing officer.

Each nomination of the Mayor and the President of the Board of Supervisors is subject to approval by the Board of Supervisors, and shall be the subject of a

public hearing and vote within 60 days. If the Board fails to act on the nomination within 60 days of the date the nomination is transmitted to the Clerk of the Board of Supervisors, the nominee shall be deemed approved. The appointment shall become effective on the date the Board adopts a motion approving the nomination or after 60 days of the date the nomination is transmitted to the Clerk of the Board of Supervisors.

Members may be removed by the appointing officer only pursuant to Section 15.105.

In order to stagger the terms three members shall initially serve two-year terms, and two members shall initially serve four-year terms. The initial two and four-year terms of office shall be instituted as follows:

(1) The respective terms of office of members of the Board of Appeals who hold office on the first day of July, 2002 shall expire at 12 o'clock noon on that date, and the three members appointed by the Mayor and the two members appointed by the President of the Board of Supervisors shall succeed to said offices at that time.

(2) The clerk of the Board of Supervisors shall determine by lot which two of the three Mayoral appointees shall serve an initial two-year term, and which one of the two appointees of the President of the Board of Supervisors shall serve an initial two-year term. The remaining appointees shall serve four-year terms. All subsequent terms shall be four years.

The Board shall appoint and may remove an executive secretary, who shall serve as department head.

(b) The Board shall hear and determine appeals with respect to any person who has been denied a permit or license, or whose permit or license has been suspended, revoked or withdrawn, or who believes that his or her interest or the public interest will be adversely affected by the grant, denial, suspension or revocation of a license or permit, except for a permit or license under the jurisdiction of the Recreation and Park Commission or Department, or the Port Commission, or a building or demolition permit for a project that has received a permit or license pursuant to a conditional use authorization.

(c) The Board of Appeals shall hear and determine appeals:

1. Where it is alleged there is error or abuse of discretion in any order, requirement, decision or determination made by the Zoning Administrator in the enforcement of the provisions of any ordinance adopted by the Board of Supervisors creating zoning districts or regulating the use of property in the city and county; or

2. From the rulings, decisions and determinations of the Zoning Administrator granting or denying applications for variances from any rule, regulation, restriction or requirement of the zoning or set-back ordinances, or any section thereof. Upon the hearing of such appeals, the Board may affirm, change, or modify the ruling, decision or determination appealed from, or, in lieu thereof, make such other additional determinations as it shall deem proper in the premises, subject to the same

limitations as are placed upon the Zoning Administrator by this Charter or by ordinance.

(d) After a hearing and any necessary investigation, the Board may concur in the action of the department involved, or by the affirmative vote of four members (or if a vacancy exists, by a vote of three members) overrule the action of the Department.

Where the Board exercises its authority to modify or overrule the action of a department, the Board shall state in summary its reasons in writing.

#### SEC. 15.105. SUSPENSION AND REMOVAL.

Any elective officer, and any member of the Airport Commission, Asian Art Commission, Civil Service Commission, Commission on the Status of Women, Health Commission, Human Services Commission, Juvenile Probation Commission, Public Utilities Commission, Recreation and Park Commission, Fine Arts Museums Board of Trustees, War Memorial and Performing Art Center Board of Trustees, Board of Education or Community College Board may be suspended by the Mayor and removed by the Board of Supervisors for official misconduct, and the Mayor shall appoint a qualified person to discharge the duties of the office during the period of suspension. On such suspension, the Mayor shall immediately notify the Ethics Commission and Board of Supervisors thereof in writing and the cause thereof, and shall present written charges against such suspended officer to the Ethics Commission and Board of Supervisors at or prior to their next regular meetings following such suspension, and shall immediately furnish a copy of the same to such officer, who shall have the right to appear with counsel before the Ethics Commission in his or her defense. Hearing by the Ethics Commission shall be held not less than five days after the filing of written charges. After the hearing, the Ethics Commission shall transmit the full record of the hearing to the Board of Supervisors with a recommendation as to whether the charges should be sustained. If, after reviewing the complete record, the charges are sustained by not less than a three-fourths vote of all members of the Board of Supervisors, the suspended officer shall be removed from office; if not so sustained, or if not acted on by the Board of Supervisors within 30 days after the receipt of the record from the Ethics Commission, the suspended officer shall thereby be reinstated.

Members of the Building Inspection Commission, the Planning Commission, and the Board of Appeals who were appointed by the Mayor may be suspended and removed pursuant to the provisions set forth above. Members of these Commissions who were appointed by the President of the Board of Supervisors may be suspended and removed pursuant to the same procedures, except that the President of the Board shall act in place of the Mayor. Members of the Elections Commission and Ethics Commission may be suspended and removed pursuant to the provisions set forth above, except that the appointing authority shall act in place of the Mayor.

The Mayor must immediately remove from office any elective official convicted of a crime involving moral turpitude, and failure of the Mayor so to act shall constitute official misconduct on his or her part. Any appointee of the Mayor or the Board of Supervisors guilty of official misconduct or convicted of crime involving moral turpitude must be removed by the Mayor or the Board of Supervisors, as the case may be, and failure of the Mayor or any Supervisor to take such action shall constitute official misconduct on their part. Any member of the Elections Commission or Ethics Commission guilty of official misconduct or convicted of crime involving moral turpitude must be removed by the appointing authority, and failure of the appointing authority to act shall constitute official misconduct on his or her part.

Charter Chapter 28—City of Seal Beach

***Amendments to the Charter of the City of Seal Beach***

[Filed with the Secretary of State April 15, 2002.]

Section 1010 is amended to read:

Section 1010. Contracts on Public Works. The City Council shall adopt policies and procedures governing contracting for public works which are defined to include the construction or improvement of public buildings, works, streets, drains, sewers, utilities, parks or playgrounds. The City Council may, in its sole discretion, adopt selected policies and procedures by reference to state law, but no state law shall govern public works contracting unless it is expressly adopted by the City Council or has been finally determined to be applicable to all charter law cities by an appellate court with jurisdiction over the City of Seal Beach. Except as otherwise provided in this Charter or by state law made applicable to the City of Seal Beach, the City Council shall award to the lowest responsible bidder each contract involving an expenditure of more than the bidding threshold amount (as defined in this Section) for the construction or improvement of public works or for the purchase of supplies or materials for any such project. Bids shall be solicited via notice by publication in the official newspaper by one or more insertions, the first of which shall be at least ten days before the time for opening bids and such other forms of notice as the City Council may direct. Public works are excepted from the requirements of this Section where the work will be performed by a City or County of Orange department.

All bids may be accompanied by either a certified or cashier's check, or a bidder's bond executed by a corporate surety authorized to engage in such business in California, made payable to the City. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to therein, or if no amount be so specified then in an amount not less than ten percent of the aggregate amount of the bid. If the successful bidder neglects or refuses to enter into the contract within the time specified in the notice inviting

bids or in the specifications referred to therein, the amount of its bidder's security shall be declared forfeited to the City and shall be collected and paid into its general fund, and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

The City Council may reject any and all bids presented and may readvertise in its discretion.

The City Council, without advertising for bids, or after rejecting bids, or if no bids were received, may declare and determine that in its opinion, based on estimates approved by the City Manager, the work in question may be performed better or more economically by the City with its own employees or the supplies or the materials may be purchased more economically on the open market. Contracts likewise may be let without advertising for bids, if such work, supplies or materials shall be deemed by the City Council to be of urgent necessity for the preservation of life, health, or property. In either event, the Council shall adopt a resolution with findings supporting the letting of a contract without advertising for bids by at least three affirmative votes of the Council, after which the City may proceed to have such work done or said supplies and materials purchased in the manner stated, without further observance of the provisions of this Section.

The bidding threshold amount shall be Twenty Thousand Dollars initially, and shall be annually adjusted by the City Traffic Engineer upon confirmation by the City Council. On June 1 of each year, the City Engineer shall compute the percentage difference between the current Engineering News Record Construction Cost Index—20 City Average (ENR) and the ENR for the previous June 1. The City Engineer shall adjust the bidding threshold amount by such percentage, rounding to the nearest dollar. The City Council shall review such adjustment at a public hearing, and upon Council confirmation, the bidding threshold amount shall be the adjusted figure. Should the ENR be revised or discontinued, the City Engineer shall use the revised index or a comparable index approved by the City Council.

## Charter Chapter 37—City of Pasadena

***Amendments to the Charter of the City of Pasadena***

[Filed with the Secretary of State June 6, 2002.]

The Charter of the City of Pasadena is amended by adding a new Article XVII, Taxpayer Protection, as ratified by the people on March 6, 2001, as follows:

ARTICLE XVII  
TAXPAYER PROTECTION

Section 1701. TITLE. This Article shall be known as the City of Pasadena Taxpayer Protection Amendment of 2000.

Section 1702. FINDINGS AND DECLARATIONS.

(a) The people of the City of Pasadena (“City”) find that the use or disposition of public assets are often tainted by conflicts of interest among local public officials entrusted with their management and control. Such assets, including publicly owned real property, land use decisions conferring substantial private benefits, conferral of a franchise without competition, public purchases, taxation, and financing, should be arranged strictly on the merits for the benefit of the public, and irrespective of the separate personal or financial interests of involved public officials.

(b) The people find that public decisions to sell or lease property, to confer cable, trash hauling and other franchises, to award public construction or service contracts, or to utilize or dispose of other public assets, and to grant special land use or taxation exceptions have often been made with the expectation of, and subsequent receipt of, private benefits from those so assisted to involved public ‘decision makers’. The people further find that the sources of such corruptive influence include gifts and honoraria, future employment offers, and anticipated campaign contributions for public officials who are either elected or who later seek elective office. The trading of special favors or advantage in the management or disposal of public assets and in the making of major public purchases compromises the political process, undermines confidence in democratic institutions, deprives meritorious prospective private buyers, lessees, and sellers of fair opportunity, and deprives the public of its rightful enjoyment and effective use of public assets.

(c) Accordingly, the people declare that there is a compelling state interest in reducing the corruptive influence of emoluments, gifts, and prospective campaign contributions on the decisions of public officials in the management of public assets and franchises, and in the disposition of public funds. The people, who compensate public officials, expect and declare that as a condition of such public office, no gifts, promised employment, or campaign contributions shall be received from any substantial beneficiary of such a public decision for a reasonable period, as provided herein.

Section 1703. DEFINITIONS.

(a) As used herein, the term public benefit does not include public employment in the normal course of business for services rendered, but includes a contract, benefit, or arrangement between the City and any individual, corporation, firm, partnership, association, or other person or entity to:

(1) provide personal services of a value in excess of \$25,000 over any 12 month period,

(2) sell or furnish any material, supplies or equipment to the City of a value in excess of \$25,000 over any 12 month period,

(3) buy or sell any real property to or from the City with a value in excess of \$25,000, or lease any real property to or from the City with a value in excess of \$25,000 over any 12 month period,

(4) receive an award of a franchise to conduct any business activity in a territory in which no other competitor potentially is available to provide similar and competitive services, and for which gross revenue from the business activity exceeds \$50,000 in any 12 month period,

(5) confer a land use variance, special use permit, or other exception to a pre-existing master plan or land use ordinance pertaining to real property where such decision has a value in excess of \$25,000,

(6) confer a tax abatement, exception, or benefit not generally applicable of a value in excess of \$5,000 in any 12 month period,

(7) receive cash or specie of a net value to the recipient in excess of \$10,000 in any 12 month period.

(b) Those persons or entities receiving public benefits as defined in Section 1703(a)(1)–(7) shall include the individual, corporation, firm, partnership, association, or other person or entity so benefiting, and any individual or person who, during a period where such benefit is received or accrues,

(1) has more than a ten percent (10%) equity, participation, or revenue interest in that entity, or

(2) who is a trustee, director, partner, or officer of that entity.

(c) As used herein, the term personal or campaign advantage shall include:

(1) any gift, honoraria, emolument, or personal pecuniary benefit of a value in excess of \$50;

(2) any employment for compensation;

(3) any campaign contributions for any elective office said official may pursue.

(d) As used herein, the term public official includes any elected or appointed public official acting in an official capacity.

Section 1704. CITY PUBLIC OFFICIAL SHALL NOT RECEIVE PERSONAL OR CAMPAIGN ADVANTAGE FROM THOSE TO WHOM THEY ALLOCATE PUBLIC BENEFITS.

(a) No City public official who has exercised discretion to approve and who has approved or voted to approve a public benefit as defined in Section 1703(a)

may receive a personal or campaign advantage as defined in Section 1703(c) from a person as defined in Section 1703(b) for a period beginning on the date the official approves or votes to approve the public benefit, and ending no later than

(1) one year after the expiration of the term of office that the official is serving at the time the official approves or votes to approve the public benefit;

(2) one year after the official's departure from his or her office whether or not there is a pre-established term of office; or

(3) five years from the date the official approves or votes to approve the public benefit; whichever is first.

(b) Section 1704(a) shall also apply to the exercise of discretion of any such public official serving in his or her official capacity through a redevelopment agency, or any other public agency, whether within or without the territorial jurisdiction of the City either as a representative or appointee of the City.

**Section 1705. APPLICABLE PUBLIC BENEFICIARIES SECTION. RESPONSIBILITIES OF CITY PUBLIC OFFICIALS AND ADVANTAGE RECIPIENTS.**

(a) City public officials shall practice due diligence to ascertain whether or not a benefit defined under Section 1703(a) has been conferred, and to monitor personal or campaign advantages enumerated under Section 1703(c) so that any such qualifying advantage received is returned forthwith, and no later than ten days after its receipt.

(b) City public officials shall provide, upon inquiry by any person, the names of all entities and persons known to them who respectively qualify as public benefit recipients under the terms of Sections 1703 and 1704.

**Section 1706. DISCLOSURE OF THE LAW.** The City shall provide any person, corporation, firm, partnership, association, or other person or entity applying or competing for any benefit enumerated in Section 1703(a) with written notice of the provisions of this Article and the future limitations it imposes. Said notice shall be incorporated into requests for 'proposal', bid invitations, or other existing informational disclosure documents to persons engaged in prospective business with, from, or through the City.

**Section 1707. PENALTIES AND ENFORCEMENT.**

(a) In addition to all other penalties which might apply, any knowing and willful violation of this Article by a public official constitutes a criminal misdemeanor offense.

(b) A civil action may be brought under this Article against a public official who receives a personal or campaign advantage in violation of Section 1704. A finding of liability shall subject the public official to the following civil remedies:

(1) restitution of the personal or campaign advantage received, which shall accrue to the general fund of the City;

(2) a civil penalty of up to five times the value of the personal or campaign advantage received;

(3) injunctive relief necessary to prevent present and future violations of this Article;

(4) disqualification from future public office or position within the jurisdiction, if violations are willful, egregious, or repeated.

(c) A civil action under subdivision (b) of this section may be brought by any resident of the City. In the event that such an action is brought by a resident of the City and the petitioner prevails, the respondent public official shall pay reasonable attorney's fees and costs to the prevailing petitioner. Civil penalties collected in such a prosecution shall accrue 10% to the petitioner and 90% to the City's general fund.

Section 1708. SEVERABILITY. If any provision of this Article is held invalid, such invalidity or unconstitutionality shall not affect other provisions or applications which can be given effect without the invalidated provision, and to this end the provisions of this Article are severable.

Any compensation received from the sale or lease of said property shall be paid into the Water Revenue Fund or such other fund of the Water Department as may be designated by the Commission, and shall be used for the purposes of the Water Department; provided, however, that except as otherwise provided in this Article, nothing herein shall authorize the Commission to sell, lease or dispose of any water rights, reservoir space or storage capacity, or any interest or space therein. (11) To purchase supplies and equipment that may be necessary or convenient to the use of the Water Department.

(12) To make contracts in the name of the Commission to carry into effect the powers granted the Commission in this Charter; provided, that all contracts wherein the expenditure of funds of the Water Department exceeds the amount established by ordinance of the City Council for City departments, except contracts for labor, materials or supplies for actual emergency work, shall be made and entered into upon competitive bidding as provided in this Charter, and all powers and duties therein conferred or imposed upon the City Council and/or City

Charter Chapter 51—County of Alameda

***Amendments to the Charter of the County of Alameda***

[Filed with the Secretary of State July 11, 2002.]

Sec. 11. The Board of Supervisors shall have all the jurisdiction and powers which are now or which may be hereafter granted by the Constitution and laws of the State of California, or by this Charter, except in cases involving the County's medical and health facilities commonly and officially known as the Alameda County Medical Center (hereinafter APMC), wherein the following additional provisions shall apply:

(a) The APMC shall consist of Highland General Hospital, Fairmont Hospital, John George Psychiatric Pavilion, The Alameda Health Center, The Central Health Center, The Eastern Health Center, The Hayward Health Center, The Newark Health Center, and any additional facilities that are now or may subsequently be operated as part of the APMC.

(b) The purpose of the APMC shall be as set forth in the APMC By-laws dated 4/95. The County of Alameda and the APMC shall comply with all applicable local, state, and federal laws and regulations and shall take all reasonable steps, including securing available federal, state, and local funds to renovate or expand existing APMC facilities and/or build new APMC facilities, to ensure compliance with the purpose of the APMC as set forth above.

The County of Alameda and the APMC shall support and maintain a full spectrum of health care facilities, services and staffing necessary to fulfill the purpose of the APMC. This provision shall not apply to changes in the level of medical services unless such changes amount, solely or in aggregate, to a loss of services, either by elimination or by reduction, which then conflicts with the level of services required to fulfill the purpose of the APMC. Any proposed elimination or reduction of services shall be presumed to conflict with the purpose of the APMC until the Board of Supervisors determines otherwise in open meeting.

(c) In addition to any other provision of law, before closing, leasing, selling, assigning or in any way transferring the assets, or any substantial portion thereof, and before transferring management, and/or in any substantial manner changing the system of governance, including by an Authority and/or corporation at any form, or changing the ownership of the APMC or any of its facilities to any other entity or person, the Board of Supervisors shall, by resolution, submit to the voter

of the County a measure proposing such action. The measure shall be placed on the ballot of a special election held at the request of the Board of Supervisors on the ballot of the next regularly scheduled election occurring at least 88 days after the resolution of the Board of Supervisors. If a majority of the voters voting on the measure vote in its favor, the transfer shall be approved. It is the intent of this provision for voter approval of any transfer that the local ballot measure shall be subject to all campaign disclosure requirements applicable to local measures in the State of California. In conformity with existing law, the term “transferring the management” means transferring the direct responsibility for and/or managerial control or other form of control over the ACMC or any one or more of its facilities from the Board of Supervisors to another entity or person, including an Authority and/or corporation of any form.

(d) The Board of Supervisors shall not submit for voter approval any proposed sale, lease, change of ownership, or other transfer of the ACMC assets or management or the assets or management of any of its facilities under subsection (c) unless the Board of Supervisors has first obtained the written agreement of the proposed transferee(s) to assume, honor, and comply with the obligations of subsection (b) regardless of the level of Federal, State, or County funding available to meet said obligations.

(e) If a sale, lease or transfer of the ACMC is approved by the voters pursuant to subsection (c), the buyer, leaseholder, successor or assignee shall assume and be bound by any existing collective bargaining agreements applicable to the ACMC for the remainder of the term of said agreements. Said assumption shall include employment of existing workers in accordance with the terms of said agreements and shall include continuing recognition of any labor organizations that are a party to said agreements.

(f) To the extent permissible by law, the provisions of this charter amendment shall be effective February 26, 1996.

(g) The sections, paragraphs, sentences, clauses, and phrases of this charter amendment are severable; therefore, if any section, paragraph, sentence, clause, or phrase of this ordinance shall be declared invalid or unconstitutional by the judgement of decree of a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect any of the remaining sections, paragraphs, sentences, clauses, and phrases of this charter amendment.

Charter Chapter 58—City of Chula Vista

***Amendments to the Charter of the City of Chula Vista***

[Filed with the Secretary of State August 22, 2002.]

Sec. 1009. Contracts on Public Works.

In the construction, reconstruction, or repair of public buildings, streets, drains, sewers, parks, playgrounds and other public works, the furnishing of supplies, materials equipment or contractual services for same shall be done by written contract approved as to form and legality by the City Attorney.

Every project involving an expenditure of fifty thousand dollars (\$50,000.00) or more for the construction, reconstruction, improvement or repair of public buildings, streets, drains, sewers, utilities, parks and playgrounds and other public works, and the furnishing of supplies, materials, equipment or contractual services for same shall be done by written contract except as otherwise provided in this chapter, and the Council, upon the recommendation of the City Manager, shall let said contract to the lowest responsible bidder after notice by publication in the official newspaper for sealed bids for the work contemplated by one or more insertions, the first of which shall be at least ten days before the time for opening bids. If the cost of said public works project is more than the sum of twenty-five

thousand dollars (\$25,000.00) but less than fifty thousand dollars (\$50,000.00), the City Council may let said contract without advertising for bids after the City Manager or his designated agent has secured competitive prices from interested contractors; which shall be considered by the Council before said contract is let.

If the project involves the expenditure of twenty-five thousand dollars (\$25,000.00) or less, the City Manager may cause such written contract to be let without advertising for bids. However, except in emergencies, the City Engineer or the Purchasing Agent shall obtain informal bids. The project shall be awarded to the lowest responsible bidder whose bid is determined to be, in all respects, most advantageous to the public interest. The City Engineer may solicit such bids personally, by telephone or by mail, and shall submit to the Purchasing Agent and the City Manager a written account of the procedures used and the bids thus obtained. A copy of said informal bidding procedure shall be filed in the Office of the City Clerk as a public record.

The City Council may, however, declare and determine that, in its opinion, based upon estimates approved by and the recommendations of the City Manager, said projects may be excepted from the requirements of this section because the work in question may be performed better or more economically by the City with its own employees, and by a resolution to this effect, adopted by at least four affirmative votes of the Council, order the performance of any such construction, reconstruction, improvement or repair by appropriate City forces.

All bids of more than fifty thousand dollars (\$50,000.00) shall be accompanied by either a certified or cashier's check, or a bidder's bond executed by a corporate surety authorized to engage in such business in California, made payable to the City. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to herein, or if no amount be so specified, then in an amount not less than ten percent (10%) of the aggregate amount of the bid. If the successful bidder neglects or refuses to enter into the contract within the time specified in the notice inviting bids or specifications referred to therein, the amount of his bidder's security shall be declared forfeited to the City and shall be collected and paid into its general fund and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

The City Council shall be competent to award any contract by comparison of bids on the basis of several factors including timely completion. Such award shall be secured by a surety bond as hereinabove provided with adequate sureties and penalties, and provided, further, that for any contract awarded solely or partially on a specified time for completion, the Council shall not extend such time limits unless such extension be recommended by the City Manager and the head of the Department concerned.

The City Council may reject any and all bids presented and may readvertise in its discretion. The City Council may waive any defects in any bid to the extent it finds at a public hearing held for that purpose that it is necessary to do so for the benefit of the public.

Contracts may likewise be let without advertising for such bids if such work shall be deemed by the City Council to be of urgent necessity for the preservation of life, health or property, and shall be authorized by resolution passed by at least four affirmative votes of the Council and containing a declaration of the facts constituting such urgency; provided, however, that nothing in this section shall prevent the City Manager from taking any and all means necessary to make emergency repairs in the event of immediate need arising from any calamity or disaster.

Charter Chapter 59—City of Fresno

*Amendments to the Charter of the City of Fresno*

[Filed with the Secretary of State October 30, 2002.]

Section 1208 of the Charter of the City of Fresno is amended to read:

**SECTION 1208. PROCUREMENT AND COMPETITIVE BIDDING.**

(a) Every contract involving an expenditure of city moneys of more than one hundred thousand dollars (\$100,000), adjusted annually on the first of July to the nearest one thousand dollars (\$1,000) in response to changes in the National Consumer Price Index (United States City Average For All Products), for materials, supplies, equipment or for any public work of improvement, shall be let to the lowest responsive and responsible bidder after notice by publication in a newspaper of general circulation within the city by one or more insertions, the first of which shall be at least seven days before time for opening bids. For purposes of this subsection, Council shall by ordinance define “public work of improvement”.

(1) All bids hereunder shall be accompanied by either a certified, or cashier’s check, an irrevocable letter of credit, or a bidder’s bond executed by a corporate surety admitted by the California Insurance Commissioner to do business in California, payable and acceptable to the city. Such security shall be in an amount not less than that specified in the notice inviting bids or in the specifications referred to therein, or if no amount be so specified, then in an amount not less than ten percent of the aggregate amount of the bid. A certificate of deposit or other instrument approved by Council may be accepted by the city in lieu of a bidder’s bond. If the successful bidder neglects or refuses to enter into the contract within the time specified in the notice inviting bids or specifications referred to therein, the amount of the bidder’s security may be declared forfeited to the city and may be collected and paid into a lawful, available city fund, and all bonds so forfeited shall be prosecuted and the amount thereof collected and paid into such fund.

(2) All bids hereunder shall be submitted in a sealed envelope and shall be filed with the officer in charge of the purchasing function prior to the opening time specified in the notice inviting bids. Such officer shall receive and be custodian of such bids and keep the same confidential until they are opened and declared.

(3) All bids received hereunder shall be publicly opened and declared at the time and at the place fixed in the notice inviting bids. Thereafter, the bids shall be tabulated and analyzed by the officer in charge of the purchasing function, who shall submit them, together with recommendations thereon, to the Chief Administrative Officer. The Chief Administrative Officer shall review the bids and submit them to the Council, along with his/her recommendations, at a duly scheduled meeting of the Council.

(4) The Council shall have the right to waive any informality or minor irregularity in a bid. The Council may reject any and all bids presented and may readvertise in its discretion.

(5) The provisions of this subsection (a) shall not apply to any of the following:

(i) A work of improvement obtained through a design build process if authorized pursuant to subsection (c) herein.

(ii) Work done by the city with its own personnel and/or equipment.

(iii) Materials, supplies, equipment or any public work of improvement obtained from or through any governmental agency.

(iv) When Council determines that the work to be done or the goods to be supplied can only be provided by one source, and the purchase is authorized by resolution of the Council containing a declaration of the facts constituting the sole source.

(v) When the purchase is deemed by Council to be of urgent necessity for the preservation of life, health or property, and such purchase is authorized by resolution passed by at least five affirmative votes of the Council and containing a declaration of the facts constituting the urgency.

(vi) For those instances when alternative bid forms, or additive or deductive items are included in bid specifications, Council may establish by ordinance the method that will be used to determine the lowest bid. The establishment of any such method by the Council will not preclude the city from adding to or deducting from the contract any of the additive or deductive items after the lowest responsive and responsible bidder has been determined. Nothing in this subsection (a) shall preclude the Council from establishing a method reserving to the Council the right to award, after consideration of the amount of the bids and the combination of work to be performed, to the lowest responsive and responsible bidder of any alternative bid form or any combination of bid prices on the base contract and additive and/or deductive items identified in the city specifications, when in Council's discretion it determines such award to be either in the best interests of the city

or obtains for the public the best economic result. Notwithstanding subdivisions (2) and (3) of this subsection (a), Council may establish by ordinance a method whereby the identity of the bidder is kept confidential until following Council's determination of the lowest bid.

(vii) The Council may by resolution or ordinance establish procedures and requirements for hearing appeals by any bidder who has been determined by the Chief Administrative Officer to be nonresponsive or nonresponsible. The Council may also by resolution or ordinance establish procedures and requirements for the debarment of any bidder who has been determined by the Council to be nonresponsible.

(b) Notwithstanding subsection (a) above, the Council may by ordinance authorize the officer in charge of the purchasing function, in the evaluation of any or all sealed bids for the purchase of materials, supplies, equipment and/or any public work of improvement, to extend up to a five percent preference for a local business in award of all contracts except for those contracts funded by the federal or state government when such funding would be jeopardized because of this preference. For purposes of this section, "local business" shall be as defined by Council within such ordinance.

(1) The amount of the preference shall be equal to the amount of the percentage applied to the lowest responsive and responsible bid.

(2) If the bidder submitting the lowest responsive and responsible bid is not a local business, and if a local business has also submitted a responsive and responsible bid, and, with the benefit of the preference, the local business's bid is equal to or less than the original lowest responsive and responsible bid, the city shall award the contract to the local business at its submitted bid price.

(3) The bidder shall certify, under penalty of perjury, that the bidder qualifies as a local business. The preference is waived if the certification does not appear on the bid.

(c) Council may by ordinance establish a "design build process" which may be utilized in lieu of a competitive bid process as required by this section for construction of any public work of improvement.

(d) To be valid hereunder, any contract with the city for property, goods, services, materials, supplies, equipment or work shall be in writing and approved as to form by the City Attorney.

(e) The city shall not be subject to the California Public Contract Code, in whole or in part, unless Council agrees by ordinance.

A board or commission shall be considered to be advisory even if it is authorized to take final action subject to appeal to the city council.

**Section 6.05. COMPOSITION. QUALIFICATIONS. TERMS AND LIMITS OF TERMS.**

The members of all boards and commissions created by ordinance or by this Charter shall be appointed by the council, and shall at the time of appointment and while serving possess the same qualifications as required by this Charter for election or appointment to the council.

The number of members of such a board or commission shall not exceed the authorized number of members of the city council unless the ordinance establishing such additional number be approved by vote of the people or by unanimous vote of the council.

The members of such boards and commissions shall be appointed for terms of four years, except that if the ordinance provides, initial terms may be pared by lot as necessary so that each year one or more terms will expire.

The terms of office of existing boards or commissions having regular terms of more or less than four years shall be pared or extended as to incumbents in such manner as the city council shall determine so as to establish four-year terms in conformity with this section within two years after this Charter goes into effect.

No member of a board or commission shall be eligible for reappointment to the same board or commission after serving two consecutive four-year terms provided that no partial term of office shall be counted as any portion of the consecutive terms.

**Section 6.06. PAYMENT OF EXPENSES. PROHIBITION OF COMPENSATION.**

The members of such boards and commissions shall receive no compensation for their services as such, but may receive reimbursement for their actual and necessary expenses authorized by the city council and incurred in performance of their duties of office upon presentation of verified claims therefor on uniform forms to be prescribed by resolution of the city council.

**Section 6.07. APPROPRIATIONS FOR BOARDS AND COMMISSIONS.**

plus one. If a member of a board or commission absents himself from three consecutive meetings unless by permission of the board or commission expressed in its minutes, or is convicted of a crime involving moral turpitude, or loses the qualifications required for appointment in the first instance, his office shall automatically become vacant and shall be so declared by the city council.

Any vacancies shall be filled by appointment by the city council for the remainder of the unexpired term.

**Section 6.09. SPECIAL COMMITTEES. LIMITATIONS.**

The city council may from time to time establish citizens or taxpayers' committees for specific advisory purposes only, and for periods not exceeding two years. Such a committee may be renewed or extended by action of the council anew for a period not exceeding the original term of the committee. The city council may include in its annual budget, or in interim appropriations, such funds as in its opinion shall be sufficient to accomplish the purpose of such committees.

**Section 6.10. EX OFFICIO MEMBERS.**

The city manager and the city attorney, or their representatives, and a representative from the city council, shall be ex officio members of all boards, commissions, and committees. The council may in the ordinance establishing any advisory board, commission, or committee provide for additional ex officio members who shall be appointed by the council for such terms as may be prescribed but who need not possess the qualifications required of regular members. Ex officio members shall have the same rights as official members including the right to attend meetings and participate in discussions, but shall not be entitled to vote.

**Section 6.11. POWER OF SUBPOENA. LIMITATIONS.**

No board, commission, or committee shall have the power of subpoena to compel attendance of witnesses, to examine them under oath, to compel production of evidence before it and to administer oaths and affirmations, unless such power shall be granted by ordinance approved by a majority of the city council plus one. The power of subpoena being so granted, the same may be exercised by issuance of subpoena by the city clerk upon application in writing by the city attorney, by the chairperson of the board, commission, or committee, or by a majority of the board, commission, or committee. Disobedience of a lawful order issued in exercise of such powers shall be a misdemeanor.

**Section 6.12. DECLARATION OF POLICY. CITIZEN PARTICIPATION.**

It is and shall be the policy of the City of San Mateo to foster a climate of human relations favorable to the full acceptance and participation of all citizens in the community in the economic, educational, political and cultural aspects of the community and opportunity to share in the benefits thereof without regard to race, religion, gender, national origin, or other factors which are prohibited from discrimination in appointments to local government boards, commissions, and committees by federal or state law.

To that end, and to secure for the city the benefit of the talents, skills and counsel of public-spirited and dedicated citizens in all areas of local government, it is the policy of the city that advisory boards, commissions and committees be established from time to time as the council deems appropriate in furtherance of community progress and harmony, and the solution of community problems.

 Charter Chapter 66—City of Santa Monica
***Amendments to the Charter of the City of Santa Monica***

[Filed with the Secretary of State December 20, 2002.]

Section 1800. Statement of purpose.

A growing shortage of housing units resulting in a low vacancy rate and rapidly rising rents exploiting this shortage constitute a serious housing problem affecting the lives of a substantial portion of those Santa Monica residents who reside in residential housing. In addition, speculation in the purchase and sale of existing residential housing units results in further rent increases. These conditions endanger the public health and welfare of Santa Monica tenants, especially the poor, minorities, students, young families, and senior citizens. The purpose of this Article, therefore, is to alleviate the hardship caused by this serious housing shortage by establishing a Rent Control Board empowered to regulate rentals in the City of Santa Monica so that rents will not be increased unreasonably and so that landlords will receive no more than a fair return.

In order to accomplish this purpose, this Article provides for an elected Rent Control Board to ensure that rents are at a fair level by requiring landlords to

justify any rents in excess of the rents in effect one year prior to the adoption of this Article. Tenants may seek rent reductions from the rent in effect one year prior to the adoption of this Article by establishing that those rents are excessive. In addition to giving tenants an opportunity to contest any rent increase, this Article attempts to provide reasonable protection to tenants by controlling removal of controlled rental units from the housing market and by requiring just cause for any eviction from a controlled rental unit.

Through this Article, the City exercises its police power in order to address the serious housing problem recognized in the original enactment of this Rent Control Law in 1979 and still existing in 2002. The 1984 and the 2002 Amendments to the Rent Control Law are intended to clarify the law and ensure that the Rent Control Board possesses adequate and independent authority to carry out its duties. They are intended to ensure due process of law for landlords and tenants, effective remedies for violation of the law, and consistency with constitutional requirements. They are also intended to enable the Board to provide relief to persons facing particular hardship and to protect and increase the supply of affordable housing in the City. Termination or erosion of the protections of this Article would have serious disruptive consequences for persons in need of protection and the supply of affordable housing in the City.

Section 1801 of the City Charter of the City of Santa Monica is amended to read as follows:

Section 1801. Definitions.

The following words or phrases as used in this Article shall have the following meanings:

(a) Board. The term “Board” refers to the elected Rent Control Board established by this Article.

(b) Commissioners. The members of the Board and Interim Board are denominated Commissioners.

(c) Controlled Rental Units. All residential rental units in the City of Santa Monica, including mobile homes, and mobile home spaces, and trailers and trailer spaces, except single family homes to the extent provided for in Section 1815 and those units found by the Board to be exempt under one or more of the following provisions:

(1) Rental units in hotels, motels, inns, tourist homes and rooming and boarding houses which are rented primarily to transient guests for a period of less than fourteen (14) days.

(2) Rental units in any hospital, convent, monastery, extended medical care facility, asylum, non-profit home for the aged, or dormitory owned and operated by an institution of higher education.

(3) Rental units which a government unit, agency or authority owns, operates, manages, or in which governmentally subsidized tenants reside only if applicable Federal or State law or administrative regulation specially exempt such units from municipal rent control.

(4) Rental units in owner-occupied dwellings with no more than three (3) units. For purposes of this Section:

(i) The term “owner” means a natural person who owns a fifty (50) percent ownership interest in the building and resides on the property as his or her principal place of residence.

(ii) An exemption under this Section shall expire by operation of law when the owner ceases to reside on the property as his or her principal place of residence; thereafter, all units on the property shall be subject to all provisions of this Article.

(5) Rental units and dwellings constructed after the adoption of this Article; this exemption does not apply to units created as a result of conversion as opposed to new construction.

(6) Where a unit is actually used for purposes of providing, on a nonprofit basis, child care or other residential social services in accordance with applicable laws. This exemption shall expire when the use upon which exemption is based ceases. This exemption shall only apply to units as they become vacant and shall only operate to allow the specified use without the necessity of obtaining a removal permit under this Article. This exemption shall not be construed to authorize the eviction of any tenant nor to authorize the charging of rent in excess of that permitted under this Article. The Board may adopt regulations to determine whether a unit qualifies for an exemption under this Section.

(7) Exemptions are not automatic but shall be granted by the Board upon application by the owner pursuant to Board rules, provided that if the Board does not act upon a completed application for exemption within ninety (90) days of its filing it shall be deemed approved.

(d) Housing Service. Housing services include, but are not limited to repairs, maintenance, painting, providing light, hot and cold water, elevator service, window shades and screens, storage, kitchen, bath and laundry facilities and privileges, janitor services, refuse removal, furnishings, telephone, parking, the right to have a specified number of occupants, and any other benefit, privilege or facility connected with the use or occupancy of any rental unit. Services to a rental unit shall include a proportionate part of services provided to common facilities of the building in which the rental unit is contained.

(e) Landlord. An owner, lessor, sublessor or any other person entitled to receive rent for the use and occupancy of any rental unit, or an agent, representative or successor of any of the foregoing.

(f) Rent. All periodic payments and all nonmonetary consideration including but not limited to, the fair market value of goods or services rendered to or for the benefit of the landlord under an agreement concerning the use or occupancy of a rental unit and premises including all payment and consideration demanded or paid for parking, pets, furniture, subletting and security deposits for damages and cleaning.

(g) Rental Housing Agreement. An agreement, oral, written or implied, between a landlord and tenant for use or occupancy of a rental unit and for housing services.

(h) Rental Units. Any building, structure, or part thereof, or land appurtenant thereto, or any other rental property rented or offered for rent for living or dwelling house units, together with all housing services connected with use or occupancy of such property such as common areas and recreational facilities held out for use by the tenant.

(i) Tenant. A tenant, subtenant, lessee, sublessee or any other person entitled under the terms of a rental housing agreement to the use or occupancy of any rental unit.

(j) Recognized Tenant Organization. Any group of tenants residing in controlled rental units in the same building or in different buildings operated by the same management company, agent or landlord, who requests to be so designated.

(k) Rent Ceiling. Rent ceiling refers to the limit on the maximum allowable rent which a landlord may charge on any controlled rental unit.

(l) Base Rent Ceiling. The maximum allowable rent established in Section 1804(b).

(m) Property. All rental units on a parcel or lot or contiguous parcels or contiguous lots under common ownership.

(n) Single Family Home. A property that has been developed with only one one-family dwelling and any lawful accessory structures, or a lawfully created condominium, stock cooperative or similar unit that is part of a larger residential structure or complex, excepting those condominiums, stock cooperatives, or similar units converted after April 10, 1979 for which no removal permit or vested right determination has been issued by the Board, and those created pursuant to Article XX of this Charter.

Section 1804 of the City Charter of the City of Santa Monica is amended to read as follows:

Section 1804. Maximum allowable rents.

(a) Temporary Freeze. Rents shall not be increased during the one hundred-twenty (120) day period following the date of adoption of this Article.

(b) Establishment of Base Rent Ceiling. Beginning one-hundred-twenty (120) days after the adoption of this Article, no landlord shall charge rent for any controlled rental units in an amount greater than the rent in effect on the date one year prior to the adoption of this Article. The rent in effect on that date is the base rent ceiling and is a reference point from which fair rents shall be adjusted upward or downward in accordance with Section 1805. If there was no rent in effect on the date one year prior to the adoption of this Article, the base rent ceiling shall be the rent that was charged on the first date that rent was charged following the date one year prior to the adoption of this Article. For tenancies commencing on or after January 1, 1999, which qualify for a vacancy rent increase pursuant to state law,

the base rent ceiling is the initial rental rate in effect on the date the tenancy commences. As used in this subsection, the term “initial rental rate” means only the amount of rent actually paid by the tenant for the initial term of the tenancy.

(c) Posting. As soon as the landlord is aware of the maximum allowable rent, the landlord shall post it for each unit in a prominent place in or about the affected controlled rent units. The Board may require that other information it deems relevant also be posted.

Section 1806 of the City Charter of the City of Santa Monica is amended to read as follows:

Section 1806. Eviction.

(a) No landlord shall take action to terminate any tenancy including, but not limited, to making a demand for possession of a rental unit, threatening to terminate a tenancy, serving any notice to quit or other eviction notice or bringing any action to recover possession or be granted recovery of possession of a controlled rental unit unless:

(1) The tenant has failed to pay the rent to which the landlord is entitled under the rental housing agreement and this Article.

(2) The tenant has committed material and substantial breach of an obligation or covenant of his or her tenancy which the landlord has not waived either expressly or impliedly through the landlord’s conduct and which the landlord is not estopped from asserting, other than the obligation to surrender possession upon proper notice, and the tenant has failed to cure such violation after having received written notice thereof from the landlord in the manner required by law.

Notwithstanding any contrary provision in this Section, and notwithstanding any contrary provision in the rental housing agreement, a landlord shall not take any action to terminate a tenancy based on a tenant’s sublease of the unit if the following requirements are met:

(i) The tenant continues to reside in the rental unit.

(ii) The sublease replaces a departed tenant(s) under the rental agreement on a one-for-one basis.

(iii) The landlord has unreasonably withheld the right to sublease following written request by the tenant. If the landlord fails to respond to the tenant in writing within fourteen (14) days of receipt of the tenant’s written request, the tenant’s request shall be deemed approved by the landlord.

(3) The tenant is committing or expressly permitting a nuisance in, or is causing substantial damage to, the controlled rental unit, or is creating a substantial interference with the comfort, safety, or enjoyment of the landlord or other occupants or neighbors of the same.

(4) The tenant is convicted of using or expressly permitting a controlled rental unit to be used for any illegal purpose.

(5) The tenant, who had a rental housing agreement which had terminated, has refused, after written request or demand by the landlord, to execute a written extension or renewal thereof for a further term of like duration and in such terms

as are not inconsistent with or violative of any provisions of this Article and are materially the same as in the previous agreement.

(6) The tenant has refused the landlord reasonable access to the controlled rental unit for the purposes of making necessary repairs or improvements required by the laws of the United States, the State of California or any subdivision thereof or for the purpose of showing the rental housing to any prospective purchaser or mortgagee.

(7) The tenant holding at the end of the term of the rental housing agreement is a subtenant not approved by the landlord.

(8) The landlord seeks to recover possession in good faith for use and occupancy by herself or himself, or her or his children, parents, grandparents, brother, sister, father-in-law, mother-in-law, son-in-law, or daughter-in-law. For purposes of evictions under this Subsection:

(i) A “landlord” shall be defined as a natural person who has at least a fifty (50) percent ownership interest in the property.

(ii) No eviction may take place if any landlord or enumerated relative already occupies one unit on the property, or if a vacancy already exists on the property and the vacant unit is comparable to the unit for which eviction is sought. Where the vacant unit is determined not to be comparable, thereby permitting eviction under this Subsection, the evicted tenant or tenants shall be first given the right to occupy the vacant unit and the rent thereof shall be the lesser of the maximum allowable rent for the vacant unit and the maximum allowable rent of the unit from which the tenant or tenants are evicted. The Rent Control Board shall promulgate regulations defining when a unit is comparable for purposes of this paragraph.

(iii) The notice terminating tenancy shall contain the name, address and relationship to the landlord of the person intended to occupy.

(iv) The landlord or enumerated relative must intend in good faith to move into the unit within thirty (30) days after the tenant vacates and to occupy the unit as a primary residence for at least one year. The Board may adopt regulations governing the determination of good faith.

(v) If the landlord or relative specified on the notice terminating tenancy fails to occupy the unit within thirty (30) days after the tenant vacates, the landlord shall:

A. Offer the unit to the tenant who vacated it.

B. Pay to said tenant all reasonable expenses incurred in moving to and/or from the unit.

(vi) No eviction pursuant to this Subsection shall be allowed in any condominium or stock cooperative unit which has been converted from an apartment or other rental unit after April 10, 1979, unless the Rent Control Board has issued a removal permit or declared a vested right for said unit. As used in this subpart, a unit shall be deemed converted after April 10, 1979, if on April 10, 1979, the

recorded tract map or parcel map for the property showed the unit as included in the property.

(9) The landlord seeks to recover possession to demolish or otherwise remove the controlled rental unit from rental residential housing use after having obtained all proper permits from the City of Santa Monica.

(10) The landlord has filed the requisite documents with the Rent Control Board initiating the procedure for withdrawing units from rent or lease under Government Code Section 7060 et. seq. and the Board's regulations, with the intention of completing the withdrawal process and going out of the residential rental business.

(b) Notwithstanding any contrary provision in this Section or in the rental housing agreement, if the tenant's spouse, child(ren), and/or domestic partner who has filed an Affidavit of Domestic Partnership with the City have lived in the unit for at least one year at the time the tenant vacates the unit due to death or incapacitation, the landlord is prohibited from taking any action to obtain possession of the unit from the tenant's spouse, child(ren), and/or registered domestic partner on the ground that the spouse, child(ren) and/or registered domestic partner are not authorized to occupy the unit.

(c) Notwithstanding the above provisions, possession shall not be granted if it is determined that the eviction is in retaliation for the tenant reporting violations of this Article, for exercising rights granted under this Article, including the right to withhold rent upon authorization of the Board under Section 1803(q) or Section 1809 or for organization other tenants.

(d) In any notice purporting to terminate tenancy the landlord shall state the cause for the termination, and in any action brought to recover possession of a controlled rental unit, the landlord shall allege and prove compliance with this Section. The landlord shall file with the Rent Control Board a copy of any notice terminating tenancy, except a three day notice to pay rent or vacate, within 3 days after serving the notice on the tenant.

(e) Failure to comply with any requirement of this Section may be asserted as an affirmative defense in an action brought by the landlord to recover possession of the unit. Additionally, any attempt to recover possession of a unit in violation of this Article shall render the landlord liable to the tenant for actual and punitive damages, including damages for emotional distress, in a civil action for wrongful eviction. The tenant or the Rent Control Board may seek injunctive relief and money damages for wrongful eviction. The prevailing party in an action for wrongful eviction shall recover costs and reasonable attorneys fees.

Section 1821 is added to the City Charter of the City of Santa Monica to read as follows:

**Section 1821. Tenant Harassment.**

Tenants living in rental housing units have the right to quiet enjoyment, privacy and freedom from harassment by the property owner. In order to effectuate this right, the City Council shall at all times maintain a Tenant Harassment Ordinance

in force which protects tenants from landlords' conduct in derogation of tenants' rights.

Charter Chapter 68—City and County of San Francisco

***Amendments to the Charter of the City and  
County of San Francisco***

[Filed with the Secretary of State December 27, 2002.]

Section 1. The San Francisco Charter is hereby amended by creating a new Article VIII B: Public Utilities, to read as follows:

SEC. 8B.120. PREAMBLE

The Public Utilities Commission operates the Water, Clean Water and Power Utilities of the City and County of San Francisco. Hetch Hetchy Water and Power System is an irreplaceable asset of the people of the City and County of San Francisco. The system is fundamental to the economic vitality of San Francisco and the Bay Area. The voters of the City and County of San Francisco are committed to preserving and protecting the system as well as safeguarding the extraordinary quality of the water from Yosemite and local watersheds. The voters find that the protection, maintenance and repair of the system are among their highest priorities.

San Francisco faces an unprecedented challenge: to restore its aging water system to ensure a reliable Bay Area water supply through the next century. Repairs must be accomplished as quickly as possible to avoid system outages, which could be caused by natural disasters such as earthquake. In planning for its future needs and those of its wholesale customers, the City must promote water conservation and responsible stewardship of its natural resources. The effectiveness of the City's Public Utilities Commission, which has jurisdiction over the system, is essential to achieving these goals.

In addition, San Francisco must upgrade and repair its clean water system to meet changes in state and federal water quality requirements, and to ensure reliability of the system, parts which are outdated, aged or seismically vulnerable. The voters find that the operation of the clean water system should not unnecessarily place a disproportionate environmental burden on any community.

This measure is intended to enhance public confidence in the City's stewardship of public utilities by:

1. Clarifying that the Public Utilities Commission has exclusive control of water, clean water and power assets owned or maintained by the City and County of San Francisco;
2. Establishing rates sufficient to meet operation, maintenance and financial needs of the system based on costs and sound budgeting and auditing procedures

to protect retail ratepayers and reduce interest paid on bonds and other indebtedness while ensuring public review;

3. Establishing the Public Utilities Commission as an independent revenue department not subject to undue financial pressures to contribute to the City's general fund;

4. Requiring the development of long term Capital, Financial and Strategic Plans to ensure that the utilities are operated efficiently in accordance with best public utility practice;

5. Authorizing the Public Utilities Commission to independently enter into certain contracts;

6. Giving the Public Utilities Commission the ability to finance needed capital improvements through revenue bonds or other financing methods consistent with the powers of other major public utilities in California; and

7. Promoting labor stability to ensure that the Capital Improvement Plan is completed expeditiously and efficiently.

#### SEC. 8B.121. PUBLIC UTILITIES COMMISSION

(a) Notwithstanding Charter section 4.112, the Public Utilities Commission shall have exclusive charge of the construction, management, supervision, maintenance, extension, expansion, operation, use and control of all water, clean water and energy supplies and utilities of the City as well as the real, personal and financial assets, that are under the Commission's jurisdiction or assigned to the Commission under Section 4.132.

Section 2. The San Francisco Charter is hereby amended by deleting Section 9.111-1.

Section 3. The San Francisco Charter is hereby amended by amending Section 16.103 as follows:

**SEC. 16.103. UTILITY REVENUES AND EXPENDITURES**

(a) Receipts from each utility operated by the Public Utilities Commission shall be paid into the City and County treasury and maintained in a separate fund

for each such utility. Appropriations from such funds shall be made for the following purposes for each such utility in the order named:

1. For the payment of operating expenses, pension charges and proportionate payments to such compensation and other insurance and accident reserve funds as the Commission may establish or the Board of Supervisors may require;

3. For reconstruction and replacements as hereinafter described;
4. For the payment of interest and sinking funds on the bonds issued by the Public Utilities Commission pursuant to this charter;
5. For extensions and improvements; and
6. For a surplus fund.

For any utility with outstanding bonds for which the indenture requires different payment priorities, the bond priorities will control over the priorities set forth in this section.

(b) For the purpose of providing funds for reconstruction and replacements due to physical and functional depreciation of each of the utilities under the jurisdiction of the Commission, the Commission must create and maintain a reconstruction and replacement fund for each such utility, sufficient for the purposes mentioned in this section, and in accordance with an established practice for utilities of similar character, which shall be the basis for the amount necessary to be appropriated annually to provide for said reconstruction and replacements.

(c) If, at the end of any fiscal year, the Controller certifies that excess surplus funds of a utility exist, from hydropower assets or water or clean water assets in excess of 25 percent of the total expenditures of such utility in the previous fiscal year for costs of operation, repair maintenance and debt service coverage and required debt service reserves, the Public Utilities Commission may transfer that surplus revenue, in whole or in part, to any other utility system under the Commission's jurisdiction on the operative date of this section.

(d) Any surplus revenue which the Public Utilities Commission unanimously finds is not required for utility purposes pursuant to subsections (a) and (b) of this section may be transferred to the General Fund by the Public Utilities Commission with the concurrence of three-fourths of the Board of Supervisors upon making all of the following findings of fact and judgment:

(a) That a surplus exists or is projected to exist after meeting the requirements of this section;

(b) That there is no unfunded operating or capital program or required reserve that by its lack of funding could jeopardize bond ratings, health, safety, water supply or power production;

(c) That there is no reasonably foreseeable operating contingency that cannot be funded without General Fund subsidy; and

(d) That such a transfer of funds in all other respects reflects prudent utility practice.

The Commission shall make such findings having received reports and an affirmative recommendation from the General Manager and a public hearing, which shall have received no less than 30 days of public notice.

(e) The provisions of subsection (c) above shall not be applied in a manner that would be inconsistent with the provisions of any outstanding or future indentures, resolutions, contracts or other agreements of the City and County relating to bonded indebtedness issued in connection with the utility, or with any applicable state, or federal laws.

If a person appointed to the Elections Commission is, at the time of appointment, an officer or employee as prohibited by this section, that person shall be eligible to serve on the Elections Commission only if he or she resigns from his or her office or employment within thirty days of appointment.

**SEC. 13.104.5. USE OF OTHER CITY EMPLOYEES AND OFFICERS.**

Except as provided below, no City employee or officer, other than the Director of Elections, an appointee of the Director of Elections or a member of the Elections Commission, may in any capacity perform any function relating to the conduct of an election that this Charter places under the Department of Elections. This section prohibits City personnel from providing to the Department of Elections services that are unique to that department. This section does not prohibit City personnel from providing to the Department of Elections ordinary services that are unrelated to the conduct of an election and that are indistinguishable from services performed for other City departments. These general support services include, but are not limited to, services relating to human resources, personnel processing, payroll, workers compensation, budgeting, accounting, procurement, contracting, and the maintenance of telephone and voice mail systems. The Elections Commission may, upon the recommendation of the Director of Elections request from the Board of Supervisors a waiver of this prohibition so as to allow City employees and officers to assist the Department of Elections. The Board of Supervisors shall approve or deny such requests from the Elections Commission by motion.

The City Attorney shall serve as legal counsel to the Elections Commission and the Department of Elections. The Commission may, by a majority vote of its members, hire outside legal counsel to advise the Commission and the Department on matters that directly involve the election or campaign of the City Attorney, if the City Attorney is standing for election. All outside legal counsel hired pursuant to this Section shall be a member in good standing of the California State Bar. In selecting outside legal counsel, the Commission shall give preference to engaging the services of a city attorney's office, a county counsel's office or other public entity law office with an expertise regarding the subject-matter jurisdiction of the Elections Commission. In the event that the Commission concludes that private counsel is necessary, it may, by a majority vote, engage the services of a private attorney who has at least five years' experience in the subject-matter jurisdiction of the Elections Commission. Any private counsel retained pursuant to this Section shall be subject to the conflict of interest provisions of Section 13.103.5. Any contract for outside legal counsel authorized by this section shall be paid for by the Commission and shall be subject to the budgetary and fiscal provisions of this charter.

The Sheriff shall be responsible for transporting all voted ballots and all other documents or devices used to record votes from the polls to the central counting location and approving a security plan for the ballots until the certification of election results. This requirement shall not become operative following its adoption until the Sheriff has completed meeting and conferring required by state law. The Elections Commission shall send a copy of the approved transportation and security plan to the Board of Supervisors.

The Director of Elections shall develop and submit for the approval of the Elections Commission an alternative transportation and security plan if an incumbent sheriff is running for election or if there is a measure on the San Francisco ballot that would have a material, financial effect on the Sheriff or the uniformed personnel of the Sheriff's department as determined by the Ethics Commission. The Director of Elections shall invite the Secretary of State to comment on any alternative transportation and security plan. The Elections Commission shall send a copy of the approved alternative transportation and security plan to the Board of Supervisors. The Board of Supervisors shall have the authority to enter into any contracts or take whatever actions are necessary to meet the alternative security requirements of this section.

**SEC. 15.100. ETHICS COMMISSION.**

The Ethics Commission shall consist of five members who shall serve six-year terms; provided that the first five commissioners to be appointed to take office on the first day of February, 2002 shall by lot classify their terms so that the term of one commissioner shall expire at 12:00 o'clock noon on each of the second, third, fourth, fifth and sixth anniversaries of such date, respectively; and, on the expiration of these and successive terms of office, the appointments shall be made for six-year terms.

The Mayor, the Board of Supervisors, the City Attorney, the District Attorney and the Assessor each shall appoint one member of the Commission. The member appointed by the Mayor shall have a background in public information and public meetings. The member appointed by the City Attorney shall have a background in law as it relates to government ethics. The member appointed by the Assessor shall have a background in campaign finance. The members appointed by the District Attorney and Board of Supervisors shall be broadly representative of the general public.

In the event a vacancy occurs, the officer who appointed the member vacating the office shall appoint a qualified person to complete the remainder of the term. Members of the Commission shall serve without compensation. Members of the Commission shall be officers of the City and County, and may be removed by the appointing authority only pursuant to Section 15.105.

No person may serve more than one six-year term as a member of the Commission, provided that persons appointed to fill a vacancy for an unexpired term with less than three years remaining or appointed to an initial term of three or fewer years shall be eligible to be appointed to one additional six-year term. Any

term served before the effective date of this Section shall not count toward a member's term limit. Any person who completes a term as a Commissioner shall be eligible for reappointment six years after the expiration of his or her term. Notwithstanding any provisions of this Section or any other section of the Charter to the contrary, the respective terms of office of the members of the Commission who shall hold office on the first day of February, 2002, shall expire at 12 o'clock noon on said date, and the five persons appointed as members of the Commission as provided in this Section shall succeed to said offices on said first day of February, 2002, at 12 o'clock noon; provided that if any appointing authority has not made a new appointment by such date, the sitting member shall continue to serve until replaced the new appointee.

During his or her tenure, members and employees of the Ethics Commission are subject to the following restrictions:

(a) **Restrictions on Holding Office.** No member or employee of the Ethics Commission may hold any other City or County office or be an officer of a political party.

(b) **Restrictions on Employment.** No member or employee of the Ethics Commission may be a registered lobbyist or campaign consultant, or be employed by or receive gifts or other compensation from a registered lobbyist or campaign consultant. No member of the Ethics Commission may hold employment with the City and County and no employee of the Commission may hold any other employment with the City and County.

(c) **Restrictions on Political Activities.** No member or employee of the Ethics Commission may participate in any campaign supporting or opposing a candidate for City elective office, a City ballot measure, or a City officer running for any elective office. For the purposes of this section, participation in a campaign includes but is not limited to making contributions or soliciting contributions to any committee within the Ethics Commission's jurisdiction, publicly endorsing or urging endorsement of a candidate or ballot measure, or participating in decisions by organizations to participate in a campaign.

For a period of one year upon completing his or her service with the Commission, no member of the Commission may: be a lobbyist or campaign consultant, be employed by, or receive any gifts or other compensation from a lobbyist or campaign consultant or a person who employs someone required to register as a lobbyist or campaign consultant.

For purposes of this section, the terms lobbyist and campaign consultant mean persons required to register under the City's lobbyist or campaign consultant ordinances.

The Commission may subpoena witnesses, compel their attendance and testimony, administer oaths and affirmations, take evidence and require by subpoena the production of any books, papers, records or other items material to the performance of the Commission's duties or exercise of its powers.

**SEC. 6.102. CITY ATTORNEY.**

The City Attorney shall:

1. Represent the City and County in legal proceedings with respect to which it has an interest; provided that any elected officer, department head, board or commission may engage counsel other than the City Attorney for legal advice regarding a particular matter where the elected officers department head, board or commission has reason to believe that the City Attorney may have a prohibited financial conflict of interest. Under California law or a prohibited ethical conflict of interest under the California Rules of Professional Conduct with regard to the matter, subject to the following limitations and conditions. The elected officer, department head, board or commission shall first present a written request to the City Attorney for outside counsel. The written request shall specify the particular matter for which the elected officer, department head, board or commission seeks the services of outside counsel, a description of the requested scope of services, and the potential conflict of interest that is the basis for the request. Within five working days after receiving the written request for outside counsel, the City Attorney shall respond in writing to the elected officer, department head, board or commission either consenting or not consenting to the provision of outside counsel. If the City Attorney does not consent to the provision of outside counsel, the City Attorney shall state in the written response why he or she believes that there is no conflict of interest regarding the particular matter.

If the elected officer, department head, board or commission continues to believe there are adequate grounds for outside counsel despite the City Attorney's response that there is no conflict of interest, the elected officer, department head, board or commission may, within thirty days after receiving the City Attorney's response, refer the issue of whether the City Attorney has a prohibited conflict of interest regarding a particular matter to a retired judge or justice of the state courts of California for resolution. If the elected officer, department head, board or commission and City Attorney cannot agree on a retired judge to hear the matter, the retired judge shall be selected at random by an alternative dispute resolution provider. If the matter is referred to a retired judge, the elected officer, department head, board or commission, subject to the budgetary and fiscal provisions of the Charter, shall be entitled to retain outside counsel to represent it solely on the issue of whether the City Attorney has a conflict of interest regarding the particular matter.

In deciding whether the City Attorney has a conflict of interest regarding a particular matter, the retired judge shall be bound by and apply the applicable substantive law and Rules of Professional Conduct as if he or she were a court of law. To the extent practicable, the retired judge shall hear the matter within 15 days after its assignment to the retired judge, and within 15 days after the hearing, shall issue a written opinion stating the basis for the decision. The retired judge, but not the City Attorney or elected officer, department head, board or com-

mission, shall have the power to subpoena witnesses and documents in this proceeding.

The retired judge may request that the City Attorney secure written advice from the California Fair Political Practices Commission, the State Bar of California, or the California Attorney General on the question of whether the City Attorney has a conflict of interest regarding the particular matter. Upon such a request by the retired judge, the City Attorney shall secure such written advice. The retired judge may consider, but is not bound by, written advice so secured. The decision of the retired judge shall be final for the limited purpose of determining whether or not the elected officer, department head, board or commission may retain outside counsel for the particular matter.

If the retired judge decides that the City Attorney does not have a conflict of interest regarding the particular matter, the City Attorney shall continue to be the legal adviser to the elected officer, department head, board or commission for such matter. If the retired judge decides that the City Attorney has a conflict of interest regarding a particular matter, the elected officer, department head, board or commission shall be entitled to retain outside counsel for legal advice regarding the particular matter, and the City Attorney shall thereupon cease to advise the elected officer, department head, board or commission on such matter. Any such finding of a conflict of interest shall not affect the City Attorney's role as legal advisor to the elected officer, department head, board or commission on all other matters.

If at any time after the retention of outside counsel, the City Attorney believes that there is no longer a conflict of interest, the City Attorney shall state in writing to the elected officer, department head, board or commission why he or she believes that there is no longer a conflict of interest. Within five working days after receiving the written statement from the City Attorney, the elected officer, department head, board or commission shall respond in writing, either agreeing or disagreeing that there is no longer a conflict of interest. If the elected officer, department head, board or commission agrees that there is no longer a conflict of interest regarding a particular matter, the elected officer, department head, board or commission shall cease employing outside counsel for legal advice regarding the matter, and the City Attorney shall serve as legal adviser to the elected officer, department head, board or commission regarding that matter. If the elected officer, department head, board or commission states in its written response that it believes the conflict of interest still exists, the City Attorney may, within ten working days after receiving the response of the elected officer, department head, board or commission, elect to refer the issue of whether the conflict of interest regarding the particular matter continues to exist to the same retired judge who originally heard the matter, if available. The same procedures as established herein shall apply thereafter.

In selecting outside counsel for any purpose described in this Section, the elected officer, department head, board or commission shall give preference to

engaging the services of a city attorney's office, a county counsel's office or other public entity law office with an expertise regarding the subject-matter jurisdiction of the elected officer, department head, board or commission. If the elected officer, department head, board or commission concludes that private counsel is necessary, that attorney must be a member in good standing with the Bar of California who has at least five year's experience in the subject-matter jurisdiction of the elected officer, department head, board or commission. Any private counsel retained pursuant to this Section shall be subject to the conflict of interest provisions of Section 13.103.5. The cost of any of the services of outside counsel and of the alternative dispute resolution process authorized by this Section shall be paid for by the elected officer, department head, board or commission, subject to the budgetary and fiscal provisions of this Charter.

2. Represent an officer or official of the City and County when directed to do so by the Board of Supervisors, unless the cause of action exists in favor of the City and County against such officer or official;

3. Whenever a cause of action exists in favor of the City and County, commence legal proceedings when such action is within the knowledge of the City Attorney or when directed to do so by the Board of Supervisors, except for the collection of taxes and delinquent revenues, which shall be performed by the attorney for the Tax Collector;

4. Upon request, provide advice or written opinion to any officer, department head or board, commission or other unit of government of the City and County;

5. Make recommendations for or against the settlement or dismissal of legal proceedings to the Board of Supervisors prior to any such settlement or dismissal. Such proceedings shall be settled or dismissed by ordinance and only upon the recommendation of the City Attorney;

6. Approve as to form all surety bonds, contracts and, prior to enactment, all ordinances; and examine and approve title to all real property to be acquired by the City and County;

7. Prepare, review annually and make available to the public a codification of ordinances of the City and County then in effect;

8. Prepare and make available to the public an annual edition of this Charter complete with all of its amendments and legal annotations; and

9. Establish in the Office of the City Attorney a Bureau of Claims Investigation and Administration which shall have the power to investigate, evaluate and settle for the several boards, commissions and departments all claims for money or damages. The Bureau shall also have the power to investigate incidents where the City faces potential civil liability, and to settle demands before they are presented as claims, within dollar limits provided for by ordinance, from a revolving fund to be established for that purpose. The City Attorney shall appoint a chief of the Bureau who shall serve at his or her pleasure. The chief of the Bureau may appoint, subject to confirmation by the City Attorney, investigators who shall serve at the pleasure of the chief.

10. During his or her tenure, not contribute to, solicit contributions to, publicly endorse or urge the endorsement of or otherwise participate in a campaign for a candidate for City elective office, other than himself or herself or of a City ballot measure or be an officer, director or employee of or hold a policymaking position in an organization that makes political endorsements regarding candidates for City elective office or City ballot measures.

County of San Francisco***

[Filed with the Secretary of State December 27, 2002.]

**A8.595 MEMBERS OF THE POLICE DEPARTMENT ON JANUARY 1, 2003 WHO ARE MEMBERS OF THE RETIREMENT SYSTEM UNDER CHARTER SECTION A8.559.**

Members of the police department on January 1, 2003 who are members of the retirement system under Section A8.559 may elect to be members of the retirement system under Section A8.595 instead of Section A8.559. Any such election must be exercised in writing, on a form furnished by the retirement system, and filed at the office of said system not later than the close of business on December 31, 2002.

Those persons who elect to be members under Section A8.595 as provided in the preceding paragraph, shall be members of the system subject to provisions of Sections A8.595 through Section A8.595-14 (which shall apply only to members under Section A8.595) in addition to the provisions contained in Sections 12.100 to 12.103 and Sections A8.500, A8.510 and A8.520 of this charter, notwithstanding the provisions of any other section of this charter, and shall not be subject to any of the provisions of Section A8.559 of this charter.

The provisions of Section A8.595 shall not apply to any member of the retirement system under Section A8.559 who separated from service, retired or died before January 1, 2003, or to his or her continuant; provided, however, that the provisions of Section A8.595-2 shall apply to the adjustment required in Sections A8.559-3, A8.559-4 and A8.559-5 for a retired member or his or her surviving spouse or continuant when the retired member would not have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years until after January 1, 2003.

#### A8.595-1 DEFINITIONS

The following words and phrases as used in this section A8.595 and Sections A8.595-2 through A8.595-14, unless a different meaning is plainly required by the context, shall have the following meanings:

“Retirement allowance,” “death allowance” or “allowance,” shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

“Compensation,” as distinguished from benefits under the Workers’ Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the City and County, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the police department, but excluding remuneration paid for overtime.

For retirement purposes, any increase in compensation attached to a rank which is based solely upon the possession of a POST certificate, compared to the equivalent rank without a POST certificate, shall be subject to the following limitations:

(a) for possession of the intermediate POST certificate, no more than 4% shall be included in compensation,

(b) for possession of the advanced POST certificate, no more than an additional 2% over the maximum provided in subsection (a), above, shall be included in compensation,

These limits shall apply to any pay increments which are solely attributable to the possession of a POST certificate, including but not limited to premiums or special ranks which may be established in the future and which are solely attributable to the possession of a POST certificate.

“Compensation earnable” shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him or her during such period, it being assumed that during any absence, he or she was in the rank or position held by him or her at the beginning of the absence, and that prior to becoming a member of the police department, he or she was in the rank or position first held by him or her in such department.

“Benefit” shall include “allowance,” “retirement allowance,” “death allowance” and “death benefit.”

“Final compensation” shall mean the monthly compensation earnable by a member at the time of his or her retirement, or death before retirement, as the case may be, at the rate of remuneration attached at that time to the rank or position which said member held, provided that said member has held said rank or position for at least one year immediately prior to said retirement or death; and provided, further, that if said member has not held said rank or position for at least one year

immediately prior to said retirement or death, “final compensation,” as to such member, shall mean the monthly compensation earnable by such member in the rank or position next lower to the rank or position which he or she held at the time of retirement or death at the rate of remuneration attached at the time of said retirement or death to said next lower rank or position; provided, however, that in the case of a member’s death before retirement as the result of a violent traumatic injury received in the performance of his or her duty, “final compensation,” as to such member shall mean the monthly compensation earnable by such member at the rate of remuneration attached on the date he or she receives such injury to the rank or position held by such member on that date.

For purposes of calculation of final compensation, any increase in pay solely attributable to possession of a POST certificate shall be included only if the member possesses the qualifying POST certificate for a period of not less than four (4) years prior to his or her retirement date; provided, however, that should a member possess the qualifying POST certificate for a period of time less than four (4) years prior to retirement, final compensation shall be calculated based upon the monthly compensation in the next lower rank not requiring possession of the qualifying POST certificate.

For the purpose of Sections A8.595 through A8.595-14, the terms “member of the police department,” “member of the department,” or “member” shall mean any officer or employee of the police department, who was a member of the police department on January 1, 2003 and a member of the retirement system under Section A8.559 and who elected to be a member of Section A8.595 as provided in Section A8.595.

Any police service performed by such members of the police department outside the limits of the City and County and under orders of a superior officer of any such member, shall be considered as City and County service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

“Retirement system” or “system” shall mean San Francisco City and County Employees’ Retirement System as created in Section A8.500 of the charter.

“Retirement board” shall mean “retirement board” as created in Section 12.100 of the charter.

“Charter” shall mean the charter of the City and County of San Francisco.

Any member of the police department who completes at least twenty-five (25) years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under Section A8.595-10, may retire for service at his or her option. A member retired after meeting the service and age requirements in the

preceding sentence, shall receive a retirement allowance equal to the percent of the final compensation of said member, as defined in Section A8.595-1, set forth below opposite his or her age at retirement, taken to the preceding quarter year, for each year of service, as computed under Section A8.595-10:

50.75	2.490
51	2.520
51.25	2.550
51.5	2.580
51.75	2.610
52	2.640
52.25	2.670

54.5	2.940
54.75	2.970
55+	3.000

In no event, however, shall such a retirement allowance exceed ninety (90) percent of a member's final compensation.

If, at the date of retirement for service, or retirement for disability resulting from an injury received in the performance of duty, said member has no spouse, children or dependent parents, who would qualify for the continuance of the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or Section A8.595-3, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his or her allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him or her throughout his or her life, and partly in other benefits payable after his or her death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar election by other members of the retirement system, including the character and amount of such other benefits.

### A8.595-3 RETIREMENT FOR INCAPACITY

Any member of the police department who becomes incapacitated for the performance of his or her duty by reason of any bodily injury received in, or illness caused by the performance of his or her duty, shall be retired. If he or she is not qualified for service retirement, he or she shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in Section A8.595-1, as his or her percentage of disability is determined to be. The percentage of disability shall be as determined by the Workers' Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five affirmative votes, adjust the percentage of disability as determined by said appeals board; and provided, further, that such retirement allowance shall be in an amount not less than 50 percent nor more than 90 percent of the final compensation of said member, as defined in Section A8.595-1. Said allowance shall be paid to said member until the date upon which said member would have qualified for service retirement had he or she lived and rendered service without interruption in the rank held by the member at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in Section A8.595-1, he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 55 percent of such final compensation.

If, at the time of retirement because of disability, he or she is qualified as to age and service for retirement under Section A8.595-2, he or she shall receive an allowance equal to the retirement allowance which he or she would receive if retired under Section A8.595-2, but not less than 55 percent of said final compensation. Any member of the police department who becomes incapacitated for performance of his or her duty, by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least 10 years of service in the aggregate, computed as provided in Section A8.595-10; shall be retired upon an allowance of one and one-half percent of the final compensation of said member as defined in Section A8.595-1 for each year of service, provided that said allowance shall not be less than 33-1/3 percent of said final compensation; provided, however, that if such member has completed at least 25 years of service in the aggregate, computed as provided in Section A8.595-10, but has not yet attained the age of 50 years, he or she shall receive an allowance equal to the retirement allowance he or she would have received if he or she had attained the age of 50 years and retired under Section A8.595-2 as of the date of retirement for such incapacity. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the police commission, or by said member or his or her guardian. If his or her disability shall cease, his or her retirement allowance

shall cease, and he or she shall be restored to the service in the rank he or she occupied at the time of his or her retirement.

#### A8.595-4 DEATH ALLOWANCE

If a member of the police department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his or her duty, a death allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his or her surviving spouse throughout his or her life or until his or her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he or she had been retired for service on the day of death, but such allowance shall not be less than 55 percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he or she lived and rendered service without interruption in the rank held by the member at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 55 percent of such monthly final compensation. If he or she had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he or she was a member under Section 5.595 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children under the age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received,

during such dependency. No allowance, however, shall be paid under this section to a surviving spouse following the death of a member unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death.

#### A8.595-5 PAYMENT TO SURVIVING DEPENDENTS

Upon the death a member of the police department resulting from any cause, other than an injury received in, or illness caused by performance of duty:

(a) if his or her death occurred after qualification for service retirement, under Section A8.595-2 or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by performance of duty, three-fourths of his or her retirement allowance to which the member would have been entitled if he or she had retired for service at the time of death or three-fourths of the retirement allowance as it was at his or her death, as the case may be, shall be continued throughout life or until remarriage to his or her surviving spouse; or

(b) if his or her death occurred after the completion of at least 25 years of service in the aggregate but prior to the attainment of the age of 50 years, three-fourths of the retirement allowance to which he or she would have been entitled under Section A8.595-2 if he or she had attained the age of 50 years on the date of his or her death shall be continued throughout life or until remarriage to his or her surviving spouse; or

(c) if his or her death occurred after retirement for disability by reason of injury received in, or illness caused by performance of duty, his or her retirement allowance as it was at his or her death shall be continued throughout life or until remarriage, to his or her surviving spouse, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date of which said member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died; or

(d) if his or her death occurred after completion of at least 10 years of service in the aggregate, computed as provided in Section A8.595-10, an allowance in an amount equal to the retirement allowance to which the member would have been entitled pursuant to Section A8.595-3 if he or she had retired on the date of death because of incapacity for performance of duty resulting from a cause other than bodily injury received in or illness caused by performance of duty shall be paid throughout life or until remarriage to his or her surviving spouse.

If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children

under age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving spouse unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death if he or she had not retired, or unless he or she was married to the member at least one year prior to his or her death if he or she had retired.

As used in this section and Section A8.595-4, “surviving spouse” shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member, but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving spouse, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section A8.595-A8, in lieu of the allowance which otherwise would be continued to him or her under this section. If there is no surviving spouse, the guardian of the eligible child or children may make such election, and if there are no such children, the dependent parent or parents may make such election. “Qualified for service retirement,” “Qualification for service retirement” or “Qualified as to age and service for retirement,” as used in this section and other sections to which persons who are members under Section A8.595 are subject, shall mean completion of 25 years of service and attainment of age 50, said service to be computed under Section A8.595-10.

#### A8.595-6 ADJUSTMENT OF ALLOWANCES

Every retirement or death allowance payable to or on account of any member under Section A8.595 shall be increased or decreased as of January 1, 2003, and thereafter on the effective date of any legislation fixing the rates of compensation for police officers under Section A8.590-1 et seq. of this charter by an amount equal to 50 percent of any increase or decrease, respectively, in the rate of remuneration attached to the rank or position upon which such retirement or death allowance was based; provided, however, that no allowance shall be reduced below the amount being received by a member or his or her beneficiary on January 1, 2003, or on the date such member or beneficiary began to receive the allowance, whichever is later.

#### A8.595-7 ADJUSTMENT FOR COMPENSATION PAYMENTS

That portion of any allowance payable because of the death or retirement of any member of the police department which is provided by contributions of the City and County, shall be reduced, by the amount of any benefits other than medical benefits, payable by the City and County to or on account of such person, under any workers’ compensation law or any other general law and because of the injury

or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under such law and shall be in satisfaction and discharge of the obligation of the City and County to pay such benefits.

#### A8.595-8 DEATH BENEFIT

If a member of the police department shall die, before retirement from causes other than an injury received in or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under Section 8.595-4 or 8.595-5 preceding, a death benefit shall be paid to his or her estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his or her estate or designated beneficiary the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

#### A8.595-9 REFUNDS AND REDEPOSITS

Should any member of the police department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his or her contributions, with interest credited thereon, shall be refunded to him or her subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he or she shall again become a member of the department, he or she shall redeposit in the retirement fund, the amount refunded to him or her. Should a member of the police department become an employee of any other office or department, his or her accumulated contribution account shall be adjusted by payments to or from him or her as the case may be to make the accumulated contributions credited to him or her at the time of change, equal to the amount which would have been credited to him or her if he or she had been employed in said other office or department at the rate of compensation received by him or her in the police department and he or she shall receive credit for service for which said contributions were made, according to the charter section under which his or her membership in the retirement system continues.

#### A8.595-10 COMPUTATION OF SERVICE

The following time shall be included in the computation of the service to be credited to a member of the police department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contributions for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposited upon reentry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the fire or police department.

(b) Time during which said member served and received compensation as a jail matron in the office of the sheriff.

(c) Time during which said member is absent from a status included in Subsections (a) or (b) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in Sections A8.520 and A8.521 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the City and County contributed or contributes on his or her account.

#### A8.595-11 SOURCES OF FUNDS

All payments provided for members under Section A8.595 shall be made from funds derived from the following sources, plus interest earned on said funds:

(a) There shall be deducted from each payment of compensation made to a member under Section A8.595 a sum equal to seven percent of such payment of compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his or her estate or beneficiary as provided in Section A8.595-8, A8.595-9 and A8.595-10. A member's individual account under Section A8.595 shall include all monies previously credited to the member's account under Section A8.559.

(b) The dependent contributions of each member under this section which shall be required of each member throughout his or her membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under Section A8.595-2, and upon he or she first qualifying as to age and service for retirement under that section, one-third of the portion of his or her allowance, which is to be continued under Section A8.595-5 after his or her death and throughout the life of a surviving spouse whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in the performance of duty, said member has no spouse who would qualify for the continuance of the allowance to him or her after the death of said member, or upon retirement for disability resulting from other causes, regardless of his or her marital conditions, the dependent contributions with accumulated interest thereon, shall be paid to him or her forthwith. The dependent rate of contribution, however, shall not exceed the difference between seven percent and the member's normal rate of contribution,

and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(c) The City and County shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in Subsection (a) of this Section A8.595-11, to provide the benefits payable to members under Section A8.595. Such contributions of the City and County to provide the portion of the benefits hereunder shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to persons who are members under Section A8.595 in accordance with the provisions of Section A8.510.

(d) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the City and County held by the system to provide benefits for members under Section A8.595, shall be a part of the fund in which all other assets of said system are included.

(e) Any year in which, based upon the retirement system's annual actuarial valuation, the employer contribution rate exceeds 0%, the employee organizations representing safety members shall jointly meet and confer with city representatives to implement a cost sharing arrangement between the city and employee organizations. Such arrangement will effect a material reduction of the cost impact of employer contributions on the city's general fund.

The dollar value of the cost sharing arrangement shall not exceed the total annual cost to the retirement system of improving the police and fire safety retirement plans to the 3%@55 benefit level or the total employer contribution required by the retirement system, whichever is lesser. Such cost sharing arrangement shall not require an employee contribution in excess of the limits set elsewhere in this charter.

The meet and confer process, including all impasse procedures under Section A8.590-1 et seq., shall be concluded not later than April 1st except by mutual agreement of the parties. The cost sharing arrangement must be finalized to permit implementation effective July 1.

The retirement board's authority under charter Section 12.100 and in Section A8.510 concerning the annual setting of the rates of contribution are not subject to the meet and confer process, including all impasse procedures under Section A8.590-1 et seq.

#### A8.595-12 RIGHT TO RETIRE

Upon the completion of the years of service set forth in Section A8.595-2 as requisite to retirement, a member of the police department shall be entitled to retire at any time thereafter in accordance with the provisions of said Section A8.595-2, and nothing shall deprive said member of said right.

#### A8.595-13 LIMITATION IN EMPLOYMENT DURING RETIREMENT

Except as otherwise provided in Section A8.511 of this charter, no person retired as a member under Section A8.595 for service or disability and entitled to

receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the City and County service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the City and County after retirement, provided that service as an election officer or juror, or in the preparation for, or the giving of, testimony as an expert witness for or on behalf of the City and County of San Francisco before any court or legislative body shall not be affected by this section.

#### A8.595-14 VESTING

Notwithstanding any provisions of this charter to the contrary, should any member of the police department who is a member of the Retirement System under Charter Section A8.595 with five years of credited service, cease to be so employed, through any cause other than death or retirement, he or she shall have the right to elect, without right of revocation and within 90 days after termination of said service, to allow his or her accumulated contributions including interest to remain in the retirement fund and to receive a retirement allowance equal to the percent set forth in Section A8.595-2 opposite his or her age at retirement, for each year of service multiplied against the final compensation of said member, calculated at termination, payable beginning no earlier than age 50. The provisions of Section A8.595-14 shall not apply to any members of the retirement system under Section A8.559 who terminated before January 1, 2003 or their continuants. No vesting retirement allowance under this section shall exceed ninety (90%) percent of the member's final compensation.

Any member of the police department convicted of a crime involving moral turpitude committed in connection with his or her duties as a member of the police department shall, upon termination of his or her employment pursuant to the provisions of this charter, forfeit all right to any benefits under this section except refund of his or her accumulated contributions.

Every retirement or death allowance payable to or on account of any member under Section A8.595-14 shall be adjusted in accordance with the provisions of Section A8.595-6 provided that if the member's accrued service credit is less than 25 years the Section A8.595-6 adjustment will be multiplied by a fraction where the denominator is 25 and the numerator is equal to the member's accrued service credit at the date of termination.

#### A8.596 MEMBERS OF THE FIRE DEPARTMENT ON JANUARY 1, 2003 WHO ARE MEMBERS OF THE RETIREMENT SYSTEM UNDER CHARTER SECTION A8.585

Members of the fire department on January 1, 2003 who are members of the retirement system under Section A8.585 may elect to be members of the retirement system under Section A8.596 instead of Section A8.585. Any such election must be exercised in writing, on a form furnished by the retirement system, and filed at the office of said system not later than the close of business on December 31, 2002.

Those persons who elect to be members under Section A8.596 as provided in the preceding paragraph, shall be members of the system subject to provisions of Section A8.596 through Section A8.596-14 (which shall apply only to members under Section A8.596) in addition to the provisions contained in Sections 12.100 to 12.103 and Sections A8.500, A8.510 and A8.520 of this charter, notwithstanding the provisions of any other section of this charter, and shall not be subject to any of the provisions of Section A8.585 of this charter.

The provisions of Section A8.596 shall not apply to any member of the retirement system under Section A8.585 who separated from service, retired or died before January 1, 2003, or to his or her continuant; provided, however, that the provisions of Section A.596-2 shall apply to the adjustment required in Sections A8.585-3, A8.585-4 and A8.585-5 for a retired member or his or her surviving spouse or continuant when the retired member would not have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years until after January 1, 2003.

#### A8.596-1 DEFINITIONS

The following words and phrases as used in this section A8.596 and Sections A8.596-2 through A8.596-14, unless a different meaning is plainly required by the context, shall have the following meanings:

for at least one year immediately prior to said retirement or death; and provided, further, that if said member has not held said rank or position for at least one year immediately prior to said retirement or death, “final compensation,” as to such member, shall mean the monthly compensation earnable by such member in the rank or position next lower to the rank or position which he or she held at the time of retirement or death at the rate of remuneration attached at the time of said retirement or death to said next lower rank or position; provided, however, that in the case of a member’s death before retirement as the result of a violent traumatic injury received in the performance of his or her duty, “final compensation,” as to such member shall mean the monthly compensation earnable by such member at the rate of remuneration attached on the date he or she receives such injury to the rank or position held by such member on that date.

For the purpose of Sections A8.596 through A8.596-14, the terms “member of the fire department,” “member of the department,” or “member” shall mean any officer or employee of the fire department, who was a member of the fire department on January 1, 2003 and a member of the retirement system under Section A8.585 and who elected to be a member of Section A8.596 as provided in Section A8.596.

Any fire service performed by such members of the fire department outside the limits of the City and County and under orders of a superior officer of any such member, shall be considered as City and County service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

“Retirement system” or “system” shall mean San Francisco City and County Employees’ Retirement System as created in Section A8.500 of the charter.

“Retirement board” shall mean “retirement board” as created in Section 12.100 of the charter.

#### A8.596-2 SERVICE RETIREMENT

Any member of the fire department who completes at least twenty-five (25) years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under Section A8.596-10, may retire for service at his or her option. A member retired after meeting the service and age requirements in the preceding sentence, shall receive a retirement allowance equal to the percent of the final compensation of said member, as defined in Section A8.596-1, set forth below opposite his or her age at retirement, taken to the preceding quarter year, for each year of service, as computed under Section A8.596-10:

Retirement Age	Percent for Each Year of Credited Service
50	2.400
50.25	2.430
50.5	2.460
50.75	2.490
51	2.520
51.25	2.550
51.5	2.580
51.75	2.610
52	2.640
52.25	2.670
52.5	2.700
52.75	2.730
53.	2.760
53.25	2.790
53.5	2.820
53.75	2.850
54	2.880
54.25	2910
54.5	2.940
54.75	2.970
55+	3.000

In no event, however, shall such a retirement allowance exceed ninety (90) percent of a member's final compensation.

If, at the date of retirement for service, or retirement for disability resulting from an injury received in the performance of duty, said member has no spouse, children or dependent parents, who would qualify for the continuance of the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or Section A8.596-3, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his or her allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him or her throughout his or her life, and partly in other benefits payable after his or her death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar election by other members of the retirement system, including the character and amount of such other benefits.

### A8.596-3 RETIREMENT FOR INCAPACITY

Any member of the fire department who becomes incapacitated for the performance of his or her duty by reason of any bodily injury received in, or illness caused by the performance of his or her duty, shall be retired. If he or she is not qualified for service retirement, he or she shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in Section A8.596-1, as his or her percentage of disability is determined to be. The percentage of disability shall be as determined by the Workers' Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five affirmative votes, adjust the percentage of disability as determined by said appeals board; and provided, further, that such retirement allowance shall be in an amount not less than 50 percent nor more than 90 percent of the final compensation of said member, as defined in Section A8.596-1. Said allowance shall be paid to said member until the date upon which said member would have qualified for service retirement had he or she lived and rendered service without interruption in the rank held by the member at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in Section A8.596-1, he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 55 percent of such final compensation.

If, at the time of retirement because of disability, he or she is qualified as to age and service for retirement under Section A8.596-2, he or she shall receive an allowance equal to the retirement allowance which he or she would receive if retired under Section A8.596-2, but not less than 55 percent of said final compensation. Any member of the fire department who becomes incapacitated for performance of his or her duty, by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least 10 years of service in the aggregate, computed as provided in Section A8.596-10, shall be retired upon an allowance of one and one-half percent of the final compensation of said member as defined in Section A8.596-1 for each year of service, provided that said allowance shall not be less than 33-1/3 percent of said final compensation; provided, however, that if such member has completed at least 25 years of service in the aggregate, computed as provided in Section A8.596-10, but has not yet attained the age of 50 years, he or she shall receive an allowance equal to the retirement allowance he or she would have received if he or she had attained the age of 50 years and retired under Section A8.596-2 as of the date of retirement for such incapacity. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the fire commission, or by said member or his or her guardian. If his or her disability shall cease, his or her retirement allowance

shall cease, and he or she shall be restored to the service in the rank he or she occupied at the time of his or her retirement.

#### A8.596-4 DEATH ALLOWANCE

If a member of the fire department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his or her duty, a death allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his or her surviving spouse throughout his or her life or until his or her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he or she had been retired for service on the day of death, but such allowance shall not be less than 55 percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he or she lived and rendered service without interruption in the rank held by the member at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 55 percent of such monthly final compensation. If he or she had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he or she was a member under Section 5.596 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children under the age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received,

during such dependency. No allowance, however, shall be paid under this section to a surviving spouse following the death of a member unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death.

#### A8.596-5 PAYMENT TO SURVIVING DEPENDENTS

Upon the death of a member of the fire department resulting from any cause, other than an injury received in, or illness caused by performance of duty:

(a) if his or her death occurred after qualification for service retirement, under Section A8.596-2 or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by performance of duty, three-fourths of his or her retirement allowance to which the member would have been entitled if he or she had retired for service at the time of death or three-fourths of the retirement allowance as it was at his or her death, as the case may be, shall be continued throughout life or until remarriage to his or her surviving spouse; or

(b) if his or her death occurred after the completion of at least 25 years of service in the aggregate but prior to the attainment of the age of 50 years, three-fourths of the retirement allowance to which he or she would have been entitled under Section A8.596-2 if he or she had attained the age of 50 years on the date of his or her death shall be continued throughout life or until remarriage to his or her surviving spouse; or

(c) if his or her death occurred after retirement for disability by reason of injury received in, or illness caused by performance of duty, his or her retirement allowance as it was at his or her death shall be continued throughout life or until remarriage, to his or her surviving spouse, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date of which said member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died; or

(d) if his or her death occurred after completion of at least 10 years of service in the aggregate, computed as provided in Section A8.596-10, an allowance in an amount equal to the retirement allowance to which the member would have been entitled pursuant to Section A8.596-3 if he or she had retired on the date of death because of incapacity for performance of duty resulting from a cause other than bodily injury received in, or illness caused by performance of duty shall be paid throughout life or until remarriage to his or her surviving spouse.

If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children

under age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving spouse unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death if he or she had not retired, or unless he or she was married to the member at least one year prior to his or her death if he or she had retired.

As used in this section and Section A8.596-4, “surviving spouse” shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member, but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving spouse, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section A8.596-8, in lieu of the allowance which otherwise would be continued to him or her under this section. If there is no surviving spouse, the guardian of the eligible child or children may make such election, and if there are no such children, the dependent parent or parents may make such election. “Qualified for service retirement,” “Qualification for service retirement” or “Qualified as to age and service for retirement,” as used in this section and other sections to which persons who are members under Section A8.596 are subject, shall mean completion of 25 years of service and attainment of age 50, said service to be computed under Section A8.596-10.

#### A8.596-6 ADJUSTMENT OF ALLOWANCES

Every retirement or death allowance payable to or on account of any member under Section A8.596 shall be increased or decreased as of January 1, 2003, and thereafter on the effective date of any legislation fixing the rates of compensation for firefighters under Section A8.590-1 et seq. of this charter by an amount equal to 50 percent of any increase or decrease, respectively, in the rate of remuneration attached to the rank or position upon which such retirement or death allowance was based; provided, however, that no allowance shall be reduced below the amount being received by a member or his or her beneficiary on January 1, 2003, or on the date such member or beneficiary began to receive the allowance, whichever is later.

#### A8.596-7 ADJUSTMENT FOR COMPENSATION PAYMENTS

That portion of any allowance payable because of the death or retirement of any member of the fire department which is provided by contributions of the City and County, shall be reduced, by the amount of any benefits other than medical benefits, payable by the City and County to or on account of such person, under any workers' compensation law or any other general law and because of the injury or

illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under such law and shall be in satisfaction and discharge of the obligation of the City and County to pay such benefits.

#### A8.596-8 DEATH BENEFIT

If a member of the fire department shall die, before retirement from causes other than an injury received in or illness caused by the performance of duty, or regardless of cause, if no allowance shall be payable under Section A8.596-4 or A8.596-5 preceding, a death benefit shall be paid to his or her estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his or her estate or designated beneficiary the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

#### A8.596-9 REFUNDS AND REDEPOSITS

Should any member of the fire department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his or her contributions, with interest credited thereon, shall be refunded to him or her subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he or she shall again become a member of the department, he or she shall redeposit in the retirement fund, the amount refunded to him or her. Should a member of the fire department become an employee of any other office or department, his or her accumulated contribution account shall be adjusted by payments to or from him or her as the case may be to make the accumulated contributions credited to him or her at the time of change, equal to the amount which would have been credited to him or her if he or she had been employed in said other office or department at the rate of compensation received by him or her in the fire department and he or she shall receive credit for service for which said contributions were made, according to the charter section under which his or her membership in the retirement system continues.

#### A8.596-10 COMPUTATION OF SERVICE

The following time shall be included in the computation of the service to be credited to a member of the fire department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contributions for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposited upon reentry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the police or fire department.

(b) Time during which said member is absent from a status included in Subsection (a) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in Sections A8.520 and A8.521 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the City and County contributed or contributes on his or her account.

#### A8.596-11 SOURCES OF FUNDS

All payments provided for members under Section A8.596 shall be made from funds derived from the following sources, plus interest earned on said funds:

(a) There shall be deducted from each payment of compensation made to a member under Section A8.596 a sum equal to seven percent of such payment of compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his or her estate or beneficiary as provided in Section A8.596-8, A8.596-9 and A8.596-10. A member's individual account under Section A8.596 shall include all monies previously credited to the member's account under Section A8.585.

(b) The dependent contributions of each member under this section which shall be required of each member throughout his or her membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under Section A8.596-2, and upon he or she first qualifying as to age and service for retirement under that section, one-third of the portion of his or her allowance, which is to be continued under Section A8.596-5 after his or her death and throughout the life of a surviving spouse whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in the performance of duty, said member has no spouse who would qualify for the continuance of the allowance to him or her after the death of said member, or upon retirement for disability resulting from other causes, regardless of his or her marital conditions, the dependent contributions with accumulated interest thereon, shall be paid to him or her forthwith. The dependent rate of contribution, however, shall not exceed the difference between seven percent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(c) The City and County shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in Subsection (a) of this Section A8.596-11, to provide the benefits payable to members under Section A8.596. Such contributions of the City and County to provide the portion of the benefits hereunder shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to persons who are members under Section A8.596 in accordance with the provisions of Section A8.510.

(d) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the City and County held by the system to provide benefits for members under Section A8.596, shall be a part of the fund in which all other assets of said system are included.

(e) Any year in which, based upon the retirement system's annual actuarial valuation, the employer contribution rate exceeds 0%, the employee organizations representing safety members shall jointly meet and confer with city representatives to implement a cost sharing arrangement between the city and employee organizations. Such arrangement will effect a material reduction of the cost impact of employer contributions on the city's general fund.

The dollar value of the cost sharing arrangement shall not exceed the total annual cost to the retirement system of improving the police and fire safety retirement plans to the 3%@55 benefit level or the total employer contribution required by the retirement system, whichever is lesser. Such cost sharing arrangement shall not require an employee contribution in excess of the limits set elsewhere in this charter.

The meet and confer process, including all impasse procedures under Section A8.590-1 et seq., shall be concluded not later than April 1st except by mutual agreement of the parties. The cost sharing arrangement must be finalized to permit implementation effective July 1.

The retirement board's authority under charter Section 12.100 and in Section A8.510 concerning the annual setting of the rates of contribution are not subject to the meet and confer process, including all impasse procedures under Section A8.590-1 et seq.

#### A8.596-12 RIGHT TO RETIRE

Upon the completion of the years of service set forth in Section A8.596-2 as requisite to retirement, a member of the fire department shall be entitled to retire at any time thereafter in accordance with the provisions of said Section A8.596-2, and nothing shall deprive said member of said right.

#### A8.596-13 LIMITATION IN EMPLOYMENT DURING RETIREMENT

Except as otherwise provided in Section A8.511 of this charter, no person retired as a member under Section A8.596 for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the City and County service, including mem-

bership on boards and commissions, nor shall such person receive any payment for service rendered to the City and County after retirement, provided that service as an election officer or juror, or in the preparation for, or the giving of, testimony as an expert witness for or on behalf of the City and County of San Francisco before any court or legislative body shall not be affected by this section.

#### A8.596-14 VESTING

Notwithstanding any provisions of this charter to the contrary, should any member of the fire department who is a member of the Retirement System under Charter Section A8.596 with five years of credited service, cease to be so employed, through any cause other than death or retirement, he or she shall have the right to elect, without right of revocation and within 90 days after termination of said service, to allow his or her accumulated contributions including interest to remain in the retirement fund and to receive a retirement allowance equal to the percent set forth in Section A8.596-2 opposite his or her age at retirement, or each year of service multiplied against the final compensation of said member, calculated at termination, payable beginning no earlier than age 50. The provisions of Section A8.596-14 shall not apply to any members of the retirement system under Section A8.585 who terminated before January 1, 2003 or their continuants. No vesting retirement allowance under this section shall exceed ninety (90%) percent of the member's final compensation.

Any member of the fire department convicted of a crime involving moral turpitude committed in connection with his or her duties as a member of the fire department shall, upon termination of his or her employment pursuant to the provisions of this charter, forfeit all right to any benefits under this section except refund of his or her accumulated contributions.

Every retirement or death allowance payable to or on account of any member under Section A8.596-14 shall be adjusted in accordance with the provisions of Section A8.596-6 provided that if the member's accrued service credit is less than 25 years the Section A8.596-6 adjustment will be multiplied by a fraction where the denominator is 25 and the numerator is equal to the member's accrued service credit at the date of termination.

**A8.597 MEMBERS OF THE POLICE DEPARTMENT ON JANUARY 1, 2003 WHO ARE MEMBERS OF THE RETIREMENT SYSTEM UNDER CHARTER SECTION A8.586, AND MEMBERS OF THE POLICE DEPARTMENT AFTER JANUARY 1, 2003.**

Members of the police department on January 1, 2003 who are members of the retirement system under Section A8.586, and persons who become members of the police department, as defined in Section A8.597-1, after January 1, 2003, shall be members of the retirement system subject to the provisions of Sections A8.597 through A8.597-15 (which shall apply only to members under Section A8.597) in addition to the provisions contained in Sections 12.100 to 12.103 and Sections 8.500, 8.510, 8.520 and 8.526 of this charter, notwithstanding the provisions of

any other section of this charter, and shall not be subject to any of the provisions of Section A8.586 of this charter,

The provisions of Section A8.597 shall not apply to any member of the retirement system under Section A8.586 who separated from service, retired or died before January 1, 2003, or to his or her continuant; provided, however, that the provisions of Section A8.597-2 shall apply to the adjustment required in Sections A8.586-3, A8.586-4 and A8.586-5 for a retired member or his or her surviving spouse or continuant when the retired member would not have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years until after January 1, 2003.

#### A8.597-1 DEFINITIONS

The following words and phrases as used in this Section, Section A8.597 and Section A8.597-2 through A8.597-14, unless a different meaning is plainly required by the context, shall have the following meanings:

“Retirement allowance,” “death allowance” or “allowance,” shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

“Compensation,” as distinguished from benefits under the Workers’ Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the City and County, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the police department, but excluding remuneration paid for overtime.

Subject to the requirement that it be payable in cash and that overtime be excluded, “compensation” for pension purposes may be defined in a collective bargaining agreement. Provided, however, that for retirement purposes, any increase in compensation attached to a rank which is based solely upon the possession of a POST certificate, compared to the equivalent rank without a POST certificate, shall be subject to the following limitations:

(a) for possession of the intermediate POST certificate, no more than 4% shall be included in compensation,

(b) for possession of the advanced POST certificate, no more than an additional 2% over the maximum provided in subsection (a), above, shall be included in compensation. These limits shall apply to any pay increments which are solely attributable to the possession of a POST certificate, including but not limited to premiums or special ranks which may be established in the future and which are solely attributable to the possession of a POST certificate.

“Compensation earnable” shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him or her during such period, it being assumed that during any absence, he or she was in the rank or position held by him

or her at the beginning of the absence, and that prior to becoming a member of the police department, he or she was in the rank or position first held by him or her in such department.

“Benefit” shall include “allowance,” “retirement allowance,” “death allowance” and “death benefit.”

“Final compensation” shall mean the average monthly compensation earnable by a member during any one year of credited service in which his or her average compensation is the highest.

For purposes of calculation of final compensation, any increase in pay solely attributable to possession of a POST certificate shall be included only if the member possesses the qualifying POST certificate for a period of not less than four (4) years prior to his or her retirement date; provided, however, that should a member possess the qualifying POST certificate a period of time less than four (4) years prior to retirement, final compensation shall be calculated based upon the monthly compensation in the next lower rank not requiring possession of the qualifying POST certificate.

For the purpose of Section A8.597 through A8.597-14, the terms “member of the police department,” “member of the department,” or “member” shall mean any member of the police department on January 1, 2003 who was an active member of the retirement system under Section A8.586, and any officer or employee of the police department employed after January 1, 2003 who was or shall be subject to the charter provisions governing entrance requirements of members of the uniformed force of said department and said terms shall further mean persons employed after January 1, 2003 at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform duties now performed under the titles of criminologist, photographer, police woman or jail matron; provided, however, that said terms shall not include any person who has not satisfactorily completed such course of training as may be required by the police department prior to assignment to active duty with said department.

“Retirement system” or “system” shall mean San Francisco City and County Employees’ Retirement System as created in Section A8.500 of the charter.

“Retirement board” shall mean “retirement board” as created in Section 3.670 of the charter.

“Charter” shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter gender, words used in the feminine gender shall include the masculine and neuter gender, and singular numbers shall include the plural and the plural the singular.

“Interest” shall mean interest at the rate adopted by the retirement board.

#### A8.597-2 SERVICE RETIREMENT

Any member of the police department who completes at least five years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under Section A8.597-10, may retire for service at his or her option. A

member retired after meeting the service and age requirements in the preceding sentence, shall receive a retirement allowance equal to the percent of final compensation (as defined in Section A8.597-1) set forth below opposite his or her age at retirement, taken to the preceding completed quarter year, for each year of service, as computed under Section A8.597-10:

Retirement Age	Percent for Each Year of Credited Service
50	2.400
50.25	2.430
50.5	2.460
50.75	2.490
51	2.520
51.25	2.550
51.5	2.580
51.75	2.610
52	2.640
52.25	2.670
52.5	2.700
52.75	2.730
53	2.760
53.25	2.790
53.5	2.820
53.75	2.850
54	2.880
54.25	2.910
54.5	2.940
54.75	2.970
55+	3.000

In no event, however, shall such a retirement allowance exceed ninety (90) percent of a member's final compensation.

#### A8.597-3 RETIREMENT FOR INCAPACITY

Any member of the police department who becomes incapacitated for the performance of his or her duty by reason of any bodily injury received in, or illness caused by the performance of his or her duty, shall be retired. If he or she is not qualified for service retirement, he or she shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in Section A8.597-1, as his or her percentage of disability is determined to be. The percentage of disability shall be as determined by the Workers' Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five affirmative votes, adjust the percentage of disability as determined by said appeals board; and provided, further, that such retirement allowance shall be in an amount not less than 50 percent nor more than 90 percent of the final compensation of said member, as defined in Section A8.597-1. Said allowance shall be

paid to him or her until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years had he or she lived and rendered service without interruption in the rank held by him or her at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in Section A8.597-1, he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation.

If, at the time of retirement because of disability, he or she is qualified as to age and service for retirement under Section A8.597-2, he or she shall receive an allowance equal to the retirement allowance which he or she would receive if retired under Section A8.597-2, but not less than 50 percent of said final compensation. Any member of the police department who becomes incapacitated for performance of his or her duty by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least 10 years of service in the aggregate, computed as provided in Section A8.597-10, shall be retired upon an allowance of 1-1/2 percent of the final compensation of said member as defined in Section A8.597-1 for each year of service, provided that said allowance shall not be less than 33-1/3 percent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the police commission or by said member or his or her guardian. If his or her disability shall cease, his or her retirement allowance shall cease and he or she shall be restored to the service in the rank he or she occupied at the time of his or her retirement.

#### A8.597-4 DEATH ALLOWANCE

If a member of the police department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his or her duty, a death allowance, in lieu of any allowance, payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his or her surviving spouse throughout his or her life or until his or her remarriage. If the member, at the time of death, was qualified for service retirement, but he or she had not retired, the allowance payable shall be equal to three-fourths of the retirement allowance which the member would have received if he or she had been retired for service on the date of death, but such allowance shall not be less than 50 percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, had he or she lived and ren-

dered service without interruption in the rank held by him or her at death, and after said date the allowance payable shall be equal to three-fourths of the retirement allowance said member would have received if retired for service on said date, based on the final compensation he or she would have received prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation. If he or she had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to three-fourths of the retirement allowance of the member, except that if he or she was a member under Section A8.597 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died.

If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children under the age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving spouse following the death of a member unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death.

#### A8.597-5 PAYMENT TO SURVIVING DEPENDENTS

Upon the death of a member of the police department resulting from any cause other than an injury received in, or illness caused by performance of duty,

(a) if the death occurred after qualification for service retirement under Section A8.597-2, or after retirement service or because of disability which result from any cause other than an injury received in, or illness caused by performance of duty one-half of the retirement allowance to which the member would have been entitled if he or she had retired for service at the date of death or one-half of the retirement allowance as it was at his or her death, as the case may be, shall be continued throughout his or her life or until remarriage to his or her surviving spouse, or

(b) if his or her death occurred after the completion of at least 25 years of service in the aggregate but prior to the attainment of the age of 50 years, one-half of the retirement allowance to which he or she would have been entitled under Section A8.597-2 if he or she had attained the age of 50 years on the date of his or her death shall be continued throughout life or until remarriage to his or her surviving spouse, or

(c) if his or her death occurred after retirement for disability by reason of injury received in or illness caused by performance of duty, three-fourths of his or her retirement allowance as it was at his or her death shall be continued throughout life or until remarriage to his or her surviving spouse, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date on which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died, or

(d) if his or her death occurred after completion of at least 10 years of service in the aggregate, computed as provided in Section A8.597-10, an allowance in an amount equal to the retirement allowance to which the member would have been entitled pursuant to Section A8.597-3 if he or she had retired on the date of death because of incapacity for performance of duty shall be paid throughout life or until remarriage to his or her surviving spouse. If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children, under age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however shall be paid under this section to a surviving spouse unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death if he or she had not retired, or unless he or she was married to the member at least one year prior to his or her retirement if he or she had retired.

As used in this section and Section A8.597-4 “surviving spouse” shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member, but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving spouse, in the event of death of the member after qualification for, but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section A8.597-8, in lieu of the allowance which otherwise would be continued to him or her under this section. If there is no surviving spouse, the guardian of the eligible child or children may make such election, and if there are no such children, the dependent parent or parents may make such election. “Qualified for service retirement,” “qualification for service retirement” or “qualified as to age and service for retirement,” as used in this section and other sections to which persons who are members under Section A8.597 are subject, shall mean completion of 25 years of service and attainment of age 50, said service to be computed under Section A8.597-10.

#### A8.597-6 ADJUSTMENT OF ALLOWANCES

Every retirement or death allowance payable to or on account of any member under Section A8.597 shall be adjusted in accordance with the provisions of Subsection (b) of Section A8.526 of this charter.

#### A8.597-7 ADJUSTMENT FOR COMPENSATION PAYMENTS

That portion of any allowance payable because of the death or retirement of any member of the police department which is provided by contributions of the City and County, shall be reduced, by the amount of any benefits other than medical benefits, payable by the City and County to or on account of such person, under any workers’ compensation law or any other general law and because of the injury or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in, or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under such law and shall be in satisfaction and discharge of the obligation of the City and County to pay such benefits.

#### A8.597-8 DEATH BENEFIT

If a member of the police department shall die, before retirement from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause if no allowance shall be payable under Section A8.597-4 or A8.597-5 preceding, a death benefit shall be paid to his or her estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his or her estate or designated beneficiary the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

#### A8.597-9 REFUNDS AND REDEPOSITS

Should any member of the police department cease to be employed as such a member, through any cause other than death or retirement or transfer to another

office or department, all of his or her contributions, with interest credited thereon, shall be refunded to him or her subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he or she shall again become a member of the department, he or she shall redeposit in the retirement fund the amount refunded to him or her. Should a member of the police department become an employee of any other office or department, his or her accumulated contribution account shall be adjusted by payments to or from him or her as the case may be to make the accumulated contributions credited to him or her at the time of change equal to the amount which would have been credited to him or her if he or she had been employed in said other office or department at the rate of compensation received by him or her in the police department and he or she shall receive credit for service for which said contributions were made, according to the charter section under which his or her membership in the retirement system continues.

#### A8.597-10 COMPUTATION OF SERVICE

The following time shall be included in the computation of the service to be credited to a member of the police department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contributions for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposited upon re-entry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the police or fire department.

(b) Time prior to January 1, 2003, during which said member was entitled to receive compensation while a member of the police or fire department under any other section of the charter, provided that accumulated contributions on account of such service previously refunded are redeposited with interest from the date of refund to the date of redeposit, at times and in the manner fixed by the retirement board; and solely for the purpose of determining qualification for retirement under Section A8.597-3 for disability not resulting from injury received in or illness caused by performance of duty, time during which said member serves and receives compensation because of services rendered in other offices and departments.

(c) Time during which said member is absent from a status included in Subsection (a) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in Sections A8.520 and A8.521 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the City and County contributed or contributes on his or her account.

#### A8.597-11 SOURCES OF FUNDS

All payments provided for members under Section A8.597 shall be made from funds derived from the following sources, plus interest earned on said funds:

(a) There shall be deducted from each payment of compensation made to a member under Section A8.597 a sum equal to seven percent of such payment of compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his or her estate or beneficiary as provided in Section A8.597-8, A8.597-9 and A8.597-10. A member's individual account under Section A8.597 shall include all monies previously credited to the member's account under Section A8.586.

(b) The City and County shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in Subsection (a) of this Section A8.597-11, to provide the benefits payable to members under Section A8.597. Such contributions of the City and County to provide the portion of the benefits hereunder shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to persons who are members under Section A8.597 in accordance with the provisions of Section A8.510.

(c) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the City and County held by the system to provide benefits for members under Section A8.597, shall be a part of the fund in which all other assets of said system are included.

(d) Any year in which, based upon the retirement system's annual actuarial valuation, the employer contribution rate exceeds 0%, the employee organizations representing safety members shall jointly meet and confer with city representatives to implement a cost sharing arrangement between the city and employee organizations. Such arrangement will effect a material reduction of the cost impact of employer contributions on the city's general fund.

The dollar value of the cost sharing arrangement shall not exceed the total annual cost to the retirement system of improving the police and fire safety retirement plans to the 3%@55 benefit level or the total employer contribution required by the retirement system, whichever is lesser. Such cost sharing arrangement shall not require an employee contribution in excess of the limits set elsewhere in this charter.

The meet and confer process, including all impasse procedures under Section A8.590-1 et seq., shall be concluded not later than April 1st except by mutual agreement of the parties. The cost sharing arrangement must be finalized to permit implementation effective July 1.

The retirement board's authority under charter Section 12.100 and in Section A8.510 concerning the annual setting of the rates of contribution are not subject to the meet and confer process, including all impasse procedures under Section A8.590-1 et seq.

#### A8.597-12 RIGHT TO RETIRE

Upon the completion of the years of service set forth in Section A8.597-2 as requisite to retirement, a member of the police department shall be entitled to retire at any time thereafter in accordance with the provisions of said Section A8.597-2, and, except as provided in the following paragraph, nothing shall deprive said member of said right.

Any member of the police department convicted of a crime involving moral turpitude committed in connection with his or her duties as a member of the police department shall, upon termination of his or her employment pursuant to the provisions of this charter, forfeit all rights to any benefits under the retirement system except refund of his or her accumulated contributions; provided, however, that if such member is qualified for service retirement by reason of service and age under the provisions of Section A8.597-2, he or she shall have the right to elect, without right of revocation and within 90 days of the termination of his or her employment, whether to withdraw all of his or her accumulated contributions or to receive as his or her sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his or her accumulated contributions at the time of such termination of employment.

#### A8.597-13 LIMITATION ON EMPLOYMENT DURING RETIREMENT

(a) Except as provided in Section A8.511 of this charter and in Subsection (b) of this section, no person retired as a member under Section A8.597 for service or disability and entitled to receive a retirement allowance under the retirement system shall be employed in any capacity by the City and County, nor shall such person receive any payment for services rendered to the City and County after retirement.

(b)(1) Service as an election officer or juror, or in the preparation for, or giving testimony as an expert witness for or on behalf of the City and County before any court or legislative body shall be affected by the provisions of Subsection (a) of this section.

(2) The provisions of Subsection (a) shall not prevent such retired person from serving on any board or commission of the City and County and receiving the compensation for such office, provided said compensation does not exceed \$100 per month.

(3) If such retired person is elected or appointed to a position or office which subjects him or her to membership in the retirement system under Section A8.597, he or she shall re-enter membership under Section A8.597 and his or her retirement allowance shall be cancelled immediately upon his or her re-entry. The provisions of Subsection (a) of this section shall not prevent such person from receiving the compensation for such position or office. The rate of contributions of such member shall be the same as that for other members under Section A8.597. Such member's

individual account shall be credited with an amount which is the actuarial equivalent of his or her annuity at the time of his or her re-entry, but the amount thereof shall not exceed the amount of his or her accumulated contributions at the time of his or her retirement. Such member shall also receive credit for his or her service as it was at the time of his or her retirement.

(c) Notwithstanding any provision of this charter to the contrary, should any person retired for disability engage in a gainful occupation prior to attaining the age of 55 years, the retirement board shall reduce that part of his or her monthly retirement allowance which is provided by contributions of the City and County to an amount which, when added to the amount of the compensation earnable, at the time he or she engages in the gainful occupation, by such person if he or she held the position which he or she held at the time of his or her retirement, or, if that position has been abolished, the compensation earnable by the member if he or she held the position from which he or she was retired immediately prior to its abolishment.

#### A8.597-14 CONFLICTING CHARTER PROVISIONS

Any section or part of any section in this charter, insofar as it should conflict with the provisions of Section A8.597 through A8.597-15 or with any part thereof, shall be superseded by the contents of said sections. In the event that any word, phrase, clause or section of said sections shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

#### A8.597-15 VESTING

Notwithstanding any provisions of this charter to the contrary, should any member of the police department who is a member of the Retirement System under Charter Section A8.597 with five years of credited service, cease to be so employed, through any cause other than death or retirement, he or she shall have the right to elect, without right of revocation and within 90 days after termination of said service, to allow his or her accumulated contributions including interest to remain in the retirement fund and to receive a retirement allowance equal to the percent set forth in Section A8.597-2 opposite his or her age at retirement, for each year of service multiplied against the final compensation of said member, calculated at termination, payable beginning no earlier than age 50. No vesting retirement allowance under this section shall exceed ninety (90%) percent of the member's final compensation. The provisions of Section A8.597-15 shall not apply to any members of the retirement system under Section A8.586 who terminated before January 1, 2003 or their continuants.

#### A8.598 MEMBERS OF THE FIRE DEPARTMENT ON JANUARY 1, 2003 WHO ARE MEMBERS OF THE RETIREMENT SYSTEM UNDER CHARTER SECTION A8.588, AND MEMBERS OF THE FIRE DEPARTMENT AFTER JANUARY 1, 2003.

Members of the fire department on January 1, 2003 who are members of the retirement system under Section A8.588, and persons who become members of the fire department, as defined in Section A8.598-1, after January 1, 2003, shall be

members of the retirement system subject to the provisions of Sections A8.598 through A8.598-15 (which shall apply only to members under Section A8.598) in addition to the provisions contained in Sections 12.100 to 12.103 and Sections 8.500, 8.510, 8.520 and 8.526 of this charter, notwithstanding the provisions of any other section of this charter, and shall not be subject to any of the provisions of Sections A8.588 of this charter.

The provisions of Section A8.598 shall not apply to any member of the retirement system under Section A8.588 who separated from service, retired or died before January 1, 2003, or to his or her continuant; provided, however, that the provisions of Section A8.598-2 shall apply to the adjustment required in Sections A8.588-3, A8.588-4 and A8.588-5 for a retired member or his or her surviving spouse or continuant when the retired member would not have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years until after January 1, 2003.

#### A8.598-1 DEFINITIONS

The following words and phrases as used in this Section, Section A8.598 and Section A8.598-2 through A8.598-14, unless a different meaning is plainly required by the context, shall have the following meanings:

“Benefit” shall include “allowance,” “retirement allowance,” “death allowance” and “death benefit.”

“Final compensation” shall mean the average monthly compensation earnable by a member during any one year of credited service in which his or her average compensation is the highest.

#### A8.598-2 SERVICE RETIREMENT

Any member of the fire department who completes at least five years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under Section A8.598-10, may retire for service at his or her option. A member retired after meeting the service and age requirements in the preceding sentence, shall receive a retirement allowance equal to the percent of final compensation (as defined in Section A8.598-1) set forth below opposite his or her age at retirement, taken to the preceding completed quarter year, for each year of service, as computed under Section A8.598-10:

Retirement Age	Percent for Each Year of Credited Service

50.25	2.430
50.5	2.460
50.75	2.490
51	2.520
51.25	2.550
51.5	2.580
51.75	2.610

52.25	2.670

52.5	2.700
52.75	2.730
53	2.760
53.25	2.790
53.5	2.820
53.75	2.850
54	2.880
54.25	2.910
54.5	2.940
54.75	2.970
55+	3.000

In no event, however, shall such a retirement allowance exceed ninety (90) percent of a member's final compensation.

#### A8.598-3 RETIREMENT FOR INCAPACITY

Any member of the fire department who becomes incapacitated for the performance of his or her duty by reason of any bodily injury received in, or illness caused by the performance of his or her duty, shall be retired. If he or she is not qualified for service retirement, he or she shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in Section A8.598-1, as his or her percentage of disability is determined to be. The percentage of disability shall be as determined by the Workers' Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five affirmative votes, adjust the percentage of disability as determined by said appeals board; and provided, further, that such retirement allowance shall be in an amount not less than 50 percent nor more than 90 percent of the final compensation of said member, as defined in Section A8.598-1. Said allowance shall be paid to him or her until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years had he or she lived and rendered service without interruption in the rank held by him or her at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in Section A8.598-1, he or she would have received immediately prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation.

If, at the time of retirement because of disability, he or she is qualified as to age and service for retirement under Section A8.598-2, he or she shall receive an allowance equal to the retirement allowance which he or she would receive if retired under Section A8.598-2, but not less than 50 percent of said final compensation. Any member of the fire department who becomes incapacitated for performance of his or her duty by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at

least 10 years of service in the aggregate, computed as provided in Section A8.598-10, shall be retired upon an allowance of 1-1/2 percent of the final compensation of said member as defined in Section A8.598-1 for each year of service, provided that said allowance shall not be less than 33-1/3 percent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the fire commission or by said member or his or her guardian. If his or her disability shall cease, his or her retirement allowance shall cease and he or she shall be restored to the service in the rank he or she occupied at the time of his or her retirement.

#### A8.598-4 DEATH ALLOWANCE

If a member of the fire department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his or her duty, a death allowance, in lieu of any allowance, payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his or her surviving spouse throughout his or her life or until his or her remarriage. If the member, at the time of death, was qualified for service retirement, but he or she had not retired, the allowance payable shall be equal to three-fourths of the retirement allowance which the member would have received if he or she had been retired for service on the date of death, but such allowance shall not be less than 50 percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the compensation of said member at the date of death, until the date upon which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, had he or she lived and rendered service without interruption in the rank held by him or her at death, and after said date the allowance payable shall be equal to three-fourths of the retirement allowance said member would have received if retired for service on said date, based on the final compensation he or she would have received prior to said date, had he or she lived and rendered service as assumed, but such allowance shall not be less than 50 percent of such final compensation. If he or she had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to three-fourths of the retirement allowance of the member, except that if he or she was a member under Section A8.598 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died.

If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children under the age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving spouse following the death of a member unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death.

#### A8.598-5 PAYMENT TO SURVIVING DEPENDENTS

Upon the death of a member of the fire department resulting from any cause other than an injury received in, or illness caused by performance of duty,

(a) if the death occurred after qualification for service retirement under Section A8.598-2, or after retirement service or because of disability which result from any cause other than an injury received in, or illness caused by performance of duty one-half of the retirement allowance to which the member would have been entitled if he or she had retired for service at the date of death or one-half of the retirement allowance as it was at his or her death, as the case may be, shall be continued throughout his or her life or until remarriage to his or her surviving spouse, or

(b) if his or her death occurred after the completion of at least 25 years of service in the aggregate but prior to the attainment of the age of 50 years, one-half of the retirement allowance to which he or she would have been entitled under Section A8.598-2 if he or she had attained the age of 50 years on the date of his or her death shall be continued throughout life or until remarriage to his or her surviving spouse, or

(c) if his or her death occurred after retirement for disability by reason of injury received in or illness caused by performance of duty, three-fourths of his or her retirement allowance as it was at his or her death shall be continued throughout life or until remarriage to his or her surviving spouse, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date on which said member would have completed at least twenty-five (25) years of service in the aggregate and attained the age of fifty (50) years, in the same manner as it would have been adjusted had the member not died, or

(d) if his or her death occurred after completion of at least 10 years of service in the aggregate, computed as provided in Section A8.598-10, an allowance in an amount equal to the retirement allowance to which the member would have been entitled pursuant to Section A8.598-3 if he or she had retired on the date of death because of incapacity for performance of duty shall be paid throughout life or until remarriage to his or her surviving spouse. If there is no surviving spouse entitled to an allowance hereunder, or if he or she dies or remarries before every child of such deceased member attains the age of 18 years, then the allowance which the surviving spouse would have received had he or she lived and not remarried shall be paid to his or her child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving spouse and no children, under the age of 18 years, but leave a child or children, regardless of age, dependent upon him or her for support because partially or totally disabled and unable to earn a livelihood or a parent or parents dependent upon him or her for support, the child or children and the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving spouse otherwise would have received, during such dependency. No allowance, however shall be paid under this section to a surviving spouse unless he or she was married to the member prior to the date of the injury or onset of the illness which results in death if he or she had not retired, or unless he or she was married to the member at least one year prior to his or her retirement if he or she had retired.

As used in this section and Section A8.598-4 “surviving spouse” shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member, but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving spouse, in the event of death of the member after qualification for, but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in Section A8.598-8, in lieu of the allowance which otherwise would be continued to him or her under this section. If there is no surviving spouse, the guardian of the eligible child or children, may make such election, and if there are no such children, the dependent parent or parents may make such election. “Qualified for service retirement,” “qualification for service retirement” or “qualified as to age and service for retirement,” as used in this section and other sections to which persons who are members under Section A8.598 are subject, shall mean completion of 25 years of service and attainment of age 50, said service to be computed under Section A8.598-10.

#### A8.598-6 ADJUSTMENT OF ALLOWANCES

Every retirement or death allowance payable to or on account of any member under Section A8.598 shall be adjusted in accordance with the provisions of Subsection (b) of Section A8.526 of this charter.

**A8.598-7 ADJUSTMENT FOR COMPENSATION PAYMENTS**

That portion of any allowance payable because of the death or retirement of any member of the fire department which is provided by contributions of the City and County, shall be reduced, by the amount of any benefits other than medical benefits, payable by the City and County to or on account of such person, under any workers' compensation law or any other general law and because of the injury or illness resulting in said death or retirement. Such portion which is paid because of death or retirement which resulted from injury received in, or illness caused by performance of duty, shall be considered as in lieu of all benefits, other than medical benefits, payable to or on account of such person under such law and shall be in satisfaction and discharge of the obligation of the City and County to pay such benefits.

**A8.598-8 DEATH BENEFIT**

If a member of the fire department shall die, before retirement from causes other than an injury received in, or illness caused by the performance of duty, or regardless of cause if no allowance shall be payable under Section A8.598-4 or A8.598-5 preceding, a death benefit shall be paid to his or her estate or designated beneficiary, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system. Upon the death of a member after retirement and regardless of the cause of death, a death benefit shall be paid to his or her estate or designated beneficiary the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the board of supervisors for the death benefit of other members of the retirement system.

**A8.598-9 REFUNDS AND REDEPOSITS**

Should any member of the fire department cease to be employed as such a member, through any cause other than death or retirement or transfer to another office or department, all of his or her contributions, with interest credited thereon, shall be refunded to him or her subject to the conditions prescribed by the board of supervisors to govern similar terminations of employment of other members of the retirement system. If he or she shall again become a member of the department, he or she shall redeposit in the retirement fund the amount refunded to him or her. Should a member of the fire department become an employee of any other office or department, his or her accumulated contribution account shall be adjusted by payments to or from him or her as the case may be to make the accumulated contributions credited to him or her at the time of change equal to the amount which would have been credited to him or her if he or she had been employed in said other office or department at the rate of compensation received by him or her in the fire department and he or she shall receive credit for service for which said contributions were made, according to the charter section under which his or her membership in the retirement system continues.

**A8.598-10 COMPUTATION OF SERVICE**

The following time shall be included in the computation of the service to be credited to a member of the fire department for the purposes of determining whether such member qualified for retirement and calculating benefits, excluding, however, any time, the contributions for which were withdrawn by said member upon termination of his or her service while he or she was a member under any other charter section, and not redeposited upon re-entry into service:

(a) Time during and for which said member is entitled to receive compensation because of services as a member of the police or fire department.

(b) Time prior to January 1, 2003, during which said member was entitled to receive compensation while a member of the police or fire department under any other section of the charter, provided that accumulated contributions on account of such service previously refunded are redeposited with interest from the date of refund to the date of redeposit, at times and in the manner fixed by the retirement board; and solely for the purpose of determining qualification for retirement under Section A8.598-3 for disability not resulting from injury received in or illness caused by performance of duty, time during which said member serves and receives compensation because of services rendered in other offices and departments.

(c) Time during which said member earned compensation as a paramedic with the fire department or department of public health, provided that the accumulated contributions on account of such service are transferred to his or her Section A8.598 account or, if previously refunded, are redeposited with interest from the date of refund to the date of redeposit, at times and in the manner fixed by the retirement board. The retirement board shall require that said member execute a waiver so that any paramedic service covered by Section A8.598 is not also covered by other pension provisions in this charter. Members of the fire department on January 1, 2003, who are members of the retirement system under Section A8.598, shall execute and file said waiver on or before June 30, 2003. Persons who become members of the fire department, as defined in Section A8.598-1, after January 1, 2003, shall execute and file said waiver within 90 days after their effective date of membership. Failure to file a timely waiver shall bar any application to have such paramedic service treated as safety service under this subsection.

(d) Time during which said member is absent from a status included in Subsection (a) next preceding, by reason of service in the armed forces of the United States of America, or by reason of any other service included in Sections A8.520 and A8.521 of the charter, during any war in which the United States was or shall be engaged or during other national emergency, and for which said member contributed or contributes to the retirement system or for which the City and County contributed or contributes on his or her account.

#### A8.598-11 SOURCES OF FUNDS

All payments provided for members under Section A8.598 shall be made from funds derived from the following sources, plus interest earned on said funds:

(a) There shall be deducted from each payment of compensation made to a member under Section A8.598 a sum equal to seven percent of such payment of compensation. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, or shall be paid to said member or his or her estate or beneficiary as provided in Section A8.598-8, A8.598-9 and A8.598-10. A member's individual account under Section A8.598 shall include all monies previously credited to the member's account under Section A8.588.

(b) The City and County shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in Subsection (a) of this Section A8.598-11, to provide the benefits payable to members under Section A8.598. Such contributions of the City and County to provide the portion of the benefits hereunder shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to persons who are members under Section A8.598 in accordance with the provisions of Section A8.510.

(c) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the City and County held by the system to provide benefits for members under Section A8.598, shall be a part of the fund in which all other assets of said system are included.

(d) Any year in which, based upon the retirement system's annual actuarial valuation, the employer contribution rate exceeds 0%, the employee organizations representing safety members shall jointly meet and confer with city representatives to implement a cost sharing arrangement between the city and employee organizations. Such arrangement will effect a material reduction of the cost impact of employer contributions on the city's general fund.

The dollar value of the cost sharing arrangement shall not exceed the total annual cost to the retirement system of improving the police and fire safety retirement plans to the 3%@55 benefit level or the total employer contribution required by the retirement system, whichever is lesser. Such cost sharing arrangement shall not require an employee contribution in excess of the limits set elsewhere in this charter.

The meet and confer process, including all impasse procedures under Section A8.590-1 et seq., shall be concluded not later than April 1st except by mutual

agreement of the parties. The cost sharing arrangement must be finalized to permit implementation effective July 1.

The retirement board's authority under charter Section 12.100 and in Section A8.510 concerning the annual setting of the rates of contribution are not subject to the meet and confer process, including all impasse procedures under Section A8.590-1 et seq.

#### A8.598-12 RIGHT TO RETIRE

Upon the completion of the years of service set forth in Section A8.598-2 as requisite to retirement, a member of the fire department shall be entitled to retire at any time thereafter in accordance with the provisions of said Section A8.598-2, and, except as provided in the following paragraph, nothing shall deprive said member of said right.

Any member of the fire department convicted of a crime involving moral turpitude committed in connection with his or her duties as a member of the fire department shall, upon termination of his or her employment pursuant to the provisions of this charter, forfeit all rights to any benefits under the retirement system except refund of his or her accumulated contributions; provided, however, that if such member is qualified for service retirement by reason of service and age under the provisions of Section A8.598-2, he or she shall have the right to elect, without right of revocation and within 90 days of the termination of his or her employment, whether to withdraw all of his or her accumulated contributions or to receive as his or her sole benefit under the retirement system an annuity which shall be the actuarial equivalent of his or her accumulated contributions at the time of such termination of employment.

#### A8.598-13 LIMITATION ON EMPLOYMENT DURING RETIREMENT

(a) Except as provided in Section A8.511 of this charter and in Subsection (b) of this section, no person retired as a member under Section A8.598 for service or disability and entitled to receive a retirement allowance under the retirement system shall be employed in any capacity by the City and County, nor shall such person receive any payment for services rendered to the City and County after retirement.

(b)(1) Service as an election officer or juror, or in the preparation for, or giving testimony as an expert witness for or on behalf of the City and County before any court or legislative body shall be affected by the provisions of Subsection (a) of this section.

(2) The provisions of Subsection (a) shall not prevent such retired person from serving on any board or commission of the City and County and receiving the compensation for such office, provided said compensation does not exceed \$100 per month.

(3) If such retired person is elected or appointed to a position or office which subjects him or her to membership in the retirement system under Section A8.598, he or she shall re-enter membership under Section A8.598 and his or her retirement allowance shall be cancelled immediately upon his or her re-entry. The provisions

of Subsection (a) of this section shall not prevent such person from receiving the compensation for such position or office. The rate of contributions of such member shall be the same as that for other members under Section A8.598. Such member's individual account shall be credited with an amount which is the actuarial equivalent of his or her annuity at the time of his or her re-entry, but the amount thereof shall not exceed the amount of his or her accumulated contributions at the time of his or her retirement. Such member shall also receive credit for his or her service as it was at the time of his or her retirement.

(c) Notwithstanding any provision of this charter to the contrary, should any person retired for disability engage in a gainful occupation prior to attaining the age of 55 years, the retirement board shall reduce that part of his or her monthly retirement allowance which is provided by contributions of the City and County to an amount which, when added to the amount of the compensation earnable, at the time he or she engages in the gainful occupation, by such person if he or she held the position which he or she held at the time of his or her retirement, or, if that position has been abolished, the compensation earnable by the member if he or she held the position from which he or she was retired immediately prior to its abolishment.

#### A8.598-14 CONFLICTING CHARTER PROVISIONS

Any section or part of any section in this charter, insofar as it should conflict with the provisions of Section A8.598 through A8.598-15 or with any part thereof, shall be superseded by the contents of said sections. In the event that any word, phrase, clause or section of said sections shall be adjudged unconstitutional, the remainder thereof shall remain in full force and effect.

#### A8.598-15 VESTING

Notwithstanding any provisions of this charter to the contrary, should any member of the fire department who is a member of the Retirement System under Charter Section A8.598 with five years of credited service, cease to be so employed, through any cause other than death or retirement, he or she shall have the right to elect, without right of revocation and within 90 days after termination of said service, to allow his or her accumulated contributions including interest to remain in the retirement fund and to receive a retirement allowance equal to the percent set forth in Section A8.598-2 opposite his or her age at retirement, for each year of service multiplied against the final compensation of said member, calculated at termination, payable beginning no earlier than age 50. No vesting retirement allowance under this section shall exceed ninety (90%) percent of the member's final compensation. The provisions of Section A8.598-15 shall not apply to any members of the retirement system under Section A8.588 who terminated before January 1, 2003 or their continuants.

#### A8.500-1 RECIPROCAL PENSION BENEFITS WITHIN THE RETIREMENT SYSTEM AND WITH OTHER PUBLIC PENSION PLANS

Subject to the provisions of Section 8.500, the board of supervisors shall have the power to enact ordinances to establish reciprocal agreements with the Public

Employees' Retirement System and other public agencies maintaining independent retirement systems for the purpose of extending reciprocal benefits to members of such systems as provided by state law. The board of supervisors and the retirement board shall have the power to perform all acts necessary to carry out the terms and purposes of such agreements.

Subject to the provisions of Section 8.500, the board of supervisors is further empowered to enact ordinances necessary to extend reciprocal rights to members who transfer between retirement plans established by this Charter provided that service under any plan for miscellaneous members shall be used for qualification purposes only and not to calculate benefits under any retirement plan for members of the police or fire departments. With the exception of those members who transferred pursuant to Charter Sections A8.559-14 and A8.585-14, no ordinance enacted under this section shall extend reciprocal rights to any member who transferred from Charter Section A8.559 or A8.585 to Charter Section A8.509, A8.584, A8.586 or A8.588, before April 1, 1993. No ordinance enacted under this section shall extend reciprocal rights to any person who terminated his or her membership in the retirement system or retired before April 1, 1993. Subject to the above, reciprocal benefits under this paragraph shall be consistent with interpretations that have been made relative to the reciprocal benefit provisions of the Public Employees' Retirement System and 1937 County Employees' Retirement Act which this paragraph is intended to implement. The reciprocal benefits under this section will be limited by Section 415 of the Internal Revenue Code of 1986, as amended from time to time, and no reciprocal benefits will be effective if they have an adverse impact on the tax qualified status of the retirement system under Section 401 of the Internal Revenue Code of 1986, as amended from time to time.

#### A8.500-2 DOMESTIC PARTNER BENEFITS

As used in Charter Sections A8.428, A8.509, A8.559, A8.584, A8.585, A8.586, A8.587, A8.588, A8.595, A8.596, A8.597 and A8.598, "surviving wife" shall also mean and include a "surviving spouse." As used in these sections, the phrases "surviving wife" and "surviving spouse" shall also mean and include a domestic partner, provided that:

- (a) there is no surviving spouse, and
- (b) the member has designated his or her domestic partner as beneficiary with the retirement system, and
- (c) the domestic partnership was established according to those provisions of Chapter 62 of the San Francisco Administrative Code which require the filing of a signed Declaration of Domestic Partnership with the County Clerk. In addition, the Certificate showing that the Declaration of Domestic Partnership was filed with the County Clerk must be filed with the Retirement System at least one full year immediately prior to the effective date of the member's retirement or the member's death if the member should die before retirement; provided, however, that beginning March 5, 2002, the requirement of filing a Certificate of Domestic

Partnership with the Retirement System shall not apply to members who were retired on or before November 8, 1995 and who had filed a signed Declaration of Domestic Partnership with the County Clerk at least one full year prior to the effective date of his or her retirement; and provided further that, as to any such member who was retired on or before November 8, 1995, no adjustment to a retirement allowance and no payments to a qualified surviving domestic partner shall begin before the effective date of this amendment or before the first day of the month in which an application is made to the Retirement System, whichever occurs later.

A monthly allowance equal to what would otherwise be payable to a surviving spouse shall be paid to the said surviving domestic partner, until he or she dies, marries or establishes a new domestic partnership. The domestic partner benefits under this section will be limited by Section 415 of the Internal Revenue Code of 1986, as amended from time to time. No domestic partner benefits will be effective if they have an adverse impact on the tax qualified status of the retirement system under Section 401 of the Internal Revenue Code of 1986, as amended from time to time.

Charter Chapter 72—City and County of San Francisco

***Amendments to the Charter of the City and  
County of San Francisco***

[Filed with the Secretary of State December 27, 2002.]

**A8.365 COMPENSATION DURING PARENTAL LEAVE**

Under federal, state and local law, employees are entitled to take an unpaid leave of absence in the event of pregnancy disability or to care for a child after birth or placement for adoption or foster care. But employees may not have the financial resources to take advantage of this leave. This section provides compensation to supplement state disability insurance payments, paid sick leave, compensatory time, and other forms of paid leave, to ensure that an employee will receive the equivalent of the employee's salary for 12 weeks or, if the employee is temporarily disabled by pregnancy, up to 16 weeks, while on approved leave.

In accordance with this section, eligible employees on approved Parental Leave shall receive supplemental compensation as set forth herein.

Nothing in this section shall be construed to expand, reduce or otherwise affect the total amount of leave time available to employees under federal, state, or local law, Civil Service Commission rules, or applicable memoranda of understanding

between the City and County of San Francisco and employee organizations. This section is intended to supplement other available sources of income during specified periods of leave to which the employee is otherwise eligible. Except for leave mandated by law, requests for leave continue to be subject to the approval of the appointing officer.

#### A8.365-1 Definitions

The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

“Domestic Partner” shall have the same meaning as set forth in Administrative Code Section 62.1 et seq.

“Employee” shall mean any person who is appointed to a position created by or which is under the jurisdiction of the City and County, whose compensation is paid by the City and County, and who is under the control of the City and County as to employment, direction and discharge and does not include persons who occupy classified or certificated positions with the San Francisco Unified School District or the Community College District or who work for the City as independent contractors.

“Paid Leave” shall mean all paid time-off provided by the Charter, the Administrative Code, the Civil Service Rules or through a collective bargaining agreement and shall include but not be limited to vacation, sick leave, compensatory time, administrative or executive leave and floating holidays. For purposes of this section, “Paid Leave” shall not include statutory holidays.

“Parental Leave” shall mean (a) Family Medical Leave as defined below; (b) Temporary Pregnancy Disability Leave as defined below:

(a) “Family Medical Leave” shall mean leave taken pursuant to the Family and Medical Leave Act, the California Family Rights Act, or Civil Service Commission Rules, where such leave is taken after the birth of a child to the employee, the employee’s spouse or the employee’s domestic partner or for placement of a child with the employee’s family for adoption or foster care, and has been requested and approved in accordance with the procedures set forth in those respective statutes or rules.

(b) “Temporary Pregnancy Disability Leave” shall mean disability leave taken in accordance with State law or the Civil Service Commission Rules because of an employee’s inability to work, as certified by a health care provider, for reasons of pregnancy, childbirth, or related conditions, as defined by the California Fair Employment and Housing Act, Govt. Code Section 12945(b)(2) et seq.

“Supplemental Compensation” shall mean compensation paid by the City to eligible employees on Parental Leave. The amount of Supplemental Compensation shall be the employee’s regular base wage less (1) accrued paid leave from the City and (2) any payments received by the employee from a federal, state or other local government agency in lieu of compensation.

#### A8.365-2 Eligibility

The following employees shall be eligible to receive compensation as set forth herein:

(a) Permanent, provisional, and exempt employees whose normal work week is not less than twenty (20) hours upon completion of six months of continuous service; and

(b) All other employees of the City and County of San Francisco, including “as needed” employees, who have worked one thousand and forty hours (1040) in the twelve (12) months prior to the beginning of the parental leave and whose average work week is not less than twenty hours.

#### A8.365-3 Duration

Employees shall receive supplemental compensation as set forth herein for a period not to exceed twelve weeks while on approved Family Medical Leave. Employees who take approved Temporary Pregnancy Disability Leave shall receive up to an additional four weeks of compensation. Such compensation shall be subject to the conditions set forth in Section A8.365-4.

#### A8.365-4 Supplemental Compensation

(a) Employees shall receive their regular base wage while on approved Parental Leave subject to the following conditions:

(1) Employees on approved Parental Leave shall first exhaust all accrued paid leave before receiving any Supplemental Compensation under this section. If an employee chooses not to exhaust these leaves, the total amount of the benefit for which the employee would otherwise have been eligible will be reduced by the amount of paid leave accrued by the employee as of the start of the leave.

(2) The amount of Supplemental Compensation shall be reduced by any payments received by the employee from a federal, state or other local government agency while on Parental Leave.

(3) Supplemental Compensation shall be provided for no more than twelve weeks, in the case of employees taking Family Medical Leave, or sixteen weeks, in the case of employees who take Temporary Pregnancy Disability Leave. For employees eligible for both Family Medical Leave and Temporary Pregnancy Disability Leave, Supplemental Compensation shall be provided for no more than sixteen weeks total. The twelve or sixteen week period shall be reduced by any paid leave taken after the birth of a child to the employee, the employee’s spouse, or the employee’s domestic partner, placement of a child with the employee’s family for adoption or foster care, or taken for temporary pregnancy disability, within twelve months prior to the commencement of Parental Leave as defined herein.

(4) Under no circumstance shall an employee receive from the City supplemental compensation under this Charter section which would result in an employee receiving total compensation while on Parental Leave which is greater than the employee’s regular base wage.

(b) During parental leave, the City shall continue to pay the contributions required by this Charter for retirement and health benefits, and any employer-paid employee retirement and health contributions required under the memorandum of understanding or unrepresented ordinance covering the employee. Retirement contributions shall be based on the actual amount of City pay received during the period of parental leave.

**A8.365-5 Reimbursement**

Any individual receiving compensation pursuant to this section shall execute an agreement providing that if the individual voluntarily separates from City service prior to returning to work for at least six months, the compensation described in Section A8.365-4 shall be treated as a loan payable with interest at a rate equal to the greater of (i) the rate received for the concurrent period by the Treasurer's Pooled Cash Account or (ii) the minimum amount necessary to avoid imputed income under the Internal Revenue Code of 1986, as amended from time to time, and any successor statute. Unless an alternative repayment schedule is agreed to by the City and the individual, such loan shall be payable in equal monthly installments over a period not to exceed 5 years, commencing 30 days following the individual's separation from City employment.

**A8.365-6 Non-Vested Benefit**

This Charter section creates no vested benefits. The voters expressly reserve the right to review the City's parental leave policy and the benefits provided in this section and may alter or repeal such benefits for any or no reason.

**A8.365-7 Rules for Administration, Interpretation and Regulation of Parental Leave**

Within 120 days of approval by the voters of this Amendment, the Department of Human Resources shall develop any procedures necessary to administer, interpret, and regulate the provisions of this section, provided that all such rules shall be approved, amended, or rejected by ordinance by the Board of Supervisors.

The amendments of this section contained in the proposition therefor submitted to the electorate on November 5, 2002 shall be effective July 1, 2003.

**SECTION 2.100. COMPOSITION AND SALARY.**

The Board of Supervisors shall consist of eleven members elected by district.

The office of Board of Supervisors member is a full time position. The Civil Service Commission shall set the Supervisors' salary once every five years. Before the Commission determines the Supervisors' salary, it shall conduct and consider a salary survey of other full time California City Councils and County Boards of Supervisors and it may consider the Consumer Price Index (CPI).

The Civil Service Commission shall timely transmit its determination of the Supervisors' salary to the Controller, so that funds can be set aside for that purpose. The Controller shall include the Civil Service Commission's determination in appropriate budget documents to insure implementation. This determination may not be changed except by the Civil Service Commission.

The Civil Service Commission shall establish dates for an appropriate five-year cycle for making the determinations required by this Section, in order to efficiently coordinate with City budget processes and related procedures. In order to institute this five-year cycle the initial determination may be for less than a five-year period, as determined by the Civil Service Commission.

If the City and employee organizations agree to amend the compensation provisions of existing memoranda of understanding to reduce costs, the Civil Service Commission shall review and amend the Supervisors' salary as necessary to achieve comparable cost savings in the affected fiscal year or years.

**STATUTORY PROVISIONS**

An act to amend Sections 12800 and 12803 of, to add Section 12813 to, and to add Part 8.5 (commencing with Section 15550) to Division 3 of Title 2 of, the Government Code, to amend Sections 50 and 1141 of, and to add Sections 18.5 and 19.5 to, the Labor Code, and to amend Section 301 of the Unemployment Insurance Code, relating to governmental reorganization.

LEGISLATIVE COUNSEL'S DIGEST

Governor's Reorganization Plan No. 1 State government reorganization: labor and workforce development.

Existing law establishes in state government the Department of Industrial Relations and the Agricultural Labor Relations Board. Existing law establishes the Employment Development Department in the California Health and Human Services Agency. An executive order of the Governor establishes the California Workforce Investment Board. Existing law does not provide for the establishment of a Labor and Workforce Development Agency in state government.

This bill would create a Labor and Workforce Development Agency in state government consisting of the Department of Industrial Relations, the Employment Development Department, the Agricultural Labor Relations Board, and the California Workforce Investment Board. The agency would be under the supervision of the Secretary of

Labor and Workforce Development who would be appointed by the Governor, subject to confirmation by the Senate.

The bill would make conforming and related changes.

1 SECTION 1. It is in the public interest to create a Labor and  
2 Workforce Development Agency, and to appoint a secretary and  
3 other officers of this agency, because the creation of this agency,  
4 appointment of these officers, and the corresponding  
5 reorganization of other agencies, will do all of the following:

6 (a) Simplify, strengthen, and improve the operation and  
7 management of programs that protect and provide services to  
8 California's workers and employers.

9 (b) Eliminate duplication, achieve cost efficiencies, and  
10 promote accountability and program access.

11 (c) Allow the state to marshal its resources to systematically  
12 match worker training programs with regional labor market needs  
13 to create skilled, middle-class jobs that offer a secure future to  
14 Californians.

15 (d) Create a primary point of accountability for the  
16 administration and the Legislature to measure the success and the  
17 needs of the workforce investment system.

18 (e) Ensure that there is a cabinet-level voice for  
19 workforce-related issues raised for the Governor's consideration  
20 and decision.

21 (f) More closely coordinate enforcement activities so the  
22 Employment Development Department can capture lost revenue  
23 from the underground economy while the Department of  
24 Industrial Relations protects workers exploited in the underground  
25 economy.

26 (g) Coordinate and manage information and data on the  
27 workforce and economy with a partnership between the  
28 Department of Industrial Relations Division of Labor Statistics  
29 and Research and the Employment Development Department  
30 Labor Market Information Division.

31 (h) Build on the successful One-Stop Taxpayer Service Centers  
32 operated by the Employment Development Department, the  
33 Franchise Tax Board, and the Board of Equalization by adding  
34 services for employers and workers, including information on

1 workers' compensation, labor standards, safe working conditions,  
2 and job training opportunities.

3 (i) Consolidate service points throughout California for the  
4 Employment Development Department, Department of Industrial  
5 Relations, and the Agricultural Labor Relations Board.

6 (j) Coordinate the apprenticeship programs in the Department  
7 of Industrial Relations with the employment and training  
8 programs at the Employment Development Department to meet  
9 the growing need and demand for skilled trade and craft workers.

10 (k) Strengthen protection for sick or injured California workers  
11 by closer cooperation between the disability insurance program at  
12 Employment Development Department and the workers'  
13 compensation program at Department of Industrial Relations.

14 SEC. 2. (a) It is the intent of this act that the reorganization  
15 plan provided for herein does not transfer any functions to or from  
16 the Agricultural Labor Relations Board, the California Workforce  
17 Investment Board, California Apprenticeship Council, California  
18 Occupational Safety and Health Appeals Board, Occupational  
19 Safety and Health Standards Board, Commission on Health and  
20 Safety and Workers' Compensation, Industrial Medical Council,  
21 Industrial Welfare Commission, Workers' Compensation Appeals  
22 Board, State Compensation Insurance Fund, Employment  
23 Development Department, California Unemployment Insurance  
24 Appeals Board, and Employment Training Panel.

25 (b) It is the intent of this act that, in order to effectuate the  
26 reorganization plan provided for herein, and pursuant to  
27 subdivisions (c), (d), and (e) of Section 12080.3 of the  
28 Government Code, all of the following related to any  
29 governmental entity that become a part of the Labor and

35 (3) Unexpended balances of appropriations and of other funds  
36 available for use.
